

SOMEWHERE IN THE SKIES

GUEST: LT. CMDR. ALEX DIETRICH

1
00:00:04,309 --> 00:00:02,389
is something that we reported uh real

2
00:00:05,930 --> 00:00:04,319
time on the radio for sure I mean we

3
00:00:07,309 --> 00:00:05,940
were all that's actually how I got a

4
00:00:09,589 --> 00:00:07,319
visual on the Tic Tac is because

5
00:00:11,629 --> 00:00:09,599
somebody said hey look in the water and

6
00:00:14,330 --> 00:00:11,639
we saw this turning water

7
00:00:16,070 --> 00:00:14,340
um I thought in the first moment that

8
00:00:18,529 --> 00:00:16,080
whenever we had been vectored to

9
00:00:20,929 --> 00:00:18,539
intercept had crashed uh in my heart

10
00:00:23,750 --> 00:00:20,939
sank because I thought

11
00:00:26,810 --> 00:00:23,760
you know we went from go get them to oh

12
00:00:29,570 --> 00:00:26,820
now we're unseen commanders for a search

13
00:00:32,810 --> 00:00:29,580

and rescue effort and then the Tic Tac

14

00:00:34,190 --> 00:00:32,820

zoomed across and so I don't know that I

15

00:00:36,049 --> 00:00:34,200

would have picked up because it was

16

00:00:37,010 --> 00:00:36,059

moving so quickly and so erratically I

17

00:00:39,709 --> 00:00:37,020

don't know that I would have picked up

18

00:00:43,190 --> 00:00:39,719

my visual tally on the Tic Tac if it

19

00:00:44,090 --> 00:00:43,200

hadn't crossed over that roiling water

20

00:00:46,970 --> 00:00:44,100

um

21

00:00:48,709 --> 00:00:46,980

yeah so and then we went to look for

22

00:00:51,709 --> 00:00:48,719

that again because that was sort of our

23

00:00:53,510 --> 00:00:51,719

Anchor Point uh of where we had first

24

00:00:55,610 --> 00:00:53,520

encountered it you know when we lost

25

00:00:56,389 --> 00:00:55,620

visual we said okay look back in the

26

00:00:58,670 --> 00:00:56,399

water
