

SOMEWHERE IN THE SKIES

GUEST: LT. CMDR. ALEX DIETRICH

1
00:00:07,610 --> 00:00:03,530
it doesn't matter uh you know it's 20 23

2
00:00:10,129 --> 00:00:07,620
now what matters is whether

3
00:00:12,350 --> 00:00:10,139
you know somebody sees something weird

4
00:00:15,709 --> 00:00:12,360
do they know how to report it can we

5
00:00:18,410 --> 00:00:15,719
respond can we react uh with the

6
00:00:21,650 --> 00:00:18,420
appropriate level of

7
00:00:23,090 --> 00:00:21,660
whether it's sensors or kinetic response

8
00:00:24,769 --> 00:00:23,100
right we've shut down a few things

9
00:00:26,810 --> 00:00:24,779
recently that

10
00:00:30,290 --> 00:00:26,820
you know I have full Full Faith and

11
00:00:32,330 --> 00:00:30,300
confidence that uh those Crews that were

12
00:00:34,970 --> 00:00:32,340
deployed you know that they weren't

13
00:00:38,510 --> 00:00:34,980

shooting at random targets that there

14

00:00:40,190 --> 00:00:38,520

was a positive identification made and

15

00:00:43,190 --> 00:00:40,200

that they

16

00:00:44,750 --> 00:00:43,200

took the appropriate action so my

17

00:00:47,990 --> 00:00:44,760

concern is that

18

00:00:50,209 --> 00:00:48,000

whether it's air crew or operators on

19

00:00:52,490 --> 00:00:50,219

the ground or civilians

20

00:00:54,529 --> 00:00:52,500

um that if you see something you're able

21

00:00:58,010 --> 00:00:54,539

to say something and that we have a
