for tonight we have got Daniel

58
00:04:42,890 --> 00:04:40,979
zetterstrom welcome to somewhere in the

59
00:04:45,350 --> 00:04:42,900
live stream brother thank you so much

60
00:04:46,730 --> 00:04:45,360
for having me man it's an absolute

61
00:04:48,710 --> 00:04:46,740
pleasure to be here I'm such a fan of

62
00:04:50,330 --> 00:04:48,720
all your work and everything that you do

63
00:04:53,629 --> 00:04:50,340

on the channel and everything you write

64

00:04:55,730 --> 00:04:53,639

it just exudes compassion and humanity

65

00:04:57,590 --> 00:04:55,740

and I think that's kind of something

66

00:04:59,330 --> 00:04:57,600

that we're gonna need going into this

67

00:05:02,390 --> 00:04:59,340

subject as it's revealed to us going

68

00:05:04,610 --> 00:05:02,400

forward so thank you absolutely well the

69

00:05:06,170 --> 00:05:04,620

pleasure is all mine as always brother

70

00:05:08,930 --> 00:05:06,180

there's a reason you and I are friends

71

00:05:10,249 --> 00:05:08,940

and um that is one of the reasons I'm

72

00:05:12,710 --> 00:05:10,259

having you on tonight because you are

73

00:05:15,850 --> 00:05:12,720

just a wealth of compassionate

74

00:05:17,629 --> 00:05:15,860

information and insights with this topic

75

00:05:19,670 --> 00:05:17,639

so yeah

76

00:05:22,070 --> 00:05:19,680

um before we get to our first news story

77

00:05:25,249 --> 00:05:22,080

Dan I don't know if you saw but um last

78

00:05:28,490 --> 00:05:25,259

week I ran a contest at somewhere in the

79

00:05:32,390 --> 00:05:28,500

skies uh aliacon in Pasadena California

80

00:05:34,790 --> 00:05:32,400

we're so gracious to give me two passes

81

00:05:37,310 --> 00:05:34,800

to their big alien event

82

00:05:39,350 --> 00:05:37,320

um yeah yeah so for those of you who

83

00:05:41,090 --> 00:05:39,360

don't know I've worked with aliencon in

84

00:05:44,270 --> 00:05:41,100

the past I've spoken at their events

85

00:05:46,129 --> 00:05:44,280

I've uh hosted panels and it's just a

86

00:05:49,370 --> 00:05:46,139

fun time no matter what you think of

87

00:05:50,749 --> 00:05:49,380

ancient aliens or Skinwalker Ranch or

88

00:05:53,210 --> 00:05:50,759

any of that stuff

89

00:05:55,129 --> 00:05:53,220

um it's just like a big comic book goofy

90

00:05:57,350 --> 00:05:55,139

comic book convention where do you do

91

00:06:00,409 --> 00:05:57,360

get some UFO insights some actual stuff

92

00:06:03,710 --> 00:06:00,419

as well but we um our winner actually

93

00:06:05,749 --> 00:06:03,720

sent me a a short video of uh their time

94

00:06:07,490 --> 00:06:05,759

there at alien con so bear with me Dan

95

00:06:10,129 --> 00:06:07,500

I'm gonna play this really quick clip

96

00:06:12,350 --> 00:06:10,139

from our winner of the contest uh her

97

00:06:14,870 --> 00:06:12,360

name is Karina yobel she is from

98

00:06:16,730 --> 00:06:14,880

California and uh she made it to the

99

00:07:08,290 --> 00:06:16,740

event this weekend so I'm gonna play

100

00:07:12,290 --> 00:07:10,490

there it is I didn't know the video was

101
00:07:15,110 --> 00:07:12,300
gonna be so narrow and we'd still be in

102
00:07:16,850 --> 00:07:15,120
it that was really cool and and just to

103
00:07:19,010 --> 00:07:16,860
kind of throw a little woo in here uh

104
00:07:21,469 --> 00:07:19,020
the number 33 comes up for me all the

105
00:07:24,529 --> 00:07:21,479
goddamn time and there it was right in

106
00:07:27,050 --> 00:07:24,539
that video of course man of course it

107
00:07:29,390 --> 00:07:27,060
was meant to be it was meant to be well

108
00:07:31,969 --> 00:07:29,400
I'm I'm glad she had a great time again

109
00:07:34,070 --> 00:07:31,979
thank you to aliencon for giving us

110
00:07:35,870 --> 00:07:34,080
those tickets to give away and it looked

111
00:07:37,370 --> 00:07:35,880
like Karina had a wonderful time so

112
00:07:40,070 --> 00:07:37,380
that's awesome hopefully they'll bring

113
00:07:42,170 --> 00:07:40,080

one of these to the UK soon we'll we'll

114

00:07:43,969 --> 00:07:42,180

uh fingers crossed brother fingers

115

00:07:46,249 --> 00:07:43,979

crossed

116

00:07:48,290 --> 00:07:46,259

um everyone's so happy in the chat here

117

00:07:50,330 --> 00:07:48,300

to see you here buddy so this is going

118

00:07:54,350 --> 00:07:50,340

to be super fun fine oh it's humbling

119

00:07:55,670 --> 00:07:54,360

let's do it let's get to the UFO news of

120

00:07:59,350 --> 00:07:55,680

the week

121

00:08:02,689 --> 00:07:59,360

um our first story first known Canadian

122

00:08:05,570 --> 00:08:02,699

uh study is now underway this comes from

123

00:08:08,629 --> 00:08:05,580

CTV News and bear with me just a sec Dan

124

00:08:09,890 --> 00:08:08,639

I'm gonna pull up this uh slideshow that

125

00:08:12,409 --> 00:08:09,900

I made for tonight

126

00:08:14,150 --> 00:08:12,419

um so why don't you tell us your

127

00:08:16,689 --> 00:08:14,160

thoughts first and foremost on this

128

00:08:19,369 --> 00:08:16,699

Canadian government UAP report that's

129

00:08:20,809 --> 00:08:19,379

proposed to be coming out while I uh get

130

00:08:23,330 --> 00:08:20,819

our slideshow going if you don't mind

131

00:08:25,969 --> 00:08:23,340

sure my I mean my initial reaction was

132

00:08:27,469 --> 00:08:25,979

Envy uh every country wants this to

133

00:08:29,330 --> 00:08:27,479

happen essentially what we're looking at

134

00:08:31,249 --> 00:08:29,340

is the office of the chief science

135

00:08:32,990 --> 00:08:31,259

advise of Canada

136

00:08:35,570 --> 00:08:33,000

um it's removed from the government but

137

00:08:38,089 --> 00:08:35,580

still kind of advises so Justin Trudeau

138

00:08:40,130 --> 00:08:38,099

we'll look to them for expertise and

139

00:08:42,949 --> 00:08:40,140

guidance and things like that this study

140

00:08:44,269 --> 00:08:42,959

is essentially looking at who gathers

141

00:08:46,250 --> 00:08:44,279

the reports

142

00:08:48,410 --> 00:08:46,260

um what's done with them what they can

143

00:08:50,690 --> 00:08:48,420

ascertain from the reports and and

144

00:08:53,329 --> 00:08:50,700

ultimately it comes down to not not

145

00:08:54,769 --> 00:08:53,339

being a place where you report your UFOs

146

00:08:57,350 --> 00:08:54,779

items but somewhere that's kind of

147

00:08:59,269 --> 00:08:57,360

saying hey something's going on we need

148

00:09:01,250 --> 00:08:59,279

to kind of get all this information from

149

00:09:02,810 --> 00:09:01,260

all these different areas and pull it

150

00:09:04,970 --> 00:09:02,820

together so that we can actually start

151

00:09:06,769 --> 00:09:04,980

recognizing patterns there was a little

152

00:09:08,090 --> 00:09:06,779

bit about working with the USA in there

153

00:09:09,769 --> 00:09:08,100

as well

154

00:09:11,269 --> 00:09:09,779

um which makes me wonder you know since

155

00:09:13,790 --> 00:09:11,279

since we're looking essentially a five

156

00:09:15,110 --> 00:09:13,800

eyes here whether the UK is going to be

157

00:09:16,610 --> 00:09:15,120

a part of this kind of information

158

00:09:19,130 --> 00:09:16,620

sharing

159

00:09:22,370 --> 00:09:19,140

um so yeah my first reaction was that uh

160

00:09:24,110 --> 00:09:22,380

lovely human kind of flaw of Envy

161

00:09:27,590 --> 00:09:24,120

because I want this to happen in the UK

162

00:09:29,389 --> 00:09:27,600

this is exactly what we need right well

163

00:09:31,670 --> 00:09:29,399

and you know they did mention to you we

164

00:09:34,070 --> 00:09:31,680

should we should say sky Canada project

165

00:09:36,470 --> 00:09:34,080

this is what this is going to be called

166

00:09:38,030 --> 00:09:36,480

um they were primarily influenced by the

167

00:09:40,490 --> 00:09:38,040

United States and everything that they

168

00:09:41,870 --> 00:09:40,500

were doing over there so of course like

169

00:09:44,090 --> 00:09:41,880

we can only hope that that keeps

170

00:09:46,130 --> 00:09:44,100

bleeding over to other governments and

171

00:09:48,170 --> 00:09:46,140

countries because I mean if the United

172

00:09:51,050 --> 00:09:48,180

States is of any example there are

173

00:09:53,690 --> 00:09:51,060

things in our guys that we are just now

174

00:09:55,970 --> 00:09:53,700

learning about uh in the public at least

175

00:09:58,130 --> 00:09:55,980

we don't know how long our intelligence

176

00:10:00,650 --> 00:09:58,140

apparatus or military have really known

177

00:10:02,810 --> 00:10:00,660

that's um that's yet to be really seen

178

00:10:05,570 --> 00:10:02,820

but yeah man um I I think what we're

179

00:10:08,210 --> 00:10:05,580

seeing now is just a uh the dam is

180

00:10:10,910 --> 00:10:08,220

breaking and it has ever since you know

181

00:10:14,090 --> 00:10:10,920

kind of the establishment of

182

00:10:18,170 --> 00:10:14,100

Arrow or or even before that uh what was

183

00:10:20,150 --> 00:10:18,180

it aim's song we had uapcf that became

184

00:10:22,750 --> 00:10:20,160

aim Sugg that became Arrow it's like

185

00:10:25,790 --> 00:10:22,760

evolving like Pokemon right

186

00:10:27,949 --> 00:10:25,800

I know I'm waiting for the fully evolved

187

00:10:30,590 --> 00:10:27,959

Squirtle over here

188

00:10:32,449 --> 00:10:30,600

man uh well yeah yeah what else do we

189

00:10:34,850 --> 00:10:32,459

have here um the project plans to

190

00:10:37,550 --> 00:10:34,860

collect information this winter and

191

00:10:40,610 --> 00:10:37,560

spring before preparing in the internal

192

00:10:43,310 --> 00:10:40,620

draft for the fall uh so yeah it looks

193

00:10:44,630 --> 00:10:43,320

like if the Canadian public gets

194

00:10:47,269 --> 00:10:44,640

anything it's not going to be to the

195

00:10:50,449 --> 00:10:47,279

spring of 2024 which is a bummer but if

196

00:10:53,930 --> 00:10:50,459

we know anything about waiting on these

197

00:10:56,870 --> 00:10:53,940

reports it uh you know be patient and

198

00:10:59,030 --> 00:10:56,880

and it'll drop when you least expect it

199

00:11:01,190 --> 00:10:59,040

apparently that's how this stuff goes

200

00:11:02,810 --> 00:11:01,200

I'm real curious to see what that public

201
00:11:04,610 --> 00:11:02,820
report is going to look like you know I

202
00:11:06,650 --> 00:11:04,620
prefer slow and steady you know can

203
00:11:09,110 --> 00:11:06,660
consider it what we need is a bunch of

204
00:11:10,730 --> 00:11:09,120
discrete data piles that you know aren't

205
00:11:13,670 --> 00:11:10,740
necessarily fed by all the same

206
00:11:15,949 --> 00:11:13,680
organizations and then those discrete

207
00:11:17,930 --> 00:11:15,959
data files might show similar patterns

208
00:11:19,370 --> 00:11:17,940
that we can kind of go okay so you're

209
00:11:21,350 --> 00:11:19,380
seeing the same thing as we're seeing

210
00:11:23,750 --> 00:11:21,360
and start establishing that you know

211
00:11:25,790 --> 00:11:23,760
it's not top secret U.S technology and

212
00:11:28,430 --> 00:11:25,800
things like that but

213
00:11:32,030 --> 00:11:28,440

things like that will play into it part

214

00:11:33,530 --> 00:11:32,040

of this is going to be prosaic and when

215

00:11:35,210 --> 00:11:33,540

I say prosaic I don't mean there is not

216

00:11:36,410 --> 00:11:35,220

Wanderers because there's a whole load

217

00:11:37,730 --> 00:11:36,420

of things that science doesn't know

218

00:11:40,310 --> 00:11:37,740

about that they're going to learn along

219

00:11:42,230 --> 00:11:40,320

the way so that's what I love about this

220

00:11:44,690 --> 00:11:42,240

UFO subject you kind of almost have to

221

00:11:48,350 --> 00:11:44,700

become you know this kind of

222

00:11:50,030 --> 00:11:48,360

what's the word uh poly kind of uh

223

00:11:51,290 --> 00:11:50,040

expertise in a lot of different areas

224

00:11:53,930 --> 00:11:51,300

right right

225

00:11:55,670 --> 00:11:53,940

um and this is no different you know we

226

00:11:58,009 --> 00:11:55,680

get a proper study happening scientists

227

00:12:00,470 --> 00:11:58,019

is going to discover new things to

228

00:12:02,569 --> 00:12:00,480

uncover to study and they might lead

229

00:12:05,329 --> 00:12:02,579

science in directions that we just don't

230

00:12:07,069 --> 00:12:05,339

even fathom exist today this is what

231

00:12:08,870 --> 00:12:07,079

science does you know as I said on on

232

00:12:10,250 --> 00:12:08,880

that UFO podcast the other day advances

233

00:12:11,990 --> 00:12:10,260

through Kicking and Screaming but the

234

00:12:14,329 --> 00:12:12,000

second that something new is established

235

00:12:16,910 --> 00:12:14,339

someone just runs with it gravitational

236

00:12:18,470 --> 00:12:16,920

waves is such a good example of this 10

237

00:12:21,050 --> 00:12:18,480

o'clock back 15 years and we didn't

238

00:12:23,509 --> 00:12:21,060

think they existed now we're building

239

00:12:26,990 --> 00:12:23,519

you know we we have ligo that's kind of

240

00:12:29,210 --> 00:12:27,000

a huge laser uh essentially a laser that

241

00:12:31,370 --> 00:12:29,220

kind of when when a gravitational wave

242

00:12:33,470 --> 00:12:31,380

hits it it bends a little bit

243

00:12:35,090 --> 00:12:33,480

um and it's really interesting and the

244

00:12:36,710 --> 00:12:35,100

next version of that is called Lisa

245

00:12:38,269 --> 00:12:36,720

which is going to be a constellation of

246

00:12:40,490 --> 00:12:38,279

satellite so we're essentially going to

247

00:12:43,009 --> 00:12:40,500

have an earth-sized gravitational weight

248

00:12:45,590 --> 00:12:43,019

detector the world detect a different

249

00:12:46,850 --> 00:12:45,600

range of gravitational waves uh so so

250

00:12:48,710 --> 00:12:46,860

it's going to be really interesting you

251
00:12:51,230 --> 00:12:48,720
know there's every chance that once we

252
00:12:54,350 --> 00:12:51,240
get these gravitational wave sensors up

253
00:12:57,470 --> 00:12:54,360
and running they might detect some kind

254
00:12:59,870 --> 00:12:57,480
of perturbation from the craft that that

255
00:13:01,910 --> 00:12:59,880
we think we see in our atmosphere if

256
00:13:04,730 --> 00:13:01,920
they use in a gravitationally based

257
00:13:06,050 --> 00:13:04,740
technology then that's exactly what uh

258
00:13:08,030 --> 00:13:06,060
it should be happening you know that

259
00:13:11,569 --> 00:13:08,040
laser should be changed because it'll be

260
00:13:14,509 --> 00:13:11,579
kind of Rippling in a pawn you know

261
00:13:17,030 --> 00:13:14,519
right and and oh that's so fascinating

262
00:13:19,430 --> 00:13:17,040
and what excites me most about this

263
00:13:22,610 --> 00:13:19,440

story too Dan is the fact that it's the

264

00:13:25,370 --> 00:13:22,620

chief science advisor that headed this

265

00:13:27,410 --> 00:13:25,380

thing up it's not the Air Force I mean

266

00:13:30,110 --> 00:13:27,420

obviously the Canadian Air Force will be

267

00:13:32,750 --> 00:13:30,120

involved RCMP is going to be involved a

268

00:13:35,290 --> 00:13:32,760

lot of other organizations as well but

269

00:13:37,670 --> 00:13:35,300

science advisor that kind of

270

00:13:39,170 --> 00:13:37,680

springboarded this whole thing so that

271

00:13:41,509 --> 00:13:39,180

gives me hope like you just said it's

272

00:13:44,090 --> 00:13:41,519

not just about finding National Security

273

00:13:45,530 --> 00:13:44,100

threats in Canada it's about trying to

274

00:13:48,290 --> 00:13:45,540

understand

275

00:13:51,949 --> 00:13:48,300

the possible technology behind some of

276

00:13:55,790 --> 00:13:51,959

these these UAP or like you said to find

277

00:13:59,150 --> 00:13:55,800

uh whether it's actual like new weather

278

00:14:01,670 --> 00:13:59,160

anomalies or or or some some sort of

279

00:14:04,009 --> 00:14:01,680

science that we have yet to um even

280

00:14:05,629 --> 00:14:04,019

begin to fact well lightning is a real

281

00:14:07,670 --> 00:14:05,639

good example as well of this you know

282

00:14:09,470 --> 00:14:07,680

right it comes up a lot in UFO science

283

00:14:10,790 --> 00:14:09,480

people go oh it's just bull lightning we

284

00:14:12,350 --> 00:14:10,800

don't know what bow lightning is we

285

00:14:14,810 --> 00:14:12,360

don't know the process that creates it

286

00:14:16,850 --> 00:14:14,820

we think we might but we've never kind

287

00:14:19,190 --> 00:14:16,860

of really nailed it down and a lot of

288

00:14:21,290 --> 00:14:19,200

different phenomena seem to to play into

289

00:14:22,850 --> 00:14:21,300

that kind of same area

290

00:14:25,190 --> 00:14:22,860

um it's plasma physics it's really

291

00:14:27,470 --> 00:14:25,200

interesting and from that we could get a

292

00:14:29,509 --> 00:14:27,480

whole new energy sources even if it

293

00:14:31,790 --> 00:14:29,519

turns out not to be intelligent we could

294

00:14:33,350 --> 00:14:31,800

build spaceships that can approach kind

295

00:14:36,889 --> 00:14:33,360

of you know percentages of the speed of

296

00:14:38,870 --> 00:14:36,899

light from that technology so this is a

297

00:14:40,850 --> 00:14:38,880

very very very welcome study and I can't

298

00:14:43,129 --> 00:14:40,860

wait to see what they uncover yeah

299

00:14:45,650 --> 00:14:43,139

absolutely man well hey you're talking

300

00:14:49,090 --> 00:14:45,660

about propulsion systems and physics

301
00:14:52,910 --> 00:14:49,100
that could not bleed into our next story

302
00:14:55,009 --> 00:14:52,920
anymore so let's move over to our next

303
00:14:58,970 --> 00:14:55,019
big one this kind of hit a couple days

304
00:15:02,030 --> 00:14:58,980
ago we've got Avi Loeb from the Galileo

305
00:15:04,610 --> 00:15:02,040
project and Sean Kirkpatrick from Arrow

306
00:15:06,910 --> 00:15:04,620
working together these guys came out

307
00:15:09,650 --> 00:15:06,920
with a paper through Harvard University

308
00:15:12,889 --> 00:15:09,660
uh just a few days ago I believe it was

309
00:15:16,610 --> 00:15:12,899
titled physical constraints constraints

310
00:15:19,009 --> 00:15:16,620
on unidentified aerial phenomena

311
00:15:21,410 --> 00:15:19,019
um and like I said Avi lobe is the head

312
00:15:24,230 --> 00:15:21,420
of the Galileo project Sean Kirkpatrick

313
00:15:27,050 --> 00:15:24,240

is the director of Arrow so this is a

314

00:15:29,870 --> 00:15:27,060

big deal the fact that um not only did

315

00:15:32,629 --> 00:15:29,880

these two write something together uh

316

00:15:35,509 --> 00:15:32,639

but that the organ organizations are now

317

00:15:37,490 --> 00:15:35,519

starting to sort of collide and we're

318

00:15:40,550 --> 00:15:37,500

seeing that a lot lately arrows working

319

00:15:42,470 --> 00:15:40,560

with this new group Enigma Labs who are

320

00:15:45,230 --> 00:15:42,480

going to be creating an app where you

321

00:15:48,230 --> 00:15:45,240

can like upload your UFO reports and

322

00:15:52,970 --> 00:15:48,240

sightings and data and I I just dude

323

00:15:56,569 --> 00:15:52,980

it's crazy that in 2023 all of this this

324

00:15:59,210 --> 00:15:56,579

ripple effect we've seen since 2017 is

325

00:16:01,910 --> 00:15:59,220

still happening in 2023 and it's only

326

00:16:04,730 --> 00:16:01,920

growing in what's most exciting is we're

327

00:16:06,949 --> 00:16:04,740

seeing scientists get involved Chief

328

00:16:09,829 --> 00:16:06,959

science advisor Canada Avi Loeb doing

329

00:16:12,410 --> 00:16:09,839

his crazy ass stuff with the Galileo

330

00:16:15,889 --> 00:16:12,420

project which I absolutely love

331

00:16:16,550 --> 00:16:15,899

um so my question for you

332

00:16:18,710 --> 00:16:16,560

um

333

00:16:19,990 --> 00:16:18,720

did you understand anything in this

334

00:16:23,389 --> 00:16:20,000

paper because

335

00:16:25,850 --> 00:16:23,399

holy [h__h] this went over my head so much

336

00:16:28,189 --> 00:16:25,860

but I loved it um once I got to the last

337

00:16:29,990 --> 00:16:28,199

few pages with all the equations I kind

338

00:16:33,230 --> 00:16:30,000

of checked out but the first couple

339

00:16:35,389 --> 00:16:33,240

pages are really interesting uh so yeah

340

00:16:37,430 --> 00:16:35,399

what were your initial thoughts when you

341

00:16:38,749 --> 00:16:37,440

first read the paper and she kind of

342

00:16:41,090 --> 00:16:38,759

gleaned

343

00:16:43,850 --> 00:16:41,100

so my initial reaction was one of

344

00:16:46,009 --> 00:16:43,860

frustration because you know we've heard

345

00:16:48,350 --> 00:16:46,019

so many stories about footage that Arrow

346

00:16:50,569 --> 00:16:48,360

has access to and and data that Arrow

347

00:16:52,910 --> 00:16:50,579

has access to that show anomalous things

348

00:16:55,069 --> 00:16:52,920

you know this this paper is admittedly

349

00:16:58,189 --> 00:16:55,079

it's unidentified aerial phenomena not

350

00:16:59,810 --> 00:16:58,199

unidentified anomalous phenomena so

351
00:17:01,550 --> 00:16:59,820
after a little while you know I was

352
00:17:03,050 --> 00:17:01,560
talking to people online and you know

353
00:17:05,750 --> 00:17:03,060
smarter people than myself that probably

354
00:17:08,090 --> 00:17:05,760
understood that page of equations

355
00:17:10,909 --> 00:17:08,100
um and we were talking about you know

356
00:17:13,789 --> 00:17:10,919
weather so a number of implications here

357
00:17:17,510 --> 00:17:13,799
so one great to see Abby Lowe Tech like

358
00:17:19,490 --> 00:17:17,520
this and and he knows that he needs to

359
00:17:22,250 --> 00:17:19,500
speak a certain language to appeal to

360
00:17:24,650 --> 00:17:22,260
academics so I totally understand using

361
00:17:27,049 --> 00:17:24,660
you know standard physics models and

362
00:17:29,270 --> 00:17:27,059
sticking to that uh to to talk about it

363
00:17:30,409 --> 00:17:29,280

and you can see that reflected in the

364

00:17:32,030 --> 00:17:30,419

kind of the cool bit of the people where

365

00:17:34,130 --> 00:17:32,040

he's talking about dandelion seeds and

366

00:17:36,470 --> 00:17:34,140

motherships and seeding Pros into the

367

00:17:39,650 --> 00:17:36,480

universe that was really interesting but

368

00:17:41,510 --> 00:17:39,660

it's also very very conventional right

369

00:17:43,250 --> 00:17:41,520

um so a lot of people reacted to this

370

00:17:44,990 --> 00:17:43,260

with equal frustration kind of saying

371

00:17:46,370 --> 00:17:45,000

well if they're using War levels why

372

00:17:48,169 --> 00:17:46,380

aren't we looking at that you know there

373

00:17:49,490 --> 00:17:48,179

are Papers written on that uh that are

374

00:17:51,110 --> 00:17:49,500

peer-reviewed and people are trying to

375

00:17:52,730 --> 00:17:51,120

figure that out you know roughly how

376

00:17:54,230 --> 00:17:52,740

this technology would work but

377

00:17:56,870 --> 00:17:54,240

ultimately the paper comes down to

378

00:17:59,029 --> 00:17:56,880

saying essentially if something's moving

379

00:18:00,830 --> 00:17:59,039

fast in our atmosphere there's gonna be

380

00:18:03,409 --> 00:18:00,840

friction so think about you know when

381

00:18:05,090 --> 00:18:03,419

astronauts return from space and you

382

00:18:07,250 --> 00:18:05,100

kind of get you know the heat around the

383

00:18:08,930 --> 00:18:07,260

capsules and things like that that would

384

00:18:11,690 --> 00:18:08,940

happen to something moving really fast

385

00:18:14,570 --> 00:18:11,700

in our atmosphere unless

386

00:18:17,390 --> 00:18:14,580

it could somehow mitigate those effects

387

00:18:19,070 --> 00:18:17,400

so if for example a craft is in like a

388

00:18:20,510 --> 00:18:19,080

bubble of sort or it's using

389

00:18:23,390 --> 00:18:20,520

gravitational

390

00:18:25,549 --> 00:18:23,400

you know uh vectoring and and kind of

391

00:18:28,850 --> 00:18:25,559

Falling Towards its destination instead

392

00:18:32,090 --> 00:18:28,860

of flying then none of this counts but

393

00:18:33,169 --> 00:18:32,100

what this does do is it establishes a

394

00:18:40,070 --> 00:18:33,179

kind of

395

00:18:42,110 --> 00:18:40,080

something moving fast in our atmosphere

396

00:18:44,570 --> 00:18:42,120

should produce a fireball and radio

397

00:18:46,250 --> 00:18:44,580

waves and things like that if we see

398

00:18:48,110 --> 00:18:46,260

something moving fast and it's not doing

399

00:18:51,169 --> 00:18:48,120

those things then we're dealing with

400

00:18:53,810 --> 00:18:51,179

non-conventional physics so whilst this

401
00:18:55,190 --> 00:18:53,820
is frustrating to read in some ways it's

402
00:18:57,710 --> 00:18:55,200
worth remembering you know it's not

403
00:18:59,450 --> 00:18:57,720
peer-reviewed it's a pre-print so once

404
00:19:02,029 --> 00:18:59,460
this goes out to peer review people can

405
00:19:03,890 --> 00:19:02,039
refute it uh you know like Miguel cubie

406
00:19:06,350 --> 00:19:03,900
he could you know refute it with his

407
00:19:07,310 --> 00:19:06,360
paper about the alchemia drive of warp

408
00:19:08,210 --> 00:19:07,320
drive

409
00:19:11,090 --> 00:19:08,220
um

410
00:19:14,510 --> 00:19:11,100
but also that yeah it establishes that

411
00:19:16,730 --> 00:19:14,520
Baseline for them to work from uh for me

412
00:19:19,010 --> 00:19:16,740
the the weird thing is that like I say

413
00:19:21,169 --> 00:19:19,020

Arrow should kind of be Beyond this

414

00:19:22,789 --> 00:19:21,179

already and and it just makes me wonder

415

00:19:26,810 --> 00:19:22,799

you know what exactly do they have

416

00:19:29,150 --> 00:19:26,820

access to uh what exactly did uapcf do

417

00:19:31,490 --> 00:19:29,160

what did amsoc do because it doesn't

418

00:19:32,750 --> 00:19:31,500

seem like they had a database uh you

419

00:19:34,970 --> 00:19:32,760

know kind of getting all of these things

420

00:19:36,650 --> 00:19:34,980

in order it seems like Sean Kilpatrick

421

00:19:38,090 --> 00:19:36,660

has had to come in and literally start

422

00:19:41,090 --> 00:19:38,100

from scratch

423

00:19:44,150 --> 00:19:41,100

right and this is kind of you know what

424

00:19:46,090 --> 00:19:44,160

we heard from uh Jay Stratton I know he

425

00:19:49,909 --> 00:19:46,100

spoke at alien con I think today

426

00:19:51,950 --> 00:19:49,919

actually and um and and Carino was

427

00:19:56,090 --> 00:19:51,960

telling me that he kind of aired some of

428

00:20:01,250 --> 00:19:56,100

his frustrations on how hard it was to

429

00:20:04,730 --> 00:20:01,260

get anything from uh doe from um you

430

00:20:07,010 --> 00:20:04,740

know what else the Air Force even

431

00:20:09,409 --> 00:20:07,020

um to see what they have in terms of

432

00:20:12,590 --> 00:20:09,419

data or or what they've collected on

433

00:20:14,570 --> 00:20:12,600

sensors and whatnot and um and yeah you

434

00:20:16,310 --> 00:20:14,580

know the more you say that the more I'm

435

00:20:18,950 --> 00:20:16,320

frustrated too now because I'm like we

436

00:20:23,450 --> 00:20:18,960

we should be far past this it's almost

437

00:20:25,130 --> 00:20:23,460

like um Sean kinda and I I mean no

438

00:20:27,590 --> 00:20:25,140

disrespect but it's like he kind of put

439

00:20:29,930 --> 00:20:27,600

his name on this thing with Avi lope but

440

00:20:31,789 --> 00:20:29,940

every other sentence was credited to Avi

441

00:20:35,150 --> 00:20:31,799

lope like this this was like this was

442

00:20:38,810 --> 00:20:35,160

Avi Lopes paper let's be sure

443

00:20:40,730 --> 00:20:38,820

um and the one thing that I really uh

444

00:20:42,470 --> 00:20:40,740

really excited me in the paper was right

445

00:20:44,810 --> 00:20:42,480

at the beginning actually when Avi

446

00:20:47,510 --> 00:20:44,820

brought up the other Interstellar object

447

00:20:50,510 --> 00:20:47,520

that crashed into the ocean and that

448

00:20:52,250 --> 00:20:50,520

they still have plans to go try to

449

00:20:55,010 --> 00:20:52,260

retrieve that and kind of the technology

450

00:20:58,010 --> 00:20:55,020

they'll use to try to do that

451
00:21:00,289 --> 00:20:58,020
um so that you know while while this

452
00:21:03,529 --> 00:21:00,299
paper kind of was like kind of a

453
00:21:06,590 --> 00:21:03,539
theoretical sales pitch in some ways

454
00:21:08,570 --> 00:21:06,600
um it did give me hope that we could

455
00:21:11,210 --> 00:21:08,580
still recover this other Interstellar

456
00:21:13,370 --> 00:21:11,220
object and see what it's comprised of is

457
00:21:16,130 --> 00:21:13,380
there anything artificial to it is there

458
00:21:19,669 --> 00:21:16,140
technology or Alloys in it that um we've

459
00:21:22,850 --> 00:21:19,679
yet to fully uh understand uh I don't

460
00:21:24,770 --> 00:21:22,860
know but my absolutely like pipe stream

461
00:21:26,570 --> 00:21:24,780
for that object is that we get it and

462
00:21:28,490 --> 00:21:26,580
find that it's like a time capsule from

463
00:21:29,810 --> 00:21:28,500

a previous universe or another timeline

464

00:21:31,730 --> 00:21:29,820

or something like that that just

465

00:21:33,649 --> 00:21:31,740

contains like this whole wealth of

466

00:21:35,930 --> 00:21:33,659

knowledge for us and you know once

467

00:21:38,750 --> 00:21:35,940

technology gets that advanced we could

468

00:21:40,370 --> 00:21:38,760

we could put the whole of Wikipedia onto

469

00:21:42,350 --> 00:21:40,380

like a tiny thumbstick and just throw it

470

00:21:44,270 --> 00:21:42,360

into space right and yeah we could

471

00:21:46,730 --> 00:21:44,280

protect it against you know radiation

472

00:21:49,010 --> 00:21:46,740

and things like that and program it to

473

00:21:50,630 --> 00:21:49,020

kind of say until you detect a certain

474

00:21:52,850 --> 00:21:50,640

level of life or Consciousness or

475

00:21:54,409 --> 00:21:52,860

something like that do not activate so

476

00:21:56,450 --> 00:21:54,419
to other forms of life it could be a

477

00:21:58,490 --> 00:21:56,460
rock to us it could be the key to

478

00:22:01,130 --> 00:21:58,500
everything and obviously that's a

479

00:22:02,810 --> 00:22:01,140
fantasy but this this is what we're

480

00:22:04,810 --> 00:22:02,820
working with you know this this is an

481

00:22:06,770 --> 00:22:04,820
unknown it's only the second

482

00:22:08,690 --> 00:22:06,780
Interstellar object that we've come

483

00:22:12,289 --> 00:22:08,700
across Avi found the other one with his

484

00:22:14,390 --> 00:22:12,299
student uh um and it's really exciting

485

00:22:16,730 --> 00:22:14,400
because yeah as conservatives as this

486

00:22:18,950 --> 00:22:16,740
paper is the fact is they're still doing

487

00:22:21,230 --> 00:22:18,960
work on the real Cutting Edge of kind of

488

00:22:23,750 --> 00:22:21,240

astronomy and science that'll feed it in

489

00:22:25,310 --> 00:22:23,760

I remember people uh some scientists

490

00:22:27,890 --> 00:22:25,320

refute him what Abby was saying about

491

00:22:29,450 --> 00:22:27,900

and

492

00:22:32,210 --> 00:22:29,460

it was really funny to see actually

493

00:22:34,850 --> 00:22:32,220

because they were saying uh

494

00:22:38,029 --> 00:22:34,860

basically oh it's not an artificial

495

00:22:39,529 --> 00:22:38,039

spacecraft it's this form of media but

496

00:22:41,750 --> 00:22:39,539

the form of media that they were saying

497

00:22:43,730 --> 00:22:41,760

it is is never found before so they were

498

00:22:46,190 --> 00:22:43,740

kind of downplaying the the impact on

499

00:22:48,789 --> 00:22:46,200

science that it could have uh even if

500

00:22:52,549 --> 00:22:48,799

it's something prosaic you know yeah

501
00:22:55,970 --> 00:22:52,559
absolutely so I guess my last question

502
00:22:58,370 --> 00:22:55,980
then with this story Dan is um what what

503
00:23:02,090 --> 00:22:58,380
did you really take from it uh in terms

504
00:23:06,049 --> 00:23:02,100
of you know uh moving the conversation

505
00:23:08,330 --> 00:23:06,059
forward I guess any last words on this

506
00:23:10,970 --> 00:23:08,340
story before we move on

507
00:23:12,830 --> 00:23:10,980
so one thing that I really want them to

508
00:23:14,630 --> 00:23:12,840
do is I would love to see what this

509
00:23:17,210 --> 00:23:14,640
paper looks like if Abby had

510
00:23:19,370 --> 00:23:17,220
Incorporated the the OSAP dudes into the

511
00:23:20,990 --> 00:23:19,380
conversation no the papers were produced

512
00:23:22,370 --> 00:23:21,000
as those they were looking at what

513
00:23:25,250 --> 00:23:22,380

technology would be around in like 50

514

00:23:26,690 --> 00:23:25,260

years 100 years and this paper doesn't

515

00:23:28,370 --> 00:23:26,700

kind of consider those things they only

516

00:23:30,529 --> 00:23:28,380

considers what we know one can make use

517

00:23:33,649 --> 00:23:30,539

of these days so it would be incredible

518

00:23:35,570 --> 00:23:33,659

to see that kind of level of postulates

519

00:23:37,669 --> 00:23:35,580

in I think the craziest Abby gets in

520

00:23:39,890 --> 00:23:37,679

this is talking about Dyson spheres but

521

00:23:41,450 --> 00:23:39,900

he talks about them as things that uh

522

00:23:44,750 --> 00:23:41,460

you know a structure that's completely

523

00:23:46,909 --> 00:23:44,760

covering us out which would you know one

524

00:23:49,250 --> 00:23:46,919

that's not where a Dyson Sphere is the

525

00:23:50,990 --> 00:23:49,260

Dyson Sphere is originally proposed is a

526

00:23:52,730 --> 00:23:51,000

bunch of smaller craft that kind of

527

00:23:54,890 --> 00:23:52,740

float around a star and gather energy

528

00:23:57,649 --> 00:23:54,900

and exactly back to the planet for us to

529

00:24:00,169 --> 00:23:57,659

use so you know very different in terms

530

00:24:01,909 --> 00:24:00,179

of engineering prowess you know making a

531

00:24:03,710 --> 00:24:01,919

capsule around the Sun versus a couple

532

00:24:05,390 --> 00:24:03,720

of spacecraft uh or a couple of hundred

533

00:24:06,770 --> 00:24:05,400

spacecraft that kind of gather their

534

00:24:08,630 --> 00:24:06,780

energy

535

00:24:10,490 --> 00:24:08,640

um but also it would be silly to kind of

536

00:24:12,529 --> 00:24:10,500

block that light and energy from Life in

537

00:24:15,470 --> 00:24:12,539

the universe you know we we saw in The

538

00:24:17,930 --> 00:24:15,480

Simpsons movie uh them trying to reflect

539

00:24:20,510 --> 00:24:17,940

the sun right and the effects of that as

540

00:24:22,310 --> 00:24:20,520

funny as it was but can you imagine just

541

00:24:24,409 --> 00:24:22,320

blocking the sun

542

00:24:26,090 --> 00:24:24,419

um at source like what that would do to

543

00:24:28,250 --> 00:24:26,100

kind of plant life here and stuff like

544

00:24:30,890 --> 00:24:28,260

that there are implications for these

545

00:24:34,010 --> 00:24:30,900

things that you know won't explode But

546

00:24:37,010 --> 00:24:34,020

ultimately I hope it's

547

00:24:39,169 --> 00:24:37,020

it's a kind of this is to get that

548

00:24:41,149 --> 00:24:39,179

Baseline this is to be able to say it's

549

00:24:42,950 --> 00:24:41,159

politicians hey look according to

550

00:24:44,870 --> 00:24:42,960

science this is what known physics can

551
00:24:46,430 --> 00:24:44,880
do and there's things outside the bounds

552
00:24:49,430 --> 00:24:46,440
of known physics

553
00:24:52,909 --> 00:24:49,440
right well okay one last question on

554
00:24:55,190 --> 00:24:52,919
This I Promise why was Sean Kirkpatrick

555
00:24:57,169 --> 00:24:55,200
involved with this at all but what do

556
00:24:58,610 --> 00:24:57,179
you think he contributed to this if

557
00:25:00,710 --> 00:24:58,620
anything

558
00:25:02,990 --> 00:25:00,720
that's a really good question I I

559
00:25:05,149 --> 00:25:03,000
imagine the talk about sensors and how

560
00:25:07,730 --> 00:25:05,159
to apply this to the data bank that he

561
00:25:09,049 --> 00:25:07,740
has uh is probably why he was involved

562
00:25:10,190 --> 00:25:09,059
here he's gonna be able to take this

563
00:25:12,230 --> 00:25:10,200

data

564

00:25:14,090 --> 00:25:12,240

um you know use it to maybe inform an AI

565

00:25:16,010 --> 00:25:14,100

based system that can filter out a lot

566

00:25:17,450 --> 00:25:16,020

of the prosaic stuff uh in a

567

00:25:19,430 --> 00:25:17,460

presentation that Sean Kirkpatrick did

568

00:25:21,649 --> 00:25:19,440

not to oh too long ago

569

00:25:23,510 --> 00:25:21,659

um I think it was to a transport kind of

570

00:25:26,149 --> 00:25:23,520

Consortium or something like that I

571

00:25:28,970 --> 00:25:26,159

can't remember the exact name but he he

572

00:25:30,590 --> 00:25:28,980

mentioned about signs of life you know

573

00:25:32,570 --> 00:25:30,600

kind of comparing patents to science of

574

00:25:35,570 --> 00:25:32,580

life and what he meant by that was that

575

00:25:37,549 --> 00:25:35,580

you know we we can use big data to kind

576

00:25:41,390 --> 00:25:37,559

of say what are the signs of life in New

577

00:25:43,490 --> 00:25:41,400

York how do we look at that so they can

578

00:25:44,930 --> 00:25:43,500

kind of say okay so there are these Busy

579

00:25:46,730 --> 00:25:44,940

Bodies going around between buildings

580

00:25:49,190 --> 00:25:46,740

that's a sign of life

581

00:25:50,870 --> 00:25:49,200

um there are also people on buses there

582

00:25:52,789 --> 00:25:50,880

are people on cars and these things all

583

00:25:54,950 --> 00:25:52,799

have fingerprints and you can kind of

584

00:25:56,450 --> 00:25:54,960

feed those fingerprints into a system to

585

00:25:58,730 --> 00:25:56,460

kind of say okay take the signs of Life

586

00:26:00,409 --> 00:25:58,740

of humanity out of that system take the

587

00:26:03,289 --> 00:26:00,419

signs of Life of

588

00:26:05,450 --> 00:26:03,299

you know birds and balloons and things

589

00:26:07,250 --> 00:26:05,460

like that out of that system of course

590

00:26:08,690 --> 00:26:07,260

if that was all employed already we

591

00:26:11,090 --> 00:26:08,700

wouldn't have seen the shootouts that we

592

00:26:13,130 --> 00:26:11,100

saw in the past couple of weeks uh you

593

00:26:14,750 --> 00:26:13,140

know that could have been separated but

594

00:26:16,549 --> 00:26:14,760

the point is we need to kind of filter

595

00:26:18,350 --> 00:26:16,559

out that data pile because there's too

596

00:26:20,690 --> 00:26:18,360

much in that data pile

597

00:26:22,850 --> 00:26:20,700

um so I I think Sean's going to be

598

00:26:25,669 --> 00:26:22,860

taking this work and applying it in a

599

00:26:28,010 --> 00:26:25,679

way that allows him to focus on the more

600

00:26:30,049 --> 00:26:28,020

anomalous things and actually inform all

601
00:26:31,610 --> 00:26:30,059
of those other departments so hey we've

602
00:26:34,130 --> 00:26:31,620
actually got 50 drones a day coming in

603
00:26:37,250 --> 00:26:34,140
and kind of you know scanning on you

604
00:26:40,730 --> 00:26:37,260
probably need to fix that you know right

605
00:26:42,769 --> 00:26:40,740
right exactly and sorry I I cut you out

606
00:26:45,049 --> 00:26:42,779
of there for a second there

607
00:26:47,810 --> 00:26:45,059
um yeah yeah I think you're right I

608
00:26:50,149 --> 00:26:47,820
think moving forward this is definitely

609
00:26:52,610 --> 00:26:50,159
something that Kirkpatrick could use and

610
00:26:55,070 --> 00:26:52,620
all I can hope for right now is that his

611
00:26:57,409 --> 00:26:55,080
team is getting larger and that he gets

612
00:26:59,750 --> 00:26:57,419
the funding that he actually needs to

613
00:27:02,810 --> 00:26:59,760

continue yeah I don't want to see that

614

00:27:06,470 --> 00:27:02,820

thing just Fade Into Obscurity again man

615

00:27:09,350 --> 00:27:06,480

like if we've gotten this far like I

616

00:27:11,930 --> 00:27:09,360

don't want to see us step back now would

617

00:27:14,149 --> 00:27:11,940

you would you prefer Arrow to kind of

618

00:27:16,789 --> 00:27:14,159

become more robust or would you prefer

619

00:27:19,310 --> 00:27:16,799

Biden's suggested initiative of like an

620

00:27:22,070 --> 00:27:19,320

interagency independent task force take

621

00:27:23,990 --> 00:27:22,080

okay very good question I know we had

622

00:27:27,470 --> 00:27:24,000

this conversation over on that UFO

623

00:27:30,350 --> 00:27:27,480

podcast uh this past week of um you know

624

00:27:32,570 --> 00:27:30,360

which would be better and right now it's

625

00:27:34,510 --> 00:27:32,580

kind of looking like Biden's interagency

626
00:27:42,110 --> 00:27:34,520
would have more

627
00:27:45,590 --> 00:27:42,120
and would be able to hopefully identify

628
00:27:48,230 --> 00:27:45,600
and mitigate uh the these unknowns in

629
00:27:50,570 --> 00:27:48,240
our skies a lot more efficiently

630
00:27:52,310 --> 00:27:50,580
um but we know Kirkpatrick was at the

631
00:27:55,490 --> 00:27:52,320
briefings when this interagency

632
00:27:57,529 --> 00:27:55,500
announcement was made so I'm sure behind

633
00:27:59,990 --> 00:27:57,539
the scenes they're all kind of working

634
00:28:02,330 --> 00:28:00,000
together and

635
00:28:03,769 --> 00:28:02,340
um yeah I don't know at first I was

636
00:28:05,289 --> 00:28:03,779
really frustrated I'm like really

637
00:28:08,690 --> 00:28:05,299
another

638
00:28:11,149 --> 00:28:08,700

goddamn agency to do this we have Arrow

639

00:28:13,430 --> 00:28:11,159

come on come on but then the more you

640

00:28:15,710 --> 00:28:13,440

and Andy were were talking about it I'm

641

00:28:17,210 --> 00:28:15,720

like oh this is actually much more

642

00:28:19,990 --> 00:28:17,220

cohesive

643

00:28:23,630 --> 00:28:20,000

um and it's literally being kind of

644

00:28:26,149 --> 00:28:23,640

blessed by the U.S president so I mean

645

00:28:29,269 --> 00:28:26,159

with his stamp on it it's a lot more

646

00:28:31,070 --> 00:28:29,279

powerful and hopefully you know these

647

00:28:33,649 --> 00:28:31,080

these groups that kind of gave pushback

648

00:28:35,870 --> 00:28:33,659

to Jay Strutton in the past maybe

649

00:28:37,789 --> 00:28:35,880

Kirkpatrick in the present

650

00:28:40,909 --> 00:28:37,799

um aren't gonna say no to the U.S

651
00:28:43,310 --> 00:28:40,919
president in terms of uh what they might

652
00:28:44,870 --> 00:28:43,320
actually have so I don't know I don't

653
00:28:46,430 --> 00:28:44,880
know where I stand

654
00:28:50,289 --> 00:28:46,440
um I just hope they all work together

655
00:28:52,870 --> 00:28:50,299
you know God God forbid any

656
00:28:56,090 --> 00:28:52,880
compartmentalization within the U.S

657
00:28:57,529 --> 00:28:56,100
apparatus uh God forbid they do or don't

658
00:29:00,470 --> 00:28:57,539
work together

659
00:29:02,450 --> 00:29:00,480
um so I don't know that's a good point

660
00:29:04,310 --> 00:29:02,460
and we've got to kind of acknowledge the

661
00:29:06,529 --> 00:29:04,320
subtle side of this as well if you know

662
00:29:08,149 --> 00:29:06,539
say same 40 Seven Something anonymous

663
00:29:10,970 --> 00:29:08,159

question Roswell

664

00:29:12,830 --> 00:29:10,980

um and a small group of people take five

665

00:29:14,810 --> 00:29:12,840

people you know got together and they

666

00:29:16,490 --> 00:29:14,820

started studying this stuff their

667

00:29:18,590 --> 00:29:16,500

understanding of the physics that comes

668

00:29:20,870 --> 00:29:18,600

from that essentially 50 years later

669

00:29:22,850 --> 00:29:20,880

makes them a breakaway civilization they

670

00:29:24,289 --> 00:29:22,860

are not living like us anymore because

671

00:29:26,510 --> 00:29:24,299

they have access to that technology

672

00:29:28,730 --> 00:29:26,520

right so we we don't necessarily need

673

00:29:30,649 --> 00:29:28,740

like this what can the hypothesis where

674

00:29:32,570 --> 00:29:30,659

people are living in you know a shielded

675

00:29:34,370 --> 00:29:32,580

bubble and hiding in plain sight they

676

00:29:36,289 --> 00:29:34,380

could be a very very small group of

677

00:29:37,850 --> 00:29:36,299

people uh doing that kind of stuff there

678

00:29:39,830 --> 00:29:37,860

was a really good graphic novel called I

679

00:29:42,470 --> 00:29:39,840

think it was the Manhattan Project and

680

00:29:43,970 --> 00:29:42,480

it kind of said you know what if we got

681

00:29:45,710 --> 00:29:43,980

all the world's kind of preeminent

682

00:29:48,169 --> 00:29:45,720

scientists together and just gave them a

683

00:29:51,110 --> 00:29:48,179

bunch of money and let them go you know

684

00:29:53,210 --> 00:29:51,120

hammer and Tom on physics and where that

685

00:29:54,470 --> 00:29:53,220

led you know was in a very short amount

686

00:29:56,330 --> 00:29:54,480

of time they were jumping around through

687

00:29:58,250 --> 00:29:56,340

wormholes and stuff like that not saying

688

00:30:00,769 --> 00:29:58,260

that that's happened but it really

689

00:30:03,470 --> 00:30:00,779

painted a picture of them essentially

690

00:30:05,389 --> 00:30:03,480

not really being humans as we consider

691

00:30:07,250 --> 00:30:05,399

them now this is what I really love

692

00:30:09,590 --> 00:30:07,260

about the AI stuff that's kind of coming

693

00:30:11,330 --> 00:30:09,600

out now you know it's people are kind of

694

00:30:13,370 --> 00:30:11,340

saying well is it just a pattern

695

00:30:14,750 --> 00:30:13,380

recognition machine and it's putting the

696

00:30:16,010 --> 00:30:14,760

Miniver up to ourselves because a lot of

697

00:30:18,470 --> 00:30:16,020

people have rightly pointed out well

698

00:30:19,789 --> 00:30:18,480

isn't that what humans are we learn a

699

00:30:21,590 --> 00:30:19,799

bunch of information we apply the

700

00:30:24,409 --> 00:30:21,600

pattern recognition and we react to it

701
00:30:26,409 --> 00:30:24,419
so these questions about you know what

702
00:30:28,850 --> 00:30:26,419
is AI why does awareness what is

703
00:30:30,529 --> 00:30:28,860
extraterrestrial life they all hold a

704
00:30:33,590 --> 00:30:30,539
mirror up to us to kind of say you know

705
00:30:35,269 --> 00:30:33,600
what what does it mean to be human uh

706
00:30:36,830 --> 00:30:35,279
and and I think that that's the most

707
00:30:41,330 --> 00:30:36,840
exciting aspect of this going forward

708
00:30:43,789 --> 00:30:41,340
for me is is you know defining ourselves

709
00:30:45,529 --> 00:30:43,799
ah I did it again I keep I keep going

710
00:30:47,750 --> 00:30:45,539
full screen to myself sorry buddy you

711
00:30:50,090 --> 00:30:47,760
made a good a good point there and I uh

712
00:30:51,590 --> 00:30:50,100
stole your thunder by showing my stupid

713
00:30:51,870 --> 00:30:51,600

huge face

714

00:30:53,210 --> 00:30:51,880

um

715

00:30:55,430 --> 00:30:53,220

[Music]

716

00:30:57,409 --> 00:30:55,440

I I lost my train of thought no you're

717

00:31:00,590 --> 00:30:57,419

right I think this this phenomenon

718

00:31:02,930 --> 00:31:00,600

always always always says more about us

719

00:31:06,409 --> 00:31:02,940

than I think what is actually out there

720

00:31:08,630 --> 00:31:06,419

and it does make us uh self-reflect and

721

00:31:11,029 --> 00:31:08,640

it puts the mirror back on us and I'm

722

00:31:14,450 --> 00:31:11,039

all for that honestly like it

723

00:31:17,510 --> 00:31:14,460

invigorates us our most ambitious

724

00:31:21,169 --> 00:31:17,520

scientists to reach further to take more

725

00:31:22,909 --> 00:31:21,179

risks and um and usually those risks are

726

00:31:26,269 --> 00:31:22,919

for the better when it comes to the

727

00:31:28,669 --> 00:31:26,279

advancement of technology so usually

728

00:31:30,049 --> 00:31:28,679

usually yeah and there is the knife side

729

00:31:31,130 --> 00:31:30,059

that comes from holding up that mirror

730

00:31:33,710 --> 00:31:31,140

as well to kind of you know everyone

731

00:31:35,149 --> 00:31:33,720

thinks we're a warmonger and species in

732

00:31:36,649 --> 00:31:35,159

a certain way yeah sure we are but

733

00:31:39,110 --> 00:31:36,659

they're more the decisions of the

734

00:31:40,850 --> 00:31:39,120

elected officials you go around you go

735

00:31:42,590 --> 00:31:40,860

outside you start talking to people most

736

00:31:43,610 --> 00:31:42,600

people just want to live happy lives and

737

00:31:46,010 --> 00:31:43,620

want to give other people the

738

00:31:47,269 --> 00:31:46,020

opportunity to do that as well uh I

739

00:31:50,510 --> 00:31:47,279

would say we're a kind of pretty

740

00:31:51,649 --> 00:31:50,520

peaceful species aside from uh you know

741

00:31:52,850 --> 00:31:51,659

when you kind of get these small

742

00:31:54,950 --> 00:31:52,860

disparate groups that become

743

00:31:56,570 --> 00:31:54,960

totalitarian and things like that makes

744

00:31:58,610 --> 00:31:56,580

you wonder what we'd look like if we had

745

00:32:01,310 --> 00:31:58,620

a space civilization uh you know

746

00:32:04,190 --> 00:32:01,320

self-sufficient how the politics of that

747

00:32:05,990 --> 00:32:04,200

kind of system would go what would that

748

00:32:08,450 --> 00:32:06,000

look like would it get a democracy or

749

00:32:09,710 --> 00:32:08,460

would they you know be resulting to

750

00:32:11,510 --> 00:32:09,720

cannibalism when they ran out of

751
00:32:14,090 --> 00:32:11,520
resources it's a really interesting

752
00:32:15,649 --> 00:32:14,100
question it is those are the

753
00:32:16,690 --> 00:32:15,659
hypotheticals that keep me up at night

754
00:32:19,850 --> 00:32:16,700
man

755
00:32:21,169 --> 00:32:19,860
uh let's move on let's move on to our

756
00:32:22,970 --> 00:32:21,179
next story

757
00:32:25,010 --> 00:32:22,980
um and first of all I want to thank uh

758
00:32:28,430 --> 00:32:25,020
James Craig and Jazz Shaw for the super

759
00:32:30,409 --> 00:32:28,440
chats guys really appreciate the support

760
00:32:32,149 --> 00:32:30,419
um all the money like I said always goes

761
00:32:34,310 --> 00:32:32,159
right back into the show make it bigger

762
00:32:37,789 --> 00:32:34,320
and better Dan and I aren't spending

763
00:32:40,430 --> 00:32:37,799

that money on uh on caramel macchiatos I

764

00:32:42,529 --> 00:32:40,440

can tell you that much

765

00:32:47,029 --> 00:32:42,539

um Dan our next one

766

00:32:49,970 --> 00:32:47,039

we have got let me get it in here

767

00:32:53,269 --> 00:32:49,980

um how do I do this

768

00:32:56,389 --> 00:32:53,279

boom there we go uh Americans for safe

769

00:32:57,889 --> 00:32:56,399

Aerospace launches uh we learned about

770

00:33:00,710 --> 00:32:57,899

this recently

771

00:33:02,930 --> 00:33:00,720

um I believe First from Politico a a

772

00:33:05,630 --> 00:33:02,940

piece that Ryan Graves had written

773

00:33:09,409 --> 00:33:05,640

um he recently launched Americans for

774

00:33:13,430 --> 00:33:09,419

safe Aerospace ASA a new advocacy no

775

00:33:15,789 --> 00:33:13,440

what a new advocacy Organization for

776

00:33:18,110 --> 00:33:15,799

Aerospace safety and National Security

777

00:33:19,970 --> 00:33:18,120

ASA will support pilots and other

778

00:33:22,970 --> 00:33:19,980

Aerospace professionals who are

779

00:33:25,310 --> 00:33:22,980

reporting UAP their goal is to demand

780

00:33:27,470 --> 00:33:25,320

more disclosure from public officials

781

00:33:29,690 --> 00:33:27,480

about the significant safety and

782

00:33:32,289 --> 00:33:29,700

national security problems they will

783

00:33:35,509 --> 00:33:32,299

provide credible voices public education

784

00:33:40,490 --> 00:33:35,519

Grassroots activism and lobbying on

785

00:33:42,470 --> 00:33:40,500

Capitol Hill to get answers about UAP

786

00:33:44,870 --> 00:33:42,480

um what do you think of this man just

787

00:33:48,470 --> 00:33:44,880

when we thought Ryan Graves was kind of

788

00:33:50,870 --> 00:33:48,480

um not done but he he had kind of hit

789

00:33:52,970 --> 00:33:50,880

his um his Plateau with the merge

790

00:33:54,350 --> 00:33:52,980

podcast and this committee that he was

791

00:33:57,289 --> 00:33:54,360

working with

792

00:34:00,169 --> 00:33:57,299

um to kind of educate the public uh

793

00:34:01,430 --> 00:34:00,179

first question is this different from

794

00:34:03,049 --> 00:34:01,440

that committee that he had been

795

00:34:04,850 --> 00:34:03,059

establishing I believe it was with

796

00:34:07,070 --> 00:34:04,860

narcap maybe

797

00:34:09,109 --> 00:34:07,080

um or working with them

798

00:34:10,550 --> 00:34:09,119

um do you know anything about that is

799

00:34:12,589 --> 00:34:10,560

this different

800

00:34:14,210 --> 00:34:12,599

yeah I would say this is different this

801
00:34:16,490 --> 00:34:14,220
is more of a Lobby group that's going to

802
00:34:20,149 --> 00:34:16,500
be interfacing with with politicians in

803
00:34:21,950 --> 00:34:20,159
DC so we're essentially looking at you

804
00:34:24,169 --> 00:34:21,960
know and this this is removed from the

805
00:34:26,389 --> 00:34:24,179
kind of you know like that shift that we

806
00:34:28,609 --> 00:34:26,399
had from UFO to UAP and left a lot of

807
00:34:30,349 --> 00:34:28,619
the baggage behind uh I think this is

808
00:34:31,849 --> 00:34:30,359
that kind of approach you know you look

809
00:34:33,829 --> 00:34:31,859
at that board there you know with Haley

810
00:34:35,570 --> 00:34:33,839
with Brian bender and the other two guys

811
00:34:36,889 --> 00:34:35,580
there there are some new faces there and

812
00:34:39,050 --> 00:34:36,899
they don't all subscribe to the

813
00:34:41,030 --> 00:34:39,060

Extraterrestrial hypothesis the bottom

814

00:34:42,770 --> 00:34:41,040

line is that these guys are lobbying to

815

00:34:45,169 --> 00:34:42,780

kind of say hey there's something there

816

00:34:46,609 --> 00:34:45,179

our sky is unsecure you kind of proved

817

00:34:48,409 --> 00:34:46,619

it yourselves by doing the whole

818

00:34:50,450 --> 00:34:48,419

shooting down of these objects and not

819

00:34:51,649 --> 00:34:50,460

talking about it so we need a better

820

00:34:53,690 --> 00:34:51,659

approach here we need a better

821

00:34:56,089 --> 00:34:53,700

interagency approach and essentially

822

00:34:59,089 --> 00:34:56,099

what they're advocating for is what

823

00:35:02,470 --> 00:34:59,099

Canada is just authorized to go ahead

824

00:35:04,849 --> 00:35:02,480

right right and again like

825

00:35:06,770 --> 00:35:04,859

my dream is that the whole five eyes

826
00:35:10,670 --> 00:35:06,780
like you said are gonna all get together

827
00:35:12,050 --> 00:35:10,680
on this and have just one huge mega five

828
00:35:12,910 --> 00:35:12,060
eyes

829
00:35:16,190 --> 00:35:12,920
um

830
00:35:18,410 --> 00:35:16,200
yes there we go there we go

831
00:35:20,990 --> 00:35:18,420
um that is the dream that is the dream

832
00:35:22,849 --> 00:35:21,000
dude running Graves is killing it right

833
00:35:26,030 --> 00:35:22,859
now I'm telling you like this guy just

834
00:35:27,530 --> 00:35:26,040
kind of took the ball and ran with it um

835
00:35:30,410 --> 00:35:27,540
what do you think of this guy's

836
00:35:33,290 --> 00:35:30,420
trajectory and the second question for

837
00:35:35,690 --> 00:35:33,300
you the kind of big controversy or

838
00:35:37,970 --> 00:35:35,700

debate goes back to

839

00:35:41,390 --> 00:35:37,980

um a lot of the Skeptics saying this guy

840

00:35:42,230 --> 00:35:41,400

never even actually saw a UFO

841

00:35:44,750 --> 00:35:42,240

um

842

00:35:46,730 --> 00:35:44,760

but apparently in the media they're

843

00:35:48,710 --> 00:35:46,740

claiming that he did so

844

00:35:50,390 --> 00:35:48,720

let's cover that first what do you make

845

00:35:51,829 --> 00:35:50,400

of that whole controversy do you think

846

00:35:53,630 --> 00:35:51,839

it even matters

847

00:35:55,069 --> 00:35:53,640

um let's get your thoughts on that let's

848

00:35:56,810 --> 00:35:55,079

clear that up

849

00:35:58,190 --> 00:35:56,820

so this is actually really interesting I

850

00:36:00,829 --> 00:35:58,200

brought this up on Twitter the other day

851

00:36:02,450 --> 00:36:00,839

uh curse Joe mango was going to be

852

00:36:04,130 --> 00:36:02,460

talking to Ryan and he said hey you know

853

00:36:05,870 --> 00:36:04,140

what what do you want me to ask him and

854

00:36:08,150 --> 00:36:05,880

I asked him to to clear up this point

855

00:36:11,089 --> 00:36:08,160

like did he see a UAP I know the answer

856

00:36:13,910 --> 00:36:11,099

to that Ryan Graves has said you know he

857

00:36:15,410 --> 00:36:13,920

didn't see one but in his Squadron a

858

00:36:16,490 --> 00:36:15,420

bunch of people did they saw them on

859

00:36:18,290 --> 00:36:16,500

radar

860

00:36:20,630 --> 00:36:18,300

um they would go out hunting essentially

861

00:36:22,910 --> 00:36:20,640

UAP sightings that's how prevalent these

862

00:36:26,089 --> 00:36:22,920

things were so even though Ryan Didn't

863

00:36:29,630 --> 00:36:26,099

Have Eyes on with it he still has

864

00:36:32,510 --> 00:36:29,640

very very in-depth experience being

865

00:36:34,069 --> 00:36:32,520

around these UAP and the reason I wanted

866

00:36:35,569 --> 00:36:34,079

code to ask him about it was to just

867

00:36:36,950 --> 00:36:35,579

clear that up essentially because like

868

00:36:38,750 --> 00:36:36,960

you say a lot of the media are saying

869

00:36:41,690 --> 00:36:38,760

that Ryan saw these things

870

00:36:43,670 --> 00:36:41,700

um Ryan saw the videos essentially uh

871

00:36:46,130 --> 00:36:43,680

but like I say it doesn't negate the

872

00:36:47,810 --> 00:36:46,140

fact that everyone surrounding him seems

873

00:36:49,730 --> 00:36:47,820

to have had encounters with these things

874

00:36:52,849 --> 00:36:49,740

and he's the only guy right now outside

875

00:36:54,530 --> 00:36:52,859

of the service able to talk about this

876

00:36:56,030 --> 00:36:54,540

Ryan is a really good person to have in

877

00:36:58,849 --> 00:36:56,040

this position because what it means is

878

00:37:00,349 --> 00:36:58,859

essentially as these other Pilots that

879

00:37:01,310 --> 00:37:00,359

were in the I think was the red rippers

880

00:37:04,490 --> 00:37:01,320

right

881

00:37:06,589 --> 00:37:04,500

um as they leave service who are they

882

00:37:08,270 --> 00:37:06,599

going to speak to random people like us

883

00:37:10,849 --> 00:37:08,280

or are they going to go on a place like

884

00:37:12,829 --> 00:37:10,859

merged and sit down with a guy that they

885

00:37:15,050 --> 00:37:12,839

know knows all the senses knows all of

886

00:37:16,550 --> 00:37:15,060

the systems knows all of the you know

887

00:37:18,170 --> 00:37:16,560

the the protocols and things like that

888

00:37:21,170 --> 00:37:18,180

and really go in depth about it

889

00:37:24,650 --> 00:37:21,180

personally based on the the interview

890

00:37:26,210 --> 00:37:24,660

with um Lex Redman that Brian did uh you

891

00:37:28,010 --> 00:37:26,220

know half of that was just about his

892

00:37:30,650 --> 00:37:28,020

experience flight his expertise it was

893

00:37:31,910 --> 00:37:30,660

the same to Dave fraver uh and they were

894

00:37:33,710 --> 00:37:31,920

the most interesting parts for me

895

00:37:35,630 --> 00:37:33,720

because establishing those bonafides

896

00:37:37,670 --> 00:37:35,640

kind of realizing that these are the

897

00:37:39,170 --> 00:37:37,680

people that when the president presses

898

00:37:41,569 --> 00:37:39,180

that red button these are the people

899

00:37:43,970 --> 00:37:41,579

that go flying out there to sort these

900

00:37:46,790 --> 00:37:43,980

things out to figure out these problems

901
00:37:49,130 --> 00:37:46,800
um right now if we had say the pilots

902
00:37:50,930 --> 00:37:49,140
coming forward from the the shootdowns

903
00:37:53,210 --> 00:37:50,940
that happened a few weeks ago it would

904
00:37:55,130 --> 00:37:53,220
shed so much light on that situation

905
00:37:58,190 --> 00:37:55,140
could we just be able to answer so many

906
00:38:01,130 --> 00:37:58,200
questions so it's going to be great at

907
00:38:04,370 --> 00:38:01,140
some point in the future for

908
00:38:05,990 --> 00:38:04,380
Ryan's you know crewmates to to go on to

909
00:38:08,150 --> 00:38:06,000
that podcast to go to these

910
00:38:09,770 --> 00:38:08,160
organizations and provide briefings and

911
00:38:12,170 --> 00:38:09,780
things like that to to the people that

912
00:38:13,310 --> 00:38:12,180
can really get this ball moving and when

913
00:38:16,069 --> 00:38:13,320

I say people that can get this ball

914

00:38:18,650 --> 00:38:16,079

moving we're talking just to be clear a

915

00:38:20,750 --> 00:38:18,660

bipartisan effort you know not not much

916

00:38:22,730 --> 00:38:20,760

is bipartisan these days yet this

917

00:38:24,890 --> 00:38:22,740

doesn't seem to be controversial and and

918

00:38:26,569 --> 00:38:24,900

a lot of the media are slowly starting

919

00:38:29,109 --> 00:38:26,579

to wake up to it even to the point where

920

00:38:32,569 --> 00:38:29,119

Neil deGrasse Tyson is coming around

921

00:38:34,609 --> 00:38:32,579

finally oh my God I I've totally like

922

00:38:37,849 --> 00:38:34,619

changed my mind on that guy I was like

923

00:38:40,010 --> 00:38:37,859

digging in deep into like the the hate

924

00:38:43,490 --> 00:38:40,020

fan club of him but um he's coming

925

00:38:46,010 --> 00:38:43,500

around I I'm I'm happy to see it and um

926
00:38:48,829 --> 00:38:46,020
that's what we need from our scientists

927
00:38:51,349 --> 00:38:48,839
is an open mind on this topic I mean

928
00:38:54,170 --> 00:38:51,359
it's just and it's awesome it's awesome

929
00:38:56,510 --> 00:38:54,180
that we have people like him these huge

930
00:38:58,970 --> 00:38:56,520
kind of spokespeople for the topic it's

931
00:39:01,790 --> 00:38:58,980
who mainstream media goes to When the

932
00:39:03,950 --> 00:39:01,800
UFO thing comes up and every time we see

933
00:39:06,349 --> 00:39:03,960
oh Neil deGrasse Tyson commenting next

934
00:39:08,270 --> 00:39:06,359
on this we're all like oh God damn it

935
00:39:10,430 --> 00:39:08,280
why

936
00:39:13,430 --> 00:39:10,440
you might as well have Mick West up

937
00:39:15,530 --> 00:39:13,440
there but I don't know man hey he had

938
00:39:17,210 --> 00:39:15,540

some uh I'd recommend people watch The

939

00:39:18,770 --> 00:39:17,220

Joe Rogan shows with him because once

940

00:39:20,329 --> 00:39:18,780

deGrasse Tyson gets chatting and

941

00:39:21,890 --> 00:39:20,339

elaborates you know once they're not

942

00:39:23,089 --> 00:39:21,900

just sound bites of him going oh it's

943

00:39:24,410 --> 00:39:23,099

probably not extra threshold but they

944

00:39:26,450 --> 00:39:24,420

should look anyway

945

00:39:28,310 --> 00:39:26,460

um he gets into areas like they were

946

00:39:30,710 --> 00:39:28,320

talking about what a photosynthesis

947

00:39:33,109 --> 00:39:30,720

based life intelligent life form coming

948

00:39:35,089 --> 00:39:33,119

to us would look like and it would be

949

00:39:36,349 --> 00:39:35,099

horrified as cutting down forests and

950

00:39:39,050 --> 00:39:36,359

things like that you know we will be

951
00:39:41,150 --> 00:39:39,060
committing genocide to it so I I really

952
00:39:43,790 --> 00:39:41,160
love kind of trying to step outside the

953
00:39:45,530 --> 00:39:43,800
box of how humans see themselves and and

954
00:39:47,089 --> 00:39:45,540
you know kind of saying okay what would

955
00:39:48,349 --> 00:39:47,099
life think of us again it's holding that

956
00:39:49,609 --> 00:39:48,359
mirror up right and kind of saying well

957
00:39:51,890 --> 00:39:49,619
what do we want to project into the

958
00:39:54,349 --> 00:39:51,900
universe do we want to contribute to the

959
00:39:55,670 --> 00:39:54,359
Dark Forest ideas and be a sniper in the

960
00:39:57,230 --> 00:39:55,680
trees waiting for something to give out

961
00:39:59,750 --> 00:39:57,240
a signal and destroying it because it

962
00:40:02,810 --> 00:39:59,760
can take our resources or do we want to

963
00:40:04,550 --> 00:40:02,820

pour out compassion and love and go down

964

00:40:06,770 --> 00:40:04,560

fighting for that reason you know what's

965

00:40:08,569 --> 00:40:06,780

more meaningful to us

966

00:40:10,270 --> 00:40:08,579

second one please please please please

967

00:40:14,450 --> 00:40:10,280

please please please please please

968

00:40:17,390 --> 00:40:14,460

oh awesome man uh any less final words

969

00:40:18,950 --> 00:40:17,400

on the Ryan Graves ASA story here before

970

00:40:20,750 --> 00:40:18,960

we move on

971

00:40:22,370 --> 00:40:20,760

um only so there's a paragraph at the

972

00:40:23,810 --> 00:40:22,380

end that really stood out to me that I I

973

00:40:26,270 --> 00:40:23,820

think kind of underlines the whole thing

974

00:40:27,770 --> 00:40:26,280

uh Ryan wrote If the phenomena I witness

975

00:40:29,810 --> 00:40:27,780

with my own eyes and that's not in

976

00:40:31,849 --> 00:40:29,820

person that's on the senses uh turns out

977

00:40:33,589 --> 00:40:31,859

to be foreign drones they pose an urgent

978

00:40:35,750 --> 00:40:33,599

threat to National Security and Essay

979

00:40:37,550 --> 00:40:35,760

safety if they have something else it

980

00:40:39,770 --> 00:40:37,560

must be a scientific priority to find

981

00:40:41,630 --> 00:40:39,780

out I think that's a you know a micro

982

00:40:43,190 --> 00:40:41,640

moment from Ryan that's exactly where

983

00:40:46,730 --> 00:40:43,200

we're at and that's what we should be

984

00:40:49,730 --> 00:40:46,740

realizing amen bringing it all back to

985

00:40:51,650 --> 00:40:49,740

science like I said I I hoped this would

986

00:40:53,329 --> 00:40:51,660

be the year of science when it comes to

987

00:40:55,609 --> 00:40:53,339

UFOs and

988

00:40:57,710 --> 00:40:55,619

all I can hope for man is that we moved

989

00:41:00,410 --> 00:40:57,720

on from shooting down balloons and we're

990

00:41:03,710 --> 00:41:00,420

now going to be moving on to um shooting

991

00:41:07,310 --> 00:41:03,720

our cameras at unidentified objects

992

00:41:10,730 --> 00:41:07,320

instead uh well let's talk about

993

00:41:13,849 --> 00:41:10,740

something that is not unidentified but

994

00:41:16,430 --> 00:41:13,859

some people thought they were and that

995

00:41:18,950 --> 00:41:16,440

is our next story here um that you

996

00:41:22,130 --> 00:41:18,960

brought to me actually uh this is pretty

997

00:41:27,530 --> 00:41:22,140

fun and interesting Venus Jupiter

998

00:41:30,710 --> 00:41:27,540

conjunction Sparks slew of UFO reports

999

00:41:34,790 --> 00:41:30,720

um this kind of started on the heels of

1000

00:41:36,589 --> 00:41:34,800

a uh a tick tock video that went viral

1001
00:41:38,890 --> 00:41:36,599
um the nights that this happened then so

1002
00:41:41,150 --> 00:41:38,900
I actually had the video pulled up here

1003
00:41:43,370 --> 00:41:41,160
really quickly

1004
00:41:45,770 --> 00:41:43,380
um this poor woman she probably got so

1005
00:41:48,109 --> 00:41:45,780
much Flack for this she was just excited

1006
00:41:50,210 --> 00:41:48,119
and curious so let me go ahead and play

1007
00:41:54,870 --> 00:41:50,220
that right now

1008
00:42:01,849 --> 00:41:57,530
[Music]

1009
00:42:01,859 --> 00:42:05,810
so bizarre

1010
00:42:05,820 --> 00:42:10,510
people what is this

1011
00:42:16,670 --> 00:42:13,670
uh I love it I love it

1012
00:42:18,950 --> 00:42:16,680
um so on March 1st and March 2nd Venus

1013
00:42:21,530 --> 00:42:18,960

and Jupiter were easily visible in the

1014

00:42:23,510 --> 00:42:21,540

post sunset Skies marking the closest

1015

00:42:24,730 --> 00:42:23,520

meeting of our two brightest planets

1016

00:42:28,849 --> 00:42:24,740

since

1017

00:42:32,750 --> 00:42:28,859

2015. and there won't be a better and

1018

00:42:34,970 --> 00:42:32,760

more visible show until 2039 however

1019

00:42:37,430 --> 00:42:34,980

this planetary conjunction caught a lot

1020

00:42:39,290 --> 00:42:37,440

of people off guard and tons of reports

1021

00:42:43,430 --> 00:42:39,300

and photos for taking of people thinking

1022

00:42:47,030 --> 00:42:43,440

these could be UFOs and one of those

1023

00:42:49,609 --> 00:42:47,040

images on the far right there I believe

1024

00:42:51,589 --> 00:42:49,619

it is far left yeah right I don't know

1025

00:42:53,930 --> 00:42:51,599

um it's yours that's you down in the

1026
00:42:56,150 --> 00:42:53,940
corner on the rooftop nonetheless yeah

1027
00:42:58,609 --> 00:42:56,160
photo man so you actually got to see

1028
00:43:00,410 --> 00:42:58,619
this conjunction yeah and you know what

1029
00:43:02,089 --> 00:43:00,420
it surprised me at those two because I I

1030
00:43:03,230 --> 00:43:02,099
didn't know that it was happening and I

1031
00:43:04,910 --> 00:43:03,240
looked up at the sky and I'm always

1032
00:43:06,230 --> 00:43:04,920
looking at the night sky

1033
00:43:07,970 --> 00:43:06,240
um and I was just like what the hell is

1034
00:43:09,829 --> 00:43:07,980
that nothing's that close and you know

1035
00:43:12,829 --> 00:43:09,839
they're really bright as well

1036
00:43:14,990 --> 00:43:12,839
um and when I say that close so so this

1037
00:43:17,150 --> 00:43:15,000
is a really good opportunity I would say

1038
00:43:18,890 --> 00:43:17,160

to to educate we need to realize that

1039

00:43:21,290 --> 00:43:18,900

when we say you know we're living in the

1040

00:43:22,790 --> 00:43:21,300

21st century not the whole planet is you

1041

00:43:26,510 --> 00:43:22,800

know not everyone has the same level of

1042

00:43:28,130 --> 00:43:26,520

of Education or or ability so that woman

1043

00:43:29,329 --> 00:43:28,140

in that Tick Tock video there I don't

1044

00:43:31,670 --> 00:43:29,339

think she should be shamed for not

1045

00:43:34,430 --> 00:43:31,680

knowing uh she essentially had a

1046

00:43:36,230 --> 00:43:34,440

question was amazed by something and

1047

00:43:38,690 --> 00:43:36,240

luckily we're actually able to give her

1048

00:43:40,250 --> 00:43:38,700

an answer a lot of people thought that

1049

00:43:43,730 --> 00:43:40,260

they were moving too which I thought was

1050

00:43:46,010 --> 00:43:43,740

interesting and and it made me wonder if

1051
00:43:47,390 --> 00:43:46,020
uh basically when you look at things in

1052
00:43:49,010 --> 00:43:47,400
the sky without a frame of reference

1053
00:43:51,890 --> 00:43:49,020
it's kind of hard to track where they

1054
00:43:53,630 --> 00:43:51,900
are and if any there's any clouds in the

1055
00:43:55,309 --> 00:43:53,640
sky as well a cloud moving over

1056
00:43:57,710 --> 00:43:55,319
something at quite high speed if the

1057
00:43:59,630 --> 00:43:57,720
wind speed is higher you know wind speed

1058
00:44:01,670 --> 00:43:59,640
is different at different levels so it

1059
00:44:03,349 --> 00:44:01,680
could be really fast up in the sky while

1060
00:44:05,569 --> 00:44:03,359
you don't feel any wind on the ground at

1061
00:44:07,190 --> 00:44:05,579
all so that would be someone to say well

1062
00:44:09,230 --> 00:44:07,200
you know there wasn't any wind speed the

1063
00:44:10,870 --> 00:44:09,240

clouds weren't moving and these objects

1064

00:44:13,670 --> 00:44:10,880

were gone between the clouds like crazy

1065

00:44:15,230 --> 00:44:13,680

uh especially if they're looking back on

1066

00:44:16,670 --> 00:44:15,240

a video that they took or something like

1067

00:44:18,770 --> 00:44:16,680

that so

1068

00:44:20,450 --> 00:44:18,780

like I say it's worth not disparaging

1069

00:44:22,309 --> 00:44:20,460

people kind of learning new information

1070

00:44:23,630 --> 00:44:22,319

but congratulating them because they're

1071

00:44:24,950 --> 00:44:23,640

one of you you know probably a whole

1072

00:44:27,349 --> 00:44:24,960

bunch of people are about to learn about

1073

00:44:29,569 --> 00:44:27,359

space and when we say that these objects

1074

00:44:31,069 --> 00:44:29,579

were close they weren't really close uh

1075

00:44:33,050 --> 00:44:31,079

you know these these planets were really

1076

00:44:34,309 --> 00:44:33,060

far apart it's just our perspective that

1077

00:44:35,870 --> 00:44:34,319

made them look like they were next to

1078

00:44:38,930 --> 00:44:35,880

each other

1079

00:44:42,910 --> 00:44:38,940

exactly I know it reminds me so much of

1080

00:44:45,650 --> 00:44:42,920

uh the two moons on Tatooine and stars

1081

00:44:48,710 --> 00:44:45,660

it's really cool man I didn't think of

1082

00:44:50,450 --> 00:44:48,720

that I love that angle uh I know I miss

1083

00:44:53,030 --> 00:44:50,460

everything man I missed the conjunction

1084

00:44:55,730 --> 00:44:53,040

I missed the northern lights in Scotland

1085

00:44:57,829 --> 00:44:55,740

recently I just I I'm not looking up

1086

00:44:59,990 --> 00:44:57,839

enough as a UFO podcaster and someone

1087

00:45:02,270 --> 00:45:00,000

who hosts a show called Somewhere in the

1088

00:45:04,250 --> 00:45:02,280

skies I really should be looking up in

1089

00:45:06,290 --> 00:45:04,260

the skies I think it's it's Richard

1090

00:45:08,270 --> 00:45:06,300

Dolan he always says that that one of

1091

00:45:09,829 --> 00:45:08,280

the patterns of UFO sightings is that

1092

00:45:12,170 --> 00:45:09,839

people are outside having a cigarette a

1093

00:45:14,450 --> 00:45:12,180

walking a dog or something and you know

1094

00:45:16,190 --> 00:45:14,460

in those moments they their situations

1095

00:45:17,990 --> 00:45:16,200

which led themselves well to just

1096

00:45:19,490 --> 00:45:18,000

standing in a spot and staring at the

1097

00:45:21,349 --> 00:45:19,500

night sky while your dog's taking a pee

1098

00:45:22,730 --> 00:45:21,359

on the you know the field or something

1099

00:45:24,950 --> 00:45:22,740

like that

1100

00:45:26,329 --> 00:45:24,960

um so there's a lot of kind of casual

1101

00:45:28,309 --> 00:45:26,339

stargazing that happens like that

1102

00:45:30,050 --> 00:45:28,319

whereas yeah for someone like yourself

1103

00:45:31,550 --> 00:45:30,060

you maybe don't have time to kind of go

1104

00:45:33,829 --> 00:45:31,560

and sit out in the streets of Edinburgh

1105

00:45:35,510 --> 00:45:33,839

and depending on the lights from the

1106

00:45:38,710 --> 00:45:35,520

city that you're in as well you may not

1107

00:45:43,670 --> 00:45:41,809

I walked the entire city man looking for

1108

00:45:46,970 --> 00:45:43,680

the northern lights every angle I could

1109

00:45:48,890 --> 00:45:46,980

go from every direction and in the light

1110

00:45:52,309 --> 00:45:48,900

pollution even in a place like Edinburgh

1111

00:45:53,930 --> 00:45:52,319

is a lot and it's unfortunate but um

1112

00:45:55,670 --> 00:45:53,940

it's just kind of the way it is I saw

1113

00:45:57,950 --> 00:45:55,680

someone in the chat said they saw the

1114

00:46:00,290 --> 00:45:57,960

conjunction from Tennessee I believe it

1115

00:46:02,510 --> 00:46:00,300

was that's pretty awesome our Lord

1116

00:46:04,910 --> 00:46:02,520

Ludacris said in the Tri-Cities so

1117

00:46:08,030 --> 00:46:04,920

that's cool um and you saw from Mexico

1118

00:46:09,710 --> 00:46:08,040

right from Mexico yeah so in a few

1119

00:46:11,030 --> 00:46:09,720

places so I was just in Cancun and now

1120

00:46:12,410 --> 00:46:11,040

I'm in Tulum just a little bit further

1121

00:46:14,089 --> 00:46:12,420

down the coast and I could still see it

1122

00:46:15,349 --> 00:46:14,099

and as I was walking straight last night

1123

00:46:16,490 --> 00:46:15,359

I could see people looking up or you

1124

00:46:17,750 --> 00:46:16,500

know people taking pictures and things

1125

00:46:20,809 --> 00:46:17,760

like that and I just thought to myself

1126
00:46:23,210 --> 00:46:20,819
like do these people know what this is

1127
00:46:24,770 --> 00:46:23,220
um or are they about to you know pull up

1128
00:46:26,630 --> 00:46:24,780
a thing say you know there are UFOs in

1129
00:46:28,309 --> 00:46:26,640
the sky and it just made me really

1130
00:46:30,589 --> 00:46:28,319
curious because we all have these unique

1131
00:46:32,270 --> 00:46:30,599
perspectives and and similar to how

1132
00:46:33,589 --> 00:46:32,280
we're saying to the government hey you

1133
00:46:35,089 --> 00:46:33,599
guys need to work together to figure

1134
00:46:36,890 --> 00:46:35,099
this out instead of disparaging each

1135
00:46:38,270 --> 00:46:36,900
other uh the same's true here you know

1136
00:46:40,370 --> 00:46:38,280
in the public it's an educational

1137
00:46:43,130 --> 00:46:40,380
opportunity stuff like the Northern

1138
00:46:45,829 --> 00:46:43,140

Lights is crazy I I was lucky to see

1139

00:46:47,569 --> 00:46:45,839

them in Iceland uh I went there for a

1140

00:46:49,309 --> 00:46:47,579

week and

1141

00:46:50,809 --> 00:46:49,319

on the very last night there was

1142

00:46:52,130 --> 00:46:50,819

literally a hole in the clouds above

1143

00:46:53,450 --> 00:46:52,140

where I was staying

1144

00:46:54,770 --> 00:46:53,460

um and through the hole in the clouds we

1145

00:46:56,870 --> 00:46:54,780

were able to watch this incredible light

1146

00:46:59,630 --> 00:46:56,880

show but it was purely by chance and

1147

00:47:01,730 --> 00:46:59,640

even when you know the the kind of

1148

00:47:02,630 --> 00:47:01,740

Guides Online say oh yeah there's

1149

00:47:06,050 --> 00:47:02,640

probably going to be Northern Lights

1150

00:47:08,329 --> 00:47:06,060

it's still 50 50. uh so it's hard to

1151
00:47:10,370 --> 00:47:08,339
kind of pin this stuff down in a really

1152
00:47:13,370 --> 00:47:10,380
repeatable way

1153
00:47:15,410 --> 00:47:13,380
yeah absolutely but but I would

1154
00:47:17,150 --> 00:47:15,420
emphasize get yourself you know go go on

1155
00:47:19,609 --> 00:47:17,160
the App Stores for your phones just

1156
00:47:21,230 --> 00:47:19,619
search Sky Guide or Star Guide

1157
00:47:22,910 --> 00:47:21,240
um and it'll come up stellarium is a

1158
00:47:24,410 --> 00:47:22,920
really good one I use one called Sky guy

1159
00:47:25,490 --> 00:47:24,420
just because it's really easy to use and

1160
00:47:26,809 --> 00:47:25,500
very clear

1161
00:47:27,890 --> 00:47:26,819
um just have it in your pocket and when

1162
00:47:29,750 --> 00:47:27,900
you see something that you don't know

1163
00:47:31,250 --> 00:47:29,760

about uh you go like when I saw the

1164

00:47:32,870 --> 00:47:31,260

conjunction I just popped that bad boy

1165

00:47:34,550 --> 00:47:32,880

out had a look and I was just like oh

1166

00:47:36,770 --> 00:47:34,560

wow that's really cool and I took a few

1167

00:47:38,630 --> 00:47:36,780

pictures and and yeah it's cool to see

1168

00:47:40,190 --> 00:47:38,640

because like you say I like you pointed

1169

00:47:43,430 --> 00:47:40,200

out this stuff doesn't happen often

1170

00:47:46,250 --> 00:47:43,440

right exactly and I think more than

1171

00:47:48,589 --> 00:47:46,260

anything you said it best uh this is a

1172

00:47:50,390 --> 00:47:48,599

moment to educate the public and if a

1173

00:47:52,910 --> 00:47:50,400

thousand UFO reports come in and we find

1174

00:47:54,470 --> 00:47:52,920

out it was this conjunction it's just a

1175

00:47:56,569 --> 00:47:54,480

thousand more people who now learned

1176

00:47:59,270 --> 00:47:56,579

that conjunction is a thing and that you

1177

00:48:01,670 --> 00:47:59,280

can precisely find amazingly beautiful

1178

00:48:03,109 --> 00:48:01,680

things happening in our skies that are

1179

00:48:04,970 --> 00:48:03,119

explainable

1180

00:48:07,069 --> 00:48:04,980

um and and look at these photos as well

1181

00:48:09,530 --> 00:48:07,079

right like these uh so I've got an

1182

00:48:12,109 --> 00:48:09,540

iPhone 14 pro it's it's quite a you know

1183

00:48:14,569 --> 00:48:12,119

a decent on this thing

1184

00:48:16,370 --> 00:48:14,579

um and they're dots in the sky still

1185

00:48:18,530 --> 00:48:16,380

it's really hard to see so I think this

1186

00:48:19,910 --> 00:48:18,540

also speaks to that kind of whole oh

1187

00:48:20,990 --> 00:48:19,920

well everyone has a smartphone in their

1188

00:48:23,030 --> 00:48:21,000

pocket why don't we have pictures of

1189

00:48:24,770 --> 00:48:23,040

UFOs uh because there's lots of lights

1190

00:48:26,569 --> 00:48:24,780

in the sky that's why it's really hard

1191

00:48:27,770 --> 00:48:26,579

to figure anything out by a smartphone

1192

00:48:29,510 --> 00:48:27,780

camera they designed to take a picture

1193

00:48:34,130 --> 00:48:29,520

of your dogs and friends and Landscapes

1194

00:48:35,950 --> 00:48:34,140

not UFOs exactly exactly or my beers I

1195

00:48:39,890 --> 00:48:35,960

like to say beers

1196

00:48:42,710 --> 00:48:39,900

so there's that too but um well okay so

1197

00:48:45,530 --> 00:48:42,720

discoveries in the sky let's move to

1198

00:48:47,390 --> 00:48:45,540

discoveries on the ground with our last

1199

00:48:49,790 --> 00:48:47,400

news story of the week here Dan before

1200

00:48:52,309 --> 00:48:49,800

we move to podcast highlights of the

1201

00:48:54,410 --> 00:48:52,319

week everyone's favorite section of

1202

00:48:56,690 --> 00:48:54,420

somewhere in the live stream now

1203

00:48:59,930 --> 00:48:56,700

um we have scientists find hidden

1204

00:49:02,450 --> 00:48:59,940

Corridor inside the Great Pyramid of

1205

00:49:04,910 --> 00:49:02,460

Giza a little background here guys

1206

00:49:06,290 --> 00:49:04,920

Egyptian Antiquities officials have

1207

00:49:08,450 --> 00:49:06,300

announced that researchers have

1208

00:49:10,490 --> 00:49:08,460

identified a previously undiscovered

1209

00:49:12,650 --> 00:49:10,500

Corridor inside the Great Pyramid of

1210

00:49:14,630 --> 00:49:12,660

Giza situated just behind the main

1211

00:49:17,210 --> 00:49:14,640

entrance of the pyramid the newly

1212

00:49:21,109 --> 00:49:17,220

discovered nine meter long Corridor was

1213

00:49:23,630 --> 00:49:21,119

found by the scan pyramids project which

1214

00:49:28,130 --> 00:49:23,640

has been using a non-invasive advanced

1215

00:49:30,770 --> 00:49:28,140

form of image imagery since 2015 defined

1216

00:49:33,050 --> 00:49:30,780

previously unknown voids within uh

1217

00:49:36,530 --> 00:49:33,060

Chambers across the three pyramids on

1218

00:49:38,569 --> 00:49:36,540

the Giza plateau uh let me see what else

1219

00:49:42,530 --> 00:49:38,579

I have here the discovery was made using

1220

00:49:44,329 --> 00:49:42,540

a method called muon tomography which

1221

00:49:47,510 --> 00:49:44,339

involves I hope I'm saying that right

1222

00:49:48,710 --> 00:49:47,520

involves detecting a type of sub-atomic

1223

00:49:52,130 --> 00:49:48,720

particle

1224

00:49:54,710 --> 00:49:52,140

uh known as a muon that is created when

1225

00:49:57,710 --> 00:49:54,720

cosmic rays slam into Earth's atmosphere

1226

00:50:00,290 --> 00:49:57,720

once created muons only last a fraction

1227

00:50:02,630 --> 00:50:00,300

of a second fortunately for researchers

1228

00:50:05,990 --> 00:50:02,640

muons produced by cosmic rays are moving

1229

00:50:08,089 --> 00:50:06,000

at nearly light speed as a result a

1230

00:50:10,910 --> 00:50:08,099

large number of muons slam into and even

1231

00:50:13,130 --> 00:50:10,920

pass through the Earth by tracking these

1232

00:50:15,349 --> 00:50:13,140

decaying muons as they pass through the

1233

00:50:17,329 --> 00:50:15,359

stone of the Great Pyramid researchers

1234

00:50:21,170 --> 00:50:17,339

can peer deeper into the structure's

1235

00:50:24,230 --> 00:50:21,180

interior than ever before last paragraph

1236

00:50:26,809 --> 00:50:24,240

here according to Mustafa waziri head of

1237

00:50:28,430 --> 00:50:26,819

Egypt Supreme Council of Antiquities the

1238

00:50:30,530 --> 00:50:28,440

newly discovered Corridor was likely

1239

00:50:32,870 --> 00:50:30,540

constructed to relieve the weight of the

1240

00:50:35,690 --> 00:50:32,880

pyramid on the main entrance which is

1241

00:50:38,030 --> 00:50:35,700

seven meters below or possibly on

1242

00:50:39,349 --> 00:50:38,040

another chamber that is yet to be

1243

00:50:42,589 --> 00:50:39,359

discovered

1244

00:50:45,470 --> 00:50:42,599

even today we're discovering new stuff

1245

00:50:47,390 --> 00:50:45,480

in the pyramids man this is incredible

1246

00:50:49,549 --> 00:50:47,400

especially with the technology we're

1247

00:50:51,230 --> 00:50:49,559

using now muon what the hell is that I

1248

00:50:52,670 --> 00:50:51,240

feel like I'm in Quantum domini I feel

1249

00:50:54,950 --> 00:50:52,680

like I'm in a Marvel movie right now

1250

00:50:56,870 --> 00:50:54,960

particle subatomic

1251
00:50:59,930 --> 00:50:56,880
um this is how is how archeology is

1252
00:51:01,970 --> 00:50:59,940
being done today without damaging

1253
00:51:04,549 --> 00:51:01,980
um any of these incredibly beautiful

1254
00:51:06,170 --> 00:51:04,559
structures so yeah what do you make of

1255
00:51:08,750 --> 00:51:06,180
this entire story

1256
00:51:10,730 --> 00:51:08,760
so this has a few implications it's so

1257
00:51:12,290 --> 00:51:10,740
so interesting I can see Elena in the

1258
00:51:14,569 --> 00:51:12,300
chat there Elena's actually heading to

1259
00:51:16,790 --> 00:51:14,579
Egypt very soon so I'm sure we'll see

1260
00:51:18,589 --> 00:51:16,800
some posts from her on on social media

1261
00:51:21,049 --> 00:51:18,599
kind of showing us some of this stuff

1262
00:51:22,790 --> 00:51:21,059
and what it looks like in Egypt whether

1263
00:51:24,589 --> 00:51:22,800

they're incorporating it's into tours

1264

00:51:26,390 --> 00:51:24,599

and things like that already

1265

00:51:30,349 --> 00:51:26,400

um but this was they found the chasm in

1266

00:51:31,790 --> 00:51:30,359

like 2017. so went out in 2023 and the

1267

00:51:33,829 --> 00:51:31,800

research papers are only just hitting

1268

00:51:35,750 --> 00:51:33,839

and you know this is coming out say what

1269

00:51:39,890 --> 00:51:35,760

you want about zahi hawas who kind of

1270

00:51:42,530 --> 00:51:39,900

looks after the the archeology in uh in

1271

00:51:44,710 --> 00:51:42,540

Egypt but

1272

00:51:47,809 --> 00:51:44,720

this was released it's not kept secret

1273

00:51:49,430 --> 00:51:47,819

but it's taken a long time to come

1274

00:51:51,049 --> 00:51:49,440

through you know if you follow this

1275

00:51:52,309 --> 00:51:51,059

stuff then then this is something you'll

1276

00:51:54,410 --> 00:51:52,319

remember being announced the scan

1277

00:51:56,450 --> 00:51:54,420

pyramids team but you know told everyone

1278

00:51:58,670 --> 00:51:56,460

hey there's a void here but it wasn't

1279

00:52:00,530 --> 00:51:58,680

until they could uh you know probe the

1280

00:52:02,329 --> 00:52:00,540

pyramid with an endoscope that they kind

1281

00:52:04,130 --> 00:52:02,339

of could show us pictures of this kind

1282

00:52:06,890 --> 00:52:04,140

of inner chamber it makes you wonder

1283

00:52:09,770 --> 00:52:06,900

what else is there and it's another void

1284

00:52:11,569 --> 00:52:09,780

that is you know we all know is that and

1285

00:52:13,730 --> 00:52:11,579

we all want kind of uncovered because I

1286

00:52:17,630 --> 00:52:13,740

think it was Edgar Casey who spoke about

1287

00:52:19,430 --> 00:52:17,640

uh a void beneath the the Sphinx that

1288

00:52:21,470 --> 00:52:19,440

contain masses of knowledge and things

1289

00:52:23,750 --> 00:52:21,480

like that there is a void there but

1290

00:52:25,309 --> 00:52:23,760

we've never gone into it and a bunch of

1291

00:52:27,890 --> 00:52:25,319

entrances were covered up and things

1292

00:52:30,650 --> 00:52:27,900

like that so I wonder if uh you know

1293

00:52:33,410 --> 00:52:30,660

Zach us and Egypt are kind of unrolling

1294

00:52:35,690 --> 00:52:33,420

this story slowly and and a kind of have

1295

00:52:38,630 --> 00:52:35,700

discovered more than they think but also

1296

00:52:42,049 --> 00:52:38,640

it speaks to the level of obfuscation uh

1297

00:52:43,970 --> 00:52:42,059

in archeology right so just just to kind

1298

00:52:46,190 --> 00:52:43,980

of throw in here you know this pyramid

1299

00:52:48,770 --> 00:52:46,200

we think of it as a tomb that's that's

1300

00:52:50,750 --> 00:52:48,780

the mainstream story it's a tomb however

1301

00:52:52,490 --> 00:52:50,760

they never found a body in there they

1302

00:52:54,170 --> 00:52:52,500

never found anything that indicated it's

1303

00:52:55,910 --> 00:52:54,180

a tomb it's just kind of a habit for us

1304

00:52:57,470 --> 00:52:55,920

to go oh well you know it's probably a

1305

00:52:59,089 --> 00:52:57,480

tomb then uh since you know it was

1306

00:53:00,829 --> 00:52:59,099

pretty big and you wouldn't build this

1307

00:53:04,670 --> 00:53:00,839

unless you were trying to respect

1308

00:53:06,410 --> 00:53:04,680

someone uh but there's no there's nobody

1309

00:53:08,329 --> 00:53:06,420

in there it was never found they think

1310

00:53:10,549 --> 00:53:08,339

the grave kind of diggers came and stole

1311

00:53:12,890 --> 00:53:10,559

everything but would they steal every

1312

00:53:14,569 --> 00:53:12,900

single thing would there be inscriptions

1313

00:53:18,530 --> 00:53:14,579

in the world saying you know this is the

1314

00:53:21,950 --> 00:53:18,540

burial chamber of XYZ probably right

1315

00:53:24,109 --> 00:53:21,960

um so the it all lends itself to this

1316

00:53:26,750 --> 00:53:24,119

kind of enigma of the pyramids of of

1317

00:53:29,030 --> 00:53:26,760

Giza where we don't really know what

1318

00:53:31,130 --> 00:53:29,040

they're for and a lot of the a lot of

1319

00:53:33,410 --> 00:53:31,140

the evidence tends to point towards them

1320

00:53:35,510 --> 00:53:33,420

being something that's repurposed and

1321

00:53:37,010 --> 00:53:35,520

that was built earlier than we think you

1322

00:53:38,329 --> 00:53:37,020

know there are these primordial Mounds

1323

00:53:41,329 --> 00:53:38,339

under the pyramids that they were kind

1324

00:53:43,309 --> 00:53:41,339

of built over so we wonder if there was

1325

00:53:45,890 --> 00:53:43,319

an earlier civilization that for some

1326

00:53:47,690 --> 00:53:45,900

reason revered this place built this

1327

00:53:49,190 --> 00:53:47,700

kind of small amount then thousands of

1328

00:53:50,329 --> 00:53:49,200

years later someone else came in and

1329

00:53:52,730 --> 00:53:50,339

kind of said oh this is pretty cool

1330

00:53:54,410 --> 00:53:52,740

let's build again and just to kind of

1331

00:53:56,690 --> 00:53:54,420

point to a precedent for this when the

1332

00:53:58,490 --> 00:53:56,700

Conquistadors came to Mexico they

1333

00:54:01,069 --> 00:53:58,500

actually stomped out a lot of the Sacred

1334

00:54:02,750 --> 00:54:01,079

places of the Maya here but what they

1335

00:54:05,390 --> 00:54:02,760

did was build churches on top of them

1336

00:54:07,670 --> 00:54:05,400

instead so you know they put their image

1337

00:54:09,650 --> 00:54:07,680

on top of them but they've repurposed

1338

00:54:11,410 --> 00:54:09,660

the sacred place so there is precedent

1339

00:54:14,809 --> 00:54:11,420

for this happening

1340

00:54:18,130 --> 00:54:14,819

interesting wow I had no idea yeah it's

1341

00:54:22,190 --> 00:54:18,140

just like almost a uh recycling of

1342

00:54:23,569 --> 00:54:22,200

places of uh Faith or worship

1343

00:54:25,609 --> 00:54:23,579

um even if they're not worshipping the

1344

00:54:28,130 --> 00:54:25,619

same gods that that's fascinating man

1345

00:54:29,809 --> 00:54:28,140

absolutely and there's a lot in Egypt

1346

00:54:31,309 --> 00:54:29,819

and Elena will probably post this stuff

1347

00:54:33,290 --> 00:54:31,319

too I really hope she does because a lot

1348

00:54:35,329 --> 00:54:33,300

of the older stuff in Egypt has no

1349

00:54:37,309 --> 00:54:35,339

hieroglyphics on it whatsoever whoever

1350

00:54:39,650 --> 00:54:37,319

those people were and it's the more

1351
00:54:41,390 --> 00:54:39,660
complex stuff that has this kind of

1352
00:54:42,950 --> 00:54:41,400
characteristic as well whoever those

1353
00:54:44,809 --> 00:54:42,960
people were they didn't feel the need to

1354
00:54:46,490 --> 00:54:44,819
say I made this whereas then you have

1355
00:54:48,650 --> 00:54:46,500
people like Khufu coming along and kind

1356
00:54:50,210 --> 00:54:48,660
of inscribing graffiti onto the pyramid

1357
00:54:52,790 --> 00:54:50,220
to be like oh yeah I totally made this

1358
00:54:54,049 --> 00:54:52,800
guys yeah sure it's just wiping sweat

1359
00:54:56,870 --> 00:54:54,059
off let's go ahead and hoping no one

1360
00:54:58,370 --> 00:54:56,880
knows right right

1361
00:55:00,829 --> 00:54:58,380
love that

1362
00:55:02,270 --> 00:55:00,839
um let's we got a couple of comments on

1363
00:55:03,470 --> 00:55:02,280

this pyramid story people are really

1364

00:55:05,150 --> 00:55:03,480

digging it

1365

00:55:07,910 --> 00:55:05,160

um bill says I heard the pyramids have

1366

00:55:09,770 --> 00:55:07,920

some sort of Sonic thing going on and

1367

00:55:12,230 --> 00:55:09,780

then Ian said pyramids were ancient

1368

00:55:14,809 --> 00:55:12,240

power stations of some sort according to

1369

00:55:16,670 --> 00:55:14,819

according to Ancient Aliens and then

1370

00:55:18,770 --> 00:55:16,680

Bill also says pyramids have some sort

1371

00:55:21,410 --> 00:55:18,780

of sound resonance um yeah any of that

1372

00:55:22,790 --> 00:55:21,420

ring true to you Dan yeah absolutely you

1373

00:55:24,290 --> 00:55:22,800

know there are videos you can go on

1374

00:55:26,569 --> 00:55:24,300

YouTube and watch and I think a JF

1375

00:55:28,730 --> 00:55:26,579

Project Unity got to actually be part of

1376

00:55:31,490 --> 00:55:28,740

a resonance ceremony in the main chamber

1377

00:55:33,890 --> 00:55:31,500

and it can produce sounds that you can

1378

00:55:35,510 --> 00:55:33,900

hear through the rock as it carries and

1379

00:55:37,730 --> 00:55:35,520

the the structure seems to have been

1380

00:55:39,950 --> 00:55:37,740

built to carry this sound as far as it

1381

00:55:41,390 --> 00:55:39,960

goes and you can be essentially the

1382

00:55:43,670 --> 00:55:41,400

primordial Mount that I mentioned you

1383

00:55:46,250 --> 00:55:43,680

can be down below the pyramid by that

1384

00:55:48,650 --> 00:55:46,260

primordial Mound and hearing through

1385

00:55:50,450 --> 00:55:48,660

solid rock this kind of incredible

1386

00:55:52,490 --> 00:55:50,460

resonance as people chant in the main

1387

00:55:53,809 --> 00:55:52,500

chamber so you got to wonder you know

1388

00:55:54,530 --> 00:55:53,819

what this was for

1389

00:55:56,930 --> 00:55:54,540

um

1390

00:55:58,309 --> 00:55:56,940

the I think I forget the the guy's name

1391

00:56:00,049 --> 00:55:58,319

Christopher

1392

00:56:02,030 --> 00:56:00,059

it's gonna about me he works with

1393

00:56:03,890 --> 00:56:02,040

Uncharted x a lot at the YouTube channel

1394

00:56:05,569 --> 00:56:03,900

looking at these Christopher Dunn that's

1395

00:56:07,549 --> 00:56:05,579

his name he's an engineer

1396

00:56:09,530 --> 00:56:07,559

um what I really love about his approach

1397

00:56:11,690 --> 00:56:09,540

is he he goes to the pyramids as an

1398

00:56:13,790 --> 00:56:11,700

engineer with all the modern tools that

1399

00:56:15,710 --> 00:56:13,800

we have and kind of you know like a set

1400

00:56:17,450 --> 00:56:15,720

square or rulers and you know just basic

1401

00:56:18,950 --> 00:56:17,460

stuff and he kind of looks at some of

1402

00:56:21,230 --> 00:56:18,960

the marks on the rocks and kind of says

1403

00:56:24,230 --> 00:56:21,240

yeah this you you couldn't do this with

1404

00:56:26,390 --> 00:56:24,240

a you know a Dolomite pounding Stone

1405

00:56:28,010 --> 00:56:26,400

um this is something more this looks

1406

00:56:30,349 --> 00:56:28,020

like something more and this is a mind

1407

00:56:31,790 --> 00:56:30,359

of an engineer so I think we need to

1408

00:56:34,250 --> 00:56:31,800

start listening to these people in a

1409

00:56:35,930 --> 00:56:34,260

similar way with the UFO stuff we need

1410

00:56:38,270 --> 00:56:35,940

to listen to the people who have the

1411

00:56:41,150 --> 00:56:38,280

expertise to tell us that the mainstream

1412

00:56:43,970 --> 00:56:41,160

story is not what it seems to be

1413

00:56:47,690 --> 00:56:43,980

interesting

1414

00:56:49,130 --> 00:56:47,700

dalen says Ramsey's the Second Step his

1415

00:56:51,010 --> 00:56:49,140

name over almost everything the original

1416

00:56:54,230 --> 00:56:51,020

hashtag dude

1417

00:56:58,250 --> 00:56:54,240

that's so true so so true people taking

1418

00:57:00,770 --> 00:56:58,260

credit for everything oh man um yeah

1419

00:57:03,049 --> 00:57:00,780

really really fascinating story and Dan

1420

00:57:06,230 --> 00:57:03,059

you visited a pyramid recently too

1421

00:57:09,589 --> 00:57:06,240

didn't you yeah a number of them so so

1422

00:57:12,829 --> 00:57:09,599

I've been to Toyota cam I've been to

1423

00:57:14,750 --> 00:57:12,839

um edsner to Montauk band to a lot of

1424

00:57:16,250 --> 00:57:14,760

the areas around here and what's amazing

1425

00:57:18,589 --> 00:57:16,260

is that

1426

00:57:20,210 --> 00:57:18,599

like most things in life uh the the

1427

00:57:22,490 --> 00:57:20,220

answer seems to be somewhere between the

1428

00:57:25,130 --> 00:57:22,500

truth and the lie so we we often talk

1429

00:57:26,809 --> 00:57:25,140

about these kind of uh you know the

1430

00:57:28,190 --> 00:57:26,819

blocks in the walls that civilizations

1431

00:57:29,450 --> 00:57:28,200

would use that they wouldn't be

1432

00:57:31,250 --> 00:57:29,460

conventional shapes they're all really

1433

00:57:33,049 --> 00:57:31,260

unique shapes and how did they put them

1434

00:57:35,089 --> 00:57:33,059

together and things like this and having

1435

00:57:36,829 --> 00:57:35,099

got to witness these walls in person you

1436

00:57:38,990 --> 00:57:36,839

can actually see that behind that facade

1437

00:57:43,130 --> 00:57:39,000

that front part of the wall it's a mess

1438

00:57:46,010 --> 00:57:43,140

so there were questions as to as to how

1439

00:57:47,329 --> 00:57:46,020

well kind of media educates people about

1440

00:57:48,950 --> 00:57:47,339

this stuff

1441

00:57:51,470 --> 00:57:48,960

um like there are some things in Graham

1442

00:57:54,349 --> 00:57:51,480

Hancock's later series that I question

1443

00:57:56,030 --> 00:57:54,359

now because they're just they're

1444

00:57:58,190 --> 00:57:56,040

embellished a little bit based on what

1445

00:57:59,809 --> 00:57:58,200

I've seen in person so I would recommend

1446

00:58:01,130 --> 00:57:59,819

that people go out and visit these

1447

00:58:02,990 --> 00:58:01,140

places and get the information for

1448

00:58:05,630 --> 00:58:03,000

themselves and in some regards it's even

1449

00:58:07,130 --> 00:58:05,640

more fascinating so for example Chichen

1450

00:58:08,870 --> 00:58:07,140

Itza

1451

00:58:10,250 --> 00:58:08,880

um for what it's worth I wasn't first on

1452

00:58:12,170 --> 00:58:10,260

the place so much the first thing the

1453

00:58:15,950 --> 00:58:12,180

great greeted me there uh was a

1454

00:58:17,750 --> 00:58:15,960

Starbucks but they they have these ball

1455

00:58:20,390 --> 00:58:17,760

courts where the Maya would play this

1456

00:58:22,069 --> 00:58:20,400

game and in the game uh think of it kind

1457

00:58:24,829 --> 00:58:22,079

of like basketball but the Hoops on its

1458

00:58:27,290 --> 00:58:24,839

side on the wall and they would throw

1459

00:58:30,890 --> 00:58:27,300

this flaming ball that represented the

1460

00:58:33,530 --> 00:58:30,900

sun uh through the hole in the wall

1461

00:58:35,510 --> 00:58:33,540

um and that game had a number of

1462

00:58:38,089 --> 00:58:35,520

outcomes depending on the winner some

1463

00:58:40,730 --> 00:58:38,099

people thought that the losing team's

1464

00:58:41,870 --> 00:58:40,740

Captain would be killed afterwards they

1465

00:58:43,730 --> 00:58:41,880

would be sacrificed some people thought

1466

00:58:45,230 --> 00:58:43,740

that it was the winning teams Captain

1467

00:58:46,910 --> 00:58:45,240

because it was uh you know it was a

1468

00:58:48,770 --> 00:58:46,920

privilege to be sacrificed to the Gods

1469

00:58:50,089 --> 00:58:48,780

uh in those times and in those

1470

00:58:52,490 --> 00:58:50,099

civilizations

1471

00:58:54,650 --> 00:58:52,500

but the truth is we just don't know and

1472

00:58:56,990 --> 00:58:54,660

and I was very thankful that I had a

1473

00:59:00,289 --> 00:58:57,000

tour guide that said we just don't know

1474

00:59:01,789 --> 00:59:00,299

and we probably will never know so these

1475

00:59:04,190 --> 00:59:01,799

kind of things you kind of have to hold

1476

00:59:05,990 --> 00:59:04,200

like me and take seriously but at the

1477

00:59:09,289 --> 00:59:06,000

same time you know I'm stood there

1478

00:59:10,789 --> 00:59:09,299

looking at this this Dolomite uh you you

1479

00:59:12,410 --> 00:59:10,799

know oh sorry not don't like one but

1480

00:59:13,789 --> 00:59:12,420

just just this ball that would have been

1481

00:59:16,190 --> 00:59:13,799

on fire

1482

00:59:18,289 --> 00:59:16,200

um and

1483

00:59:20,030 --> 00:59:18,299

wondering you know these things weighed

1484

00:59:21,770 --> 00:59:20,040

about six kilograms and they were only

1485

00:59:24,410 --> 00:59:21,780

allowed to hit them with their hip or

1486

00:59:27,650 --> 00:59:24,420

elbow because of just how you know heavy

1487

00:59:29,450 --> 00:59:27,660

they were and then this hoop is three

1488

00:59:31,309 --> 00:59:29,460

times as high as the you know the

1489

00:59:33,230 --> 00:59:31,319

standard basketball hoop so I'm still

1490

00:59:35,150 --> 00:59:33,240

going to go in well how the hell did

1491

00:59:38,030 --> 00:59:35,160

they throw that up there you know with

1492

00:59:41,510 --> 00:59:38,040

their heads like what

1493

00:59:44,150 --> 00:59:41,520

oh that's that's hilarious man yeah not

1494

00:59:46,549 --> 00:59:44,160

not the um Mysteries you would really

1495

00:59:48,890 --> 00:59:46,559

expect by going there

1496

00:59:51,470 --> 00:59:48,900

um but yeah unless there you go that's

1497

00:59:54,170 --> 00:59:51,480

that's such a good point yeah

1498

00:59:55,670 --> 00:59:54,180

um ah amazing everyone is still talking

1499

00:59:58,370 --> 00:59:55,680

about it we could talk about pyramids

1500

01:00:00,170 --> 00:59:58,380

forever guys but we're gonna move on to

1501

01:00:02,630 --> 01:00:00,180

the second half of our discussion

1502

01:00:04,609 --> 01:00:02,640

tonight and that is podcast highlights

1503

01:00:06,770 --> 01:00:04,619

of the week but before we do that then

1504

01:00:09,950 --> 01:00:06,780

I'm gonna take just a brief commercial

1505

01:00:11,750 --> 01:00:09,960

break so we can reset the room

1506

01:00:13,910 --> 01:00:11,760

um grab some water if you need to

1507

01:00:16,370 --> 01:00:13,920

brother and I will be right back with

1508

01:00:21,609 --> 01:00:16,380

you guys right on the other side

[Music]

1522

01:01:09,650 --> 01:01:07,250

guys welcome back we are with Dan we're

1523

01:01:11,450 --> 01:01:09,660

back in the room on somewhere in the

1524

01:01:13,609 --> 01:01:11,460

live stream I'm so happy to have Dan

1525

01:01:16,190 --> 01:01:13,619

zetterstrom with me tonight guys he's

1526
01:01:18,289 --> 01:01:16,200
joining us from Mexico I'm in Scotland

1527
01:01:20,750 --> 01:01:18,299
we literally couldn't be much further

1528
01:01:22,730 --> 01:01:20,760
away from each other but

1529
01:01:25,430 --> 01:01:22,740
um I appreciate it so much man for you

1530
01:01:27,470 --> 01:01:25,440
coming on tonight and um hey we're even

1531
01:01:29,809 --> 01:01:27,480
covering in podcast highlights of the

1532
01:01:31,309 --> 01:01:29,819
week one of the shows that you are a

1533
01:01:33,530 --> 01:01:31,319
huge part of

1534
01:01:35,270 --> 01:01:33,540
um so we will get to that in a moment so

1535
01:01:37,370 --> 01:01:35,280
what we do with this section Den is I

1536
01:01:38,210 --> 01:01:37,380
play little clips from podcasts of the

1537
01:01:41,030 --> 01:01:38,220
week

1538
01:01:43,130 --> 01:01:41,040

um sometimes it's not you know exactly

1539

01:01:44,569 --> 01:01:43,140

the most current episode but it's ones

1540

01:01:45,589 --> 01:01:44,579

that have been in the last couple weeks

1541

01:01:47,690 --> 01:01:45,599

or whatnot

1542

01:01:50,329 --> 01:01:47,700

um so I'm gonna go ahead and play our

1543

01:01:51,650 --> 01:01:50,339

first one but before I do that we will

1544

01:01:52,549 --> 01:01:51,660

tease it here

1545

01:01:54,829 --> 01:01:52,559

um tonight we're going to be talking

1546

01:01:57,650 --> 01:01:54,839

about theories of everything that UFO

1547

01:02:00,410 --> 01:01:57,660

podcast weaponized and merge and on

1548

01:02:02,289 --> 01:02:00,420

theories of everything recently uh Kurt

1549

01:02:05,530 --> 01:02:02,299

Joe mango had Leslie King

1550

01:02:07,730 --> 01:02:05,540

and um she talked about everything

1551

01:02:10,190 --> 01:02:07,740

basically all of the work she's ever

1552

01:02:12,049 --> 01:02:10,200

done and um one of the clips that really

1553

01:02:13,849 --> 01:02:12,059

stood out to me was the definition of

1554

01:02:15,589 --> 01:02:13,859

UAP and trying to understand it

1555

01:02:16,789 --> 01:02:15,599

scientifically

1556

01:02:18,410 --> 01:02:16,799

um so I'm gonna go ahead and play that

1557

01:02:20,690 --> 01:02:18,420

clip briefly and we'll come back and

1558

01:02:23,390 --> 01:02:20,700

talk about it on the other side

1559

01:02:25,970 --> 01:02:23,400

where do you draw that long line I don't

1560

01:02:28,430 --> 01:02:25,980

know you know when is it a UAP and when

1561

01:02:30,950 --> 01:02:28,440

is it something else uh and I think

1562

01:02:33,230 --> 01:02:30,960

probably people have their own ways of

1563

01:02:34,270 --> 01:02:33,240

seeing that uh in terms of how they

1564

01:02:37,490 --> 01:02:34,280

personally

1565

01:02:40,250 --> 01:02:37,500

interpret what that term actually means

1566

01:02:42,650 --> 01:02:40,260

uh uh I think it's yeah I don't think we

1567

01:02:45,069 --> 01:02:42,660

have any set agreed upon

1568

01:02:48,910 --> 01:02:45,079

you know definition of what

1569

01:02:52,549 --> 01:02:48,920

characterizes an unidentified area

1570

01:02:54,770 --> 01:02:52,559

anomalous phenomenon and what doesn't

1571

01:02:57,950 --> 01:02:54,780

I mean just that term unidentified

1572

01:02:59,930 --> 01:02:57,960

anomalous phenomenon yeah that's you

1573

01:03:03,049 --> 01:02:59,940

know it's so broad we don't even have

1574

01:03:04,609 --> 01:03:03,059

Ariel in there anymore you know yeah so

1575

01:03:05,870 --> 01:03:04,619

that it's partly because they wanted to

1576

01:03:08,150 --> 01:03:05,880

be able to include the ones that go in

1577

01:03:11,630 --> 01:03:08,160

the water but it broadens it up to mean

1578

01:03:14,990 --> 01:03:11,640

who knows what right yeah

1579

01:03:17,390 --> 01:03:15,000

um so yeah it's just a fascinating a

1580

01:03:19,069 --> 01:03:17,400

fascinating question to ponder and

1581

01:03:20,890 --> 01:03:19,079

there's so many such a variety of

1582

01:03:23,089 --> 01:03:20,900

experiences that people have had

1583

01:03:24,470 --> 01:03:23,099

engaging with these things that you

1584

01:03:26,990 --> 01:03:24,480

don't know

1585

01:03:28,549 --> 01:03:27,000

even almost how to define it anymore

1586

01:03:30,049 --> 01:03:28,559

it's not like we're concerning with

1587

01:03:33,490 --> 01:03:30,059

physics with you can just get down to

1588

01:03:37,430 --> 01:03:35,450

opposite is happening with this it's

1589

01:03:39,109 --> 01:03:37,440

like it just gets less that way over

1590

01:03:41,329 --> 01:03:39,119

time although there's more data being

1591

01:03:43,130 --> 01:03:41,339

collected at the same time you know but

1592

01:03:45,710 --> 01:03:43,140

there's another dimension I think of the

1593

01:03:48,589 --> 01:03:45,720

phenomenon that's not you can't pin it

1594

01:03:50,750 --> 01:03:48,599

down it's just not something that it's

1595

01:03:53,990 --> 01:03:50,760

almost like science isn't the right tool

1596

01:03:56,690 --> 01:03:54,000

sometimes to even try and and capture

1597

01:03:59,710 --> 01:03:56,700

this it's beyond our capability at some

1598

01:04:07,609 --> 01:04:04,130

I loved that idea of science might not

1599

01:04:10,490 --> 01:04:07,619

be the tool to actually

1600

01:04:12,710 --> 01:04:10,500

Define or understand UAP what do you

1601
01:04:14,470 --> 01:04:12,720
think of that comment in first of all

1602
01:04:18,650 --> 01:04:14,480
it's an amazing comment because

1603
01:04:20,329 --> 01:04:18,660
essentially Science Now is half of kind

1604
01:04:21,710 --> 01:04:20,339
of what we know uh we've got to go back

1605
01:04:24,170 --> 01:04:21,720
to Galileo

1606
01:04:26,030 --> 01:04:24,180
and back then there were just so many

1607
01:04:28,549 --> 01:04:26,040
things on the table that it was hard to

1608
01:04:29,870 --> 01:04:28,559
know where to start so science started

1609
01:04:31,250 --> 01:04:29,880
tackling the things that were tangible

1610
01:04:33,049 --> 01:04:31,260
the things that we could measure

1611
01:04:34,370 --> 01:04:33,059
basically that's what science is it

1612
01:04:35,809 --> 01:04:34,380
tells us what's in the universe it

1613
01:04:37,190 --> 01:04:35,819

doesn't have any judgments or anything

1614

01:04:38,750 --> 01:04:37,200

like that of course you know there's

1615

01:04:40,370 --> 01:04:38,760

some wiggle room there because people's

1616

01:04:42,049 --> 01:04:40,380

buyers play into it and organizational

1617

01:04:44,329 --> 01:04:42,059

buyers plays into it and so on so forth

1618

01:04:46,789 --> 01:04:44,339

but science is meant to be objective and

1619

01:04:48,470 --> 01:04:46,799

it's meant to just measure things right

1620

01:04:50,750 --> 01:04:48,480

um we don't consider things like

1621

01:04:52,670 --> 01:04:50,760

philosophy uh

1622

01:04:55,730 --> 01:04:52,680

as part of science you know that's kind

1623

01:04:58,250 --> 01:04:55,740

of a Humanity subject yet the the kind

1624

01:04:59,630 --> 01:04:58,260

of questions that we start getting into

1625

01:05:01,849 --> 01:04:59,640

when we talk about things like

1626

01:05:03,950 --> 01:05:01,859

Consciousness uh things like you know

1627

01:05:06,589 --> 01:05:03,960

what is consciousness who are we why are

1628

01:05:08,870 --> 01:05:06,599

we here that's philosophy yet it's kind

1629

01:05:10,190 --> 01:05:08,880

of poured out from science so I totally

1630

01:05:12,470 --> 01:05:10,200

understand what Leslie's saying there

1631

01:05:14,569 --> 01:05:12,480

and and what Galileo did is he started

1632

01:05:17,210 --> 01:05:14,579

focusing on the things we could measure

1633

01:05:19,670 --> 01:05:17,220

um when he progressed science like crazy

1634

01:05:20,870 --> 01:05:19,680

but not without that kind of kicking and

1635

01:05:22,069 --> 01:05:20,880

screaming thing you know the Catholic

1636

01:05:23,510 --> 01:05:22,079

Church didn't like what he had to say

1637

01:05:25,069 --> 01:05:23,520

and locked him in a tower essentially

1638

01:05:26,630 --> 01:05:25,079

some people wouldn't even look through

1639

01:05:28,190 --> 01:05:26,640

his telescope even though he was like

1640

01:05:29,930 --> 01:05:28,200

this is how it works

1641

01:05:31,309 --> 01:05:29,940

um you know that it took a while for the

1642

01:05:33,410 --> 01:05:31,319

telescope itself to kind of go through

1643

01:05:37,030 --> 01:05:33,420

peer review and be respected by those

1644

01:05:40,849 --> 01:05:37,040

organizations uh so yeah and

1645

01:05:42,650 --> 01:05:40,859

Leslie's that conversation uh went on to

1646

01:05:44,289 --> 01:05:42,660

some really interesting areas like the

1647

01:05:48,410 --> 01:05:44,299

afterlife and things like that because

1648

01:05:49,970 --> 01:05:48,420

how does science define is there an

1649

01:05:52,490 --> 01:05:49,980

afterlife again that's a philosophical

1650

01:05:54,829 --> 01:05:52,500

question but it's we're getting to those

1651
01:05:56,930 --> 01:05:54,839
kind of more subtle questions now and

1652
01:05:58,190 --> 01:05:56,940
things like psilocybin research talking

1653
01:06:01,309 --> 01:05:58,200
about

1654
01:06:04,010 --> 01:06:01,319
um you know Miracle experiences and and

1655
01:06:06,950 --> 01:06:04,020
touching the Divine and kind of uh there

1656
01:06:09,109 --> 01:06:06,960
was one experience where I saw

1657
01:06:10,910 --> 01:06:09,119
um on a show called uh Hamilton's

1658
01:06:13,430 --> 01:06:10,920
pharmacopia where he was looking at

1659
01:06:15,950 --> 01:06:13,440
ayahuesca and after the experience of

1660
01:06:17,809 --> 01:06:15,960
Ayahuasca he said before Ayahuasca I I

1661
01:06:20,390 --> 01:06:17,819
knew that love existed but it was kind

1662
01:06:22,370 --> 01:06:20,400
of this you know non-tangible thing it

1663
01:06:24,109 --> 01:06:22,380

was just something we spoke about but

1664

01:06:25,670 --> 01:06:24,119

afterwards he was like now I know that

1665

01:06:28,789 --> 01:06:25,680

it's something that I could measure if

1666

01:06:31,130 --> 01:06:28,799

only I could build the sensor so

1667

01:06:32,569 --> 01:06:31,140

science might not be the right tool

1668

01:06:34,490 --> 01:06:32,579

because it doesn't have the right tools

1669

01:06:37,370 --> 01:06:34,500

to apply to these problems

1670

01:06:40,370 --> 01:06:37,380

yeah it also kind of speaks to the

1671

01:06:43,190 --> 01:06:40,380

constraints you know in limitations that

1672

01:06:46,510 --> 01:06:43,200

Avi lope talked about yeah we don't even

1673

01:06:49,069 --> 01:06:46,520

have the the logic or the the

1674

01:06:51,950 --> 01:06:49,079

understanding of physics yet to truly

1675

01:06:54,289 --> 01:06:51,960

try to understand these phenomena so

1676

01:06:57,890 --> 01:06:54,299

yeah yeah it's interesting science is

1677

01:06:59,690 --> 01:06:57,900

but one tool to look at all of this

1678

01:07:02,329 --> 01:06:59,700

um was there anything else in this

1679

01:07:03,829 --> 01:07:02,339

Leslie Kane interview that really stood

1680

01:07:06,950 --> 01:07:03,839

out to you at all were you able to catch

1681

01:07:08,750 --> 01:07:06,960

the whole thing or uh yeah I was like I

1682

01:07:10,250 --> 01:07:08,760

I just love hearing Leslie speak about

1683

01:07:12,470 --> 01:07:10,260

things because she speaks about things

1684

01:07:14,930 --> 01:07:12,480

in terms of you know she's a journalist

1685

01:07:16,250 --> 01:07:14,940

and she wants tangible things that other

1686

01:07:18,349 --> 01:07:16,260

people can pick up and run with and

1687

01:07:21,410 --> 01:07:18,359

understand and you could see how

1688

01:07:23,750 --> 01:07:21,420

sensitive she got during the the section

1689

01:07:25,430 --> 01:07:23,760

on kind of ectoplasm and mediums and

1690

01:07:27,049 --> 01:07:25,440

things like that because a lot of people

1691

01:07:30,349 --> 01:07:27,059

aren't ready to hear this stuff but

1692

01:07:32,930 --> 01:07:30,359

peer-reviewed studies do exist and

1693

01:07:39,109 --> 01:07:32,940

it's

1694

01:07:40,370 --> 01:07:39,119

believe that you know the nine to five

1695

01:07:43,069 --> 01:07:40,380

daily life

1696

01:07:44,569 --> 01:07:43,079

isn't all there is whereas your whole

1697

01:07:46,309 --> 01:07:44,579

life that's what you're told you know

1698

01:07:47,510 --> 01:07:46,319

when you're a kid it's what are you

1699

01:07:49,010 --> 01:07:47,520

going to be when you're older because

1700

01:07:52,309 --> 01:07:49,020

you only have a finite amount of time

1701

01:07:53,569 --> 01:07:52,319

here if we had an eternity how how would

1702

01:07:55,370 --> 01:07:53,579

what are you going to be when you're

1703

01:07:57,230 --> 01:07:55,380

older how would that question change you

1704

01:07:58,670 --> 01:07:57,240

know when people kind of go eh I'm gonna

1705

01:07:59,930 --> 01:07:58,680

go and hang out with the animals and see

1706

01:08:01,490 --> 01:07:59,940

see what they have to say about the

1707

01:08:04,190 --> 01:08:01,500

world or would they carry on going to

1708

01:08:05,569 --> 01:08:04,200

work it's right it's a loaded gun no

1709

01:08:08,150 --> 01:08:05,579

question you know

1710

01:08:11,450 --> 01:08:08,160

absolutely it always goes back to kind

1711

01:08:13,250 --> 01:08:11,460

of that that that question of like would

1712

01:08:15,130 --> 01:08:13,260

you want to know when you're gonna die

1713

01:08:18,289 --> 01:08:15,140

and how would that influence your life

1714

01:08:20,510 --> 01:08:18,299

moving forward I I I asked myself that

1715

01:08:22,610 --> 01:08:20,520

question all the time I've even like

1716

01:08:24,829 --> 01:08:22,620

pondered writing scripts about it which

1717

01:08:28,249 --> 01:08:24,839

I know have probably been done many many

1718

01:08:31,130 --> 01:08:28,259

times before but um yeah it is it's a

1719

01:08:32,809 --> 01:08:31,140

very interesting question and um the

1720

01:08:37,070 --> 01:08:32,819

other thing that stood out to me in that

1721

01:08:39,289 --> 01:08:37,080

interview uh was you know uh uh Kurt

1722

01:08:40,910 --> 01:08:39,299

asking Leslie like if the public knew

1723

01:08:43,010 --> 01:08:40,920

what you knew

1724

01:08:45,470 --> 01:08:43,020

um what would uh what would they think

1725

01:08:47,570 --> 01:08:45,480

like like what would they think of all

1726

01:08:49,669 --> 01:08:47,580

this and you know she kind of gave that

1727

01:08:51,829 --> 01:08:49,679

answer that Elizondo gave a while back

1728

01:08:52,789 --> 01:08:51,839

when asked the same question like I I

1729

01:08:55,669 --> 01:08:52,799

think it would be a lot of

1730

01:08:58,130 --> 01:08:55,679

self-reflection and um it would be

1731

01:08:59,150 --> 01:08:58,140

somber and it would be a huge wake-up

1732

01:09:01,910 --> 01:08:59,160

call

1733

01:09:03,890 --> 01:09:01,920

um so it's not so much like oh my God if

1734

01:09:06,709 --> 01:09:03,900

they knew what I knew that aliens exist

1735

01:09:08,689 --> 01:09:06,719

like it would just be amazing disclosure

1736

01:09:10,309 --> 01:09:08,699

disclosure that doesn't seem to be the

1737

01:09:12,890 --> 01:09:10,319

response response that any of these

1738

01:09:14,269 --> 01:09:12,900

people claim to have Insider knowledge

1739

01:09:16,849 --> 01:09:14,279

of any of this stuff and Leslie doesn't

1740

01:09:18,709 --> 01:09:16,859

claim to have a lot of Insider knowledge

1741

01:09:20,329 --> 01:09:18,719

I should make that clear but the stuff

1742

01:09:23,329 --> 01:09:20,339

she has been told and things she's

1743

01:09:25,370 --> 01:09:23,339

learned uh she said the same thing and

1744

01:09:28,249 --> 01:09:25,380

um that that truly makes me wonder it's

1745

01:09:30,950 --> 01:09:28,259

a little troubling but again like any

1746

01:09:33,169 --> 01:09:30,960

uncertainty or any huge paradigm shift

1747

01:09:37,010 --> 01:09:33,179

is going to come with a lot of struggle

1748

01:09:39,050 --> 01:09:37,020

and fear and um and and kind of changing

1749

01:09:41,269 --> 01:09:39,060

everything that's what a paradigm shift

1750

01:09:42,309 --> 01:09:41,279

is so yeah yeah yeah

1751

01:09:44,570 --> 01:09:42,319

um

1752

01:09:46,610 --> 01:09:44,580

I would implore people to go back and

1753

01:09:48,289 --> 01:09:46,620

look at that so two events we've had in

1754

01:09:49,430 --> 01:09:48,299

the past decade uh maybe just outside

1755

01:09:52,130 --> 01:09:49,440

the decade

1756

01:09:54,289 --> 01:09:52,140

um but they both inform kind of how

1757

01:09:56,450 --> 01:09:54,299

people react to these Paradigm shifts so

1758

01:09:58,189 --> 01:09:56,460

one being covet you know look at the

1759

01:10:00,050 --> 01:09:58,199

reactions there people didn't react in

1760

01:10:01,970 --> 01:10:00,060

one way some people ran out and took all

1761

01:10:03,410 --> 01:10:01,980

the toilet paper which is hilarious when

1762

01:10:05,150 --> 01:10:03,420

you like when you think about it like

1763

01:10:07,490 --> 01:10:05,160

that's the concern

1764

01:10:08,510 --> 01:10:07,500

um but at the same time some people you

1765

01:10:10,010 --> 01:10:08,520

know they were compassionate and they

1766

01:10:11,450 --> 01:10:10,020

helped other people people and they

1767

01:10:13,130 --> 01:10:11,460

tried to get through it as a community

1768

01:10:14,689 --> 01:10:13,140

and a team

1769

01:10:16,189 --> 01:10:14,699

um other people took advantage you know

1770

01:10:17,390 --> 01:10:16,199

the politicians in the UK were just

1771

01:10:19,790 --> 01:10:17,400

finding out now through a bunch of

1772

01:10:22,729 --> 01:10:19,800

leaked messages that they utterly just

1773

01:10:23,990 --> 01:10:22,739

took the took the Mickey during that

1774

01:10:25,790 --> 01:10:24,000

whole thing and just took as much money

1775

01:10:27,770 --> 01:10:25,800

as they could so you have all these

1776

01:10:29,270 --> 01:10:27,780

different levels of reactions to it then

1777

01:10:31,490 --> 01:10:29,280

the other one and I find this a much

1778

01:10:35,990 --> 01:10:31,500

more human event uh because of the

1779

01:10:38,750 --> 01:10:36,000

reactions is the when Hawaii had the

1780

01:10:41,209 --> 01:10:38,760

nuclear missile alert and for a full

1781

01:10:42,830 --> 01:10:41,219

like 30 odd minutes the people in Hawaii

1782

01:10:44,390 --> 01:10:42,840

thought they were just they were about

1783

01:10:47,870 --> 01:10:44,400

to die that they were going to be wiped

1784

01:10:50,750 --> 01:10:47,880

out and the reactions of those people to

1785

01:10:52,490 --> 01:10:50,760

to that income and missile uh heroin

1786

01:10:54,770 --> 01:10:52,500

some of them are really funny some you

1787

01:10:57,110 --> 01:10:54,780

know want one guy

1788

01:10:59,030 --> 01:10:57,120

um he started Gathering water because he

1789

01:11:01,130 --> 01:10:59,040

was like I need I need water like I need

1790

01:11:03,229 --> 01:11:01,140

to survive so he started filling up

1791

01:11:05,030 --> 01:11:03,239

these containers on his driveway and

1792

01:11:06,410 --> 01:11:05,040

then once the missile alert you know the

1793

01:11:09,290 --> 01:11:06,420

false kind of

1794

01:11:10,610 --> 01:11:09,300

or the apology came through he had to

1795

01:11:12,050 --> 01:11:10,620

call his boss and work and say I'm sorry

1796

01:11:13,790 --> 01:11:12,060

I can't get my car off the drive it's

1797

01:11:15,169 --> 01:11:13,800

blocked with all these waterfalls and

1798

01:11:17,870 --> 01:11:15,179

you know that's one of the funny ones

1799

01:11:20,930 --> 01:11:17,880

but then you have mothers putting their

1800

01:11:22,729 --> 01:11:20,940

kids in storm drains out of desperation

1801

01:11:24,950 --> 01:11:22,739

um one of the most beautiful stories I

1802

01:11:26,510 --> 01:11:24,960

heard was uh two people in an office

1803

01:11:28,189 --> 01:11:26,520

first thing in the morning when this

1804

01:11:29,030 --> 01:11:28,199

thing came through not everyone was in

1805

01:11:30,110 --> 01:11:29,040

yeah

1806

01:11:32,030 --> 01:11:30,120

um and they were strangers they'd never

1807

01:11:33,890 --> 01:11:32,040

met before and their decision was to sit

1808

01:11:35,510 --> 01:11:33,900

on the roof and hold hands and just be

1809

01:11:37,490 --> 01:11:35,520

there in silence and watch this missile

1810

01:11:39,290 --> 01:11:37,500

come down and and I thought that was you

1811

01:11:41,750 --> 01:11:39,300

know just a really profound moment of

1812

01:11:44,149 --> 01:11:41,760

realizing what's really important when

1813

01:11:46,550 --> 01:11:44,159

everything kind of hits the fan is our

1814

01:11:48,890 --> 01:11:46,560

connections wow

1815

01:11:51,470 --> 01:11:48,900

that's powerful yeah it kind of reminds

1816

01:11:53,570 --> 01:11:51,480

me of uh towards the end of Rogue one

1817

01:11:57,290 --> 01:11:53,580

you know when the planet's about to be

1818

01:11:59,030 --> 01:11:57,300

completely uh just decimated and they

1819

01:12:01,850 --> 01:11:59,040

just stand there and

1820

01:12:04,310 --> 01:12:01,860

watch the inevitable yeah um what can

1821

01:12:09,950 --> 01:12:04,320

you do you know yeah well the end of Toy

1822

01:12:13,850 --> 01:12:11,990

I knew we could somehow bring this back

1823

01:12:16,430 --> 01:12:13,860

to cinema and they will save by aliens

1824

01:12:19,610 --> 01:12:16,440

right let's just throw that out let's we

1825

01:12:21,530 --> 01:12:19,620

gotta yes let's let's leave that pin on

1826
01:12:23,209 --> 01:12:21,540
that one um it was a fantastic interview

1827
01:12:24,649 --> 01:12:23,219
with Leslie I highly suggest people

1828
01:12:28,610 --> 01:12:24,659
check it out

1829
01:12:31,490 --> 01:12:28,620
um the next one was one that you are a

1830
01:12:33,530 --> 01:12:31,500
part of and that is that UFO podcast we

1831
01:12:37,310 --> 01:12:33,540
had Andy mcgrillin interviewing Terry

1832
01:12:40,130 --> 01:12:37,320
Lovelace the experiencer and um in this

1833
01:12:42,229 --> 01:12:40,140
clip that Andy put out uh he uh Terry

1834
01:12:44,870 --> 01:12:42,239
described his implant from his knee from

1835
01:12:46,490 --> 01:12:44,880
an alleged alien abduction so I'm gonna

1836
01:12:48,890 --> 01:12:46,500
go ahead and play that brief clip for

1837
01:12:52,090 --> 01:12:48,900
you guys now and we'll come back on the

1838
01:12:54,709 --> 01:12:52,100

other side and talk about that

1839

01:12:56,810 --> 01:12:54,719

there's an object a square object about

1840

01:12:58,450 --> 01:12:56,820

the size of a fingernail with two wires

1841

01:13:01,310 --> 01:12:58,460

attached

1842

01:13:03,530 --> 01:13:01,320

that's above my right knee and then

1843

01:13:07,250 --> 01:13:03,540

below my right knee in my calf muscle

1844

01:13:09,649 --> 01:13:07,260

was a collection of bones in a floret

1845

01:13:13,310 --> 01:13:09,659

pattern symmetrical

1846

01:13:14,270 --> 01:13:13,320

and uh the radiologist had no idea what

1847

01:13:16,070 --> 01:13:14,280

those were

1848

01:13:18,590 --> 01:13:16,080

he said you know you had to be in some

1849

01:13:20,209 --> 01:13:18,600

kind of accident you know you can to get

1850

01:13:21,590 --> 01:13:20,219

this for an object above your knee I

1851
01:13:24,110 --> 01:13:21,600
don't know how that got into your body

1852
01:13:25,550 --> 01:13:24,120
there has to be a scar and we got into

1853
01:13:27,050 --> 01:13:25,560
this back and forth because I told him

1854
01:13:29,090 --> 01:13:27,060
doctor I don't have a scar I've never

1855
01:13:32,330 --> 01:13:29,100
injured that any other skin knee as a

1856
01:13:36,729 --> 01:13:32,340
kid and he examined my knee and there is

1857
01:13:40,490 --> 01:13:36,739
no Scar and he looked

1858
01:13:42,229 --> 01:13:40,500
confounded he looked stunned and I said

1859
01:13:44,390 --> 01:13:42,239
well doctor let me ask you how often is

1860
01:13:45,890 --> 01:13:44,400
it that you see someone with a foreign

1861
01:13:48,830 --> 01:13:45,900
object like this in their body and

1862
01:13:50,510 --> 01:13:48,840
they're not b a corresponding scar

1863
01:13:52,970 --> 01:13:50,520

it's never he said I've been a

1864

01:13:54,830 --> 01:13:52,980

radiologist for 23 years he says I have

1865

01:13:57,410 --> 01:13:54,840

no idea how this thing got into your

1866

01:14:01,130 --> 01:13:58,790

so

1867

01:14:02,630 --> 01:14:01,140

I asked him show me the x-rays he showed

1868

01:14:07,130 --> 01:14:02,640

me the x-rays

1869

01:14:10,310 --> 01:14:07,140

and I was just absolutely devastated

1870

01:14:13,250 --> 01:14:10,320

um because I was trying to I thought

1871

01:14:17,030 --> 01:14:13,260

that I had lived this all out

1872

01:14:19,430 --> 01:14:17,040

and it was for the most part over with

1873

01:14:20,870 --> 01:14:19,440

um I had no intention to telling anybody

1874

01:14:23,209 --> 01:14:20,880

anything

1875

01:14:25,430 --> 01:14:23,219

but seeing these things just validated

1876

01:14:28,910 --> 01:14:25,440

that they put their hands on me these

1877

01:14:30,590 --> 01:14:28,920

things put their hands on me that it

1878

01:14:32,330 --> 01:14:30,600

wasn't just a sighting I just didn't

1879

01:14:33,709 --> 01:14:32,340

just see a flying saucer there was

1880

01:14:35,030 --> 01:14:33,719

something more intimate to this

1881

01:14:37,610 --> 01:14:35,040

encounter

1882

01:14:39,050 --> 01:14:37,620

and um

1883

01:14:48,950 --> 01:14:39,060

I

1884

01:14:51,290 --> 01:14:48,960

to tell people what happened to me

1885

01:14:53,630 --> 01:14:51,300

and I I couldn't do that if I were

1886

01:14:56,270 --> 01:14:53,640

working for the government I mean am I

1887

01:14:58,189 --> 01:14:56,280

peers in the legal Community uh

1888

01:15:00,050 --> 01:14:58,199

you know it was interesting a couple of

1889

01:15:01,550 --> 01:15:00,060

them were supportive of me

1890

01:15:03,229 --> 01:15:01,560

you know I believe you you know you're

1891

01:15:05,810 --> 01:15:03,239

not the kind of guy to tell

1892

01:15:09,169 --> 01:15:05,820

a tale

1893

01:15:10,850 --> 01:15:09,179

but I had a lot of my friends emailed me

1894

01:15:12,350 --> 01:15:10,860

like what is wrong with you you lost

1895

01:15:14,390 --> 01:15:12,360

your mind

1896

01:15:16,430 --> 01:15:14,400

if this really happened to you why would

1897

01:15:18,350 --> 01:15:16,440

you come out and say such a thing you

1898

01:15:21,470 --> 01:15:18,360

know people think you're crazy blah blah

1899

01:15:26,050 --> 01:15:21,480

blah well you know so be it you know

1900

01:15:32,330 --> 01:15:30,470

as powerful man I I listened to

1901

01:15:34,430 --> 01:15:32,340

um to that entire interview and I've

1902

01:15:36,590 --> 01:15:34,440

been wanting to interview Terry for a

1903

01:15:38,810 --> 01:15:36,600

while now he was so gracious and sent me

1904

01:15:41,149 --> 01:15:38,820

his book a really long time ago and I

1905

01:15:44,270 --> 01:15:41,159

just haven't been able to to work it out

1906

01:15:46,910 --> 01:15:44,280

so I was so happy to see that Andy

1907

01:15:49,250 --> 01:15:46,920

finally got him on and it was very clear

1908

01:15:53,990 --> 01:15:49,260

that a lot of prep went into that and

1909

01:15:57,229 --> 01:15:54,000

also that um Terry just is such a an

1910

01:16:00,649 --> 01:15:57,239

open guy and he's so

1911

01:16:02,390 --> 01:16:00,659

um affected by all of this you know

1912

01:16:04,189 --> 01:16:02,400

people ask me all the time like where

1913

01:16:06,410 --> 01:16:04,199

where are the abduction stories anymore

1914

01:16:08,030 --> 01:16:06,420

it seems like they're gone but now it

1915

01:16:09,410 --> 01:16:08,040

seems that we're kind of uh we're

1916

01:16:11,450 --> 01:16:09,420

getting a lot of them now again we're

1917

01:16:14,090 --> 01:16:11,460

getting Chris Bledsoe just came out with

1918

01:16:16,790 --> 01:16:14,100

his book uh Terry's incident is

1919

01:16:19,850 --> 01:16:16,800

extremely compelling

1920

01:16:21,830 --> 01:16:19,860

um I I Breeze through that book uh to be

1921

01:16:23,510 --> 01:16:21,840

honest so um yeah what did you think

1922

01:16:27,110 --> 01:16:23,520

what do you think of Terry Lovelace's

1923

01:16:28,970 --> 01:16:27,120

story and um and how this interview went

1924

01:16:31,070 --> 01:16:28,980

so I mean firstly I just want to point

1925

01:16:32,209 --> 01:16:31,080

out that this was this was all Andy like

1926

01:16:33,890 --> 01:16:32,219

he prepped and did this interview

1927

01:16:36,290 --> 01:16:33,900

completely on his own and he knocked it

1928

01:16:38,390 --> 01:16:36,300

out the park like just phenomenal

1929

01:16:40,010 --> 01:16:38,400

um and then my kind of part came in when

1930

01:16:42,229 --> 01:16:40,020

I was editing it and and I got to choose

1931

01:16:44,570 --> 01:16:42,239

the clip that we put up and the reason I

1932

01:16:46,250 --> 01:16:44,580

chose that clip is because it kind of

1933

01:16:48,830 --> 01:16:46,260

represents where we are in ufology right

1934

01:16:50,930 --> 01:16:48,840

now we're trying to find tangible things

1935

01:16:53,090 --> 01:16:50,940

that we can work with and what Terry

1936

01:16:55,370 --> 01:16:53,100

presents there is a very tangible thing

1937

01:16:57,590 --> 01:16:55,380

there was an object in his leg that an

1938

01:16:59,270 --> 01:16:57,600

expert told him was anomalous and he'd

1939

01:17:01,010 --> 01:16:59,280

never seen before that's something worth

1940

01:17:02,510 --> 01:17:01,020

listening to we're not seeing what the

1941

01:17:04,370 --> 01:17:02,520

object is we're not saying where it came

1942

01:17:05,630 --> 01:17:04,380

from we're just saying that's a bit

1943

01:17:07,729 --> 01:17:05,640

different and that's something we need

1944

01:17:09,290 --> 01:17:07,739

to figure out like I said we need to

1945

01:17:11,570 --> 01:17:09,300

listen to these experts they're the ones

1946

01:17:13,910 --> 01:17:11,580

with the experience here right

1947

01:17:17,570 --> 01:17:13,920

um what is that objective there was no

1948

01:17:19,790 --> 01:17:17,580

scar there and it it made me think

1949

01:17:21,110 --> 01:17:19,800

actually you know what how how could we

1950

01:17:23,510 --> 01:17:21,120

get something into someone's body

1951

01:17:25,430 --> 01:17:23,520

without leaving a scar if only there

1952

01:17:26,750 --> 01:17:25,440

existed particles that didn't interact

1953

01:17:28,729 --> 01:17:26,760

with things and we've already spoken

1954

01:17:30,950 --> 01:17:28,739

about some of those in this podcast

1955

01:17:32,990 --> 01:17:30,960

talking about nuance and how they move

1956

01:17:35,270 --> 01:17:33,000

through objects right

1957

01:17:37,370 --> 01:17:35,280

um and a particle is only a vibration in

1958

01:17:39,050 --> 01:17:37,380

a wave so essentially if you can affect

1959

01:17:40,910 --> 01:17:39,060

that vibration in the wave you can put

1960

01:17:42,770 --> 01:17:40,920

something in someone's body without uh

1961

01:17:44,689 --> 01:17:42,780

without having a scar without you know

1962

01:17:48,470 --> 01:17:44,699

having to cut them open

1963

01:17:50,570 --> 01:17:48,480

um and and it speaks of this kind of

1964

01:17:51,770 --> 01:17:50,580

this pursuit of precision it doesn't

1965

01:17:54,470 --> 01:17:51,780

matter if we're looking at ancient

1966

01:17:56,330 --> 01:17:54,480

civilizations or UAP both

1967

01:17:58,550 --> 01:17:56,340

areas

1968

01:18:01,130 --> 01:17:58,560

it's kind of speak of this pursuit of

1969

01:18:03,290 --> 01:18:01,140

precision this is what we're where being

1970

01:18:04,430 --> 01:18:03,300

humanity is involved in you know we've

1971

01:18:07,250 --> 01:18:04,440

gone from

1972

01:18:09,470 --> 01:18:07,260

having these clumsy big tools to being

1973

01:18:13,250 --> 01:18:09,480

able to to start engineering things at

1974

01:18:15,290 --> 01:18:13,260

such small scales that uh they

1975

01:18:17,270 --> 01:18:15,300

experience Quantum effects so for

1976

01:18:20,030 --> 01:18:17,280

example you know there's a logic gate in

1977

01:18:21,709 --> 01:18:20,040

computers and those kind of logic gates

1978

01:18:24,169 --> 01:18:21,719

usually transistors there aren't or are

1979

01:18:26,630 --> 01:18:24,179

for a one or a zero once you make those

1980

01:18:28,310 --> 01:18:26,640

small enough you can no longer kind of

1981

01:18:31,130 --> 01:18:28,320

read the logic out of the gate because

1982

01:18:32,450 --> 01:18:31,140

the the particle kind of Skips out and

1983

01:18:34,370 --> 01:18:32,460

it both goes through and doesn't go

1984

01:18:35,689 --> 01:18:34,380

through so you kind of need to engineer

1985

01:18:37,669 --> 01:18:35,699

for that

1986

01:18:39,110 --> 01:18:37,679

um so it makes you wonder you know if if

1987

01:18:41,209 --> 01:18:39,120

we couldn't necessarily make something

1988

01:18:43,610 --> 01:18:41,219

like the pyramid today

1989

01:18:45,770 --> 01:18:43,620

um how did they make that back then

1990

01:18:47,270 --> 01:18:45,780

um and to bring it back to Terry and I

1991

01:18:50,149 --> 01:18:47,280

think this is kind of one of the reasons

1992

01:18:51,770 --> 01:18:50,159

why UFOs and ET life is kind of

1993

01:18:53,030 --> 01:18:51,780

conflated with stuff like the pyramids

1994

01:18:55,910 --> 01:18:53,040

because

1995

01:18:59,510 --> 01:18:55,920

the technology present in these devices

1996

01:19:00,649 --> 01:18:59,520

like like say whether it's a UFO or uh

1997

01:19:02,209 --> 01:19:00,659

you know a stone that's kind of

1998

01:19:03,770 --> 01:19:02,219

engineered to a way that we couldn't

1999

01:19:05,030 --> 01:19:03,780

engineer it today

2000

01:19:08,090 --> 01:19:05,040

um it's all about that pursuit of

2001
01:19:10,610 --> 01:19:08,100
precision we we only crack the atom you

2002
01:19:13,850 --> 01:19:10,620
know during the Manhattan Project and

2003
01:19:15,590 --> 01:19:13,860
now here we are talking about waves in

2004
01:19:17,270 --> 01:19:15,600
the universe and and them being there

2005
01:19:20,990 --> 01:19:17,280
and not being there you know we're

2006
01:19:23,390 --> 01:19:21,000
already past uh what we call space time

2007
01:19:25,550 --> 01:19:23,400
uh thinking of the universe is made of

2008
01:19:28,910 --> 01:19:25,560
particles that's gone the the universe

2009
01:19:30,649 --> 01:19:28,920
is for all probability it's all about uh

2010
01:19:32,990 --> 01:19:30,659
the chances that something are going to

2011
01:19:34,669 --> 01:19:33,000
exist and we've got to start wondering

2012
01:19:36,350 --> 01:19:34,679
you know

2013
01:19:39,470 --> 01:19:36,360

what does it look like when we can

2014

01:19:42,290 --> 01:19:39,480

affect that probability at a fundamental

2015

01:19:44,270 --> 01:19:42,300

level is it just a case of like nudging

2016

01:19:45,229 --> 01:19:44,280

the probability to say

2017

01:19:47,209 --> 01:19:45,239

um

2018

01:19:49,669 --> 01:19:47,219

there is an implant here

2019

01:19:52,250 --> 01:19:49,679

or is it kind of more heavy-handed than

2020

01:19:55,310 --> 01:19:52,260

that the point is that that all of these

2021

01:19:57,890 --> 01:19:55,320

Technologies are real subtle and they're

2022

01:19:59,510 --> 01:19:57,900

Way Beyond what we can achieve today so

2023

01:20:00,770 --> 01:19:59,520

whether you believe that it's ET or

2024

01:20:04,310 --> 01:20:00,780

whether you believe that it's something

2025

01:20:06,410 --> 01:20:04,320

else fact is this technology is unknown

2026

01:20:08,149 --> 01:20:06,420

to us this is something other and

2027

01:20:10,130 --> 01:20:08,159

something that probably will start

2028

01:20:12,169 --> 01:20:10,140

inspiring people to think about how how

2029

01:20:14,930 --> 01:20:12,179

do I put an implant in someone without

2030

01:20:17,149 --> 01:20:14,940

cutting them open and a technology like

2031

01:20:19,910 --> 01:20:17,159

that could change the world

2032

01:20:22,729 --> 01:20:19,920

absolutely yeah could you imagine like

2033

01:20:26,810 --> 01:20:22,739

if if that's the way that um surgery

2034

01:20:29,209 --> 01:20:26,820

moved forward like no evasiveness no

2035

01:20:32,450 --> 01:20:29,219

um it would just be incredible

2036

01:20:35,510 --> 01:20:32,460

incredible so like uh it makes you think

2037

01:20:37,550 --> 01:20:35,520

of uh diabetes right uh people with

2038

01:20:38,510 --> 01:20:37,560

diabetics they've got to take a break of

2039

01:20:40,310 --> 01:20:38,520

blood

2040

01:20:42,530 --> 01:20:40,320

um to kind of see their sugar levels and

2041

01:20:43,850 --> 01:20:42,540

to combat that so so that they can you

2042

01:20:45,649 --> 01:20:43,860

know make sure that they don't die from

2043

01:20:48,050 --> 01:20:45,659

this disease

2044

01:20:50,570 --> 01:20:48,060

um if we could come up with a way of

2045

01:20:52,070 --> 01:20:50,580

reading that sugar level without

2046

01:20:55,430 --> 01:20:52,080

reading the blood

2047

01:20:57,350 --> 01:20:55,440

that feels like a small change but it in

2048

01:20:59,510 --> 01:20:57,360

fact has a lot of implications again

2049

01:21:02,209 --> 01:20:59,520

it's about building sensors that give us

2050

01:21:04,070 --> 01:21:02,219

the eyes to see as opposed to this thing

2051

01:21:05,149 --> 01:21:04,080

not being possible or not being there in

2052

01:21:06,530 --> 01:21:05,159

the first place I always like to

2053

01:21:08,090 --> 01:21:06,540

highlight the James Webb Telescope and

2054

01:21:10,189 --> 01:21:08,100

it looking at Urena so people are like

2055

01:21:12,290 --> 01:21:10,199

whoa Uranus has rings yeah it always did

2056

01:21:14,209 --> 01:21:12,300

they didn't appear because we made the

2057

01:21:15,830 --> 01:21:14,219

James Webb Telescope they've always been

2058

01:21:19,189 --> 01:21:15,840

there we just now finally have given

2059

01:21:21,410 --> 01:21:19,199

ourselves eyes to see exactly you know

2060

01:21:23,810 --> 01:21:21,420

and discovering possible new galaxies

2061

01:21:25,790 --> 01:21:23,820

that have been out there far longer than

2062

01:21:29,630 --> 01:21:25,800

we thought they were which then changes

2063

01:21:31,850 --> 01:21:29,640

our entire cosmology it's just ah God

2064

01:21:34,130 --> 01:21:31,860

and that just to highlight you know the

2065

01:21:36,110 --> 01:21:34,140

the idea that galaxies work or a certain

2066

01:21:39,470 --> 01:21:36,120

size at a certain point in our universe

2067

01:21:41,870 --> 01:21:39,480

that has so so many implications so we

2068

01:21:43,490 --> 01:21:41,880

all know about the great equation right

2069

01:21:46,070 --> 01:21:43,500

um and I won't go into it now but

2070

01:21:47,870 --> 01:21:46,080

basically it's a very conservative

2071

01:21:49,790 --> 01:21:47,880

equation that kind of says okay if there

2072

01:21:51,590 --> 01:21:49,800

are x amount of stars in the galaxy and

2073

01:21:53,810 --> 01:21:51,600

x amount of Galaxy or in the universe

2074

01:21:55,370 --> 01:21:53,820

and x amount galaxies and only one

2075

01:21:57,169 --> 01:21:55,380

percent of those is habitable and only

2076

01:21:59,570 --> 01:21:57,179

one percent of Life on those habitable

2077

01:22:01,729 --> 01:21:59,580

planets becomes technologically kind of

2078

01:22:03,709 --> 01:22:01,739

adept and able to do things so on so

2079

01:22:06,410 --> 01:22:03,719

forth one of the fundamental parts of

2080

01:22:08,450 --> 01:22:06,420

that is how early galaxies formed so

2081

01:22:10,850 --> 01:22:08,460

that equation that we took for granted

2082

01:22:12,709 --> 01:22:10,860

and that Skeptics took for granted is

2083

01:22:14,510 --> 01:22:12,719

completely offended by something that

2084

01:22:16,010 --> 01:22:14,520

James Webb Telescope just casually kind

2085

01:22:17,470 --> 01:22:16,020

of went oh yeah actually you guys were

2086

01:22:21,169 --> 01:22:17,480

wrong about this

2087

01:22:25,189 --> 01:22:21,179

I love that yeah James Webb is like

2088

01:22:26,750 --> 01:22:25,199

literally the ultimate actually I love

2089

01:22:28,430 --> 01:22:26,760

it

2090

01:22:29,990 --> 01:22:28,440

awesome man

2091

01:22:31,669 --> 01:22:30,000

um awesome awesome interview I highly

2092

01:22:35,209 --> 01:22:31,679

suggest people check it out over at that

2093

01:22:37,250 --> 01:22:35,219

UFO podcast and read Terry's book too um

2094

01:22:38,810 --> 01:22:37,260

you will not be disappointed and it

2095

01:22:41,750 --> 01:22:38,820

might even open your mind to the alien

2096

01:22:44,590 --> 01:22:41,760

abduction phenomenon even further so um

2097

01:22:47,510 --> 01:22:44,600

let's move on yeah

2098

01:22:49,490 --> 01:22:47,520

so one comes along was very interested

2099

01:22:51,290 --> 01:22:49,500

in Terry lovelos his story uh so there's

2100

01:22:53,030 --> 01:22:51,300

some involvement there um you know there

2101

01:22:54,649 --> 01:22:53,040

was some interaction at one point I'm

2102

01:22:57,229 --> 01:22:54,659

pretty sure Terry Lovelace was gonna

2103

01:23:01,370 --> 01:22:57,239

kind of feed into the research on on

2104

01:23:02,930 --> 01:23:01,380

physical kind of uh effects from UAP

2105

01:23:04,010 --> 01:23:02,940

um I'm not sure what's going on with

2106

01:23:05,270 --> 01:23:04,020

that now but that's something I'd love

2107

01:23:06,590 --> 01:23:05,280

to talk to Tom about and be like hey

2108

01:23:08,330 --> 01:23:06,600

what is it about this that interested

2109

01:23:10,910 --> 01:23:08,340

you like is this in the IC has this

2110

01:23:12,649 --> 01:23:10,920

taken you know really seriously and held

2111

01:23:14,090 --> 01:23:12,659

up as an example of yeah someone's

2112

01:23:17,090 --> 01:23:14,100

taking people and doing stuff to them

2113

01:23:18,649 --> 01:23:17,100

the the other part of it

2114

01:23:21,530 --> 01:23:18,659

um which has fallen out my brain now

2115

01:23:24,410 --> 01:23:21,540

because this is what it does

2116

01:23:26,149 --> 01:23:24,420

no worries man well no you bring up Tom

2117

01:23:28,189 --> 01:23:26,159

Delong that that's interesting because

2118

01:23:31,310 --> 01:23:28,199

he just put out a tweet like three days

2119

01:23:35,090 --> 01:23:31,320

ago saying if anyone has any alleged

2120

01:23:36,709 --> 01:23:35,100

materials from Craft or possibly like an

2121

01:23:38,930 --> 01:23:36,719

abduction experience or whatever like

2122

01:23:41,270 --> 01:23:38,940

reach out to me to the stars is still

2123

01:23:43,370 --> 01:23:41,280

very interested so hey maybe there's

2124

01:23:46,189 --> 01:23:43,380

still hope that um Terry could get that

2125

01:23:48,290 --> 01:23:46,199

examined or or something I don't know

2126
01:23:50,090 --> 01:23:48,300
like like it's clear that Tom going back

2127
01:23:52,010 --> 01:23:50,100
to Blink has given him a lot more kind

2128
01:23:53,510 --> 01:23:52,020
of you know resources to do things with

2129
01:23:55,310 --> 01:23:53,520
he's probably getting a lot of money

2130
01:23:57,709 --> 01:23:55,320
from the tours and things like that it's

2131
01:23:59,810 --> 01:23:57,719
really cool that he's taking that money

2132
01:24:02,270 --> 01:23:59,820
and going how can I help the UFO subject

2133
01:24:04,669 --> 01:24:02,280
with this you know it's not about you

2134
01:24:06,530 --> 01:24:04,679
know getting a yacht for Tom Delan Tom

2135
01:24:09,410 --> 01:24:06,540
sincerely wants to help this subject

2136
01:24:11,930 --> 01:24:09,420
move forward so you know I I'm really

2137
01:24:14,390 --> 01:24:11,940
curious if anyone got in touch with him

2138
01:24:18,530 --> 01:24:14,400

yeah absolutely by those Blink 182

2139

01:24:21,350 --> 01:24:18,540

albums guys do it let's move on Dan to

2140

01:24:24,709 --> 01:24:21,360

our next podcast and that is weaponized

2141

01:24:26,689 --> 01:24:24,719

with George Knapp and Jeremy Corbell

2142

01:24:29,510 --> 01:24:26,699

um they didn't have a guest this past

2143

01:24:32,090 --> 01:24:29,520

week uh but they did have uh they talked

2144

01:24:34,130 --> 01:24:32,100

a lot about someone who George Knapp had

2145

01:24:37,810 --> 01:24:34,140

been in touch with and that was a senior

2146

01:24:40,910 --> 01:24:37,820

EG and G manager who claims the military

2147

01:24:43,430 --> 01:24:40,920

has a live alien so let's go ahead and

2148

01:24:46,010 --> 01:24:43,440

check out this clip and we'll uh we'll

2149

01:24:48,530 --> 01:24:46,020

talk about it when we get back here when

2150

01:24:51,770 --> 01:24:48,540

when O'Donnell says to you Al O'Donnell

2151
01:24:53,209 --> 01:24:51,780
when he says to you we had a live alien

2152
01:24:55,729 --> 01:24:53,219
a being

2153
01:24:57,410 --> 01:24:55,739
obviously From Another World what was

2154
01:25:00,050 --> 01:24:57,420
your feeling

2155
01:25:01,970 --> 01:25:00,060
well I was overwhelmed because it was in

2156
01:25:03,890 --> 01:25:01,980
effect confirmation of things that I had

2157
01:25:06,470 --> 01:25:03,900
come to believe because of the reporting

2158
01:25:08,630 --> 01:25:06,480
we'd already done uh and then the

2159
01:25:10,430 --> 01:25:08,640
evidence of cover-ups and lies that have

2160
01:25:12,290 --> 01:25:10,440
been told to the public here's this guy

2161
01:25:14,149 --> 01:25:12,300
in a high position with the high

2162
01:25:15,590 --> 01:25:14,159
security clearance telling me that it

2163
01:25:17,450 --> 01:25:15,600

was true that they really did have a

2164

01:25:20,090 --> 01:25:17,460

craft and they had a being my second

2165

01:25:23,149 --> 01:25:20,100

feeling was one of overwhelming sadness

2166

01:25:25,250 --> 01:25:23,159

for the uh the being whatever it was you

2167

01:25:26,870 --> 01:25:25,260

know that was kept out there I asked him

2168

01:25:28,310 --> 01:25:26,880

you know what had happened to him what

2169

01:25:29,450 --> 01:25:28,320

became of it he says I don't know I

2170

01:25:31,970 --> 01:25:29,460

don't know what ever happened to it but

2171

01:25:33,290 --> 01:25:31,980

he was out there for a while alive and

2172

01:25:34,850 --> 01:25:33,300

eventually they figured out a way to

2173

01:25:36,649 --> 01:25:34,860

communicate with it and so I asked him

2174

01:25:38,570 --> 01:25:36,659

well what did it look like and he made

2175

01:25:39,890 --> 01:25:38,580

me guess as he did with all these

2176
01:25:41,870 --> 01:25:39,900
questions they made me guess he said

2177
01:25:44,570 --> 01:25:41,880
well kind of looks like a certain

2178
01:25:46,490 --> 01:25:44,580
political candidate I said well who what

2179
01:25:48,290 --> 01:25:46,500
a politically the other two and at the

2180
01:25:49,910 --> 01:25:48,300
time Ross Perot was running for

2181
01:25:52,430 --> 01:25:49,920
president he said it looks like Ross

2182
01:25:54,890 --> 01:25:52,440
Perot a little skinny guy with uh big

2183
01:25:57,950 --> 01:25:54,900
ears and a tiny head not a classic gray

2184
01:25:59,510 --> 01:25:57,960
looking alien but a very odd looking uh

2185
01:26:01,970 --> 01:25:59,520
creature with really big ears that

2186
01:26:03,470 --> 01:26:01,980
looked like Ross Perot and I laughed and

2187
01:26:04,550 --> 01:26:03,480
so we had these conversations for a

2188
01:26:06,350 --> 01:26:04,560

while

2189

01:26:08,750 --> 01:26:06,360

and I was blown away by the information

2190

01:26:10,430 --> 01:26:08,760

they shared I took all these notes I did

2191

01:26:12,530 --> 01:26:10,440

I was hoping that someday I might be

2192

01:26:14,090 --> 01:26:12,540

able to get the information out and I

2193

01:26:16,550 --> 01:26:14,100

asked him look you're getting up there

2194

01:26:18,649 --> 01:26:16,560

in age can you if I can't record

2195

01:26:21,110 --> 01:26:18,659

something with you could you record a

2196

01:26:23,870 --> 01:26:21,120

statement the effect of tell me this

2197

01:26:25,669 --> 01:26:23,880

story on camera and then when when you

2198

01:26:29,229 --> 01:26:25,679

pass on I could have the tape and he

2199

01:26:35,810 --> 01:26:34,070

hmm so last week we highlighted Russell

2200

01:26:38,270 --> 01:26:35,820

Brand's interview with Jeremy corbeau

2201

01:26:40,610 --> 01:26:38,280

where a lot of these big claims were

2202

01:26:41,930 --> 01:26:40,620

made by Corbell about we've got live

2203

01:26:44,350 --> 01:26:41,940

aliens

2204

01:26:48,290 --> 01:26:44,360

um the reverse engineering technology

2205

01:26:50,090 --> 01:26:48,300

blah blah and now the here we go this

2206

01:26:52,550 --> 01:26:50,100

week on weaponize we hear this story

2207

01:26:54,590 --> 01:26:52,560

that was um that was brought to us by

2208

01:26:57,290 --> 01:26:54,600

George knepp and um we should point out

2209

01:26:59,689 --> 01:26:57,300

it was a former EG and G senior manager

2210

01:27:03,229 --> 01:26:59,699

by the name of Alfred O'Donnell that

2211

01:27:05,629 --> 01:27:03,239

George Knapp had spoken to and uh and it

2212

01:27:06,709 --> 01:27:05,639

turns out that we apparently have a live

2213

01:27:11,090 --> 01:27:06,719

alien

2214

01:27:13,070 --> 01:27:11,100

um and uh George never got you know that

2215

01:27:15,050 --> 01:27:13,080

video never got the video

2216

01:27:17,450 --> 01:27:15,060

um the guy kind of said he was silenced

2217

01:27:18,950 --> 01:27:17,460

and and they went on to kind of talk

2218

01:27:20,629 --> 01:27:18,960

about how this has happened throughout

2219

01:27:23,090 --> 01:27:20,639

the history of this topic people are

2220

01:27:24,649 --> 01:27:23,100

silenced from within to not talk about

2221

01:27:26,090 --> 01:27:24,659

this stuff that they've seen or

2222

01:27:28,189 --> 01:27:26,100

experienced

2223

01:27:30,070 --> 01:27:28,199

um so yeah Dan uh did you catch this in

2224

01:27:32,689 --> 01:27:30,080

entire interview

2225

01:27:34,790 --> 01:27:32,699

was this even you know the core of the

2226

01:27:36,470 --> 01:27:34,800

conversation going on this live alien

2227

01:27:39,709 --> 01:27:36,480

thing or what did you take from

2228

01:27:41,270 --> 01:27:39,719

weaponize this past week yeah so the the

2229

01:27:43,370 --> 01:27:41,280

alien thing was kind of a part of a

2230

01:27:45,110 --> 01:27:43,380

bigger conversation about EG and G and a

2231

01:27:46,729 --> 01:27:45,120

whole bunch of interviews that George

2232

01:27:47,810 --> 01:27:46,739

has done over the years George Knapp

2233

01:27:49,490 --> 01:27:47,820

that is

2234

01:27:51,470 --> 01:27:49,500

um with people that keep bringing up

2235

01:27:53,149 --> 01:27:51,480

this company EG and G it's everywhere

2236

01:27:55,430 --> 01:27:53,159

and you know when I was researching for

2237

01:27:57,290 --> 01:27:55,440

this podcast uh something I've never

2238

01:27:58,610 --> 01:27:57,300

noticed about EJ before kind of slapped

2239

01:28:01,209 --> 01:27:58,620

me across the face do you know when it

2240

01:28:09,830 --> 01:28:05,990

uh no right after the Roswell crash

2241

01:28:11,930 --> 01:28:09,840

okay which you know kind of a lot of

2242

01:28:13,550 --> 01:28:11,940

implications there like yeah that kind

2243

01:28:15,169 --> 01:28:13,560

of whole military industrial complex

2244

01:28:16,610 --> 01:28:15,179

kind of came from that time as well you

2245

01:28:19,189 --> 01:28:16,620

know with the atomic energy commission

2246

01:28:20,750 --> 01:28:19,199

and things like that so it's US Air

2247

01:28:23,149 --> 01:28:20,760

Force too

2248

01:28:25,310 --> 01:28:23,159

yeah and just to say on the UFO's thing

2249

01:28:28,669 --> 01:28:25,320

as well it frustrates me that they were

2250

01:28:30,890 --> 01:28:28,679

ever involved because the way that

2251
01:28:33,169 --> 01:28:30,900
a spacecraft in a warp bubble would move

2252
01:28:35,870 --> 01:28:33,179
it wouldn't be moving like something in

2253
01:28:37,550 --> 01:28:35,880
atmosphere the Air Force is all about

2254
01:28:39,410 --> 01:28:37,560
wings right like even if it's a

2255
01:28:41,570 --> 01:28:39,420
helicopter it's a single wing kind of

2256
01:28:43,490 --> 01:28:41,580
spinning around keeping it aloft whereas

2257
01:28:45,649 --> 01:28:43,500
the Navy is about moving in water and

2258
01:28:47,510 --> 01:28:45,659
how ships accelerate and decelerate in

2259
01:28:49,250 --> 01:28:47,520
space and in vacuum that's a lot more

2260
01:28:50,990 --> 01:28:49,260
akin to how a boat moves through water

2261
01:28:53,330 --> 01:28:51,000
or submarine moves through water than

2262
01:28:54,590 --> 01:28:53,340
something traveling in the air so I love

2263
01:28:55,850 --> 01:28:54,600

that the Navy are getting involved in

2264

01:28:57,290 --> 01:28:55,860

this now because they're they're the

2265

01:28:58,729 --> 01:28:57,300

ones that should have been involved in

2266

01:29:03,110 --> 01:28:58,739

it from the first place

2267

01:29:05,209 --> 01:29:03,120

yeah um yeah the the EJ stuff was just

2268

01:29:06,890 --> 01:29:05,219

kind of mind-blowing the EJ they they

2269

01:29:08,750 --> 01:29:06,900

build a variety of like sensing

2270

01:29:10,669 --> 01:29:08,760

detection and imaging products including

2271

01:29:13,070 --> 01:29:10,679

night vision they were really involved

2272

01:29:14,810 --> 01:29:13,080

in providing the Imaging for the atomic

2273

01:29:16,250 --> 01:29:14,820

weapons tests you know Trinity and

2274

01:29:19,430 --> 01:29:16,260

things like that so they were really

2275

01:29:22,669 --> 01:29:19,440

good enough to to build that technology

2276

01:29:24,410 --> 01:29:22,679

that was affected by the nuclear fallout

2277

01:29:26,750 --> 01:29:24,420

or the radiation coming off of those

2278

01:29:28,129 --> 01:29:26,760

tests in a minimal kind of way of course

2279

01:29:29,689 --> 01:29:28,139

now we know that most people that were

2280

01:29:32,149 --> 01:29:29,699

stood there watching it died of cancer

2281

01:29:34,370 --> 01:29:32,159

from the radiation but again that speaks

2282

01:29:36,050 --> 01:29:34,380

to there being something invisible we

2283

01:29:38,030 --> 01:29:36,060

didn't know about them but we've since

2284

01:29:39,649 --> 01:29:38,040

now we know like radiation's bad you're

2285

01:29:41,090 --> 01:29:39,659

like by Chernobyl we knew that we

2286

01:29:42,830 --> 01:29:41,100

shouldn't be sending people in yeah they

2287

01:29:46,250 --> 01:29:42,840

did anyway right

2288

01:29:48,530 --> 01:29:46,260

um so the other thing about ugnng is they

2289

01:29:51,169 --> 01:29:48,540

they were the guys who provided the

2290

01:29:52,370 --> 01:29:51,179

flights to kind of sensitive places so

2291

01:29:55,250 --> 01:29:52,380

when we're talking about people like Bob

2292

01:29:57,350 --> 01:29:55,260

Lazar Bob Lazar would have gone on the

2293

01:29:59,930 --> 01:29:57,360

Janet flights which were organized by EG

2294

01:30:02,229 --> 01:29:59,940

and G so they really intricately

2295

01:30:06,050 --> 01:30:02,239

involved in that kind of American

2296

01:30:08,209 --> 01:30:06,060

weapons kind of industry and and you

2297

01:30:09,950 --> 01:30:08,219

can't really separate them from it

2298

01:30:12,050 --> 01:30:09,960

um they later became a company called

2299

01:30:13,850 --> 01:30:12,060

URS Federal Services I think that was

2300

01:30:15,530 --> 01:30:13,860

like 2009

2301

01:30:17,030 --> 01:30:15,540

um so you probably won't see that name

2302

01:30:19,850 --> 01:30:17,040

out there kind of in the modern day

2303

01:30:23,149 --> 01:30:19,860

you're looking for URS Federal services

2304

01:30:25,610 --> 01:30:23,159

so this this situation with the alien it

2305

01:30:27,770 --> 01:30:25,620

makes you wonder about we heard that the

2306

01:30:30,950 --> 01:30:27,780

Roswell crash might have been you know a

2307

01:30:32,870 --> 01:30:30,960

balloon thing uh that had

2308

01:30:35,689 --> 01:30:32,880

humans that were surgically altered to

2309

01:30:38,629 --> 01:30:35,699

look a certain way right so we we could

2310

01:30:40,310 --> 01:30:38,639

be looking at Intel games uh you know

2311

01:30:42,050 --> 01:30:40,320

kind of trying to

2312

01:30:43,370 --> 01:30:42,060

signify to Russia that we have something

2313

01:30:45,649 --> 01:30:43,380

that we don't or Russia trying to

2314

01:30:47,810 --> 01:30:45,659

signify to us and distract US during a

2315

01:30:50,450 --> 01:30:47,820

really important time

2316

01:30:51,890 --> 01:30:50,460

um but the bottom line here is that the

2317

01:30:55,790 --> 01:30:51,900

conspiracy

2318

01:30:58,370 --> 01:30:55,800

of UFOs involving EG and G is provable

2319

01:30:59,870 --> 01:30:58,380

through foia like even John Greenwald

2320

01:31:01,370 --> 01:30:59,880

wouldn't refute this he would agree he

2321

01:31:03,950 --> 01:31:01,380

would be like yeah that's provable what

2322

01:31:05,270 --> 01:31:03,960

they had we don't know but it's a

2323

01:31:07,129 --> 01:31:05,280

provable thing

2324

01:31:09,470 --> 01:31:07,139

George talking about communication as

2325

01:31:11,149 --> 01:31:09,480

well uh this is a really interesting one

2326

01:31:14,870 --> 01:31:11,159

for me and always is because what is

2327

01:31:16,250 --> 01:31:14,880

communication you know we we humans we

2328

01:31:19,070 --> 01:31:16,260

communicate in a real specific way

2329

01:31:20,810 --> 01:31:19,080

whether it's writing or language it's

2330

01:31:23,149 --> 01:31:20,820

all kind of based around the same system

2331

01:31:25,910 --> 01:31:23,159

when we limit ourselves but you look at

2332

01:31:27,229 --> 01:31:25,920

something like a rival where their

2333

01:31:28,970 --> 01:31:27,239

language and their writing was a

2334

01:31:30,830 --> 01:31:28,980

different thing uh you look at

2335

01:31:32,510 --> 01:31:30,840

hieroglyphics and that's a different way

2336

01:31:34,010 --> 01:31:32,520

of kind of communicating as well but

2337

01:31:37,370 --> 01:31:34,020

then you can kind of go to crazy things

2338

01:31:39,290 --> 01:31:37,380

like bees dancing for example or whales

2339

01:31:42,830 --> 01:31:39,300

singing or

2340

01:31:44,870 --> 01:31:42,840

they there was a type of wasp or a type

2341

01:31:47,330 --> 01:31:44,880

of fly that was targeted by a type of

2342

01:31:49,250 --> 01:31:47,340

wasp and the way that they communicated

2343

01:31:50,750 --> 01:31:49,260

was from the frequency of their wings

2344

01:31:52,370 --> 01:31:50,760

that's how they would identify each

2345

01:31:54,950 --> 01:31:52,380

other you know they never had eyes like

2346

01:31:57,050 --> 01:31:54,960

we have eyes so

2347

01:31:58,729 --> 01:31:57,060

the WASP or the Predator was able to

2348

01:32:00,229 --> 01:31:58,739

come in and just mimic that frequency

2349

01:32:02,209 --> 01:32:00,239

which they were beating their wings with

2350

01:32:03,890 --> 01:32:02,219

and the the fly would just invite them

2351

01:32:05,629 --> 01:32:03,900

into their home and they would you know

2352

01:32:08,990 --> 01:32:05,639

just sack the place basically and eat

2353

01:32:12,830 --> 01:32:09,000

everything uh so communication

2354

01:32:16,850 --> 01:32:12,840

is is such a loose term that we kind of

2355

01:32:19,729 --> 01:32:16,860

need to to think about more widely did

2356

01:32:20,870 --> 01:32:19,739

the Tic Tac communicate you know when it

2357

01:32:22,129 --> 01:32:20,880

was moving around and making the

2358

01:32:23,330 --> 01:32:22,139

patterns were those patterns

2359

01:32:24,229 --> 01:32:23,340

communication was it trying to say

2360

01:32:27,890 --> 01:32:24,239

something to us that we couldn't

2361

01:32:30,709 --> 01:32:27,900

understand a real kind of efficient way

2362

01:32:33,110 --> 01:32:30,719

to communicate would be through putting

2363

01:32:35,149 --> 01:32:33,120

images in people's minds right uh which

2364

01:32:37,070 --> 01:32:35,159

is just what we call telepathy and it

2365

01:32:39,410 --> 01:32:37,080

comes up in UFO encounters time and time

2366

01:32:41,030 --> 01:32:39,420

again we hear the degrees have no mouths

2367

01:32:43,189 --> 01:32:41,040

so if you have no mouths and you can't

2368

01:32:44,810 --> 01:32:43,199

affect sound in the way that we do to

2369

01:32:47,570 --> 01:32:44,820

kind of you know send messages to each

2370

01:32:49,550 --> 01:32:47,580

other uh how what what means do you have

2371

01:32:51,290 --> 01:32:49,560

to communicate it suggests either like

2372

01:32:52,850 --> 01:32:51,300

sign language or something like that or

2373

01:32:54,590 --> 01:32:52,860

the ability to just transmit your

2374

01:32:57,110 --> 01:32:54,600

thoughts through electromagnetism or

2375

01:32:59,330 --> 01:32:57,120

something like that uh this is a really

2376

01:33:00,110 --> 01:32:59,340

interesting part of the subject I know

2377

01:33:02,110 --> 01:33:00,120

we're going to be talking about

2378

01:33:06,229 --> 01:33:02,120

Spielberg just in a little bit as well

2379

01:33:08,629 --> 01:33:06,239

and it's really potent that in uh Close

2380

01:33:10,310 --> 01:33:08,639

Encounters the Third Kind what that

2381

01:33:13,850 --> 01:33:10,320

essentially comes down to at the end is

2382

01:33:15,290 --> 01:33:13,860

a bunch of artists using the rules of

2383

01:33:17,510 --> 01:33:15,300

the universe whether it's you know

2384

01:33:19,610 --> 01:33:17,520

constructing a drawing that you know

2385

01:33:21,050 --> 01:33:19,620

would be mathematically precise and

2386

01:33:23,270 --> 01:33:21,060

things like that or whether you have the

2387

01:33:24,649 --> 01:33:23,280

military guys using math to inform the

2388

01:33:27,110 --> 01:33:24,659

scales of music

2389

01:33:29,689 --> 01:33:27,120

they're both forms of communication and

2390

01:33:31,669 --> 01:33:29,699

the ship and the humans kind of start

2391

01:33:32,870 --> 01:33:31,679

off really you know it's an awkward

2392

01:33:34,729 --> 01:33:32,880

dance they're kind of stepping on each

2393

01:33:36,590 --> 01:33:34,739

other's toes at the start but after a

2394

01:33:38,689 --> 01:33:36,600

little while it becomes you know this

2395

01:33:40,850 --> 01:33:38,699

this perfect salsa of Waltz of

2396

01:33:42,770 --> 01:33:40,860

communication and they're talking about

2397

01:33:45,110 --> 01:33:42,780

light and sound and it just makes me

2398

01:33:46,610 --> 01:33:45,120

think of that equation that was given to

2399

01:33:49,129 --> 01:33:46,620

Bryce Sable you know it comes up and

2400

01:33:51,410 --> 01:33:49,139

then need to know podcast often way uh

2401
01:33:53,270 --> 01:33:51,420
he was told that the secrets of the

2402
01:33:55,250 --> 01:33:53,280
universe is in light sound and frequency

2403
01:33:57,169 --> 01:33:55,260
and that's a Tesla quote

2404
01:33:58,550 --> 01:33:57,179
um which obviously is loaded again it's

2405
01:34:01,189 --> 01:33:58,560
kind of a whole of the subject of

2406
01:34:03,229 --> 01:34:01,199
discussion but light and sound and

2407
01:34:05,209 --> 01:34:03,239
frequency that is the universe we live

2408
01:34:07,430 --> 01:34:05,219
in so what better ways to communicate

2409
01:34:09,490 --> 01:34:07,440
than than the very fundamentals of the

2410
01:34:12,290 --> 01:34:09,500
space that we enjoy

2411
01:34:16,430 --> 01:34:12,300
absolutely man yeah we're the biggest

2412
01:34:18,530 --> 01:34:16,440
performance piece of all time yeah I

2413
01:34:20,570 --> 01:34:18,540

love that Ryan Baker said I gotta bring

2414

01:34:22,610 --> 01:34:20,580

this up because I'm I empathize with

2415

01:34:25,729 --> 01:34:22,620

this if math is truly the universal

2416

01:34:28,729 --> 01:34:25,739

language I'm F they suck yeah I'm with

2417

01:34:30,350 --> 01:34:28,739

you Ryan I I don't think I either that's

2418

01:34:32,149 --> 01:34:30,360

that's what it is at the Gate of Heaven

2419

01:34:33,709 --> 01:34:32,159

they're like okay so out these

2420

01:34:39,310 --> 01:34:33,719

differential equations if you can't do

2421

01:34:43,189 --> 01:34:41,390

if that's what it's gonna take to

2422

01:34:46,250 --> 01:34:43,199

finally make communication

2423

01:34:48,290 --> 01:34:46,260

um and I can't do it uh what is this all

2424

01:34:49,689 --> 01:34:48,300

been 14

2425

01:34:53,209 --> 01:34:49,699

um

2426

01:34:55,729 --> 01:34:53,219

we'll move on as well

2427

01:34:58,490 --> 01:34:55,739

the zoo hypothesis and how Lou alizandro

2428

01:35:00,830 --> 01:34:58,500

speaks about him right he talks about us

2429

01:35:03,169 --> 01:35:00,840

kind of as way as if we're a gorillas in

2430

01:35:04,669 --> 01:35:03,179

a cage and we're fumbling with a key in

2431

01:35:06,590 --> 01:35:04,679

a lock that's what he says so what

2432

01:35:08,689 --> 01:35:06,600

happens when we get that door open

2433

01:35:10,370 --> 01:35:08,699

a number of different things there's

2434

01:35:11,990 --> 01:35:10,380

gonna be a zookeeper there who's been

2435

01:35:13,790 --> 01:35:12,000

noticed in the gorilla fumbling with the

2436

01:35:16,010 --> 01:35:13,800

lock for a while right in this case that

2437

01:35:19,250 --> 01:35:16,020

is the UAP or the occupants that

2438

01:35:22,550 --> 01:35:19,260

something other but when we get out

2439

01:35:23,629 --> 01:35:22,560

what happens that gate that zookeeper is

2440

01:35:25,550 --> 01:35:23,639

going to have a bunch of choices

2441

01:35:28,790 --> 01:35:25,560

available to them based on our behavior

2442

01:35:31,610 --> 01:35:28,800

in an instant we need to be able to

2443

01:35:33,530 --> 01:35:31,620

kind of project the win not the threat

2444

01:35:35,149 --> 01:35:33,540

right if a gorilla comes out of the cage

2445

01:35:36,350 --> 01:35:35,159

and it's just beating everyone up it's

2446

01:35:38,270 --> 01:35:36,360

probably gonna get shot not a

2447

01:35:39,470 --> 01:35:38,280

tranquilizer however if the gorilla

2448

01:35:42,290 --> 01:35:39,480

comes out of the cage and it's speaking

2449

01:35:44,810 --> 01:35:42,300

eloquently has a monocle and and is you

2450

01:35:46,310 --> 01:35:44,820

know putting out thoughts to your brain

2451

01:35:48,169 --> 01:35:46,320

that is all about like peace and love

2452

01:35:50,149 --> 01:35:48,179

and how it can help you that gets a

2453

01:35:52,790 --> 01:35:50,159

different reaction as well so if these

2454

01:35:54,709 --> 01:35:52,800

beings are telepathic then we we have a

2455

01:35:55,970 --> 01:35:54,719

little ways to go with our subtle senses

2456

01:35:57,770 --> 01:35:55,980

that are part of things like remote

2457

01:36:00,830 --> 01:35:57,780

viewing and things like that before we

2458

01:36:02,870 --> 01:36:00,840

can kind of project that you know peace

2459

01:36:04,850 --> 01:36:02,880

and love

2460

01:36:06,430 --> 01:36:04,860

I love that I can't get that image out

2461

01:36:09,050 --> 01:36:06,440

of my head

2462

01:36:12,410 --> 01:36:09,060

thanks man if there's anything I'm gonna

2463

01:36:15,169 --> 01:36:12,420

take from tonight it's that

2464

01:36:17,330 --> 01:36:15,179

very good points very good points um

2465

01:36:19,490 --> 01:36:17,340

okay let's move on to our last podcast

2466

01:36:22,669 --> 01:36:19,500

highlight of the week and that's Ryan

2467

01:36:24,350 --> 01:36:22,679

Graves merged podcast uh this was two

2468

01:36:25,550 --> 01:36:24,360

weeks ago I believe but I wanted to

2469

01:36:28,490 --> 01:36:25,560

highlight it

2470

01:36:30,649 --> 01:36:28,500

um this was guest Chris Van Voorhees

2471

01:36:33,290 --> 01:36:30,659

um he's a pilot who had a disc shaped

2472

01:36:35,629 --> 01:36:33,300

UFO encounter over the Pacific Ocean

2473

01:36:37,310 --> 01:36:35,639

this was really really interesting

2474

01:36:39,050 --> 01:36:37,320

Ryan's been having a lot of Pilots come

2475

01:36:40,910 --> 01:36:39,060

on to talk about their encounters but

2476

01:36:42,709 --> 01:36:40,920

this one stood out to me for various

2477

01:36:44,510 --> 01:36:42,719

reasons and I'll talk about that on the

2478

01:36:46,669 --> 01:36:44,520

other side so let's go ahead and take a

2479

01:36:47,990 --> 01:36:46,679

look at that clip here

2480

01:36:50,689 --> 01:36:48,000

um well let's start out with the

2481

01:36:52,970 --> 01:36:50,699

earliest one which was in 2005. okay and

2482

01:36:55,610 --> 01:36:52,980

that's when I was flying for gelways or

2483

01:36:59,209 --> 01:36:55,620

or Japan Airlines and that was coming

2484

01:37:01,370 --> 01:36:59,219

out of Fukuoka into Honolulu and we were

2485

01:37:03,649 --> 01:37:01,380

somewhere around just past the

2486

01:37:05,209 --> 01:37:03,659

International Date Line and it was

2487

01:37:07,669 --> 01:37:05,219

really early in the morning when there's

2488

01:37:09,830 --> 01:37:07,679

just a small little sliver of light blue

2489

01:37:11,570 --> 01:37:09,840

on the horizon

2490

01:37:13,610 --> 01:37:11,580

um flying with another captain and a

2491

01:37:16,850 --> 01:37:13,620

flight engineer on the 10. so there are

2492

01:37:19,250 --> 01:37:16,860

three cockpit crew members and uh all of

2493

01:37:21,590 --> 01:37:19,260

a sudden I saw some type of glint out of

2494

01:37:24,290 --> 01:37:21,600

the corner of my eye and looked up it

2495

01:37:26,030 --> 01:37:24,300

was probably at around 30 degrees in

2496

01:37:28,550 --> 01:37:26,040

inclination and maybe about the 10

2497

01:37:31,550 --> 01:37:28,560

o'clock position from our aircraft and

2498

01:37:34,010 --> 01:37:31,560

three large discs and you know I hate to

2499

01:37:36,169 --> 01:37:34,020

sound cliché for that but three large

2500

01:37:39,649 --> 01:37:36,179

discs in a triangular formation actually

2501

01:37:41,810 --> 01:37:39,659

came into the atmosphere glinting off

2502

01:37:44,030 --> 01:37:41,820

the Sun that was over the horizon all

2503

01:37:45,950 --> 01:37:44,040

right well so you were looking up at it

2504

01:37:48,350 --> 01:37:45,960

30 degrees and it was about 10 degrees

2505

01:37:50,030 --> 01:37:48,360

off your nose you said

2506

01:37:51,890 --> 01:37:50,040

um did we how far did you say you

2507

01:37:53,450 --> 01:37:51,900

thought it was were you able to estimate

2508

01:37:56,390 --> 01:37:53,460

that at all you know it was really

2509

01:37:57,950 --> 01:37:56,400

difficult it was far enough to have the

2510

01:38:01,550 --> 01:37:57,960

sun glinting off of it that was still

2511

01:38:03,830 --> 01:38:01,560

down over the horizon and it was uh

2512

01:38:05,689 --> 01:38:03,840

these things were huge I mean there was

2513

01:38:09,110 --> 01:38:05,699

no way to to

2514

01:38:11,689 --> 01:38:09,120

not say they were and for anyone not to

2515

01:38:13,729 --> 01:38:11,699

be able to see it it was amazing to me

2516

01:38:16,729 --> 01:38:13,739

because we had another aircraft in front

2517

01:38:18,830 --> 01:38:16,739

of us they saw it um we saw it and we

2518

01:38:20,570 --> 01:38:18,840

were talking with them and it was such a

2519

01:38:22,250 --> 01:38:20,580

short period we only saw it for maybe 15

2520

01:38:23,810 --> 01:38:22,260

seconds

2521

01:38:25,189 --> 01:38:23,820

um and we asked them are they going to

2522

01:38:27,169 --> 01:38:25,199

tell anybody and they're like no we're

2523

01:38:29,570 --> 01:38:27,179

not going to say anything are you no

2524

01:38:32,270 --> 01:38:29,580

we're not going to say anything either

2525

01:38:33,890 --> 01:38:32,280

um right who with the FAA controllers

2526

01:38:34,970 --> 01:38:33,900

are saying that or the other aircraft no

2527

01:38:36,590 --> 01:38:34,980

this was out over the middle of the

2528

01:38:39,350 --> 01:38:36,600

Pacific Ocean so there's another air

2529

01:38:42,290 --> 01:38:39,360

Japan flight and it was down in front of

2530

01:38:43,970 --> 01:38:42,300

us down below us and um they they had

2531

01:38:45,169 --> 01:38:43,980

seen it as well okay so they did

2532

01:38:46,250 --> 01:38:45,179

actually see it but they were saying

2533

01:38:48,169 --> 01:38:46,260

like Hey we're not going to really

2534

01:38:51,530 --> 01:38:48,179

report this not all three of us in the

2535

01:38:53,330 --> 01:38:51,540

cockpit saw it wow and uh I still am in

2536

01:38:54,830 --> 01:38:53,340

contact with those individuals today and

2537

01:38:57,350 --> 01:38:54,840

we still reminisce about it really

2538

01:38:59,149 --> 01:38:57,360

because it was something that still even

2539

01:39:00,890 --> 01:38:59,159

now it makes the hair stand up on the

2540

01:39:02,750 --> 01:39:00,900

back of my neck I felt privileged to

2541

01:39:04,850 --> 01:39:02,760

have seen it there were people that

2542

01:39:06,950 --> 01:39:04,860

asked me were you scared and I was like

2543

01:39:10,910 --> 01:39:06,960

no I felt privileged because it was

2544

01:39:14,149 --> 01:39:10,920

something that really changed my view on

2545

01:39:16,550 --> 01:39:14,159

on UFOs or uaps up to that point it had

2546

01:39:19,310 --> 01:39:16,560

always been something that had been you

2547

01:39:21,470 --> 01:39:19,320

know I I'd seen some things that were

2548

01:39:22,629 --> 01:39:21,480

odd but I'd never seen anything like

2549

01:39:24,890 --> 01:39:22,639

that I

2550

01:39:27,890 --> 01:39:24,900

attributed my

2551

01:39:31,310 --> 01:39:27,900

at that point in time I should say

2552

01:39:34,310 --> 01:39:31,320

I I look at what I was compared to what

2553

01:39:36,050 --> 01:39:34,320

I am now and the way of mind or my mind

2554

01:39:36,950 --> 01:39:36,060

being open

2555

01:39:39,590 --> 01:39:36,960

um

2556

01:39:41,689 --> 01:39:39,600

it opened my mind really and it allowed

2557

01:39:43,970 --> 01:39:41,699

me to all of a sudden say hey these

2558

01:39:46,669 --> 01:39:43,980

things aren't in the world of fantasy

2559

01:39:48,410 --> 01:39:46,679

these are something that's real there's

2560

01:39:52,129 --> 01:39:48,420

something that that

2561

01:39:54,590 --> 01:39:52,139

uh you know is not in the Paranormal and

2562

01:39:58,790 --> 01:39:54,600

it should be taken as being real and

2563

01:40:03,950 --> 01:40:01,490

I loved that man there's so much we

2564

01:40:06,110 --> 01:40:03,960

could talk about there but um the human

2565

01:40:08,390 --> 01:40:06,120

aspect to it the fact that this guy was

2566

01:40:10,669 --> 01:40:08,400

completely changed by this incident is

2567

01:40:13,729 --> 01:40:10,679

uh that's my ufology that's what I'm all

2568

01:40:15,649 --> 01:40:13,739

about and to hear a pilot say that

2569

01:40:18,350 --> 01:40:15,659

um really really stood out to me and the

2570

01:40:21,649 --> 01:40:18,360

other thing that stood out to me is that

2571

01:40:23,930 --> 01:40:21,659

this just mirrored to me

2572

01:40:26,810 --> 01:40:23,940

um to an extent uh the Kenneth Arnold

2573

01:40:29,510 --> 01:40:26,820

sighting you got a pilot up there seeing

2574

01:40:31,790 --> 01:40:29,520

discs seeing saucers talking about the

2575

01:40:33,169 --> 01:40:31,800

sun reflecting off of them oh my God it

2576

01:40:34,430 --> 01:40:33,179

like gave me shivers when he started

2577

01:40:35,990 --> 01:40:34,440

telling this it's not what I was

2578

01:40:37,970 --> 01:40:36,000

expecting a lot of these Pilots come

2579

01:40:42,050 --> 01:40:37,980

forward and it's sort of these race

2580

01:40:44,330 --> 01:40:42,060

track s UFOs or just like small distant

2581

01:40:47,270 --> 01:40:44,340

dots in the sky but the fact that he was

2582

01:40:49,669 --> 01:40:47,280

close enough to see like a disc shape um

2583

01:40:51,770 --> 01:40:49,679

that's pretty damn close let's be

2584

01:40:53,330 --> 01:40:51,780

completely honest and these things were

2585

01:40:56,090 --> 01:40:53,340

probably pretty big

2586

01:40:58,070 --> 01:40:56,100

um if they were a good distance away so

2587

01:40:59,450 --> 01:40:58,080

um yeah what did you make of this uh

2588

01:41:01,850 --> 01:40:59,460

this clip here

2589

01:41:03,590 --> 01:41:01,860

I'm absolutely loving the amount of

2590

01:41:05,510 --> 01:41:03,600

commercial pilots coming forward now and

2591

01:41:07,790 --> 01:41:05,520

talking about this because one once

2592

01:41:10,010 --> 01:41:07,800

again it's an educational opportunity

2593

01:41:11,390 --> 01:41:10,020

right like we have new things going in

2594

01:41:13,370 --> 01:41:11,400

the sky that we won't know what they

2595

01:41:14,689 --> 01:41:13,380

look like yet uh like the race track UAP

2596

01:41:16,250 --> 01:41:14,699

you know some of them were found to be

2597

01:41:18,169 --> 01:41:16,260

starlink and the effect that it was

2598

01:41:20,149 --> 01:41:18,179

having made it look like these things

2599

01:41:21,530 --> 01:41:20,159

will go into racetrack patterns but at

2600

01:41:22,970 --> 01:41:21,540

the same time some of those Pilots say

2601
01:41:25,070 --> 01:41:22,980
nope that's not what that looked like

2602
01:41:27,229 --> 01:41:25,080
you know this was a circular kind of

2603
01:41:28,550 --> 01:41:27,239
racetrack that was going on not not you

2604
01:41:29,750 --> 01:41:28,560
know something disappearing and then

2605
01:41:31,189 --> 01:41:29,760
something else coming in and making it

2606
01:41:32,090 --> 01:41:31,199
look that way

2607
01:41:35,330 --> 01:41:32,100
um

2608
01:41:38,450 --> 01:41:35,340
to solve UAP we need the info to get the

2609
01:41:40,070 --> 01:41:38,460
info we have to listen and that's what

2610
01:41:41,689 --> 01:41:40,080
uh you know Brian does so well on the

2611
01:41:43,370 --> 01:41:41,699
merge podcast and he has the expertise

2612
01:41:45,410 --> 01:41:43,380
to follow up with the right questions as

2613
01:41:47,090 --> 01:41:45,420

well you know these Pilots aren't stupid

2614

01:41:48,590 --> 01:41:47,100

they're just telling us what they

2615

01:41:50,930 --> 01:41:48,600

experienced

2616

01:41:52,550 --> 01:41:50,940

is the discs coming from space a sign

2617

01:41:53,990 --> 01:41:52,560

that these things come from space not

2618

01:41:55,609 --> 01:41:54,000

necessarily we could be looking at

2619

01:41:57,770 --> 01:41:55,619

signature management right like that's

2620

01:42:01,370 --> 01:41:57,780

come up as one of the five observables

2621

01:42:02,810 --> 01:42:01,380

if I wanted if I say for example I was

2622

01:42:03,770 --> 01:42:02,820

part of a civilization that was really

2623

01:42:06,410 --> 01:42:03,780

small

2624

01:42:08,750 --> 01:42:06,420

on this planet and I didn't want people

2625

01:42:10,850 --> 01:42:08,760

to realize that I was here I would go up

2626

01:42:12,709 --> 01:42:10,860

to the atmosphere outside of the

2627

01:42:14,810 --> 01:42:12,719

atmosphere and come down or at least you

2628

01:42:16,550 --> 01:42:14,820

know outside of that radar height and

2629

01:42:19,129 --> 01:42:16,560

come down and make people think that I

2630

01:42:21,229 --> 01:42:19,139

was coming from there uh that's the

2631

01:42:23,209 --> 01:42:21,239

signature management right and and now

2632

01:42:24,950 --> 01:42:23,219

instead of talking about oh hey you know

2633

01:42:26,149 --> 01:42:24,960

is there another civilization on Earth

2634

01:42:27,649 --> 01:42:26,159

we're talking about if there's

2635

01:42:29,270 --> 01:42:27,659

civilization is on the moon and things

2636

01:42:31,430 --> 01:42:29,280

like that and arguing about Interstellar

2637

01:42:34,430 --> 01:42:31,440

travel but at the same time

2638

01:42:35,930 --> 01:42:34,440

these things could be showing us things

2639

01:42:38,930 --> 01:42:35,940

that they would like us to build you

2640

01:42:40,669 --> 01:42:38,940

know like our idea of flight came from

2641

01:42:42,470 --> 01:42:40,679

watching Birds kind of flying kind of

2642

01:42:44,030 --> 01:42:42,480

going hey could we do that and how is

2643

01:42:45,950 --> 01:42:44,040

what's the physics of that how does it

2644

01:42:47,750 --> 01:42:45,960

work and that's kind of where we're at

2645

01:42:50,470 --> 01:42:47,760

with this UAP stuff as well now we're

2646

01:42:52,729 --> 01:42:50,480

going to be looking to as in the UFO

2647

01:42:55,669 --> 01:42:52,739

reports from you know arrow and things

2648

01:42:57,950 --> 01:42:55,679

like that it says we we want to exploit

2649

01:42:59,810 --> 01:42:57,960

these abilities which essentially means

2650

01:43:01,430 --> 01:42:59,820

copying them for ourselves right whether

2651
01:43:03,410 --> 01:43:01,440
it's for weapons or whether it's just to

2652
01:43:05,990 --> 01:43:03,420
go to you know for me to hop over to

2653
01:43:06,649 --> 01:43:06,000
Scotland and come see you in an instant

2654
01:43:08,270 --> 01:43:06,659
um

2655
01:43:10,510 --> 01:43:08,280
all of these things would change the

2656
01:43:13,490 --> 01:43:10,520
world but you're absolutely right no one

2657
01:43:15,830 --> 01:43:13,500
no one in human history has ever asked

2658
01:43:18,470 --> 01:43:15,840
for an existential crisis and for trauma

2659
01:43:21,709 --> 01:43:18,480
and yet here we have a commercial pilot

2660
01:43:23,450 --> 01:43:21,719
who is involved with you know making

2661
01:43:25,070 --> 01:43:23,460
sure that a whole bunch of people stay

2662
01:43:26,870 --> 01:43:25,080
alive in this you know metal tube that

2663
01:43:27,770 --> 01:43:26,880

he flies from one side of the world to

2664

01:43:30,470 --> 01:43:27,780

the other

2665

01:43:33,530 --> 01:43:30,480

telling us that what he's been presented

2666

01:43:36,590 --> 01:43:33,540

with is way out of his depth these are

2667

01:43:38,930 --> 01:43:36,600

the experts we need to listen to them it

2668

01:43:40,129 --> 01:43:38,940

also uh kind of going back to that kind

2669

01:43:42,050 --> 01:43:40,139

of inspiring us to go a certain

2670

01:43:44,149 --> 01:43:42,060

direction it makes me think of the

2671

01:43:45,830 --> 01:43:44,159

aerial School Landings and the message

2672

01:43:46,609 --> 01:43:45,840

that was given to I think it was Cynthia

2673

01:43:49,129 --> 01:43:46,619

right

2674

01:43:50,870 --> 01:43:49,139

um where she was told that Humanity

2675

01:43:52,910 --> 01:43:50,880

should be careful and not get too

2676

01:43:54,709 --> 01:43:52,920

technology so are we dealing with

2677

01:43:56,390 --> 01:43:54,719

something that wants us to go a certain

2678

01:43:58,370 --> 01:43:56,400

way and something that's saying no no no

2679

01:44:01,550 --> 01:43:58,380

you don't want to go that way you know

2680

01:44:03,350 --> 01:44:01,560

maybe that's an offshoot of humanity to

2681

01:44:05,209 --> 01:44:03,360

go back to that kind of time idea that

2682

01:44:06,890 --> 01:44:05,219

we've touched on maybe that's an

2683

01:44:08,930 --> 01:44:06,900

offshoot of humanity that has kind of

2684

01:44:10,370 --> 01:44:08,940

lost their ability to enjoy life or

2685

01:44:12,050 --> 01:44:10,380

something like that and it's coming back

2686

01:44:14,629 --> 01:44:12,060

to kind of go okay where did we go rock

2687

01:44:17,090 --> 01:44:14,639

how can we change this and and make the

2688

01:44:18,890 --> 01:44:17,100

you know keep that all as part of

2689

01:44:21,050 --> 01:44:18,900

humanity

2690

01:44:23,390 --> 01:44:21,060

um it's making the intangible tangible

2691

01:44:25,370 --> 01:44:23,400

uh and listening to commercial pilots as

2692

01:44:27,410 --> 01:44:25,380

well we've had a commercial pilot for a

2693

01:44:29,810 --> 01:44:27,420

long time now talking openly about a

2694

01:44:32,090 --> 01:44:29,820

situation uh Kurt Russell with the

2695

01:44:34,310 --> 01:44:32,100

Phoenix Lights oh right he was coming

2696

01:44:36,050 --> 01:44:34,320

into land you you know he sold them he

2697

01:44:38,450 --> 01:44:36,060

was up in this guy we knew about that

2698

01:44:40,609 --> 01:44:38,460

that pilot existed and that landed and

2699

01:44:42,530 --> 01:44:40,619

it was only years later when he saw the

2700

01:44:44,930 --> 01:44:42,540

documentary on TV that he remembered

2701

01:44:47,390 --> 01:44:44,940

that he was the pilot that saw that and

2702

01:44:49,370 --> 01:44:47,400

reported it and again so many

2703

01:44:52,189 --> 01:44:49,380

implications right it's like he was

2704

01:44:54,229 --> 01:44:52,199

primed for a situation to go out and

2705

01:44:56,390 --> 01:44:54,239

kind of spread a message and Andy and I

2706

01:44:58,810 --> 01:44:56,400

talk about that all the time is is it

2707

01:45:00,890 --> 01:44:58,820

that these experts and these amazingly

2708

01:45:02,390 --> 01:45:00,900

well-rounded thinkers are being

2709

01:45:03,950 --> 01:45:02,400

presented with something that's just

2710

01:45:06,109 --> 01:45:03,960

going to nudge us down a certain path

2711

01:45:08,330 --> 01:45:06,119

and Primus I think it was the Vietnam

2712

01:45:10,250 --> 01:45:08,340

War that America was all about

2713

01:45:12,109 --> 01:45:10,260

um you know in they said it's about

2714

01:45:14,030 --> 01:45:12,119

hearts and Minds it's not about how many

2715

01:45:16,370 --> 01:45:14,040

people you can kill it's about making

2716

01:45:17,750 --> 01:45:16,380

the adversary agree with you and if you

2717

01:45:18,950 --> 01:45:17,760

can make the whole country agree with

2718

01:45:20,149 --> 01:45:18,960

you then the politicians are going to

2719

01:45:22,010 --> 01:45:20,159

change their mind the war's going to

2720

01:45:23,629 --> 01:45:22,020

change and so on so forth is that what

2721

01:45:24,950 --> 01:45:23,639

we're seeing are we being primed for

2722

01:45:27,729 --> 01:45:24,960

contact right now is that what we're

2723

01:45:31,310 --> 01:45:27,739

going through really makes you think

2724

01:45:33,350 --> 01:45:31,320

it does wow winning a war through hearts

2725

01:45:36,290 --> 01:45:33,360

and Minds I I've never really thought

2726

01:45:39,169 --> 01:45:36,300

about that that's fascinating

2727

01:45:40,390 --> 01:45:39,179

um everyone in the chat is saying snake

2728

01:45:43,070 --> 01:45:40,400

snake

2729

01:45:44,870 --> 01:45:43,080

I love them some Kurt Russell I wish

2730

01:45:48,229 --> 01:45:44,880

Grant levock was here I think he's like

2731

01:45:51,050 --> 01:45:48,239

the biggest Kurt Russell fan in history

2732

01:45:52,910 --> 01:45:51,060

um awesome man um well anything else you

2733

01:45:54,950 --> 01:45:52,920

want to close with with our podcast

2734

01:45:56,870 --> 01:45:54,960

highlights of the week before we got one

2735

01:46:00,830 --> 01:45:56,880

more really fun clip to show everyone

2736

01:46:04,609 --> 01:46:03,050

trying to think I mean there's so much

2737

01:46:07,370 --> 01:46:04,619

every week right it's hard to keep up

2738

01:46:09,890 --> 01:46:07,380

and and maybe so nothing specific but

2739

01:46:11,629 --> 01:46:09,900

just to say people that think that we'd

2740

01:46:12,530 --> 01:46:11,639

experienced nothing burger after nothing

2741

01:46:14,810 --> 01:46:12,540

Burger

2742

01:46:16,669 --> 01:46:14,820

are both are like delusional to me we

2743

01:46:17,750 --> 01:46:16,679

are so much further in the subject than

2744

01:46:20,030 --> 01:46:17,760

we were

2745

01:46:22,129 --> 01:46:20,040

um I said to Lou the other day uh I

2746

01:46:23,870 --> 01:46:22,139

don't think UFOs has ever been in a

2747

01:46:26,209 --> 01:46:23,880

better place I don't think UFOs has ever

2748

01:46:29,450 --> 01:46:26,219

been more popular and mainstream and he

2749

01:46:31,010 --> 01:46:29,460

agreed and it's everywhere and we we

2750

01:46:32,689 --> 01:46:31,020

just got a kind of you know occasionally

2751

01:46:34,609 --> 01:46:32,699

sit back take a sip of wine and smell

2752

01:46:36,109 --> 01:46:34,619

the roses and accept that you know

2753

01:46:37,729 --> 01:46:36,119

people are going to come and take this

2754

01:46:40,030 --> 01:46:37,739

subject from the community soon because

2755

01:46:43,070 --> 01:46:40,040

they're going to be taking it seriously

2756

01:46:44,750 --> 01:46:43,080

yeah it's so true it's so true that's

2757

01:46:47,810 --> 01:46:44,760

kind of why I started doing the show too

2758

01:46:51,709 --> 01:46:47,820

is because I was getting very

2759

01:46:54,770 --> 01:46:51,719

um kind of jaded and and bored of a lot

2760

01:46:57,109 --> 01:46:54,780

of the the more uh government-esque side

2761

01:46:59,450 --> 01:46:57,119

of all this stuff going on

2762

01:47:01,070 --> 01:46:59,460

um but and I was one of those people who

2763

01:47:03,649 --> 01:47:01,080

was like there's not a lot happening

2764

01:47:07,250 --> 01:47:03,659

like okay the report came out we didn't

2765

01:47:08,990 --> 01:47:07,260

get [h__\h] um but the more I do this the

2766

01:47:11,510 --> 01:47:09,000

more I'm digging up stories left and

2767

01:47:12,830 --> 01:47:11,520

right connected to the UAP topic that

2768

01:47:14,930 --> 01:47:12,840

keeps me excited and keeps me

2769

01:47:16,490 --> 01:47:14,940

invigorated and every week I'm like oh

2770

01:47:19,010 --> 01:47:16,500

God what am I going to cover next week

2771

01:47:22,370 --> 01:47:19,020

and I don't even have to dig that far

2772

01:47:25,310 --> 01:47:22,380

like it's just constantly bombarding us

2773

01:47:27,290 --> 01:47:25,320

from every corner so um it's exciting

2774

01:47:29,990 --> 01:47:27,300

man it's really cool

2775

01:47:32,450 --> 01:47:30,000

um well hey one last clip about

2776

01:47:34,609 --> 01:47:32,460

something that was really cool

2777

01:47:36,470 --> 01:47:34,619

um probably one of my all-time favorite

2778

01:47:39,470 --> 01:47:36,480

filmmakers I'm sure a lot of you out

2779

01:47:43,510 --> 01:47:39,480

there too Steven Spielberg oh God I'm so

2780

01:47:49,310 --> 01:47:46,970

George Lucas

2781

01:47:51,470 --> 01:47:49,320

um yeah Steven Spielberg our Close

2782

01:47:54,830 --> 01:47:51,480

Encounters of the Third Kind men are ET

2783

01:47:57,770 --> 01:47:54,840

man um he was on the Stephen Colbert

2784

01:48:00,649 --> 01:47:57,780

show The Late Show and uh was asked

2785

01:48:02,810 --> 01:48:00,659

about UFOs and you know we we've had

2786

01:48:05,090 --> 01:48:02,820

Spielberg talk about it in the past in

2787

01:48:08,990 --> 01:48:05,100

interviews um somewhat but this was a

2788

01:48:10,729 --> 01:48:09,000

pretty very now very modern take on

2789

01:48:12,950 --> 01:48:10,739

what's going on in the UFO World from

2790

01:48:15,050 --> 01:48:12,960

Steven Spielberg so I'm gonna go ahead

2791

01:48:17,330 --> 01:48:15,060

and play this clip and pray to God I

2792

01:48:19,129 --> 01:48:17,340

don't get a copyright strike

2793

01:48:20,930 --> 01:48:19,139

um but let's go ahead and do that that

2794

01:48:23,149 --> 01:48:20,940

goes for all our podcast highlights too

2795

01:48:25,609 --> 01:48:23,159

Jeremy Corbell George Knapp Andy

2796

01:48:27,890 --> 01:48:25,619

mcgrillin uh Ryan Graves please do not

2797

01:48:30,590 --> 01:48:27,900

sue me please do not copyright strike me

2798

01:48:33,229 --> 01:48:30,600

I promise to give you guys all the

2799

01:48:34,970 --> 01:48:33,239

credit next time um but yes there's my

2800

01:48:37,970 --> 01:48:34,980

disclaimer let's go ahead and play this

2801
01:48:41,649 --> 01:48:37,980
clip from Stephen Colbert's Late Show

2802
01:48:46,910 --> 01:48:44,689
hmm what do you think man Spielberg

2803
01:48:48,530 --> 01:48:46,920
commenting on the current state of

2804
01:48:51,770 --> 01:48:48,540
ufology

2805
01:48:53,330 --> 01:48:51,780
I I would absolutely love to sit in a

2806
01:48:56,330 --> 01:48:53,340
room with Stephen and just speak about

2807
01:48:57,590 --> 01:48:56,340
UFOs uh it's great that he kind of just

2808
01:49:00,530 --> 01:48:57,600
comes out and says look you know I don't

2809
01:49:01,609 --> 01:49:00,540
know more than you guys uh and he he

2810
01:49:03,350 --> 01:49:01,619
speaks about

2811
01:49:05,629 --> 01:49:03,360
um to see is to believe

2812
01:49:07,310 --> 01:49:05,639
which now we're just like well not

2813
01:49:08,810 --> 01:49:07,320

necessarily it's even because you can

2814

01:49:10,390 --> 01:49:08,820

make people see things that don't exist

2815

01:49:13,010 --> 01:49:10,400

as well you know

2816

01:49:14,270 --> 01:49:13,020

yeah yeah and yeah that's that's

2817

01:49:16,490 --> 01:49:14,280

actually a really good point you know

2818

01:49:18,109 --> 01:49:16,500

his job is to to create narratives that

2819

01:49:19,850 --> 01:49:18,119

influence people and and you know

2820

01:49:22,129 --> 01:49:19,860

communicate truths of the universe and

2821

01:49:24,410 --> 01:49:22,139

that could be what we're seeing

2822

01:49:27,109 --> 01:49:24,420

um but yeah it's fascinating to hear him

2823

01:49:29,570 --> 01:49:27,119

talk about it I I love how poppable his

2824

01:49:30,890 --> 01:49:29,580

excitement is uh and it makes me think

2825

01:49:32,390 --> 01:49:30,900

of that you know the bit in Independence

2826

01:49:34,250 --> 01:49:32,400

Day when uh they get to the mad

2827

01:49:35,810 --> 01:49:34,260

scientist in Area 51 and the guy's like

2828

01:49:37,550 --> 01:49:35,820

it's a really exciting week and they're

2829

01:49:39,830 --> 01:49:37,560

like really exciting that's the word

2830

01:49:43,689 --> 01:49:39,840

you're gonna pick all right the world is

2831

01:49:47,109 --> 01:49:43,699

being annihilated and yeah

2832

01:49:50,390 --> 01:49:47,119

51. cool bro

2833

01:49:52,189 --> 01:49:50,400

exactly uh he makes a great point in

2834

01:49:53,810 --> 01:49:52,199

terms of kind of saying mathematically

2835

01:49:55,729 --> 01:49:53,820

impossible that whether you need to have

2836

01:49:57,109 --> 01:49:55,739

different species in the universe

2837

01:49:58,970 --> 01:49:57,119

um it would have been great if you kind

2838

01:50:00,890 --> 01:49:58,980

of went a bit further and kind of said

2839

01:50:02,689 --> 01:50:00,900

you know we're starting to redefine the

2840

01:50:05,030 --> 01:50:02,699

intelligences that live around us on

2841

01:50:06,290 --> 01:50:05,040

this planet and real realizing that you

2842

01:50:09,169 --> 01:50:06,300

know just a

2843

01:50:12,229 --> 01:50:09,179

the term that non-human intelligence

2844

01:50:14,450 --> 01:50:12,239

a crow is under that a way I remember

2845

01:50:16,129 --> 01:50:14,460

that a giraffe is under there it's you

2846

01:50:18,109 --> 01:50:16,139

know we don't we don't have the language

2847

01:50:19,609 --> 01:50:18,119

to explain what it is we're seeing yet

2848

01:50:21,770 --> 01:50:19,619

like Leslie said in the toe interview

2849

01:50:23,689 --> 01:50:21,780

what what is an unidentified anomalous

2850

01:50:26,450 --> 01:50:23,699

phenomena it's just something outside of

2851

01:50:28,490 --> 01:50:26,460

the bounds of known science

2852

01:50:29,750 --> 01:50:28,500

um I had a note here about kind of

2853

01:50:31,310 --> 01:50:29,760

signature management but we've already

2854

01:50:32,030 --> 01:50:31,320

touched on that

2855

01:50:33,470 --> 01:50:32,040

um

2856

01:50:37,070 --> 01:50:33,480

what's what's interesting is that

2857

01:50:38,450 --> 01:50:37,080

Steven's original idea for et you know

2858

01:50:40,430 --> 01:50:38,460

that that kind of became love and light

2859

01:50:42,709 --> 01:50:40,440

in a kid's film but his original idea

2860

01:50:44,750 --> 01:50:42,719

for et was much closer to science there

2861

01:50:46,729 --> 01:50:44,760

was a family Under Siege on a farmhouse

2862

01:50:49,729 --> 01:50:46,739

from from an alien

2863

01:50:52,070 --> 01:50:49,739

you know alien visitors and at some

2864

01:50:53,750 --> 01:50:52,080

point in the process he refined it and

2865

01:50:55,129 --> 01:50:53,760

kind of got rid of all that evil side of

2866

01:50:57,729 --> 01:50:55,139

stuff and and made it this family

2867

01:51:01,430 --> 01:50:57,739

friendly film that we know and and love

2868

01:51:03,770 --> 01:51:01,440

and there's a big aspect of this

2869

01:51:05,510 --> 01:51:03,780

whole phenomenon thing you know we that

2870

01:51:07,250 --> 01:51:05,520

really interests me and that is

2871

01:51:10,310 --> 01:51:07,260

consciousness and the idea that we can

2872

01:51:13,790 --> 01:51:10,320

be inspired to do things this tracks all

2873

01:51:17,209 --> 01:51:13,800

the way back to why why did we build the

2874

01:51:19,189 --> 01:51:17,219

first rocket Jack Parsons the idea

2875

01:51:23,270 --> 01:51:19,199

didn't come from Norway Jack Parsons was

2876

01:51:24,950 --> 01:51:23,280

known for his kind of esoteric uh kind

2877

01:51:27,050 --> 01:51:24,960

of slant and he would go and perform

2878

01:51:28,609 --> 01:51:27,060

rituals in the desert and according to

2879

01:51:33,530 --> 01:51:28,619

him

2880

01:51:35,510 --> 01:51:33,540

rocket to reach the stars and it makes

2881

01:51:37,729 --> 01:51:35,520

you wonder where that idea came from is

2882

01:51:41,090 --> 01:51:37,739

it that there's a being that's given us

2883

01:51:42,649 --> 01:51:41,100

these ideas uh you know and ideas seem

2884

01:51:43,970 --> 01:51:42,659

to come from more than one place as well

2885

01:51:45,590 --> 01:51:43,980

so is there something that we're all

2886

01:51:47,149 --> 01:51:45,600

taping into that it's just the first

2887

01:51:48,290 --> 01:51:47,159

person to act on it kind of gets the

2888

01:51:50,450 --> 01:51:48,300

credit

2889

01:51:52,010 --> 01:51:50,460

um and what is guiding us from there

2890

01:51:53,149 --> 01:51:52,020

it's a really intriguing part of the

2891

01:51:54,709 --> 01:51:53,159

conversation that we just don't

2892

01:51:56,629 --> 01:51:54,719

understand because we don't understand

2893

01:51:59,030 --> 01:51:56,639

Consciousness or inspiration or the

2894

01:52:01,669 --> 01:51:59,040

imagination and we're just starting to

2895

01:52:03,350 --> 01:52:01,679

get to the idea of multiverses

2896

01:52:04,790 --> 01:52:03,360

um and if I'm not careful I'm going to

2897

01:52:06,410 --> 01:52:04,800

go into the kind of whole dreams being

2898

01:52:10,010 --> 01:52:06,420

like about multiverses that the doctor

2899

01:52:12,410 --> 01:52:10,020

strange presented so but uh but I loved

2900

01:52:14,750 --> 01:52:12,420

what's even said about

2901
01:52:16,490 --> 01:52:14,760
um and both Stevens in fact they they

2902
01:52:18,109 --> 01:52:16,500
kind of had a bit of a joke about uh

2903
01:52:21,070 --> 01:52:18,119
Spielberg getting away with showing full

2904
01:52:23,270 --> 01:52:21,080
frontal nudity of an alien species

2905
01:52:26,510 --> 01:52:23,280
and it's such a good point because the

2906
01:52:30,950 --> 01:52:26,520
Grays are always naked and called a

2907
01:52:33,649 --> 01:52:30,960
Colbert how do call back yeah okay as an

2908
01:52:36,530 --> 01:52:33,659
American you get to Define that for me

2909
01:52:38,390 --> 01:52:36,540
um I'm probably wrong he he kind of says

2910
01:52:41,209 --> 01:52:38,400
well you know what what if the Grays

2911
01:52:43,189 --> 01:52:41,219
were in skin tight suits and in recent

2912
01:52:46,070 --> 01:52:43,199
years we've heard well the Grays might

2913
01:52:48,410 --> 01:52:46,080

not even be beings they might be avatars

2914

01:52:50,030 --> 01:52:48,420

and when you kind of get to that area of

2915

01:52:52,669 --> 01:52:50,040

discussion you've got to wonder like why

2916

01:52:54,350 --> 01:52:52,679

why would you use an avatar so it could

2917

01:52:57,470 --> 01:52:54,360

be to cross the vast Interstellar

2918

01:53:00,169 --> 01:52:57,480

distances it could be even to kind of go

2919

01:53:03,169 --> 01:53:00,179

outside the lines a little bit here that

2920

01:53:05,330 --> 01:53:03,179

some other you know Multiverse

2921

01:53:07,070 --> 01:53:05,340

cannot function here so they have to

2922

01:53:10,010 --> 01:53:07,080

send these avatars to function in their

2923

01:53:11,450 --> 01:53:10,020

place and report back and they're all

2924

01:53:14,149 --> 01:53:11,460

such kind of

2925

01:53:16,310 --> 01:53:14,159

potent loaded things to talk about but

2926

01:53:18,890 --> 01:53:16,320

it just speaks to how little information

2927

01:53:20,990 --> 01:53:18,900

we have about this phenomena

2928

01:53:22,430 --> 01:53:21,000

um and I intend that as a plural thing

2929

01:53:24,169 --> 01:53:22,440

because we could have multiple species

2930

01:53:26,810 --> 01:53:24,179

interacted in multiple parts of life

2931

01:53:29,689 --> 01:53:26,820

that we're just unaware of interacting

2932

01:53:31,310 --> 01:53:29,699

um 90 I think it's like 95 uh it's

2933

01:53:33,470 --> 01:53:31,320

something around there of the universe

2934

01:53:35,270 --> 01:53:33,480

is just unknown to us something occupies

2935

01:53:38,030 --> 01:53:35,280

that space something that we think of as

2936

01:53:40,189 --> 01:53:38,040

a vacuum is just

2937

01:53:41,750 --> 01:53:40,199

think of it like we're in an ocean and

2938

01:53:43,609 --> 01:53:41,760

the vacuum is the shore

2939

01:53:45,530 --> 01:53:43,619

something else could be on that Shore

2940

01:53:46,970 --> 01:53:45,540

and we just don't know about it until we

2941

01:53:48,890 --> 01:53:46,980

get there there was a really great movie

2942

01:53:50,930 --> 01:53:48,900

that came out a few years back called my

2943

01:53:52,850 --> 01:53:50,940

octopus teacher and it was about a diver

2944

01:53:55,370 --> 01:53:52,860

who who he just might dive in and he

2945

01:53:57,229 --> 01:53:55,380

befriended an octopus essentially right

2946

01:53:59,270 --> 01:53:57,239

and at some point in the movie he lifts

2947

01:54:01,430 --> 01:53:59,280

it out of the water and the second that

2948

01:54:03,050 --> 01:54:01,440

I saw that I was like oh God that's

2949

01:54:09,350 --> 01:54:03,060

that's an abduction

2950

01:54:11,990 --> 01:54:09,360

from a non- kind of universe being yeah

2951
01:54:14,330 --> 01:54:12,000
but what happened was as a result of

2952
01:54:16,550 --> 01:54:14,340
being shown that this you know new kind

2953
01:54:18,709 --> 01:54:16,560
of Paradigm existed the octopus then

2954
01:54:21,470 --> 01:54:18,719
started climbing out of the water onto

2955
01:54:24,590 --> 01:54:21,480
land to avoid predators

2956
01:54:26,930 --> 01:54:24,600
so that octopus's whole Paradigm was

2957
01:54:28,669 --> 01:54:26,940
shifted and the octopus can't go and

2958
01:54:30,109 --> 01:54:28,679
write a book and tell other octopus

2959
01:54:32,629 --> 01:54:30,119
about it right like that's just an

2960
01:54:35,629 --> 01:54:32,639
experience of that one being yet it

2961
01:54:36,470 --> 01:54:35,639
changed its whole life so you gotta want

2962
01:54:38,510 --> 01:54:36,480
to like

2963
01:54:40,850 --> 01:54:38,520

does that behave your spread now

2964

01:54:42,590 --> 01:54:40,860

does us being more intrusive to other

2965

01:54:44,209 --> 01:54:42,600

species tell the species oh there's

2966

01:54:45,830 --> 01:54:44,219

something else here and they're react in

2967

01:54:48,410 --> 01:54:45,840

like we are and they're just as curious

2968

01:54:49,729 --> 01:54:48,420

as us we really boggles the mind

2969

01:54:54,050 --> 01:54:49,739

wow

2970

01:54:55,970 --> 01:54:54,060

that film back when it came out and I

2971

01:54:58,669 --> 01:54:55,980

heard it was just so deeply emotional

2972

01:55:00,530 --> 01:54:58,679

that I wasn't in a place as I think a

2973

01:55:03,229 --> 01:55:00,540

lot of people weren't during the

2974

01:55:06,350 --> 01:55:03,239

pandemic to really uh watch something

2975

01:55:08,030 --> 01:55:06,360

that emotionally powerful but I think

2976

01:55:09,770 --> 01:55:08,040

I'm ready now especially in today's

2977

01:55:12,950 --> 01:55:09,780

world where we've kind of come out on

2978

01:55:15,590 --> 01:55:12,960

the other side realizing we can survive

2979

01:55:17,570 --> 01:55:15,600

these things we can overcome and and

2980

01:55:20,090 --> 01:55:17,580

that speaks to the the greater picture

2981

01:55:22,970 --> 01:55:20,100

of all of this you know that that's

2982

01:55:25,850 --> 01:55:22,980

that's such an interesting comparison

2983

01:55:28,070 --> 01:55:25,860

you made like it was taken out of its

2984

01:55:30,169 --> 01:55:28,080

Paradigm and now it knows there's

2985

01:55:33,109 --> 01:55:30,179

something else out there

2986

01:55:36,530 --> 01:55:33,119

um and even if it did go back into the

2987

01:55:39,010 --> 01:55:36,540

ocean and tell the other octopi you know

2988

01:55:41,390 --> 01:55:39,020

is it octopi

2989

01:55:43,370 --> 01:55:41,400

I could be a party people with this the

2990

01:55:45,109 --> 01:55:43,380

correct term is octopities because it's

2991

01:55:46,729 --> 01:55:45,119

a Greek group but since the English

2992

01:55:49,189 --> 01:55:46,739

language adopted it you can just say

2993

01:55:50,450 --> 01:55:49,199

octopuses and it's correct okay I knew

2994

01:55:54,530 --> 01:55:50,460

you would know that

2995

01:55:56,450 --> 01:55:54,540

um yeah I I I it would be interesting if

2996

01:55:58,790 --> 01:55:56,460

it did go back and say you will never

2997

01:56:00,830 --> 01:55:58,800

guess what just happened like there's a

2998

01:56:02,990 --> 01:56:00,840

whole other world out there we don't

2999

01:56:05,750 --> 01:56:03,000

have to worry about the Sharks anymore

3000

01:56:08,330 --> 01:56:05,760

or whoever's gonna hunt us

3001
01:56:10,790 --> 01:56:08,340
um we can go up here uh but just not for

3002
01:56:12,950 --> 01:56:10,800
too long we can't we can't do that

3003
01:56:15,830 --> 01:56:12,960
because then we'll die um did you ever

3004
01:56:18,169 --> 01:56:15,840
see um Pixar's soul

3005
01:56:20,990 --> 01:56:18,179
nope that was another one where I just

3006
01:56:23,810 --> 01:56:21,000
was not emotionally totally watch it

3007
01:56:25,310 --> 01:56:23,820
it's a very potent movie like I honestly

3008
01:56:26,870 --> 01:56:25,320
recommend they they actually make a

3009
01:56:29,149 --> 01:56:26,880
really good double feature but there's a

3010
01:56:31,189 --> 01:56:29,159
bit in that as well where one of the

3011
01:56:32,510 --> 01:56:31,199
beings from the afterlife is like oh

3012
01:56:34,070 --> 01:56:32,520
yeah we have to get this person back

3013
01:56:36,770 --> 01:56:34,080

into the Afterlife and they grab a

3014

01:56:38,629 --> 01:56:36,780

person and it's a mistaken identity and

3015

01:56:40,609 --> 01:56:38,639

the reaction of this person when he's

3016

01:56:43,070 --> 01:56:40,619

put back onto Earth is to just cower

3017

01:56:45,109 --> 01:56:43,080

into a ball and I was like did Pixar

3018

01:56:47,209 --> 01:56:45,119

just really casually show an abduction

3019

01:56:49,189 --> 01:56:47,219

from like a multiversal afterlife

3020

01:56:50,990 --> 01:56:49,199

perspective and show the trauma that it

3021

01:56:52,729 --> 01:56:51,000

has on someone

3022

01:56:55,370 --> 01:56:52,739

um it's a really Nifty little clip to

3023

01:56:56,930 --> 01:56:55,380

kind of you know exemplify what happens

3024

01:56:58,850 --> 01:56:56,940

to us when we're taken out of our

3025

01:57:01,490 --> 01:56:58,860

Paradigm without it being explained to

3026
01:57:03,530 --> 01:57:01,500
us yeah which is apparently what's going

3027
01:57:06,590 --> 01:57:03,540
on with a lot of people out there so

3028
01:57:09,169 --> 01:57:06,600
yeah absolutely fascinating man well hey

3029
01:57:11,209 --> 01:57:09,179
we have covered a lot I've kept you way

3030
01:57:12,890 --> 01:57:11,219
longer than I had told you I was going

3031
01:57:15,050 --> 01:57:12,900
to keep you I know you still have the

3032
01:57:18,350 --> 01:57:15,060
whole day ahead of you

3033
01:57:20,750 --> 01:57:18,360
um so and any final words before we wrap

3034
01:57:23,030 --> 01:57:20,760
this up my man and get all your socials

3035
01:57:26,510 --> 01:57:23,040
and all that um anything anything you

3036
01:57:29,870 --> 01:57:26,520
want to leave our audience with tonight

3037
01:57:32,629 --> 01:57:29,880
just I would say to

3038
01:57:34,609 --> 01:57:32,639

keep looking up be open-minded but not

3039

01:57:35,689 --> 01:57:34,619

so much so that your brain's gonna fall

3040

01:57:38,270 --> 01:57:35,699

out

3041

01:57:40,910 --> 01:57:38,280

um consider things that you consider

3042

01:57:42,410 --> 01:57:40,920

challenging for example I've just

3043

01:57:44,990 --> 01:57:42,420

finished reading three body problem book

3044

01:57:46,370 --> 01:57:45,000

book series and so many people just tell

3045

01:57:48,290 --> 01:57:46,380

me oh I didn't read it because it was a

3046

01:57:51,169 --> 01:57:48,300

hard read you know what

3047

01:57:52,430 --> 01:57:51,179

unfortunately you're missing out on on a

3048

01:57:54,350 --> 01:57:52,440

lot of ideas and things that are

3049

01:57:55,970 --> 01:57:54,360

presenting that though it's tough and

3050

01:57:57,950 --> 01:57:55,980

it's challenging it actually will lead

3051
01:58:00,169 --> 01:57:57,960
you to kind of a new plateau in terms of

3052
01:58:01,970 --> 01:58:00,179
how you think of the subject so I would

3053
01:58:04,010 --> 01:58:01,980
just tell everyone you know consider the

3054
01:58:05,629 --> 01:58:04,020
impossible really try and understand

3055
01:58:08,450 --> 01:58:05,639
what it means when we say the universe

3056
01:58:10,570 --> 01:58:08,460
is infinite go out tonight and stare a

3057
01:58:12,830 --> 01:58:10,580
bit of the sky that is completely black

3058
01:58:14,510 --> 01:58:12,840
and try and get your head around the

3059
01:58:16,370 --> 01:58:14,520
fact that you're looking at millions and

3060
01:58:18,709 --> 01:58:16,380
millions of galaxies with millions of

3061
01:58:21,229 --> 01:58:18,719
stars with millions of planets even

3062
01:58:23,209 --> 01:58:21,239
though you can't see that far

3063
01:58:24,709 --> 01:58:23,219

and then just try and think about the

3064

01:58:26,689 --> 01:58:24,719

implications for that and sit with it

3065

01:58:28,750 --> 01:58:26,699

for a moment because it's it's really

3066

01:58:31,370 --> 01:58:28,760

powerful

3067

01:58:34,089 --> 01:58:31,380

amazing well I'm just gonna end the show

3068

01:58:39,109 --> 01:58:34,099

there I can't top that so bye everybody

3069

01:58:41,629 --> 01:58:39,119

bye no dude thank you um this was uh a

3070

01:58:43,550 --> 01:58:41,639

very rewarding conversation tonight I'm

3071

01:58:46,189 --> 01:58:43,560

so happy that you were able to run

3072

01:58:49,790 --> 01:58:46,199

through all of this with us uh but

3073

01:58:51,950 --> 01:58:49,800

before we go please let us know Dan what

3074

01:58:54,109 --> 01:58:51,960

is coming up next for you and where can

3075

01:58:57,410 --> 01:58:54,119

everyone find everything you're up to

3076

01:58:59,330 --> 01:58:57,420

sure so uh you can find me over at you

3077

01:59:01,550 --> 01:58:59,340

know I do the the breakdowns with Andy

3078

01:59:03,709 --> 01:59:01,560

over on that UFO podcast on all my

3079

01:59:05,990 --> 01:59:03,719

socials it's the signal I like the

3080

01:59:09,290 --> 01:59:06,000

signal but with the Zed instead of an S

3081

01:59:11,390 --> 01:59:09,300

um thanks to my surname and uh and also

3082

01:59:13,070 --> 01:59:11,400

what what's coming up for me is

3083

01:59:14,870 --> 01:59:13,080

you're gonna see probably a few more

3084

01:59:16,669 --> 01:59:14,880

book covers that we've been able to make

3085

01:59:19,010 --> 01:59:16,679

uh for certain people I won't support

3086

01:59:20,450 --> 01:59:19,020

the surprise but they're very cool and

3087

01:59:22,550 --> 01:59:20,460

also we've got season two of

3088

01:59:24,530 --> 01:59:22,560

phenomenology coming up where Vinnie

3089

01:59:26,570 --> 01:59:24,540

from disclosure team and I uh

3090

01:59:28,490 --> 01:59:26,580

with a whole bunch of other amazing

3091

01:59:30,830 --> 01:59:28,500

people Elena Priscilla

3092

01:59:33,169 --> 01:59:30,840

um an Australian musician uh Hayden who

3093

01:59:35,270 --> 01:59:33,179

just really thinks outside the box uh

3094

01:59:36,950 --> 01:59:35,280

we're all going back to Colombia during

3095

01:59:39,109 --> 01:59:36,960

Holy Week where the Lights On The

3096

01:59:41,870 --> 01:59:39,119

Mountain are meant to be

3097

01:59:43,430 --> 01:59:41,880

more active we're taking a whole bunch

3098

01:59:45,410 --> 01:59:43,440

of more equipment with us so like

3099

01:59:47,089 --> 01:59:45,420

thermal drones and things like that and

3100

01:59:49,430 --> 01:59:47,099

we're going to start drilling down to

3101

01:59:51,890 --> 01:59:49,440

see if we can't get rid of a lot of low

3102

01:59:53,570 --> 01:59:51,900

hanging fruit uh that people like you

3103

01:59:54,649 --> 01:59:53,580

know someone like Mick West would say oh

3104

01:59:56,270 --> 01:59:54,659

yeah you know it's hikers on the

3105

01:59:58,370 --> 01:59:56,280

mountain holding a light we can easily

3106

01:59:59,629 --> 01:59:58,380

disprove that or prove it you know so

3107

02:00:02,149 --> 01:59:59,639

we're going to go back we're going to

3108

02:00:03,890 --> 02:00:02,159

apply uh science we're going to learn a

3109

02:00:06,109 --> 02:00:03,900

little bit more and uh

3110

02:00:07,550 --> 02:00:06,119

look to minor Vinnie's socials for a

3111

02:00:09,830 --> 02:00:07,560

couple of like behind the scenes stuff

3112

02:00:11,330 --> 02:00:09,840

during that time and for season two to

3113

02:00:13,790 --> 02:00:11,340

come out later this year

3114

02:00:15,649 --> 02:00:13,800

awesome man yeah building on the work

3115

02:00:17,930 --> 02:00:15,659

you guys did before that's what this is

3116

02:00:20,270 --> 02:00:17,940

all about uh I can't wait for that

3117

02:00:23,330 --> 02:00:20,280

jealous a little envious not gonna lie

3118

02:00:26,570 --> 02:00:23,340

but um but it is what it is I'll make it

3119

02:00:28,430 --> 02:00:26,580

out there eventually I would be so

3120

02:00:30,169 --> 02:00:28,440

honored to like work with you guys it

3121

02:00:32,030 --> 02:00:30,179

would be amazing technology we'll make

3122

02:00:34,609 --> 02:00:32,040

it happen we'll make it happen

3123

02:00:36,109 --> 02:00:34,619

um Dan thank you thank you so much for

3124

02:00:38,270 --> 02:00:36,119

3125

02:00:41,089 --> 02:00:38,280

3126

02:00:44,030 --> 02:00:41,099

3127

02:00:47,450 --> 02:00:44,040

awesome we're very very lucky and

3137

02:01:08,689 --> 02:01:07,320

fortunate to have you in the field uh

3138

02:01:09,890 --> 02:01:08,699

thank you so much for your kindness and

3139

02:01:12,709 --> 02:01:09,900

3140

02:01:14,810 --> 02:01:12,719

been an absolute blast it's it's a pinch

3141

02:01:16,910 --> 02:01:14,820

me moment that I even get to talk about

3142

02:01:18,589 --> 02:01:16,920

this on a platform like this so

3143

02:01:20,390 --> 02:01:18,599

sincerely thank you man and thank you

3144

02:01:22,490 --> 02:01:20,400

3145

02:01:23,270 --> 02:01:22,500

3146

02:01:26,570 --> 02:01:23,280

3149

02:01:40,850 --> 02:01:37,970

wow guys that was amazing

3150

02:01:43,189 --> 02:01:40,860

um Dan everyone everyone who's come on

3151

02:01:45,410 --> 02:01:43,199

the the live stream so far has put in so

3152

02:01:46,729 --> 02:01:45,420

much time and effort to help me out here

3153

02:01:48,350 --> 02:01:46,739

at the channel

3154

02:01:51,109 --> 02:01:48,360

um and building this and making it

3155

02:01:53,330 --> 02:01:51,119

bigger better and more insightful so

3156

02:01:56,750 --> 02:01:53,340

again my special thanks to everyone has

3157

02:01:59,930 --> 02:01:56,760

come on so far Graham Vinnie uh we had

3158

02:02:01,490 --> 02:01:59,940

Grant levock uh we had Dan um we're

3159

02:02:03,770 --> 02:02:01,500

gonna have Katie Howland back in the

3160

02:02:05,810 --> 02:02:03,780

very near future and um a lot of other

3161

02:02:08,089 --> 02:02:05,820

familiar faces out there in the UFO

3162

02:02:09,830 --> 02:02:08,099

Community will be coming up on somewhere

3163

02:02:12,169 --> 02:02:09,840

in the live stream

3164

02:02:14,689 --> 02:02:12,179

um but for what's next with somewhere in

3165

02:02:18,649 --> 02:02:14,699

the skies I do have to tease our episode

3166

02:02:20,390 --> 02:02:18,659

coming out tonight finally finally we

3167

02:02:24,709 --> 02:02:20,400

have Fred Anderson talking about the

3168

02:02:26,870 --> 02:02:24,719

Swedish Men In Black this was by far one

3169

02:02:28,729 --> 02:02:26,880

of my favorite interviews we've done at

3170

02:02:30,589 --> 02:02:28,739

somewhere in the skies so far so I'm

3171

02:02:32,570 --> 02:02:30,599

gonna go ahead and tease a little bit of

3172

02:02:35,390 --> 02:02:32,580

that interview with you guys that will

3173

02:02:38,209 --> 02:02:35,400

be dropping in a few hours um check this

3174

02:02:40,430 --> 02:02:38,219

clip up they're not so common in Sweden

3175

02:02:42,830 --> 02:02:40,440

because we don't have the same tradition

3176

02:02:47,810 --> 02:02:42,840

of secrecy as you have in the United

3177

02:02:50,149 --> 02:02:47,820

States in Sweden uh I'm exaggerating a

3178

02:02:53,450 --> 02:02:50,159

little bit but we're a very very open

3179

02:02:56,089 --> 02:02:53,460

country you can get access to a lot of

3180

02:02:58,490 --> 02:02:56,099

material you can pick up the phone and

3181

02:03:01,729 --> 02:02:58,500

talk directly to someone still to a

3182

02:03:04,850 --> 02:03:01,739

certain degree and I I think that the

3183

02:03:07,550 --> 02:03:04,860

the secretness the secrecy of the United

3184

02:03:12,410 --> 02:03:07,560

States and the the the the government

3185

02:03:16,129 --> 02:03:12,420

style uh the United States have kinda

3186

02:03:19,310 --> 02:03:16,139

the the feeds the Men in Black mythology

3187

02:03:23,689 --> 02:03:22,010

yeah so a lot to look forward to guys

3188

02:03:27,169 --> 02:03:23,699

with that interview with Fred Anderson

3189

02:03:29,390 --> 02:03:27,179

dropping in a mere few hours on all

3190

02:03:30,950 --> 02:03:29,400

podcast apps and tomorrow night it'll

3191

02:03:33,050 --> 02:03:30,960

premiere on YouTube right here on

3192

02:03:35,510 --> 02:03:33,060

YouTube as well so make sure you have

3193

02:03:36,950 --> 02:03:35,520

your notifications turned on subscribe

3194

02:03:40,010 --> 02:03:36,960

please like this video all of that stuff

3199

02:03:53,810 --> 02:03:50,940

the video that really helps us as well

3200

02:03:55,129 --> 02:03:53,820

um thank you so much to red panda koala

3201

02:03:57,290 --> 02:03:55,139

for the Super Chat cheers guys

3202

02:03:59,390 --> 02:03:57,300

predictions for 2023 oh I'm sorry I

3203

02:04:01,070 --> 02:03:59,400

didn't see that before Dan left I'm

3204

02:04:03,350 --> 02:04:01,080

sorry red panda

3205

02:04:05,270 --> 02:04:03,360

um predictions for 2023 I kind of said

3206

02:04:07,070 --> 02:04:05,280

it earlier in our show

3207

02:04:10,250 --> 02:04:07,080

um I honestly believe this is going to

3208

02:04:12,530 --> 02:04:10,260

be a breakthrough year in UAP and

3209

02:04:15,530 --> 02:04:12,540

science uh we're already seeing it play

3210

02:04:17,810 --> 02:04:15,540

out with the Galileo project and um the

3211

02:04:20,030 --> 02:04:17,820

science advisor in Canada now getting

3212

02:04:23,570 --> 02:04:20,040

involved with this UAP report that's

3213

02:04:26,270 --> 02:04:23,580

going to come out in Canada and NASA's

3214

02:04:28,910 --> 02:04:26,280

results are going to be coming out in a

3215

02:04:31,850 --> 02:04:28,920

few months now on what they have

3216

02:04:34,250 --> 02:04:31,860

discovered and what they've unraveled

3217

02:04:36,830 --> 02:04:34,260

with the UAP mystery when it comes to uh

3218

02:04:39,290 --> 02:04:36,840

space and you know the outer atmosphere

3219

02:04:41,810 --> 02:04:39,300

and and retroactively looking at a lot

3220

02:04:44,450 --> 02:04:41,820

of anomalies in the past that NASA has

3221

02:04:45,709 --> 02:04:44,460

captured or tracked um so yeah man I I

3222

02:04:49,430 --> 02:04:45,719

still think it's the year of science

3223

02:04:52,189 --> 02:04:49,440

when it comes to a lot of this so um I'm

3224

02:04:54,890 --> 02:04:52,199

really looking forward to that I hope

3225

02:04:56,870 --> 02:04:54,900

that answers your question again again a

3226

02:04:59,149 --> 02:04:56,880

very special thanks to James Craig for

3227

02:05:00,589 --> 02:04:59,159

the Super Chat the Jazz Shaw and a red

3228

02:05:02,570 --> 02:05:00,599

panda koala

3229

02:05:04,310 --> 02:05:02,580

um it really helps the show out guys so

3230

02:05:06,229 --> 02:05:04,320

thank you thank you thank you to

3231

02:05:08,270 --> 02:05:06,239

everyone in the chat

3232

02:05:11,689 --> 02:05:08,280

um I know I haven't kept up with a lot

3233

02:05:14,089 --> 02:05:11,699

of it but um I love how active you guys

3234

02:05:15,530 --> 02:05:14,099

are having your own conversations

3235

02:05:17,930 --> 02:05:15,540

um in the chat while we're having them

3236

02:05:20,390 --> 02:05:17,940

here as well so I can't wait to go back

3237

honestly do I'm learning every week man

3267

02:06:32,089 --> 02:06:29,940

um you know I'm a playwright I'm a slave

3268

02:06:34,010 --> 02:06:32,099

to a script so doing improv live stuff

3269

02:06:37,070 --> 02:06:34,020

like this is new for me

3270

02:06:39,530 --> 02:06:37,080

um I'm not really uh

3271

02:06:40,790 --> 02:06:39,540

I'm not as confident as many people

3272

02:06:42,530 --> 02:06:40,800

would think when it comes to this sort

3273

02:06:45,530 --> 02:06:42,540

of stuff so that really means a lot to

3274

02:06:46,490 --> 02:06:45,540

me and you guys really do help me with

3275
