DISCLOSURE

FEATURING

JACQUES VALLEE

1
00:00:07,810 --> 00:00:00,950
[Applause]

2
00:00:07,820 --> 00:00:13,150
a feeling of relief

3
00:00:17,990 --> 00:00:16,490
and you know great

4
00:00:24,849 --> 00:00:18,000
um

5
00:00:29,450 --> 00:00:24,859
with the the official recognition of the

6
00:00:30,730 --> 00:00:29,460
phenomenon this is uh something I've you

7
00:00:34,450 --> 00:00:30,740
know I've been

8
00:00:38,810 --> 00:00:34,460
lucky to live long enough to see this

9
00:00:41,209 --> 00:00:38,820
many of my mentors and friends over the

10
00:00:44,030 --> 00:00:41,219
years are not have not seen that

11
00:00:46,790 --> 00:00:44,040
including Dr heineck or I'm a Michelle

12
00:00:49,310 --> 00:00:46,800
and so on who were hoping for the day

13
00:00:52,069 --> 00:00:49,320

when the government you know especially

14

00:00:55,970 --> 00:00:52,079

the US government of course would come

15

00:00:57,130 --> 00:00:55,980

out and recognize the reality of the

16

00:01:07,130 --> 00:00:57,140

problem

17

00:01:09,410 --> 00:01:07,140

so now you know that day has come and it

18

00:01:12,350 --> 00:01:09,420

is irreversible

19

00:01:14,690 --> 00:01:12,360

it's a reversible because so many people

20

00:01:18,410 --> 00:01:14,700

have been waiting for that day including

21

00:01:22,010 --> 00:01:18,420

so many witnesses who were ridiculed

22

00:01:25,789 --> 00:01:22,020

where uh were attacked were you know in

23

00:01:28,429 --> 00:01:25,799

the press and and everywhere uh and now

24

00:01:30,469 --> 00:01:28,439

uh we have to recognize that these

25

00:01:34,010 --> 00:01:30,479

people were telling the truth

26
00:01:36,590 --> 00:01:34,020
now the question is you know what what

27
00:01:41,149 --> 00:01:36,600
is the truth I mean it's up to us now to

28
00:01:43,550 --> 00:01:41,159
to to expand the research and it's again

29
00:01:51,469 --> 00:01:43,560
a humbling

30
00:01:54,789 --> 00:01:51,479
they we don't have we have a lot of data

31
00:01:58,490 --> 00:01:54,799
we have a lot of data that's uh very

32
00:02:01,730 --> 00:01:58,500
complex and we we need to bring in

33
00:02:04,130 --> 00:02:01,740
people and train them very quickly to

34
00:02:05,810 --> 00:02:04,140
help us so far the work that has been

35
00:02:09,770 --> 00:02:05,820
done has been done

36
00:02:12,650 --> 00:02:09,780
pretty much on a personal basis uh I

37
00:02:15,110 --> 00:02:12,660
would say on the not exactly on an

38
00:02:17,570 --> 00:02:15,120

amateurish basis because a lot of

39

00:02:20,449 --> 00:02:17,580

resources have been brought into into

40

00:02:23,449 --> 00:02:20,459

the study but now we have to do it as a

41

00:02:26,270 --> 00:02:23,459

real science the the way

42

00:02:31,850 --> 00:02:26,280

um you know Harvard University is doing

43

00:02:36,050 --> 00:02:31,860

it uh with Dr abilo Dr avilo has as you

44

00:02:37,690 --> 00:02:36,060

know has deployed a a project which is

45

00:02:42,850 --> 00:02:37,700

privately funded

46

00:02:46,309 --> 00:02:42,860

to analyze signals from a near space

47

00:02:48,589 --> 00:02:46,319

that can teach us something about you

48

00:02:51,830 --> 00:02:48,599

know what else is there that we haven't

49

00:02:55,430 --> 00:02:51,840

recognized before including objects like

50

00:02:58,490 --> 00:02:55,440

umuamua that you know passed by the

51

00:03:02,210 --> 00:02:58,500

earth a couple of years ago and was

52

00:03:05,990 --> 00:03:02,220

detected and now his team has found that

53

00:03:08,930 --> 00:03:06,000

there were other cases like umuamua that

54

00:03:12,290 --> 00:03:08,940

could be that could be studied so that's
