

SOMEWHERE IN THE LIVESTREAM

EP 08

WITH RYAN SPRAGUE

1
00:00:01,500 --> 00:00:05,480
foreign

2
00:00:36,350 --> 00:00:14,430
[Music]

3
00:00:39,830 --> 00:00:38,270
through

4
00:00:40,750 --> 00:00:39,840
[Music]

5
00:01:17,270 --> 00:00:40,760
this

6
00:01:33,600 --> 00:01:19,070
foreign

7
00:02:28,690 --> 00:01:52,790
[Music]

8
00:02:46,970 --> 00:02:30,390
thank you

9
00:03:15,009 --> 00:02:46,980
[Music]

10
00:03:22,009 --> 00:03:18,649
what's up guys welcome to somewhere in

11
00:03:24,229 --> 00:03:22,019
the live stream episode eight I believe

12
00:03:26,210 --> 00:03:24,239
we're on now eight weeks we've been

13
00:03:28,610 --> 00:03:26,220

doing somewhere in the live stream and

14

00:03:31,309 --> 00:03:28,620

it just keeps growing every week and we

15

00:03:33,410 --> 00:03:31,319

have all of our regulars here tonight in

16

00:03:35,149 --> 00:03:33,420

the chat and hopefully some new people

17

00:03:37,550 --> 00:03:35,159

as well if you're new to the channel

18

00:03:40,309 --> 00:03:37,560

welcome this is a live stream we do

19

00:03:43,670 --> 00:03:40,319

every Sunday here at somewhere in the

20

00:03:47,750 --> 00:03:43,680

skies and uh yeah it's at 4 P.M Eastern

21

00:03:49,490 --> 00:03:47,760

Standard uh 9 p.m UK is that right I

22

00:03:53,149 --> 00:03:49,500

know you guys just went forward in our

23

00:03:56,110 --> 00:03:53,159

in the states um so I guess it's 5 p.m

24

00:03:58,970 --> 00:03:56,120

there now uh but then we will be going

25

00:04:01,009 --> 00:03:58,980

back an hour forward an hour next week

26

00:04:03,649 --> 00:04:01,019

oh I can't keep it straight

27

00:04:06,770 --> 00:04:03,659

um anyways it'll always be at I believe

28

00:04:07,850 --> 00:04:06,780

uh 4 P.M ish or whatnot on the East

29

00:04:10,190 --> 00:04:07,860

Coast

30

00:04:12,589 --> 00:04:10,200

um wow what way what a way to start the

31

00:04:13,910 --> 00:04:12,599

show welcome everyone to somewhere in

32

00:04:15,890 --> 00:04:13,920

the live stream

33

00:04:18,949 --> 00:04:15,900

there's so much to cover tonight

34

00:04:22,490 --> 00:04:18,959

um it has been an absolutely a bug nuts

35

00:04:25,370 --> 00:04:22,500

week in UFOs dramatic

36

00:04:27,050 --> 00:04:25,380

um weird exciting

37

00:04:28,850 --> 00:04:27,060

um just everything

38

00:04:31,129 --> 00:04:28,860

um and I knew that tonight I would need

39

00:04:34,370 --> 00:04:31,139

a little a little help so tonight I'm

40

00:04:36,650 --> 00:04:34,380

drinking a Scottish beer

41

00:04:39,409 --> 00:04:36,660

um yeah we're gonna need it we're gonna

42

00:04:41,150 --> 00:04:39,419

need it guys get the booze ready

43

00:04:43,790 --> 00:04:41,160

um let me say hello to everyone in the

44

00:04:47,390 --> 00:04:43,800

chat we've got Jazz Shaw Lord boss Ian

45

00:04:51,830 --> 00:04:47,400

we've got DC Christian is here

46

00:04:55,969 --> 00:04:51,840

um who else uh Andy is here 11 8 is here

47

00:04:58,030 --> 00:04:55,979

Todd is here dalen Ryan Baker Jay is

48

00:05:01,969 --> 00:04:58,040

here Michael Huntington welcome welcome

49

00:05:03,530 --> 00:05:01,979

uh Andrew Andrew's Here Andrew I saw

50

00:05:05,870 --> 00:05:03,540

that you saw me on the History Channel

51
00:05:08,210 --> 00:05:05,880
last night um thanks for watching buddy

52
00:05:10,909 --> 00:05:08,220
yeah for any of those of you who don't

53
00:05:12,830 --> 00:05:10,919
know I am on uh Ancient Aliens the TV

54
00:05:14,689 --> 00:05:12,840
show on the History Channel and uh

55
00:05:15,350 --> 00:05:14,699
apparently I was on a new episode last

56
00:05:17,689 --> 00:05:15,360
night

57
00:05:18,770 --> 00:05:17,699
usually they let us know that so that we

58
00:05:20,689 --> 00:05:18,780
can tell people

59
00:05:23,450 --> 00:05:20,699
um but I didn't get word so uh

60
00:05:25,909 --> 00:05:23,460
apparently I was on a new episode last

61
00:05:28,070 --> 00:05:25,919
night called uh aliens in our airspace

62
00:05:29,689 --> 00:05:28,080
uh so you should be able to go back in

63
00:05:32,090 --> 00:05:29,699

the archives of Ancient Aliens on the

64

00:05:33,469 --> 00:05:32,100

History Channel and watch that and uh

65

00:05:36,409 --> 00:05:33,479

yeah it was a lot of fun we talked all

66

00:05:38,570 --> 00:05:36,419

about commercial uh airliners and

67

00:05:41,870 --> 00:05:38,580

whatnot that have had brushes with UFOs

68

00:05:45,469 --> 00:05:41,880

so yeah uh very current very what's

69

00:05:47,770 --> 00:05:45,479

going on in the world of UFOs today so

70

00:05:51,170 --> 00:05:47,780

um yeah yeah that was a super fun

71

00:05:52,969 --> 00:05:51,180

filming that we did in London actually I

72

00:05:54,790 --> 00:05:52,979

filmed for a few episodes so be on the

73

00:05:59,029 --> 00:05:54,800

lookout for more in the future hopefully

74

00:06:02,930 --> 00:05:59,039

fingers crossed um hello to Andres uh

75

00:06:04,670 --> 00:06:02,940

Ian if uh the breeder Syndicate is here

76

00:06:06,950 --> 00:06:04,680

who am I forgetting I want to say hello

77

00:06:10,189 --> 00:06:06,960

Douglas Susan Sprague welcome welcome

78

00:06:12,110 --> 00:06:10,199

welcome as always Suzanne is here

79

00:06:12,890 --> 00:06:12,120

welcome guys

80

00:06:15,770 --> 00:06:12,900

um

81

00:06:18,290 --> 00:06:15,780

Red Devil if you use the electron too

82

00:06:19,909 --> 00:06:18,300

many to count Alina is here thank you

83

00:06:22,070 --> 00:06:19,919

guys thank you so much for being here

84

00:06:23,689 --> 00:06:22,080

tonight and somewhere in the live stream

85

00:06:26,029 --> 00:06:23,699

um I want to thank all of our patreon

86

00:06:29,450 --> 00:06:26,039

subscribers Apple premium subscribers

87

00:06:32,689 --> 00:06:29,460

YouTube members you truly make this show

88

00:06:34,010 --> 00:06:32,699

happen so my special thanks to you guys

89

00:06:35,990 --> 00:06:34,020
um and special thanks to all the

90

00:06:38,090 --> 00:06:36,000
podcasts we're gonna highlight tonight

91

00:06:41,090 --> 00:06:38,100
this is a new segment that people are

92

00:06:43,010 --> 00:06:41,100
loving where I pick some some clips from

93

00:06:45,050 --> 00:06:43,020
different podcasts from the week on UFOs

94

00:06:46,850 --> 00:06:45,060
and the unknown and play them for you

95

00:06:48,950 --> 00:06:46,860
guys hopefully without any copyright

96

00:06:51,890 --> 00:06:48,960
strikes we'll see we'll see how that

97

00:06:53,270 --> 00:06:51,900
goes but um yeah like I said this has

98

00:06:56,090 --> 00:06:53,280
been one of the biggest and busiest

99

00:06:57,830 --> 00:06:56,100
weeks in UFOs for many reasons

100

00:06:59,570 --> 00:06:57,840
um maybe good and bad I don't know we're

101

00:07:01,909 --> 00:06:59,580

gonna get real we're gonna get real

102

00:07:04,550 --> 00:07:01,919

tonight here on somewhere in the live

103

00:07:06,950 --> 00:07:04,560

stream so I want your honest brutally

104

00:07:07,850 --> 00:07:06,960

honest thoughts and opinions on some of

105

00:07:10,070 --> 00:07:07,860

this stuff we're going to be talking

106

00:07:12,290 --> 00:07:10,080

about so be sure to put it in the chat

107

00:07:13,610 --> 00:07:12,300

oh speaking of which Super Chat is open

108

00:07:16,189 --> 00:07:13,620

if you do want to help the show

109

00:07:18,529 --> 00:07:16,199

immediately you can do that in the Super

110

00:07:20,570 --> 00:07:18,539

Chat and I will highlight your comments

111

00:07:23,510 --> 00:07:20,580

I will answer your questions I'll put

112

00:07:24,290 --> 00:07:23,520

them up on the screen here for all to

113

00:07:26,029 --> 00:07:24,300

read

114

00:07:27,830 --> 00:07:26,039

um so yeah that's another way you can

115

00:07:30,170 --> 00:07:27,840

help out the show as well if you can't

116

00:07:32,809 --> 00:07:30,180

help financially totally fine in today's

117

00:07:34,909 --> 00:07:32,819

world I completely understand but uh

118

00:07:37,249 --> 00:07:34,919

those options are there but if you can't

119

00:07:40,430 --> 00:07:37,259

do that simply like this video just

120

00:07:42,890 --> 00:07:40,440

click right now click it click it click

121

00:07:44,990 --> 00:07:42,900

it or ticket and um

122

00:07:47,089 --> 00:07:45,000

and uh what else can you do share the

123

00:07:48,110 --> 00:07:47,099

show uh subscribe if you haven't all

124

00:07:50,450 --> 00:07:48,120

that good stuff

125

00:07:53,450 --> 00:07:50,460

all right I'm done I'm done pimping out

126

00:07:57,050 --> 00:07:53,460

the show let's get to UFOs

127

00:07:59,629 --> 00:07:57,060

um our first story for tonight uh key

128

00:08:03,290 --> 00:07:59,639

lawmakers double down on solving the

129

00:08:06,589 --> 00:08:03,300

enduring mystery of UFOs let me pull up

130

00:08:07,790 --> 00:08:06,599

our lovely lovely slideshow that I have

131

00:08:10,070 --> 00:08:07,800

here every week

132

00:08:13,249 --> 00:08:10,080

um how do I get me

133

00:08:16,309 --> 00:08:13,259

nope that's not what I wanted

134

00:08:17,749 --> 00:08:16,319

is that better no boom there we go I'm

135

00:08:19,369 --> 00:08:17,759

like bouncing all over the screen like

136

00:08:21,589 --> 00:08:19,379

Tetris here

137

00:08:23,450 --> 00:08:21,599

um I use super chats instead of patreon

138

00:08:26,210 --> 00:08:23,460

because I have commitment issues just

139

00:08:30,290 --> 00:08:26,220

says thanks buddy I appreciate that Jake

140

00:08:32,510 --> 00:08:30,300

is here hello hello to xtina

141

00:08:34,250 --> 00:08:32,520

um let's see the disabled Welshman hello

142

00:08:36,350 --> 00:08:34,260

hello

143

00:08:37,730 --> 00:08:36,360

welcome guys welcome

144

00:08:39,829 --> 00:08:37,740

um yeah let's get to this first story

145

00:08:42,949 --> 00:08:39,839

key log makers double down on solving

146

00:08:45,410 --> 00:08:42,959

the enduring mystery of UFOs it was a

147

00:08:48,290 --> 00:08:45,420

busy week with congress with some

148

00:08:51,829 --> 00:08:48,300

hearings going on and this had a lot to

149

00:08:54,530 --> 00:08:51,839

do with Senator Rubio senator gillibrand

150

00:08:56,690 --> 00:08:54,540

uh this week Senator gillibrand asked

151
00:08:59,509 --> 00:08:56,700
senior intelligence officials about Aero

152
00:09:01,610 --> 00:08:59,519
funding and then later this week she

153
00:09:04,730 --> 00:09:01,620
also spoke in front of the U.S Senate

154
00:09:07,009 --> 00:09:04,740
armed services committee about arrow and

155
00:09:08,930 --> 00:09:07,019
their commitment to the group

156
00:09:12,530 --> 00:09:08,940
um so yeah this has been kind of an

157
00:09:16,130 --> 00:09:12,540
ongoing drama within uh the walls of

158
00:09:19,310 --> 00:09:16,140
Congress where uh Arrow this group that

159
00:09:21,949 --> 00:09:19,320
has literally been established to Target

160
00:09:24,829 --> 00:09:21,959
UFOs to mitigate the situation to

161
00:09:26,449 --> 00:09:24,839
identify them and to resolve them uh

162
00:09:28,610 --> 00:09:26,459
they're not getting the funding that

163
00:09:30,170 --> 00:09:28,620

they were supposed to and gillibran's

164

00:09:33,110 --> 00:09:30,180

pissed she's been out front with this

165

00:09:35,210 --> 00:09:33,120

thing for like over a year now and um

166

00:09:37,130 --> 00:09:35,220

they're just not getting getting the

167

00:09:40,250 --> 00:09:37,140

respect I think they deserve or the

168

00:09:41,630 --> 00:09:40,260

funding they need so she spoke up in

169

00:09:43,730 --> 00:09:41,640

front of the people that she really

170

00:09:45,530 --> 00:09:43,740

needed to speak up in front of and that

171

00:09:48,110 --> 00:09:45,540

was senior intelligence officials and

172

00:09:50,570 --> 00:09:48,120

the Senate armed services committee so I

173

00:09:52,130 --> 00:09:50,580

actually have a couple clips of her

174

00:09:53,509 --> 00:09:52,140

um at these things so I'm gonna go ahead

175

00:09:55,790 --> 00:09:53,519

and play those for you guys right now

176

00:09:57,350 --> 00:09:55,800

and we'll come back and talk a little

177

00:09:58,670 --> 00:09:57,360

bit more about this story on the other

178

00:10:00,350 --> 00:09:58,680

side

179

00:10:02,030 --> 00:10:00,360

director Haynes in last year's

180

00:10:04,690 --> 00:10:02,040

intelligence authorization act Senators

181

00:10:07,790 --> 00:10:04,700

Rubio Warner Heinrich Burr blunt and I

182

00:10:10,790 --> 00:10:07,800

created uh the arrow that all domain

183

00:10:12,650 --> 00:10:10,800

anomaly resolution office uh to break

184

00:10:13,970 --> 00:10:12,660

down the stove pipes between the

185

00:10:16,430 --> 00:10:13,980

intelligence community and the military

186

00:10:18,650 --> 00:10:16,440

regarding unidentified aerial marine and

187

00:10:20,389 --> 00:10:18,660

other phenomenon which could pose a risk

188

00:10:22,370 --> 00:10:20,399

to the safety of our service members as

189

00:10:24,050 --> 00:10:22,380

well as collection risks against

190

00:10:25,730 --> 00:10:24,060

sensitive facilities and overseas

191

00:10:28,070 --> 00:10:25,740

military bases

192

00:10:29,389 --> 00:10:28,080

as recent events have shown we need more

193

00:10:30,670 --> 00:10:29,399

and better sharing between the

194

00:10:33,650 --> 00:10:30,680

intelligence community and our military

195

00:10:35,210 --> 00:10:33,660

and the stigmatization of the service

196

00:10:37,790 --> 00:10:35,220

members and Personnel who come forward

197

00:10:39,769 --> 00:10:37,800

with this data is unacceptable

198

00:10:41,150 --> 00:10:39,779

do I have a commitment from you and each

199

00:10:42,889 --> 00:10:41,160

of our witnesses that you will work to

200

00:10:44,990 --> 00:10:42,899

reduce stigma share intelligence between

201
00:10:46,190 --> 00:10:45,000
agencies and as you're able with the

202
00:10:49,569 --> 00:10:46,200
public to ensure that we understand

203
00:10:52,130 --> 00:10:49,579
what's happening in our skies and seas

204
00:10:53,389 --> 00:10:52,140
yes Senator absolutely and I agree with

205
00:10:55,009 --> 00:10:53,399
you that this is an issue and it's

206
00:10:57,050 --> 00:10:55,019
something that we've been trying to work

207
00:10:58,550 --> 00:10:57,060
through both by sending the message from

208
00:11:01,009 --> 00:10:58,560
leadership that this is important but

209
00:11:03,050 --> 00:11:01,019
also creating mechanisms that allow for

210
00:11:05,870 --> 00:11:03,060
people to do this more easily and with

211
00:11:07,910 --> 00:11:05,880
less sort of stigma associated with it

212
00:11:10,610 --> 00:11:07,920
and is the arrow office fully funded in

213
00:11:12,170 --> 00:11:10,620

your budget yes I believe it is uh you

214

00:11:14,449 --> 00:11:12,180

make sure because it was left off last

215

00:11:16,370 --> 00:11:14,459

year so from both the dod and Intel's

216

00:11:18,470 --> 00:11:16,380

budget the all domain anomaly resolution

217

00:11:21,110 --> 00:11:18,480

office was created to synchronize the

218

00:11:22,730 --> 00:11:21,120

Department of Defense efforts to study

219

00:11:26,030 --> 00:11:22,740

and assess unidentified aerial

220

00:11:31,009 --> 00:11:26,040

phenomenon how is stratcom liaising with

221

00:11:36,829 --> 00:11:33,910

so ma'am um formerly UAP

222

00:11:39,290 --> 00:11:36,839

so we are part of that along with other

223

00:11:43,150 --> 00:11:39,300

combatant commands so uh

224

00:11:46,430 --> 00:11:43,160

um I I have a team as well as myself and

225

00:11:48,889 --> 00:11:46,440

in the senior leadership positions that

226

00:11:50,509 --> 00:11:48,899

liaison with that organization as well

227

00:11:52,250 --> 00:11:50,519

as the other co-com responsible for that

228

00:11:55,370 --> 00:11:52,260

that responsibility

229

00:11:58,310 --> 00:11:55,380

great and do you foresee that Arrow

230

00:12:01,970 --> 00:11:58,320

needs additional resources or additional

231

00:12:06,170 --> 00:12:01,980

sensors or additional detection to be

232

00:12:08,389 --> 00:12:06,180

able to do their job more thoroughly

233

00:12:10,670 --> 00:12:08,399

I would probably have to defer that to

234

00:12:13,970 --> 00:12:10,680

my partner in northcom to be able to

235

00:12:15,530 --> 00:12:13,980

answer that question so I I I don't

236

00:12:17,030 --> 00:12:15,540

um with what I know

237

00:12:19,250 --> 00:12:17,040

um I don't have a good answer for you in

238

00:12:22,430 --> 00:12:19,260

that regard man I'll follow up for the

239

00:12:30,650 --> 00:12:27,230

I I uh it uh they um

240

00:12:33,230 --> 00:12:30,660

I'm sorry I just love how pointed she is

241

00:12:36,650 --> 00:12:33,240

with these people she's sick of it like

242

00:12:39,769 --> 00:12:36,660

she's been lobbying for this forever and

243

00:12:41,870 --> 00:12:39,779

like finally you know this whole Chinese

244

00:12:43,490 --> 00:12:41,880

spy balloon thing is happening and and

245

00:12:46,730 --> 00:12:43,500

what do they do they don't even use

246

00:12:49,190 --> 00:12:46,740

arrow for it because uh clearly they

247

00:12:51,530 --> 00:12:49,200

don't think it's uh good enough so

248

00:12:54,350 --> 00:12:51,540

President Biden had to go and create his

249

00:12:55,850 --> 00:12:54,360

own interagency to do it um it just

250

00:12:57,410 --> 00:12:55,860

doesn't make any sense it makes no sense

251
00:12:59,090 --> 00:12:57,420
I I know there's a lot of political

252
00:13:01,009 --> 00:12:59,100
posturing going on when it comes to what

253
00:13:04,069 --> 00:13:01,019
Biden had to do as opposed to what like

254
00:13:06,650 --> 00:13:04,079
you know uh different Congress members

255
00:13:08,210 --> 00:13:06,660
had to do or wanted or wanted to make

256
00:13:10,310 --> 00:13:08,220
someone look good look bad blah blah

257
00:13:13,009 --> 00:13:10,320
blah blah blah I'm not gonna get into

258
00:13:15,350 --> 00:13:13,019
politics but um I know Michael said in

259
00:13:17,569 --> 00:13:15,360
the chat oh politics this is not

260
00:13:20,030 --> 00:13:17,579
the way that UFOs should be going um I

261
00:13:22,670 --> 00:13:20,040
do agree I do agree with you Michael in

262
00:13:24,050 --> 00:13:22,680
some sense but uh look I I know Jilla

263
00:13:25,910 --> 00:13:24,060

brand is fighting the good fight here

264

00:13:28,069 --> 00:13:25,920

and and I'm wishing her all the best and

265

00:13:29,569 --> 00:13:28,079

you could tell she's getting a little um

266

00:13:31,610 --> 00:13:29,579

frustrated with how things are going

267

00:13:34,550 --> 00:13:31,620

with arrows so hopefully we're not

268

00:13:36,170 --> 00:13:34,560

seeing Arrow fizzle out already that

269

00:13:38,329 --> 00:13:36,180

would be really sad they haven't even

270

00:13:42,829 --> 00:13:38,339

really been able to show what they are

271

00:13:45,530 --> 00:13:42,839

capable of uh and that could be due to a

272

00:13:51,230 --> 00:13:45,540

lack of uh resources and individuals

273

00:13:52,970 --> 00:13:51,240

there so yeah yeah I I I I respect

274

00:13:56,030 --> 00:13:52,980

everything she's doing and I hope she

275

00:13:58,430 --> 00:13:56,040

keeps pressing all of these excuse me

276

00:14:01,190 --> 00:13:58,440

all of these people I'm losing my voice

277

00:14:06,650 --> 00:14:01,200

already we just started guys what's

278

00:14:09,829 --> 00:14:08,629

um oh gosh I hope you weren't hearing

279

00:14:12,110 --> 00:14:09,839

that

280

00:14:13,790 --> 00:14:12,120

um so in ever growing bipartisan cohort

281

00:14:16,490 --> 00:14:13,800

of lawmakers are doubling down on the

282

00:14:18,590 --> 00:14:16,500

scientific study of Highly Advanced UFO

283

00:14:20,269 --> 00:14:18,600

technology at the same time the

284

00:14:23,509 --> 00:14:20,279

government's congressionally enforced

285

00:14:25,910 --> 00:14:23,519

focus on UAP is already paying National

286

00:14:28,009 --> 00:14:25,920

Security dividends while a small group

287

00:14:31,310 --> 00:14:28,019

of intelligence analysts monitored three

288

00:14:33,710 --> 00:14:31,320

Trump era incursions by suspected

289

00:14:35,509 --> 00:14:33,720

Chinese balloons in real time the

290

00:14:37,790 --> 00:14:35,519

information was not disseminated more

291

00:14:39,769 --> 00:14:37,800

broadly throughout the US government the

292

00:14:41,810 --> 00:14:39,779

lack of coordination left high-level

293

00:14:44,090 --> 00:14:41,820

National Security officials in the dark

294

00:14:46,610 --> 00:14:44,100

about the intrusions

295

00:14:48,350 --> 00:14:46,620

uh only after Congress raised concerns

296

00:14:52,370 --> 00:14:48,360

did the Pentagon formally centralized

297

00:14:54,710 --> 00:14:52,380

reporting an analysis of UAP as a result

298

00:14:56,650 --> 00:14:54,720

intelligence analysts piece together key

299

00:14:59,329 --> 00:14:56,660

details about a global Chinese balloon

300

00:15:02,210 --> 00:14:59,339

surveillance program that's kind of

301

00:15:04,790 --> 00:15:02,220

scary not gonna lie not gonna lie

302

00:15:07,189 --> 00:15:04,800

um I know I know we spy on everyone too

303

00:15:10,730 --> 00:15:07,199

so maybe we're finally getting our

304

00:15:12,230 --> 00:15:10,740

comeuppance I don't know but um let's

305

00:15:14,569 --> 00:15:12,240

see here I'm gonna finish with this

306

00:15:16,730 --> 00:15:14,579

article regardless of the nature of

307

00:15:17,750 --> 00:15:16,740

these mysterious objects and I know

308

00:15:19,610 --> 00:15:17,760

they're not just talking about the

309

00:15:22,069 --> 00:15:19,620

Chinese spy balloons whether foreign

310

00:15:26,090 --> 00:15:22,079

surveillance platforms or otherwise the

311

00:15:28,310 --> 00:15:26,100

enduring UAP mystery must be solved uh

312

00:15:30,650 --> 00:15:28,320

this comes from the hill this story so

313

00:15:33,430 --> 00:15:30,660

pretty cool pretty cool

314

00:15:36,470 --> 00:15:33,440

um let's see here

315

00:15:40,250 --> 00:15:36,480

more beer Christian says cheers buddy

316

00:15:40,260 --> 00:15:42,590

um

317

00:15:46,790 --> 00:15:44,030

what am I missing in the chat anything

318

00:15:48,410 --> 00:15:46,800

here somebody in the Pentagon probably

319

00:15:51,410 --> 00:15:48,420

diverted aerofundin to their own

320

00:15:54,829 --> 00:15:51,420

Department Todd I hope not man like that

321

00:15:56,329 --> 00:15:54,839

happens all the time and I I just hope

322

00:15:58,970 --> 00:15:56,339

that's not the case I hope strong

323

00:16:00,889 --> 00:15:58,980

Kirkpatrick is getting uh the money he

324

00:16:03,949 --> 00:16:00,899

needs to make sure this

325

00:16:06,110 --> 00:16:03,959

this happens I don't know

326

00:16:08,750 --> 00:16:06,120

how do you guys feel do you feel are are

327

00:16:10,250 --> 00:16:08,760

you like for Arrow do you think this is

328

00:16:12,889 --> 00:16:10,260

like in a further

329

00:16:14,750 --> 00:16:12,899

the UFO mystery uh not in terms of

330

00:16:17,629 --> 00:16:14,760

making it more mysterious but solving it

331

00:16:20,750 --> 00:16:17,639

or is this all just surveillance

332

00:16:23,329 --> 00:16:20,760

equipment that they want to uncover I I

333

00:16:26,930 --> 00:16:23,339

let me know let me know um in the live

334

00:16:30,290 --> 00:16:28,730

Douglas Burke says maybe a little of

335

00:16:32,750 --> 00:16:30,300

that money we send to other countries

336

00:16:34,970 --> 00:16:32,760

yeah I mean a lot of other countries

337

00:16:37,670 --> 00:16:34,980

could use it a lot more than we could um

338

00:16:41,090 --> 00:16:37,680

but we could also use money in other

339

00:16:43,249 --> 00:16:41,100

sectors as well you know there that's an

340

00:16:45,110 --> 00:16:43,259

endless debate we can have till the end

341

00:16:46,790 --> 00:16:45,120

of time Douglas Sprague in terms of

342

00:16:50,090 --> 00:16:46,800

where money should go in the government

343

00:16:52,090 --> 00:16:50,100

and who it should go to so yes but I'm

344

00:16:55,550 --> 00:16:52,100

all for helping other countries as well

345

00:16:57,829 --> 00:16:55,560

Jess says I have some questions in with

346

00:17:00,530 --> 00:16:57,839

Jilla brand staffa aerofunding we'll let

347

00:17:03,590 --> 00:17:00,540

you know if we get anything awesome

348

00:17:07,909 --> 00:17:03,600

awesome Jazz yes please update us as

349

00:17:13,909 --> 00:17:11,689

let's see Michael sent my wife to get

350

00:17:16,069 --> 00:17:13,919

Guinness so start drinking love it love

351

00:17:16,730 --> 00:17:16,079

it

352

00:17:18,770 --> 00:17:16,740

um

353

00:17:21,230 --> 00:17:18,780

Michael asks is Arrow actually

354

00:17:22,789 --> 00:17:21,240

investigating anything what a good

355

00:17:24,530 --> 00:17:22,799

question

356

00:17:26,449 --> 00:17:24,540

um you know Kirkpatrick last week we

357

00:17:29,390 --> 00:17:26,459

talked on the live stream he just came

358

00:17:31,010 --> 00:17:29,400

out with a paper with uh Avi Loeb I

359

00:17:35,029 --> 00:17:31,020

believe it was

360

00:17:37,490 --> 00:17:35,039

um talking about like you know basically

361

00:17:39,770 --> 00:17:37,500

our laws of physics we need to use these

362

00:17:42,169 --> 00:17:39,780

to try to understand the anomalies in

363

00:17:44,029 --> 00:17:42,179

our skies even if they don't adhere to

364

00:17:45,590 --> 00:17:44,039

our laws of physics so I don't know it

365

00:17:47,930 --> 00:17:45,600

was a weird paper it was weird paper for

366

00:17:49,730 --> 00:17:47,940

them to team up on but um interesting

367

00:17:52,490 --> 00:17:49,740

nonetheless so are they actually

368

00:17:53,990 --> 00:17:52,500

investigating anything possibly I I can

369

00:17:56,390 --> 00:17:54,000

tell you right now I know Kirkpatrick

370

00:17:59,150 --> 00:17:56,400

was in the Deep briefings with the

371

00:18:00,529 --> 00:17:59,160

president and and and whatnot about the

372

00:18:02,029 --> 00:18:00,539

Chinese spy balloons so it's very

373

00:18:03,710 --> 00:18:02,039

possible they could be dealing with that

374

00:18:04,669 --> 00:18:03,720

right now

375

00:18:06,830 --> 00:18:04,679

um

376

00:18:09,470 --> 00:18:06,840

Jazz says Ryan is losing his voice I

377

00:18:11,510 --> 00:18:09,480

told him if he needs a co-pilot DM me

378

00:18:13,190 --> 00:18:11,520

Jazz I might just bring you in buddy

379

00:18:15,169 --> 00:18:13,200

hang tight

380

00:18:17,630 --> 00:18:15,179

um if not I definitely will take you up

381

00:18:19,190 --> 00:18:17,640

on that next week Christian thank you so

382

00:18:20,810 --> 00:18:19,200

much for the Super Chat man thank you

383

00:18:24,549 --> 00:18:20,820

for doing what you do best regards from

384

00:18:27,409 --> 00:18:24,559

Christian UAP DB guys go over to

385

00:18:30,230 --> 00:18:27,419

uapdb.com right now check it out it's an

386

00:18:32,210 --> 00:18:30,240

amazing website where Christian kind of

387

00:18:34,970 --> 00:18:32,220

um brings together all the UFO news of

388

00:18:37,490 --> 00:18:34,980

the week and UFO podcasts and and

389

00:18:39,770 --> 00:18:37,500

everything like that it's awesome it's

390

00:18:41,870 --> 00:18:39,780

like your One-Stop shop to get all the

391

00:18:43,730 --> 00:18:41,880

UFO news when you're not watching

392

00:18:44,990 --> 00:18:43,740

somewhere in the live stream right

393

00:18:46,130 --> 00:18:45,000

Christian

394

00:18:48,650 --> 00:18:46,140

um we're gonna go over podcast

395

00:18:51,529 --> 00:18:48,660

highlights of the week later so stay

396

00:18:53,630 --> 00:18:51,539

tuned for that Daylin says I think arrow

397

00:18:55,669 --> 00:18:53,640

is a publicity stunt my unpopular

398

00:18:57,950 --> 00:18:55,679

opinion probably the a-tip one or

399

00:18:59,750 --> 00:18:57,960

whatever it's called slippers whiskey

400

00:19:01,850 --> 00:18:59,760

yeah yeah

401
00:19:04,190 --> 00:19:01,860
um Arrow dailyn it very well could just

402
00:19:06,890 --> 00:19:04,200
be another Project Blue Book a whitewash

403
00:19:10,010 --> 00:19:06,900
um I hope not I really do hope not but

404
00:19:13,370 --> 00:19:10,020
who knows who knows

405
00:19:15,230 --> 00:19:13,380
um let me see what else we got here

406
00:19:16,730 --> 00:19:15,240
Martin asks does anyone really think

407
00:19:19,310 --> 00:19:16,740
you'll get any answers from these

408
00:19:22,250 --> 00:19:19,320
offices I don't and it can always be

409
00:19:25,130 --> 00:19:22,260
classified so no disclose zilch

410
00:19:26,330 --> 00:19:25,140
yeah I mean a lot of people fear that

411
00:19:28,430 --> 00:19:26,340
when the government gets involved with

412
00:19:30,950 --> 00:19:28,440
this topic at all it's just a way to

413
00:19:34,610 --> 00:19:30,960

control it and to um make sure nothing

414

00:19:36,890 --> 00:19:34,620

does get out and we have a severe issue

415

00:19:40,730 --> 00:19:36,900

with over classification in the United

416

00:19:43,250 --> 00:19:40,740

States as pointed out by Avril Haynes um

417

00:19:44,810 --> 00:19:43,260

recently as well so

418

00:19:46,490 --> 00:19:44,820

um hopefully that'll change hopefully

419

00:19:49,610 --> 00:19:46,500

the culture within the intelligence

420

00:19:52,789 --> 00:19:49,620

agencies uh will be held accountable for

421

00:19:55,549 --> 00:19:52,799

over classification and and we can only

422

00:19:58,010 --> 00:19:55,559

hope I've tried to stay positive guys

423

00:20:00,169 --> 00:19:58,020

you know me I'm like that guy I'm The

424

00:20:01,789 --> 00:20:00,179

Optimist but um it's getting harder and

425

00:20:04,430 --> 00:20:01,799

harder each day

426

00:20:07,549 --> 00:20:04,440

not gonna lie not gonna lie

427

00:20:09,950 --> 00:20:07,559

um let's see here

428

00:20:12,529 --> 00:20:09,960

Jess says more than 100 watching 46

429

00:20:14,690 --> 00:20:12,539

likes come on folks help out click that

430

00:20:17,750 --> 00:20:14,700

like button Below guys really really

431

00:20:20,390 --> 00:20:17,760

helps us I swear um every like every

432

00:20:23,990 --> 00:20:20,400

comment um boosts us up in the algorithm

433

00:20:26,870 --> 00:20:24,000

so thank you Jazz appreciate that buddy

434

00:20:28,549 --> 00:20:26,880

um we have a long way we have come a

435

00:20:32,210 --> 00:20:28,559

long way in the last few years just hope

436

00:20:34,310 --> 00:20:32,220

it continues Andrew says agreed agreed

437

00:20:37,190 --> 00:20:34,320

agreed we have made a lot of progress

438

00:20:39,830 --> 00:20:37,200

but it seems Andrew every time we make

439

00:20:41,990 --> 00:20:39,840

some progress it's two steps back in

440

00:20:48,310 --> 00:20:42,000

some respects um

441

00:20:57,529 --> 00:20:52,970

let's move on guys from the um Arrow

442

00:20:59,570 --> 00:20:57,539

office to another really cool story that

443

00:21:03,289 --> 00:20:59,580

was dropped recently by our good friend

444

00:21:06,470 --> 00:21:03,299

John Greenwald at The Black Vault highly

445

00:21:10,970 --> 00:21:06,480

classified nro system detects possible

446

00:21:13,430 --> 00:21:10,980

Tic Tac object in 2021 what another Tic

447

00:21:14,990 --> 00:21:13,440

Tac object this is crazy this is

448

00:21:17,210 --> 00:21:15,000

absolutely insane

449

00:21:19,490 --> 00:21:17,220

um let's see here

450

00:21:21,710 --> 00:21:19,500

so John says in his article and we're

451
00:21:23,450 --> 00:21:21,720
going to show a little video John did uh

452
00:21:26,750 --> 00:21:23,460
I talked to him earlier today and he's

453
00:21:28,190 --> 00:21:26,760
allowing me to play a clip from a uh

454
00:21:31,370 --> 00:21:28,200
video he put over on his YouTube

455
00:21:33,049 --> 00:21:31,380
recently uh just about this story but um

456
00:21:35,270 --> 00:21:33,059
this is one of the biggest stories that

457
00:21:37,250 --> 00:21:35,280
come out in a long time guys so

458
00:21:40,730 --> 00:21:37,260
um definitely pay attention to this one

459
00:21:42,470 --> 00:21:40,740
as it unravels so in 2021 a highly

460
00:21:45,710 --> 00:21:42,480
classified system within the national

461
00:21:48,169 --> 00:21:45,720
reconnaissance office nro detected a

462
00:21:50,270 --> 00:21:48,179
tic-tac-shaped object which quote did

463
00:21:52,990 --> 00:21:50,280

not match the visual signature of

464

00:21:56,270 --> 00:21:53,000

typical aircraft detections

465

00:21:59,630 --> 00:21:56,280

the system of observing this object is

466

00:22:02,090 --> 00:21:59,640

called sentient sentient is an analysis

467

00:22:04,730 --> 00:22:02,100

tool capable of devouring data of All

468

00:22:07,310 --> 00:22:04,740

Sorts making sense of the past and

469

00:22:08,870 --> 00:22:07,320

present anticipating the future in

470

00:22:10,909 --> 00:22:08,880

pointing satellites towards what it

471

00:22:13,310 --> 00:22:10,919

determines will be the most interesting

472

00:22:14,870 --> 00:22:13,320

parts of that future

473

00:22:17,270 --> 00:22:14,880

at least one of the sentient's

474

00:22:19,909 --> 00:22:17,280

capabilities was revealed by a 2022

475

00:22:23,149 --> 00:22:19,919

release of multiple documents under the

476
00:22:27,350 --> 00:22:23,159
Freedom of Information Act it it can see

477
00:22:29,029 --> 00:22:27,360
and detect UFOs one record proving that

478
00:22:32,090 --> 00:22:29,039
was brought to the attention of The

479
00:22:34,909 --> 00:22:32,100
Black Vault last week so I'm going to go

480
00:22:37,370 --> 00:22:34,919
ahead and play this video for you guys

481
00:22:39,649 --> 00:22:37,380
um from John and we'll talk about it on

482
00:22:41,990 --> 00:22:39,659
the other side Eclipse a little not on

483
00:22:43,850 --> 00:22:42,000
the long side but on the longer side

484
00:22:46,190 --> 00:22:43,860
um a few minutes so let's go ahead and

485
00:22:48,049 --> 00:22:46,200
watch that but I guarantee you you're

486
00:22:54,590 --> 00:22:48,059
going to want to hear this

487
00:22:57,289 --> 00:22:54,600
fighting on 6 May 2021 of a UAP by the

488
00:22:59,149 --> 00:22:57,299

sentient system now here's one of those

489

00:23:00,770 --> 00:22:59,159

documents that were released and I'll go

490

00:23:04,250 --> 00:23:00,780

over two of the PowerPoint present

491

00:23:06,110 --> 00:23:04,260

presentations and then some emails

492

00:23:07,370 --> 00:23:06,120

but you can see here and I'll go through

493

00:23:09,789 --> 00:23:07,380

it at

494

00:23:13,850 --> 00:23:09,799

and it gives the full time in Zulu 6 May

495

00:23:17,149 --> 00:23:13,860

2021 sentient redacted image processing

496

00:23:20,210 --> 00:23:17,159

detected a possible Airborne object 78

497

00:23:22,250 --> 00:23:20,220

kilometers southeast of and they redact

498

00:23:23,930 --> 00:23:22,260

that location for obvious reasons they

499

00:23:25,370 --> 00:23:23,940

don't want us to know where they're

500

00:23:28,730 --> 00:23:25,380

essentially watching

501
00:23:31,730 --> 00:23:28,740
the object was small less than 10 meters

502
00:23:34,310 --> 00:23:31,740
and did not match the visual signature

503
00:23:36,950 --> 00:23:34,320
of typical aircraft detections

504
00:23:39,890 --> 00:23:36,960
the object did however vaguely resemble

505
00:23:42,289 --> 00:23:39,900
similar detections of Airborne objects

506
00:23:45,310 --> 00:23:42,299
by U.S Navy aircraft and surface vessels

507
00:23:47,930 --> 00:23:45,320
in the blank operating areas

508
00:23:50,210 --> 00:23:47,940
unidentified aerial phenomena in

509
00:23:53,710 --> 00:23:50,220
parentheses now why that redaction is

510
00:23:55,789 --> 00:23:53,720
there I'm not really sure we know the

511
00:23:58,610 --> 00:23:55,799
detections or at least the the the the

512
00:24:00,890 --> 00:23:58,620
very publicly known ones off the coast

513
00:24:03,470 --> 00:24:00,900

of the the east coast in Virginia I

514

00:24:05,930 --> 00:24:03,480

believe it was but more famous the ones

515

00:24:07,490 --> 00:24:05,940

off of the coast of California so why

516

00:24:10,190 --> 00:24:07,500

they couldn't name those operating areas

517

00:24:13,789 --> 00:24:10,200

I'm a little surprised uh but it could

518

00:24:15,409 --> 00:24:13,799

just be the reviewer themselves not

519

00:24:17,090 --> 00:24:15,419

knowing that that was known to the

520

00:24:19,250 --> 00:24:17,100

public and just went went ahead and

521

00:24:21,770 --> 00:24:19,260

redacted it going on to the bullet

522

00:24:25,190 --> 00:24:21,780

points there is a rough similarity to

523

00:24:27,169 --> 00:24:25,200

the previously reported Tic Tac shape so

524

00:24:29,470 --> 00:24:27,179

interesting line there because again you

525

00:24:31,970 --> 00:24:29,480

don't see a lot of the Tic Tac

526
00:24:34,610 --> 00:24:31,980
references in documents that have come

527
00:24:36,529 --> 00:24:34,620
out so that was a very cool find to see

528
00:24:39,350 --> 00:24:36,539
that they are recognizing the Navy

529
00:24:41,450 --> 00:24:39,360
sightings the Tic Tac shape and the fact

530
00:24:43,730 --> 00:24:41,460
that they are unknown

531
00:24:46,610 --> 00:24:43,740
the object was likely not a sensor

532
00:24:48,770 --> 00:24:46,620
artifact or focal plane anomaly although

533
00:24:51,470 --> 00:24:48,780
more in-depth imagery analysis is

534
00:24:53,450 --> 00:24:51,480
warranted very cool line there because

535
00:24:55,370 --> 00:24:53,460
quite simply a lot of people would then

536
00:24:57,649 --> 00:24:55,380
lean towards those Skeptics and

537
00:25:00,110 --> 00:24:57,659
debunkers out there that this was some

538
00:25:02,090 --> 00:25:00,120

type of sensor anomaly but rather this

539

00:25:05,210 --> 00:25:02,100

was an observation that they connected

540

00:25:07,669 --> 00:25:05,220

to other Navy observations and were

541

00:25:10,130 --> 00:25:07,679

ruling out sensor artifacts or focal

542

00:25:12,830 --> 00:25:10,140

planes there were no correlating tracks

543

00:25:15,770 --> 00:25:12,840

present in redacted reporting nor was

544

00:25:19,250 --> 00:25:15,780

there any correlating elint or sigint in

545

00:25:22,370 --> 00:25:19,260

also redacted reporting despite time

546

00:25:23,930 --> 00:25:22,380

coincident redacted access collection

547

00:25:25,549 --> 00:25:23,940

they were saying that there were no

548

00:25:27,830 --> 00:25:25,559

correlating tracks so maybe those

549

00:25:29,029 --> 00:25:27,840

systems didn't pick it up for whatever

550

00:25:31,490 --> 00:25:29,039

reason

551
00:25:33,890 --> 00:25:31,500
sentient detections did however detect

552
00:25:36,169 --> 00:25:33,900
the presence of the prob

553
00:25:38,450 --> 00:25:36,179
and then a bunch of redaction there in

554
00:25:41,390 --> 00:25:38,460
the same imagery 25 kilometers to the

555
00:25:42,950 --> 00:25:41,400
West in recent reporting the redacted

556
00:25:45,289 --> 00:25:42,960
has been associated with command and

557
00:25:47,450 --> 00:25:45,299
control or what they what they call a C2

558
00:25:49,730 --> 00:25:47,460
activities as well as more traditional

559
00:25:51,590 --> 00:25:49,740
Telemetry and space functions the

560
00:25:54,950 --> 00:25:51,600
simultaneous presence of this High

561
00:25:58,730 --> 00:25:54,960
interest vessel is notable although

562
00:26:00,230 --> 00:25:58,740
possibly merely coincidental so still

563
00:26:02,090 --> 00:26:00,240

makes it very difficult here with the

564

00:26:03,890 --> 00:26:02,100
redactions quite possibly they're

565

00:26:06,169 --> 00:26:03,900
referring to some type of command and

566

00:26:08,210 --> 00:26:06,179
control activity is this a surveillance

567

00:26:10,490 --> 00:26:08,220
drone of some kind is this some other

568

00:26:13,190 --> 00:26:10,500
type of equipment that's associated with

569

00:26:16,370 --> 00:26:13,200
with whatever that high interest vessel

570

00:26:17,930 --> 00:26:16,380
is as referred to here so was it a

571

00:26:19,789 --> 00:26:17,940
coincidence is there some kind of

572

00:26:24,950 --> 00:26:19,799
connection nro didn't know but it was

573

00:26:26,870 --> 00:26:24,960
worthy of obviously talking about

574

00:26:29,269 --> 00:26:26,880
confident this this was an interesting

575

00:26:31,909 --> 00:26:29,279
line confidence is relatively low in

576
00:26:35,090 --> 00:26:31,919
this detection but the potential linkage

577
00:26:37,669 --> 00:26:35,100
to similar phenomenon off of redacted

578
00:26:40,370 --> 00:26:37,679
obviously location May weren't further

579
00:26:42,470 --> 00:26:40,380
further investigation now check this out

580
00:26:45,950 --> 00:26:42,480
here's the next couple of pages page

581
00:26:48,830 --> 00:26:45,960
denied denied denied denied denied

582
00:26:50,450 --> 00:26:48,840
denied look at all that now these last

583
00:26:52,909 --> 00:26:50,460
two have what's called non-responsive

584
00:26:55,130 --> 00:26:52,919
records so they're claiming that these

585
00:26:58,070 --> 00:26:55,140
two had nothing to do with the sentient

586
00:27:00,649 --> 00:26:58,080
UAP connection but all of these don't

587
00:27:02,870 --> 00:27:00,659
have that which means that they are so

588
00:27:05,110 --> 00:27:02,880

the question mark is what is it are they

589

00:27:07,549 --> 00:27:05,120

the photographs are they the images

590

00:27:28,610 --> 00:27:07,559

what exactly would that be not really

591

00:27:33,110 --> 00:27:30,830

been talking this whole time and you

592

00:27:35,630 --> 00:27:33,120

guys couldn't hear me sorry about that

593

00:27:37,490 --> 00:27:35,640

um what a story I I think this is only

594

00:27:40,730 --> 00:27:37,500

just beginning hopefully we will learn

595

00:27:42,830 --> 00:27:40,740

more about this Andre says you're muted

596

00:27:46,549 --> 00:27:42,840

I know I know I know

597

00:27:48,890 --> 00:27:46,559

um yeah so this is so cool a very

598

00:27:51,169 --> 00:27:48,900

special thank you to John Greenwald for

599

00:27:53,510 --> 00:27:51,179

allowing me to play that clip um if you

600

00:27:54,350 --> 00:27:53,520

want to watch his full video on this

601
00:27:55,789 --> 00:27:54,360
story

602
00:27:57,289 --> 00:27:55,799
um I put a link down in the show notes

603
00:27:59,510 --> 00:27:57,299
you can go to that right now or just go

604
00:28:03,110 --> 00:27:59,520
to The Black Vault right here on YouTube

605
00:28:05,570 --> 00:28:03,120
and you can watch that as well

606
00:28:08,450 --> 00:28:05,580
um this sentient system is pretty

607
00:28:10,490 --> 00:28:08,460
interesting the setting system also did

608
00:28:12,289 --> 00:28:10,500
this is interesting pay attention to

609
00:28:14,810 --> 00:28:12,299
this because I he did not mention this I

610
00:28:17,330 --> 00:28:14,820
cut it before this sentient system also

611
00:28:19,730 --> 00:28:17,340
detected the presence of another vessel

612
00:28:23,149 --> 00:28:19,740
in the area about 15 and a half miles

613
00:28:25,930 --> 00:28:23,159

away from this UAP though the identity

614

00:28:29,810 --> 00:28:25,940

of that vessel remains unknown as it was

615

00:28:32,930 --> 00:28:29,820

redacted of course The Black Vault has

616

00:28:35,450 --> 00:28:32,940

filed additional foia requests with the

617

00:28:38,210 --> 00:28:35,460

hopes to reveal more details and imagery

618

00:28:40,490 --> 00:28:38,220

of the above sighting imagery

619

00:28:42,409 --> 00:28:40,500

imagery guys

620

00:28:44,930 --> 00:28:42,419

that's pretty cool

621

00:28:47,149 --> 00:28:44,940

um additional requests also filed by the

622

00:28:50,029 --> 00:28:47,159

black fault aim to seek out more UAP

623

00:28:52,909 --> 00:28:50,039

detections by sentient those cases

624

00:28:56,510 --> 00:28:52,919

should they reveal any further will be

625

00:29:00,289 --> 00:28:56,520

reported so this is what is good about

626

00:29:03,169 --> 00:29:00,299

the black fold we get tiny parcels and

627

00:29:05,450 --> 00:29:03,179

John Greenwald makes a whole cake out of

628

00:29:08,390 --> 00:29:05,460

those Parcels he will find every keyword

629

00:29:10,909 --> 00:29:08,400

he can zoom in on that narrowing on that

630

00:29:13,310 --> 00:29:10,919

and go after it so I think we're just

631

00:29:15,769 --> 00:29:13,320

hearing the beginning of this story

632

00:29:17,690 --> 00:29:15,779

within National reconnaissance office

633

00:29:19,430 --> 00:29:17,700

when it comes to all this so pretty cool

634

00:29:20,450 --> 00:29:19,440

pretty cool

635

00:29:22,669 --> 00:29:20,460

um

636

00:29:25,130 --> 00:29:22,679

let me go to the chat here guys

637

00:29:28,430 --> 00:29:25,140

I'm checking with you guys

638

00:29:31,250 --> 00:29:28,440

um you're muted Ryan I know I'm sorry I

639

00:29:33,289 --> 00:29:31,260

was trying to be polite

640

00:29:36,529 --> 00:29:33,299

um it's only more of a slap in the face

641

00:29:37,970 --> 00:29:36,539

Jake J says uh we are when we are

642

00:29:40,190 --> 00:29:37,980

redacted from what they are spending

643

00:29:42,529 --> 00:29:40,200

taxpayer money on I know

644

00:29:44,269 --> 00:29:42,539

I know repost this here hello hello

645

00:29:47,269 --> 00:29:44,279

hello

646

00:29:50,630 --> 00:29:47,279

Black Vault does great work Greenwald is

647

00:29:52,730 --> 00:29:50,640

the goat agreed agreed Jazz Shaw thank

648

00:29:54,830 --> 00:29:52,740

you so much for the super chat buddy Tic

649

00:29:57,230 --> 00:29:54,840

Tacs have been with us for a very long

650

00:29:59,870 --> 00:29:57,240

time we just didn't know what to call

651

00:30:03,169 --> 00:29:59,880

them yeah I think he's right I I think

652

00:30:04,610 --> 00:30:03,179

these submersible objects possibly

653

00:30:07,269 --> 00:30:04,620

submersible

654

00:30:10,310 --> 00:30:07,279

um and now trans medium

655

00:30:12,950 --> 00:30:10,320

uh have been with us for a while much

656

00:30:15,049 --> 00:30:12,960

longer than just 2004. we have them

657

00:30:17,450 --> 00:30:15,059

dating back much much further than that

658

00:30:20,389 --> 00:30:17,460

but again like I think it was Michael

659

00:30:23,690 --> 00:30:20,399

Huntington in the chat did say like the

660

00:30:26,810 --> 00:30:23,700

shape is um kind of subjective you know

661

00:30:28,970 --> 00:30:26,820

each UFO is very unique and just because

662

00:30:31,610 --> 00:30:28,980

one is quote unquote a Tic Tac like you

663

00:30:34,850 --> 00:30:31,620

see there on the screen uh some uh are

664

00:30:36,049 --> 00:30:34,860

kind of tic tac-ish or cigar-shaped or

665

00:30:38,690 --> 00:30:36,059

oblong

666

00:30:42,230 --> 00:30:38,700

um and it doesn't mean they're the same

667

00:30:44,029 --> 00:30:42,240

craft so it's it's frustrating it seems

668

00:30:47,029 --> 00:30:44,039

like you know we look for patterns in

669

00:30:50,210 --> 00:30:47,039

these UFOs yet we can barely ever Truly

670

00:30:51,529 --> 00:30:50,220

find them so yeah yeah very very

671

00:30:53,690 --> 00:30:51,539

interesting

672

00:30:56,090 --> 00:30:53,700

um again I think it's so cool that we're

673

00:30:58,430 --> 00:30:56,100

just scratching the surface of this

674

00:31:02,210 --> 00:30:58,440

story thanks again to John Greenwald for

675

00:31:03,710 --> 00:31:02,220

sending that our way Android paranormal

676

00:31:05,930 --> 00:31:03,720

thank you so much for the Super Chat

677

00:31:08,389 --> 00:31:05,940

these Sunday shows are amazing oh thanks

678

00:31:09,769 --> 00:31:08,399

man I do truly appreciate that thank you

679

00:31:10,909 --> 00:31:09,779

thank you

680

00:31:14,630 --> 00:31:10,919

um

681

00:31:18,230 --> 00:31:14,640

let's move on guys to our next story

682

00:31:20,710 --> 00:31:18,240

this is where things are gonna get fun

683

00:31:24,169 --> 00:31:20,720

um yes and we're getting to

684

00:31:26,630 --> 00:31:24,179

the drops this week as well um we'll get

685

00:31:28,789 --> 00:31:26,640

to those we'll get to those but

686

00:31:31,490 --> 00:31:28,799

this is cool

687

00:31:35,630 --> 00:31:31,500

skin walker Ranch superintendent reveals

688

00:31:39,049 --> 00:31:35,640

new T new details on possibly UFO buried

689

00:31:41,090 --> 00:31:39,059

on property so in season three of The

690

00:31:42,950 --> 00:31:41,100

Secret of skin walker Ranch the

691

00:31:44,870 --> 00:31:42,960

investigative team including the Rack

692

00:31:45,950 --> 00:31:44,880

Ranch superintendent Thomas Winterton

693

00:31:47,870 --> 00:31:45,960

who you see there on the screen

694

00:31:50,690 --> 00:31:47,880

conducted an experiment to find out

695

00:31:52,789 --> 00:31:50,700

what's beneath a Mesa rock formation

696

00:31:54,590 --> 00:31:52,799

as the team drilled into the solid rock

697

00:31:57,470 --> 00:31:54,600

Mound on the ranch they discovered a

698

00:32:00,470 --> 00:31:57,480

quote mysterious void containing an

699

00:32:02,510 --> 00:32:00,480

impenetrable object and remove some of

700

00:32:06,830 --> 00:32:02,520

the material for testing which they

701
00:32:09,049 --> 00:32:06,840
believe Could Be Ma from a man-made Dome

702
00:32:10,669 --> 00:32:09,059
Thomas recently elaborated on this

703
00:32:13,970 --> 00:32:10,679
discovery during an interview at

704
00:32:15,769 --> 00:32:13,980
aliencon in Pasadena last weekend when

705
00:32:19,370 --> 00:32:15,779
asked directly if he thinks there is a

706
00:32:21,049 --> 00:32:19,380
UFO inside the Mesa this was his reply

707
00:32:23,330 --> 00:32:21,059
foreign

708
00:32:25,549 --> 00:32:23,340
there's definitely something unnatural

709
00:32:27,590 --> 00:32:25,559
in that Hill you can imagine that us

710
00:32:29,750 --> 00:32:27,600
drilling into that Hill several hundred

711
00:32:32,630 --> 00:32:29,760
feet and pulling out metal that the

712
00:32:34,669 --> 00:32:32,640
University of Utah the profess Professor

713
00:32:36,889 --> 00:32:34,679

there said he didn't think that it was

714

00:32:38,750 --> 00:32:36,899

natural he didn't really see a way that

715

00:32:41,690 --> 00:32:38,760

that could be naturally occurring there

716

00:32:44,510 --> 00:32:41,700

that uh that would say that we've got an

717

00:32:47,389 --> 00:32:44,520

artificial object inside that Mesa

718

00:32:49,909 --> 00:32:47,399

having been all over the Mesa myself I

719

00:32:51,649 --> 00:32:49,919

mean it's very baffling so there's

720

00:32:54,169 --> 00:32:51,659

definitely something artificial a couple

721

00:32:55,909 --> 00:32:54,179

of hundred feet down in the hill I know

722

00:32:58,250 --> 00:32:55,919

that it's got the interest of every

723

00:33:00,769 --> 00:32:58,260

single one of us team members so the

724

00:33:02,750 --> 00:33:00,779

viewers of season four can expect that

725

00:33:05,570 --> 00:33:02,760

we're going to pay that a lot more

726
00:33:07,430 --> 00:33:05,580
attention and I would expect to see some

727
00:33:10,430 --> 00:33:07,440
more efforts to try and figure out what

728
00:33:12,649 --> 00:33:10,440
the medal is what it is a part of

729
00:33:14,090 --> 00:33:12,659
it's funny when we were having one of

730
00:33:17,149 --> 00:33:14,100
the meetings and trying to figure out

731
00:33:20,269 --> 00:33:17,159
how are we going to get at this someone

732
00:33:22,009 --> 00:33:20,279
jokingly said let's just blow it the f

733
00:33:24,889 --> 00:33:22,019
up

734
00:33:27,169 --> 00:33:24,899
the problem is if we use any real

735
00:33:29,450 --> 00:33:27,179
invasive method to try to get in there

736
00:33:31,730 --> 00:33:29,460
we run the risk of damaging whatever it

737
00:33:33,769 --> 00:33:31,740
is that we're trying to study and so we

738
00:33:35,870 --> 00:33:33,779

got to be very careful as we come into

739

00:33:38,090 --> 00:33:35,880

it almost like an archaeological dig

740

00:33:39,889 --> 00:33:38,100

it's going to be quite an effort to

741

00:33:41,450 --> 00:33:39,899

figure out how to get in there and so

742

00:33:43,909 --> 00:33:41,460

our viewers will see probably some of

743

00:33:45,409 --> 00:33:43,919

those efforts there to investigate that

744

00:33:48,950 --> 00:33:45,419

further

745

00:33:50,690 --> 00:33:48,960

pretty interesting some some some cool

746

00:33:52,130 --> 00:33:50,700

quotes there from Thomas Winterton I'm

747

00:33:55,310 --> 00:33:52,140

looking forward to season four of

748

00:33:58,370 --> 00:33:55,320

Skinwalker to see what happens with this

749

00:34:01,130 --> 00:33:58,380

material I hope they get it um tested in

750

00:34:02,570 --> 00:34:01,140

other places as well and uh that they

751
00:34:04,070 --> 00:34:02,580
keep trying to figure out what the heck

752
00:34:05,269 --> 00:34:04,080
is in the Mesa I think there's something

753
00:34:08,570 --> 00:34:05,279
truly

754
00:34:09,829 --> 00:34:08,580
um anomalous there so so yeah yeah

755
00:34:12,409 --> 00:34:09,839
pretty interesting what do you guys

756
00:34:14,389 --> 00:34:12,419
think I'm gonna go to the chat now

757
00:34:16,250 --> 00:34:14,399
um

758
00:34:18,070 --> 00:34:16,260
repo says wait is this a spot on the

759
00:34:20,930 --> 00:34:18,080
ranch where they refuse to dig out the

760
00:34:22,369 --> 00:34:20,940
dig out of superstition I don't know

761
00:34:24,589 --> 00:34:22,379
repost I'm not sure if it's the same

762
00:34:26,690 --> 00:34:24,599
area but um they're pretty scared to dig

763
00:34:28,970 --> 00:34:26,700

anywhere on the ranch to be completely

764

00:34:31,070 --> 00:34:28,980

honest and I don't blame them

765

00:34:34,430 --> 00:34:31,080

um you know I don't think they should be

766

00:34:37,310 --> 00:34:34,440

digging at all but that's that's

767

00:34:40,570 --> 00:34:37,320

unfortunately where we're at

768

00:34:45,230 --> 00:34:44,450

TV show sensationalism Michael says um

769

00:34:47,810 --> 00:34:45,240

yeah

770

00:34:50,690 --> 00:34:47,820

I mean it is a TV show so it's

771

00:34:52,550 --> 00:34:50,700

entertainment first but um you know they

772

00:34:55,909 --> 00:34:52,560

have put a lot of time and effort into

773

00:34:57,349 --> 00:34:55,919

some of these investigations and um I

774

00:34:59,089 --> 00:34:57,359

think it's cool

775

00:35:01,030 --> 00:34:59,099

um I like to see their Weird Science

776
00:35:04,790 --> 00:35:01,040
Experiments will they ever find answers

777
00:35:07,490 --> 00:35:04,800
I don't know I honestly don't but um if

778
00:35:10,750 --> 00:35:07,500
you don't like it don't watch it

779
00:35:18,349 --> 00:35:13,849
let's see

780
00:35:24,170 --> 00:35:20,510
let's scope it

781
00:35:25,849 --> 00:35:24,180
pass me a spade fuse the electron says

782
00:35:28,849 --> 00:35:25,859
um Ian asks they think it's a

783
00:35:30,890 --> 00:35:28,859
sphere-shaped as drill bounced under it

784
00:35:31,790 --> 00:35:30,900
um or he Ian said that he didn't ask

785
00:35:33,530 --> 00:35:31,800
that

786
00:35:36,170 --> 00:35:33,540
um yeah yeah good point

787
00:35:37,670 --> 00:35:36,180
very good point

788
00:35:38,990 --> 00:35:37,680

so yeah I thought that was a pretty cool

789

00:35:42,470 --> 00:35:39,000

story

790

00:35:44,930 --> 00:35:42,480

um we'll see what happens in season four

791

00:35:48,890 --> 00:35:44,940

to our next story guys

792

00:35:51,770 --> 00:35:48,900

Calvin UFO story is back and you want to

793

00:35:54,530 --> 00:35:51,780

know why we have identified the

794

00:35:56,569 --> 00:35:54,540

photographer we had our good bunny

795

00:35:59,150 --> 00:35:56,579

Vinnie from disclosure team on a couple

796

00:36:00,650 --> 00:35:59,160

weeks ago kind of teased that this might

797

00:36:02,870 --> 00:36:00,660

be coming out that they found the

798

00:36:04,790 --> 00:36:02,880

identity of one of the photographers and

799

00:36:07,550 --> 00:36:04,800

uh they were able to track him down at

800

00:36:09,470 --> 00:36:07,560

least a photo of him track him down uh

801
00:36:11,569 --> 00:36:09,480
that's totally not the truth I apologize

802
00:36:14,150 --> 00:36:11,579
for saying that they're trying to find

803
00:36:16,609 --> 00:36:14,160
him um and they need people's help on

804
00:36:19,730 --> 00:36:16,619
this so Calvin UFO photographers

805
00:36:22,250 --> 00:36:19,740
identity revealed investigators believe

806
00:36:25,210 --> 00:36:22,260
a Scot could hold an important clue to

807
00:36:28,910 --> 00:36:25,220
one of the world's biggest UFO Mysteries

808
00:36:32,270 --> 00:36:28,920
Scotland go Scotland

809
00:36:33,950 --> 00:36:32,280
so the Calvin photo taken in 1990 in

810
00:36:36,650 --> 00:36:33,960
Scotland is regarded as one of the

811
00:36:38,930 --> 00:36:36,660
clearest UFO pictures ever taken

812
00:36:40,670 --> 00:36:38,940
but at the center of the mystery after

813
00:36:44,569 --> 00:36:40,680

images sent to the ministry of Defense

814

00:36:46,670 --> 00:36:44,579

disappeared uh the mystery only grew but

815

00:36:48,829 --> 00:36:46,680

one certified copy emerged last year

816

00:36:52,130 --> 00:36:48,839

showing a diamond-shaped object in the

817

00:36:55,010 --> 00:36:52,140

sky above perthshire believed by some to

818

00:36:56,990 --> 00:36:55,020

be the world's best UFO photo this story

819

00:37:00,050 --> 00:36:57,000

and photo was released in conjunction

820

00:37:02,810 --> 00:37:00,060

with UAP media UK

821

00:37:05,510 --> 00:37:02,820

a group I proudly work for the group I'm

822

00:37:07,370 --> 00:37:05,520

honored to be working with I should say

823

00:37:09,589 --> 00:37:07,380

I can't believe they allowed me in those

824

00:37:11,329 --> 00:37:09,599

crazy crazy Brits

825

00:37:13,970 --> 00:37:11,339

the person who took the photo was a

826
00:37:16,510 --> 00:37:13,980
young glass region named Kevin Russell

827
00:37:19,730 --> 00:37:16,520
who was working as a porter at the

828
00:37:21,890 --> 00:37:19,740
pilgrim Hydro hotel at the time Kevin

829
00:37:24,050 --> 00:37:21,900
and a friend were left terrified by a

830
00:37:26,810 --> 00:37:24,060
hundred foot long aircraft which they

831
00:37:29,450 --> 00:37:26,820
said hovered above the A9 near Calvin

832
00:37:32,390 --> 00:37:29,460
for 10 minutes then sort off at high

833
00:37:35,630 --> 00:37:32,400
speed in buzzed and was buzzed by RAF

834
00:37:40,370 --> 00:37:38,089
investigator Matthew Easley stated that

835
00:37:42,770 --> 00:37:40,380
quote the identity of Kevin Russell the

836
00:37:45,530 --> 00:37:42,780
photographer remained a secret for 33

837
00:37:47,450 --> 00:37:45,540
years until now we would very much like

838
00:37:50,630 --> 00:37:47,460

him to come forward to confirm once and

839

00:37:53,270 --> 00:37:50,640

for all what it was he saw

840

00:37:55,430 --> 00:37:53,280

the more likely truth lies with human

841

00:37:57,650 --> 00:37:55,440

aircraft advancements that they were

842

00:38:00,890 --> 00:37:57,660

covered up by the mod and U.S

843

00:38:03,530 --> 00:38:00,900

intelligence agencies easily says this

844

00:38:05,870 --> 00:38:03,540

case is not about Little Green Men or an

845

00:38:07,790 --> 00:38:05,880

aerial Loch Ness monster it's

846

00:38:11,690 --> 00:38:07,800

potentially a piece of military history

847

00:38:14,150 --> 00:38:11,700

that can be unlocked once and for all

848

00:38:16,430 --> 00:38:14,160

Isley said Kevin would likely be in his

849

00:38:18,650 --> 00:38:16,440

50s now Hotel colleagues who were

850

00:38:21,290 --> 00:38:18,660

Tracked Down said he returned to Glasgow

851
00:38:22,970 --> 00:38:21,300
in the early 90s the photo of Kevin was

852
00:38:25,730 --> 00:38:22,980
supplied to Italy recently by a person

853
00:38:27,710 --> 00:38:25,740
who worked at the hotel it was revealed

854
00:38:29,750 --> 00:38:27,720
last year that former mod press officer

855
00:38:31,450 --> 00:38:29,760
Craig Lindsay had worked on the case

856
00:38:35,210 --> 00:38:31,460
when the photos originally came to light

857
00:38:37,670 --> 00:38:35,220
easily said quote one omod Insider

858
00:38:40,069 --> 00:38:37,680
described it as the most spectacular UFO

859
00:38:42,050 --> 00:38:40,079
picture ever captured and the Holy Grail

860
00:38:44,569 --> 00:38:42,060
in terms of hard evidence that these

861
00:38:47,210 --> 00:38:44,579
things really exist it's a picture the

862
00:38:50,089 --> 00:38:47,220
mod and the National Archives tried

863
00:38:51,650 --> 00:38:50,099

their utmost to keep hidden we hope we

864

00:38:54,050 --> 00:38:51,660

might be on the edge of solving this

865

00:38:57,349 --> 00:38:54,060

mystery once and for all

866

00:38:59,150 --> 00:38:57,359

so there you go guys Kevin Russell

867

00:39:00,950 --> 00:38:59,160

check out that sweater

868

00:39:03,050 --> 00:39:00,960

I love it Kevin if you're watching this

869

00:39:05,210 --> 00:39:03,060

buddy come on come on we want to know

870

00:39:07,849 --> 00:39:05,220

what was this thing we want to hear it

871

00:39:09,650 --> 00:39:07,859

from your your side of the story please

872

00:39:11,870 --> 00:39:09,660

please please

873

00:39:14,510 --> 00:39:11,880

um so this is cool guys we're one step

874

00:39:16,430 --> 00:39:14,520

closer to solving the Calvin mystery and

875

00:39:19,069 --> 00:39:16,440

you know easily

876

00:39:21,290 --> 00:39:19,079

um Dr David Clark many believe that this

877

00:39:23,089 --> 00:39:21,300

craft was probably

878

00:39:25,550 --> 00:39:23,099

um a military aircraft so they're not

879

00:39:26,990 --> 00:39:25,560

saying it was from Zeta reticuli

880

00:39:29,329 --> 00:39:27,000

um but they're also not saying that it's

881

00:39:30,170 --> 00:39:29,339

an island and a reflection and a guy in

882

00:39:33,470 --> 00:39:30,180

a boat

883

00:39:35,270 --> 00:39:33,480

so um I think we're past that uh are we

884

00:39:36,829 --> 00:39:35,280

what do you think let me know in the

885

00:39:38,270 --> 00:39:36,839

comments

886

00:39:41,329 --> 00:39:38,280

um because when people say that that's

887

00:39:43,670 --> 00:39:41,339

all I see in the picture honestly but I

888

00:39:46,190 --> 00:39:43,680

don't know I don't know I I do put a lot

889

00:39:49,550 --> 00:39:46,200

of stock in value obviously into witness

890

00:39:51,230 --> 00:39:49,560

testimony so um for now I'm sticking

891

00:39:53,870 --> 00:39:51,240

with this is in military aircraft

892

00:39:55,730 --> 00:39:53,880

there's some kind but

893

00:39:57,530 --> 00:39:55,740

I don't know I don't know

894

00:39:59,210 --> 00:39:57,540

um I think it's awesome that we're one

895

00:40:03,109 --> 00:39:59,220

step closer and I can't wait to see what

896

00:40:07,849 --> 00:40:05,569

let's see here what you guys are saying

897

00:40:09,349 --> 00:40:07,859

in the chat welcome to Bigfoot Society

898

00:40:12,109 --> 00:40:09,359

delegation from the Bigfoot community

899

00:40:15,770 --> 00:40:12,119

checking in thank you buddy good to have

900

00:40:17,930 --> 00:40:15,780

you here as always go check out Bigfoot

901
00:40:21,349 --> 00:40:17,940
Society podcast guys it's a wonderful

902
00:40:23,630 --> 00:40:21,359
wonderful show he's even tackled UFOs in

903
00:40:25,430 --> 00:40:23,640
conjunction with Bigfoot a few times so

904
00:40:28,430 --> 00:40:25,440
highly recommend the amazing work he

905
00:40:32,150 --> 00:40:28,440
does over there so please go subscribe

906
00:40:34,490 --> 00:40:32,160
Ryan Baker put a high-res image of uh

907
00:40:37,550 --> 00:40:34,500
the Calvin UFO in the chat so go ahead

908
00:40:39,470 --> 00:40:37,560
and check that out guys if you can

909
00:40:42,230 --> 00:40:39,480
um monkey land says just discovered Ryan

910
00:40:45,109 --> 00:40:42,240
Sprague on TV found out he's from

911
00:40:46,430 --> 00:40:45,119
Scotland he has a nice Scottish accent

912
00:40:50,930 --> 00:40:46,440
yeah

913
00:40:53,089 --> 00:40:50,940

so welcome welcome to somewhere in the

914

00:40:54,530 --> 00:40:53,099

live stream uh really appreciate you

915

00:40:58,310 --> 00:40:54,540

being here for sure

916

00:41:01,150 --> 00:40:58,320

um but yes I am a an American

917

00:41:03,170 --> 00:41:01,160

living abroad right now and absolutely

918

00:41:06,589 --> 00:41:03,180

loving it

919

00:41:10,750 --> 00:41:06,599

you guys

920

00:41:13,609 --> 00:41:10,760

hmm wee Jock It's called

921

00:41:16,790 --> 00:41:13,619

could make a lot of jokes about that but

922

00:41:20,750 --> 00:41:16,800

I digress

923

00:41:26,569 --> 00:41:22,970

friend hello friend that's the E.T craft

924

00:41:29,750 --> 00:41:26,579

John Lear had in his office hey could be

925

00:41:32,870 --> 00:41:29,760

very similar who knows who knows

926
00:41:34,490 --> 00:41:32,880
repost says even if the Calvin object is

927
00:41:36,650 --> 00:41:34,500
military it would be multiple decades

928
00:41:38,450 --> 00:41:36,660
ahead of even modern tech getting a

929
00:41:45,230 --> 00:41:38,460
plane the size of a B2 Spirit to hover

930
00:41:47,930 --> 00:41:45,240
like in F-35 is nuts yeah agreed agreed

931
00:41:50,030 --> 00:41:47,940
Jazz says the photographer certainly had

932
00:41:51,470 --> 00:41:50,040
had no more idea what he was taking

933
00:41:53,329 --> 00:41:51,480
pictures of than we do but it doesn't

934
00:41:54,770 --> 00:41:53,339
look like a conventional aircraft yeah

935
00:41:57,589 --> 00:41:54,780
good point I mean even if we track Kevin

936
00:41:59,089 --> 00:41:57,599
down like he's not gonna know what the

937
00:42:01,010 --> 00:41:59,099
craft was but he might be able to clear

938
00:42:02,990 --> 00:42:01,020

up some stuff for us

939

00:42:05,690 --> 00:42:03,000

um or he might admit that it was all

940

00:42:08,210 --> 00:42:05,700

hoax who knows who knows if they offer

941

00:42:10,370 --> 00:42:08,220

him enough enough dough maybe he'll

942

00:42:13,250 --> 00:42:10,380

he'll finally admit that this was an

943

00:42:16,790 --> 00:42:13,260

island with a man in a boat you can't

944

00:42:19,490 --> 00:42:16,800

unsee it now guys I'm sorry I can't

945

00:42:19,500 --> 00:42:23,990

all right

946

00:42:28,970 --> 00:42:27,170

what do we have next guys

947

00:42:30,770 --> 00:42:28,980

we're getting down to the nitty-gritty

948

00:42:34,250 --> 00:42:30,780

of our stories before we move on to

949

00:42:35,750 --> 00:42:34,260

podcast highlights of the week thanks

950

00:42:37,790 --> 00:42:35,760

for sticking with me guys if you're just

951

00:42:40,130 --> 00:42:37,800

joining us this is somewhere in the live

952

00:42:43,069 --> 00:42:40,140

stream where we go through the UFO news

953

00:42:45,290 --> 00:42:43,079

of the week and we also go through the

954

00:42:49,250 --> 00:42:45,300

podcast highlights of the week from your

955

00:42:51,290 --> 00:42:49,260

favorite UFO an unexplained podcasts and

956

00:42:55,130 --> 00:42:51,300

uh we just have a good time as you can

957

00:42:56,710 --> 00:42:55,140

see I'm having a drink hope you are too

958

00:42:59,510 --> 00:42:56,720

um

959

00:43:01,309 --> 00:42:59,520

let's move on to this next really

960

00:43:04,730 --> 00:43:01,319

exciting story that comes to us from

961

00:43:07,670 --> 00:43:04,740

Micah Hanks at the debrief

962

00:43:10,430 --> 00:43:07,680

asteroid Discovery could shed light on

963

00:43:13,069 --> 00:43:10,440

the origins of life on Earth

964

00:43:15,109 --> 00:43:13,079

so cool according to a NASA analysis by

965

00:43:17,270 --> 00:43:15,119

the American space agency and its

966

00:43:20,150 --> 00:43:17,280

International Partners initial samples

967

00:43:24,050 --> 00:43:20,160

retrieved from asteroid ryugu by the

968

00:43:26,470 --> 00:43:24,060

Japanese Hayabusa II spacecraft found an

969

00:43:29,030 --> 00:43:26,480

abundance of organic molecules

970

00:43:31,069 --> 00:43:29,040

suggesting that the com components

971

00:43:33,230 --> 00:43:31,079

necessary for life could have been

972

00:43:35,809 --> 00:43:33,240

introduced in Earth's distant past from

973

00:43:37,130 --> 00:43:35,819

Celestial sources

974

00:43:38,990 --> 00:43:37,140

um

975

00:43:41,450 --> 00:43:39,000

I'm so sorry guys

976
00:43:44,329 --> 00:43:41,460
throat is killing me it's been an

977
00:43:45,170 --> 00:43:44,339
interesting few days in Casa de spread

978
00:43:47,329 --> 00:43:45,180
here

979
00:43:49,370 --> 00:43:47,339
um sickness wise

980
00:43:51,170 --> 00:43:49,380
of key significance in the recent

981
00:43:53,870 --> 00:43:51,180
analysis was the detection of several

982
00:43:56,390 --> 00:43:53,880
amino acids used by organisms on Earth

983
00:43:58,670 --> 00:43:56,400
to build proteins along with Organic

984
00:44:00,770 --> 00:43:58,680
substances that all form in the presence

985
00:44:03,530 --> 00:44:00,780
of another component that is vital to

986
00:44:06,109 --> 00:44:03,540
the formation of Life liquid water

987
00:44:08,630 --> 00:44:06,119
the findings on the surface of the ryugu

988
00:44:10,609 --> 00:44:08,640

asteroid is significant because it

989

00:44:12,589 --> 00:44:10,619

reveals that such key ingredients to

990

00:44:14,630 --> 00:44:12,599

life could be shielded against the

991

00:44:17,270 --> 00:44:14,640

extreme conditions that occur in space

992

00:44:19,370 --> 00:44:17,280

allowing them to Transit great distances

993

00:44:21,770 --> 00:44:19,380

and potentially make their way to

994

00:44:23,630 --> 00:44:21,780

planets like Earth where the process

995

00:44:24,770 --> 00:44:23,640

that led to the formation of Life can

996

00:44:26,990 --> 00:44:24,780

take place

997

00:44:28,609 --> 00:44:27,000

according to the international team who

998

00:44:31,130 --> 00:44:28,619

have recently published a paper on their

999

00:44:33,050 --> 00:44:31,140

findings the compounds detected in the

1000

00:44:35,569 --> 00:44:33,060

samples harvested from the asteroid

1001
00:44:37,910 --> 00:44:35,579
appear to be consistent with what has

1002
00:44:40,069 --> 00:44:37,920
already been found in meteorites that

1003
00:44:43,250 --> 00:44:40,079
have been exposed to water where it is

1004
00:44:45,829 --> 00:44:43,260
suspected of existing in space

1005
00:44:47,690 --> 00:44:45,839
going forward additional samples will be

1006
00:44:49,490 --> 00:44:47,700
studied in the years ahead which will

1007
00:44:52,130 --> 00:44:49,500
include comparisons between samples from

1008
00:44:54,829 --> 00:44:52,140
asteroid ryugu and another asteroid

1009
00:44:57,010 --> 00:44:54,839
bennu once samples from it are returned

1010
00:45:01,790 --> 00:44:57,020
to Earth later this year by NASA's

1011
00:45:06,890 --> 00:45:04,190
with the volume of the sample collection

1012
00:45:08,750 --> 00:45:06,900
expected from bennu NASA and its

1013
00:45:10,490 --> 00:45:08,760

International Partners also believe it

1014

00:45:12,770 --> 00:45:10,500

could provide even better opportunities

1015

00:45:15,069 --> 00:45:12,780

to search for evidence of components

1016

00:45:18,530 --> 00:45:15,079

that may help shed further light on the

1017

00:45:20,210 --> 00:45:18,540

organic composition of asteroids as well

1018

00:45:23,510 --> 00:45:20,220

as the role they might have played in

1019

00:45:26,750 --> 00:45:23,520

The Mysterious origins of life on Earth

1020

00:45:28,910 --> 00:45:26,760

this is so cool I love this idea of Ben

1021

00:45:31,670 --> 00:45:28,920

spermia that we are alien to our own

1022

00:45:34,550 --> 00:45:31,680

planet that we were seated here

1023

00:45:37,309 --> 00:45:34,560

um we didn't even we we evolved here but

1024

00:45:40,309 --> 00:45:37,319

we literally did not start here I love

1025

00:45:42,829 --> 00:45:40,319

this concept so so so cool

1026

00:45:44,569 --> 00:45:42,839

um so um I hope it's true I hope our

1027

00:45:46,670 --> 00:45:44,579

aliens to our own Planet because I know

1028

00:45:49,010 --> 00:45:46,680

we all feel it all the time especially

1029

00:45:52,370 --> 00:45:49,020

Us in the UFO field we are the true

1030

00:45:54,349 --> 00:45:52,380

Outsiders which is kind of the uh focus

1031

00:45:56,349 --> 00:45:54,359

of this week's episode of somewhere in

1032

00:45:58,910 --> 00:45:56,359

the Skies coming out in just a few hours

1033

00:46:01,849 --> 00:45:58,920

hint into Tasties

1034

00:46:04,130 --> 00:46:01,859

check that out later

1035

00:46:05,510 --> 00:46:04,140

let's see here repo says ooh interesting

1036

00:46:09,170 --> 00:46:05,520

means we're likely to be aliens

1037

00:46:12,050 --> 00:46:09,180

ourselves exactly I think it's so cool

1038

00:46:14,870 --> 00:46:12,060

Dave Lynn what up well didn't Carl Sagan

1039

00:46:16,190 --> 00:46:14,880

say we're all made of star stuff so we

1040

00:46:17,870 --> 00:46:16,200

all each contain all the same

1041

00:46:20,450 --> 00:46:17,880

ingredients to make stars nebulous

1042

00:46:22,730 --> 00:46:20,460

planets other matter yeah we are We Are

1043

00:46:25,490 --> 00:46:22,740

All Made of star stuff so this just

1044

00:46:27,349 --> 00:46:25,500

lends more Credence to that idea

1045

00:46:28,790 --> 00:46:27,359

Ray says better hope they're not face

1046

00:46:32,089 --> 00:46:28,800

huggers yes

1047

00:46:35,390 --> 00:46:32,099

agreed agreed

1048

00:46:38,690 --> 00:46:35,400

Christian says we are the Martians ah

1049

00:46:41,390 --> 00:46:38,700

love it dope nose what's up welcome

1050

00:46:43,010 --> 00:46:41,400

welcome second also said that all water

1051
00:46:46,309 --> 00:46:43,020
on Earth probably came from cometary

1052
00:46:48,109 --> 00:46:46,319
impacts ow I did not know that that's

1053
00:46:50,690 --> 00:46:48,119
really interesting

1054
00:46:52,970 --> 00:46:50,700
so so cool

1055
00:46:54,410 --> 00:46:52,980
Jay says to me finding organic compounds

1056
00:46:56,349 --> 00:46:54,420
is one thing but we really should be

1057
00:46:58,730 --> 00:46:56,359
looking for fossilized bacteria or

1058
00:47:00,829 --> 00:46:58,740
microorganisms as well as remnants of

1059
00:47:03,470 --> 00:47:00,839
technology in any meteorites or

1060
00:47:05,450 --> 00:47:03,480
asteroids we study yeah that's a really

1061
00:47:08,089 --> 00:47:05,460
good point

1062
00:47:13,670 --> 00:47:08,099
look at the fossil records guys

1063
00:47:16,809 --> 00:47:15,230

just checking out the chat here guys

1064

00:47:19,450 --> 00:47:16,819

bear with me

1065

00:47:21,530 --> 00:47:19,460

Thomas

1066

00:47:23,750 --> 00:47:21,540

I love that movie I was just talking

1067

00:47:25,670 --> 00:47:23,760

about it today Mars Attacks

1068

00:47:27,589 --> 00:47:25,680

when a Tim Burton's finest I know the

1069

00:47:31,030 --> 00:47:27,599

reviews of it and the ratings weren't as

1070

00:47:37,010 --> 00:47:33,730

#starseed says

1071

00:47:41,270 --> 00:47:37,020

love your screen name

1072

00:47:43,730 --> 00:47:41,280

all right guys let's move on to probably

1073

00:47:44,870 --> 00:47:43,740

one of the more controversial stories of

1074

00:47:50,569 --> 00:47:44,880

the week

1075

00:47:54,349 --> 00:47:50,579

and that was a UFO video that was filmed

1076

00:47:56,150 --> 00:47:54,359

and shared uh by Sean Cahill so for

1077

00:47:58,490 --> 00:47:56,160

those of you who don't know Sean Cahill

1078

00:48:01,130 --> 00:47:58,500

was a former Navy chief Master at Arms

1079

00:48:03,950 --> 00:48:01,140

uh he also was part of the now famous

1080

00:48:05,270 --> 00:48:03,960

Navy Tic Tac event

1081

00:48:08,930 --> 00:48:05,280

um claimed to have seen something while

1082

00:48:10,130 --> 00:48:08,940

he was on the carrier and uh yeah he

1083

00:48:14,089 --> 00:48:10,140

recently

1084

00:48:15,890 --> 00:48:14,099

filmed a UFO and let's go ahead and take

1085

00:48:17,569 --> 00:48:15,900

a look at the video and we'll come back

1086

00:48:20,210 --> 00:48:17,579

on the other side and get a little bit

1087

00:48:21,410 --> 00:48:20,220

more context on this so

1088

00:48:23,510 --> 00:48:21,420

um there's no sound to it but I'm gonna

1089

00:49:10,550 --> 00:48:23,520

go ahead and play it and uh give it a

1090

00:49:14,210 --> 00:49:12,470

hmm

1091

00:49:16,730 --> 00:49:14,220

what do you guys think

1092

00:49:19,370 --> 00:49:16,740

so probably

1093

00:49:22,190 --> 00:49:19,380

um the biggest kind of uh I guess

1094

00:49:23,030 --> 00:49:22,200

bombshell of this video is that it was

1095

00:49:26,750 --> 00:49:23,040

shot

1096

00:49:29,030 --> 00:49:26,760

on the property of Luis Elizondo

1097

00:49:31,670 --> 00:49:29,040

the former head of atip

1098

00:49:34,130 --> 00:49:31,680

so that kind of sent people into a

1099

00:49:35,569 --> 00:49:34,140

complete Frenzy online

1100

00:49:37,370 --> 00:49:35,579

um and I could see the chat blowing up

1101

00:49:38,450 --> 00:49:37,380

right now about this

1102

00:49:41,930 --> 00:49:38,460

um

1103

00:49:44,510 --> 00:49:41,940

yeah this story is kind of causing a lot

1104

00:49:46,730 --> 00:49:44,520

of flame Wars online right now um the

1105

00:49:48,290 --> 00:49:46,740

fact of who filmed it where it was

1106

00:49:51,950 --> 00:49:48,300

filmed

1107

00:49:54,230 --> 00:49:51,960

um uh no sort of context to it

1108

00:49:56,809 --> 00:49:54,240

whatsoever

1109

00:49:58,670 --> 00:49:56,819

um and just the lack of data and lack of

1110

00:50:01,370 --> 00:49:58,680

information on it

1111

00:50:03,109 --> 00:50:01,380

um and you know everyone kind of has

1112

00:50:04,430 --> 00:50:03,119

their own theories on what it is I can

1113

00:50:06,050 --> 00:50:04,440

see everyone putting it in the chat

1114

00:50:10,849 --> 00:50:06,060

drone

1115

00:50:13,910 --> 00:50:10,859

um could be a glider could be a Cessna

1116

00:50:16,730 --> 00:50:13,920

plane in fact I'm gonna go I put this in

1117

00:50:18,829 --> 00:50:16,740

the um the poll for the live chat I'm

1118

00:50:21,950 --> 00:50:18,839

gonna go over and check out what you

1119

00:50:23,930 --> 00:50:21,960

guys think this was because I asked what

1120

00:50:26,210 --> 00:50:23,940

is the UFO that Sean Cahill captured

1121

00:50:29,809 --> 00:50:26,220

footage of that Luis elizondo's property

1122

00:50:31,430 --> 00:50:29,819

so as of right now let me refresh just

1123

00:50:33,730 --> 00:50:31,440

to make sure

1124

00:50:37,309 --> 00:50:33,740

mm-hmm

1125

00:50:40,130 --> 00:50:37,319

let's see with 80 votes what is the UFO

1126

00:50:43,190 --> 00:50:40,140

the Sean Cahill captured footage of

1127

00:50:46,309 --> 00:50:43,200

40 percent of you believe it was an ET

1128

00:50:49,430 --> 00:50:46,319

craft uh 26 believe it was a Cessna

1129

00:50:53,510 --> 00:50:49,440

plane 20 believe it was a drone and 14

1130

00:50:55,670 --> 00:50:53,520

believe it was the slowest missile ever

1131

00:50:57,770 --> 00:50:55,680

um those were the options I gave but I

1132

00:51:00,710 --> 00:50:57,780

know there's many other things it could

1133

00:51:02,089 --> 00:51:00,720

be so um let me go back in the chat here

1134

00:51:05,870 --> 00:51:02,099

and then we're going to kind of get to

1135

00:51:09,049 --> 00:51:05,880

the drama going on with this story

1136

00:51:10,609 --> 00:51:09,059

um I saw someone said where is it in the

1137

00:51:12,230 --> 00:51:10,619

chat

1138

00:51:15,530 --> 00:51:12,240

um

1139

00:51:18,170 --> 00:51:15,540

the Reddit UFO Subs were generally awful

1140

00:51:18,770 --> 00:51:18,180

towards them over this

1141

00:51:21,290 --> 00:51:18,780

um

1142

00:51:24,470 --> 00:51:21,300

yeah it was it was rough

1143

00:51:26,390 --> 00:51:24,480

yeah the ridiculous backlash to this so

1144

00:51:30,290 --> 00:51:26,400

I think a lot of people's kind of

1145

00:51:32,089 --> 00:51:30,300

annoyance and um um hesitancy with this

1146

00:51:34,309 --> 00:51:32,099

whole thing is the fact that it was

1147

00:51:36,890 --> 00:51:34,319

filmed on the property of Luis Elizondo

1148

00:51:38,870 --> 00:51:36,900

and everyone's like oh my God what are

1149

00:51:41,470 --> 00:51:38,880

the chances you know

1150

00:51:44,270 --> 00:51:41,480

um and the fact that like

1151
00:51:47,030 --> 00:51:44,280
for individuals who claim like we need

1152
00:51:48,470 --> 00:51:47,040
data we we need more understanding or we

1153
00:51:50,990 --> 00:51:48,480
have nothing

1154
00:51:55,490 --> 00:51:51,000
um they gave us nothing no context of

1155
00:51:56,569 --> 00:51:55,500
when or where or or what or or anything

1156
00:51:58,690 --> 00:51:56,579
um and

1157
00:52:01,970 --> 00:51:58,700
I understand

1158
00:52:02,990 --> 00:52:01,980
both sides of this

1159
00:52:06,109 --> 00:52:03,000
um

1160
00:52:11,089 --> 00:52:08,750
I don't know where I don't know what it

1161
00:52:13,849 --> 00:52:11,099
is obviously none of us do because the

1162
00:52:16,309 --> 00:52:13,859
lack of data and everything

1163
00:52:18,829 --> 00:52:16,319

um but I'm gonna go ahead and read these

1164

00:52:21,049 --> 00:52:18,839

tweets that Sean Cahill put out after

1165

00:52:24,349 --> 00:52:21,059

the video kind of went to Reddit and

1166

00:52:26,569 --> 00:52:24,359

whatnot it was shown on a podcast so he

1167

00:52:29,569 --> 00:52:26,579

he clearly provided this video to

1168

00:52:33,230 --> 00:52:29,579

someone and wanted it out there

1169

00:52:36,049 --> 00:52:33,240

um so I in that sense I'm like well dude

1170

00:52:37,730 --> 00:52:36,059

then there's gonna be questions there's

1171

00:52:38,809 --> 00:52:37,740

gonna be backlash like people are going

1172

00:52:41,809 --> 00:52:38,819

to want to know

1173

00:52:43,549 --> 00:52:41,819

where was this what like did you

1174

00:52:44,630 --> 00:52:43,559

identify it eventually like what's going

1175

00:52:47,329 --> 00:52:44,640

on

1176

00:52:48,950 --> 00:52:47,339

um but at the same time like he doesn't

1177

00:52:52,130 --> 00:52:48,960

owe it to anyone

1178

00:52:53,930 --> 00:52:52,140

um in in some senses but I think because

1179

00:52:56,510 --> 00:52:53,940

of who Sean is and because of who

1180

00:52:58,309 --> 00:52:56,520

Elizondo is they expected more from them

1181

00:53:01,849 --> 00:52:58,319

instead of just posting like a really

1182

00:53:04,549 --> 00:53:01,859

ambiguous UFO video and not really

1183

00:53:08,510 --> 00:53:04,559

telling us what what's going on

1184

00:53:10,190 --> 00:53:08,520

um so Sean said in kind of responding to

1185

00:53:12,230 --> 00:53:10,200

the backlash that's been going on with

1186

00:53:14,150 --> 00:53:12,240

this quote in an attempt to quote

1187

00:53:15,829 --> 00:53:14,160

confusion around the alleged UAP video

1188

00:53:18,650 --> 00:53:15,839

that is being passed around after I

1189

00:53:20,450 --> 00:53:18,660

shared it its Origins is legitimate and

1190

00:53:23,089 --> 00:53:20,460

it remains unidentified like many others

1191

00:53:25,549 --> 00:53:23,099

that's all no extraordinary claims other

1192

00:53:27,410 --> 00:53:25,559

than I don't know either the video I

1193

00:53:29,990 --> 00:53:27,420

shared was to serve as an example of how

1194

00:53:32,870 --> 00:53:30,000

common unidentified aircraft are seen I

1195

00:53:35,390 --> 00:53:32,880

was visiting Lou at the time but he was

1196

00:53:37,430 --> 00:53:35,400

in another room he had no knowledge that

1197

00:53:40,430 --> 00:53:37,440

I shared it though par for the course

1198

00:53:42,230 --> 00:53:40,440

the usual trolls are projecting hard at

1199

00:53:45,109 --> 00:53:42,240

no time was a claimed to be other than

1200

00:53:48,290 --> 00:53:45,119

interesting and unidentified most citing

1201

00:53:50,450 --> 00:53:48,300

uh post citing it was verified that

1202

00:53:53,210 --> 00:53:50,460

there was nothing on flight radar it's

1203

00:53:55,910 --> 00:53:53,220

in a no-fly area and perpendicular to

1204

00:53:59,089 --> 00:53:55,920

any approach path further we visited the

1205

00:54:00,049 --> 00:53:59,099

area and found it too low and too slow

1206

00:54:02,390 --> 00:54:00,059

um

1207

00:54:04,730 --> 00:54:02,400

sharing the video was an attempt by me

1208

00:54:06,650 --> 00:54:04,740

to illustrate how common people see

1209

00:54:09,170 --> 00:54:06,660

things that are hard to explain and

1210

00:54:11,690 --> 00:54:09,180

sometimes remain so it was used to start

1211

00:54:13,849 --> 00:54:11,700

a conversation not to mosh pit for

1212

00:54:17,690 --> 00:54:13,859

haters but then again I am not surprised

1213

00:54:20,329 --> 00:54:17,700

miserly loves company keep your chins up

1214

00:54:22,670 --> 00:54:20,339

um so I don't know I don't think a lot

1215

00:54:25,250 --> 00:54:22,680

of people bought that stuff he was

1216

00:54:27,530 --> 00:54:25,260

saying like again it kind of I think

1217

00:54:29,990 --> 00:54:27,540

it's kind of shielding

1218

00:54:32,870 --> 00:54:30,000

um the vagueness of it I I think if Sean

1219

00:54:35,450 --> 00:54:32,880

was gonna share this he should have at

1220

00:54:37,130 --> 00:54:35,460

least like given us some idea of what

1221

00:54:38,809 --> 00:54:37,140

was going on or

1222

00:54:41,450 --> 00:54:38,819

um I don't know I I don't know where I

1223

00:54:42,730 --> 00:54:41,460

stand I I just I just know it's caused a

1224

00:54:45,470 --> 00:54:42,740

lot of um

1225

00:54:47,210 --> 00:54:45,480

arguments and debates

1226
00:54:49,490 --> 00:54:47,220
um so kind of after the debates wage

1227
00:54:51,170 --> 00:54:49,500
Sean responded again who said the

1228
00:54:52,670 --> 00:54:51,180
following let's be clear I'm an

1229
00:54:55,190 --> 00:54:52,680
individual with zero government

1230
00:54:57,530 --> 00:54:55,200
affiliation I shared personal footage

1231
00:54:59,630 --> 00:54:57,540
that I withheld the metadata from to try

1232
00:55:02,030 --> 00:54:59,640
and shield a friend's location

1233
00:55:04,849 --> 00:55:02,040
so yeah we should mention like he didn't

1234
00:55:06,829 --> 00:55:04,859
say this is from Luella zando's property

1235
00:55:08,750 --> 00:55:06,839
uh people like on Reddit and stuff were

1236
00:55:11,210 --> 00:55:08,760
able to figure that out from a picture

1237
00:55:13,069 --> 00:55:11,220
that Elizondo had posted of the same

1238
00:55:15,049 --> 00:55:13,079

mountain range and that's when they

1239

00:55:16,549 --> 00:55:15,059

figured out that it was Alexander's uh

1240

00:55:18,290 --> 00:55:16,559

property

1241

00:55:20,450 --> 00:55:18,300

um let's see here furthermore those

1242

00:55:22,849 --> 00:55:20,460

those present were more than qualified

1243

00:55:24,170 --> 00:55:22,859

to investigate and determined unknown

1244

00:55:26,870 --> 00:55:24,180

and moved on

1245

00:55:29,089 --> 00:55:26,880

there's no help requested or required as

1246

00:55:31,370 --> 00:55:29,099

no claims are made any data or story

1247

00:55:33,470 --> 00:55:31,380

attached to the who what where and why

1248

00:55:35,569 --> 00:55:33,480

is conjecture by third party persons

1249

00:55:37,370 --> 00:55:35,579

making peer guesses it certainly makes

1250

00:55:39,950 --> 00:55:37,380

me think twice before sharing in the

1251
00:55:42,230 --> 00:55:39,960
feature the thing is I'm not scared so I

1252
00:55:43,430 --> 00:55:42,240
won't stop

1253
00:55:46,010 --> 00:55:43,440
so yeah

1254
00:55:47,329 --> 00:55:46,020
um that's kind of where we leave this

1255
00:55:49,549 --> 00:55:47,339
um

1256
00:55:52,609 --> 00:55:49,559
I don't know I'm gonna go to the chat I

1257
00:55:57,650 --> 00:55:54,470
let's see here

1258
00:56:00,650 --> 00:55:57,660
bear with me bear with me scrolling up

1259
00:56:02,630 --> 00:56:00,660
Jay says where is it exhibiting any of

1260
00:56:05,390 --> 00:56:02,640
Luella zonda's famous five uh

1261
00:56:06,470 --> 00:56:05,400
immeasurables of oh the five observables

1262
00:56:08,569 --> 00:56:06,480
Jay

1263
00:56:10,490 --> 00:56:08,579

um yeah hey I don't think it really was

1264

00:56:13,130 --> 00:56:10,500

doing any of those to be completely

1265

00:56:16,970 --> 00:56:15,109

it's obviously not fake but it's too far

1266

00:56:19,309 --> 00:56:16,980

away Zig says

1267

00:56:21,170 --> 00:56:19,319

Jesh says as I said in social media it's

1268

00:56:24,410 --> 00:56:21,180

too indistinct and it could have been a

1269

00:56:28,490 --> 00:56:24,420

power powered paraglider

1270

00:56:30,710 --> 00:56:28,500

repo says Chinese swamp drone plane

1271

00:56:32,569 --> 00:56:30,720

Android says it can't be a drone unless

1272

00:56:38,750 --> 00:56:32,579

there is a really big military drone so

1273

00:56:45,470 --> 00:56:40,790

mm-hmm

1274

00:56:46,130 --> 00:56:45,480

has Lou ever been contacted scented ffh

1275

00:56:49,970 --> 00:56:46,140

um

1276

00:56:52,790 --> 00:56:49,980

contacted about this incident

1277

00:56:55,549 --> 00:56:52,800

let me know David says it's not a

1278

00:56:57,589 --> 00:56:55,559

slow-moving missile of which I voted for

1279

00:56:59,089 --> 00:56:57,599

I thought that was a fun one and kind of

1280

00:57:03,410 --> 00:56:59,099

foreshadowing one of our podcast

1281

00:57:07,670 --> 00:57:05,150

let's see

1282

00:57:09,790 --> 00:57:07,680

Martin says UFO footage without audio is

1283

00:57:12,770 --> 00:57:09,800

always dodgy never mind the person yeah

1284

00:57:14,510 --> 00:57:12,780

agreed like that could have helped us a

1285

00:57:17,569 --> 00:57:14,520

lot too maybe if Sean was like

1286

00:57:20,569 --> 00:57:17,579

describing what was going on

1287

00:57:23,450 --> 00:57:20,579

um it would have helped as well

1288

00:57:26,890 --> 00:57:23,460

Electro electron Gap says my BS meteor

1289

00:57:29,329 --> 00:57:26,900

did go off a lot for some reason

1290

00:57:31,790 --> 00:57:29,339

uh yeah

1291

00:57:33,470 --> 00:57:31,800

I don't know I don't think like they I

1292

00:57:35,870 --> 00:57:33,480

don't think they hoax this or anything

1293

00:57:38,690 --> 00:57:35,880

but I think there's probably a prosaic

1294

00:57:41,210 --> 00:57:38,700

explanation for it and Sean did say like

1295

00:57:42,770 --> 00:57:41,220

I'm not saying it was anything I just

1296

00:57:45,890 --> 00:57:42,780

put it out there

1297

00:57:49,130 --> 00:57:45,900

um so in his defense like yeah but at

1298

00:57:50,450 --> 00:57:49,140

the same time man like uh you know that

1299

00:57:52,970 --> 00:57:50,460

the haters are going to come out and

1300

00:57:55,370 --> 00:57:52,980

attack you for this so um I've been

1301
00:57:58,250 --> 00:57:55,380
there I've been in your shoes I'm a man

1302
00:58:00,650 --> 00:57:58,260
of stories I lack any sense of data when

1303
00:58:03,589 --> 00:58:00,660
it comes to kind of the ufology I do I

1304
00:58:04,970 --> 00:58:03,599
merely present stories and people don't

1305
00:58:06,770 --> 00:58:04,980
like that

1306
00:58:08,450 --> 00:58:06,780
um the nuts and bolts people who crave

1307
00:58:10,549 --> 00:58:08,460
data do not like that so of course

1308
00:58:12,230 --> 00:58:10,559
they're gonna attack me they're gonna

1309
00:58:13,609 --> 00:58:12,240
attack you

1310
00:58:14,630 --> 00:58:13,619
um so yeah

1311
00:58:16,430 --> 00:58:14,640
um

1312
00:58:17,809 --> 00:58:16,440
it sucks it sucks that we're this

1313
00:58:19,609 --> 00:58:17,819

divided

1314

00:58:22,849 --> 00:58:19,619

um in the world and especially in the

1315

00:58:24,950 --> 00:58:22,859

UFO world as well but um I don't know I

1316

00:58:28,549 --> 00:58:24,960

don't think this this posting of this

1317

00:58:29,809 --> 00:58:28,559

video did the field any favors at all

1318

00:58:34,910 --> 00:58:29,819

um it's just going to cause more

1319

00:58:38,630 --> 00:58:37,069

let's see

1320

00:58:40,549 --> 00:58:38,640

Escape says he should have known there

1321

00:58:45,470 --> 00:58:40,559

would be backlash

1322

00:58:45,480 --> 00:58:52,250

hello hello Owen welcome welcome

1323

00:58:55,430 --> 00:58:53,809

dalen says might have been better for

1324

00:58:58,730 --> 00:58:55,440

kale to keep it to himself or not

1325

00:59:00,470 --> 00:58:58,740

respond with verbosity and deflection he

1326

00:59:02,150 --> 00:59:00,480

claims he is affiliated with the US

1327

00:59:04,789 --> 00:59:02,160

government and has personal knowledge of

1328

00:59:07,010 --> 00:59:04,799

uip reverse engineering

1329

00:59:15,470 --> 00:59:07,020

interesting

1330

00:59:19,190 --> 00:59:17,450

um I agree Susan says I don't think it's

1331

00:59:21,289 --> 00:59:19,200

a hoax and I think we just add it to the

1332

00:59:23,450 --> 00:59:21,299

pile of questions yeah I think that's

1333

00:59:24,710 --> 00:59:23,460

kind of that's kind of It kind of where

1334

00:59:30,470 --> 00:59:24,720

we leave it

1335

00:59:35,030 --> 00:59:32,990

so yeah that's kind of it with this one

1336

00:59:36,829 --> 00:59:35,040

guys I mean I don't like what else is

1337

00:59:39,289 --> 00:59:36,839

there to really say maybe we'll get more

1338

00:59:41,510 --> 00:59:39,299

context maybe Elizondo will comment

1339

00:59:43,910 --> 00:59:41,520

comment on it but like Sean said he

1340

00:59:45,890 --> 00:59:43,920

wasn't in the room when it happened

1341

00:59:47,030 --> 00:59:45,900

um or even on the same floor or whatnot

1342

00:59:48,970 --> 00:59:47,040

so

1343

00:59:53,270 --> 00:59:48,980

yeah I don't know

1344

00:59:57,349 --> 00:59:53,280

interesting but um I think Suzanne's

1345

01:00:02,410 --> 00:59:57,359

got it Peg like it's just added to the

1346

01:00:07,609 --> 01:00:05,510

all right guys that's going to do it for

1347

01:00:10,309 --> 01:00:07,619

our news stories we're going to move on

1348

01:00:12,950 --> 01:00:10,319

to podcast highlights of the week stick

1349

01:00:15,470 --> 01:00:12,960

around this is the most popular segment

1350

01:00:18,230 --> 01:00:15,480

of the live stream and we've got some

1351
01:00:20,089 --> 01:00:18,240
doozies for you I'm so excited to share

1352
01:00:22,609 --> 01:00:20,099
some of these with you it was a hell of

1353
01:00:25,069 --> 01:00:22,619
a week in the podcasting world of UFOs

1354
01:00:28,309 --> 01:00:25,079
so stay tuned I'm going to go ahead and

1355
01:00:30,770 --> 01:00:28,319
take a very quick commercial break Clear

1356
01:00:32,510 --> 01:00:30,780
My Throat have some beer Clear My Throat

1357
01:00:34,370 --> 01:00:32,520
again come back on the other side we're

1358
01:00:35,390 --> 01:00:34,380
going to get to podcast highlights of

1359
01:00:38,450 --> 01:00:35,400
the week

1360
01:00:41,030 --> 01:00:38,460
stick around you do not want to miss

1361
01:00:46,670 --> 01:00:41,040
this all right I will see you on the

1362
01:00:51,589 --> 01:00:48,890
the somewhere in the skies podcast is

1363
01:00:53,690 --> 01:00:51,599

free to listen to every week but if you

1364

01:00:56,630 --> 01:00:53,700

would like to help support the show we

1365

01:00:58,190 --> 01:00:56,640

have a very active patreon page where

1366

01:01:00,829 --> 01:00:58,200

you give what you think the show is

1367

01:01:03,950 --> 01:01:00,839

worth in return you'll get early access

1368

01:01:07,190 --> 01:01:03,960

to the main show bonus episodes and

1369

01:01:09,890 --> 01:01:07,200

priority to ask our guests your listener

1370

01:01:13,130 --> 01:01:09,900

questions your support truly makes the

1371

01:01:16,390 --> 01:01:13,140

show continue and grow so to learn more

1372

01:01:18,000 --> 01:01:16,400

and to join visit patreon.com

1373

01:01:22,549 --> 01:01:18,010

somewhere Skies

1374

01:01:27,589 --> 01:01:22,559

[Music]

1375

01:01:32,150 --> 01:01:30,170

welcome back guys to somewhere in the

1376

01:01:37,130 --> 01:01:32,160

live stream a live stream we do here

1377

01:01:41,030 --> 01:01:37,140

every Sunday at 4 pm Eastern Standard uh

1378

01:01:43,910 --> 01:01:41,040

9pm UK time ah this Daylight Saving

1379

01:01:46,130 --> 01:01:43,920

thing is killing me uh every Sunday

1380

01:01:47,750 --> 01:01:46,140

let's leave it at that

1381

01:01:49,250 --> 01:01:47,760

um I know we have more comments about

1382

01:01:51,230 --> 01:01:49,260

the last story so I'm gonna go ahead and

1383

01:01:55,190 --> 01:01:51,240

do a couple of those before we move on

1384

01:01:56,930 --> 01:01:55,200

to the podcasts of the week bill says

1385

01:02:00,049 --> 01:01:56,940

it's not a hoax it's just a video of a

1386

01:02:01,549 --> 01:02:00,059

plane flying I think it's a plane or a

1387

01:02:04,910 --> 01:02:01,559

glider

1388

01:02:06,770 --> 01:02:04,920

um that's that's it I mean that that's

1389

01:02:09,710 --> 01:02:06,780

what it is

1390

01:02:11,030 --> 01:02:09,720

um says Ryan Sprague from Scotland who

1391

01:02:13,250 --> 01:02:11,040

wasn't there at the time when the video

1392

01:02:14,990 --> 01:02:13,260

was taken and it always tells people

1393

01:02:17,030 --> 01:02:15,000

that I was not there at the time so you

1394

01:02:18,470 --> 01:02:17,040

can't judge anything or come up with an

1395

01:02:20,569 --> 01:02:18,480

explanation for something you weren't

1396

01:02:23,030 --> 01:02:20,579

there for

1397

01:02:24,230 --> 01:02:23,040

wow I just called myself out on my own

1398

01:02:26,150 --> 01:02:24,240

live stream

1399

01:02:28,150 --> 01:02:26,160

um it's a plate or a glider I'm just

1400

01:02:30,950 --> 01:02:28,160

gonna say I'm gonna say that

1401

01:02:33,170 --> 01:02:30,960

Ryan Baker says definitely a lack of any

1402

01:02:35,089 --> 01:02:33,180

of the infamous five observables yeah

1403

01:02:36,950 --> 01:02:35,099

Michael says there's a Google Earth

1404

01:02:39,190 --> 01:02:36,960

subculture that found this spot in

1405

01:02:41,930 --> 01:02:39,200

minutes

1406

01:02:46,069 --> 01:02:41,940

interesting hello Jason welcome welcome

1407

01:02:49,370 --> 01:02:47,809

Jay says if you're gonna mention Lou

1408

01:02:51,349 --> 01:02:49,380

Alexander's name in connection with a

1409

01:02:53,270 --> 01:02:51,359

video and you know him and the video is

1410

01:02:54,890 --> 01:02:53,280

from his property it better be a damn

1411

01:02:56,089 --> 01:02:54,900

good video

1412

01:02:58,730 --> 01:02:56,099

right

1413

01:03:00,650 --> 01:02:58,740

oh man like that should have been the

1414

01:03:03,170 --> 01:03:00,660

clearest it should have been the 23

1415

01:03:06,470 --> 01:03:03,180

minute video or the triangle the

1416

01:03:08,809 --> 01:03:06,480

triangle coming out of um Lou elizondo's

1417

01:03:11,569 --> 01:03:08,819

Back Porch or something I don't know I

1418

01:03:11,579 --> 01:03:14,930

all right

1419

01:03:21,589 --> 01:03:17,990

let's see here hello Event Horizon thank

1420

01:03:25,549 --> 01:03:23,569

podcast highlights of the week guys

1421

01:03:29,210 --> 01:03:25,559

let's get to it

1422

01:03:31,069 --> 01:03:29,220

your favorite part of the show so as

1423

01:03:35,690 --> 01:03:31,079

usual weaponize came out with another

1424

01:03:39,130 --> 01:03:35,700

episode this week and dropped a

1425

01:03:42,109 --> 01:03:39,140

photo or I guess a string of photos that

1426

01:03:46,430 --> 01:03:42,119

blew the f up

1427

01:03:49,010 --> 01:03:46,440

uh the Baghdad Phantom UAP

1428

01:03:51,289 --> 01:03:49,020

um so this week on um Jeremy Corbell and

1429

01:03:54,829 --> 01:03:51,299

George Knapp's podcast weaponized they

1430

01:03:58,250 --> 01:03:54,839

talked all about storm Area 51 Bob Lazar

1431

01:04:01,130 --> 01:03:58,260

and then they moved on to a new drop

1432

01:04:04,069 --> 01:04:01,140

where um Jeremy Corbell and George knepp

1433

01:04:06,530 --> 01:04:04,079

obtained in are revealing for the very

1434

01:04:08,809 --> 01:04:06,540

first time U.S military filmed UFO

1435

01:04:11,329 --> 01:04:08,819

footage from an active conflict Zone

1436

01:04:12,770 --> 01:04:11,339

image by the U.S Air Force using a

1437

01:04:15,349 --> 01:04:12,780

Reaper drone

1438

01:04:19,370 --> 01:04:15,359

this UFO is beneficially designated by

1439

01:04:22,370 --> 01:04:19,380

the Air Force as a UAP but is not yet

1440

01:04:24,410 --> 01:04:22,380

currently part of the active USA UAP

1441

01:04:28,130 --> 01:04:24,420

investigations the department of

1442

01:04:31,309 --> 01:04:28,140

defense's Aero is now aware of the case

1443

01:04:33,170 --> 01:04:31,319

this event took place on May 14 2022 and

1444

01:04:35,630 --> 01:04:33,180

the original footage was taken north of

1445

01:04:39,230 --> 01:04:35,640

the city of Baghdad in Iraq it was

1446

01:04:42,890 --> 01:04:39,240

captured by thermographic FLIR so I'm

1447

01:04:45,589 --> 01:04:42,900

going to go ahead and play the video

1448

01:04:47,150 --> 01:04:45,599

um a small section from Jeremy Corbell

1449

01:04:49,670 --> 01:04:47,160

and George Knapp's weaponized kind of

1450

01:04:53,990 --> 01:04:49,680

going into more detail and uh show you

1451

01:04:56,870 --> 01:04:54,000

guys the image the Baghdad Phantom UAP

1452

01:04:58,430 --> 01:04:56,880

so let's go ahead and pull that up talk

1453

01:05:00,710 --> 01:04:58,440

about it on the other side

1454

01:05:02,690 --> 01:05:00,720

UAP task force doesn't have this you

1455

01:05:05,450 --> 01:05:02,700

don't think Arrow has it can you say

1456

01:05:07,970 --> 01:05:05,460

what kind of platform these images were

1457

01:05:09,589 --> 01:05:07,980

captured from yes so and I want to be

1458

01:05:12,170 --> 01:05:09,599

really clear too why why are we

1459

01:05:13,430 --> 01:05:12,180

releasing still images compared to a

1460

01:05:16,130 --> 01:05:13,440

video

1461

01:05:18,170 --> 01:05:16,140

um I obtained

1462

01:05:19,910 --> 01:05:18,180

uh images

1463

01:05:23,210 --> 01:05:19,920

we went through it together to make sure

1464

01:05:25,430 --> 01:05:23,220

and we have done full background I'm not

1465

01:05:28,910 --> 01:05:25,440

in the business of obtaining things that

1466

01:05:30,829 --> 01:05:28,920

are sketchy I know for sure that we can

1467

01:05:32,809 --> 01:05:30,839

receive this together and we can put it

1468

01:05:36,470 --> 01:05:32,819

out to the public there is nothing in

1469

01:05:39,410 --> 01:05:36,480

this that would even accidentally be

1470

01:05:42,770 --> 01:05:39,420

harmful but it is from a conflict Zone

1471

01:05:44,470 --> 01:05:42,780

again from Iraq this is officially

1472

01:05:48,650 --> 01:05:44,480

labeled

1473

01:05:50,750 --> 01:05:48,660

UAP this is not our asset that that we

1474

01:05:53,030 --> 01:05:50,760

know we are sure of that it is not any

1475

01:05:55,789 --> 01:05:53,040

foreign Nations asset that is a known

1476

01:05:59,270 --> 01:05:55,799

foreign Nation but it's [h__\h] weird

1477

01:06:03,109 --> 01:05:59,280

let me show it now as you can see this

1478

01:06:05,450 --> 01:06:03,119

is a very skinny object compared to its

1479

01:06:08,270 --> 01:06:05,460

length if you look in the top left

1480

01:06:12,349 --> 01:06:08,280

you'll see that this was filmed in white

1481

01:06:14,630 --> 01:06:12,359

hot which means that the background is

1482

01:06:16,870 --> 01:06:14,640

hotter than the image which by the way

1483

01:06:20,630 --> 01:06:16,880

just so you know I can confirm with 100

1484

01:06:22,730 --> 01:06:20,640

that this object flew under controlled

1485

01:06:26,289 --> 01:06:22,740

flight with intelligent control

1486

01:06:29,750 --> 01:06:26,299

across the screen from left to right

1487

01:06:30,650 --> 01:06:29,760

kind of looks like a torpedo okay or a

1488

01:06:32,690 --> 01:06:30,660

rocket

1489

01:06:36,410 --> 01:06:32,700

so I'm going to put this in big bold

1490

01:06:38,390 --> 01:06:36,420

letters on the screen not a rocket and

1491

01:06:40,430 --> 01:06:38,400

let me explain that for a second this is

1492

01:06:41,870 --> 01:06:40,440

a conflict Zone maybe it's a rocket so

1493

01:06:43,730 --> 01:06:41,880

it's not a torpedo because it's over

1494

01:06:45,410 --> 01:06:43,740

land and everybody can just look in that

1495

01:06:46,549 --> 01:06:45,420

in the air yeah it's in the air and you

1496

01:06:48,950 --> 01:06:46,559

know from the video obviously you see

1497

01:06:50,750 --> 01:06:48,960

that but I we were able to obtain and

1498

01:06:52,730 --> 01:06:50,760

release these images is what we're doing

1499

01:06:54,950 --> 01:06:52,740

it's not our job I hope Arrow puts this

1500

01:06:56,990 --> 01:06:54,960

out now if they go find the video unless

1501
01:06:59,210 --> 01:06:57,000
they're provided it by journalists right

1502
01:07:02,809 --> 01:06:59,220
so here's the deal

1503
01:07:06,650 --> 01:07:02,819
you would see if this was a rocket you

1504
01:07:09,109 --> 01:07:06,660
would see white hot engine you would see

1505
01:07:10,849 --> 01:07:09,119
plume you would see heat you would see a

1506
01:07:13,670 --> 01:07:10,859
what they call signatures intelligence

1507
01:07:16,250 --> 01:07:13,680
you would see a signature so what you're

1508
01:07:19,309 --> 01:07:16,260
seeing here is interesting to me and

1509
01:07:21,829 --> 01:07:19,319
others that came to me for very specific

1510
01:07:24,470 --> 01:07:21,839
reasons it's because it does not show

1511
01:07:27,470 --> 01:07:24,480
the traditional signatures of what you'd

1512
01:07:29,150 --> 01:07:27,480
see for reactionary propulsion you what

1513
01:07:30,370 --> 01:07:29,160

you're seeing is something that appears

1514

01:07:32,390 --> 01:07:30,380

to have

1515

01:07:33,829 --> 01:07:32,400

non-reactionary propulsion now have we

1516

01:07:36,410 --> 01:07:33,839

heard that before I mean it's an

1517

01:07:41,710 --> 01:07:36,420

interesting thing right so I don't know

1518

01:07:48,829 --> 01:07:45,529

yeah pretty interesting

1519

01:07:52,250 --> 01:07:48,839

um I was trying to find a photo

1520

01:07:55,490 --> 01:07:52,260

from it the actual let's see here maybe

1521

01:07:55,500 --> 01:07:58,490

um

1522

01:08:03,289 --> 01:08:01,309

let's take a look at this

1523

01:08:06,230 --> 01:08:03,299

see if I can do this bear with me for

1524

01:08:06,240 --> 01:08:13,430

try to get you a clearer photo of this

1525

01:08:13,440 --> 01:08:19,130

this not a rocket quote unquote

1526

01:08:19,140 --> 01:08:23,809

okay

1527

01:08:30,289 --> 01:08:27,169

all right just gonna let me go in what

1528

01:08:39,829 --> 01:08:32,630

what do you what do we think this is

1529

01:08:45,110 --> 01:08:41,930

bill says because it would show white

1530

01:08:46,789 --> 01:08:45,120

hot if it were a rocket

1531

01:08:48,349 --> 01:08:46,799

let's see

1532

01:08:51,229 --> 01:08:48,359

Michael says a lot of hidden information

1533

01:08:52,490 --> 01:08:51,239

not being disclosed by corbel and nap

1534

01:08:56,530 --> 01:08:52,500

um

1535

01:09:02,450 --> 01:08:59,209

I appreciate

1536

01:09:05,030 --> 01:09:02,460

what they're doing however

1537

01:09:06,890 --> 01:09:05,040

you know especially with the muscle orb

1538

01:09:08,809 --> 01:09:06,900

like they said there'd be follow-up and

1539

01:09:12,169 --> 01:09:08,819

we'd we'd find out more and there's been

1540

01:09:14,090 --> 01:09:12,179

nothing since that episode aired so I

1541

01:09:16,550 --> 01:09:14,100

just hope like we'll figure out more

1542

01:09:18,769 --> 01:09:16,560

stuff when it comes to this this new

1543

01:09:21,229 --> 01:09:18,779

Baghdad phantom

1544

01:09:23,269 --> 01:09:21,239

um to me this looks like a missile I I

1545

01:09:24,950 --> 01:09:23,279

know people in the chat said it's not

1546

01:09:26,209 --> 01:09:24,960

um because of the white hot and this and

1547

01:09:28,789 --> 01:09:26,219

that this and that

1548

01:09:31,249 --> 01:09:28,799

um but Jazz actually brought something

1549

01:09:33,289 --> 01:09:31,259

to my attention on Twitter the other day

1550

01:09:34,870 --> 01:09:33,299

and I think he said it he probably said

1551

01:09:37,729 --> 01:09:34,880

this in the chat yep

1552

01:09:39,470 --> 01:09:37,739

says performs like a railgun projectile

1553

01:09:41,809 --> 01:09:39,480

that would never admit to it wouldn't

1554

01:09:44,030 --> 01:09:41,819

have a vapor trail drops slightly from

1555

01:09:46,729 --> 01:09:44,040

left to right in a ballistic fashion no

1556

01:09:48,470 --> 01:09:46,739

intelligent control demonstrated yeah so

1557

01:09:51,709 --> 01:09:48,480

while it's not a rocket so we're not

1558

01:09:54,169 --> 01:09:51,719

seeing like you know anything Contour or

1559

01:09:55,070 --> 01:09:54,179

anything contrails excuse me from behind

1560

01:09:57,290 --> 01:09:55,080

it

1561

01:09:59,390 --> 01:09:57,300

um there does seem to be some sort of

1562

01:10:02,150 --> 01:09:59,400

disturbance behind the object as it's

1563

01:10:04,250 --> 01:10:02,160

going forward so I do believe that it

1564

01:10:07,250 --> 01:10:04,260

was some sort of projectile it was in a

1565

01:10:08,990 --> 01:10:07,260

freaking combat zone so come on

1566

01:10:10,850 --> 01:10:09,000

um that is probably the most likely

1567

01:10:12,530 --> 01:10:10,860

explanation but Jeremy doesn't know what

1568

01:10:16,729 --> 01:10:12,540

it is

1569

01:10:18,709 --> 01:10:16,739

apparently

1570

01:10:21,709 --> 01:10:18,719

um and you know that could be said of

1571

01:10:24,169 --> 01:10:21,719

any UFO video when we don't have you

1572

01:10:25,850 --> 01:10:24,179

know a ton of data on it so let me go

1573

01:10:28,130 --> 01:10:25,860

back to the chat see what you guys are

1574

01:10:31,490 --> 01:10:28,140

saying Tomahawk missile Andre says

1575

01:10:33,770 --> 01:10:31,500

missile says Christian maybe a Glide

1576

01:10:35,590 --> 01:10:33,780

bomb but no wings Rockets have Motors

1577

01:10:38,030 --> 01:10:35,600

and they only burn for a few seconds

1578

01:10:39,830 --> 01:10:38,040

interesting look at the video of the

1579

01:10:43,550 --> 01:10:39,840

balloon shoot down

1580

01:10:46,970 --> 01:10:43,560

good point good point tjs

1581

01:10:48,590 --> 01:10:46,980

Clyde Cedar says a UFO disguised as a

1582

01:10:51,410 --> 01:10:48,600

cigarette

1583

01:10:53,330 --> 01:10:51,420

Audrey I'm with jazz railgun projectile

1584

01:10:55,790 --> 01:10:53,340

sounds plausible

1585

01:10:58,130 --> 01:10:55,800

um JL and Heineken says zero out of five

1586

01:11:00,290 --> 01:10:58,140

observables

1587

01:11:02,090 --> 01:11:00,300

uh Jay says that says it best Ryan

1588

01:11:03,770 --> 01:11:02,100

spragger I appreciate what they're doing

1589

01:11:06,350 --> 01:11:03,780

if they aren't being fed disinformation

1590

01:11:08,810 --> 01:11:06,360

Jay very good point I really hope that's

1591

01:11:10,910 --> 01:11:08,820

not the case

1592

01:11:13,970 --> 01:11:10,920

um because they're too passionate

1593

01:11:17,270 --> 01:11:13,980

investigative journalists filmmakers and

1594

01:11:18,530 --> 01:11:17,280

um you know I do firmly believe that

1595

01:11:19,850 --> 01:11:18,540

they just want to get the information

1596

01:11:21,410 --> 01:11:19,860

out there

1597

01:11:23,990 --> 01:11:21,420

um this information that they have been

1598

01:11:24,830 --> 01:11:24,000

privy to that they've been given

1599

01:11:28,370 --> 01:11:24,840

um

1600

01:11:31,010 --> 01:11:28,380

but it just sucks when like even Corbell

1601
01:11:34,430 --> 01:11:31,020
saying we were given this stuff with

1602
01:11:37,130 --> 01:11:34,440
very little like to go on so here it is

1603
01:11:39,169 --> 01:11:37,140
like you guys decide and I know some

1604
01:11:41,570 --> 01:11:39,179
people look at that as a passive way of

1605
01:11:43,790 --> 01:11:41,580
like passing the buck on to us to be

1606
01:11:45,950 --> 01:11:43,800
like all right guys you determine what

1607
01:11:47,930 --> 01:11:45,960
it is because we don't know

1608
01:11:49,250 --> 01:11:47,940
um but at the same time like that's true

1609
01:11:51,890 --> 01:11:49,260
that's just

1610
01:11:53,390 --> 01:11:51,900
the Stone Cold Truth to it like it

1611
01:11:54,229 --> 01:11:53,400
sounds like they've been given this

1612
01:11:56,810 --> 01:11:54,239
stuff

1613
01:11:59,570 --> 01:11:56,820

um from some sort of official Channel or

1614

01:12:01,810 --> 01:11:59,580

through leaks and um these were things

1615

01:12:04,490 --> 01:12:01,820

that the military were in possession of

1616

01:12:08,209 --> 01:12:04,500

and uh and there's something to them

1617

01:12:10,430 --> 01:12:08,219

that they were unidentified so

1618

01:12:12,530 --> 01:12:10,440

I don't know I don't know I think a lot

1619

01:12:14,570 --> 01:12:12,540

of people were really let down by this

1620

01:12:17,330 --> 01:12:14,580

drop by corbel

1621

01:12:20,149 --> 01:12:17,340

um a lot of people said I'm done done

1622

01:12:21,649 --> 01:12:20,159

subscribing I'm done watching Moving on

1623

01:12:27,590 --> 01:12:21,659

but

1624

01:12:29,750 --> 01:12:27,600

to watch and continue to to uh listen to

1625

01:12:32,930 --> 01:12:29,760

their show and I'm sure they'll come out

1626
01:12:35,870 --> 01:12:32,940
with some more stuff so look it gets the

1627
01:12:37,910 --> 01:12:35,880
conversations going and I know some

1628
01:12:41,030 --> 01:12:37,920
people don't think that's best we need

1629
01:12:42,649 --> 01:12:41,040
to narrow in find explanations

1630
01:12:45,770 --> 01:12:42,659
um but they're gonna keep doing their

1631
01:12:47,930 --> 01:12:45,780
thing whether you like it or not uh so

1632
01:12:50,090 --> 01:12:47,940
yeah yeah

1633
01:12:53,930 --> 01:12:50,100
Eric says Jeremy gets too excited and

1634
01:12:55,430 --> 01:12:53,940
can't do clear-headed analysis

1635
01:12:57,830 --> 01:12:55,440
Michael says who came up with the

1636
01:12:59,209 --> 01:12:57,840
Baghdad Phantom name good question I

1637
01:13:01,970 --> 01:12:59,219
wonder if that was like the official

1638
01:13:03,189 --> 01:13:01,980

name of it in channels official channels

1639

01:13:06,050 --> 01:13:03,199

I don't know

1640

01:13:09,709 --> 01:13:06,060

unpowered projectile Bodhi Mick boat

1641

01:13:13,669 --> 01:13:11,689

dalen says it can't be a missile as it's

1642

01:13:16,310 --> 01:13:13,679

too straight no exhaust heat signature

1643

01:13:19,610 --> 01:13:16,320

rail projectile possible

1644

01:13:22,130 --> 01:13:19,620

I'm gonna defer to our air force and

1645

01:13:23,750 --> 01:13:22,140

navy people in the chat tonight on this

1646

01:13:25,550 --> 01:13:23,760

one

1647

01:13:28,250 --> 01:13:25,560

I think there's definitely something to

1648

01:13:29,630 --> 01:13:28,260

it Michael says who's filming and why

1649

01:13:31,130 --> 01:13:29,640

are they filming there

1650

01:13:34,070 --> 01:13:31,140

good question

1651

01:13:39,169 --> 01:13:34,080

that we don't have answers to

1652

01:13:42,830 --> 01:13:41,390

from a Reaper drone

1653

01:13:52,250 --> 01:13:42,840

um so maybe it was doing some sort of

1654

01:13:58,910 --> 01:13:55,669

Reaper drone observing battle space High

1655

01:14:03,430 --> 01:14:01,970

uh hello Grandmaster UV welcome looks

1656

01:14:05,510 --> 01:14:03,440

kind of like the 16

1657

01:14:07,430 --> 01:14:05,520

Thousand Mile wide cigar-shaped

1658

01:14:08,689 --> 01:14:07,440

motherships of Saturn twice the length

1659

01:14:11,270 --> 01:14:08,699

of Earth

1660

01:14:13,370 --> 01:14:11,280

that sounds interesting

1661

01:14:15,290 --> 01:14:13,380

Christian says we don't want to make

1662

01:14:17,270 --> 01:14:15,300

West on this and with no data on the

1663

01:14:20,090 --> 01:14:17,280

object it can be anything but we need to

1664

01:14:22,130 --> 01:14:20,100

give them credit for bringing stuff

1665

01:14:23,149 --> 01:14:22,140

yeah I mean they're bringing stuff that

1666

01:14:24,709 --> 01:14:23,159

that's

1667

01:14:27,470 --> 01:14:24,719

you know

1668

01:14:33,550 --> 01:14:27,480

and it's up for us to decide

1669

01:14:33,560 --> 01:14:40,750

all right

1670

01:14:45,649 --> 01:14:43,790

ex-navy transferred to the Air Force 20

1671

01:14:49,370 --> 01:14:45,659

years happy to help and give more

1672

01:14:53,090 --> 01:14:49,380

unwanted opinions dalen says no your

1673

01:14:58,070 --> 01:14:53,100

opinions are very much appreciated as

1674

01:15:03,229 --> 01:15:00,649

all right guys well

1675

01:15:04,430 --> 01:15:03,239

put in the comments below the video what

1676

01:15:07,790 --> 01:15:04,440

you think

1677

01:15:09,530 --> 01:15:07,800

the Baghdad Phantom UAP is will we get

1678

01:15:12,530 --> 01:15:09,540

any more information on this we're

1679

01:15:14,810 --> 01:15:12,540

holding you to that Jeremy and George we

1680

01:15:16,910 --> 01:15:14,820

need follow-up on all of this stuff you

1681

01:15:19,250 --> 01:15:16,920

guys are bringing forward just like we

1682

01:15:22,070 --> 01:15:19,260

would ask of anyone else when it comes

1683

01:15:22,910 --> 01:15:22,080

to this stuff so please

1684

01:15:25,610 --> 01:15:22,920

um

1685

01:15:31,130 --> 01:15:25,620

please please please follow up on these

1686

01:15:36,470 --> 01:15:33,229

all right let's move on

1687

01:15:39,350 --> 01:15:36,480

to our next podcast of the week let me

1688

01:15:40,850 --> 01:15:39,360

get rid of this here

1689

01:15:43,130 --> 01:15:40,860

and

1690

01:15:45,530 --> 01:15:43,140

hold on

1691

01:15:49,970 --> 01:15:45,540

stop screen okay

1692

01:15:52,970 --> 01:15:49,980

um bear with me for one sec guys I need

1693

01:15:55,310 --> 01:15:52,980

to bring back in our lovely stream our

1694

01:15:58,010 --> 01:15:55,320

uh what do you call it slideshow there

1695

01:16:03,350 --> 01:16:00,110

back to our podcast highlights of the

1696

01:16:05,209 --> 01:16:03,360

week next up we have into the impossible

1697

01:16:08,570 --> 01:16:05,219

with Brian Keating

1698

01:16:10,310 --> 01:16:08,580

um in this past episode uh his guest was

1699

01:16:12,110 --> 01:16:10,320

Eric Weinstein

1700

01:16:15,470 --> 01:16:12,120

um right off the heels of his Joe Rogan

1701

01:16:17,390 --> 01:16:15,480

interview and Eric Weinstein discusses

1702

01:16:21,530 --> 01:16:17,400

indirect evidence and direct evidence

1703

01:16:23,930 --> 01:16:21,540

when it comes to UFOs so let's give that

1704

01:16:25,790 --> 01:16:23,940

a watch really quick here first of all

1705

01:16:29,630 --> 01:16:25,800

what do you make of these things and is

1706

01:16:31,250 --> 01:16:29,640

it potentially at its core a giant psyop

1707

01:16:35,810 --> 01:16:31,260

designed to distract us like the bread

1708

01:16:37,910 --> 01:16:35,820

and circus set bread and saucers look

1709

01:16:41,750 --> 01:16:37,920

the thing is

1710

01:16:43,729 --> 01:16:41,760

there are two basic doors into the this

1711

01:16:45,530 --> 01:16:43,739

phenomenon one of is indirect evidence

1712

01:16:47,149 --> 01:16:45,540

and the other is direct evidence

1713

01:16:48,770 --> 01:16:47,159

if you ask me if you go by direct

1714

01:16:50,390 --> 01:16:48,780

evidence

1715

01:16:51,890 --> 01:16:50,400

um with everybody owning a camera in

1716

01:16:55,970 --> 01:16:51,900

their pocket

1717

01:16:57,590 --> 01:16:55,980

uh you have to say that this is nonsense

1718

01:16:58,970 --> 01:16:57,600

because there is no direct evidence

1719

01:17:00,709 --> 01:16:58,980

that's high quality there's no high

1720

01:17:03,290 --> 01:17:00,719

quality data in the public domain that's

1721

01:17:04,910 --> 01:17:03,300

right so let's just say that from the

1722

01:17:06,770 --> 01:17:04,920

direct evidence perspective this is

1723

01:17:07,729 --> 01:17:06,780

nonsense it doesn't exist it's very

1724

01:17:10,430 --> 01:17:07,739

silly

1725

01:17:12,470 --> 01:17:10,440

okay now you switch your lens

1726

01:17:14,870 --> 01:17:12,480

you say there seems to be an

1727

01:17:17,689 --> 01:17:14,880

overwhelming amount of indirect evidence

1728

01:17:19,370 --> 01:17:17,699

like psychotically overwhelming and I

1729

01:17:22,010 --> 01:17:19,380

was unprepared for this until I started

1730

01:17:23,510 --> 01:17:22,020

looking at it I have no idea how we I

1731

01:17:26,930 --> 01:17:23,520

mean you can get rid of people who see

1732

01:17:28,490 --> 01:17:26,940

ghosts and people who have a need for

1733

01:17:29,930 --> 01:17:28,500

attention and you're left with people

1734

01:17:32,810 --> 01:17:29,940

who don't want to talk about it whose

1735

01:17:35,570 --> 01:17:32,820

lives have been destroyed and

1736

01:17:38,750 --> 01:17:35,580

you know particularly some very kind of

1737

01:17:40,910 --> 01:17:38,760

modest and modest cognitive gift folks

1738

01:17:45,169 --> 01:17:40,920

who seem to be able to act at the level

1739

01:17:46,610 --> 01:17:45,179

of Brando which I don't believe

1740

01:17:48,050 --> 01:17:46,620

I believe that these people have been

1741

01:17:50,270 --> 01:17:48,060

hurt

1742

01:17:53,390 --> 01:17:50,280

um some of them with by who with

1743

01:17:57,050 --> 01:17:55,430

um but according to Gary Nolan he's seen

1744

01:17:58,790 --> 01:17:57,060

damage paths through tissue that

1745

01:18:02,510 --> 01:17:58,800

correspond to crazy stories where the

1746

01:18:03,890 --> 01:18:02,520

story actually has a physical Trace

1747

01:18:06,110 --> 01:18:03,900

um I would say from the indirect

1748

01:18:07,550 --> 01:18:06,120

perspective I don't think that we're

1749

01:18:10,430 --> 01:18:07,560

capable

1750

01:18:14,149 --> 01:18:12,410

faking this at this level

1751

01:18:17,330 --> 01:18:14,159

even if we wanted to even if we wanted

1752

01:18:19,729 --> 01:18:17,340

to fly you know SR-71 blackbirds and

1753

01:18:22,189 --> 01:18:19,739

their successors and we wanted a story

1754

01:18:26,090 --> 01:18:22,199

so in case anybody sees one

1755

01:18:28,130 --> 01:18:26,100

you know the jig isn't up so I've never

1756

01:18:30,770 --> 01:18:28,140

seen a subject that has that profile

1757

01:18:32,750 --> 01:18:30,780

zero direct evidence overwhelming and

1758

01:18:35,630 --> 01:18:32,760

direct evidence

1759

01:18:38,870 --> 01:18:35,640

somebody smarter than me has to call it

1760

01:18:40,850 --> 01:18:38,880

sources and methods has become the bane

1761

01:18:42,649 --> 01:18:40,860

of our Democratic existence I'm

1762

01:18:44,270 --> 01:18:42,659

convinced that there is an issue of

1763

01:18:47,149 --> 01:18:44,280

privilege around many of the things we

1764

01:18:48,590 --> 01:18:47,159

cannot resolve you cannot have this many

1765

01:18:50,990 --> 01:18:48,600

things

1766

01:18:52,610 --> 01:18:51,000

shoved into sources and methods so that

1767

01:18:55,070 --> 01:18:52,620

the public can never figure out what's

1768

01:18:58,070 --> 01:18:55,080

going on and classified and put into a

1769

01:18:59,209 --> 01:18:58,080

garage sources and methods and we have

1770

01:19:01,610 --> 01:18:59,219

this you know we have an incredibly

1771

01:19:03,530 --> 01:19:01,620

incredible structure for avoiding the

1772

01:19:05,390 --> 01:19:03,540

Freedom of Information Act

1773

01:19:06,890 --> 01:19:05,400

where we have private companies the

1774

01:19:08,510 --> 01:19:06,900

private companies are entrusted with

1775

01:19:09,350 --> 01:19:08,520

secrets that you can't afford to hold in

1776

01:19:10,970 --> 01:19:09,360

government

1777

01:19:13,070 --> 01:19:10,980

so in the same way that you know a rich

1778

01:19:15,530 --> 01:19:13,080

person will set up an irrevocable trust

1779

01:19:17,930 --> 01:19:15,540

and say what assets I don't have the

1780

01:19:19,550 --> 01:19:17,940

assets penetrate this right you know and

1781

01:19:21,410 --> 01:19:19,560

the answer is the person doesn't have

1782

01:19:23,590 --> 01:19:21,420

the assets a container has the assets

1783

01:19:26,450 --> 01:19:23,600

and that somebody is in control of the

1784

01:19:28,370 --> 01:19:26,460

container directing the container to

1785

01:19:31,130 --> 01:19:28,380

make loans which are you know taxed

1786

01:19:33,830 --> 01:19:31,140

under different structures and uh so the

1787

01:19:35,750 --> 01:19:33,840

person is unlimited liability living an

1788

01:19:38,030 --> 01:19:35,760

incredible lavish lifestyle with no

1789

01:19:39,590 --> 01:19:38,040

assets and so my feeling is that the

1790

01:19:41,630 --> 01:19:39,600

government has figured out the foia

1791

01:19:43,610 --> 01:19:41,640

issue which is like what information we

1792

01:19:44,930 --> 01:19:43,620

don't have any information but it seems

1793

01:19:46,729 --> 01:19:44,940

to me if you know if there were

1794

01:19:48,050 --> 01:19:46,739

hyper-intelligent aliens or something

1795

01:19:50,090 --> 01:19:48,060

huge

1796

01:19:52,550 --> 01:19:50,100

um you know kind of malevolent entity on

1797

01:19:55,790 --> 01:19:52,560

Earth that they couldn't find a better

1798

01:20:00,830 --> 01:19:55,800

way to destroy Earth than than sort of

1799

01:20:04,790 --> 01:20:02,209

hmm

1800

01:20:06,709 --> 01:20:04,800

a lot of good points in that one

1801

01:20:09,110 --> 01:20:06,719

um you know I'm not a huge one scene fan

1802

01:20:10,189 --> 01:20:09,120

myself but uh I thought he brought up

1803

01:20:12,709 --> 01:20:10,199

some really interesting things

1804

01:20:16,010 --> 01:20:12,719

especially the fact that like you know

1805

01:20:17,810 --> 01:20:16,020

the data that Jeremy and George Knapp

1806

01:20:21,890 --> 01:20:17,820

are looking for that

1807

01:20:26,689 --> 01:20:21,900

um you know that even things like uh

1808

01:20:28,430 --> 01:20:26,699

probably Galileo project or uapx or or

1809

01:20:31,070 --> 01:20:28,440

um the scientific Coalition for UAP

1810

01:20:34,430 --> 01:20:31,080

studies uh are not

1811

01:20:37,490 --> 01:20:34,440

oh able to afford the information they

1812

01:20:40,130 --> 01:20:37,500

need the data they need and um

1813

01:20:42,590 --> 01:20:40,140

this idea of privilege that those who

1814

01:20:44,209 --> 01:20:42,600

actually have the answers

1815

01:20:47,450 --> 01:20:44,219

um only have them because they can

1816

01:20:48,950 --> 01:20:47,460

afford them or they can afford to move

1817

01:20:51,770 --> 01:20:48,960

these

1818

01:20:56,350 --> 01:20:51,780

special access programs that may involve

1819

01:20:59,570 --> 01:20:56,360

UFOs or UFO retrievals or or strange

1820

01:21:02,810 --> 01:20:59,580

reverse engineered technology

1821

01:21:05,209 --> 01:21:02,820

um in private companies you know if the

1822

01:21:06,770 --> 01:21:05,219

public wants to put in a Freedom of

1823

01:21:09,110 --> 01:21:06,780

Information Act request to get

1824

01:21:11,990 --> 01:21:09,120

information on a UFO case or something

1825

01:21:13,790 --> 01:21:12,000

all they got to do is move all of that

1826

01:21:16,850 --> 01:21:13,800

information over to a private company

1827

01:21:18,290 --> 01:21:16,860

and then they don't have to do it

1828

01:21:20,990 --> 01:21:18,300

um so this has been going on for a very

1829

01:21:24,110 --> 01:21:21,000

long time we know private companies are

1830

01:21:26,030 --> 01:21:24,120

where a lot of the UFO answers probably

1831

01:21:28,070 --> 01:21:26,040

lay

1832

01:21:29,689 --> 01:21:28,080

um but yeah I thought that was pretty

1833

01:21:30,470 --> 01:21:29,699

interesting that Eric would bring that

1834

01:21:31,130 --> 01:21:30,480

up

1835

01:21:34,010 --> 01:21:31,140

um

1836

01:21:35,330 --> 01:21:34,020

yeah yeah pretty pretty interesting what

1837

01:21:39,669 --> 01:21:35,340

do you guys think I'm gonna go in the

1838

01:21:43,610 --> 01:21:41,990

Jalen Heineken I always lose track of

1839

01:21:46,490 --> 01:21:43,620

whatever Eric Weinstein is saying yeah

1840

01:21:50,689 --> 01:21:46,500

he does he really like kind of goes off

1841

01:21:52,430 --> 01:21:50,699

on tangents and um and uses you know

1842

01:21:55,510 --> 01:21:52,440

terms and stuff that he expects everyone

1843

01:21:58,550 --> 01:21:55,520

to already know which is you know

1844

01:22:00,470 --> 01:21:58,560

issue is an issue

1845

01:22:02,270 --> 01:22:00,480

um yeah yeah

1846

01:22:04,130 --> 01:22:02,280

he's a little condescending too at times

1847

01:22:06,050 --> 01:22:04,140

which I don't appreciate

1848

01:22:07,610 --> 01:22:06,060

but he's making some good points

1849

01:22:10,070 --> 01:22:07,620

Christian says how would the world look

1850

01:22:12,950 --> 01:22:10,080

if they if the U.S military didn't

1851
01:22:15,530 --> 01:22:12,960
realize the transistor and the same with

1852
01:22:16,550 --> 01:22:15,540
the UFO Tech if it existed

1853
01:22:19,010 --> 01:22:16,560
yeah

1854
01:22:24,050 --> 01:22:19,020
good good question my friend I don't

1855
01:22:32,630 --> 01:22:28,189
let's see here I saw them live always

1856
01:22:36,890 --> 01:22:34,910
Joshua says Eisenhower warned everyone

1857
01:22:40,970 --> 01:22:36,900
about the military industrial complex in

1858
01:22:43,250 --> 01:22:40,980
the 50s foia doesn't apply to Industrial

1859
01:22:45,590 --> 01:22:43,260
there you go

1860
01:22:47,750 --> 01:22:45,600
so so true

1861
01:22:49,490 --> 01:22:47,760
Kim says underwhelming direct evidence

1862
01:22:52,010 --> 01:22:49,500
overwhelming indirect evidence

1863
01:22:54,830 --> 01:22:52,020

privileged evasion of information share

1864

01:22:56,450 --> 01:22:54,840

boom that's the clip right there

1865

01:22:58,850 --> 01:22:56,460

um we have so much indirect evidence

1866

01:23:02,030 --> 01:22:58,860

when it comes to UFOs overwhelming

1867

01:23:03,830 --> 01:23:02,040

amount as Eric is learning now as he

1868

01:23:04,790 --> 01:23:03,840

digs deeper into UFOs but direct

1869

01:23:08,149 --> 01:23:04,800

evidence

1870

01:23:09,890 --> 01:23:08,159

very hard to come by so I like seeing

1871

01:23:11,510 --> 01:23:09,900

this kind of push and pull he's going

1872

01:23:13,790 --> 01:23:11,520

through right now as some people are

1873

01:23:16,550 --> 01:23:13,800

trying to like you know kind of read

1874

01:23:18,410 --> 01:23:16,560

them into things and um or are they

1875

01:23:21,350 --> 01:23:18,420

trying to disinform him

1876

01:23:24,530 --> 01:23:21,360

um that's a whole other story uh so it

1877

01:23:26,090 --> 01:23:24,540

is it's really really interesting

1878

01:23:29,090 --> 01:23:26,100

um

1879

01:23:30,770 --> 01:23:29,100

really interesting

1880

01:23:33,410 --> 01:23:30,780

Michael says military industrial

1881

01:23:37,310 --> 01:23:33,420

entertainment complex there's always

1882

01:23:38,810 --> 01:23:37,320

that too there is always that

1883

01:23:39,950 --> 01:23:38,820

um but yeah yeah interesting clip

1884

01:23:42,470 --> 01:23:39,960

nonetheless

1885

01:23:44,810 --> 01:23:42,480

um uh I thought that was definitely one

1886

01:23:49,070 --> 01:23:44,820

we should share with you guys let's move

1887

01:23:51,370 --> 01:23:49,080

on to the Julian Dory podcast this is

1888

01:23:53,270 --> 01:23:51,380

what I'd never heard of but James Fox

1889

01:23:54,290 --> 01:23:53,280

documentarian was featured on it

1890

01:23:56,510 --> 01:23:54,300

recently

1891

01:23:59,209 --> 01:23:56,520

um talking about his latest film moment

1892

01:24:01,729 --> 01:23:59,219

of contact about the vargina UFO crash

1893

01:24:04,490 --> 01:24:01,739

incident and he talked about something

1894

01:24:07,189 --> 01:24:04,500

that didn't make it into the film

1895

01:24:09,169 --> 01:24:07,199

um but was really really interesting he

1896

01:24:11,689 --> 01:24:09,179

talked about the doctors who treated the

1897

01:24:13,010 --> 01:24:11,699

vargenia alien and claimed that it

1898

01:24:14,450 --> 01:24:13,020

communicated so I'm gonna go ahead and

1899

01:24:17,770 --> 01:24:14,460

play that clip for you guys right now

1900

01:24:20,990 --> 01:24:17,780

and uh we'll talk about vardinia alien

1901

01:24:22,370 --> 01:24:21,000

UFO crash on the other side

1902

01:24:25,310 --> 01:24:22,380

and one of them was captured alive

1903

01:24:26,630 --> 01:24:25,320

because I I know that too he claims in

1904

01:24:29,209 --> 01:24:26,640

his book that he meets with these two

1905

01:24:32,750 --> 01:24:29,219

doctors that had

1906

01:24:34,970 --> 01:24:32,760

worked on one of the creatures in the

1907

01:24:38,330 --> 01:24:37,130

and that I didn't put any of this in the

1908

01:24:40,610 --> 01:24:38,340

movie because I don't have anybody's

1909

01:24:41,810 --> 01:24:40,620

testimony other than a book that's it I

1910

01:24:43,010 --> 01:24:41,820

can tell you and you guys could take it

1911

01:24:44,330 --> 01:24:43,020

with a grain of salt you can believe it

1912

01:24:47,330 --> 01:24:44,340

you can no that works that's perfect

1913

01:24:50,870 --> 01:24:47,340

yeah so according to these doctors that

1914

01:24:53,090 --> 01:24:50,880

that Dr Roger Lear uh accounts in his

1915

01:24:55,669 --> 01:24:53,100

book these two doctors during the

1916

01:24:57,890 --> 01:24:55,679

procedure the the creature had a a wound

1917

01:25:00,649 --> 01:24:57,900

somewhere they were trying to fix it do

1918

01:25:04,729 --> 01:25:00,659

something a leg broken leg something

1919

01:25:06,890 --> 01:25:04,739

and um all of a sudden the creature kind

1920

01:25:08,030 --> 01:25:06,900

of comes more to life it was a lie but

1921

01:25:09,410 --> 01:25:08,040

it kind of comes alive and it

1922

01:25:12,169 --> 01:25:09,420

communicates with the two doctors

1923

01:25:14,570 --> 01:25:12,179

telepathically

1924

01:25:17,209 --> 01:25:14,580

and again this is according to Dr Roger

1925

01:25:20,030 --> 01:25:17,219

lear's book that Dr Roger Lear heard the

1926

01:25:22,729 --> 01:25:20,040

account directly from the two doctors at

1927

01:25:25,189 --> 01:25:22,739

humanitas hospital who were there and

1928

01:25:26,990 --> 01:25:25,199

and experienced this his word against

1929

01:25:29,149 --> 01:25:27,000

everybody yeah well it's exactly when

1930

01:25:30,229 --> 01:25:29,159

he's dead so and there was another guy

1931

01:25:32,570 --> 01:25:30,239

in the room there was a guy that

1932

01:25:34,430 --> 01:25:32,580

traveled with with Dr Roger Lear and I

1933

01:25:35,870 --> 01:25:34,440

tracked him down and he had just died so

1934

01:25:37,850 --> 01:25:35,880

I didn't get his Testament he was also

1935

01:25:39,770 --> 01:25:37,860

in the room so the only person left in

1936

01:25:41,870 --> 01:25:39,780

the room is Uber toshara the two doctors

1937

01:25:44,030 --> 01:25:41,880

which I have no idea where they are and

1938

01:25:44,689 --> 01:25:44,040

Uber driver's son and Uber won't talk to

1939

01:25:46,610 --> 01:25:44,699

me

1940

01:25:48,950 --> 01:25:46,620

and apparently the telepathic

1941

01:25:50,390 --> 01:25:48,960

communication was I feel sorry for you

1942

01:25:53,990 --> 01:25:50,400

humans you have no idea about your

1943

01:25:58,910 --> 01:25:56,229

yeah that's what it said

1944

01:26:02,030 --> 01:25:58,920

according to the book and Dr Roger later

1945

01:26:04,129 --> 01:26:02,040

and the doctors yeah so

1946

01:26:06,050 --> 01:26:04,139

I I was like

1947

01:26:07,610 --> 01:26:06,060

I contacted people that knew Dr Roger

1948

01:26:09,229 --> 01:26:07,620

Lear they said he doesn't make stuff up

1949

01:26:11,390 --> 01:26:09,239

that he was a solid witness I said look

1950

01:26:12,590 --> 01:26:11,400

I can vouch for the whole book except

1951

01:26:14,930 --> 01:26:12,600

for that because I don't have those

1952

01:26:16,310 --> 01:26:14,940

tapes well good again good of you to not

1953

01:26:17,930 --> 01:26:16,320

put that in a documentary because that's

1954

01:26:19,850 --> 01:26:17,940

a heavy thing and you can't I can't

1955

01:26:22,430 --> 01:26:19,860

prove full proven yeah couldn't prove it

1956

01:26:23,930 --> 01:26:22,440

so I did I left it that's wild yeah if I

1957

01:26:25,370 --> 01:26:23,940

would have gotten testimony from someone

1958

01:26:27,290 --> 01:26:25,380

who heard it out of the doctor's mouth I

1959

01:26:31,629 --> 01:26:27,300

might have considered putting it in but

1960

01:26:38,510 --> 01:26:34,970

interesting interesting another

1961

01:26:40,490 --> 01:26:38,520

mystery with the vargina case

1962

01:26:42,110 --> 01:26:40,500

um I don't know what do you guys think

1963

01:26:45,110 --> 01:26:42,120

what do you make of that claim what do

1964

01:26:47,510 --> 01:26:45,120

you make of Dr Roger Lear in his work

1965

01:26:49,970 --> 01:26:47,520

and he's the one who claimed this so

1966

01:26:53,930 --> 01:26:49,980

um hello Jen welcome welcome to the live

1967

01:26:56,570 --> 01:26:53,940

stream tonight if you're just joining us

1968

01:26:58,629 --> 01:26:56,580

um let's see Bill says usually it's the

1969

01:27:03,890 --> 01:26:58,639

Grays that communicate telepathically

1970

01:27:08,750 --> 01:27:06,350

I have come across that many times in my

1971

01:27:13,910 --> 01:27:08,760

research as well Bill to be completely

1972

01:27:19,370 --> 01:27:17,990

sorry Android said holy that's true I

1973

01:27:23,570 --> 01:27:19,380

would have had the same reaction if I

1974

01:27:27,770 --> 01:27:26,270

let's see says if the doctor truly said

1975

01:27:29,390 --> 01:27:27,780

that it makes your mind race with

1976

01:27:33,169 --> 01:27:29,400

possibilities it does

1977

01:27:39,169 --> 01:27:35,570

Michael says Lear is Highly Questionable

1978

01:27:43,010 --> 01:27:39,179

sorry hey don't be sorry man like yeah

1979

01:27:44,810 --> 01:27:43,020

I mean that's just that's the truth

1980

01:27:48,590 --> 01:27:44,820

um you know he had some questionable

1981

01:27:51,169 --> 01:27:48,600

work and and results and not everybody

1982

01:27:57,890 --> 01:27:51,179

agrees with it uh but welcome to ufology

1983

01:28:02,870 --> 01:28:00,410

let's see see you Jazz this Jazz hadn't

1984

01:28:05,510 --> 01:28:02,880

later Jazz thanks for joining us man as

1985

01:28:07,850 --> 01:28:05,520

always really do appreciate it Audrey as

1986

01:28:09,530 --> 01:28:07,860

well had to leave us tonight go back to

1987

01:28:11,870 --> 01:28:09,540

work so thank you thank you to both of

1988

01:28:14,030 --> 01:28:11,880

you for your continued support truly

1989

01:28:15,590 --> 01:28:14,040

truly do appreciate it as well as

1990

01:28:17,510 --> 01:28:15,600

everyone else sticking with me right now

1991

01:28:19,070 --> 01:28:17,520

we got a couple more podcast highlights

1992

01:28:22,490 --> 01:28:19,080

for you guys

1993

01:28:25,209 --> 01:28:22,500

before we head out tonight

1994

01:28:27,770 --> 01:28:25,219

um let me see there was one other

1995

01:28:29,629 --> 01:28:27,780

comment I wanted to

1996

01:28:31,550 --> 01:28:29,639

go over

1997

01:28:33,470 --> 01:28:31,560

Dylan says why would the alien say that

1998

01:28:36,350 --> 01:28:33,480

before dying while it's in pain I'd be

1999

01:28:39,110 --> 01:28:36,360

screaming my lungs off for drugs

2000

01:28:41,530 --> 01:28:39,120

good point very good point to each his

2001

01:28:45,350 --> 01:28:41,540

own I guess

2002

01:28:46,910 --> 01:28:45,360

Kim asks what makes Fox believe this

2003

01:28:48,830 --> 01:28:46,920

story

2004

01:28:51,530 --> 01:28:48,840

um good question

2005

01:28:54,530 --> 01:28:51,540

or does he believe it

2006

01:28:56,930 --> 01:28:54,540

I don't know I don't know

2007

01:28:58,669 --> 01:28:56,940

we'll have to get James back on

2008

01:29:00,709 --> 01:28:58,679

get him back on soon I know he's filming

2009

01:29:04,970 --> 01:29:00,719

something else right now

2010

01:29:05,870 --> 01:29:04,980

um out in Washington DC so yeah we'll

2011

01:29:09,530 --> 01:29:05,880

see

2012

01:29:12,830 --> 01:29:09,540

talk about that

2013

01:29:14,450 --> 01:29:12,840

Owen from Ohio says all we need is just

2014

01:29:17,390 --> 01:29:14,460

one of these encounters to be true that

2015

01:29:20,149 --> 01:29:17,400

is so spot-on man like one

2016

01:29:22,729 --> 01:29:20,159

just one that's all we need we need just

2017

01:29:25,490 --> 01:29:22,739

one of these things to be true to be

2018

01:29:28,310 --> 01:29:25,500

truly extraterrestrial or non-human and

2019

01:29:29,870 --> 01:29:28,320

it would shatter everything

2020

01:29:33,290 --> 01:29:29,880

fundamentally

2021

01:29:36,050 --> 01:29:33,300

be a huge paradigm shift so

2022

01:29:38,570 --> 01:29:36,060

but then again would everyone believe it

2023

01:29:41,149 --> 01:29:38,580

would we come to a consensus on the

2024

01:29:42,950 --> 01:29:41,159

reality of the phenomenon in terms of it

2025

01:29:45,169 --> 01:29:42,960

not being man-made

2026

01:29:47,689 --> 01:29:45,179

I mean look at how the world is today

2027

01:29:50,870 --> 01:29:47,699

would we even believe it if it happened

2028

01:29:54,110 --> 01:29:50,880

and who holds the key to saying it's

2029

01:29:56,149 --> 01:29:54,120

real saying it's you know is it the US

2030

01:29:59,090 --> 01:29:56,159

government because we don't clearly

2031

01:30:00,709 --> 01:29:59,100

trust them on any of this I don't know

2032

01:30:02,510 --> 01:30:00,719

I don't know guys we're stuck in a

2033

01:30:03,950 --> 01:30:02,520

paradox we're stuck in a conundrum with

2034

01:30:07,189 --> 01:30:03,960

all of this that's why the word

2035

01:30:09,229 --> 01:30:07,199

disclosure gives me hives

2036

01:30:11,330 --> 01:30:09,239

um I think we just should focus on our

2037

01:30:16,550 --> 01:30:11,340

own personal disclosures when it comes

2038

01:30:21,229 --> 01:30:19,250

let's see here

2039

01:30:23,030 --> 01:30:21,239

awesome so yeah I thought that was a

2040

01:30:25,550 --> 01:30:23,040

pretty cool clip Julian Dory I'll have

2041

01:30:29,030 --> 01:30:25,560

to check out more of his work as well

2042

01:30:31,310 --> 01:30:29,040

um let's move on to the UAP studies

2043

01:30:32,990 --> 01:30:31,320

podcast we haven't featured these guys

2044

01:30:35,629 --> 01:30:33,000

yet and they're doing some incredible

2045

01:30:39,169 --> 01:30:35,639

work over there so be sure to check them

2046

01:30:42,590 --> 01:30:39,179

out the UAP studies podcast and they had

2047

01:30:46,250 --> 01:30:42,600

pilot Ryan Graves on the show recently

2048

01:30:48,229 --> 01:30:46,260

and um he made some pretty bold claims

2049

01:30:51,110 --> 01:30:48,239

something anomalous is going on in the

2050

01:30:52,129 --> 01:30:51,120

alien hypothesis needs to remain on the

2051

01:30:54,890 --> 01:30:52,139

table

2052

01:30:57,890 --> 01:30:54,900

pretty cool coming from Ryan Graves

2053

01:30:59,870 --> 01:30:57,900

our East Coast pilot host a merge which

2054

01:31:01,910 --> 01:30:59,880

we'll get to in just a sec but let's go

2055

01:31:03,830 --> 01:31:01,920

ahead and play this clip from the UAP

2056

01:31:05,510 --> 01:31:03,840

studies podcast with our interview with

2057

01:31:09,530 --> 01:31:05,520

Ryan Graves

2058

01:31:10,430 --> 01:31:09,540

so ma'am there's I've come to the

2059

01:31:13,250 --> 01:31:10,440

conclusion that there's something

2060

01:31:14,930 --> 01:31:13,260

anomalous going on so what that means I

2061

01:31:17,689 --> 01:31:14,940

don't know yet

2062

01:31:19,669 --> 01:31:17,699

um we've my Essential my my goal

2063

01:31:22,370 --> 01:31:19,679

essentially is make the the bucket

2064

01:31:24,110 --> 01:31:22,380

around that anomalous nugget as small as

2065

01:31:26,330 --> 01:31:24,120

possible so remove all the junk out of

2066

01:31:29,030 --> 01:31:26,340

there remove the the adversarial

2067

01:31:30,410 --> 01:31:29,040

platforms remove the

2068

01:31:33,649 --> 01:31:30,420

um you know the potential for commercial

2069

01:31:36,590 --> 01:31:33,659

platform in the US or anything like that

2070

01:31:38,810 --> 01:31:36,600

um and once we do that I think the

2071

01:31:40,729 --> 01:31:38,820

methodology and the science and the way

2072

01:31:42,830 --> 01:31:40,739

we approach the problem has to change

2073

01:31:45,110 --> 01:31:42,840

then at that point when we've reached a

2074

01:31:46,910 --> 01:31:45,120

certain confidence level because we need

2075

01:31:49,250 --> 01:31:46,920

to go back to a first principle's

2076

01:31:50,930 --> 01:31:49,260

approach in a way that I think you can't

2077

01:31:53,030 --> 01:31:50,940

necessarily do when you're looking for

2078

01:31:54,590 --> 01:31:53,040

adversarial programs or things of that

2079

01:31:56,570 --> 01:31:54,600

nature

2080

01:31:58,490 --> 01:31:56,580

um and so I think there's a couple tiers

2081

01:32:01,370 --> 01:31:58,500

of how this conversation is going to

2082

01:32:02,870 --> 01:32:01,380

unfold so for me I'm still in that first

2083

01:32:04,370 --> 01:32:02,880

part of the conversation where we're

2084

01:32:06,050 --> 01:32:04,380

still trying to pull things out but it's

2085

01:32:07,430 --> 01:32:06,060

very clear that there is this core

2086

01:32:09,050 --> 01:32:07,440

that's going to remain as we keep

2087

01:32:13,490 --> 01:32:09,060

pulling things out because some of the

2088

01:32:16,790 --> 01:32:13,500

behaviors that we seem to be seeing uh

2089

01:32:18,530 --> 01:32:16,800

are bizarre enough that they're um you

2090

01:32:19,669 --> 01:32:18,540

know there's some low-hanging fruit you

2091

01:32:21,470 --> 01:32:19,679

could say where it's like all right

2092

01:32:23,930 --> 01:32:21,480

that's probably not going to wash out as

2093

01:32:26,750 --> 01:32:23,940

an adversarial threat but again that

2094

01:32:28,550 --> 01:32:26,760

once we once we've clearly identified

2095

01:32:30,050 --> 01:32:28,560

that and parameterized it then it's a

2096

01:32:31,250 --> 01:32:30,060

time to start looking at it in a

2097

01:32:33,590 --> 01:32:31,260

different Manner and say okay what

2098

01:32:35,149 --> 01:32:33,600

conclusions can we draw from this maybe

2099

01:32:37,669 --> 01:32:35,159

that'll be an easy process maybe it

2100

01:32:39,770 --> 01:32:37,679

won't but it'll be a different process

2101
01:32:41,450 --> 01:32:39,780
I know that's a super unsatisfying

2102
01:32:43,490 --> 01:32:41,460
answer I'm sorry you believe in aliens

2103
01:32:44,990 --> 01:32:43,500
or don't you believe in it I barely

2104
01:32:47,689 --> 01:32:45,000
believe that there's a potential for it

2105
01:32:50,810 --> 01:32:47,699
right yeah space doesn't stop at some

2106
01:32:53,090 --> 01:32:50,820
magical number above our heads

2107
01:32:55,370 --> 01:32:53,100
um you know we are part part of this

2108
01:32:56,930 --> 01:32:55,380
universe and it's very likely that this

2109
01:32:59,810 --> 01:32:56,940
universe has other intelligent life

2110
01:33:01,970 --> 01:32:59,820
other than us and I think it would be uh

2111
01:33:04,070 --> 01:33:01,980
silly to think that they'd be limited to

2112
01:33:05,290 --> 01:33:04,080
the uh the means of traveling around the

2113
01:33:07,970 --> 01:33:05,300

universe that we can currently

2114

01:33:09,890 --> 01:33:07,980

technologically achieve

2115

01:33:11,750 --> 01:33:09,900

um so I think

2116

01:33:15,610 --> 01:33:11,760

um I think that possibility is certainly

2117

01:33:23,209 --> 01:33:20,149

yeah possibility remains um pretty cool

2118

01:33:25,129 --> 01:33:23,219

pretty cool um kudos to those guys for

2119

01:33:26,870 --> 01:33:25,139

um asking him the question straight up

2120

01:33:29,870 --> 01:33:26,880

like do you believe in aliens or not

2121

01:33:31,970 --> 01:33:29,880

like enough with this ambiguity and um

2122

01:33:33,950 --> 01:33:31,980

you know he kind of he skirted around

2123

01:33:36,590 --> 01:33:33,960

the question but he did say he believes

2124

01:33:39,169 --> 01:33:36,600

yeah like space is infinite there's

2125

01:33:41,629 --> 01:33:39,179

probably something else out there so has

2126

01:33:44,209 --> 01:33:41,639

it visited us possibly

2127

01:33:46,550 --> 01:33:44,219

um is that something that uh is still on

2128

01:33:48,290 --> 01:33:46,560

the table always and I think that was

2129

01:33:50,450 --> 01:33:48,300

pretty cool pretty cool so great work

2130

01:33:52,790 --> 01:33:50,460

over there guys go check out the UAP

2131

01:33:55,010 --> 01:33:52,800

studies podcast gotta get a round table

2132

01:33:57,290 --> 01:33:55,020

those guys soon too

2133

01:33:58,610 --> 01:33:57,300

um speaking of round tables if you

2134

01:34:00,950 --> 01:33:58,620

haven't

2135

01:34:03,770 --> 01:34:00,960

um checked it out yet go over to that

2136

01:34:07,910 --> 01:34:03,780

UFO podcast we just did an awesome

2137

01:34:10,910 --> 01:34:07,920

awesome round table from uh with Nathan

2138

01:34:13,610 --> 01:34:10,920

from calling all beans Dan zetterstrom

2139

01:34:17,209 --> 01:34:13,620

Andy mcgrillin and myself we did a um

2140

01:34:18,770 --> 01:34:17,219

kind of a February and March Roundtable

2141

01:34:20,990 --> 01:34:18,780

of everything that's been going on in

2142

01:34:23,149 --> 01:34:21,000

the UFO world so be sure to go check

2143

01:34:25,490 --> 01:34:23,159

that out right here on YouTube just type

2144

01:34:27,590 --> 01:34:25,500

in that UFO podcast or uh you can find

2145

01:34:29,330 --> 01:34:27,600

it in podcast form as well

2146

01:34:31,330 --> 01:34:29,340

um had an awesome time over there why am

2147

01:34:33,890 --> 01:34:31,340

I so blurry

2148

01:34:35,330 --> 01:34:33,900

oh I don't know why that's happening

2149

01:34:38,149 --> 01:34:35,340

it's probably because I went full screen

2150

01:34:39,950 --> 01:34:38,159

let's go back let's get this back in

2151
01:34:41,870 --> 01:34:39,960
here so I'm not so blurry

2152
01:34:45,169 --> 01:34:41,880
um yeah yeah so that was a good time

2153
01:34:47,649 --> 01:34:45,179
hope you guys will check that out uh

2154
01:34:50,330 --> 01:34:47,659
let's see

2155
01:34:52,729 --> 01:34:50,340
there's a cool Round Table Escape says

2156
01:34:55,189 --> 01:34:52,739
thank you truly do appreciate that guys

2157
01:34:57,470 --> 01:34:55,199
let's move to our last podcast clip of

2158
01:34:59,810 --> 01:34:57,480
the night podcast highlight and that

2159
01:35:01,310 --> 01:34:59,820
once again comes from our friend Ryan

2160
01:35:04,910 --> 01:35:01,320
Graves

2161
01:35:08,270 --> 01:35:04,920
um with the merged podcast and this was

2162
01:35:11,750 --> 01:35:08,280
so cool he had a member of the Galileo

2163
01:35:13,729 --> 01:35:11,760

project on the show uh and it was kind

2164

01:35:15,770 --> 01:35:13,739

of the first time we've heard the

2165

01:35:18,530 --> 01:35:15,780

specifics of what's going on at the

2166

01:35:19,850 --> 01:35:18,540

Galileo project and the instruments

2167

01:35:20,689 --> 01:35:19,860

they're using

2168

01:35:23,270 --> 01:35:20,699

um

2169

01:35:25,370 --> 01:35:23,280

we're going to be using the tests and

2170

01:35:28,010 --> 01:35:25,380

algorithms they're kind of setting up

2171

01:35:30,470 --> 01:35:28,020

right now and it was really cool so we

2172

01:35:32,510 --> 01:35:30,480

had a woman named Abby white who's a

2173

01:35:34,610 --> 01:35:32,520

research fellow at the Galileo project

2174

01:35:37,010 --> 01:35:34,620

and she explained how she integrated

2175

01:35:39,110 --> 01:35:37,020

into the Galileo project her experience

2176
01:35:41,030 --> 01:35:39,120
is working on it and the tools he used

2177
01:35:42,890 --> 01:35:41,040
to study UAP

2178
01:35:45,290 --> 01:35:42,900
um but we're going to feature a clip

2179
01:35:47,209 --> 01:35:45,300
where Ryan asked her where they stand

2180
01:35:49,610 --> 01:35:47,219
today like what's going on right now

2181
01:35:52,970 --> 01:35:49,620
with the Galileo project and what we can

2182
01:35:57,229 --> 01:35:52,980
expect next so let's go ahead and play

2183
01:35:59,390 --> 01:35:57,239
that for you right now there it is so

2184
01:36:01,129 --> 01:35:59,400
where's the Galileo project today you

2185
01:36:02,629 --> 01:36:01,139
know I their their building centers

2186
01:36:04,430 --> 01:36:02,639
You're Building sensors you have a

2187
01:36:06,530 --> 01:36:04,440
couple different types of big expensive

2188
01:36:08,930 --> 01:36:06,540

one and you're working to bring the cost

2189

01:36:11,030 --> 01:36:08,940

down and make it more scalable

2190

01:36:13,070 --> 01:36:11,040

um have you guys started like making

2191

01:36:14,450 --> 01:36:13,080

what I call like production detections

2192

01:36:16,490 --> 01:36:14,460

or are you still kind of in a testing

2193

01:36:17,930 --> 01:36:16,500

phase right now yeah so I would say you

2194

01:36:19,729 --> 01:36:17,940

know straight up we're definitely in the

2195

01:36:22,129 --> 01:36:19,739

testing phase right now uh but that's

2196

01:36:23,629 --> 01:36:22,139

the most important phase so uh the

2197

01:36:25,729 --> 01:36:23,639

terminology we've been using is we're in

2198

01:36:28,010 --> 01:36:25,739

phase one so we have this our first

2199

01:36:30,110 --> 01:36:28,020

Observatory system we had it installed

2200

01:36:32,330 --> 01:36:30,120

on top of the Harvard College

2201
01:36:33,709 --> 01:36:32,340
Observatory route for a while uh we're

2202
01:36:35,270 --> 01:36:33,719
just you know testing that everything

2203
01:36:36,709 --> 01:36:35,280
like the hardware is behaving as we're

2204
01:36:38,450 --> 01:36:36,719
expecting

2205
01:36:40,790 --> 01:36:38,460
um and then we were able to move to

2206
01:36:42,410 --> 01:36:40,800
another instrument site which uh

2207
01:36:44,350 --> 01:36:42,420
I'm not allowed to say where it's

2208
01:36:47,090 --> 01:36:44,360
classified classified

2209
01:36:49,189 --> 01:36:47,100
but that is where we can you know do a

2210
01:36:51,470 --> 01:36:49,199
little bit more rigorous testing

2211
01:36:54,350 --> 01:36:51,480
um but yeah so definitely just like

2212
01:36:56,330 --> 01:36:54,360
making sure things are are running you

2213
01:36:59,629 --> 01:36:56,340

know sometimes you need to go out there

2214

01:37:00,770 --> 01:36:59,639

and uh unplug some USB cables and

2215

01:37:03,470 --> 01:37:00,780

replugging them in so we have to

2216

01:37:05,570 --> 01:37:03,480

troubleshoot like why did that happen uh

2217

01:37:06,950 --> 01:37:05,580

and thinking about you know what that

2218

01:37:08,810 --> 01:37:06,960

says in terms of our technology

2219

01:37:10,189 --> 01:37:08,820

capability how hands off is it how

2220

01:37:11,629 --> 01:37:10,199

Hands-On is it so just determining all

2221

01:37:14,030 --> 01:37:11,639

those things is really important in this

2222

01:37:15,770 --> 01:37:14,040

phase one uh but also you know we have a

2223

01:37:18,169 --> 01:37:15,780

science traceability Matrix that says

2224

01:37:19,310 --> 01:37:18,179

all of our goals uh you know areas where

2225

01:37:20,810 --> 01:37:19,320

we want to make sure these instruments

2226

01:37:23,270 --> 01:37:20,820

are performing up to their

2227

01:37:25,189 --> 01:37:23,280

specifications so just referring back to

2228

01:37:26,810 --> 01:37:25,199

that always which that'll be in our

2229

01:37:29,390 --> 01:37:26,820

paper that are our papers that are

2230

01:37:30,830 --> 01:37:29,400

coming out uh but just referring back to

2231

01:37:33,410 --> 01:37:30,840

that and making sure okay we said we

2232

01:37:34,910 --> 01:37:33,420

wanted to get this resolution of objects

2233

01:37:36,470 --> 01:37:34,920

uh we want to be able to see objects

2234

01:37:38,149 --> 01:37:36,480

moving like this fast or this far away

2235

01:37:41,390 --> 01:37:38,159

uh just making sure that we're actually

2236

01:37:42,950 --> 01:37:41,400

seeing that so we've kind of put a pause

2237

01:37:46,550 --> 01:37:42,960

um or not put a pause we've just kind of

2238

01:37:48,830 --> 01:37:46,560

taken this opportunity to uh now that

2239

01:37:51,229 --> 01:37:48,840

things are kind of going to make sure

2240

01:37:54,410 --> 01:37:51,239

we're doing the preliminary analysis and

2241

01:37:56,390 --> 01:37:54,420

again performing up to spec so uh that

2242

01:37:58,610 --> 01:37:56,400

involves a lot of observing birds and

2243

01:38:00,229 --> 01:37:58,620

planes for right now but I mean we have

2244

01:38:02,990 --> 01:38:00,239

the cameras rolling so if anything

2245

01:38:04,970 --> 01:38:03,000

decides to give us a visit I guess we'll

2246

01:38:06,649 --> 01:38:04,980

have it but it's just you know

2247

01:38:08,270 --> 01:38:06,659

though like like we were kind of

2248

01:38:10,070 --> 01:38:08,280

speaking about a little bit uh how you

2249

01:38:12,290 --> 01:38:10,080

determine that something is weird or

2250

01:38:15,229 --> 01:38:12,300

anomalous we're gonna let the like the

2251

01:38:16,850 --> 01:38:15,239

AI algorithms handle that for us I can't

2252

01:38:18,410 --> 01:38:16,860

say what what I hope that we find

2253

01:38:19,970 --> 01:38:18,420

because I don't know but I just hope

2254

01:38:22,010 --> 01:38:19,980

that this sets a standard that you can

2255

01:38:24,410 --> 01:38:22,020

do science that is looking into

2256

01:38:26,750 --> 01:38:24,420

phenomena whatever that phenomena may be

2257

01:38:27,950 --> 01:38:26,760

thank you for you know bringing this to

2258

01:38:30,590 --> 01:38:27,960

light and obviously it would have never

2259

01:38:32,930 --> 01:38:30,600

happened without you know the brave The

2260

01:38:34,610 --> 01:38:32,940

Bravery of many people who have had

2261

01:38:37,010 --> 01:38:34,620

experiences and witness accounts coming

2262

01:38:41,590 --> 01:38:37,020

forward and and really fighting for this

2263

01:38:48,050 --> 01:38:45,470

amen such a good interview the attention

2264

01:38:49,850 --> 01:38:48,060

it deserves um Kudos Abby wait thank you

2265

01:38:52,370 --> 01:38:49,860

for doing that interview because I think

2266

01:38:54,410 --> 01:38:52,380

a lot of us have kind of um not been

2267

01:38:56,689 --> 01:38:54,420

frustrated but we have been wondering

2268

01:38:58,189 --> 01:38:56,699

like where is the Galileo project what's

2269

01:39:00,410 --> 01:38:58,199

going on

2270

01:39:01,610 --> 01:39:00,420

um Avi lobe does a ton of interviews and

2271

01:39:04,250 --> 01:39:01,620

he's always like we're working on it

2272

01:39:06,950 --> 01:39:04,260

we're working on it and this stuff takes

2273

01:39:08,870 --> 01:39:06,960

time it's going to take a very long time

2274

01:39:10,790 --> 01:39:08,880

to get these things up and running and

2275

01:39:12,709 --> 01:39:10,800

doing the job that they actually need to

2276

01:39:14,870 --> 01:39:12,719

do but it was really cool to kind of

2277

01:39:16,610 --> 01:39:14,880

humanize the project get someone a

2278

01:39:18,709 --> 01:39:16,620

representative out there to talk about

2279

01:39:20,510 --> 01:39:18,719

it and I think Abby did a wonderful job

2280

01:39:23,149 --> 01:39:20,520

hopefully we'll see her and other

2281

01:39:24,830 --> 01:39:23,159

members of the Galileo project popping

2282

01:39:26,810 --> 01:39:24,840

up on interviews

2283

01:39:29,090 --> 01:39:26,820

um I would love to talk to her or any of

2284

01:39:32,030 --> 01:39:29,100

the other Representatives working any

2285

01:39:33,950 --> 01:39:32,040

other research fellows or or or anyone

2286

01:39:36,370 --> 01:39:33,960

working with the Galileo project so if

2287

01:39:39,229 --> 01:39:36,380

you're watching please reach out to me

2288

01:39:41,629 --> 01:39:39,239

I'd love to talk to you guys

2289

01:39:43,610 --> 01:39:41,639

um yeah so that's gonna do it guys our

2290

01:39:45,110 --> 01:39:43,620

podcast highlights of the week I hope

2291

01:39:48,790 --> 01:39:45,120

you enjoyed those

2292

01:39:52,430 --> 01:39:48,800

so much going on in the UFO World

2293

01:39:54,229 --> 01:39:52,440

whether good or bad that's a that's up

2294

01:39:57,110 --> 01:39:54,239

to you to decide

2295

01:39:59,090 --> 01:39:57,120

um but yeah we can't say that the field

2296

01:40:01,010 --> 01:39:59,100

isn't is boring right now because

2297

01:40:04,610 --> 01:40:01,020

there's there's certainly a lot going on

2298

01:40:07,250 --> 01:40:04,620

some incredible conversations going on

2299

01:40:11,270 --> 01:40:07,260

um and uh a lot of controversial photos

2300

01:40:12,950 --> 01:40:11,280

and videos being released so I'm sure by

2301
01:40:14,810 --> 01:40:12,960
next Sunday we'll have some more to

2302
01:40:16,430 --> 01:40:14,820
share with you guys but uh these were

2303
01:40:20,270 --> 01:40:16,440
the highlights I found of most interest

2304
01:40:22,250 --> 01:40:20,280
this week but um before we wrap things

2305
01:40:24,770 --> 01:40:22,260
up I do want to let you know what's

2306
01:40:27,350 --> 01:40:24,780
dropping tonight in all new episode of

2307
01:40:29,930 --> 01:40:27,360
somewhere in the skies with our special

2308
01:40:34,310 --> 01:40:29,940
guest red pill junkie whose real name is

2309
01:40:36,410 --> 01:40:34,320
Miguel Romero and um it was probably and

2310
01:40:38,930 --> 01:40:36,420
I'm not just saying this probably one of

2311
01:40:41,209 --> 01:40:38,940
my most favorite conversations I've ever

2312
01:40:44,629 --> 01:40:41,219
had on summer in the skies

2313
01:40:47,030 --> 01:40:44,639

um loved it loved it loved it loved it

2314

01:40:49,250 --> 01:40:47,040

um yeah so be sure to check that out in

2315

01:40:52,850 --> 01:40:49,260

just a couple hours it'll be dropping on

2316

01:40:55,729 --> 01:40:52,860

the Main feed Anarchy in the UFO uh we

2317

01:40:58,910 --> 01:40:55,739

talk all about the chaotic and and our

2318

01:41:00,410 --> 01:40:58,920

Geck and our Gekko there we go

2319

01:41:03,649 --> 01:41:00,420

anarchical

2320

01:41:06,290 --> 01:41:03,659

um nature of UFOs and kind of the role

2321

01:41:08,990 --> 01:41:06,300

that plays right now in in kind of

2322

01:41:12,890 --> 01:41:09,000

pushing against this official Dome of

2323

01:41:16,490 --> 01:41:12,900

UFOs this government-led investigation

2324

01:41:18,709 --> 01:41:16,500

National threat uh that were we're

2325

01:41:22,250 --> 01:41:18,719

living in right now and how UFOs don't

2326

01:41:24,169 --> 01:41:22,260

give up lying F about any of that

2327

01:41:25,610 --> 01:41:24,179

um so it kind of kind of back to the

2328

01:41:26,570 --> 01:41:25,620

roots of somewhere in the skies talking

2329

01:41:27,110 --> 01:41:26,580

about

2330

01:41:29,149 --> 01:41:27,120

um

2331

01:41:31,850 --> 01:41:29,159

you know what UFOs could be and

2332

01:41:34,010 --> 01:41:31,860

represent and um we did a lot of thought

2333

01:41:36,169 --> 01:41:34,020

experiments in this episode and I

2334

01:41:38,750 --> 01:41:36,179

absolutely loved it loved it loved it

2335

01:41:40,310 --> 01:41:38,760

and I hope you will too again that

2336

01:41:42,350 --> 01:41:40,320

episode will be dropping in just a

2337

01:41:45,350 --> 01:41:42,360

couple hours on the summer on this guy's

2338

01:41:47,870 --> 01:41:45,360

Main feed or you can watch and listen to

2339

01:41:49,810 --> 01:41:47,880

it right now on all of our subscriber

2340

01:41:52,370 --> 01:41:49,820

feeds uh that goes for Apple premium

2341

01:41:55,129 --> 01:41:52,380

patreon and YouTube members it's

2342

01:41:57,470 --> 01:41:55,139

available to watch or listen to right

2343

01:41:58,729 --> 01:41:57,480

now so definitely

2344

01:42:02,030 --> 01:41:58,739

um if you want to help support the show

2345

01:42:05,990 --> 01:42:02,040

those are three ways to do it or simply

2346

01:42:07,490 --> 01:42:06,000

like And subscribe Below guys uh and

2347

01:42:10,370 --> 01:42:07,500

last but not least coming up the

2348

01:42:12,109 --> 01:42:10,380

following week finally we have a new

2349

01:42:14,030 --> 01:42:12,119

episode of witness accounts that will be

2350

01:42:16,129 --> 01:42:14,040

airing I keep pushing this one back only

2351
01:42:17,750 --> 01:42:16,139
because we've been having incredible

2352
01:42:19,070 --> 01:42:17,760
interviews that I just want to get out

2353
01:42:21,229 --> 01:42:19,080
there

2354
01:42:23,570 --> 01:42:21,239
um but we also have incredible stories

2355
01:42:25,430 --> 01:42:23,580
from you the listeners that we will be

2356
01:42:28,209 --> 01:42:25,440
sharing in a new volume of witness

2357
01:42:30,890 --> 01:42:28,219
accounts coming to you volume 20 86

2358
01:42:32,390 --> 01:42:30,900
insane insane that we're up to 26

2359
01:42:32,930 --> 01:42:32,400
volumes

2360
01:42:34,970 --> 01:42:32,940
um

2361
01:42:38,390 --> 01:42:34,980
so yeah be on the lookout for that in

2362
01:42:40,609 --> 01:42:38,400
the very near future as well

2363
01:42:43,790 --> 01:42:40,619

um oh and the last thing I want to tell

2364

01:42:46,490 --> 01:42:43,800

you guys we have a new

2365

01:42:49,250 --> 01:42:46,500

um playlist right below

2366

01:42:51,229 --> 01:42:49,260

um on the YouTube channel of uh Clips

2367

01:42:54,290 --> 01:42:51,239

somewhere in this guy's Clips so I've

2368

01:42:56,030 --> 01:42:54,300

started going back into our um you know

2369

01:42:58,430 --> 01:42:56,040

our archives and finding some of the

2370

01:43:00,290 --> 01:42:58,440

most popular interviews we've done and

2371

01:43:02,930 --> 01:43:00,300

most compelling conversations we've had

2372

01:43:05,149 --> 01:43:02,940

with guests and putting like bite-sized

2373

01:43:06,709 --> 01:43:05,159

Clips on there for you guys

2374

01:43:09,050 --> 01:43:06,719

um you know that you can kind of just

2375

01:43:11,570 --> 01:43:09,060

enjoy at your leisure not have to go

2376

01:43:13,129 --> 01:43:11,580

through like a two-hour conversation

2377

01:43:15,169 --> 01:43:13,139

um so yeah that's a new playlist right

2378

01:43:16,669 --> 01:43:15,179

here on YouTube sits Clips

2379

01:43:19,250 --> 01:43:16,679

um you can find it right on the channel

2380

01:43:21,290 --> 01:43:19,260

so I hope you will check that out and in

2381

01:43:23,270 --> 01:43:21,300

every clip in the show notes I've put a

2382

01:43:24,530 --> 01:43:23,280

link to the full interview

2383

01:43:25,790 --> 01:43:24,540

um I've noticed a lot of people asking

2384

01:43:27,290 --> 01:43:25,800

where's the whole interview where's the

2385

01:43:30,290 --> 01:43:27,300

whole interview it's in the show notes

2386

01:43:32,930 --> 01:43:30,300

for all the clips so um check that out

2387

01:43:35,930 --> 01:43:32,940

uh Doug Sprague says rest that voice I

2388

01:43:36,790 --> 01:43:35,940

know man uh it's rough it's rough right

2389

01:43:39,830 --> 01:43:36,800

now

2390

01:43:43,790 --> 01:43:39,840

got some some virus or something going

2391

01:43:45,830 --> 01:43:43,800

through Scotland so I'm gonna go rest my

2392

01:43:47,990 --> 01:43:45,840

voice guys but I want to thank all of

2393

01:43:51,169 --> 01:43:48,000

you for joining me tonight for another

2394

01:43:54,109 --> 01:43:51,179

somewhere in the live stream

2395

01:43:58,129 --> 01:43:54,119

um oh I'm not as blurry I'm as pal as a

2396

01:44:00,050 --> 01:43:58,139

ghost though so I'm gonna go sleep get

2397

01:44:02,689 --> 01:44:00,060

some rest so I can be nice and uh

2398

01:44:04,129 --> 01:44:02,699

healthy for next week's live stream

2399

01:44:06,229 --> 01:44:04,139

um but thank you

2400

01:44:08,510 --> 01:44:06,239

thank you so much to everyone

2401
01:44:10,490 --> 01:44:08,520
um Michael Huntington I think just gave

2402
01:44:12,950 --> 01:44:10,500
us a Super Chat thank you so much buddy

2403
01:44:14,090 --> 01:44:12,960
truly truly appreciate the support as

2404
01:44:15,709 --> 01:44:14,100
always

2405
01:44:17,570 --> 01:44:15,719
um I'm dropping everything here sorry

2406
01:44:19,490 --> 01:44:17,580
for that loud noise

2407
01:44:22,310 --> 01:44:19,500
um thank you Michael truly truly do

2408
01:44:25,250 --> 01:44:22,320
appreciate it truly appreciate your

2409
01:44:27,169 --> 01:44:25,260
voice on UFO Twitter as well

2410
01:44:30,350 --> 01:44:27,179
always starting fights my man always

2411
01:44:32,930 --> 01:44:30,360
start in fights for a good reason

2412
01:44:34,310 --> 01:44:32,940
um that's it guys thank you thank you

2413
01:44:36,229 --> 01:44:34,320

for joining me

2414

01:44:38,510 --> 01:44:36,239

um as always your support truly means

2415

01:44:40,729 --> 01:44:38,520

the world to me and um I could not do

2416

01:44:43,609 --> 01:44:40,739

this without you so be on the lookout

2417

01:44:48,410 --> 01:44:43,619

for a new episode dropping in just a few

2418

01:44:50,689 --> 01:44:48,420

hours from now and uh I will see you

2419

01:44:53,390 --> 01:44:50,699

next week on somewhere in the live

2420

01:44:55,850 --> 01:44:53,400

stream and leave you with our motto as

2421

01:44:58,070 --> 01:44:55,860

always keep your feet on the ground but

2422

01:45:01,400 --> 01:44:58,080

never stop searching somewhere in the

2423

01:45:02,160 --> 01:45:01,410

skies have a great night take care

2424

01:45:05,510 --> 01:45:02,170

[Music]

2425

01:45:43,510 --> 01:45:07,780

foreign

2426

01:45:45,100 --> 01:45:43,520

[Music]
