[Music]

3
00:01:14,390 --> 00:00:35,620
thank you

4
00:01:14,400 --> 00:01:18,650
foreign

5
00:01:44,230 --> 00:01:33,030
[Music]

6
00:01:50,210 --> 00:01:47,330
they seem to defy the rules of physics

7
00:01:52,330 --> 00:01:50,220
hovering stopping on a dime moving at

8
00:01:55,069 --> 00:01:52,340
Hypersonic speeds

9
00:01:57,530 --> 00:01:55,079
splashed today the man in charge of

10
00:02:01,249 --> 00:01:57,540
investigating uaps said his office now

11
00:02:03,770 --> 00:02:01,259
has 650 reports more than half have a

12
00:02:06,649 --> 00:02:03,780
round or sphere shape possibly balloons

13
00:02:10,550 --> 00:02:06,659

typically white translucent or metallic

14

00:02:13,190 --> 00:02:10,560

observed at 10 to 30 000 feet so far no

15

00:02:15,530 --> 00:02:13,200

sign of alien involvement no credible

16

00:02:18,110 --> 00:02:15,540

evidence thus far of extraterrestrial

17

00:02:20,570 --> 00:02:18,120

activity Sean Kirkpatrick says this case

18

00:02:23,030 --> 00:02:20,580

remains unresolved a cylinder object

19

00:02:25,130 --> 00:02:23,040

spotted somewhere in the Middle East but

20

00:02:27,650 --> 00:02:25,140

this flying object with a tail he says

21

00:02:30,830 --> 00:02:27,660

turns out to be a plane this is the Heat

22

00:02:32,449 --> 00:02:30,840

Signature off of the engines of a

23

00:02:34,190 --> 00:02:32,459

commuter aircraft that happen to be

24

00:02:35,930 --> 00:02:34,200

flying in the vicinity are there

25

00:02:40,130 --> 00:02:35,940

capabilities that could be employed

26
00:02:42,050 --> 00:02:40,140
against us absolutely commissary is not

27
00:02:44,150 --> 00:02:42,060
waiting

28
00:02:47,560 --> 00:02:44,160
they are advancing and they're advancing

29
00:02:56,380 --> 00:02:54,330
[Music]

30
00:03:06,520 --> 00:02:56,390
[Applause]

31
00:03:06,530 --> 00:03:21,369
[Music]

32
00:03:21,379 --> 00:03:35,390
thank you

33
00:03:38,960 --> 00:03:37,130
there's nothing to hide there's nothing

34
00:03:44,210 --> 00:03:38,970
to hide at all

35
00:03:50,330 --> 00:03:47,149
what's up guys welcome to somewhere in

36
00:03:53,330 --> 00:03:50,340
the live stream we are back I am back

37
00:03:57,710 --> 00:03:53,340
home in Scotland finally after a month

38
00:04:01,009 --> 00:03:57,720

away from my home traveling like crazy

39

00:04:04,130 --> 00:04:01,019

oh it just feels so good to be in my own

40

00:04:06,530 --> 00:04:04,140

place again and sleep in my own bed and

41

00:04:08,690 --> 00:04:06,540

um and as many of you know I had some

42

00:04:10,369 --> 00:04:08,700

really weird trials and tribulations

43

00:04:11,809 --> 00:04:10,379

while I was away

44

00:04:13,429 --> 00:04:11,819

um but thank you to everyone for

45

00:04:15,770 --> 00:04:13,439

checking in on me

46

00:04:19,129 --> 00:04:15,780

um I had some some stuff happened with

47

00:04:22,129 --> 00:04:19,139

my my ears where I was almost 90 deaf

48

00:04:24,770 --> 00:04:22,139

for a little while it was a little scary

49

00:04:28,129 --> 00:04:24,780

um I even recorded and edited an entire

50

00:04:29,749 --> 00:04:28,139

episode of the podcast 90 deaf so that

51
00:04:32,390 --> 00:04:29,759
was really interesting you'll have to

52
00:04:35,270 --> 00:04:32,400
let me know how it sounded that was last

53
00:04:37,850 --> 00:04:35,280
week's episode but um enough of that we

54
00:04:40,670 --> 00:04:37,860
have so much to talk about the Senate

55
00:04:42,770 --> 00:04:40,680
UAP hearing happened this past week

56
00:04:44,870 --> 00:04:42,780
everyone has their own thoughts and

57
00:04:47,030 --> 00:04:44,880
opinions on how it went

58
00:04:48,950 --> 00:04:47,040
um but we also have some other awesome

59
00:04:51,409 --> 00:04:48,960
stories to cover tonight and I couldn't

60
00:04:55,249 --> 00:04:51,419
think of a better person to come on with

61
00:04:58,129 --> 00:04:55,259
me tonight my mystery co-host uh he has

62
00:05:00,710 --> 00:04:58,139
covered basically everything either

63
00:05:02,510 --> 00:05:00,720

directly or tangentially that we're

64

00:05:04,670 --> 00:05:02,520

going to be talking about tonight so

65

00:05:07,189 --> 00:05:04,680

let's not waste any more time let's

66

00:05:09,350 --> 00:05:07,199

bring in our mystery co-host for tonight

67

00:05:10,370 --> 00:05:09,360

on somewhere in the live stream The One

68

00:05:13,730 --> 00:05:10,380

and Only

69

00:05:16,370 --> 00:05:13,740

Micah Hanks welcome back brother good to

70

00:05:18,050 --> 00:05:16,380

be here Ryan actually uh welcome home

71

00:05:20,390 --> 00:05:18,060

it's good to see that you're back in uh

72

00:05:22,430 --> 00:05:20,400

the land of Lords and Loch Ness uh and

73

00:05:25,370 --> 00:05:22,440

it seems that your hearing has uh

74

00:05:29,330 --> 00:05:25,380

stabilized is that correct it is I would

75

00:05:32,210 --> 00:05:29,340

say I'm back up to about 60 so I will

76

00:05:35,629 --> 00:05:32,220

admit I'm listening to you right now on

77

00:05:38,390 --> 00:05:35,639

as high a volume as possible on my my

78

00:05:41,090 --> 00:05:38,400

earbuds here but um things are getting

79

00:05:43,430 --> 00:05:41,100

much better day by day slowly but surely

80

00:05:46,070 --> 00:05:43,440

so uh thanks man thank you for uh

81

00:05:48,110 --> 00:05:46,080

checking in on that what what do you say

82

00:05:50,689 --> 00:05:48,120

no listen actually hello that's no joke

83

00:05:53,330 --> 00:05:50,699

that's no joke I have uh struggled with

84

00:05:56,870 --> 00:05:53,340

uh hearing issues for most of my life

85

00:05:58,909 --> 00:05:56,880

when I was a child I I you know had uh a

86

00:06:01,070 --> 00:05:58,919

lot of those earaches but the scarring

87

00:06:03,050 --> 00:06:01,080

that actually resulted on my right

88

00:06:04,790 --> 00:06:03,060

eardrum has caused

89

00:06:05,930 --> 00:06:04,800

um permanent hearing loss in that ear

90

00:06:07,129 --> 00:06:05,940

not all

91

00:06:08,629 --> 00:06:07,139

um but I mean you know I'd say a

92

00:06:10,969 --> 00:06:08,639

percentage maybe 20 to 30 percent

93

00:06:13,310 --> 00:06:10,979

hearing loss in that earlier left ear is

94

00:06:14,749 --> 00:06:13,320

good to go but it's always you know been

95

00:06:16,129 --> 00:06:14,759

an issue I've had to kind of work around

96

00:06:18,050 --> 00:06:16,139

and everything and of course being a

97

00:06:19,909 --> 00:06:18,060

musician on the weekends when we got

98

00:06:21,830 --> 00:06:19,919

loud Pas and things you always got to be

99

00:06:23,570 --> 00:06:21,840

mindful of that stuff so but I I saw you

100

00:06:25,670 --> 00:06:23,580

were doing your very best Daredevil in

101
00:06:28,249 --> 00:06:25,680
Reverse you know he has super hearing

102
00:06:29,809 --> 00:06:28,259
but he's blind you had you know poor

103
00:06:32,809 --> 00:06:29,819
hearing for a few days and so you're

104
00:06:34,790 --> 00:06:32,819
using your super acute uhological Vision

105
00:06:37,309 --> 00:06:34,800
to be able to navigate New York while

106
00:06:39,529 --> 00:06:37,319
you were back here Stateside huh exactly

107
00:06:41,450 --> 00:06:39,539
man I was even staying in Hell's Kitchen

108
00:06:44,749 --> 00:06:41,460
I'm glad you caught that

109
00:06:47,090 --> 00:06:44,759
um I did feel like Daredevil in Reverse

110
00:06:49,730 --> 00:06:47,100
but um that's crazy I didn't know that

111
00:06:52,909 --> 00:06:49,740
about you I actually my right ear is

112
00:06:56,749 --> 00:06:52,919
permanently damaged as well so I'm I had

113
00:06:58,909 --> 00:06:56,759

about 30 hearing loss too that is eerily

114

00:07:01,189 --> 00:06:58,919

similar I can't believe it so well now

115

00:07:02,930 --> 00:07:01,199

we are truly Soul Brothers we are soul

116

00:07:04,490 --> 00:07:02,940

brothers we knew that already just from

117

00:07:06,830 --> 00:07:04,500

the way that we relate but we're gonna

118

00:07:08,390 --> 00:07:06,840

have to talk to Gary Nolan then and uh

119

00:07:10,969 --> 00:07:08,400

get Gary's perspective on if there's

120

00:07:12,770 --> 00:07:10,979

anything about you and I and and the the

121

00:07:15,409 --> 00:07:12,780

right ear you know I actually did have

122

00:07:18,050 --> 00:07:15,419

coffee with Gary recently digitally and

123

00:07:20,629 --> 00:07:18,060

on my podcast this week the Micah Hanks

124

00:07:22,790 --> 00:07:20,639

program that discussion with Dr Nolan

125

00:07:24,770 --> 00:07:22,800

man this is one for the books uh it's

126

00:07:26,450 --> 00:07:24,780

sure to be almost as good as that really

127

00:07:28,249 --> 00:07:26,460

incredible interview that Chrissy Newton

128

00:07:31,909 --> 00:07:28,259

did with him a while back which was my

129

00:07:33,890 --> 00:07:31,919

favorite uh single podcast of the entire

130

00:07:36,350 --> 00:07:33,900

year of 2022 but again it was great to

131

00:07:37,430 --> 00:07:36,360

finally catch up and talk with Gary it

132

00:07:38,809 --> 00:07:37,440

would be interesting to see what he

133

00:07:40,670 --> 00:07:38,819

might have to say about that and the

134

00:07:43,909 --> 00:07:40,680

continuity between those experiences you

135

00:07:46,969 --> 00:07:43,919

and I have had yep we might have some uh

136

00:07:48,770 --> 00:07:46,979

regressed memories that uh are going to

137

00:07:51,469 --> 00:07:48,780

come to the surface well you never know

138

00:07:52,909 --> 00:07:51,479

man uh well I'm very much looking

139

00:07:54,890 --> 00:07:52,919

forward to that interview you're right

140

00:07:57,350 --> 00:07:54,900

Chrissy knocked it out of the park over

141

00:08:00,290 --> 00:07:57,360

at rebelliously curious but I know your

142

00:08:01,850 --> 00:08:00,300

conversation will only continue that so

143

00:08:04,670 --> 00:08:01,860

um we'll definitely tease that at the

144

00:08:08,210 --> 00:08:04,680

end of this live stream but hey let's

145

00:08:11,270 --> 00:08:08,220

talk about the meat on the bone of

146

00:08:14,390 --> 00:08:11,280

tonight's live stream and that is the

147

00:08:17,450 --> 00:08:14,400

Senate UAP hearing

148

00:08:20,150 --> 00:08:17,460

um I was in New York when this happened

149

00:08:23,330 --> 00:08:20,160

I I remember live streaming it there

150

00:08:24,950 --> 00:08:23,340

were about 45 minutes late starting so I

151
00:08:27,409 --> 00:08:24,960
kind of had to make do with my live

152
00:08:29,150 --> 00:08:27,419
stream I did a little dancing to keep

153
00:08:31,189 --> 00:08:29,160
people entertained

154
00:08:33,949 --> 00:08:31,199
um played some video clips but then

155
00:08:36,649 --> 00:08:33,959
finally boom it drops and Jilla brand

156
00:08:38,389 --> 00:08:36,659
just hit the ground running and uh we

157
00:08:42,070 --> 00:08:38,399
got to hear finally

158
00:08:45,710 --> 00:08:42,080
finally from the head of Arrow Dr Sean

159
00:08:47,570 --> 00:08:45,720
Kirkpatrick so I guess let's just start

160
00:08:49,190 --> 00:08:47,580
from the beginning what were your

161
00:08:52,190 --> 00:08:49,200
initial thoughts when you finally got to

162
00:08:54,410 --> 00:08:52,200
hear the voice of Sean Kirkpatrick and

163
00:08:56,389 --> 00:08:54,420

um how do you think it went from the the

164

00:08:59,329 --> 00:08:56,399

start of the hearing

165

00:09:01,250 --> 00:08:59,339

well you know I will speak to that point

166

00:09:04,850 --> 00:09:01,260

you know Dr Kirkpatrick has remained

167

00:09:07,009 --> 00:09:04,860

sort of in the shadows there had been of

168

00:09:09,769 --> 00:09:07,019

course last December one brief

169

00:09:13,009 --> 00:09:09,779

off-camera well press briefing that he

170

00:09:14,509 --> 00:09:13,019

and Ronald Moultrie provided about the

171

00:09:15,889 --> 00:09:14,519

current efforts of Arrow and this in

172

00:09:17,870 --> 00:09:15,899

advance of the release of that report

173

00:09:21,410 --> 00:09:17,880

now if you knew where to look online

174

00:09:22,790 --> 00:09:21,420

there were actually forums and uh you

175

00:09:25,009 --> 00:09:22,800

know other kinds of things that he had

176

00:09:27,590 --> 00:09:25,019

participated in from his past work with

177

00:09:29,570 --> 00:09:27,600

U.S spacecom and indeed uh Dr

178

00:09:31,730 --> 00:09:29,580

Kirkpatrick was very involved in that

179

00:09:34,370 --> 00:09:31,740

also there was uh following the

180

00:09:36,590 --> 00:09:34,380

announcement of His official uh position

181

00:09:38,509 --> 00:09:36,600

with the director of the alderman

182

00:09:39,949 --> 00:09:38,519

anomaly resolution offices resume

183

00:09:42,710 --> 00:09:39,959

appeared online and so a lot of people

184

00:09:44,570 --> 00:09:42,720

were aware of just how in the loop uh Dr

185

00:09:46,130 --> 00:09:44,580

Kirkpatrick is not only on the science

186

00:09:48,350 --> 00:09:46,140

side of all this but also the National

187

00:09:51,290 --> 00:09:48,360

Defense implications of what we're

188

00:09:53,389 --> 00:09:51,300

looking at so in terms of the the uh

189

00:09:54,590 --> 00:09:53,399

Senate hearing I mean this was an

190

00:09:56,810 --> 00:09:54,600

oversight hearing and a lot of people

191

00:09:58,430 --> 00:09:56,820

were kind of you know wondering what we

192

00:10:01,310 --> 00:09:58,440

might see out of this there was

193

00:10:03,470 --> 00:10:01,320

resounding shock wave of responses on

194

00:10:05,030 --> 00:10:03,480

social media seem to be discontent a lot

195

00:10:08,030 --> 00:10:05,040

of people were very disappointed a lot

196

00:10:09,410 --> 00:10:08,040

of people see Dr Kirkpatrick is a

197

00:10:11,030 --> 00:10:09,420

bureaucrat they feel like he's

198

00:10:13,190 --> 00:10:11,040

dismissive toward the topic some even

199

00:10:15,590 --> 00:10:13,200

were saying he seemed annoyed

200

00:10:18,829 --> 00:10:15,600

I disagree with all those things I was

201
00:10:21,949 --> 00:10:18,839
actually very pleasantly surprised here

202
00:10:25,190 --> 00:10:21,959
in very simple terms we have a scientist

203
00:10:27,650 --> 00:10:25,200
not making proclamations about what UAP

204
00:10:30,829 --> 00:10:27,660
are or are not not saying they are this

205
00:10:32,990 --> 00:10:30,839
or are that he's saying here's the data

206
00:10:35,389 --> 00:10:33,000
here's what we have learned so far we

207
00:10:37,370 --> 00:10:35,399
are very new at this and we're only

208
00:10:39,410 --> 00:10:37,380
beginning to get into this analysis we

209
00:10:41,630 --> 00:10:39,420
have about 650 some cases we're working

210
00:10:43,850 --> 00:10:41,640
with maybe a couple dozen we've actually

211
00:10:46,130 --> 00:10:43,860
worked through at this point not much

212
00:10:47,870 --> 00:10:46,140
currently within that small data set of

213
00:10:49,370 --> 00:10:47,880

those that we have looked at we don't

214

00:10:53,690 --> 00:10:49,380

see any overt evidence of anything

215

00:10:56,030 --> 00:10:53,700

exotic extraterrestrial or anomalous

216

00:10:57,290 --> 00:10:56,040

stream media left it right there okay

217

00:10:59,329 --> 00:10:57,300

well you know there's nothing to see

218

00:11:01,430 --> 00:10:59,339

here because we aren't seeing Dem aliens

219

00:11:03,530 --> 00:11:01,440

but I'm thinking to myself okay

220

00:11:05,090 --> 00:11:03,540

here we've got a guy who's a scientist

221

00:11:06,769 --> 00:11:05,100

Who's acting like one who's talking like

222

00:11:09,710 --> 00:11:06,779

one who's doing what scientists should

223

00:11:11,810 --> 00:11:09,720

do okay he's giving us data and he is

224

00:11:13,610 --> 00:11:11,820

saying fundamentally that rather than

225

00:11:14,930 --> 00:11:13,620

here's what I hope they are or what you

226

00:11:16,610 --> 00:11:14,940

guys are hoping they are what they

227

00:11:17,990 --> 00:11:16,620

should be or what I as a skeptic think

228

00:11:19,550 --> 00:11:18,000

they are no no he says I'm going to

229

00:11:21,290 --> 00:11:19,560

follow this wherever the science leads

230

00:11:22,550 --> 00:11:21,300

and we're going to see this through but

231

00:11:24,470 --> 00:11:22,560

right now and he said this and

232

00:11:25,790 --> 00:11:24,480

emphasized it to senator gillibrand who

233

00:11:27,410 --> 00:11:25,800

we've got to commend for bringing this

234

00:11:31,130 --> 00:11:27,420

all together again I remain a fan of

235

00:11:32,750 --> 00:11:31,140

Senator gillibrand but he said I hope

236

00:11:33,889 --> 00:11:32,760

you will give me time and understand if

237

00:11:34,670 --> 00:11:33,899

you don't hear from me for a little

238

00:11:36,889 --> 00:11:34,680

while

239

00:11:38,569 --> 00:11:36,899

we've got to deal with the issues that

240

00:11:40,310 --> 00:11:38,579

are of most pertinence to National

241

00:11:42,590 --> 00:11:40,320

Security First but we're going to follow

242

00:11:44,329 --> 00:11:42,600

this wherever the science leads

243

00:11:46,970 --> 00:11:44,339

that's basically in my view everything

244

00:11:49,730 --> 00:11:46,980

that really any serious proponent of the

245

00:11:51,769 --> 00:11:49,740

study the scientific study of UAP should

246

00:11:53,990 --> 00:11:51,779

hope for an official to be saying it's

247

00:11:56,090 --> 00:11:54,000

what we need frankly I think that rather

248

00:11:58,550 --> 00:11:56,100

than the death of ufology as it's been

249

00:12:00,769 --> 00:11:58,560

characterized by some online know what

250

00:12:02,449 --> 00:12:00,779

this is it's exactly what ufology needed

251

00:12:04,190 --> 00:12:02,459

and you know what if in the end it

252

00:12:07,430 --> 00:12:04,200

doesn't provide evidence of exotic

253

00:12:09,170 --> 00:12:07,440

Technologies E.T visiting from afar that

254

00:12:11,449 --> 00:12:09,180

doesn't matter we need we need to do

255

00:12:13,550 --> 00:12:11,459

what Dr Kirkpatrick is talking about

256

00:12:15,650 --> 00:12:13,560

follow the science see where this leads

257

00:12:17,449 --> 00:12:15,660

see what it determines who knows in that

258

00:12:19,069 --> 00:12:17,459

great scientific tradition we may

259

00:12:20,750 --> 00:12:19,079

actually learn something if we do and I

260

00:12:22,970 --> 00:12:20,760

say good on him I think he's a great

261

00:12:24,790 --> 00:12:22,980

addition and not only to government and

262

00:12:28,009 --> 00:12:24,800

National Security but also to the

263

00:12:29,810 --> 00:12:28,019

long-held concerns by the collective UAP

264

00:12:31,550 --> 00:12:29,820

Community what are these mysteries of

265

00:12:33,590 --> 00:12:31,560

our skies let's not lead with

266

00:12:34,610 --> 00:12:33,600

presumptions let's actually look at the

267

00:12:37,430 --> 00:12:34,620

data

268

00:12:39,650 --> 00:12:37,440

absolutely Matt hey cheers to Sean

269

00:12:43,009 --> 00:12:39,660

Kirkpatrick well raise a drink for that

270

00:12:44,030 --> 00:12:43,019

for sure cheers man I you know

271

00:12:46,850 --> 00:12:44,040

um

272

00:12:50,449 --> 00:12:46,860

a lot of people were saying this is just

273

00:12:52,850 --> 00:12:50,459

this is so boring um he's saying exactly

274

00:12:55,430 --> 00:12:52,860

what the establishment wants him to say

275

00:12:57,710 --> 00:12:55,440

blah blah blah but I will say I was

276

00:13:00,170 --> 00:12:57,720

thoroughly impressed with how he handled

277

00:13:01,250 --> 00:13:00,180

this look like you said this is brand

278

00:13:02,870 --> 00:13:01,260

new

279

00:13:05,629 --> 00:13:02,880

um clearly

280

00:13:08,389 --> 00:13:05,639

clearly he didn't quote unquote want to

281

00:13:10,550 --> 00:13:08,399

be there doing this he wanted to be at

282

00:13:11,870 --> 00:13:10,560

the office doing the work he's been

283

00:13:14,870 --> 00:13:11,880

hired to do

284

00:13:16,970 --> 00:13:14,880

for what time he was given for the lack

285

00:13:18,889 --> 00:13:16,980

of resources he has we know gillibrand

286

00:13:21,170 --> 00:13:18,899

has been you know going up against

287

00:13:23,569 --> 00:13:21,180

everyone trying to get the budget for

288

00:13:26,210 --> 00:13:23,579

Arrow the budget they asked for the

289

00:13:28,430 --> 00:13:26,220

budget they deserve to do this work

290

00:13:30,949 --> 00:13:28,440

um Kirkpatrick was working with like

291

00:13:32,810 --> 00:13:30,959

three people when he first got hired to

292

00:13:35,329 --> 00:13:32,820

do this I know it's up to a few dozen

293

00:13:36,949 --> 00:13:35,339

now which is awesome like we're now

294

00:13:39,310 --> 00:13:36,959

moving forward with this which is great

295

00:13:42,590 --> 00:13:39,320

so you're right this wasn't so much okay

296

00:13:45,050 --> 00:13:42,600

here's them aliens here's um every case

297

00:13:47,930 --> 00:13:45,060

we're looking at it was kind of this is

298

00:13:50,449 --> 00:13:47,940

what arrow is going to be doing here's

299

00:13:52,310 --> 00:13:50,459

one or two things we've looked at one

300

00:13:55,190 --> 00:13:52,320

thing we've positive positively

301
00:13:57,350 --> 00:13:55,200
identified and one we're still uh

302
00:13:59,930 --> 00:13:57,360
unclear about and I do want to play that

303
00:14:01,910 --> 00:13:59,940
video we'll discuss the um the the

304
00:14:04,850 --> 00:14:01,920
Middle East video in just a little bit

305
00:14:07,370 --> 00:14:04,860
here but um I agree with everything you

306
00:14:10,370 --> 00:14:07,380
said I was very impressed with what he

307
00:14:12,650 --> 00:14:10,380
had to say how he had to say it and how

308
00:14:15,170 --> 00:14:12,660
accessible he made it like you said as a

309
00:14:19,129 --> 00:14:15,180
scientist it can be very uh I I would

310
00:14:21,710 --> 00:14:19,139
assume daunting to try to explain your

311
00:14:23,930 --> 00:14:21,720
methodology of what you're doing

312
00:14:26,090 --> 00:14:23,940
um for someone like uh the everyday

313
00:14:28,730 --> 00:14:26,100

person out there they're not going to

314

00:14:30,769 --> 00:14:28,740

understand you know the methodologies or

315

00:14:33,650 --> 00:14:30,779

the sensor systems in which they're

316

00:14:35,750 --> 00:14:33,660

they're using or how they prioritize

317

00:14:38,810 --> 00:14:35,760

cases this that this that

318

00:14:40,730 --> 00:14:38,820

um I thought he made it very digestible

319

00:14:43,490 --> 00:14:40,740

um I learned a hell of a lot during this

320

00:14:45,110 --> 00:14:43,500

about what era is going to be doing and

321

00:14:47,329 --> 00:14:45,120

um one of those things and I'd love to

322

00:14:50,090 --> 00:14:47,339

get your thoughts on this is we finally

323

00:14:52,370 --> 00:14:50,100

learned about the shapes and everything

324

00:14:54,769 --> 00:14:52,380

which was really cool

325

00:14:57,110 --> 00:14:54,779

um the the commonalities between shapes

326

00:14:59,930 --> 00:14:57,120

uh the maneuverabilities so I guess

327

00:15:02,509 --> 00:14:59,940

let's start there what did you think was

328

00:15:05,870 --> 00:15:02,519

what really stood out to you at the

329

00:15:07,250 --> 00:15:05,880

hearing that my friend yeah what you

330

00:15:08,509 --> 00:15:07,260

just mentioned stood out and I'm so glad

331

00:15:09,949 --> 00:15:08,519

you mentioned it because again you know

332

00:15:11,030 --> 00:15:09,959

there are a lot of folks out there and I

333

00:15:12,470 --> 00:15:11,040

don't want to sound like I'm attacking

334

00:15:13,550 --> 00:15:12,480

the community it's a community I'm a

335

00:15:16,189 --> 00:15:13,560

part of

336

00:15:19,370 --> 00:15:16,199

um I always try to maintain skepticism

337

00:15:21,769 --> 00:15:19,380

as my default position but I don't play

338

00:15:24,290 --> 00:15:21,779

by that kind of I guess you know

339

00:15:25,370 --> 00:15:24,300

Playbook of a lot of modern Skeptics

340

00:15:27,829 --> 00:15:25,380

where it's

341

00:15:30,290 --> 00:15:27,839

we always presume that something that

342

00:15:32,090 --> 00:15:30,300

seems extraordinary therefore is and

343

00:15:34,129 --> 00:15:32,100

therefore there's a simple explanation

344

00:15:36,650 --> 00:15:34,139

maybe even a mundane when we're always

345

00:15:39,410 --> 00:15:36,660

going to find at all costs some kind of

346

00:15:40,970 --> 00:15:39,420

mundane explanation no matter what the

347

00:15:42,949 --> 00:15:40,980

data might actually appear to indicate

348

00:15:44,930 --> 00:15:42,959

that's the issue the flawed logic I

349

00:15:47,810 --> 00:15:44,940

think that some Skeptics not all but

350

00:15:50,090 --> 00:15:47,820

some Skeptics do tend to lead with

351

00:15:52,430 --> 00:15:50,100

um there are very well maybe cases where

352

00:15:54,050 --> 00:15:52,440

a genuine anomaly emerges

353

00:15:56,030 --> 00:15:54,060

I think that there's a lot of faulty

354

00:15:57,889 --> 00:15:56,040

logic in terms of well if there's an

355

00:15:59,389 --> 00:15:57,899

anomaly then it's going to display these

356

00:16:00,889 --> 00:15:59,399

clear characteristics it's going to move

357

00:16:02,750 --> 00:16:00,899

really fast it's going to do things that

358

00:16:04,490 --> 00:16:02,760

seem magical and we haven't seen

359

00:16:05,689 --> 00:16:04,500

anything that's truly anomalous like

360

00:16:06,970 --> 00:16:05,699

that therefore none of these things are

361

00:16:09,110 --> 00:16:06,980

anomalies and I'm thinking to myself

362

00:16:10,730 --> 00:16:09,120

whoever said I mean yeah we've heard of

363

00:16:13,490 --> 00:16:10,740

course about the five observables and

364

00:16:15,470 --> 00:16:13,500

things like that but great okay apart

365

00:16:18,650 --> 00:16:15,480

from that whoever said that really

366

00:16:21,290 --> 00:16:18,660

something that is supposed to represent

367

00:16:24,410 --> 00:16:21,300

a potential for humankind and for the

368

00:16:26,629 --> 00:16:24,420

Sciences uh that could be groundbreaking

369

00:16:29,449 --> 00:16:26,639

whoever said that it necessarily has to

370

00:16:31,009 --> 00:16:29,459

be like magic that it has to act a

371

00:16:32,509 --> 00:16:31,019

certain way do certain things this is

372

00:16:34,129 --> 00:16:32,519

the big gripe I always have with Neil

373

00:16:36,590 --> 00:16:34,139

deGrasse Tyson and a lot of scientists

374

00:16:38,030 --> 00:16:36,600

they watch Hollywood films they see what

375

00:16:39,290 --> 00:16:38,040

alien spacecraft look like in those

376

00:16:41,629 --> 00:16:39,300

Hollywood films and then they say if

377

00:16:43,189 --> 00:16:41,639

alien spacecraft were visiting Earth we

378

00:16:44,569 --> 00:16:43,199

would know it no you don't you have no

379

00:16:46,670 --> 00:16:44,579

idea what they'd be like you only know

380

00:16:48,410 --> 00:16:46,680

what you've seen in films so I think

381

00:16:50,810 --> 00:16:48,420

that both the Skeptics and the Believers

382

00:16:52,069 --> 00:16:50,820

often come at this going look we know

383

00:16:53,930 --> 00:16:52,079

what this is or we know what it should

384

00:16:55,790 --> 00:16:53,940

behave like and it either is or isn't

385

00:16:57,710 --> 00:16:55,800

that we don't know any of those things

386

00:16:59,269 --> 00:16:57,720

we just need to look at the data and we

387

00:17:01,370 --> 00:16:59,279

need to try and be open-minded to it now

388

00:17:03,050 --> 00:17:01,380

that's what Dr Kirkpatrick's doing but

389

00:17:05,270 --> 00:17:03,060

he's also taking things a step further

390

00:17:07,250 --> 00:17:05,280

than the predecessor agency the UAP task

391

00:17:10,010 --> 00:17:07,260

force did here's how like you point out

392

00:17:12,110 --> 00:17:10,020

Ryan yes in that briefing slide that he

393

00:17:13,789 --> 00:17:12,120

showed during the session with senator

394

00:17:15,169 --> 00:17:13,799

gillibrand in addition to this footage

395

00:17:17,870 --> 00:17:15,179

he didn't have to show us footage of a

396

00:17:21,470 --> 00:17:17,880

UAP but he did but he's also showing us

397

00:17:22,789 --> 00:17:21,480

this slide right here and this one not

398

00:17:25,069 --> 00:17:22,799

only gives us the reported UAP

399

00:17:27,289 --> 00:17:25,079

morphology it also gives us a lot of

400

00:17:30,430 --> 00:17:27,299

characteristics altitudes it's giving us

401
00:17:32,930 --> 00:17:30,440
you know information about radiothermal

402
00:17:34,970 --> 00:17:32,940
propulsion or lack thereof and also hot

403
00:17:36,890 --> 00:17:34,980
spots where these things tend to appear

404
00:17:39,110 --> 00:17:36,900
around the world although and again

405
00:17:41,450 --> 00:17:39,120
rather than leading with biases and

406
00:17:43,250 --> 00:17:41,460
presumptions Dr Kirkpatrick is pointing

407
00:17:45,830 --> 00:17:43,260
out hey there are probably actually some

408
00:17:47,870 --> 00:17:45,840
issues with biases that emerge from

409
00:17:50,270 --> 00:17:47,880
these statistics for instance you a UAP

410
00:17:52,310 --> 00:17:50,280
showing up around certain hot spots

411
00:17:55,130 --> 00:17:52,320
that probably actually has to do with

412
00:17:57,230 --> 00:17:55,140
the locations where our sensors are more

413
00:17:59,090 --> 00:17:57,240

than the prevalence of UAP reports per

414

00:18:00,409 --> 00:17:59,100

se the altitudes that we see over here

415

00:18:02,090 --> 00:18:00,419

on the left side of the screen where the

416

00:18:03,169 --> 00:18:02,100

bars are the highest there well of

417

00:18:04,610 --> 00:18:03,179

course that's the altitude that most

418

00:18:06,230 --> 00:18:04,620

aircraft operate

419

00:18:07,430 --> 00:18:06,240

right the thing that's so important

420

00:18:08,690 --> 00:18:07,440

about everything we're seeing on the

421

00:18:10,430 --> 00:18:08,700

screen right now is that all this

422

00:18:13,970 --> 00:18:10,440

information is what previously was

423

00:18:17,930 --> 00:18:13,980

omitted from the public odni reports in

424

00:18:20,810 --> 00:18:17,940

2021 and 2022 but more specifically in a

425

00:18:22,730 --> 00:18:20,820

classified version of the 2021 report

426
00:18:25,310 --> 00:18:22,740
that was obtained by researcher John

427
00:18:27,950 --> 00:18:25,320
Greenwald Jr using a mandatory

428
00:18:29,450 --> 00:18:27,960
declassification review and you and I

429
00:18:32,270 --> 00:18:29,460
both talked with John at length about

430
00:18:34,430 --> 00:18:32,280
that report this information was

431
00:18:37,490 --> 00:18:34,440
conveyed but redacted in that version of

432
00:18:39,710 --> 00:18:37,500
the report there was an entire uh

433
00:18:43,130 --> 00:18:39,720
um portion in the back a appendix of the

434
00:18:44,450 --> 00:18:43,140
2021 report that discussed the shapes uh

435
00:18:47,570 --> 00:18:44,460
you know Common shapes and appearance of

436
00:18:49,190 --> 00:18:47,580
UAV now the title of that apparent chart

437
00:18:50,750 --> 00:18:49,200
that appeared on that page was left but

438
00:18:52,909 --> 00:18:50,760

it redacted all that you know why that

439

00:18:55,549 --> 00:18:52,919

was redacted Ryan because there have

440

00:18:57,529 --> 00:18:55,559

been a classification guide that had

441

00:18:59,690 --> 00:18:57,539

been written by the UAP task force

442

00:19:02,450 --> 00:18:59,700

leadership that classification guide

443

00:19:04,549 --> 00:19:02,460

also redacted but nonetheless a redacted

444

00:19:05,930 --> 00:19:04,559

version of it released through foia and

445

00:19:08,510 --> 00:19:05,940

I think it was Greenville Greenwald that

446

00:19:10,909 --> 00:19:08,520

got that also that UAP classification

447

00:19:13,789 --> 00:19:10,919

guide dictated what information was

448

00:19:16,010 --> 00:19:13,799

supposed to be removed so Dr Kirkpatrick

449

00:19:18,529 --> 00:19:16,020

is showing us this that means two things

450

00:19:20,750 --> 00:19:18,539

one that obviously he went through the

451
00:19:22,430 --> 00:19:20,760
necessary declassification process

452
00:19:24,230 --> 00:19:22,440
process to be able to get that released

453
00:19:25,909 --> 00:19:24,240
and did so and then included that

454
00:19:28,370 --> 00:19:25,919
information that was previously left out

455
00:19:30,770 --> 00:19:28,380
of the reports even the Declassified

456
00:19:32,990 --> 00:19:30,780
version of the classified version that

457
00:19:34,970 --> 00:19:33,000
went to government in 2021 Dr

458
00:19:36,650 --> 00:19:34,980
Kirkpatrick and arrow have Declassified

459
00:19:38,210 --> 00:19:36,660
that gone through the process they

460
00:19:39,409 --> 00:19:38,220
included that in their briefing slides

461
00:19:40,250 --> 00:19:39,419
that they showed us during the Senate

462
00:19:42,110 --> 00:19:40,260
hearing

463
00:19:43,610 --> 00:19:42,120

and that also means that in addition to

464

00:19:46,070 --> 00:19:43,620

trying to get this stuff Declassified

465

00:19:48,110 --> 00:19:46,080

and doing so they did so with the

466

00:19:50,270 --> 00:19:48,120

apparent purpose of showing it to the

467

00:19:52,610 --> 00:19:50,280

public now people are out there griping

468

00:19:54,890 --> 00:19:52,620

about arrow and Dr Kirkpatrick folks we

469

00:19:56,630 --> 00:19:54,900

are seeing more transparency about what

470

00:19:59,390 --> 00:19:56,640

the government is collecting about this

471

00:20:02,570 --> 00:19:59,400

phenomenon then the predecessor agency

472

00:20:04,190 --> 00:20:02,580

right some of whom and I've met some of

473

00:20:05,570 --> 00:20:04,200

those people you know I think I can say

474

00:20:07,549 --> 00:20:05,580

his name now since he's come out and

475

00:20:09,890 --> 00:20:07,559

he's appeared at alien con and given you

476
00:20:11,330 --> 00:20:09,900
know interviews but Jay Stratton Chrissy

477
00:20:13,610 --> 00:20:11,340
Newton and I sat and we spoke at length

478
00:20:14,870 --> 00:20:13,620
of J Stratton he is a fine guy we had a

479
00:20:16,730 --> 00:20:14,880
great conversation I have a lot of

480
00:20:19,610 --> 00:20:16,740
respect for Jay I also have met and

481
00:20:21,590 --> 00:20:19,620
spoken at length with Dr Travis Taylor

482
00:20:23,390 --> 00:20:21,600
um so I'm not faulting the UAP task

483
00:20:25,190 --> 00:20:23,400
force by any means having spoken with

484
00:20:27,110 --> 00:20:25,200
them and having what I feel is a pretty

485
00:20:29,450 --> 00:20:27,120
good feel for their take on this

486
00:20:30,950 --> 00:20:29,460
phenomenon what the issue represents to

487
00:20:32,150 --> 00:20:30,960
National Security and the importance of

488
00:20:33,049 --> 00:20:32,160

getting this information out to the

489

00:20:35,810 --> 00:20:33,059

public

490

00:20:38,029 --> 00:20:35,820

but it is still relevant to point out

491

00:20:40,250 --> 00:20:38,039

the arrow for all the issues people take

492

00:20:42,230 --> 00:20:40,260

with Dr Kirkpatrick his attitude you

493

00:20:44,330 --> 00:20:42,240

know how he conveys himself on camera

494

00:20:46,190 --> 00:20:44,340

everything that UFO Twitter was talking

495

00:20:48,710 --> 00:20:46,200

about the other day folks we're finally

496

00:20:50,750 --> 00:20:48,720

seeing more more transparency we're

497

00:20:52,010 --> 00:20:50,760

finally seeing more data we're finally

498

00:20:53,750 --> 00:20:52,020

seeing more relevant information

499

00:20:55,430 --> 00:20:53,760

probably than we have ever seen about

500

00:20:57,770 --> 00:20:55,440

the United States government and its

501
00:20:59,690 --> 00:20:57,780
collection of UAP information and that

502
00:21:01,909 --> 00:20:59,700
also being treated scientifically and

503
00:21:04,130 --> 00:21:01,919
discussed in an open Forum a senate

504
00:21:06,230 --> 00:21:04,140
hearing what is to complain about you

505
00:21:08,270 --> 00:21:06,240
finally get what you've been wanting and

506
00:21:09,529 --> 00:21:08,280
everybody's angry I don't get it I mean

507
00:21:11,690 --> 00:21:09,539
this is maybe some of the best

508
00:21:12,770 --> 00:21:11,700
information we have seen probably in

509
00:21:15,890 --> 00:21:12,780
decades

510
00:21:17,990 --> 00:21:15,900
yeah well and there's a couple issues I

511
00:21:20,330 --> 00:21:18,000
want to bring up with you in terms of

512
00:21:23,210 --> 00:21:20,340
some of the very vocal people in the UFO

513
00:21:25,250 --> 00:21:23,220

field who you know before this hearing

514

00:21:28,430 --> 00:21:25,260

would say things like if they don't

515

00:21:31,310 --> 00:21:28,440

bring up crash retrievals and

516

00:21:34,310 --> 00:21:31,320

ET bodies then we know they're lying

517

00:21:36,289 --> 00:21:34,320

because we know for a fact that they

518

00:21:39,049 --> 00:21:36,299

that Kirkpatrick is aware of these

519

00:21:40,970 --> 00:21:39,059

things and and this and that and

520

00:21:45,230 --> 00:21:40,980

um if he does not bring up the ET

521

00:21:47,510 --> 00:21:45,240

presence then this is all a sham um I

522

00:21:50,930 --> 00:21:47,520

take huge issue with that as I'm sure

523

00:21:53,090 --> 00:21:50,940

you do as well Micah um this matters a

524

00:21:56,750 --> 00:21:53,100

scientist this man is working on a new

525

00:21:58,370 --> 00:21:56,760

program this man does not have access to

526

00:22:01,789 --> 00:21:58,380

everything he wants that's something I

527

00:22:04,250 --> 00:22:01,799

want to ask you you know we heard that

528

00:22:07,070 --> 00:22:04,260

we heard Kirkpatrick talk about how he

529

00:22:10,010 --> 00:22:07,080

does not have the clearance that he

530

00:22:12,169 --> 00:22:10,020

needs to get the sufficient data to have

531

00:22:13,370 --> 00:22:12,179

a full data set on what arrow is doing

532

00:22:15,649 --> 00:22:13,380

at this point

533

00:22:16,370 --> 00:22:15,659

um I believe it was what he he called

534

00:22:19,370 --> 00:22:16,380

um

535

00:22:22,549 --> 00:22:19,380

it was at section 50 title

536

00:22:25,190 --> 00:22:22,559

um title 50 uh where most of the

537

00:22:27,169 --> 00:22:25,200

classified information is that he would

538

00:22:30,590 --> 00:22:27,179

need to investigate these things

539

00:22:32,870 --> 00:22:30,600

thoroughly um he does not have access to

540

00:22:35,450 --> 00:22:32,880

that and Jilla brand just said straight

541

00:22:37,789 --> 00:22:35,460

up do you need access to that and he's

542

00:22:39,350 --> 00:22:37,799

like yeah and she's like okay we'll work

543

00:22:42,289 --> 00:22:39,360

on that for you

544

00:22:44,570 --> 00:22:42,299

um what did you make of that whole issue

545

00:22:47,630 --> 00:22:44,580

with all of this that Kirkpatrick even

546

00:22:50,029 --> 00:22:47,640

Kirkpatrick not the public like we're

547

00:22:52,730 --> 00:22:50,039

working as UFO researchers independent

548

00:22:55,909 --> 00:22:52,740

UFO researchers with very limited data

549

00:22:57,890 --> 00:22:55,919

but even Kirkpatrick is working with

550

00:22:59,930 --> 00:22:57,900

limited data and not getting what he

551
00:23:02,390 --> 00:22:59,940
needs so what do you make about that

552
00:23:04,010 --> 00:23:02,400
whole issue with all of this yeah and

553
00:23:05,510 --> 00:23:04,020
that's a very important point one that

554
00:23:07,130 --> 00:23:05,520
again has been emphasized by my

555
00:23:08,570 --> 00:23:07,140
colleague Tim McMillan there at the

556
00:23:10,130 --> 00:23:08,580
debrief who may have also been tweeting

557
00:23:12,409 --> 00:23:10,140
about this but essentially we're talking

558
00:23:15,289 --> 00:23:12,419
about title 50 Authority and of course

559
00:23:18,049 --> 00:23:15,299
Dr Kirkpatrick complaining about you

560
00:23:21,110 --> 00:23:18,059
know the necessity of having that the

561
00:23:24,049 --> 00:23:21,120
issue with that is that without access

562
00:23:25,370 --> 00:23:24,059
to that information uh he is being left

563
00:23:27,110 --> 00:23:25,380

out of I mean I don't know about some

564

00:23:28,850 --> 00:23:27,120

estimates as much as maybe 80 percent of

565

00:23:32,270 --> 00:23:28,860

you know intelligence community

566

00:23:34,250 --> 00:23:32,280

uh information related to the topic uh

567

00:23:36,230 --> 00:23:34,260

probably a lot of that coming from you

568

00:23:38,510 --> 00:23:36,240

know a particular three-letter agency

569

00:23:41,390 --> 00:23:38,520

right that handles Central Intelligence

570

00:23:42,890 --> 00:23:41,400

for the United States of America so the

571

00:23:44,870 --> 00:23:42,900

important Point here is that Dr

572

00:23:45,770 --> 00:23:44,880

Kirkpatrick is explicitly saying you

573

00:23:46,850 --> 00:23:45,780

know I'm seeing people in the chat

574

00:23:48,350 --> 00:23:46,860

they're saying he's read into everything

575

00:23:51,049 --> 00:23:48,360

and therefore he should know all this

576

00:23:53,450 --> 00:23:51,059

stuff he explicitly said the other day

577

00:23:57,529 --> 00:23:53,460

that he is limited in terms of what he

578

00:24:01,070 --> 00:23:57,539

has access to and he is appealing to uh

579

00:24:03,950 --> 00:24:01,080

Janet Brandon thereby the Senate uh for

580

00:24:06,770 --> 00:24:03,960

additional accessibility to information

581

00:24:08,450 --> 00:24:06,780

now this is not a new problem okay it

582

00:24:10,850 --> 00:24:08,460

not only illustrates the limitations of

583

00:24:12,710 --> 00:24:10,860

what era was able to do but it also

584

00:24:13,610 --> 00:24:12,720

underscores an ongoing problem you may

585

00:24:15,169 --> 00:24:13,620

remember there was an excellent

586

00:24:19,430 --> 00:24:15,179

political article I think Brian Bender

587

00:24:21,590 --> 00:24:19,440

did probably back in 2020 and uh this

588

00:24:24,830 --> 00:24:21,600

had to do with the efforts at that time

589

00:24:26,750 --> 00:24:24,840

by the UAP task force and uh Chris

590

00:24:28,310 --> 00:24:26,760

Mellon had been quoted in Politico

591

00:24:29,690 --> 00:24:28,320

saying that members of the UAP Task

592

00:24:31,610 --> 00:24:29,700

Force at that point were saying they

593

00:24:34,070 --> 00:24:31,620

were being stiff-formed you remember

594

00:24:35,510 --> 00:24:34,080

that yep yeah they said that they were

595

00:24:37,970 --> 00:24:35,520

being stiff armed by members of the

596

00:24:40,850 --> 00:24:37,980

intelligence agency who yeah in that

597

00:24:43,250 --> 00:24:40,860

instance uh had reportedly not been

598

00:24:44,930 --> 00:24:43,260

fully compliant with requests by the UAP

599

00:24:46,250 --> 00:24:44,940

task force to get access to certain

600

00:24:48,830 --> 00:24:46,260

information

601
00:24:51,169 --> 00:24:48,840
so again what uh Dr Kirkpatrick is

602
00:24:52,610 --> 00:24:51,179
discussing there's an ongoing issue and

603
00:24:54,230 --> 00:24:52,620
it goes back much further even than

604
00:24:56,210 --> 00:24:54,240
recent years you know back in the 1980s

605
00:24:59,029 --> 00:24:56,220
there was an organization called the uh

606
00:25:02,330 --> 00:24:59,039
citizens against UFO secrecy or calls

607
00:25:04,909 --> 00:25:02,340
and they had filed a lawsuit against the

608
00:25:06,230 --> 00:25:04,919
CIA and also the National Security

609
00:25:08,270 --> 00:25:06,240
Agency and they were trying to get

610
00:25:10,549 --> 00:25:08,280
access through the foia process of

611
00:25:13,549 --> 00:25:10,559
course as civilians they were trying to

612
00:25:16,130 --> 00:25:13,559
get access to uh CIA information and NSA

613
00:25:17,570 --> 00:25:16,140

information about UAP incidentally Todd

614

00:25:19,970 --> 00:25:17,580

zekel I believe one of the members had

615

00:25:21,350 --> 00:25:19,980

actually been a former NSA employee but

616

00:25:23,930 --> 00:25:21,360

that notwithstanding they were trying to

617

00:25:26,029 --> 00:25:23,940

get access to foia and what ended up

618

00:25:27,470 --> 00:25:26,039

happening with the case of the CIA was

619

00:25:29,750 --> 00:25:27,480

that a lot of information first they

620

00:25:32,390 --> 00:25:29,760

denied they had any I believe but then

621

00:25:34,490 --> 00:25:32,400

it later came out through FBI

622

00:25:35,630 --> 00:25:34,500

documentation where the FBI said you

623

00:25:37,549 --> 00:25:35,640

know we have some stuff but we're gonna

624

00:25:40,070 --> 00:25:37,559

have to go to certain agencies the NSA

625

00:25:41,570 --> 00:25:40,080

the CIA and get you know permission from

626
00:25:43,430 --> 00:25:41,580
them to give you what we've been shown

627
00:25:45,230 --> 00:25:43,440
and therefore it revealed that those

628
00:25:47,510 --> 00:25:45,240
agencies had what they said they didn't

629
00:25:49,490 --> 00:25:47,520
so additional lawsuits were filed

630
00:25:52,010 --> 00:25:49,500
ultimately in the case of the CIA

631
00:25:53,810 --> 00:25:52,020
several documents actually were released

632
00:25:56,330 --> 00:25:53,820
a huge batch of documents were finally

633
00:25:57,769 --> 00:25:56,340
released the NSA it was a little more

634
00:26:00,649 --> 00:25:57,779
difficult to get access to that

635
00:26:03,950 --> 00:26:00,659
information and ultimately a judge had

636
00:26:05,930 --> 00:26:03,960
to rule uh in favor of the NSA saying

637
00:26:08,870 --> 00:26:05,940
that the public desire to know what the

638
00:26:10,490 --> 00:26:08,880

NSA had about UAP or UFOs as they were

639

00:26:13,250 --> 00:26:10,500

called in those days

640

00:26:15,230 --> 00:26:13,260

um was not outweighed by the potential

641

00:26:16,789 --> 00:26:15,240

impact on National Security that the

642

00:26:18,769 --> 00:26:16,799

release of that information would have

643

00:26:20,870 --> 00:26:18,779

and that's very significant because

644

00:26:22,730 --> 00:26:20,880

additional attempts over the decades to

645

00:26:24,649 --> 00:26:22,740

try and get NSA information about UAP

646

00:26:26,269 --> 00:26:24,659

have failed and again they've come back

647

00:26:27,830 --> 00:26:26,279

to saying actually any documents we had

648

00:26:31,549 --> 00:26:27,840

we no longer have they've been destroyed

649

00:26:34,730 --> 00:26:31,559

or whatever so there's long held concern

650

00:26:37,310 --> 00:26:34,740

about the level of secrecy within the

651
00:26:40,490 --> 00:26:37,320
intelligence Community what they

652
00:26:41,870 --> 00:26:40,500
exclusively want access to what is being

653
00:26:44,330 --> 00:26:41,880
currently apparently kept out of the

654
00:26:46,250 --> 00:26:44,340
hands of Dr Kirkpatrick and the ultimate

655
00:26:47,630 --> 00:26:46,260
anomaly resolution office and what

656
00:26:49,549 --> 00:26:47,640
researchers for years have tried to get

657
00:26:51,289 --> 00:26:49,559
access to information about and have

658
00:26:53,450 --> 00:26:51,299
only had limited success this is an

659
00:26:56,090 --> 00:26:53,460
ongoing problem and it comes down to one

660
00:26:59,390 --> 00:26:56,100
thing Ryan you know at what point is

661
00:27:01,070 --> 00:26:59,400
necessary secrecy unnecessary at what

662
00:27:02,990 --> 00:27:01,080
point do we get Beyond just protecting

663
00:27:04,850 --> 00:27:03,000

ways and means and sources and

664

00:27:06,470 --> 00:27:04,860

methods and we get over into the realm

665

00:27:08,930 --> 00:27:06,480

of understanding that there are certain

666

00:27:11,269 --> 00:27:08,940

topics related to this that the public

667

00:27:12,769 --> 00:27:11,279

does desire deserve to know about should

668

00:27:15,169 --> 00:27:12,779

know about information that should be

669

00:27:17,149 --> 00:27:15,179

made publicly accessible now again I'll

670

00:27:19,070 --> 00:27:17,159

go back to the UAP task force they had

671

00:27:22,130 --> 00:27:19,080

had their issues with this themselves

672

00:27:23,630 --> 00:27:22,140

but they perhaps in good faith I mean I

673

00:27:25,970 --> 00:27:23,640

presume that this wasn't good faith in

674

00:27:28,370 --> 00:27:25,980

the interest of National Security they

675

00:27:30,350 --> 00:27:28,380

had a classification guide that governed

676
00:27:32,390 --> 00:27:30,360
what information could be released and

677
00:27:33,470 --> 00:27:32,400
how it could be handled we didn't see a

678
00:27:34,549 --> 00:27:33,480
lot of stuff for a couple of years and

679
00:27:35,690 --> 00:27:34,559
then the other day while everybody's

680
00:27:37,970 --> 00:27:35,700
complaining a bunch of this information

681
00:27:39,049 --> 00:27:37,980
just came out courtesy of Dr Kirkpatrick

682
00:27:41,029 --> 00:27:39,059
who apparently went through that

683
00:27:43,850 --> 00:27:41,039
declassification process

684
00:27:45,649 --> 00:27:43,860
information that previously was being

685
00:27:46,909 --> 00:27:45,659
kept out of our hands and that we

686
00:27:49,210 --> 00:27:46,919
weren't made access you know given

687
00:27:52,789 --> 00:27:49,220
access to suddenly just became available

688
00:27:54,769 --> 00:27:52,799

somebody apparently realized okay this

689

00:27:58,130 --> 00:27:54,779

is no longer something that has to be

690

00:28:01,130 --> 00:27:58,140

held no out of public view how much more

691

00:28:02,930 --> 00:28:01,140

that's being withheld by the CIA by the

692

00:28:04,310 --> 00:28:02,940

NSA by anybody else in the intelligence

693

00:28:06,049 --> 00:28:04,320

Community National geospatial

694

00:28:07,789 --> 00:28:06,059

Intelligence I mean we can go on down

695

00:28:09,529 --> 00:28:07,799

the list how much more information is

696

00:28:11,029 --> 00:28:09,539

currently being withheld that perhaps on

697

00:28:13,130 --> 00:28:11,039

further review

698

00:28:14,810 --> 00:28:13,140

would not Gravelly impact National

699

00:28:16,850 --> 00:28:14,820

Security and could be released at very

700

00:28:18,830 --> 00:28:16,860

least it should be released or at least

701
00:28:20,930 --> 00:28:18,840
access title 50 Authority perhaps should

702
00:28:21,950 --> 00:28:20,940
be granted to Arrow that's not what

703
00:28:23,750 --> 00:28:21,960
we're seeing right now that's what all

704
00:28:25,430 --> 00:28:23,760
that means and that's the longer term

705
00:28:26,769 --> 00:28:25,440
problem we've been dealing with now for

706
00:28:29,750 --> 00:28:26,779
decades

707
00:28:33,409 --> 00:28:29,760
absolutely I mean and like you mentioned

708
00:28:35,830 --> 00:28:33,419
not even just with the UFO topic so um I

709
00:28:38,810 --> 00:28:35,840
I think I think this was kind of

710
00:28:41,570 --> 00:28:38,820
Kirkpatrick's way of saying to those

711
00:28:43,669 --> 00:28:41,580
agencies we're coming after you and you

712
00:28:45,590 --> 00:28:43,679
have to you have to do this well we'll

713
00:28:49,250 --> 00:28:45,600

see we'll see what happens with all of

714

00:28:51,590 --> 00:28:49,260

it but um I want to play the video that

715

00:28:53,570 --> 00:28:51,600

Kirkpatrick showed during this now he

716

00:28:57,350 --> 00:28:53,580

showed to one which they were able to

717

00:28:59,330 --> 00:28:57,360

positively identify as a a man-made

718

00:29:01,070 --> 00:28:59,340

aircraft but then we had this other one

719

00:29:02,930 --> 00:29:01,080

from the Middle East so I'm gonna go

720

00:29:05,450 --> 00:29:02,940

ahead and play that quick and then get

721

00:29:07,669 --> 00:29:05,460

your thoughts on that on the other side

722

00:29:10,010 --> 00:29:07,679

awesome

723

00:29:12,110 --> 00:29:10,020

you'll see it come through the top of

724

00:29:15,470 --> 00:29:12,120

the screen there it goes and then the

725

00:29:17,330 --> 00:29:15,480

camera will slew to follow it

726

00:29:19,610 --> 00:29:17,340

you'll see it pop in and out of the

727

00:29:22,130 --> 00:29:19,620

screw field of view there

728

00:29:23,870 --> 00:29:22,140

this is essentially all of the data we

729

00:29:26,930 --> 00:29:23,880

have associated with this event from

730

00:29:31,789 --> 00:29:28,970

it is going to be virtually impossible

731

00:29:34,130 --> 00:29:31,799

to fully identify that

732

00:29:36,350 --> 00:29:34,140

just based off of that video

733

00:29:39,950 --> 00:29:36,360

now what we can do and what we are doing

734

00:29:42,889 --> 00:29:39,960

is keeping that as part of that

735

00:29:45,769 --> 00:29:42,899

group of 52 percent

736

00:29:47,930 --> 00:29:45,779

to see what are the similarities what

737

00:29:49,970 --> 00:29:47,940

are the trends across all these do we

738

00:29:52,789 --> 00:29:49,980

see these in a particular distribution

739

00:29:55,370 --> 00:29:52,799

do they all behave the same or not

740

00:29:57,409 --> 00:29:55,380

as we get more data

741

00:30:01,610 --> 00:29:57,419

we will be able to go back and look at

742

00:30:07,730 --> 00:30:04,970

as we get more data and uh to anyone

743

00:30:09,710 --> 00:30:07,740

wondering no this is not the mosul or

744

00:30:11,750 --> 00:30:09,720

this is not the same event as Jeremy

745

00:30:13,490 --> 00:30:11,760

Corbell is brought forward he's been

746

00:30:15,289 --> 00:30:13,500

very vocal about that this is a

747

00:30:19,490 --> 00:30:15,299

different event I think they said it

748

00:30:21,830 --> 00:30:19,500

took place in two thousand nine perhaps

749

00:30:23,389 --> 00:30:21,840

um I yeah something like that I'd have

750

00:30:25,909 --> 00:30:23,399

to go back and watch the video um which

751
00:30:27,110 --> 00:30:25,919
was not the same as Jeremy corbell's but

752
00:30:30,830 --> 00:30:27,120
um what I think is interesting about

753
00:30:33,350 --> 00:30:30,840
this is we got to see you know what

754
00:30:36,289 --> 00:30:33,360
Kirkpatrick is able to do with very

755
00:30:38,630 --> 00:30:36,299
limited data it gets put somewhere and

756
00:30:42,409 --> 00:30:38,640
then when we do start to find similar

757
00:30:44,510 --> 00:30:42,419
shaped objects or maneuverabilities then

758
00:30:46,490 --> 00:30:44,520
we can go back to that one that we don't

759
00:30:48,230 --> 00:30:46,500
have the data for and say it's pretty

760
00:30:51,350 --> 00:30:48,240
similar it's moving kind of the same

761
00:30:52,310 --> 00:30:51,360
let's try to you know compare that to

762
00:30:54,409 --> 00:30:52,320
that

763
00:30:56,389 --> 00:30:54,419

um so I think again like this is what

764

00:30:57,830 --> 00:30:56,399

this is what he's working with very

765

00:30:59,870 --> 00:30:57,840

limited data

766

00:31:01,610 --> 00:30:59,880

um when these things are submitted and

767

00:31:03,830 --> 00:31:01,620

obviously

768

00:31:05,870 --> 00:31:03,840

um a lack of transparency

769

00:31:07,310 --> 00:31:05,880

um what I think is really cool and you

770

00:31:10,070 --> 00:31:07,320

know he mentioned this more towards the

771

00:31:13,130 --> 00:31:10,080

end of the hearing is

772

00:31:15,289 --> 00:31:13,140

um let's see here he has assembled a

773

00:31:18,169 --> 00:31:15,299

pair of teams in intelligence Community

774

00:31:20,590 --> 00:31:18,179

team and a science and technology team

775

00:31:22,669 --> 00:31:20,600

comprise comprised of Engineers

776

00:31:24,710 --> 00:31:22,679

physicists and others that are

777

00:31:27,409 --> 00:31:24,720

performing a competitive analysis of

778

00:31:30,289 --> 00:31:27,419

data arrow is collecting

779

00:31:32,870 --> 00:31:30,299

that's pretty cool you know it's not

780

00:31:35,990 --> 00:31:32,880

just you know the scientists over here

781

00:31:38,990 --> 00:31:36,000

or the the intelligence people over here

782

00:31:41,630 --> 00:31:39,000

they're working together and they're

783

00:31:43,669 --> 00:31:41,640

competitive like they all it's like

784

00:31:45,350 --> 00:31:43,679

trying to get the gold star to put up on

785

00:31:47,870 --> 00:31:45,360

the board in in elementary school

786

00:31:51,950 --> 00:31:47,880

whoever gets it gets the pizza party so

787

00:31:54,230 --> 00:31:51,960

I I love this idea of um competitive

788

00:31:55,130 --> 00:31:54,240

analysis in trying to understand these

789

00:31:57,950 --> 00:31:55,140

things

790

00:32:00,110 --> 00:31:57,960

um so yeah I guess let's rewind and uh

791

00:32:02,090 --> 00:32:00,120

what did you make of this section of the

792

00:32:04,130 --> 00:32:02,100

hearing when he showed the videos did

793

00:32:05,990 --> 00:32:04,140

this add anything you know to the

794

00:32:07,909 --> 00:32:06,000

optimistic side of what arrow is doing

795

00:32:09,230 --> 00:32:07,919

oh yeah I mean it certainly did it was

796

00:32:10,430 --> 00:32:09,240

better than the video that Scott Bray

797

00:32:12,889 --> 00:32:10,440

showed us during the Congressional

798

00:32:15,110 --> 00:32:12,899

hearings last year I don't think anybody

799

00:32:16,549 --> 00:32:15,120

really expected that Dr Kirkpatrick was

800

00:32:18,289 --> 00:32:16,559

going to sit there show us all the stuff

801
00:32:20,570 --> 00:32:18,299
that had been classified previously in

802
00:32:22,970 --> 00:32:20,580
the ODNR reports and give us what may be

803
00:32:24,529 --> 00:32:22,980
a better UFO video than any that we've

804
00:32:26,810 --> 00:32:24,539
seen since the three historic Navy

805
00:32:27,889 --> 00:32:26,820
videos were released now again there

806
00:32:29,870 --> 00:32:27,899
have been some down to Earth

807
00:32:31,549 --> 00:32:29,880
explanations offered Mick West has

808
00:32:33,950 --> 00:32:31,559
presented the idea of a winch aerostat

809
00:32:37,190 --> 00:32:33,960
small platform or some similar kind of a

810
00:32:39,470 --> 00:32:37,200
survey surveillance aerostat that might

811
00:32:41,810 --> 00:32:39,480
have been in use by the United States

812
00:32:44,269 --> 00:32:41,820
and Iraq at that time or in other

813
00:32:46,070 --> 00:32:44,279

locations and that's you know possibly a

814

00:32:48,289 --> 00:32:46,080

good suggestion I do think it's

815

00:32:50,210 --> 00:32:48,299

noteworthy that again the similarity of

816

00:32:52,430 --> 00:32:50,220

that object or the so-called metallic

817

00:32:54,289 --> 00:32:52,440

orb that we saw uh before the Senate the

818

00:32:56,330 --> 00:32:54,299

other day that Dr Kirkpatrick released

819

00:32:58,250 --> 00:32:56,340

as you pointed out it is similar in

820

00:33:00,110 --> 00:32:58,260

appearance to the object that was

821

00:33:01,789 --> 00:33:00,120

purportedly photographed over mosul that

822

00:33:03,350 --> 00:33:01,799

Jeremy Corbell released earlier this

823

00:33:05,810 --> 00:33:03,360

year as well

824

00:33:07,789 --> 00:33:05,820

um the issue with that that I take

825

00:33:10,669 --> 00:33:07,799

however is that if it were any kind of a

826

00:33:12,889 --> 00:33:10,679

really well-known technology that the US

827

00:33:14,570 --> 00:33:12,899

military would have been using

828

00:33:17,149 --> 00:33:14,580

um for instance like a tethered aerostat

829

00:33:18,950 --> 00:33:17,159

radar system and again what we're

830

00:33:21,169 --> 00:33:18,960

talking about here is basically a small

831

00:33:24,049 --> 00:33:21,179

inflatable blimp-like device usually

832

00:33:25,850 --> 00:33:24,059

Tethered to the ground and it has

833

00:33:27,169 --> 00:33:25,860

functional radar capabilities and it's

834

00:33:29,090 --> 00:33:27,179

used very much for that purpose now the

835

00:33:32,330 --> 00:33:29,100

whole thing is is that that also is a

836

00:33:35,450 --> 00:33:32,340

data collecting medium so if that's what

837

00:33:37,070 --> 00:33:35,460

the objects in these videos were I would

838

00:33:38,330 --> 00:33:37,080

imagine probably that there would have

839

00:33:39,950 --> 00:33:38,340
been data that could have been

840

00:33:41,450 --> 00:33:39,960
retrievable about the date and time that

841

00:33:44,149 --> 00:33:41,460
would have pretty clearly indicated the

842

00:33:46,310 --> 00:33:44,159
location of said arstat its position

843

00:33:47,690 --> 00:33:46,320
its use its function and other data it

844

00:33:49,789 --> 00:33:47,700
was collecting and that probably could

845

00:33:52,370 --> 00:33:49,799
be used to rule this out

846

00:33:54,289 --> 00:33:52,380
um to the contrary uh and I may be wrong

847

00:33:56,930 --> 00:33:54,299
about this but I mean just pushing back

848

00:33:59,570 --> 00:33:56,940
a little against that aerostat idea Dr

849

00:34:01,250 --> 00:33:59,580
Kirkpatrick said during the Senate uh

850

00:34:02,630 --> 00:34:01,260
discussion the other day that this video

851

00:34:04,250 --> 00:34:02,640

that we have of this object is

852

00:34:08,810 --> 00:34:04,260

essentially all that we have about this

853

00:34:10,550 --> 00:34:08,820

one so again to me it seems that if

854

00:34:12,649 --> 00:34:10,560

there were a very simple explanation and

855

00:34:14,450 --> 00:34:12,659

there very well may be one

856

00:34:16,010 --> 00:34:14,460

um and by the way to his credit Mick has

857

00:34:17,750 --> 00:34:16,020

not come out and said that's what this

858

00:34:19,430 --> 00:34:17,760

is It's solved he's merely put that

859

00:34:20,810 --> 00:34:19,440

forward as a as a you know likely

860

00:34:22,369 --> 00:34:20,820

proposition and I think that's a good

861

00:34:24,889 --> 00:34:22,379

one that's a very helpful

862

00:34:26,750 --> 00:34:24,899

um addition to this dialogue but I would

863

00:34:28,490 --> 00:34:26,760

imagine that due to the uses for those

864

00:34:29,810 --> 00:34:28,500

kinds of tethered era stats and the kind

865

00:34:31,970 --> 00:34:29,820

of data that often they're used to

866

00:34:33,409 --> 00:34:31,980

collect for surveillance purposes uh

867

00:34:35,510 --> 00:34:33,419

there would be data that we would we

868

00:34:37,310 --> 00:34:35,520

would be able to use to triangulate uh

869

00:34:39,050 --> 00:34:37,320

the time the location of the footage

870

00:34:40,730 --> 00:34:39,060

keep in mind that it were Electro or

871

00:34:42,889 --> 00:34:40,740

they were Electro Optical systems on

872

00:34:44,570 --> 00:34:42,899

board that Reaper drone that MQ-9 that

873

00:34:45,889 --> 00:34:44,580

captured this footage

874

00:34:47,570 --> 00:34:45,899

um I would think that we should be able

875

00:34:49,550 --> 00:34:47,580

to determine if it were aerostat used

876

00:34:52,369 --> 00:34:49,560

for surveillance if that were the case

877

00:34:54,409 --> 00:34:52,379

um maybe I'm wrong but what we do know

878

00:34:56,990 --> 00:34:54,419

is that Dr Kirkpatrick said that footage

879

00:34:58,849 --> 00:34:57,000

is essentially all we have when it comes

880

00:35:00,349 --> 00:34:58,859

to that incident all we know about that

881

00:35:01,609 --> 00:35:00,359

incident and the object that was filmed

882

00:35:04,790 --> 00:35:01,619

is essentially what we see in that

883

00:35:06,710 --> 00:35:04,800

footage and really I think that again we

884

00:35:07,910 --> 00:35:06,720

hear a lot these days about UAP

885

00:35:10,250 --> 00:35:07,920

following into the so-called low

886

00:35:12,770 --> 00:35:10,260

information nation's own I think that's

887

00:35:14,750 --> 00:35:12,780

something to keep in mind here too with

888

00:35:15,950 --> 00:35:14,760

so little to work with as a video of

889

00:35:18,290 --> 00:35:15,960

what looks like a little spherical

890

00:35:19,910 --> 00:35:18,300

object flying and obviously the Reaper

891

00:35:22,310 --> 00:35:19,920

drone is following it it's trying to

892

00:35:24,650 --> 00:35:22,320

observe this thing some have tried to

893

00:35:26,270 --> 00:35:24,660

suggest that the object moving or the

894

00:35:27,890 --> 00:35:26,280

appearance of movement could have

895

00:35:29,390 --> 00:35:27,900

actually come back down to that Parallax

896

00:35:31,370 --> 00:35:29,400

effect idea and that it was actually the

897

00:35:32,990 --> 00:35:31,380

movement of the Reaper drone again it

898

00:35:34,370 --> 00:35:33,000

seems pretty telling that the object was

899

00:35:36,410 --> 00:35:34,380

followed they attempted to track and

900

00:35:38,089 --> 00:35:36,420

film it they wondered you know what this

901
00:35:40,370 --> 00:35:38,099
object was this was something that was

902
00:35:41,750 --> 00:35:40,380
obviously of Interest we may never know

903
00:35:43,490 --> 00:35:41,760
what it is though because once again it

904
00:35:45,050 --> 00:35:43,500
falls into that low information Zone we

905
00:35:45,950 --> 00:35:45,060
don't have a whole lot of information to

906
00:35:48,230 --> 00:35:45,960
work with

907
00:35:50,990 --> 00:35:48,240
the problem though there is and we saw

908
00:35:52,250 --> 00:35:51,000
this recently about a similar video uh

909
00:35:53,690 --> 00:35:52,260
well it wasn't really similar but

910
00:35:56,390 --> 00:35:53,700
another interesting video that appeared

911
00:35:58,130 --> 00:35:56,400
online it appears to show a for lack of

912
00:36:01,069 --> 00:35:58,140
a better term a saucer-like object

913
00:36:03,770 --> 00:36:01,079

flying toward them passing by the

914

00:36:05,150 --> 00:36:03,780

cockpit of an aircraft now I have only

915

00:36:08,030 --> 00:36:05,160

begun to kind of look into this video

916

00:36:09,710 --> 00:36:08,040

there are conflicting stories about the

917

00:36:12,710 --> 00:36:09,720

provenance of the video some say that

918

00:36:14,450 --> 00:36:12,720

this Colombian model Valentina who is

919

00:36:16,550 --> 00:36:14,460

you know that she actually had filmed

920

00:36:17,810 --> 00:36:16,560

but then there's another story yeah

921

00:36:19,130 --> 00:36:17,820

again you know there's so much

922

00:36:22,010 --> 00:36:19,140

information that still needs to be

923

00:36:24,109 --> 00:36:22,020

followed up on and determined about this

924

00:36:25,490 --> 00:36:24,119

um but nonetheless the general response

925

00:36:27,349 --> 00:36:25,500

I've seen to this video and the reason I

926

00:36:29,510 --> 00:36:27,359

bring it up is twofold one people just

927

00:36:30,950 --> 00:36:29,520

ignore it well a lot of people on Tick

928

00:36:33,109 --> 00:36:30,960

Tock and social media they're going nuts

929

00:36:34,849 --> 00:36:33,119

and saying best UFO video ever but but

930

00:36:36,829 --> 00:36:34,859

again a lot of people who maybe would be

931

00:36:39,710 --> 00:36:36,839

capable of providing an intelligence and

932

00:36:40,910 --> 00:36:39,720

intelligent analysis of this

933

00:36:42,410 --> 00:36:40,920

um they just kind of look at it and go

934

00:36:44,030 --> 00:36:42,420

well you know it's probably a balloon

935

00:36:46,190 --> 00:36:44,040

and I don't any reason to look at it

936

00:36:47,569 --> 00:36:46,200

anymore deeply that or they just ignore

937

00:36:49,970 --> 00:36:47,579

it all together I mean a lot of my

938

00:36:51,050 --> 00:36:49,980

fellows and you know in the UFO

939

00:36:52,370 --> 00:36:51,060

community

940

00:36:53,390 --> 00:36:52,380

they just I mean I bring it up and

941

00:36:55,670 --> 00:36:53,400

they're kind of like yeah you know

942

00:36:57,349 --> 00:36:55,680

whatever or they haven't seen it at all

943

00:37:00,530 --> 00:36:57,359

and then I show it to them they say ah

944

00:37:02,870 --> 00:37:00,540

whatever uh again just a very brief uh

945

00:37:05,349 --> 00:37:02,880

look through the frames a frame by frame

946

00:37:08,089 --> 00:37:05,359

analysis appears to show the object

947

00:37:09,829 --> 00:37:08,099

moving through a cloud Bank in the

948

00:37:11,690 --> 00:37:09,839

distance which remains in the distance

949

00:37:13,670 --> 00:37:11,700

as the object appears to emerge from the

950

00:37:14,930 --> 00:37:13,680

cloud bank and move in the direction of

951
00:37:18,170 --> 00:37:14,940
the aircraft

952
00:37:19,430 --> 00:37:18,180
so again my first feeling actually had

953
00:37:22,190 --> 00:37:19,440
just been that this was probably some

954
00:37:23,270 --> 00:37:22,200
sort of a CGI manipulation all right I

955
00:37:24,770 --> 00:37:23,280
don't think we can say the same thing

956
00:37:26,450 --> 00:37:24,780
about the object filmed over the Middle

957
00:37:27,770 --> 00:37:26,460
East that Dr Kirkpatrick showed us that

958
00:37:29,810 --> 00:37:27,780
clearly seems to be an actual physical

959
00:37:31,670 --> 00:37:29,820
object but a very interesting point

960
00:37:33,770 --> 00:37:31,680
again that Midwest raised uh when he

961
00:37:35,870 --> 00:37:33,780
looked at the footage uh the you know

962
00:37:37,310 --> 00:37:35,880
the what was attributed to a Colombian

963
00:37:39,470 --> 00:37:37,320

model I think you discussed this a bit

964

00:37:40,790 --> 00:37:39,480

on your program too which has been all

965

00:37:43,430 --> 00:37:40,800

over the place on Tick Tock for anybody

966

00:37:45,950 --> 00:37:43,440

who wants to go look Mick uh pointed out

967

00:37:48,650 --> 00:37:45,960

significantly he said it appears mostly

968

00:37:50,990 --> 00:37:48,660

or most likely to be a balloon or a

969

00:37:53,750 --> 00:37:51,000

balloon-like object which I found coming

970

00:37:55,250 --> 00:37:53,760

from a computer coder of his you know of

971

00:37:56,990 --> 00:37:55,260

his Merit and knowledge I mean I thought

972

00:37:58,370 --> 00:37:57,000

that was interesting that he leads with

973

00:38:00,109 --> 00:37:58,380

the idea that it seems to be a physical

974

00:38:02,210 --> 00:38:00,119

object and it certainly looks like one

975

00:38:04,310 --> 00:38:02,220

it looks good it was mixed saying that

976
00:38:05,930 --> 00:38:04,320
actually that caused me to take a second

977
00:38:07,250 --> 00:38:05,940
look but again I saw a lot of others

978
00:38:09,109 --> 00:38:07,260
Mick didn't say this but a lot of people

979
00:38:11,030 --> 00:38:09,119
said ah you know the object's just being

980
00:38:12,410 --> 00:38:11,040
still it's just hovering and it's the

981
00:38:14,630 --> 00:38:12,420
plane that's moving that's what causes

982
00:38:16,490 --> 00:38:14,640
the appearance of motion well looking at

983
00:38:18,050 --> 00:38:16,500
the footage if it's a real object and I

984
00:38:19,730 --> 00:38:18,060
haven't ruled out I don't have the

985
00:38:20,870 --> 00:38:19,740
technical capabilities I don't know if

986
00:38:24,710 --> 00:38:20,880
anybody really does to really

987
00:38:26,810 --> 00:38:24,720
conclusively prove that it's not CGI but

988
00:38:28,190 --> 00:38:26,820

looking at the footage it does appear if

989

00:38:29,569 --> 00:38:28,200

it's a real object that it's moving in

990

00:38:30,829 --> 00:38:29,579

and out of that cloud bank and then

991

00:38:32,270 --> 00:38:30,839

extends out and then begins to move

992

00:38:34,609 --> 00:38:32,280

toward the aircraft

993

00:38:36,970 --> 00:38:34,619

accounting for compression artifacts

994

00:38:39,349 --> 00:38:36,980

that are known to occur with smartphones

995

00:38:40,550 --> 00:38:39,359

accounting for the obvious fact that if

996

00:38:42,290 --> 00:38:40,560

this object is moving toward the

997

00:38:43,790 --> 00:38:42,300

aircraft the aircraft's moving toward it

998

00:38:45,230 --> 00:38:43,800

also and so that closing of the distance

999

00:38:47,270 --> 00:38:45,240

with the two objects moving toward one

1000

00:38:48,710 --> 00:38:47,280

another superficially increases the

1001
00:38:51,109 --> 00:38:48,720
appearance of the speed that the object

1002
00:38:53,990 --> 00:38:51,119
is moving as it passes the aircraft

1003
00:38:55,550 --> 00:38:54,000
taking all that into account if if one

1004
00:38:56,630 --> 00:38:55,560
thing can be demonstrated about that I

1005
00:38:58,310 --> 00:38:56,640
think that it seems to be that there's

1006
00:38:59,870 --> 00:38:58,320
an object that does move in and out of a

1007
00:39:01,750 --> 00:38:59,880
cloud bank which demonstrates motion

1008
00:39:03,950 --> 00:39:01,760
that it's not just remaining stationary

1009
00:39:06,170 --> 00:39:03,960
that was interesting to me and again I

1010
00:39:07,670 --> 00:39:06,180
got to thank Mick West for even raising

1011
00:39:09,770 --> 00:39:07,680
the idea that there might just be a

1012
00:39:11,210 --> 00:39:09,780
balloon-like object which is again for

1013
00:39:12,589 --> 00:39:11,220

now what I classified as it's a

1014

00:39:15,290 --> 00:39:12,599

balloon-like object that appeared to be

1015

00:39:16,970 --> 00:39:15,300

demonstrating motion not unlike what we

1016

00:39:19,130 --> 00:39:16,980

see in the footage that Dr Kirkpatrick

1017

00:39:20,750 --> 00:39:19,140

displayed the other day so my point is

1018

00:39:22,250 --> 00:39:20,760

even though these fall into the low

1019

00:39:23,870 --> 00:39:22,260

information Zone we shouldn't

1020

00:39:25,190 --> 00:39:23,880

necessarily say oh well we'll never

1021

00:39:26,569 --> 00:39:25,200

figure it out so we just shouldn't look

1022

00:39:29,630 --> 00:39:26,579

at it it's probably just this or that

1023

00:39:32,450 --> 00:39:29,640

remember the late great Stanton Friedman

1024

00:39:34,250 --> 00:39:32,460

saying science by proclamation you know

1025

00:39:36,109 --> 00:39:34,260

that's not what you do you don't

1026

00:39:38,510 --> 00:39:36,119

Proclaim well this is what that is

1027

00:39:40,430 --> 00:39:38,520

therefore I I will not look at her or or

1028

00:39:42,650 --> 00:39:40,440

I will look at it you know it's

1029

00:39:45,349 --> 00:39:42,660

important or it's not based on what I

1030

00:39:48,470 --> 00:39:45,359

prejudge no the true scientific process

1031

00:39:50,630 --> 00:39:48,480

involves uh taking an unbiased approach

1032

00:39:53,750 --> 00:39:50,640

trying to see what information you can

1033

00:39:55,910 --> 00:39:53,760

glean actually looking at the data uh

1034

00:39:57,829 --> 00:39:55,920

being willing to go where the data takes

1035

00:40:00,290 --> 00:39:57,839

you and not letting it lead you where

1036

00:40:02,089 --> 00:40:00,300

you hope to go right those are important

1037

00:40:03,170 --> 00:40:02,099

tenets of the scientific method and I

1038

00:40:05,990 --> 00:40:03,180

think that again when we look at videos

1039

00:40:07,550 --> 00:40:06,000

like this they don't offer evidence of

1040

00:40:09,230 --> 00:40:07,560

the extraordinary but maybe they do

1041

00:40:10,970 --> 00:40:09,240

deserve a second or even a third look

1042

00:40:13,310 --> 00:40:10,980

even if they do fall into that low

1043

00:40:15,589 --> 00:40:13,320

information Zone and so again I'm glad

1044

00:40:17,810 --> 00:40:15,599

Dr Kirkpatrick put this out I'm glad

1045

00:40:19,790 --> 00:40:17,820

it's now out there in the in the open in

1046

00:40:21,589 --> 00:40:19,800

fact actually at the metabunk Forum the

1047

00:40:23,030 --> 00:40:21,599

other day or maybe even as recently as

1048

00:40:25,250 --> 00:40:23,040

today I see that they've actually done

1049

00:40:27,770 --> 00:40:25,260

an image stable stabilization did you

1050

00:40:31,010 --> 00:40:27,780

see this of the object over the Middle

1051
00:40:32,210 --> 00:40:31,020
East so now we have a better look uh

1052
00:40:35,089 --> 00:40:32,220
thanks to the stabilization that the

1053
00:40:36,589 --> 00:40:35,099
folks on the Forum did of this object as

1054
00:40:38,870 --> 00:40:36,599
it's passing over the Middle East we may

1055
00:40:41,270 --> 00:40:38,880
never know ultimately what that was but

1056
00:40:43,210 --> 00:40:41,280
it's an interesting piece of footage and

1057
00:40:46,010 --> 00:40:43,220
again it currently remains in the

1058
00:40:48,050 --> 00:40:46,020
unknowns in the unidentified camp for

1059
00:40:49,069 --> 00:40:48,060
arrows analysis which in itself is a bit

1060
00:40:52,370 --> 00:40:49,079
compelling

1061
00:40:54,950 --> 00:40:52,380
it is it is if it remains unexplained

1062
00:40:57,770 --> 00:40:54,960
that's what we love to hear

1063
00:41:00,770 --> 00:40:57,780

um when in reality we should love when

1064

00:41:02,329 --> 00:41:00,780

it is explained but hey you know again I

1065

00:41:04,490 --> 00:41:02,339

I don't lead with with any kind of

1066

00:41:05,870 --> 00:41:04,500

expectations I'm not trying to say it's

1067

00:41:08,089 --> 00:41:05,880

aliens I'm not trying to be too

1068

00:41:09,290 --> 00:41:08,099

skeptical I try to balance those things

1069

00:41:10,670 --> 00:41:09,300

very carefully you know Michael

1070

00:41:13,069 --> 00:41:10,680

Huntington our good friend who's there

1071

00:41:14,870 --> 00:41:13,079

in the the chat chumming in as well and

1072

00:41:16,970 --> 00:41:14,880

I think Mike's definitely somebody who

1073

00:41:19,430 --> 00:41:16,980

who rides that fence in just the right

1074

00:41:21,349 --> 00:41:19,440

way you've got to be skeptical you got

1075

00:41:22,670 --> 00:41:21,359

to challenge your own beliefs but but

1076

00:41:25,490 --> 00:41:22,680

you also need to challenge your

1077

00:41:27,050 --> 00:41:25,500

preconceptions and biases uh and I think

1078

00:41:29,270 --> 00:41:27,060

that what we've learned especially from

1079

00:41:30,710 --> 00:41:29,280

these hearings in recent days is that

1080

00:41:32,810 --> 00:41:30,720

I'm seeing all this chatter online

1081

00:41:35,329 --> 00:41:32,820

everybody should probably take a step

1082

00:41:36,710 --> 00:41:35,339

back breathe and think about what we're

1083

00:41:39,010 --> 00:41:36,720

seeing I think we've seen some really

1084

00:41:42,050 --> 00:41:39,020

important information in recent days

1085

00:41:43,790 --> 00:41:42,060

absolutely man and kind of you know the

1086

00:41:46,910 --> 00:41:43,800

last thing I want to touch on with the

1087

00:41:49,370 --> 00:41:46,920

hearing was the conversation about the

1088

00:41:52,190 --> 00:41:49,380

you know the Whistleblower legislation

1089

00:41:56,990 --> 00:41:52,200

that's been put into action uh but not

1090

00:41:59,630 --> 00:41:57,000

only that uh a a hub where people will

1091

00:42:01,670 --> 00:41:59,640

eventually be able to submit their

1092

00:42:03,349 --> 00:42:01,680

content to Arrow

1093

00:42:05,750 --> 00:42:03,359

um you know we've been waiting and

1094

00:42:08,089 --> 00:42:05,760

waiting for this to happen I mean I know

1095

00:42:10,250 --> 00:42:08,099

you and I know certain individuals who

1096

00:42:11,930 --> 00:42:10,260

were brought in front of Arrow to

1097

00:42:14,690 --> 00:42:11,940

testify

1098

00:42:16,010 --> 00:42:14,700

um and said that it went amazing I spoke

1099

00:42:18,290 --> 00:42:16,020

to

1100

00:42:20,690 --> 00:42:18,300

um a gentleman we had on the show a few

1101

00:42:22,970 --> 00:42:20,700

months back Mario Woods who had a very

1102

00:42:25,089 --> 00:42:22,980

dramatic UFO sighting over a nuclear

1103

00:42:28,010 --> 00:42:25,099

installation and he was on the phone

1104

00:42:30,589 --> 00:42:28,020

with members of arrow for over three and

1105

00:42:32,750 --> 00:42:30,599

a half hours which is incredible that

1106

00:42:35,450 --> 00:42:32,760

they would take that much time to hear

1107

00:42:38,089 --> 00:42:35,460

him out just his testimony no photos no

1108

00:42:40,849 --> 00:42:38,099

videos no documentation just to hear

1109

00:42:42,650 --> 00:42:40,859

them out um which which I think is great

1110

00:42:45,770 --> 00:42:42,660

that they're willing to do that um we

1111

00:42:47,930 --> 00:42:45,780

did hear that Kirkpatrick is you know

1112

00:42:52,310 --> 00:42:47,940

taking submissions

1113

00:42:55,310 --> 00:42:52,320

um however he submitted this to you know

1114

00:42:57,170 --> 00:42:55,320

the superiors that would eventually get

1115

00:42:59,329 --> 00:42:57,180

this thing going where people will be

1116

00:43:01,849 --> 00:42:59,339

able to submit their stuff to Arrow

1117

00:43:04,190 --> 00:43:01,859

um he submitted it before Christmas and

1118

00:43:05,450 --> 00:43:04,200

they've yet to do anything with it so I

1119

00:43:07,490 --> 00:43:05,460

think we have to keep that in mind too

1120

00:43:10,069 --> 00:43:07,500

this isn't Kirkpatrick being like Oh

1121

00:43:13,250 --> 00:43:10,079

yeah I'll just go whip up a website over

1122

00:43:14,270 --> 00:43:13,260

on Angel Fire where you can go submit

1123

00:43:16,609 --> 00:43:14,280

your stuff

1124

00:43:19,550 --> 00:43:16,619

um that you know that there needs to be

1125

00:43:21,770 --> 00:43:19,560

protocols and stuff for stuff like this

1126
00:43:24,109 --> 00:43:21,780
um so what did you make of that whole

1127
00:43:25,609 --> 00:43:24,119
part of this you know we're hearing that

1128
00:43:27,349 --> 00:43:25,619
Arrow will eventually become a place

1129
00:43:30,290 --> 00:43:27,359
where you can

1130
00:43:33,530 --> 00:43:30,300
um submit your content

1131
00:43:35,150 --> 00:43:33,540
um to be investigated possibly possibly

1132
00:43:37,190 --> 00:43:35,160
there's probably going to be a high

1133
00:43:39,290 --> 00:43:37,200
threshold of what they'll actually look

1134
00:43:40,730 --> 00:43:39,300
at but um yeah what'd you make of that

1135
00:43:42,470 --> 00:43:40,740
whole section of the hearing I found

1136
00:43:43,910 --> 00:43:42,480
that interesting yeah I found it

1137
00:43:46,250 --> 00:43:43,920
interesting too Ryan and you know again

1138
00:43:48,770 --> 00:43:46,260

it's it's hopeful we also know that

1139

00:43:50,329 --> 00:43:48,780

Arrow has already displayed I mean this

1140

00:43:53,270 --> 00:43:50,339

is always kind of part of what they

1141

00:43:55,550 --> 00:43:53,280

hoped to do Dr Kirkpatrick spoke fairly

1142

00:43:57,770 --> 00:43:55,560

at length about their science plan the

1143

00:43:59,750 --> 00:43:57,780

other day but uh you know in addition to

1144

00:44:01,910 --> 00:43:59,760

having kind of an online portal where

1145

00:44:04,010 --> 00:44:01,920

people could submit what they deem to be

1146

00:44:05,750 --> 00:44:04,020

reliable information about UAP that

1147

00:44:08,569 --> 00:44:05,760

might be of use to arrow and its

1148

00:44:10,609 --> 00:44:08,579

assessments I think that uh we also have

1149

00:44:13,550 --> 00:44:10,619

to take it into consideration you know

1150

00:44:16,190 --> 00:44:13,560

some recent past events that have uh

1151

00:44:18,470 --> 00:44:16,200

occurred for instance uh I think uh

1152

00:44:21,050 --> 00:44:18,480

right before he left Politico reporter

1153

00:44:22,790 --> 00:44:21,060

Brian Bender in one of his final maybe

1154

00:44:24,770 --> 00:44:22,800

actually his very last newsletter had

1155

00:44:27,170 --> 00:44:24,780

reported that Susan Goff had confirmed

1156

00:44:30,109 --> 00:44:27,180

that new york-based Enigma Labs was

1157

00:44:31,849 --> 00:44:30,119

going to be cooperating with arrow and

1158

00:44:33,950 --> 00:44:31,859

it seems pretty evident to me what the

1159

00:44:35,990 --> 00:44:33,960

nature of that will involve based on

1160

00:44:38,569 --> 00:44:36,000

what Dr Kirkpatrick said during his

1161

00:44:41,569 --> 00:44:38,579

testimony the other day they are looking

1162

00:44:43,730 --> 00:44:41,579

at trying to Liaison with Academia and

1163

00:44:45,950 --> 00:44:43,740

with you know the private sector and

1164

00:44:49,730 --> 00:44:45,960

also uh you know with other agencies

1165

00:44:52,550 --> 00:44:49,740

like NASA right uh in the reference to

1166

00:44:55,550 --> 00:44:52,560

try and collect as much data as possible

1167

00:44:57,109 --> 00:44:55,560

but uh they also for for instance we saw

1168

00:44:59,930 --> 00:44:57,119

this excellent paper that came out that

1169

00:45:02,390 --> 00:44:59,940

Dr Avi Loeb and Dr Kirkpatrick

1170

00:45:05,030 --> 00:45:02,400

co-authored uh physical constraints on

1171

00:45:06,829 --> 00:45:05,040

unidentified aerial phenomena and I had

1172

00:45:08,329 --> 00:45:06,839

uh Avion to talk about that the very

1173

00:45:10,069 --> 00:45:08,339

next day after the paper I think we're

1174

00:45:12,050 --> 00:45:10,079

still pre-print actually just shown up

1175

00:45:13,550 --> 00:45:12,060

online but the point is is that again

1176
00:45:15,230 --> 00:45:13,560
you know what arrow is demonstrating

1177
00:45:17,089 --> 00:45:15,240
with these kinds of activities is that

1178
00:45:19,990 --> 00:45:17,099
they are working toward

1179
00:45:23,089 --> 00:45:20,000
trying to create meaningful

1180
00:45:25,490 --> 00:45:23,099
scientific relationships that are

1181
00:45:28,910 --> 00:45:25,500
helping to facilitate the acquisition of

1182
00:45:31,370 --> 00:45:28,920
data that can thereby be used and then

1183
00:45:34,250 --> 00:45:31,380
can be presented in a you know

1184
00:45:36,109 --> 00:45:34,260
scientific I.E a paper or a study but in

1185
00:45:38,270 --> 00:45:36,119
a scientific format that undergoes peer

1186
00:45:40,370 --> 00:45:38,280
review and then can be made accessible

1187
00:45:41,569 --> 00:45:40,380
there's a whole lot more transparency

1188
00:45:43,550 --> 00:45:41,579

actually than I think a lot of people

1189

00:45:46,730 --> 00:45:43,560

expected I'm certainly surprised by what

1190

00:45:49,730 --> 00:45:46,740

I've seen so far and uh and and further

1191

00:45:51,589 --> 00:45:49,740

to that point yeah Dr Kirkpatrick saying

1192

00:45:54,829 --> 00:45:51,599

yes we want to have this this online

1193

00:45:57,290 --> 00:45:54,839

median through which we can directly

1194

00:45:59,450 --> 00:45:57,300

um you know obtain information data from

1195

00:46:01,010 --> 00:45:59,460

people who want to submit it to us I

1196

00:46:02,150 --> 00:46:01,020

think that's excellent I think we need

1197

00:46:03,650 --> 00:46:02,160

more of that we've also had a lot of

1198

00:46:04,970 --> 00:46:03,660

Civilian agencies over the decades

1199

00:46:07,609 --> 00:46:04,980

who've been doing that already the

1200

00:46:09,290 --> 00:46:07,619

National UFO Reporting Center up there

1201
00:46:11,270 --> 00:46:09,300
in Washington formerly operated by

1202
00:46:13,309 --> 00:46:11,280
Robert Gribble but I mean for the last

1203
00:46:16,430 --> 00:46:13,319
several decades since the early 90s it's

1204
00:46:17,990 --> 00:46:16,440
been operated by Peter Davenport who

1205
00:46:19,490 --> 00:46:18,000
just unfailingly is collected and

1206
00:46:21,589 --> 00:46:19,500
provided that data free to the public

1207
00:46:23,210 --> 00:46:21,599
right there at the new Fork website you

1208
00:46:25,250 --> 00:46:23,220
know we've also gotten our cap I mean

1209
00:46:26,809 --> 00:46:25,260
David marler's New National UFO

1210
00:46:28,309 --> 00:46:26,819
historical records Center which I went

1211
00:46:32,089 --> 00:46:28,319
went out and actually visited earlier

1212
00:46:35,630 --> 00:46:32,099
this year I hope maybe that these sorts

1213
00:46:37,490 --> 00:46:35,640

of Civilian resources are things that

1214

00:46:40,490 --> 00:46:37,500

Arrow will also look at as being

1215

00:46:43,309 --> 00:46:40,500

beneficial to their uh you know further

1216

00:46:46,609 --> 00:46:43,319

uh immersing themselves in information

1217

00:46:48,530 --> 00:46:46,619

and also processing that data and that

1218

00:46:50,870 --> 00:46:48,540

that data as Kirkpatrick seemed to

1219

00:46:53,089 --> 00:46:50,880

convey the other day will be presented

1220

00:46:55,130 --> 00:46:53,099

in a scientific uh you know Forum or

1221

00:46:56,630 --> 00:46:55,140

format it will undergo peer review and

1222

00:46:58,430 --> 00:46:56,640

be made available to what extent it can

1223

00:47:00,829 --> 00:46:58,440

be to the American people and to the

1224

00:47:02,569 --> 00:47:00,839

world because this stuff's important uh

1225

00:47:04,490 --> 00:47:02,579

so I was very glad to see that Ryan and

1226

00:47:05,990 --> 00:47:04,500

uh and it's another important component

1227

00:47:08,030 --> 00:47:06,000

I think now to The Whistleblower thing

1228

00:47:09,410 --> 00:47:08,040

you know I haven't spoken well yeah

1229

00:47:11,390 --> 00:47:09,420

actually I have spoken to a couple of

1230

00:47:13,010 --> 00:47:11,400

people like you mentioned uh who uh have

1231

00:47:14,809 --> 00:47:13,020

been pretty visible you know in the

1232

00:47:16,790 --> 00:47:14,819

community already but who have also been

1233

00:47:18,950 --> 00:47:16,800

approached by arrow and who have

1234

00:47:21,170 --> 00:47:18,960

provided uh testimony

1235

00:47:22,910 --> 00:47:21,180

um I saw Robert Hastings writing earlier

1236

00:47:25,250 --> 00:47:22,920

this year or late last year maybe but I

1237

00:47:27,609 --> 00:47:25,260

think it was earlier this year that he

1238

00:47:30,770 --> 00:47:27,619

had been contacted and basically asked

1239

00:47:32,569 --> 00:47:30,780

uh who the people he thinks uh Arrow

1240

00:47:35,030 --> 00:47:32,579

should reach out to and speak with would

1241

00:47:37,069 --> 00:47:35,040

be uh and and he provided a list of

1242

00:47:38,630 --> 00:47:37,079

recommendations

1243

00:47:40,309 --> 00:47:38,640

um and we know that Arrow has spoken to

1244

00:47:42,109 --> 00:47:40,319

some of those people mostly former

1245

00:47:44,569 --> 00:47:42,119

Personnel military personnel and

1246

00:47:47,210 --> 00:47:44,579

government and employees who witnessed

1247

00:47:49,970 --> 00:47:47,220

UAP incidents at strategic facilities

1248

00:47:51,290 --> 00:47:49,980

nuclear weapons sites things like that

1249

00:47:53,150 --> 00:47:51,300

um so I am glad that they're looking

1250

00:47:55,490 --> 00:47:53,160

into that I hope that that process

1251

00:47:57,410 --> 00:47:55,500

continues uh and that it doesn't you

1252

00:47:58,849 --> 00:47:57,420

know reach hurdles

1253

00:48:00,710 --> 00:47:58,859

um and I've spoken with a few other

1254

00:48:02,210 --> 00:48:00,720

people in Washington who have at least

1255

00:48:04,130 --> 00:48:02,220

some degree of awareness of how that

1256

00:48:05,870 --> 00:48:04,140

process is going and everything again at

1257

00:48:07,490 --> 00:48:05,880

the current moment sounds pretty

1258

00:48:10,190 --> 00:48:07,500

promising I guess we'll kind of wait and

1259

00:48:11,270 --> 00:48:10,200

see but I will point out finally one

1260

00:48:12,829 --> 00:48:11,280

thing that's kind of interesting that

1261

00:48:14,870 --> 00:48:12,839

some were pointing out on social media

1262

00:48:17,809 --> 00:48:14,880

the other day was that

1263

00:48:19,430 --> 00:48:17,819

um Dr Kirkpatrick has spoken to these

1264

00:48:21,710 --> 00:48:19,440

again presumably what we would call

1265

00:48:23,450 --> 00:48:21,720

whistleblowers and yet still says that

1266

00:48:24,530 --> 00:48:23,460

there's no evidence of anything exotic

1267

00:48:26,270 --> 00:48:24,540

and people are saying you know either

1268

00:48:28,430 --> 00:48:26,280

he's lying

1269

00:48:30,849 --> 00:48:28,440

or there just isn't any real information

1270

00:48:32,450 --> 00:48:30,859

that you know is evidential of

1271

00:48:33,950 --> 00:48:32,460

extraterrestrials you know we haven't

1272

00:48:35,150 --> 00:48:33,960

found the Roswell wreckage maybe there

1273

00:48:36,950 --> 00:48:35,160

never was any

1274

00:48:40,370 --> 00:48:36,960

again I want to emphasize to people

1275

00:48:43,730 --> 00:48:40,380

first what would constitute unequivocal

1276

00:48:45,349 --> 00:48:43,740

evidence of extraterrestrial technology

1277

00:48:47,210 --> 00:48:45,359

I mean for instance if we see something

1278

00:48:49,190 --> 00:48:47,220

strange that's moving what in what

1279

00:48:50,870 --> 00:48:49,200

appears to be orbit in space and then

1280

00:48:52,370 --> 00:48:50,880

suddenly it just changes Direction and

1281

00:48:53,809 --> 00:48:52,380

we're like that that doesn't seem to be

1282

00:48:58,010 --> 00:48:53,819

a satellite

1283

00:49:00,890 --> 00:48:58,020

do we say therefore aliens right I mean

1284

00:49:03,890 --> 00:49:00,900

to me that is once again a bias that's a

1285

00:49:05,690 --> 00:49:03,900

pre-judgment or a presumption the first

1286

00:49:07,670 --> 00:49:05,700

judgment should be okay we just saw what

1287

00:49:09,710 --> 00:49:07,680

appeared to be a technology passing

1288

00:49:12,470 --> 00:49:09,720

through low earth orbit and doing

1289

00:49:14,210 --> 00:49:12,480

seemingly anomalous things who on Earth

1290

00:49:15,710 --> 00:49:14,220

might have built that that should be the

1291

00:49:16,910 --> 00:49:15,720

first question because in the

1292

00:49:18,770 --> 00:49:16,920

furtherance of our understanding of

1293

00:49:20,210 --> 00:49:18,780

National Defense related issues we want

1294

00:49:23,030 --> 00:49:20,220

to know if our enemy has something like

1295

00:49:26,089 --> 00:49:23,040

that my gosh probably one of the most

1296

00:49:27,770 --> 00:49:26,099

important uh relevant sections of the

1297

00:49:30,290 --> 00:49:27,780

hearing of the day was Dr Kirkpatrick

1298

00:49:33,770 --> 00:49:30,300

being asked I think by uh representative

1299

00:49:36,050 --> 00:49:33,780

Joni Ernst about the um potential that

1300

00:49:39,230 --> 00:49:36,060

China or Russia may have demonstrated

1301
00:49:41,390 --> 00:49:39,240
capabilities uh that have been you know

1302
00:49:43,849 --> 00:49:41,400
the arrow now has information about his

1303
00:49:46,309 --> 00:49:43,859
evidence of UAP could some of these be

1304
00:49:48,530 --> 00:49:46,319
foreign technologies that point I think

1305
00:49:51,230 --> 00:49:48,540
you played it in the intro there where

1306
00:49:53,990 --> 00:49:51,240
Dr Kirkpatrick says the adversary is not

1307
00:49:55,790 --> 00:49:54,000
waiting they are progressing they're

1308
00:49:57,950 --> 00:49:55,800
doing things that maybe we don't do

1309
00:49:59,690 --> 00:49:57,960
they're willing to to put it in layman's

1310
00:50:01,849 --> 00:49:59,700
terms they're willing to take the noodle

1311
00:50:02,870 --> 00:50:01,859
and see if it's you know done or not

1312
00:50:05,270 --> 00:50:02,880
they're gonna throw it and see what

1313
00:50:07,069 --> 00:50:05,280

sticks on the wall okay whereas United

1314

00:50:08,450 --> 00:50:07,079

States government for whatever reason we

1315

00:50:09,589 --> 00:50:08,460

don't this is the very reason what he's

1316

00:50:12,230 --> 00:50:09,599

talking about right there is the very

1317

00:50:14,210 --> 00:50:12,240

reason why China's hypersonics

1318

00:50:16,130 --> 00:50:14,220

development exceeds current U.S

1319

00:50:17,809 --> 00:50:16,140

capabilities and why suddenly the US has

1320

00:50:19,190 --> 00:50:17,819

realized well you know we've got our

1321

00:50:20,630 --> 00:50:19,200

tails in the window we better get caught

1322

00:50:22,430 --> 00:50:20,640

up here because China's really

1323

00:50:24,650 --> 00:50:22,440

progressing with this stuff

1324

00:50:26,089 --> 00:50:24,660

this is what he's talking about and he's

1325

00:50:28,069 --> 00:50:26,099

not just you know pulling that out of

1326
00:50:29,630 --> 00:50:28,079
the air I mean Dr Kirkpatrick is drawing

1327
00:50:31,790 --> 00:50:29,640
on his experience as an intelligence

1328
00:50:33,950 --> 00:50:31,800
official his past work with U.S spacecom

1329
00:50:36,050 --> 00:50:33,960
you know his past work and intelligence

1330
00:50:38,390 --> 00:50:36,060
you know and here he is now working on

1331
00:50:39,950 --> 00:50:38,400
the UAP situation he says we've only

1332
00:50:43,069 --> 00:50:39,960
moved through a very small portion of

1333
00:50:44,690 --> 00:50:43,079
our 650 so uh you know objects data set

1334
00:50:46,490 --> 00:50:44,700
we're just really getting into this

1335
00:50:48,109 --> 00:50:46,500
historical review that Congress mandated

1336
00:50:51,589 --> 00:50:48,119
that we do that goes all the way back to

1337
00:50:53,329 --> 00:50:51,599
1945. so when people are saying he's

1338
00:50:55,370 --> 00:50:53,339

either lying

1339

00:50:57,710 --> 00:50:55,380

again the UFO proponents many just take

1340

00:50:59,630 --> 00:50:57,720

it as his lying or the Skeptics on the

1341

00:51:01,010 --> 00:50:59,640

other hand saying C no evidence of

1342

00:51:03,829 --> 00:51:01,020

aliens

1343

00:51:05,870 --> 00:51:03,839

it's awful early to be making those uh

1344

00:51:07,490 --> 00:51:05,880

proclamations we really should wait and

1345

00:51:09,230 --> 00:51:07,500

see what happens and just to that point

1346

00:51:10,910 --> 00:51:09,240

again I've illustrated a lot of things

1347

00:51:13,790 --> 00:51:10,920

the historical review that's going on

1348

00:51:16,010 --> 00:51:13,800

but let's also not forget about uh well

1349

00:51:17,750 --> 00:51:16,020

again of course the whistleblowers some

1350

00:51:19,549 --> 00:51:17,760

of that testimony once it's processed

1351

00:51:20,690 --> 00:51:19,559

once all the individuals that they

1352

00:51:22,849 --> 00:51:20,700

intend to interview have been

1353

00:51:24,530 --> 00:51:22,859

interviewed who knows if there's going

1354

00:51:26,030 --> 00:51:24,540

to be information about Legacy programs

1355

00:51:27,589 --> 00:51:26,040

and things like that that comes forward

1356

00:51:29,569 --> 00:51:27,599

and we really do learn some

1357

00:51:32,210 --> 00:51:29,579

extraordinary things in the years ahead

1358

00:51:33,829 --> 00:51:32,220

but let's also not forget that Dr

1359

00:51:36,950 --> 00:51:33,839

Kirkpatrick is saying let me take care

1360

00:51:39,470 --> 00:51:36,960

of National Security First okay those

1361

00:51:41,569 --> 00:51:39,480

things we deem most important but then

1362

00:51:43,670 --> 00:51:41,579

in the broader sum of all the data we're

1363

00:51:45,650 --> 00:51:43,680

collecting arrow is going to go where

1364

00:51:47,089 --> 00:51:45,660

the science leads and we will be

1365

00:51:48,589 --> 00:51:47,099

forthcoming with the public about that

1366

00:51:50,510 --> 00:51:48,599

that seems to be the mission and that to

1367

00:51:51,650 --> 00:51:50,520

me is very important final point because

1368

00:51:53,750 --> 00:51:51,660

I don't want to get too long in the

1369

00:51:56,870 --> 00:51:53,760

tooth here but I mean there had been

1370

00:51:58,370 --> 00:51:56,880

some in recent days saying you know

1371

00:52:00,049 --> 00:51:58,380

if there's no evidence of anything

1372

00:52:02,270 --> 00:52:00,059

anomalous if there's no clear evidence

1373

00:52:04,430 --> 00:52:02,280

of hyper acceleration and phenomenal

1374

00:52:06,829 --> 00:52:04,440

things happening then there's only one

1375

00:52:08,750 --> 00:52:06,839

real question why do we need an arrow

1376

00:52:11,569 --> 00:52:08,760

the reason why is exactly what Dr

1377

00:52:13,069 --> 00:52:11,579

Kirkpatrick said look at what our enemy

1378

00:52:15,230 --> 00:52:13,079

is doing look at what the adversaries

1379

00:52:17,210 --> 00:52:15,240

the U.S are capable of and how quickly

1380

00:52:19,250 --> 00:52:17,220

they're advancing and if those

1381

00:52:21,170 --> 00:52:19,260

advancements currently are what we're

1382

00:52:23,569 --> 00:52:21,180

calling at least a part a portion of our

1383

00:52:25,549 --> 00:52:23,579

data set we're calling them UAP those

1384

00:52:26,809 --> 00:52:25,559

need to be looked at if arrow is the

1385

00:52:30,130 --> 00:52:26,819

office that's looking into those

1386

00:52:33,589 --> 00:52:30,140

anomalies we need an arrow

1387

00:52:34,990 --> 00:52:33,599

absolutely well we need an arrow but at

1388

00:52:38,089 --> 00:52:35,000

the same time

1389

00:52:40,609 --> 00:52:38,099

Kirkpatrick was even the one to say what

1390

00:52:42,829 --> 00:52:40,619

we're doing right now is so there won't

1391

00:52:45,530 --> 00:52:42,839

need to be an arrow yes in the future

1392

00:52:48,049 --> 00:52:45,540

which I it took me a minute but I'm like

1393

00:52:52,510 --> 00:52:48,059

oh yeah that makes sense what they're

1394

00:52:55,670 --> 00:52:52,520

doing is what heats earned SCP once we

1395

00:52:58,010 --> 00:52:55,680

analyze identify resolve what this thing

1396

00:53:01,190 --> 00:52:58,020

is it then becomes someone else's

1397

00:53:04,970 --> 00:53:01,200

problem it either goes to the Navy or it

1398

00:53:07,790 --> 00:53:04,980

goes to the CIA or it goes to NASA you

1399

00:53:08,510 --> 00:53:07,800

know he said if we are to find any of

1400

00:53:12,109 --> 00:53:08,520

this

1401
00:53:15,470 --> 00:53:12,119
is possibly extraterrestrial we then

1402
00:53:18,049 --> 00:53:15,480
bring in NASA and we begin to work with

1403
00:53:19,190 --> 00:53:18,059
them they are the public face of what

1404
00:53:21,950 --> 00:53:19,200
presumably could be something

1405
00:53:24,049 --> 00:53:21,960
extraterrestrial it's not Arrow's job to

1406
00:53:25,790 --> 00:53:24,059
tell you there's aliens that's not what

1407
00:53:28,250 --> 00:53:25,800
we were hired to do that's not what this

1408
00:53:30,710 --> 00:53:28,260
program is about first and foremost it's

1409
00:53:32,990 --> 00:53:30,720
to identify and to make sure National

1410
00:53:35,569 --> 00:53:33,000
Security is where it needs to be it's

1411
00:53:37,970 --> 00:53:35,579
clearly not we have objects floating all

1412
00:53:41,270 --> 00:53:37,980
over the United States from China so

1413
00:53:43,730 --> 00:53:41,280

there's a problem an arrow is there to

1414

00:53:46,549 --> 00:53:43,740

mitigate that problem and help to try to

1415

00:53:48,770 --> 00:53:46,559

resolve it but for anyone to think that

1416

00:53:49,670 --> 00:53:48,780

Arrow was going to come out with

1417

00:53:55,609 --> 00:53:49,680

anything

1418

00:53:57,890 --> 00:53:55,619

hearing is um in my opinion like it's

1419

00:53:59,089 --> 00:53:57,900

utterly ridiculous to have made that

1420

00:54:01,130 --> 00:53:59,099

assumption

1421

00:54:05,270 --> 00:54:01,140

um that's not what this is about I'm

1422

00:54:07,730 --> 00:54:05,280

sorry it's just not guys I I I've been

1423

00:54:10,010 --> 00:54:07,740

skirting around that ever since you know

1424

00:54:13,490 --> 00:54:10,020

we heard that this hearing was gonna

1425

00:54:14,930 --> 00:54:13,500

happen we all knew that no crash

1426

00:54:16,309 --> 00:54:14,940

retrieval programs were going to be

1427

00:54:18,770 --> 00:54:16,319

talked about they weren't going to talk

1428

00:54:21,770 --> 00:54:18,780

about the dead aliens at Roswell we're

1429

00:54:23,569 --> 00:54:21,780

not there maybe maybe in the future we

1430

00:54:25,549 --> 00:54:23,579

will be like you said retroactively

1431

00:54:29,450 --> 00:54:25,559

they're going back to 40

1432

00:54:30,650 --> 00:54:29,460

um 45 even uh maybe something will

1433

00:54:32,930 --> 00:54:30,660

happen with the Whistleblower

1434

00:54:34,490 --> 00:54:32,940

legislation however right now where

1435

00:54:36,770 --> 00:54:34,500

Arrow stands

1436

00:54:39,650 --> 00:54:36,780

um like you said we have to wait and see

1437

00:54:42,230 --> 00:54:39,660

it's still the in its infancy

1438

00:54:44,990 --> 00:54:42,240

um and first and foremost National

1439

00:54:48,109 --> 00:54:45,000

Security comes first so very well said

1440

00:54:49,910 --> 00:54:48,119

and listen again it very well may be the

1441

00:54:52,309 --> 00:54:49,920

case that in the broader scope of

1442

00:54:53,930 --> 00:54:52,319

Arrow's Mission they do find evidence of

1443

00:54:56,089 --> 00:54:53,940

something anomalous and maybe they'll

1444

00:54:57,770 --> 00:54:56,099

come out and say you know what we didn't

1445

00:55:00,829 --> 00:54:57,780

expect to find this but we just looked

1446

00:55:02,450 --> 00:55:00,839

at it scientifically and uh we have

1447

00:55:04,190 --> 00:55:02,460

looked at this one instance this one

1448

00:55:05,750 --> 00:55:04,200

weird thing we found this one case from

1449

00:55:08,710 --> 00:55:05,760

2000 whatever

1450

00:55:12,109 --> 00:55:08,720

and man we can't find any other

1451

00:55:13,609 --> 00:55:12,119

explanatory model other than we see what

1452

00:55:15,170 --> 00:55:13,619

appears to be a spacecraft entering

1453

00:55:16,670 --> 00:55:15,180

Earth's atmosphere exiting Earth's

1454

00:55:19,130 --> 00:55:16,680

atmosphere and man we think it's alien

1455

00:55:20,930 --> 00:55:19,140

and and we got to report this to the

1456

00:55:22,430 --> 00:55:20,940

White House and to the American people I

1457

00:55:23,630 --> 00:55:22,440

mean here's what we think we have and

1458

00:55:27,049 --> 00:55:23,640

this is the best evidence we've ever

1459

00:55:28,609 --> 00:55:27,059

seen I mean it may we don't know but in

1460

00:55:30,470 --> 00:55:28,619

the eventual sense that kind of data

1461

00:55:32,150 --> 00:55:30,480

could come out of this and you know

1462

00:55:33,349 --> 00:55:32,160

again that's why I say folks wait and

1463

00:55:34,670 --> 00:55:33,359

see I know we hear a lot of that these

1464

00:55:36,109 --> 00:55:34,680

days wait and see big things coming

1465

00:55:37,790 --> 00:55:36,119

there's something around the corner it's

1466

00:55:39,650 --> 00:55:37,800

almost here folks just hold your breath

1467

00:55:41,690 --> 00:55:39,660

a little longer I don't buy all that

1468

00:55:43,730 --> 00:55:41,700

it's nonsense listen let's not get

1469

00:55:47,870 --> 00:55:43,740

Evangelical about things

1470

00:55:51,410 --> 00:55:47,880

but let's give Arrow time Arrow may not

1471

00:55:53,690 --> 00:55:51,420

be the UAP investigative organization

1472

00:55:56,390 --> 00:55:53,700

that the UAP Community wants but it may

1473

00:55:59,089 --> 00:55:56,400

be the one we need

1474

00:56:00,710 --> 00:55:59,099

boom I that's we're ending we're

1475

00:56:03,230 --> 00:56:00,720

wrapping up the UAP hearing with that

1476
00:56:05,270 --> 00:56:03,240
man that was a perfect way to put it um

1477
00:56:07,849 --> 00:56:05,280
before we move on to our next story

1478
00:56:10,730 --> 00:56:07,859
which is somewhat connected I do want to

1479
00:56:12,890 --> 00:56:10,740
play this very very brief clip um our

1480
00:56:15,410 --> 00:56:12,900
good buddy Dan Warren over at fifth

1481
00:56:17,870 --> 00:56:15,420
pillar of emphasis on Tick Tock actually

1482
00:56:19,309 --> 00:56:17,880
went to the hearing sat there you can

1483
00:56:20,390 --> 00:56:19,319
actually see him in the audience during

1484
00:56:22,370 --> 00:56:20,400
this

1485
00:56:25,609 --> 00:56:22,380
um and he got to speak to Senator

1486
00:56:26,930 --> 00:56:25,619
gillibrand directly after the hearing

1487
00:56:29,089 --> 00:56:26,940
um so I'm gonna go ahead and play that

1488
00:56:31,250 --> 00:56:29,099

clip very quickly and then we're going

1489

00:56:32,750 --> 00:56:31,260

to move on to our next uh story of the

1490

00:56:35,150 --> 00:56:32,760

day sound good

1491

00:56:36,829 --> 00:56:35,160

cool how did you think the hearing went

1492

00:56:39,349 --> 00:56:36,839

today I think the hearing was very

1493

00:56:41,870 --> 00:56:39,359

helpful um I thought Dr Kirkpatrick

1494

00:56:43,730 --> 00:56:41,880

clearly laid out the scientific approach

1495

00:56:45,589 --> 00:56:43,740

he's taking to all of the unidentified

1496

00:56:47,809 --> 00:56:45,599

area phenomena that he's had access to

1497

00:56:49,970 --> 00:56:47,819

he said he's had access to over 600

1498

00:56:51,950 --> 00:56:49,980

pieces of data whether it's video or

1499

00:56:53,750 --> 00:56:51,960

radar or heat sensor he's going to

1500

00:56:55,549 --> 00:56:53,760

analyze it through a scientific method

1501
00:56:57,049 --> 00:56:55,559
with two teams he talked about his

1502
00:56:59,569 --> 00:56:57,059
scientific team he talked about his

1503
00:57:01,069 --> 00:56:59,579
Intel oriented team and how they do a

1504
00:57:02,569 --> 00:57:01,079
thorough review and if they disagree

1505
00:57:04,730 --> 00:57:02,579
then they adjudicate it I thought that's

1506
00:57:07,130 --> 00:57:04,740
a great scientific method to actually

1507
00:57:09,410 --> 00:57:07,140
begin to identify this at the end of the

1508
00:57:11,809 --> 00:57:09,420
day if he's got 600 or so unidentified

1509
00:57:13,490 --> 00:57:11,819
AR phenomena he will bring it down to a

1510
00:57:15,790 --> 00:57:13,500
very small number of what is still

1511
00:57:18,170 --> 00:57:15,800
unknown

1512
00:57:20,690 --> 00:57:18,180
there we go guys there was Senator

1513
00:57:21,950 --> 00:57:20,700

gillibrand thank you again to Dan Warren

1514

00:57:24,230 --> 00:57:21,960

um for fighting the good fight getting

1515

00:57:27,410 --> 00:57:24,240

over there and doing his thing

1516

00:57:30,410 --> 00:57:27,420

um I thought the hearing was exactly

1517

00:57:31,970 --> 00:57:30,420

what we needed like Micah said so we're

1518

00:57:34,370 --> 00:57:31,980

gonna leave it there but we're gonna

1519

00:57:38,030 --> 00:57:34,380

move on to our next story here actually

1520

00:57:39,710 --> 00:57:38,040

that um happened just a couple days

1521

00:57:42,530 --> 00:57:39,720

after this

1522

00:57:46,069 --> 00:57:42,540

um so let me bring him back in there he

1523

00:57:48,250 --> 00:57:46,079

is Micah let's move on to this story

1524

00:57:50,690 --> 00:57:48,260

that you wrote over at the debrief

1525

00:57:53,270 --> 00:57:50,700

intelligence Community leaders meet at

1526
00:57:55,849 --> 00:57:53,280
Wright-Patterson for historic national

1527
00:57:58,970 --> 00:57:55,859
security briefing again this came days

1528
00:58:00,829 --> 00:57:58,980
after the UAP hearing um so let me read

1529
00:58:02,450 --> 00:58:00,839
this very quickly

1530
00:58:04,010 --> 00:58:02,460
um on Thursday leaders from across the

1531
00:58:06,470 --> 00:58:04,020
U.S intelligence Community began

1532
00:58:08,270 --> 00:58:06,480
arriving in Ohio for unprecedented

1533
00:58:10,670 --> 00:58:08,280
national security briefing at

1534
00:58:12,410 --> 00:58:10,680
Wright-Patterson Air Force Base for

1535
00:58:13,730 --> 00:58:12,420
those of you don't know Wright-Patterson

1536
00:58:17,930 --> 00:58:13,740
is

1537
00:58:19,730 --> 00:58:17,940
supposedly the wreckage from the Roswell

1538
00:58:23,510 --> 00:58:19,740

UFO crash went

1539

00:58:25,069 --> 00:58:23,520

um it has a very rich history with UFOs

1540

00:58:26,809 --> 00:58:25,079

um among those in attendance at the

1541

00:58:29,809 --> 00:58:26,819

Friday briefing are Director of National

1542

00:58:32,809 --> 00:58:29,819

Intelligence Avril Haynes CIA director

1543

00:58:35,329 --> 00:58:32,819

William Burns and general Paul nakasone

1544

00:58:38,450 --> 00:58:35,339

director of the National Security Agency

1545

00:58:40,309 --> 00:58:38,460

and Central Security Service Chief

1546

00:58:42,470 --> 00:58:40,319

several members of the House permanency

1547

00:58:45,770 --> 00:58:42,480

committee on intelligence many of whom

1548

00:58:46,789 --> 00:58:45,780

are arriving are also scheduled to

1549

00:58:47,450 --> 00:58:46,799

attend

1550

00:58:50,329 --> 00:58:47,460

um

1551

00:58:53,270 --> 00:58:50,339

let's see here I want to read just this

1552

00:58:55,309 --> 00:58:53,280

one last part here Micah other topics

1553

00:58:57,349 --> 00:58:55,319

receiving attention at the briefing will

1554

00:58:59,510 --> 00:58:57,359

be the Chinese spy balloon that passed

1555

00:59:01,609 --> 00:58:59,520

over the U.S as well as the ongoing

1556

00:59:03,349 --> 00:59:01,619

conflict in Ukraine Each of which have

1557

00:59:05,750 --> 00:59:03,359

been among the National Security matters

1558

00:59:08,569 --> 00:59:05,760

discussed in classified documents that

1559

00:59:10,789 --> 00:59:08,579

were recently leaked online

1560

00:59:14,030 --> 00:59:10,799

um by 21 year old Massachusetts Air

1561

00:59:17,089 --> 00:59:14,040

National Guard Airmen Jack Tech Sierra

1562

00:59:18,950 --> 00:59:17,099

who was arrested on April 13th on Monday

1563

00:59:21,589 --> 00:59:18,960

the Pentagon said that defense secretary

1564

00:59:23,930 --> 00:59:21,599

Lloyd Austin has tasked Ronald Moultrie

1565

00:59:26,630 --> 00:59:23,940

who we know from the Congressional

1566

00:59:29,030 --> 00:59:26,640

hearing on UAP under Secretary of

1567

00:59:33,170 --> 00:59:29,040

Defense to lead a comprehensive review

1568

00:59:35,870 --> 00:59:33,180

of DOD Security Programs policies and

1569

00:59:38,510 --> 00:59:35,880

procedures so unprecedented meeting

1570

00:59:41,089 --> 00:59:38,520

Micah um again this comes right on the

1571

00:59:44,569 --> 00:59:41,099

heels of the UAP hearing where clearly

1572

00:59:46,970 --> 00:59:44,579

we're seeing a huge gap in National

1573

00:59:50,089 --> 00:59:46,980

Security and the way the Department of

1574

00:59:52,849 --> 00:59:50,099

Defense is handling things in our skies

1575

00:59:55,609 --> 00:59:52,859

going undetected so a lot of people want

1576
00:59:57,890 --> 00:59:55,619
to know does this meeting happening at

1577
01:00:00,710 --> 00:59:57,900
Wright-Patterson have anything to do

1578
01:00:02,390 --> 01:00:00,720
with UAP I stated the other reasons for

1579
01:00:04,910 --> 01:00:02,400
the meeting but what do you think man

1580
01:00:08,210 --> 01:00:04,920
what does this story mean and should we

1581
01:00:10,190 --> 01:00:08,220
be talking about it on a UFO podcast you

1582
01:00:12,770 --> 01:00:10,200
know I'll give credit to Tim McMillan

1583
01:00:14,750 --> 01:00:12,780
for bringing it to my attention early on

1584
01:00:16,789 --> 01:00:14,760
Friday and I did the principal

1585
01:00:18,950 --> 01:00:16,799
authorship of the article there uh but

1586
01:00:19,789 --> 01:00:18,960
uh he and I got that out together that

1587
01:00:22,190 --> 01:00:19,799
said

1588
01:00:24,349 --> 01:00:22,200

um you know at that time I think it had

1589

01:00:27,349 --> 01:00:24,359

primarily only been really reported by

1590

01:00:30,470 --> 01:00:27,359

local Ohio news outlets and the rest of

1591

01:00:32,569 --> 01:00:30,480

the the media kind of latched on to this

1592

01:00:34,789 --> 01:00:32,579

um I found it very interesting I don't

1593

01:00:37,130 --> 01:00:34,799

suppose that there's necessarily any

1594

01:00:39,710 --> 01:00:37,140

kind of a connection all I can really

1595

01:00:42,530 --> 01:00:39,720

kind of say is that connection or not

1596

01:00:44,150 --> 01:00:42,540

I mean there are a lot of um interesting

1597

01:00:46,130 --> 01:00:44,160

developments going on right now now

1598

01:00:48,049 --> 01:00:46,140

again

1599

01:00:49,730 --> 01:00:48,059

specifically the fact that within one

1600

01:00:50,930 --> 01:00:49,740

week you know we have I mean all the

1601
01:00:52,730 --> 01:00:50,940
primary like you mentioned again

1602
01:00:55,670 --> 01:00:52,740
Director of National Intelligence Avril

1603
01:00:57,650 --> 01:00:55,680
Haynes CIA director William Burns uh

1604
01:00:59,870 --> 01:00:57,660
Paul mcason you know Director of

1605
01:01:01,970 --> 01:00:59,880
National Security Agency uh and uh

1606
01:01:04,190 --> 01:01:01,980
Central Security uh Service uh Chief I

1607
01:01:05,930 --> 01:01:04,200
believe but uh all that happening you

1608
01:01:07,370 --> 01:01:05,940
know at Wright-Patterson Air Force Base

1609
01:01:09,530 --> 01:01:07,380
within the same week that we had a

1610
01:01:11,030 --> 01:01:09,540
senate hearing on UAP it got a lot of

1611
01:01:13,490 --> 01:01:11,040
people wondering I don't suppose that

1612
01:01:15,230 --> 01:01:13,500
there is necessarily a connection but

1613
01:01:16,910 --> 01:01:15,240

you won't you know we shouldn't rule

1614

01:01:18,890 --> 01:01:16,920

anything out keeping in mind that right

1615

01:01:21,289 --> 01:01:18,900

Patterson Air Force Base it has this

1616

01:01:24,410 --> 01:01:21,299

historic importance with relation to the

1617

01:01:26,390 --> 01:01:24,420

UAP topic again Wright-Patterson Air

1618

01:01:28,250 --> 01:01:26,400

Force Base was essentially where the the

1619

01:01:32,150 --> 01:01:28,260

longest running systematic scientific

1620

01:01:33,470 --> 01:01:32,160

study by an in a military uh body U.S or

1621

01:01:35,030 --> 01:01:33,480

otherwise has ever been carried out

1622

01:01:37,549 --> 01:01:35,040

that's where that took place and that

1623

01:01:40,690 --> 01:01:37,559

was Project Blue Book which operated I

1624

01:01:44,030 --> 01:01:40,700

guess from mid to late maybe 1952 until

1625

01:01:46,010 --> 01:01:44,040

uh 1969 but I mean it had the two

1626

01:01:47,809 --> 01:01:46,020

predecessors too a project sign and

1627

01:01:49,430 --> 01:01:47,819

project Grudge

1628

01:01:51,829 --> 01:01:49,440

um and in fact Project Blue Book early

1629

01:01:53,510 --> 01:01:51,839

on if you read uh Edward J rupelt's book

1630

01:01:56,210 --> 01:01:53,520

the report on unidentified flying

1631

01:01:57,950 --> 01:01:56,220

objects he uh initially refers to

1632

01:02:00,470 --> 01:01:57,960

Project Blue Book as the new project

1633

01:02:02,270 --> 01:02:00,480

Grudge in that book

1634

01:02:03,410 --> 01:02:02,280

um but the point is is that that's kind

1635

01:02:05,089 --> 01:02:03,420

of the historic importance of

1636

01:02:07,370 --> 01:02:05,099

Wright-Patterson Air Force Base and it's

1637

01:02:09,430 --> 01:02:07,380

played into the mythology surrounding

1638

01:02:13,030 --> 01:02:09,440

the UFO subject pretty heavily

1639

01:02:15,470 --> 01:02:13,040

including the idea that wreckage from

1640

01:02:19,430 --> 01:02:15,480

Acquisitions maybe the likes of Roswell

1641

01:02:21,470 --> 01:02:19,440

might have been taken to write Pat again

1642

01:02:24,770 --> 01:02:21,480

you know that's stuff that to me

1643

01:02:26,510 --> 01:02:24,780

obviously there's some truth to uh these

1644

01:02:28,789 --> 01:02:26,520

historical matters in the broader

1645

01:02:31,789 --> 01:02:28,799

spectrum of ufology but I think there's

1646

01:02:33,950 --> 01:02:31,799

also a layer of mythologization that

1647

01:02:36,890 --> 01:02:33,960

kind of ends up being kind of piled onto

1648

01:02:39,710 --> 01:02:36,900

that and a possibly valid incident

1649

01:02:42,410 --> 01:02:39,720

involving possibly you know the recovery

1650

01:02:44,510 --> 01:02:42,420

of something of significance been a lot

1651

01:02:45,890 --> 01:02:44,520

of speculation about what Roswell

1652

01:02:47,270 --> 01:02:45,900

actually represented the official

1653

01:02:49,609 --> 01:02:47,280

explanation of course that we know is

1654

01:02:51,589 --> 01:02:49,619

the Mogul balloons but there have been

1655

01:02:52,910 --> 01:02:51,599

some you know some reasonable challenges

1656

01:02:53,809 --> 01:02:52,920

I think I think it's actually very fair

1657

01:02:55,190 --> 01:02:53,819

to say that there have been some

1658

01:02:56,990 --> 01:02:55,200

reasonable challenges to the Mogul

1659

01:02:58,789 --> 01:02:57,000

narrative that have been presented by

1660

01:03:01,010 --> 01:02:58,799

certain researchers like Brad Sparks

1661

01:03:02,930 --> 01:03:01,020

Kevin Randall and others

1662

01:03:04,789 --> 01:03:02,940

um and I myself just telling you that

1663

01:03:06,650 --> 01:03:04,799

I've gone through the uh reports there

1664

01:03:09,890 --> 01:03:06,660

were two actually in the 1990s that uh

1665

01:03:12,230 --> 01:03:09,900

the U.S Air Force uh released because at

1666

01:03:14,690 --> 01:03:12,240

that time widespread public interest uh

1667

01:03:16,490 --> 01:03:14,700

had prompted congressmen and women to

1668

01:03:17,990 --> 01:03:16,500

appeal to the Air Force and say you know

1669

01:03:19,430 --> 01:03:18,000

we want you to reinvestigate Roswell

1670

01:03:21,530 --> 01:03:19,440

tell us what you know

1671

01:03:24,109 --> 01:03:21,540

so there was that report that was put

1672

01:03:26,569 --> 01:03:24,119

out Roswell case closed I think John

1673

01:03:28,250 --> 01:03:26,579

Greenwald uh and I have said this in

1674

01:03:30,710 --> 01:03:28,260

agreement that uh

1675

01:03:33,230 --> 01:03:30,720

there are a lot of things in the report

1676
01:03:35,030 --> 01:03:33,240
that don't quite Jive you know there are

1677
01:03:36,230 --> 01:03:35,040
a lot of loose ends with things and it

1678
01:03:37,490 --> 01:03:36,240
just kind of seemed like the Air Force

1679
01:03:39,230 --> 01:03:37,500
was throwing everything that they could

1680
01:03:40,490 --> 01:03:39,240
at the story

1681
01:03:42,950 --> 01:03:40,500
um and fundamentally it comes down to

1682
01:03:44,270 --> 01:03:42,960
one thing you know they said it was a

1683
01:03:45,530 --> 01:03:44,280
flying disc then they changed the story

1684
01:03:46,609 --> 01:03:45,540
and said it was a weather balloon right

1685
01:03:48,170 --> 01:03:46,619
then they changed the story again

1686
01:03:49,789 --> 01:03:48,180
decades later and said it was a mogul

1687
01:03:51,230 --> 01:03:49,799
balloon because that was a classified

1688
01:03:53,470 --> 01:03:51,240

project at the time that we couldn't

1689

01:03:55,910 --> 01:03:53,480

tell you about it so we had to lie guys

1690

01:03:57,650 --> 01:03:55,920

they changed the story what three times

1691

01:04:00,410 --> 01:03:57,660

how do we know they aren't lying this

1692

01:04:01,609 --> 01:04:00,420

time right that's the problem and again

1693

01:04:03,710 --> 01:04:01,619

although

1694

01:04:05,630 --> 01:04:03,720

as a matter of philosophy

1695

01:04:07,849 --> 01:04:05,640

I never think that an argument should

1696

01:04:10,130 --> 01:04:07,859

appeal to conspiracy

1697

01:04:13,010 --> 01:04:10,140

there are instances where I think it's

1698

01:04:15,230 --> 01:04:13,020

not wrong for people to be suspicious of

1699

01:04:16,730 --> 01:04:15,240

our government there are instances and

1700

01:04:18,109 --> 01:04:16,740

I'm actually more of a Roswell skeptic

1701

01:04:19,970 --> 01:04:18,119

I'll mind you I'm not really one of

1702

01:04:22,069 --> 01:04:19,980

those you know all in on it being a

1703

01:04:23,450 --> 01:04:22,079

crash records retrieval but I don't

1704

01:04:24,770 --> 01:04:23,460

think that the American people are wrong

1705

01:04:27,650 --> 01:04:24,780

to be suspicious of our government

1706

01:04:30,049 --> 01:04:27,660

because you know what sad truth is they

1707

01:04:32,630 --> 01:04:30,059

do lie to us they lie to us a lot they

1708

01:04:35,450 --> 01:04:32,640

lie a whole lot and we have come to

1709

01:04:38,030 --> 01:04:35,460

expect that and so people naturally lead

1710

01:04:39,470 --> 01:04:38,040

with those kinds of suspicions and again

1711

01:04:41,150 --> 01:04:39,480

when the government gets all burned out

1712

01:04:43,430 --> 01:04:41,160

and says a bunch of conspiracy theorists

1713

01:04:45,170 --> 01:04:43,440

cooking up nonsense you know what

1714

01:04:46,970 --> 01:04:45,180

I made you you made me first remember

1715

01:04:49,130 --> 01:04:46,980

from the first Batman movie Batman's

1716

01:04:50,809 --> 01:04:49,140

holding the Joker and everything yeah I

1717

01:04:52,609 --> 01:04:50,819

don't like that it's like you know you

1718

01:04:53,930 --> 01:04:52,619

guys you're calling us conspiracy

1719

01:04:56,630 --> 01:04:53,940

theorists but you're the ones that lied

1720

01:04:58,309 --> 01:04:56,640

to us all right you made us that way so

1721

01:05:00,530 --> 01:04:58,319

we shouldn't necessarily leave with

1722

01:05:02,329 --> 01:05:00,540

conspiracy but there are times where a

1723

01:05:05,270 --> 01:05:02,339

little bit of conspiratorial thinking

1724

01:05:06,589 --> 01:05:05,280

may be oriented given the way that we've

1725

01:05:07,910 --> 01:05:06,599

been treated in the past and the kind of

1726

01:05:08,690 --> 01:05:07,920

information we've been given now that

1727

01:05:11,210 --> 01:05:08,700

said

1728

01:05:13,069 --> 01:05:11,220

Wright-Patterson Air Force Base I'm not

1729

01:05:14,510 --> 01:05:13,079

making any kind of conspiratorial claim

1730

01:05:15,890 --> 01:05:14,520

that that's the reason for the meeting

1731

01:05:17,870 --> 01:05:15,900

that occurred the other day but I mean

1732

01:05:19,789 --> 01:05:17,880

with everything I just talked about the

1733

01:05:21,829 --> 01:05:19,799

history and with people's General

1734

01:05:23,809 --> 01:05:21,839

distrust especially for the intelligence

1735

01:05:25,069 --> 01:05:23,819

Community right with the government

1736

01:05:27,109 --> 01:05:25,079

we're here to help you these three

1737

01:05:28,250 --> 01:05:27,119

letter agencies men in black suits show

1738

01:05:31,549 --> 01:05:28,260

up on your front door and you're always

1739

01:05:33,890 --> 01:05:31,559

glad to see them right no no you're not

1740

01:05:35,809 --> 01:05:33,900

I mean people naturally get suspicious

1741

01:05:37,910 --> 01:05:35,819

what do I really think this may have to

1742

01:05:39,710 --> 01:05:37,920

do with though Ryan I mean in recent

1743

01:05:41,150 --> 01:05:39,720

days we of course had this situation and

1744

01:05:43,609 --> 01:05:41,160

that's what we reported on in our

1745

01:05:45,950 --> 01:05:43,619

debrief article this young Massachusetts

1746

01:05:48,170 --> 01:05:45,960

Air National Guardsman 21 years old

1747

01:05:50,809 --> 01:05:48,180

member of a Discord chat releases highly

1748

01:05:52,609 --> 01:05:50,819

sensitive documents online classified

1749

01:05:54,890 --> 01:05:52,619

documents that are potentially damaging

1750

01:05:56,990 --> 01:05:54,900

to the U.S interest and also potentially

1751
01:05:58,970 --> 01:05:57,000
to our allies or at very least damaging

1752
01:06:00,770 --> 01:05:58,980
in terms of the way the U.S looks to

1753
01:06:02,750 --> 01:06:00,780
some of our allies and of course could

1754
01:06:04,549 --> 01:06:02,760
potentially also provide some Vital

1755
01:06:06,829 --> 01:06:04,559
Information to for an average series

1756
01:06:08,390 --> 01:06:06,839
it's not the kind of thing you want and

1757
01:06:10,609 --> 01:06:08,400
when it becomes evident to the United

1758
01:06:12,530 --> 01:06:10,619
States government that one of the most

1759
01:06:14,450 --> 01:06:12,540
significant classified leagues at least

1760
01:06:16,130 --> 01:06:14,460
in the last few years has recently

1761
01:06:18,770 --> 01:06:16,140
occurred as a result of a 21 year old

1762
01:06:21,049 --> 01:06:18,780
Air National Guardsman who was sharing

1763
01:06:23,030 --> 01:06:21,059

documents right like they were potato

1764

01:06:24,470 --> 01:06:23,040

chips or something in a Discord chat

1765

01:06:26,510 --> 01:06:24,480

with his buddies

1766

01:06:27,650 --> 01:06:26,520

yeah I bet intelligence officials are

1767

01:06:30,589 --> 01:06:27,660

going to be going up there and meeting

1768

01:06:32,809 --> 01:06:30,599

one of the most significant Air Force uh

1769

01:06:35,150 --> 01:06:32,819

installations in the country to have a

1770

01:06:36,950 --> 01:06:35,160

real serious talk about uh the

1771

01:06:39,589 --> 01:06:36,960

management of our information and

1772

01:06:41,510 --> 01:06:39,599

government yeah I'm sure they are

1773

01:06:44,990 --> 01:06:41,520

well and you know everyone's joking

1774

01:06:47,930 --> 01:06:45,000

they're like come on 21 year old you you

1775

01:06:50,870 --> 01:06:47,940

got that stuff leaked out there but not

1776

01:06:52,490 --> 01:06:50,880

the UFO stuff come on man you had the

1777

01:06:54,609 --> 01:06:52,500

chance you had the chance there's

1778

01:06:57,170 --> 01:06:54,619

something about Snowden you know I mean

1779

01:06:59,809 --> 01:06:57,180

yeah the community of these you know

1780

01:07:00,410 --> 01:06:59,819

leaks and again

1781

01:07:02,510 --> 01:07:00,420

um

1782

01:07:04,130 --> 01:07:02,520

where I stand on this again is that I

1783

01:07:05,329 --> 01:07:04,140

think that there is unnecessary secrecy

1784

01:07:07,730 --> 01:07:05,339

in government and I think that there's

1785

01:07:09,890 --> 01:07:07,740

necessary secrecy and I think that

1786

01:07:12,349 --> 01:07:09,900

sometimes there are instances where a

1787

01:07:15,470 --> 01:07:12,359

whistleblower performs a very necessary

1788

01:07:18,589 --> 01:07:15,480

function uh in terms of transparency

1789

01:07:20,750 --> 01:07:18,599

openness Freedom Liberty all those kinds

1790

01:07:22,069 --> 01:07:20,760

of things there are also instances where

1791

01:07:25,069 --> 01:07:22,079

the release of classified information

1792

01:07:27,589 --> 01:07:25,079

can be incredibly hurtful damaging not

1793

01:07:29,210 --> 01:07:27,599

just in terms of embarrassment it may

1794

01:07:31,370 --> 01:07:29,220

cause to agencies I mean I'm talking

1795

01:07:34,150 --> 01:07:31,380

about the release of the in names of of

1796

01:07:36,950 --> 01:07:34,160

individuals their locations their jobs

1797

01:07:38,809 --> 01:07:36,960

you know stuff that could endanger

1798

01:07:40,130 --> 01:07:38,819

American lives and that's the kind of

1799

01:07:42,410 --> 01:07:40,140

stuff that you don't want getting out

1800

01:07:43,730 --> 01:07:42,420

and so it's a fine line

1801

01:07:45,109 --> 01:07:43,740

trying to manage that whole

1802

01:07:46,549 --> 01:07:45,119

whistleblower thing which really kind of

1803

01:07:49,069 --> 01:07:46,559

comes back to our previous conversation

1804

01:07:50,510 --> 01:07:49,079

and arrows efforts right now to try and

1805

01:07:52,549 --> 01:07:50,520

talk with people who may have knowledge

1806

01:07:53,990 --> 01:07:52,559

about things from within government and

1807

01:07:56,329 --> 01:07:54,000

testimony they may be able to provide

1808

01:07:57,950 --> 01:07:56,339

and also the necessary protections for

1809

01:07:59,809 --> 01:07:57,960

those individuals if they were parts of

1810

01:08:01,910 --> 01:07:59,819

special access programs or things in the

1811

01:08:03,289 --> 01:08:01,920

past that previously would have you know

1812

01:08:06,410 --> 01:08:03,299

prohibited them from coming forward

1813

01:08:09,049 --> 01:08:06,420

under law we have to always be mindful

1814

01:08:10,549 --> 01:08:09,059

of the very careful Dynamic the fine

1815

01:08:12,529 --> 01:08:10,559

line between the necessary and the

1816

01:08:14,630 --> 01:08:12,539

unnecessary secrecy because those are

1817

01:08:16,430 --> 01:08:14,640

fundamental elements of really a free

1818

01:08:18,430 --> 01:08:16,440

society and really the role that we as

1819

01:08:22,010 --> 01:08:18,440

journalists play in that too

1820

01:08:24,110 --> 01:08:22,020

absolutely yep I I think that sums up

1821

01:08:26,470 --> 01:08:24,120

this story pretty well man

1822

01:08:29,510 --> 01:08:26,480

um when there's over classification and

1823

01:08:31,249 --> 01:08:29,520

non-transparency that's when leaks

1824

01:08:33,410 --> 01:08:31,259

happen that's when whistleblowers come

1825

01:08:35,570 --> 01:08:33,420

forward it's a natural process of our

1826

01:08:38,510 --> 01:08:35,580

kind of way we've set things up in

1827

01:08:41,150 --> 01:08:38,520

America so I mean you know while we we

1828

01:08:43,550 --> 01:08:41,160

can hope for leaks at times sometimes

1829

01:08:45,530 --> 01:08:43,560

they can be extremely dangerous so there

1830

01:08:47,390 --> 01:08:45,540

has to be a process and I think that

1831

01:08:50,450 --> 01:08:47,400

whistleblower legislation is a good

1832

01:08:53,450 --> 01:08:50,460

example of how it will be done properly

1833

01:08:56,030 --> 01:08:53,460

and safely so I think if anything that's

1834

01:08:57,890 --> 01:08:56,040

how we could tie it into that story

1835

01:09:01,130 --> 01:08:57,900

um I I see in the chat a lot of people

1836

01:09:03,349 --> 01:09:01,140

are talking about this cattle mutilation

1837

01:09:05,329 --> 01:09:03,359

story we got it that's on the list guys

1838

01:09:07,370 --> 01:09:05,339

we have a lot to talk about with that um

1839

01:09:09,349 --> 01:09:07,380

but there's there's one quick story I

1840

01:09:11,390 --> 01:09:09,359

want to talk about before that Micah um

1841

01:09:12,769 --> 01:09:11,400

this one's really interesting and it

1842

01:09:16,010 --> 01:09:12,779

does somewhat connect to some work

1843

01:09:18,709 --> 01:09:16,020

you've done in the past and that's um AI

1844

01:09:21,530 --> 01:09:18,719

uh this is a story over a big think and

1845

01:09:24,410 --> 01:09:21,540

it was called why aliens let me pull

1846

01:09:26,990 --> 01:09:24,420

this up here I've got it um there it is

1847

01:09:29,390 --> 01:09:27,000

why aliens will likely be artificial

1848

01:09:31,490 --> 01:09:29,400

intelligence

1849

01:09:34,490 --> 01:09:31,500

um so this article kind of argues that

1850

01:09:36,590 --> 01:09:34,500

advanced civilizations will require AI

1851
01:09:39,590 --> 01:09:36,600
that goes not just for us but for anyone

1852
01:09:41,570 --> 01:09:39,600
out there who is likely to visit us even

1853
01:09:43,610 --> 01:09:41,580
though most movies about aliens depict

1854
01:09:46,550 --> 01:09:43,620
biological creatures arriving to Earth

1855
01:09:48,530 --> 01:09:46,560
this is unlikely to happen Crossing

1856
01:09:50,390 --> 01:09:48,540
Interstellar space would take them a

1857
01:09:52,610 --> 01:09:50,400
very long time so much time that it

1858
01:09:56,570 --> 01:09:52,620
makes a little sense to send short-lived

1859
01:09:58,850 --> 01:09:56,580
perishable organic bodies consider the

1860
01:10:00,650 --> 01:09:58,860
realities of interstellar travel to

1861
01:10:01,750 --> 01:10:00,660
reach other solar systems current

1862
01:10:06,050 --> 01:10:01,760
thinking

1863
01:10:07,610 --> 01:10:06,060

need to build light cells that can reach

1864

01:10:10,070 --> 01:10:07,620

maybe 10 percent of the speed of light

1865

01:10:12,950 --> 01:10:10,080

that gets us to Alpha Centauri in 40

1866

01:10:16,910 --> 01:10:12,960

years or so in entire adult human

1867

01:10:20,090 --> 01:10:16,920

lifespan and that's just one way

1868

01:10:22,669 --> 01:10:20,100

um the likely solution is artificial

1869

01:10:24,530 --> 01:10:22,679

intelligence and artificial bodies that

1870

01:10:26,689 --> 01:10:24,540

could better withstand figures of space

1871

01:10:29,630 --> 01:10:26,699

travel for that reason we shouldn't

1872

01:10:31,370 --> 01:10:29,640

expect visiting aliens to be organic

1873

01:10:35,149 --> 01:10:31,380

creatures

1874

01:10:37,550 --> 01:10:35,159

um the article also mentions futurists

1875

01:10:40,550 --> 01:10:37,560

who um took it a step further and

1876

01:10:43,850 --> 01:10:40,560

envisioned in in mortality road map

1877

01:10:46,490 --> 01:10:43,860

using AI to digitally reconstruct people

1878

01:10:48,229 --> 01:10:46,500

the AI would take DNA and other

1879

01:10:51,110 --> 01:10:48,239

information from a recently deceased

1880

01:10:52,910 --> 01:10:51,120

person and reconstruct them in a

1881

01:10:53,689 --> 01:10:52,920

simulated World

1882

01:10:55,669 --> 01:10:53,699

um

1883

01:10:57,530 --> 01:10:55,679

this one kind of went over my head man

1884

01:10:59,990 --> 01:10:57,540

I'm not gonna lie the whole AI

1885

01:11:02,630 --> 01:11:00,000

conversation is happening before our

1886

01:11:06,290 --> 01:11:02,640

very eyes every day it's moving so

1887

01:11:09,410 --> 01:11:06,300

rapidly it's um it's scary it's exciting

1888

01:11:11,209 --> 01:11:09,420

there's many Pros there's many cons

1889

01:11:13,550 --> 01:11:11,219

um but AI is at the Forefront of the

1890

01:11:16,850 --> 01:11:13,560

conversation right now when it comes to

1891

01:11:19,250 --> 01:11:16,860

everything technologically I know it's a

1892

01:11:21,110 --> 01:11:19,260

huge huge talking point over at the

1893

01:11:22,310 --> 01:11:21,120

debrief and a lot of the Articles going

1894

01:11:24,590 --> 01:11:22,320

on over there

1895

01:11:26,149 --> 01:11:24,600

um but the reason the real reason I

1896

01:11:28,729 --> 01:11:26,159

wanted to talk about this article is

1897

01:11:30,530 --> 01:11:28,739

because you wrote a book in the past one

1898

01:11:32,330 --> 01:11:30,540

of the first books I ever read on UFOs

1899

01:11:34,910 --> 01:11:32,340

and one of the first books I ever got

1900

01:11:37,490 --> 01:11:34,920

autographed by you and that was uh the

1901

01:11:40,130 --> 01:11:37,500

UFO Singularity where you actually

1902

01:11:42,350 --> 01:11:40,140

talked about a lot of this stuff and

1903

01:11:44,149 --> 01:11:42,360

possible connections between artificial

1904

01:11:47,149 --> 01:11:44,159

intelligence the quote unquote

1905

01:11:50,149 --> 01:11:47,159

Singularity and UFOs so what do you

1906

01:11:52,490 --> 01:11:50,159

think of this concept that if we are to

1907

01:11:55,790 --> 01:11:52,500

ever find alien life

1908

01:11:58,310 --> 01:11:55,800

um if it ever travels he here it's most

1909

01:12:00,590 --> 01:11:58,320

likely not going to be quote-unquote

1910

01:12:02,330 --> 01:12:00,600

biological but artificial intelligence

1911

01:12:04,310 --> 01:12:02,340

what do you make of this whole thing

1912

01:12:05,810 --> 01:12:04,320

yeah it's a really interesting Prospect

1913

01:12:08,149 --> 01:12:05,820

I'm glad everybody else is finally

1914

01:12:10,070 --> 01:12:08,159

getting caught up huh finally you were

1915

01:12:12,290 --> 01:12:10,080

way ahead of the times man

1916

01:12:14,090 --> 01:12:12,300

you know um to the credit of my

1917

01:12:17,330 --> 01:12:14,100

Publishers at that time you know I I'd

1918

01:12:19,490 --> 01:12:17,340

wanted to write a much broader book to

1919

01:12:21,950 --> 01:12:19,500

kind of analyze the current state of the

1920

01:12:24,169 --> 01:12:21,960

UAP issue and I was calling them UAP I

1921

01:12:26,810 --> 01:12:24,179

mean back at least as early as 2015

1922

01:12:28,669 --> 01:12:26,820

there's an article on my website Mike

1923

01:12:30,410 --> 01:12:28,679

angst.com but I mean I think even

1924

01:12:32,390 --> 01:12:30,420

earlier than that I've gone back and

1925

01:12:34,910 --> 01:12:32,400

looked at articles where I would at

1926

01:12:37,250 --> 01:12:34,920

times refer to you know UAP and also

1927

01:12:38,870 --> 01:12:37,260

sometimes still UFO you and I've had

1928

01:12:40,070 --> 01:12:38,880

this conversation we kind of

1929

01:12:41,510 --> 01:12:40,080

interchangeably use them at different

1930

01:12:43,370 --> 01:12:41,520

times generally what I'll do is I'll say

1931

01:12:45,950 --> 01:12:43,380

UAP if I'm talking about stuff happening

1932

01:12:48,350 --> 01:12:45,960

right now if I'm referring to historical

1933

01:12:51,229 --> 01:12:48,360

incidents in cases I may use UFO right

1934

01:12:52,189 --> 01:12:51,239

all kind of the same thing in truth now

1935

01:12:56,930 --> 01:12:52,199

that said

1936

01:12:59,470 --> 01:12:56,940

uh in 2013 the Publishers uh said we're

1937

01:13:03,050 --> 01:12:59,480

interested in your perspective on the AI

1938

01:13:04,550 --> 01:13:03,060

UAP connection and really proposed that

1939

01:13:05,990 --> 01:13:04,560

rather than that being a chapter in a

1940

01:13:08,990 --> 01:13:06,000

big book you should just write a shorter

1941

01:13:11,270 --> 01:13:09,000

book that looks at just that and I mean

1942

01:13:13,490 --> 01:13:11,280

I've got a lot to add to that topic now

1943

01:13:15,290 --> 01:13:13,500

that that book the UFO Singularity it

1944

01:13:18,110 --> 01:13:15,300

was maybe a good starting point but it's

1945

01:13:20,450 --> 01:13:18,120

it's not maybe the fullest

1946

01:13:21,590 --> 01:13:20,460

um best expression of that idea in

1947

01:13:23,090 --> 01:13:21,600

recent years we've seen a lot of

1948

01:13:24,290 --> 01:13:23,100

interest in this

1949

01:13:27,229 --> 01:13:24,300

um I've corresponded with some

1950

01:13:30,050 --> 01:13:27,239

incredible uh scientists about this

1951

01:13:32,750 --> 01:13:30,060

um Dr Benjamin gertzel PhD Avi Loeb of

1952

01:13:36,770 --> 01:13:32,760

course who's very very acutely aware of

1953

01:13:38,990 --> 01:13:36,780

the UAP AI possibility Lord Martin Reese

1954

01:13:41,270 --> 01:13:39,000

Jill Tarter right I mean the scientist

1955

01:13:43,610 --> 01:13:41,280

upon whom the character in contact by

1956

01:13:45,530 --> 01:13:43,620

Carl Sagan is based I mean I've

1957

01:13:47,390 --> 01:13:45,540

corresponded with some some leading

1958

01:13:49,790 --> 01:13:47,400

thinkers and they all essentially Echo

1959

01:13:51,110 --> 01:13:49,800

the same sentiment if and when alien

1960

01:13:52,490 --> 01:13:51,120

life comes to Earth there's a very

1961

01:13:54,110 --> 01:13:52,500

strong possibility we're going to be

1962

01:13:57,350 --> 01:13:54,120

looking at AI

1963

01:13:58,850 --> 01:13:57,360

as opposed to just biological visitors

1964

01:14:00,590 --> 01:13:58,860

and here are the reasons why I can

1965

01:14:03,110 --> 01:14:00,600

summarize this very simply go watch

1966

01:14:06,110 --> 01:14:03,120

Transformers I mean in Transformers you

1967

01:14:07,610 --> 01:14:06,120

see the Autobots arrive on Earth and I'm

1968

01:14:09,890 --> 01:14:07,620

thinking I was I remember watching those

1969

01:14:12,410 --> 01:14:09,900

the the famous Transformers films from

1970

01:14:14,330 --> 01:14:12,420

years ago watching those and thinking

1971

01:14:16,850 --> 01:14:14,340

now there's an idea you know why would

1972

01:14:20,510 --> 01:14:16,860

we presume that visitors from elsewhere

1973

01:14:22,910 --> 01:14:20,520

would necessarily uh be biological right

1974

01:14:24,709 --> 01:14:22,920

I mean think about what long periods of

1975

01:14:26,689 --> 01:14:24,719

travel in space even if we could move it

1976

01:14:29,570 --> 01:14:26,699

you know we're approaching the speed of

1977

01:14:31,010 --> 01:14:29,580

light at released in terms of Relativity

1978

01:14:33,050 --> 01:14:31,020

we know kind of what happens you know

1979

01:14:34,970 --> 01:14:33,060

when you actually reach light speed so

1980

01:14:37,610 --> 01:14:34,980

let's say that you're traveling close to

1981

01:14:39,649 --> 01:14:37,620

it I mean first of all you leave you get

1982

01:14:42,709 --> 01:14:39,659

back home all your friends are dead that

1983

01:14:45,050 --> 01:14:42,719

kind of sucks right but the thing is I'm

1984

01:14:45,790 --> 01:14:45,060

thinking you know if you had

1985

01:14:49,010 --> 01:14:45,800

um

1986

01:14:50,750 --> 01:14:49,020

post-biological intelligences that are

1987

01:14:52,490 --> 01:14:50,760

traveling through space one thing that

1988

01:14:54,470 --> 01:14:52,500

they are able to overcome is the atrophy

1989

01:14:56,750 --> 01:14:54,480

of musculature that occurs when humans

1990

01:14:59,090 --> 01:14:56,760

spend long periods in space they may be

1991

01:15:01,250 --> 01:14:59,100

able to overcome the problem of food

1992

01:15:04,010 --> 01:15:01,260

shortage keeping in mind that when we

1993

01:15:06,350 --> 01:15:04,020

look at space travel as we do it you

1994

01:15:08,209 --> 01:15:06,360

want to try and make your spacecraft as

1995

01:15:09,709 --> 01:15:08,219

efficient and you want to try and put as

1996

01:15:11,450 --> 01:15:09,719

much on there you won't have as much

1997

01:15:13,130 --> 01:15:11,460

space for payload as possible why

1998

01:15:14,450 --> 01:15:13,140

because when we're talking about a

1999

01:15:16,610 --> 01:15:14,460

manned mission let's say we're sending

2000

01:15:18,649 --> 01:15:16,620

people to Mars you got to send supplies

2001

01:15:20,270 --> 01:15:18,659

with them now you can also do a you know

2002

01:15:22,370 --> 01:15:20,280

future mission where you deliver some

2003

01:15:24,410 --> 01:15:22,380

more stuff but generally you got to have

2004

01:15:26,689 --> 01:15:24,420

fuel on board that rocket you got to

2005

01:15:29,270 --> 01:15:26,699

have space on board that spacecraft to

2006

01:15:31,010 --> 01:15:29,280

be able to carry the materials

2007

01:15:32,630 --> 01:15:31,020

that are going to the destination with

2008

01:15:35,030 --> 01:15:32,640

you and keep in mind that is that rocket

2009

01:15:37,070 --> 01:15:35,040

is the stages that rocket are delivering

2010

01:15:38,930 --> 01:15:37,080

the spacecraft that's going to convey

2011

01:15:41,209 --> 01:15:38,940

you from point A to point B maybe Mars

2012

01:15:43,130 --> 01:15:41,219

in this instance I mean most of what's

2013

01:15:44,990 --> 01:15:43,140

putting that thing into space is going

2014

01:15:46,970 --> 01:15:45,000

to get lost that spacecraft is all

2015

01:15:49,189 --> 01:15:46,980

that's going to make its way to uh to

2016

01:15:50,810 --> 01:15:49,199

you know your planet destination so

2017

01:15:52,729 --> 01:15:50,820

you've got a very finite amount of space

2018

01:15:55,310 --> 01:15:52,739

and you've got to get all the essentials

2019

01:15:56,750 --> 01:15:55,320

in there to sustain human life when

2020

01:15:58,729 --> 01:15:56,760

we're talking about post biological

2021

01:16:00,470 --> 01:15:58,739

intelligence artificial intelligence or

2022

01:16:02,630 --> 01:16:00,480

robotics or something along those lines

2023

01:16:05,209 --> 01:16:02,640

you may be able to overcome a lot of

2024

01:16:08,510 --> 01:16:05,219

that we look at ideas like uh Von

2025

01:16:11,090 --> 01:16:08,520

Neumann probes right or um uh the other

2026

01:16:13,130 --> 01:16:11,100

one is the uh the bracewell probe Von

2027

01:16:14,510 --> 01:16:13,140

Neumann produce probe is essentially a

2028

01:16:17,149 --> 01:16:14,520

artificially intelligent

2029

01:16:19,370 --> 01:16:17,159

self-replicating probe that uh is

2030

01:16:20,810 --> 01:16:19,380

capable of uh traveling through space it

2031

01:16:23,750 --> 01:16:20,820

could be very small but it may be able

2032

01:16:26,330 --> 01:16:23,760

to utilize things like sunlight

2033

01:16:27,770 --> 01:16:26,340

um from Stars uh so technically

2034

01:16:28,970 --> 01:16:27,780

Starlight but we call it sunlight

2035

01:16:31,490 --> 01:16:28,980

because that happens to be the name we

2036

01:16:34,610 --> 01:16:31,500

give to the nearest star to Earth but

2037

01:16:36,410 --> 01:16:34,620

they may be able to collect radiation in

2038

01:16:37,729 --> 01:16:36,420

the form of heat and starlight right as

2039

01:16:39,950 --> 01:16:37,739

they're passing through different you

2040

01:16:42,550 --> 01:16:39,960

know planetary systems or by them it may

2041

01:16:45,229 --> 01:16:42,560

be able to collect information or other

2042

01:16:47,689 --> 01:16:45,239

materials from asteroids and things like

2043

01:16:49,250 --> 01:16:47,699

that maybe able to mine metals and other

2044

01:16:51,290 --> 01:16:49,260

kinds of materials that can be used in

2045

01:16:53,570 --> 01:16:51,300

the construction or self-replication of

2046

01:16:55,790 --> 01:16:53,580

similar probes that are disseminated and

2047

01:16:58,910 --> 01:16:55,800

dispersed throughout the Galaxy if

2048

01:17:00,649 --> 01:16:58,920

they're relatively small it seems very

2049

01:17:02,689 --> 01:17:00,659

possible that Earth could have been

2050

01:17:05,390 --> 01:17:02,699

bombarded throughout its history by Von

2051
01:17:07,250 --> 01:17:05,400
Neumann from from different locations in

2052
01:17:09,169 --> 01:17:07,260
the universe different intelligences

2053
01:17:10,970 --> 01:17:09,179
that may be long gone by now but before

2054
01:17:12,050 --> 01:17:10,980
they cease to exist that they created

2055
01:17:14,209 --> 01:17:12,060
these things and they began the

2056
01:17:15,590 --> 01:17:14,219
dispersal process maybe those things

2057
01:17:17,270 --> 01:17:15,600
travel all the way make their way toward

2058
01:17:18,410 --> 01:17:17,280
Earth's atmosphere and they're destroyed

2059
01:17:19,310 --> 01:17:18,420
maybe they're small they remain

2060
01:17:21,290 --> 01:17:19,320
somewhere out there and they're

2061
01:17:23,390 --> 01:17:21,300
operating in our solar system but

2062
01:17:25,610 --> 01:17:23,400
they're very small they're producing

2063
01:17:27,649 --> 01:17:25,620

almost no signatures apart maybe from

2064

01:17:29,090 --> 01:17:27,659

minor little radio frequencies and

2065

01:17:31,310 --> 01:17:29,100

things like that that if we knew where

2066

01:17:32,930 --> 01:17:31,320

to look or tried to look might be

2067

01:17:34,189 --> 01:17:32,940

detectable but we simply haven't tried

2068

01:17:36,350 --> 01:17:34,199

looking and so they could be all around

2069

01:17:37,610 --> 01:17:36,360

us and we haven't found them yet a

2070

01:17:39,350 --> 01:17:37,620

bracewell probe is a little different

2071

01:17:40,970 --> 01:17:39,360

this Ronald bracewell's idea of

2072

01:17:42,830 --> 01:17:40,980

something that basically goes and it

2073

01:17:44,870 --> 01:17:42,840

hangs out at a LaGrange point and it

2074

01:17:46,430 --> 01:17:44,880

waits until the civilization on the

2075

01:17:48,709 --> 01:17:46,440

nearby Planet begins to exhibit

2076

01:17:50,990 --> 01:17:48,719

capabilities that are worthy of contact

2077

01:17:53,689 --> 01:17:51,000

and then contact is initiated but I

2078

01:17:55,189 --> 01:17:53,699

often wonder do UAP

2079

01:17:58,010 --> 01:17:55,199

actually display some of these

2080

01:17:59,930 --> 01:17:58,020

capabilities uh in modern parlance there

2081

01:18:02,390 --> 01:17:59,940

was a great idea in a paper a few years

2082

01:18:04,490 --> 01:18:02,400

ago that took the Von Norman idea the

2083

01:18:06,950 --> 01:18:04,500

Von Neumann probe concept and kind of

2084

01:18:09,169 --> 01:18:06,960

modified that gave it a new name lurker

2085

01:18:10,610 --> 01:18:09,179

probes in other words probes that might

2086

01:18:12,110 --> 01:18:10,620

be carrying out a mission they're

2087

01:18:14,330 --> 01:18:12,120

surveilling planet Earth but they aren't

2088

01:18:15,470 --> 01:18:14,340

overtly trying to come out and say Howdy

2089

01:18:16,669 --> 01:18:15,480

Folks here we are we're going to drop

2090

01:18:18,770 --> 01:18:16,679

down on the White House law and

2091

01:18:20,870 --> 01:18:18,780

introduce ourselves and ask you to take

2092

01:18:23,689 --> 01:18:20,880

us to the big guy upstairs show us to

2093

01:18:25,490 --> 01:18:23,699

your leader again these sci-fi ideas

2094

01:18:27,350 --> 01:18:25,500

that inform so much of our thought about

2095

01:18:30,290 --> 01:18:27,360

what alien life or visitation by an

2096

01:18:31,550 --> 01:18:30,300

exotic intelligence would be like all

2097

01:18:33,649 --> 01:18:31,560

that goes out the window when you really

2098

01:18:34,970 --> 01:18:33,659

think about it it's all presumptions yet

2099

01:18:37,370 --> 01:18:34,980

again

2100

01:18:40,430 --> 01:18:37,380

there could be alien intelligence

2101

01:18:41,990 --> 01:18:40,440

artificial remnants of some exotic

2102

01:18:43,910 --> 01:18:42,000

intelligence from long ago that have

2103

01:18:46,430 --> 01:18:43,920

been proliferating and they may be

2104

01:18:47,689 --> 01:18:46,440

working in our uh Galaxy and our in our

2105

01:18:48,950 --> 01:18:47,699

solar system even right here in our

2106

01:18:51,229 --> 01:18:48,960

planetary neighborhood they could be

2107

01:18:53,209 --> 01:18:51,239

working out there surveilling us right

2108

01:18:54,709 --> 01:18:53,219

now and we wouldn't even know because we

2109

01:18:56,630 --> 01:18:54,719

haven't tried to look but what if

2110

01:18:58,850 --> 01:18:56,640

something some UAP

2111

01:19:00,830 --> 01:18:58,860

you know thinking about how you know

2112

01:19:02,570 --> 01:19:00,840

they don't seem to really want to have

2113

01:19:03,890 --> 01:19:02,580

to stop and say hi they're usually just

2114

01:19:05,330 --> 01:19:03,900

doing their own thing and if we start

2115

01:19:07,189 --> 01:19:05,340

tracking them they try to get out of the

2116

01:19:08,870 --> 01:19:07,199

way think about Chad Underwood talking

2117

01:19:11,149 --> 01:19:08,880

about the Tic Tac immediately starts

2118

01:19:12,770 --> 01:19:11,159

jamming his radar right these things try

2119

01:19:13,970 --> 01:19:12,780

to fly off and get out of the way as

2120

01:19:16,310 --> 01:19:13,980

quick as they can

2121

01:19:18,110 --> 01:19:16,320

they essentially behave kind of like a

2122

01:19:19,729 --> 01:19:18,120

hypothetical lurker probe they hear

2123

01:19:21,709 --> 01:19:19,739

they're doing their job

2124

01:19:23,570 --> 01:19:21,719

they could be very well technologies

2125

01:19:25,790 --> 01:19:23,580

that are somehow autonomously just going

2126

01:19:27,950 --> 01:19:25,800

about some programmable kind of mission

2127

01:19:29,810 --> 01:19:27,960

and they're trying to stay out of our

2128

01:19:32,149 --> 01:19:29,820

way so that they can better complete

2129

01:19:33,830 --> 01:19:32,159

their mission whatever that is I mean

2130

01:19:36,229 --> 01:19:33,840

it's not impossible that we're already

2131

01:19:37,610 --> 01:19:36,239

looking at an alien form of AI That's

2132

01:19:40,189 --> 01:19:37,620

operating here on Earth and although

2133

01:19:42,169 --> 01:19:40,199

that's a speculative idea and thereby an

2134

01:19:43,729 --> 01:19:42,179

extraordinary claim more and more

2135

01:19:46,130 --> 01:19:43,739

scientists who are looking at the

2136

01:19:49,610 --> 01:19:46,140

possibility of what alien contact might

2137

01:19:52,669 --> 01:19:49,620

be like are entertaining the likelihood

2138

01:19:54,830 --> 01:19:52,679

that we are more likely to encounter an

2139

01:19:57,550 --> 01:19:54,840

alien form of AI than we are biological

2140

01:20:01,130 --> 01:19:57,560

visitors or organisms

2141

01:20:04,010 --> 01:20:01,140

very interesting you know and it even

2142

01:20:07,070 --> 01:20:04,020

you know kind of reminds me of the

2143

01:20:09,350 --> 01:20:07,080

recent conversation that George Knapp

2144

01:20:11,870 --> 01:20:09,360

and Jeremy Corbell had over on their

2145

01:20:13,990 --> 01:20:11,880

their podcast weaponized where they

2146

01:20:17,149 --> 01:20:14,000

talked about this term the

2147

01:20:19,610 --> 01:20:17,159

techno-terrestrial in terms of could an

2148

01:20:22,610 --> 01:20:19,620

alien invasion happen through our

2149

01:20:24,950 --> 01:20:22,620

technology not a flying saucer landing

2150

01:20:27,590 --> 01:20:24,960

on the planet and taking us over but

2151

01:20:30,290 --> 01:20:27,600

could it literally come from within our

2152

01:20:33,770 --> 01:20:30,300

own technology as we progress a digital

2153

01:20:36,470 --> 01:20:33,780

trojan horse as it were um I I find that

2154

01:20:38,750 --> 01:20:36,480

fascinating too you know could the could

2155

01:20:41,390 --> 01:20:38,760

they be trying to communicate through

2156

01:20:43,669 --> 01:20:41,400

our internet through our interfaces

2157

01:20:46,669 --> 01:20:43,679

through what we eventually these

2158

01:20:48,770 --> 01:20:46,679

algorithms were creating with AI could

2159

01:20:50,810 --> 01:20:48,780

they eventually use those to communicate

2160

01:20:52,310 --> 01:20:50,820

with us um the possibilities are

2161

01:20:53,930 --> 01:20:52,320

obviously endless this is all

2162

01:20:56,330 --> 01:20:53,940

hypothetical

2163

01:20:59,390 --> 01:20:56,340

um but I find it really interesting that

2164

01:21:02,090 --> 01:20:59,400

the conversations we once had on Little

2165

01:21:04,669 --> 01:21:02,100

Green Men from Mars is now turning to

2166

01:21:07,130 --> 01:21:04,679

possible robots or like you mentioned

2167

01:21:09,890 --> 01:21:07,140

these lurker probes and we're moving

2168

01:21:12,470 --> 01:21:09,900

kind of away from the biological

2169

01:21:15,110 --> 01:21:12,480

um which is true for us as humans as

2170

01:21:17,750 --> 01:21:15,120

well we are getting closer to the verge

2171

01:21:19,250 --> 01:21:17,760

of that Singularity possibly we are but

2172

01:21:21,590 --> 01:21:19,260

you know here's the other thing too Ryan

2173

01:21:24,169 --> 01:21:21,600

again it's it's predictable human

2174

01:21:25,970 --> 01:21:24,179

behavior before we go into space we

2175

01:21:27,890 --> 01:21:25,980

watch Buck Rogers and we think that if

2176
01:21:29,330 --> 01:21:27,900
we can fly into space that aliens can do

2177
01:21:31,070 --> 01:21:29,340
it too and they may eventually come here

2178
01:21:33,470 --> 01:21:31,080
and then we start putting probes out

2179
01:21:35,390 --> 01:21:33,480
into space after Sputnik right gets put

2180
01:21:36,649 --> 01:21:35,400
into orbit we realize holy crap we got

2181
01:21:37,490 --> 01:21:36,659
to get something up there quick and we

2182
01:21:39,470 --> 01:21:37,500
do

2183
01:21:40,550 --> 01:21:39,480
and then the space race is fully on but

2184
01:21:42,290 --> 01:21:40,560
then we start thinking well but

2185
01:21:45,290 --> 01:21:42,300
intelligent aliens they also may be

2186
01:21:47,149 --> 01:21:45,300
putting probes out there right and then

2187
01:21:48,950 --> 01:21:47,159
AI becomes a thing and humans start

2188
01:21:50,450 --> 01:21:48,960

saying oh well if we can create AI then

2189

01:21:52,490 --> 01:21:50,460

maybe aliens could do it too whatever

2190

01:21:54,290 --> 01:21:52,500

the next big thing is 10 years from now

2191

01:21:56,810 --> 01:21:54,300

Ryan when we're you know I guess you and

2192

01:21:58,550 --> 01:21:56,820

I are in our 50s and you know we've

2193

01:22:00,550 --> 01:21:58,560

grown up these incredible beards you

2194

01:22:03,050 --> 01:22:00,560

know and it's going to be awesome but I

2195

01:22:05,570 --> 01:22:03,060

can't grow a full thick one right now I

2196

01:22:07,010 --> 01:22:05,580

know me either buddy when we get to that

2197

01:22:08,209 --> 01:22:07,020

point though I hope we'll reconvene and

2198

01:22:09,709 --> 01:22:08,219

have this conversation and you'll

2199

01:22:10,850 --> 01:22:09,719

remember me saying whatever the next big

2200

01:22:12,229 --> 01:22:10,860

thing is we're going to start saying

2201

01:22:14,390 --> 01:22:12,239

that's what aliens are going to do too

2202

01:22:15,770 --> 01:22:14,400

and it's just a it's we're always

2203

01:22:19,370 --> 01:22:15,780

informed by whatever the latest

2204

01:22:21,470 --> 01:22:19,380

technology we have is you know 500 years

2205

01:22:23,990 --> 01:22:21,480

ago we would call them aliens or I'm

2206

01:22:27,470 --> 01:22:24,000

sorry Angels right Angels demons you

2207

01:22:29,510 --> 01:22:27,480

know whatever uh we're informed somewhat

2208

01:22:31,610 --> 01:22:29,520

by the technology of Any Given period

2209

01:22:33,590 --> 01:22:31,620

and we project those human expectations

2210

01:22:36,649 --> 01:22:33,600

onto the phenomena that we observe right

2211

01:22:38,149 --> 01:22:36,659

now again I actually think that there is

2212

01:22:40,430 --> 01:22:38,159

a very good chance though that AI is

2213

01:22:41,990 --> 01:22:40,440

going to play a role in the UAP thing

2214

01:22:43,310 --> 01:22:42,000

and you know we'll have to kind of wait

2215

01:22:44,750 --> 01:22:43,320

and see what happens here in the years

2216

01:22:47,750 --> 01:22:44,760

ahead but it's it's definitely an

2217

01:22:50,390 --> 01:22:47,760

interesting time I just hope that uh

2218

01:22:53,570 --> 01:22:50,400

with our with our progress we're seeing

2219

01:22:56,030 --> 01:22:53,580

with AI that it's done responsibly and

2220

01:22:57,890 --> 01:22:56,040

that that doesn't become a problem for

2221

01:23:00,649 --> 01:22:57,900

Humanity before it is something that

2222

01:23:03,649 --> 01:23:00,659

facilitates new avenues toward knowledge

2223

01:23:05,270 --> 01:23:03,659

right that that's the concerning side of

2224

01:23:07,850 --> 01:23:05,280

this and of course technologists and

2225

01:23:09,890 --> 01:23:07,860

people you've seen in recent days uh you

2226

01:23:11,870 --> 01:23:09,900

know maybe arguing that we need to pause

2227

01:23:14,630 --> 01:23:11,880

for six months and really consider the

2228

01:23:17,810 --> 01:23:14,640

ethical implications the existential

2229

01:23:19,250 --> 01:23:17,820

implications of the quickening rate of

2230

01:23:20,510 --> 01:23:19,260

development of AI

2231

01:23:21,770 --> 01:23:20,520

these are things that need to be

2232

01:23:23,090 --> 01:23:21,780

considered but one last thing I'll leave

2233

01:23:24,890 --> 01:23:23,100

with our fine folks at the Central

2234

01:23:26,090 --> 01:23:24,900

Intelligence Agency who happen to be out

2235

01:23:27,890 --> 01:23:26,100

there watching right now because I know

2236

01:23:29,570 --> 01:23:27,900

you are if you guys haven't looked yet

2237

01:23:31,970 --> 01:23:29,580

here's an idea why don't you look online

2238

01:23:33,890 --> 01:23:31,980

try and find evidence of aliens not in

2239

01:23:35,390 --> 01:23:33,900

space but on the internet because you

2240

01:23:37,370 --> 01:23:35,400

know if I were an alien or any kind of

2241

01:23:39,110 --> 01:23:37,380

alien intelligence visiting Earth

2242

01:23:41,450 --> 01:23:39,120

I wanted to get information about Earth

2243

01:23:43,250 --> 01:23:41,460

and what was happening on here I'd get

2244

01:23:44,390 --> 01:23:43,260

them you know I get online I'd hack into

2245

01:23:46,850 --> 01:23:44,400

the web I'd get all the information

2246

01:23:48,890 --> 01:23:46,860

about the earthlings from the largest

2247

01:23:51,050 --> 01:23:48,900

single source of information that's been

2248

01:23:52,850 --> 01:23:51,060

ever put together by humans which is in

2249

01:23:53,990 --> 01:23:52,860

that digital format on the web maybe we

2250

01:23:55,850 --> 01:23:54,000

should be looking for evidence of

2251

01:23:57,169 --> 01:23:55,860

visitation there first because if they

2252

01:23:58,430 --> 01:23:57,179

ever came here surely they would go

2253

01:24:00,709 --> 01:23:58,440

online and try and get as much

2254

01:24:04,490 --> 01:24:00,719

information about us as they could

2255

01:24:09,470 --> 01:24:04,500

just a thought so true so true buddy I

2256

01:24:12,709 --> 01:24:09,480

love it all right let's move to a um an

2257

01:24:15,890 --> 01:24:12,719

unfortunate story and that is

2258

01:24:19,490 --> 01:24:15,900

um this recent story about six cattle

2259

01:24:21,649 --> 01:24:19,500

that died mysteriously in Texas so six

2260

01:24:24,110 --> 01:24:21,659

cattle died in Texas with their tongues

2261

01:24:26,510 --> 01:24:24,120

removed the hide around one side of

2262

01:24:28,729 --> 01:24:26,520

their mouth is gone and no blood spilled

2263

01:24:31,189 --> 01:24:28,739

authorities said the cause of death for

2264

01:24:33,169 --> 01:24:31,199

the six animals was unknown the Madison

2265

01:24:35,810 --> 01:24:33,179

County Sheriff's Office said in a

2266

01:24:38,570 --> 01:24:35,820

statement as of Friday there are no

2267

01:24:40,729 --> 01:24:38,580

updates on what happened the cattle were

2268

01:24:43,130 --> 01:24:40,739

found along Texas State Highway in three

2269

01:24:45,770 --> 01:24:43,140

country counties excuse me Madison

2270

01:24:47,570 --> 01:24:45,780

Brazos and Robertson with each animal

2271

01:24:50,450 --> 01:24:47,580

part of a different herd and a different

2272

01:24:52,490 --> 01:24:50,460

pasture the sheriff's office said five

2273

01:24:55,790 --> 01:24:52,500

of the animals were adults the sheriffs

2274

01:24:58,669 --> 01:24:55,800

said and one was a yearling in two cases

2275

01:25:00,770 --> 01:24:58,679

the animals genitalia and anuses had

2276

01:25:02,570 --> 01:25:00,780

been removed with a circular cut that

2277

01:25:04,910 --> 01:25:02,580

the sheriff's office said had been made

2278

01:25:09,130 --> 01:25:04,920

with the same precision as the cuts

2279

01:25:11,990 --> 01:25:09,140

noted around the jaw lines in each cow

2280

01:25:14,750 --> 01:25:12,000

ranchers also reported that no Predators

2281

01:25:16,790 --> 01:25:14,760

or Birds would scavenge the remains of

2282

01:25:19,310 --> 01:25:16,800

the cow leaving it to Decay untouched

2283

01:25:21,110 --> 01:25:19,320

for several weeks the Sheriff's Office

2284

01:25:23,330 --> 01:25:21,120

noted that similar incidents had been

2285

01:25:26,930 --> 01:25:23,340

reported across the U.S and it was

2286

01:25:29,330 --> 01:25:26,940

coordinating with other law enforcement

2287

01:25:32,570 --> 01:25:29,340

um this Micah is why I wanted to talk to

2288

01:25:35,090 --> 01:25:32,580

you because you wrote a huge piece

2289

01:25:37,310 --> 01:25:35,100

recently over at the debrief about other

2290

01:25:40,430 --> 01:25:37,320

cattle deaths that it had occurred in

2291

01:25:42,290 --> 01:25:40,440

the the United States and I found a lot

2292

01:25:44,810 --> 01:25:42,300

of this strikingly similar to the

2293

01:25:46,790 --> 01:25:44,820

investigation and reporting that you did

2294

01:25:49,970 --> 01:25:46,800

so first of all what do you make of this

2295

01:25:52,669 --> 01:25:49,980

recent story in Texas and did you find

2296

01:25:55,130 --> 01:25:52,679

any comparisons between what you did

2297

01:25:56,990 --> 01:25:55,140

previously with your story in this one

2298

01:25:58,790 --> 01:25:57,000

what do you make of this we're now back

2299

01:26:01,610 --> 01:25:58,800

to cattle mutilations never thought I'd

2300

01:26:03,290 --> 01:26:01,620

see the day uh you know they happened

2301
01:26:05,689 --> 01:26:03,300
pretty frequently I mean there's been a

2302
01:26:07,550 --> 01:26:05,699
Spate of uh incidents involving these

2303
01:26:10,189 --> 01:26:07,560
purported mutilations that have occurred

2304
01:26:11,810 --> 01:26:10,199
out in Oregon recent years

2305
01:26:13,189 --> 01:26:11,820
um I've been looking into some cattle

2306
01:26:16,550 --> 01:26:13,199
desks that occurred around Meeker

2307
01:26:18,770 --> 01:26:16,560
Colorado late last year and what's being

2308
01:26:20,750 --> 01:26:18,780
reported down there in Madison County uh

2309
01:26:21,649 --> 01:26:20,760
and a few other surrounding counties in

2310
01:26:23,209 --> 01:26:21,659
Texas

2311
01:26:25,550 --> 01:26:23,219
is actually quite a bit different from

2312
01:26:27,470 --> 01:26:25,560
the case I looked into now first what's

2313
01:26:28,910 --> 01:26:27,480

being reported in Texas based on this

2314

01:26:31,010 --> 01:26:28,920

article that I'm looking at the very

2315

01:26:32,030 --> 01:26:31,020

same one you sent me earlier

2316

01:26:34,669 --> 01:26:32,040

um

2317

01:26:38,209 --> 01:26:34,679

this appears to be what you might call

2318

01:26:41,750 --> 01:26:38,219

Classic cattle mute criteria right I

2319

01:26:44,090 --> 01:26:41,760

mean portions of you know the the tongue

2320

01:26:46,310 --> 01:26:44,100

and the face are removed

2321

01:26:49,310 --> 01:26:46,320

um surgical Precision of the uh

2322

01:26:51,169 --> 01:26:49,320

incisions that were made soft tissues

2323

01:26:53,510 --> 01:26:51,179

and locations that include anus

2324

01:26:55,129 --> 01:26:53,520

genitalia what have you

2325

01:26:57,050 --> 01:26:55,139

um also notably they're saying that

2326

01:26:59,870 --> 01:26:57,060

there's a lack of depredation by

2327

01:27:01,790 --> 01:26:59,880

scavengers that occurs

2328

01:27:03,530 --> 01:27:01,800

um in the aftermath of these deaths and

2329

01:27:04,669 --> 01:27:03,540

no clear evidence of any kind of a

2330

01:27:06,709 --> 01:27:04,679

struggle or anything that might have

2331

01:27:10,370 --> 01:27:06,719

happened you know because I mean it does

2332

01:27:13,790 --> 01:27:10,380

happen occasionally that animals like uh

2333

01:27:15,649 --> 01:27:13,800

Wolves of course mountain lions also uh

2334

01:27:18,290 --> 01:27:15,659

and even in some instances certain kinds

2335

01:27:21,169 --> 01:27:18,300

of bear if they're hungry enough will

2336

01:27:23,030 --> 01:27:21,179

sometimes attack cattle they say that

2337

01:27:25,030 --> 01:27:23,040

they didn't find any evidence of that

2338

01:27:28,010 --> 01:27:25,040

and further that the the general

2339

01:27:29,390 --> 01:27:28,020

Scavenging kind of behaviors by

2340

01:27:31,970 --> 01:27:29,400

animals that would come along after an

2341

01:27:34,010 --> 01:27:31,980

animal has been killed like this hadn't

2342

01:27:37,070 --> 01:27:34,020

occurred that these animals wouldn't

2343

01:27:40,189 --> 01:27:37,080

touch the purportedly muted mutilated

2344

01:27:42,110 --> 01:27:40,199

cattle that contrast that's very similar

2345

01:27:43,430 --> 01:27:42,120

to the classic what we might call cattle

2346

01:27:44,629 --> 01:27:43,440

mutilation report but it's very

2347

01:27:47,629 --> 01:27:44,639

different from the kinds of things that

2348

01:27:51,229 --> 01:27:47,639

I was observing in Meeker Colorado last

2349

01:27:55,149 --> 01:27:51,239

year because what we had there was about

2350

01:27:58,010 --> 01:27:55,159

uh I mean maybe a couple of dozen or so

2351

01:28:00,770 --> 01:27:58,020

calves that just kind of mysteriously

2352

01:28:02,149 --> 01:28:00,780

dropped dead out there on uh Colorado's

2353

01:28:04,790 --> 01:28:02,159

Western Slope

2354

01:28:07,310 --> 01:28:04,800

uh and so uh the Colorado Parks and

2355

01:28:09,709 --> 01:28:07,320

Wildlife began to investigate this

2356

01:28:11,750 --> 01:28:09,719

and they had initially said that there

2357

01:28:14,750 --> 01:28:11,760

was some evidence of depredation that

2358

01:28:16,250 --> 01:28:14,760

they attributed to a large canine but

2359

01:28:17,510 --> 01:28:16,260

then it was determined that some of

2360

01:28:18,950 --> 01:28:17,520

these cattle it seemed like they just

2361

01:28:20,930 --> 01:28:18,960

dropped dead there was no clear

2362

01:28:22,910 --> 01:28:20,940

discernible evidence and they have come

2363

01:28:25,070 --> 01:28:22,920

out and said we explicitly say there is

2364

01:28:27,530 --> 01:28:25,080

no evidence we can strongly attribute to

2365

01:28:28,970 --> 01:28:27,540

wolves which actually gets into a bit of

2366

01:28:30,649 --> 01:28:28,980

a political issue that they've been

2367

01:28:32,450 --> 01:28:30,659

experiencing in Colorado because there's

2368

01:28:34,910 --> 01:28:32,460

currently a wolf reintroduction plan

2369

01:28:36,470 --> 01:28:34,920

going on out there and of course the

2370

01:28:38,450 --> 01:28:36,480

idea that wolves or any other kind of a

2371

01:28:40,189 --> 01:28:38,460

predator might have killed cattle that's

2372

01:28:41,390 --> 01:28:40,199

probably not interesting to the most of

2373

01:28:43,129 --> 01:28:41,400

the people out there who say come on

2374

01:28:45,350 --> 01:28:43,139

cattle mutilations we know aliens are

2375

01:28:46,970 --> 01:28:45,360

doing it right those if if we're talking

2376

01:28:49,010 --> 01:28:46,980

about you know wolves or something like

2377

01:28:50,870 --> 01:28:49,020

that we're not interested in those

2378

01:28:53,270 --> 01:28:50,880

I actually do the contrary after I put

2379

01:28:55,970 --> 01:28:53,280

this article out there at the debrief a

2380

01:28:57,229 --> 01:28:55,980

lot of uh cattle mutilator or not the

2381

01:28:59,090 --> 01:28:57,239

mutilators themselves but a cattle

2382

01:29:01,010 --> 01:28:59,100

mutilation researchers reached out and

2383

01:29:02,510 --> 01:29:01,020

they they said this is interesting to us

2384

01:29:04,490 --> 01:29:02,520

because

2385

01:29:06,290 --> 01:29:04,500

um what's your report and your reporting

2386

01:29:08,530 --> 01:29:06,300

based on the interviews I conducted with

2387

01:29:11,390 --> 01:29:08,540

Colorado Parks and Wildlife

2388

01:29:14,330 --> 01:29:11,400

officials including the Northwest

2389

01:29:16,310 --> 01:29:14,340

regional manager Travis black reached

2390

01:29:18,830 --> 01:29:16,320

out to a biologist who had conducted

2391

01:29:20,330 --> 01:29:18,840

some of the analyzes also it was the

2392

01:29:22,490 --> 01:29:20,340

largest single

2393

01:29:26,270 --> 01:29:22,500

wasn't technically a four-year when it's

2394

01:29:28,070 --> 01:29:26,280

a state agency like that it's usually a

2395

01:29:29,689 --> 01:29:28,080

public records act request but it was

2396

01:29:31,790 --> 01:29:29,699

both the largest and the most expensive

2397

01:29:33,890 --> 01:29:31,800

uh public records act request

2398

01:29:35,270 --> 01:29:33,900

potentially ended up being the the price

2399

01:29:37,729 --> 01:29:35,280

reduced a little bit but I mean it was

2400

01:29:39,110 --> 01:29:37,739

one of the most extensive foias you

2401
01:29:40,790 --> 01:29:39,120
might say that I've ever been involved

2402
01:29:42,590 --> 01:29:40,800
with and they released gigabytes of

2403
01:29:44,030 --> 01:29:42,600
information to me which included

2404
01:29:46,430 --> 01:29:44,040
beautiful imagery of the cattle

2405
01:29:48,470 --> 01:29:46,440
necropsies which trust me you don't want

2406
01:29:49,490 --> 01:29:48,480
to eat those uh after you've had your

2407
01:29:52,310 --> 01:29:49,500
lunch

2408
01:29:54,050 --> 01:29:52,320
not exactly Pleasant stuff but again I

2409
01:29:56,330 --> 01:29:54,060
waited through all this data to try and

2410
01:29:58,070 --> 01:29:56,340
really get a much deeper understanding

2411
01:30:00,050 --> 01:29:58,080
of the different kinds of

2412
01:30:02,149 --> 01:30:00,060
things that can contribute to cattle

2413
01:30:04,010 --> 01:30:02,159

does and here's how this applies to what

2414

01:30:06,229 --> 01:30:04,020

we might be seeing in Texas and other

2415

01:30:08,270 --> 01:30:06,239

mysterious uh you know cattle deaths

2416

01:30:09,530 --> 01:30:08,280

that occur livestock deaths actually

2417

01:30:11,570 --> 01:30:09,540

some prefer to say because it's not

2418

01:30:12,890 --> 01:30:11,580

always just cattle occasionally we also

2419

01:30:14,870 --> 01:30:12,900

have this happening to horses and things

2420

01:30:16,490 --> 01:30:14,880

like that as in the famous case of

2421

01:30:19,729 --> 01:30:16,500

snippy but

2422

01:30:22,010 --> 01:30:19,739

um first cattle can be susceptible to

2423

01:30:24,530 --> 01:30:22,020

the onset of different kind of bacteria

2424

01:30:27,229 --> 01:30:24,540

clostridium is uh the strain that

2425

01:30:29,390 --> 01:30:27,239

usually can lead to various kinds of

2426

01:30:31,490 --> 01:30:29,400

infections but one of the conditions

2427

01:30:34,310 --> 01:30:31,500

that often affects those cattle is

2428

01:30:37,310 --> 01:30:34,320

what's known as black leg there are also

2429

01:30:39,169 --> 01:30:37,320

based on the altitude at which some

2430

01:30:40,729 --> 01:30:39,179

cattle are existing especially those at

2431

01:30:42,950 --> 01:30:40,739

higher altitudes what's known as brisket

2432

01:30:44,750 --> 01:30:42,960

disease which is I think a form of

2433

01:30:46,430 --> 01:30:44,760

hypoxia that can also lead to further

2434

01:30:48,970 --> 01:30:46,440

complications that certain cattle can

2435

01:30:52,189 --> 01:30:48,980

experience thereafter

2436

01:30:54,590 --> 01:30:52,199

there's also toxicity that is often

2437

01:30:55,790 --> 01:30:54,600

overlooked as a potential cause of death

2438

01:30:58,250 --> 01:30:55,800

in cattle

2439

01:31:00,649 --> 01:30:58,260

toxicity can result from for instance I

2440

01:31:02,330 --> 01:31:00,659

think uh Tani ragward I think is the

2441

01:31:05,689 --> 01:31:02,340

name of one of these plants that in some

2442

01:31:07,189 --> 01:31:05,699

instances there have been cattle that

2443

01:31:09,590 --> 01:31:07,199

have when they're being moved from one

2444

01:31:12,169 --> 01:31:09,600

plot of land to another the cattle May

2445

01:31:14,990 --> 01:31:12,179

some of them can ingest one of these

2446

01:31:17,090 --> 01:31:15,000

toxic plants they're moved over

2447

01:31:19,610 --> 01:31:17,100

within sometimes hours or a couple of

2448

01:31:20,930 --> 01:31:19,620

days the the cow dies right and they're

2449

01:31:22,189 --> 01:31:20,940

like there was nothing on the land here

2450

01:31:24,950 --> 01:31:22,199

that could have possibly killed the

2451
01:31:26,930 --> 01:31:24,960
cattle mysterious death but toxicology

2452
01:31:28,189 --> 01:31:26,940
reports later indicate that indeed there

2453
01:31:30,830 --> 01:31:28,199
was the presence of this particular

2454
01:31:33,470 --> 01:31:30,840
toxin in some of these specimens what's

2455
01:31:35,870 --> 01:31:33,480
interesting about the classic cattle

2456
01:31:37,370 --> 01:31:35,880
mutilation cases like this is I would

2457
01:31:38,810 --> 01:31:37,380
argue that

2458
01:31:41,030 --> 01:31:38,820
um researchers like myself and actually

2459
01:31:44,510 --> 01:31:41,040
a lot of the Old Guard cattle mutilator

2460
01:31:47,629 --> 01:31:44,520
uh investigators like Chris O'Brien and

2461
01:31:49,370 --> 01:31:47,639
others they they're very aware of all

2462
01:31:52,490 --> 01:31:49,380
these different things that can cause

2463
01:31:54,169 --> 01:31:52,500

the deaths of cows I often see Skeptics

2464

01:31:57,110 --> 01:31:54,179

saying there's no evidence of anything

2465

01:31:59,810 --> 01:31:57,120

extraordinary and all these alien

2466

01:32:02,330 --> 01:31:59,820

theorists look you got to be clear a lot

2467

01:32:05,629 --> 01:32:02,340

of the cattle mutilation researchers are

2468

01:32:07,550 --> 01:32:05,639

not trying to link this phenomena to

2469

01:32:10,310 --> 01:32:07,560

UFOs or extraterrestrials or anything

2470

01:32:13,129 --> 01:32:10,320

like that right right but I also take

2471

01:32:15,890 --> 01:32:13,139

issue first of all with that with that

2472

01:32:17,930 --> 01:32:15,900

um sometimes in unfair improper

2473

01:32:20,209 --> 01:32:17,940

connection that is made and further that

2474

01:32:23,149 --> 01:32:20,219

the Skeptics claim that they're in every

2475

01:32:25,790 --> 01:32:23,159

case is a mundane cause Behind These

2476

01:32:27,950 --> 01:32:25,800

cattle mutilations that flatly is is

2477

01:32:29,930 --> 01:32:27,960

wrong and I'll tell you why back

2478

01:32:31,310 --> 01:32:29,940

beginning in the 1970s when a lot of

2479

01:32:33,290 --> 01:32:31,320

these cases were occurring and you had

2480

01:32:34,910 --> 01:32:33,300

Gabe Valdez and a lot of these guys who

2481

01:32:36,890 --> 01:32:34,920

were you know members of State

2482

01:32:38,270 --> 01:32:36,900

organizations police agencies and things

2483

01:32:40,729 --> 01:32:38,280

that were investigating this because at

2484

01:32:42,470 --> 01:32:40,739

that time the FBI said well we're not

2485

01:32:44,270 --> 01:32:42,480

getting involved and actually

2486

01:32:46,070 --> 01:32:44,280

there may have been you know

2487

01:32:47,750 --> 01:32:46,080

justification for that because

2488

01:32:49,970 --> 01:32:47,760

there are a lot of these cattle deaths

2489

01:32:52,010 --> 01:32:49,980

they didn't involve anything that seemed

2490

01:32:53,689 --> 01:32:52,020

to be going across state lines right in

2491

01:32:55,790 --> 01:32:53,699

other words the FBI was arguing there

2492

01:32:57,890 --> 01:32:55,800

doesn't seem to be any kind of a need

2493

01:32:59,810 --> 01:32:57,900

for a you know federal law enforcement

2494

01:33:02,090 --> 01:32:59,820

investment investigation to get in there

2495

01:33:04,250 --> 01:33:02,100

this is kind of outside our jurisdiction

2496

01:33:06,110 --> 01:33:04,260

now they did the FBI keep a file on

2497

01:33:07,850 --> 01:33:06,120

cattle mutilation but it mostly was just

2498

01:33:09,890 --> 01:33:07,860

they were kind of keeping tabs on the

2499

01:33:12,229 --> 01:33:09,900

individual states and their individual

2500

01:33:13,189 --> 01:33:12,239

investigations gave Valdez and others

2501

01:33:14,510 --> 01:33:13,199

who were looking into this so they

2502

01:33:16,010 --> 01:33:14,520

noticed some really strange things in

2503

01:33:18,410 --> 01:33:16,020

addition to the kind of criteria we see

2504

01:33:22,070 --> 01:33:18,420

in this case in Texas right now surgical

2505

01:33:24,129 --> 01:33:22,080

Precision uh very key components or you

2506

01:33:27,050 --> 01:33:24,139

know body parts being removed eyes

2507

01:33:29,450 --> 01:33:27,060

tongues anus genitalia things like that

2508

01:33:31,070 --> 01:33:29,460

soft organs which notably Skeptics do

2509

01:33:33,229 --> 01:33:31,080

point out and maybe rightly so in this

2510

01:33:35,510 --> 01:33:33,239

case that those kinds of soft organs

2511

01:33:37,669 --> 01:33:35,520

usually are the first things

2512

01:33:39,770 --> 01:33:37,679

that scavengers will go after I know

2513

01:33:41,990 --> 01:33:39,780

that from my own extensive analysis of

2514

01:33:44,390 --> 01:33:42,000

delicious lovely cattle necropsy

2515

01:33:45,290 --> 01:33:44,400

photographs that yes indeed even when we

2516

01:33:46,729 --> 01:33:45,300

know

2517

01:33:48,410 --> 01:33:46,739

that there wasn't something like a

2518

01:33:50,090 --> 01:33:48,420

mutilation that occurred often those

2519

01:33:52,910 --> 01:33:50,100

components are missing because those are

2520

01:33:54,590 --> 01:33:52,920

the soft tissues that little Scavenging

2521

01:33:56,390 --> 01:33:54,600

animals insects birds and things are

2522

01:33:58,129 --> 01:33:56,400

going to go after us that does happen

2523

01:34:00,169 --> 01:33:58,139

but and I'm no cattle mutilation

2524

01:34:01,490 --> 01:34:00,179

investigation expert by any means but

2525

01:34:03,470 --> 01:34:01,500

from what I do know about it I'll tell

2526

01:34:05,390 --> 01:34:03,480

you this there were also instances in

2527

01:34:07,550 --> 01:34:05,400

the 1970s where they began to find that

2528

01:34:08,930 --> 01:34:07,560

there were substances like a paint like

2529

01:34:10,310 --> 01:34:08,940

kind of a substance that had been found

2530

01:34:12,830 --> 01:34:10,320

on the backs of some of these cattle

2531

01:34:14,930 --> 01:34:12,840

that would fluoresce under a black light

2532

01:34:16,490 --> 01:34:14,940

which the cattle ranchers the producers

2533

01:34:19,010 --> 01:34:16,500

in other words had not put on there

2534

01:34:21,370 --> 01:34:19,020

themselves it was as though some of

2535

01:34:23,450 --> 01:34:21,380

these cattle had been branded

2536

01:34:25,610 --> 01:34:23,460

not like in the traditional sense of

2537

01:34:28,010 --> 01:34:25,620

branding cattle like they'd been marked

2538

01:34:30,830 --> 01:34:28,020

possibly for monitoring or for whatever

2539

01:34:32,530 --> 01:34:30,840

else I have personally interviewed a few

2540

01:34:34,910 --> 01:34:32,540

uh producers

2541

01:34:37,669 --> 01:34:34,920

who have experienced this phenomena and

2542

01:34:39,229 --> 01:34:37,679

who have investigated it firsthand who

2543

01:34:41,090 --> 01:34:39,239

are not part of the researcher Community

2544

01:34:43,010 --> 01:34:41,100

there the cattle ranchers who have had

2545

01:34:44,330 --> 01:34:43,020

it happen to their cattle

2546

01:34:46,010 --> 01:34:44,340

um they've told me the stories about

2547

01:34:48,590 --> 01:34:46,020

everything you see here in this article

2548

01:34:50,450 --> 01:34:48,600

you know uh sometimes examination the

2549

01:34:52,790 --> 01:34:50,460

blood is drained from the from the uh

2550

01:34:54,590 --> 01:34:52,800

animal entirely

2551
01:34:57,410 --> 01:34:54,600
um sometimes the markings again are

2552
01:34:58,850 --> 01:34:57,420
clearly Surgical and curiously they also

2553
01:35:00,169 --> 01:34:58,860
say and this is one gentleman I spoke

2554
01:35:02,629 --> 01:35:00,179
with who I believe also was from

2555
01:35:04,189 --> 01:35:02,639
Colorado originally when I interviewed

2556
01:35:08,510 --> 01:35:04,199
him about one of these cases he said

2557
01:35:12,890 --> 01:35:08,520
that there were clearly these three

2558
01:35:14,209 --> 01:35:12,900
about uh football sized impressions in

2559
01:35:17,570 --> 01:35:14,219
the ground

2560
01:35:20,209 --> 01:35:17,580
forming a triangle around where the

2561
01:35:22,250 --> 01:35:20,219
cattle's remains had actually been found

2562
01:35:23,450 --> 01:35:22,260
as though something had come down from

2563
01:35:26,270 --> 01:35:23,460

the sky

2564

01:35:27,590 --> 01:35:26,280

and potentially dropped deposited those

2565

01:35:28,729 --> 01:35:27,600

remains there now what that might have

2566

01:35:32,330 --> 01:35:28,739

been I don't know

2567

01:35:35,689 --> 01:35:32,340

but these are certain elements that are

2568

01:35:37,310 --> 01:35:35,699

criteria that appear in the minority of

2569

01:35:40,189 --> 01:35:37,320

these kinds of cases

2570

01:35:42,169 --> 01:35:40,199

and again I'll defer to you know experts

2571

01:35:44,030 --> 01:35:42,179

like my colleague Chris O'Brien who will

2572

01:35:46,070 --> 01:35:44,040

tell you that majority of these things

2573

01:35:48,530 --> 01:35:46,080

are mundane but it's that that small

2574

01:35:50,149 --> 01:35:48,540

number of cases that point to there

2575

01:35:52,310 --> 01:35:50,159

being something else and Chris doesn't

2576

01:35:55,490 --> 01:35:52,320

say aliens you know I've heard him say

2577

01:35:57,950 --> 01:35:55,500

jokingly sorry Linda you know it doesn't

2578

01:36:00,709 --> 01:35:57,960

seem to be aliens if anything Chris has

2579

01:36:01,970 --> 01:36:00,719

argued for years now that he thinks that

2580

01:36:04,370 --> 01:36:01,980

there's probably some sort of a

2581

01:36:07,370 --> 01:36:04,380

governmental monitoring program

2582

01:36:09,350 --> 01:36:07,380

that is looking at the possibility of

2583

01:36:12,530 --> 01:36:09,360

radiation contamination and these sorts

2584

01:36:13,790 --> 01:36:12,540

of things uh with regard to cattle and

2585

01:36:16,250 --> 01:36:13,800

that this has been something that's been

2586

01:36:18,830 --> 01:36:16,260

going on for many decades so at least

2587

01:36:21,530 --> 01:36:18,840

for my own part I feel like the cattle

2588

01:36:25,129 --> 01:36:21,540

mutilations in those instances they are

2589

01:36:27,050 --> 01:36:25,139

a clearly uh you know consistent

2590

01:36:29,750 --> 01:36:27,060

phenomenon that there's consistent

2591

01:36:31,070 --> 01:36:29,760

criteria that seem to denote those kinds

2592

01:36:33,649 --> 01:36:31,080

of cases the ones I looked at in

2593

01:36:35,030 --> 01:36:33,659

Colorado were not that and I think that

2594

01:36:36,709 --> 01:36:35,040

it's clear and it's important to

2595

01:36:38,149 --> 01:36:36,719

understand that there are things factors

2596

01:36:40,610 --> 01:36:38,159

that can contribute to the deaths of

2597

01:36:42,890 --> 01:36:40,620

cattle in those instances that may be

2598

01:36:45,890 --> 01:36:42,900

mistaken for cattle mutilations

2599

01:36:47,209 --> 01:36:45,900

uh and after you sent me this story no

2600

01:36:48,709 --> 01:36:47,219

joke I literally started looking at

2601

01:36:49,910 --> 01:36:48,719

flights because I'm ready to fly to

2602

01:36:51,830 --> 01:36:49,920

Texas now and I'd like to go down there

2603

01:36:54,649 --> 01:36:51,840

and talk to those producers and look

2604

01:36:57,050 --> 01:36:54,659

into this I'm not kidding absolutely I I

2605

01:36:57,770 --> 01:36:57,060

knew you'd be on it I I knew it I knew

2606

01:37:03,470 --> 01:36:57,780

it

2607

01:37:05,510 --> 01:37:03,480

story really made the rounds um JL and

2608

01:37:07,729 --> 01:37:05,520

Heineken in the chat I gotta read this

2609

01:37:09,229 --> 01:37:07,739

to put things on a lighter note I think

2610

01:37:10,970 --> 01:37:09,239

I've heard the word anus more in this

2611

01:37:12,350 --> 01:37:10,980

live stream than Pat's ones yeah I'm

2612

01:37:14,570 --> 01:37:12,360

pretty sure I've never used the word

2613

01:37:17,149 --> 01:37:14,580

anus in any live stream I could be wrong

2614

01:37:21,410 --> 01:37:17,159

on that someone go back and dig in the

2615

01:37:23,090 --> 01:37:21,420

archives please but um yeah yeah well

2616

01:37:26,390 --> 01:37:23,100

hey I mean that's the reality of the

2617

01:37:28,370 --> 01:37:26,400

situation it's extremely graphic and and

2618

01:37:31,070 --> 01:37:28,380

unfortunate what happens to these

2619

01:37:33,649 --> 01:37:31,080

animals and um you know we're no closer

2620

01:37:35,510 --> 01:37:33,659

to answers and they seem to be happening

2621

01:37:37,669 --> 01:37:35,520

all over the U.S I'm sure in other

2622

01:37:40,129 --> 01:37:37,679

countries as well but a lot of it does

2623

01:37:41,689 --> 01:37:40,139

happen primarily in in the US at least

2624

01:37:43,490 --> 01:37:41,699

the ones we hear about in the western

2625

01:37:46,490 --> 01:37:43,500

world and

2626
01:37:48,290 --> 01:37:46,500
um they remain unexplained so yeah get

2627
01:37:50,990 --> 01:37:48,300
on that plane get over to Texas man we

2628
01:37:52,610 --> 01:37:51,000
need you on this case but I knew you'd

2629
01:37:54,890 --> 01:37:52,620
be the guy to come to very quickly and

2630
01:37:56,990 --> 01:37:54,900
reject to the I mean please it's not

2631
01:37:58,189 --> 01:37:57,000
impossible to occasionally hear about

2632
01:38:00,110 --> 01:37:58,199
these kind of things in other parts of

2633
01:38:02,209 --> 01:38:00,120
the world mutilation incidents involving

2634
01:38:03,649 --> 01:38:02,219
livestock but

2635
01:38:07,129 --> 01:38:03,659
um when I've reached out to my South

2636
01:38:09,290 --> 01:38:07,139
American uh uh correspondence in

2637
01:38:11,689 --> 01:38:09,300
especially in Brazil but in certain

2638
01:38:13,310 --> 01:38:11,699

other regions of Latin America they do

2639

01:38:14,750 --> 01:38:13,320

seem to say that there is less of it

2640

01:38:17,209 --> 01:38:14,760

there and depending on whom you ask

2641

01:38:20,270 --> 01:38:17,219

there seems to be less of that occurring

2642

01:38:22,850 --> 01:38:20,280

there which to me unlike UFOs which I

2643

01:38:26,330 --> 01:38:22,860

mean are reported all over the place uh

2644

01:38:28,910 --> 01:38:26,340

again my Brazilian colleagues would

2645

01:38:30,950 --> 01:38:28,920

speak at length about the prevalence the

2646

01:38:32,570 --> 01:38:30,960

tremendous prevalence in the in the

2647

01:38:34,729 --> 01:38:32,580

history of National Security with

2648

01:38:36,189 --> 01:38:34,739

relation to that down in Brazil but they

2649

01:38:38,330 --> 01:38:36,199

say that there's a lot less of the

2650

01:38:40,610 --> 01:38:38,340

cattle mutilation kind of a thing which

2651
01:38:42,830 --> 01:38:40,620
again to me suggests that unlike UFOs

2652
01:38:45,830 --> 01:38:42,840
maybe cattlemutilation is something

2653
01:38:49,010 --> 01:38:45,840
that's primarily a U.S problem and if

2654
01:38:51,050 --> 01:38:49,020
again that that may lend some weight to

2655
01:38:52,910 --> 01:38:51,060
some of Chris O'Brien's uh theories

2656
01:38:56,030 --> 01:38:52,920
which I think really are probably in

2657
01:38:57,410 --> 01:38:56,040
some total the best assessment broadly

2658
01:38:58,729 --> 01:38:57,420
of the phenomenon and again he wrote

2659
01:39:00,830 --> 01:38:58,739
that excellent book years ago called

2660
01:39:02,570 --> 01:39:00,840
stalking the herd if anybody really

2661
01:39:04,370 --> 01:39:02,580
wants to take a serious deep dive into

2662
01:39:06,290 --> 01:39:04,380
cattle mutilations I mean that is the

2663
01:39:09,169 --> 01:39:06,300

book to read about it small things are

2664

01:39:12,350 --> 01:39:09,179

heard by Chris O'Brien absolutely can't

2665

01:39:15,410 --> 01:39:12,360

recommend it enough for sure

2666

01:39:17,390 --> 01:39:15,420

um awesome man well let's move to our

2667

01:39:19,550 --> 01:39:17,400

last story of the night we got there we

2668

01:39:21,410 --> 01:39:19,560

finally got there this has been a

2669

01:39:23,629 --> 01:39:21,420

jam-packed episode thanks for sticking

2670

01:39:24,590 --> 01:39:23,639

around buddy I truly appreciate your

2671

01:39:26,450 --> 01:39:24,600

time

2672

01:39:28,430 --> 01:39:26,460

um thanks to everyone in the chat I'm

2673

01:39:30,890 --> 01:39:28,440

trying to read all your comments guys um

2674

01:39:32,870 --> 01:39:30,900

Chad is a lively Tonight I'm loving it

2675

01:39:34,250 --> 01:39:32,880

and

2676

01:39:37,370 --> 01:39:34,260

um I do have to send out a special

2677

01:39:39,649 --> 01:39:37,380

thanks to um to Jazz Shaw he did give us

2678

01:39:41,689 --> 01:39:39,659

a super chat here that I was not able to

2679

01:39:43,910 --> 01:39:41,699

shout out um he left for the night but

2680

01:39:46,550 --> 01:39:43,920

thank you Jazz truly truly appreciate it

2681

01:39:49,250 --> 01:39:46,560

yeah always good to hear from Jazz yes

2682

01:39:51,290 --> 01:39:49,260

absolutely huge supporter of the channel

2683

01:39:53,330 --> 01:39:51,300

here in the podcast probably gonna have

2684

01:39:57,110 --> 01:39:53,340

them back on very soon

2685

01:40:00,470 --> 01:39:57,120

um okay Micah last story of the day we

2686

01:40:03,590 --> 01:40:00,480

have to end with our buddy our friend

2687

01:40:08,270 --> 01:40:03,600

our colleague our Nemesis our hero our

2688

01:40:11,570 --> 01:40:08,280

anti-hero the one the only Luis Elizondo

2689

01:40:13,850 --> 01:40:11,580

this story came out in Popular Mechanics

2690

01:40:16,669 --> 01:40:13,860

this past weekend

2691

01:40:18,470 --> 01:40:16,679

um the Elizondo saga continues the

2692

01:40:21,350 --> 01:40:18,480

article was called the truth is out

2693

01:40:23,270 --> 01:40:21,360

there so is Lou Elizondo unidentified

2694

01:40:25,790 --> 01:40:23,280

craft are entering restricted U.S

2695

01:40:29,390 --> 01:40:25,800

airspace Elizondo wants to ensure they

2696

01:40:31,550 --> 01:40:29,400

don't call us the next Pearl Harbor so a

2697

01:40:34,250 --> 01:40:31,560

recent expose on Luis Elizondo was

2698

01:40:36,169 --> 01:40:34,260

published by pop MEK it went through a

2699

01:40:38,810 --> 01:40:36,179

deeply thorough and personal journey

2700

01:40:40,790 --> 01:40:38,820

through elizondo's life growing up his

2701

01:40:42,890 --> 01:40:40,800

life during his time in the military and

2702

01:40:46,189 --> 01:40:42,900

with the Department of Defense including

2703

01:40:48,770 --> 01:40:46,199

his work on atip it also chronicled his

2704

01:40:51,490 --> 01:40:48,780

resignation from atip the trials and

2705

01:40:54,229 --> 01:40:51,500

tribulations of his home life after this

2706

01:40:56,870 --> 01:40:54,239

uh his dealings with pushback from his

2707

01:40:58,870 --> 01:40:56,880

peers in Superior and what has been

2708

01:41:01,910 --> 01:40:58,880

accomplished in the UFO conversation

2709

01:41:03,229 --> 01:41:01,920

since he came forward

2710

01:41:06,709 --> 01:41:03,239

um but

2711

01:41:07,790 --> 01:41:06,719

this article Micah was huge it was

2712

01:41:10,310 --> 01:41:07,800

massive

2713

01:41:12,770 --> 01:41:10,320

um wonderful work by the gentleman who

2714

01:41:15,709 --> 01:41:12,780

wrote it uh I I never read anything else

2715

01:41:17,930 --> 01:41:15,719

by him but he did fantastic work on this

2716

01:41:19,490 --> 01:41:17,940

went and actually stayed with Elizondo

2717

01:41:21,770 --> 01:41:19,500

for a little while

2718

01:41:24,110 --> 01:41:21,780

um spoke to a lot of his colleagues and

2719

01:41:26,270 --> 01:41:24,120

whatnot but what really stood out to me

2720

01:41:27,770 --> 01:41:26,280

is that quote you see at the bottom

2721

01:41:31,010 --> 01:41:27,780

there so I'm just going to go ahead and

2722

01:41:34,609 --> 01:41:31,020

read it and this quote came from a um a

2723

01:41:36,109 --> 01:41:34,619

intelligence colleague of elizondo's who

2724

01:41:38,689 --> 01:41:36,119

remained Anonymous

2725

01:41:41,810 --> 01:41:38,699

um but I did want to read this out an

2726

01:41:44,450 --> 01:41:41,820

army of more than 1500 volunteers within

2727

01:41:46,850 --> 01:41:44,460

the intelligence Community now meets on

2728

01:41:50,450 --> 01:41:46,860

classified networks where they analyze

2729

01:41:53,830 --> 01:41:50,460

UAP videos and data this group includes

2730

01:41:57,050 --> 01:41:53,840

literally everyone CIA to the National

2731

01:41:59,270 --> 01:41:57,060

geospatial Intelligence Agency and

2732

01:42:00,770 --> 01:41:59,280

everyone in between

2733

01:42:03,530 --> 01:42:00,780

um you know a lot of this article was

2734

01:42:06,350 --> 01:42:03,540

stuff we already knew it was cool to get

2735

01:42:08,209 --> 01:42:06,360

a more human side to Elizondo and the

2736

01:42:11,090 --> 01:42:08,219

you know kind of the consequences and

2737

01:42:13,910 --> 01:42:11,100

ramifications for him resigning from his

2738

01:42:15,950 --> 01:42:13,920

position at the dod and also with

2739

01:42:17,810 --> 01:42:15,960

everything he brought forward and kind

2740

01:42:19,430 --> 01:42:17,820

of where he's at right now in this

2741

01:42:22,790 --> 01:42:19,440

journey he's been on these past few

2742

01:42:26,209 --> 01:42:22,800

years but this quote really stopped me

2743

01:42:28,250 --> 01:42:26,219

in my tracks you know we've got a UA UAP

2744

01:42:30,830 --> 01:42:28,260

hearing that just took place with arrow

2745

01:42:32,990 --> 01:42:30,840

and we're learning of how small this

2746

01:42:35,990 --> 01:42:33,000

group is that's looking at UAP and then

2747

01:42:38,570 --> 01:42:36,000

we have this quote same 1500 volunteers

2748

01:42:42,410 --> 01:42:38,580

on you know these classified networks

2749

01:42:44,149 --> 01:42:42,420

are looking and analyzing UFO videos I I

2750

01:42:45,890 --> 01:42:44,159

immediately reached out to you I'm like

2751

01:42:49,010 --> 01:42:45,900

what the hell is this where did this

2752

01:42:50,149 --> 01:42:49,020

come from what what is going on so first

2753

01:42:51,050 --> 01:42:50,159

and foremost

2754

01:42:52,490 --> 01:42:51,060

um

2755

01:42:56,030 --> 01:42:52,500

what do you think what do you think

2756

01:42:57,590 --> 01:42:56,040

about this huge expose about Elizondo

2757

01:42:59,870 --> 01:42:57,600

coming out right now I find it

2758

01:43:01,550 --> 01:42:59,880

interesting it came out right now

2759

01:43:03,709 --> 01:43:01,560

um we know his book is going to be

2760

01:43:05,990 --> 01:43:03,719

coming out hopefully this year

2761

01:43:07,250 --> 01:43:06,000

um but this quote what do you make of

2762

01:43:10,490 --> 01:43:07,260

this

2763

01:43:12,770 --> 01:43:10,500

yeah I haven't had the time to read the

2764

01:43:14,330 --> 01:43:12,780

article yet and of course you and I

2765

01:43:15,890 --> 01:43:14,340

talked about this beforehand so I mean

2766

01:43:17,050 --> 01:43:15,900

specifically I know we're talking about

2767

01:43:19,490 --> 01:43:17,060

this quote and I definitely have

2768

01:43:20,990 --> 01:43:19,500

perspectives to add to that

2769

01:43:23,870 --> 01:43:21,000

um first I do just want to say I'd like

2770

01:43:25,729 --> 01:43:23,880

to read the pop Mac article

2771

01:43:29,450 --> 01:43:25,739

um good to see that they're still uh you

2772

01:43:31,070 --> 01:43:29,460

know providing in-depth uh analysis of

2773

01:43:32,270 --> 01:43:31,080

that aspect of it and the people who've

2774

01:43:34,250 --> 01:43:32,280

been involved because again I really

2775

01:43:36,950 --> 01:43:34,260

think that somebody who led the charge

2776

01:43:39,770 --> 01:43:36,960

with that is my co-founder and cohort my

2777

01:43:41,450 --> 01:43:39,780

good buddy Tim McMillan who prior to us

2778

01:43:43,310 --> 01:43:41,460

founding the debrief back when I was

2779

01:43:45,470 --> 01:43:43,320

just pitching an idea to him for a Blog

2780

01:43:47,330 --> 01:43:45,480

I'd said you wait I said all these

2781

01:43:48,470 --> 01:43:47,340

magazines that are so interested in UFOs

2782

01:43:50,689 --> 01:43:48,480

right now it's going to be harder and

2783

01:43:52,850 --> 01:43:50,699

harder to get published stories about

2784

01:43:53,930 --> 01:43:52,860

that frequently we we wanted to create a

2785

01:43:55,910 --> 01:43:53,940

medium where we could do that with the

2786

01:43:57,709 --> 01:43:55,920

debrief and that's what we did but

2787

01:43:59,689 --> 01:43:57,719

before we ever launched that effort Tim

2788

01:44:01,850 --> 01:43:59,699

you know was doing excellent reporting

2789

01:44:04,010 --> 01:44:01,860

on that subject getting to know Lou

2790

01:44:05,870 --> 01:44:04,020

Elizondo and others in government as

2791

01:44:06,950 --> 01:44:05,880

I've also done in recent years and to

2792

01:44:08,930 --> 01:44:06,960

that point

2793

01:44:10,790 --> 01:44:08,940

the quote that you shared there is not

2794

01:44:13,550 --> 01:44:10,800

particularly surprising to me and I can

2795

01:44:14,990 --> 01:44:13,560

tell you one great reason why

2796

01:44:16,729 --> 01:44:15,000

um citing another individual that Lou

2797

01:44:18,229 --> 01:44:16,739

knows very well and that has recently

2798

01:44:20,090 --> 01:44:18,239

kind of come into the public Spotlight

2799

01:44:22,310 --> 01:44:20,100

with relation to his involvement with

2800

01:44:24,890 --> 01:44:22,320

UAP investigation I've already mentioned

2801
01:44:27,950 --> 01:44:24,900
his name previously that's Jay Stratton

2802
01:44:29,689 --> 01:44:27,960
I think very highly of Jay Stratton

2803
01:44:31,729 --> 01:44:29,699
um I don't keep in touch with him

2804
01:44:33,530 --> 01:44:31,739
frequently but we do remain in contact

2805
01:44:37,790 --> 01:44:33,540
and

2806
01:44:39,709 --> 01:44:37,800
an off the record conversation I didn't

2807
01:44:41,930 --> 01:44:39,719
sit down and interview him

2808
01:44:43,250 --> 01:44:41,940
uh you know because frankly with the

2809
01:44:45,109 --> 01:44:43,260
exception of one interview that he gave

2810
01:44:47,209 --> 01:44:45,119
to journalist George Knapp in fact the

2811
01:44:48,770 --> 01:44:47,219
same weekend that I sat down met Jay and

2812
01:44:50,390 --> 01:44:48,780
got to know him

2813
01:44:52,010 --> 01:44:50,400

um we were all there together at a

2814

01:44:54,709 --> 01:44:52,020

scientific Coalition for UAP studies

2815

01:44:57,590 --> 01:44:54,719

event in Huntsville Alabama

2816

01:45:00,950 --> 01:44:57,600

um but the final day of that event I'd

2817

01:45:03,109 --> 01:45:00,960

gone downstairs and I was sitting there

2818

01:45:04,850 --> 01:45:03,119

uh listening to one of the lectures and

2819

01:45:07,430 --> 01:45:04,860

shortly thereafter my colleague Chrissy

2820

01:45:09,530 --> 01:45:07,440

Newton came down and also uh joined me

2821

01:45:11,510 --> 01:45:09,540

over at the table there where I was

2822

01:45:13,370 --> 01:45:11,520

and and I glanced over my shoulder into

2823

01:45:15,350 --> 01:45:13,380

the back of the room is Jay Stratton and

2824

01:45:17,990 --> 01:45:15,360

he kind of gets my attention and you

2825

01:45:19,790 --> 01:45:18,000

know motions toward me and so I said uh

2826

01:45:20,810 --> 01:45:19,800

Newton Stratton wants to talk I'll be

2827

01:45:22,550 --> 01:45:20,820

right back

2828

01:45:24,709 --> 01:45:22,560

actually grab your things

2829

01:45:26,330 --> 01:45:24,719

we're going out here together and so I

2830

01:45:27,350 --> 01:45:26,340

brought Newton with me and she and I we

2831

01:45:29,510 --> 01:45:27,360

sat down

2832

01:45:31,129 --> 01:45:29,520

Jay was very kind uh he he wanted to

2833

01:45:32,810 --> 01:45:31,139

catch up and talk and a lot of the

2834

01:45:34,370 --> 01:45:32,820

reason why he wanted to talk to us is

2835

01:45:36,470 --> 01:45:34,380

because again he'd spoken to Tim in the

2836

01:45:37,970 --> 01:45:36,480

past and everything and uh you might say

2837

01:45:40,490 --> 01:45:37,980

it was built somewhat on the reputation

2838

01:45:42,290 --> 01:45:40,500

of the debrief and and you know our work

2839

01:45:44,750 --> 01:45:42,300

as journalists

2840

01:45:46,669 --> 01:45:44,760

um but I really just wanted to talk shop

2841

01:45:49,430 --> 01:45:46,679

with him this is what I wanted to do

2842

01:45:51,830 --> 01:45:49,440

this wasn't about being a journalist uh

2843

01:45:53,330 --> 01:45:51,840

because and I'll admit this when I put

2844

01:45:55,250 --> 01:45:53,340

my journalist hat on

2845

01:45:58,310 --> 01:45:55,260

and I'm recovering science and defense

2846

01:46:00,290 --> 01:45:58,320

issues I'm not always a UFO God

2847

01:46:01,850 --> 01:46:00,300

but in the background I'm always a UFO

2848

01:46:03,169 --> 01:46:01,860

guy first and foremost and so are you

2849

01:46:05,090 --> 01:46:03,179

and you know that about me you and I

2850

01:46:06,649 --> 01:46:05,100

both right and sometimes we may be

2851
01:46:08,629 --> 01:46:06,659
involved in other endeavors and we do

2852
01:46:10,669 --> 01:46:08,639
our day jobs and things like that but I

2853
01:46:12,350 --> 01:46:10,679
mean I I am

2854
01:46:14,390 --> 01:46:12,360
through and through someone who is

2855
01:46:15,890 --> 01:46:14,400
skeptically inclined but fascinated with

2856
01:46:17,750 --> 01:46:15,900
the UFO subject

2857
01:46:19,490 --> 01:46:17,760
and so the opportunity to sit and talk

2858
01:46:21,169 --> 01:46:19,500
with the former director of the UAP task

2859
01:46:22,910 --> 01:46:21,179
force was very significant one of the

2860
01:46:24,530 --> 01:46:22,920
big takeaways from that conversation

2861
01:46:25,790 --> 01:46:24,540
with you was off record I'm going to go

2862
01:46:27,709 --> 01:46:25,800
spill the beans and talk about a bunch

2863
01:46:29,629 --> 01:46:27,719

of stuff he didn't convey any kind of

2864

01:46:31,490 --> 01:46:29,639

secret information to me he is a patriot

2865

01:46:33,890 --> 01:46:31,500

and he takes his job very seriously in

2866

01:46:35,390 --> 01:46:33,900

his classifications and his Oaths to

2867

01:46:37,609 --> 01:46:35,400

government and everything I appreciate

2868

01:46:40,310 --> 01:46:37,619

that about Jay I think that some of the

2869

01:46:42,470 --> 01:46:40,320

mischaracterizations of him by certain

2870

01:46:44,629 --> 01:46:42,480

people in the you know in the media and

2871

01:46:46,189 --> 01:46:44,639

online and on social media

2872

01:46:47,629 --> 01:46:46,199

they haven't met him they haven't spoken

2873

01:46:49,310 --> 01:46:47,639

with him I have and I can assure you

2874

01:46:50,870 --> 01:46:49,320

this is a highly intelligent highly

2875

01:46:52,430 --> 01:46:50,880

skilled highly trained intelligence

2876

01:46:54,410 --> 01:46:52,440

official who takes this subject very

2877

01:46:56,330 --> 01:46:54,420

seriously and appears to still maintain

2878

01:46:58,790 --> 01:46:56,340

an interest in the subject now

2879

01:47:01,010 --> 01:46:58,800

that said at one point I mentioned the

2880

01:47:02,570 --> 01:47:01,020

Navy UAP task force and he kind of

2881

01:47:04,609 --> 01:47:02,580

stopped and goes he says

2882

01:47:07,430 --> 01:47:04,619

honestly kind of dislike it when people

2883

01:47:09,410 --> 01:47:07,440

refer to it as the Navy UAP task force

2884

01:47:12,109 --> 01:47:09,420

it was established under the cognizance

2885

01:47:13,729 --> 01:47:12,119

of the Department of the Navy but Jay

2886

01:47:15,350 --> 01:47:13,739

was clear in saying look you got to keep

2887

01:47:18,109 --> 01:47:15,360

in mind before the official

2888

01:47:20,149 --> 01:47:18,119

establishment of the UAP task force you

2889

01:47:23,209 --> 01:47:20,159

may recall actually Susan Goff provided

2890

01:47:26,570 --> 01:47:23,219

a quote to researcher Roger Glassell

2891

01:47:29,810 --> 01:47:26,580

talking about an interagency task force

2892

01:47:32,209 --> 01:47:29,820

that was looking at this issue and uh

2893

01:47:34,430 --> 01:47:32,219

and then it came out first and actually

2894

01:47:36,050 --> 01:47:34,440

a language draft language

2895

01:47:38,330 --> 01:47:36,060

uh for a Senate bill that ended up

2896

01:47:41,450 --> 01:47:38,340

actually going into the uh ndaa for I

2897

01:47:42,470 --> 01:47:41,460

think fiscal year 2020 maybe 2021 at

2898

01:47:45,050 --> 01:47:42,480

that point

2899

01:47:46,910 --> 01:47:45,060

but um that was the first place where

2900

01:47:48,050 --> 01:47:46,920

UAP task force appeared actually it

2901

01:47:49,609 --> 01:47:48,060

first appeared I think on John

2902

01:47:50,870 --> 01:47:49,619

greenwald's website because just

2903

01:47:52,850 --> 01:47:50,880

speculating

2904

01:47:55,070 --> 01:47:52,860

based on the quote given to Glass so he

2905

01:47:56,270 --> 01:47:55,080

said do we have a UAP task force then

2906

01:47:58,430 --> 01:47:56,280

there was draft language in that bill

2907

01:48:01,189 --> 01:47:58,440

and then norquist actually at the time I

2908

01:48:02,810 --> 01:48:01,199

think acting Deputy uh Secretary of

2909

01:48:05,270 --> 01:48:02,820

Defense I think

2910

01:48:06,169 --> 01:48:05,280

um he actually uh under the cognizance

2911

01:48:08,149 --> 01:48:06,179

of the Department of the Navy

2912

01:48:10,790 --> 01:48:08,159

established officially this UAP task

2913

01:48:12,830 --> 01:48:10,800

force but the thing is that interagency

2914

01:48:14,450 --> 01:48:12,840

task force had already existed for a

2915

01:48:16,370 --> 01:48:14,460

while so back to the conversation with

2916

01:48:17,090 --> 01:48:16,380

Stratton he kind of looked at me and he

2917

01:48:20,209 --> 01:48:17,100

said

2918

01:48:22,669 --> 01:48:20,219

this has been a thing where multiple

2919

01:48:24,649 --> 01:48:22,679

agencies in government you know some of

2920

01:48:27,290 --> 01:48:24,659

the best intelligence agencies on the

2921

01:48:29,750 --> 01:48:27,300

job they're all you know looking at this

2922

01:48:31,790 --> 01:48:29,760

and some communicate with others better

2923

01:48:33,830 --> 01:48:31,800

than others others don't and try to

2924

01:48:35,270 --> 01:48:33,840

communicate as little as possible this

2925

01:48:38,390 --> 01:48:35,280

kind of comes back also to the issue

2926
01:48:40,270 --> 01:48:38,400
that um that Dr Sean Kirkpatrick is now

2927
01:48:43,129 --> 01:48:40,280
encountering with the so-called title 50

2928
01:48:44,629 --> 01:48:43,139
situation right he had he he had he's

2929
01:48:47,149 --> 01:48:44,639
limited with the amount of information

2930
01:48:50,450 --> 01:48:47,159
that he can access that the intelligence

2931
01:48:52,310 --> 01:48:50,460
Community has with relation to UAP So to

2932
01:48:54,590 --> 01:48:52,320
that quote from the new Elizondo article

2933
01:48:56,030 --> 01:48:54,600
my read on that is something that many

2934
01:48:57,830 --> 01:48:56,040
have told me and that actually has been

2935
01:49:01,430 --> 01:48:57,840
talked about quite a bit already

2936
01:49:03,050 --> 01:49:01,440
there is an interagency effort uh

2937
01:49:04,790 --> 01:49:03,060
multiple different agencies that are

2938
01:49:06,830 --> 01:49:04,800

being that are involved in this again

2939

01:49:08,810 --> 01:49:06,840

that very quote says it's CIA to the

2940

01:49:10,310 --> 01:49:08,820

National geospatial Intelligence Agency

2941

01:49:11,570 --> 01:49:10,320

one of the friendliest agencies I've

2942

01:49:13,550 --> 01:49:11,580

ever worked with in attempts at trying

2943

01:49:14,930 --> 01:49:13,560

to gain access through foia to

2944

01:49:17,510 --> 01:49:14,940

information about this although those

2945

01:49:19,189 --> 01:49:17,520

foyers were largely unsuccessful I mean

2946

01:49:21,890 --> 01:49:19,199

we've reached out my colleagues and out

2947

01:49:23,870 --> 01:49:21,900

of basically all these agencies make no

2948

01:49:25,850 --> 01:49:23,880

mistake there may be an arrow there may

2949

01:49:27,410 --> 01:49:25,860

have been a UAP task force before that

2950

01:49:29,930 --> 01:49:27,420

that's

2951
01:49:32,450 --> 01:49:29,940
in terms of the actual component within

2952
01:49:34,609 --> 01:49:32,460
government that is that is designed with

2953
01:49:37,250 --> 01:49:34,619
the express intent of

2954
01:49:40,790 --> 01:49:37,260
and for the mission of evaluating UAP

2955
01:49:43,070 --> 01:49:40,800
right currently that's Arrow but make no

2956
01:49:43,910 --> 01:49:43,080
mistake just like Kirkpatrick was saying

2957
01:49:45,470 --> 01:49:43,920
we're going to try and make this

2958
01:49:47,209 --> 01:49:45,480
somebody else's problem there won't be a

2959
01:49:49,250 --> 01:49:47,219
need for arrow in the future

2960
01:49:50,750 --> 01:49:49,260
there are plenty of agencies that are

2961
01:49:52,370 --> 01:49:50,760
already looking I'm surprised they only

2962
01:49:54,590 --> 01:49:52,380
say 1500 volunteers because there's

2963
01:49:57,350 --> 01:49:54,600

probably more than that the amount of

2964

01:49:58,970 --> 01:49:57,360

eyes that must be on this topic within

2965

01:50:01,550 --> 01:49:58,980

the intelligence Community I mean it

2966

01:50:03,410 --> 01:50:01,560

must be unprecedented but again

2967

01:50:05,870 --> 01:50:03,420

we know very little about that apart

2968

01:50:07,070 --> 01:50:05,880

from these kinds of conversations and

2969

01:50:09,470 --> 01:50:07,080

the conversations that you know

2970

01:50:11,450 --> 01:50:09,480

journalists like I uh and my colleagues

2971

01:50:13,189 --> 01:50:11,460

and and I have with people who have

2972

01:50:14,510 --> 01:50:13,199

worked in that position what little they

2973

01:50:16,970 --> 01:50:14,520

can tell us

2974

01:50:18,350 --> 01:50:16,980

you know with adherence to their own

2975

01:50:20,209 --> 01:50:18,360

Oaths to government and the protection

2976

01:50:21,890 --> 01:50:20,219

of National Security interests so it's

2977

01:50:23,990 --> 01:50:21,900

frustrating at times for a soul guard

2978

01:50:27,590 --> 01:50:24,000

UFO guys Ryan gosh are we getting old

2979

01:50:28,850 --> 01:50:27,600

that's Old Guard UFO guys when we're

2980

01:50:30,709 --> 01:50:28,860

looking at all this and it's like we've

2981

01:50:33,410 --> 01:50:30,719

moved into this Brave New World where

2982

01:50:35,870 --> 01:50:33,420

you have to kind of be a part-time

2983

01:50:37,970 --> 01:50:35,880

expert on government and policy and all

2984

01:50:39,109 --> 01:50:37,980

these kinds of things but at the at the

2985

01:50:41,570 --> 01:50:39,119

end of the day

2986

01:50:43,790 --> 01:50:41,580

what interests me is the phenomenon

2987

01:50:46,490 --> 01:50:43,800

right and how science can be applied

2988

01:50:48,050 --> 01:50:46,500

toward understanding the phenomenon and

2989

01:50:51,229 --> 01:50:48,060

then more fundamentally even than that

2990

01:50:53,330 --> 01:50:51,239

what to us as humans does the phenomenon

2991

01:50:56,270 --> 01:50:53,340

represent and what does that mean going

2992

01:50:58,430 --> 01:50:56,280

forward that's what's important

2993

01:50:59,930 --> 01:50:58,440

and so I'm not surprised by that

2994

01:51:02,030 --> 01:50:59,940

statement I look forward to reading the

2995

01:51:03,649 --> 01:51:02,040

article but again at the end of the day

2996

01:51:05,510 --> 01:51:03,659

the thing that really interests me is

2997

01:51:07,669 --> 01:51:05,520

the phenomenon and how we as humans can

2998

01:51:09,470 --> 01:51:07,679

relate to it I mean I'm reminded of an

2999

01:51:12,350 --> 01:51:09,480

excellent book that takes this kind of

3000

01:51:14,450 --> 01:51:12,360

human approach to an alien phenomenon

3001

01:51:16,010 --> 01:51:14,460

right guys

3002

01:51:17,870 --> 01:51:16,020

that seems to be at the core of it all

3003

01:51:20,270 --> 01:51:17,880

doesn't it

3004

01:51:23,270 --> 01:51:20,280

I love you brother okay I I always

3005

01:51:26,330 --> 01:51:23,280

appreciate the shout outs hey it's it's

3006

01:51:29,270 --> 01:51:26,340

true though you know um and I had kind

3007

01:51:31,129 --> 01:51:29,280

of this uh I was at a Crossroads with

3008

01:51:36,709 --> 01:51:31,139

somewhere in the skies a few months back

3009

01:51:39,109 --> 01:51:36,719

where um I was so exhausted from the

3010

01:51:43,189 --> 01:51:39,119

Navy Tic Tacs and the government talk

3011

01:51:47,149 --> 01:51:43,199

and this and that and um and this is by

3012

01:51:49,189 --> 01:51:47,159

no means a slight to the guest I had on

3013

01:51:51,169 --> 01:51:49,199

when this Crossroads occurred that was

3014

01:51:53,510 --> 01:51:51,179

the one and only Alex Dietrich which I

3015

01:51:56,090 --> 01:51:53,520

will forever be grateful and honored

3016

01:51:59,810 --> 01:51:56,100

that she came on my little show

3017

01:52:02,149 --> 01:51:59,820

um but after that conversation I had a

3018

01:52:04,910 --> 01:52:02,159

moment of reflection where I went back

3019

01:52:06,770 --> 01:52:04,920

into my archives and looked at my

3020

01:52:09,470 --> 01:52:06,780

earlier episodes of the show my witness

3021

01:52:11,330 --> 01:52:09,480

accounts um yeah or you know just

3022

01:52:15,109 --> 01:52:11,340

talking about Close Encounters in UFO

3023

01:52:17,570 --> 01:52:15,119

sightings and like you said it's like if

3024

01:52:20,169 --> 01:52:17,580

you're gonna be a ufologist nowadays or

3025

01:52:23,390 --> 01:52:20,179

I shouldn't use the term ufologist

3026

01:52:24,470 --> 01:52:23,400

a UFO researcher I guess

3027

01:52:25,970 --> 01:52:24,480

um

3028

01:52:29,270 --> 01:52:25,980

you have to know how the government

3029

01:52:32,209 --> 01:52:29,280

works you have to know the different

3030

01:52:34,850 --> 01:52:32,219

um you know every you have to know every

3031

01:52:36,109 --> 01:52:34,860

fact about every intelligence agency you

3032

01:52:39,050 --> 01:52:36,119

got to know this that this that this

3033

01:52:43,250 --> 01:52:39,060

that to get anywhere in the conversation

3034

01:52:45,709 --> 01:52:43,260

um and I was just so done with it and a

3035

01:52:49,070 --> 01:52:45,719

lot of it had to do I think with the um

3036

01:52:52,070 --> 01:52:49,080

the last UAP task force report that came

3037

01:52:55,790 --> 01:52:52,080

out I just had a moment of like

3038

01:52:58,430 --> 01:52:55,800

uh okay I I give up like this is going

3039

01:53:01,070 --> 01:52:58,440

nowhere I'm so done

3040

01:53:02,870 --> 01:53:01,080

I want to go back to where somewhere in

3041

01:53:04,970 --> 01:53:02,880

the sky started and that's the stories

3042

01:53:06,410 --> 01:53:04,980

that's the people having the the

3043

01:53:08,390 --> 01:53:06,420

experiences

3044

01:53:10,970 --> 01:53:08,400

um however

3045

01:53:14,149 --> 01:53:10,980

when you finally have the head of Arrow

3046

01:53:17,649 --> 01:53:14,159

come out and do this Senate hearing and

3047

01:53:21,169 --> 01:53:17,659

talk the way he did and um

3048

01:53:22,010 --> 01:53:21,179

be so uh what's the word

3049

01:53:24,890 --> 01:53:22,020

um

3050

01:53:26,870 --> 01:53:24,900

so uh he he made it so easy to

3051

01:53:28,189 --> 01:53:26,880

understand it gave me hope that someone

3052

01:53:30,350 --> 01:53:28,199

like me who knows nothing about

3053

01:53:34,189 --> 01:53:30,360

government knows nothing about how

3054

01:53:36,830 --> 01:53:34,199

bureaucracy works or or how to even do a

3055

01:53:39,530 --> 01:53:36,840

foia request or anything like that

3056

01:53:42,169 --> 01:53:39,540

um it gave me hope that yes I can still

3057

01:53:43,669 --> 01:53:42,179

be a part of this conversation

3058

01:53:46,070 --> 01:53:43,679

um so I don't know where this long

3059

01:53:48,470 --> 01:53:46,080

diatribe is going that I just said um

3060

01:53:51,050 --> 01:53:48,480

except that it's good to see an article

3061

01:53:53,450 --> 01:53:51,060

come out about someone like Elizondo and

3062

01:53:56,030 --> 01:53:53,460

hear the human side of it

3063

01:53:58,790 --> 01:53:56,040

um so I was really I was I really left

3064

01:54:00,290 --> 01:53:58,800

this article being like this is cool I

3065

01:54:02,570 --> 01:54:00,300

want more of this I want to hear more

3066

01:54:04,850 --> 01:54:02,580

about Kirkpatrick I want to hear more

3067

01:54:06,649 --> 01:54:04,860

about Stratton and what got them

3068

01:54:08,149 --> 01:54:06,659

interested in this stuff and and this

3069

01:54:10,250 --> 01:54:08,159

and that this and that

3070

01:54:12,770 --> 01:54:10,260

um so yeah I guess that's kind of my

3071

01:54:14,629 --> 01:54:12,780

reflection on all of this yeah all of

3072

01:54:16,310 --> 01:54:14,639

this conversation going on Ryan I think

3073

01:54:17,510 --> 01:54:16,320

the the stories are very important again

3074

01:54:20,030 --> 01:54:17,520

you know

3075

01:54:22,729 --> 01:54:20,040

there there are those

3076
01:54:24,649 --> 01:54:22,739
who and I have some sympathy for this

3077
01:54:25,729 --> 01:54:24,659
argument I really do in this era where

3078
01:54:28,070 --> 01:54:25,739
now with

3079
01:54:30,229 --> 01:54:28,080
so much computer science and with with

3080
01:54:32,030 --> 01:54:30,239
the ability to collect more data

3081
01:54:34,370 --> 01:54:32,040
you know we don't just have radar and

3082
01:54:36,229 --> 01:54:34,380
visual we have a whole variety of

3083
01:54:37,790 --> 01:54:36,239
different sensory capabilities which

3084
01:54:40,189 --> 01:54:37,800
actually I mean for decades we've had

3085
01:54:42,590 --> 01:54:40,199
the ability to detect you know

3086
01:54:44,090 --> 01:54:42,600
um radar and and um and radio

3087
01:54:46,550 --> 01:54:44,100
frequencies and different kinds of

3088
01:54:48,050 --> 01:54:46,560

things like this radiation there are a

3089

01:54:49,790 --> 01:54:48,060

variety of different

3090

01:54:52,250 --> 01:54:49,800

I guess

3091

01:54:54,229 --> 01:54:52,260

sensory capabilities that science and

3092

01:54:55,609 --> 01:54:54,239

government have had at their disposal to

3093

01:54:58,010 --> 01:54:55,619

try and detect

3094

01:55:00,709 --> 01:54:58,020

and to measure and to gauge aspects of

3095

01:55:03,410 --> 01:55:00,719

the so-called phenomenon right

3096

01:55:04,729 --> 01:55:03,420

um but in this modern era I would argue

3097

01:55:06,709 --> 01:55:04,739

that we have a whole lot more of that

3098

01:55:08,330 --> 01:55:06,719

and in the existing technology that

3099

01:55:11,450 --> 01:55:08,340

we've had for decades is far more

3100

01:55:13,850 --> 01:55:11,460

sophisticated and capable and so we have

3101

01:55:16,490 --> 01:55:13,860

this unique capability now this unique

3102

01:55:18,950 --> 01:55:16,500

opportunity really to use better

3103

01:55:21,229 --> 01:55:18,960

capabilities than we've ever had before

3104

01:55:23,030 --> 01:55:21,239

artificial intelligence once again plays

3105

01:55:24,890 --> 01:55:23,040

into this because with artificial

3106

01:55:26,750 --> 01:55:24,900

intelligence and machine learning it can

3107

01:55:28,189 --> 01:55:26,760

speed the process at which humans are

3108

01:55:31,189 --> 01:55:28,199

able to analyze

3109

01:55:33,470 --> 01:55:31,199

and process that data and arrows hoping

3110

01:55:34,970 --> 01:55:33,480

to do that too Dr Kirkpatrick is aiming

3111

01:55:37,550 --> 01:55:34,980

to try and not only

3112

01:55:40,430 --> 01:55:37,560

resolve certain UAP cases but also to

3113

01:55:42,470 --> 01:55:40,440

take information that is gleaned as a

3114

01:55:45,410 --> 01:55:42,480

product of the resolution of certain

3115

01:55:48,229 --> 01:55:45,420

cases and to build models that allow

3116

01:55:49,970 --> 01:55:48,239

future evaluations of similar cases to

3117

01:55:51,830 --> 01:55:49,980

perhaps be carried out more quickly with

3118

01:55:53,930 --> 01:55:51,840

the assistance of machine learning see

3119

01:55:57,050 --> 01:55:53,940

we have all of these different tools Now

3120

01:55:59,510 --> 01:55:57,060

new tools and also better tools than

3121

01:56:01,550 --> 01:55:59,520

we've had in the past that may both

3122

01:56:04,010 --> 01:56:01,560

speed but also make more efficient and

3123

01:56:06,109 --> 01:56:04,020

capable our ability to analyze this

3124

01:56:07,669 --> 01:56:06,119

phenomenon a lot of people are like why

3125

01:56:09,169 --> 01:56:07,679

do these UFOs all of a sudden just start

3126

01:56:11,810 --> 01:56:09,179

showing up that's why you know new

3127

01:56:13,129 --> 01:56:11,820

technologies are helping to facilitate a

3128

01:56:14,570 --> 01:56:13,139

better understanding of something that I

3129

01:56:17,030 --> 01:56:14,580

suspect has been here for a long time

3130

01:56:19,850 --> 01:56:17,040

much like how after the second world war

3131

01:56:21,830 --> 01:56:19,860

and we begin to use radar right

3132

01:56:23,629 --> 01:56:21,840

we suddenly detect objects up there in

3133

01:56:25,010 --> 01:56:23,639

the skies people have been saying for

3134

01:56:27,050 --> 01:56:25,020

centuries they were seeing things in the

3135

01:56:29,270 --> 01:56:27,060

sky but once after the second world war

3136

01:56:31,609 --> 01:56:29,280

radar first is used by the United States

3137

01:56:34,010 --> 01:56:31,619

and Canada and Britain and you know

3138

01:56:35,510 --> 01:56:34,020

other countries around the world yeah

3139

01:56:37,010 --> 01:56:35,520

sure we start detecting these things

3140

01:56:39,290 --> 01:56:37,020

that people had been saying for a while

3141

01:56:42,050 --> 01:56:39,300

they were seeing and as time goes on

3142

01:56:42,890 --> 01:56:42,060

more and more Technologies corroborate

3143

01:56:44,689 --> 01:56:42,900

what

3144

01:56:46,070 --> 01:56:44,699

that's right the eyewitness accounts the

3145

01:56:48,770 --> 01:56:46,080

stories

3146

01:56:51,649 --> 01:56:48,780

and we often see this this question you

3147

01:56:54,530 --> 01:56:51,659

know is a story of a sighting of a UFO

3148

01:56:56,990 --> 01:56:54,540

good is it useful at all no they're just

3149

01:56:58,250 --> 01:56:57,000

stories what we need is data some

3150

01:57:00,709 --> 01:56:58,260

Skeptics you know like Mick West

3151

01:57:03,169 --> 01:57:00,719

continue to argue that we don't see any

3152

01:57:05,930 --> 01:57:03,179

data that's truly extraordinary and

3153

01:57:07,370 --> 01:57:05,940

therefore ufology is dead again I'll

3154

01:57:09,350 --> 01:57:07,380

push back on Mick a little bit on that

3155

01:57:11,629 --> 01:57:09,360

point because first of all there may be

3156

01:57:14,270 --> 01:57:11,639

some presumptions and biases at work

3157

01:57:16,790 --> 01:57:14,280

right there what is your criteria for

3158

01:57:19,310 --> 01:57:16,800

anomaly you know what evidence informs

3159

01:57:21,169 --> 01:57:19,320

your perspective that something worthy

3160

01:57:22,609 --> 01:57:21,179

of study has to exhibit that truly

3161

01:57:25,310 --> 01:57:22,619

anomalous character what if something

3162

01:57:27,169 --> 01:57:25,320

that was truly exotic and extraordinary

3163

01:57:29,930 --> 01:57:27,179

to humans is a scientific discovery

3164

01:57:32,510 --> 01:57:29,940

exhibited no you know hyper acceleration

3165

01:57:34,129 --> 01:57:32,520

or other you know magical capabilities

3166

01:57:36,830 --> 01:57:34,139

but it nonetheless was something that

3167

01:57:38,510 --> 01:57:36,840

represented for instance a hypothetical

3168

01:57:40,550 --> 01:57:38,520

alien technology

3169

01:57:42,589 --> 01:57:40,560

again then on the other side of things

3170

01:57:44,030 --> 01:57:42,599

we have the Believers who have all their

3171

01:57:44,990 --> 01:57:44,040

insistence on but here's what's

3172

01:57:46,490 --> 01:57:45,000

happening you know there's a

3173

01:57:49,129 --> 01:57:46,500

hybridization program certain

3174

01:57:50,570 --> 01:57:49,139

extraterrestrial hybrids are immersing

3175

01:57:52,729 --> 01:57:50,580

themselves in our culture and they're

3176

01:57:54,890 --> 01:57:52,739

living among us right here today and

3177

01:57:57,290 --> 01:57:54,900

it's a you know it's like a pod people

3178

01:58:00,169 --> 01:57:57,300

Earth takeover by aliens that have been

3179

01:58:01,970 --> 01:58:00,179

here for a long time you know again at

3180

01:58:04,310 --> 01:58:01,980

some point we have to recognize that

3181

01:58:06,649 --> 01:58:04,320

some stories sound awful lot like

3182

01:58:08,810 --> 01:58:06,659

fiction but there are some stories that

3183

01:58:09,950 --> 01:58:08,820

I think are useful they're not just

3184

01:58:11,870 --> 01:58:09,960

stories

3185

01:58:14,089 --> 01:58:11,880

and just because they don't have those

3186

01:58:16,070 --> 01:58:14,099

same remarkable characteristics that

3187

01:58:18,169 --> 01:58:16,080

many Believers seem to want that means

3188

01:58:20,270 --> 01:58:18,179

they're useless maybe we should say

3189

01:58:22,310 --> 01:58:20,280

ly and soberly

3190

01:58:24,770 --> 01:58:22,320

that at the core of this we as humans

3191

01:58:26,990 --> 01:58:24,780

rely on those stories to convey

3192

01:58:28,910 --> 01:58:27,000

experiences and outside of the human

3193

01:58:31,550 --> 01:58:28,920

experience with the phenomenon what does

3194

01:58:33,290 --> 01:58:31,560

it matter to humans anyway yeah the

3195

01:58:35,270 --> 01:58:33,300

stories matter the stories are at the

3196

01:58:37,310 --> 01:58:35,280

core of the essence of how humans relate

3197

01:58:38,990 --> 01:58:37,320

to all this so I think what you said is

3198

01:58:40,689 --> 01:58:39,000

very important we need those stories but

3199

01:58:42,890 --> 01:58:40,699

we need to corroborate those stories

3200

01:58:45,649 --> 01:58:42,900

increasingly with time with the better

3201

01:58:48,290 --> 01:58:45,659

data that we're equipped with and this

3202

01:58:50,169 --> 01:58:48,300

phenomenon if be there a phenomena may

3203

01:58:52,609 --> 01:58:50,179

not end up being what we thought it was

3204

01:58:55,490 --> 01:58:52,619

but we may still learn some things and

3205

01:58:58,790 --> 01:58:55,500

that my friends is how science works

3206

01:59:01,550 --> 01:58:58,800

Amen brother oh I could not think of a

3207

01:59:04,370 --> 01:59:01,560

better way to end this man

3208

01:59:07,490 --> 01:59:04,380

um hope hope for the future I I'm very

3209

01:59:08,990 --> 01:59:07,500

hopeful for the UFO topic moving into

3210

01:59:12,109 --> 01:59:09,000

the latter

3211

01:59:13,609 --> 01:59:12,119

um Mid to ladder part of this year

3212

01:59:16,250 --> 01:59:13,619

um science is where it's at we're gonna

3213

01:59:19,189 --> 01:59:16,260

get this NASA study in the coming months

3214

01:59:21,890 --> 01:59:19,199

as well which I'm excited about and um

3215

01:59:24,649 --> 01:59:21,900

we will get the the annual report from

3216

01:59:26,689 --> 01:59:24,659

Arrow as well which would be really cool

3217

01:59:30,109 --> 01:59:26,699

yeah yeah

3218

01:59:31,669 --> 01:59:30,119

um so I have hope I have hope and um I

3219

01:59:35,169 --> 01:59:31,679

have hope for the future of this topic

3220

01:59:37,790 --> 01:59:35,179

those researching it those investigated

3221

01:59:40,970 --> 01:59:37,800

investigating it within government and

3222

01:59:44,330 --> 01:59:40,980

outside government as well there's room

3223

01:59:46,010 --> 01:59:44,340

at the table for everybody in this vast

3224

01:59:49,010 --> 01:59:46,020

array of phenomena we seem to be

3225

01:59:51,410 --> 01:59:49,020

experiencing so um I'm so honored that

3226

01:59:53,870 --> 01:59:51,420

you're one of those colleagues that I

3227

01:59:55,450 --> 01:59:53,880

continue to take this Pursuit with my

3228

01:59:59,149 --> 01:59:55,460

friend so um

3229

02:00:01,729 --> 01:59:59,159

lastly but not leastly where can we find

3230

02:00:03,350 --> 02:00:01,739

everything you're up to and uh yeah

3231

02:00:05,570 --> 02:00:03,360

anything that you could tease coming up

3232

02:00:07,669 --> 02:00:05,580

over there at the debrief and the Micah

3233

02:00:08,810 --> 02:00:07,679

Hanks program oh yeah absolutely of

3234

02:00:11,030 --> 02:00:08,820

course this week I'm going to be

3235

02:00:13,910 --> 02:00:11,040

dropping a podcast on the Micah Hanks

3236

02:00:16,550 --> 02:00:13,920

program Dr Gary Nolan and I sat down

3237

02:00:18,050 --> 02:00:16,560

caught up quite a conversation

3238

02:00:19,729 --> 02:00:18,060

so you'll definitely want to hear that

3239

02:00:21,950 --> 02:00:19,739

but you can follow my work at

3240

02:00:24,229 --> 02:00:21,960

micahhanks.com the podcast is at

3241

02:00:27,169 --> 02:00:24,239

micahhanks.com forward slash podcast

3242

02:00:30,169 --> 02:00:27,179

imagine that and then the debrief of

3243

02:00:31,850 --> 02:00:30,179

course the debrief.org is where you can

3244

02:00:34,970 --> 02:00:31,860

find it again you got to add the v in

3245

02:00:36,709 --> 02:00:34,980

there so the debrief dot org uh every

3246

02:00:39,169 --> 02:00:36,719

weekday and sometimes on weekends too

3247

02:00:41,030 --> 02:00:39,179

we've got contributions from fine Riders

3248

02:00:42,109 --> 02:00:41,040

out there Ryan Sprague also has been a

3249

02:00:43,370 --> 02:00:42,119

contributor and I hope to get him back

3250

02:00:45,649 --> 02:00:43,380

over there doing some writing for us

3251
02:00:47,209 --> 02:00:45,659
here in the uh days and weeks ahead so

3252
02:00:48,770 --> 02:00:47,219
but I'm always there Monday through

3253
02:00:50,870 --> 02:00:48,780
Friday and we're always churning out the

3254
02:00:53,510 --> 02:00:50,880
latest in science disruptive technology

3255
02:00:55,970 --> 02:00:53,520
and occasionally when there's news we

3256

there he is guys our mystery co-host of

3289

02:02:08,689 --> 02:02:04,920

the night the one and only Micah Hanks

3290

02:02:11,330 --> 02:02:08,699

we covered so much I I knew he was the

3291

02:02:13,189 --> 02:02:11,340

one to have on for this episode so um

3292

02:02:14,209 --> 02:02:13,199

thank you thank you to everyone in the

3293

02:02:16,370 --> 02:02:14,219

chat

3294

02:02:17,870 --> 02:02:16,380

um thank you for the Super Chat thank

3295

02:02:19,550 --> 02:02:17,880

you for all of your comments and

3296

02:02:22,910 --> 02:02:19,560

questions I'm sorry if I didn't get to

3297

02:02:24,830 --> 02:02:22,920

all of them but um yeah we had a lot to

3298

02:02:27,950 --> 02:02:24,840

discuss no podcast highlights of the

3299

02:02:29,450 --> 02:02:27,960

week but we did have plenty of news to

3300

02:02:31,550 --> 02:02:29,460

bring you guys

3301

02:02:34,490 --> 02:02:31,560

um this episode will be the podcast of

3302

02:02:38,990 --> 02:02:34,500

somewhere in the skies that will drop uh

3303

02:02:41,450 --> 02:02:39,000

at midnight Midnight um ESC so yeah if

3304

02:02:43,370 --> 02:02:41,460

you are um listening to this we had a

3305

02:02:44,990 --> 02:02:43,380

bunch of visuals here on the YouTube

3306

02:02:46,850 --> 02:02:45,000

version so you can head over to YouTube

3307

02:02:50,510 --> 02:02:46,860

to watch this

3308

02:02:52,609 --> 02:02:50,520

um and then next week I have a big

3309

02:02:54,109 --> 02:02:52,619

episode coming your way this was

3310

02:02:56,089 --> 02:02:54,119

supposed to release this week but

3311

02:02:57,350 --> 02:02:56,099

because of all of the traveling I've

3312

02:02:59,810 --> 02:02:57,360

been doing

3313

02:03:03,950 --> 02:02:59,820

um the weird ear stuff that's been going

3314

02:03:05,510 --> 02:03:03,960

on I was not able to finish the episode

3315

02:03:07,550 --> 02:03:05,520

um but this awesome conversation tonight

3316

02:03:09,649 --> 02:03:07,560

will be the podcast for the week but

3317

02:03:11,750 --> 02:03:09,659

next week I have an episode that will be

3318

02:03:15,169 --> 02:03:11,760

dropping called harvested the dark

3319

02:03:17,330 --> 02:03:15,179

Encounters of Susan uh buckle up guys

3320

02:03:20,990 --> 02:03:17,340

this is probably going to be one of the

3321

02:03:23,450 --> 02:03:21,000

um the most emotional and possibly

3322

02:03:28,129 --> 02:03:23,460

disturbing episodes of the podcast to

3323

02:03:30,070 --> 02:03:28,139

date of a lifelong uh series of events

3324

02:03:33,649 --> 02:03:30,080

that happened to this woman known only

3325

02:03:37,189 --> 02:03:33,659

as Susan here in the UK

3326

02:03:39,770 --> 02:03:37,199

um I hired a brilliant New York stage

3327

02:03:42,290 --> 02:03:39,780

actor to do a lot of voice over for this

3328

02:03:44,209 --> 02:03:42,300

episode truly honored

3329

02:03:45,830 --> 02:03:44,219

um for her time and talents on the

3330

02:03:48,229 --> 02:03:45,840

episode so I think you're gonna love it

3331

02:03:50,209 --> 02:03:48,239

honestly I love producing these audio

3332

02:03:52,609 --> 02:03:50,219

documentary episodes where I really get

3333

02:03:55,790 --> 02:03:52,619

to stretch my writing muscles my

3334

02:03:57,890 --> 02:03:55,800

research muscles and get you know people

3335

02:03:59,810 --> 02:03:57,900

in the world of theater or film to

3336

02:04:01,910 --> 02:03:59,820

contribute as well because that's why

3337

02:04:03,649 --> 02:04:01,920

it's all about honestly

3338

02:04:04,910 --> 02:04:03,659

um bringing everyone in and becoming a

3339

02:04:06,609 --> 02:04:04,920

part of the summer in the skies family

3340

02:04:10,790 --> 02:04:06,619

so be on the lookout for that episode

3341

02:04:13,669 --> 02:04:10,800

dropping next week um let me go to the

3342

02:04:15,350 --> 02:04:13,679

chat one more time before I get going

3343

02:04:17,510 --> 02:04:15,360

here

3344

02:04:21,169 --> 02:04:19,609

seeing if I missed any questions you

3345

02:04:23,270 --> 02:04:21,179

guys have

3346

02:04:24,669 --> 02:04:23,280

no questions everyone just loves Mike a

3347

02:04:29,030 --> 02:04:24,679

shirt

3348

02:04:33,290 --> 02:04:29,040

ah amazing amazing all right guys I am

3349

02:04:36,770 --> 02:04:33,300

going to say goodbye and good night for

3350

02:04:38,689 --> 02:04:36,780

tonight however however one last thing

3351
02:04:42,290 --> 02:04:38,699
to tease for you guys

3352
02:04:45,950 --> 02:04:42,300
be on the lookout in the next week or so

3353
02:04:47,629 --> 02:04:45,960
for a brand new book

3354
02:04:49,550 --> 02:04:47,639
by me

3355
02:04:51,950 --> 02:04:49,560
um I haven't talked much about it I've

3356
02:04:54,290 --> 02:04:51,960
teased it a little bit but I just was

3357
02:04:56,689 --> 02:04:54,300
informed that it will be dropping at the

3358
02:04:58,010 --> 02:04:56,699
end of this month so a brand new

3359
02:05:01,010 --> 02:04:58,020
somewhere in the skies book coming your

3360
02:05:04,910 --> 02:05:01,020
way in less than a week so it's going to

3361
02:05:08,089 --> 02:05:04,920
be it's gonna be amazing I'm so

3362
02:05:10,490 --> 02:05:08,099
so proud of the work that so many did in

3363
02:05:13,250 --> 02:05:10,500

contributing to this book this book

3364

02:05:14,390 --> 02:05:13,260

truly belongs to the people I

3365

02:05:15,169 --> 02:05:14,400

interviewed

3366

02:05:18,229 --> 02:05:15,179

um

3367

02:05:21,410 --> 02:05:18,239

I wrote an intro I wrote a few things in

3368

02:05:25,189 --> 02:05:21,420

it but honestly this is a book by you

3369

02:05:26,689 --> 02:05:25,199

the listeners and the experiencers that

3370

02:05:29,089 --> 02:05:26,699

have reached out to me at somewhere in

3371

02:05:31,310 --> 02:05:29,099

the skies so this is a celebration of

3372

02:05:35,689 --> 02:05:31,320

3373

02:05:37,729 --> 02:05:35,699

3375

02:05:42,470 --> 02:05:40,020

we truly stand for that's somewhere in

3376

02:05:43,790 --> 02:05:42,480
