[Music]

2
00:00:17,380 --> 00:00:43,480
where is me

3
00:01:26,990 --> 00:00:52,180
[Music]

4
00:01:26,990 --> 00:01:35,689
foreign

5
00:01:53,100 --> 00:01:44,390
[Music]

6
00:01:53,100 --> 00:02:00,930
do you believe that extraterrestrial intelligence
has visited planet Earth I think you can go

7
00:02:00,930 --> 00:02:05,939
a step further it hasn't just visited it's
been here a long time and it's still here

8
00:02:05,939 --> 00:02:11,260
if you had to assign a probability to that
statement that you believe extraterrestrial

9
00:02:11,260 --> 00:02:16,560
intelligence has visited visited this planet
what probability would you assign a hundred

10
00:02:16,560 --> 00:02:17,560
percent

11
00:02:17,560 --> 00:02:53,840
[Music] [Applause] [Music]

12
00:02:53,840 --> 00:03:06,180

[Music]

13

00:03:06,180 --> 00:03:18,530

thank you foreign

14

00:03:18,530 --> 00:03:19,530

foreign [Music]

15

00:03:19,530 --> 00:03:24,720

hey guys welcome to somewhere in the live stream episode 16 a live stream we do here

16

00:03:24,720 --> 00:03:30,490

at somewhere in the skies every Sunday 4 P.M Eastern Standard 9 p.m UK time and this is

17

00:03:30,490 --> 00:03:35,129

gonna be a fun one this is probably going to be one of the most laid back episodes yet

18

00:03:35,129 --> 00:03:42,349

because I have one of my closest friends friends first colleague Second Jason MccLellan is

19

00:03:42,349 --> 00:03:47,350

going to be joining us in just a moment um but I do want to say hello to all our regulars

20

00:03:47,350 --> 00:03:52,980

in the chat we've got Andrew Lance um we've got Robert here Suzanne Suzanne I owe you

21

00:03:52,980 --> 00:03:59,320

a Twitter message um be on the lookout for that tonight um 118 Grand Master UV Pat Gallagher

22

00:03:59,320 --> 00:04:07,040

Joe Escape uh Escape FX dalen is here Eric is here who is one of our YouTube members

23
00:04:07,040 --> 00:04:12,090
if you'd like to become a YouTube member you
can do that you get uh bonus content and early

24
00:04:12,090 --> 00:04:17,560
access to all our episodes so thank you Eric
as always for your support my man um we've

25
00:04:17,560 --> 00:04:24,789
got Sue Z Doug Sprague is here pressure is
on my father is here yet again more popular

26
00:04:24,789 --> 00:04:31,650
than I am on my own live stream so you gotta
love it gotta love it um Deltron is here all

27
00:04:31,650 --> 00:04:38,539
right guys Owen is here go back later Poppy
and John welcome guys welcome so we're gonna

28
00:04:38,539 --> 00:04:43,630
have fun tonight like I said we've got a couple
news stories for you guys a couple podcasts

29
00:04:43,630 --> 00:04:51,009
highlight Clips um but the big story obviously
is this talk that Gary Nolan gave in New York

30
00:04:51,009 --> 00:04:57,020
City recently so we'll be breaking that down
with our guest let's bring him in you know

31
00:04:57,020 --> 00:05:04,420
him you love him he is the one and only Jason
McClellan welcome back my man Ryan buddy it's

32
00:05:04,420 --> 00:05:10,120
so good to be here I am honored to join you
again and man our our hangout is long overdue

33
00:05:10,120 --> 00:05:16,370
it's been a while I've been uh busy moving
and and whatnot life gets busy but we're here

34
00:05:16,370 --> 00:05:21,190
we'll be doing this more often yeah absolutely
yeah we're going to talk about what's going

35
00:05:21,190 --> 00:05:27,800
on over at Rogue planet and everything else
but um yeah man it's I know you are in the

36
00:05:27,800 --> 00:05:33,509
process of moving um I I feel like everyone
thought you just disappeared from the UFO

37
00:05:33,509 --> 00:05:39,400
Community but here you are you're you're here
um I want to get your thoughts on the UFO

38
00:05:39,400 --> 00:05:44,050
Community right now because you and I have
been in this for a while um but a lot of people

39
00:05:44,050 --> 00:05:50,410
a lot of people in the chat are kind of new
and we're seeing um some interesting things

40
00:05:50,410 --> 00:05:57,259
going on in UFO Twitter world right now um
as as they always are as they usually are

41
00:05:57,259 --> 00:06:04,940
um but so much is happening like I feel like
the conversation has accelerated rapidly on

42
00:06:04,940 --> 00:06:10,840
everything going on um so I want to get your
thoughts on that too but um let's start with

43
00:06:10,840 --> 00:06:15,910
a couple fun stories before we get into the
meat of the conversation which obviously was

44
00:06:15,910 --> 00:06:27,550
the Gary Nolan conversation um so let's start
with this one right here UFO filmed flying

45
00:06:27,550 --> 00:06:33,770
towards a volcano moments before it erupts
so I got this story from our good friends

46
00:06:33,770 --> 00:06:41,479
uh over at Coast to Coast AM uh Tim Bernal
especially um and he writes over there a recent

47
00:06:41,479 --> 00:06:47,500
video emerged from Mexico showing a UFO flying
towards a volcano moments before it unleashes

48
00:06:47,500 --> 00:06:55,370
a massive eruption this is captured by a webcam
which watches over the um popocate Peto volcano

49
00:06:55,370 --> 00:07:04,150
in the state of Puebla um did I pronounce
that right there we go thank you five times

50
00:07:04,150 --> 00:07:10,570
fast yes it's very fun to say that that's
that's the uh the white boy coming out in

51
00:07:10,570 --> 00:07:15,810
me right now um but let's go ahead let's play
the video because I want to get people's thoughts

52
00:07:15,810 --> 00:07:20,840
this is definitely going to be a visual episode
guys so I know um usually Jason I'll release

53

00:07:20,840 --> 00:07:25,900

this in audio form on Wednesdays uh so if
you guys are just listening to this in the

54

00:07:25,900 --> 00:07:30,400

future on Wednesday um go watch this YouTube
version because we're gonna play these UFO

55

00:07:30,400 --> 00:07:35,819

videos kind of uh have some fun breaking them
down and giving our thoughts um so yeah let's

56

00:07:35,819 --> 00:07:39,250

go ahead I'm just gonna play the video Jason
and we'll talk about it on the other side

57

00:07:39,250 --> 00:08:00,530

so yeah perfect

58

00:08:42,450 --> 00:08:21,490

[Music]

59

00:08:42,450 --> 00:08:49,029

so this is what I know about this footage
this was captured on May the 15th 2023 just

60

00:08:49,029 --> 00:08:59,079

after 5 a.m Mexican time so in the footage
we can see this round brightly lit object

61

00:08:59,079 --> 00:09:06,940

or an orb that seems to appear just before
the volcano erupts and to me it's unclear

62

00:09:06,940 --> 00:09:14,839

does it go inside the crater or does it go
to the side that is up to a speculation all

63

00:09:14,839 --> 00:09:20,960

right so that's our first video it comes from
us from that YouTube channel hidden underbelly

64
00:09:20,960 --> 00:09:25,790
I think it's called um who's been putting
out some really interesting UFO videos I feel

65
00:09:25,790 --> 00:09:32,040
like um whoever they are who runs that channel
they're kind of um given third phase of moon

66
00:09:32,040 --> 00:09:37,630
and uh what's that other one secure team 10
giving them a run for their money um but at

67
00:09:37,630 --> 00:09:43,640
least he like kind of walks you through if
he knows what camera was used to let you know

68
00:09:43,640 --> 00:09:48,290
they'll give you as much information as he
can which is um more than we get from a lot

69
00:09:48,290 --> 00:09:53,690
of UFO videos um but what do you think of
this one man what what do you make of this

70
00:09:53,690 --> 00:09:59,460
object heading towards an erupting volcano
any thoughts or theories on what this could

71
00:09:59,460 --> 00:10:07,590
possibly be we see so many videos like this
um you know and we had we like to talk about

72
00:10:07,590 --> 00:10:12,589
UFO hot spots or or places that UFOs might
be attracted to and we hear a lot of especially

73
00:10:12,589 --> 00:10:19,100

recently about nuclear locations where nuclear
uh material might be housed or nuclear weapons

74
00:10:19,100 --> 00:10:25,540
facilities um but I always like to remind
people that UFOs are seen everywhere all around

75
00:10:25,540 --> 00:10:31,930
the world every single day and a better a
stronger case could be made for uh connections

76
00:10:31,930 --> 00:10:37,200
to anything because UFOs are everywhere certainly
somewhere we see lots of videos and reports

77
00:10:37,200 --> 00:10:43,750
our UFOs and volcanoes our UFOs attracted
to volcanoes maybe that's the case but the

78
00:10:43,750 --> 00:10:49,540
reason I know how to pronounce is because
we've reported on this this same volcano so

79
00:10:49,540 --> 00:10:55,620
many times and seen so many videos it looked
like this and far stranger and in many cases

80
00:10:55,620 --> 00:11:00,420
those lights have been identified as helicopters
or planes in the area in the distance it's

81
00:11:00,420 --> 00:11:05,440
hard to to gauge perception from this vantage
point and the cameras they have uh that film

82
00:11:05,440 --> 00:11:11,400
these volcanoes like this are not your your
typical video camera that's shooting it at

83
00:11:11,400 --> 00:11:15,610

30 frames a second or 60 frames per cent per second or whatever it may be they're usually

84
00:11:15,610 --> 00:11:21,290
shooting much much slower at 12 or 15 frames a second and so and this one is obviously

85
00:11:21,290 --> 00:11:25,560
way slowed down so you can see the object you can see the slow volcanic eruption which

86
00:11:25,560 --> 00:11:31,700
looks really cool and really terrifying but you know in many of these cases they are just

87
00:11:31,700 --> 00:11:37,070
air traffic in the area behind the volcano and it appears it's going in the volcano do

88
00:11:37,070 --> 00:11:42,870
we know that's the case in this particular instance no we don't that is the likely explanation

89
00:11:42,870 --> 00:11:47,600
and based on prior things I've seen with volcanoes too and this very specific volcano it happens

90
00:11:47,600 --> 00:11:55,230
all the time interesting yeah I know I always I do find these volcano cases interesting

91
00:11:55,230 --> 00:12:02,220
though because it always Harkens back for me to that um that case over Mexico City I

92
00:12:02,220 --> 00:12:08,570
think it was with uh Carlos De Los Santos who had like the the flying saucers follow

93
00:12:08,570 --> 00:12:14,320

his Piper plane and even like crashed into
his plane and kind of sent him into a spiral

94
00:12:14,320 --> 00:12:21,839
and then apparently these flying saucers like
helped guide him to safety and it was towards

95
00:12:21,839 --> 00:12:29,360
a volcano um and I I always wonder like is
there something that um quote unquote UFOs

96
00:12:29,360 --> 00:12:35,990
are interested in when it comes to our our
volcanoes or or these these areas of natural

97
00:12:35,990 --> 00:12:41,529
uh occurrences whether it's water volcanoes
I don't know but um in terms of this video

98
00:12:41,529 --> 00:12:46,930
I'd have to agree with you like it's probably
something behind the volcano um I even thought

99
00:12:46,930 --> 00:12:52,620
maybe like are there drones that try to get
near these things as they're erupting I I'm

100
00:12:52,620 --> 00:12:58,089
sure people are trying to get the coolest
footage they can of right yeah that's more

101
00:12:58,089 --> 00:13:03,089
more and more an issue um obviously they're
not allowed to do that but they still do um

102
00:13:03,089 --> 00:13:07,350
and the helicopters too the air traffic is
you know told to stay back but they don't

103
00:13:07,350 --> 00:13:12,010

always do that but again perception it's hard
to tell how close these things actually are

104

00:13:12,010 --> 00:13:18,399

right yeah are they close or is that something
far away so yeah yeah so if your video works

105

00:13:18,399 --> 00:13:24,160

yeah that's how video works guys um as we'll
learn from our next one as well um I do want

106

00:13:24,160 --> 00:13:30,269

to say hello Jason just to a few other people
here while I can hello to Doug Sprigg um Susan

107

00:13:30,269 --> 00:13:35,350

sprig is here Sprague family always representing
jazz is here he's one of our regulars who

108

00:13:35,350 --> 00:13:40,699

comes every week Jazz thank you so much for
being here buddy appreciate it as always Red

109

00:13:40,699 --> 00:13:49,209

Devil Brian um hello hello hello guys um all
right let's move to the next one Jason triangular

110

00:13:49,209 --> 00:13:56,100

UFO filmed in Spain um let's just play it
I'm gonna play it um do I have any information

111

00:13:56,100 --> 00:14:02,250

on this one I do um let's just play it and
then we'll talk about it um on the other side

112

00:14:02,250 --> 00:14:31,610

here perfect give me one sec here we go

113

00:14:31,610 --> 00:14:58,780

thank you

114

00:14:58,780 --> 00:15:05,452

so this is what I know about this footage
this was captured on May the 8th 2023 and

115

00:15:05,452 --> 00:15:11,709

the camera that was used was an nvg10 night
vision camera and in the footage we can see

116

00:15:11,709 --> 00:15:21,230

this object moving around now I'm a bit unsure
to this being one single object or three separate

117

00:15:21,230 --> 00:15:29,199

orbs following each other such as the Foo
Fighters um there are some times when it does

118

00:15:29,199 --> 00:15:33,970

seem to block out the Stars which would indicate
it's one solid object but there's there's

119

00:15:33,970 --> 00:15:41,279

other times when the movement down it looks
like it could be three separate objects yeah

120

00:15:41,279 --> 00:15:46,569

there we go man triangular UFO uh hello to
Ted long that looks like the strip from the

121

00:15:46,569 --> 00:15:53,160

old Asteroids game that's that's kind of what
I thought at first as well um and uh what

122

00:15:53,160 --> 00:15:58,910

was the other thing I wanted to mention before
we go into this one Jason [Music] um I'm forgetting

123

00:15:58,910 --> 00:16:02,720

so we're gonna we're just gonna talk about
it um what do you make of it what do you make

124

00:16:02,720 --> 00:16:08,210

of this triangular video I mean it you know
we see these all the time triangular videos

125

00:16:08,210 --> 00:16:15,329

and they're very popular and my first question
like he he asked in the video is is it one

126

00:16:15,329 --> 00:16:21,090

object or is it three separate objects in
a formation what do you think well what I

127

00:16:21,090 --> 00:16:25,380

think is we wouldn't ever be able to answer
that question right certainly based so just

128

00:16:25,380 --> 00:16:30,720

based off that video we would never know but
I will say night vision videos they are the

129

00:16:30,720 --> 00:16:36,450

best head scratchers especially when you witness
them yourselves right I mean you can go out

130

00:16:36,450 --> 00:16:43,660

and do Sky watching and when you use night
vision um there's there's so much in our skies

131

00:16:43,660 --> 00:16:49,260

you know and you're almost guaranteed to see
something that doesn't make sense um and you

132

00:16:49,260 --> 00:16:53,360

know you and I both have seen many things
with night vision that uh just leaves us scratching

133

00:16:53,360 --> 00:16:59,550

our heads so and and this video is you know
when I see the the three videos the the supposed

134

00:16:59,550 --> 00:17:06,611

tr3b videos I don't know a lot of times they don't make sense to me and not that UFOs have

135

00:17:06,611 --> 00:17:11,329

to make sense because UFOs don't make sense most of the time but uh you know that's something

136

00:17:11,329 --> 00:17:17,970

that I notice with every alleged tr3b video for some reason you know these three points

137

00:17:17,970 --> 00:17:23,049

of lights are always visible you always see these three points of light it doesn't matter

138

00:17:23,049 --> 00:17:27,079

where it is in the sky how it's turning you always see these three points of Life they're

139

00:17:27,079 --> 00:17:33,410

always conveniently pointed toward the camera um and to me that's a red flag of a creation

140

00:17:33,410 --> 00:17:37,950

of somebody's because things don't fly like that I mean watch an airplane watch anything

141

00:17:37,950 --> 00:17:43,000

in the sky you're not always going to see the underbelly with its lights shining directly

142

00:17:43,000 --> 00:17:49,210

toward you very conveniently for your camera so not saying that it means it's 100 fake

143

00:17:49,210 --> 00:17:54,340

but that is a red flag to watch out for but again our skies are absolutely littered and

144

00:17:54,340 --> 00:18:00,470

they're going to get a lot more crowded very soon just this past week we saw plans from

145

00:18:00,470 --> 00:18:07,320

I believe the dod talking about their goals to move forward with absolutely littering

146

00:18:07,320 --> 00:18:14,669

uh low earth orbit with with tons and tons more more constellations of objects like like

147

00:18:14,669 --> 00:18:20,179

uh spacex's starlink with their constellations of satellites that's going to become much

148

00:18:20,179 --> 00:18:26,350

more common as uh you know space becomes more and more crowded and everybody's looking to

149

00:18:26,350 --> 00:18:32,400

get more and more stuff up into orbit um at certain altitudes things are getting too crowded

150

00:18:32,400 --> 00:18:36,410

so they're going to start moving that around and it's already an absolute garbage can up

151

00:18:36,410 --> 00:18:41,640

there it's really sad we've absolutely destroyed space and there are plans to to try to clean

152

00:18:41,640 --> 00:18:46,110

up some of that space junk but you know none of those are really um you know picked up

153

00:18:46,110 --> 00:18:51,560

major momentum and gotten a lot of a lot of support behind them but that is becoming a

154

00:18:51,560 --> 00:18:56,700

huge problem it creates a big problem for us as UFO researchers because again we're

155

00:18:56,700 --> 00:19:01,090

dealing with all sorts of things in space that have limited lifespans that you know

156

00:19:01,090 --> 00:19:06,920

malfunction they in the reach of their life cycle they do deorbit so all these things

157

00:19:06,920 --> 00:19:12,580

are entering our atmosphere and coming crashing to Earth all the time and people

158

00:19:12,580 --> 00:19:15,700

are seeing them so I mean they look weird we don't know what they are so we're not going

159

00:19:15,700 --> 00:19:19,990

to recognize them a lot of the stuff is classified we'll never know what it is so we don't know

160

00:19:19,990 --> 00:19:24,929

what to look for so this really creates a big problem for us trying to identify and

161

00:19:24,929 --> 00:19:29,220

remove things from our equation is we're looking at the strange it really makes our

162

00:19:29,220 --> 00:19:35,070

job impossible the the more crowded space gets and lower space too you know talking

163

00:19:35,070 --> 00:19:40,760

just in our in our uh you know lower atmosphere so who knows Ryan who knows but these night

164

00:19:40,760 --> 00:19:45,460

vision videos do make you scratch your head
you see things like that that don't have an

165

00:19:45,460 --> 00:19:50,059

apparent uh explanation that one isn't as
as bizarre as a lot of these are you know

166

00:19:50,059 --> 00:19:55,460

it didn't do any of these stopping not moving
at all and then shooting off in another Direction

167

00:19:55,460 --> 00:20:01,150

something we both seen many times before too
but uh yeah I I do love watching those because

168

00:20:01,150 --> 00:20:05,260

it really makes the wheels in my head spin
and I I would love to figure out what that

169

00:20:05,260 --> 00:20:11,870

stuff is yeah yeah the triangles just freak
me out man there's something yeah about them

170

00:20:11,870 --> 00:20:18,030

obviously um considering I think I've seen
one um I don't know I don't know maybe what

171

00:20:18,030 --> 00:20:23,789

I saw was a plane maybe that was a plane um
Daylin one of our regulars said it's definitely

172

00:20:23,789 --> 00:20:29,400

a plane um maybe it just didn't have its safety
lights on or something but um like you said

173

00:20:29,400 --> 00:20:35,100

it made no interesting Maneuvers it seemed
to be just you know flying the course like

174

00:20:35,100 --> 00:20:43,440

a normal aircraft would so um yeah again with such low information data on these things

175

00:20:43,440 --> 00:20:46,899

uh we can't make any

176

00:20:46,899 --> 00:20:51,620

they're great for speculation they're great for you know adding to our our pile of of

177

00:20:51,620 --> 00:20:55,179

supporting evidence and we consider it and move forward I mean there's nothing we can

178

00:20:55,179 --> 00:20:59,820

do with that that's not something that's going to be identified is what it is it is what

179

00:20:59,820 --> 00:21:04,440

it is yep all right well let's move on from UFO videos because we could spend two hours

180

00:21:04,440 --> 00:21:12,409

just debating those um you mentioned um low sort of atmosphere we're going to talk about

181

00:21:12,409 --> 00:21:18,760

a story in the stratosphere in just a moment but before that because Rogue Planet covers

182

00:21:18,760 --> 00:21:26,429

all the strange I had to sneak in a Bigfoot story so let's cover this one um because this

183

00:21:26,429 --> 00:21:36,260

is this is a fun one uh let me pull this up here Sasquatch hand possibly found in Canada

184

00:21:36,260 --> 00:21:41,090

so let me go ahead and read this really quick
this again comes from our buddy Tim Bernal

185

00:21:41,090 --> 00:21:46,659

over at Coast to Coast AM workers planting
trees in Canada made a discovery in the form

186

00:21:46,659 --> 00:21:52,289

of a creature's foot excuse me not a hand
I miss that was a typo in my title there

187

00:21:52,289 --> 00:21:58,600

um a foot that some suspect could be that
of a Sasquatch the unsettling find occurred

188

00:21:58,600 --> 00:22:03,289

last Thursday at a camp near Alexis Creek
in British Columbia photos were shared on

189

00:22:03,289 --> 00:22:10,160

social media by Joanne Joanna Finch who called
upon friends who know archeology anthropology

190

00:22:10,160 --> 00:22:16,270

paleontology or weird animal identification
to help in determining the nature of this

191

00:22:16,270 --> 00:22:24,279

crazy humanoid foot Skeptics put forward that
it could be the Paw of a wolverine or a bear

192

00:22:24,279 --> 00:22:28,850

renowned Sasquatch researcher Jeff Meldrum
who you guys see there on the screen who was

193

00:22:28,850 --> 00:22:36,960

also a professor of anthropology and Anatomy
at Idaho State University examine the images

194

00:22:36,960 --> 00:22:44,980

and unfortunately concluded that the appendage is a left-hand foot of a bear and sadly not

195

00:22:44,980 --> 00:22:52,179

a Sasquatch ball so the reason I brought this story up Jason was not you know to keep people

196

00:22:52,179 --> 00:22:59,250

you know wondering what it was uh we know what it was this was from a bear and you and

197

00:22:59,250 --> 00:23:04,010

I run into this all the time well these stories are fun and excited and it's like oh my God

198

00:23:04,010 --> 00:23:12,190

we finally have proof of a Bigfoot um it's a bear so let's talk about that in terms of

199

00:23:12,190 --> 00:23:18,900

um not debunking but explaining these things you know Jeff Meldrum is known for his work

200

00:23:18,900 --> 00:23:25,909

in the Bigfoot world and um a lot of people send him hate for uh debunking a lot of these

201

00:23:25,909 --> 00:23:30,890

things but that's literally his job so yeah why don't you mind um maybe giving us your

202

00:23:30,890 --> 00:23:36,370

thoughts on you know the importance of explaining these things away instead of keeping the mystery

203

00:23:36,370 --> 00:23:43,610

alive of course yeah that's that's what research is nobody said research is guaranteed to be

204

00:23:43,610 --> 00:23:53,309

fun or sexy or always going the way you want
it to go I mean the point of research is making

205

00:23:53,309 --> 00:23:58,070

truth the focus of your quest as I always
say you know if you're if you're truly interested

206

00:23:58,070 --> 00:24:02,820

in finding out the truth of something you
have to put put aside your your preconceived

207

00:24:02,820 --> 00:24:08,770

notions your your personal biases and your
personal end goals and follow the evidence

208

00:24:08,770 --> 00:24:13,630

see where it leads and keep an open mind um
and then take what you learn and apply that

209

00:24:13,630 --> 00:24:19,020

to your personal beliefs that's how this all
works with UFOs with Bigfoot with any of it

210

00:24:19,020 --> 00:24:23,820

this is all a personal quest for everybody
we all view things differently we all Place

211

00:24:23,820 --> 00:24:30,350

different importance levels on the types of
evidence we receive and in this case and in

212

00:24:30,350 --> 00:24:35,700

any other case I applaud how this was all
done because the witness from the witness

213

00:24:35,700 --> 00:24:40,340

to The Experts you know everybody was just
looking for an answer the witness themselves

214

00:24:40,340 --> 00:24:46,420

went out sought you know help from experts
from phds from people who would have specialized

215

00:24:46,420 --> 00:24:50,820

knowledge to be able to identify something
like this and in the course of research when

216

00:24:50,820 --> 00:24:56,510

you're looking for the truth that's what you're
doing you're you're just seeing where the

217

00:24:56,510 --> 00:25:02,350

evidence leads and in this case the scientists
responsibly said this is what it is even though

218

00:25:02,350 --> 00:25:07,690

that kind of goes against the the pro pro
Bigfoot uh mindset you know you've gotta gotta

219

00:25:07,690 --> 00:25:12,470

be honest in your research uh present the
evidence as it comes and move forward from

220

00:25:12,470 --> 00:25:16,420

that we can't move forward if we get hung
up on every little thing and try to force

221

00:25:16,420 --> 00:25:22,549

it to fit into a puzzle that we're looking
at and uh you know if that happens that means

222

00:25:22,549 --> 00:25:26,210

the researcher doing that is not interested
in the truth they're pushing an agenda or

223

00:25:26,210 --> 00:25:32,570

trying to bolster their own personal beliefs
and that's dishonest that's uh disingenuous

224

00:25:32,570 --> 00:25:36,929

and it doesn't help anybody it might help
them feel good and feel better about themselves

225

00:25:36,929 --> 00:25:41,590

and their personal beliefs but again that
works for some people and that's what some

226

00:25:41,590 --> 00:25:46,679

people want if that's what they're looking
for good me myself I'm I'm only interested

227

00:25:46,679 --> 00:25:51,610

in the truth so you know a lot of the times
it's very deflating you know we don't get

228

00:25:51,610 --> 00:25:57,679

the news we want but we volunteered we entered
this this world of the weird and in the world

229

00:25:57,679 --> 00:26:03,500

of the word more times than not it's going
to be a want moment because most of these

230

00:26:03,500 --> 00:26:08,330

things have mundane explanations they're just
issues with our perception things that we're

231

00:26:08,330 --> 00:26:11,700

encountering that we've never encountered
before things that we're learning for the

232

00:26:11,700 --> 00:26:17,309

first time things that are outside our Norm
right and there's so much of that in this

233

00:26:17,309 --> 00:26:23,090

weird world that we barely understand things
on our planet we barely even scratch the surface

234

00:26:23,090 --> 00:26:27,610

of whatever reality is right there's lots
of room for strange out there there's lots

235

00:26:27,610 --> 00:26:33,309

of room for learning new things as we move
forward so we have to keep an open mind and

236

00:26:33,309 --> 00:26:38,820

consider all possibilities especially when
dealing with strange subjects like these because

237

00:26:38,820 --> 00:26:44,360

there's things outside our understanding but
when the explanation for most of these things

238

00:26:44,360 --> 00:26:50,669

that come out are within our understanding
things that we can resolve and move past that's

239

00:26:50,669 --> 00:26:54,700

what we're we're wanting to do because as
we see time and time again we are just flooded

240

00:26:54,700 --> 00:26:58,760

with absolute garbage and that doesn't help
anybody because that's the stuff that gets

241

00:26:58,760 --> 00:27:02,590

the big headlines because that's the stuff
that looks sexy that's the stuff that looks

242

00:27:02,590 --> 00:27:06,730

strange and everybody wants to talk about
it everybody goes on the news and talks about

243

00:27:06,730 --> 00:27:12,039

it people pick up these headlines and run
with it and it spreads like wildfire across

244

00:27:12,039 --> 00:27:17,320

media around the world and then it comes out
you know they identify the identification

245

00:27:17,320 --> 00:27:22,830

is made it's something mundane and that just
pops the balloon and then we're two steps

246

00:27:22,830 --> 00:27:27,649

back instead of you know being one step forward
where we could be if we responsibly took care

247

00:27:27,649 --> 00:27:32,659

of things and identified in the right way
from the very beginning and moved on to things

248

00:27:32,659 --> 00:27:38,270

that are deserving more attention we're not
to that point now and and I don't know you

249

00:27:38,270 --> 00:27:42,330

know how we get to that point if that's a
point we can get to that's part of the frustrating

250

00:27:42,330 --> 00:27:48,519

nature of dealing with the strange and that's
why being involved in this field really takes

251

00:27:48,519 --> 00:27:55,289

a lot of patience it takes a lot of understanding
because otherwise you get really defeated

252

00:27:55,289 --> 00:28:00,970

you get really really depressed and you just
want to move on and you and I have been there

253

00:28:00,970 --> 00:28:06,740

before many times as have many researchers
in this field you know it's hard to to stay

254

00:28:06,740 --> 00:28:12,330

focused and not not get so beat up and defeated
because everything you're looking into you

255

00:28:12,330 --> 00:28:16,050

know you're able to explain and I think that's
a good thing it's a good thing when you get

256

00:28:16,050 --> 00:28:21,799

to that point when you're able to identify
more than be confused by more right that's

257

00:28:21,799 --> 00:28:25,510

when the table is turned and you can focus
more of your attention on the things that

258

00:28:25,510 --> 00:28:33,630

are truly anomalous right and that small percentage
is always there in some form and I know that's

259

00:28:33,630 --> 00:28:38,460

what keeps you and I going like absolutely
we're not we're not like debunkers by trade

260

00:28:38,460 --> 00:28:43,620

or anything like that but and I'm willing
to keep an open mind but I love stories like

261

00:28:43,620 --> 00:28:48,480

this where there is a generation you know
um we're going to talk about a story that

262

00:28:48,480 --> 00:28:54,820

absolutely blew up and went viral um and and
the individual involved with that has kind

263

00:28:54,820 --> 00:29:00,990

of walked it back since which I think was
very smart on their part um but we will discuss

264

00:29:00,990 --> 00:29:06,580

it because there's a lot to dissect that sure
um but I gotta ask before we move on to our

265

00:29:06,580 --> 00:29:12,120

next story um which is more space related
um well Stratosphere related I should say

266

00:29:12,120 --> 00:29:20,590

um you mentioned open minds I have to ask
you know you worked full-time free a UFO investigatory

267

00:29:20,590 --> 00:29:27,779

organization um you know going out and and
trying like we said to explain you have sightings

268

00:29:27,779 --> 00:29:33,899

that came to you guys at open minds and everything
did you guys ever come across any reports

269

00:29:33,899 --> 00:29:41,010

of Bigfoot while you were working at open
minds or UFO Bigfoot connections or Cryptids

270

00:29:41,010 --> 00:29:45,620

at all did that ever happen in your time with
open minds I've always been curious to uh

271

00:29:45,620 --> 00:29:51,120

yeah yeah it sure did I mean we we certainly
heard a bit of everything you know we we because

272

00:29:51,120 --> 00:29:55,880

of who we were and how prominent we were in
the field at the time with you know an internationally

273

00:29:55,880 --> 00:30:01,701

distributed print magazine and uh the largest
annual UFO conference in the world we had

274

00:30:01,701 --> 00:30:05,850

a lot of people coming to us all the time
with all sorts of evidence all sorts of claims

275

00:30:05,850 --> 00:30:11,160

all sorts of stories and and requesting meetings
with us and we did a lot of that uh you know

276

00:30:11,160 --> 00:30:17,120

over the span of several years but because
of what our what our company was and where

277

00:30:17,120 --> 00:30:22,760

our Focus was a lot of the the things that
I might have been you know very interested

278

00:30:22,760 --> 00:30:27,640

in or you know certainly Maureen Ellsbury
too our colleague um things we would have

279

00:30:27,640 --> 00:30:32,480

loved to have to have pursued and tracked
down just were outside our wheelhouse outside

280

00:30:32,480 --> 00:30:39,269

of what we were focused in because we were
purely UFO extraterrestrial that's what the

281

00:30:39,269 --> 00:30:43,559

topics were that we focused on and we didn't
have the bandwidth to do anything else so

282

00:30:43,559 --> 00:30:49,870

and you know at the time because I was working
for that that organization I was also uh Bound

283

00:30:49,870 --> 00:30:53,860

by their their non-compete Clause as well
so I my hands were tied pretty much too and

284

00:30:53,860 --> 00:30:59,840

and what I could actively explore and and
uh you know go into so um now we didn't get

285

00:30:59,840 --> 00:31:05,350

to really do anything we got to talk to a
lot of people um I remember one of the Bigfoot

286

00:31:05,350 --> 00:31:10,529

things I did get involved with a little bit
was there was a a Bigfoot hoaxer and he'd

287

00:31:10,529 --> 00:31:16,149

hoax Bigfoot but stuff before too and I forget
his name uh Dwyer I think was his name but

288

00:31:16,149 --> 00:31:22,299

uh he made a a fake Bigfoot body and put it
in a freezer and claimed that he discovered

289

00:31:22,299 --> 00:31:26,360

this Bigfoot and and our Buddy Lee Spiegel
who is working for the Huffington Post at

290

00:31:26,360 --> 00:31:31,230

that time uh did this big story on it we were
we were in constant communication going back

291

00:31:31,230 --> 00:31:36,179

and forth as we were researching this thing
and uh the guy was so full of [h__\h] and

292

00:31:36,179 --> 00:31:41,860

it was just a complete fabrication and and
that was known but uh the the biggest thing

293

00:31:41,860 --> 00:31:46,809

that came out of our our Lee's and and my
communication back and forth was how shocked

294

00:31:46,809 --> 00:31:52,559

we were that in this supposedly anatomically correct you know this perfect Bigfoot that

295

00:31:52,559 --> 00:32:00,260

had been created Lee noticed that the Bigfoot had a very SMI uh tiny penis so you know the

296

00:32:00,260 --> 00:32:05,960

the rumor of the the big feat equals big else elsewhere um it's not the case with Bigfoot

297

00:32:05,960 --> 00:32:14,600

apparently so Bigfoot's not packing big footage wow the ratio is off guys the headline of

298

00:32:14,600 --> 00:32:18,190

his his uh story too or something like Bigfoot little dick or something

299

00:32:18,190 --> 00:32:26,850

if you're gonna fake an entire Bigfoot body like yeah you gotta make it as accurate as

300

00:32:26,850 --> 00:32:33,809

possible and as we all know you know the the feet do match usually oh and they were plenty

301

00:32:33,809 --> 00:32:38,740

plenty of stories out there in UFO lore about Bigfoot sex let me tell you so yeah we got

302

00:32:38,740 --> 00:32:44,399

a lot of sexy Squatch fans here in the chat I've seen we got some uh some kinky folks

303

00:32:44,399 --> 00:32:49,769

here tonight um I wrote it I wrote a story for for to the Stars too that was was Bigfoot

304

00:32:49,769 --> 00:32:54,789

related that was about a story and I don't remember the source of it I think it was out

305

00:32:54,789 --> 00:33:02,049

of Siberia even so it was you know more of a Yeti story but um and I found other stories

306

00:33:02,049 --> 00:33:08,750

too talking about uh the odor of of Bigfoot type creatures and not just odor from their

307

00:33:08,750 --> 00:33:17,450

bodies but odor from their genitalia and apparently it is it was the way it was described was

308

00:33:17,450 --> 00:33:23,909

like a baby's diaper and they were just making Sasquatch sex sound really really unappealing

309

00:33:23,909 --> 00:33:31,370

yeah it's not good yeah my stomach just turned yeah it's not good it's not good oh God man

310

00:33:31,370 --> 00:33:38,269

yeah um well all right last question I promise before we move on to the next story um so

311

00:33:38,269 --> 00:33:43,559

yeah you worked with Tom DeLong to the stars for a little bit so I'd love to ask um your

312

00:33:43,559 --> 00:33:49,210

opinion on what was that experience like like I know which of the Stars Academy you know

313

00:33:49,210 --> 00:33:55,550

uh kind of a big reason some of the people moved on is because Tom is very uh to put

314

00:33:55,550 --> 00:34:01,990

it lightly he's very out there like he's got
some pretty pretty uh extraordinary beliefs

315

00:34:01,990 --> 00:34:08,040

if I might you know steal a term from Jeremy
Corbell and um he likes the weirder stuff

316

00:34:08,040 --> 00:34:14,010

um so you know going from something like open
minds which is was very fact evidence-based

317

00:34:14,010 --> 00:34:19,629

um and then moving over to something like
to the Stars before you know everything happened

318

00:34:19,629 --> 00:34:24,640

with what to the Stars would inevitably be
um what was that like working with him and

319

00:34:24,640 --> 00:34:30,060

and trying to track down these really really
weird stories it must have been kind of Whiplash

320

00:34:30,060 --> 00:34:37,480

from the the open mind stage um if I would
Venture I guess it was quite a bit different

321

00:34:37,480 --> 00:34:44,659

but I will say I I absolutely love Tom Tom
is fantastic and uh you know that was a blast

322

00:34:44,659 --> 00:34:51,639

Tom is no he's no not shy at all about uh
his ADD and bouncing off the walls and going

323

00:34:51,639 --> 00:34:55,839

from Project to project to project that's
how he works he's got to keep himself busy

324

00:34:55,839 --> 00:35:01,890

so he's he's constantly shifting focus and
uh he's hard to keep on track but uh I love

325

00:35:01,890 --> 00:35:09,500

I love Tom I love him I love his passion and
uh you know love or hate what what tsa did

326

00:35:09,500 --> 00:35:13,820

what they are now they they deserve all the
credit in the world Tom really does because

327

00:35:13,820 --> 00:35:21,089

it is my my opinion I know it's not a popular
one and you know say what you will about crazyrockstar

328

00:35:21,089 --> 00:35:26,730

Tom or any of the other people associated
with that company but he really did uh you

329

00:35:26,730 --> 00:35:31,780

know light the fire and and cause kind of
the chain reaction that led to everything

330

00:35:31,780 --> 00:35:38,310

we're seeing today at the Congressional level
that is an opinion of mine but it's also pretty

331

00:35:38,310 --> 00:35:45,280

much documented fact and uh you know you can
talk to to Lou and you can talk to Chris Mellon

332

00:35:45,280 --> 00:35:52,369

I mean none of this would have happened without
Tom and to the Stars putting all that in motion

333

00:35:52,369 --> 00:35:58,390

and by those guys having to the stars as a
vehicle they were able to do what they did

334

00:35:58,390 --> 00:36:03,580

affect the Congressional language and and
uh you know work with Leslie Kane and get

335

00:36:03,580 --> 00:36:08,780

the New York Times involved I mean all of
that stuff Tom deserves the credit he really

336

00:36:08,780 --> 00:36:13,660

does yeah I know it might sound weird for
some people to hear me say that but Tom will

337

00:36:13,660 --> 00:36:18,740

forever have my respect for that I do hold
Tom in high regard and have a higher opinion

338

00:36:18,740 --> 00:36:22,180

of him than I think most do because I did
personally work with him and I consider him

339

00:36:22,180 --> 00:36:27,350

a friend and shocking as it always is when
I say it Tom is the most well-read person

340

00:36:27,350 --> 00:36:31,780

on this subject on the subject of UFOs and
the Paranormal in general I think but specifically

341

00:36:31,780 --> 00:36:36,400

about UFOs that I've ever met and I've met
probably every leading UFO researcher there

342

00:36:36,400 --> 00:36:43,869

is I've uh you know met countless people in
in this field you know from fan to to expert

343

00:36:43,869 --> 00:36:50,369

if there is such a thing and he is by far
the most well-read person so as crazy as what

344
00:36:50,369 --> 00:36:56,180
John might seem to some as as off-putting
as he might be to you uh that's that's just

345
00:36:56,180 --> 00:37:01,579
Tom right we're all different and Tom's a
rock star but he's a rock star who is passionate

346
00:37:01,579 --> 00:37:05,930
about something knowledge about some knowledgeable
about something and he got it got off his

347
00:37:05,930 --> 00:37:10,589
ass and uh put his money where his mouth was
and made it happen so and even stepped away

348
00:37:10,589 --> 00:37:15,119
from blink to make that happen too that was
a big part of it and now he's back with blank

349
00:37:15,119 --> 00:37:20,870
so I hope he's having a blast I mean he's
come full circle I love the guy and uh I know

350
00:37:20,870 --> 00:37:23,440
he's got a lot a lot more things lined up
and we're going to see a lot more from to

351
00:37:23,440 --> 00:37:29,460
the Stars very soon right yeah we had someone
in the chat just asked what happened to ttsa

352
00:37:29,460 --> 00:37:34,230
that's a great question we'll cover that very
quickly here um James Craig with a super chat

353
00:37:34,230 --> 00:37:41,200
um says love the glasses Jason um you oh you're
always rocking the glasses man you're so stylish

354

00:37:41,200 --> 00:37:45,839

hey man it's not fun wearing glasses but if
you got to wear glasses have fun have fun

355

00:37:45,839 --> 00:37:52,030

with them your T-shirt too everyone's commenting
on your T-shirt definitely got some definitely

356

00:37:52,030 --> 00:37:59,690

Pour Some Sugar on Jason I saw someone say
yeah um well yeah Jeff just released an album

357

00:37:59,690 --> 00:38:07,869

this week so I'm feeling lucky yeah oh my
God it's a it's it's a a reworking of of their

358

00:38:07,869 --> 00:38:14,230

old some of their old music but they did it
with the Philharmonic Orchestra so it's uh

359

00:38:14,230 --> 00:38:21,630

definitely Def Leppard on another level it's
kind of crazy yeah checking that one out that's

360

00:38:21,630 --> 00:38:26,950

for damn sure that's awesome hysteria is still
one of my favorites absolutely to be honest

361

00:38:26,950 --> 00:38:33,770

um well tsa yeah I mean they're still I mean
stuff is still happening I mean um you know

362

00:38:33,770 --> 00:38:38,240

Monsters of California is going to be coming
out hopefully soon I can't wait for that it

363

00:38:38,240 --> 00:38:45,230

sounds like it's going to be amazing um you
know um but yeah in terms of what tsa is

364

00:38:45,230 --> 00:38:49,819

doing they've made it pretty clear that they're kind of just focusing on the entertainment

365

00:38:49,819 --> 00:38:55,440

aspect right now which is that's where you get the money to continue the work so yeah

366

00:38:55,440 --> 00:39:00,020

we're not getting the spaceship like we were maybe originally promised but like you said

367

00:39:00,020 --> 00:39:04,859

Thomas got like you know he's got a million balls in the air all the time so maybe he'll

368

00:39:04,859 --> 00:39:10,820

move back to the uh building a spaceship someday but uh yeah yeah I don't know what do you

369

00:39:10,820 --> 00:39:16,220

think what do you think about where tsa is right now Jason we'll see I mean they've got

370

00:39:16,220 --> 00:39:21,819

a lot of moving Parts they still have big plans on their table and I know that as we

371

00:39:21,819 --> 00:39:26,990

all watch as Spectators it's easier to to get upset and demand and want things to happen

372

00:39:26,990 --> 00:39:31,000

right now you know it's no different than being a Star Wars fan and wanting the next

373

00:39:31,000 --> 00:39:35,470

Star Wars movie or or you know anything like that it comes down to fandom and that's what

374

00:39:35,470 --> 00:39:40,490

what we really are at the point as Spectators
just sitting back and watching things happen

375

00:39:40,490 --> 00:39:45,000

and the same thing with you know the Pentagon
and and arrow and any of these groups you

376

00:39:45,000 --> 00:39:49,500

know we get so frustrated when these things
are established and months later we don't

377

00:39:49,500 --> 00:39:55,200

see anything after these things have been
going but things take time they really do

378

00:39:55,200 --> 00:40:00,839

so I think patience is always at the right
approach I my personal opinion I don't think

379

00:40:00,839 --> 00:40:05,180

everybody anybody should have ever seriously
considered that a spaceship was coming or

380

00:40:05,180 --> 00:40:10,580

any of those ridiculous things but uh yeah
I mean right from the start with an entertainment

381

00:40:10,580 --> 00:40:14,750

company led by an entertainment person trying
to take an entertainment Spin and have some

382

00:40:14,750 --> 00:40:19,200

interesting content for that entertainment
so I think that's still going forward but

383

00:40:19,200 --> 00:40:22,660

they've opened a lot of doors they've got
a lot of important people working with them

384

00:40:22,660 --> 00:40:28,910

on these projects and you know what it's it's
uh focusing a lot on the audience that you

385

00:40:28,910 --> 00:40:33,950

and I try to focus on Ryan and that is not
the UFO community that we are a part of and

386

00:40:33,950 --> 00:40:41,390

we love but on the general public and the
subset of the general public being the younger

387

00:40:41,390 --> 00:40:46,990

generations of that general public because

388

00:40:46,990 --> 00:40:53,780

all people in my opinion but certainly younger
people right now are very open to all of these

389

00:40:53,780 --> 00:40:58,790

strange topics and you know when we speak
of things like Comic Cons to General Public

390

00:40:58,790 --> 00:41:06,079

audiences they are so much more excited so
much more level-headed and so much more willing

391

00:41:06,079 --> 00:41:12,440

to learn how to get involved and get involved
responsibly and participate in in all of these

392

00:41:12,440 --> 00:41:18,650

things that we do I love properly not properly
properly is the wrong word but responsibly

393

00:41:18,650 --> 00:41:25,880

trying to to do our public education efforts
and not not create false hope in people but

394

00:41:25,880 --> 00:41:31,571

you know lay out the the the the situation
as it is for people and let people uh take

395

00:41:31,571 --> 00:41:37,720

the reins and and take control over their
own exploration into this strange yeah absolutely

396

00:41:37,720 --> 00:41:42,440

man that public you know public education
is a big part like you said of what you and

397

00:41:42,440 --> 00:41:47,369

I like to do and and getting younger people
involved and that was kind of one of Tom's

398

00:41:47,369 --> 00:41:51,690

uh goals from the very beginning and I think
he did an amazing job with that look at how

399

00:41:51,690 --> 00:41:58,109

many new people came into the UFO field once
all of that happened it's really it's amazing

400

00:41:58,109 --> 00:42:03,740

it's extraordinary it is it is and look I
I I also want to make make this clear too

401

00:42:03,740 --> 00:42:08,940

because you know we live in a weird time and
and you know social media gotta love it and

402

00:42:08,940 --> 00:42:12,970

hate it at the same time and it's certainly
a lot different now the social media landscape

403

00:42:12,970 --> 00:42:17,589

than it was uh you know when you and I got
involved in this field a long time ago Ryan

404

00:42:17,589 --> 00:42:25,850

but um but uh you know there's it seems lately
that you either have to 100 percent love and

405

00:42:25,850 --> 00:42:31,660

worship somebody or you have to 100 be against
them and want to burn them to the ground and

406

00:42:31,660 --> 00:42:35,410

that's a really sad State of Affairs I know
that's a human issue it's not a UFO Community

407

00:42:35,410 --> 00:42:41,240

issue it's just humanity and you'll find that
in any Community but I I think that's really

408

00:42:41,240 --> 00:42:47,839

sad to see but because we're at that point
I will responsibly clarify that yes I do love

409

00:42:47,839 --> 00:42:53,720

and respect Tom I consider him a friend but
I can say that and appreciate the work that

410

00:42:53,720 --> 00:42:59,890

he does while also not sharing the same viewpoints
that he does about everything because Tom

411

00:42:59,890 --> 00:43:06,260

does make pretty Grand claims and that he's
he's allowed to do that we all are right we

412

00:43:06,260 --> 00:43:12,420

all again this is an individual Pursuit for
all of us we all have to go down this path

413

00:43:12,420 --> 00:43:17,400

take in evidence as it comes and weigh it
accordingly it's all different this isn't

414

00:43:17,400 --> 00:43:22,250

a religion we all don't have the same beliefs
and we shouldn't and we're not required to

415

00:43:22,250 --> 00:43:27,590

so yes I think a lot of what Tom says is is
kind of crazy but he's happy to discuss it

416

00:43:27,590 --> 00:43:33,240

with you and uh you know explain his sources
and why he feels that way but those are his

417

00:43:33,240 --> 00:43:39,440

beliefs and good for him so no I don't 100
believe and accept everything that Tom says

418

00:43:39,440 --> 00:43:45,840

but I do love the guy I think I wish I had
the energy he does and I'm very very proud

419

00:43:45,840 --> 00:43:53,090

for what he's accomplished yeah man talk about
energy to be running ttsa and to the stars

420

00:43:53,090 --> 00:43:59,059

and going on a got an international tour at
this point with blink again I don't know how

421

00:43:59,059 --> 00:44:04,770

he finds the uh the energy to do it but um
okay last question and then we gotta move

422

00:44:04,770 --> 00:44:09,800

on guys to get to the the meat of this conversation
uh diffuse with a five dollar Super Chat thank

423

00:44:09,800 --> 00:44:14,140

you so much really appreciate it ttsa do you
think they will ever finish the two secret

424

00:44:14,140 --> 00:44:20,030

machines book series um that's a great great question I believe so because aren't they

425

00:44:20,030 --> 00:44:26,829

adapting it into a TV show or a movie or something like a TV show yeah yeah and absolutely I

426

00:44:26,829 --> 00:44:32,119

mean both both the yeah AJ and Peter yeah they'll they'll definitely wrap those up I

427

00:44:32,119 --> 00:44:38,710

don't see that one being held up at all yep those books are so good I I forget what game

428

00:44:38,710 --> 00:44:44,440

momentum once the show comes out yeah yeah yeah exactly and again like the the blending

429

00:44:44,440 --> 00:44:49,530

the truth with fiction like welcome to ufology everyone's like well you know is he telling

430

00:44:49,530 --> 00:44:55,900

the truth or not um well is anyone telling just the truth in the UFO field like this

431

00:44:55,900 --> 00:45:01,990

is a disinformation sandwich it has been from the very beginning you know to tr one truth

432

00:45:01,990 --> 00:45:08,200

between two lies so um I think it's genius what they're doing with the books like implementing

433

00:45:08,200 --> 00:45:13,520

small things or you do have to read between the lines and UFO researchers are pretty good

434

00:45:13,520 --> 00:45:19,610

at doing that uh so yeah I'm looking forward
to the hopefully um continuation of the secret

435

00:45:19,610 --> 00:45:26,050

machines books uh for sure for sure but um
anything else Jason with tsa before we move

436

00:45:26,050 --> 00:45:31,730

on no but on that subject I mean if you get
a chance you should reach out to to Peter

437

00:45:31,730 --> 00:45:36,240

lavenda and have him on after an interview
with him he's a great interview he's such

438

00:45:36,240 --> 00:45:41,910

a such a sweetheart um always fun to talk
to so he would certainly have more more clarity

439

00:45:41,910 --> 00:45:47,660

to provide on that I'm sure yeah yeah I know
I got to get him on I'm there are certain

440

00:45:47,660 --> 00:45:52,170

guests that intimidate me and he's one of
those but you saying he's you know he's very

441

00:45:52,170 --> 00:45:57,240

he's an absolute sweetheart okay perfect I'm
gonna reach out to him after this for sure

442

00:45:57,240 --> 00:46:03,160

um all right guys enough at tsa we've got
to get to this story because this is really

443

00:46:03,160 --> 00:46:10,819

interesting um mysterious infrared sound signals
of Unknown Origin detected in Earth's stratosphere

444

00:46:10,819 --> 00:46:16,640

baffle scientist this story came from the
debrief and Micah Hanks um so a mysterious

445

00:46:16,640 --> 00:46:22,460

sound signal has been detected in Earth's
upper atmosphere in the U.S department of

446

00:46:22,460 --> 00:46:28,510

energy scientists say they are currently unsure
of its source um so this quote comes from

447

00:46:28,510 --> 00:46:34,730

Daniel Bowman a principal scientist at Sandia
National Lab he says quote in the stratosphere

448

00:46:34,730 --> 00:46:40,160

there are mysterious infrasound signals that
occur a few times per hour on some flights

449

00:46:40,160 --> 00:46:46,730

but the source of these are completely unknown
uh he would also go on to say that the unusual

450

00:46:46,730 --> 00:46:51,920

phenomenon was detected amid such conventional
environmental and man-made sounds using a

451

00:46:51,920 --> 00:46:58,340

solar-powered hot air balloon um this is going
to tie into a lot of other stuff equipped

452

00:46:58,340 --> 00:47:04,349

with micro barometers used to just detect
low frequency sound the balloons are released

453

00:47:04,349 --> 00:47:08,850

and tracked with GPS over the course of their
high altitude Journeys which sometimes carry

454

00:47:08,850 --> 00:47:14,079

them for several hundred miles Bowman says that solar powered balloons similar to the

455

00:47:14,079 --> 00:47:19,990

ones he and his team construct could also be used on other planets in our solar system

456

00:47:19,990 --> 00:47:25,780

with applications that may include studies of seismic events occurring on Venus and lastly

457

00:47:25,780 --> 00:47:32,450

for now the source of the mysterious sound um his device is detected remains unknown

458

00:47:32,450 --> 00:47:40,599

and will require require additional data in order to unravel their cause um balloons this

459

00:47:40,599 --> 00:47:46,770

is huge right now Jason I mean these were what were shot down over in North America

460

00:47:46,770 --> 00:47:54,480

and some of them maybe not all of them we don't know for sure um but this goes to show

461

00:47:54,480 --> 00:48:03,280

the type of stuff that are up there constantly all over the place all the time um and even

462

00:48:03,280 --> 00:48:08,579

I don't necessarily think of that you know I'm like oh there's planes up there um you

463

00:48:08,579 --> 00:48:14,400

know there's there's drones and whatnot but we don't think of all of these companies All

464

00:48:14,400 --> 00:48:20,119

Over America at least that are putting these things up for weather purposes for scientific

465

00:48:20,119 --> 00:48:27,490

purposes um and this is one of them that has caught a mysterious sound in the stratosphere

466

00:48:27,490 --> 00:48:33,490

which is pretty damn cool if you ask me but um yeah I guess two-prong question for you

467

00:48:33,490 --> 00:48:38,880

what do you make of this story and second um this entire balloon conversation I'm I

468

00:48:38,880 --> 00:48:44,770

mean it's huge right now in the UFO field um so yeah yeah let's go with that so I I

469

00:48:44,770 --> 00:48:51,170

love stories like this I mean this is there's so many fascinating things that are discovered

470

00:48:51,170 --> 00:48:56,950

all the time and these discoveries are going to end questions they raise are going to come

471

00:48:56,950 --> 00:49:04,319

a lot more frequently because we are just in a time where where technology is developing

472

00:49:04,319 --> 00:49:09,540

so rapidly and so many companies like you said are launching new devices and balloons

473

00:49:09,540 --> 00:49:15,720

and shapes and functions that we've certainly never seen and they don't really make big

474

00:49:15,720 --> 00:49:21,660

headlines they're not sexy stories they're going to be on the news so the general public

475

00:49:21,660 --> 00:49:25,799

doesn't see all these things all the time and therefore they aren't aware of them so

476

00:49:25,799 --> 00:49:29,210

you know that comes back to the public education and the importance of that because there's

477

00:49:29,210 --> 00:49:34,530

so much stuff just in our skies all over our heads right now that we don't see on a day-to-day

478

00:49:34,530 --> 00:49:39,270

basis we don't have an idea you know that it's even there so when we see it it seems

479

00:49:39,270 --> 00:49:43,950

bizarre it seems very alien and therefore it generates UFO reports it happens all the

480

00:49:43,950 --> 00:49:49,319

time with all sorts of things and it's only going to get worse so but to the Discovery

481

00:49:49,319 --> 00:49:54,910

part yes I love this and it just back to my original point that we know so little about

482

00:49:54,910 --> 00:50:00,460

our own planet right here let alone what's out in space and I mean we're we're still

483

00:50:00,460 --> 00:50:07,900

discovering thousands of new species every year right on this planet we just we're research

484

00:50:07,900 --> 00:50:13,740

so little of our own ocean our own Moon very
small percentage so there's so much still

485

00:50:13,740 --> 00:50:19,589

to learn about this planet and you know in
the upper atmosphere that with these research

486

00:50:19,589 --> 00:50:23,869

balloons we're going to learn so much more
and I'm a firm believer that uh you know there's

487

00:50:23,869 --> 00:50:29,230

probably some sort of undiscovered life that
lives in our atmospheres you know atmospheric

488

00:50:29,230 --> 00:50:33,700

beings it's always a great thing to come back
to Trevor James Constable a lot of people

489

00:50:33,700 --> 00:50:38,490

have written about the possibility of atmospheric
beings and with UFOs you know we wonder are

490

00:50:38,490 --> 00:50:44,390

they living are they drones are they metal
ships what are they the answer is of course

491

00:50:44,390 --> 00:50:48,839

the combination of everything but you know
I I certainly keep that in high probability

492

00:50:48,839 --> 00:50:55,090

when thinking about UFOs that we see here
in our skies the possibility of some undiscovered

493

00:50:55,090 --> 00:51:02,220

life that that is high probability for me
yeah Sky creatures baby you got um what was

494

00:51:02,220 --> 00:51:09,160

that movie nope that came out recently spoiler alert guys kind of tackles that theory um

495

00:51:09,160 --> 00:51:15,390

Ivan T Sanderson has covered it in the past two biological you know things in our atmosphere

496

00:51:15,390 --> 00:51:21,589

it is really interesting so maybe this is a new way to discover some new form of life

497

00:51:21,589 --> 00:51:29,340

not necessarily from outer space but um like literally almost you know right at the pushing

498

00:51:29,340 --> 00:51:34,290

the boundary of our own space so I think it's pretty cool um no matter what the mysterious

499

00:51:34,290 --> 00:51:40,059

sound turns out to be um it's just another way that we can begin to monitor our skies

500

00:51:40,059 --> 00:51:45,520

for for um anomalous things that might not remain anomalous which I think again is the

501

00:51:45,520 --> 00:51:52,510

important thing um scientific discoveries are exciting and we should be excited by the

502

00:51:52,510 --> 00:51:57,710

fact that some UFOs do turn out to be new weather phenomena we never knew about or a

503

00:51:57,710 --> 00:52:04,000

new biological entity out there in the stratosphere um yeah it's awesome to always be excited

504

00:52:04,000 --> 00:52:10,619

about any effort to remove any of these objects
from the equation right absolutely man and

505

00:52:10,619 --> 00:52:19,560

not have them shot down by uh Sidewinder missiles
any longer um yeah yeah we won't get into

506

00:52:19,560 --> 00:52:28,231

that um let's move to the conversation that
I know everyone is probably here for and that

507

00:52:28,231 --> 00:52:37,670

was this recent um talk that happened in New
York City with um Stanford's Gary Nolan um

508

00:52:37,670 --> 00:52:44,579

so Dr Gary Nolan went to a conference um let
me just read this here I've got a little brief

509

00:52:44,579 --> 00:52:49,200

summary of this Dr Gary Nolan a professor
at Stanford University School of Medicine

510

00:52:49,200 --> 00:52:57,790

who was published more than 300 research articles
and holds 40 U.S patents made some pretty

511

00:52:57,790 --> 00:53:02,809

bold comments during a talk at the salt eye
connections conference in New York City on

512

00:53:02,809 --> 00:53:10,270

Thursday titled the Pentagon extraterrestrial
intelligence and crashed UFOs and during the

513

00:53:10,270 --> 00:53:17,089

session uh the moderator Alex clocus founder
and managing partner of salt fund asked Dr

514

00:53:17,089 --> 00:53:23,900

Nolan do you believe that ET intelligence has visited planet Earth and that was just

515

00:53:23,900 --> 00:53:29,510

the beginning Jason like we know that this presentation dived into a lot of controversial

516

00:53:29,510 --> 00:53:36,690

things that Gary Nolan would bring up and absolutely broke UFO Twitter's Minds so um

517

00:53:36,690 --> 00:53:41,930

I'm gonna go ahead and play a clip um it's it's a little on the longer side um but not

518

00:53:41,930 --> 00:53:47,430

too long so let's go ahead and hear some of the highlights from it um and then we'll uh

519

00:53:47,430 --> 00:53:56,930

we'll start tackling this piece by piece um yeah sound good perfect cool Eve that extraterrestrial

520

00:53:56,930 --> 00:54:03,849

intelligence has visited planet Earth I think you can go a step further it hasn't just visited

521

00:54:03,849 --> 00:54:11,510

it's been here a long time and it's still here and it has uh basically um you know people

522

00:54:11,510 --> 00:54:17,500

talk about the wow signal looking for extraterrestrial intelligence the wow signal is that people

523

00:54:17,500 --> 00:54:22,859

see it on an almost regular basis that's the communication that's already here and and

524

00:54:22,859 --> 00:54:27,619

that statement seems so incredible that it
it's tough to believe right people hear that

525

00:54:27,619 --> 00:54:35,869

and maybe a lot of people here hear that and
they don't believe it and so I'm curious if

526

00:54:35,869 --> 00:54:41,730

you had to assign a probability to that statement
that you believe extraterrestrial intelligence

527

00:54:41,730 --> 00:54:49,660

has visited visited this planet what probability
would you assign a hundred percent at 12 U.S

528

00:54:49,660 --> 00:54:55,339

senators have signed on to a document that
basically it says we want the information

529

00:54:55,339 --> 00:55:00,890

the establishment of an office arrow in the
Department of Defense has 25 people working

530

00:55:00,890 --> 00:55:05,210

in it right now and what's their what's their
goal collecting the information across all

531

00:55:05,210 --> 00:55:11,740

over the uh all of the U.S department of intelligence
sorry Department of Defense intelligence offices

532

00:55:11,740 --> 00:55:17,650

and Coalition of that into a uniform format
for the very first time and provision of that

533

00:55:17,650 --> 00:55:24,480

then to Congress the creation of a whistleblowers
program specifically that allows people from

534

00:55:24,480 --> 00:55:28,310

the from within who I'm going to say this
who've been working on the reverse engineering

535

00:55:28,310 --> 00:55:34,000

programs reverse engineering of objects so
that they can come in and break their Oaths

536

00:55:34,000 --> 00:55:39,289

but it's specifically just to talk to Congress
and give that information in classified settings

537

00:55:39,289 --> 00:55:46,700

and that the most recent one that happened
was just last weekend and it created quite

538

00:55:46,700 --> 00:55:53,220

a hornet's nest in Washington I mean just
go and look at the number of politicians and

539

00:55:53,220 --> 00:55:59,319

this is interesting on both sides of the aisle
who have come together and signed off on this

540

00:55:59,319 --> 00:56:02,329

statement I mean I was involved last year
with putting together some of the wording

541

00:56:02,329 --> 00:56:09,460

of that uh of that uh the ndaa which was passed
into law so I mean so what are they basing

542

00:56:09,460 --> 00:56:14,990

their opinions on they're basing their opinions
on the dozens of individuals who in one manner

543

00:56:14,990 --> 00:56:19,299

or another have come forward and talked to
them in classified settings so that's the

544

00:56:19,299 --> 00:56:26,160

first thing then my personal experiences with
the individuals who are who well the one person

545

00:56:26,160 --> 00:56:30,540

who actually was involved with collecting
a lot of that original information uh and

546

00:56:30,540 --> 00:56:35,240

then my experience with people who frankly
I know have worked or are working on the reverse

547

00:56:35,240 --> 00:56:40,130

engineering programs

548

00:56:40,130 --> 00:56:49,490

okay so this thing went crazy viral at least
on UFO Twitter um I know it did make some

549

00:56:49,490 --> 00:56:54,530

national headlines it's probably going to
bleed into this week starting Monday maybe

550

00:56:54,530 --> 00:56:59,880

some bigger absolutely mainstream Outlets
will pick it up or as they always do they

551

00:56:59,880 --> 00:57:05,690

always wait you know to see if anything is
really really comes of it but um let's break

552

00:57:05,690 --> 00:57:11,059

down kind of these key points Jason because
um you and I had a discussion as soon as this

553

00:57:11,059 --> 00:57:16,369

thing dropped and people started going crazy
saying this is it this is disclosure this

554

00:57:16,369 --> 00:57:22,180

is the beginning like we can plan our flag
right here at this conference with Gary Nolan

555

00:57:22,180 --> 00:57:28,790

um he went out on a limb to do this and uh
you know is forcing the conversation out there

556

00:57:28,790 --> 00:57:35,920

um so let's I guess let's start with his first
claim of he is 100 confident that we've been

557

00:57:35,920 --> 00:57:43,240

visited by an extra terrestrial intelligence
how did that first point kind of resonate

558

00:57:43,240 --> 00:57:49,740

with you before we move on I mean I wasn't
surprised hearing it from him you know he's

559

00:57:49,740 --> 00:57:55,820

again nothing he said really is new anybody
who follows him and his interest in UFOs has

560

00:57:55,820 --> 00:58:01,900

heard all this before but uh you know as a
scientist and somebody who's been whether

561

00:58:01,900 --> 00:58:09,250

wanted or not propped up as as a celebrity
scientist in in the UFO community and is is

562

00:58:09,250 --> 00:58:13,770

going on this this talking circuit and talking
to the media and talking to conferences and

563

00:58:13,770 --> 00:58:20,500

things like that on this subject he takes
on this position of authority because he's

564

00:58:20,500 --> 00:58:26,930

a Stanford Professor so people view him as having you know some more Insider or his his

565

00:58:26,930 --> 00:58:32,359

uh thoughts on the matter counting more than anybody else's so what he says carries weight

566

00:58:32,359 --> 00:58:38,250

like it or not so knowing that you know assuming he was going to be a responsible scientist

567

00:58:38,250 --> 00:58:43,660

I was expecting you know him to to multiple times during that talk to do the responsible

568

00:58:43,660 --> 00:58:49,630

thing and say look this is just my opinion but he didn't really do that so when he's

569

00:58:49,630 --> 00:58:53,400

making these claims you know it's certainly asking for probabilities that's something

570

00:58:53,400 --> 00:59:00,869

that a scientist should be familiar with but he just outright as 100 percent not not backing

571

00:59:00,869 --> 00:59:07,250

up and saying that's my opinion he just said 100 percent so I I'm glad that he's so confident

572

00:59:07,250 --> 00:59:11,710

based on you know things that he's seen and and you know that's where he's at and his

573

00:59:11,710 --> 00:59:18,940

his belief process but my opinion is as a scientist who's been elevated to this position

574

00:59:18,940 --> 00:59:25,700

that he's in to not be responsible and make those those uh differentiations between personal

575

00:59:25,700 --> 00:59:31,010

opinion and established fact or things that have evidence to prove that um he didn't he

576

00:59:31,010 --> 00:59:36,680

didn't go that far he he left it out there so knowing that a lot of people were going

577

00:59:36,680 --> 00:59:42,270

to accept what he said at face value and uh you know take it from there and a lot of people

578

00:59:42,270 --> 00:59:47,839

did and as we saw they were falling all over themselves celebrating like something huge

579

00:59:47,839 --> 00:59:54,110

had just happened and Revelations had been made when in fact that's not the case so yeah

580

00:59:54,110 --> 01:00:01,020

right and we have to keep in mind too where he was speaking like this was literally a

581

01:00:01,020 --> 01:00:07,850

conference that took place near Wall Street in New York City and is used for companies

582

01:00:07,850 --> 01:00:15,039

and whatnot to try to raise funds for their Endeavors like this is an investment conference

583

01:00:15,039 --> 01:00:21,690

so Gary Nolan wasn't there to like you know um just disclose the truth about UFOs he's

584

01:00:21,690 --> 01:00:29,230

there for a purpose he's working for several organizations he clearly is seeking funding

585

01:00:29,230 --> 01:00:35,309

of some sort I would assume otherwise why would he be presenting this to a group of

586

01:00:35,309 --> 01:00:41,830

you know investors as it were um so we have to keep that in mind too you know he can he

587

01:00:41,830 --> 01:00:47,329

can excite the audience and get them curious about UFOs and and what the government is

588

01:00:47,329 --> 01:00:52,700

doing right now with the topic um but at the end of the day like we have to keep in mind

589

01:00:52,700 --> 01:00:58,110

why he's there uh same with Avi Loeb I did not know this but Avi Loeb spoke at this event

590

01:00:58,110 --> 01:01:04,240

too about his work with the Galileo project again most likely looking for some sort of

591

01:01:04,240 --> 01:01:09,290

funding for the Galileo project so um I think that's a point that a lot of people aren't

592

01:01:09,290 --> 01:01:14,900

really paying attention to you like this wasn't just like some some off the cuff conference

593

01:01:14,900 --> 01:01:19,589

that Gary Nolan decided to just go to on a whim clearly this was all planned ahead of

594

01:01:19,589 --> 01:01:25,530

time and and they chose him because probably
he had some pretty Sensational stuff to bring

595

01:01:25,530 --> 01:01:32,190

forward um but for what purpose is kind of
my big question right now is just to get funding

596

01:01:32,190 --> 01:01:39,599

for these Endeavors he's embarking on um I
do think so and and he'd probably admit that

597

01:01:39,599 --> 01:01:43,589

at the end of the day but um the other thing
I wanted to bring up to you that you brought

598

01:01:43,589 --> 01:01:49,650

up is um you know he never said during this
thing this is my opinion this is my opinion

599

01:01:49,650 --> 01:01:55,731

he's now saying that you know right retroactively
on Twitter telling people guys like this is

600

01:01:55,731 --> 01:02:04,309

just my opinion um possibly a somewhat informed
opinion but uh these are my thoughts and beliefs

601

01:02:04,309 --> 01:02:09,770

um so I think that kind of got you know pushed
to the side as well so um yeah wouldn't you

602

01:02:09,770 --> 01:02:16,390

make a of that as well that um you know this
is just one man's opinion um but it would

603

01:02:16,390 --> 01:02:20,190

have been nice to have heard him say that
right I think that would have been been the

604

01:02:20,190 --> 01:02:24,480

responsible thing to do knowing you know how many people are watching him and how many

605

01:02:24,480 --> 01:02:29,290

people eat up everything that he says and and take it as gospel but uh it was good to

606

01:02:29,290 --> 01:02:34,950

see that he was being responsible on Twitter and posting that after the fact but you know

607

01:02:34,950 --> 01:02:39,030

that would have been good for people to see live it would have made it less sexy but it

608

01:02:39,030 --> 01:02:44,130

would have been good and you know even in his comments on on Twitter saying that it

609

01:02:44,130 --> 01:02:48,850

was just his opinion and you know look to the things that you know George knepp you

610

01:02:48,850 --> 01:02:54,119

know has has reported and that's that's more of a revelation than anything he's doing so

611

01:02:54,119 --> 01:02:59,440

that that kind of deflates it even further right I mean he is is and people need to understand

612

01:02:59,440 --> 01:03:05,480

this that again just because somebody has impressive credentials doesn't make what they're

613

01:03:05,480 --> 01:03:10,609

saying any more important when we're talking about this when it comes to just personal

614

01:03:10,609 --> 01:03:14,890

opinions because he's an immunologist he's not talking about something with diseases

615

01:03:14,890 --> 01:03:19,609

or something he's talking about UFOs so and I don't want to get into that I want you know

616

01:03:19,609 --> 01:03:24,809

how how well versed he is in UFOs because Gary has been doing UFOs for a long time you

617

01:03:24,809 --> 01:03:30,390

know we certainly remember his uh work with Stephen Greer um and that's another issue

618

01:03:30,390 --> 01:03:37,579

but you know we have people that you know he falls in line with in in my viewpoint where

619

01:03:37,579 --> 01:03:42,119

he makes these Grand claims goes around on news shows goes to conferences and makes all

620

01:03:42,119 --> 01:03:47,450

the big sexy claims that we've all heard and make time and time and time again um but it's

621

01:03:47,450 --> 01:03:53,060

just like Paul Heller who is the defense minister of Canada who everybody got very excited when

622

01:03:53,060 --> 01:03:58,400

he started talking about UFOs and all this this knowledge he had about all these various

623

01:03:58,400 --> 01:04:05,309

alien races living on Earth with us and people thought that was all great and very credible

624

01:04:05,309 --> 01:04:10,510

but in the end he was basing everything he was saying off of things he had read things

625

01:04:10,510 --> 01:04:15,240

he had been told by UFO researchers you know things from Corey Good's book not Corey good

626

01:04:15,240 --> 01:04:22,210

sorry that's terrible oh God no don't make that mistake no no no but it was all all stuff

627

01:04:22,210 --> 01:04:27,089

from books from UFO conferences Etc so it was just information that he had read that

628

01:04:27,089 --> 01:04:33,119

he found exciting and began repeating that to everybody that he met because he trusted

629

01:04:33,119 --> 01:04:39,180

those people and there's nothing wrong with that but I feel the people in important positions

630

01:04:39,180 --> 01:04:43,780

need to make that known that they're not basing what they're saying off a personal experience

631

01:04:43,780 --> 01:04:47,980

or things that they learned in the course of their you know time with the government

632

01:04:47,980 --> 01:04:54,630

or whatever almost in all cases these are people who no longer with the government they

633

01:04:54,630 --> 01:04:59,450

started getting involved in UFOs because everybody is interested in UFOs but they found all this

634

01:04:59,450 --> 01:05:06,400

stuff heard it read it whatever found it to
be incredibly exciting seemed to be very earth-shattering

635

01:05:06,400 --> 01:05:10,349

to them because they've never heard it before
and then they go repeating it to the world

636

01:05:10,349 --> 01:05:15,490

acting like it's this new important thing
that everybody should hear about to me it's

637

01:05:15,490 --> 01:05:20,309

it's uh it's a dangerous road to play and
kind of sloppy when you're in a position of

638

01:05:20,309 --> 01:05:26,380

importance we could even say Harry Reid you
know indicated many times that the evidence

639

01:05:26,380 --> 01:05:31,319

that was so compelling to him was oh just
read the literature it's out there right I

640

01:05:31,319 --> 01:05:36,339

mean that's what everybody says just just
read the UFO books there there's so much information

641

01:05:36,339 --> 01:05:41,470

and UFO books just go read the UFO books and
that'll answer all your questions well yeah

642

01:05:41,470 --> 01:05:47,390

that can give you some nice information to
go with but at the end of the day that's just

643

01:05:47,390 --> 01:05:52,760

what some person said in a book and you know
then you're going around proclaiming that

644

01:05:52,760 --> 01:05:58,329

as gospel and people are eating it up like
gospel and treating it like a religion and

645

01:05:58,329 --> 01:06:02,600

that gets very dangerous very fast and we
see the results of that right now so I just

646

01:06:02,600 --> 01:06:07,630

think there's a lot of irresponsible uh activity
and behavior going on in the UFO world right

647

01:06:07,630 --> 01:06:14,130

now and some could argue that that's intentional
that people are trying to delegitimize UFOs

648

01:06:14,130 --> 01:06:19,270

as this thing goes forward a pretend uh you
know get the government on board but give

649

01:06:19,270 --> 01:06:23,869

get the government on board so they can make
UFO seem ridiculous again I mean this stuff

650

01:06:23,869 --> 01:06:29,680

has all been done before so it's not so far-fetched
but yeah well and people people do like to

651

01:06:29,680 --> 01:06:35,640

talk about about how how incredible it is
for for Gary to go out on a limb here and

652

01:06:35,640 --> 01:06:39,740

talk about this stuff in public but as we've
already covered Gary talks about this stuff

653

01:06:39,740 --> 01:06:46,319

all the time time and has been involved in
UFOs and alien babies and all this stuff for

654

01:06:46,319 --> 01:06:50,650

for decades now it's it's nothing new it's
nothing that he's worried about his reputation

655

01:06:50,650 --> 01:06:54,900

his reputation isn't so delicate he needs
to worry about it he can do whatever he want

656

01:06:54,900 --> 01:07:00,250

and he's a tenured professor his job isn't
in Jeopardy he uh that's the the joy of tenure

657

01:07:00,250 --> 01:07:05,030

and professors are encouraged to go out and
do their crazy research uh because they have

658

01:07:05,030 --> 01:07:11,150

that tenure protection so no he's not risking
his reputation what whatever his reputation

659

01:07:11,150 --> 01:07:17,211

is now is what it's been for the past 10 plus
years so I I think that that argument and

660

01:07:17,211 --> 01:07:21,270

people worrying about poor Gary and his reputation
Gary's a big boy and he knows what he's doing

661

01:07:21,270 --> 01:07:27,490

so I think he's having fun yeah I think he
is too yeah I remember in an interview recently

662

01:07:27,490 --> 01:07:33,589

he said I'm not your daddy like you guys like
you know do the work yourself to hear him

663

01:07:33,589 --> 01:07:40,069

say I'm not your daddy just correct me of
um but yeah in I had that question too I'm

664

01:07:40,069 --> 01:07:44,309

like oh God I wonder what Stanford's going to think about him doing this kind of like

665

01:07:44,309 --> 01:07:50,700

when John Mack did his work and what Harvard thought or Avi lope with what he's doing um

666

01:07:50,700 --> 01:07:57,660

but like a lot of these people already had um you know John Mack had a much harder time

667

01:07:57,660 --> 01:08:04,650

with Harvard but avilo Gary Nolan like they're fine they're gonna be just fine um this this

668

01:08:04,650 --> 01:08:08,809

is oh yeah when we we we're in a time where we have so many senators right I mean all

669

01:08:08,809 --> 01:08:13,109

these people grew up on sci-fi everybody's a UFO fan now and so all of this is incredibly

670

01:08:13,109 --> 01:08:17,679

exciting to everybody you know so we've got you know both the House and Senate filled

671

01:08:17,679 --> 01:08:23,350

with people who find this stuff endlessly fascinating it's not anything that people

672

01:08:23,350 --> 01:08:29,259

are going to be shocked at oh this person's talking about UFOs in a professional setting

673

01:08:29,259 --> 01:08:35,870

it's it's it's a a nothing anymore people are used to it I know all the time it's become

674

01:08:35,870 --> 01:08:42,250

yeah like it's normal it's normal yeah never
thought I'd see the day um Jazz Shaw with

675

01:08:42,250 --> 01:08:47,029

the Super Chat thanks buddy consider that
Nolan has never said he's seen anything he's

676

01:08:47,029 --> 01:08:52,739

been told things by credible people I find
him credible but it's not disclosure that

677

01:08:52,739 --> 01:08:58,580

that's a really good boy yeah I mean you know
Gary's got his own thoughts opinions um and

678

01:08:58,580 --> 01:09:06,411

he has been told and I think we all okay I'm
just gonna I'm gonna I'm gonna say it we're

679

01:09:06,411 --> 01:09:12,810

at this point right now where a lot of people
are making Promises of you know all these

680

01:09:12,810 --> 01:09:17,440

whistleblowers are going to come forward and
talk about having worked on Crash retrieval

681

01:09:17,440 --> 01:09:22,670

programs and and you know reverse engineering
these things Gary brought these things up

682

01:09:22,670 --> 01:09:34,140

during the talk actually um and I have a feeling
that all of these people who claim that they

683

01:09:34,140 --> 01:09:39,390

know these things and they have sources within
the government and this and that I have a

684

01:09:39,390 --> 01:09:45,770

feeling they're all talking about like the same person like one or two people and these

685

01:09:45,770 --> 01:09:51,380

are people we know in the UFO field these are people who have made these claims publicly

686

01:09:51,380 --> 01:10:00,510

uh people like Eric Davis and the Wilson Davis you know stuff like that um or even you know

687

01:10:00,510 --> 01:10:06,159

the fact that he brought up yeah there are governmental or military programs looking

688

01:10:06,159 --> 01:10:15,449

into crashed you know materials we know that we know that krata worked with ctsa like that's

689

01:10:15,449 --> 01:10:20,880

a perfect example that was put out front and center ttsa was doing nothing but bragging

690

01:10:20,880 --> 01:10:27,860

about it so we know these things exist um so I I don't know I don't get all the fervor

691

01:10:27,860 --> 01:10:32,310

and excitement when everything he brought up in this thing was probably new to everyone

692

01:10:32,310 --> 01:10:38,370

in that room but in the UFO Community I just hoped that people would um have a bit more

693

01:10:38,370 --> 01:10:45,320

you know temper their excitement this wasn't disclosure um I not saying it wasn't cool

694

01:10:45,320 --> 01:10:50,239

to hear Gary Nolan talking about it um I think getting the stuff out to the public in any

695

01:10:50,239 --> 01:10:57,449

way is is beneficial in some ways but it can hurt it as well you know when you're saying

696

01:10:57,449 --> 01:11:02,560

that you 100 believe we've been visited and then you go on to say that you know all these

697

01:11:02,560 --> 01:11:10,360

whistleblowers are coming forward crash retrieval programs are happening um material exists

698

01:11:10,360 --> 01:11:13,810

because I was promised I was going to get it but then at the last minute I didn't get

699

01:11:13,810 --> 01:11:19,520

it so I haven't seen it but I know it exists because people told me it exists I mean yes

700

01:11:19,520 --> 01:11:24,080

yes it's this point we can erase Gary's name and put in insert name here I mean we've had

701

01:11:24,080 --> 01:11:29,409

countless people basically say word for word all of these things before and to your point

702

01:11:29,409 --> 01:11:34,040

about these whistleblowers yes we we've heard from you know likely there are people in there

703

01:11:34,040 --> 01:11:38,780

we haven't heard of before but in most cases we've heard the best of the best because we've

704

01:11:38,780 --> 01:11:46,570

had people like George Knapp and you know
even go down uh to Dark Places and talk about

705

01:11:46,570 --> 01:11:51,560

Linda Moulton Howe and other people who do
reach in and find all of these people who

706

01:11:51,560 --> 01:11:57,940

have grand stories and milk it for everything
they can and and be really disingenuous and

707

01:11:57,940 --> 01:12:02,160

kind of sleazy with a lot of this stuff but
yes we have been round and round and round

708

01:12:02,160 --> 01:12:07,739

with a lot of the material a lot of the people
you know that are being pushed forward as

709

01:12:07,739 --> 01:12:14,620

the best evidence that we have and it seems
that when it comes down to it these Witnesses

710

01:12:14,620 --> 01:12:20,410

who are are going in now to testify because
of the witness whistleblower protection it

711

01:12:20,410 --> 01:12:24,880

doesn't seem like they're all that too concerned
about the Whistleblower protection because

712

01:12:24,880 --> 01:12:31,199

they're telling everybody you know all of
these things already and have for years so

713

01:12:31,199 --> 01:12:36,550

you know and right after they go in to give
this bombshell secret testimony that they

714

01:12:36,550 --> 01:12:40,860

don't want other people hearing about then
all of a sudden we have people like Gary Nolan

715

01:12:40,860 --> 01:12:46,460

uh Danny Sheehan you know going on shows all
over the place that every chance they can

716

01:12:46,460 --> 01:12:53,070

get to tell you exactly what this person said
um I don't know it's just a a wild west right

717

01:12:53,070 --> 01:12:58,770

now with you know things being very sloppy
very uncontrolled and people get excited about

718

01:12:58,770 --> 01:13:06,360

it because development and UFOs yay but when
we step back and look at what's really happening

719

01:13:06,360 --> 01:13:11,460

you know it's not really any progress It's
it's activity and it gives us plenty to talk

720

01:13:11,460 --> 01:13:17,420

about and it's great to watch but in terms
of progress a lot of people are pushing they

721

01:13:17,420 --> 01:13:23,350

were having so much progress and I feel that
that's uh creating false hopes um and kind

722

01:13:23,350 --> 01:13:28,600

of a misinterpretation of what is happening
yes stuff is happening but at the Congressional

723

01:13:28,600 --> 01:13:33,770

level all of this stuff isn't happening because
all of these people have seen such mind-blowing

724

01:13:33,770 --> 01:13:38,360

evidence that convince them that all of these
these things need to happen they're doing

725

01:13:38,360 --> 01:13:41,730

it because they want to they've heard all
the claims and they want the evidence to back

726

01:13:41,730 --> 01:13:46,449

that up and as we've heard they've told us
so far they haven't seen the evidence to do

727

01:13:46,449 --> 01:13:50,840

that people don't like that because we're
very selective in our listening when we want

728

01:13:50,840 --> 01:13:56,179

a certain outcome and again that comes back
to the danger of are we really after the truth

729

01:13:56,179 --> 01:14:02,530

or or are we after building our religion of
UFOs it gets really sloppy really fast and

730

01:14:02,530 --> 01:14:10,780

a lot of UFO research has become very sloppy
hmm there you go guys who you pierced me in

731

01:14:10,780 --> 01:14:15,969

the heart with that one Jason no no definitely
definitely it's a dose of reality brother

732

01:14:15,969 --> 01:14:21,810

I get it um you mentioned Daniel Sheehan I
want to play a Quick Clip if you don't mind

733

01:14:21,810 --> 01:14:26,190

because it does tie into this in terms of
what you just said like these claims being

734

01:14:26,190 --> 01:14:32,679

made and that there is no evidence Sean Kirkpatrick said at the Senate UAP hearing we have no

735

01:14:32,679 --> 01:14:38,990

evidence that any of this is extraterrestrial um but then you get stuff like this I'm just

736

01:14:38,990 --> 01:14:42,810

gonna play the clip hold on yeah let's play it and we'll talk about it everybody knows

737

01:14:42,810 --> 01:14:49,022

what UFO is right everybody knows what UFO is they say yeah but a UAP is something that's

738

01:14:49,022 --> 01:14:53,670

just unidentified aerial phenomena we don't quite know what it is it can be all kinds

739

01:14:53,670 --> 01:14:57,460

of things you know in the so what they've done is they're they're trying to avoid the

740

01:14:57,460 --> 01:15:03,750

issue they're trying to avoid the issue of the the vast bulk of the people who are familiar

741

01:15:03,750 --> 01:15:08,469

with this area believe that these are vehicles and most of the people believe they're from

742

01:15:08,469 --> 01:15:13,670

some extraterrestrial civilization in fact virtually all of the people that have been

743

01:15:13,670 --> 01:15:21,000

involved inside the government engaged in top secret investigation of the UFO phenomenon

744

01:15:21,000 --> 01:15:25,949

believe they're extraterrestrial and they
say so I've been in the meetings where they

745

01:15:25,949 --> 01:15:34,030

we talk about it you know uh but the but the
uh the uh executive branch intelligence agencies

746

01:15:34,030 --> 01:15:38,100

don't want to admit that they they don't they
don't want to say they want to keep it as

747

01:15:38,100 --> 01:15:42,960

vague as possible they wanted to be anomalous
phenomenon they wanted to they don't want

748

01:15:42,960 --> 01:15:48,630

they they want it to be basically an adjective
describing kind of a vague thing instead of

749

01:15:48,630 --> 01:15:52,951

it being a noun because everybody knows that
the minute you start dealing with it as a

750

01:15:52,951 --> 01:15:59,429

noun people are going to associate it not
only with the UFOs from an extraterrestrial

751

01:15:59,429 --> 01:16:05,780

civilization but they're going to associate
it with ET contacts of actual encounters that

752

01:16:05,780 --> 01:16:12,920

people hundreds thousands of people have reported
seeing the actual beings that are piloting

753

01:16:12,920 --> 01:16:18,560

these UFO vehicles and I can tell you from
having been in the meetings with the inspector

754

01:16:18,560 --> 01:16:23,120

General's office and others you know we're sitting there in the meetings and all they

755

01:16:23,120 --> 01:16:28,080

want to talk about is the technology how fast do these things go how can they possibly turn

756

01:16:28,080 --> 01:16:32,909

these Corners like this you know that's going to be 600 G's of course you know in the minute

757

01:16:32,909 --> 01:16:36,840

you you sit down I said look it you can talk about the technology of these things as long

758

01:16:36,840 --> 01:16:41,030

as you want but you're going to have to come to grips with who's flying these things who's

759

01:16:41,030 --> 01:16:44,810

flying these things and where are they coming from and immediately you know you get one

760

01:16:44,810 --> 01:16:50,510

of these oh please you know don't don't don't raise that issue with us you know and so that

761

01:16:50,510 --> 01:16:57,300

that that's going to be one of the major problems with with this office virtually any communication

762

01:16:57,300 --> 01:17:02,560

that comes into this office to Sean Kirkpatrick's office where they are talking about an actual

763

01:17:02,560 --> 01:17:10,110

sighting of of beings in these craft or Landing the craft landing and seeing beings that they're

764

01:17:10,110 --> 01:17:15,380

immediately going to put this into some kind
of a category where they don't want to talk

765

01:17:15,380 --> 01:17:16,880
about it

766

01:17:16,880 --> 01:17:25,420
he was all over the place there I I mean kudos
to Chrissy I love her to death like she handled

767

01:17:25,420 --> 01:17:31,380
that interview so well like a professional
like she always does but I mean saying you've

768

01:17:31,380 --> 01:17:38,739
been in these meetings and all the people
these meetings know that this stuff is extraterrestrial

769

01:17:38,739 --> 01:17:47,310
I mean I I just I guess we're just supposed
to take his word for that right when you have

770

01:17:47,310 --> 01:17:54,080
and also nice opposite I don't know and not
also scratch your head and wonder why random

771

01:17:54,080 --> 01:18:01,280
people like Danny Sheehan and and uh you know
Gary Nolan and everybody else apparently seems

772

01:18:01,280 --> 01:18:08,100
to know exactly what's going on in classified
briefings um you know showing that we maybe

773

01:18:08,100 --> 01:18:12,770
don't have as big of a UFO problem as we think
we do and it comes down to a personal Personnel

774

01:18:12,770 --> 01:18:18,700
issue where everything classified is being

leaked people are just letting their curiosity

775

01:18:18,700 --> 01:18:23,590

and their desire for answers supersede any sort of policies or procedures and throw it

776

01:18:23,590 --> 01:18:28,110

all out the windows as long as we get our damn disclosure it's just again it's getting

777

01:18:28,110 --> 01:18:34,340

sloppy there's just all of this stuff happening um you know and I I don't know how much of

778

01:18:34,340 --> 01:18:40,179

what what is said by people like this um you know should be considered because again how

779

01:18:40,179 --> 01:18:44,270

do they know about what's going on in classified briefings they shouldn't but we're getting

780

01:18:44,270 --> 01:18:48,420

leaks all over the place and I know a lot of people celebrate and say leak that [h__\h]

781

01:18:48,420 --> 01:18:53,139

we need all the leaks we can get but you know that that's an ethical issue and it tells

782

01:18:53,139 --> 01:18:57,270

you a lot about the person doing the leaking I mean then we've run into credibility issues

783

01:18:57,270 --> 01:19:04,429

it's it's very very sloppy very problematic really fast right and you know I don't want

784

01:19:04,429 --> 01:19:09,590

I'm sure we're pissing off some people in

the chat like we're not Jason and I aren't

785

01:19:09,590 --> 01:19:14,739

anti-disclosure by any means we're not anti
look Danny she never was at my wedding okay

786

01:19:14,739 --> 01:19:21,179

just just saying so there you go so like know
that we're we're just trying to parse through

787

01:19:21,179 --> 01:19:29,090

the hypocrisy and and the contradicting statements
going on between you know the head of Arrow

788

01:19:29,090 --> 01:19:34,239

and all these supposed individuals who know
what happened in Skiffs who know what happened

789

01:19:34,239 --> 01:19:39,320

in classified briefings who know what happened
in the classified version of the Senate UAP

790

01:19:39,320 --> 01:19:47,320

hearing like okay you have some Source you're
hearing these things good for you but like

791

01:19:47,320 --> 01:19:53,840

that does nothing for the rest of the public
except your own ego of self-importance that

792

01:19:53,840 --> 01:20:02,070

I know this um ah I'm just and I will go further
Ryan and say it also contributes to damaging

793

01:20:02,070 --> 01:20:09,469

the study of UFOs and damaging the government's
in interest and and willingness to be involved

794

01:20:09,469 --> 01:20:16,679

in all of this because they're finally playing

along a little bit but at the same time you

795

01:20:16,679 --> 01:20:20,949

know they're seeing all of these leaks happen
they're seeing everybody discuss what apparently

796

01:20:20,949 --> 01:20:26,610

is happening in classified briefings um you
know and that's a problem they're going to

797

01:20:26,610 --> 01:20:31,260

run into National Security issues really fast
when people are playing fast and loose with

798

01:20:31,260 --> 01:20:35,540

with classified briefings and classified information
and that's going to get locked down really

799

01:20:35,540 --> 01:20:41,750

fast and we're going to stop hearing the little
bit that we do so so for people clamoring

800

01:20:41,750 --> 01:20:46,830

and wanting you know these these departments
to to be more transparent to share more with

801

01:20:46,830 --> 01:20:53,620

us um forcing their hand seems to be the approach
that a lot of people are taking when I think

802

01:20:53,620 --> 01:20:59,000

that's a childish approach and one that could
backfire and seemingly already is backfiring

803

01:20:59,000 --> 01:21:05,760

hmm all right I'm gonna play Devil's Advocate
advocate for just a moment with that yes only

804

01:21:05,760 --> 01:21:10,739

because and I think I know what your answer

is going to be because you're so damn level-headed

805

01:21:10,739 --> 01:21:18,540

and I love it um not always without without pushing the government into a corner we probably

806

01:21:18,540 --> 01:21:25,900

never would have gotten this post 2017 ufology and maybe some people are happy if that had

807

01:21:25,900 --> 01:21:30,950

never happened but um what what do you think of maybe that side of the coin of like had

808

01:21:30,950 --> 01:21:35,659

we not leaked I had those videos not been leaked had that New York Times article not

809

01:21:35,659 --> 01:21:42,790

come out we would have nothing um I don't know that what do you think about that yeah

810

01:21:42,790 --> 01:21:46,800

I definitely see that point and the landscape would be a lot different it really would but

811

01:21:46,800 --> 01:21:52,310

at the same time we would be somewhere else you know there are always efforts underway

812

01:21:52,310 --> 01:21:58,920

um as they love to tell us the government was very active in UFO research if we listened

813

01:21:58,920 --> 01:22:04,250

to Louis zando so you know stuff from that would have come out anyway people were starting

814

01:22:04,250 --> 01:22:09,150

to become aware of it you know certainly the

the three videos had been out um you know

815

01:22:09,150 --> 01:22:13,170

that stuff always circulates but we also have to remember that the government isn't the

816

01:22:13,170 --> 01:22:17,270

holder of everything UFO yeah I know a lot of people believe that there's this massive

817

01:22:17,270 --> 01:22:22,260

cover-up and they control everything there is to know about UFOs but that is not the

818

01:22:22,260 --> 01:22:27,850

case in my opinion and we have plenty of scientists plenty of independent groups always doing

819

01:22:27,850 --> 01:22:32,230

things with UFOs and as we already said UFOs are seen all around the world every single

820

01:22:32,230 --> 01:22:38,460

day there's no shortage of of UFO news to follow UFO stories things to investigate rabbit

821

01:22:38,460 --> 01:22:43,910

holes to go down so I think we would be just fine ufology is always going to be fine um

822

01:22:43,910 --> 01:22:49,630

you know as long as we don't burn it to the ground on intention finally from the inside

823

01:22:49,630 --> 01:22:54,050

I know some people think that's needed and you know I think revamping how things are

824

01:22:54,050 --> 01:23:00,139

done is fine but I think a lot of times and

most times ufology if it's even a thing gets

825

01:23:00,139 --> 01:23:04,969

confused with just an interest in UFOs if
we're talking about actual scientific research

826

01:23:04,969 --> 01:23:13,679

or even responsible research trying to find
answers to any of these Mysteries you know

827

01:23:13,679 --> 01:23:16,940

government assistance is fantastic you know
that's another piece of the puzzle we would

828

01:23:16,940 --> 01:23:21,840

love them to be involved we would love the
the data um you know and information they

829

01:23:21,840 --> 01:23:26,820

can provide the the details about cases they've
looked into that's all great and contributes

830

01:23:26,820 --> 01:23:32,350

to helping us as researchers and the general
public overall giving us governmental sources

831

01:23:32,350 --> 01:23:35,660

we can point to you because those do carry
weight whether or not you trust the government

832

01:23:35,660 --> 01:23:40,570

is a different issue but it does you know
it gives us an official source to point to

833

01:23:40,570 --> 01:23:45,440

for a lot of these claims a lot of the information
but if we don't have them if we don't have

834

01:23:45,440 --> 01:23:52,530

their official official efforts going on that's

fine we would be just fine you know and and

835

01:23:52,530 --> 01:23:57,739

we have plenty of scientists again who are currently and have been for a long time very

836

01:23:57,739 --> 01:24:02,790

interested in this subject and in doing their research too but you can go in your backyard

837

01:24:02,790 --> 01:24:05,980

and do your own research I mean there's a lot of [h__h] up in the sky look and you'll

838

01:24:05,980 --> 01:24:11,600

see it um you know we don't need to wait for the the US government to give us answers there

839

01:24:11,600 --> 01:24:15,530

are plenty of governments around the world who have given us the answers that they have

840

01:24:15,530 --> 01:24:19,750

um and so has the US government many times we might not like the answer we've been given

841

01:24:19,750 --> 01:24:25,250

but they've given it so yay disclosures happened but we can move beyond that we don't need

842

01:24:25,250 --> 01:24:30,930

to wait around for some magic moment to to all of a sudden be enlightened answers to

843

01:24:30,930 --> 01:24:36,119

these questions aren't going to come they just can't dealing with something as anomalous

844

01:24:36,119 --> 01:24:42,239

as UFOs and because although we group them

nicely together to be a contained topic that

845

01:24:42,239 --> 01:24:49,409

we can talk about they are not related they're
all different every UFO situation isn't independent

846

01:24:49,409 --> 01:24:53,969

case and some are are related sure some are
going to be the same thing but they're a whole

847

01:24:53,969 --> 01:24:59,810

lot of everything and so you're never going
to have an answer to the UFO mystery because

848

01:24:59,810 --> 01:25:05,140

it's not a single singular mystery that's
what makes it so frustrating but we still

849

01:25:05,140 --> 01:25:11,040

do it because we love it Ryan we love it baby
I love it I love chasing that mystery like

850

01:25:11,040 --> 01:25:15,880

it gives me purpose as I know it does a lot
of people who get interested probably most

851

01:25:15,880 --> 01:25:20,650

of the people in this chat like I I love seeing
in the chat all these people saying I don't

852

01:25:20,650 --> 01:25:27,489

need the government to tell me no you don't
like and we shouldn't be I mean it's one Avenue

853

01:25:27,489 --> 01:25:35,199

but like you said like go outside look up
um I talked last week about Sky 360 which

854

01:25:35,199 --> 01:25:42,989

is kind of the evolved version of skyhub where

you can you know set this thing up track monitor

855

01:25:42,989 --> 01:25:50,429

analyze data and possibly identify anomalous things in the sky um which is amazing or yeah

856

01:25:50,429 --> 01:25:54,110

you know I know there's a lot of controversy with it but you got something like Enigma

857

01:25:54,110 --> 01:26:00,100

Labs where you know you can upload a report or a video or whatever into their AI system

858

01:26:00,100 --> 01:26:05,460

that they're going to be having with their app and possibly identify something and um

859

01:26:05,460 --> 01:26:11,420

there's ways to do all of the this without any sort of government involvement um agree

860

01:26:11,420 --> 01:26:16,420

that could be argued I I need to walk that back because I think Enigma Labs might be

861

01:26:16,420 --> 01:26:22,510

working with some government people yeah they might but I think but again again it's not

862

01:26:22,510 --> 01:26:26,520

their their sole Focus right right and again we have to keep that in mind too with the

863

01:26:26,520 --> 01:26:32,850

government efforts they're great but they're primarily focused on military issues and restricted

864

01:26:32,850 --> 01:26:39,080

airspace training training ranges things like

that where the UFO mystery is not that narrow

865

01:26:39,080 --> 01:26:45,110

so you know yes that their efforts are are
certainly appreciated uh and we need all hands

866

01:26:45,110 --> 01:26:50,869

on deck right I mean the more the more eyes
on this stuff the better so I I welcome it

867

01:26:50,869 --> 01:26:55,969

just as I welcome any of these these initiatives
you know I don't necessarily personally get

868

01:26:55,969 --> 01:27:02,400

involved with you know everything that comes
up um because I might not not necessarily

869

01:27:02,400 --> 01:27:09,420

personally believe the approach or or or what
the the group in particular is doing but I'm

870

01:27:09,420 --> 01:27:13,690

glad somebody's doing it just like seti right
said he gets a lot of [h__h] um for what

871

01:27:13,690 --> 01:27:18,630

they do but I think what they do and and I
don't think a lot of people understand how

872

01:27:18,630 --> 01:27:24,230

broad God what seti does is they don't just
listen for radio signals it's much much more

873

01:27:24,230 --> 01:27:29,630

elaborate than that but I'm glad somebody's
doing that right because I don't have to not

874

01:27:29,630 --> 01:27:33,510

that I have the knowledge to but you know

it takes it off somebody's plate we have somebody

875

01:27:33,510 --> 01:27:39,550

doing that lets other people focus on other things we can cover all of our bases it's

876

01:27:39,550 --> 01:27:43,880

a big world and there are more than enough UFOs to go around so let's work together and

877

01:27:43,880 --> 01:27:49,340

figure it out let's figure it out I'm with you my man so many different ways to do it

878

01:27:49,340 --> 01:27:55,950

um well I want to end kind of on a um a fun little note if that's cool with you I've kept

879

01:27:55,950 --> 01:28:03,170

you longer than uh so well yeah yeah we'll we'll have some fun here um so and you can't

880

01:28:03,170 --> 01:28:10,840

not you can you can't you can't Wow Come On Ryan you can do this words you can't not have

881

01:28:10,840 --> 01:28:18,219

fun okay with our buddy Andy mcgrillin over at that UFO podcast because he recently had

882

01:28:18,219 --> 01:28:29,380

our our very good friend God bless him Stephen Bassett um we've had some interesting run-ins

883

01:28:29,380 --> 01:28:34,840

with him throughout the years at conferences and whatnot uh we have so many stories we

884

01:28:34,840 --> 01:28:39,260

could tell about Steve Bassett uh but we'll

leave that for another show we'll leave that

885

01:28:39,260 --> 01:28:44,980

for a patreon episode how's that sound um
but Andy asked him a fun question he asked

886

01:28:44,980 --> 01:28:52,489

him if Biden like if a sitting president you
know Came To You Stephen Bassett and was like

887

01:28:52,489 --> 01:28:57,610

okay like let's do this let's sit down and
what do you want to know what do you want

888

01:28:57,610 --> 01:29:01,619

to know for me the president on what I know
about this UFO thing you've been lobbying

889

01:29:01,619 --> 01:29:05,621

for for all these years what do you want to
know um so I want to go ahead and play the

890

01:29:05,621 --> 01:29:12,400

clip for you Jason and then I want to get
your what your questions would be um for Biden

891

01:29:12,400 --> 01:29:16,139

or or any sitting president when dealing with
cool so let's go ahead and watch this clip

892

01:29:16,139 --> 01:29:21,420

then we'll wrap things up guys we get that
confirmation day this summer and Joe Biden

893

01:29:21,420 --> 01:29:25,690

comes to you and says Stephen your work over
the last few decades hasn't gone unnoticed

894

01:29:25,690 --> 01:29:30,699

you know some incredible work and I just want

to give you four steps and a couple of questions

895

01:29:30,699 --> 01:29:35,570

you know what does Stephen Bassett want to know first have you got one maybe two questions

896

01:29:35,570 --> 01:29:40,280

that writing top of your head you would need to get the answer to if you could get it there

897

01:29:40,280 --> 01:29:41,280

and then

898

01:29:41,280 --> 01:29:50,929

um well look I the the the the I have well these are the key things that I think most

899

01:29:50,929 --> 01:30:00,179

people will want to know uh first of all uh I want to know whether there is technology

900

01:30:00,179 --> 01:30:06,830

sequestered within the United States government facilities and or contractor facilities which

901

01:30:06,830 --> 01:30:13,239

could be of great help to uh the human race and dealing with its mounting problems that

902

01:30:13,239 --> 01:30:22,010

is sequestered because the truth embargo would be jeopardized if it was put into use okay

903

01:30:22,010 --> 01:30:27,570

in other words it'd be great if we could give this to you guys but we can't because if we

904

01:30:27,570 --> 01:30:34,100

did you'd kind of know that the ETS are here and that's still embargo right uh so that's

905

01:30:34,100 --> 01:30:42,489

one of the key questions uh another question
is do you does the government have any formal

906

01:30:42,489 --> 01:30:47,719

relationship with these et's already has there
been any formal relations any deal struck

907

01:30:47,719 --> 01:30:54,491

whatever treaties I don't think so but that's
a good question have you done that all right

908

01:30:54,491 --> 01:31:00,830

um another question is have you been involved
in the contact World in other words have you

909

01:31:00,830 --> 01:31:12,470

in any way uh how would you say created scenarios
to simulate contact with with with citizens

910

01:31:12,470 --> 01:31:18,469

of the country in order to get information
which would be unpleasant but I want to know

911

01:31:18,469 --> 01:31:22,989

that and by the way doesn't mean that this
is day one question so these are the questions

912

01:31:22,989 --> 01:31:27,489

but I understand that you're not going to
necessarily ask that question on day one day

913

01:31:27,489 --> 01:31:30,659

two day but these are the three things that
I'd like to know about

914

01:31:30,659 --> 01:31:39,560

ah always good to hear from Stephen Bassett
um I found those questions pretty interesting

915

01:31:39,560 --> 01:31:44,861

you know the treaty one like we've heard those rumors throughout the Decades of like you

916

01:31:44,861 --> 01:31:51,199

know was it Eisenhower who apparently had treaties with the aliens and all that and

917

01:31:51,199 --> 01:31:56,620

has stuff been sequestered apparently you know according to his Basset yes he knows

918

01:31:56,620 --> 01:32:03,710

the answer to that question the truth at Bargo remains um the last question was really interesting

919

01:32:03,710 --> 01:32:13,719

to me this um idea of have there been scenarios created to make contact UM I did an episode

920

01:32:13,719 --> 01:32:20,780

with I think it was Micah Hanks about the uh Pentacle memorandum that Jacque Valley

921

01:32:20,780 --> 01:32:27,949

uncovered where it was like something deep in the like crevices of Project Blue Book

922

01:32:27,949 --> 01:32:36,310

where he found this like tangent running investigation of UFOs as Project Blue Book was going on

923

01:32:36,310 --> 01:32:43,530

Jacques valet found this where they were creating possible like UFO scenarios to almost bait

924

01:32:43,530 --> 01:32:50,190

UFO phenomenon um you know and like Alexander's brought up this idea of like baiting UFOs

925

01:32:50,190 --> 01:32:57,090

with like nuclear subs and and nuclear installations
and stuff like that so I found that a really

926

01:32:57,090 --> 01:33:02,040

interesting that like Bassett went there like
that's what I would want to know too so what

927

01:33:02,040 --> 01:33:06,610

did you make of his questions and what would
your questions be if you had the opportunity

928

01:33:06,610 --> 01:33:11,469

to talk to a city president about this well
it's funny because you know knowing Steve

929

01:33:11,469 --> 01:33:17,590

so well like if you would have put those questions
on a sheet of paper like a b c d e f g and

930

01:33:17,590 --> 01:33:21,520

said which of these three did did Steve ask
I probably would have been able to pick those

931

01:33:21,520 --> 01:33:27,179

out just knowing the topics he likes to talk
about they definitely sounded Steve um but

932

01:33:27,179 --> 01:33:32,619

for me I mean it would be very difficult right
because mine would all be based on what what

933

01:33:32,619 --> 01:33:37,690

the president's response would be you know
initially to have you looked into UFOs because

934

01:33:37,690 --> 01:33:43,280

they all have different responses and they
have different different levels of of Interest

935

01:33:43,280 --> 01:33:47,630

so you know just asking a president if they've looked into the UFO issue or something is

936

01:33:47,630 --> 01:33:54,860

a very generic question but if there was a yes answer I would want to go further and

937

01:33:54,860 --> 01:34:00,199

then ask how they went about it or how how much they asked or who they asked or you know

938

01:34:00,199 --> 01:34:04,469

the whole process because if it was just a casual thing and they weren't taking it seriously

939

01:34:04,469 --> 01:34:09,280

and they're all hey we've got UFOs here and the answer is no then they laugh and go on

940

01:34:09,280 --> 01:34:14,150

or was it more like you know Bill Clinton and you know actual like going to Area 51

941

01:34:14,150 --> 01:34:20,020

and looking for you know answers to these these things that you think you know so um

942

01:34:20,020 --> 01:34:23,909

yeah I think that would be important and then perhaps you know providing some pointers of

943

01:34:23,909 --> 01:34:29,410

of where to look and report back to me and let me know how this goes uh yeah that would

944

01:34:29,410 --> 01:34:33,190

be fun but I think it would depend on the president then you'd need you need one who

945

01:34:33,190 --> 01:34:41,290

has who is certainly uh you know as interested
as as Clinton was and uh you know would know

946

01:34:41,290 --> 01:34:45,230

the right sources and and places that you're
supposed to to look and the people you're

947

01:34:45,230 --> 01:34:52,640

supposed to ask I know I think you know anytime
podesta gets involved with a campaign I'm

948

01:34:52,640 --> 01:34:58,170

like yes this could be it finally I'm turning
it into like a mini version of Stephen Bassett

949

01:34:58,170 --> 01:35:02,780

anytime he coaches him on the right questions
to ask yeah yeah podesta is a good one having

950

01:35:02,780 --> 01:35:08,889

your corner for that uh I know and all we
can hope for is that Reggie Watts somehow

951

01:35:08,889 --> 01:35:13,830

gets the opportunity to ask another president
these questions on some late night show or

952

01:35:13,830 --> 01:35:19,330

something that'd be cool it'd be cool well
I want to know what you guys would ask a sitting

953

01:35:19,330 --> 01:35:24,210

president put it in the comments below um
I would love to hear your thoughts and opinions

954

01:35:24,210 --> 01:35:29,170

on that um and yeah I know everyone probably
didn't agree with some of the stuff we said

955

01:35:29,170 --> 01:35:34,500

tonight about the whole Gary Nolan thing but
look it's a developing story um we'll see

956

01:35:34,500 --> 01:35:39,540

if any of these promises all of these people
have been making for the past few months um

957

01:35:39,540 --> 01:35:45,770

are gonna come true you know are these whistleblowers
gonna come forward um are we in the public

958

01:35:45,770 --> 01:35:51,719

ever going to hear about it I think is the
more important question um you know what's

959

01:35:51,719 --> 01:35:56,360

the point if they're just going and telling
arrow and that becomes classified we have

960

01:35:56,360 --> 01:36:02,610

a huge class over classification problem in
the United States um if it's just going there

961

01:36:02,610 --> 01:36:07,679

what's the point ultimately that's what we
should expect though you know if these people

962

01:36:07,679 --> 01:36:12,570

are coming in and and they need such you know
protection whistleblower protection all of

963

01:36:12,570 --> 01:36:16,719

this stuff is heavily classified it's not
really going to come to the public because

964

01:36:16,719 --> 01:36:21,949

if it is it sort of defeats the purpose right
and it would sort of out them as being you

965

01:36:21,949 --> 01:36:28,390

know because I assume if these things actually exist um these programs that people are allegedly

966

01:36:28,390 --> 01:36:34,260

involved with reverse engineering alien technology if that's actually what they're doing and

967

01:36:34,260 --> 01:36:39,420

whatever secret company that's doing that finds out from an aero press release or a

968

01:36:39,420 --> 01:36:43,940

DOD press release that they had an anonymous whistleblower fill them in and all these details

969

01:36:43,940 --> 01:36:48,300

of what this specific company was doing it'd probably be pretty easy for them to figure

970

01:36:48,300 --> 01:36:56,040

out who who did it so again negating The Whistleblower protection so if these whistleblowers are

971

01:36:56,040 --> 01:37:02,030

actually coming forward and and you know revealing these things to Congress I don't think the

972

01:37:02,030 --> 01:37:07,340

general public will hear any sort of details about that we'll just hear the the overall

973

01:37:07,340 --> 01:37:13,949

report the summation of yeah we've received lots of testimony lots of interesting claims

974

01:37:13,949 --> 01:37:20,580

but as is our Focus here we have followed the evidence and haven't been able to to confirm

975

01:37:20,580 --> 01:37:25,869

what they've said or we don't view it as credible
and you know it doesn't matter what they say

976

01:37:25,869 --> 01:37:32,290

even if they they voice 100 support or say
we we confirm this we can have people disagreeing

977

01:37:32,290 --> 01:37:36,080

with the government no matter what they say
because people either don't trust government

978

01:37:36,080 --> 01:37:42,489

or it's not the answer they want to hear yep
exactly then we're caught in that that uh

979

01:37:42,489 --> 01:37:47,290

that conundrum we always find ourselves in
when it comes to this topic but it's a topic

980

01:37:47,290 --> 01:37:53,030

you and I continue to pursue and we love doing
and that's the reason everyone's here tonight

981

01:37:53,030 --> 01:37:57,840

is to hear about UFOs and we've done that
no matter what the brutal truth might be on

982

01:37:57,840 --> 01:38:02,949

some of this um I think you know it's good
it's good to challenge a lot of these things

983

01:38:02,949 --> 01:38:07,820

you know when people are making bold claims
expect consequences from that so we'll see

984

01:38:07,820 --> 01:38:13,320

we'll see the Fallout from this Gary Nolan
story and whatever one thing is is to to keep

985

01:38:13,320 --> 01:38:17,710

an open mind with all of this right I mean
you don't have to latch on to something

986

01:38:17,710 --> 01:38:25,830

as soon as it comes out and go 100 in and
say I'm dying on this hill that's also foolish

987

01:38:25,830 --> 01:38:32,040

when it comes to strange topics like UFOs
because things do change we learn new information

988

01:38:32,040 --> 01:38:37,710

and we have to allow our personal opinions
to change as we receive new information right

989

01:38:37,710 --> 01:38:43,730

so don't don't go all in on something and
and become that person who is just all about

990

01:38:43,730 --> 01:38:48,440

this one thing that one person said is coming
because more times than not you're going to

991

01:38:48,440 --> 01:38:55,969

be disappointed so so realistic expectations
that's always healthy and you know take it

992

01:38:55,969 --> 01:39:01,400

for what it is right now we have claims that
people have said so let's see if those things

993

01:39:01,400 --> 01:39:08,190

materialize into something provable if they
don't we move on it doesn't change our world

994

01:39:08,190 --> 01:39:13,440

it doesn't deflate everything that's happened
any sort of great progress stomped into the

995

01:39:13,440 --> 01:39:19,560

ground everything is going to be fine we just
move forward we don't need the hype we don't

996

01:39:19,560 --> 01:39:25,320

need to worry about promises or or what's
supposed to be coming this year or next year

997

01:39:25,320 --> 01:39:30,489

or any sort of timeline there is no timeline
in my opinion I know other people disagree

998

01:39:30,489 --> 01:39:37,369

but take things as they come there's always
something new tomorrow so don't sweat it tomorrow's

999

01:39:37,369 --> 01:39:43,720

another day for the UFO topic guys um tomorrow's
another day Jason for rogue Planet as well

1000

01:39:43,720 --> 01:39:50,120

buddy so let's let's do it man tease what
you got going on over at Rogue Planet what

1001

01:39:50,120 --> 01:39:56,060

we can expect moving forward and uh yeah give
us give us all the socials and all that my

1002

01:39:56,060 --> 01:40:03,310

man yeah you got it so we recently uh revamped
the road Planet website completely redid it

1003

01:40:03,310 --> 01:40:07,920

so we've got a new rogue Planet website um
we've been taking it easy for a while because

1004

01:40:07,920 --> 01:40:12,670

we're all busy in our lives spread across
the world but uh we're we're trying to get

1005

01:40:12,670 --> 01:40:18,810

back back to uh you know some regular content
some regular shows um you know I brought brought

1006

01:40:18,810 --> 01:40:26,340

back my podcast on known and rebranded it
as UFO UAP WTF so I do that uh basically monthly

1007

01:40:26,340 --> 01:40:30,930

but I'm trying to be realistic and not to
you know commit to schedules that I I can't

1008

01:40:30,930 --> 01:40:37,750

meet with my my busy life so that's why everything
I do is lsh right monthly-ish we recently

1009

01:40:37,750 --> 01:40:44,400

launched a UFO headline newsletter on LinkedIn
and that's weekly I usually launch that on

1010

01:40:44,400 --> 01:40:48,770

every Monday so you can go on LinkedIn and
sign up for that and you'll see it on either

1011

01:40:48,770 --> 01:40:53,440

LinkedIn or it will be emailed to you so that's
a cool way to just kind of keep up with with

1012

01:40:53,440 --> 01:40:58,949

the headlines that are coming out every week
because again UFOs are seen every single day

1013

01:40:58,949 --> 01:41:02,690

all around the world and they generate headlines
all around the world every day so there's

1014

01:41:02,690 --> 01:41:07,130

lots of UFO news to keep up with we try to
do our best with that and make it as easy

1015

01:41:07,130 --> 01:41:13,300

as possible for people to digest that and
keep up to date with what's going on um Ryan

1016

01:41:13,300 --> 01:41:19,601

we might we might try to bring back all the
strange sometimes this year to do a nice Web

1017

01:41:19,601 --> 01:41:24,550

Conference diving into some of these topics
we might uh have to do a little Bigfoot talk

1018

01:41:24,550 --> 01:41:29,610

and uh you know some of the other things we
love but uh our primary primary love and focus

1019

01:41:29,610 --> 01:41:34,639

is UFOs we try to stay on that so we will
be bringing back UFO happy hour soon where

1020

01:41:34,639 --> 01:41:39,790

we can have discussions like this as well
and just share our opinions rather than you

1021

01:41:39,790 --> 01:41:44,619

know our more journalistic approach that we
take on our individual shows so that's happening

1022

01:41:44,619 --> 01:41:50,170

and uh you know I keep teasing this but progress
is coming on my book um and I'll hopefully

1023

01:41:50,170 --> 01:41:55,070

have an update at the end of the summer about
that we'll see we'll see how far that goes

1024

01:41:55,070 --> 01:42:00,770

awesome and and yeah for those who don't know
you did share this you know early on in the

1025

01:42:00,770 --> 01:42:07,929

Stream um you just moved so uh we understand that things have been a little slow so no

1026

01:42:07,929 --> 01:42:13,449

no it's good to know that you're you're settled in I'm loving the new background you got here

1027

01:42:13,449 --> 01:42:19,320

for the live stream so no no it's always a pleasure it's a work in progress I know I

1028

01:42:19,320 --> 01:42:24,141

know I gotta do some of that with mine too but um buddy I'm gonna let you go I'm gonna

1029

01:42:24,141 --> 01:42:29,130

debrief with the audience here tease a little bit of what's going on at somewhere in the

1030

01:42:29,130 --> 01:42:34,560

skies but I will uh I will say good night to you for now and um we'll have to have you

1031

01:42:34,560 --> 01:42:40,290

back on very soon as as all these stories develop as they always do thank you as always

1032

01:42:40,290 --> 01:42:45,099

Ryan it's always an honor and a pleasure hanging out with you I love you brother thank you

1033

01:42:45,099 --> 01:42:49,980

for having me nothing but love right back at you guys um everyone's giving their love

1034

01:42:49,980 --> 01:42:54,960

in the chat as well so thank you Jason thank you once again for joining me on somewhere

1035

01:42:54,960 --> 01:42:55,960

in the live stream

1036

01:42:55,960 --> 01:43:04,040

and there it is guys ah God I love talking
to him I love talking to him could talk for

1037

01:43:04,040 --> 01:43:09,960

hours but that man has a life so we're going
to say goodnight to Jason um I'm gonna say

1038

01:43:09,960 --> 01:43:14,170

good night to you guys as well again like
I know not everyone agrees with some of the

1039

01:43:14,170 --> 01:43:19,360

stuff we said tonight um but the whole Gary
Nolan thing but that's kind of where I'm at

1040

01:43:19,360 --> 01:43:24,520

right now like yeah it was cool to hear him
talking about this stuff but it's all his

1041

01:43:24,520 --> 01:43:31,830

thoughts his opinions um and you know does
he have some insight has he spoken to individuals

1042

01:43:31,830 --> 01:43:39,639

yeah he has so if a hundred other people so
have I um but those are my thoughts those

1043

01:43:39,639 --> 01:43:45,690

are my opinions those are my gut reactions
to the things I've been told by you know quote-unquote

1044

01:43:45,690 --> 01:43:53,910

Anonymous sources so um we'll see we'll see
um when it comes to what Gary Nolan said uh

1045

01:43:53,910 --> 01:44:00,800

I don't think it changed anything I'm just gonna say it nothing has changed um everything

1046

01:44:00,800 --> 01:44:06,290

he said has been said before it's been said on Twitter it's been said publicly um that's

1047

01:44:06,290 --> 01:44:12,630

not a bad thing you know those things have now been said to more people um so cool like

1048

01:44:12,630 --> 01:44:18,909

maybe some of those people will you know pursue this topic now or invest in whatever Gary

1049

01:44:18,909 --> 01:44:24,340

Nolan wants them to invest in and maybe we can get closer to some answers on some of

1050

01:44:24,340 --> 01:44:29,700

this but definitely not all of this so um we'll see we'll see I know some people in

1051

01:44:29,700 --> 01:44:37,030

the chat are saying it as well um I've heard too that something big is coming something

1052

01:44:37,030 --> 01:44:42,750

big is always coming um but yeah stay tuned you know some big claims have been made that

1053

01:44:42,750 --> 01:44:48,230

things are going to really be shaken up in the next six months or so um if six months

1054

01:44:48,230 --> 01:44:53,110

come and go and nothing has really changed again then we reassess and like Jason said

1055

01:44:53,110 --> 01:44:59,949

we um we move on this topic will always be here and we're all on the same side um as

1056

01:44:59,949 --> 01:45:04,510

much as it doesn't feel like that all the time we are on the same side we're all after

1057

01:45:04,510 --> 01:45:10,310

the same damn thing and that's the truth to what's going on in our skies so um just keep

1058

01:45:10,310 --> 01:45:16,080

that in mind when we're having these you know arguments and debates um we all want the same

1059

01:45:16,080 --> 01:45:22,210

thing and that's the truth and the truth does not have to come only from the United States

1060

01:45:22,210 --> 01:45:28,180

government or Arrow or or Gary Nolan or or insert name here it doesn't have to come from

1061

01:45:28,180 --> 01:45:34,570

me either um find your own truth have your own disclosure um that's I don't know that's

1062

01:45:34,570 --> 01:45:39,940

kind of where I'm I'm at with all of that so I'm Gonna Leave You guys with that um but

1063

01:45:39,940 --> 01:45:46,599

I do want to tease what we have coming up in the next few episodes of somewhere in the

1064

01:45:46,599 --> 01:45:53,480

skies how do I get this on here there we go um premiering tonight the Navajo paranormal

1065

01:45:53,480 --> 01:45:59,430

Rangers this was an unbelievable conversation
um I think you guys are going to absolutely

1066

01:45:59,430 --> 01:46:07,070

love it these guys were seen recently on Unsolved
Mysteries and they are just the stories they

1067

01:46:07,070 --> 01:46:13,199

told me were amazing Stories you did not see
or hear on Unsolved Mysteries so um be on

1068

01:46:13,199 --> 01:46:19,130

the lookout for that coming out very very
shortly and then the next few hours um and

1069

01:46:19,130 --> 01:46:22,880

then the following week we have Close Encounters
of the Third Kind you may never have heard

1070

01:46:22,880 --> 01:46:28,230

of um that's going to be a really fun episode
that I co-researched and co-wrote with Marcus

1071

01:46:28,230 --> 01:46:34,659

sloth of UFO Insight uh we got some close
encounter cases that you guys I don't think

1072

01:46:34,659 --> 01:46:38,699

some of you have ever heard of so that's going
to be fun and then we've got the Winchester

1073

01:46:38,699 --> 01:46:44,500

encounters which was a crazy string of events
that happened over here in the UK to be on

1074

01:46:44,500 --> 01:46:48,500

the lookout for that and last but not least
I've had to reschedule this one a few times

1075

01:46:48,500 --> 01:46:57,130

because she's very busy um we have Amy Shiratido who's in awesome space historian and author

1076

01:46:57,130 --> 01:47:02,570

and um and recently did some panels at alien con so we're gonna hear all about her experiences

1077

01:47:02,570 --> 01:47:08,929

there and talk about her new book *The Fight for Space* and everything else so yeah some

1078

01:47:08,929 --> 01:47:14,930

awesome awesome stuff coming your way guys um I think that's all I've got oh I have a

1079

01:47:14,930 --> 01:47:21,590

new book so please please please do me a huge favor go and rate and review the book on Amazon

1080

01:47:21,590 --> 01:47:28,090

it boosts us up in the algorithms and gets us featured all that good stuff um my my Publishers

1081

01:47:28,090 --> 01:47:32,900

really want me to push to that so please write and review the book on Amazon just takes a

1082

01:47:32,900 --> 01:47:39,140

few moments um to do that thank you to everyone who's read the book bought the book reviewed

1083

01:47:39,140 --> 01:47:44,409

the book um I really truly truly do appreciate your support and I hope you're enjoying the

1084

01:47:44,409 --> 01:47:50,429

book let me know which stories really stood out to you um yeah yeah Daylin in the chat

1085

01:47:50,429 --> 01:47:55,139

is in the book look we may have a few others
in the chat who are featured as well so yeah

1086

01:47:55,139 --> 01:48:00,199

I hope you'll check it out 50 of the greatest
hits Greatest Hits from the witness account

1087

01:48:00,199 --> 01:48:09,179

Series so yeah yeah please please go check
that out as well um but that's it guys that's

1088

01:48:09,179 --> 01:48:14,080

it so I'm gonna say good night please like
this video please subscribe if you haven't

1089

01:48:14,080 --> 01:48:18,820

turn on notifications all that good stuff
and I'll be on the lookout for a new episode

1090

01:48:18,820 --> 01:48:25,139

coming to you in just a few hours um again
my special thanks to Jason for joining me

1091

01:48:25,139 --> 01:48:31,929

tonight um go follow him on Twitter check
out everything at rogueplanet.tv and um that's

1092

01:48:31,929 --> 01:48:37,760

it guys what a fun episode we got to break
down some really fun cool stories and have

1093

01:48:37,760 --> 01:48:43,179

a good conversation about this big story happening
in UFO Twitter world right now and that's

1094

01:48:43,179 --> 01:48:49,739

Gary Nolan so send him my love to Gary Nolan
as well um you know as much as we may uh be

1095

01:48:49,739 --> 01:48:55,570

critical of one another sometimes um these
conversations have to be had and he's a brilliant

1096

01:48:55,570 --> 01:49:01,090

brilliant Guy and um he has his own thoughts
opinions and beliefs and that's what we saw

1097

01:49:01,090 --> 01:49:07,110

play out at this eye conference in New York
city so um yeah I want disclosure just as

1098

01:49:07,110 --> 01:49:14,239

much as the next person trust me um but that's
it guys I will leave you with that so um as

1099

01:49:14,239 --> 01:49:19,449

always our Mantra here at somewhere in the
skies keep your feet on the ground but never

1100

01:49:19,449 --> 01:49:49,110

stop searching somewhere in the skies have
a great night [Music] [Applause] [Music]
