EP 17

1
00:00:11,180 --> 00:00:12,180
foreign

2
00:00:14,180 --> 00:00:13,180
[Music]

3
00:00:14,180 --> 00:00:15,960
thank you

4
00:02:28,020 --> 00:00:17,130
[Music]

5
00:02:28,020 --> 00:02:44,280
foreign

6
00:02:44,280 --> 00:03:08,440
hey guys what's up Ryan Sprague here for somewhere
in the live stream um so we're doing things

7
00:03:08,440 --> 00:03:13,290
a little differently here tonight you'll notice
I haven't put up any of your comments or anything

8
00:03:13,290 --> 00:03:18,840
um that is because this is pre-recorded so
let's get that uh out there right off the

9
00:03:18,840 --> 00:03:26,200
bat this is a pre-recorded live stream broadcast
I don't know the fact of the matter is I am

10
00:03:26,200 --> 00:03:33,409
actually traveling uh while you're watching
this I will be in transit here in Europe and

11
00:03:33,409 --> 00:03:38,700
um I didn't want to miss this I didn't want
to not bring you guys something this week

12
00:03:38,700 --> 00:03:45,450
so this will act as a live stream quote unquote
where I bring you the latest UFO news and

13
00:03:45,450 --> 00:03:50,650
podcast highlights and uh yeah yeah if that's
why you'll notice that your comments aren't

14
00:03:50,650 --> 00:03:57,060
showing up on screen or anything um that's
why this is this is from the past so hopefully

15
00:03:57,060 --> 00:04:03,280
nothing huge will happen between the time
I'm recording this on Friday and on Sunday

16
00:04:03,280 --> 00:04:11,940
if so um and that's the unfortunate reality
of the situation but enough of that um I do

17
00:04:11,940 --> 00:04:18,019
want to let you guys know before we start
uh just a couple things um over on our patreon

18
00:04:18,019 --> 00:04:23,979
campaign right now we're doing a really exciting
new Endeavor where you get a seven day free

19
00:04:23,979 --> 00:04:29,880
trial to our patreon so basically you get
all the benefits that you would as a patreon

20
00:04:29,880 --> 00:04:35,229
subscriber you get early access to the main
somewhere in this guy's episode every week

21
00:04:35,229 --> 00:04:41,199
and you get all of our bonus episodes and
content you also get access to the entire

22
00:04:41,199 --> 00:04:47,759
back catalog of all of our bonus content over
there on patreon so yeah if you'd like you

23
00:04:47,759 --> 00:04:54,320
can head on over to patreon.com somewhere
skies and start your seven day free trial

24
00:04:54,320 --> 00:04:59,449
right now and um you can cancel after the
trial or if you decide you want to continue

25
00:04:59,449 --> 00:05:05,600
you to help support the show keep it going
make it continue to grow I would be forever

26
00:05:05,600 --> 00:05:10,960
grateful for that and in return for your support
like I said you get early access to the show

27
00:05:10,960 --> 00:05:16,100
and all of our bonus content so again for
your seven day free trial head on over to

28
00:05:16,100 --> 00:05:26,039
patreon.com somewhere Skies that's it for
Shameless plugs for now um let's get to some

29
00:05:26,039 --> 00:05:32,660
of the UFO news that I wanted to bring you
guys this week and we're going to start with

30
00:05:32,660 --> 00:05:40,210
this really interesting story airports shut
down in turkey and Taiwan after reports of

31
00:05:40,210 --> 00:05:46,889
UFOs so on May 20th at least 18 flights were
suspended for 12 hours following the suspected

32
00:05:46,889 --> 00:05:53,620
sighting of a UFO by a passenger aircraft
radar in Southeastern turkey a commercial

33
00:05:53,620 --> 00:05:57,710
aircraft which landed at the airport around
midnight reported that it had spotted on its

34
00:05:57,710 --> 00:06:05,990
radar a UFO at a height of 2743 meters or
about nine thousand feet over the city of

35
00:06:05,990 --> 00:06:11,479
gazian teb upon receiving the report from
the pilot air traffic control authorities

36
00:06:11,479 --> 00:06:18,060
ordered all scheduled flights to be diverted
to different airports instead Turkish News

37
00:06:18,060 --> 00:06:24,789
website huberturk meanwhile reported that
the UFO was also confirmed by air traffic

38
00:06:24,789 --> 00:06:30,940
controllers it's said that following this
incident 26 flights from gaziantep airport

39
00:06:30,940 --> 00:06:39,280
13 of which were departures and 13 arrivals
were canceled this is pretty interesting so

40
00:06:39,280 --> 00:06:48,419
on the heels of this UFO over an airport in
Turkey Taiwan the Italian International Airport

41
00:06:48,419 --> 00:06:57,000
said that flights were halted in and out of
their Airport this is crazy on May 22nd um

42
00:06:57,000 --> 00:07:02,280
so yeah UFO was spotted over the Taiwan airport
and it resulted in Flight disruption that

43
00:07:02,280 --> 00:07:09,639
impacted more than a thousand passengers according
to the airport operator uh let's see here

44
00:07:09,639 --> 00:07:14,979
um the flights were halted in and out of the
airport which in the country's main gateway

45
00:07:14,979 --> 00:07:22,620
after the object was spotted by a China Airlines
pilot the closure lasted for about 40 minutes

46
00:07:22,620 --> 00:07:28,750
tiac said airport authorities were unable
to identify what the flying object was and

47
00:07:28,750 --> 00:07:34,970
that it was only seen by One Pilot so yeah
interesting nonetheless that within the span

48
00:07:34,970 --> 00:07:40,849
of a few days the UFOs are cited over two
different airports it uh brings me back to

49
00:07:40,849 --> 00:07:45,680
just a couple weeks ago when we talked about
the now famous Chicago O'Hare incident over

50
00:07:45,680 --> 00:07:51,750
their airport there and what was cited there
so I mean these things happen all the time

51
00:07:51,750 --> 00:07:56,849
you know this happened in Japan where uh you
know flights were halted at an airport while

52
00:07:56,849 --> 00:08:04,470
a UFO wave was apparently happening um yeah
so you know groups like what uh Ryan Graves

53
00:08:04,470 --> 00:08:11,699
is doing right now for safe Aerospace safe
Aeronautics um and commercial airlines and

54
00:08:11,699 --> 00:08:17,380
and airports and all that stuff um is clearly
essential not only in the United States but

55
00:08:17,380 --> 00:08:22,259
all over the place as well so what were these
objects who knows were they drones in restricted

56
00:08:22,259 --> 00:08:27,449
airspace possibly um could have been anything
could have been anything uh the fact remains

57
00:08:27,449 --> 00:08:33,320
we don't know what they are they're unidentified
and they posed clear safety risks to these

58
00:08:33,320 --> 00:08:39,050
flights and and had a bunch of them canceled
and rescheduled so yeah pretty pretty crazy

59
00:08:39,050 --> 00:08:46,459
story out of uh turkey and Taiwan to begin
with but uh let's move to our next story a

60
00:08:46,459 --> 00:08:52,970
survey that came out recently it's pretty
interesting one in five academics say that

61
00:08:52,970 --> 00:08:59,980
they have seen a UFO and and whoops if you're
watching this I uh clearly put a typo there

62
00:08:59,980 --> 00:09:05,270
one in five academics say they have seen a
UFO and want research conducted so this comes

63
00:09:05,270 --> 00:09:11,440
from The Daily Beast and they said an academic
survey published in the Journal of humanities

64
00:09:11,440 --> 00:09:17,260
and social sciences Communications found that
roughly a fifth of tenured and ten-year track

65
00:09:17,260 --> 00:09:26,240
faculty across 144 research universities in
the US reported sightings of UFOs the survey

66
00:09:26,240 --> 00:09:31,110
also found that the majority of academics
believe that academic research and evaluation

67
00:09:31,110 --> 00:09:39,660
into UFOs is important results indicate several
implications for UFO research generally faculty

68
00:09:39,660 --> 00:09:45,529
across disciplines are cautiously willing
to engage in the UFO topic many are interested

69
00:09:45,529 --> 00:09:51,190
in conducting research and The credibility
of those who initially engage with the topic

70
00:09:51,190 --> 00:09:58,560
as well as funding are important factors for
faculty the report's author sent the survey

71
00:09:58,560 --> 00:10:06,339
to almost 40 000 academics and garnered a
four percent response rate which is uh pretty

72
00:10:06,339 --> 00:10:12,090
low not gonna lie that's pretty damn low for
for that amount of people um but a response

73
00:10:12,090 --> 00:10:19,930
rate nonetheless and within that rate participants
were 63 male and 80 white and ranged across

74
00:10:19,930 --> 00:10:27,490
14 different research disciplines such as
physics psychology political science and engineering

75
00:10:27,490 --> 00:10:33,959
about 19 percent of respondents reported witnessing
or knowing someone who had witnessed a UFO

76
00:10:33,959 --> 00:10:40,940
and nine percent said they or someone they
knew might have seen a UFO 36 percent of participants

77
00:10:40,940 --> 00:10:46,820
reported that they were interested in conducting
more research into uaps or UFOs with just

78
00:10:46,820 --> 00:10:53,209
four percent having conducted any UAP research
an additional 55 percent said they would much

79
00:10:53,209 --> 00:11:01,149
more likely they would be much more likely
to conduct research if they had funding so

80
00:11:01,149 --> 00:11:06,870
this this is interesting I mean you know there's
a lot of unfortunate debate in the United

81
00:11:06,870 --> 00:11:12,330
States right now about the lack of funding
for Educational Systems um but if that were

82
00:11:12,330 --> 00:11:17,110
to happen if more money were to be given to
to schools throughout the United States um

83
00:11:17,110 --> 00:11:23,040
maybe we would see an increase in the UFO
topic being in the classroom um you know I

84
00:11:23,040 --> 00:11:30,200
can speak from experience there are presently
and in the past uh two universities within

85
00:11:30,200 --> 00:11:35,420
the United States uh teaching my book somewhere
in the sky as a human approach to the UFO

86
00:11:35,420 --> 00:11:41,550
phenomenon in the classroom um lecturing talking
about the book it's required reading in these

87
00:11:41,550 --> 00:11:48,279
classes and I actually got to take part in
a q a with one of the classes and it was awesome

88
00:11:48,279 --> 00:11:54,860
talking UFOs with students and having them
genuinely interested in the topic um oh man

89
00:11:54,860 --> 00:12:00,490
I like I'll be forever humbled and honored
uh to have those opportunities so I think

90
00:12:00,490 --> 00:12:05,200
it'd be so cool for academics to get more
interested and involved in this topic and

91
00:12:05,200 --> 00:12:12,240
saying that they would do this if the funding
was there to do so so um I don't know maybe

92
00:12:12,240 --> 00:12:20,190
we'll see more classes and and lectures and
visiting you know uh lecturers on the topic

93
00:12:20,190 --> 00:12:27,570
of the UFOs in an academic setting as the
future moves forward uh I hope if this survey

94
00:12:27,570 --> 00:12:33,670
says anything the interest is there um clearly
there's a lack of uh people who actually responded

95
00:12:33,670 --> 00:12:38,450
to the survey but the the percentages were
interesting nonetheless so I thought it was

96
00:12:38,450 --> 00:12:44,990
pretty cool to definitely bring that up but
uh let's move to a little space news this

97
00:12:44,990 --> 00:12:51,600
is really interesting this story comes to
us from uh space.com new project set to decode

98
00:12:51,600 --> 00:13:01,140
alien messages so Europe's Trace gas Orbiter
or TGO Mars probe will send a coded message

99
00:13:01,140 --> 00:13:07,570
that will be received by three big radio telescopes
here on earth scientists around the world

100
00:13:07,570 --> 00:13:12,690
and interested members of the public will
then attempt to decode the message as part

101
00:13:12,690 --> 00:13:19,350
of an ambitious multi-week project called
assign in space this experiment is an opportunity

102

00:13:19,350 --> 00:13:25,709

for the world to learn how the seti community will work together to receive process analyze

103

00:13:25,709 --> 00:13:33,230

and understand the meaning of a potential ET signal the Allen telescope array a network

104

00:13:33,230 --> 00:13:38,040

of dishes in Northern California is one of the three facilities that will pick up the

105

00:13:38,040 --> 00:13:44,310

TGO message which will take 16 minutes to reach Earth from Mars orbit the other two

106

00:13:44,310 --> 00:13:50,339

facilities are the Robert C Byrd Green Bank telescope at Green Bay Green Bank observatory

107

00:13:50,339 --> 00:13:57,420

in West Virginia and the medicina radio astronomical station in Northern Italy which is managed

108

00:13:57,420 --> 00:14:04,310

by the Italian National Institute for astrophysics teams in each of these three observations

109

00:14:04,310 --> 00:14:10,829

observatories excuse me will process the coded signal and make it available to the public

110

00:14:10,829 --> 00:14:16,420

so if you're interested you can try your hand at deciphering it and submit your solution

111

00:14:16,420 --> 00:14:22,860

and other ideas via the Project's website and over the ensuing six to eight weeks the

112

00:14:22,860 --> 00:14:27,730

project team will host a series of public
Zoom meetings that will discuss the societal

113

00:14:27,730 --> 00:14:34,520

implications of spotting a signal from an
alien civilization so this is really cool

114

00:14:34,520 --> 00:14:40,480

kind of doing these test runs on decoding
alien messages if we were ever to receive

115

00:14:40,480 --> 00:14:45,079

them so I'll be sure to put a link guys down
in the show notes for where you can go to

116

00:14:45,079 --> 00:14:50,889

be a part of this um really really cool and
exciting that they're even bothering to um

117

00:14:50,889 --> 00:14:58,060

do something like this I think it's awesome
it gets really cool let's move to something

118

00:14:58,060 --> 00:15:05,019

that ain't so cool but um kind of a relief
um this story comes to us from Popular Mechanics

119

00:15:05,019 --> 00:15:12,029

we're not going to die in an asteroid attack
for at least another thousand years so you

120

00:15:12,029 --> 00:15:19,370

could take a sigh a breath of release guys
we're safe from Deep Impact for at least another

121

00:15:19,370 --> 00:15:25,839

Thousand Years supposedly let's run through
this pretty quick um according to a new study

122

00:15:25,839 --> 00:15:30,810

soon to be published in the astrophysical journal Earth is currently not at risk from

123

00:15:30,810 --> 00:15:36,459

the planet destroying objects that wiped out the Dinosaurs the closest asteroid hitting

124

00:15:36,459 --> 00:15:45,600

Earth only has a .00151 chance of getting as close to us as the Moon is not even making

125

00:15:45,600 --> 00:15:53,470

an impact and according to MIT technology review that percent chance is 10 times higher

126

00:15:53,470 --> 00:16:00,930

than any other asteroid NASA has been tracking near-earth objects locations for some time

127

00:16:00,930 --> 00:16:06,620

now and does its best to spot and monitor anything that could pose a danger though not

128

00:16:06,620 --> 00:16:12,000

perfect its catalog of these potentially dangerous objects is reportedly thought to be about

129

00:16:12,000 --> 00:16:18,579

95 percent complete with data of everything from little space rocks to potential World

130

00:16:18,579 --> 00:16:22,160

Destroyers

131

00:16:22,160 --> 00:16:28,910

according to David farnicia a navigation engineer at NASA's jet propulsion laboratory there

132

00:16:28,910 --> 00:16:35,250

is no known object that will impact and cause
Destruction for at least a thousand years

133

00:16:35,250 --> 00:16:41,639

though there are a few we should continue
to keep an eye on how their orbits could evolve

134

00:16:41,639 --> 00:16:48,250

um he also goes on to say um that he and his
team behind this were leaving study analyzed

135

00:16:48,250 --> 00:16:54,370

around a thousand near Earth objects in this
particularly threatening size class and used

136

00:16:54,370 --> 00:16:59,790

computer models to project how their trajectory
is in orbits would evolve over the next millennium

137

00:16:59,790 --> 00:17:07,190

the study does stress that it's meant to predict
Planet Enders only which doesn't mean we couldn't

138

00:17:07,190 --> 00:17:13,510

get hit with something smaller and more localized
that would cause significant damage it just

139

00:17:13,510 --> 00:17:18,480

means we're not staring down the barrel of
the next end of the dinosaurs level event

140

00:17:18,480 --> 00:17:24,880

in the near future closing here so NASA and
other space monitoring agencies will keep

141

00:17:24,880 --> 00:17:32,190

an eye out and continue to develop defense
systems in case anything does break bad but

142

00:17:32,190 --> 00:17:36,900

for now we can breathe a little easier knowing
that most likely our destruction isn't coming

143

00:17:36,900 --> 00:17:45,890

from space anytime soon at least not from
an asteroid so there you go guys there is

144

00:17:45,890 --> 00:17:51,030

most of our UFO in space news for the week
but we are not done because we are going to

145

00:17:51,030 --> 00:17:58,160

cover something that recently came to all
of our attention in the UFO community and

146

00:17:58,160 --> 00:18:06,270

that's the Holloman Air Force Base UFO footage
which has possibly been debunked this is pretty

147

00:18:06,270 --> 00:18:12,039

interesting um and I actually spoke to the
gentleman who made the quote-unquote debunking

148

00:18:12,039 --> 00:18:16,770

video and I have permission to show a condensed
version of that video with you guys in just

149

00:18:16,770 --> 00:18:22,650

a moment but I'm going to go ahead and give
a little back story here to this so in 1974

150

00:18:22,650 --> 00:18:28,980

filmmaker Robert emanager released his documentary
UFO's past present and future which was nominated

151

00:18:28,980 --> 00:18:36,030

for a Golden Globe it was funded by the Department
of Defense nonetheless and narrated by Rod

152

00:18:36,030 --> 00:18:40,990

Serling of Twilight Zone Fame while eminegar had originally been granted permission to

153

00:18:40,990 --> 00:18:49,179

use real footage of a UFO landing at Holloman Air Force Base in 1971 the Department of Defense

154

00:18:49,179 --> 00:18:55,351

later withdrew that permission Emma nagar was forced to add animated footage of the

155

00:18:55,351 --> 00:19:00,340

alleged Landing which you're going to see a little bit of of in just a sec he claimed

156

00:19:00,340 --> 00:19:05,850

that some of the frames from the original footage were used in the Reconstruction during

157

00:19:05,850 --> 00:19:12,200

editing which was authorized by the United States Air Force viewers spotted a genuine

158

00:19:12,200 --> 00:19:18,049

bright disc coming down slowly in the distance against the backdrop of holloman's surrounding

159

00:19:18,049 --> 00:19:25,289

landscape so what I'm going to do now is show you um some of those animations quote unquote

160

00:19:25,289 --> 00:19:29,820

from the original documentary um when they were kind of telling the story of the Holloman

161

00:19:29,820 --> 00:19:39,490

Air Force UFO landing and then um those few frames of an actual object descending behind

162

00:19:39,490 --> 00:19:46,500

you know Holloman Air Force Base um that many believe even eminek are saying this was actual

163

00:19:46,500 --> 00:19:52,539

footage that was originally pulled from the documentary but a couple frames made it in

164

00:19:52,539 --> 00:19:58,330

but uh recently there's a YouTube channel called the here suddenly which I'll have links

165

00:19:58,330 --> 00:20:03,940

down to the channel in the show notes as well guys definitely subscribe to here suddenly

166

00:20:03,940 --> 00:20:07,630

it looks like they're going to be doing some good work over there and possibly explaining

167

00:20:07,630 --> 00:20:13,660

some of these old UFO videos um they the channel released a thorough investigation of that

168

00:20:13,660 --> 00:20:20,480

footage and um kinda came to a pretty firm conclusion of at least what the object is

169

00:20:20,480 --> 00:20:27,559

in those frames it doesn't mean that there's not other Holloman UFO footage out there that

170

00:20:27,559 --> 00:20:34,270

is real um but at least the frames within this documentary could possibly be explained

171

00:20:34,270 --> 00:20:38,100

so I'm going to go ahead and play that clip for you now and we'll talk about it on the

172

00:20:38,100 --> 00:20:44,650
other side here let's look at an incident
that might happen in the future or perhaps

173
00:20:44,650 --> 00:20:51,040
could have happened already the premise is
that contact is made by extraterrestrial beings

174
00:20:51,040 --> 00:20:54,791
with representatives of the United States
Air Force at Holloman Air Force Base in the

175
00:20:54,791 --> 00:20:58,040
deserts of New Mexico

176
00:20:58,040 --> 00:21:05,400
the day is clear it's about 5 32 a.m at Holloman
Air Force Base traffic light one Recon plane

177
00:21:05,400 --> 00:21:11,110
is on the field ready for takeoff when Sergeant
man is given a report of an approaching unidentified

178
00:21:11,110 --> 00:21:15,690
crafts

179
00:21:15,690 --> 00:21:25,280
make contact with them bills

180
00:21:25,280 --> 00:21:37,200
you are approaching on Military airspace

181
00:21:37,200 --> 00:21:42,890
now as you saw one shot in there showed a
white object descending from the sky it's

182
00:21:42,890 --> 00:21:48,799
a short clip and it's not very detailed but
what does it show decades after the film's

183

00:21:48,799 --> 00:21:54,590

release word began to spread in the UFO community
that this one shot actually was a piece the

184

00:21:54,590 --> 00:21:59,700

legendary missing footage that the dod had
in fact allowed this one brief snippet to

185

00:21:59,700 --> 00:22:06,620

be included since it showed little more than
a white spot moving across a nondescript backdrop

186

00:22:06,620 --> 00:22:13,600

it's a plane the details are faint but the
wings and landing gear are unmistakable the

187

00:22:13,600 --> 00:22:16,850

YouTube compression might completely obliterate
the details here so I'm going to let it play

188

00:22:16,850 --> 00:22:21,529

a few times while I tweak the settings on
the footage it won't be pretty but I'm hoping

189

00:22:21,529 --> 00:22:25,450

where these combinations will help the wings
and the landing gear survive the compression

190

00:22:25,450 --> 00:22:32,210

process now you may be wondering what is the
round white glowing thing and that's a good

191

00:22:32,210 --> 00:22:37,260

question my first instinct was that the film
was being run in reverse and that what we're

192

00:22:37,260 --> 00:22:42,429

actually seeing are the planes afterburners
as it flies away from us but the landing gear

193

00:22:42,429 --> 00:22:47,020

is clearly down and if the plane was heading away from us the landing gear would have already

194

00:22:47,020 --> 00:22:52,870

been stowed so it's likely coming in for a landing rather than taking off now we know

195

00:22:52,870 --> 00:22:58,010

the base had f4s at the time so it's logical to wonder if the incoming plane might also

196

00:22:58,010 --> 00:23:03,960

be a fan and as shown in this footage the F4 Phantom had an intensely bright light that

197

00:23:03,960 --> 00:23:10,090

was sometimes used during Landing strong enough to flare camera lens even in broad daylight

198

00:23:10,090 --> 00:23:15,440

is it possible that this light is what we're seeing in the footage well let's do a quick

199

00:23:15,440 --> 00:23:21,330

comparison between the craft and the footage and a photo of an F4 Landing with its light

200

00:23:21,330 --> 00:23:27,560

on it's purely subjective but that looks like a pretty close match to me the wingspan the

201

00:23:27,560 --> 00:23:32,669

width of the landing gear the placement of the light the way the nose peeks out above

202

00:23:32,669 --> 00:23:38,039

the light it all seems to line up pretty well but there's no way to say for certain and

203

00:23:38,039 --> 00:23:43,650

at this point I don't think the type of plane
is very important what we can now say with

204

00:23:43,650 --> 00:23:48,820

a fair degree of certainty is that the landing
shot in the documentary is not footage from

205

00:23:48,820 --> 00:23:54,500

the fabled Holloman UFO landing film it was
almost certainly a shot of a plane coming

206

00:23:54,500 --> 00:23:58,539

into land at Holloman Air Force Base filmed
at the same time as the other reenactment

207

00:23:58,539 --> 00:24:06,010

shots so there you go guys um that was some
really really good work done by here suddenly

208

00:24:06,010 --> 00:24:13,250

over on YouTube I highly suggest staying here
on YouTube and going over to their Channel

209

00:24:13,250 --> 00:24:18,690

and subscribing right now um the video the
the actual video is about 16 minutes long

210

00:24:18,690 --> 00:24:24,890

goes way more in depth about how he uh kind
of looked at all this and came to the conclusion

211

00:24:24,890 --> 00:24:29,720

that what we saw in the documentary those
few frames in what Eman Eggers claims was

212

00:24:29,720 --> 00:24:37,650

actual actual UFO is most likely just a plane
coming in for a landing um so yeah you know

213

00:24:37,650 --> 00:24:44,809

that's that's the reality the harsh reality
of the situation um and now I think we're

214

00:24:44,809 --> 00:24:53,679

going to talk about more harsh reality to
situations and um that comes in the form of

215

00:24:53,679 --> 00:25:00,930

our podcast highlights of the week um you
guys knew I'd be covering this everyone's

216

00:25:00,930 --> 00:25:07,860

been covering it um it is the latest drop
by weaponized with Jeremy Corbell and George

217

00:25:07,860 --> 00:25:14,930

Knapp uh they released new footage that shows
four videos showing a quote-unquote massive

218

00:25:14,930 --> 00:25:22,970

triangular shaped object in the night sky
over 29 Palms military base videos were recorded

219

00:25:22,970 --> 00:25:31,250

in the spring of 2021 with 50 plus Marines
witnessing the event um I'm gonna go ahead

220

00:25:31,250 --> 00:25:36,419

and play this clip from weaponized and where
we're just gonna go into it we're gonna go

221

00:25:36,419 --> 00:25:42,570

into all the debate about it right now and
talk a little bit about about all that's going

222

00:25:42,570 --> 00:25:46,170

on with this so let's go ahead and play the
clip we'll talk about it on the other side

223

00:25:46,170 --> 00:26:02,510

it is

224

00:26:02,510 --> 00:26:08,000

so that was the first clip that I saw and
in the timeline of the event because I have

225

00:26:08,000 --> 00:26:14,821

so many videos and images now there's a sense
of astonishment what is that that's what you

226

00:26:14,821 --> 00:26:20,570

hear in the video and the thing is somebody
was just standing outside and this thing just

227

00:26:20,570 --> 00:26:26,899

appeared and in in actuality they could see
the body of it in in the footage you can't

228

00:26:26,899 --> 00:26:31,050

see the body because it's like you know an
iPhone sticking up towards the sky but as

229

00:26:31,050 --> 00:26:34,990

the crowd starts forming and everybody's looking
up that's when you start you know hearing

230

00:26:34,990 --> 00:26:39,000

people kind of get more excited so let's check
out the second video yeah the audio is great

231

00:26:39,000 --> 00:26:42,799

too yeah

232

00:26:42,799 --> 00:26:49,179

those are not alone rounds because the loom
rounds fall yeah and

233

00:26:49,179 --> 00:26:54,110

nobody shoots in a five gun section

234

00:26:54,110 --> 00:26:57,270

like an outline or something

235

00:26:57,270 --> 00:27:02,029

or something it's moving

236

00:27:02,029 --> 00:27:14,740

hell no yo we got aliens out here you know

this is [h__\h] weird we got UFOs outside

237

00:27:14,740 --> 00:27:23,130

yo one's out here that base is 596 000 Acres

900 some square miles it's gigantic they do

238

00:27:23,130 --> 00:27:27,730

all kinds of training out there year round

those Marines are used to seeing things in

239

00:27:27,730 --> 00:27:32,039

the sky it's part of their training planes

and and flares and maybe balloons and things

240

00:27:32,039 --> 00:27:36,320

of that sort obviously you can tell from the

tone of their voice this looks different from

241

00:27:36,320 --> 00:27:41,491

what they're used to seeing yeah absolutely

and it is a live training range um just a

242

00:27:41,491 --> 00:27:46,620

couple weeks ago I heard bombs going up you

can feel them when you live out there you

243

00:27:46,620 --> 00:27:53,830

feel those bombs going off so it is it is

an area that is of high activity and a lot

244

00:27:53,830 --> 00:28:00,270

of these marines have been in the military
for quite some time so they know what normal

245

00:28:00,270 --> 00:28:06,549

uh aircraft and weaponry looks like so you
kind of felt this like growing sensation of

246

00:28:06,549 --> 00:28:10,640

like what's going on here and then all hell
breaks loose I mean it's it's hilarious they're

247

00:28:10,640 --> 00:28:15,580

they're laughing they're screaming stuffs
but I want to play it just as it came to me

248

00:28:15,580 --> 00:28:20,289

so you see these different moments and this
is the actual timing of it like these clips

249

00:28:20,289 --> 00:28:24,019

are in order as I'm showing them to you so
this last one's kind of funny it's pretty

250

00:28:24,019 --> 00:28:32,480

neat I told you all this research wasn't for
nothing I knew aliens were real

251

00:28:32,480 --> 00:28:39,039

it was mainly these these five lights in this
v formation it very much looks like the Phoenix

252

00:28:39,039 --> 00:28:44,149

Lights uh video that that the world has seen
and it makes you wonder what the heck is this

253

00:28:44,149 --> 00:28:49,100

so obviously it's a military base they do
a lot of training out there why not flares

254

00:28:49,100 --> 00:28:53,019

couldn't it be flares because that's the explanation
people will come up with for this kind of

255

00:28:53,019 --> 00:28:54,019

a thing

256

00:28:54,019 --> 00:29:01,799

yes they will so let me pull this up here

257

00:29:01,799 --> 00:29:18,269

okay so this event the Mojave triangle UAP
or the uh 29 Palms incident um went viral

258

00:29:18,269 --> 00:29:27,590

it's all over the place TMZ CBS NBC um this
exploded again anything that Corbell and nap

259

00:29:27,590 --> 00:29:33,500

drop pretty much gets mainstream coverage
almost immediately um because it's new it's

260

00:29:33,500 --> 00:29:42,210

fresh it's new military UFO incidents um but
that doesn't mean they can't be it explained

261

00:29:42,210 --> 00:29:50,090

so we're talking Jeremy said 50 plus Marines
came forward with this event we've got videos

262

00:29:50,090 --> 00:29:55,740

from different individuals we've got photos
and what you're seeing now is one of those

263

00:29:55,740 --> 00:30:05,830

photos of what is claimed to be a structured
triangular craft however many believe that

264

00:30:05,830 --> 00:30:13,159

this is nothing more than flares and one of those individuals who we know in the field

265

00:30:13,159 --> 00:30:19,390

very well is a noted skeptic and sometimes debunker Mick West so I'm going to go ahead

266

00:30:19,390 --> 00:30:28,100

and play Mick West's response to all of this um and look I know we have people who highly

267

00:30:28,100 --> 00:30:32,340

enjoy and respect the work Jeremy Corbell and George Knapp are doing and we have people

268

00:30:32,340 --> 00:30:36,929

who highly respect the work being done by Mick West but I think it's very important

269

00:30:36,929 --> 00:30:42,730

to see both sides of these things um so I have my own personal belief about what it

270

00:30:42,730 --> 00:30:47,679

is I'll talk about that on the other side but let's go ahead and hear from Mick West

271

00:30:47,679 --> 00:30:52,830

about this after two years of work George Knapp and Jeremy Corbell finally released

272

00:30:52,830 --> 00:31:00,009

the footage of a UFO filmed by military personnel at 29 Palms California on April 20th 2021

273

00:31:00,009 --> 00:31:05,169

it showed five lights that started out in a nice triangle formation they said they were

274

00:31:05,169 --> 00:31:09,660

not flares but a lot of people thought they looked like flares and flares can actually

275

00:31:09,660 --> 00:31:14,690

hang around for several minutes they sit about 10 but the actual duration is unknown these

276

00:31:14,690 --> 00:31:19,860

are not super bright so possibly infrared illumination flares unlike the regular illumination

277

00:31:19,860 --> 00:31:25,000

flares that were launched later the shimmering of the lights indicates they are far away

278

00:31:25,000 --> 00:31:30,710

so the slow Descent of flares would be less noticeable there were some claims that this

279

00:31:30,710 --> 00:31:35,610

low-light image showed a triangular craft but that's really just the color bleed which

280

00:31:35,610 --> 00:31:40,450

you can see around other objects in the scene

281

00:31:40,450 --> 00:31:44,940

the Five Lights start out in a nice formation that evokes a triangle but they quickly separate

282

00:31:44,940 --> 00:31:51,830

into more random positions light flares do then John Greenwald of the Black Bolt discovered

283

00:31:51,830 --> 00:31:56,470

that there was a big military exercise at that location on that night with a lot going

284

00:31:56,470 --> 00:32:02,100

on and a lot of things in the air including

flares on one of the videos of the event Jon

285

00:32:02,100 --> 00:32:06,789

found footage of five flares that looked very similar I realized this looked likely was

286

00:32:06,789 --> 00:32:12,630

taken from the other side so I flipped it and overlaid it and it's a near perfect match

287

00:32:12,630 --> 00:32:16,600

given the coincidences with date and location and the fact that these lights look and act

288

00:32:16,600 --> 00:32:20,600

like flares then I think we can safely say that these are the actual flares that were

289

00:32:20,600 --> 00:32:27,330

misidentified as a UFO military personnel are human they are subject to the same illusions

290

00:32:27,330 --> 00:32:33,039

that we are sometimes when faced with something new they might not be able to identify it

291

00:32:33,039 --> 00:32:37,500

this happens perhaps more than we might like but it's not something we should ignore just

292

00:32:37,500 --> 00:32:44,090

because it seems impolite when looking at a UFO video keep an open mind consider all

293

00:32:44,090 --> 00:32:51,870

the possibilities

294

00:32:51,870 --> 00:32:57,419

since 2017 the somewhere in the skies podcast has been a place for people in all walks of

295

00:32:57,419 --> 00:33:03,250

life to tell their personal UFO stories how
of these sightings and encounters change those

296

00:33:03,250 --> 00:33:09,169

303

00:33:46,230 --> 00:33:51,929

foreign

304

00:33:51,929 --> 00:34:00,220

guys um I I have to agree with Midwest um
and John Greenwald on this I personally believe

305

00:34:00,220 --> 00:34:07,789

this is flares however however uh Jeremy corbel
has said that mostly all of these marines

306

00:34:07,789 --> 00:34:14,919

these quote unquote 50 plus Marines um were
there and saw a structured craft so he Jeremy

307

00:34:14,919 --> 00:34:21,770

Corbell is taking their word on that um we
have absolutely no proof whatsoever of a structured

308

00:34:21,770 --> 00:34:28,429

craft what we have are many videos that point
directly to this being a military training

309

00:34:28,429 --> 00:34:36,129

exercise with flares um so let's just say
it like the most obvious explanation is probably

310

00:34:36,129 --> 00:34:43,679

the explanation but it remains unknown because
we have very little data Jeremy Corbell said

311

00:34:43,679 --> 00:34:51,230

there's absolutely like no data on this case
um however the problem is when corbel and

312

00:34:51,230 --> 00:34:57,460

nap first brought this story forward they
never once never once mentioned anything about

313

00:34:57,460 --> 00:35:04,940

military training exercises um and two Jeremy
corbell's Credit he has recently come forward

314

00:35:04,940 --> 00:35:10,390

and said yeah there were training exercises
going on um but it could have been in response

315

00:35:10,390 --> 00:35:19,109

to this possible UAP um I don't necessarily believe that um but he also has said that

316

00:35:19,109 --> 00:35:27,230

it is possible that these are flares um so again like I'm not taking a Firm Stance because

317

00:35:27,230 --> 00:35:34,910

this isn't a war um there there's an explanation for this and we need to find that explanation

318

00:35:34,910 --> 00:35:40,040

and Corbell is saying on all of these news outlets he's going on that he's putting this

319

00:35:40,040 --> 00:35:45,760

out so that the public can decide and hopefully come to a conclusion but when you say that

320

00:35:45,760 --> 00:35:52,800

you have to be willing to accept that conclusion when all roads kind of lead to a explanation

321

00:35:52,800 --> 00:36:00,470

that this is flares I mean that's just that's what I personally believe that this was this

322

00:36:00,470 --> 00:36:07,339

was flares um so yeah that's kind of where I'm going to leave this um I did want to add

323

00:36:07,339 --> 00:36:13,440

for a little more context John Greenwald did reach out to the Pentagon on this and uh they

324

00:36:13,440 --> 00:36:18,859

said we can confirm that there were military Aviation Assets in the 29 Palms California

325

00:36:18,859 --> 00:36:24,650

airspace and weapons and tactics instructor
course was being conducted at that time there's

326

00:36:24,650 --> 00:36:29,770

no record of communication with the base range
control concerning the UAV sighting nor of

327

00:36:29,770 --> 00:36:35,310

the allocation of any base resource to investigate
a UAP sighting Aero does not have a record

328

00:36:35,310 --> 00:36:41,220

of this alleged event it cannot verify the
authenticity of the report this came from

329

00:36:41,220 --> 00:36:47,970

Susan Goff Department of Defense Pentagon
spokesperson so I mean I mean there you go

330

00:36:47,970 --> 00:36:53,089

like we know a training exercise is going
on and we know flares were at least illumination

331

00:36:53,089 --> 00:37:01,339

flares were shot up to try to identify what
this object was possibly um but make of it

332

00:37:01,339 --> 00:37:07,069

what you will again low information Zone guys
we don't have much data or information we

333

00:37:07,069 --> 00:37:11,880

just have the witness testimony and these
videos brought forward by Jeremy Corbell and

334

00:37:11,880 --> 00:37:21,950

uh and Georgia Knapp so um while I am leaning
99.9 towards this is flares um and that corbella

335

00:37:21,950 --> 00:37:26,890

nap should have pointed out that they were training exercises going on at the time and

336

00:37:26,890 --> 00:37:35,270

that flares were dropped um I guess it remains an open case just like the muscle or just

337

00:37:35,270 --> 00:37:41,760

like the um whatever Baghdad Phantom so yeah make of that what you will um at the end of

338

00:37:41,760 --> 00:37:48,310

the day what I want from this entire Mojave triangle UAP incident is for George Knapp

339

00:37:48,310 --> 00:37:55,050

Jeremy Corbell John Greenwald and Mick West to have a discussion whatever make a podcast

340

00:37:55,050 --> 00:37:59,690

episode out of it do you have any idea how many views you would get on something like

341

00:37:59,690 --> 00:38:05,400

that if you're looking for clicks and you're looking for views two Skeptics two people

342

00:38:05,400 --> 00:38:13,860

bringing the information forward have a conversation about it either privately or publicly that's

343

00:38:13,860 --> 00:38:19,530

it like it's that simple and maybe we can come to a conclusion on this thing instead

344

00:38:19,530 --> 00:38:25,822

of arguing endlessly oh my God I'm just like I Just Want to Have Fun guys I just want to

345

00:38:25,822 --> 00:38:32,030

have fun and when you go on Twitter and all you see is people like on either extreme um

346

00:38:32,030 --> 00:38:37,550

it's not fun and it makes stuff like what I do not fun to do anymore it makes me question

347

00:38:37,550 --> 00:38:44,760

why I'm pursuing this topic this field and um I hate that because I've dedicated half

348

00:38:44,760 --> 00:38:50,440

my life to this topic and I love it I I love it but it's stuff like what I'm seeing play

349

00:38:50,440 --> 00:38:58,260

out right now that um makes me love it uh just a little bit less so yeah please please

350

00:38:58,260 --> 00:39:03,790

whether privately or publicly Skeptics and those bringing the information forward come

351

00:39:03,790 --> 00:39:12,500

together and just have a conversation please I want to move on to another uh podcast highlight

352

00:39:12,500 --> 00:39:17,690

actually of the week and that was the good trouble show um Matt Ford over at the good

353

00:39:17,690 --> 00:39:24,470

trouble Show recently had Robert Salas on the show and um Robert Salas pointed out that

354

00:39:24,470 --> 00:39:30,650

Arrow has received testimony of a UFO sighting from a retired YouTube pilot and the UFO encounter

355

00:39:30,650 --> 00:39:36,750

was apparently captured on film and um this is interesting as we know Robert Salas testified

356

00:39:36,750 --> 00:39:42,160

before Arrow um gave his testimony over the phone and he actually recorded that conversation

357

00:39:42,160 --> 00:39:46,890

and what is given permission he was given permission to do so um so in this clip you're

358

00:39:46,890 --> 00:39:51,540

going to hear Sell us talking about it and they actually played some of that phone conversation

359

00:39:51,540 --> 00:40:01,300

he had so let me pull this up and we'll go ahead and play this now oh um now I I understand

360

00:40:01,300 --> 00:40:08,130

you you can't say who the who the person was in it was on the other line correct I'd rather

361

00:40:08,130 --> 00:40:13,619

I'd rather not but it was not Kirkpatrick okay so so the the thing my question would

362

00:40:13,619 --> 00:40:20,270

be why would they if they're talking about your particular incident why would they bring

363

00:40:20,270 --> 00:40:26,060

up where is where is the U2 footage uh did it seem to be part of a larger conversation

364

00:40:26,060 --> 00:40:32,110

or did it seem to be framed in the conversation of your particular incident I think what he

365

00:40:32,110 --> 00:40:39,930

was trying to tell me was they have tried
to coordinate uh specifically with the Air

366

00:40:39,930 --> 00:40:48,560

Force on some of the things that they've heard
from other witness testimonies and they weren't

367

00:40:48,560 --> 00:41:00,500

having any success so a question now in my
mind are they are they really trying and why

368

00:41:00,500 --> 00:41:07,250

aren't they having success because under the
ndaa again [Music] uh that's one of their

369

00:41:07,250 --> 00:41:17,450

remits they're one of the remits is to coordinate
with other departments and agencies uh and

370

00:41:17,450 --> 00:41:28,570

coordinate collate acquire data Etc and uh
and that's not getting done and it seems like

371

00:42:07,079 --> 00:41:29,570

uh

372

00:42:07,079 --> 00:42:13,849

not directly I mean we've kind of already
inquired with the Air Force several things

373

00:42:13,849 --> 00:42:22,839

even less specific like where is all the Youtube
footage literally where'd that film go where

374

00:42:22,839 --> 00:42:31,960

is it stored was it ever digitized where are
my copies of it be I'm still trying to run

375

00:42:31,960 --> 00:42:35,570

down questions like that because some form
of Pilots who told us about events that they've

376

00:42:35,570 --> 00:42:36,570

witnessed and their airplanes may have captured
and I'm testing Crews security policemen in

377

00:42:36,570 --> 00:42:43,339

all these different places where the Air Force
may have kind of audio visual recording of

378

00:42:43,339 --> 00:42:58,710

it or and part of the problem is we're talking
about things that happened um obviously long

379

00:42:58,710 --> 00:43:03,230

before any people currently serving in the
Air Force were serving and so and there are

380

00:43:03,230 --> 00:43:04,230

a couple of generations removed and when you
go talk to them about where you know where

381

00:43:04,230 --> 00:43:20,079

are the AFL Tech films from the atlas rocket
launches in the early 1960s from Vandenberg

382

00:43:20,079 --> 00:43:28,349

I can't find anybody that knows and it could
have been that they were disposed of so long

383

00:43:28,349 --> 00:43:39,769

ago that it's not even in the corporate memory
anymore or maybe they are storage

384

00:43:39,769 --> 00:43:40,769

so we're still working on trying to get answers
to a bunch of basic questions like that so

385

00:43:40,769 --> 00:43:44,740

there you go guys we actually heard some of the testimony and and conversation between

386

00:43:44,740 --> 00:43:51,609

Robert Salas and a representative of Arrow um I find it interesting that salus was recording

387

00:43:51,609 --> 00:43:57,910

this but Arrow was not are they not recording these phone testimony um that's kind of troubling

388

00:43:57,910 --> 00:44:01,960

if that's the case I don't know why they wouldn't record this maybe they are maybe they are

389

00:44:01,960 --> 00:44:06,359

we don't we don't know for a fact they're not recording on their end so um yeah make

390

00:44:06,359 --> 00:44:13,750

it that what you will as well um but yeah it is it's frustrating you know to hear that

391

00:44:13,750 --> 00:44:20,640

they don't have anything to like really show for some of this stuff that salus was inquiring

392

00:44:20,640 --> 00:44:30,200

about and um in a part of me understands it you know like stuff like film and photographs

393

00:44:30,200 --> 00:44:35,050

and files and documents get destroyed all the time within the government so you know

394

00:44:35,050 --> 00:44:38,290

we've heard that about the rendition Force incident we forget about the Roswell incident

395

00:44:38,290 --> 00:44:45,270

that any files on these things were destroyed
um so yeah take it that what you will um interesting

396

00:44:45,270 --> 00:44:53,460

clip um kudos to Matt Fort for having Robert
Salas share that that phone conversation um

397

00:44:53,460 --> 00:44:59,880

yeah you know it again it's just showing us
that arrow is having these conversations with

398

00:44:59,880 --> 00:45:06,090

these individuals um and hopefully we'll come
to some conclusions or use this testimony

399

00:45:06,090 --> 00:45:12,960

in their their data sets moving forward and
um maybe we'll come to some conclusions on

400

00:45:12,960 --> 00:45:20,750

some of this stuff uh but probably not it's
gonna say it probably not but interesting

401

00:45:20,750 --> 00:45:29,140

none the less um all right let's move to we've
got two more clips for you guys before I close

402

00:45:29,140 --> 00:45:35,651

things out here tonight uh we're moving over
to merged Ryan Graves came out within an episode

403

00:45:35,651 --> 00:45:42,710

recently where he spoke to associate professor
Matthew uh sidegas I believe that's how you

404

00:45:42,710 --> 00:45:48,990

pronounce his last name sidegis and he highlights
that radiation detection for UFO cases is

405

00:45:48,990 --> 00:45:55,490
actually better than video or photos this
is an interesting an interesting concept I'm

406

00:45:55,490 --> 00:45:58,940
going to go ahead and play the clip for you
guys the expertise that I bring is radiation

407

00:45:58,940 --> 00:46:04,109
detection because Dark Matter detection is
just one step away from just detection of

408

00:46:04,109 --> 00:46:10,100
any particles in general and the reason is
is because when you're looking for a new particle

409

00:46:10,100 --> 00:46:15,270
like dark matter and this applies even to
you know particle colliders like the LHC in

410

00:46:15,270 --> 00:46:19,450
Switzerland you need to know what particles
that already we already understand what do

411

00:46:19,450 --> 00:46:23,430
they look like you cannot claim to discover
something new unless you've addressed all

412

00:46:23,430 --> 00:46:28,710
the existing possibilities and the reason
why that's connected to UAP is because of

413

00:46:28,710 --> 00:46:35,839
all of the claims of radiation there's the
famous you know cash Landrum case in Texas

414

00:46:35,839 --> 00:46:39,880
it has just one example of many is another
example in France when in Canada there's plenty

415

00:46:39,880 --> 00:46:47,510

of historical examples of claims of UAP producing radiation and to me that's really interesting

416

00:46:47,510 --> 00:46:53,020

because you can fake or hoax a video it's really hard to fake a radiation signal I'm

417

00:46:53,020 --> 00:46:58,161

not saying it's impossible but like it's one thing to use CGI and fake people with the

418

00:46:58,161 --> 00:47:04,720

UFO picture but radiation screams to me real phenomenon very difficult to hoax and again

419

00:47:04,720 --> 00:47:08,750

that doesn't prove it's alien space crap but it proves that something weird and interesting

420

00:47:08,750 --> 00:47:14,619

and so that's the angle where I come in is my expertise is in particle detection that's

421

00:47:14,619 --> 00:47:18,640

very interesting there's a bit of analogy there between looking for a new particle that

422

00:47:18,640 --> 00:47:27,150

you've hypothesized about you may you have to account for all the particles and and things

423

00:47:27,150 --> 00:47:30,970

that you're expecting to see and then work your way backwards to see what anomalous data

424

00:47:30,970 --> 00:47:38,089

might exist um I've actually removed all that it's a very similar problem to UAP it's interesting

425

00:47:38,089 --> 00:47:45,190

um man not Matthew Duke he's got some energy
let me tell you um makes me feel like I'm

426

00:47:45,190 --> 00:47:49,780

on like 10 cups of coffee the way he was describing
that but the passion was there man and look

427

00:47:49,780 --> 00:47:56,349

hey if we can have people who look into the
radiation aspect of a lot of these cases um

428

00:47:56,349 --> 00:48:01,300

that's awesome so that was cool that was a
really cool interview um go go watch it if

429

00:48:01,300 --> 00:48:08,460

you can um in depth it was it was really really
well done um so kudos to Mr Ryan Graves over

430

00:48:08,460 --> 00:48:14,770

there emerged he's got a new set I saw it
too man dude just keeps upping the ante for

431

00:48:14,770 --> 00:48:20,559

production quality unlike what we have here
at somewhere in the live stream I'm trying

432

00:48:20,559 --> 00:48:25,859

guys I'm trying with what I have all right
all right um but yeah yeah so there's just

433

00:48:25,859 --> 00:48:31,820

some podcast highlights of the week for you
guys um I know you know there's gonna be some

434

00:48:31,820 --> 00:48:38,670

arguments and debates and and thumbs down
on this video for for my takes on the weaponized

435

00:48:38,670 --> 00:48:44,220

clip or whatever but it's an evolving story
and at the end of the day again all I hope

436

00:48:44,220 --> 00:48:50,160

for is that the Skeptics and George Knapp
and Jeremy Corbell can come together and have

437

00:48:50,160 --> 00:48:58,740

a informed discussion on this so that's my
challenge to the four of you please do something

438

00:48:58,740 --> 00:49:02,980

like that please please please one last clip
I'm gonna play for you guys this is not included

439

00:49:02,980 --> 00:49:08,190

on the screen here if you're watching this
um but cone Kelleher was recently on a YouTube

440

00:49:08,190 --> 00:49:13,200

channel not a podcast but on the YouTube channel
UAP Med this new company that's looking into

441

00:49:13,200 --> 00:49:19,330

like the medical effects of UFO incidents
such as radiation like in the clip we just

442

00:49:19,330 --> 00:49:25,109

played see how I tied that in guys I try I
try hearing somewhere in the live stream um

443

00:49:25,109 --> 00:49:32,319

comb Kelleher talks about a case in Brazil
where a woman had um a syndrome which is a

444

00:49:32,319 --> 00:49:37,400

parasitical infection the syndrome she had
and after she was exposed to her oh something

445

00:49:37,400 --> 00:49:41,510

really interesting happened so I'm gonna go ahead and play that clip for you guys and

446

00:49:41,510 --> 00:49:48,410

uh yeah we'll kind of wrap things up after that yes we we did come across some of uh

447

00:49:48,410 --> 00:49:53,910

some of those cases there was a again going back to Brazil it was a really interesting

448

00:49:53,910 --> 00:50:04,329

case where this woman um this woman had chaga syndrome which is a a parasitical infection

449

00:50:04,329 --> 00:50:09,790

that can really do a lot of damage to internal organs including the heart and uh her case

450

00:50:09,790 --> 00:50:18,349

was actually really well documented and um there was uh a lot of um a lot of concern

451

00:50:18,349 --> 00:50:29,150

about this This Woman's Health and so um at one stage she was exposed to a UFO in uh in

452

00:50:29,150 --> 00:50:38,890

Brazil and um it turned out that um shortly thereafter her symptoms started improving

453

00:50:38,890 --> 00:50:47,030

and over time her symptoms completely disappeared and this was completely contrary to the prognosis

454

00:50:47,030 --> 00:50:53,220

that her medical team had sort of put out because she was really going downhill and

455

00:50:53,220 --> 00:51:00,849

um there was uh there was a kind of a well-known family in the uh in Brazil who were in the

456

00:51:00,849 --> 00:51:09,040

military but also very much interested in the UFO and UFO and UAP phenomena called the

457

00:51:09,040 --> 00:51:17,540

Ochoa family and um this this General yuchoa had told us about this case and apparently

458

00:51:17,540 --> 00:51:25,319

there were um Hospital records documenting this sort of uh quote unquote miraculous healing

459

00:51:25,319 --> 00:51:31,270

that had occurred following a close encounter with the UFO I mean that seemed to be the

460

00:51:31,270 --> 00:51:38,570

turning point for this uh this whole disease progression so that's one example we came

461

00:51:38,570 --> 00:51:48,640

across we came across some other sort of mild uh milder examples um that were not as dramatic

462

00:51:48,640 --> 00:51:55,430

but there were definitely positive cases that were mixed in with the medical injury cases

463

00:51:55,430 --> 00:52:00,390

we investigated

464

00:52:00,390 --> 00:52:06,390

interesting again um you know if we're gonna argue for data and evidence with uh Jeremy

465

00:52:06,390 --> 00:52:12,089

Corbell and everything he's doing um the same
could be said about these very um some Sensational

466

00:52:12,089 --> 00:52:18,579

claims and findings of people like come calhair
that UFOs are actually healing people uh of

467

00:52:18,579 --> 00:52:23,690

diseases uh it's a very bold claim to make
and there's a lot of bold claims going on

468

00:52:23,690 --> 00:52:30,010

in the UFO world right now but um when you
have people with this much uh experience and

469

00:52:30,010 --> 00:52:37,730

in Insight it does truly make you wonder um
why are they making such bold claims and could

470

00:52:37,730 --> 00:52:43,980

they actually be true so yeah I thought that
was a pretty kind of interesting clip and

471

00:52:43,980 --> 00:52:50,130

hopeful clip if true to kind of end with that
UFOs are helping to heal people um yeah yeah

472

00:52:50,130 --> 00:52:54,350

really really really interesting just like
everything we covered tonight guys that's

473

00:52:54,350 --> 00:53:00,430

all I've got so I'm going to leave you actually
with a little tease of what's to come to night

474

00:53:00,430 --> 00:53:07,150

476

00:53:12,099 --> 00:53:17,510

cases that um are close encounters that you
guys probably some of you are familiar with

477

00:53:17,510 --> 00:53:23,260

by some actual photographic evidence and and

478

00:53:23,260 --> 00:53:29,059

all audio testimony that you'll be able to
find on our Instagram eventually as well um
