

1

00:00:00,000 --> 00:00:27,720

Trestrials only on the Paranormal Channel

2

00:00:30,000 --> 00:00:59,360

Welcome to a new series of strange but true

3

00:00:59,360 --> 00:01:03,680

we shall start as we meet to go on with stories of ordinary people who find

4

00:01:03,680 --> 00:01:09,160

themselves caught up in extraordinary inexplicable events later tonight we'll

5

00:01:09,160 --> 00:01:14,560

be talking to a man who vividly recalls being shot by a Russian soldier in 1855

6

00:01:14,560 --> 00:01:18,400

but we start with the subject that generated an enormous amount of

7

00:01:18,400 --> 00:01:23,080

interest in our first series faith healer Lorraine Hamm works alongside

8

00:01:23,640 --> 00:01:29,240

at her local clinic her patients think she's working wonders until next time

9

00:01:29,240 --> 00:01:34,320

good night the response to the last program was enormous the credits

10

00:01:34,320 --> 00:01:40,040

hadn't gone up before the phone started to rain by the Monday letters were

11

00:01:40,040 --> 00:01:45,320

pouring in before the end of the week the postman was actually bringing them in

12

00:01:45,320 --> 00:01:51,160

sacks Lorraine was overwhelmed by more than 20,000 letters with the help of

13

00:01:51,160 --> 00:01:55,400

other healers she began the long process of answering them all one letter was

14

00:01:55,400 --> 00:02:02,520

from Christine Drake who was desperate for help but not for herself I was

15

00:02:02,520 --> 00:02:06,360

watching strange but true with my daughter Alison and after the program

16

00:02:06,360 --> 00:02:09,720

had finished I thought I would contact Lorraine Hamm to see if she could

17

00:02:09,720 --> 00:02:16,200

alleviate my daughter's pain I played football with the lads in my class four

18

00:02:16,200 --> 00:02:19,200

five times a day for anything up to an hour sometimes

19

00:02:31,600 --> 00:02:36,320

pain in my back was so bad I started crying

20

00:02:37,680 --> 00:02:42,840

we had to put her to bed straight away and we hope that she would get better

21

00:02:43,120 --> 00:02:45,960

but after a couple of days we had to take her to hospital

22

00:02:45,960 --> 00:02:51,240

Alison came to us complaining of chronic lumbar pain this apparently was due to

23

00:02:51,240 --> 00:02:55,920

a stress fracture indicated here these fractures cause considerable pain and

24

00:02:55,920 --> 00:03:01,240

inhibit spinal movement I refer to her to the regional specialist spinal center

25

00:03:01,240 --> 00:03:06,360

for treatment and advice these small stress fractures seem to be causing the

26

00:03:06,360 --> 00:03:11,360

problem the difficulty we face is that there's always a risk operating in the

27

00:03:11,400 --> 00:03:17,280

spinal area can you do anything for us well but she's so much pain I'm afraid

28

00:03:17,280 --> 00:03:21,920

that at her age it's just not worth the risk to do an operation what am I

29

00:03:21,920 --> 00:03:27,800

supposed to do unfortunately wait we'll have to see how it develops the best

30

00:03:27,800 --> 00:03:33,040

thing is to wait until you stop growing then it'll heal itself in time to be

31

00:03:33,040 --> 00:03:40,000

told that they couldn't do anything well just devastated Alison was only a

32

00:03:40,040 --> 00:03:45,360

teenager and yet she was living the life of an elderly lady almost a pensioner

33

00:03:45,360 --> 00:03:50,240

she was going backwards and forth was to seeing specialists and doctors and she

34

00:03:50,240 --> 00:03:55,120

just wasn't getting any any better at all after suffering intense pain for four

35

00:03:55,120 --> 00:03:59,720

years their best hope seemed to be Lorraine Ham when I found out the

36

00:03:59,720 --> 00:04:05,920

moment actually written off to Lorraine Ham I was surprised and hopeful when

37

00:04:05,960 --> 00:04:12,200

Alison first came to see me she was in pain with her back and I did healing

38

00:04:12,200 --> 00:04:21,640

work with her there and then I had my eyes closed and I could like feel warm on

39

00:04:21,640 --> 00:04:27,080

the areas that she was healing I'm just going to put my hand under your waist

40

00:04:27,080 --> 00:04:34,200

sensation of all that pain drifting away when I say open your eyes open your

41

00:04:34,800 --> 00:04:39,360

the session over Alison and Christine went home when the warmth had gone and

42

00:04:39,360 --> 00:04:44,640

the pain had gone with it I could move around without any pain just felt

43

00:04:44,640 --> 00:04:50,360

brilliant I thought it was my I thought it was a miracle Alison was doing

44

00:04:50,360 --> 00:04:56,480

things that she couldn't do before and I just I'd got my daughter back I found

45

00:04:56,480 --> 00:05:01,680

Christine and she told me that Alison was now doing PE and feeling much better

46

00:05:02,280 --> 00:05:08,880

and did she need to come and see me again and of course I said no good past I

47

00:05:08,880 --> 00:05:13,640

had the feeling of having my life back back to normal I felt like a normal

48

00:05:13,640 --> 00:05:17,680

person again the first time since I'd had the accident out of the mountains of

49

00:05:17,680 --> 00:05:21,680

letters received every day Lorraine spotted one written on Oldham football

50

00:05:21,680 --> 00:05:26,120

club headed paper Nicola Fleming had written to her on behalf of her injured

51

00:05:26,120 --> 00:05:31,240

husband Craig Craig's career was rising fast he commanded a regular first team

52

00:05:31,280 --> 00:05:36,400

place and played against Manchester United in the 1994 FA Cup semi-final

53

00:05:36,400 --> 00:05:41,400

frustrating day so far for Mark Hughes he's been very well watched by Craig Fleming

54

00:05:44,400 --> 00:05:48,280

rumors were spreading that United were interested in buying the young Oldham

55

00:05:48,280 --> 00:05:56,160

star everything was going right and then disaster struck I was playing and just

56

00:05:56,160 --> 00:06:00,160

getting the odd niggling deep in the groin around the hip gradually just got

57

00:06:00,200 --> 00:06:06,600

worse and worse as a plane I was playing about 60 minutes when it actually

58

00:06:06,600 --> 00:06:09,680

kept up on us that he couldn't play football anymore because the injury is so

59

00:06:09,680 --> 00:06:17,360

bad he was just devastated and depressed it was obvious to us that him he was

60

00:06:17,360 --> 00:06:22,280

never going to overcome these problems unless he had surgery Craig was sent

61

00:06:22,280 --> 00:06:26,160

for an operation to repair a torn abdominal muscle I was getting a

62

00:06:26,160 --> 00:06:29,720

shooting pain across the top of the abdomen that cleared that up but I was

63

00:06:29,760 --> 00:06:34,360

still left with this pain in the groin in the hip this was a tremendous blot at

64

00:06:34,360 --> 00:06:39,240

the club because they had anticipated that he would after this initial surgery

65

00:06:39,240 --> 00:06:45,160

be back into the fray again he was just so fed up because he couldn't do anything

66

00:06:45,160 --> 00:06:49,240

about it Craig returned for a second operation hoping it would clear his

67

00:06:49,240 --> 00:06:53,960

problems it didn't add the operation to release the tendon and that's released a

68

00:06:53,960 --> 00:06:57,400

lot of the pressure in there there was still a pain especially for saying that

69

00:06:57,440 --> 00:07:01,960

it wasn't a career threatening injury but you know after three or four months

70

00:07:01,960 --> 00:07:05,360

you start you know naturally start worrying about you know how serious is it

71

00:07:05,360 --> 00:07:09,440

so when we heard about the rainhand we thought well why not give it a go

72

00:07:09,440 --> 00:07:15,400

Craig finally got to see Lorraine he was obviously concerned because he wasn't

73

00:07:15,400 --> 00:07:22,040

able to play football just relax if you're out for any length of time there

74

00:07:22,040 --> 00:07:26,200

are the people coming up and taking your place so on a mental emotional level

75

00:07:26,240 --> 00:07:29,360

there's always that worry if you like

76

00:07:29,360 --> 00:07:35,760

I couldn't see what Lorraine was doing because obviously I had my eyes closed

77

00:07:35,760 --> 00:07:39,160

now I'm going to touch your leg

78

00:07:39,160 --> 00:07:46,080

I feel like a strange tingling sensation

79

00:07:46,080 --> 00:07:51,240

just felt like a strong very strong pins and needles

80

00:07:51,240 --> 00:07:56,000

stretch your fingers and your toes expecting it you know to be pins and

81

00:07:56,000 --> 00:08:00,720

needles but I got my eyes disappeared

82

00:08:00,920 --> 00:08:06,240

no experience anything like it before Lorraine told Craig to go home and

83

00:08:06,240 --> 00:08:10,200

relax for the weekend I arrived at the club on Monday went down to the physio

84

00:08:10,200 --> 00:08:14,520

room as usual right Craig as sure what you can do under your own steam I was a

85

00:08:14,520 --> 00:08:18,480

bit reluctant to try it at first but they go all the way down wrote it back

86

00:08:18,520 --> 00:08:21,480

again it was no pain at all no pain

87

00:08:21,480 --> 00:08:26,200

it's fine yeah no pain so and then I mean I was just doing them all day

88

00:08:26,200 --> 00:08:33,080

flabbergasted by impressive the rest there was certainly exciting for all of

89

00:08:33,080 --> 00:08:37,880

us to realize that Craig was more enthusiastic able to do more and in

90

00:08:37,880 --> 00:08:40,120

fact looking forward to his training for sure

91

00:08:40,120 --> 00:08:42,160

go up in the air that's it go

92

00:08:42,160 --> 00:08:47,320

Craig was improving and it's quite exhilarating and who cares what produces

93

00:08:47,320 --> 00:08:49,320

the result

94

00:08:49,600 --> 00:08:54,840

now it's like oh great can't wait till next season he's just so much happier

95

00:08:54,840 --> 00:08:59,440

so much brighter about it on and it's easy to live with

96

00:08:59,440 --> 00:09:03,160

didn't know the physio had been to see the surgeons absolutely convinced that

97

00:09:03,160 --> 00:09:07,480

Lorraine was the reason behind this pain going

98

00:09:09,280 --> 00:09:13,800

skeptics of healing would say that all healers do is help people who already

99

00:09:13,840 --> 00:09:20,160

believe but Lorraine is sure that her healing powers go further than that

100

00:09:21,160 --> 00:09:29,080

a person who is positive about his healing can improve more quickly than

101

00:09:29,080 --> 00:09:33,760

someone who isn't but yet healing can still work with someone who is quite

102

00:09:33,760 --> 00:09:38,320

skeptical Lorraine also believes she can heal patients without them actually

103

00:09:38,320 --> 00:09:43,280

having to be there this was the answer to the thousands of needy letters and so

104

00:09:43,360 --> 00:09:47,640

the National Healing Center in Shrewsbury was set up and from here absent

105

00:09:47,640 --> 00:09:52,400

healing is sent out we now have a network of healers all over the country

106

00:09:52,400 --> 00:09:59,800

who meditate regularly three times a day and we focus on all the people who

107

00:09:59,800 --> 00:10:08,360

have written or telephoned and asked for help one such person was Ruth

108

00:10:08,480 --> 00:10:13,800

Dorrington who'd badly heard her hip I'm quite a serious club runner and I

109

00:10:13,800 --> 00:10:21,040

train every day so when I got injured I had to come and training right down I

110

00:10:21,040 --> 00:10:25,360

was getting more frustrated more depressed about not running properly and

111

00:10:25,360 --> 00:10:31,920

not racing I wrote to as many people as I could and inform them that I put them

112

00:10:31,920 --> 00:10:38,280

on an absent healing list Ruth was one of those people in her letter Lorraine

113

00:10:38,280 --> 00:10:42,800

told Ruth she would be on the list for six weeks it did seem that suddenly

114

00:10:42,800 --> 00:10:47,400

progress was all in the right direction and for once I could actually think that

115

00:10:47,400 --> 00:10:53,360

I was gonna recover completely at the end of the six-week period I felt like I'd

116

00:10:53,360 --> 00:10:57,000

reached a stage where I could get back into a proper training schedule and

117

00:10:57,040 --> 00:11:03,920

race seriously being on the healing list was important and I don't think it was

118

00:11:03,920 --> 00:11:08,200

like a psychosomatic thing I thought if there's lots of healers then all that

119

00:11:08,200 --> 00:11:14,920

energy's got to be good got to heal me and it seemed to do the trick

120

00:11:17,400 --> 00:11:21,640

Ruth came out of her injury running better than ever in fact she broke

121

00:11:21,680 --> 00:11:25,920

several club records and she believes is all thanks to Lorraine Ham

122

00:11:29,360 --> 00:11:33,080

the question that must be asked is would Lorraine's patients have got better

123

00:11:33,080 --> 00:11:35,760

anyway

124

00:11:42,240 --> 00:11:47,000

reincarnation is an accepted part of several religions and many individuals

125

00:11:47,120 --> 00:11:52,120

under hypnosis believe they're able to explore these past lives unfortunately

126

00:11:52,120 --> 00:11:56,000

much of what they recount is uncheckable and it's tempting to see more

127

00:11:56,000 --> 00:11:59,720

fantasy than fact in their vivid recollections of the great events of

128

00:11:59,720 --> 00:12:04,480

world history but tonight's story is different the past life in question

129

00:12:04,480 --> 00:12:09,080

turned out to be the life of an ordinary but well documented individual if there

130

00:12:09,080 --> 00:12:13,600

is any truth in reincarnation then what you are about to see may well be the real

131

00:12:13,600 --> 00:12:15,600

thing

132

00:12:17,000 --> 00:12:31,160

time has stopped there's no more time time like everything else in the universe

133

00:12:31,160 --> 00:12:41,920

runs in circles we've reached the top of the circle and now we're going back

134

00:12:41,920 --> 00:12:55,120

back in time you're drifting back in time you're seeking memories memories of

135

00:12:55,120 --> 00:13:03,880

things that happened to you before you were born in another time

136

00:13:03,880 --> 00:13:16,320

this is the story of Ray Bryant and his extraordinary journey into his past he

137

00:13:16,320 --> 00:13:21,080

believes that under guided hypnosis he can go back in time to past lives led

138

00:13:21,080 --> 00:13:26,040

hundreds of years ago here at last is some sort of proof that there's something

139

00:13:26,040 --> 00:13:32,600

beyond I've been looking into past life memory cases for the last 20 years and

140

00:13:32,640 --> 00:13:38,600

Ray Bryant's case stands out as one of the very best because there is such a

141

00:13:38,600 --> 00:13:44,600

wealth of evidence it all began in this unremarkable suburban home in

142

00:13:44,600 --> 00:13:49,000

Hertfordshire Ray Bryant a journalist had come to research past life

143

00:13:49,000 --> 00:13:54,080

experiences Andrew Selby welcomed him to join the regular regression group held

144

00:13:54,080 --> 00:13:58,040

in his living room the number of people in the group when Ray first started

145

00:13:58,040 --> 00:14:02,720

coming was around 12 to 15 it's quite a number of months before Ray started

146

00:14:02,720 --> 00:14:06,800

regressing properly and anything significant happened leading the group

147

00:14:06,800 --> 00:14:11,040

was hypnotherapist Joe Keaton who's led thousands of people into their past

148

00:14:11,040 --> 00:14:18,800

lives soon the first tantalizing clue was to emerge I want you to go back back

149

00:14:18,800 --> 00:14:29,240

to the time before you were born keep drifting drifting back you're there

150

00:14:29,240 --> 00:14:36,480

you're there now after hypnotizing Ray Joe began asking questions where are you

151

00:14:36,480 --> 00:14:52,400

what are you doing crime here fighting what's your name Ruben Ruben who

152

00:14:52,920 --> 00:15:03,480

Ruben Ruben star as with many past life regressions that vital detail a full

153

00:15:03,480 --> 00:15:08,440

name was missing but Andrew Selby was intrigued his diligent research was to

154

00:15:08,440 --> 00:15:13,520

open the door to Ray's past life I was down in the Guildhall library I'm trying

155

00:15:13,520 --> 00:15:17,760

to research on another regression I was getting nowhere with it so I thought I'd

156

00:15:17,760 --> 00:15:22,720

change over and see if I could find something on this soldier well I looked

157

00:15:22,720 --> 00:15:28,480

in the index and there I found a book on the casualty role of the Crimea and it

158

00:15:28,480 --> 00:15:32,720

was all listed by regiments the chances of Selby finding a full name to match

159

00:15:32,760 --> 00:15:38,240

the fragment given under hypnosis seemed highly remote I turned over the

160

00:15:38,240 --> 00:15:43,520

pages and I nearly fell off the chair there right in front of me was Ruben

161

00:15:43,520 --> 00:15:48,760

Stafford a sergeant who fought in the Crimean I just couldn't believe it one of

162

00:15:48,760 --> 00:15:54,200

the difficulties in assessing the the evidence of past life memories is that

163

00:15:54,200 --> 00:15:58,920

individuals often recall being famous people or having lived lives that are

164

00:15:59,000 --> 00:16:04,040

undocumented the quite remarkable case of very Bryant is that he's remembering

165

00:16:04,040 --> 00:16:09,520

an individual who was so obscure that it was almost impossible to prove he lived

166

00:16:09,520 --> 00:16:13,480

but that evidence eventually came to light armed with Ruben's full name

167

00:16:13,480 --> 00:16:17,240

Andrew Selby began the painstaking business of piecing together the

168

00:16:17,240 --> 00:16:23,600

soldiers life he discovered that he'd signed up age 20 that he'd been wounded

169

00:16:23,800 --> 00:16:29,400

in the attack on the quarries and his discharge papers stated that he'd been

170

00:16:29,400 --> 00:16:36,360

a very good soldier we've got a lot of information here about Ruben what are you

171

00:16:36,360 --> 00:16:40,960

gonna tell him nothing it's a chance to test him out if he is this young

172

00:16:40,960 --> 00:16:48,000

soldier then he'll remember the details anyway won't he for Keaton this would

173

00:16:48,000 --> 00:16:52,640

prove to be one of the most important past life sessions he'd ever led would

174

00:16:52,680 --> 00:16:56,720

Ray Bryant know the final part of Ruben's surname I want you to go back to

175

00:16:56,720 --> 00:17:07,040

the year 1855 it is 1855 bring out your memories what's your name and rank hey

176

00:17:07,040 --> 00:17:11,040

you what's your name and rank

177

00:17:12,760 --> 00:17:21,640

my name's Stafford sergeant 47 the Lancashire regiment of foot the group was

178

00:17:21,640 --> 00:17:27,280

astounded I have never researched into the Crimea it's not a subject that has

179

00:17:27,280 --> 00:17:34,880

interested me and I have no army background in my family at all so if Ray

180

00:17:34,880 --> 00:17:38,840

didn't know anything about the Crimea where did the identity of that obscure

181

00:17:38,840 --> 00:17:44,280

foot soldier come from Richard Wiseman a psychologist believed the explanation

182

00:17:44,280 --> 00:17:49,400

may lie with crypto amnesia when we're young we pick up far more information

183

00:17:49,440 --> 00:17:53,680

than we realize information from books films other people that's in our memories

184

00:17:53,680 --> 00:17:57,520

but we've just forgotten about it the hypnotist comes along suggests we've

185

00:17:57,520 --> 00:18:00,840

lived a previous life and all that information comes out and in the right

186

00:18:00,840 --> 00:18:03,520

setting the hypnotist and the subject might be able to convince each other

187

00:18:03,520 --> 00:18:08,480

that really is evidence of previous lives where are you exactly we're back in

188

00:18:08,480 --> 00:18:13,720

camp now but it's hard to explain the wealth of accurate detail provided by

189

00:18:13,720 --> 00:18:17,920

Ray Bryant as he went on to describe the life of Ruben Stafford the young

190

00:18:17,960 --> 00:18:21,720

soldier who fought the Russians far from home on the borders of the Black Sea

191

00:18:21,720 --> 00:18:26,560

we've tested him against the evidence we've tried to trick him and we haven't

192

00:18:26,560 --> 00:18:30,840

been able to break him out of the character if Ray was acting we'd have

193

00:18:30,840 --> 00:18:34,800

caught him out if it wasn't genuine if it was imagination we'd have caught him

194

00:18:34,800 --> 00:18:40,280

out so my belief is that we've got a genuine phenomenon here where are you

195

00:18:40,280 --> 00:18:45,360

in battle the following reconstructions are based on tapes of the actual

196

00:18:45,400 --> 00:18:51,600

regression sessions they come at us just over a little ridge

197

00:18:51,600 --> 00:18:53,600

the Russians!

198

00:18:53,600 --> 00:18:56,600

the deer right in front of us looking at us hardly a rifle's length away

199

00:18:56,600 --> 00:18:58,600

are they armed?

200

00:18:58,600 --> 00:19:00,600

so you have to be quick

201

00:19:02,600 --> 00:19:04,600

quicker than them

202

00:19:08,600 --> 00:19:10,600

how old were they?

203

00:19:10,600 --> 00:19:12,600

just chaps like us

204

00:19:15,600 --> 00:19:18,600

what color uniforms are the Russians wearing?

205

00:19:18,600 --> 00:19:20,600

gray

206

00:19:20,600 --> 00:19:22,600

the gray ghosts

207

00:19:22,600 --> 00:19:24,600

just come and go

208

00:19:25,600 --> 00:19:27,600

they know the country

209

00:19:28,600 --> 00:19:33,600

it's very much like a dream but this time that you are conscious all the time

210

00:19:33,600 --> 00:19:38,600

and you're watching the action you know what that dream is leading to

211

00:19:38,600 --> 00:19:41,600

Keaton was intrigued by Ruben's injury to his left hand

212

00:19:41,840 --> 00:19:45,840

records show he was injured in the Battle of the Quarries in 1855

213

00:19:45,840 --> 00:19:50,840

Ray was still ignorant of the details but would he recall them under hypnosis

214

00:19:50,840 --> 00:19:52,840

is this a good day to talk to you?

215

00:19:52,840 --> 00:19:54,840

keep up keep up

216

00:19:54,840 --> 00:19:56,840

way for the order

217

00:19:56,840 --> 00:19:58,840

advance!

218

00:20:02,840 --> 00:20:07,600

the attack on the quarries on the 7th of May 1855 was part of the Battle of

219

00:20:07,600 --> 00:20:11,600

the Quarries in 1855 was a disaster bomb it took the lives of hundreds of British troops

220

00:20:20,600 --> 00:20:25,600

I had this sudden sensation in the hand I couldn't imagine what was happening

221

00:20:25,600 --> 00:20:31,600

because while I was aware that something had happened to that hand I could feel no pain

222

00:20:31,600 --> 00:20:35,600

and yet I knew that Ruben was experiencing pain

223

00:20:35,600 --> 00:20:39,600

Joe was so concerned at Ray's state that he moved him on in time

224

00:20:39,600 --> 00:20:45,600

it's later now you're not in the quarry now it's later that night where are you?

225

00:20:45,600 --> 00:20:49,600

I don't know what happened I got shot by Russians

226

00:20:55,600 --> 00:20:57,600

who's looking after you?

227

00:20:58,600 --> 00:21:00,600

Florey's ladies

228

00:21:00,600 --> 00:21:02,600

they have aprons and caps

229

00:21:02,600 --> 00:21:04,600

white caps

230

00:21:05,600 --> 00:21:08,600

how long have you been there in the war?

231

00:21:08,600 --> 00:21:10,600

one year

232

00:21:10,600 --> 00:21:11,600

one year now

233

00:21:11,600 --> 00:21:13,600

are you missing home?

234

00:21:13,600 --> 00:21:15,600

you miss me wife and Bobby

235

00:21:15,600 --> 00:21:17,600

they're out to me

236

00:21:17,600 --> 00:21:19,600

she says all's well

237

00:21:20,600 --> 00:21:22,600

well that's the main thing isn't it?

238

00:21:22,600 --> 00:21:24,600

aye

239

00:21:25,600 --> 00:21:28,600

Andrew Selby's researches didn't finish with the war

240

00:21:28,600 --> 00:21:31,600

he pursued Ruben Stafford through the 19th century

241

00:21:31,600 --> 00:21:35,600

but no trace was found until the last day of his life

242

00:21:36,600 --> 00:21:42,600

a death certificate provided the last vital piece of evidence with which to test Ray Bryant

243

00:21:45,600 --> 00:21:48,600

Ruben Stafford had ended up as a lighterman on the Thames

244

00:21:48,600 --> 00:21:51,600

alone his family gone

245

00:21:51,600 --> 00:21:54,600

a forgotten soldier down on his luck

246

00:21:54,600 --> 00:21:58,600

Joe Keaton decided to take Ray back to the day of Ruben's death

247

00:21:58,600 --> 00:22:03,600

it's the 2nd of April 1879

248

00:22:03,600 --> 00:22:05,600

where are you?

249

00:22:05,600 --> 00:22:08,600

I'm looking down into water

250

00:22:09,600 --> 00:22:13,600

it's welcoming

251

00:22:15,600 --> 00:22:17,600

calm

252

00:22:21,600 --> 00:22:23,600

calm down

253

00:22:34,600 --> 00:22:40,600

with no clues Bryant had accurately reconstructed the last moments of Ruben Stafford's life and death

254

00:22:40,600 --> 00:22:43,600

violent suffocation by drowning

255

00:22:43,600 --> 00:22:45,600

a suicide

256

00:22:46,600 --> 00:22:54,600

just for the record believers in reincarnation now reckon you are reborn about 50 years after you die

257

00:22:54,600 --> 00:22:57,600

we'll be back after a gap of precisely one week

258

00:22:57,600 --> 00:22:59,600

goodnight
