1
00:00:21,119 --> 00:00:50,630

so

2
00:00:54,869 --> 00:00:52,150

thanks for attending this evening we

3
00:00:56,389 --> 00:00:54,879

appreciate your presence

4
00:00:58,310 --> 00:00:56,399

tonight we have the pleasure of the

5
00:00:59,910 --> 00:00:58,320

company of mr howard middleton jones

6
00:01:02,549 --> 00:00:59,920

here

7
00:01:07,429 --> 00:01:02,559

mr middleton jones was born in gower in

8
00:01:11,750 --> 00:01:09,429

he spent most of his life residing in

9
00:01:14,390 --> 00:01:11,760

the area he also spent many years as a

10
00:01:15,910 --> 00:01:14,400

nature reserve warden on gower

11
00:01:17,749 --> 00:01:15,920

and we both have something in common in

12
00:01:19,670 --> 00:01:17,759

that we both traded our family heritage

13
00:01:21,350 --> 00:01:19,680

back to scandinavia and we were both

14

00:01:23,429 --> 00:01:21,360

part of the original surfing scene back

15

00:01:25,830 --> 00:01:23,439

in the late 60s and 70s if i remember

16

00:01:27,590 --> 00:01:25,840

rightly i mean how it was university

17

00:01:29,510 --> 00:01:27,600

educated where he studied veterinary

18

00:01:32,310 --> 00:01:29,520

science classics ancient history and

19

00:01:34,149 --> 00:01:32,320

archaeology he's a va honours degree in

20

00:01:35,910 --> 00:01:34,159

ancient history and egyptology and i've

21

00:01:37,109 --> 00:01:35,920

got any of this wrong i do apologize to

22

00:01:38,789 --> 00:01:37,119

him now

23

00:01:41,350 --> 00:01:38,799

for over 30 years he's studied and

24

00:01:43,590 --> 00:01:41,360

researched the giza pyramid complex near

25

00:01:45,109 --> 00:01:43,600

cairo in egypt to where he's been a

26

00:01:46,710 --> 00:01:45,119

frequent visitor

27

00:01:48,630 --> 00:01:46,720

and he's written many books on this and

28

00:01:50,230 --> 00:01:48,640

other subjects

29

00:01:52,069 --> 00:01:50,240

he has many years experience in

30

00:01:55,510 --> 00:01:52,079

presenting illustrated talks on

31

00:01:58,230 --> 00:01:55,520

archaeology egyptology coptic studies

32

00:01:59,830 --> 00:01:58,240

and current affairs in egypt

33

00:02:02,469 --> 00:01:59,840

well tonight he'll be talking about

34

00:02:05,429 --> 00:02:02,479

amberlach the solar anomalies team the

35

00:02:07,990 --> 00:02:05,439

possibility of cosmic travel the fermi

36

00:02:10,309 --> 00:02:08,000

paradox and his own ufo cycling in

37

00:02:12,150 --> 00:02:10,319

swansea now if the meaning of any of

38

00:02:13,190 --> 00:02:12,160

these subjects are alien to you excuse

39

00:02:14,309 --> 00:02:13,200

the pun

40

00:02:16,229 --> 00:02:14,319

then hopefully you'll be fully

41

00:02:17,910 --> 00:02:16,239

enlightened by the end of the evening so

42

00:02:34,830 --> 00:02:17,920

please give a warm welcome put your

43

00:02:39,830 --> 00:02:37,509

um i'm hoping my advice is going to

44

00:02:41,830 --> 00:02:39,840

carry on tonight it started

45

00:02:43,990 --> 00:02:41,840

university term yes so i spent three or

46

00:02:47,030 --> 00:02:44,000

four hours last night non-stop talking

47

00:02:49,350 --> 00:02:47,040

until i get into the swing of uh talking

48

00:02:50,470 --> 00:02:49,360

in the vocal cords i'm sure it'd be all

49

00:02:52,390 --> 00:02:50,480

right though

50

00:02:59,589 --> 00:02:52,400

um great thanks for the introduction

51
00:03:04,070 --> 00:03:01,990
again talking about these before i start

52
00:03:05,830 --> 00:03:04,080
that i've been going there for over 20

53
00:03:07,830 --> 00:03:05,840
odd years and um

54
00:03:09,670 --> 00:03:07,840
the last 10 years i've been visiting

55
00:03:11,910 --> 00:03:09,680
because i teach coffee studies which is

56
00:03:14,149 --> 00:03:11,920
uh the archaeology and culture of the

57
00:03:16,710 --> 00:03:14,159
early christian period in egypt falling

58
00:03:19,430 --> 00:03:16,720
on from the lake baryonic to

59
00:03:21,910 --> 00:03:19,440
the arab invasion in 600

60
00:03:23,430 --> 00:03:21,920
i used to stay in cave hermitage with

61
00:03:25,750 --> 00:03:23,440
the monks in

62
00:03:28,630 --> 00:03:25,760
the western desert and we've seen some

63
00:03:30,789 --> 00:03:28,640

really unusual sightings there because

64

00:03:32,789 --> 00:03:30,799

every night you see something you just

65

00:03:34,470 --> 00:03:32,799

sit down they've got these deck chairs

66

00:03:36,470 --> 00:03:34,480

in the desert and you sit out and your

67

00:03:38,070 --> 00:03:36,480

sister like a star show

68

00:03:40,229 --> 00:03:38,080

there's no light pollution you have like

69

00:03:42,309 --> 00:03:40,239

100 miles from the nearest anywhere

70

00:03:44,470 --> 00:03:42,319

and uh you just see millions and

71

00:03:46,710 --> 00:03:44,480

millions of stars and after a few days

72

00:03:49,190 --> 00:03:46,720

you get used to earning stars and

73

00:03:51,990 --> 00:03:49,200

planets are and you often see some very

74

00:03:54,390 --> 00:03:52,000

unusual uh formations and the monks used

75

00:03:56,149 --> 00:03:54,400

to tell me every three weeks they'd be a

76

00:03:59,270 --> 00:03:56,159

light show and the plateau was a mile

77

00:04:01,350 --> 00:03:59,280

away unfortunately we never saw that

78

00:04:02,710 --> 00:04:01,360

they never could understand what he was

79

00:04:04,550 --> 00:04:02,720

vertigo

80

00:04:06,149 --> 00:04:04,560

coming down and bouncing up that was

81

00:04:07,589 --> 00:04:06,159

quite interesting so there's lots of

82

00:04:10,390 --> 00:04:07,599

things going on

83

00:04:12,229 --> 00:04:10,400

um i'd call this uh tonight uh journey

84

00:04:14,229 --> 00:04:12,239

through space and time because exactly

85

00:04:17,430 --> 00:04:14,239

is what we're going to do through the

86

00:04:19,909 --> 00:04:17,440

space and our own and other times

87

00:04:21,830 --> 00:04:19,919

and i'll introduce some characters

88

00:04:23,990 --> 00:04:21,840

unfortunately most of them have gone

89

00:04:26,469 --> 00:04:24,000

beyond our last couple of years

90

00:04:28,390 --> 00:04:26,479

um as far as the solar normally

91

00:04:31,350 --> 00:04:28,400

approved we set up in 98

92

00:04:34,070 --> 00:04:31,360

i'm one of only two left now 14

93

00:04:35,990 --> 00:04:34,080

um they've all passed on some naturally

94

00:04:36,790 --> 00:04:36,000

and some of the question marks

95

00:04:39,350 --> 00:04:36,800

uh

96

00:04:41,430 --> 00:04:39,360

gary goodwin is the only one left in

97

00:04:43,030 --> 00:04:41,440

america i was the only one in europe

98

00:04:44,710 --> 00:04:43,040

most of the others from australia or

99

00:04:46,469 --> 00:04:44,720

canada and america

100

00:04:49,189 --> 00:04:46,479

and that's why i did a lot of work in

101

00:04:50,230 --> 00:04:49,199

canada for for a few years

102

00:04:52,629 --> 00:04:50,240

um

103

00:04:55,030 --> 00:04:52,639

but i'll talk about that later i'm going

104

00:04:56,950 --> 00:04:55,040

to talk about a number of subjects i'm

105

00:04:59,749 --> 00:04:56,960

going to talk about an ambulance a weird

106

00:05:02,629 --> 00:04:59,759

word but uh and then asked me earlier on

107

00:05:05,430 --> 00:05:02,639

how do we think think of that word and

108

00:05:07,670 --> 00:05:05,440

jim who's now r.i.p a couple of years

109

00:05:10,629 --> 00:05:07,680

ago in 98 was thinking what should we

110

00:05:12,469 --> 00:05:10,639

call the canadian research team and he

111

00:05:14,390 --> 00:05:12,479

lent back from his desk and a book fell

112

00:05:16,790 --> 00:05:14,400

on top of his head and he opened it and

113

00:05:18,790 --> 00:05:16,800

said ambalak the first word so

114

00:05:21,909 --> 00:05:18,800

uh that was good as any so we called it

115

00:05:23,590 --> 00:05:21,919

ambalax ca now it's amalek uk

116

00:05:26,070 --> 00:05:23,600

um i'm going to talk a bit about the

117

00:05:27,990 --> 00:05:26,080

moon i don't know if you know about the

118

00:05:29,029 --> 00:05:28,000

theory i say steve but i'll give you

119

00:05:30,710 --> 00:05:29,039

evidence

120

00:05:34,230 --> 00:05:30,720

to back that up from

121

00:05:36,950 --> 00:05:34,240

not only um current spaghetti western uh

122

00:05:38,469 --> 00:05:36,960

guys but also from ancient sources how

123

00:05:41,350 --> 00:05:38,479

the moon was actually towed into

124

00:05:42,390 --> 00:05:41,360

position as a natural stability for the

125

00:05:44,390 --> 00:05:42,400

earth

126

00:05:46,710 --> 00:05:44,400

and then talking about the solar

127

00:05:49,510 --> 00:05:46,720

anomalies team that we said in 98 quite

128

00:05:52,550 --> 00:05:49,520

a very rare uh group there's 14 of us

129

00:05:54,070 --> 00:05:52,560

and some you might heard of um if you've

130

00:05:57,110 --> 00:05:54,080

been involved in this for a number of

131

00:05:59,189 --> 00:05:57,120

years but as i say it's closed down now

132

00:06:01,189 --> 00:05:59,199

unfortunately there are much younger

133

00:06:04,230 --> 00:06:01,199

groups taking over this and they're

134

00:06:07,830 --> 00:06:04,240

doing a lot of work now um courtesy of

135

00:06:09,990 --> 00:06:07,840

soho and lasko satellite telescope so

136

00:06:12,710 --> 00:06:10,000

circling millions of miles up

137

00:06:15,670 --> 00:06:12,720

um in the atmosphere there

138

00:06:17,430 --> 00:06:15,680

and then i'll talk about uh my clothes i

139

00:06:20,230 --> 00:06:17,440

call it closing county but it really was

140

00:06:21,909 --> 00:06:20,240

a close encounter in 1960

141

00:06:23,110 --> 00:06:21,919

over singleton hospital for about half

142

00:06:24,309 --> 00:06:23,120

an hour

143

00:06:28,870 --> 00:06:24,319

um

144

00:06:31,110 --> 00:06:28,880

didn't have an iphone or uh cameras and

145

00:06:33,590 --> 00:06:31,120

i was there no digital on the frame uh

146

00:06:36,070 --> 00:06:33,600

we look into that and then i'll probably

147

00:06:37,830 --> 00:06:36,080

have a breakthrough solar anomaly should

148

00:06:39,670 --> 00:06:37,840

probably get a bit really bored by then

149

00:06:41,990 --> 00:06:39,680

but i've got lots of photographs and

150

00:06:43,350 --> 00:06:42,000

illustrations so you can uh a little

151
00:06:45,590 --> 00:06:43,360
flash unit

152
00:06:47,350 --> 00:06:45,600
and then the fermi paradox i'm going to

153
00:06:49,590 --> 00:06:47,360
be heard of that it's just a theory by

154
00:06:52,070 --> 00:06:49,600
all firming some years ago

155
00:06:55,350 --> 00:06:52,080
talking of why aren't we seeing as many

156
00:06:57,350 --> 00:06:55,360
uh aliens or unidentified flying objects

157
00:06:59,270 --> 00:06:57,360
why aren't we seeing them every day and

158
00:07:01,270 --> 00:06:59,280
why aren't they coming or visiting or

159
00:07:03,029 --> 00:07:01,280
well they know that maybe

160
00:07:04,390 --> 00:07:03,039
uh why don't we see them and this is

161
00:07:05,270 --> 00:07:04,400
where the

162
00:07:07,909 --> 00:07:05,280
time

163
00:07:10,629 --> 00:07:07,919

and um comes into

164

00:07:14,230 --> 00:07:10,639

um i started one of my talks i gave in

165

00:07:17,110 --> 00:07:14,240

calendar we called it sans of time our

166

00:07:20,070 --> 00:07:17,120

point of origin you know where do we

167

00:07:22,790 --> 00:07:20,080

originate from on this planet and maybe

168

00:07:24,710 --> 00:07:22,800

mars before that and that hence the moon

169

00:07:27,110 --> 00:07:24,720

and i'll talk about that later

170

00:07:30,629 --> 00:07:27,120

but it we're all built up of frequencies

171

00:07:33,830 --> 00:07:30,639

and vibrations you mean have to veer

172

00:07:36,150 --> 00:07:33,840

away from that small vibration and we

173

00:07:37,909 --> 00:07:36,160

dissolve on the materialized and that's

174

00:07:39,430 --> 00:07:37,919

what it's all about the resonance and

175

00:07:42,870 --> 00:07:39,440

vibration

176
00:07:44,790 --> 00:07:42,880
and uh nikola tesla famous guy they want

177
00:07:47,909 --> 00:07:44,800
to find the secrets of the university in

178
00:07:49,990 --> 00:07:47,919
terms of energy frequency and vibration

179
00:07:52,150 --> 00:07:50,000
uh we all know what happened to him or

180
00:07:55,350 --> 00:07:52,160
chat

181
00:07:57,909 --> 00:07:55,360
going to our black research well the two

182
00:08:00,390 --> 00:07:57,919
the two guys that were involved before

183
00:08:02,629 --> 00:08:00,400
me i i joined in 98

184
00:08:04,629 --> 00:08:02,639
these are the teams myself uh but there

185
00:08:06,469 --> 00:08:04,639
were others but these are the three main

186
00:08:09,189 --> 00:08:06,479
team it was um

187
00:08:11,990 --> 00:08:09,199
jim jim wilkie james unkey died about

188
00:08:13,510 --> 00:08:12,000

three four years ago and jan murder

189

00:08:14,790 --> 00:08:13,520

young murder

190

00:08:16,790 --> 00:08:14,800

um

191

00:08:18,550 --> 00:08:16,800

dying about two three years from cheslav

192

00:08:19,749 --> 00:08:18,560

here used to be a safety officer for

193

00:08:22,550 --> 00:08:19,759

canada

194

00:08:24,950 --> 00:08:22,560

um i've lost count how many phds he's

195

00:08:28,469 --> 00:08:24,960

had about 15. he's about 30 degrees he

196

00:08:30,309 --> 00:08:28,479

was put forward in 1982 as the most

197

00:08:33,029 --> 00:08:30,319

published man in the world by against

198

00:08:34,709 --> 00:08:33,039

book of records he did 18 who was who

199

00:08:36,870 --> 00:08:34,719

books or it was

200

00:08:39,350 --> 00:08:36,880

and what he didn't know this guy he was

201
00:08:42,070 --> 00:08:39,360
also a psychic was no one's business but

202
00:08:44,790 --> 00:08:42,080
he and jim worked a lot on the

203
00:08:48,630 --> 00:08:44,800
vibrations and frequencies in the um

204
00:08:50,630 --> 00:08:48,640
great pyramid and he was young who

205
00:08:52,470 --> 00:08:50,640
stayed for a couple of nights when he

206
00:08:55,269 --> 00:08:52,480
could stay in the king's chamber the

207
00:08:57,269 --> 00:08:55,279
great pyramid to conduct experiments

208
00:08:58,870 --> 00:08:57,279
and if you go to my i've got a little

209
00:09:00,870 --> 00:08:58,880
paper card i've run out of my other

210
00:09:03,990 --> 00:09:00,880
cards but if you go to

211
00:09:06,310 --> 00:09:04,000
amalah uk.com you'll find

212
00:09:09,350 --> 00:09:06,320
some pictures of yarn in the pyramid and

213
00:09:10,949 --> 00:09:09,360

the sound experiments they did there

214

00:09:13,590 --> 00:09:10,959

in back in

215

00:09:15,990 --> 00:09:13,600

i think about 79.

216

00:09:18,230 --> 00:09:16,000

jan was also involved

217

00:09:20,389 --> 00:09:18,240

in the early days when nasa nasa called

218

00:09:23,269 --> 00:09:20,399

him in he was at the time i think it was

219

00:09:26,470 --> 00:09:23,279

about 81 um

220

00:09:29,269 --> 00:09:26,480

when yuri gallo was about 17 so work it

221

00:09:32,230 --> 00:09:29,279

out something like that 16 to 17. yuri

222

00:09:34,949 --> 00:09:32,240

gala and gan uh independently were asked

223

00:09:36,870 --> 00:09:34,959

by nasa along with many other psychics

224

00:09:38,870 --> 00:09:36,880

and other psychic engineers and

225

00:09:41,190 --> 00:09:38,880

electronic specialists they were

226
00:09:42,710 --> 00:09:41,200
receiving some signals is what yang was

227
00:09:44,790 --> 00:09:42,720
telling me

228
00:09:45,590 --> 00:09:44,800
from mars but they couldn't interpret

229
00:09:47,990 --> 00:09:45,600
them

230
00:09:49,430 --> 00:09:48,000
and suddenly they got in

231
00:09:52,310 --> 00:09:49,440
highly

232
00:09:54,150 --> 00:09:52,320
qualified engineers innovative engineers

233
00:09:55,590 --> 00:09:54,160
they're going psychics

234
00:09:58,550 --> 00:09:55,600
all they do is sit in front of these

235
00:10:00,870 --> 00:09:58,560
screens day after day trying to analyze

236
00:10:02,070 --> 00:10:00,880
these psychically and otherwise these

237
00:10:06,470 --> 00:10:02,080
signals

238
00:10:08,790 --> 00:10:06,480

and um john was telling me that uh yuri

239

00:10:10,870 --> 00:10:08,800

was uh totally out of control when he

240

00:10:13,509 --> 00:10:10,880

was 16 so cool things have changed now

241

00:10:15,190 --> 00:10:13,519

he's gone a bit too uh his drama thing

242

00:10:17,430 --> 00:10:15,200

you know with the tv

243

00:10:19,509 --> 00:10:17,440

but he young mate he didn't have some

244

00:10:22,470 --> 00:10:19,519

kind of ability and was so strong when

245

00:10:24,949 --> 00:10:22,480

he was younger that the nasa engineers

246

00:10:26,470 --> 00:10:24,959

had to insulate all the machines he

247

00:10:28,790 --> 00:10:26,480

couldn't walk into a room because they'd

248

00:10:31,190 --> 00:10:28,800

all go haywire you know so something was

249

00:10:33,430 --> 00:10:31,200

there somewhere what happened is later

250

00:10:35,750 --> 00:10:33,440

life i'm not quite sure whether he just

251
00:10:38,150 --> 00:10:35,760
lost that or whatever

252
00:10:40,310 --> 00:10:38,160
uh but those are the two guys they spent

253
00:10:42,630 --> 00:10:40,320
a lot of time uh jan died really

254
00:10:46,310 --> 00:10:42,640
suddenly uh he wasn't very old in his

255
00:10:48,550 --> 00:10:46,320
late 50s 62 i think when he died um

256
00:10:52,310 --> 00:10:48,560
unfortunately a great man but i'm such a

257
00:10:55,350 --> 00:10:52,320
loss and he was forgotten immediately

258
00:10:58,550 --> 00:10:55,360
to the books uh these two books we first

259
00:11:01,110 --> 00:10:58,560
came out in 99 and reprinted 2001

260
00:11:03,829 --> 00:11:01,120
uh two volumes genogenesis that went

261
00:11:06,230 --> 00:11:03,839
down quite well it's um looking at not

262
00:11:09,990 --> 00:11:06,240
just the pyramids of giza

263
00:11:13,110 --> 00:11:10,000

but how the whole layout

264

00:11:15,350 --> 00:11:13,120
affects as above as below so

265

00:11:18,630 --> 00:11:15,360
the star formations

266

00:11:21,829 --> 00:11:18,640
and basically whoever constructed it uh

267

00:11:24,310 --> 00:11:21,839
we think we did but we were more

268

00:11:26,949 --> 00:11:24,320
advanced at the time and we think it was

269

00:11:28,949 --> 00:11:26,959
more like 28 000 years ago rather than

270

00:11:30,870 --> 00:11:28,959
six thousand years and there's a lot of

271

00:11:34,550 --> 00:11:30,880
evidence coming forward for that later

272

00:11:36,790 --> 00:11:34,560
time and possibly built on top of an

273

00:11:39,670 --> 00:11:36,800
older construction

274

00:11:41,990 --> 00:11:39,680
so we they they come out um i mean i

275

00:11:44,310 --> 00:11:42,000
think in 2002 we knocked stephen king

276

00:11:46,470 --> 00:11:44,320

off the top 60 in amazon for one week

277

00:11:49,030 --> 00:11:46,480

only but at least it was something

278

00:11:50,389 --> 00:11:49,040

um then he went back in the top 20 again

279

00:11:52,550 --> 00:11:50,399

but uh

280

00:11:54,710 --> 00:11:52,560

we on a few quite a few radio shows in

281

00:11:56,710 --> 00:11:54,720

those days i was saying to add

282

00:12:00,550 --> 00:11:56,720

everything early wrong things were very

283

00:12:02,710 --> 00:12:00,560

popular in the sort of 2002-3456

284

00:12:04,630 --> 00:12:02,720

and then it started sort of easing off

285

00:12:05,350 --> 00:12:04,640

people had too many other things to cope

286

00:12:07,829 --> 00:12:05,360

with

287

00:12:09,350 --> 00:12:07,839

uh too many other um serious events

288

00:12:12,069 --> 00:12:09,360

especially after

289

00:12:14,470 --> 00:12:12,079

iraq two and so on people have to you

290

00:12:16,629 --> 00:12:14,480

know cope with all the this uh news

291

00:12:20,069 --> 00:12:16,639

blasting that we get

292

00:12:23,590 --> 00:12:20,079

um we also did the sounds of the pyramid

293

00:12:25,750 --> 00:12:23,600

this is from um janam's experiment and

294

00:12:28,150 --> 00:12:25,760

it's quite quite interesting it did the

295

00:12:30,710 --> 00:12:28,160

idea that it shows you that whoever

296

00:12:32,550 --> 00:12:30,720

constructed the insane pyramid you

297

00:12:34,550 --> 00:12:32,560

couldn't even put a razor blade between

298

00:12:36,949 --> 00:12:34,560

the two granite blocks

299

00:12:38,949 --> 00:12:36,959

and each one

300

00:12:41,670 --> 00:12:38,959

each block emitted at a certain

301
00:12:44,230 --> 00:12:41,680
frequency and now that frequency is

302
00:12:46,710 --> 00:12:44,240
being altered because when zeitgeist was

303
00:12:49,670 --> 00:12:46,720
in charge he'd be ousted now of course

304
00:12:52,150 --> 00:12:49,680
as a minister of antiquities he tried to

305
00:12:53,509 --> 00:12:52,160
find out what was below um he was

306
00:12:55,910 --> 00:12:53,519
looking basically looking for the hall

307
00:12:58,470 --> 00:12:55,920
of records and publicly he said they

308
00:13:00,389 --> 00:12:58,480
didn't exist but privately he asked

309
00:13:03,509 --> 00:13:00,399
jim and a few other people to come and

310
00:13:06,710 --> 00:13:03,519
help him out and because he blasted into

311
00:13:09,350 --> 00:13:06,720
the ground floor of the chamber the

312
00:13:12,629 --> 00:13:09,360
altered the frequency and the whole

313
00:13:14,550 --> 00:13:12,639

meaning of what that chamber is about

314

00:13:16,870 --> 00:13:14,560

if you want to ask me questions later on

315

00:13:19,430 --> 00:13:16,880

about that or at any time we'll have a

316

00:13:22,069 --> 00:13:19,440

discussion at the end as well uh just

317

00:13:25,670 --> 00:13:22,079

feel free to shout at me

318

00:13:28,470 --> 00:13:25,680

um we also did this large talk in

319

00:13:31,350 --> 00:13:28,480

canada some years ago

320

00:13:32,710 --> 00:13:31,360

when was it 2003 was it

321

00:13:35,030 --> 00:13:32,720

um

322

00:13:39,509 --> 00:13:35,040

that went down quite well at the time it

323

00:13:41,110 --> 00:13:39,519

was looking at the how that edward casey

324

00:13:42,870 --> 00:13:41,120

when he said the

325

00:13:43,910 --> 00:13:42,880

all the records was on the poor the

326
00:13:46,310 --> 00:13:43,920
sphinx

327
00:13:48,550 --> 00:13:46,320
he didn't actually mean it you go to the

328
00:13:51,269 --> 00:13:48,560
poor and dig under there when you

329
00:13:53,910 --> 00:13:51,279
reverse the star charts you'll find this

330
00:13:56,389 --> 00:13:53,920
is an exact alignment you're too common

331
00:13:59,189 --> 00:13:56,399
to get into it now but basically if you

332
00:14:01,590 --> 00:13:59,199
reflect that there's an area some miles

333
00:14:04,230 --> 00:14:01,600
away that actually is the poor those

334
00:14:06,790 --> 00:14:04,240
things when you uh bring it upside down

335
00:14:09,189 --> 00:14:06,800
so that was on the dvd

336
00:14:11,590 --> 00:14:09,199
um so again

337
00:14:15,910 --> 00:14:11,600
above that's below

338
00:14:17,590 --> 00:14:15,920

during our time in 98 99 we built up a

339

00:14:21,030 --> 00:14:17,600

lot of

340

00:14:23,110 --> 00:14:21,040

contacts with current and ex-military

341

00:14:25,269 --> 00:14:23,120

retired people

342

00:14:27,030 --> 00:14:25,279

government contractors and private

343

00:14:29,189 --> 00:14:27,040

contractors and local

344

00:14:31,030 --> 00:14:29,199

university and private institute

345

00:14:33,990 --> 00:14:31,040

institutions

346

00:14:36,710 --> 00:14:34,000

around about 2000 to 2003 they were

347

00:14:39,750 --> 00:14:36,720

quite happy to share information

348

00:14:42,389 --> 00:14:39,760

and that was soon put a stop to when we

349

00:14:44,230 --> 00:14:42,399

had the ambulance canadian site going we

350

00:14:45,910 --> 00:14:44,240

were getting about three or four hundred

351

00:14:47,910 --> 00:14:45,920

thousand hits a week

352

00:14:50,310 --> 00:14:47,920

uh and that was quite a lot for those of

353

00:14:52,069 --> 00:14:50,320

those days in this for now actually

354

00:14:54,470 --> 00:14:52,079

and then um

355

00:14:56,069 --> 00:14:54,480

about three or four hundred a day that

356

00:14:58,069 --> 00:14:56,079

we could track where they're coming from

357

00:15:02,470 --> 00:14:58,079

we're mainly military contractors

358

00:15:05,189 --> 00:15:02,480

looking in all under the guise of

359

00:15:07,430 --> 00:15:05,199

transportation nuclear facilities you

360

00:15:10,069 --> 00:15:07,440

know you name it and they were looking

361

00:15:11,350 --> 00:15:10,079

in for what purpose at the time we don't

362

00:15:13,030 --> 00:15:11,360

really know

363

00:15:14,230 --> 00:15:13,040

and i remember we gave a talk at

364

00:15:16,150 --> 00:15:14,240

university

365

00:15:17,509 --> 00:15:16,160

um about a hundred people turned up for

366

00:15:20,629 --> 00:15:17,519

war on britain

367

00:15:22,069 --> 00:15:20,639

um and of course a couple from canada

368

00:15:24,629 --> 00:15:22,079

um

369

00:15:27,829 --> 00:15:24,639

it was about our findings on the gates

370

00:15:30,949 --> 00:15:27,839

of plateau and we were trying to get

371

00:15:31,910 --> 00:15:30,959

some i think it was about 2002 or 2003

372

00:15:34,470 --> 00:15:31,920

that one

373

00:15:36,150 --> 00:15:34,480

and we tried to get uh some

374

00:15:38,790 --> 00:15:36,160

illustrations sent down from our

375

00:15:41,750 --> 00:15:38,800

illustrator in winnipeg from canada and

376

00:15:43,030 --> 00:15:41,760

we had a several days uh trouble

377

00:15:45,829 --> 00:15:43,040

communication

378

00:15:47,590 --> 00:15:45,839

and then my my website went down after

379

00:15:49,430 --> 00:15:47,600

two weeks

380

00:15:51,430 --> 00:15:49,440

i couldn't get anything off it

381

00:15:53,189 --> 00:15:51,440

i could go to a public library i could

382

00:15:55,910 --> 00:15:53,199

access it there

383

00:15:58,629 --> 00:15:55,920

um i'm just trying to give you a good

384

00:16:00,389 --> 00:15:58,639

example of what lengths at the time

385

00:16:02,550 --> 00:16:00,399

certain people went to

386

00:16:05,590 --> 00:16:02,560

um but i couldn't access

387

00:16:06,870 --> 00:16:05,600

access it on any ac uk address or my

388

00:16:10,550 --> 00:16:06,880

home address

389

00:16:14,150 --> 00:16:12,710

technician who was very keen on this

390

00:16:16,310 --> 00:16:14,160

sort of thing and

391

00:16:18,230 --> 00:16:16,320

he said at the university i'll track it

392

00:16:20,629 --> 00:16:18,240

for you to see what's happening

393

00:16:22,310 --> 00:16:20,639

and uh he ran me up two days later i'm

394

00:16:23,990 --> 00:16:22,320

ringing up because i'm not emailing you

395

00:16:26,550 --> 00:16:24,000

because we're on penises mailing

396

00:16:28,870 --> 00:16:26,560

obviously the dots the mail system

397

00:16:31,990 --> 00:16:28,880

um he said it's interesting that i

398

00:16:34,949 --> 00:16:32,000

tracked the the blockage comes from

399

00:16:37,829 --> 00:16:34,959

a public library term in new york

400

00:16:40,069 --> 00:16:37,839

and that's it's a nasa address

401
00:16:41,590 --> 00:16:40,079
so obviously they were using uh they go

402
00:16:43,590 --> 00:16:41,600
through all these events of using

403
00:16:45,509 --> 00:16:43,600
terminals nodes everywhere around the

404
00:16:47,269 --> 00:16:45,519
country they couldn't go any further

405
00:16:49,350 --> 00:16:47,279
than that we said whatever's blocking

406
00:16:51,269 --> 00:16:49,360
you it's obviously some either military

407
00:16:54,389 --> 00:16:51,279
or government organization

408
00:16:55,990 --> 00:16:54,399
two weeks later um he was on the on the

409
00:16:59,269 --> 00:16:56,000
sort of uh

410
00:17:02,470 --> 00:16:59,279
on the verge of defense about ufos but i

411
00:17:04,549 --> 00:17:02,480
think after unrelated information

412
00:17:06,630 --> 00:17:04,559
but uh on the two weeks later we had

413
00:17:08,710 --> 00:17:06,640

another case where my my computer at

414

00:17:11,110 --> 00:17:08,720

home all the files went missing and then

415

00:17:13,510 --> 00:17:11,120

put back again all over the place and we

416

00:17:15,669 --> 00:17:13,520

were on dial-in service in those days

417

00:17:17,510 --> 00:17:15,679

and he checked it again

418

00:17:19,669 --> 00:17:17,520

and he got really interested because he

419

00:17:21,990 --> 00:17:19,679

said you've got nasa uh sorry i said

420

00:17:23,909 --> 00:17:22,000

around the back and banging on your door

421

00:17:26,470 --> 00:17:23,919

i said what's the bathroom got to do

422

00:17:28,630 --> 00:17:26,480

with my work and it's all to do

423

00:17:30,470 --> 00:17:28,640

a week before that i sent

424

00:17:31,590 --> 00:17:30,480

we discovered something

425

00:17:33,190 --> 00:17:31,600

um

426

00:17:35,190 --> 00:17:33,200

related to a show we did the

427

00:17:37,750 --> 00:17:35,200

coast-to-coast years ago

428

00:17:39,110 --> 00:17:37,760

and uh we said that the guy in the

429

00:17:41,190 --> 00:17:39,120

background would be interested in this

430

00:17:43,350 --> 00:17:41,200

and we sent him the information and then

431

00:17:45,909 --> 00:17:43,360

the vatican knocked on my door to see

432

00:17:47,830 --> 00:17:45,919

what i had so they're looking in all the

433

00:17:50,150 --> 00:17:47,840

time and that that was many years ago so

434

00:17:52,150 --> 00:17:50,160

i'm sure that i think they gave up

435

00:17:53,270 --> 00:17:52,160

by about 2008 because they're all very

436

00:17:54,950 --> 00:17:53,280

quiet

437

00:17:56,549 --> 00:17:54,960

but that's the sort of thing we have to

438

00:17:57,590 --> 00:17:56,559

put up with a time

439

00:18:03,110 --> 00:17:57,600

um

440

00:18:05,909 --> 00:18:03,120

i was doing an film

441

00:18:08,310 --> 00:18:05,919

uh in egyptology and i had to give that

442

00:18:09,590 --> 00:18:08,320

up because someone listened to a program

443

00:18:11,669 --> 00:18:09,600

in uh

444

00:18:13,830 --> 00:18:11,679

um i was at home

445

00:18:17,350 --> 00:18:13,840

giving it but it was recorded in canada

446

00:18:19,350 --> 00:18:17,360

america and some research student in

447

00:18:22,710 --> 00:18:19,360

california that has been sponsored by

448

00:18:24,789 --> 00:18:22,720

nasa rang up um prof lloyd who was in

449

00:18:26,549 --> 00:18:24,799

charge of department and said you can't

450

00:18:28,549 --> 00:18:26,559

have someone from university talking

451
00:18:30,630 --> 00:18:28,559
about this sort of thing and even though

452
00:18:32,549 --> 00:18:30,640
i i never said i was from the university

453
00:18:34,470 --> 00:18:32,559
and um

454
00:18:36,150 --> 00:18:34,480
it ended up me handing my

455
00:18:37,830 --> 00:18:36,160
my notice to the end totally what they

456
00:18:39,110 --> 00:18:37,840
said in harry and they're trying to

457
00:18:40,870 --> 00:18:39,120
actually get me to stay with the poor

458
00:18:43,270 --> 00:18:40,880
teacher but that i had so many

459
00:18:45,190 --> 00:18:43,280
positively from the students and staff

460
00:18:46,230 --> 00:18:45,200
that uh they gave that one up

461
00:18:48,870 --> 00:18:46,240
so it's

462
00:18:50,870 --> 00:18:48,880
all sorts of um little bits of snippets

463
00:18:53,029 --> 00:18:50,880

and information like that it makes life

464

00:18:55,909 --> 00:18:53,039

hard going

465

00:18:57,110 --> 00:18:55,919

okay let's go back to the moon uh i

466

00:18:59,510 --> 00:18:57,120

mentioned earlier on there's a

467

00:19:02,630 --> 00:18:59,520

possibility that this was totally in a

468

00:19:03,750 --> 00:19:02,640

position 50 000 years ago i i understand

469

00:19:05,990 --> 00:19:03,760

but we'll have a look at some of the

470

00:19:07,990 --> 00:19:06,000

evidence to show that

471

00:19:11,750 --> 00:19:08,000

you're all familiar probably with leah

472

00:19:13,990 --> 00:19:11,760

jett uh i'm john lear john there

473

00:19:14,789 --> 00:19:14,000

we were very friendly with john uh back

474

00:19:17,669 --> 00:19:14,799

in

475

00:19:20,630 --> 00:19:17,679

99 2001 2002

476

00:19:21,750 --> 00:19:20,640

um one of his job jim doing quite well

477

00:19:25,590 --> 00:19:21,760

um

478

00:19:27,669 --> 00:19:25,600

one of his jobs was to fly his father's

479

00:19:30,630 --> 00:19:27,679

his father sort of invented if you like

480

00:19:33,029 --> 00:19:30,640

the leo jet and cia used quite a few of

481

00:19:33,909 --> 00:19:33,039

these jets quite regularly and john was

482

00:19:38,390 --> 00:19:33,919

a

483

00:19:40,710 --> 00:19:38,400

guys everywhere

484

00:19:43,190 --> 00:19:40,720

and he was told in one of the missions

485

00:19:45,669 --> 00:19:43,200

uh that the moon was totally in position

486

00:19:47,029 --> 00:19:45,679

and that's where his interest in ufos

487

00:19:49,190 --> 00:19:47,039

and um

488

00:19:51,430 --> 00:19:49,200

although he had an interest prior to

489

00:19:52,950 --> 00:19:51,440

that he really got down to it and wanted

490

00:19:55,350 --> 00:19:52,960

to find out more

491

00:19:58,390 --> 00:19:55,360

so he was told that 50 000 years ago

492

00:19:59,750 --> 00:19:58,400

that's what he told us anyway uh daytona

493

00:20:02,630 --> 00:19:59,760

was totally in the position and they

494

00:20:04,950 --> 00:20:02,640

were involved with people um

495

00:20:08,870 --> 00:20:04,960

remnants of the people from those days

496

00:20:11,430 --> 00:20:08,880

they were involved in talks back in 1986

497

00:20:13,669 --> 00:20:11,440

on homeless this is the sort of jet he

498

00:20:15,110 --> 00:20:13,679

was flying at the time

499

00:20:19,029 --> 00:20:15,120

they've improved now there's a lot of

500

00:20:24,630 --> 00:20:22,390

the idea was and from what our work that

501
00:20:26,150 --> 00:20:24,640
the idea of the towing the

502
00:20:28,230 --> 00:20:26,160
moon in the position

503
00:20:29,830 --> 00:20:28,240
was that originally

504
00:20:30,950 --> 00:20:29,840
long before

505
00:20:35,029 --> 00:20:30,960
about

506
00:20:37,190 --> 00:20:35,039
50 45 50 000 years we were on planet

507
00:20:39,830 --> 00:20:37,200
mars that did this is the story that was

508
00:20:41,430 --> 00:20:39,840
told and we have because of an incoming

509
00:20:42,710 --> 00:20:41,440
asteroid

510
00:20:45,270 --> 00:20:42,720
the planet

511
00:20:46,549 --> 00:20:45,280
they assumed was going to be moved in

512
00:20:49,190 --> 00:20:46,559
out of orbit

513
00:20:52,070 --> 00:20:49,200

so the nearest planet to move to was

514

00:20:54,149 --> 00:20:52,080

terror planet earth and so

515

00:20:57,110 --> 00:20:54,159

steps were involved to to bring us

516

00:20:58,470 --> 00:20:57,120

forward and that meant bringing in

517

00:21:00,470 --> 00:20:58,480

uh another

518

00:21:02,149 --> 00:21:00,480

stability um

519

00:21:02,950 --> 00:21:02,159

rock if you like and they brought in the

520

00:21:05,110 --> 00:21:02,960

moon

521

00:21:07,430 --> 00:21:05,120

that was the idea behind that it's a bit

522

00:21:09,669 --> 00:21:07,440

a very complicated story but i've got a

523

00:21:12,390 --> 00:21:09,679

lot of information on it together i can

524

00:21:14,789 --> 00:21:12,400

email you someone if you like

525

00:21:16,630 --> 00:21:14,799

um so just a little bit about john there

526

00:21:19,669 --> 00:21:16,640

should he gave it a bit of a background

527

00:21:22,710 --> 00:21:19,679

he flew a lot of secret missions for cia

528

00:21:24,950 --> 00:21:22,720

central southeast asia and south america

529

00:21:27,669 --> 00:21:24,960

between 66-93

530

00:21:31,110 --> 00:21:27,679

he had 17 world records including speed

531

00:21:36,470 --> 00:21:33,270

and he presented with this award broke

532

00:21:39,270 --> 00:21:36,480

stanley airmanship in 68 and simmons

533

00:21:41,270 --> 00:21:39,280

walt wade memorial and he's the youngest

534

00:21:42,950 --> 00:21:41,280

uh another thing on his

535

00:21:44,870 --> 00:21:42,960

list was a youngest american client in

536

00:21:47,990 --> 00:21:44,880

that hall in switzerland it's something

537

00:21:50,230 --> 00:21:48,000

i was wanting to do and the 1970s owned

538

00:21:52,470 --> 00:21:50,240

the skipper's the americans come forward

539

00:21:54,710 --> 00:21:52,480

so he's quite a

540

00:21:57,990 --> 00:21:54,720

checkered history and quite a buried

541

00:22:00,789 --> 00:21:58,000

character already

542

00:22:04,470 --> 00:22:00,799

so that was his information uh from the

543

00:22:05,590 --> 00:22:04,480

cia amber and the nsa

544

00:22:07,909 --> 00:22:05,600

so

545

00:22:10,070 --> 00:22:07,919

looking at it that's going back much

546

00:22:12,789 --> 00:22:10,080

further now and look why

547

00:22:15,669 --> 00:22:12,799

uh we think this may have been the case

548

00:22:18,149 --> 00:22:15,679

belikovsky a famous writer i think the

549

00:22:20,070 --> 00:22:18,159

1450s

550

00:22:21,110 --> 00:22:20,080

the moon is better apart from many other

551
00:22:24,870 --> 00:22:21,120
things

552
00:22:28,870 --> 00:22:24,880
um he got his information from various

553
00:22:30,950 --> 00:22:28,880
um platonic sources played by 500 bc

554
00:22:33,270 --> 00:22:30,960
and he taught he wrote in one of his

555
00:22:36,149 --> 00:22:33,280
chapters and we'll talk about this

556
00:22:37,590 --> 00:22:36,159
um aristotle wrote that in a place in

557
00:22:40,870 --> 00:22:37,600
greece um

558
00:22:45,909 --> 00:22:44,149
1200 bc had a population of these people

559
00:22:48,390 --> 00:22:45,919
called

560
00:22:50,710 --> 00:22:48,400
and there were aborigines who

561
00:22:52,950 --> 00:22:50,720
occupied this land before that there was

562
00:22:55,270 --> 00:22:52,960
a moon and that was recorded in their

563
00:22:56,710 --> 00:22:55,280

ancient texts

564

00:22:59,110 --> 00:22:56,720

they were living when there was a moon

565

00:23:02,230 --> 00:22:59,120

in the sky above the earth

566

00:23:04,950 --> 00:23:02,240

i think that was around about 10 000

567

00:23:10,470 --> 00:23:07,830

there's another famous person greek

568

00:23:12,710 --> 00:23:10,480

polius of rhodes he mentioned the time

569

00:23:15,669 --> 00:23:12,720

when not all they always were yet to

570

00:23:21,270 --> 00:23:18,789

uh and then we have uh recorded

571

00:23:24,549 --> 00:23:21,280

information from these various races the

572

00:23:25,270 --> 00:23:24,559

italian and the dennis

573

00:23:27,750 --> 00:23:25,280

and

574

00:23:30,149 --> 00:23:27,760

the arcadians they said they dwelt on

575

00:23:32,149 --> 00:23:30,159

mountains and fed our nakedness acorns

576

00:23:34,549 --> 00:23:32,159

before there was a woman

577

00:23:36,549 --> 00:23:34,559

so this you know quite a variety of

578

00:23:37,909 --> 00:23:36,559

information and once you start

579

00:23:40,310 --> 00:23:37,919

digging into it

580

00:23:42,310 --> 00:23:40,320

ovid the famous poet mentions the

581

00:23:44,710 --> 00:23:42,320

arcadians said possessed their land

582

00:23:46,230 --> 00:23:44,720

before the birth of job and the folk is

583

00:23:49,430 --> 00:23:46,240

older than the moon

584

00:23:52,950 --> 00:23:49,440

it's written in translate from martin

585

00:23:54,950 --> 00:23:52,960

so you know um in uh in the old

586

00:23:56,310 --> 00:23:54,960

testament joke the grammy of the lord

587

00:23:59,190 --> 00:23:56,320

who makes peace in the heights is

588

00:24:02,149 --> 00:23:59,200

praised and the time is mentioned before

589

00:24:03,909 --> 00:24:02,159

there was a moon and it did not shine

590

00:24:05,350 --> 00:24:03,919

it's a number of incidents in the old

591

00:24:06,789 --> 00:24:05,360

testament that was mentioned there's

592

00:24:08,870 --> 00:24:06,799

also in some

593

00:24:10,710 --> 00:24:08,880

uh that waste feared since the time in

594

00:24:13,110 --> 00:24:10,720

the sun and before the time the moon of

595

00:24:15,909 --> 00:24:13,120

generation of generations

596

00:24:18,230 --> 00:24:15,919

so we're talking i think what i uh

597

00:24:20,230 --> 00:24:18,240

gathered from our work from some years

598

00:24:23,510 --> 00:24:20,240

ago although i've been out of it a few

599

00:24:25,669 --> 00:24:23,520

years he told me about 50 000 years ago

600

00:24:26,950 --> 00:24:25,679

when this was

601
00:24:29,430 --> 00:24:26,960
towed in

602
00:24:31,590 --> 00:24:29,440
the indians of

603
00:24:33,750 --> 00:24:31,600
highlands and eastern

604
00:24:36,549 --> 00:24:33,760
colombia they also

605
00:24:40,549 --> 00:24:36,559
in their ancient texts relate to the

606
00:24:42,789 --> 00:24:40,559
tribal times before themselves

607
00:24:43,669 --> 00:24:42,799
near this time when moon is not yet in

608
00:24:46,870 --> 00:24:43,679
heaven

609
00:24:48,549 --> 00:24:46,880
um which they recalled in their ancient

610
00:24:50,230 --> 00:24:48,559
four parlors

611
00:24:51,830 --> 00:24:50,240
interesting

612
00:24:53,909 --> 00:24:51,840
and then we come to them all modern

613
00:24:54,950 --> 00:24:53,919

you've probably heard of dr wolf and dr

614

00:24:57,909 --> 00:24:54,960

boylan

615

00:25:00,390 --> 00:24:57,919

they're all uh dr blind is a very keen

616

00:25:03,029 --> 00:25:00,400

ufo follower i've lost touch with him

617

00:25:05,590 --> 00:25:03,039

for a few years now dr wolf was a nassar

618

00:25:07,909 --> 00:25:05,600

advisor and he died with cancer about

619

00:25:10,630 --> 00:25:07,919

six six seven years ago

620

00:25:12,230 --> 00:25:10,640

um he mentioned an extraterrestrial

621

00:25:13,430 --> 00:25:12,240

space speak and they dumped it the

622

00:25:14,789 --> 00:25:13,440

monoliths

623

00:25:17,669 --> 00:25:14,799

um

624

00:25:19,510 --> 00:25:17,679

which is retrieved from a us military

625

00:25:21,590 --> 00:25:19,520

spacecraft who brought back to earth in

626

00:25:24,390 --> 00:25:21,600

1972

627

00:25:25,110 --> 00:25:24,400

i don't know if you knew about that but

628

00:25:29,029 --> 00:25:25,120

he

629

00:25:31,430 --> 00:25:29,039

artificial long ago this issue was

630

00:25:33,830 --> 00:25:31,440

resolved by extraterrestrials and

631

00:25:36,070 --> 00:25:33,840

furthermore he confirmed to dr wolf that

632

00:25:38,870 --> 00:25:36,080

there is an exteresteral uh base on the

633

00:25:40,950 --> 00:25:38,880

moon and when walt suggested he was on

634

00:25:42,789 --> 00:25:40,960

the dark side he did not challenge that

635

00:25:44,470 --> 00:25:42,799

assumption

636

00:25:46,390 --> 00:25:44,480

the um

637

00:25:48,630 --> 00:25:46,400

the monarch is quite interesting because

638

00:25:50,789 --> 00:25:48,640

it said that apparently according to dr

639

00:25:54,149 --> 00:25:50,799

wolf there were seven scientists working

640

00:25:56,710 --> 00:25:54,159

on it and one of them was carl sagan

641

00:25:58,870 --> 00:25:56,720

carl saying was very quiet about it all

642

00:26:01,990 --> 00:25:58,880

incidentally all seven scientists died

643

00:26:03,190 --> 00:26:02,000

of cancer working on this um

644

00:26:05,590 --> 00:26:03,200

the um

645

00:26:07,350 --> 00:26:05,600

they it was so radiated they had to work

646

00:26:10,870 --> 00:26:07,360

underwater eventually

647

00:26:12,549 --> 00:26:10,880

uh but of course in those days

648

00:26:16,070 --> 00:26:12,559

they weren't too health and safety

649

00:26:16,950 --> 00:26:16,080

wasn't that brilliant today

650

00:26:19,110 --> 00:26:16,960

but

651
00:26:21,029 --> 00:26:19,120
carl never really mentioned too much he

652
00:26:23,590 --> 00:26:21,039
made a few um

653
00:26:25,029 --> 00:26:23,600
snippets to it but i think he was trying

654
00:26:26,549 --> 00:26:25,039
to get his

655
00:26:27,909 --> 00:26:26,559
cosmos series

656
00:26:29,909 --> 00:26:27,919
into being and

657
00:26:32,549 --> 00:26:29,919
he kept that very quiet

658
00:26:35,190 --> 00:26:32,559
the information we got was from dr walt

659
00:26:37,590 --> 00:26:35,200
so another interesting um confirmation

660
00:26:40,789 --> 00:26:37,600
anyway if you like independent

661
00:26:42,950 --> 00:26:40,799
information and this is um

662
00:26:45,269 --> 00:26:42,960
uh not the monolith but this is one of

663
00:26:46,950 --> 00:26:45,279

the radar um

664

00:26:49,750 --> 00:26:46,960

telescopic

665

00:26:50,710 --> 00:26:49,760

images from one of the uh spacecraft

666

00:26:55,830 --> 00:26:50,720

from

667

00:26:56,710 --> 00:26:55,840

90s i think we put it at one of our

668

00:27:00,390 --> 00:26:56,720

books

669

00:27:04,950 --> 00:27:02,470

probably several hundred meters up from

670

00:27:05,830 --> 00:27:04,960

what i gather but no one knows what it

671

00:27:08,310 --> 00:27:05,840

is

672

00:27:09,350 --> 00:27:08,320

no one has actually looked into it it's

673

00:27:11,750 --> 00:27:09,360

just a

674

00:27:14,310 --> 00:27:11,760

terrestrial uh image of the moon taken

675

00:27:16,630 --> 00:27:14,320

from one of the nasa spacecraft

676

00:27:17,830 --> 00:27:16,640

we did our right to the master but

677

00:27:20,870 --> 00:27:17,840

obviously

678

00:27:24,630 --> 00:27:20,880

straight answer so you never get

679

00:27:28,950 --> 00:27:27,830

so that actually brings us on uh to our

680

00:27:30,230 --> 00:27:28,960

solar

681

00:27:32,870 --> 00:27:30,240

anomalies

682

00:27:34,230 --> 00:27:32,880

uh any questions so far i'm flashing

683

00:27:36,230 --> 00:27:34,240

through this but there's a lot of

684

00:27:38,549 --> 00:27:36,240

information if you want me

685

00:27:40,950 --> 00:27:38,559

to explain anything or for me to go over

686

00:27:42,870 --> 00:27:40,960

later by all means we will but there's

687

00:27:46,149 --> 00:27:42,880

any questions you want to ask but feel

688

00:27:48,789 --> 00:27:46,159

free to shout at any time

689

00:27:51,110 --> 00:27:48,799

i'm going to do um um we're going to

690

00:27:53,110 --> 00:27:51,120

break it quite a bit

691

00:27:56,070 --> 00:27:53,120

yeah i'll start on this and we have a

692

00:27:57,909 --> 00:27:56,080

break to your brains it'll be too fried

693

00:27:59,510 --> 00:27:57,919

um i try to give you a little pictures

694

00:28:01,669 --> 00:27:59,520

on this one but

695

00:28:03,909 --> 00:28:01,679

um some of the nominees

696

00:28:06,070 --> 00:28:03,919

this is taken from uh just give me an

697

00:28:08,549 --> 00:28:06,080

example it's taken in 2000 we started

698

00:28:10,549 --> 00:28:08,559

following this i started falling in 1999

699

00:28:13,510 --> 00:28:10,559

with a group of 14 people

700

00:28:15,350 --> 00:28:13,520

um and one of the group coined afraid

701
00:28:18,389 --> 00:28:15,360
the solar cruiser

702
00:28:20,230 --> 00:28:18,399
um it's been going on this is one here

703
00:28:23,029 --> 00:28:20,240
now when is um

704
00:28:23,830 --> 00:28:23,039
when the planets transit across the

705
00:28:27,029 --> 00:28:23,840
the

706
00:28:28,470 --> 00:28:27,039
sun you can see it for about a week

707
00:28:30,230 --> 00:28:28,480
mars

708
00:28:32,310 --> 00:28:30,240
venus like they often every now and

709
00:28:33,990 --> 00:28:32,320
again you transit across

710
00:28:35,830 --> 00:28:34,000
so you can actually see it going across

711
00:28:38,070 --> 00:28:35,840
the front of the sun and you can fold up

712
00:28:40,710 --> 00:28:38,080
for seven seven or eight days these

713
00:28:42,789 --> 00:28:40,720

appear and disappear well usually

714

00:28:43,669 --> 00:28:42,799

lasting 30 minutes and dematerialize

715

00:28:46,230 --> 00:28:43,679

again

716

00:28:48,630 --> 00:28:46,240

it's not a glitch in the camera we there

717

00:28:49,590 --> 00:28:48,640

we've taken thousands of captures in

718

00:28:51,590 --> 00:28:49,600

these

719

00:28:54,389 --> 00:28:51,600

this is one of the uh see i don't know

720

00:28:55,350 --> 00:28:54,399

if you're familiar with the lasso and

721

00:29:08,710 --> 00:28:55,360

the

722

00:29:10,950 --> 00:29:08,720

this is a protective corona it's

723

00:29:13,350 --> 00:29:10,960

satellite is held here and the sun is

724

00:29:14,870 --> 00:29:13,360

behind it this one's a little bit nearer

725

00:29:17,590 --> 00:29:14,880

than uh

726

00:29:19,750 --> 00:29:17,600

the blue one you see which is c2

727

00:29:21,909 --> 00:29:19,760

um so these are just telescopes going

728

00:29:24,830 --> 00:29:21,919

around and taking photography

729

00:29:27,669 --> 00:29:24,840

these are eit ones they show

730

00:29:30,149 --> 00:29:27,679

infrared uh without but they've got

731

00:29:32,149 --> 00:29:30,159

protective lens

732

00:29:33,269 --> 00:29:32,159

and that's another one that was taken

733

00:29:35,750 --> 00:29:33,279

recently

734

00:29:37,430 --> 00:29:35,760

so you've got some idea uh what we're

735

00:29:40,789 --> 00:29:37,440

looking at

736

00:29:42,710 --> 00:29:40,799

um and this this the lasko is uh it

737

00:29:44,230 --> 00:29:42,720

means glasgow c2 this is the one i

738

00:29:46,389 --> 00:29:44,240

really like because you see a lot it's

739

00:29:48,070 --> 00:29:46,399

much near the sun it's a more exploded

740

00:29:51,190 --> 00:29:48,080

than the blue one

741

00:29:53,350 --> 00:29:51,200

it's called the large angle spectrum

742

00:29:56,149 --> 00:29:53,360

you find all these pictures

743

00:29:59,909 --> 00:29:56,159

uh there was a time this is um

744

00:30:02,389 --> 00:29:59,919

um that's good too uh c2 as we call them

745

00:30:05,190 --> 00:30:02,399

now this is the transiting planet this

746

00:30:06,870 --> 00:30:05,200

is sort of thing you see that's probably

747

00:30:09,590 --> 00:30:06,880

it might be venus

748

00:30:12,070 --> 00:30:09,600

uh it takes about seven or eight days to

749

00:30:14,310 --> 00:30:12,080

pass it goes along slowly like that so

750

00:30:16,389 --> 00:30:14,320

every day you see it the sun is behind

751
00:30:19,029 --> 00:30:16,399
here this is held

752
00:30:20,789 --> 00:30:19,039
uh an occlusion disc on the telescope to

753
00:30:24,549 --> 00:30:20,799
prevent the glare

754
00:30:26,950 --> 00:30:24,559
often when there's massive solar flares

755
00:30:30,630 --> 00:30:26,960
there's quite a lot of activity around

756
00:30:32,710 --> 00:30:30,640
there and it does get affect the camera

757
00:30:33,510 --> 00:30:32,720
but let's just give you some idea

758
00:30:35,110 --> 00:30:33,520
so

759
00:30:39,029 --> 00:30:35,120
this is the

760
00:30:40,789 --> 00:30:39,039
behind

761
00:30:42,870 --> 00:30:40,799
and that's the disc and these are all

762
00:30:45,909 --> 00:30:42,880
the streams coming out with solar

763
00:30:49,669 --> 00:30:48,389

this is one um when was that thing in

764

00:30:52,389 --> 00:30:49,679

2000

765

00:30:53,909 --> 00:30:52,399

and the the interesting thing with um

766

00:30:55,830 --> 00:30:53,919

the silhouette that's going to give you

767

00:30:56,710 --> 00:30:55,840

exactly the time

768

00:30:58,870 --> 00:30:56,720

um

769

00:31:00,710 --> 00:30:58,880

on the date so that was

770

00:31:02,870 --> 00:31:00,720

2018 evening

771

00:31:04,950 --> 00:31:02,880

19th the 1st 2000

772

00:31:06,470 --> 00:31:04,960

this one here we caught we eventually

773

00:31:09,029 --> 00:31:06,480

call them the solar cruisers and they're

774

00:31:10,950 --> 00:31:09,039

called anomalies at first but someone

775

00:31:12,630 --> 00:31:10,960

designated that because and they are

776

00:31:14,870 --> 00:31:12,640

large i mean they're huge

777

00:31:16,230 --> 00:31:14,880

some of them are half planet size

778

00:31:18,470 --> 00:31:16,240

um they just

779

00:31:21,430 --> 00:31:18,480

materialize and dematerialize

780

00:31:23,190 --> 00:31:21,440

but there's always some reaction with

781

00:31:25,590 --> 00:31:23,200

the sun at the time

782

00:31:27,590 --> 00:31:25,600

either it comes during the reaction or

783

00:31:29,590 --> 00:31:27,600

it causes the reaction

784

00:31:30,950 --> 00:31:29,600

and we can never tell that and often

785

00:31:33,430 --> 00:31:30,960

there's two or three appear at the same

786

00:31:36,630 --> 00:31:33,440

time what's the direction of those

787

00:31:38,149 --> 00:31:36,640

exposures sorry what sort of duration

788

00:31:41,350 --> 00:31:38,159

they come in

789

00:31:43,909 --> 00:31:41,360

about 25-30 minutes no of the exposure i

790

00:31:47,190 --> 00:31:43,919

mean getting photographed oh i i know

791

00:31:48,710 --> 00:31:47,200

quite these are the real-time images all

792

00:31:50,310 --> 00:31:48,720

these things all the times like a split

793

00:31:52,710 --> 00:31:50,320

second was it

794

00:31:54,149 --> 00:31:52,720

um the exposure i mean probably every

795

00:31:55,830 --> 00:31:54,159

three minutes

796

00:32:09,990 --> 00:31:55,840

something like that

797

00:32:14,710 --> 00:32:11,990

and i think it's

798

00:32:16,070 --> 00:32:14,720

from what i understand some of the new

799

00:32:18,950 --> 00:32:16,080

newer um

800

00:32:21,669 --> 00:32:18,960

spectrograms they they it's more than a

801
00:32:23,509 --> 00:32:21,679
split second it's going for many seconds

802
00:32:25,990 --> 00:32:23,519
and there are actually videos

803
00:32:27,830 --> 00:32:26,000
continuous videos available

804
00:32:29,029 --> 00:32:27,840
but i think those were just the camera

805
00:32:30,789 --> 00:32:29,039
just shoots up all the time

806
00:32:33,029 --> 00:32:30,799
automatically

807
00:32:35,190 --> 00:32:33,039
but in the one other ones i'll show you

808
00:32:36,549 --> 00:32:35,200
these these are much longer this is just

809
00:32:38,310 --> 00:32:36,559
an example

810
00:32:41,830 --> 00:32:38,320
um let's see if i got another one

811
00:32:44,310 --> 00:32:41,840
there's a close-up in 2002 from the eit

812
00:32:46,389 --> 00:32:44,320
one this in 2001 they brought these uh

813
00:32:49,350 --> 00:32:46,399

infrared pictures in

814

00:32:50,950 --> 00:32:49,360

um it's not unusual right there and this

815

00:32:53,430 --> 00:32:50,960

is the sort of um

816

00:32:54,710 --> 00:32:53,440

shape it is but they are large this is

817

00:32:57,509 --> 00:32:54,720

the sun

818

00:32:59,509 --> 00:32:57,519

um they probably i would say about a

819

00:33:00,549 --> 00:32:59,519

million miles too many miles from the

820

00:33:01,669 --> 00:33:00,559

sun

821

00:33:04,389 --> 00:33:01,679

um

822

00:33:06,310 --> 00:33:04,399

someone suggested it could be uh when

823

00:33:07,350 --> 00:33:06,320

the team suggested it could be a sort of

824

00:33:10,149 --> 00:33:07,360

um

825

00:33:11,430 --> 00:33:10,159

vibratory appearance and then vibrate

826

00:33:13,430 --> 00:33:11,440

down they don't

827

00:33:15,909 --> 00:33:13,440

the heat won't affect it others

828

00:33:17,350 --> 00:33:15,919

suggested it isn't that hot at all

829

00:33:19,830 --> 00:33:17,360

so you know

830

00:33:21,509 --> 00:33:19,840

who knows and this these are closer up

831

00:33:24,149 --> 00:33:21,519

shops that's why they call them solar

832

00:33:25,990 --> 00:33:24,159

cruisers because they're cruising

833

00:33:27,590 --> 00:33:26,000

i've got some better ones than that but

834

00:33:28,789 --> 00:33:27,600

we've got literally thousands and

835

00:33:31,669 --> 00:33:28,799

thousands

836

00:33:33,029 --> 00:33:31,679

um of these photographs these are all

837

00:33:35,190 --> 00:33:33,039

captured by

838

00:33:37,509 --> 00:33:35,200

or various people in the group over the

839

00:33:39,350 --> 00:33:37,519

years

840

00:33:42,950 --> 00:33:39,360

and there's another one there

841

00:33:44,789 --> 00:33:42,960

just on the outskirts of the seat too

842

00:33:45,750 --> 00:33:44,799

um

843

00:33:47,509 --> 00:33:45,760

often

844

00:33:49,909 --> 00:33:47,519

when these appear

845

00:33:51,430 --> 00:33:49,919

this happens or they appear while it's

846

00:33:52,710 --> 00:33:51,440

happening

847

00:33:55,909 --> 00:33:52,720

large

848

00:33:58,549 --> 00:33:55,919

cmes coronal mass ejections

849

00:34:01,830 --> 00:33:58,559

and one theory was either

850

00:34:03,990 --> 00:34:01,840

there when it appears and they reappear

851
00:34:06,389 --> 00:34:04,000
they're using the energy

852
00:34:08,149 --> 00:34:06,399
for somehow to reboot up

853
00:34:10,869 --> 00:34:08,159
or they're causing it

854
00:34:12,790 --> 00:34:10,879
to to have the energies

855
00:34:14,950 --> 00:34:12,800
um we'll look at some more interesting

856
00:34:16,950 --> 00:34:14,960
pictures uh soon and this was another

857
00:34:19,510 --> 00:34:16,960
one that was take that one you're going

858
00:34:20,470 --> 00:34:19,520
to see now was taken around about here

859
00:34:22,389 --> 00:34:20,480
um

860
00:34:25,430 --> 00:34:22,399
very unusual it's a triangular shaped

861
00:34:27,190 --> 00:34:25,440
craft with all these little

862
00:34:30,629 --> 00:34:27,200
stairs around it

863
00:34:32,550 --> 00:34:30,639

we never did find out what that was

864

00:34:41,109 --> 00:34:32,560

sorry

865

00:34:45,109 --> 00:34:43,909

um and often you find that nasa when

866

00:34:47,030 --> 00:34:45,119

there's something really interesting

867

00:34:51,109 --> 00:34:47,040

they either shut it all down

868

00:34:53,750 --> 00:34:51,119

or they start putting in these little um

869

00:34:55,349 --> 00:34:53,760

squares to cover all the action up uh

870

00:34:57,829 --> 00:34:55,359

very unusual

871

00:34:59,670 --> 00:34:57,839

um formation there

872

00:35:02,550 --> 00:34:59,680

uh because when you when we used to

873

00:35:05,589 --> 00:35:02,560

write to them we gave up why just uh

874

00:35:07,910 --> 00:35:05,599

camera glitches um you know

875

00:35:09,030 --> 00:35:07,920

something in the digital image

876

00:35:11,109 --> 00:35:09,040

but

877

00:35:13,349 --> 00:35:11,119

it's really unusual

878

00:35:16,069 --> 00:35:13,359

and this is um i'll finish on this one

879

00:35:17,829 --> 00:35:16,079

another break but this is uh what

880

00:35:19,910 --> 00:35:17,839

happened we called it the stargate

881

00:35:21,270 --> 00:35:19,920

effect in 1999

882

00:35:23,990 --> 00:35:21,280

disappeared

883

00:35:26,069 --> 00:35:24,000

for about several hours

884

00:35:27,030 --> 00:35:26,079

until nasa got to know it and shut it

885

00:35:29,030 --> 00:35:27,040

down

886

00:35:30,870 --> 00:35:29,040

you can see all the in here

887

00:35:34,230 --> 00:35:30,880

we don't know what it was but this is a

888

00:35:39,829 --> 00:35:35,109

huge

889

00:35:42,150 --> 00:35:39,839

um

890

00:35:44,550 --> 00:35:42,160

whether it was some kind of wormhole

891

00:35:47,109 --> 00:35:44,560

whether it's some kind of energy drift

892

00:35:50,069 --> 00:35:47,119

um no one really knows but it for about

893

00:35:52,790 --> 00:35:50,079

six months it was the talk of uh

894

00:35:55,270 --> 00:35:52,800

many radio shows and it was actually um

895

00:35:56,829 --> 00:35:55,280

uh the lady who captured this image for

896

00:36:00,550 --> 00:35:56,839

us has died now

897

00:36:02,790 --> 00:36:00,560

but yeah rusty used to call it or she uh

898

00:36:05,030 --> 00:36:02,800

rutherford she had uh

899

00:36:07,510 --> 00:36:05,040

paralyzed that she couldn't get out of

900

00:36:08,390 --> 00:36:07,520

the house much so she spent all energies

901
00:36:11,030 --> 00:36:08,400
just

902
00:36:13,510 --> 00:36:11,040
looking 24 hours basically all these

903
00:36:15,430 --> 00:36:13,520
once you got to know them she spent five

904
00:36:18,790 --> 00:36:15,440
years copying all these images and

905
00:36:20,790 --> 00:36:18,800
following all the work so

906
00:36:22,950 --> 00:36:20,800
she used to find captioning and finally

907
00:36:26,069 --> 00:36:22,960
before that's about how so we were lucky

908
00:36:29,349 --> 00:36:26,079
to get these shots otherwise in this one

909
00:36:30,870 --> 00:36:29,359
that was the famous uh stargate 99.

910
00:36:32,150 --> 00:36:30,880
anyway i'll i'll leave it there but

911
00:36:34,069 --> 00:36:32,160
because uh

912
00:36:36,710 --> 00:36:34,079
we'll touch up too much information

913
00:37:05,510 --> 00:36:36,720

we'll finish that off after a break and

914

00:37:08,950 --> 00:37:07,030

but um

915

00:37:11,030 --> 00:37:08,960

it was either a

916

00:37:12,870 --> 00:37:11,040

the sun it was a theory the sun isn't

917

00:37:14,630 --> 00:37:12,880

that hot when you get right up close to

918

00:37:15,510 --> 00:37:14,640

it it's only a certain areas

919

00:37:18,310 --> 00:37:15,520

b

920

00:37:20,470 --> 00:37:18,320

um that the craft some have some kind of

921

00:37:22,550 --> 00:37:20,480

heat shield or c it's an

922

00:37:24,069 --> 00:37:22,560

interdimensional approach

923

00:37:25,670 --> 00:37:24,079

where they can

924

00:37:27,829 --> 00:37:25,680

they can be seen but actually they're

925

00:37:31,349 --> 00:37:27,839

not there you know and i'll show you a

926
00:37:33,190 --> 00:37:31,359
picture i took uh in uplands

927
00:37:34,790 --> 00:37:33,200
how that effect can be

928
00:37:35,589 --> 00:37:34,800
so it's quite simple

929
00:38:03,109 --> 00:37:35,599
uh

930
00:38:07,270 --> 00:38:04,950
would you suggest that

931
00:38:09,589 --> 00:38:07,280
the moon is entirely artificial or would

932
00:38:12,150 --> 00:38:09,599
you suggest that um

933
00:38:14,630 --> 00:38:12,160
that it's a hollowed-out planet

934
00:38:41,990 --> 00:38:14,640
a lot of people say it's possible it's a

935
00:38:47,750 --> 00:38:44,390
apparently when

936
00:38:50,390 --> 00:38:47,760
the nasa astronauts uh landed on on the

937
00:38:52,390 --> 00:38:50,400
moon i'm not sure which mission it was

938
00:38:54,390 --> 00:38:52,400

when they landed down they reckoned that

939

00:38:56,790 --> 00:38:54,400

the moon rung like a bell yeah right

940

00:39:10,630 --> 00:38:56,800

that's right that's right yeah so it's

941

00:39:22,150 --> 00:39:12,630

you know but i think they landed at some

942

00:39:25,910 --> 00:39:24,069

or whether it was actually forcing

943

00:39:29,109 --> 00:39:25,920

something that's some we're not too sure

944

00:39:29,990 --> 00:39:29,119

but uh we know that it causes this sort

945

00:39:31,510 --> 00:39:30,000

of thing

946

00:39:34,310 --> 00:39:31,520

after

947

00:39:36,950 --> 00:39:34,320

this is one another one from c2 i can

948

00:39:38,230 --> 00:39:36,960

see the the disc and the hole there

949

00:39:41,990 --> 00:39:38,240

um

950

00:39:44,950 --> 00:39:42,000

this is just a transiting planet

951
00:39:46,470 --> 00:39:44,960
the next one is eit

952
00:39:48,790 --> 00:39:46,480
um the

953
00:39:50,950 --> 00:39:48,800
infrared infrared ones

954
00:39:53,670 --> 00:39:50,960
these sort of things appear

955
00:39:54,790 --> 00:39:53,680
now these trails i mentioned i got one

956
00:39:56,710 --> 00:39:54,800
longer

957
00:39:58,790 --> 00:39:56,720
some of them are

958
00:40:01,030 --> 00:39:58,800
thousands of miles long

959
00:40:02,790 --> 00:40:01,040
i don't think it's the camera some are

960
00:40:04,790 --> 00:40:02,800
there some are not

961
00:40:08,069 --> 00:40:04,800
when there's activity on the sun these

962
00:40:08,829 --> 00:40:08,079
trails are elongated there's some kind

963
00:40:10,710 --> 00:40:08,839

of

964

00:40:12,550 --> 00:40:10,720

energy it's difficult from this

965

00:40:14,710 --> 00:40:12,560

photograph but i think this is actually

966

00:40:16,310 --> 00:40:14,720

going into the sun this trail from what

967

00:40:17,750 --> 00:40:16,320

i've seen

968

00:40:19,589 --> 00:40:17,760

there's another one there i think i've

969

00:40:20,710 --> 00:40:19,599

got a closer one this is a close up of

970

00:40:24,950 --> 00:40:20,720

that

971

00:40:27,430 --> 00:40:24,960

one but as soon as activity starts

972

00:40:28,470 --> 00:40:27,440

or any flares come up they throw out

973

00:40:29,990 --> 00:40:28,480

this

974

00:40:31,829 --> 00:40:30,000

there's one here

975

00:40:34,470 --> 00:40:31,839

that's now this one interesting this

976

00:40:39,030 --> 00:40:34,480

one's in an opposite direction

977

00:40:40,870 --> 00:40:39,040

but if you analyze that if i look it's

978

00:40:43,030 --> 00:40:40,880

similar to this

979

00:40:44,710 --> 00:40:43,040

on a smaller scale

980

00:40:46,790 --> 00:40:44,720

if you take some of the i haven't got

981

00:40:47,910 --> 00:40:46,800

some of the beginners rusty had quite a

982

00:40:50,150 --> 00:40:47,920

few

983

00:40:52,150 --> 00:40:50,160

she did this one there's something else

984

00:40:54,390 --> 00:40:52,160

another one this is a close-up of that

985

00:40:56,390 --> 00:40:54,400

on this one here on another frame

986

00:40:58,069 --> 00:40:56,400

coming in here

987

00:41:02,390 --> 00:40:58,079

and something at the end of it some

988

00:41:04,150 --> 00:41:02,400

sphere this is a very high residual sir

989

00:41:06,550 --> 00:41:04,160

bearing in mind just you know tens of

990

00:41:09,109 --> 00:41:06,560

thousands of miles possible what causes

991

00:41:10,069 --> 00:41:09,119

that horizontal line across the object

992

00:41:13,030 --> 00:41:10,079

is there you know what's that was gonna

993

00:41:14,630 --> 00:41:13,040

plant a transit of the planet as well i

994

00:41:16,470 --> 00:41:14,640

mean hit this

995

00:41:18,710 --> 00:41:16,480

yes

996

00:41:20,630 --> 00:41:18,720

if you look i simply got it i think

997

00:41:22,309 --> 00:41:20,640

that's the actual shape of it

998

00:41:23,190 --> 00:41:22,319

that is the shape because it shows up

999

00:41:25,270 --> 00:41:23,200

like that

1000

00:41:26,710 --> 00:41:25,280

it was a transit yes it does show

1001
00:41:27,750 --> 00:41:26,720
doesn't it

1002
00:41:29,750 --> 00:41:27,760
as well

1003
00:41:32,790 --> 00:41:29,760
nasa said it's a collection in the

1004
00:41:46,950 --> 00:41:32,800
digitals but not that size

1005
00:41:50,550 --> 00:41:48,790
you mentioned there's another one here

1006
00:41:52,550 --> 00:41:50,560
up and down

1007
00:41:54,230 --> 00:41:52,560
causing this to happen every time

1008
00:41:56,790 --> 00:41:54,240
something appears like this

1009
00:41:59,670 --> 00:41:56,800
something uh as a reaction and some

1010
00:42:01,510 --> 00:41:59,680
it's very much like um a comet coming

1011
00:42:04,069 --> 00:42:01,520
into this in the sun once coming because

1012
00:42:07,030 --> 00:42:04,079
they had this major reaction

1013
00:42:08,630 --> 00:42:07,040

i'm looking for some close-ups again

1014

00:42:10,069 --> 00:42:08,640

i'm looking for a close-up of this

1015

00:42:13,109 --> 00:42:10,079

because you've sort of seen all about

1016

00:42:15,670 --> 00:42:13,119

these uh i can understand if he was like

1017

00:42:18,069 --> 00:42:15,680

occasionally a digital glitch on either

1018

00:42:18,950 --> 00:42:18,079

side but these seem quite

1019

00:42:20,550 --> 00:42:18,960

uh

1020

00:42:22,630 --> 00:42:20,560

quite um

1021

00:42:24,790 --> 00:42:22,640

i haven't got the image there's a very

1022

00:42:27,670 --> 00:42:24,800

good close-up it looks like something on

1023

00:42:28,950 --> 00:42:27,680

the star track you know the um

1024

00:42:30,870 --> 00:42:28,960

where is it here

1025

00:42:31,829 --> 00:42:30,880

it's like there's something more defined

1026

00:42:35,109 --> 00:42:31,839

shape

1027

00:42:38,790 --> 00:42:35,119

um maybe next time i'll if i come again

1028

00:42:41,670 --> 00:42:38,800

i'll i'll add that one

1029

00:42:44,790 --> 00:42:41,680

so anyway basically um

1030

00:42:47,150 --> 00:42:44,800

what we come to conclusion is either a

1031

00:42:49,510 --> 00:42:47,160

these craft were reappearing and

1032

00:42:52,390 --> 00:42:49,520

demonetizing using the energy from the

1033

00:42:54,950 --> 00:42:52,400

sun for some reason or causing the

1034

00:42:59,030 --> 00:42:54,960

disturbance of solar flares either for

1035

00:43:01,510 --> 00:42:59,040

their own use or for some unknown use um

1036

00:43:03,750 --> 00:43:01,520

which we're not aware of but without

1037

00:43:05,910 --> 00:43:03,760

fail all the ones thousands of these

1038

00:43:09,109 --> 00:43:05,920

images captured this always happens

1039

00:43:11,030 --> 00:43:09,119

prior to or after the visit

1040

00:43:13,670 --> 00:43:11,040

so it's something to think about and

1041

00:43:16,950 --> 00:43:13,680

maybe something you can go back and look

1042

00:43:19,829 --> 00:43:16,960

at the soho um satellite

1043

00:43:21,589 --> 00:43:19,839

telescopes and other regular you can get

1044

00:43:23,990 --> 00:43:21,599

apps now and get the app i got i used to

1045

00:43:25,829 --> 00:43:24,000

have it on my iphone uh it just you can

1046

00:43:27,030 --> 00:43:25,839

watch it all the time on your on your

1047

00:43:28,790 --> 00:43:27,040

iphone

1048

00:43:31,030 --> 00:43:28,800

what's the time period between the

1049

00:43:32,309 --> 00:43:31,040

photograph being taken actually on the

1050

00:43:34,710 --> 00:43:32,319

internet

1051
00:43:36,230 --> 00:43:34,720
it's live

1052
00:43:37,910 --> 00:43:36,240
and that's the problem

1053
00:43:39,430 --> 00:43:37,920
because

1054
00:43:41,430 --> 00:43:39,440
now if you're not watching it

1055
00:43:43,030 --> 00:43:41,440
continuously or group of you you'll miss

1056
00:43:45,430 --> 00:43:43,040
something and that's why rusty and all

1057
00:43:47,750 --> 00:43:45,440
the others were able to capture these

1058
00:43:48,550 --> 00:43:47,760
ideas because nasa would either take it

1059
00:43:51,510 --> 00:43:48,560
down

1060
00:43:53,910 --> 00:43:51,520
or give or put in these uh i think i'll

1061
00:43:56,150 --> 00:43:53,920
show you where

1062
00:43:58,710 --> 00:43:56,160
they put in these things here and say

1063
00:44:01,030 --> 00:43:58,720

it's a glitch on the telescope and often

1064

00:44:02,710 --> 00:44:01,040

you see these out here you know all

1065

00:44:04,309 --> 00:44:02,720

around here

1066

00:44:06,790 --> 00:44:04,319

they missed that one

1067

00:44:08,309 --> 00:44:06,800

but i really don't know what that was

1068

00:44:10,309 --> 00:44:08,319

there's something there and it got

1069

00:44:12,069 --> 00:44:10,319

caught in the in the flare because he's

1070

00:44:13,349 --> 00:44:12,079

starting to go around here

1071

00:44:14,710 --> 00:44:13,359

you know he's obviously some kind of

1072

00:44:15,990 --> 00:44:14,720

soldier

1073

00:44:17,349 --> 00:44:16,000

otherwise that was shooting i've seen

1074

00:44:18,950 --> 00:44:17,359

the one on here today it's like it's

1075

00:44:21,190 --> 00:44:18,960

like a big black

1076

00:44:23,190 --> 00:44:21,200

desk circle yeah and it seems to be

1077

00:44:25,510 --> 00:44:23,200

sucking the whole part of the scent off

1078

00:44:31,910 --> 00:44:25,520

and it is like elastic snap and it

1079

00:44:35,510 --> 00:44:33,589

whatever is this massive because it's

1080

00:44:38,309 --> 00:44:35,520

right next to the center stage

1081

00:44:40,069 --> 00:44:38,319

well there's there's a lot uh two big

1082

00:44:41,270 --> 00:44:40,079

groups now farming i am in touch with

1083

00:44:43,190 --> 00:44:41,280

them because they use a lot of our

1084

00:44:45,270 --> 00:44:43,200

original material they started two years

1085

00:44:46,550 --> 00:44:45,280

ago and um i'll try and get the links

1086

00:44:48,470 --> 00:44:46,560

i'll pass them to you and see because

1087

00:44:52,950 --> 00:44:48,480

they follow it all the time

1088

00:44:58,870 --> 00:44:55,990

yeah okay bear in mind this is quite

1089

00:45:00,069 --> 00:44:58,880

we had quite sort of uh old equipment in

1090

00:45:02,230 --> 00:45:00,079

those days

1091

00:45:04,630 --> 00:45:02,240

but now because things have advanced

1092

00:45:06,630 --> 00:45:04,640

quite quite a bit

1093

00:45:08,470 --> 00:45:06,640

and of course the other thing with this

1094

00:45:11,190 --> 00:45:08,480

is

1095

00:45:14,390 --> 00:45:11,200

we all know the new labour leader uh

1096

00:45:17,109 --> 00:45:14,400

corbin his brother pierce corbin is um a

1097

00:45:19,109 --> 00:45:17,119

big follower of the solo anomalies

1098

00:45:21,270 --> 00:45:19,119

and in fact i love this because i'm in

1099

00:45:24,470 --> 00:45:21,280

touch with him on facebook uh because he

1100

00:45:26,630 --> 00:45:24,480

saw our work some time ago he's a

1101

00:45:29,589 --> 00:45:26,640

an astrophysicist peter's golden you

1102

00:45:32,230 --> 00:45:29,599

look him up on uh he runs a paid weather

1103

00:45:34,150 --> 00:45:32,240

site and i think what he's doing now

1104

00:45:35,829 --> 00:45:34,160

he's putting up like 50 hits a day now

1105

00:45:38,710 --> 00:45:35,839

with his face i think since his

1106

00:45:41,430 --> 00:45:38,720

brother's got in he's trying to

1107

00:45:43,990 --> 00:45:41,440

uh put in a bit to buy the

1108

00:45:45,990 --> 00:45:44,000

to contract with the bbc weather because

1109

00:45:47,829 --> 00:45:46,000

obviously not going to do anymore so i

1110

00:45:49,510 --> 00:45:47,839

think he's putting in a bid for it

1111

00:45:53,190 --> 00:45:49,520

um and i think he's hoping his brother's

1112

00:45:55,910 --> 00:45:53,200

going to pull uh the strings but he's he

1113

00:45:58,470 --> 00:45:55,920

his theory is that all the well unusual

1114

00:45:59,430 --> 00:45:58,480

weather we're having is all connected to

1115

00:46:01,670 --> 00:45:59,440

the sun

1116

00:46:04,230 --> 00:46:01,680

and anything that always you're probably

1117

00:46:06,950 --> 00:46:04,240

aware or you may not be aware that every

1118

00:46:08,790 --> 00:46:06,960

time there's these large um

1119

00:46:11,030 --> 00:46:08,800

i've got another one

1120

00:46:15,190 --> 00:46:11,040

every time these large coral mass

1121

00:46:16,710 --> 00:46:15,200

ejections cme has occurred within 48 72

1122

00:46:19,349 --> 00:46:16,720

hours it affects the earth

1123

00:46:20,790 --> 00:46:19,359

geomagnetically if it's earth directed

1124

00:46:21,910 --> 00:46:20,800

most of them are and that's why you see

1125

00:46:24,710 --> 00:46:21,920

a lot of the

1126

00:46:28,069 --> 00:46:24,720

aurora lights going on and quite some

1127

00:46:29,109 --> 00:46:28,079

were down as far south recently but not

1128

00:46:30,790 --> 00:46:29,119

only that

1129

00:46:33,829 --> 00:46:30,800

when this happens and it's earth the

1130

00:46:34,950 --> 00:46:33,839

record it was directed 99.9 i can tell

1131

00:46:37,589 --> 00:46:34,960

you it's going to be a big earthquake

1132

00:46:39,589 --> 00:46:37,599

somewhere on the planet because without

1133

00:46:42,870 --> 00:46:39,599

fail every time there's a large earth

1134

00:46:45,430 --> 00:46:42,880

directed cme within 72 hours or prior to

1135

00:46:48,390 --> 00:46:45,440

because it causes a geomagnetic effect

1136

00:46:50,550 --> 00:46:48,400

on the planet and our geomagnetic

1137

00:46:52,950 --> 00:46:50,560

protection is wearing down quite a lot

1138

00:46:55,589 --> 00:46:52,960

there's always large sections of

1139

00:46:56,710 --> 00:46:55,599

earthquake that one in uh recently last

1140

00:46:59,270 --> 00:46:56,720

week uh

1141

00:47:01,349 --> 00:46:59,280

there was a lot cmd just before that so

1142

00:47:03,349 --> 00:47:01,359

you keep an eye out if you see a cme and

1143

00:47:06,150 --> 00:47:03,359

it's earth directed you go on to

1144

00:47:08,630 --> 00:47:06,160

space.com uh it'll show you when if it's

1145

00:47:10,550 --> 00:47:08,640

earth directed then in two days you

1146

00:47:12,790 --> 00:47:10,560

watch out for earthquakes

1147

00:47:15,670 --> 00:47:12,800

i think i saw a problem it said there is

1148

00:47:18,790 --> 00:47:15,680

a hole in the magnetosphere yeah

1149

00:47:21,349 --> 00:47:18,800

it's wearing down a magnetic

1150

00:47:23,190 --> 00:47:21,359

covering they've been wearing down for

1151
00:47:25,109 --> 00:47:23,200
hundreds of years i think it's got worse

1152
00:47:27,109 --> 00:47:25,119
than last 20-30 years

1153
00:47:28,950 --> 00:47:27,119
so it's like um

1154
00:47:32,390 --> 00:47:28,960
i haven't got a picture but you can go

1155
00:47:34,150 --> 00:47:32,400
online and watch it uh it shows you the

1156
00:47:36,230 --> 00:47:34,160
sort of the effect of the cme as it

1157
00:47:37,589 --> 00:47:36,240
comes towards earth it's actually if you

1158
00:47:38,950 --> 00:47:37,599
look at it it's quite frightening it's

1159
00:47:42,470 --> 00:47:38,960
like it's going to burn up the earth and

1160
00:47:44,950 --> 00:47:42,480
he goes around like that but so far

1161
00:47:47,430 --> 00:47:44,960
we've got our geomagnetic protection in

1162
00:47:48,870 --> 00:47:47,440
place but that's going so thin now that

1163
00:47:51,270 --> 00:47:48,880

we're getting all these that's when we

1164

00:47:53,030 --> 00:47:51,280

get a lot of earthquakes and i noticed

1165

00:47:55,109 --> 00:47:53,040

the last six months we've had loads of

1166

00:47:59,030 --> 00:47:55,119

earthquakes quite big ones too can i

1167

00:48:02,230 --> 00:48:00,630

yes

1168

00:48:03,670 --> 00:48:02,240

where they're supposed to manipulate

1169

00:48:06,470 --> 00:48:03,680

yours

1170

00:48:09,190 --> 00:48:06,480

okay yeah yeah so maybe you've got the

1171

00:48:10,870 --> 00:48:09,200

both going on at the same time yes the

1172

00:48:14,150 --> 00:48:10,880

thing with heart it could be

1173

00:48:15,910 --> 00:48:14,160

directed they can direct weather

1174

00:48:18,550 --> 00:48:15,920

and

1175

00:48:20,790 --> 00:48:18,560

there's a guy called harry rhodes

1176

00:48:22,069 --> 00:48:20,800

on you the game on facebook he's on

1177

00:48:25,750 --> 00:48:22,079

about the

1178

00:48:28,150 --> 00:48:25,760

chem training and the heart yeah

1179

00:48:30,390 --> 00:48:28,160

we looked into that 15 years ago it's

1180

00:48:32,470 --> 00:48:30,400

half was well involved in that because

1181

00:48:34,710 --> 00:48:32,480

the chemtrails were

1182

00:48:38,390 --> 00:48:34,720

covered with uh aluminium

1183

00:48:41,030 --> 00:48:38,400

and uh it uh with the harp you get a

1184

00:48:43,109 --> 00:48:41,040

reflective and magnetic effect

1185

00:48:44,470 --> 00:48:43,119

um and then we had all those strands

1186

00:48:45,829 --> 00:48:44,480

appear you know what i did find out

1187

00:48:47,109 --> 00:48:45,839

about that

1188

00:48:48,549 --> 00:48:47,119

but the chemicals they've done he's

1189

00:48:51,910 --> 00:48:48,559

noticed over the last few weeks there's

1190

00:48:53,190 --> 00:48:51,920

been very few chemtrails yeah know that

1191

00:48:56,150 --> 00:48:53,200

there's been loads of trailers but they

1192

00:48:59,829 --> 00:48:57,430

yeah but yeah

1193

00:49:14,950 --> 00:48:59,839

last through the summer they've been

1194

00:49:19,829 --> 00:49:17,030

of one where you could show eight years

1195

00:49:22,069 --> 00:49:19,839

ago i photographed under the big lens

1196

00:49:23,910 --> 00:49:22,079

you could actually see the trail of

1197

00:49:25,670 --> 00:49:23,920

counter coming up a lot of the engine

1198

00:49:28,870 --> 00:49:25,680

there's a tank underneath

1199

00:49:30,630 --> 00:49:28,880

uh now apparently there's a big talk of

1200

00:49:33,589 --> 00:49:30,640

uh airlines

1201
00:49:35,990 --> 00:49:33,599
actually training in passenger jets

1202
00:49:41,670 --> 00:49:36,000
uh and i think uh

1203
00:49:46,309 --> 00:49:43,589
they've been they've been

1204
00:49:48,549 --> 00:49:46,319
harry rosen wants to get answers from

1205
00:49:50,309 --> 00:49:48,559
whether he said the ce knows about it or

1206
00:49:52,470 --> 00:49:50,319
has been put in the fuel

1207
00:49:54,390 --> 00:49:52,480
and they should they should find out but

1208
00:49:56,069 --> 00:49:54,400
it's causing a lot of not just weather

1209
00:50:00,390 --> 00:49:56,079
alterations and of course the russians

1210
00:50:01,670 --> 00:50:00,400
do this in the 50s but illnesses

1211
00:50:04,230 --> 00:50:01,680
and

1212
00:50:05,670 --> 00:50:04,240
there's some bizarre answers to what why

1213
00:50:09,190 --> 00:50:05,680

that's happening

1214

00:50:13,349 --> 00:50:10,549

okay

1215

00:50:16,950 --> 00:50:13,359

i'm going to talk now the last section

1216

00:50:19,349 --> 00:50:16,960

be pleased to know about uh don't get on

1217

00:50:22,710 --> 00:50:19,359

the fermi paradox as well about my

1218

00:50:25,349 --> 00:50:22,720

sighting in 1965 and when we look when i

1219

00:50:27,910 --> 00:50:25,359

showed you those solar anomalies it

1220

00:50:31,109 --> 00:50:27,920

might tie up what this might be

1221

00:50:33,750 --> 00:50:31,119

because in november 1965 this is how the

1222

00:50:35,349 --> 00:50:33,760

the um hospital looks today

1223

00:50:38,069 --> 00:50:35,359

um

1224

00:50:40,230 --> 00:50:38,079

the normally i call it a normal

1225

00:50:43,030 --> 00:50:40,240

encounter it was about 200 foot above it

1226

00:50:46,069 --> 00:50:43,040

and it was larger than the hospital

1227

00:50:48,230 --> 00:50:46,079

and when it when uh the first i'll just

1228

00:50:50,710 --> 00:50:48,240

go on a slide for a second

1229

00:50:52,790 --> 00:50:50,720

um let me i'll come back to this

1230

00:50:54,950 --> 00:50:52,800

i just want to show you something this

1231

00:50:58,150 --> 00:50:54,960

is in this is the sports

1232

00:51:00,470 --> 00:50:58,160

uh university sports center in 1965

1233

00:51:03,829 --> 00:51:00,480

i actually lived there for ten years my

1234

00:51:06,549 --> 00:51:03,839

father was the playing fields um manager

1235

00:51:08,950 --> 00:51:06,559

for playing fields at university and all

1236

00:51:10,470 --> 00:51:08,960

upsets about our apartment along the

1237

00:51:12,630 --> 00:51:10,480

side there

1238

00:51:15,829 --> 00:51:12,640

is my room and i actually looked out the

1239

00:51:17,670 --> 00:51:15,839

window i can see it across there

1240

00:51:20,309 --> 00:51:17,680

so what happened was

1241

00:51:22,309 --> 00:51:20,319

um the first thing i noticed

1242

00:51:24,230 --> 00:51:22,319

is a feeling i look out the window and i

1243

00:51:27,910 --> 00:51:24,240

saw this huge black

1244

00:51:30,309 --> 00:51:27,920

cigar fat cigar shake over this hospital

1245

00:51:31,910 --> 00:51:30,319

but the other thing i noticed all the

1246

00:51:34,309 --> 00:51:31,920

lights were flashing on and off

1247

00:51:37,190 --> 00:51:34,319

consistently and apparently that was in

1248

00:51:38,870 --> 00:51:37,200

the paper a couple of days later about

1249

00:51:39,750 --> 00:51:38,880

an incident in the singleton hospital

1250

00:51:41,589 --> 00:51:39,760

where

1251
00:51:43,670 --> 00:51:41,599
lights were going on and off and no one

1252
00:51:44,790 --> 00:51:43,680
found out we couldn't understand what

1253
00:51:45,670 --> 00:51:44,800
was happening

1254
00:51:48,870 --> 00:51:45,680
and the

1255
00:51:51,349 --> 00:51:48,880
the craft i saw was so

1256
00:51:53,589 --> 00:51:51,359
the same size if not bigger 100 foot

1257
00:51:55,510 --> 00:51:53,599
above it if you were in the hospital

1258
00:51:57,510 --> 00:51:55,520
ground you wouldn't see it because the

1259
00:51:59,030 --> 00:51:57,520
the building would uh be in the way but

1260
00:52:01,670 --> 00:51:59,040
i was at an angle

1261
00:52:02,790 --> 00:52:01,680
200 yards 150 yards so i could see it

1262
00:52:06,150 --> 00:52:02,800
all

1263
00:52:07,589 --> 00:52:06,160

so that it reminded me this was 1972 was

1264

00:52:09,829 --> 00:52:07,599

those encounters third time this

1265

00:52:11,990 --> 00:52:09,839

happened in 65 but looking back and it

1266

00:52:14,470 --> 00:52:12,000

sort of reminded me of that with all the

1267

00:52:17,190 --> 00:52:14,480

lights flashing on and off in unison

1268

00:52:18,470 --> 00:52:17,200

looking back now with hindsight probably

1269

00:52:20,630 --> 00:52:18,480

charging up

1270

00:52:21,829 --> 00:52:20,640

uh whatever the technology was doing

1271

00:52:25,510 --> 00:52:21,839

this

1272

00:52:27,510 --> 00:52:25,520

shown me the size of it it looked

1273

00:52:29,589 --> 00:52:27,520

exactly like that it was just black a

1274

00:52:31,990 --> 00:52:29,599

black void a

1275

00:52:33,349 --> 00:52:32,000

metal object or whatever it was hanging

1276
00:52:38,710 --> 00:52:33,359
over the um

1277
00:52:42,470 --> 00:52:41,670
and this is the view i had from here it

1278
00:52:44,309 --> 00:52:42,480
was

1279
00:52:46,710 --> 00:52:44,319
quite big

1280
00:52:48,390 --> 00:52:46,720
and i didn't see it i watched it i went

1281
00:52:50,069 --> 00:52:48,400
downstairs and i saw it in the window

1282
00:52:51,990 --> 00:52:50,079
and i went downstairs

1283
00:52:53,589 --> 00:52:52,000
to see actually if it was still there

1284
00:52:55,829 --> 00:52:53,599
because i thought it might be something

1285
00:52:57,190 --> 00:52:55,839
from the window one time i got there

1286
00:52:59,109 --> 00:52:57,200
there were four or five other people

1287
00:53:01,270 --> 00:52:59,119
that stopped in the lane in those days

1288
00:53:03,990 --> 00:53:01,280

it was a lane it wasn't a highway like

1289

00:53:06,150 --> 00:53:04,000

today but and the street lights weren't

1290

00:53:07,990 --> 00:53:06,160

the neon ones there were like 200 watts

1291

00:53:10,150 --> 00:53:08,000

pointing down

1292

00:53:13,430 --> 00:53:10,160

so there's no light pollution

1293

00:53:15,910 --> 00:53:13,440

apart from the lights in the hospital

1294

00:53:17,990 --> 00:53:15,920

this is how it looks today

1295

00:53:20,710 --> 00:53:18,000

it's a large the skinny thing's quite

1296

00:53:22,390 --> 00:53:20,720

narrow in those days so this was my room

1297

00:53:25,190 --> 00:53:22,400

i was looking straight across and saw

1298

00:53:26,870 --> 00:53:25,200

that and then we came out and stood here

1299

00:53:29,349 --> 00:53:26,880

the cars have two cars that stopped

1300

00:53:31,589 --> 00:53:29,359

they'd already seen it

1301
00:53:33,990 --> 00:53:31,599
so that that's basically

1302
00:53:35,270 --> 00:53:34,000
that's basically what i saw for about 25

1303
00:53:37,670 --> 00:53:35,280
minutes

1304
00:53:39,589 --> 00:53:37,680
this is a picture i took in 64 to show

1305
00:53:41,829 --> 00:53:39,599
you the building of the hospital that's

1306
00:53:44,230 --> 00:53:41,839
how small it was just a lane we just

1307
00:53:45,750 --> 00:53:44,240
passed two cars in in those days this

1308
00:53:49,349 --> 00:53:45,760
actually is the weaver's commander

1309
00:53:51,349 --> 00:53:49,359
weaver's dog this is a demonstration of

1310
00:53:54,150 --> 00:53:51,359
i took some pictures of them

1311
00:53:57,750 --> 00:53:54,160
uh let's put it down the first what the

1312
00:53:57,760 --> 00:54:00,790
they go and put it down

1313
00:54:04,069 --> 00:54:01,750

yeah

1314

00:54:06,950 --> 00:54:04,079

anyway so this is an aerial view but

1315

00:54:10,470 --> 00:54:06,960

good job for google but uh this is where

1316

00:54:13,750 --> 00:54:10,480

it was right over this area here and

1317

00:54:18,390 --> 00:54:15,589

and that's what it looked like so we

1318

00:54:19,589 --> 00:54:18,400

watched it for about 20 minutes

1319

00:54:21,589 --> 00:54:19,599

and

1320

00:54:23,430 --> 00:54:21,599

all of a sudden

1321

00:54:25,829 --> 00:54:23,440

a little green

1322

00:54:28,150 --> 00:54:25,839

dot appeared in the middle

1323

00:54:30,230 --> 00:54:28,160

and eventually

1324

00:54:31,990 --> 00:54:30,240

this happened i presume it went all the

1325

00:54:32,870 --> 00:54:32,000

way around i could only see one side of

1326

00:54:36,870 --> 00:54:32,880

it

1327

00:54:38,549 --> 00:54:36,880

was about 100 for that

1328

00:54:40,710 --> 00:54:38,559

you're probably talking something the

1329

00:54:43,109 --> 00:54:40,720

hospital is about i don't know 200

1330

00:54:45,670 --> 00:54:43,119

meters long or something it's quite long

1331

00:54:47,910 --> 00:54:45,680

uh so it's it's it's much bigger because

1332

00:54:49,349 --> 00:54:47,920

it's 150 foot

1333

00:54:51,589 --> 00:54:49,359

um

1334

00:54:53,430 --> 00:54:51,599

all of a sudden this this little window

1335

00:54:55,190 --> 00:54:53,440

up here this green light appeared and

1336

00:54:57,349 --> 00:54:55,200

it's like going around just flashing

1337

00:54:58,790 --> 00:54:57,359

like it was a

1338

00:55:00,950 --> 00:54:58,800

neon light

1339

00:55:04,470 --> 00:55:00,960

and and then all of a sudden

1340

00:55:06,790 --> 00:55:04,480

we just did that just disappeared

1341

00:55:08,630 --> 00:55:06,800

it didn't it was a slight

1342

00:55:09,589 --> 00:55:08,640

the second point that's about a slight

1343

00:55:11,829 --> 00:55:09,599

shudder

1344

00:55:14,069 --> 00:55:11,839

and they dematerialized there was no

1345

00:55:16,069 --> 00:55:14,079

moving away and it was sodded like it

1346

00:55:16,870 --> 00:55:16,079

was hanging in there and then back it

1347

00:55:18,710 --> 00:55:16,880

went

1348

00:55:20,549 --> 00:55:18,720

so either if it

1349

00:55:21,270 --> 00:55:20,559

got some kind of

1350

00:55:25,270 --> 00:55:21,280

uh

1351
00:55:27,430 --> 00:55:25,280
natural using a natural wormhole or on

1352
00:55:31,109 --> 00:55:27,440
man-made let's say man-made very common

1353
00:55:34,549 --> 00:55:31,119
technology down to a a small set box

1354
00:55:36,630 --> 00:55:34,559
section and used a combination and

1355
00:55:39,910 --> 00:55:36,640
and use that but i i i tried to get

1356
00:55:41,990 --> 00:55:39,920
answers from astrophysicists but they uh

1357
00:55:44,069 --> 00:55:42,000
even the japanese guy that i haven't had

1358
00:55:46,470 --> 00:55:44,079
any word back on that so if anybody's

1359
00:55:48,630 --> 00:55:46,480
got some ideas apart from that you know

1360
00:55:50,630 --> 00:55:48,640
but that that's what we saw and that's

1361
00:55:52,789 --> 00:55:50,640
stuck in my mind ever since it's

1362
00:55:54,549 --> 00:55:52,799
something like that you never forget

1363
00:55:56,549 --> 00:55:54,559

so you mentioned as well when you you

1364

00:55:58,470 --> 00:55:56,559

sent me the account

1365

00:56:01,030 --> 00:55:58,480

the space where it occupied yes you

1366

00:56:04,069 --> 00:56:01,040

couldn't see the stars no after after

1367

00:56:05,430 --> 00:56:04,079

after it it disappeared

1368

00:56:07,670 --> 00:56:05,440

um

1369

00:56:10,230 --> 00:56:07,680

all that area was void

1370

00:56:11,430 --> 00:56:10,240

and after about six seconds the stars

1371

00:56:12,150 --> 00:56:11,440

appeared

1372

00:56:13,829 --> 00:56:12,160

so

1373

00:56:17,190 --> 00:56:13,839

and i offered all this information

1374

00:56:17,990 --> 00:56:17,200

because i thought that this this line

1375

00:56:20,390 --> 00:56:18,000

you know

1376

00:56:21,670 --> 00:56:20,400

as it materialized would be some

1377

00:56:24,470 --> 00:56:21,680

information

1378

00:56:26,230 --> 00:56:24,480

to an astrophysicist or nasa working on

1379

00:56:28,309 --> 00:56:26,240

it you know at the time

1380

00:56:30,150 --> 00:56:28,319

but no one seemed very interested

1381

00:56:32,309 --> 00:56:30,160

i understand that there is technology

1382

00:56:33,829 --> 00:56:32,319

available but it involves

1383

00:56:36,549 --> 00:56:33,839

like something twice the size is

1384

00:56:38,789 --> 00:56:36,559

building you're getting started you know

1385

00:56:41,270 --> 00:56:38,799

that these whatever whoever had these

1386

00:56:43,030 --> 00:56:41,280

and it's bearing in mind like 65 if it

1387

00:56:45,990 --> 00:56:43,040

was one of the hours we should be going

1388

00:56:50,309 --> 00:56:46,000

off right into the cosmic uh

1389

00:56:55,270 --> 00:56:53,190

so that that was the deciding

1390

00:56:57,190 --> 00:56:55,280

i got a close encounter probably in the

1391

00:56:59,109 --> 00:56:57,200

first game

1392

00:57:00,230 --> 00:56:59,119

uh of course that wasn't until seven

1393

00:57:04,230 --> 00:57:00,240

years later

1394

00:57:24,950 --> 00:57:04,240

it comes in countless 77 or something 77

1395

00:57:27,990 --> 00:57:26,150

town hill

1396

00:57:30,390 --> 00:57:28,000

but this this is nothing to i don't

1397

00:57:32,150 --> 00:57:30,400

think um but maybe i don't know

1398

00:57:33,990 --> 00:57:32,160

but this is uh

1399

00:57:36,950 --> 00:57:34,000

some high advanced technology you know

1400

00:57:39,349 --> 00:57:36,960

it's very weird to suddenly materialize

1401
00:57:41,190 --> 00:57:39,359
in front of you that machine that side i

1402
00:57:43,270 --> 00:57:41,200
think was something

1403
00:57:45,510 --> 00:57:43,280
unfortunate i didn't see it all right

1404
00:57:47,430 --> 00:57:45,520
but um it um

1405
00:57:48,630 --> 00:57:47,440
couldn't have been there that long after

1406
00:57:50,150 --> 00:57:48,640
i opened it

1407
00:57:52,870 --> 00:57:50,160
because you know the lights were

1408
00:57:55,670 --> 00:57:52,880
flashing on and off they were all using

1409
00:57:57,750 --> 00:57:55,680
the power because in 1965 that was the

1410
00:57:59,030 --> 00:57:57,760
biggest building just being built in

1411
00:58:01,990 --> 00:57:59,040
swansea

1412
00:58:03,349 --> 00:58:02,000
so whenever a ride tracked the energy

1413
00:58:06,390 --> 00:58:03,359

coming out of it

1414

00:58:07,990 --> 00:58:06,400

and it was like the car needs a battery

1415

00:58:09,510 --> 00:58:08,000

charge that they probably took the

1416

00:58:10,630 --> 00:58:09,520

information you know

1417

00:58:13,750 --> 00:58:10,640

and then

1418

00:58:16,390 --> 00:58:14,950

six o'clock

1419

00:58:19,910 --> 00:58:16,400

it was dark

1420

00:58:35,510 --> 00:58:19,920

wasn't done but

1421

00:58:39,589 --> 00:58:37,750

there's no noise nothing at all and

1422

00:58:42,309 --> 00:58:39,599

we're just standing we actually walked

1423

00:58:44,150 --> 00:58:42,319

out to the end result was looking at

1424

00:58:45,270 --> 00:58:44,160

and there's about four or five people by

1425

00:58:47,910 --> 00:58:45,280

this time

1426
00:58:51,109 --> 00:58:47,920
um they're older than me and i was only

1427
00:58:53,109 --> 00:58:51,119
18 at the time so they probably passed

1428
00:58:54,630 --> 00:58:53,119
on now but with hindsight really good to

1429
00:58:57,750 --> 00:58:54,640
try and get their

1430
00:58:59,829 --> 00:58:57,760
versions of it but um i never heard

1431
00:59:01,750 --> 00:58:59,839
there was no other report made you know

1432
00:59:03,589 --> 00:59:01,760
as far as i'm aware

1433
00:59:05,990 --> 00:59:03,599
said you had the feeling in your head

1434
00:59:08,069 --> 00:59:06,000
did that draw your attention yes i was

1435
00:59:10,870 --> 00:59:08,079
actually studying for my a levels uh we

1436
00:59:12,549 --> 00:59:10,880
had sweet sick one of them and uh i

1437
00:59:15,190 --> 00:59:12,559
stopped up and i said something made me

1438
00:59:16,950 --> 00:59:15,200

go to the window on something like uh

1439

00:59:18,789 --> 00:59:16,960

i looked up a minute and i saw that and

1440

00:59:20,069 --> 00:59:18,799

i ran downstairs

1441

00:59:23,589 --> 00:59:20,079

again

1442

00:59:25,109 --> 00:59:23,599

yeah yeah so interesting but um

1443

00:59:28,069 --> 00:59:25,119

it was stuck with me and it's something

1444

00:59:30,950 --> 00:59:28,079

as though but having learned a lot since

1445

00:59:32,549 --> 00:59:30,960

then i think it's um that would be the

1446

00:59:33,990 --> 00:59:32,559

answer it's obviously used the

1447

00:59:35,990 --> 00:59:34,000

technology and

1448

00:59:38,230 --> 00:59:36,000

natural cosmic

1449

00:59:40,390 --> 00:59:38,240

energies to

1450

00:59:43,190 --> 00:59:40,400

power that craft

1451
00:59:45,349 --> 00:59:43,200
and it's surprised that no one

1452
00:59:48,069 --> 00:59:45,359
well doesn't survive me now

1453
00:59:50,309 --> 00:59:48,079
but uh of uh who's interested in

1454
00:59:52,630 --> 00:59:50,319
research in nasa

1455
00:59:54,230 --> 00:59:52,640
that would might have helped them to you

1456
00:59:56,309 --> 00:59:54,240
know

1457
00:59:58,069 --> 00:59:56,319
replicate in some way but there's not

1458
01:00:12,870 --> 00:59:58,079
been a lot of cases of ufos drawing

1459
01:00:12,880 --> 01:00:16,470
that's

1460
01:00:19,109 --> 01:00:17,430
from

1461
01:00:21,349 --> 01:00:19,119
something as primitive as that be just

1462
01:00:24,230 --> 01:00:21,359
like a duracell battery to them

1463
01:00:27,109 --> 01:00:24,240

but you see there's no no nothing no no

1464

01:00:29,349 --> 01:00:27,119

lines or anything they just use like

1465

01:00:31,589 --> 01:00:29,359

probably a wi-fi effect they were just

1466

01:00:34,870 --> 01:00:31,599

sucking up by wi-fi you know and then we

1467

01:00:37,349 --> 01:00:34,880

got now yeah but uh you know

1468

01:00:39,030 --> 01:00:37,359

who knows because because the only other

1469

01:00:40,630 --> 01:00:39,040

theory i did you probably laugh at me

1470

01:00:41,910 --> 01:00:40,640

for saying this

1471

01:00:43,670 --> 01:00:41,920

is that what i've heard is that

1472

01:00:47,990 --> 01:00:43,680

interdimensionals

1473

01:00:50,390 --> 01:00:48,000

use who low vibrational human emotion

1474

01:00:52,710 --> 01:00:50,400

to feed themselves to feed themselves

1475

01:00:55,109 --> 01:00:52,720

and and where else are you going to get

1476

01:01:01,109 --> 01:00:55,119

more low vibrational human emotion in

1477

01:01:04,630 --> 01:01:03,589

as well i don't know but you know it's a

1478

01:01:06,230 --> 01:01:04,640

mystery

1479

01:01:08,829 --> 01:01:06,240

but we don't really yeah we're only

1480

01:01:11,589 --> 01:01:08,839

scratching the

1481

01:01:13,589 --> 01:01:11,599

sounds okay let's that's talking about

1482

01:01:16,789 --> 01:01:13,599

that if i go on very quickly to the

1483

01:01:18,309 --> 01:01:16,799

filming paradox or they call it uh where

1484

01:01:21,190 --> 01:01:18,319

the heck are they

1485

01:01:24,789 --> 01:01:21,200

um why aren't we seeing more more uh

1486

01:01:29,349 --> 01:01:26,950

we're talking about vibration and you

1487

01:01:30,230 --> 01:01:29,359

talked about earlier on frequencies as

1488

01:01:32,069 --> 01:01:30,240

well

1489

01:01:34,390 --> 01:01:32,079

so we go into our

1490

01:01:36,309 --> 01:01:34,400

just about a bit of a background

1491

01:01:38,069 --> 01:01:36,319

it's quite interesting information i'm

1492

01:01:39,750 --> 01:01:38,079

going to run it too much but just to

1493

01:01:42,390 --> 01:01:39,760

give you some idea

1494

01:01:44,390 --> 01:01:42,400

the stars in our galaxy are um

1495

01:01:47,349 --> 01:01:44,400

uncountable but they reckon it's up to

1496

01:01:49,670 --> 01:01:47,359

400 billion in just in our galaxy alone

1497

01:01:51,829 --> 01:01:49,680

there's an equal number of galaxies in

1498

01:01:53,910 --> 01:01:51,839

all the observable galaxies in the

1499

01:01:55,430 --> 01:01:53,920

universe and beyond and of course in the

1500

01:01:58,950 --> 01:01:55,440

universe that we know

1501

01:01:59,990 --> 01:01:58,960

um it could be 22 to 24 universities so

1502

01:02:02,069 --> 01:02:00,000

they say

1503

01:02:04,230 --> 01:02:02,079

for every star and milky way there's a

1504

01:02:05,430 --> 01:02:04,240

whole galaxy out there and in the

1505

01:02:07,910 --> 01:02:05,440

observable

1506

01:02:10,230 --> 01:02:07,920

in our known universe for every grain of

1507

01:02:12,630 --> 01:02:10,240

sand on earth there are ten thousand

1508

01:02:14,710 --> 01:02:12,640

stars out there so where where is that

1509

01:02:16,630 --> 01:02:14,720

where are they you know where are they

1510

01:02:18,710 --> 01:02:16,640

so potentially

1511

01:02:20,950 --> 01:02:18,720

these this is not my this is what the

1512

01:02:22,950 --> 01:02:20,960

scientists say uh astronomers

1513

01:02:24,870 --> 01:02:22,960

potentially having an earthquake planet

1514

01:02:27,510 --> 01:02:24,880

orbiting at least one percent of the

1515

01:02:30,230 --> 01:02:27,520

total stars in the universe so in other

1516

01:02:32,230 --> 01:02:30,240

words that it was we should see a

1517

01:02:33,349 --> 01:02:32,240

hundred billion billion earth-like

1518

01:02:35,190 --> 01:02:33,359

planets

1519

01:02:37,589 --> 01:02:35,200

um

1520

01:02:39,910 --> 01:02:37,599

but we're not well we are we find them

1521

01:02:41,670 --> 01:02:39,920

every now and again i know but you know

1522

01:02:43,349 --> 01:02:41,680

so in other words there are a hundred

1523

01:02:44,789 --> 01:02:43,359

earth-like planets for every great grain

1524

01:02:47,270 --> 01:02:44,799

of sound in the world

1525

01:02:48,950 --> 01:02:47,280

so incomparable you can't really measure

1526

01:02:51,109 --> 01:02:48,960

that really

1527

01:02:53,829 --> 01:02:51,119

in the milky way there's 100 billion

1528

01:02:56,470 --> 01:02:53,839

stars on the lower estimate and one

1529

01:02:59,510 --> 01:02:56,480

billion earth-like planets and 100 000

1530

01:03:01,750 --> 01:02:59,520

intelligent civilizations

1531

01:03:02,549 --> 01:03:01,760

promoted in our galaxy as they can think

1532

01:03:04,950 --> 01:03:02,559

of

1533

01:03:07,910 --> 01:03:04,960

in our galaxy alone

1534

01:03:09,910 --> 01:03:07,920

um and the problem is our son is got a

1535

01:03:13,030 --> 01:03:09,920

young son there are many other sons in

1536

01:03:15,589 --> 01:03:13,040

other galaxies that have on any our own

1537

01:03:17,829 --> 01:03:15,599

that are much older than ours

1538

01:03:19,510 --> 01:03:17,839

so that's that's one answer probably

1539

01:03:21,190 --> 01:03:19,520

they're very young in this part of the

1540

01:03:22,710 --> 01:03:21,200

world

1541

01:03:24,870 --> 01:03:22,720

and then i'm going to show you i know if

1542

01:03:27,750 --> 01:03:24,880

you know about the great filter why no

1543

01:03:30,950 --> 01:03:27,760

one bothers with us

1544

01:03:33,829 --> 01:03:30,960

so like the questions we can ask are we

1545

01:03:35,349 --> 01:03:33,839

rare are we unique or are we totally

1546

01:03:37,910 --> 01:03:35,359

screwed you know i'll be the last

1547

01:03:39,829 --> 01:03:37,920

remnants you know they come down

1548

01:03:41,990 --> 01:03:39,839

yeah oh is the filter ahead of us are we

1549

01:03:44,069 --> 01:03:42,000

yet to get to that photo and

1550

01:03:45,829 --> 01:03:44,079

develop has already gone through it and

1551

01:03:47,829 --> 01:03:45,839

this is a great filter

1552

01:03:49,670 --> 01:03:47,839

um we're down sorry

1553

01:03:50,630 --> 01:03:49,680

we're down down the bottom somewhere you

1554

01:03:53,670 --> 01:03:50,640

know

1555

01:03:56,470 --> 01:03:53,680

um these are sort of these areas are

1556

01:03:58,789 --> 01:03:56,480

what we know is uh evolutionary leaks

1557

01:04:00,950 --> 01:03:58,799

over the thousands of years point of

1558

01:04:02,470 --> 01:04:00,960

origin of um

1559

01:04:05,270 --> 01:04:02,480

is here

1560

01:04:07,829 --> 01:04:05,280

we're probably on the bottom around the

1561

01:04:10,230 --> 01:04:07,839

rim of the ladder around here somewhere

1562

01:04:13,029 --> 01:04:10,240

so this this what they say is the main

1563

01:04:13,990 --> 01:04:13,039

filter this is the evening evolution

1564

01:04:17,270 --> 01:04:14,000

really

1565

01:04:19,990 --> 01:04:17,280

that many many species don't manage to

1566

01:04:22,870 --> 01:04:20,000

make it and this is through the filter

1567

01:04:25,109 --> 01:04:22,880

we've got one species goes through

1568

01:04:27,670 --> 01:04:25,119

a viral freak event it gets into this

1569

01:04:30,069 --> 01:04:27,680

section and then you've got the higher

1570

01:04:31,589 --> 01:04:30,079

type 3 civilization and probably the

1571

01:04:32,549 --> 01:04:31,599

time you get than that

1572

01:04:34,950 --> 01:04:32,559

it's all

1573

01:04:36,470 --> 01:04:34,960

in the in the brain and the cosmic

1574

01:04:37,589 --> 01:04:36,480

heavens you probably don't need the

1575

01:04:40,069 --> 01:04:37,599

physical

1576

01:04:41,430 --> 01:04:40,079

attributes to carry on so this is the

1577

01:04:43,270 --> 01:04:41,440

great filter

1578

01:04:45,349 --> 01:04:43,280

we need to get through this is one of

1579

01:04:46,870 --> 01:04:45,359

the theory anyway we need to get through

1580

01:04:49,670 --> 01:04:46,880

that filter

1581

01:04:52,150 --> 01:04:49,680

and vice versa coming in

1582

01:04:53,510 --> 01:04:52,160

so basically there are civilizations out

1583

01:04:56,069 --> 01:04:53,520

there we know that

1584

01:04:57,750 --> 01:04:56,079

it's just we haven't seen them recorded

1585

01:04:59,190 --> 01:04:57,760

history is only five and a half that

1586

01:05:00,950 --> 01:04:59,200

recorded history it's only five and a

1587

01:05:03,029 --> 01:05:00,960

half thousand years which is nothing

1588

01:05:05,109 --> 01:05:03,039

it's a greater sound really isn't it

1589

01:05:07,589 --> 01:05:05,119

so it's a possibility that for millions

1590

01:05:10,549 --> 01:05:07,599

of years that civilizations have as it

1591

01:05:12,230 --> 01:05:10,559

did i probably saw what was going on and

1592

01:05:13,270 --> 01:05:12,240

shot straight off again i don't blame

1593

01:05:16,069 --> 01:05:13,280

them

1594

01:05:18,390 --> 01:05:16,079

the galaxy has been colonized in general

1595

01:05:20,829 --> 01:05:18,400

um but we it's these are options all

1596

01:05:24,630 --> 01:05:20,839

right we just live in some desolate

1597

01:05:27,029 --> 01:05:24,640

rural prison somewhere in the galaxy

1598

01:05:30,549 --> 01:05:27,039

um lost tribes that he found we still

1599

01:05:31,670 --> 01:05:30,559

finding lost tribes and unusual

1600

01:05:34,150 --> 01:05:31,680

animals

1601

01:05:36,630 --> 01:05:34,160

and former in the scene

1602

01:05:39,990 --> 01:05:36,640

but the entire concept of the physical

1603

01:05:42,230 --> 01:05:40,000

colonization is hilariously backward

1604

01:05:44,390 --> 01:05:42,240

and to advanced species so someone

1605

01:05:46,870 --> 01:05:44,400

walking around might be

1606

01:05:48,710 --> 01:05:46,880

talking today then consider that a

1607

01:05:52,150 --> 01:05:48,720

reagan dooming because

1608

01:05:53,589 --> 01:05:52,160

it's not what they understand

1609

01:05:56,150 --> 01:05:53,599

um

1610

01:05:58,549 --> 01:05:56,160

the entire physical world

1611

01:06:00,870 --> 01:05:58,559

what we live in is it is a primitive

1612

01:06:03,510 --> 01:06:00,880

place we're in a desert having long

1613

01:06:05,990 --> 01:06:03,520

conquered their own biology and uploaded

1614

01:06:08,309 --> 01:06:06,000

brains with virtual reality so we're all

1615

01:06:11,510 --> 01:06:08,319

living in this eternal life paradise on

1616

01:06:13,349 --> 01:06:11,520

behalf of someone else remember the um

1617

01:06:30,950 --> 01:06:13,359

what was the um

1618

01:06:37,430 --> 01:06:34,630

one of jim my co-author four years ago

1619

01:06:40,309 --> 01:06:37,440

that um basically we did the deal with

1620

01:06:43,270 --> 01:06:40,319

the palladians 25 000 years ago they

1621

01:06:45,430 --> 01:06:43,280

went turned sour they left it to us it's

1622

01:06:46,870 --> 01:06:45,440

the the prime director you're going to

1623

01:06:48,150 --> 01:06:46,880

get involved

1624

01:06:49,510 --> 01:06:48,160

um

1625

01:06:50,710 --> 01:06:49,520

and then we've got

1626
01:06:53,430 --> 01:06:50,720
i mean

1627
01:06:55,270 --> 01:06:53,440
we're on carbon-based uh life there

1628
01:06:57,750 --> 01:06:55,280
could be other forms of life out there

1629
01:07:00,390 --> 01:06:57,760
we don't understand could be insect died

1630
01:07:01,670 --> 01:07:00,400
lives i mean we just we don't know

1631
01:07:03,430 --> 01:07:01,680
so the

1632
01:07:05,430 --> 01:07:03,440
the the theory is that there could be

1633
01:07:07,109 --> 01:07:05,440
some really scary predators something

1634
01:07:09,990 --> 01:07:07,119
like uh alien

1635
01:07:11,750 --> 01:07:10,000
and all of his colleagues i mean the guy

1636
01:07:14,789 --> 01:07:11,760
wrote this and probably got more of the

1637
01:07:20,150 --> 01:07:17,829
yeah yes possible but the idea of being

1638
01:07:22,870 --> 01:07:20,160

that they know better than to broadcast

1639

01:07:26,390 --> 01:07:22,880

any outgoing signals to advertise their

1640

01:07:28,870 --> 01:07:26,400

location so that's maybe why you're not

1641

01:07:30,230 --> 01:07:28,880

all this millions of dollars sent out

1642

01:07:32,069 --> 01:07:30,240

looking for

1643

01:07:33,510 --> 01:07:32,079

life in in the universe

1644

01:07:35,270 --> 01:07:33,520

if they don't want to be found they

1645

01:07:36,950 --> 01:07:35,280

won't be they won't be found they're too

1646

01:07:43,109 --> 01:07:36,960

timid yeah

1647

01:07:47,349 --> 01:07:44,950

the other theory is there is only one

1648

01:07:48,390 --> 01:07:47,359

instance of a higher intelligent a super

1649

01:07:50,870 --> 01:07:48,400

predator

1650

01:07:52,789 --> 01:07:50,880

like humans on earth who are far more

1651

01:07:58,950 --> 01:07:52,799

advanced and keeping that way by

1652

01:08:03,270 --> 01:08:01,430

so who knows in may 50 years time you

1653

01:08:05,510 --> 01:08:03,280

may get to a level and we all be wiped

1654

01:08:09,349 --> 01:08:05,520

out i don't know

1655

01:08:11,190 --> 01:08:09,359

another theory that's uh you know

1656

01:08:13,029 --> 01:08:11,200

so there's plenty to sum up there's

1657

01:08:15,430 --> 01:08:13,039

plenty of activity and noise out there

1658

01:08:18,390 --> 01:08:15,440

but our technology is too primitive i've

1659

01:08:21,189 --> 01:08:19,669

you know that's

1660

01:08:23,590 --> 01:08:21,199

what i'm getting at

1661

01:08:25,749 --> 01:08:23,600

is actually you know all over britain or

1662

01:08:28,390 --> 01:08:25,759

the world at the same extent

1663

01:08:30,550 --> 01:08:28,400

yeah yeah it's just just a question yeah

1664

01:08:33,349 --> 01:08:30,560

i think i think it is

1665

01:08:34,709 --> 01:08:33,359

everywhere yeah i think yeah

1666

01:08:36,789 --> 01:08:34,719

it's quite frightening

1667

01:08:38,870 --> 01:08:36,799

you know seriously

1668

01:08:41,829 --> 01:08:38,880

do you remember a film many many years

1669

01:08:43,349 --> 01:08:41,839

ago um paul

1670

01:08:45,590 --> 01:08:43,359

the guy

1671

01:08:48,789 --> 01:08:45,600

someone made these sunglasses they live

1672

01:08:50,829 --> 01:08:48,799

with uh rowdy roddy piper exactly yeah i

1673

01:08:53,910 --> 01:08:50,839

think it's like that he could harness

1674

01:08:55,829 --> 01:08:53,920

that energy or frequency

1675

01:08:57,990 --> 01:08:55,839

like putting on the glasses or your

1676

01:08:59,829 --> 01:08:58,000

brain you could actually see many things

1677

01:09:02,149 --> 01:08:59,839

around you you know and i think that's

1678

01:09:03,749 --> 01:09:02,159

what it is and many people do see that

1679

01:09:05,189 --> 01:09:03,759

there's a very good example an

1680

01:09:07,110 --> 01:09:05,199

archaeological friend of mine was

1681

01:09:09,349 --> 01:09:07,120

digging up in um

1682

01:09:11,430 --> 01:09:09,359

north of england about uh

1683

01:09:12,229 --> 01:09:11,440

oh 10 years ago

1684

01:09:14,309 --> 01:09:12,239

and

1685

01:09:16,870 --> 01:09:14,319

he was having a cup of tea with a guy a

1686

01:09:20,070 --> 01:09:16,880

builder who was doing up an old cottage

1687

01:09:21,349 --> 01:09:20,080

and the builder there was was uh he

1688

01:09:23,110 --> 01:09:21,359

would used to do this every day for

1689

01:09:25,349 --> 01:09:23,120

about a week or so one day

1690

01:09:27,349 --> 01:09:25,359

the builder came out he said i need a

1691

01:09:29,349 --> 01:09:27,359

whiskey he said what's the trouble

1692

01:09:31,349 --> 01:09:29,359

he said i've just seen roman soldiers

1693

01:09:32,149 --> 01:09:31,359

mark through the house

1694

01:09:34,070 --> 01:09:32,159

and

1695

01:09:35,990 --> 01:09:34,080

he said interesting i said a camera you

1696

01:09:38,709 --> 01:09:36,000

know but uh

1697

01:09:41,430 --> 01:09:38,719

my archaeological friend found out that

1698

01:09:42,789 --> 01:09:41,440

this was a route uh two thousand years

1699

01:09:45,590 --> 01:09:42,799

ago because the company's only been

1700

01:09:47,749 --> 01:09:45,600

there too in 200 years a route

1701
01:09:49,749 --> 01:09:47,759
of the soldiers

1702
01:09:51,669 --> 01:09:49,759
their legions going up north

1703
01:09:53,990 --> 01:09:51,679
and for some reason

1704
01:09:55,830 --> 01:09:54,000
a frequent frequency vibration effect

1705
01:09:58,390 --> 01:09:55,840
must have altered and

1706
01:09:59,990 --> 01:09:58,400
he got involved in this

1707
01:10:02,310 --> 01:10:00,000
in this thing and it affected him for a

1708
01:10:03,990 --> 01:10:02,320
long time after that but the interesting

1709
01:10:05,590 --> 01:10:04,000
thing he said they were like hovering

1710
01:10:07,510 --> 01:10:05,600
off the floor

1711
01:10:09,510 --> 01:10:07,520
uh and some of them were below the floor

1712
01:10:11,830 --> 01:10:09,520
and i i thought yes well that happened

1713
01:10:14,709 --> 01:10:11,840

in swindon once when you saw their guns

1714

01:10:17,030 --> 01:10:14,719

were seen floating across because the

1715

01:10:19,430 --> 01:10:17,040

ground was 300 years ago was higher

1716

01:10:21,510 --> 01:10:19,440

although in the climate stairs

1717

01:10:27,910 --> 01:10:21,520

that's right so it's all to do with

1718

01:10:33,350 --> 01:10:30,550

couldn't that be uh similar to the

1719

01:10:34,390 --> 01:10:33,360

so-called ghost airplanes people have

1720

01:10:36,630 --> 01:10:34,400

witnessed

1721

01:10:38,550 --> 01:10:36,640

it's possible yeah it all all blanks

1722

01:10:40,630 --> 01:10:38,560

down for frequency doesn't it you know

1723

01:10:43,669 --> 01:10:40,640

just out of that slight vibration

1724

01:10:45,430 --> 01:10:43,679

slightly got it all made up of it yeah

1725

01:10:47,270 --> 01:10:45,440

they're all made up molecules and

1726

01:10:49,750 --> 01:10:47,280

frequencies

1727

01:10:51,189 --> 01:10:49,760

what's this siren people have been doing

1728

01:10:52,790 --> 01:10:51,199

oh yeah

1729

01:10:54,950 --> 01:10:52,800

do you live in that area

1730

01:10:56,149 --> 01:10:54,960

was that sorry it was more like a

1731

01:11:09,510 --> 01:10:56,159

factory

1732

01:11:13,510 --> 01:11:10,830

it

1733

01:11:15,350 --> 01:11:13,520

goes five ten seconds

1734

01:11:17,030 --> 01:11:15,360

there's no real structure to the timing

1735

01:11:18,390 --> 01:11:17,040

of it it could come on like eleven

1736

01:11:20,390 --> 01:11:18,400

o'clock in the morning

1737

01:12:06,830 --> 01:11:20,400

reminded me of your time ring concrete

1738

01:12:06,840 --> 01:12:30,310

yeah yeah

1739

01:12:30,320 --> 01:12:50,229

which is quite weird

1740

01:12:50,239 --> 01:13:30,149

oh

1741

01:13:30,159 --> 01:13:39,510

an entrance to a ufo
