

1  
00:00:28,240 --> 00:00:23,859  
okay I'm going to talk now the last

2  
00:00:30,609 --> 00:00:28,250  
section be pleased to know I can get on

3  
00:00:33,729 --> 00:00:30,619  
to the Fermi paradox as well about my

4  
00:00:37,030 --> 00:00:33,739  
cycling in 1965 let me talk when I

5  
00:00:40,389 --> 00:00:37,040  
showed you those surveyed nominees like

6  
00:00:45,960 --> 00:00:40,399  
tie up not this might be another in the

7  
00:00:49,720 --> 00:00:45,970  
1965 this is how the the hospitals today

8  
00:00:51,880 --> 00:00:49,730  
the nominee reported anomaly is in

9  
00:00:54,849 --> 00:00:51,890  
Canada is about 200 for the love it and

10  
00:00:58,180 --> 00:00:54,859  
who's larger than the hospital and when

11  
00:01:01,630 --> 00:00:58,190  
it when the first I'm just gonna slide

12  
00:01:03,790 --> 00:01:01,640  
for a second we can come back to this I

13  
00:01:07,060 --> 00:01:03,800

just want to show you something

14

00:01:11,230 --> 00:01:07,070

this is in it's just a sports universe

15

00:01:13,859 --> 00:01:11,240

and in 1965 I actually lived there for

16

00:01:17,020 --> 00:01:13,869

10 years my father was the playing field

17

00:01:20,200 --> 00:01:17,030

manager for natives at university and

18

00:01:23,440 --> 00:01:20,210

all upstairs are our apartment and on

19

00:01:25,450 --> 00:01:23,450

the side there is my groom I actually

20

00:01:29,620 --> 00:01:25,460

looked out the window I can see it

21

00:01:32,830 --> 00:01:29,630

across there so what happened was the

22

00:01:34,450 --> 00:01:32,840

first thing I noticed is a feeling I

23

00:01:37,690 --> 00:01:34,460

look out the window and I saw was huge

24

00:01:40,749 --> 00:01:37,700

by cigar fat cigar shape over this

25

00:01:43,270 --> 00:01:40,759

hospital but the other thing I notice

26

00:01:45,819 --> 00:01:43,280

all the lights were flashing on and off

27

00:01:46,450 --> 00:01:45,829

consistently and apparently that was in

28

00:01:48,550 --> 00:01:46,460

the paper

29

00:01:50,080 --> 00:01:48,560

couple days later

30

00:01:52,720 --> 00:01:50,090

an incident in the Central Hospital

31

00:01:55,240 --> 00:01:52,730

where lights were going on and off no

32

00:01:58,630 --> 00:01:55,250

one found out understand what's

33

00:02:02,620 --> 00:01:58,640

happening and they the craft I saw was

34

00:02:04,690 --> 00:02:02,630

so the same size if not bigger than 100

35

00:02:06,070 --> 00:02:04,700

foot the public if you will in the

36

00:02:08,530 --> 00:02:06,080

hospital ground you wouldn't see it

37

00:02:11,350 --> 00:02:08,540

because the building would be in the way

38

00:02:14,440 --> 00:02:11,360

but I was at an angle 200 the other

39

00:02:17,380 --> 00:02:14,450

hundred with the arms of a casino so

40

00:02:19,450 --> 00:02:17,390

that if you're going to me this was 1972

41

00:02:21,310 --> 00:02:19,460

as those encountered come this happens

42

00:02:23,230 --> 00:02:21,320

in contrived but looking back and it

43

00:02:25,360 --> 00:02:23,240

sort of reminded me of that more than

44

00:02:28,140 --> 00:02:25,370

like splashing on or off in unison

45

00:02:31,240 --> 00:02:28,150

looking back now that hindsight probably

46

00:02:34,300 --> 00:02:31,250

charging up whatever the technology

47

00:02:36,910 --> 00:02:34,310

medium did this and this actually is

48

00:02:38,949 --> 00:02:36,920

show me the Stein's of it it looked

49

00:02:43,570 --> 00:02:38,959

exactly like that it was just black a

50

00:02:51,699 --> 00:02:43,580

black boy whatever it was hanging over

51  
00:02:56,440 --> 00:02:51,709  
the hospital and this is the view I had

52  
00:02:58,990 --> 00:02:56,450  
from here it was quite big and I didn't

53  
00:03:00,690 --> 00:02:59,000  
see it I watched it I went downstairs I

54  
00:03:02,979 --> 00:03:00,700  
saw it in the window I went downstairs

55  
00:03:04,570 --> 00:03:02,989  
to see actually if it was still there

56  
00:03:06,850 --> 00:03:04,580  
and because I thought it might be

57  
00:03:08,380 --> 00:03:06,860  
something from your window I'm telling

58  
00:03:10,180 --> 00:03:08,390  
up there there were four or five other

59  
00:03:11,800 --> 00:03:10,190  
people that stopped in the lane in those

60  
00:03:14,170 --> 00:03:11,810  
days it wasn't Lane it wasn't that

61  
00:03:16,570 --> 00:03:14,180  
finally like today but and the

62  
00:03:19,870 --> 00:03:16,580  
streetlights worked at neon ones were

63  
00:03:22,420 --> 00:03:19,880

like 200 Watts pointing down so there's

64

00:03:26,380 --> 00:03:22,430

no light pollution apart from the lights

65

00:03:29,440 --> 00:03:26,390

in the hospital this is how it looks

66

00:03:32,140 --> 00:03:29,450

today it's a large skinny things quite

67

00:03:34,120 --> 00:03:32,150

narrow in his day so this was my room I

68

00:03:36,789 --> 00:03:34,130

was looking straight across and saw that

69

00:03:38,620 --> 00:03:36,799

I know he came out and stood here the

70

00:03:42,330 --> 00:03:38,630

cause of two car that stopped they've

71

00:03:45,430 --> 00:03:42,340

already seen it so that glass basically

72

00:03:45,970 --> 00:03:45,440

Duff basically what I saw for about five

73

00:03:49,150 --> 00:03:45,980

minutes

74

00:03:50,949 --> 00:03:49,160

this is a picture I took in 64 to show

75

00:04:13,360 --> 00:03:50,959

you the building of the hospital as a

76

00:05:21,230 --> 00:05:18,890

this is here and this is like the second

77

00:05:22,760 --> 00:05:21,240

point dissipated a slight shudder and

78

00:05:25,730 --> 00:05:22,770

they deal in fear like there was no

79

00:05:28,520 --> 00:05:25,740

moving away and he was solid like just

80

00:05:34,070 --> 00:05:28,530

hanging there and then BAM he went so

81

00:05:37,909 --> 00:05:34,080

either it got some kind of natural using

82

00:05:38,920 --> 00:05:37,919

a natural wormhole or nothing so you

83

00:05:42,430 --> 00:05:38,930

have a very calm

84

00:05:45,430 --> 00:05:42,440

technology down to a small set box

85

00:05:48,129 --> 00:05:45,440

section and use accommodation from them

86

00:05:51,640 --> 00:05:48,139

and use that but like I try to get

87

00:05:53,920 --> 00:05:51,650

answers from our services I think even

88

00:05:55,990 --> 00:05:53,930

the Japanese rather I'm gonna I heard

89

00:05:58,719 --> 00:05:56,000

that on that so if anybody got to my

90

00:06:00,670 --> 00:05:58,729

name is parking that you know but that's

91

00:06:02,980 --> 00:06:00,680

what we saw and that stuck in my mind

92

00:06:05,740 --> 00:06:02,990

ever since it's something like that you

93

00:06:08,469 --> 00:06:05,750

don't forget so I mentioned this already

94

00:06:10,719 --> 00:06:08,479

we said we were eight become the space

95

00:06:15,930 --> 00:06:10,729

where occupied yes people see the staff

96

00:06:19,839 --> 00:06:15,940

know after after after it disappeared

97

00:06:23,589 --> 00:06:19,849

all that area was void and after about

98

00:06:25,810 --> 00:06:23,599

six seconds the stars appeared so I

99

00:06:29,589 --> 00:06:25,820

offered all this information because I

100

00:06:31,560 --> 00:06:29,599

thought that this this line you know as

101  
00:06:35,020 --> 00:06:31,570  
it materialized would be some

102  
00:06:36,939 --> 00:06:35,030  
information to a national business or

103  
00:06:39,760 --> 00:06:36,949  
NASA working on it you know at the time

104  
00:06:41,439 --> 00:06:39,770  
but the only seemed very agency I

105  
00:06:44,500 --> 00:06:41,449  
understand that there is technology

106  
00:06:46,330 --> 00:06:44,510  
available but he involves like something

107  
00:06:49,600 --> 00:06:46,340  
twice the size is building again you

108  
00:06:52,960 --> 00:06:49,610  
started you know these whatever whoever

109  
00:07:02,020 --> 00:06:52,970  
had these this very - like 65 if it was

110  
00:07:05,110 --> 00:07:02,030  
one of the hose we should be going up so

111  
00:07:06,580 --> 00:07:05,120  
that that was the same thing and I call

112  
00:07:10,240 --> 00:07:06,590  
it closing down there probably in the

113  
00:07:11,750 --> 00:07:10,250

first time because that was in terms of

114

00:07:32,090 --> 00:07:11,760

some years later

115

00:07:36,110 --> 00:07:32,100

I know that some people in the evening

116

00:07:39,050 --> 00:07:36,120

post months unusual lights were seen

117

00:07:41,000 --> 00:07:39,060

over town Hillier but this is nothing -

118

00:07:44,120 --> 00:07:41,010

I don't think gallery or maybe I don't

119

00:07:45,890 --> 00:07:44,130

know it so yeah but this was somebody

120

00:07:52,390 --> 00:07:45,900

bounce technology being honest it was

121

00:07:57,200 --> 00:07:52,400

very I think most something

122

00:07:59,210 --> 00:07:57,210

unfortunately she arrived but it could

123

00:08:01,970 --> 00:07:59,220

have been there that long after a little

124

00:08:05,900 --> 00:08:01,980

bit because you know like to class they

125

00:08:08,450 --> 00:08:05,910

were all using the power because at the

126

00:08:10,250 --> 00:08:08,460

965 that was the biggest building just

127

00:08:13,430 --> 00:08:10,260

even though in Swansea

128

00:08:18,470 --> 00:08:13,440

so whatever right tracked the energy

129

00:08:25,810 --> 00:08:18,480

coming out of it and battery charged up

130

00:08:35,480 --> 00:08:33,080

doc do you remember this foolishness and

131

00:08:37,250 --> 00:08:35,490

then when that green mind appeared to do

132

00:08:40,400 --> 00:08:37,260

some noise will be nothing at all

133

00:08:41,560 --> 00:08:40,410

nothing at all no having no only a

134

00:08:45,620 --> 00:08:41,570

feeling

135

00:08:47,570 --> 00:08:45,630

like you know my good magnetic thank you

136

00:08:48,980 --> 00:08:47,580

sir but would it there's no noise

137

00:08:50,930 --> 00:08:48,990

nothing at all

138

00:08:54,920 --> 00:08:50,940

and we just standing we actually walked

139

00:08:58,009 --> 00:08:54,930

out to the NP and there's about four or

140

00:09:01,790 --> 00:08:58,019

five people by the studies they're older

141

00:09:04,160 --> 00:09:01,800

than 18 at the time so they probably

142

00:09:07,009 --> 00:09:04,170

passed on now but with hindsight may be

143

00:09:09,889 --> 00:09:07,019

good to try and get their versions of it

144

00:09:13,850 --> 00:09:09,899

but I never heard there's no other

145

00:09:16,130 --> 00:09:13,860

report made you know sit you up the

146

00:09:18,380 --> 00:09:16,140

feeling in your head did that patrol the

147

00:09:21,259 --> 00:09:18,390

attention is I was actually studying for

148

00:09:24,050 --> 00:09:21,269

my a-levels sweet stick one look and

149

00:09:26,030 --> 00:09:24,060

that I stopped up like something made me

150

00:09:28,490 --> 00:09:26,040

go to the window or something a guy I

151

00:09:32,930 --> 00:09:28,500

hooked up with minimum so that's and

152

00:09:35,930 --> 00:09:32,940

then ran downstairs okay yeah yeah so

153

00:09:38,060 --> 00:09:35,940

indistinct but you know we stuck with me

154

00:09:39,800 --> 00:09:38,070

and that's something as the but having

155

00:09:43,009 --> 00:09:39,810

learned a lot since then

156

00:09:44,949 --> 00:09:43,019

I think it's that would be the answer is

157

00:09:50,240 --> 00:09:44,959

obviously used for technology and

158

00:09:55,370 --> 00:09:50,250

natural cosmic energies to power that

159

00:09:58,520 --> 00:09:55,380

drop it's surprising that no one does

160

00:10:03,120 --> 00:09:58,530

about you now but

161

00:10:09,030 --> 00:10:03,130

in research it not so that we might help

162

00:10:11,040 --> 00:10:09,040

them to replicate some cases of UFOs

163

00:10:18,840 --> 00:10:11,050

energy

164

00:10:28,310 --> 00:10:18,850

prison yeah yeah oh yeah like needles

165

00:10:30,630 --> 00:10:28,320

yes wouldn't wouldn't energy from

166

00:10:34,910 --> 00:10:30,640

something as primitive as that be just

167

00:10:40,800 --> 00:10:37,920

lines right thing they just used like
