

1
00:00:15,280 --> 00:00:20,070
ken lana state tell me yeah

2
00:00:23,590 --> 00:00:21,670
right good evening everybody thank you

3
00:00:25,910 --> 00:00:23,600
very much for attending this the seventh

4
00:00:27,750 --> 00:00:25,920
meeting in the swansea ufo network i

5
00:00:29,910 --> 00:00:27,760
can't believe the club has been running

6
00:00:31,189 --> 00:00:29,920
for seven months now um i'd like to

7
00:00:32,870 --> 00:00:31,199
thank you all for your continued

8
00:00:34,069 --> 00:00:32,880
interest and your support thank you very

9
00:00:35,910 --> 00:00:34,079
much

10
00:00:37,590 --> 00:00:35,920
so uh tonight once again we got the

11
00:00:39,270 --> 00:00:37,600
pleasure of uh

12
00:00:40,950 --> 00:00:39,280
brian harry

13
00:00:43,430 --> 00:00:40,960

uh brian's attended the club from the

14

00:00:44,950 --> 00:00:43,440

very start of proceedings and at an

15

00:00:46,630 --> 00:00:44,960

earlier meeting

16

00:00:48,869 --> 00:00:46,640

he's already shared with us details of a

17

00:00:51,990 --> 00:00:48,879

very interesting ufo sight he had in the

18

00:00:53,350 --> 00:00:52,000

cray area if you remember that

19

00:00:54,790 --> 00:00:53,360

now i'm really looking forward to this

20

00:00:57,270 --> 00:00:54,800

because tonight he's going to discuss

21

00:00:59,110 --> 00:00:57,280

the subject of crop circles and his own

22

00:01:01,430 --> 00:00:59,120

experiences in the field excuse the

23

00:01:04,549 --> 00:01:03,110

after that then as emin said he'd be

24

00:01:06,630 --> 00:01:04,559

bringing you up to date with the latest

25

00:01:08,070 --> 00:01:06,640

local incidents and sightings and

26

00:01:11,190 --> 00:01:08,080

discussing some interesting new

27

00:01:12,950 --> 00:01:11,200

developments involved in this club

28

00:01:13,830 --> 00:01:12,960

now before that i'm going to bore you

29

00:01:20,550 --> 00:01:13,840

with

30

00:01:22,550 --> 00:01:20,560

now in the past i've touched on

31

00:01:26,070 --> 00:01:22,560

such subjects as the history of ufo

32

00:01:29,830 --> 00:01:26,080

sightings commercial airliners and ufos

33

00:01:31,510 --> 00:01:29,840

the belgium ufo wave usos or identified

34

00:01:33,429 --> 00:01:31,520

submerged objects

35

00:01:37,590 --> 00:01:33,439

and also the controversial subject of

36

00:01:41,510 --> 00:01:39,429

now although the subject of ufos is

37

00:01:43,190 --> 00:01:41,520

prodigious

38

00:01:45,749 --> 00:01:43,200

it can be somewhat difficult to find an

39

00:01:47,830 --> 00:01:45,759

aspect of it to discuss with you

40

00:01:49,830 --> 00:01:47,840

that you can't easily find already found

41

00:01:52,789 --> 00:01:49,840

on the internet so forgive me if you've

42

00:01:54,710 --> 00:01:52,799

already delved into tonight's topic

43

00:01:58,709 --> 00:01:54,720

and you may have a greater understanding

44

00:02:06,230 --> 00:02:00,389

anyway tonight i'm going to tentatively

45

00:02:11,110 --> 00:02:08,790

now then

46

00:02:13,030 --> 00:02:11,120

i suppose if you're a ufo skeptic then

47

00:02:15,830 --> 00:02:13,040

the biggest repudiation of the subject

48

00:02:18,229 --> 00:02:15,840

would be to say something like

49

00:02:20,229 --> 00:02:18,239

ufos cannot exist

50

00:02:22,710 --> 00:02:20,239

as the nearest known planet capable of

51
00:02:24,309 --> 00:02:22,720
supporting life is approximately 4.2

52
00:02:26,390 --> 00:02:24,319
light years away

53
00:02:30,390 --> 00:02:26,400
which consequently means no spacecraft

54
00:02:34,550 --> 00:02:32,869
and given the con current extent of our

55
00:02:37,589 --> 00:02:34,560
scientific knowledge i can understand

56
00:02:39,589 --> 00:02:37,599
that viewpoint

57
00:02:41,589 --> 00:02:39,599
however as far as i'm concerned and most

58
00:02:43,350 --> 00:02:41,599
of the people in this room are concerned

59
00:02:44,949 --> 00:02:43,360
and millions of people around the world

60
00:02:46,949 --> 00:02:44,959
are concerned

61
00:02:48,070 --> 00:02:46,959
and surreptitiously heads of certain

62
00:02:50,869 --> 00:02:48,080
governments around the world are

63
00:02:53,750 --> 00:02:50,879

concerned given the undeniable multitude

64

00:02:56,150 --> 00:02:53,760

of worldwide ufo sightings made on a

65

00:02:57,550 --> 00:02:56,160

daily basis

66

00:03:01,509 --> 00:02:57,560

that statement i would say is

67

00:03:05,110 --> 00:03:03,430

so if one is to accept the fact that we

68

00:03:07,509 --> 00:03:05,120

are being visited by craft from other

69

00:03:09,910 --> 00:03:07,519

planets where are they coming from and

70

00:03:11,830 --> 00:03:09,920

how are they getting here

71

00:03:13,990 --> 00:03:11,840

now as much as i'd like to say i know

72

00:03:15,509 --> 00:03:14,000

the answer unfortunately i don't

73

00:03:18,309 --> 00:03:15,519

but maybe we can touch on a few

74

00:03:19,670 --> 00:03:18,319

hypotheses

75

00:03:21,509 --> 00:03:19,680

now let me say straight away that i

76

00:03:23,110 --> 00:03:21,519

don't necessarily believe in all or any

77

00:03:24,949 --> 00:03:23,120

of the following theories although

78

00:03:26,550 --> 00:03:24,959

there's many that do so let's go through

79

00:03:29,750 --> 00:03:26,560

them

80

00:03:31,589 --> 00:03:29,760

firstly where are the craft coming from

81

00:03:33,190 --> 00:03:31,599

are they traveling great distances or

82

00:03:35,509 --> 00:03:33,200

are they coming from somewhere not that

83

00:03:37,190 --> 00:03:35,519

far away

84

00:03:38,789 --> 00:03:37,200

well we've already discussed in a

85

00:03:41,509 --> 00:03:38,799

previous meeting the possibility of

86

00:03:42,949 --> 00:03:41,519

underground bases on our own planet and

87

00:03:45,509 --> 00:03:42,959

the many sightings there have been of

88

00:03:48,630 --> 00:03:45,519

ufos and usos

89

00:03:50,390 --> 00:03:48,640

and exiting the arctic the antarctic and

90

00:03:53,110 --> 00:03:50,400

many underwater areas around their own

91

00:03:55,990 --> 00:03:54,309

if you listen to some people's

92

00:03:57,509 --> 00:03:56,000

viewpoints even the dark side or the

93

00:04:00,309 --> 00:03:57,519

undersurface of our own moon is a

94

00:04:01,830 --> 00:04:00,319

possible contender

95

00:04:03,750 --> 00:04:01,840

there's been much discussion about the

96

00:04:06,229 --> 00:04:03,760

strange-looking structures photographed

97

00:04:07,750 --> 00:04:06,239

on the moon

98

00:04:09,350 --> 00:04:07,760

there's also the theory that our own

99

00:04:10,789 --> 00:04:09,360

astronauts were warned of further

100

00:04:14,470 --> 00:04:10,799

visiting the moon by entities they

101

00:04:17,670 --> 00:04:16,069

so what about mars

102

00:04:19,430 --> 00:04:17,680

well here again there are peculiar

103

00:04:20,949 --> 00:04:19,440

photographs of weird structures on the

104

00:04:22,390 --> 00:04:20,959

surface of the planet

105

00:04:24,230 --> 00:04:22,400

which as many of you were telling the

106

00:04:26,230 --> 00:04:24,240

very interesting discussion given by mr

107

00:04:28,550 --> 00:04:26,240

howard middleton jones will remember

108

00:04:30,390 --> 00:04:28,560

they were outlined by him together with

109

00:04:33,990 --> 00:04:30,400

a hypothesis that mars may well have

110

00:04:36,870 --> 00:04:34,000

been inhabited a very long time ago

111

00:04:39,189 --> 00:04:36,880

there is in fact an unnatural bulge

112

00:04:42,629 --> 00:04:39,199

at the martian equator which some have

113

00:04:45,110 --> 00:04:42,639

suggested maybe an artificial dome

114

00:04:47,830 --> 00:04:45,120

one of its moons phobos has a peculiar

115

00:04:48,950 --> 00:04:47,840

orbit apparently violating usual natural

116

00:04:51,270 --> 00:04:48,960

laws

117

00:04:53,909 --> 00:04:51,280

full boss orbits mars faster than the

118

00:04:55,670 --> 00:04:53,919

planet turns on its actual axis

119

00:04:57,510 --> 00:04:55,680

and this together without other factors

120

00:05:00,550 --> 00:04:57,520

has led to the belief that phobos is in

121

00:05:03,350 --> 00:05:00,560

fact a 10 mile wide hollow artificial

122

00:05:07,590 --> 00:05:03,360

spacecraft or orbiting shelter contains

123

00:05:10,469 --> 00:05:09,189

and what of the international space

124

00:05:12,390 --> 00:05:10,479

station

125

00:05:14,150 --> 00:05:12,400

and the constant array of live video

126

00:05:15,749 --> 00:05:14,160

footage of strange objects regularly

127

00:05:17,510 --> 00:05:15,759

passing nearby

128

00:05:19,350 --> 00:05:17,520

and on some occasions as we know the

129

00:05:23,110 --> 00:05:19,360

live feed showing them mysteriously

130

00:05:28,150 --> 00:05:25,510

now mr middleton jones also discussed

131

00:05:29,990 --> 00:05:28,160

the subject of solar anomalies showing

132

00:05:32,150 --> 00:05:30,000

us some very interesting photographs of

133

00:05:34,629 --> 00:05:32,160

strange objects flying past

134

00:05:39,670 --> 00:05:34,639

and into and out of the sun causing

135

00:05:43,590 --> 00:05:41,270

right that brings us nicely onto another

136

00:05:45,830 --> 00:05:43,600

hypothesis if these craft are travelling

137

00:05:48,390 --> 00:05:45,840

great distances how are they reaching us

138

00:05:50,469 --> 00:05:48,400

with apparent ease

139

00:05:53,189 --> 00:05:50,479

is traveling faster than the speed of

140

00:05:54,629 --> 00:05:53,199

light possible

141

00:05:56,230 --> 00:05:54,639

well every school boy knows that all

142

00:05:58,150 --> 00:05:56,240

you've got to do is simply lean forward

143

00:06:00,629 --> 00:05:58,160

in the captain's chair say what factor

144

00:06:03,029 --> 00:06:00,639

nine engage and off you boldly go where

145

00:06:04,629 --> 00:06:03,039

no man has gotten before

146

00:06:06,390 --> 00:06:04,639

of course anyone who has the slightest

147

00:06:09,110 --> 00:06:06,400

grounding in science knows that this is

148

00:06:10,550 --> 00:06:09,120

scientifically impossible you cannot try

149

00:06:13,110 --> 00:06:10,560

to travel faster than light because

150

00:06:15,670 --> 00:06:13,120

einstein said so

151
00:06:17,990 --> 00:06:15,680
there's a perfectly good reason for this

152
00:06:19,350 --> 00:06:18,000
as an object increases in speed its mass

153
00:06:21,189 --> 00:06:19,360
increases

154
00:06:23,430 --> 00:06:21,199
this is not merely theoretical it has

155
00:06:25,830 --> 00:06:23,440
been observed in particle accelerators

156
00:06:27,670 --> 00:06:25,840
like that at cern in switzerland

157
00:06:30,309 --> 00:06:27,680
speed up an electron and its mass

158
00:06:32,309 --> 00:06:30,319
increases as it approaches light speed

159
00:06:34,469 --> 00:06:32,319
its mass approaches being infinitely

160
00:06:36,309 --> 00:06:34,479
large just to keep its speed it would

161
00:06:37,670 --> 00:06:36,319
thus need all the energy in the universe

162
00:06:39,510 --> 00:06:37,680
to propel it

163
00:06:42,230 --> 00:06:39,520

cleveland this is not on whatever

164

00:06:43,990 --> 00:06:42,240

captain kirk says

165

00:06:45,749 --> 00:06:44,000

perhaps science might discover new

166

00:06:47,749 --> 00:06:45,759

methods of propulsion

167

00:06:50,950 --> 00:06:47,759

scotty's fable the lithium crystals

168

00:06:53,430 --> 00:06:50,960

perhaps or a mata antimatter reactor

169

00:06:55,029 --> 00:06:53,440

sadly there is no crystal or a reactor

170

00:06:57,990 --> 00:06:55,039

that can get around the speed of light

171

00:07:01,990 --> 00:07:00,230

perhaps electromagnetic force may be the

172

00:07:03,909 --> 00:07:02,000

answer there was certainly a great deal

173

00:07:05,430 --> 00:07:03,919

of research going on at this time and to

174

00:07:10,390 --> 00:07:05,440

develop in this form of power as a

175

00:07:15,510 --> 00:07:13,430

so what about the idea of bend in space

176
00:07:17,670 --> 00:07:15,520
well there is a concept which was first

177
00:07:19,589 --> 00:07:17,680
suggested by russian physicist andrei

178
00:07:21,430 --> 00:07:19,599
sakharov

179
00:07:23,670 --> 00:07:21,440
he put forward the theory that space is

180
00:07:26,070 --> 00:07:23,680
not empty but is full of energy

181
00:07:27,830 --> 00:07:26,080
the so-called zero point field

182
00:07:30,629 --> 00:07:27,840
that suggestion has been taken up by

183
00:07:32,790 --> 00:07:30,639
four other physicists in the usa one of

184
00:07:35,029 --> 00:07:32,800
which is an astrophysicist working at

185
00:07:37,510 --> 00:07:35,039
lockheed's clandestine research

186
00:07:39,110 --> 00:07:37,520
laboratories

187
00:07:41,510 --> 00:07:39,120
they published an article entitled

188
00:07:42,469 --> 00:07:41,520

inertia as a zero-point field lawrence

189

00:07:46,150 --> 00:07:42,479

force

190

00:07:47,589 --> 00:07:46,160

lawrence being electromagnetic

191

00:07:49,749 --> 00:07:47,599

and it offered a radically new

192

00:07:52,629 --> 00:07:49,759

interpretation of the origin of the

193

00:07:54,869 --> 00:07:52,639

strange quality of inertia

194

00:07:56,950 --> 00:07:54,879

this new concept of inertia also points

195

00:07:59,589 --> 00:07:56,960

to a new understanding of gravity since

196

00:08:02,150 --> 00:07:59,599

gravity and inertia are inextricably

197

00:08:03,830 --> 00:08:02,160

mixed and intertwined

198

00:08:06,869 --> 00:08:03,840

it was pointed out that there was recent

199

00:08:08,869 --> 00:08:06,879

success in manipulating atomic processes

200

00:08:11,189 --> 00:08:08,879

by controlling zero-point fields in the

201

00:08:13,270 --> 00:08:11,199

lab if they are right

202

00:08:15,270 --> 00:08:13,280

that both gravity and inertia stem from

203

00:08:17,589 --> 00:08:15,280

the zero point field then someday we

204

00:08:22,550 --> 00:08:17,599

might be able to manipulate both this in

205

00:08:27,189 --> 00:08:25,350

now in 1994 theoretical physicist at the

206

00:08:29,510 --> 00:08:27,199

university of wales published a paper

207

00:08:32,070 --> 00:08:29,520

called the warp drive hyper fast travel

208

00:08:34,149 --> 00:08:32,080

within general relativity

209

00:08:36,709 --> 00:08:34,159

this showed it is theoretically possible

210

00:08:38,870 --> 00:08:36,719

to distort space to allow warp speed

211

00:08:41,750 --> 00:08:38,880

travel to literally expand the volume of

212

00:08:43,990 --> 00:08:41,760

space and time behind the starship

213

00:08:46,070 --> 00:08:44,000

while compressing it up ahead sort of

214

00:08:48,070 --> 00:08:46,080

like feeding the tent pole through its

215

00:08:51,190 --> 00:08:48,080

sleeve by bunching up the fabric ahead

216

00:08:53,030 --> 00:08:51,200

and pulling it along behind

217

00:08:54,790 --> 00:08:53,040

the position of a spaceship within such

218

00:08:56,470 --> 00:08:54,800

a distortion would change relative to

219

00:08:58,230 --> 00:08:56,480

its destination

220

00:09:00,949 --> 00:08:58,240

yet the ship itself need not actually

221

00:09:02,550 --> 00:09:00,959

move at all so maybe someone one day

222

00:09:05,829 --> 00:09:02,560

will be able to give the order warp

223

00:09:10,790 --> 00:09:08,550

okay moving on lastly to black holes and

224

00:09:13,509 --> 00:09:10,800

parallel universes

225

00:09:16,310 --> 00:09:13,519

well as you may be aware

226

00:09:18,550 --> 00:09:16,320

the large hydrogen collider or hadron

227

00:09:21,590 --> 00:09:18,560

collider that's better than it the large

228

00:09:23,590 --> 00:09:21,600

canine colliders that's it

229

00:09:25,350 --> 00:09:23,600

at the certain center in geneva is about

230

00:09:27,670 --> 00:09:25,360

to be fired up again to its highest

231

00:09:31,750 --> 00:09:27,680

energy levels in a bid to detect or

232

00:09:35,590 --> 00:09:33,350

now the experiment will undoubtedly

233

00:09:37,269 --> 00:09:35,600

inflame critics of the lhc many of whom

234

00:09:39,110 --> 00:09:37,279

initially warned that the high-energy

235

00:09:40,550 --> 00:09:39,120

particle collider would spell the end of

236

00:09:42,949 --> 00:09:40,560

our universe with the creation of a

237

00:09:44,710 --> 00:09:42,959

black hole of its own

238

00:09:47,030 --> 00:09:44,720

it is the scientist's belief that the

239

00:09:48,710 --> 00:09:47,040

key to finding parallel universes may

240

00:09:52,230 --> 00:09:48,720

come from detecting miniature black

241

00:09:54,070 --> 00:09:52,240

holes at certain energy levels

242

00:09:56,070 --> 00:09:54,080

the detection of the mini black holes

243

00:09:57,829 --> 00:09:56,080

would in fact indicate the existence of

244

00:10:00,070 --> 00:09:57,839

extra dimensions which would support

245

00:10:01,430 --> 00:10:00,080

string theory and related models that

246

00:10:05,350 --> 00:10:01,440

predict the existence of extra

247

00:10:07,509 --> 00:10:05,360

dimensions as well as parallel universes

248

00:10:09,829 --> 00:10:07,519

up to now the lhc has only been fired up

249

00:10:11,430 --> 00:10:09,839

to energy levels incapable of detecting

250

00:10:12,949 --> 00:10:11,440

black holes

251
00:10:14,870 --> 00:10:12,959
however that's about to change with this

252
00:10:17,269 --> 00:10:14,880
new experiment

253
00:10:18,870 --> 00:10:17,279
if successful a completely new universe

254
00:10:21,430 --> 00:10:18,880
stretches

255
00:10:23,430 --> 00:10:21,440
a new universe will be revealed actually

256
00:10:24,630 --> 00:10:23,440
rewrite rewriting not only the physics

257
00:10:29,110 --> 00:10:24,640
books

258
00:10:30,790 --> 00:10:29,120
it could even mean that in fact the

259
00:10:33,030 --> 00:10:30,800
universe stretches back in time

260
00:10:35,430 --> 00:10:33,040
infinitely which would blow the big bang

261
00:10:38,150 --> 00:10:35,440
theory over the water indicating that it

262
00:10:39,910 --> 00:10:38,160
never actually occurred

263
00:10:42,949 --> 00:10:39,920

so is this another step towards

264

00:10:44,630 --> 00:10:42,959

disclosure quite possibly

265

00:10:46,069 --> 00:10:44,640

do the people in the know know that

266

00:10:48,310 --> 00:10:46,079

alien beans are coming from another

267

00:10:50,150 --> 00:10:48,320

dimension hence the amount of efforts

268

00:10:53,829 --> 00:10:50,160

being put into this incredible project

269

00:10:55,990 --> 00:10:53,839

at cern again quite possibly

270

00:10:58,069 --> 00:10:56,000

so in conclusion i would say to all

271

00:10:59,990 --> 00:10:58,079

skeptics just realize that we're still

272

00:11:01,509 --> 00:11:00,000

in the infancy of our knowledge and

273

00:11:04,069 --> 00:11:01,519

there's one hell of a lot to learn and

274

00:11:05,269 --> 00:11:04,079

be revealed but we are progressing very

275

00:11:07,269 --> 00:11:05,279

quickly

276

00:11:09,190 --> 00:11:07,279

i'm sure it won't be long before i and

277

00:11:11,430 --> 00:11:09,200

everyone else in this room who has the
