

THE KEN MORSE
INTERVIEW

1
00:00:59,119 --> 00:00:56,510
okay here I am with agent Steven I need

2
00:01:01,520 --> 00:00:59,129
you Emlyn I'm fed up from hogging the

3
00:01:04,579 --> 00:01:01,530
limelight so I use my face okay here we

4
00:01:09,230 --> 00:01:04,589
go here we go we're just about to enter

5
00:01:12,830 --> 00:01:09,240
the premises today we've come to see mr.

6
00:01:16,340 --> 00:01:12,840
Kane was in Bishop stunt the night of

7
00:01:18,800 --> 00:01:16,350
the 19th of January 1983 he saw what

8
00:01:23,600 --> 00:01:18,810
appears to be a triangle going over the

9
00:01:26,320 --> 00:01:23,610
lane of Sadie's Nocera between 8:00 and

10
00:01:52,540 --> 00:01:28,219
see you know any can tell us exactly

11
00:02:13,520 --> 00:02:11,090
hi Steve Lawrence how are you doing so

12
00:02:16,730 --> 00:02:13,530
here we all became Austin is sitting

13
00:02:18,770 --> 00:02:16,740

where it all happened so Ken could you

14

00:02:21,140 --> 00:02:18,780

explain to us exactly what happened on

15

00:02:24,320 --> 00:02:21,150

that night right it's okay

16

00:02:27,710 --> 00:02:24,330

I don't remember much about the day as

17

00:02:31,520 --> 00:02:27,720

as I mentioned in the email that it was

18

00:02:34,190 --> 00:02:31,530

just an ordinary day nothing nothing

19

00:02:36,170 --> 00:02:34,200

eventful happened until after I put the

20

00:02:39,470 --> 00:02:36,180

children to bed and I'd come down to

21

00:02:43,040 --> 00:02:39,480

watch television the TV on sat down

22

00:02:46,910 --> 00:02:43,050

there and within a matter of minutes the

23

00:02:49,010 --> 00:02:46,920

power went off no this was a fairly

24

00:02:51,590 --> 00:02:49,020

regular occurrence of here because at

25

00:02:53,630 --> 00:02:51,600

the time we had three phases open wires

26
00:02:57,080 --> 00:02:53,640
and we used to blow back to the wind and

27
00:02:59,030 --> 00:02:57,090
short outs and obviously that was off

28
00:03:01,220 --> 00:02:59,040
for a while then but on this particular

29
00:03:04,910 --> 00:03:01,230
night there was no wind it was a clear

30
00:03:06,290 --> 00:03:04,920
night and the power went off so i did

31
00:03:08,750 --> 00:03:06,300
what i usually do under those

32
00:03:11,120 --> 00:03:08,760
circumstances i used to get up not so

33
00:03:14,180 --> 00:03:11,130
the window to look at the houses over on

34
00:03:17,090 --> 00:03:14,190
old way to see whether they still had

35
00:03:19,729 --> 00:03:17,100
power on if they did it was just a

36
00:03:21,790 --> 00:03:19,739
problem in our lane but on this

37
00:03:25,340 --> 00:03:21,800
particular night they were off as well

38
00:03:27,949 --> 00:03:25,350

and whilst looking out to the window my

39

00:03:31,340 --> 00:03:27,959

attention was immediately drawn to three

40

00:03:32,110 --> 00:03:31,350

brilliant bluish white lights four in a

41

00:03:36,130 --> 00:03:32,120

triangle

42

00:03:40,420 --> 00:03:36,140

that was slowly moving overhead now I

43

00:03:42,520 --> 00:03:40,430

knew that from some of the things that

44

00:03:44,770 --> 00:03:42,530

are agreed in the past that this was one

45

00:03:46,420 --> 00:03:44,780

of the famous black triangles and not

46

00:03:49,449 --> 00:03:46,430

that I could see it was solid all I

47

00:03:51,880 --> 00:03:49,459

could see were the three lights so I

48

00:03:53,830 --> 00:03:51,890

didn't dare not take my eyes off it in

49

00:03:55,869 --> 00:03:53,840

case anything happened so I moved over

50

00:03:59,649 --> 00:03:55,879

to this end of the window opened the

51
00:04:02,710 --> 00:03:59,659
window frame and just listened and there

52
00:04:04,660 --> 00:04:02,720
was absolute silence now we're in a very

53
00:04:07,360 --> 00:04:04,670
quiet lane where quote away from the

54
00:04:09,309 --> 00:04:07,370
road so we were used to not hearing

55
00:04:11,920 --> 00:04:09,319
anything so if we go to the window could

56
00:04:15,130 --> 00:04:11,930
you point to the exact part the sky we

57
00:04:16,629 --> 00:04:15,140
saw yes okay so I was sitting there so I

58
00:04:20,140 --> 00:04:16,639
would have just walked up to the window

59
00:04:22,029 --> 00:04:20,150
to look the houses you can see across

60
00:04:25,150 --> 00:04:22,039
the village the other side of the road

61
00:04:28,150 --> 00:04:25,160
there over and over and normally they

62
00:04:30,159 --> 00:04:28,160
have got one or two lights on in there

63
00:04:33,129 --> 00:04:30,169

in their houses this which I can see

64

00:04:36,279 --> 00:04:33,139

from here on that particular instance

65

00:04:39,250 --> 00:04:36,289

there was nothing visible and I was

66

00:04:42,550 --> 00:04:39,260

probably standing reasonably close to

67

00:04:47,469 --> 00:04:42,560

the window when I was my attention was

68

00:04:49,320 --> 00:04:47,479

drawn up to that angle there so as I was

69

00:04:51,730 --> 00:04:49,330

standing here looking up to the window

70

00:04:52,180 --> 00:04:51,740

to see whether the lights are on over

71

00:04:55,620 --> 00:04:52,190

there

72

00:04:58,480 --> 00:04:55,630

I noticed three bright white lights in a

73

00:05:01,779 --> 00:04:58,490

triangular formation that had just

74

00:05:06,129 --> 00:05:01,789

passed over the lane and the back to

75

00:05:07,890 --> 00:05:06,139

lights lined up accurately with the run

76

00:05:10,200 --> 00:05:07,900

of our gathering

77

00:05:13,770 --> 00:05:10,210

which to me indicated that it was

78

00:05:16,560 --> 00:05:13,780

crossing the lane at 90 degrees it just

79

00:05:21,480 --> 00:05:16,570

carried on very very slowly over there

80

00:05:29,640 --> 00:05:21,490

and I then moved to open the window so

81

00:05:33,480 --> 00:05:29,650

have a listen and even now you can hear

82

00:05:36,140 --> 00:05:33,490

that is virtually no sound at all so I

83

00:05:39,810 --> 00:05:36,150

watched it from here for a while until

84

00:05:41,760 --> 00:05:39,820

it passed over the trees over there and

85

00:05:43,170 --> 00:05:41,770

then God's finger and fainter and

86

00:05:46,890 --> 00:05:43,180

fainter as it disappeared in the

87

00:05:50,220 --> 00:05:46,900

distance over to West cross ultimately

88

00:05:52,290 --> 00:05:50,230

out over Swansea they presumably okay so

89

00:05:56,490 --> 00:05:52,300

this would mean a west to easterly

90

00:05:58,740 --> 00:05:56,500

direction a west taste well you say

91

00:06:00,120 --> 00:05:58,750

those lights on it how great were the

92

00:06:01,980 --> 00:06:00,130

whites and I mean looking at the Jets

93

00:06:03,080 --> 00:06:01,990

and you just mentioned before to us I

94

00:06:09,920 --> 00:06:03,090

think that there was

95

00:06:14,070 --> 00:06:09,930

you see Jets come across the Jets have

96

00:06:19,740 --> 00:06:14,080

strobe lights on them which exactly

97

00:06:25,230 --> 00:06:19,750

these lights I would estimate but as

98

00:06:26,640 --> 00:06:25,240

bright as Venus or the space station

99

00:06:29,220 --> 00:06:26,650

going over okay in about the same time

100

00:06:31,890 --> 00:06:29,230

but the same size it you could see it

101

00:06:33,990 --> 00:06:31,900

wasn't a spotted light it was it

102

00:06:35,550 --> 00:06:34,000

actually had a physical shape but you

103

00:06:40,950 --> 00:06:35,560

know they need to be run I know it's

104

00:06:43,380 --> 00:06:40,960

difficult it's very difficult without

105

00:06:45,360 --> 00:06:43,390

any cross reference to see even if

106

00:06:47,010 --> 00:06:45,370

anybody asks it's Signet we you know we

107

00:06:49,140 --> 00:06:47,020

would have been able to say that you

108

00:06:50,820 --> 00:06:49,150

know taking sort of triangulation from

109

00:06:52,890 --> 00:06:50,830

different areas we could have worked

110

00:06:55,800 --> 00:06:52,900

over the how to proceed morning but I

111

00:06:56,879 --> 00:06:55,810

would say that going from the angle and

112

00:06:59,459 --> 00:06:56,889

the speed at which

113

00:07:04,050 --> 00:06:59,469

travelled across there initially I

114

00:07:07,920 --> 00:07:04,060

thought it would have to be at sort of

115

00:07:09,869 --> 00:07:07,930

commercial airline height because it was

116

00:07:12,570 --> 00:07:09,879

going above the speed that a plane would

117

00:07:14,700 --> 00:07:12,580

be going but then thinking about it if

118

00:07:17,459 --> 00:07:14,710

that was at the same height as a

119

00:07:20,189 --> 00:07:17,469

commercial flight the the lights on it

120

00:07:25,019 --> 00:07:20,199

would have been brilliantly bright and

121

00:07:26,249 --> 00:07:25,029

very large and that that was based

122

00:07:29,279 --> 00:07:26,259

purely on the speed that it was

123

00:07:31,850 --> 00:07:29,289

traveling now then considering that

124

00:07:37,200 --> 00:07:31,860

commercial flights go over at about

125

00:07:38,999 --> 00:07:37,210

35,000 feet I'm really reasonably

126
00:07:42,869 --> 00:07:39,009
certain that this was no way anywhere

127
00:07:44,399 --> 00:07:42,879
much higher than possibly 500 2,000 feet

128
00:07:47,189 --> 00:07:44,409
you couldn't physically make any sort of

129
00:07:49,019 --> 00:07:47,199
physical form of it no nothing at all it

130
00:07:50,939 --> 00:07:49,029
is exactly the same color is the

131
00:07:53,070 --> 00:07:50,949
backroom sky it would definitely say it

132
00:07:54,779 --> 00:07:53,080
was one object wait see what it seemed

133
00:07:57,689 --> 00:07:54,789
even one option on three lights they

134
00:08:00,719 --> 00:07:57,699
didn't vary in distance apart at all

135
00:08:03,779 --> 00:08:00,729
they maintained the formation as they

136
00:08:05,999 --> 00:08:03,789
went yes it was the race at the time but

137
00:08:09,360 --> 00:08:06,009
what people were seeing a lot that night

138
00:08:09,899 --> 00:08:09,370

were planes mean wreaths fair Walton in

139

00:08:11,490 --> 00:08:09,909

flight

140

00:08:14,999 --> 00:08:11,500

do you think there's a possibility of

141

00:08:17,399 --> 00:08:15,009

that I don't think so if if those were

142

00:08:19,200 --> 00:08:17,409

three commercial or three military

143

00:08:22,409 --> 00:08:19,210

planes eaten

144

00:08:24,149 --> 00:08:22,419

I reckon that if they were at that sort

145

00:08:26,909 --> 00:08:24,159

of height 35,000 feet they'd have been

146

00:08:29,309 --> 00:08:26,919

well by the part so there's no way there

147

00:08:31,860 --> 00:08:29,319

could be refueling at that very distance

148

00:08:34,319 --> 00:08:31,870

and they made no attempt to move

149

00:08:37,380 --> 00:08:34,329

together which was what made me think

150

00:08:40,319 --> 00:08:37,390

that it was a solid object which I

151
00:08:42,329 --> 00:08:40,329
couldn't see I was desperately hoping I

152
00:08:44,340 --> 00:08:42,339
could see something the distance apart

153
00:08:46,620 --> 00:08:44,350
that the lights were if it had been very

154
00:08:49,170 --> 00:08:46,630
high up in the sky it would have been

155
00:08:51,540 --> 00:08:49,180
what size it would have been a mile by

156
00:08:52,889 --> 00:08:51,550
mile I reckon so that maybe was a bit

157
00:08:55,190 --> 00:08:52,899
lower it was quite a bit lower

158
00:08:57,440 --> 00:08:55,200
I'm convinced it was a

159
00:09:00,260 --> 00:08:57,450
quite a quite a lot lower than that and

160
00:09:02,390 --> 00:09:00,270
moving probably nothing more than about

161
00:09:05,030 --> 00:09:02,400
30 to 40 miles an hour to bring you

162
00:09:06,140 --> 00:09:05,040
silently completely silent yeah and then

163
00:09:08,270 --> 00:09:06,150

you observed it until it just

164

00:09:10,310 --> 00:09:08,280

disappeared out of view it disappeared

165

00:09:13,100 --> 00:09:10,320

out of you didn't do anything else it

166

00:09:14,780 --> 00:09:13,110

just flew in a dead straight line and it

167

00:09:17,210 --> 00:09:14,790

obviously got smaller and smaller and

168

00:09:19,250 --> 00:09:17,220

smaller the let's maintain their

169

00:09:22,280 --> 00:09:19,260

relative positions as they went across

170

00:09:26,990 --> 00:09:22,290

the field and it just disappeared behind

171

00:09:31,040 --> 00:09:27,000

the trees eventually it seemed like I

172

00:09:37,220 --> 00:09:31,050

was but it was your heart in your chest

173

00:09:41,600 --> 00:09:37,230

oh yes yeah yeah because I'd been a fan

174

00:09:43,790 --> 00:09:41,610

of sci-fi for years I think it was not

175

00:09:45,710 --> 00:09:43,800

long after Close Encounters of the Third

176

00:09:47,390 --> 00:09:45,720

Kind do you think that affected your

177

00:09:49,970 --> 00:09:47,400

judgment or do you think there was this

178

00:09:51,830 --> 00:09:49,980

a crystal clear you know it was crystal

179

00:09:53,960 --> 00:09:51,840

clear I I think I said in my email

180

00:09:58,760 --> 00:09:53,970

earlier that with my background as an

181

00:10:03,160 --> 00:09:58,770

engineer I am sort of trained to think

182

00:10:05,780 --> 00:10:03,170

logically and not put any any sort of

183

00:10:08,600 --> 00:10:05,790

intonation or anything in the way I say

184

00:10:10,490 --> 00:10:08,610

things I don't I don't want to indicate

185

00:10:12,410 --> 00:10:10,500

that it was anything other than what I

186

00:10:15,170 --> 00:10:12,420

saw it didn't do anything it just yeah

187

00:10:17,540 --> 00:10:15,180

move slowly across the sky there were no

188

00:10:19,460 --> 00:10:17,550

laser beams in or flashing on and that's

189

00:10:21,500 --> 00:10:19,470

no flashing lights nothing at all

190

00:10:24,380 --> 00:10:21,510

how long was it between the time the

191

00:10:26,870 --> 00:10:24,390

electricity failed when you actually

192

00:10:34,870 --> 00:10:26,880

noticed as long as it took me to get up

193

00:10:40,500 --> 00:10:37,500

electricity coming back on

194

00:10:42,870 --> 00:10:40,510

huh it was probably about half an hour

195

00:10:44,310 --> 00:10:42,880

later everything because I think when

196

00:10:46,530 --> 00:10:44,320

the Alpha City goes off they died the

197

00:10:48,780 --> 00:10:46,540

hack they have either have to get a man

198

00:10:50,820 --> 00:10:48,790

out to the local substation to reset the

199

00:10:52,200 --> 00:10:50,830

circuit breaker more possibly they may

200

00:10:54,360 --> 00:10:52,210

have been able to do a dream in early

201
00:10:57,480 --> 00:10:54,370
another important point in the paper the

202
00:10:59,910 --> 00:10:57,490
following day the cause of the power

203
00:11:02,270 --> 00:10:59,920
failure the power company said it was

204
00:11:05,190 --> 00:11:02,280
probably caused by a branch of a tree

205
00:11:07,500 --> 00:11:05,200
coming down in strong wind and knocking

206
00:11:15,300 --> 00:11:07,510
out the power on the father Lambert was

207
00:11:18,630 --> 00:11:15,310
there any wind so I I was beginning to

208
00:11:21,060 --> 00:11:18,640
wonder haven't seen the report and even

209
00:11:23,130 --> 00:11:21,070
post the following night whether what

210
00:11:24,720 --> 00:11:23,140
I'd seen was something completely

211
00:11:28,260 --> 00:11:24,730
different from what everybody else had

212
00:11:30,630 --> 00:11:28,270
seen to the best of my knowledge I have

213
00:11:32,430 --> 00:11:30,640

not met or heard of anybody else who

214

00:11:36,660 --> 00:11:32,440

observed this particular one going over

215

00:11:40,380 --> 00:11:36,670

bishops then and I don't know whether it

216

00:11:43,680 --> 00:11:40,390

came in over pan out or kettle and then

217

00:11:46,950 --> 00:11:43,690

headed out all the way across but we

218

00:11:49,290 --> 00:11:46,960

have plotted from witness statements and

219

00:11:51,480 --> 00:11:49,300

reports that there were dozens of

220

00:11:53,670 --> 00:11:51,490

reports going off triangles going all

221

00:11:58,140 --> 00:11:53,680

directions around Swansea mm-hmm

222

00:12:00,270 --> 00:11:58,150

actually go up the tunnel but yeah so

223

00:12:01,800 --> 00:12:00,280

it's sometimes at the same time so

224

00:12:02,430 --> 00:12:01,810

there's it looks like there were several

225

00:12:04,830 --> 00:12:02,440

objects

226

00:12:06,560 --> 00:12:04,840

yeah doing different things doing two

227

00:12:08,550 --> 00:12:06,570

different directions at the same time

228

00:12:12,630 --> 00:12:08,560

can we talk down to that particular

229

00:12:14,010 --> 00:12:12,640

night turn Oh only on the basis of what

230

00:12:16,200 --> 00:12:14,020

appeared in the Evening Post the

231

00:12:17,280 --> 00:12:16,210

following day right because I remember

232

00:12:19,320 --> 00:12:17,290

going into work and telling my

233

00:12:23,250 --> 00:12:19,330

colleagues that I had seen something in

234

00:12:27,180 --> 00:12:23,260

the sky the night before oh yes ridicule

235

00:12:28,790 --> 00:12:27,190

critical yes yeah and I told them of the

236

00:12:30,920 --> 00:12:28,800

power failure

237

00:12:32,540 --> 00:12:30,930

that meant anything to anybody else it

238

00:12:35,480 --> 00:12:32,550

was reported in the paper so yeah that's

239

00:12:38,829 --> 00:12:35,490

he's yeah absolute I don't know that I I

240

00:12:42,920 --> 00:12:38,839

was aware that there is a link between

241

00:12:46,639 --> 00:12:42,930

power outages and American UFO was being

242

00:12:49,280 --> 00:12:46,649

observed so I thought this was going to

243

00:12:51,800 --> 00:12:49,290

be my my sort of X Phi involvement but

244

00:12:54,050 --> 00:12:51,810

it was just rather boring everything did

245

00:12:57,910 --> 00:12:54,060

it just carried on 22 years ago although

246

00:13:02,180 --> 00:12:57,920

yeah so how long did they mercilessly

247

00:13:04,310 --> 00:13:02,190

2014 work they just roped it off because

248

00:13:07,430 --> 00:13:04,320

they they haven't seen even posts to

249

00:13:11,030 --> 00:13:07,440

that point yes so because it was first

250

00:13:13,040 --> 00:13:11,040

thing the following morning but I think

251

00:13:15,290 --> 00:13:13,050

I think there was a little bit more

252

00:13:17,569 --> 00:13:15,300

leeway once once the evenin post has

253

00:13:19,490 --> 00:13:17,579

been seen and that I wasn't the only one

254

00:13:21,170 --> 00:13:19,500

to see that and you're lucky then

255

00:13:23,210 --> 00:13:21,180

because you should see some of them me

256

00:13:25,579 --> 00:13:23,220

and the fellas that I talk to it's just

257

00:13:29,930 --> 00:13:25,589

like you know the skepticism is is

258

00:13:32,210 --> 00:13:29,940

breathtaking right and oh you've never

259

00:13:36,769 --> 00:13:32,220

seen anything since nothing one other

260

00:13:40,130 --> 00:13:36,779

one off yeah and I I did say in in my

261

00:13:43,579 --> 00:13:40,140

email that I've been watching the sky

262

00:13:46,460 --> 00:13:43,589

since I was about 11 and I desperately

263

00:13:48,710 --> 00:13:46,470

wanted to see a UFO you know I was

264

00:13:52,819 --> 00:13:48,720

interested in astronomy you know I could

265

00:13:55,850 --> 00:13:52,829

spot some of the constellations so I was

266

00:13:58,160 --> 00:13:55,860

used to looking at the sky and shooting

267

00:14:02,329 --> 00:13:58,170

stars and what those were I've seen a

268

00:14:07,300 --> 00:14:02,339

comment I've seen the space station go

269

00:14:11,360 --> 00:14:07,310

over now if we had three space stations

270

00:14:14,150 --> 00:14:11,370

flying over in a formation that would be

271

00:14:16,220 --> 00:14:14,160

roughly what I saw because the speed at

272

00:14:18,590 --> 00:14:16,230

which the space station goes over the

273

00:14:21,710 --> 00:14:18,600

speed at which planes go over and it was

274

00:14:23,780 --> 00:14:21,720

the same sort of relative speed to what

275

00:14:26,060 --> 00:14:23,790

that seemed to be doing and obviously

276

00:14:27,350 --> 00:14:26,070

the this I think was probably less than

277

00:14:29,490 --> 00:14:27,360

a thousand feet up

278

00:14:32,700 --> 00:14:29,500

planes are 35

279

00:14:34,950 --> 00:14:32,710

on the Space Station's about 220 miles

280

00:14:37,260 --> 00:14:34,960

I'm doing 70 and a half thousand miles

281

00:14:38,760 --> 00:14:37,270

an hour or that ones so you can see that

282

00:14:40,800 --> 00:14:38,770

obviously the higher there are people

283

00:14:44,640 --> 00:14:40,810

already appearing to be going up at the

284

00:14:46,290 --> 00:14:44,650

same speed because of the the angle that

285

00:14:47,400 --> 00:14:46,300

you lock into things and the fact that

286

00:14:49,290 --> 00:14:47,410

they're further away and they're

287

00:14:51,570 --> 00:14:49,300

traveling faster they end up looking

288

00:14:54,420 --> 00:14:51,580

this to be traveling the same sort of

289

00:14:56,430 --> 00:14:54,430

speed which was why I was misled

290

00:14:59,970 --> 00:14:56,440

initially when I saw it to think that it

291

00:15:02,670 --> 00:14:59,980

was a commercial aircraft height because

292

00:15:05,730 --> 00:15:02,680

I thought whatever those things are they

293

00:15:10,140 --> 00:15:05,740

they can't be as low as they love to be

294

00:15:12,960 --> 00:15:10,150

but I think they were so it was it

295

00:15:16,830 --> 00:15:12,970

seemed to be that it was a heavier than

296

00:15:24,360 --> 00:15:16,840

air craft but which was just traveling

297

00:15:26,390 --> 00:15:24,370

at possibly 30 to 40 miles an hour no

298

00:15:28,650 --> 00:15:26,400

there was no house next door at the time

299

00:15:30,480 --> 00:15:28,660

there was normally delivered next door

300

00:15:31,560 --> 00:15:30,490

so should I shouldn't have seen anything

301

00:15:37,230 --> 00:15:31,570

anyway

302

00:15:39,030 --> 00:15:37,240

but it was if the power hadn't gone off

303

00:15:39,870 --> 00:15:39,040

I wouldn't have seen it because I

304

00:15:41,970 --> 00:15:39,880

wouldn't have been looking out the

305

00:15:45,120 --> 00:15:41,980

window for it right exactly

306

00:15:47,250 --> 00:15:45,130

at the time we because we had got an

307

00:15:49,740 --> 00:15:47,260

overhead power feed here we've got a

308

00:15:52,770 --> 00:15:49,750

circuit breaker on the incoming mains

309

00:15:54,930 --> 00:15:52,780

and lightning would tripped I felt as

310

00:15:57,480 --> 00:15:54,940

well but we hear that got crap because

311

00:15:58,920 --> 00:15:57,490

is a mechanical breaker search so if

312

00:16:00,750 --> 00:15:58,930

there was lightning and it went off

313

00:16:02,580 --> 00:16:00,760

you'd hear the crack so I've got reset

314

00:16:04,560 --> 00:16:02,590

it and everything would be fine but

315

00:16:07,650 --> 00:16:04,570

don't this physical a night it was just

316

00:16:10,380 --> 00:16:07,660

a power cut there was no nothing to

317

00:16:12,480 --> 00:16:10,390

account for it other than what I saw it

318

00:16:16,680 --> 00:16:12,490

at the window after otherwise was it's

319

00:16:21,270 --> 00:16:16,690

clear he does quickly clear scene starts

320

00:16:24,360 --> 00:16:21,280

yeah I was hoping that this object would

321

00:16:26,880 --> 00:16:24,370

fly underneath a star and block it out

322

00:16:29,970 --> 00:16:26,890

so that I could then determine that it

323

00:16:31,230 --> 00:16:29,980

was a solid object but unfortunately

324

00:16:35,730 --> 00:16:31,240

didn't and of course the further away

325

00:16:39,010 --> 00:16:37,870

well first we're getting in touch with

326

00:16:42,550 --> 00:16:39,020

us my pleasure

327

00:16:45,040 --> 00:16:42,560

little piece of the jigsaw yeah Thank

328

00:16:45,640 --> 00:16:45,050

You appreciate it thank you thank you

329

00:16:48,160 --> 00:16:45,650

later

330

00:16:50,430 --> 00:16:48,170

salmon said it's a piece of a jigsaw has

331

00:16:53,050 --> 00:16:50,440

been so many reports of these triangles

332

00:16:54,880 --> 00:16:53,060

we're trying to get to trace as many

333

00:16:58,390 --> 00:16:54,890

people as we can so we appreciate you

334

00:17:01,360 --> 00:16:58,400

coming forward it's good well it is at

335

00:17:03,550 --> 00:17:01,370

the time because there were so many

336

00:17:05,850 --> 00:17:03,560

conflicting reports that evening post

337

00:17:09,090 --> 00:17:05,860

they thought well it's gone now it's

338

00:17:12,939 --> 00:17:09,100

reported - I don't had no idea and

339

00:17:14,829 --> 00:17:12,949

because mine was markedly different to

340

00:17:17,410 --> 00:17:14,839

what other people reporting I thought

341

00:17:19,540 --> 00:17:17,420

well then perhaps I didn't see what I

342

00:17:22,900 --> 00:17:19,550

thought they saw but I convinced it I

343

00:17:25,600 --> 00:17:22,910

you said your wife was up to them yeah

344

00:17:27,880 --> 00:17:25,610

yeah so you didn't share it with anybody

345

00:17:29,860 --> 00:17:27,890

no witnesses at all no other than me

346

00:17:32,500 --> 00:17:29,870

What did he say - when she got on well I

347

00:17:34,540 --> 00:17:32,510

told her and I don't think she believed

348

00:17:36,160 --> 00:17:34,550

me either and with the passage of time

349

00:17:44,190 --> 00:17:36,170

she's completely forgotten that I ever

350

00:17:47,260 --> 00:17:44,200

said it no how long do you know 68 no no

351

00:17:52,660 --> 00:17:47,270

it's 34 did you find for all time

352

00:17:58,270 --> 00:17:52,670

yeah so I had all my faculties that I've

353

00:17:59,920 --> 00:17:58,280

been drinking no I think I just brought

354

00:18:01,270 --> 00:17:59,930

the children debates but they've got

355

00:18:03,130 --> 00:18:01,280

NORAD connection we're doing that

356

00:18:06,250 --> 00:18:03,140

because it was something that you do on

357

00:18:08,350 --> 00:18:06,260

a regular basis and it wasn't until the

358

00:18:12,100 --> 00:18:08,360

power went off the myth made the Knights

359

00:18:15,640 --> 00:18:12,110

at all remarkable but it was a

360

00:18:17,980 --> 00:18:15,650

remarkable like it was yeah and you

361

00:18:20,110 --> 00:18:17,990

haven't had any reports from anywhere

362

00:18:21,790 --> 00:18:20,120

jeonggi our that might have seen the

363

00:18:23,290 --> 00:18:21,800

same sort of thing that night not on

364

00:18:24,850 --> 00:18:23,300

that night not reviewed we want lots of

365

00:18:26,680 --> 00:18:24,860

thoughts from the kettle and Bishop

366

00:18:29,020 --> 00:18:26,690

stone area oh yeah different things

367

00:18:30,850 --> 00:18:29,030

different lights man I feel very very so

368

00:18:36,580 --> 00:18:30,860

the parts of swansea Morrision sketti

369

00:18:38,080 --> 00:18:36,590

things yeah was there any feelings of

370

00:18:40,600 --> 00:18:38,090

constantly issue at the time you know

371

00:18:42,010 --> 00:18:40,610

did you earn was it kind of like not

372

00:18:43,630 --> 00:18:42,020

going to sleep till three o'clock in the

373

00:18:45,520 --> 00:18:43,640

morning or was it did it clean your mind

374

00:18:48,580 --> 00:18:45,530

oh oh yes it would have played in my

375

00:18:51,370 --> 00:18:48,590

mind because as I said it was not long

376

00:18:55,210 --> 00:18:51,380

after closely covers that I needed come

377

00:18:57,340 --> 00:18:55,220

out so I was fully expecting I liked

378

00:19:00,460 --> 00:18:57,350

show at some point from this but it

379

00:19:04,570 --> 00:19:00,470

never happened it was it was just three

380

00:19:06,400 --> 00:19:04,580

nights with with no discernible body to

381

00:19:09,100 --> 00:19:06,410

it and they they just went in a straight

382

00:19:11,500 --> 00:19:09,110

line across the sky but because of the

383

00:19:14,490 --> 00:19:11,510

speed they were moving I'm convinced

384

00:19:16,299 --> 00:19:14,500

they were they were relatively low

385

00:19:19,150 --> 00:19:16,309

though we really appreciate you coming

386

00:19:21,040 --> 00:19:19,160

for because it's it's probably spongy's

387

00:19:22,450 --> 00:19:21,050

mass sighting as well there's only one

388

00:19:25,150 --> 00:19:22,460

other thing and then as far as you know

389

00:19:27,520 --> 00:19:25,160

certain mass thank you let me know of it

390

00:19:32,049 --> 00:19:27,530

yeah it's like our Phoenix lights in the

391

00:19:33,910 --> 00:19:32,059

way if I could carry on going I reckon

392

00:19:37,299 --> 00:19:33,920

it would have gone out over West cross

393

00:19:40,180 --> 00:19:37,309

and up to Swansea day a man was plus

394

00:19:44,110 --> 00:19:40,190

Albert was headed but because you can't

395

00:19:46,570 --> 00:19:44,120

actually be accurate about which handle

396

00:19:47,770 --> 00:19:46,580

it went I think it might have gone over

397

00:19:52,270 --> 00:19:47,780

to what Swansea docks

398

00:19:54,250 --> 00:19:52,280

if it hadn't changed course but but it

399

00:19:55,720 --> 00:19:54,260

appears that nobody has saw what I saw

400

00:19:58,450 --> 00:19:55,730

that night

401
00:20:00,340 --> 00:19:58,460
killed by Hill yeah yeah what I'm going

402
00:20:03,610 --> 00:20:00,350
to do it has been log in the directions

403
00:20:05,950 --> 00:20:03,620
of all the sightings to see ya correlate

404
00:20:07,320 --> 00:20:05,960
with each other yeah see there's been

405
00:20:09,270 --> 00:20:07,330
several sightings into

406
00:20:12,090 --> 00:20:09,280
positions over Swansea on the same night

407
00:20:13,850 --> 00:20:12,100
around the same time yeah so it looks

408
00:20:17,370 --> 00:20:13,860
like there was more than one object

409
00:20:19,320 --> 00:20:17,380
observed so I was interested in to see

410
00:20:22,290 --> 00:20:19,330
if we can sort of plot them and see what

411
00:20:24,840 --> 00:20:22,300
were actually measuring yeah I've got a

412
00:20:28,380 --> 00:20:24,850
vague recollection that in the Evening

413
00:20:33,060 --> 00:20:28,390

Post at the time there was a mention of

414

00:20:38,070 --> 00:20:33,070

a 14 year old boy in the ship Stone who

415

00:20:39,750 --> 00:20:38,080

was logging UFO reports on the in the

416

00:20:42,900 --> 00:20:39,760

late nineties yeah yeah

417

00:20:45,570 --> 00:20:42,910

Neil spring all right okay so you

418

00:20:47,460 --> 00:20:45,580

obviously know of him then yeah he's

419

00:20:50,130 --> 00:20:47,470

been in the press again recently so he's

420

00:20:52,230 --> 00:20:50,140

writing fiction though right

421

00:20:55,980 --> 00:20:52,240

as soon as called the Watchers which has

422

00:20:57,660 --> 00:20:55,990

been made for TV no Scott right okay but

423

00:21:00,870 --> 00:20:57,670

at the time yeah he was he was doing

424

00:21:04,650 --> 00:21:00,880

quite a lot of research hmm I had no

425

00:21:07,620 --> 00:21:04,660

idea when or where he was so I didn't

426

00:21:10,950 --> 00:21:07,630

come didn't try and contact into to be

427

00:21:15,840 --> 00:21:10,960

poor today so because I as I say I was a

428

00:21:17,430 --> 00:21:15,850

little bit concerned that what I had

429

00:21:19,500 --> 00:21:17,440

seen being so different from what

430

00:21:21,210 --> 00:21:19,510

everybody else it seemed that I might

431

00:21:28,280 --> 00:21:21,220

have been believed so I thought I'll

432

00:21:28,290 --> 00:21:32,120

was going to y'all

433

00:21:40,039 --> 00:21:36,860

because of my background with astronomy

434

00:21:43,460 --> 00:21:40,049

and interesting sci-fi yeah as soon as I

435

00:21:48,830 --> 00:21:43,470

saw three lights and a triangle I knew

436

00:21:50,450 --> 00:21:48,840

what it was and I was there were all

437

00:21:52,100 --> 00:21:50,460

sorts of things going through my mind am

438

00:21:56,390 --> 00:21:52,110

I going to be abducted was one of them

439

00:21:59,180 --> 00:21:56,400

yeah really yeah because because I'd

440

00:22:01,850 --> 00:21:59,190

open the window I was knocking straight

441

00:22:04,279 --> 00:22:01,860

up at it it crossed my mind this is Lisa

442

00:22:06,649 --> 00:22:04,289

being gonna come down and whisk me off

443

00:22:10,460 --> 00:22:06,659

somewhere but nothing like that happened

444

00:22:12,620 --> 00:22:10,470

at all it's it is just through over and

445

00:22:13,970 --> 00:22:12,630

there was nothing really to report about

446

00:22:18,049 --> 00:22:13,980

it only the fact that it was a

447

00:22:20,210 --> 00:22:18,059

triangular shape it also occurred to me

448

00:22:21,260 --> 00:22:20,220

whether it might have been some secret

449

00:22:23,570 --> 00:22:21,270

military craft

450

00:22:25,880 --> 00:22:23,580

you know but they were testing but I

451

00:22:28,220 --> 00:22:25,890

thought why would they duel out over

452

00:22:30,409 --> 00:22:28,230

Bishop's turn on a winter's night which

453

00:22:31,940 --> 00:22:30,419

was clear you know they loved it that

454

00:22:34,190 --> 00:22:31,950

same it didn't make any sense at all

455

00:22:37,430 --> 00:22:34,200

even though there's there were US

456

00:22:45,560 --> 00:22:37,440

military Danny Brody at the time but in

457

00:22:47,539 --> 00:22:45,570

Pembrokeshire come back I'm making a

458

00:22:48,440 --> 00:22:47,549

hundred calls for this again I'm waking

459

00:22:52,010 --> 00:22:48,450

up to worry again

460

00:22:54,950 --> 00:22:52,020

it was it was it around as IAT I I don't

461

00:22:58,549 --> 00:22:54,960

think I had any real anxiety about

462

00:23:01,010 --> 00:22:58,559

anything coming back because I watched

463

00:23:03,649 --> 00:23:01,020

it until I could no longer see it it

464

00:23:05,630 --> 00:23:03,659

disappeared in the distance yeah and it

465

00:23:08,510 --> 00:23:05,640

didn't it didn't fly off it didn't do

466

00:23:12,950 --> 00:23:08,520

any aerobatic or impossible maneuvers or

467

00:23:14,570 --> 00:23:12,960

anywhere and having seen it from just in

468

00:23:16,669 --> 00:23:14,580

front of the house and disappear in the

469

00:23:20,810 --> 00:23:16,679

distance I thought right that's it

470

00:23:23,149 --> 00:23:20,820

that's over and I mean for a few nights

471

00:23:26,269 --> 00:23:23,159

I was I was looking up to the window to

472

00:23:28,700 --> 00:23:26,279

see if anything else was about it gave

473

00:23:30,690 --> 00:23:28,710

up after a while because in the last 30

474

00:23:33,430 --> 00:23:30,700

odd years I've not seen

475

00:23:35,350 --> 00:23:33,440

I asked this question before was it

476

00:23:36,370 --> 00:23:35,360

every Union to sort of know like a few

477

00:23:38,380 --> 00:23:36,380

years down the lane

478

00:23:40,960 --> 00:23:38,390

I wish I could see Malone you know

479

00:23:44,080 --> 00:23:40,970

almost like boom in yes

480

00:23:46,180 --> 00:23:44,090

yeah yet to confer because because I

481

00:23:48,330 --> 00:23:46,190

felt that I was possibly the only one to

482

00:23:52,120 --> 00:23:48,340

see it because of the power cut yeah

483

00:23:53,890 --> 00:23:52,130

that I I was rather hoping that I could

484

00:23:56,070 --> 00:23:53,900

see something asked me maybe maybe

485

00:24:03,840 --> 00:23:56,080

something completely different so it's

486

00:24:06,580 --> 00:24:03,850

just just to see it once in 60 odd years

487

00:24:09,430 --> 00:24:06,590

you've you've got no chance to you know

488

00:24:12,610 --> 00:24:09,440

to confirm that anybody else saw it or

489

00:24:14,440 --> 00:24:12,620

what it was that you saw so it'll

490

00:24:18,610 --> 00:24:14,450

forever remain a mystery it sounds like

491

00:24:21,190 --> 00:24:18,620

he said but what I'm glad experience

492

00:24:23,560 --> 00:24:21,200

what do you deep down feelings you know

493

00:24:25,660 --> 00:24:23,570

you deep down inside that he would

494

00:24:28,890 --> 00:24:25,670

rather do you really think that that was

495

00:24:33,190 --> 00:24:28,900

real well I'm convinced it is real

496

00:24:38,680 --> 00:24:33,200

I've seen some reports on the internet

497

00:24:42,070 --> 00:24:38,690

that the three three worked in a track

498

00:24:46,450 --> 00:24:42,080

configuration is an atmospheric

499

00:24:50,200 --> 00:24:46,460

condition and I thought well they were

500

00:24:51,880 --> 00:24:50,210

all perfectly aligned on the corners of

501
00:24:53,890 --> 00:24:51,890
a triangle yeah but that fee was just

502
00:24:56,140 --> 00:24:53,900
recently came up yeah it didn't they

503
00:24:59,500 --> 00:24:56,150
didn't move it they didn't fluctuate at

504
00:25:02,470 --> 00:24:59,510
all they're a constant white light but

505
00:25:05,410 --> 00:25:02,480
again a bluish white light and the thing

506
00:25:08,410 --> 00:25:05,420
was that it wasn't a downward facing

507
00:25:11,110 --> 00:25:08,420
spotlight because as it disappeared into

508
00:25:13,390 --> 00:25:11,120
the distance I could still see them so

509
00:25:16,960 --> 00:25:13,400
so think it'll be another manual it was

510
00:25:21,130 --> 00:25:16,970
well I think it might have been a sort

511
00:25:23,170 --> 00:25:21,140
of semi surplus variable light on on the

512
00:25:25,480 --> 00:25:23,180
bottom of the craft so that it was

513
00:25:27,880 --> 00:25:25,490

visible from directly underneath and

514

00:25:32,170 --> 00:25:27,890

from behind as they disappeared while

515

00:25:36,700 --> 00:25:32,180

because the the three lights went off

516

00:25:38,590 --> 00:25:36,710

into the distance and even just before

517

00:25:40,090 --> 00:25:38,600

it disappeared it still didn't block

518

00:25:42,220 --> 00:25:40,100

like stars you could still see the

519

00:25:44,860 --> 00:25:42,230

strange see the three well as if he was

520

00:25:46,990 --> 00:25:44,870

a flat triangle hmm you'd see it close

521

00:25:48,910 --> 00:25:47,000

up yeah throw underneath sauce and

522

00:25:51,010 --> 00:25:48,920

Susannah three but as it goes often the

523

00:25:56,410 --> 00:25:51,020

dis done stuff I never [h__\h] didn't

524

00:26:00,550 --> 00:25:56,420

flatten flatten it yeah yeah so again

525

00:26:03,400 --> 00:26:00,560

one of those things I can't confirm that

526

00:26:05,800 --> 00:26:03,410

it was solid wishing desperately sorry

527

00:26:08,710 --> 00:26:05,810

about cuz I would love to us helped you

528

00:26:11,080 --> 00:26:08,720

with that it definitely had no red

529

00:26:13,600 --> 00:26:11,090

lights on it like some people have seen

530

00:26:16,390 --> 00:26:13,610

and it definitely had no strobe lights

531

00:26:18,580 --> 00:26:16,400

or anything else other than the

532

00:26:19,750 --> 00:26:18,590

configuration the configuration of the

533

00:26:21,490 --> 00:26:19,760

three lights

534

00:26:22,540 --> 00:26:21,500

did it change at all no it mean to

535

00:26:23,620 --> 00:26:22,550

suggest that they were three all

536

00:26:26,200 --> 00:26:23,630

separate objects

537

00:26:28,900 --> 00:26:26,210

no it maintained its shape until either

538

00:26:31,150 --> 00:26:28,910

disappeared or the houses over that
