

1
00:00:19,890 --> 00:00:18,510
but he didn't go into any detail because

2
00:00:22,350 --> 00:00:19,900
he's not the kind of guy who wrote

3
00:00:25,680 --> 00:00:22,360
things down very much unfortunately but

4
00:00:30,350 --> 00:00:25,690
he created this Coral Castle um which is

5
00:00:33,630 --> 00:00:30,360
the most remarkable device and it's it's

6
00:00:35,760 --> 00:00:33,640
basically you can you can go and visit

7
00:00:37,770 --> 00:00:35,770
it today it's it's now what new owners

8
00:00:40,200 --> 00:00:37,780
and you can't you go in there today and

9
00:00:42,570 --> 00:00:40,210
see it if you ever in Florida please

10
00:00:45,330 --> 00:00:42,580
it's a it's a homestead in Florida on

11
00:00:48,000 --> 00:00:45,340
south of Dixie Highway please do go and

12
00:00:49,500 --> 00:00:48,010
see if you can fascinating place it's

13
00:00:50,880 --> 00:00:49,510

one of the few buildings and Florida was

14

00:00:53,280 --> 00:00:50,890

not in any way damaged by Hurricane

15

00:00:54,750 --> 00:00:53,290

Andrew that's actually in 1997 people

16

00:00:57,240 --> 00:00:54,760

actually took shelter inside that

17

00:01:00,750 --> 00:00:57,250

building during Hurricane Andrew in 90

18

00:01:04,020 --> 00:01:00,760

97 was devastated Florida this is one of

19

00:01:06,600 --> 00:01:04,030

the few buildings not damaged um it's so

20

00:01:09,360 --> 00:01:06,610

perfectly built that there was a

21

00:01:12,300 --> 00:01:09,370

revolving door made us a 10-ton block of

22

00:01:15,570 --> 00:01:12,310

coral rock which is so perfectly

23

00:01:18,420 --> 00:01:15,580

balanced that a child could push it open

24

00:01:19,590 --> 00:01:18,430

with Richard it would rotate now

25

00:01:20,850 --> 00:01:19,600

unfortunately coral castle was

26
00:01:22,890 --> 00:01:20,860
dismantled and move to a new location

27
00:01:24,870 --> 00:01:22,900
and when they put the revolving door

28
00:01:27,780 --> 00:01:24,880
back on again they couldn't get it to

29
00:01:29,790 --> 00:01:27,790
turn exposing the perfect balance at

30
00:01:31,200 --> 00:01:29,800
least Caroline and achieved and now they

31
00:01:37,360 --> 00:01:31,210
had to prop it open and put a new gate

32
00:01:40,630 --> 00:01:37,370
outside next slide please

33
00:01:42,670 --> 00:01:40,640
now Walla Edward Lee skelling was busy

34
00:01:45,400 --> 00:01:42,680
building Coral Castle this guy in

35
00:01:47,290 --> 00:01:45,410
Austria was busy watching fish swimming

36
00:01:51,220 --> 00:01:47,300
in the river this is viktor schauberger

37
00:01:52,570 --> 00:01:51,230
and he was Austrian Forester and what he

38
00:01:54,430 --> 00:01:52,580

noticed something very very interesting

39

00:01:57,160 --> 00:01:54,440

about fish he got to know the forest

40

00:01:59,650 --> 00:01:57,170

very well to know the the environment

41

00:02:01,000 --> 00:01:59,660

very well indeed and one of the things

42

00:02:03,340 --> 00:02:01,010

he noticed was that the fish under

43

00:02:04,960 --> 00:02:03,350

certain conditions in rivers when the

44

00:02:07,720 --> 00:02:04,970

waters a certain temperature in certain

45

00:02:10,419 --> 00:02:07,730

flow the fish can actually move without

46

00:02:12,820 --> 00:02:10,429

flicking their fins and he worked out

47

00:02:15,460 --> 00:02:12,830

that they will use him the energy from

48

00:02:18,310 --> 00:02:15,470

the water itself they're extracting

49

00:02:19,630 --> 00:02:18,320

energy from the water actually this is

50

00:02:21,090 --> 00:02:19,640

free energy from the zero-point field

51
00:02:23,770 --> 00:02:21,100
they were extracted through their gills

52
00:02:27,190 --> 00:02:23,780
by making the water rotate in certain

53
00:02:30,280 --> 00:02:27,200
patterns and it's really quite some

54
00:02:33,610 --> 00:02:30,290
amazing thing this he what he's

55
00:02:35,650 --> 00:02:33,620
basically saying is that this is

56
00:02:38,080 --> 00:02:35,660
something this is like this is a fish

57
00:02:39,790 --> 00:02:38,090
that has evolved to use free energy now

58
00:02:41,710 --> 00:02:39,800
he built several devices like a trout

59
00:02:44,380 --> 00:02:41,720
turbine he called it which is very very

60
00:02:45,520 --> 00:02:44,390
simple to do as I said that you don't

61
00:02:46,990 --> 00:02:45,530
need complicated engineering it's

62
00:02:49,060 --> 00:02:47,000
basically just an unusually shaped pipe

63
00:02:51,370 --> 00:02:49,070

but he managed to get this free energy

64

00:02:52,690 --> 00:02:51,380

effect using water in his pipe and he

65

00:02:56,140 --> 00:02:52,700

built several log flumes and other

66

00:02:58,720 --> 00:02:56,150

things like that now in 1938 the Nazis

67

00:03:01,780 --> 00:02:58,730

annexed Austria and they offered him a

68

00:03:03,640 --> 00:03:01,790

job he also noted the Mounties I thought

69

00:03:05,290 --> 00:03:03,650

she so he didn't work for the Nazis this

70

00:03:06,550 --> 00:03:05,300

has been used to discredit it but from

71

00:03:09,400 --> 00:03:06,560

what I gather he was an unwilling

72

00:03:11,890 --> 00:03:09,410

accomplice he just did it because if he

73

00:03:14,110 --> 00:03:11,900

said no he did ended up an account so he

74

00:03:18,040 --> 00:03:14,120

worked for the Nazis building various

75

00:03:19,090 --> 00:03:18,050

devices which maybe we'll come to it

76

00:03:22,330 --> 00:03:19,100

because maybe this is very very

77

00:03:23,740 --> 00:03:22,340

important point because the nut mounting

78

00:03:25,660 --> 00:03:23,750

technology in world war two was way

79

00:03:27,160 --> 00:03:25,670

ahead of the rest of the world we know

80

00:03:30,310 --> 00:03:27,170

they were building crude they had cruise

81

00:03:32,229 --> 00:03:30,320

missiles the Doodlebug and the v2 rocket

82

00:03:33,690 --> 00:03:32,239

this is a missile which they used to

83

00:03:35,949 --> 00:03:33,700

bombard London

84

00:03:37,720 --> 00:03:35,959

this is the start of it though they

85

00:03:40,630 --> 00:03:37,730

would completely give up developing free

86

00:03:42,220 --> 00:03:40,640

energy devices and I believe that when

87

00:03:44,830 --> 00:03:42,230

the war ended and the Nazi regime was

88

00:03:47,140 --> 00:03:44,840

destroyed the victorious Allies took

89

00:03:48,729 --> 00:03:47,150

less technology back to their hung ladz

90

00:03:50,949 --> 00:03:48,739

and continued to develop in a secret

91

00:03:52,960 --> 00:03:50,959

with the health of the scientist the

92

00:03:54,640 --> 00:03:52,970

Nazi scientists were smuggled out the

93

00:03:57,130 --> 00:03:54,650

country under false identities with

94

00:03:58,690 --> 00:03:57,140

operation in Operation Paperclip Britain

95

00:04:00,220 --> 00:03:58,700

got some of them the Soviet Union got

96

00:04:02,050 --> 00:04:00,230

some of them but America got most of

97

00:04:04,570 --> 00:04:02,060

them we know that the venom on brown the

98

00:04:06,309 --> 00:04:04,580

rocket scientist who built the Saturn

99

00:04:08,440 --> 00:04:06,319

five rocket which took men to the moon

100

00:04:09,850 --> 00:04:08,450

or maybe didn't depending on your point

101
00:04:12,699 --> 00:04:09,860
of view that's a subject for another

102
00:04:15,339 --> 00:04:12,709
talk but this Santa five rocket is huge

103
00:04:17,199 --> 00:04:15,349
space rocket took then into space Verner

104
00:04:18,340 --> 00:04:17,209
von Braun designed though but maybe

105
00:04:19,960 --> 00:04:18,350
there was a more maybe there's more

106
00:04:22,690 --> 00:04:19,970
that's the point there's a guy called

107
00:04:24,610 --> 00:04:22,700
Nick look he's written a cup couple of

108
00:04:30,460 --> 00:04:24,620
books and he's made some TV shows about

109
00:04:33,279 --> 00:04:30,470
this next slide please now every so

110
00:04:36,640 --> 00:04:33,289
often doesn't happen very often but this

111
00:04:39,340 --> 00:04:36,650
cover-up is not perfect it sometimes

112
00:04:42,360 --> 00:04:39,350
loses his grip and one day in 1989 the

113
00:04:45,760 --> 00:04:42,370

cover-up of free energy almost failed

114

00:04:48,700 --> 00:04:45,770

this is Martin Fleischmann and Stanley

115

00:04:50,350 --> 00:04:48,710

pons going public in 1989 declaring they

116

00:04:53,290 --> 00:04:50,360

had created something that they called

117

00:04:54,909 --> 00:04:53,300

cold fusion that wasn't their idea to

118

00:04:56,440 --> 00:04:54,919

call it cold fusion as and there's a

119

00:04:58,210 --> 00:04:56,450

long story behind that I think these

120

00:04:59,710 --> 00:04:58,220

there was an attempt to put this genie

121

00:05:01,270 --> 00:04:59,720

back in the bottle as soon as it was out

122

00:05:03,250 --> 00:05:01,280

and the cold fusion thing was a part of

123

00:05:05,350 --> 00:05:03,260

that basically these guys we've been

124

00:05:07,080 --> 00:05:05,360

doing the chemistry experiment using a

125

00:05:09,430 --> 00:05:07,090

system that school boy could do almost

126

00:05:12,250 --> 00:05:09,440

electrolysis something you're doing

127

00:05:14,529 --> 00:05:12,260

science classes in the first year will

128

00:05:17,440 --> 00:05:14,539

you put little electrodes in because of

129

00:05:18,969 --> 00:05:17,450

water with solutions in put to the power

130

00:05:20,860 --> 00:05:18,979

line see what happens they were doing

131

00:05:22,870 --> 00:05:20,870

this to us test unit of deuterium a

132

00:05:25,420 --> 00:05:22,880

substance which is used in nuclear

133

00:05:28,659 --> 00:05:25,430

fusion I couldn't believe they could

134

00:05:30,430 --> 00:05:28,669

believe it when they suddenly found out

135

00:05:32,379 --> 00:05:30,440

the water substance started boiling a

136

00:05:33,760 --> 00:05:32,389

bright light appear in it energy heat

137

00:05:36,129 --> 00:05:33,770

and maximum amounts of energy was being

138

00:05:37,620 --> 00:05:36,139

released so much energy they couldn't be

139

00:05:39,930 --> 00:05:37,630

a chemical reaction

140

00:05:44,220 --> 00:05:39,940

and they put it down to some kind of

141

00:05:45,300 --> 00:05:44,230

nuclear fusion now this it turns out

142

00:05:48,420 --> 00:05:45,310

this wasn't actually something they

143

00:05:51,680 --> 00:05:48,430

discovered this was something that I was

144

00:05:53,940 --> 00:05:51,690

actually first observed in 1921 and

145

00:05:55,850 --> 00:05:53,950

several times since and it's called the

146

00:05:57,660 --> 00:05:55,860

anomalous heat effect but they basically

147

00:06:01,200 --> 00:05:57,670

rediscover them they discovered it

148

00:06:03,300 --> 00:06:01,210

independently now I don't know if you

149

00:06:04,860 --> 00:06:03,310

remember this there's not on online you

150

00:06:08,340 --> 00:06:04,870

can look about the history of the cold

151
00:06:10,290 --> 00:06:08,350
fusion scandal but basically this was a

152
00:06:12,750 --> 00:06:10,300
massive new store across the world for

153
00:06:15,690 --> 00:06:12,760
about a week a scientist rushed to

154
00:06:18,480 --> 00:06:15,700
repeat the experiment and then why hold

155
00:06:20,700 --> 00:06:18,490
the announcement is made well it's

156
00:06:23,520 --> 00:06:20,710
nothing it was a mistake pons and

157
00:06:25,470 --> 00:06:23,530
Fleischmann they messed up they made a

158
00:06:28,170 --> 00:06:25,480
massive error and they're very very

159
00:06:32,160 --> 00:06:28,180
sorry and we're very very sorry to that

160
00:06:33,900 --> 00:06:32,170
we even believed them and this was

161
00:06:38,040 --> 00:06:33,910
basically the general ramey empties the

162
00:06:41,640 --> 00:06:38,050
Roswell saucer story it was all day was

163
00:06:43,410 --> 00:06:41,650

all forgotten about but the thing about

164

00:06:45,390 --> 00:06:43,420

this I mean these there's been attempts

165

00:06:46,710 --> 00:06:45,400

to this has interest in this is being

166

00:06:48,690 --> 00:06:46,720

revived every so often then there was an

167

00:06:52,200 --> 00:06:48,700

attempt to debunk it further with in

168

00:06:53,790 --> 00:06:52,210

2005 with a BBC horizon episode called

169

00:06:55,500 --> 00:06:53,800

an experiment to save the world where

170

00:06:57,380 --> 00:06:55,510

they they mean quick song and dance out

171

00:07:00,390 --> 00:06:57,390

of the fact that they didn't detect any

172

00:07:02,040 --> 00:07:00,400

neutron radiation coming from them from

173

00:07:03,660 --> 00:07:02,050

their experiment thing that it is they

174

00:07:05,850 --> 00:07:03,670

said it's not fusion it's not nuclear

175

00:07:07,860 --> 00:07:05,860

fusion power and it should never be

176

00:07:11,040 --> 00:07:07,870

called cold fusion but doesn't matter in

177

00:07:13,920 --> 00:07:11,050

a sense it doesn't matter but the point

178

00:07:15,450 --> 00:07:13,930

is that heat was being released if he

179

00:07:16,950 --> 00:07:15,460

has been released from a process and

180

00:07:19,890 --> 00:07:16,960

you're getting a massive amount of over

181

00:07:22,440 --> 00:07:19,900

unity or you can you can run that heat

182

00:07:24,630 --> 00:07:22,450

and anything it can warm up a boiler the

183

00:07:26,040 --> 00:07:24,640

boiler can spin a dime per turbine that

184

00:07:28,350 --> 00:07:26,050

survives has been a dynamo you have

185

00:07:30,180 --> 00:07:28,360

power you can work out what's causing it

186

00:07:32,280 --> 00:07:30,190

later you have usable energy source

187

00:07:33,310 --> 00:07:32,290

they're still mysteries associated with

188

00:07:38,670 --> 00:07:33,320

electricity

189

00:07:46,390 --> 00:07:44,170

so what will it mean this is that this

190

00:07:48,130 --> 00:07:46,400

is the thing work if you've never

191

00:07:49,990 --> 00:07:48,140

contemplated in this question before you

192

00:07:52,090 --> 00:07:50,000

need you'll take your while to get your

193

00:07:54,670 --> 00:07:52,100

head around there what would it mean if

194

00:07:57,820 --> 00:07:54,680

we have this technology available to us

195

00:08:00,100 --> 00:07:57,830

right now what if we have been allowed

196

00:08:03,280 --> 00:08:00,110

to use it when it was invented almost

197

00:08:07,260 --> 00:08:03,290

150 years ago for the first time what

198

00:08:11,140 --> 00:08:07,270

kind of world would we be living in now

199

00:08:14,620 --> 00:08:11,150

and you have to like I said sit back and

200

00:08:18,400 --> 00:08:14,630

think about we're living in a world in

201
00:08:20,560 --> 00:08:18,410
which you could have a block to device

202
00:08:23,410 --> 00:08:20,570
with no moving parts very low

203
00:08:25,900 --> 00:08:23,420
maintenance costs 80 pounds you can

204
00:08:29,560 --> 00:08:25,910
install it in your house and it provides

205
00:08:33,900 --> 00:08:29,570
you with electricity for to run your

206
00:08:36,640 --> 00:08:33,910
house clean safe completely free forever

207
00:08:38,159 --> 00:08:36,650
you can put it in your car would drive

208
00:08:41,020 --> 00:08:38,169
around the world to stop in for lunch

209
00:08:45,790 --> 00:08:41,030
without any without stopping petrol was

210
00:08:47,230 --> 00:08:45,800
paying a penny on fuel it was

211
00:08:50,920 --> 00:08:47,240
interesting it was gary mckinnon that

212
00:08:53,170 --> 00:08:50,930
the hacker who was thankfully he's not

213
00:08:54,790 --> 00:08:53,180

going to be extradited to the USA not

214

00:08:58,270 --> 00:08:54,800

even to prosecute in this country I

215

00:09:00,280 --> 00:08:58,280

consider him a hero not a criminal it

216

00:09:01,510 --> 00:09:00,290

was the the plight of old people died in

217

00:09:04,420 --> 00:09:01,520

the wintertime because they can't afford

218

00:09:07,300 --> 00:09:04,430

their heating bills that inspired him to

219

00:09:09,430 --> 00:09:07,310

hack into the pentagon hack into NASA

220

00:09:10,960 --> 00:09:09,440

and the partnering defense i find out

221

00:09:14,530 --> 00:09:10,970

what if they had any details about free

222

00:09:17,230 --> 00:09:14,540

energy UFOs is this obscenity is the

223

00:09:20,020 --> 00:09:17,240

obscenity of the world as it is where

224

00:09:22,270 --> 00:09:20,030

we're using the stone eighth this is

225

00:09:25,880 --> 00:09:22,280

Stone Age power source in a 21st century

226

00:09:30,720 --> 00:09:27,900

so we would basically would eliminate

227

00:09:36,120 --> 00:09:30,730

poverty in this country and across the

228

00:09:41,100 --> 00:09:36,130

world I mean for instance there be the

229

00:09:42,870 --> 00:09:41,110

famines that happen you could with free

230

00:09:45,510 --> 00:09:42,880

energy do the problems of food

231

00:09:47,310 --> 00:09:45,520

production would be solved you can

232

00:09:49,050 --> 00:09:47,320

actually set up farms in places you can

233

00:09:51,270 --> 00:09:49,060

now for instance in the middle of a

234

00:09:52,680 --> 00:09:51,280

desert if you pee all you need it from

235

00:09:55,890 --> 00:09:52,690

the sea and of course you cannot do that

236

00:09:57,960 --> 00:09:55,900

now for several reasons SI of course sea

237

00:09:59,370 --> 00:09:57,970

water of course is salty you can't put

238

00:10:01,530 --> 00:09:59,380

that you can't drink it and kind of put

239

00:10:03,180 --> 00:10:01,540

it on farmland but you can be sound like

240

00:10:05,130 --> 00:10:03,190

seawater even remove the salt you can

241

00:10:07,080 --> 00:10:05,140

filter it out it's not hard to do that

242

00:10:09,990 --> 00:10:07,090

the problem is it costs a lot of energy

243

00:10:11,580 --> 00:10:10,000

to desalinate seawater but free energy

244

00:10:14,850 --> 00:10:11,590

could do it for nothing and you click

245

00:10:17,160 --> 00:10:14,860

piping the pump it inland thousands of

246

00:10:18,840 --> 00:10:17,170

miles apart of the Sahara Desert or into

247

00:10:20,910 --> 00:10:18,850

the Australian outback and you could

248

00:10:25,320 --> 00:10:20,920

irrigate the farmland that may be using

249

00:10:28,200 --> 00:10:25,330

shall burgers coils maybe using shovels

250

00:10:33,360 --> 00:10:28,210

coils to pump the water up and one of

251
00:10:35,850 --> 00:10:33,370
these blooms there are also things such

252
00:10:37,830 --> 00:10:35,860
as there were various kinds of natural

253
00:10:39,780 --> 00:10:37,840
fertilizer like warmest and Terra Preta

254
00:10:41,670 --> 00:10:39,790
has also been kept from us which

255
00:10:43,200 --> 00:10:41,680
includes the yield of farmland a dozen

256
00:10:45,750 --> 00:10:43,210
times over it should eliminate hunger

257
00:10:47,220 --> 00:10:45,760
they'll be true for everyone you

258
00:10:48,210 --> 00:10:47,230
wouldn't have this West Third World

259
00:10:51,980 --> 00:10:48,220
split anymore there won't be a third

260
00:10:56,660 --> 00:10:51,990
world anyone would be we all been saved

261
00:10:59,810 --> 00:10:58,550
in the end pollution and if all the

262
00:11:03,380 --> 00:10:59,820
environmental destruction I thought

263
00:11:05,810 --> 00:11:03,390

about would no longer be effective there

264

00:11:07,100 --> 00:11:05,820

be no need for any more because we would

265

00:11:09,410 --> 00:11:07,110

no longer be polluting the air in the

266

00:11:13,400 --> 00:11:09,420

water with the noxious exhaust of

267

00:11:17,060 --> 00:11:13,410

combustion nor we've been poisoned their

268

00:11:20,990 --> 00:11:17,070

future generations with the glowing

269

00:11:24,530 --> 00:11:21,000

sinister plutonium rods lying in the

270

00:11:31,130 --> 00:11:24,540

ground waiting to be discovered waiting

271

00:11:32,450 --> 00:11:31,140

to leak out it's it's interesting it's

272

00:11:34,760 --> 00:11:32,460

interesting thing I mean I do I live

273

00:11:38,810 --> 00:11:34,770

with I live with three guys who come

274

00:11:40,220 --> 00:11:38,820

from the Sudan the lovely chaps they lay

275

00:11:41,900 --> 00:11:40,230

here in this country eventually because

276

00:11:44,000 --> 00:11:41,910

life in this country sector I can earn

277

00:11:47,600 --> 00:11:44,010

more money there comes use a dust bowl

278

00:11:50,030 --> 00:11:47,610

as mass poverty in Sudan I worked out on

279

00:11:52,970 --> 00:11:50,040

the back of an envelope that just one

280

00:11:55,370 --> 00:11:52,980

mayor sound I stand that's a form of a

281

00:11:59,300 --> 00:11:55,380

fusion free energy devices and anyway

282

00:12:00,560 --> 00:11:59,310

standing there good turn no it's just 10

283

00:12:02,270 --> 00:12:00,570

of them so I just 10 standing by

284

00:12:03,920 --> 00:12:02,280

ourselves could turn the whole Sudan

285

00:12:05,810 --> 00:12:03,930

from a dust bowl into a land flowing

286

00:12:07,850 --> 00:12:05,820

with milk and honey that one country

287

00:12:09,830 --> 00:12:07,860

could feed all Africa let alone the rest

288

00:12:11,090 --> 00:12:09,840

of the world and you don't not limited

289

00:12:12,560 --> 00:12:11,100

to just tending their 100 you could have

290

00:12:17,030 --> 00:12:12,570

a thousand you have a million you can

291

00:12:20,180 --> 00:12:17,040

have as many as you want and um Barbie

292

00:12:21,590 --> 00:12:20,190

on the subject of immigration I mean I

293

00:12:22,970 --> 00:12:21,600

don't want to get angry at people

294

00:12:24,950 --> 00:12:22,980

wanting to come live in this country if

295

00:12:26,960 --> 00:12:24,960

their own countries are so bad I just

296

00:12:29,150 --> 00:12:26,970

think to myself a wise happening what's

297

00:12:30,380 --> 00:12:29,160

the solution and if that if life was

298

00:12:33,830 --> 00:12:30,390

improved in their own country so they

299

00:12:35,840 --> 00:12:33,840

wouldn't want to come here in fact I

300

00:12:38,360 --> 00:12:35,850

could see in the future what in one's

301
00:12:41,030 --> 00:12:38,370
free energies and declassified it could

302
00:12:42,860 --> 00:12:41,040
be the way Britain's people living in

303
00:12:44,660 --> 00:12:42,870
this in the British Isles with always

304
00:12:46,220 --> 00:12:44,670
wet and windy weather around us oh one

305
00:12:47,990 --> 00:12:46,230
of those what get our place in the Sun

306
00:12:48,800 --> 00:12:48,000
and it becomes use my suit down and

307
00:12:53,390 --> 00:12:48,810
we'll have an immigration problem

308
00:12:55,440 --> 00:12:53,400
because we'll be moving there that's the

309
00:12:59,020 --> 00:12:55,450
thing that

310
00:13:00,160 --> 00:12:59,030
now you can say well what seconds of

311
00:13:01,720 --> 00:13:00,170
eventually that's just going to fill up

312
00:13:03,760 --> 00:13:01,730
the others population will continue to

313
00:13:06,370 --> 00:13:03,770

expand and of course the bio economic

314

00:13:07,900 --> 00:13:06,380

capacitor the earth is I think that if

315

00:13:11,800 --> 00:13:07,910

you take into account the energy we use

316

00:13:13,420 --> 00:13:11,810

I believe and then in a sense that the

317

00:13:16,480 --> 00:13:13,430

environmental destruction lack of

318

00:13:18,940 --> 00:13:16,490

resources is caused by our our use of

319

00:13:20,800 --> 00:13:18,950

fossil fuels are the fact that free

320

00:13:22,450 --> 00:13:20,810

energy is not available to us so it's

321

00:13:24,400 --> 00:13:22,460

not our numbers it's not our population

322

00:13:27,340 --> 00:13:24,410

as the problem it's the way we live it's

323

00:13:29,260 --> 00:13:27,350

our lifestyle I think if we improved our

324

00:13:31,000 --> 00:13:29,270

lifestyle by using free energy then the

325

00:13:32,770 --> 00:13:31,010

bio economic the body we can on the

326

00:13:34,780 --> 00:13:32,780

capacitors in the earth will be vastly

327

00:13:36,640 --> 00:13:34,790

increased I mean it's not been

328

00:13:39,550 --> 00:13:36,650

calculated it could be ten times what it

329

00:13:41,830 --> 00:13:39,560

is now it's not infinite of course the

330

00:13:44,560 --> 00:13:41,840

earth is not infinite but with

331

00:13:46,270 --> 00:13:44,570

antigravity we can learn to space we

332

00:13:49,750 --> 00:13:46,280

could we could colonize other planets we

333

00:13:51,880 --> 00:13:49,760

can live on other planets and we need in

334

00:13:53,770 --> 00:13:51,890

a sense we need that is despite where

335

00:13:56,200 --> 00:13:53,780

you see in sci-fi with these rockets fly

336

00:13:58,180 --> 00:13:56,210

around the universe these rockets that

337

00:14:00,130 --> 00:13:58,190

lavoris these these chemical rockets

338

00:14:04,090 --> 00:14:00,140

that chug their way in the forest lee up

339

00:14:06,400 --> 00:14:04,100

into space into low-earth orbit you

340

00:14:08,460 --> 00:14:06,410

could not colonize other planets with

341

00:14:11,980 --> 00:14:08,470

this with these rockets but with

342

00:14:13,390 --> 00:14:11,990

anti-gravity you could fly to the moment

343

00:14:17,680 --> 00:14:13,400

to Mars with the ease of getting in a

344

00:14:19,930 --> 00:14:17,690

car driving to Cardiff we could spread

345

00:14:22,610 --> 00:14:19,940

out into the universe the infinite

346

00:14:31,910 --> 00:14:26,720

so next slide please just go back to

347

00:14:33,230 --> 00:14:31,920

hind Birds graph as you see here this is

348

00:14:35,060 --> 00:14:33,240

the situation we're in today with

349

00:14:37,100 --> 00:14:35,070

resources plummeting at the same time as

350

00:14:39,410 --> 00:14:37,110

population energy production and

351

00:14:40,730 --> 00:14:39,420

environmental instruction is rising as

352

00:14:42,560 --> 00:14:40,740

you remember when I previously showed

353

00:14:43,820 --> 00:14:42,570

you this set of graphs in Heinberg

354

00:14:46,630 --> 00:14:43,830

pessimistic model this eventually

355

00:14:48,770 --> 00:14:46,640

resulted in massive population and

356

00:14:52,010 --> 00:14:48,780

environment destruction and zero

357

00:14:53,750 --> 00:14:52,020

resources which then led to the fall but

358

00:14:57,170 --> 00:14:53,760

let's just imagine that free energy was

359

00:14:59,240 --> 00:14:57,180

Declassified at this point now i'm going

360

00:15:00,740 --> 00:14:59,250

to say not under them okay so i feel

361

00:15:05,240 --> 00:15:00,750

optimistic i'm gonna put slightly in the

362

00:15:06,650 --> 00:15:05,250

future next slide please free energy

363

00:15:10,600 --> 00:15:06,660

disc as if eyes at this point what

364

00:15:12,950 --> 00:15:10,610

happens here boats wealth is transformed

365

00:15:14,780 --> 00:15:12,960

in the first place population some

366

00:15:16,670 --> 00:15:14,790

levels off now this is the size of this

367

00:15:20,170 --> 00:15:16,680

is going to happen anyway it'll level

368

00:15:22,940 --> 00:15:20,180

off a little at a position which is

369

00:15:24,770 --> 00:15:22,950

lower than the bio economic capacity of

370

00:15:26,950 --> 00:15:24,780

the earth so we wouldn't we wouldn't be

371

00:15:30,050 --> 00:15:26,960

damaging the earth with our numbers

372

00:15:31,670 --> 00:15:30,060

secondly resources would once free

373

00:15:35,300 --> 00:15:31,680

energies declassified resources could

374

00:15:39,800 --> 00:15:35,310

recover back to their pre civilisational

375

00:15:42,560 --> 00:15:39,810

levels and once the once the harmful

376

00:15:45,320 --> 00:15:42,570

lifestyle over the fossil fuel use is

377

00:15:47,390 --> 00:15:45,330

removed environment destruction plummets

378

00:15:48,680 --> 00:15:47,400

it goes back down the earth heals itself

379

00:15:52,400 --> 00:15:48,690

till it's back to its pre Civil

380

00:15:54,620 --> 00:15:52,410

civilisational level some question is

381

00:15:59,369 --> 00:15:54,630

though we're on that graph do I put

382

00:16:05,400 --> 00:16:01,969

there's nowhere I can put it on there

383

00:16:07,259 --> 00:16:05,410

infinite energy that's why it's simply

384

00:16:08,639 --> 00:16:07,269

infinity symbol that's the only thing I

385

00:16:11,279 --> 00:16:08,649

can right now I can't put it on there as

386

00:16:17,969 --> 00:16:11,289

a line there's as much energy as you

387

00:16:20,909 --> 00:16:17,979

want so in summary so far we have a lack

388

00:16:24,029 --> 00:16:20,919

of resources we have a pathological and

389

00:16:26,219 --> 00:16:24,039

primitive energy system which is cause

390

00:16:29,429 --> 00:16:26,229

the human suffering and the destruction

391

00:16:35,399 --> 00:16:29,439

of the earth none of it is necessary all

392

00:16:38,699 --> 00:16:35,409

of it is preventable so why if it's if

393

00:16:40,710 --> 00:16:38,709

that's the case why is this preventable

394

00:16:45,389 --> 00:16:40,720

disaster being inflicted on us next

395

00:16:48,449 --> 00:16:45,399

slide please earlier on I mentioned

396

00:16:50,189 --> 00:16:48,459

Nikola Tesla did these bankers destroy

397

00:16:52,799 --> 00:16:50,199

Tesla to stop his gift of free energy

398

00:16:56,609 --> 00:16:52,809

for all that's a rhetorical question

399

00:16:59,009 --> 00:16:56,619

I've handed JP Morgan the Wahlberg

400

00:17:00,599 --> 00:16:59,019

family the Rockefeller family these

401
00:17:05,659 --> 00:17:00,609
families are still major power brokers

402
00:17:08,129 --> 00:17:05,669
in America today way on and one of the

403
00:17:10,499 --> 00:17:08,139
Rockefellers was once asked on net lives

404
00:17:12,059 --> 00:17:10,509
Nelson Rockefeller owns one of the

405
00:17:13,829 --> 00:17:12,069
rockers once asked if he wanted to run

406
00:17:15,240 --> 00:17:13,839
for president he said I don't want to be

407
00:17:21,600 --> 00:17:15,250
present to the united states that would

408
00:17:28,740 --> 00:17:25,030
the reason we don't have free energy is

409
00:17:30,940 --> 00:17:28,750
because the world is controlled by

410
00:17:35,710 --> 00:17:30,950
forces political forces political

411
00:17:38,170 --> 00:17:35,720
individuals and he could who use frenzy

412
00:17:39,790 --> 00:17:38,180
for control they use these that they

413
00:17:42,700 --> 00:17:39,800

withhold free energy for the purposes

414

00:17:45,400 --> 00:17:42,710

control the distribution the rationing

415

00:17:49,560 --> 00:17:45,410

the control of energy supply to the

416

00:17:52,980 --> 00:17:49,570

people is quintessential for their power

417

00:17:56,530 --> 00:17:52,990

it's quintessential for the status quo

418

00:17:58,300 --> 00:17:56,540

which puts them in their position it's a

419

00:18:00,940 --> 00:17:58,310

fundamental means of wielding power I

420

00:18:02,260 --> 00:18:00,950

don't know why they want to do that I'm

421

00:18:05,710 --> 00:18:02,270

not them I don't know what goes through

422

00:18:07,450 --> 00:18:05,720

their head but everything I discussed

423

00:18:08,590 --> 00:18:07,460

before we're discussing the hind book

424

00:18:11,130 --> 00:18:08,600

graphs that everything like that is a

425

00:18:17,220 --> 00:18:11,140

fraud it's a it's a construct it's a lie

426
00:18:22,870 --> 00:18:20,800
now in terms of penetrating the

427
00:18:24,910 --> 00:18:22,880
structure of the breakaway civilization

428
00:18:26,320 --> 00:18:24,920
with Richard Dolan calls it or whatever

429
00:18:28,510 --> 00:18:26,330
else you want to call it the men in

430
00:18:30,070 --> 00:18:28,520
black the Illuminati in order to

431
00:18:31,750 --> 00:18:30,080
penetrate this is this power structure

432
00:18:34,390 --> 00:18:31,760
you need to realize that there are some

433
00:18:37,000 --> 00:18:34,400
people in it who are not initiated into

434
00:18:39,940 --> 00:18:37,010
the true secrets someone that might now

435
00:18:41,410 --> 00:18:39,950
has explained are people who believe the

436
00:18:42,460 --> 00:18:41,420
earth is about to be destroyed and

437
00:18:44,470 --> 00:18:42,470
there's nothing we can do about it

438
00:18:46,960 --> 00:18:44,480

except interest introduced a new world

439

00:18:50,650 --> 00:18:46,970

order to save the planet that's as I

440

00:18:53,260 --> 00:18:50,660

discuss before others are what I call

441

00:18:57,700 --> 00:18:53,270

the outer party now this is good matter

442

00:18:59,830 --> 00:18:57,710

George Orwell and 1984 he envisioned the

443

00:19:01,570 --> 00:18:59,840

world in which most people were trolls

444

00:19:02,860 --> 00:19:01,580

that's you and me ordinary people and

445

00:19:05,260 --> 00:19:02,870

then the world is controlled by the in

446

00:19:06,610 --> 00:19:05,270

sauk party don't inner party the new

447

00:19:10,010 --> 00:19:06,620

everything and an outer party unless

448

00:19:13,950 --> 00:19:12,330

the other party I don't believe want to

449

00:19:15,870 --> 00:19:13,960

build a new world or the algae party are

450

00:19:20,730 --> 00:19:15,880

basically people maybe who are motivated

451
00:19:22,919 --> 00:19:20,740
by greed and self-interest and they may

452
00:19:26,580 --> 00:19:22,929
be addicted to getting as much money in

453
00:19:27,870 --> 00:19:26,590
possessions as they can and I'm talk

454
00:19:31,169 --> 00:19:27,880
about people maybe you were in charge of

455
00:19:32,850 --> 00:19:31,179
oil companies now free those you would

456
00:19:35,400 --> 00:19:32,860
not be good for oil companies with it I

457
00:19:36,750 --> 00:19:35,410
mean you you basically be going up to

458
00:19:38,549 --> 00:19:36,760
the chairman of Royal Dutch Shell and

459
00:19:43,500 --> 00:19:38,559
saying sorry your services are no longer

460
00:19:47,220 --> 00:19:43,510
required what's he going to say no

461
00:19:49,110 --> 00:19:47,230
problem we'll adapt we are a creative

462
00:19:51,539 --> 00:19:49,120
company we can go up we can enter other

463
00:19:55,560 --> 00:19:51,549

markets you still need oil to make

464

00:19:57,500 --> 00:19:55,570

candles you know she'll candles yes they

465

00:20:00,060 --> 00:19:57,510

can be pretty they can be bright colors

466

00:20:02,730 --> 00:20:00,070

they can be snuff smell nice and not

467

00:20:05,130 --> 00:20:02,740

burn your wallpaper not stain your

468

00:20:06,960 --> 00:20:05,140

furniture yep she'll candles that'll be

469

00:20:10,140 --> 00:20:06,970

a big dollar won't it everyone want one

470

00:20:16,320 --> 00:20:10,150

of those of course not of course and

471

00:20:18,360 --> 00:20:16,330

they know the situation and now I

472

00:20:20,419 --> 00:20:18,370

shouldn't like to point out the skeptics

473

00:20:22,680 --> 00:20:20,429

at this point skeptics in the same

474

00:20:24,750 --> 00:20:22,690

there's no such thing as free energy

475

00:20:27,210 --> 00:20:24,760

alright it is a big for all these things

476

00:20:31,950 --> 00:20:27,220

it's a lighter delusion it's a

477

00:20:33,090 --> 00:20:31,960

conspiracy theory don't believe it and

478

00:20:35,280 --> 00:20:33,100

what they'll say at some point this is

479

00:20:39,260 --> 00:20:35,290

like a eric reid is what's really

480

00:20:42,230 --> 00:20:39,270

annoying voice easy fully the ghost and

481

00:20:44,520 --> 00:20:42,240

why don't these inventors of free energy

482

00:20:47,220 --> 00:20:44,530

instead of them why don't they just

483

00:20:49,200 --> 00:20:47,230

start selling their free energy if they

484

00:20:50,730 --> 00:20:49,210

have this these machines they could

485

00:20:53,039 --> 00:20:50,740

start selling it right now and make a

486

00:20:55,169 --> 00:20:53,049

fortune and what's more they would be

487

00:20:58,049 --> 00:20:55,179

able to become Multi multi millionaires

488

00:21:01,230 --> 00:20:58,059

and they win Nobel prizes and it's just

489

00:21:04,020 --> 00:21:01,240

like naivety sitting you can explain you

490

00:21:06,870 --> 00:21:04,030

cannot sell free energy this is the

491

00:21:08,580 --> 00:21:06,880

point okay you can't if you have one of

492

00:21:10,230 --> 00:21:08,590

these free energy devices you can't go

493

00:21:12,539 --> 00:21:10,240

to people and demand electric bills off

494

00:21:14,909 --> 00:21:12,549

them it's like going up to the skipper a

495

00:21:16,840 --> 00:21:14,919

sailing ship and saying to him I'm going

496

00:21:18,970 --> 00:21:16,850

to attach an anemometer on your mask

497

00:21:20,590 --> 00:21:18,980

the wing you use I'm gonna attach it to

498

00:21:23,200 --> 00:21:20,600

a meter and I'm going to charge you for

499

00:21:28,170 --> 00:21:23,210

the wind you're using for your ship you

500

00:21:32,650 --> 00:21:28,180

can't do it this is not possible and

501
00:21:34,630 --> 00:21:32,660
it's it's interesting lets them it's too

502
00:21:36,030 --> 00:21:34,640
good I say this this cover-up can be

503
00:21:38,170 --> 00:21:36,040
traced back a long way these guys

504
00:21:40,680 --> 00:21:38,180
destroyed Tesla as I said it when i

505
00:21:43,120 --> 00:21:40,690
first started just discussing Tesla

506
00:21:44,380 --> 00:21:43,130
Tesla was going to give his free energy

507
00:21:48,520 --> 00:21:44,390
as a gift of the world and they stopped

508
00:21:50,230 --> 00:21:48,530
him but Tesla basically was going to

509
00:21:51,870 --> 00:21:50,240
sign a deal with Henry forward who Henry

510
00:21:54,940 --> 00:21:51,880
Ford of course was the big motor

511
00:21:59,170 --> 00:21:54,950
designers who built the first practical

512
00:22:00,160 --> 00:21:59,180
cars I'm in 1902 1903 this was an

513
00:22:02,830 --> 00:22:00,170

interesting time we've received about

514

00:22:04,330 --> 00:22:02,840

the mass-produced car this was a Carly

515

00:22:06,220 --> 00:22:04,340

you had a production line like modern

516

00:22:08,020 --> 00:22:06,230

cars are made which is very very good

517

00:22:09,550 --> 00:22:08,030

because it meant bad ordinary people

518

00:22:11,790 --> 00:22:09,560

could have fought them before then cars

519

00:22:13,810 --> 00:22:11,800

have been very much a luxury device and

520

00:22:15,760 --> 00:22:13,820

what you want to do he wanted to protect

521

00:22:18,250 --> 00:22:15,770

two lines he wanted to put a line of

522

00:22:20,170 --> 00:22:18,260

petrol driven cars and a line of

523

00:22:22,060 --> 00:22:20,180

electrically powered cars and the

524

00:22:24,160 --> 00:22:22,070

electrical power was going to come from

525

00:22:26,710 --> 00:22:24,170

Nikola Tesla's generators and he was

526

00:22:29,470 --> 00:22:26,720

about to sign a deal with Tesla and then

527

00:22:32,080 --> 00:22:29,480

these guys put a stop to it and so they

528

00:22:33,580 --> 00:22:32,090

said n visit this Henry carry on with

529

00:22:36,490 --> 00:22:33,590

the petrol line was shutting down this

530

00:22:38,350 --> 00:22:36,500

electric ride and so can we for went and

531

00:22:40,120 --> 00:22:38,360

he made his cars or petrol driven cars

532

00:22:43,660 --> 00:22:40,130

and we're still driving petrol cars

533

00:22:48,310 --> 00:22:46,750

I think what a lot of people these

534

00:22:50,320 --> 00:22:48,320

people refrain on is changing the

535

00:22:52,030 --> 00:22:50,330

geopolitical order the the powers that

536

00:22:53,950 --> 00:22:52,040

we do not like change they like the

537

00:22:58,120 --> 00:22:53,960

status quo they want the status thing

538

00:23:00,280 --> 00:22:58,130

and free energy would transform the

539

00:23:01,960 --> 00:23:00,290

geopolitical order so much they be

540

00:23:03,030 --> 00:23:01,970

together moving power which the is

541

00:23:06,820 --> 00:23:03,040

quite rightly from their perspective

542

00:23:11,260 --> 00:23:06,830

it's a justified fear very justified

543

00:23:12,490 --> 00:23:11,270

indeed they be scared for instance as I

544

00:23:16,270 --> 00:23:12,500

said before there wouldn't be no more

545

00:23:18,040 --> 00:23:16,280

poverty that there be no this disparity

546

00:23:21,160 --> 00:23:18,050

between the rich countries and poor

547

00:23:23,140 --> 00:23:21,170

countries would no longer exist in I

548

00:23:25,120 --> 00:23:23,150

imagine in such a situation India and

549

00:23:28,090 --> 00:23:25,130

China would become a lot more powerful I

550

00:23:29,710 --> 00:23:28,100

mean shine already is basically the most

551
00:23:31,720 --> 00:23:29,720
powerful industrial nation on earth now

552
00:23:36,640 --> 00:23:31,730
it's overtaking the United States in my

553
00:23:38,950 --> 00:23:36,650
view with China and India have a huge

554
00:23:40,900 --> 00:23:38,960
population of enormous resources in the

555
00:23:45,070 --> 00:23:40,910
world which is freed from the burden of

556
00:23:49,060 --> 00:23:45,080
petroleum and petroleum being used as an

557
00:23:56,960 --> 00:23:49,070
economic tool of control don't dominate

558
00:24:02,480 --> 00:23:58,909
perhaps is something more subtle on that

559
00:24:04,490 --> 00:24:02,490
it's it's a higher level two um it's

560
00:24:08,390 --> 00:24:04,500
about the psychological control of

561
00:24:10,820 --> 00:24:08,400
people as well David I get one of his

562
00:24:13,190 --> 00:24:10,830
lectures he he says he talks about this

563
00:24:15,740 --> 00:24:13,200

briefly I don't think he goes into the

564

00:24:17,330 --> 00:24:15,750

subject enough but he says scarcity

565

00:24:20,770 --> 00:24:17,340

equals dependency equals control

566

00:24:23,330 --> 00:24:20,780

abundance equals choice equals freedom

567

00:24:25,370 --> 00:24:23,340

in a world free energy there'd be a lot

568

00:24:27,049 --> 00:24:25,380

less to worry about most of the problems

569

00:24:29,840 --> 00:24:27,059

that are happening in the world around

570

00:24:31,310 --> 00:24:29,850

us are caused by our lack of free energy

571

00:24:32,870 --> 00:24:31,320

when can people could be sold by our

572

00:24:34,520 --> 00:24:32,880

lack of free energy not all of them but

573

00:24:37,460 --> 00:24:34,530

a lot of a lot of proportion of our

574

00:24:39,289 --> 00:24:37,470

problems that the things that frighten

575

00:24:42,830 --> 00:24:39,299

us now you ask people what people are

576
00:24:43,870 --> 00:24:42,840
frightened of they done surveys of this

577
00:24:46,430 --> 00:24:43,880
and they will say things like

578
00:24:48,169 --> 00:24:46,440
unemployment poverty I'm scared of

579
00:24:52,070 --> 00:24:48,179
becoming for I'm scared of losing my

580
00:24:53,630 --> 00:24:52,080
home I'm sorry I'm scared of losing my

581
00:24:55,730 --> 00:24:53,640
job things like this in other words

582
00:24:58,399 --> 00:24:55,740
economic fears fears about and the

583
00:24:59,870 --> 00:24:58,409
economy failing and as you see here this

584
00:25:02,480 --> 00:24:59,880
is pretty much an illustration of it it

585
00:25:06,310 --> 00:25:02,490
wasn't it health stress no sleep field

586
00:25:08,360 --> 00:25:06,320
work job late nights fear payments

587
00:25:11,740 --> 00:25:08,370
people in this sort state alleviate

588
00:25:14,720 --> 00:25:11,750

their it open make obedient citizens

589

00:25:18,100 --> 00:25:14,730

especially if the people we have to obey

590

00:25:20,870 --> 00:25:18,110

hold not only our purse strings but are

591

00:25:22,730 --> 00:25:20,880

basically our energy supply we'd be like

592

00:25:25,940 --> 00:25:22,740

the computer that needs an electrical

593

00:25:27,230 --> 00:25:25,950

support and if you control that supply

594

00:25:31,600 --> 00:25:27,240

you you are a lot of power over the

595

00:25:38,039 --> 00:25:33,820

and I think you would I really think if

596

00:25:42,570 --> 00:25:38,049

free energy as i said is quintessential

597

00:25:46,060 --> 00:25:42,580

to the New World Order next slide please

598

00:25:48,940 --> 00:25:46,070

now the risk us the inner party this is

599

00:25:52,210 --> 00:25:48,950

where we have to speculate and in a way

600

00:25:54,700 --> 00:25:52,220

it doesn't matter who they are it's what

601
00:25:57,630 --> 00:25:54,710
they are doing which one counts the

602
00:26:00,070 --> 00:25:57,640
inner party the men in the majestic 12

603
00:26:03,030 --> 00:26:00,080
the breakaway civilization the

604
00:26:06,370 --> 00:26:03,040
Illuminati whatever you choose to call

605
00:26:08,680 --> 00:26:06,380
it's a who they are as people is not

606
00:26:10,180 --> 00:26:08,690
relevant if indeed they are people and

607
00:26:12,490 --> 00:26:10,190
going back to the reptilian humanoid I

608
00:26:15,070 --> 00:26:12,500
showed you at the beginning there are

609
00:26:16,510 --> 00:26:15,080
this is a big story but there is reason

610
00:26:19,510 --> 00:26:16,520
to actually take seriously the idea that

611
00:26:22,650 --> 00:26:19,520
they may not be human as we define him

612
00:26:25,930 --> 00:26:22,660
and they may actually be something else

613
00:26:30,159 --> 00:26:25,940

in with human bodies without human

614

00:26:33,100 --> 00:26:30,169

spirit every so often someone will point

615

00:26:35,919 --> 00:26:33,110

the finger they'll go it's the Jews it's

616

00:26:39,220 --> 00:26:35,929

the Americans ok it's not i don't i

617

00:26:41,530 --> 00:26:39,230

don't believe it is any particular group

618

00:26:43,299 --> 00:26:41,540

of people on this world exists at an

619

00:26:45,310 --> 00:26:43,309

existing culture on this walk religious

620

00:26:47,080 --> 00:26:45,320

group on this world doesn't do any how

621

00:26:52,419 --> 00:26:47,090

did some help to blame people like that

622

00:26:56,710 --> 00:26:52,429

without any reason it's it's a tricky

623

00:26:59,409 --> 00:26:56,720

it's a tricky situation and but i think

624

00:27:00,880 --> 00:26:59,419

at some point people like steve bassett

625

00:27:02,890 --> 00:27:00,890

who is campaigning for disclosure i

626

00:27:03,760 --> 00:27:02,900

talked about a little in a minute they

627

00:27:05,830 --> 00:27:03,770

need to come to terms with this

628

00:27:08,700 --> 00:27:05,840

information next slide please am i doing

629

00:27:13,840 --> 00:27:12,009

10-15 alright so this is Bruce depart

630

00:27:16,389 --> 00:27:13,850

this is shown so this is Stanley money i

631

00:27:17,859 --> 00:27:16,399

believe yeah this is Stanley mayor mayor

632

00:27:19,570 --> 00:27:17,869

and his lamorris right I talk to you

633

00:27:21,369 --> 00:27:19,580

about the mayor sell the one was just

634

00:27:25,259 --> 00:27:21,379

ten of those good to him power the whole

635

00:27:27,789 --> 00:27:25,269

of the country of Sudan he's dead

636

00:27:29,139 --> 00:27:27,799

Stanley mayor is dead he went for a

637

00:27:30,549 --> 00:27:29,149

meeting he went for a business lunch

638

00:27:34,330 --> 00:27:30,559

with some people who were gonna invest

639

00:27:35,409 --> 00:27:34,340

in his in his product and he ran out

640

00:27:40,629 --> 00:27:35,419

into the street clutching his throat

641

00:27:42,519 --> 00:27:40,639

saying they poisoned me and he died in

642

00:27:45,129 --> 00:27:42,529

fact a lot of a large proportion of

643

00:27:46,269 --> 00:27:45,139

these inventors is John Hutchison I

644

00:27:49,359 --> 00:27:46,279

showed you earlier one of the few left

645

00:27:51,039 --> 00:27:49,369

alive actually Brewster Palmer fell off

646

00:27:52,570 --> 00:27:51,049

a train while he was drunk apparently

647

00:27:55,299 --> 00:27:52,580

and mouton's up he's not moving trainee

648

00:28:00,580 --> 00:27:55,309

father training drunk now Eugene mallove

649

00:28:02,919 --> 00:28:00,590

was he's dead and there's many other

650

00:28:03,940 --> 00:28:02,929

examples as well people either dead

651
00:28:07,269 --> 00:28:03,950
although they've got their careers

652
00:28:12,009 --> 00:28:07,279
destroyed or they basically shut up in

653
00:28:14,139 --> 00:28:12,019
order to protect nikkor is if you have a

654
00:28:15,399 --> 00:28:14,149
free energy invention what happen is you

655
00:28:17,440 --> 00:28:15,409
will be very very careful there's

656
00:28:20,139 --> 00:28:17,450
several organizations now that are

657
00:28:21,519 --> 00:28:20,149
acting has basically support groups for

658
00:28:23,469 --> 00:28:21,529
free energy inventors there's one quick

659
00:28:25,330 --> 00:28:23,479
Keely net which i think is very good I

660
00:28:26,589 --> 00:28:25,340
like that one and there's several others

661
00:28:28,859 --> 00:28:26,599
that I wouldn't trust because I think

662
00:28:32,680 --> 00:28:28,869
they may be government gum infiltration

663
00:28:33,999 --> 00:28:32,690

you're going to ask around contact

664

00:28:36,580 --> 00:28:34,009

people and see what you might think but

665

00:28:37,960 --> 00:28:36,590

then what happen is if you gave you have

666

00:28:39,849 --> 00:28:37,970

a free energy invention first well don't

667

00:28:42,219 --> 00:28:39,859

patent it if you patent it you'll be

668

00:28:44,649 --> 00:28:42,229

approached by some guys in gray suits

669

00:28:47,049 --> 00:28:44,659

who's smiling and friendly and they

670

00:28:49,330 --> 00:28:47,059

offered development the office of they

671

00:28:50,619 --> 00:28:49,340

want blaster by development rights well

672

00:28:52,719 --> 00:28:50,629

I want you to sign a development

673

00:28:54,129 --> 00:28:52,729

contract of various kinds they'll offer

674

00:28:56,109 --> 00:28:54,139

you a large amount of money for it I

675

00:28:58,080 --> 00:28:56,119

remember free energy invention it free

676

00:29:01,960 --> 00:28:58,090

three of these inventors are very often

677

00:29:03,729 --> 00:29:01,970

part-time amateur creators who you spend

678

00:29:06,249 --> 00:29:03,739

their free time in their garden shed

679

00:29:07,330 --> 00:29:06,259

tinkering away really really annoying

680

00:29:08,580 --> 00:29:07,340

their wife and their kids because

681

00:29:10,830 --> 00:29:08,590

they're never in the house

682

00:29:12,390 --> 00:29:10,840

living in poverty living on the

683

00:29:14,760 --> 00:29:12,400

breadline support themselves in their
