

1
00:00:11,020 --> 00:00:08,800
what do you want to see the Galapagos

2
00:00:13,970 --> 00:00:11,030
Islands blonde or would you want to see

3
00:00:15,199 --> 00:00:13,980
the Great Barrier Reef brought up

4
00:00:18,760 --> 00:00:15,209
I don't think you wouldn't you trying to

5
00:00:22,940 --> 00:00:18,770
protect you acquaint it in that way

6
00:00:24,470 --> 00:00:22,950
maybe just in our part the galaxy the

7
00:00:27,279 --> 00:00:24,480
earth is a bit like in the West is in

8
00:00:30,620 --> 00:00:27,289
the desert the little strip of water

9
00:00:34,220 --> 00:00:30,630
with a few pound trees equivalent of

10
00:00:37,280 --> 00:00:34,230
that and maybe they come here just to

11
00:00:38,900 --> 00:00:37,290
watches to surveil us like we would do

12
00:00:40,569 --> 00:00:38,910
if we swim in the Great Barrier Reef we

13
00:00:44,439 --> 00:00:40,579

don't break off the coral that's no no

14

00:00:47,600 --> 00:00:44,449

we watch them in their natural habitat

15

00:00:50,119 --> 00:00:47,610

and I think this is what many species VT

16

00:00:53,450 --> 00:00:50,129

actually do it and that's why they don't

17

00:00:55,010 --> 00:00:53,460

come forward then more ice watch yeah

18

00:00:57,470 --> 00:00:55,020

like we were doing the group very real

19

00:00:59,119 --> 00:00:57,480

okay we'll talk about that later so

20

00:01:01,819 --> 00:00:59,129

that's the first kiss I think that's

21

00:01:03,680 --> 00:01:01,829

great circumstantial evidence because we

22

00:01:06,560 --> 00:01:03,690

can't explain what that was in i foraged

23

00:01:10,609 --> 00:01:06,570

it and is this the only case of a huge

24

00:01:11,900 --> 00:01:10,619

metallic disc no because in 1944 there

25

00:01:14,029 --> 00:01:11,910

are military records and the national

26

00:01:16,880 --> 00:01:14,039

archives with a squadron leader lever

27

00:01:19,850 --> 00:01:16,890

with exactly the same thing coming from

28

00:01:22,130 --> 00:01:19,860

red over Germany crew of eight seized on

29

00:01:24,559 --> 00:01:22,140

two occasions during the one going out

30

00:01:29,210 --> 00:01:24,569

towards Germany and one coming back the

31

00:01:31,089 --> 00:01:29,220

huge disk fly between them out all which

32

00:01:33,229 --> 00:01:31,099

ability records at the National Archives

33

00:01:39,989 --> 00:01:33,239

ball which should be able to swap lives

34

00:01:46,599 --> 00:01:43,529

conclusion what else could it be

35

00:01:52,209 --> 00:01:46,609

metallic roll windows 30 foot we can't

36

00:01:54,069 --> 00:01:52,219

do it now it's a no-brainer for those of

37

00:01:57,010 --> 00:01:54,079

you quite knowledgeable on UFOs you're

38

00:02:00,249 --> 00:01:57,020

aware of the Tehran incident 1976 who

39

00:02:02,440 --> 00:02:00,259

who is not aware of the 1976 Tehran kids

40

00:02:05,050 --> 00:02:02,450

put your hands up in the air okay thank

41

00:02:09,119 --> 00:02:05,060

you ask nicely to have to route okay so

42

00:02:13,449 --> 00:02:09,129

let me talk about this case 1976 in Iran

43

00:02:16,780 --> 00:02:13,459

basically people on the ground see that

44

00:02:20,470 --> 00:02:16,790

it's an Air Force Base see visually on

45

00:02:24,819 --> 00:02:20,480

the ground a UF for motionless hovering

46

00:02:27,970 --> 00:02:24,829

near the runway okay and the general

47

00:02:32,289 --> 00:02:27,980

says I want a novel that is so he sends

48

00:02:35,020 --> 00:02:32,299

up a jet fighter a phantom jet f4

49

00:02:38,800 --> 00:02:35,030

phantom to go up and see what this

50

00:02:41,229 --> 00:02:38,810

static readout confirmed object is when

51
00:02:43,089 --> 00:02:41,239
he gets when aircraft gets to within 25

52
00:02:46,150 --> 00:02:43,099
miles of this object that starts moving

53
00:02:48,069 --> 00:02:46,160
away as soon as the plane takes off as

54
00:02:51,789 --> 00:02:48,079
soon as he gets to within 25 yards he

55
00:02:53,349 --> 00:02:51,799
loses all instrumentation power fairly

56
00:02:56,409 --> 00:02:53,359
electrical powerful loses all his

57
00:03:00,970 --> 00:02:56,419
entrance so he's forced to return back

58
00:03:06,009 --> 00:03:00,980
to the best a second therefore he sent

59
00:03:09,339 --> 00:03:06,019
up to investigate and the pilot we now

60
00:03:11,229 --> 00:03:09,349
know is called general is now a general

61
00:03:15,640 --> 00:03:11,239
he retired as a general that's pretty

62
00:03:16,890 --> 00:03:15,650
high rent Parviz Jafari so the time he

63
00:03:20,559 --> 00:03:16,900

likes the night of Flight Lieutenant

64

00:03:22,750 --> 00:03:20,569

mid-ranking Air Force pilot and he's

65

00:03:25,360 --> 00:03:22,760

thin took to investigate and when he

66

00:03:30,520 --> 00:03:25,370

gets close a strange thing happens he

67

00:03:33,220 --> 00:03:30,530

sees this as the pilot lieutenant Parviz

68

00:03:35,800 --> 00:03:33,230

Jafari it's not a great drive but what

69

00:03:39,789 --> 00:03:35,810

we can see on the right hand corner is

70

00:03:43,089 --> 00:03:39,799

the f-4 phantom chasing what looked like

71

00:03:44,259 --> 00:03:43,099

a diamond-shaped object well actually in

72

00:03:46,809 --> 00:03:44,269

the second half I'll show you an

73

00:03:50,379 --> 00:03:46,819

interview with the pilot Derek path

74

00:03:52,080 --> 00:03:50,389

drivers / phone and he said the object

75

00:03:56,309 --> 00:03:52,090

was like diamond-shaped he was pulsing

76
00:03:59,540 --> 00:03:56,319
for repeat colors for sequence all the

77
00:04:03,259 --> 00:03:59,550
time when he started to get close to it

78
00:04:07,650 --> 00:04:03,269
from the back of the object a red object

79
00:04:12,330 --> 00:04:07,660
separated from it and shot towards in a

80
00:04:15,180 --> 00:04:12,340
high-speed collision course he thought

81
00:04:19,400 --> 00:04:15,190
he was going to die so defensive

82
00:04:23,430 --> 00:04:19,410
maneuver by the UFO being chest he fires

83
00:04:28,320 --> 00:04:23,440
releases a red object that shoots out on

84
00:04:29,790 --> 00:04:28,330
collision course he has no time to get

85
00:04:31,710 --> 00:04:29,800
out the way he thinks he's going to die

86
00:04:35,700 --> 00:04:31,720
with a collision then at the last moment

87
00:04:37,500 --> 00:04:35,710
it goes down side he tries to fire at it

88
00:04:40,850 --> 00:04:37,510

in that split second when he sees him

89

00:04:44,020 --> 00:04:40,860

released wasn't his weapon systems jam

90

00:04:47,360 --> 00:04:44,030

surprise surprise

91

00:04:51,380 --> 00:04:47,370

so we have do we not out German

92

00:04:53,990 --> 00:04:51,390

mechanisms now in monogram do we not

93

00:04:56,960 --> 00:04:54,000

take avoidance chaff this is a missile

94

00:04:58,820 --> 00:04:56,970

fighting the release chaff so then the

95

00:05:00,820 --> 00:04:58,830

missile gets directed towards the silver

96

00:05:03,710 --> 00:05:00,830

foil and blows up round the plane

97

00:05:07,670 --> 00:05:03,720

defensive maneuver so this red object

98

00:05:11,810 --> 00:05:07,680

comes towards in last minute moves he

99

00:05:15,070 --> 00:05:11,820

then sees the red object go back towards

100

00:05:18,140 --> 00:05:15,080

the unmerge with the main object merge

101
00:05:20,510 --> 00:05:18,150
how many planes have we seen merging to

102
00:05:22,850 --> 00:05:20,520
another plan how many objects can we

103
00:05:27,890 --> 00:05:22,860
release and rumour JH seamlessly back

104
00:05:32,900 --> 00:05:27,900
into an object can we do that now this

105
00:05:35,600 --> 00:05:32,910
1976 all confirmed on Rona and then he

106
00:05:38,060 --> 00:05:35,610
sees a green object further on in the

107
00:05:41,800 --> 00:05:38,070
chairs they brought straight down to the

108
00:05:44,690 --> 00:05:41,810
ground descends to the ground and lands

109
00:05:48,800 --> 00:05:44,700
and it's so bright it lights up the

110
00:05:50,840 --> 00:05:48,810
whole area right there like to go back

111
00:05:53,090 --> 00:05:50,850
the next day eat that the object then

112
00:05:57,170 --> 00:05:53,100
just shoots off one in a blink can't get

113
00:05:59,180 --> 00:05:57,180

away there put the long story short they

114

00:06:00,590 --> 00:05:59,190

go back the next there to try to find

115

00:06:03,500 --> 00:06:00,600

where the object of London to see if

116

00:06:05,960 --> 00:06:03,510

there's an interest evidence none it was

117

00:06:07,730 --> 00:06:05,970

the farm nearby when they said did you

118

00:06:08,750 --> 00:06:07,740

hear anything I wish said we're denies

119

00:06:11,540 --> 00:06:08,760

we do we just thought it was

120

00:06:13,640 --> 00:06:11,550

thunderstorm good anymore nothing was

121

00:06:16,790 --> 00:06:13,650

found but all of this was ground

122

00:06:18,710 --> 00:06:16,800

confirmed initially from the air traffic

123

00:06:21,500 --> 00:06:18,720

control tower seen the stationary

124

00:06:25,640 --> 00:06:21,510

objects of the airfield so then as soon

125

00:06:27,640 --> 00:06:25,650

as they dispatch it at f/4 stores to go

126

00:06:30,080 --> 00:06:27,650

we're all up in common let's get out

127

00:06:33,560 --> 00:06:30,090

think about it what we would do trying

128

00:06:36,290 --> 00:06:33,570

to get rid objectors the first aircraft

129

00:06:39,470 --> 00:06:36,300

girls power failure has to return much

130

00:06:40,760 --> 00:06:39,480

best second object almost dies he thinks

131

00:06:43,460 --> 00:06:40,770

is going to die when this road object

132

00:06:47,150 --> 00:06:43,470

comes towards in the collision speed all

133

00:06:50,030 --> 00:06:47,160

of these are provable through

134

00:06:53,540 --> 00:06:50,040

documentation for a military records in

135

00:06:55,190 --> 00:06:53,550

the public demand the pilot several of

136

00:06:56,350 --> 00:06:55,200

the people in the air traffic control

137

00:06:58,540 --> 00:06:56,360

tower have gone

138

00:07:01,179 --> 00:06:58,550

record to confirm that this incident

139

00:07:03,070 --> 00:07:01,189

happen the Americans produced a defense

140

00:07:04,869 --> 00:07:03,080

intelligence agency report about the

141

00:07:07,149 --> 00:07:04,879

whole incident that went right up to the

142

00:07:09,909 --> 00:07:07,159

White House top that they're interested

143

00:07:11,679 --> 00:07:09,919

obviously not that there's anything to

144

00:07:17,140 --> 00:07:11,689

this trip but it went to the right as

145

00:07:20,439 --> 00:07:17,150

you can see on the CC with ya so this is

146

00:07:22,659 --> 00:07:20,449

a really credible case involving ground

147

00:07:26,559 --> 00:07:22,669

radar airborne radar ground visual

148

00:07:28,510 --> 00:07:26,569

ground a bond visual redder to say that

149

00:07:31,809 --> 00:07:28,520

this is a real thing maneuvering our

150

00:07:36,850 --> 00:07:31,819

Esper's that should have made the six

151

00:07:39,040 --> 00:07:36,860

o'clock news Shin didn't body people

152

00:07:41,469 --> 00:07:39,050

like me and researchers who look out

153

00:07:42,939 --> 00:07:41,479

these records people before me we've got

154

00:07:44,320 --> 00:07:42,949

to the trouble to get freedom of

155

00:07:46,749 --> 00:07:44,330

information request for all this

156

00:07:48,999 --> 00:07:46,759

information I've identified the pilot

157

00:07:50,469 --> 00:07:49,009

I've interviewed the pilot will see a

158

00:07:53,260 --> 00:07:50,479

clip in the second down for I'll show is

159

00:07:54,760 --> 00:07:53,270

in being intimate about it briefly so

160

00:07:57,730 --> 00:07:54,770

this is an absolutely brilliant kiss

161

00:08:03,249 --> 00:07:57,740

this is another credible piece of

162

00:08:05,189 --> 00:08:03,259

hardware that maneuvers in a way it's a

163

00:08:08,260 --> 00:08:05,199

non-conventional shared diamond

164

00:08:11,379 --> 00:08:08,270

pulsating for sequence colors that

165

00:08:13,420 --> 00:08:11,389

releases an object that then is allowed

166

00:08:15,490 --> 00:08:13,430

to seamlessly merged back into it

167

00:08:20,559 --> 00:08:15,500

releases another object down to the

168

00:08:25,510 --> 00:08:20,569

ground there's nothing we can do now in

169

00:08:26,950 --> 00:08:25,520

the public event we can do that so if we

170

00:08:29,740 --> 00:08:26,960

rule out all the conventional and

171

00:08:31,809 --> 00:08:29,750

answers Barry vine think about nineteen

172

00:08:33,670 --> 00:08:31,819

forty two kids we still have been able

173

00:08:36,069 --> 00:08:33,680

to explain that so that sets the bar

174

00:08:38,350 --> 00:08:36,079

pretty high that there was something

175

00:08:41,880 --> 00:08:38,360

flying on RS but it's in 94 teetotalers

176

00:08:45,389 --> 00:08:41,890

it for can't explain in 1942 then really

177

00:08:48,009 --> 00:08:45,399

for being up seven good 942 proves it

178

00:08:49,420 --> 00:08:48,019

but there are objects operating in RS

179

00:08:52,870 --> 00:08:49,430

but it's that we can get anywhere near

180

00:08:55,300 --> 00:08:52,880

in terms of design even now so the case

181

00:08:57,519 --> 00:08:55,310

really is proven in 942 but let's just

182

00:09:02,060 --> 00:08:57,529

build this picture up so now we have

183

00:09:04,430 --> 00:09:02,070

this case to me all of these elements

184

00:09:07,220 --> 00:09:04,440

sure intelligence because its defensive

185

00:09:10,910 --> 00:09:07,230

maneuvers in pursuit so exactly what we

186

00:09:14,240 --> 00:09:10,920

were trying to do if if a Syrian jet was

187

00:09:17,060 --> 00:09:14,250

being chased by another sort merican

188

00:09:19,550 --> 00:09:17,070

plan to try to get out the wind and try

189

00:09:24,230 --> 00:09:19,560

to do defensive maneuvers but they're

190

00:09:25,610 --> 00:09:24,240

not careful we'll do all this so some

191

00:09:27,590 --> 00:09:25,620

other piece of circumstantial evidence

192

00:09:38,260 --> 00:09:27,600

that says someone's flying around it

193

00:09:44,230 --> 00:09:40,250

we talked about the Rendlesham forest

194

00:09:48,490 --> 00:09:44,240

kids briefly before some people came in

195

00:09:53,210 --> 00:09:48,500

for seven years I worked alongside

196

00:09:55,550 --> 00:09:53,220

Colonel halt Charles whole the depth who

197

00:09:56,690 --> 00:09:55,560

in nineteen eighty was the then Deputy

198

00:09:59,750 --> 00:09:56,700

base commander he was a left-handed

199

00:10:02,180 --> 00:09:59,760

Colonel at the time of the incident and

200

00:10:06,620 --> 00:10:02,190

basically cut a long story short three

201
00:10:11,870 --> 00:10:06,630
successive nights the 26th the 25th into

202
00:10:14,960 --> 00:10:11,880
the 26 26 and 27 27 to 28 three

203
00:10:19,100 --> 00:10:14,970
successive nights of UFO activity near

204
00:10:22,010 --> 00:10:19,110
this base and it was a twin base complex

205
00:10:24,320 --> 00:10:22,020
least from the RAF called Bentwaters in

206
00:10:26,830 --> 00:10:24,330
woodbridge two bits is separated by a

207
00:10:30,800 --> 00:10:26,840
forest Rendlesham forest in the middle

208
00:10:32,330 --> 00:10:30,810
now here's the real reason why this is

209
00:10:34,610 --> 00:10:32,340
of interest and it's never really

210
00:10:39,310 --> 00:10:34,620
mentioned by any of the documentaries

211
00:10:46,400 --> 00:10:39,320
that are made what was happening in 1980

212
00:10:48,080 --> 00:10:46,410
ave SE world's defense issue why suffer

213
00:10:50,750 --> 00:10:48,090

what people go what you know why

214

00:10:54,670 --> 00:10:50,760

daughter little old suffer little bit

215

00:10:57,530 --> 00:10:54,680

away well there's very good reasons why

216

00:11:00,620 --> 00:10:57,540

one of the reasons is that in nineteen

217

00:11:02,600 --> 00:11:00,630

eighty december 1980 there were two

218

00:11:06,370 --> 00:11:02,610

world events that were destabilizing

219

00:11:09,620 --> 00:11:06,380

peace one was the Iranian hostage crisis

220

00:11:12,320 --> 00:11:09,630

so many hostages have been ting but the

221

00:11:15,020 --> 00:11:12,330

biggest one was the rise of the solid on

222

00:11:18,170 --> 00:11:15,030

us Paula shipyard workers on the level

223

00:11:23,380 --> 00:11:18,180

ends in port if you remember in nineteen

224

00:11:27,230 --> 00:11:25,640

Paula's shipyard workers on the lake

225

00:11:30,760 --> 00:11:27,240

monster said no no we've got to add

226

00:11:33,340 --> 00:11:30,770

reform kind of a rebellion revolution

227

00:11:37,100 --> 00:11:33,350

now for those of you are old enough

228

00:11:39,830 --> 00:11:37,110

they'll remember hungry again earlier

229

00:11:41,540 --> 00:11:39,840

was the satellite Soviets there and when

230

00:11:43,820 --> 00:11:41,550

base tides are about it was quashed

231

00:11:45,440 --> 00:11:43,830

soviet troops went even question it put

232

00:11:48,710 --> 00:11:45,450

it down no you don't have your

233

00:11:50,519 --> 00:11:48,720

independence at the time of this event

234

00:11:53,749 --> 00:11:50,529

december 1918

235

00:11:56,550 --> 00:11:53,759

hundreds of thousands the Soviet troops

236

00:12:00,389 --> 00:11:56,560

were massing on the borders of Poland

237

00:12:02,489 --> 00:12:00,399

and it looked like they were then going

238

00:12:04,650 --> 00:12:02,499

to do a little hungry so this is a

239

00:12:06,960 --> 00:12:04,660

proven fact hundreds of thousands of

240

00:12:09,360 --> 00:12:06,970

Soviet soldiers massing on the Polish

241

00:12:12,420 --> 00:12:09,370

border wait for that do it going up

242

00:12:14,519 --> 00:12:12,430

honor now that could have triggered a

243

00:12:16,739 --> 00:12:14,529

third world war so this is pretty

244

00:12:18,799 --> 00:12:16,749

serious and then of course you've got

245

00:12:22,230 --> 00:12:18,809

the tension in the Middle East the Iran

246

00:12:25,949 --> 00:12:22,240

Iranian hostage crisis so two very good

247

00:12:28,739 --> 00:12:25,959

reasons why maybe UFOs might think this

248

00:12:33,530 --> 00:12:28,749

is a bit of a destabilized time but why

249

00:12:35,670 --> 00:12:33,540

Suffolk well the real answer is

250

00:12:37,350 --> 00:12:35,680

everybody how many people have heard of

251
00:12:39,569 --> 00:12:37,360
green in common and they please

252
00:12:41,400 --> 00:12:39,579
protesters a green come how many have

253
00:12:44,460 --> 00:12:41,410
not heard the green in common through

254
00:12:46,860 --> 00:12:44,470
the ages well basically the Americans

255
00:12:49,799 --> 00:12:46,870
were thought to be bringing in nuclear

256
00:12:52,410 --> 00:12:49,809
missiles and housing and green in common

257
00:12:54,600 --> 00:12:52,420
in the nuclear bunker so these

258
00:12:57,509 --> 00:12:54,610
protestors set up a camp outside the

259
00:12:59,790 --> 00:12:57,519
gates alongside the fangs and put the

260
00:13:01,740 --> 00:12:59,800
banners saying we want the missiles out

261
00:13:04,410 --> 00:13:01,750
we don't want nuclear weapons here at

262
00:13:06,809 --> 00:13:04,420
this base but guess what it was all a

263
00:13:12,960 --> 00:13:06,819

lie where do you think the nuclear

264

00:13:14,610 --> 00:13:12,970

weapons right the bridge but there's a

265

00:13:17,639 --> 00:13:14,620

problem with admitted that they were up

266

00:13:19,350 --> 00:13:17,649

to Ben Watson woodridge why because he

267

00:13:21,210 --> 00:13:19,360

would break all the armaments agreement

268

00:13:27,869 --> 00:13:21,220

now I'm going to say this very clearly

269

00:13:31,889 --> 00:13:27,879

to you a senior military figure why knew

270

00:13:35,100 --> 00:13:31,899

personally told me that there were more

271

00:13:37,290 --> 00:13:35,110

nuclear weapons and re at Bentwaters in

272

00:13:41,160 --> 00:13:37,300

the nuclear bunkers than anywhere else

273

00:13:46,319 --> 00:13:41,170

in Europe and none of them should have

274

00:13:48,329 --> 00:13:46,329

been there so two-time world crisis is

275

00:13:51,150 --> 00:13:48,339

it a coincidence that when you are

276

00:13:53,489 --> 00:13:51,160

looking at a destabilized world and

277

00:13:54,889 --> 00:13:53,499

maybe a threat to our existence even

278

00:13:57,809 --> 00:13:54,899

with a nuclear third world war

279

00:14:00,700 --> 00:13:57,819

Armageddon scenario so you were fosco

280

00:14:04,530 --> 00:14:00,710

what Apple value doin

281

00:14:08,620 --> 00:14:04,540

it think about its logical isn't

282

00:14:12,880 --> 00:14:08,630

especially if they may be live here now

283

00:14:15,580 --> 00:14:12,890

we're all going to smile leg but how

284

00:14:20,620 --> 00:14:15,590

many people realize that in our deepest

285

00:14:25,540 --> 00:14:20,630

oceans we only know one percent of the

286

00:14:28,270 --> 00:14:25,550

oceans in 2016 we only know what percent

287

00:14:31,030 --> 00:14:28,280

of what's in the oceans now think about

288

00:14:34,570 --> 00:14:31,040

this we know more about the surface of

289

00:14:38,620 --> 00:14:34,580

moon the moon and mars then we did do

290

00:14:41,140 --> 00:14:38,630

about our own oceans now how many people

291

00:14:43,750 --> 00:14:41,150

have seen the film the abyss the science

292

00:14:46,000 --> 00:14:43,760

fiction classic here's a scenario for

293

00:14:48,790 --> 00:14:46,010

you how many people in this room

294

00:14:52,750 --> 00:14:48,800

realized that UFOs are seen coming in

295

00:14:54,220 --> 00:14:52,760

and out of water worldwide how many

296

00:14:58,030 --> 00:14:54,230

don't realize that you are fours are

297

00:15:01,930 --> 00:14:58,040

coming in that war on one Walden we do

298

00:15:04,420 --> 00:15:01,940

now but that's a reported all around the

299

00:15:06,720 --> 00:15:04,430

world your force seen emerging from

300

00:15:09,880 --> 00:15:06,730

water into the air flying off and

301
00:15:12,130 --> 00:15:09,890
descended into the water and have been

302
00:15:14,350 --> 00:15:12,140
captured on so now being seen by

303
00:15:16,150 --> 00:15:14,360
military ships coming out water and all

304
00:15:21,220 --> 00:15:16,160
recorded old documentary evidence

305
00:15:23,770 --> 00:15:21,230
proving it multiple witnesses so if we

306
00:15:28,030 --> 00:15:23,780
only know one percent like I said

307
00:15:31,240 --> 00:15:28,040
earlier is it not at least feasible to

308
00:15:33,460 --> 00:15:31,250
think that when I said they don't want

309
00:15:36,700 --> 00:15:33,470
to see this planet get destroyed by our

310
00:15:40,120 --> 00:15:36,710
own hand ie nuclear weapons but maybe

311
00:15:42,670 --> 00:15:40,130
they've got some underground bases in

312
00:15:44,020 --> 00:15:42,680
the rest of the ninety nine percent but

313
00:15:47,470 --> 00:15:44,030

maybe they've been here a long time a

314

00:15:51,070 --> 00:15:47,480

quite happy staying away from us but we

315

00:15:52,810 --> 00:15:51,080

just come out I won't go back in you

316

00:15:55,560 --> 00:15:52,820

won't want the planet destroyed it

317

00:16:00,190 --> 00:15:55,570

because it would actually be your planet

318

00:16:03,460 --> 00:16:00,200

your home which kind of turns it on its

319

00:16:06,250 --> 00:16:03,470

head a bit as to why they've got an

320

00:16:09,770 --> 00:16:06,260

interest in nuclear weapons

321

00:16:13,580 --> 00:16:09,780

so time of crisis more nuclear weapons

322

00:16:15,530 --> 00:16:13,590

in Ben Watson weapon storage area than

323

00:16:19,390 --> 00:16:15,540

anywhere else in Europe it brought all

324

00:16:21,650 --> 00:16:19,400

the armament agreements that's why a

325

00:16:25,490 --> 00:16:21,660

senior military figure could never

326

00:16:27,670 --> 00:16:25,500

publicly say what I've just said because

327

00:16:30,080 --> 00:16:27,680

that really would cause upon its nest

328

00:16:31,910 --> 00:16:30,090

but this is why the senior officers at

329

00:16:35,510 --> 00:16:31,920

the time will go but we can neither

330

00:16:40,660 --> 00:16:35,520

confirm that they were nuclear weapon

331

00:16:44,740 --> 00:16:40,670

little bit politics but it's about that

332

00:16:48,020 --> 00:16:44,750

why suffered more nuclear weapons

333

00:16:51,110 --> 00:16:48,030

destabilizing world crisis hey we could

334

00:16:54,260 --> 00:16:51,120

just boil this planet home what are they

335

00:16:57,220 --> 00:16:54,270

doing there my personal tech is that

336

00:16:59,900 --> 00:16:57,230

that was kind of a nuclear inspection

337

00:17:01,460 --> 00:16:59,910

what are they doing that and bear in

338

00:17:03,610 --> 00:17:01,470

mind for those of you who aren't aware

339

00:17:08,240 --> 00:17:03,620

that on the third night of activity

340

00:17:10,760 --> 00:17:08,250

Colonel halt by changing radio channel

341

00:17:12,770 --> 00:17:10,770

having already observed at UF for

342

00:17:15,079 --> 00:17:12,780

stopping above his head and shiny to

343

00:17:17,600 --> 00:17:15,089

beam down to his ground with these other

344

00:17:19,670 --> 00:17:17,610

four men like a laser beam came down

345

00:17:21,500 --> 00:17:19,680

from say a thousand feet so they see an

346

00:17:25,310 --> 00:17:21,510

object come towards and stop above their

347

00:17:27,199 --> 00:17:25,320

heads let's beam down he said is this a

348

00:17:29,090 --> 00:17:27,209

warning is this the type of

349

00:17:31,730 --> 00:17:29,100

communication that's what he was

350

00:17:33,740 --> 00:17:31,740

thinking they're all in our object then

351

00:17:35,570 --> 00:17:33,750

goes towards the base now from their

352

00:17:37,370 --> 00:17:35,580

geographical position as they look back

353

00:17:39,860 --> 00:17:37,380

towards the base because of the roster

354

00:17:42,230 --> 00:17:39,870

alien trees they can't see exactly where

355

00:17:44,240 --> 00:17:42,240

it is all the bits but the object is

356

00:17:47,270 --> 00:17:44,250

shining being down to the ground like it

357

00:17:49,880 --> 00:17:47,280

into them so he changes his radio

358

00:17:53,870 --> 00:17:49,890

channel to the weapon storage frequency

359

00:17:56,600 --> 00:17:53,880

and just in time to hear the guy in the

360

00:17:59,320 --> 00:17:56,610

tower say that there are beams being

361

00:18:04,490 --> 00:17:59,330

Sean down into the nuclear storage

362

00:18:06,260 --> 00:18:04,500

bunker I worked on what bonus so I can

363

00:18:08,270 --> 00:18:06,270

envisage this exactly what it looks like

364

00:18:11,119 --> 00:18:08,280

there must have been whole hell breaking

365

00:18:18,629 --> 00:18:14,639

so the implications are that they were

366

00:18:21,180 --> 00:18:18,639

scanning the bunkers to see what was in

367

00:18:24,839 --> 00:18:21,190

there an odd outgoing what the hell are

368

00:18:26,190 --> 00:18:24,849

they did 11 what's well but just kind of

369

00:18:28,049 --> 00:18:26,200

make sense when you think about it in

370

00:18:30,930 --> 00:18:28,059

those terms but the beam beach on now

371

00:18:35,399 --> 00:18:30,940

confirmed by several people including

372

00:18:37,099 --> 00:18:35,409

Holtz for me on a personal video from

373

00:18:39,570 --> 00:18:37,109

the top of the weapon storage area tower

374

00:18:42,119 --> 00:18:39,580

where he describes exactly what I've

375

00:18:44,539 --> 00:18:42,129

said to you I'd like to repeat it on

376

00:18:46,560 --> 00:18:44,549

video she can't take it back then Kenny

377

00:18:49,139 --> 00:18:46,570

that he changed the rate of your

378

00:18:51,899 --> 00:18:49,149

frequency in the heard the guy in the

379

00:18:54,449 --> 00:18:51,909

tower we were stood saying beams will be

380

00:18:59,659 --> 00:18:54,459

shot down in for the surgery can't take

381

00:19:05,249 --> 00:18:59,669

it back ok so putting a long story short

382

00:19:08,669 --> 00:19:05,259

that's an amazing kiss job to carry on

383

00:19:09,869 --> 00:19:08,679

on John over little bro carry on I've

384

00:19:11,969 --> 00:19:09,879

got you for another 10 minutes because

385

00:19:14,879 --> 00:19:11,979

we're actually on path ain't we until

386

00:19:16,709 --> 00:19:14,889

you talk to me so so basically let's now

387

00:19:19,139 --> 00:19:16,719

look at so this for those of you that

388

00:19:22,079 --> 00:19:19,149

aren't aware the news the world now

389

00:19:24,479 --> 00:19:22,089

doesn't exist that was the headline when

390

00:19:27,779 --> 00:19:24,489

all round the world you f four runs in

391

00:19:29,969 --> 00:19:27,789

suffered and that's official and why was

392

00:19:32,279 --> 00:19:29,979

it official because it made reference to

393

00:19:34,649 --> 00:19:32,289

this document which i'm going to show

394

00:19:36,299 --> 00:19:34,659

you now that's called the whole way

395

00:19:40,589 --> 00:19:36,309

around and written by the guy I worked

396

00:19:41,969 --> 00:19:40,599

with for seven years Colonel hole during

397

00:19:44,369 --> 00:19:41,979

the left hand currently wrote this to

398

00:19:49,199 --> 00:19:44,379

the MLD of the Air Force to pass the

399

00:19:51,839 --> 00:19:49,209

ammonia and it's only a brief document

400

00:19:56,339 --> 00:19:51,849

is as he always said it was a test to

401
00:20:00,690 --> 00:19:56,349
say someone coming investigated but this

402
00:20:02,819 --> 00:20:00,700
three page 3 paragraph document is one

403
00:20:06,299 --> 00:20:02,829
of the world's top five documents in the

404
00:20:08,399 --> 00:20:06,309
history of UFOs in my opinion it's a

405
00:20:10,699 --> 00:20:08,409
piece of documentary evidence that we

406
00:20:13,259 --> 00:20:10,709
can produce an account of law and it ran

407
00:20:17,279 --> 00:20:13,269
but it's not three paragraphs that make

408
00:20:20,930 --> 00:20:17,289
is so explosive the first paragraph says

409
00:20:23,159 --> 00:20:20,940
that on the first night of three nights

410
00:20:25,409 --> 00:20:23,169
but at that time it was really only

411
00:20:29,640 --> 00:20:25,419
realized the two nights on the first

412
00:20:32,220 --> 00:20:29,650
night a London triangular craft London

413
00:20:37,230 --> 00:20:32,230

in the forest and was seen by some of

414

00:20:40,680 --> 00:20:37,240

his Airmen second paragraph that object

415

00:20:44,520 --> 00:20:40,690

left ground trace impressions three

416

00:20:48,659 --> 00:20:44,530

depressions equilateral the impressions

417

00:20:53,010 --> 00:20:48,669

into the soil to the same depth the same

418

00:20:54,810 --> 00:20:53,020

size same weight distribution when they

419

00:20:59,520 --> 00:20:54,820

put the guy counter over it two days

420

00:21:03,480 --> 00:20:59,530

later the Geiger counter only Pete in

421

00:21:06,720 --> 00:21:03,490

terms of background radiation guess

422

00:21:09,350 --> 00:21:06,730

we're in each and the indented guided

423

00:21:12,270 --> 00:21:09,360

impressions and graham indentations

424

00:21:15,840 --> 00:21:12,280

sogang count so it goes into the pot

425

00:21:18,360 --> 00:21:15,850

holes it described hi eight times higher

426
00:21:22,620 --> 00:21:18,370
background radiation later comfort by

427
00:21:25,409 --> 00:21:22,630
the even skeptical mcspot those of you

428
00:21:26,460 --> 00:21:25,419
know Nick barber works with Emily so

429
00:21:28,590 --> 00:21:26,470
again we have a piece of paper

430
00:21:30,690 --> 00:21:28,600
corroborate the fact that it was eight

431
00:21:33,779 --> 00:21:30,700
times height background radiation the

432
00:21:38,430 --> 00:21:33,789
only Pete in those three areas on one

433
00:21:40,140 --> 00:21:38,440
area in the center of the triangle if

434
00:21:43,049 --> 00:21:40,150
you think of an object taking off if I

435
00:21:44,909 --> 00:21:43,059
have a degree of blast directly

436
00:21:46,980 --> 00:21:44,919
underneath a flat takes off spaceship

437
00:21:49,680 --> 00:21:46,990
kind of thing that area there directly

438
00:21:51,750 --> 00:21:49,690

under its backside was an area there

439

00:21:53,880 --> 00:21:51,760

where it's packed but in that only the

440

00:21:55,980 --> 00:21:53,890

three identificate three indentations

441

00:22:00,000 --> 00:21:55,990

and then the last paragraph is

442

00:22:02,490 --> 00:22:00,010

absolutely incredible for the simple

443

00:22:05,070 --> 00:22:02,500

reason is how often do you get a

444

00:22:07,950 --> 00:22:05,080

left-tenant hurdle extremely high rank

445

00:22:10,680 --> 00:22:07,960

the deputy base commander of a front

446

00:22:14,250 --> 00:22:10,690

line near tour best saying I saw

447

00:22:15,899 --> 00:22:14,260

multiple UFO s himself and putting pen

448

00:22:18,779 --> 00:22:15,909

to paper that's a bit like the Chief

449

00:22:22,110 --> 00:22:18,789

Constable of Wales please southwell

450

00:22:24,590 --> 00:22:22,120

please say yeah I saw a UFO London the

451
00:22:27,930 --> 00:22:24,600
forest epistola he's not going to do it

452
00:22:30,310 --> 00:22:27,940
is he doing crazy blues in his job but

453
00:22:33,060 --> 00:22:30,320
this guy did

454
00:22:36,759 --> 00:22:33,070
but it wasn't ever supposed to be public

455
00:22:41,980 --> 00:22:36,769
in fact nobody knew about this incident

456
00:22:43,690 --> 00:22:41,990
worldwide until October 1983 when the

457
00:22:45,669 --> 00:22:43,700
news of the world got hold of that

458
00:22:49,330 --> 00:22:45,679
document the whole memorandum that piece

459
00:22:53,110 --> 00:22:49,340
of paper it was never meant to go public

460
00:22:55,149 --> 00:22:53,120
in fact halt tried his best not to have

461
00:22:56,950 --> 00:22:55,159
it released because he knew they did his

462
00:22:58,659 --> 00:22:56,960
life with never the same and guess what

463
00:23:01,899 --> 00:22:58,669

it was released his heart was never the

464

00:23:05,169 --> 00:23:01,909

same so he pretty good reasons for one

465

00:23:08,259 --> 00:23:05,179

in villa so all in all put a long story

466

00:23:09,639 --> 00:23:08,269

now how many documents do we have in the

467

00:23:11,499 --> 00:23:09,649

public domain that you could take in a

468

00:23:14,409 --> 00:23:11,509

court of law this hypothetical court of

469

00:23:16,119 --> 00:23:14,419

law do UFOs exist that we can say I know

470

00:23:18,100 --> 00:23:16,129

we've got landed triangular craft so you

471

00:23:19,930 --> 00:23:18,110

bear the multiple airman that leaves

472

00:23:22,539 --> 00:23:19,940

ground depressions trace evidence in the

473

00:23:23,680 --> 00:23:22,549

ground broken branches where it come

474

00:23:27,129 --> 00:23:23,690

down through the canopy of the trees

475

00:23:29,230 --> 00:23:27,139

taking up and also the best deputy base

476

00:23:32,230 --> 00:23:29,240

commander of a nucleobase hour so

477

00:23:35,070 --> 00:23:32,240

multiple UFOs or top doesn't happen very

478

00:23:37,570 --> 00:23:35,080

often hence why it's such an important

479

00:23:42,720 --> 00:23:37,580

such a good stream to our board that's

480

00:23:46,360 --> 00:23:42,730

three or five this is a diagram of the

481

00:23:49,240 --> 00:23:46,370

triangular craft was basically three

482

00:23:52,930 --> 00:23:49,250

meters by three meters not very big like

483

00:23:57,279 --> 00:23:52,940

glass to the touch and no machinery nor

484

00:24:00,220 --> 00:23:57,289

engines appeared to be either hovering

485

00:24:03,369 --> 00:24:00,230

or on legs and there were some symbols

486

00:24:07,529 --> 00:24:03,379

on the side this is a copy that he put

487

00:24:10,889 --> 00:24:07,539

in his pocketbook sergeant person okay

488

00:24:13,810 --> 00:24:10,899

that's holt my photograph of hope

489

00:24:17,320 --> 00:24:13,820

pointing to where the object Center beam

490

00:24:18,639 --> 00:24:17,330

down in the field that's the field and

491

00:24:21,340 --> 00:24:18,649

guess what in all the 30 up

492

00:24:24,879 --> 00:24:21,350

documentaries that it made worldwide

493

00:24:27,909 --> 00:24:24,889

with film crews nobody knows who came

494

00:24:30,629 --> 00:24:27,919

back to that field investigative

495

00:24:32,649 --> 00:24:30,639

journalist please say retrace your steps

496

00:24:36,379 --> 00:24:32,659

show me where it happened where the

497

00:24:40,259 --> 00:24:36,389

murder scene 1 the hope that isn't

498

00:24:42,840 --> 00:24:40,269

talk about vendre home because I've got

499

00:24:46,769 --> 00:24:42,850

good examples of where they manipular so

500

00:24:51,690 --> 00:24:46,779

again all very very real people got on

501
00:24:56,519 --> 00:24:51,700
camera for many years there were only

502
00:24:59,460 --> 00:24:56,529
two very brief radar tracings okay and

503
00:25:03,269 --> 00:24:59,470
people didn't really give much credence

504
00:25:05,460 --> 00:25:03,279
for about seven years ago Robert

505
00:25:08,129 --> 00:25:05,470
Hairston's it was an American raw book

506
00:25:09,690 --> 00:25:08,139
called us [h__h] and nukes and if you

507
00:25:12,089 --> 00:25:09,700
haven't got it a suggestion you're

508
00:25:15,899 --> 00:25:12,099
buying it it sold to do with ufos and

509
00:25:18,690 --> 00:25:15,909
nuclear weapons okay and in that he was

510
00:25:21,149 --> 00:25:18,700
able to get two witnesses to come

511
00:25:23,219 --> 00:25:21,159
forward and guess what these were police

512
00:25:25,259 --> 00:25:23,229
officers these were air traffic

513
00:25:27,989 --> 00:25:25,269

controllers a totally different

514

00:25:31,219 --> 00:25:27,999

department that you never see mentioned

515

00:25:33,629 --> 00:25:31,229

on any Rendlesham document documentary

516

00:25:36,089 --> 00:25:33,639

and they went public said during that

517

00:25:37,919 --> 00:25:36,099

christmas period they stay were on duty

518

00:25:41,190 --> 00:25:37,929

they couldn't be specific as to the

519

00:25:44,339 --> 00:25:41,200

night but they said all that christmas

520

00:25:47,789 --> 00:25:44,349

period they saw multiple UFO s coming

521

00:25:53,129 --> 00:25:47,799

over the bed and were confirmed on the

522

00:25:55,769 --> 00:25:53,139

air traffic redder so we totally have a

523

00:25:57,419 --> 00:25:55,779

totally bleep probation now not just

524

00:25:59,129 --> 00:25:57,429

from police officers who retired all

525

00:26:01,019 --> 00:25:59,139

they didn't recognize the forest or got

526
00:26:03,690 --> 00:26:01,029
frank Baum neither went outside of a

527
00:26:05,099 --> 00:26:03,700
frightened oh yes let's give them a

528
00:26:07,739 --> 00:26:05,109
machine but they'll get frightening

529
00:26:14,779 --> 00:26:07,749
words which is how the media would

530
00:26:17,219 --> 00:26:14,789
portray not in reality sucks 3 out of 5

531
00:26:21,210 --> 00:26:17,229
the fourth bit I've actually already

532
00:26:25,169 --> 00:26:21,220
touched upon in the war two f-16s on the

533
00:26:30,269 --> 00:26:25,179
night of the 30th 31st match 1990 cheers

534
00:26:31,440 --> 00:26:30,279
a radar and visually confirmed UF for on

535
00:26:33,539 --> 00:26:31,450
the ground think of that Terry around

536
00:26:35,580 --> 00:26:33,549
case you are for hovering over the

537
00:26:38,549 --> 00:26:35,590
military base air traffic controllers

538
00:26:41,159 --> 00:26:38,559

gone what that send up an inset turret

539

00:26:45,330 --> 00:26:41,169

f-16s in this case very top aircraft of

540

00:26:47,940 --> 00:26:45,340

the Day 1990 HS it for 75 minutes is

541

00:26:51,299 --> 00:26:47,950

that night they never get a visual

542

00:26:54,029 --> 00:26:51,309

all the time the telemetry data rate now

543

00:26:56,850 --> 00:26:54,039

is confirmed so is it visually seen

544

00:27:00,120 --> 00:26:56,860

before the pilots went up on the ground

545

00:27:03,960 --> 00:27:00,130

so you've got a ground visual a round

546

00:27:05,279 --> 00:27:03,970

visual ground readout visual and then

547

00:27:07,649 --> 00:27:05,289

the pilots wind up there and they're

548

00:27:09,840 --> 00:27:07,659

getting a visual on their area and all

549

00:27:13,740 --> 00:27:09,850

the telemetry data has been recorded on

550

00:27:16,980 --> 00:27:13,750

seven different airports three military

551
00:27:19,980 --> 00:27:16,990
and for civilian airports tracking this

552
00:27:21,210 --> 00:27:19,990
thing and they're not the same radar I'm

553
00:27:24,570 --> 00:27:21,220
not ready our expert those are all

554
00:27:27,330 --> 00:27:24,580
different types of heights what they

555
00:27:29,940 --> 00:27:27,340
cover what's included in the scheme of

556
00:27:32,340 --> 00:27:29,950
the red hair pack all track in the same

557
00:27:34,440 --> 00:27:32,350
object all that's limited data at one

558
00:27:37,560 --> 00:27:34,450
point the object is a right angle to and

559
00:27:43,980 --> 00:27:37,570
it pulls 35 G's the maximum for stealth

560
00:27:46,100 --> 00:27:43,990
now is 11 to 12 so we can produce that

561
00:27:48,930 --> 00:27:46,110
telemetry data like the drink driver

562
00:27:51,269 --> 00:27:48,940
court of law in our hypothetical court

563
00:27:53,879 --> 00:27:51,279

of law as the existence of UFOs Your

564

00:27:57,779 --> 00:27:53,889

Honor I now produce telemetry data from

565

00:27:59,159 --> 00:27:57,789

this incident gh1 telemetry data and it

566

00:28:01,470 --> 00:27:59,169

was trapped on blah blah blah blah blah

567

00:28:05,120 --> 00:28:01,480

this has been checked blah blah blah

568

00:28:08,100 --> 00:28:05,130

it's not a mistake poor fit oh geez

569

00:28:15,029 --> 00:28:08,110

almost three times what we're capable of

570

00:28:18,480 --> 00:28:15,039

doing now in 2016 before you pass out so

571

00:28:20,370 --> 00:28:18,490

again 1990 this is a great piece of

572

00:28:23,129 --> 00:28:20,380

evidence that we could presents that

573

00:28:28,730 --> 00:28:23,139

circumstantial picture but building up

574

00:28:36,629 --> 00:28:33,139

now just quickly the guy on the left is

575

00:28:39,389 --> 00:28:36,639

it was then the deputy Beth a deputy of

576

00:28:42,389 --> 00:28:39,399

the Belgium em Air Force and he did a

577

00:28:44,279 --> 00:28:42,399

press coverage press conference kinda

578

00:28:47,149 --> 00:28:44,289

like this and he actually presented the

579

00:28:49,680 --> 00:28:47,159

telemetry data to the Belgian media

580

00:28:51,930 --> 00:28:49,690

which is very rare we don't usually get

581

00:28:54,600 --> 00:28:51,940

military say now we've got this but they

582

00:28:56,519 --> 00:28:54,610

were very open and this guy's been

583

00:29:00,010 --> 00:28:56,529

interviewed many times and he says when

584

00:29:02,790 --> 00:29:00,020

it's are you still because the stealth

585

00:29:06,280 --> 00:29:02,800

maneuvers and nothing like the maneuvers

586

00:29:07,930 --> 00:29:06,290

Sean and he's basically saying he

587

00:29:09,580 --> 00:29:07,940

stopped because he was still certain he

588

00:29:11,770 --> 00:29:09,590

stopped one shot saying he was

589

00:29:14,710 --> 00:29:11,780

extraterrestrial but he said he's not

590

00:29:17,590 --> 00:29:14,720

still the flight manoeuvres a right

591

00:29:24,190 --> 00:29:17,600

angle turn at one point jumps 5,000 feet

592

00:29:27,910 --> 00:29:24,200

in three seconds straight up okay the

593

00:29:30,940 --> 00:29:27,920

guy on the right is the actual Belgian

594

00:29:33,970 --> 00:29:30,950

read a civilian expert who was called in

595

00:29:36,220 --> 00:29:33,980

to work with the Belgium read aspect

596

00:29:38,800 --> 00:29:36,230

military specialist so after he lands

597

00:29:41,080 --> 00:29:38,810

they wanted an expert to come in to work

598

00:29:44,710 --> 00:29:41,090

alongside the military read our experts

599

00:29:45,970 --> 00:29:44,720

to confirm that the real agreement he

600

00:29:47,860 --> 00:29:45,980

gets tracked down by a british

601
00:29:49,270 --> 00:29:47,870
researcher called Harry Harris who was a

602
00:29:50,920 --> 00:29:49,280
solicitor but had a big interest in

603
00:29:52,960 --> 00:29:50,930
uniform he tracked him down to a hotel

604
00:29:55,330 --> 00:29:52,970
in London he'd come over to London to

605
00:29:57,370 --> 00:29:55,340
actually talk to their more deep and he

606
00:29:59,800 --> 00:29:57,380
talked about his hotel and he gave an

607
00:30:02,050 --> 00:29:59,810
interview for it knocks on his door with

608
00:30:05,290 --> 00:30:02,060
his wife and said can i interview you

609
00:30:06,940 --> 00:30:05,300
about this builder and at one point I've

610
00:30:08,470 --> 00:30:06,950
got the video clip its battle of minutes

611
00:30:11,410 --> 00:30:08,480
long but one point he draws this

612
00:30:14,470 --> 00:30:11,420
maneuver talks about this and he's so

613
00:30:16,870 --> 00:30:14,480

eventually Harry Harry says to him so

614

00:30:22,090 --> 00:30:16,880

what do you think it was and he looked

615

00:30:24,850 --> 00:30:22,100

round the room and he goes well maybe I

616

00:30:27,160 --> 00:30:24,860

shouldn't say this but it points to our

617

00:30:29,590 --> 00:30:27,170

extraterrestrial he actually goes on cam

618

00:30:33,910 --> 00:30:29,600

princesa why is that long six o'clock

619

00:30:36,880 --> 00:30:33,920

news stop so that's the fourth case

620

00:30:38,650 --> 00:30:36,890

that's the maneuver right so it's coming

621

00:30:40,960 --> 00:30:38,660

in then it goes straight right angle

622

00:30:43,690 --> 00:30:40,970

turn goes straight up goes down so at

623

00:30:45,730 --> 00:30:43,700

that point there does 35g well and then

624

00:30:48,760 --> 00:30:45,740

it drops 5,000 feet and three seconds

625

00:30:51,070 --> 00:30:48,770

and then pulls out of the dive we can't

626

00:30:54,250 --> 00:30:51,080

do anything like that so it proves that

627

00:30:56,320 --> 00:30:54,260

there was an unusual unconventional

628

00:30:59,220 --> 00:30:56,330

object flying in our airspace that shove

629

00:31:04,350 --> 00:31:01,830

and finally in fact I might save this

630

00:31:06,720 --> 00:31:04,360

for the exacting you being patient now

631

00:31:09,120 --> 00:31:06,730

it's quarter past I said eight foot nine

632

00:31:10,440 --> 00:31:09,130

clock I'll save this last case because

633

00:31:12,690 --> 00:31:10,450

there's some video that go with it if

634

00:31:13,980 --> 00:31:12,700

you haven't seen it but what I'll tell

635

00:31:16,980 --> 00:31:13,990

you about it before we have a bridge

636

00:31:20,159 --> 00:31:16,990

just give me two minutes is how many

637

00:31:24,270 --> 00:31:20,169

people are aware of the STS 75 terrorism

638

00:31:27,030 --> 00:31:24,280

we runs up if you are away maybe eight

639

00:31:30,030 --> 00:31:27,040

or nine people okay so the mass majority

640

00:31:33,539 --> 00:31:30,040

in this room and on well the beauty of

641

00:31:36,090 --> 00:31:33,549

it is it's an incredible case because

642

00:31:41,850 --> 00:31:36,100

the involves footage that belongs to

643

00:31:44,820 --> 00:31:41,860

NASA and it's their military specialists

644

00:31:48,450 --> 00:31:44,830

talking about looks at me on screen and

645

00:31:51,510 --> 00:31:48,460

it's not being CGI and it's never been

646

00:31:53,100 --> 00:31:51,520

explained so you've got that to look

647

00:31:55,409 --> 00:31:53,110

forward to in the clip I'll show you the

648

00:31:57,570 --> 00:31:55,419

what they saw when they zoomed in when

649

00:32:00,090 --> 00:31:57,580

they tether let me just tell you the

650

00:32:03,360 --> 00:32:00,100

tether was an experiment the shuttle

651
00:32:05,520 --> 00:32:03,370
released a satellite device and what it

652
00:32:08,430 --> 00:32:05,530
was going to do it released the cable

653
00:32:11,460 --> 00:32:08,440
that was 12 miles long and he was just

654
00:32:12,360 --> 00:32:11,470
going to roll out like a long ruler and

655
00:32:15,030 --> 00:32:12,370
then they were going to put an

656
00:32:17,580 --> 00:32:15,040
electrical charge what's it fully rolled

657
00:32:19,470 --> 00:32:17,590
out just to see how it operated it's

658
00:32:21,830 --> 00:32:19,480
based in Italy but that's the extent of

659
00:32:26,159 --> 00:32:21,840
my knowledge on it but what happened was

660
00:32:29,789 --> 00:32:26,169
as it got part of the way out the

661
00:32:34,530 --> 00:32:29,799
electrical cable for whatever reason

662
00:32:36,900 --> 00:32:34,540
snapped so it basically drifted away if

663
00:32:39,690 --> 00:32:36,910

you like a rubber band and it snaps

664

00:32:42,630 --> 00:32:39,700

alcohol well that's exactly what

665

00:32:46,680 --> 00:32:42,640

happened the 10 that is 12 mile long

666

00:32:49,860 --> 00:32:46,690

piece of rock for fully all intensive

667

00:32:52,950 --> 00:32:49,870

purposes snap to a coiled up and then is

668

00:32:55,940 --> 00:32:52,960

it drifted away from the shuttle he then

669

00:32:58,350 --> 00:32:55,950

began to unpeel and go straight again

670

00:33:01,830 --> 00:32:58,360

and eventually when their zoom in on it

671

00:33:02,799 --> 00:33:01,840

it's back to like a ruler and if zoom in

672

00:33:07,139 --> 00:33:02,809

least NASA's

673

00:33:09,369 --> 00:33:07,149

I will see what you see the set now okay

674

00:33:11,950 --> 00:33:09,379

during this break if anybody wants to

675

00:33:13,720 --> 00:33:11,960

get anything just tell me now all right

676

00:33:16,090 --> 00:33:13,730

i'll subscribe to the magazine save an

677

00:33:18,759 --> 00:33:16,100

hour at the end all right so if we come

678

00:33:36,090 --> 00:33:18,769

back its now 17 minutes past if we come
