

1
00:00:10,820 --> 00:00:07,840
in America National Geographic edge to

2
00:00:14,000 --> 00:00:10,830
history channel they love the premise

3
00:00:18,019 --> 00:00:14,010
they love my background didn't get the

4
00:00:23,360 --> 00:00:18,029
series the first time a year ago because

5
00:00:26,870 --> 00:00:23,370
of my accent the American networks one

6
00:00:29,240 --> 00:00:26,880
year later they dropped part of the

7
00:00:31,700 --> 00:00:29,250
story and added an American research

8
00:00:34,760 --> 00:00:31,710
call Erica loops who's Pat movement

9
00:00:37,580 --> 00:00:34,770
which is a state director and she was

10
00:00:39,650 --> 00:00:37,590
good very good American so it's going to

11
00:00:42,020 --> 00:00:39,660
be called from UF for detective to your

12
00:00:44,660 --> 00:00:42,030
for detectives when I was going to be

13
00:00:49,130 --> 00:00:44,670

the lead now the right Atlantic love the

14

00:00:50,900 --> 00:00:49,140

premise will go with Max will go with an

15

00:00:53,959 --> 00:00:50,910

American lead and I said forget it my

16

00:00:55,729 --> 00:00:53,969

idea so it's dead in the water for two

17

00:00:57,740 --> 00:00:55,739

years we're going around all the

18

00:01:00,979 --> 00:00:57,750

networks and of course America all the

19

00:01:03,020 --> 00:01:00,989

money the biggest proportion yeah we

20

00:01:04,759 --> 00:01:03,030

have the UK networks on board we have

21

00:01:07,789 --> 00:01:04,769

because of what they do is you get an

22

00:01:10,010 --> 00:01:07,799

amalgam of budgets but the Americans put

23

00:01:11,989 --> 00:01:10,020

in the biggest budget and if you don't

24

00:01:14,029 --> 00:01:11,999

get them on board seriously can happen

25

00:01:18,889 --> 00:01:14,039

so studying the water found out about

26

00:01:24,260 --> 00:01:18,899

week book but my accident I don't think

27

00:01:28,129 --> 00:01:24,270

that is that strong yeah yeah imagine

28

00:01:30,379 --> 00:01:28,139

being in the valleys but yeah that's

29

00:01:32,569 --> 00:01:30,389

exactly what the set right off the way

30

00:01:34,910 --> 00:01:32,579

to the top the like mean the like the

31

00:01:36,859 --> 00:01:34,920

premise the Americans wouldn't be able

32

00:01:38,629 --> 00:01:36,869

to sell it doesn't my accident I even

33

00:01:40,219 --> 00:01:38,639

said that on voice true now you can

34

00:01:43,219 --> 00:01:40,229

always water down your accent anyway

35

00:01:45,679 --> 00:01:43,229

Kenny okay but that's what I said so

36

00:01:49,429 --> 00:01:45,689

it's not growing any one but maybe one

37

00:01:52,550 --> 00:01:49,439

day as we approach that 2033 this is the

38

00:01:55,010 --> 00:01:52,560

thing the mainstream are going to have

39

00:01:58,580 --> 00:01:55,020

to go in to capture because they have

40

00:02:00,949 --> 00:01:58,590

set the clock room 2033 but what I

41

00:02:03,949 --> 00:02:00,959

suspect will happen that in the rule up

42

00:02:06,290 --> 00:02:03,959

to twenty thirty three the mainstream

43

00:02:09,440 --> 00:02:06,300

media gonna have to go

44

00:02:11,390 --> 00:02:09,450

scrappin in the next year or two I think

45

00:02:12,950 --> 00:02:11,400

with re-examine this subject to you at

46

00:02:16,700 --> 00:02:12,960

first but you have to be with the eating

47

00:02:18,260 --> 00:02:16,710

contact well yes the thing they've got a

48

00:02:20,210 --> 00:02:18,270

van start looking back at the subject

49

00:02:21,680 --> 00:02:20,220

with proper open eyes this time and

50

00:02:24,290 --> 00:02:21,690

thinking well maybe these guys were so

51
00:02:25,820 --> 00:02:24,300
stupid maybe these pilots 5000 world

52
00:02:27,800 --> 00:02:25,830
life who were going to record two

53
00:02:30,590 --> 00:02:27,810
thousand military 3,000 commercial

54
00:02:32,270 --> 00:02:30,600
pilots who go on record maybe they

55
00:02:34,580 --> 00:02:32,280
weren't crazy and they're going to have

56
00:02:36,770 --> 00:02:34,590
to re-examine it so suddenly all the

57
00:02:39,170 --> 00:02:36,780
people like me and you who have been

58
00:02:43,190 --> 00:02:39,180
automated to this for a long time we're

59
00:02:45,080 --> 00:02:43,200
going to be the guns yeah and they're

60
00:02:47,960 --> 00:02:45,090
gonna have to deal with it but here's

61
00:02:53,510 --> 00:02:47,970
the mainstream problem and it's entirely

62
00:02:55,160 --> 00:02:53,520
conceivable say in twenty thirty three

63
00:02:57,470 --> 00:02:55,170

years before like they're they get an

64

00:03:00,110 --> 00:02:57,480

intelligent signal say yeah we have

65

00:03:02,960 --> 00:03:00,120

found a signal and in yet we we've

66

00:03:07,790 --> 00:03:02,970

determined intelligent signal middle

67

00:03:09,470 --> 00:03:07,800

normally what happens then if that the

68

00:03:11,660 --> 00:03:09,480

other end when we announce to the world

69

00:03:16,910 --> 00:03:11,670

yes we've got this intelligent signal

70

00:03:18,770 --> 00:03:16,920

from XO many light-years away ones if ET

71

00:03:21,830 --> 00:03:18,780

out there are the other end of that was

72

00:03:26,510 --> 00:03:21,840

made of just announced us will go there

73

00:03:28,360 --> 00:03:26,520

next week because there are a million

74

00:03:30,920 --> 00:03:28,370

years ahead of us in their development

75

00:03:35,120 --> 00:03:30,930

they can make that this this in a week

76

00:03:38,210 --> 00:03:35,130

for what we take us-led it that's a real

77

00:03:40,040 --> 00:03:38,220

dilemma that nobody's thinking about but

78

00:03:41,750 --> 00:03:40,050

it could absolutely be true that they

79

00:03:43,670 --> 00:03:41,760

might be on the other end and got that

80

00:03:46,520 --> 00:03:43,680

just announced us we're not seeing any

81

00:03:48,620 --> 00:03:46,530

more the whole world knows hey we'll go

82

00:03:51,410 --> 00:03:48,630

there now to announce ourselves we'll

83

00:03:59,270 --> 00:03:54,740

farting it if this argument of

84

00:04:03,320 --> 00:03:59,280

light-years does not matter because of

85

00:04:05,839 --> 00:04:03,330

the differences in development in

86

00:04:09,020 --> 00:04:05,849

evolution the earth is a relatively

87

00:04:13,010 --> 00:04:09,030

young planet going around a relatively

88

00:04:15,830 --> 00:04:13,020

young son there are many older sons many

89

00:04:17,509 --> 00:04:15,840

older sequences with all the exoplanets

90

00:04:19,640 --> 00:04:17,519

that have been discovered so far well

91

00:04:21,979 --> 00:04:19,650

over 2,000 will right so far almost

92

00:04:24,530 --> 00:04:21,989

weekly to finding planets that have got

93

00:04:26,060 --> 00:04:24,540

the same kind of ingredients in the

94

00:04:29,990 --> 00:04:26,070

planet recent what the best is

95

00:04:32,690 --> 00:04:30,000

mainstream say now is almost for every

96

00:04:35,090 --> 00:04:32,700

so that there is every star there's

97

00:04:38,120 --> 00:04:35,100

probably a planetary system of between

98

00:04:42,200 --> 00:04:38,130

six and ten planets going around every

99

00:04:44,690 --> 00:04:42,210

step so if you extrapolate that probably

100

00:04:46,550 --> 00:04:44,700

one or two of them what the call in the

101

00:04:50,629 --> 00:04:46,560

Goldilocks oh I'm not too hot not too

102

00:04:53,540 --> 00:04:50,639

cold may support life okay so you just

103

00:04:57,260 --> 00:04:53,550

extrapolating that in to the Milky Way

104

00:05:00,469 --> 00:04:57,270

just a bit a neighborhood we're talking

105

00:05:03,890 --> 00:05:00,479

tens of thousands of millions of stars

106

00:05:06,260 --> 00:05:03,900

we cannot defy anybody to comprehend our

107

00:05:08,029 --> 00:05:06,270

vast spaces that's just in our Milky Way

108

00:05:10,520 --> 00:05:08,039

let alone the rest of the universe and

109

00:05:11,870 --> 00:05:10,530

rest the galaxy's it's over so what it

110

00:05:13,760 --> 00:05:11,880

basically saying is life is almost

111

00:05:16,940 --> 00:05:13,770

certainly teeming out there now what

112

00:05:20,240 --> 00:05:16,950

happens if a planet has developed a

113

00:05:24,950 --> 00:05:20,250

million years ahead in evolution returns

114

00:05:26,990 --> 00:05:24,960

the not developed all the millions of

115

00:05:29,920 --> 00:05:27,000

years to where they've got become

116

00:05:32,510 --> 00:05:29,930

intelligent and then they've carried on

117

00:05:37,340 --> 00:05:32,520

well let's turn around look where we are

118

00:05:40,430 --> 00:05:37,350

just killing the last 100 years 100 is

119

00:05:42,170 --> 00:05:40,440

the Wright brothers 1903 not where we

120

00:05:47,659 --> 00:05:42,180

are now beyond flying beyond our solar

121

00:05:51,379 --> 00:05:47,669

system who could imagine that the

122

00:05:54,830 --> 00:05:51,389

battery power in your mobile phone is

123

00:05:57,090 --> 00:05:54,840

more powerful than what got Apollo 11 to

124

00:05:59,940 --> 00:05:57,100

the moon

125

00:06:01,830 --> 00:05:59,950

in a weird thought but that's our work

126

00:06:06,240 --> 00:06:01,840

fast with me better than mainstream

127

00:06:08,430 --> 00:06:06,250

science cannot even catch up we see be

128

00:06:11,970 --> 00:06:08,440

getting faster and faster but that's

129

00:06:14,460 --> 00:06:11,980

just it on digit in 5,000 years from

130

00:06:17,610 --> 00:06:14,470

Earth time now if we have blonde

131

00:06:20,370 --> 00:06:17,620

ourselves up will we be driving round in

132

00:06:23,250 --> 00:06:20,380

petrol driven cars and flying around in

133

00:06:26,580 --> 00:06:23,260

jet engines know what we developed new

134

00:06:29,970 --> 00:06:26,590

methods of proportion if you take the

135

00:06:31,980 --> 00:06:29,980

analogy of going to Leonardo da Vinci

136

00:06:34,050 --> 00:06:31,990

was probably the greatest mind of his

137

00:06:36,810 --> 00:06:34,060

generation and many generations and

138

00:06:40,310 --> 00:06:36,820

giving him an iPad and say Leah now know

139

00:06:44,070 --> 00:06:40,320

how does that work the Gulf is too big

140

00:06:45,630 --> 00:06:44,080

just in a few hundred years you won't be

141

00:06:49,410 --> 00:06:45,640

able to work it out of a clue they're

142

00:06:51,390 --> 00:06:49,420

just magic would another clue and that's

143

00:06:54,530 --> 00:06:51,400

just in a few all do what if you're a

144

00:06:57,030 --> 00:06:54,540

million years ahead of us in earth time

145

00:06:59,430 --> 00:06:57,040

you will have developed new methods of

146

00:07:01,980 --> 00:06:59,440

proportion if you look about in our

147

00:07:05,910 --> 00:07:01,990

history it used to take weeks to cross

148

00:07:08,640 --> 00:07:05,920

from London to New York now it can take

149

00:07:10,710 --> 00:07:08,650

about three days why not the sr-71

150

00:07:13,290 --> 00:07:10,720

before I could fly around the earth and

151

00:07:16,890 --> 00:07:13,300

I think in about three hours which it's

152

00:07:20,280 --> 00:07:16,900

a top speed and that was it the fifties

153

00:07:22,830 --> 00:07:20,290

and sixties the world is shrinking as

154

00:07:25,380 --> 00:07:22,840

technology increases its ridiculous

155

00:07:28,020 --> 00:07:25,390

argument and but oh what a scientists

156

00:07:31,460 --> 00:07:28,030

have got a very narrow field of vision

157

00:07:35,010 --> 00:07:31,470

and they operate within a very stringent

158

00:07:38,250 --> 00:07:35,020

field of reference because it's science

159

00:07:40,260 --> 00:07:38,260

it has to be demonstrable repeatable etc

160

00:07:44,310 --> 00:07:40,270

that's what scientists do but they have

161

00:07:48,000 --> 00:07:44,320

been reality quite a narrow vision how

162

00:07:50,760 --> 00:07:48,010

can we estimate what civilization is

163

00:07:54,050 --> 00:07:50,770

capable 5,000 years ahead of us

164

00:07:58,080 --> 00:07:54,060

in development touch a thousand years

165

00:08:00,570 --> 00:07:58,090

500 years more before we r of a

166

00:08:03,839 --> 00:08:00,580

generation many of us in this room with

167

00:08:06,360 --> 00:08:03,849

the last generation who can remember the

168

00:08:09,779 --> 00:08:06,370

time without the whole computer a time

169

00:08:11,760 --> 00:08:09,789

without a mobile phone you remember the

170

00:08:16,680 --> 00:08:11,770

big bricks at the center here hoping the

171

00:08:20,670 --> 00:08:16,690

Japs military area look how is

172

00:08:23,430 --> 00:08:20,680

condensing just look at memory sticks

173

00:08:27,960 --> 00:08:23,440

the first memories thinks might be 10

174

00:08:31,110 --> 00:08:27,970

megabyte 256 gigabyte little memory

175

00:08:36,260 --> 00:08:31,120

sticks that plug in my first hard drive

176

00:08:38,579 --> 00:08:36,270

and a computer was seven fifty megabytes

177

00:08:40,889 --> 00:08:38,589

set and that was the whole operating

178

00:08:43,910 --> 00:08:40,899

system or certainly 50 megabytes and

179

00:08:48,019 --> 00:08:43,920

that was about nineteen ninety-seven

180

00:08:52,110 --> 00:08:48,029

just now we're talking terabytes crazy

181

00:08:57,690 --> 00:08:52,120

so this argument for distances is a weak

182

00:09:01,260 --> 00:08:57,700

one my opinion yeah so on the strength

183

00:09:03,660 --> 00:09:01,270

of that I'll go into a Q&A now it's five

184

00:09:10,230 --> 00:09:03,670

past ten how long do you want me to do a

185

00:09:12,300 --> 00:09:10,240

Q&A phone oh you ain't moving the

186

00:09:15,660 --> 00:09:12,310

country what's falling is it in person

187

00:09:17,760 --> 00:09:15,670

really no seriously I haven't moved this

188

00:09:21,389 --> 00:09:17,770

way all have been adapted all right well

189

00:09:23,699 --> 00:09:21,399

I was gonna get it so long all right

190

00:09:26,280 --> 00:09:23,709

right does anybody want a quick 10

191

00:09:29,069 --> 00:09:26,290

minute questions since you've started

192

00:09:30,810 --> 00:09:29,079

this journey right have you experienced

193

00:09:34,310 --> 00:09:30,820

any weird stuff have you had your phones

194

00:09:38,130 --> 00:09:34,320

tapped doors know anything like that no

195

00:09:40,710 --> 00:09:38,140

but then again a lot of people said to

196

00:09:42,900 --> 00:09:40,720

making your head down Gary just some

197

00:09:45,269 --> 00:09:42,910

researchers of dietary soon that's a spy

198

00:09:46,949 --> 00:09:45,279

said well thana Kelvin will and they'll

199

00:09:49,380 --> 00:09:46,959

make it look like an accident well why

200

00:09:51,269 --> 00:09:49,390

said people is if ever I've supposedly

201
00:09:53,430 --> 00:09:51,279
committed suicide no officer and I've

202
00:09:54,690 --> 00:09:53,440
never commit suicide yes I never will so

203
00:09:55,280 --> 00:09:54,700
if I suddenly turn up suicide your

204
00:09:58,069 --> 00:09:55,290
mother

205
00:10:01,370 --> 00:09:58,079
but the reality is if somebody wants to

206
00:10:02,379 --> 00:10:01,380
take you out it is like the films so

207
00:10:04,790 --> 00:10:02,389
they can give you an injection

208
00:10:07,819 --> 00:10:04,800
registered in a few hours and basically

209
00:10:09,879 --> 00:10:07,829
died of a heart attack yeah so if the

210
00:10:13,809 --> 00:10:09,889
words at you out will take you out but

211
00:10:17,150 --> 00:10:13,819
I've met people who become very paranoid

212
00:10:19,189 --> 00:10:17,160
Frank to go out the door almost and in

213
00:10:22,040 --> 00:10:19,199

reality and not prepare to go down that

214

00:10:23,930 --> 00:10:22,050

way I accept that it's out there it is a

215

00:10:26,059 --> 00:10:23,940

bit like Jason ball maybe a bit

216

00:10:28,100 --> 00:10:26,069

exaggerated book elements of it a very

217

00:10:30,740 --> 00:10:28,110

real if intelligence services want to

218

00:10:32,780 --> 00:10:30,750

take you out the look similarly I think

219

00:10:35,809 --> 00:10:32,790

one day I might get burgled someone

220

00:10:38,300 --> 00:10:35,819

right now but I'm not going to worry

221

00:10:42,019 --> 00:10:38,310

about it no but the fact that i can and

222

00:10:44,030 --> 00:10:42,029

all these thing and i saw hopefully

223

00:10:45,230 --> 00:10:44,040

means i'm kind of like flagging up to

224

00:10:46,939 --> 00:10:45,240

people i hear that i'll never commit

225

00:10:48,980 --> 00:10:46,949

suicide that kind of thing so it makes

226

00:10:51,559 --> 00:10:48,990

me less of a risk it's always but they

227

00:10:52,910 --> 00:10:51,569

wanted to we could certainly do yeah but

228

00:10:56,930 --> 00:10:52,920

i'm not prepared to live in the paranoid

229

00:10:59,720 --> 00:10:56,940

world so any other questions yeah but

230

00:11:06,840 --> 00:11:02,880

the size for Harry Harris lock a meal

231

00:11:10,290 --> 00:11:06,850

swipes to this red our guy yeah right

232

00:11:12,300 --> 00:11:10,300

that would look so I got it cylinder

233

00:11:14,370 --> 00:11:12,310

video oh yeah the police actually a

234

00:11:18,270 --> 00:11:14,380

police officer yeah yeah rotating on its

235

00:11:21,980 --> 00:11:18,280

own axis yeah described there I saw

236

00:11:24,330 --> 00:11:21,990

exactly the same object car do the same

237

00:11:26,220 --> 00:11:24,340

well so you're going to take my cabin

238

00:11:28,020 --> 00:11:26,230

email me about that for little report

239

00:11:30,750 --> 00:11:28,030

Fox like their civilian report forms as

240

00:11:32,700 --> 00:11:30,760

well so take the cap email moon start

241

00:11:35,970 --> 00:11:32,710

dialogue there are always people who

242

00:11:37,440 --> 00:11:35,980

come to choose it as daft as it sounds

243

00:11:43,260 --> 00:11:37,450

these kind of stories are all over the

244

00:11:46,050 --> 00:11:43,270

place i went to book lecture theatre at

245

00:11:47,760 --> 00:11:46,060

the civic or in-home fur for a

246

00:11:51,060 --> 00:11:47,770

conference it's the first time when i

247

00:11:52,620 --> 00:11:51,070

saw the caretaker lady and i said now

248

00:11:54,750 --> 00:11:52,630

you can think this is a bit strange but

249

00:11:57,720 --> 00:11:54,760

i want to walk electrically weapons or

250

00:12:00,360 --> 00:11:57,730

do i see more this hell and straight

251

00:12:02,250 --> 00:12:00,370

where people regale into a story and

252

00:12:05,660 --> 00:12:02,260

then she said eight males been saw one

253

00:12:07,560 --> 00:12:05,670

as well coming over the hills and

254

00:12:10,760 --> 00:12:07,570

straight away getting all these on a

255

00:12:13,110 --> 00:12:10,770

clock now these anak dogs are

256

00:12:15,120 --> 00:12:13,120

tremendously important because they're

257

00:12:16,710 --> 00:12:15,130

not just described likes this guy the

258

00:12:19,830 --> 00:12:16,720

caretaker actually said that when she

259

00:12:22,500 --> 00:12:19,840

was a girl 15 16 years old she was

260

00:12:24,450 --> 00:12:22,510

outside on the doorstep I'm the cheeky

261

00:12:26,970 --> 00:12:24,460

cigarette six great way to remember stop

262

00:12:28,920 --> 00:12:26,980

right chica cigarette on the doorstep

263

00:12:33,830 --> 00:12:28,930

there's daylight and she says this ball

264

00:12:38,000 --> 00:12:33,840

of white white came over the rooftops

265

00:12:40,290 --> 00:12:38,010

stopped move the went sideways stopped

266

00:12:43,530 --> 00:12:40,300

and it was on the opposite side of the

267

00:12:46,650 --> 00:12:43,540

street literally just 50 feet away and

268

00:12:48,240 --> 00:12:46,660

then he suddenly went to ground now why

269

00:12:52,440 --> 00:12:48,250

is she going to make up a story like

270

00:12:55,230 --> 00:12:52,450

that she then I get so many of these

271

00:12:57,930 --> 00:12:55,240

stories so these anecdotes are real and

272

00:13:01,140 --> 00:12:57,940

not my favorite cases the pilot basis

273

00:13:02,670 --> 00:13:01,150

because they just prove it if a pilot in

274

00:13:03,660 --> 00:13:02,680

broad daylight doesn't know what is

275

00:13:05,550 --> 00:13:03,670

chasing what is

276

00:13:08,580 --> 00:13:05,560

looking at I mean are you aware that

277

00:13:10,880 --> 00:13:08,590

pilots have fired on UFOs in broad

278

00:13:14,160 --> 00:13:10,890

daylight and nothing has happened

279

00:13:17,330 --> 00:13:14,170

there's a case met the pilot called

280

00:13:20,630 --> 00:13:17,340

Colonel Oscar centenary Peruvian pilot

281

00:13:24,780 --> 00:13:20,640

gone on the record on video old

282

00:13:27,560 --> 00:13:24,790

documents prove it and basically 1980 in

283

00:13:30,530 --> 00:13:27,570

daylight he is sent up to intercept a

284

00:13:33,870 --> 00:13:30,540

daylight raid are confirmed your phone

285

00:13:36,090 --> 00:13:33,880

that's just hovering so he sent up like

286

00:13:38,160 --> 00:13:36,100

many of these are the cases and as his

287

00:13:39,810 --> 00:13:38,170

approach and he's told to shoot but what

288

00:13:42,810 --> 00:13:39,820

he thought was a balloon he looked like

289

00:13:44,730 --> 00:13:42,820

a balloon [h__h] round sphere is thought

290

00:13:47,250 --> 00:13:44,740

it was a blue and he's told to shoot at

291

00:13:49,260 --> 00:13:47,260

it but his machine gun can't so he does

292

00:13:51,630 --> 00:13:49,270

he shoots off about sixty four rounds

293

00:13:54,870 --> 00:13:51,640

and he sees the bullets the tracer hit

294

00:13:57,480 --> 00:13:54,880

this object just absorbed he's thinking

295

00:14:01,410 --> 00:13:57,490

he's expected to grow up but it done

296

00:14:05,850 --> 00:14:01,420

then just got straight up 10,000 feet

297

00:14:07,950 --> 00:14:05,860

about 3 cents just jumps straight not

298

00:14:11,430 --> 00:14:07,960

something we can do so he has to get his

299

00:14:13,710 --> 00:14:11,440

afterburner on get up there to get on

300

00:14:15,500 --> 00:14:13,720

another run at it and just as it

301
00:14:18,200 --> 00:14:15,510
approached it is run again it goes

302
00:14:20,820 --> 00:14:18,210
another 10,000 feet in three seconds up

303
00:14:23,100 --> 00:14:20,830
and it eventually does this three times

304
00:14:27,020 --> 00:14:23,110
take it beyond the flight ceiling of his

305
00:14:30,510 --> 00:14:27,030
aircraft seven to eight thousand three

306
00:14:33,330 --> 00:14:30,520
gentlemen there why do you think your

307
00:14:35,610 --> 00:14:33,340
calls crash if they're so environment no

308
00:14:39,090 --> 00:14:35,620
idea no idea it's a good question

309
00:14:42,710 --> 00:14:39,100
because it was it it is it is it is an

310
00:14:45,900 --> 00:14:42,720
odd thing but what they think is that

311
00:14:48,300 --> 00:14:45,910
certainly the early crushers they think

312
00:14:52,350 --> 00:14:48,310
that was an anomaly or side effect of

313
00:14:54,690 --> 00:14:52,360

our radar that somehow affected the

314

00:14:57,420 --> 00:14:54,700

gravitational force that's all they

315

00:15:00,390 --> 00:14:57,430

speculate in the public demand we don't

316

00:15:02,490 --> 00:15:00,400

know in some people which blows have

317

00:15:04,740 --> 00:15:02,500

said that there was the the reg are

318

00:15:06,630 --> 00:15:04,750

somehow affected the guidance system of

319

00:15:08,340 --> 00:15:06,640

the proportion system on the uniform

320

00:15:10,890 --> 00:15:08,350

because we thought think that they're

321

00:15:12,319 --> 00:15:10,900

using engines in a conventional sense we

322

00:15:15,079 --> 00:15:12,329

think that they can do these

323

00:15:16,699 --> 00:15:15,089

speed maneuvers because they're pull the

324

00:15:19,519 --> 00:15:16,709

proportion system is based on

325

00:15:21,769 --> 00:15:19,529

anti-gravity they create a force field

326

00:15:25,309 --> 00:15:21,779

around the edge of the craft so

327

00:15:27,169 --> 00:15:25,319

therefore inside we just like fly on a

328

00:15:28,669 --> 00:15:27,179

million miles an hour and we can do a

329

00:15:31,340 --> 00:15:28,679

right angle turn but there's no inertia

330

00:15:34,009 --> 00:15:31,350

because it's creating some gravitational

331

00:15:36,439 --> 00:15:34,019

force so wherever it goes you're not

332

00:15:38,389 --> 00:15:36,449

affected by that's what they think and

333

00:15:40,789 --> 00:15:38,399

this is why there is this talk about

334

00:15:45,829 --> 00:15:40,799

free energy and another reason why it's

335

00:15:47,900 --> 00:15:45,839

secret because does the gunman and

336

00:15:49,340 --> 00:15:47,910

people said to me well why doesn't

337

00:15:51,169 --> 00:15:49,350

happen on the White House lawn all the

338

00:15:54,829 --> 00:15:51,179

obvious answer is if they did the common

339

00:15:59,109 --> 00:15:54,839

get shot when you got to realize is that

340

00:16:01,280 --> 00:15:59,119

while science is quite I think arrogant

341

00:16:03,109 --> 00:16:01,290

many scientists will say we're the only

342

00:16:05,150 --> 00:16:03,119

sensitive beings blah blah blah that was

343

00:16:07,340 --> 00:16:05,160

a big argument for many many years the

344

00:16:09,679 --> 00:16:07,350

moving away from that now but basically

345

00:16:11,479 --> 00:16:09,689

on the scheme of things I think we're

346

00:16:13,519 --> 00:16:11,489

like an ant on the ground in

347

00:16:15,769 --> 00:16:13,529

technological terms and development

348

00:16:17,689 --> 00:16:15,779

terms as to what they are who might be a

349

00:16:19,090 --> 00:16:17,699

million years elevator will be like we

350

00:16:22,129 --> 00:16:19,100

won't talk to the ants on the ground

351

00:16:24,350 --> 00:16:22,139

because the Gulf in intelligence we

352

00:16:27,079 --> 00:16:24,360

would say it was too great why should

353

00:16:28,699 --> 00:16:27,089

you know could you talk it sounds daft

354

00:16:32,030 --> 00:16:28,709

but if you've got something that's so

355

00:16:35,689 --> 00:16:32,040

advanced I think we're very primitive

356

00:16:38,329 --> 00:16:35,699

and we're very well liked and we do

357

00:16:39,739 --> 00:16:38,339

watch the world is in turn on we kill

358

00:16:43,069 --> 00:16:39,749

each other when we could feed everybody

359

00:16:46,129 --> 00:16:43,079

we you know Gil the top two percent is

360

00:16:48,379 --> 00:16:46,139

it one percent top two percent on most

361

00:16:51,169 --> 00:16:48,389

of the world over the ninety-eight

362

00:16:52,659 --> 00:16:51,179

percent that go that's not right we

363

00:16:55,340 --> 00:16:52,669

could do something about that will do

364

00:16:57,650 --> 00:16:55,350

it's a whole mess so I think we're very

365

00:16:59,900 --> 00:16:57,660

probably very good reasons why they they

366

00:17:02,139 --> 00:16:59,910

mostly severe I think we're very

367

00:17:05,629 --> 00:17:02,149

primitive black pond life I think

368

00:17:08,750 --> 00:17:05,639

actually I disagree mom or go wash up

369

00:17:12,220 --> 00:17:08,760

there well I was talking about the gang

370

00:17:15,860 --> 00:17:12,230

the friend I was reviewing

371

00:17:19,160 --> 00:17:15,870

childhood Zhang by RC truck okay I'm

372

00:17:24,260 --> 00:17:19,170

skeptic Madeline you fall skeptic yep

373

00:17:27,800 --> 00:17:24,270

yep no problem no the story goes much

374

00:17:30,530 --> 00:17:27,810

what you said the end is a twist that we

375

00:17:35,540 --> 00:17:30,540

are the intelligence we are the most

376

00:17:38,090 --> 00:17:35,550

devout aspect I think that was a product

377

00:17:40,700 --> 00:17:38,100

to this generation well I sure I can't

378

00:17:45,980 --> 00:17:40,710

agree i think we are I think the a means

379

00:17:48,140 --> 00:17:45,990

a lot I guess we'll never know well oh I

380

00:17:50,840 --> 00:17:48,150

won't be able to put it this way it is

381

00:17:54,500 --> 00:17:50,850

coming and this is what I say about the

382

00:17:57,350 --> 00:17:54,510

2033 it's coming yeah I don't I do agree

383

00:17:59,390 --> 00:17:57,360

and and mainstream a graph to capture

384

00:18:01,160 --> 00:17:59,400

Andrey address how they look at this

385

00:18:02,780 --> 00:18:01,170

reevaluate either look at the subject

386

00:18:05,240 --> 00:18:02,790

because they're gonna have to confront

387

00:18:09,380 --> 00:18:05,250

contact and we are going to be the first

388

00:18:12,620 --> 00:18:09,390

people in official history official

389

00:18:15,110 --> 00:18:12,630

history that deal with contact it's

390

00:18:18,050 --> 00:18:15,120

going to happen be many of our lifetime

391

00:18:20,780 --> 00:18:18,060

for the first time ever official Compton

392

00:18:24,200 --> 00:18:20,790

and they always say that it will be the

393

00:18:28,430 --> 00:18:24,210

biggest step mankind contact the

394

00:18:30,680 --> 00:18:28,440

ministry well that was all about the

395

00:18:32,120 --> 00:18:30,690

human species I was talking to some DD

396

00:18:34,700 --> 00:18:32,130

other day and they were talking about

397

00:18:36,710 --> 00:18:34,710

aliens being here and they said that

398

00:18:39,350 --> 00:18:36,720

they here but they not allowed to

399

00:18:43,870 --> 00:18:39,360

interfere with us well I guess this

400

00:18:46,430 --> 00:18:43,880

cultures the process the human body the

401
00:18:48,740 --> 00:18:46,440
aliens are not changing my guess is only

402
00:18:51,980 --> 00:18:48,750
the human bodies and we gotta go through

403
00:18:54,950 --> 00:18:51,990
this process of self the the on the

404
00:18:58,250 --> 00:18:54,960
abduction side there are many accounts

405
00:19:00,710 --> 00:18:58,260
that there's a lot of aspects to expose

406
00:19:04,490 --> 00:19:00,720
complicated but they would certainly

407
00:19:07,480 --> 00:19:04,500
appear to be some alien species are

408
00:19:10,660 --> 00:19:07,490
interested in reproductive organs

409
00:19:13,400 --> 00:19:10,670
hybridization fetuses be removed from

410
00:19:15,260 --> 00:19:13,410
abductees and then later on being

411
00:19:18,860 --> 00:19:15,270
reunited with them in a few years when

412
00:19:21,370 --> 00:19:18,870
they see these half human so that is

413
00:19:24,310 --> 00:19:21,380

common all around world even third world

414

00:19:27,400 --> 00:19:24,320

where there's no access to media so this

415

00:19:28,900 --> 00:19:27,410

is real you can't make it all you know

416

00:19:32,350 --> 00:19:28,910

how can somebody in the middle of the

417

00:19:36,010 --> 00:19:32,360

Amazon with no access to TV radio

418

00:19:39,820 --> 00:19:36,020

newspapers protectively a third world

419

00:19:41,470 --> 00:19:39,830

first recount the same event being taken

420

00:19:43,210 --> 00:19:41,480

on board something and being medically

421

00:19:48,390 --> 00:19:43,220

examined where did they get that

422

00:19:51,580 --> 00:19:48,400

infrastructure from Susie right god

423

00:19:55,750 --> 00:19:51,590

patent crimp and three rimba cimmino

424

00:20:00,790 --> 00:19:55,760

Rendlesham yeah did he did see it was a

425

00:20:03,520 --> 00:20:00,800

leak dos ok so let's set yeah yeah yeah

426

00:20:16,390 --> 00:20:03,530

look right Rendlesham forest can be

427

00:20:21,010 --> 00:20:16,400

defined in one particular sphere so

428

00:20:22,360 --> 00:20:21,020

right New Zealand Rendlesham forest in

429

00:20:23,980 --> 00:20:22,370

st that when you look at the evidence

430

00:20:26,290 --> 00:20:23,990

Rendlesham forest in fact that it's over

431

00:20:29,740 --> 00:20:26,300

three days don't matter I cut to the

432

00:20:33,310 --> 00:20:29,750

chase of evidence straightaway it all

433

00:20:38,500 --> 00:20:33,320

hinges on whether it's UFOs or not on

434

00:20:42,670 --> 00:20:38,510

one aspect does Colonel halt on the

435

00:20:44,850 --> 00:20:42,680

third night with this for other officers

436

00:20:48,280 --> 00:20:44,860

are lieutenant and three sergeants are

437

00:20:50,980 --> 00:20:48,290

they in a field when an object comes

438

00:20:53,290 --> 00:20:50,990

towards then stops above their heads at

439

00:20:56,740 --> 00:20:53,300

a thousand feet and cast down a laser

440

00:20:59,950 --> 00:20:56,750

beam per half their feet there's only

441

00:21:06,370 --> 00:20:59,960

two alternatives either holt and his

442

00:21:10,330 --> 00:21:06,380

team a lion or it happened and if it

443

00:21:12,400 --> 00:21:10,340

happened it ain't a lighthouse but

444

00:21:15,250 --> 00:21:12,410

there's what lighthouse and stop above

445

00:21:17,320 --> 00:21:15,260

your head and put a beam down so you

446

00:21:19,630 --> 00:21:17,330

just take one little piece of it and the

447

00:21:21,100 --> 00:21:19,640

lighthouse theories of upper end but let

448

00:21:22,990 --> 00:21:21,110

me just tell you a side effect of this

449

00:21:25,090 --> 00:21:23,000

I've done many documentaries all the

450

00:21:27,490 --> 00:21:25,100

years some with their terrestrial TV

451
00:21:29,500 --> 00:21:27,500
like channel flow channel time right the

452
00:21:32,530 --> 00:21:29,510
last 2 i've got involved in telephone

453
00:21:34,390 --> 00:21:32,540
and channel 5 I said to them you've not

454
00:21:34,990 --> 00:21:34,400
got a very good record of doing decent

455
00:21:37,720 --> 00:21:35,000
documentaries

456
00:21:41,110 --> 00:21:37,730
UFOs and they go yeah you know we're

457
00:21:44,230 --> 00:21:41,120
serious about this one okay I said what

458
00:21:47,980 --> 00:21:44,240
I'll give you a challenge i said i will

459
00:21:50,470 --> 00:21:47,990
give you a little exclusive but i'm

460
00:21:53,140 --> 00:21:50,480
saying to you you will not use it in the

461
00:21:56,620 --> 00:21:53,150
final edit well we will we work with

462
00:21:59,890 --> 00:21:56,630
them I cenizas challenge then i'm going

463
00:22:02,620 --> 00:21:59,900

to show you the field where I went with

464

00:22:05,440 --> 00:22:02,630

Colonel halt I've identified the field

465

00:22:08,590 --> 00:22:05,450

nobody else's this is the field with a

466

00:22:10,600 --> 00:22:08,600

beam care now that is fee I'll take you

467

00:22:12,460 --> 00:22:10,610

to that location it's never been shown

468

00:22:17,110 --> 00:22:12,470

in any documentary are you interested

469

00:22:20,920 --> 00:22:17,120

for yours so we go film it is it in the

470

00:22:24,970 --> 00:22:20,930

final edit know who wins the bet meet

471

00:22:29,320 --> 00:22:24,980

wife clever editing because in the final

472

00:22:33,280 --> 00:22:29,330

but the present gasps so multiple dates

473

00:22:37,630 --> 00:22:33,290

multiple witnesses was it a UFO what is

474

00:22:41,200 --> 00:22:37,640

a nice house they could not have used

475

00:22:45,880 --> 00:22:41,210

that open-ended right outfit if it have

476

00:22:48,160 --> 00:22:45,890

included that sequence in the field you

477

00:22:50,500 --> 00:22:48,170

should be chasing everyone well that's a

478

00:22:53,110 --> 00:22:50,510

whole bike look what is that is the

479

00:22:56,050 --> 00:22:53,120

thing is halt used to take people out to

480

00:22:58,180 --> 00:22:56,060

the lighthouse for a visit we knew where

481

00:23:00,880 --> 00:22:58,190

it was and in reality in the weapon

482

00:23:03,340 --> 00:23:00,890

storage area very much I worked on two

483

00:23:05,410 --> 00:23:03,350

of them on engineers offered same county

484

00:23:09,580 --> 00:23:05,420

and in lab work in what was then West

485

00:23:12,010 --> 00:23:09,590

Germany you have the weapon storage area

486

00:23:15,120 --> 00:23:12,020

the bunkers and in the middle of it or a

487

00:23:20,530 --> 00:23:15,130

wind of it there is at least one tower

488

00:23:24,280 --> 00:23:20,540

that's mum 24 7 365 years right the site

489

00:23:26,080 --> 00:23:24,290

is about 38 to 40 8 30 to 40 people on

490

00:23:28,510 --> 00:23:26,090

shift at any one time that proves the

491

00:23:31,120 --> 00:23:28,520

numbers along Rendlesham is because a

492

00:23:37,870 --> 00:23:31,130

conventional bomb dome one or two yea

493

00:23:42,610 --> 00:23:37,880

gads nuclear weapons garden 365 24 7 30

494

00:23:46,390 --> 00:23:42,620

8 30 to 40 per shift alright so the

495

00:23:48,210 --> 00:23:46,400

numbers were mixed up but the tower they

496

00:23:50,909 --> 00:23:48,220

have one towel that's higher

497

00:23:55,169 --> 00:23:50,919

about 80 feet high and it's purposely

498

00:23:57,299 --> 00:23:55,179

higher so that as a full 360 for the guy

499

00:23:59,549 --> 00:23:57,309

in the towel and in the top of the tower

500

00:24:03,270 --> 00:23:59,559

they have a miniature layout of the

501
00:24:07,260 --> 00:24:03,280
entire site like a model and it has all

502
00:24:09,779 --> 00:24:07,270
the alarm settings that can be triggered

503
00:24:12,419 --> 00:24:09,789
by rabbits because it's the night

504
00:24:14,970 --> 00:24:12,429
microwave right as the oven outs of

505
00:24:17,220 --> 00:24:14,980
stereo France than an infant and it's

506
00:24:18,930 --> 00:24:17,230
microwave so if anybody tries to break

507
00:24:21,870 --> 00:24:18,940
through the fence it triggers an alarm

508
00:24:24,210 --> 00:24:21,880
the alarm is triggered on this big bowl

509
00:24:26,279 --> 00:24:24,220
so the guy in the top of the tower it's

510
00:24:28,950 --> 00:24:26,289
80 feet the trees are not allowed to go

511
00:24:32,310 --> 00:24:28,960
on more than 40 feet so he gets the

512
00:24:35,220 --> 00:24:32,320
perspective with 360 so the gang of the

513
00:24:38,010 --> 00:24:35,230

tower gnaws where the offered less light

514

00:24:44,340 --> 00:24:38,020

houses every shift ease up there he goes

515

00:24:47,190 --> 00:24:44,350

matter that's what up yep every five

516

00:24:49,080 --> 00:24:47,200

seconds look it's like he knew it was

517

00:24:51,090 --> 00:24:49,090

the only where it was but nobody talks

518

00:24:53,100 --> 00:24:51,100

about weapons storage area because it's

519

00:24:54,630 --> 00:24:53,110

too sensitive nobody else go near

520

00:24:57,870 --> 00:24:54,640

nuclear weapons but you broke all the

521

00:25:01,380 --> 00:24:57,880

arm of agreements and swine oh do you

522

00:25:03,419 --> 00:25:01,390

come up these aspects the stuffs I

523

00:25:06,630 --> 00:25:03,429

didn't pay they don't touch this craft

524

00:25:08,520 --> 00:25:06,640

yes I've had a Down Lord I don't weigh

525

00:25:11,070 --> 00:25:08,530

them huh I don't believe it you don't

526

00:25:15,060 --> 00:25:11,080

believe it I think you like me great

527

00:25:19,140 --> 00:25:15,070

Becky I let me say no I say they look at

528

00:25:22,169 --> 00:25:19,150

argue you know I pointed to the in mind

529

00:25:25,560 --> 00:25:22,179

yet it's a binary download which is

530

00:25:28,110 --> 00:25:25,570

supposedly odd and i have i've got

531

00:25:30,299 --> 00:25:28,120

transposed it and if that is correct but

532

00:25:33,409 --> 00:25:30,309

that doesn't mean to say that ERG had it

533

00:25:35,940 --> 00:25:33,419

now if but it does actually refer to a

534

00:25:38,640 --> 00:25:35,950

location called high Brazil with the

535

00:25:41,549 --> 00:25:38,650

island where seven locations it refers

536

00:25:43,560 --> 00:25:41,559

to including yeah so you couldn't you've

537

00:25:44,620 --> 00:25:43,570

got no feedback or further information

538

00:25:46,930 --> 00:25:44,630

on that

539

00:25:52,990 --> 00:25:46,940

you don't believe it I'm a detective

540

00:25:57,520 --> 00:25:53,000

Yeah right and his reasons he claimed on

541

00:25:59,830 --> 00:25:57,530

the 30th anniversary yeah conference so

542

00:26:02,200 --> 00:25:59,840

for 30 years he kept this secret even

543

00:26:05,440 --> 00:26:02,210

from John Burroughs who was with him to

544

00:26:07,570 --> 00:26:05,450

be a key you know any suddenly came out

545

00:26:10,840 --> 00:26:07,580

this time ago yeah yeah anybody giving

546

00:26:13,420 --> 00:26:10,850

it up but you're right get out I think

547

00:26:16,330 --> 00:26:13,430

by then peniston's up some issues with

548

00:26:19,420 --> 00:26:16,340

drink and blah blah blah I hope the

549

00:26:23,500 --> 00:26:19,430

cameras not morning it's good you don't

550

00:26:26,020 --> 00:26:23,510

regard no good book yeah I Memphis Yeah

551

00:26:28,660 --> 00:26:26,030

right he went off the rails pick he

552

00:26:32,980 --> 00:26:28,670

wasn't brilliant witness at the time but

553

00:26:35,740 --> 00:26:32,990

later on I think he's got dozens as the

554

00:26:37,570 --> 00:26:35,750

case became more famous people are

555

00:26:40,150 --> 00:26:37,580

saying ho make a feature film of this I

556

00:26:43,870 --> 00:26:40,160

hear one of the key stories and I think

557

00:26:46,810 --> 00:26:43,880

the through whatever money start to God

558

00:26:49,620 --> 00:26:46,820

so what better could he do come up with

559

00:26:52,090 --> 00:26:49,630

this binary cards war Wow and all this

560

00:26:55,570 --> 00:26:52,100

Linda Moulton Howe up the binary codes

561

00:26:57,250 --> 00:26:55,580

as well yeah right the reality is that

562

00:26:59,710 --> 00:26:57,260

in his pocket book gives a click

563

00:27:01,660 --> 00:26:59,720

pocketbook you can take pages out and

564

00:27:04,600 --> 00:27:01,670

put them in it wants a proper band in

565

00:27:07,510 --> 00:27:04,610

the area right Colonel halt when I heard

566

00:27:10,780 --> 00:27:07,520

about this brand record I said to him

567

00:27:12,330 --> 00:27:10,790

the link the binary goddesses see that

568

00:27:15,310 --> 00:27:12,340

looked through that book lots of times

569

00:27:17,080 --> 00:27:15,320

I've never seen any bank record pages he

570

00:27:18,760 --> 00:27:17,090

said there were six pages then they were

571

00:27:20,860 --> 00:27:18,770

ready sure he said there were 10 pages

572

00:27:23,890 --> 00:27:20,870

then it on the radio show he said no 12

573

00:27:27,520 --> 00:27:23,900

pages well I think I'd know if there was

574

00:27:29,770 --> 00:27:27,530

6 12 or 10 and here's the reality it was
