

Thanks for watching

**SWANSEA UFO NETWORK**

The End

1  
00:00:37,580 --> 00:00:18,050

[Music]

2  
00:00:42,140 --> 00:00:37,590

you

3  
00:00:46,970 --> 00:00:43,880

walk to emmalin Williams and Steve

4  
00:00:50,690 --> 00:00:46,980

Juicin of the swans UFO network so ice

5  
00:00:53,420 --> 00:00:50,700

Swan Xia a hot spot for UFO activity I

6  
00:00:55,280 --> 00:00:53,430

often get asked that I wouldn't say it's

7  
00:00:57,710 --> 00:00:55,290

a hot spot but because there's a is

8  
00:00:59,540 --> 00:00:57,720

center of population there's more people

9  
00:01:01,790 --> 00:00:59,550

to see things and then for more people

10  
00:01:03,560 --> 00:01:01,800

to report things so before we go cities

11  
00:01:04,640 --> 00:01:03,570

attend let's take a look before we have

12  
00:01:05,240 --> 00:01:04,650

a chat with you because there's so much

13  
00:01:07,250 --> 00:01:05,250

to talk about

14

00:01:41,420 --> 00:01:07,260

let's take a look at this intro

15

00:01:45,050 --> 00:01:43,460

so gentlemen first of all thank you so

16

00:01:47,750 --> 00:01:45,060

much for coming on the show now this is

17

00:01:49,040 --> 00:01:47,760

such a fascinating sort of subject we

18

00:01:50,600 --> 00:01:49,050

could talk about it for hours and I was

19

00:01:52,250 --> 00:01:50,610

now as beside Lee we haven't got hours

20

00:01:53,870 --> 00:01:52,260

but if we could just start by

21

00:01:55,910 --> 00:01:53,880

introducing sovereign exactly what it is

22

00:01:57,980 --> 00:01:55,920

you do with the you call it a network

23

00:02:00,020 --> 00:01:57,990

that's right yeah yeah my name is Steve

24

00:02:01,600 --> 00:02:00,030

Jerusalem this is my colleague Jeremy

25

00:02:04,250 --> 00:02:01,610

Lin Williams

26  
00:02:07,190 --> 00:02:04,260  
we've both had a long-standing interest

27  
00:02:10,370 --> 00:02:07,200  
in the subject of UFOs all our lives I

28  
00:02:13,060 --> 00:02:10,380  
suppose really on Yemen and two years

29  
00:02:16,130 --> 00:02:13,070  
ago we didn't even know each other but I

30  
00:02:19,520 --> 00:02:16,140  
retired from my work after 30 years work

31  
00:02:21,290 --> 00:02:19,530  
I retired so I thought I'd take a bit

32  
00:02:23,180 --> 00:02:21,300  
more interest in the subject so as the

33  
00:02:25,220 --> 00:02:23,190  
result of that I started to look around

34  
00:02:28,010 --> 00:02:25,230  
to see if there was a local club or

35  
00:02:30,500 --> 00:02:28,020  
organization or perhaps I could join to

36  
00:02:31,850 --> 00:02:30,510  
further my knowledge on the subject so

37  
00:02:35,150 --> 00:02:31,860  
looked a few but all of them seemed to

38  
00:02:36,230 --> 00:02:35,160

have closed down so the only way forward

39

00:02:39,620 --> 00:02:36,240

seemed to be starting our own

40

00:02:43,100 --> 00:02:39,630

organization going okay so with that in

41

00:02:44,690 --> 00:02:43,110

mind I started a Facebook page to see

42

00:02:45,830 --> 00:02:44,700

what they are tentatively to see how

43

00:02:46,400 --> 00:02:45,840

many people would be interested in the

44

00:02:48,860 --> 00:02:46,410

subject

45

00:02:50,150 --> 00:02:48,870

the funny part was virtually I think

46

00:02:52,160 --> 00:02:50,160

there's a following day Emily did

47

00:02:54,020 --> 00:02:52,170

exactly the same thing which is quite

48

00:02:57,800 --> 00:02:54,030

coincidental and he started the Facebook

49

00:03:00,110 --> 00:02:57,810

page on the same subject yes or mine

50

00:03:01,880 --> 00:03:00,120

contacted me so he closed both the

51  
00:03:04,640 --> 00:03:01,890  
Facebook pages and started a new one

52  
00:03:06,650 --> 00:03:04,650  
which we had a meet in and eventually

53  
00:03:08,780 --> 00:03:06,660  
these things together and decided to

54  
00:03:11,120 --> 00:03:08,790  
call it Swansea UFO network so that's

55  
00:03:12,290 --> 00:03:11,130  
how the organisation came about okay if

56  
00:03:13,970 --> 00:03:12,300  
I could just read this year it says the

57  
00:03:15,920 --> 00:03:13,980  
aim of this one's UFO or network is to

58  
00:03:18,500 --> 00:03:15,930  
educate streamlet interest and debate

59  
00:03:21,020 --> 00:03:18,510  
the subject of UFOs and its many off

60  
00:03:22,790 --> 00:03:21,030  
shots so tell us in I mean it's become

61  
00:03:24,350 --> 00:03:22,800  
extremely popular isn't it from it could

62  
00:03:26,870 --> 00:03:24,360  
you say is because of the TV programs

63  
00:03:30,229 --> 00:03:26,880

which are on today yeah every channel

64

00:03:31,580 --> 00:03:30,239

yes yeah but but tell us your side of it

65

00:03:33,080 --> 00:03:31,590

from somebody who doesn't perhaps

66

00:03:38,240 --> 00:03:33,090

believe if you want to call it that

67

00:03:40,850 --> 00:03:38,250

worked um well the as I said that the

68

00:03:42,979 --> 00:03:40,860

reason why we started it is to to meet

69

00:03:45,199 --> 00:03:42,989

people to get people to come forward we

70

00:03:47,539 --> 00:03:45,209

got into living witnesses it's just to

71

00:03:49,520 --> 00:03:47,549

me it's amazed me um how much is going

72

00:03:51,199 --> 00:03:49,530

on there out there that hasn't been seen

73

00:03:52,849 --> 00:03:51,209

there like a day publicly why do you

74

00:03:54,280 --> 00:03:52,859

think that is what's the reason do you

75

00:03:55,600 --> 00:03:54,290

think behind people are coming for

76

00:03:58,270 --> 00:03:55,610

a lot of people a bit nervous but they

77

00:03:59,920 --> 00:03:58,280

with a lot of witnesses don't tend to

78

00:04:01,709 --> 00:03:59,930

report things because they don't want to

79

00:04:03,970 --> 00:04:01,719

be ridiculed they don't to be saw

80

00:04:05,619 --> 00:04:03,980

labeled a nutter

81

00:04:08,099 --> 00:04:05,629

you know is there still frowned upon

82

00:04:11,170 --> 00:04:08,109

then in certain areas would you say oh

83

00:04:13,210 --> 00:04:11,180

it's getting less so I think this is in

84

00:04:14,619 --> 00:04:13,220

the news there's a lot like this week

85

00:04:16,870 --> 00:04:14,629

there's a thing about this they found a

86

00:04:18,009 --> 00:04:16,880

solar system and about seven planets and

87

00:04:20,020 --> 00:04:18,019

the Goldilocks zone which couldn't

88

00:04:21,640 --> 00:04:20,030

support life says it like it is a

89

00:04:25,779 --> 00:04:21,650

drip-feed condition in the population

90

00:04:28,180 --> 00:04:25,789

that the opening up the idea that there

91

00:04:29,200 --> 00:04:28,190

is there could be life elsewhere well

92

00:04:31,390 --> 00:04:29,210

let's talk a little bit more about that

93

00:04:33,159 --> 00:04:31,400

so NASA have discovered this kind of new

94

00:04:35,560 --> 00:04:33,169

solar system and they all could be

95

00:04:37,330 --> 00:04:35,570

earth-like is what they're saying but

96

00:04:39,189 --> 00:04:37,340

does that not kind of when NASA an

97

00:04:40,810 --> 00:04:39,199

organization like that kind of given us

98

00:04:44,260 --> 00:04:40,820

facts does that not kind of go well

99

00:04:46,450 --> 00:04:44,270

clearly there must be life out there is

100

00:04:48,820 --> 00:04:46,460

that I don't know I think the general

101  
00:04:51,370 --> 00:04:48,830  
opinion for the general public's opinion

102  
00:04:54,580 --> 00:04:51,380  
is what they've been given which is that

103  
00:04:56,740 --> 00:04:54,590  
nearest habitable planet to earth is

104  
00:04:58,570 --> 00:04:56,750  
many many light-years away and

105  
00:05:01,390 --> 00:04:58,580  
consequently nobody could reach us

106  
00:05:02,820 --> 00:05:01,400  
within a certain period of time but

107  
00:05:05,740 --> 00:05:02,830  
that's all you go and buy the technology

108  
00:05:07,890 --> 00:05:05,750  
that is available to us at this one

109  
00:05:10,120 --> 00:05:07,900  
hasn't time I mean two hundred years ago

110  
00:05:11,710 --> 00:05:10,130  
we'd be laughed at but if we thought we

111  
00:05:13,240 --> 00:05:11,720  
were sitting in a television studio now

112  
00:05:16,089 --> 00:05:13,250  
transmitting to the public

113  
00:05:18,450 --> 00:05:16,099

so I think things have changed we've had

114

00:05:20,680 --> 00:05:18,460

the discovery of black holes wormholes

115

00:05:22,180 --> 00:05:20,690

interdimensional travel I think

116

00:05:24,100 --> 00:05:22,190

scientists are looking to a lot of other

117

00:05:25,330 --> 00:05:24,110

aspect aliens now and if you'd

118

00:05:27,219 --> 00:05:25,340

particularly look at the age of the

119

00:05:30,010 --> 00:05:27,229

universe it's like it's it's more than

120

00:05:31,860 --> 00:05:30,020

twice the age of the solar system know

121

00:05:35,560 --> 00:05:31,870

that there's got to be more advanced

122

00:05:36,370 --> 00:05:35,570

paces out there than what we are going

123

00:05:38,320 --> 00:05:36,380

for millions of years

124

00:05:40,480 --> 00:05:38,330

so Talisman moving on to is sort of

125

00:05:42,189 --> 00:05:40,490

certain sightings when is when was the

126

00:05:46,570 --> 00:05:42,199

last reported sighting here for example

127

00:05:48,580 --> 00:05:46,580

in swansea swansea you're talking to the

128

00:05:50,200 --> 00:05:48,590

right one no because they're hazy alien

129

00:05:53,200 --> 00:05:50,210

has been a great ambassador throw club

130

00:05:54,939 --> 00:05:53,210

because he is the historian reading he's

131

00:05:58,390 --> 00:05:54,949

the one who does all the sort of welcome

132

00:06:00,580 --> 00:05:58,400

science we concentrate on the

133

00:06:04,629 --> 00:06:00,590

geographical area of South Wales for our

134

00:06:07,420 --> 00:06:04,639

study okay and the we've read up over

135

00:06:08,170 --> 00:06:07,430

600 cases now drawn from a variety of

136

00:06:10,570 --> 00:06:08,180

sources such as

137

00:06:11,550 --> 00:06:10,580

books magazines newspaper articles from

138

00:06:13,600 --> 00:06:11,560

the past

139

00:06:18,100 --> 00:06:13,610

witness testimony people telling us

140

00:06:20,890 --> 00:06:18,110

face-to-face all sorts of sources put up

141

00:06:23,020 --> 00:06:20,900

over 600 I think the last one was

142

00:06:24,909 --> 00:06:23,030

reported in Swansea so last month things

143

00:06:27,129 --> 00:06:24,919

became but that will be aware of in us

144

00:06:29,170 --> 00:06:27,139

right something all the time what what

145

00:06:31,240 --> 00:06:29,180

people see him because I it's weird I've

146

00:06:33,159 --> 00:06:31,250

got a balcony and I kind of see things

147

00:06:34,779 --> 00:06:33,169

and and I'm told my friends like no

148

00:06:37,090 --> 00:06:34,789

that's a weather balloon oh that's Venus

149

00:06:43,379 --> 00:06:37,100

that's cool anything what are people see

150

00:06:50,050 --> 00:06:45,879

nobody well the bones exist as a figment

151  
00:06:54,640 --> 00:06:50,060  
of people's imagination oh I think we've

152  
00:06:58,900 --> 00:06:54,650  
got some some pictures of these things

153  
00:07:04,779 --> 00:06:58,910  
yeah right this one was from I think

154  
00:07:06,939 --> 00:07:04,789  
July 2012 think Gary woke up in the

155  
00:07:09,969 --> 00:07:06,949  
early morning but four o'clock in the

156  
00:07:11,409 --> 00:07:09,979  
morning in midsummer saw that yeah the

157  
00:07:12,760 --> 00:07:11,419  
sudden I didn't quite come up yet I

158  
00:07:14,469 --> 00:07:12,770  
think you can just about see Venus in

159  
00:07:16,659 --> 00:07:14,479  
the distance cuz there's pretty precede

160  
00:07:20,770 --> 00:07:16,669  
in the Sun and he saw this black object

161  
00:07:21,580 --> 00:07:20,780  
just static in the sky they was there

162  
00:07:23,890 --> 00:07:21,590  
for about 20 minutes

163  
00:07:29,350 --> 00:07:23,900

see I would have then been told for the

164

00:07:31,060 --> 00:07:29,360

massive balloon Henry well he was watch

165

00:07:33,430 --> 00:07:31,070

it was there for a good while okay he

166

00:07:35,080 --> 00:07:33,440

went off to do something that you're

167

00:07:37,060 --> 00:07:35,090

this young son I think you better see to

168

00:07:39,279 --> 00:07:37,070

his son film in the state he came back

169

00:07:40,689 --> 00:07:39,289

and he was gone and he hadn't moved at

170

00:07:42,520 --> 00:07:40,699

all while he was looking at it was just

171

00:07:44,260 --> 00:07:42,530

static in the sky I think there's

172

00:07:47,140 --> 00:07:44,270

another one he skeptics Recinos a bird

173

00:07:49,210 --> 00:07:47,150

but a bird wouldn't sort of stay still

174

00:07:51,490 --> 00:07:49,220

and it didn't even look like a bird this

175

00:07:55,029 --> 00:07:51,500

here is overcome this again was 2012

176  
00:07:57,100 --> 00:07:55,039  
this is January 2012 a woman was out

177  
00:07:59,649 --> 00:07:57,110  
walking with a group of people at

178  
00:08:02,499 --> 00:07:59,659  
Caswell and she was just going on

179  
00:08:04,839 --> 00:08:02,509  
randomly taking shots one off the other

180  
00:08:06,790 --> 00:08:04,849  
literally bump shot shot shot on his

181  
00:08:08,529 --> 00:08:06,800  
only after she got home she was looking

182  
00:08:10,689 --> 00:08:08,539  
through the shots and there was this red

183  
00:08:12,159 --> 00:08:10,699  
ball in the sky and he wasn't there in

184  
00:08:12,999 --> 00:08:12,169  
the preceding shot he wasn't there in

185  
00:08:15,189 --> 00:08:13,009  
there in

186  
00:08:16,990 --> 00:08:15,199  
wow in the shot afterwards still taking

187  
00:08:19,180 --> 00:08:17,000  
the three seconds afterwards on the

188  
00:08:20,740 --> 00:08:19,190

signal so yeah I've got to say time I

189

00:08:21,279 --> 00:08:20,750

believe in a case oh I'm totally loving

190

00:08:23,019 --> 00:08:21,289

all this

191

00:08:25,149 --> 00:08:23,029

a lot of people would say is that a mark

192

00:08:27,700 --> 00:08:25,159

on the lens is it something which you

193

00:08:29,320 --> 00:08:27,710

know this you could give a number of

194

00:08:30,279 --> 00:08:29,330

excuses when she marks her lens it

195

00:08:33,459 --> 00:08:30,289

would've been there in all the shots

196

00:08:34,540 --> 00:08:33,469

wouldn't it excites okay yeah so if it

197

00:08:38,529 --> 00:08:34,550

was a bullet if it was a balloon

198

00:08:40,149 --> 00:08:38,539

floating by again it's a slow-moving it

199

00:08:41,649 --> 00:08:40,159

would be there in all the shots just in

200

00:08:43,389 --> 00:08:41,659

that one shot that is part of our

201  
00:08:45,850 --> 00:08:43,399  
investigative work to see if we can

202  
00:08:48,879 --> 00:08:45,860  
discount other theories incredibly

203  
00:08:51,189 --> 00:08:48,889  
difficult though I think we we

204  
00:08:52,930 --> 00:08:51,199  
interviewed a lady in Caswell last year

205  
00:08:54,699 --> 00:08:52,940  
and she was quite adamant she saw

206  
00:08:56,290 --> 00:08:54,709  
something very very strange but after a

207  
00:08:57,999 --> 00:08:56,300  
lot of conversation we managed to put it

208  
00:09:00,160 --> 00:08:58,009  
down to her the Chinese learnt and it's

209  
00:09:01,689 --> 00:09:00,170  
possibly a Chinese just like looking

210  
00:09:03,759 --> 00:09:01,699  
like likelihood of it being the

211  
00:09:05,290 --> 00:09:03,769  
challenge so so how do people kind of

212  
00:09:06,610 --> 00:09:05,300  
get a hold of you and say I think I've

213  
00:09:08,980 --> 00:09:06,620

seen something I've got a weird image

214

00:09:10,120 --> 00:09:08,990

what do they then do with it to kind of

215

00:09:10,720 --> 00:09:10,130

will start the conversation with

216

00:09:13,180 --> 00:09:10,730

yourself

217

00:09:15,280 --> 00:09:13,190

um well we've got somebody in our group

218

00:09:17,220 --> 00:09:15,290

that that's pretty good with computers

219

00:09:19,420 --> 00:09:17,230

he can visit photographic enhancement

220

00:09:20,559 --> 00:09:19,430

because quite often somebody will take a

221

00:09:23,949 --> 00:09:20,569

shot like that last one

222

00:09:25,600 --> 00:09:23,959

he'll take a shot and they don't see

223

00:09:26,680 --> 00:09:25,610

anything with the naked eye he was only

224

00:09:29,439 --> 00:09:26,690

afterwards they noticed something's

225

00:09:31,000 --> 00:09:29,449

there and it's just by chance they

226

00:09:33,550 --> 00:09:31,010

managed to catch it you know kind of a

227

00:09:37,240 --> 00:09:33,560

photo enhancement and brings up what it

228

00:09:39,129 --> 00:09:37,250

is so if via the Facebook if anyone has

229

00:09:41,129 --> 00:09:39,139

god yeah Jesus a Facebook we've also got

230

00:09:46,809 --> 00:09:41,139

a website okay

231

00:09:48,340 --> 00:09:46,819

ww2 fun SS UFO n dot Cote UK great we'll

232

00:09:50,319 --> 00:09:48,350

put that on all our social media for our

233

00:09:51,819 --> 00:09:50,329

people but going back to - how would

234

00:09:53,439 --> 00:09:51,829

this all started you have you found that

235

00:09:55,059 --> 00:09:53,449

there's been a rise in a number of

236

00:09:57,220 --> 00:09:55,069

reports not just in Swansea like you

237

00:10:00,730 --> 00:09:57,230

said but in in Wales overall do you

238

00:10:03,579 --> 00:10:00,740

think that that well last year was very

239

00:10:05,740 --> 00:10:03,589

busy last year we read it over we had

240

00:10:09,490 --> 00:10:05,750

something like 36 getting off for 40

241

00:10:11,740 --> 00:10:09,500

cases last year before was a bit less

242

00:10:13,329 --> 00:10:11,750

than that so it is whether it is fact

243

00:10:15,220 --> 00:10:13,339

there's more people we get known by more

244

00:10:17,410 --> 00:10:15,230

people so there's more people coming

245

00:10:18,730 --> 00:10:17,420

forward and also perhaps the like you

246

00:10:19,960 --> 00:10:18,740

said the stigma and also people not

247

00:10:21,490 --> 00:10:19,970

being afraid to come out and talk about

248

00:10:23,710 --> 00:10:21,500

it because it is taken so that's the

249

00:10:25,509 --> 00:10:23,720

beauty of a few meetings because we get

250

00:10:28,139 --> 00:10:25,519

new people coming all the time and found

251

00:10:30,610 --> 00:10:28,149

out about the organizations whose me and

252

00:10:31,690 --> 00:10:30,620

they treated almost like in a a meetin

253

00:10:34,360 --> 00:10:31,700

if you like

254

00:10:35,680 --> 00:10:34,370

and they feel relaxed and they can open

255

00:10:37,120 --> 00:10:35,690

up and perhaps they've kept something

256

00:10:38,590 --> 00:10:37,130

with them for many many years and

257

00:10:40,060 --> 00:10:38,600

they've able to open up and tell you

258

00:10:42,010 --> 00:10:40,070

exactly what happened to them and they

259

00:10:43,630 --> 00:10:42,020

they're not gonna be ridiculed you know

260

00:10:45,940 --> 00:10:43,640

it's a safe haven for them if they like

261

00:10:47,980 --> 00:10:45,950

or are things like ancient aliens on

262

00:10:50,350 --> 00:10:47,990

discovery or history helping people kind

263

00:10:51,820 --> 00:10:50,360

of realize oh it's not just me is a

264

00:10:54,550 --> 00:10:51,830

thing that's kind of being documented

265

00:10:55,930 --> 00:10:54,560

better now those programs out watch but

266

00:10:58,920 --> 00:10:55,940

people who have got have an interest in

267

00:11:02,530 --> 00:10:58,930

the subject anyway so but that helps

268

00:11:04,420 --> 00:11:02,540

yeah also you find that people will see

269

00:11:06,160 --> 00:11:04,430

something in the sky or have an

270

00:11:08,380 --> 00:11:06,170

experience themselves and they would

271

00:11:09,310 --> 00:11:08,390

start the interest that's going

272

00:11:10,720 --> 00:11:09,320

somewhere thank very much we're gonna

273

00:11:12,910 --> 00:11:10,730

have to have you back in thank you so

274

00:11:14,290 --> 00:11:12,920

much I'll go fixed after the break we're

275

00:11:24,240 --> 00:11:14,300

gonna meet this was University century
