00:00:58,389 --> 00:00:53,030

[Music]

2
00:01:01,029 --> 00:00:58,399

the first speaker this afternoon is mr

3
00:01:02,470 --> 00:01:01,039

david cayton on my right hand side here

4
00:01:03,990 --> 00:01:02,480

he's going to address you till about

5
00:01:06,230 --> 00:01:04,000

three o'clock this afternoon and we'll

6
00:01:08,390 --> 00:01:06,240

have another short break and then uh

7
00:01:10,710 --> 00:01:08,400

david hadrian will finish off the

8
00:01:11,750 --> 00:01:10,720

afternoon for us

9
00:01:14,550 --> 00:01:11,760

now

10
00:01:18,789 --> 00:01:14,560

david served 10 years in the raf as a

11
00:01:21,109 --> 00:01:18,799

photographer from 1955 to 1965

12
00:01:25,109 --> 00:01:21,119

enjoying interest in cold war times and

13
00:01:27,109 --> 00:01:25,119

served in the uk cyprus and germany

14

00:01:29,350 --> 00:01:27,119

now during his last 18 months of service

15

00:01:31,590 --> 00:01:29,360

he became involved in ndt which is

16

00:01:34,230 --> 00:01:31,600

non-destructive testing

17

00:01:35,990 --> 00:01:34,240

and in 1966 he joined the engineering

18

00:01:38,230 --> 00:01:36,000

research department at hawker sydney

19

00:01:41,350 --> 00:01:38,240

aviation at manchester which later

20

00:01:43,590 --> 00:01:41,360

became british aerospace and bie systems

21

00:01:46,710 --> 00:01:43,600

all right

22

00:01:48,550 --> 00:01:46,720

by 1970 been promoted to the head of ndt

23

00:01:50,069 --> 00:01:48,560

in the design department laboratories at

24

00:01:52,789 --> 00:01:50,079

woodford

25

00:01:55,910 --> 00:01:52,799

after 27 years service david took an

26

00:01:57,270 --> 00:01:55,920

early retirement package in january 1993

27

00:02:00,069 --> 00:01:57,280

pardon me

28

00:02:02,389 --> 00:02:00,079

and in october that year he became a ufo

29

00:02:04,709 --> 00:02:02,399

investigator for quest international

30

00:02:06,149 --> 00:02:04,719

reporter ex police sergeant tony dodd

31

00:02:08,630 --> 00:02:06,159

who you may know

32

00:02:11,190 --> 00:02:08,640

and director graham birdsell

33

00:02:13,270 --> 00:02:11,200

in 1994 he joined the center for crop

34

00:02:15,830 --> 00:02:13,280

circle studies and spent approximately

35

00:02:20,070 --> 00:02:15,840

12 years researching the crop circles

36

00:02:24,150 --> 00:02:21,990

then in 1997 he decided that

37

00:02:26,070 --> 00:02:24,160

investigating the problem of unusual

38

00:02:28,070 --> 00:02:26,080

animal deaths and mutilations might

39

00:02:30,070 --> 00:02:28,080

produce more positive evidence that our

40

00:02:34,309 --> 00:02:30,080

planet is being regularly visited by

41

00:02:41,030 --> 00:02:38,710

david teamed up with phil hoyle in 2001

42

00:02:43,350 --> 00:02:41,040

and formed the animal pathology field

43

00:02:45,190 --> 00:02:43,360

unit the apfu

44

00:02:47,030 --> 00:02:45,200

and has since given numerous radio and

45

00:02:48,550 --> 00:02:47,040

television interviews on the subjects of

46

00:02:51,990 --> 00:02:48,560

ufos

47

00:02:54,309 --> 00:02:52,000

crop circles and animal mutilations

48

00:02:55,589 --> 00:02:54,319

he's taken part in live tv studio

49

00:02:57,589 --> 00:02:55,599

debates

50

00:02:59,509 --> 00:02:57,599

and contributed to several television

51
00:03:00,869 --> 00:02:59,519
documentaries including some with

52
00:03:02,710 --> 00:03:00,879
richard d hall

53
00:03:05,030 --> 00:03:02,720
you'll be familiar with of rich planet

54
00:03:06,790 --> 00:03:05,040
television

55
00:03:08,949 --> 00:03:06,800
now today david will be addressing you

56
00:03:10,229 --> 00:03:08,959
on the subject of jodrell bank ufo

57
00:03:12,630 --> 00:03:10,239
events

58
00:03:15,780 --> 00:03:12,640
so please give a welcome to mr david

59
00:03:21,670 --> 00:03:15,790
cayton thank you

60
00:03:25,190 --> 00:03:23,670
thank you for your patience

61
00:03:27,589 --> 00:03:25,200
yeah so

62
00:03:29,830 --> 00:03:27,599
this image is a horse we went to look at

63
00:03:32,070 --> 00:03:29,840

in 2015 in leicestershire

64

00:03:35,350 --> 00:03:32,080

uh richard although this bit these

65

00:03:37,830 --> 00:03:35,360

pictures were taken by the horse owner

66

00:03:41,509 --> 00:03:37,840

okay so i was just

67

00:03:43,350 --> 00:03:41,519

relaxing to say not see anything nasty

68

00:03:44,830 --> 00:03:43,360

so we're going to sunny cypress first of

69

00:03:46,390 --> 00:03:44,840

all

70

00:03:49,110 --> 00:03:46,400

um

71

00:03:52,869 --> 00:03:49,120

and you can see from the back but

72

00:03:54,550 --> 00:03:52,879

i was there in 1957 to 60

73

00:03:57,830 --> 00:03:54,560

uh so it was like a two and a half year

74

00:04:00,550 --> 00:03:57,840

tour and we were based in a place called

75

00:04:04,470 --> 00:04:00,560

piscope which is there

76

00:04:06,550 --> 00:04:04,480

the airfield is about there

77

00:04:08,470 --> 00:04:06,560

and then if you're not just note

78

00:04:11,429 --> 00:04:08,480

up in the mountains of the

79

00:04:13,429 --> 00:04:11,439

trudus range is mount olympus

80

00:04:15,750 --> 00:04:13,439

here it's about six and a half thousand

81

00:04:18,390 --> 00:04:15,760

feet in height and there's a

82

00:04:21,270 --> 00:04:18,400

radio sight up there

83

00:04:23,270 --> 00:04:22,310

i

84

00:04:25,430 --> 00:04:23,280

actually

85

00:04:26,790 --> 00:04:25,440

had the pleasure of going back to cyprus

86

00:04:28,710 --> 00:04:26,800

2015

87

00:04:30,550 --> 00:04:28,720

for our middle daughter won a

88

00:04:31,830 --> 00:04:30,560

competition as a wedding fair in

89

00:04:33,590 --> 00:04:31,840

manchester

90

00:04:35,749 --> 00:04:33,600

for four thousand euros to have a

91

00:04:37,510 --> 00:04:35,759

wedding in cyprus which was in paphos

92

00:04:39,430 --> 00:04:37,520

which was delightful

93

00:04:40,469 --> 00:04:39,440

so we drove past

94

00:04:43,670 --> 00:04:40,479

the base

95

00:04:45,270 --> 00:04:43,680

which is uh army and all services it's

96

00:04:47,030 --> 00:04:45,280

not just raf

97

00:04:49,590 --> 00:04:47,040

and it's still there

98

00:04:53,510 --> 00:04:50,950

so i

99

00:04:55,270 --> 00:04:53,520

i worked as an outfit called jerich

100

00:04:57,189 --> 00:04:55,280

middle east which is the joint air

101
00:04:59,350 --> 00:04:57,199
reconnaissance intelligence center

102
00:05:00,870 --> 00:04:59,360
sounds very grand isn't it

103
00:05:02,950 --> 00:05:00,880
and we were episcopal so it was all

104
00:05:07,029 --> 00:05:02,960
about hush hush

105
00:05:08,830 --> 00:05:07,039
so this was the uh jericho

106
00:05:12,870 --> 00:05:08,840
insignia

107
00:05:14,230 --> 00:05:12,880
dodge we had all sorts of roles because

108
00:05:16,870 --> 00:05:14,240
in those days there was still a lot of

109
00:05:19,670 --> 00:05:16,880
trouble with the yoga terrorists

110
00:05:21,270 --> 00:05:19,680
with the greek government trying to take

111
00:05:23,430 --> 00:05:21,280
over cyprus

112
00:05:26,150 --> 00:05:23,440
and wanted us out

113
00:05:27,670 --> 00:05:26,160

and there was lots of resistance to that

114

00:05:30,070 --> 00:05:27,680

and the british government said well

115

00:05:32,070 --> 00:05:30,080

okay maybe two or three years and

116

00:05:33,670 --> 00:05:32,080

the greeks said no we want it like

117

00:05:37,029 --> 00:05:33,680

yesterday

118

00:05:39,510 --> 00:05:37,039

so that cause upset and

119

00:05:42,469 --> 00:05:39,520

the setup uh well the greek organization

120

00:05:44,469 --> 00:05:42,479

was called enosis which means union you

121

00:05:46,310 --> 00:05:44,479

know with uh

122

00:05:48,870 --> 00:05:46,320

with cyprus

123

00:05:51,029 --> 00:05:48,880

and this terrorist organization was born

124

00:05:52,230 --> 00:05:51,039

called the yoga

125

00:05:54,550 --> 00:05:52,240

and the leader was a father called

126
00:05:56,550 --> 00:05:54,560
general grievous i don't really remember

127
00:06:00,070 --> 00:05:56,560
all this about this sort of thing

128
00:06:01,990 --> 00:06:00,080
and archbishop macarios

129
00:06:04,830 --> 00:06:02,000
although it was first denied he was a

130
00:06:07,029 --> 00:06:04,840
sort of big supporter of

131
00:06:10,070 --> 00:06:07,039
yoko so

132
00:06:13,029 --> 00:06:10,080
also a lot of cold war problems going on

133
00:06:14,870 --> 00:06:13,039
at that time so that involved us a bit

134
00:06:15,909 --> 00:06:14,880
and typically the middle east like the

135
00:06:19,110 --> 00:06:15,919
lebanon

136
00:06:23,990 --> 00:06:20,710
other areas in the middle east were in

137
00:06:26,309 --> 00:06:24,000
turmoil so there's a lot of varied

138
00:06:30,469 --> 00:06:26,319

stuff going on and

139

00:06:34,950 --> 00:06:32,390

and then we're making big prints and

140

00:06:36,710 --> 00:06:34,960

enlargements to pass to the army who

141

00:06:37,749 --> 00:06:36,720

were on the ground trying to help them

142

00:06:39,749 --> 00:06:37,759

locate

143

00:06:41,749 --> 00:06:39,759

where the ilka terrorists were so it was

144

00:06:43,430 --> 00:06:41,759

quite a varied thing

145

00:06:45,110 --> 00:06:43,440

there was a few problems on the count

146

00:06:47,350 --> 00:06:45,120

like they were secreting

147

00:06:48,629 --> 00:06:47,360

explosives onto the base and blowing up

148

00:06:52,309 --> 00:06:48,639

a building that we're building that

149

00:06:55,590 --> 00:06:52,319

science mess and then it blew down

150

00:06:58,790 --> 00:06:55,600

overnight because he uses acid

151
00:07:00,390 --> 00:06:58,800
fuses which took time to cause explosion

152
00:07:03,029 --> 00:07:00,400
and then they came back the next day and

153
00:07:04,710 --> 00:07:03,039
built it all back up again so

154
00:07:07,029 --> 00:07:04,720
we all thought it was very humorous but

155
00:07:10,469 --> 00:07:07,039
it was quite serious so there's curfews

156
00:07:12,390 --> 00:07:10,479
on and times when we couldn't get about

157
00:07:14,309 --> 00:07:12,400
this is the uh

158
00:07:17,749 --> 00:07:14,319
recent on google image

159
00:07:19,189 --> 00:07:17,759
and oh sorry

160
00:07:22,390 --> 00:07:19,199
this area here

161
00:07:23,110 --> 00:07:22,400
is where our unit was it was all sort of

162
00:07:25,430 --> 00:07:23,120
uh

163
00:07:27,670 --> 00:07:25,440

trailers and nissan huts and this was

164

00:07:29,510 --> 00:07:27,680

our living block there

165

00:07:31,749 --> 00:07:29,520

lot 10 which has just been demolished we

166

00:07:33,270 --> 00:07:31,759

see from these aerial pictures and then

167

00:07:35,189 --> 00:07:33,280

jarrick um

168

00:07:37,110 --> 00:07:35,199

moved to a brand new

169

00:07:38,870 --> 00:07:37,120

building there

170

00:07:42,150 --> 00:07:38,880

i changed it to called javik i think it

171

00:07:46,870 --> 00:07:44,870

now on top of trudus is this radar

172

00:07:47,830 --> 00:07:46,880

station which is a fairly more recent

173

00:07:49,749 --> 00:07:47,840

picture

174

00:07:52,870 --> 00:07:49,759

which is still in operation and it's in

175

00:07:54,469 --> 00:07:52,880

a very important strategic place

176

00:07:56,629 --> 00:07:54,479

in the eastern mediterranean which is

177

00:07:58,950 --> 00:07:56,639

why british government came to

178

00:08:03,189 --> 00:07:58,960

keep our presence there

179

00:08:07,350 --> 00:08:05,189

now then i'm leading on to

180

00:08:10,070 --> 00:08:07,360

a ufo event which was detected by the

181

00:08:11,110 --> 00:08:10,080

radar on trudos

182

00:08:14,070 --> 00:08:11,120

and

183

00:08:16,230 --> 00:08:14,080

the chapman here harry potter

184

00:08:17,990 --> 00:08:16,240

unfortunately now he's deceased he had a

185

00:08:18,950 --> 00:08:18,000

heart attack in his

186

00:08:21,589 --> 00:08:18,960

garden

187

00:08:23,510 --> 00:08:21,599

workshop some years ago and uh he didn't

188

00:08:26,950 --> 00:08:23,520

didn't find him in time

189

00:08:28,550 --> 00:08:26,960

uh so that was between

190

00:08:31,029 --> 00:08:28,560

problems where you go off again we had a

191

00:08:32,469 --> 00:08:31,039

vehicle and all around the island at the

192

00:08:33,589 --> 00:08:32,479

panhandle

193

00:08:35,430 --> 00:08:33,599

um

194

00:08:38,550 --> 00:08:35,440

this chap here you can recognize i think

195

00:08:47,829 --> 00:08:41,750

so

196

00:08:50,710 --> 00:08:47,839

i'm about to tell you

197

00:08:53,190 --> 00:08:50,720

so he was up on duty

198

00:08:55,030 --> 00:08:53,200

they just had a stint of about three

199

00:08:57,110 --> 00:08:55,040

weeks as i remember

200

00:08:59,670 --> 00:08:57,120

with the cameras ready to photograph the

201

00:09:01,910 --> 00:08:59,680

radar screens when required

202

00:09:03,910 --> 00:09:01,920

at the same time we were

203

00:09:05,509 --> 00:09:03,920

radar folk were developing and playing

204

00:09:08,470 --> 00:09:05,519

around with a new

205

00:09:11,030 --> 00:09:08,480

secret over the horizon radar looking

206

00:09:14,389 --> 00:09:11,040

across turkey towards russia

207

00:09:16,710 --> 00:09:14,399

you know to detect any incoming soviet

208

00:09:19,990 --> 00:09:16,720

uh threat

209

00:09:23,030 --> 00:09:20,000

so barry heard this well the date was um

210

00:09:24,310 --> 00:09:23,040

18th of august i'm sorry it wasn't the

211

00:09:27,430 --> 00:09:24,320

18th it was

212

00:09:30,310 --> 00:09:27,440

about later august 1958 and you heard

213

00:09:31,829 --> 00:09:30,320

all this commotion in the radar room

214

00:09:33,670 --> 00:09:31,839

assuming he was going to be required he

215

00:09:34,710 --> 00:09:33,680

gathered his camera up and tripod and

216

00:09:36,230 --> 00:09:34,720

went in

217

00:09:37,509 --> 00:09:36,240

and was listening to the air traffic

218

00:09:41,509 --> 00:09:37,519

controllers

219

00:09:42,389 --> 00:09:41,519

uh talking to colleagues in other bases

220

00:09:43,509 --> 00:09:42,399

like

221

00:09:46,310 --> 00:09:43,519

malta

222

00:09:48,790 --> 00:09:46,320

and libya

223

00:09:51,430 --> 00:09:48,800

and one of the places was el adam which

224

00:09:53,430 --> 00:09:51,440

is 16 miles from to brook

225

00:09:56,470 --> 00:09:53,440

so this object

226

00:09:58,550 --> 00:09:56,480

came up um

227

00:10:00,790 --> 00:09:58,560

sorry i keep pressing the wrong thing

228

00:10:02,870 --> 00:10:00,800

came up from egypt

229

00:10:05,750 --> 00:10:02,880

up the med here

230

00:10:07,190 --> 00:10:05,760

so a lot of them's here

231

00:10:09,990 --> 00:10:07,200

malted up here

232

00:10:11,030 --> 00:10:10,000

so it's amazing that the radars they had

233

00:10:13,030 --> 00:10:11,040

could pick

234

00:10:14,389 --> 00:10:13,040

this thing up even

235

00:10:16,150 --> 00:10:14,399

malta and

236

00:10:18,790 --> 00:10:16,160

libya

237

00:10:20,630 --> 00:10:18,800

anyway it was um the radio operators

238

00:10:23,269 --> 00:10:20,640

barry said we were talking to each other

239

00:10:25,670 --> 00:10:23,279

and tracking and monitoring the object

240

00:10:27,829 --> 00:10:25,680

and it was doing as it came up off the

241

00:10:30,230 --> 00:10:27,839

west coast of cyprus it was like 8 000

242

00:10:32,470 --> 00:10:30,240

miles an hour

243

00:10:34,550 --> 00:10:32,480

it's very difficult for them to size a

244

00:10:36,150 --> 00:10:34,560

target

245

00:10:39,670 --> 00:10:36,160

but they could certainly check the

246

00:10:42,310 --> 00:10:39,680

altitude and speeds

247

00:10:44,310 --> 00:10:42,320

anyway it did a sharp

248

00:10:46,550 --> 00:10:44,320

90 degree turn

249

00:10:48,389 --> 00:10:46,560

without dropping speed towards the west

250

00:10:51,829 --> 00:10:48,399

coast of cyprus

251
00:10:52,710 --> 00:10:51,839
and uh it was at 38 000 feet

252
00:10:54,790 --> 00:10:52,720
um

253
00:10:57,509 --> 00:10:54,800
and it was decided to scramble

254
00:11:00,150 --> 00:10:57,519
to hunter jets

255
00:11:02,230 --> 00:11:00,160
from

256
00:11:04,550 --> 00:11:02,240
headquarters at nicosia

257
00:11:06,230 --> 00:11:04,560
these are typical i think they have six

258
00:11:08,790 --> 00:11:06,240
hunters

259
00:11:10,230 --> 00:11:08,800
and as they climbed out the object

260
00:11:10,949 --> 00:11:10,240
seemed to know

261
00:11:13,190 --> 00:11:10,959
that

262
00:11:15,590 --> 00:11:13,200
military jets were approaching and it

263
00:11:17,350 --> 00:11:15,600

stopped dead you know it was from a

264

00:11:20,710 --> 00:11:17,360

massive speed

265

00:11:23,110 --> 00:11:20,720

and then from 38 000 feet it jumped to

266

00:11:24,630 --> 00:11:23,120

60 000 just like that

267

00:11:27,269 --> 00:11:24,640

quick as that

268

00:11:28,870 --> 00:11:27,279

which was remarkable so the hunters

269

00:11:30,069 --> 00:11:28,880

couldn't get to the altitude anyway

270

00:11:33,670 --> 00:11:30,079

those days

271

00:11:33,680 --> 00:11:36,069

um

272

00:11:39,750 --> 00:11:37,829

this was like six o'clock in the morning

273

00:11:42,790 --> 00:11:39,760

this took place

274

00:11:44,310 --> 00:11:42,800

and barry said that by eight o'clock

275

00:11:47,190 --> 00:11:44,320

the wing commander

276

00:11:49,030 --> 00:11:47,200

ranked he was quite senior had driven up

277

00:11:51,430 --> 00:11:49,040

the tortuous rose

278

00:11:53,110 --> 00:11:51,440

from nicosia headquarters which probably

279

00:11:54,470 --> 00:11:53,120

took him two hours

280

00:11:56,389 --> 00:11:54,480

and got there

281

00:11:58,470 --> 00:11:56,399

and lined everyone up

282

00:12:00,230 --> 00:11:58,480

including barry and there was perhaps a

283

00:12:02,470 --> 00:12:00,240

dozen chaps there

284

00:12:04,150 --> 00:12:02,480

and said well you know you've all signed

285

00:12:05,509 --> 00:12:04,160

official secrets that you don't talk

286

00:12:09,509 --> 00:12:05,519

about this

287

00:12:11,190 --> 00:12:09,519

sometime later because we got a few of

288

00:12:13,910 --> 00:12:11,200

our my friends and colleagues from

289

00:12:17,269 --> 00:12:13,920

cyprus were kept in touch after we were

290

00:12:18,310 --> 00:12:17,279

returned from to the uk

291

00:12:21,030 --> 00:12:18,320

so why

292

00:12:23,910 --> 00:12:21,040

barry broke his his oath

293

00:12:26,230 --> 00:12:23,920

knowing my interests so this sort of

294

00:12:27,990 --> 00:12:26,240

really sparked me off

295

00:12:29,350 --> 00:12:28,000

because here was some solid military

296

00:12:30,470 --> 00:12:29,360

evidence

297

00:12:33,190 --> 00:12:30,480

of uh

298

00:12:35,269 --> 00:12:33,200

contact with et's

299

00:12:37,350 --> 00:12:35,279

so

300

00:12:39,590 --> 00:12:37,360

that was just a picture of yeah that's

301
00:12:42,790 --> 00:12:39,600
the thing that we all had to sign

302
00:12:44,470 --> 00:12:42,800
although this is an update version of 89

303
00:12:45,670 --> 00:12:44,480
but just so i should have had that on

304
00:12:49,670 --> 00:12:45,680
the screen when i was talking to my

305
00:12:53,509 --> 00:12:51,190
right

306
00:12:56,550 --> 00:12:53,519
now at the same time

307
00:12:58,470 --> 00:12:56,560
this was 18th of august

308
00:13:00,710 --> 00:12:58,480
in 1958

309
00:13:02,470 --> 00:13:00,720
this case became

310
00:13:03,829 --> 00:13:02,480
very significant to me

311
00:13:05,110 --> 00:13:03,839
because it was around the same time it

312
00:13:07,110 --> 00:13:05,120
could have been the same day even i

313
00:13:13,509 --> 00:13:07,120

don't know

314

00:13:16,949 --> 00:13:15,590

38 squadron

315

00:13:21,190 --> 00:13:16,959

and

316

00:13:23,030 --> 00:13:21,200

the pilot it involves a scroll leader

317

00:13:24,710 --> 00:13:23,040

and he was in charge of flying in a

318

00:13:27,750 --> 00:13:24,720

shackleton

319

00:13:29,509 --> 00:13:27,760

uh mr mark ii

320

00:13:32,829 --> 00:13:29,519

and their job was to

321

00:13:36,150 --> 00:13:32,839

uh fly down to cyprus down the med and

322

00:13:37,829 --> 00:13:36,160

then use a cherry as a base and then go

323

00:13:42,470 --> 00:13:37,839

around

324

00:13:44,949 --> 00:13:42,480

cyprus looking for green gunboats

325

00:13:49,030 --> 00:13:44,959

bringing arms in to supply a yoke of

326

00:13:51,190 --> 00:13:49,040

terrorists so that was their job

327

00:13:54,150 --> 00:13:51,200

yeah and this is a picture i took on

328

00:13:55,990 --> 00:13:54,160

legends street a photographer's shop

329

00:13:57,189 --> 00:13:56,000

and you've got oh i keep pressing the

330

00:13:59,750 --> 00:13:57,199

wrong thing

331

00:14:02,629 --> 00:13:59,760

you've got general grievous there

332

00:14:03,750 --> 00:14:02,639

marcarius and these guys are all

333

00:14:06,389 --> 00:14:03,760

obviously

334

00:14:07,430 --> 00:14:06,399

local probably heroes to them a yoga

335

00:14:08,470 --> 00:14:07,440

terrorist

336

00:14:10,550 --> 00:14:08,480

and that

337

00:14:12,310 --> 00:14:10,560

that was the main display in the

338

00:14:13,910 --> 00:14:12,320

photographer's window which i thought

339

00:14:17,829 --> 00:14:13,920

was interesting

340

00:14:17,839 --> 00:14:22,150

so all night this particular evening

341

00:14:27,110 --> 00:14:24,870

scrum leader gordon burgess's name

342

00:14:29,030 --> 00:14:27,120

he retired as a

343

00:14:32,389 --> 00:14:29,040

group captain

344

00:14:34,150 --> 00:14:32,399

uh and he got the cbe um

345

00:14:37,110 --> 00:14:34,160

worked with sir frank whittle

346

00:14:40,230 --> 00:14:37,120

developing the jets he was commissioned

347

00:14:41,990 --> 00:14:40,240

from cronwell in 1940

348

00:14:42,949 --> 00:14:42,000

it went through the war

349

00:14:44,870 --> 00:14:42,959

um

350

00:14:48,069 --> 00:14:44,880

did all sorts of uh

351
00:14:49,189 --> 00:14:48,079
work with embassies he was in washington

352
00:14:51,590 --> 00:14:49,199
uh

353
00:14:53,030 --> 00:14:51,600
he was told to entertain a russian air

354
00:14:55,269 --> 00:14:53,040
force general

355
00:14:56,150 --> 00:14:55,279
uh in london

356
00:14:58,629 --> 00:14:56,160
you know

357
00:15:01,030 --> 00:14:58,639
very impeccable mixed career

358
00:15:03,670 --> 00:15:01,040
so a man of high integrity

359
00:15:06,150 --> 00:15:03,680
and he was giving a talk

360
00:15:09,910 --> 00:15:06,160
uh i just came about to a group of

361
00:15:12,790 --> 00:15:11,430
staffordshire

362
00:15:14,629 --> 00:15:12,800
for i think i think there were a

363
00:15:16,710 --> 00:15:14,639

scientific group or something

364

00:15:19,430 --> 00:15:16,720

and one of the persons in the audience

365

00:15:20,790 --> 00:15:19,440

ran the staffordshire ufo group called

366

00:15:22,790 --> 00:15:20,800

graham allen

367

00:15:25,350 --> 00:15:22,800

and he asked him would he give the talk

368

00:15:27,430 --> 00:15:25,360

again as you focus which he did but he

369

00:15:29,990 --> 00:15:27,440

didn't set out to talk about the ufo

370

00:15:32,230 --> 00:15:30,000

experience i'm about to describe

371

00:15:34,470 --> 00:15:32,240

he he was talking about his raf career

372

00:15:37,030 --> 00:15:34,480

and he just said all to hell with it i'm

373

00:15:40,710 --> 00:15:37,040

80 odd now i'm going to tell you

374

00:15:43,509 --> 00:15:40,720

and i'll meet you now i'm telling you so

375

00:15:45,829 --> 00:15:43,519

so they were um

376

00:15:47,509 --> 00:15:45,839

he went they went to pick up all the

377

00:15:49,350 --> 00:15:47,519

ground crew

378

00:15:50,949 --> 00:15:49,360

and they were flying back

379

00:15:52,389 --> 00:15:50,959

and they got to about here just off

380

00:15:54,790 --> 00:15:52,399

crete

381

00:15:56,069 --> 00:15:54,800

sort of two three in the morning

382

00:15:59,670 --> 00:15:56,079

and uh

383

00:16:02,710 --> 00:15:59,680

so we had 17 people aboard his airplane

384

00:16:05,670 --> 00:16:02,720

and this chap on one of the observers or

385

00:16:06,710 --> 00:16:05,680

whatever said uh captain we've got a

386

00:16:09,269 --> 00:16:06,720

uh

387

00:16:10,870 --> 00:16:09,279

crafts that are left off our poor pal

388

00:16:12,310 --> 00:16:10,880

showing a red light

389

00:16:13,910 --> 00:16:12,320

so they all said well that's couldn't be

390

00:16:16,629 --> 00:16:13,920

an aircraft because if it was on the

391

00:16:18,949 --> 00:16:16,639

port that's their starboard wing

392

00:16:19,829 --> 00:16:18,959

so it should be green

393

00:16:21,749 --> 00:16:19,839

um

394

00:16:23,430 --> 00:16:21,759

anyway it was it was following them and

395

00:16:25,910 --> 00:16:23,440

tracking them maintaining their height

396

00:16:28,790 --> 00:16:25,920

and altitude which was only about 2000

397

00:16:28,800 --> 00:16:32,949

and uh

398

00:16:36,629 --> 00:16:35,110

also i was just a picture of vacation

399

00:16:38,550 --> 00:16:36,639

took when he was down there to show how

400

00:16:40,629 --> 00:16:38,560

he's set off from

401
00:16:42,710 --> 00:16:40,639
and this is a

402
00:16:45,030 --> 00:16:42,720
shackleton which is used to be on eight

403
00:16:47,110 --> 00:16:45,040
squadrons lossy mouth which is

404
00:16:51,030 --> 00:16:47,120
the coventry air museum it's the same

405
00:16:55,670 --> 00:16:52,629
sorry i missed that slide which is the

406
00:16:58,389 --> 00:16:55,680
close-up showing where aladdin was

407
00:17:00,550 --> 00:16:58,399
now what he did he got

408
00:17:02,230 --> 00:17:00,560
he couldn't see the the craft very well

409
00:17:04,789 --> 00:17:02,240
from the because the engines and the

410
00:17:05,829 --> 00:17:04,799
wing from the pilot seat anyway he got

411
00:17:08,230 --> 00:17:05,839
everybody

412
00:17:10,150 --> 00:17:08,240
one at a time to climb up

413
00:17:13,189 --> 00:17:10,160

to the bubble the observation bubble on

414

00:17:16,870 --> 00:17:13,199

the top because he wanted 17 good

415

00:17:18,949 --> 00:17:16,880

witnesses to see what they were seeing

416

00:17:20,949 --> 00:17:18,959

and then he did a very clever bit of

417

00:17:23,829 --> 00:17:20,959

flying with the old shack which was the

418

00:17:25,829 --> 00:17:23,839

development of the lancaster bomber

419

00:17:27,909 --> 00:17:25,839

and he actually

420

00:17:29,669 --> 00:17:27,919

dived it

421

00:17:32,390 --> 00:17:29,679

and then pulled the stick back

422

00:17:35,029 --> 00:17:32,400

and sort of upwards and it

423

00:17:38,710 --> 00:17:35,039

dropped speed rapidly and that meant he

424

00:17:41,190 --> 00:17:38,720

got behind the ufo

425

00:17:43,590 --> 00:17:41,200

for a short time and he realized it was

426

00:17:46,710 --> 00:17:43,600

a cylinder shape it was estimated being

427

00:17:48,230 --> 00:17:46,720

60 to 70 feet long damage there they

428

00:17:51,270 --> 00:17:48,240

were a bit vague about and they had this

429

00:17:54,789 --> 00:17:51,280

one red light at the front

430

00:17:57,110 --> 00:17:54,799

so having got behind the the tubular

431

00:17:59,669 --> 00:17:57,120

cylindrical ufo

432

00:18:01,190 --> 00:17:59,679

it quickly readjusted itself back to the

433

00:18:02,070 --> 00:18:01,200

port wind

434

00:18:04,630 --> 00:18:02,080

and

435

00:18:05,909 --> 00:18:04,640

so they sent certain coding radio

436

00:18:08,230 --> 00:18:05,919

signals

437

00:18:09,669 --> 00:18:08,240

on the nato network to

438

00:18:11,750 --> 00:18:09,679

luca

439

00:18:15,190 --> 00:18:11,760

and was decided

440

00:18:18,310 --> 00:18:15,200

to scramble some aircraft and there were

441

00:18:20,870 --> 00:18:18,320

these uh night inceptives called jeff

442

00:18:22,710 --> 00:18:20,880

lost the travelings i remember them

443

00:18:23,830 --> 00:18:22,720

weren't too successful they tended to go

444

00:18:25,590 --> 00:18:23,840

on fire when they were starting the

445

00:18:28,470 --> 00:18:25,600

engines up

446

00:18:31,190 --> 00:18:28,480

anyway they set off

447

00:18:33,190 --> 00:18:31,200

and they were they were 30 000 feet

448

00:18:35,830 --> 00:18:33,200

and when they got a short distance from

449

00:18:37,909 --> 00:18:35,840

where they could see visually

450

00:18:41,590 --> 00:18:37,919

the shackleton they confirmed there was

451
00:18:43,270 --> 00:18:41,600
another object alongside the aircraft

452
00:18:45,270 --> 00:18:43,280
so they sort of dive down from thirty

453
00:18:46,470 --> 00:18:45,280
thousand in the meantime

454
00:18:48,549 --> 00:18:46,480
gordon

455
00:18:51,350 --> 00:18:48,559
burgess raised their aircraft to about

456
00:18:54,710 --> 00:18:51,360
ten thousand feet

457
00:18:56,710 --> 00:18:54,720
and shortly after the javelins appeared

458
00:18:57,669 --> 00:18:56,720
the thing just shot away

459
00:18:59,430 --> 00:18:57,679
gone

460
00:19:01,350 --> 00:18:59,440
and also off radar

461
00:19:04,230 --> 00:19:01,360
and when they got back to base they all

462
00:19:05,590 --> 00:19:04,240
each of them had to write out a report

463
00:19:08,830 --> 00:19:05,600

sort of interview

464

00:19:11,990 --> 00:19:08,840

which he said was passed off to london

465

00:19:13,669 --> 00:19:12,000

so i'm not suggesting necessarily that

466

00:19:17,029 --> 00:19:13,679

the object that they saw was the same

467

00:19:19,590 --> 00:19:17,039

thing that was on radar and barry porter

468

00:19:21,750 --> 00:19:19,600

that was up at trudus

469

00:19:22,950 --> 00:19:21,760

because i think

470

00:19:25,110 --> 00:19:22,960

i don't know

471

00:19:27,830 --> 00:19:25,120

cylinder would be a poorer reflector

472

00:19:29,830 --> 00:19:27,840

than say a triangle or a disc

473

00:19:31,669 --> 00:19:29,840

but who knows it was roughly the same

474

00:19:33,430 --> 00:19:31,679

time which i thought was interesting

475

00:19:36,070 --> 00:19:33,440

that's why i've included this

476

00:19:37,990 --> 00:19:36,080

in my chart today

477

00:19:41,029 --> 00:19:38,000

um

478

00:19:41,909 --> 00:19:41,039

there might be things i miss but uh

479

00:19:44,390 --> 00:19:41,919

anyway

480

00:19:45,669 --> 00:19:44,400

from i'm just quickly going through

481

00:19:47,510 --> 00:19:45,679

some things that

482

00:19:50,870 --> 00:19:47,520

steve said about me i didn't know you

483

00:19:55,350 --> 00:19:50,880

got a lot of information um

484

00:19:59,750 --> 00:19:57,669

sorry 65 i'm thinking about

485

00:20:01,350 --> 00:19:59,760

uh i went to british aerospace in

486

00:20:03,590 --> 00:20:01,360

manchester

487

00:20:05,029 --> 00:20:03,600

uh and

488

00:20:06,870 --> 00:20:05,039

they were interested in my ndt

489

00:20:07,830 --> 00:20:06,880

experience not supposed to photographic

490

00:20:08,630 --> 00:20:07,840

side

491

00:20:10,549 --> 00:20:08,640

and

492

00:20:12,630 --> 00:20:10,559

things went on from there

493

00:20:14,710 --> 00:20:12,640

and that's just a picture taken by the

494

00:20:16,070 --> 00:20:14,720

company photographers in our x-ray

495

00:20:18,549 --> 00:20:16,080

exposure room

496

00:20:21,190 --> 00:20:18,559

my colleagues x-raying a victor in the

497

00:20:23,590 --> 00:20:21,200

flap because we converted the victor

498

00:20:26,070 --> 00:20:23,600

bombers to k2 tankers

499

00:20:27,190 --> 00:20:26,080

prior to the falklands war

500

00:20:29,590 --> 00:20:27,200

and

501

00:20:33,909 --> 00:20:31,430

picture of the radiograph of the ribs

502

00:20:35,750 --> 00:20:33,919

inside which used to crack up partly due

503

00:20:37,750 --> 00:20:35,760

to acoustic fatigue

504

00:20:39,590 --> 00:20:37,760

from the engines

505

00:20:45,029 --> 00:20:39,600

so

506

00:20:49,190 --> 00:20:46,390

and then you're measuring the distance

507

00:20:51,430 --> 00:20:49,200

to get the exposure time and mike is

508

00:20:52,390 --> 00:20:51,440

passing the envelopes of x-ray film

509

00:20:55,350 --> 00:20:52,400

behind it

510

00:20:59,270 --> 00:20:56,950

this is a new review i took from a

511

00:21:01,590 --> 00:20:59,280

glider one of the guys in our lab was a

512

00:21:03,590 --> 00:21:01,600

guardian gladi instructor at woodford

513

00:21:05,750 --> 00:21:03,600

this is from a power glider because i

514

00:21:07,750 --> 00:21:05,760

wanted to get certain pictures

515

00:21:09,350 --> 00:21:07,760

uh for something to do with the end of

516

00:21:10,549 --> 00:21:09,360

the vulcans

517

00:21:12,230 --> 00:21:10,559

and uh

518

00:21:14,230 --> 00:21:12,240

approaching their own way so this is a

519

00:21:18,789 --> 00:21:14,240

very historic airfield

520

00:21:21,270 --> 00:21:18,799

of av row elliott verdenroe from 1920s

521

00:21:24,149 --> 00:21:21,280

and uh

522

00:21:27,190 --> 00:21:24,159

many aircraft were there i got this

523

00:21:28,870 --> 00:21:27,200

picture because in 1986

524

00:21:31,830 --> 00:21:28,880

the air force decided to retire the

525

00:21:34,310 --> 00:21:31,840

vulcan fleet and we built 136 all

526
00:21:36,149 --> 00:21:34,320
together a different march mark ones and

527
00:21:37,270 --> 00:21:36,159
one a's and two

528
00:21:39,830 --> 00:21:37,280
and uh

529
00:21:41,350 --> 00:21:39,840
they paid a tribute to the

530
00:21:42,870 --> 00:21:41,360
airfield the

531
00:21:46,230 --> 00:21:42,880
place of their birth

532
00:21:49,110 --> 00:21:46,240
and uh did a four

533
00:21:50,870 --> 00:21:49,120
uh squadron flyover for a formative i

534
00:21:53,830 --> 00:21:50,880
think it was very unusual to see four

535
00:21:56,149 --> 00:21:53,840
vulcans together and this one down here

536
00:21:58,870 --> 00:21:56,159
which is xm603 is our

537
00:22:01,270 --> 00:21:58,880
gate guard so

538
00:22:03,510 --> 00:22:01,280

we now have a very good

539

00:22:04,710 --> 00:22:03,520

avro historical

540

00:22:06,310 --> 00:22:04,720

museum

541

00:22:08,310 --> 00:22:06,320

which is built in the mobilesale fire

542

00:22:09,190 --> 00:22:08,320

station which opened about two years ago

543

00:22:12,630 --> 00:22:09,200

now

544

00:22:14,950 --> 00:22:12,640

we've got 603 it's the side of it and

545

00:22:17,029 --> 00:22:14,960

inside it developed the main

546

00:22:19,430 --> 00:22:17,039

display area

547

00:22:21,350 --> 00:22:19,440

there's a timeline from all the

548

00:22:24,230 --> 00:22:21,360

designs and products that actually were

549

00:22:26,789 --> 00:22:24,240

built and flown as you work round to

550

00:22:28,549 --> 00:22:26,799

this side

551
00:22:29,750 --> 00:22:28,559
we've got the lancaster in the middle

552
00:22:32,070 --> 00:22:29,760
and so on

553
00:22:34,230 --> 00:22:32,080
with the type model number and design

554
00:22:35,350 --> 00:22:34,240
number and the years

555
00:22:38,230 --> 00:22:35,360
and then

556
00:22:40,149 --> 00:22:38,240
right around to the nimrods at 2011 when

557
00:22:42,230 --> 00:22:40,159
they decided to close the factory and

558
00:22:44,470 --> 00:22:42,240
the mod bless them decided to scrap the

559
00:22:45,909 --> 00:22:44,480
nimrod and cut up brand new error plays

560
00:22:48,630 --> 00:22:45,919
we just made

561
00:22:50,789 --> 00:22:48,640
and buy american a wax which were all

562
00:22:52,230 --> 00:22:50,799
boring 707s

563
00:22:54,310 --> 00:22:52,240

ridiculous

564

00:22:55,510 --> 00:22:54,320

thing and all because the marconi who

565

00:22:57,990 --> 00:22:55,520

were doing the radar couldn't

566

00:23:00,710 --> 00:22:58,000

successfully produce the radar to do the

567

00:23:02,470 --> 00:23:00,720

business so they got a bit

568

00:23:05,110 --> 00:23:02,480

annoyed and pulled the plugs on it that

569

00:23:07,270 --> 00:23:05,120

was the end of woodford

570

00:23:09,990 --> 00:23:07,280

and 603 is parked outside just been

571

00:23:11,669 --> 00:23:10,000

recently painted up and very smart if

572

00:23:13,669 --> 00:23:11,679

you're ever in the manchester area it's

573

00:23:16,390 --> 00:23:13,679

well worth the visit so open friday

574

00:23:17,909 --> 00:23:16,400

saturday and sunday to the public

575

00:23:21,669 --> 00:23:17,919

and then i

576
00:23:21,679 --> 00:23:24,149
and

577
00:23:28,070 --> 00:23:25,590
decided i would become a ufo

578
00:23:30,310 --> 00:23:28,080
investigator in 93

579
00:23:32,230 --> 00:23:30,320
and this is tony dodd

580
00:23:34,470 --> 00:23:32,240
i mean lots of you know

581
00:23:35,430 --> 00:23:34,480
and he was he'd sign his book he wrote a

582
00:23:37,270 --> 00:23:35,440
book

583
00:23:39,830 --> 00:23:37,280
called alien investigators unfortunately

584
00:23:42,310 --> 00:23:39,840
not many were published i don't know how

585
00:23:43,830 --> 00:23:42,320
easy it is to get one but i'm still got

586
00:23:47,669 --> 00:23:43,840
them but it's a

587
00:23:52,390 --> 00:23:50,390
and then i got involved in doing reports

588
00:23:54,310 --> 00:23:52,400

and

589

00:23:55,430 --> 00:23:54,320
articles for graham burton's ufo

590

00:23:57,110 --> 00:23:55,440
magazine

591

00:24:00,310 --> 00:23:57,120
latterly obviously i've done all the

592

00:24:02,549 --> 00:24:01,430
and then

593

00:24:05,029 --> 00:24:02,559
this chap

594

00:24:07,750 --> 00:24:05,039
who i met in manchester studio funnily

595

00:24:11,750 --> 00:24:07,760
enough to do with the ray santilli alien

596

00:24:16,549 --> 00:24:13,510
the film had just gone out on the

597

00:24:18,070 --> 00:24:16,559
documentary on channel 5

598

00:24:19,830 --> 00:24:18,080
along with all the stuff about cattle

599

00:24:21,190 --> 00:24:19,840
mutilations which was a very good

600

00:24:23,830 --> 00:24:21,200
documentary

601
00:24:26,070 --> 00:24:23,840
and the producer withheld it until ray

602
00:24:29,909 --> 00:24:26,080
santilli said you can all now use the

603
00:24:31,430 --> 00:24:29,919
footage you bought off me at great cost

604
00:24:33,990 --> 00:24:31,440
and uh

605
00:24:36,070 --> 00:24:34,000
tony fremont and a colleague

606
00:24:37,909 --> 00:24:36,080
were invited by the bbc

607
00:24:40,470 --> 00:24:37,919
to view the footage and then come into

608
00:24:41,350 --> 00:24:40,480
the breakfast studio on friday morning

609
00:24:44,470 --> 00:24:41,360
uh

610
00:24:47,190 --> 00:24:44,480
bbc radio manchester

611
00:24:49,269 --> 00:24:47,200
uh and uh

612
00:24:51,590 --> 00:24:49,279
i was a great lucky meat so i thank you

613
00:24:53,029 --> 00:24:51,600

to ray santelli and who had never met

614

00:24:54,950 --> 00:24:53,039

tony fremont

615

00:24:56,710 --> 00:24:54,960

but for that

616

00:24:58,390 --> 00:24:56,720

uh episode

617

00:24:59,669 --> 00:24:58,400

and uh

618

00:25:03,750 --> 00:24:59,679

the

619

00:25:05,990 --> 00:25:03,760

thought it was a hoax i mean i say we

620

00:25:07,669 --> 00:25:06,000

quest international and great personal

621

00:25:09,669 --> 00:25:07,679

graham couldn't make the studio because

622

00:25:11,669 --> 00:25:09,679

he had some other engagement and he was

623

00:25:13,669 --> 00:25:11,679

away from 40 odd miles in leeds and now

624

00:25:15,750 --> 00:25:13,679

only 12 miles down the road from the

625

00:25:17,269 --> 00:25:15,760

studio so i said would i mind

626
00:25:19,590 --> 00:25:17,279
standing in to

627
00:25:20,549 --> 00:25:19,600
give the quest view

628
00:25:22,149 --> 00:25:20,559
on this

629
00:25:24,630 --> 00:25:22,159
but they hadn't told the two lady

630
00:25:25,350 --> 00:25:24,640
presenters the producers that i

631
00:25:26,549 --> 00:25:25,360
or

632
00:25:29,510 --> 00:25:26,559
ufology

633
00:25:31,269 --> 00:25:29,520
were dubious about it they thought i was

634
00:25:33,190 --> 00:25:31,279
going to stand up and say eureka here's

635
00:25:34,870 --> 00:25:33,200
a smoking gun sort of thing

636
00:25:36,870 --> 00:25:34,880
and i didn't know who this guy was sat

637
00:25:40,149 --> 00:25:36,880
opposite me on this round table

638
00:25:43,430 --> 00:25:40,159

turned out to be professor tony freemont

639

00:25:44,870 --> 00:25:43,440

who was a pathologist at manchester uni

640

00:25:47,750 --> 00:25:44,880

and he does a lot of

641

00:25:49,110 --> 00:25:47,760

crime investigations you know examining

642

00:25:51,909 --> 00:25:49,120

the

643

00:25:53,029 --> 00:25:51,919

bodies of murder victims so he knows his

644

00:25:54,470 --> 00:25:53,039

stuff

645

00:25:56,070 --> 00:25:54,480

so after the

646

00:25:58,149 --> 00:25:56,080

event

647

00:25:59,750 --> 00:25:58,159

which all felt a bit flat because they

648

00:26:02,310 --> 00:25:59,760

were expecting a ding-dong argument

649

00:26:05,830 --> 00:26:02,320

between in this case me and tony fremont

650

00:26:07,830 --> 00:26:05,840

about the validity of the alien autopsy

651
00:26:10,310 --> 00:26:07,840
anyway as we came out of the studio i

652
00:26:13,029 --> 00:26:10,320
said to him exchange notes who we who he

653
00:26:15,190 --> 00:26:13,039
was and who i was and i said i was a bit

654
00:26:17,430 --> 00:26:15,200
interested in involved in trying to find

655
00:26:18,710 --> 00:26:17,440
out more about animals mutualization

656
00:26:21,669 --> 00:26:18,720
would he help

657
00:26:22,710 --> 00:26:21,679
and he said yes i would i'm interested

658
00:26:26,950 --> 00:26:22,720
in that

659
00:26:29,909 --> 00:26:27,909
for cow

660
00:26:33,190 --> 00:26:29,919
mutilation in utah

661
00:26:36,549 --> 00:26:33,200
with a very i have a proper side of this

662
00:26:38,390 --> 00:26:36,559
of an eye of the cow within the

663
00:26:40,549 --> 00:26:38,400

optical or orbit

664

00:26:42,710 --> 00:26:40,559

and the skin sort of machine chip hand

665

00:26:44,149 --> 00:26:42,720

out so he was reading that i think so i

666

00:26:47,750 --> 00:26:44,159

took his picture and this was at home

667

00:26:49,590 --> 00:26:47,760

you know set up a home in timberly

668

00:26:51,990 --> 00:26:49,600

so his marvelous chap

669

00:26:54,710 --> 00:26:52,000

and eventually he came to my house tony

670

00:26:56,310 --> 00:26:54,720

dodd came down from grassington with a

671

00:26:58,470 --> 00:26:56,320

load of pictures of animals and some of

672

00:26:59,990 --> 00:26:58,480

what linda milton howe's book one of her

673

00:27:03,750 --> 00:27:00,000

first books

674

00:27:09,269 --> 00:27:06,149

he was he was interested and what really

675

00:27:11,430 --> 00:27:09,279

set him off wanting to assist me

676
00:27:14,149 --> 00:27:11,440
because tony dodd then opened a brown

677
00:27:16,390 --> 00:27:14,159
envelope with the five or six pictures

678
00:27:19,750 --> 00:27:16,400
of the human mutilation from brazil in

679
00:27:22,149 --> 00:27:19,760
1988 which i'm sure you're all aware of

680
00:27:23,590 --> 00:27:22,159
and being a pathologist that really

681
00:27:24,390 --> 00:27:23,600
fired him up

682
00:27:26,230 --> 00:27:24,400
so

683
00:27:28,710 --> 00:27:26,240
okay

684
00:27:33,110 --> 00:27:31,269
three years later in 2000

685
00:27:36,230 --> 00:27:33,120
i met up with phil hoyle who lives in

686
00:27:38,310 --> 00:27:36,240
strawsbury who's very much into ufos and

687
00:27:39,269 --> 00:27:38,320
i think he's been an abductee for many

688
00:27:41,350 --> 00:27:39,279

years

689

00:27:43,110 --> 00:27:41,360

and ran his own little group and and

690

00:27:44,470 --> 00:27:43,120

support group from people who have been

691

00:27:47,110 --> 00:27:44,480

abducted

692

00:27:49,110 --> 00:27:47,120

and he was interested in the animals

693

00:27:51,029 --> 00:27:49,120

so we formed a group

694

00:27:52,630 --> 00:27:51,039

called the animal pathology field unit

695

00:27:54,549 --> 00:27:52,640

which was phil's idea because that was

696

00:27:56,549 --> 00:27:54,559

this title we've abandoned about various

697

00:27:58,549 --> 00:27:56,559

things inside that was good

698

00:27:59,990 --> 00:27:58,559

and we did we thought it was legit to

699

00:28:02,950 --> 00:28:00,000

say pathology because we had a

700

00:28:05,830 --> 00:28:02,960

professional pathology on board

701
00:28:07,750 --> 00:28:05,840
so since incidentally he has been warned

702
00:28:08,549 --> 00:28:07,760
off as we expected

703
00:28:10,230 --> 00:28:08,559
and

704
00:28:12,149 --> 00:28:10,240
was told i think to

705
00:28:14,230 --> 00:28:12,159
back off and not assist us anymore which

706
00:28:15,350 --> 00:28:14,240
is another clue of why you want to cover

707
00:28:18,070 --> 00:28:15,360
this up

708
00:28:20,389 --> 00:28:18,080
so even though he was a senior professor

709
00:28:22,870 --> 00:28:20,399
at manchester uni and he wasn't worried

710
00:28:24,470 --> 00:28:22,880
about his peers

711
00:28:26,549 --> 00:28:24,480
giving him any grief

712
00:28:28,549 --> 00:28:26,559
for what he was doing to help me i mean

713
00:28:29,750 --> 00:28:28,559

i took him very sheep bodies and so on

714

00:28:31,909 --> 00:28:29,760

to look at

715

00:28:32,870 --> 00:28:31,919

using all their formalites of one day

716

00:28:34,230 --> 00:28:32,880

for six

717

00:28:35,350 --> 00:28:34,240

lamb bodies

718

00:28:36,789 --> 00:28:35,360

um

719

00:28:39,909 --> 00:28:36,799

but it was when

720

00:28:41,430 --> 00:28:39,919

professor of pathology in

721

00:28:43,110 --> 00:28:41,440

liverpool

722

00:28:46,230 --> 00:28:43,120

that we went to see for a couple of

723

00:28:48,950 --> 00:28:46,240

hours he was friendly with a defra head

724

00:28:51,110 --> 00:28:48,960

of the labs in barton hall near preston

725

00:28:53,990 --> 00:28:51,120

and he obviously tipped off him and the

726
00:28:56,789 --> 00:28:54,000
next main minute you know tony dodd

727
00:28:59,029 --> 00:28:56,799
fremont gets told to back off

728
00:29:02,549 --> 00:28:59,039
so it just goes on and on

729
00:29:04,149 --> 00:29:02,559
so we did have a website in fact we just

730
00:29:06,789 --> 00:29:04,159
suppose you said it redone with a new

731
00:29:07,590 --> 00:29:06,799
guy to set it up

732
00:29:08,470 --> 00:29:07,600
so

733
00:29:24,630 --> 00:29:08,480
i

734
00:29:26,549 --> 00:29:24,640
near a place called

735
00:29:28,870 --> 00:29:26,559
lidney

736
00:29:30,310 --> 00:29:28,880
uh the 35 sheep

737
00:29:32,149 --> 00:29:30,320
were attacked

738
00:29:34,389 --> 00:29:32,159

and we went down there to look out

739

00:29:37,510 --> 00:29:34,399

before the farmer disposed of them and a

740

00:29:40,070 --> 00:29:37,520

veterinary lady came up to take one of

741

00:29:42,389 --> 00:29:40,080

the bodies or two heads to x-ray because

742

00:29:44,950 --> 00:29:42,399

they thought the police or guns had been

743

00:29:46,549 --> 00:29:44,960

used to kill them but they haven't

744

00:29:48,070 --> 00:29:46,559

so i

745

00:29:50,389 --> 00:29:48,080

messed around with the time for the

746

00:29:52,950 --> 00:29:50,399

title anyway it's because i didn't use

747

00:29:56,870 --> 00:29:54,950

richard hall decided when he wanted his

748

00:29:57,669 --> 00:29:56,880

first documentary he did

749

00:30:00,549 --> 00:29:57,679

on the

750

00:30:02,230 --> 00:30:00,559

subject of ufos was with me about the

751

00:30:03,350 --> 00:30:02,240

animals which really got richard

752

00:30:06,830 --> 00:30:03,360

interested

753

00:30:09,269 --> 00:30:06,840

so we decided to call it silent killers

754

00:30:10,870 --> 00:30:09,279

so so it's what we're very fortunate

755

00:30:13,110 --> 00:30:10,880

really is people aren't riches around

756

00:30:15,590 --> 00:30:13,120

who will do things that mainstream media

757

00:30:18,389 --> 00:30:15,600

won't touch

758

00:30:20,870 --> 00:30:18,399

on all sorts of topics as you know

759

00:30:22,470 --> 00:30:20,880

uh this is him filming the lady who owns

760

00:30:24,470 --> 00:30:22,480

that horse

761

00:30:26,070 --> 00:30:24,480

claire what's her name is

762

00:30:27,430 --> 00:30:26,080

how cross she was

763

00:30:28,710 --> 00:30:27,440

with the authorities and we still

764

00:30:30,950 --> 00:30:28,720

haven't got

765

00:30:33,590 --> 00:30:30,960

the autopsy report

766

00:30:35,510 --> 00:30:33,600

because the rspca you know is an

767

00:30:36,789 --> 00:30:35,520

organization that's voluntary lives on

768

00:30:38,630 --> 00:30:36,799

voluntary

769

00:30:40,310 --> 00:30:38,640

people donating

770

00:30:42,310 --> 00:30:40,320

are blocking

771

00:30:44,149 --> 00:30:42,320

the release and the information on the

772

00:30:46,149 --> 00:30:44,159

post mortem which they claim they paid

773

00:30:49,990 --> 00:30:46,159

for but i believe

774

00:30:51,510 --> 00:30:50,000

the mod or defra sorry probably paid the

775

00:30:52,710 --> 00:30:51,520

rspca

776

00:30:54,389 --> 00:30:52,720

because they're quite expensive

777

00:30:56,470 --> 00:30:54,399

especially they did two horses actually

778

00:30:57,430 --> 00:30:56,480

was two cases so we're talking a lot of

779

00:30:59,190 --> 00:30:57,440

money

780

00:31:02,710 --> 00:30:59,200

and i don't think the public were very

781

00:31:03,750 --> 00:31:02,720

happy or the rspca hierarchy if they

782

00:31:06,710 --> 00:31:03,760

knew that

783

00:31:07,990 --> 00:31:06,720

they'd laid out so much of your money

784

00:31:10,470 --> 00:31:08,000

on

785

00:31:12,389 --> 00:31:10,480

having two horses postmortem which had

786

00:31:13,830 --> 00:31:12,399

been attacked by aliens that wouldn't go

787

00:31:14,789 --> 00:31:13,840

down well would it

788

00:31:20,710 --> 00:31:14,799

so

789

00:31:22,549 --> 00:31:20,720

got dual roles and this chap is an

790

00:31:23,430 --> 00:31:22,559

inspector rank

791

00:31:25,590 --> 00:31:23,440

uh

792

00:31:27,830 --> 00:31:25,600

obviously knew what was what

793

00:31:29,190 --> 00:31:27,840

was making damn sure

794

00:31:31,190 --> 00:31:29,200

that you know

795

00:31:33,909 --> 00:31:31,200

this was wasn't going to leak out the

796

00:31:36,310 --> 00:31:33,919

actual factual information from the pm

797

00:31:38,230 --> 00:31:36,320

so despite claire's

798

00:31:40,149 --> 00:31:38,240

adamant and insistence that oh i'm the

799

00:31:42,149 --> 00:31:40,159

owner i'm going to get one

800

00:31:44,230 --> 00:31:42,159

um he tried to say so i don't think you

801
00:31:47,590 --> 00:31:44,240
will but anyway we still haven't

802
00:31:51,509 --> 00:31:47,600
see where we are two years on some time

803
00:31:53,590 --> 00:31:51,519
so this was a head review of the horse

804
00:31:56,630 --> 00:31:53,600
which is typical of so many same sort of

805
00:31:58,470 --> 00:31:56,640
wounds in the same areas and so on

806
00:31:59,669 --> 00:31:58,480
anyway what

807
00:32:01,990 --> 00:31:59,679
i think

808
00:32:04,549 --> 00:32:02,000
it's my opinion i could be wrong on this

809
00:32:08,149 --> 00:32:04,559
and why all this is top secret it's not

810
00:32:12,830 --> 00:32:08,159
so much the animals it's it's the humans

811
00:32:15,590 --> 00:32:12,840
and this poor lady is only 17

812
00:32:19,269 --> 00:32:15,600
um uh

813
00:32:22,070 --> 00:32:19,279

lisandra hart's benedict name is

814

00:32:23,590 --> 00:32:22,080

from 2009 so we were talking just a few

815

00:32:24,710 --> 00:32:23,600

years ago

816

00:32:25,590 --> 00:32:24,720

um

817

00:32:27,909 --> 00:32:25,600

so

818

00:32:30,149 --> 00:32:27,919

she's got just like the cows and the

819

00:32:31,029 --> 00:32:30,159

wall islands there's trapanning and the

820

00:32:32,710 --> 00:32:31,039

lip

821

00:32:38,070 --> 00:32:32,720

and she's got a wound down here which i

822

00:32:42,470 --> 00:32:40,789

sorry it's a bit upsetting but

823

00:32:43,990 --> 00:32:42,480

and then there's a young man just notes

824

00:32:46,870 --> 00:32:44,000

uh

825

00:32:48,870 --> 00:32:46,880

this jaw cut around the teeth and this

826

00:32:50,470 --> 00:32:48,880

eye socket here

827

00:32:52,149 --> 00:32:50,480

we've got this young man here i don't

828

00:32:53,909 --> 00:32:52,159

know where he's from but feeling his

829

00:32:56,950 --> 00:32:53,919

eastern european

830

00:32:59,590 --> 00:32:56,960

um it's got a similar

831

00:33:01,590 --> 00:32:59,600

jaw cut around there and the eyes

832

00:33:04,070 --> 00:33:01,600

and he's got holes in his arms where

833

00:33:06,070 --> 00:33:04,080

they've taken muscles and so on

834

00:33:07,110 --> 00:33:06,080

and so i've got quite a few of these

835

00:33:09,269 --> 00:33:07,120

images

836

00:33:12,630 --> 00:33:09,279

which richard also has but it's not sort

837

00:33:13,669 --> 00:33:12,640

of we're not sure what to do with them

838

00:33:15,350 --> 00:33:13,679

um

839

00:33:17,909 --> 00:33:15,360

so some of them have come off the dark

840

00:33:19,590 --> 00:33:17,919

web you know that way

841

00:33:21,590 --> 00:33:19,600

um

842

00:33:24,070 --> 00:33:21,600

not by me right i hasten to wear i don't

843

00:33:26,149 --> 00:33:24,080

go into the dark web

844

00:33:28,230 --> 00:33:26,159

anyway and then i got involved the crop

845

00:33:31,350 --> 00:33:28,240

circles a bit before that

846

00:33:33,269 --> 00:33:31,360

because i decided in 97

847

00:33:35,750 --> 00:33:33,279

having spent three years as a researcher

848

00:33:38,549 --> 00:33:35,760

on ufos taking reports and sending stuff

849

00:33:39,190 --> 00:33:38,559

to quest i thought well i could go on to

850

00:33:44,070 --> 00:33:39,200

the

851
00:33:45,590 --> 00:33:44,080
i'm not going to get any more

852
00:33:47,269 --> 00:33:45,600
valid data

853
00:33:49,190 --> 00:33:47,279
people you either believe a person has

854
00:33:52,310 --> 00:33:49,200
seen something or not and they make a

855
00:33:53,590 --> 00:33:52,320
report and it's their opinion even if

856
00:33:56,070 --> 00:33:53,600
it's got an image of someone's what

857
00:33:57,509 --> 00:33:56,080
people say oh it's easy these days with

858
00:33:59,029 --> 00:33:57,519
all the technologies to hook and it

859
00:34:01,590 --> 00:33:59,039
hooks an image

860
00:34:07,590 --> 00:34:04,149
this chap here on the right

861
00:34:10,950 --> 00:34:07,600
i keep doing this sorry

862
00:34:15,270 --> 00:34:12,869
he worked at british aerospace as well

863
00:34:17,349 --> 00:34:15,280

he was a bit of a buffing actually

864

00:34:18,790 --> 00:34:17,359

roy dutton righty dutton

865

00:34:21,109 --> 00:34:18,800

had been into

866

00:34:22,950 --> 00:34:21,119

crop circles in the early days in the

867

00:34:24,869 --> 00:34:22,960

mid 80s

868

00:34:26,629 --> 00:34:24,879

when there were a lot of genuine crop

869

00:34:28,629 --> 00:34:26,639

circles which there were to start with

870

00:34:30,310 --> 00:34:28,639

them all were probably

871

00:34:31,430 --> 00:34:30,320

um

872

00:34:33,669 --> 00:34:31,440

and he

873

00:34:35,190 --> 00:34:33,679

said to me i think you ought to join the

874

00:34:36,069 --> 00:34:35,200

center for crop circle studies which i

875

00:34:38,230 --> 00:34:36,079

did

876

00:34:39,589 --> 00:34:38,240

a few years and uh

877

00:34:42,310 --> 00:34:39,599

it kicked off

878

00:34:44,389 --> 00:34:42,320

so robert on my right we decided i

879

00:34:46,230 --> 00:34:44,399

acquainted him with the crop circles and

880

00:34:48,629 --> 00:34:46,240

with some reluctance because he was very

881

00:34:51,909 --> 00:34:48,639

skeptical about them even then

882

00:34:54,149 --> 00:34:51,919

in 97 or 2000 by then we went down and

883

00:34:55,190 --> 00:34:54,159

spent a lot of time on them

884

00:34:57,589 --> 00:34:55,200

and

885

00:34:58,550 --> 00:34:57,599

david biggs you might be hearing soon at

886

00:35:01,109 --> 00:34:58,560

your group

887

00:35:02,630 --> 00:35:01,119

he's a bit of a wiz with photography and

888

00:35:04,069 --> 00:35:02,640

doing messing about and obviously you

889

00:35:07,349 --> 00:35:04,079

produce this

890

00:35:08,550 --> 00:35:07,359

little diagram picture

891

00:35:10,790 --> 00:35:08,560

we've got

892

00:35:12,390 --> 00:35:10,800

ufo over silvery hill

893

00:35:13,910 --> 00:35:12,400

which is still a big mystery actually

894

00:35:17,030 --> 00:35:13,920

they don't really know who built surreal

895

00:35:19,190 --> 00:35:17,040

and what it was for despite excavations

896

00:35:21,349 --> 00:35:19,200

on two occasions

897

00:35:24,470 --> 00:35:21,359

and now i'm coming to

898

00:35:27,670 --> 00:35:24,480

another job to do with aircraft

899

00:35:32,150 --> 00:35:27,680

and the raf particularly in the mod

900

00:35:37,510 --> 00:35:34,550

had a dog fight with a ufo well not

901
00:35:39,510 --> 00:35:37,520
quite a dog fight the media tend to

902
00:35:41,910 --> 00:35:39,520
put things in a certain way

903
00:35:44,550 --> 00:35:41,920
anyway his name is

904
00:35:46,390 --> 00:35:44,560
milton tourism major he retired as a

905
00:35:48,950 --> 00:35:46,400
major after

906
00:35:51,829 --> 00:35:48,960
25 years i think in the usa

907
00:35:54,230 --> 00:35:51,839
um this came to light to me through a

908
00:35:57,190 --> 00:35:54,240
fellow called harry harris

909
00:35:59,510 --> 00:35:57,200
and harry was quite a keen ufologist

910
00:36:01,430 --> 00:35:59,520
and was keen on abduction stuff

911
00:36:04,150 --> 00:36:01,440
and then had some

912
00:36:05,990 --> 00:36:04,160
doctors who did

913
00:36:07,510 --> 00:36:06,000

hypnotic regression

914

00:36:10,550 --> 00:36:07,520

and harry being a solicitor his

915

00:36:13,270 --> 00:36:10,560

particular forte was conveyancing he was

916

00:36:15,349 --> 00:36:13,280

in london on a top-up course they had to

917

00:36:17,030 --> 00:36:15,359

do to keep their

918

00:36:19,510 --> 00:36:17,040

license up if you like

919

00:36:21,990 --> 00:36:19,520

he went into a steakhouse to eat one

920

00:36:23,829 --> 00:36:22,000

night he was in a queue

921

00:36:26,069 --> 00:36:23,839

with his tray to get served and there

922

00:36:28,069 --> 00:36:26,079

was two american ladies in front of him

923

00:36:31,670 --> 00:36:28,079

i need to make conversation he said oh

924

00:36:35,190 --> 00:36:33,589

and he said well yes we are but my

925

00:36:36,310 --> 00:36:35,200

husband who was actually in the toilet

926
00:36:38,630 --> 00:36:36,320
at the time

927
00:36:41,990 --> 00:36:38,640
and the other husband was also there

928
00:36:44,230 --> 00:36:42,000
uh you know as a pilot and they were

929
00:36:46,069 --> 00:36:44,240
being tomorrow manson for a reunion

930
00:36:47,030 --> 00:36:46,079
which they had i think every other year

931
00:36:49,750 --> 00:36:47,040
or something

932
00:36:51,510 --> 00:36:49,760
so harry being harry as all people

933
00:36:53,510 --> 00:36:51,520
should do if you

934
00:36:55,430 --> 00:36:53,520
get to speak to a pilot say have you

935
00:36:57,510 --> 00:36:55,440
ever seen a ufo

936
00:36:59,109 --> 00:36:57,520
so harry says sir

937
00:37:00,790 --> 00:36:59,119
you know your puzzle is a pilot i mean

938
00:37:01,670 --> 00:37:00,800

this in the ufo she said oh yes i

939

00:37:03,670 --> 00:37:01,680

thought he thought he was ordered to

940

00:37:05,589 --> 00:37:03,680

shoot one down and harry nilly dropped

941

00:37:07,030 --> 00:37:05,599

his tray

942

00:37:08,950 --> 00:37:07,040

and he ended up joining them at the

943

00:37:09,670 --> 00:37:08,960

table to have the meal

944

00:37:11,190 --> 00:37:09,680

and

945

00:37:11,829 --> 00:37:11,200

found out the story

946

00:37:12,630 --> 00:37:11,839

and

947

00:37:14,470 --> 00:37:12,640

then

948

00:37:15,990 --> 00:37:14,480

um

949

00:37:17,109 --> 00:37:16,000

milton

950

00:37:18,150 --> 00:37:17,119

emailed

951
00:37:19,829 --> 00:37:18,160
long

952
00:37:23,030 --> 00:37:19,839
first-hand accounts

953
00:37:24,470 --> 00:37:23,040
of the sortie to harry's address

954
00:37:26,550 --> 00:37:24,480
which i have

955
00:37:28,230 --> 00:37:26,560
but harry mean harry he rather kept it

956
00:37:30,150 --> 00:37:28,240
to himself you know

957
00:37:32,790 --> 00:37:30,160
i found

958
00:37:35,510 --> 00:37:32,800
regardless of people's character

959
00:37:37,030 --> 00:37:35,520
and good work a lot of ufologists

960
00:37:38,790 --> 00:37:37,040
are a bit like people who collect fine

961
00:37:41,349 --> 00:37:38,800
art they don't want else to hear about

962
00:37:43,190 --> 00:37:41,359
it and very jealous of anyone else

963
00:37:46,069 --> 00:37:43,200

knowing about his case

964

00:37:48,390 --> 00:37:46,079

so i eventually persuaded him and

965

00:37:51,030 --> 00:37:48,400

didn't quite work with it with harry one

966

00:37:53,270 --> 00:37:51,040

way or another i said well

967

00:37:54,550 --> 00:37:53,280

you know if you let me compile something

968

00:37:57,190 --> 00:37:54,560

you report

969

00:37:59,430 --> 00:37:57,200

and then you can vet it if you want

970

00:38:01,750 --> 00:37:59,440

so he agreed eventually i ended up

971

00:38:03,670 --> 00:38:01,760

speaking to uh

972

00:38:06,870 --> 00:38:03,680

oh this is a very poor picture of him in

973

00:38:10,870 --> 00:38:06,880

his cockpit of a super saber f-86d at

974

00:38:13,190 --> 00:38:10,880

manston and he was 26 years old and so

975

00:38:16,310 --> 00:38:13,200

this is one of their typical aircraft

976

00:38:18,710 --> 00:38:16,320

actually the markings of the 406 group

977

00:38:20,950 --> 00:38:18,720

that the wing down at manson there's a

978

00:38:22,230 --> 00:38:20,960

wing of three flights

979

00:38:23,670 --> 00:38:22,240

um

980

00:38:25,750 --> 00:38:23,680

so

981

00:38:27,829 --> 00:38:25,760

harry um

982

00:38:29,190 --> 00:38:27,839

oh yes anyway i ended up emailing and

983

00:38:30,790 --> 00:38:29,200

actually phoning

984

00:38:33,510 --> 00:38:30,800

milton

985

00:38:36,630 --> 00:38:33,520

and his co-pilot always saw his wing man

986

00:38:39,670 --> 00:38:36,640

because on qra standby there's always

987

00:38:41,750 --> 00:38:39,680

two aircrafts all sort of juiced up

988

00:38:43,750 --> 00:38:41,760

ready to go and they're off in two or

989

00:38:46,550 --> 00:38:43,760

three minutes when they get a call and

990

00:38:48,470 --> 00:38:46,560

his name was dave roberston not robertson

991

00:38:49,510 --> 00:38:48,480

roberston

992

00:38:51,349 --> 00:38:49,520

okay

993

00:38:53,510 --> 00:38:51,359

so i spoke to him as well who was in a

994

00:38:54,710 --> 00:38:53,520

retirement home run by uncle sam in

995

00:38:56,710 --> 00:38:54,720

america

996

00:38:59,190 --> 00:38:56,720

and he was a bit reluctant to say

997

00:39:01,510 --> 00:38:59,200

anything because pension they were

998

00:39:05,270 --> 00:39:01,520

providing with home etc

999

00:39:08,870 --> 00:39:07,109

anyway the thing is that

1000

00:39:10,790 --> 00:39:08,880

there's some discrepancy about the date

1001

00:39:14,390 --> 00:39:10,800

but he said at the time it was 20th of

1002

00:39:19,990 --> 00:39:17,510

and they were ordered off from manson

1003

00:39:22,150 --> 00:39:20,000

because at the time they were covering

1004

00:39:24,550 --> 00:39:22,160

the metropolitan sector he called it the

1005

00:39:27,109 --> 00:39:24,560

met sector and southern england and the

1006

00:39:29,510 --> 00:39:27,119

air force had the regions of the uk

1007

00:39:31,030 --> 00:39:29,520

covered in four separate bits and used

1008

00:39:33,430 --> 00:39:31,040

to take it in turns for different

1009

00:39:36,150 --> 00:39:33,440

squadrons to look after it

1010

00:39:37,829 --> 00:39:36,160

well the f-86d

1011

00:39:40,069 --> 00:39:37,839

was the fastest

1012

00:39:43,510 --> 00:39:40,079

aircraft around at the time you could go

1013

00:39:45,030 --> 00:39:43,520

faster than the raf venoms to

1014

00:39:46,870 --> 00:39:45,040

get to a

1015

00:39:49,349 --> 00:39:46,880

an enemy you know presumably a soviet

1016

00:39:52,150 --> 00:39:49,359

intrusion

1017

00:39:53,750 --> 00:39:52,160

uh and because the thing was seen

1018

00:39:56,470 --> 00:39:53,760

in suffolk

1019

00:39:59,190 --> 00:39:56,480

and they were watching the thing on this

1020

00:40:02,630 --> 00:39:59,200

is just a manson in emblem

1021

00:40:04,230 --> 00:40:02,640

um on radar for quite a long time

1022

00:40:06,710 --> 00:40:04,240

before they scrambled the jets and it

1023

00:40:09,510 --> 00:40:06,720

was hovering over ipswich and nearby

1024

00:40:12,150 --> 00:40:09,520

ipswich stationary making funny

1025

00:40:14,710 --> 00:40:12,160

maneuvers up and down stopping

1026

00:40:16,870 --> 00:40:14,720

doing the typical ufo thing

1027

00:40:21,030 --> 00:40:16,880

and eventually as they scramble the

1028

00:40:25,349 --> 00:40:23,589

into the north sea

1029

00:40:28,310 --> 00:40:25,359

and uh the

1030

00:40:35,510 --> 00:40:31,030

gci which is ground control instructions

1031

00:40:37,670 --> 00:40:35,520

came from this place called raf boardsee

1032

00:40:38,470 --> 00:40:37,680

you can see on the distance but you've

1033

00:40:41,510 --> 00:40:38,480

got

1034

00:40:43,109 --> 00:40:41,520

it's absolutely there

1035

00:40:45,109 --> 00:40:43,119

the river demon

1036

00:40:48,310 --> 00:40:45,119

and boards are here one of the oldest

1037

00:40:51,349 --> 00:40:48,320

radar stations ever has played a major

1038

00:40:53,109 --> 00:40:51,359

role in world war ii

1039

00:40:55,829 --> 00:40:53,119

and it's interesting you've got

1040

00:40:57,670 --> 00:40:55,839

rendlesham you've got bent waters

1041

00:41:00,069 --> 00:40:57,680

and woodbridge close by

1042

00:41:01,829 --> 00:41:00,079

so this object is apparently moved

1043

00:41:03,589 --> 00:41:01,839

across

1044

00:41:06,309 --> 00:41:03,599

uh so when they got

1045

00:41:08,950 --> 00:41:06,319

up there they ordered to a vector of uh

1046

00:41:10,550 --> 00:41:08,960

or height of 32 000 feet

1047

00:41:13,030 --> 00:41:10,560

and they had the right the thing about

1048

00:41:16,790 --> 00:41:13,040

the super sabre they had quite a

1049

00:41:18,470 --> 00:41:16,800

for the time sophisticated computerized

1050

00:41:21,750 --> 00:41:18,480

radar top

1051
00:41:23,349 --> 00:41:21,760
weapon lock-on system

1052
00:41:25,910 --> 00:41:23,359
which was perhaps a bit crude in modern

1053
00:41:27,910 --> 00:41:25,920
times but worked

1054
00:41:29,349 --> 00:41:27,920
and

1055
00:41:33,109 --> 00:41:29,359
as he

1056
00:41:38,309 --> 00:41:36,150
this target which he said was huge like

1057
00:41:39,829 --> 00:41:38,319
a battleship size

1058
00:41:42,630 --> 00:41:39,839
because he said that he said i've never

1059
00:41:44,150 --> 00:41:42,640
seen such a large

1060
00:41:45,510 --> 00:41:44,160
hole he said it was like burning a hole

1061
00:41:47,910 --> 00:41:45,520
in my scope

1062
00:41:49,430 --> 00:41:47,920
the the the spot and reflection from his

1063
00:41:51,109 --> 00:41:49,440

onboard radar

1064

00:41:52,230 --> 00:41:51,119

she didn't need any more ground control

1065

00:41:53,589 --> 00:41:52,240

approach

1066

00:41:55,109 --> 00:41:53,599

because he could he couldn't see it

1067

00:41:57,510 --> 00:41:55,119

because it was in the soup as he called

1068

00:41:59,910 --> 00:41:57,520

it it was getting dark it was misty

1069

00:42:03,030 --> 00:41:59,920

cloud so he never had it's important to

1070

00:42:04,390 --> 00:42:03,040

me you know this he didn't have a visual

1071

00:42:06,309 --> 00:42:04,400

contact

1072

00:42:08,870 --> 00:42:06,319

to say what the thing was like looking

1073

00:42:11,190 --> 00:42:08,880

like it was you know a triangle or a

1074

00:42:12,950 --> 00:42:11,200

disc or whatever

1075

00:42:15,589 --> 00:42:12,960

so

1076

00:42:18,710 --> 00:42:15,599

anyway i i decided to file a freedom of

1077

00:42:20,710 --> 00:42:18,720

information requests on this case

1078

00:42:22,550 --> 00:42:20,720

uh and got fobs off and passed around

1079

00:42:25,349 --> 00:42:22,560

the houses as harry harris had done

1080

00:42:28,069 --> 00:42:25,359

previously he badges the mod

1081

00:42:30,150 --> 00:42:28,079

and we actually win the

1082

00:42:30,870 --> 00:42:30,160

david clarke

1083

00:42:33,030 --> 00:42:30,880

was

1084

00:42:34,950 --> 00:42:33,040

referring people to release batches of

1085

00:42:37,190 --> 00:42:34,960

documents from mod

1086

00:42:38,870 --> 00:42:37,200

there was very little about this case

1087

00:42:41,190 --> 00:42:38,880

but some of the documents

1088

00:42:43,190 --> 00:42:41,200

were internal memos

1089

00:42:45,270 --> 00:42:43,200

and one of them was from one senior

1090

00:42:46,870 --> 00:42:45,280

person to another lots of scribble on

1091

00:42:48,630 --> 00:42:46,880

the side

1092

00:42:50,710 --> 00:42:48,640

making reference to this nuisance of a

1093

00:42:52,710 --> 00:42:50,720

man called harry harris

1094

00:42:55,430 --> 00:42:52,720

kept battering them for information so

1095

00:42:58,230 --> 00:42:55,440

they fogged him off to america because

1096

00:43:00,470 --> 00:42:58,240

it was an american squadron so harry

1097

00:43:02,150 --> 00:43:00,480

contacted the states and

1098

00:43:03,030 --> 00:43:02,160

they said they had no record i'll tell

1099

00:43:05,270 --> 00:43:03,040

you

1100

00:43:07,750 --> 00:43:05,280

so i i thought well the important thing

1101
00:43:09,990 --> 00:43:07,760
here is who's given the order to fire

1102
00:43:11,990 --> 00:43:10,000
that that's a crucial thing

1103
00:43:14,630 --> 00:43:12,000
so i sort of worked out it wouldn't be

1104
00:43:16,630 --> 00:43:14,640
somebody at the gci station aboard c

1105
00:43:19,109 --> 00:43:16,640
it must be someone else

1106
00:43:19,119 --> 00:43:23,109
144 singles unit yeah

1107
00:43:26,630 --> 00:43:24,470
so

1108
00:43:28,790 --> 00:43:26,640
you can just you know

1109
00:43:30,630 --> 00:43:28,800
this is an aerial view of borsig well i

1110
00:43:31,829 --> 00:43:30,640
was looking here because

1111
00:43:33,910 --> 00:43:31,839
uh there's a fellow who lives in

1112
00:43:36,230 --> 00:43:33,920
stockport who runs

1113
00:43:38,710 --> 00:43:36,240

secret bases.com

1114

00:43:40,710 --> 00:43:38,720

and uh he had a pal who flew private

1115

00:43:41,910 --> 00:43:40,720

aircraft around the southern england

1116

00:43:43,670 --> 00:43:41,920

area

1117

00:43:46,710 --> 00:43:43,680

and i said i want some aerial low

1118

00:43:49,910 --> 00:43:46,720

oblique in raf turns low oblique pitches

1119

00:43:51,750 --> 00:43:49,920

aboard seeing the coast so this bloke

1120

00:43:53,829 --> 00:43:51,760

flew his aircraft along what it was and

1121

00:43:56,630 --> 00:43:53,839

took some

1122

00:43:58,309 --> 00:43:56,640

from from them and sent them on which is

1123

00:44:00,710 --> 00:43:58,319

marvelous

1124

00:44:02,390 --> 00:44:00,720

this is the manor so the officers used

1125

00:44:04,550 --> 00:44:02,400

to stay here

1126

00:44:06,630 --> 00:44:04,560

this building is the actual crux of it

1127

00:44:08,870 --> 00:44:06,640

which is still there it's a bit of a

1128

00:44:11,349 --> 00:44:08,880

museum but it's used by

1129

00:44:12,870 --> 00:44:11,359

sc rescue these days

1130

00:44:13,750 --> 00:44:12,880

here they used to have

1131

00:44:17,270 --> 00:44:13,760

uh

1132

00:44:19,510 --> 00:44:17,280

missiles you know in the 60s

1133

00:44:22,390 --> 00:44:19,520

so this is the this is a building the

1134

00:44:24,069 --> 00:44:22,400

operations room

1135

00:44:25,990 --> 00:44:24,079

that's his little sign talking about the

1136

00:44:29,270 --> 00:44:26,000

museum it's only home certain times so

1137

00:44:33,109 --> 00:44:30,870

this is repeated to be a picture

1138

00:44:37,589 --> 00:44:33,119

actually inside i don't know where it

1139

00:44:41,109 --> 00:44:39,510

um this is a

1140

00:44:46,470 --> 00:44:41,119

in

1141

00:44:49,910 --> 00:44:46,480

so this would be one of the radar sites

1142

00:44:52,870 --> 00:44:49,920

which was in the early warning chain

1143

00:44:54,630 --> 00:44:52,880

right down the country from yorkshire

1144

00:44:56,550 --> 00:44:54,640

you know looking

1145

00:44:59,030 --> 00:44:56,560

for any intrusions

1146

00:45:01,430 --> 00:44:59,040

and this is the main

1147

00:45:03,430 --> 00:45:01,440

scanner here funnily enough made by

1148

00:45:04,390 --> 00:45:03,440

avro's in manchester it made it

1149

00:45:06,630 --> 00:45:04,400

chatterton

1150

00:45:08,069 --> 00:45:06,640

because we had a job

1151

00:45:10,390 --> 00:45:08,079

because this was uh

1152

00:45:12,150 --> 00:45:10,400

the sheet which bonded to honeycomb and

1153

00:45:14,790 --> 00:45:12,160

it was getting disbonded and we have a

1154

00:45:17,030 --> 00:45:14,800

thing called the bond tester equipment

1155

00:45:18,870 --> 00:45:17,040

so my guys had to go down

1156

00:45:22,950 --> 00:45:18,880

on

1157

00:45:25,829 --> 00:45:24,790

what they call them his time a lot of

1158

00:45:28,150 --> 00:45:25,839

things

1159

00:45:30,309 --> 00:45:28,160

swaying around the wind checking it make

1160

00:45:32,630 --> 00:45:30,319

sure it's switched off of course

1161

00:45:34,309 --> 00:45:32,640

so anyway so there's no doubt

1162

00:45:35,829 --> 00:45:34,319

they had this object

1163

00:45:39,589 --> 00:45:35,839

from nature center which was the nearest

1164

00:45:43,510 --> 00:45:41,510

so i got the reply back eventually after

1165

00:45:47,589 --> 00:45:43,520

about two weeks

1166

00:45:51,990 --> 00:45:49,030

it wasn't surprised when they said they

1167

00:45:54,309 --> 00:45:52,000

have no primary source records related

1168

00:45:56,470 --> 00:45:54,319

to this incident but it was very helpful

1169

00:45:58,150 --> 00:45:56,480

with other information

1170

00:45:59,910 --> 00:45:58,160

and it fitted in what i thought would be

1171

00:46:03,430 --> 00:45:59,920

the change of chain

1172

00:46:03,440 --> 00:46:09,030

so that the soc is

1173

00:46:14,390 --> 00:46:11,910

kelvin hatch which the pilot milton

1174

00:46:15,910 --> 00:46:14,400

torres with other pilots visited

1175

00:46:17,589 --> 00:46:15,920

in the old days

1176

00:46:20,230 --> 00:46:17,599

it was it's underground

1177

00:46:22,950 --> 00:46:20,240

and then the top was just a little like

1178

00:46:24,230 --> 00:46:22,960

a bungalow and he had no idea melting

1179

00:46:25,430 --> 00:46:24,240

where it was because they were taking in

1180

00:46:27,589 --> 00:46:25,440

the van and

1181

00:46:28,550 --> 00:46:27,599

so no idea exactly in the uk where it

1182

00:46:29,670 --> 00:46:28,560

was

1183

00:46:32,069 --> 00:46:29,680

so

1184

00:46:33,270 --> 00:46:32,079

and then the air defense operational

1185

00:46:35,349 --> 00:46:33,280

command

1186

00:46:43,030 --> 00:46:35,359

is

1187

00:46:44,150 --> 00:46:43,040

a

1188

00:46:45,589 --> 00:46:44,160

bunker

1189

00:46:48,309 --> 00:46:45,599

out to the public

1190

00:46:49,990 --> 00:46:48,319

so in a nuclear attack the prime

1191

00:46:51,670 --> 00:46:50,000

minister had a room down there with the

1192

00:46:53,270 --> 00:46:51,680

bed on the rest of it

1193

00:46:56,710 --> 00:46:53,280

and uh

1194

00:46:58,790 --> 00:46:56,720

the pilots would was sort of informed

1195

00:46:59,750 --> 00:46:58,800

where all that ground information come

1196

00:47:01,589 --> 00:46:59,760

from

1197

00:47:02,790 --> 00:47:01,599

but he didn't know the name of it even

1198

00:47:04,950 --> 00:47:02,800

properly

1199

00:47:06,309 --> 00:47:04,960

and this was the the front of it and you

1200

00:47:08,470 --> 00:47:06,319

go through the door and you go down the

1201
00:47:10,390 --> 00:47:08,480
passageway you go lauren in this massive

1202
00:47:12,630 --> 00:47:10,400
underground facility

1203
00:47:14,870 --> 00:47:12,640
so

1204
00:47:17,109 --> 00:47:14,880
fortunately i have two xraf photographer

1205
00:47:18,790 --> 00:47:17,119
friends from cyprus

1206
00:47:20,710 --> 00:47:18,800
one who lives in essex who went there

1207
00:47:23,430 --> 00:47:20,720
with his wife and took these pictures

1208
00:47:26,550 --> 00:47:23,440
and then another father johnny hill who

1209
00:47:28,390 --> 00:47:26,560
went to the fighter command headquarters

1210
00:47:30,390 --> 00:47:28,400
in london

1211
00:47:35,270 --> 00:47:30,400
near stanmore

1212
00:47:39,589 --> 00:47:37,990
bentley prior it's called bentley priory

1213
00:47:41,510 --> 00:47:39,599

and they have a

1214

00:47:42,870 --> 00:47:41,520

what they call down the hole the bunker

1215

00:47:45,349 --> 00:47:42,880

there

1216

00:47:47,750 --> 00:47:45,359

since well two days which was in use of

1217

00:47:49,670 --> 00:47:47,760

course during the cold war

1218

00:47:54,550 --> 00:47:49,680

so

1219

00:47:56,550 --> 00:47:54,560

took these pictures from it i had to get

1220

00:47:58,630 --> 00:47:56,560

permission beforehand from the raf to

1221

00:48:00,550 --> 00:47:58,640

let him to go on to take the pictures it

1222

00:48:03,190 --> 00:48:00,560

was worth it

1223

00:48:06,550 --> 00:48:03,200

and here we go milton torres himself

1224

00:48:10,069 --> 00:48:06,560

uh manston at one reunions with an f-86

1225

00:48:10,079 --> 00:48:12,550

and

1226

00:48:16,790 --> 00:48:13,829

point this out because i slung

1227

00:48:19,829 --> 00:48:16,800

underneath the aircraft they had

1228

00:48:23,109 --> 00:48:19,839

24 mighty mouse missiles and these were

1229

00:48:24,150 --> 00:48:23,119

the things he was told to fire

1230

00:48:25,430 --> 00:48:24,160

and uh

1231

00:48:26,870 --> 00:48:25,440

he said

1232

00:48:28,230 --> 00:48:26,880

he challenged the order because he

1233

00:48:30,309 --> 00:48:28,240

couldn't believe what he was hearing and

1234

00:48:33,430 --> 00:48:30,319

he had a thing on his knee on his flying

1235

00:48:35,750 --> 00:48:33,440

suit with codes to check and he so they

1236

00:48:38,549 --> 00:48:35,760

confirmed yes

1237

00:48:40,870 --> 00:48:38,559

it's a fire off 24 ordinance

1238

00:48:42,710 --> 00:48:40,880

in height of cold war some unknown

1239

00:48:44,710 --> 00:48:42,720

objects he couldn't see

1240

00:48:46,549 --> 00:48:44,720

when there's russian aircraft you know

1241

00:48:48,630 --> 00:48:46,559

coming into our airspace from

1242

00:48:50,150 --> 00:48:48,640

the north sea of the north coast

1243

00:48:51,829 --> 00:48:50,160

it was a bit of a worry

1244

00:48:54,790 --> 00:48:51,839

anyway

1245

00:48:56,710 --> 00:48:54,800

it just proves that the americans

1246

00:48:58,470 --> 00:48:56,720

had to have permission

1247

00:48:59,829 --> 00:48:58,480

um

1248

00:49:01,990 --> 00:48:59,839

from what because they're in our country

1249

00:49:04,950 --> 00:49:02,000

in our airspace to do this and as an

1250

00:49:07,190 --> 00:49:04,960

example of firing 42

1251
00:49:09,990 --> 00:49:07,200
sorry 24 missiles because it's wingman

1252
00:49:12,230 --> 00:49:10,000
so there's 48 between them

1253
00:49:13,829 --> 00:49:12,240
at this object

1254
00:49:15,270 --> 00:49:13,839
it's a bit alarming

1255
00:49:17,829 --> 00:49:15,280
and if you're thinking about the renders

1256
00:49:20,309 --> 00:49:17,839
from forest incident in 1980

1257
00:49:22,870 --> 00:49:20,319
when the the airmen

1258
00:49:25,190 --> 00:49:22,880
left the base fire east gate or wherever

1259
00:49:27,109 --> 00:49:25,200
they all had to leave their sidearms and

1260
00:49:28,790 --> 00:49:27,119
rifles on the base because they couldn't

1261
00:49:31,990 --> 00:49:28,800
step into british territory into the

1262
00:49:33,030 --> 00:49:32,000
forest at reynoldson with the weapons

1263
00:49:35,990 --> 00:49:33,040

so

1264

00:49:38,870 --> 00:49:36,000

nick pope i'll come to him in a minute

1265

00:49:41,910 --> 00:49:38,880

actually when this came out

1266

00:49:44,309 --> 00:49:41,920

and not due to the mod and soft release

1267

00:49:45,270 --> 00:49:44,319

then he was ufologists

1268

00:49:50,870 --> 00:49:45,280

harry

1269

00:49:56,390 --> 00:49:53,270

manson who was into

1270

00:49:59,270 --> 00:49:56,400

a historian on saber jets

1271

00:50:01,670 --> 00:49:59,280

duncan curtis his name he had a website

1272

00:50:03,829 --> 00:50:01,680

and he used to go to all his reunions

1273

00:50:06,069 --> 00:50:03,839

and he used to talk to the pilots

1274

00:50:08,950 --> 00:50:06,079

and somehow he got out of milton taurus

1275

00:50:10,549 --> 00:50:08,960

the story of what i'm talking about

1276

00:50:12,790 --> 00:50:10,559

and then somehow it got in the daily

1277

00:50:14,069 --> 00:50:12,800

star in 1991

1278

00:50:16,870 --> 00:50:14,079

and then some other

1279

00:50:18,950 --> 00:50:16,880

british newspaper a bit later

1280

00:50:19,990 --> 00:50:18,960

it was all forgotten about

1281

00:50:23,109 --> 00:50:20,000

so

1282

00:50:25,190 --> 00:50:23,119

he didn't get to fire his missiles

1283

00:50:28,309 --> 00:50:25,200

because

1284

00:50:30,470 --> 00:50:28,319

he was 10 seconds to go to release them

1285

00:50:32,630 --> 00:50:30,480

and the spot on his scope suddenly

1286

00:50:34,870 --> 00:50:32,640

started to move very rapidly

1287

00:50:37,190 --> 00:50:34,880

so he knew it was pulling away from him

1288

00:50:39,109 --> 00:50:37,200

and he was pretty confident he was doing

1289

00:50:41,510 --> 00:50:39,119

at least mach 2

1290

00:50:43,950 --> 00:50:41,520

mean he was feeling flat out

1291

00:50:48,630 --> 00:50:47,109

86.86 was it about 700 miles an hour

1292

00:50:50,630 --> 00:50:48,640

which was maximum and he was told to

1293

00:50:53,270 --> 00:50:50,640

keep his after burner on

1294

00:50:54,790 --> 00:50:53,280

to keep pace with this thing

1295

00:50:57,030 --> 00:50:54,800

because he's using a lot more fuel than

1296

00:50:58,790 --> 00:50:57,040

doing that which is a bit of a worry to

1297

00:51:01,190 --> 00:50:58,800

keep you after bedroom

1298

00:51:02,950 --> 00:51:01,200

and uh so it shot off screen so he never

1299

00:51:04,549 --> 00:51:02,960

got a chance to lease him off

1300

00:51:06,790 --> 00:51:04,559

if he had he might not have been alive

1301
00:51:08,549 --> 00:51:06,800
today because there's been cases in the

1302
00:51:11,109 --> 00:51:08,559
states many of them where there's a

1303
00:51:13,829 --> 00:51:11,119
retaliation aircraft have been brought

1304
00:51:15,030 --> 00:51:13,839
down lost pilots killed

1305
00:51:17,349 --> 00:51:15,040
until

1306
00:51:20,549 --> 00:51:17,359
the president truman stopped it

1307
00:51:21,670 --> 00:51:20,559
this attack will just observe

1308
00:51:24,470 --> 00:51:21,680
so

1309
00:51:26,390 --> 00:51:24,480
he radioed gci and said it's gone off

1310
00:51:29,589 --> 00:51:26,400
from scope he said yes it's gone off our

1311
00:51:31,030 --> 00:51:29,599
radar on two sweeps of the scanner it

1312
00:51:32,309 --> 00:51:31,040
gone

1313
00:51:34,829 --> 00:51:32,319

so

1314

00:51:38,230 --> 00:51:34,839

mach 2 what's

1315

00:51:40,630 --> 00:51:38,240

that two thousand mile an hour so

1316

00:51:47,030 --> 00:51:44,470

this was a later picture of the 1960s

1317

00:51:50,950 --> 00:51:47,040

in germany i think it was in germany

1318

00:51:53,750 --> 00:51:50,960

flying whatever it was

1319

00:51:58,069 --> 00:51:55,270

yes now

1320

00:52:00,230 --> 00:51:58,079

this last picture on this case

1321

00:52:01,950 --> 00:52:00,240

was an ex-politics conference in

1322

00:52:04,950 --> 00:52:01,960

washington in

1323

00:52:07,670 --> 00:52:04,960

2009 i think

1324

00:52:09,190 --> 00:52:07,680

and uh it's run by uh

1325

00:52:11,910 --> 00:52:09,200

our friend

1326

00:52:14,230 --> 00:52:11,920

mr bassett steven bassett

1327

00:52:16,150 --> 00:52:14,240

anyway colin andrews of crop circle fame

1328

00:52:18,870 --> 00:52:16,160

we've seen reference to today

1329

00:52:19,670 --> 00:52:18,880

was that also speaking

1330

00:52:20,470 --> 00:52:19,680

and

1331

00:52:24,309 --> 00:52:20,480

he

1332

00:52:26,710 --> 00:52:24,319

kindly put all my

1333

00:52:27,829 --> 00:52:26,720

milton torres case up on colin's website

1334

00:52:31,109 --> 00:52:27,839

it's still there if you want to look at

1335

00:52:33,910 --> 00:52:31,119

colin webb's side website

1336

00:52:37,030 --> 00:52:33,920

said he ought to get the dvd

1337

00:52:39,510 --> 00:52:37,040

of the conference and what was said

1338

00:52:41,270 --> 00:52:39,520

particularly by nick pope

1339

00:52:42,549 --> 00:52:41,280

now colin

1340

00:52:45,190 --> 00:52:42,559

has had you know quite friendly

1341

00:52:47,109 --> 00:52:45,200

relations with nick pill but you know

1342

00:52:48,870 --> 00:52:47,119

they had a few archie barges and while

1343

00:52:51,030 --> 00:52:48,880

at the conference he says

1344

00:52:53,270 --> 00:52:51,040

to nick um

1345

00:52:55,109 --> 00:52:53,280

come on you know you you've been a

1346

00:52:57,349 --> 00:52:55,119

civilian so-called

1347

00:52:59,430 --> 00:52:57,359

civilian before but you've left the mod

1348

00:53:01,349 --> 00:52:59,440

and he's now living in the states

1349

00:53:02,710 --> 00:53:01,359

um

1350

00:53:04,630 --> 00:53:02,720

you know you're still

1351
00:53:07,109 --> 00:53:04,640
doing your job

1352
00:53:09,430 --> 00:53:07,119
which is previously denied to various

1353
00:53:12,630 --> 00:53:09,440
challenges from ufologists in the past

1354
00:53:14,549 --> 00:53:12,640
so in the end nick says to colin andrews

1355
00:53:15,829 --> 00:53:14,559
and this is kosher

1356
00:53:18,630 --> 00:53:15,839
well okay

1357
00:53:21,030 --> 00:53:18,640
my old masters are not too far away for

1358
00:53:21,990 --> 00:53:21,040
his words my old masters are not too far

1359
00:53:24,309 --> 00:53:22,000
away

1360
00:53:26,630 --> 00:53:24,319
which is like an admission now that he's

1361
00:53:29,109 --> 00:53:26,640
either been paid as well or told he's

1362
00:53:30,549 --> 00:53:29,119
got to carry on doing the debunking as

1363
00:53:32,950 --> 00:53:30,559

much as possible

1364

00:53:34,150 --> 00:53:32,960

and it annoyed me when i watched the

1365

00:53:36,150 --> 00:53:34,160

opening because nick they were sharing

1366

00:53:37,910 --> 00:53:36,160

the platform

1367

00:53:40,069 --> 00:53:37,920

because milton was knocking on a bit he

1368

00:53:41,349 --> 00:53:40,079

might even be dead now i don't know

1369

00:53:43,109 --> 00:53:41,359

um

1370

00:53:44,390 --> 00:53:43,119

his son was there to help him with his

1371

00:53:46,069 --> 00:53:44,400

presentation

1372

00:53:48,309 --> 00:53:46,079

which was fairly short and most of the

1373

00:53:49,910 --> 00:53:48,319

talking was done by nick when he opens

1374

00:53:50,790 --> 00:53:49,920

up

1375

00:53:53,430 --> 00:53:50,800

he says

1376

00:53:54,390 --> 00:53:53,440

he's dancing about something like

1377

00:53:57,510 --> 00:53:54,400

you know

1378

00:53:59,750 --> 00:53:57,520

a pilot shell sold to shoot down a ufo

1379

00:54:01,589 --> 00:53:59,760

off the suffolk coast wow you know

1380

00:54:03,190 --> 00:54:01,599

making a big thing of it

1381

00:54:05,589 --> 00:54:03,200

and yet he's a man who was trying to

1382

00:54:07,349 --> 00:54:05,599

shut it down apart from the old thing

1383

00:54:09,829 --> 00:54:07,359

about the ministry saying of no defense

1384

00:54:11,109 --> 00:54:09,839

significance crap to come out with for

1385

00:54:13,349 --> 00:54:11,119

years

1386

00:54:15,430 --> 00:54:13,359

was trying to deny

1387

00:54:17,990 --> 00:54:15,440

that then he was saying

1388

00:54:19,910 --> 00:54:18,000

not on the conference but separately oh

1389

00:54:22,230 --> 00:54:19,920

it's down to the individual pilot it was

1390

00:54:25,190 --> 00:54:22,240

his call his decision

1391

00:54:27,829 --> 00:54:25,200

to fire his 24 mighty mouse missiles

1392

00:54:29,829 --> 00:54:27,839

well no way would an american pilot do

1393

00:54:31,910 --> 00:54:29,839

that he be caught marshalled if he had

1394

00:54:33,349 --> 00:54:31,920

without the proper authority especially

1395

00:54:35,349 --> 00:54:33,359

in our airspace

1396

00:54:37,349 --> 00:54:35,359

he was trying to say that milton torres

1397

00:54:39,190 --> 00:54:37,359

was firing off his records off his own

1398

00:54:41,349 --> 00:54:39,200

but

1399

00:54:43,430 --> 00:54:41,359

oh my

1400

00:54:45,670 --> 00:54:43,440

pope honestly

1401
00:54:53,109 --> 00:54:45,680
and never mind

1402
00:54:57,109 --> 00:54:55,349
yeah this is

1403
00:54:58,309 --> 00:54:57,119
this is another humorous bit

1404
00:55:01,990 --> 00:54:58,319
but sad

1405
00:55:06,710 --> 00:55:04,230
because when the mod declared that they

1406
00:55:08,710 --> 00:55:06,720
would not

1407
00:55:10,790 --> 00:55:08,720
they should all the records they had

1408
00:55:11,910 --> 00:55:10,800
about ufos to the public records of the

1409
00:55:13,430 --> 00:55:11,920
cq

1410
00:55:16,230 --> 00:55:13,440
and there's not much happening with the

1411
00:55:18,950 --> 00:55:16,240
apologies no more cases so it's a waste

1412
00:55:21,670 --> 00:55:18,960
of time the mld spending money paying a

1413
00:55:23,510 --> 00:55:21,680

guy to just air staff to desk to do what

1414

00:55:25,430 --> 00:55:23,520

they've been doing like to him for three

1415

00:55:27,589 --> 00:55:25,440

years when he was in that post

1416

00:55:29,589 --> 00:55:27,599

absolutely rubbish

1417

00:55:31,670 --> 00:55:29,599

now when i get my freedom this is from

1418

00:55:33,829 --> 00:55:31,680

the freedom of information from a

1419

00:55:35,910 --> 00:55:33,839

civilian guy the air historical branch

1420

00:55:38,150 --> 00:55:35,920

too which was based fully enough at

1421

00:55:39,510 --> 00:55:38,160

bentley prairie the very place where the

1422

00:55:41,030 --> 00:55:39,520

bloody order

1423

00:55:42,390 --> 00:55:41,040

higher level was given for him to shoot

1424

00:55:43,750 --> 00:55:42,400

the things down it must be at least an

1425

00:55:46,630 --> 00:55:43,760

air commodore

1426
00:55:49,750 --> 00:55:46,640
to do that would pass the signal to

1427
00:55:52,390 --> 00:55:51,030
what's it

1428
00:55:56,230 --> 00:55:52,400
bonker

1429
00:55:58,230 --> 00:55:56,240
and then to the gci to tell him to fire

1430
00:56:00,549 --> 00:55:58,240
with the coded order

1431
00:56:05,109 --> 00:56:03,109
i nearly fell off my chair

1432
00:56:06,870 --> 00:56:05,119
the only positive thing apart from the

1433
00:56:09,190 --> 00:56:06,880
procedures and where there was certain

1434
00:56:10,789 --> 00:56:09,200
records and if someone would have enough

1435
00:56:12,390 --> 00:56:10,799
time to go to queue

1436
00:56:15,670 --> 00:56:12,400
and sit there for hours and hours

1437
00:56:16,470 --> 00:56:15,680
plowing through these tnas and the a540s

1438
00:56:24,390 --> 00:56:16,480

the

1439

00:56:26,230 --> 00:56:24,400

torres sorties and orders of fire and i

1440

00:56:27,910 --> 00:56:26,240

reckon that would have been deleted out

1441

00:56:29,510 --> 00:56:27,920

it wouldn't be there

1442

00:56:31,349 --> 00:56:29,520

and i don't live near enough to london

1443

00:56:33,030 --> 00:56:31,359

200 miles away to spend all the time

1444

00:56:34,870 --> 00:56:33,040

doing that i've never found anyone

1445

00:56:36,870 --> 00:56:34,880

stepping forward to say well i'll do

1446

00:56:38,150 --> 00:56:36,880

that for you david you know

1447

00:56:41,109 --> 00:56:38,160

um

1448

00:56:42,549 --> 00:56:41,119

he quotes me about by dave clark andy

1449

00:56:43,510 --> 00:56:42,559

bloody

1450

00:56:46,069 --> 00:56:43,520

roberts

1451

00:56:49,190 --> 00:56:46,079

a book by it's all out of the shadows

1452

00:56:51,750 --> 00:56:49,200

now i had that book i bought it in a

1453

00:56:53,589 --> 00:56:51,760

charity shop so i wouldn't spend money

1454

00:56:56,710 --> 00:56:53,599

on anything they've written i haven't

1455

00:56:58,710 --> 00:56:56,720

got around to reading it and this chap

1456

00:57:01,670 --> 00:56:58,720

this ministry man from air defenseman

1457

00:57:03,589 --> 00:57:01,680

actually told me the page number 146 is

1458

00:57:04,870 --> 00:57:03,599

a reference

1459

00:57:07,829 --> 00:57:04,880

from clark

1460

00:57:09,990 --> 00:57:07,839

now he he's obviously got that from that

1461

00:57:12,470 --> 00:57:10,000

duncan curtis the x-ray of sergeant who

1462

00:57:14,710 --> 00:57:12,480

had made some comment about it

1463

00:57:16,150 --> 00:57:14,720

milton had brought his vowel not to talk

1464

00:57:17,829 --> 00:57:16,160

about it because he was briefed after

1465

00:57:20,470 --> 00:57:17,839

the episode

1466

00:57:22,470 --> 00:57:20,480

by an american chap came from london

1467

00:57:24,549 --> 00:57:22,480

from the nsa he used the national

1468

00:57:26,630 --> 00:57:24,559

security agency interviewed both pilots

1469

00:57:28,630 --> 00:57:26,640

separately and said it's a highly

1470

00:57:30,710 --> 00:57:28,640

classified mission you don't even talk

1471

00:57:33,030 --> 00:57:30,720

to your station commander about it or

1472

00:57:35,109 --> 00:57:33,040

his wing commander

1473

00:57:36,230 --> 00:57:35,119

but he obviously did eventually

1474

00:57:41,910 --> 00:57:36,240

so

1475

00:57:45,910 --> 00:57:41,920

that's the cover of the book

1476

00:57:48,230 --> 00:57:45,920

and i've put my report at the top there

1477

00:57:50,549 --> 00:57:48,240

and this is the page and there's only

1478

00:57:52,549 --> 00:57:50,559

one page in a bit

1479

00:57:55,190 --> 00:57:52,559

about it and they've got some facts on

1480

00:57:56,870 --> 00:57:55,200

but it happens and then this is a bit of

1481

00:57:58,870 --> 00:57:56,880

milton's own words which is in his

1482

00:58:00,390 --> 00:57:58,880

report

1483

00:58:02,309 --> 00:58:00,400

but on the other page interesting this

1484

00:58:04,549 --> 00:58:02,319

fellow ralph noyes

1485

00:58:06,230 --> 00:58:04,559

he was in nick pope's old position when

1486

00:58:09,670 --> 00:58:06,240

it was ds-8

1487

00:58:11,990 --> 00:58:09,680

and he became one of the leaders in the

1488

00:58:14,309 --> 00:58:12,000

center for crop circle studies and i

1489

00:58:16,549 --> 00:58:14,319

reckon even then they realized these

1490

00:58:18,950 --> 00:58:16,559

crop circles in the 80s were of interest

1491

00:58:20,470 --> 00:58:18,960

particularly to the mod and i reckon

1492

00:58:22,950 --> 00:58:20,480

noise

1493

00:58:24,710 --> 00:58:22,960

was told to get his foot under the table

1494

00:58:27,109 --> 00:58:24,720

with the ccs

1495

00:58:28,789 --> 00:58:27,119

and report back what people are making

1496

00:58:31,349 --> 00:58:28,799

of the crop circles

1497

00:58:32,150 --> 00:58:31,359

anyway that's all history now

1498

00:58:33,190 --> 00:58:32,160

um

1499

00:58:36,150 --> 00:58:33,200

so

1500

00:58:37,109 --> 00:58:36,160

there we are a ufologist called dr david

1501

00:58:39,510 --> 00:58:37,119

clarke

1502

00:58:41,030 --> 00:58:39,520

has written about this case right

1503

00:58:42,870 --> 00:58:41,040

no mention of it

1504

00:58:46,150 --> 00:58:42,880

and then he produces for this bloody

1505

00:58:46,160 --> 00:58:52,470

closed encounters of a third kind

1506

00:58:57,589 --> 00:58:54,789

so he's written all negative things

1507

00:58:59,589 --> 00:58:57,599

about ufos saying it's closed down

1508

00:59:00,390 --> 00:58:59,599

because nothing happening and here's a

1509

00:59:03,510 --> 00:59:00,400

man

1510

00:59:06,309 --> 00:59:03,520

who's put this case in his book

1511

00:59:08,549 --> 00:59:06,319

talk about doing a flip

1512

00:59:10,390 --> 00:59:08,559

how well

1513

00:59:17,510 --> 00:59:10,400

anyway right i'm changing chat now come

1514

00:59:21,510 --> 00:59:19,430

this is very interesting because

1515

00:59:23,349 --> 00:59:21,520

it's not involving the raf or the

1516

00:59:24,950 --> 00:59:23,359

military but it's uh

1517

00:59:28,630 --> 00:59:24,960

i mean most people do you know general

1518

00:59:29,990 --> 00:59:28,640

bank and cheshire most people will do

1519

00:59:35,430 --> 00:59:30,000

um

1520

00:59:37,190 --> 00:59:35,440

big event there

1521

00:59:38,870 --> 00:59:37,200

with three very good witnesses who i

1522

00:59:40,549 --> 00:59:38,880

interviewed who live in the village of

1523

00:59:41,349 --> 00:59:40,559

the gu street just round the road from

1524

00:59:42,390 --> 00:59:41,359

the

1525

00:59:43,670 --> 00:59:42,400

thingy

1526

00:59:47,589 --> 00:59:43,680

and this was a

1527

00:59:48,390 --> 00:59:47,599

18th of august 96

1528

00:59:50,150 --> 00:59:48,400

and

1529

00:59:51,349 --> 00:59:50,160

it was a sunday

1530

00:59:53,829 --> 00:59:51,359

and

1531

00:59:55,109 --> 00:59:53,839

the lady mary brickhill i mean

1532

00:59:56,230 --> 00:59:55,119

originally she didn't want to mention

1533

00:59:57,670 --> 00:59:56,240

her name

1534

00:59:59,430 --> 00:59:57,680

because she had a senior position of

1535

01:00:00,950 --> 00:59:59,440

management within the british red cross

1536

01:00:02,630 --> 01:00:00,960

hq in knottsford

1537

01:00:04,309 --> 01:00:02,640

so she was worried like people are the

1538

01:00:05,750 --> 01:00:04,319

more professional people are they're

1539

01:00:07,430 --> 01:00:05,760

more reluctant

1540

01:00:09,109 --> 01:00:07,440

to make statements

1541

01:00:11,829 --> 01:00:09,119

you know apart from problem with their

1542

01:00:13,750 --> 01:00:11,839

job but being ridiculed which is a shame

1543

01:00:15,910 --> 01:00:13,760

so she was driving her parents who lived

1544

01:00:19,109 --> 01:00:15,920

in a flat in mattelsfield back after

1545

01:00:21,589 --> 01:00:19,119

being at the sunday lunch

1546

01:00:21,599 --> 01:00:27,750

just a picture of the entrance

1547

01:00:32,069 --> 01:00:28,630

that's just

1548

01:00:36,630 --> 01:00:34,470

an aerial view

1549

01:00:38,549 --> 01:00:36,640

uh i point out this is their main laden

1550

01:00:40,390 --> 01:00:38,559

control room

1551
01:00:46,630 --> 01:00:40,400
so you can see the distance from the

1552
01:00:49,670 --> 01:00:48,069
now there's a lot online they were

1553
01:00:51,670 --> 01:00:49,680
traveling down this battling called

1554
01:00:53,430 --> 01:00:51,680
bomish lane

1555
01:00:56,069 --> 01:00:53,440
so they were sort of here somewhere so

1556
01:00:58,870 --> 01:00:56,079
they got a very good sight of the of the

1557
01:01:01,190 --> 01:00:58,880
dish this is the main crew london line

1558
01:01:03,990 --> 01:01:01,200
railway line

1559
01:01:06,230 --> 01:01:04,000
and this is what they saw

1560
01:01:07,670 --> 01:01:06,240
so the dish was at an angle so i found

1561
01:01:08,870 --> 01:01:07,680
established it was being in use at the

1562
01:01:10,390 --> 01:01:08,880
time when it

1563
01:01:12,470 --> 01:01:10,400

parked vertically up it usually means

1564

01:01:13,270 --> 01:01:12,480

it's not operating it was that sort of

1565

01:01:14,870 --> 01:01:13,280

angle

1566

01:01:18,470 --> 01:01:14,880

and they realized that some sort of

1567

01:01:19,750 --> 01:01:18,480

object a couple of hundred feet above

1568

01:01:23,190 --> 01:01:19,760

with a

1569

01:01:25,109 --> 01:01:23,200

group of three little lights on the end

1570

01:01:26,230 --> 01:01:25,119

and a father who sat in the back he was

1571

01:01:28,950 --> 01:01:26,240

um

1572

01:01:31,430 --> 01:01:28,960

in the royal observer core in the war

1573

01:01:34,069 --> 01:01:31,440

uh and what really grabbed him was the

1574

01:01:37,430 --> 01:01:34,079

fact this soft beamed light was not

1575

01:01:38,710 --> 01:01:37,440

diverging it was totally parallel

1576

01:01:40,309 --> 01:01:38,720

filling

1577

01:01:44,390 --> 01:01:40,319

you know a third of the diameter of the

1578

01:01:46,470 --> 01:01:44,400

dish which is about 200 feet or so

1579

01:01:49,030 --> 01:01:46,480

and that's what really

1580

01:01:51,430 --> 01:01:49,040

got him fired up because physically

1581

01:01:54,150 --> 01:01:51,440

a beam of light will diverge and locate

1582

01:01:55,270 --> 01:01:54,160

lasers beams take a longer time to

1583

01:01:57,829 --> 01:01:55,280

separate

1584

01:01:59,910 --> 01:01:57,839

as these do you know

1585

01:02:01,030 --> 01:01:59,920

but nevertheless

1586

01:02:02,630 --> 01:02:01,040

got to him

1587

01:02:04,549 --> 01:02:02,640

but they didn't stop i think he was a

1588

01:02:06,470 --> 01:02:04,559

bit they were a bit frightened and there

1589

01:02:09,109 --> 01:02:06,480

was a twisted dart lane which is and

1590

01:02:10,630 --> 01:02:09,119

it's dark and more or less

1591

01:02:13,910 --> 01:02:10,640

so they carried on to mackinstrine and

1592

01:02:15,990 --> 01:02:13,920

she dropped them off in the flat

1593

01:02:17,829 --> 01:02:16,000

and that took about 50 minutes to get

1594

01:02:19,990 --> 01:02:17,839

them home and when she returned

1595

01:02:22,390 --> 01:02:20,000

on bomber's lane she was shocked and

1596

01:02:24,630 --> 01:02:22,400

horrified an hour later to see it still

1597

01:02:26,309 --> 01:02:24,640

there

1598

01:02:29,190 --> 01:02:26,319

they weren't certain of whether it was a

1599

01:02:30,549 --> 01:02:29,200

disc or a cylinder shape because of the

1600

01:02:34,390 --> 01:02:30,559

angle

1601

01:02:37,190 --> 01:02:34,400

so you don't really know for sure

1602

01:02:40,549 --> 01:02:39,430

she tried to get her husband to get in

1603

01:02:42,789 --> 01:02:40,559

the car

1604

01:02:45,270 --> 01:02:42,799

and come out and back to her and see it

1605

01:02:47,670 --> 01:02:45,280

so it was a sunday evening had a few

1606

01:02:49,510 --> 01:02:47,680

glasses of wine and his slippers on and

1607

01:02:50,710 --> 01:02:49,520

he declined to do that but he regretted

1608

01:02:52,630 --> 01:02:50,720

it later

1609

01:02:53,589 --> 01:02:52,640

because he had no reason to distrust his

1610

01:02:55,349 --> 01:02:53,599

wife

1611

01:02:58,470 --> 01:02:55,359

and what she'd seen

1612

01:03:00,230 --> 01:02:58,480

so i spent a long time

1613

01:03:01,510 --> 01:03:00,240

looking at all the properties that had a

1614

01:03:04,069 --> 01:03:01,520

visual

1615

01:03:05,910 --> 01:03:04,079

view from the farm or our house

1616

01:03:08,309 --> 01:03:05,920

could see the main dish who might have

1617

01:03:09,990 --> 01:03:08,319

witnessed it and i think he looked at i

1618

01:03:13,109 --> 01:03:10,000

don't know

1619

01:03:15,190 --> 01:03:13,119

12 or so maybe more properties

1620

01:03:16,950 --> 01:03:15,200

and drew a blank

1621

01:03:18,230 --> 01:03:16,960

then i found through a different but

1622

01:03:19,109 --> 01:03:18,240

youtube related through a different

1623

01:03:21,430 --> 01:03:19,119

reason

1624

01:03:23,829 --> 01:03:21,440

one farmer and one farmer missed i was

1625

01:03:25,190 --> 01:03:23,839

actually on bomish lane

1626

01:03:27,430 --> 01:03:25,200

and uh

1627

01:03:30,950 --> 01:03:27,440

his wife had to be show for driving i

1628

01:03:33,430 --> 01:03:30,960

did a show for driving and retiring

1629

01:03:35,829 --> 01:03:33,440

she worked for pharmaceutical selling

1630

01:03:37,990 --> 01:03:35,839

stuff and

1631

01:03:39,910 --> 01:03:38,000

she saw yes he saw it

1632

01:03:41,750 --> 01:03:39,920

so i went to interview him a lot planned

1633

01:03:43,270 --> 01:03:41,760

to interview him he agreed to it then he

1634

01:03:44,950 --> 01:03:43,280

changed his mind

1635

01:03:46,470 --> 01:03:44,960

a lot of people do

1636

01:03:48,470 --> 01:03:46,480

why i don't know he didn't want to talk

1637

01:03:53,270 --> 01:03:48,480

about it so he passed me

1638

01:03:56,150 --> 01:03:54,630

and sort of

1639

01:03:58,950 --> 01:03:56,160

telescope

1640

01:04:00,309 --> 01:03:58,960

so i went to see this chat and

1641

01:04:02,630 --> 01:04:00,319

it was something totally different a

1642

01:04:05,190 --> 01:04:02,640

different date and more recent i think

1643

01:04:07,670 --> 01:04:05,200

2004-ish

1644

01:04:09,990 --> 01:04:07,680

so a lot of time going on all this and

1645

01:04:12,150 --> 01:04:10,000

he said i went up i got to be the night

1646

01:04:14,069 --> 01:04:12,160

about three o'clock four o'clock i think

1647

01:04:15,750 --> 01:04:14,079

it was four o'clock to go to the toilet

1648

01:04:19,190 --> 01:04:15,760

and his bathroom window

1649

01:04:22,309 --> 01:04:19,200

sort of overlooked the dish

1650

01:04:24,069 --> 01:04:22,319

but what attracted him he heard a noise

1651

01:04:25,670 --> 01:04:24,079

and to him he said it sounded like a

1652

01:04:27,270 --> 01:04:25,680

world war ii

1653

01:04:29,670 --> 01:04:27,280

fighter plane like a spitfire a

1654

01:04:31,829 --> 01:04:29,680

hurricane

1655

01:04:33,589 --> 01:04:31,839

and it looked like it had some sort of

1656

01:04:35,430 --> 01:04:33,599

lights on him but he couldn't be sure

1657

01:04:37,670 --> 01:04:35,440

but it was going around in very tight

1658

01:04:39,589 --> 01:04:37,680

circles above the dish

1659

01:04:41,109 --> 01:04:39,599

well no one's going to fly historical

1660

01:04:42,390 --> 01:04:41,119

aircraft

1661

01:04:45,029 --> 01:04:42,400

three or four in the morning in the

1662

01:04:47,829 --> 01:04:45,039

pitch door not a lot of pilots have got

1663

01:04:48,950 --> 01:04:47,839

night flying clearance anyway

1664

01:04:51,349 --> 01:04:48,960

and

1665

01:04:52,789 --> 01:04:51,359

the ets are known to

1666

01:04:55,589 --> 01:04:52,799

mimic

1667

01:04:57,430 --> 01:04:55,599

our technologies whether it be a car

1668

01:04:59,589 --> 01:04:57,440

plane or whatever

1669

01:05:01,190 --> 01:04:59,599

but get the error wrong

1670

01:05:03,109 --> 01:05:01,200

you know so that they want to mask their

1671

01:05:06,309 --> 01:05:03,119

craft so it was certainly a ufo in my

1672

01:05:08,789 --> 01:05:06,319

book pretending to be a spider hurricane

1673

01:05:11,109 --> 01:05:08,799

or a spitfire or something circulating

1674

01:05:14,470 --> 01:05:11,119

around do you think well why

1675

01:05:20,150 --> 01:05:17,270

oh this is a simulated night shot i took

1676

01:05:22,390 --> 01:05:20,160

thinking the guy took it

1677

01:05:24,150 --> 01:05:22,400

now this is a view of the laboratories i

1678

01:05:26,789 --> 01:05:24,160

took quite recently

1679

01:05:28,470 --> 01:05:26,799

so anyway i decided to you know

1680

01:05:31,589 --> 01:05:28,480

bite the bullet and i went to jodrell

1681

01:05:33,670 --> 01:05:31,599

bank to try to speak to someone on the

1682

01:05:34,870 --> 01:05:33,680

engineering side you know with the

1683

01:05:35,910 --> 01:05:34,880

public

1684

01:05:39,589 --> 01:05:35,920

and

1685

01:05:43,670 --> 01:05:39,599

a very lovely

1686

01:05:45,430 --> 01:05:43,680

super impressive planetarium at the time

1687

01:05:46,789 --> 01:05:45,440

so i went in there and i was pointing to

1688

01:05:48,710 --> 01:05:46,799

this guy

1689

01:05:50,950 --> 01:05:48,720

who was

1690

01:05:51,910 --> 01:05:50,960

operating as a volunteer the planetarium

1691

01:05:55,349 --> 01:05:51,920

system

1692

01:05:57,029 --> 01:05:55,359

turned out it was a ex down air pilot

1693

01:05:59,190 --> 01:05:57,039

i remember down there we used to call

1694

01:06:01,270 --> 01:05:59,200

them dan dare actually

1695

01:06:03,430 --> 01:06:01,280

no no no

1696

01:06:05,109 --> 01:06:03,440

longer on that airline anyway he wasn't

1697

01:06:07,510 --> 01:06:05,119

phased what i'd tell him so i said i

1698

01:06:08,630 --> 01:06:07,520

want to look speak to someone and look

1699

01:06:12,230 --> 01:06:08,640

at the

1700

01:06:13,589 --> 01:06:12,240

operational log for the night of

1701

01:06:17,190 --> 01:06:13,599

uh

1702

01:06:18,549 --> 01:06:17,200

18th of august 96. yeah

1703

01:06:21,270 --> 01:06:18,559

so it was like three weeks later now

1704

01:06:22,870 --> 01:06:21,280

after the event at least

1705

01:06:25,190 --> 01:06:22,880

so he went to this door pressed all the

1706

01:06:27,109 --> 01:06:25,200

little buttons to get in

1707

01:06:28,950 --> 01:06:27,119

disappeared for about five minutes or

1708

01:06:31,190 --> 01:06:28,960

maybe a bit longer

1709

01:06:33,430 --> 01:06:31,200

and the door opened and this very nasty

1710

01:06:36,150 --> 01:06:33,440

aggressive woman just came storming at

1711

01:06:38,870 --> 01:06:36,160

me he slunk off presumably had his ear

1712

01:06:40,470 --> 01:06:38,880

tube for raising the topic and

1713

01:06:42,950 --> 01:06:40,480

someone like me entertaining someone

1714

01:06:46,309 --> 01:06:42,960

like me to ask questions so she denied

1715

01:06:49,270 --> 01:06:46,319

flatly to let me see the log denying

1716

01:06:50,069 --> 01:06:49,280

there'd been any happening and so on

1717

01:06:51,990 --> 01:06:50,079

and

1718

01:06:53,589 --> 01:06:52,000

really wanted me off the premises

1719

01:06:55,109 --> 01:06:53,599

so

1720

01:06:56,870 --> 01:06:55,119

you know

1721

01:06:58,069 --> 01:06:56,880

just another view of the windows here

1722

01:07:00,230 --> 01:06:58,079

which

1723

01:07:02,069 --> 01:07:00,240

so they're looking at their main thing

1724

01:07:03,510 --> 01:07:02,079

now around that time

1725

01:07:05,430 --> 01:07:03,520

another member of the macclesfield

1726

01:07:08,150 --> 01:07:05,440

astronomical society was a fellow called

1727

01:07:10,950 --> 01:07:08,160

keith griffiths who worked with me in

1728

01:07:13,430 --> 01:07:10,960

ndt in fact keith eventually took my job

1729

01:07:15,349 --> 01:07:13,440

when i took early retirement

1730

01:07:17,190 --> 01:07:15,359

but at the time you know i was still

1731

01:07:18,549 --> 01:07:17,200

working there and keith was

1732

01:07:20,950 --> 01:07:18,559

and he said oh

1733

01:07:23,829 --> 01:07:20,960

would you like to give us a talk on ufos

1734

01:07:26,390 --> 01:07:23,839

you know as an astronomical society

1735

01:07:27,829 --> 01:07:26,400

yeah so i said yeah fine fine

1736

01:07:30,630 --> 01:07:27,839

and the venue was to be in the

1737

01:07:32,789 --> 01:07:30,640

planetarium at georgia bank

1738

01:07:35,109 --> 01:07:32,799

so you can guess what happened

1739

01:07:37,430 --> 01:07:35,119

when you put notices up to

1740

01:07:40,309 --> 01:07:37,440

the fact that as i was speaking on this

1741

01:07:42,150 --> 01:07:40,319

topic on this state and the planetarium

1742

01:07:43,430 --> 01:07:42,160

they've swiftly slammed down on that and

1743

01:07:45,029 --> 01:07:43,440

they said to

1744

01:07:46,870 --> 01:07:45,039

keith or one of his colleagues on the

1745

01:07:48,870 --> 01:07:46,880

committee no way

1746

01:07:51,670 --> 01:07:48,880

is any ufologist going to talk about

1747

01:07:54,309 --> 01:07:51,680

ufos on the premises of general mountain

1748

01:07:56,230 --> 01:07:54,319

radio telescope especially someone like

1749

01:07:57,430 --> 01:07:56,240

me so they had to pull the plugs on the

1750

01:07:59,670 --> 01:07:57,440

torque

1751

01:08:01,750 --> 01:07:59,680

and i'll tell you something

1752

01:08:03,430 --> 01:08:01,760

anyway

1753

01:08:04,950 --> 01:08:03,440

this is the control room and you can

1754

01:08:07,029 --> 01:08:04,960

quite see

1755

01:08:09,109 --> 01:08:07,039

they've got good visual of the dish they

1756

01:08:10,390 --> 01:08:09,119

might not have seen a craft 200 foot

1757

01:08:12,710 --> 01:08:10,400

unless they went to the window and

1758

01:08:14,549 --> 01:08:12,720

peered off what stepped outside

1759

01:08:16,709 --> 01:08:14,559

to see the the thing beaming down has

1760

01:08:19,269 --> 01:08:16,719

been applied

1761

01:08:20,950 --> 01:08:19,279

so i was intrigued to know if this

1762

01:08:22,550 --> 01:08:20,960

light beam was doing

1763

01:08:23,590 --> 01:08:22,560

some energy which would interrupt the

1764

01:08:24,870 --> 01:08:23,600

program

1765

01:08:27,349 --> 01:08:24,880

that whatever they were doing and it

1766

01:08:30,950 --> 01:08:27,359

clearly was

1767

01:08:35,309 --> 01:08:32,390

oh yes i'm talking about stanton

1768

01:08:37,590 --> 01:08:35,319

friedman which was a

1769

01:08:41,990 --> 01:08:37,600

garage conference in home for two years

1770

01:08:48,229 --> 01:08:44,390

i got actually in touch with

1771

01:08:50,149 --> 01:08:48,239

dr ian morrison who was in charge of the

1772

01:08:51,110 --> 01:08:50,159

stuff there at the time i'll go back to

1773

01:08:52,550 --> 01:08:51,120

the

1774

01:08:54,789 --> 01:08:52,560

picture

1775

01:08:56,870 --> 01:08:54,799

uh he'd been on holiday and he came back

1776

01:08:59,349 --> 01:08:56,880

on that monday the 19th

1777

01:09:02,070 --> 01:08:59,359

and it's been to a lecture he gave in

1778

01:09:05,189 --> 01:09:02,080

pointing at my sister's church it's a

1779

01:09:06,870 --> 01:09:05,199

man's place in the universe was his talk

1780

01:09:09,030 --> 01:09:06,880

she's very good

1781

01:09:11,910 --> 01:09:09,040

so at the end i went to chat to him as

1782

01:09:14,070 --> 01:09:11,920

people do and i said i was into ufology

1783

01:09:15,669 --> 01:09:14,080

i'd been for a while blah blah

1784

01:09:17,510 --> 01:09:15,679

and i said to him

1785

01:09:20,630 --> 01:09:17,520

do you really think

1786

01:09:22,870 --> 01:09:20,640

that the aliens would have operators

1787

01:09:23,990 --> 01:09:22,880

to pick up our old-fashioned radio

1788

01:09:27,030 --> 01:09:24,000

signals

1789

01:09:29,349 --> 01:09:27,040

and have equipment capable of sending a

1790

01:09:32,470 --> 01:09:29,359

return message

1791

01:09:34,630 --> 01:09:32,480

and bear in mind this was before general

1792

01:09:36,870 --> 01:09:34,640

bank was very lucrative

1793

01:09:38,390 --> 01:09:36,880

contract from the seti programs and the

1794

01:09:40,709 --> 01:09:38,400

americans

1795

01:09:42,630 --> 01:09:40,719

to take part in the

1796

01:09:45,269 --> 01:09:42,640

city

1797

01:09:48,070 --> 01:09:45,279

so he said at the time no no you're

1798

01:09:50,390 --> 01:09:48,080

right i think they would you know so i

1799

01:09:51,990 --> 01:09:50,400

know as you were saying sending radio

1800

01:09:55,110 --> 01:09:52,000

signals out for an answer but it was a

1801
01:09:57,189 --> 01:09:55,120
waste of time before seti became the

1802
01:09:58,870 --> 01:09:57,199
topic of conversation

1803
01:10:05,030 --> 01:09:58,880
so

1804
01:10:06,470 --> 01:10:05,040
santa t freeman said that famous

1805
01:10:09,430 --> 01:10:06,480
statement he had

1806
01:10:11,350 --> 01:10:09,440
seti is a stands for a silly effort to

1807
01:10:13,189 --> 01:10:11,360
investigate

1808
01:10:16,870 --> 01:10:13,199
he's very apt

1809
01:10:17,990 --> 01:10:16,880
i think he's bang on the nail there

1810
01:10:19,990 --> 01:10:18,000
now

1811
01:10:21,990 --> 01:10:20,000
this is the planetarium sorry not the

1812
01:10:25,270 --> 01:10:22,000
planetarium's gone from thinking of

1813
01:10:27,110 --> 01:10:25,280

building a new one sadly but hopefully

1814

01:10:29,189 --> 01:10:27,120

but they've got the public area there's

1815

01:10:31,270 --> 01:10:29,199

a lot of think active things that

1816

01:10:32,870 --> 01:10:31,280

physicists do particularly youngsters

1817

01:10:35,189 --> 01:10:32,880

and these are two of my grandsons who

1818

01:10:35,990 --> 01:10:35,199

are four and five and just to the right

1819

01:10:38,470 --> 01:10:36,000

of

1820

01:10:42,310 --> 01:10:38,480

where they are is this notice which i

1821

01:10:45,110 --> 01:10:43,830

i'll read it if you want to read it from

1822

01:10:47,750 --> 01:10:45,120

the bottom

1823

01:10:49,830 --> 01:10:47,760

uh astronomers are

1824

01:10:51,910 --> 01:10:49,840

discovering new planets in which alien

1825

01:10:53,750 --> 01:10:51,920

life might exist telescopes are used to

1826

01:10:55,510 --> 01:10:53,760

search for messages from alien

1827

01:10:58,149 --> 01:10:55,520

civilization

1828

01:11:00,229 --> 01:10:58,159

seti looking for clever aliens

1829

01:11:02,310 --> 01:11:00,239

astronomers have been using telescopes

1830

01:11:05,030 --> 01:11:02,320

including those here at jodrell bank and

1831

01:11:06,630 --> 01:11:05,040

the arecibo telescope from puerto rico

1832

01:11:09,110 --> 01:11:06,640

to looking for messages being beamed

1833

01:11:11,669 --> 01:11:09,120

towards us by aliens living on

1834

01:11:13,430 --> 01:11:11,679

planets orbiting other stars

1835

01:11:15,510 --> 01:11:13,440

the search for extraterrestrial

1836

01:11:18,229 --> 01:11:15,520

intelligence seti has been going on for

1837

01:11:20,229 --> 01:11:18,239

more than 50 years right

1838

01:11:23,110 --> 01:11:20,239

although no message has yet been picked

1839

01:11:24,790 --> 01:11:23,120

up as telescopes technology improves

1840

01:11:27,110 --> 01:11:24,800

we're able to search more and more of

1841

01:11:28,709 --> 01:11:27,120

our galaxy for urgency and life

1842

01:11:31,110 --> 01:11:28,719

what's the load of cover bubbles all

1843

01:11:32,310 --> 01:11:31,120

right this is the whole seti thing is a

1844

01:11:33,110 --> 01:11:32,320

stall

1845

01:11:36,709 --> 01:11:33,120

they

1846

01:11:39,189 --> 01:11:36,719

want to be the ones to make the

1847

01:11:42,149 --> 01:11:39,199

announcement we're not alone they

1848

01:11:44,229 --> 01:11:42,159

certainly don't want bloody ufologists

1849

01:11:46,390 --> 01:11:44,239

to be doing this

1850

01:11:48,070 --> 01:11:46,400

and i think it's american policy they're

1851

01:11:49,030 --> 01:11:48,080

throwing a lot of dollars at this seti

1852

01:11:50,870 --> 01:11:49,040

idea

1853

01:11:54,709 --> 01:11:50,880

there's a fob off to make the public

1854

01:11:56,709 --> 01:11:54,719

think we are seriously looking for e.t

1855

01:11:59,030 --> 01:11:56,719

are they hell looking seriously looking

1856

01:12:01,669 --> 01:11:59,040

i think he said loaded can't develop

1857

01:12:06,229 --> 01:12:04,310

a very full picture of dr morrison who

1858

01:12:08,790 --> 01:12:06,239

is now a professor i believe and moved

1859

01:12:10,950 --> 01:12:08,800

on to wales a lovely chat all bubbly and

1860

01:12:13,189 --> 01:12:10,960

enthusiastic

1861

01:12:14,790 --> 01:12:13,199

and been on the manchester local radio

1862

01:12:17,030 --> 01:12:14,800

and local papers

1863

01:12:19,030 --> 01:12:17,040

and when they got the contract the first

1864

01:12:21,430 --> 01:12:19,040

contract they've answered some sins he

1865

01:12:23,990 --> 01:12:21,440

was all full of it what marvelous thing

1866

01:12:26,310 --> 01:12:24,000

because the telescope you know 50 years

1867

01:12:28,310 --> 01:12:26,320

old 40 years at the time was falling to

1868

01:12:29,510 --> 01:12:28,320

bits so they wanted the money from the

1869

01:12:31,750 --> 01:12:29,520

americans

1870

01:12:33,510 --> 01:12:31,760

to help maintain it i can't blame them

1871

01:12:34,390 --> 01:12:33,520

for that

1872

01:12:38,950 --> 01:12:34,400

so

1873

01:12:41,350 --> 01:12:38,960

because i want to get it word for word

1874

01:12:53,030 --> 01:12:41,360

so he was interviewed

1875

01:12:53,040 --> 01:12:57,189

this was to uh

1876

01:13:00,310 --> 01:12:58,709

occult his actual statement to the

1877

01:13:03,510 --> 01:13:00,320

newspaper

1878

01:13:05,270 --> 01:13:03,520

restates the general banks astronomers

1879

01:13:07,510 --> 01:13:05,280

overall opinion really a futility of

1880

01:13:11,189 --> 01:13:07,520

seti program even though they're happy

1881

01:13:15,750 --> 01:13:13,830

dr morrison goes on to express his

1882

01:13:18,550 --> 01:13:15,760

annoyance that none of these aliens ever

1883

01:13:20,550 --> 01:13:18,560

come to talk to us i mean they had their

1884

01:13:23,669 --> 01:13:20,560

bloody aliens for over an hour i know in

1885

01:13:25,030 --> 01:13:23,679

december 96 sorry august above their own

1886

01:13:27,510 --> 01:13:25,040

telescope

1887

01:13:29,910 --> 01:13:27,520

so i mean

1888

01:13:31,830 --> 01:13:29,920

this is what he said anyway the trouble

1889

01:13:34,709 --> 01:13:31,840

is that communication with other planets

1890

01:13:37,750 --> 01:13:34,719

takes a long time we're looking at stars

1891

01:13:39,830 --> 01:13:37,760

up to perhaps 150 light years away

1892

01:13:41,669 --> 01:13:39,840

it means that if we ever did pick up any

1893

01:13:43,669 --> 01:13:41,679

message it could have been sent up to

1894

01:13:45,510 --> 01:13:43,679

150 years ago

1895

01:13:46,550 --> 01:13:45,520

and of course if we actually sent a

1896

01:13:49,590 --> 01:13:46,560

reply

1897

01:13:51,910 --> 01:13:49,600

that will be 300 years later so you can

1898

01:13:53,830 --> 01:13:51,920

see that interstellar communication is a

1899

01:13:55,510 --> 01:13:53,840

slow process

1900

01:13:57,350 --> 01:13:55,520

i think joshua bank

1901

01:13:58,870 --> 01:13:57,360

would still be around to receive the

1902

01:14:01,510 --> 01:13:58,880

signal back

1903

01:14:03,430 --> 01:14:01,520

so in a way he's sort of pouring cold

1904

01:14:05,830 --> 01:14:03,440

water on the set everything but being

1905

01:14:06,790 --> 01:14:05,840

keen to have it

1906

01:14:08,950 --> 01:14:06,800

now

1907

01:14:10,470 --> 01:14:08,960

asked about aliens and what they may

1908

01:14:12,709 --> 01:14:10,480

look like

1909

01:14:14,709 --> 01:14:12,719

he was not prepared to take the word of

1910

01:14:17,510 --> 01:14:14,719

alien abductees

1911

01:14:19,830 --> 01:14:17,520

so american is aware of

1912

01:14:22,950 --> 01:14:19,840

the abduction

1913

01:14:24,310 --> 01:14:22,960

scenarios isn't it to say that

1914

01:14:27,430 --> 01:14:24,320

so

1915

01:14:29,910 --> 01:14:27,440

um his response was this is not meant to

1916

01:14:31,990 --> 01:14:29,920

sound big-headed but if i were going to

1917

01:14:34,870 --> 01:14:32,000

visit and i wanted to make contact with

1918

01:14:36,950 --> 01:14:34,880

people there meaning here

1919

01:14:38,950 --> 01:14:36,960

i would deliberately aim to talk to

1920

01:14:40,950 --> 01:14:38,960

scientists and astronomers and people

1921

01:14:42,870 --> 01:14:40,960

like that because they at least would

1922

01:14:45,510 --> 01:14:42,880

have something in common

1923

01:14:47,350 --> 01:14:45,520

that's what he said to the press

1924

01:14:53,110 --> 01:14:47,360

it annoys me that none of these aliens

1925

01:14:53,120 --> 01:14:56,550

there you go

1926

01:14:59,590 --> 01:14:57,990

this is another view and control them

1927

01:15:01,270 --> 01:14:59,600

some years ago

1928

01:15:02,870 --> 01:15:01,280

and this is

1929

01:15:03,910 --> 01:15:02,880

professor

1930

01:15:06,790 --> 01:15:03,920

lovell

1931

01:15:10,390 --> 01:15:06,800

on the control desk up here

1932

01:15:12,550 --> 01:15:10,400

sadly now deceased

1933

01:15:15,990 --> 01:15:12,560

another view of the control room so you

1934

01:15:19,030 --> 01:15:16,000

can see they've got a good view

1935

01:15:25,110 --> 01:15:22,149

i'm not an mp or xmp now

1936

01:15:26,870 --> 01:15:25,120

so also visiting this is professor tim

1937

01:15:28,790 --> 01:15:26,880

o'brien on the right

1938

01:15:32,630 --> 01:15:28,800

talking to george osborne

1939

01:15:34,229 --> 01:15:32,640

about two years ago i think yes 2015.

1940

01:15:37,669 --> 01:15:34,239

so i think george was asking if he got

1941

01:15:41,510 --> 01:15:39,750

so you might have said well it's out of

1942

01:15:43,350 --> 01:15:41,520

ours it's minimum wage you've got to sit

1943

01:15:45,030 --> 01:15:43,360

in an uncomfortable chair all night

1944

01:15:47,669 --> 01:15:45,040

looking through the window

1945

01:15:49,030 --> 01:15:47,679

uh to record any ufo visits

1946

01:15:53,110 --> 01:15:49,040

so i think he said oh i've got more

1947

01:15:53,120 --> 01:15:56,550

just my joke

1948

01:16:01,189 --> 01:15:58,790

yeah

1949

01:16:03,030 --> 01:16:01,199

now i put this picture back because in

1950

01:16:04,630 --> 01:16:03,040

connection with this

1951

01:16:09,750 --> 01:16:04,640

um

1952

01:16:13,590 --> 01:16:12,149

yeah last september i think

1953

01:16:15,030 --> 01:16:13,600

uh

1954

01:16:16,950 --> 01:16:15,040

from a brother-in-law or

1955

01:16:18,870 --> 01:16:16,960

ex-brother-in-law

1956

01:16:20,229 --> 01:16:18,880

um

1957

01:16:22,470 --> 01:16:20,239

there there's a chat with me i can't say

1958

01:16:24,470 --> 01:16:22,480

who he is because

1959

01:16:27,270 --> 01:16:24,480

uh he might be in trouble

1960

01:16:29,750 --> 01:16:27,280

with joshua bank but he worked there

1961

01:16:31,669 --> 01:16:29,760

and i recounted the story very briefly

1962

01:16:33,669 --> 01:16:31,679

as i've said to you all this afternoon

1963

01:16:37,350 --> 01:16:33,679

and he said

1964

01:16:39,189 --> 01:16:37,360

interesting what you say because

1965

01:16:42,390 --> 01:16:39,199

when they were computerizing all the

1966

01:16:43,669 --> 01:16:42,400

records from day one from 1957 when it

1967

01:16:46,070 --> 01:16:43,679

started

1968

01:16:49,510 --> 01:16:46,080

to now all the records for the month of

1969

01:16:51,990 --> 01:16:49,520

august 1996 i miss it

1970

01:16:54,310 --> 01:16:52,000

another case of hiding the evidence

1971

01:16:55,750 --> 01:16:54,320

somewhere

1972

01:16:57,669 --> 01:16:55,760

and then

1973

01:17:00,950 --> 01:16:57,679

um

1974

01:17:05,270 --> 01:17:04,149

uh yeah and the end of 2016 was august

1975

01:17:07,350 --> 01:17:05,280

it was the same

1976

01:17:10,310 --> 01:17:07,360

20 years to the day actually practically

1977

01:17:12,550 --> 01:17:10,320

21st of august a couple driving from

1978

01:17:14,470 --> 01:17:12,560

holmes chapel

1979

01:17:16,310 --> 01:17:14,480

back to mattersfield and they passed

1980

01:17:18,630 --> 01:17:16,320

very close the road the main road passes

1981

01:17:20,229 --> 01:17:18,640

close to the telescope quarter past

1982

01:17:22,790 --> 01:17:20,239

midnight it was

1983

01:17:25,270 --> 01:17:22,800

and they saw this object over the dish

1984

01:17:27,350 --> 01:17:25,280

with very sprightly

1985

01:17:29,189 --> 01:17:27,360

sparkly lights on it

1986

01:17:30,470 --> 01:17:29,199

moving into peculiar fashion the lights

1987

01:17:31,910 --> 01:17:30,480

not the craft

1988

01:17:33,430 --> 01:17:31,920

they didn't see any beam coming down

1989

01:17:35,270 --> 01:17:33,440

like that

1990

01:17:37,270 --> 01:17:35,280

so they stopped the car and got out to

1991

01:17:39,270 --> 01:17:37,280

have a better look

1992

01:17:41,350 --> 01:17:39,280

and eventually got back in the car and

1993

01:17:43,110 --> 01:17:41,360

when he got to chelford roundabout and

1994

01:17:45,270 --> 01:17:43,120

people around here don't know what i

1995

01:17:46,790 --> 01:17:45,280

mean but you're about two miles further

1996

01:17:48,310 --> 01:17:46,800

on where you turn right to go to

1997

01:17:50,149 --> 01:17:48,320

macclesfield

1998

01:17:51,910 --> 01:17:50,159

stop you can still see it

1999

01:17:54,070 --> 01:17:51,920

you know because it was like 200 foot or

2000

01:17:57,270 --> 01:17:54,080

so above

2001

01:17:59,189 --> 01:17:57,280

so the husband apparently

2002

01:18:01,830 --> 01:17:59,199

despite his wife saying it's a waste of

2003

01:18:04,070 --> 01:18:01,840

time rang jojo bank up

2004

01:18:06,070 --> 01:18:04,080

and got this chap on the phone some

2005

01:18:07,189 --> 01:18:06,080

engineer i guess or whatever a duty

2006

01:18:09,990 --> 01:18:07,199

engineer

2007

01:18:11,590 --> 01:18:10,000

who was sounded very disinterested and

2008

01:18:13,350 --> 01:18:11,600

denied all knowledge

2009

01:18:15,189 --> 01:18:13,360

and his phone call was a waste of time

2010

01:18:16,470 --> 01:18:15,199

because there was no acknowledgement

2011

01:18:19,590 --> 01:18:16,480

anything had happened

2012

01:18:22,070 --> 01:18:19,600

so i'm aware oh i forgot when i was

2013

01:18:24,830 --> 01:18:22,080

first researching the original one

2014

01:18:26,709 --> 01:18:24,840

i put an advert in the

2015

01:18:29,750 --> 01:18:26,719

local um

2016

01:18:31,350 --> 01:18:29,760

cheshire paper and the journalist there

2017

01:18:33,430 --> 01:18:31,360

brosta his name

2018

01:18:35,189 --> 01:18:33,440

pointed me to a little local freebie

2019

01:18:38,070 --> 01:18:35,199

paper in gooseberry village and where

2020

01:18:40,229 --> 01:18:38,080

the chap lived who produces handwritten

2021

01:18:42,470 --> 01:18:40,239

documents some knots on his door and he

2022

01:18:45,189 --> 01:18:42,480

hadn't seen anything but he said

2023

01:18:46,390 --> 01:18:45,199

in 1966 which was shortly after it was

2024

01:18:48,070 --> 01:18:46,400

commissioned

2025

01:18:49,510 --> 01:18:48,080

there was an object cited over the

2026

01:18:51,910 --> 01:18:49,520

telescope

2027

01:18:54,310 --> 01:18:51,920

so again there's another case of these

2028

01:18:56,709 --> 01:18:54,320

ets looking to see what we're up to in

2029

01:18:59,430 --> 01:18:56,719

technologies particularly radio

2030

01:19:01,750 --> 01:18:59,440

telescopes looking into their patch

2031

01:19:05,030 --> 01:19:01,760

so i know four instances now where

2032

01:19:06,870 --> 01:19:05,040

general bank have had witnesses to

2033

01:19:11,110 --> 01:19:06,880

solid you know

2034

01:19:15,110 --> 01:19:12,870

oh so of course we also get apart from

2035

01:19:16,500 --> 01:19:15,120

aliens you get the royals delivering all

2036

01:19:19,030 --> 01:19:16,510

people arguing the same thing

2037

01:19:21,189 --> 01:19:19,040

[Music]

2038

01:19:22,470 --> 01:19:21,199

just a joke about what the royal family

2039

01:19:24,630 --> 01:19:22,480

are

2040

01:19:26,229 --> 01:19:24,640

yeah so this is obviously a while about

2041

01:19:28,709 --> 01:19:26,239

because prince charles looks a bit

2042

01:19:30,390 --> 01:19:28,719

nervous today professor lovell i think

2043

01:19:32,229 --> 01:19:30,400

he was the local um

2044

01:19:34,870 --> 01:19:32,239

dunedin tree

2045

01:19:38,470 --> 01:19:34,880

now just quickly to end off this is the

2046

01:19:40,630 --> 01:19:38,480

aracebo radio telescope in puerto rico

2047

01:19:42,470 --> 01:19:40,640

which at the time was the biggest

2048

01:19:44,550 --> 01:19:42,480

i mean general banks that bear in mind

2049

01:19:46,550 --> 01:19:44,560

was the biggest telescope

2050

01:19:47,750 --> 01:19:46,560

steerable telescope in the whole of

2051
01:19:49,510 --> 01:19:47,760
europe

2052
01:19:51,830 --> 01:19:49,520
and this is

2053
01:19:53,830 --> 01:19:51,840
arecibo which was i don't know

2054
01:19:56,070 --> 01:19:53,840
three or four times the size

2055
01:19:59,430 --> 01:19:56,080
and pizza rico as we all know from

2056
01:20:01,270 --> 01:19:59,440
ufology is a very useful hotspot

2057
01:20:02,709 --> 01:20:01,280
and i i just

2058
01:20:04,790 --> 01:20:02,719
i imagine that

2059
01:20:06,470 --> 01:20:04,800
visited arecibo or somewhere but that's

2060
01:20:08,390 --> 01:20:06,480
never been reported

2061
01:20:10,870 --> 01:20:08,400
and then this is the latest so last year

2062
01:20:13,270 --> 01:20:10,880
the chinese one which is

2063
01:20:15,590 --> 01:20:13,280

30 times bigger than arecibo or jupiter

2064

01:20:18,470 --> 01:20:15,600

bangladesh or which

2065

01:20:22,310 --> 01:20:18,480

so the chinese usually have been

2066

01:20:24,630 --> 01:20:22,320

fairly open about ufo stuff aren't they

2067

01:20:26,790 --> 01:20:24,640

so i'm interested so to know in future

2068

01:20:28,870 --> 01:20:26,800

whether we see your news reports that

2069

01:20:30,950 --> 01:20:28,880

you know the chinese have

2070

01:20:32,390 --> 01:20:30,960

had some visits to their new radio

2071

01:20:35,510 --> 01:20:32,400

telescope so

2072

01:20:38,070 --> 01:20:35,520

if if seti's a waste of time

2073

01:20:40,470 --> 01:20:38,080

upon the why on earth are they building

2074

01:20:41,830 --> 01:20:40,480

such huge radio telescopes

2075

01:20:44,709 --> 01:20:41,840

okay there may be other things they want

2076

01:20:48,709 --> 01:20:44,719

to learn from out there not et's to be

2077

01:20:51,430 --> 01:20:49,510

oh

2078

01:20:52,550 --> 01:20:51,440

just to show this and here we are which

2079

01:20:54,229 --> 01:20:52,560

is

2080

01:20:56,550 --> 01:20:54,239

smashing picture taken by accident she

2081

01:20:58,229 --> 01:20:56,560

was photographing the the goats this is

2082

01:20:59,510 --> 01:20:58,239

in crete

2083

01:21:01,350 --> 01:20:59,520

just

2084

01:21:03,270 --> 01:21:01,360

where the

2085

01:21:05,430 --> 01:21:03,280

strong leader burgess and his crew and

2086

01:21:07,590 --> 01:21:05,440

the shackleton had their ufo encounter

2087

01:21:10,630 --> 01:21:07,600

so they do come for the sunshine

2088

01:21:16,390 --> 01:21:11,990

how many people have seen that before

2089

01:21:17,830 --> 01:21:16,400

but it's a kraken he says face it ralph

2090

01:21:21,270 --> 01:21:17,840

you've been here afternoon he's still

2091

01:21:26,709 --> 01:21:23,110

and his stanton's saying

2092

01:21:32,550 --> 01:21:26,719

remember folks flying sources are real

2093

01:21:39,030 --> 01:21:33,830

and of course they are here because

2094

01:21:45,590 --> 01:21:40,950

spaceship for rent

2095

01:21:50,149 --> 01:21:47,990

well a couple years ago i was very proud

2096

01:21:52,470 --> 01:21:50,159

and privileged to receive this award

2097

01:21:56,390 --> 01:21:52,480

from gary hesseltein at his

2098

01:21:57,990 --> 01:21:56,400

2015 conference complete surprise and i

2099

01:21:59,910 --> 01:21:58,000

was a mystery guest

2100

01:22:01,350 --> 01:21:59,920

on stage just like i did with dot street

2101
01:22:03,510 --> 01:22:01,360
in a way

2102
01:22:06,149 --> 01:22:03,520
to watford recently

2103
01:22:08,070 --> 01:22:06,159
and uh got some

2104
01:22:10,550 --> 01:22:08,080
services to british ufology or some

2105
01:22:13,669 --> 01:22:10,560
people saying disservice perhaps

2106
01:22:15,510 --> 01:22:13,679
i'm ending up with my birthday cake

2107
01:22:16,790 --> 01:22:15,520
taking an angle scene where i spent my

2108
01:22:18,870 --> 01:22:16,800
80th

2109
01:22:20,550 --> 01:22:18,880
and my family my daughter eldest

2110
01:22:21,750 --> 01:22:20,560
daughter medicaid assisted by

2111
01:22:24,390 --> 01:22:21,760
brother-in-law

2112
01:22:27,830 --> 01:22:24,400
and grandson who were into the vulcan

2113
01:22:30,229 --> 01:22:27,840

fight xh558 involving so marvelous k

2114

01:22:31,110 --> 01:22:30,239

fantastic and he even put

2115

01:22:32,229 --> 01:22:31,120

on the

2116

01:22:34,149 --> 01:22:32,239

tail there

2117

01:22:35,110 --> 01:22:34,159

xm607

2118

01:22:37,270 --> 01:22:35,120

which was

2119

01:22:40,390 --> 01:22:37,280

the vulcan that

2120

01:22:42,310 --> 01:22:40,400

martin withers dfc flew to drop his

2121

01:22:44,950 --> 01:22:42,320

bombs on port stanley

2122

01:22:53,690 --> 01:22:44,960

something else so that's that's me done

2123

01:22:53,700 --> 01:23:04,470

[Applause]

2124

01:23:11,270 --> 01:23:07,590

any questions hey

2125

01:23:14,629 --> 01:23:11,280

david um those images of the mutilations

2126

01:23:16,229 --> 01:23:14,639

of humans on the dark web you mentioned

2127

01:23:18,070 --> 01:23:16,239

um

2128

01:23:19,830 --> 01:23:18,080

is that quite a recent thing that that

2129

01:23:21,830 --> 01:23:19,840

was found i mean where was that filed i

2130

01:23:25,350 --> 01:23:21,840

don't you know the background

2131

01:23:25,360 --> 01:23:30,149

in util you know

2132

01:23:36,310 --> 01:23:31,510

brazil

2133

01:23:39,590 --> 01:23:37,750

would that have been a police person who

2134

01:23:41,669 --> 01:23:39,600

would have uploaded those photos because

2135

01:23:43,270 --> 01:23:41,679

they were concerned

2136

01:23:44,310 --> 01:23:43,280

no because we don't know who uploaded

2137

01:23:45,350 --> 01:23:44,320

them but those

2138

01:23:49,350 --> 01:23:45,360

were

2139

01:23:52,390 --> 01:23:50,629

recently

2140

01:23:53,669 --> 01:23:52,400

and i did a long

2141

01:23:56,390 --> 01:23:53,679

report

2142

01:23:58,390 --> 01:23:56,400

interchangeably about the brazilian 1998

2143

01:24:00,070 --> 01:23:58,400

case considering he was one of the main

2144

01:24:01,590 --> 01:24:00,080

promoters of that

2145

01:24:03,430 --> 01:24:01,600

and passed the information to graham

2146

01:24:05,750 --> 01:24:03,440

burzel and eventually tell me dad and

2147

01:24:07,910 --> 01:24:05,760

then tommy passed me the information way

2148

01:24:08,709 --> 01:24:07,920

back

2149

01:24:11,110 --> 01:24:08,719

and

2150

01:24:11,990 --> 01:24:11,120

but gary's conference in

2151
01:24:16,070 --> 01:24:12,000
well

2152
01:24:18,070 --> 01:24:16,080
2015 when aj was speaking

2153
01:24:19,430 --> 01:24:18,080
i took him that picture of that young

2154
01:24:22,310 --> 01:24:19,440
man

2155
01:24:24,310 --> 01:24:22,320
he made a print for him and he

2156
01:24:26,390 --> 01:24:24,320
grew up in the in the hotel just outside

2157
01:24:27,910 --> 01:24:26,400
his room and he sort of took it to the

2158
01:24:29,750 --> 01:24:27,920
window as a light looked and made no

2159
01:24:31,189 --> 01:24:29,760
comment and then we went downstairs to

2160
01:24:33,510 --> 01:24:31,199
the bar to have a drink because i

2161
01:24:36,390 --> 01:24:33,520
haven't seen him since 2006 since the

2162
01:24:38,870 --> 01:24:36,400
nourishing national ufo conference in

2163
01:24:39,990 --> 01:24:38,880

carrick on shannon

2164

01:24:41,510 --> 01:24:40,000

and he

2165

01:24:44,229 --> 01:24:41,520

he never made comments that was a bit

2166

01:24:46,709 --> 01:24:44,239

odd anyway the conference did a meal in

2167

01:24:47,990 --> 01:24:46,719

the bar at the indian restaurant he'd

2168

01:24:49,990 --> 01:24:48,000

had a few

2169

01:24:51,830 --> 01:24:50,000

beers and he was

2170

01:24:53,590 --> 01:24:51,840

richard was there as well just ordering

2171

01:24:55,750 --> 01:24:53,600

a drink

2172

01:24:57,189 --> 01:24:55,760

and then richard he told it to richard

2173

01:24:58,629 --> 01:24:57,199

first and richard disappeared in the

2174

01:25:00,149 --> 01:24:58,639

toilet

2175

01:25:01,990 --> 01:25:00,159

and he said to me

2176
01:25:04,870 --> 01:25:02,000
i'm very sorry about this david he said

2177
01:25:06,950 --> 01:25:04,880
i'm very sorry but this man's injuries

2178
01:25:09,910 --> 01:25:06,960
were down to

2179
01:25:11,910 --> 01:25:09,920
rats and vultures

2180
01:25:13,590 --> 01:25:11,920
and i couldn't believe my ears what he

2181
01:25:14,950 --> 01:25:13,600
was saying and i said

2182
01:25:17,350 --> 01:25:14,960
there's a

2183
01:25:19,590 --> 01:25:17,360
publisher have a copy translated into

2184
01:25:20,950 --> 01:25:19,600
english of the two medics who did his

2185
01:25:23,030 --> 01:25:20,960
post-mortem

2186
01:25:25,590 --> 01:25:23,040
clearly saying apart from the poor man

2187
01:25:28,149 --> 01:25:25,600
was alive he had vital

2188
01:25:30,149 --> 01:25:28,159

reactions to injuries which

2189

01:25:32,870 --> 01:25:30,159

aren't my pathologist he looked at the

2190

01:25:34,390 --> 01:25:32,880

itches confirmed that the bluish was

2191

01:25:37,270 --> 01:25:34,400

the fact that he was alive and this

2192

01:25:38,950 --> 01:25:37,280

bluey bruising is the fact that you know

2193

01:25:40,709 --> 01:25:38,960

there's blood there

2194

01:25:42,470 --> 01:25:40,719

and he eventually died of

2195

01:25:45,189 --> 01:25:42,480

attack heart attack due to the shock and

2196

01:25:48,550 --> 01:25:45,199

pain of the injuries he was receiving

2197

01:25:52,870 --> 01:25:50,709

saying it was now and it turned out on a

2198

01:25:54,870 --> 01:25:52,880

lot back of stuff he'd been saying that

2199

01:25:58,310 --> 01:25:54,880

since 2002.

2200

01:26:00,709 --> 01:25:58,320

so i i postulated and said to him

2201
01:26:02,870 --> 01:26:00,719
i suggested to him through emails have

2202
01:26:05,350 --> 01:26:02,880
you been warned off because

2203
01:26:06,390 --> 01:26:05,360
the lecture he gave for gary was all

2204
01:26:10,070 --> 01:26:06,400
about

2205
01:26:11,910 --> 01:26:10,080
some years ago the brazilian air force

2206
01:26:13,669 --> 01:26:11,920
and the brazilian authorities released

2207
01:26:15,350 --> 01:26:13,679
all their ufo stuff

2208
01:26:18,790 --> 01:26:15,360
and him and her colleagues sat in

2209
01:26:20,790 --> 01:26:18,800
meetings with all this brass hats

2210
01:26:22,229 --> 01:26:20,800
handing over all this information from

2211
01:26:24,950 --> 01:26:22,239
their air force about you felt so i

2212
01:26:26,950 --> 01:26:24,960
thought have has the deal being we give

2213
01:26:29,510 --> 01:26:26,960

you this stuff but you must no longer

2214

01:26:31,270 --> 01:26:29,520

promote human mutilation

2215

01:26:33,430 --> 01:26:31,280

but he strongly denied it like i'm

2216

01:26:35,910 --> 01:26:33,440

seeing no motive

2217

01:26:38,550 --> 01:26:35,920

because he's an intelligent bloke and

2218

01:26:40,790 --> 01:26:38,560

that explains why he was cool and never

2219

01:26:43,270 --> 01:26:40,800

commented on the image that

2220

01:26:45,590 --> 01:26:43,280

that young man showed him

2221

01:26:47,350 --> 01:26:45,600

to me because he knew

2222

01:26:50,070 --> 01:26:47,360

he was in trouble but

2223

01:26:54,070 --> 01:26:50,080

the young lady the sandra

2224

01:26:55,990 --> 01:26:54,080

hart benedict hyphenated surname

2225

01:26:57,830 --> 01:26:56,000

he seemed to be aware of he tried to say

2226

01:26:59,270 --> 01:26:57,840

that was some sort of

2227

01:27:01,110 --> 01:26:59,280

um

2228

01:27:03,030 --> 01:27:01,120

natural thing i don't know what he said

2229

01:27:05,750 --> 01:27:03,040

he had an excuse

2230

01:27:08,470 --> 01:27:05,760

so so that's two cases at least that was

2231

01:27:09,270 --> 01:27:08,480

in brazil as well yes yeah not far from

2232

01:27:11,430 --> 01:27:09,280

uh

2233

01:27:12,229 --> 01:27:11,440

where they found the guy in 1998 you

2234

01:27:14,709 --> 01:27:12,239

know

2235

01:27:17,430 --> 01:27:14,719

big country brazil but

2236

01:27:19,990 --> 01:27:17,440

a couple hundred miles down the coast

2237

01:27:21,430 --> 01:27:20,000

and looked it where it was in the map

2238

01:27:26,070 --> 01:27:21,440

so

2239

01:27:28,790 --> 01:27:26,080

i know linda multnow i guess she's very

2240

01:27:31,910 --> 01:27:28,800

anti-human mutants

2241

01:27:33,110 --> 01:27:31,920

and she put this statement out ages ago

2242

01:27:35,270 --> 01:27:33,120

saying

2243

01:27:37,590 --> 01:27:35,280

oh she's spotting to the american medic

2244

01:27:40,709 --> 01:27:37,600

who was involved with the korean uh the

2245

01:27:45,270 --> 01:27:43,590

who had seen a lot of injuries from

2246

01:27:46,790 --> 01:27:45,280

asian orange which should have sprayed

2247

01:27:48,629 --> 01:27:46,800

right

2248

01:27:49,830 --> 01:27:48,639

five minutes

2249

01:27:51,990 --> 01:27:49,840

okay

2250

01:27:54,390 --> 01:27:52,000

and i thought well i looked up agent

2251

01:27:57,350 --> 01:27:54,400

orange video on the internet

2252

01:27:59,990 --> 01:27:57,360

and it's it's chemical which causes skin

2253

01:28:03,110 --> 01:28:00,000

burns and also on number one children

2254

01:28:07,590 --> 01:28:05,590

birth defects you know

2255

01:28:08,629 --> 01:28:07,600

when the child is born

2256

01:28:10,550 --> 01:28:08,639

um

2257

01:28:12,629 --> 01:28:10,560

and it certainly doesn't cut neat holes

2258

01:28:14,790 --> 01:28:12,639

in tissue remove internal organs through

2259

01:28:16,229 --> 01:28:14,800

small halls and here's linda moulton

2260

01:28:18,470 --> 01:28:16,239

have an intelligent woman who's

2261

01:28:20,550 --> 01:28:18,480

investigating animal mutilations for

2262

01:28:22,070 --> 01:28:20,560

well over 20 years

2263

01:28:24,229 --> 01:28:22,080

or longer

2264

01:28:25,430 --> 01:28:24,239

one enemy award for a film on on the

2265

01:28:26,629 --> 01:28:25,440

stuff

2266

01:28:29,270 --> 01:28:26,639

so i asked

2267

01:28:31,189 --> 01:28:29,280

has she been warned off because she's

2268

01:28:32,709 --> 01:28:31,199

a resident guest on coast to coast

2269

01:28:33,830 --> 01:28:32,719

pretty well

2270

01:28:35,510 --> 01:28:33,840

so if there's anything to do with

2271

01:28:37,430 --> 01:28:35,520

mutilations

2272

01:28:39,030 --> 01:28:37,440

the guy who runs coast to coast of his

2273

01:28:40,790 --> 01:28:39,040

name is these days

2274

01:28:42,790 --> 01:28:40,800

they probably pass it to linda and she

2275

01:28:45,350 --> 01:28:42,800

vets what is said

2276

01:28:47,910 --> 01:28:45,360

and i reckon she's to keep her private

2277

01:28:49,510 --> 01:28:47,920

profile up in her spot and the website

2278

01:28:51,189 --> 01:28:49,520

earth files

2279

01:28:53,510 --> 01:28:51,199

uh without interference from the

2280

01:28:56,310 --> 01:28:53,520

authorities you've got to drop

2281

01:28:58,310 --> 01:28:56,320

reference to human mutilation and that's

2282

01:28:59,270 --> 01:28:58,320

the very topic which is really going to

2283

01:29:01,590 --> 01:28:59,280

spook

2284

01:29:03,189 --> 01:29:01,600

everybody the populace isn't it

2285

01:29:05,350 --> 01:29:03,199

and all these people are going missing

2286

01:29:08,709 --> 01:29:05,360

we discuss the missing people didn't we

2287

01:29:13,270 --> 01:29:10,470

tony dodd said on the police files in

2288

01:29:15,430 --> 01:29:13,280

new york city 30 000 people missing

2289

01:29:16,870 --> 01:29:15,440

so he said if you allow for

2290

01:29:19,430 --> 01:29:16,880

suicides

2291

01:29:21,990 --> 01:29:19,440

people drowning or falling down a man

2292

01:29:24,550 --> 01:29:22,000

whole shaft somewhere never found

2293

01:29:26,470 --> 01:29:24,560

or deliberately want to be

2294

01:29:29,430 --> 01:29:26,480

like lord luke and disappear for

2295

01:29:31,030 --> 01:29:29,440

marriage or financial reason

2296

01:29:34,470 --> 01:29:31,040

all the usual things that the police

2297

01:29:37,669 --> 01:29:34,480

would investigate if you're not 10

2298

01:29:39,350 --> 01:29:37,679

for that what's happened to all the rest

2299

01:29:41,350 --> 01:29:39,360

so they're obviously

2300

01:29:43,350 --> 01:29:41,360

taking lots of people who have never

2301
01:29:45,430 --> 01:29:43,360
come back i mean there are abductors who

2302
01:29:47,350 --> 01:29:45,440
repeatedly take and repeatedly attain

2303
01:29:49,350 --> 01:29:47,360
because they want to monitor and take

2304
01:29:52,470 --> 01:29:49,360
dna from people through different stages

2305
01:29:55,189 --> 01:29:52,480
in life so they are safeguarded in some

2306
01:29:58,149 --> 01:29:55,199
cases they are enhanced

2307
01:30:00,390 --> 01:29:58,159
in attributes as i think david biggs is

2308
01:30:02,550 --> 01:30:00,400
because he was you know just a normal

2309
01:30:04,629 --> 01:30:02,560
blow interest in rugby and

2310
01:30:06,870 --> 01:30:04,639
having a drink and

2311
01:30:09,350 --> 01:30:06,880
after his experience he's developed

2312
01:30:11,830 --> 01:30:09,360
skills in photography art

2313
01:30:13,750 --> 01:30:11,840

singing poetry

2314

01:30:15,510 --> 01:30:13,760

one of his daughters because four of

2315

01:30:17,189 --> 01:30:15,520

them were taking the car

2316

01:30:19,030 --> 01:30:17,199

developed rapidly and had to move from

2317

01:30:21,350 --> 01:30:19,040

school to school because she was way

2318

01:30:23,350 --> 01:30:21,360

ahead of everyone else so that some

2319

01:30:24,550 --> 01:30:23,360

people are looked after physically have

2320

01:30:26,550 --> 01:30:24,560

injuries

2321

01:30:28,070 --> 01:30:26,560

that normally would kill you and they

2322

01:30:29,750 --> 01:30:28,080

are restored and the medics are

2323

01:30:31,590 --> 01:30:29,760

scratching their heads saying how on

2324

01:30:33,430 --> 01:30:31,600

earth is this person healed you know we

2325

01:30:35,830 --> 01:30:33,440

couldn't fix that so if you look at all

2326

01:30:38,149 --> 01:30:35,840

this sort of stuff

2327

01:30:42,070 --> 01:30:38,159

it's clear to me anyway that they are

2328

01:30:43,590 --> 01:30:42,080

got certain people targeted for life

2329

01:30:46,790 --> 01:30:43,600

and they want something off them and

2330

01:30:49,350 --> 01:30:46,800

information and tissue and blood maybe

2331

01:30:51,830 --> 01:30:49,360

reproductive tissue

2332

01:30:53,669 --> 01:30:51,840

but all the rest never has found what's

2333

01:30:55,350 --> 01:30:53,679

happened to them it's

2334

01:30:57,270 --> 01:30:55,360

a lot of them are young people too

2335

01:30:58,950 --> 01:30:57,280

children

2336

01:31:05,910 --> 01:30:58,960

there's that guy in the states he has a

2337

01:31:08,950 --> 01:31:07,350

and he covers

2338

01:31:11,189 --> 01:31:08,960

national forests in

2339

01:31:14,310 --> 01:31:11,199

california in one particular area and

2340

01:31:16,550 --> 01:31:14,320

it's tremendous it was like 411 people

2341

01:31:17,750 --> 01:31:16,560

in one month or something

2342

01:31:19,669 --> 01:31:17,760

that's why he came up with that he's

2343

01:31:22,070 --> 01:31:19,679

written books as well

2344

01:31:24,390 --> 01:31:22,080

so i mean if everyone across the world

2345

01:31:25,990 --> 01:31:24,400

did that sort of research that figure of

2346

01:31:28,149 --> 01:31:26,000

missing people would jump up

2347

01:31:32,950 --> 01:31:28,159

fantastically

2348

01:31:38,709 --> 01:31:34,550

anyway i hope you found that of interest

2349

01:31:40,470 --> 01:31:38,719

but i decided it was some good evidence

2350

01:31:42,870 --> 01:31:40,480

you know a normal nature without going

2351

01:31:45,270 --> 01:31:42,880

into the animal stuff or human mutes to

2352

01:31:50,350 --> 01:31:45,280

show you those are around and my

2353

01:31:50,360 --> 01:31:54,930

something else

2354

01:31:54,940 --> 01:32:08,650

[Applause]
