

1
00:00:10,799 --> 00:00:08,370
hello Gary hi thanks for having us

2
00:00:12,600 --> 00:00:10,809
pleasure it's been a absolute honor to

3
00:00:15,810 --> 00:00:12,610
meet you I know you've been working for

4
00:00:17,580 --> 00:00:15,820
many many years in UFO fields would you

5
00:00:19,470 --> 00:00:17,590
like to tell us well exactly how it all

6
00:00:24,630 --> 00:00:19,480
started for you as a researcher yeah be

7
00:00:27,240 --> 00:00:24,640
pleased to bring us a child 819

8
00:00:30,470 --> 00:00:27,250
something in that area as to take the

9
00:00:33,750 --> 00:00:30,480
Eagle comic we're done there in it

10
00:00:35,250 --> 00:00:33,760
science fiction of course but look into

11
00:00:38,579 --> 00:00:35,260
the future in the hope that we would one

12
00:00:40,079 --> 00:00:38,589
day go into space and then this amazing

13
00:00:43,849 --> 00:00:40,089

day a newspaper came through the

14

00:00:46,439 --> 00:00:43,859

letterbox and it was about to dance cool

15

00:00:49,919 --> 00:00:46,449

famous Adamski who claimed to have meet

16

00:00:52,700 --> 00:00:49,929

met aliens in the desert and so on

17

00:00:57,479 --> 00:00:52,710

absolutely fascinated me as a child and

18

00:00:59,340 --> 00:00:57,489

I got interested in UFOs and long Bo we

19

00:01:01,020 --> 00:00:59,350

have to beat different articles appeared

20

00:01:03,299 --> 00:01:01,030

in magazines and things and I started

21

00:01:05,670 --> 00:01:03,309

collecting them so he could say it was

22

00:01:09,510 --> 00:01:05,680

really investigated since it was about

23

00:01:13,440 --> 00:01:09,520

nine or ten properly I've still got

24

00:01:17,190 --> 00:01:13,450

those original cuttings that I had going

25

00:01:18,900 --> 00:01:17,200

back to the fifties believes tonight my

26

00:01:20,880 --> 00:01:18,910

wife is very pleased that I've got the

27

00:01:24,210 --> 00:01:20,890

house full of stuff like that is really

28

00:01:26,340 --> 00:01:24,220

much but I've never actually seen

29

00:01:30,780 --> 00:01:26,350

anything myself other than the of light

30

00:01:36,120 --> 00:01:30,790

in the sky couldn't explain until there

31

00:01:37,980 --> 00:01:36,130

you know about 1960 something without my

32

00:01:41,460 --> 00:01:37,990

fires I can't really give you accurate

33

00:01:44,220 --> 00:01:41,470

of dates from happen to decide to go

34

00:01:48,240 --> 00:01:44,230

into the local pub no I hadn't been

35

00:01:50,220 --> 00:01:48,250

drinking yet this is before we went so

36

00:01:52,920 --> 00:01:50,230

walking up the road of my next-door

37

00:01:55,800 --> 00:01:52,930

neighbor I noticed that his gaze

38

00:01:58,530 --> 00:01:55,810

suddenly changed I think I should point

39

00:02:00,990 --> 00:01:58,540

out here that it was perfectly light it

40

00:02:04,080 --> 00:02:01,000

was evening but light but it wasn't

41

00:02:07,440 --> 00:02:04,090

bright sunshine it was dope the

42

00:02:09,690 --> 00:02:07,450

visibility is absolutely perfect and all

43

00:02:11,240 --> 00:02:09,700

of a sudden his gaze turned and I turned

44

00:02:15,890 --> 00:02:11,250

to look in the same direction

45

00:02:18,080 --> 00:02:15,900

and overt all left we could see a row of

46

00:02:21,440 --> 00:02:18,090

counselor versus semi-detached terraces

47

00:02:24,080 --> 00:02:21,450

and we were because we were walking up a

48

00:02:26,660 --> 00:02:24,090

hill this is in maqam in South Wales

49

00:02:28,910 --> 00:02:26,670

I think it's called westerly you and as

50

00:02:30,860 --> 00:02:28,920

we were 3/4 the way up we were then

51
00:02:34,700 --> 00:02:30,870
higher than the roofs of these houses

52
00:02:37,460 --> 00:02:34,710
and I was astonished to see not one but

53
00:02:42,320 --> 00:02:37,470
two objects that were coming towards us

54
00:02:43,670 --> 00:02:42,330
but parallel to us on the road and with

55
00:02:47,300 --> 00:02:43,680
an air laughter for something you could

56
00:02:48,949 --> 00:02:47,310
probably ping the distance is not that

57
00:02:51,080 --> 00:02:48,959
great I don't know whether I could quite

58
00:02:55,730 --> 00:02:51,090
through a stoma for brief these not fall

59
00:02:58,070 --> 00:02:55,740
short and what was amazing it's the

60
00:03:00,880 --> 00:02:58,080
objects weren't up in the sky way they

61
00:03:03,050 --> 00:03:00,890
would actually that I level with us and

62
00:03:05,660 --> 00:03:03,060
I'd worked it out because they were

63
00:03:08,650 --> 00:03:05,670

traveling over the top of these the apex

64

00:03:12,620 --> 00:03:08,660

of these houses that they were little

65

00:03:15,290 --> 00:03:12,630

over 15 foot at the most and possibly a

66

00:03:16,940 --> 00:03:15,300

lot less I would I did they were going

67

00:03:19,810 --> 00:03:16,950

to knock at the adults off the chimneys

68

00:03:22,910 --> 00:03:19,820

it really really was so close

69

00:03:26,870 --> 00:03:22,920

what was a-standing about it is that

70

00:03:29,750 --> 00:03:26,880

these two perfect discs didn't appear to

71

00:03:33,430 --> 00:03:29,760

wobble or move in any direction they

72

00:03:36,050 --> 00:03:33,440

were absolutely perfectly leveled and

73

00:03:39,560 --> 00:03:36,060

they were traveling at such a slow speed

74

00:03:43,850 --> 00:03:39,570

you could easily a walk quicker than

75

00:03:46,009 --> 00:03:43,860

these things extremely slow there was no

76

00:03:47,750 --> 00:03:46,019

movement in any direction they didn't

77

00:03:51,650 --> 00:03:47,760

appear to be spinning they seemed to be

78

00:03:53,330 --> 00:03:51,660

static at first I thought they were

79

00:03:55,910 --> 00:03:53,340

stationary but they weren't actually

80

00:03:58,970 --> 00:03:55,920

moving but they seemed to be sliding on

81

00:04:01,009 --> 00:03:58,980

an invisible Plata class I have the same

82

00:04:04,610 --> 00:04:01,019

only way I can describe it to you where

83

00:04:06,229 --> 00:04:04,620

as you'd expect some kind of different

84

00:04:07,970 --> 00:04:06,239

movement in the but they were perfect

85

00:04:10,130 --> 00:04:07,980

and the distance between them remained

86

00:04:11,810 --> 00:04:10,140

absolutely like like that again there

87

00:04:14,420 --> 00:04:11,820

was an invisible block between them and

88

00:04:17,920 --> 00:04:14,430

it they just carried our movie and we

89

00:04:21,870 --> 00:04:17,930

stood there absolutely transfixed I was

90

00:04:23,940 --> 00:04:21,880

my neighbor he was interested

91

00:04:25,640 --> 00:04:23,950

but I couldn't believe its lack of

92

00:04:28,650 --> 00:04:25,650

enthusiasm because I was absolutely

93

00:04:30,120 --> 00:04:28,660

jumping up and down really and we

94

00:04:33,930 --> 00:04:30,130

watched them until in the end they were

95

00:04:35,520 --> 00:04:33,940

obscured by the houses that were you

96

00:04:38,490 --> 00:04:35,530

know lower down on the hill how long's

97

00:04:42,000 --> 00:04:38,500

didn't go well each one as they went

98

00:04:44,790 --> 00:04:42,010

over the top of a pair of 70 - services

99

00:04:46,530 --> 00:04:44,800

roughly was either the width or more

100

00:04:48,660 --> 00:04:46,540

just over but they were moving but I

101
00:04:50,940 --> 00:04:48,670
think they were just over the width of a

102
00:04:55,290 --> 00:04:50,950
pair of sandy touch noses so they've got

103
00:04:59,010 --> 00:04:55,300
to be 44 plus I'm a thinker what shape

104
00:05:01,620 --> 00:04:59,020
do you see absolutely perfect disks now

105
00:05:04,110 --> 00:05:01,630
just the best example I can give you of

106
00:05:07,410 --> 00:05:04,120
this is if you think of a brass music

107
00:05:09,450 --> 00:05:07,420
symbol hmm that's exactly the shape that

108
00:05:13,620 --> 00:05:09,460
they were they came to a really key

109
00:05:14,850 --> 00:05:13,630
sharp edge the capoeira for whatever you

110
00:05:18,690 --> 00:05:14,860
want to call it the dimple in the middle

111
00:05:20,550 --> 00:05:18,700
was only very slight it wasn't some you

112
00:05:22,260 --> 00:05:20,560
know turn it on the top of Windows a

113
00:05:24,510 --> 00:05:22,270

neighbor like that in it in fact there

114

00:05:26,670 --> 00:05:24,520

were no windows of any kind on it there

115

00:05:28,350 --> 00:05:26,680

were no marks of any kind on it there

116

00:05:30,810 --> 00:05:28,360

were no evidence of any kind

117

00:05:31,830 --> 00:05:30,820

there was no tail fin or anything like

118

00:05:34,500 --> 00:05:31,840

that with nothing there were just

119

00:05:36,380 --> 00:05:34,510

perfect disks sliding across the sky

120

00:05:40,290 --> 00:05:36,390

right in front of me in broad daylight

121

00:05:41,670 --> 00:05:40,300

what color Willy the same color the only

122

00:05:45,150 --> 00:05:41,680

way can describe the co they were great

123

00:05:47,160 --> 00:05:45,160

but the color is best described as fair

124

00:05:50,190 --> 00:05:47,170

light as you'd get in a pencil pencil

125

00:05:51,360 --> 00:05:50,200

they're graphite graphite yeah exactly

126

00:05:53,040 --> 00:05:51,370

the same it's not because you said you

127

00:05:54,780 --> 00:05:53,050

were looking down on it you couldn't see

128

00:05:58,320 --> 00:05:54,790

the other I couldn't see anything at all

129

00:06:03,450 --> 00:05:58,330

below the rim but I thought that I could

130

00:06:05,280 --> 00:06:03,460

see a faint bluish purplish aise just

131

00:06:07,800 --> 00:06:05,290

just at the bottom but I could have been

132

00:06:10,290 --> 00:06:07,810

you know I could be wrong there simply

133

00:06:13,380 --> 00:06:10,300

because I'm I was so desperate to see

134

00:06:15,030 --> 00:06:13,390

something but like I'm not certain

135

00:06:18,500 --> 00:06:15,040

whether there was but I thought I could

136

00:06:21,270 --> 00:06:18,510

see a very faint how long were you them

137

00:06:25,050 --> 00:06:21,280

right that's a very good question what

138

00:06:30,270 --> 00:06:25,060

year was it yes that's better I think it

139

00:06:32,690 --> 00:06:30,280

was about 65 or something like that but

140

00:06:34,820 --> 00:06:32,700

if I got all my notes out to know that

141

00:06:36,740 --> 00:06:34,830

exactly my memory by the way was not as

142

00:06:39,140 --> 00:06:36,750

good as it used to be and that sort of

143

00:06:39,710 --> 00:06:39,150

kick-started your interest in the

144

00:06:41,750 --> 00:06:39,720

subject

145

00:06:44,720 --> 00:06:41,760

no no I'd already been investigating the

146

00:06:45,950 --> 00:06:44,730

subject for years so in fact my family

147

00:06:48,290 --> 00:06:45,960

thought it was a complete nutcase

148

00:06:53,330 --> 00:06:48,300

because I devoted so much time and

149

00:06:54,110 --> 00:06:53,340

interest in it but this was something

150

00:06:55,970 --> 00:06:54,120

different

151

00:06:57,830 --> 00:06:55,980

this wasn't a light in the sky that had

152

00:07:00,460 --> 00:06:57,840

seemed previously there or any of these

153

00:07:04,100 --> 00:07:00,470

other things this was something

154

00:07:07,220 --> 00:07:04,110

absolutely definitely real physical and

155

00:07:09,350 --> 00:07:07,230

out there now most people when I tell

156

00:07:12,830 --> 00:07:09,360

them this it was obviously some kind of

157

00:07:16,790 --> 00:07:12,840

stealth aircraft or some kind of secret

158

00:07:18,890 --> 00:07:16,800

military thing absolutely rubbish and

159

00:07:21,290 --> 00:07:18,900

anybody that says that to me I had no

160

00:07:25,040 --> 00:07:21,300

time at all to spend with them because

161

00:07:28,460 --> 00:07:25,050

it's nonsense they do not have right

162

00:07:32,030 --> 00:07:28,470

they did not have any kind of vertical

163

00:07:34,280 --> 00:07:32,040

takeoff and land aircraft they did not

164

00:07:36,980 --> 00:07:34,290

have anything that and they still do not

165

00:07:39,470 --> 00:07:36,990

have any kind of aircraft that can

166

00:07:42,380 --> 00:07:39,480

travel at less than a walking pace

167

00:07:45,740 --> 00:07:42,390

without stalling and had this been any

168

00:07:47,270 --> 00:07:45,750

kind of aircraft using the air but it

169

00:07:49,550 --> 00:07:47,280

would have had to press the air down to

170

00:07:52,160 --> 00:07:49,560

of what looked like fantastically heavy

171

00:07:54,140 --> 00:07:52,170

objects then it would affect the tiles

172

00:07:56,210 --> 00:07:54,150

and the roofs of the houses there's no

173

00:07:57,590 --> 00:07:56,220

doubt about that in my mind and the

174

00:07:59,450 --> 00:07:57,600

sound would have been absolutely

175

00:08:01,490 --> 00:07:59,460

definitely to produce that much

176

00:08:03,530 --> 00:08:01,500

downdraft was there any Sun at all not

177

00:08:05,810 --> 00:08:03,540

at all not at all it was a still evening

178

00:08:06,890 --> 00:08:05,820

and there was hardly any traffic at all

179

00:08:08,690 --> 00:08:06,900

in fact I don't remember anything

180

00:08:10,720 --> 00:08:08,700

passing me at all although it could have

181

00:08:14,240 --> 00:08:10,730

happened so it was really quiet

182

00:08:17,090 --> 00:08:14,250

listening I'm looking no lights no marks

183

00:08:20,120 --> 00:08:17,100

nothing at all and that did it for me I

184

00:08:23,660 --> 00:08:20,130

knew that then despite all of the new

185

00:08:26,750 --> 00:08:23,670

theories about you know mental things

186

00:08:28,970 --> 00:08:26,760

listen a physical object and it's got to

187

00:08:32,120 --> 00:08:28,980

be extraterrestrial and all these years

188

00:08:34,850 --> 00:08:32,130

later we still do not have any kind of

189

00:08:37,339 --> 00:08:34,860

aircraft that can simulate what these

190

00:08:38,719 --> 00:08:37,349

things did we obviously had a very clear

191

00:08:40,309 --> 00:08:38,729

view of the object you said he was in

192

00:08:43,879 --> 00:08:40,319

daylight in there yeah

193

00:08:46,759 --> 00:08:43,889

rather than that light no reason it was

194

00:08:49,610 --> 00:08:46,769

like to see dis to debt which is a great

195

00:08:51,889 --> 00:08:49,620

great light right but absolutely perfect

196

00:08:55,040 --> 00:08:51,899

there been anything to see I would have

197

00:08:57,499 --> 00:08:55,050

seen it right I know you told me earlier

198

00:08:59,269 --> 00:08:57,509

that the whole life's time to be

199

00:09:02,929 --> 00:08:59,279

dedicated you obviously were for one

200

00:09:04,819 --> 00:09:02,939

other paranormal and anything that's a

201
00:09:07,309 --> 00:09:04,829
mystery because obviously when you get

202
00:09:09,379 --> 00:09:07,319
equipment to do one thing it will come

203
00:09:11,420 --> 00:09:09,389
in to do another thing and quite often

204
00:09:14,840 --> 00:09:11,430
some of the equipment is used in in

205
00:09:17,420 --> 00:09:14,850
different kinds of but the truth is if

206
00:09:19,730 --> 00:09:17,430
you've got a secret and a mystery right

207
00:09:23,059 --> 00:09:19,740
then I want to know what the answer is

208
00:09:25,100 --> 00:09:23,069
if 40 Birds fall off a telegraph pole in

209
00:09:28,519 --> 00:09:25,110
Illinois this afternoon I want to know

210
00:09:29,179 --> 00:09:28,529
why some people you know they're happy

211
00:09:31,220 --> 00:09:29,189
that it

212
00:09:33,350 --> 00:09:31,230
it's an occurrence not me yeah I don't

213
00:09:34,369 --> 00:09:33,360

know yeah yeah so you told me earlier as

214

00:09:36,980 --> 00:09:34,379

well that you've got a really included

215

00:09:39,470 --> 00:09:36,990

is it in line that's obvious and you do

216

00:09:41,660 --> 00:09:39,480

take a scientific starts do not jump to

217

00:09:44,290 --> 00:09:41,670

conclusions you very objective and you

218

00:09:47,110 --> 00:09:44,300

have to you look for evidence yeah and

219

00:09:50,059 --> 00:09:47,120

in your mind do you think there's any

220

00:09:53,960 --> 00:09:50,069

the extra-terrestrial hypothesis as an

221

00:09:57,889 --> 00:09:53,970

answer to UFOs is that quite obviously

222

00:10:00,170 --> 00:09:57,899

not all UFOs or an extraterrestrial I

223

00:10:01,910 --> 00:10:00,180

will accept that straight away in fact I

224

00:10:04,460 --> 00:10:01,920

would think that the percentage must be

225

00:10:07,400 --> 00:10:04,470

so microscopic and our job to actually

226

00:10:10,759 --> 00:10:07,410

record it but I do believe at the end of

227

00:10:13,429 --> 00:10:10,769

the day there are just a few real UFOs

228

00:10:15,230 --> 00:10:13,439

at what I call real UFOs there we're not

229

00:10:16,970 --> 00:10:15,240

an unidentified flying object but

230

00:10:19,639 --> 00:10:16,980

obviously an extraterrestrial vehicle

231

00:10:22,999 --> 00:10:19,649

and believe wholeheartedly that these

232

00:10:24,170 --> 00:10:23,009

people are coming here right and in all

233

00:10:26,960 --> 00:10:24,180

the years that you've been looking at it

234

00:10:28,699 --> 00:10:26,970

not just that what in Wales but across

235

00:10:30,650 --> 00:10:28,709

the world you keep you tabs on this a

236

00:10:33,559 --> 00:10:30,660

lot of things across the world Oh

237

00:10:37,030 --> 00:10:33,569

in Wales specifically what case or

238

00:10:39,170 --> 00:10:37,040

incident the stands opening your veil

239

00:10:40,220 --> 00:10:39,180

Rob that you've looked at one or two

240

00:10:42,619 --> 00:10:40,230

standout

241

00:10:46,460 --> 00:10:42,629

actually was another one it's Sophie

242

00:10:48,439 --> 00:10:46,470

laughs I'll tell you this first my wife

243

00:10:51,040 --> 00:10:48,449

and I my wife used to work in CAF Italy

244

00:10:52,840 --> 00:10:51,050

and I used to go up and pick her

245

00:10:54,880 --> 00:10:52,850

and evening you know when she'd finished

246

00:10:57,550 --> 00:10:54,890

and come back so it's doing the Rosco

247

00:10:59,560 --> 00:10:57,560

noble father blockage and we're coming

248

00:11:00,310 --> 00:10:59,570

out to Philly and the bright sunny

249

00:11:02,889 --> 00:11:00,320

evening

250

00:11:05,199 --> 00:11:02,899

and the traffic is oh it used to be a

251
00:11:07,300 --> 00:11:05,209
rendus to just a you know that short bit

252
00:11:08,590 --> 00:11:07,310
until you got to where that their state

253
00:11:15,069 --> 00:11:08,600
is and the idea what you are we looking

254
00:11:20,319 --> 00:11:15,079
at them this will be in contest late

255
00:11:21,850 --> 00:11:20,329
seventies again if I got soaked

256
00:11:23,259 --> 00:11:21,860
I've got thirst as a record we got

257
00:11:25,600 --> 00:11:23,269
records out I could tell you the exact

258
00:11:27,790 --> 00:11:25,610
day but I can't believe we'll find out

259
00:11:29,350 --> 00:11:27,800
that they do and what happened was we

260
00:11:32,170 --> 00:11:29,360
were stuck in this traffic nose-to-nose

261
00:11:36,370 --> 00:11:32,180
moving shunting forward to get over to

262
00:11:39,509 --> 00:11:36,380
that little bit of hold up that you get

263
00:11:44,560 --> 00:11:39,519

just out to affiliate finishing time and

264

00:11:48,310 --> 00:11:44,570

I looked ahead and I could see two white

265

00:11:50,110 --> 00:11:48,320

dots in the sky at extremely low level

266

00:11:53,110 --> 00:11:50,120

just don't give thought of 200 feet off

267

00:11:56,800 --> 00:11:53,120

the ground at the most coming towards us

268

00:11:59,889 --> 00:11:56,810

but over on our right hand side over the

269

00:12:01,930 --> 00:11:59,899

estate because it just be feels and then

270

00:12:03,310 --> 00:12:01,940

this state is named love it I can't

271

00:12:05,019 --> 00:12:03,320

remember the name of it now it's a very

272

00:12:07,900 --> 00:12:05,029

very famous place gallery win or lose

273

00:12:10,180 --> 00:12:07,910

they take on one direction the only

274

00:12:13,030 --> 00:12:10,190

estates I know a horse it Park Moritz of

275

00:12:16,000 --> 00:12:13,040

Meadows Masri Park once we pop customers

276

00:12:18,730 --> 00:12:16,010

that's where I grew up is definitely the

277

00:12:20,470 --> 00:12:18,740

one trust between the road I've seen

278

00:12:22,840 --> 00:12:20,480

some stuff from there myself so I can

279

00:12:24,819 --> 00:12:22,850

tell me right away there is crafts or

280

00:12:26,500 --> 00:12:24,829

lights or orbs definitely around that

281

00:12:28,060 --> 00:12:26,510

well this is coming towards it's not

282

00:12:31,260 --> 00:12:28,070

actually over lunch real estate it's

283

00:12:33,730 --> 00:12:31,270

over the the green out here if you like

284

00:12:34,689 --> 00:12:33,740

but apparently running power let's not

285

00:12:36,910 --> 00:12:34,699

come into Denver roads

286

00:12:40,240 --> 00:12:36,920

parallel to us and it's over there on

287

00:12:42,069 --> 00:12:40,250

the right and jokingly I say to my wife

288

00:12:44,530 --> 00:12:42,079

and by the ways being under her family

289

00:12:46,930 --> 00:12:44,540

at Temple non-believers in this I might

290

00:12:48,759 --> 00:12:46,940

you know during my call T days my father

291

00:12:50,860 --> 00:12:48,769

notice they would read me on a regular

292

00:12:52,870 --> 00:12:50,870

basis on he used to say to me I've

293

00:12:55,000 --> 00:12:52,880

worked at Longhorn steelworks and all

294

00:12:56,350 --> 00:12:55,010

this so every night wish to do night

295

00:12:57,910 --> 00:12:56,360

shifts and everything and we'd never

296

00:13:00,010 --> 00:12:57,920

seen anything isn't that funny

297

00:13:02,970 --> 00:13:00,020

all I'm I was over there after he died

298

00:13:05,040 --> 00:13:02,980

subtly one wound steelworks oh my gosh

299

00:13:09,540 --> 00:13:05,050

produced the UFO over the steelworks

300

00:13:11,730 --> 00:13:09,550

then they whoa so this is Shane Jamie

301

00:13:11,880 --> 00:13:11,740

wasn't here today to see it but there we

302

00:13:14,280 --> 00:13:11,890

are

303

00:13:17,490 --> 00:13:14,290

anyway we were coming down the road and

304

00:13:19,830 --> 00:13:17,500

we see two bright very bright like we

305

00:13:21,540 --> 00:13:19,840

described as LEDs now you know that kind

306

00:13:23,670 --> 00:13:21,550

of light bear in mind this is in the

307

00:13:26,130 --> 00:13:23,680

daylight yeah and they were really

308

00:13:28,350 --> 00:13:26,140

really bright considering but took pin

309

00:13:30,960 --> 00:13:28,360

dots and they come in two other jokingly

310

00:13:33,960 --> 00:13:30,970

I say to my dear wife Christine say they

311

00:13:35,790 --> 00:13:33,970

are told it was UFOs and she looks up

312

00:13:37,200 --> 00:13:35,800

all yes I do know is it's two lights

313

00:13:39,150 --> 00:13:37,210

with the sky coming towards it

314

00:13:41,070 --> 00:13:39,160

so I'm joking I shunt a bit further

315

00:13:43,530 --> 00:13:41,080

forward now this seems to moving

316

00:13:45,750 --> 00:13:43,540

extremely slowly again overcome it

317

00:13:50,010 --> 00:13:45,760

getting nearer obviously when it gets

318

00:13:52,170 --> 00:13:50,020

sort of much closer I could see a black

319

00:13:54,720 --> 00:13:52,180

disc in between the two lights it's just

320

00:13:57,180 --> 00:13:54,730

a black disc and the two lights are on

321

00:13:59,010 --> 00:13:57,190

the front of it so now I'm getting

322

00:14:00,480 --> 00:13:59,020

excited I'm trying to not to run into

323

00:14:02,490 --> 00:14:00,490

the car in front you know you move with

324

00:14:04,890 --> 00:14:02,500

that nice bubbly you're in danger of a

325

00:14:07,320 --> 00:14:04,900

collision but I'm trying to avoid that

326

00:14:10,560 --> 00:14:07,330

and I'm still trying to watch this thing

327

00:14:12,090 --> 00:14:10,570

at the same time my wife's excited you

328

00:14:14,130 --> 00:14:12,100

know and I'm thinking this this is a

329

00:14:15,810 --> 00:14:14,140

it's a light aeroplane with this landing

330

00:14:18,000 --> 00:14:15,820

lights on white would have landing

331

00:14:19,950 --> 00:14:18,010

lights on in the daytime Overland Street

332

00:14:29,820 --> 00:14:19,960

Park I have no idea but that's what I

333

00:14:33,420 --> 00:14:29,830

thought it was awful no anyway it's like

334

00:14:35,970 --> 00:14:33,430

when it got almost level with us I could

335

00:14:37,020 --> 00:14:35,980

clearly see it was a black disc like a

336

00:14:39,660 --> 00:14:37,030

walls in shape

337

00:14:42,000 --> 00:14:39,670

there was no tail fin on it and there

338

00:14:45,720 --> 00:14:42,010

were no wings on it it was just a

339

00:14:47,670 --> 00:14:45,730

perfect disc again it wasn't rotating I

340

00:14:49,230 --> 00:14:47,680

think no lights weren't rotated just the

341

00:14:51,630 --> 00:14:49,240

two lights were right you know

342

00:14:55,200 --> 00:14:51,640

straight forward but they were extremely

343

00:14:56,820 --> 00:14:55,210

thin they weren't shining like a beam it

344

00:14:59,400 --> 00:14:56,830

was more like two laser light you know

345

00:15:00,960 --> 00:14:59,410

there were two dots and it was a the

346

00:15:03,750 --> 00:15:00,970

light was unusual let's put it that way

347

00:15:05,130 --> 00:15:03,760

if a car LED light you could tell with

348

00:15:07,350 --> 00:15:05,140

the weight the shape of the light if you

349

00:15:11,550 --> 00:15:07,360

might but but this they put two really

350

00:15:13,770 --> 00:15:11,560

piercing dots on it and it slowly got

351

00:15:16,380 --> 00:15:13,780

level dead level with us and I'm trying

352

00:15:18,330 --> 00:15:16,390

to stop the car now at this point

353

00:15:22,020 --> 00:15:18,340

by the way the pavements is about a foot

354

00:15:24,210 --> 00:15:22,030

high right and I am trying to get the

355

00:15:26,400 --> 00:15:24,220

car onto the pavement I've got people

356

00:15:30,330 --> 00:15:26,410

behind tilting me and giving me your

357

00:15:31,980 --> 00:15:30,340

unorthodox or traffic signals because

358

00:15:35,310 --> 00:15:31,990

they're everybody's trying to you know

359

00:15:36,750 --> 00:15:35,320

get out so I managed to get the car up

360

00:15:40,800 --> 00:15:36,760

this pavement they don't quite know how

361

00:15:42,540 --> 00:15:40,810

early on the tremendous angle and a SATA

362

00:15:43,110 --> 00:15:42,550

might get out to the car love get out of

363

00:15:49,950 --> 00:15:43,120

the car

364

00:15:52,950 --> 00:15:49,960

as you know so she's struggling to get

365

00:15:54,420 --> 00:15:52,960

out and I'm now trying to climb over the

366

00:15:57,120 --> 00:15:54,430

guy can't get my side because the

367

00:15:59,730 --> 00:15:57,130

traffic is edging past me you know very

368

00:16:01,380 --> 00:15:59,740

very close and nobody's happy with it

369

00:16:03,660 --> 00:16:01,390

but I'm honestly got over the gear

370

00:16:05,370 --> 00:16:03,670

sticks I think I like to fight this door

371

00:16:07,440 --> 00:16:05,380

and get out onto the pavement I'm stood

372

00:16:10,290 --> 00:16:07,450

now and it's absolutely dead level with

373

00:16:12,630 --> 00:16:10,300

us and it's just there hovered not

374

00:16:16,920 --> 00:16:12,640

awfully but moving very very very slowly

375

00:16:19,290 --> 00:16:16,930

over lunch we park fields and going

376

00:16:24,990 --> 00:16:19,300

towards carefully where the Sun was

377

00:16:28,080 --> 00:16:25,000

setting and annoyingly a week before I'd

378

00:16:30,810 --> 00:16:28,090

taken out an SLR camera that I carried

379

00:16:34,020 --> 00:16:30,820

continuously with film on it because we

380

00:16:35,820 --> 00:16:34,030

had frosty weather and being ignorant of

381

00:16:37,920 --> 00:16:35,830

the fact I thought the frost would

382

00:16:40,080 --> 00:16:37,930

damage the camera all the film quite the

383

00:16:42,690 --> 00:16:40,090

contrary they believed in it it would

384

00:16:44,640 --> 00:16:42,700

have been treated him better so I taken

385

00:16:47,430 --> 00:16:44,650

the camera out so I'm stood I'm an

386

00:16:50,040 --> 00:16:47,440

investigator a UFO investigator stood

387

00:16:52,140 --> 00:16:50,050

looking at the daylight sighting right

388

00:16:54,720 --> 00:16:52,150

up within a short distance of me unable

389

00:16:56,730 --> 00:16:54,730

to take a photograph of it but when I

390

00:16:59,910 --> 00:16:56,740

got home I immediately got a pen and

391

00:17:04,350 --> 00:16:59,920

paper and drew sketches of exactly what

392

00:17:07,439 --> 00:17:04,360

I saw and undoubtedly this is a flying

393

00:17:10,220 --> 00:17:07,449

saucer again I would swear that we've

394

00:17:14,250 --> 00:17:10,230

got nothing that would you know equal it

395

00:17:17,370 --> 00:17:14,260

about two weeks later a newspaper

396

00:17:19,890 --> 00:17:17,380

article occurred some businessman inked

397

00:17:22,380 --> 00:17:19,900

a filly had seen what he described this

398

00:17:25,380 --> 00:17:22,390

dustbin lid at the same time traveling

399

00:17:29,240 --> 00:17:25,390

over carefully and he believed it was a

400

00:17:38,710 --> 00:17:29,250

uni as well so that'll be in my record

401
00:17:45,759 --> 00:17:42,879
but the question that you asked me was

402
00:17:48,009 --> 00:17:45,769
what it was the highlight of all this

403
00:17:51,580 --> 00:17:48,019
6070 years of research that I've done

404
00:17:54,460 --> 00:17:51,590
yeah and it was on this amazing occasion

405
00:17:56,619 --> 00:17:54,470
I've got a UFO group and we were

406
00:17:59,529 --> 00:17:56,629
operating in decide which is along the

407
00:18:00,999 --> 00:17:59,539
coast from here yeah and that the Daily

408
00:18:04,450 --> 00:18:01,009
Express I think it was a national

409
00:18:08,529 --> 00:18:04,460
newspaper produced an article and it

410
00:18:11,680 --> 00:18:08,539
said strange debris from the sky so

411
00:18:14,110 --> 00:18:11,690
obviously my ears perked up at that

412
00:18:16,090 --> 00:18:14,120
point because strange debris doesn't

413
00:18:18,210 --> 00:18:16,100

fall from the sky on every day I mean we

414

00:18:21,730 --> 00:18:18,220

get space debris and the like I suppose

415

00:18:25,740 --> 00:18:21,740

so I thought right I read on and it said

416

00:18:30,129 --> 00:18:25,750

farmer Ervil goes out in the morning

417

00:18:33,669 --> 00:18:30,139

and he finds tin foil what he thinks is

418

00:18:35,440 --> 00:18:33,679

like cooking foil and pieces of what

419

00:18:39,190 --> 00:18:35,450

looked like shattered glass which turned

420

00:18:42,820 --> 00:18:39,200

out to be metal spread over four fields

421

00:18:44,409 --> 00:18:42,830

and these are massive fields so the

422

00:18:48,490 --> 00:18:44,419

morning medicines of Roswell that look

423

00:18:51,100 --> 00:18:48,500

well you've got it there change farmer

424

00:18:53,710 --> 00:18:51,110

for rancher and you've read them the

425

00:18:55,779 --> 00:18:53,720

same story it's exactly the same store

426

00:18:58,950 --> 00:18:55,789

services in worth but this is in Wales

427

00:19:02,590 --> 00:18:58,960

this is vanilla and the elaborate layer

428

00:19:04,149 --> 00:19:02,600

so I'm reading this and I thought I've

429

00:19:06,850 --> 00:19:04,159

generally thought was reading Roswell

430

00:19:08,950 --> 00:19:06,860

because it was so like it so he gathered

431

00:19:12,070 --> 00:19:08,960

a few pieces up and looked after and

432

00:19:15,669 --> 00:19:12,080

then he ran the police the police

433

00:19:17,879 --> 00:19:15,679

arrived and walked around and said my

434

00:19:21,610 --> 00:19:17,889

goodness she bought a plane crash

435

00:19:25,509 --> 00:19:21,620

so with that they contacted the RAF

436

00:19:28,930 --> 00:19:25,519

crotch retrieval people and they trauma

437

00:19:31,210 --> 00:19:28,940

afternoon guys turned up from the RAF

438

00:19:32,830 --> 00:19:31,220

cross retrieval and he's walking around

439

00:19:34,360 --> 00:19:32,840

these fields and he's showing them these

440

00:19:36,249 --> 00:19:34,370

pieces some of these pieces by the way

441

00:19:39,759 --> 00:19:36,259

they look like shattered glass were as

442

00:19:41,950 --> 00:19:39,769

big as six foot so we're talking sizable

443

00:19:44,740 --> 00:19:41,960

pieces but hundreds of small stuff and

444

00:19:47,950 --> 00:19:44,750

this unusual foil spread over a great

445

00:19:50,090 --> 00:19:47,960

distance also one of his fields is

446

00:19:52,640 --> 00:19:50,100

bounded by a wood cops of next

447

00:19:54,590 --> 00:19:52,650

makes trees and you could clearly see

448

00:19:57,049 --> 00:19:54,600

that something had gone right through

449

00:19:59,090 --> 00:19:57,059

the top of the trees shearing the tops

450

00:20:01,789 --> 00:19:59,100

of them and scattered twigs and branches

451
00:20:03,440 --> 00:20:01,799
in a straight line right across a field

452
00:20:07,700 --> 00:20:03,450
you could see all the twigs and stuff

453
00:20:09,110 --> 00:20:07,710
across the field so the crash retrieval

454
00:20:10,850 --> 00:20:09,120
people were saying to him as they walk

455
00:20:14,690 --> 00:20:10,860
around the bear in mind these are

456
00:20:19,279 --> 00:20:14,700
experts this is not an aeroplane they've

457
00:20:21,140 --> 00:20:19,289
never seen anything like it so far we'll

458
00:20:21,620 --> 00:20:21,150
look obviously was quite surprised at

459
00:20:24,049 --> 00:20:21,630
that

460
00:20:27,200 --> 00:20:24,059
and they searched everywhere expecting

461
00:20:29,330 --> 00:20:27,210
to find that engines or other

462
00:20:32,000 --> 00:20:29,340
identifiable parts but they couldn't

463
00:20:34,549 --> 00:20:32,010

find anything to identify it with it's

464

00:20:37,669 --> 00:20:34,559

all more of the same thing yeah whatever

465

00:20:41,960 --> 00:20:37,679

this was it had hit the trees that the

466

00:20:44,690 --> 00:20:41,970

forest shed enormous amounts of its self

467

00:20:47,330 --> 00:20:44,700

and material and yet managed to fly away

468

00:20:50,480 --> 00:20:47,340

again which is incredible given the

469

00:20:55,909 --> 00:20:50,490

amount of stuff that was deposited and

470

00:20:58,789 --> 00:20:55,919

so later on more people arrived Ministry

471

00:21:00,529 --> 00:20:58,799

of Defense and they set up I think with

472

00:21:03,500 --> 00:21:00,539

caravans and police knows what an

473

00:21:06,409 --> 00:21:03,510

equipment in his own words oral said

474

00:21:08,779 --> 00:21:06,419

it's like a scene straight out to James

475

00:21:11,840 --> 00:21:08,789

Bond he said they're putting up all

476
00:21:14,779 --> 00:21:11,850
these mobile floodlights around his area

477
00:21:17,659 --> 00:21:14,789
that cordoned it all off obviously the

478
00:21:19,970 --> 00:21:17,669
question him about it and everything and

479
00:21:22,159 --> 00:21:19,980
so they went about their business and

480
00:21:24,799 --> 00:21:22,169
eventually you know mid man so murder

481
00:21:26,899 --> 00:21:24,809
will decide he will go to bed and say we

482
00:21:29,330 --> 00:21:26,909
get on in the morning he was astonished

483
00:21:32,419 --> 00:21:29,340
he got up in the morning and all the men

484
00:21:35,539 --> 00:21:32,429
all the equipment have disappeared but

485
00:21:37,190 --> 00:21:35,549
more than that every tiny scrap of the

486
00:21:39,919 --> 00:21:37,200
material over four fields had

487
00:21:42,560 --> 00:21:39,929
disappeared as well from all of it he

488
00:21:43,940 --> 00:21:42,570

couldn't find anything Lucas he may in

489

00:21:47,180 --> 00:21:43,950

the daylight he couldn't find out the

490

00:21:49,490 --> 00:21:47,190

fields were full of it and so that's how

491

00:21:52,789 --> 00:21:49,500

this article was reported exactly as

492

00:21:56,330 --> 00:21:52,799

I've told you and I'm stuck reading it

493

00:21:58,020 --> 00:21:56,340

I'm thinking my goodness this is this is

494

00:22:01,350 --> 00:21:58,030

Rosco

495

00:22:03,090 --> 00:22:01,360

so straightaway around the guy up found

496

00:22:06,150 --> 00:22:03,100

his number and I rang him and I said

497

00:22:08,970 --> 00:22:06,160

there's a young young farmer a nice man

498

00:22:10,950 --> 00:22:08,980

really really Pleasant and helpful I

499

00:22:13,650 --> 00:22:10,960

said would you mind if I came down with

500

00:22:15,840 --> 00:22:13,660

a group of people and interviewed you

501
00:22:19,470 --> 00:22:15,850
about it and we had to look not at all

502
00:22:21,870 --> 00:22:19,480
he said so we arrived at his farm and he

503
00:22:24,570 --> 00:22:21,880
very kindly walked us out we stood by

504
00:22:26,520 --> 00:22:24,580
this gate he said see from this gate the

505
00:22:29,790 --> 00:22:26,530
four fields over there and as far as you

506
00:22:31,650 --> 00:22:29,800
could see the vast area said that was

507
00:22:34,200 --> 00:22:31,660
covered with this foil than these metal

508
00:22:35,850 --> 00:22:34,210
parts and he he explained the exactly

509
00:22:39,840 --> 00:22:35,860
what I've told you and what was in the

510
00:22:41,490 --> 00:22:39,850
newspaper very accurately so I said well

511
00:22:43,200 --> 00:22:41,500
would you mind if we search and see if

512
00:22:44,490 --> 00:22:43,210
we can find any of this material so you

513
00:22:47,130 --> 00:22:44,500

saw up yourself he said well I've not

514

00:22:49,440 --> 00:22:47,140

found any since they left so we searched

515

00:22:52,350 --> 00:22:49,450

and I needn't tell you that the other

516

00:22:54,510 --> 00:22:52,360

several guys that I had with me got fed

517

00:22:58,530 --> 00:22:54,520

up very quickly because we couldn't find

518

00:23:01,800 --> 00:22:58,540

anything yeah nobody was no more upset

519

00:23:04,830 --> 00:23:01,810

about it than me then I had this idea I

520

00:23:07,560 --> 00:23:04,840

said if it had hit those trees over

521

00:23:09,570 --> 00:23:07,570

there you know and they'd searched at

522

00:23:11,280 --> 00:23:09,580

night it must be extremely difficult or

523

00:23:13,620 --> 00:23:11,290

almost impossible for them to have

524

00:23:16,170 --> 00:23:13,630

recovered every bit of it in a forest at

525

00:23:20,550 --> 00:23:16,180

night we ought to concentrate our search

526

00:23:23,310 --> 00:23:20,560

on the wood so with that off we go

527

00:23:25,860 --> 00:23:23,320

but it was wrong at all before started

528

00:23:28,580 --> 00:23:25,870

to find small pieces of it and even some

529

00:23:31,380 --> 00:23:28,590

quite bigger pieces stuck in trees and

530

00:23:32,850 --> 00:23:31,390

where the wood was it did not any

531

00:23:36,300 --> 00:23:32,860

difficulty in finding where to look

532

00:23:39,270 --> 00:23:36,310

because it was this 50 foot wide sheer

533

00:23:41,100 --> 00:23:39,280

off the top of all the trees glaring it

534

00:23:42,510 --> 00:23:41,110

staring you in the eyes there you know

535

00:23:44,940 --> 00:23:42,520

it's all they gonna do is follow that

536

00:23:47,040 --> 00:23:44,950

line basically so how soon after the

537

00:23:48,840 --> 00:23:47,050

incident well it was a week after the

538

00:23:50,400 --> 00:23:48,850

incident so you may on a week after ya

539

00:23:52,650 --> 00:23:50,410

know it's a week after the incident that

540

00:23:54,780 --> 00:23:52,660

the article appeared in the newspaper I

541

00:23:57,180 --> 00:23:54,790

think and then it was probably a week

542

00:23:59,850 --> 00:23:57,190

after that before we were able to go

543

00:24:04,170 --> 00:23:59,860

there so you're talking January 83 thank

544

00:24:06,090 --> 00:24:04,180

you I think so yes December 8 to another

545

00:24:07,980 --> 00:24:06,100

should I be satya with these files oh do

546

00:24:08,950 --> 00:24:07,990

you think yes I should I rather for

547

00:24:11,710 --> 00:24:08,960

density Oh

548

00:24:16,090 --> 00:24:11,720

yeah okay well I'll present them to you

549

00:24:17,980 --> 00:24:16,100

right so what happened then was I said

550

00:24:20,680 --> 00:24:17,990

right now I understand the mate I did

551
00:24:23,440 --> 00:24:20,690
take some equipment with me and we use

552
00:24:26,110 --> 00:24:23,450
that to affect butter I will tell you

553
00:24:28,060 --> 00:24:26,120
now that there was no radiation no

554
00:24:29,380 --> 00:24:28,070
that's one of the things were able to do

555
00:24:32,649 --> 00:24:29,390
on-site it wasn't there were no

556
00:24:36,220 --> 00:24:32,659
radiation to it so we knew was safe you

557
00:24:38,440 --> 00:24:36,230
know to handle the pieces we part and we

558
00:24:40,120 --> 00:24:38,450
left the last thing I said to her well

559
00:24:43,450 --> 00:24:40,130
this would you mind if we come back

560
00:24:45,850 --> 00:24:43,460
again with more people and more

561
00:24:47,710 --> 00:24:45,860
equipment you know I didn't have a metal

562
00:24:49,600 --> 00:24:47,720
detector with me at the time yeah so

563
00:24:51,789 --> 00:24:49,610

obviously that was something I plan to

564

00:24:53,950 --> 00:24:51,799

take the next time metal detectors and a

565

00:24:55,450 --> 00:24:53,960

group of people than and so on he said

566

00:24:57,820 --> 00:24:55,460

not a problem at all

567

00:24:59,470 --> 00:24:57,830

shortly before I was due to go I thought

568

00:25:01,779 --> 00:24:59,480

it was a day before or very very close

569

00:25:04,330 --> 00:25:01,789

to the time we would you to go I had a

570

00:25:06,070 --> 00:25:04,340

phone call here and it says hello I

571

00:25:09,039 --> 00:25:06,080

would say this is oval you know you're

572

00:25:11,620 --> 00:25:09,049

coming down to do this you know see if

573

00:25:13,899 --> 00:25:11,630

we can find anything else said yes he

574

00:25:16,269 --> 00:25:13,909

said well you're still welcome to come

575

00:25:20,019 --> 00:25:16,279

but I've got to tell you that you

576
00:25:21,430 --> 00:25:20,029
probably be wasting your time said why

577
00:25:23,740 --> 00:25:21,440
is that because more geared up now

578
00:25:25,060 --> 00:25:23,750
obviously we're all raring to go he said

579
00:25:27,370 --> 00:25:25,070
because I said I'm looking through the

580
00:25:32,409 --> 00:25:27,380
window he said they're taking the trees

581
00:25:36,690 --> 00:25:32,419
away some said what he said because

582
00:25:40,240 --> 00:25:36,700
people out there taking the trees away

583
00:25:41,470 --> 00:25:40,250
so immediately I rang the Forestry

584
00:25:42,880 --> 00:25:41,480
Commission find out where the

585
00:25:45,789 --> 00:25:42,890
headquarters and turn loads in Holly

586
00:25:48,460 --> 00:25:45,799
head and they get a guy on the end of

587
00:25:50,950 --> 00:25:48,470
the phone and say I think I've been

588
00:25:53,529 --> 00:25:50,960

passed up the line of it before somebody

589

00:25:56,289 --> 00:25:53,539

would talk to me and said I believe that

590

00:25:59,440 --> 00:25:56,299

you're taking trees away from Manila can

591

00:26:02,049 --> 00:25:59,450

you tell me why and I can almost hear

592

00:26:04,870 --> 00:26:02,059

this guy sort of not laughing but but I

593

00:26:07,630 --> 00:26:04,880

can tell this that this look thinks it's

594

00:26:11,230 --> 00:26:07,640

very humorous and he says well their

595

00:26:17,169 --> 00:26:11,240

wind damaged I said

596

00:26:18,880 --> 00:26:17,179

so do something take trees away when the

597

00:26:20,440 --> 00:26:18,890

wind damage she said well I'm telling

598

00:26:22,470 --> 00:26:20,450

you what I've got to tell you want or

599

00:26:24,880 --> 00:26:22,480

words to that effect

600

00:26:26,470 --> 00:26:24,890

that was basically I wasn't going to get

601
00:26:29,440 --> 00:26:26,480
any further with it telling you what

602
00:26:31,810 --> 00:26:29,450
I've got to tell you yes I don't know

603
00:26:33,909 --> 00:26:31,820
what that was verbatim but it was to

604
00:26:35,080 --> 00:26:33,919
that effect it was either you know this

605
00:26:37,360 --> 00:26:35,090
is why they've got to tell you what some

606
00:26:39,970 --> 00:26:37,370
that David was that leave that stuck me

607
00:26:41,460 --> 00:26:39,980
straightaway but quite obviously being

608
00:26:45,760 --> 00:26:41,470
told to shut up about it

609
00:26:48,399 --> 00:26:45,770
so rot we went anyway regardless I went

610
00:26:50,200 --> 00:26:48,409
but I was rather amazed as we approached

611
00:26:52,090 --> 00:26:50,210
the farm because normally as you drive

612
00:26:54,250 --> 00:26:52,100
if you have to turn around to go into

613
00:26:56,590 --> 00:26:54,260

the fall as I was approaching it I could

614

00:27:01,649 --> 00:26:56,600

see the farm I couldn't see it before

615

00:27:04,210 --> 00:27:01,659

because it was trees so we got there and

616

00:27:07,360 --> 00:27:04,220

we couldn't find anything again because

617

00:27:10,330 --> 00:27:07,370

obviously the wind damage trees would be

618

00:27:12,700 --> 00:27:10,340

removed but I was absolutely gobsmacked

619

00:27:15,760 --> 00:27:12,710

when I saw a JCB at the far end

620

00:27:16,570 --> 00:27:15,770

I said what's he doing you know if they

621

00:27:21,159 --> 00:27:16,580

did they do

622

00:27:24,580 --> 00:27:21,169

he said they're taking the soil what on

623

00:27:28,720 --> 00:27:24,590

earth do you want to take the soil for I

624

00:27:30,460 --> 00:27:28,730

mean I give up no it's obvious I'm

625

00:27:32,529 --> 00:27:30,470

wasting my time ringing forestry

626

00:27:34,230 --> 00:27:32,539

commission wife taking the soil they

627

00:27:36,970 --> 00:27:34,240

want time while they're taking the trees

628

00:27:40,210 --> 00:27:36,980

and benevolent is king and gave us a

629

00:27:43,630 --> 00:27:40,220

talk and Swansea that last month very

630

00:27:48,250 --> 00:27:43,640

similar case in Nottingham sure where

631

00:27:50,769 --> 00:27:48,260

they took policy lands where some

632

00:27:52,510 --> 00:27:50,779

reports of a suppose it crab on come

633

00:27:54,909 --> 00:27:52,520

down and they actually took this on the

634

00:27:55,960 --> 00:27:54,919

way and replaced it with salt from

635

00:27:59,200 --> 00:27:55,970

somewhere else

636

00:28:01,779 --> 00:27:59,210

ladies silicate thank you for telling me

637

00:28:05,570 --> 00:28:01,789

that I didn't marry fartin I just say as

638

00:28:08,120 --> 00:28:05,580

well as like with

639

00:28:09,650 --> 00:28:08,130

incident they fell all the trees pretty

640

00:28:14,870 --> 00:28:09,660

much in the area where we found the snap

641

00:28:17,180 --> 00:28:14,880

branches and there we are also not too

642

00:28:18,980 --> 00:28:17,190

far now if I understand correctly in

643

00:28:21,290 --> 00:28:18,990

Toronto College Road they've now taken

644

00:28:23,720 --> 00:28:21,300

all them trees down as well right and

645

00:28:30,320 --> 00:28:23,730

it's like it seems anytime we hear a

646

00:28:32,120 --> 00:28:30,330

major incident don't you always cut down

647

00:28:33,440 --> 00:28:32,130

the trees hope they don't hang on over

648

00:28:35,780 --> 00:28:33,450

the top of the house then other ones we

649

00:28:38,360 --> 00:28:35,790

put him somewhere to stay tonight anyway

650

00:28:39,890 --> 00:28:38,370

what are next was I decided that we

651
00:28:43,460 --> 00:28:39,900
needed to have these pieces that we'd

652
00:28:45,950 --> 00:28:43,470
recovered analyzed they were unusual let

653
00:28:47,800 --> 00:28:45,960
me just tell you that you could bend

654
00:28:50,480 --> 00:28:47,810
them but only with a lot of force

655
00:28:52,670 --> 00:28:50,490
some of them sprang back again when they

656
00:28:55,420 --> 00:28:52,680
were bent or the state band depends on

657
00:29:00,230 --> 00:28:55,430
how much fall she put on there was

658
00:29:02,060 --> 00:29:00,240
honeycomb all the metal foil that have

659
00:29:05,750 --> 00:29:02,070
been reported that looked like baking

660
00:29:08,660 --> 00:29:05,760
foil was actually in a honeycomb and it

661
00:29:12,950 --> 00:29:08,670
was sandwiched between pieces of this

662
00:29:15,980 --> 00:29:12,960
metal and there's some kind of resin on

663
00:29:18,530 --> 00:29:15,990

it on the metal that allowed this into

664

00:29:21,110 --> 00:29:18,540

place if you've got a son which piece of

665

00:29:23,930 --> 00:29:21,120

it you could stand on it and you

666

00:29:26,840 --> 00:29:23,940

couldn't crush it and all it was is the

667

00:29:29,960 --> 00:29:26,850

finest foil it weighs absolutely nothing

668

00:29:34,190 --> 00:29:29,970

it really as featherweight and yet it's

669

00:29:35,810 --> 00:29:34,200

you know it's solid metal so we decided

670

00:29:38,420 --> 00:29:35,820

that we needed to get it analyzed

671

00:29:39,800 --> 00:29:38,430

properly none of us a qualified you know

672

00:29:44,650 --> 00:29:39,810

look under a microscope and not as a

673

00:29:47,840 --> 00:29:44,660

qualified so I applied to a local

674

00:29:49,610 --> 00:29:47,850

laboratory metallurgy laboratory and

675

00:29:51,020 --> 00:29:49,620

asked them would they be prepared I

676

00:29:52,520 --> 00:29:51,030

didn't tell them the source of the

677

00:29:55,040 --> 00:29:52,530

material but I just asked them would

678

00:29:57,110 --> 00:29:55,050

they be prepared to analyze the metal

679

00:30:00,110 --> 00:29:57,120

and tell us what it was and they said no

680

00:30:04,040 --> 00:30:00,120

problem at all I said well what would he

681

00:30:08,960 --> 00:30:04,050

cusses said about five thousand now I'm

682

00:30:12,080 --> 00:30:08,970

not funded you know by anybody I do

683

00:30:13,940 --> 00:30:12,090

talks to win money and I use that to buy

684

00:30:16,460 --> 00:30:13,950

equipment and and do it all goes back

685

00:30:17,090 --> 00:30:16,470

into what we're doing but five thousand

686

00:30:19,250 --> 00:30:17,100

pounds is

687

00:30:20,810 --> 00:30:19,260

lotta money my wife would have been

688

00:30:22,730 --> 00:30:20,820

thrilled to death I told hundred

689

00:30:24,289 --> 00:30:22,740

withdraw me five thousand pounds to but

690

00:30:29,000 --> 00:30:24,299

to have a piece of tin looked at by

691

00:30:32,120 --> 00:30:29,010

someone so so unfortunately that was a

692

00:30:35,180 --> 00:30:32,130

good while after but because I've got

693

00:30:37,850 --> 00:30:35,190

been doing talks all over the North

694

00:30:40,460 --> 00:30:37,860

Wales had got some two hundred saw

695

00:30:41,210 --> 00:30:40,470

people all together if you've got to put

696

00:30:43,279 --> 00:30:41,220

them all in one room

697

00:30:46,490 --> 00:30:43,289

yeah and among some I've got every kind

698

00:30:50,960 --> 00:30:46,500

of trade and you know profession to

699

00:30:53,350 --> 00:30:50,970

ladies work repair in aircraft and been

700

00:30:56,630 --> 00:30:53,360

repairing them from from World War two

701
00:30:58,490 --> 00:30:56,640
aircraft right up to the present day and

702
00:31:00,529 --> 00:30:58,500
that's what they do

703
00:31:03,289 --> 00:31:00,539
I won't give you full detail though

704
00:31:06,080 --> 00:31:03,299
because you know and also one of the

705
00:31:09,289 --> 00:31:06,090
guys that I had there is very high up in

706
00:31:11,240 --> 00:31:09,299
the in that kind of thing and he can't

707
00:31:12,230 --> 00:31:11,250
talk about what he does either but

708
00:31:14,720 --> 00:31:12,240
they're all had a good look at the

709
00:31:17,090 --> 00:31:14,730
material and they said straight away the

710
00:31:20,240 --> 00:31:17,100
two lady said I've done hundreds and

711
00:31:23,480 --> 00:31:20,250
hundreds of airplanes from the univer to

712
00:31:27,169 --> 00:31:23,490
today that's not off an aeroplane that's

713
00:31:29,210 --> 00:31:27,179

their opinion obviously icon you've got

714

00:31:32,720 --> 00:31:29,220

to take their Winifred the guy who was

715

00:31:35,240 --> 00:31:32,730

quite high up in things said you've got

716

00:31:36,770 --> 00:31:35,250

something really special right but he

717

00:31:39,169 --> 00:31:36,780

was not people I had to go any further

718

00:31:41,450 --> 00:31:39,179

than that but I think he recognized that

719

00:31:44,899 --> 00:31:41,460

it wasn't an aeroplane or a piece of an

720

00:31:47,750 --> 00:31:44,909

aeroplane now a bit later on I got

721

00:31:50,180 --> 00:31:47,760

really lucky because someone said I know

722

00:31:54,049 --> 00:31:50,190

where we can have that properly analyzed

723

00:31:57,500 --> 00:31:54,059

by experts said right but I'll need some

724

00:31:59,890 --> 00:31:57,510

samples now up until then not to scrub a

725

00:32:02,930 --> 00:31:59,900

bit had gone in the hands of anybody so

726

00:32:05,299 --> 00:32:02,940

I decided it was time to try and cut a

727

00:32:07,760 --> 00:32:05,309

sample from the each of the different

728

00:32:10,039 --> 00:32:07,770

kinds of material we had for them to

729

00:32:12,200 --> 00:32:10,049

analyze and this person took it to a

730

00:32:15,549 --> 00:32:12,210

place let's just say they're in the

731

00:32:19,820 --> 00:32:15,559

aerospace industry but right because

732

00:32:23,600 --> 00:32:19,830

this had to be done privately rather

733

00:32:25,070 --> 00:32:23,610

than the company if you understand me

734

00:32:27,310 --> 00:32:25,080

otherwise obviously it'd have been

735

00:32:30,160 --> 00:32:27,320

another five that wasn't Bank level or

736

00:32:33,910 --> 00:32:30,170

worse so the pieces with samples were

737

00:32:36,970 --> 00:32:33,920

given and I had a full report back which

738

00:32:39,520 --> 00:32:36,980

I can't repeat I can't print but have

739

00:32:42,450 --> 00:32:39,530

got a full report their analysis of it

740

00:32:44,980 --> 00:32:42,460

says that it is a type of duralumon

741

00:32:46,870 --> 00:32:44,990

which is a that made me feel like some

742

00:32:50,050 --> 00:32:46,880

kind of AA they've been dual album in a

743

00:32:51,940 --> 00:32:50,060

lot of the specification that they gave

744

00:32:54,250 --> 00:32:51,950

me go straight over the top of here and

745

00:32:57,340 --> 00:32:54,260

cannot the stamp half of it it's a

746

00:33:01,470 --> 00:32:57,350

metallic is jargon yeah but but it turns

747

00:33:06,130 --> 00:33:01,480

out in the summary at the bottom it said

748

00:33:08,470 --> 00:33:06,140

any aircraft if it was an aircraft that

749

00:33:10,510 --> 00:33:08,480

lost this much material have to be

750

00:33:13,030 --> 00:33:10,520

sticking up out of the ground with four

751
00:33:15,840 --> 00:33:13,040
engines and in debt people right because

752
00:33:18,040 --> 00:33:15,850
no aircraft can possibly lose

753
00:33:19,720 --> 00:33:18,050
substantial you know the amount of stuff

754
00:33:22,360 --> 00:33:19,730
that's been described covering four

755
00:33:26,440 --> 00:33:22,370
fields and still survive whatever this

756
00:33:29,410 --> 00:33:26,450
was it did that and secondly if we could

757
00:33:30,940 --> 00:33:29,420
make this do element the same as you've

758
00:33:32,830 --> 00:33:30,950
got this someplace

759
00:33:34,750 --> 00:33:32,840
we'd be building all the airplanes out

760
00:33:35,610 --> 00:33:34,760
of it because it beats everything we've

761
00:33:39,370 --> 00:33:35,620
got

762
00:33:40,990 --> 00:33:39,380
no that is telling to make he come you

763
00:33:43,780 --> 00:33:41,000

know that'll do me

764

00:33:49,000 --> 00:33:43,790

on its own the fact that that they can't

765

00:33:50,440 --> 00:33:49,010

make it so the farmer followed over he

766

00:33:52,000 --> 00:33:50,450

didn't hear anything that might see

767

00:33:53,530 --> 00:33:52,010

anything nothing at all there's no noise

768

00:33:55,780 --> 00:33:53,540

at all he got very early in the morning

769

00:33:57,700 --> 00:33:55,790

to see to his lungs and he walked over

770

00:34:00,040 --> 00:33:57,710

to that gate as soon as he got to his

771

00:34:02,140 --> 00:34:00,050

fireball gate he just saw all the

772

00:34:04,300 --> 00:34:02,150

splinting stuff all over the fields I

773

00:34:06,820 --> 00:34:04,310

thought my god what's happened here you

774

00:34:09,520 --> 00:34:06,830

know and quite rightly he suspected he

775

00:34:12,490 --> 00:34:09,530

got an aeroplane down so he mocked all

776

00:34:14,920 --> 00:34:12,500

over his land found all the pieces saw

777

00:34:16,750 --> 00:34:14,930

the tree damage but couldn't actually

778

00:34:17,470 --> 00:34:16,760

tell you what about so let me call the

779

00:34:20,320 --> 00:34:17,480

police first

780

00:34:22,060 --> 00:34:20,330

yeah quite rightly I suppose so what my

781

00:34:24,480 --> 00:34:22,070

hands of the pieces that you recovered

782

00:34:26,770 --> 00:34:24,490

well the pieces that that we got

783

00:34:28,780 --> 00:34:26,780

obviously we lost a few tiny bits in

784

00:34:31,510 --> 00:34:28,790

samples when they when they were tested

785

00:34:34,030 --> 00:34:31,520

but the other major pieces I thought

786

00:34:36,540 --> 00:34:34,040

immediately I thought I know a minute I

787

00:34:39,630 --> 00:34:36,550

feel a bit like Marcel

788

00:34:42,180 --> 00:34:39,640

and what happened to him is they came

789

00:34:45,720 --> 00:34:42,190

and they collected everything that he

790

00:34:48,350 --> 00:34:45,730

had and they took it away now would you

791

00:34:51,630 --> 00:34:48,360

expect well to have kept a few bits

792

00:34:54,270 --> 00:34:51,640

quietly by I can't answer that question

793

00:34:55,920 --> 00:34:54,280

at all how long does he know these two

794

00:34:57,780 --> 00:34:55,930

the room that I do I think he's still

795

00:35:00,210 --> 00:34:57,790

around he was younger than me I believe

796

00:35:01,130 --> 00:35:00,220

at the time so you know I'm still yeah

797

00:35:06,360 --> 00:35:01,140

just about

798

00:35:09,170 --> 00:35:06,370

and so what up next was that I made sure

799

00:35:12,090 --> 00:35:09,180

I could desperate to think of a way of

800

00:35:14,850 --> 00:35:12,100

ensuring that these pieces didn't go the

801
00:35:17,070 --> 00:35:14,860
same way that they did in the Roswell

802
00:35:19,590 --> 00:35:17,080
incident otherwise we ducked the

803
00:35:22,050 --> 00:35:19,600
definitive evidence today to harmful

804
00:35:23,580 --> 00:35:22,060
yeah so I come up with a few brain waves

805
00:35:25,350 --> 00:35:23,590
but one of them was not to keep the

806
00:35:29,400 --> 00:35:25,360
pieces here under any circumstances

807
00:35:32,370 --> 00:35:29,410
obviously because you know let's say go

808
00:35:34,170 --> 00:35:32,380
and get them isn't it and so I've had

809
00:35:37,500 --> 00:35:34,180
them deposited where they cannot be

810
00:35:40,440 --> 00:35:37,510
touched right and in order to you know

811
00:35:42,830 --> 00:35:40,450
if I could tell you that tomorrow I was

812
00:35:45,660 --> 00:35:42,840
going to do a conference in Swansea and

813
00:35:46,440 --> 00:35:45,670

I was bringing pieces of a craft flying

814

00:35:48,180 --> 00:35:46,450

saucer

815

00:35:51,300 --> 00:35:48,190

I could fill any building you've got

816

00:35:52,680 --> 00:35:51,310

from you know yeah it wouldn't be any

817

00:35:54,630 --> 00:35:52,690

difficulty would it to fill the Albert

818

00:35:57,840 --> 00:35:54,640

Hall if you can they go along with these

819

00:36:00,150 --> 00:35:57,850

pieces yeah but I can't actually do that

820

00:36:02,250 --> 00:36:00,160

it's many sad because they could make a

821

00:36:05,220 --> 00:36:02,260

lot of money doing this I could to other

822

00:36:06,930 --> 00:36:05,230

country with input unfortunately it is

823

00:36:09,900 --> 00:36:06,940

faithful to say where they going to be

824

00:36:12,120 --> 00:36:09,910

at any given time right so the modus

825

00:36:15,480 --> 00:36:12,130

operandi when I gave the last talk on

826

00:36:18,900 --> 00:36:15,490

this which was in Blackpool what I did I

827

00:36:22,470 --> 00:36:18,910

arranged with a security guard my own of

828

00:36:24,810 --> 00:36:22,480

course on radio so what would happen

829

00:36:27,750 --> 00:36:24,820

this at the right point in the middle of

830

00:36:31,530 --> 00:36:27,760

the conference I rang my colleague and

831

00:36:34,170 --> 00:36:31,540

he came round the corner in a car parked

832

00:36:36,960 --> 00:36:34,180

outside and came in with it but it was

833

00:36:39,510 --> 00:36:36,970

handcuffed to him and people could look

834

00:36:44,120 --> 00:36:39,520

at it but they couldn't touch and if he

835

00:36:46,370 --> 00:36:44,130

touched him you'd be dead big big luck a

836

00:36:49,530 --> 00:36:46,380

really big lot yes

837

00:36:52,320 --> 00:36:49,540

not only that but he said a professional

838

00:36:53,460 --> 00:36:52,330

martial arts expert as well yeah but

839

00:36:56,700 --> 00:36:53,470

that's how we did

840

00:36:59,310 --> 00:36:56,710

so I can you know it can be shown but

841

00:37:02,130 --> 00:36:59,320

only under my conditions populist leader

842

00:37:04,140 --> 00:37:02,140

first thought this it's very important

843

00:37:06,780 --> 00:37:04,150

obviously that they don't go then I came

844

00:37:09,030 --> 00:37:06,790

up with another plane wave all the parts

845

00:37:11,160 --> 00:37:09,040

that we've got left from the samples and

846

00:37:13,109 --> 00:37:11,170

that we were talking only a few a few

847

00:37:15,720 --> 00:37:13,119

tiny pieces they've got left from the

848

00:37:17,820 --> 00:37:15,730

samples there's so many people wanted a

849

00:37:19,770 --> 00:37:17,830

piece of another to touch it and can I

850

00:37:21,240 --> 00:37:19,780

test it and all this stuff I mean

851
00:37:23,970 --> 00:37:21,250
everybody's ever saw that can I take

852
00:37:26,609 --> 00:37:23,980
some away in testing well obviously if

853
00:37:29,010 --> 00:37:26,619
you take away the main body of it that

854
00:37:31,290 --> 00:37:29,020
the evidence is gone that releases but

855
00:37:34,490 --> 00:37:31,300
these sample pieces I cut them into tiny

856
00:37:37,050 --> 00:37:34,500
little squares and put them in key rings

857
00:37:39,120 --> 00:37:37,060
and I sold them because it would raise

858
00:37:42,510 --> 00:37:39,130
money straightaway I sold it to these

859
00:37:45,660 --> 00:37:42,520
key rings off of the the talks I did not

860
00:37:47,339 --> 00:37:45,670
that helped with the funds no end but

861
00:37:50,700 --> 00:37:47,349
the beauty is I don't know the hell

862
00:37:53,609 --> 00:37:50,710
Scotland so out there there are quite a

863
00:37:55,140 --> 00:37:53,619

few dozen people long long hundreds but

864

00:37:57,650 --> 00:37:55,150

there are a few dozen people out there

865

00:38:00,180 --> 00:37:57,660

who have got to sample this in a keyring

866

00:38:01,530 --> 00:38:00,190

as obviously they can do any amount of

867

00:38:04,020 --> 00:38:01,540

testing on it they like I've made them

868

00:38:06,690 --> 00:38:04,030

sorry you just take them out but in this

869

00:38:09,359 --> 00:38:06,700

way right Roswell is not going to happen

870

00:38:11,040 --> 00:38:09,369

out there if I go tomorrow

871

00:38:12,990 --> 00:38:11,050

heaven forbid because they intend to

872

00:38:15,540 --> 00:38:13,000

stay till that weekend at least but if I

873

00:38:17,370 --> 00:38:15,550

go tomorrow right that are people out

874

00:38:19,890 --> 00:38:17,380

there who've got a piece of that crash

875

00:38:23,370 --> 00:38:19,900

from Ramallah what they do with it is up

876

00:38:25,740 --> 00:38:23,380

to simply I still over yeah so that's

877

00:38:27,200 --> 00:38:25,750

basically and I would say that's got to

878

00:38:32,640 --> 00:38:27,210

be the highlight of any UFO

879

00:38:37,220 --> 00:38:32,650

investigators soon after the event so

880

00:38:46,770 --> 00:38:45,180

it's not an accident to go through i'll

881

00:38:50,670 --> 00:38:46,780

tell you something's going on that's

882

00:38:52,859 --> 00:38:50,680

really exciting is that every year UFO

883

00:38:58,170 --> 00:38:52,869

has come in the winter and they come

884

00:39:00,180 --> 00:38:58,180

sort of January to April I mean last

885

00:39:03,720 --> 00:39:00,190

time myself and the common late at night

886

00:39:05,339 --> 00:39:03,730

late at night and they use something I

887

00:39:06,760 --> 00:39:05,349

didn't didn't realize at the time but

888

00:39:08,920 --> 00:39:06,770

there's a trough

889

00:39:10,480 --> 00:39:08,930

that goes from the Liverpool Bay here

890

00:39:13,330 --> 00:39:10,490

which is what you're looking out on in

891

00:39:15,790 --> 00:39:13,340

rear right there's a trough that goes

892

00:39:18,750 --> 00:39:15,800

all the way to Danby the time that Denby

893

00:39:23,440 --> 00:39:18,760

down the road which isn't UFO hotspot

894

00:39:26,170 --> 00:39:23,450

sort of sort of yeah but that line is

895

00:39:29,980 --> 00:39:26,180

below the level of the cleared mountain

896

00:39:33,670 --> 00:39:29,990

range right there is no radar from

897

00:39:35,650 --> 00:39:33,680

either the military or the Civil

898

00:39:38,710 --> 00:39:35,660

Aviation peoples is following the valley

899

00:39:41,230 --> 00:39:38,720

up from rel to them yes on the west side

900

00:39:43,690 --> 00:39:41,240

if you are flying lower than the height

901
00:39:44,560 --> 00:39:43,700
of oil family which is at the mountain

902
00:39:48,580 --> 00:39:44,570
mama

903
00:39:52,260 --> 00:39:48,590
yes flying lower than that you cannot be

904
00:39:55,960 --> 00:39:52,270
seen on the radar right in any direction

905
00:39:58,690 --> 00:39:55,970
now if you travel this particular line

906
00:40:01,030 --> 00:39:58,700
which crosses real Golf Course down the

907
00:40:03,910 --> 00:40:01,040
road and over Robin Lyons Robin Hood

908
00:40:05,950 --> 00:40:03,920
holiday camp you can actually draw a

909
00:40:08,470 --> 00:40:05,960
straight line to get a map out and a pen

910
00:40:10,060 --> 00:40:08,480
you can draw a straight line from there

911
00:40:13,660 --> 00:40:10,070
all the way to damn it without cross and

912
00:40:17,200 --> 00:40:13,670
single building right with care yeah

913
00:40:19,900 --> 00:40:17,210

right and I believe this is why this

914

00:40:21,580 --> 00:40:19,910

particular line is used because they

915

00:40:24,610 --> 00:40:21,590

could come up out of the walk by the way

916

00:40:27,340 --> 00:40:24,620

they fly under the water here right yeah

917

00:40:29,500 --> 00:40:27,350

let me tell you how I know that one day

918

00:40:32,470 --> 00:40:29,510

my wife and I walking up the promenade

919

00:40:34,900 --> 00:40:32,480

in Rio and there is the lifeboat station

920

00:40:37,240 --> 00:40:34,910

with a lifeboat station and above it

921

00:40:39,340 --> 00:40:37,250

used to be the Coast Guard Station and

922

00:40:41,940 --> 00:40:39,350

they had the lookout on the top of it a

923

00:40:45,460 --> 00:40:41,950

glass fronted yeah lookout on the top

924

00:40:47,940 --> 00:40:45,470

and there was a big sign and it said

925

00:40:51,070 --> 00:40:47,950

Coast Guard Station open to the public

926

00:40:53,620 --> 00:40:51,080

which is not normal so I said I've got

927

00:40:55,750 --> 00:40:53,630

to have a look at this so we went up the

928

00:40:59,020 --> 00:40:55,760

stairs and was an elderly man and a

929

00:41:01,270 --> 00:40:59,030

younger man to Coast Guard people and I

930

00:41:03,100 --> 00:41:01,280

said it showed us what they do and I

931

00:41:05,470 --> 00:41:03,110

said a fantastic view for me you can see

932

00:41:07,180 --> 00:41:05,480

right across the Liverpool Bay said you

933

00:41:09,190 --> 00:41:07,190

know these people that see these you

934

00:41:11,530 --> 00:41:09,200

know claim this let me see these flying

935

00:41:13,819 --> 00:41:11,540

saucer things how many hours you spend

936

00:41:16,099 --> 00:41:13,829

in office spent hours and hours in

937

00:41:18,140 --> 00:41:16,109

some hours on shift in it so you don't

938

00:41:19,279 --> 00:41:18,150

see anything up here that they people

939

00:41:19,969 --> 00:41:19,289

keep coming up with it all the time

940

00:41:22,609 --> 00:41:19,979

don't they

941

00:41:25,099 --> 00:41:22,619

he said oh we do so if you're rubbish

942

00:41:26,900 --> 00:41:25,109

man you laughing me on nothing good

943

00:41:30,620 --> 00:41:26,910

approach well I use it quite a lot

944

00:41:32,749 --> 00:41:30,630

actually remember actually the more if

945

00:41:33,859 --> 00:41:32,759

you say to a witness it's probably a

946

00:41:36,529 --> 00:41:33,869

matter of playing them as it or

947

00:41:39,229 --> 00:41:36,539

something the more it challenges their

948

00:41:40,910 --> 00:41:39,239

memory and makes them here to try harder

949

00:41:42,620 --> 00:41:40,920

to read many other details of it that's

950

00:41:44,299 --> 00:41:42,630

why they wouldn't feel silly talking to

951
00:41:46,519 --> 00:41:44,309
you about what people they might have

952
00:41:50,329 --> 00:41:46,529
seen one themselves exactly so that's

953
00:41:51,739 --> 00:41:50,339
they usually young man says tell him

954
00:41:55,789 --> 00:41:51,749
about the one that come up out to the

955
00:41:58,099 --> 00:41:55,799
sea I said your wife to this see you

956
00:42:00,859 --> 00:41:58,109
know well you're on the Pope now Flair

957
00:42:03,529 --> 00:42:00,869
was it he said no no this thing came up

958
00:42:05,900 --> 00:42:03,539
and we're on duty this thing came up out

959
00:42:08,359 --> 00:42:05,910
of the sea we thought it was a flare but

960
00:42:11,239 --> 00:42:08,369
it went against the wind this object

961
00:42:13,370 --> 00:42:11,249
then it stopped and he waited for a

962
00:42:17,120 --> 00:42:13,380
while he said and then all of a sudden

963
00:42:18,739 --> 00:42:17,130

it came inland towards us but not right

964

00:42:21,410 --> 00:42:18,749

over them further just a bit further

965

00:42:22,819 --> 00:42:21,420

down the coast actually over the top of

966

00:42:24,709 --> 00:42:22,829

the real golf course that I've already

967

00:42:26,329 --> 00:42:24,719

mentioned to them but you can see from

968

00:42:29,029 --> 00:42:26,339

where they are quite pleased whereas

969

00:42:31,549 --> 00:42:29,039

what's what's telling it's towards pest

970

00:42:33,529 --> 00:42:31,559

at ease we only told him real Roy

971

00:42:36,140 --> 00:42:33,539

talking a mile away half a mile away at

972

00:42:39,529 --> 00:42:36,150

the most from the earth anyway it came

973

00:42:42,680 --> 00:42:39,539

straight in at a load alone very fairly

974

00:42:44,180 --> 00:42:42,690

low level and came straight in it was

975

00:42:46,489 --> 00:42:44,190

owned they could only see a light they

976

00:42:48,380 --> 00:42:46,499

couldn't see any own on it but this

977

00:42:50,420 --> 00:42:48,390

light as I say came out to the water

978

00:42:52,160 --> 00:42:50,430

clearly came out to the water and they

979

00:42:55,759 --> 00:42:52,170

were on alert to launch lifeboat as they

980

00:42:58,009 --> 00:42:55,769

thought they got a signal flare it

981

00:42:59,420 --> 00:42:58,019

stopped when it got up in the air going

982

00:43:02,089 --> 00:42:59,430

against the wind he went against the

983

00:43:03,799 --> 00:43:02,099

wind and stopped and they're poised for

984

00:43:06,410 --> 00:43:03,809

a while and then he came in his dead

985

00:43:08,779 --> 00:43:06,420

straight line and zoomed them straight

986

00:43:10,430 --> 00:43:08,789

into the co so this rules out meteorites

987

00:43:13,189 --> 00:43:10,440

or anything like article citizen you

988

00:43:15,949 --> 00:43:13,199

know and he come out to the water so

989

00:43:17,989 --> 00:43:15,959

what I did is denting this by the way I

990

00:43:19,640 --> 00:43:17,999

said so what'd you do with that then you

991

00:43:22,249 --> 00:43:19,650

know to you launch like nobody said no

992

00:43:23,809 --> 00:43:22,259

we've got the young man the old man

993

00:43:27,580 --> 00:43:23,819

wasn't so cooperative of the young man

994

00:43:29,200 --> 00:43:27,590

said within this number so

995

00:43:31,720 --> 00:43:29,210

showed me the number and what can I

996

00:43:33,190 --> 00:43:31,730

can't believe with me stood there

997

00:43:33,460 --> 00:43:33,200

thinking I'm not it's not happening to

998

00:43:35,770 --> 00:43:33,470

me

999

00:43:37,780 --> 00:43:35,780

and he turned I don't think Koster later

1000

00:43:40,300 --> 00:43:37,790

women when they go into ministry defense

1001
00:43:41,650 --> 00:43:40,310
number so they actually of instruction

1002
00:43:43,510 --> 00:43:41,660
mistaking seriously they have

1003
00:43:45,490 --> 00:43:43,520
instructions to ring the ministry

1004
00:43:47,980 --> 00:43:45,500
defense when they see any of these kind

1005
00:43:50,350 --> 00:43:47,990
of anomalies quite what their brief

1006
00:43:52,690 --> 00:43:50,360
aside on't no but but obviously I was

1007
00:44:00,850 --> 00:43:52,700
reading away cases recently somebody on

1008
00:44:02,260 --> 00:44:00,860
the beach by the little yes so so so the

1009
00:44:06,040 --> 00:44:02,270
you sort of stumbled on this yourself

1010
00:44:10,750 --> 00:44:06,050
you discover this so what I did is I

1011
00:44:14,380 --> 00:44:10,760
throw in one yes I can't hold yet Coast

1012
00:44:17,260 --> 00:44:14,390
Guard Center which is in charge of all

1013
00:44:19,630 --> 00:44:17,270

the Coast Guard down there and they they

1014

00:44:21,670 --> 00:44:19,640

confirmed that this is a reported a

1015

00:44:24,730 --> 00:44:21,680

reported sighting so it's actually

1016

00:44:25,300 --> 00:44:24,740

registered in all the actor Coast Guard

1017

00:44:26,920 --> 00:44:25,310

Station

1018

00:44:28,660 --> 00:44:26,930

it really did that leads to the event

1019

00:44:30,490 --> 00:44:28,670

that it's live so they come up the seats

1020

00:44:33,820 --> 00:44:30,500

thing under the radar of the collodion

1021

00:44:35,350 --> 00:44:33,830

Nils absolute serene yes straight in

1022

00:44:37,480 --> 00:44:35,360

land to Denby and where do you think

1023

00:44:39,580 --> 00:44:37,490

they go after that it goes around Denby

1024

00:44:41,410 --> 00:44:39,590

castle there all right and there's

1025

00:44:44,350 --> 00:44:41,420

another valley up there that leads out

1026

00:44:46,630 --> 00:44:44,360

onto the Debbie Moss it was a photograph

1027

00:44:48,340 --> 00:44:46,640

of a disc of a Danby Castle taken in

1028

00:44:54,730 --> 00:44:48,350

2009 that's correct

1029

00:44:57,550 --> 00:44:54,740

yeah the separation yes yes and there's

1030

00:45:00,100 --> 00:44:57,560

a video film some children that's about

1031

00:45:02,680 --> 00:45:00,110

a video camera for Christmas present and

1032

00:45:04,180 --> 00:45:02,690

saw these the circular lights going yeah

1033

00:45:09,700 --> 00:45:04,190

yes yeah we're gonna visit the mother

1034

00:45:12,670 --> 00:45:09,710

tomorrow all right yeah so that that's

1035

00:45:15,730 --> 00:45:12,680

that's it in fact I stumbled on one

1036

00:45:19,420 --> 00:45:15,740

report in Denby of somebody who saw he

1037

00:45:21,940 --> 00:45:19,430

was an infant school in 1949 and he saw

1038

00:45:24,130 --> 00:45:21,950

a flame so he called the Flying Saucer

1039

00:45:27,400 --> 00:45:24,140

just a few feet off the ground at the

1040

00:45:30,010 --> 00:45:27,410

back of the school dinner plate say this

1041

00:45:33,040 --> 00:45:30,020

has been a long time this a lot of them

1042

00:45:35,560 --> 00:45:33,050

so I've been plotting sightings them

1043

00:45:38,890 --> 00:45:35,570

that the cleared range year in and year

1044

00:45:40,870 --> 00:45:38,900

out in fact the year I moved up here

1045

00:45:44,800 --> 00:45:40,880

previously the front page of Flying

1046

00:45:47,560 --> 00:45:44,810

Saucer review featured UFO sighting over

1047

00:45:49,870 --> 00:45:47,570

the brook how smell a damn pee right

1048

00:45:52,060 --> 00:45:49,880

where the chef's got up early in the

1049

00:45:54,910 --> 00:45:52,070

morning to go across to work in the in

1050

00:45:57,640 --> 00:45:54,920

the bobbin motel and as he went across

1051
00:45:59,650 --> 00:45:57,650
the road he saw this disc from below the

1052
00:46:00,940 --> 00:45:59,660
toe lock is Bhima like that he was

1053
00:46:03,190 --> 00:46:00,950
working in the restaurants that's good

1054
00:46:05,589 --> 00:46:03,200
idea chef yeah yeah but later

1055
00:46:07,750 --> 00:46:05,599
unbeknown to him two policemen went off

1056
00:46:09,370 --> 00:46:07,760
that road in Dakota yeah they also

1057
00:46:11,770 --> 00:46:09,380
reported it and I've seen the records

1058
00:46:15,490 --> 00:46:11,780
for that they did report it and saw the

1059
00:46:19,120 --> 00:46:15,500
same thing but better than that best of

1060
00:46:21,010 --> 00:46:19,130
all of this contact from a gentleman who

1061
00:46:24,550 --> 00:46:21,020
lives in Tempe he lives near to the

1062
00:46:27,820 --> 00:46:24,560
quality there and what he did is every

1063
00:46:30,849 --> 00:46:27,830

evening a quarry every evening he used

1064

00:46:34,150 --> 00:46:30,859

to walk his dog at midnight to the end

1065

00:46:36,550 --> 00:46:34,160

of his cul-de-sac which is got a style

1066

00:46:38,950 --> 00:46:36,560

and a thinking and then of Beyond which

1067

00:46:41,940 --> 00:46:38,960

is the quarry right and he used to let

1068

00:46:44,410 --> 00:46:41,950

the dog run loose and do its business

1069

00:46:46,690 --> 00:46:44,420

I'm on this particular night he's stuck

1070

00:46:49,420 --> 00:46:46,700

on there having a smoke and he stops

1071

00:46:51,490 --> 00:46:49,430

running around over there and opposite

1072

00:46:53,890 --> 00:46:51,500

appearing to come up but actually really

1073

00:46:57,490 --> 00:46:53,900

come in towards him yeah it was a huge

1074

00:46:59,589 --> 00:46:57,500

disc with lights and windows on it in

1075

00:47:01,720 --> 00:46:59,599

which he could see what he thought were

1076

00:47:06,130 --> 00:47:01,730

peach shadow people in there coming

1077

00:47:06,849 --> 00:47:06,140

towards him so he ran called the dog but

1078

00:47:09,250 --> 00:47:06,859

he was gone

1079

00:47:11,880 --> 00:47:09,260

yeah and he ran down the cul-de-sac

1080

00:47:16,620 --> 00:47:11,890

knocking on doors at 10 past 12:00

1081

00:47:18,970 --> 00:47:16,630

midnight it could maginot thrill people

1082

00:47:20,109 --> 00:47:18,980

just thinking about the quarry well it

1083

00:47:21,760 --> 00:47:20,119

appeared to come back to the quality

1084

00:47:23,320 --> 00:47:21,770

project it's coming to turn the Peter

1085

00:47:26,050 --> 00:47:23,330

over the trees coming from the quality

1086

00:47:27,550 --> 00:47:26,060

we're not talking about you know more

1087

00:47:29,170 --> 00:47:27,560

than that you know 50 feet in the air

1088

00:47:32,530 --> 00:47:29,180

that's not far from the video that those

1089

00:47:37,839 --> 00:47:32,540

boys took in probably 12 exactly lights

1090

00:47:39,910 --> 00:47:37,849

don't use this I mean you can ask me

1091

00:47:41,650 --> 00:47:39,920

what yeah everyone is it like more than

1092

00:47:43,690 --> 00:47:41,660

10 years you hundred-thousand sightings

1093

00:47:46,640 --> 00:47:43,700

you know to pull out to the draw

1094

00:47:48,290 --> 00:47:46,650

okay it's a while like kalam then again

1095

00:47:50,240 --> 00:47:48,300

I'll show you the newspaper cutting and

1096

00:47:51,710 --> 00:47:50,250

everything for is it alright but what

1097

00:47:54,410 --> 00:47:51,720

happened was he runs out knocking on the

1098

00:47:56,870 --> 00:47:54,420

doors and a lady in one of the houses by

1099

00:47:59,090 --> 00:47:56,880

the way the absence to the houses is set

1100

00:48:02,120 --> 00:47:59,100

back by the buildings the buildings

1101
00:48:04,460 --> 00:48:02,130
protrude towards the road right and the

1102
00:48:06,260 --> 00:48:04,470
front door is set back so he's knocked

1103
00:48:08,360 --> 00:48:06,270
on this door she comes out what the a

1104
00:48:10,130 --> 00:48:08,370
key of do he knocking on my door at 10

1105
00:48:12,830 --> 00:48:10,140
past midnight or whatever it was and

1106
00:48:17,240 --> 00:48:12,840
just then of course it parsley down the

1107
00:48:20,030 --> 00:48:17,250
road this huge object so I went there to

1108
00:48:23,000 --> 00:48:20,040
interview this guy and my wife used to

1109
00:48:24,590 --> 00:48:23,010
be secretary forms just to make notes so

1110
00:48:27,110 --> 00:48:24,600
they could just chat to him and I always

1111
00:48:29,240 --> 00:48:27,120
asked if it could record it and recorded

1112
00:48:33,430 --> 00:48:29,250
it so I've got this on on tape

1113
00:48:36,460 --> 00:48:33,440

and I had to use a lot of bleepy when I

1114

00:48:39,770 --> 00:48:36,470

recorded it because he got not excited

1115

00:48:41,570 --> 00:48:39,780

you know telling me about it what I say

1116

00:48:42,890 --> 00:48:41,580

this man is telling the truth if you'd

1117

00:48:44,660 --> 00:48:42,900

have been there you wouldn't know the

1118

00:48:48,050 --> 00:48:44,670

answer to that absolutely there's not

1119

00:48:49,850 --> 00:48:48,060

not a doubt in my mind this this guy is

1120

00:48:51,110 --> 00:48:49,860

telling you what actually happened what

1121

00:48:53,960 --> 00:48:51,120

he saw some little thing but he's

1122

00:48:55,610 --> 00:48:53,970

telling you exactly what happened did he

1123

00:48:57,620 --> 00:48:55,620

ever get his dog back oh yes he got the

1124

00:49:00,710 --> 00:48:57,630

dog by myself but he but he got that

1125

00:49:04,160 --> 00:49:00,720

excited so during the recount of this

1126

00:49:07,130 --> 00:49:04,170

story that it took a lot of bleep in

1127

00:49:09,680 --> 00:49:07,140

turn to be able to play it in public it

1128

00:49:11,690 --> 00:49:09,690

I just can't say crush this guy because

1129

00:49:13,550 --> 00:49:11,700

it's just something to do with quarry's

1130

00:49:20,990 --> 00:49:13,560

where we know a lot of sightings and as

1131

00:49:23,180 --> 00:49:21,000

always a quarry nearby anything to hide

1132

00:49:28,040 --> 00:49:23,190

in place I don't know I just I just

1133

00:49:31,910 --> 00:49:28,050

wonder if I tell you something special

1134

00:49:34,610 --> 00:49:31,920

about the Denver Moors it's got the

1135

00:49:38,030 --> 00:49:34,620

court it's got our vast reservoirs on

1136

00:49:40,730 --> 00:49:38,040

Denby Moors and the grow grass was open

1137

00:49:42,140 --> 00:49:40,740

reservoirs yeah have you put anything in

1138

00:49:44,410 --> 00:49:42,150

the water there you could leave it all

1139

00:49:46,550 --> 00:49:44,420

day and bring it out any night you like

1140

00:49:48,740 --> 00:49:46,560

all right yeah and the other thing that

1141

00:49:49,290 --> 00:49:48,750

you will find if you get a Mac bodies of

1142

00:49:51,690 --> 00:49:49,300

water

1143

00:49:53,820 --> 00:49:51,700

attentive and stick a pin in the center

1144

00:49:55,560 --> 00:49:53,830

of the den beam or it can be 10 to 15

1145

00:49:56,610 --> 00:49:55,570

miles away from any building in any

1146

00:50:01,020 --> 00:49:56,620

direction

1147

00:50:03,180 --> 00:50:01,030

that's a remote Titus so perhaps it's

1148

00:50:04,830 --> 00:50:03,190

the remoteness of it letting that allow

1149

00:50:09,000 --> 00:50:04,840

somebody to go out there possibly even

1150

00:50:10,800 --> 00:50:09,010

mind some craft and investigate whatever

1151
00:50:12,300 --> 00:50:10,810
they wanted to oh then go away it would

1152
00:50:13,980 --> 00:50:12,310
make perfect sense what if they are

1153
00:50:15,750 --> 00:50:13,990
extraterrestrial and they're capable of

1154
00:50:16,890 --> 00:50:15,760
making these kinds of flights were these

1155
00:50:18,390 --> 00:50:16,900
wonderful craft they're obviously not

1156
00:50:19,860 --> 00:50:18,400
going to want public attention are there

1157
00:50:20,340 --> 00:50:19,870
you know so but the only might you

1158
00:50:24,000 --> 00:50:20,350
better

1159
00:50:27,150 --> 00:50:24,010
that's fascinating about it is that on

1160
00:50:30,060 --> 00:50:27,160
one occasion down this line I discovered

1161
00:50:34,470 --> 00:50:30,070
somebody had discovered in a field right

1162
00:50:36,450 --> 00:50:34,480
underneath the flight path a case when

1163
00:50:38,580 --> 00:50:36,460

they opened it is the most advanced

1164

00:50:41,280 --> 00:50:38,590

Russian radio transmitter and receiver

1165

00:50:43,550 --> 00:50:41,290

that you could imagine and it is only

1166

00:50:46,020 --> 00:50:43,560

meant for the KGB

1167

00:50:48,420 --> 00:50:46,030

it's made for anybody else I've got

1168

00:50:50,790 --> 00:50:48,430

photographs of the equipment completely

1169

00:50:52,170 --> 00:50:50,800

in here might know what he did what he

1170

00:50:54,950 --> 00:50:52,180

can do anywhere as a very very

1171

00:50:58,040 --> 00:50:54,960

sophisticated the Ministry of Defense

1172

00:51:00,750 --> 00:50:58,050

thought they can only be there spying

1173

00:51:02,160 --> 00:51:00,760

yeah but it's on this line the other

1174

00:51:03,870 --> 00:51:02,170

thing was interesting a great big

1175

00:51:05,580 --> 00:51:03,880

Caliban turned up near my friends who

1176
00:51:07,700 --> 00:51:05,590
live upon the dead people's by the way

1177
00:51:10,310 --> 00:51:07,710
we booked plotted on the daily pause

1178
00:51:13,590 --> 00:51:10,320
turns over this great big cattle and

1179
00:51:16,200 --> 00:51:13,600
untended dishes all over the top of it

1180
00:51:18,330 --> 00:51:16,210
so when they inquire what they're doing

1181
00:51:19,950 --> 00:51:18,340
there they're doing it for the national

1182
00:51:23,550 --> 00:51:19,960
geophysical year they're looking at the

1183
00:51:27,240 --> 00:51:23,560
Earth's magnetism humanity's on the

1184
00:51:29,280 --> 00:51:27,250
boats electronics you don't need to know

1185
00:51:31,560 --> 00:51:29,290
that you don't need a great big radar

1186
00:51:33,770 --> 00:51:31,570
dish on top of a fan to be able Q for

1187
00:51:39,060 --> 00:51:33,780
the Earth's magnetic field

1188
00:51:42,140 --> 00:51:39,070

disappointing wrong exact isn't the end

1189

00:51:45,000 --> 00:51:42,150

of the Rangers it's a den theatre it's

1190

00:51:46,950 --> 00:51:45,010

on your right um if you went towards a

1191

00:51:49,200 --> 00:51:46,960

town with envy yeah it's up through the

1192

00:51:51,040 --> 00:51:49,210

town again B&B on straight out the

1193

00:51:53,260 --> 00:51:51,050

bottle street lights was so suddenly

1194

00:51:57,520 --> 00:51:53,270

like how's it going into yes it is yes I

1195

00:52:01,960 --> 00:51:57,530

think it is yes yeah it was : operation

1196

00:52:05,770 --> 00:52:01,970

and then of course yeah the top it all

1197

00:52:09,490 --> 00:52:05,780

there's angle c RZ yes still working on

1198

00:52:10,720 --> 00:52:09,500

the cases there lama khmer we go in that

1199

00:52:11,230 --> 00:52:10,730

tomorrow we've been talking about that

1200

00:52:18,580 --> 00:52:11,240

yeah

1201

00:52:20,980 --> 00:52:18,590

and drives his car to the top of the

1202

00:52:22,810 --> 00:52:20,990

Monica meth hmm

1203

00:52:24,670 --> 00:52:22,820

by the near the quarries at the top of I

1204

00:52:27,280 --> 00:52:24,680

am at the math on the road and he gets

1205

00:52:30,550 --> 00:52:27,290

out leave these key the doors open and

1206

00:52:32,080 --> 00:52:30,560

disappears into thin air well I don't

1207

00:52:33,370 --> 00:52:32,090

know this I think they've still not

1208

00:52:36,060 --> 00:52:33,380

found him I thought you were talking

1209

00:52:39,790 --> 00:52:36,070

about human eyes open I said yeah yeah

1210

00:52:43,860 --> 00:52:39,800

they're still not finding what I'm in

1211

00:52:48,700 --> 00:52:43,870

here and I got a phone call one day and

1212

00:52:50,350 --> 00:52:48,710

this person runs the post office just at

1213

00:52:51,190 --> 00:52:50,360

the other side of Monica meth not in

1214

00:52:53,770 --> 00:52:51,200

bamaca meth

1215

00:52:57,130 --> 00:52:53,780

Perry's Monty yeah it's a palace

1216

00:52:59,170 --> 00:52:57,140

phenomenal post office this lady who

1217

00:53:01,990 --> 00:52:59,180

won't get names or anything printer she

1218

00:53:04,210 --> 00:53:02,000

was supposed to miss just I said please

1219

00:53:06,370 --> 00:53:04,220

are you the gun hero that you know is

1220

00:53:09,100 --> 00:53:06,380

into UFOs and all this I said well yes

1221

00:53:11,650 --> 00:53:09,110

so would you please come out and talk to

1222

00:53:13,420 --> 00:53:11,660

my son's because they've had an awful

1223

00:53:16,420 --> 00:53:13,430

experiences frightened the life out of

1224

00:53:18,040 --> 00:53:16,430

them so I went out there my wife game

1225

00:53:20,770 --> 00:53:18,050

with me went out there and this little

1226

00:53:24,480 --> 00:53:20,780

boy came in I can't remember which 10 or

1227

00:53:27,280 --> 00:53:24,490

12 meter nine somebody game records yeah

1228

00:53:30,130 --> 00:53:27,290

and there he and his friend were play

1229

00:53:34,690 --> 00:53:30,140

him on the side of Perry's mounting when

1230

00:53:38,160 --> 00:53:34,700

a disc came down over the top the one

1231

00:53:41,320 --> 00:53:38,170

often hoped a lamppost of wet himself

1232

00:53:43,450 --> 00:53:41,330

that's oh he was so scared so frightened

1233

00:53:45,580 --> 00:53:43,460

the other one was braver and he looked

1234

00:53:46,840 --> 00:53:45,590

at it for quite a while while he was

1235

00:53:49,090 --> 00:53:46,850

over and then it flew off in the

1236

00:53:53,470 --> 00:53:49,100

direction of the quarry impalas Monte

1237

00:53:55,900 --> 00:53:53,480

yeah the cover later right now while I

1238

00:53:58,570 --> 00:53:55,910

was talking to them on the back door for

1239

00:53:59,180 --> 00:53:58,580

I went in and they said are you the UFO

1240

00:54:00,700 --> 00:53:59,190

man

1241

00:54:03,620 --> 00:54:00,710

that kind of thing when I'd arrived

1242

00:54:05,210 --> 00:54:03,630

there was an older man a young man with

1243

00:54:08,690 --> 00:54:05,220

a lot of working on my house next door

1244

00:54:10,430 --> 00:54:08,700

on a roof and this young man the dirt

1245

00:54:12,800 --> 00:54:10,440

must have caught the end of the

1246

00:54:14,420 --> 00:54:12,810

conversation said YouTube of the UFOs

1247

00:54:16,730 --> 00:54:14,430

over the village he a lot weakened and

1248

00:54:19,819 --> 00:54:16,740

he went to him this old man said shut up

1249

00:54:22,040 --> 00:54:19,829

shut him up she said no that's what it's

1250

00:54:24,109 --> 00:54:22,050

like people are coming in here they've

1251

00:54:26,990 --> 00:54:24,119

reported stuff but they don't anybody

1252

00:54:28,730 --> 00:54:27,000

around here looking into it and

1253

00:54:32,569 --> 00:54:28,740

nobody'll talk about it but there's been

1254

00:54:34,849 --> 00:54:32,579

a lot of activity around here the Lama

1255

00:54:39,020 --> 00:54:34,859

commits itself but she's just the other

1256

00:54:40,849 --> 00:54:39,030

side of Paris Mountain dozens including

1257

00:54:43,609 --> 00:54:40,859

entities in the field

1258

00:54:46,040 --> 00:54:43,619

yoky beside it but what you probably

1259

00:54:52,130 --> 00:54:46,050

don't know it's got the highest suicide

1260

00:54:55,250 --> 00:54:52,140

rate in the world per population one

1261

00:54:57,859 --> 00:54:55,260

lady says to a daughter on the phone

1262

00:54:59,359 --> 00:54:57,869

right it's math I'm making the name up

1263

00:55:01,490 --> 00:54:59,369

now it's Melanie's birthday my

1264

00:55:03,500 --> 00:55:01,500

granddaughter's birthday tomorrow

1265

00:55:07,280 --> 00:55:03,510

now I've come round I've got something I

1266

00:55:12,730 --> 00:55:07,290

bought something for Wright doesn't turn

1267

00:55:15,079 --> 00:55:12,740

up and there's a committed suicide

1268

00:55:18,410 --> 00:55:15,089

absolutely no reason there's people

1269

00:55:20,240 --> 00:55:18,420

there of committed suicide

1270

00:55:23,809 --> 00:55:20,250

for which there's a button if that all

1271

00:55:26,420 --> 00:55:23,819

their relatives it's a temple you know I

1272

00:55:28,400 --> 00:55:26,430

mean that one person choked sight sick

1273

00:55:29,089 --> 00:55:28,410

joke joke whenever students talk about

1274

00:55:30,950 --> 00:55:29,099

this once

1275

00:55:34,099 --> 00:55:30,960

I don't blame if I lived in Monica med

1276

00:55:37,400 --> 00:55:34,109

like commit suicide but it really wasn't

1277

00:55:40,640 --> 00:55:37,410

golf or but but but it has standing me

1278

00:55:44,030 --> 00:55:40,650

just how many sightings have occurred in

1279

00:55:46,069 --> 00:55:44,040

the village and the caliber of them yeah

1280

00:55:47,720 --> 00:55:46,079

you know and the width amount of

1281

00:55:50,480 --> 00:55:47,730

witnesses and remember just lots of this

1282

00:55:52,190 --> 00:55:50,490

for sabalan whether the

1283

00:55:55,339 --> 00:55:52,200

it was a class of school children in the

1284

00:55:56,390 --> 00:55:55,349

yeah in the schoolyard yeah in netball

1285

00:55:59,000 --> 00:55:56,400

ugly absolutely

1286

00:56:02,420 --> 00:55:59,010

back in 1977 and they saw a graphical

1287

00:56:05,630 --> 00:56:02,430

Nuria that's just not yeah yeah we gotta

1288

00:56:07,849 --> 00:56:05,640

find out come if tomorrow oh won't you

1289

00:56:09,290 --> 00:56:07,859

stay familiarize ourselves with the with

1290

00:56:11,220 --> 00:56:09,300

a location right now there's one more

1291

00:56:16,170 --> 00:56:11,230

thing I'll say about this scenario

1292

00:56:19,170 --> 00:56:16,180

finish there if I may yes that I was

1293

00:56:22,380 --> 00:56:19,180

pondering for ages why on earth so many

1294

00:56:25,710 --> 00:56:22,390

UFOs were seen in that area in the

1295

00:56:27,390 --> 00:56:25,720

palace mountain area yeah and I used to

1296

00:56:29,250 --> 00:56:27,400

be in contact with people at NASA all

1297

00:56:30,390 --> 00:56:29,260

the time and before they went to the

1298

00:56:32,190 --> 00:56:30,400

moon when I used to speak to the

1299

00:56:35,340 --> 00:56:32,200

astronauts on a regular basis they're

1300

00:56:38,010 --> 00:56:35,350

all into UFOs by the way all of them and

1301
00:56:39,660 --> 00:56:38,020
I said to one of them who shall remain

1302
00:56:43,380 --> 00:56:39,670
nameless now but we'll talk about a

1303
00:56:46,680 --> 00:56:43,390
decade said why on earth you know I've

1304
00:56:48,540 --> 00:56:46,690
got this hot spot why on earth is it all

1305
00:56:50,220 --> 00:56:48,550
occurring there there's nothing there

1306
00:56:55,140 --> 00:56:50,230
what do you mean there's nothing there

1307
00:56:57,780 --> 00:56:55,150
he said it's a beacon sits a lot he says

1308
00:57:01,590 --> 00:56:57,790
it's acid nostril it's a beacon

1309
00:57:03,030 --> 00:57:01,600
he said we use it it's a beacon mr. doe

1310
00:57:04,710 --> 00:57:03,040
do you mean he says the biggest copper

1311
00:57:07,410 --> 00:57:04,720
deposited that was I'll say the copper

1312
00:57:09,120 --> 00:57:07,420
ore yeah and we can they can be kit

1313
00:57:11,040 --> 00:57:09,130

apparently the beacon they did space I

1314

00:57:14,609 --> 00:57:11,050

mean oh they do that have no idea but

1315

00:57:17,730 --> 00:57:14,619

apparently it's it's it's a beacon point

1316

00:57:22,620 --> 00:57:17,740

you know used in the measurements or

1317

00:57:24,359 --> 00:57:22,630

whatever it is that they do mean the

1318

00:57:26,220 --> 00:57:24,369

cops do you when you get there you'll be

1319

00:57:27,300 --> 00:57:26,230

astounded if you've not seen it before

1320

00:57:29,550 --> 00:57:27,310

I've seen you I've doubled over

1321

00:57:32,220 --> 00:57:29,560

parsimonious oh yeah I'm sorry I'm sorry

1322

00:57:34,770 --> 00:57:32,230

it's like appreciate that you've been in

1323

00:57:36,630 --> 00:57:34,780

a boat it is like a like a boom another

1324

00:57:38,250 --> 00:57:36,640

planet it isn't like mother planet Earth

1325

00:57:39,570 --> 00:57:38,260

making strange connection with swans it

1326
00:57:41,040 --> 00:57:39,580
used to take the copper ore from there

1327
00:57:44,400 --> 00:57:41,050
to Swansea to be smoked it all right

1328
00:57:49,520 --> 00:57:44,410
many years ago well that's basically it

1329
00:57:59,300 --> 00:57:51,930
there's so much to go on the unit you

1330
00:58:04,109 --> 00:58:01,770
yeah it's one of the reasons why we come

1331
00:58:05,250 --> 00:58:04,119
up is just to because we recoup down in

1332
00:58:07,590 --> 00:58:05,260
South Wales we've only been gone three

1333
00:58:09,450 --> 00:58:07,600
years and we want to make contact with

1334
00:58:11,490 --> 00:58:09,460
the rest of the country Wales

1335
00:58:13,140 --> 00:58:11,500
I want Elijah to make contact and with

1336
00:58:15,270 --> 00:58:13,150
some veteran researchers like yourself

1337
00:58:16,680 --> 00:58:15,280
have put a lifetime's work into it and

1338
00:58:19,500 --> 00:58:16,690

it's just alter that factor in the

1339

00:58:21,570 --> 00:58:19,510

better you know it is you deserve all

1340

00:58:27,620 --> 00:58:21,580

the recognition recognition due to you I

1341

00:58:31,940 --> 00:58:30,440

that you guys we've got one more thing

1342

00:58:34,370 --> 00:58:31,950

that you want to see while you earlier

1343

00:58:36,770 --> 00:58:34,380

that might be some of this wreckage

1344

00:58:40,070 --> 00:58:36,780

because I've had the wreckage delivered

1345

00:58:42,290 --> 00:58:40,080

right so if you'd like to see it or time

1346

00:58:51,130 --> 00:58:42,300

I'll go and get it and Shelley okay

1347

00:58:51,140 --> 00:59:05,200

you

1348

00:59:12,339 --> 00:59:09,160

right well in here gentlemen are the

1349

00:59:17,890 --> 00:59:12,349

biggest pieces of the remainder of the

1350

00:59:21,250 --> 00:59:17,900

debris that we collected wow that's the

1351

00:59:24,190 --> 00:59:21,260

largest piece of all if you notice

1352

00:59:28,720 --> 00:59:24,200

carefully the edges of it are broken

1353

00:59:30,730 --> 00:59:28,730

like glass yeah it the only straight

1354

00:59:34,390 --> 00:59:30,740

part is the part that was cut off for

1355

00:59:36,760 --> 00:59:34,400

sampling yeah which is on the bottom but

1356

00:59:38,920 --> 00:59:36,770

all the other pieces all looked as if

1357

00:59:41,290 --> 00:59:38,930

they chattered and yet it won't shatter

1358

00:59:44,890 --> 00:59:41,300

see you layers come off first

1359

00:59:46,660 --> 00:59:44,900

yes actually tried to break it or you

1360

00:59:49,059 --> 00:59:46,670

know I mean I tested its strength oh oh

1361

00:59:50,920 --> 00:59:49,069

yes it's extremely strongest is lighter

1362

00:59:53,079 --> 00:59:50,930

yes like thin with his thicker ones

1363

00:59:55,030 --> 00:59:53,089

though if you look there you'll see the

1364

00:59:57,069 --> 00:59:55,040

honeycomb there's a sample of it this is

1365

00:59:59,890 --> 00:59:57,079

the foil stuff that was spread all over

1366

01:00:04,660 --> 00:59:59,900

the fields but you'll notice that it's

1367

01:00:08,589 --> 01:00:04,670

honeycomb yeah in their life look I got

1368

01:00:10,750 --> 01:00:08,599

you a follow back nice now if you trap

1369

01:00:16,120 --> 01:00:10,760

trod on that piece there you can't crush

1370

01:00:18,190 --> 01:00:16,130

it it's extremely strong the honeycomb

1371

01:00:20,890 --> 01:00:18,200

takes the form of these little cells

1372

01:00:22,089 --> 01:00:20,900

that you can see on here I mean you said

1373

01:00:25,359 --> 01:00:22,099

you have that been tested and they said

1374

01:00:27,849 --> 01:00:25,369

it was made of all of this all of it is

1375

01:00:31,030 --> 01:00:27,859

made of Darrell Irma type your element

1376

01:00:33,359 --> 01:00:31,040

do a lumen duralumon which i think is a

1377

01:00:38,440 --> 01:00:33,369

kind of aluminium I'm not a pathologist

1378

01:00:40,870 --> 01:00:38,450

but that's that's what Eileen told is

1379

01:00:45,010 --> 01:00:40,880

that an alloy was a it's an alloy yes

1380

01:00:47,230 --> 01:00:45,020

it's an alloy but it's it's got a well

1381

01:00:47,770 --> 01:00:47,240

that whatever strange about it it isn't

1382

01:00:54,910 --> 01:00:47,780

normal

1383

01:00:57,069 --> 01:00:54,920

kind of gentleman after the fact no that

1384

01:01:00,579 --> 01:00:57,079

material that's honeycombed that you see

1385

01:01:04,630 --> 01:01:00,589

on the side of the metal there right has

1386

01:01:07,000 --> 01:01:04,640

been analyzed and that was analyzed this

1387

01:01:09,789 --> 01:01:07,010

place dr. thus this was stuck on these

1388

01:01:12,849 --> 01:01:09,799

pieces originally it's all going down

1389

01:01:14,859 --> 01:01:12,859

like a yes as if it would be a disc sort

1390

01:01:18,190 --> 01:01:14,869

of thing right so going there going to a

1391

01:01:24,370 --> 01:01:22,359

sir materials being analyzed on it and

1392

01:01:27,310 --> 01:01:24,380

although they can identify what some of

1393

01:01:29,349 --> 01:01:27,320

the compounds are in it nobody at the

1394

01:01:31,720 --> 01:01:29,359

top chemical company the top laboratory

1395

01:01:33,940 --> 01:01:31,730

experts at the chemical company who was

1396

01:01:37,810 --> 01:01:33,950

on our team by the way so we were very

1397

01:01:39,730 --> 01:01:37,820

lucky to have won those they come to

1398

01:01:42,310 --> 01:01:39,740

identify what but is it's an unknown

1399

01:01:44,260 --> 01:01:42,320

substance but although they can find

1400

01:01:48,220 --> 01:01:44,270

traces of compounds in Italy the code

1401
01:01:50,890 --> 01:01:48,230
could identify how could let's assume

1402
01:01:52,569 --> 01:01:50,900
this is just an aircraft even the

1403
01:01:57,089 --> 01:01:52,579
military secret aircraft if you like

1404
01:02:00,370 --> 01:01:57,099
right how could it lose four fields

1405
01:02:03,970 --> 01:02:00,380
worth of pieces some the size according

1406
01:02:07,210 --> 01:02:03,980
to Ervil was six foot he'll lose that

1407
01:02:10,359 --> 01:02:07,220
and still fly on secondly where's the

1408
01:02:12,670 --> 01:02:10,369
engines where's the wiring where's the

1409
01:02:15,060 --> 01:02:12,680
electronics that you would expect to

1410
01:02:17,230 --> 01:02:15,070
find where pieces of a crashed airplane

1411
01:02:19,810 --> 01:02:17,240
they don't they don't exist

1412
01:02:22,450 --> 01:02:19,820
yeah and I would've thought anything

1413
01:02:25,390 --> 01:02:22,460

that could blow something apart over

1414

01:02:29,079 --> 01:02:25,400

five fields I could understand it if you

1415

01:02:31,690 --> 01:02:29,089

you know with a small buying some of you

1416

01:02:35,800 --> 01:02:31,700

know yeah at the distance but to

1417

01:02:38,290 --> 01:02:35,810

actually crush it to a forest and then

1418

01:02:42,970 --> 01:02:38,300

it's obviously either exploded by the

1419

01:02:44,650 --> 01:02:42,980

way every piece of it is concave all of

1420

01:02:48,819 --> 01:02:44,660

it dislike the wonder straight flat

1421

01:02:49,630 --> 01:02:48,829

piece and he shows this one curve all

1422

01:02:52,030 --> 01:02:49,640

Curtin

1423

01:02:55,210 --> 01:02:52,040

but all of it is shattered now I've had

1424

01:02:57,250 --> 01:02:55,220

a piece of this and hit with hammer and

1425

01:02:59,500 --> 01:02:57,260

stuff like that you can't shatter it is

1426

01:03:02,730 --> 01:02:59,510

it does it it doesn't shatter at all oh

1427

01:03:05,710 --> 01:03:02,740

this is chat as a metal detector

1428

01:03:09,520 --> 01:03:05,720

detective oh yeah yeah the truth pours

1429

01:03:12,550 --> 01:03:09,530

over there and listen you know well

1430

01:03:15,160 --> 01:03:12,560

people say to me there's no evidence the

1431

01:03:17,349 --> 01:03:15,170

everywhere you go you give a talk and I

1432

01:03:20,589 --> 01:03:17,359

say yeah but there's no evidence you

1433

01:03:23,410 --> 01:03:20,599

know well what is this yeah okay Paris

1434

01:03:25,329 --> 01:03:23,420

is what I say I still do not claim and

1435

01:03:27,970 --> 01:03:25,339

I've said this to you before I do not

1436

01:03:31,240 --> 01:03:27,980

claim that this is an

1437

01:03:33,520 --> 01:03:31,250

your craft I can't do that because I've

1438

01:03:35,560 --> 01:03:33,530

got nothing to support it except the

1439

01:03:37,690 --> 01:03:35,570

fact that it can't be an aeroplane

1440

01:03:40,330 --> 01:03:37,700

there's one other thing I haven't told

1441

01:03:43,320 --> 01:03:40,340

you about it on the other side of it

1442

01:03:46,510 --> 01:03:43,330

there's like a green colored paint and

1443

01:03:48,970 --> 01:03:46,520

the aerospace experts said he definitely

1444

01:03:54,130 --> 01:03:48,980

can't be often aeroplane Merced white is

1445

01:03:56,800 --> 01:03:54,140

because the paint is not aerodynamic now

1446

01:03:58,930 --> 01:03:56,810

I didn't know yard well if they're a

1447

01:04:00,880 --> 01:03:58,940

dynamic paint but apparently this is a

1448

01:04:04,150 --> 01:04:00,890

drug but if you painted an aeroplane

1449

01:04:06,130 --> 01:04:04,160

with that apparently it won't fly good

1450

01:04:08,560 --> 01:04:06,140

not only that but I'm gonna tell you

1451

01:04:10,750 --> 01:04:08,570

what that what the experts told me what

1452

01:04:12,220 --> 01:04:10,760

surprised me but there's a price not

1453

01:04:14,530 --> 01:04:12,230

only that's not the honeycomb pattern of

1454

01:04:17,470 --> 01:04:14,540

it doesn't look very aerodynamic but you

1455

01:04:19,480 --> 01:04:17,480

would create drag friction yeah I don't

1456

01:04:20,980 --> 01:04:19,490

think that's the outside part of it you

1457

01:04:23,230 --> 01:04:20,990

don't know no I think that the other

1458

01:04:26,590 --> 01:04:23,240

side is the outside part I have this

1459

01:04:27,900 --> 01:04:26,600

sandwich yeah which is on this little

1460

01:04:32,560 --> 01:04:27,910

slings on the outside

1461

01:04:34,690 --> 01:04:32,570

no that's the the honeycomb which was on

1462

01:04:36,099 --> 01:04:34,700

top of here oh right

1463

01:04:37,630 --> 01:04:36,109

and then there's other piece of melon

1464

01:04:39,640 --> 01:04:37,640

layer on top yeah there's another piece

1465

01:04:41,109 --> 01:04:39,650

of metal on the top of that you can see

1466

01:04:43,720 --> 01:04:41,119

the honeycomb so it was somewhat

1467

01:04:46,510 --> 01:04:43,730

sandwiched between two pieces of metal

1468

01:04:49,870 --> 01:04:46,520

given it enormous strength but more

1469

01:04:52,450 --> 01:04:49,880

light as a feather but not strong enough

1470

01:04:54,160 --> 01:04:52,460

to with some hitting a lot of profit

1471

01:05:00,670 --> 01:04:54,170

reason I'm not sure that the it in the

1472

01:05:03,040 --> 01:05:00,680

trees broke the the craft right I'm

1473

01:05:06,160 --> 01:05:03,050

pretty sure that it caused an explosion

1474

01:05:08,590 --> 01:05:06,170

or an implosion I don't know which when

1475

01:05:12,010 --> 01:05:08,600

they take the trees I think that the

1476

01:05:13,510 --> 01:05:12,020

pressure - inside the vessel or the

1477

01:05:16,540 --> 01:05:13,520

outside pressure you know whether the

1478

01:05:18,640 --> 01:05:16,550

lack of of course the the disintegration

1479

01:05:20,349 --> 01:05:18,650

I don't believe that it in the trees

1480

01:05:23,890 --> 01:05:20,359

brought this stuff up because you can't

1481

01:05:25,330 --> 01:05:23,900

break it up with AMA so I think that

1482

01:05:28,780 --> 01:05:25,340

what happened is it I think it struck

1483

01:05:32,230 --> 01:05:28,790

the trees and perhaps caused the an air

1484

01:05:36,220 --> 01:05:32,240

leak or you know something took to the

1485

01:05:38,830 --> 01:05:36,230

structure of it which then allowed to

1486

01:05:42,130 --> 01:05:38,840

the air light to escape all in

1487

01:05:44,350 --> 01:05:42,140

I used to do repair toes I'm into

1488

01:05:45,940 --> 01:05:44,360

electronics and things and if you picked

1489

01:05:47,890 --> 01:05:45,950

a television to know the television

1490

01:05:50,800 --> 01:05:47,900

tubes that used to be if you pick one up

1491

01:05:54,450 --> 01:05:50,810

by the neck right handed it could snap

1492

01:05:57,070 --> 01:05:54,460

it's okay if it's a bloody body

1493

01:05:59,230 --> 01:05:57,080

the glass was immediately it comes as a

1494

01:06:01,060 --> 01:05:59,240

vacuum oh well I believe I entered and

1495

01:06:03,790 --> 01:06:01,070

it will suck stick to your lungs and so

1496

01:06:05,980 --> 01:06:03,800

called opieop on really dangers you

1497

01:06:07,870 --> 01:06:05,990

start to tap on all the zeros and that

1498

01:06:10,420 --> 01:06:07,880

the air but it takes five it's five

1499

01:06:13,120 --> 01:06:10,430

minutes for the air Shh

1500

01:06:14,530 --> 01:06:13,130

for the air to go in and I think what's

1501

01:06:17,650 --> 01:06:14,540

happened dear either they were on the

1502

01:06:19,840 --> 01:06:17,660

high pressure inside you know and that

1503

01:06:21,940 --> 01:06:19,850

once you affected the structure of it it

1504

01:06:24,130 --> 01:06:21,950

went bang like a balloon room yelp when
