

The Giza Pyramid site Cairo, Egypt

Old and new Discoveries

Howard Middleton-Jones

1
00:00:13,420 --> 00:00:11,470
now many of you will obviously remember

2
00:00:15,070 --> 00:00:13,430
him from his previous talks but for the

3
00:00:16,570 --> 00:00:15,080
benefit of the new members of try to

4
00:00:20,140 --> 00:00:16,580
outline a little about how its

5
00:00:27,400 --> 00:00:20,150
background now Howard was born in

6
00:00:28,890 --> 00:00:27,410
Swansea at an early age 946 he's a

7
00:00:31,509 --> 00:00:28,900
resident at the local area

8
00:00:34,870 --> 00:00:31,519
he received the university education

9
00:00:38,410 --> 00:00:34,880
study in the veterinary science classics

10
00:00:39,880 --> 00:00:38,420
ancient history and archaeology he

11
00:00:41,980 --> 00:00:39,890
obtained a BA Honours degree in

12
00:00:43,900 --> 00:00:41,990
classical and ancient studies at Swansea

13
00:00:46,900 --> 00:00:43,910

University and then went on to a

14

00:00:50,470 --> 00:00:46,910

postgraduate study in field archaeology

15

00:00:52,870 --> 00:00:50,480

at Oxford now he spent over 30 years

16

00:00:55,150 --> 00:00:52,880

studying research in the keys of pyramid

17

00:00:58,630 --> 00:00:55,160

complex in Egypt where he's been a

18

00:01:00,760 --> 00:00:58,640

frequent visitor he's also written many

19

00:01:02,710 --> 00:01:00,770

books have produced DVDs on this and

20

00:01:05,320 --> 00:01:02,720

other subjects has spent much time over

21

00:01:08,399 --> 00:01:05,330

many years presented Illustrated talks

22

00:01:11,320 --> 00:01:08,409

and lectures on archaeology Egyptology

23

00:01:11,920 --> 00:01:11,330

Coptic research and current affairs in

24

00:01:14,280 --> 00:01:11,930

Egypt

25

00:01:17,680 --> 00:01:14,290

I wasn't explained what Coptic is but

26

00:01:19,450 --> 00:01:17,690

it's all wrong now he's a founding

27

00:01:23,350 --> 00:01:19,460

director of the Coptic research of a

28

00:01:25,270 --> 00:01:23,360

source Center at Swansea University and

29

00:01:26,920 --> 00:01:25,280

incidentally I think he said his own UFO

30

00:01:29,260 --> 00:01:26,930

sighting in Swansea which ended as

31

00:01:30,490 --> 00:01:29,270

outlined to us on a few occasions you

32

00:01:31,810 --> 00:01:30,500

never know you might build up persuade

33

00:01:34,690 --> 00:01:31,820

him to tell you a little bit more about

34

00:01:36,130 --> 00:01:34,700

it if you ask you know and I know a lot

35

00:01:37,870 --> 00:01:36,140

of you thoroughly enjoyed his previous

36

00:01:40,480 --> 00:01:37,880

talks and he addressed the subjects of

37

00:01:42,670 --> 00:01:40,490

suriname anomalies and the Ambilight

38

00:01:46,180 --> 00:01:42,680

group and photographs obtained by NASA

39

00:01:48,070 --> 00:01:46,190

Sissoko cameras now this evening to be

40

00:01:51,280 --> 00:01:48,080

talking about who build the Pyramid at

41

00:01:53,649 --> 00:01:51,290

necropolis in Giza and for what purpose

42

00:01:56,789 --> 00:01:53,659

and their connections astronomically and

43

00:01:59,289 --> 00:01:56,799

mathematically with the book of Genesis

44

00:02:01,260 --> 00:01:59,299

so please put your hands together mr.

45

00:02:10,160 --> 00:02:01,270

Harlan

46

00:02:21,000 --> 00:02:16,470

good show me the slides

47

00:02:25,470 --> 00:02:21,010

um great well I think basically what I'm

48

00:02:28,610 --> 00:02:25,480

going to do tonight is take away for

49

00:02:33,660 --> 00:02:28,620

long as cold wind of this brexit fungal

50

00:02:37,140 --> 00:02:33,670

and we take a little trip a couple of

51
00:02:40,140 --> 00:02:37,150
deserts nobody the Giza Plateau but okay

52
00:02:43,259 --> 00:02:40,150
no western desert part Iran because that

53
00:02:45,990 --> 00:02:43,269
is where the years we tried to discover

54
00:02:48,870 --> 00:02:46,000
and look for other anomalies associated

55
00:02:52,440 --> 00:02:48,880
with the Great Pyramid and I'll explain

56
00:02:54,509 --> 00:02:52,450
why later but thanks for the good

57
00:02:56,610 --> 00:02:54,519
introduction but a lot of a lot of the

58
00:02:59,720 --> 00:02:56,620
original work was done by several of my

59
00:03:02,340 --> 00:02:59,730
colleagues all our IP now unfortunately

60
00:03:05,430 --> 00:03:02,350
I'll introduce them because I think it's

61
00:03:07,770 --> 00:03:05,440
important to show you who they are what

62
00:03:09,960 --> 00:03:07,780
they've done how well-known they are and

63
00:03:12,000 --> 00:03:09,970

so you've got some idea of the

64

00:03:13,410 --> 00:03:12,010

credibility of the work we'd be doing

65

00:03:17,310 --> 00:03:13,420

over the last 20 odd years

66

00:03:22,080 --> 00:03:17,320

I said introduction I hope being going

67

00:03:24,270 --> 00:03:22,090

to Egypt since about 93 so I my lasses

68

00:03:27,539 --> 00:03:24,280

unfortunately he was two days before the

69

00:03:30,120 --> 00:03:27,549

great revolution that we beam back

70

00:03:32,460 --> 00:03:30,130

basically a not because I don't want to

71

00:03:35,310 --> 00:03:32,470

it's gone very expensive but you can't

72

00:03:38,220 --> 00:03:35,320

organize anything everything is sort of

73

00:03:41,220 --> 00:03:38,230

shut down after six o'clock you can't go

74

00:03:43,380 --> 00:03:41,230

meet your friends because police they

75

00:03:46,349 --> 00:03:43,390

grow clock so he you know he can't do

76

00:03:50,310 --> 00:03:46,359

anything and I'll show you why we had

77

00:03:50,990 --> 00:03:50,320

some problems in 2005 2006 I was going

78

00:04:05,450 --> 00:03:51,000

to

79

00:04:08,500 --> 00:04:05,460

started where is going where man's

80

00:04:12,740 --> 00:04:08,510

destiny was is going in the future and

81

00:04:16,130 --> 00:04:12,750

basically it was just a free-form or the

82

00:04:18,770 --> 00:04:16,140

ideal be gonna build a sort of a new

83

00:04:20,990 --> 00:04:18,780

film documentary or series but

84

00:04:23,600 --> 00:04:21,000

unfortunately due to a the Revolution

85

00:04:28,100 --> 00:04:23,610

and the three best so my researches I'm

86

00:04:29,870 --> 00:04:28,110

getting one left such what and we never

87

00:04:32,660 --> 00:04:29,880

got around to it I got thirty hours of

88

00:04:35,660 --> 00:04:32,670

filming and one day I'll get down to its

89

00:04:38,510 --> 00:04:35,670

height cinematography filming and one of

90

00:04:40,550 --> 00:04:38,520

them to try and their to be all but it's

91

00:04:41,390 --> 00:04:40,560

still a lot of stuff that's never been

92

00:04:43,100 --> 00:04:41,400

seen before

93

00:04:45,710 --> 00:04:43,110

oh that we just happen to be in the

94

00:04:50,510 --> 00:04:45,720

lucky position to be in the places and

95

00:04:52,520 --> 00:04:50,520

made contacts so there's one little

96

00:04:55,610 --> 00:04:52,530

question I'm going to ask you as you go

97

00:04:58,570 --> 00:04:55,620

along didn't notice anything or perhaps

98

00:05:01,760 --> 00:04:58,580

one or two of you there's some unique

99

00:05:04,820 --> 00:05:01,770

points of the Great Pyramid this one

100

00:05:06,710 --> 00:05:04,830

yeah that one is Khafre is often shown

101
00:05:08,450 --> 00:05:06,720
as a great pyramid just because he's got

102
00:05:14,920 --> 00:05:08,460
little he looks bad think they're gonna

103
00:05:22,640 --> 00:05:19,640
plateau there's one particular point

104
00:05:25,280 --> 00:05:22,650
feature on the breaker does anyone know

105
00:05:27,110 --> 00:05:25,290
and it's only occurs in this pyramid no

106
00:05:34,940 --> 00:05:27,120
other pyramid in the world do you know

107
00:05:38,060 --> 00:05:34,950
what this is it sorry there's no bodies

108
00:05:43,159 --> 00:05:38,070
but no not the outside feature it is the

109
00:05:44,610 --> 00:05:43,169
only they only knew until 1945 on US Air

110
00:05:48,450 --> 00:05:44,620
Force and

111
00:05:50,820 --> 00:05:48,460
I threw over it but in my photograph

112
00:05:54,420 --> 00:05:50,830
I think I took this in about ninety

113
00:05:58,530 --> 00:05:54,430

seven you could see what can you see

114

00:06:00,900 --> 00:05:58,540

yeah it's concave its concave animal

115

00:06:04,080 --> 00:06:00,910

science and there's a reason for that

116

00:06:05,790 --> 00:06:04,090

and we look into that later on but no

117

00:06:08,700 --> 00:06:05,800

one knew about that - about after the

118

00:06:11,730 --> 00:06:08,710

war well you can see it I mean you know

119

00:06:13,530 --> 00:06:11,740

but no one really sort of look into it

120

00:06:16,560 --> 00:06:13,540

that much and these three pyramids

121

00:06:20,760 --> 00:06:16,570

coming - we call the Queen's pyramids I

122

00:06:22,890 --> 00:06:20,770

call the satellites pyramids they make

123

00:06:27,000 --> 00:06:22,900

quite important to the Great Pyramid as

124

00:06:29,370 --> 00:06:27,010

well okay so anyway that's me it's one

125

00:06:32,909 --> 00:06:29,380

that ran my thing I've got two or three

126
00:06:33,900 --> 00:06:32,919
in the 98 slides I I don't like having

127
00:06:35,790 --> 00:06:33,910
my picture taken

128
00:06:38,610 --> 00:06:35,800
but Jenny took this one on one of our

129
00:06:41,670 --> 00:06:38,620
visits just to give you some idea you've

130
00:06:44,670 --> 00:06:41,680
got a Great Pyramid the conference

131
00:06:47,010 --> 00:06:44,680
catheter Khafre and Menkaure the smaller

132
00:06:49,260 --> 00:06:47,020
one so you've got three main pyramids as

133
00:06:52,170 --> 00:06:49,270
well as a smaller little permanent on

134
00:06:55,860 --> 00:06:52,180
the side and it's pretty quite that

135
00:06:57,870 --> 00:06:55,870
thing it's gone very busy now I just to

136
00:06:58,589 --> 00:06:57,880
show you Wayne actually aids and where

137
00:07:02,279 --> 00:06:58,599
we going

138
00:07:04,320 --> 00:07:02,289

these sakaki's the Step Pyramid we look

139

00:07:06,900 --> 00:07:04,330

at that because he's importantly showing

140

00:07:09,360 --> 00:07:06,910

what other pyramids we looking at Giza

141

00:07:11,909 --> 00:07:09,370

is somebody with Cairo and that's where

142

00:07:13,710 --> 00:07:11,919

the pyramids are there and then we're

143

00:07:16,920 --> 00:07:13,720

going to take a trip later on and

144

00:07:19,800 --> 00:07:16,930

explain why don't pass the final to one

145

00:07:22,620 --> 00:07:19,810

ear I am the very isolated Coptic

146

00:07:25,680 --> 00:07:22,630

heritage sites where we lived for a week

147

00:07:27,750 --> 00:07:25,690

so looking for another parent lived in

148

00:07:29,540 --> 00:07:27,760

the Sun but we did find that we could

149

00:07:32,990 --> 00:07:29,550

not see better because of the

150

00:07:35,809 --> 00:07:33,000

there's a desert diamond in the way we

151

00:07:41,180 --> 00:07:35,819

look into that later so just to remind

152

00:07:43,279 --> 00:07:41,190

ourselves yeah are the three pyramids in

153

00:07:46,129 --> 00:07:43,289

pyramid they could always tell that one

154

00:07:48,379 --> 00:07:46,139

because the Boathouse is alongside it

155

00:07:49,460 --> 00:07:48,389

and this is the come from the sacrum on

156

00:07:52,490 --> 00:07:49,470

Menkaure

157

00:07:56,150 --> 00:07:52,500

you've probably heard about and

158

00:07:59,870 --> 00:07:56,160

Hancock's idea that the three pyramids

159

00:08:05,510 --> 00:07:59,880

aligned to Orion in part this is true

160

00:08:07,189 --> 00:08:05,520

but basically Alison Morey from

161

00:08:09,559 --> 00:08:07,199

Australia was one of our colleagues

162

00:08:12,290 --> 00:08:09,569

years ago wrote about all this long

163

00:08:15,710 --> 00:08:12,300

before the boobs give out

164

00:08:19,339 --> 00:08:15,720

she's an astrologer in Australia in the

165

00:08:23,200 --> 00:08:19,349

early 80s she discovered this alignment

166

00:08:27,830 --> 00:08:23,210

and she wrote an article in a journal

167

00:08:30,529 --> 00:08:27,840

astrology turn how are we touching them

168

00:08:35,300 --> 00:08:30,539

and they're talking about this we don't

169

00:08:38,449 --> 00:08:35,310

see very much anything once but I told

170

00:08:41,120 --> 00:08:38,459

them that time reg1 the early books they

171

00:08:43,969 --> 00:08:41,130

copied page for page two pages of

172

00:08:47,449 --> 00:08:43,979

Alison's work and didn't even give her a

173

00:08:50,150 --> 00:08:47,459

reference so I did contact

174

00:08:52,340 --> 00:08:50,160

Robert two years ago talking about this

175

00:08:55,940 --> 00:08:52,350

and she was going to take them to court

176

00:08:58,310 --> 00:08:55,950

under advice from the archive doctor a

177

00:09:01,970 --> 00:08:58,320

writer of The Times but unfortunately

178

00:09:04,790 --> 00:09:01,980

her husband we survived the brain case

179

00:09:06,919 --> 00:09:04,800

of cancer she hath about

180

00:09:08,809 --> 00:09:06,929

never went down road so that one stood

181

00:09:11,629 --> 00:09:08,819

open but just to give you an idea what

182

00:09:17,179 --> 00:09:11,639

some researchers authors do at some

183

00:09:19,999 --> 00:09:17,189

point but they make it mega bucks okay

184

00:09:21,470 --> 00:09:20,009

so these are the talked about some of

185

00:09:24,530 --> 00:09:21,480

the publication's these are sort of

186

00:09:26,989 --> 00:09:24,540

three publications were involved in I've

187

00:09:30,289 --> 00:09:26,999

got this one here with me today I'm

188

00:09:32,389 --> 00:09:30,299

gonna cut the spare copies I have many

189

00:09:34,850 --> 00:09:32,399

of these they've all being sold this you

190

00:09:36,679 --> 00:09:34,860

can still get them all in Anderson I

191

00:09:38,419 --> 00:09:36,689

don't get anything out of them now they

192

00:09:41,869 --> 00:09:38,429

just being brought up big companies and

193

00:09:44,350 --> 00:09:41,879

then sell them off the pointy one is all

194

00:09:47,419 --> 00:09:44,360

about parking when I talk about tonight

195

00:09:53,739 --> 00:09:47,429

falling to his more than the Sphinx and

196

00:10:00,319 --> 00:09:53,749

how that's related to the Giza Plateau

197

00:10:02,600 --> 00:10:00,329

the basically the information I'm going

198

00:10:03,829 --> 00:10:02,610

to give it to you it's really complex I

199

00:10:06,259 --> 00:10:03,839

think it's a lot of it

200

00:10:09,049 --> 00:10:06,269

we need a whole series of presentations

201
00:10:11,419 --> 00:10:09,059
over many months just to talk about two

202
00:10:13,850 --> 00:10:11,429
or three slides I'm giving you so bear

203
00:10:15,799 --> 00:10:13,860
with me I've got to go right through the

204
00:10:18,139 --> 00:10:15,809
whole twenty on user research and

205
00:10:19,220 --> 00:10:18,149
everything that's happening in past

206
00:10:23,569 --> 00:10:19,230
present and future

207
00:10:26,030 --> 00:10:23,579
Egypt so we just have to blow so maybe

208
00:10:28,970 --> 00:10:26,040
take up one two points those are our

209
00:10:30,289 --> 00:10:28,980
than they give us some questions okay so

210
00:10:32,840 --> 00:10:30,299
that those are the three main

211
00:10:36,079 --> 00:10:32,850
publications but what I wanted to do is

212
00:10:38,480 --> 00:10:36,089
introduce you to the three or two main

213
00:10:40,489 --> 00:10:38,490

people on one extra that actually

214

00:10:44,539 --> 00:10:40,499

involved in a very early work long

215

00:10:48,769 --> 00:10:44,549

before I came around in 898 yeah that he

216

00:10:51,889 --> 00:10:48,779

died about six years ago he was a diving

217

00:10:54,490 --> 00:10:51,899

officer for the Canadian government and

218

00:10:57,820 --> 00:10:54,500

so some years ago written from chess

219

00:11:01,210 --> 00:10:57,830

but he live in Canada most his life he's

220

00:11:03,900 --> 00:11:01,220

been in 1818 who's who books he was

221

00:11:06,790 --> 00:11:03,910

nominated to the most accomplished fan

222

00:11:09,640 --> 00:11:06,800

begin his most accomplished man back in

223

00:11:13,570 --> 00:11:09,650

the 80s and he's got all those how many

224

00:11:18,040 --> 00:11:13,580

degrees and PhDs he's an inventor as a

225

00:11:27,160 --> 00:11:18,050

psychic in fact young is attributed to

226

00:11:30,040 --> 00:11:27,170

the only reference psychic film debility

227

00:11:34,590 --> 00:11:30,050

he was 400 miles away when he moved a

228

00:11:37,720 --> 00:11:34,600

feather in a bell jar in the university

229

00:11:40,900 --> 00:11:37,730

voluntary but I don't know how he did

230

00:11:42,580 --> 00:11:40,910

that but it was the only official one

231

00:11:44,890 --> 00:11:42,590

and he had the biggest library of

232

00:11:47,050 --> 00:11:44,900

psychic books in the world unfortunately

233

00:11:50,170 --> 00:11:47,060

passed away nine years ago now it just

234

00:11:52,990 --> 00:11:50,180

seems like yesterday so he is one of our

235

00:11:55,380 --> 00:11:53,000

main thrust researchers and he came up

236

00:11:58,600 --> 00:11:55,390

with some of these many hadith years

237

00:12:01,690 --> 00:11:58,610

jenny is enriching a sniper in the

238

00:12:04,720 --> 00:12:01,700

Vietnam War he was buying the injured

239

00:12:06,970 --> 00:12:04,730

but he recovered but he was getting life

240

00:12:12,670 --> 00:12:06,980

and ended up in the habit scientists and

241

00:12:15,670 --> 00:12:12,680

died in 2009 all between a unit of each

242

00:12:18,370 --> 00:12:15,680

other and he's responsible for he spent

243

00:12:21,520 --> 00:12:18,380

his whole life trying to analyze the

244

00:12:23,860 --> 00:12:21,530

book of Exodus in Genesis I'll come on

245

00:12:27,100 --> 00:12:23,870

to that later but bear in mind if you

246

00:12:30,720 --> 00:12:27,110

think of the books of Genesis as a

247

00:12:33,580 --> 00:12:30,730

mortgage annette --ax difficult

248

00:12:36,340 --> 00:12:33,590

religious tax and the exodus as a

249

00:12:37,960 --> 00:12:36,350

science book or physics they might be

250

00:12:42,130 --> 00:12:37,970

getting near to what we're going to talk

251
00:12:45,370 --> 00:12:42,140
about tonight I mean you might have

252
00:12:50,110 --> 00:12:45,380
heard this and this guy Peter he was

253
00:12:51,670 --> 00:12:50,120
done a spy during the south wall he

254
00:12:55,090 --> 00:12:51,680
moved through SSSs

255
00:12:58,780 --> 00:12:55,100
in Rome and he's one of the best account

256
00:13:00,790 --> 00:12:58,790
selling authors he wrote the secret life

257
00:13:03,609 --> 00:13:00,800
of plants so he may have read that and

258
00:13:06,210 --> 00:13:03,619
the secrets of the great permit and the

259
00:13:10,389 --> 00:13:06,220
mysteries of the next even pyramid so

260
00:13:15,609 --> 00:13:10,399
another great great guy who died I think

261
00:13:21,519 --> 00:13:15,619
about I think so they've all gone down

262
00:13:25,989 --> 00:13:21,529
the way started now so okay well let's

263
00:13:28,929 --> 00:13:25,999

take a little talk through parts of the

264

00:13:30,340 --> 00:13:28,939

improvement sites you know quest for

265

00:13:30,999 --> 00:13:30,350

these that we call their quest for

266

00:13:33,249 --> 00:13:31,009

Brittany

267

00:13:36,970 --> 00:13:33,259

you know quest for what was to

268

00:13:40,509 --> 00:13:36,980

understand the Atlanta we go to other

269

00:13:44,379 --> 00:13:40,519

sites this is traditionally important

270

00:13:46,569 --> 00:13:44,389

academics the Step Pyramid of Djoser is

271

00:13:50,650 --> 00:13:46,579

supposed to be the first pyramid ever

272

00:13:53,710 --> 00:13:50,660

built purely because it's based on the

273

00:13:56,590 --> 00:13:53,720

idea master birds which are burial

274

00:13:58,269 --> 00:13:56,600

mounds being placed one on top of the

275

00:14:06,850 --> 00:13:58,279

other so that's why it's called Step

276

00:14:10,989 --> 00:14:06,860

Pyramid saying that it's granite or

277

00:14:13,239 --> 00:14:10,999

limestone like the pyramids in Giza it's

278

00:14:20,079 --> 00:14:13,249

made of mud brick so that's why it's

279

00:14:23,499 --> 00:14:20,089

mostly such a good mission but we think

280

00:14:27,189 --> 00:14:23,509

that was probably fourth or fifth to be

281

00:14:31,119 --> 00:14:27,199

built it's but a very mind that what you

282

00:14:34,299 --> 00:14:31,129

see on the Giza Plateau is not original

283

00:14:36,400 --> 00:14:34,309

one this property was built for off four

284

00:14:39,789 --> 00:14:36,410

thousand eight hundred years ago maybe

285

00:14:43,780 --> 00:14:39,799

five thousand knowings incredibly short

286

00:14:44,840 --> 00:14:43,790

but it's built on a much older site Jim

287

00:14:48,350 --> 00:14:44,850

and

288

00:14:50,660 --> 00:14:48,360

it's at least 50,000 years old

289

00:14:52,460 --> 00:14:50,670

come on to that why do you think eyes

290

00:14:55,809 --> 00:14:52,470

later as well I'm just going to give you

291

00:15:03,050 --> 00:15:00,620

permit in the Regal Mary which used to

292

00:15:07,850 --> 00:15:03,060

be along with the Red Pyramid and bent

293

00:15:13,460 --> 00:15:07,860

pyramid a young an area that was until

294

00:15:16,340 --> 00:15:13,470

about 2002 with military arms control so

295

00:15:21,379 --> 00:15:16,350

you wouldn't go up these buildings at

296

00:15:23,930 --> 00:15:21,389

all until about 2003 2004 the pictures I

297

00:15:25,730 --> 00:15:23,940

thought there were 2005 some went

298

00:15:28,220 --> 00:15:25,740

through that site it was very difficult

299

00:15:31,100 --> 00:15:28,230

to get the special permissions otherwise

300

00:15:35,139 --> 00:15:31,110

to a normal tourist they were to go to

301
00:15:38,660 --> 00:15:35,149
these sites and this is the bent pyramid

302
00:15:42,079 --> 00:15:38,670
again on the Dacia many expository site

303
00:15:44,269 --> 00:15:42,089
neat nearly made on so-called because

304
00:15:47,030 --> 00:15:44,279
they sort of worked half way up and it

305
00:15:50,150 --> 00:15:47,040
kinda different angle maybe they thought

306
00:15:52,189 --> 00:15:50,160
it was to the king penguin bent a

307
00:15:54,699 --> 00:15:52,199
Doberman but no one really knows for

308
00:16:05,600 --> 00:16:00,230
this is you can see it's on these

309
00:16:10,790 --> 00:16:05,610
corners and again limestone companies

310
00:16:16,639 --> 00:16:10,800
partly in place damage to the limestone

311
00:16:19,670 --> 00:16:16,649
bricks here this is the red pyramid the

312
00:16:22,460 --> 00:16:19,680
third largest after the Giza one staffer

313
00:16:27,500 --> 00:16:22,470

who earned about 2,000

314

00:16:29,990 --> 00:16:27,510

BC so four or five 4,500 years old

315

00:16:31,940 --> 00:16:30,000

yeah like the Great Pyramid the entrance

316

00:16:33,700 --> 00:16:31,950

is up in the middle there but again

317

00:16:36,590 --> 00:16:33,710

there's nothing being found in there

318

00:16:40,900 --> 00:16:36,600

nothing that one made them they was

319

00:16:45,350 --> 00:16:40,910

supposedly something there but not as

320

00:16:48,770 --> 00:16:45,360

anything like the Great Pyramid this is

321

00:16:49,820 --> 00:16:48,780

me I'm being done it goes all the way

322

00:16:55,040 --> 00:16:49,830

don't write down

323

00:16:55,670 --> 00:16:55,050

well blow very stuffy very hot down

324

00:16:58,460 --> 00:16:55,680

there

325

00:17:01,310 --> 00:16:58,470

I think see it's all made the cut line

326

00:17:07,670 --> 00:17:01,320

still or like channel we down into a

327

00:17:12,980 --> 00:17:07,680

cave system there's one other very badly

328

00:17:16,400 --> 00:17:12,990

composed decomposed pyramids on the site

329

00:17:19,250 --> 00:17:16,410

north south of Cairo north of giza of

330

00:17:22,390 --> 00:17:19,260

the Giza Plateau these are very after

331

00:17:24,890 --> 00:17:22,400

the revolution either by bein damaged

332

00:17:28,090 --> 00:17:24,900

there was a lot of looting going on and

333

00:17:30,830 --> 00:17:28,100

on many sites and this one that seems a

334

00:17:36,850 --> 00:17:30,840

casing question and other stuff

335

00:17:40,790 --> 00:17:39,380

and of course we have these unusual

336

00:17:45,410 --> 00:17:40,800

permits Tony sit down

337

00:17:51,410 --> 00:17:45,420

so those to see what's going on down

338

00:17:56,140 --> 00:17:51,420

there famous ones to the town and this

339

00:17:59,120 --> 00:17:56,150

one in Mexico the account as well

340

00:18:03,380 --> 00:17:59,130

no this is an interesting one you've got

341

00:18:06,830 --> 00:18:03,390

a suckling image this is of the Giza

342

00:18:10,460 --> 00:18:06,840

Plateau is there no simple they read

343

00:18:11,210 --> 00:18:10,470

this is anyone recognize that one it's

344

00:18:14,240 --> 00:18:11,220

uh

345

00:18:16,760 --> 00:18:14,250

I tell you around because it small stuff

346

00:18:17,360 --> 00:18:16,770

you've got the demands of the Giza

347

00:18:22,640 --> 00:18:17,370

Plateau

348

00:18:25,070 --> 00:18:22,650

this is in China it's they went they

349

00:18:28,640 --> 00:18:25,080

went he's going to they fought

350

00:18:32,590 --> 00:18:28,650

when military flying over and discovered

351

00:18:37,180 --> 00:18:32,600

that these extra pyramids these unlike

352

00:18:41,320 --> 00:18:37,190

the stone worked permits are maybe

353

00:18:43,840 --> 00:18:41,330

mud-brick on some stone on the base

354

00:18:47,870 --> 00:18:43,850

supposedly there was some kind of

355

00:18:50,960 --> 00:18:47,880

identity burial under one of them but we

356

00:18:54,220 --> 00:18:50,970

don't know because in China not much

357

00:18:56,840 --> 00:18:54,230

information is coming out from that area

358

00:18:59,680 --> 00:18:56,850

but just to show you that it's not just

359

00:19:01,790 --> 00:18:59,690

the Giza Plateau in Egypt that's

360

00:19:06,020 --> 00:19:01,800

experiments they've got it everywhere

361

00:19:09,140 --> 00:19:06,030

sitting some in Europe now this typical

362

00:19:21,260 --> 00:19:09,150

layout is very very similar but nobody's

363

00:19:27,560 --> 00:19:21,270

actually gone into so we're heading off

364

00:19:31,910 --> 00:19:27,570

now into the desert this is we were told

365

00:19:35,740 --> 00:19:31,920

that there was a Coptic any Coptic

366

00:19:39,470 --> 00:19:35,750

Christian cave site that was an area in

367

00:19:42,500 --> 00:19:39,480

471 four thousand months left and the

368

00:19:45,080 --> 00:19:42,510

modern monks who in living there copying

369

00:19:48,290 --> 00:19:45,090

there some distant relatives of who were

370

00:19:51,140 --> 00:19:48,300

in the fourth and fifth century were

371

00:19:54,080 --> 00:19:51,150

living in caves in one year and not far

372

00:19:56,480 --> 00:19:54,090

from this area and they had told some

373

00:19:59,180 --> 00:19:56,490

interesting stories via Bishop I know in

374

00:20:03,320 --> 00:19:59,190

Cairo that they were one or two pyramids

375

00:20:07,900 --> 00:20:03,330

buried in sand out in the desert where

376

00:20:12,680 --> 00:20:07,910

party everybody a few itinerant

377

00:20:16,460 --> 00:20:12,690

Egyptians go and where military exercise

378

00:20:18,739 --> 00:20:16,470

but no one actually walks on foot so we

379

00:20:20,989 --> 00:20:18,749

have to go we have this message so we're

380

00:20:23,810 --> 00:20:20,999

in Cairo we met up with a few people and

381

00:20:26,629 --> 00:20:23,820

brought my colleagues together we sawed

382

00:20:32,330 --> 00:20:26,639

off for a week ten days into the desert

383

00:20:38,229 --> 00:20:32,340

and we stayed in one particular on the

384

00:20:42,200 --> 00:20:38,239

edge of near the town is a very large

385

00:20:45,229 --> 00:20:42,210

Hungary and Industry and the police

386

00:20:45,529 --> 00:20:45,239

picked us up there followed us all the

387

00:20:49,759 --> 00:20:45,539

way

388

00:20:53,469 --> 00:20:49,769

100 miles into the desert this is a

389

00:20:55,969 --> 00:20:53,479

military these are not two four by fours

390

00:20:58,789 --> 00:20:55,979

we just couldn't get shot of them and

391

00:21:00,889 --> 00:20:58,799

some we got one to the Zuri's nature

392

00:21:02,960 --> 00:21:00,899

reserve area before we came to the

393

00:21:05,409 --> 00:21:02,970

desert and then we had the secret police

394

00:21:08,089 --> 00:21:05,419

pick us up they call them the gaming

395

00:21:10,359 --> 00:21:08,099

police because we've all got the Bears

396

00:21:13,489 --> 00:21:10,369

but we're going on where they are and

397

00:22:34,450 --> 00:21:13,499

these coins then madness and the secret

398

00:22:40,519 --> 00:22:34,460

police so very high plateaus 500 feet

399

00:22:43,669 --> 00:22:40,529

behind me until 2002 was the turning

400

00:22:46,279 --> 00:22:43,679

point of the car I and the Egyptian Erik

401
00:22:48,560 --> 00:22:46,289
sticks was on the markers has stood up

402
00:22:50,839 --> 00:22:48,570
there for the turnaround point but

403
00:22:53,029 --> 00:22:50,849
there's cops complaining to the bishop

404
00:22:56,359 --> 00:22:53,039
the bishop complained to the Coptic Pope

405
00:22:59,419 --> 00:22:56,369
and they managed to stop the car in that

406
00:23:01,549 --> 00:22:59,429
area since 2002 is he making

407
00:23:05,960 --> 00:23:01,559
he said he's interrupting their prayers

408
00:23:08,479 --> 00:23:05,970
so nice to get away without one so this

409
00:23:12,619 --> 00:23:08,489
is the area we're looking at we were

410
00:23:16,899 --> 00:23:12,629
told from this point the hidden pyramid

411
00:23:19,700 --> 00:23:16,909
was about two miles from here

412
00:23:23,119 --> 00:23:19,710
unfortunately there was a massive

413
00:23:28,940 --> 00:23:23,129

sandstorm on it this is the area that we

414

00:23:31,609 --> 00:23:28,950

stayed at an hour's drive from here and

415

00:23:58,460 --> 00:23:31,619

this is the sort of combination as a

416

00:24:39,660 --> 00:24:37,860

this is a so this is like never know

417

00:24:42,900 --> 00:24:39,670

where they've grown up these eight

418

00:24:47,540 --> 00:24:42,910

pounds for protection and they so many

419

00:24:52,080 --> 00:24:47,550

lived on their own growing ability

420

00:24:54,690 --> 00:24:52,090

this is unusable in the distance we have

421

00:25:00,890 --> 00:24:54,700

up there and right half an hour break

422

00:25:09,120 --> 00:25:00,900

down is where the pyramid he found near

423

00:25:12,570 --> 00:25:09,130

this is three or four hundred feet up we

424

00:25:17,040 --> 00:25:12,580

wind up a cave and found these bones I'm

425

00:25:23,180 --> 00:25:17,050

on human bones and interesting one of

426

00:25:26,340 --> 00:25:23,190

them had a pistol in a horse's hoof an

427

00:25:28,380 --> 00:25:26,350

iron which he thinks are 2000 years old

428

00:25:32,790 --> 00:25:28,390

and I am a style

429

00:25:33,560 --> 00:25:32,800

Aramis used normally they're the ones to

430

00:25:36,530 --> 00:25:33,570

get the horse

431

00:25:37,700 --> 00:25:36,540

go through the Sun it's very unusual to

432

00:25:41,180 --> 00:25:37,710

see I am one

433

00:25:46,220 --> 00:25:41,190

bear in mind that it is four hundred

434

00:25:48,560 --> 00:25:46,230

people from the base on a very narrow

435

00:25:51,770 --> 00:25:48,570

and we think some an animal like a

436

00:25:55,490 --> 00:25:51,780

desert fox or we do get large as a cat's

437

00:25:56,990 --> 00:25:55,500

may have taken up in the past to develop

438

00:26:01,130 --> 00:25:57,000

the remains of the body

439

00:26:03,800 --> 00:26:01,140

we also found scalp Richard Wayne

440

00:26:06,110 --> 00:26:03,810

colleagues one of the monks so there's a

441

00:26:08,840 --> 00:26:06,120

lot of burials in there Roman Coptic

442

00:26:11,630 --> 00:26:08,850

many other types of parents but we

443

00:26:19,700 --> 00:26:11,640

couldn't bring any any information or

444

00:26:21,280 --> 00:26:19,710

any so this is a this is a little

445

00:26:24,530 --> 00:26:21,290

camping area for the week

446

00:26:26,890 --> 00:26:24,540

shooting off daily while just up in the

447

00:26:32,390 --> 00:26:26,900

caves on the right of the secret police

448

00:26:34,790 --> 00:26:32,400

and this is not technical from here we

449

00:26:38,360 --> 00:26:34,800

discover the site of the lost

450

00:26:41,030 --> 00:26:38,370

permanently where I was and we couldn't

451
00:26:41,510 --> 00:26:41,040
get the beagles over because this forty

452
00:26:45,320 --> 00:26:41,520
foot

453
00:26:47,480 --> 00:26:45,330
I think yeah this suddenly appeared when

454
00:26:48,080 --> 00:26:47,490
the monks went down to maybe four is all

455
00:26:51,560 --> 00:26:48,090
clear

456
00:26:53,930 --> 00:26:51,570
and then the next next day 40 50 foot at

457
00:26:57,020 --> 00:26:53,940
least other baby warm the Sun some unit

458
00:27:00,550 --> 00:26:57,030
good he was behind this sounding that we

459
00:27:05,060 --> 00:27:00,560
found the become a permanent

460
00:27:08,180 --> 00:27:05,070
unfortunately we were going to when we

461
00:27:10,490 --> 00:27:08,190
got to the top of the the sound knew we

462
00:27:13,760 --> 00:27:10,500
could see it about a kilometer away and

463
00:27:17,150 --> 00:27:13,770

to highly defined pyramids never been

464

00:27:19,660 --> 00:27:17,160

recorded and seen before we inspect most

465

00:27:23,560 --> 00:27:19,670

of them son

466

00:27:26,440 --> 00:27:23,570

way up and probably we're looking down

467

00:27:28,360 --> 00:27:26,450

level with it was to be about 200 feet

468

00:27:30,670 --> 00:27:28,370

high

469

00:27:32,680 --> 00:27:30,680

and then all the sudden the military

470

00:27:36,610 --> 00:27:32,690

aircraft started coming flying on their

471

00:27:39,130 --> 00:27:36,620

training exercise below us so below the

472

00:27:41,140 --> 00:27:39,140

level on the permian as well so we was

473

00:27:43,060 --> 00:27:41,150

covered that he couldn't move at all

474

00:27:46,450 --> 00:27:43,070

you meant supposed to be in that area or

475

00:27:50,290 --> 00:27:46,460

either it's a very good news where there

476

00:27:54,520 --> 00:27:50,300

is very uneven weathering due to the

477

00:27:58,210 --> 00:27:54,530

winds and this is the big boss these are

478

00:28:01,930 --> 00:27:58,220

on 14th I know but he's a guy in charge

479

00:28:04,150 --> 00:28:01,940

of every man these are little caves that

480

00:28:06,550 --> 00:28:04,160

we stayed in but it was an innocent

481

00:28:09,550 --> 00:28:06,560

experience and just showing you what we

482

00:28:12,040 --> 00:28:09,560

go that's we go to to try and father man

483

00:28:15,280 --> 00:28:12,050

all the answers to why all these

484

00:28:18,550 --> 00:28:15,290

pyramids were booked in in the vacation

485

00:28:21,750 --> 00:28:18,560

as they are he said the secret place

486

00:28:24,310 --> 00:28:21,760

called Alabama please around the Galvez

487

00:28:26,710 --> 00:28:24,320

they must have found me very boring that

488

00:28:30,280 --> 00:28:26,720

week following us would mean they didn't

489

00:28:34,090 --> 00:28:30,290

actually follow us at all they're very

490

00:28:37,660 --> 00:28:34,100

do anything in Egypt at all except Iran

491

00:28:39,310 --> 00:28:37,670

even worse now since the revolution so

492

00:28:43,480 --> 00:28:39,320

they kept following us everywhere and

493

00:28:45,640 --> 00:28:43,490

that was all these guys they make 1214

494

00:28:47,930 --> 00:28:45,650

hours for one bus that comes along every

495

00:28:50,790 --> 00:28:47,940

24 hours

496

00:28:54,040 --> 00:28:50,800

[Music]

497

00:28:56,680 --> 00:28:54,050

well let's go back to our own remaining

498

00:28:59,470 --> 00:28:56,690

tensions and it's the Giza Plateau again

499

00:29:01,450 --> 00:28:59,480

we've got the that is the second pyramid

500

00:29:02,370 --> 00:29:01,460

of khafre this is the main one we're

501
00:29:05,880 --> 00:29:02,380
talking about

502
00:29:08,540 --> 00:29:05,890
Khufu menkaure and as you can see men

503
00:29:13,740 --> 00:29:08,550
call us got three satellite pyramids and

504
00:29:17,190 --> 00:29:13,750
the kafir did house only eroded quite

505
00:29:19,470 --> 00:29:17,200
badly and the three permuting dis Queens

506
00:29:25,020 --> 00:29:19,480
pyramids are called you can still see

507
00:29:43,920 --> 00:29:25,030
them up on the Great Pyramid itself and

508
00:29:47,460 --> 00:29:43,930
this is another these are all I'm going

509
00:29:55,050 --> 00:29:47,470
to tell you now that people ask me who

510
00:29:58,440 --> 00:29:55,060
built the pyramids well basically we

511
00:30:03,270 --> 00:29:58,450
build the pyramids but with some highly

512
00:30:06,020 --> 00:30:03,280
advanced technology that is non-existent

513
00:30:08,600 --> 00:30:06,030

in present terms that we understand them

514

00:30:18,660 --> 00:30:08,610

what were you selling

515

00:30:22,980 --> 00:30:18,670

according to 1818 and colleague alums

516

00:30:28,560 --> 00:30:22,990

that was in the CIA and if you ever talk

517

00:30:33,150 --> 00:30:28,570

about the nominees they mentioned the

518

00:30:36,380 --> 00:30:33,160

learjet foundation the John the father

519

00:30:40,050 --> 00:30:36,390

the son of the father who actually and

520

00:30:42,390 --> 00:30:40,060

pilots got a lot of interest in ufology

521

00:30:44,970 --> 00:30:42,400

and we were in touch we encountered

522

00:30:49,890 --> 00:30:44,980

there many years ago and he needs to fly

523

00:30:52,590 --> 00:30:49,900

the CIA up and fall to various parts of

524

00:30:54,780 --> 00:30:52,600

nahreeb in Canada and various other

525

00:30:58,050 --> 00:30:54,790

parts of the world in the near jets and

526

00:31:01,080 --> 00:30:58,060

he was told that you know

527

00:31:07,800 --> 00:31:01,090

to talk to you about he was told that

528

00:31:14,160 --> 00:31:07,810

50,000 years ago parts of Mars was being

529

00:31:18,090 --> 00:31:14,170

adult we were there in the cultural

530

00:31:21,300 --> 00:31:18,100

community in parts until that if you

531

00:31:25,160 --> 00:31:21,310

notice Mars is a long slash on the side

532

00:31:30,000 --> 00:31:25,170

of it and party is due to a massive

533

00:31:33,150 --> 00:31:30,010

incoming asteroid it they said was about

534

00:31:37,320 --> 00:31:33,160

15 maybe 55,000 year ever take a

535

00:31:39,960 --> 00:31:37,330

thousand Institute because of that we

536

00:31:43,290 --> 00:31:39,970

had some some of the people living on

537

00:31:46,530 --> 00:31:43,300

Mars had to come to earth meanwhile on

538

00:31:50,460 --> 00:31:46,540

earth we still had developing Homo

539

00:31:56,760 --> 00:31:50,470

erectus Homo sapiens and various animal

540

00:31:59,670 --> 00:31:56,770

life living on the idea so we were told

541

00:32:03,300 --> 00:31:59,680

and so we discovered later that the

542

00:32:05,520 --> 00:32:03,310

building of these main sighting of these

543

00:32:10,340 --> 00:32:05,530

astronomical something in these pyramids

544

00:32:14,490 --> 00:32:10,350

where in fact as a transmitter and

545

00:32:17,840 --> 00:32:14,500

receiver and then later used as some

546

00:32:21,540 --> 00:32:17,850

kind of ceremonial use much later on in

547

00:32:23,820 --> 00:32:21,550

Egyptian life so I could look at that

548

00:32:28,440 --> 00:32:23,830

later on but I want you to explain that

549

00:32:31,470 --> 00:32:28,450

the first place that we as humans felt

550

00:32:33,900 --> 00:32:31,480

them but we weren't living on earth when

551
00:32:37,560 --> 00:32:33,910
we originally built them however what

552
00:32:40,700 --> 00:32:37,570
you see today was finished off by about

553
00:32:43,980 --> 00:32:40,710
five six thousand years ago by us again

554
00:32:46,940 --> 00:32:43,990
but with the technology used to build

555
00:32:50,490 --> 00:32:46,950
the internal sections has now being lost

556
00:32:53,640 --> 00:32:50,500
so that that's just it was a written

557
00:32:54,760 --> 00:32:53,650
theory but it's hard on the following we

558
00:32:59,530 --> 00:32:54,770
wrote in our book

559
00:33:04,660 --> 00:32:59,540
mm what a feedback about that so going

560
00:33:07,630 --> 00:33:04,670
back to well constructed pyramids these

561
00:33:08,920 --> 00:33:07,640
plane important part is why I want to

562
00:33:11,830 --> 00:33:08,930
come

563
00:33:14,590 --> 00:33:11,840

as you go through evening showing our

564

00:33:17,620 --> 00:33:14,600

past discoveries and the current ones

565

00:33:19,150 --> 00:33:17,630

last year which is always to be human

566

00:33:20,200 --> 00:33:19,160

data Commons may in fact their own

567

00:33:23,740 --> 00:33:20,210

discoveries

568

00:33:25,510 --> 00:33:23,750

and what we may find in the future but

569

00:33:28,180 --> 00:33:25,520

there's still a lot of stuff we don't

570

00:33:31,600 --> 00:33:28,190

know about the close-up there you can

571

00:33:34,450 --> 00:33:31,610

see the the concavity and each side of

572

00:33:37,420 --> 00:33:34,460

the Great Pyramid and it's very very

573

00:33:39,310 --> 00:33:37,430

close to people things out in the desert

574

00:33:41,860 --> 00:33:39,320

where these one site but if you turn

575

00:33:44,080 --> 00:33:41,870

around you can see you know man the

576

00:33:47,560 --> 00:33:44,090
condom health health and Cairo

577

00:33:53,170 --> 00:33:47,570
main city box not far away and

578

00:33:57,610 --> 00:33:53,180
encroaching rapidly this is a part of a

579

00:34:03,190 --> 00:33:57,620
wall they built about 2004 to keep to

580

00:34:06,550 --> 00:34:03,200
try and retain the stability inside the

581

00:34:09,909 --> 00:34:06,560
Giza Plateau and here's the wall it goes

582

00:34:14,399 --> 00:34:09,919
16 kilometers all there on the site they

583

00:34:18,159 --> 00:34:14,409
even knock down villages in desert and

584

00:34:20,380 --> 00:34:18,169
move the people to some areas where they

585

00:34:22,810 --> 00:34:20,390
be living that news occurs there's a lot

586

00:34:26,440 --> 00:34:22,820
of trouble about that the wall is about

587

00:34:29,649 --> 00:34:26,450
15 16 foot high and the idea is in what

588

00:34:32,950 --> 00:34:29,659

they control the vendors the people who

589

00:34:36,909 --> 00:34:32,960

sell things and control the people

590

00:34:40,540 --> 00:34:36,919

coming in by the way the site shuts at 3

591

00:34:44,680 --> 00:34:40,550

o'clock we were lucky as I hear us used

592

00:34:48,760 --> 00:34:44,690

to be the young director of the Giza

593

00:34:51,549 --> 00:34:48,770

Plateau and until about 14 years ago

594

00:34:54,279 --> 00:34:51,559

then he were going to be the director

595

00:34:58,259 --> 00:34:54,289

to the government not a very well-liked

596

00:35:03,219 --> 00:34:58,269

man and you always see him on TV but his

597

00:35:06,099 --> 00:35:03,229

new shirt and hat sparking off some

598

00:35:09,249 --> 00:35:06,109

rubbish but we have a lot of run-ins

599

00:35:11,140 --> 00:35:09,259

with him but we were lucky to get inside

600

00:35:13,809 --> 00:35:11,150

on several occasions when he was

601
00:35:14,859 --> 00:35:13,819
vectoring in America because we knew one

602
00:35:20,170 --> 00:35:14,869
to be young

603
00:35:22,059 --> 00:35:20,180
inspectors so this is Khafre the second

604
00:35:24,160 --> 00:35:22,069
one and he's always showing off as I

605
00:35:26,799 --> 00:35:24,170
said because he looks prettier than the

606
00:35:30,849 --> 00:35:26,809
current pyramid for something we think

607
00:35:33,069 --> 00:35:30,859
that the capstone on the pyramid was it

608
00:35:35,799 --> 00:35:33,079
was one in place at one time were now

609
00:35:38,349 --> 00:35:35,809
buried it's a big things like finding

610
00:35:41,170 --> 00:35:38,359
Alexander's tomb we're all looking for

611
00:35:45,130 --> 00:35:41,180
that tomb the tomb were looking for the

612
00:35:47,890 --> 00:35:45,140
capstone never to be found and this of

613
00:35:52,120 --> 00:35:47,900

course is things like right in front of

614

00:35:54,249 --> 00:35:52,130

this on the other side sort of causeway

615

00:35:58,689 --> 00:35:54,259

all the way up it's a huge very

616

00:36:04,719 --> 00:35:58,699

impressively together and they is Khafre

617

00:36:07,499 --> 00:36:04,729

and there's sense and some years ago

618

00:36:14,079 --> 00:36:07,509

about there's a lot of people talk about

619

00:36:15,870 --> 00:36:14,089

the lost to the Hall of Records under

620

00:36:19,809 --> 00:36:15,880

the right borders fence

621

00:36:22,380 --> 00:36:19,819

well according to Jim and I work in 98

622

00:36:25,870 --> 00:36:22,390

99 and

623

00:36:28,509 --> 00:36:25,880

Sydney was supposed to the end of the

624

00:36:32,559 --> 00:36:28,519

right coordinates but some kilometers

625

00:36:34,950 --> 00:36:32,569

away it was a national alignment

626
00:36:37,630 --> 00:36:34,960
we've heard of thee as above buzzer girl

627
00:36:41,440 --> 00:36:37,640
if you were lining up this particular

628
00:36:44,319 --> 00:36:41,450
line with the Sphinx it's quite

629
00:36:47,470 --> 00:36:44,329
complicated it's only my DVD is too

630
00:36:51,150 --> 00:36:47,480
complicated I continue to try to explain

631
00:36:53,440 --> 00:36:51,160
to me but when you turn this the

632
00:36:57,640 --> 00:36:53,450
astronomical alignment upside down and

633
00:36:59,739 --> 00:36:57,650
the lines with the three pyramids also

634
00:37:01,450 --> 00:36:59,749
the causeway out of the two temples and

635
00:37:04,180 --> 00:37:01,460
the Sphinx

636
00:37:08,529 --> 00:37:04,190
they formed a star chart which shadows

637
00:37:13,630 --> 00:37:08,539
onto an area about 10 square kilometers

638
00:37:15,670 --> 00:37:13,640

on the right paw is marks a spot which

639

00:37:21,579 --> 00:37:15,680

people have been trying where there's a

640

00:37:24,549 --> 00:37:21,589

tunnel just sort of north of Cairo it

641

00:37:27,009 --> 00:37:24,559

was that thing - but it seems to theory

642

00:37:29,499 --> 00:37:27,019

and the work seems to stop for the time

643

00:37:31,420 --> 00:37:29,509

being but interesting it should be

644

00:37:41,410 --> 00:37:31,430

looking to warn I think and another

645

00:37:46,539 --> 00:37:41,420

Sphinx was found buried as well on the

646

00:37:48,519 --> 00:37:46,549

plateau is covered sooner limestone most

647

00:37:49,839 --> 00:37:48,529

of it and it's actually covered

648

00:37:53,999 --> 00:37:49,849

underneath the caves

649

00:37:58,450 --> 00:37:54,009

comedy's cave systems I want to show you

650

00:38:01,150 --> 00:37:58,460

what occurred in 99 when they found the

651
00:38:02,950 --> 00:38:01,160
astonished shaft this is my colleagues

652
00:38:05,349 --> 00:38:02,960
photo to show you the side you can pop

653
00:38:07,870 --> 00:38:05,359
them and they're often like 30 40 foot

654
00:38:12,300 --> 00:38:07,880
down and there's a lot of water below as

655
00:38:15,420 --> 00:38:12,310
well suppose they reckon the water was

656
00:38:19,730 --> 00:38:15,430
when launched they crowned ring hand is

657
00:38:23,550 --> 00:38:19,740
in ancient Egypt but once I think they

658
00:38:25,680 --> 00:38:23,560
uncovered it was so large that they had

659
00:38:30,150 --> 00:38:25,690
to use a zombie I can show both to get

660
00:38:33,980 --> 00:38:30,160
from one end together other people

661
00:38:38,670 --> 00:38:33,990
working on the ideas want the pyramids

662
00:38:42,150 --> 00:38:38,680
colleague of mine was actually in Egypt

663
00:38:46,230 --> 00:38:42,160

Christopher Dunn here at least who walks

664

00:38:49,140 --> 00:38:46,240

with having a read from the library he

665

00:38:52,080 --> 00:38:49,150

worked a lot on the technologies used in

666

00:38:56,310 --> 00:38:52,090

constructing the pyramid and on the

667

00:38:59,700 --> 00:38:56,320

copper sarcophagus inside the pyramid

668

00:39:04,140 --> 00:38:59,710

he records for example he spent many

669

00:39:07,190 --> 00:39:04,150

hours looking at the sarcophagus and

670

00:39:11,670 --> 00:39:07,200

became his chamber the Great Pyramid and

671

00:39:16,020 --> 00:39:11,680

came to the conclusion as a scientist an

672

00:39:20,190 --> 00:39:16,030

engineer that is no way you can have red

673

00:39:23,310 --> 00:39:20,200

granite make mistakes going down three

674

00:39:25,470 --> 00:39:23,320

inches or if you had a handsaw then he

675

00:39:28,530 --> 00:39:25,480

would stop if you were cutting the made

676

00:39:30,180 --> 00:39:28,540

of a mistake in a particular point he

677

00:39:33,900 --> 00:39:30,190

would stop they will probably only go

678

00:39:37,050 --> 00:39:33,910

half a centimeter the cuts he's looked

679

00:39:38,900 --> 00:39:37,060

at go way down several inches three to

680

00:39:41,840 --> 00:39:38,910

four inches which means some kind of

681

00:39:44,640 --> 00:39:41,850

machine that we don't know of as he

682

00:39:47,400 --> 00:39:44,650

constructed that sarcophagus and maybe

683

00:39:49,230 --> 00:39:47,410

constructed the rest of the pyramid so

684

00:40:00,240 --> 00:39:49,240

interesting if you ever get a chance to

685

00:40:02,100 --> 00:40:00,250

try and look at those books this one the

686

00:40:03,360 --> 00:40:02,110

next 5-10 minutes because I went again

687

00:40:04,430 --> 00:40:03,370

on I just wanna give you this

688

00:40:07,310 --> 00:40:04,440

introduction

689

00:40:10,670 --> 00:40:07,320

any more detail for mine but the permits

690

00:40:14,090 --> 00:40:10,680

after the break but give me some idea

691

00:40:15,830 --> 00:40:14,100

the great pyramid go for long said two

692

00:40:18,410 --> 00:40:15,840

million three hundred thousand blocks

693

00:40:21,140 --> 00:40:18,420

away them to the thirty tons are you

694

00:40:25,340 --> 00:40:21,150

trying moving in the couple of tons 30

695

00:40:26,900 --> 00:40:25,350

tons how how was that constructed is

696

00:40:31,130 --> 00:40:26,910

something anyone there were fifty tons

697

00:40:37,520 --> 00:40:31,140

on the internal ones are pure white

698

00:40:42,560 --> 00:40:37,530

granite really huge pyramid among common

699

00:40:44,780 --> 00:40:42,570

core this fall the two colleagues of him

700

00:40:46,310 --> 00:40:44,790

if you like are supposed to be aligning

701

00:40:51,920 --> 00:40:46,320

the constellation Orion

702

00:40:54,320 --> 00:40:51,930

however there's over bearing of that

703

00:40:56,660 --> 00:40:54,330

alignment and I think it doesn't work

704

00:40:59,030 --> 00:40:56,670

out exactly you have to take into

705

00:41:00,830 --> 00:40:59,040

account not just the three pyramids

706

00:41:03,620 --> 00:41:00,840

because they wouldn't is built on their

707

00:41:06,890 --> 00:41:03,630

own it were built with temples and

708

00:41:09,260 --> 00:41:06,900

causeways and chapels and you won't have

709

00:41:13,630 --> 00:41:09,270

to take these into consideration when

710

00:41:17,240 --> 00:41:13,640

you do these as above as below alignment

711

00:41:21,700 --> 00:41:17,250

the interior temperature of the Great

712

00:41:27,620 --> 00:41:21,710

Britain is said to be 10 degrees Celsius

713

00:41:29,660 --> 00:41:27,630

in the inner chamber the king's chamber

714

00:41:32,630 --> 00:41:29,670

where the sarcophagus is where the red

715

00:41:37,190 --> 00:41:32,640

crown is it was often used as a

716

00:41:40,090 --> 00:41:37,200

frequency chamber I mean using music to

717

00:41:42,640 --> 00:41:40,100

get the correct pitch and tone

718

00:41:47,270 --> 00:41:42,650

unfortunately as I'll show you later

719

00:41:48,700 --> 00:41:47,280

when his idea was was there when we Jim

720

00:41:53,140 --> 00:41:48,710

explained to her

721

00:41:56,200 --> 00:41:53,150

99 how how to access this room below the

722

00:41:59,520 --> 00:41:56,210

chamber which Hamas was hell-bent on

723

00:42:04,000 --> 00:41:59,530

because he knew of I was interested in

724

00:42:06,760 --> 00:42:04,010

it publicly didn't transpose a idea but

725

00:42:10,300 --> 00:42:06,770

he was very keen on him finding it he's

726

00:42:12,339 --> 00:42:10,310

very he was very friendly with the

727

00:42:14,710 --> 00:42:12,349

president of Egypt at the time and his

728

00:42:16,900 --> 00:42:14,720

brother and this other cronies found out

729

00:42:20,940 --> 00:42:16,910

the local club

730

00:42:24,760 --> 00:42:20,950

along with that famous Egyptian actor

731

00:42:30,120 --> 00:42:24,770

recently used to go to the same gambling

732

00:42:32,740 --> 00:42:30,130

and drinking names so the the idea of

733

00:42:35,140 --> 00:42:32,750

all the records on these other chambers

734

00:42:38,290 --> 00:42:35,150

he was interested in and went to great

735

00:42:42,400 --> 00:42:38,300

lengths to try and find out how to get

736

00:42:45,400 --> 00:42:42,410

them get to them I showed him I'll show

737

00:42:48,640 --> 00:42:45,410

you the facts later but I wanted to

738

00:42:51,670 --> 00:42:48,650

mention because of that he tried to go

739

00:42:53,740 --> 00:42:51,680

the wrong way and made holes in the

740

00:42:55,270 --> 00:42:53,750

chamber itself which wasn't the point

741

00:42:58,150 --> 00:42:55,280

that when he gets word from the ground

742

00:43:00,130 --> 00:42:58,160

gallery or showing pictures later and he

743

00:43:02,200 --> 00:43:00,140

altered the whole frequency of the

744

00:43:06,550 --> 00:43:02,210

chamber the whole purpose of what is

745

00:43:11,589 --> 00:43:06,560

constructed for and he put him later

746

00:43:13,630 --> 00:43:11,599

then he put in air vents he see various

747

00:43:16,240 --> 00:43:13,640

cameras because you know I was going

748

00:43:19,210 --> 00:43:16,250

they are taking the equipment we were

749

00:43:21,820 --> 00:43:19,220

lucky we went when he wasn't there and I

750

00:43:26,820 --> 00:43:21,830

say go to the whole frequency hold

751
00:43:30,099 --> 00:43:26,830
picture of the whole chamber itself and

752
00:43:32,950 --> 00:43:30,109
the other thing on the outside is the

753
00:43:34,660 --> 00:43:32,960
Great Pyramid here on the outside all

754
00:43:36,849 --> 00:43:34,670
the old

755
00:43:38,289 --> 00:43:36,859
covering has now been taken away

756
00:43:41,410 --> 00:43:38,299
roundabouts

757
00:43:46,179 --> 00:43:41,420
the 14th century there were some large

758
00:43:50,279 --> 00:43:46,189
earthquakes in Egypt in Cairo and a lot

759
00:43:53,319 --> 00:43:50,289
of the Muslim leaders told only

760
00:43:56,829 --> 00:43:53,329
faithfuls guys to take all the strip all

761
00:43:59,589 --> 00:43:56,839
the extra limestone rocks to repair the

762
00:44:02,259 --> 00:43:59,599
mosques in Qatar there are still a few

763
00:44:04,539 --> 00:44:02,269

around but if you go to me don't they

764

00:44:07,689 --> 00:44:04,549

still there this is someone's away in

765

00:44:09,599 --> 00:44:07,699

the old - air period - an area you can

766

00:44:13,479 --> 00:44:09,609

still see these here so you can imagine

767

00:44:16,390 --> 00:44:13,489

the whole of this pyramid covered in

768

00:44:19,179 --> 00:44:16,400

these glistening limestone rocks must be

769

00:44:21,370 --> 00:44:19,189

quite a sight at the time and of course

770

00:44:23,469 --> 00:44:21,380

they were supposedly hieroglyphs written

771

00:44:25,479 --> 00:44:23,479

as well but no one's seen them so we

772

00:44:27,849 --> 00:44:25,489

don't really know the only way to do

773

00:44:29,650 --> 00:44:27,859

that was to go and disassemble a mosque

774

00:44:33,939 --> 00:44:29,660

in in Cairo and I don't think that's

775

00:44:35,709 --> 00:44:33,949

going to happen maybe they assume this

776

00:44:37,749 --> 00:44:35,719

is um

777

00:44:40,299 --> 00:44:37,759

that's the kafir and that's care for the

778

00:44:42,849 --> 00:44:40,309

Great Pyramid which now you can't see

779

00:44:45,059 --> 00:44:42,859

because everybody you've heard of the

780

00:44:49,660 --> 00:44:45,069

sonic boom the sound and light show in

781

00:44:52,900 --> 00:44:49,670

in Egypt they have a historical hours

782

00:44:58,299 --> 00:44:52,910

show the Shan laser lights and you can

783

00:45:01,509 --> 00:44:58,309

all pay 20 bucks but both of those used

784

00:45:04,569 --> 00:45:01,519

to go to the Pizza Hut which is another

785

00:45:06,969 --> 00:45:04,579

picture there and you could sit in Pizza

786

00:45:09,429 --> 00:45:06,979

Hut this right at the picture in 2004

787

00:45:13,449 --> 00:45:09,439

2005 and you can actually see the light

788

00:45:19,089 --> 00:45:13,459

show and in the cafe next door but no I

789

00:45:25,390 --> 00:45:23,200

so you can no longer see some macho but

790

00:45:27,730 --> 00:45:25,400

if you go next to organize the bandage

791

00:45:29,019 --> 00:45:27,740

and sit on the terrace roof and have a

792

00:45:31,660 --> 00:45:29,029

look

793

00:45:33,370 --> 00:45:31,670

so that's where all the local people

794

00:45:36,069 --> 00:45:33,380

needs to go now the interesting thing

795

00:45:39,519 --> 00:45:36,079

I'm showing you this picture is a little

796

00:45:44,650 --> 00:45:39,529

sort of bragging about this event you

797

00:45:47,380 --> 00:45:44,660

know there are a number of into tree

798

00:45:50,710 --> 00:45:47,390

stumps around about two million years

799

00:45:53,910 --> 00:45:50,720

old and the waltz on can go around the

800

00:45:57,039 --> 00:45:53,920

ping-mei don't depend like anything so

801
00:46:00,370 --> 00:45:57,049
now whether they come from what we think

802
00:46:03,759 --> 00:46:00,380
that like Swansea Bay this part of the

803
00:46:06,460 --> 00:46:03,769
same is quite forested at one time

804
00:46:08,589 --> 00:46:06,470
there's also a lot of animal second

805
00:46:12,099 --> 00:46:08,599
covered in sea because there's a lot of

806
00:46:15,579 --> 00:46:12,109
books you see there were other fossils

807
00:46:17,829 --> 00:46:15,589
see marine wallets and possible in in

808
00:46:21,279 --> 00:46:17,839
the rocks themselves and then we used

809
00:46:25,599 --> 00:46:21,289
again in the making of the Burmese so

810
00:46:28,660 --> 00:46:25,609
interesting so I think I'll take a quick

811
00:46:30,249 --> 00:46:28,670
break but I want to remind you what

812
00:46:32,859 --> 00:46:30,259
we're going to look at next

813
00:46:35,440 --> 00:46:32,869

this is the inner side of the pyramid

814

00:46:39,009 --> 00:46:35,450

this is the original well they think

815

00:46:42,609 --> 00:46:39,019

that originally the well was used as a

816

00:46:44,380 --> 00:46:42,619

level to build construct this originally

817

00:46:46,930 --> 00:46:44,390

I'm talking about there in the older

818

00:46:49,870 --> 00:46:46,940

original not the new 5000 year old one

819

00:46:52,390 --> 00:46:49,880

and there's a secret or lots of secret

820

00:46:55,180 --> 00:46:52,400

now we found it chamber going down here

821

00:46:57,690 --> 00:46:55,190

which meets another cavity which then

822

00:47:00,099 --> 00:46:57,700

that cavity intern meets the three

823

00:47:00,970 --> 00:47:00,109

satellite program is a Queen's moon as I

824

00:47:04,059 --> 00:47:00,980

told you about

825

00:47:08,079 --> 00:47:04,069

and there's access under there through

826
00:47:10,749 --> 00:47:08,089
to this new chamber here which they so

827
00:47:15,940 --> 00:47:10,759
discovered in Egypt was in the news

828
00:47:18,339 --> 00:47:15,950
about four five six months ago but I

829
00:47:19,579 --> 00:47:18,349
don't mind having reported we already

830
00:47:22,849 --> 00:47:19,589
said in 2000

831
00:47:25,519 --> 00:47:22,859
books that we already discovered that it

832
00:47:26,959 --> 00:47:25,529
was already on the Internet other people

833
00:47:37,299 --> 00:47:26,969
in discovered it before us there was

834
00:47:43,219 --> 00:47:41,029
I had to give me that general sort of

835
00:47:45,859 --> 00:47:43,229
introduction just to show you what we're

836
00:47:48,679 --> 00:47:45,869
up against and what we were doing how we

837
00:47:53,089 --> 00:47:48,689
got to this point so let's remind

838
00:47:55,339 --> 00:47:53,099

ourselves what are we going some of the

839

00:47:58,249 --> 00:47:55,349

remaining dates on them talk more about

840

00:48:03,109 --> 00:47:58,259

this Mars and the moon talking in the

841

00:48:05,089 --> 00:48:03,119

position later on the permit I think I

842

00:48:09,559 --> 00:48:05,099

mentioned it once in the song I've only

843

00:48:11,809 --> 00:48:09,569

talked we want to look this new

844

00:48:15,620 --> 00:48:11,819

discovery so called above the Grand

845

00:48:19,759 --> 00:48:15,630

Gallery how that how we found it and how

846

00:48:24,019 --> 00:48:19,769

do you get at it okay so the entrance to

847

00:48:27,019 --> 00:48:24,029

the Great Pyramid is now is this roughly

848

00:48:28,969 --> 00:48:27,029

of the baby down here it's about quarter

849

00:48:36,019 --> 00:48:28,979

way up on the front of the on the

850

00:48:39,199 --> 00:48:36,029

science and that was made in the 12th

851

00:48:41,870 --> 00:48:39,209

century by a couple of locals assault

852

00:48:44,660 --> 00:48:41,880

there was choices they can get and gold

853

00:48:46,870 --> 00:48:44,670

they got in there blew it up and found

854

00:48:51,200 --> 00:48:46,880

there's nothing but bats flying around

855

00:48:54,230 --> 00:48:51,210

and again advise in 1892 use compound

856

00:48:57,740 --> 00:48:54,240

to do various things in the chamber I'm

857

00:49:00,500 --> 00:48:57,750

grooming a few things but anyhow you got

858

00:49:02,890 --> 00:49:00,510

down here down a number of steps you

859

00:49:07,069 --> 00:49:02,900

come to what we call the Grand Gallery

860

00:49:10,900 --> 00:49:07,079

now this is a call Bulgari it's goes way

861

00:49:14,569 --> 00:49:10,910

up way up and gets narrow in that top

862

00:49:16,730 --> 00:49:14,579

and then he goes a level and down to the

863

00:49:19,130 --> 00:49:16,740

Queen's Chamber and then up to the

864

00:49:21,589 --> 00:49:19,140

King's Chamber the Queen's Chamber was

865

00:49:25,370 --> 00:49:21,599

shut for some years back open again now

866

00:49:28,549 --> 00:49:25,380

but our interest of course is in the

867

00:49:31,960 --> 00:49:28,559

King's Chamber this is the end that the

868

00:49:35,660 --> 00:49:31,970

gallery goes way up about 80 90 feet and

869

00:49:40,520 --> 00:49:35,670

this is an important area to remind

870

00:49:44,720 --> 00:49:40,530

ourselves later of the access to the two

871

00:49:48,579 --> 00:49:44,730

chambers below chambers you get through

872

00:49:53,150 --> 00:49:48,589

one of these calls here there's me and

873

00:49:56,420 --> 00:49:53,160

in King's Chamber you see in cutaway and

874

00:49:59,630 --> 00:49:56,430

this is the coffer that I mentioned that

875

00:50:02,359 --> 00:49:59,640

Kristen was working on just showed that

876

00:50:05,240 --> 00:50:02,369

it could be made by hand it must be made

877

00:50:07,640 --> 00:50:05,250

by some kind of machine and if you look

878

00:50:13,059 --> 00:50:07,650

on the inside I think I might help them

879

00:50:16,670 --> 00:50:13,069

yeah if you look on the inside here

880

00:50:19,039 --> 00:50:16,680

there's some accidental cuts it's like a

881

00:50:21,109 --> 00:50:19,049

machine is gone into megaohm cut-ins

882

00:50:22,910 --> 00:50:21,119

come back again but it's gone right film

883

00:50:30,620 --> 00:50:22,920

several inches someone's feet four

884

00:50:34,670 --> 00:50:30,630

inches this said a friend of ours in 98

885

00:50:36,740 --> 00:50:34,680

Jim Bronson he was a physicist he was

886

00:50:39,440 --> 00:50:36,750

supposed to be work for the CIA

887

00:50:42,589 --> 00:50:39,450

he told me he was an ex-cia

888

00:50:47,660 --> 00:50:42,599

I said this is such a thing as an ex-cia

889

00:50:49,039 --> 00:50:47,670

and he worked on this coffin model I got

890

00:50:51,079 --> 00:50:49,049

the egg paid if anyone's really

891

00:50:53,690 --> 00:50:51,089

interested in the maths and physics when

892

00:50:56,569 --> 00:50:53,700

he worked for months on he's a physicist

893

00:51:00,829 --> 00:50:56,579

mathematician he worked on all these

894

00:51:04,930 --> 00:51:00,839

angles of the sarcophagus and in

895

00:51:07,640 --> 00:51:04,940

kakeland conclusion that the total

896

00:51:10,370 --> 00:51:07,650

former at the end was equivalent to the

897

00:51:13,039 --> 00:51:10,380

speed of light so what does that mean in

898

00:51:16,279 --> 00:51:13,049

real terms I mean originally it wasn't

899

00:51:18,559 --> 00:51:16,289

quite aware or what that meant but he

900

00:51:20,750 --> 00:51:18,569

seems to think and gentleman down and

901
00:51:21,589 --> 00:51:20,760
when they were alive said that explains

902
00:51:24,980 --> 00:51:21,599
it quite well

903
00:51:28,430 --> 00:51:24,990
that the speed of light and the acoustic

904
00:51:30,920 --> 00:51:28,440
ability in the King's Chamber help to

905
00:51:35,029 --> 00:51:30,930
more some kind of initiation ceremony

906
00:51:39,319 --> 00:51:35,039
then you could transpose maybe a mind

907
00:51:43,099 --> 00:51:39,329
and body to some place after the

908
00:51:46,670 --> 00:51:43,109
distance dance and that's why I think

909
00:51:50,539 --> 00:51:46,680
basically Jim was thinking more psychic

910
00:51:53,329 --> 00:51:50,549
thing rather than a physical thing so

911
00:51:58,490 --> 00:51:53,339
this copper which is never held the body

912
00:52:01,789 --> 00:51:58,500
a dead body we think maybe some kind of

913
00:52:07,519 --> 00:52:01,799

ceremony initiation for this speed of

914

00:52:09,890 --> 00:52:07,529

light process and Richard are calling

915

00:52:14,150 --> 00:52:09,900

her I was one of course masses in

916

00:52:17,599 --> 00:52:14,160

America we tried this system he laid

917

00:52:21,980 --> 00:52:17,609

down and did some mantras when I waited

918

00:52:25,519 --> 00:52:21,990

outside the entrance and within about 30

919

00:52:29,509 --> 00:52:25,529

seconds the sound starting in London and

920

00:52:31,549 --> 00:52:29,519

around and all the stuff near God's came

921

00:52:35,960 --> 00:52:31,559

running down the Grand Gallery the

922

00:52:38,829 --> 00:52:35,970

chamber handguns waving the proud he was

923

00:52:42,189 --> 00:52:38,839

so loud he went up to the outside

924

00:52:43,630 --> 00:52:42,199

of kiseop latin as our colleagues are

925

00:52:47,349 --> 00:52:43,640

outside learning what the heck was going

926

00:52:51,299 --> 00:52:47,359

on so obviously it was frequencies so

927

00:52:54,279 --> 00:52:51,309

they're not as powerful that used to be

928

00:52:57,219 --> 00:52:54,289

this is young when he was in his

929

00:53:01,529 --> 00:52:57,229

twenties I think about nineteen seventy

930

00:53:04,179 --> 00:53:01,539

two seventy one something like that and

931

00:53:05,739 --> 00:53:04,189

he was doing he's the only one who's

932

00:53:08,799 --> 00:53:05,749

done this experiment and I've got the

933

00:53:11,199 --> 00:53:08,809

only copy of the audio he had a couple

934

00:53:16,149 --> 00:53:11,209

of gaffers coming and he had a wooden

935

00:53:19,709 --> 00:53:16,159

panel and he was the purple with a gamma

936

00:53:23,829 --> 00:53:19,719

beta cloth and bang on every one of the

937

00:53:26,499 --> 00:53:23,839

granite red granite box as you can see

938

00:53:29,829 --> 00:53:26,509

there was no you couldn't get razor

939

00:53:32,799 --> 00:53:29,839

blade between these cracks and they went

940

00:53:37,569 --> 00:53:32,809

film did so tightly made some exact I

941

00:53:40,029 --> 00:53:37,579

mean he couldn't enough today using the

942

00:53:42,609 --> 00:53:40,039

pardon me we spent hours and they spent

943

00:53:45,370 --> 00:53:42,619

two nights in a banging and I need to

944

00:53:46,899 --> 00:53:45,380

show and demonstrate that the frequency

945

00:53:48,849 --> 00:53:46,909

was the same all the way around

946

00:53:53,319 --> 00:53:48,859

including the floor but now of course

947

00:53:57,039 --> 00:53:53,329

have changed because I watched it coming

948

00:54:00,489 --> 00:53:57,049

up after this as Jim was in free range

949

00:54:04,149 --> 00:54:00,499

in 1919 the door and Android where you

950

00:54:05,019 --> 00:54:04,159

can access but he went and dug in our

951
00:54:08,229 --> 00:54:05,029
own place

952
00:54:13,659 --> 00:54:08,239
Hamis missus done a home and alter the

953
00:54:16,689 --> 00:54:13,669
frequency put in a few fans and that

954
00:54:18,579 --> 00:54:16,699
devices which also often the frequency

955
00:54:23,559 --> 00:54:18,589
was seen a tightly-knit these huge

956
00:54:28,259 --> 00:54:23,569
granite blocks so it was used long time

957
00:54:31,599 --> 00:54:28,269
ago for around people used to hire out

958
00:54:35,949 --> 00:54:31,609
pay lots of money to go and to move

959
00:54:39,240 --> 00:54:35,959
certain mutant musical instruments there

960
00:54:45,780 --> 00:54:39,250
was also a story

961
00:54:47,880 --> 00:54:45,790
came my way in 1990 2000 someone sent me

962
00:54:51,990 --> 00:54:47,890
a Russian engine and all the other

963
00:54:54,720 --> 00:54:52,000

engineering booklet in English singing

964

00:54:56,670 --> 00:54:54,730

taken to American translator in English

965

00:54:57,150 --> 00:54:56,680

and they said why are they sending me

966

00:55:00,930 --> 00:54:57,160

this

967

00:55:04,350 --> 00:55:00,940

the note was read paragraph wherever it

968

00:55:08,040 --> 00:55:04,360

was it's related to some experiments in

969

00:55:12,800 --> 00:55:08,050

the Great Pyramid in the late of mid 90s

970

00:55:15,480 --> 00:55:12,810

these two Russian and audio engineers

971

00:55:18,690 --> 00:55:15,490

what did somewhere they could experiment

972

00:55:21,390 --> 00:55:18,700

doing some wave sine waves experiments

973

00:55:24,210 --> 00:55:21,400

in a completely soundproof environment

974

00:55:26,070 --> 00:55:24,220

somewhere like the Great Pyramid so they

975

00:55:29,310 --> 00:55:26,080

hired the Russian government gave them

976

00:55:31,920 --> 00:55:29,320

our funding they hired for the afternoon

977

00:55:35,010 --> 00:55:31,930

the King's Chamber there was no one in

978

00:55:38,490 --> 00:55:35,020

the chamber at all - no guards no public

979

00:55:40,920 --> 00:55:38,500

both shut down and they did they did

980

00:55:44,250 --> 00:55:40,930

their audio experiments when he got back

981

00:55:46,920 --> 00:55:44,260

to the party in Moscow they actually

982

00:55:51,030 --> 00:55:46,930

wrapped them in the laundry and they

983

00:55:53,280 --> 00:55:51,040

heard extra sounds so they took out

984

00:55:55,880 --> 00:55:53,290

these extra sounds and analyzed them and

985

00:55:58,680 --> 00:55:55,890

he said to them be sounds like chanting

986

00:56:00,360 --> 00:55:58,690

so they didn't know what they were how

987

00:56:02,760 --> 00:56:00,370

could have got there were the people

988

00:56:06,020 --> 00:56:02,770

with someone else didn't think so so

989

00:56:09,690 --> 00:56:06,030

they send it to one of their colleagues

990

00:56:11,520 --> 00:56:09,700

they enhance the sound and they

991

00:56:14,490 --> 00:56:11,530

discovered it was some kind of ancient

992

00:56:18,060 --> 00:56:14,500

language so they passed it on in turn to

993

00:56:20,220 --> 00:56:18,070

the local Egyptian specialists who said

994

00:56:22,380 --> 00:56:20,230

well although in ancient Egyptian

995

00:56:26,270 --> 00:56:22,390

language is never being spoken it

996

00:56:29,330 --> 00:56:26,280

sounded like what even more agen

997

00:56:31,910 --> 00:56:29,340

language they tell you though is a

998

00:56:37,810 --> 00:56:31,920

chanting in some kind of initiations are

999

00:56:43,430 --> 00:56:37,820

many so why or how did that sound appear

1000

00:56:45,770 --> 00:56:43,440

to only recordings in in Jaina the the

1001

00:56:49,730 --> 00:56:45,780

conclusion was that this great granite

1002

00:56:52,970 --> 00:56:49,740

had particular properties and one of the

1003

00:56:58,570 --> 00:56:52,980

knowing properties of granite courses is

1004

00:57:03,050 --> 00:56:58,580

radon gas and the properties of

1005

00:57:06,620 --> 00:57:03,060

attracting magnetic resonance frequency

1006

00:57:08,540 --> 00:57:06,630

waves like sound why would he come up in

1007

00:57:10,700 --> 00:57:08,550

a particular instance I don't know

1008

00:57:13,310 --> 00:57:10,710

whether it was the machinery that they

1009

00:57:15,860 --> 00:57:13,320

were using to record they picked it up

1010

00:57:18,200 --> 00:57:15,870

bizarre I know but it's in that

1011

00:57:20,840 --> 00:57:18,210

particular Journal and it was quite

1012

00:57:22,550 --> 00:57:20,850

interesting reading cause it wasn't they

1013

00:57:26,090 --> 00:57:22,560

main thrust of the experiments it was a

1014

00:57:28,940 --> 00:57:26,100

by the way or we listen to distance on

1015

00:57:32,840 --> 00:57:28,950

this but it sounding dreaming so it's

1016

00:57:36,140 --> 00:57:32,850

certainly supposed to ward in the idea

1017

00:57:40,190 --> 00:57:36,150

of this speed of light initiation

1018

00:57:43,420 --> 00:57:40,200

ceremony anyway that's by the way we're

1019

00:57:46,460 --> 00:57:43,430

going back and to look at the new

1020

00:57:49,040 --> 00:57:46,470

findings of the so-called they call it

1021

00:57:51,350 --> 00:57:49,050

the secret brew and they found it they

1022

00:57:55,370 --> 00:57:51,360

supposedly a bump in during gonorrhoea

1023

00:57:58,250 --> 00:57:55,380

hip this is last year and you can see

1024

00:58:00,680 --> 00:57:58,260

they don't little shape there with its

1025

00:58:02,870 --> 00:58:00,690

elongated shape to suit the new secret

1026

00:58:07,690 --> 00:58:02,880

room supposedly this is the ground

1027

00:58:12,440 --> 00:58:07,700

gallery using this new neon radiography

1028

00:58:16,040 --> 00:58:12,450

technique uses the cosmic rays to detect

1029

00:58:19,210 --> 00:58:16,050

cavities and changes in purposes such as

1030

00:58:24,860 --> 00:58:19,220

the Great Pyramid

1031

00:58:29,130 --> 00:58:24,870

they said this is a new

1032

00:58:32,910 --> 00:58:29,140

innovated and discovery and they think

1033

00:58:33,740 --> 00:58:32,920

that the young the corridor above it 100

1034

00:58:37,200 --> 00:58:33,750

feet long

1035

00:58:40,530 --> 00:58:37,210

let's have a look remind ourselves on

1036

00:58:45,650 --> 00:58:40,540

our book we wrote in 99 but published in

1037

00:58:50,160 --> 00:58:45,660

2000 2001 we said long ago is a long

1038

00:58:52,770 --> 00:58:50,170

secret room which we think is used for

1039

00:58:54,960 --> 00:58:52,780

some part of that initiation of serving

1040

00:58:57,390 --> 00:58:54,970

or holding paying for something or

1041

00:58:59,910 --> 00:58:57,400

rather we don't really know at the time

1042

00:59:01,980 --> 00:58:59,920

we needed more investigation this is now

1043

00:59:04,680 --> 00:59:01,990

these are on diagrams in our book and

1044

00:59:07,520 --> 00:59:04,690

this is how he came to this by

1045

00:59:10,740 --> 00:59:07,530

cross-referencing the information in

1046

00:59:14,300 --> 00:59:10,750

Genesis explain they temple he got to

1047

00:59:16,550 --> 00:59:14,310

that and using the green young

1048

00:59:20,550 --> 00:59:16,560

mathematical books that were available

1049

00:59:25,340 --> 00:59:20,560

we came across at the shipping and there

1050

00:59:28,880 --> 00:59:25,350

was a chamber above the growing gallery

1051
00:59:31,350 --> 00:59:28,890
this made the famous sacrum woman

1052
00:59:34,410 --> 00:59:31,360
Egyptologist at the American West in

1053
00:59:36,240 --> 00:59:34,420
Cairo said that this boy he does he

1054
00:59:37,020 --> 00:59:36,250
caught the chamber directly by the

1055
00:59:39,390 --> 00:59:37,030
Qunari

1056
00:59:41,580 --> 00:59:39,400
and might imply its involvement in the

1057
00:59:44,430 --> 00:59:41,590
coordinates construction well that is

1058
00:59:48,330 --> 00:59:44,440
true that's the only thing that we came

1059
00:59:50,220 --> 00:59:48,340
across originally she said I don't think

1060
00:59:53,880 --> 00:59:50,230
it's ever too early to speculate we

1061
00:59:58,230 --> 00:59:53,890
might be might be wrong but very said

1062
01:00:00,300 --> 00:59:58,240
that in 2001 type of challenges as well

1063
01:00:03,360 --> 01:00:00,310

let's see what her watch says the only

1064

01:00:05,700 --> 01:00:03,370

thing he said right is yet it's not new

1065

01:00:08,580 --> 01:00:05,710

but he didn't really know because Judy

1066

01:00:11,070 --> 01:00:08,590

told him that I can 98 this is in

1067

01:00:13,890 --> 01:00:11,080

November in 217 there's an on stone

1068

01:00:16,400 --> 01:00:13,900

there's a passenger plane science boy

1069

01:00:18,780 --> 01:00:16,410

who discovered the

1070

01:00:22,260 --> 01:00:18,790

at least 30 meters long

1071

01:00:24,870 --> 01:00:22,270

he said that another scientist on the

1072

01:00:27,600 --> 01:00:24,880

scan pyramid is this new organization

1073

01:00:30,900 --> 01:00:27,610

their gods and pyramids study the

1074

01:00:34,290 --> 01:00:30,910

tournament's party all the time and he

1075

01:00:37,590 --> 01:00:34,300

said there was nothing new about

1076

01:00:40,170 --> 01:00:37,600

discovery however he didn't say any more

1077

01:00:42,600 --> 01:00:40,180

about that because he didn't know about

1078

01:00:42,930 --> 01:00:42,610

the information well that must go back a

1079

01:00:46,350 --> 01:00:42,940

bit

1080

01:00:49,260 --> 01:00:46,360

in 1987 in the science of medicine

1081

01:00:52,320 --> 01:00:49,270

German Japanese find new companies in

1082

01:00:53,910 --> 01:00:52,330

the chaos a Greek name fool and

1083

01:00:56,580 --> 01:00:53,920

Catherine Catherine

1084

01:01:00,630 --> 01:00:56,590

Koufos Orion the great pyramid September

1085

01:01:02,640 --> 01:01:00,640

28 1987 Reuters news agency Japanese

1086

01:01:06,030 --> 01:01:02,650

experts believe their previously

1087

01:01:08,190 --> 01:01:06,040

undetected cavities inside 4,600

1088

01:01:10,560 --> 01:01:08,200

paramedic yachts of possible discovery

1089

01:01:12,330 --> 01:01:10,570

with further challenge a long-held

1090

01:01:15,030 --> 01:01:12,340

belief the greater in Istanbul see

1091

01:01:16,740 --> 01:01:15,040

stones and he goes on to say we believe

1092

01:01:17,880 --> 01:01:16,750

that there is more space than people

1093

01:01:22,800 --> 01:01:17,890

think

1094

01:01:25,950 --> 01:01:22,810

in 1986 a year before that the French

1095

01:01:27,870 --> 01:01:25,960

researchers also found they believe what

1096

01:01:31,490 --> 01:01:27,880

were three companies in the Pyramid of

1097

01:01:34,710 --> 01:01:31,500

Cheops but this is the important thing

1098

01:01:39,630 --> 01:01:34,720

why no this came up last year when they

1099

01:01:43,530 --> 01:01:39,640

were doing the v1 experiments the

1100

01:01:45,690 --> 01:01:43,540

important point is the French and the

1101

01:01:48,870 --> 01:01:45,700

Japanese work together later

1102

01:01:52,320 --> 01:01:48,880

but after drilling holes through the

1103

01:01:57,000 --> 01:01:52,330

interior mobile this is in crime gallery

1104

01:01:59,990 --> 01:01:57,010

sorry suspended exploration because the

1105

01:02:02,960 --> 01:02:00,000

effort turned up only Son instead of

1106

01:02:05,660 --> 01:02:02,970

treasures unexplained why the Sun is

1107

01:02:09,950 --> 01:02:05,670

there and it's an important part of how

1108

01:02:13,610 --> 01:02:09,960

it balances the circuit to get into the

1109

01:02:17,810 --> 01:02:13,620

secret room who those others upon this

1110

01:02:22,040 --> 01:02:17,820

is the facts in reply from Jim in 98

1111

01:02:24,800 --> 01:02:22,050

December to sign he was director on the

1112

01:02:27,680 --> 01:02:24,810

pisac ruins of the tunnel when I met you

1113

01:02:30,530 --> 01:02:27,690

in the office we discuss a possible

1114

01:02:32,480 --> 01:02:30,540

duplication of all the records after

1115

01:02:34,250 --> 01:02:32,490

which occur on tip permission to read

1116

01:02:36,470 --> 01:02:34,260

the chaos I've subsequently been

1117

01:02:38,840 --> 01:02:36,480

instructed before me the proper way to

1118

01:02:40,970 --> 01:02:38,850

gain access the point being as follows

1119

01:02:44,300 --> 01:02:40,980

but I didn't follow these instructions

1120

01:02:46,760 --> 01:02:44,310

in debugging gallery the 25th mortise

1121

01:02:49,490 --> 01:02:46,770

coming back from the great step on each

1122

01:02:51,500 --> 01:02:49,500

site beneath that point precedes

1123

01:02:55,400 --> 01:02:51,510

hindrance to the Queen's passage that's

1124

01:02:59,000 --> 01:02:55,410

on the way up towards the Kings general

1125

01:03:01,340 --> 01:02:59,010

there are two small niches these must be

1126

01:03:03,950 --> 01:03:01,350

chiseled into until they reach the space

1127

01:03:06,770 --> 01:03:03,960

which a rock has been placed on each

1128

01:03:09,680 --> 01:03:06,780

side the gallery these rocks are pushed

1129

01:03:11,930 --> 01:03:09,690

outward and will fall into place once in

1130

01:03:14,780 --> 01:03:11,940

place they were create an opening

1131

01:03:17,060 --> 01:03:14,790

beneath the ledges from which Sun on

1132

01:03:20,630 --> 01:03:17,070

which the two edges are held in place by

1133

01:03:23,570 --> 01:03:20,640

and rest will be released into the two

1134

01:03:26,000 --> 01:03:23,580

compartments on the other side Nogami so

1135

01:03:28,670 --> 01:03:26,010

you can imagine the Sun as being tilted

1136

01:03:31,850 --> 01:03:28,680

the block became lifted up as a week

1137

01:03:34,790 --> 01:03:31,860

goes down and causes another opening to

1138

01:03:36,200 --> 01:03:34,800

occur once the Sun has been drained the

1139

01:03:39,350 --> 01:03:36,210

two ladies

1140

01:03:42,080 --> 01:03:39,360

then maybe leave it releasing the stone

1141

01:03:45,230 --> 01:03:42,090

exposing a passageway though he was

1142

01:03:46,850 --> 01:03:45,240

explaining all this but I what happened

1143

01:03:49,100 --> 01:03:46,860

whether they winnings whether and then

1144

01:03:52,720 --> 01:03:49,110

when he said anything I don't know but

1145

01:03:58,280 --> 01:03:52,730

this is what we talked about the in 9899

1146

01:04:02,990 --> 01:03:58,290

nothing so this this we're talking about

1147

01:04:03,700 --> 01:04:03,000

the light here and in our books as I say

1148

01:04:06,670 --> 01:04:03,710

so

1149

01:04:11,770 --> 01:04:06,680

it takes hours to explain but these

1150

01:04:16,570 --> 01:04:11,780

ledges have got square stones which can

1151

01:04:18,880 --> 01:04:16,580

slide them through another long stone

1152

01:04:21,910 --> 01:04:18,890

itself you only think that like a timber

1153

01:04:23,200 --> 01:04:21,920

frame and they all by knock down the

1154

01:04:26,650 --> 01:04:23,210

middle if you might be all go through

1155

01:04:31,620 --> 01:04:26,660

one hole then the middle raising one end

1156

01:04:35,500 --> 01:04:31,630

up suka access down below access above I

1157

01:04:37,780 --> 01:04:35,510

mean it didn't it was in our books and

1158

01:04:40,300 --> 01:04:37,790

here we have to look at it in 2001 to

1159

01:04:47,290 --> 01:04:40,310

find out how to do that and yet all this

1160

01:04:50,260 --> 01:04:47,300

is new discoveries Jim called it the one

1161

01:04:54,490 --> 01:04:50,270

the chamber below the crystal he'd sent

1162

01:04:58,570 --> 01:04:54,500

a huge large crystal deposited in that

1163

01:05:01,780 --> 01:04:58,580

void in the lower chamber one of the

1164

01:05:04,690 --> 01:05:01,790

ideas of this chamber sorry is crystal

1165

01:05:06,820 --> 01:05:04,700

it is a huge very very big rock what

1166

01:05:10,140 --> 01:05:06,830

show of upside he in nineteen but I

1167

01:05:14,589 --> 01:05:10,150

think you're talking 3040 meters in size

1168

01:05:19,540 --> 01:05:14,599

the idea is a lot of the sites from the

1169

01:05:23,859 --> 01:05:19,550

world in China the ones I showed you in

1170

01:05:27,790 --> 01:05:23,869

Mexico in the Holy Lands all these large

1171

01:05:33,400 --> 01:05:27,800

sites are usually located 90% of the

1172

01:05:37,960 --> 01:05:33,410

time a more unusual crust activity like

1173

01:05:41,500 --> 01:05:37,970

earthquake prone areas and on each of

1174

01:05:45,760 --> 01:05:41,510

these sites the Tyrians maybe more the

1175

01:05:49,030 --> 01:05:45,770

theory that these crystals were placed

1176

01:05:52,810 --> 01:05:49,040

below each of these particular monuments

1177

01:05:55,350 --> 01:05:52,820

so that they all connected up like the

1178

01:05:58,410 --> 01:05:55,360

geo node you'll find

1179

01:06:01,410 --> 01:05:58,420

across the earth so everywhere you

1180

01:06:06,360 --> 01:06:01,420

crisscross was a main genome then you

1181

01:06:09,060 --> 01:06:06,370

get that energy vortexes right so

1182

01:06:13,410 --> 01:06:09,070

producing the main energy vortex it's a

1183

01:06:16,440 --> 01:06:13,420

cortex itself and this is why we come

1184

01:06:20,190 --> 01:06:16,450

back to the Mars connection when it was

1185

01:06:24,330 --> 01:06:20,200

built a modern earth was to be hunted so

1186

01:06:26,460 --> 01:06:24,340

all the miles rather they told him the

1187

01:06:29,670 --> 01:06:26,470

moon believe it or not going to see I am

1188

01:06:30,780 --> 01:06:29,680

John Muir who was told fifty sixty

1189

01:06:34,140 --> 01:06:30,790

thousand years ago

1190

01:06:38,850 --> 01:06:34,150

they brought the moon in to balance out

1191

01:06:42,660 --> 01:06:38,860

the orbital part of the units so that

1192

01:06:46,230 --> 01:06:42,670

was a connection then and these crystals

1193

01:06:52,580 --> 01:06:46,240

we use to counterbalance the energies

1194

01:06:56,340 --> 01:06:52,590

without money Jim knows there is a a

1195

01:06:58,860 --> 01:06:56,350

Australian or New Zealand pilot died

1196

01:07:01,650 --> 01:06:58,870

about eight years ago and Counting his

1197

01:07:06,300 --> 01:07:01,660

name he broke the harmonics series of

1198

01:07:08,430 --> 01:07:06,310

books resonating them but he discovered

1199

01:07:12,030 --> 01:07:08,440

that when he used to find these all

1200

01:07:15,500 --> 01:07:12,040

planes in the late 50s and 60s every

1201

01:07:21,800 --> 01:07:15,510

time he went over one of these crystals

1202

01:07:24,420 --> 01:07:21,810

energized portal areas all his machinery

1203

01:07:27,510 --> 01:07:24,430

equipment in the plane would go haywire

1204

01:07:31,590 --> 01:07:27,520

so also a few years he mapped all the

1205

01:07:33,270 --> 01:07:31,600

examples and he created this network of

1206

01:07:36,060 --> 01:07:33,280

German over on the planet

1207

01:07:38,970 --> 01:07:36,070

the Americans American government Ingram

1208

01:07:40,370 --> 01:07:38,980

Hagen because he said on each one of

1209

01:07:43,700 --> 01:07:40,380

these major

1210

01:07:47,180 --> 01:07:43,710

points on a note if you explode a

1211

01:07:48,950 --> 01:07:47,190

nuclear device the energy in that area

1212

01:07:52,099 --> 01:07:48,960

would make it four or five times

1213

01:07:56,049 --> 01:07:52,109

stronger and warm the course the CIA and

1214

01:07:58,599 --> 01:07:56,059

NSA picking up straight away and he was

1215

01:08:10,490 --> 01:07:58,609

interred for about two months I think

1216

01:08:13,640 --> 01:08:10,500

about it and model years ago but why

1217

01:08:19,459 --> 01:08:13,650

some of these ancient sites cycling

1218

01:08:22,610 --> 01:08:19,469

where they are so another point is

1219

01:08:26,450 --> 01:08:22,620

according to German Yuans theory is that

1220

01:08:30,110 --> 01:08:26,460

these three satellite or Queens permits

1221

01:08:33,709 --> 01:08:30,120

I've got under there you can access and

1222

01:08:38,209 --> 01:08:33,719

go under to his other voice under the

1223

01:08:42,379 --> 01:08:38,219

garden gallery the Builder it obviously

1224

01:08:44,090 --> 01:08:42,389

lies on the line was proceed to chamber

1225

01:08:47,240 --> 01:08:44,100

the government he's calling it the

1226

01:08:50,329 --> 01:08:47,250

chamber of the Covenant and another

1227

01:08:53,209 --> 01:08:50,339

another point is when he analyzed the

1228

01:08:55,760 --> 01:08:53,219

book we looked at the book of Genesis

1229

01:08:59,419 --> 01:08:55,770

and Exodus very briefly in a second but

1230

01:09:03,200 --> 01:08:59,429

if you turn the book the books of n

1231

01:09:08,390 --> 01:09:03,210

Genesis and Exodus into books and

1232

01:09:10,610 --> 01:09:08,400

numbers science and genetics you begin

1233

01:09:14,979 --> 01:09:10,620

to see what actually is written about

1234

01:09:17,510 --> 01:09:14,989

it's not a religious text it's more than

1235

01:09:22,399 --> 01:09:17,520

Dynasty text where he came from

1236

01:09:26,030 --> 01:09:22,409

what were you doing here it's not a

1237

01:09:30,740 --> 01:09:26,040

quote it's just a hidden translation and

1238

01:09:33,450 --> 01:09:30,750

the books the Bible books that we used

1239

01:09:36,180 --> 01:09:33,460

were the revised edition

1240

01:09:38,010 --> 01:09:36,190

of the new American Standard 1958 450

1241

01:09:40,950 --> 01:09:38,020

Clarets together from different

1242

01:09:42,930 --> 01:09:40,960

denominations of rope the new American

1243

01:09:45,000 --> 01:09:42,940

Standard Bible and it's completely

1244

01:09:49,260 --> 01:09:45,010

different from reading the King James

1245

01:09:52,230 --> 01:09:49,270

Version trying to get up on his own

1246

01:09:55,920 --> 01:09:52,240

Bible online gateway you can look at all

1247

01:09:58,640 --> 01:09:55,930

the books so he was explained you can

1248

01:10:01,950 --> 01:09:58,650

access via under this as well underneath

1249

01:10:04,290 --> 01:10:01,960

and then like this explains what I just

1250

01:10:06,060 --> 01:10:04,300

have to be trying to explain to you it

1251

01:10:08,460 --> 01:10:06,070

continues down pressure from these

1252

01:10:11,490 --> 01:10:08,470

wedges course it ought to fall any beat

1253

01:10:13,620 --> 01:10:11,500

wedge and certainly fall out and that's

1254

01:10:15,720 --> 01:10:13,630

his rocks fall soldiers are they

1255

01:10:18,450 --> 01:10:15,730

understand so we go back to the French

1256

01:10:21,330 --> 01:10:18,460

in Japanese they found the sound that

1257

01:10:23,730 --> 01:10:21,340

didn't know what it was for and then

1258

01:10:25,830 --> 01:10:23,740

coming back up again if they kept on

1259

01:10:29,310 --> 01:10:25,840

running they might have seen or heard

1260

01:10:36,330 --> 01:10:33,210

the structure is Kubota then rocks but

1261

01:10:39,000 --> 01:10:36,340

they won't all move themselves a few of

1262

01:10:40,740 --> 01:10:39,010

them on the top walkway will fall to

1263

01:10:45,030 --> 01:10:40,750

expose the entrance to the passageway

1264

01:10:47,430 --> 01:10:45,040

that's the normal person and then these

1265

01:10:50,250 --> 01:10:47,440

Center the rocks beneath that walkway of

1266

01:10:54,950 --> 01:10:50,260

the ground area showed you like a girdle

1267

01:11:00,120 --> 01:10:54,960

stone so it's a highly complicated

1268

01:11:02,280 --> 01:11:00,130

system inside that and these what I was

1269

01:11:04,920 --> 01:11:02,290

trying to explain to you that these are

1270

01:11:09,630 --> 01:11:04,930

hot actually holes through these main

1271

01:11:12,360 --> 01:11:09,640

stones so you get another report based

1272

01:11:15,990 --> 01:11:12,370

on way through some whens sound goes

1273

01:11:20,400 --> 01:11:16,000

down these on fly through here of course

1274

01:11:22,650 --> 01:11:20,410

this sort of movement elements so what's

1275

01:11:25,380 --> 01:11:22,660

the mechanism is in place sounds poured

1276

01:11:27,500 --> 01:11:25,390

in 11 massive weight of the ledge to

1277

01:11:31,979 --> 01:11:27,510

rest

1278

01:11:35,820 --> 01:11:31,989

they sort of fill it up with sand to one

1279

01:11:39,090 --> 01:11:35,830

side to balance out the weight so

1280

01:11:42,930 --> 01:11:39,100

there's something that still needs to be

1281

01:11:49,350 --> 01:11:42,940

discovered and that's an S they haven't

1282

01:11:52,290 --> 01:11:49,360

told us before we got to show you how we

1283

01:11:55,080 --> 01:11:52,300

I hate it's been decoded what he

1284

01:11:57,030 --> 01:11:55,090

deciphered might be another way of the

1285

01:12:00,390 --> 01:11:57,040

book of Genesis and hurricanes

1286

01:12:04,189 --> 01:12:00,400

conclusion I just what could take five

1287

01:12:07,590 --> 01:12:04,199

minutes to show you what happened in 99

1288

01:12:10,080 --> 01:12:07,600

there was a discovery and why study he

1289

01:12:14,430 --> 01:12:10,090

discovered it underneath there a hundred

1290

01:12:17,570 --> 01:12:14,440

foot shaft it was called the tomb of the

1291

01:12:22,110 --> 01:12:17,580

silence under Katherine and then oh one

1292

01:12:25,080 --> 01:12:22,120

something maybe the news it was a

1293

01:12:28,919 --> 01:12:25,090

contrived not from geographical I'm

1294

01:12:30,870 --> 01:12:28,929

opening my Scott tens of thousands of

1295

01:12:34,320 --> 01:12:30,880

dollars for it the wedding actually

1296

01:12:36,899 --> 01:12:34,330

showed is shown the official photographs

1297

01:12:39,110 --> 01:12:36,909

and he was laying down we've been trying

1298

01:12:41,910 --> 01:12:39,120

to be put together over of some weeks

1299

01:12:44,280 --> 01:12:41,920

and what I have got is some photographs

1300

01:12:46,830 --> 01:12:44,290

of people who were down there rioters

1301

01:12:50,840 --> 01:12:46,840

out he on during and so there are only

1302

01:12:53,360 --> 01:12:50,850

four dinars he's never been seen before

1303

01:12:56,640 --> 01:12:53,370

that I'll show you the official

1304

01:12:58,680 --> 01:12:56,650

photographs on the unofficial ones so

1305

01:13:01,260 --> 01:12:58,690

they discovered it in 99 but he's been

1306

01:13:04,530 --> 01:13:01,270

known about but they didn't worry was 34

1307

01:13:08,189 --> 01:13:04,540

Dinah's previously this is the entrance

1308

01:13:09,219 --> 01:13:08,199

to it as you see it today or the grill

1309

01:13:11,020 --> 01:13:09,229

over

1310

01:13:13,930 --> 01:13:11,030

and down on your own sake and could

1311

01:13:17,259 --> 01:13:13,940

spell 90 feet that's the main entrance

1312

01:13:22,270 --> 01:13:17,269

and this is what they put down in 99 to

1313

01:13:24,819 --> 01:13:22,280

access it and this is a diagram showing

1314

01:13:28,029 --> 01:13:24,829

all these different levels because

1315

01:13:30,609 --> 01:13:28,039

there's a shaft a sharpie and Chelsea

1316

01:13:35,049 --> 01:13:30,619

emission the interesting one is where

1317

01:13:42,060 --> 01:13:35,059

there's a huge psycho focus from dumb

1318

01:13:45,160 --> 01:13:42,070

men 3d effects so he come down go along

1319

01:13:48,219 --> 01:13:45,170

like a big tunnel and drop down again so

1320

01:13:52,140 --> 01:13:48,229

why why did they do that why did they

1321

01:14:01,540 --> 01:13:52,150

what was so important that below this

1322

01:14:08,379 --> 01:14:04,299

this is this is an unofficial corner

1323

01:14:12,279 --> 01:14:08,389

this is the photograph taken by one of

1324

01:14:14,560 --> 01:14:12,289

my colleagues taken here from the first

1325

01:14:18,219 --> 01:14:14,570

element and he took this photograph

1326

01:14:20,830 --> 01:14:18,229

it's also a water they said it's a big

1327

01:14:25,000 --> 01:14:20,840

people said but I think it was more than

1328

01:14:31,120 --> 01:14:25,010

that and he told me that he can

1329

01:14:33,819 --> 01:14:31,130

photograph but one of the or that that's

1330

01:14:36,879 --> 01:14:33,829

the area you've dropped down into that

1331

01:14:41,290 --> 01:14:36,889

section see the bottom one it's been

1332

01:14:45,779 --> 01:14:41,300

very rough now but this one this is the

1333

01:14:49,779 --> 01:14:45,789

second effect and when he got down

1334

01:14:51,969 --> 01:14:49,789

another his frame very gone he was a

1335

01:14:53,650 --> 01:14:51,979

second guys right he's already gone down

1336

01:14:56,950 --> 01:14:53,660

the prize in one

1337

01:15:00,190 --> 01:14:56,960

researchers he said that when they push

1338

01:15:01,960 --> 01:15:00,200

this stone

1339

01:15:04,330 --> 01:15:01,970

pause what do you know there is nothing

1340

01:15:07,120 --> 01:15:04,340

there but when we push the stone the

1341

01:15:10,870 --> 01:15:07,130

thought he said there was some kind of

1342

01:15:12,940 --> 01:15:10,880

being with like a reptilian buck being

1343

01:15:15,400 --> 01:15:12,950

banging that which is going indistinct

1344

01:15:17,170 --> 01:15:15,410

all and I have got a photograph I mean

1345

01:15:19,690 --> 01:15:17,180

trying to find the point came to life

1346

01:15:23,650 --> 01:15:19,700

off you can see the ants were rich of

1347

01:15:26,410 --> 01:15:23,660

the reptiles on the top of the ridge

1348

01:15:30,600 --> 01:15:26,420

because it was pulled out nothing was

1349

01:15:32,950 --> 01:15:30,610

said about that in the news this is

1350

01:15:35,920 --> 01:15:32,960

because this is the other one being

1351
01:15:42,240 --> 01:15:35,930
pulled up and taken to the surface this

1352
01:15:47,760 --> 01:15:44,430
[Music]

1353
01:15:49,540 --> 01:15:47,770
interesting profound we don't know

1354
01:15:52,600 --> 01:15:49,550
that's all they know

1355
01:15:55,930 --> 01:15:52,610
but this is a rough cave system it goes

1356
01:15:58,480 --> 01:15:55,940
right further on again and it's actually

1357
01:16:01,300 --> 01:15:58,490
this is any insider shaft is there you

1358
01:16:06,250 --> 01:16:01,310
can see that because grade and then

1359
01:16:10,930 --> 01:16:06,260
what's underneath all these under the

1360
01:16:13,780 --> 01:16:10,940
ten underneath they've got it all off

1361
01:16:18,150 --> 01:16:13,790
and of course lastly the big deal in it

1362
01:16:21,670 --> 01:16:18,160
and said that some you know it absorbs

1363
01:16:23,110 --> 01:16:21,680

initiations of all the Cyrus he's not

1364

01:16:26,290 --> 01:16:23,120

actually nothing down there

1365

01:16:30,540 --> 01:16:26,300

but why don't you don't bury something

1366

01:16:34,570 --> 01:16:30,550

in the huge granite sarcophagus

1367

01:16:36,960 --> 01:16:34,580

this is Richard crying you saw him lying

1368

01:16:40,840 --> 01:16:36,970

in the coffer

1369

01:16:43,390 --> 01:16:40,850

he was down he was he came on the second

1370

01:16:46,630 --> 01:16:43,400

day and when the coin actually went down

1371

01:16:47,770 --> 01:16:46,640

Thursday I need room this unofficial

1372

01:16:51,040 --> 01:16:47,780

scale

1373

01:16:59,950 --> 01:16:51,050

Oh he saw it the window so it's quite

1374

01:17:01,900 --> 01:16:59,960

interesting okay that's that's going

1375

01:17:04,690 --> 01:17:01,910

that's interesting sign but if let's go

1376

01:17:07,330 --> 01:17:04,700

back to how he came to all this

1377

01:17:09,480 --> 01:17:07,340

tennyson exodus think attendant in

1378

01:17:14,350 --> 01:17:09,490

ethics physics mathematics and astronomy

1379

01:17:17,860 --> 01:17:14,360

it's a book of science basically now

1380

01:17:22,840 --> 01:17:17,870

it's interesting to find out that the

1381

01:17:26,830 --> 01:17:22,850

lineages where we came from 10,000 years

1382

01:17:31,840 --> 01:17:26,840

ago are actually they don't in the order

1383

01:17:33,880 --> 01:17:31,850

of the planets and they're all made out

1384

01:17:35,590 --> 01:17:33,890

in mathematical astronomical terms in

1385

01:17:37,660 --> 01:17:35,600

book of genesis if you hope to meet it

1386

01:17:39,880 --> 01:17:37,670

I'm not sure how to do that the minute

1387

01:17:43,960 --> 01:17:39,890

very very quickly it's more complicated

1388

01:17:48,570 --> 01:17:43,970

however you've all heard of Plato the

1389

01:17:53,290 --> 01:17:48,580

Greek philosopher when his theory is

1390

01:17:57,760 --> 01:17:53,300

quite well known 500 BC he said that

1391

01:18:01,330 --> 01:17:57,770

it's mere part of a template on someone

1392

01:18:03,580 --> 01:18:01,340

or something divine being supposed to be

1393

01:18:06,190 --> 01:18:03,590

how this template the went around the

1394

01:18:08,440 --> 01:18:06,200

universe making plan itself his template

1395

01:18:12,850 --> 01:18:08,450

it wouldn't fall off the truth ready

1396

01:18:16,630 --> 01:18:12,860

because about my calculations of all the

1397

01:18:19,930 --> 01:18:16,640

ages elected Methuselah and his son and

1398

01:18:25,060 --> 01:18:19,940

his grandson and his son in turn they

1399

01:18:27,880 --> 01:18:25,070

deduce if you reverse the mathematical

1400

01:18:33,010 --> 01:18:27,890

numbers into degrees and he will get

1401

01:18:37,030 --> 01:18:33,020

some idea of a star job so then we are

1402

01:18:41,500 --> 01:18:37,040

trying them explained it very briefly in

1403

01:18:46,680 --> 01:18:41,510

following the first star is either the

1404

01:18:50,790 --> 01:18:46,690

vitamin E so our first major point

1405

01:18:54,479 --> 01:18:50,800

either going to Young's feel envious but

1406

01:18:57,990 --> 01:18:54,489

with their work names or people that

1407

01:19:00,180 --> 01:18:58,000

there were names of clients they may not

1408

01:19:04,890 --> 01:19:00,190

be neither but it just as a point of

1409

01:19:07,740 --> 01:19:04,900

reference so you have to like installing

1410

01:19:12,300 --> 01:19:07,750

a film you have to find establish a zero

1411

01:19:15,060 --> 01:19:12,310

degrees so you use all the numbers that

1412

01:19:20,070 --> 01:19:15,070

we've seen the ages and no contenders

1413

01:19:23,100 --> 01:19:20,080

they turn me into a 360 degree chart so

1414

01:19:26,340 --> 01:19:23,110

you can example them and then 130 in the

1415

01:19:27,900 --> 01:19:26,350

Sun named Seth subsequently he lived in

1416

01:19:31,350 --> 01:19:27,910

20 comments one hundred eight hundred

1417

01:19:34,470 --> 01:19:31,360

years eight hundred years for total of

1418

01:19:36,600 --> 01:19:34,480

nine Citians one important important

1419

01:19:37,590 --> 01:19:36,610

point here is the figures hundred thirty

1420

01:19:40,260 --> 01:19:37,600

nine thirty

1421

01:19:44,640 --> 01:19:40,270

you could triangulate the coordinates of

1422

01:19:47,000 --> 01:19:44,650

other than the set now I can talk about

1423

01:19:51,540 --> 01:19:47,010

it but the best thing is we give you a

1424

01:19:55,500 --> 01:19:51,550

sample period there's other and they're

1425

01:20:00,110 --> 01:19:55,510

sent so using the 360 degrees and then

1426

01:20:03,420 --> 01:20:00,120

going back to their 972 the calculation

1427

01:20:06,000 --> 01:20:03,430

133 in degrees and eventually as you go

1428

01:20:07,470 --> 01:20:06,010

through all those even in white in

1429

01:20:10,350 --> 01:20:07,480

Denison you have all those elongated

1430

01:20:12,720 --> 01:20:10,360

names and in its own zone for so many

1431

01:20:15,209 --> 01:20:12,730

years well this is when it comes down to

1432

01:20:18,690 --> 01:20:15,219

its showing you an astronomical chart

1433

01:20:21,660 --> 01:20:18,700

and as you build up the chart we start

1434

01:20:24,180 --> 01:20:21,670

getting a master Norman star chart and

1435

01:20:26,640 --> 01:20:24,190

this one is called the Methuselah line

1436

01:20:31,140 --> 01:20:26,650

all these people related from a dozen

1437

01:20:33,090 --> 01:20:31,150

said you know these are all sons and

1438

01:20:35,520 --> 01:20:33,100

when you actually transpose there's a

1439

01:20:37,950 --> 01:20:35,530

great tournament when you H B transpose

1440

01:20:40,890 --> 01:20:37,960

up above for those you go through all

1441

01:20:43,050 --> 01:20:40,900

these things then you against ask for an

1442

01:20:45,750 --> 01:20:43,060

alignment so you can see the

1443

01:20:47,729 --> 01:20:45,760

complexities who haven't built well

1444

01:20:51,090 --> 01:20:47,739

that's pretty this way welcome wrote the

1445

01:20:51,570 --> 01:20:51,100

book of Exodus because his Exodus as

1446

01:20:53,299 --> 01:20:51,580

well

1447

01:20:57,080 --> 01:20:53,309

what does Genesis

1448

01:21:00,080 --> 01:20:57,090

is you the mathematical formulas X's

1449

01:21:04,819 --> 01:21:00,090

gives you the physics whoever wrote the

1450

01:21:06,890 --> 01:21:04,829

written books especially Exodus knew how

1451

01:21:09,680 --> 01:21:06,900

to construct all new the construction

1452

01:21:12,049 --> 01:21:09,690

will be very permanent when these books

1453

01:21:14,450 --> 01:21:12,059

admit we don't know it could be tens of

1454

01:21:18,020 --> 01:21:14,460

thousands we don't know or to be carried

1455

01:21:22,010 --> 01:21:18,030

on but it's it was they them the sort of

1456

01:21:25,970 --> 01:21:22,020

a template but somehow it got into these

1457

01:21:30,020 --> 01:21:25,980

biblical books and the story retained in

1458

01:21:32,750 --> 01:21:30,030

that way another way to look at that

1459

01:21:35,479 --> 01:21:32,760

movie go back to that a minute is to

1460

01:21:37,399 --> 01:21:35,489

look at the Genesis connection again the

1461

01:21:40,879 --> 01:21:37,409

recurring numbers said here you might

1462

01:21:43,100 --> 01:21:40,889

recognize that number is the great the

1463

01:21:45,529 --> 01:21:43,110

entrance to the Great Pyramid is offset

1464

01:21:47,979 --> 01:21:45,539

by three point seven one four twenty

1465

01:21:51,830 --> 01:21:47,989

five degrees as near as Earth

1466

01:21:54,529 --> 01:21:51,840

if you put that back into the Genesis

1467

01:21:57,770 --> 01:21:54,539

book alright this knock off the three

1468

01:21:59,930 --> 01:21:57,780

put all these down these numbers because

1469

01:22:02,689 --> 01:21:59,940

someone was racing and then you miss her

1470

01:22:04,790 --> 01:22:02,699

that's enough I and it finds the

1471

01:22:07,790 --> 01:22:04,800

recurring numbers it's the same harmony

1472

01:22:10,850 --> 01:22:07,800

come back to that one and what you do

1473

01:22:12,439 --> 01:22:10,860

you turn these in thirty degrees because

1474

01:22:15,979 --> 01:22:12,449

that city police couldn't come up on

1475

01:22:21,169 --> 01:22:15,989

time on via procurement and you have a

1476

01:22:24,770 --> 01:22:21,179

vertical get this which in mind if you

1477

01:22:28,520 --> 01:22:24,780

go back to this works out to a circle of

1478

01:22:31,750 --> 01:22:28,530

the below that in other words we shoot

1479

01:22:36,950 --> 01:22:31,760

up it's like laser points from these

1480

01:22:40,790 --> 01:22:36,960

points you get these charts star charts

1481

01:22:42,590 --> 01:22:40,800

in in Hammonds complicated I know but in

1482

01:22:45,410 --> 01:22:42,600

something you need to

1483

01:22:47,510 --> 01:22:45,420

you know look at is the other thing

1484

01:22:51,250 --> 01:22:47,520

someone asked me earlier on about Noah's

1485

01:22:55,130 --> 01:22:51,260

Ark one of the main theories is either

1486

01:22:58,210 --> 01:22:55,140

the Great Pyramid inside it was either a

1487

01:23:02,810 --> 01:22:58,220

copy of or actually was a Noah's Ark

1488

01:23:05,390 --> 01:23:02,820

because in if you look at this the event

1489

01:23:09,200 --> 01:23:05,400

of the nones are three hundred cubits

1490

01:23:11,870 --> 01:23:09,210

cubed is about 18 inches 20 inches in

1491

01:23:15,610 --> 01:23:11,880

some ancient cultures but surely from

1492

01:23:19,550 --> 01:23:15,620

the middle finger to elbow so 300 cubits

1493

01:23:22,100 --> 01:23:19,560

and the width was 15 and the 930

1494

01:23:25,160 --> 01:23:22,110

this is Noah's Ark we talking about and

1495

01:23:27,440 --> 01:23:25,170

Jerry wanted to explain that that model

1496

01:23:31,720 --> 01:23:27,450

is actually integrated with a very

1497

01:23:35,030 --> 01:23:31,730

permanent he then was on to say in

1498

01:23:39,170 --> 01:23:35,040

English unless you get God created in

1499

01:23:41,620 --> 01:23:39,180

six days so 6 550 which is 50 degrees

1500

01:23:45,110 --> 01:23:41,630

that each of those lineages who set up

1501

01:23:49,460 --> 01:23:45,120

work up 300 and then he went the seventh

1502

01:23:51,470 --> 01:23:49,470

day he rested 750 300 365 350 is equal

1503

01:23:53,870 --> 01:23:51,480

to 10/7

1504

01:23:58,940 --> 01:23:53,880

one four two eight five seven when we

1505

01:24:01,100 --> 01:23:58,950

come back that's how we can't believe

1506

01:24:02,450 --> 01:24:01,110

back and forth so it's not just one

1507

01:24:05,570 --> 01:24:02,460

thing you figure that out

1508

01:24:08,360 --> 01:24:05,580

it seems to correlate with with the

1509

01:24:11,030 --> 01:24:08,370

information given in both books

1510

01:24:13,670 --> 01:24:11,040

especially book of Genesis the book of

1511

01:24:19,220 --> 01:24:13,680

Exodus goes on to explain how the

1512

01:24:27,740 --> 01:24:19,230

permanence built in about twelve years

1513

01:24:30,920 --> 01:24:27,750

ago there was a psychic organization in

1514

01:24:33,260 --> 01:24:30,930

Britain that knew all my work and said

1515

01:24:36,890 --> 01:24:33,270

would you like to speak to this guy in

1516

01:24:39,560 --> 01:24:36,900

Mansfield he started in that school was

1517

01:24:42,830 --> 01:24:39,570

15 couldn't write very well doesn't know

1518

01:24:43,649 --> 01:24:42,840

the draw he was beaten up walking on the

1519

01:24:45,600 --> 01:24:43,659

street one day

1520

01:24:47,580 --> 01:24:45,610

when you look over the three weeks when

1521

01:24:50,250 --> 01:24:47,590

he came around he started drawing

1522

01:24:52,590 --> 01:24:50,260

pyramids and all this information which

1523

01:24:55,800 --> 01:24:52,600

they couldn't understand so we went to

1524

01:24:59,340 --> 01:24:55,810

see I understand Jews in Canada you see

1525

01:25:02,220 --> 01:24:59,350

them a normal guy except that was very

1526

01:25:04,260 --> 01:25:02,230

well educated but he was very worried

1527

01:25:07,020 --> 01:25:04,270

because he kept didn't know why he was

1528

01:25:10,169 --> 01:25:07,030

drawing all this stuff he written these

1529

01:25:13,439 --> 01:25:10,179

things often like this he said I keep

1530

01:25:19,229 --> 01:25:13,449

seeing a receiver I keep seeing a sender

1531

01:25:25,110 --> 01:25:19,239

receiver icy bodies in boxes underneath

1532

01:25:29,610 --> 01:25:25,120

the permian I see asked like planets or

1533

01:25:32,220 --> 01:25:29,620

asteroids coming down so this is in a

1534

01:25:34,530 --> 01:25:32,230

book this this type of writing which we

1535

01:25:38,419 --> 01:25:34,540

still read II couldn't decide it's not

1536

01:25:44,070 --> 01:25:38,429

my own ethics it's a bit of a mixture of

1537

01:25:46,550 --> 01:25:44,080

maybe you could ancient Mexican but

1538

01:25:54,540 --> 01:25:46,560

however I recognize whether two of these

1539

01:25:57,419 --> 01:25:54,550

I think the sort of this three students

1540

01:25:59,970 --> 01:25:57,429

of that but we could never fully

1541

01:26:01,760 --> 01:25:59,980

understand what he was trying to know he

1542

01:26:05,640 --> 01:26:01,770

could he

1543

01:26:13,070 --> 01:26:05,650

the interesting point was that do you

1544

01:26:20,490 --> 01:26:13,080

remember the fire of the castle in of

1545

01:26:23,610 --> 01:26:20,500

employ in London what he actually went

1546

01:26:25,729 --> 01:26:23,620

to the police and said the castle was

1547

01:26:28,979 --> 01:26:25,739

going to be burned down this month and

1548

01:26:30,959 --> 01:26:28,989

because he mean having treatment the

1549

01:26:33,959 --> 01:26:30,969

piece of his background up until now he

1550

01:26:35,779 --> 01:26:33,969

was Iranian Unni he kept coming his

1551

01:26:38,270 --> 01:26:35,789

village

1552

01:26:40,219 --> 01:26:38,280

it's going to be down he went to the

1553

01:26:44,689 --> 01:26:40,229

police three times the battery they

1554

01:26:46,850 --> 01:26:44,699

arrested him on the day that the fire

1555

01:26:49,189 --> 01:26:46,860

actually occurred and he was held in

1556

01:26:51,439 --> 01:26:49,199

custody for two days until he found out

1557

01:26:53,569 --> 01:26:51,449

from the surgeon doctor whose evening

1558

01:26:56,899 --> 01:26:53,579

that he was actually an appointment on

1559

01:27:00,379 --> 01:26:56,909

that day so I throw what happened to the

1560

01:27:02,870 --> 01:27:00,389

guy he when he went he just couldn't

1561

01:27:05,479 --> 01:27:02,880

handle all this information but it

1562

01:27:08,989 --> 01:27:05,489

certainly of great use to what we were

1563

01:27:10,759 --> 01:27:08,999

looking at what we were trying to he

1564

01:27:12,889 --> 01:27:10,769

knew nothing about history you know

1565

01:27:15,919 --> 01:27:12,899

didn't even know to write properly but

1566

01:27:18,770 --> 01:27:15,929

he had seen color photographs of the

1567

01:27:23,270 --> 01:27:18,780

work he was doing incredible minut

1568

01:27:26,959 --> 01:27:23,280

detail so something else to you to even

1569

01:27:30,469 --> 01:27:26,969

look at I'm going to leave it there

1570

01:27:32,479 --> 01:27:30,479

because I'd like to ask you know ask you

1571

01:27:35,419 --> 01:27:32,489

to ask me questions because I want to

1572

01:27:38,750 --> 01:27:35,429

try and explain I know it's a lot to

1573

01:27:40,909 --> 01:27:38,760

take in but as I said each couple slides

1574

01:27:44,179 --> 01:27:40,919

means an hour's presentation in itself

1575

01:27:45,889 --> 01:27:44,189

and it wasn't my original work I hope to

1576

01:27:48,919 --> 01:27:45,899

do the editing on the archaeology

1577

01:27:51,770 --> 01:27:48,929

research on the ground work but you can

1578

01:27:55,609 --> 01:27:51,780

see some sense in the 20 years I mean

1579

01:27:57,500 --> 01:27:55,619

working on that field no answers in the

1580

01:27:59,989 --> 01:27:57,510

academic or traditional field come up

1581

01:28:02,419 --> 01:27:59,999

with only some of the more alternative

1582

01:28:05,839 --> 01:28:02,429

ideas which are becoming more acceptable

1583

01:28:07,819 --> 01:28:05,849

the idea before that in 2001 seem

1584

01:30:42,310 --> 01:28:07,829

ridiculous to many and now returning

1585

01:31:07,879 --> 01:30:56,820

[Music]

1586

01:31:43,459 --> 01:31:11,510

they became looking at well I know we've

1587

01:31:46,100 --> 01:31:43,469

got the crystal but hopefully this yes

1588

01:31:52,160 --> 01:31:46,110

that's right of Sciences how was one of

1589

01:31:56,209 --> 01:31:52,170

the things the resurrection yeah but he

1590

01:32:14,890 --> 01:31:56,219

was an incentive system initiation the

1591

01:32:23,550 --> 01:32:19,240

throwing out the player they go yeah

1592

01:32:26,770 --> 01:32:23,560

well I think basically they would built

1593

01:32:29,470 --> 01:32:26,780

like any other one of the main

1594

01:32:31,030 --> 01:32:29,480

structures have built initially of all

1595

01:32:33,850 --> 01:32:31,040

the other smaller government on street

1596

01:32:37,180 --> 01:32:33,860

but if you look at the if you lay out

1597

01:32:39,729 --> 01:32:37,190

there's a modified but if you lay out

1598

01:32:41,820 --> 01:32:39,739

flat you're finding it basically right

1599

01:32:45,700 --> 01:32:41,830

in the middle of the whole terrain

1600

01:32:49,570 --> 01:32:45,710

itself I'm done so it's got a simple

1601
01:32:52,450 --> 01:32:49,580
structure the idea was like I showed me

1602
01:32:55,510 --> 01:32:52,460
that psychic to the sender receiver idea

1603
01:33:00,970 --> 01:32:55,520
I think it was used as a point of

1604
01:33:04,930 --> 01:33:00,980
reference the balance here so one of

1605
01:33:09,880 --> 01:33:04,940
many ideas was why it was built there's

1606
01:33:16,340 --> 01:33:13,209
all your life and never come to exact

1607
01:33:19,220 --> 01:33:16,350
meaningful result but I think it was

1608
01:33:21,140 --> 01:33:19,230
built that as a central pivot point with

1609
01:33:23,810 --> 01:33:21,150
a crystal underneath to find some of the

1610
01:33:29,330 --> 01:33:23,820
other points of reference run around the

1611
01:33:44,169 --> 01:33:29,340
globe many other things like why you

1612
01:33:44,179 --> 01:33:48,750
the hell tools they used to know their

1613
01:33:59,439 --> 01:33:53,219

vision if you go to the British Museum

1614

01:34:02,049 --> 01:33:59,449

they are I think they know but they call

1615

01:34:05,979 --> 01:34:02,059

of desolation new clean vessels they say

1616

01:34:09,520 --> 01:34:05,989

they're white and they sound with my

1617

01:34:21,909 --> 01:34:09,530

pencil thin tops you can activate

1618

01:34:26,790 --> 01:34:21,919

underneath a balance the other thing I

1619

01:34:31,689 --> 01:34:26,800

forgot to mention in the pyramid this

1620

01:34:35,409 --> 01:34:31,699

you remember the Camden brick you said

1621

01:34:38,439 --> 01:34:35,419

little mini powered robot they've got

1622

01:34:42,549 --> 01:34:38,449

these openings are got so-called two

1623

01:34:45,100 --> 01:34:42,559

leaders Cyrus sharps and up two stars

1624

01:34:49,629 --> 01:34:45,110

supposedly lying to some of the stuff

1625

01:34:54,969 --> 01:34:49,639

well in one of the shafts they found two

1626

01:34:59,919 --> 01:34:54,979

men I am convinced now even if you go by

1627

01:35:01,709 --> 01:34:59,929

the traditional theory thousand years

1628

01:35:05,709 --> 01:35:01,719

old when the gardening's

1629

01:35:15,640 --> 01:35:05,719

600 BC the one was iron to iron things

1630

01:35:15,650 --> 01:35:21,489

[Music]

1631

01:35:21,499 --> 01:35:30,330

Oh

1632

01:37:56,610 --> 01:35:52,660

[Music]

1633

01:38:03,490 --> 01:38:00,610

well apparently Gordon yeah yes the

1634

01:38:05,760 --> 01:38:03,500

number came down to help to assist in

1635

01:38:09,010 --> 01:38:05,770

building us because apparently

1636

01:38:11,440 --> 01:38:09,020

undercover CIA John there we were

1637

01:38:14,230 --> 01:38:11,450

involved and with the timber from

1638

01:38:48,830 --> 01:38:14,240

another source of innovation or just one

1639

01:38:58,109 --> 01:38:55,950

ya know happened and we never looked at

1640

01:39:02,399 --> 01:38:58,119

that well the ones we didn't account for

1641

01:39:06,080 --> 01:39:02,409

a hoax so I never really but the word we

1642

01:39:13,319 --> 01:39:06,090

do know some when they've excavated some

1643

01:39:20,129 --> 01:39:13,329

quite tall Giants interesting point the

1644

01:39:23,850 --> 01:39:20,139

book about China very wrong there was I

1645

01:39:28,979 --> 01:39:23,860

still kept the thymus about it 18 years

1646

01:39:32,879 --> 01:39:28,989

ago they discovered red and Tom Klatt

1647

01:39:35,120 --> 01:39:32,889

Celtic people buried in China and I mean

1648

01:39:38,250 --> 01:39:35,130

hundreds of people not just one or two

1649

01:39:47,970 --> 01:39:38,260

in return and these were like six foot

1650

01:39:51,419 --> 01:39:47,980

six people not Chinese cultural an

1651
01:39:55,160 --> 01:39:51,429
artifact system and the only reason they

1652
01:39:59,399 --> 01:39:55,170
discovered they were put in a Chinese

1653
01:40:02,189 --> 01:39:59,409
Museum but wasn't knocked out property

1654
01:40:05,610 --> 01:40:02,199
and then when it opened up when the

1655
01:40:07,740 --> 01:40:05,620
Asian Chinese red pomalyst closed down

1656
01:40:10,950 --> 01:40:07,750
the public they take up the vacuum or

1657
01:40:13,170 --> 01:40:10,960
just oculus windows and say what is you

1658
01:40:19,400 --> 01:40:13,180
know there's a big article in now

1659
01:40:23,040 --> 01:40:19,410
something I've still got the time and

1660
01:40:32,390 --> 01:40:23,050
they will have charting clothes was left

1661
01:40:45,570 --> 01:40:38,300
yes well the idea is this is the same

1662
01:40:47,670 --> 01:40:45,580
when this alteration of Mars they had

1663
01:40:52,110 --> 01:40:47,680

the balanced earth wasn't insane orbit

1664

01:40:58,830 --> 01:40:52,120

so they had to bring in the moon 2007

1665

01:41:00,690 --> 01:40:58,840

the the orbital path if you look at I've

1666

01:41:05,280 --> 01:41:00,700

mentioned Plato he he talked about a

1667

01:41:07,710 --> 01:41:05,290

time when in his lifetime was a council

1668

01:41:09,960 --> 01:41:07,720

several thousand years ago in his time

1669

01:41:13,890 --> 01:41:09,970

that we call them there was a time when

1670

01:41:18,140 --> 01:41:13,900

the remembers no there's a racist people

1671

01:41:21,450 --> 01:41:18,150

in South America that God handed down

1672

01:41:24,150 --> 01:41:21,460

stories of the time ian is going see the

1673

01:41:26,940 --> 01:41:24,160

Bible that says a tiny little and they

1674

01:41:28,860 --> 01:41:26,950

think there's that famous scientist

1675

01:41:30,120 --> 01:41:28,870

strongly in nineteen fifties real couple

1676

01:41:33,500 --> 01:41:30,130

of books on it as well

1677

01:41:39,210 --> 01:41:33,510

I've got a whole section on that on when

1678

01:41:40,770 --> 01:41:39,220

all the evidence of showing when they

1679

01:41:43,169 --> 01:41:40,780

need to do

1680

01:41:46,200 --> 01:41:43,179

with the beauty by people like clay to

1681

01:41:48,799 --> 01:41:46,210

another's grafton see there's even

1682

01:41:59,080 --> 01:41:48,809

mentions the name of the cultures that

1683

01:42:10,720 --> 01:42:05,520

yeah

1684

01:42:13,240 --> 01:42:10,730

chef bill thousands and thousands of

1685

01:42:14,170 --> 01:42:13,250

years you know in 50,000 meters it would

1686

01:42:34,080 --> 01:42:14,180

be slightly different

1687

01:42:37,640 --> 01:42:34,090

magic instinct is that underneath if you

1688

01:42:37,650 --> 01:43:38,640

[Music]

1689

01:43:43,210 --> 01:43:40,590

any more questions

1690

01:43:52,360 --> 01:43:43,220

tell me evidence to suggest what sort of

1691

01:43:57,700 --> 01:43:52,370

crystal be involved I all I know it's a

1692

01:44:01,600 --> 01:43:57,710

natural crystal like you know quartz

1693

01:44:04,240 --> 01:44:01,610

yeah yeah white crystal all I know is

1694

01:44:06,280 --> 01:44:04,250

the team did go in there

1695

01:44:18,730 --> 01:44:06,290

pink team of five years ago and take a

1696

01:44:23,590 --> 01:44:18,740

chunk of it for some problems I think so

1697

01:44:26,710 --> 01:44:23,600

yeah the annex and if you look on the

1698

01:44:29,820 --> 01:44:26,720

book of Exodus I think even they

1699

01:44:32,800 --> 01:44:29,830

describe how the the Ark of the Covenant

1700

01:44:34,900 --> 01:44:32,810

it shows you there actually if you read

1701

01:44:38,590 --> 01:44:34,910

it as if it's not the Ark of the

1702

01:44:43,390 --> 01:44:38,600

government as it were it shows you how

1703

01:44:46,030 --> 01:44:43,400

it was constructed I'll have to give

1704

01:44:49,510 --> 01:44:46,040

another talk on that one it's so complex

1705

01:44:53,340 --> 01:44:49,520

but it's if you try to get one of our

1706

01:44:58,170 --> 01:44:56,220

we've explained it in that but it is

1707

01:45:00,360 --> 01:44:58,180

quite complicated there's a lot more to

1708

01:45:01,830 --> 01:45:00,370

be found in that oh definitely yes I

1709

01:45:02,400 --> 01:45:01,840

think so yeah very scratching the

1710

01:45:03,990 --> 01:45:02,410

surface

1711

01:45:12,750 --> 01:45:04,000

I mean if all this stuff we found in

1712

01:45:15,360 --> 01:45:12,760

desert I don't I don't think so no

1713

01:45:21,630 --> 01:45:15,370

they're all different angles it's all

1714

01:45:23,700 --> 01:45:21,640

seem to be at 30 and 50 degrees below so

1715

01:45:26,580 --> 01:45:23,710

much stuff down and still as I showed he

1716

01:45:29,250 --> 01:45:26,590

is still finding things you know I mean

1717

01:45:31,680 --> 01:45:29,260

doing work on the muon stuff they're

1718

01:45:34,320 --> 01:45:31,690

doing in the Valley of the Kings now

1719

01:45:51,150 --> 01:45:34,330

finding new tunes I'm still looking for

1720

01:45:54,270 --> 01:45:51,160

- well people say it's all slavery but

1721

01:45:56,970 --> 01:45:54,280

that the the slavery in ancient Egypt

1722

01:46:00,060 --> 01:45:56,980

wasn't a concept people did it because

1723

01:46:05,250 --> 01:46:00,070

it was a pharaoh and hoping for greater

1724

01:46:07,830 --> 01:46:05,260

things you know I'm imagining the I mean

1725

01:46:10,230 --> 01:46:07,840

in today's to them several thousand but

1726

01:46:13,050 --> 01:46:10,240

with the machines who knows I honestly

1727

01:46:16,680 --> 01:46:13,060

don't know that I'm doing anybody with

1728

01:46:18,780 --> 01:46:16,690

millions about yeah there is another

1729

01:46:23,100 --> 01:46:18,790

though you see some people say what if

1730

01:46:25,490 --> 01:46:23,110

there was slopes and trucks where's the

1731

01:46:27,780 --> 01:46:25,500

only way to hide all that Sun you know

1732

01:46:30,120 --> 01:46:27,790

there's nothing in the way to go and

1733

01:46:32,700 --> 01:46:30,130

bear in mind the river but that was

1734

01:46:35,100 --> 01:46:32,710

there's water even in 1880's

1735

01:46:36,630 --> 01:46:35,110

all the Giza Plateau was water around

1736

01:47:14,370 --> 01:46:36,640

that area you can see all the
