

1  
00:00:15,340 --> 00:00:12,310  
originally from he graduated from Anglia

2  
00:00:19,060 --> 00:00:15,350  
Ruskin University in 2002 having studied

3  
00:00:21,040 --> 00:00:19,070  
information systems he's travelled

4  
00:00:23,020 --> 00:00:21,050  
extensively around the world and I

5  
00:00:25,870 --> 00:00:23,030  
suppose he would describe himself as

6  
00:00:30,100 --> 00:00:25,880  
human origins research show that be

7  
00:00:32,319 --> 00:00:30,110  
right there

8  
00:00:34,240 --> 00:00:32,329  
his research has been featured in The

9  
00:00:36,430 --> 00:00:34,250  
Telegraph newspaper and a popular

10  
00:00:39,040 --> 00:00:36,440  
Science Channel show he's also been

11  
00:00:42,100 --> 00:00:39,050  
interviewed coast to coast radio at

12  
00:00:44,979 --> 00:00:42,110  
midnight in the desert he's a member of

13  
00:00:47,799 --> 00:00:44,989

both the paleoanthropology Society easy

14

00:00:51,610 --> 00:00:47,809

for you to say and the scientific and

15

00:00:53,440 --> 00:00:51,620

medical network I'd say a little bit

16

00:00:56,560 --> 00:00:53,450

about Tanya her as well because she's

17

00:00:59,319 --> 00:00:56,570

from Sydney Australia correct I'm

18

00:01:03,490 --> 00:00:59,329

graduated from Western University she

19

00:01:08,230 --> 00:01:03,500

said crime genetics expert embarrassin

20

00:01:09,730 --> 00:01:08,240

are psychic medium-- cartomancer yeah I

21

00:01:13,320 --> 00:01:09,740

hear you learn a Shaymin i

22

00:01:15,430 --> 00:01:13,330

hypnotherapist and everything else

23

00:01:17,260 --> 00:01:15,440

between oh they've written a number of

24

00:01:21,640 --> 00:01:17,270

books including ancient aliens in

25

00:01:25,870 --> 00:01:21,650

Australia 2012 rising The Forgotten

26

00:01:28,000 --> 00:01:25,880

Exodus and hybrid humans now hybrid

27

00:01:31,120 --> 00:01:28,010

humans uses scientific evidence to

28

00:01:34,240 --> 00:01:31,130

describe how Homo sapiens are indeed an

29

00:01:36,520 --> 00:01:34,250

alien's hybrid species and this is what

30

00:01:38,289 --> 00:01:36,530

they're going to discuss this evening so

31

00:01:40,120 --> 00:01:38,299

I bought you enough now so please put

32

00:01:52,510 --> 00:01:40,130

your hands together give a warm welcome

33

00:01:58,419 --> 00:01:55,529

[Music]

34

00:01:59,859 --> 00:01:58,429

good evening thank you for coming off to

35

00:02:07,149 --> 00:01:59,869

listen hopefully you'll enjoy some of

36

00:02:12,710 --> 00:02:07,159

this we'd start some winter so this is

37

00:02:18,970 --> 00:02:14,400

[Music]

38

00:02:20,890 --> 00:02:18,980

builds on the earlier ones basically I'm

39  
00:02:23,050 --> 00:02:20,900  
gonna give you a quick background to how

40  
00:02:31,110 --> 00:02:23,060  
we got to this because he's so pretty

41  
00:02:36,190 --> 00:02:31,120  
there's a pretty full on stuff so in

42  
00:02:38,800 --> 00:02:36,200  
2011 I traveled to Egypt and that's my

43  
00:02:40,780 --> 00:02:38,810  
view from the Sphinx guesthouse in Egypt

44  
00:02:43,119 --> 00:02:40,790  
which is an incredible view and as you

45  
00:02:45,400 --> 00:02:43,129  
can see you can't get much closer to the

46  
00:02:48,160 --> 00:02:45,410  
site without actually being with that

47  
00:02:53,830 --> 00:02:48,170  
crowd it's also the place where a lot of

48  
00:02:57,160 --> 00:02:53,840  
the the famous researchers stay stayed

49  
00:02:59,740 --> 00:02:57,170  
there at some point this was part of the

50  
00:03:03,789 --> 00:02:59,750  
tail end of a journey for me because

51  
00:03:06,360 --> 00:03:03,799  
I've been a 2012 Mayan calendar expert

52  
00:03:10,479 --> 00:03:06,370  
and speaker for several years from about

53  
00:03:12,490 --> 00:03:10,489  
2007 very involved with that metalder

54  
00:03:15,430 --> 00:03:12,500  
for people that were famous within that

55  
00:03:17,530 --> 00:03:15,440  
subject you know travel to Mexico and

56  
00:03:19,089 --> 00:03:17,540  
also but this was a kind of a change of

57  
00:03:20,949 --> 00:03:19,099  
tactics that came out at the end of a

58  
00:03:23,830 --> 00:03:20,959  
period research until that and the end

59  
00:03:26,259 --> 00:03:23,840  
of business marriage wonderful upheavals

60  
00:03:31,089 --> 00:03:26,269  
and it took me to a journey to Egypt on

61  
00:03:33,099 --> 00:03:31,099  
the 11-11-11 now whilst there some quite

62  
00:03:35,530 --> 00:03:33,109  
a critical example if we go to the next

63  
00:03:38,580 --> 00:03:35,540

slide I will tell you about some of them

64

00:03:42,550 --> 00:03:38,590

which one side was particularly special

65

00:03:44,830 --> 00:03:42,560

this is Alan Gore out we see there is an

66

00:03:48,160 --> 00:03:44,840

alabaster platinum

67

00:03:49,720 --> 00:03:48,170

smooth looks machine cuts very unusual

68

00:03:52,509 --> 00:03:49,730

there's not another one I know of in

69

00:03:54,070 --> 00:03:52,519

Egypt like this if you have a look at

70

00:03:56,400 --> 00:03:54,080

the next slide you'll see a bit of a

71

00:04:00,820 --> 00:03:56,410

close-up of what it looks like on top

72

00:04:02,650 --> 00:04:00,830

right this circle in the middle and this

73

00:04:05,710 --> 00:04:02,660

has been described by the researcher

74

00:04:07,690 --> 00:04:05,720

William Henry as a Stargate site and the

75

00:04:11,110 --> 00:04:07,700

Hebrews this platform is connected to

76

00:04:14,530 --> 00:04:11,120

Stargate technologies now this site is

77

00:04:16,060 --> 00:04:14,540

off is off-limits to tourists so in true

78

00:04:17,590 --> 00:04:16,070

Egyptian tradition it takes a little bit

79

00:04:20,140 --> 00:04:17,600

of back sheesh you have to pay somebody

80

00:04:23,050 --> 00:04:20,150

to get in there if you can arrange that

81

00:04:25,300 --> 00:04:23,060

though it's a marvelous sight most of

82

00:04:27,520 --> 00:04:25,310

the the temple complex there looks like

83

00:04:29,080 --> 00:04:27,530

it's being blown up and it's it's a very

84

00:04:30,790 --> 00:04:29,090

strange place you get the sense that

85

00:04:32,879 --> 00:04:30,800

it's being deliberately destroyed for

86

00:04:36,580 --> 00:04:32,889

some reason and it's incredibly ancient

87

00:04:38,830 --> 00:04:36,590

now there's a star map on the ground in

88

00:04:42,430 --> 00:04:38,840

Egypt which matches with the sky now the

89

00:04:44,170 --> 00:04:42,440

as above so below system the agent now

90

00:04:46,750 --> 00:04:44,180

if you to to look at the star map

91

00:04:49,240 --> 00:04:46,760

overlaid over the sights of EJ you'll

92

00:04:52,060 --> 00:04:49,250

find that Al Gore are nearby

93

00:04:54,909 --> 00:04:52,070

nearby structures overlaid over the

94

00:04:57,490 --> 00:04:54,919

Pleiades whereas of course we have three

95

00:05:00,670 --> 00:04:57,500

pyramids which are linked with Orion so

96

00:05:02,409 --> 00:05:00,680

this is a very very interesting side for

97

00:05:04,900 --> 00:05:02,419

that reason because the Pleiades form

98

00:05:06,879 --> 00:05:04,910

you know a very key role in ancient

99

00:05:09,129 --> 00:05:06,889

mythology around the world and not least

100

00:05:13,360 --> 00:05:09,139

in Egypt but you'll find they mentioned

101  
00:05:15,610 --> 00:05:13,370  
you know as aboriginals Sumerians around

102  
00:05:18,100 --> 00:05:15,620  
the world Indonesia Japan everywhere so

103  
00:05:19,570 --> 00:05:18,110  
he's one of these key psychic key areas

104  
00:05:23,260 --> 00:05:19,580  
of the sky that keeps coming up in

105  
00:05:24,760 --> 00:05:23,270  
ancient mythology now whilst there I had

106  
00:05:27,270 --> 00:05:24,770  
a very strange experience I've found

107  
00:05:29,460 --> 00:05:27,280  
that some reason I was compelled to

108  
00:05:31,839 --> 00:05:29,470  
after having been on the platform

109  
00:05:33,730 --> 00:05:31,849  
compelled to pro look up at the sky this

110  
00:05:35,589 --> 00:05:33,740  
was a point and I'll be looking at the

111  
00:05:37,570 --> 00:05:35,599  
Pleiades now I'm not really as people

112  
00:05:38,390 --> 00:05:37,580  
this being you know K the new-age kind

113  
00:05:42,379 --> 00:05:38,400

of thing of the

114

00:05:43,670 --> 00:05:42,389

this all these federations and so it was

115

00:05:44,750 --> 00:05:43,680

quite strange to find myself there

116

00:05:46,610 --> 00:05:44,760

looking up and feeling that there was

117

00:05:48,980 --> 00:05:46,620

beings that and I was in some way

118

00:05:50,510 --> 00:05:48,990

communicated to them what emotionally

119

00:05:51,950 --> 00:05:50,520

say you know why he left us on this

120

00:05:54,110 --> 00:05:51,960

planet but what did he come up and help

121

00:05:56,390 --> 00:05:54,120

there's always problems here but what

122

00:05:58,070 --> 00:05:56,400

said came out of nowhere I'm going to

123

00:06:00,200 --> 00:05:58,080

say you know I think that didn't have

124

00:06:02,659 --> 00:06:00,210

that kind of leaning in my research in

125

00:06:04,790 --> 00:06:02,669

the past and then after that nothing

126  
00:06:07,760 --> 00:06:04,800  
immediately happened so go on to the

127  
00:06:10,520 --> 00:06:07,770  
next the next light comes rather than

128  
00:06:13,279 --> 00:06:10,530  
later and otherwise I went to in Egypt

129  
00:06:15,439 --> 00:06:13,289  
was under Egypt now this cave is

130  
00:06:17,930 --> 00:06:15,449  
actually out of the desert near the

131  
00:06:20,120 --> 00:06:17,940  
pyramids now this is a very complex part

132  
00:06:21,439 --> 00:06:20,130  
of the complex where you go out and go

133  
00:06:23,810 --> 00:06:21,449  
find that there's some very strange more

134  
00:06:26,360 --> 00:06:23,820  
like concrete bunkers out in the desert

135  
00:06:28,490 --> 00:06:26,370  
now these again are off-limits I don't

136  
00:06:30,230 --> 00:06:28,500  
know any pictures of the structures I

137  
00:06:31,939 --> 00:06:30,240  
can't find any pictures let me take them

138  
00:06:33,350 --> 00:06:31,949

I couldn't afford to be getting the

139

00:06:35,180 --> 00:06:33,360

images myself because the flash

140

00:06:36,920 --> 00:06:35,190

photography I'd have needed would have

141

00:06:38,600 --> 00:06:36,930

alerted people to the fact that we were

142

00:06:42,050 --> 00:06:38,610

out there and we were actually taken out

143

00:06:43,370 --> 00:06:42,060

there by Egyptian police so they're not

144

00:06:45,650 --> 00:06:43,380

supposed to be taking us up there either

145

00:06:47,990 --> 00:06:45,660

so have to be quite careful though you

146

00:06:50,960 --> 00:06:48,000

descend down steps into these bunker

147

00:06:52,580 --> 00:06:50,970

complex and then find down one of these

148

00:06:54,980 --> 00:06:52,590

difficulty perhaps we trip they may see

149

00:06:56,870 --> 00:06:54,990

that these square toe systems that go

150

00:06:59,120 --> 00:06:56,880

down all around the shaft surround the

151  
00:07:00,980 --> 00:06:59,130  
sites and some of these go down into an

152  
00:07:02,810 --> 00:07:00,990  
underground complex now of course that's

153  
00:07:04,279 --> 00:07:02,820  
not really supposed to exist now what's

154  
00:07:07,060 --> 00:07:04,289  
a lot of people will say that this is

155  
00:07:09,770 --> 00:07:07,070  
nothing to see under the Giza Plateau

156  
00:07:12,020 --> 00:07:09,780  
my feeling is that there is some kind of

157  
00:07:14,210 --> 00:07:12,030  
a survival complex that's being built

158  
00:07:15,620 --> 00:07:14,220  
under the desert there because the

159  
00:07:17,930 --> 00:07:15,630  
feeling you get to go in there is this

160  
00:07:20,450 --> 00:07:17,940  
is some kind of a saying they survive

161  
00:07:22,520 --> 00:07:20,460  
their plunder system you go down then

162  
00:07:24,320 --> 00:07:22,530  
this is tunnels crawl into which seems

163  
00:07:27,110 --> 00:07:24,330

to be natural toes have been extended in

164

00:07:28,879 --> 00:07:27,120

places and the guy who's with us tells

165

00:07:31,100 --> 00:07:28,889

us that if you crawl on there and keep

166

00:07:33,950 --> 00:07:31,110

going for a while you'll get to some

167

00:07:35,390 --> 00:07:33,960

additional shafts is it which you really

168

00:07:37,550 --> 00:07:35,400

you can't see the bottom he's dropped

169

00:07:39,379 --> 00:07:37,560

you know flaming brands down there

170

00:07:40,760 --> 00:07:39,389

- see they said they got a so deep that

171

00:07:44,120 --> 00:07:40,770

the only way you get down there is with

172

00:07:45,740 --> 00:07:44,130

professional client equipment now well

173

00:07:48,200 --> 00:07:45,750

if that took a little the desert you

174

00:07:49,940 --> 00:07:48,210

know in a strange bunker so there's very

175

00:07:51,560 --> 00:07:49,950

strange experiences we have had very

176

00:07:55,040 --> 00:07:51,570

interesting sighs dependency whilst out

177

00:07:55,820 --> 00:07:55,050

there now come to the next slide or show

178

00:07:58,159 --> 00:07:55,830

something else

179

00:08:01,580 --> 00:07:58,169

now I'm an interesting counter as well

180

00:08:06,550 --> 00:08:01,590

with an object now this is this came up

181

00:08:09,470 --> 00:08:06,560

from a site that was excavated secretly

182

00:08:12,290 --> 00:08:09,480

the pyramids there is basically under

183

00:08:14,810 --> 00:08:12,300

the entire village next to the pyramid

184

00:08:16,940 --> 00:08:14,820

site there are ancient temple complexes

185

00:08:18,469 --> 00:08:16,950

this is quite well understood the

186

00:08:20,330 --> 00:08:18,479

problem is that of course that there is

187

00:08:21,950 --> 00:08:20,340

being there are no houses there it's

188

00:08:24,080 --> 00:08:21,960

very difficult for anyone to excavate

189

00:08:26,000 --> 00:08:24,090

but some people do you know they dig

190

00:08:27,620 --> 00:08:26,010

under their houses they dig under the

191

00:08:30,080 --> 00:08:27,630

roads you know that night and whatnot

192

00:08:31,659 --> 00:08:30,090

people find things now this is a

193

00:08:35,990 --> 00:08:31,669

particular interest in object because

194

00:08:37,459 --> 00:08:36,000

this came up from a dig the person who

195

00:08:38,839 --> 00:08:37,469

was involved was not really looking for

196

00:08:42,680 --> 00:08:38,849

some like this they were interested in

197

00:08:44,630 --> 00:08:42,690

you know treasures right so it's when he

198

00:08:47,300 --> 00:08:44,640

was there this was nothing was thrown to

199

00:08:49,520 --> 00:08:47,310

the side however I had a very strong

200

00:08:51,230 --> 00:08:49,530

thing in this was something important so

201

00:08:53,510 --> 00:08:51,240

I asked him you know his wife I spent

202

00:08:55,790 --> 00:08:53,520

some time with this object now I know a

203

00:08:57,800 --> 00:08:55,800

little bit what this is at the time I

204

00:09:00,350 --> 00:08:57,810

really didn't I just I was important and

205

00:09:03,560 --> 00:09:00,360

asked a couple of other psychics that I

206

00:09:04,130 --> 00:09:03,570

know if they would zoom in on it tell me

207

00:09:06,110 --> 00:09:04,140

about it

208

00:09:08,420 --> 00:09:06,120

what they came out initially one of them

209

00:09:10,970 --> 00:09:08,430

told me some kind of beacon another one

210

00:09:14,810 --> 00:09:10,980

said a key that opens something

211

00:09:16,460 --> 00:09:14,820

somewhere and separately I asked my

212

00:09:18,560 --> 00:09:16,470

friend at the time Daniela

213

00:09:20,990 --> 00:09:18,570

if he would was only as well wasn't with

214

00:09:22,520 --> 00:09:21,000

me then and she saw is only the similar

215

00:09:24,110 --> 00:09:22,530

thing she actually just forgot I was

216

00:09:25,970 --> 00:09:24,120

holding she's very big remote viewer

217

00:09:29,179 --> 00:09:25,980

so I was hobbling so a little bit about

218

00:09:31,400 --> 00:09:29,189

the object now I now understand that

219

00:09:33,199 --> 00:09:31,410

this was key to a lot of events are to

220

00:09:37,790 --> 00:09:33,209

come because what we talk about another

221

00:09:42,710 --> 00:09:37,800

string which is crucial to me the new

222

00:09:46,249 --> 00:09:42,720

book so quantity next slide now if I

223

00:09:48,319 --> 00:09:46,259

came back from from Egypt and he said

224

00:09:50,540 --> 00:09:48,329

that my ex-wife was not very happy with

225

00:09:55,759 --> 00:09:50,550

our divorce and it's like make more

226

00:10:00,079 --> 00:09:55,769

problems for me so that would be a job

227

00:10:02,179 --> 00:10:00,089

to this next slide this person came

228

00:10:03,920 --> 00:10:02,189

along and helped me say my job is paying

229

00:10:05,929 --> 00:10:03,930

for you you know you want to get out the

230

00:10:07,100 --> 00:10:05,939

situation you've got going that was very

231

00:10:08,989 --> 00:10:07,110

unpleasant

232

00:10:10,970 --> 00:10:08,999

you can told me over Spain distinguished

233

00:10:13,309 --> 00:10:10,980

teacher so I left the UK and that was

234

00:10:17,569 --> 00:10:13,319

under starred like Aventuras so he can

235

00:10:19,429 --> 00:10:17,579

go to the next slide and the next one

236

00:10:21,999 --> 00:10:19,439

here within a couple of weeks she was a

237

00:10:29,179 --> 00:10:22,009

son she was off to Ecuador where she has

238

00:10:31,220 --> 00:10:29,189

family come along that's personal detail

239

00:10:34,280 --> 00:10:31,230

but so I decided I would go to Ecuador

240

00:10:37,119 --> 00:10:34,290

with them and we ended up in regular a

241

00:10:39,590 --> 00:10:37,129

nice the volcano of the background there

242

00:10:42,980 --> 00:10:39,600

it's very straight start happening once

243

00:10:44,960 --> 00:10:42,990

we reached Ecuador now there was a light

244

00:10:48,079 --> 00:10:44,970

probably about two weeks into our

245

00:10:52,249 --> 00:10:48,089

arrival when we sat down we had a very

246

00:10:54,739 --> 00:10:52,259

mobile evening trips together in the

247

00:10:58,189 --> 00:10:54,749

kitchen and then there's God fit in very

248

00:11:01,489 --> 00:10:58,199

unwell she's in a media channels liking

249

00:11:02,840 --> 00:11:01,499

all her life so preface that because

250

00:11:05,299 --> 00:11:02,850

some very strange things happened she's

251  
00:11:08,239 --> 00:11:05,309  
caught up to that fit very well lay down

252  
00:11:12,259 --> 00:11:08,249  
then started being was sick and they a

253  
00:11:13,790 --> 00:11:12,269  
lot of pain that basically passed out to

254  
00:11:16,489 --> 00:11:13,800  
me look like obviously she was just

255  
00:11:18,470 --> 00:11:16,499  
unconscious on the bed but it was not

256  
00:11:20,989 --> 00:11:18,480  
quite what was happening for her instead

257  
00:11:23,540 --> 00:11:20,999  
she felt whole body had been torn apart

258  
00:11:25,759 --> 00:11:23,550  
and as she passed through the wall

259  
00:11:27,470 --> 00:11:25,769  
through some kind of barrier at this

260  
00:11:31,190 --> 00:11:27,480  
point she finds herself standing in a

261  
00:11:32,960 --> 00:11:31,200  
structure kind of domed structure along

262  
00:11:35,360 --> 00:11:32,970  
with there are a number of beings very

263  
00:11:38,240 --> 00:11:35,370

tall human-like beings that are having a

264

00:11:40,069 --> 00:11:38,250

meeting now this meeting is quite us

265

00:11:41,090 --> 00:11:40,079

quite a strange one because they're

266

00:11:42,620 --> 00:11:41,100

talking about things they're going to

267

00:11:45,410 --> 00:11:42,630

happen on this planet things that are

268

00:11:47,329 --> 00:11:45,420

happening on this planet things that we

269

00:11:48,920 --> 00:11:47,339

might remind me a lot of the early

270

00:11:52,250 --> 00:11:48,930

prophecy years in ancient Egyptian

271

00:11:53,960 --> 00:11:52,260

prophecies and whatnot so in Dani

272

00:11:55,970 --> 00:11:53,970

studies I sort of come back out of it

273

00:11:57,650 --> 00:11:55,980

and I our student achievement without

274

00:11:59,300 --> 00:11:57,660

having any strange experience is she

275

00:12:01,819 --> 00:11:59,310

kind of filled me in on you know what

276

00:12:03,530 --> 00:12:01,829

she'd say musicals I always also look

277

00:12:07,180 --> 00:12:03,540

give it up well and being unconscious I

278

00:12:09,500 --> 00:12:07,190

did hear a mumbling you know sleep

279

00:12:11,810 --> 00:12:09,510

mumbling away something you know about

280

00:12:14,210 --> 00:12:11,820

this conversation so I've got parts of

281

00:12:17,420 --> 00:12:14,220

it but if you feel being on you know the

282

00:12:19,519 --> 00:12:17,430

rest of it and so at that point we

283

00:12:22,400 --> 00:12:19,529

understood something very strange she

284

00:12:24,650 --> 00:12:22,410

does not see going on and these beings

285

00:12:27,800 --> 00:12:24,660

were clearly not for the human some of

286

00:12:32,630 --> 00:12:27,810

them were obviously just two or two from

287

00:12:34,880 --> 00:12:32,640

you know they've joined now it's time to

288

00:12:36,470 --> 00:12:34,890

click a little bit after this began that

289

00:12:38,690 --> 00:12:36,480

you know that when I was in Egypt

290

00:12:41,840 --> 00:12:38,700

I had actually called out to these

291

00:12:43,519 --> 00:12:41,850

beings the scientists thought it so I'm

292

00:12:46,100 --> 00:12:43,529

saying why you have to say why did you

293

00:12:49,690 --> 00:12:46,110

come back so we are now understand that

294

00:12:51,920 --> 00:12:49,700

I'd kind of written invitation was

295

00:12:55,819 --> 00:12:51,930

damaged seeds being their worry doctor

296

00:12:58,460 --> 00:12:55,829

so put up with the discomfort that and

297

00:13:01,010 --> 00:12:58,470

then every few days after that she'll

298

00:13:04,910 --> 00:13:01,020

find herself taken again and June these

299

00:13:06,710 --> 00:13:04,920

other events also joining journeys she'd

300

00:13:08,569 --> 00:13:06,720

find herself not in this meeting with

301  
00:13:11,750 --> 00:13:08,579  
these beings but instead would be taken

302  
00:13:14,000 --> 00:13:11,760  
back to a Mayan city of Palenque in the

303  
00:13:16,370 --> 00:13:14,010  
seventh century living a second life

304  
00:13:19,790 --> 00:13:16,380  
that because there are as you can gather

305  
00:13:21,840 --> 00:13:19,800  
these experiences she would be in the

306  
00:13:25,350 --> 00:13:21,850  
presence of Lord Pakal if anyone knows

307  
00:13:27,840 --> 00:13:25,360  
erich von daniken and the native cacao

308  
00:13:30,840 --> 00:13:27,850  
sauce we make things in his book Charles

309  
00:13:33,180 --> 00:13:30,850  
the gods he tallies the God on the lid

310  
00:13:36,330 --> 00:13:33,190  
he was the Lord of Palenque seven

311  
00:13:37,800 --> 00:13:36,340  
century and has been over the years many

312  
00:13:39,950 --> 00:13:37,810  
people have suspected that there's an

313  
00:13:46,380 --> 00:13:39,960

alien element to his story

314

00:13:48,270 --> 00:13:46,390

we'll see now during these journeys she

315

00:13:50,640 --> 00:13:48,280

found herself not only in the presence

316

00:13:52,800 --> 00:13:50,650

of what would be hybrids of human

317

00:13:55,500 --> 00:13:52,810

hybrids extremely tall as laws of

318

00:13:57,380 --> 00:13:55,510

Palenque if you want to check this out

319

00:14:00,450 --> 00:13:57,390

yourselves have a look at pictures of

320

00:14:04,140 --> 00:14:00,460

Ivan's highlight images in the temple of

321

00:14:06,480 --> 00:14:04,150

the foliated cross because you'll see

322

00:14:09,450 --> 00:14:06,490

their images of beings who are

323

00:14:11,850 --> 00:14:09,460

incredibly tall being served by very

324

00:14:13,650 --> 00:14:11,860

normal Mayans you're about five foot

325

00:14:16,770 --> 00:14:13,660

tall typically and they're standing on

326

00:14:18,840 --> 00:14:16,780

boxes about your focus is about that

327

00:14:21,300 --> 00:14:18,850

high and you'll see in the imagery that

328

00:14:23,100 --> 00:14:21,310

the lords are still another sort of head

329

00:14:26,400 --> 00:14:23,110

and shoulders above them despite this

330

00:14:28,830 --> 00:14:26,410

and these are abnormally tall you know

331

00:14:30,750 --> 00:14:28,840

this is recognised you can see in the

332

00:14:32,100 --> 00:14:30,760

armor but of course your stories will

333

00:14:33,450 --> 00:14:32,110

tell you well you know they're probably

334

00:14:36,450 --> 00:14:33,460

just using a little bit of artistic

335

00:14:38,040 --> 00:14:36,460

license from the first time the counts

336

00:14:41,250 --> 00:14:38,050

that I have I've said up there if

337

00:14:43,320 --> 00:14:41,260

they're very accurate now underneath the

338

00:14:45,750 --> 00:14:43,330

city there's a whole other thing going

339

00:14:48,210 --> 00:14:45,760

on there's a tunnel system there's

340

00:14:50,070 --> 00:14:48,220

chambers with experiments going on

341

00:14:51,720 --> 00:14:50,080

really strange things happening know

342

00:14:55,170 --> 00:14:51,730

whether you want to take these

343

00:14:58,020 --> 00:14:55,180

experiences is in some way a vision or

344

00:14:59,400 --> 00:14:58,030

is being projected by the beings we

345

00:15:01,400 --> 00:14:59,410

can't say for sure but what we can say

346

00:15:04,700 --> 00:15:01,410

is that Daniel experienced them as

347

00:15:07,320 --> 00:15:04,710

totally immersed you know totally

348

00:15:10,320 --> 00:15:07,330

three-dimensional real vivid experiences

349

00:15:12,210 --> 00:15:10,330

in which she felt that she was there so

350

00:15:14,610 --> 00:15:12,220

that's what I look at is it I can't say

351

00:15:17,820 --> 00:15:14,620

how they happened I can't really say

352

00:15:19,620 --> 00:15:17,830

what the the phenomena is exactly there

353

00:15:21,110 --> 00:15:19,630

are these sometime after all thing and

354

00:15:23,540 --> 00:15:21,120

past life things

355

00:15:25,580 --> 00:15:23,550

they're very hard to say so we can't say

356

00:15:26,960 --> 00:15:25,590

is that some of the things that she

357

00:15:30,920 --> 00:15:26,970

learned there have proven to be accurate

358

00:15:33,530 --> 00:15:30,930

now for example we wrote a book in 2012

359

00:15:35,690 --> 00:15:33,540

for the 2012 rising the lastork in now

360

00:15:37,520 --> 00:15:35,700

in that we described this tunnel system

361

00:15:43,190 --> 00:15:37,530

and that there's water flowing through

362

00:15:45,530 --> 00:15:43,200

it other elements strangers in 2014

363

00:15:47,420 --> 00:15:45,540

a ground-penetrating radar survey was

364

00:15:48,530 --> 00:15:47,430

done a collective and they found it at

365

00:15:51,680 --> 00:15:48,540

the front of the tent with inscriptions

366

00:15:53,960 --> 00:15:51,690

which is the towels main temple there is

367

00:15:55,490 --> 00:15:53,970

a network of nine channels that radiates

368

00:15:57,250 --> 00:15:55,500

out underneath the ground there's these

369

00:15:59,840 --> 00:15:57,260

shows of water in these tunnel systems

370

00:16:01,220 --> 00:15:59,850

which were unknown to that point now

371

00:16:04,130 --> 00:16:01,230

they wouldn't know whichever house

372

00:16:05,810 --> 00:16:04,140

opposite but not to us on top of that

373

00:16:07,670 --> 00:16:05,820

there was some other people down there

374

00:16:09,650 --> 00:16:07,680

and they were not normal people because

375

00:16:11,840 --> 00:16:09,660

she noticed that part in their being

376

00:16:13,640 --> 00:16:11,850

he's putting in hybrids

377

00:16:16,610 --> 00:16:13,650

it was strange enough they're very tall

378

00:16:18,770 --> 00:16:16,620

very hard job very strong unlike the

379

00:16:23,540 --> 00:16:18,780

people by humans that they were also

380

00:16:25,460 --> 00:16:23,550

torn grain long-headed large you know it

381

00:16:28,130 --> 00:16:25,470

beings down there which now today we've

382

00:16:31,400 --> 00:16:28,140

known as the tool rays they seem to be

383

00:16:32,390 --> 00:16:31,410

helped by another race of short rays and

384

00:16:34,670 --> 00:16:32,400

these are they were doing down there

385

00:16:36,770 --> 00:16:34,680

were very very thick there was

386

00:16:38,480 --> 00:16:36,780

experiments being done on on the local

387

00:16:41,060 --> 00:16:38,490

people there were children being taken

388

00:16:43,490 --> 00:16:41,070

down there they were harvesting cells

389

00:16:46,100 --> 00:16:43,500

seems to be some skin cells that they

390

00:16:48,650 --> 00:16:46,110

were using to grow artificial skins to

391

00:16:50,030 --> 00:16:48,660

try and blend in in some way now in our

392

00:16:52,190 --> 00:16:50,040

opinion it is very unlikely they could

393

00:16:54,530 --> 00:16:52,200

ever blend in because they're two and a

394

00:16:56,840 --> 00:16:54,540

half meters tall so it was a strange

395

00:16:58,760 --> 00:16:56,850

project that they're involved in on top

396

00:17:00,680 --> 00:16:58,770

of that there is certainly another area

397

00:17:01,490 --> 00:17:00,690

that she sees in which humans have been

398

00:17:03,080 --> 00:17:01,500

modified

399

00:17:04,730 --> 00:17:03,090

having things put into their brains

400

00:17:05,170 --> 00:17:04,740

which seems to be something to do with

401  
00:17:06,880 --> 00:17:05,180  
make

402  
00:17:10,210 --> 00:17:06,890  
- better warriors there's a kind of an

403  
00:17:12,100 --> 00:17:10,220  
upgrade to create these race off better

404  
00:17:14,370 --> 00:17:12,110  
fighters for some kind of conflict

405  
00:17:16,810 --> 00:17:14,380  
there's obviously suspected to be coming

406  
00:17:18,700 --> 00:17:16,820  
we don't know the ins and outs all that

407  
00:17:21,250 --> 00:17:18,710  
but she's certainly she saw some very

408  
00:17:31,180 --> 00:17:21,260  
very uncomfortable very strange things

409  
00:17:32,170 --> 00:17:31,190  
in these experiences now whilst I was in

410  
00:17:34,990 --> 00:17:32,180  
Ecuador there were some other things

411  
00:17:36,670 --> 00:17:35,000  
that came up that were rather bizarre

412  
00:17:39,100 --> 00:17:36,680  
one of them is that I became involved

413  
00:17:42,550 --> 00:17:39,110

with a group of people that had recently

414

00:17:45,220 --> 00:17:42,560

discovered a lost city in the Indians of

415

00:17:47,260 --> 00:17:45,230

jungles of Ecuador this is an area

416

00:17:49,330 --> 00:17:47,270

called the active axis the yangon axis

417

00:17:51,820 --> 00:17:49,340

is considered to be very much there but

418

00:17:54,130 --> 00:17:51,830

the most as I understand it the most

419

00:17:57,070 --> 00:17:54,140

dangerous jungles in South America it's

420

00:17:58,660 --> 00:17:57,080

famous for the lost treasures of the

421

00:18:01,390 --> 00:17:58,670

Inca which I believed to be hidden

422

00:18:05,040 --> 00:18:01,400

somewhere in this in this region it's

423

00:18:07,300 --> 00:18:05,050

very difficult to enter into swampy

424

00:18:11,050 --> 00:18:07,310

extreme temperatures very cold at night

425

00:18:12,720 --> 00:18:11,060

obviously part of the day it's got drops

426

00:18:15,700 --> 00:18:12,730

that hidden you know there's marshes

427

00:18:18,460 --> 00:18:15,710

mountains not an easy place to go into

428

00:18:21,790 --> 00:18:18,470

but a group of adventurers have recently

429

00:18:23,860 --> 00:18:21,800

returned from Discovery there we can

430

00:18:26,140 --> 00:18:23,870

happen to be a meeting with because of a

431

00:18:28,150 --> 00:18:26,150

mutual contact a Shaymin that we had to

432

00:18:30,250 --> 00:18:28,160

see about something said well ok you

433

00:18:31,510 --> 00:18:30,260

know can you come along the same day as

434

00:18:32,500 --> 00:18:31,520

some friends of mine something you might

435

00:18:35,230 --> 00:18:32,510

find interesting

436

00:18:37,300 --> 00:18:35,240

turns out they literally just come back

437

00:18:40,060 --> 00:18:37,310

they told me that they believed it was a

438

00:18:43,150 --> 00:18:40,070

lost city of giants we've got my

439

00:18:45,700 --> 00:18:43,160

attention you know anything strange

440

00:18:47,710 --> 00:18:45,710

so since the ball game you know let's

441

00:18:48,850 --> 00:18:47,720

chose people about it so they filled me

442

00:18:51,580 --> 00:18:48,860

in they said that they'd about join

443

00:18:53,320 --> 00:18:51,590

hammers all sorts of strange artifacts

444

00:18:55,450 --> 00:18:53,330

that didn't match any denouement College

445

00:18:57,130 --> 00:18:55,460

respect at all nobody's supposed to live

446

00:19:00,730 --> 00:18:57,140

in the accurate distance again states

447

00:19:03,190 --> 00:19:00,740

very difficult territory I arranged a

448

00:19:04,870 --> 00:19:03,200

later day to go in the first I tried to

449

00:19:07,760 --> 00:19:04,880

work with the Ecuadorian government

450

00:19:11,180 --> 00:19:07,770

I got involved with them Danijela

451  
00:19:13,490 --> 00:19:11,190  
he has a relative who is a senior in the

452  
00:19:16,400 --> 00:19:13,500  
archaeology networks that in the

453  
00:19:19,940 --> 00:19:16,410  
military he - to arrange a meeting who

454  
00:19:22,100 --> 00:19:19,950  
picked up by the Ecuadorian police taken

455  
00:19:22,840 --> 00:19:22,110  
to a meeting in their main offices in

456  
00:19:25,640 --> 00:19:22,850  
Quito

457  
00:19:27,260 --> 00:19:25,650  
what is experience all sorts of strange

458  
00:19:29,300 --> 00:19:27,270  
things in their artifacts some whatnot

459  
00:19:32,480 --> 00:19:29,310  
some of them looking and friendly like

460  
00:19:34,490 --> 00:19:32,490  
Egyptian headdresses this snake cook

461  
00:19:36,860 --> 00:19:34,500  
that's all this these are indigenous

462  
00:19:38,090 --> 00:19:36,870  
artwork use immediately you know if

463  
00:19:40,370 --> 00:19:38,100

you've got the eyes to see you can see

464

00:19:42,950 --> 00:19:40,380

that there's a strange link between

465

00:19:46,460 --> 00:19:42,960

ancient Egypt the Ecuadorian ancient

466

00:19:48,020 --> 00:19:46,470

cultures and during this meeting they

467

00:19:49,430 --> 00:19:48,030

agreed that it was definitely a science

468

00:19:50,900 --> 00:19:49,440

of interest that there was something

469

00:19:54,140 --> 00:19:50,910

special yeah if you go onto the next

470

00:19:56,300 --> 00:19:54,150

slide you'll see that's myself about

471

00:19:58,130 --> 00:19:56,310

that this is basically an enormous wall

472

00:20:01,640 --> 00:19:58,140

of structure the sound in the middle of

473

00:20:03,950 --> 00:20:01,650

nowhere in the jungles huge blocks

474

00:20:05,840 --> 00:20:03,960

rather like those will see in Peru and

475

00:20:08,540 --> 00:20:05,850

some of the sites there these polygons

476

00:20:10,340 --> 00:20:08,550

or you know megalithic blocks it's a

477

00:20:13,330 --> 00:20:10,350

pretty speaking for comment what did

478

00:20:18,290 --> 00:20:13,340

that with that but no could slide down

479

00:20:20,240 --> 00:20:18,300

80 meters up at that point sees the way

480

00:20:23,510 --> 00:20:20,250

it's more bushy in the background there

481

00:20:26,200 --> 00:20:23,520

we went into that area and cleared and

482

00:20:28,850 --> 00:20:26,210

if you go to the next slide you'll see

483

00:20:31,640 --> 00:20:28,860

by this you see these ones these blobs -

484

00:20:32,570 --> 00:20:31,650

lastest is very angular - you're not

485

00:20:34,400 --> 00:20:32,580

natural

486

00:20:37,400 --> 00:20:34,410

now there's continued all the way up to

487

00:20:38,960 --> 00:20:37,410

the top of this structure like that some

488

00:20:41,340 --> 00:20:38,970

of the more weathered as you can see the

489

00:20:43,769 --> 00:20:41,350

next row they're the range of

490

00:20:46,950 --> 00:20:43,779

whether these are retained that clear

491

00:20:48,779 --> 00:20:46,960

right ankle and applause now a patron

492

00:20:50,639 --> 00:20:48,789

government sent our team to this site

493

00:20:55,259 --> 00:20:50,649

and they decided that there was nothing

494

00:20:58,499 --> 00:20:55,269

there strange because Nature doesn't cut

495

00:21:01,590 --> 00:20:58,509

by hand blocks like that in place and

496

00:21:02,850 --> 00:21:01,600

there's even a cement it's hard to see

497

00:21:04,649 --> 00:21:02,860

them but they just cement between the

498

00:21:06,690 --> 00:21:04,659

box underneath you see that left-hand

499

00:21:08,430 --> 00:21:06,700

corner you see that that material it's

500

00:21:10,049 --> 00:21:08,440

actually kind of a mortar it's also the

501  
00:21:12,060 --> 00:21:10,059  
tweets with the other blocks and you can

502  
00:21:20,159 --> 00:21:12,070  
break it off and rolling your fingers it

503  
00:21:23,310 --> 00:21:20,169  
says it's like a blue colored putty very

504  
00:21:24,450 --> 00:21:23,320  
strange they said well there's nothing

505  
00:21:28,470 --> 00:21:24,460  
there you know we can find out of things

506  
00:21:32,060 --> 00:21:28,480  
forget about it that time I didn't talk

507  
00:21:34,940 --> 00:21:32,070  
the matter because I know the structure

508  
00:21:37,919 --> 00:21:34,950  
so this led to me being involved with

509  
00:21:40,560 --> 00:21:37,929  
the Science Channel stay contacted me

510  
00:21:44,220 --> 00:21:40,570  
they saw some of my coverage of this is

511  
00:21:45,720 --> 00:21:44,230  
negative this video made you want to do

512  
00:21:48,539 --> 00:21:45,730  
something with us maybe fill the site

513  
00:21:49,440 --> 00:21:48,549

you know do a project then I said well

514

00:21:50,850 --> 00:21:49,450

yeah sure

515

00:21:52,470 --> 00:21:50,860

in the anything quite perhaps they

516

00:21:54,240 --> 00:21:52,480

decided was too hard to get to so they

517

00:21:56,639 --> 00:21:54,250

took me not instead to Georgia to the

518

00:21:59,159 --> 00:21:56,649

Georgian Republic and out there we have

519

00:22:01,919 --> 00:21:59,169

the Caucasus Mountains looking for join

520

00:22:03,840 --> 00:22:01,929

us or join Bones which is quite

521

00:22:05,460 --> 00:22:03,850

experienced as well again maybe live

522

00:22:07,529 --> 00:22:05,470

suddenly the middle of nowhere the

523

00:22:09,420 --> 00:22:07,539

forest up and talking Mountain and

524

00:22:12,450 --> 00:22:09,430

everything was choice

525

00:22:14,040 --> 00:22:12,460

files anyway excited up hiking up into

526

00:22:16,220 --> 00:22:14,050

the middle though we're finding it

527

00:22:18,720 --> 00:22:16,230

strange you have structures and then

528

00:22:20,220 --> 00:22:18,730

reducer suburban living place there

529

00:22:23,250 --> 00:22:20,230

wasn't the day for the birds

530

00:22:24,840 --> 00:22:23,260

or we did see instead was a second site

531

00:22:27,260 --> 00:22:24,850

for some of the interest of this but

532

00:22:30,840 --> 00:22:27,270

there was a second site near to the main

533

00:22:33,630 --> 00:22:30,850

complex event to the collapse temple and

534

00:22:35,880 --> 00:22:33,640

there there was a material the likes of

535

00:22:37,920 --> 00:22:35,890

which I've never seen there's a concrete

536

00:22:40,440 --> 00:22:37,930

that seems we made a pearl they look

537

00:22:42,840 --> 00:22:40,450

like human natural stones they look like

538

00:22:44,190 --> 00:22:42,850

the bones somehow fused the stones

539

00:22:50,300 --> 00:22:44,200

together since then they've been a

540

00:22:55,830 --> 00:22:53,640

bizarre nobody knew what he was it

541

00:22:58,830 --> 00:22:55,840

clearly wasn't connected to the temple

542

00:23:01,650 --> 00:22:58,840

context grab something far away my

543

00:23:03,450 --> 00:23:01,660

feeling is it's something to develop

544

00:23:06,450 --> 00:23:03,460

ancient horse culture that had

545

00:23:08,820 --> 00:23:06,460

technologies we can't yet understand or

546

00:23:10,920 --> 00:23:08,830

it's aliens or something you know very

547

00:23:13,080 --> 00:23:10,930

strange I'll be honest le Marzulli if

548

00:23:15,480 --> 00:23:13,090

ever notices work about the death of

549

00:23:18,420 --> 00:23:15,490

their mother well that he says that that

550

00:23:20,280 --> 00:23:18,430

area is Nathalie was sent for you know

551  
00:23:23,670 --> 00:23:20,290  
he suspects that we are in some kind of

552  
00:23:25,200 --> 00:23:23,680  
the remnants of some ethylene complex I

553  
00:23:27,420 --> 00:23:25,210  
mean I don't know what I saw was so

554  
00:23:28,980 --> 00:23:27,430  
strange that I'd be inclined to say

555  
00:23:30,720 --> 00:23:28,990  
there you know perhaps he's right I

556  
00:23:32,330 --> 00:23:30,730  
don't know there was such a thing as

557  
00:23:34,950 --> 00:23:32,340  
Nephilim joints

558  
00:23:39,030 --> 00:23:34,960  
bogum concrete structures makes human

559  
00:23:43,490 --> 00:23:39,040  
bones pretty frightening so then after

560  
00:23:51,330 --> 00:23:46,410  
character on weeds the research into the

561  
00:23:54,480 --> 00:23:51,340  
complex and with these people the skull

562  
00:23:56,580 --> 00:23:54,490  
is a is one of those Springs with people

563  
00:23:58,860 --> 00:23:56,590

live down in Brazil and with other

564

00:24:02,550 --> 00:23:58,870

strangers they are often tied are you

565

00:24:03,800 --> 00:24:02,560

related to often aboriginals now why are

566

00:24:06,810 --> 00:24:03,810

originals down

567

00:24:08,370 --> 00:24:06,820

whatever this is 10,000 years old with

568

00:24:10,110 --> 00:24:08,380

the end of the goat sounds and people's

569

00:24:12,510 --> 00:24:10,120

prospects around the ground inside of

570

00:24:14,340 --> 00:24:12,520

the rise of the sea levels procedures of

571

00:24:15,660 --> 00:24:14,350

the collapse to disappear but there's

572

00:24:18,660 --> 00:24:15,670

evidence that they were the Americas

573

00:24:20,250 --> 00:24:18,670

forty to fifty thousand years ago long

574

00:24:23,910 --> 00:24:20,260

before this of those to be in anyone in

575

00:24:26,250 --> 00:24:23,920

the country Russia so so it's that me

576

00:24:28,860 --> 00:24:26,260

ones who are really a deep deep dig into

577

00:24:31,440 --> 00:24:28,870

what is the true origins of a future

578

00:24:33,630 --> 00:24:31,450

where we come from Africa you know how

579

00:24:36,870 --> 00:24:33,640

can it be the aboriginals have ended up

580

00:24:38,760 --> 00:24:36,880

in South America you know fifty thousand

581

00:24:40,920 --> 00:24:38,770

years ago it's supposedly what was

582

00:24:41,640 --> 00:24:40,930

humans of any sort of starting Africa

583

00:24:43,710 --> 00:24:41,650

into Eurasia

584

00:24:46,530 --> 00:24:43,720

throughout that time it doesn't really

585

00:24:50,090 --> 00:24:46,540

add up so I didn't really dig into this

586

00:24:54,000 --> 00:24:50,100

and that led to if it's the next slide

587

00:24:57,300 --> 00:24:54,010

now then to two books this one engineers

588

00:25:00,120 --> 00:24:57,310

Australia which is also be the Steven

589

00:25:05,760 --> 00:25:00,130

ever stronger futures based on Australia

590

00:25:07,590 --> 00:25:05,770

and the attractive theory of evolution

591

00:25:10,710 --> 00:25:07,600

now they're obviously very different the

592

00:25:13,260 --> 00:25:10,720

first of those is collaboration issue

593

00:25:15,960 --> 00:25:13,270

not only was that Australia was the

594

00:25:18,900 --> 00:25:15,970

place where he was began but we're also

595

00:25:21,060 --> 00:25:18,910

tackling that to some degree a story of

596

00:25:25,260 --> 00:25:21,070

alien involvement this second book

597

00:25:26,520 --> 00:25:25,270

really is more comparable you know it

598

00:25:29,700 --> 00:25:26,530

doesn't talk about aliens

599

00:25:32,280 --> 00:25:29,710

it just goes fully into this lost

600

00:25:35,820 --> 00:25:32,290

story of human origins that we don't

601  
00:25:37,950 --> 00:25:35,830  
come out of Africa that we come out of

602  
00:25:40,380 --> 00:25:37,960  
Australia and have a lot we go I think

603  
00:25:41,610 --> 00:25:40,390  
how does that I'm not saying that it's

604  
00:25:43,860 --> 00:25:41,620  
not necessary that if you go right back

605  
00:25:46,140 --> 00:25:43,870  
to the early hominins maybe wouldn't be

606  
00:25:48,300 --> 00:25:46,150  
in Africa when you get to homo sapiens

607  
00:25:50,680 --> 00:25:48,310  
absolutely you know say no the evidence

608  
00:25:53,510 --> 00:25:50,690  
that I found through the academic pain

609  
00:25:55,900 --> 00:25:53,520  
this is not me going out saying I don't

610  
00:25:58,370 --> 00:25:55,910  
take for myself a lot of a lot of

611  
00:25:59,990 --> 00:25:58,380  
pseudo-sciences or potentially

612  
00:26:01,820 --> 00:26:00,000  
liabilities you know every academic

613  
00:26:04,280 --> 00:26:01,830

papers what I found was that there was a

614

00:26:08,540 --> 00:26:04,290

trail of anomalies and these nobodies

615

00:26:10,580 --> 00:26:08,550

unfortunately are being genuine or well

616

00:26:12,070 --> 00:26:10,590

just not picked up if you put them

617

00:26:15,170 --> 00:26:12,080

together you start finding that it

618

00:26:19,070 --> 00:26:15,180

actually supports that there was a

619

00:26:21,920 --> 00:26:19,080

presence of early humans in Indonesia I

620

00:26:23,420 --> 00:26:21,930

mean those are in areas of Australia we

621

00:26:25,160 --> 00:26:23,430

now know that only follows the news

622

00:26:26,690 --> 00:26:25,170

we'll see that just recently they've

623

00:26:28,430 --> 00:26:26,700

been discovering more hominids and the

624

00:26:30,230 --> 00:26:28,440

Philippines they've realized that

625

00:26:33,200 --> 00:26:30,240

Indonesia their hominins there for at

626

00:26:35,860 --> 00:26:33,210

least a million years ago some of the

627

00:26:39,200 --> 00:26:35,870

islands that they found what see these

628

00:26:45,830 --> 00:26:39,210

very small humans the Flores they found

629

00:26:48,290 --> 00:26:45,840

these of afarensis early human what we

630

00:26:50,630 --> 00:26:48,300

that is is that viewers were right there

631

00:26:52,100 --> 00:26:50,640

in reaching australia million years ago

632

00:26:54,110 --> 00:26:52,110

now if you've made your way out from

633

00:26:56,720 --> 00:26:54,120

mainland Asia and you've entered these

634

00:26:59,120 --> 00:26:56,730

islands across the voices line which is

635

00:27:01,640 --> 00:26:59,130

simply the absolute barrier large

636

00:27:03,080 --> 00:27:01,650

mammals between Australia and Asia once

637

00:27:05,780 --> 00:27:03,090

you've crossed that this decision to be

638

00:27:07,850 --> 00:27:05,790

no reason why you can reach Australia so

639

00:27:09,860 --> 00:27:07,860

if you've got that same time in 2000

640

00:27:11,570 --> 00:27:09,870

years ago you're going to be in

641

00:27:15,140 --> 00:27:11,580

Australia you know within a few thousand

642

00:27:17,060 --> 00:27:15,150

years so this point we have the human

643

00:27:18,200 --> 00:27:17,070

presence there so that was a key thing

644

00:27:19,430 --> 00:27:18,210

to me to establish

645

00:27:22,060 --> 00:27:19,440

although I know the Canadians in this

646

00:27:25,520 --> 00:27:22,070

book you know it is associated with

647

00:27:28,160 --> 00:27:25,530

because in a way you need a population

648

00:27:30,470 --> 00:27:28,170

of hominids in this region to make sense

649

00:27:34,240 --> 00:27:30,480

of what comes afterwards so if you go to

650

00:27:39,920 --> 00:27:36,800

whilst we were doing the book

651  
00:27:41,960 --> 00:27:39,930  
maintenance in Australian history they

652  
00:27:45,760 --> 00:27:41,970  
connected us with this lady Valerie

653  
00:27:48,669 --> 00:27:45,770  
Barrow who is very well known

654  
00:27:51,010 --> 00:27:48,679  
and regression therapists every New

655  
00:27:53,019 --> 00:27:51,020  
South Wales Australia no I didn't know

656  
00:27:55,570 --> 00:27:53,029  
that she had a book that came out 2002

657  
00:27:57,010 --> 00:27:55,580  
for Alan Turing about when the first

658  
00:27:59,409 --> 00:27:57,020  
night and sisters were created

659  
00:28:01,210 --> 00:27:59,419  
now as we're finishing our book they so

660  
00:28:02,220 --> 00:28:01,220  
then they know about it they kept it

661  
00:28:05,409 --> 00:28:02,230  
around us but they didn't want to

662  
00:28:07,240 --> 00:28:05,419  
contaminate this perspective that the

663  
00:28:10,870 --> 00:28:07,250

other and ourselves with our contact

664

00:28:14,710 --> 00:28:10,880

experiences what we would call contact

665

00:28:16,240 --> 00:28:14,720

idea how they explain themselves we

666

00:28:19,360 --> 00:28:16,250

didn't know that they already had had

667

00:28:21,130 --> 00:28:19,370

contact who had some similar stories to

668

00:28:24,100 --> 00:28:21,140

tell about a group that also had a

669

00:28:25,899 --> 00:28:24,110

income from their communities and which

670

00:28:33,820 --> 00:28:25,909

detailed their interactions with early

671

00:28:35,769 --> 00:28:33,830

humans now was in 1994 she was living in

672

00:28:37,840 --> 00:28:35,779

a house or altering the garbages

673

00:28:40,029 --> 00:28:37,850

the Aboriginal word for is in the dream

674

00:28:42,940 --> 00:28:40,039

time the beginning of things the time

675

00:28:45,549 --> 00:28:42,950

before time which a very strange visitor

676

00:28:48,039 --> 00:28:45,559

turn up its ladies with change

677

00:28:50,380 --> 00:28:48,049

synchronicities I feel that I'm meant to

678

00:28:52,299 --> 00:28:50,390

be here and then you are supposed to

679

00:28:55,180 --> 00:28:52,309

look after this part of fact that I have

680

00:28:57,190 --> 00:28:55,190

whilst I go and spend the treatment she

681

00:28:58,779 --> 00:28:57,200

was very unwell I'm trying to get it

682

00:29:00,909 --> 00:28:58,789

back to leverage more than traditional

683

00:29:02,350 --> 00:29:00,919

custodians will you please look after

684

00:29:04,960 --> 00:29:02,360

him till I'm able to return and

685

00:29:07,810 --> 00:29:04,970

collective Valerie was kind hearted

686

00:29:10,029 --> 00:29:07,820

about it and being involved in slightly

687

00:29:12,639 --> 00:29:10,039

unusual things herself she imitated as

688

00:29:13,090 --> 00:29:12,649

being too odd so she said okay fine you

689

00:29:15,490 --> 00:29:13,100

know

690

00:29:17,409 --> 00:29:15,500

I'll look after him received an object

691

00:29:19,840 --> 00:29:17,419

that was wrapped up in paper bark and

692

00:29:22,360 --> 00:29:19,850

inside a little bag she understood not

693

00:29:24,220 --> 00:29:22,370

to open this so she could shrink a stone

694

00:29:26,230 --> 00:29:24,230

shrink the stones are sacred to the

695

00:29:27,909 --> 00:29:26,240

Aboriginal people that terminates at

696

00:29:29,500 --> 00:29:27,919

different places and the normal radical

697

00:29:31,480 --> 00:29:29,510

groups happened then those that do Mecca

698

00:29:34,990 --> 00:29:31,490

City to be extremely sacred they are

699

00:29:37,029 --> 00:29:35,000

only ever held by elders secretly and is

700

00:29:38,740 --> 00:29:37,039

highly initiated elders and clever men

701  
00:29:40,870 --> 00:29:38,750  
except you know people that we would

702  
00:29:42,100 --> 00:29:40,880  
call Satan is clever men they

703  
00:29:43,779 --> 00:29:42,110  
occasionally we bring them out of

704  
00:29:46,570 --> 00:29:43,789  
ceremonies you know nobody about it

705  
00:29:48,020 --> 00:29:46,580  
rests on there hidden away in caves now

706  
00:29:50,240 --> 00:29:48,030  
this one it had turned

707  
00:29:51,080 --> 00:29:50,250  
because the century before as I

708  
00:29:54,050 --> 00:29:51,090  
suspected

709  
00:29:55,580 --> 00:29:54,060  
an Afghan trader is cat would had ended

710  
00:29:58,610 --> 00:29:55,590  
up in a cave site dying in the desert

711  
00:30:06,720 --> 00:29:58,620  
and they'd stumbled on this artifact

712  
00:30:11,490 --> 00:30:09,930  
establish awards earth funnily enough in

713  
00:30:13,830 --> 00:30:11,500

Phil's unit backstory for charity

714

00:30:16,230 --> 00:30:13,840

because Jerry then insisted of it he

715

00:30:19,070 --> 00:30:16,240

remembers having had dreams for his life

716

00:30:22,110 --> 00:30:19,080

for being on a huge white special ship

717

00:30:24,690 --> 00:30:22,120

these alerts coming he now understands

718

00:30:27,300 --> 00:30:24,700

that he piloted the craft the crashed

719

00:30:31,290 --> 00:30:27,310

into the water and he has to die in the

720

00:30:33,060 --> 00:30:31,300

water so he filled in events to hit the

721

00:30:34,320 --> 00:30:33,070

door even going not so you find this but

722

00:30:36,090 --> 00:30:34,330

some of the other people on this tour

723

00:30:38,190 --> 00:30:36,100

they start to realize that they had

724

00:30:39,810 --> 00:30:38,200

their own dreams of experiences in their

725

00:30:42,120 --> 00:30:39,820

lives that suggests that they had a past

726

00:30:44,430 --> 00:30:42,130

life connection no boundaries a past

727

00:30:46,440 --> 00:30:44,440

life regression therapist and so among

728

00:30:47,850 --> 00:30:46,450

some of her clients after this event she

729

00:30:50,280 --> 00:30:47,860

starts to find other people are coming

730

00:30:52,620 --> 00:30:50,290

up with no tickets no business seems to

731

00:30:55,590 --> 00:30:52,630

connect to this story and funny enough

732

00:30:57,720 --> 00:30:55,600

the being out to Inca who seem to having

733

00:30:59,250 --> 00:30:57,730

this stone says to her look no one need

734

00:31:01,070 --> 00:30:59,260

quite a lot of people and they can

735

00:31:03,300 --> 00:31:01,080

invalidate many things I'm telling you

736

00:31:06,390 --> 00:31:03,310

knowledge Commons of thinking was she

737

00:31:09,090 --> 00:31:06,400

mad about 30 or so people remembered

738

00:31:11,780 --> 00:31:09,100

even practice in school as far as I know

739

00:31:18,600 --> 00:31:11,790

that's that the largest ever you know

740

00:31:19,710 --> 00:31:18,610

reincarnation map as well as some of

741

00:31:21,240 --> 00:31:19,720

these people you know you know Toby

742

00:31:23,460 --> 00:31:21,250

rather some appliance that comes to a

743

00:31:25,500 --> 00:31:23,470

house she has one there's somebody in

744

00:31:27,120 --> 00:31:25,510

the car Bob just comes up to it says you

745

00:31:29,820 --> 00:31:27,130

know I mean these doing to you come to

746

00:31:32,100 --> 00:31:29,830

seats in the car - drums stop telling

747

00:31:34,380 --> 00:31:32,110

you don't want to you know what so

748

00:31:37,530 --> 00:31:34,390

absolutely bizarre stuff happened around

749

00:31:40,590 --> 00:31:37,540

her I was really naive students

750

00:31:43,230 --> 00:31:40,600

restoring system after the main fraud

751  
00:31:45,720 --> 00:31:43,240  
blows up and these few survives to

752  
00:31:48,060 --> 00:31:45,730  
travel there they are dying if they

753  
00:31:50,910 --> 00:31:48,070  
can't raise an idea their plan was to

754  
00:31:52,590 --> 00:31:50,920  
genetically modify themselves in the

755  
00:31:55,410 --> 00:31:52,600  
mothership so they can live on this

756  
00:31:57,120 --> 00:31:55,420  
planet they want well-suited they're not

757  
00:31:58,980 --> 00:31:57,130  
finishing that process and so

758  
00:32:01,170 --> 00:31:58,990  
unfortunately the Sun is too powerful

759  
00:32:03,780 --> 00:32:01,180  
for them the microbes are the wards are

760  
00:32:04,860 --> 00:32:03,790  
killing them this hostile creatures

761  
00:32:07,560 --> 00:32:04,870  
there's all sorts of things that they

762  
00:32:08,550 --> 00:32:07,570  
are not able to deal with with a little

763  
00:32:11,130 --> 00:32:08,560

bit of technology they

764

00:32:12,960 --> 00:32:11,140

we're doing these small crafts instead

765

00:32:17,430 --> 00:32:12,970

they decide that what they can do is

766

00:32:19,920 --> 00:32:17,440

begin modification of the highest life

767

00:32:22,140 --> 00:32:19,930

on the planet which is an early hominid

768

00:32:24,330 --> 00:32:22,150

and that they can utilize that they do

769

00:32:27,360 --> 00:32:24,340

have their technology to create a kind

770

00:32:29,400 --> 00:32:27,370

of hybrid which they feel will do two

771

00:32:31,860 --> 00:32:29,410

things for them one will take this

772

00:32:34,130 --> 00:32:31,870

planet onto a path which they felt was

773

00:32:38,420 --> 00:32:34,140

preferred which is to bring it more into

774

00:32:42,540 --> 00:32:38,430

the Alliance this more benevolent

775

00:32:44,970 --> 00:32:42,550

slightly more let's say I guess more

776

00:32:46,860 --> 00:32:44,980

positive inclined grouping of

777

00:32:48,180 --> 00:32:46,870

extraterrestrials as opposed to those

778

00:32:50,400 --> 00:32:48,190

that we control on the planet

779

00:32:53,700 --> 00:32:50,410

requirements of service to self-

780

00:32:55,380 --> 00:32:53,710

beings so they feel this on the once I

781

00:32:56,730 --> 00:32:55,390

do that the second thing is little bit

782

00:33:00,150 --> 00:32:56,740

self-interested it's because they

783

00:33:01,290 --> 00:33:00,160

realize if they can modify it enough and

784

00:33:03,990 --> 00:33:01,300

they can direct their future

785

00:33:05,730 --> 00:33:04,000

incarnations into these beings this is

786

00:33:07,440 --> 00:33:05,740

something that makes that quite strong

787

00:33:10,410 --> 00:33:07,450

name if you look at the Tibetan culture

788

00:33:12,210 --> 00:33:10,420

you'll find the high Lamas although you

789

00:33:14,640 --> 00:33:12,220

say that you know they use specific

790

00:33:15,990 --> 00:33:14,650

techniques meditation techniques where

791

00:33:17,970 --> 00:33:16,000

at the end of their lives they choose

792

00:33:19,560 --> 00:33:17,980

where they're going to go next and then

793

00:33:21,810 --> 00:33:19,570

we choose the circumstances of their

794

00:33:24,540 --> 00:33:21,820

next birth this is a direct incarnations

795

00:33:27,110 --> 00:33:24,550

so this is something that if you spend

796

00:33:29,880 --> 00:33:27,120

incredible amount of time working on

797

00:33:32,010 --> 00:33:29,890

meditations and Tantra that is

798

00:33:34,620 --> 00:33:32,020

considered possible the ladies validated

799

00:33:37,650 --> 00:33:34,630

in Tibetan 6mr do you told you the

800

00:33:40,170 --> 00:33:37,660

person who is reborn is identified by

801  
00:33:42,360 --> 00:33:40,180  
the instructions and then after that it

802  
00:33:44,220 --> 00:33:42,370  
will go to this village they'll go there

803  
00:33:46,710 --> 00:33:44,230  
they look for the circumstances I

804  
00:33:47,950 --> 00:33:46,720  
described the brother would think one

805  
00:33:51,369 --> 00:33:47,960  
could be a rainbow of death

806  
00:33:53,049 --> 00:33:51,379  
they'll be Birds see whatever it is and

807  
00:33:54,999 --> 00:33:53,059  
then they will take onto objects that

808  
00:33:56,859 --> 00:33:55,009  
that person used to oh and they will

809  
00:33:58,600 --> 00:33:56,869  
show those on the table along the

810  
00:34:01,389 --> 00:33:58,610  
mixture of seminar in objects and

811  
00:34:03,279 --> 00:34:01,399  
artifacts and let the tricorders pick

812  
00:34:05,259 --> 00:34:03,289  
them out you know I've seen it's a great

813  
00:34:06,909 --> 00:34:05,269

extraordinary cases where these children

814

00:34:08,619 --> 00:34:06,919

picked out these all yeah that's my

815

00:34:10,329 --> 00:34:08,629

that's my glasses that's my hat that's

816

00:34:11,859 --> 00:34:10,339

quiet and then these kids maybe five

817

00:34:15,339 --> 00:34:11,869

four years old and they will know an

818

00:34:16,930 --> 00:34:15,349

entire there long Buddhist scriptures

819

00:34:19,119 --> 00:34:16,940

all sorts of strange things so we know

820

00:34:20,649 --> 00:34:19,129

that this already happens anyway these

821

00:34:22,869 --> 00:34:20,659

extra vegetables they're better say

822

00:34:25,240 --> 00:34:22,879

they're beyond that and then they're

823

00:34:27,190 --> 00:34:25,250

quite capable of doing this so what

824

00:34:31,149 --> 00:34:27,200

happens next is they begin work they

825

00:34:45,639 --> 00:34:31,159

begin to modify these there's something

826  
00:34:47,139 --> 00:34:45,649  
else happens if we go to the next should

827  
00:34:50,169 --> 00:34:47,149  
be somewhat like that the ship is

828  
00:34:54,490 --> 00:34:50,179  
described as being a crystalline saucer

829  
00:34:56,500 --> 00:34:54,500  
with parts coming out of its line but

830  
00:34:57,329 --> 00:34:56,510  
it's a line drawing which gives you a

831  
00:34:59,620 --> 00:34:57,339  
better

832  
00:35:01,809 --> 00:34:59,630  
that's basically what these people

833  
00:35:05,920 --> 00:35:01,819  
remember from the past lives that this

834  
00:35:07,390 --> 00:35:05,930  
is a source of light craft and he can

835  
00:35:09,640 --> 00:35:07,400  
actually change its shape you can do

836  
00:35:11,049 --> 00:35:09,650  
other faces it's considered to be well

837  
00:35:14,770 --> 00:35:11,059  
the way it's described is actually a

838  
00:35:16,809 --> 00:35:14,780

living crystal they move the ship they

839

00:35:19,329 --> 00:35:16,819

didn't build the ship the ship is grown

840

00:35:21,190 --> 00:35:19,339

from a crystalline matrix and then is

841

00:35:23,289 --> 00:35:21,200

imbued with an artificial intelligence

842

00:35:25,030 --> 00:35:23,299

and the article intelligence inhabits

843

00:35:27,490 --> 00:35:25,040

the entire mainframe with the ship

844

00:35:30,420 --> 00:35:27,500

that's what's the use of silica matrix

845

00:35:33,400 --> 00:35:30,430

it's now just that if you if you go into

846

00:35:38,710 --> 00:35:33,410

the sites basically where a is going

847

00:35:40,240 --> 00:35:38,720

well towards post biological entities

848

00:35:41,650 --> 00:35:40,250

you'll find the description is usually

849

00:35:44,380 --> 00:35:41,660

they will be there considered it they

850

00:35:47,380 --> 00:35:44,390

will be silica based light for us and

851

00:35:49,390 --> 00:35:47,390

the future of AI will be large to the

852

00:35:50,950 --> 00:35:49,400

connect works now this is a credit this

853

00:35:51,940 --> 00:35:50,960

is beyond next generation so what if

854

00:35:54,790 --> 00:35:51,950

this sounds like

855

00:35:56,850 --> 00:35:54,800

new agent of Christal ships heroes no no

856

00:35:59,290 --> 00:35:56,860

no no this is where technology is going

857

00:36:03,280 --> 00:35:59,300

instead of having a computer on board to

858

00:36:04,780 --> 00:36:03,290

share the entire ship is the computer so

859

00:36:08,860 --> 00:36:04,790

mind boggling if you have

860

00:36:11,140 --> 00:36:08,870

kilometer-sized silica craft inhabited

861

00:36:14,440 --> 00:36:11,150

by a computer being there basically with

862

00:36:17,260 --> 00:36:14,450

unbelievable calculation abilities to go

863

00:36:18,670 --> 00:36:17,270

into the next slide as you guys whether

864

00:36:20,110 --> 00:36:18,680

these are Shopp memorizing research it's

865

00:36:21,610 --> 00:36:20,120

because you know either for in a crystal

866

00:36:23,590 --> 00:36:21,620

why would you go to ship our crystal

867

00:36:26,500 --> 00:36:23,600

seem strange you lose think of mental

868

00:36:29,290 --> 00:36:26,510

sources but you understand the needs of

869

00:36:32,070 --> 00:36:29,300

a super high he realized that actually

870

00:36:37,990 --> 00:36:32,080

that's not sufficient at all

871

00:36:41,860 --> 00:36:38,000

now as the craft blew up it formed those

872

00:36:43,420 --> 00:36:41,870

Spears of liquid crystalline space it

873

00:36:56,350 --> 00:36:43,430

was familiar to really put in a vacuum

874

00:36:58,540 --> 00:36:56,360

they take on performance now the middle

875

00:37:01,660 --> 00:36:58,550

be able to see the top of this video so

876

00:37:03,190 --> 00:37:01,670

this is as these taken down and they're

877

00:37:05,980 --> 00:37:03,200

decaying all their of the degree of the

878

00:37:07,870 --> 00:37:05,990

shell it begins to form these button

879

00:37:10,080 --> 00:37:07,880

shapes you see the pregnancy melting in

880

00:37:14,140 --> 00:37:10,090

and it takes on an errand dynamic shape

881

00:37:16,240 --> 00:37:14,150

now these rain down across southern

882

00:37:20,350 --> 00:37:16,250

Australia and indeed

883

00:37:21,550 --> 00:37:20,360

up to central the central desert they're

884

00:37:24,850 --> 00:37:21,560

unique in the his view to play

885

00:37:26,500 --> 00:37:24,860

absolutely you know find textile that

886

00:37:29,440 --> 00:37:26,510

shape anywhere else there's about four

887

00:37:32,140 --> 00:37:29,450

four three tech toys around the world

888

00:37:35,380 --> 00:37:32,150

there's one in America got one in Africa

889

00:37:37,920 --> 00:37:35,390

got another one was the Central Europe

890

00:37:41,390 --> 00:37:37,930

mulled wine and then you have these

891

00:37:44,390 --> 00:37:41,400

Austria high tech types totally unique

892

00:37:46,250 --> 00:37:44,400

five years now they party huge mystery

893

00:37:49,130 --> 00:37:46,260

because but the first families they

894

00:37:50,510 --> 00:37:49,140

found his shame and the geologists and

895

00:37:53,200 --> 00:37:50,520

the chemistry never took the look at me

896

00:37:55,610 --> 00:37:53,210

there's been lots of studies of these

897

00:37:59,120 --> 00:37:55,620

there is a team versus a hundred year

898

00:38:00,530 --> 00:37:59,130

old mystery wash delights just if you

899

00:38:02,180 --> 00:38:00,540

weren't looking for pieces of a

900

00:38:05,750 --> 00:38:02,190

crystalline ship you probably would

901  
00:38:07,610 --> 00:38:05,760  
never stumble on but basically they they

902  
00:38:10,340 --> 00:38:07,620  
couldn't work out how could it be that

903  
00:38:11,990 --> 00:38:10,350  
if there was an impact of an asteroid or

904  
00:38:14,030 --> 00:38:12,000  
comet and you hit our planet

905  
00:38:16,610 --> 00:38:14,040  
how would it froze material all the way

906  
00:38:18,410 --> 00:38:16,620  
back up into space to form these liquid

907  
00:38:20,510 --> 00:38:18,420  
spheres which were then freeze in the

908  
00:38:22,610 --> 00:38:20,520  
back of their space and cut down again

909  
00:38:24,020 --> 00:38:22,620  
it doesn't make sense because as

910  
00:38:25,910 --> 00:38:24,030  
materials broken up

911  
00:38:28,550 --> 00:38:25,920  
passes through the the atmosphere it's

912  
00:38:30,560 --> 00:38:28,560  
not too cool so if it did somehow make

913  
00:38:32,840 --> 00:38:30,570

it all the way back into space in order

914

00:38:34,820 --> 00:38:32,850

to be solid couldn't couldn't form these

915

00:38:38,440 --> 00:38:34,830

different spheres so there was only been

916

00:38:41,810 --> 00:38:38,450

a long long debate over how is this or

917

00:38:44,110 --> 00:38:41,820

as you go beyond the central desert you

918

00:38:46,490 --> 00:38:44,120

hang up in towards northern Australia is

919

00:38:59,930 --> 00:38:46,500

that these kind of stop and you'll get

920

00:39:03,430 --> 00:38:59,940

other types of Australia so anyway these

921

00:39:06,020 --> 00:39:03,440

various shapes is various types of this

922

00:39:08,090 --> 00:39:06,030

most mark buttons so what you have

923

00:39:11,660 --> 00:39:08,100

instead is the imagine that you've got

924

00:39:14,330 --> 00:39:11,670

wreckage coming down as the big pieces

925

00:39:16,790 --> 00:39:14,340

break the atmosphere they no longer

926  
00:39:17,720 --> 00:39:16,800  
obviously going to form these liquids in

927  
00:39:19,010 --> 00:39:17,730  
space because they've already come down

928  
00:39:21,470 --> 00:39:19,020  
to it but they still breaking apart

929  
00:39:24,050 --> 00:39:21,480  
burning up and melting as they form

930  
00:39:26,360 --> 00:39:24,060  
different shapes like sears dumbbell

931  
00:39:27,980 --> 00:39:26,370  
shape round shapes so there's a pattern

932  
00:39:29,570 --> 00:39:27,990  
we know that the craft was coming down

933  
00:39:32,600 --> 00:39:29,580  
from the southern Australia Antarctica

934  
00:39:34,010 --> 00:39:32,610  
way breaks deserved it breaks into our

935  
00:39:34,550 --> 00:39:34,020  
atmosphere somewhere in Central

936  
00:39:36,710 --> 00:39:34,560  
Australia

937  
00:39:39,590 --> 00:39:36,720  
carries on down large pieces of

938  
00:39:41,960 --> 00:39:39,600

exploding in Air bursts across all

939

00:39:44,960 --> 00:39:41,970

around to Southeast Asia and there's an

940

00:39:47,720 --> 00:39:44,970

allows no unknown technology which is

941

00:39:49,400 --> 00:39:47,730

same material but it's on the gravity

942

00:39:53,750 --> 00:39:49,410

simulators it's very you know that's the

943

00:39:56,270 --> 00:39:53,760

end of the path of this craft and then

944

00:39:58,000 --> 00:39:56,280

with the basic deeper analysis of every

945

00:40:00,260 --> 00:39:58,010

fallacies it's made out of strange

946

00:40:03,920 --> 00:40:00,270

strange compounds in there it's got

947

00:40:07,910 --> 00:40:03,930

anomalous isotopes magnesium

948

00:40:10,190 --> 00:40:07,920

there's Jewish silica it's like 80%

949

00:40:13,579 --> 00:40:10,200

silica afterwards go stuff's about 60

950

00:40:16,160 --> 00:40:13,589

percent silica it's also silica from LG

951  
00:40:18,470 --> 00:40:16,170  
quartz and from what I understand very

952  
00:40:20,990 --> 00:40:18,480  
rarely forms any any large amount in

953  
00:40:23,059 --> 00:40:21,000  
space with your fighters silica it's

954  
00:40:26,839 --> 00:40:23,069  
it's fine it's melted quartz there was

955  
00:40:29,960 --> 00:40:26,849  
another anomalies also the dating was

956  
00:40:32,210 --> 00:40:29,970  
important because it been dated to 780

957  
00:40:34,849 --> 00:40:32,220  
thousand years ago so when I was out

958  
00:40:36,470 --> 00:40:34,859  
looking for this material I know in the

959  
00:40:40,040 --> 00:40:36,480  
description fracturing go in the book

960  
00:40:42,950 --> 00:40:40,050  
that there is reports silicon craft

961  
00:40:44,510 --> 00:40:42,960  
that's exploded that is huge as I'm

962  
00:40:46,670 --> 00:40:44,520  
looking or what we call the geological

963  
00:40:48,829 --> 00:40:46,680

records the wall mesh with this is there

964

00:40:51,980 --> 00:40:48,839

anything and in fact of course there is

965

00:40:54,109 --> 00:40:51,990

we have this anomalous melted silica

966

00:40:55,819 --> 00:40:54,119

does rubbing space you look at the NASA

967

00:40:57,620 --> 00:40:55,829

papers that comes with extraordinary

968

00:40:59,960 --> 00:40:57,630

stuff say that the only way that they

969

00:41:03,349 --> 00:40:59,970

can understand this material is it must

970

00:41:08,900 --> 00:41:03,359

come from a body that is orbiting the

971

00:41:12,650 --> 00:41:08,910

planet that's you've got a kilometer

972

00:41:14,450 --> 00:41:12,660

quartz moon wait a minute

973

00:41:17,809 --> 00:41:14,460

does that make any sense I think you

974

00:41:19,849 --> 00:41:17,819

know it doesn't secondly they look at

975

00:41:22,579 --> 00:41:19,859

anything other to get these these little

976

00:41:24,349 --> 00:41:22,589

spheres you see they have to be also

977

00:41:26,240 --> 00:41:24,359

coming down in order to a past as only

978

00:41:27,440 --> 00:41:26,250

what decaying orbit and then these

979

00:41:28,670 --> 00:41:27,450

little pieces are coming off and they're

980

00:41:30,740 --> 00:41:28,680

following the same all this you've

981

00:41:32,750 --> 00:41:30,750

imagined which it was it all that it's

982

00:41:34,010 --> 00:41:32,760

blown apart these little fragments are

983

00:41:36,380 --> 00:41:34,020

coming off they said to get these

984

00:41:38,390 --> 00:41:36,390

buttons they have to be a very sore

985

00:41:39,830 --> 00:41:38,400

corazon to play together they can't be

986

00:41:42,380 --> 00:41:39,840

just raining from space

987

00:41:43,940 --> 00:41:42,390

- let's do doesn't make sense so they

988

00:41:46,220 --> 00:41:43,950

come to conclusion that you know really

989

00:41:47,870 --> 00:41:46,230

there's no one answer that we can think

990

00:41:49,340 --> 00:41:47,880

of it can't be a comment coming in

991

00:41:51,890 --> 00:41:49,350

especially on the copy something being

992

00:41:54,260 --> 00:41:51,900

from a cow has to be all it's in has to

993

00:41:55,640 --> 00:41:54,270

explode it in space you know there's a

994

00:41:57,980 --> 00:41:55,650

long time those degrees was part of the

995

00:42:00,140 --> 00:41:57,990

moon that was debunked they couldn't be

996

00:42:02,060 --> 00:42:00,150

made the same material couldn't you

997

00:42:04,940 --> 00:42:02,070

comment couldn't be asked for it so what

998

00:42:07,880 --> 00:42:04,950

was it nothing they can't tell you right

999

00:42:09,200 --> 00:42:07,890

well they know now is he's not from an

1000

00:42:11,690 --> 00:42:09,210

impact it's not from anything they

1001  
00:42:13,490 --> 00:42:11,700  
understand right if you stop put into

1002  
00:42:15,800 --> 00:42:13,500  
them if there were high up in it as much

1003  
00:42:17,300 --> 00:42:15,810  
as exactly what this culture is telling

1004  
00:42:21,230 --> 00:42:17,310  
us that there's this module between

1005  
00:42:23,360 --> 00:42:21,240  
vessels become a part now the second

1006  
00:42:25,010 --> 00:42:23,370  
thing that we come here then is sourcing

1007  
00:42:26,840 --> 00:42:25,020  
it for enough that there is that the

1008  
00:42:28,790 --> 00:42:26,850  
point asked was there is a second

1009  
00:42:32,150 --> 00:42:28,800  
Avengers described which is that there

1010  
00:42:34,460 --> 00:42:32,160  
is follow-up mission that comes to this

1011  
00:42:35,930 --> 00:42:34,470  
planet these beings although they are

1012  
00:42:37,820 --> 00:42:35,940  
here and they get on what they're doing

1013  
00:42:39,500 --> 00:42:37,830

they're doing these qualification there

1014

00:42:41,420 --> 00:42:39,510

is a follow-up mission a group of

1015

00:42:43,640 --> 00:42:41,430

another group of beings comes from the

1016

00:42:45,680 --> 00:42:43,650

same alliance Isis sent me to describe

1017

00:42:49,430 --> 00:42:45,690

it in clear mind a kind of lion

1018

00:42:51,260 --> 00:42:49,440

humanoids strangely like they turn up

1019

00:42:54,590 --> 00:42:51,270

but they're not here just for essence or

1020

00:42:57,440 --> 00:42:54,600

rescue that they are here to enforce the

1021

00:43:00,460 --> 00:42:57,450

agreement with his other party is their

1022

00:43:02,600 --> 00:43:00,470

body a reptilian race is in the ground

1023

00:43:04,490 --> 00:43:02,610

as well I think people who struggle to

1024

00:43:06,860 --> 00:43:04,500

think straight away I've seen reptilians

1025

00:43:08,180 --> 00:43:06,870

you know David I know all that stuff but

1026

00:43:10,370 --> 00:43:08,190

that's where this pragmatic reptilian

1027

00:43:12,500 --> 00:43:10,380

race is under the ground and they turn

1028

00:43:14,630 --> 00:43:12,510

and they say look you've agreed that you

1029

00:43:16,040 --> 00:43:14,640

inhabit the planet you haven't done it

1030

00:43:18,170 --> 00:43:16,050

know you've opened fire on a peaceful

1031

00:43:19,880 --> 00:43:18,180

colony ship you can get off the planet

1032

00:43:23,210 --> 00:43:19,890

or we're going to bombard you at the

1033

00:43:25,640 --> 00:43:23,220

round bases there is an exchange between

1034

00:43:27,140 --> 00:43:25,650

them most of them leave they need when

1035

00:43:28,730 --> 00:43:27,150

they jump free us of our game which

1036

00:43:30,260 --> 00:43:28,740

leads back to Orion which is where

1037

00:43:32,660 --> 00:43:30,270

subscribe is that where they come from

1038

00:43:34,550 --> 00:43:32,670

not all of them government now these

1039

00:43:36,290 --> 00:43:34,560

Leonidas they use a particular kind of

1040

00:43:37,700 --> 00:43:36,300

weapon where they bomb by planets they

1041

00:43:40,400 --> 00:43:37,710

describe how trying to describe to us

1042

00:43:41,880 --> 00:43:40,410

that they pull in comets asteroids

1043

00:43:43,980 --> 00:43:41,890

whatever the

1044

00:43:46,110 --> 00:43:43,990

the kind of tractor beam technology they

1045

00:43:48,030 --> 00:43:46,120

don't just find her lasers you say that

1046

00:43:50,010 --> 00:43:48,040

we are capable of cracking open planets

1047

00:43:50,550 --> 00:43:50,020

you want me to see that's not the

1048

00:43:52,770 --> 00:43:50,560

intention

1049

00:43:55,260 --> 00:43:52,780

yeah they pull in asteroids and then to

1050

00:43:58,040 --> 00:43:55,270

get a bond back on body areas where they

1051  
00:44:01,410 --> 00:43:58,050  
know that there are military facilities

1052  
00:44:03,060 --> 00:44:01,420  
now I'm suppose if I read that I hope

1053  
00:44:05,330 --> 00:44:03,070  
you know how to reclaim that why don't

1054  
00:44:09,420 --> 00:44:05,340  
you know surely we know about that

1055  
00:44:11,940 --> 00:44:09,430  
multi-directional a fairly recent

1056  
00:44:13,380 --> 00:44:11,950  
geological times surely they'd be stars

1057  
00:44:16,350 --> 00:44:13,390  
for that you know we would find some

1058  
00:44:18,990 --> 00:44:16,360  
evidence is it just is if it is not true

1059  
00:44:20,580 --> 00:44:19,000  
or is he just we haven't found it so I

1060  
00:44:23,100 --> 00:44:20,590  
wouldn't against down through the

1061  
00:44:26,040 --> 00:44:23,110  
geological papers and I couldn't find

1062  
00:44:28,560 --> 00:44:26,050  
interview first they turned out in 2016

1063  
00:44:30,480 --> 00:44:28,570

there being a state by a German

1064

00:44:33,900 --> 00:44:30,490

theological team and they haven't

1065

00:44:36,180 --> 00:44:33,910

covered that 780,000 years ago there had

1066

00:44:39,240 --> 00:44:36,190

been a multi-directional asteroid

1067

00:44:40,800 --> 00:44:39,250

bombardment of our planet maybe kill em

1068

00:44:42,840 --> 00:44:40,810

on you think a lot about that happens

1069

00:44:44,520 --> 00:44:42,850

when the planet was falling no the

1070

00:44:47,370 --> 00:44:44,530

reason there was amazing there

1071

00:44:49,740 --> 00:44:47,380

bombardment now it's very rare for a

1072

00:44:51,570 --> 00:44:49,750

large operative yes certainly for a

1073

00:44:54,000 --> 00:44:51,580

whole load of them to hear that ones

1074

00:44:55,920 --> 00:44:54,010

from different directions it's bizarre

1075

00:44:57,660 --> 00:44:55,930

doesn't matter in fact they found that

1076

00:44:58,950 --> 00:44:57,670

the composition and the different

1077

00:45:00,650 --> 00:44:58,960

asteroids is but it's not the same

1078

00:45:03,360 --> 00:45:00,660

they're not even part of a single swarm

1079

00:45:07,190 --> 00:45:03,370

the ones at Bombardier at the same time

1080

00:45:11,670 --> 00:45:07,200

inning in Mexico Australia Africa

1081

00:45:13,170 --> 00:45:11,680

Tasmania is very very strange components

1082

00:45:15,120 --> 00:45:13,180

that you've got the same dating again

1083

00:45:17,580 --> 00:45:15,130

bear in mind the author light is dated

1084

00:45:20,670 --> 00:45:17,590

to 780 thousand years ago without a

1085

00:45:22,650 --> 00:45:20,680

multi-directional bombardment 780,000

1086

00:45:24,270 --> 00:45:22,660

years ago but we couldn't no no this

1087

00:45:28,500 --> 00:45:24,280

this course her book is published in

1088

00:45:30,680 --> 00:45:28,510

2002 the events of 95 so she there's no

1089

00:45:32,930 --> 00:45:30,690

way she has access to this information

1090

00:45:35,329 --> 00:45:32,940

used to want to create a story she

1091

00:45:37,190 --> 00:45:35,339

wouldn't have known us now there's of

1092

00:45:41,540 --> 00:45:37,200

course of food elements of this which is

1093

00:45:43,690 --> 00:45:41,550

the modifying or a little play on the

1094

00:45:47,420 --> 00:45:43,700

2001 a Space Odyssey

1095

00:45:48,740 --> 00:45:47,430

but basically they then they choose one

1096

00:45:52,069 --> 00:45:48,750

of the local hominins where they

1097

00:45:56,390 --> 00:45:52,079

describe as being a short hairy ape-like

1098

00:45:58,010 --> 00:45:56,400

man they take these may begin to use was

1099

00:46:00,440 --> 00:45:58,020

left at their medical technologies on

1100

00:46:03,650 --> 00:46:00,450

their crafts and start to create hybrid

1101  
00:46:06,559 --> 00:46:03,660  
hybrid embryos which were implanted into

1102  
00:46:09,950 --> 00:46:06,569  
both female hominins and some of the

1103  
00:46:12,380 --> 00:46:09,960  
female hipsters fresh fruits some of

1104  
00:46:14,210 --> 00:46:12,390  
these dangerous robbers having rather

1105  
00:46:16,579 --> 00:46:14,220  
liked the marsupial area that they're

1106  
00:46:19,280 --> 00:46:16,589  
part of their sternum can be opened so

1107  
00:46:21,829 --> 00:46:19,290  
they did that wound is actually almost

1108  
00:46:24,140 --> 00:46:21,839  
more like the air mass to twice the

1109  
00:46:26,230 --> 00:46:24,150  
dimension cook these and there's some

1110  
00:46:28,790 --> 00:46:26,240  
description of some of these beings

1111  
00:46:31,730 --> 00:46:28,800  
bizarre of course but then not to

1112  
00:46:33,410 --> 00:46:31,740  
mention treasures they between these two

1113  
00:46:36,140 --> 00:46:33,420

lines between the human experiments

1114

00:46:37,970 --> 00:46:36,150

daily experiments they create new types

1115

00:46:39,290 --> 00:46:37,980

of hominids now enormous successful

1116

00:46:42,380 --> 00:46:39,300

there's descriptions there were the

1117

00:46:45,050 --> 00:46:42,390

initial results some of them are quite

1118

00:46:48,109 --> 00:46:45,060

horrific you know the died soon after

1119

00:46:50,540 --> 00:46:48,119

birth after you know number of

1120

00:46:53,960 --> 00:46:50,550

experiments ongoing they do create

1121

00:46:55,670 --> 00:46:53,970

something successful and the funny thing

1122

00:46:58,220 --> 00:46:55,680

is of course is it for a very long time

1123

00:47:01,520 --> 00:46:58,230

so I got to in fact about three years

1124

00:47:04,130 --> 00:47:01,530

ago it was agreed for our human origins

1125

00:47:05,900 --> 00:47:04,140

that the Homo sapiens begins around

1126  
00:47:06,920 --> 00:47:05,910  
about two hundred thousand years ago

1127  
00:47:09,260 --> 00:47:06,930  
over two three hundred thousand years

1128  
00:47:12,050 --> 00:47:09,270  
ago a splitting away from Yonder Falls

1129  
00:47:15,380 --> 00:47:12,060  
around about 400 to 500 thousand years

1130  
00:47:17,839 --> 00:47:15,390  
ago so the idea that oh that's cause you

1131  
00:47:19,700 --> 00:47:17,849  
know 780,000 years ago maybe this was

1132  
00:47:21,290 --> 00:47:19,710  
happening we're really being considered

1133  
00:47:23,690 --> 00:47:21,300  
you know so be out in left field

1134  
00:47:25,750 --> 00:47:23,700  
even without labels do say well no you

1135  
00:47:28,430 --> 00:47:25,760  
know this isn't right the timings off

1136  
00:47:31,050 --> 00:47:28,440  
but what's happened since then is about

1137  
00:47:32,940 --> 00:47:31,060  
two years ago to to extracted

1138  
00:47:36,240 --> 00:47:32,950

from the site and stains he would have

1139

00:47:38,820 --> 00:47:36,250

whistles found the oldest human DNA and

1140

00:47:40,260 --> 00:47:38,830

it's being recovered June solving

1141

00:47:42,000 --> 00:47:40,270

process for these families that know

1142

00:47:44,940 --> 00:47:42,010

they had the dates wrong and they in

1143

00:47:49,020 --> 00:47:44,950

fact the the origins of our suffers as

1144

00:47:52,560 --> 00:47:49,030

much earlier we diverged away from an

1145

00:47:54,750 --> 00:47:52,570

early hominid species around about 750

1146

00:47:57,150 --> 00:47:54,760

to 800 thousand years ago and then the

1147

00:47:59,790 --> 00:47:57,160

animals Denisovans whatnot of over it

1148

00:48:01,980 --> 00:47:59,800

again not long after that seventy

1149

00:48:03,900 --> 00:48:01,990

thousand years ago certainly the dates

1150

00:48:08,250 --> 00:48:03,910

are brought back into the go public with

1151

00:48:11,250 --> 00:48:08,260

this 780,000 years studying as is you

1152

00:48:14,400 --> 00:48:11,260

now have a free Tok the anomalous events

1153

00:48:18,350 --> 00:48:14,410

all in concordance you know a bizarre

1154

00:48:20,010 --> 00:48:18,360

exploding ottoman with bombardment

1155

00:48:22,680 --> 00:48:20,020

shortly afterwards

1156

00:48:25,020 --> 00:48:22,690

most direct an asteroid bombardment and

1157

00:48:28,590 --> 00:48:25,030

then the broke this thing away of the

1158

00:48:30,720 --> 00:48:28,600

first Homo sapiens very archaic Homo

1159

00:48:34,230 --> 00:48:30,730

sapiens at around seventy two thousand

1160

00:48:36,570 --> 00:48:34,240

years ago now I don't hear God struggled

1161

00:48:39,360 --> 00:48:36,580

up with coincidences anyway when you get

1162

00:48:43,020 --> 00:48:39,370

coincidence on that scale where enormous

1163

00:48:44,310 --> 00:48:43,030

events geological time in certain

1164

00:48:47,010 --> 00:48:44,320

importance where they come up with the

1165

00:48:49,110 --> 00:48:47,020

same dates and then involve the

1166

00:48:50,550 --> 00:48:49,120

mysterious origins of humans then

1167

00:48:52,860 --> 00:48:50,560

suddenly you're thinking well Hank this

1168

00:48:55,890 --> 00:48:52,870

is this is really really you know

1169

00:48:58,260 --> 00:48:55,900

destroy the paradigm and as you look

1170

00:49:03,170 --> 00:48:58,270

into the human the human sort of Jim

1171

00:49:07,320 --> 00:49:05,550

basically yes you sort of look into the

1172

00:49:09,630 --> 00:49:07,330

human genome there's evidence in there

1173

00:49:11,430 --> 00:49:09,640

too so you don't have to be my view of

1174

00:49:15,990 --> 00:49:11,440

these was that you know I can't rely

1175

00:49:18,270 --> 00:49:16,000

solely on any one downloads ok downloads

1176

00:49:20,359 --> 00:49:18,280

having people abductions they have

1177

00:49:22,220 --> 00:49:20,369

contact experiences they're religious

1178

00:49:24,769 --> 00:49:22,230

experiences and we'll know that this

1179

00:49:25,880 --> 00:49:24,779

this thousands of those hundreds of

1180

00:49:28,039 --> 00:49:25,890

hundreds of books about it

1181

00:49:31,009 --> 00:49:28,049

the difference here so I'm interested in

1182

00:49:33,739 --> 00:49:31,019

validates and evidence so I think what

1183

00:49:35,480 --> 00:49:33,749

I've got two of these pretty well done

1184

00:49:36,920 --> 00:49:35,490

what about the third one is there

1185

00:49:39,319 --> 00:49:36,930

anything else that will support the idea

1186

00:49:41,420 --> 00:49:39,329

that humans are I'm not naturally

1187

00:49:43,819 --> 00:49:41,430

evolved species but there is something

1188

00:49:45,559 --> 00:49:43,829

more that is going on here so of course

1189

00:49:47,059 --> 00:49:45,569

I dug back into the papers and having

1190

00:49:50,150 --> 00:49:47,069

already written a book on this subject

1191

00:49:53,660 --> 00:49:50,160

the corn exodus which is all about

1192

00:49:57,410 --> 00:49:53,670

conventional solution I already knew

1193

00:49:59,480 --> 00:49:57,420

that there's nominees for chapters as

1194

00:50:01,039 --> 00:49:59,490

long as if you did get enough what you

1195

00:50:03,410 --> 00:50:01,049

find is this particularly interesting

1196

00:50:05,509 --> 00:50:03,420

one which is the fusion of chromosome -

1197

00:50:08,720 --> 00:50:05,519

I've been was followed would say Lloyd

1198

00:50:10,329 --> 00:50:08,730

Pye two years ago he's talked about the

1199

00:50:12,920 --> 00:50:10,339

future chromosome - it was one of the

1200

00:50:15,799 --> 00:50:12,930

most glaring pieces of evidence that

1201

00:50:18,289 --> 00:50:15,809

we'd been created Maurice plays that we

1202

00:50:20,120 --> 00:50:18,299

have to - chromosome called

1203

00:50:22,339 --> 00:50:20,130

ancestor primary chromosomes which have

1204

00:50:26,960 --> 00:50:22,349

fused head to head forming the singular

1205

00:50:29,150 --> 00:50:26,970

crow so now we're doing unfortunately he

1206

00:50:33,079 --> 00:50:29,160

didn't live to see the evidence because

1207

00:50:34,190 --> 00:50:33,089

probably we could date this on many

1208

00:50:36,049 --> 00:50:34,200

others I think he assumed that this

1209

00:50:38,180 --> 00:50:36,059

would date to around 200 thousand years

1210

00:50:40,999 --> 00:50:38,190

ago when we supposed to be Homo sapiens

1211

00:50:43,579 --> 00:50:41,009

we gather that's not the case there's a

1212

00:50:44,870 --> 00:50:43,589

British biologist you know he came he

1213

00:50:46,549 --> 00:50:44,880

decided he wanted to know when this

1214

00:50:48,200 --> 00:50:46,559

happened as well he'd always been left

1215

00:50:50,380 --> 00:50:48,210

as a bit of a mystery but I knew it

1216

00:50:53,599 --> 00:50:50,390

happened after the separation from

1217

00:50:55,910 --> 00:50:53,609

chimpanzees and other primates but they

1218

00:50:57,920 --> 00:50:55,920

didn't know exactly when so he he took a

1219

00:51:01,190 --> 00:50:57,930

look at it from a chemical point of view

1220

00:51:04,789 --> 00:51:01,200

he went to see when that central area of

1221

00:51:06,920 --> 00:51:04,799

the chromosome had slowly it's it's

1222

00:51:09,650 --> 00:51:06,930

mutation rate because the ends of

1223

00:51:11,839 --> 00:51:09,660

chromosomes mutate faster and the

1224

00:51:13,489 --> 00:51:11,849

central part so fruit sort of complex

1225

00:51:17,479 --> 00:51:13,499

analysis which I work but I'm not you

1226

00:51:19,460 --> 00:51:17,489

know I'm not so I understand the you

1227

00:51:23,059 --> 00:51:19,470

know to humans that he looked at to how

1228

00:51:24,010 --> 00:51:23,069

that dating work what he did used was he

1229

00:51:27,730 --> 00:51:24,020

had happened

1230

00:51:29,560 --> 00:51:27,740

close to 750,000 years ago however he

1231

00:51:32,560 --> 00:51:29,570

also points out that it's found in both

1232

00:51:35,110 --> 00:51:32,570

Denisovans and omnivores so he has to

1233

00:51:37,980 --> 00:51:35,120

also occurred before the split between

1234

00:51:41,050 --> 00:51:37,990

modern humans and those two subspecies

1235

00:51:43,270 --> 00:51:41,060

which means again they will split around

1236

00:51:45,540 --> 00:51:43,280

780 thousand it has to have happened

1237

00:51:49,480 --> 00:51:45,550

around then so again the economy

1238

00:51:51,550 --> 00:51:49,490

ecologist so we know that then we've got

1239

00:51:53,260 --> 00:51:51,560

that the chromosomes here fusion well

1240

00:51:55,750 --> 00:51:53,270

see Tracy Falconer chromosome 2 is that

1241

00:51:57,220 --> 00:51:55,760

it actually happens as well on an active

1242

00:51:58,000 --> 00:51:57,230

gene when you look at the gene that's

1243

00:51:59,530 --> 00:51:58,010

involved

1244

00:52:01,390 --> 00:51:59,540

it's a gene that's to do with the brain

1245

00:52:03,130 --> 00:52:01,400

it's also there's areas of the

1246

00:52:05,050 --> 00:52:03,140

chromosomes are fused mr. to do with the

1247

00:52:07,210 --> 00:52:05,060

reproduction system and our immune

1248

00:52:08,740 --> 00:52:07,220

system at key systems you want together

1249

00:52:10,660 --> 00:52:08,750

if you were trying to make an upgrade

1250

00:52:12,820 --> 00:52:10,670

and creature is quite straight to

1251

00:52:14,440 --> 00:52:12,830

usually and naturally fusion doesn't

1252

00:52:16,480 --> 00:52:14,450

happen is at the top level active gene

1253

00:52:18,520 --> 00:52:16,490

it was other others to Expo which are

1254

00:52:20,650 --> 00:52:18,530

very bizarre because we find is instead

1255

00:52:23,470 --> 00:52:20,660

of they're just being one population of

1256

00:52:25,840 --> 00:52:23,480

early humans with with 48 chromosomes

1257

00:52:27,130 --> 00:52:25,850

and another with 46 chromosomes which

1258

00:52:28,810 --> 00:52:27,140

would be expected if there was an

1259

00:52:31,570 --> 00:52:28,820

announcement mutation in fact you

1260

00:52:36,400 --> 00:52:31,580

actually expect those with the mutation

1261

00:52:38,800 --> 00:52:36,410

to basically easily problem recover our

1262

00:52:41,200 --> 00:52:38,810

tiny minority die-off be reabsorbed back

1263

00:52:42,880 --> 00:52:41,210

into the larger population star what

1264

00:52:46,630 --> 00:52:42,890

happens at all instead there's a total

1265

00:52:48,340 --> 00:52:46,640

replacement you know partly few people

1266

00:52:58,630 --> 00:52:48,350

are born with around America we don't

1267

00:52:59,740 --> 00:52:58,640

have very smart she said well okay to

1268

00:53:02,560 --> 00:52:59,750

explain that you need a couple of

1269

00:53:05,170 --> 00:53:02,570

different indigenous firstly we respect

1270

00:53:06,790 --> 00:53:05,180

it to be in a school isolated population

1271

00:53:08,710 --> 00:53:06,800

so ever they you know they could mean to

1272

00:53:10,690 --> 00:53:08,720

be with other groups Australia's good

1273

00:53:13,570 --> 00:53:10,700

for that so he cut off from all of the

1274

00:53:15,130 --> 00:53:13,580

other hominids in Eurasia and Africa on

1275

00:53:18,160 --> 00:53:15,140

some other said then of course it has to

1276

00:53:19,290 --> 00:53:18,170

have given extraordinary benefits that

1277

00:53:21,430 --> 00:53:19,300

he would spread throughout the entire

1278

00:53:24,610 --> 00:53:21,440

population and it would go on to become

1279

00:53:26,470 --> 00:53:24,620

that widespread so again we have now a

1280

00:53:27,500 --> 00:53:26,480

mutation which is happening at a small

1281

00:53:28,850 --> 00:53:27,510

isolated group

1282

00:53:31,490 --> 00:53:28,860

like you would have for test three

1283

00:53:33,340 --> 00:53:31,500

proponents and it is such a corny

1284

00:53:35,830 --> 00:53:33,350

benefits there's a total replacement

1285

00:53:37,880 --> 00:53:35,840

everyone recovers the same as us

1286

00:53:40,280 --> 00:53:37,890

today we know there's something else

1287

00:53:43,040 --> 00:53:40,290

here that explains it as well anyone

1288

00:53:45,680 --> 00:53:43,050

than those who look crisp our CRISPR

1289

00:53:49,310 --> 00:53:45,690

gene editing technology just on the

1290

00:53:51,920 --> 00:53:49,320

other one coming now there's a type of

1291

00:53:53,180 --> 00:53:51,930

crisp our technology which is well

1292

00:53:57,290 --> 00:53:53,190

there's been deceleration about it

1293

00:54:00,890 --> 00:53:57,300

because as it is called a gene drive our

1294

00:54:03,260 --> 00:54:00,900

genes life allows you to program the

1295

00:54:06,170 --> 00:54:03,270

genes of an organism such as that when

1296

00:54:08,360 --> 00:54:06,180

it in Supremes instead of having copies

1297

00:54:10,970 --> 00:54:08,370

of both the mother and father the gene

1298

00:54:13,130 --> 00:54:10,980

drive will copy over the other set of

1299

00:54:15,200 --> 00:54:13,140

genes so doesn't matter that point if

1300

00:54:17,960 --> 00:54:15,210

you use a genes life he doesn't matter

1301  
00:54:20,180 --> 00:54:17,970  
if your new species mixes with say some

1302  
00:54:21,770 --> 00:54:20,190  
Homo erectus doesn't matter as the

1303  
00:54:24,440 --> 00:54:21,780  
children will always be the energy

1304  
00:54:27,710 --> 00:54:24,450  
plants it was simply overlay over that

1305  
00:54:29,300 --> 00:54:27,720  
you know this is extraordinary we find

1306  
00:54:31,070 --> 00:54:29,310  
that an entire season replaced in

1307  
00:54:35,480 --> 00:54:31,080  
exactly the way now that we are saying

1308  
00:54:37,520 --> 00:54:35,490  
we can do this Braddock 18 mosquitoes in

1309  
00:54:39,440 --> 00:54:37,530  
Africa by simply using the genes like

1310  
00:54:44,000 --> 00:54:39,450  
technologies and we do we can commit

1311  
00:54:46,940 --> 00:54:44,010  
genocide on species now some concerns

1312  
00:54:48,680 --> 00:54:46,950  
about that that he looks like somebody's

1313  
00:54:51,160 --> 00:54:48,690

done it before because there is no love

1314

00:54:53,360 --> 00:54:51,170

there's not a 48 from Sun man standing

1315

00:54:54,650 --> 00:54:53,370

there's other things in our genome which

1316

00:54:57,920 --> 00:54:54,660

are very strange though it's not the

1317

00:54:59,660 --> 00:54:57,930

only one body stretch in fact I want to

1318

00:55:03,800 --> 00:54:59,670

see you know what he makes is different

1319

00:55:09,130 --> 00:55:03,810

from the other living primates first you

1320

00:55:13,740 --> 00:55:11,360

it looks very very different but

1321

00:55:16,410 --> 00:55:13,750

actually that's one of the trainings

1322

00:55:18,660 --> 00:55:16,420

if you look actually an inflation comes

1323

00:55:21,900 --> 00:55:18,670

in and you compare it to it's not that

1324

00:55:23,760 --> 00:55:21,910

different because what happens is later

1325

00:55:25,320 --> 00:55:23,770

in life they start to have two tenders

1326

00:55:26,849 --> 00:55:25,330

forward there are the bridge of di

1327

00:55:27,870 --> 00:55:26,859

bridges for what sort other things

1328

00:55:30,390 --> 00:55:27,880

happened there looking like you know

1329

00:55:33,870 --> 00:55:30,400

what the classic image which is if you

1330

00:55:37,650 --> 00:55:33,880

slow down that process and you keep it

1331

00:55:39,510 --> 00:55:37,660

as a young a inform every lab is

1332

00:55:41,190 --> 00:55:39,520

something very much like us and this is

1333

00:55:43,320 --> 00:55:41,200

called neoteny it's the process of

1334

00:55:45,270 --> 00:55:43,330

maintaining childhood transcends

1335

00:55:46,440 --> 00:55:45,280

adulthood and if you compare you if you

1336

00:55:47,849 --> 00:55:46,450

look at you mister day you look at

1337

00:55:51,380 --> 00:55:47,859

infinite you'll see that we're

1338

00:55:54,990 --> 00:55:51,390

essentially named stuck in his childhood

1339

00:55:57,690 --> 00:55:55,000

and that was that's one thing that I

1340

00:56:00,300 --> 00:55:57,700

think that they did another specific

1341

00:56:02,099 --> 00:56:00,310

genes they got to there's a gene for the

1342

00:56:02,550 --> 00:56:02,109

new cortex which is the folds in your

1343

00:56:04,830 --> 00:56:02,560

brain

1344

00:56:06,599 --> 00:56:04,840

specific one of these really most

1345

00:56:09,330 --> 00:56:06,609

important genes that they suspect for

1346

00:56:10,770 --> 00:56:09,340

makes us human now when they looked into

1347

00:56:12,900 --> 00:56:10,780

this and went to get you know understand

1348

00:56:15,180 --> 00:56:12,910

whenever old however all they found was

1349

00:56:19,320 --> 00:56:15,190

that in fact it's it's not a complete

1350

00:56:21,630 --> 00:56:19,330

genes it looks as though someone's

1351  
00:56:25,700 --> 00:56:21,640  
stepped out the gene cut a piece that

1352  
00:56:28,650 --> 00:56:25,710  
they want copied it and put it back in

1353  
00:56:30,000 --> 00:56:28,660  
remind science and they don't have one

1354  
00:56:33,420 --> 00:56:30,010  
of those incentives has been xeroxed

1355  
00:56:36,210 --> 00:56:33,430  
into the bizarre different number

1356  
00:56:38,579 --> 00:56:36,220  
of these genes very important brain gene

1357  
00:56:41,970 --> 00:56:38,589  
is described as having appeared fully

1358  
00:56:45,030 --> 00:56:41,980  
formed out of the non-coding DNA no idea

1359  
00:56:46,650 --> 00:56:45,040  
just appears out of options I think is

1360  
00:56:48,599 --> 00:56:46,660  
just incredible benefits to the brain

1361  
00:56:50,550 --> 00:56:48,609  
you go for you start finding there's

1362  
00:56:52,890 --> 00:56:50,560  
actually a lot of genes for humans there

1363  
00:56:54,740 --> 00:56:52,900

are very good promise they tend to

1364

00:56:57,380 --> 00:56:54,750

cluster around a time about a year

1365

00:56:58,790 --> 00:56:57,390

years ago we already knew that that was

1366

00:57:01,400 --> 00:56:58,800

an important time because in the fossil

1367

00:57:03,710 --> 00:57:01,410

record you find that there was a sudden

1368

00:57:05,900 --> 00:57:03,720

change like a up image that they go

1369

00:57:11,150 --> 00:57:05,910

forward when I should be rough I think

1370

00:57:12,589 --> 00:57:11,160

the next slide those are very notice is

1371

00:57:16,820 --> 00:57:12,599

a slightly anomalous change on that

1372

00:57:19,640 --> 00:57:16,830

graph this is a Lucknow the the

1373

00:57:22,010 --> 00:57:19,650

expansion of the human skull and this

1374

00:57:24,650 --> 00:57:22,020

there's two points where you have really

1375

00:57:27,050 --> 00:57:24,660

enormous changes one is around 1.8

1376

00:57:34,750 --> 00:57:27,060

million years ago which is the rise of

1377

00:57:41,780 --> 00:57:38,150

noise like great Atlas obviously we do

1378

00:57:44,330 --> 00:57:41,790

see a change there yes we see that up

1379

00:57:46,070 --> 00:57:44,340

curve begins now the thing with that is

1380

00:57:47,750 --> 00:57:46,080

that although there are some interesting

1381

00:57:49,670 --> 00:57:47,760

changes in the brain I do think that

1382

00:57:50,990 --> 00:57:49,680

they are also engineering earlier

1383

00:57:52,820 --> 00:57:51,000

engineering by the other

1384

00:57:55,099 --> 00:57:52,830

extraterrestrial race is on this planet

1385

00:57:56,900 --> 00:57:55,109

is despite that they for a common in

1386

00:57:58,820 --> 00:57:56,910

size a essentially is a kind of a slave

1387

00:58:01,520 --> 00:57:58,830

race you know they're not particularly

1388

00:58:03,500 --> 00:58:01,530

nice beings what they do is they create

1389

00:58:05,690 --> 00:58:03,510

being this not all that intelligent they

1390

00:58:07,130 --> 00:58:05,700

modify her little bit around them when

1391

00:58:10,130 --> 00:58:07,140

you see this increased brain size

1392

00:58:11,839 --> 00:58:10,140

between the Billie's two erectus but

1393

00:58:14,390 --> 00:58:11,849

this is also environment body size

1394

00:58:18,200 --> 00:58:14,400

changes remember them which Don has a

1395

00:58:20,089 --> 00:58:18,210

kind of into chimp like creature and so

1396

00:58:21,859 --> 00:58:20,099

the brain of size is increasing there

1397

00:58:23,930 --> 00:58:21,869

with body size so they're now bringing

1398

00:58:26,030 --> 00:58:23,940

us up to being you know more like a sort

1399

00:58:28,339 --> 00:58:26,040

of a six foot tall being with the larger

1400

00:58:30,800 --> 00:58:28,349

brain that goes with that size so though

1401

00:58:32,940 --> 00:58:30,810

that that looks kind of an ominous it's

1402

00:58:35,520 --> 00:58:32,950

not what's really strange

1403

00:58:37,830 --> 00:58:35,530

she's dead from Homo erectus and an

1404

00:58:40,080 --> 00:58:37,840

800,000 years ago the bracelet just

1405

00:58:42,090 --> 00:58:40,090

keeps spiraling upwards and at this

1406

00:58:44,850 --> 00:58:42,100

point the body size is not increasing

1407

00:58:46,410 --> 00:58:44,860

this is Sony brain change ain't just

1408

00:58:49,830 --> 00:58:46,420

accelerates all the way up to us it

1409

00:58:51,600 --> 00:58:49,840

slows down about 200,000 years ago so

1410

00:58:53,220 --> 00:58:51,610

what the hell is happening there no

1411

00:58:59,730 --> 00:58:53,230

because this dangers that go with that

1412

00:59:03,840 --> 00:58:59,740

and a lot of negatives funerals or just

1413

00:59:06,690 --> 00:59:03,850

sort of these changes that were done in

1414

00:59:15,840 --> 00:59:06,700

other words you'll be very welcome any

1415

00:59:17,160 --> 00:59:15,850

of these topics in a deoxy there was a

1416

00:59:19,500 --> 00:59:17,170

model of the same or the difference the

1417

00:59:22,200 --> 00:59:19,510

CB genes that a lot already live up to

1418

00:59:24,870 --> 00:59:22,210

these increasing size of the skull

1419

00:59:27,320 --> 00:59:24,880

though because this are going intriguing

1420

00:59:30,330 --> 00:59:27,330

about when you think about it very

1421

00:59:33,180 --> 00:59:30,340

suddenly the human skull starts to

1422

00:59:35,730 --> 00:59:33,190

increase in size there is a kind of an

1423

00:59:36,990 --> 00:59:35,740

obvious problem with this because it's

1424

00:59:39,300 --> 00:59:37,000

still gonna pass through the birth canal

1425

00:59:40,740 --> 00:59:39,310

you know you could successfully be born

1426  
00:59:44,820 --> 00:59:40,750  
on it's no good saying okay we'll just

1427  
00:59:46,620 --> 00:59:44,830  
bring that big brained hominid and you

1428  
00:59:48,510 --> 00:59:46,630  
know we're just leaving like that

1429  
00:59:50,250 --> 00:59:48,520  
what happen is your mother's mother died

1430  
00:59:50,550 --> 00:59:50,260  
in childbirth taking the babies with

1431  
00:59:52,290 --> 00:59:50,560  
them

1432  
00:59:56,610 --> 00:59:52,300  
and that's the end of the experiment

1433  
01:00:00,060 --> 00:59:56,620  
yeah you can't just expect you know

1434  
01:00:01,710 --> 01:00:00,070  
double the size two possibilities so we

1435  
01:00:03,390 --> 01:00:01,720  
had this registration comes in if we go

1436  
01:00:05,850 --> 01:00:03,400  
back to the New York City I mentioned

1437  
01:00:08,550 --> 01:00:05,860  
earlier so what it seems that happened

1438  
01:00:11,100 --> 01:00:08,560

is that they would have changed done to

1439

01:00:12,960 --> 01:00:11,110

slow down our developments and also to

1440

01:00:16,920 --> 01:00:12,970

allow us to be born while we're still

1441

01:00:19,770 --> 01:00:16,930

essentially it feeds us you look at even

1442

01:00:21,870 --> 01:00:19,780

his baldness this the skull of the sea

1443

01:00:24,120 --> 01:00:21,880

you know he's still growing by rattling

1444

01:00:26,660 --> 01:00:24,130

their boys not fuse yeah you know what

1445

01:00:28,290 --> 01:00:26,670

so behind us we are born with

1446

01:00:30,270 --> 01:00:28,300

characteristics that you see and other

1447

01:00:32,160 --> 01:00:30,280

species based better than that or before

1448

01:00:34,170 --> 01:00:32,170

they've all you see in the womb we still

1449

01:00:36,930 --> 01:00:34,180

retain and eventually grow at a similar

1450

01:00:38,910 --> 01:00:36,940

rate outside the womb initially says if

1451

01:00:40,700 --> 01:00:38,920

we were still in it so they seem to have

1452

01:00:43,080 --> 01:00:40,710

done is basically allowed us to be born

1453

01:00:46,680 --> 01:00:43,090

with the largest brain you can get lost

1454

01:00:55,920 --> 01:00:46,690

still in vitro but then to be continued

1455

01:00:57,290 --> 01:00:55,930

that developments of the past six years

1456

01:00:59,850 --> 01:00:57,300

yes

1457

01:01:01,470 --> 01:00:59,860

and some of that you know even though

1458

01:01:04,170 --> 01:01:01,480

people worry about that stage we start

1459

01:01:05,430 --> 01:01:04,180

using is dependency as children so these

1460

01:01:07,080 --> 01:01:05,440

are these are all quite sort of unique

1461

01:01:09,900 --> 01:01:07,090

to us because you don't search in handsy

1462

01:01:12,060 --> 01:01:09,910

by Jim baby can pretty much move all the

1463

01:01:13,170 --> 01:01:12,070

divisional period you can grab onto the

1464

01:01:25,460 --> 01:01:13,180

mother can be carried away

1465

01:01:29,820 --> 01:01:27,870

exactly there's what they did is they

1466

01:01:34,560 --> 01:01:29,830

recording that they modify something

1467

01:01:36,120 --> 01:01:34,570

changed increased neoteny now something

1468

01:01:37,890 --> 01:01:36,130

the attending features to be half or

1469

01:01:39,630 --> 01:01:37,900

something like that we know what have

1470

01:01:41,160 --> 01:01:39,640

these protruding draw and I can this

1471

01:01:43,050 --> 01:01:41,170

happen very suddenly again is a change

1472

01:01:46,170 --> 01:01:43,060

because we know because the human jaw

1473

01:01:48,510 --> 01:01:46,180

still produces too many teeth right so

1474

01:01:50,490 --> 01:01:48,520

he's trying to produce many furniture

1475

01:01:51,600 --> 01:01:50,500

that's coming out like this and we ended

1476

01:01:52,020 --> 01:01:51,610

up with all these problems with wisdom

1477

01:01:54,000 --> 01:01:52,030

teeth

1478

01:01:57,600 --> 01:01:54,010

another thing that's what most people

1479

01:01:59,520 --> 01:01:57,610

have some crooked teeth so there have so

1480

01:02:01,020 --> 01:01:59,530

much about some point again this is

1481

01:02:03,540 --> 01:02:01,030

showing this happen very fast evolution

1482

01:02:04,920 --> 01:02:03,550

has not caught up you now find a lot of

1483

01:02:07,470 --> 01:02:04,930

people being born without wisdom teeth

1484

01:02:10,800 --> 01:02:07,480

this is evolution now in process

1485

01:02:13,470 --> 01:02:10,810

who's clearing up that anomaly we also

1486

01:02:15,390 --> 01:02:13,480

will have compared to other primates we

1487

01:02:24,300 --> 01:02:15,400

have other features we have this there's

1488

01:02:29,430 --> 01:02:24,310

a large had larger eyes people think

1489

01:02:31,020 --> 01:02:29,440

they put around that problem so they've

1490

01:02:32,670 --> 01:02:31,030

got in their going to be a clever

1491

01:02:35,490 --> 01:02:32,680

engineering there to ensure that we can

1492

01:02:37,650 --> 01:02:35,500

be successfully warned if you compare

1493

01:02:40,230 --> 01:02:37,660

these are normally show if you contrast

1494

01:02:44,430 --> 01:02:40,240

us again these are the primates you'll

1495

01:02:47,220 --> 01:02:44,440

find that the average length of birth

1496

01:02:49,680 --> 01:02:47,230

time is several hours shorter all the

1497

01:02:51,180 --> 01:02:49,690

other primates we have it's very unique

1498

01:02:52,920 --> 01:02:51,190

difficulties you know it's not

1499

01:02:54,660 --> 01:02:52,930

completely dealt with by these changes

1500

01:02:56,670 --> 01:02:54,670

on top of that we have the most

1501

01:03:00,120 --> 01:02:56,680

dangerous childbirth of any different

1502

01:03:02,610 --> 01:03:00,130

primates but most pcs is very rare to

1503

01:03:05,340 --> 01:03:02,620

lose their children childbirth and in

1504

01:03:09,330 --> 01:03:05,350

fact the some of these used to be fairly

1505

01:03:11,960 --> 01:03:09,340

painless so we seem to remember a curse

1506

01:03:14,040 --> 01:03:11,970

as well as benefits as of these changes

1507

01:03:16,290 --> 01:03:14,050

there's a restraint normally in our

1508

01:03:18,810 --> 01:03:16,300

reproductive systems and we have a whole

1509

01:03:20,730 --> 01:03:18,820

slew of problems you know that it's

1510

01:03:22,530 --> 01:03:20,740

always a wonder that we didn't go

1511

01:03:24,780 --> 01:03:22,540

extinct it is so hard for him

1512

01:03:26,520 --> 01:03:24,790

structuring and conceive in the first

1513

01:03:28,350 --> 01:03:26,530

place they found there's all kinds of

1514

01:03:30,600 --> 01:03:28,360

anomalies in our ecosystem which are

1515

01:03:36,540 --> 01:03:30,610

unique to humans which is very strange

1516

01:03:38,340 --> 01:03:36,550

recap why we evolution favor problems as

1517

01:03:42,780 --> 01:03:38,350

is missus lee flagged up recently in a

1518

01:03:44,190 --> 01:03:42,790

book called human errors by heroes in

1519

01:03:45,930 --> 01:03:44,200

the US what other if you find these

1520

01:03:49,230 --> 01:03:45,940

things in running counter to evolution

1521

01:03:52,880 --> 01:03:49,240

because obviously you spec species to be

1522

01:03:55,610 --> 01:03:52,890

favored then has not followed each other

1523

01:03:57,560 --> 01:03:55,620

production acceptable out of the primary

1524

01:04:00,500 --> 01:03:57,570

family we see this illegal down our

1525

01:04:02,750 --> 01:04:00,510

unity of developing problems which would

1526

01:04:04,790 --> 01:04:02,760

drive us towards extinction now they are

1527

01:04:05,470 --> 01:04:04,800

names explain this because clearly to my

1528

01:04:09,170 --> 01:04:05,480

sake

1529

01:04:11,920 --> 01:04:09,180

Eva Lucien is just random mutations we

1530

01:04:14,090 --> 01:04:11,930

selection and then that would clear up

1531

01:04:17,000 --> 01:04:14,100

all of the people who had those problems

1532

01:04:19,220 --> 01:04:17,010

and we would end up back to a population

1533

01:04:22,070 --> 01:04:19,230

that didn't answer so he fairly recently

1534

01:04:24,860 --> 01:04:22,080

and fairly an anomalous has led to these

1535

01:04:25,690 --> 01:04:24,870

really counterintuitive changes in human

1536

01:04:28,220 --> 01:04:25,700

beings

1537

01:04:31,400 --> 01:04:28,230

there's nothing about increasing brain

1538

01:04:33,170 --> 01:04:31,410

size which is a problem because it takes

1539

01:04:34,700 --> 01:04:33,180

a lot of energy to feed the human brain

1540

01:04:37,190 --> 01:04:34,710

a great amount of energy lots of

1541

01:04:40,700 --> 01:04:37,200

calories it's really counting ugly now

1542

01:04:43,010 --> 01:04:40,710

that comes our price what the price is

1543

01:04:46,580 --> 01:04:43,020

being paid in our on muscular structure

1544

01:04:51,830 --> 01:04:46,590

now if you were example if you were to

1545

01:04:54,590 --> 01:04:51,840

hit a chimpanzee against you know how do

1546

01:04:56,600 --> 01:04:54,600

you make a boxer example you will find a

1547

01:04:57,140 --> 01:04:56,610

new tear his arms off the chair in two

1548

01:05:00,230 --> 01:04:57,150

pieces

1549

01:05:01,790 --> 01:05:00,240

yeah so what is it that we've been

1550

01:05:03,560 --> 01:05:01,800

favored in a time you know going back a

1551

01:05:05,360 --> 01:05:03,570

few hundred thousand years ago when in

1552

01:05:08,030 --> 01:05:05,370

the time of you know Teufel floor

1553

01:05:10,490 --> 01:05:08,040

we certainly start giving up our you

1554

01:05:13,310 --> 01:05:10,500

know primate muscular structure for

1555

01:05:14,870 --> 01:05:13,320

these hungry brain at a time when you

1556

01:05:16,700 --> 01:05:14,880

don't really have any advanced tools we

1557

01:05:18,650 --> 01:05:16,710

don't immediately have the benefits in

1558

01:05:20,900 --> 01:05:18,660

you have today it's not at all clear

1559

01:05:22,820 --> 01:05:20,910

that this is a good thing but then we

1560

01:05:24,830 --> 01:05:22,830

are suddenly becoming weaker and weaker

1561

01:05:27,860 --> 01:05:24,840

you know you know at a time when this

1562

01:05:30,110 --> 01:05:27,870

you know huge predators and even the

1563

01:05:32,450 --> 01:05:30,120

other primates to know that aerosol and

1564

01:05:34,100 --> 01:05:32,460

suppressed raising we would have that

1565

01:05:36,500 --> 01:05:34,110

kind of trade-off than just natural

1566

01:05:38,420 --> 01:05:36,510

mutations in selection why is the

1567

01:05:40,430 --> 01:05:38,430

selection favoring the strongest

1568

01:05:42,920 --> 01:05:40,440

why is it favoring this bigger calorie

1569

01:05:44,540 --> 01:05:42,930

hungry brain it takes a few hundred

1570

01:05:47,300 --> 01:05:44,550

thousand years if you say that this is

1571

01:05:50,400 --> 01:05:47,310

happening 780,000 years ago not

1572

01:05:51,780 --> 01:05:50,410

developing advanced weapons

1573

01:05:53,280 --> 01:05:51,790

you know it takes a good few hundred

1574

01:05:55,440 --> 01:05:53,290

thousand years to cut off that we

1575

01:05:57,300 --> 01:05:55,450

actually broke there's a bigger brain my

1576

01:06:00,270 --> 01:05:57,310

counterintuitive in terms of natural

1577

01:06:01,920 --> 01:06:00,280

selection we also find of course that

1578

01:06:03,870 --> 01:06:01,930

you know it's really not so about two

1579

01:06:06,090 --> 01:06:03,880

hundred thousand years ago that this is

1580

01:06:08,220 --> 01:06:06,100

produce is really completely with us we

1581

01:06:10,560 --> 01:06:08,230

could Homo sapiens sapiens emerging at

1582

01:06:13,260 --> 01:06:10,570

that time with other genetic changes

1583

01:06:19,310 --> 01:06:13,270

happen around that I have a suspicion

1584

01:06:21,960 --> 01:06:19,320

that there's no one very focused on

1585

01:06:23,730 --> 01:06:21,970

780,000 years ago make no mistake there

1586

01:06:27,180 --> 01:06:23,740

are other anomalous points in the

1587

01:06:30,720 --> 01:06:27,190

timeline the first of course is at the

1588

01:06:34,680 --> 01:06:30,730

very beginning so we lifestyle on this

1589

01:06:37,650 --> 01:06:34,690

planet in any case the recent years it's

1590

01:06:39,660 --> 01:06:37,660

become a hot topic because there's been

1591

01:06:41,550 --> 01:06:39,670

a few fights there's been a fossil find

1592

01:06:44,190 --> 01:06:41,560

in Canada it's suggested that the

1593

01:06:47,520 --> 01:06:44,200

earliest organisms were here

1594

01:06:49,140 --> 01:06:47,530

round about 4.2 billion years ago bear

1595

01:06:52,020 --> 01:06:49,150

in mind the planets but before 26

1596

01:06:53,670 --> 01:06:52,030

billion DNA supposed to be around and

1597

01:06:55,740 --> 01:06:53,680

come back from random geological

1598

01:06:58,620 --> 01:06:55,750

chemical processes it was always born

1599

01:07:00,480 --> 01:06:58,630

would take you know in vast period of

1600

01:07:02,730 --> 01:07:00,490

time terms of this happen by random

1601  
01:07:04,740 --> 01:07:02,740  
chance and then they finally got fossil

1602  
01:07:07,260 --> 01:07:04,750  
suggesting this happen very quickly and

1603  
01:07:09,270 --> 01:07:07,270  
then more easily I think in fact just a

1604  
01:07:12,030 --> 01:07:09,280  
few months ago there was a DNA study

1605  
01:07:14,940 --> 01:07:12,040  
done where they wanted to find out what

1606  
01:07:17,450 --> 01:07:14,950  
was and when was the first common

1607  
01:07:19,680 --> 01:07:17,460  
ancestor of all organisms on this planet

1608  
01:07:21,810 --> 01:07:19,690  
and what they came to was the

1609  
01:07:24,690 --> 01:07:21,820  
understanding that it was twenty five

1610  
01:07:26,250 --> 01:07:24,700  
billion years ago their life appeared as

1611  
01:07:29,370 --> 01:07:26,260  
one hundred thousand years after the

1612  
01:07:31,350 --> 01:07:29,380  
planet needs to form at that point there

1613  
01:07:34,530 --> 01:07:31,360

is a various service there is two

1614

01:07:37,170 --> 01:07:34,540

asteroid Baumgarten underway they the

1615

01:07:42,450 --> 01:07:37,180

the environment in terms of being you

1616

01:07:44,880 --> 01:07:42,460

know likely not there it looks almost as

1617

01:07:45,290 --> 01:07:44,890

ever seen is being planted and as soon

1618

01:07:48,650 --> 01:07:45,300

as

1619

01:07:50,630 --> 01:07:48,660

this forms it you know comes forth it's

1620

01:07:52,940 --> 01:07:50,640

not the way we're expected with you know

1621

01:07:54,020 --> 01:07:52,950

a hot pool of water producing it doesn't

1622

01:07:56,090 --> 01:07:54,030

it doesn't make sense

1623

01:07:58,130 --> 01:07:56,100

there's not enough time and one of the

1624

01:07:58,700 --> 01:07:58,140

co discovers of the DNA molecule Frances

1625

01:08:00,620 --> 01:07:58,710

correct

1626

01:08:03,050 --> 01:08:00,630

Il look at this problem and obviously

1627

01:08:05,060 --> 01:08:03,060

when he was no I hadn't got to that date

1628

01:08:07,040 --> 01:08:05,070

but he already felt that he was way too

1629

01:08:09,740 --> 01:08:07,050

early that life emerged and then looking

1630

01:08:11,060 --> 01:08:09,750

at the complexity of DNA he couldn't see

1631

01:08:14,360 --> 01:08:11,070

how this could have come about by chance

1632

01:08:19,370 --> 01:08:14,370

because I said you have to ignore the

1633

01:08:21,650 --> 01:08:19,380

many complex processes India to emerge

1634

01:08:24,110 --> 01:08:21,660

at the same time and both of them by

1635

01:08:26,450 --> 01:08:24,120

chance alone they calculated the odds to

1636

01:08:28,789 --> 01:08:26,460

be 1 to the power of a number that was

1637

01:08:30,530 --> 01:08:28,799

so big it's larger than all of the atoms

1638

01:08:36,220 --> 01:08:30,540

in the universe adding together the

1639

01:08:41,480 --> 01:08:38,720

so you got leading academics to tell us

1640

01:08:42,980 --> 01:08:41,490

look there's something on why we think

1641

01:08:45,800 --> 01:08:42,990

life has arrived in this planet from

1642

01:08:47,450 --> 01:08:45,810

space and looking at that could it be

1643

01:08:48,680 --> 01:08:47,460

random could it just be on the comment

1644

01:08:50,090 --> 01:08:48,690

visiting one of the others know there's

1645

01:08:52,640 --> 01:08:50,100

a number scientists now said these thing

1646

01:08:56,120 --> 01:08:52,650

life came in comets or asteroids

1647

01:08:58,670 --> 01:08:56,130

neighbors planets because there's

1648

01:09:00,769 --> 01:08:58,680

intense radiation from space and studies

1649

01:09:04,280 --> 01:09:00,779

most likely would destroy any life that

1650

01:09:06,320 --> 01:09:04,290

was on such a rock it's much more likely

1651  
01:09:09,170 --> 01:09:06,330  
that fridge arrived here has become an

1652  
01:09:11,329 --> 01:09:09,180  
instruction craft of some sort or C's

1653  
01:09:14,710 --> 01:09:11,339  
there is some way traveling there

1654  
01:09:17,120 --> 01:09:14,720  
Protective Services bizarrely enough

1655  
01:09:19,130 --> 01:09:17,130  
interest but there's only enough a few

1656  
01:09:21,950 --> 01:09:19,140  
years back there this experiments done

1657  
01:09:24,950 --> 01:09:21,960  
by a university in the UK and they were

1658  
01:09:27,380 --> 01:09:24,960  
monitoring the upper stratosphere and

1659  
01:09:30,920 --> 01:09:27,390  
one of the detectives was kicked by a

1660  
01:09:40,550 --> 01:09:30,930  
small metal sphere made vanadium which

1661  
01:09:43,510 --> 01:09:40,560  
is a very strong is used and from this

1662  
01:09:53,120 --> 01:09:43,520  
fear was leaking some kind of good

1663  
01:09:58,310 --> 01:09:53,130

material now this guy expect so he's

1664

01:10:00,050 --> 01:09:58,320

working now with the Crimson guarantees

1665

01:10:07,210 --> 01:10:00,060

but professor not something based on the

1666

01:10:12,320 --> 01:10:10,010

it's gone he said the leading sauropod

1667

01:10:14,870 --> 01:10:12,330

of the past so they've been working

1668

01:10:17,240 --> 01:10:14,880

together on this but it seems that we've

1669

01:10:19,210 --> 01:10:17,250

kind of potentially found that kind of

1670

01:10:21,770 --> 01:10:19,220

seeds that we use to see if this planet

1671

01:10:23,420 --> 01:10:21,780

and that changes the story again because

1672

01:10:25,010 --> 01:10:23,430

you think what hang on a minute you know

1673

01:10:26,870 --> 01:10:25,020

that we've been seeded by an

1674

01:10:27,710 --> 01:10:26,880

extraterrestrial civilization in the

1675

01:10:30,290 --> 01:10:27,720

first place

1676  
01:10:32,060 --> 01:10:30,300  
it causes a question of the fundamental

1677  
01:10:39,830 --> 01:10:32,070  
assumptions by setting some the other

1678  
01:10:41,630 --> 01:10:39,840  
scientists you say they can't they can't

1679  
01:10:44,110 --> 01:10:41,640  
be aliens because they didn't have found

1680  
01:10:49,460 --> 01:10:46,610  
just at the time and life is here and

1681  
01:10:52,190 --> 01:10:49,470  
happen to stumble on us and you can see

1682  
01:10:53,630 --> 01:10:52,200  
why logic is against that but if you

1683  
01:10:55,550 --> 01:10:53,640  
take away that so hang on a minute

1684  
01:10:57,800 --> 01:10:55,560  
if this planet is seeded then it's

1685  
01:11:00,050 --> 01:10:57,810  
always been know that life was here so

1686  
01:11:04,130 --> 01:11:00,060  
there's always being forces out there in

1687  
01:11:05,600 --> 01:11:04,140  
the cosmos because they planted any

1688  
01:11:07,820 --> 01:11:05,610

other extra pressures from know of their

1689

01:11:09,860 --> 01:11:07,830

activities you start to open up the

1690

01:11:12,310 --> 01:11:09,870

pattern was box of how many species knew

1691

01:11:15,120 --> 01:11:12,320

that this was a planning of an ecosystem

1692

01:11:17,370 --> 01:11:15,130

these stars do then little obviously

1693

01:11:19,950 --> 01:11:17,380

today of course the people kinds of

1694

01:11:22,500 --> 01:11:19,960

beings all kinds of encounters and in

1695

01:11:25,020 --> 01:11:22,510

many of them they are told we are in

1696

01:11:27,110 --> 01:11:25,030

some way involved in your evolution we

1697

01:11:30,240 --> 01:11:27,120

are involved in the planets ecosystem

1698

01:11:32,250 --> 01:11:30,250

concerned about the ecosystem often the

1699

01:11:34,020 --> 01:11:32,260

messages on that you're destroying the

1700

01:11:35,610 --> 01:11:34,030

planet there's been environmental

1701

01:11:37,290 --> 01:11:35,620

catastrophe they seem to have some kind

1702

01:11:38,820 --> 01:11:37,300

of concern about this there's always

1703

01:11:41,160 --> 01:11:38,830

some project that they've been involved

1704

01:11:43,860 --> 01:11:41,170

with a young Madison to makes a lot of

1705

01:11:46,140 --> 01:11:43,870

sense or good finding what's though in

1706

01:11:48,720 --> 01:11:46,150

the in the genome this evidence of

1707

01:11:49,950 --> 01:11:48,730

course horizontal gene transfer and

1708

01:11:51,840 --> 01:11:49,960

courage with dream chance is quite

1709

01:11:54,360 --> 01:11:51,850

interesting because it's is the

1710

01:11:58,200 --> 01:11:54,370

detection of genes event of the human

1711

01:12:01,500 --> 01:11:58,210

lineage but not from ancestors that have

1712

01:12:04,590 --> 01:12:01,510

come somehow from other organisms some

1713

01:12:06,570 --> 01:12:04,600

of these are types of funguses some of

1714

01:12:10,649 --> 01:12:06,580

them are other animals some of them come

1715

01:12:12,270 --> 01:12:10,659

from viruses CT viruses bacteria the

1716

01:12:15,240 --> 01:12:12,280

viruses are just because if using a

1717

01:12:18,060 --> 01:12:15,250

modified retrovirus in such a carry

1718

01:12:19,830 --> 01:12:18,070

genes into a species deliberately so we

1719

01:12:22,439 --> 01:12:19,840

don't then know whether it was this an

1720

01:12:24,120 --> 01:12:22,449

incidental event that a virus infected

1721

01:12:26,700 --> 01:12:24,130

us and in carrying across genes from

1722

01:12:29,040 --> 01:12:26,710

another species or you know is somebody

1723

01:12:30,570 --> 01:12:29,050

using that as a tool in the same way

1724

01:12:32,790 --> 01:12:30,580

that we've discussed the CRISPR

1725

01:12:34,410 --> 01:12:32,800

technologies do we now have methods of

1726

01:12:36,419 --> 01:12:34,420

doing it deliberately it need not be

1727

01:12:38,070 --> 01:12:36,429

accidental and some of these genes that

1728

01:12:39,750 --> 01:12:38,080

have come across for pretty intriguing

1729

01:12:41,729 --> 01:12:39,760

to do with the brains development

1730

01:12:44,310 --> 01:12:41,739

there's others good to do with the

1731

01:12:46,709 --> 01:12:44,320

differentiation of blood types you know

1732

01:12:50,010 --> 01:12:46,719

some really unexpected functions to have

1733

01:12:52,200 --> 01:12:50,020

come from other species we also find

1734

01:12:53,340 --> 01:12:52,210

that there's evidence that there is a

1735

01:12:56,310 --> 01:12:53,350

embossed

1736

01:12:58,320 --> 01:12:56,320

cloud of retroviruses they serve in our

1737

01:12:59,040 --> 01:12:58,330

planet and they work as soon as possible

1738

01:13:02,130 --> 01:12:59,050

is genetic

1739

01:13:04,470 --> 01:13:02,140

we think that when these read them you

1740

01:13:06,780 --> 01:13:04,480

know they they cause some events free

1741

01:13:10,410 --> 01:13:06,790

events they have these viruses into the

1742

01:13:13,709 --> 01:13:10,420

system they cause mutations in us there

1743

01:13:16,200 --> 01:13:13,719

are not slow changes of advanced periods

1744

01:13:17,310 --> 01:13:16,210

of time but they're very sudden and if

1745

01:13:20,370 --> 01:13:17,320

you look at two hundred thousand years

1746

01:13:23,550 --> 01:13:20,380

ago we start to think and you become

1747

01:13:24,720 --> 01:13:23,560

homo sapiens sapiens there's evidence to

1748

01:13:26,970 --> 01:13:24,730

suggest as something very strange

1749

01:13:29,640 --> 01:13:26,980

happened then because a recent study

1750

01:13:31,410 --> 01:13:29,650

found that so I said it's a percent of

1751

01:13:35,040 --> 01:13:31,420

all the testimonials that were involved

1752

01:13:38,459 --> 01:13:35,050

in the study they found seven percent of

1753

01:13:40,890 --> 01:13:38,469

though the mitral homogeneity the female

1754

01:13:43,200 --> 01:13:40,900

line of the DNA loop are there they look

1755

01:13:45,660 --> 01:13:43,210

only traced back to 200,000 years ago

1756

01:13:48,630 --> 01:13:45,670

with 70 percent of the species they look

1757

01:13:52,080 --> 01:13:48,640

as though there was suddenly a global

1758

01:13:54,180 --> 01:13:52,090

event that mutated the life forms all

1759

01:13:55,830 --> 01:13:54,190

around the planet unless is very well

1760

01:13:59,760 --> 01:13:55,840

with one of these distributions of these

1761

01:14:02,040 --> 01:13:59,770

retroviruses are they being simply put

1762

01:14:04,530 --> 01:14:02,050

into the air above us they rain down and

1763

01:14:06,990 --> 01:14:04,540

they modify the experiment okay it's

1764

01:14:08,910 --> 01:14:07,000

time for another upgrade you know just

1765

01:14:11,190 --> 01:14:08,920

release one of these want to find spores

1766

01:14:13,590 --> 01:14:11,200

put it at about the sphere it will rain

1767

01:14:16,200 --> 01:14:13,600

down on them these are kind of consider

1768

01:14:18,060 --> 01:14:16,210

because then at any moment these ones

1769

01:14:20,640 --> 01:14:18,070

can come you know these these are being

1770

01:14:23,220 --> 01:14:20,650

deliberately engineered and I suspect

1771

01:14:24,690 --> 01:14:23,230

they are then they can come raining down

1772

01:14:27,120 --> 01:14:24,700

and changes and that's not the only

1773

01:14:29,010 --> 01:14:27,130

point 200,000 years ago it was a paper I

1774

01:14:31,229 --> 01:14:29,020

think now about a year ago so you may

1775

01:14:32,940 --> 01:14:31,239

have read in the press that there was an

1776

01:14:35,700 --> 01:14:32,950

article that came out suggesting that

1777

01:14:38,310 --> 01:14:35,710

octopus might be some rare native

1778

01:14:40,709 --> 01:14:38,320

species but in the same paper they

1779

01:14:43,740 --> 01:14:40,719

discussed the Cambrian explosion which

1780

01:14:45,959 --> 01:14:43,750

better than that point in time so much a

1781

01:14:48,209 --> 01:14:45,969

million years ago there was a certain

1782

01:14:50,220 --> 01:14:48,219

transmitting a few simple single-celled

1783

01:14:52,200 --> 01:14:50,230

organisms or just suddenly this outburst

1784

01:14:55,160 --> 01:14:52,210

of life a more complex life force

1785

01:14:57,590 --> 01:14:55,170

appearing very suddenly

1786

01:14:59,510 --> 01:14:57,600

now remember what did you think about

1787

01:15:01,189 --> 01:14:59,520

thirty academics the came together

1788

01:15:03,290 --> 01:15:01,199

because they know these kind of papers

1789

01:15:05,540 --> 01:15:03,300

you know these couldn't easily a lot of

1790

01:15:08,660 --> 01:15:05,550

poison chalice when they stop talking

1791

01:15:10,669 --> 01:15:08,670

about alien upgrades anyway even if you

1792

01:15:12,709 --> 01:15:10,679

don't mention you know intelligence we

1793

01:15:14,180 --> 01:15:12,719

simply say leaving life comes from space

1794

01:15:16,820 --> 01:15:14,190

we think that there's organisms

1795

01:15:17,360 --> 01:15:16,830

apparently those are enough so they team

1796

01:15:18,800 --> 01:15:17,370

together

1797

01:15:21,380 --> 01:15:18,810

thirty of them but their names to it

1798

01:15:24,260 --> 01:15:21,390

saying we think that there was one of

1799

01:15:27,380 --> 01:15:24,270

these come spirits at that point with

1800

01:15:29,330 --> 01:15:27,390

viable spores raining down modifying

1801

01:15:30,800 --> 01:15:29,340

life on this planet they go to bit

1802

01:15:32,390 --> 01:15:30,810

further and they said if you look at

1803

01:15:34,610 --> 01:15:32,400

some of the creatures here for example

1804

01:15:37,220 --> 01:15:34,620

the octopus there's a very strange

1805

01:15:40,669 --> 01:15:37,230

things about them the octopus has or

1806

01:15:42,860 --> 01:15:40,679

they've considered to be beyond like

1807

01:15:45,050 --> 01:15:42,870

next generation illusion changes this as

1808

01:15:47,240 --> 01:15:45,060

always as a new believers borrowed from

1809

01:15:50,390 --> 01:15:47,250

a future event and brought it back to

1810

01:15:51,890 --> 01:15:50,400

the octopus the octopus has these you

1811

01:15:53,330 --> 01:15:51,900

know executive abilities are not seen or

1812

01:15:55,340 --> 01:15:53,340

else chain you know changing its color

1813

01:15:57,740 --> 01:15:55,350

rapidly changing its shape it has a

1814

01:15:59,270 --> 01:15:57,750

completely different eye system visual

1815

01:16:01,220 --> 01:15:59,280

systems other animals it has

1816

01:16:02,750 --> 01:16:01,230

intelligence and was wearing they're

1817

01:16:04,130 --> 01:16:02,760

extremely in church house they had a

1818

01:16:06,260 --> 01:16:04,140

different type of intelligence

1819

01:16:08,630 --> 01:16:06,270

there's up here in a completely separate

1820

01:16:11,240 --> 01:16:08,640

waves ours all these systems seems have

1821

01:16:12,830 --> 01:16:11,250

come in their view from some other even

1822

01:16:15,010 --> 01:16:12,840

losing invent which they suspect

1823

01:16:18,229 --> 01:16:15,020

occurred on another planet

1824

01:16:20,630 --> 01:16:18,239

these octopus have possibly arrived you

1825

01:16:23,689 --> 01:16:20,640

have frozen in clients was their idea

1826  
01:16:25,729 --> 01:16:23,699  
now I take that as being the academics

1827  
01:16:28,010 --> 01:16:25,739  
they have no beliefs saying possibly

1828  
01:16:31,459 --> 01:16:28,020  
carried in a structured cross because I

1829  
01:16:33,950 --> 01:16:31,469  
don't see how a comment can carry to

1830  
01:16:36,470 --> 01:16:33,960  
that you have to go and say it's more

1831  
01:16:37,779 --> 01:16:36,480  
likely that they can survive frozen in

1832  
01:16:39,580 --> 01:16:37,789  
kind some kind of best

1833  
01:16:41,529 --> 01:16:39,590  
when they can arrive on me try to a

1834  
01:16:43,750 --> 01:16:41,539  
comment doesn't really make sense or

1835  
01:16:45,279 --> 01:16:43,760  
there's somebody already on this planet

1836  
01:16:47,410 --> 01:16:45,289  
there's playing with life which is

1837  
01:16:49,089 --> 01:16:47,420  
modifying these creatures just do these

1838  
01:16:50,919 --> 01:16:49,099

things here and then what happens not

1839

01:16:52,810 --> 01:16:50,929

just the optimist there's an awful lot

1840

01:16:55,390 --> 01:16:52,820

about losing the record that don't seem

1841

01:16:57,759 --> 01:16:55,400

to have precursors in just appear in the

1842

01:17:03,100 --> 01:16:57,769

fossil record have nowhere dissolved

1843

01:17:04,779 --> 01:17:03,110

effect birds right the birds seem to

1844

01:17:07,270 --> 01:17:04,789

have been twice forest or bird-like

1845

01:17:09,100 --> 01:17:07,280

creatures you know that they appear when

1846

01:17:11,350 --> 01:17:09,110

they go extinct and later on they see

1847

01:17:13,089 --> 01:17:11,360

two of us there's a fly back in from

1848

01:17:14,020 --> 01:17:13,099

somewhere you know it appear again in

1849

01:17:15,850 --> 01:17:14,030

the fossil record

1850

01:17:17,770 --> 01:17:15,860

without without any sort of you know he

1851  
01:17:20,560 --> 01:17:17,780  
believes the event leading to them again

1852  
01:17:23,439 --> 01:17:20,570  
something's not right very strange about

1853  
01:17:26,279 --> 01:17:23,449  
that if we look at today of course and

1854  
01:17:29,379 --> 01:17:26,289  
we those say the information coming out

1855  
01:17:30,939 --> 01:17:29,389  
it's a very strange tale it does seem

1856  
01:17:33,669 --> 01:17:30,949  
that the things are coming together this

1857  
01:17:36,310 --> 01:17:33,679  
is this was an experiment of some sort

1858  
01:17:39,310 --> 01:17:36,320  
from the beginning some kind of project

1859  
01:17:41,609 --> 01:17:39,320  
here the delivery of DNA this planet -

1860  
01:17:44,020 --> 01:17:41,619  
did DNA to be a very advanced

1861  
01:17:46,270 --> 01:17:44,030  
extraterrestrial terraforming technology

1862  
01:17:48,640 --> 01:17:46,280  
that's what he's you spray it down on

1863  
01:17:51,279 --> 01:17:48,650

the planet and go to the main power to

1864

01:17:53,709 --> 01:17:51,289

be incredibly ecosystem part we have

1865

01:17:55,149 --> 01:17:53,719

together and then you see what is it

1866

01:17:56,379 --> 01:17:55,159

that when Exeter was coming what do they

1867

01:17:58,959 --> 01:17:56,389

want because there's been stories of

1868

01:18:01,540 --> 01:17:58,969

maybe they come for gold maybe they come

1869

01:18:03,310 --> 01:18:01,550

for water you think about it it's plenty

1870

01:18:05,950 --> 01:18:03,320

of gold out in the solar system you

1871

01:18:08,859 --> 01:18:05,960

combine that propel the gold you want is

1872

01:18:10,479 --> 01:18:08,869

water on comments well that's principle

1873

01:18:11,979 --> 01:18:10,489

what do we have that is really

1874

01:18:14,470 --> 01:18:11,989

interesting to some of these races what

1875

01:18:16,959 --> 01:18:14,480

is it that people report having taken of

1876

01:18:19,000 --> 01:18:16,969

DNA again and again we look at the

1877

01:18:21,069 --> 01:18:19,010

reports but say there's encounters and

1878

01:18:23,080 --> 01:18:21,079

yet you terrestrials two samples and

1879

01:18:25,089 --> 01:18:23,090

also the imaging animals being taken

1880

01:18:27,080 --> 01:18:25,099

lots of strange things are happening the

1881

01:18:29,840 --> 01:18:27,090

most valuable thing in this plan

1882

01:18:31,790 --> 01:18:29,850

it is the DNA itself and the fact that

1883

01:18:33,770 --> 01:18:31,800

we had this period to love all these

1884

01:18:35,870 --> 01:18:33,780

different life rooms who implicitly have

1885

01:18:37,340 --> 01:18:35,880

some very interesting characteristics

1886

01:18:38,960 --> 01:18:37,350

and that there may be that they are

1887

01:18:40,910 --> 01:18:38,970

interest out there you see something

1888

01:18:42,620 --> 01:18:40,920

like the octopus and say hey you know

1889

01:18:44,900 --> 01:18:42,630

what I would like to have the ability to

1890

01:18:47,060 --> 01:18:44,910

shift my shaving my color let's just

1891

01:18:48,890 --> 01:18:47,070

extract some DNA from the optimist see

1892

01:18:51,080 --> 01:18:48,900

if we can many with that use that as an

1893

01:18:54,230 --> 01:18:51,090

upgrade she starts to hang on this is

1894

01:18:56,300 --> 01:18:54,240

not so those are all messages with the

1895

01:18:59,060 --> 01:18:56,310

reports that are coming from thousands

1896

01:19:00,560 --> 01:18:59,070

and thousands of people now have my own

1897

01:19:01,430 --> 01:19:00,570

experience is also my wife's experience

1898

01:19:03,950 --> 01:19:01,440

I'm sure lots of people other

1899

01:19:05,600 --> 01:19:03,960

experiences here but if you read widely

1900

01:19:07,820 --> 01:19:05,610

you'll know that there's certainly that

1901

01:19:11,660 --> 01:19:07,830

is a they feel in the contact

1902

01:19:14,020 --> 01:19:11,670

experiences to the ecosystem and DNA I

1903

01:19:17,900 --> 01:19:14,030

think that we are headed to some kind of

1904

01:19:18,890 --> 01:19:17,910

end point with experiment I think that

1905

01:19:19,970 --> 01:19:18,900

you know that's what we're seeing them

1906

01:19:22,160 --> 01:19:19,980

you know we've reached we have to

1907

01:19:24,200 --> 01:19:22,170

complex what we have this hominem that's

1908

01:19:26,720 --> 01:19:24,210

been further upgraded we have the

1909

01:19:28,550 --> 01:19:26,730

capabilities or contacts all these

1910

01:19:30,290 --> 01:19:28,560

things that have them psychic phenomena

1911

01:19:32,180 --> 01:19:30,300

it seems to me in some way we mean

1912

01:19:35,150 --> 01:19:32,190

operates to be able to have intuitive

1913

01:19:38,180 --> 01:19:35,160

abilities as a gene which seems to allow

1914

01:19:41,540 --> 01:19:38,190

for that which is toasty to there's a

1915

01:19:44,240 --> 01:19:41,550

fox eats him enables but I think but

1916

01:19:47,480 --> 01:19:44,250

your name's not only that higher speech

1917

01:19:49,280 --> 01:19:47,490

village do we have to inform workers but

1918

01:19:52,100 --> 01:19:49,290

also has been implicated in an area to

1919

01:19:55,500 --> 01:19:52,110

break the core date this is the diamond

1920

01:19:57,629 --> 01:19:55,510

looks like Gary Nolan interests

1921

01:20:00,359 --> 01:19:57,639

has been associated with the chilliest

1922

01:20:01,919 --> 01:20:00,369

arts company they also you pre-market

1923

01:20:02,819 --> 01:20:01,929

arunoda needs the garden to the answer

1924

01:20:05,580 --> 01:20:02,829

column mummy

1925

01:20:07,770 --> 01:20:05,590

so we've seen seeing that he's the

1926

01:20:09,200 --> 01:20:07,780

geneticist but with that he's been

1927

01:20:11,790 --> 01:20:09,210

looking at this structure in the

1928

01:20:13,709 --> 01:20:11,800

incarnation of the brain which seems to

1929

01:20:16,950 --> 01:20:13,719

be related to intuition and higher

1930

01:20:19,709 --> 01:20:16,960

cognitive functions fox p2 gene is also

1931

01:20:21,390 --> 01:20:19,719

indicating changes in that region my

1932

01:20:23,700 --> 01:20:21,400

suspicion is that when they when these

1933

01:20:26,250 --> 01:20:23,710

beings changed Fox p2 they weren't just

1934

01:20:29,459 --> 01:20:26,260

after upgrading of the language but also

1935

01:20:32,220 --> 01:20:29,469

for intuitive capabilities increasing

1936

01:20:34,049 --> 01:20:32,230

our psychic abilities together there's

1937

01:20:35,970 --> 01:20:34,059

some good seems to be that there are

1938

01:20:38,330 --> 01:20:35,980

interests out there that we're giving us

1939

01:20:40,319 --> 01:20:38,340

certain skills which will be beneficial

1940

01:20:42,509 --> 01:20:40,329

plus there may be others who have done

1941

01:20:44,009 --> 01:20:42,519

things to us which are negative as I

1942

01:20:48,270 --> 01:20:44,019

said there are things in their human

1943

01:20:51,390 --> 01:20:48,280

genomes not upgrades downgrades damage

1944

01:20:54,569 --> 01:20:51,400

so there seems to be no I think some

1945

01:20:56,580 --> 01:20:54,579

kind of to label again look good look at

1946

01:20:58,830 --> 01:20:56,590

the experiences of people telling you

1947

01:21:00,060 --> 01:20:58,840

yes people are very negative experiences

1948

01:21:02,069 --> 01:21:00,070

or there's like very positive

1949

01:21:04,890 --> 01:21:02,079

experiences there's no I don't believe

1950

01:21:07,740 --> 01:21:04,900

that is a singular intelligence there's

1951

01:21:09,270 --> 01:21:07,750

multiple players at the table some of

1952

01:21:10,979 --> 01:21:09,280

they are friendly some of them are

1953

01:21:14,040 --> 01:21:10,989

neutral and some of them are downright

1954

01:21:16,950 --> 01:21:14,050

nasty that bears out again and again in

1955

01:21:18,509 --> 01:21:16,960

the contact experiences whereas you're

1956

01:21:20,549 --> 01:21:18,519

going I guess when it's six I think we

1957

01:21:22,229 --> 01:21:20,559

are not far off now for there he was

1958

01:21:24,120 --> 01:21:22,239

polish the subject knows that there's a

1959

01:21:27,779 --> 01:21:24,130

lot of rulings about disclosure at the

1960

01:21:28,770 --> 01:21:27,789

moment whether that is craft material to

1961

01:21:32,910 --> 01:21:28,780

be analyzed

1962

01:21:34,919 --> 01:21:32,920

I chase cars Academy there's I've seen

1963

01:21:36,750 --> 01:21:34,929

more genetically designed as I say by

1964

01:21:39,540 --> 01:21:36,760

carrying Noland and got to keep green

1965

01:21:41,250 --> 01:21:39,550

who's in these secret programs for a

1966

01:21:43,560 --> 01:21:41,260

very long time connected with Project

1967

01:21:46,319 --> 01:21:43,570

Star Gate who we gather and all those

1968

01:21:48,660 --> 01:21:46,329

days so these people are here to get out

1969

01:21:49,410 --> 01:21:48,670

the woodwork you know this I think some

1970

01:21:50,819 --> 01:21:49,420

interesting things are gonna be

1971

01:21:53,760 --> 01:21:50,829

developing in the next couple years

1972

01:21:57,779 --> 01:21:53,770

obviously I'm do something similar but

1973

01:22:00,000 --> 01:21:57,789

I'm not connected with the CIA with any

1974

01:22:02,279 --> 01:22:00,010

of the team state so I'd like to think

1975

01:22:04,290 --> 01:22:02,289

that you know for those people who don't

1976

01:22:06,479 --> 01:22:04,300

trust those initiatives

1977

01:22:08,279 --> 01:22:06,489

I understand they don't though I'm

1978

01:22:10,830 --> 01:22:08,289

offering them eternity that there is

1979

01:22:12,870 --> 01:22:10,840

craft debris has already been analyzed

1980

01:22:14,939 --> 01:22:12,880

which is already know identified don't

1981

01:22:21,419 --> 01:22:14,949

need to wait on some spoons to tell us

1982

01:22:23,100 --> 01:22:21,429

about it there's rain down in mass that

1983

01:22:25,049 --> 01:22:23,110

we have the genetic anomaly is already I

1984

01:22:26,669 --> 01:22:25,059

don't mean to wait for you know another

1985

01:22:27,660 --> 01:22:26,679

book to come out from these people in

1986

01:22:29,700 --> 01:22:27,670

their organizations

1987

01:22:32,930 --> 01:22:29,710

so we they're identified the genetic

1988

01:22:35,640 --> 01:22:32,940

changes this specific you know

1989

01:22:38,339 --> 01:22:35,650

chromosomes there's specific genes don't

1990

01:22:41,069 --> 01:22:38,349

refer anyone to they deceive yourselves

1991

01:22:43,709 --> 01:22:41,079

you don't need to you know wait for the

1992

01:22:45,990 --> 01:22:43,719

next disclosed your event when he comes

1993

01:22:47,520 --> 01:22:46,000

down to what resonates with you and one

1994

01:22:48,810 --> 01:22:47,530

way we can check themselves so I hope

1995

01:22:51,930 --> 01:22:48,820

that you know I've given you some of

1996

01:22:53,399 --> 01:22:51,940

that and that you know ask questions you

1997

01:23:16,350 --> 01:22:53,409

know be glad to take a look I'll

1998

01:23:25,750 --> 01:23:20,950

yeah yeah ventures message my suspicion

1999

01:23:29,080 --> 01:23:25,760

is that polo Naledi represents something

2000

01:23:31,600 --> 01:23:29,090

close to what we would be today without

2001  
01:23:33,160 --> 01:23:31,610  
the modification because over the ladies

2002  
01:23:35,410 --> 01:23:33,170  
is quite sister because he sees been an

2003  
01:23:38,350 --> 01:23:35,420  
isolated home in population to survive

2004  
01:23:39,700 --> 01:23:38,360  
all the way around 200,000 years ago and

2005  
01:23:42,580 --> 01:23:39,710  
of course but they first found the birds

2006  
01:23:44,830 --> 01:23:42,590  
the scientists was sure this must be a

2007  
01:23:46,959 --> 01:23:44,840  
hominid about 4 million 2 million years

2008  
01:23:48,910 --> 01:23:46,969  
old they would look at the size then

2009  
01:23:51,520 --> 01:23:48,920  
look at the grain size it's still got

2010  
01:23:54,000 --> 01:23:51,530  
the grasping fingers for climbing you

2011  
01:23:57,400 --> 01:23:54,010  
know and it's like that with alongside

2012  
01:23:59,650 --> 01:23:57,410  
Homo sapiens right that's right if it is

2013  
01:24:02,229 --> 01:23:59,660

in my model of course the engineering is

2014

01:24:04,240 --> 01:24:02,239

happening in Australia no in Africa so

2015

01:24:06,400 --> 01:24:04,250

there is no problem in my model at all

2016

01:24:09,700 --> 01:24:06,410

over having an isolated you know

2017

01:24:11,560 --> 01:24:09,710

population a remnant in Africa which is

2018

01:24:42,040 --> 01:24:11,570

remained how we would be today without

2019

01:24:51,890 --> 01:24:46,180

yeah we might go you sure you know that

2020

01:24:54,920 --> 01:24:51,900

interestingly and Bob Lazar is supposed

2021

01:24:57,140 --> 01:24:54,930

you know encounters the secret documents

2022

01:24:58,459 --> 01:24:57,150

as for that he encountered some

2023

01:25:01,220 --> 01:24:58,469

documents which talked about human

2024

01:25:03,620 --> 01:25:01,230

religious in there and suggested that

2025

01:25:07,640 --> 01:25:03,630

most of our religions were essentially

2026

01:25:10,550 --> 01:25:07,650

there to knowledge control us he said to

2027

01:25:12,770 --> 01:25:10,560

preserve the containers and they simply

2028

01:25:14,510 --> 01:25:12,780

referred to us as containers right and

2029

01:25:16,880 --> 01:25:14,520

then the containers need some kind of

2030

01:25:18,890 --> 01:25:16,890

instructions that stop them from

2031

01:25:20,570 --> 01:25:18,900

destroying them on destroying all the

2032

01:25:23,450 --> 01:25:20,580

containers and the religion had been

2033

01:25:25,600 --> 01:25:23,460

intended for this purpose to guide us in

2034

01:25:28,610 --> 01:25:25,610

a way that we wouldn't I guess go to

2035

01:25:30,740 --> 01:25:28,620

ironically do these horrible things but

2036

01:25:34,220 --> 01:25:30,750

clear that ask for it very well because

2037

01:25:36,470 --> 01:25:34,230

religion seems to equally of course the

2038

01:25:38,090 --> 01:25:36,480

wars the problems but said only this is

2039

01:25:39,800 --> 01:25:38,100

a control system that's been given I

2040

01:25:41,540 --> 01:25:39,810

don't think it's emerged just naturally

2041

01:25:44,150 --> 01:25:41,550

I don't think it's just a cargo cult

2042

01:25:46,370 --> 01:25:44,160

mentality where you know we we've looked

2043

01:25:48,380 --> 01:25:46,380

at the sources and and made them into

2044

01:25:50,390 --> 01:25:48,390

gods you know which is one argument I

2045

01:25:51,400 --> 01:25:50,400

think this is a some of this is direct

2046

01:25:54,560 --> 01:25:51,410

you know where there's been

2047

01:25:57,110 --> 01:25:54,570

intelligences coming here to have an

2048

01:25:59,000 --> 01:25:57,120

interest in directing our behavior in

2049

01:26:00,440 --> 01:25:59,010

certain ways and giving us a sense of

2050

01:26:03,050 --> 01:26:00,450

looking up to them so that when they

2051  
01:26:06,200 --> 01:26:03,060  
come visit they're seen as above us

2052  
01:26:08,930 --> 01:26:06,210  
God's of the sky so it I do think it's

2053  
01:26:24,030 --> 01:26:08,940  
more direct than simply us creating this

2054  
01:26:31,720 --> 01:26:26,350  
yeah sorry I mean the other like I

2055  
01:26:35,920 --> 01:26:31,730  
didn't explain it basically crisp is a

2056  
01:26:37,960 --> 01:26:35,930  
new way of cutting out parts of the

2057  
01:26:40,510 --> 01:26:37,970  
genome that we don't want modifying you

2058  
01:26:42,550 --> 01:26:40,520  
know going in and editing the human

2059  
01:26:44,790 --> 01:26:42,560  
genome so they need we say there's a

2060  
01:26:47,560 --> 01:26:44,800  
hereditary trait which is negative

2061  
01:26:49,900 --> 01:26:47,570  
qualities that you can go in and

2062  
01:26:52,630 --> 01:26:49,910  
actually modify the genetic code so that

2063  
01:26:55,000 --> 01:26:52,640

the offspring will no longer carry that

2064

01:26:58,630 --> 01:26:55,010

genetic trait and we can eradicate

2065

01:27:00,460 --> 01:26:58,640

certain you know nasty conditions of

2066

01:27:03,700 --> 01:27:00,470

course on the flip side we could also

2067

01:27:06,100 --> 01:27:03,710

create problems as far as I said easily

2068

01:27:07,660 --> 01:27:06,110

use these genes lives knowing for STIs

2069

01:27:09,880 --> 01:27:07,670

changes on forever you can eradicate

2070

01:27:12,760 --> 01:27:09,890

species you can actually target say

2071

01:27:16,570 --> 01:27:12,770

populations it's quite frightening in a

2072

01:27:20,080 --> 01:27:16,580

way it's a great thing because you could

2073

01:27:26,740 --> 01:27:20,090

just say hey maybe we don't want Chinese

2074

01:27:29,470 --> 01:27:26,750

people anymore no we're just you know

2075

01:27:31,510 --> 01:27:29,480

issue this too frightening cosmetics but

2076

01:27:33,010 --> 01:27:31,520

to be soldiers as we can fix this

2077

01:27:35,170 --> 01:27:33,020

problem we can fix up and we have to

2078

01:27:37,930 --> 01:27:35,180

beware because we know there's some very

2079

01:27:39,730 --> 01:27:37,940

evil people it's not quickly that they

2080

01:27:41,950 --> 01:27:39,740

often rise to the top

2081

01:27:45,430 --> 01:27:41,960

the last one is there to go just go in

2082

01:27:47,350 --> 01:27:45,440

and start editing our genome so that's

2083

01:27:59,740 --> 01:27:47,360

physiology so yeah a two-edged sword

2084

01:28:03,610 --> 01:27:59,750

which can be again not a good the past

2085

01:28:04,900 --> 01:28:03,620

a good new Union good world based

2086

01:28:15,090 --> 01:28:04,910

artists I haven't looked into their

2087

01:28:21,640 --> 01:28:18,690

yeah no reason why again I said those

2088

01:28:23,920 --> 01:28:21,650

retroviruses couldn't be just pumped out

2089

01:28:26,920 --> 01:28:23,930

you know where they're an ancient

2090

01:28:28,870 --> 01:28:26,930

restroom wants to use that or human

2091

01:28:31,300 --> 01:28:28,880

group you know works the same if someone

2092

01:28:33,280 --> 01:28:31,310

goes in modifies a retrovirus because

2093

01:28:36,310 --> 01:28:33,290

okay we want to transfer a certain

2094

01:28:38,470 --> 01:28:36,320

upgrade or problem but yeah absolutely

2095

01:28:40,120 --> 01:28:38,480

you could you know you can put these out

2096

01:28:43,150 --> 01:28:40,130

into the atmosphere and they rain down

2097

01:28:44,710 --> 01:28:43,160

slowly onto so we can be in you know in

2098

01:28:47,860 --> 01:28:44,720

a modification now where this stuff is

2099

01:28:49,360 --> 01:28:47,870

being written down on us also I was a

2100

01:28:51,790 --> 01:28:49,370

little bit curious about know when they

2101  
01:28:54,250 --> 01:28:51,800  
have this object who knew a mover and

2102  
01:28:56,770 --> 01:28:54,260  
through our solar system no Prius by

2103  
01:28:58,660 --> 01:28:56,780  
that itself maybe sometimes ways exist

2104  
01:29:01,390 --> 01:28:58,670  
equality in these retroviruses

2105  
01:29:03,220 --> 01:29:01,400  
registrated he happened to fly you know

2106  
01:29:05,050 --> 01:29:03,230  
through the orbital plane of the solar

2107  
01:29:07,690 --> 01:29:05,060  
system between Mars and Earth

2108  
01:29:08,980 --> 01:29:07,700  
this whole Bart solar system it comes in

2109  
01:29:10,840 --> 01:29:08,990  
and explains that between our planets

2110  
01:29:12,910 --> 01:29:10,850  
and flies off you know this thing

2111  
01:29:14,770 --> 01:29:12,920  
deposited some of these of sequence

2112  
01:29:16,420 --> 01:29:14,780  
these metallic seeds now they'll be

2113  
01:29:18,010 --> 01:29:16,430

raining down on us by now so this is a

2114

01:29:19,570 --> 01:29:18,020

subject that yes discerning whether it's

2115

01:29:21,520 --> 01:29:19,580

we're doing it they're doing it you know

2116

01:29:45,380 --> 01:29:21,530

they can certainly be underway yeah on

2117

01:29:50,100 --> 01:29:48,150

yeah absolutely are they the sciences

2118

01:29:52,770 --> 01:29:50,110

that were did saying that they found

2119

01:29:54,900 --> 01:29:52,780

scenes have DNA you know in this red

2120

01:29:57,150 --> 01:29:54,910

material they didn't know what it was he

2121

01:29:59,520 --> 01:29:57,160

couldn't identify whether it was known

2122

01:30:01,830 --> 01:29:59,530

as a known species you know he seemed to

2123

01:30:04,980 --> 01:30:01,840

be some kind of bacterium and there was

2124

01:30:08,040 --> 01:30:04,990

in that the water droplets of an unknown

2125

01:30:10,140 --> 01:30:08,050

type the current DNA and this I think

2126  
01:30:11,520 --> 01:30:10,150  
the same guys that were mentioned

2127  
01:30:14,250 --> 01:30:11,530  
earlier they've no involved in this

2128  
01:30:16,490 --> 01:30:14,260  
panspermia model they also look to this

2129  
01:30:18,750 --> 01:30:16,500  
and they suspected it was some new

2130  
01:30:20,880 --> 01:30:18,760  
retrovirus that come from space you know

2131  
01:30:23,610 --> 01:30:20,890  
such a bacterium that rained down got

2132  
01:30:25,710 --> 01:30:23,620  
into the central clouds and rain down so

2133  
01:30:28,230 --> 01:30:25,720  
it may not be that this process is going

2134  
01:30:30,960 --> 01:30:28,240  
on all the time and that they said

2135  
01:30:32,910 --> 01:30:30,970  
they'd like to extend idea the ecosystem

2136  
01:30:34,590 --> 01:30:32,920  
to more of a cosmic system and they

2137  
01:30:36,630 --> 01:30:34,600  
think there is interchange pretty

2138  
01:30:39,090 --> 01:30:36,640

different world by comets meteorites

2139

01:30:43,250 --> 01:30:39,100

cosmic dust you know all of this is

2140

01:30:46,830 --> 01:30:45,210

absolutely yeah they're not necessary

2141

01:30:48,630 --> 01:30:46,840

just quite deliberate Amiens you know

2142

01:30:50,160 --> 01:30:48,640

but they they feel that it could be

2143

01:30:51,990 --> 01:30:50,170

there's other ways needs to change that

2144

01:30:54,120 --> 01:30:52,000

even the cosmic dust supposed to have

2145

01:30:55,410 --> 01:30:54,130

organic compounds in it there's a living

2146

01:30:57,030 --> 01:30:55,420

you have smaller particles they're

2147

01:30:57,420 --> 01:30:57,040

bringing down they don't know larger the

2148

01:30:59,910 --> 01:30:57,430

burner

2149

01:31:02,460 --> 01:30:59,920

Rainie down slowly they may have been

2150

01:31:11,090 --> 01:31:02,470

ongoing interchange yeah over the whole

2151  
01:31:38,360 --> 01:31:36,950  
I do anything yeah I think that you know

2152  
01:31:40,040 --> 01:31:38,370  
we've seen in the last couple of solar

2153  
01:31:42,380 --> 01:31:40,050  
cycles who's really an anomalous

2154  
01:31:44,390 --> 01:31:42,390  
behavior and you know they're basically

2155  
01:31:46,460 --> 01:31:44,400  
concerns you know they don't know

2156  
01:31:48,470 --> 01:31:46,470  
whether this next one's going to be even

2157  
01:31:51,170 --> 01:31:48,480  
stranger you know that you may be that

2158  
01:31:53,630 --> 01:31:51,180  
we barely have a solar cycle that's one

2159  
01:31:56,240 --> 01:31:53,640  
that will just acquire historically

2160  
01:31:57,500 --> 01:31:56,250  
quiet times the dangerous because I

2161  
01:32:00,230 --> 01:31:57,510  
seriously when we get these big

2162  
01:32:02,030 --> 01:32:00,240  
outbursts that has come out nomads on

2163  
01:32:03,380 --> 01:32:02,040

top of that then yet another change my

2164

01:32:05,240 --> 01:32:03,390

another please I used to write on

2165

01:32:07,370 --> 01:32:05,250

22travel by character I used to

2166

01:32:10,130 --> 01:32:07,380

investigate upcoming changing solar

2167

01:32:12,710 --> 01:32:10,140

system and among status yes you've got

2168

01:32:14,690 --> 01:32:12,720

things like evidence paucity of galactic

2169

01:32:17,060 --> 01:32:14,700

super waves coming from the galactic

2170

01:32:19,400 --> 01:32:17,070

core they found that dust has been moved

2171

01:32:21,230 --> 01:32:19,410

into our solar system from space which

2172

01:32:23,690 --> 01:32:21,240

is whether if this is considered to be

2173

01:32:26,420 --> 01:32:23,700

one of the bits of evidence to suggest

2174

01:32:28,190 --> 01:32:26,430

that's happening you've had has been

2175

01:32:32,120 --> 01:32:28,200

changing also the planets I mean I think

2176

01:32:35,690 --> 01:32:32,130

it was Jupiter is chaser there's a no

2177

01:32:38,810 --> 01:32:35,700

powers like but it might be some sort of

2178

01:32:41,540 --> 01:32:38,820

to feel about his own there's a I mean

2179

01:32:43,320 --> 01:32:41,550

he was sound on CML board and then

2180

01:32:45,390 --> 01:32:43,330

laying freezes

2181

01:32:46,620 --> 01:32:45,400

yeah changes these shapes those are

2182

01:32:48,870 --> 01:32:46,630

Jupiter's got that going on it's also

2183

01:32:50,910 --> 01:32:48,880

sort of a cell frequency is coming out

2184

01:32:53,520 --> 01:32:50,920

of the planet it's producing a standing

2185

01:32:57,510 --> 01:32:53,530

wave perhaps I cannot standing wave this

2186

01:32:59,550 --> 01:32:57,520

little signal coming out so we've got

2187

01:33:01,110 --> 01:32:59,560

this really strange changing I do think

2188

01:33:03,900 --> 01:33:01,120

the chemists I think these are time to

2189

01:33:05,280 --> 01:33:03,910

us coming to this strange point where

2190

01:33:07,680 --> 01:33:05,290

it's almost like the upgrades or these

2191

01:33:09,780 --> 01:33:07,690

changes have culminated and now they

2192

01:33:12,090 --> 01:33:09,790

stuck on our solar system is this

2193

01:33:15,240 --> 01:33:12,100

strange note ecosystem collapse that's

2194

01:33:17,400 --> 01:33:15,250

coming on all seems to be coinciding an

2195

01:33:19,640 --> 01:33:17,410

hour talking disclosure agents coming

2196

01:33:22,230 --> 01:33:19,650

out at each step wanting to talk

2197

01:33:24,270 --> 01:33:22,240

croaking that do they know there's

2198

01:33:25,590 --> 01:33:24,280

something coming we're no longer things

2199

01:33:27,540 --> 01:33:25,600

going to keep it secret

2200

01:33:29,220 --> 01:33:27,550

because it's their families to eat or

2201

01:33:48,930 --> 01:33:29,230

whatever but it's the very strange

2202

01:34:06,820 --> 01:34:01,419

do you think we all get some yeah yeah

2203

01:34:08,919 --> 01:34:06,830

my mom said no I think that there is a

2204

01:34:12,120 --> 01:34:08,929

potential there for us to engage with

2205

01:34:15,490 --> 01:34:12,130

these intelligences the ones that are

2206

01:34:17,530 --> 01:34:15,500

nasty and look for some that help in

2207

01:34:18,820 --> 01:34:17,540

potential so I do view this that there

2208

01:34:20,439 --> 01:34:18,830

is the chance that we can do that I

2209

01:34:22,419 --> 01:34:20,449

think they're part of that in my

2210

01:34:24,580 --> 01:34:22,429

understanding I think first we got to

2211

01:34:27,370 --> 01:34:24,590

deal with the fact that it seems that

2212

01:34:29,770 --> 01:34:27,380

our leadership the deep state type

2213

01:34:32,470 --> 01:34:29,780

people are already collaborating with

2214

01:34:34,720 --> 01:34:32,480

offworld influences in my view were very

2215

01:34:37,629 --> 01:34:34,730

negative and so other groups that are

2216

01:34:39,280 --> 01:34:37,639

more positive AB AC standing back and

2217

01:34:40,899 --> 01:34:39,290

they're waiting to see what we do you

2218

01:34:43,570 --> 01:34:40,909

know we chosen sides already

2219

01:34:45,790 --> 01:34:43,580

to be honest so I was then in their

2220

01:34:47,709 --> 01:34:45,800

position sure I rushed in to help if I

2221

01:34:49,720 --> 01:34:47,719

feel that humanity has chosen the enemy

2222

01:34:51,250 --> 01:34:49,730

right so we have to be very careful I

2223

01:34:52,720 --> 01:34:51,260

see where each one we say hey what are

2224

01:34:54,250 --> 01:34:52,730

they helping why they are flying in

2225

01:34:56,109 --> 01:34:54,260

maybe they look and they say well we'll

2226

01:34:58,780 --> 01:34:56,119

go that way you've already made signs

2227

01:35:00,310 --> 01:34:58,790

for the others I'm not interested so I

2228

01:35:01,750 --> 01:35:00,320

think that the first we have to do say

2229

01:35:04,180 --> 01:35:01,760

about this issue we see which we've got

2230

01:35:07,030 --> 01:35:04,190

in an evil are keep running the planet

2231

01:35:08,800 --> 01:35:07,040

then I you know a pedophile satanically

2232

01:35:10,030 --> 01:35:08,810

basically much like they might discuss a

2233

01:35:13,090 --> 01:35:10,040

little bit what's going on the keys

2234

01:35:15,640 --> 01:35:13,100

going out strange sex cops it's strange

2235

01:35:19,240 --> 01:35:15,650

you know the network's the Vatican but

2236

01:35:22,149 --> 01:35:19,250

in government's next Prime Minister

2237

01:35:24,250 --> 01:35:22,159

indicated in a cult ritual sex abuse I

2238

01:35:25,899 --> 01:35:24,260

mean at what point to be saying hmm

2239

01:35:28,689 --> 01:35:25,909

things have gone horribly horribly wrong

2240

01:35:30,970 --> 01:35:28,699

with cigars risen to the top people are

2241

01:35:32,800 --> 01:35:30,980

seeing them involved in a concrete rules

2242

01:35:34,870 --> 01:35:32,810

contacting entities or these entities

2243

01:35:36,700 --> 01:35:34,880

you know where are they coming from

2244

01:35:38,590 --> 01:35:36,710

I don't think that they're just families

2245

01:35:40,450 --> 01:35:38,600

and sports you know their community so

2246

01:35:41,050 --> 01:35:40,460

they offers them something that gives

2247

01:35:42,520 --> 01:35:41,060

them power

2248

01:35:44,020 --> 01:35:42,530

and this is something you know

2249

01:35:44,840 --> 01:35:44,030

historically is being claimed for a very

2250

01:35:47,540 --> 01:35:44,850

long time

2251

01:35:49,370 --> 01:35:47,550

entities which you contact which will

2252

01:35:51,170 --> 01:35:49,380

give you influence or power if you know

2253

01:35:53,630 --> 01:35:51,180

what they want and I think then shall we

2254

01:35:55,970 --> 01:35:53,640

sort of grows up a bit as a species and

2255

01:35:57,860 --> 01:35:55,980

kind of choose again you know I'm aware

2256

01:36:00,110 --> 01:35:57,870

as to whether the bees will come in but

2257

01:36:02,570 --> 01:36:00,120

this is kind of after on their view

2258

01:36:26,660 --> 01:36:02,580

maybe it'll be cases where maybe the

2259

01:36:29,540 --> 01:36:26,670

perch is better that was 40 of them they

2260

01:36:31,430 --> 01:36:29,550

were weighed one Dunstan yeah he said if

2261

01:36:35,690 --> 01:36:31,440

he was alive today there was enough to

2262

01:36:37,430 --> 01:36:35,700

arrest in him and question Jim who

2263

01:36:39,380 --> 01:36:37,440

misses well it'd be easy to come out and

2264

01:36:42,890 --> 01:36:39,390

so all that after they die they're

2265

01:36:45,410 --> 01:36:42,900

protected at that point but he is not

2266

01:36:51,830 --> 01:36:45,420

alone and I know through people I know I

2267

01:36:53,510 --> 01:36:51,840

know that it's not just politics

2268

01:36:56,120 --> 01:36:53,520

religion and all the halls of power

2269

01:37:00,610 --> 01:36:56,130

you've got these people is they look

2270

01:37:07,910 --> 01:37:00,620

like people so yeah I mean that's

2271

01:37:10,100 --> 01:37:07,920

another issue I've mixed views about

2272

01:37:10,750 --> 01:37:10,110

that because if we are the influence you

2273

01:37:13,130 --> 01:37:10,760

know us men

2274

01:37:14,720 --> 01:37:13,140

well I'm not there's no pollution but if

2275

01:37:16,640 --> 01:37:14,730

we are always being influenced by

2276

01:37:19,910 --> 01:37:16,650

outside intelligences how much of

2277

01:37:21,080 --> 01:37:19,920

anything is just a phone so are some of

2278

01:37:23,750 --> 01:37:21,090

these things happening because they are

2279

01:37:26,090 --> 01:37:23,760

of interest to other intelligences for

2280

01:37:28,310 --> 01:37:26,100

example let's just say our environment

2281

01:37:29,930 --> 01:37:28,320

is great for us maybe it's not great for

2282

01:37:33,140 --> 01:37:29,940

someone else maybe they would like to

2283

01:37:34,910 --> 01:37:33,150

terraform this planet right so you think

2284

01:37:36,700 --> 01:37:34,920

yeah they guys to do it say well we

2285

01:37:39,320 --> 01:37:36,710

don't really like the amount of you know

2286

01:37:41,310 --> 01:37:39,330

we don't like the way you are opens up

2287

01:37:44,799 --> 01:37:41,320

can you just

2288

01:37:46,419 --> 01:37:44,809

you know we consume this do that do that

2289

01:37:48,279 --> 01:37:46,429

we will change to how we want to be

2290

01:37:48,819 --> 01:37:48,289

efficient we have to be wary is it just

2291

01:37:50,349 --> 01:37:48,829

awful

2292

01:37:52,329 --> 01:37:50,359

I do think that we are doing certain

2293

01:37:54,939 --> 01:37:52,339

evil cumin seeds we're friends busted in

2294

01:37:56,379 --> 01:37:54,949

the seas with an irregular there's no

2295

01:37:58,270 --> 01:37:56,389

argument that there's not a problem

2296

01:38:00,909 --> 01:37:58,280

seshu says here there is the total

2297

01:38:02,709 --> 01:38:00,919

denial this I think is ludicrous right

2298

01:38:05,319 --> 01:38:02,719

but I think the problem is way bigger

2299

01:38:08,649 --> 01:38:05,329

than just say co2 you know we know that

2300

01:38:10,750 --> 01:38:08,659

we are gonna be secured by Japan in the

2301

01:38:13,089 --> 01:38:10,760

ocean we've lost something like 80

2302

01:38:14,729 --> 01:38:13,099

percent from insect populations at this

2303

01:38:16,689 --> 01:38:14,739

point I don't know how you were

2304

01:38:19,719 --> 01:38:16,699

circulated you know if you lose it in

2305

01:38:21,149 --> 01:38:19,729

same as extinct it's gone so then were

2306

01:38:23,979 --> 01:38:21,159

they calling this is any ailment and

2307

01:38:25,449 --> 01:38:23,989

upward trophic cascade I think that's a

2308

01:38:27,009 --> 01:38:25,459

term you're gonna hear more of in that X

2309

01:38:28,209 --> 01:38:27,019

double years because what happens is of

2310

01:38:29,919 --> 01:38:28,219

course the smaller animals that eat the

2311

01:38:31,659 --> 01:38:29,929

insects they're dying off delusional

2312

01:38:33,549 --> 01:38:31,669

Birds we're losing all of their lives

2313

01:38:40,709 --> 01:38:33,559

and all these they're dying off think no

2314

01:39:00,159 --> 01:38:57,040

is little tummies to the epithelium

2315

01:39:01,629 --> 01:39:00,169

crimson and we are suffering from

2316

01:39:03,009 --> 01:39:01,639

multiple directions in the interim you

2317

01:39:12,909 --> 01:39:03,019

know we've been being damaged by I've

2318

01:39:15,219 --> 01:39:12,919

seen meat war looters who say we we know

2319

01:39:16,479 --> 01:39:15,229

that they Stephanie problems in in male

2320

01:39:17,949 --> 01:39:16,489

fertility rates and all sorts of

2321

01:39:19,839 --> 01:39:17,959

problems it doesn't even in some way men

2322

01:39:21,879 --> 01:39:19,849

are more vulnerable to some of these

2323

01:39:24,189 --> 01:39:21,889

these outsiders it's hard to pinpoint

2324

01:39:26,720 --> 01:39:24,199

one cause because of the fact you know

2325

01:39:28,640 --> 01:39:26,730

there's so many things that alone

2326

01:39:30,080 --> 01:39:28,650

wrong but again like my question where

2327

01:39:32,840 --> 01:39:30,090

this is just us I think you know we have

2328

01:39:35,630 --> 01:39:32,850

influence of the highest levels you know

2329

01:39:37,010 --> 01:39:35,640

there's some of these people who don't

2330

01:39:38,930 --> 01:39:37,020

even know that person

2331

01:39:40,610 --> 01:39:38,940

what is a given this point I'm sort of a

2332

01:39:42,380 --> 01:39:40,620

little bit you know on the fence I can

2333

01:39:44,600 --> 01:39:42,390

just say well it looks like you do but

2334

01:39:46,340 --> 01:39:44,610

it's a human that's inside isn't that

2335

01:39:48,500 --> 01:39:46,350

what makes the difference because if you

2336

01:39:49,330 --> 01:39:48,510

think that a monster like you're a

2337

01:39:51,650 --> 01:39:49,340

monster

2338

01:39:53,419 --> 01:39:51,660

if you think I can more person you

2339

01:39:55,040 --> 01:39:53,429

compassionate and care about being Clara

2340

01:39:57,020 --> 01:39:55,050

the planet you care about the kids but

2341

01:39:58,160 --> 01:39:57,030

your normal kind of human but I don't

2342

01:40:00,380 --> 01:39:58,170

think that we're really dealing with a

2343

01:40:02,750 --> 01:40:00,390

human - and we deal with some of these

2344

01:40:04,280 --> 01:40:02,760

people I saw today I mean like for

2345

01:40:06,229 --> 01:40:04,290

example I mean this is not part of this

2346

01:40:10,040 --> 01:40:06,239

dream but you know for most people saw

2347

01:40:11,750 --> 01:40:10,050

that you know dr. powers on the vinegar

2348

01:40:13,370 --> 01:40:11,760

me is no they what is this - clapping

2349

01:40:16,130 --> 01:40:13,380

hands about these billionaires and then

2350

01:40:18,410 --> 01:40:16,140

crawling out saying we're going through

2351

01:40:20,720 --> 01:40:18,420

civilians without don't worry hole fix

2352

01:40:22,550 --> 01:40:20,730

you know about for those kids they're

2353

01:40:26,750 --> 01:40:22,560

starving kids and you know they wants to

2354

01:40:28,780 --> 01:40:26,760

crap you know it's you know or by the

2355

01:40:32,419 --> 01:40:28,790

kids you step over on the rates of work

2356

01:40:34,880 --> 01:40:32,429

so these people who have monsters right

2357

01:40:35,570 --> 01:40:34,890

so for me they're not humans what they

2358

01:40:48,950 --> 01:40:35,580

look like

2359

01:40:53,940 --> 01:40:50,330

yeah

2360

01:40:55,890 --> 01:40:53,950

yes retreating I mean you know excuse me

2361

01:40:57,510 --> 01:40:55,900

certainly it seems like the secret

2362

01:41:01,170 --> 01:40:57,520

services and people were interested in

2363

01:41:04,650 --> 01:41:01,180

the case you know FCC Super Tuesday and

2364

01:41:06,360 --> 01:41:04,660

lots of evidence but you know solid to

2365

01:41:07,890 --> 01:41:06,370

me doesn't cost that Cup so I mean I'd

2366

01:41:09,060 --> 01:41:07,900

say that there's definitely something

2367

01:41:12,210 --> 01:41:09,070

going on I don't think anyone would

2368

01:41:13,860 --> 01:41:12,220

dedicate so much of their life to the

2369

01:41:16,290 --> 01:41:13,870

claim that they have contact you know

2370

01:41:18,030 --> 01:41:16,300

into all these pictures and consistently

2371

01:41:20,490 --> 01:41:18,040

going with that for their whole life

2372

01:41:22,980 --> 01:41:20,500

if he was totally made-up because I

2373

01:41:25,500 --> 01:41:22,990

don't see that it's worth it and I think

2374

01:41:28,140 --> 01:41:25,510

I make my whole life about aliens

2375

01:41:29,880 --> 01:41:28,150

they're not me or but I didn't mean so I

2376

01:41:31,680 --> 01:41:29,890

think something was happening I do think

2377

01:41:33,450 --> 01:41:31,690

there's a spin that when internet and

2378

01:41:35,220 --> 01:41:33,460

you know I produced about to these

2379

01:41:41,550 --> 01:41:35,230

pictures you know all of that

2380

01:41:43,380 --> 01:41:41,560

I think he had some contact yeah yeah I

2381

01:41:45,150 --> 01:41:43,390

mean if I think there were some contacts

2382

01:41:47,880 --> 01:41:45,160

and powerful stuff going on

2383

01:41:49,590 --> 01:41:47,890

I'm bit skeptical is all real yeah I

2384

01:42:07,870 --> 01:41:49,600

think there's being you know stuck on in

2385

01:42:11,330 --> 01:42:09,740

what isn't it's funny that the you know

2386

01:42:12,680 --> 01:42:11,340

this TV series to the interest at all

2387

01:42:14,360 --> 01:42:12,690

isn't it you know you saw one day they

2388

01:42:16,340 --> 01:42:14,370

just for there's nothing again so

2389

01:42:17,750 --> 01:42:16,350

there's nothing to this why do they care

2390

01:42:19,370 --> 01:42:17,760

about it you know once they get involved

2391

01:42:22,010 --> 01:42:19,380

why would they are be ancients don't

2392

01:42:24,620 --> 01:42:22,020

investigate you know so tell me somebody

2393

01:42:26,959 --> 01:42:24,630

you know in those halls of power for a

2394

01:42:27,740 --> 01:42:26,969

minute you know some of these runs close

2395

01:42:29,570 --> 01:42:27,750

to the truth

2396

01:42:31,010 --> 01:42:29,580

you know this stuff we know you know

2397

01:42:32,959 --> 01:42:31,020

good see what this guy is doing

2398

01:42:34,520 --> 01:42:32,969

so I mean thirst muddy the water it's

2399

01:42:36,709 --> 01:42:34,530

hard to know but yeah I think that the

2400

01:42:38,149 --> 01:42:36,719

fact that they were interested suggests

2401

01:42:39,140 --> 01:42:38,159

that they were thinking something is

2402

01:42:41,090 --> 01:42:39,150

going on here

2403

01:42:43,160 --> 01:42:41,100

no I say it's then you become difficult

2404

01:42:45,860 --> 01:42:43,170

to separate fact from fiction because

2405

01:42:47,720 --> 01:42:45,870

there's obviously the disinfo involved

2406

01:42:50,000 --> 01:42:47,730

and then there's the characters in the

2407

01:42:52,970 --> 01:42:50,010

story of their own self-interests and

2408

01:42:54,860 --> 01:42:52,980

you know it becomes all ufology you know

2409

01:42:57,439 --> 01:42:54,870

all the law and all these emotion events

2410

01:42:58,820 --> 01:42:57,449

they become very hard to distinguish the

2411

01:42:59,990 --> 01:42:58,830

fact from the fiction don't they because

2412

01:43:01,879 --> 01:43:00,000

you know the time obviously we get

2413

01:43:04,250 --> 01:43:01,889

different people's claim from what

2414

01:43:06,709 --> 01:43:04,260

happened so the evidence that so they

2415

01:43:08,840 --> 01:43:06,719

that's debunked you know so yeah it's

2416

01:43:10,250 --> 01:43:08,850

very difficult and I'll say that you

2417

01:43:12,800 --> 01:43:10,260

know I haven't explored the whole wealth

2418

01:43:15,350 --> 01:43:12,810

is achievable so I couldn't give it

2419

01:43:17,649 --> 01:43:15,360

completely fair you know Craig a good

2420

01:43:20,360 --> 01:43:17,659

set up I absolutely knew me or not real

2421

01:43:23,149 --> 01:43:20,370

but you find that he's description

2422

01:43:24,530 --> 01:43:23,159

structure of the platoons in terms of

2423

01:43:27,229 --> 01:43:24,540

the entities he describes and the way

2424

01:43:30,260 --> 01:43:27,239

they behave smoothly they say to him is

2425

01:43:32,419 --> 01:43:30,270

different to what we have looked at what

2426

01:43:34,939 --> 01:43:32,429

we've had and what Valerie's information

2427

01:43:37,550 --> 01:43:34,949

there's definitely differences and also

2428

01:43:39,080 --> 01:43:37,560

with the entire theologians you know

2429

01:43:42,320 --> 01:43:39,090

bear in mind you know I take a position

2430

01:43:45,950 --> 01:43:42,330

that there is there is no evolution of

2431

01:43:47,110 --> 01:43:45,960

complex life in the Pleiades some of you

2432

01:43:49,210 --> 01:43:47,120

were saying you know always be

2433

01:43:51,910 --> 01:43:49,220

come from they come from Maya where they

2434

01:43:54,550 --> 01:43:51,920

come from they'll say oh they all miss

2435

01:43:56,830 --> 01:43:54,560

don't worry agree that my perspective is

2436

01:43:58,810 --> 01:43:56,840

as they explained you know from this

2437

01:44:01,180 --> 01:43:58,820

information that yes they came through a

2438

01:44:02,350 --> 01:44:01,190

Stargate which is located in that region

2439

01:44:03,730 --> 01:44:02,360

to here

2440

01:44:08,500 --> 01:44:03,740

so when they've explained to people

2441

01:44:11,140 --> 01:44:08,510

where he come from there you don't need

2442

01:44:13,840 --> 01:44:11,150

to spot them away from this trillions of

2443

01:44:15,970 --> 01:44:13,850

years away system UMI's got the mail for

2444

01:44:18,040 --> 01:44:15,980

you but it's that spark you're not so

2445

01:44:19,960 --> 01:44:18,050

you know the simple thing in it is do

2446

01:44:21,310 --> 01:44:19,970

what the Cleary's yeah we arrived here

2447

01:44:22,720 --> 01:44:21,320

from complainers and you keep the key to

2448

01:44:23,980 --> 01:44:22,730

simple because also you've got multiple

2449

01:44:25,600 --> 01:44:23,990

different kinds of beings they're saying

2450

01:44:27,040 --> 01:44:25,610

with vidiians right people meet

2451

01:44:27,730 --> 01:44:27,050

different ones to see how everybody ends

2452

01:44:30,190 --> 01:44:27,740

with me please

2453

01:44:31,450 --> 01:44:30,200

they look the same there's different

2454

01:44:33,280 --> 01:44:31,460

groups and again that's is where you

2455

01:44:35,890 --> 01:44:33,290

just like in balance work is that you've

2456

01:44:37,900 --> 01:44:35,900

got multiple beings on this colony ship

2457

01:44:40,300 --> 01:44:37,910

they're completely different one of them

2458

01:44:42,460 --> 01:44:40,310

summer magic crystalline entities in

2459

01:44:44,980 --> 01:44:42,470

robotic kind of suits they're on board

2460

01:44:47,380 --> 01:44:44,990

the craft but those are the goldens

2461

01:44:49,240 --> 01:44:47,390

in the beings that you know liked me out

2462

01:44:51,070 --> 01:44:49,250

of it it's really you know it's a mixed

2463

01:44:53,140 --> 01:44:51,080

crew we definitely don't want region a

2464

01:44:54,820 --> 01:44:53,150

in one place so this I think there's

2465

01:44:56,380 --> 01:44:54,830

another level of complexity and that

2466

01:45:00,280 --> 01:44:56,390

again makes more sense because we know

2467

01:45:01,810 --> 01:45:00,290

the PD may be very young to have complex

2468

01:45:03,880 --> 01:45:01,820

life and that's always been an issue

2469

01:45:07,840 --> 01:45:03,890

that the mainstream taken up to war if

2470

01:45:09,160 --> 01:45:07,850

you've got these videos I think that

2471

01:45:11,110 --> 01:45:09,170

answers I they say well that we do come

2472

01:45:17,140 --> 01:45:11,120

via app but there's a word of stargates

2473

01:45:19,000 --> 01:45:17,150

and that's the Germans were yes some

2474

01:45:20,560 --> 01:45:19,010

kind of Whitehall or some such thing

2475

01:45:23,410 --> 01:45:20,570

and we now knows well you know just the

2476

01:45:25,750 --> 01:45:23,420

last few weeks the black materia surgeon

2477

01:45:27,940 --> 01:45:25,760

even black holes has uncovered that if

2478

01:45:30,370 --> 01:45:27,950

you have a sufficiently large rotating

2479

01:45:31,790 --> 01:45:30,380

black hole they believe a craft and pass

2480

01:45:34,850 --> 01:45:31,800

through it with absolutely

2481

01:45:36,020 --> 01:45:34,860

no damage to the craft so even though

2482
