

1
00:00:13,270 --> 00:00:10,480
right believe me everybody will make it

2
00:00:16,299 --> 00:00:13,280
let's start them now welcome to the June

3
00:00:18,429 --> 00:00:16,309
super mutant No

4
00:00:19,660 --> 00:00:18,439
as you know every six months or so we

5
00:00:21,640 --> 00:00:19,670
rarely update you with the latest

6
00:00:24,280 --> 00:00:21,650
sightings that have occurred in the

7
00:00:26,340 --> 00:00:24,290
southwards area and incidentally they're

8
00:00:28,599 --> 00:00:26,350
being quite a lot of them recently

9
00:00:30,609 --> 00:00:28,609
however it's like we're able to attend

10
00:00:32,350 --> 00:00:30,619
our attention to the North Wales area

11
00:00:34,560 --> 00:00:32,360
and this is because they are the

12
00:00:37,360 --> 00:00:34,570
pleasure of the company of mr. Gary row

13
00:00:39,160 --> 00:00:37,370

now although Gary was born I think it's

14

00:00:40,570 --> 00:00:39,170

stoke-on-trent he's lived in North Wales

15

00:00:45,130 --> 00:00:40,580

for many many years and currently

16

00:00:47,080 --> 00:00:45,140

resides in rill he's been interested in

17

00:00:49,030 --> 00:00:47,090

the UFO phenomena since his teenage

18

00:00:52,209 --> 00:00:49,040

years and since then he's been actively

19

00:00:54,549 --> 00:00:52,219

investigating UFO sightings in the area

20

00:00:56,799 --> 00:00:54,559

for many decades including the plan of

21

00:01:00,130 --> 00:00:56,809

our case which I spoke to about a few

22

00:01:02,229 --> 00:01:00,140

years ago on which no doubt have

23

00:01:04,270 --> 00:01:02,239

something to say tonight as well

24

00:01:06,340 --> 00:01:04,280

he's been a member of and run and

25

00:01:08,230 --> 00:01:06,350

founded various UFO groups have given

26
00:01:10,450 --> 00:01:08,240
many talks on the subject over the years

27
00:01:13,060 --> 00:01:10,460
and is extremely knowledgeable on the

28
00:01:15,190 --> 00:01:13,070
subject so Tony you take this through

29
00:01:17,800 --> 00:01:15,200
many of his most notable North Wales UFO

30
00:01:28,790 --> 00:01:17,810
investigations so I never told me long

31
00:01:28,800 --> 00:01:32,580
[Music]

32
00:01:37,930 --> 00:01:34,990
thank you very much for that that's a

33
00:01:39,880 --> 00:01:37,940
brilliant welcome now I must warn you I

34
00:01:42,580 --> 00:01:39,890
don't know which of you is gonna fall

35
00:01:44,170 --> 00:01:42,590
asleep first you all live on they've

36
00:01:45,790 --> 00:01:44,180
been on the road from eight o'clock this

37
00:01:47,170 --> 00:01:45,800
morning until four o'clock this

38
00:01:49,810 --> 00:01:47,180

afternoon because they've been a major

39

00:01:51,820 --> 00:01:49,820

accident somewhere and every roads got

40

00:01:54,300 --> 00:01:51,830

diversions and police cars I've never

41

00:01:58,450 --> 00:01:54,310

seen so much about I thought my belly

42

00:02:14,350 --> 00:01:58,460

right okay then well when you elect me

43

00:02:18,460 --> 00:02:14,360

how's the the new Prime Minister I am 77

44

00:02:20,650 --> 00:02:18,470

years of age my wife Christine over

45

00:02:23,800 --> 00:02:20,660

there and we live in North Wales I've

46

00:02:25,840 --> 00:02:23,810

got one son two grandsons as has already

47

00:02:29,470 --> 00:02:25,850

been said I've spent my entire life

48

00:02:34,390 --> 00:02:29,480

looking into phenomena one kind of

49

00:02:37,270 --> 00:02:34,400

mother and especially UFOs why do I do

50

00:02:39,220 --> 00:02:37,280

it I do it to try and settle whether

51
00:02:42,009 --> 00:02:39,230
this thing that somebody's seen all I've

52
00:02:44,199 --> 00:02:42,019
seen myself is just some common thing

53
00:02:48,370 --> 00:02:44,209
misunderstood some kind of military

54
00:02:50,920 --> 00:02:48,380
craft or could it be heaven forbid a UFO

55
00:02:53,289 --> 00:02:50,930
from an extraterrestrial but all I'm

56
00:02:55,509 --> 00:02:53,299
interested in is the answer when I've

57
00:02:58,660 --> 00:02:55,519
got it I don't care if it turns out to

58
00:03:01,590 --> 00:02:58,670
be a jumbo jet a bird an aeroplane or

59
00:03:05,140 --> 00:03:01,600
Superman as long as I get the answer and

60
00:03:07,509 --> 00:03:05,150
nobody that you will look at well spend

61
00:03:09,849 --> 00:03:07,519
as much effort as I do to try to get to

62
00:03:11,650 --> 00:03:09,859
the answer and the data banks and the

63
00:03:14,410 --> 00:03:11,660

people that I have use to get to that

64

00:03:16,750 --> 00:03:14,420

answer will absolutely astonishing but I

65

00:03:18,710 --> 00:03:16,760

will get to the answer I've been

66

00:03:21,110 --> 00:03:18,720

fortunate if you can put it

67

00:03:23,480 --> 00:03:21,120

whether you believe in coincidences I

68

00:03:29,210 --> 00:03:23,490

offer every single day today's no

69

00:03:31,160 --> 00:03:29,220

exception very lucky to about some of

70

00:03:35,120 --> 00:03:31,170

the most important cases that have ever

71

00:03:39,830 --> 00:03:35,130

been made not just to do with UFOs had

72

00:03:41,870 --> 00:03:39,840

to do with all more than the life they

73

00:03:44,290 --> 00:03:41,880

have left me totally stunned

74

00:03:47,600 --> 00:03:44,300

I don't spawn very easily but they have

75

00:03:50,330 --> 00:03:47,610

I mean 50 books probably I didn't write

76

00:03:52,040 --> 00:03:50,340

any of them myself I don't agree with

77

00:03:53,600 --> 00:03:52,050

everything everybody's written but

78

00:03:57,640 --> 00:03:53,610

nonetheless it's nice to be mentioned

79

00:04:03,050 --> 00:04:01,460

several of my places I've been made into

80

00:04:05,690 --> 00:04:03,060

the x-files some of you may have seen

81

00:04:08,150 --> 00:04:05,700

the x-files on the telly Roth forgive my

82

00:04:09,590 --> 00:04:08,160

cases actually of all the places for the

83

00:04:12,440 --> 00:04:09,600

stories on the x-files

84

00:04:16,729 --> 00:04:12,450

to which I've got some lovely signed

85

00:04:20,330 --> 00:04:16,739

autographs from stuff but that's another

86

00:04:22,370 --> 00:04:20,340

thing northwards

87

00:04:25,040 --> 00:04:22,380

if you thought to mention actually that

88

00:04:26,510 --> 00:04:25,050

I also lived in South Wales for 25 years

89

00:04:28,580 --> 00:04:26,520

other to the little village of Marken

90

00:04:31,460 --> 00:04:28,590

offering between you Thor tuga Philly

91

00:04:35,590 --> 00:04:31,470

and while I was there investigating UFOs

92

00:04:38,810 --> 00:04:35,600

as passionately as I am doing currently

93

00:04:44,150 --> 00:04:38,820

I'm often asked if I actually believe in

94

00:04:47,470 --> 00:04:44,160

UFOs the answer is no I don't I do not

95

00:04:50,570 --> 00:04:47,480

believe in UFOs and I'll explain what I

96

00:04:53,030 --> 00:04:50,580

believe to me it's just something that

97

00:04:58,010 --> 00:04:53,040

people choose to cling to in the absence

98

00:05:00,770 --> 00:04:58,020

of any real proof that's a relief no I

99

00:05:05,390 --> 00:05:00,780

don't believe in UFOs I absolutely know

100

00:05:07,040 --> 00:05:05,400

that they are real absolutely in this

101
00:05:08,570 --> 00:05:07,050
presentation I'm gonna be able to offer

102
00:05:11,450 --> 00:05:08,580
you a fraction of the mass per hundred

103
00:05:11,850 --> 00:05:11,460
things on that I've got but it's going

104
00:05:15,420 --> 00:05:11,860
to be

105
00:05:17,070 --> 00:05:15,430
massive amazing stuff all the time the

106
00:05:20,070 --> 00:05:17,080
talk so you don't understand why I'm so

107
00:05:22,700 --> 00:05:20,080
sure and just maybe convince you to go

108
00:05:27,330 --> 00:05:22,710
see your own proof for us more the set

109
00:05:29,939 --> 00:05:27,340
in the x-files the truth is out back and

110
00:05:31,379 --> 00:05:29,949
we went out and found it I'm going to

111
00:05:34,409 --> 00:05:31,389
tell you it's a pretty strange events

112
00:05:36,929 --> 00:05:34,419
that the first seems gutted but I think

113
00:05:39,559 --> 00:05:36,939

they are related and partisan Grunk UFO

114

00:05:42,300 --> 00:05:39,569

plan that's going on to this very day

115

00:05:45,179 --> 00:05:42,310

I'm not sure when these events first

116

00:05:47,670 --> 00:05:45,189

started occurring I suspect it could be

117

00:05:49,439 --> 00:05:47,680

way back in the past certainly they take

118

00:05:53,159 --> 00:05:49,449

further back than when I first moved to

119

00:05:59,399 --> 00:05:53,169

Rome North Wales in 1979 so I'm going to

120

00:06:02,399 --> 00:05:59,409

start with 1978 I'm going to begin with

121

00:06:05,189 --> 00:06:02,409

Anglesey I don't live in I don't see how

122

00:06:08,640 --> 00:06:05,199

they've been real but Anglesey is quite

123

00:06:10,619 --> 00:06:08,650

me I've spent a lifetime there first I'm

124

00:06:12,570 --> 00:06:10,629

going to take you back to September 78

125

00:06:16,290 --> 00:06:12,580

when these events happened the year

126
00:06:18,659 --> 00:06:16,300
before I move that this report was

127
00:06:21,420 --> 00:06:18,669
actually compiled by Federation UFO

128
00:06:25,249 --> 00:06:21,430
research from chest that's on in

129
00:06:29,909 --> 00:06:25,259
Cheshire Creek right

130
00:06:36,420 --> 00:06:29,919
the following good come on just a slider

131
00:06:42,420 --> 00:06:36,430
please yes recognize them they're

132
00:06:44,579 --> 00:06:42,430
helping me with my body this is I will

133
00:07:02,840 --> 00:06:44,589
see I'm sure none of you really need me

134
00:07:19,310 --> 00:07:17,160
see that okay this is the Isle of I can

135
00:07:22,140 --> 00:07:19,320
see I live just up the road near of it

136
00:07:23,880 --> 00:07:22,150
most important for the area so I'm going

137
00:07:26,700 --> 00:07:23,890
to talk about all the stuff all over the

138
00:07:29,190 --> 00:07:26,710

island is this area here where there's a

139

00:07:31,440 --> 00:07:29,200

manatee it's called Holly's mountain and

140

00:07:34,350 --> 00:07:31,450

below it as you can see they're almost

141

00:07:34,650 --> 00:07:34,360

in the central uncle si and 2/3 of the

142

00:07:39,060 --> 00:07:34,660

way up

143

00:07:42,150 --> 00:07:39,070

Islamic am f as a discord okay which is

144

00:07:44,580 --> 00:07:42,160

a very tiny little village and the top

145

00:07:49,040 --> 00:07:44,590

end is called Paris core which will

146

00:07:51,570 --> 00:07:49,050

feature in what I'm going to tell okay

147

00:07:53,250 --> 00:07:51,580

the first indication that something

148

00:07:56,450 --> 00:07:53,260

unusual the curved in the one in command

149

00:07:59,700 --> 00:07:56,460

area came from several newspapers

150

00:08:02,160 --> 00:07:59,710

sporting such ludicrous entrance are six

151

00:08:05,190 --> 00:08:02,170

thoughts silver spaceman chases

152

00:08:06,510 --> 00:08:05,200

catters they love it done the end there

153

00:08:09,060 --> 00:08:06,520

was little green men as well they they

154

00:08:10,770 --> 00:08:09,070

absolutely right by the time several the

155

00:08:12,360 --> 00:08:10,780

witnesses have given their accounts of

156

00:08:15,360 --> 00:08:12,370

the incidents on well stripes in the

157

00:08:19,050 --> 00:08:15,370

radio it was decided by few for to

158

00:08:21,000 --> 00:08:19,060

investigate the case in-depth prior to

159

00:08:23,700 --> 00:08:21,010

the investigation commenced seen before

160

00:08:25,650 --> 00:08:23,710

contacted Dunsany place of beautiful or

161

00:08:31,350 --> 00:08:25,660

I think we may have a picture in it

162

00:08:33,780 --> 00:08:31,360

would be please this is a stylized

163

00:08:40,050 --> 00:08:33,790

picture this is from their actual report

164

00:08:42,900 --> 00:08:40,060

you see London command marked on a tiny

165

00:08:46,740 --> 00:08:42,910

place who built his own Observatory ins

166

00:08:48,270 --> 00:08:46,750

of high keen UFO investigator the names

167

00:08:48,720 --> 00:08:48,280

and addresses of the witnesses of

168

00:08:51,990 --> 00:08:48,730

trotting

169

00:08:53,430 --> 00:08:52,000

a finger of ground of abettin he figures

170

00:08:55,470 --> 00:08:53,440

later in the talk as well

171

00:08:58,690 --> 00:08:55,480

it's only contacting Larry David before

172

00:09:00,820 --> 00:08:58,700

and obtaining the relevant information

173

00:09:02,830 --> 00:09:00,830

a brief rundown of the inserts there was

174

00:09:04,930 --> 00:09:02,840

at this point that multi geekman became

175

00:09:07,780 --> 00:09:04,940

involved in the case and decided to

176

00:09:10,810 --> 00:09:07,790

undergo a joint investigation so not a

177

00:09:12,280 --> 00:09:10,820

command itself Monica made Liza's point

178

00:09:14,980 --> 00:09:12,290

just north of the center of the island

179

00:09:17,530 --> 00:09:14,990

itself is a small rural Township

180

00:09:21,730 --> 00:09:17,540

surrounded by seeming Angeles mr. of

181

00:09:25,150 --> 00:09:21,740

undulating format I think we may have a

182

00:09:31,990 --> 00:09:25,160

slide that's Tony place yeah we're

183

00:09:34,360 --> 00:09:32,000

getting that right there the terminus

184

00:09:36,190 --> 00:09:34,370

only two main streets light by quite old

185

00:09:39,070 --> 00:09:36,200

buildings the main scenario of this

186

00:09:40,870 --> 00:09:39,080

report the mass of an estate is quite a

187

00:09:43,360 --> 00:09:40,880

recent building development just to the

188

00:09:46,120 --> 00:09:43,370

rest of the town lies the failure to

189

00:09:48,010 --> 00:09:46,130

unlock railroad which builds onto the

190

00:09:50,380 --> 00:09:48,020

scene of the incidents which follow in

191

00:09:53,710 --> 00:09:50,390

this report the investigations were

192

00:09:57,070 --> 00:09:53,720

started on the 5th of September 78 when

193

00:09:59,100 --> 00:09:57,080

a team of few four members gathered in

194

00:10:01,720 --> 00:09:59,110

Staffordshire set out for Anglesey

195

00:10:03,640 --> 00:10:01,730

whilst enroute the investigators chat

196

00:10:04,960 --> 00:10:03,650

with : make Police Headquarters to

197

00:10:07,030 --> 00:10:04,970

ascertain the depth of the police

198

00:10:08,800 --> 00:10:07,040

investigation into the sightings

199

00:10:10,900 --> 00:10:08,810

although several of their police

200

00:10:12,790 --> 00:10:10,910

officers had seen something unusual on

201
00:10:17,470 --> 00:10:12,800
the same evening they have been told

202
00:10:19,840 --> 00:10:17,480
that they were medias as usual it was

203
00:10:23,680 --> 00:10:19,850
decided at this point to go directly to

204
00:10:25,360 --> 00:10:23,690
Lanica met on arrival at the site again

205
00:10:27,910 --> 00:10:25,370
it was agreed that the first priority

206
00:10:30,040 --> 00:10:27,920
would be to ascertain if the objects

207
00:10:32,620 --> 00:10:30,050
seen as London if so were there any

208
00:10:34,630 --> 00:10:32,630
traces several witnesses came forward

209
00:10:37,000 --> 00:10:34,640
assured the investigators the early

210
00:10:39,430 --> 00:10:37,010
where the UFO and apparently London lead

211
00:10:41,670 --> 00:10:39,440
on with this knowledge they immediately

212
00:10:44,450 --> 00:10:41,680
undertook an examination of the air

213
00:10:47,360 --> 00:10:44,460

since the initial sighting in concert

214

00:10:49,280 --> 00:10:47,370

being a grateful and I wins and although

215

00:10:51,200 --> 00:10:49,290

the majorities surrounding terrain was

216

00:10:53,660 --> 00:10:51,210

rough grazing month there were a number

217

00:10:55,580 --> 00:10:53,670

of fields which were rather marching it

218

00:10:57,290 --> 00:10:55,590

must be noted at this point that a

219

00:10:59,120 --> 00:10:57,300

number of the fields were inhabited by

220

00:11:01,550 --> 00:10:59,130

cattle and this combined with the

221

00:11:04,100 --> 00:11:01,560

adverse weather made the chance of

222

00:11:05,600 --> 00:11:04,110

finding any traces robbery but this all

223

00:11:08,900 --> 00:11:05,610

may sound a bit boring but just want to

224

00:11:13,040 --> 00:11:08,910

show the the breadth of this and the

225

00:11:14,810 --> 00:11:13,050

shared content of it if I may even if

226

00:11:16,730 --> 00:11:14,820

the object of lightning the possibility

227

00:11:18,260 --> 00:11:16,740

find interest was never removed although

228

00:11:20,030 --> 00:11:18,270

the police were on the scene of the

229

00:11:22,400 --> 00:11:20,040

incident shortly after 9 o'clock on the

230

00:11:24,770 --> 00:11:22,410

evening of September no examination of

231

00:11:26,210 --> 00:11:24,780

the air there was up to be undertaken so

232

00:11:28,520 --> 00:11:26,220

it could well imagine how interested

233

00:11:31,370 --> 00:11:28,530

they were in it the following accounts

234

00:11:33,770 --> 00:11:31,380

of the UFO sightings all the information

235

00:11:36,170 --> 00:11:33,780

given by the witnesses who live in and

236

00:11:38,180 --> 00:11:36,180

around the village of annika met the

237

00:11:41,150 --> 00:11:38,190

incidents all set out in time sequence

238

00:11:45,110 --> 00:11:41,160

starting with the day witness first mrs.

239

00:11:47,900 --> 00:11:45,120

Helen Roberts a mystical in wind news 44

240

00:11:49,550 --> 00:11:47,910

46 years old respectively mr. Robinson

241

00:11:51,350 --> 00:11:49,560

mr. Jews were taken their dogs for a

242

00:11:53,090 --> 00:11:51,360

walk on the outskirts of London came

243

00:11:56,450 --> 00:11:53,100

when they noticed the strange appearance

244

00:11:58,670 --> 00:11:56,460

of the sky about 1750 hours the whole

245

00:12:00,500 --> 00:11:58,680

sky seemed to become a bread and the

246

00:12:03,020 --> 00:12:00,510

atmosphere was very heavy in the area

247

00:12:04,280 --> 00:12:03,030

quieter than usual they then noticed

248

00:12:06,770 --> 00:12:04,290

what appeared to be strange-looking

249

00:12:09,410 --> 00:12:06,780

claret the witness described the clothes

250

00:12:11,510 --> 00:12:09,420

being roughly circular in shape black at

251
00:12:13,400 --> 00:12:11,520
the bottom right on the top they thought

252
00:12:15,980 --> 00:12:13,410
it unusual because it was the only cloud

253
00:12:19,760 --> 00:12:15,990
in the entire sky and they watched the

254
00:12:22,880 --> 00:12:19,770
object for 30 minutes with us - this is

255
00:12:24,650 --> 00:12:22,890
Betty Owen 50 years of age I was told by

256
00:12:27,140 --> 00:12:24,660
an egg to come outside and look at a

257
00:12:29,450 --> 00:12:27,150
strange object in the sky I'm going

258
00:12:32,420 --> 00:12:29,460
outside Mrs. Owen saw what appeared to

259
00:12:33,410 --> 00:12:32,430
be a silver ball she watched the object

260
00:12:34,970 --> 00:12:33,420
for five minutes

261
00:12:38,650 --> 00:12:34,980
after watching the object for a while

262
00:12:42,120 --> 00:12:38,660
longer she finally went back in our oven

263
00:12:43,949 --> 00:12:42,130

another witness Alan Williams was

264

00:12:45,449 --> 00:12:43,959

years old and he was playing with

265

00:12:47,790 --> 00:12:45,459

several of his friends in the field

266

00:12:49,860 --> 00:12:47,800

which leads onto the rear of masa

267

00:12:52,350 --> 00:12:49,870

furnace state when he noticed the

268

00:12:54,030 --> 00:12:52,360

strange circular shaped light that

269

00:12:56,790 --> 00:12:54,040

emitted a bright light from its surface

270

00:12:59,189 --> 00:12:56,800

area as the object descended the light

271

00:13:01,680 --> 00:12:59,199

intensified and grew in apparent size

272

00:13:03,540 --> 00:13:01,690

while still descending the object

273

00:13:05,819 --> 00:13:03,550

returned to its original size and

274

00:13:08,100 --> 00:13:05,829

magnitude it was at this point the

275

00:13:10,769 --> 00:13:08,110

witness became apprehensive and decided

276

00:13:12,780 --> 00:13:10,779

to make always own he did notice however

277

00:13:16,530 --> 00:13:12,790

that the couple in the next field seemed

278

00:13:19,050 --> 00:13:16,540

very dispersed David more pesky 12 years

279

00:13:20,999 --> 00:13:19,060

of age probably the main witness of the

280

00:13:23,550 --> 00:13:21,009

Veronica meth sighting called Louise of

281

00:13:25,350 --> 00:13:23,560

tender age is a cousin decide to remain

282

00:13:28,530 --> 00:13:25,360

fluent and consistent throughout the

283

00:13:30,240 --> 00:13:28,540

investigations the above taken time day

284

00:13:33,210 --> 00:13:30,250

playing with some friends and himself

285

00:13:35,790 --> 00:13:33,220

were playing football on the OCS state

286

00:13:37,439 --> 00:13:35,800

of my supper when one of his friends do

287

00:13:39,360 --> 00:13:37,449

his attention to a strange light which

288

00:13:42,629 --> 00:13:39,370

appeared to be descending onto a field

289

00:13:44,970 --> 00:13:42,639

behind the estate he decided to take a

290

00:13:46,920 --> 00:13:44,980

closer loved it and run to the gate

291

00:13:49,650 --> 00:13:46,930

leading onto the field keeping the

292

00:13:51,509 --> 00:13:49,660

object in view all the time from this

293

00:13:54,360 --> 00:13:51,519

point you could see the object more

294

00:13:57,949 --> 00:13:54,370

clearly which was still descending he

295

00:14:04,490 --> 00:13:57,959

described the object as bullet said a

296

00:14:11,600 --> 00:14:09,560

they announced it it was a bright white

297

00:14:13,970 --> 00:14:11,610

color except for a glowing red band

298

00:14:16,340 --> 00:14:13,980

which run around the perimeter of the

299

00:14:18,320 --> 00:14:16,350

object the witness authors also noticed

300

00:14:20,600 --> 00:14:18,330

the series of red lights which run

301
00:14:22,340 --> 00:14:20,610
across the breadth of the object I'll

302
00:14:26,930 --> 00:14:22,350
still just begun to near the ground

303
00:14:28,400 --> 00:14:26,940
level more detail could be seen so David

304
00:14:30,890 --> 00:14:28,410
noticed that there were two protrusions

305
00:14:35,540 --> 00:14:30,900
on each side of the crowd which he does

306
00:14:37,490 --> 00:14:35,550
see there and that it was at this point

307
00:14:39,320 --> 00:14:37,500
in the David felt ugly and Sehun

308
00:14:41,570 --> 00:14:39,330
discussed what to do with his friends

309
00:14:43,640 --> 00:14:41,580
during the short conversation he

310
00:14:45,710 --> 00:14:43,650
momentarily lost his concentration on

311
00:14:47,270 --> 00:14:45,720
the object and when he looked again the

312
00:14:49,700 --> 00:14:47,280
object appeared on the wood near the

313
00:14:50,990 --> 00:14:49,710

ground but the most surprising factor

314

00:14:53,630 --> 00:14:51,000
was the object appeared to be a

315

00:14:55,430 --> 00:14:53,640
different shape Devi described as

316

00:14:57,800 --> 00:14:55,440
appeared to be two silicates of light

317

00:14:59,840 --> 00:14:57,810
the inner circle being dramatic color

318

00:15:02,150 --> 00:14:59,850
which is surrounded by the eight they

319

00:15:04,820 --> 00:15:02,160
act a circle which is a brilliant white

320

00:15:07,400 --> 00:15:04,830
the perimeter of this circle was energy

321

00:15:09,380 --> 00:15:07,410
irregular to Pier to go beyond some

322

00:15:11,780 --> 00:15:09,390
trees and then was completely bought

323

00:15:14,000 --> 00:15:11,790
from his view all the probably seen was

324

00:15:15,860 --> 00:15:14,010
a white glow from beyond the trees his

325

00:15:18,470 --> 00:15:15,870
friends left at this point to tell their

326

00:15:20,120 --> 00:15:18,480

parents and although they could hear no

327

00:15:22,190 --> 00:15:20,130

noise from the object the cattle and

328

00:15:24,680 --> 00:15:22,200

horses and surrounding fields seen

329

00:15:27,170 --> 00:15:24,690

extremely disturbed by something

330

00:15:29,360 --> 00:15:27,180

several cut and fled from one field to

331

00:15:32,090 --> 00:15:29,370

another but David couldn't see what the

332

00:15:33,770 --> 00:15:32,100

cause of the disturbance boss at this

333

00:15:35,180 --> 00:15:33,780

point some of David's friends run to

334

00:15:37,550 --> 00:15:35,190

their parents mother's trust their

335

00:15:38,900 --> 00:15:37,560

opinion and although David could hear no

336

00:15:40,730 --> 00:15:38,910

noise coming from the object the

337

00:15:43,640 --> 00:15:40,740

cosmonauts is and surrounding feel still

338

00:15:47,510 --> 00:15:43,650

extremely disturbed and this goes on

339

00:15:51,140 --> 00:15:47,520

they see this object on the ground and

340

00:15:54,320 --> 00:15:51,150

then they describe the figures that got

341

00:15:56,420 --> 00:15:54,330

edited the craft their clothing the

342

00:15:58,940 --> 00:15:56,430

movements they were walking in the field

343

00:16:00,980 --> 00:15:58,950

that I was in he said they were only a

344

00:16:03,740 --> 00:16:00,990

hundred twenty-five yards away from me

345

00:16:05,240 --> 00:16:03,750

and walked on a parallel path to me they

346

00:16:08,130 --> 00:16:05,250

walked one behind the other

347

00:16:10,380 --> 00:16:08,140

the second thing at the intent of 15

348

00:16:12,720 --> 00:16:10,390

behind the first they seem to be very

349

00:16:15,210 --> 00:16:12,730

tall although I couldn't make a furlough

350

00:16:19,710 --> 00:16:15,220

off of their legs hands or dead due to

351
00:16:21,870 --> 00:16:19,720
the growing darkness the central part of

352
00:16:23,910 --> 00:16:21,880
the figure was gray in color except for

353
00:16:26,160 --> 00:16:23,920
a black band running vertically down the

354
00:16:28,470 --> 00:16:26,170
back and a bright red banner on

355
00:16:30,870 --> 00:16:28,480
horizonte across the figure just above

356
00:16:33,830 --> 00:16:30,880
the west both arms were black in color

357
00:16:36,960 --> 00:16:33,840
but no one's head or legs could be seen

358
00:16:39,060 --> 00:16:36,970
the second figure the second figure was

359
00:16:41,370 --> 00:16:39,070
viewed sideways on from the knees upward

360
00:16:43,680 --> 00:16:41,380
once again the head the hands could not

361
00:16:45,090 --> 00:16:43,690
be seen the second thing is similarly

362
00:16:48,210 --> 00:16:45,100
seem to be dressed in a one-piece

363
00:16:50,250 --> 00:16:48,220

garment which was Colin gray all over

364

00:16:52,380 --> 00:16:50,260

except for a fuzzy white bag which run

365

00:16:54,870 --> 00:16:52,390

horizontally across the side of the

366

00:16:56,700 --> 00:16:54,880

figure just above the waist David also

367

00:16:59,220 --> 00:16:56,710

claimed that he noticed the material was

368

00:17:00,750 --> 00:16:59,230

wrinkled at the waist the two figures

369

00:17:02,970 --> 00:17:00,760

walked slowly across the field one

370

00:17:04,680 --> 00:17:02,980

behind the other David Blaine got the

371

00:17:06,990 --> 00:17:04,690

first figure out his arms raised above

372

00:17:11,250 --> 00:17:07,000

his head although he could not see any

373

00:17:12,750 --> 00:17:11,260

details I think some of this may be on

374

00:17:14,910 --> 00:17:12,760

there there we go

375

00:17:23,240 --> 00:17:14,920

descriptions these like that children's

376

00:17:25,920 --> 00:17:23,250

that they may think hold it backwards so

377

00:17:28,680 --> 00:17:25,930

this goes on full descriptions of

378

00:17:30,330 --> 00:17:28,690

figures walking across the fields yeah

379

00:17:32,310 --> 00:17:30,340

totally getting through to the police

380

00:17:34,230 --> 00:17:32,320

but once the contact was made with him

381

00:17:36,900 --> 00:17:34,240

there great difficulty in hearing what

382

00:17:38,880 --> 00:17:36,910

he said because it was a great deal of

383

00:17:40,370 --> 00:17:38,890

crackling and a strange high-pitched

384

00:17:42,840 --> 00:17:40,380

tone on the line

385

00:17:45,150 --> 00:17:42,850

although David had made many calls from

386

00:17:47,760 --> 00:17:45,160

the telephone Walter previously since

387

00:17:49,530 --> 00:17:47,770

before he hadn't before many bodies he

388

00:17:51,870 --> 00:17:49,540

had never before noticed such strange

389

00:17:53,610 --> 00:17:51,880

and persistence interference however he

390

00:17:55,440 --> 00:17:53,620

did manage to relate his experience to

391

00:17:58,020 --> 00:17:55,450

the police and they are knowledgeable this

392

00:18:01,800 --> 00:17:58,030

call by sending patrol constancy of the

393

00:18:03,420 --> 00:18:01,810

incident some 12 minutes later on their

394

00:18:03,790 --> 00:18:03,430

arrival the police interviewed a number

395

00:18:08,380 --> 00:18:03,800

with

396

00:18:10,930 --> 00:18:08,390

one of the awesome to try to calm the

397

00:18:12,340 --> 00:18:10,940

animals down the owner stated that when

398

00:18:14,650 --> 00:18:12,350

they approached the horses they breathe

399

00:18:17,710 --> 00:18:14,660

it away they were allowed to breathe and

400

00:18:19,330 --> 00:18:17,720

was sweating profusely after 45 minutes

401
00:18:22,540 --> 00:18:19,340
the police left the Aryan said they

402
00:18:24,400 --> 00:18:22,550
would return other weekend to carry out

403
00:18:27,490 --> 00:18:24,410
more interviews they never did come back

404
00:18:30,970 --> 00:18:27,500
despite what they said witness pup

405
00:18:32,260 --> 00:18:30,980
Tricia Owen 21 years of age post wife

406
00:18:33,790 --> 00:18:32,270
was talking to one of the neighbors

407
00:18:36,010 --> 00:18:33,800
outside the front door

408
00:18:38,830 --> 00:18:36,020
suddenly a child ran up to an explain

409
00:18:41,500 --> 00:18:38,840
that a flying saucer had just landed in

410
00:18:43,480 --> 00:18:41,510
the field behind the estate without any

411
00:18:45,580 --> 00:18:43,490
hesitation this is only broke into a

412
00:18:47,530 --> 00:18:45,590
house and went upstairs to a rear

413
00:18:49,960 --> 00:18:47,540

bedroom which overlooks the fields at

414

00:18:51,340 --> 00:18:49,970

the back of the estate initially she

415

00:18:53,620 --> 00:18:51,350

assumed that the children are probably

416

00:18:56,440 --> 00:18:53,630

mistaken helicopter for the supposed

417

00:18:59,170 --> 00:18:56,450

buying saucer but by the time she

418

00:19:01,300 --> 00:18:59,180

reached the bedroom there was no sign of

419

00:19:03,250 --> 00:19:01,310

the alleged salsa but I see visually

420

00:19:05,920 --> 00:19:03,260

stunned the fields she caught sight of

421

00:19:08,470 --> 00:19:05,930

three tall men walking parallel to a

422

00:19:10,690 --> 00:19:08,480

wall thorn edge she last saw the three

423

00:19:12,580 --> 00:19:10,700

men walking on an incline field and this

424

00:19:14,980 --> 00:19:12,590

point she shouted the children to go on

425

00:19:17,200 --> 00:19:14,990

from the place she that went to the

426
00:19:19,390 --> 00:19:17,210
turns market to later husband returned

427
00:19:21,490 --> 00:19:19,400
and were still very nervous

428
00:19:23,770 --> 00:19:21,500
together with the husband and child on

429
00:19:25,960 --> 00:19:23,780
arrival she found the de crowd of people

430
00:19:27,520 --> 00:19:25,970
had gathered when she cried as to what

431
00:19:29,590 --> 00:19:27,530
was up in him police officer asked for a

432
00:19:31,630 --> 00:19:29,600
name and address and said into a call

433
00:19:33,100 --> 00:19:31,640
interrupts over the weekend she has not

434
00:19:35,650 --> 00:19:33,110
been interviewed by any member of the

435
00:19:36,680 --> 00:19:35,660
police and this goes on the twenty

436
00:19:40,550 --> 00:19:36,690
seven-year-old

437
00:19:42,290 --> 00:19:40,560
apparently party and she received a

438
00:19:45,290 --> 00:19:42,300

flying saucer landing in the field

439

00:19:47,210 --> 00:19:45,300

beyond the estate we're not talking here

440

00:19:49,340 --> 00:19:47,220

about they've got in the sky night

441

00:19:53,390 --> 00:19:49,350

should sanity that they're within a

442

00:19:55,970 --> 00:19:53,400

stone's throw of Aria coming which is

443

00:19:58,970 --> 00:19:55,980

quite nearby just over to the other side

444

00:20:02,120 --> 00:19:58,980

of the island these people see airplanes

445

00:20:04,130 --> 00:20:02,130

taking off a fine ground every day of

446

00:20:06,110 --> 00:20:04,140

their lives because this is rarely

447

00:20:07,820 --> 00:20:06,120

training this is where one of the

448

00:20:09,530 --> 00:20:07,830

failures going on strength is not a

449

00:20:12,200 --> 00:20:09,540

flame and so on

450

00:20:14,150 --> 00:20:12,210

so when you say to them well you were

451

00:20:17,300 --> 00:20:14,160

mistaken this has got to be inherently

452

00:20:19,520 --> 00:20:17,310

take my word because I have they burst

453

00:20:24,470 --> 00:20:19,530

out nothing got you and tell you to go

454

00:20:28,310 --> 00:20:24,480

wet in their fluid I don't see much well

455

00:20:34,850 --> 00:20:28,320

I think he does anyway so it goes on as

456

00:20:35,360 --> 00:20:34,860

a agenda Jeremy birth at 17 years old 20

457

00:20:38,350 --> 00:20:35,370

minutes

458

00:20:41,030 --> 00:20:38,360

Cartman Jane Bertha 12 is only only

459

00:20:46,160 --> 00:20:41,040

children and most of the adults in the

460

00:20:50,810 --> 00:20:46,170

area at all reporting UFOs and landed

461

00:20:53,360 --> 00:20:50,820

objects also flight objects appeared in

462

00:20:55,880 --> 00:20:53,370

half of retrieves offered and so on

463

00:20:59,480 --> 00:20:55,890

Lockman came as an unusual claim to

464

00:21:03,440 --> 00:20:59,490

fame and is this a it's one I didn't

465

00:21:05,980 --> 00:21:03,450

didn't understand at the time summer

466

00:21:10,730 --> 00:21:05,990

jobs away but more or less in a moment

467

00:21:13,430 --> 00:21:10,740

Monica med holds the record for the most

468

00:21:17,420 --> 00:21:13,440

suicides per head of population in the

469

00:21:20,540 --> 00:21:17,430

entire of Europe that was not strange

470

00:21:23,120 --> 00:21:20,550

and idyllic little village in a

471

00:21:26,390 --> 00:21:23,130

beautiful countryside with fantastic

472

00:21:27,920 --> 00:21:26,400

views and not the roughness or pressure

473

00:21:32,200 --> 00:21:27,930

of life that you would get in a big city

474

00:21:35,360 --> 00:21:32,210

and yet so many of the people there

475

00:21:37,250 --> 00:21:35,370

choose to kill themselves and the

476

00:21:38,570 --> 00:21:37,260

experience is that they don't want to

477

00:21:41,990 --> 00:21:38,580

talk about

478

00:21:43,970 --> 00:21:42,000

interview numerous people I've said to

479

00:21:45,950 --> 00:21:43,980

him well you can talk to me the

480

00:21:47,930 --> 00:21:45,960

perfectly safe and futile it's a secret

481

00:21:49,580 --> 00:21:47,940

then it's between you and I for

482

00:21:52,340 --> 00:21:49,590

something something what happened I

483

00:21:54,220 --> 00:21:52,350

don't want to talk about it and it

484

00:21:56,930 --> 00:21:54,230

frightens me to think about it

485

00:21:59,630 --> 00:21:56,940

so once anything that happens you to

486

00:22:01,670 --> 00:21:59,640

make you cause you to be afraid no but

487

00:22:03,980 --> 00:22:01,680

I'm really scared about it and I don't

488

00:22:05,810 --> 00:22:03,990

want to talk and other villages tell me

489

00:22:08,060 --> 00:22:05,820

not to talk about it in case anybody

490

00:22:12,250 --> 00:22:08,070

comes asking questions and this seems to

491

00:22:16,940 --> 00:22:12,260

be the prevailing atmosphere in the area

492

00:22:23,270 --> 00:22:16,950

and this brings me to the plants on

493

00:22:27,970 --> 00:22:23,280

incident I was contacted by a mrs. P he

494

00:22:33,650 --> 00:22:30,980

undusted Christina and I would come and

495

00:22:39,070 --> 00:22:33,660

visit the post office which we did on

496

00:22:41,900 --> 00:22:39,080

the 2nd of November of 1980 now this is

497

00:22:45,770 --> 00:22:41,910

like a calm head and if we can talk one

498

00:22:48,500 --> 00:22:45,780

more slide up please thank you right I'm

499

00:22:51,680 --> 00:22:48,510

not there in the center is the post

500

00:22:53,720 --> 00:22:51,690

office can you see that sometime that's

501
00:22:55,790 --> 00:22:53,730
the post office in the village sweet

502
00:22:57,980 --> 00:22:55,800
little place I saw the place you want to

503
00:23:02,840 --> 00:22:57,990
go to and commit suicide but nonetheless

504
00:23:03,620 --> 00:23:02,850
this lady rang me up she said I'm very

505
00:23:06,500 --> 00:23:03,630
concerned

506
00:23:10,280 --> 00:23:06,510
my child's other awful experience which

507
00:23:11,780 --> 00:23:10,290
is quite frightening with his friend and

508
00:23:13,700 --> 00:23:11,790
I believe that you're somebody that goes

509
00:23:16,190 --> 00:23:13,710
into these things would you please come

510
00:23:18,670 --> 00:23:16,200
and talk to them see if you can make any

511
00:23:21,260 --> 00:23:18,680
sense of it and in any way you can and

512
00:23:23,930 --> 00:23:21,270
so we're delighted to do it when we got

513
00:23:27,800 --> 00:23:23,940

there general Keller aged nineteen

514

00:23:29,870 --> 00:23:27,810

twelve sorry it gave me the sight an

515

00:23:31,419 --> 00:23:29,880

account which is dated a second over as

516

00:23:34,180 --> 00:23:31,429

I'm Celia

517

00:23:35,919 --> 00:23:34,190

you people I'm actually this is the

518

00:23:38,469 --> 00:23:35,929

sights an account that was filled in all

519

00:23:41,499 --> 00:23:38,479

not dead but the drawing that was made

520

00:23:44,529 --> 00:23:41,509

by his own hand at the bottom what I did

521

00:23:46,810 --> 00:23:44,539

it yes I separated the two boys in two

522

00:23:48,879 --> 00:23:46,820

different rooms we gave him some paper

523

00:23:50,979 --> 00:23:48,889

and a pen and said would you like to

524

00:23:52,989 --> 00:23:50,989

draw a picture give some an idea what

525

00:23:56,369 --> 00:23:52,999

you were looking at and as you'll see in

526
00:23:59,979 --> 00:23:56,379
a moment the pictures are very similar

527
00:24:02,529 --> 00:23:59,989
his own words read on yeah we were

528
00:24:05,560 --> 00:24:02,539
walking along tunnel till pulling a

529
00:24:08,589 --> 00:24:05,570
go-cart and I looked up and shouted look

530
00:24:11,200 --> 00:24:08,599
at that David and David looked up and I

531
00:24:13,269 --> 00:24:11,210
ran up leaving the go-cart when we got

532
00:24:16,209 --> 00:24:13,279
to the top of the hill there was a giant

533
00:24:17,009 --> 00:24:16,219
disc shape like two sources one on top

534
00:24:20,589 --> 00:24:17,019
of the other

535
00:24:23,469 --> 00:24:20,599
it had 20 lights about south molton

536
00:24:25,450 --> 00:24:23,479
color roughly about it I ran to the side

537
00:24:28,690 --> 00:24:25,460
of it and I could see a light blue off

538
00:24:31,419 --> 00:24:28,700

of a football underneath I ran behind

539

00:24:34,419 --> 00:24:31,429

the lamppost but I was still watching it

540

00:24:37,389 --> 00:24:34,429

it turned over in midair and went very

541

00:24:40,359 --> 00:24:37,399

fast towards Paris mounting there was a

542

00:24:42,310 --> 00:24:40,369

storm like object there the saucer went

543

00:24:45,009 --> 00:24:42,320

into it and the storm like object

544

00:24:47,499 --> 00:24:45,019

disappeared and I was very scared

545

00:24:50,259 --> 00:24:47,509

his mum told me that he hugged the

546

00:24:54,129 --> 00:24:50,269

lamppost and wet himself not so

547

00:24:56,169 --> 00:24:54,139

frightened he was really frightened the

548

00:24:58,089 --> 00:24:56,179

other lot David Pritchard his friend

549

00:24:59,889 --> 00:24:58,099

also made a statement in this

550

00:25:01,869 --> 00:24:59,899

description was near-identical

551
00:25:04,539 --> 00:25:01,879
up to wind gentleman broke the lamppost

552
00:25:06,369 --> 00:25:04,549
and that boy David added that the object

553
00:25:08,709 --> 00:25:06,379
then moved directly over them and

554
00:25:10,779 --> 00:25:08,719
although he was terrified he continued

555
00:25:14,769 --> 00:25:10,789
to watch and saw the ugly part of the

556
00:25:17,499 --> 00:25:14,779
craft I think if we move on we might

557
00:25:22,869 --> 00:25:17,509
actually see that drawings this is the

558
00:25:25,239 --> 00:25:22,879
first month this is walkers now pay

559
00:25:27,489 --> 00:25:25,249
close attention you can see that there

560
00:25:28,089 --> 00:25:27,499
is some sort of bulb it's a connector at

561
00:25:30,849 --> 00:25:28,099
the bottom

562
00:25:32,380 --> 00:25:30,859
and it's also some flux at the side and

563
00:25:34,390 --> 00:25:32,390

what look like window

564

00:25:37,560 --> 00:25:34,400

all lights go around the perimeter of it

565

00:25:39,880 --> 00:25:37,570

if we cannot look now of the second one

566

00:25:43,020 --> 00:25:39,890

remember these are done individually

567

00:25:46,510 --> 00:25:43,030

they weren't colluding together anything

568

00:25:48,520 --> 00:25:46,520

this guy course Pritchard have got a

569

00:25:50,620 --> 00:25:48,530

much better look a bit or the other one

570

00:25:52,930 --> 00:25:50,630

was that Schedule B Morocco but as you

571

00:25:54,670 --> 00:25:52,940

can see it too is got the bulbous bits

572

00:25:56,890 --> 00:25:54,680

at the bottom it to Scott protrusions

573

00:25:58,420 --> 00:25:56,900

underneath it's got some sorts of lights

574

00:26:00,340 --> 00:25:58,430

that go around the perimeter but he was

575

00:26:02,860 --> 00:26:00,350

fortunate enough to look underneath it

576

00:26:05,110 --> 00:26:02,870

and here if you see you could see what

577

00:26:09,310 --> 00:26:05,120

looks like legs bone leading to it and

578

00:26:14,260 --> 00:26:09,320

that ball bit at the bottom is separated

579

00:26:18,450 --> 00:26:14,270

with a globe now I know that children

580

00:26:21,730 --> 00:26:18,460

have a fertile mind and can be things

581

00:26:25,000 --> 00:26:21,740

but I was the investigator I had these

582

00:26:26,830 --> 00:26:25,010

two children all to myself I spoke to

583

00:26:30,400 --> 00:26:26,840

him I talked to him I tried to catch the

584

00:26:32,410 --> 00:26:30,410

man and I believe honestly that they

585

00:26:38,440 --> 00:26:32,420

have this experience and they saw this

586

00:26:40,630 --> 00:26:38,450

object I conducted these interviews

587

00:26:44,050 --> 00:26:40,640

obviously with the permission of the

588

00:26:46,300 --> 00:26:44,060

parents under the presence of them to

589

00:26:49,210 --> 00:26:46,310

sum the evening however of the 17th of

590

00:26:51,750 --> 00:26:49,220

November of trozo they got another phone

591

00:26:54,760 --> 00:26:51,760

call from postmistress Missy Pritchard

592

00:26:56,620 --> 00:26:54,770

she sounded agitated and simply told me

593

00:27:00,160 --> 00:26:56,630

to turn on my TV and watch the news

594

00:27:02,950 --> 00:27:00,170

I already on the TV on source which

595

00:27:05,080 --> 00:27:02,960

chance to hear the tail end of a report

596

00:27:08,500 --> 00:27:05,090

regarding the young man who had gone

597

00:27:10,540 --> 00:27:08,510

missing on Paris Mountie a full-scale

598

00:27:12,790 --> 00:27:10,550

search had already been launched

599

00:27:15,340 --> 00:27:12,800

let me just tell me something if you

600

00:27:17,230 --> 00:27:15,350

intend to get lost at any time right

601
00:27:19,750 --> 00:27:17,240
there's one place in the world where

602
00:27:21,790 --> 00:27:19,760
you're going to be found right because

603
00:27:25,620 --> 00:27:21,800
it is the headquarters of the searched

604
00:27:29,020 --> 00:27:25,630
residue of the Coast Guard of RAF al

605
00:27:31,990 --> 00:27:29,030
right almost everything is there at all

606
00:27:33,590 --> 00:27:32,000
we had been around that Anglesey area so

607
00:27:35,510 --> 00:27:33,600
if you're going to get lost you couldn't

608
00:27:37,790 --> 00:27:35,520
in a better place because as soon as you

609
00:27:40,970 --> 00:27:37,800
report it there are people in boats

610
00:27:43,030 --> 00:27:40,980
people in cars and so on people in the

611
00:27:52,190 --> 00:27:43,040
aircraft looking for you straight away

612
00:27:54,680 --> 00:27:52,200
which is it a seer please right this is

613
00:27:56,600 --> 00:27:54,690

actually Perez managing on the top

614

00:27:58,280 --> 00:27:56,610

if you've covered on them that roads you

615

00:28:00,410 --> 00:27:58,290

can see in the middle photograph you

616

00:28:02,690 --> 00:28:00,420

would go down and you'd be up the Paris

617

00:28:06,380 --> 00:28:02,700

corner post office we've just dropped it

618

00:28:08,390 --> 00:28:06,390

out okay it's got the most astounding

619

00:28:10,610 --> 00:28:08,400

landscape they will ever see in your

620

00:28:13,430 --> 00:28:10,620

life to them because it's a massive

621

00:28:16,670 --> 00:28:13,440

copper mining area it's not active at

622

00:28:18,500 --> 00:28:16,680

the moment at all and one day when I was

623

00:28:21,620 --> 00:28:18,510

talking to rush to more friends about

624

00:28:23,540 --> 00:28:21,630

this and I said you know why am I

625

00:28:27,470 --> 00:28:23,550

getting all this activity there because

626

00:28:31,220 --> 00:28:27,480

by the way all of NASA into UFOs like

627

00:28:32,810 --> 00:28:31,230

you would not believe they can't tell

628

00:28:36,110 --> 00:28:32,820

you that because every time they

629

00:28:38,690 --> 00:28:36,120

mentioned UFO or alien the funding steps

630

00:28:40,400 --> 00:28:38,700

and they need went bankrupt three times

631

00:28:42,740 --> 00:28:40,410

the last time because they were

632

00:28:45,740 --> 00:28:42,750

searching for extraterrestrial SETI the

633

00:28:48,170 --> 00:28:45,750

search repla trustees and they've got to

634

00:28:50,360 --> 00:28:48,180

go public with it because obviously you

635

00:28:52,190 --> 00:28:50,370

know the funding just dries up people

636

00:28:54,530 --> 00:28:52,200

don't mind paying for space research of

637

00:28:56,720 --> 00:28:54,540

medical research and technology plans

638

00:28:57,890 --> 00:28:56,730

everything that comes out of it but when

639

00:28:59,630 --> 00:28:57,900

they mention anything to do with the

640

00:29:03,770 --> 00:28:59,640

possibility of aliens they fade away

641

00:29:05,780 --> 00:29:03,780

rapidly from it but here others remind

642

00:29:07,640 --> 00:29:05,790

you if you want to prove the people who

643

00:29:09,650 --> 00:29:07,650

say to me you talk a lot a lot you don't

644

00:29:11,510 --> 00:29:09,660

in any evidence I'm gonna give you some

645

00:29:14,720 --> 00:29:11,520

now jf blumrich

646

00:29:18,500 --> 00:29:14,730

who was in charge of NASA chief engineer

647

00:29:22,760 --> 00:29:18,510

of NASA right wrote a book in his

648

00:29:24,140 --> 00:29:22,770

lifetime and this book what do you think

649

00:29:26,840 --> 00:29:24,150

it's about ii think it's about the

650

00:29:27,200 --> 00:29:26,850

amazing work and the research that they

651

00:29:29,180 --> 00:29:27,210

can

652

00:29:31,639 --> 00:29:29,190

NASA and all the wonderful things

653

00:29:33,919 --> 00:29:31,649

achieved while he was in charge earth no

654

00:29:37,820 --> 00:29:33,929

it's called the spaceships obviously

655

00:29:39,200 --> 00:29:37,830

killed right and it's about UFOs this is

656

00:29:42,139 --> 00:29:39,210

not nothing

657

00:29:45,350 --> 00:29:42,149

the UFOs he wrote about in the book he

658

00:29:48,769 --> 00:29:45,360

discovered in the Bible this craft came

659

00:29:51,230 --> 00:29:48,779

down to old Ezekiel and it's a lovely

660

00:29:53,060 --> 00:29:51,240

scrum I never thought about it in terms

661

00:29:55,310 --> 00:29:53,070

of engineering but it's so well

662

00:29:58,519 --> 00:29:55,320

described wheels within wheels an intern

663

00:30:00,440 --> 00:29:58,529

with activity knowledge this guy is one

664

00:30:02,539 --> 00:30:00,450

of the greatest engineers in the world

665

00:30:04,340 --> 00:30:02,549

it took one look at this and said they

666

00:30:07,880 --> 00:30:04,350

discovered in a new invention eeh

667

00:30:10,669 --> 00:30:07,890

they're talking about a new invention so

668

00:30:12,139 --> 00:30:10,679

he went out when he drew pictures of

669

00:30:16,220 --> 00:30:12,149

what he thought he was listening to it

670

00:30:20,779 --> 00:30:16,230

not bother and he patented it and it is

671

00:30:25,519 --> 00:30:20,789

the only system of moving things to and

672

00:30:28,490 --> 00:30:25,529

fro on the same wheels but he painted it

673

00:30:31,370 --> 00:30:28,500

this time and then there's another one

674

00:30:33,950 --> 00:30:31,380

who decided the Apollo four spacecraft

675

00:30:36,620 --> 00:30:33,960

and has got the most inventions in the

676

00:30:42,019 --> 00:30:36,630

world to his name and he wrote a book

677

00:30:45,889 --> 00:30:42,029

about UFOs this is NASA they won't talk

678

00:30:48,500 --> 00:30:45,899

about it because officially UFOs do

679

00:30:51,440 --> 00:30:48,510

exist and if you report them to the

680

00:30:55,070 --> 00:30:51,450

official NASA they will look into it if

681

00:31:00,380 --> 00:30:55,080

you've got any evidence that's it but

682

00:31:04,460 --> 00:31:00,390

they won't accept anything from it ok so

683

00:31:06,710 --> 00:31:04,470

I turn the news on and there it was this

684

00:31:09,500 --> 00:31:06,720

young man's gone missing on Perry's

685

00:31:11,180 --> 00:31:09,510

Mountie can I have another picture

686

00:31:14,060 --> 00:31:11,190

please

687

00:31:16,039 --> 00:31:14,070

this again is Perez Monty a very

688

00:31:18,690 --> 00:31:16,049

desolate place I might tell you but

689

00:31:20,789 --> 00:31:18,700

except a little film about some azimuth

690

00:31:25,049 --> 00:31:20,799

you know for space it's amazing one more

691

00:31:26,759 --> 00:31:25,059

please and this is the very spot on this

692

00:31:28,769 --> 00:31:26,769

column if you went up there you'd be to

693

00:31:30,779 --> 00:31:28,779

the quarries but this is the top of the

694

00:31:33,090 --> 00:31:30,789

mountain in the dome there is--there is

695

00:31:35,639 --> 00:31:33,100

the most up to be talking about this

696

00:31:40,470 --> 00:31:35,649

young man has driven to the top of this

697

00:31:43,409 --> 00:31:40,480

manatee yes got out of his car left the

698

00:31:47,359 --> 00:31:43,419

keys in it at the door open and

699

00:31:50,399 --> 00:31:47,369

disappeared off the face of the earth

700

00:31:52,499 --> 00:31:50,409

fortunately as I say you can't you know

701
00:31:54,960 --> 00:31:52,509
lose yourself in a better place but the

702
00:31:57,690 --> 00:31:54,970
Tata Polly's Monty because within no

703
00:32:00,269 --> 00:31:57,700
time whatever search and rescue were led

704
00:32:04,409 --> 00:32:00,279
people on the ground mountain rescue

705
00:32:06,210 --> 00:32:04,419
people right there was a search and

706
00:32:09,060 --> 00:32:06,220
rescue with helicopters at the whole

707
00:32:12,289 --> 00:32:09,070
works are looking for a man a young man

708
00:32:14,909 --> 00:32:12,299
on here let's search every inch of this

709
00:32:19,649 --> 00:32:14,919
now the weather was closing down but

710
00:32:22,950 --> 00:32:19,659
they didn't ever find him every night

711
00:32:25,619 --> 00:32:22,960
for 10 days the news actually ended with

712
00:32:28,109 --> 00:32:25,629
an update on the fruitless search which

713
00:32:31,109 --> 00:32:28,119

are they including trucker jobs divers

714

00:32:34,560 --> 00:32:31,119

searched bonds and eventually after 10

715

00:32:37,830 --> 00:32:34,570

days the search was called off from that

716

00:32:39,470 --> 00:32:37,840

day to this this body has never been

717

00:32:42,029 --> 00:32:39,480

found

718

00:32:48,599 --> 00:32:42,039

even though there's a sale about the

719

00:32:52,799 --> 00:32:48,609

best chances of finding other sightings

720

00:32:55,560 --> 00:32:52,809

over on Mossi include August 67 the UFO

721

00:32:57,450 --> 00:32:55,570

follows a HTV driver and his mate from

722

00:32:59,700 --> 00:32:57,460

up ahead across uncle si large

723

00:33:01,619 --> 00:32:59,710

brilliantly illuminated sphere is able

724

00:33:05,430 --> 00:33:01,629

to move up and down vertically and he

725

00:33:07,470 --> 00:33:05,440

was silent and then another news

726

00:33:10,139 --> 00:33:07,480

clipping which is in my stuff tonight

727

00:33:12,330 --> 00:33:10,149

and then it over to your wonderful

728

00:33:16,259 --> 00:33:12,340

organization here so they can examine it

729

00:33:19,289 --> 00:33:16,269

is a a UFO flew over our school as a

730

00:33:24,479 --> 00:33:19,299

assignment a silver cigar shaped craft

731

00:33:25,550 --> 00:33:24,489

with a black dome on top 1978 a large

732

00:33:29,560 --> 00:33:25,560

number of site

733

00:33:32,480 --> 00:33:29,570

we'll see including flying triangles

734

00:33:35,060 --> 00:33:32,490

September 79 a woman in the thirties

735

00:33:38,450 --> 00:33:35,070

witnesses are in full safety objective

736

00:33:41,600 --> 00:33:38,460

my good twenty removed from llanfair PG

737

00:33:46,030 --> 00:33:41,610

witnesses circular UFO a close range and

738

00:33:48,800 --> 00:33:46,040

never suffers from abductee symptoms

739

00:33:51,830 --> 00:33:48,810

1992 husband and wife see one of rifle

740

00:33:54,260 --> 00:33:51,840

see through binoculars long each object

741

00:33:57,050 --> 00:33:54,270

radiating red silver and green bands

742

00:33:59,600 --> 00:33:57,060

very small round objects approached it

743

00:34:04,640 --> 00:33:59,610

and appear to disappear into the larger

744

00:34:10,010 --> 00:34:04,650

object like I said if these becoming

745

00:34:11,899 --> 00:34:10,020

scattered courts you know tend to look

746

00:34:14,419 --> 00:34:11,909

at a slightly more skeptical but as I've

747

00:34:16,490 --> 00:34:14,429

explained to you when you will live near

748

00:34:19,669 --> 00:34:16,500

all this aircraft activity all this

749

00:34:20,649 --> 00:34:19,679

shipping activity and so on you see this

750

00:34:23,630 --> 00:34:20,659

stuff every day

751
00:34:25,550 --> 00:34:23,640
you know you're not gonna get excited

752
00:34:27,350 --> 00:34:25,560
about seeing an airplane going over this

753
00:34:28,700 --> 00:34:27,360
is if you could stand still for ten

754
00:34:35,149 --> 00:34:28,710
minutes or I got so good I could see it

755
00:34:38,930 --> 00:34:35,159
what is something wrong so February 1996

756
00:34:43,480 --> 00:34:38,940
a silent oval object that pulsed in an

757
00:34:46,460 --> 00:34:43,490
erratic fashion we're about to hear our

758
00:34:49,280 --> 00:34:46,470
1996 three elderly jets near earlier to

759
00:34:51,980 --> 00:34:49,290
see a UFO recovered and displayed two

760
00:34:53,780 --> 00:34:51,990
sets of circular lights they lost

761
00:34:57,170 --> 00:34:53,790
approximately an hour of their journey

762
00:34:58,730 --> 00:34:57,180
time and context ladies and they're

763
00:35:01,550 --> 00:34:58,740

going to show you what to discover it

764

00:35:03,380 --> 00:35:01,560

has been going on for years nearer to

765

00:35:08,200 --> 00:35:03,390

wherever but first I will show you

766

00:35:12,470 --> 00:35:08,210

and when quest started on February 24th

767

00:35:14,780 --> 00:35:12,480

no this is a winter time please in 1979

768

00:35:16,940 --> 00:35:14,790

a UFO sighted maneuvering over the

769

00:35:19,570 --> 00:35:16,950

Northwest there were many reports

770

00:35:22,910 --> 00:35:19,580

received by the British UFO

771

00:35:25,310 --> 00:35:22,920

investigations before before plus

772

00:35:28,670 --> 00:35:25,320

reports sent to police airports of radio

773

00:35:31,079 --> 00:35:28,680

stations it was extensively in

774

00:35:32,940 --> 00:35:31,089

they actually produced a map of the

775

00:35:36,870 --> 00:35:32,950

flight path based on the eyewitness

776

00:35:38,790 --> 00:35:36,880

account I think we may have this yeah no

777

00:35:40,920 --> 00:35:38,800

that's the UFO verse cousin bill see

778

00:35:42,599 --> 00:35:40,930

this UFO over this girl's I catch a few

779

00:35:43,859 --> 00:35:42,609

slides in there now hang on one more

780

00:35:46,800 --> 00:35:43,869

thank you

781

00:35:48,480 --> 00:35:46,810

yes there we come now you'll notice at

782

00:35:51,210 --> 00:35:48,490

the top there's a dotted line that goes

783

00:35:53,520 --> 00:35:51,220

in and out there and all those areas the

784

00:35:55,050 --> 00:35:53,530

dimensions on there right Lancaster

785

00:35:58,559 --> 00:35:55,060

Fleetwood and all that stuff all the way

786

00:36:01,109 --> 00:35:58,569

around the top and so all the way around

787

00:36:03,839 --> 00:36:01,119

all witness this say UFO travel in this

788

00:36:06,900 --> 00:36:03,849

direction bear in mind this is coastal

789

00:36:10,980 --> 00:36:06,910

and so all of these places are their own

790

00:36:13,319 --> 00:36:10,990

Coast Guard right and local stations so

791

00:36:15,059 --> 00:36:13,329

what you've got is one Coast Guard

792

00:36:17,280 --> 00:36:15,069

Station saying I drop an object

793

00:36:19,620 --> 00:36:17,290

traveling that extremely low just above

794

00:36:23,309 --> 00:36:19,630

the water right in front of me going

795

00:36:24,990 --> 00:36:23,319

from north to south it's going to the

796

00:36:27,630 --> 00:36:25,000

fair speed so you should get it yourself

797

00:36:30,960 --> 00:36:27,640

in about five minutes and then next

798

00:36:33,000 --> 00:36:30,970

minute the next station says oh Emily

799

00:36:35,309 --> 00:36:33,010

coming yes I can see it now it's coming

800

00:36:37,200 --> 00:36:35,319

along here and all the way down they

801
00:36:40,589 --> 00:36:37,210
watch this right around the Liverpool

802
00:36:42,260 --> 00:36:40,599
but now it's very hard to determine from

803
00:36:45,030 --> 00:36:42,270
the eyewitnesses that I've studied

804
00:36:47,609 --> 00:36:45,040
whether the object was us the dotted

805
00:36:51,180 --> 00:36:47,619
line shows over the land at this point

806
00:36:53,700 --> 00:36:51,190
or still over the sea so if you're

807
00:36:56,579 --> 00:36:53,710
looking at it this way you see it right

808
00:36:58,500 --> 00:36:56,589
and from the land but it may or may not

809
00:36:59,599 --> 00:36:58,510
be overland it may still be over the

810
00:37:02,099 --> 00:36:59,609
city

811
00:37:05,849 --> 00:37:02,109
but one thing that's most important I

812
00:37:07,710 --> 00:37:05,859
want you to realize is where it ends

813
00:37:09,359 --> 00:37:07,720

where the other end of that dense now I

814

00:37:11,700 --> 00:37:09,369

didn't make this report myself as a

815

00:37:17,280 --> 00:37:11,710

cemetery port conducted by other people

816

00:37:21,900 --> 00:37:17,290

but when he got outside we'll know more

817

00:37:23,760 --> 00:37:21,910

reports were made it the next Coast

818

00:37:26,250 --> 00:37:23,770

Guard Station on Colley Bay that was

819

00:37:27,440 --> 00:37:26,260

looking at ready for the object to come

820

00:37:32,210 --> 00:37:27,450

along he didn't come up

821

00:37:34,250 --> 00:37:32,220

it only got his father together so he

822

00:37:36,530 --> 00:37:34,260

could imagine I was very interested at

823

00:37:38,930 --> 00:37:36,540

Nestle just moved into the area and he

824

00:37:41,809 --> 00:37:38,940

would got this amazing set of reports by

825

00:37:44,380 --> 00:37:41,819

numerous witnesses all talking of the

826

00:37:49,120 --> 00:37:44,390

same object that have been witnessed

827

00:37:51,950 --> 00:37:49,130

okay and I simply ask the question why

828

00:37:55,789 --> 00:37:51,960

they could be only two real explanations

829

00:37:57,530 --> 00:37:55,799

one that went up into the sky or two it

830

00:37:59,000 --> 00:37:57,540

moved in mind and that could actually be

831

00:38:01,640 --> 00:37:59,010

a third very marking on them in the

832

00:38:05,000 --> 00:38:01,650

water but just bear with me a while I'll

833

00:38:08,660 --> 00:38:05,010

make it all a little sense my dear wife

834

00:38:11,210 --> 00:38:08,670

and I are walking along the promenade in

835

00:38:15,339 --> 00:38:11,220

real which is very beautiful call that C

836

00:38:19,370 --> 00:38:15,349

is redundant so here on the promenade

837

00:38:23,930 --> 00:38:19,380

and we come upon the coastguard station

838

00:38:28,280 --> 00:38:23,940

where we've got a smashing lifeboat the

839

00:38:30,950 --> 00:38:28,290

next slide please this is our modern

840

00:38:34,309 --> 00:38:30,960

Coast Guard's they should be here now

841

00:38:36,230 --> 00:38:34,319

little building on the extreme left of

842

00:38:37,849 --> 00:38:36,240

your picture with two colored blobs on

843

00:38:40,160 --> 00:38:37,859

it is actually the Coast Guard Station

844

00:38:42,559 --> 00:38:40,170

which used to be on the top of our

845

00:38:44,480 --> 00:38:42,569

lifeboat station until we have a new one

846

00:38:47,960 --> 00:38:44,490

built so if you have another slide

847

00:38:49,970 --> 00:38:47,970

please here it is today there's our

848

00:38:51,620 --> 00:38:49,980

modern thing this is too small to be the

849

00:38:56,359 --> 00:38:51,630

coastguard station the windows are too

850

00:38:58,099 --> 00:38:56,369

small and the game fees this is a Coast

851
00:39:00,470 --> 00:38:58,109
Guard Station which is no other bucket

852
00:39:03,980 --> 00:39:00,480
which is completely useless for ceilings

853
00:39:05,930 --> 00:39:03,990
and other way next please right yeah

854
00:39:08,270 --> 00:39:05,940
I've managed to dig out one of the

855
00:39:10,670 --> 00:39:08,280
original photographs before they built

856
00:39:12,620 --> 00:39:10,680
the new station and that's it they're

857
00:39:14,809 --> 00:39:12,630
too quick but things you can see that I

858
00:39:17,299 --> 00:39:14,819
quotes in the bottom as the launch ramp

859
00:39:19,609 --> 00:39:17,309
driven the background there but on the

860
00:39:22,799 --> 00:39:19,619
top of it you'll see what looks like an

861
00:39:24,449 --> 00:39:22,809
aircraft radar room at

862
00:39:26,519 --> 00:39:24,459
but it's up to me the Coast Guard says

863
00:39:29,789 --> 00:39:26,529

you can see a little woman's remedy and

864

00:39:32,009 --> 00:39:29,799

go through the box the enemy's okay well

865

00:39:33,689 --> 00:39:32,019

if you want to later on I've got the up

866

00:39:35,219 --> 00:39:33,699

two original pictures with me so not

867

00:39:37,199 --> 00:39:35,229

good but it's all that the windows

868

00:39:42,689 --> 00:39:37,209

running they sent in there and they will

869

00:39:45,149 --> 00:39:42,699

get to see and try to save lives we've

870

00:39:47,279 --> 00:39:45,159

woken up and so not a sunny day I just

871

00:39:48,989 --> 00:39:47,289

go on there and there's a sign that

872

00:39:52,829 --> 00:39:48,999

sighs I've never seen before it says

873

00:39:55,259 --> 00:39:52,839

Coast Guard Station opened it so the

874

00:39:58,589 --> 00:39:55,269

classes which opportunities such as my

875

00:40:00,809 --> 00:39:58,599

dear but was so delighted to spend some

876

00:40:04,370 --> 00:40:00,819

of her sunny sunny day in real going

877

00:40:06,539 --> 00:40:04,380

into a lifeboat state as you can imagine

878

00:40:10,199 --> 00:40:06,549

if you wanted to know what to make a

879

00:40:13,859 --> 00:40:10,209

fight so we went upstairs and in there

880

00:40:16,439 --> 00:40:13,869

there was an old man and a young man so

881

00:40:18,120 --> 00:40:16,449

I played the devil's advocate which I do

882

00:40:20,579 --> 00:40:18,130

frequently when I'm trying to find the

883

00:40:24,779 --> 00:40:20,589

truth it look through these rivers like

884

00:40:26,969 --> 00:40:24,789

this so Wow fantastic view God you can

885

00:40:27,929 --> 00:40:26,979

see why don't you see you well it's

886

00:40:31,109 --> 00:40:27,939

absolutely amazing

887

00:40:33,149 --> 00:40:31,119

you know all these closets see these

888

00:40:36,599 --> 00:40:33,159

what were they call them flying flying

889

00:40:38,309 --> 00:40:36,609

saucer things you know you know you were

890

00:40:39,269 --> 00:40:38,319

set up here every day looking up to

891

00:40:40,380 --> 00:40:39,279

these big windows

892

00:40:45,449 --> 00:40:40,390

you couldn't see anything like that

893

00:40:47,309 --> 00:40:45,459

obviously and a pause and the you man

894

00:40:49,579 --> 00:40:47,319

says the or one time about the one that

895

00:40:52,469 --> 00:40:49,589

come up out of the sea rustic

896

00:40:55,169 --> 00:40:52,479

say cut don't be daft would become open

897

00:40:56,039 --> 00:40:55,179

to the sea or an aircraft or whatever it

898

00:40:58,439 --> 00:40:56,049

says flares

899

00:41:00,539 --> 00:40:58,449

oh no no no said these compared to the

900

00:41:02,759 --> 00:41:00,549

water and went against the prevailing

901

00:41:04,999 --> 00:41:02,769

wind the flares don't do that

902

00:41:08,609 --> 00:41:05,009

he said and then they just stood there

903

00:41:14,189 --> 00:41:08,619

stood there and didn't do anything for

904

00:41:17,039 --> 00:41:14,199

ages god no cuisine I what on earth

905

00:41:19,140 --> 00:41:17,049

cannot be easy to you know some kind of

906

00:41:20,849 --> 00:41:19,150

signal as if having to launch the boat

907

00:41:22,799 --> 00:41:20,859

what we've got to do and they're looking

908

00:41:24,450 --> 00:41:22,809

at it and all of a sudden it started you

909

00:41:26,559 --> 00:41:24,460

grow

910

00:41:28,870 --> 00:41:26,569

what they discovered of course it was

911

00:41:31,059 --> 00:41:28,880

coming straight to them straight up them

912

00:41:33,549 --> 00:41:31,069

from over the top of the water they see

913

00:41:35,109 --> 00:41:33,559

not something by the way you know 20,000

914

00:41:37,359 --> 00:41:35,119

feet up in the air on the air makes a

915

00:41:39,970 --> 00:41:37,369

little ball their book this is dem Apple

916

00:41:42,160 --> 00:41:39,980

for the water just above the water and

917

00:41:44,799 --> 00:41:42,170

it just misses the top of this when it

918

00:41:49,329 --> 00:41:44,809

goes salesman and he goes strength in

919

00:41:55,359 --> 00:41:49,339

unfurl very top of my picture yeah look

920

00:41:56,589 --> 00:41:55,369

naughty breathing crusty locked yes but

921

00:41:58,480 --> 00:41:56,599

in five seconds

922

00:42:04,809 --> 00:41:58,490

they was already over the grieving Rossi

923

00:42:08,079 --> 00:42:04,819

glance why because there is something

924

00:42:09,819 --> 00:42:08,089

called the clue he failed you just if

925

00:42:11,980 --> 00:42:09,829

you look carefully at the top left-hand

926
00:42:14,530 --> 00:42:11,990
corner see some mentees starting the

927
00:42:18,730 --> 00:42:14,540
program what happens is best to maintain

928
00:42:20,650 --> 00:42:18,740
ranges the Monte range on your left is

929
00:42:22,240 --> 00:42:20,660
much higher empty range on your right

930
00:42:24,640 --> 00:42:22,250
but they're both high mountain ranges

931
00:42:29,020 --> 00:42:24,650
and the valley in between them is fast

932
00:42:31,539 --> 00:42:29,030
and wide I did some research and I found

933
00:42:33,640 --> 00:42:31,549
there to the RAF are flying low flying

934
00:42:35,620 --> 00:42:33,650
aircraft down here occasionally and what

935
00:42:37,839 --> 00:42:35,630
they do is they tried to bombed every

936
00:42:40,720 --> 00:42:37,849
Castle without being seen on any other

937
00:42:43,930 --> 00:42:40,730
radar which means they were flying less

938
00:42:46,870 --> 00:42:43,940

than 200 feet off the ground don't sell

939

00:42:50,260 --> 00:42:46,880

my much but women the jet comes over you

940

00:42:52,270 --> 00:42:50,270

from absolutely nowhere and it takes you

941

00:42:53,980 --> 00:42:52,280

that often Frances they need a light say

942

00:42:57,280 --> 00:42:53,990

to you because I've been there well in

943

00:42:59,589 --> 00:42:57,290

Devon they're viewing so expect them in

944

00:43:01,900 --> 00:42:59,599

there now the advantage is the many you

945

00:43:04,589 --> 00:43:01,910

enter up range which is only just the

946

00:43:07,120 --> 00:43:04,599

other side of wave see those buildings

947

00:43:10,990 --> 00:43:07,130

nobody can see if neither Civil Aviation

948

00:43:15,490 --> 00:43:11,000

or RF having radar no radar can actually

949

00:43:17,920 --> 00:43:15,500

see you in that trough the objects they

950

00:43:22,000 --> 00:43:17,930

go down this range all the way to the

951
00:43:25,329 --> 00:43:22,010
tone endemic and then they usually turn

952
00:43:28,260 --> 00:43:25,339
that Debbie and go on another trough out

953
00:43:30,910 --> 00:43:28,270
to the Debbi Morris now if you kept

954
00:43:32,710 --> 00:43:30,920
and own it up to the Dendy balls you'll

955
00:43:34,900 --> 00:43:32,720
find that with a careful placement of at

956
00:43:35,470 --> 00:43:34,910
them you could stick it in the den be

957
00:43:38,770 --> 00:43:35,480
boss

958
00:43:42,310 --> 00:43:38,780
90 miles from any building of any kind

959
00:43:44,770 --> 00:43:42,320
that's every motive of it and if you

960
00:43:47,830 --> 00:43:44,780
step off the road up there and start

961
00:43:49,630 --> 00:43:47,840
walking across those hills and so you

962
00:43:51,100 --> 00:43:49,640
could be lost in no time believe you me

963
00:43:54,190 --> 00:43:51,110

too really ought to find your way around

964

00:43:55,870 --> 00:43:54,200

there as only one main road that goes

965

00:43:59,610 --> 00:43:55,880

all the way over the top of the Debbie

966

00:44:04,780 --> 00:43:59,620

more was just one okay

967

00:44:06,670 --> 00:44:04,790

come up never North Wales that's a few

968

00:44:08,890 --> 00:44:06,680

by the way from the coast guard stations

969

00:44:11,200 --> 00:44:08,900

very exciting as you can see all the new

970

00:44:17,560 --> 00:44:11,210

paints in the front people in the back

971

00:44:18,790 --> 00:44:17,570

way right area map of North Wales and

972

00:44:20,260 --> 00:44:18,800

what you think about they have often

973

00:44:22,420 --> 00:44:20,270

this tangled mess that you can't see it

974

00:44:24,490 --> 00:44:22,430

all from the back it's look at the coast

975

00:44:28,060 --> 00:44:24,500

pass that sought that's the blue water

976

00:44:30,070 --> 00:44:28,070

bit and you'll see two blobs it man the

977

00:44:31,810 --> 00:44:30,080

globe on your left hand side is real and

978

00:44:34,810 --> 00:44:31,820

the body right hand side is pressed

979

00:44:36,820 --> 00:44:34,820

gutted and this yellow bomb that comes

980

00:44:40,300 --> 00:44:36,830

down here kanaka maoli see a young man

981

00:44:41,680 --> 00:44:40,310

from there no there's something for that

982

00:44:44,260 --> 00:44:41,690

move on anyway

983

00:44:45,180 --> 00:44:44,270

the yellow Gundam there is the fluid

984

00:44:48,580 --> 00:44:45,190

monty wrench

985

00:44:52,000 --> 00:44:48,590

okay and this bit of a bun them here is

986

00:44:53,800 --> 00:44:52,010

also the range on the other side it's

987

00:44:56,050 --> 00:44:53,810

pretty curtain of death I tell you are

988

00:44:56,680 --> 00:44:56,060

breathing operators here absolutely

989

00:45:00,750 --> 00:44:56,690

fantastic

990

00:45:03,120 --> 00:45:00,760

so once you've entered this trough

991

00:45:05,500 --> 00:45:03,130

convert really do what your luck

992

00:45:07,810 --> 00:45:05,510

obviously in broad daylight in the

993

00:45:10,270 --> 00:45:07,820

summer it's a bit dicey because people

994

00:45:12,700 --> 00:45:10,280

make your CV even though it's extremely

995

00:45:15,220 --> 00:45:12,710

hard to see anything that's only just

996

00:45:16,090 --> 00:45:15,230

above the offices if you fly something

997

00:45:18,880 --> 00:45:16,100

behind this guy

998

00:45:21,490 --> 00:45:18,890

everyone can see it if you fly it just

999

00:45:21,820 --> 00:45:21,500

above that I to perhaps nobody can see

1000

00:45:27,040 --> 00:45:21,830

it

1001

00:45:30,310 --> 00:45:27,050

month I'm sorry by all the buildings

1002

00:45:31,510 --> 00:45:30,320

around you try yourself in your city you

1003

00:45:33,790 --> 00:45:31,520

live down the garden and think

1004

00:45:35,650 --> 00:45:33,800

something's just above the earth see how

1005

00:45:39,340 --> 00:45:35,660

easy it would be to disappear so as its

1006

00:45:42,730 --> 00:45:39,350

moved it's off in the sky see it from

1007

00:45:44,020 --> 00:45:42,740

any angle okay so that's about just to

1008

00:45:44,380 --> 00:45:44,030

give you some idea what we're talking

1009

00:45:47,560 --> 00:45:44,390

about

1010

00:45:50,440 --> 00:45:47,570

okay run what please this is a map I

1011

00:45:52,690 --> 00:45:50,450

draw which makes it more easy to

1012

00:45:54,220 --> 00:45:52,700

understand real impressed I didn't

1013

00:45:57,070 --> 00:45:54,230

that's got a lump in the middle with no

1014

00:46:01,440 --> 00:45:57,080

built-up area all that is in the center

1015

00:46:04,750 --> 00:46:01,450

there is God God and the holiday park

1016

00:46:09,970 --> 00:46:04,760

those blue dots on there are actual UFO

1017

00:46:12,490 --> 00:46:09,980

reports and they're specifically the

1018

00:46:15,460 --> 00:46:12,500

ones which I'm pretty sure of not any

1019

00:46:21,670 --> 00:46:15,470

kind of military craft which are the

1020

00:46:25,390 --> 00:46:21,680

real thing okay whether they occur well

1021

00:46:26,800 --> 00:46:25,400

they always occur in the winter it

1022

00:46:28,660 --> 00:46:26,810

doesn't mean to say that they can't

1023

00:46:31,090 --> 00:46:28,670

appear in the summer but they do always

1024

00:46:33,610 --> 00:46:31,100

appear in the winter so as he gets older

1025

00:46:35,980 --> 00:46:33,620

mid-november and carry on through you

1026
00:46:38,400 --> 00:46:35,990
know the winter this doctrine they

1027
00:46:41,050 --> 00:46:38,410
really get to Christmas the Morrisey

1028
00:46:43,200 --> 00:46:41,060
strangely enough but there's a reason

1029
00:46:45,550 --> 00:46:43,210
for that

1030
00:46:46,780 --> 00:46:45,560
let's all look at their flight path for

1031
00:46:50,110 --> 00:46:46,790
a second can we have another slide

1032
00:46:54,490 --> 00:46:50,120
please oh by the way these are sightings

1033
00:46:56,230 --> 00:46:54,500
do not range just a second later and at

1034
00:46:58,450 --> 00:46:56,240
the bottom is a bit of a graph I only

1035
00:47:01,150 --> 00:46:58,460
got to 1984 of these could have enough

1036
00:47:02,620 --> 00:47:01,160
time to put new graphs to go this

1037
00:47:06,280 --> 00:47:02,630
graphic all the way down to the basement

1038
00:47:08,020 --> 00:47:06,290

of the building but there we are showing

1039

00:47:08,710 --> 00:47:08,030

at the bottom a graph of the times of

1040

00:47:10,930 --> 00:47:08,720

the year

1041

00:47:13,390 --> 00:47:10,940

can you see December November and

1042

00:47:17,910 --> 00:47:13,400

Johnny those are the areas where we get

1043

00:47:20,890 --> 00:47:17,920

the most scientists are the Wobblies but

1044

00:47:24,160 --> 00:47:20,900

as I was flying over in the UFO once I

1045

00:47:26,349 --> 00:47:24,170

took this photograph then as you can see

1046

00:47:28,630 --> 00:47:26,359

this is relative yet but if you look a

1047

00:47:30,789 --> 00:47:28,640

bit beyond a little bit further Devon

1048

00:47:33,609 --> 00:47:30,799

that comes to the very top area you'll

1049

00:47:35,500 --> 00:47:33,619

see Peters apt completely I live whether

1050

00:47:39,279 --> 00:47:35,510

that area where it sort of Peter said

1051
00:47:42,460 --> 00:47:39,289
and that's the area the UFOs come in

1052
00:47:43,930 --> 00:47:42,470
they come in from the scene coming up

1053
00:47:46,569 --> 00:47:43,940
notes of the scene as they fly

1054
00:47:48,339 --> 00:47:46,579
brilliantly more to UFOs and I've had

1055
00:47:51,160 --> 00:47:48,349
that problem to me these discs are

1056
00:47:54,279 --> 00:47:51,170
absolutely that that shape would be to

1057
00:47:56,440 --> 00:47:54,289
fly through water and they travel inland

1058
00:47:57,910 --> 00:47:56,450
at a low range you just start to see the

1059
00:47:59,920 --> 00:47:57,920
mountains starting to stick up in the

1060
00:48:02,380 --> 00:47:59,930
corner of the right there so once they

1061
00:48:04,180 --> 00:48:02,390
get over that little bit there where you

1062
00:48:06,760 --> 00:48:04,190
see sort of white flow of the top that's

1063
00:48:09,460 --> 00:48:06,770

the other they come no houses and they

1064

00:48:12,700 --> 00:48:09,470

were just you know holiday camp which

1065

00:48:16,390 --> 00:48:12,710

coincidentally closes during those

1066

00:48:19,029 --> 00:48:16,400

months in the winter so basically you've

1067

00:48:20,380 --> 00:48:19,039

got a looked in ones from the sea if

1068

00:48:24,519 --> 00:48:20,390

they were crossing over the top of

1069

00:48:28,569 --> 00:48:24,529

people are protection Cerreta more to

1070

00:48:33,309 --> 00:48:28,579

their come another picture please right

1071

00:48:35,049 --> 00:48:33,319

this clearly shows prostatic and rim and

1072

00:48:37,809 --> 00:48:35,059

this area see the golf club at the very

1073

00:48:40,299 --> 00:48:37,819

top were indicated and this area in

1074

00:48:40,890 --> 00:48:40,309

between weather is nothing nothing at

1075

00:48:43,809 --> 00:48:40,900

all

1076

00:48:46,539 --> 00:48:43,819

what a coincidence so they always travel

1077

00:48:50,500 --> 00:48:46,549

across that golf course and then that

1078

00:48:52,029 --> 00:48:50,510

line there there are no buildings and in

1079

00:48:54,279 --> 00:48:52,039

the middle of the winter in the middle

1080

00:48:57,279 --> 00:48:54,289

of the morning you could probably walk

1081

00:49:00,250 --> 00:48:57,289

down there with brightly lit umbrella

1082

00:49:02,680 --> 00:49:00,260

and nobody would ever see some walk

1083

00:49:07,930 --> 00:49:02,690

around we have walk around anyway here

1084

00:49:10,510 --> 00:49:07,940

we go Club salute leaves right now we're

1085

00:49:11,400 --> 00:49:10,520

on the promenade and I move down there

1086

00:49:13,980 --> 00:49:11,410

from the

1087

00:49:16,380 --> 00:49:13,990

I hope station which is a bit further of

1088

00:49:18,570 --> 00:49:16,390

this end and I'm stood now at the golf

1089

00:49:20,160 --> 00:49:18,580

course a promenade the golf course

1090

00:49:22,200 --> 00:49:20,170

starts right at the promenade and

1091

00:49:25,220 --> 00:49:22,210

there's nothing you go straight across

1092

00:49:28,020 --> 00:49:25,230

that cars cost one more please

1093

00:49:30,480 --> 00:49:28,030

right that's looking directly across the

1094

00:49:32,760 --> 00:49:30,490

golf club and you see the star for the

1095

00:49:35,040 --> 00:49:32,770

mountain range there so once you've gone

1096

00:49:37,560 --> 00:49:35,050

across here and the cross that got that

1097

00:49:39,600 --> 00:49:37,570

to Holiday Park that's there your home

1098

00:49:44,630 --> 00:49:39,610

and dry during the coast

1099

00:49:46,740 --> 00:49:44,640

next please this is the Holiday Park

1100

00:49:49,230 --> 00:49:46,750

which case you want to book a card on

1101
00:49:49,770 --> 00:49:49,240
wealthier and tsunami anyway they go

1102
00:49:53,700 --> 00:49:49,780
across here

1103
00:49:56,520 --> 00:49:53,710
next please hey now we're actually

1104
00:49:59,310 --> 00:49:56,530
coming down into the Vale and this is

1105
00:50:01,500 --> 00:49:59,320
taken from one of the hills you see that

1106
00:50:03,510 --> 00:50:01,510
over the top there's mother Denali that

1107
00:50:05,340 --> 00:50:03,520
flat bit in the middle is the see of the

1108
00:50:08,070 --> 00:50:05,350
grill and this is the area they come

1109
00:50:10,650 --> 00:50:08,080
across as you can see it just feels and

1110
00:50:15,630 --> 00:50:10,660
if you fly it alone brought them you are

1111
00:50:17,910 --> 00:50:15,640
really it and again please now you've

1112
00:50:20,010 --> 00:50:17,920
started to see that that true mountains

1113
00:50:25,080 --> 00:50:20,020

as they comes down comes down this Bale

1114

00:50:27,870 --> 00:50:25,090

and again please and those are the hills

1115

00:50:29,880 --> 00:50:27,880

on the far side so as long as you're

1116

00:50:32,760 --> 00:50:29,890

over this nut green they're down they're

1117

00:50:35,580 --> 00:50:32,770

not trough you really are sheltered from

1118

00:50:40,310 --> 00:50:35,590

any kind of prying guy afraid or or

1119

00:50:43,710 --> 00:50:40,320

anybody else we and again please and

1120

00:50:46,050 --> 00:50:43,720

this is further down Mondavi again taken

1121

00:50:49,410 --> 00:50:46,060

from this side looking across to the

1122

00:50:51,810 --> 00:50:49,420

other side and he conceded it easy just

1123

00:50:53,790 --> 00:50:51,820

keep dropping them in the middle of the

1124

00:50:58,680 --> 00:50:53,800

night down there and nobody's going to

1125

00:51:00,240 --> 00:50:58,690

see and he did nothing dangerous they're

1126

00:51:05,400 --> 00:51:00,250

halfway donut

1127

00:51:09,840 --> 00:51:05,410

refuge on that hill is this earthen when

1128

00:51:10,830 --> 00:51:09,850

television mast this is where I got my

1129

00:51:13,530 --> 00:51:10,840

television program

1130

00:51:15,540 --> 00:51:13,540

from and other people in the area it's

1131

00:51:17,760 --> 00:51:15,550

completely on itself on the mountaintop

1132

00:51:20,040 --> 00:51:17,770

Amazonia little operating building that

1133

00:51:24,210 --> 00:51:20,050

goes with it but at night it does

1134

00:51:25,950 --> 00:51:24,220

aircraft lights on it so there's you

1135

00:51:28,530 --> 00:51:25,960

know now flame doesn't come down not get

1136

00:51:32,250 --> 00:51:28,540

off it every week so the lights on the

1137

00:51:34,080 --> 00:51:32,260

top of it and because it's in an area

1138

00:51:36,060 --> 00:51:34,090

where there are no other lights and it's

1139

00:51:39,360 --> 00:51:36,070

off they don't on this painting it's

1140

00:51:41,310 --> 00:51:39,370

done to like a sore thumb if I was a

1141

00:51:43,560 --> 00:51:41,320

tourist coming in here for the first

1142

00:51:45,930 --> 00:51:43,570

time traveling down my era playing on

1143

00:51:47,430 --> 00:51:45,940

with my salsa and I saw this post I

1144

00:51:49,710 --> 00:51:47,440

would want to know what nerve that is

1145

00:51:53,130 --> 00:51:49,720

and what it's doing so I'd probably

1146

00:51:54,840 --> 00:51:53,140

sleep there for a moment and go up a bit

1147

00:51:58,320 --> 00:51:54,850

closer to it and see if I could see what

1148

00:52:01,830 --> 00:51:58,330

it was which is what people keep

1149

00:52:04,010 --> 00:52:01,840

reporting and have one more place like

1150

00:52:07,350 --> 00:52:04,020

this one this is actual drawing that the

1151

00:52:10,650 --> 00:52:07,360

observer saw I saw this illuminated

1152

00:52:13,170 --> 00:52:10,660

object that looked like that these funny

1153

00:52:14,010 --> 00:52:13,180

legs on the bottom of it lights all the

1154

00:52:16,710 --> 00:52:14,020

way around it

1155

00:52:18,510 --> 00:52:16,720

and it was hovering around the oven when

1156

00:52:20,760 --> 00:52:18,520

must television mast

1157

00:52:22,170 --> 00:52:20,770

which probably explains well the picture

1158

00:52:29,280 --> 00:52:22,180

cause bit funny that when it came up in

1159

00:52:33,960 --> 00:52:29,290

tell loved one please this fascinates me

1160

00:52:36,900 --> 00:52:33,970

because this is a bit further down in

1161

00:52:38,640 --> 00:52:36,910

Denby itself but still on the main road

1162

00:52:41,310 --> 00:52:38,650

and this is called the brook house men

1163

00:52:43,230 --> 00:52:41,320

it used to be a working water but it's

1164

00:52:47,160 --> 00:52:43,240

still a walk away up there and they do

1165

00:52:49,350 --> 00:52:47,170

find food and good answer they forced me

1166

00:52:50,940 --> 00:52:49,360

one Christmas because I put some

1167

00:52:53,400 --> 00:52:50,950

equipment in there to have to spend the

1168

00:52:55,200 --> 00:52:53,410

Christmas dinner in there was absolutely

1169

00:52:59,280 --> 00:52:55,210

all that it was all good baby worried

1170

00:53:01,410 --> 00:52:59,290

because they locked us in all dead they

1171

00:53:03,150 --> 00:53:01,420

told us please help yourself to all the

1172

00:53:07,980 --> 00:53:03,160

drinks you can because we're trying to

1173

00:53:09,480 --> 00:53:07,990

get rid of them and so he did and very

1174

00:53:11,559 --> 00:53:09,490

interested he was too but anyway

1175

00:53:13,029 --> 00:53:11,569

opposite either this is miserable

1176

00:53:15,699 --> 00:53:13,039

where the streamers events outside

1177

00:53:18,459 --> 00:53:15,709

there's a Roman Greenock Tyrell straight

1178

00:53:20,170 --> 00:53:18,469

up there would lead you to river and the

1179

00:53:22,900 --> 00:53:20,180

other side led to some little cottages

1180

00:53:24,939 --> 00:53:22,910

they're still there and the chef who

1181

00:53:27,489 --> 00:53:24,949

worked in here lived in those little

1182

00:53:29,680 --> 00:53:27,499

cottages so he gets up very early in the

1183

00:53:31,329 --> 00:53:29,690

morning he goes over to start his ovens

1184

00:53:33,039 --> 00:53:31,339

and whatever it is he was preparing

1185

00:53:35,680 --> 00:53:33,049

because they do an enormous amount of

1186

00:53:37,539 --> 00:53:35,690

food Livia so obviously got the world to

1187

00:53:40,089 --> 00:53:37,549

do so early in the morning and he walked

1188

00:53:42,729 --> 00:53:40,099

across this road and he gets to just

1189

00:53:46,209 --> 00:53:42,739

outside this building when a disc comes

1190

00:53:50,109 --> 00:53:46,219

over at extremely low level and being so

1191

00:53:53,680 --> 00:53:50,119

light them to where he is he is

1192

00:53:55,420 --> 00:53:53,690

absolutely gobsmacked he said quite

1193

00:53:57,009 --> 00:53:55,430

worried about it because it's a know

1194

00:53:59,799 --> 00:53:57,019

whether to can fall on the building or

1195

00:54:00,969 --> 00:53:59,809

that beam up or whatever it's going to

1196

00:54:05,289 --> 00:54:00,979

do but you should be very concerned

1197

00:54:08,739 --> 00:54:05,299

about it and so he actually reported it

1198

00:54:12,279 --> 00:54:08,749

and he reported it to the police and he

1199

00:54:15,609 --> 00:54:12,289

also reported it to UFO people which is

1200

00:54:17,709 --> 00:54:15,619

where of course I came in what didn't

1201
00:54:20,559 --> 00:54:17,719
know is what he was stood up there and

1202
00:54:22,329 --> 00:54:20,569
this thing was opening a car trouble of

1203
00:54:24,609 --> 00:54:22,339
this road from really going up the road

1204
00:54:26,859 --> 00:54:24,619
towards Rio with two police officers in

1205
00:54:30,189 --> 00:54:26,869
it a police car two police officers in

1206
00:54:33,130 --> 00:54:30,199
it and the two police officers obviously

1207
00:54:34,870 --> 00:54:33,140
saw this object and to detail the

1208
00:54:37,870 --> 00:54:34,880
counterfeit and they went back to that

1209
00:54:39,670 --> 00:54:37,880
station and they reported it and I

1210
00:54:42,789 --> 00:54:39,680
managed to get a copy of the files of

1211
00:54:44,529 --> 00:54:42,799
the actual report and it really is a

1212
00:54:46,059 --> 00:54:44,539
very good description I mean if the

1213
00:54:47,920 --> 00:54:46,069

policeman caught me start something to

1214

00:54:50,049 --> 00:54:47,930

us we've got no chance of it but but

1215

00:54:50,979 --> 00:54:50,059

they did and it's extremely good it's

1216

00:54:54,279 --> 00:54:50,989

identical

1217

00:54:58,180 --> 00:54:54,289

throughout this Chef of reporting this

1218

00:55:01,689 --> 00:54:58,190

could happen alone there was such an

1219

00:55:02,750 --> 00:55:01,699

important case that flying saucer review

1220

00:55:04,940 --> 00:55:02,760

which is a famous

1221

00:55:08,270 --> 00:55:04,950

we're still going 15 years ago four

1222

00:55:10,220 --> 00:55:08,280

years yes actually produced an article

1223

00:55:13,040 --> 00:55:10,230

that interviewed the people and he was

1224

00:55:14,840 --> 00:55:13,050

their front page and see UFO drawn in

1225

00:55:21,680 --> 00:55:14,850

and a being done trying to represent

1226

00:55:35,240 --> 00:55:21,690

what the chef's had seen thank you okay

1227

00:55:35,540 --> 00:55:35,250

please write this is what's this all

1228

00:55:38,270 --> 00:55:35,550

about

1229

00:55:41,300 --> 00:55:38,280

well Octavian a farmer in one of those

1230

00:55:44,060 --> 00:55:41,310

fields under the line where the UFOs

1231

00:55:45,850 --> 00:55:44,070

trouble is blowing his field and up

1232

00:55:49,100 --> 00:55:45,860

comes a suitcase

1233

00:55:53,360 --> 00:55:49,110

so he opens there's a suitcase and then

1234

00:55:58,730 --> 00:55:53,370

there is an amazing radio transmission

1235

00:56:00,830 --> 00:55:58,740

equipment textbook see film and this

1236

00:56:02,570 --> 00:56:00,840

equipment this state of the art in the

1237

00:56:05,660 --> 00:56:02,580

world at the time absolutely

1238

00:56:09,140 --> 00:56:05,670

state-of-the-art they were specially

1239

00:56:11,900 --> 00:56:09,150

made for the KGB and only for the KGB it

1240

00:56:13,700 --> 00:56:11,910

was not made for anybody else so it's a

1241

00:56:16,130 --> 00:56:13,710

very rare item and it took me a long

1242

00:56:18,980 --> 00:56:16,140

time before I was able and you can see

1243

00:56:20,540 --> 00:56:18,990

and peer and Fiza questioning the

1244

00:56:22,790 --> 00:56:20,550

military defense of the like what on

1245

00:56:25,550 --> 00:56:22,800

earth is going on that the Soviets have

1246

00:56:29,000 --> 00:56:25,560

got to you know secret radio

1247

00:56:30,640 --> 00:56:29,010

transmitters down this valley one more

1248

00:56:33,230 --> 00:56:30,650

place

1249

00:56:35,870 --> 00:56:33,240

this is photographs of the actual

1250

00:56:42,770 --> 00:56:35,880

equipment took me a long time to get

1251
00:56:46,460 --> 00:56:42,780
pictures and the game please and the

1252
00:56:51,590 --> 00:56:46,470
game please as you can see quite a bit

1253
00:56:52,910 --> 00:56:51,600
appear all locked away in a case thank

1254
00:57:00,279 --> 00:56:52,920
you

1255
00:57:05,690 --> 00:57:01,960
right

1256
00:57:09,950 --> 00:57:05,700
it's a Soviet Russia KGB anchor

1257
00:57:11,680 --> 00:57:09,960
surveillance radio covert transceiver at

1258
00:57:16,039 --> 00:57:11,690
what it's called it was produced in the

1259
00:57:19,249 --> 00:57:16,049
1960s by Novosibirsk electro signal

1260
00:57:22,609 --> 00:57:19,259
Bureau exclusively for the KGB in very

1261
00:57:25,249 --> 00:57:22,619
limited numbers is the designed plant

1262
00:57:27,529 --> 00:57:25,259
destined communication between agents

1263
00:57:30,829 --> 00:57:27,539

and civilian surveilling potential enemy

1264

00:57:34,009 --> 00:57:30,839

agents it permits coded signals to be

1265

00:57:36,019 --> 00:57:34,019

sent via silently by vibrations voice or

1266

00:57:38,779 --> 00:57:36,029

voice does transmissions of huevos

1267

00:57:42,650 --> 00:57:38,789

crumbled as well very sophisticated for

1268

00:57:44,410 --> 00:57:42,660

its time really sophisticated ok next

1269

00:57:48,019 --> 00:57:44,420

one please

1270

00:57:51,019 --> 00:57:48,029

now this is the terminal Debbie this is

1271

00:57:54,650 --> 00:57:51,029

the last stop on the Northwest tour of

1272

00:57:56,390 --> 00:57:54,660

the UFO aliens they get as far as damage

1273

00:57:58,430 --> 00:57:56,400

store see the monkeys are back there by

1274

00:58:00,230 --> 00:57:58,440

the way they could continue down and

1275

00:58:02,839 --> 00:58:00,240

wanted to actually have but nearly all

1276
00:58:05,599 --> 00:58:02,849
of them designed enemies the places to

1277
00:58:07,519 --> 00:58:05,609
turn a shark right and go through a

1278
00:58:09,650 --> 00:58:07,529
valley at the side of this class area

1279
00:58:11,299 --> 00:58:09,660
and then the plate on the Dendy Wars

1280
00:58:12,829 --> 00:58:11,309
where you can play all night see last

1281
00:58:13,309 --> 00:58:12,839
contender nobody can see what you're

1282
00:58:16,339 --> 00:58:13,319
doing

1283
00:58:17,839 --> 00:58:16,349
of course the reservoirs are up there so

1284
00:58:20,029 --> 00:58:17,849
if you like hidin in water you've got

1285
00:58:23,120 --> 00:58:20,039
them as well as plenty for them to

1286
00:58:26,380 --> 00:58:23,130
investigate - wonderful area but it's

1287
00:58:35,109 --> 00:58:26,390
very remote and this is Debbie Castle

1288
00:58:38,569 --> 00:58:35,119

again please because it's a heavily

1289

00:58:41,299 --> 00:58:38,579

populated area around there that's been

1290

00:58:48,079 --> 00:58:41,309

numerous sightings actually over 2 mb

1291

00:58:50,870 --> 00:58:48,089

castle camera another one please right

1292

00:58:54,920 --> 00:58:50,880

and that this brings us to this guy just

1293

00:58:55,630 --> 00:58:54,930

down from the castle and near to the

1294

00:58:57,300 --> 00:58:55,640

route

1295

00:59:03,550 --> 00:58:57,310

going down the grave before they turn

1296

00:59:05,770 --> 00:59:03,560

this kindness okay mr. Roberts this lip

1297

00:59:07,990 --> 00:59:05,780

city called is like another sometime

1298

00:59:11,380 --> 00:59:08,000

yesterday near the bottom right adjacent

1299

00:59:14,170 --> 00:59:11,390

the quote but the end of this cul-de-sac

1300

00:59:16,570 --> 00:59:14,180

is that the fence that separates him

1301
00:59:21,750 --> 00:59:16,580
from the quali it's up which is a wooded

1302
00:59:25,810 --> 00:59:21,760
area around you know stone quarry

1303
00:59:30,010 --> 00:59:25,820
what he does is every night as a habit

1304
00:59:32,200 --> 00:59:30,020
it takes his dog to do its business

1305
00:59:35,710 --> 00:59:32,210
this is a 12 o'clock midnight by the

1306
00:59:37,750 --> 00:59:35,720
very edge he does this and the sets on

1307
00:59:38,200 --> 00:59:37,760
the fence this is a Spile at the top

1308
00:59:41,110 --> 00:59:38,210
there

1309
00:59:43,000 --> 00:59:41,120
another smoke and while he's smoking his

1310
00:59:45,280 --> 00:59:43,010
dog does the business and he gives it a

1311
00:59:46,600 --> 00:59:45,290
couple of whistles it comes to him and

1312
00:59:51,160 --> 00:59:46,610
off they go

1313
00:59:53,890 --> 00:59:51,170

boom - better not that my dad lived he

1314

00:59:56,380 --> 00:59:53,900

sucked on that fence the dog went over

1315

01:00:01,030 --> 00:59:56,390

started rummaging in the bushes a next

1316

01:00:03,820 --> 01:00:01,040

minute a bright light rises up over the

1317

01:00:06,700 --> 01:00:03,830

top of the trees in front of him coming

1318

01:00:10,350 --> 01:00:06,710

towards in extremely slowly and he

1319

01:00:13,000 --> 01:00:10,360

discourse I mean really really there

1320

01:00:16,330 --> 01:00:13,010

it's got what he thought were windows

1321

01:00:18,670 --> 01:00:16,340

all they ranked it big windows that saw

1322

01:00:19,660 --> 01:00:18,680

the size of the run the ball down there

1323

01:00:27,840 --> 01:00:19,670

and counted

1324

01:00:31,360 --> 01:00:27,850

sighs unless he was scared to death the

1325

01:00:33,730 --> 01:00:31,370

dog ran off its get that document so

1326

01:00:35,380 --> 01:00:33,740

what he did is starting room then this

1327

01:00:37,300 --> 01:00:35,390

cul-de-sac because it was following him

1328

01:00:40,030 --> 01:00:37,310

and this white light was shining on him

1329

01:00:41,339 --> 01:00:40,040

and he could feel light and he was so

1330

01:00:43,529 --> 01:00:41,349

concerned that you were

1331

01:00:46,170 --> 01:00:43,539

and it was banking on people's thoughts

1332

01:00:48,630 --> 01:00:46,180

which is a great thing to do at five

1333

01:00:51,029 --> 01:00:48,640

past midnight if you can see what I'm

1334

01:00:53,160 --> 01:00:51,039

saying and one of the doors he knocked

1335

01:00:55,440 --> 01:00:53,170

on was a neighbor it wasn't the personal

1336

01:00:58,170 --> 01:00:55,450

friend was just one of his neighbors and

1337

01:01:00,749 --> 01:00:58,180

that the way the houses are built the

1338

01:01:02,219 --> 01:01:00,759

front door is recessed in to the

1339

01:01:04,829 --> 01:01:02,229

building and the kitchen saw that these

1340

01:01:07,349 --> 01:01:04,839

stinking afterworlds wrote so when you

1341

01:01:10,019 --> 01:01:07,359

open the door you can't actually see you

1342

01:01:12,269 --> 01:01:10,029

know left of your expert in it so she

1343

01:01:14,160 --> 01:01:12,279

commented and said words like how

1344

01:01:16,769 --> 01:01:14,170

wonderful of you to knock at five past

1345

01:01:18,989 --> 01:01:16,779

midnight and then at least I am to see

1346

01:01:20,960 --> 01:01:18,999

you at this time and so are you having

1347

01:01:23,999 --> 01:01:20,970

any problem that I can help you with

1348

01:01:26,759 --> 01:01:24,009

right to which mr. Roberts said a few

1349

01:01:29,219 --> 01:01:26,769

words which I can't repeat and she can't

1350

01:01:32,279 --> 01:01:29,229

lead either and said come and look at

1351

01:01:34,440 --> 01:01:32,289

this so you can imagine no police she

1352

01:01:38,190 --> 01:01:34,450

was to be tracked to the front of thanks

1353

01:01:41,579 --> 01:01:38,200

by this man midnight but soon as she did

1354

01:01:44,089 --> 01:01:41,589

this thing was passing them oh my god

1355

01:01:47,849 --> 01:01:44,099

what is this

1356

01:01:50,370 --> 01:01:47,859

no it's one thing for me to tell you

1357

01:01:51,959 --> 01:01:50,380

about these things it's another thing

1358

01:01:53,849 --> 01:01:51,969

for you to Munich for yourself so what

1359

01:01:56,670 --> 01:01:53,859

I'm gonna do now I'm gonna take you on

1360

01:02:00,120 --> 01:01:56,680

the interview that I did after you

1361

01:02:03,719 --> 01:02:00,130

peered in this paper my dear wife was

1362

01:02:06,599 --> 01:02:03,729

very good at making a few notes and

1363

01:02:08,999 --> 01:02:06,609

things occupies people well I can

1364

01:02:11,700 --> 01:02:09,009

question them and makes notes of

1365

01:02:15,120 --> 01:02:11,710

everything they said and also with their

1366

01:02:18,059 --> 01:02:15,130

permission recall the interviews so I

1367

01:02:21,839 --> 01:02:18,069

understand fifteen thousand interviews

1368

01:02:24,779 --> 01:02:21,849

on tape of people being seeing UFOs some

1369

01:02:25,650 --> 01:02:24,789

of which were absolutely magnetizing to

1370

01:02:27,809 --> 01:02:25,660

the spot

1371

01:02:31,000 --> 01:02:27,819

because they're not all crackpots and

1372

01:02:32,950 --> 01:02:31,010

all this

1373

01:02:35,740 --> 01:02:32,960

claiming to be any kind of intellectual

1374

01:02:38,080 --> 01:02:35,750

Scotland be nonetheless it's a fairly

1375

01:02:40,090 --> 01:02:38,090

honest and straightforward person which

1376

01:02:42,670 --> 01:02:40,100

I think he will gather from the takers

1377

01:02:44,140 --> 01:02:42,680

tonight to play you that original

1378

01:02:46,810 --> 01:02:44,150

technically he lost to listen very

1379

01:02:49,330 --> 01:02:46,820

carefully where he's got a dog by the

1380

01:02:52,060 --> 01:02:49,340

way which one I'm trying to interviewer

1381

01:02:54,550 --> 01:02:52,070

is trying to either pee on the recording

1382

01:02:57,760 --> 01:02:54,560

equipment or it's trying to sneak the

1383

01:03:00,490 --> 01:02:57,770

microphone to death right and mr.

1384

01:03:02,770 --> 01:03:00,500

Roberts himself gets very excited I

1385

01:03:04,090 --> 01:03:02,780

don't know why because I mean lights

1386

01:03:06,040 --> 01:03:04,100

come over the top of you every night

1387

01:03:08,230 --> 01:03:06,050

don't in front of the retailer anyway he

1388

01:03:11,590 --> 01:03:08,240

gets very excited he gets so excited

1389

01:03:13,720 --> 01:03:11,600

about to use a few bleeps in here and he

1390

01:03:15,190 --> 01:03:13,730

kept saying I don't mind that up your

1391

01:03:17,860 --> 01:03:15,200

mind then you do it again you know me

1392

01:03:39,070 --> 01:03:17,870

but anyway the it adds flavor to it so

1393

01:04:07,900 --> 01:03:48,100

[Music]

1394

01:04:07,910 --> 01:04:14,200

[Laughter]

1395

01:05:47,420 --> 01:04:16,840

[Music]

1396

01:05:47,430 --> 01:06:31,580

it wasn't

1397

01:08:30,020 --> 01:08:08,680

[Music]

1398

01:08:32,250 --> 01:08:30,030

I think you get the general gist this is

1399

01:08:37,050 --> 01:08:32,260

coming the way with it is really

1400

01:08:39,090 --> 01:08:37,060

strongly to try and describe to us and

1401
01:08:42,240 --> 01:08:39,100
every few minutes when he gets excited

1402
01:08:46,920 --> 01:08:42,250
about it he record roster go into a

1403
01:08:48,300 --> 01:08:46,930
cleaner - but if you were there there's

1404
01:08:50,880 --> 01:08:48,310
one thing you would definitely agree

1405
01:08:53,130 --> 01:08:50,890
with this malice how that makes things

1406
01:08:56,580 --> 01:08:53,140
what it was exactly

1407
01:08:57,600 --> 01:08:56,590
I would like to be you know into my name

1408
01:09:00,810 --> 01:08:57,610
- exactly

1409
01:09:01,760 --> 01:09:00,820
but did this man actually experience

1410
01:09:04,849 --> 01:09:01,770
something odd

1411
01:09:06,530 --> 01:09:04,859
no he didn't he really saw it and so did

1412
01:09:08,690 --> 01:09:06,540
his neighbor he goes on to describe how

1413
01:09:11,809 --> 01:09:08,700

he was knocking on the door and the lady

1414

01:09:19,070 --> 01:09:11,819

came out when someone just takes a

1415

01:09:22,090 --> 01:09:19,080

second mr. Rawat's up there let's a look

1416

01:09:23,590 --> 01:09:22,100

at his drawing that he did for me please

1417

01:09:26,059 --> 01:09:23,600

lights please

1418

01:09:29,630 --> 01:09:26,069

there we are not suit actual drawing

1419

01:09:32,390 --> 01:09:29,640

that's him suffer he's a style and this

1420

01:09:34,480 --> 01:09:32,400

is the object the Teatro which is like a

1421

01:09:37,250 --> 01:09:34,490

ton of the capacities on explanation

1422

01:09:40,940 --> 01:09:37,260

bigger than a double-decker bus and

1423

01:09:42,530 --> 01:09:40,950

immediately over him and as I said he

1424

01:09:47,480 --> 01:09:42,540

went knocking on people's doors in the

1425

01:09:50,120 --> 01:09:47,490

morning now in August 1999 I was

1426

01:09:52,610 --> 01:09:50,130

contacted by a public driver a glider

1427

01:09:56,150 --> 01:09:52,620

made no conference who was flying his

1428

01:09:58,760 --> 01:09:56,160

brother glad you from God 42 deadly and

1429

01:10:01,220 --> 01:09:58,770

he was getting a little too low as I

1430

01:10:02,960 --> 01:10:01,230

neared deadly when I suddenly saw

1431

01:10:05,000 --> 01:10:02,970

something strange it wouldn't like a

1432

01:10:05,630 --> 01:10:05,010

flying saucer was hung in around some

1433

01:10:08,210 --> 01:10:05,640

trees

1434

01:10:16,760 --> 01:10:08,220

I always carry a camera so I loved it

1435

01:10:19,340 --> 01:10:16,770

nearby - at several photographs this was

1436

01:10:24,350 --> 01:10:19,350

actually moving but he monster takes up

1437

01:10:27,020 --> 01:10:24,360

you know really good pictures this guy's

1438

01:10:28,940 --> 01:10:27,030

got nothing - you know no reason at all

1439

01:10:31,340 --> 01:10:28,950

trying to make it up or anything like

1440

01:10:32,690 --> 01:10:31,350

that and he's really got his product

1441

01:10:35,030 --> 01:10:32,700

right and it's a lot of people who've

1442

01:10:36,980 --> 01:10:35,040

got no reason on earth why they should

1443

01:10:37,600 --> 01:10:36,990

want to you know start talking about

1444

01:10:39,899 --> 01:10:37,610

UFOs

1445

01:10:43,000 --> 01:10:39,909

Scot the common contact three ones and

1446

01:10:46,479 --> 01:10:43,010

when he was climbing up the Mount

1447

01:10:49,180 --> 01:10:46,489

Everest on one occasion a big forty

1448

01:10:51,879 --> 01:10:49,190

silver cube came either of augment

1449

01:10:54,550 --> 01:10:51,889

Everest everybody saw it base camp

1450

01:10:56,800 --> 01:10:54,560

everything and so on and he put it in an

1451
01:10:59,590 --> 01:10:56,810
interview I said nobody's going to

1452
01:11:02,890 --> 01:10:59,600
believe me when I tell them that you've

1453
01:11:05,830 --> 01:11:02,900
seen a giant flying solo cube over Mount

1454
01:11:21,330 --> 01:11:05,840
Everest so he signed a lovely big

1455
01:11:27,490 --> 01:11:24,040
unfortunately moving it doesn't do very

1456
01:11:30,760 --> 01:11:27,500
good there's certain times before

1457
01:11:33,160 --> 01:11:30,770
it's bloody could be any damn thing when

1458
01:11:34,629 --> 01:11:33,170
it's absolutely clear sharp focus like

1459
01:11:37,629 --> 01:11:34,639
some other pictures around you today

1460
01:11:38,379 --> 01:11:37,639
obviously its main de because it's not

1461
01:11:40,810 --> 01:11:38,389
clear

1462
01:11:43,120 --> 01:11:40,820
this is the trouble you have and this is

1463
01:11:45,399 --> 01:11:43,130

why I related photographs to be the

1464

01:11:46,720 --> 01:11:45,409

worst evidence in the world not least of

1465

01:11:48,640 --> 01:11:46,730

course because everybody in his

1466

01:11:51,669 --> 01:11:48,650

daughter's got computer now could make

1467

01:11:54,160 --> 01:11:51,679

his own what's really important is the

1468

01:11:55,870 --> 01:11:54,170

caliber of the witnesses especially if

1469

01:11:57,669 --> 01:11:55,880

it's multiple witnesses from different

1470

01:11:59,950 --> 01:11:57,679

locations under these people have got

1471

01:12:03,250 --> 01:11:59,960

any qualifications in that area it adds

1472

01:12:13,120 --> 01:12:03,260

to it doesn't it but lights in the sky

1473

01:12:15,280 --> 01:12:13,130

I just love okay now there was not been

1474

01:12:18,729 --> 01:12:15,290

a year we left a reported sighting right

1475

01:12:26,320 --> 01:12:18,739

to an including this year can we have

1476

01:12:31,060 --> 01:12:26,330

another clip please this is Nathan 1920s

1477

01:12:32,859 --> 01:12:31,070

my 2012 this was so the UFO okay where

1478

01:12:34,390 --> 01:12:32,869

he's got that circle not pictured them

1479

01:12:35,890 --> 01:12:34,400

and that is the clue in range by the way

1480

01:12:38,290 --> 01:12:35,900

in the back room

1481

01:12:42,640 --> 01:12:38,300

I think at least and to flushing through

1482

01:12:46,840 --> 01:12:42,650

these a bit quick okay and they came

1483

01:12:48,459 --> 01:12:46,850

over the top of Dendi capsule any of

1484

01:12:50,290 --> 01:12:48,469

this bunch of ascites there because

1485

01:12:52,930 --> 01:12:50,300

that's the one area where they expose

1486

01:12:54,970 --> 01:12:52,940

themselves they do have to go over the

1487

01:12:57,340 --> 01:12:54,980

top of Tempe castle to go to the Debbie

1488

01:12:59,140 --> 01:12:57,350

box and because it's a girl to pair and

1489

01:13:01,209 --> 01:12:59,150

there's always that remote chucks that

1490

01:13:04,840 --> 01:13:01,219

somebody is going to see it on the

1491

01:13:06,399 --> 01:13:04,850

entrance there we I do brilliant on the

1492

01:13:07,990 --> 01:13:06,409

dots in the sky and things but they

1493

01:13:10,030 --> 01:13:08,000

don't mean much except because that

1494

01:13:13,510 --> 01:13:10,040

people are claiming that they've seen in

1495

01:13:16,330 --> 01:13:13,520

the same time thank you I think right

1496

01:13:19,810 --> 01:13:16,340

this is a close up of the UFO is flying

1497

01:13:21,820 --> 01:13:19,820

over deadly castle and what stops don't

1498

01:13:23,910 --> 01:13:21,830

do any good news photography I Spit the

1499

01:13:28,810 --> 01:13:23,920

digital memories okay

1500

01:13:35,560 --> 01:13:28,820

please can we flush through these a bit

1501

01:13:38,050 --> 01:13:35,570

quick right this is a call for us to ask

1502

01:13:39,160 --> 01:13:38,060

people to contact as if this evening can

1503

01:13:41,350 --> 01:13:39,170

we keep going

1504

01:13:43,870 --> 01:13:41,360

thank you okay this is f dot the deadly

1505

01:13:45,520 --> 01:13:43,880

force by the way you can see the emotive

1506

01:13:48,160 --> 01:13:45,530

service an archaeological site in the

1507

01:13:49,680 --> 01:13:48,170

foreground via the reservoirs at the top

1508

01:13:52,149 --> 01:13:49,690

keep going please

1509

01:13:53,950 --> 01:13:52,159

this is one of the only buildings and

1510

01:13:56,439 --> 01:13:53,960

stood on Demi Moore's and you can see

1511

01:13:57,970 --> 01:13:56,449

the stage now I bet that tomorrow that

1512

01:14:00,189 --> 01:13:57,980

probably only the pics on the floor

1513

01:14:02,830 --> 01:14:00,199

literally I remember this is a beautiful

1514

01:14:04,840 --> 01:14:02,840

old building only good film becomes

1515

01:14:06,910 --> 01:14:04,850

there or any of your hopes of our city

1516

01:14:10,209 --> 01:14:06,920

1d because it stood on its own

1517

01:14:12,399 --> 01:14:10,219

okay thank you now yeah of to left is

1518

01:14:14,050 --> 01:14:12,409

just as an examples to show you and one

1519

01:14:15,850 --> 01:14:14,060

time I was stupid enough to waste my

1520

01:14:18,010 --> 01:14:15,860

time frequently by

1521

01:14:19,990 --> 01:14:18,020

to the Ministry of Defense and the Royal

1522

01:14:22,060 --> 01:14:20,000

Air Force and asking them if a

1523

01:14:24,580 --> 01:14:22,070

particular sighting that's about that

1524

01:14:27,520 --> 01:14:24,590

week or whatever it was what's one of

1525

01:14:30,730 --> 01:14:27,530

the aircraft that you've read if you

1526

01:14:32,920 --> 01:14:30,740

could read this as we don't know where

1527

01:14:36,340 --> 01:14:32,930

any forever planes orbit every time we

1528

01:14:38,080 --> 01:14:36,350

can't help you mmm so I contacted them

1529

01:14:43,900 --> 01:14:38,090

back and said I do hope you can find any

1530

01:14:45,940 --> 01:14:43,910

cases so eventually I stopped I stopped

1531

01:14:47,800 --> 01:14:45,950

writing because all they get is complete

1532

01:14:50,320 --> 01:14:47,810

dribble I hope tonight he might as well

1533

01:14:53,700 --> 01:14:50,330

say to me but they're just to show that

1534

01:14:56,980 --> 01:14:53,710

we do try you know we really do try and

1535

01:14:58,870 --> 01:14:56,990

never forget I was been link pope who

1536

01:15:01,780 --> 01:14:58,880

everybody probably knows was in charge

1537

01:15:03,580 --> 01:15:01,790

of us both the Ministry of Defense for

1538

01:15:06,520 --> 01:15:03,590

quite a number of years and who ranks

1539

01:15:08,860 --> 01:15:06,530

commander in the Ministry of Defense who

1540

01:15:10,750 --> 01:15:08,870

told me at a conference because I open

1541

01:15:13,330 --> 01:15:10,760

the first both conferences of Carson

1542

01:15:16,510 --> 01:15:13,340

years ago Zoltan speaking our dog we can

1543

01:15:17,830 --> 01:15:16,520

win it and I said Nick do you honestly

1544

01:15:20,110 --> 01:15:17,840

believe that you can

1545

01:15:21,970 --> 01:15:20,120

oh yes I said I can find in a minute I

1546

01:15:23,890 --> 01:15:21,980

can contact one of these person I will

1547

01:15:26,740 --> 01:15:23,900

have the information from there anything

1548

01:15:29,770 --> 01:15:26,750

they've got I can access to I said you

1549

01:15:31,870 --> 01:15:29,780

really believe I said oh yes sir well I

1550

01:15:34,990 --> 01:15:31,880

don't I think you write everybody nuts

1551

01:15:37,000 --> 01:15:35,000

on the need-to-know basis if they want

1552

01:15:38,860 --> 01:15:37,010

you to know that I'll tell him if it's

1553

01:15:42,340 --> 01:15:38,870

anything really important you aren't

1554

01:15:44,380 --> 01:15:42,350

going to be oh no no no so with me at

1555

01:15:47,830 --> 01:15:44,390

that conference like today I've got

1556

01:15:51,160 --> 01:15:47,840

information and even our jihad really

1557

01:15:52,690 --> 01:15:51,170

and said okay here's a case where the

1558

01:15:55,780 --> 01:15:52,700

ministry defense admitted their

1559

01:15:59,020 --> 01:15:55,790

involvement go and pull the data so

1560

01:16:01,500 --> 01:15:59,030

lunchtime nicob disappears imagine

1561

01:16:03,000 --> 01:16:01,510

helium shouting and cursing

1562

01:16:05,880 --> 01:16:03,010

when he come up to you had a face like a

1563

01:16:07,170 --> 01:16:05,890

pasta but and I said did you find it he

1564

01:16:12,030 --> 01:16:07,180

said oh well they come and find in the

1565

01:16:14,400 --> 01:16:12,040

moment in other words he can't get

1566

01:16:18,030 --> 01:16:14,410

everything he thinks he can get he can

1567

01:16:20,190 --> 01:16:18,040

get those cases where obviously it could

1568

01:16:23,340 --> 01:16:20,200

be anything when it could be definitely

1569

01:16:24,030 --> 01:16:23,350

only something he can't get that's what

1570

01:16:27,030 --> 01:16:24,040

I found

1571

01:16:28,680 --> 01:16:27,040

okay I started an organization the World

1572

01:16:32,430 --> 01:16:28,690

Federation of Independent you phones it

1573

01:16:34,290 --> 01:16:32,440

off with a famous lady mammography fry

1574

01:16:37,500 --> 01:16:34,300

who lives up in North Wales not far from

1575

01:16:39,270 --> 01:16:37,510

me and we are the center italic Alvin

1576

01:16:40,920 --> 01:16:39,280

which isn't just reopened and we are

1577

01:16:42,900 --> 01:16:40,930

people from all over Wales coming up on

1578

01:16:45,120 --> 01:16:42,910

a monthly basis they tell us their

1579

01:16:46,890 --> 01:16:45,130

sightings and all the sightings have

1580

01:16:49,620 --> 01:16:46,900

happened in Wales came through us at

1581

01:16:53,430 --> 01:16:49,630

that time so the database of all that is

1582

01:16:56,700 --> 01:16:53,440

resides with me the moment okay don't

1583

01:17:00,060 --> 01:16:56,710

just flash through please yeah these are

1584

01:17:06,270 --> 01:17:00,070

all people that divide experiences some

1585

01:17:11,460 --> 01:17:06,280

famously zombies that stop there now

1586

01:17:13,740 --> 01:17:11,470

this this person is saved in a holiday

1587

01:17:15,360 --> 01:17:13,750

town for the press that in and you can

1588

01:17:18,420 --> 01:17:15,370

see the color box he's in in the

1589

01:17:20,880 --> 01:17:18,430

foreground here and he's singing this

1590

01:17:24,240 --> 01:17:20,890

lovely picture which shows the

1591

01:17:26,490 --> 01:17:24,250

television masks aerials on the top of

1592

01:17:29,010 --> 01:17:26,500

the mountain the press study at the end

1593

01:17:31,650 --> 01:17:29,020

of this picture here the Mountie turns

1594

01:17:35,520 --> 01:17:31,660

and goes down the Chloe range now

1595

01:17:36,439 --> 01:17:35,530

sometimes we about UFOs skirty this

1596

01:17:38,959 --> 01:17:36,449

valley coming

1597

01:17:41,030 --> 01:17:38,969

and then going there deployed range and

1598

01:17:42,950 --> 01:17:41,040

witnesses see I'm actually going them

1599

01:17:47,000 --> 01:17:42,960

and down the range now when he took that

1600

01:17:51,380 --> 01:17:47,010

picture right he did not see at that

1601
01:17:53,930 --> 01:17:51,390
moment what I'm going to show you he

1602
01:17:56,209 --> 01:17:53,940
couldn't see it but then something moved

1603
01:17:59,870 --> 01:17:56,219
and what was happening it was a UFO

1604
01:18:03,110 --> 01:17:59,880
traveling extremely close to these woods

1605
01:18:04,669 --> 01:18:03,120
and they really stupid well never which

1606
01:18:21,580 --> 01:18:04,679
means if you can't see them unless you

1607
01:18:27,590 --> 01:18:24,950
this is a UFO traveling right against

1608
01:18:31,390 --> 01:18:27,600
aside without monty keeping close to the

1609
01:18:34,060 --> 01:18:31,400
trees going down there in broad daylight

1610
01:18:41,600 --> 01:18:34,070
chi of the next picture please

1611
01:18:45,650 --> 01:18:41,610
that's the object there now I thought

1612
01:18:47,780 --> 01:18:45,660
this photograph analyzed by experts and

1613
01:18:49,729 --> 01:18:47,790

this is not a touched or alter

1614

01:18:53,000 --> 01:18:49,739

photograph in any way shape or form

1615

01:18:56,360 --> 01:18:53,010

the object is real it's about 30 or foot

1616

01:19:00,260 --> 01:18:56,370

in diameter and it is traveling across

1617

01:19:02,510 --> 01:19:00,270

this direction close to those trees this

1618

01:19:04,280 --> 01:19:02,520

is the best I can do from pictures and

1619

01:19:06,500 --> 01:19:04,290

slides I mean what you need to see is

1620

01:19:08,240 --> 01:19:06,510

they might original photograph and put

1621

01:19:10,640 --> 01:19:08,250

it under a microscope that's the best

1622

01:19:12,950 --> 01:19:10,650

but this is the best I can get it on

1623

01:19:15,830 --> 01:19:12,960

this other system and again please

1624

01:19:18,140 --> 01:19:15,840

and this is the closest that you get to

1625

01:19:20,380 --> 01:19:18,150

it but it does actually are abdominals

1626

01:19:22,910 --> 01:19:20,390

actually our features that looks

1627

01:19:24,669 --> 01:19:22,920

actually when you look at the negative

1628

01:19:28,180 --> 01:19:24,679

as if that is so

1629

01:19:30,490 --> 01:19:28,190

each stood at the top it looks like a

1630

01:19:32,830 --> 01:19:30,500

figure of the top of it although they

1631

01:19:38,080 --> 01:19:32,840

enacted it at the top it has definitely

1632

01:19:40,090 --> 01:19:38,090

got bubbles around this edge and I've

1633

01:19:42,729 --> 01:19:40,100

seen many many photographs where there's

1634

01:19:44,110 --> 01:19:42,739

these sort of properly bits around the

1635

01:19:47,220 --> 01:19:44,120

edge you probably see them and booked

1636

01:19:49,300 --> 01:19:47,230

yourself okay thank you and again

1637

01:19:52,450 --> 01:19:49,310

because I just flushed through these

1638

01:19:54,399 --> 01:19:52,460

they constantly constantly are the right

1639

01:19:56,500 --> 01:19:54,409

times of the year that there are

1640

01:19:59,979 --> 01:19:56,510

scientists and they don't these again

1641

01:20:02,439 --> 01:19:59,989

just keep going to give you some idea

1642

01:20:07,600 --> 01:20:02,449

and many it just they're just keep on

1643

01:20:09,640 --> 01:20:07,610

happening over and over again if you

1644

01:20:11,530 --> 01:20:09,650

analyze the directions of all these

1645

01:20:16,479 --> 01:20:11,540

things the other Lohia system of

1646

01:20:20,830 --> 01:20:16,489

investigating it and then there's this

1647

01:20:24,700 --> 01:20:20,840

I believe UFO group in design and I pick

1648

01:20:29,290 --> 01:20:24,710

up my Sunday Express and IV strange

1649

01:20:31,919 --> 01:20:29,300

debris out of the sky by the first

1650

01:20:36,790 --> 01:20:31,929

officer meteorite or something like that

1651
01:20:39,640 --> 01:20:36,800
but no farmer gets up in the morning to

1652
01:20:42,970 --> 01:20:39,650
see me she walks to his first gate leans

1653
01:20:44,770 --> 01:20:42,980
over the gate oh my god as far as he can

1654
01:20:47,350 --> 01:20:44,780
see four of these fields are covered

1655
01:20:50,939 --> 01:20:47,360
with what look like tinfoil and pieces

1656
01:20:53,500 --> 01:20:50,949
of metal that look like shattered glass

1657
01:20:55,000 --> 01:20:53,510
so it walks all the way around and he's

1658
01:20:57,070 --> 01:20:55,010
no cop if as an accidents of nature

1659
01:20:59,229 --> 01:20:57,080
think year so it looks Li cases of

1660
01:21:00,939 --> 01:20:59,239
pilots and but that he can't find

1661
01:21:04,330 --> 01:21:00,949
anything very fine it's pieces of this

1662
01:21:06,430 --> 01:21:04,340
Sun which are nearly six pot and he goes

1663
01:21:07,930 --> 01:21:06,440

to the police the police arrived Walter

1664

01:21:11,100 --> 01:21:07,940

oh my god about a plane crash

1665

01:21:12,729 --> 01:21:11,110

he said yeah where is it don't find it

1666

01:21:14,770 --> 01:21:12,739

next minute

1667

01:21:17,500 --> 01:21:14,780

they've contacted their Royal Air Force

1668

01:21:19,720 --> 01:21:17,510

craft retrieval people and experts are

1669

01:21:20,590 --> 01:21:19,730

walking amongst it going well that

1670

01:21:22,240 --> 01:21:20,600

doesn't

1671

01:21:24,130 --> 01:21:22,250

it's anything off an aeroplane I've

1672

01:21:27,690 --> 01:21:24,140

never seen anything like it this is a

1673

01:21:31,590 --> 01:21:27,700

recording of what they said to me then

1674

01:21:34,780 --> 01:21:31,600

late afternoon ministry defence arrived

1675

01:21:37,750 --> 01:21:34,790

caravans equipment so people knew before

1676

01:21:39,400 --> 01:21:37,760

some people in plain clothes but he got

1677

01:21:44,980 --> 01:21:39,410

gas lighting all the way around you know

1678

01:21:48,970 --> 01:21:44,990

these portable lights of his description

1679

01:21:54,970 --> 01:21:48,980

was it's a scene from James Bond that's

1680

01:21:56,860 --> 01:21:54,980

what he tells me all over it so

1681

01:21:58,360 --> 01:21:56,870

eventually he goes to bed after showing

1682

01:21:59,800 --> 01:21:58,370

him all where that orders and everything

1683

01:22:03,130 --> 01:21:59,810

and gets up in the morning they woke up

1684

01:22:04,540 --> 01:22:03,140

and so is every single scrap of this

1685

01:22:06,670 --> 01:22:04,550

stuff that was all these fields

1686

01:22:09,780 --> 01:22:06,680

well they say every single struck the

1687

01:22:12,520 --> 01:22:09,790

main and I might be dead he may

1688

01:22:16,960 --> 01:22:12,530

accidentally fell the few little pieces

1689

01:22:22,840 --> 01:22:16,970

somewhere himself okay so we stopped and

1690

01:22:25,330 --> 01:22:22,850

I read this and if you'd swap form from

1691

01:22:29,170 --> 01:22:25,340

rancher you won't read the prospect

1692

01:22:31,360 --> 01:22:29,180

right finally gets up this deadly always

1693

01:22:34,870 --> 01:22:31,370

vivid looks like something every word

1694

01:22:38,680 --> 01:22:34,880

comes straight out of Roseburg so I get

1695

01:22:41,910 --> 01:22:38,690

on the phone yes please can I come down

1696

01:22:45,100 --> 01:22:41,920

and interview you and I look at this

1697

01:22:47,800 --> 01:22:45,110

find me there clearly the work so I

1698

01:22:49,960 --> 01:22:47,810

don't have a small team we serve action

1699

01:22:52,150 --> 01:22:49,970

everybody gets am being fed up because I

1700

01:22:54,340 --> 01:22:52,160

can't find anything and then I look at

1701

01:22:56,980 --> 01:22:54,350

the one field is bounded by a wooden

1702

01:22:59,290 --> 01:22:56,990

cops and you could clearly see the tops

1703

01:23:01,510 --> 01:22:59,300

of all the trees right through this cops

1704

01:23:04,300 --> 01:23:01,520

have been sheared off by a giant lawn

1705

01:23:07,180 --> 01:23:04,310

mower that flew across the top of it and

1706

01:23:09,040 --> 01:23:07,190

where he ended his field it actually no

1707

01:23:11,710 --> 01:23:09,050

branches and twigs and leaves of stuff

1708

01:23:13,990 --> 01:23:11,720

right across the field in a row there's

1709

01:23:16,810 --> 01:23:14,000

no depth at all whatever this was it hit

1710

01:23:20,370 --> 01:23:16,820

this forest and shattered some pieces of

1711

01:23:22,870 --> 01:23:20,380

it but whatever it was they flew away

1712

01:23:27,419 --> 01:23:22,880

losing four fields with

1713

01:23:30,070 --> 01:23:27,429

and still flying away no engines no

1714

01:23:32,110 --> 01:23:30,080

electronic wire nothing you would

1715

01:23:35,140 --> 01:23:32,120

recognize other than shattered glass

1716

01:23:38,550 --> 01:23:35,150

metal pieces of blessing that becomes

1717

01:23:41,860 --> 01:23:38,560

identify them about fish scales and this

1718

01:23:44,850 --> 01:23:41,870

tinfoil stuff that's so strong you can

1719

01:23:49,110 --> 01:23:44,860

stamp on it it won't Bend Newcomb's it's

1720

01:23:51,879 --> 01:23:49,120

incredibly light it's super strong and

1721

01:23:53,500 --> 01:23:51,889

so said to my guys no way

1722

01:23:55,810 --> 01:23:53,510

then people I don't care who they are

1723

01:23:57,879 --> 01:23:55,820

consider forests in the middle of the

1724

01:23:59,590 --> 01:23:57,889

night that's where we going to look we

1725

01:24:00,820 --> 01:23:59,600

don't have to look very far I didn't

1726

01:24:02,919 --> 01:24:00,830

because we could see the number line

1727

01:24:05,229 --> 01:24:02,929

right across the tree so we look there

1728

01:24:09,370 --> 01:24:05,239

and we started to find pieces of the

1729

01:24:11,860 --> 01:24:09,380

debris in which we recovered I had some

1730

01:24:13,660 --> 01:24:11,870

equipment everything I have but I can

1731

01:24:18,820 --> 01:24:13,670

tell you it wasn't radioactive so the

1732

01:24:21,610 --> 01:24:18,830

guy he kept but we did and we did now so

1733

01:24:23,950 --> 01:24:21,620

I said I'll come back next week more of

1734

01:24:26,189 --> 01:24:23,960

my colleagues more equipment specialist

1735

01:24:29,200 --> 01:24:26,199

equipment and the cleaners work properly

1736

01:24:31,479 --> 01:24:29,210

rightousness day before Abdul to go up

1737

01:24:33,490 --> 01:24:31,489

there phone call there Bellator hello

1738

01:24:34,800 --> 01:24:33,500

yeah you can still come if you want to

1739

01:24:37,600 --> 01:24:34,810

be wasting any time

1740

01:24:39,790 --> 01:24:37,610

hello my wasting my time he said because

1741

01:24:44,680 --> 01:24:39,800

looking through my window I can see a

1742

01:24:46,479 --> 01:24:44,690

JCB taking the trees away so what he

1743

01:24:48,370 --> 01:24:46,489

said taking the teachers ring of

1744

01:24:51,189 --> 01:24:48,380

Forestry Commission who's also in on the

1745

01:24:54,820 --> 01:24:51,199

end they're all in awe at this and said

1746

01:24:56,939 --> 01:24:54,830

what are you doing I never take your

1747

01:24:59,290 --> 01:24:56,949

trees which said wind damage

1748

01:25:00,820 --> 01:24:59,300

suppose you usually take the trees away

1749

01:25:02,919 --> 01:25:00,830

if you get any wind damages so that's

1750

01:25:04,149 --> 01:25:02,929

what I've been told it's wind damage so

1751

01:25:04,680 --> 01:25:04,159

I didn't either one was laughing on the

1752

01:25:07,709 --> 01:25:04,690

other end

1753

01:25:09,030 --> 01:25:07,719

that was it that was the conversation so

1754

01:25:11,130 --> 01:25:09,040

it's a waste of time going any further

1755

01:25:12,930 --> 01:25:11,140

we did go anyway

1756

01:25:15,870 --> 01:25:12,940

you said you'd come I sort of went I

1757

01:25:17,010 --> 01:25:15,880

went there and when they got there as I

1758

01:25:20,850 --> 01:25:17,020

drove up to the farm

1759

01:25:22,320 --> 01:25:20,860

I see another Jesse on the lobby and I

1760

01:25:24,870 --> 01:25:22,330

can see the farm because trees are

1761

01:25:27,540 --> 01:25:24,880

missing and I covered up to now say

1762

01:25:30,780 --> 01:25:27,550

what's what's going on then he said they

1763

01:25:32,070 --> 01:25:30,790

take you for soil on them no they don't

1764

01:25:34,170 --> 01:25:32,080

want it they don't want to clean the air

1765

01:25:36,950 --> 01:25:34,180

there's nothing going on we'll take the

1766

01:25:40,560 --> 01:25:36,960

trees and then we'll take the soil of it

1767

01:25:44,189 --> 01:25:40,570

but to meant to make this time because

1768

01:25:48,030 --> 01:25:44,199

we've got pieces of it and then it

1769

01:25:50,700 --> 01:25:48,040

stopped it after that all my meadow was

1770

01:25:52,740 --> 01:25:50,710

intercepted consistently they came in

1771

01:25:54,990 --> 01:25:52,750

everything looked at me through immense

1772

01:25:57,240 --> 01:25:55,000

at all depth open it was accidentally

1773

01:25:59,160 --> 01:25:57,250

read mr. Oakland you know and then they

1774

01:26:00,510 --> 01:25:59,170

received ribbon in sealing the back up

1775

01:26:03,000 --> 01:26:00,520

and saying he was done so he simply

1776

01:26:05,189 --> 01:26:03,010

forgot for him but what they were doing

1777

01:26:07,050 --> 01:26:05,199

basically he freed to know my name I'd

1778

01:26:10,160 --> 01:26:07,060

come home from work one lunchtime I

1779

01:26:14,270 --> 01:26:10,170

never do that I was too close

1780

01:26:19,200 --> 01:26:17,820

said other guys is a wall pass what's up

1781

01:26:21,120 --> 01:26:19,210

and there there are this blokes

1782

01:26:24,900 --> 01:26:21,130

complaining about his telephone said you

1783

01:26:25,229 --> 01:26:24,910

lie and the book I said what are you

1784

01:26:27,330 --> 01:26:25,239

doing

1785

01:26:29,100 --> 01:26:27,340

where you from didn't want to tell me

1786

01:26:31,290 --> 01:26:29,110

what you voted but I got the number of

1787

01:26:32,790 --> 01:26:31,300

and straight away start with so we start

1788

01:26:34,890 --> 01:26:32,800

with that I'll start with the police

1789

01:26:36,900 --> 01:26:34,900

secondly you tell me anybody turns out

1790

01:26:39,060 --> 01:26:36,910

they've been sent especially for the

1791

01:26:39,750 --> 01:26:39,070

telephone I contacted the working chance

1792

01:26:42,570 --> 01:26:39,760

of the telephone

1793

01:26:45,479 --> 01:26:42,580

I didn't easily talk about the tried to

1794

01:26:46,830 --> 01:26:45,489

buy me off in there mr. go they're very

1795

01:26:48,930 --> 01:26:46,840

sad words you're obviously a mistake

1796

01:26:50,959 --> 01:26:48,940

we've obviously got the wrong one we fit

1797

01:26:54,110 --> 01:26:50,969

in this box on your with this awful

1798

01:26:55,550 --> 01:26:54,120

by yourself and all this duct so I said

1799

01:26:59,689 --> 01:26:55,560

I'll tell you what what you could do it

1800

01:27:01,370 --> 01:26:59,699

two thumbs up stairs and one poor no no

1801
01:27:03,620 --> 01:27:01,380
sir Bradley come on to be right to mate

1802
01:27:05,900 --> 01:27:03,630
back to me I've got two phones in watts

1803
01:27:08,630 --> 01:27:05,910
is it one of the old this is best I'm

1804
01:27:13,610 --> 01:27:08,640
gonna get out of it and then to top it

1805
01:27:15,170 --> 01:27:13,620
all right it stopped for a while

1806
01:27:18,229 --> 01:27:15,180
they've got wet in the rains of the

1807
01:27:21,020 --> 01:27:18,239
answer you know reactive originals but

1808
01:27:22,750 --> 01:27:21,030
always metal from a particular UFO

1809
01:27:26,150 --> 01:27:22,760
Center

1810
01:27:27,560 --> 01:27:26,160
so on this spot all this and then I

1811
01:27:28,790 --> 01:27:27,570
couldn't understand never taught me to

1812
01:27:31,939 --> 01:27:28,800
collect over to the every world they

1813
01:27:33,500 --> 01:27:31,949

rolled itself up on the tape so I've got

1814

01:27:37,040 --> 01:27:33,510

my colleagues at the other evidence said

1815

01:27:40,400 --> 01:27:37,050

what you doing to these letters the

1816

01:27:43,580 --> 01:27:40,410

nothing at all the overstated the phony

1817

01:27:45,729 --> 01:27:43,590

Cogsworth and prospect knee amylose so I

1818

01:27:48,830 --> 01:27:45,739

was very fortunate to have a friend who

1819

01:27:50,830 --> 01:27:48,840

was in high positions at one time and

1820

01:27:54,770 --> 01:27:50,840

the summer session we did it was fine

1821

01:27:56,240 --> 01:27:54,780

and he's the media tonight actually I'm

1822

01:27:59,450 --> 01:27:56,250

very sad that he didn't make it he's

1823

01:28:00,830 --> 01:27:59,460

going to try to come but he said well

1824

01:28:02,270 --> 01:28:00,840

it's obvious they're beating the

1825

01:28:03,950 --> 01:28:02,280

electors as well they got that cover

1826

01:28:05,390 --> 01:28:03,960

still sealed and the signals my

1827

01:28:07,340 --> 01:28:05,400

colleagues got up there which is the

1828

01:28:07,970 --> 01:28:07,350

bank method you sign the name of what

1829

01:28:10,370 --> 01:28:07,980

sellotape

1830

01:28:21,709 --> 01:28:10,380

and frankly you can't get it off can't

1831

01:28:25,969 --> 01:28:23,390

let me just tell you something if you

1832

01:28:27,830 --> 01:28:25,979

intend to get lost the tenth time right

1833

01:28:30,350 --> 01:28:27,840

there's one place in the world where

1834

01:28:32,390 --> 01:28:30,360

you're going to be found right because

1835

01:28:35,540 --> 01:28:32,400

it is the end quarters of the surgeon

1836

01:28:37,459 --> 01:28:35,550

residue of the Coast Guard of all the

1837

01:28:39,890 --> 01:28:37,469

head family right

1838

01:28:42,679 --> 01:28:39,900

almost everything is there at all yet

1839

01:28:44,149 --> 01:28:42,689

and around that angles the area so if

1840

01:28:45,949 --> 01:28:44,159

you've got to get lost you couldn't do

1841

01:28:48,379 --> 01:28:45,959

it in a better place because as soon as

1842

01:28:51,560 --> 01:28:48,389

you report it there are people in boats

1843

01:28:53,649 --> 01:28:51,570

people in cars and so on people in the

1844

01:29:02,779 --> 01:28:53,659

aircraft looking for you straight away

1845

01:29:05,330 --> 01:29:02,789

which is the case here right this is

1846

01:29:07,370 --> 01:29:05,340

actually Perez mounting on the top if

1847

01:29:09,020 --> 01:29:07,380

you coming on then that will as you can

1848

01:29:10,910 --> 01:29:09,030

see in the middle photograph you would

1849

01:29:12,770 --> 01:29:10,920

go down the hill and you'd be on the far

1850

01:29:14,989 --> 01:29:12,780

east corner post office we've just

1851

01:29:17,929 --> 01:29:14,999

talked about okay

1852

01:29:19,549 --> 01:29:17,939

it's got the most standing landscape

1853

01:29:22,189 --> 01:29:19,559

they will ever see in your life here

1854

01:29:24,620 --> 01:29:22,199

because it's a massive copper mining

1855

01:29:28,069 --> 01:29:24,630

area it's not active at the moment at

1856

01:29:30,040 --> 01:29:28,079

all and one day when I was talking to us

1857

01:29:32,839 --> 01:29:30,050

from old friends about this and I said

1858

01:29:35,500 --> 01:29:32,849

you know why am I getting all this

1859

01:29:40,209 --> 01:29:35,510

activity there because by the way all

1860

01:29:42,979 --> 01:29:40,219

into UFOs like you would not believe

1861

01:29:45,859 --> 01:29:42,989

they can't tell you that because every

1862

01:29:48,109 --> 01:29:45,869

time they mention UFO or alien the

1863

01:29:50,299 --> 01:29:48,119

funding slips and then they went

1864

01:29:51,949 --> 01:29:50,309

bankrupt three times the last time

1865

01:29:54,830 --> 01:29:51,959

because there was surging perhaps a

1866

01:29:56,959 --> 01:29:54,840

dreadful set the third director clusters

1867

01:29:59,449 --> 01:29:56,969

and they've got to go public with

1868

01:30:01,640 --> 01:29:59,459

because obviously you know the funding

1869

01:30:03,379 --> 01:30:01,650

just dries up people don't mind paying

1870

01:30:05,359 --> 01:30:03,389

for space research or medical research

1871

01:30:07,399 --> 01:30:05,369

and Teflon teeth panels and everything

1872

01:30:08,479 --> 01:30:07,409

that comes out of it but when they

1873

01:30:10,219 --> 01:30:08,489

mentioned anything to do with the

1874

01:30:15,109 --> 01:30:10,229

possibility of aliens they fade away

1875

01:30:16,520 --> 01:30:15,119

rapidly from it but I must remind you if

1876

01:30:18,709 --> 01:30:16,530

you want a crew four people always say

1877

01:30:20,179 --> 01:30:18,719

to me you talk a lot of God you don't in

1878

01:30:22,100 --> 01:30:20,189

any evidence well I'm gonna give you so

1879

01:30:25,310 --> 01:30:22,110

now Jay blumrich

1880

01:30:29,649 --> 01:30:25,320

who was in charge of NASA chief engineer

1881

01:30:33,490 --> 01:30:29,659

of NASA right wrote a book in his life

1882

01:30:35,350 --> 01:30:33,500

and this book what do you think it's

1883

01:30:38,260 --> 01:30:35,360

about to think it's about the amazing

1884

01:30:40,060 --> 01:30:38,270

work research that they've conducted at

1885

01:30:42,220 --> 01:30:40,070

NASA and all the wonderful things you

1886

01:30:45,000 --> 01:30:42,230

achieve while he was in charge with no

1887

01:30:48,580 --> 01:30:45,010

it's called spaceships obviously killed

1888

01:30:51,580 --> 01:30:48,590

right and it's about UFOs this we should

1889

01:30:54,939 --> 01:30:51,590

talk not NASA UFOs he wrote about in the

1890

01:30:58,780 --> 01:30:54,949

book he discovered in the Bible this

1891

01:31:00,970 --> 01:30:58,790

craft came down to old Ezekiel and it's

1892

01:31:03,250 --> 01:31:00,980

a well described I've never thought

1893

01:31:04,959 --> 01:31:03,260

about in terms of engineering but it's

1894

01:31:07,149 --> 01:31:04,969

so well described with wheels within

1895

01:31:09,310 --> 01:31:07,159

wheels in it turn without to the

1896

01:31:11,740 --> 01:31:09,320

knowledge this guy is one of the

1897

01:31:13,149 --> 01:31:11,750

greatest engineer in the world they took

1898

01:31:14,950 --> 01:31:13,159

one look at this and said they

1899

01:31:18,459 --> 01:31:14,960

discovering the new invention yeah

1900

01:31:21,430 --> 01:31:18,469

they're talking about a new invention so

1901

01:31:23,020 --> 01:31:21,440

he went out and he drew pictures of what

1902

01:31:27,160 --> 01:31:23,030

he thought he was listening to in that

1903

01:31:31,689 --> 01:31:27,170

book and he patented it and it is the

1904

01:31:36,100 --> 01:31:31,699

only system of moving things to and fro

1905

01:31:40,090 --> 01:31:36,110

on the same wheels but he painted it

1906

01:31:42,970 --> 01:31:40,100

this and then there's another woman who

1907

01:31:44,830 --> 01:31:42,980

designed the Apollo four spacecraft and

1908

01:31:47,530 --> 01:31:44,840

has got the most inventions in the world

1909

01:31:52,780 --> 01:31:47,540

to his name and he wrote a book about

1910

01:31:56,950 --> 01:31:52,790

UFOs this is NASA they won't talk about

1911

01:31:59,500 --> 01:31:56,960

it because officially UFOs still exist

1912

01:32:02,290 --> 01:31:59,510

and if you report them to the official

1913

01:32:05,740 --> 01:32:02,300

NASA they will look into it if you've

1914

01:32:18,149 --> 01:32:05,750

got any evidence that's it but they

1915

01:32:24,819 --> 01:32:23,020

if you shake your granny logo off very

1916

01:32:27,969 --> 01:32:24,829

sensitive this is something you're

1917

01:32:35,709 --> 01:32:27,979

putting it in one one place sorry the

1918

01:32:37,750 --> 01:32:35,719

other leg place the tape and then what

1919

01:33:03,790 --> 01:32:37,760

happens is if there's a magnetic field

1920

01:33:05,969 --> 01:33:03,800

this is a \$40 you think it's all the

1921

01:33:10,959 --> 01:33:05,979

electricity that's in this bill

1922

01:33:13,180 --> 01:33:10,969

detective when you get this outside they

1923

01:33:18,479 --> 01:33:13,190

don't feel the way from anything this is

1924

01:33:21,609 --> 01:33:18,489

totally silent right and approaches it

1925

01:33:28,299 --> 01:33:21,619

to alarms and if I put the magnetic one

1926

01:33:51,060 --> 01:33:28,309

or the electrostatic one open but this

1927

01:33:51,070 --> 01:34:30,710

[Music]

1928

01:34:34,860 --> 01:34:33,000

you may think well that's not very

1929

01:34:38,190 --> 01:34:34,870

sensitive cuz I go they might make white

1930

01:34:39,630 --> 01:34:38,200

this is just a little weak magnet but

1931

01:34:41,220 --> 01:34:39,640

like I said to you when you've got

1932

01:34:43,290 --> 01:34:41,230

something over the top of your the 30

1933

01:34:45,390 --> 01:34:43,300

foot in diameter and emitting the field

1934

01:34:47,730 --> 01:34:45,400

so strong that the batteries packing on

1935

01:34:50,370 --> 01:34:47,740

your right that is going to light

1936

01:34:53,340 --> 01:34:50,380

up and once he does it stays lit like

1937

01:34:55,620 --> 01:34:53,350

that until I reset it indicating to me

1938

01:34:56,940 --> 01:34:55,630

that I just been in the presence of the

1939

01:34:59,550 --> 01:34:56,950

heavy magnetic field

1940

01:35:01,560 --> 01:34:59,560

I built the electronics into it many

1941

01:35:03,930 --> 01:35:01,570

years ago that is about 30 years this

1942

01:35:05,460 --> 01:35:03,940

one and something like hey I've got

1943

01:35:07,560 --> 01:35:05,470

another equipment brought it with me

1944

01:35:09,390 --> 01:35:07,570

today drops another time if you'll

1945

01:35:11,400 --> 01:35:09,400

invite me again help him some stuff then

1946

01:35:12,780 --> 01:35:11,410

to show you but not equipment than what

1947

01:35:15,770 --> 01:35:12,790

you wouldn't believe that would go all

1948

01:35:18,990 --> 01:35:15,780

sorts of things but this is my little

1949

01:35:30,140 --> 01:35:19,000

little torch the electron see there's no

1950

01:36:05,460 --> 01:35:36,120

it's pretty simple it works what

1951

01:36:07,530 --> 01:36:05,470

okay so again which is true but when

1952

01:36:09,330 --> 01:36:07,540

they when you get really good cases

1953

01:36:11,340 --> 01:36:09,340

right and they're making these programs

1954

01:36:14,430 --> 01:36:11,350

for some reason rather they're invisible

1955

01:36:20,970 --> 01:36:14,440

it's amazing Oh invisible the Manchester

1956

01:36:24,810 --> 01:36:20,980

Evening News Center

1957

01:36:27,470 --> 01:36:24,820

right find three UFOs in the air over

1958

01:36:30,300 --> 01:36:27,480

the admin Center and can't make any

1959

01:36:34,190 --> 01:36:30,310

communication on any of the ambulances

1960

01:36:37,410 --> 01:36:34,200

or the ambulance Center with any of the

1961

01:36:44,670 --> 01:36:37,420

when you're stopping an ambulance center

1962

01:36:46,980 --> 01:36:44,680

from work it's important yeah there's

1963

01:36:48,930 --> 01:36:46,990

one why isn't that on any programs they

1964

01:36:53,220 --> 01:36:48,940

did make the Manchester Evening News

1965

01:36:55,020 --> 01:36:53,230

headline front page not a word have I

1966

01:36:56,220 --> 01:36:55,030

ever seen have you ever seen this on one

1967

01:36:57,540 --> 01:36:56,230

of your programs on there

1968

01:37:01,620 --> 01:36:57,550

well these idiots are walking and

1969

01:37:03,690 --> 01:37:01,630

telling you about it then is it still

1970

01:37:07,380 --> 01:37:03,700

going on in North Wales roll this is one

1971

01:37:10,590 --> 01:37:07,390

here daily posts 2018 this was last year

1972

01:37:12,900 --> 01:37:10,600

now every single day in my life because

1973

01:37:14,550 --> 01:37:12,910

I'm into the paranormal as well I am

1974

01:37:18,240 --> 01:37:14,560

amazing coincidences guess what

1975

01:37:21,710 --> 01:37:18,250

yesterday's was a UFO deport from North

1976

01:37:28,620 --> 01:37:21,720

Wales for me to bring down for ya just

1977

01:37:35,920 --> 01:37:28,630

to show you they don't stop it does

1978

01:37:47,150 --> 01:37:42,340

right now how do they work how do you

1979

01:37:53,060 --> 01:37:47,160

look at that for a second ladies one

1980

01:37:59,480 --> 01:37:53,070

look 24th of June 2019 yesterday

1981

01:38:00,860 --> 01:37:59,490

yesterday no fails well you gotta get in

1982

01:38:02,960 --> 01:38:00,870

here and that's coming go to Devine this

1983

01:38:07,640 --> 01:38:02,970

morning perhaps I don't have time to

1984

01:38:28,400 --> 01:38:07,650

look at it ok can we make antigravity

1985

01:38:33,410 --> 01:38:28,410

materials of course this is a scale

1986

01:38:35,330 --> 01:38:33,420

model there any difference between this

1987

01:38:37,670 --> 01:38:35,340

and the UFOs I've seen in broad daylight

1988

01:38:39,650 --> 01:38:37,680

at close range is there were no black

1989

01:38:41,960 --> 01:38:39,660

tunnels around it and instead of this

1990

01:38:45,410 --> 01:38:41,970

being a sharp thing this this was just

1991

01:38:47,990 --> 01:38:45,420

gradual like it like a music symbol not

1992

01:38:50,020 --> 01:38:48,000

yet as pronounced as it this is perfect

1993

01:38:51,650 --> 01:38:50,030

there's exactly what it was like

1994

01:38:55,370 --> 01:38:51,660

something that you might find

1995

01:38:57,700 --> 01:38:55,380

interesting to know can enter into the

1996

01:39:01,610 --> 01:38:57,710

Earth's atmosphere with a pointed object

1997

01:39:03,860 --> 01:39:01,620

at one time in the in the 1950s all you

1998

01:39:05,720 --> 01:39:03,870

know rockets never not to be pointed and

1999

01:39:07,400 --> 01:39:05,730

spaceships that were coming here in the

2000

01:39:09,200 --> 01:39:07,410

comics we're all pointing you can't do

2001
01:39:11,060 --> 01:39:09,210
it if you try to get a pointed object

2002
01:39:14,270 --> 01:39:11,070
through the Earth's atmosphere it melts

2003
01:39:16,340 --> 01:39:14,280
off ok that's because you've got to push

2004
01:39:19,340 --> 01:39:16,350
the air that's burning at thousands of

2005
01:39:21,680 --> 01:39:19,350
degrees in front of you right so that it

2006
01:39:23,180 --> 01:39:21,690
doesn't burn the aircraft in off which

2007
01:39:25,670 --> 01:39:23,190
means that the objects have to be

2008
01:39:27,980 --> 01:39:25,680
slightly rounded and believe it or not

2009
01:39:30,470 --> 01:39:27,990
that is a very very accurate radius that

2010
01:39:33,650 --> 01:39:30,480
it has to be if it's too steep it

2011
01:39:35,510 --> 01:39:33,660
doesn't work if it's too flat then then

2012
01:39:37,310 --> 01:39:35,520
it hits the air and bounces off it

2013
01:39:40,760 --> 01:39:37,320

rather than going penetrating and

2014

01:39:43,580 --> 01:39:40,770

funnily enough every UFO has this

2015

01:39:45,860 --> 01:39:43,590

particular radius at the bottom the

2016

01:39:48,950 --> 01:39:45,870

Space Shuttle has this particular

2017

01:39:50,660 --> 01:39:48,960

boss not them it doesn't come down point

2018

01:39:53,090 --> 01:39:50,670

for us if you think it was appointed

2019

01:39:55,730 --> 01:39:53,100

does level does that it comes down with

2020

01:39:57,830 --> 01:39:55,740

a flat bottom using the random without

2021

01:40:00,020 --> 01:39:57,840

the bottom to push the area in front of

2022

01:40:01,700 --> 01:40:00,030

it that's how it comes down okay it's

2023

01:40:04,520 --> 01:40:01,710

called the flying brick because

2024

01:40:06,350 --> 01:40:04,530

astronauts tell me if you can't fly at

2025

01:40:08,870 --> 01:40:06,360

all if you have to take off again

2026

01:40:11,300 --> 01:40:08,880

they're all dead right they ain't at the

2027

01:40:12,620 --> 01:40:11,310

ground pointed at the right ankle sit

2028

01:40:15,740 --> 01:40:12,630

there and hope to god he hits the ground

2029

01:40:17,900 --> 01:40:15,750

before they all burn together around it

2030

01:40:20,180 --> 01:40:17,910

that's right it pushes the air in front

2031

01:40:21,770 --> 01:40:20,190

of it so I you ladies have you spit on

2032

01:40:25,640 --> 01:40:21,780

the line it was straight off of the I

2033

01:40:27,350 --> 01:40:25,650

never touches the onion because it this

2034

01:40:28,820 --> 01:40:27,360

is how UFOs work I'm going to tell you

2035

01:40:31,880 --> 01:40:28,830

the secret where they work no because I

2036

01:40:34,250 --> 01:40:31,890

know this for a fact they have all over

2037

01:40:35,660 --> 01:40:34,260

them scales I haven't got it on this

2038

01:40:38,600 --> 01:40:35,670

model but you can imagine this is

2039

01:40:41,870 --> 01:40:38,610

covered in scales okay they're computer

2040

01:40:44,840 --> 01:40:41,880

control scales and what we've got is a

2041

01:40:47,420 --> 01:40:44,850

method of repelling the ears sorry the

2042

01:40:50,540 --> 01:40:47,430

air molecules from the surface of it

2043

01:40:53,420 --> 01:40:50,550

electrically put high voltage into it

2044

01:40:58,280 --> 01:40:53,430

and it repels right the air molecules

2045

01:41:00,920 --> 01:40:58,290

from the surface so it's actually thank

2046

01:41:04,580 --> 01:41:00,930

you it doesn't touch any air at all

2047

01:41:08,000 --> 01:41:04,590

it flies inside a envelope which is a

2048

01:41:09,680 --> 01:41:08,010

vacuum a vacuum if you pull it away from

2049

01:41:12,620 --> 01:41:09,690

something it leaves a vacuum underneath

2050

01:41:14,600 --> 01:41:12,630

it unless you replace the air okay now

2051

01:41:16,310 --> 01:41:14,610

then you will all know flat from when

2052

01:41:18,650 --> 01:41:16,320

you in the school that there is such a

2053

01:41:20,210 --> 01:41:18,660

thing as air pressure Yeah right it's

2054

01:41:22,160 --> 01:41:20,220

pressing down on it what is the air

2055

01:41:24,950 --> 01:41:22,170

pressure is it 50 pounds a square inch

2056

01:41:27,380 --> 01:41:24,960

or some other gone it's quite dirty

2057

01:41:29,540 --> 01:41:27,390

anyway right we call the 50 pounds per

2058

01:41:31,310 --> 01:41:29,550

square inch it's pressing down on my own

2059

01:41:32,300 --> 01:41:31,320

now every square inch that's got 50

2060

01:41:34,910 --> 01:41:32,310

pounds weighing it down

2061

01:41:37,510 --> 01:41:34,920

why didn't he go down 50 pounds on every

2062

01:41:40,970 --> 01:41:37,520

square inch at the bottom pushing it up

2063

01:41:43,370 --> 01:41:40,980

right take the 50 pounds away from the

2064

01:41:44,410 --> 01:41:43,380

bottom am i under B flat on the ground

2065

01:41:48,860 --> 01:41:44,420

immediately

2066

01:41:50,840 --> 01:41:48,870

okay no you got it the UFOs you can't

2067

01:41:52,490 --> 01:41:50,850

hear the UFO funny how many people said

2068

01:41:53,990 --> 01:41:52,500

I didn't make a noise

2069

01:41:56,120 --> 01:41:54,000

you know except those that were very

2070

01:41:59,090 --> 01:41:56,130

close to it when I got right up close to

2071

01:42:02,720 --> 01:41:59,100

it it's a faint humming no massage right

2072

01:42:07,690 --> 01:42:02,730

why because you can't get satin through

2073

01:42:10,040 --> 01:42:07,700

a vacuum okay no no we're no satyr

2074

01:42:11,870 --> 01:42:10,050

so you've got a vacuum all the way

2075

01:42:13,550 --> 01:42:11,880

around the outside it can make as much

2076

01:42:16,100 --> 01:42:13,560

noise as it likes it probably sounds

2077

01:42:17,690 --> 01:42:16,110

like a tractor but you can't hear it

2078

01:42:19,250 --> 01:42:17,700

because you can't get no use through

2079

01:42:20,630 --> 01:42:19,260

exactly don't think there's the vacuum

2080

01:42:21,460 --> 01:42:20,640

have to be free not to be able to hear

2081

01:42:23,960 --> 01:42:21,470

it

2082

01:42:25,760 --> 01:42:23,970

millionths of an inch thick I'll do so I

2083

01:42:28,190 --> 01:42:25,770

can which waters it take to float that

2084

01:42:29,450 --> 01:42:28,200

so you know where the Queen Elizabeth

2085

01:42:31,010 --> 01:42:29,460

and the answer is a cotton ball if you

2086

01:42:33,590 --> 01:42:31,020

can get a basin the same size of it

2087

01:42:36,320 --> 01:42:33,600

that's that's a fact it isn't the amount

2088

01:42:39,230 --> 01:42:36,330

it's a fact that it doesn't touch the

2089

01:42:44,390 --> 01:42:39,240

side so what is happening is when you

2090

01:42:47,420 --> 01:42:44,400

want to go up you cover all these except

2091

01:42:51,920 --> 01:42:47,430

for one square inch at the bottom and 50

2092

01:42:53,480 --> 01:42:51,930

pounds and away it goes if you get

2093

01:42:55,940 --> 01:42:53,490

yourself a golf ball which is about an

2094

01:42:57,680 --> 01:42:55,950

inch in diameter if you like they put it

2095

01:43:00,800 --> 01:42:57,690

on the ground and you hit it with an

2096

01:43:02,480 --> 01:43:00,810

iron claw it's gone before you can even

2097

01:43:05,300 --> 01:43:02,490

snap your fingers together and that

2098

01:43:08,120 --> 01:43:05,310

isn't 50 pence at it in it you see what

2099

01:43:11,060 --> 01:43:08,130

I'm saying so what they do they want to

2100

01:43:13,250 --> 01:43:11,070

go quicker release more squares and all

2101
01:43:15,320 --> 01:43:13,260
M Squared inches in it with 50 pounds

2102
01:43:15,770 --> 01:43:15,330
and off it goes you want it to go this

2103
01:43:18,290 --> 01:43:15,780
way

2104
01:43:20,060 --> 01:43:18,300
release the square at the back it's

2105
01:43:26,090 --> 01:43:20,070
pushing it this way let me go this way

2106
01:43:26,930 --> 01:43:26,100
release a square of the side yes I think

2107
01:43:29,330 --> 01:43:26,940
there the scales

2108
01:43:31,160 --> 01:43:29,340
I don't know well thanks I don't got all

2109
01:43:33,350 --> 01:43:31,170
the answers but I'm absolutely convinced

2110
01:43:35,840 --> 01:43:33,360
you see the milk or daylight really

2111
01:43:37,910 --> 01:43:35,850
close no noise from this is what's

2112
01:43:40,370 --> 01:43:37,920
happening right and I still think

2113
01:43:42,140 --> 01:43:40,380

there's some element of antigravity now

2114

01:43:54,110 --> 01:43:42,150

every time it says fear so don't be daft

2115

01:43:56,380 --> 01:43:54,120

there's no such thing this is 1988 he

2116

01:43:58,870 --> 01:43:56,390

was an expert in gyroscopes in the

2117

01:44:00,850 --> 01:43:58,880

and he effected this thing there's

2118

01:44:03,580 --> 01:44:00,860

professors name within this article so

2119

01:44:05,260 --> 01:44:03,590

this is absolutely staggering this is

2120

01:44:07,570 --> 01:44:05,270

it's gonna change transport for the

2121

01:44:10,090 --> 01:44:07,580

world everything is going to float and

2122

01:44:12,760 --> 01:44:10,100

you know levitate on its own this is how

2123

01:44:14,890 --> 01:44:12,770

it's going to work what happened you

2124

01:44:17,200 --> 01:44:14,900

read this they whipped him off straight

2125

01:44:26,440 --> 01:44:17,210

away to America and he's never been

2126

01:44:29,050 --> 01:44:26,450

heard of census I'm aware so when they

2127

01:44:30,790 --> 01:44:29,060

say can't it goes the other thing is

2128

01:44:33,040 --> 01:44:30,800

people say well I didn't see it in the

2129

01:44:37,470 --> 01:44:33,050

sky and all this was picturing me I like

2130

01:44:39,790 --> 01:44:37,480

to show you this is taken recently

2131

01:44:41,260 --> 01:44:39,800

extremely close by the sky stone on the

2132

01:44:44,350 --> 01:44:41,270

hill is it flew us it's what it's like

2133

01:44:46,630 --> 01:44:44,360

down that clearly when planes go by and

2134

01:44:49,180 --> 01:44:46,640

you can't see the airplane or in part

2135

01:44:52,390 --> 01:44:49,190

you can't see because it creates its own

2136

01:44:54,130 --> 01:44:52,400

cloud now I believe I have seen clouds

2137

01:44:56,200 --> 01:44:54,140

that moving I think that's funny they're

2138

01:44:58,240 --> 01:44:56,210

all moving like this beautifully across

2139

01:45:01,420 --> 01:44:58,250

it's not this one this one's going like

2140

01:45:04,510 --> 01:45:01,430

this how is that possible never see the

2141

01:45:08,260 --> 01:45:04,520

UFO just see a cloud moving lenticular

2142

01:45:15,550 --> 01:45:08,270

clouds go across my sky quite often I'm

2143

01:45:42,780 --> 01:45:15,560

convinced Scotty but at the end of the

2144

01:45:47,410 --> 01:45:45,430

well yes I'm sorry I've got I'm thank

2145

01:45:52,670 --> 01:45:47,420

you pond I've got you all I did want you

2146

01:46:12,450 --> 01:46:10,350

they said thank you very much this is as

2147

01:46:14,280 --> 01:46:12,460

near to where on where we all never that

2148

01:46:24,200 --> 01:46:14,290

I could get out to my files in ten

2149

01:46:27,360 --> 01:46:24,210

minutes if I try order sorry

2150

01:46:31,400 --> 01:46:27,370

surprised mr. Michaels my wife says they

2151

01:46:34,010 --> 01:46:31,410

can hear me impress nothing but anyway a

2152

01:46:37,650 --> 01:46:34,020

little while ago

2153

01:46:40,560 --> 01:46:37,660

captain John Watkins respected in the

2154

01:46:44,340 --> 01:46:40,570

end he's going to visit reports of

2155

01:46:49,050 --> 01:46:44,350

talent right and she's coming to see I

2156

01:46:51,000 --> 01:46:49,060

think that WI and I thought that's

2157

01:46:53,310 --> 01:46:51,010

interesting but she is in charge of

2158

01:46:55,680 --> 01:46:53,320

relatedness in charge as a station

2159

01:47:00,210 --> 01:46:55,690

commander of one of our most important

2160

01:47:02,490 --> 01:47:00,220

defense yes this woman is the top okay

2161

01:47:06,810 --> 01:47:02,500

and she's coming to talk to a bunch of

2162

01:47:10,500 --> 01:47:06,820

nice ladies in the WI one of the nice

2163

01:47:12,590 --> 01:47:10,510

amenities other than she to ask her

2164

01:47:16,380 --> 01:47:12,600

about UFOs

2165

01:47:23,280 --> 01:47:16,390

guess which lady that was and she said

2166

01:47:28,560 --> 01:47:23,290

to her and I fully expected to get the

2167

01:47:31,370 --> 01:47:28,570

usual imagination of people what you

2168

01:47:33,900 --> 01:47:31,380

usually get this is what she said she

2169

01:47:36,750 --> 01:47:33,910

was the only has first of all in

2170

01:47:39,090 --> 01:47:36,760

commander of an operational station she

2171

01:47:42,900 --> 01:47:39,100

visited her hometown report tell us last

2172

01:47:48,010 --> 01:47:42,910

week I am talking about March 1983 by

2173

01:47:51,160 --> 01:47:48,020

the way but he stayed on to give her

2174

01:47:53,230 --> 01:47:51,170

suggest to the non airforce audience for

2175

01:47:55,060 --> 01:47:53,240

me Miller talked to a large government

2176

01:47:57,400 --> 01:47:55,070

or attending the 40 anniversary

2177

01:48:00,460 --> 01:47:57,410

celebrations bethought Talbot in a will

2178

01:48:02,530 --> 01:48:00,470

probably by the enemy the club captain

2179

01:48:07,540 --> 01:48:02,540

was questioned about the existence of he

2180

01:48:11,590 --> 01:48:07,550

met those countries or not she replied I

2181

01:48:15,550 --> 01:48:11,600

believe that I have seen sources with my

2182

01:48:18,430 --> 01:48:15,560

eyes and on radar I am convinced that

2183

01:48:20,610 --> 01:48:18,440

they are around but we don't know what

2184

01:48:24,430 --> 01:48:20,620

they are

2185

01:48:28,480 --> 01:48:24,440

this is a lady in charge of one of

2186

01:48:31,240 --> 01:48:28,490

nature's most important air stations do

2187

01:48:37,140 --> 01:48:31,250

they exist she tell me who they exist

2188

01:48:39,130 --> 01:48:37,150

she sees them so they do exist and

2189

01:48:47,020 --> 01:48:39,140

onwards I think I'm going to stop

2190

01:48:49,930 --> 01:48:47,030

because I think there's a limit to some

2191

01:48:53,830 --> 01:48:49,940

of these things are fantastic reports of

2192

01:48:57,370 --> 01:48:53,840

a giant UFO the size of a jumbo jet in

2193

01:48:59,290 --> 01:48:57,380

the Middle East or he investigated the

2194

01:49:01,480 --> 01:48:59,300

inquiry was ordered by the Kuwaiti

2195

01:49:04,750 --> 01:49:01,490

government after the mysterious object

2196

01:49:08,230 --> 01:49:04,760

was said to implemented at a satellite

2197

01:49:10,750 --> 01:49:08,240

tracking station to correct correct a

2198

01:49:13,450 --> 01:49:10,760

newspaper said technicians looked on in

2199

01:49:16,390 --> 01:49:13,460

amazement as he descended on the station

2200

01:49:19,240 --> 01:49:16,400

the report said that seven men concluded

2201

01:49:22,180 --> 01:49:19,250

an American walked within 250 yards of

2202

01:49:24,430 --> 01:49:22,190

the UFO which was disc-shaped the men

2203

01:49:26,440 --> 01:49:24,440

said they were frozen with aura and was

2204

01:49:28,600 --> 01:49:26,450

certain that no humans were inside the

2205

01:49:30,970 --> 01:49:28,610

flying saucer after if humans the

2206

01:49:37,590 --> 01:49:30,980

objective of the game vertically at

2207

01:49:45,410 --> 01:49:40,200

investigating

2208

01:49:51,890 --> 01:49:49,100

three times and they had to send it out

2209

01:49:53,330 --> 01:49:51,900

to ordinary people in order to carry on

2210

01:49:59,110 --> 01:49:53,340

with the workers one of the places he

2211

01:50:08,060 --> 01:50:03,770

personal doctor Morrison nice job Joe

2212

01:50:09,050 --> 01:50:08,070

and I went to see sandy equipment if I

2213

01:50:10,910 --> 01:50:09,060

own two eyes

2214

01:50:12,290 --> 01:50:10,920

I'm not sure we should be showing me but

2215

01:50:14,420 --> 01:50:12,300

I didn't get to see it all

2216

01:50:15,800 --> 01:50:14,430

it's not very exciting I didn't bring

2217

01:50:17,870 --> 01:50:15,810

the pictures with me tonight I'm sorry

2218

01:50:19,930 --> 01:50:17,880

but I can't know if you like me - in the

2219

01:50:22,970 --> 01:50:19,940

future but it was racks of equipment

2220

01:50:25,460 --> 01:50:22,980

each containing I think it was a million

2221

01:50:28,250 --> 01:50:25,470

radios each tuned to a different channel

2222

01:50:30,230 --> 01:50:28,260

so they were spending the skies on all

2223

01:50:33,460 --> 01:50:30,240

different frequencies to see if they

2224

01:50:36,200 --> 01:50:33,470

could pick up an extraterrestrial signal

2225

01:50:39,740 --> 01:50:36,210

very very interested to make one more

2226

01:50:41,540 --> 01:50:39,750

thing on that finish on it took me into

2227

01:50:43,400 --> 01:50:41,550

a little cocky national project this

2228

01:50:45,230 --> 01:50:43,410

parameter little copy there's all

2229

01:50:49,310 --> 01:50:45,240

cuttings on the side the edge of the big

2230

01:50:53,030 --> 01:50:49,320

telescope they won't look like a black

2231

01:50:55,460 --> 01:50:53,040

stove with a pointy top on the top we

2232

01:50:57,530 --> 01:50:55,470

said what do you think that is my stove

2233

01:51:02,660 --> 01:50:57,540

to me he said it doesn't it

2234

01:51:07,190 --> 01:51:02,670

he said well it's cost us formerly city

2235

01:51:10,870 --> 01:51:07,200

what said it's amazing major partly is

2236

01:51:14,210 --> 01:51:10,880

the most accurate clock in the world

2237

01:51:16,520 --> 01:51:14,220

quite and they needed because they're

2238

01:51:20,660 --> 01:51:16,530

measuring the speed of policies that are

2239

01:51:24,290 --> 01:51:20,670

coming from pulsars and quasars and then

2240

01:51:31,730 --> 01:51:24,300

relying upon the radio time that comes

2241

01:51:34,040 --> 01:51:31,740

from where you tell me but he comes by

2242

01:51:39,470 --> 01:51:34,050

radio you've got regular crocodile it's

2243

01:51:41,649 --> 01:51:39,480

coming from there but unfortunately 6000

2244

01:51:43,810 --> 01:51:41,659

miles per second by the time

2245

01:51:46,030 --> 01:51:43,820

- there they they miles out with their

2246

01:51:48,820 --> 01:51:46,040

time we're timing it billionths of a

2247

01:51:51,010 --> 01:51:48,830

second so it wasn't a cursor by the room

2248

01:51:52,180 --> 01:51:51,020

in there so said to me right I think

2249

01:51:55,660 --> 01:51:52,190

he's got a point in time

2250

01:51:57,580 --> 01:51:55,670

I said no idea something to do radio no

2251

01:52:02,979 --> 01:51:57,590

no we said to stop anybody put in a cup
