

1
00:00:11,570 --> 00:00:08,850
right here we on top of my varma in the

2
00:00:15,420 --> 00:00:11,580
Claudian range of hills in north wales

3
00:00:18,929 --> 00:00:15,430
and today we have J Murphy who's Buckley

4
00:00:20,519 --> 00:00:18,939
resident who's for a number of years has

5
00:00:22,890 --> 00:00:20,529
been interested in the UFO subject and

6
00:00:28,800 --> 00:00:22,900
has done quite a bit of research he's

7
00:00:34,430 --> 00:00:28,810
had a few sightings himself hey J you

8
00:00:46,200 --> 00:00:38,460
the end so Gary you're all Margaret fry

9
00:00:47,550 --> 00:00:46,210
living just there that's Denby following

10
00:00:49,680 --> 00:00:47,560
up you just can't see cuz his runs

11
00:00:51,420 --> 00:00:49,690
outside there's a riff in I'm the Denby

12
00:00:53,720 --> 00:00:51,430
Moors which there's been a lot of UFO

13
00:00:56,790 --> 00:00:53,730

UFO activity over there over the years

14

00:00:57,960 --> 00:00:56,800

he's in that area there I mean in the

15

00:01:03,600 --> 00:00:57,970

distance we can actually see CAD or

16

00:01:05,999 --> 00:01:03,610

address over there Snowdonia you see

17

00:01:09,270 --> 00:01:06,009

from one end a wheel steel and go

18

00:01:17,030 --> 00:01:09,280

scanning round then you got from that

19

00:01:20,390 --> 00:01:17,040

way you got Flint mountain and the ds3

20

00:01:22,620 --> 00:01:20,400

Birkenhead that we roll and Liverpool

21

00:01:32,180 --> 00:01:22,630

and if it was clear we'd we will see the

22

00:01:37,770 --> 00:01:34,500

we gotta here last night we did the sky

23

00:01:39,719 --> 00:01:37,780

watch the saw through satellites a

24

00:01:56,070 --> 00:01:39,729

couple of flashes probably Iridium

25

00:01:58,380 --> 00:01:56,080

satellite you've done that wait at least

26
00:02:01,530 --> 00:01:58,390
yeah yeah so you're looking up on these

27
00:02:03,420 --> 00:02:01,540
hills yeah and you see you've you've got

28
00:02:06,030 --> 00:02:03,430
a few videos up on the online none yet

29
00:02:07,380 --> 00:02:06,040
yes I have on my youtube channel Jake

30
00:02:09,300 --> 00:02:07,390
Matthews Emily

31
00:02:13,229 --> 00:02:09,310
so here's your look out my bedroom

32
00:02:34,339 --> 00:02:15,750
and so some of the things I've seen over

33
00:02:44,970 --> 00:02:38,699
ex-girlfriends children came excitedly I

34
00:02:47,699 --> 00:02:44,980
was done in Buckley yeah they said this

35
00:02:51,089 --> 00:02:47,709
awesome and very large and odd in the

36
00:02:54,229 --> 00:02:51,099
sky so I didn't heed asking twice came

37
00:02:58,949 --> 00:02:54,239
running down for pair of trainers and

38
00:03:00,629 --> 00:02:58,959

I'd say I'll tell you after estimated

39

00:03:02,759 --> 00:03:00,639

this thing was maybe eight to ten miles

40

00:03:07,470 --> 00:03:02,769

away so possibly over in this region

41

00:03:09,300 --> 00:03:07,480

maybe on the quality of rain but it was

42

00:03:11,309 --> 00:03:09,310

the oddest thing I've ever seen it was

43

00:03:17,569 --> 00:03:11,319

hanging this guy say for about half an

44

00:03:47,309 --> 00:03:40,319

enough green whatever it was if we ten

45

00:03:50,849 --> 00:03:47,319

miles away so got some footage again so

46

00:03:52,979 --> 00:03:50,859

for my youtube channel zoomed n cropped

47

00:03:56,580 --> 00:03:52,989

sit-down and slowed the slide the image

48

00:04:00,179 --> 00:03:56,590

down she oh it had a friend who was an

49

00:04:05,449 --> 00:04:00,189

image analyst for the plate so a video

50

00:04:08,479 --> 00:04:05,459

off to him yeah yeah it's Andy but

51
00:04:11,580 --> 00:04:08,489
certainly summer interested images back

52
00:04:13,649 --> 00:04:11,590
and it seems the back at what I said

53
00:04:16,529 --> 00:04:13,659
where you've got this it lots of being

54
00:04:20,069 --> 00:04:16,539
sitting like a silvery object where a

55
00:04:22,430 --> 00:04:20,079
small bowl top large bowl my bottom one

56
00:04:26,240 --> 00:04:22,440
was go rotating this way

57
00:04:38,720 --> 00:04:26,250
the one anti-clockwise and I say we

58
00:04:47,820 --> 00:04:38,730
watched it for just slightly the center

59
00:04:47,830 --> 00:06:30,680
you

60
00:07:32,490 --> 00:07:26,159
obviously yeah yeah

61
00:07:34,409 --> 00:07:32,500
so you direct you know some of the

62
00:07:37,020 --> 00:07:34,419
things I've seen it even to last summer

63
00:07:40,290 --> 00:07:37,030

and there's so much some of the orbs I

64
00:07:44,490 --> 00:07:40,300
say in you know my back garden we've got

65
00:07:49,650 --> 00:07:44,500
like white blue you know it's

66
00:07:53,010 --> 00:07:49,660
yourself upside feeling with these

67
00:07:55,320 --> 00:07:53,020
things together what beer you know you

68
00:07:57,750 --> 00:07:55,330
feel compels you haven't set outside for

69
00:08:01,800 --> 00:07:57,760
a couple of hours and more often than

70
00:08:11,670 --> 00:08:01,810
not see something I don't know if that's

71
00:08:18,000 --> 00:08:11,680
kill coincident feeling that excite yeah

72
00:08:20,190 --> 00:08:18,010
and then they see obviously there's a

73
00:08:27,000 --> 00:08:20,200
rich history of UFO sightings in North

74
00:08:28,560 --> 00:08:27,010
Wales yeah Gary Rose told us and he said

75
00:08:32,370 --> 00:08:28,570
that a lot of UFOs have been seen coming

76

00:08:35,159 --> 00:08:32,380

up the see a trail in that area an

77

00:08:37,260 --> 00:08:35,169

inland keep in love with the as if they

78

00:08:38,940 --> 00:08:37,270

using the collodion Ranger hills as a

79

00:08:40,969 --> 00:08:38,950

screen against the raid I asked keeping

80

00:08:43,039 --> 00:08:40,979

mobile on the radar and

81

00:08:45,619 --> 00:08:43,049

just heading inland and doing whatever

82

00:08:49,369 --> 00:08:45,629

you could do and then the Denby Moors or

83

00:08:51,799 --> 00:08:49,379

then bill riffin well suddenly research

84

00:08:55,369 --> 00:08:51,809

I've done is based around the ley lines

85

00:08:57,919 --> 00:08:55,379

the run through these areas and the land

86

00:09:00,710 --> 00:08:57,929

especially North Wales is rich with

87

00:09:02,720 --> 00:09:00,720

these ley lines so I'm not sure if

88

00:09:06,319 --> 00:09:02,730

that's obviously being the Earth's

89

00:09:09,289 --> 00:09:06,329

magnetic grid whether you know you've

90

00:09:11,809 --> 00:09:09,299

subscribed to the belief of portals mmm

91

00:09:15,889 --> 00:09:11,819

but you know even as far as London

92

00:09:17,900 --> 00:09:15,899

didn't know I've seen things that you

93

00:09:19,519 --> 00:09:17,910

know you look to your right and you see

94

00:09:21,619 --> 00:09:19,529

something out the corner of your eye and

95

00:09:24,349 --> 00:09:21,629

these things just appear and disappear

96

00:09:26,509 --> 00:09:24,359

at well so whatever these are

97

00:09:28,819 --> 00:09:26,519

interfacing you know possibly from

98

00:09:34,449 --> 00:09:28,829

another dimension I'm coming to our

99

00:09:36,349 --> 00:09:34,459

airspace and I'm so easily to disappear

100

00:09:39,079 --> 00:09:36,359

certainly rich history and one of the

101
00:09:41,449 --> 00:09:39,089
better known ones is the berry Mountain

102
00:09:51,710 --> 00:09:41,459
okay yeah and better when we come wrong

103
00:09:52,579 --> 00:09:51,720
here my range is just over those hills I

104
00:09:56,780 --> 00:09:52,589
think that could be it there actually

105
00:10:01,129 --> 00:09:56,790
yeah because he got hung coffins done

106
00:10:03,460 --> 00:10:01,139
that way Carwyn is that way so yes just

107
00:10:06,439 --> 00:10:03,470
that in that area better the Bedouin

108
00:10:08,389 --> 00:10:06,449
incident took place I'm Margaret Frye

109
00:10:10,819 --> 00:10:08,399
who lives in Abigail there don't they on

110
00:10:15,769 --> 00:10:10,829
the coast she's done a hell of a lot of

111
00:10:20,359 --> 00:10:15,779
work over the years and all documented

112
00:10:22,579 --> 00:10:20,369
in a toolbox and specifically around the

113
00:10:24,259 --> 00:10:22,589

Denby Moors and there's an amazing case

114

00:10:27,049 --> 00:10:24,269

from Fran Gavin here which is over in

115

00:10:28,429 --> 00:10:27,059

the hills about that direction well she

116

00:10:30,769 --> 00:10:28,439

was living at the time but she missed it

117

00:10:33,979 --> 00:10:30,779

cause she was asleep and there was a

118

00:10:36,049 --> 00:10:33,989

landing and witnesses said his red orbs

119

00:10:38,889 --> 00:10:36,059

came down like a red ball which just

120

00:10:47,949 --> 00:10:42,759

different colored more obviously more

121

00:10:50,230 --> 00:10:47,959

likes and helmet-shaped UFO came up disc

122

00:10:57,970 --> 00:10:50,240

shape helmet shaped UFO Wow

123

00:10:57,980 --> 00:11:07,680

[Music]

124

00:11:13,930 --> 00:11:11,040

you know back to the bearing case that

125

00:11:17,170 --> 00:11:13,940

obviously Scott Belton work he's put in

126

00:11:19,650 --> 00:11:17,180

as well which i think is on parallel to

127

00:11:22,810 --> 00:11:19,660

anything you know it was obviously yeah

128

00:11:29,440 --> 00:11:22,820

discussed in richard the halls film that

129

00:11:32,170 --> 00:11:29,450

he made some years ago he seemed to

130

00:11:34,030 --> 00:11:32,180

think it was a London over a crash and

131

00:11:38,890 --> 00:11:34,040

because this thing obviously top back

132

00:11:43,110 --> 00:11:38,900

off I went out for that area for the

133

00:11:46,000 --> 00:11:43,120

anniversary I think it was back in 2014

134

00:11:48,300 --> 00:11:46,010

and you go out to flood gorillas and

135

00:11:50,830 --> 00:11:48,310

it's it's the blackest of black out but

136

00:11:54,010 --> 00:11:50,840

and speaking some of the witnesses and

137

00:12:00,280 --> 00:11:54,020

local problem you know bear in mind this

138

00:12:02,590 --> 00:12:00,290

was I think 74 was these witnesses now

139

00:12:05,800 --> 00:12:02,600

you know but pushing in the seventies

140

00:12:09,460 --> 00:12:05,810

and the eighties and the stories never

141

00:12:11,290 --> 00:12:09,470

changed then you know of speaking to one

142

00:12:13,570 --> 00:12:11,300

of the witnesses that Scott spoke and

143

00:12:16,120 --> 00:12:13,580

soon she said it was like a welding

144

00:12:17,580 --> 00:12:16,130

light it was so bright you could see it

145

00:12:19,990 --> 00:12:17,590

for miles

146

00:12:22,960 --> 00:12:20,000

adjacent to the pokey you're actually

147

00:12:25,090 --> 00:12:22,970

down in there in the valley away cut

148

00:12:29,110 --> 00:12:25,100

abandonment which is where this thing

149

00:12:31,420 --> 00:12:29,120

came down you know their stories never

150

00:12:33,520 --> 00:12:31,430

changed and you know you've got a look

151

00:12:36,700 --> 00:12:33,530

at the fact of how quick the military

152

00:12:39,970 --> 00:12:36,710

were there and you know the importance

153

00:12:40,900 --> 00:12:39,980

of that is how remote that area is it

154

00:12:44,980 --> 00:12:40,910

makes you think about the case from

155

00:12:51,850 --> 00:12:44,990

December Nick T to sunny a lot no no

156

00:12:54,460 --> 00:12:51,860

just so east of Aberystwyth okay farmer

157

00:12:56,230 --> 00:12:54,470

found loads of wreckage yeah there's a

158

00:12:59,230 --> 00:12:56,240

forested area next to his farm as well

159

00:13:02,410 --> 00:12:59,240

okay I mean within days even happening

160

00:13:05,110 --> 00:13:02,420

the military turned up cut down on the

161

00:13:07,690 --> 00:13:05,120

forest you know of which all the tops of

162

00:13:09,790 --> 00:13:07,700

trees were broke them right they removed

163

00:13:11,260 --> 00:13:09,800

all the forest they actually removed six

164

00:13:14,720 --> 00:13:11,270

inches of topsoil yeah

165

00:13:16,670 --> 00:13:14,730

and Gary Rowe was involved

166

00:13:18,110 --> 00:13:16,680

investigation that literally a couple of

167

00:13:22,910 --> 00:13:18,120

days after well so he was the helper

168

00:13:23,990 --> 00:13:22,920

spot there was wreckage involved he was

169

00:13:27,079 --> 00:13:24,000

given a piece mother father

170

00:13:39,050 --> 00:13:27,089

she missed yeah and he keeps out in a

171

00:13:41,030 --> 00:13:39,060

secret location as well amongst other

172

00:13:48,590 --> 00:13:41,040

researchers is the dental the den be

173

00:13:52,340 --> 00:13:48,600

lights yes yeah two teenage lads in

174

00:13:53,840 --> 00:13:52,350

their bedroom saw these lights of an

175

00:13:54,829 --> 00:13:53,850

object which seemed to be rotating and

176

00:14:01,910 --> 00:13:54,839

seemed to be on the ground

177

00:14:04,370 --> 00:14:01,920

yeah yes she stood in the bedroom do me

178

00:14:07,639 --> 00:14:04,380

Mike in look through the window

179

00:14:09,379 --> 00:14:07,649

Wow where they'd all happened incredible

180

00:14:12,439 --> 00:14:09,389

looking at the video you could you can

181

00:14:20,389 --> 00:14:12,449

see that he was so the object whatever

182

00:14:21,829 --> 00:14:20,399

it was we went on but we went up the

183

00:14:25,400 --> 00:14:21,839

last year was good

184

00:14:27,620 --> 00:14:25,410

six years after the event Peter Glynn

185

00:14:39,199 --> 00:14:27,630

did a lot of research on that it didn't

186

00:14:43,579 --> 00:14:39,209

do you know Peter yeah yeah I've seen

187

00:14:45,680 --> 00:14:43,589

the photos to young boys in you know you

188

00:14:48,860 --> 00:14:45,690

don't me to tax anything that's on

189

00:14:50,629 --> 00:14:48,870

toward get on there but the police said

190

00:14:54,710 --> 00:14:50,639

they sure did the police so they they

191

00:14:56,120 --> 00:14:54,720

did put it on the lamp absurd you can

192

00:14:57,980 --> 00:14:56,130

see it's a definite rotation with that

193

00:15:05,420 --> 00:14:57,990

this red light superior mappers don't

194

00:15:08,660 --> 00:15:05,430

use red lights last time went on the

195

00:15:10,939 --> 00:15:08,670

angle seemed to come more yeah we went

196

00:15:13,400 --> 00:15:10,949

up another lock and Mike is googled and

197

00:15:16,129 --> 00:15:13,410

you you said you you found an area on

198

00:15:19,009 --> 00:15:16,139

Google map maps of an area forest which

199

00:15:21,759 --> 00:15:19,019

had been taken down yeah it's gotta be

200

00:15:24,829 --> 00:15:21,769

now it's it's a line but if it was

201

00:15:27,980 --> 00:15:24,839

diseased trees it had taken a lot more

202

00:15:31,580 --> 00:15:27,990

trees randomly you know take a lot area

203

00:15:34,990 --> 00:15:31,590

more or less in 89 coming from over the

204

00:15:38,960 --> 00:15:35,000

quarry way you know sort of fit into

205

00:15:44,230 --> 00:15:38,970

what what we've seen you know yeah it's

206

00:15:48,800 --> 00:15:44,240

some of the best footage of craft yeah

207

00:15:52,880 --> 00:15:48,810

yeah it's I'm surprised it's not more

208

00:15:55,390 --> 00:15:52,890

mainstream to be almost say fantastic

209

00:16:03,500 --> 00:15:55,400

footage it out see boys

210

00:16:11,650 --> 00:16:03,510

only in what you see the interviewees

211

00:16:14,570 --> 00:16:11,660

and they're just regular people yeah

212

00:16:16,210 --> 00:16:14,580

goes back to my childhood for me funny

213

00:16:18,500 --> 00:16:16,220

you should ask

214

00:16:24,050 --> 00:16:18,510

Jess there at a time place called

215

00:16:25,910 --> 00:16:24,060

Victor's cross got six months after my

216

00:16:34,490 --> 00:16:25,920

father passed away and I moved into his

217

00:16:36,290 --> 00:16:34,500

bedroom fast asleep one night and I seem

218

00:16:40,490 --> 00:16:36,300

to remember the time is about half past

219

00:16:44,410 --> 00:16:40,500

3:00 in the morning courts for and my

220

00:16:48,650 --> 00:16:44,420

room was illuminated by this light and

221

00:16:51,260 --> 00:16:48,660

the only thing I can quantify it is

222

00:16:54,110 --> 00:16:51,270

similar to when you have thunderstorm

223

00:16:58,490 --> 00:16:54,120

lightning strikes in the whole room like

224

00:17:00,080 --> 00:16:58,500

top but you know again you know this

225

00:17:02,570 --> 00:17:00,090

won't be off it disturb me from a

226

00:17:05,360 --> 00:17:02,580

night's sleep went to the bay window at

227

00:17:07,370 --> 00:17:05,370

the back take a long window and locked

228

00:17:09,620 --> 00:17:07,380

up and it was almost like you know when

229

00:17:11,990 --> 00:17:09,630

the police are out searching for someone

230

00:17:14,329 --> 00:17:12,000

the huge spotlight over the house for

231

00:17:19,400 --> 00:17:14,339

the whole the whole backyard was all lit

232

00:17:21,530 --> 00:17:19,410

up and this orangey white light so I

233

00:17:23,510 --> 00:17:21,540

open the window stuck my head out to

234

00:17:26,180 --> 00:17:23,520

trying not past the eaves to see if we

235

00:17:31,670 --> 00:17:26,190

could see anything whatever it was was

236

00:17:37,170 --> 00:17:35,310

again you know you can you couldn't see

237

00:17:41,460 --> 00:17:37,180

the stars or anything else this light

238

00:17:44,430 --> 00:17:41,470

was just so bright and heard the bang

239

00:17:46,950 --> 00:17:44,440

behind me being a young 14 year old boy

240

00:17:48,150 --> 00:17:46,960

at that time you know you jumped and

241

00:17:50,070 --> 00:17:48,160

their keys you don't know what you

242

00:17:53,700 --> 00:17:50,080

encounter it turn that round but

243

00:17:55,320 --> 00:17:53,710

whatever it was was gone now I told my

244

00:17:58,680 --> 00:17:55,330

grandmother about this at the time here

245

00:18:01,590 --> 00:17:58,690

was Leavenworth and Chester and you know

246

00:18:05,450 --> 00:18:01,600

she seemed to rubbish the idea of UFOs

247

00:18:09,030 --> 00:18:05,460

was back then and bear in mind you know

248

00:18:22,770 --> 00:18:09,040

14:38 now you know there was no internet

249

00:18:24,780 --> 00:18:22,780

back then there was no box to suggest my

250

00:18:28,140 --> 00:18:24,790

best friend Lee lived about three

251

00:18:30,180 --> 00:18:28,150

streets behind and he said that he saw

252

00:18:33,210 --> 00:18:30,190

this rectangular object hovering over

253

00:18:35,400 --> 00:18:33,220

the house now the people have said cause

254

00:18:38,100 --> 00:18:35,410

the light how could you make out there

255

00:18:39,630 --> 00:18:38,110

the shape but he seemed say the light

256

00:18:42,480 --> 00:18:39,640

was coming from beneath it what color

257

00:18:46,260 --> 00:18:42,490

was it he said it was black he said it

258

00:18:47,760 --> 00:18:46,270

busy yeah he said it was obviously that

259

00:18:51,120 --> 00:18:47,770

time in the morning it's starting to go

260

00:18:52,860 --> 00:18:51,130

light into summer you know sort of

261

00:18:54,810 --> 00:18:52,870

midnight blue skies and he said this

262

00:18:56,850 --> 00:18:54,820

thing was the blacks the black we do

263

00:19:00,270 --> 00:18:56,860

room way to report a couple years buff

264

00:19:06,210 --> 00:19:00,280

of a black triangle black rectangle yeah

265

00:19:10,020 --> 00:19:08,100

black against a black eye but it was

266

00:19:15,300 --> 00:19:10,030

blacker than the sky so yeah showed up

267

00:19:18,450 --> 00:19:15,310

yeah blue rectangle down all the brought

268

00:19:20,850 --> 00:19:18,460

even a couple of weeks back Wow yeah it

269

00:19:23,610 --> 00:19:20,860

seemed to be on the rise but you know

270

00:19:26,730 --> 00:19:23,620

again you know you couldn't go on

271

00:19:29,220 --> 00:19:26,740

YouTube up then and you know the trying

272

00:19:31,080 --> 00:19:29,230

corporal our mother you know unless you

273

00:19:33,409 --> 00:19:31,090

specialized and that subject back then

274

00:19:36,529 --> 00:19:33,419

there was nothing out there

275

00:19:42,829 --> 00:19:36,539

but what you saw was a rectangle yeah

276

00:19:45,709 --> 00:19:42,839

yeah I say rectangle and it's a lie for

277

00:19:47,479 --> 00:19:45,719

so bright you know what you saw

278

00:19:49,129 --> 00:19:47,489

definitely saw the outline wherever it

279

00:19:52,430 --> 00:19:49,139

was over the house and I caught the tail

280

00:19:54,109 --> 00:19:52,440

end of it something you know again if it

281

00:19:58,029 --> 00:19:54,119

was a flat surface I could have thought

282

00:20:01,729 --> 00:19:58,039

that was a rectangle but you know that

283

00:20:03,199 --> 00:20:01,739

got my interest in the subject started

284

00:20:10,369 --> 00:20:03,209

reading every book that I cut from

285

00:20:13,249 --> 00:20:10,379

library 2014 decided to go public in

286

00:20:14,739 --> 00:20:13,259

there you know with social media being

287

00:20:20,010 --> 00:20:14,749

as big as what it is today

288

00:20:20,020 --> 00:20:27,940

[Music]

289

00:20:35,060 --> 00:20:33,019

and you know again you know your

290

00:20:37,729 --> 00:20:35,070

mainstream cases and obviously you burn

291

00:20:39,289 --> 00:20:37,739

when you fo and then you first start

292

00:20:40,969 --> 00:20:39,299

finding out all these smaller cases

293

00:20:45,789 --> 00:20:40,979

which it may be a little bit less

294

00:20:48,919 --> 00:20:45,799

publicized but their equity is important

295

00:20:52,489 --> 00:20:48,929

and you know for the sheer number of

296

00:20:54,799 --> 00:20:52,499

witnesses that you speak to so you know

297

00:20:56,839 --> 00:20:54,809

since then it's been a case of going

298

00:20:59,149 --> 00:20:56,849

down the rabbit hole as you know

299

00:21:03,129 --> 00:20:59,159

yourself once you bet you down that hole

300

00:21:05,569 --> 00:21:03,139

you know there's no coming back and

301
00:21:08,319 --> 00:21:05,579
saying you know my research in recent

302
00:21:11,139 --> 00:21:08,329
years has led me to lay lines of whales

303
00:21:13,249 --> 00:21:11,149
there's a lot least stone circles

304
00:21:22,009 --> 00:21:13,259
especially in North Wales

305
00:21:28,399 --> 00:21:26,180
your ganache yeah dead yeah and this

306
00:21:30,799 --> 00:21:28,409
seems to be the hot spot fund it yeah it

307
00:21:33,529 --> 00:21:30,809
does and obviously you've got the Bronze

308
00:21:37,219 --> 00:21:33,539
Age copper mine up there coppers a very

309
00:21:38,569 --> 00:21:37,229
powerful element yes I believe that

310
00:21:40,509 --> 00:21:38,579
Garrett another thing Gary wrote ill

311
00:21:43,320 --> 00:21:40,519
this is where Paris monk and on anglesey

312
00:21:45,659 --> 00:21:43,330
which we visited once

313
00:21:47,970 --> 00:21:45,669

I think it was a national life company

314

00:21:51,810 --> 00:21:47,980

which I saw it was Edgar Mitchell you

315

00:21:52,919 --> 00:21:51,820

know I told him yes he was in

316

00:21:56,759 --> 00:21:52,929

conversation with him and he asked him

317

00:22:00,330 --> 00:21:56,769

because there's been a big big hot spot

318

00:22:03,720 --> 00:22:00,340

in Anglesey and yes it's not any idea

319

00:22:05,519 --> 00:22:03,730

why he should be there and I think Gary

320

00:22:08,970 --> 00:22:05,529

mentioned the fact is this big copper

321

00:22:13,310 --> 00:22:08,980

deposit terrace Monty said it would act

322

00:22:16,169 --> 00:22:13,320

like a beacon yeah it's a very

323

00:22:19,080 --> 00:22:16,179

conductive material called music copper

324

00:22:22,489 --> 00:22:19,090

wire in again if you put Ain that to the

325

00:22:24,840 --> 00:22:22,499

layer is very and yes Martin magnetic

326

00:22:27,840 --> 00:22:24,850

electromagnetic field you know what are

327

00:22:30,690 --> 00:22:27,850

these things you know going back to 74

328

00:22:33,509 --> 00:22:30,700

the Berwyn UFO case that seems to come

329

00:22:37,169 --> 00:22:33,519

from the direction of the Irish Sea so

330

00:22:41,789 --> 00:22:37,179

whether it's all connected remains to be

331

00:22:45,019 --> 00:22:41,799

seen but you know it there seems to be

332

00:22:48,509 --> 00:22:45,029

some sort of history and connection with

333

00:22:50,190 --> 00:22:48,519

these ley lines and I say you know you'd

334

00:22:52,769 --> 00:22:50,200

be mounting UFOs that are sighted over

335

00:22:54,419 --> 00:22:52,779

the mountains around here you know

336

00:22:57,180 --> 00:22:54,429

whether it's the minerals in the

337

00:23:00,210 --> 00:22:57,190

mountains and that gives off some energy

338

00:23:05,869 --> 00:23:00,220

so it's funny yeah it's funny a lot of

339

00:23:08,729 --> 00:23:05,879

UFO sightings tend to be over Hills yeah

340

00:23:14,599 --> 00:23:08,739

particularly the same fella maybe yeah

341

00:23:19,970 --> 00:23:16,590

we're talking about last night oh yeah

342

00:23:24,690 --> 00:23:22,169

maybe it's just that UFOs are seen

343

00:23:27,149 --> 00:23:24,700

everywhere and when it's in proximity to

344

00:23:29,190 --> 00:23:27,159

a hill which is a memorable landmark

345

00:23:31,560 --> 00:23:29,200

people tend to notice look it's more

346

00:23:33,060 --> 00:23:31,570

notable yeah maybe so maybe it's just

347

00:23:36,419 --> 00:23:33,070

it's nothing to do with the hills you

348

00:23:38,430 --> 00:23:36,429

said they just everywhere yeah well

349

00:23:40,229 --> 00:23:38,440

there's a field in Cheshire feature this

350

00:23:46,380 --> 00:23:40,239

field in Cheshire Mountain in Wales

351

00:23:48,450 --> 00:23:46,390

yeah yeah

352

00:23:51,320 --> 00:23:48,460

the strange thing that seemed to fit in

353

00:23:59,039 --> 00:23:51,330

with my theory about the Great Orme was

354

00:24:02,519 --> 00:23:59,049

Nick Pope X a monkey he's ice a UFO

355

00:24:05,310 --> 00:24:02,529

Museum but there's a corner dedicated in

356

00:24:07,980 --> 00:24:05,320

a cafe in the top there to a few UFO

357

00:24:10,289 --> 00:24:07,990

sightings and there's a piece from a

358

00:24:12,570 --> 00:24:10,299

newspaper where Nick Pope actually lists

359

00:24:16,130 --> 00:24:12,580

the Great Orme was one the top ten

360

00:24:20,220 --> 00:24:16,140

places in the UK to UFOs so I found that

361

00:24:23,490 --> 00:24:20,230

interesting as well there's also a

362

00:24:26,220 --> 00:24:23,500

newspaper article where a taxi driver I

363

00:24:29,070 --> 00:24:26,230

think he was finishing the shift three

364

00:24:31,350 --> 00:24:29,080

half possibly in the morning and the II

365

00:24:34,759 --> 00:24:31,360

saw a large rectangular object which he

366

00:24:39,480 --> 00:24:34,769

says was the size of a football field

367

00:24:42,419 --> 00:24:39,490

yeah yeah so you know there's been a

368

00:24:45,090 --> 00:24:42,429

long documented history of UFOs in this

369

00:24:52,590 --> 00:24:45,100

area you know I continue to be

370

00:24:55,470 --> 00:24:52,600

interesting I'll keep digging we need to

371

00:24:57,120 --> 00:24:55,480

keep in touch as well yeah definitely so

372

00:24:59,460 --> 00:24:57,130

we keep tabs on what's happening in

373

00:25:03,149 --> 00:24:59,470

Wales yeah I'll be up for that it's a

374

00:25:04,560 --> 00:25:03,159

nice bite-sized it is area of land isn't

375

00:25:09,299 --> 00:25:04,570

it well it's not too big it's not too

376

00:25:12,629 --> 00:25:09,309

small so for a study area yeah it's good

377

00:25:14,100 --> 00:25:12,639

it's easy it is a bit difficult to drive

378

00:25:24,889 --> 00:25:14,110

from North versus South we'll see what

379

00:25:37,680 --> 00:25:27,240

rows 20 months that way in Liverpool

380

00:25:43,210 --> 00:25:40,180

zoom in on don't be that camera yeah

381

00:25:45,130 --> 00:25:43,220

yeah well you got the family down bein

382

00:25:49,840 --> 00:25:45,140

where it happened the lights that the

383

00:25:54,520 --> 00:25:49,850

family saw what to the not top left in

384

00:25:58,800 --> 00:25:54,530

those that area there to the left a big

385

00:26:05,380 --> 00:26:03,730

just to the west of the quarry and

386

00:26:07,360 --> 00:26:05,390

there's been some cracking photographs

387

00:26:07,870 --> 00:26:07,370

taken by t'what was is his name Graham

388

00:26:12,850 --> 00:26:07,880

Evans

389

00:26:16,150 --> 00:26:12,860

North Wales Hospital metallic disc over

390

00:26:19,180 --> 00:26:16,160

the castle AJ's a child a couple of

391

00:26:21,790 --> 00:26:19,190

sightings and was went over the town the

392

00:26:23,770 --> 00:26:21,800

Denby which was a triangle as well what

393

00:26:24,280 --> 00:26:23,780

you believe Scott felt and investigated

394

00:26:29,020 --> 00:26:24,290

yeah

395

00:26:30,970 --> 00:26:29,030

when spokes Graham happens a couple of

396

00:26:42,760 --> 00:26:30,980

all the key witnesses and they seemed

397

00:26:45,730 --> 00:26:42,770

see this black triangle that was and the

398

00:26:50,350 --> 00:26:45,740

two sons Gary Jones came with listen he

399

00:26:51,940 --> 00:26:50,360

came up again afterwards an article for

400

00:26:56,140 --> 00:26:51,950

you were for truth magazine

401
00:27:00,400 --> 00:26:56,150
yeah so he's written up the report on

402
00:27:03,910 --> 00:27:00,410
that yes someone the FATA Jerome happens

403
00:27:09,910 --> 00:27:03,920
have I say he's he's not predominately a

404
00:27:13,300 --> 00:27:09,920
UFO guy we documented NBA Street the

405
00:27:17,530 --> 00:27:13,310
castles and whatnot it's good it's good

406
00:27:19,900 --> 00:27:17,540
the DS yeah bringing that up then I say

407
00:27:23,230 --> 00:27:19,910
you know if he's not really a UFO guy no

408
00:27:24,670 --> 00:27:23,240
no but the still images he got this

409
00:27:26,920 --> 00:27:24,680
there is no saint stream but he's

410
00:27:28,580 --> 00:27:26,930
recognizing that the UFO aspect of the

411
00:27:31,850 --> 00:27:28,590
history that's yeah that's good

412
00:27:35,299 --> 00:27:31,860
these cloaks he's got this flying disc

413
00:27:37,090 --> 00:27:35,309

and again that's on my angle you can see

414

00:27:41,090 --> 00:27:37,100

actually from the stills that he's got

415

00:27:42,710 --> 00:27:41,100

this thing seems to be rotating he's

416

00:27:45,259 --> 00:27:42,720

also got some footage which he took from

417

00:27:48,919 --> 00:27:45,269

his bedroom window of lights over the

418

00:27:51,470 --> 00:27:48,929

quality and range and these things again

419

00:27:52,789 --> 00:27:51,480

they show up so he's down there looking

420

00:27:54,830 --> 00:27:52,799

east yeah and you're done they're

421

00:27:56,180 --> 00:27:54,840

looking West yeah it's probably looking

422

00:28:00,499 --> 00:27:56,190

at the same stuff looking at the same

423

00:28:03,980 --> 00:28:00,509

stuff yeah that's good so you know keep

424

00:28:06,230 --> 00:28:03,990

your eyes to the skies and yeah so if

425

00:28:07,639 --> 00:28:06,240

you never up this way I recommend it so

426

00:28:11,529 --> 00:28:07,649

takes half an hour to walk up from the

427

00:28:14,210 --> 00:28:11,539

carpark up to here there's a nice

428

00:28:17,119 --> 00:28:14,220

Victorian remains of a Victorian tower

429

00:28:19,100 --> 00:28:17,129

called Jubilee tower stand on the top
