

1
00:00:11,640 --> 00:00:09,920
my name is Steve Jason from Swansea UFO

2
00:00:15,070 --> 00:00:11,650
network and I'm here today we

3
00:00:17,590 --> 00:00:15,080
Emlyn and Mike from sue fun

4
00:00:20,260 --> 00:00:17,600
and we've come down to Scottie Dane in

5
00:00:23,400 --> 00:00:20,270
Swansea to interview mr. Howard Milton

6
00:00:29,669 --> 00:00:26,460
so what the hell is right I am first

7
00:00:32,549 --> 00:00:29,679
dude right here we are singled in

8
00:00:34,020 --> 00:00:32,559
hospital so we're gonna go down I was

9
00:00:38,700 --> 00:00:34,030
going to tell us exactly where he wasn't

10
00:00:41,430 --> 00:00:38,710
at least 65 when you were at 118 AG 19

11
00:00:43,560 --> 00:00:41,440
yeah see I'm trying to figure out it

12
00:00:45,930 --> 00:00:43,570
could be late 64 because I saw it's been

13
00:00:49,959 --> 00:00:45,940

built in 63 identities with each

14

00:00:49,969 --> 00:01:08,999

I will show you

15

00:01:14,919 --> 00:01:11,260

nothing okay

16

00:01:17,349 --> 00:01:14,929

very mind in the 60s this wasn't the

17

00:01:20,260 --> 00:01:17,359

highway like the day he was an old is a

18

00:01:23,559 --> 00:01:20,270

lane single carriage eyes dissing up two

19

00:01:25,300 --> 00:01:23,569

cars and the lighting wasn't the modern

20

00:01:27,490 --> 00:01:25,310

lighting it was street lamps with like

21

00:01:31,300 --> 00:01:27,500

200 watt bulbs it you could change them

22

00:01:34,359 --> 00:01:31,310

so it was quite dark every hundred yards

23

00:01:37,149 --> 00:01:34,369

it was a lamp standard but the light was

24

00:01:39,339 --> 00:01:37,159

like directing down so sketchy lanes

25

00:01:41,919 --> 00:01:39,349

very dark and all the way down there

26
00:01:44,169 --> 00:01:41,929
were trees which stop here and the main

27
00:01:45,399 --> 00:01:44,179
entrance was just by here then it says

28
00:01:47,260 --> 00:01:45,409
what this building was and why you would

29
00:01:48,760 --> 00:01:47,270
like this is the university you know the

30
00:01:51,760 --> 00:01:48,770
original sports are getting built in

31
00:01:54,760 --> 00:01:51,770
1922 with the the swimming pool next

32
00:01:56,649 --> 00:01:54,770
door and that was the original gym which

33
00:01:59,229 --> 00:01:56,659
is still used as a training room now

34
00:02:02,619 --> 00:01:59,239
they've got the new center set up but my

35
00:02:05,440 --> 00:02:02,629
father from 1964 10-12 years was the

36
00:02:08,080 --> 00:02:05,450
head groomsman he ran up in fair word

37
00:02:10,339 --> 00:02:08,090
and I lived here for buddy eight years I

38
00:02:12,770 --> 00:02:10,349

went to college later on

39

00:02:17,000 --> 00:02:12,780

but that was my mini bedroom and that's

40

00:02:20,119 --> 00:02:17,010

where I actually saw it and I was

41

00:02:22,429 --> 00:02:20,129

studying for my a-levels at the time 64

42

00:02:25,699 --> 00:02:22,439

November we've got help of 6:00 in the

43

00:02:27,920 --> 00:02:25,709

evening dark it was quite dark along

44

00:02:29,809 --> 00:02:27,930

here to see occasional light so

45

00:02:31,789 --> 00:02:29,819

something I just have to look out the

46

00:02:35,240 --> 00:02:31,799

window or it's felt something and I

47

00:02:38,780 --> 00:02:35,250

could see this huge craft don't mind

48

00:02:40,789 --> 00:02:38,790

these trees would yeah the woods are

49

00:02:43,160 --> 00:02:40,799

over there all all that all there was

50

00:02:49,920 --> 00:02:43,170

would be covered

51
00:02:58,230 --> 00:02:55,540
see so I looked out the window and about

52
00:03:01,330 --> 00:02:58,240
100 feet 3 30 40 meters above the

53
00:03:04,840 --> 00:03:01,340
hospital the size of the hospital was

54
00:03:07,170 --> 00:03:04,850
this very fat cigar shaped object with

55
00:03:09,760 --> 00:03:07,180
fatter in the middle and tapered off

56
00:03:12,880 --> 00:03:09,770
it's just like it was hung there wasn't

57
00:03:14,890 --> 00:03:12,890
moving at all no sound so I couldn't

58
00:03:17,230 --> 00:03:14,900
believe I thought might be reflection or

59
00:03:22,120 --> 00:03:17,240
it looked like a balloon one thing is

60
00:03:24,340 --> 00:03:22,130
you know 19 in their forties well it was

61
00:03:26,710 --> 00:03:24,350
happy it was about 100 feet above the

62
00:03:28,930 --> 00:03:26,720
hospital and the length of the hospital

63
00:03:31,150 --> 00:03:28,940

so you can work out some massive yeah

64

00:03:33,190 --> 00:03:31,160

and the width of it was the width of the

65

00:03:36,190 --> 00:03:33,200

12 saw or whatever they are like 10

66

00:03:40,570 --> 00:03:36,200

stories that quite big so I run

67

00:03:43,120 --> 00:03:40,580

downstairs and by the time I've done

68

00:03:45,610 --> 00:03:43,130

that I don't long as being there put

69

00:03:47,560 --> 00:03:45,620

them in a while but we watched it for 15

70

00:03:50,590 --> 00:03:47,570

minutes and in the middle of the road

71

00:03:53,410 --> 00:03:50,600

with the cardstock and some people like

72

00:03:55,930 --> 00:03:53,420

probably middle aged couple and someone

73

00:03:58,060 --> 00:03:55,940

across the road was staring at that yeah

74

00:04:00,910 --> 00:03:58,070

yes evoke see whether traffic lights are

75

00:04:03,220 --> 00:04:00,920

too wild oh yeah and I ran up here the

76

00:04:04,330 --> 00:04:03,230

gate was here and we all stood that they

77

00:04:06,040 --> 00:04:04,340

just watch us at the time the hospital

78

00:04:08,320 --> 00:04:06,050

has been built there was no it just

79

00:04:10,000 --> 00:04:08,330

finished the electrics ridden the

80

00:04:12,430 --> 00:04:10,010

electrics are in and I think the first

81

00:04:15,100 --> 00:04:12,440

patrons were already in because as I

82

00:04:17,380 --> 00:04:15,110

came down to watch it all the lights

83

00:04:19,780 --> 00:04:17,390

were flashing on and off on all fours

84

00:04:21,310 --> 00:04:19,790

you know Close Encounters in Third Kind

85

00:04:23,159 --> 00:04:21,320

when they were flashing I was like is

86

00:04:25,320 --> 00:04:23,169

exactly like that but

87

00:04:27,170 --> 00:04:25,330

I couldn't give an episode nothing was

88

00:04:30,710 --> 00:04:27,180

seen that

89

00:04:33,050 --> 00:04:30,720

so we just watched it and then light

90

00:04:37,659 --> 00:04:33,060

started by the way I mentioned that

91

00:04:42,999 --> 00:04:40,059

remembered all those lights flashing off

92

00:04:44,709 --> 00:04:43,009

in the mid 60's he does remember that I

93

00:04:48,790 --> 00:04:44,719

could have get more information about

94

00:04:52,719 --> 00:04:48,800

that but he's no canary I know yeah I

95

00:04:54,610 --> 00:04:52,729

love to ask her yeah but anyway so we

96

00:04:55,779 --> 00:04:54,620

watched it for another 10 or 15 minutes

97

00:04:58,089 --> 00:04:55,789

we just couldn't believe what we were

98

00:05:00,249 --> 00:04:58,099

seeing you know something Russians are

99

00:05:03,760 --> 00:05:00,259

mentioned you know but all of a sudden

100

00:05:06,339 --> 00:05:03,770

after all that flashing it had stopped

101
00:05:08,920 --> 00:05:06,349
they're dead quite barrier minded is

102
00:05:10,779 --> 00:05:08,930
this no lights from this craft it was

103
00:05:13,149 --> 00:05:10,789
like a silhouette of black silver white

104
00:05:14,800 --> 00:05:13,159
silhouette and you just hang in there as

105
00:05:17,890 --> 00:05:14,810
it being painted on the sky you know

106
00:05:21,519 --> 00:05:17,900
which is so quite awesome really it was

107
00:05:27,279 --> 00:05:21,529
just incredible sight you know and all

108
00:05:30,309 --> 00:05:27,289
the sudden it started juddering or just

109
00:05:32,290 --> 00:05:30,319
prior to the judge rain anything like a

110
00:05:33,640 --> 00:05:32,300
luminous green light there was remember

111
00:05:36,339 --> 00:05:33,650
this is quite the quarter site they'll

112
00:05:38,469 --> 00:05:36,349
always remember it up here like a window

113
00:05:40,269 --> 00:05:38,479

in the middle of the circumference of

114

00:05:41,619 --> 00:05:40,279

the line of the crop I don't know if it

115

00:05:44,439 --> 00:05:41,629

went all the way around cuz we only saw

116

00:05:46,740 --> 00:05:44,449

one side of it but I bazooms it so it

117

00:05:49,320 --> 00:05:46,750

would appear like a small little window

118

00:05:51,720 --> 00:05:49,330

and all the sudden it instantaneous

119

00:05:54,480 --> 00:05:51,730

stretched out like a line thin line with

120

00:05:57,000 --> 00:05:54,490

public sector Intel but is bright during

121

00:05:59,200 --> 00:05:57,010

the screen and winning a rich full

122

00:06:02,200 --> 00:05:59,210

capacity by hey Ronnie

123

00:06:05,170 --> 00:06:02,210

then it did it for about five seconds

124

00:06:06,640 --> 00:06:05,180

and then the materialized this would be

125

00:06:10,659 --> 00:06:06,650

right in front of our eyes just like

126

00:06:14,409 --> 00:06:10,669

that yes there's no no movement just a

127

00:06:17,020 --> 00:06:14,419

genuine and D materialized and as a

128

00:06:20,080 --> 00:06:17,030

preteen okay theorized you could see

129

00:06:23,200 --> 00:06:20,090

that the dark sky and all the sudden

130

00:06:24,999 --> 00:06:23,210

stars died to come back there was

131

00:06:28,029 --> 00:06:25,009

nothing there's like it left the black

132

00:06:29,980 --> 00:06:28,039

patch for about five seconds their son's

133

00:06:33,189 --> 00:06:29,990

bear then they started to come back it

134

00:06:36,100 --> 00:06:33,199

yes I we looking back on it I think

135

00:06:40,180 --> 00:06:36,110

because this is one of the biggest

136

00:06:45,730 --> 00:06:41,830

like looking back

137

00:06:48,189 --> 00:06:45,740

think it must have reached out and

138

00:06:50,530 --> 00:06:48,199

discovered this was the big energy

139

00:06:53,350 --> 00:06:50,540

source and the material and materialized

140

00:06:55,540 --> 00:06:53,360

they're charged up with something must

141

00:06:58,450 --> 00:06:55,550

have happened to it used all the energy

142

00:07:00,580 --> 00:06:58,460

using some Collider Wi-Fi system because

143

00:07:03,690 --> 00:07:00,590

there's no lights coming down which is

144

00:07:10,780 --> 00:07:08,200

and we must have soaked up the energy to

145

00:07:13,870 --> 00:07:10,790

give another cook quick battery start it

146

00:07:16,150 --> 00:07:13,880

open and then once it had charged up D

147

00:07:17,500 --> 00:07:16,160

materialize but the people have just

148

00:07:19,540 --> 00:07:17,510

done they're scratching their heads and

149

00:07:21,520 --> 00:07:19,550

then they should be shoulders and when

150

00:07:24,160 --> 00:07:21,530

the car wasn't off so didn't speak about

151
00:07:26,800 --> 00:07:24,170
it you know they did this wonderful that

152
00:07:29,620 --> 00:07:26,810
was it you know and then you know he

153
00:07:32,260 --> 00:07:29,630
said 50 odd years ago people don't know

154
00:07:35,160 --> 00:07:32,270
it in the papers nothing at well as far

155
00:07:41,540 --> 00:07:35,170
as I know all I know it's that summer I

156
00:07:48,970 --> 00:07:46,150
upon large fireballs in Overtown hell in

157
00:07:52,270 --> 00:07:48,980
in the daylight but you can check that

158
00:07:54,880 --> 00:07:52,280
chat but I certainly asked any was bad

159
00:07:56,380 --> 00:07:54,890
now but certainly ask if you think it

160
00:07:58,240 --> 00:07:56,390
was having some effect on the electrics

161
00:07:59,620 --> 00:07:58,250
of the building oh definitely yeah they

162
00:08:01,960 --> 00:07:59,630
disappeared the electrics went back to

163
00:08:03,640 --> 00:08:01,970

normal yeah well before that they went

164

00:08:07,150 --> 00:08:03,650

back to Morgan it obviously when they

165

00:08:11,290 --> 00:08:07,160

were sucking up this direct energy using

166

00:08:15,550 --> 00:08:11,300

some kind of Wi-Fi beam system could he

167

00:08:22,100 --> 00:08:19,100

just to give it a kickstart detail I

168

00:08:25,159 --> 00:08:22,110

hope see whoever was honestly the idea

169

00:08:27,200 --> 00:08:25,169

of instantaneous whether it was

170

00:08:29,420 --> 00:08:27,210

interesting trouble and interdimensional

171

00:08:32,000 --> 00:08:29,430

travel as we know no I don't know

172

00:08:34,130 --> 00:08:32,010

so you ever walk over the hospital carpi

173

00:08:34,700 --> 00:08:34,140

we get a better idea how big the

174

00:08:52,730 --> 00:08:34,710

building

175

00:08:57,850 --> 00:08:54,900

you know when they go into wool socks

176
00:08:57,860 --> 00:09:02,010
never seen a

177
00:09:08,810 --> 00:09:04,350
so it looked like you've gone into seven

178
00:09:15,199 --> 00:09:08,820
Piper walk right but dematerialize Riley

179
00:09:19,470 --> 00:09:17,670
there's an extension on the end of this

180
00:09:22,079 --> 00:09:19,480
building now I think this is the

181
00:09:23,850 --> 00:09:22,089
original building when he goes

182
00:09:28,120 --> 00:09:23,860
two-thirds away along and I think

183
00:09:32,980 --> 00:09:30,730
but it covered the whole of the hospital

184
00:09:36,519 --> 00:09:32,990
underfoot the photo you can imagine the

185
00:09:42,220 --> 00:09:36,529
signs of it I would say about the size

186
00:09:44,710 --> 00:09:42,230
of the hospital because he was above it

187
00:09:47,499 --> 00:09:44,720
hundred feet above it was about the size

188
00:09:50,110 --> 00:09:47,509

I do the hundred because I can you know

189

00:09:52,059 --> 00:09:50,120

they should extend their Gill hall clock

190

00:09:54,040 --> 00:09:52,069

that's 120 feet

191

00:09:55,900 --> 00:09:54,050

I need that looked like comparable the

192

00:10:06,720 --> 00:09:55,910

distance between the top of the building

193

00:10:06,730 --> 00:10:34,259

you

194

00:10:38,499 --> 00:10:36,670

we get a really good view of how big the

195

00:10:41,769 --> 00:10:38,509

building yes how long do you think that

196

00:10:43,180 --> 00:10:41,779

those those trees and that this brown

197

00:10:45,189 --> 00:10:43,190

brick building wasn't there there and

198

00:10:47,350 --> 00:10:45,199

that was built much later on so I had a

199

00:10:49,449 --> 00:10:47,360

clear view from both trees weren't there

200

00:10:51,519 --> 00:10:49,459

either way by the the traffic light you

201
00:10:53,650 --> 00:10:51,529
could see exactly he's actually was so

202
00:10:56,110 --> 00:10:53,660
near you had to look up like that that's

203
00:10:58,329 --> 00:10:56,120
how far near we were by those Heights so

204
00:11:00,370 --> 00:10:58,339
you walked up to weather like tahno yeah

205
00:11:02,740 --> 00:11:00,380
which was just a little lady was very -

206
00:11:05,259 --> 00:11:02,750
in lane there's only you know two cars

207
00:11:07,300 --> 00:11:05,269
I'm not even looking up at it yeah yeah

208
00:11:10,150 --> 00:11:07,310
really of that because how high above

209
00:11:12,819 --> 00:11:10,160
the building was the bottom of it I was

210
00:11:19,059 --> 00:11:12,829
saying hundred feet you know so hundred

211
00:11:23,559 --> 00:11:19,069
feet above the building yes yes yeah but

212
00:11:25,720 --> 00:11:23,569
it was huge what it was huge so I got a

213
00:11:28,150 --> 00:11:25,730

feeling though that that last bit

214

00:11:29,860 --> 00:11:28,160

there's an extension so if you go to

215

00:11:32,170 --> 00:11:29,870

that that they're like blue and dark

216

00:11:34,660 --> 00:11:32,180

blue section there that that was the

217

00:11:36,970 --> 00:11:34,670

original building and the bear in mind

218

00:11:39,400 --> 00:11:36,980

the craft is about the same so maybe a

219

00:11:41,290 --> 00:11:39,410

bit longer I I would say that if it have

220

00:11:44,740 --> 00:11:41,300

got restaurant on the roof Devine the

221

00:11:48,929 --> 00:11:44,750

size of the possible as it is now and it

222

00:11:51,699 --> 00:11:48,939

would be the same width as a hospital

223

00:11:53,490 --> 00:11:51,709

but I didn't see the other story but you

224

00:11:59,910 --> 00:11:53,500

know he said you said it's a really put

225

00:12:04,079 --> 00:12:02,160

we've curved like the same pretty she

226

00:12:05,130 --> 00:12:04,089

was slim difficult it was a good soon if

227

00:12:08,340 --> 00:12:05,140

do you think it could have been a desk

228

00:12:10,139 --> 00:12:08,350

mood edged on don't know he's too it was

229

00:12:13,740 --> 00:12:10,149

too wide in the middle is quite wide

230

00:12:15,960 --> 00:12:13,750

right so he was like a cigar was it like

231

00:12:18,690 --> 00:12:15,970

a cigar but very thick in the middle why

232

00:12:20,880 --> 00:12:18,700

they're not selling them but tapered off

233

00:12:24,660 --> 00:12:20,890

like my cigar and no sharp edges

234

00:12:28,530 --> 00:12:24,670

completely around and dark like quite

235

00:12:30,420 --> 00:12:28,540

flat but dark gray brown brown black you

236

00:12:32,730 --> 00:12:30,430

know there's no no coloring no windows

237

00:12:34,500 --> 00:12:32,740

no likes apart from that green look

238

00:12:37,079 --> 00:12:34,510

luminous must have freaked you out

239

00:12:39,240 --> 00:12:37,089

oh yeah but what I was just I mean I've

240

00:12:42,210 --> 00:12:39,250

been interested the deceased a me I was

241

00:12:44,340 --> 00:12:42,220

a guy a boy typical boy stick Eagle

242

00:12:48,000 --> 00:12:44,350

comic and annual Hills looking up the

243

00:12:52,230 --> 00:12:48,010

star but to see something physical was

244

00:12:54,630 --> 00:12:52,240

18 and I could never get an answer I

245

00:12:57,630 --> 00:12:54,640

spent years trying to find out exactly

246

00:13:01,319 --> 00:12:57,640

how this worked you know and now I find

247

00:13:04,019 --> 00:13:01,329

out if it can be worked music seen his

248

00:13:07,170 --> 00:13:04,029

face physicists in America but they said

249

00:13:09,660 --> 00:13:07,180

to to do that type of thing you have to

250

00:13:12,630 --> 00:13:09,670

build something again the size of the

251
00:13:14,639 --> 00:13:12,640
hospital to make it work let alone the

252
00:13:18,030 --> 00:13:14,649
size of the craft you know so they

253
00:13:20,639 --> 00:13:18,040
trying to miniaturize so whoever did

254
00:13:23,579 --> 00:13:20,649
that obviously miniaturized this system

255
00:13:26,710 --> 00:13:23,589
of propulsion or the sky was dark yeah

256
00:13:29,290 --> 00:13:26,720
is half a section up middle in November

257
00:13:32,230 --> 00:13:29,300
and what's the weather like cloudy is

258
00:13:34,270 --> 00:13:32,240
like tonight my changes is yeah there's

259
00:13:38,730 --> 00:13:34,280
no we're not following I'll remember no

260
00:13:44,860 --> 00:13:42,460
but there's no there's no light

261
00:13:48,190 --> 00:13:44,870
pollution because your onion at the

262
00:13:50,740 --> 00:13:48,200
bulbs pointing downwards so when you

263
00:13:54,100 --> 00:13:50,750

walk ten yards away he was dark until he

264

00:13:56,350 --> 00:13:54,110

picked up the next lamp you know yeah

265

00:13:58,570 --> 00:13:56,360

intriguing limited by manometer so

266

00:14:02,920 --> 00:13:58,580

obviously I could never find out if it

267

00:14:06,910 --> 00:14:02,930

was in the dimensional or something

268

00:14:09,010 --> 00:14:06,920

that's like a super hyper drive but but

269

00:14:09,970 --> 00:14:09,020

it didn't use was any sound no sound

270

00:14:13,480 --> 00:14:09,980

nothing

271

00:14:15,340 --> 00:14:13,490

it is gendered for it went no move just

272

00:14:16,300 --> 00:14:15,350

like someone painted on the sky that's

273

00:14:22,420 --> 00:14:16,310

why I couldn't believe it

274

00:14:26,680 --> 00:14:22,430

those upstairs II know I didn't actually

275

00:14:28,930 --> 00:14:26,690

move the gendered but there's no sound

276

00:14:30,430 --> 00:14:28,940

but you could feel something you said

277

00:14:32,230 --> 00:14:30,440

some motorists stopped and they got up

278

00:14:35,230 --> 00:14:32,240

can remember what they did what they

279

00:14:37,000 --> 00:14:35,240

said bit in two cars one coming down the

280

00:14:38,770 --> 00:14:37,010

lane and because it next to each other's

281

00:14:41,260 --> 00:14:38,780

narrow low and they just stopped there

282

00:14:43,860 --> 00:14:41,270

and there's hardly any other cars for

283

00:14:47,460 --> 00:14:43,870

quiet time that hard for six

284

00:14:49,050 --> 00:14:47,470

a lot of traffic and maybe just stand

285

00:14:50,760 --> 00:14:49,060

there looking at it I got didn't I don't

286

00:14:51,870 --> 00:14:50,770

think they mention anything I mean

287

00:14:56,120 --> 00:14:51,880

there's 50 odd years ago I don't

288

00:14:59,610 --> 00:14:56,130

remember I think one scratch tin head

289

00:15:01,740 --> 00:14:59,620

got my car and drove off I mean these

290

00:15:04,740 --> 00:15:01,750

days you'd have you mobile phones and

291

00:15:07,950 --> 00:15:04,750

their digital cameras going but all I

292

00:15:09,420 --> 00:15:07,960

have is my 35 minutes slightly now I

293

00:15:12,210 --> 00:15:09,430

remember you telling me that what after

294

00:15:13,620 --> 00:15:12,220

he disappeared you you couldn't see the

295

00:15:15,630 --> 00:15:13,630

stars well it knows he was a guitar

296

00:15:18,000 --> 00:15:15,640

spacetime seconds a song yeah remember

297

00:15:19,470 --> 00:15:18,010

like any sort of came back then you

298

00:15:23,700 --> 00:15:19,480

could see one stars it was a clear night

299

00:15:25,920 --> 00:15:23,710

you know but there's nothing i I've seen

300

00:15:28,260 --> 00:15:25,930

nothing since and I I don't know if

301
00:15:30,510 --> 00:15:28,270
anybody else seen something that large

302
00:15:32,370 --> 00:15:30,520
anyways he had caught up one of the

303
00:15:34,470 --> 00:15:32,380
closing up the Fourth Kind maybe I don't

304
00:15:37,280 --> 00:15:34,480
know but it is something

305
00:15:40,920 --> 00:15:37,290
it was quite all inspiring to see that

306
00:15:45,230 --> 00:15:40,930
you could see home at was some city was

307
00:15:47,310 --> 00:15:45,240
a big dark it was a black desk yeah yeah

308
00:15:50,730 --> 00:15:47,320
how are you able to see it against the

309
00:15:53,190 --> 00:15:50,740
dark sky though well if it was darker

310
00:15:55,350 --> 00:15:53,200
the way it was shaped it was like cut

311
00:15:57,870 --> 00:15:55,360
out as if he was painted so she was

312
00:15:59,579 --> 00:15:57,880
darker doesn't look like black by heart

313
00:16:02,550 --> 00:15:59,589

the six and it was dark but it wasn't

314

00:16:05,400 --> 00:16:02,560

black this was darker than the sky yeah

315

00:16:08,490 --> 00:16:05,410

basically and that's how I put that I

316

00:16:11,340 --> 00:16:08,500

ran downstairs to make sure it was what

317

00:16:13,050 --> 00:16:11,350

I was here you know and then these cars

318

00:16:14,820 --> 00:16:13,060

already was the it was the flashing

319

00:16:15,510 --> 00:16:14,830

lights on the hospital that attract

320

00:16:18,840 --> 00:16:15,520

attention

321

00:16:22,790 --> 00:16:18,850

yeah that they've got the flashing

322

00:16:25,729 --> 00:16:22,800

lights came on after I went out to buy

323

00:16:27,559 --> 00:16:25,739

run down the stairs Tom I got through

324

00:16:29,389 --> 00:16:27,569

here and I got to the lights then they

325

00:16:31,879 --> 00:16:29,399

started flashing but oh well he's guys

326

00:16:34,879 --> 00:16:31,889

must've seen it and stopped when the

327

00:16:39,559 --> 00:16:34,889

wires and then they saw the craft so

328

00:16:42,230 --> 00:16:39,569

weird but I know I I just assumed lose

329

00:16:45,679 --> 00:16:42,240

later on after knowing what I know

330

00:16:48,489 --> 00:16:45,689

the new techniques and bad science and

331

00:16:54,199 --> 00:16:51,110

but how many people see one of those on

332

00:16:56,210 --> 00:16:54,209

there you see lots of lights and metal

333

00:16:58,519 --> 00:16:56,220

objects and whooshing off in the sky but

334

00:17:00,290 --> 00:16:58,529

this was not metal that there was I

335

00:17:01,400 --> 00:17:00,300

don't know what he's made of but it was

336

00:17:04,220 --> 00:17:01,410

no reflection

337

00:17:06,799 --> 00:17:04,230

it was dark with just that luminous

338

00:17:09,140 --> 00:17:06,809

green line you know when he found start

339

00:17:10,520 --> 00:17:09,150

the car and you know the red lighting go

340

00:17:12,319 --> 00:17:10,530

they've got like this was all of a

341

00:17:18,370 --> 00:17:12,329

sudden came green and then people

342

00:17:21,199 --> 00:17:18,380

internalize it's a very early Satan yeah

343

00:17:23,510 --> 00:17:21,209

yeah well there's no one to talk about

344

00:17:25,549 --> 00:17:23,520

anything else there was no one to

345

00:17:29,539 --> 00:17:25,559

mention it I mean I did mention to my

346

00:17:33,409 --> 00:17:29,549

parents I think my father saw it but

347

00:17:36,169 --> 00:17:33,419

they didn't really like something come

348

00:17:38,480 --> 00:17:36,179

along you know that's it we don't hang

349

00:17:40,580 --> 00:17:38,490

about it that's it there was no one no

350

00:17:42,140 --> 00:17:40,590

like places that you've got sooo fun in

351

00:17:44,720 --> 00:17:42,150

uniform everywhere now we've gone

352

00:17:46,520 --> 00:17:44,730

there's no they might have been in

353

00:17:49,700 --> 00:17:46,530

America and there's nothing as far as I

354

00:17:51,740 --> 00:17:49,710

know this country might be dabbling in

355

00:17:54,980 --> 00:17:51,750

it but they all thought you four guys

356

00:17:55,670 --> 00:17:54,990

are nuts in those things anyway leaving

357

00:18:01,310 --> 00:17:55,680

too many

358

00:18:04,400 --> 00:18:01,320

comics no but we know a lot more

359

00:18:05,900 --> 00:18:04,410

but yeah it's tuk that image stop me all

360

00:18:07,190 --> 00:18:05,910

I mean when you see something like that

361

00:18:10,070 --> 00:18:07,200

when you're in your teens

362

00:18:11,800 --> 00:18:10,080

astaizu for life - no accent that's a

363

00:18:15,710 --> 00:18:11,810

big cycle

364
