

1
00:00:12,830 --> 00:00:09,980
hello we've Swansea UFO network we've

2
00:00:15,280 --> 00:00:12,840
come to Kim Miller in Neath right in the

3
00:00:18,679 --> 00:00:15,290
very top of a land a lovely sunny day in

4
00:00:21,260 --> 00:00:18,689
September 2019 to talk with a witness

5
00:00:25,010 --> 00:00:21,270
who saw a triangular object in the sky

6
00:00:27,109 --> 00:00:25,020
in the early 80s we were pretty sure

7
00:00:29,269 --> 00:00:27,119
it's not the night that happened unlike

8
00:00:31,339 --> 00:00:29,279
the other triangles 1990 through January

9
00:00:36,139 --> 00:00:31,349
because the witness thinks it was later

10
00:00:37,700 --> 00:00:36,149
in the 80s probably 84 85 I think so we

11
00:00:38,900 --> 00:00:37,710
were the witness today I but he doesn't

12
00:00:41,390 --> 00:00:38,910
want his name

13
00:00:43,820 --> 00:00:41,400

always identity revealed so you don't

14

00:00:46,250 --> 00:00:43,830

even see the back of his head so I

15

00:00:48,470 --> 00:00:46,260

believe you were you said you were

16

00:00:52,940 --> 00:00:48,480

driving a taxi that night no I didn't

17

00:00:53,420 --> 00:00:52,950

make the Thames car oh you were working

18

00:00:57,620 --> 00:00:53,430

as a taxi

19

00:01:00,950 --> 00:00:57,630

yeah yeah yeah whatever it was I pulled

20

00:01:03,110 --> 00:01:00,960

up outside the house and we talking

21

00:01:11,270 --> 00:01:03,120

about briefly first couple second what's

22

00:01:13,850 --> 00:01:11,280

the name of this road what sort of time

23

00:01:16,100 --> 00:01:13,860

this evening but - right

24

00:01:23,780 --> 00:01:16,110

if you just go and talk to it okay carry

25

00:01:25,640 --> 00:01:23,790

on talking my girlfriend and I have to

26

00:01:28,789 --> 00:01:25,650

look over that direction over there

27

00:01:32,330 --> 00:01:28,799

just above the shop yeah and I can see a

28

00:01:37,609 --> 00:01:32,340

ship coming across this guy very slowly

29

00:01:44,600 --> 00:01:37,619

and I think we'd had to like cider that

30

00:01:46,219 --> 00:01:44,610

baby paint black totally and she went in

31

00:01:51,140 --> 00:01:46,229

then I was a publisher so I stayed in

32

00:01:53,390 --> 00:01:51,150

the car watching it and came across it I

33

00:01:57,260 --> 00:01:53,400

see it about 200 foot up in the air

34

00:02:00,260 --> 00:01:57,270

a bit bigger than a fighter jet say half

35

00:02:03,620 --> 00:02:00,270

a size again yeah just come across here

36

00:02:08,479 --> 00:02:03,630

across the sky very slowly because I'll

37

00:02:10,490 --> 00:02:08,489

be moving over there watching bro ten

38

00:02:12,229 --> 00:02:10,500

minutes for 50 minutes all right so this

39

00:02:14,839 --> 00:02:12,239

friend from left to right then yeah just

40

00:02:16,879 --> 00:02:14,849

so you know see the dippin in the Monken

41

00:02:19,009 --> 00:02:16,889

yeah right going it's for you there it's

42

00:02:19,760 --> 00:02:19,019

all Matt sort of laid him out from

43

00:02:24,050 --> 00:02:19,770

behind the

44

00:02:25,310 --> 00:02:24,060

well from that direction Hakeem is it

45

00:02:28,250 --> 00:02:25,320

came over the houses or you at

46

00:02:31,280 --> 00:02:28,260

everything yeah very slowly and when

47

00:02:32,810 --> 00:02:31,290

direction over there then yeah and then

48

00:02:35,330 --> 00:02:32,820

it just gradually disappeared

49

00:02:38,360 --> 00:02:35,340

you think the shape on it yeah it is a

50

00:02:40,850 --> 00:02:38,370

triangle totally black

51
00:02:42,850 --> 00:02:40,860
I think I saw too late something just

52
00:02:47,520 --> 00:02:42,860
let me say that effect

53
00:02:50,290 --> 00:02:47,530
very thicked and it was a flat front bit

54
00:02:52,450 --> 00:02:50,300
like a triangle ship on the back what

55
00:02:56,410 --> 00:02:52,460
size do you think twice the size about a

56
00:02:57,580 --> 00:02:56,420
fight that big yeah I saw at least what

57
00:03:00,370 --> 00:02:57,590
way did you think that it was a sort of

58
00:03:03,850 --> 00:03:00,380
unnatural cycle and not the speed of it

59
00:03:18,370 --> 00:03:03,860
and no noise no you don't yeah

60
00:03:19,180 --> 00:03:18,380
when it's a speed what sort of speak and

61
00:03:21,160 --> 00:03:19,190
the way I thought what was it like

62
00:03:24,550 --> 00:03:21,170
driving yeah it's right yeah it was just

63
00:03:27,880 --> 00:03:24,560

time to get dark was and what some of

64

00:03:29,880 --> 00:03:27,890

the year I told that's pretty sure with

65

00:03:32,590 --> 00:03:29,890

you you often call it a me in a while

66

00:03:43,150 --> 00:03:32,600

maybe with Derek captain exactly with

67

00:03:48,820 --> 00:03:43,160

them yeah I do a lot of it back I'm sure

68

00:03:50,890 --> 00:03:48,830

wasn't conventional craft out I tell you

69

00:03:55,000 --> 00:03:50,900

anything and you mentioned to us earlier

70

00:04:54,800 --> 00:03:55,010

that this was in the paper on the Monday

71

00:05:04,740 --> 00:05:02,910

it was we just could actually see the

72

00:05:06,300 --> 00:05:04,750

shape of it wasn't just three points are

73

00:05:08,220 --> 00:05:06,310

like three one or like you chip it

74

00:05:09,510 --> 00:05:08,230

because she sees shake yeah no we told

75

00:05:10,800 --> 00:05:09,520

about size are we looking at something

76

00:05:12,960 --> 00:05:10,810

there's a size of sort of a light

77

00:05:15,659 --> 00:05:12,970

aircraft or height the height for a

78

00:05:20,190 --> 00:05:15,669

light aircraft all right through a jet

79

00:05:21,990 --> 00:05:20,200

aircraft pretty much like like the

80

00:05:24,840 --> 00:05:22,000

stealth so fake there's you know on

81

00:05:29,060 --> 00:05:24,850

Obamas are that sort of depth of playing

82

00:05:32,010 --> 00:05:29,070

no I mean maybe similar say to them feel

83

00:05:34,470 --> 00:05:32,020

yeah but I mean the height it was flying

84

00:05:36,570 --> 00:05:34,480

out oh yeah I once hid more but when the

85

00:05:38,100 --> 00:05:36,580

foot you've got they can see it just

86

00:05:39,900 --> 00:05:38,110

above that's our tree line there I said

87

00:05:42,600 --> 00:05:39,910

tree in the garden yeah just above that

88

00:05:44,250 --> 00:05:42,610

sorry yeah and that was a solid haters

89

00:05:46,610 --> 00:05:44,260

come across I can actually obviously

90

00:05:52,080 --> 00:05:46,620

would have been a lot smaller

91

00:05:52,440 --> 00:05:52,090

see girlfriend yeah she's not with her

92

00:05:55,980 --> 00:05:52,450

anymore

93

00:05:59,520 --> 00:05:55,990

no and then what decide the pupa

94

00:06:04,020 --> 00:05:59,530

I grab the peer bow that Cindy came up

95

00:06:06,120 --> 00:06:04,030

and shoulder and she was shocked if you

96

00:06:08,370 --> 00:06:06,130

look to your right yeah there's a heavy

97

00:06:22,350 --> 00:06:08,380

copter there do we know what the same

98

00:06:27,140 --> 00:06:22,360

length is that yeah thank you very much

99

00:06:31,650 --> 00:06:27,150

we shoot it see you next time

100

00:06:33,720 --> 00:06:31,660

good streets and enter Rob just opposite

101
00:06:37,560 --> 00:06:33,730
the train station and this is the big

102
00:06:39,210 --> 00:06:37,570
kam public house and the witness who

103
00:06:42,630 --> 00:06:39,220
told us about a site into the triangle

104
00:06:45,250 --> 00:06:42,640
up in Kindler you just came to tell us

105
00:06:46,990 --> 00:06:45,260
about another site in the ad

106
00:06:49,090 --> 00:06:47,000
he's gonna tell us about when it was

107
00:06:51,010 --> 00:06:49,100
exactly not was I don't know what the

108
00:07:41,570 --> 00:06:51,020
details yet if we'd be waiting for him

109
00:07:51,640 --> 00:07:47,990
very slowly going we're doing that the

110
00:07:57,520 --> 00:07:51,650
remove each wall gone destroyed so we

111
00:08:03,529 --> 00:08:00,860
watching why they stayed watch it and

112
00:08:07,019 --> 00:08:03,539
say from the theoretical you know from

113
00:08:10,379 --> 00:08:07,029

my thirty degree angle of me but me

114

00:08:13,379 --> 00:08:10,389

if the shot away was Lankans within

115

00:08:15,899 --> 00:08:13,389

seconds right yeah I meant electric fail

116

00:08:19,259 --> 00:08:15,909

of nool trailed Anglet well let you see

117

00:08:22,139 --> 00:08:19,269

on the beach that I jumped the wave in

118

00:08:23,759 --> 00:08:22,149

the Sun like that we have in this guy

119

00:08:26,699 --> 00:08:23,769

right behind it and the shock remote

120

00:08:29,189 --> 00:08:26,709

didn't learn about two three seconds so

121

00:08:31,769 --> 00:08:29,199

it was up there but was it moving it all

122

00:08:34,679 --> 00:08:31,779

benefits away yeah yeah this direction

123

00:08:38,630 --> 00:08:34,689

got me down to other mountains over

124

00:08:42,949 --> 00:08:38,640

there and we really got

125

00:08:47,150 --> 00:08:42,959

whatever prefer two minutes as for

126

00:08:49,750 --> 00:08:47,160

belief diagram it is short offer an

127

00:09:12,490 --> 00:08:49,760

order to do their let's trail being it

128

00:09:16,250 --> 00:09:12,500

waves it was wavin drastically in wasn't

129

00:09:21,050 --> 00:09:16,260

it was go very slow at all right just

130

00:09:34,130 --> 00:09:28,700

it was one of the sky conditions but the

131

00:09:36,860 --> 00:09:34,140

trail at the end she about the future

132

00:09:38,930 --> 00:09:36,870

what the sun's yeah that right behind it

133

00:09:41,480 --> 00:09:38,940

just said I like this elf as white yeah

134

00:09:45,110 --> 00:09:41,490

but I'd left to tell you blue blue under

135

00:09:50,210 --> 00:09:45,120

very dark room does did this trailer

136

00:09:51,770 --> 00:09:50,220

stay for what yeah is favor from 30

137

00:09:54,470 --> 00:09:51,780

seconds and they just feel it'll either

138

00:09:56,120 --> 00:09:54,480

so did they wiped itself deviate in its

139

00:10:00,950 --> 00:09:56,130

path I was history only that's only

140

00:10:04,760 --> 00:10:00,960

video but once it got close to it so it

141

00:10:08,770 --> 00:10:04,770

was there's no way any to accelerate

142

00:10:14,619 --> 00:10:12,549

it's actually the wrong zone

143

00:10:17,049 --> 00:10:14,629

I'm gonna rule of helicopter yeah I know

144

00:10:21,279 --> 00:10:17,059

I'm on the airplane not the speed shot

145

00:10:24,290 --> 00:10:21,289

over it was gone from the to standing on

146

00:10:28,889 --> 00:10:24,300

it yeah

147

00:10:35,300 --> 00:10:28,899

looking up same pile up right get enough

148

00:10:45,170 --> 00:10:38,360

I could achieve movement it just didn't

149

00:10:46,970 --> 00:10:45,180

fade away with anybody else no I love

150

00:10:50,090 --> 00:10:46,980

the poison be like I thought itself of

151

00:10:54,170 --> 00:10:50,100

the pipe it wasn't sure you know he

152

00:10:57,079 --> 00:10:54,180

sounds any flashing looks your family

153

00:11:48,020 --> 00:10:57,089

everything how long do they leave this

154

00:11:56,400 --> 00:11:51,270

like that's not drastic enough to

155

00:12:01,020 --> 00:11:56,410

capture a well I kept watching one with

156

00:12:02,910 --> 00:12:01,030

you 30 feet away so you couldn't make

157

00:12:05,640 --> 00:12:02,920

out any sort of shape to Lucia Pluto

158

00:12:10,290 --> 00:12:05,650

just wake up just a white yeah a bright

159

00:12:11,520 --> 00:12:10,300

white see that I mean bean aspect of it

160

00:12:14,650 --> 00:12:11,530

instead mate

161

00:12:14,660 --> 00:12:18,280

hoping

162

00:12:18,290 --> 00:12:34,650

and miss difficulty same feelings

163

00:12:40,449 --> 00:12:36,179

signing out

164

00:12:48,020 --> 00:12:40,459

we'll wait in waders and we just feed

165

00:12:52,419 --> 00:12:50,219
