UFO

P O D C A S T

**FROM THE ARCHIVES:
GARY VOORHIS, KEVIN DAY
& PJ HUGHES - PART TWO**

1
00:00:00,060 --> 00:00:14,070

[Music]

2
00:00:18,790 --> 00:00:16,150

it was basically a cube with inside of

3
00:00:22,580 --> 00:00:18,800

sphere where the points of the cube

4
00:00:32,790 --> 00:00:22,590

were touching outside of sphere

5
00:00:36,950 --> 00:00:34,350

[Music]

6
00:00:38,470 --> 00:00:36,960

[Applause]

7
00:00:40,709 --> 00:00:38,480

so this isn't anything that just is

8
00:00:45,670 --> 00:00:40,719

limited to the united states it's a

9
00:00:50,630 --> 00:00:48,790

that ufo podcast is powered by zencastr

10
00:00:52,549 --> 00:00:50,640

zencaster is one of the world's leading

11
00:00:55,430 --> 00:00:52,559

platforms for recording and hosting

12
00:00:57,110 --> 00:00:55,440

podcasts zencaster is a modern web-based

13
00:00:59,349 --> 00:00:57,120

solution for high quality audio and

14

00:01:01,349 --> 00:00:59,359

video podcast production with a full

15

00:01:03,189 --> 00:01:01,359

suite of professional tools zencasa

16

00:01:05,350 --> 00:01:03,199

allows podcasters to quickly and

17

00:01:06,870 --> 00:01:05,360

seamlessly record their guests remotely

18

00:01:08,630 --> 00:01:06,880

and produce their podcasts and studio

19

00:01:11,990 --> 00:01:08,640

quality check out the links in the show

20

00:01:14,070 --> 00:01:12,000

description to find out more

21

00:01:15,590 --> 00:01:14,080

breaking news this important public

22

00:01:17,670 --> 00:01:15,600

service announcement is brought to you

23

00:01:19,510 --> 00:01:17,680

by manscaped.com

24

00:01:21,270 --> 00:01:19,520

this is your public service announcement

25

00:01:23,109 --> 00:01:21,280

and the news you've all been waiting for

26
00:01:24,870 --> 00:01:23,119
the manscaped engineering team has

27
00:01:27,990 --> 00:01:24,880
confirmed that they have successfully

28
00:01:30,230 --> 00:01:28,000
created the lawnmower 4.0 trimmer which

29
00:01:32,710 --> 00:01:30,240
is now available for purchase in the eu

30
00:01:34,630 --> 00:01:32,720
and uk this new tremor was just released

31
00:01:36,789 --> 00:01:34,640
only moments ago and we are one of the

32
00:01:39,190 --> 00:01:36,799
first to get our hands on it and share

33
00:01:41,190 --> 00:01:39,200
the news join over two million men

34
00:01:43,030 --> 00:01:41,200
worldwide who trust manscape with this

35
00:01:46,389 --> 00:01:43,040
exclusive offer for you

36
00:01:49,830 --> 00:01:46,399
20 off and free shipping with the code

37
00:01:51,510 --> 00:01:49,840
and the ufo at manscape.com

38
00:01:54,069 --> 00:01:51,520

i'm one of the first people to try the

39

00:01:56,149 --> 00:01:54,079

new 4.0 and i am blown away by the

40

00:01:59,030 --> 00:01:56,159

performance the craftsmanship and

41

00:02:01,190 --> 00:01:59,040

details on the 4.0 are next level

42

00:02:03,190 --> 00:02:01,200

generations ahead of where it should be

43

00:02:05,429 --> 00:02:03,200

their advanced ceramic blade and skin

44

00:02:07,670 --> 00:02:05,439

safe technology is so good that it

45

00:02:10,150 --> 00:02:07,680

almost seems that manscape work with at

46

00:02:13,350 --> 00:02:10,160

s4 with pablazar and others to ensure

47

00:02:14,869 --> 00:02:13,360

your sources are as safe as possible

48

00:02:16,710 --> 00:02:14,879

what makes this trauma different from

49

00:02:19,030 --> 00:02:16,720

all the other travels well a few things

50

00:02:20,949 --> 00:02:19,040

for me a new multi-function on off

51
00:02:22,869 --> 00:02:20,959
switch can engage a travel lot created

52
00:02:25,030 --> 00:02:22,879
for people who like to travel whichever

53
00:02:27,030 --> 00:02:25,040
dimension that might be in the lawnmower

54
00:02:31,750 --> 00:02:27,040
4.0 gives you the ability to turn the

55
00:02:36,869 --> 00:02:33,990
when needed for a more precise shave the

56
00:02:38,710 --> 00:02:36,879
phoenix lights have nothing on this

57
00:02:40,470 --> 00:02:38,720
and the new tremor even allows you to

58
00:02:42,229 --> 00:02:40,480
customize your trim overall through

59
00:02:44,309 --> 00:02:42,239
additional guard lengths you get a

60
00:02:46,710 --> 00:02:44,319
couple of those included inside the box

61
00:02:49,110 --> 00:02:46,720
with sizes of one to four so if it's

62
00:02:51,430 --> 00:02:49,120
tall nordics or short grays it's all

63
00:02:54,070 --> 00:02:51,440

good and looks wise it's sleek with a

64

00:02:57,190 --> 00:02:54,080

two-toned matte and gloss finish even

65

00:02:59,270 --> 00:02:57,200

features a hot foil stamped black chrome

66

00:02:59,820 --> 00:02:59,280

manscaped logo

67

00:03:02,390 --> 00:02:59,830

look at that

68

00:03:03,830 --> 00:03:02,400

[Music]

69

00:03:05,589 --> 00:03:03,840

you know when you take out the box and

70

00:03:07,910 --> 00:03:05,599

you just feel the weight of it and you

71

00:03:11,190 --> 00:03:07,920

just feel as a quality piece of piece of

72

00:03:12,869 --> 00:03:11,200

kit that is premium right there the 4.0

73

00:03:15,110 --> 00:03:12,879

did i mention wireless charging the

74

00:03:17,670 --> 00:03:15,120

lawnmower 4.0 new wireless charging

75

00:03:19,990 --> 00:03:17,680

system uses electromagnetic induction

76

00:03:21,830 --> 00:03:20,000

which can help battery length last

77

00:03:23,750 --> 00:03:21,840

longer if you're still trimming your

78

00:03:25,110 --> 00:03:23,760

face for your ball trimmer it's time to

79

00:03:27,350 --> 00:03:25,120

make some changes

80

00:03:31,190 --> 00:03:27,360

get 20 off and free shipping with the

81

00:03:34,789 --> 00:03:31,200

code andy ufo at manscape.com remember

82

00:03:36,710 --> 00:03:34,799

that's 20 off and free shipping on any

83

00:03:41,589 --> 00:03:36,720

products they've got on the website

84

00:03:46,949 --> 00:03:43,910

hi everyone and welcome back to that ufo

85

00:03:49,509 --> 00:03:46,959

podcast from the archives this is part

86

00:03:52,309 --> 00:03:49,519

two of the round table originally aired

87

00:03:54,630 --> 00:03:52,319

last year with gary verges kevin day and

88

00:03:57,910 --> 00:03:54,640

patrick hughes this one was originally

89

00:04:00,309 --> 00:03:57,920

broadcast around august 25th 2020 and

90

00:04:02,630 --> 00:04:00,319

was a really interesting talk the second

91

00:04:04,710 --> 00:04:02,640

part focuses on listener questions

92

00:04:06,869 --> 00:04:04,720

including could the pilots and radar

93

00:04:09,190 --> 00:04:06,879

have misidentified the craft

94

00:04:10,789 --> 00:04:09,200

we looked at the uap task force and what

95

00:04:12,710 --> 00:04:10,799

sort of power it would have so that's an

96

00:04:14,949 --> 00:04:12,720

interesting talk given the report came

97

00:04:17,990 --> 00:04:14,959

out what 10 months later after this

98

00:04:20,150 --> 00:04:18,000

episode we look at threat and intent and

99

00:04:22,150 --> 00:04:20,160

why did they allow themselves to be seen

100

00:04:24,710 --> 00:04:22,160

and a whole lot more on top of that as

101

00:04:28,310 --> 00:04:24,720

well folks enjoy and look out for more

102

00:04:29,909 --> 00:04:28,320

from the archives soon

103

00:04:31,270 --> 00:04:29,919

yeah i get those

104

00:04:33,030 --> 00:04:31,280

right so

105

00:04:35,030 --> 00:04:33,040

coming back from that message folks we

106

00:04:36,710 --> 00:04:35,040

had a ton of listener questions sent

107

00:04:38,390 --> 00:04:36,720

over thank you very much and i've

108

00:04:40,710 --> 00:04:38,400

narrowed it down to about four or five

109

00:04:42,070 --> 00:04:40,720

pages worth of questions some of the

110

00:04:43,430 --> 00:04:42,080

other stuff has already been answered

111

00:04:46,950 --> 00:04:43,440

within the body of the interview so

112

00:04:48,310 --> 00:04:46,960

thank you very much um uh and folks uh

113

00:04:49,430 --> 00:04:48,320

some of the names or twitter names and

114

00:04:50,790 --> 00:04:49,440

whatnot i'm just gonna go through and

115

00:04:52,310 --> 00:04:50,800

ask the questions as well because some

116

00:04:54,390 --> 00:04:52,320

of you sent really similar questions

117

00:04:56,469 --> 00:04:54,400

into so if you think it's your question

118

00:04:58,870 --> 00:04:56,479

it probably is let's go with that

119

00:05:02,310 --> 00:04:58,880

first question can the guys discuss the

120

00:05:04,870 --> 00:05:02,320

navy's cec radar and how it's impossible

121

00:05:06,790 --> 00:05:04,880

to misidentify a plane i think pj you

122

00:05:08,150 --> 00:05:06,800

want to take that one don't you

123

00:05:11,110 --> 00:05:08,160

first of all

124

00:05:14,150 --> 00:05:11,120

cc is not a radar it's it stands for

125

00:05:15,670 --> 00:05:14,160

cooperative the cooperative engagement

126
00:05:19,670 --> 00:05:15,680
capability

127
00:05:22,310 --> 00:05:19,680
and the layman unclassified version

128
00:05:24,629 --> 00:05:22,320
it is a real-time data link between a

129
00:05:27,430 --> 00:05:24,639
bunch of different ships and airplanes

130
00:05:29,830 --> 00:05:27,440
you know it doesn't have its own

131
00:05:32,469 --> 00:05:29,840
information it pulls information

132
00:05:33,670 --> 00:05:32,479
from all the sensors on other ships and

133
00:05:34,790 --> 00:05:33,680
here and there

134
00:05:38,550 --> 00:05:34,800
um

135
00:05:40,790 --> 00:05:38,560
so it's not something you can spoof it's

136
00:05:43,110 --> 00:05:40,800
the the glorious thing about it and it's

137
00:05:45,270 --> 00:05:43,120
available on the internet to look up is

138
00:05:49,270 --> 00:05:45,280

that it takes all the stuff it's

139

00:05:51,029 --> 00:05:49,280

connected to and makes one giant picture

140

00:05:52,950 --> 00:05:51,039

so you're

141

00:05:55,590 --> 00:05:52,960

unlikely to fool it but the big thing is

142

00:05:56,629 --> 00:05:55,600

the cec is not a radar

143

00:06:00,070 --> 00:05:56,639

guys

144

00:06:02,070 --> 00:06:00,080

gary yeah it also has systems on it that

145

00:06:04,870 --> 00:06:02,080

are already written into it that

146

00:06:06,629 --> 00:06:04,880

if data doesn't correlate with what it

147

00:06:08,629 --> 00:06:06,639

thinks it should be

148

00:06:11,110 --> 00:06:08,639

um it will

149

00:06:12,629 --> 00:06:11,120

not use it so like say one of the links

150

00:06:14,629 --> 00:06:12,639

was uh

151

00:06:16,629 --> 00:06:14,639

you know like one of the links coming

152

00:06:17,909 --> 00:06:16,639

from one of the ships was just corrupted

153

00:06:19,430 --> 00:06:17,919

like you know say there was something

154

00:06:21,189 --> 00:06:19,440

wrong with the cec

155

00:06:24,550 --> 00:06:21,199

and it was sending a bunch of bad

156

00:06:26,550 --> 00:06:24,560

information it would just drop that link

157

00:06:28,230 --> 00:06:26,560

it doesn't need that link to make the

158

00:06:29,830 --> 00:06:28,240

picture it just needs

159

00:06:32,230 --> 00:06:29,840

all of the other links that it has you

160

00:06:33,510 --> 00:06:32,240

know basically any one link it's not

161

00:06:35,430 --> 00:06:33,520

dependent on

162

00:06:37,909 --> 00:06:35,440

so it's cool it's it's collaborating the

163

00:06:39,909 --> 00:06:37,919

information amongst everything connected

164

00:06:41,189 --> 00:06:39,919

to it and that's how it's making its

165

00:06:43,990 --> 00:06:41,199

picture

166

00:06:48,950 --> 00:06:46,870

so with cc it can't be spoofed because

167

00:06:50,790 --> 00:06:48,960

it's not it's not something to spoof

168

00:06:52,150 --> 00:06:50,800

it's just it's a data link system it's

169

00:06:54,230 --> 00:06:52,160

not a uh

170

00:06:55,830 --> 00:06:54,240

it's not a radar

171

00:06:58,230 --> 00:06:55,840

cool no thanks for that

172

00:07:01,110 --> 00:06:58,240

next question biggest philosophical

173

00:07:03,670 --> 00:07:01,120

question has to be intent why with such

174

00:07:06,790 --> 00:07:03,680

superior capabilities have these craft

175

00:07:08,870 --> 00:07:06,800

allowed themselves to be seen

176

00:07:10,469 --> 00:07:08,880

well i think uh starting with with our

177

00:07:13,430 --> 00:07:10,479

invention of radar they've never

178

00:07:16,469 --> 00:07:13,440

intended us to see them um i think it's

179

00:07:19,029 --> 00:07:16,479

just uh as our capabilities become more

180

00:07:20,710 --> 00:07:19,039

and more advanced we're able to

181

00:07:21,990 --> 00:07:20,720

we're just able to see them it's kind of

182

00:07:23,270 --> 00:07:22,000

like uh

183

00:07:26,150 --> 00:07:23,280

you know

184

00:07:27,909 --> 00:07:26,160

before we invented am and fm radio we

185

00:07:29,430 --> 00:07:27,919

couldn't transmit over those frequencies

186

00:07:32,469 --> 00:07:29,440

we didn't even know they existed you

187

00:07:33,909 --> 00:07:32,479

know so once we're able to then it just

188

00:07:36,469 --> 00:07:33,919

brings us into another realm of

189

00:07:39,110 --> 00:07:36,479

existence so

190

00:07:42,070 --> 00:07:39,120

so to expand on that then why when

191

00:07:43,830 --> 00:07:42,080

commander favor and i'll use the word

192

00:07:46,309 --> 00:07:43,840

engaged that might be wrong at one of

193

00:07:48,070 --> 00:07:46,319

these craft and as he commented he came

194

00:07:50,469 --> 00:07:48,080

down towards it and it came up towards

195

00:07:52,869 --> 00:07:50,479

him why didn't this thing just shoot off

196

00:07:54,950 --> 00:07:52,879

at that point

197

00:07:57,189 --> 00:07:54,960

well um they're probably for the same

198

00:07:59,350 --> 00:07:57,199

reason if you know i got into a fight

199

00:08:01,029 --> 00:07:59,360

with a kid you know if i got into an

200

00:08:02,869 --> 00:08:01,039

actual fist fight with a kid i wouldn't

201

00:08:04,309 --> 00:08:02,879

hurt him you know i wouldn't even you

202

00:08:06,790 --> 00:08:04,319

know i would just do everything i could

203

00:08:09,270 --> 00:08:06,800

to avoid them because of how much damage

204

00:08:12,550 --> 00:08:09,280

i could do to that child you know i mean

205

00:08:14,550 --> 00:08:12,560

well why if they are

206

00:08:16,790 --> 00:08:14,560

you know actually malevolent or they're

207

00:08:19,189 --> 00:08:16,800

not if they are non-hostile that would

208

00:08:21,430 --> 00:08:19,199

explain why they don't do anything to us

209

00:08:23,749 --> 00:08:21,440

if it's reverse engineered technology or

210

00:08:25,350 --> 00:08:23,759

if it's our technology and it's our

211

00:08:27,909 --> 00:08:25,360

people that would also explain why they

212

00:08:29,589 --> 00:08:27,919

didn't do anything so you know it bodes

213

00:08:32,389 --> 00:08:29,599

bodes

214

00:08:33,350 --> 00:08:32,399

okay either way but yeah it's it's a

215

00:08:35,029 --> 00:08:33,360

question

216

00:08:37,269 --> 00:08:35,039

that definitely is staying in the philos

217

00:08:38,550 --> 00:08:37,279

philosophical realm because i don't

218

00:08:40,790 --> 00:08:38,560

think there's a

219

00:08:43,110 --> 00:08:40,800

good solid answer for it until we

220

00:08:45,430 --> 00:08:43,120

understand and identify the actual

221

00:08:47,990 --> 00:08:45,440

objects themselves

222

00:08:50,310 --> 00:08:48,000

so uh here's one for pj one of the

223

00:08:52,470 --> 00:08:50,320

listeners has mentioned the uap task

224

00:08:53,190 --> 00:08:52,480

force will apparently have more power

225

00:08:55,990 --> 00:08:53,200

than

226

00:08:57,829 --> 00:08:56,000

did um but do you think the

227

00:09:00,150 --> 00:08:57,839

these programs

228

00:09:01,829 --> 00:09:00,160

could just get closed out of things like

229

00:09:03,829 --> 00:09:01,839

lou was back in the atep days

230

00:09:05,509 --> 00:09:03,839

potentially or do you think they're

231

00:09:09,110 --> 00:09:05,519

going to be allowed to actually do some

232

00:09:10,389 --> 00:09:09,120

digging in and making real progress

233

00:09:13,190 --> 00:09:10,399

i don't doubt that there's gonna be

234

00:09:14,710 --> 00:09:13,200

stuff they don't have access to it's

235

00:09:16,150 --> 00:09:14,720

it's the way the government works it's

236

00:09:18,230 --> 00:09:16,160

the way

237

00:09:20,630 --> 00:09:18,240

the military works

238

00:09:22,310 --> 00:09:20,640

i know a secret you don't you don't need

239

00:09:23,750 --> 00:09:22,320

to know the secret that i know so i'm

240

00:09:26,389 --> 00:09:23,760

not going to tell you

241

00:09:28,150 --> 00:09:26,399

you know it's

242

00:09:30,710 --> 00:09:28,160

i may have a top secret clearance but

243

00:09:33,350 --> 00:09:30,720

that doesn't mean i can know

244

00:09:35,269 --> 00:09:33,360

every top secret item in the government

245

00:09:37,910 --> 00:09:35,279

you know just because

246

00:09:40,150 --> 00:09:37,920

the uap task force is given

247

00:09:41,670 --> 00:09:40,160

a top secret clearance for access to top

248

00:09:43,190 --> 00:09:41,680

secret information

249

00:09:45,910 --> 00:09:43,200

doesn't mean they're going to get to

250

00:09:47,829 --> 00:09:45,920

know everything you know say

251

00:09:50,310 --> 00:09:47,839

a cruiser

252

00:09:52,389 --> 00:09:50,320

i'm just going to use the princeton

253

00:09:55,509 --> 00:09:52,399

seize this again

254

00:09:58,470 --> 00:09:55,519

that uap task force isn't gonna know the

255

00:10:00,550 --> 00:09:58,480

the princeton saw the objects again

256

00:10:02,069 --> 00:10:00,560

unless somebody tells them

257

00:10:03,190 --> 00:10:02,079

you know unless there's a reporting

258

00:10:05,910 --> 00:10:03,200

process

259

00:10:08,069 --> 00:10:05,920

and the government and military is too

260

00:10:09,670 --> 00:10:08,079

big of a bureaucracy to get all that

261

00:10:14,150 --> 00:10:09,680

stuff to uh

262

00:10:17,430 --> 00:10:16,230

join you without gotti

263

00:10:19,670 --> 00:10:17,440

yeah the only thing i'd really add to

264

00:10:22,630 --> 00:10:19,680

that is the simple fact that i mean just

265

00:10:25,190 --> 00:10:22,640

go to a simple foia request unless you

266

00:10:28,310 --> 00:10:25,200

specifically ask exactly

267

00:10:30,550 --> 00:10:28,320

in the right exact words and terminology

268

00:10:32,470 --> 00:10:30,560

for what you want from them

269

00:10:33,430 --> 00:10:32,480

they'll give you [h__h] back

270

00:10:35,509 --> 00:10:33,440

so

271

00:10:37,269 --> 00:10:35,519

unless they know the exact questions to

272

00:10:38,790 --> 00:10:37,279

ask they may never get the right

273

00:10:40,630 --> 00:10:38,800

information

274

00:10:42,790 --> 00:10:40,640

uh wonderlasters wanted to know what

275

00:10:45,670 --> 00:10:42,800

level of disclosure or admission would

276

00:10:49,030 --> 00:10:45,680

it take for for these events to make it

277

00:10:53,670 --> 00:10:51,190

wow that's a freaking awesome question

278

00:10:57,110 --> 00:10:53,680

um i think

279

00:10:58,870 --> 00:10:57,120

oddly i think uapx expedition when we go

280

00:11:00,550 --> 00:10:58,880

out there and we record these things and

281

00:11:02,069 --> 00:11:00,560

some really smart people stand up and

282

00:11:03,190 --> 00:11:02,079

say this is what i saw and here's my

283

00:11:05,350 --> 00:11:03,200

proof

284

00:11:07,030 --> 00:11:05,360

i don't think there will be any option

285

00:11:08,949 --> 00:11:07,040

at that point it'll have to be

286

00:11:10,230 --> 00:11:08,959

acknowledged

287

00:11:11,990 --> 00:11:10,240

that's the whole point of our mission i

288

00:11:13,509 --> 00:11:12,000

think you're failing that then under the

289

00:11:15,110 --> 00:11:13,519

scientific you know side of things

290

00:11:16,949 --> 00:11:15,120

aren't you that this is this is science

291

00:11:18,949 --> 00:11:16,959

that is science fact here's the data

292

00:11:20,790 --> 00:11:18,959

here's the experiments we've done and

293

00:11:24,069 --> 00:11:20,800

here's the results off the back of it so

294

00:11:26,230 --> 00:11:24,079

it's irrefutable proof then yeah

295

00:11:28,230 --> 00:11:26,240

yep exactly and uh

296

00:11:29,509 --> 00:11:28,240

in overdue to tell us what we saw you

297

00:11:31,030 --> 00:11:29,519

know that's the whole idea we're gonna

298

00:11:32,470 --> 00:11:31,040

gather all this data and then give it to

299

00:11:34,310 --> 00:11:32,480

some other really smart people to tell

300

00:11:35,829 --> 00:11:34,320

us what we just saw

301
00:11:37,670 --> 00:11:35,839
yeah and we'll make the school books so

302
00:11:39,590 --> 00:11:37,680
we'll make the history books

303
00:11:40,310 --> 00:11:39,600
and i think that deep down on the side i

304
00:11:42,630 --> 00:11:40,320
think

305
00:11:43,910 --> 00:11:42,640
it will it is going to change it end up

306
00:11:45,910 --> 00:11:43,920
changing the world

307
00:11:47,430 --> 00:11:45,920
i really do

308
00:11:48,870 --> 00:11:47,440
i think for some of us it has changed

309
00:11:50,949 --> 00:11:48,880
the world and even for guys like you

310
00:11:52,870 --> 00:11:50,959
it's affected your life so so yeah i

311
00:11:54,710 --> 00:11:52,880
think we're starting to see that kind of

312
00:11:57,430 --> 00:11:54,720
the cracks appearing in a really good

313
00:11:59,910 --> 00:11:57,440

way um gary the next question was for

314

00:12:01,990 --> 00:11:59,920

you um how certain are you that the

315

00:12:04,069 --> 00:12:02,000

object you saw through the big eyes were

316

00:12:07,190 --> 00:12:04,079

the ones being tracked on radar and did

317

00:12:12,710 --> 00:12:09,750

um i'm 100 certain that the objects that

318

00:12:13,750 --> 00:12:12,720

i saw were uh as far as out we were and

319

00:12:17,030 --> 00:12:13,760

that the

320

00:12:18,790 --> 00:12:17,040

there they it could have couldn't have

321

00:12:19,910 --> 00:12:18,800

been anything else

322

00:12:21,590 --> 00:12:19,920

um

323

00:12:22,949 --> 00:12:21,600

timing was perfect

324

00:12:24,629 --> 00:12:22,959

i mean we're only talking the difference

325

00:12:26,150 --> 00:12:24,639

of minutes from the time i go from

326

00:12:28,629 --> 00:12:26,160

combat to

327

00:12:30,790 --> 00:12:28,639

up to the big guys so i mean it's not a

328

00:12:32,790 --> 00:12:30,800

whole lot of time so

329

00:12:34,629 --> 00:12:32,800

um

330

00:12:36,629 --> 00:12:34,639

not unless every single time the same

331

00:12:38,710 --> 00:12:36,639

exact object just happened to be there

332

00:12:40,710 --> 00:12:38,720

at the same elevation and bearing every

333

00:12:43,110 --> 00:12:40,720

single time i went to go look at it

334

00:12:45,990 --> 00:12:43,120

you know and granted

335

00:12:48,150 --> 00:12:46,000

even half the time we we were too far

336

00:12:49,590 --> 00:12:48,160

away from them we've so to see them half

337

00:12:51,269 --> 00:12:49,600

the time so

338

00:12:56,629 --> 00:12:51,279

uh

339

00:12:58,310 --> 00:12:56,639

know any time they did move it depends

340

00:12:59,750 --> 00:12:58,320

on the angle that we were at versus

341

00:13:01,990 --> 00:12:59,760

where they were at and which way what

342

00:13:03,590 --> 00:13:02,000

vector that they went at so if they were

343

00:13:05,829 --> 00:13:03,600

going you know

344

00:13:07,269 --> 00:13:05,839

uh you know parallel with us i could see

345

00:13:09,829 --> 00:13:07,279

them move but if they were going you

346

00:13:12,069 --> 00:13:09,839

know toward us then you know other than

347

00:13:14,629 --> 00:13:12,079

see them get a little bit brighter or or

348

00:13:17,269 --> 00:13:14,639

just disappear and that was basically

349

00:13:19,350 --> 00:13:17,279

all i could see through the big guys

350

00:13:21,750 --> 00:13:19,360

um it wasn't until i saw the video

351

00:13:23,990 --> 00:13:21,760

itself that i really got the the good

352

00:13:25,430 --> 00:13:24,000

eyeball full of exactly what this thing

353

00:13:27,910 --> 00:13:25,440

i've been i've been looking at through

354

00:13:30,150 --> 00:13:27,920

the big eyes really looked like so

355

00:13:32,710 --> 00:13:30,160

you know it's uh i am

356

00:13:34,870 --> 00:13:32,720

to me i'm 100 certain the things i saw

357

00:13:37,269 --> 00:13:34,880

through the big eyes were exactly what

358

00:13:38,870 --> 00:13:37,279

we were tracking

359

00:13:40,230 --> 00:13:38,880

it was it was funny though that the way

360

00:13:41,990 --> 00:13:40,240

different people would think about these

361

00:13:44,389 --> 00:13:42,000

incidents because jeremy mcgowan

362

00:13:46,790 --> 00:13:44,399

mentioned when i interviewed him that

363

00:13:48,310 --> 00:13:46,800

until he spoke to luella zondo about the

364

00:13:50,550 --> 00:13:48,320

incident that had happened years before

365

00:13:53,189 --> 00:13:50,560

in the middle of the desert in jordan

366

00:13:55,350 --> 00:13:53,199

he thought it was one object in the sky

367

00:13:56,870 --> 00:13:55,360

that was repeating the same cycle and

368

00:13:58,949 --> 00:13:56,880

apparently it wasn't until louise

369

00:14:00,629 --> 00:13:58,959

elizondo asked him is there any chance

370

00:14:02,470 --> 00:14:00,639

that these were multiple objects just

371

00:14:05,189 --> 00:14:02,480

following the same path

372

00:14:08,069 --> 00:14:05,199

that he actually had the idea that ah

373

00:14:09,910 --> 00:14:08,079

maybe these were multiple contacts i was

374

00:14:12,150 --> 00:14:09,920

seeing and i mean it could have been one

375

00:14:13,670 --> 00:14:12,160

object repeating but then again it could

376

00:14:15,110 --> 00:14:13,680

have been more so but you're quite

377

00:14:17,670 --> 00:14:15,120

certain that it was more than likely

378

00:14:20,069 --> 00:14:17,680

multiple yeah

379

00:14:23,910 --> 00:14:20,079

yeah because we we were tracking them at

380

00:14:26,629 --> 00:14:23,920

the same time um generally if it was one

381

00:14:28,870 --> 00:14:26,639

one object and it was just disappearing

382

00:14:31,030 --> 00:14:28,880

and then reappearing because of how

383

00:14:33,750 --> 00:14:31,040

fast it was going and basically we were

384

00:14:35,350 --> 00:14:33,760

just getting a hit every you know fifth

385

00:14:37,670 --> 00:14:35,360

time on them and that's why it seemed

386

00:14:39,189 --> 00:14:37,680

like it was just disappearing

387

00:14:41,509 --> 00:14:39,199

it it would

388

00:14:43,829 --> 00:14:41,519

we wouldn't be tracking solid objects

389

00:14:45,430 --> 00:14:43,839

across the board you know and being able

390

00:14:46,470 --> 00:14:45,440

to see the path of these objects because

391

00:14:49,110 --> 00:14:46,480

you remember when we first started

392

00:14:50,949 --> 00:14:49,120

tracking them they weren't going fast at

393

00:14:52,470 --> 00:14:50,959

all matter of fact they were doing the

394

00:14:55,189 --> 00:14:52,480

opposite of that they were only doing

395

00:14:56,949 --> 00:14:55,199

100 knots which is ridiculously slow for

396

00:14:59,509 --> 00:14:56,959

a flying object

397

00:15:01,269 --> 00:14:59,519

so i mean that in itself was just odd so

398

00:15:03,590 --> 00:15:01,279

i mean they were not going

399

00:15:05,670 --> 00:15:03,600

amazingly fast we were able to track

400

00:15:07,509 --> 00:15:05,680

them they were you know luckily for us

401
00:15:10,069 --> 00:15:07,519
very solid objects

402
00:15:11,829 --> 00:15:10,079
uh even after we decided that they

403
00:15:13,990 --> 00:15:11,839
couldn't be real and

404
00:15:15,350 --> 00:15:14,000
then tried to see if there was anything

405
00:15:17,030 --> 00:15:15,360
wrong with our systems there was nothing

406
00:15:18,470 --> 00:15:17,040
wrong with our systems so when we

407
00:15:20,870 --> 00:15:18,480
brought them all back up

408
00:15:23,670 --> 00:15:20,880
sure enough they were all still there

409
00:15:25,990 --> 00:15:23,680
so it was uh

410
00:15:29,670 --> 00:15:26,000
it was definitely a hundred percent a

411
00:15:31,910 --> 00:15:29,680
you know real solid multiple objects uh

412
00:15:34,150 --> 00:15:31,920
you know

413
00:15:36,710 --> 00:15:34,160

there's no way that

414

00:15:37,990 --> 00:15:36,720

i think you know i i am not

415

00:15:39,670 --> 00:15:38,000

i have no

416

00:15:43,110 --> 00:15:39,680

understanding of anything that would be

417

00:15:45,749 --> 00:15:43,120

capable of faking the tracks that we saw

418

00:15:47,350 --> 00:15:45,759

at the time in 2004

419

00:15:49,670 --> 00:15:47,360

i know people have brought up other

420

00:15:50,870 --> 00:15:49,680

systems but just looking how the systems

421

00:15:52,389 --> 00:15:50,880

work

422

00:15:55,829 --> 00:15:52,399

there's no way they could have spoofed

423

00:15:59,269 --> 00:15:55,839

our system even even a gigantic flock of

424

00:16:01,350 --> 00:15:59,279

really cold seagulls or birds would not

425

00:16:03,910 --> 00:16:01,360

even if they were hypersonic seagull

426
00:16:05,910 --> 00:16:03,920
[h__h] [h__h] rockets they wouldn't

427
00:16:06,829 --> 00:16:05,920
they wouldn't have uh

428
00:16:09,910 --> 00:16:06,839
they wouldn't

429
00:16:11,189 --> 00:16:09,920
[h__h] got gotten through our system

430
00:16:13,590 --> 00:16:11,199
i'm just starting to believe the

431
00:16:15,110 --> 00:16:13,600
hypersonic seagull theory so i'll tell

432
00:16:18,470 --> 00:16:15,120
you what the first time i see a [h__h]

433
00:16:20,829 --> 00:16:18,480
hypersonic video i'd be happy

434
00:16:25,590 --> 00:16:23,350
um one of the one of the skill sets for

435
00:16:26,949 --> 00:16:25,600
operation specialists is exactly what

436
00:16:27,990 --> 00:16:26,959
you're asking about being able to

437
00:16:30,389 --> 00:16:28,000
correlate

438
00:16:32,389 --> 00:16:30,399

what we see on radar with what the the

439

00:16:34,629 --> 00:16:32,399

lookouts in this case gary and i saw

440

00:16:36,389 --> 00:16:34,639

visually with our eyeballs

441

00:16:38,150 --> 00:16:36,399

so you know one of my skills has been

442

00:16:40,629 --> 00:16:38,160

doing it for 18 years at the time and

443

00:16:42,550 --> 00:16:40,639

i'm absolutely 110 percent positive that

444

00:16:44,389 --> 00:16:42,560

what i saw on labor

445

00:16:45,829 --> 00:16:44,399

was exactly the object i saw through the

446

00:16:46,710 --> 00:16:45,839

big eyes

447

00:16:48,470 --> 00:16:46,720

and

448

00:16:49,990 --> 00:16:48,480

when i saw it was actually pretty boring

449

00:16:52,150 --> 00:16:50,000

and i was disappointed went back down to

450

00:16:54,710 --> 00:16:52,160

combat i was disappointed

451
00:16:59,110 --> 00:16:57,430
yeah some of the bystanders actually saw

452
00:17:00,389 --> 00:16:59,120
these things maneuver with their eyes

453
00:17:01,269 --> 00:17:00,399
some of the bridgwatch standards and

454
00:17:03,509 --> 00:17:01,279
stuff

455
00:17:05,590 --> 00:17:03,519
sean cahill being one of them

456
00:17:07,189 --> 00:17:05,600
my buddy sean cahill

457
00:17:09,829 --> 00:17:07,199
yeah i spoke to sean k hell about that

458
00:17:12,069 --> 00:17:09,839
back in the second year

459
00:17:14,150 --> 00:17:12,079
not that i don't know don't love having

460
00:17:16,230 --> 00:17:14,160
patrick here but i was actually really

461
00:17:18,870 --> 00:17:16,240
looking forward to actually doing an

462
00:17:20,949 --> 00:17:18,880
interview with him he's uh i've had a

463
00:17:23,189 --> 00:17:20,959

couple of conversations with him

464

00:17:25,350 --> 00:17:23,199

privately and other than that he's a

465

00:17:27,189 --> 00:17:25,360

real interesting cat i'd

466

00:17:29,669 --> 00:17:27,199

yeah definitely somebody i want to get

467

00:17:30,549 --> 00:17:29,679

to know even more than i know uh because

468

00:17:32,390 --> 00:17:30,559

even

469

00:17:33,830 --> 00:17:32,400

you know him as a you know on board

470

00:17:35,430 --> 00:17:33,840

being a higher ranking either being a

471

00:17:37,110 --> 00:17:35,440

lower rank other than running into him

472

00:17:38,950 --> 00:17:37,120

from time to time you don't have a whole

473

00:17:41,669 --> 00:17:38,960

lot of personal interaction with people

474

00:17:43,510 --> 00:17:41,679

with with with him like me and kevin you

475

00:17:45,029 --> 00:17:43,520

know other than you know i knew him i

476
00:17:46,870 --> 00:17:45,039
knew of him he was a you know regular

477
00:17:49,750 --> 00:17:46,880
watch stander so i've had conversations

478
00:17:52,630 --> 00:17:49,760
with him prior but he was a chief i was

479
00:17:54,789 --> 00:17:52,640
a junior enlisted it was not we were not

480
00:17:56,310 --> 00:17:54,799
the same

481
00:17:58,470 --> 00:17:56,320
so it's it's it's a whole different

482
00:18:00,390 --> 00:17:58,480
animal you know we're now when we speak

483
00:18:02,630 --> 00:18:00,400
to each other it's with mutual respect

484
00:18:04,630 --> 00:18:02,640
but back then it's you know you're

485
00:18:05,909 --> 00:18:04,640
you're my junior you do what i need you

486
00:18:07,909 --> 00:18:05,919
to do and you don't need to know

487
00:18:09,430 --> 00:18:07,919
anything else

488
00:18:12,230 --> 00:18:09,440

that's probably how i feel talking to

489

00:18:13,909 --> 00:18:12,240

you guys just now so yeah uh but

490

00:18:17,590 --> 00:18:13,919

next question i will throw out to the

491

00:18:20,070 --> 00:18:17,600

floor um was chad underwood directed to

492

00:18:21,990 --> 00:18:20,080

the tic-tac by the princeton radar or

493

00:18:25,510 --> 00:18:22,000

did he find it on commander fravor's

494

00:18:29,750 --> 00:18:27,750

i think kevin would have rethink that up

495

00:18:33,430 --> 00:18:29,760

uh kevin what they want to know is uh

496

00:18:35,590 --> 00:18:33,440

did you guide him into the area or was

497

00:18:39,350 --> 00:18:35,600

he guided in by our flight control or

498

00:18:41,430 --> 00:18:39,360

was uh he told to go there by fravor

499

00:18:43,430 --> 00:18:41,440

like um

500

00:18:45,510 --> 00:18:43,440

forever was low on fuel so he had to uh

501
00:18:47,750 --> 00:18:45,520
return the base rtb back on the carrier

502
00:18:51,909 --> 00:18:47,760
and uh chad under was getting ready to

503
00:18:53,830 --> 00:18:51,919
take off um for the next flight and uh

504
00:18:55,590 --> 00:18:53,840
fragrance hey chad don't don't forget to

505
00:18:58,150 --> 00:18:55,600
take a nap flare plane so you can film

506
00:18:59,510 --> 00:18:58,160
this thing go find them and reportedly

507
00:19:00,789 --> 00:18:59,520
underwood replied by saying i'm going to

508
00:19:02,549 --> 00:19:00,799
go find those things dump in his

509
00:19:04,549 --> 00:19:02,559
airplane took off and went out there and

510
00:19:07,029 --> 00:19:04,559
found him he um

511
00:19:09,430 --> 00:19:07,039
came up on charlie control our air

512
00:19:11,510 --> 00:19:09,440
intercept control and we took control of

513
00:19:13,110 --> 00:19:11,520

this flight and entered and made sure he

514

00:19:15,430 --> 00:19:13,120

went to the right spot in the sky where

515

00:19:17,270 --> 00:19:15,440

he found him so basically

516

00:19:19,750 --> 00:19:17,280

what they're saying is that

517

00:19:22,390 --> 00:19:19,760

uh fravor's involvement was

518

00:19:25,669 --> 00:19:22,400

to the point of making sure that chad

519

00:19:27,669 --> 00:19:25,679

had the ad clear pod on his aircraft

520

00:19:28,870 --> 00:19:27,679

before he launched

521

00:19:30,630 --> 00:19:28,880

okay and then

522

00:19:32,710 --> 00:19:30,640

we were the ones that guided him into

523

00:19:35,029 --> 00:19:32,720

that area and he then from there he

524

00:19:36,070 --> 00:19:35,039

takes it from there to go look for the

525

00:19:37,909 --> 00:19:36,080

objects

526

00:19:40,070 --> 00:19:37,919

we gave him relative bearing and

527

00:19:42,230 --> 00:19:40,080

direction and then he goes that goes and

528

00:19:43,590 --> 00:19:42,240

gets the eyes on

529

00:19:45,029 --> 00:19:43,600

awesome that's a forward-looking

530

00:19:46,950 --> 00:19:45,039

different radar

531

00:19:49,270 --> 00:19:46,960

that actually forward looking infrared

532

00:19:51,590 --> 00:19:49,280

radar hopefully that breaks it down a

533

00:19:53,669 --> 00:19:51,600

little bit better for you yeah no no

534

00:19:55,590 --> 00:19:53,679

thank you and the next question is along

535

00:19:59,110 --> 00:19:55,600

the similar path but it was actually for

536

00:20:00,630 --> 00:19:59,120

patrick for pj and it was asked on

537

00:20:02,230 --> 00:20:00,640

twitter and i think he said he would

538

00:20:04,149 --> 00:20:02,240

talk about it as much as he could when

539

00:20:05,590 --> 00:20:04,159

he came on the show and so a lot of

540

00:20:08,870 --> 00:20:05,600

debunkers have questioned the

541

00:20:10,870 --> 00:20:08,880

capabilities of the flare and radar can

542

00:20:15,430 --> 00:20:10,880

you talk where possible on what these

543

00:20:19,669 --> 00:20:16,950

well i'm not going to talk about flear

544

00:20:20,870 --> 00:20:19,679

because i'm not a flare guy but as far

545

00:20:22,390 --> 00:20:20,880

as

546

00:20:25,750 --> 00:20:22,400

the radar on the hawkeye which we

547

00:20:29,190 --> 00:20:25,760

tracked and i'll let gary speak on spy

548

00:20:31,750 --> 00:20:29,200

the the way the radars work and there's

549

00:20:33,430 --> 00:20:31,760

multiple radars in use there's a spy

550

00:20:35,909 --> 00:20:33,440

there's a hawkeye radar the fighter

551
00:20:37,430 --> 00:20:35,919
radars the nimitz radars

552
00:20:39,190 --> 00:20:37,440
all of these radars have different

553
00:20:40,950 --> 00:20:39,200
capabilities different

554
00:20:42,230 --> 00:20:40,960
you know

555
00:20:46,830 --> 00:20:42,240
different

556
00:20:49,110 --> 00:20:46,840
know processors they all work

557
00:20:50,630 --> 00:20:49,120
differently and they were all giving us

558
00:20:51,669 --> 00:20:50,640
the same information

559
00:20:54,310 --> 00:20:51,679
you know

560
00:20:57,510 --> 00:20:54,320
the the way the radar on the hawkeye

561
00:20:58,549 --> 00:20:57,520
particularly worked is

562
00:21:01,270 --> 00:20:58,559
it's got

563
00:21:04,470 --> 00:21:01,280

inbuilt processing it was an older radar

564

00:21:07,190 --> 00:21:04,480

but a very modern processor

565

00:21:09,669 --> 00:21:07,200

it's designed to look for that stuff

566

00:21:11,270 --> 00:21:09,679

you know we used to play games with the

567

00:21:13,270 --> 00:21:11,280

prowlers which are jamming aircraft

568

00:21:15,669 --> 00:21:13,280

which are meant to jam aircraft

569

00:21:18,630 --> 00:21:15,679

jam radar specifically and they rarely

570

00:21:20,390 --> 00:21:18,640

were able to jam

571

00:21:22,470 --> 00:21:20,400

the hawkeye's radar because the way the

572

00:21:23,750 --> 00:21:22,480

radar is designed to work

573

00:21:26,390 --> 00:21:23,760

um

574

00:21:27,669 --> 00:21:26,400

i can't elaborate on all of them because

575

00:21:31,430 --> 00:21:27,679

you know a lot of that portion is

576

00:21:32,710 --> 00:21:31,440

classified but it's it's designed to not

577

00:21:34,390 --> 00:21:32,720

get spoofed

578

00:21:36,950 --> 00:21:34,400

you know and

579

00:21:38,230 --> 00:21:36,960

the hawkeye radar can be spoofed if

580

00:21:39,990 --> 00:21:38,240

you're really good and you know what

581

00:21:42,789 --> 00:21:40,000

you're doing

582

00:21:44,950 --> 00:21:42,799

but gary's radar you're not spoofing his

583

00:21:46,070 --> 00:21:44,960

radar has way too many antennas way too

584

00:21:48,149 --> 00:21:46,080

many

585

00:21:50,149 --> 00:21:48,159

i'll let gary speak on that but you're

586

00:21:52,549 --> 00:21:50,159

not fooling that radar you're not

587

00:21:55,590 --> 00:21:52,559

fooling

588

00:21:57,270 --> 00:21:55,600

that this many different radars in use

589

00:21:59,110 --> 00:21:57,280

you know

590

00:22:00,470 --> 00:21:59,120

if it was just one radar i could

591

00:22:03,350 --> 00:22:00,480

understand the

592

00:22:05,669 --> 00:22:03,360

the whole spoofing line of thought but

593

00:22:09,830 --> 00:22:05,679

when you have this many radars in use i

594

00:22:15,190 --> 00:22:12,789

gary you want to speak on spy yeah um

595

00:22:18,390 --> 00:22:15,200

well let's spy i mean

596

00:22:19,590 --> 00:22:18,400

it's not really one radar uh you gotta

597

00:22:20,950 --> 00:22:19,600

remember each one of those hexagonal

598

00:22:24,310 --> 00:22:20,960

panels you see

599

00:22:25,909 --> 00:22:24,320

has x amount of feed horns and each one

600

00:22:27,029 --> 00:22:25,919

each one of those feed horns can be

601
00:22:29,510 --> 00:22:27,039
moved and

602
00:22:31,990 --> 00:22:29,520
moved in any particular direction that

603
00:22:34,230 --> 00:22:32,000
we want and we can actually track

604
00:22:35,750 --> 00:22:34,240
multiple objects which is one panel or

605
00:22:38,870 --> 00:22:35,760
all of the panels

606
00:22:41,909 --> 00:22:38,880
all the panels combined together make it

607
00:22:43,990 --> 00:22:41,919
360 degree view

608
00:22:44,950 --> 00:22:44,000
we can do things like burn through which

609
00:22:47,029 --> 00:22:44,960
is where

610
00:22:50,710 --> 00:22:47,039
we crank up the power and we just

611
00:22:53,350 --> 00:22:50,720
basically focus everything on one spot

612
00:22:55,430 --> 00:22:53,360
and basically it overpowers another

613
00:22:57,830 --> 00:22:55,440

another radar and

614

00:23:01,190 --> 00:22:57,840

for effective purposes jams it uh but

615

00:23:05,110 --> 00:23:02,950

keeps them from being able to use their

616

00:23:07,350 --> 00:23:05,120

radar on us

617

00:23:10,070 --> 00:23:07,360

and then we can also do things like uh

618

00:23:13,110 --> 00:23:10,080

use it as a fcs controller

619

00:23:16,149 --> 00:23:13,120

uh basically it uh we have a different

620

00:23:18,870 --> 00:23:16,159

type of radar dish on board called uh um

621

00:23:22,470 --> 00:23:18,880

it's a fire control uh it's where it's

622

00:23:24,230 --> 00:23:22,480

when you hear when you hear like uh on

623

00:23:26,630 --> 00:23:24,240

movies where they say uh you know light

624

00:23:28,070 --> 00:23:26,640

up the target or paint the target what

625

00:23:30,950 --> 00:23:28,080

they're actually talking about is using

626

00:23:33,430 --> 00:23:30,960

rf energy and bouncing it off of a

627

00:23:35,110 --> 00:23:33,440

specific target so that we can shoot a

628

00:23:38,470 --> 00:23:35,120

missile at it

629

00:23:40,149 --> 00:23:38,480

now the missile itself

630

00:23:42,470 --> 00:23:40,159

interacts with the target because of how

631

00:23:43,269 --> 00:23:42,480

much rf is bouncing off of it it's the

632

00:23:45,909 --> 00:23:43,279

most

633

00:23:48,549 --> 00:23:45,919

radiant rf object in the area so it hits

634

00:23:50,149 --> 00:23:48,559

that target well we can do that with spy

635

00:23:51,269 --> 00:23:50,159

we can do that with multiple objects

636

00:23:54,070 --> 00:23:51,279

with spy

637

00:23:56,630 --> 00:23:54,080

spy is the most was even then the most

638

00:23:57,909 --> 00:23:56,640

powerful radar on the planet

639

00:24:04,549 --> 00:23:57,919

um

640

00:24:07,029 --> 00:24:04,559

radars acts for actual practical use

641

00:24:09,110 --> 00:24:07,039

and not just the uh the prototype that

642

00:24:11,190 --> 00:24:09,120

you've seen on the internet and when you

643

00:24:12,789 --> 00:24:11,200

actually dig into it their prototype is

644

00:24:14,149 --> 00:24:12,799

very very weak

645

00:24:16,710 --> 00:24:14,159

and uh

646

00:24:19,510 --> 00:24:16,720

until quantum radars are in effect there

647

00:24:24,789 --> 00:24:19,520

will be nothing that could spoof a spy

648

00:24:29,750 --> 00:24:26,549

awesome thanks for that gary and thank

649

00:24:30,710 --> 00:24:29,760

you pj um kevin next question was for

650

00:24:32,789 --> 00:24:30,720

yourself

651
00:24:35,269 --> 00:24:32,799
and there's a follow-up for gary too on

652
00:24:37,190 --> 00:24:35,279
the back of it um and i can ask pg the

653
00:24:38,870 --> 00:24:37,200
same if it's relevant

654
00:24:40,789 --> 00:24:38,880
what was the most amazing thing about

655
00:24:44,549 --> 00:24:40,799
the footage you've seen regarding the

656
00:24:48,630 --> 00:24:46,149
the most amazing thing for me is the

657
00:24:50,789 --> 00:24:48,640
fact that it still survived

658
00:24:52,870 --> 00:24:50,799
you know that i was actually down at the

659
00:24:55,350 --> 00:24:52,880
golf course um i had forgotten all about

660
00:24:57,590 --> 00:24:55,360
this even though because i i didn't

661
00:25:00,470 --> 00:24:57,600
relate at all um what happened to me

662
00:25:02,870 --> 00:25:00,480
after i retired and stuff and i didn't

663
00:25:05,669 --> 00:25:02,880

relate it back to this event

664

00:25:07,029 --> 00:25:05,679

um as it turns out that it was the cause

665

00:25:10,070 --> 00:25:07,039

of what some of the stuff i was going

666

00:25:12,470 --> 00:25:11,269

i mean how are you going to figure

667

00:25:13,590 --> 00:25:12,480

something like that out i mean you know

668

00:25:14,950 --> 00:25:13,600

what i mean

669

00:25:16,630 --> 00:25:14,960

and i had forgotten all about that post

670

00:25:17,909 --> 00:25:16,640

my book went on in life and forgot about

671

00:25:19,750 --> 00:25:17,919

this i was down at the golf course i

672

00:25:21,269 --> 00:25:19,760

just reopened the kitchen and

673

00:25:23,029 --> 00:25:21,279

i was watching the golf tournament and

674

00:25:24,870 --> 00:25:23,039

all of a sudden cnn's on

675

00:25:27,669 --> 00:25:24,880

who the hell turned out and then i saw

676
00:25:31,110 --> 00:25:27,679
what was playing it was that freaking

677
00:25:32,710 --> 00:25:31,120
video that i had in my email the very

678
00:25:36,470 --> 00:25:32,720
within hours of this event actually

679
00:25:38,470 --> 00:25:36,480
happening it was exact same fuzzy video

680
00:25:40,470 --> 00:25:38,480
and i was so freaking shocked i dropped

681
00:25:41,750 --> 00:25:40,480
the plate of fish and chips and uh

682
00:25:43,669 --> 00:25:41,760
yelled out to my brother-in-law in the

683
00:25:45,909 --> 00:25:43,679
pro shop hey dave i got to go home i'll

684
00:25:48,149 --> 00:25:45,919
explain later i took off went home got

685
00:25:49,590 --> 00:25:48,159
on the internet and uh robert powell had

686
00:25:52,390 --> 00:25:49,600
already posted something he's from the

687
00:25:55,029 --> 00:25:52,400
scientific coalition ufology i said hey

688
00:25:56,870 --> 00:25:55,039

robert this is kevin day um we've never

689

00:25:58,230 --> 00:25:56,880

met but you got to call me i'm the guy

690

00:26:00,549 --> 00:25:58,240

that was sitting on the radar when this

691

00:26:02,470 --> 00:26:00,559

happened and controlled the intercept

692

00:26:04,710 --> 00:26:02,480

and that's when it all

693

00:26:06,870 --> 00:26:04,720

started happening for me so for me the

694

00:26:08,549 --> 00:26:06,880

the most amazing thing about this is the

695

00:26:09,669 --> 00:26:08,559

fact that we're even talking about this

696

00:26:11,990 --> 00:26:09,679

right now i

697

00:26:14,470 --> 00:26:12,000

i never expected this to happen ever in

698

00:26:16,870 --> 00:26:14,480

a million years i really didn't

699

00:26:20,630 --> 00:26:16,880

gary you feel the same way i mean i had

700

00:26:20,640 --> 00:26:23,269

oh god

701
00:26:27,669 --> 00:26:25,909
well i uh i hadn't moved on i never

702
00:26:30,070 --> 00:26:27,679
moved on um

703
00:26:31,430 --> 00:26:30,080
i've always had my private studies about

704
00:26:32,390 --> 00:26:31,440
what we saw

705
00:26:33,830 --> 00:26:32,400
um

706
00:26:36,149 --> 00:26:33,840
you know

707
00:26:37,750 --> 00:26:36,159
for as much as that's ever gonna you

708
00:26:39,430 --> 00:26:37,760
know get me but

709
00:26:41,350 --> 00:26:39,440
i've always tried to figure out what

710
00:26:43,190 --> 00:26:41,360
they are how they worked

711
00:26:44,870 --> 00:26:43,200
what kind of propulsion that they use

712
00:26:46,230 --> 00:26:44,880
what kind of you know how how it could

713
00:26:47,830 --> 00:26:46,240

be possible

714

00:26:49,750 --> 00:26:47,840

for those objects to have done what they

715

00:26:51,510 --> 00:26:49,760

could do um

716

00:26:52,390 --> 00:26:51,520

these are the questions that have

717

00:26:54,710 --> 00:26:52,400

basically

718

00:26:55,669 --> 00:26:54,720

made my head hurt for almost 20 years

719

00:26:57,269 --> 00:26:55,679

now

720

00:26:58,789 --> 00:26:57,279

so

721

00:27:01,110 --> 00:26:58,799

yeah

722

00:27:03,430 --> 00:27:01,120

and gary your follow-up on that one was

723

00:27:05,669 --> 00:27:03,440

um is it possible that what gary saw in

724

00:27:09,510 --> 00:27:05,679

the longer tic tac video was a different

725

00:27:14,630 --> 00:27:11,590

uh from what i understand now

726
00:27:15,990 --> 00:27:14,640
um but then again i'm also hearing that

727
00:27:17,830 --> 00:27:16,000
they've had

728
00:27:21,110 --> 00:27:17,840
that there is a possibility that they

729
00:27:22,470 --> 00:27:21,120
have multiple films from multiple planes

730
00:27:25,190 --> 00:27:22,480
that were in the air

731
00:27:27,430 --> 00:27:25,200
um i think that he may have i think the

732
00:27:30,310 --> 00:27:27,440
rest of the films are all gun

733
00:27:33,269 --> 00:27:30,320
gun footage films from the gun cameras

734
00:27:35,669 --> 00:27:33,279
and not from the at-flear pods but uh

735
00:27:37,029 --> 00:27:35,679
what i saw was basically from what i

736
00:27:39,190 --> 00:27:37,039
understand he was the only one with a

737
00:27:42,630 --> 00:27:39,200
nat clear pod so it would have had to

738
00:27:47,110 --> 00:27:44,710

but there is a possibility

739

00:27:49,110 --> 00:27:47,120

i i didn't see like a label it didn't

740

00:27:50,789 --> 00:27:49,120

say underwood on on the screen or

741

00:27:52,149 --> 00:27:50,799

anything like that nor was i really

742

00:27:53,350 --> 00:27:52,159

paying attention to that part of the

743

00:27:55,269 --> 00:27:53,360

screen i was

744

00:27:57,269 --> 00:27:55,279

pretty much eyes locked on the object

745

00:27:58,710 --> 00:27:57,279

that was you know the focus of this

746

00:28:00,789 --> 00:27:58,720

video so

747

00:28:02,789 --> 00:28:00,799

uh any any of the data that was running

748

00:28:05,830 --> 00:28:02,799

along the edges of the screen which was

749

00:28:06,950 --> 00:28:05,840

a lot of data i wouldn't have

750

00:28:09,510 --> 00:28:06,960

i wouldn't have i wouldn't have

751
00:28:12,310 --> 00:28:09,520
remembered exactly what it said so the

752
00:28:14,389 --> 00:28:12,320
only thing i remember is just

753
00:28:17,830 --> 00:28:14,399
how numb my brain went seeing this

754
00:28:21,350 --> 00:28:19,750
next question again i'll put out to

755
00:28:23,110 --> 00:28:21,360
whoever it's more relevant to answer but

756
00:28:25,430 --> 00:28:23,120
you can all come in of course did the

757
00:28:27,990 --> 00:28:25,440
craft seen underwater also head to

758
00:28:30,149 --> 00:28:28,000
catalina islands and did any of you see

759
00:28:34,950 --> 00:28:30,159
the tic tacs enter the water when they

760
00:28:38,789 --> 00:28:37,350
i i didn't in fact when this happened it

761
00:28:40,789 --> 00:28:38,799
wasn't my

762
00:28:42,789 --> 00:28:40,799
situational awareness whatsoever

763
00:28:45,110 --> 00:28:42,799

anything went into the water i saw this

764

00:28:48,149 --> 00:28:45,120

thing dropped from 28 000 feet on radar

765

00:28:50,789 --> 00:28:48,159

down to 50 feet and just hover there

766

00:28:52,310 --> 00:28:50,799

now others have testimony saying these

767

00:28:53,350 --> 00:28:52,320

objects went into the water and i you

768

00:28:57,190 --> 00:28:53,360

know what

769

00:28:59,350 --> 00:28:57,200

that's their testimony and uh i

770

00:29:01,110 --> 00:28:59,360

um at some point maybe some evidence

771

00:29:02,789 --> 00:29:01,120

will come out the same as it's coming

772

00:29:05,430 --> 00:29:02,799

out now with the different radar systems

773

00:29:06,789 --> 00:29:05,440

and uh other witnesses coming forward

774

00:29:09,029 --> 00:29:06,799

maybe that same thing will happen with

775

00:29:12,950 --> 00:29:09,039

the subsurface contact too

776

00:29:17,669 --> 00:29:14,470

with this question so go for it all

777

00:29:20,070 --> 00:29:17,679

right so so i know that the pilots

778

00:29:21,830 --> 00:29:20,080

reported seeing a very large object

779

00:29:24,789 --> 00:29:21,840

under water and that the tic tacs were

780

00:29:28,470 --> 00:29:24,799

interacting with that object

781

00:29:30,870 --> 00:29:28,480

um so we do have one confirmed report of

782

00:29:33,269 --> 00:29:30,880

at least one object being underwater uh

783

00:29:35,350 --> 00:29:33,279

direction bearing i have no idea which

784

00:29:37,190 --> 00:29:35,360

way it would went which way it went i

785

00:29:39,110 --> 00:29:37,200

know that it wasn't there at a certain

786

00:29:40,389 --> 00:29:39,120

point um

787

00:29:42,789 --> 00:29:40,399

and then

788

00:29:44,950 --> 00:29:42,799

the uh like in the in the unidentified

789

00:29:46,230 --> 00:29:44,960

episode where they had my interview they

790

00:29:50,710 --> 00:29:46,240

you know they

791

00:29:53,430 --> 00:29:50,720

a track that was over 500 knots under

792

00:29:55,990 --> 00:29:53,440

the water but what they cut off that uh

793

00:29:56,870 --> 00:29:56,000

and and so nicely edited was the fact

794

00:29:58,070 --> 00:29:56,880

that i

795

00:30:00,310 --> 00:29:58,080

literally said

796

00:30:01,269 --> 00:30:00,320

prior to that and after the comment that

797

00:30:06,710 --> 00:30:01,279

uh

798

00:30:08,950 --> 00:30:06,720

another another sailor which i have yet

799

00:30:10,710 --> 00:30:08,960

to be able to get a hold of and verify

800

00:30:13,190 --> 00:30:10,720

this for a hundred percent

801

00:30:15,830 --> 00:30:13,200

um i'd feel i've had one of the other

802

00:30:16,789 --> 00:30:15,840

sonar technicians that i do know and

803

00:30:18,310 --> 00:30:16,799

trust

804

00:30:20,070 --> 00:30:18,320

uh kind of tell me something

805

00:30:21,669 --> 00:30:20,080

contradictory that

806

00:30:23,430 --> 00:30:21,679

um if

807

00:30:25,350 --> 00:30:23,440

there were tracks it wasn't from the

808

00:30:27,510 --> 00:30:25,360

princeton i know that for a fact the

809

00:30:29,909 --> 00:30:27,520

princeton didn't track it underwater in

810

00:30:31,750 --> 00:30:29,919

any way shape or form that if there were

811

00:30:33,350 --> 00:30:31,760

underwater tracks they had would have

812

00:30:35,350 --> 00:30:33,360

had to come from either the sub the

813

00:30:37,990 --> 00:30:35,360

carrier or some other

814

00:30:40,630 --> 00:30:38,000

uh ship that was in the area

815

00:30:42,310 --> 00:30:40,640

we did not have our sonar buoys out we

816

00:30:45,990 --> 00:30:42,320

didn't have our tail in the water which

817

00:30:48,470 --> 00:30:46,000

which means that it's a a long sonar

818

00:30:50,789 --> 00:30:48,480

buoy tail that we drag so that we can

819

00:30:52,870 --> 00:30:50,799

triangulate and track

820

00:30:55,669 --> 00:30:52,880

objects through the water and that's the

821

00:30:57,430 --> 00:30:55,679

only way we would have been able to uh

822

00:30:59,430 --> 00:30:57,440

have have known what the speed of

823

00:31:01,590 --> 00:30:59,440

something was with sonar

824

00:31:02,870 --> 00:31:01,600

so because we didn't have that tail in

825

00:31:04,710 --> 00:31:02,880

the water

826

00:31:06,710 --> 00:31:04,720

we could the princeton would never have

827

00:31:08,549 --> 00:31:06,720

been able to tell you whether it was 500

828

00:31:10,789 --> 00:31:08,559

knots into the water so if that

829

00:31:11,830 --> 00:31:10,799

information was accurate that i received

830

00:31:14,470 --> 00:31:11,840

from

831

00:31:17,430 --> 00:31:14,480

a uh right now i'm not gonna

832

00:31:19,509 --> 00:31:17,440

i'm not gonna name the source but

833

00:31:20,789 --> 00:31:19,519

it was uh it would have had to have come

834

00:31:23,190 --> 00:31:20,799

from one of the other ships in the

835

00:31:25,509 --> 00:31:23,200

battle group

836

00:31:27,029 --> 00:31:25,519

awesome but it's it's still unconfirmed

837

00:31:28,789 --> 00:31:27,039

so i mean that's

838

00:31:30,630 --> 00:31:28,799

take it for what you will um i

839

00:31:33,669 --> 00:31:30,640

personally believe it

840

00:31:36,630 --> 00:31:33,679

but i don't i i have zero proof

841

00:31:38,310 --> 00:31:36,640

i i'll be dead honest with that until i

842

00:31:40,549 --> 00:31:38,320

can get the particular person that told

843

00:31:43,430 --> 00:31:40,559

me about it to come out about it it is

844

00:31:44,870 --> 00:31:43,440

uh i have zero proof so

845

00:31:46,389 --> 00:31:44,880

take it with a grain of salt until we

846

00:31:48,149 --> 00:31:46,399

have better proof

847

00:31:49,990 --> 00:31:48,159

no i appreciate that listen to the next

848

00:31:52,549 --> 00:31:50,000

question is one of the longer ones it

849

00:31:55,269 --> 00:31:52,559

was sent over by jazz shaw and who many

850

00:31:57,190 --> 00:31:55,279

will know from from ufo twitter um i'll

851
00:31:59,190 --> 00:31:57,200
read through it and you might want to

852
00:32:00,710 --> 00:31:59,200
take some notes

853
00:32:02,549 --> 00:32:00,720
so some of us have recently been

854
00:32:05,110 --> 00:32:02,559
reviewing the original nimitz encounter

855
00:32:07,430 --> 00:32:05,120
interviews with a specific focus on

856
00:32:09,029 --> 00:32:07,440
gaining some perspective on two and on

857
00:32:10,630 --> 00:32:09,039
the two individuals who showed up to

858
00:32:12,389 --> 00:32:10,640
collect the data bricks after the

859
00:32:14,950 --> 00:32:12,399
encounter pg i know that's something

860
00:32:16,789 --> 00:32:14,960
you've talked on um i asked this

861
00:32:18,789 --> 00:32:16,799
question as a former radar tech who

862
00:32:21,590 --> 00:32:18,799
served on two carriers out of san diego

863
00:32:23,830 --> 00:32:21,600

back in the day um was always in cic so

864

00:32:25,669 --> 00:32:23,840

i don't shy away from the geek talk and

865

00:32:27,509 --> 00:32:25,679

for those i've been speaking to the guys

866

00:32:29,110 --> 00:32:27,519

about on the show and the listeners this

867

00:32:30,389 --> 00:32:29,120

is some of the language that i was like

868

00:32:32,470 --> 00:32:30,399

what so i'm hoping the guys will

869

00:32:34,070 --> 00:32:32,480

understand this and i'm sure they will

870

00:32:36,149 --> 00:32:34,080

and some of those interviews gary

871

00:32:37,190 --> 00:32:36,159

verrhas described them as two guys in

872

00:32:40,950 --> 00:32:37,200

suits

873

00:32:43,029 --> 00:32:40,960

whatever uniform or clothes they had on

874

00:32:44,710 --> 00:32:43,039

underneath the interviewer seemed to

875

00:32:46,470 --> 00:32:44,720

later interpret this as meaning they

876
00:32:48,070 --> 00:32:46,480
might be civilians but that wasn't clear

877
00:32:49,590 --> 00:32:48,080
from the original answer

878
00:32:51,430 --> 00:32:49,600
jason turner has said he doesn't

879
00:32:52,789 --> 00:32:51,440
remember seeing the helicopters land and

880
00:32:54,310 --> 00:32:52,799
didn't see them

881
00:32:57,110 --> 00:32:54,320
and i'm going to butcher the surname

882
00:32:59,029 --> 00:32:57,120
here potentially but is it ryan veget

883
00:33:01,350 --> 00:32:59,039
originally described them as a couple of

884
00:33:03,190 --> 00:33:01,360
air force guys and plain flight suits

885
00:33:05,509 --> 00:33:03,200
they are saying they are plain green

886
00:33:06,950 --> 00:33:05,519
flight suits with no names or insignia

887
00:33:08,950 --> 00:33:06,960
doesn't say how he knew they were air

888
00:33:11,269 --> 00:33:08,960

force but later says absolutely air

889

00:33:13,830 --> 00:33:11,279

force based on a glimpse of the uniforms

890

00:33:15,909 --> 00:33:13,840

he could see under the jumpsuits with no

891

00:33:18,310 --> 00:33:15,919

infect with no offense at it intended

892

00:33:20,470 --> 00:33:18,320

i've worn those jumpsuits for hilo trips

893

00:33:22,149 --> 00:33:20,480

between ships and from ship to shore

894

00:33:23,909 --> 00:33:22,159

they don't show a lot of your uniform

895

00:33:26,470 --> 00:33:23,919

that's an awfully tiny detail to

896

00:33:27,830 --> 00:33:26,480

remember 15 years later when you say

897

00:33:29,830 --> 00:33:27,840

that you originally didn't find the

898

00:33:32,230 --> 00:33:29,840

encounter all that interesting until

899

00:33:34,470 --> 00:33:32,240

other people came forward

900

00:33:36,230 --> 00:33:34,480

wondering what level of certainty we

901
00:33:38,470 --> 00:33:36,240
have that they were definitely our force

902
00:33:40,630 --> 00:33:38,480
and not navy or possibly even civilian

903
00:33:43,269 --> 00:33:40,640
government that came on board it doesn't

904
00:33:46,230 --> 00:33:43,279
take that long to fly out from

905
00:33:47,669 --> 00:33:46,240
coronado out to that operating area and

906
00:33:49,909 --> 00:33:47,679
i would like to ask

907
00:33:51,909 --> 00:33:49,919
what the guys think potentially about

908
00:33:53,509 --> 00:33:51,919
this situation and by the way i served

909
00:33:55,509 --> 00:33:53,519
on the corny and ranger out of north

910
00:33:57,590 --> 00:33:55,519
point and was a tad to the kitty hawk a

911
00:33:59,269 --> 00:33:57,600
couple of times say hi to my fellow

912
00:34:01,110 --> 00:33:59,279
squids for me

913
00:34:02,630 --> 00:34:01,120

that was a bit of a longer question but

914

00:34:03,830 --> 00:34:02,640

pj you might want to comment on that one

915

00:34:05,750 --> 00:34:03,840

i think

916

00:34:07,669 --> 00:34:05,760

yeah i know gary's got his own part

917

00:34:09,270 --> 00:34:07,679

because um

918

00:34:10,230 --> 00:34:09,280

our experiences are the same but

919

00:34:11,510 --> 00:34:10,240

different

920

00:34:12,790 --> 00:34:11,520

you know

921

00:34:13,829 --> 00:34:12,800

i understand what the gentleman is

922

00:34:14,869 --> 00:34:13,839

saying

923

00:34:16,710 --> 00:34:14,879

you know when they get off the

924

00:34:18,389 --> 00:34:16,720

helicopter they have rubber duckies on

925

00:34:22,230 --> 00:34:18,399

they have a helmet on they have goggles

926
00:34:24,710 --> 00:34:22,240
on it covers up all that stuff

927
00:34:26,869 --> 00:34:24,720
rubber ducky being a uh life jacket a

928
00:34:29,430 --> 00:34:26,879
life preserver um

929
00:34:31,990 --> 00:34:29,440
by the time they made it to me

930
00:34:33,109 --> 00:34:32,000
they didn't have any of that stuff off

931
00:34:35,190 --> 00:34:33,119
or on

932
00:34:37,109 --> 00:34:35,200
they just had

933
00:34:39,510 --> 00:34:37,119
their flight suits

934
00:34:41,909 --> 00:34:39,520
a navy flight suit is green and air

935
00:34:45,030 --> 00:34:41,919
force flight suit is green but the

936
00:34:48,230 --> 00:34:45,040
insignia the patches the color of the

937
00:34:50,550 --> 00:34:48,240
ranks all of that is different and we

938
00:34:53,190 --> 00:34:50,560

get taught that in boot camp you know

939

00:34:55,510 --> 00:34:53,200

that's how ingrained it is in you

940

00:34:56,869 --> 00:34:55,520

to recognize the other services

941

00:34:58,950 --> 00:34:56,879

insignia

942

00:35:01,670 --> 00:34:58,960

they definitely had

943

00:35:03,510 --> 00:35:01,680

at least on my that my end on the nimitz

944

00:35:05,349 --> 00:35:03,520

air force flight suits

945

00:35:07,109 --> 00:35:05,359

they were lower ranking i don't remember

946

00:35:09,030 --> 00:35:07,119

the link

947

00:35:10,950 --> 00:35:09,040

but they were air force flight suits

948

00:35:12,710 --> 00:35:10,960

they had air force patches

949

00:35:14,390 --> 00:35:12,720

air force insignia

950

00:35:17,670 --> 00:35:14,400

all of that

951
00:35:19,190 --> 00:35:17,680
and being a navy ship

952
00:35:21,190 --> 00:35:19,200
you don't exactly have air force

953
00:35:23,270 --> 00:35:21,200
officers on there all the time

954
00:35:25,670 --> 00:35:23,280
they stand out you know that's something

955
00:35:28,710 --> 00:35:25,680
that you remember that they were there

956
00:35:30,550 --> 00:35:28,720
and where my shop was on the nimitz

957
00:35:32,390 --> 00:35:30,560
it's a hike to get there you got to go

958
00:35:33,349 --> 00:35:32,400
up some and down some and around some

959
00:35:35,270 --> 00:35:33,359
corners

960
00:35:37,670 --> 00:35:35,280
it's not a straight shot just to get to

961
00:35:39,430 --> 00:35:37,680
us so if they're making it all the way

962
00:35:42,829 --> 00:35:39,440
over to where i am

963
00:35:48,150 --> 00:35:46,630

gary well our guys came over to our ship

964

00:35:50,550 --> 00:35:48,160

you know i would it could be anything

965

00:35:52,069 --> 00:35:50,560

from uh you know i keep getting

966

00:35:54,310 --> 00:35:52,079

interviews where they talk about the men

967

00:35:55,910 --> 00:35:54,320

in black came to my ship and i say i

968

00:35:57,670 --> 00:35:55,920

always correct them and say oh you mean

969

00:35:58,950 --> 00:35:57,680

the men in khaki

970

00:36:01,430 --> 00:35:58,960

because they uh you know we're talking

971

00:36:02,950 --> 00:36:01,440

polo shirts khakis uh we'll talk we'll

972

00:36:05,829 --> 00:36:02,960

say semi

973

00:36:07,430 --> 00:36:05,839

send me business formal uh or not formal

974

00:36:09,670 --> 00:36:07,440

just business casual

975

00:36:12,069 --> 00:36:09,680

type of attire uh

976

00:36:13,589 --> 00:36:12,079

i unlike pj i actually had to sign the

977

00:36:15,430 --> 00:36:13,599

chain of custody which is actually the

978

00:36:16,550 --> 00:36:15,440

only thing i signed about this entire

979

00:36:17,990 --> 00:36:16,560

event

980

00:36:20,069 --> 00:36:18,000

and that's actually why i got a little

981

00:36:21,750 --> 00:36:20,079

confused when i first i had to make sure

982

00:36:23,030 --> 00:36:21,760

that that wasn't a uh

983

00:36:24,710 --> 00:36:23,040

a uh

984

00:36:25,670 --> 00:36:24,720

non-disclosure agreement i signed

985

00:36:27,670 --> 00:36:25,680

because i

986

00:36:29,670 --> 00:36:27,680

up to that point i literally never

987

00:36:31,670 --> 00:36:29,680

signed a chain of custody in my entire

988

00:36:32,950 --> 00:36:31,680

life because we've never given anything

989

00:36:35,190 --> 00:36:32,960

out other than

990

00:36:37,030 --> 00:36:35,200

tapes to tech reps uh

991

00:36:40,069 --> 00:36:37,040

and things of that nature which didn't

992

00:36:42,150 --> 00:36:40,079

require a chain of custody uh but uh we

993

00:36:44,710 --> 00:36:42,160

did sign i did sign a chain of custody

994

00:36:46,150 --> 00:36:44,720

for our our data recording tapes so

995

00:36:48,069 --> 00:36:46,160

there is at least a paper trail

996

00:36:50,870 --> 00:36:48,079

somewhere just not one that we can

997

00:36:54,069 --> 00:36:52,390

awesome thank you guys just a couple

998

00:36:56,790 --> 00:36:54,079

more questions and then we can wrap up i

999

00:36:59,270 --> 00:36:56,800

appreciate the time um kevin this next

1000

00:37:01,030 --> 00:36:59,280

one is for you dead or not did an

1001

00:37:06,390 --> 00:37:01,040

officer give you instruction to

1002

00:37:10,230 --> 00:37:08,550

no as a matter of fact um

1003

00:37:12,710 --> 00:37:10,240

after this happened i went up to combat

1004

00:37:14,550 --> 00:37:12,720

information center crc

1005

00:37:15,990 --> 00:37:14,560

and i was gonna um i didn't know how the

1006

00:37:18,069 --> 00:37:16,000

captain was gonna react but i was gonna

1007

00:37:19,990 --> 00:37:18,079

draft an after-action message because i

1008

00:37:21,510 --> 00:37:20,000

was a primary operational message writer

1009

00:37:22,710 --> 00:37:21,520

for the ship and then you know i'd write

1010

00:37:24,069 --> 00:37:22,720

the message and then i would route it

1011

00:37:26,390 --> 00:37:24,079

through the chain of man and the captain

1012

00:37:28,470 --> 00:37:26,400

would end up releasing it i

1013

00:37:30,150 --> 00:37:28,480

because of the way he was acting i

1014

00:37:32,630 --> 00:37:30,160

pulled him off to say hey captain smith

1015

00:37:35,430 --> 00:37:34,390

what's going on here what are these

1016

00:37:37,190 --> 00:37:35,440

objects

1017

00:37:38,790 --> 00:37:37,200

and he looked at me with a very

1018

00:37:40,470 --> 00:37:38,800

perplexed look and said mate i don't

1019

00:37:42,470 --> 00:37:40,480

know maybe ice

1020

00:37:43,990 --> 00:37:42,480

spontaneous farming ice from space he

1021

00:37:45,990 --> 00:37:44,000

said

1022

00:37:47,349 --> 00:37:46,000

and i have to admit laughing out loud

1023

00:37:49,510 --> 00:37:47,359

and i'm glad he didn't get mad at me for

1024

00:37:50,390 --> 00:37:49,520

it but i actually laughed at him

1025

00:37:52,230 --> 00:37:50,400

okay

1026

00:37:54,390 --> 00:37:52,240

so the next day i went i went up to

1027

00:37:55,910 --> 00:37:54,400

combat i was gonna draft a message after

1028

00:37:57,190 --> 00:37:55,920

action report and

1029

00:37:59,430 --> 00:37:57,200

i didn't i didn't know if he was gonna

1030

00:38:02,230 --> 00:37:59,440

release it or not but i was gonna try

1031

00:38:04,630 --> 00:38:02,240

and i went over to the um to get my data

1032

00:38:06,310 --> 00:38:04,640

and stuff i went over to the rd 390

1033

00:38:10,790 --> 00:38:06,320

which recorded all of our external

1034

00:38:14,950 --> 00:38:13,109

and lo and behold all of my voice

1035

00:38:16,550 --> 00:38:14,960

columns were gone

1036

00:38:18,230 --> 00:38:16,560

every time we key the mic every time we

1037

00:38:19,270 --> 00:38:18,240

keep the mic on the externally gets

1038

00:38:21,109 --> 00:38:19,280

recorded

1039

00:38:23,190 --> 00:38:21,119

the the date time it gives us the date

1040

00:38:24,150 --> 00:38:23,200

time stamp and then the follow-on voice

1041

00:38:26,150 --> 00:38:24,160

comes

1042

00:38:27,829 --> 00:38:26,160

well strangely enough all this all this

1043

00:38:30,069 --> 00:38:27,839

all the date time stamps are on the disk

1044

00:38:31,990 --> 00:38:30,079

still but all the columns were gone

1045

00:38:33,349 --> 00:38:32,000

you and i looked at the technique i

1046

00:38:35,990 --> 00:38:33,359

looked at the technician and i could

1047

00:38:37,589 --> 00:38:36,000

tell that he knew what had happened

1048

00:38:39,349 --> 00:38:37,599

and i'm not going to mention his name

1049

00:38:42,390 --> 00:38:39,359

because he hasn't come out yet

1050

00:38:44,069 --> 00:38:42,400

but he i i just gathered instinctively

1051
00:38:46,069 --> 00:38:44,079
that he knew but he couldn't tell me and

1052
00:38:48,630 --> 00:38:46,079
i respect that and i gave up the idea of

1053
00:38:50,230 --> 00:38:48,640
writing a message at that point

1054
00:38:51,829 --> 00:38:50,240
because i i you know i had figured out

1055
00:38:54,390 --> 00:38:51,839
that something very strange something

1056
00:38:55,190 --> 00:38:54,400
very strange had happened and

1057
00:38:57,030 --> 00:38:55,200
it was

1058
00:38:58,790 --> 00:38:57,040
way beyond my pay grade to figure it out

1059
00:39:00,790 --> 00:38:58,800
so i just left it alone because what

1060
00:39:02,069 --> 00:39:00,800
kevin didn't know is while he was doing

1061
00:39:04,470 --> 00:39:02,079
all that with the captain and trying to

1062
00:39:06,230 --> 00:39:04,480
figure out how to report this uh we i

1063
00:39:10,310 --> 00:39:06,240

was turning over data tapes and being

1064

00:39:14,230 --> 00:39:12,390

yeah i figured all that out later yeah

1065

00:39:15,190 --> 00:39:14,240

and you know and ironically i didn't

1066

00:39:16,950 --> 00:39:15,200

know

1067

00:39:19,670 --> 00:39:16,960

that he was the one that accessed the

1068

00:39:22,069 --> 00:39:19,680

data afterwards until ours until we told

1069

00:39:23,910 --> 00:39:22,079

our story separately later on and i was

1070

00:39:25,510 --> 00:39:23,920

saying it's like we were literally in

1071

00:39:27,990 --> 00:39:25,520

the same room the first time i heard it

1072

00:39:30,630 --> 00:39:28,000

we were on stage over in loughlin and

1073

00:39:34,470 --> 00:39:30,640

i'm like oh my god i am the [h__h] that

1074

00:39:38,710 --> 00:39:36,069

thanks man thanks

1075

00:39:40,390 --> 00:39:38,720

yeah so yeah it was it was truly a head

1076

00:39:42,710 --> 00:39:40,400

scratcher and um

1077

00:39:44,470 --> 00:39:42,720

you know i had 18 uh i had um there was

1078

00:39:46,950 --> 00:39:44,480

only one guy on the ship had more sea

1079

00:39:48,550 --> 00:39:46,960

time than me was the captain i had 18

1080

00:39:50,230 --> 00:39:48,560

years of sea time

1081

00:39:51,670 --> 00:39:50,240

on that on thai counter world class

1082

00:39:53,270 --> 00:39:51,680

ships

1083

00:39:55,829 --> 00:39:53,280

that that day when that happened and i

1084

00:39:57,349 --> 00:39:55,839

had never experienced anything like this

1085

00:39:59,109 --> 00:39:57,359

you know usually when we do exercises

1086

00:40:01,510 --> 00:39:59,119

and operations everything's been

1087

00:40:03,430 --> 00:40:01,520

scripted months in advance and practiced

1088

00:40:05,990 --> 00:40:03,440

and rehearsed and re-practiced and

1089

00:40:08,470 --> 00:40:06,000

debriefed and briefed and debriefed

1090

00:40:10,950 --> 00:40:08,480

this thing was so far outside of the

1091

00:40:13,190 --> 00:40:10,960

realm of anything i'd ever seen i just i

1092

00:40:14,710 --> 00:40:13,200

didn't know what to do so i didn't do

1093

00:40:16,630 --> 00:40:14,720

anything

1094

00:40:19,109 --> 00:40:16,640

and kevin the next question again is for

1095

00:40:21,190 --> 00:40:19,119

you uh was it yourself who guided chad

1096

00:40:25,750 --> 00:40:21,200

underwood during the filming of the

1097

00:40:29,109 --> 00:40:27,190

restate the question it was a little bit

1098

00:40:31,030 --> 00:40:29,119

broken

1099

00:40:33,030 --> 00:40:31,040

was it yourself that guided chad

1100

00:40:34,950 --> 00:40:33,040

underwood during the filming of the

1101

00:40:38,390 --> 00:40:34,960

flyer video or was it a colleague of

1102

00:40:42,309 --> 00:40:40,630

that that fleer video that we see on the

1103

00:40:44,230 --> 00:40:42,319

internet is um

1104

00:40:45,670 --> 00:40:44,240

from chad underwood's flight is that

1105

00:40:47,349 --> 00:40:45,680

what you're asking

1106

00:40:49,109 --> 00:40:47,359

you know it doesn't come from that's not

1107

00:40:50,630 --> 00:40:49,119

quite what they're asking what the what

1108

00:40:52,870 --> 00:40:50,640

they're asking is whether you guided

1109

00:40:55,910 --> 00:40:52,880

them in exactly to where the object was

1110

00:40:58,309 --> 00:40:55,920

to film it um he would have guided him

1111

00:41:00,630 --> 00:40:58,319

to the area like the general area where

1112

00:41:05,109 --> 00:41:00,640

it was and then chad would have done

1113

00:41:06,550 --> 00:41:05,119

his own interrogation from that point on

1114

00:41:08,150 --> 00:41:06,560

yeah you have to remember we got data

1115

00:41:10,230 --> 00:41:08,160

links too so he can look he can look out

1116

00:41:11,589 --> 00:41:10,240

his systems in the aircraft and see

1117

00:41:13,349 --> 00:41:11,599

where he's supposed to go as well from

1118

00:41:14,309 --> 00:41:13,359

the data lakes

1119

00:41:16,630 --> 00:41:14,319

cool

1120

00:41:18,390 --> 00:41:16,640

next question to the floor if the tic

1121

00:41:20,790 --> 00:41:18,400

tac was sending or receiving

1122

00:41:23,589 --> 00:41:20,800

electromagnetic signals

1123

00:41:25,510 --> 00:41:23,599

could hawkeye discern directionally

1124

00:41:27,589 --> 00:41:25,520

where the origin of the data was coming

1125

00:41:30,150 --> 00:41:27,599

from

1126

00:41:36,150 --> 00:41:33,910

there you go yes yes you can 100 yes and

1127

00:41:37,670 --> 00:41:36,160

actually if it was squawking anything

1128

00:41:39,430 --> 00:41:37,680

just about

1129

00:41:41,030 --> 00:41:39,440

if it was depending on what frequency it

1130

00:41:43,910 --> 00:41:41,040

was a lot of the ships could have seen

1131

00:41:46,470 --> 00:41:43,920

it in hawkeye specifically because well

1132

00:41:49,510 --> 00:41:46,480

that's literally what it's there for

1133

00:41:52,309 --> 00:41:49,520

so and andy just so you know when uh

1134

00:41:54,950 --> 00:41:52,319

during operations on the on the ship

1135

00:41:56,790 --> 00:41:54,960

um like the radar operator say new track

1136

00:41:58,790 --> 00:41:56,800

four four two five and then

1137

00:42:00,550 --> 00:41:58,800

everybody in a position on the air side

1138

00:42:02,230 --> 00:42:00,560

is gonna chime in with their own piece

1139

00:42:05,190 --> 00:42:02,240

of information and one of those guys is

1140

00:42:07,190 --> 00:42:05,200

the electronic warfare supervisor

1141

00:42:08,950 --> 00:42:07,200

and he is specifically looking for that

1142

00:42:10,230 --> 00:42:08,960

he's looking for signals coming from

1143

00:42:12,870 --> 00:42:10,240

that contact

1144

00:42:14,550 --> 00:42:12,880

because um with his information i'm able

1145

00:42:16,550 --> 00:42:14,560

to tell hey this is a calm air because

1146

00:42:19,510 --> 00:42:16,560

it's got calm air radar

1147

00:42:21,430 --> 00:42:19,520

or hey this is a soviet mig 25 because

1148

00:42:24,230 --> 00:42:21,440

it's got that type of signature

1149

00:42:26,069 --> 00:42:24,240

so i i use all of these little pieces of

1150

00:42:28,630 --> 00:42:26,079

information to make the identification

1151
00:42:31,750 --> 00:42:28,640
that's where the problem is in this case

1152
00:42:35,589 --> 00:42:33,030
yeah there was no there was no

1153
00:42:37,589 --> 00:42:35,599
electronic emissions from these things

1154
00:42:39,349 --> 00:42:37,599
because i mean everybody

1155
00:42:41,430 --> 00:42:39,359
everybody wants to look at this stuff

1156
00:42:44,150 --> 00:42:41,440
and say okay well there could have been

1157
00:42:45,829 --> 00:42:44,160
uh you know a person that made a mistake

1158
00:42:47,990 --> 00:42:45,839
well it doesn't matter if a person made

1159
00:42:50,230 --> 00:42:48,000
a mistake the entire battle group didn't

1160
00:42:52,230 --> 00:42:50,240
make a mistake and there's so much

1161
00:42:53,910 --> 00:42:52,240
information that we're using to try to

1162
00:42:55,589 --> 00:42:53,920
try to figure out exactly what these

1163
00:42:59,670 --> 00:42:55,599

objects are is that

1164

00:43:01,589 --> 00:42:59,680

it's it's honestly it just uh

1165

00:43:04,150 --> 00:43:01,599

it feels like anybody that's really

1166

00:43:05,990 --> 00:43:04,160

trying to debunk it based off of that

1167

00:43:08,470 --> 00:43:06,000

fact about us

1168

00:43:10,069 --> 00:43:08,480

not being trained enough for somebody

1169

00:43:11,910 --> 00:43:10,079

making a mistake

1170

00:43:14,390 --> 00:43:11,920

it feels like they're just trying to

1171

00:43:15,349 --> 00:43:14,400

make a sensational accusation

1172

00:43:17,109 --> 00:43:15,359

um

1173

00:43:19,109 --> 00:43:17,119

because if you if you knew the way that

1174

00:43:21,270 --> 00:43:19,119

this stuff works and that's what we're

1175

00:43:22,950 --> 00:43:21,280

trying to relate to people is that

1176

00:43:25,190 --> 00:43:22,960

there's no way we made a mistake that

1177

00:43:26,630 --> 00:43:25,200

this was an unknown object there was no

1178

00:43:28,309 --> 00:43:26,640

way we made a mistake that it was a

1179

00:43:29,910 --> 00:43:28,319

solid object

1180

00:43:31,430 --> 00:43:29,920

there's no way that we made a mistake

1181

00:43:33,990 --> 00:43:31,440

about how fast it went or the

1182

00:43:36,150 --> 00:43:34,000

capabilities of it

1183

00:43:38,390 --> 00:43:36,160

that's why we're here that's why we're

1184

00:43:40,790 --> 00:43:38,400

talking to you right now

1185

00:43:42,710 --> 00:43:40,800

if we didn't believe it and

1186

00:43:44,150 --> 00:43:42,720

we wouldn't be here and if it wasn't

1187

00:43:45,670 --> 00:43:44,160

real then the government definitely

1188

00:43:47,430 --> 00:43:45,680

wouldn't have said it you said anything

1189

00:43:48,710 --> 00:43:47,440

at all they would just be like yeah yeah

1190

00:43:50,390 --> 00:43:48,720

sure believe what you want to believe

1191

00:43:51,430 --> 00:43:50,400

just like they have for the last 60

1192

00:43:54,950 --> 00:43:51,440

years

1193

00:43:57,270 --> 00:43:54,960

but instead they had they had their hand

1194

00:43:59,349 --> 00:43:57,280

pulled this time you know there was it's

1195

00:44:01,589 --> 00:43:59,359

really hard to deny that you know the

1196

00:44:04,309 --> 00:44:01,599

the video evidence that we we put

1197

00:44:06,390 --> 00:44:04,319

forward and then from there you know we

1198

00:44:08,790 --> 00:44:06,400

can testify the rest

1199

00:44:11,270 --> 00:44:08,800

you know that's you know we've got video

1200

00:44:13,510 --> 00:44:11,280

we've got radar we've got you know audio

1201

00:44:15,430 --> 00:44:13,520

we've got the pilots themselves

1202

00:44:16,630 --> 00:44:15,440

i don't know how much more people want

1203

00:44:18,470 --> 00:44:16,640

uh

1204

00:44:20,069 --> 00:44:18,480

at this point

1205

00:44:23,030 --> 00:44:20,079

either get on board or get the hell out

1206

00:44:25,349 --> 00:44:23,040

you have to get hell out of the way

1207

00:44:26,870 --> 00:44:25,359

yeah that's fair

1208

00:44:29,589 --> 00:44:26,880

yeah send us some money to go figure it

1209

00:44:32,470 --> 00:44:31,030

give us enough money i'll take you with

1210

00:44:33,910 --> 00:44:32,480

us

1211

00:44:35,270 --> 00:44:33,920

yeah we will

1212

00:44:37,270 --> 00:44:35,280

help fund us and we'll go out there and

1213

00:44:38,950 --> 00:44:37,280

we'll figure this [h__h] out

1214

00:44:41,589 --> 00:44:38,960

is that simple

1215

00:44:42,950 --> 00:44:41,599

if you just advertise a ce5 experience

1216

00:44:44,630 --> 00:44:42,960

for two and a half thousand dollars

1217

00:44:47,030 --> 00:44:44,640

you'll get a few people jumping on board

1218

00:44:49,510 --> 00:44:47,040

i'm sure as well so

1219

00:44:50,870 --> 00:44:49,520

i can i can vlog them or you know

1220

00:44:53,109 --> 00:44:50,880

waterboard them or something and they

1221

00:44:54,470 --> 00:44:53,119

can hallucinate it if they want i think

1222

00:44:56,309 --> 00:44:54,480

there's a place i think there's places

1223

00:44:59,750 --> 00:44:56,319

you can go for that kind of stuff anyway

1224

00:45:02,150 --> 00:44:59,760

um so two more questions uh do you guys

1225

00:45:03,829 --> 00:45:02,160

know of others and i'm sure you will and

1226
00:45:05,589 --> 00:45:03,839
can you give an estimate of what sort of

1227
00:45:08,069 --> 00:45:05,599
numbers of people have had similar

1228
00:45:10,630 --> 00:45:08,079
experiences to yourselves that just

1229
00:45:13,030 --> 00:45:10,640
haven't came public yet and any details

1230
00:45:15,030 --> 00:45:13,040
at all you can share

1231
00:45:17,750 --> 00:45:15,040
well to give you an idea since i went

1232
00:45:18,950 --> 00:45:17,760
public with this i've probably had just

1233
00:45:21,670 --> 00:45:18,960
personally

1234
00:45:23,589 --> 00:45:21,680
over at least a hundred different people

1235
00:45:26,309 --> 00:45:23,599
of credible nature whether they're

1236
00:45:27,990 --> 00:45:26,319
pilots prior military with with top

1237
00:45:30,550 --> 00:45:28,000
secret clearances

1238
00:45:31,670 --> 00:45:30,560

um mostly i'll be honest with you mostly

1239

00:45:37,349 --> 00:45:31,680

pilots

1240

00:45:38,550 --> 00:45:37,359

i've gotten over a hundred emails

1241

00:45:40,069 --> 00:45:38,560

depicting

1242

00:45:42,710 --> 00:45:40,079

a various

1243

00:45:43,750 --> 00:45:42,720

from back in the you know

1244

00:45:47,109 --> 00:45:43,760

back in

1245

00:45:48,470 --> 00:45:47,119

the 50s and 60s i've got some guys that

1246

00:45:49,829 --> 00:45:48,480

won't come public about it but

1247

00:45:51,670 --> 00:45:49,839

definitely wanted me to know the story

1248

00:45:53,510 --> 00:45:51,680

and that i'm not alone you know in that

1249

00:45:54,309 --> 00:45:53,520

kind of situation

1250

00:45:55,910 --> 00:45:54,319

um

1251
00:45:58,790 --> 00:45:55,920
and i know that the other guys have all

1252
00:46:00,390 --> 00:45:58,800
received emails from people uh you know

1253
00:46:01,990 --> 00:46:00,400
and of course i take i take everything

1254
00:46:03,589 --> 00:46:02,000
with a grain of salt like i look into

1255
00:46:06,390 --> 00:46:03,599
things and i'm but i'm appreciative of

1256
00:46:08,550 --> 00:46:06,400
any of the stories that anybody wants to

1257
00:46:10,870 --> 00:46:08,560
uh share with us but

1258
00:46:12,630 --> 00:46:10,880
i think without a shadow of a doubt

1259
00:46:16,630 --> 00:46:12,640
there's not a day that doesn't go by

1260
00:46:19,430 --> 00:46:16,640
that a new witness is not created

1261
00:46:21,430 --> 00:46:19,440
so i'm thinking every single day and a

1262
00:46:23,910 --> 00:46:21,440
pilot sees something

1263
00:46:25,589 --> 00:46:23,920

a credible witness sees something that

1264

00:46:27,990 --> 00:46:25,599

they can't explain running through the

1265

00:46:29,270 --> 00:46:28,000

skies i think it's that common and i

1266

00:46:34,230 --> 00:46:29,280

think that's why it permeates our

1267

00:46:39,030 --> 00:46:37,270

well said gary and i agree with all that

1268

00:46:40,550 --> 00:46:39,040

awesome

1269

00:46:43,190 --> 00:46:40,560

next question

1270

00:46:44,470 --> 00:46:43,200

i had a few people ask this one i know

1271

00:46:46,309 --> 00:46:44,480

it's something that we talked about just

1272

00:46:49,109 --> 00:46:46,319

before the show as well have you got any

1273

00:46:51,670 --> 00:46:49,119

comments on deep prasad and his time

1274

00:46:54,230 --> 00:46:51,680

with you apx

1275

00:46:58,390 --> 00:46:54,240

well good kid you should get off of uh

1276

00:47:04,309 --> 00:47:01,109

we don't have any other real anything

1277

00:47:06,309 --> 00:47:04,319

other really to say about him

1278

00:47:07,910 --> 00:47:06,319

that's uh

1279

00:47:11,109 --> 00:47:07,920

there's not much to say about him you

1280

00:47:13,109 --> 00:47:11,119

know he was with us for a while um

1281

00:47:15,990 --> 00:47:13,119

we hadn't really done anything yet

1282

00:47:18,150 --> 00:47:16,000

before before we separated uh

1283

00:47:20,549 --> 00:47:18,160

he didn't particularly like how we

1284

00:47:22,230 --> 00:47:20,559

monitored his social media so he left

1285

00:47:25,270 --> 00:47:22,240

the company and that's that's our

1286

00:47:26,710 --> 00:47:25,280

official statement as uapx

1287

00:47:28,309 --> 00:47:26,720

no yeah the whole the whole reason why

1288

00:47:30,630 --> 00:47:28,319

all this started it actually goes back

1289

00:47:31,670 --> 00:47:30,640

to him in an article that tim mcmillan

1290

00:47:33,030 --> 00:47:31,680

wrote

1291

00:47:35,109 --> 00:47:33,040

they called they called the group was it

1292

00:47:37,990 --> 00:47:35,119

the silicon valley ufo hunters right

1293

00:47:39,589 --> 00:47:38,000

gary yeah and that's when that's when i

1294

00:47:41,430 --> 00:47:39,599

that's what i was the first one to reach

1295

00:47:43,510 --> 00:47:41,440

out to be said hey deep this is me and

1296

00:47:45,190 --> 00:47:43,520

uh i'm the guy that you need to talk to

1297

00:47:47,030 --> 00:47:45,200

and that's how we we kind of

1298

00:47:49,030 --> 00:47:47,040

he kind of uh

1299

00:47:50,870 --> 00:47:49,040

came to join us

1300

00:47:52,950 --> 00:47:50,880

um and

1301

00:47:55,109 --> 00:47:52,960

it's simple like i said that's all

1302

00:47:56,950 --> 00:47:55,119

that's all we're going to talk about him

1303

00:47:58,069 --> 00:47:56,960

we had our official statement and that's

1304

00:47:59,990 --> 00:47:58,079

it

1305

00:48:01,190 --> 00:48:00,000

yeah i know that's exactly right and

1306

00:48:02,950 --> 00:48:01,200

thank you for making the statement as

1307

00:48:04,790 --> 00:48:02,960

well i appreciate you answering that

1308

00:48:06,470 --> 00:48:04,800

last question and i'm looking for an

1309

00:48:09,510 --> 00:48:06,480

answer here from all of you

1310

00:48:11,910 --> 00:48:09,520

with the uap task force now being formed

1311

00:48:13,829 --> 00:48:11,920

and underway are we going to find out

1312

00:48:16,390 --> 00:48:13,839

within the next

1313

00:48:18,710 --> 00:48:16,400

given estimate here two to three years

1314

00:48:21,670 --> 00:48:18,720

that these unidentified craft have an

1315

00:48:25,750 --> 00:48:21,680

origin that was not of this earth if i

1316

00:48:29,990 --> 00:48:27,910

i know i miss a dog

1317

00:48:32,829 --> 00:48:30,000

basically they uh they want to know if

1318

00:48:34,150 --> 00:48:32,839

uh hopefully here soon we'll

1319

00:48:38,230 --> 00:48:34,160

uh we'll

1320

00:48:43,670 --> 00:48:40,950

i know kevin wishes hopes they are i i

1321

00:48:45,990 --> 00:48:43,680

just uh i'm scared no matter which way

1322

00:48:47,750 --> 00:48:46,000

it goes i'll be dead honest

1323

00:48:49,270 --> 00:48:47,760

all of this [h__h] is it scares the hell

1324

00:48:51,829 --> 00:48:49,280

out of me because i don't see a good

1325

00:48:53,430 --> 00:48:51,839

direction that this is going into and if

1326

00:48:55,430 --> 00:48:53,440

i'm completely wrong and it actually

1327

00:48:56,950 --> 00:48:55,440

goes in the direction where they're just

1328

00:48:59,510 --> 00:48:56,960

these people that have lived here and

1329

00:49:07,829 --> 00:48:59,520

they're just helping us i will

1330

00:49:10,470 --> 00:49:09,430

um

1331

00:49:12,230 --> 00:49:10,480

i don't know if they're gonna get

1332

00:49:15,270 --> 00:49:12,240

anywhere anytime soon

1333

00:49:18,309 --> 00:49:15,280

um they've got a lot of

1334

00:49:20,069 --> 00:49:18,319

they had a lot of work to do

1335

00:49:22,950 --> 00:49:20,079

just to just to catch up to where

1336

00:49:22,960 --> 00:49:26,870

and kevin

1337

00:49:28,870 --> 00:49:27,910

um

1338

00:49:31,349 --> 00:49:28,880

man

1339

00:49:33,109 --> 00:49:31,359

this this universe of ours is so

1340

00:49:35,750 --> 00:49:33,119

freaking huge

1341

00:49:37,510 --> 00:49:35,760

uh the the odds that we are the only

1342

00:49:39,030 --> 00:49:37,520

living you know when i say we i'm

1343

00:49:40,630 --> 00:49:39,040

included in every

1344

00:49:41,750 --> 00:49:40,640

even like mosquitoes and stuff you know

1345

00:49:43,750 --> 00:49:41,760

like every

1346

00:49:46,270 --> 00:49:43,760

living organism on our planet the

1347

00:49:49,829 --> 00:49:46,280

chances that we are the only living

1348

00:49:52,710 --> 00:49:49,839

organism in the entire universe

1349

00:49:54,870 --> 00:49:52,720

it has to be zeal it has to be zero in

1350

00:49:57,030 --> 00:49:54,880

fact the opposite has to be true

1351

00:49:59,510 --> 00:49:57,040

now that's not to say that there

1352

00:50:02,150 --> 00:49:59,520

even care about us or they're the ones

1353

00:50:03,750 --> 00:50:02,160

visiting us or that's what we saw

1354

00:50:05,589 --> 00:50:03,760

but i don't i honestly don't believe

1355

00:50:08,390 --> 00:50:05,599

that we're alone this universe

1356

00:50:09,589 --> 00:50:08,400

in my mind is scientifically impossible

1357

00:50:11,270 --> 00:50:09,599

it just is

1358

00:50:12,950 --> 00:50:11,280

there's no freaking way that's that's

1359

00:50:15,109 --> 00:50:12,960

going to prove true

1360

00:50:17,270 --> 00:50:15,119

no i agree kevin and you say this

1361

00:50:18,710 --> 00:50:17,280

universe and that discounts the other

1362

00:50:20,549 --> 00:50:18,720

universities that may be out there as

1363

00:50:23,109 --> 00:50:20,559

well and i'll i'll leave that one just

1364

00:50:25,270 --> 00:50:23,119

there um but listen gents it's been a

1365

00:50:26,790 --> 00:50:25,280

absolute pleasure speaking with you all

1366

00:50:28,069 --> 00:50:26,800

i thank you very much for your time

1367

00:50:30,390 --> 00:50:28,079

thank you to all the listeners for

1368

00:50:32,470 --> 00:50:30,400

sending your questions as well it's a

1369

00:50:34,390 --> 00:50:32,480

brand new format i've been trying and

1370

00:50:35,829 --> 00:50:34,400

hopefully i'll get a better embedded

1371

00:50:38,470 --> 00:50:35,839

each time but i think i'll struggle to

1372

00:50:40,470 --> 00:50:38,480

get three guests of the the same caliber

1373

00:50:42,150 --> 00:50:40,480

and again pj special thanks to filling

1374

00:50:45,030 --> 00:50:42,160

in so late as well for for sean who

1375

00:50:49,030 --> 00:50:47,430

hey andy let's do this again and

1376

00:50:50,950 --> 00:50:49,040

andy let's do

1377

00:50:52,309 --> 00:50:50,960

bring in other people on the team like

1378

00:50:54,549 --> 00:50:52,319

kevin knuth

1379

00:50:56,630 --> 00:50:54,559

a professor from the um university out

1380

00:50:57,910 --> 00:50:56,640

in new york uh bruce mcbee

1381

00:50:59,190 --> 00:50:57,920

uh

1382

00:51:02,069 --> 00:50:59,200

in other words we i want to get the

1383

00:51:03,349 --> 00:51:02,079

scientists um and the physicist uh

1384

00:51:05,430 --> 00:51:03,359

during the next meeting good one would

1385

00:51:07,109 --> 00:51:05,440

have is that you know in addition

1386

00:51:08,870 --> 00:51:07,119

kevin can you thumb here

1387

00:51:10,390 --> 00:51:08,880

that's uh

1388

00:51:14,790 --> 00:51:10,400

yeah he'd be he'd be a real good

1389

00:51:16,710 --> 00:51:14,800

interview the guy's got a wonderful mind

1390

00:51:18,470 --> 00:51:16,720

oh my god he's brilliant there ain't no

1391

00:51:19,670 --> 00:51:18,480

doubt about it yep any of that

1392

00:51:21,190 --> 00:51:19,680

absolutely

1393

00:51:23,430 --> 00:51:21,200

and unless and a lot of people want to

1394

00:51:25,910 --> 00:51:23,440

hear from you as well and that's um

1395

00:51:27,750 --> 00:51:25,920

uapx getting started up and and really

1396

00:51:29,750 --> 00:51:27,760

getting going too so we look forward to

1397

00:51:31,430 --> 00:51:29,760

all of that so gents just again thank

1398

00:51:33,510 --> 00:51:31,440

you very much for me

1399

00:51:35,510 --> 00:51:33,520

that is all for this week's show thank

1400

00:51:37,670 --> 00:51:35,520

you very much for listening please

1401
00:51:40,150 --> 00:51:37,680
remember to leave the podcast review on

1402
00:51:42,470 --> 00:51:40,160
your chosen platform you can like

1403
00:51:44,390 --> 00:51:42,480
retweet and subscribe that would all be

1404
00:51:46,549 --> 00:51:44,400
very much appreciated the shows are

1405
00:51:49,829 --> 00:51:46,559
being uploaded onto youtube as we speak

1406
00:51:52,549 --> 00:51:49,839
more and more you can sign up at

1407
00:51:55,030 --> 00:51:52,559
that ufo podcast to access shows ad free

1408
00:51:57,829 --> 00:51:55,040
as well please get in touch on twitter

1409
00:52:01,510 --> 00:51:57,839
facebook instagram that ufo podcast of

1410
00:52:03,670 --> 00:52:01,520
course on twitter it's at ufo uap a.m

1411
00:52:06,680 --> 00:52:03,680
and again folks as always keep looking

1412
00:52:27,109 --> 00:52:06,690
up you never know what you might see

1413
00:52:27,119 --> 00:52:32,990

is

1414

00:52:58,309 --> 00:52:49,730

[Music]

1415

00:52:58,319 --> 00:53:03,589

jump back nearly

1416

00:53:06,990 --> 00:53:04,870

there was something on my head and

1417

00:53:09,190 --> 00:53:07,000

everything was weird and everything was

1418

00:53:17,590 --> 00:53:09,200

ready they thought this was nice they

1419

00:53:40,829 --> 00:53:32,240

[Music]

1420

00:53:40,839 --> 00:53:51,770

is for being serious

1421

00:53:51,780 --> 00:54:08,390

[Music]

1422

00:54:08,400 --> 00:54:12,309

can't sleep

1423

00:54:21,050 --> 00:54:14,230

it wasn't a tic tac and not quite a

1424

00:54:36,980 --> 00:54:34,870

[Music]

1425

00:55:02,630 --> 00:54:36,990

thanks

1426

00:55:05,660 --> 00:55:02,640

[Music]

1427

00:55:11,030 --> 00:55:05,670

thank you

1428

00:55:11,040 --> 00:55:14,410

so
