breaking

2
00:00:05,190 --> 00:00:03,439
what makes this trauma different from

3
00:00:07,510 --> 00:00:05,200
all the other travels well a few things

4
00:00:09,509 --> 00:00:07,520
for me a new multi-function on off

5
00:00:11,350 --> 00:00:09,519
switch can engage a travel lot created

6
00:00:13,509 --> 00:00:11,360
for people who like to travel whichever

7
00:00:15,430 --> 00:00:13,519
dimension that might be in the lawnmower

8
00:00:20,230 --> 00:00:15,440
4.0 gives you the ability to turn the

9
00:00:25,269 --> 00:00:22,470
when needed for a more precise shave the

10
00:00:27,109 --> 00:00:25,279
phoenix lights have nothing on this

11
00:00:28,870 --> 00:00:27,119
and the new tremor even allows you to

12
00:00:30,630 --> 00:00:28,880
customize your trim overall through

13
00:00:32,709 --> 00:00:30,640

looks wise it's sleek with a two-tone

18

00:00:46,470 --> 00:00:42,960

matte and gloss finish even features a

look at that

22

00:00:52,950 --> 00:00:51,280

that is a nice piece you know when you

23

00:00:55,029 --> 00:00:52,960

take out the box and you just feel the

24

00:00:57,029 --> 00:00:55,039

weight of it and you just feel as a

25

00:00:59,910 --> 00:00:57,039

43

00:01:59,380 --> 00:01:49,110

been a weird 18 months as everyone keeps

183
00:07:13,830 --> 00:07:12,479
saying and this will be the first time

184
00:07:15,749 --> 00:07:13,840
we kind of get to get out there after

185
00:07:17,749 --> 00:07:15,759
the podcast being released and and get

186
00:07:20,230 --> 00:07:17,759
to meet some people and hear people talk

187
00:07:22,150 --> 00:07:20,240
about ufos face to face because again

188
00:07:24,150 --> 00:07:22,160

right now this is all in my head this

189

00:07:26,629 --> 00:07:24,160

whole show the audience and everything

190

00:07:28,230 --> 00:07:26,639

is just me talking into this microphone

191

00:07:29,909 --> 00:07:28,240

and graham on the other side of it as

192

00:07:31,430 --> 00:07:29,919

well so graham you're looking forward to

193

00:07:33,189 --> 00:07:31,440

getting along to preston

194

00:07:34,790 --> 00:07:33,199

i am it'll be great actually meet up

195

00:07:36,950 --> 00:07:34,800

with people for a change rather than

196

00:07:38,710 --> 00:07:36,960

just seeing them over a video link it'll

197

00:07:40,710 --> 00:07:38,720

be it'll be odd but it'll be very

198

00:07:42,230 --> 00:07:40,720

pleasant i think

199

00:07:43,909 --> 00:07:42,240

yeah we're really looking forward to it

200

00:07:45,189 --> 00:07:43,919

223

00:08:35,990 --> 00:08:33,519

she's coming on next week now we had to

224

00:08:37,589 --> 00:08:36,000

move that back a few days laurie rayfeld

225

00:08:40,070 --> 00:08:37,599

who was stationed at bent waters and

226

00:08:41,430 --> 00:08:40,080

woodbridge in the late 70s early 80s

227

00:08:43,029 --> 00:08:41,440

famous of course for the rendering

228

00:08:45,269 --> 00:08:43,039

forest incident is talking high

229

00:08:47,190 --> 00:08:45,279

strangeness i'm going to have nick cook

230

00:08:49,829 --> 00:08:47,200

who is on from the uk nick's a very

231

00:08:51,910 --> 00:08:49,839

popular offer here chris leto robert

232

00:08:54,310 --> 00:08:51,920

salas and others just waiting on

233

00:08:56,710 --> 00:08:54,320

confirming dates and times as well as a

234

00:08:58,389 --> 00:08:56,720

few other big names who i'm just getting

235

00:08:59,509 --> 00:08:58,399

waiting in confirmation on before i

236

00:09:02,550 --> 00:08:59,519

announce

237

00:09:04,630 --> 00:09:02,560

angeli who has made some headlines on on

238

00:09:06,790 --> 00:09:04,640

the social media recently after her

239

00:09:08,949 --> 00:09:06,800

press conference has also agreed very

240

00:09:10,790 --> 00:09:08,959

kindly to come on and discuss that and

241

00:09:12,389 --> 00:09:10,800

more uh people have been getting in

242

00:09:14,150 --> 00:09:12,399

touch still and asking me what i think

243

00:09:15,509 --> 00:09:14,160

about it and everything and

244

00:09:18,470 --> 00:09:15,519

you know what right now i'd like to

245

00:09:19,910 --> 00:09:18,480

speak to her first uh person to person

246

00:09:22,230 --> 00:09:19,920

do the interview and then can i see

247

00:09:22,949 --> 00:09:22,240

where we go from there some pretty bold

248

00:09:29,829 --> 00:09:22,959

and

249

00:09:31,829 --> 00:09:29,839

just that but

250

00:09:33,990 --> 00:09:31,839

and a very interesting background very

251
00:09:36,389 --> 00:09:34,000
interesting approach and i am intrigued

252
00:09:38,389 --> 00:09:36,399
to talk at one-on-one just to find out

253
00:09:40,070 --> 00:09:38,399
and dig a little bit deeper on that as

254
00:09:42,070 --> 00:09:40,080
well so thanks to her for agreeing to

255
00:09:44,790 --> 00:09:42,080
come on and i'll be announcing the date

256
00:09:47,269 --> 00:09:44,800
for that in due course as well lots

257
00:09:49,910 --> 00:09:47,279
coming up on top of that the usual news

258
00:09:52,070 --> 00:09:49,920
and discussion podcasts and the popular

259
00:09:54,230 --> 00:09:52,080
listener colin should be scheduled in

260
00:09:56,310 --> 00:09:54,240
for i'm hoping next weekend that'll be

261
00:10:00,550 --> 00:09:56,320
the first weekend in september

262
00:10:02,550 --> 00:10:00,560
so email ufo uap am gmail.com to book a

263
00:10:04,150 --> 00:10:02,560

slot for that and just put listener call

264

00:10:06,949 --> 00:10:04,160

in if you can something like that in the

265

00:10:09,509 --> 00:10:06,959

subject so i can find out um or keep an

266

00:10:11,350 --> 00:10:09,519

eye on social media for those slots

267

00:10:13,350 --> 00:10:11,360

opening up i'll all around shows and due

268

00:10:15,509 --> 00:10:13,360

269

00:10:17,590 --> 00:10:15,519

get early access to dates and times as

271

00:10:21,509 --> 00:10:19,839

well but i do like to hear new voices so

272

00:10:23,350 --> 00:10:21,519

please do get in touch a few of you have

273

00:10:25,670 --> 00:10:23,360

done that already and i've kept those

274

00:10:26,550 --> 00:10:25,680

aside for the next call-in

275

00:10:29,430 --> 00:10:26,560

few

276

00:10:30,710 --> 00:10:29,440

graham let's crack on with our first

277

00:10:32,630 --> 00:10:30,720

piece on the newspaper we've got a few

278

00:10:34,550 --> 00:10:32,640

things to talk about we're going to be

279

00:10:37,190 --> 00:10:34,560

delving into obviously skyhub closing

280

00:10:39,430 --> 00:10:37,200

down we're going to discuss uh frank

281

00:10:41,590 --> 00:10:39,440

kendall who is the secretary of the us

282

00:10:44,230 --> 00:10:41,600

air force's comments and we're also

283

00:10:46,470 --> 00:10:44,240

going to discuss the osd briefing card q

284

00:10:48,870 --> 00:10:46,480

a particularly as well but the first

285

00:10:51,430 --> 00:10:48,880

things first we had the making contact

286

00:10:53,509 --> 00:10:51,440

conference that was organized by mark

287

00:10:55,750 --> 00:10:53,519

sims and had a host of speakers

288

00:10:58,310 --> 00:10:55,760

including loyola zondo danny sheehan

289

00:11:00,470 --> 00:10:58,320

richard dolan and others appearing as

290

00:11:02,389 --> 00:11:00,480

well obviously it's good to get past the

291

00:11:04,470 --> 00:11:02,399

talk of pricing and should or should

292

00:11:05,829 --> 00:11:04,480

these things be as expensive as they are

293

00:11:08,470 --> 00:11:05,839

when they're virtual and everything else

294

00:11:10,150 --> 00:11:08,480

and just get into the actual conference

295

00:11:11,750 --> 00:11:10,160

a lot happened i've not managed to catch

296

00:11:14,230 --> 00:11:11,760

up with it all yet john mark just done a

297

00:11:16,470 --> 00:11:14,240

great job transcribing um so i recommend

298

00:11:18,230 --> 00:11:16,480

people check out has video blogs and

299

00:11:20,790 --> 00:11:18,240

blogs and transcripts and everything

300

00:11:22,949 --> 00:11:20,800

themselves but uh we want to talk graham

301
00:11:25,190 --> 00:11:22,959
about some comments louie lozando made

302
00:11:26,790 --> 00:11:25,200
as part of his what was your overall

303
00:11:28,790 --> 00:11:26,800
thoughts on what you've heard or seen

304
00:11:30,230 --> 00:11:28,800
from the conference yourself

305
00:11:31,829 --> 00:11:30,240
yeah i mean i must admit i haven't

306
00:11:33,750 --> 00:11:31,839
actually sort of listened to all of it

307
00:11:35,750 --> 00:11:33,760
yet and i've only

308
00:11:38,230 --> 00:11:35,760
really concentrated on luella's on those

309
00:11:40,310 --> 00:11:38,240
uh sort of pieces because they seem to

310
00:11:43,030 --> 00:11:40,320
me to be the most interesting and uh you

311
00:11:45,190 --> 00:11:43,040
know most newsworthy uh sort of uh parts

312
00:11:47,590 --> 00:11:45,200
of the actual conference that's just a

313
00:11:49,670 --> 00:11:47,600

personal sort of uh viewpoint and there

314

00:11:52,790 --> 00:11:49,680

was there was a few things to pick up on

315

00:11:54,949 --> 00:11:52,800

uh he goes into um you know what where

316

00:11:56,630 --> 00:11:54,959

much of the the uap interest started and

317

00:11:58,790 --> 00:11:56,640

he talks about the late 1940s obviously

318

00:11:59,910 --> 00:11:58,800

with with roswell and then he basically

319

00:12:02,389 --> 00:11:59,920

says it started a lot of the

320

00:12:04,069 --> 00:12:02,399

conversation uh but it was a it was more

321

00:12:06,949 --> 00:12:04,079

of a difficult time because it was you

322

00:12:09,030 --> 00:12:06,959

know it was just after world war ii and

323

00:12:11,190 --> 00:12:09,040

things were changing in the world it was

324

00:12:13,350 --> 00:12:11,200

like an atomic age uh that didn't look

325

00:12:15,430 --> 00:12:13,360

locked the secrets of the atom that it

326

00:12:17,590 --> 00:12:15,440

uh it was a revolution for mankind you

327

00:12:19,430 --> 00:12:17,600

know for good up for bad um there was a

328

00:12:21,910 --> 00:12:19,440

space race going on so there were there

329

00:12:23,509 --> 00:12:21,920

was challenges in that way um you know

330

00:12:25,829 --> 00:12:23,519

things were constantly evolving

331

00:12:28,310 --> 00:12:25,839

sociologically because there was all

332

00:12:29,910 --> 00:12:28,320

these kind of growth periods and um you

333

00:12:31,750 --> 00:12:29,920

know generations where it just seemed to

334

00:12:32,470 --> 00:12:31,760

be sort of going really quickly rather

335

00:12:34,069 --> 00:12:32,480

than

336

00:12:36,230 --> 00:12:34,079

in the past where

337

00:12:37,910 --> 00:12:36,240

um sort of sociological changes would

338

00:12:40,629 --> 00:12:37,920

take sort of sometimes decades or

339

00:12:42,629 --> 00:12:40,639

centuries to to to be enacted things

340

00:12:44,870 --> 00:12:42,639

were changing every five minutes almost

341

00:12:46,230 --> 00:12:44,880

so you had um yeah you had like women's

342

00:12:48,150 --> 00:12:46,240

rights certainly being i think black

343

00:12:50,550 --> 00:12:48,160

rights being a thing um there was

344

00:12:52,150 --> 00:12:50,560

changes in music tastes fashion tastes

345

00:12:55,110 --> 00:12:52,160

um you know there was different types of

346

00:12:57,110 --> 00:12:55,120

wars or lower level wars like vietnam uh

347

00:12:58,470 --> 00:12:57,120

there was a threat of nuclear war there

348

00:13:00,710 --> 00:12:58,480

was a whole load of things that people

349

00:13:03,750 --> 00:13:00,720

had to contend with so upheavals in

350

00:13:06,150 --> 00:13:03,760

society to a to a degree there was a lot

351

00:13:07,350 --> 00:13:06,160

going on but then in the same token

352

00:13:09,590 --> 00:13:07,360

you're going to be in the air force and

353

00:13:11,430 --> 00:13:09,600

you've got a gen your generals hearing

354

00:13:14,470 --> 00:13:11,440

these things are around but they're not

355

00:13:17,269 --> 00:13:14,480

ours um the russians already went

356

00:13:19,110 --> 00:13:17,279

through that because he said because

357

00:13:21,590 --> 00:13:19,120

they the americans were flying things

358

00:13:23,269 --> 00:13:21,600

over russia in the 1960s but that they

359

00:13:24,470 --> 00:13:23,279

didn't know what they were they thought

360

00:13:26,790 --> 00:13:24,480

they were americans but they couldn't do

361

00:13:28,870 --> 00:13:26,800

anything about them and now that kind of

362

00:13:30,389 --> 00:13:28,880

role has been reversed the americans are

363

00:13:33,269 --> 00:13:30,399

now dealing with things they don't

364

00:13:34,870 --> 00:13:33,279

understand or haven't got a clue how to

365

00:13:36,550 --> 00:13:34,880

defeat but they're flying around all

366

00:13:38,310 --> 00:13:36,560

their their you know their sensitive

367

00:13:39,670 --> 00:13:38,320

areas um

368

00:13:40,389 --> 00:13:39,680

you know and lou says do they have the

369

00:13:42,470 --> 00:13:40,399

time

370

00:13:44,230 --> 00:13:42,480

graham let me ask you no yeah i just

371

00:13:45,590 --> 00:13:44,240

want to comment on that so that i i

372

00:13:47,190 --> 00:13:45,600

thought that was an interesting comment

373

00:13:49,110 --> 00:13:47,200

and it's one that people no doubt might

374

00:13:50,949 --> 00:13:49,120

have had their backs up a little bit on

375

00:13:53,269 --> 00:13:50,959

you know generals and and those in the

376

00:13:55,829 --> 00:13:53,279

military not understanding that this

377

00:13:57,030 --> 00:13:55,839

really advanced technology flying around

378

00:13:58,949 --> 00:13:57,040

isn't russian

379

00:14:00,870 --> 00:13:58,959

not it's not an adversarial technology

380

00:14:03,910 --> 00:14:00,880

let's just say that and it's not it's

381

00:14:07,269 --> 00:14:03,920

not u.s technology so they sort of box

382

00:14:09,509 --> 00:14:07,279

that off as we don't care because

383

00:14:12,470 --> 00:14:09,519

it shouldn't really be an issue it

384

00:14:14,550 --> 00:14:12,480

should be ours or it shouldn't be theirs

385

00:14:15,910 --> 00:14:14,560

so they just don't deal with it do you

386

00:14:17,590 --> 00:14:15,920

understand though as someone who does

387

00:14:19,509 --> 00:14:17,600

look into these things sometimes as well

388

00:14:20,710 --> 00:14:19,519

from an aviation point of view or you

389

00:14:22,389 --> 00:14:20,720

know that kind of

390

00:14:24,470 --> 00:14:22,399

you can see the military point of view

391

00:14:25,590 --> 00:14:24,480

do you see why they do look at it that

392

00:14:27,269 --> 00:14:25,600

way

393

00:14:29,350 --> 00:14:27,279

i think i think there's two strands to

394

00:14:30,389 --> 00:14:29,360

that i think they are desperate to know

395

00:14:32,389 --> 00:14:30,399

what they are

396

00:14:34,310 --> 00:14:32,399

if they don't know already because the

397

00:14:36,550 --> 00:14:34,320

last thing they want to do is admit an

398

00:14:38,790 --> 00:14:36,560

intelligence failure because that's a

399

00:14:40,389 --> 00:14:38,800

potential weakness from an adversary if

400

00:14:43,590 --> 00:14:40,399

they know that there's a problem with

401
00:14:45,430 --> 00:14:43,600
you know the kind of uh collecting uh an

402
00:14:47,670 --> 00:14:45,440
information on something that's flying

403
00:14:50,790 --> 00:14:47,680
around then that is a potential weakness

404
00:14:52,310 --> 00:14:50,800
that if it gets out that knowledge then

405
00:14:54,230 --> 00:14:52,320
another country can think oh yeah well

406
00:14:56,710 --> 00:14:54,240
there's an avenue for us to start sort

407
00:14:58,310 --> 00:14:56,720
of spying on them so at the very least

408
00:15:00,790 --> 00:14:58,320
so you've got that that you know that's

409
00:15:02,389 --> 00:15:00,800
one strand but the intelligence um you

410
00:15:04,629 --> 00:15:02,399
know they have the military and

411
00:15:06,550 --> 00:15:04,639
intelligence world have always been very

412
00:15:08,629 --> 00:15:06,560
low to admit failure

413
00:15:11,110 --> 00:15:08,639

in a lot of things it's just a mindset

414

00:15:12,790 --> 00:15:11,120

they have so they're not going to come

415

00:15:15,269 --> 00:15:12,800

round to people and say yeah we don't

416

00:15:16,310 --> 00:15:15,279

know what these are you know the the in

417

00:15:17,829 --> 00:15:16,320

the death in the background they're

418

00:15:20,550 --> 00:15:17,839

desperately trying to work out what it

419

00:15:22,230 --> 00:15:20,560

is but on the on the kind of public face

420

00:15:24,310 --> 00:15:22,240

it's oh there's nothing to see here

421

00:15:26,069 --> 00:15:24,320

that's the easier way to do it rather

422

00:15:28,230 --> 00:15:26,079

than admit there's a failure they'll

423

00:15:29,829 --> 00:15:28,240

just say it's not much of a problem or

424

00:15:32,310 --> 00:15:29,839

there's no problem or it's just

425

00:15:34,470 --> 00:15:32,320

something else rather than actually say

426

00:15:36,870 --> 00:15:34,480

you know we don't know what they are we

427

00:15:38,710 --> 00:15:36,880

don't know what to do with them and we

428

00:15:40,470 --> 00:15:38,720

can't combat them we can't stop them

429

00:15:41,990 --> 00:15:40,480

doing what they're doing

430

00:15:43,590 --> 00:15:42,000

yeah that's an interesting one when we

431

00:15:45,430 --> 00:15:43,600

talk about those intelligence failures

432

00:15:46,230 --> 00:15:45,440

because we've heard a few times comments

433

00:15:51,030 --> 00:15:46,240

from

434

00:15:53,670 --> 00:15:51,040

various different channels that this

435

00:15:56,470 --> 00:15:53,680

subject could be a huge intelligence

436

00:15:58,389 --> 00:15:56,480

failure on the levels of if not greater

437

00:16:01,269 --> 00:15:58,399

than you know something like 911 which

438

00:16:03,990 --> 00:16:01,279

is a very emotive subject a very emotive

439

00:16:07,030 --> 00:16:04,000

experience in time for people um but it

440

00:16:08,790 --> 00:16:07,040

could potentially be absolutely huge um

441

00:16:12,069 --> 00:16:08,800

lou mentioned obviously the talk was

442

00:16:14,870 --> 00:16:12,079

split into yesterday today and tomorrow

443

00:16:16,710 --> 00:16:14,880

and the it talks about today as and you

444

00:16:18,629 --> 00:16:16,720

know that relatively where we're at

445

00:16:19,990 --> 00:16:18,639

right now and again he mentioned that

446

00:16:21,829 --> 00:16:20,000

the last three years there was the

447

00:16:23,910 --> 00:16:21,839

release of the videos and the dod

448

00:16:25,670 --> 00:16:23,920

authentication of them there's been

449

00:16:28,310 --> 00:16:25,680

briefings in congress with a lot of

450

00:16:30,150 --> 00:16:28,320

compelling data coming out which i know

451
00:16:31,749 --> 00:16:30,160
people will be shouting give us the data

452
00:16:33,430 --> 00:16:31,759
we're not going to get that data folks

453
00:16:34,629 --> 00:16:33,440
unless it leaks you know and it's one of

454
00:16:36,389 --> 00:16:34,639
those can i hold tight for that

455
00:16:37,910 --> 00:16:36,399
happening hopefully and because we've

456
00:16:39,829 --> 00:16:37,920
still never saw anything of the the

457
00:16:41,350 --> 00:16:39,839
classified section of that uep task

458
00:16:43,590 --> 00:16:41,360
force report yet

459
00:16:45,110 --> 00:16:43,600
and i i say yeah with my fingers crossed

460
00:16:46,870 --> 00:16:45,120
and we've got elected officials

461
00:16:48,629 --> 00:16:46,880
championing the cause

462
00:16:50,150 --> 00:16:48,639
presidents admitting to being briefed

463
00:16:51,350 --> 00:16:50,160

about ufos that's something we've kind

464

00:16:53,749 --> 00:16:51,360

of heard in the past but it's always

465

00:16:55,670 --> 00:16:53,759

nice to hear that and and reaffirmed and

466

00:16:57,110 --> 00:16:55,680

even graham's something i always i

467

00:16:59,350 --> 00:16:57,120

always enjoyed and it seems to have

468

00:17:00,949 --> 00:16:59,360

calmed down a lot since then because so

469

00:17:03,590 --> 00:17:00,959

much again is happening and right now

470

00:17:05,270 --> 00:17:03,600

afghanistan's dominating the news

471

00:17:06,390 --> 00:17:05,280

quite rightly sewn up from a global

472

00:17:08,390 --> 00:17:06,400

point of view

473

00:17:10,150 --> 00:17:08,400

that we were having

474

00:17:12,069 --> 00:17:10,160

press briefings in the white house where

475

00:17:14,870 --> 00:17:12,079

journalists were finally asking about

476
00:17:17,029 --> 00:17:14,880
ufos and new aps some of them caveating

477
00:17:19,110 --> 00:17:17,039
their questions with i can't believe i'm

478
00:17:20,710 --> 00:17:19,120
asking about this but

479
00:17:22,390 --> 00:17:20,720
and it's just i think a natural thing

480
00:17:24,710 --> 00:17:22,400
that we got to the top of that news

481
00:17:26,309 --> 00:17:24,720
cycle in the peak of that news cycle and

482
00:17:28,069 --> 00:17:26,319
the report was about to come out and it

483
00:17:30,950 --> 00:17:28,079
came out and it kind of died off a

484
00:17:32,870 --> 00:17:30,960
little bit and i think that right now we

485
00:17:35,750 --> 00:17:32,880
have no chance given what's going on

486
00:17:37,990 --> 00:17:35,760
with covid and afghanistan particularly

487
00:17:41,110 --> 00:17:38,000
in any international news cycle to hear

488
00:17:42,789 --> 00:17:41,120

much if at all about ufos or uaps but i

489

00:17:45,110 --> 00:17:42,799

think the next time we do have a chance

490

00:17:47,990 --> 00:17:45,120

to see that come back into the thinking

491

00:17:50,150 --> 00:17:48,000

of reporters will be like lou mentions

492

00:17:53,190 --> 00:17:50,160

when that 90-day report

493

00:17:54,710 --> 00:17:53,200

comes out and that update uh to you know

494

00:17:56,230 --> 00:17:54,720

the senate and congress and those who'll

495

00:17:57,830 --> 00:17:56,240

be involved in that do you think we're

496

00:17:59,029 --> 00:17:57,840

going to hear much more when we do get

497

00:18:03,750 --> 00:17:59,039

that update

498

00:18:05,190 --> 00:18:03,760

be classified personally um i haven't

499

00:18:07,190 --> 00:18:05,200

seen anything that says there's going to

500

00:18:09,590 --> 00:18:07,200

be a public element to it but we never

501
00:18:12,230 --> 00:18:09,600
know they may bring something out just

502
00:18:15,190 --> 00:18:12,240
to forestall any kind of media or public

503
00:18:17,590 --> 00:18:15,200
inquiries into what is in this

504
00:18:19,510 --> 00:18:17,600
intermediary 90 day report

505
00:18:20,950 --> 00:18:19,520
in terms of the news cycle you know

506
00:18:22,390 --> 00:18:20,960
there's so many competing things you

507
00:18:25,029 --> 00:18:22,400
talk about afghanistan but you've still

508
00:18:27,190 --> 00:18:25,039
got covid and there are you know climate

509
00:18:28,870 --> 00:18:27,200
change uh there's there's still you know

510
00:18:30,310 --> 00:18:28,880
inequality kind of issues around the

511
00:18:33,029 --> 00:18:30,320
world there's a whole load of things

512
00:18:35,110 --> 00:18:33,039
which are competing for news uh you know

513
00:18:38,310 --> 00:18:35,120

spots on news programs in the top spot

514

00:18:41,270 --> 00:18:38,320

etc so it's a very very crowded kind of

515

00:18:44,310 --> 00:18:41,280

marketplace to shoehorn information

516

00:18:46,070 --> 00:18:44,320

about uaps into so i think you know the

517

00:18:48,950 --> 00:18:46,080

information that we got up to the end of

518

00:18:51,110 --> 00:18:48,960

um you know end of june was amazing how

519

00:18:53,510 --> 00:18:51,120

how much it actually permeated the the

520

00:18:55,190 --> 00:18:53,520

the average news cycle it was it was

521

00:18:57,909 --> 00:18:55,200

like i can't i can't even remember a

522

00:19:00,630 --> 00:18:57,919

time like that in my life when that was

523

00:19:03,029 --> 00:19:00,640

that was the case but you're right after

524

00:19:05,510 --> 00:19:03,039

the preliminary report it all just died

525

00:19:08,630 --> 00:19:05,520

away but then again we haven't had any

526

00:19:10,310 --> 00:19:08,640

sort of drip feed of of real kind of

527

00:19:12,390 --> 00:19:10,320

information wouldn't get our teeth into

528

00:19:14,630 --> 00:19:12,400

like we did on the run-up to that we've

529

00:19:16,470 --> 00:19:14,640

had some things little bits and pieces

530

00:19:18,230 --> 00:19:16,480

but they've not been on the scale of

531

00:19:20,630 --> 00:19:18,240

when we had you know on the run-up to

532

00:19:23,029 --> 00:19:20,640

that report so unless that kicks off

533

00:19:25,350 --> 00:19:23,039

again and p and people keep saying

534

00:19:27,029 --> 00:19:25,360

jeremy corbell you know has information

535

00:19:28,710 --> 00:19:27,039

still locked away which he you know for

536

00:19:30,310 --> 00:19:28,720

whatever reason you can't get out there

537

00:19:31,510 --> 00:19:30,320

well that might be the case but maybe

538

00:19:33,110 --> 00:19:31,520

this is the time when you should start

539

00:19:34,390 --> 00:19:33,120

releasing some of it if you can but

540

00:19:36,390 --> 00:19:34,400

there might be reasons why you can't of

541

00:19:37,909 --> 00:19:36,400

course but you would like to think that

542

00:19:39,830 --> 00:19:37,919

some other people out there might be

543

00:19:41,909 --> 00:19:39,840

able to release some bits and pieces

544

00:19:43,990 --> 00:19:41,919

which just move us along a bit more as

545

00:19:46,230 --> 00:19:44,000

well and get us talking about it and get

546

00:19:47,990 --> 00:19:46,240

the news talking about it rather than

547

00:19:49,990 --> 00:19:48,000

what it seems at least just using

548

00:19:51,990 --> 00:19:50,000

twitter as a small kind of

549

00:19:53,590 --> 00:19:52,000

a snapshot of what's happening everybody

550

00:19:55,430 --> 00:19:53,600

just seems to be at azure's throats at

551
00:19:57,430 --> 00:19:55,440
the moment rather than concentrating on

552
00:19:58,789 --> 00:19:57,440
what we're all campaigning towards if

553
00:20:00,789 --> 00:19:58,799
you like

554
00:20:03,590 --> 00:20:00,799
yeah there's been a bit of a vacuum or

555
00:20:05,909 --> 00:20:03,600
void of of major news or leaks of videos

556
00:20:07,590 --> 00:20:05,919
and and it has caused that you're right

557
00:20:09,110 --> 00:20:07,600
that there's people just grasping for

558
00:20:11,190 --> 00:20:09,120
straws or trying to create news

559
00:20:12,789 --> 00:20:11,200
themselves and it's one of those you

560
00:20:14,630 --> 00:20:12,799
just have to sit back and kind of let

561
00:20:16,070 --> 00:20:14,640
them let them go on with it and it's

562
00:20:17,590 --> 00:20:16,080
just kind of filtering through the

563
00:20:19,190 --> 00:20:17,600

static to get to the good stuff because

564

00:20:20,549 --> 00:20:19,200

there are there are bits of news out

565

00:20:22,789 --> 00:20:20,559

there and some of those we're going to

566

00:20:25,669 --> 00:20:22,799

touch on within this news report itself

567

00:20:27,430 --> 00:20:25,679

um lou then mentioned that really more

568

00:20:28,950 --> 00:20:27,440

importantly and by the way if you

569

00:20:31,190 --> 00:20:28,960

haven't looked at this yourself or

570

00:20:33,270 --> 00:20:31,200

followed joe morgier's updates then you

571

00:20:36,549 --> 00:20:33,280

can even go to reddit and there is a

572

00:20:38,070 --> 00:20:36,559

huge uh thread on just lou's notes from

573

00:20:39,750 --> 00:20:38,080

the comments and that's what we're using

574

00:20:41,190 --> 00:20:39,760

as well for notes for this so i

575

00:20:43,270 --> 00:20:41,200

recommend people at least go and check

576

00:20:45,190 --> 00:20:43,280

that out as well i'll put the link in

577

00:20:47,350 --> 00:20:45,200

the description for this show reminding

578

00:20:49,350 --> 00:20:47,360

myself to do that mentally and i hope

579

00:20:50,870 --> 00:20:49,360

hopefully i do if i don't just nudge me

580

00:20:52,230 --> 00:20:50,880

on some kind of platform and tell me

581

00:20:55,110 --> 00:20:52,240

andy you've not put that link in and

582

00:20:57,190 --> 00:20:55,120

i'll get it sorted um but he mentioned

583

00:20:59,510 --> 00:20:57,200

tomorrow is the most important thing as

584

00:21:02,230 --> 00:20:59,520

we look at this and and talks about how

585

00:21:04,310 --> 00:21:02,240

we have evolved more in 200 years than

586

00:21:05,830 --> 00:21:04,320

since the beginning of mankind and

587

00:21:07,669 --> 00:21:05,840

that's that's an incredible way to look

588

00:21:10,149 --> 00:21:07,679

at it but as we have discussed on the

589

00:21:12,630 --> 00:21:10,159

podcast many times with different guests

590

00:21:15,190 --> 00:21:12,640

um if if you thought of an iphone 100 or

591

00:21:16,630 --> 00:21:15,200

200 years ago it would be pure magic

592

00:21:18,870 --> 00:21:16,640

whereas now it's just science and

593

00:21:20,870 --> 00:21:18,880

technology it's just advancement in

594

00:21:23,750 --> 00:21:20,880

technology and

595

00:21:26,470 --> 00:21:23,760

at one point what is magic now becomes

596

00:21:28,870 --> 00:21:26,480

reality and a practical application you

597

00:21:30,470 --> 00:21:28,880

know it just it blows your mind what we

598

00:21:32,149 --> 00:21:30,480

have and some of the technology we're

599

00:21:34,870 --> 00:21:32,159

going to have in 50 years time will no

600

00:21:36,549 --> 00:21:34,880

doubt be mind blowing and mind expanding

601
00:21:38,549 --> 00:21:36,559
again and that's what louis is trying to

602
00:21:41,110 --> 00:21:38,559
get the point across there you know how

603
00:21:43,590 --> 00:21:41,120
much more another species are 400 years

604
00:21:44,870 --> 00:21:43,600
ahead of us or a million or 10 million

605
00:21:46,390 --> 00:21:44,880
or a billion

606
00:21:47,990 --> 00:21:46,400
if there's been that much time for

607
00:21:50,310 --> 00:21:48,000
something to advance what would it look

608
00:21:52,950 --> 00:21:50,320
like you know would it be technological

609
00:21:54,549 --> 00:21:52,960
spiritual would it be conscious based

610
00:21:56,230 --> 00:21:54,559
and he said we can all agree that if

611
00:21:59,270 --> 00:21:56,240
there is something out there ahead of us

612
00:22:00,630 --> 00:21:59,280
even by 100 years we might not even

613
00:22:02,630 --> 00:22:00,640

recognize it

614

00:22:04,310 --> 00:22:02,640

and i really like that he he says we

615

00:22:05,990 --> 00:22:04,320

talk to cats and dogs and invest

616

00:22:08,549 --> 00:22:06,000

emotions with them there's an emotional

617

00:22:10,390 --> 00:22:08,559

relationship but as a human we don't

618

00:22:12,950 --> 00:22:10,400

know but we sign anthropo

619

00:22:14,789 --> 00:22:12,960

anthropomorphic characteristics anyway

620

00:22:16,710 --> 00:22:14,799

we assign qualities to these things that

621

00:22:18,870 --> 00:22:16,720

might not come from here at all and he's

622

00:22:21,669 --> 00:22:18,880

talking about you know aliens or 80 or

623

00:22:23,190 --> 00:22:21,679

uaps whatever they may be and and again

624

00:22:26,470 --> 00:22:23,200

i've mentioned this before that everyone

625

00:22:28,789 --> 00:22:26,480

boxes off but why would they be a threat

626

00:22:30,470 --> 00:22:28,799

or why do they do this and it's like

627

00:22:32,310 --> 00:22:30,480

that the why might not even be something

628

00:22:34,390 --> 00:22:32,320

we can answer graham that that's just

629

00:22:35,830 --> 00:22:34,400

the case isn't it yeah that's right i

630

00:22:38,230 --> 00:22:35,840

mean everybody does assume human

631

00:22:39,909 --> 00:22:38,240

characteristics to to animals uh you

632

00:22:41,430 --> 00:22:39,919

know yes people talk to the dogs and

633

00:22:43,430 --> 00:22:41,440

their cats as though they're you know

634

00:22:45,990 --> 00:22:43,440

that they're a brother or a sister um

635

00:22:48,549 --> 00:22:46,000

and the same goes with when we assign um

636

00:22:50,789 --> 00:22:48,559

sort of motive uh an agenda to you know

637

00:22:53,590 --> 00:22:50,799

to eat possibly tea

638

00:22:55,990 --> 00:22:53,600

and it's it's weird because you know

639

00:22:57,909 --> 00:22:56,000

you see on on science fiction uh star

640

00:22:59,190 --> 00:22:57,919

trek used to have a kind of common trope

641

00:23:01,270 --> 00:22:59,200

where they would occasionally come

642

00:23:03,350 --> 00:23:01,280

across life forms which had basically

643

00:23:05,430 --> 00:23:03,360

evolved beyond a corporeal form so that

644

00:23:07,110 --> 00:23:05,440

they're taking just like pure energy if

645

00:23:09,270 --> 00:23:07,120

you like and that could be something

646

00:23:11,510 --> 00:23:09,280

where you know where like um

647

00:23:13,029 --> 00:23:11,520

a species evolves to so we might not as

648

00:23:14,549 --> 00:23:13,039

i say it might not even recognize it

649

00:23:16,870 --> 00:23:14,559

because it might not be it might be

650

00:23:18,470 --> 00:23:16,880

invisible it it could be just a it could

651

00:23:19,750 --> 00:23:18,480

be just a force it could be energy it

652

00:23:21,029 --> 00:23:19,760

could be you know anything like that

653

00:23:24,230 --> 00:23:21,039

which you can't actually touch or you

654

00:23:26,710 --> 00:23:24,240

can't see um so and how do you then

655

00:23:28,549 --> 00:23:26,720

assign a kind of human kind of label on

656

00:23:31,350 --> 00:23:28,559

that it's something that we can't even

657

00:23:33,510 --> 00:23:31,360

comprehend never mind understand so so

658

00:23:35,990 --> 00:23:33,520

you know for us trying to put a label on

659

00:23:37,990 --> 00:23:36,000

it just seems a bit daft really um but

660

00:23:39,909 --> 00:23:38,000

that's the way we operate we you know

661

00:23:41,669 --> 00:23:39,919

humanity's done that since time

662

00:23:44,549 --> 00:23:41,679

immemorial we've always put our own

663

00:23:47,990 --> 00:23:44,559

stamp on on other on on animals on other

664

00:23:50,149 --> 00:23:48,000

societies um so why don't we

665

00:23:51,909 --> 00:23:50,159

doing it to aliens is no different than

666

00:23:54,630 --> 00:23:51,919

what we've done to uh other people and

667

00:23:56,390 --> 00:23:54,640

other animals on on this planet so i'm

668

00:23:59,190 --> 00:23:56,400

not surprised in the least

669

00:24:00,630 --> 00:23:59,200

it's how we're programmed but i i think

670

00:24:02,470 --> 00:24:00,640

we're going to come across something at

671

00:24:05,029 --> 00:24:02,480

some stage which we're going to not have

672

00:24:07,029 --> 00:24:05,039

a clue about and you of course in other

673

00:24:09,190 --> 00:24:07,039

science fiction you see that as well

674

00:24:10,070 --> 00:24:09,200

where the they're just humans come

675

00:24:12,630 --> 00:24:10,080

across

676
00:24:14,950 --> 00:24:12,640
um other races or other species or other

677
00:24:16,390 --> 00:24:14,960
life forms which don't even look like

678
00:24:18,149 --> 00:24:16,400
you know what we might think that

679
00:24:19,830 --> 00:24:18,159
they're completely different and that's

680
00:24:22,230 --> 00:24:19,840
the best science fiction because it

681
00:24:24,149 --> 00:24:22,240
makes you think it's not just thinking

682
00:24:27,190 --> 00:24:24,159
it's some bug-eyed monster or it's a

683
00:24:29,750 --> 00:24:27,200
nordic um you know or it's a gray

684
00:24:31,669 --> 00:24:29,760
it's it's likely just as much likely to

685
00:24:34,310 --> 00:24:31,679
be something completely different and

686
00:24:35,909 --> 00:24:34,320
completely outside our capability to

687
00:24:37,909 --> 00:24:35,919
understand

688
00:24:39,590 --> 00:24:37,919

absolutely um again it's always good to

689

00:24:41,350 --> 00:24:39,600

hear lou talking especially in these

690

00:24:43,590 --> 00:24:41,360

settings he can just

691

00:24:45,269 --> 00:24:43,600

he always adds a little something and i

692

00:24:47,110 --> 00:24:45,279

know there are people who always want to

693

00:24:49,190 --> 00:24:47,120

hear luke come out and say exactly what

694

00:24:51,269 --> 00:24:49,200

he knows and and everything else but

695

00:24:53,029 --> 00:24:51,279

you've got to bide your time and again

696

00:24:55,029 --> 00:24:53,039

personally i think he does a a really

697

00:24:57,190 --> 00:24:55,039

good job and he's always always worth

698

00:24:59,750 --> 00:24:57,200

hearing in any sort of setting so and

699

00:25:02,310 --> 00:24:59,760

remember even caveat appearance by

700

00:25:04,710 --> 00:25:02,320

saying he he took no money for appearing

701
00:25:06,710 --> 00:25:04,720
um and you can go and listen to a

702
00:25:08,789 --> 00:25:06,720
hundred luella zondo interviews now on

703
00:25:11,110 --> 00:25:08,799
various different platforms and get a

704
00:25:13,350 --> 00:25:11,120
really good background so um lewis still

705
00:25:15,590 --> 00:25:13,360
has a lot of work and a lot of input to

706
00:25:17,350 --> 00:25:15,600
to bring to this subject and i think

707
00:25:19,669 --> 00:25:17,360
this is probably a good

708
00:25:22,230 --> 00:25:19,679
summary of where he thinks we are at

709
00:25:24,149 --> 00:25:22,240
currently and things will be moving

710
00:25:26,310 --> 00:25:24,159
forward still as he said the train has

711
00:25:27,110 --> 00:25:26,320
left the station and it's not going back

712
00:25:30,149 --> 00:25:27,120
now

713
00:25:32,950 --> 00:25:30,159

uh so yeah let's move on to um some sad

714

00:25:35,909 --> 00:25:32,960

news to be honest because uh skyhub is

715

00:25:37,990 --> 00:25:35,919

is closing down its us operations i'm

716

00:25:39,190 --> 00:25:38,000

going to read out a statement from chris

717

00:25:42,070 --> 00:25:39,200

cogswell

718

00:25:43,669 --> 00:25:42,080

on that he said unfortunately skyhub

719

00:25:46,070 --> 00:25:43,679

will be shutting down as a managed

720

00:25:47,750 --> 00:25:46,080

project in the next few weeks initially

721

00:25:49,669 --> 00:25:47,760

the goal was to create a project which

722

00:25:51,830 --> 00:25:49,679

can live on past the existence of the

723

00:25:53,830 --> 00:25:51,840

internal working group and we believe we

724

00:25:55,669 --> 00:25:53,840

have achieved that however we do not

725

00:25:57,909 --> 00:25:55,679

feel it is fair to prolong this decision

726

00:26:00,230 --> 00:25:57,919

any further especially giving each of

727

00:26:01,990 --> 00:26:00,240

you our strong support or each of your

728

00:26:03,750 --> 00:26:02,000

strong support in the team

729

00:26:06,070 --> 00:26:03,760

this comes about due to many different

730

00:26:08,950 --> 00:26:06,080

issues including covid changes in

731

00:26:10,710 --> 00:26:08,960

personal uh personnel on the project and

732

00:26:13,269 --> 00:26:10,720

changes to the time available for each

733

00:26:16,149 --> 00:26:13,279

of the core team members we simply don't

734

00:26:19,190 --> 00:26:16,159

believe we can continue um as we have in

735

00:26:20,789 --> 00:26:19,200

good faith so um it does go on to talk a

736

00:26:23,430 --> 00:26:20,799

little bit more and basically say that

737

00:26:25,750 --> 00:26:23,440

the discord chat for people who have

738

00:26:28,149 --> 00:26:25,760

utilized sky hubs will still be open

739

00:26:30,390 --> 00:26:28,159

that the software is going to remain

740

00:26:32,230 --> 00:26:30,400

open source and open platform so anyone

741

00:26:34,310 --> 00:26:32,240

can pick it up and anyone can still make

742

00:26:36,870 --> 00:26:34,320

tweaks and and make it better and use it

743

00:26:39,590 --> 00:26:36,880

going forward and that there is still

744

00:26:42,390 --> 00:26:39,600

going to be some form of european team

745

00:26:43,990 --> 00:26:42,400

uh that richard will be kind of keeping

746

00:26:45,350 --> 00:26:44,000

going forward with that as well so we're

747

00:26:47,750 --> 00:26:45,360

still waiting on some more information

748

00:26:49,350 --> 00:26:47,760

coming out on top of that um it was good

749

00:26:51,990 --> 00:26:49,360

of course again i give everyone that

750

00:26:54,310 --> 00:26:52,000

statement uh steve mcdaniel who i

751
00:26:56,149 --> 00:26:54,320
interviewed way back for the podcast in

752
00:26:58,390 --> 00:26:56,159
its earlier days was one of those

753
00:27:00,630 --> 00:26:58,400
members he resigned back in march

754
00:27:02,630 --> 00:27:00,640
largely due to the the issues mentioned

755
00:27:05,190 --> 00:27:02,640
there that you know his own personal

756
00:27:07,350 --> 00:27:05,200
circumstances changed jobs changed

757
00:27:09,750 --> 00:27:07,360
people went back to work after covert

758
00:27:11,190 --> 00:27:09,760
started kind of waning and obviously we

759
00:27:12,470 --> 00:27:11,200
know we're kind of going back up and

760
00:27:14,710 --> 00:27:12,480
down depending where you live in the

761
00:27:16,870 --> 00:27:14,720
world you know be safe everyone but

762
00:27:18,710 --> 00:27:16,880
people's time just got a little bit less

763
00:27:21,750 --> 00:27:18,720

so he had to leave as well but he is

764

00:27:23,909 --> 00:27:21,760

working on a smaller scale project that

765

00:27:26,070 --> 00:27:23,919

he hopes and will be more accessible to

766

00:27:27,590 --> 00:27:26,080

people as well and we await kind of

767

00:27:30,070 --> 00:27:27,600

further information about that but

768

00:27:31,510 --> 00:27:30,080

graham i'm sad to see skyhub can i go

769

00:27:33,590 --> 00:27:31,520

the way it did because it's a really

770

00:27:36,149 --> 00:27:33,600

good idea but it is something that i

771

00:27:37,909 --> 00:27:36,159

think still has has a place and one guys

772

00:27:40,870 --> 00:27:37,919

or another what are your thoughts

773

00:27:42,549 --> 00:27:40,880

no i agree yeah it's an amazing concept

774

00:27:45,190 --> 00:27:42,559

for people to have thought about you

775

00:27:46,710 --> 00:27:45,200

putting that into practice um so people

776

00:27:48,950 --> 00:27:46,720

could just you know download the

777

00:27:51,190 --> 00:27:48,960

software get the bits and pieces build

778

00:27:53,590 --> 00:27:51,200

their own monitoring system if you like

779

00:27:55,750 --> 00:27:53,600

to look you know to look for uap

780

00:27:58,389 --> 00:27:55,760

and record information

781

00:27:59,430 --> 00:27:58,399

it's a it's a wonderful concept i think

782

00:28:01,190 --> 00:27:59,440

um

783

00:28:02,549 --> 00:28:01,200

you know i suppose you could maybe argue

784

00:28:04,389 --> 00:28:02,559

that there was a bit of overreach here

785

00:28:05,590 --> 00:28:04,399

that they were expecting maybe too much

786

00:28:07,430 --> 00:28:05,600

from people who

787

00:28:09,190 --> 00:28:07,440

didn't have a lot of money and it was

788

00:28:11,269 --> 00:28:09,200

only open to people who you know had

789

00:28:14,149 --> 00:28:11,279

like say six hundred dollars minimum to

790

00:28:17,830 --> 00:28:14,159

spend what 450 pounds or so to spend for

791

00:28:18,950 --> 00:28:17,840

the the basic level kit um i know i know

792

00:28:21,669 --> 00:28:18,960

they were talking about well you could

793

00:28:24,149 --> 00:28:21,679

just pick it up you know bit by bit but

794

00:28:25,510 --> 00:28:24,159

to me that that part of the concept

795

00:28:27,830 --> 00:28:25,520

sounded a bit like you know those part

796

00:28:30,310 --> 00:28:27,840

work magazines where you can build like

797

00:28:33,430 --> 00:28:30,320

a model sailing ship um and you get the

798

00:28:35,669 --> 00:28:33,440

first installments at like two hours

799

00:28:37,510 --> 00:28:35,679

they just see that yeah yeah so then you

800

00:28:39,190 --> 00:28:37,520

get you get a couple of parts

801
00:28:42,070 --> 00:28:39,200
and then the next like three or four

802
00:28:43,669 --> 00:28:42,080
issues are the same price 2.99 and you

803
00:28:46,149 --> 00:28:43,679
you can get you build like probably the

804
00:28:48,389 --> 00:28:46,159
keel of the of the sailing ship but then

805
00:28:50,870 --> 00:28:48,399
you have to realize there's another 16

806
00:28:53,110 --> 00:28:50,880
56 parts that you've got to then pay

807
00:28:56,070 --> 00:28:53,120
about seven pounds each for and you get

808
00:28:58,149 --> 00:28:56,080
one bit of the ship for each one so it

809
00:28:59,430 --> 00:28:58,159
to me it all seemed a bit like that that

810
00:29:02,070 --> 00:28:59,440
you were going to spend a hell of a lot

811
00:29:03,350 --> 00:29:02,080
of money but until you spent it all you

812
00:29:05,190 --> 00:29:03,360
weren't going to see anything that you

813
00:29:06,549 --> 00:29:05,200

could you could actually use in any

814

00:29:08,630 --> 00:29:06,559

meaningful way

815

00:29:10,789 --> 00:29:08,640

and for people like me who don't have a

816

00:29:12,389 --> 00:29:10,799

huge amount of money to rub together

817

00:29:15,590 --> 00:29:12,399

it was just beyond me

818

00:29:17,909 --> 00:29:15,600

even the basic level i'm afraid was you

819

00:29:20,710 --> 00:29:17,919

know i i couldn't justify spending that

820

00:29:23,990 --> 00:29:20,720

amount of money in one go to build

821

00:29:26,710 --> 00:29:24,000

something nor could i really um sort of

822

00:29:28,950 --> 00:29:26,720

um afford the investment week after week

823

00:29:30,710 --> 00:29:28,960

to pay for it either or just you know

824

00:29:32,149 --> 00:29:30,720

month after month and i think if you

825

00:29:34,149 --> 00:29:32,159

were doing it in installments it was

826

00:29:35,350 --> 00:29:34,159

going to take an incredibly long time

827

00:29:37,830 --> 00:29:35,360

most of the time you'd probably just sit

828

00:29:40,070 --> 00:29:37,840

on a shelf somewhere and gather dust and

829

00:29:41,510 --> 00:29:40,080

then your motivation might go or

830

00:29:44,310 --> 00:29:41,520

something else might be released in the

831

00:29:46,870 --> 00:29:44,320

meantime which was better cheaper faster

832

00:29:49,590 --> 00:29:46,880

to put up so like i say i think the

833

00:29:50,950 --> 00:29:49,600

original concept was great but obviously

834

00:29:52,630 --> 00:29:50,960

the things he described there in the

835

00:29:54,230 --> 00:29:52,640

statement you know about the fact that

836

00:29:56,950 --> 00:29:54,240

it was it was time conscious it was

837

00:29:59,029 --> 00:29:56,960

labor conscious uh um but and they were

838

00:30:00,630 --> 00:29:59,039

using it all up when the covey was on

839

00:30:02,710 --> 00:30:00,640

and people won't do anything but then

840

00:30:05,590 --> 00:30:02,720

when people go back to the normal lives

841

00:30:07,269 --> 00:30:05,600

that free time um you know goes and

842

00:30:09,110 --> 00:30:07,279

therefore they can't spend as much time

843

00:30:11,430 --> 00:30:09,120

as they want to on it and it just falls

844

00:30:12,870 --> 00:30:11,440

by the wayside so it's a shame the only

845

00:30:14,710 --> 00:30:12,880

good thing about it is that it seems to

846

00:30:16,630 --> 00:30:14,720

be picked up by somewhere in europe and

847

00:30:18,549 --> 00:30:16,640

they're carrying on the brand if you

848

00:30:20,230 --> 00:30:18,559

like and there'll be some information

849

00:30:22,230 --> 00:30:20,240

that's available for people who have

850

00:30:24,070 --> 00:30:22,240

invested in it to run with it and maybe

851

00:30:26,310 --> 00:30:24,080

tweak it as well so hopefully it'll come

852

00:30:27,990 --> 00:30:26,320

out in some other form in the future but

853

00:30:30,230 --> 00:30:28,000

i think if anybody's going to do this in

854

00:30:32,630 --> 00:30:30,240

future it needs to be a little bit more

855

00:30:34,549 --> 00:30:32,640

affordable and it needs to be something

856

00:30:36,230 --> 00:30:34,559

that if you're going to get in parts you

857

00:30:38,470 --> 00:30:36,240

mean need to be able to do it quicker

858

00:30:40,470 --> 00:30:38,480

and cheaper because otherwise it's going

859

00:30:42,789 --> 00:30:40,480

to be still beyond people and beyond

860

00:30:45,110 --> 00:30:42,799

their motivation and beyond what they

861

00:30:47,350 --> 00:30:45,120

can grasp in one go

862

00:30:50,149 --> 00:30:47,360

yeah avi loeb mentioned as part of a

863

00:30:51,510 --> 00:30:50,159

galileo project at sky hub and i think

864

00:30:53,590 --> 00:30:51,520

that would be a

865

00:30:55,269 --> 00:30:53,600

as a as an organization that now has

866

00:30:56,870 --> 00:30:55,279

some funding and also that are going out

867

00:30:59,510 --> 00:30:56,880

for public funding

868

00:31:01,590 --> 00:30:59,520

a good way to invest small chunks and

869

00:31:03,269 --> 00:31:01,600

get people on board especially people

870

00:31:05,590 --> 00:31:03,279

who may already have

871

00:31:08,549 --> 00:31:05,600

have sky hubs is that a way galileo

872

00:31:10,630 --> 00:31:08,559

could utilize those existing sky hubs

873

00:31:12,630 --> 00:31:10,640

that seems to be a good foundation for a

874

00:31:15,190 --> 00:31:12,640

software and a platform already out

875

00:31:17,190 --> 00:31:15,200

there that again they could maybe

876

00:31:18,710 --> 00:31:17,200

use as part of project galileo and say

877

00:31:20,789 --> 00:31:18,720

to people you know

878

00:31:23,110 --> 00:31:20,799

again maybe more science or you know

879

00:31:25,029 --> 00:31:23,120

people with that kind of money to invest

880

00:31:26,630 --> 00:31:25,039

and depending on locations you know they

881

00:31:28,470 --> 00:31:26,640

would even help fund putting one of

882

00:31:30,149 --> 00:31:28,480

these together if there were certain

883

00:31:33,029 --> 00:31:30,159

locations that they really felt would

884

00:31:35,510 --> 00:31:33,039

benefit from having this skyhub

885

00:31:37,830 --> 00:31:35,520

rather than you know is it a benefit for

886

00:31:40,950 --> 00:31:37,840

again talking about the galileo project

887

00:31:42,149 --> 00:31:40,960

of me andy having a skyhub on my house

888

00:31:44,389 --> 00:31:42,159

for them

889

00:31:46,310 --> 00:31:44,399

probably not it would just be pure luck

890

00:31:48,149 --> 00:31:46,320

or random but are there certain

891

00:31:50,070 --> 00:31:48,159

locations that maybe they do want to

892

00:31:52,070 --> 00:31:50,080

focus on and it's a case of they would

893

00:31:55,350 --> 00:31:52,080

reach out to organizations or people

894

00:31:58,310 --> 00:31:55,360

within that vicinity and offer to fund

895

00:31:59,590 --> 00:31:58,320

or part fund the skyhub um and you know

896

00:32:01,669 --> 00:31:59,600

it would just be a case of you would be

897

00:32:03,909 --> 00:32:01,679

like looking after it for them because

898

00:32:06,070 --> 00:32:03,919

the location somewhere they they like

899

00:32:07,509 --> 00:32:06,080

who knows but that's that's them just a

900

00:32:09,269 --> 00:32:07,519

little bit of news on the sky hub but we

901
00:32:11,430 --> 00:32:09,279
will keep you up to date as more comes

902
00:32:13,110 --> 00:32:11,440
out with that in the future as well um

903
00:32:14,389 --> 00:32:13,120
but they've done some good work and i

904
00:32:15,750 --> 00:32:14,399
think they've laid a foundation there

905
00:32:18,070 --> 00:32:15,760
for the future

906
00:32:20,789 --> 00:32:18,080
moving on the next one was frank kendall

907
00:32:22,149 --> 00:32:20,799
who is secretary of the us air force

908
00:32:24,789 --> 00:32:22,159
made some comments that were

909
00:32:26,789 --> 00:32:24,799
particularly interesting online quite a

910
00:32:29,190 --> 00:32:26,799
few people picked up on these i've got

911
00:32:30,710 --> 00:32:29,200
the statement here to read first

912
00:32:32,549 --> 00:32:30,720
i've given a great deal of thought to

913
00:32:35,590 --> 00:32:32,559

defending american airspace but not

914

00:32:37,590 --> 00:32:35,600

against ufos if asked to do that then we

915

00:32:39,909 --> 00:32:37,600

will do it this is a thing that's been

916

00:32:42,230 --> 00:32:39,919

around for a great many years i know a

917

00:32:43,590 --> 00:32:42,240

lot of people who take it very seriously

918

00:32:45,509 --> 00:32:43,600

and i think we should take the

919

00:32:46,950 --> 00:32:45,519

phenomenon seriously and try to

920

00:32:49,029 --> 00:32:46,960

investigate it

921

00:32:51,350 --> 00:32:49,039

i don't consider it an imminent threat

922

00:32:53,350 --> 00:32:51,360

to the united states or the human race

923

00:32:54,710 --> 00:32:53,360

these phenomena occurring but they

924

00:32:57,750 --> 00:32:54,720

obviously tweak a lot of people's

925

00:33:00,149 --> 00:32:57,760

curiosity and encourage speculation so

926
00:33:01,750 --> 00:33:00,159
if we're asked to take on or take that

927
00:33:03,430 --> 00:33:01,760
on we will

928
00:33:05,750 --> 00:33:03,440
i would have to say evidence that it was

929
00:33:08,389 --> 00:33:05,760
something worthy of the attention of the

930
00:33:11,509 --> 00:33:08,399
air force as a threat our job is to

931
00:33:13,029 --> 00:33:11,519
protect against threats i have a lot of

932
00:33:14,789 --> 00:33:13,039
known threats out there that we're

933
00:33:17,269 --> 00:33:14,799
working very hard to protect the us

934
00:33:19,430 --> 00:33:17,279
against i'd like to focus on those so

935
00:33:22,630 --> 00:33:19,440
that's frank kendall secretary of the us

936
00:33:25,110 --> 00:33:22,640
air force i i get from his point of view

937
00:33:27,269 --> 00:33:25,120
that he's looking at again we always use

938
00:33:29,909 --> 00:33:27,279

the same generalizations don't we but

939

00:33:32,230 --> 00:33:29,919

russia and china have drones

940

00:33:34,070 --> 00:33:32,240

infiltrating us airspace and no doubt

941

00:33:36,389 --> 00:33:34,080

the us have the same in those countries

942

00:33:38,870 --> 00:33:36,399

as well and potentially other foreign

943

00:33:42,549 --> 00:33:38,880

adversarial technology and they want to

944

00:33:45,509 --> 00:33:42,559

focus on what they can deal with not the

945

00:33:47,430 --> 00:33:45,519

rumors or murmurings or you know videos

946

00:33:48,789 --> 00:33:47,440

that are these objects that they can't

947

00:33:50,630 --> 00:33:48,799

really do anything about but these

948

00:33:52,789 --> 00:33:50,640

objects don't really do anything to them

949

00:33:55,430 --> 00:33:52,799

it seems either so

950

00:33:58,710 --> 00:33:55,440

that more it's more of an observational

951
00:34:01,029 --> 00:33:58,720
experience or entity than than a threat

952
00:34:02,470 --> 00:34:01,039
so what are your thoughts on on someone

953
00:34:03,909 --> 00:34:02,480
like frank kendall coming out with those

954
00:34:05,669 --> 00:34:03,919
comments graham

955
00:34:07,110 --> 00:34:05,679
it's a bit contradictory isn't it you

956
00:34:09,510 --> 00:34:07,120
see if you look at the statement as a

957
00:34:11,270 --> 00:34:09,520
whole the first bit sounds great it

958
00:34:12,629 --> 00:34:11,280
almost like yes we're going to start

959
00:34:14,310 --> 00:34:12,639
investigating ufos and we're going to

960
00:34:15,909 --> 00:34:14,320
take it really seriously then you get

961
00:34:17,909 --> 00:34:15,919
about halfway down

962
00:34:19,750 --> 00:34:17,919
and then he starts backtracking a bit so

963
00:34:21,030 --> 00:34:19,760

it's oh but we'll have to see evidence

964

00:34:22,790 --> 00:34:21,040

that there's actually something here

965

00:34:24,310 --> 00:34:22,800

otherwise we're not gonna you know if

966

00:34:26,069 --> 00:34:24,320

it's not a threat then we're not really

967

00:34:27,669 --> 00:34:26,079

gonna look at it uh because actually

968

00:34:30,470 --> 00:34:27,679

that's our job we look at you we look

969

00:34:34,149 --> 00:34:30,480

for threats um and i'm gonna focus on

970

00:34:37,030 --> 00:34:34,159

them so in one hand he's saying yes um

971

00:34:38,310 --> 00:34:37,040

ufos um you know if we're if we're asked

972

00:34:39,990 --> 00:34:38,320

to have a look at them then we'll have

973

00:34:41,589 --> 00:34:40,000

to investigate it because we should take

974

00:34:43,669 --> 00:34:41,599

it seriously because a lot of the

975

00:34:44,950 --> 00:34:43,679

american public takes it seriously and

976
00:34:45,990 --> 00:34:44,960
then on the other hand he's saying yeah

977
00:34:47,669 --> 00:34:46,000
we've got all these other things we

978
00:34:49,669 --> 00:34:47,679
really need to concentrate on that

979
00:34:52,230 --> 00:34:49,679
actually they're more important and i'm

980
00:34:55,190 --> 00:34:52,240
i want to you know want to stick to them

981
00:34:57,270 --> 00:34:55,200
so yeah anybody can really take anything

982
00:34:59,190 --> 00:34:57,280
they like from that statement so people

983
00:35:01,270 --> 00:34:59,200
who are interested in

984
00:35:03,270 --> 00:35:01,280
the government or the air force

985
00:35:06,150 --> 00:35:03,280
investigating ufos will take the bits

986
00:35:09,030 --> 00:35:06,160
that say oh the the new secretary of the

987
00:35:10,310 --> 00:35:09,040
u.s air force is said yes you know we'll

988
00:35:11,750 --> 00:35:10,320

investigate them

989

00:35:13,750 --> 00:35:11,760

if the people the people who are saying

990

00:35:15,349 --> 00:35:13,760

look there's nothing to uap or they're

991

00:35:17,750 --> 00:35:15,359

just drones etc all the chinese are

992

00:35:19,349 --> 00:35:17,760

russian will say yeah but really he

993

00:35:23,030 --> 00:35:19,359

wants to focus on the things that he

994

00:35:25,109 --> 00:35:23,040

knows about rather than uap ufos so

995

00:35:26,710 --> 00:35:25,119

there's a bit for everybody there but

996

00:35:29,190 --> 00:35:26,720

actually at the end of the day there

997

00:35:31,349 --> 00:35:29,200

doesn't really seem to be anything new

998

00:35:33,270 --> 00:35:31,359

um i don't know what you think but

999

00:35:35,190 --> 00:35:33,280

i can't see anything that definitely

1000

00:35:37,430 --> 00:35:35,200

says we're going to do this we're going

1001
00:35:39,670 --> 00:35:37,440
to do that there's a lot of words but he

1002
00:35:41,030 --> 00:35:39,680
can't addict himself so

1003
00:35:44,630 --> 00:35:41,040
who knows

1004
00:35:46,069 --> 00:35:44,640
i yeah i i i'm with you on that i i do

1005
00:35:48,870 --> 00:35:46,079
like the fact we've got someone

1006
00:35:50,950 --> 00:35:48,880
representing the air force who's giving

1007
00:35:53,589 --> 00:35:50,960
giving a statement that isn't just a

1008
00:35:56,630 --> 00:35:53,599
dismissal of the subject or the

1009
00:35:59,270 --> 00:35:56,640
potential of the subject and it leaves

1010
00:36:01,430 --> 00:35:59,280
the door open i think for the us air

1011
00:36:03,270 --> 00:36:01,440
force to get more involved i know it's

1012
00:36:05,510 --> 00:36:03,280
very much been the navy that's taken the

1013
00:36:07,430 --> 00:36:05,520

lead on that subject um and they are

1014

00:36:09,030 --> 00:36:07,440

forced for for many different reasons

1015

00:36:11,109 --> 00:36:09,040

and conspiracy theories and everything

1016

00:36:12,470 --> 00:36:11,119

in between has always seemed to keep it

1017

00:36:13,510 --> 00:36:12,480

at arm's length

1018

00:36:16,870 --> 00:36:13,520

however

1019

00:36:18,790 --> 00:36:16,880

maybe it's an invite or an open door to

1020

00:36:20,310 --> 00:36:18,800

let's focus on what we have to focus on

1021

00:36:21,910 --> 00:36:20,320

but you know

1022

00:36:24,470 --> 00:36:21,920

maybe we should investigate it and if

1023

00:36:26,630 --> 00:36:24,480

that means that a permanent uap task

1024

00:36:28,230 --> 00:36:26,640

force is put in place that is going to

1025

00:36:30,710 --> 00:36:28,240

investigate this on a full-time

1026

00:36:32,790 --> 00:36:30,720

permanent basis then maybe they get more

1027

00:36:35,510 --> 00:36:32,800

cooperation from their force down the

1028

00:36:37,589 --> 00:36:35,520

line and that would be a good takeaway

1029

00:36:39,510 --> 00:36:37,599

because what people have expected is

1030

00:36:41,349 --> 00:36:39,520

everything to change overnight and i'll

1031

00:36:43,829 --> 00:36:41,359

go back to some of those comments and

1032

00:36:46,390 --> 00:36:43,839

the making contact conference he talks

1033

00:36:48,470 --> 00:36:46,400

about that that things are changing but

1034

00:36:51,190 --> 00:36:48,480

people have to be patient because there

1035

00:36:52,790 --> 00:36:51,200

are processes and people that are

1036

00:36:53,750 --> 00:36:52,800

dealing with these changes within

1037

00:36:55,589 --> 00:36:53,760

government

1038

00:36:57,750 --> 00:36:55,599

because and if i just use a very very

1039

00:36:59,990 --> 00:36:57,760

small example just even think of outside

1040

00:37:01,349 --> 00:37:00,000

the government those journalists who

1041

00:37:03,750 --> 00:37:01,359

have never had an interest in this

1042

00:37:06,150 --> 00:37:03,760

subject who don't talk about ufos in any

1043

00:37:09,430 --> 00:37:06,160

serious way having to turn up a white

1044

00:37:11,910 --> 00:37:09,440

house press briefing and ask seriously

1045

00:37:13,510 --> 00:37:11,920

essentially about ufos and they couldn't

1046

00:37:15,589 --> 00:37:13,520

believe they were doing it that's

1047

00:37:17,910 --> 00:37:15,599

probably going on all kinds of levels

1048

00:37:19,349 --> 00:37:17,920

now within the halls of government and

1049

00:37:21,190 --> 00:37:19,359

various different countries but you know

1050

00:37:22,390 --> 00:37:21,200

we're talking about the us mainly here

1051
00:37:23,589 --> 00:37:22,400
where they're looking going you know

1052
00:37:26,069 --> 00:37:23,599
what

1053
00:37:28,310 --> 00:37:26,079
we do have to talk about ufos and i

1054
00:37:30,470 --> 00:37:28,320
imagine you get the flying saucers and

1055
00:37:31,990 --> 00:37:30,480
aliens and little green men and

1056
00:37:33,270 --> 00:37:32,000
and you'll have you'll get more and more

1057
00:37:34,950 --> 00:37:33,280
people

1058
00:37:37,030 --> 00:37:34,960
like your senators and congressmen and

1059
00:37:39,030 --> 00:37:37,040
congresswomen coming out and going well

1060
00:37:42,150 --> 00:37:39,040
do you know what actually i was in a

1061
00:37:43,190 --> 00:37:42,160
briefing and such and such actually i

1062
00:37:45,990 --> 00:37:43,200
spoke to

1063
00:37:48,390 --> 00:37:46,000

to this gen or this you know this lady

1064

00:37:50,069 --> 00:37:48,400

or i spoke to whoever

1065

00:37:51,910 --> 00:37:50,079

and they seem to think there's something

1066

00:37:53,270 --> 00:37:51,920

to it and it's just little bits at a

1067

00:37:55,109 --> 00:37:53,280

time i think that are going to get more

1068

00:37:57,829 --> 00:37:55,119

and more involved all kinds of levels

1069

00:37:59,670 --> 00:37:57,839

and i think that's what lou elizondo is

1070

00:38:01,670 --> 00:37:59,680

getting at that things will change but

1071

00:38:03,349 --> 00:38:01,680

it's going to take time and that's where

1072

00:38:05,589 --> 00:38:03,359

we just sort of have to keep keep

1073

00:38:07,270 --> 00:38:05,599

banging the drum as much as we can and

1074

00:38:09,829 --> 00:38:07,280

it's just making sure that people don't

1075

00:38:11,670 --> 00:38:09,839

get too high or too low when we're

1076

00:38:13,190 --> 00:38:11,680

waiting on different announcements and i

1077

00:38:15,990 --> 00:38:13,200

think graham it was really important you

1078

00:38:19,190 --> 00:38:16,000

mentioned that the upcoming

1079

00:38:20,310 --> 00:38:19,200

um update report there's nothing to say

1080

00:38:22,630 --> 00:38:20,320

that's going to be released to the

1081

00:38:25,190 --> 00:38:22,640

public as far as i've seen and it very

1082

00:38:27,270 --> 00:38:25,200

much is likely to be classified but we

1083

00:38:29,270 --> 00:38:27,280

could only hope that we get some sort of

1084

00:38:30,230 --> 00:38:29,280

of statement or update from the back of

1085

00:38:34,310 --> 00:38:30,240

that

1086

00:38:35,589 --> 00:38:34,320

they're talking about having um extra

1087

00:38:37,430 --> 00:38:35,599

information in the report the things

1088

00:38:39,190 --> 00:38:37,440

that haven't been included in the last

1089

00:38:41,030 --> 00:38:39,200

90 days so they might even go further

1090

00:38:43,510 --> 00:38:41,040

back once it gets going once it gets

1091

00:38:45,270 --> 00:38:43,520

wrote these rolling 90-day reports i

1092

00:38:46,950 --> 00:38:45,280

mean you were saying before about maybe

1093

00:38:48,310 --> 00:38:46,960

breaking through that kind of stigma

1094

00:38:50,550 --> 00:38:48,320

that obstacle about getting people

1095

00:38:52,390 --> 00:38:50,560

talking in the media about yes it

1096

00:38:55,750 --> 00:38:52,400

actually is all right to start asking

1097

00:38:57,190 --> 00:38:55,760

questions of politicians about uap but

1098

00:38:58,710 --> 00:38:57,200

also you're going to think inside the

1099

00:39:00,069 --> 00:38:58,720

air force itself

1100

00:39:03,030 --> 00:39:00,079

this sounds like they've had this

1101

00:39:05,270 --> 00:39:03,040

culture over the last 75 odd years of

1102

00:39:06,790 --> 00:39:05,280

just denying there's a problem and the

1103

00:39:08,790 --> 00:39:06,800

you know the front facing the public

1104

00:39:10,470 --> 00:39:08,800

facing side of the air force have just

1105

00:39:12,790 --> 00:39:10,480

said look there's nothing to see here

1106

00:39:14,950 --> 00:39:12,800

move on they even set a blue book

1107

00:39:17,109 --> 00:39:14,960

basically just to as a sop for the

1108

00:39:19,030 --> 00:39:17,119

public for them to send reports and they

1109

00:39:20,870 --> 00:39:19,040

say look yeah this it's just venus or

1110

00:39:23,270 --> 00:39:20,880

swamp gas you know all that those kind

1111

00:39:25,510 --> 00:39:23,280

of things so you've got that obstacle to

1112

00:39:27,270 --> 00:39:25,520

get across as well and yes okay it's all

1113

00:39:29,109 --> 00:39:27,280

right for the secretary of the the the

1114

00:39:31,109 --> 00:39:29,119

u.s air force the new one to say you

1115

00:39:33,829 --> 00:39:31,119

know we'd like to investigate it but i

1116

00:39:35,430 --> 00:39:33,839

bet in his organization the u.s air

1117

00:39:37,750 --> 00:39:35,440

force there are a lot of people who

1118

00:39:39,430 --> 00:39:37,760

would be very resistant to anything like

1119

00:39:41,430 --> 00:39:39,440

this happening because it'll be a

1120

00:39:43,270 --> 00:39:41,440

culture that's built built up over the

1121

00:39:44,870 --> 00:39:43,280

years it's not just stigma it's just a

1122

00:39:48,150 --> 00:39:44,880

culture of saying there's nothing to see

1123

00:39:50,150 --> 00:39:48,160

here move on and that's the the big

1124

00:39:52,710 --> 00:39:50,160

battle that will probably be happening

1125

00:39:55,750 --> 00:39:52,720

in the next few years inside the u.s air

1126
00:39:58,710 --> 00:39:55,760
force before any meaningful dialogue

1127
00:40:01,430 --> 00:39:58,720
with outside agencies the uh task force

1128
00:40:02,950 --> 00:40:01,440
being won or whatever it turns into

1129
00:40:05,349 --> 00:40:02,960
and i'm sure that'll be something that

1130
00:40:07,190 --> 00:40:05,359
that you know rumbles on over the next

1131
00:40:09,030 --> 00:40:07,200
months and possibly years

1132
00:40:11,430 --> 00:40:09,040
and i wonder if some of it is going to

1133
00:40:13,589 --> 00:40:11,440
be the us air force having to

1134
00:40:15,270 --> 00:40:13,599
kind of swallow its pride a little bit

1135
00:40:16,710 --> 00:40:15,280
even from an internal point of view

1136
00:40:19,030 --> 00:40:16,720
where it's always been the air force in

1137
00:40:20,710 --> 00:40:19,040
the navy you kind of see that as i can

1138
00:40:23,670 --> 00:40:20,720

back and forward between those two kind

1139

00:40:25,670 --> 00:40:23,680

of giants within the us military but now

1140

00:40:27,670 --> 00:40:25,680

you have the space force

1141

00:40:30,310 --> 00:40:27,680

who right now seems to be the the

1142

00:40:32,150 --> 00:40:30,320

stepchild of the the us military the you

1143

00:40:33,990 --> 00:40:32,160

know that isn't as popular the second

1144

00:40:36,230 --> 00:40:34,000

cousin but

1145

00:40:38,950 --> 00:40:36,240

we all keep hearing how space is that

1146

00:40:40,310 --> 00:40:38,960

next frontier that wars are

1147

00:40:42,710 --> 00:40:40,320

unfortunately are going to be fought

1148

00:40:44,870 --> 00:40:42,720

over and there's already a race a space

1149

00:40:46,550 --> 00:40:44,880

race again for getting satellites up

1150

00:40:48,630 --> 00:40:46,560

there and different space stations and

1151
00:40:51,109 --> 00:40:48,640
bases on the moon and not even talking

1152
00:40:52,630 --> 00:40:51,119
about ufos and ets but

1153
00:40:53,910 --> 00:40:52,640
that's probably something the air force

1154
00:40:56,790 --> 00:40:53,920
is going to be looking at you know what

1155
00:40:58,230 --> 00:40:56,800
we now have an even smaller area that

1156
00:40:59,510 --> 00:40:58,240
we're in charge of where it used to be

1157
00:41:01,270 --> 00:40:59,520
everything they were seen as so you know

1158
00:41:02,870 --> 00:41:01,280
they'd be all an end all and i know some

1159
00:41:04,710 --> 00:41:02,880
navy folk out there might disagree with

1160
00:41:07,349 --> 00:41:04,720
that but they are forced always seem to

1161
00:41:08,950 --> 00:41:07,359
be the kind of the one in charge whereas

1162
00:41:11,270 --> 00:41:08,960
now you're going to have and especially

1163
00:41:12,630 --> 00:41:11,280

if let's go back to uaps if these things

1164

00:41:13,910 --> 00:41:12,640

are in the water

1165

00:41:15,750 --> 00:41:13,920

and then they come out the water and

1166

00:41:17,510 --> 00:41:15,760

they're in the air and then they they go

1167

00:41:19,270 --> 00:41:17,520

from there up to space

1168

00:41:20,390 --> 00:41:19,280

then it's sort of going to be all their

1169

00:41:22,150 --> 00:41:20,400

problem

1170

00:41:23,510 --> 00:41:22,160

and at some point they're all going to

1171

00:41:25,190 --> 00:41:23,520

have to come together and talk about

1172

00:41:27,349 --> 00:41:25,200

that and deal with it

1173

00:41:28,150 --> 00:41:27,359

yeah that's true yeah you're right

1174

00:41:30,150 --> 00:41:28,160

there's

1175

00:41:31,190 --> 00:41:30,160

they've got a diminishing cake um you

1176

00:41:33,589 --> 00:41:31,200

know a diminishing amount of

1177

00:41:35,030 --> 00:41:33,599

responsibility in the air force and that

1178

00:41:36,950 --> 00:41:35,040

will be another threat that they'll be

1179

00:41:39,829 --> 00:41:36,960

seeing as a perceived slight towards

1180

00:41:41,190 --> 00:41:39,839

them and especially if you know the uaps

1181

00:41:42,230 --> 00:41:41,200

are hooked onto this kind of thing and

1182

00:41:44,470 --> 00:41:42,240

we're saying well they're going to

1183

00:41:45,829 --> 00:41:44,480

investigate it now um you know we're

1184

00:41:47,030 --> 00:41:45,839

going to take it away from you because

1185

00:41:49,030 --> 00:41:47,040

presumably that's what they are still

1186

00:41:51,109 --> 00:41:49,040

doing so yeah there'll be a bit of

1187

00:41:52,710 --> 00:41:51,119

rancour to do with that the the other

1188

00:41:54,069 --> 00:41:52,720

like agency which you don't really hear

1189

00:41:56,309 --> 00:41:54,079

much about in terms of you know you

1190

00:41:58,470 --> 00:41:56,319

mentioned about the us navy the uh space

1191

00:42:00,069 --> 00:41:58,480

force and air force there's also the u.s

1192

00:42:01,990 --> 00:42:00,079

army because they have an aviation

1193

00:42:03,670 --> 00:42:02,000

element as well they know they operate

1194

00:42:05,670 --> 00:42:03,680

helicopters they do have some fixed-wing

1195

00:42:08,309 --> 00:42:05,680

aircraft and nobody really knows what

1196

00:42:10,390 --> 00:42:08,319

they see in terms of uh uap either they

1197

00:42:11,910 --> 00:42:10,400

don't seem to get looking so i wonder if

1198

00:42:14,230 --> 00:42:11,920

anybody it's worth actually trying to

1199

00:42:16,390 --> 00:42:14,240

investigate you know what they see and

1200

00:42:18,069 --> 00:42:16,400

what they report

1201
00:42:20,230 --> 00:42:18,079
absolutely yeah so it's one to keep an

1202
00:42:22,230 --> 00:42:20,240
eye on and hopefully the air force can

1203
00:42:24,150 --> 00:42:22,240
get a little bit more involved because

1204
00:42:26,790 --> 00:42:24,160
they must have some fascinating stuff

1205
00:42:29,190 --> 00:42:26,800
classified in the vaults back there and

1206
00:42:31,349 --> 00:42:29,200
speaking of vaults our our friend john

1207
00:42:33,589 --> 00:42:31,359
greenwald over at the black vault has

1208
00:42:34,870 --> 00:42:33,599
managed to unearth a little a little gem

1209
00:42:37,589 --> 00:42:34,880
from the

1210
00:42:40,309 --> 00:42:37,599
uap report to congress um

1211
00:42:42,790 --> 00:42:40,319
executive summary back in from may 17th

1212
00:42:45,510 --> 00:42:42,800
2021 so in the build up to the report

1213
00:42:47,270 --> 00:42:45,520

being released in june there was an osd

1214

00:42:50,309 --> 00:42:47,280

which is the office of the secretary of

1215

00:42:52,630 --> 00:42:50,319

defense public affairs and briefing card

1216

00:42:54,950 --> 00:42:52,640

sent out and it talks about

1217

00:42:57,109 --> 00:42:54,960

ufo or uap interest remains high with

1218

00:42:59,589 --> 00:42:57,119

the public and some talking points and

1219

00:43:01,109 --> 00:42:59,599

top line messages that were given out to

1220

00:43:03,589 --> 00:43:01,119

to basically keep online with the

1221

00:43:04,870 --> 00:43:03,599

discussion and hear some of the points

1222

00:43:07,270 --> 00:43:04,880

you should ha if you're being asked

1223

00:43:09,430 --> 00:43:07,280

about it from that point of view uh top

1224

00:43:11,270 --> 00:43:09,440

line messages and talking points where

1225

00:43:13,430 --> 00:43:11,280

we are aware of the report requirement

1226
00:43:15,109 --> 00:43:13,440
and the uap task force team is actively

1227
00:43:17,349 --> 00:43:15,119
working with the office of the director

1228
00:43:19,349 --> 00:43:17,359
of national intelligence on the report

1229
00:43:21,430 --> 00:43:19,359
and uh

1230
00:43:23,589 --> 00:43:21,440
from there you will see a bit of a theme

1231
00:43:25,589 --> 00:43:23,599
where not a whole lot more gets answered

1232
00:43:27,349 --> 00:43:25,599
graham does it it's uh we take reports

1233
00:43:29,510 --> 00:43:27,359
of incursions into our airspace by any

1234
00:43:31,910 --> 00:43:29,520
aircraft identified or unidentified very

1235
00:43:33,510 --> 00:43:31,920
seriously and safety and security are of

1236
00:43:35,829 --> 00:43:33,520
paramount concern

1237
00:43:38,309 --> 00:43:35,839
and there's a little q a section which

1238
00:43:39,190 --> 00:43:38,319

is typically um

1239

00:43:41,109 --> 00:43:39,200

vague

1240

00:43:43,109 --> 00:43:41,119

so but it's still a nice one to read so

1241

00:43:45,990 --> 00:43:43,119

question has the department found any

1242

00:43:47,829 --> 00:43:46,000

evidence of extraterrestrial technology

1243

00:43:50,150 --> 00:43:47,839

answer the examinations and to

1244

00:43:51,589 --> 00:43:50,160

incursions by uaps are still ongoing the

1245

00:43:53,349 --> 00:43:51,599

department does not comment on

1246

00:43:55,270 --> 00:43:53,359

intelligence matters

1247

00:43:57,349 --> 00:43:55,280

if you want to be very generous you can

1248

00:43:59,750 --> 00:43:57,359

look at that and go while they've not

1249

00:44:02,710 --> 00:43:59,760

said no they were never going to say yes

1250

00:44:04,470 --> 00:44:02,720

or no anyway because potentially the

1251

00:44:07,109 --> 00:44:04,480

people looking into this

1252

00:44:09,510 --> 00:44:07,119

for example the tic-tacs maybe they

1253

00:44:11,109 --> 00:44:09,520

don't know who or what is inside of them

1254

00:44:13,270 --> 00:44:11,119

if anyone so when you say

1255

00:44:14,870 --> 00:44:13,280

extraterrestrial they might not be but

1256

00:44:17,270 --> 00:44:14,880

it doesn't mean they're human as as

1257

00:44:19,990 --> 00:44:17,280

we're probably looking at is the case so

1258

00:44:21,670 --> 00:44:20,000

um again from their question do you have

1259

00:44:23,190 --> 00:44:21,680

any comment on the remarks made by john

1260

00:44:25,990 --> 00:44:23,200

ratcliffe to fox news about the

1261

00:44:29,190 --> 00:44:26,000

forthcoming report uh the answer is as

1262

00:44:31,430 --> 00:44:29,200

he was the former dni and odni has the

1263

00:44:32,870 --> 00:44:31,440

lead on the uap report i refer you to

1264

00:44:35,750 --> 00:44:32,880

the office of the direct

1265

00:44:37,190 --> 00:44:35,760

and such and such yes so um it was just

1266

00:44:39,190 --> 00:44:37,200

a nice little thing to see that stuff

1267

00:44:40,630 --> 00:44:39,200

was given out and i just love reading

1268

00:44:43,030 --> 00:44:40,640

through this stuff to see official

1269

00:44:45,750 --> 00:44:43,040

government documentation in any form

1270

00:44:47,589 --> 00:44:45,760

reference uaps extraterrestrial just

1271

00:44:49,030 --> 00:44:47,599

having that word on there and i think

1272

00:44:50,870 --> 00:44:49,040

people should remember in the build-up

1273

00:44:52,150 --> 00:44:50,880

to the report coming out i always

1274

00:44:54,309 --> 00:44:52,160

thought you know i doubt we're going to

1275

00:44:55,750 --> 00:44:54,319

see the word extraterrestrial but it's

1276

00:44:57,349 --> 00:44:55,760

just nice to see it within this kind of

1277

00:44:59,109 --> 00:44:57,359

additional information as well and to

1278

00:45:00,710 --> 00:44:59,119

see that it was something they were

1279

00:45:02,550 --> 00:45:00,720

aware was going to come up and the

1280

00:45:03,589 --> 00:45:02,560

talking points as well

1281

00:45:05,349 --> 00:45:03,599

graham

1282

00:45:07,910 --> 00:45:05,359

just to round off what are you sort of

1283

00:45:09,670 --> 00:45:07,920

expecting in the coming in the coming

1284

00:45:11,190 --> 00:45:09,680

weeks with these updates

1285

00:45:12,950 --> 00:45:11,200

to come out and let's even give a

1286

00:45:14,390 --> 00:45:12,960

generous time frame as we're kinda

1287

00:45:17,109 --> 00:45:14,400

getting into the last quarter of the

1288

00:45:18,950 --> 00:45:17,119

year are we gonna get any more videos or

1289

00:45:19,910 --> 00:45:18,960

big news drops before christmas do you

1290

00:45:21,829 --> 00:45:19,920

think

1291

00:45:23,589 --> 00:45:21,839

oh well if you know if i could tell you

1292

00:45:26,630 --> 00:45:23,599

that i'll be just picking lottery

1293

00:45:28,230 --> 00:45:26,640

numbers instead i'm afraid um it's it's

1294

00:45:29,670 --> 00:45:28,240

one of those insurmountable kind of

1295

00:45:30,870 --> 00:45:29,680

questions you just don't know what's

1296

00:45:33,510 --> 00:45:30,880

going to come out there we were

1297

00:45:35,910 --> 00:45:33,520

surprised back in december 2017 those

1298

00:45:37,430 --> 00:45:35,920

came out in the blue so for anybody to

1299

00:45:38,870 --> 00:45:37,440

really try and predict what's going to

1300

00:45:41,349 --> 00:45:38,880

come out over the next you know two or

1301
00:45:43,349 --> 00:45:41,359
three months whatever um you know

1302
00:45:45,430 --> 00:45:43,359
you're hiding to nothing would like to

1303
00:45:47,430 --> 00:45:45,440
think there would be but whether

1304
00:45:48,950 --> 00:45:47,440
anything comes out of the the next you

1305
00:45:52,069 --> 00:45:48,960
know the sort of the next report the

1306
00:45:54,309 --> 00:45:52,079
90-day report is anybody's guess

1307
00:45:56,630 --> 00:45:54,319
it they've said it's a it's a classified

1308
00:45:58,710 --> 00:45:56,640
um a report that's going to go through

1309
00:46:00,150 --> 00:45:58,720
but whether anything leaks out or

1310
00:46:03,109 --> 00:46:00,160
whether there's anything that actually

1311
00:46:05,270 --> 00:46:03,119
does appear um you know bolted onto that

1312
00:46:07,829 --> 00:46:05,280
which you know they can release who

1313
00:46:10,309 --> 00:46:07,839

knows but again it comes down to what

1314

00:46:12,309 --> 00:46:10,319

jeremy corbell and other people have you

1315

00:46:13,750 --> 00:46:12,319

know hidden away what they're working on

1316

00:46:14,950 --> 00:46:13,760

what they're talking to people about

1317

00:46:16,309 --> 00:46:14,960

whether they can get permission to

1318

00:46:19,030 --> 00:46:16,319

release it for you know for whatever

1319

00:46:20,870 --> 00:46:19,040

reason so really i'm afraid i just can't

1320

00:46:22,390 --> 00:46:20,880

answer that question andy we just simply

1321

00:46:24,790 --> 00:46:22,400

don't know i haven't even really heard

1322

00:46:25,910 --> 00:46:24,800

of anything your whispers of anything

1323

00:46:28,470 --> 00:46:25,920

either so

1324

00:46:30,230 --> 00:46:28,480

um at the moment it sounds like nothing

1325

00:46:32,470 --> 00:46:30,240

but you know that could change overnight

1326

00:46:34,390 --> 00:46:32,480

we could literally have uh jeremy

1327

00:46:36,069 --> 00:46:34,400

corbell coming out with his high noon

1328

00:46:38,950 --> 00:46:36,079

sort of announcement tomorrow you know

1329

00:46:41,829 --> 00:46:38,960

so so who knows i mean just going back

1330

00:46:44,790 --> 00:46:41,839

to this um briefing card

1331

00:46:46,870 --> 00:46:44,800

to me it was interesting because they

1332

00:46:48,550 --> 00:46:46,880

you you could tell they keep tabs on the

1333

00:46:50,630 --> 00:46:48,560

media because they mentioned at the

1334

00:46:52,069 --> 00:46:50,640

start in the executive summary about you

1335

00:46:53,829 --> 00:46:52,079

know the various spots that people like

1336

00:46:56,230 --> 00:46:53,839

john ratcliffe have had and the 60

1337

00:46:57,510 --> 00:46:56,240

minutes segment um so yeah you know that

1338

00:46:59,030 --> 00:46:57,520

they're keeping tabs on everything

1339

00:47:00,390 --> 00:46:59,040

that's going out there they wouldn't you

1340

00:47:02,710 --> 00:47:00,400

know they would be derelict in their

1341

00:47:04,069 --> 00:47:02,720

duty if they weren't but also the fact

1342

00:47:05,349 --> 00:47:04,079

that you mentioned before there was a

1343

00:47:07,190 --> 00:47:05,359

question about extraterrestrial

1344

00:47:09,430 --> 00:47:07,200

technology and they actually don't

1345

00:47:11,030 --> 00:47:09,440

answer the question

1346

00:47:13,030 --> 00:47:11,040

mention other things but they don't

1347

00:47:14,390 --> 00:47:13,040

answer the question at all but the thing

1348

00:47:15,910 --> 00:47:14,400

that made me laugh was it was just

1349

00:47:18,550 --> 00:47:15,920

obviously the redacted bits about who it

1350

00:47:20,470 --> 00:47:18,560

was prepared by and i could have almost

1351
00:47:22,470 --> 00:47:20,480
for the fact it says navy i could have

1352
00:47:24,870 --> 00:47:22,480
also said i saw susan goth's name

1353
00:47:26,309 --> 00:47:24,880
written there as well so

1354
00:47:28,390 --> 00:47:26,319
i wouldn't i wouldn't be surprised if

1355
00:47:30,630 --> 00:47:28,400
she had a hand in that

1356
00:47:32,150 --> 00:47:30,640
no definitely not and you know what just

1357
00:47:33,030 --> 00:47:32,160
again to finish off

1358
00:47:33,270 --> 00:47:33,040
i

1359
00:47:34,470 --> 00:47:33,280
am

1360
00:47:37,270 --> 00:47:34,480
[Music]

1361
00:47:38,870 --> 00:47:37,280
actually quietly optimistic and about

1362
00:47:41,589 --> 00:47:38,880
people listening to this for a long time

1363
00:47:44,069 --> 00:47:41,599

probably no i i try to remain optimistic

1364

00:47:45,910 --> 00:47:44,079

that giving it as so quiet

1365

00:47:48,309 --> 00:47:45,920

this for me is a time where hopefully

1366

00:47:49,910 --> 00:47:48,319

the people that are on our side on this

1367

00:47:51,030 --> 00:47:49,920

are in the background working on

1368

00:47:53,349 --> 00:47:51,040

something

1369

00:47:55,109 --> 00:47:53,359

that we're going to get

1370

00:47:57,990 --> 00:47:55,119

i i think we're more likely now to get a

1371

00:48:00,309 --> 00:47:58,000

really good new video without

1372

00:48:02,150 --> 00:48:00,319

a jeremy corbell hyping up announcements

1373

00:48:03,750 --> 00:48:02,160

coming in the background

1374

00:48:05,750 --> 00:48:03,760

that we might get something a little bit

1375

00:48:07,349 --> 00:48:05,760

better than we're kind we've had for the

1376

00:48:09,589 --> 00:48:07,359

last little while so

1377

00:48:11,750 --> 00:48:09,599

fingers crossed folks but that is pretty

1378

00:48:13,270 --> 00:48:11,760

much it for your news roundup for this

1379

00:48:15,109 --> 00:48:13,280

1384

00:48:24,870 --> 00:48:23,359

a hold of it virtually or on ebook form

1385

00:48:26,549 --> 00:48:24,880

1395

00:48:46,150 --> 00:48:45,040

review process on on amazon at the

1396

00:48:47,829 --> 00:48:46,160

moment

1397

00:48:49,510 --> 00:48:47,839

awesome that's great and that's good to

1398

00:48:50,950 --> 00:48:49,520

hear and graham really does his work and

1399

00:48:52,870 --> 00:48:50,960

put the effort into these as well so i

1400

00:48:54,950 --> 00:48:52,880

1416

like alice face for the parliament

1417

00:49:47,349 --> 00:49:45,599

effect the little [h__\h] hovered right

1418

00:49:49,349 --> 00:49:47,359

inside of my window when i shut down the

1419

00:49:54,170 --> 00:49:49,359

screen he made it an issue i don't think

1420

00:49:54,180 --> 00:50:03,990

[Music]

1421

00:50:10,910 --> 00:50:05,430

i can't imagine how it could have been

1422

00:50:10,920 --> 00:50:24,710

[Music]

1423

00:50:27,670 --> 00:50:25,990

there was something on my head and

1424

00:50:29,349 --> 00:50:27,680

everything was weird and everything was

1425

00:50:30,630 --> 00:50:29,359

red i helped out with my boys they

1426

00:50:39,050 --> 00:50:30,640

thought this was noise they thought it

1427

00:51:06,950 --> 00:50:53,420

[Music]

1428

00:51:12,680 --> 00:51:08,870

time consider serious space consider

1429

00:51:35,349 --> 00:51:25,660

[Music]

1430

00:51:35,990 --> 00:51:35,359

it wasn't a tic tac and not quite a

1431

00:52:09,510 --> 00:51:36,000

saucer

1432

00:52:09,520 --> 00:52:13,280

so

1433

00:52:13,290 --> 00:52:23,829

[Music]

1434

00:52:23,839 --> 00:52:27,110

thank you
