CHRIS LEHTO

- PART TWO -

1  
00:00:00,000 --> 00:00:05,510

[Music]

2  
00:00:08,710 --> 00:00:06,869

there's a whole fleet of them look on

3  
00:00:10,950 --> 00:00:08,720

the assay

4  
00:00:14,310 --> 00:00:10,960

oh my gosh they're all going against the

5  
00:00:19,029 --> 00:00:16,390

it was basically a cube with inside of

6  
00:00:22,840 --> 00:00:19,039

sphere where the points of the cube

7  
00:00:33,040 --> 00:00:22,850

were touching outside of sphere

8  
00:00:37,190 --> 00:00:34,590

[Music]

9  
00:00:38,709 --> 00:00:37,200

[Applause]

10  
00:00:41,030 --> 00:00:38,719

so this isn't anything that just is

11  
00:00:46,389 --> 00:00:41,040

limited to the united states it's a

12  
00:00:51,350 --> 00:00:49,510

that ufo podcast is powered by zencastr

13  
00:00:53,270 --> 00:00:51,360

podcasts zencaster is a modern web-based

20

00:01:07,590 --> 00:01:06,080

seamlessly record their guests remotely

21

00:01:09,350 --> 00:01:07,600

and produce their podcasts and studio

22

00:01:12,070 --> 00:01:09,360

quality check out the links in the show

23

00:01:14,550 --> 00:01:12,080

description to find out more

24

00:01:21,510 --> 00:01:14,560

this is david marlar ufo researcher and

25

00:01:27,429 --> 00:01:23,270

so i've been working with martin in

26

00:01:28,950 --> 00:01:27,439

denmark he's for danish uapr

27

00:01:30,710 --> 00:01:28,960

and he's basically putting together a

28

00:01:33,510 --> 00:01:30,720

system um

29

00:01:35,190 --> 00:01:33,520

with flir and prototyping it

30

00:01:36,789 --> 00:01:35,200

uh so

31

00:01:38,789 --> 00:01:36,799

the idea there's there's there is a

32

00:01:41,990 --> 00:01:38,799

couple ideas but the main idea is to

33

00:01:44,710 --> 00:01:42,000

fund whatever project we do with nfts

34

00:01:46,950 --> 00:01:44,720

and so that's why uh dan i was i was

35

00:01:48,870 --> 00:01:46,960

excited to see you have uh nfts you've

36

00:01:50,870 --> 00:01:48,880

you've made a few that one is sweet too

37

00:01:52,710 --> 00:01:50,880

with lou elzondo i like that thank you

38

00:01:55,350 --> 00:01:52,720

come on

39

00:01:57,270 --> 00:01:55,360

i think there's a huge opportunity um

40

00:01:59,270 --> 00:01:57,280

huge and so a lot of people just don't

41

00:02:00,950 --> 00:01:59,280

understand nfts

42

00:02:04,630 --> 00:02:00,960

and i think it would be an easy way to

43

00:02:07,030 --> 00:02:04,640

crowdfund so the idea is to basically

44

00:02:10,070 --> 00:02:07,040

i'd like to send a satellite

45

00:02:12,150 --> 00:02:10,080

into space so basically modify a skyhub

46

00:02:14,390 --> 00:02:12,160

system you know uh basically it's like

47

00:02:16,710 --> 00:02:14,400

right now it's a telescoping i'm sorry

48

00:02:18,869 --> 00:02:16,720

fish-eye lens that that is going to point

49

00:02:21,350 --> 00:02:18,879

out something anomalous uh and then it

50

00:02:23,350 --> 00:02:21,360

has a telescoping camera and so you

51  
00:02:25,030 --> 00:02:23,360  
could do optical and flir next to each

52  
00:02:27,190 --> 00:02:25,040  
other and if you separate them by like a

53  
00:02:28,470 --> 00:02:27,200  
meter uh you can get stereo vision so

54  
00:02:31,509 --> 00:02:28,480  
like those multiple points i talked

55  
00:02:32,630 --> 00:02:31,519  
about um you can get that so the idea is

56  
00:02:35,910 --> 00:02:32,640  
to

57  
00:02:37,670 --> 00:02:35,920  
these cubesats like already made for

58  
00:02:39,110 --> 00:02:37,680  
like 50 000

59  
00:02:45,990 --> 00:02:39,120  
and then

60  
00:02:48,470 --> 00:02:46,000  
send it up and somehow make it so it can

61  
00:02:50,869 --> 00:02:48,480  
uh direct to the internet just

62  
00:02:53,430 --> 00:02:50,879  
video you know like nothing in between

63  
00:02:54,949 --> 00:02:53,440

like hardwired no one can interfere with

64

00:02:55,910 --> 00:02:54,959

it you know just like direct to the

65

00:02:58,070 --> 00:02:55,920

internet

66

00:02:59,910 --> 00:02:58,080

post this thing um and actually the way

67

00:03:00,949 --> 00:02:59,920

the system works is it could be zooming

68

00:03:08,070 --> 00:03:00,959

in

69

00:03:11,430 --> 00:03:08,080

the idea is you would get a image or

70

00:03:13,589 --> 00:03:11,440

video potentially of like a fleet of

71

00:03:14,630 --> 00:03:13,599

spacecraft entering earth right if it's

72

00:03:16,149 --> 00:03:14,640

real

73

00:03:18,390 --> 00:03:16,159

or you could use it to maybe go over

74

00:03:19,509 --> 00:03:18,400

skidmark or ranch right maybe they want

75

00:03:21,270 --> 00:03:19,519

you know maybe they want to buy some of

76

00:03:22,149 --> 00:03:21,280

the nfts to fund it

77

00:03:24,390 --> 00:03:22,159

um

78

00:03:25,910 --> 00:03:24,400

and and i would put like the nft avatar

79

00:03:28,550 --> 00:03:25,920

like right out in front you know i want

80

00:03:29,750 --> 00:03:28,560

to like 3d print the avatar and like put

81

00:03:32,309 --> 00:03:29,760

him out in front like he's flying

82

00:03:33,270 --> 00:03:32,319

through space you know like that'd be so

83

00:03:35,589 --> 00:03:33,280

awesome

84

00:03:37,350 --> 00:03:35,599

uh yeah so that's that's the basic idea

85

00:03:39,430 --> 00:03:37,360

and dan you may know so i want to make

86

00:03:40,949 --> 00:03:39,440

like i wanna uh if we need like a

87

00:03:42,070 --> 00:03:40,959

million dollars we're doing initial cost

88

00:03:43,910 --> 00:03:42,080

estimates i think it'll be less than

89

00:03:45,190 --> 00:03:43,920

that i think it'd be like 500 000

90

00:03:47,990 --> 00:03:45,200

and we do

91

00:03:51,110 --> 00:03:48,000

if we sell a thousand nfts right we mint

92

00:03:53,110 --> 00:03:51,120

1100 and then we sell a thousand uh and

93

00:03:55,670 --> 00:03:53,120

we and i would like to get some ideas

94

00:03:58,070 --> 00:03:55,680

from the community like uh what to you i

95

00:04:00,789 --> 00:03:58,080

was thinking 500 were like parts of the

96

00:04:02,229 --> 00:04:00,799

cubesat and then the other 500 would be

97

00:04:04,390 --> 00:04:02,239

cool like

98

00:04:05,990 --> 00:04:04,400

normal avatars you know there'd be like

99

00:04:08,149 --> 00:04:06,000

30 aliens

100

00:04:10,229 --> 00:04:08,159

30 geese and ducks of different varying

101  
00:04:11,750 --> 00:04:10,239  
quality you know canadian geese we go

102  
00:04:13,589 --> 00:04:11,760  
through all the geese

103  
00:04:15,190 --> 00:04:13,599  
exotic species

104  
00:04:16,469 --> 00:04:15,200  
a lot of explosions right because

105  
00:04:18,310 --> 00:04:16,479  
chances are it's not going to work get

106  
00:04:20,789 --> 00:04:18,320  
some blurry ones in there

107  
00:04:22,150 --> 00:04:20,799  
and then you you sell them for

108  
00:04:23,590 --> 00:04:22,160  
whatever we need we say we need a

109  
00:04:26,629 --> 00:04:23,600  
million dollars we sell a thousand of

110  
00:04:30,230 --> 00:04:26,639  
them for half an eighth

111  
00:04:32,230 --> 00:04:30,240  
and then and then if they

112  
00:04:34,230 --> 00:04:32,240  
somehow fund this project you know not

113  
00:04:35,830 --> 00:04:34,240

only do they get to keep the nft

114

00:04:37,510 --> 00:04:35,840

uh which hopefully will be sweet and go

115

00:04:38,870 --> 00:04:37,520

up in value or maybe build a community

116

00:04:40,310 --> 00:04:38,880

would be the idea

117

00:04:42,150 --> 00:04:40,320

um but maybe

118

00:04:43,830 --> 00:04:42,160

maybe they funded the first project that

119

00:04:46,230 --> 00:04:43,840

actually like proved you know

120

00:04:47,670 --> 00:04:46,240

spacecrafts entering the earth you know

121

00:04:49,189 --> 00:04:47,680

that enter the earth you know how cool

122

00:04:50,950 --> 00:04:49,199

would that be so

123

00:04:52,469 --> 00:04:50,960

and i like skips all the bureaucracy you

124

00:04:54,469 --> 00:04:52,479

know what i'm talking about dan like so

125

00:04:56,390 --> 00:04:54,479

i'm going to memphi we make the nfts

126  
00:04:57,270 --> 00:04:56,400  
right we make them it's almost free to

127  
00:04:59,510 --> 00:04:57,280  
make

128  
00:05:01,350 --> 00:04:59,520  
uh we sell them and then the idea is it

129  
00:05:02,710 --> 00:05:01,360  
would only fully fund right people's

130  
00:05:04,150 --> 00:05:02,720  
money would only come out when it's

131  
00:05:06,550 --> 00:05:04,160  
fully funded

132  
00:05:09,110 --> 00:05:06,560  
uh but then you you sell them and it's

133  
00:05:11,749 --> 00:05:09,120  
random so anybody can buy it make it

134  
00:05:13,430 --> 00:05:11,759  
like a half an eighth so anyone can if

135  
00:05:15,270 --> 00:05:13,440  
you can scrape together like 1500 bucks

136  
00:05:16,390 --> 00:05:15,280  
or whatever you can help fund this

137  
00:05:19,430 --> 00:05:16,400  
project

138  
00:05:20,629 --> 00:05:19,440

so crowdfund it and then there's no link

139

00:05:22,629 --> 00:05:20,639

right after that the only thing we

140

00:05:24,870 --> 00:05:22,639

guarantee is an nft like nothing else

141

00:05:27,749 --> 00:05:24,880

there's no bureaucracy there's no

142

00:05:29,670 --> 00:05:27,759

there's no we're not uh sending you any

143

00:05:31,189 --> 00:05:29,680

emails or nothing you know it's like

144

00:05:33,029 --> 00:05:31,199

we're gonna take all we can do is

145

00:05:34,390 --> 00:05:33,039

guarantee you as an nft

146

00:05:36,150 --> 00:05:34,400

uh and then we're gonna just try really

147

00:05:37,990 --> 00:05:36,160

hard to make this happen

148

00:05:40,230 --> 00:05:38,000

and it it may not right we're talking

149

00:05:41,510 --> 00:05:40,240

satellites sending stuff up everybody

150

00:05:43,830 --> 00:05:41,520

already says it's you know i can't do

151

00:05:44,950 --> 00:05:43,840

it's impossible

152

00:05:46,790 --> 00:05:44,960

that's what people say about all the

153

00:05:48,390 --> 00:05:46,800

cool this stuff in history though you

154

00:05:50,469 --> 00:05:48,400

gotta do it awesome anyway man just to

155

00:05:52,950 --> 00:05:50,479

make that to make the nft project and to

156

00:05:55,909 --> 00:05:52,960

bring it together i think we can fund it

157

00:05:57,510 --> 00:05:55,919

easily you know i mean my my crypto punk

158

00:05:59,990 --> 00:05:57,520

dance is ridiculously probably it's like

159

00:06:01,909 --> 00:06:00,000

a hundred eighth you know

160

00:06:03,510 --> 00:06:01,919

so if it gets to like if maybe i'll just

161

00:06:05,350 --> 00:06:03,520

sell my crypto punk i was thinking just

162

00:06:06,550 --> 00:06:05,360

sell it for for a little bit more than

163

00:06:08,150 --> 00:06:06,560

what we need

164

00:06:09,189 --> 00:06:08,160

and then just send in that one into

165

00:06:10,790 --> 00:06:09,199

space

166

00:06:12,790 --> 00:06:10,800

you know so whoever buys it he else he

167

00:06:14,309 --> 00:06:12,800

gets it he gets a crypto punk and we'll

168

00:06:15,670 --> 00:06:14,319

put it into space right and then you put

169

00:06:17,510 --> 00:06:15,680

it in front of the

170

00:06:19,670 --> 00:06:17,520

and the camera so

171

00:06:20,550 --> 00:06:19,680

that's the idea um there's a lot of

172

00:06:22,629 --> 00:06:20,560

stuff

173

00:06:24,710 --> 00:06:22,639

uh but i have some some pretty good

174

00:06:26,710 --> 00:06:24,720

contacts

175

00:06:30,469 --> 00:06:26,720

my cousin designed the mars orbiter i

176

00:06:33,029 --> 00:06:30,479

need to get him on board wow uh and then

177

00:06:35,590 --> 00:06:33,039

my other cousin he where he's written ai

178

00:06:39,270 --> 00:06:35,600

before uh martin's done a lot of this

179

00:06:40,550 --> 00:06:39,280

yeah he sounds very um experienced um so

180

00:06:42,309 --> 00:06:40,560

and stevo

181

00:06:44,629 --> 00:06:42,319

he hasn't actually agreed yet but he's

182

00:06:47,189 --> 00:06:44,639

uh my kind of my personal hero he was an

183

00:06:49,029 --> 00:06:47,199

f-16 pilot back in aviano with me and in

184

00:06:50,870 --> 00:06:49,039

alaska

185

00:06:52,790 --> 00:06:50,880

so i think he's agreed as well he lives

186

00:06:55,350 --> 00:06:52,800

in texas so that's that's our link to

187

00:06:57,510 --> 00:06:55,360

houston uh and talking to musk so the

188

00:06:59,430 --> 00:06:57,520

idea is we get this thing up right and

189

00:07:01,029 --> 00:06:59,440

then we just build a prototype and then

190

00:07:02,629 --> 00:07:01,039

we go to elon musk and we're like hey

191

00:07:04,550 --> 00:07:02,639

man you're testing these star you're

192

00:07:06,230 --> 00:07:04,560

testing the starship

193

00:07:08,230 --> 00:07:06,240

they'll be doing their orbital test next

194

00:07:09,990 --> 00:07:08,240

year and so they'll

195

00:07:12,230 --> 00:07:10,000

hopefully need some test

196

00:07:14,309 --> 00:07:12,240

payloads right and so we just say hey

197

00:07:16,870 --> 00:07:14,319

man will you take this for free

198

00:07:20,070 --> 00:07:16,880

you know or well uh we'll send you some

199

00:07:21,909 --> 00:07:20,080

nfts or something uh

200

00:07:23,830 --> 00:07:21,919

i think a really uh

201  
00:07:25,830 --> 00:07:23,840  
neat way to potentially get all this on

202  
00:07:28,070 --> 00:07:25,840  
one nft would be making exclusive

203  
00:07:29,029 --> 00:07:28,080  
brandon fugal nft for one million

204  
00:07:31,350 --> 00:07:29,039  
dollars

205  
00:07:33,350 --> 00:07:31,360  
and yeah just market it to one mr fugal

206  
00:07:36,550 --> 00:07:33,360  
himself and see if he wants to buy his

207  
00:07:38,469 --> 00:07:36,560  
own skin walker nft

208  
00:07:40,790 --> 00:07:38,479  
yeah before anyone

209  
00:07:42,870 --> 00:07:40,800  
the goal will be just video skinwalker

210  
00:07:44,550 --> 00:07:42,880  
you know and then but at the same time

211  
00:07:46,469 --> 00:07:44,560  
always be looking right because

212  
00:07:47,830 --> 00:07:46,479  
i think in order to get into orbit you

213  
00:07:50,150 --> 00:07:47,840

it's every 90 minutes you're going

214

00:07:51,830 --> 00:07:50,160

around the earth um so like the is the

215

00:07:53,189 --> 00:07:51,840

idea is to have something like the iss

216

00:07:55,270 --> 00:07:53,199

feed

217

00:07:57,430 --> 00:07:55,280

but a little more focused on looking for

218

00:07:59,110 --> 00:07:57,440

uaps and so you know i've been watching

219

00:08:01,189 --> 00:07:59,120

kevin canuse videos

220

00:08:03,430 --> 00:08:01,199

uh i lose video on your channel was

221

00:08:04,869 --> 00:08:03,440

awesome andy from last week man that was

222

00:08:06,230 --> 00:08:04,879

that was stupendous

223

00:08:07,749 --> 00:08:06,240

um

224

00:08:09,510 --> 00:08:07,759

yeah and i'm just gonna say what i think

225

00:08:12,869 --> 00:08:09,520

is secret sauces

226

00:08:14,629 --> 00:08:12,879

uh i was looking uh

227

00:08:16,790 --> 00:08:14,639

very interesting right you talk about

228

00:08:18,790 --> 00:08:16,800

there's like this uh sub

229

00:08:20,629 --> 00:08:18,800

200 hertz

230

00:08:21,909 --> 00:08:20,639

somehow frequency stuff going on

231

00:08:23,510 --> 00:08:21,919

infrasound

232

00:08:24,950 --> 00:08:23,520

i was just looking into that very

233

00:08:26,309 --> 00:08:24,960

interesting

234

00:08:28,309 --> 00:08:26,319

because those are those super long

235

00:08:29,990 --> 00:08:28,319

wavelengths uh i've been kind of

236

00:08:32,469 --> 00:08:30,000

mentioned in my last video you know what

237

00:08:33,990 --> 00:08:32,479

it what is the what is past the radio

238

00:08:36,310 --> 00:08:34,000

waves

239

00:08:38,230 --> 00:08:36,320

um and i don't know if we actually

240

00:08:41,269 --> 00:08:38,240

i hope somebody knows but i was looking

241

00:08:44,149 --> 00:08:41,279

into this and he mentions infrasound so

242

00:08:45,750 --> 00:08:44,159

infrasound is less than 20 hertz right

243

00:08:47,430 --> 00:08:45,760

so super low it's like thousands of

244

00:08:48,870 --> 00:08:47,440

kilometers that's the wavelength so i

245

00:08:50,710 --> 00:08:48,880

was like thousands of kilometers okay

246

00:08:53,509 --> 00:08:50,720

that's pretty long you know that's like

247

00:08:55,829 --> 00:08:53,519

that state level for sure you know

248

00:08:57,670 --> 00:08:55,839

and then the next one is

249

00:09:00,710 --> 00:08:57,680

was 10 000 kilometers

250

00:09:03,750 --> 00:09:00,720

is below .003

251

00:09:05,829 --> 00:09:03,760

hertz i believe so super super

252

00:09:08,310 --> 00:09:05,839

low hertz super low frequency and then

253

00:09:11,190 --> 00:09:08,320

10 000 kilometers long they called it

254

00:09:13,110 --> 00:09:11,200

elf i'd never heard of it extremely long

255

00:09:15,509 --> 00:09:13,120

uh frequencies

256

00:09:17,910 --> 00:09:15,519

um but i i watched another uh interview

257

00:09:19,509 --> 00:09:17,920

with kevin knuth he was on the theories

258

00:09:20,470 --> 00:09:19,519

of everything that's a very very

259

00:09:24,550 --> 00:09:20,480

interesting

260

00:09:26,070 --> 00:09:24,560

brought up this 12 hertz thing that's

261

00:09:27,990 --> 00:09:26,080

something like uh

262

00:09:29,670 --> 00:09:28,000

there's some alpha channel in our brain

263

00:09:32,710 --> 00:09:29,680

but there's some frequency of our brain

264

00:09:34,949 --> 00:09:32,720

uh that's at 12 hertz if you use an emf

265

00:09:37,350 --> 00:09:34,959

uh program all this stuff

266

00:09:39,590 --> 00:09:37,360

um so so very interesting which could be

267

00:09:41,190 --> 00:09:39,600

the the longer waves um that we're

268

00:09:44,070 --> 00:09:41,200

looking for and if you look at an

269

00:09:47,590 --> 00:09:44,080

infrared inter interferometer

270

00:09:50,389 --> 00:09:47,600

um basically it uses it splits a laser

271

00:09:52,470 --> 00:09:50,399

uh and then if one line of the laser go

272

00:09:54,630 --> 00:09:52,480

is is being impacted by gravity waves

273

00:09:55,990 --> 00:09:54,640

then it you basically impact the signal

274

00:09:57,030 --> 00:09:56,000

right so you can tell if gravity waves

275

00:09:59,190 --> 00:09:57,040

were going through

276

00:10:00,710 --> 00:09:59,200

uh which reminded me of like from the

277

00:10:02,310 --> 00:10:00,720

ghostbusters you know that spinning

278

00:10:04,790 --> 00:10:02,320

peaky emitter i was like holy man

279

00:10:06,310 --> 00:10:04,800

we need pk meters or what like this is

280

00:10:07,190 --> 00:10:06,320

what we actually need

281

00:10:09,030 --> 00:10:07,200

uh

282

00:10:10,630 --> 00:10:09,040

yeah i don't know he wasn't laughing

283

00:10:12,710 --> 00:10:10,640

though lou i guess i hate to laugh you

284

00:10:14,710 --> 00:10:12,720

know i guess i'm so new like i i'm like

285

00:10:16,230 --> 00:10:14,720

the rookie you know a combat you know i

286

00:10:17,269 --> 00:10:16,240

haven't been shot at yet or hit or

287

00:10:19,990 --> 00:10:17,279

anything

288

00:10:21,590 --> 00:10:20,000

um so i guess i i don't mean to laugh uh

289

00:10:24,310 --> 00:10:21,600

about these things obviously it seems

290

00:10:25,750 --> 00:10:24,320

very serious um yeah and let's maybe

291

00:10:27,269 --> 00:10:25,760

maybe get in touch with lou and tell

292

00:10:28,870 --> 00:10:27,279

them what you're telling what your guess

293

00:10:30,389 --> 00:10:28,880

is i think at this point everyone's

294

00:10:31,750 --> 00:10:30,399

having a go at it and it's a little bit

295

00:10:33,509 --> 00:10:31,760

like you know when it's like a name the

296

00:10:35,430 --> 00:10:33,519

baby or

297

00:10:37,190 --> 00:10:35,440

a competition at a fair and everyone's

298

00:10:39,590 --> 00:10:37,200

going yeah i think it's this and i think

299

00:10:41,990 --> 00:10:39,600

it's this that's yes that's not amazing

300

00:10:44,389 --> 00:10:42,000

what do you think

301  
00:10:45,910 --> 00:10:44,399  
i i think

302  
00:10:47,430 --> 00:10:45,920  
what i think doesn't really matter too

303  
00:10:48,790 --> 00:10:47,440  
much

304  
00:11:04,310 --> 00:10:48,800  
i

305  
00:11:06,230 --> 00:11:04,320  
yeah that's one way

306  
00:11:07,750 --> 00:11:06,240  
but there's a simpler and more

307  
00:11:09,190 --> 00:11:07,760  
cost-effective way

308  
00:11:10,790 --> 00:11:09,200  
and he says like when you hit your head

309  
00:11:13,590 --> 00:11:10,800  
you're like yeah of course

310  
00:11:15,269 --> 00:11:13,600  
um i think it's just a compass

311  
00:11:16,710 --> 00:11:15,279  
i bet you have like it's you know

312  
00:11:18,550 --> 00:11:16,720  
because you look at these when they show

313  
00:11:20,150 --> 00:11:18,560

up i bet there's some serious

314

00:11:22,710 --> 00:11:20,160

gravitational waves it's obviously

315

00:11:24,310 --> 00:11:22,720

related to magnetism and electric you

316

00:11:25,590 --> 00:11:24,320

know the electromagnetic

317

00:11:27,190 --> 00:11:25,600

interactions that we don't fully

318

00:11:28,710 --> 00:11:27,200

understand

319

00:11:29,990 --> 00:11:28,720

so i bet when they like appear or when

320

00:11:31,269 --> 00:11:30,000

they're doing something crazy and all

321

00:11:32,310 --> 00:11:31,279

these gamma bursts are going off i

322

00:11:33,750 --> 00:11:32,320

wouldn't be surprised if it's just

323

00:11:35,430 --> 00:11:33,760

screwing up the whole magnetic field

324

00:11:37,750 --> 00:11:35,440

there and if you just had like a 3d

325

00:11:39,509 --> 00:11:37,760

compass like a digital compass it could

326

00:11:41,350 --> 00:11:39,519

just

327

00:11:43,990 --> 00:11:41,360

point the satellite oh yeah this is what

328

00:11:45,269 --> 00:11:44,000

i'm hoping right so i mean i

329

00:11:47,350 --> 00:11:45,279

i don't know i think we should be

330

00:11:48,550 --> 00:11:47,360

sharing information um hopefully they

331

00:11:50,069 --> 00:11:48,560

tell me

332

00:11:52,150 --> 00:11:50,079

what it is you know i don't mind if they

333

00:11:54,069 --> 00:11:52,160

get it first like that's fine but

334

00:11:55,509 --> 00:11:54,079

uh i think he will i think i think

335

00:11:56,949 --> 00:11:55,519

they'll share it you know it's just

336

00:11:58,550 --> 00:11:56,959

scary sharing information somebody in

337

00:12:00,069 --> 00:11:58,560

the group is always like no way we can't

338

00:12:00,870 --> 00:12:00,079

do it you know so i just don't talk to

339

00:12:02,629 --> 00:12:00,880

the group

340

00:12:03,829 --> 00:12:02,639

and then uh everything works out fine

341

00:12:05,670 --> 00:12:03,839

you know so

342

00:12:07,590 --> 00:12:05,680

uh well listen you're talking about uh

343

00:12:09,110 --> 00:12:07,600

crazy ass theories and i use that

344

00:12:10,629 --> 00:12:09,120

language because on your own channel

345

00:12:13,990 --> 00:12:10,639

chris

346

00:12:17,590 --> 00:12:14,000

yeah in your most recent uh video uh you

347

00:12:19,430 --> 00:12:17,600

called uh chris's crazy ass theory on

348

00:12:22,389 --> 00:12:19,440

pretty much life dark matter and the

349

00:12:24,069 --> 00:12:22,399

universe now if people want to see this

350

00:12:25,590 --> 00:12:24,079

in detail and i think you need to watch

351  
00:12:27,829 --> 00:12:25,600  
the video to get the full impact and

352  
00:12:29,590 --> 00:12:27,839  
effect of it absolutely be searching

353  
00:12:32,150 --> 00:12:29,600  
chris leto's channel on youtube it's

354  
00:12:34,470 --> 00:12:32,160  
chris l-e-h-t-o the links are in the

355  
00:12:36,069 --> 00:12:34,480  
description for this podcast as well go

356  
00:12:38,949 --> 00:12:36,079  
and watch that and then watch his other

357  
00:12:40,629 --> 00:12:38,959  
videos too on the gimbal go fast and all

358  
00:12:42,230 --> 00:12:40,639  
that kind of stuff but do you want to

359  
00:12:43,829 --> 00:12:42,240  
tell us chris about your your most

360  
00:12:46,150 --> 00:12:43,839  
recent video that you said has been kind

361  
00:12:47,430 --> 00:12:46,160  
of it's been brewing for a long long

362  
00:12:49,030 --> 00:12:47,440  
time

363  
00:12:50,629 --> 00:12:49,040

yeah i mean um

364

00:12:51,670 --> 00:12:50,639

i was very happy

365

00:12:53,110 --> 00:12:51,680

just to

366

00:12:55,190 --> 00:12:53,120

really gotten it off my chest to be

367

00:12:57,190 --> 00:12:55,200

honest uh you know i

368

00:12:59,350 --> 00:12:57,200

that was the driving force i think for

369

00:13:01,509 --> 00:12:59,360

for getting out there i couldn't tell

370

00:13:02,310 --> 00:13:01,519

how to there was something i felt like i

371

00:13:06,470 --> 00:13:02,320

had

372

00:13:09,110 --> 00:13:06,480

something there's i don't know you know

373

00:13:10,550 --> 00:13:09,120

i guess in my theory i talk about uh

374

00:13:12,629 --> 00:13:10,560

you know what is how do we communicate

375

00:13:14,870 --> 00:13:12,639

at our level and i think it's through

376

00:13:16,870 --> 00:13:14,880

thought you know we do it through words

377

00:13:18,389 --> 00:13:16,880

words now but you know with neural link

378

00:13:19,350 --> 00:13:18,399

surely we'll get to we'll just get to

379

00:13:20,870 --> 00:13:19,360

direct

380

00:13:23,829 --> 00:13:20,880

thought um

381

00:13:26,550 --> 00:13:23,839

uh in the future so

382

00:13:28,870 --> 00:13:26,560

yeah that it really just uh made it so

383

00:13:30,389 --> 00:13:28,880

it for whatever reason i was able to put

384

00:13:31,990 --> 00:13:30,399

all the pieces together at this point

385

00:13:34,389 --> 00:13:32,000

and

386

00:13:36,550 --> 00:13:34,399

release that video i just felt

387

00:13:38,870 --> 00:13:36,560

lucky essentially and just happy to get

388

00:13:40,629 --> 00:13:38,880

it out you know like before i published

389

00:13:41,990 --> 00:13:40,639

and and it was like processing it or

390

00:13:44,310 --> 00:13:42,000

anything i like kept thinking i would

391

00:13:46,629 --> 00:13:44,320

die you know like i like something was

392

00:13:49,030 --> 00:13:46,639

gonna happen you know like i was driving

393

00:13:50,710 --> 00:13:49,040

somewhere but but it hadn't published

394

00:13:52,230 --> 00:13:50,720

i don't know that you get like these

395

00:13:54,790 --> 00:13:52,240

crazy thoughts but it

396

00:13:56,870 --> 00:13:54,800

uh i'm just feel very grateful i guess

397

00:14:00,150 --> 00:13:56,880

i'm grateful for youtube and

398

00:14:02,629 --> 00:14:00,160

able to put it out i'm so happy with it

399

00:14:04,069 --> 00:14:02,639

so i i love the idea and

400

00:14:05,430 --> 00:14:04,079

this won't ruin it because i'm going to

401  
00:14:08,069 --> 00:14:05,440  
explain it really badly but you

402  
00:14:09,910 --> 00:14:08,079  
basically talk through the how

403  
00:14:11,829 --> 00:14:09,920  
galileo when he looked at his telescope

404  
00:14:13,030 --> 00:14:11,839  
so out into the universe but then it was

405  
00:14:14,389 --> 00:14:13,040  
turned around and you look through a

406  
00:14:16,470 --> 00:14:14,399  
telescope the other way it's like a

407  
00:14:18,069 --> 00:14:16,480  
microscope and you look down and

408  
00:14:20,310 --> 00:14:18,079  
essentially life exists on these

409  
00:14:21,990 --> 00:14:20,320  
different levels depending on size and

410  
00:14:23,750 --> 00:14:22,000  
again i'm not

411  
00:14:26,069 --> 00:14:23,760  
mathematical or you know i don't use

412  
00:14:28,790 --> 00:14:26,079  
massive words yeah podcast guy that's

413  
00:14:31,030 --> 00:14:28,800

you know why i do this um and you go

414

00:14:33,670 --> 00:14:31,040

from like these different structures

415

00:14:35,590 --> 00:14:33,680

like subatomic atomic then like

416

00:14:36,949 --> 00:14:35,600

organisms little microbes and then it

417

00:14:38,470 --> 00:14:36,959

goes up and then you get to the point

418

00:14:40,949 --> 00:14:38,480

where you're like human

419

00:14:42,790 --> 00:14:40,959

and that's where we are which is stating

420

00:14:44,870 --> 00:14:42,800

the obvious i think you see that as well

421

00:14:47,269 --> 00:14:44,880

it made me think of a few things one was

422

00:14:48,550 --> 00:14:47,279

the cartoon show the magic school bus

423

00:14:50,230 --> 00:14:48,560

where basically all the school kids

424

00:14:52,069 --> 00:14:50,240

would get shrunk in a magic school bus

425

00:14:53,430 --> 00:14:52,079

and go inside the human body every week

426

00:14:55,189 --> 00:14:53,440

yeah and they would go they would go

427

00:14:56,790 --> 00:14:55,199

round and you would get to meet cells

428

00:14:58,949 --> 00:14:56,800

and organisms and all that kind of stuff

429

00:15:01,189 --> 00:14:58,959

and if you've seen the magic school bus

430

00:15:02,150 --> 00:15:01,199

they go in and the body is like a living

431

00:15:09,509 --> 00:15:02,160

thing

432

00:15:11,269 --> 00:15:09,519

the outside which is us and then what

433

00:15:13,189 --> 00:15:11,279

you're suggesting chris is that if you

434

00:15:15,350 --> 00:15:13,199

take those up levels where you go

435

00:15:17,750 --> 00:15:15,360

buildings is next but buildings aren't

436

00:15:19,910 --> 00:15:17,760

living as far as we know you then take

437

00:15:21,670 --> 00:15:19,920

it to planetary you go into solar

438

00:15:24,069 --> 00:15:21,680

systems and then if you if you know your

439

00:15:25,990 --> 00:15:24,079

astrology um astronomy sorry it's not

440

00:15:27,910 --> 00:15:26,000

astrology astronomy you go through your

441

00:15:31,509 --> 00:15:27,920

levels of clusters superclusters

442

00:15:33,509 --> 00:15:31,519

galaxies universe universities and are

443

00:15:35,590 --> 00:15:33,519

these just all like a russian doll of

444

00:15:37,990 --> 00:15:35,600

life where every time you take off a

445

00:15:40,230 --> 00:15:38,000

level or add on a level it's just life

446

00:15:42,069 --> 00:15:40,240

upon life upon life the other one it

447

00:15:44,389 --> 00:15:42,079

made me think of because magic school

448

00:15:46,389 --> 00:15:44,399

bus is going down the way was the end of

449

00:15:48,150 --> 00:15:46,399

the first men in black movie yes if you

450

00:15:50,069 --> 00:15:48,160

remember when the camera pans out and it

451  
00:15:52,470 --> 00:15:50,079  
shows you our planet the galaxy the

452  
00:15:54,550 --> 00:15:52,480  
universe and it turns out we're just a

453  
00:15:55,990 --> 00:15:54,560  
marble inside you know we're just a

454  
00:15:57,430 --> 00:15:56,000  
galaxy inside the marble that a couple

455  
00:15:59,350 --> 00:15:57,440  
of aliens are playing with on another

456  
00:16:00,949 --> 00:15:59,360  
planet and it's just how things just

457  
00:16:02,710 --> 00:16:00,959  
keep going out and out and out have i

458  
00:16:05,590 --> 00:16:02,720  
explained that in any way

459  
00:16:06,470 --> 00:16:05,600  
sensibly yeah it's pretty much right on

460  
00:16:09,590 --> 00:16:06,480  
um

461  
00:16:11,590 --> 00:16:09,600  
yeah the the the big part is though that

462  
00:16:13,110 --> 00:16:11,600  
the life continues up it doesn't yeah

463  
00:16:15,509 --> 00:16:13,120

like you mentioned that the key is it

464

00:16:16,470 --> 00:16:15,519

doesn't it doesn't stop at our level

465

00:16:18,310 --> 00:16:16,480

that's that's

466

00:16:19,590 --> 00:16:18,320

exactly what you said yes

467

00:16:21,430 --> 00:16:19,600

and that's something that many people

468

00:16:24,870 --> 00:16:21,440

talk about how the universe potentially

469

00:16:27,430 --> 00:16:24,880

is as a living thing um and like when

470

00:16:28,870 --> 00:16:27,440

you look at like neurons

471

00:16:30,629 --> 00:16:28,880

in your brain when they fire and how

472

00:16:32,790 --> 00:16:30,639

much they look like these vast

473

00:16:34,629 --> 00:16:32,800

structures out in the universe or if you

474

00:16:36,710 --> 00:16:34,639

look at an iris or an eyeball you know

475

00:16:38,230 --> 00:16:36,720

when you zoom in it looks like you know

476  
00:16:40,710 --> 00:16:38,240  
like galaxies and all that kind of stuff

477  
00:16:42,870 --> 00:16:40,720  
as well and it might just be that

478  
00:16:44,710 --> 00:16:42,880  
poetry of life that that's the way these

479  
00:16:46,389 --> 00:16:44,720  
things look and resemble each other but

480  
00:16:49,350 --> 00:16:46,399  
i do think you're sort of onto something

481  
00:16:51,749 --> 00:16:49,360  
with that to be honest

482  
00:16:53,590 --> 00:16:51,759  
amazing yeah i'm happy that uh

483  
00:16:55,189 --> 00:16:53,600  
you and like so many other people have

484  
00:16:56,870 --> 00:16:55,199  
written me and just said it's uh they

485  
00:16:58,310 --> 00:16:56,880  
really agree with it you know because i

486  
00:17:00,949 --> 00:16:58,320  
you put that out there and you you just

487  
00:17:02,069 --> 00:17:00,959  
kind of obviously i was nervous about it

488  
00:17:03,990 --> 00:17:02,079

um

489

00:17:05,189 --> 00:17:04,000

you know it's a it's a wildly different

490

00:17:07,110 --> 00:17:05,199

theory but

491

00:17:09,350 --> 00:17:07,120

like you said it just made

492

00:17:10,710 --> 00:17:09,360

it makes sense to me it's it it seems

493

00:17:12,949 --> 00:17:10,720

like something we can actually see and

494

00:17:14,549 --> 00:17:12,959

test you know which i just see with this

495

00:17:16,309 --> 00:17:14,559

the dark matter stuff they're just going

496

00:17:18,710 --> 00:17:16,319

kind of crazy you know they basically

497

00:17:21,270 --> 00:17:18,720

they're building this giant container of

498

00:17:22,630 --> 00:17:21,280

of heavy water under under the ground

499

00:17:24,549 --> 00:17:22,640

you know i don't even know how many

500

00:17:26,710 --> 00:17:24,559

thousands of gallons it has but heavy

501  
00:17:28,870 --> 00:17:26,720  
water is radioactive you know water

502  
00:17:30,789 --> 00:17:28,880  
essentially and it's to try and catch

503  
00:17:32,470 --> 00:17:30,799  
these ghost neutrinos

504  
00:17:34,470 --> 00:17:32,480  
that they're looking for and somehow

505  
00:17:35,990 --> 00:17:34,480  
this will this will solve the dark

506  
00:17:37,750 --> 00:17:36,000  
matter

507  
00:17:39,750 --> 00:17:37,760  
uh mystery essentially you know because

508  
00:17:41,110 --> 00:17:39,760  
it's not really matter right it's a

509  
00:17:42,789 --> 00:17:41,120  
they call it dark matter but that's

510  
00:17:44,230 --> 00:17:42,799  
really the

511  
00:17:46,230 --> 00:17:44,240  
overarching

512  
00:17:47,990 --> 00:17:46,240  
uh name for the phenomenon that they're

513  
00:17:50,390 --> 00:17:48,000

observing

514

00:17:51,750 --> 00:17:50,400

that there's too much mass essentially

515

00:17:53,510 --> 00:17:51,760

that we can't see basically there's all

516

00:17:54,549 --> 00:17:53,520

this mass out there that is invisible to

517

00:17:55,669 --> 00:17:54,559

us

518

00:17:57,830 --> 00:17:55,679

and the problem is they're saying that

519

00:18:00,470 --> 00:17:57,840

it'll it'll it'll always be or could

520

00:18:02,150 --> 00:18:00,480

always be invisible to us you know which

521

00:18:04,390 --> 00:18:02,160

is just crazy and instead they're

522

00:18:06,070 --> 00:18:04,400

looking smaller you know they're trying

523

00:18:08,710 --> 00:18:06,080

to go down to neutrino level which i

524

00:18:09,669 --> 00:18:08,720

guess would give you some

525

00:18:11,350 --> 00:18:09,679

you know it can give you some

526

00:18:12,789 --> 00:18:11,360

information about about the higher

527

00:18:15,190 --> 00:18:12,799

dimensions but you're just assuming that

528

00:18:16,710 --> 00:18:15,200

the dimension you know the information

529

00:18:18,870 --> 00:18:16,720

you're getting from

530

00:18:20,710 --> 00:18:18,880

from very small is

531

00:18:23,110 --> 00:18:20,720

is correlating kind of directly to the

532

00:18:24,549 --> 00:18:23,120

higher dimensions you know

533

00:18:25,669 --> 00:18:24,559

which and that was the biggest thing is

534

00:18:27,350 --> 00:18:25,679

yeah

535

00:18:29,029 --> 00:18:27,360

you used the word label there and i

536

00:18:31,270 --> 00:18:29,039

think that's right and i think that's a

537

00:18:33,510 --> 00:18:31,280

massive part of the problem we have in

538

00:18:36,390 --> 00:18:33,520

in any aspect of if you want to label it

539

00:18:39,190 --> 00:18:36,400

all as paranormal or phenomenon as we we

540

00:18:42,150 --> 00:18:39,200

put that human perspective on things and

541

00:18:44,230 --> 00:18:42,160

ghosts angels demons whatever they might

542

00:18:46,470 --> 00:18:44,240

be called could all be one in the same

543

00:18:48,390 --> 00:18:46,480

sort of phenomenon but they get

544

00:18:50,710 --> 00:18:48,400

pigeonholed and you know through the

545

00:18:52,310 --> 00:18:50,720

decades and centuries mythology and

546

00:18:55,029 --> 00:18:52,320

folklore creates all this different

547

00:18:56,549 --> 00:18:55,039

stuff even like fairies for example i've

548

00:18:57,830 --> 00:18:56,559

had a guest talk about fairies in the

549

00:18:59,110 --> 00:18:57,840

past but

550

00:19:02,310 --> 00:18:59,120

what is a fairy if you're thinking

551  
00:19:03,909 --> 00:19:02,320  
tinkerbell yeah probably not however if

552  
00:19:06,230 --> 00:19:03,919  
you're thinking you know entity or

553  
00:19:09,590 --> 00:19:06,240  
sprite from some other dimension or who

554  
00:19:11,350 --> 00:19:09,600  
knows maybe that's maybe maybe not

555  
00:19:13,350 --> 00:19:11,360  
i'm a little one with that kind of stuff

556  
00:19:14,549 --> 00:19:13,360  
however it goes into like orbs and all

557  
00:19:16,070 --> 00:19:14,559  
that kind of thing as well and it's

558  
00:19:18,150 --> 00:19:16,080  
something dan and i have talked about

559  
00:19:20,950 --> 00:19:18,160  
quite frequently i do want to let dan

560  
00:19:22,230 --> 00:19:20,960  
give you he he had a quote um that he's

561  
00:19:24,950 --> 00:19:22,240  
probably going to have to read word for

562  
00:19:27,510 --> 00:19:24,960  
word i'm guessing then yeah i'll read it

563  
00:19:29,750 --> 00:19:27,520

in a second i sent it to chris when he

564

00:19:31,669 --> 00:19:29,760

posted it because your theory i loved it

565

00:19:33,350 --> 00:19:31,679

and it immediately made me think of this

566

00:19:35,990 --> 00:19:33,360

one specific quote from from a book

567

00:19:37,190 --> 00:19:36,000

series i love but i i just want to say i

568

00:19:39,430 --> 00:19:37,200

really love the way that you're using

569

00:19:41,029 --> 00:19:39,440

the language of dimensions because

570

00:19:43,110 --> 00:19:41,039

whenever people talk about them we

571

00:19:45,029 --> 00:19:43,120

always assume that you know we're going

572

00:19:47,190 --> 00:19:45,039

through this portal into this other

573

00:19:48,710 --> 00:19:47,200

world another place and that's not

574

00:19:50,470 --> 00:19:48,720

necessarily what people mean you know

575

00:19:52,950 --> 00:19:50,480

dimensional language we could just be

576

00:19:56,230 --> 00:19:52,960

talking about shy about shadow biomes

577

00:19:58,150 --> 00:19:56,240

above and below us um instead of you

578

00:19:59,590 --> 00:19:58,160

know these complete other worlds that

579

00:20:02,070 --> 00:19:59,600

you can pop through where they have

580

00:20:04,870 --> 00:20:02,080

these crazy creatures and so on so forth

581

00:20:06,630 --> 00:20:04,880

um but the the quote they reminded me of

582

00:20:08,789 --> 00:20:06,640

was uh it goes something like this i'll

583

00:20:10,870 --> 00:20:08,799

try and not mess not to mess it up size

584

00:20:13,110 --> 00:20:10,880

defeats us for the fish the lake in

585

00:20:14,630 --> 00:20:13,120

which he lives is the universe

586

00:20:16,149 --> 00:20:14,640

what does the fish think when he is

587

00:20:18,230 --> 00:20:16,159

jerked up by the mouth through the

588

00:20:19,909 --> 00:20:18,240

silver limits of existence and into a

589

00:20:22,149 --> 00:20:19,919

new universe where the air drowns him

590

00:20:24,070 --> 00:20:22,159

and the light is blue madness where huge

591

00:20:25,990 --> 00:20:24,080

bipeds with no gills stuff into a

592

00:20:27,350 --> 00:20:26,000

suffocating box and cover it with wet

593

00:20:29,110 --> 00:20:27,360

weeds to die

594

00:20:31,110 --> 00:20:29,120

or one might take the tip of a pencil or

595

00:20:32,950 --> 00:20:31,120

magnify it one reaches the point where a

596

00:20:35,190 --> 00:20:32,960

stunning realization strikes home the

597

00:20:36,789 --> 00:20:35,200

pencil tip is not solid it's composed of

598

00:20:39,270 --> 00:20:36,799

atoms which world and revolve like a

599

00:20:41,350 --> 00:20:39,280

trillion demon planets what seems solid

600

00:20:43,190 --> 00:20:41,360

to us is actually only a loose net held

601  
00:20:45,190 --> 00:20:43,200  
together by gravity viewed at their

602  
00:20:48,549 --> 00:20:45,200  
actual size the distances between these

603  
00:20:50,310 --> 00:20:48,559  
atoms might become league gulfs eons

604  
00:20:52,789 --> 00:20:50,320  
the atoms themselves are composed of

605  
00:20:54,950 --> 00:20:52,799  
nuclei and revolving protons and

606  
00:20:57,190 --> 00:20:54,960  
electrons one may go down further to

607  
00:20:59,590 --> 00:20:57,200  
subatomic particles and then to what

608  
00:21:01,350 --> 00:20:59,600  
tachyons nothing of course not

609  
00:21:03,669 --> 00:21:01,360  
everything in the universe denies

610  
00:21:07,029 --> 00:21:03,679  
nothing to suggest an ending is the one

611  
00:21:11,430 --> 00:21:08,710  
yeah that's amazing i thought you know i

612  
00:21:13,510 --> 00:21:11,440  
thought of the the big bang

613  
00:21:15,110 --> 00:21:13,520

you know the singularity

614

00:21:16,390 --> 00:21:15,120

uh

615

00:21:17,510 --> 00:21:16,400

and it reminds me you know i've always

616

00:21:18,870 --> 00:21:17,520

thought of and i've always kind of

617

00:21:20,710 --> 00:21:18,880

talked trash about the big bang but

618

00:21:22,789 --> 00:21:20,720

quietly you know

619

00:21:24,390 --> 00:21:22,799

uh because it's hard and especially just

620

00:21:25,909 --> 00:21:24,400

recently it seems like people's minds

621

00:21:27,350 --> 00:21:25,919

have kind of been broken a little bit no

622

00:21:29,590 --> 00:21:27,360

you know not broken but

623

00:21:31,669 --> 00:21:29,600

uh the the dogma has been

624

00:21:33,029 --> 00:21:31,679

they're willing to think of other

625

00:21:35,190 --> 00:21:33,039

uh other

626

00:21:36,870 --> 00:21:35,200

prospects you know but the

627

00:21:40,070 --> 00:21:36,880

yeah the the thing that surprised me

628

00:21:41,029 --> 00:21:40,080

about the big bang is as i imagined like

629

00:21:42,630 --> 00:21:41,039

a little

630

00:21:44,230 --> 00:21:42,640

cell in your body and maybe this is

631

00:21:46,070 --> 00:21:44,240

where the idea came from you know but i

632

00:21:48,390 --> 00:21:46,080

imagine like a little cell in your body

633

00:21:50,390 --> 00:21:48,400

um say like on your heart

634

00:21:53,110 --> 00:21:50,400

somehow is able to manage like get

635

00:21:55,029 --> 00:21:53,120

together some material you know and then

636

00:21:57,270 --> 00:21:55,039

and then bend light like we have you

637

00:21:58,870 --> 00:21:57,280

know and they make like this lens you

638

00:22:01,430 --> 00:21:58,880

know and they have like they fashioned

639

00:22:02,950 --> 00:22:01,440

like a a cellular telescope you know

640

00:22:05,029 --> 00:22:02,960

it's kind of what i imagine

641

00:22:06,470 --> 00:22:05,039

uh and then they they look out you know

642

00:22:09,750 --> 00:22:06,480

and they're like

643

00:22:11,510 --> 00:22:09,760

uh yeah i know exactly when chris lato

644

00:22:13,350 --> 00:22:11,520

was born

645

00:22:15,430 --> 00:22:13,360

you know that's basically what i what i

646

00:22:16,470 --> 00:22:15,440

hear them is telling us you know and i'm

647

00:22:18,230 --> 00:22:16,480

just like

648

00:22:21,190 --> 00:22:18,240

you know what you're you're suggesting

649

00:22:22,789 --> 00:22:21,200

is ridiculous i mean honestly uh

650

00:22:24,070 --> 00:22:22,799

yeah i don't know the fact that they

651  
00:22:25,350 --> 00:22:24,080  
could name the the beginning of the

652  
00:22:26,630 --> 00:22:25,360  
universe

653  
00:22:28,230 --> 00:22:26,640  
i don't know that's kind of maybe where

654  
00:22:30,630 --> 00:22:28,240  
the craziness kind of started and maybe

655  
00:22:32,310 --> 00:22:30,640  
they can and maybe maybe it's correct uh

656  
00:22:33,909 --> 00:22:32,320  
but i did that was the the the

657  
00:22:34,950 --> 00:22:33,919  
impression i always had

658  
00:22:36,390 --> 00:22:34,960  
um

659  
00:22:37,190 --> 00:22:36,400  
and that kind of brought that to mine

660  
00:22:38,549 --> 00:22:37,200  
yeah

661  
00:22:40,070 --> 00:22:38,559  
i tell you what chris i think you'll

662  
00:22:42,070 --> 00:22:40,080  
appreciate this as a father and any

663  
00:22:43,909 --> 00:22:42,080

parents listening where i had a bit of a

664

00:22:45,909 --> 00:22:43,919

bitter sweet moment as i was watching

665

00:22:48,549 --> 00:22:45,919

that video while i was sitting with my

666

00:22:50,950 --> 00:22:48,559

18 week old little boy harry and um he

667

00:22:52,630 --> 00:22:50,960

was holding my finger with his hand

668

00:22:54,390 --> 00:22:52,640

just at the point where you said that

669

00:22:56,390 --> 00:22:54,400

nothing is actually touching anything

670

00:22:58,070 --> 00:22:56,400

else because of the atoms and i just

671

00:22:59,430 --> 00:22:58,080

remember looking down at him holding my

672

00:23:00,870 --> 00:22:59,440

hand and thinking

673

00:23:02,149 --> 00:23:00,880

he's not really holding my hand does he

674

00:23:03,590 --> 00:23:02,159

like

675

00:23:05,830 --> 00:23:03,600

it was just one of those moments i was

676

00:23:07,909 --> 00:23:05,840

like ah well yeah that's that's true

677

00:23:12,630 --> 00:23:07,919

science comes along and ruins it but he

678

00:23:15,830 --> 00:23:14,149

i don't think you know knowing all these

679

00:23:17,590 --> 00:23:15,840

things doesn't neces

680

00:23:19,830 --> 00:23:17,600

it doesn't make living less real you

681

00:23:22,470 --> 00:23:19,840

know for me it makes it more

682

00:23:24,070 --> 00:23:22,480

uh more real i guess but you know i i

683

00:23:25,909 --> 00:23:24,080

treasure it more you know i kind of feel

684

00:23:27,510 --> 00:23:25,919

like the sand you know

685

00:23:28,470 --> 00:23:27,520

it's running through so i want to catch

686

00:23:29,669 --> 00:23:28,480

it you know i want to catch that

687

00:23:31,270 --> 00:23:29,679

information you know the information is

688

00:23:33,029 --> 00:23:31,280

going by we're missing it

689

00:23:35,590 --> 00:23:33,039

um chris we're going to get to listen

690

00:23:37,270 --> 00:23:35,600

our questions um in just a second i want

691

00:23:38,710 --> 00:23:37,280

to ask you one more thing before we get

692

00:23:41,510 --> 00:23:38,720

to those

693

00:23:43,029 --> 00:23:41,520

being relatively new like may 31st i

694

00:23:44,549 --> 00:23:43,039

think you've given us the date there

695

00:23:46,789 --> 00:23:44,559

where you really got involved in this

696

00:23:49,350 --> 00:23:46,799

topic properly and you've dived in head

697

00:23:51,190 --> 00:23:49,360

first which is amazing um

698

00:23:53,590 --> 00:23:51,200

what what what are you most excited

699

00:23:56,149 --> 00:23:53,600

about where we are in the conversation

700

00:23:58,789 --> 00:23:56,159

at the moment

701  
00:24:00,470 --> 00:23:58,799  
in terms of ufos i was very excited i i

702  
00:24:01,990 --> 00:24:00,480  
mean i'm i'm brand new right obviously

703  
00:24:03,669 --> 00:24:02,000  
anna may i

704  
00:24:05,590 --> 00:24:03,679  
i don't know who anyone is still you

705  
00:24:08,230 --> 00:24:05,600  
know so so now i'm just like trying to

706  
00:24:10,390 --> 00:24:08,240  
study trying to uh try and study i was

707  
00:24:11,990 --> 00:24:10,400  
very impressed with the uap report

708  
00:24:13,830 --> 00:24:12,000  
actually you know the fact that they

709  
00:24:15,669 --> 00:24:13,840  
said those numbers

710  
00:24:17,510 --> 00:24:15,679  
you know because you

711  
00:24:19,110 --> 00:24:17,520  
you know you never say numbers because

712  
00:24:20,470 --> 00:24:19,120  
as soon as you say a number you know how

713  
00:24:22,390 --> 00:24:20,480

much money you have right as soon as you

714

00:24:24,230 --> 00:24:22,400

say that like people latch on they

715

00:24:25,590 --> 00:24:24,240

assign that number to something

716

00:24:27,590 --> 00:24:25,600

so they're very you know it had to get

717

00:24:29,029 --> 00:24:27,600

through all of those offices so someone

718

00:24:30,310 --> 00:24:29,039

just like piled that thing through you

719

00:24:31,590 --> 00:24:30,320

know because really all it takes is one

720

00:24:33,590 --> 00:24:31,600

person to say

721

00:24:35,110 --> 00:24:33,600

or one of those offices to say no don't

722

00:24:36,789 --> 00:24:35,120

put in this number and now they're gonna

723

00:24:37,990 --> 00:24:36,799

have some fight you know up at the the

724

00:24:40,149 --> 00:24:38,000

higher level

725

00:24:41,510 --> 00:24:40,159

whoever's gonna whoever's gonna approve

726

00:24:43,990 --> 00:24:41,520

it

727

00:24:45,190 --> 00:24:44,000

at the final um so the fact that that

728

00:24:47,669 --> 00:24:45,200

got through is

729

00:24:49,510 --> 00:24:47,679

i think seems like a new breakthrough

730

00:24:51,430 --> 00:24:49,520

you know if you look back i don't i

731

00:24:53,110 --> 00:24:51,440

don't think there's any large numbers

732

00:24:55,669 --> 00:24:53,120

saying that we have anomalous events

733

00:24:57,350 --> 00:24:55,679

since like blue book again i'm very new

734

00:24:59,350 --> 00:24:57,360

you know but it seemed new to me so that

735

00:25:06,710 --> 00:24:59,360

that was very exciting um

736

00:25:10,870 --> 00:25:08,310

i get to say it to you this time andy

737

00:25:17,750 --> 00:25:10,880

but uh you're on mute i'm gonna i am

738

00:25:20,950 --> 00:25:19,269

yeah so listen we've had a lot of your

739

00:25:22,549 --> 00:25:20,960

time quests i was just saying and i want

740

00:25:24,390 --> 00:25:22,559

to get to these listener questions or a

741

00:25:26,230 --> 00:25:24,400

few for you and then we'll finish off on

742

00:25:28,149 --> 00:25:26,240

the quick fire round as well which i'm

743

00:25:30,070 --> 00:25:28,159

interested in because being so new to

744

00:25:32,230 --> 00:25:30,080

the subject i wonder if you've got an

745

00:25:34,310 --> 00:25:32,240

opinion form jet on a lot of this stuff

746

00:25:35,990 --> 00:25:34,320

yeah can i finish one point though i

747

00:25:38,149 --> 00:25:36,000

guess one point dan you mentioned uh

748

00:25:41,590 --> 00:25:38,159

before we get started um

749

00:25:43,669 --> 00:25:41,600

is about the uh the dimensions right

750

00:25:45,430 --> 00:25:43,679

yeah yeah it's so true right even the

751

00:25:48,310 --> 00:25:45,440

words we say dimensions

752

00:25:50,549 --> 00:25:48,320

um but if you think about it

753

00:25:51,669 --> 00:25:50,559

getting to a larger dimension is ex

754

00:25:54,230 --> 00:25:51,679

would be

755

00:25:56,230 --> 00:25:54,240

with our current technology impossible

756

00:25:58,149 --> 00:25:56,240

right or getting to a smaller smaller

757

00:26:00,549 --> 00:25:58,159

dimension we can affect it right with

758

00:26:03,590 --> 00:26:00,559

certain technological tools

759

00:26:04,870 --> 00:26:03,600

um but we can't you know transfer our

760

00:26:07,350 --> 00:26:04,880

perception

761

00:26:09,590 --> 00:26:07,360

down to like the quantum level

762

00:26:11,909 --> 00:26:09,600

for instance right so that

763

00:26:13,029 --> 00:26:11,919

that is where the the dimensions come in

764

00:26:14,149 --> 00:26:13,039

where

765

00:26:17,029 --> 00:26:14,159

you would need like some sort of

766

00:26:19,510 --> 00:26:17,039

technology or a portal that can actually

767

00:26:21,350 --> 00:26:19,520

take your our size or somehow and maybe

768

00:26:23,990 --> 00:26:21,360

reorient you know maybe you can re-tune

769

00:26:26,470 --> 00:26:24,000

the frequency right and now you can tune

770

00:26:28,149 --> 00:26:26,480

down your size um

771

00:26:30,310 --> 00:26:28,159

and so but it it needs some sort of

772

00:26:31,909 --> 00:26:30,320

portal so we you still need a

773

00:26:34,230 --> 00:26:31,919

interdimensionary

774

00:26:35,669 --> 00:26:34,240

vehicle you know to get through

775

00:26:37,750 --> 00:26:35,679

or to get extremely large you know

776

00:26:40,710 --> 00:26:37,760

imagine all of your you know whatever

777

00:26:42,870 --> 00:26:40,720

you we are expanding you know into the

778

00:26:43,909 --> 00:26:42,880

how would you even observe the outer

779

00:26:46,630 --> 00:26:43,919

universe

780

00:26:48,149 --> 00:26:46,640

uh so it is a dimension you know it it's

781

00:26:49,830 --> 00:26:48,159

just funny that we can see them you know

782

00:26:51,750 --> 00:26:49,840

i guess we're we're considering that

783

00:26:53,510 --> 00:26:51,760

another dimension will be something we

784

00:26:55,029 --> 00:26:53,520

can't really see into

785

00:26:56,310 --> 00:26:55,039

but the only way the only reason we can

786

00:26:58,710 --> 00:26:56,320

really see it is through this advanced

787

00:27:00,470 --> 00:26:58,720

technology um that we've had you know

788

00:27:02,950 --> 00:27:00,480

electron microscope you can't see an

789

00:27:05,110 --> 00:27:02,960

electron uh because it's smaller than

790

00:27:07,590 --> 00:27:05,120

the wavelength of visible light right so

791

00:27:09,590 --> 00:27:07,600

the actual you can't you can't film it

792

00:27:11,269 --> 00:27:09,600

with the camera you have to use the size

793

00:27:12,710 --> 00:27:11,279

of an electron

794

00:27:14,630 --> 00:27:12,720

so actually they kind of like use

795

00:27:15,750 --> 00:27:14,640

braille to actually like feel the top of

796

00:27:17,590 --> 00:27:15,760

the surface

797

00:27:20,070 --> 00:27:17,600

okay so there's other methods that we

798

00:27:21,590 --> 00:27:20,080

use to see into that dimension but to

799

00:27:23,909 --> 00:27:21,600

actually go there

800

00:27:25,350 --> 00:27:23,919

would require a portal right but but we

801  
00:27:26,710 --> 00:27:25,360  
can affect it and this is what i was

802  
00:27:28,230 --> 00:27:26,720  
kind of thinking

803  
00:27:30,230 --> 00:27:28,240  
was maybe it's

804  
00:27:32,149 --> 00:27:30,240  
these are really interdimensional beings

805  
00:27:33,909 --> 00:27:32,159  
coming from other sizes

806  
00:27:35,110 --> 00:27:33,919  
right so imagine you have we have

807  
00:27:36,630 --> 00:27:35,120  
limitless

808  
00:27:37,990 --> 00:27:36,640  
you know you have 70 trillion cells in

809  
00:27:39,430 --> 00:27:38,000  
your body

810  
00:27:41,110 --> 00:27:39,440  
i don't know maybe one of those turns

811  
00:27:43,269 --> 00:27:41,120  
into some alien civilization i don't

812  
00:27:44,789 --> 00:27:43,279  
know uh and then they're able to get

813  
00:27:46,870 --> 00:27:44,799

bigger but more than likely it's the

814

00:27:50,070 --> 00:27:46,880

other way if obviously this is just an

815

00:27:52,149 --> 00:27:50,080

idea um but from the larger

816

00:27:54,389 --> 00:27:52,159

uh from the higher dimensions or larger

817

00:27:56,470 --> 00:27:54,399

dimensions maybe they are like sticking

818

00:27:58,389 --> 00:27:56,480

a electron microscope in here and like

819

00:27:59,990 --> 00:27:58,399

feeling the size you know maybe that's

820

00:28:02,630 --> 00:28:00,000

why we get all these weird

821

00:28:04,230 --> 00:28:02,640

quantum effects or something you know

822

00:28:06,710 --> 00:28:04,240

probably less likely but

823

00:28:08,549 --> 00:28:06,720

just a way to consider that those

824

00:28:10,630 --> 00:28:08,559

there there are dimensions

825

00:28:12,070 --> 00:28:10,640

and that's how it works that sounds like

826

00:28:14,789 --> 00:28:12,080

something you should be pitching to the

827

00:28:16,630 --> 00:28:14,799

rick and morty guys

828

00:28:19,029 --> 00:28:16,640

i was just gonna say yeah it's the rick

829

00:28:20,710 --> 00:28:19,039

and morty car engine one right uh yeah

830

00:28:22,549 --> 00:28:20,720

kind of in the engine and then they go

831

00:28:24,230 --> 00:28:22,559

in another engine that was in the world

832

00:28:26,230 --> 00:28:24,240

made in that engine and it just kind of

833

00:28:27,350 --> 00:28:26,240

keeps going um

834

00:28:29,269 --> 00:28:27,360

but it's probably not right it's

835

00:28:30,549 --> 00:28:29,279

probably just simple like like it has

836

00:28:32,310 --> 00:28:30,559

been in the past you know we're probably

837

00:28:33,909 --> 00:28:32,320

just yeah that's what i that's what i

838

00:28:35,510 --> 00:28:33,919

would think you you've completely

839

00:28:36,630 --> 00:28:35,520

redefined the telescope for me now i'm

840

00:28:38,789 --> 00:28:36,640

going to be looking through it thinking

841

00:28:40,630 --> 00:28:38,799

this isn't just

842

00:28:42,230 --> 00:28:40,640

glass this is a dimensional window that

843

00:28:44,630 --> 00:28:42,240

i get to look through

844

00:28:45,430 --> 00:28:44,640

it's crazy too because galileo he saw

845

00:28:47,110 --> 00:28:45,440

the

846

00:28:49,269 --> 00:28:47,120

four moons of jupiter that was like his

847

00:28:50,070 --> 00:28:49,279

big uh thing is he was the first one to

848

00:28:52,950 --> 00:28:50,080

see

849

00:28:54,950 --> 00:28:52,960

um you know moon of a foreign body

850

00:28:56,630 --> 00:28:54,960

and so i was just messing around with my

851  
00:28:58,789 --> 00:28:56,640  
telescope you know or not until it's a

852  
00:29:00,870 --> 00:28:58,799  
spotting scope actually and i had it set

853  
00:29:02,389 --> 00:29:00,880  
up because i was like man i think that's

854  
00:29:04,950 --> 00:29:02,399  
i think that's jupiter you know i looked

855  
00:29:06,710 --> 00:29:04,960  
at it back in november and i saw the

856  
00:29:08,710 --> 00:29:06,720  
four m i saw four moons of jupiter you

857  
00:29:10,950 --> 00:29:08,720  
know i took a picture with my iphone

858  
00:29:13,990 --> 00:29:10,960  
um and that was before all of this just

859  
00:29:16,230 --> 00:29:14,000  
uh yeah it's crazy

860  
00:29:18,549 --> 00:29:16,240  
it was a precursor of what was to come

861  
00:29:20,470 --> 00:29:18,559  
um now listen dave had a question for

862  
00:29:22,389 --> 00:29:20,480  
you straight off the bat and again being

863  
00:29:24,070 --> 00:29:22,399

new to the subject

864

00:29:26,149 --> 00:29:24,080

answer it as best you can

865

00:29:28,710 --> 00:29:26,159

what is your best guess of where these

866

00:29:30,870 --> 00:29:28,720

uap craft are coming from do you think

867

00:29:32,230 --> 00:29:30,880

they have any operational centers and if

868

00:29:34,389 --> 00:29:32,240

so where do you think they could be

869

00:29:36,149 --> 00:29:34,399

located

870

00:29:37,830 --> 00:29:36,159

yeah that's definitely yeah it's a good

871

00:29:39,750 --> 00:29:37,840

one you know that that reminds me uh

872

00:29:41,590 --> 00:29:39,760

what's that snl remember there was

873

00:29:43,430 --> 00:29:41,600

saturday night live where the guys up

874

00:29:46,230 --> 00:29:43,440

there like schwarzkopf you know and then

875

00:29:47,909 --> 00:29:46,240

like the uh the reporter asks

876

00:29:49,750 --> 00:29:47,919

you know in like a terrible middle

877

00:29:52,389 --> 00:29:49,760

eastern accent you know he's like where

878

00:29:54,710 --> 00:29:52,399

is your your troops and can i go there

879

00:29:55,510 --> 00:29:54,720

and count them you know you remember

880

00:29:58,870 --> 00:29:55,520

that

881

00:30:01,029 --> 00:29:58,880

uh

882

00:30:03,029 --> 00:30:01,039

i i don't know so i well

883

00:30:05,350 --> 00:30:03,039

total guesses right speculation

884

00:30:07,830 --> 00:30:05,360

completely um

885

00:30:09,990 --> 00:30:07,840

like i said if if the hypothesis

886

00:30:10,710 --> 00:30:10,000

if it is true then what that would mean

887

00:30:12,149 --> 00:30:10,720

is

888

00:30:13,430 --> 00:30:12,159

it would depend on the environment we're

889

00:30:16,070 --> 00:30:13,440

in but i don't think we're just floating

890

00:30:18,149 --> 00:30:16,080

out there waiting to get gobbled up by

891

00:30:19,510 --> 00:30:18,159

like some you know other floating amoeba

892

00:30:21,430 --> 00:30:19,520

or something i think it's likely we're

893

00:30:23,750 --> 00:30:21,440

in a larger system

894

00:30:26,149 --> 00:30:23,760

and what these uaps are is

895

00:30:27,669 --> 00:30:26,159

uh basically the same sort of

896

00:30:28,710 --> 00:30:27,679

interacting elements you would have in

897

00:30:30,630 --> 00:30:28,720

your body

898

00:30:33,830 --> 00:30:30,640

you know so there's things that bring

899

00:30:35,750 --> 00:30:33,840

nutrients there's you know basically uh

900

00:30:37,750 --> 00:30:35,760

t cells keep out foreign invaders you

901  
00:30:38,549 --> 00:30:37,760  
know basically supporting

902  
00:30:40,710 --> 00:30:38,559  
um

903  
00:30:42,549 --> 00:30:40,720  
what would be supporting our planet

904  
00:30:44,310 --> 00:30:42,559  
uh because for some reason it provides

905  
00:30:46,710 --> 00:30:44,320  
some benefit to the

906  
00:30:48,630 --> 00:30:46,720  
to the larger organism right just like

907  
00:30:50,230 --> 00:30:48,640  
things in your body

908  
00:30:52,789 --> 00:30:50,240  
support each cell because it provides a

909  
00:30:53,669 --> 00:30:52,799  
benefit to the to the larger organism so

910  
00:30:57,430 --> 00:30:53,679  
if

911  
00:31:01,909 --> 00:30:57,440  
some miracle

912  
00:31:03,350 --> 00:31:01,919  
uh i would suspect that uaps are like

913  
00:31:06,470 --> 00:31:03,360

these higher

914

00:31:09,750 --> 00:31:06,480

higher levels so they should appear

915

00:31:11,430 --> 00:31:09,760

like these elements appear to us

916

00:31:13,669 --> 00:31:11,440

would be police right so people in

917

00:31:15,750 --> 00:31:13,679

police uniforms

918

00:31:17,590 --> 00:31:15,760

come from the city right and so that is

919

00:31:19,590 --> 00:31:17,600

a higher dimensional

920

00:31:21,110 --> 00:31:19,600

level and the way right because those

921

00:31:23,190 --> 00:31:21,120

people don't want to arrest you i mean i

922

00:31:24,789 --> 00:31:23,200

would assume right right they they don't

923

00:31:26,230 --> 00:31:24,799

want to get shot at or you know do this

924

00:31:28,950 --> 00:31:26,240

dangerous job

925

00:31:30,950 --> 00:31:28,960

um but they do right they do

926

00:31:32,710 --> 00:31:30,960

so so why do they why well they're

927

00:31:34,230 --> 00:31:32,720

forced by by the overall system that has

928

00:31:36,070 --> 00:31:34,240

created them molded them put them in

929

00:31:38,149 --> 00:31:36,080

that in that role

930

00:31:40,070 --> 00:31:38,159

uh and so they come out what it appears

931

00:31:40,950 --> 00:31:40,080

as is the police showing up at your door

932

00:31:43,190 --> 00:31:40,960

right

933

00:31:45,669 --> 00:31:43,200

um but the overall general system is

934

00:31:47,430 --> 00:31:45,679

it's it's creating order throughout the

935

00:31:49,029 --> 00:31:47,440

overall general system right if everyone

936

00:31:51,190 --> 00:31:49,039

was out there breaking the law uh

937

00:31:53,110 --> 00:31:51,200

running all of our traffic rules and and

938

00:31:55,110 --> 00:31:53,120

everything that the overall system would

939

00:31:56,950 --> 00:31:55,120

would start to fall

940

00:31:58,710 --> 00:31:56,960

um so this is just a control mechanism

941

00:32:02,470 --> 00:31:58,720

so the idea is

942

00:32:05,029 --> 00:32:02,480

uh it would be interdimensional beings

943

00:32:06,870 --> 00:32:05,039

that are similar to our level

944

00:32:08,789 --> 00:32:06,880

so that's why you know maybe why it's

945

00:32:09,990 --> 00:32:08,799

all humans or at least not humans but

946

00:32:12,310 --> 00:32:10,000

there are

947

00:32:13,750 --> 00:32:12,320

you know they appear homonoid in all the

948

00:32:15,990 --> 00:32:13,760

all the accounts right which seemed

949

00:32:17,909 --> 00:32:16,000

always seemed to me like too

950

00:32:19,110 --> 00:32:17,919

you know too convenient you know that

951  
00:32:21,509 --> 00:32:19,120  
and that's another reason i kind of

952  
00:32:22,630 --> 00:32:21,519  
wrote it off is you see like okay at a

953  
00:32:24,950 --> 00:32:22,640  
spaceship you know we've been hearing

954  
00:32:26,230 --> 00:32:24,960  
about spaceships for decades uh and then

955  
00:32:27,750 --> 00:32:26,240  
really they're gonna look like that you

956  
00:32:30,149 --> 00:32:27,760  
know they're gonna really have two eyes

957  
00:32:31,110 --> 00:32:30,159  
and and you know two arms and two legs

958  
00:32:33,269 --> 00:32:31,120  
and

959  
00:32:35,990 --> 00:32:33,279  
uh it just seemed too convenient to me

960  
00:32:38,549 --> 00:32:36,000  
uh but this would kind of

961  
00:32:40,549 --> 00:32:38,559  
feed into that whereas maybe it is like

962  
00:32:42,630 --> 00:32:40,559  
a seed world essentially where you know

963  
00:32:45,110 --> 00:32:42,640

we can grow on our own

964

00:32:46,070 --> 00:32:45,120

uh but there are certain basic pathways

965

00:32:47,669 --> 00:32:46,080

you know or maybe there's certain

966

00:32:50,070 --> 00:32:47,679

species out there

967

00:32:51,669 --> 00:32:50,080

uh so you're making you're making me

968

00:32:53,909 --> 00:32:51,679

think of all these weird random things

969

00:32:55,590 --> 00:32:53,919

now that like imagine the earth was a

970

00:32:57,350 --> 00:32:55,600

living thing in itself and this is just

971

00:32:59,029 --> 00:32:57,360

the earth's immune system attacking us

972

00:33:00,710 --> 00:32:59,039

because we're some kind of virus against

973

00:33:01,990 --> 00:33:00,720

it like exactly

974

00:33:03,509 --> 00:33:02,000

yeah it's

975

00:33:06,789 --> 00:33:03,519

like i don't know where it came from

976

00:33:08,389 --> 00:33:06,799

right i mean it's a crazy thought but

977

00:33:10,470 --> 00:33:08,399

i mean it's not solving a lot of

978

00:33:11,909 --> 00:33:10,480

problems a lot of overheating issues

979

00:33:14,230 --> 00:33:11,919

you know that was lovelock's big thing

980

00:33:16,310 --> 00:33:14,240

he wrote the guy i love that uh and what

981

00:33:17,909 --> 00:33:16,320

was he like 100 he wrote his last

982

00:33:19,029 --> 00:33:17,919

uh book uh

983

00:33:20,470 --> 00:33:19,039

i'm sorry i can't remember super

984

00:33:21,669 --> 00:33:20,480

intelligence i think it's what it's

985

00:33:23,269 --> 00:33:21,679

called

986

00:33:25,669 --> 00:33:23,279

uh amazing book but that was his main

987

00:33:28,230 --> 00:33:25,679

argument is that gaia will will continue

988

00:33:30,549 --> 00:33:28,240

the ai we will have new machines here

989

00:33:33,669 --> 00:33:30,559

new entities that we won't recognize he

990

00:33:34,630 --> 00:33:33,679

said they'll look ethereal in nature

991

00:33:37,269 --> 00:33:34,640

um

992

00:33:40,789 --> 00:33:37,279

which sounds kind of kind of familiar

993

00:33:43,350 --> 00:33:40,799

uh and he said that um really the the

994

00:33:46,070 --> 00:33:43,360

they'll keep us around he believes uh

995

00:33:48,389 --> 00:33:46,080

because we will keep the planet from

996

00:33:50,389 --> 00:33:48,399

overheating so basically which kind of

997

00:33:52,070 --> 00:33:50,399

makes sense for the entropy argument

998

00:33:54,310 --> 00:33:52,080

because if you look at entropy is always

999

00:33:56,470 --> 00:33:54,320

increasing in a normal system

1000

00:34:00,389 --> 00:33:56,480

uh you can also kind of relate that as i

1001  
00:34:03,269 --> 00:34:00,399  
don't know as heat maybe heat dispersing

1002  
00:34:05,110 --> 00:34:03,279  
um and so maybe heat dispersing is is is

1003  
00:34:06,630 --> 00:34:05,120  
the problem and so life is there to kind

1004  
00:34:08,790 --> 00:34:06,640  
of counteract this

1005  
00:34:10,950 --> 00:34:08,800  
this heat so that was lovelock's kind of

1006  
00:34:11,909 --> 00:34:10,960  
argument in gaia or his last book after

1007  
00:34:14,069 --> 00:34:11,919  
gaia

1008  
00:34:16,550 --> 00:34:14,079  
was that it will control the heat which

1009  
00:34:18,149 --> 00:34:16,560  
may be against the uh entropy so that

1010  
00:34:19,190 --> 00:34:18,159  
would also fill into the argument that

1011  
00:34:21,829 --> 00:34:19,200  
life

1012  
00:34:23,190 --> 00:34:21,839  
is for decreasing entropy

1013  
00:34:25,030 --> 00:34:23,200

these could be some good chats on the

1014

00:34:27,990 --> 00:34:25,040

listener call-in so coming up soon as

1015

00:34:30,069 --> 00:34:28,000

well um craig asks the question has

1016

00:34:32,069 --> 00:34:30,079

chris reached out to any current pilots

1017

00:34:34,310 --> 00:34:32,079

either in the air force or pilots you

1018

00:34:36,470 --> 00:34:34,320

worked with at nato and for any stories

1019

00:34:38,069 --> 00:34:36,480

about uap incidents

1020

00:34:39,109 --> 00:34:38,079

not really no

1021

00:34:41,030 --> 00:34:39,119

um

1022

00:34:43,430 --> 00:34:41,040

any reason like now you've got the

1023

00:34:45,030 --> 00:34:43,440

interest like i i don't know

1024

00:34:47,589 --> 00:34:45,040

i'm still you know you scared to reach

1025

00:34:49,270 --> 00:34:47,599

out i guess i don't know

1026

00:34:51,669 --> 00:34:49,280

i the buddies i asked kind of on the

1027

00:34:53,109 --> 00:34:51,679

side said no i haven't seen anything um

1028

00:34:54,950 --> 00:34:53,119

but

1029

00:34:56,550 --> 00:34:54,960

yeah i'll consider it you know that

1030

00:34:57,750 --> 00:34:56,560

would be cool it would be awesome to

1031

00:34:59,109 --> 00:34:57,760

have people out you're just you're

1032

00:35:01,030 --> 00:34:59,119

asking a lot you know the only person

1033

00:35:03,190 --> 00:35:01,040

that's come out so far is really ryan

1034

00:35:04,630 --> 00:35:03,200

graves and and i believe someone else on

1035

00:35:05,750 --> 00:35:04,640

the east coast

1036

00:35:07,910 --> 00:35:05,760

um but

1037

00:35:10,069 --> 00:35:07,920

i don't know i i maybe i don't want to

1038

00:35:11,030 --> 00:35:10,079

bother him i'll ask i'll ask it's a good

1039

00:35:12,630 --> 00:35:11,040

idea

1040

00:35:14,790 --> 00:35:12,640

and you know i think you've got that

1041

00:35:16,950 --> 00:35:14,800

level of respect it's not me with a ufo

1042

00:35:18,950 --> 00:35:16,960

podcast reaching out to to a pilot i

1043

00:35:20,550 --> 00:35:18,960

don't know or have any relationship with

1044

00:35:22,790 --> 00:35:20,560

to ask them to appear on here and talk

1045

00:35:24,470 --> 00:35:22,800

about ufos it's someone who else has

1046

00:35:26,550 --> 00:35:24,480

served with them asking to come out and

1047

00:35:28,470 --> 00:35:26,560

have a chat and um i've said one of

1048

00:35:30,790 --> 00:35:28,480

louie elizondo's best interviews was

1049

00:35:32,950 --> 00:35:30,800

with terry wurtz the astronaut

1050

00:35:35,349 --> 00:35:32,960

and terry i don't know if you've seen it

1051  
00:35:37,190 --> 00:35:35,359  
but terry isn't necessarily really

1052  
00:35:38,550 --> 00:35:37,200  
interested in ufos

1053  
00:35:42,069 --> 00:35:38,560  
and he's not actually a great

1054  
00:35:44,550 --> 00:35:42,079  
interviewer he's just naturally curious

1055  
00:35:46,310 --> 00:35:44,560  
and the level of respect that lou has

1056  
00:35:48,150 --> 00:35:46,320  
for him

1057  
00:35:49,829 --> 00:35:48,160  
the questions lou asked don't

1058  
00:35:52,230 --> 00:35:49,839  
necessarily warrant the amount of

1059  
00:35:54,150 --> 00:35:52,240  
information lou gives terry and you can

1060  
00:35:55,030 --> 00:35:54,160  
just see because of the respect lou has

1061  
00:35:57,109 --> 00:35:55,040  
for him

1062  
00:35:58,550 --> 00:35:57,119  
he talks about a lot of stuff where when

1063  
00:35:59,670 --> 00:35:58,560

you look back at it and i suppose from

1064

00:36:01,510 --> 00:35:59,680

an interviewer's point of view i'm

1065

00:36:03,430 --> 00:36:01,520

watching it going

1066

00:36:04,950 --> 00:36:03,440

he didn't ask lou that yet lou is now

1067

00:36:05,990 --> 00:36:04,960

talking about an incident where a huge

1068

00:36:07,670 --> 00:36:06,000

island

1069

00:36:09,910 --> 00:36:07,680

sized object appeared from underneath

1070

00:36:10,829 --> 00:36:09,920

the ocean and swallowed a missile off of

1071

00:36:13,430 --> 00:36:10,839

puerto

1072

00:36:14,950 --> 00:36:13,440

rico like huh so but just due to that

1073

00:36:16,310 --> 00:36:14,960

like i say that i think that military

1074

00:36:18,069 --> 00:36:16,320

thing

1075

00:36:20,230 --> 00:36:18,079

go go and watch it honestly and again

1076

00:36:22,950 --> 00:36:20,240

people have asked and accent why is

1077

00:36:25,829 --> 00:36:22,960

people struggled it's terry verts v i

1078

00:36:27,910 --> 00:36:25,839

rts okay um has youtube channel the

1079

00:36:30,150 --> 00:36:27,920

interview with luella's ondo is pretty

1080

00:36:32,230 --> 00:36:30,160

far down the list just because of the

1081

00:36:34,390 --> 00:36:32,240

nature of that channel ufos aren't

1082

00:36:36,790 --> 00:36:34,400

necessarily a big topic so do scroll

1083

00:36:40,470 --> 00:36:36,800

down it it's one of the best interview

1084

00:36:41,670 --> 00:36:40,480

as well as on those done

1085

00:36:43,270 --> 00:36:41,680

i remember you mentioned one when you

1086

00:36:45,030 --> 00:36:43,280

talked to lou is that the one you you

1087

00:36:46,310 --> 00:36:45,040

mentioned yes i apparently that was the

1088

00:36:48,150 --> 00:36:46,320

one yet

1089

00:36:50,069 --> 00:36:48,160

okay cool i thought i wrote that down

1090

00:36:51,910 --> 00:36:50,079

but and daniel was saying

1091

00:36:54,630 --> 00:36:51,920

i i was just gonna say terry's super

1092

00:36:56,870 --> 00:36:54,640

insightful you know he's an astronaut he

1093

00:36:58,310 --> 00:36:56,880

uh when he was on jorgen he spoke about

1094

00:36:59,910 --> 00:36:58,320

kind of how

1095

00:37:02,390 --> 00:36:59,920

ash being an astronaut it feels like

1096

00:37:04,230 --> 00:37:02,400

you're constantly falling and that was a

1097

00:37:05,829 --> 00:37:04,240

quality i hadn't quite considered when i

1098

00:37:07,910 --> 00:37:05,839

thought about you know being up in zero

1099

00:37:09,589 --> 00:37:07,920

g kind of constantly having to stop

1100

00:37:11,430 --> 00:37:09,599

yourself kind of grabbing something

1101  
00:37:15,510 --> 00:37:11,440  
because your brain says you're falling

1102  
00:37:17,910 --> 00:37:15,520  
you know um but yeah he's a very good uh

1103  
00:37:19,829 --> 00:37:17,920  
human in interviewer i would say yeah

1104  
00:37:21,349 --> 00:37:19,839  
he's no bias which was great and that

1105  
00:37:23,349 --> 00:37:21,359  
really comes across in the interview as

1106  
00:37:24,710 --> 00:37:23,359  
well uh which i enjoyed so yeah people

1107  
00:37:25,829 --> 00:37:24,720  
should check that one out and and

1108  
00:37:27,990 --> 00:37:25,839  
yourself chris

1109  
00:37:30,470 --> 00:37:28,000  
um chris next question was from agent

1110  
00:37:31,990 --> 00:37:30,480  
black he said first off chris's videos

1111  
00:37:34,310 --> 00:37:32,000  
in the last few months are required

1112  
00:37:36,550 --> 00:37:34,320  
viewing he has some serious fans who may

1113  
00:37:38,150 --> 00:37:36,560

not be vocal on social media but his

1114

00:37:39,430 --> 00:37:38,160

work is crucial right now and i can't

1115

00:37:42,150 --> 00:37:39,440

thank him enough

1116

00:37:44,310 --> 00:37:42,160

um and the question goes on how do all

1117

00:37:46,470 --> 00:37:44,320

you former pilots feel when debunkers

1118

00:37:49,190 --> 00:37:46,480

who have little to no experience claim

1119

00:37:50,710 --> 00:37:49,200

you can't identify basic objects given

1120

00:37:52,470 --> 00:37:50,720

your state of the art targeting

1121

00:37:55,589 --> 00:37:52,480

equipment and i suppose we we kind of

1122

00:37:58,150 --> 00:37:55,599

touched on this earlier a little bit

1123

00:37:59,349 --> 00:37:58,160

yeah i i actually haven't talked to them

1124

00:38:01,589 --> 00:37:59,359

i don't know

1125

00:38:03,589 --> 00:38:01,599

i didn't uh i'll i'll ask my buddies

1126

00:38:05,109 --> 00:38:03,599

actually i live out in portugal you know

1127

00:38:06,950 --> 00:38:05,119

kind of out in the middle of nowhere

1128

00:38:08,310 --> 00:38:06,960

um

1129

00:38:11,030 --> 00:38:08,320

yeah do you think do you think they

1130

00:38:13,109 --> 00:38:11,040

would care or is that something

1131

00:38:14,550 --> 00:38:13,119

yeah without it now without a doubt

1132

00:38:15,670 --> 00:38:14,560

i don't i mean i don't even need to ask

1133

00:38:17,990 --> 00:38:15,680

them you know

1134

00:38:19,750 --> 00:38:18,000

like i saw it's ridiculous it's just

1135

00:38:21,829 --> 00:38:19,760

ridiculous uh

1136

00:38:23,109 --> 00:38:21,839

yeah to save what well and what he says

1137

00:38:25,349 --> 00:38:23,119

you know when he when he shows the go

1138

00:38:27,349 --> 00:38:25,359

fast and he says it's a it's a goose he

1139

00:38:29,190 --> 00:38:27,359

just doesn't realize how ridiculous it

1140

00:38:31,190 --> 00:38:29,200

is you know and then i and then i made

1141

00:38:32,310 --> 00:38:31,200

that video and i i keep getting hate

1142

00:38:34,710 --> 00:38:32,320

comments from it you know because

1143

00:38:35,910 --> 00:38:34,720

thunderf00t made a video aiming at at

1144

00:38:38,390 --> 00:38:35,920

that video

1145

00:38:40,950 --> 00:38:38,400

uh but i i leave it up because i i don't

1146

00:38:42,630 --> 00:38:40,960

know i think a i need to hate comments

1147

00:38:46,710 --> 00:38:42,640

uh you know just to like

1148

00:38:49,190 --> 00:38:46,720

slap me awake again uh and then uh but

1149

00:38:51,750 --> 00:38:49,200

but b i think all the information is

1150

00:38:53,270 --> 00:38:51,760

is not refuted you know like they still

1151

00:38:55,589 --> 00:38:53,280

think it's refuted

1152

00:38:59,030 --> 00:38:55,599

so at the end of the day you know

1153

00:39:00,150 --> 00:38:59,040

i i honestly don't care uh what you know

1154

00:39:01,910 --> 00:39:00,160

thunderfoot

1155

00:39:02,950 --> 00:39:01,920

thinks or what videos he makes at the

1156

00:39:05,109 --> 00:39:02,960

end of the day you know and i really

1157

00:39:06,870 --> 00:39:05,119

learned that from talking to avilab uh

1158

00:39:08,310 --> 00:39:06,880

or mick west you know and that's why i

1159

00:39:09,750 --> 00:39:08,320

don't i don't know what mick west is

1160

00:39:12,230 --> 00:39:09,760

doing really because i don't watch his

1161

00:39:13,589 --> 00:39:12,240

videos i'm really just so busy you know

1162

00:39:15,510 --> 00:39:13,599

trying to

1163

00:39:16,870 --> 00:39:15,520

think of stuff and investigate and watch

1164

00:39:18,630 --> 00:39:16,880

other videos that i that i care about

1165

00:39:19,910 --> 00:39:18,640

you know it's really almost a waste of

1166

00:39:22,470 --> 00:39:19,920

my time

1167

00:39:24,069 --> 00:39:22,480

um to engage with him but but i will you

1168

00:39:25,349 --> 00:39:24,079

know if it's required or if he brings up

1169

00:39:26,630 --> 00:39:25,359

a good point you know if he does bring

1170

00:39:28,950 --> 00:39:26,640

up a good point

1171

00:39:30,550 --> 00:39:28,960

that can further the discussion or they

1172

00:39:31,750 --> 00:39:30,560

can show me something else it's it's

1173

00:39:34,310 --> 00:39:31,760

good motivation

1174

00:39:37,349 --> 00:39:34,320

um and last question from charlie he

1175

00:39:38,630 --> 00:39:37,359

says at the recent aiaa conference ryan

1176

00:39:40,870 --> 00:39:38,640

graves who you've just mentioned

1177

00:39:44,069 --> 00:39:40,880

presented some recommendations for air

1178

00:39:47,270 --> 00:39:44,079

safety with regard to uap activity what

1179

00:39:49,190 --> 00:39:47,280

recommendations would you make

1180

00:39:51,109 --> 00:39:49,200

yeah that's a good question i i don't

1181

00:39:53,270 --> 00:39:51,119

remember what he recommended

1182

00:39:54,710 --> 00:39:53,280

uh so

1183

00:39:56,390 --> 00:39:54,720

what would you do for safety so

1184

00:39:58,230 --> 00:39:56,400

basically the way

1185

00:39:59,829 --> 00:39:58,240

that's a that's a tough question right

1186

00:40:02,470 --> 00:39:59,839

there there's there's basically three

1187

00:40:04,710 --> 00:40:02,480

things you can do you know so you can

1188

00:40:07,109 --> 00:40:04,720

you can affect it the best way is to

1189

00:40:08,829 --> 00:40:07,119

system affect it right you literally

1190

00:40:11,190 --> 00:40:08,839

design out the problem

1191

00:40:13,190 --> 00:40:11,200

um so

1192

00:40:14,230 --> 00:40:13,200

like so that would work like if there is

1193

00:40:30,630 --> 00:40:14,240

a

1194

00:40:32,550 --> 00:40:30,640

um

1195

00:40:34,710 --> 00:40:32,560

you're making it so we physically can't

1196

00:40:36,470 --> 00:40:34,720

enter interact with them

1197

00:40:38,309 --> 00:40:36,480

right that would be a kind of a systems

1198

00:40:39,990 --> 00:40:38,319

design it doesn't make as good a sense

1199

00:40:43,589 --> 00:40:40,000

the the better argument for system

1200

00:40:45,829 --> 00:40:43,599

design is like um pilots when they go to

1201  
00:40:47,430 --> 00:40:45,839  
reach the landing gear since this switch

1202  
00:40:50,470 --> 00:40:47,440  
is right under it once in a while they

1203  
00:40:52,230 --> 00:40:50,480  
hit it and it like blows up the whatever

1204  
00:40:53,750 --> 00:40:52,240  
you know it causes some serious issue

1205  
00:40:55,109 --> 00:40:53,760  
okay i just made that up i'm sure it

1206  
00:40:56,470 --> 00:40:55,119  
happened in the past right this always

1207  
00:40:57,430 --> 00:40:56,480  
happens they build something to find out

1208  
00:40:59,670 --> 00:40:57,440  
later

1209  
00:41:01,829 --> 00:40:59,680  
um so what the best way to do is to

1210  
00:41:03,589 --> 00:41:01,839  
literally design out that

1211  
00:41:05,109 --> 00:41:03,599  
switch right you you take it out you put

1212  
00:41:07,190 --> 00:41:05,119  
it somewhere else you you remove it

1213  
00:41:08,950 --> 00:41:07,200

right so it physically can't happen but

1214

00:41:10,790 --> 00:41:08,960

if that can't happen then you then you

1215

00:41:12,230 --> 00:41:10,800

put like a little cage over it you know

1216

00:41:13,589 --> 00:41:12,240

you're doing it like a

1217

00:41:15,430 --> 00:41:13,599

duct tape fix

1218

00:41:17,430 --> 00:41:15,440

uh and then the weakest right until that

1219

00:41:19,990 --> 00:41:17,440

happens is you just you procedurally do

1220

00:41:21,670 --> 00:41:20,000

it so you just tell everybody hey you

1221

00:41:22,550 --> 00:41:21,680

know don't hit this switch although

1222

00:41:24,230 --> 00:41:22,560

you're never going to think of this

1223

00:41:25,750 --> 00:41:24,240

while it's going on but you you might

1224

00:41:26,790 --> 00:41:25,760

get automatically ejected or something

1225

00:41:28,470 --> 00:41:26,800

you know

1226

00:41:30,630 --> 00:41:28,480

so procedurally so i think all they've

1227

00:41:32,630 --> 00:41:30,640

been able to do so far is just do

1228

00:41:34,390 --> 00:41:32,640

procedurally they say hey

1229

00:41:35,430 --> 00:41:34,400

there's no dems out there

1230

00:41:37,589 --> 00:41:35,440

and

1231

00:41:39,030 --> 00:41:37,599

that's it because i you know you have to

1232

00:41:40,950 --> 00:41:39,040

in order to avoid them you'd have to

1233

00:41:42,150 --> 00:41:40,960

know exactly where they are um and it

1234

00:41:43,190 --> 00:41:42,160

sounds like they don't know where they

1235

00:41:45,670 --> 00:41:43,200

are

1236

00:41:47,589 --> 00:41:45,680

um so yeah i'd have to look more so what

1237

00:41:49,510 --> 00:41:47,599

i would do is safety would be go and

1238

00:41:51,349 --> 00:41:49,520

investigate the 11

1239

00:41:52,710 --> 00:41:51,359

close passes they had look at those near

1240

00:41:54,550 --> 00:41:52,720

misses and really that's your that's

1241

00:41:55,829 --> 00:41:54,560

your safety point

1242

00:41:57,349 --> 00:41:55,839

is that when they thought they were in

1243

00:41:59,190 --> 00:41:57,359

danger or thought thought something

1244

00:41:59,990 --> 00:41:59,200

could have happened and then you figure

1245

00:42:04,230 --> 00:42:00,000

out

1246

00:42:06,390 --> 00:42:04,240

the system

1247

00:42:07,990 --> 00:42:06,400

awesome cool um so let's finish off on

1248

00:42:08,950 --> 00:42:08,000

the quick fire round chris uh let's say

1249

00:42:10,230 --> 00:42:08,960

you've been you've been great with your

1250

00:42:12,470 --> 00:42:10,240

time and it's been a lot of fun talking

1251

00:42:15,750 --> 00:42:12,480

to you as well um the first one is do

1252

00:42:16,950 --> 00:42:15,760

you have any thoughts on the bob lazar

1253

00:42:19,030 --> 00:42:16,960

bob lazar

1254

00:42:21,030 --> 00:42:19,040

yeah you know i i initially thought it

1255

00:42:22,790 --> 00:42:21,040

was amazing his his uh

1256

00:42:25,030 --> 00:42:22,800

all of his descriptions like the gravity

1257

00:42:28,309 --> 00:42:25,040

waves how they work with microwaves used

1258

00:42:30,470 --> 00:42:28,319

through wave guides uh the e115 um all

1259

00:42:31,670 --> 00:42:30,480

the the actual chemistry physics he

1260

00:42:34,069 --> 00:42:31,680

described

1261

00:42:35,750 --> 00:42:34,079

um was amazing you know and then even

1262

00:42:37,589 --> 00:42:35,760

like the

1263

00:42:39,349 --> 00:42:37,599

uh all the secret stuff that maybe uh

1264

00:42:40,950 --> 00:42:39,359

you know i've i've been through those

1265

00:42:43,270 --> 00:42:40,960

programs not that not obviously not

1266

00:42:45,109 --> 00:42:43,280

those programs um but you know i've been

1267

00:42:46,790 --> 00:42:45,119

reading on other things and and so he's

1268

00:42:48,790 --> 00:42:46,800

obviously done that before you know he's

1269

00:42:52,150 --> 00:42:48,800

obviously knows the process

1270

00:42:53,190 --> 00:42:52,160

or you know he seems to know it um

1271

00:42:54,790 --> 00:42:53,200

so it

1272

00:42:56,470 --> 00:42:54,800

it all felt like

1273

00:42:58,390 --> 00:42:56,480

real to me you know i you know of course

1274

00:42:59,910 --> 00:42:58,400

it was brilliant again it's been a three

1275

00:43:01,510 --> 00:42:59,920

month like spin up for me you know so

1276

00:43:03,430 --> 00:43:01,520

it's been like constant

1277

00:43:05,430 --> 00:43:03,440

yeah but then i really you know and

1278

00:43:08,069 --> 00:43:05,440

kevin knew he mentions again you know

1279

00:43:10,390 --> 00:43:08,079

theories of everything kurt asked him

1280

00:43:11,990 --> 00:43:10,400

why he didn't believe bob lazar and so

1281

00:43:13,670 --> 00:43:12,000

balazar basically made the argument that

1282

00:43:15,349 --> 00:43:13,680

there's not enough information in there

1283

00:43:17,349 --> 00:43:15,359

you know it's basically

1284

00:43:18,710 --> 00:43:17,359

um not quite enough information to prove

1285

00:43:21,109 --> 00:43:18,720

that it's valid so he thinks it's not

1286

00:43:23,430 --> 00:43:21,119

valid and uh so it seems like in the uap

1287

00:43:24,710 --> 00:43:23,440

community they they they disregard it

1288

00:43:26,390 --> 00:43:24,720

but they don't think it's they don't

1289

00:43:28,710 --> 00:43:26,400

think it's real so

1290

00:43:31,829 --> 00:43:28,720

i'd say it's split

1291

00:43:33,349 --> 00:43:31,839

okay yeah i i think 50 50.

1292

00:43:36,470 --> 00:43:33,359

um as to those who believe it and those

1293

00:43:37,750 --> 00:43:36,480

who don't dan what about you 50 to 115

1294

00:43:40,550 --> 00:43:37,760

i'd say

1295

00:43:42,950 --> 00:43:40,560

115 lol

1296

00:43:45,430 --> 00:43:42,960

next one is what's your favorite uap

1297

00:43:49,349 --> 00:43:48,069

favorite uap video oh man i don't know

1298

00:43:53,510 --> 00:43:49,359

uh

1299

00:43:55,510 --> 00:43:53,520

do you know what i presume that anyway

1300

00:43:57,750 --> 00:43:55,520

just without being in the manure

1301  
00:43:59,829 --> 00:43:57,760  
unless you've seen something aguadilla

1302  
00:44:01,750 --> 00:43:59,839  
and you know

1303  
00:44:03,829 --> 00:44:01,760  
anything you've looked at

1304  
00:44:05,829 --> 00:44:03,839  
i i mean the one that i just the most

1305  
00:44:07,510 --> 00:44:05,839  
memorable for me is the gimbal

1306  
00:44:09,589 --> 00:44:07,520  
you know that was just unbelievable i

1307  
00:44:11,270 --> 00:44:09,599  
can't believe it you know it looked

1308  
00:44:13,030 --> 00:44:11,280  
because i couldn't find exactly what it

1309  
00:44:14,470 --> 00:44:13,040  
looked like online you know it took me

1310  
00:44:16,790 --> 00:44:14,480  
like literally 20 minutes i just kept

1311  
00:44:18,630 --> 00:44:16,800  
looking and all i found was this picture

1312  
00:44:21,589 --> 00:44:18,640  
from 1952

1313  
00:44:22,870 --> 00:44:21,599

uh of of what i saw as the gimbal you

1314

00:44:23,990 --> 00:44:22,880

know because it looks

1315

00:44:25,670 --> 00:44:24,000

you know i've looked at it for so many

1316

00:44:27,109 --> 00:44:25,680

hundreds of hours it looks much clearer

1317

00:44:29,910 --> 00:44:27,119

to me whether it's not or whether it's

1318

00:44:32,150 --> 00:44:29,920

fake or anything uh it looks very clear

1319

00:44:34,790 --> 00:44:32,160

and and when when i went to find the

1320

00:44:36,069 --> 00:44:34,800

thing that i thought i was looking at it

1321

00:44:37,910 --> 00:44:36,079

uh the only picture i could find was

1322

00:44:39,349 --> 00:44:37,920

from 1952 you know

1323

00:44:40,870 --> 00:44:39,359

which kind of blew my mind away like the

1324

00:44:42,790 --> 00:44:40,880

memes have changed you know where like

1325

00:44:45,109 --> 00:44:42,800

the memes didn't put the saucer there

1326  
00:44:46,950 --> 00:44:45,119  
you know that the classic saucer which

1327  
00:44:49,030 --> 00:44:46,960  
is what the gimbal was

1328  
00:44:50,870 --> 00:44:49,040  
so that one just just blew me away i

1329  
00:44:52,710 --> 00:44:50,880  
mean the tic tacs got to be

1330  
00:44:54,309 --> 00:44:52,720  
no one expected the tic tac you know i

1331  
00:44:55,829 --> 00:44:54,319  
mean what you could make up a lot of

1332  
00:44:58,550 --> 00:44:55,839  
things but really a tic tac thing that

1333  
00:45:00,069 --> 00:44:58,560  
flips around and like tumbles around

1334  
00:45:01,750 --> 00:45:00,079  
that's just crazy

1335  
00:45:03,589 --> 00:45:01,760  
so yeah that's the one that really

1336  
00:45:05,109 --> 00:45:03,599  
changed my mind that nimitz you know

1337  
00:45:06,550 --> 00:45:05,119  
that that opened it up that this was

1338  
00:45:08,230 --> 00:45:06,560

even possible

1339

00:45:09,510 --> 00:45:08,240

was that nimitz encountered the way he

1340

00:45:11,109 --> 00:45:09,520

he can relate it and then all the

1341

00:45:12,790 --> 00:45:11,119

supporting stuff kevin did you know you

1342

00:45:14,069 --> 00:45:12,800

go and watch kevin day did an amazing

1343

00:45:15,510 --> 00:45:14,079

thing to make that happen everybody

1344

00:45:16,390 --> 00:45:15,520

calls it like the fravor incident you

1345

00:45:18,069 --> 00:45:16,400

know

1346

00:45:19,109 --> 00:45:18,079

but kevin day man he's the one vectoring

1347

00:45:20,390 --> 00:45:19,119

him over

1348

00:45:22,870 --> 00:45:20,400

so it should be called like the kevin

1349

00:45:24,230 --> 00:45:22,880

day incident you know but anyway i'm

1350

00:45:26,069 --> 00:45:24,240

sure kevin would appreciate that he's a

1351

00:45:27,109 --> 00:45:26,079

nice guy yeah i want him back to i don't

1352

00:45:28,950 --> 00:45:27,119

know i've been trying to meet up with

1353

00:45:31,030 --> 00:45:28,960

gary voorhees you know i kept saying i

1354

00:45:32,550 --> 00:45:31,040

do a nimitz dive and then but then i see

1355

00:45:33,510 --> 00:45:32,560

there's so many interviews so i've been

1356

00:45:35,030 --> 00:45:33,520

like trying to watch all these

1357

00:45:37,190 --> 00:45:35,040

interviews all these interviews i don't

1358

00:45:38,710 --> 00:45:37,200

want to ask them the same questions

1359

00:45:41,910 --> 00:45:38,720

but hopefully i get them on i want to

1360

00:45:43,510 --> 00:45:41,920

get uh get them on on one maybe one live

1361

00:45:45,589 --> 00:45:43,520

stream

1362

00:45:47,190 --> 00:45:45,599

again gary's a good guy i was texting

1363

00:45:48,870 --> 00:45:47,200

him last night as well so yeah i got him

1364

00:45:51,990 --> 00:45:48,880

a gary um

1365

00:45:53,430 --> 00:45:52,000

what's your thoughts on skinwalker ranch

1366

00:45:55,750 --> 00:45:53,440

i i honestly just learned about

1367

00:45:57,109 --> 00:45:55,760

skinwalker ranch like two days ago

1368

00:45:58,630 --> 00:45:57,119

you know i guess

1369

00:46:00,390 --> 00:45:58,640

it must be amazing to you guys like how

1370

00:46:01,510 --> 00:46:00,400

do you know how do i not know all this

1371

00:46:02,710 --> 00:46:01,520

stuff like

1372

00:46:03,990 --> 00:46:02,720

like

1373

00:46:05,910 --> 00:46:04,000

i'd heard of it i'd heard of people

1374

00:46:07,829 --> 00:46:05,920

saying skin walking around i'm like what

1375

00:46:10,870 --> 00:46:07,839

is this like a you know like a like a

1376

00:46:12,470 --> 00:46:10,880

brothel somewhere on las vegas you know

1377

00:46:13,990 --> 00:46:12,480

i have no idea like

1378

00:46:16,230 --> 00:46:14,000

i literally thought is it a brothel you

1379

00:46:18,470 --> 00:46:16,240

know chris but let me let me tell you

1380

00:46:20,230 --> 00:46:18,480

like i i like you have a fresh

1381

00:46:21,510 --> 00:46:20,240

perspective on it though i i mean

1382

00:46:24,069 --> 00:46:21,520

extremely fresh you've literally just

1383

00:46:25,910 --> 00:46:24,079

opened the packet like but we speak to

1384

00:46:28,550 --> 00:46:25,920

people who are experts or who have a

1385

00:46:29,990 --> 00:46:28,560

bias or who have been involved in it i

1386

00:46:32,069 --> 00:46:30,000

mean we've spoken to the owner we've

1387

00:46:33,910 --> 00:46:32,079

spoken to brandon we've spoken to thomas

1388

00:46:36,150 --> 00:46:33,920

winterton and and bryant arnold who's

1389

00:46:38,069 --> 00:46:36,160

security on on the ranch so they've all

1390

00:46:39,910 --> 00:46:38,079

got these really unique perspectives but

1391

00:46:41,910 --> 00:46:39,920

to speak to someone who is just dipping

1392

00:46:43,829 --> 00:46:41,920

their toe in the water of it it'll be

1393

00:46:45,349 --> 00:46:43,839

interesting to hear what your thoughts

1394

00:46:46,630 --> 00:46:45,359

yeah right now from the little you've

1395

00:46:49,190 --> 00:46:46,640

heard but then you know what in the

1396

00:46:50,710 --> 00:46:49,200

future just to see as it develops like

1397

00:46:53,430 --> 00:46:50,720

do you still think there is something

1398

00:46:55,190 --> 00:46:53,440

going on multiple things going on or is

1399

00:46:57,510 --> 00:46:55,200

it a bit of a damp squib but what what's

1400

00:46:58,790 --> 00:46:57,520

your natural thoughts

1401

00:47:02,309 --> 00:46:58,800

i thought it was i watched travis

1402

00:47:04,550 --> 00:47:02,319

taylor's uh interview um

1403

00:47:05,990 --> 00:47:04,560

and it was a i was surprised by some of

1404

00:47:07,030 --> 00:47:06,000

the comments you know interesting was

1405

00:47:08,390 --> 00:47:07,040

the gamma

1406

00:47:11,349 --> 00:47:08,400

i was surprised by he had gamma

1407

00:47:13,510 --> 00:47:11,359

radiation burns um you know gamma comes

1408

00:47:15,349 --> 00:47:13,520

from this it's the smallest wavelength

1409

00:47:16,870 --> 00:47:15,359

actually you know so it's just so

1410

00:47:18,390 --> 00:47:16,880

interesting we're looking at i don't

1411

00:47:20,230 --> 00:47:18,400

know maybe the largest wavelength

1412

00:47:22,069 --> 00:47:20,240

creates the smallest

1413

00:47:23,750 --> 00:47:22,079

or this we have the largest wavelength

1414

00:47:25,750 --> 00:47:23,760

and the smallest wavelength somehow or

1415

00:47:27,510 --> 00:47:25,760

are there you know or

1416

00:47:28,950 --> 00:47:27,520

you know if you have less than 20 hertz

1417

00:47:31,270 --> 00:47:28,960

infrasound

1418

00:47:33,190 --> 00:47:31,280

um and then somehow you also have gamma

1419

00:47:34,470 --> 00:47:33,200

radiation at the same place

1420

00:47:35,829 --> 00:47:34,480

um

1421

00:47:37,030 --> 00:47:35,839

yeah that was very interesting to me i

1422

00:47:39,109 --> 00:47:37,040

thought that was interesting and then

1423

00:47:40,950 --> 00:47:39,119

you hear about uh lou elizondo saying

1424

00:47:42,390 --> 00:47:40,960

that you know he's

1425

00:47:46,069 --> 00:47:42,400

everything he's heard of everything at

1426  
00:47:47,430 --> 00:47:46,079  
the skinwalker ranch and then kevin knew

1427  
00:47:49,270 --> 00:47:47,440  
in the interview i just watched last

1428  
00:47:50,950 --> 00:47:49,280  
night saying he can't explain half the

1429  
00:47:54,150 --> 00:47:50,960  
things

1430  
00:47:55,910 --> 00:47:54,160  
so yeah sounds amazing you know um

1431  
00:47:57,030 --> 00:47:55,920  
there's a few good things

1432  
00:47:59,109 --> 00:47:57,040  
there's a few there's a few good

1433  
00:48:01,109 --> 00:47:59,119  
documentaries on it um

1434  
00:48:02,630 --> 00:48:01,119  
jeremy carbell's documentary is good and

1435  
00:48:04,390 --> 00:48:02,640  
covers a lot of ground and there's a few

1436  
00:48:05,510 --> 00:48:04,400  
more i think amazon prime's got one on

1437  
00:48:07,910 --> 00:48:05,520  
there as well

1438  
00:48:09,829 --> 00:48:07,920

um so yeah there's plenty of content and

1439

00:48:11,990 --> 00:48:09,839

of course the the history channel show

1440

00:48:15,430 --> 00:48:12,000

that we've talked about a few times like

1441

00:48:17,670 --> 00:48:15,440

hey there are times where you're

1442

00:48:20,069 --> 00:48:17,680

you're filming a dramatization at times

1443

00:48:22,069 --> 00:48:20,079

of an ongoing scientific experiment so

1444

00:48:24,230 --> 00:48:22,079

what you know there's only so much

1445

00:48:26,390 --> 00:48:24,240

digging a hole can be spread out over 45

1446

00:48:28,150 --> 00:48:26,400

minutes of an episode yeah so maybe

1447

00:48:29,670 --> 00:48:28,160

start with the documentaries and then if

1448

00:48:31,109 --> 00:48:29,680

you're really

1449

00:48:33,829 --> 00:48:31,119

i was going to say digging it but that's

1450

00:48:35,750 --> 00:48:33,839

a pun um if you're really enjoying that

1451

00:48:37,829 --> 00:48:35,760

the concept and the show and the history

1452

00:48:39,430 --> 00:48:37,839

and the lore then going to the show and

1453

00:48:41,109 --> 00:48:39,440

start looking at that and but yeah

1454

00:48:42,470 --> 00:48:41,119

documentaries are the documentary's the

1455

00:48:44,790 --> 00:48:42,480

best yeah the skid walker ranch

1456

00:48:47,829 --> 00:48:44,800

documentary yeah there's two there's two

1457

00:48:48,950 --> 00:48:47,839

good ones to watch oh the uh something

1458

00:48:50,390 --> 00:48:48,960

you touched on earlier when we were

1459

00:48:52,950 --> 00:48:50,400

talking about censors actually reminded

1460

00:48:54,069 --> 00:48:52,960

me of something from skinwalker um in in

1461

00:48:56,230 --> 00:48:54,079

maybe this will wait your appetite

1462

00:48:58,150 --> 00:48:56,240

enough to jump into the show but at one

1463

00:48:59,589 --> 00:48:58,160

point you they say that you're not meant

1464

00:49:02,390 --> 00:48:59,599

to dig on the ranch and the bad things

1465

00:49:06,069 --> 00:49:02,400

happen when you dig so naturally they

1466

00:49:08,069 --> 00:49:06,079

start digging um and when they do that

1467

00:49:10,069 --> 00:49:08,079

there are a few people kind of far from

1468

00:49:11,910 --> 00:49:10,079

the dig site have compasses and the

1469

00:49:14,069 --> 00:49:11,920

compasses all start to point towards the

1470

00:49:15,910 --> 00:49:14,079

dig site

1471

00:49:17,510 --> 00:49:15,920

right and yeah you kind of touched on

1472

00:49:19,589 --> 00:49:17,520

that earlier like those were thrown in

1473

00:49:20,950 --> 00:49:19,599

oh man that's so awesome yeah

1474

00:49:23,589 --> 00:49:20,960

that's the simplest thing i could think

1475

00:49:25,430 --> 00:49:23,599

of simplest it's gotta be

1476

00:49:26,950 --> 00:49:25,440

so that's what dan's good for his memory

1477

00:49:29,349 --> 00:49:26,960

on this stuff because i don't know

1478

00:49:32,549 --> 00:49:29,359

anything like that and uh do you prefer

1479

00:49:34,390 --> 00:49:32,559

the term ufo or uap

1480

00:49:35,750 --> 00:49:34,400

uh i'm used to changing three letter

1481

00:49:37,190 --> 00:49:35,760

acronyms so

1482

00:49:38,710 --> 00:49:37,200

uap sounds

1483

00:49:40,630 --> 00:49:38,720

easier to say for me i guess sounds

1484

00:49:42,790 --> 00:49:40,640

cooler it's like newer

1485

00:49:44,630 --> 00:49:42,800

we're all you know you gotta rebrand

1486

00:49:46,230 --> 00:49:44,640

they do it every every like 10 years we

1487

00:49:48,630 --> 00:49:46,240

get new uniforms in the military it's

1488

00:49:50,230 --> 00:49:48,640

just that's terrible

1489

00:49:51,670 --> 00:49:50,240

and the last one and again this will

1490

00:49:55,430 --> 00:49:51,680

interest me because you're so new to

1491

00:49:57,430 --> 00:49:55,440

things what does disclosure mean to you

1492

00:49:59,910 --> 00:49:57,440

disclosure i guess that would just be

1493

00:50:03,030 --> 00:49:59,920

the government fully admitting

1494

00:50:05,510 --> 00:50:03,040

that it has uh extraterrestrial content

1495

00:50:07,349 --> 00:50:05,520

or you know contact there we go

1496

00:50:09,109 --> 00:50:07,359

awesome listen chris it's been great

1497

00:50:10,549 --> 00:50:09,119

speaking with you before you go do you

1498

00:50:13,270 --> 00:50:10,559

mind just telling people how they can

1499

00:50:16,309 --> 00:50:13,280

follow you and also find your work uh

1500

00:50:19,430 --> 00:50:16,319

yeah the best is chris lato at youtube

1501

00:50:22,470 --> 00:50:19,440

so just uh l-e-h-t-o spelled the finish

1502

00:50:24,390 --> 00:50:22,480

way uh i also have a patreon that i've

1503

00:50:26,549 --> 00:50:24,400

just spinning up i'm really enjoying it

1504

00:50:27,910 --> 00:50:26,559

figuring out how to use it still but

1505

00:50:29,349 --> 00:50:27,920

yeah those are the two ways so i try and

1506

00:50:32,470 --> 00:50:29,359

keep it transparent

1507

00:50:34,470 --> 00:50:32,480

is just just ads ad revenue i don't want

1508

00:50:36,950 --> 00:50:34,480

to do any supporters or any of that

1509

00:50:39,349 --> 00:50:36,960

uh marketing stuff you know and then

1510

00:50:40,630 --> 00:50:39,359

from patreon so uh that's the only way

1511

00:50:41,990 --> 00:50:40,640

i'm gonna be funded i think in the

1512

00:50:43,910 --> 00:50:42,000

future

1513

00:50:46,309 --> 00:50:43,920

awesome and i'll have all those links in

1514

00:50:48,390 --> 00:50:46,319

the show description

1515

00:50:50,309 --> 00:50:48,400

yeah and nft sales yeah and if you're

1516

00:50:52,150 --> 00:50:50,319

listening brandon fuego that one nft

1517

00:50:54,150 --> 00:50:52,160

sale could make all the difference for

1518

00:50:55,670 --> 00:50:54,160

for uh chris's venture going put it in

1519

00:50:57,670 --> 00:50:55,680

space i'll put it in space like right

1520

1521

00:51:02,390 --> 00:51:00,880

but listen watch the skin walker stuff

1523

[Music]

1549

00:52:30,480 --> 00:52:52,710

upstairs

1550

00:52:59,109 --> 00:52:54,069

they thought this was noise they thought

1551

00:52:59,119 --> 00:53:06,790

because it doesn't dream scare me

1552

00:53:50,790 --> 00:53:09,030

[Music]

1553

00:53:50,800 --> 00:53:57,030

is

1554

00:54:05,700 --> 00:53:58,870

it wasn't a tic tac and not quite a

1555

00:54:05,710 --> 00:54:19,510

[Music]

1556

00:54:45,750 --> 00:54:21,680

it's very different
