[Music]

2  
00:00:08,790 --> 00:00:06,789

there's a whole fleet of them look on

3  
00:00:10,950 --> 00:00:08,800

the sa

4  
00:00:14,310 --> 00:00:10,960

my gosh they're all going against the

5  
00:00:18,950 --> 00:00:16,390

it was basically a cube with inside of

6  
00:00:23,950 --> 00:00:18,960

sphere where the points of the cube

7  
00:00:37,110 --> 00:00:33,200

[Music]

8  
00:00:38,709 --> 00:00:37,120

[Applause]

9  
00:00:40,950 --> 00:00:38,719

so this isn't anything that just is

10  
00:00:47,830 --> 00:00:40,960

limited to the united states it's a

11  
00:00:53,910 --> 00:00:50,229

numbers of you that checked us out on

27

00:01:27,350 --> 00:01:25,759

myself and dan i'll be there to chat to

00:01:34,069 --> 00:01:31,200

you uh on the show tonight we have an

31

00:01:36,390 --> 00:01:34,079

upcoming interview with tim mcmillan who

32

00:01:38,550 --> 00:01:36,400

is one of the co-founders of the debrief

33

00:01:41,030 --> 00:01:38,560

very well known and very well respected

34

00:01:43,429 --> 00:01:41,040

journalist as well and we'll be sharing

35

00:01:45,830 --> 00:01:43,439

our thoughts after discussing with tim

36

00:01:48,950 --> 00:01:45,840

the recent event in san marino project

37

00:01:50,789 --> 00:01:48,960

titan and all that encompasses that uh

38

00:01:52,069 --> 00:01:50,799

before that then i want to get to some

39

00:01:54,149 --> 00:01:52,079

news that's happened within the last

40

00:01:55,749 --> 00:01:54,159

week or so and that that news broke

41

00:01:57,830 --> 00:01:55,759

regarding the bills that are currently

42

00:01:59,270 --> 00:01:57,840

going through the senate um do you want

43

00:02:00,870 --> 00:01:59,280

to just bring the listeners up today or

44

00:02:01,990 --> 00:02:00,880

the viewers what's happening regarding

45

00:02:04,230 --> 00:02:02,000

the bills

46

00:02:06,550 --> 00:02:04,240

yeah sure so

47

00:02:08,070 --> 00:02:06,560

for the first time in in history or for

48

00:02:10,389 --> 00:02:08,080

the second year in a row where we're

49

00:02:12,630 --> 00:02:10,399

getting some actual legislation going

50

00:02:15,750 --> 00:02:12,640

through the the us government

51  
00:02:17,350 --> 00:02:15,760  
um to be signed into law um this year is

52  
00:02:19,670 --> 00:02:17,360  
the first time it's been explicitly

53  
00:02:22,229 --> 00:02:19,680  
mentioned in the bills as unidentified

54  
00:02:25,830 --> 00:02:22,239  
aerial phenomena um so so that's kind of

55  
00:02:29,270 --> 00:02:25,840  
exciting to get that first but basically

56  
00:02:31,990 --> 00:02:29,280  
just after the preliminary uapf report

57  
00:02:34,309 --> 00:02:32,000  
was published we had the intelligence

58  
00:02:37,670 --> 00:02:34,319  
authorization act for

59  
00:02:41,509 --> 00:02:37,680  
2022 was was published that that was

60  
00:02:44,630 --> 00:02:41,519  
mark warner and rubio and those guys um

61  
00:02:47,110 --> 00:02:44,640  
that was known as s2610 um

62  
00:02:49,589 --> 00:02:47,120  
and it was basically an instruction to

63  
00:02:51,910 --> 00:02:49,599

all the departments that would would say

64

00:02:55,430 --> 00:02:51,920

that they wanted reports every 90 days

65

00:02:58,630 --> 00:02:55,440

um and proper intelligence sharing

66

00:03:00,229 --> 00:02:58,640

then a little while later um that kind

67

00:03:02,070 --> 00:03:00,239

of came at the same time as the san

68

00:03:06,470 --> 00:03:02,080

marino stuff that tim is going to talk

69

00:03:08,869 --> 00:03:06,480

about um we had hr 4350

70

00:03:11,030 --> 00:03:08,879

which is the 2022

71

00:03:12,710 --> 00:03:11,040

national defense authorization act these

72

00:03:14,869 --> 00:03:12,720

are a bit of tongue twisters

73

00:03:16,070 --> 00:03:14,879

it's amazing that's all off the top of

74

00:03:20,390 --> 00:03:16,080

your head

75

00:03:22,309 --> 00:03:20,400

it's really impressive basically um

76

00:03:24,470 --> 00:03:22,319

the first of the two bills has now

77

00:03:26,070 --> 00:03:24,480

progressed down the train track so to

78

00:03:28,149 --> 00:03:26,080

speak there are three stops for each

79

00:03:31,509 --> 00:03:28,159

bill this is the the second of those

80

00:03:33,750 --> 00:03:31,519

stops um and it's transformed uh into hr

81

00:03:35,430 --> 00:03:33,760

five four one two so if you're right

82

00:03:37,750 --> 00:03:35,440

into your senators to say you support a

83

00:03:38,550 --> 00:03:37,760

bill that's the number to kind of quote

84

00:03:40,789 --> 00:03:38,560

um

85

00:03:43,110 --> 00:03:40,799

and basically at some point these two

86

00:03:44,869 --> 00:03:43,120

bills are gonna kind of smush into one

87

00:03:46,390 --> 00:03:44,879

and then that is what will go on to be

88

00:03:47,990 --> 00:03:46,400

signed by the president

89

00:03:49,990 --> 00:03:48,000

um

90

00:03:51,670 --> 00:03:50,000

the other bill addresses anomalous

91

00:03:53,589 --> 00:03:51,680

health effects and things like that and

92

00:03:56,390 --> 00:03:53,599

that's now been pulled into this one as

93

00:03:58,550 --> 00:03:56,400

well so it's i i would imagine that the

94

00:04:01,670 --> 00:03:58,560

things that are common to each bill will

95

00:04:03,670 --> 00:04:01,680

stay so examining anomalous health

96

00:04:05,750 --> 00:04:03,680

incidents caring for those affected by

97

00:04:09,910 --> 00:04:05,760

them proper information sharing and

98

00:04:12,949 --> 00:04:09,920

that's classified information too um

99

00:04:15,030 --> 00:04:12,959

those things are gonna stick probably um

100

00:04:16,949 --> 00:04:15,040

after this becomes whatever it's going

101  
00:04:20,629 --> 00:04:16,959  
to become we'll have a permanent office

102  
00:04:22,150 --> 00:04:20,639  
that replaces the ua ptf um and i think

103  
00:04:24,310 --> 00:04:22,160  
the beckerim will be

104  
00:04:26,870 --> 00:04:24,320  
generally about the public facing

105  
00:04:29,749 --> 00:04:26,880  
information that they're giving out and

106  
00:04:31,430 --> 00:04:29,759  
also about how often those reports have

107  
00:04:33,990 --> 00:04:31,440  
to come whether it's 90 days or whether

108  
00:04:35,110 --> 00:04:34,000  
it's once every year or 100 every 180

109  
00:04:37,189 --> 00:04:35,120  
days

110  
00:04:40,230 --> 00:04:37,199  
yeah that uh thanks for the update then

111  
00:04:41,749 --> 00:04:40,240  
that uh office when it comes to free

112  
00:04:43,909 --> 00:04:41,759  
russian hopefully

113  
00:04:45,830 --> 00:04:43,919

isn't going to have a weekly podcast or

114

00:04:47,590 --> 00:04:45,840

newsletter online

115

00:04:50,070 --> 00:04:47,600

or even

116

00:04:51,670 --> 00:04:50,080

a website given his frequent updates i

117

00:04:53,510 --> 00:04:51,680

imagine a lot of what it does is going

118

00:04:55,670 --> 00:04:53,520

to happen behind the scenes

119

00:04:58,150 --> 00:04:55,680

what we can hope for is that whoever

120

00:05:01,189 --> 00:04:58,160

runs it whoever's in charge of it is

121

00:05:03,510 --> 00:05:01,199

transparent and we get as much public

122

00:05:05,110 --> 00:05:03,520

information as possible but i think

123

00:05:08,310 --> 00:05:05,120

that's a concern that rightly a lot of

124

00:05:10,469 --> 00:05:08,320

people have um what do you think the

125

00:05:11,990 --> 00:05:10,479

the worst case scenario is with this is

126

00:05:14,150 --> 00:05:12,000

it likely that

127

00:05:16,070 --> 00:05:14,160

or is it a chance that this office gets

128

00:05:18,070 --> 00:05:16,080

created and it all goes away again

129

00:05:19,990 --> 00:05:18,080

behind closed doors

130

00:05:22,790 --> 00:05:20,000

possibly um

131

00:05:24,310 --> 00:05:22,800

the the thing is about this that

132

00:05:27,670 --> 00:05:24,320

the information they're dealing with is

133

00:05:29,430 --> 00:05:27,680

classified matter of factly so

134

00:05:31,909 --> 00:05:29,440

i wonder how much of it they can talk

135

00:05:32,870 --> 00:05:31,919

about but this is where we kind of have

136

00:05:36,629 --> 00:05:32,880

to

137

00:05:38,870 --> 00:05:36,639

that's owned by no one country it's

138

00:05:41,189 --> 00:05:38,880

owned by everyone and all of that

139

00:05:42,790 --> 00:05:41,199

information gets fed to scientists that

140

00:05:44,230 --> 00:05:42,800

maybe study this information and the

141

00:05:46,390 --> 00:05:44,240

trends and the global patterns and

142

00:05:48,310 --> 00:05:46,400

things like that um

143

00:05:49,189 --> 00:05:48,320

so that we know even if the public

144

00:05:50,230 --> 00:05:49,199

aren't

145

00:05:53,029 --> 00:05:50,240

seeing

146

00:05:55,350 --> 00:05:53,039

the the data that the right people are

147

00:05:57,189 --> 00:05:55,360

and then i really really hope i keep my

148

00:05:58,870 --> 00:05:57,199

fingers crossed that that international

149

00:06:01,909 --> 00:05:58,880

kind of coalition if it comes to

150

00:06:04,469 --> 00:06:01,919

fruition uh has a public-facing

151

00:06:06,230 --> 00:06:04,479

department because you know the the

152

00:06:09,029 --> 00:06:06,240

marketing for this subject over the past

153

00:06:10,950 --> 00:06:09,039

17 years quite frankly uh sucks a little

154

00:06:12,950 --> 00:06:10,960

bit it's it's a bit dramatic it's gone

155

00:06:15,189 --> 00:06:12,960

in some crazy directions and indulged

156

00:06:15,990 --> 00:06:15,199

kind of some some lesser things i should

157

00:06:17,990 --> 00:06:16,000

say

158

00:06:20,710 --> 00:06:18,000

so are you hoping some

159

00:06:23,270 --> 00:06:20,720

little to almost unknown country takes

160

00:06:25,189 --> 00:06:23,280

this forward to like the un for example

161

00:06:26,230 --> 00:06:25,199

and from that something grows and comes

162

00:06:28,070 --> 00:06:26,240

of it

163

00:06:30,469 --> 00:06:28,080

that that would be the first step right

164

00:06:31,510 --> 00:06:30,479

is to kind of get it legitimized somehow

165

00:06:33,909 --> 00:06:31,520

through

166

00:06:35,909 --> 00:06:33,919

one country and then it gives everyone a

167

00:06:37,749 --> 00:06:35,919

kind of think of it like uh like

168

00:06:39,510 --> 00:06:37,759

fireflies in a lamp you know you turn

169

00:06:40,550 --> 00:06:39,520

the lamp on all the flies know where to

170

00:06:43,270 --> 00:06:40,560

go

171

00:06:45,350 --> 00:06:43,280

well let's hand over to tim mcmillan and

172

00:06:47,430 --> 00:06:45,360

myself for an interview we recorded a

173

00:06:50,309 --> 00:06:47,440

couple of days ago talking about such a

174

00:06:54,309 --> 00:06:50,319

thing joining me for this interview for

175

00:06:56,230 --> 00:06:54,319

that ufo podcast the other show on kgra

176

00:06:58,150 --> 00:06:56,240

is a guest who's been on that ufo

177

00:07:00,230 --> 00:06:58,160

podcast several times already always

178

00:07:01,909 --> 00:07:00,240

appreciate his time as journalist and

179

00:07:03,909 --> 00:07:01,919

co-founder of the debrief at tim

180

00:07:06,150 --> 00:07:03,919

181

00:07:07,990 --> 00:07:06,160

00:07:12,950 --> 00:07:11,360

enjoy this one and it's going to be one

185

00:07:14,309 --> 00:07:12,960

of our shorter chats given that the

186

00:07:16,390 --> 00:07:14,319

other ones tend to last a couple of

187

00:07:18,629 --> 00:07:16,400

hours but for kgre we're making the

188

00:07:21,110 --> 00:07:18,639

interviews that short and snappy for now

189

00:07:23,909 --> 00:07:21,120

uh tim back in the middle of september

190

00:07:26,150 --> 00:07:23,919

you released a piece titled san marino

191

00:07:29,350 --> 00:07:26,160

could become the un's new geneva for

192

00:07:31,589 --> 00:07:29,360

ufos essentially detailing how a new

193

00:07:33,350 --> 00:07:31,599

internationally led consortium is

194

00:07:34,309 --> 00:07:33,360

looking to take the conversation to the

195

00:07:38,550 --> 00:07:34,319

un

196

00:07:41,270 --> 00:07:38,560

the article and how it even came about

197

00:07:43,510 --> 00:07:41,280

sure yeah i had this was something that

198

00:07:45,510 --> 00:07:43,520

i knew had was in the works for

199

00:07:46,710 --> 00:07:45,520

um almost a year maybe a little over a

200

00:07:49,110 --> 00:07:46,720

year there's been a lot of planning

201  
00:07:52,550 --> 00:07:49,120  
that's gone into it and uh i think some

202  
00:07:55,110 --> 00:07:52,560  
astute uh twitter watchers even

203  
00:07:56,390 --> 00:07:55,120  
maybe recall that about a year ago

204  
00:07:57,990 --> 00:07:56,400  
people were asking me what's coming in

205  
00:08:00,230 --> 00:07:58,000  
the ufo world and i said i think you

206  
00:08:01,589 --> 00:08:00,240  
know i wouldn't be surprised if a dark

207  
00:08:03,589 --> 00:08:01,599  
horse uh

208  
00:08:05,270 --> 00:08:03,599  
brings it on the international stage and

209  
00:08:07,510 --> 00:08:05,280  
that was kind of referencing this san

210  
00:08:10,150 --> 00:08:07,520  
marino thing and what we've got going on

211  
00:08:13,350 --> 00:08:10,160  
here is you two different organizations

212  
00:08:15,350 --> 00:08:13,360  
that are uh one's a european uh italian

213  
00:08:17,990 --> 00:08:15,360

organization and another one is an

214

00:08:19,909 --> 00:08:18,000

international organization um is coming

215

00:08:22,309 --> 00:08:19,919

together and they've proposed to the

216

00:08:25,909 --> 00:08:22,319

government of san marino

217

00:08:29,430 --> 00:08:25,919

to host a u.n to propose to the united

218

00:08:30,629 --> 00:08:29,440

nations a uh a conference or consortium

219

00:08:33,509 --> 00:08:30,639

much like you do on a lot of different

220

00:08:35,670 --> 00:08:33,519

things and this very common world hunger

221

00:08:37,430 --> 00:08:35,680

uh you know climate change these types

222

00:08:39,430 --> 00:08:37,440

of conferences where it brings together

223

00:08:40,469 --> 00:08:39,440

the entire you know international

224

00:08:42,310 --> 00:08:40,479

community

225

00:08:44,790 --> 00:08:42,320

on a topic but with this one it would be

226  
00:08:45,670 --> 00:08:44,800  
on unidentified aerial phenomena and so

227  
00:08:48,630 --> 00:08:45,680  
it's

228  
00:08:51,430 --> 00:08:48,640  
very interesting in two fronts one uh

229  
00:08:53,269 --> 00:08:51,440  
like i said it's not um

230  
00:08:56,949 --> 00:08:53,279  
it's not unprecedented this is something

231  
00:08:58,949 --> 00:08:56,959  
that was attempted uh before but uh

232  
00:09:00,389 --> 00:08:58,959  
didn't go through but i think before

233  
00:09:02,230 --> 00:09:00,399  
what what they were trying to do was

234  
00:09:04,230 --> 00:09:02,240  
actually form a kind of united nations

235  
00:09:06,389 --> 00:09:04,240  
ufo investigative team

236  
00:09:09,269 --> 00:09:06,399  
where this one would be more like you

237  
00:09:11,509 --> 00:09:09,279  
could consider a

238  
00:09:13,110 --> 00:09:11,519

a big time ufo conference if you will

239

00:09:15,750 --> 00:09:13,120

but not necessarily for the general

240

00:09:17,350 --> 00:09:15,760

public but rather bring a place where

241

00:09:19,430 --> 00:09:17,360

you would have serious researchers or

242

00:09:22,150 --> 00:09:19,440

scientists from all across the world

243

00:09:25,110 --> 00:09:22,160

would come in under the united nations

244

00:09:27,750 --> 00:09:25,120

sanction backing uh you know and that's

245

00:09:29,990 --> 00:09:27,760

serves as almost an incubator of where

246

00:09:31,670 --> 00:09:30,000

further policy different things could

247

00:09:34,070 --> 00:09:31,680

come out of the united nations involving

248

00:09:35,829 --> 00:09:34,080

uap so it's pretty fascinating deal

249

00:09:37,350 --> 00:09:35,839

because it's it's one of the first times

250

00:09:39,190 --> 00:09:37,360

that we've seen

251

00:09:40,550 --> 00:09:39,200

with a lot of the the coverage that's

252

00:09:41,910 --> 00:09:40,560

been on the subject for the last couple

253

00:09:43,430 --> 00:09:41,920

years this is one of the first times we

254

00:09:45,670 --> 00:09:43,440

see it really being pushed on the

255

00:09:47,829 --> 00:09:45,680

international stage

256

00:09:50,230 --> 00:09:47,839

the vessel to push that as the republic

257

00:09:51,910 --> 00:09:50,240

of san marino and football or soccer

258

00:09:54,389 --> 00:09:51,920

fans out there will know san marino for

259

00:09:55,829 --> 00:09:54,399

being one of if not the smallest nation

260

00:09:57,030 --> 00:09:55,839

in the world to have a international

261

00:09:59,190 --> 00:09:57,040

soccer team

262

00:10:01,190 --> 00:09:59,200

who famously don't really win any games

263

00:10:03,269 --> 00:10:01,200

let alone score any goals it's a very

264

00:10:04,550 --> 00:10:03,279

very very small

265

00:10:06,230 --> 00:10:04,560

small country

266

00:10:07,430 --> 00:10:06,240

why is that the vessel to push this

267

00:10:09,910 --> 00:10:07,440

forward

268

00:10:12,230 --> 00:10:09,920

very tiny yes san marino is a very tiny

269

00:10:14,710 --> 00:10:12,240

land locked it's it's an island inside

270

00:10:16,710 --> 00:10:14,720

italy and i made the unfortunate mistake

271

00:10:18,389 --> 00:10:16,720

early on of uh

272

00:10:20,230 --> 00:10:18,399

i think calling it a city in italy and

273

00:10:22,470 --> 00:10:20,240

they're like no no no it's a sovereign

274

00:10:24,870 --> 00:10:22,480

nation oh my bad uh

275

00:10:27,829 --> 00:10:24,880

it is one of the oldest uh continuous

276

00:10:29,750 --> 00:10:27,839

nations in the world though but um it is

277

00:10:31,829 --> 00:10:29,760

a tiny nation and so you know how did it

278

00:10:34,230 --> 00:10:31,839

get to that level well

279

00:10:35,910 --> 00:10:34,240

some of the major uh backers the major

280

00:10:38,949 --> 00:10:35,920

people who've been pushing this through

281

00:10:40,630 --> 00:10:38,959

were uh groups of italian uh

282

00:10:43,030 --> 00:10:40,640

ufo researchers

283

00:10:46,630 --> 00:10:43,040

and san marino has been hosting an

284

00:10:49,509 --> 00:10:46,640

italian conference for ufos uh for a

285

00:10:51,269 --> 00:10:49,519

number of years so well over uh

286

00:10:52,790 --> 00:10:51,279

maybe going on two decades or more

287

00:10:54,470 --> 00:10:52,800

they've been hosting it there so it's

288

00:10:55,670 --> 00:10:54,480

kind of this natural fit where you've

289

00:10:59,990 --> 00:10:55,680

got

290

00:11:02,310 --> 00:11:00,000

already hosting this international thing

291

00:11:03,990 --> 00:11:02,320

though it is a private function it's not

292

00:11:06,069 --> 00:11:04,000

uh government i mean it's government

293

00:11:08,150 --> 00:11:06,079

approved but it's not government

294

00:11:09,910 --> 00:11:08,160

put on by the government of san marino

295

00:11:11,910 --> 00:11:09,920

but you kind of already have this this

296

00:11:13,509 --> 00:11:11,920

uh legwork in place

297

00:11:15,750 --> 00:11:13,519

and then in addition to the fact like he

298

00:11:18,069 --> 00:11:15,760

said it's a tiny country

299

00:11:19,910 --> 00:11:18,079

that um other than like you said

300

00:11:22,310 --> 00:11:19,920

football or if you're in america soccer

301  
00:11:23,910 --> 00:11:22,320  
fans uh you may a lot of people may have

302  
00:11:25,990 --> 00:11:23,920  
read that article and heard of san

303  
00:11:27,590 --> 00:11:26,000  
marino for the first time you know what

304  
00:11:29,990 --> 00:11:27,600  
well where's that

305  
00:11:32,470 --> 00:11:30,000  
uh it's a good opportunity and i think

306  
00:11:34,389 --> 00:11:32,480  
that they they've uh the people who are

307  
00:11:35,829 --> 00:11:34,399  
trying to get this approved have have

308  
00:11:38,150 --> 00:11:35,839  
presented it to the government they're

309  
00:11:40,150 --> 00:11:38,160  
saying this is a good opportunity to get

310  
00:11:42,550 --> 00:11:40,160  
your name out on the world stage and

311  
00:11:44,389 --> 00:11:42,560  
ultimately if it goes through and you

312  
00:11:45,670 --> 00:11:44,399  
have this large conference of people

313  
00:11:46,470 --> 00:11:45,680

it's uh

314

00:11:48,310 --> 00:11:46,480

you

315

00:11:51,590 --> 00:11:48,320

suddenly have a lot more people coming

316

00:11:54,150 --> 00:11:51,600

into san marino and san marino uh become

317

00:11:56,069 --> 00:11:54,160

something on the map and i think uh

318

00:11:57,750 --> 00:11:56,079

you know wisely when you're looking at

319

00:11:59,509 --> 00:11:57,760

that kind of strategically i think that

320

00:12:00,790 --> 00:11:59,519

that's another reason why they they pick

321

00:12:02,790 --> 00:12:00,800

san marino

322

00:12:04,710 --> 00:12:02,800

because somewhere you know united

323

00:12:06,870 --> 00:12:04,720

kingdom the united states china we're

324

00:12:08,629 --> 00:12:06,880

talking about you know big time players

325

00:12:11,190 --> 00:12:08,639

on the world stage who already have a

326

00:12:12,550 --> 00:12:11,200

lot of influence they may be less likely

327

00:12:14,230 --> 00:12:12,560

to take on this

328

00:12:15,430 --> 00:12:14,240

frankly because they don't need this you

329

00:12:17,030 --> 00:12:15,440

know

330

00:12:18,870 --> 00:12:17,040

big time deal they don't need that kind

331

00:12:21,110 --> 00:12:18,880

of exposure

332

00:12:23,590 --> 00:12:21,120

but whereas san marino may say yeah you

333

00:12:25,190 --> 00:12:23,600

know what let's go through with it so it

334

00:12:27,910 --> 00:12:25,200

will be interesting i think it's in the

335

00:12:28,949 --> 00:12:27,920

government there's hands right now

336

00:12:30,949 --> 00:12:28,959

um

337

00:12:32,470 --> 00:12:30,959

and i'm pretty soon i think with the

338

00:12:33,990 --> 00:12:32,480

next couple weeks they're expecting to

339

00:12:37,829 --> 00:12:34,000

get some type of response of whether

340

00:12:41,670 --> 00:12:39,829

now you mentioned just before and also

341

00:12:43,990 --> 00:12:41,680

in the article this sort of thing has

342

00:12:46,870 --> 00:12:44,000

been attempted it was like 1978 so the

343

00:12:48,870 --> 00:12:46,880

late 70s but there was no appetite for

344

00:12:50,949 --> 00:12:48,880

the conversation internationally not

345

00:12:52,949 --> 00:12:50,959

that the un didn't take it seriously but

346

00:12:54,470 --> 00:12:52,959

just no one wanted to take this further

347

00:12:57,350 --> 00:12:54,480

any further forward

348

00:12:59,030 --> 00:12:57,360

why is it different this time

349

00:13:00,310 --> 00:12:59,040

well we'll uh

350

00:13:02,949 --> 00:13:00,320

it's i think it's too early to say

351

00:13:04,870 --> 00:13:02,959

whether or not uh it's different other

352

00:13:06,710 --> 00:13:04,880

than we can kind of say that the

353

00:13:10,710 --> 00:13:06,720

cultural and just global climate

354

00:13:11,910 --> 00:13:10,720

surrounding the topic of ufos or uap

355

00:13:14,629 --> 00:13:11,920

is significantly different than it was

356

00:13:16,230 --> 00:13:14,639

in 1978 now you know we might not be

357

00:13:18,470 --> 00:13:16,240

able to argue that

358

00:13:20,710 --> 00:13:18,480

let's say in the late 50s early 60s when

359

00:13:23,190 --> 00:13:20,720

the topic was extremely popular probably

360

00:13:25,509 --> 00:13:23,200

at the same level as it is now

361

00:13:26,790 --> 00:13:25,519

but when you're talking about 1978 it

362

00:13:29,110 --> 00:13:26,800

was definitely something that had kind

363

00:13:30,470 --> 00:13:29,120

of fallen off of let's say the

364

00:13:31,750 --> 00:13:30,480

mainstream

365

00:13:33,350 --> 00:13:31,760

minds and particularly in the

366

00:13:35,350 --> 00:13:33,360

government's minds

367

00:13:37,030 --> 00:13:35,360

so it is something that right now is

368

00:13:37,910 --> 00:13:37,040

very much in the forefront and and i

369

00:13:40,310 --> 00:13:37,920

think

370

00:13:42,550 --> 00:13:40,320

uh you're seeing other countries on the

371

00:13:45,189 --> 00:13:42,560

international stage start to as well

372

00:13:47,030 --> 00:13:45,199

take that uh kind of lead the united

373

00:13:48,949 --> 00:13:47,040

states is taken by announcing that

374

00:13:51,189 --> 00:13:48,959

they're going to be forming a a uap

375

00:13:53,350 --> 00:13:51,199

office so a permanent body within the

376

00:13:54,870 --> 00:13:53,360

department of defense to look into this

377

00:13:56,389 --> 00:13:54,880

uh you know their

378

00:13:59,509 --> 00:13:56,399

politicians are talking about it you've

379

00:14:02,069 --> 00:13:59,519

got people very openly talking about it

380

00:14:03,030 --> 00:14:02,079

i think uh that's it's it's kind of like

381

00:14:05,269 --> 00:14:03,040

um

382

00:14:07,590 --> 00:14:05,279

they've they've made it okay it's not

383

00:14:09,269 --> 00:14:07,600

taboo anymore you know everybody

384

00:14:10,790 --> 00:14:09,279

everybody wants to do something or they

385

00:14:12,949 --> 00:14:10,800

might be willing to do it but then it

386

00:14:13,750 --> 00:14:12,959

takes somebody else to kind of go first

387

00:14:17,670 --> 00:14:13,760

and

388

00:14:20,310 --> 00:14:17,680

got the world's biggest global economy

389

00:14:21,670 --> 00:14:20,320

and all these things going for you uh it

390

00:14:23,670 --> 00:14:21,680

allows you to kind of throw that muscle

391

00:14:25,509 --> 00:14:23,680

around so people start following

392

00:14:27,829 --> 00:14:25,519

following that trend

393

00:14:29,430 --> 00:14:27,839

so i think ultimately you know it's too

394

00:14:31,509 --> 00:14:29,440

early it's like is it to tell if it's

395

00:14:34,310 --> 00:14:31,519

different from 1970 i would say that the

396

00:14:36,310 --> 00:14:34,320

climate and the timing right now is

397

00:14:38,230 --> 00:14:36,320

different in the fact that uh you know

398

00:14:39,990 --> 00:14:38,240

in 78 you didn't have the united states

399

00:14:41,910 --> 00:14:40,000

government talking about it you didn't

400

00:14:43,750 --> 00:14:41,920

have them uh

401  
00:14:45,670 --> 00:14:43,760  
in fact they were 10 years off of

402  
00:14:47,829 --> 00:14:45,680  
closing project blue book in their

403  
00:14:49,829 --> 00:14:47,839  
official ufo investigations

404  
00:14:51,829 --> 00:14:49,839  
this is the exact opposite now you're on

405  
00:14:54,389 --> 00:14:51,839  
the cusp of them starting an entirely

406  
00:14:56,150 --> 00:14:54,399  
new program so it'll be interesting you

407  
00:14:57,990 --> 00:14:56,160  
know the timing

408  
00:15:01,990 --> 00:14:58,000  
is good i would say given everything

409  
00:15:06,230 --> 00:15:03,829  
so those are two organizations you

410  
00:15:07,910 --> 00:15:06,240  
mentioned where the central ufological

411  
00:15:09,590 --> 00:15:07,920  
nationality which i'm sure people can

412  
00:15:10,949 --> 00:15:09,600  
translate themselves and the

413  
00:15:13,030 --> 00:15:10,959

international coalition for

414

00:15:14,949 --> 00:15:13,040

extraterrestrial research or icer as

415

00:15:17,829 --> 00:15:14,959

people may know them it's going under

416

00:15:19,350 --> 00:15:17,839

the guise of project titan and uh

417

00:15:22,069 --> 00:15:19,360

hopefully soon on the podcast i'm going

418

00:15:24,230 --> 00:15:22,079

to have paulo at gizardy on to discuss

419

00:15:26,389 --> 00:15:24,240

that in more detail so look to that one

420

00:15:28,790 --> 00:15:26,399

coming in the near future what do you

421

00:15:31,110 --> 00:15:28,800

think the potential of project titan

422

00:15:33,030 --> 00:15:31,120

could be though tim if this goes ahead

423

00:15:36,710 --> 00:15:33,040

and we get this push through

424

00:15:40,710 --> 00:15:39,269

well i i think that that uh it's one of

425

00:15:41,990 --> 00:15:40,720

these things that what the outcomes are

426

00:15:43,110 --> 00:15:42,000

kind of limitless

427

00:15:45,430 --> 00:15:43,120

because

428

00:15:47,509 --> 00:15:45,440

uh you know we don't really have a

429

00:15:49,269 --> 00:15:47,519

stable kind of ground truth when it

430

00:15:51,030 --> 00:15:49,279

comes to uap

431

00:15:52,949 --> 00:15:51,040

you know especially not in any one given

432

00:15:55,110 --> 00:15:52,959

nation at least not publicly but

433

00:15:57,030 --> 00:15:55,120

particularly on the international stage

434

00:15:59,269 --> 00:15:57,040

and so it's like any other

435

00:16:00,870 --> 00:15:59,279

uh you know difficult problem i mean you

436

00:16:02,150 --> 00:16:00,880

saw the same thing when we with the

437

00:16:03,829 --> 00:16:02,160

coveted pandemic where you have

438

00:16:06,389 --> 00:16:03,839

countries coming together or different

439

00:16:08,550 --> 00:16:06,399

researchers going on simultaneously that

440

00:16:11,110 --> 00:16:08,560

then come together to to combat a

441

00:16:13,350 --> 00:16:11,120

problem uh quickly and identify

442

00:16:15,110 --> 00:16:13,360

information and so i think that

443

00:16:16,550 --> 00:16:15,120

ultimately if they're able to get

444

00:16:19,110 --> 00:16:16,560

through with what they want and they're

445

00:16:20,790 --> 00:16:19,120

able to pull together scientists from

446

00:16:24,870 --> 00:16:20,800

all across the world you're going to

447

00:16:26,389 --> 00:16:24,880

gain a significant amount of data points

448

00:16:28,550 --> 00:16:26,399

and you're going to gain

449

00:16:31,189 --> 00:16:28,560

bright minds from all over the world and

450

00:16:32,629 --> 00:16:31,199

that's frankly you you almost have to

451  
00:16:34,310 --> 00:16:32,639  
have that if you're going to solve

452  
00:16:37,030 --> 00:16:34,320  
something like this that

453  
00:16:40,150 --> 00:16:37,040  
has been a persistent mystery for

454  
00:16:41,350 --> 00:16:40,160  
decades but perhaps longer um you're

455  
00:16:43,269 --> 00:16:41,360  
gonna have to have that

456  
00:16:45,189 --> 00:16:43,279  
you know you're gonna have to actually

457  
00:16:47,430 --> 00:16:45,199  
come together and try to solve that just

458  
00:16:49,990 --> 00:16:47,440  
like you would a pandemic or anything

459  
00:16:52,150 --> 00:16:50,000  
else because it is a global issue and i

460  
00:16:53,990 --> 00:16:52,160  
think that that's one of the things that

461  
00:16:56,389 --> 00:16:54,000  
has probably hindered

462  
00:16:58,150 --> 00:16:56,399  
some of the ufo research or the uap

463  
00:17:00,389 --> 00:16:58,160

research this that's gone on over the

464

00:17:03,110 --> 00:17:00,399

years is the fact that it's been done

465

00:17:05,909 --> 00:17:03,120

very much in isolation as if it was a

466

00:17:07,029 --> 00:17:05,919

national issue for any one given nation

467

00:17:09,590 --> 00:17:07,039

or region

468

00:17:11,669 --> 00:17:09,600

uh but obviously it's a global issue you

469

00:17:13,110 --> 00:17:11,679

know if it was only a national issue

470

00:17:14,949 --> 00:17:13,120

then i think we could

471

00:17:16,069 --> 00:17:14,959

pretty much uh conclusively rule that

472

00:17:18,710 --> 00:17:16,079

ufos

473

00:17:21,590 --> 00:17:18,720

belong to that nation somehow but it's

474

00:17:23,669 --> 00:17:21,600

but it's not and uh i think it could be

475

00:17:27,750 --> 00:17:23,679

uh if nothing else it could be pretty

476

00:17:30,830 --> 00:17:27,760

eye-opening uh as well because

477

00:17:33,270 --> 00:17:30,840

i know myself when i first moved

478

00:17:34,230 --> 00:17:33,280

overseas and and hearing about sightings

479

00:17:36,070 --> 00:17:34,240

or

480

00:17:38,789 --> 00:17:36,080

significant research done in other parts

481

00:17:41,110 --> 00:17:38,799

of the world and europe i went wow man

482

00:17:43,110 --> 00:17:41,120

this is not just a u.s phenomenon and i

483

00:17:46,549 --> 00:17:43,120

think that um

484

00:17:48,230 --> 00:17:46,559

that idea really gets set into people is

485

00:17:50,390 --> 00:17:48,240

that this is all just a us phenomenon

486

00:17:51,510 --> 00:17:50,400

because we hear about sightings we hear

487

00:17:53,909 --> 00:17:51,520

about stuff that's going on in the

488

00:17:55,430 --> 00:17:53,919

united states and we fail to recognize

489

00:17:58,150 --> 00:17:55,440

that this is something that's going on

490

00:17:59,669 --> 00:17:58,160

all across the world uh you know the

491

00:18:02,390 --> 00:17:59,679

biggest of nations the smallest of

492

00:18:03,909 --> 00:18:02,400

nations you know you name it uh you have

493

00:18:06,710 --> 00:18:03,919

these types of reports and i think

494

00:18:08,789 --> 00:18:06,720

that's a fascinating thing it kind of uh

495

00:18:11,669 --> 00:18:08,799

we can latch onto that maybe turn this

496

00:18:14,070 --> 00:18:11,679

into kind of an exploratory endeavor so

497

00:18:15,990 --> 00:18:14,080

now it's like our like how we explore

498

00:18:18,310 --> 00:18:16,000

space where we come together there and

499

00:18:20,630 --> 00:18:18,320

we put our differences aside

500

00:18:22,549 --> 00:18:20,640

and we we explore it

501  
00:18:25,190 --> 00:18:22,559  
because it's the benefit of mankind and

502  
00:18:27,350 --> 00:18:25,200  
so viewing it that way i think

503  
00:18:29,510 --> 00:18:27,360  
ultimately that's what the the goal i

504  
00:18:32,230 --> 00:18:29,520  
think paulo and those guys have for for

505  
00:18:34,710 --> 00:18:32,240  
project titan uh i think that it's it's

506  
00:18:37,190 --> 00:18:34,720  
not an easy goal but but best case

507  
00:18:38,630 --> 00:18:37,200  
scenario that comes out of it it i

508  
00:18:40,710 --> 00:18:38,640  
that's where i think you could have some

509  
00:18:42,310 --> 00:18:40,720  
impressive results in the long run it

510  
00:18:43,909 --> 00:18:42,320  
would be very interesting i'd love to

511  
00:18:46,150 --> 00:18:43,919  
see that kind of stuff a real

512  
00:18:47,350 --> 00:18:46,160  
comprehensive type of examination like

513  
00:18:49,430 --> 00:18:47,360

that

514

00:18:51,190 --> 00:18:49,440

i think selfishly for people like us tim

515

00:18:52,789 --> 00:18:51,200

based in europe it would also be a much

516

00:18:54,630 --> 00:18:52,799

shorter and cheaper trip than heading

517

00:18:57,510 --> 00:18:54,640

over to the states for any international

518

00:18:58,630 --> 00:18:57,520

conferences so

519

00:19:00,310 --> 00:18:58,640

absolutely

520

00:19:02,070 --> 00:19:00,320

while i mention europe i've got to ask

521

00:19:04,310 --> 00:19:02,080

you just before we finish up it's been

522

00:19:05,750 --> 00:19:04,320

said that the the uk government

523

00:19:08,310 --> 00:19:05,760

just don't want to have this

524

00:19:10,470 --> 00:19:08,320

conversation on uap but also are

525

00:19:12,630 --> 00:19:10,480

actively discouraging others from having

526

00:19:14,310 --> 00:19:12,640

it what's your understanding of the uk's

527

00:19:15,909 --> 00:19:14,320

position from yourself or your own

528

00:19:18,950 --> 00:19:15,919

sources tim

529

00:19:21,029 --> 00:19:18,960

yeah no that's uh that that's true and a

530

00:19:22,789 --> 00:19:21,039

lot of that i think you came from

531

00:19:24,470 --> 00:19:22,799

has come from my sources so so outside

532

00:19:27,029 --> 00:19:24,480

of just the us government it was

533

00:19:29,510 --> 00:19:27,039

interesting to talk to other people uh

534

00:19:31,909 --> 00:19:29,520

and other governments uh in europe

535

00:19:33,750 --> 00:19:31,919

uh in east asia that said that it's it's

536

00:19:36,230 --> 00:19:33,760

funny that the uk doesn't want to talk

537

00:19:38,230 --> 00:19:36,240

about it and you know if it's uh

538

00:19:40,950 --> 00:19:38,240

if this is something that comes up as a

539

00:19:42,630 --> 00:19:40,960

topic of discussion in broader uh like

540

00:19:44,470 --> 00:19:42,640

let's say intelligence meetings where

541

00:19:46,150 --> 00:19:44,480

you would have other services so let's

542

00:19:47,830 --> 00:19:46,160

say like five eyes meetings where you've

543

00:19:49,029 --> 00:19:47,840

got the australia the united states and

544

00:19:51,110 --> 00:19:49,039

everybody together

545

00:19:53,270 --> 00:19:51,120

the uk has always been like

546

00:19:55,270 --> 00:19:53,280

no no we don't even need to let's nope

547

00:19:57,270 --> 00:19:55,280

let's not even go down that route

548

00:19:59,510 --> 00:19:57,280

uh you know i always caution people that

549

00:20:01,190 --> 00:19:59,520

that could be from my end that could be

550

00:20:03,270 --> 00:20:01,200

just what uh

551  
00:20:05,590 --> 00:20:03,280  
is is not an accurate portrayal it's a

552  
00:20:08,310 --> 00:20:05,600  
limited narrow scope of just the people

553  
00:20:09,990 --> 00:20:08,320  
i've spoken to their experiences but i

554  
00:20:12,549 --> 00:20:10,000  
did find it interesting because it was

555  
00:20:13,430 --> 00:20:12,559  
uh it was definitely the

556  
00:20:15,750 --> 00:20:13,440  
um

557  
00:20:17,990 --> 00:20:15,760  
the perception of people that i spoke to

558  
00:20:19,430 --> 00:20:18,000  
that weren't just from one agency or

559  
00:20:20,630 --> 00:20:19,440  
even one nation so that was very

560  
00:20:23,110 --> 00:20:20,640  
interesting

561  
00:20:25,270 --> 00:20:23,120  
i think in looking at uh in this

562  
00:20:27,590 --> 00:20:25,280  
particular in this article that's what

563  
00:20:29,190 --> 00:20:27,600

what where this came up for me

564

00:20:31,510 --> 00:20:29,200

was uh you know

565

00:20:33,830 --> 00:20:31,520

it it came up that the uk may have had

566

00:20:37,270 --> 00:20:33,840

something to do with really wanting to

567

00:20:39,669 --> 00:20:37,280

put push off the the 1978 u.n

568

00:20:42,230 --> 00:20:39,679

uh push that went in

569

00:20:44,310 --> 00:20:42,240

uh to try to get a ufo investigative

570

00:20:46,070 --> 00:20:44,320

group together so i'm like man what is

571

00:20:49,110 --> 00:20:46,080

the uk doing like

572

00:20:50,630 --> 00:20:49,120

why did they not wanna so you know it's

573

00:20:52,390 --> 00:20:50,640

interesting obviously nobody has

574

00:20:54,630 --> 00:20:52,400

confirmed that for me officially out of

575

00:20:57,270 --> 00:20:54,640

the mod or anything like that

576

00:20:59,669 --> 00:20:57,280

but uh you know it is i would say a

577

00:21:01,830 --> 00:20:59,679

stark contrast when you see

578

00:21:02,789 --> 00:21:01,840

how much the united states has discussed

579

00:21:05,669 --> 00:21:02,799

it

580

00:21:08,470 --> 00:21:05,679

um

581

00:21:10,070 --> 00:21:08,480

that how to how limited uh

582

00:21:11,029 --> 00:21:10,080

what you're hearing out of the mod or

583

00:21:12,870 --> 00:21:11,039

what you're hearing in the united

584

00:21:14,710 --> 00:21:12,880

kingdom there's definitely a stark

585

00:21:16,870 --> 00:21:14,720

difference and i think that's that's

586

00:21:19,510 --> 00:21:16,880

interesting uh particularly when you

587

00:21:22,310 --> 00:21:19,520

have other allies that that have gone on

588

00:21:24,070 --> 00:21:22,320

record and coming out so uh like japan

589

00:21:26,149 --> 00:21:24,080

you know was it last year that japan's

590

00:21:28,070 --> 00:21:26,159

minister of defense you know said that

591

00:21:30,310 --> 00:21:28,080

he he discussed

592

00:21:32,230 --> 00:21:30,320

uap with the secret the us secretary of

593

00:21:33,909 --> 00:21:32,240

defense during his visit so this is very

594

00:21:35,750 --> 00:21:33,919

interesting when you have other allies

595

00:21:37,190 --> 00:21:35,760

that are that are expressing that

596

00:21:38,310 --> 00:21:37,200

they're either interested or want to

597

00:21:39,510 --> 00:21:38,320

know more about it and they want to

598

00:21:40,390 --> 00:21:39,520

cooperate

599

00:21:42,830 --> 00:21:40,400

um

600

00:21:45,750 --> 00:21:42,840

but when you know i think almost

601  
00:21:48,230 --> 00:21:45,760  
inarguably uh the united states closest

602  
00:21:50,630 --> 00:21:48,240  
ally in the uk you would almost you

603  
00:21:52,549 --> 00:21:50,640  
would expect them to kind of

604  
00:21:54,789 --> 00:21:52,559  
they follow everything each other and

605  
00:21:57,029 --> 00:21:54,799  
everything else you know so

606  
00:21:58,630 --> 00:21:57,039  
it is that surprises yeah tim that

607  
00:21:59,669 --> 00:21:58,640  
that's what surprises me with it when

608  
00:22:02,549 --> 00:21:59,679  
the uk

609  
00:22:04,789 --> 00:22:02,559  
follows the us's lead and so much and

610  
00:22:07,029 --> 00:22:04,799  
always has done this is just something

611  
00:22:09,029 --> 00:22:07,039  
we seem to be so far apart in which

612  
00:22:11,110 --> 00:22:09,039  
obviously personally and professionally

613  
00:22:12,950 --> 00:22:11,120

disappoints me but i just can't quite

614

00:22:16,310 --> 00:22:12,960

put my finger on it

615

00:22:18,149 --> 00:22:16,320

i you know i can't either and uh

616

00:22:19,510 --> 00:22:18,159

a part of me

617

00:22:21,750 --> 00:22:19,520

so it's a double-edged sword a part of

618

00:22:23,750 --> 00:22:21,760

me you know i'm kind of reporting what's

619

00:22:25,830 --> 00:22:23,760

been said to me or how people have

620

00:22:27,510 --> 00:22:25,840

expressed that but then even in hearing

621

00:22:29,190 --> 00:22:27,520

that i still don't

622

00:22:32,710 --> 00:22:29,200

fully believe it

623

00:22:34,950 --> 00:22:32,720

simply because uh the uk

624

00:22:37,510 --> 00:22:34,960

australia canada the united states are

625

00:22:39,350 --> 00:22:37,520

so close to each other in terms of

626

00:22:41,830 --> 00:22:39,360

intelligence particularly they rely on

627

00:22:45,590 --> 00:22:41,840

each other for so much communication

628

00:22:48,310 --> 00:22:45,600

it's just so good it just

629

00:22:50,149 --> 00:22:48,320

it's hard to believe that it wouldn't be

630

00:22:52,070 --> 00:22:50,159

you know if this is if this is a topic

631

00:22:55,029 --> 00:22:52,080

that has been expressed is something of

632

00:22:56,390 --> 00:22:55,039

interest in any one of those countries

633

00:22:58,310 --> 00:22:56,400

that the others would be like ah we're

634

00:23:00,149 --> 00:22:58,320

not dealing with that and neither do you

635

00:23:02,710 --> 00:23:00,159

so i just so it's

636

00:23:04,230 --> 00:23:02,720

like i said i haven't fully formed an

637

00:23:05,830 --> 00:23:04,240

opinion there i've heard what people

638

00:23:09,029 --> 00:23:05,840

have told me but at the same time in my

639

00:23:12,070 --> 00:23:09,039

own experience i just you don't you

640

00:23:13,669 --> 00:23:12,080

don't see that and so it may be

641

00:23:15,750 --> 00:23:13,679

what is more likely is that these

642

00:23:17,750 --> 00:23:15,760

discussions are are indeed going on but

643

00:23:20,549 --> 00:23:17,760

they're going on at a much more

644

00:23:22,630 --> 00:23:20,559

uh close-knit and higher level in the uk

645

00:23:23,990 --> 00:23:22,640

than they particularly are in the united

646

00:23:25,190 --> 00:23:24,000

states and so that's why you have a

647

00:23:27,270 --> 00:23:25,200

little more out of the united states

648

00:23:29,029 --> 00:23:27,280

being talked about it

649

00:23:31,430 --> 00:23:29,039

i can only hope so tim

650

00:23:33,510 --> 00:23:31,440

awesome speaking with you thank you

651  
00:23:35,270 --> 00:23:33,520  
and thank you very much for your time

652  
00:23:37,190 --> 00:23:35,280  
big thanks to tim mcmillan for joining

653  
00:23:39,029 --> 00:23:37,200  
us for the interview tim has been a

654  
00:23:40,950 --> 00:23:39,039  
regular guest on the podcast since it

655  
00:23:43,110 --> 00:23:40,960  
started and i appreciate his time and

656  
00:23:45,830 --> 00:23:43,120  
look forward to having him back on again

657  
00:23:48,230 --> 00:23:45,840  
soon dan there was quite a lot came from

658  
00:23:51,110 --> 00:23:48,240  
this event in san marino that came out

659  
00:23:53,350 --> 00:23:51,120  
of nowhere to be honest uh max moskowitz

660  
00:23:55,750 --> 00:23:53,360  
who is a friend of the podcast he has

661  
00:23:57,350 --> 00:23:55,760  
his own max moscovitz channel on youtube

662  
00:23:59,190 --> 00:23:57,360  
people should be checking that one out

663  
00:24:01,510 --> 00:23:59,200

he lives not too far from there and

664

00:24:03,269 --> 00:24:01,520

managed to travel to san marino and meet

665

00:24:05,990 --> 00:24:03,279

up with luella zondo for a few days as

666

00:24:09,190 --> 00:24:06,000

well didn't he we sane not too far

667

00:24:11,110 --> 00:24:09,200

it is a few countries away um

668

00:24:12,549 --> 00:24:11,120

yeah but that's like he has that nice

669

00:24:13,830 --> 00:24:12,559

open border thing that he can just drive

670

00:24:14,870 --> 00:24:13,840

through them and get them nice and

671

00:24:16,789 --> 00:24:14,880

smoothly

672

00:24:19,029 --> 00:24:16,799

yeah i suppose like

673

00:24:20,789 --> 00:24:19,039

when we talk about not too far i think

674

00:24:23,190 --> 00:24:20,799

i'm thinking from a us point of view

675

00:24:25,510 --> 00:24:23,200

where a lot of you watching this will be

676  
00:24:27,430 --> 00:24:25,520  
from where a regular drive like i've got

677  
00:24:29,350 --> 00:24:27,440  
family stay in australia and two and

678  
00:24:32,149 --> 00:24:29,360  
three hour drives are the norm whereas

679  
00:24:34,870 --> 00:24:32,159  
for us in the uk that's pretty far and

680  
00:24:36,710 --> 00:24:34,880  
usually into other countries yeah so max

681  
00:24:38,149 --> 00:24:36,720  
managed to drive to san marino and meet

682  
00:24:40,149 --> 00:24:38,159  
up with louie elizondo for a couple of

683  
00:24:41,909 --> 00:24:40,159  
days while he was there and broke some

684  
00:24:44,630 --> 00:24:41,919  
news at the time as well managed to get

685  
00:24:46,549 --> 00:24:44,640  
lew's reaction and thoughts and

686  
00:24:48,789 --> 00:24:46,559  
got some good on the spot reporting so

687  
00:24:50,630 --> 00:24:48,799  
that was all very much appreciated what

688  
00:24:52,950 --> 00:24:50,640

were your thoughts on uh what happened

689

00:24:55,990 --> 00:24:52,960  
coming at san marino then then

690

00:24:59,110 --> 00:24:56,000  
super super interesting um

691

00:25:00,390 --> 00:24:59,120  
the the bill kind of broke

692

00:25:03,029 --> 00:25:00,400  
it was before

693

00:25:05,269 --> 00:25:03,039  
max and lou got into it um but not that

694

00:25:07,590 --> 00:25:05,279  
long before um so we were all kind of

695

00:25:09,990 --> 00:25:07,600  
digesting the language in the bill

696

00:25:12,470 --> 00:25:10,000  
uh when you know max pops up with lou to

697

00:25:13,990 --> 00:25:12,480  
kind of go through it with us um and

698

00:25:15,590 --> 00:25:14,000  
they they highlighted some really

699

00:25:16,870 --> 00:25:15,600  
important parts which we kind of touched

700

00:25:18,630 --> 00:25:16,880  
on before with the anomalous health

701

00:25:21,029 --> 00:25:18,640

effects and things like that it's super

702

00:25:22,870 --> 00:25:21,039

important that those get acknowledged um

703

00:25:24,950 --> 00:25:22,880

you know there are a lot more people out

704

00:25:26,789 --> 00:25:24,960

there who have been damaged by

705

00:25:29,269 --> 00:25:26,799

coming too close to these crafts or you

706

00:25:31,750 --> 00:25:29,279

know through experiencing something much

707

00:25:32,950 --> 00:25:31,760

heavier uh like an abduction then it

708

00:25:34,630 --> 00:25:32,960

should really be looked at and studied

709

00:25:35,590 --> 00:25:34,640

and if people need help we we need to

710

00:25:36,630 --> 00:25:35,600

help them

711

00:25:37,990 --> 00:25:36,640

um

712

00:25:39,669 --> 00:25:38,000

so yeah that that was one of the

713

00:25:41,909 --> 00:25:39,679

standouts of that bill for me but the

714

00:25:43,669 --> 00:25:41,919

san marino stuff is intriguing because

715

00:25:46,070 --> 00:25:43,679

like you say it kind of came out of that

716

00:25:48,470 --> 00:25:46,080

field but as tim said there this is an

717

00:25:49,669 --> 00:25:48,480

event that's happened kind of almost

718

00:25:52,710 --> 00:25:49,679

every year

719

00:25:55,350 --> 00:25:52,720

um but only this year it's kind of got

720

00:25:56,470 --> 00:25:55,360

that legitimacy to to attract a few

721

00:25:59,269 --> 00:25:56,480

people who

722

00:26:01,029 --> 00:25:59,279

whose names aren't spoken but we we know

723

00:26:03,269 --> 00:26:01,039

they're kind of officials from some

724

00:26:05,029 --> 00:26:03,279

places um

725

00:26:08,470 --> 00:26:05,039

so there's an air of legitimacy that

726

00:26:10,630 --> 00:26:08,480

maybe this is going to be one of those

727

00:26:12,630 --> 00:26:10,640

kind of conferences every year that that

728

00:26:14,470 --> 00:26:12,640

you know scientists will go to is it too

729

00:26:18,390 --> 00:26:14,480

simple to say this is all because of

730

00:26:21,669 --> 00:26:19,750

no i don't think that's too simple at

731

00:26:24,789 --> 00:26:21,679

all i think that's perfectly correct i

732

00:26:26,710 --> 00:26:24,799

think that's letters here um

733

00:26:29,110 --> 00:26:26,720

the goal of ttsa was to get rid of that

734

00:26:31,669 --> 00:26:29,120

stigma and and i don't think anyone can

735

00:26:33,350 --> 00:26:31,679

argue that they haven't done that um

736

00:26:35,830 --> 00:26:33,360

like i remember who said it i imagine it

737

00:26:38,630 --> 00:26:35,840

was probably lou relaying a story but

738

00:26:40,070 --> 00:26:38,640

they he he said that he was told by

739

00:26:42,710 --> 00:26:40,080

someone working in the pentagon that

740

00:26:44,870 --> 00:26:42,720

they now have don't have to step into a

741

00:26:46,950 --> 00:26:44,880

skiff to actually have conversations

742

00:26:49,990 --> 00:26:46,960

about uap they can just do it walking

743

00:26:51,269 --> 00:26:50,000

around in the hall which is a big change

744

00:26:52,630 --> 00:26:51,279

because people are going to overhear

745

00:26:54,070 --> 00:26:52,640

that and suddenly other officials are

746

00:26:55,830 --> 00:26:54,080

going to be kind of going oh so there's

747

00:26:57,510 --> 00:26:55,840

something to this then like how can i

748

00:26:59,510 --> 00:26:57,520

get involved you know trying to help

749

00:27:01,909 --> 00:26:59,520

along the effort

750

00:27:03,190 --> 00:27:01,919

with this sort of event we're hoping

751  
00:27:05,510 --> 00:27:03,200  
what comes from it and we've heard a

752  
00:27:07,669 --> 00:27:05,520  
little on project tight in there where

753  
00:27:08,630 --> 00:27:07,679  
ideally an international group get

754  
00:27:09,909 --> 00:27:08,640  
together

755  
00:27:12,149 --> 00:27:09,919  
who's going to be running that group

756  
00:27:14,470 --> 00:27:12,159  
though dan right now the way the ufo

757  
00:27:16,710 --> 00:27:14,480  
charge is being led is very much from a

758  
00:27:18,789 --> 00:27:16,720  
us point of view and to be honest you've

759  
00:27:20,789 --> 00:27:18,799  
got to be grateful for that i know it

760  
00:27:23,029 --> 00:27:20,799  
can be controversial that one country's

761  
00:27:24,149 --> 00:27:23,039  
leading the way so much but no one else

762  
00:27:25,830 --> 00:27:24,159  
was doing it

763  
00:27:28,070 --> 00:27:25,840

so as it stands the us are at the

764

00:27:29,110 --> 00:27:28,080

forefront do you think this is the right

765

00:27:30,710 --> 00:27:29,120

step

766

00:27:32,870 --> 00:27:30,720

going forward that it should be an

767

00:27:35,269 --> 00:27:32,880

international effort and how exactly

768

00:27:36,870 --> 00:27:35,279

does that work because surely other

769

00:27:38,549 --> 00:27:36,880

countries are going to have their own

770

00:27:40,630 --> 00:27:38,559

interests at heart and especially when

771

00:27:43,190 --> 00:27:40,640

you think of the big superpowers when

772

00:27:44,710 --> 00:27:43,200

you look at china russia america and

773

00:27:46,230 --> 00:27:44,720

then you start bringing into like

774

00:27:48,870 --> 00:27:46,240

continental europe

775

00:27:50,230 --> 00:27:48,880

germany uk

776  
00:27:51,990 --> 00:27:50,240  
surely these countries are going to want

777  
00:27:54,070 --> 00:27:52,000  
their own saying what's potentially a

778  
00:27:56,389 --> 00:27:54,080  
pretty spectacular issue but one with a

779  
00:27:58,470 --> 00:27:56,399  
lot of defense significance as well

780  
00:28:00,470 --> 00:27:58,480  
yeah absolutely you know the information

781  
00:28:01,269 --> 00:28:00,480  
gleaned from the data

782  
00:28:04,789 --> 00:28:01,279  
um

783  
00:28:06,310 --> 00:28:04,799  
of uap is going to be so valuable to

784  
00:28:07,669 --> 00:28:06,320  
anyone that can figure out how to you

785  
00:28:09,750 --> 00:28:07,679  
know make a craft that can do those

786  
00:28:11,909 --> 00:28:09,760  
things even if we just take hypersonic

787  
00:28:13,110 --> 00:28:11,919  
velocities instantly

788  
00:28:15,029 --> 00:28:13,120

like that

789

00:28:19,190 --> 00:28:15,039

ability alone would would give them a

790

00:28:20,950 --> 00:28:19,200

huge advantage over their adversaries um

791

00:28:23,430 --> 00:28:20,960

i i would say we need to make sure that

792

00:28:26,070 --> 00:28:23,440

that international coalition is is away

793

00:28:27,590 --> 00:28:26,080

from government and government influence

794

00:28:29,909 --> 00:28:27,600

the government should feed into it or

795

00:28:31,350 --> 00:28:29,919

they should be like i don't know like a

796

00:28:33,909 --> 00:28:31,360

an in

797

00:28:35,029 --> 00:28:33,919

intermediary um that kind of looks after

798

00:28:37,190 --> 00:28:35,039

the data

799

00:28:40,230 --> 00:28:37,200

i know science projects use it all the

800

00:28:42,310 --> 00:28:40,240

time where they'll feed into a secure

801  
00:28:43,909 --> 00:28:42,320  
repository from many different locations

802  
00:28:46,549 --> 00:28:43,919  
in the world and that's probably what we

803  
00:28:48,789 --> 00:28:46,559  
should be looking at here um

804  
00:28:51,350 --> 00:28:48,799  
we've heard them speak about or lose

805  
00:28:53,830 --> 00:28:51,360  
speak about ai and applying ai to the

806  
00:28:55,430 --> 00:28:53,840  
data streams and that's kind of

807  
00:28:56,789 --> 00:28:55,440  
what you'd need to do to be able to do

808  
00:28:58,070 --> 00:28:56,799  
that as well you know if you had one

809  
00:28:59,990 --> 00:28:58,080  
pipe coming in from all the different

810  
00:29:02,070 --> 00:29:00,000  
countries um that that's where the

811  
00:29:03,909 --> 00:29:02,080  
filter would be

812  
00:29:05,669 --> 00:29:03,919  
dan let me ask you though okay so you

813  
00:29:07,830 --> 00:29:05,679

are one of the superpowers okay take

814

00:29:08,549 --> 00:29:07,840

your pick yes russia china

815

00:29:16,630 --> 00:29:08,559

you

816

00:29:19,430 --> 00:29:16,640

because what we're talking about here is

817

00:29:22,310 --> 00:29:19,440

a group of mainstream scientists and

818

00:29:24,310 --> 00:29:22,320

potentially previous politicians or just

819

00:29:26,789 --> 00:29:24,320

individuals with an interest

820

00:29:28,789 --> 00:29:26,799

now getting access to incredible

821

00:29:30,070 --> 00:29:28,799

technology we talked about defense

822

00:29:32,310 --> 00:29:30,080

significance

823

00:29:33,590 --> 00:29:32,320

talking about

824

00:29:35,350 --> 00:29:33,600

something that could really shape the

825

00:29:37,830 --> 00:29:35,360

future of the whole planet and the human

826

00:29:39,990 --> 00:29:37,840

race if you know if disclosure comes

827

00:29:42,470 --> 00:29:40,000

over or it just becomes a scientific

828

00:29:44,870 --> 00:29:42,480

study and all it takes is even with with

829

00:29:46,710 --> 00:29:44,880

avi loeb you know project galileo

830

00:29:49,110 --> 00:29:46,720

imagine one of these independent

831

00:29:51,909 --> 00:29:49,120

organizations managed to capture

832

00:29:53,510 --> 00:29:51,919

something on film or on camera

833

00:29:55,269 --> 00:29:53,520

like we always maybe thought when you

834

00:29:57,029 --> 00:29:55,279

first get into the subject of you know

835

00:29:59,029 --> 00:29:57,039

imagine one day we had that nasa

836

00:30:01,830 --> 00:29:59,039

conference before you get really into

837

00:30:03,350 --> 00:30:01,840

the woods with us and in the weeds and

838

00:30:05,269 --> 00:30:03,360

nasa say here's a picture like

839

00:30:07,110 --> 00:30:05,279

independence day where here's the

840

00:30:09,269 --> 00:30:07,120

satellite photos of these huge craft

841

00:30:11,110 --> 00:30:09,279

approaching the earth

842

00:30:13,110 --> 00:30:11,120

that's that's taken away from the

843

00:30:15,590 --> 00:30:13,120

government and their control and

844

00:30:17,750 --> 00:30:15,600

do they want that happening or are they

845

00:30:19,830 --> 00:30:17,760

in any position to stop this happening

846

00:30:22,070 --> 00:30:19,840

when it goes to that sort of level

847

00:30:24,230 --> 00:30:22,080

i think the second question is key there

848

00:30:26,149 --> 00:30:24,240

because they definitely don't want that

849

00:30:28,070 --> 00:30:26,159

to happen and i i think you you've

850

00:30:30,310 --> 00:30:28,080

essentially expressed a really nice

851  
00:30:32,230 --> 00:30:30,320  
concise reason for why you would cover

852  
00:30:33,990 --> 00:30:32,240  
up something like this if you found it

853  
00:30:35,909 --> 00:30:34,000  
um you know you had kind of the cold war

854  
00:30:38,070 --> 00:30:35,919  
going on and the the background of or

855  
00:30:40,070 --> 00:30:38,080  
sorry the remnants of of the fallout of

856  
00:30:41,750 --> 00:30:40,080  
world war ii um

857  
00:30:44,549 --> 00:30:41,760  
you know you can see why you would you'd

858  
00:30:47,909 --> 00:30:44,559  
ignore it if it was this

859  
00:30:49,110 --> 00:30:47,919  
potentially dangerous um to to

860  
00:30:50,549 --> 00:30:49,120  
you know if you've got a craft flying

861  
00:30:52,149 --> 00:30:50,559  
around and your enemy studies it they

862  
00:30:53,909 --> 00:30:52,159  
can kind of

863  
00:30:55,669 --> 00:30:53,919

study the signature and maybe build the

864

00:30:57,830 --> 00:30:55,679

craft themselves

865

00:30:59,750 --> 00:30:57,840

so you've definitely stumbled upon a

866

00:31:01,750 --> 00:30:59,760

good reason for the cover up there

867

00:31:03,029 --> 00:31:01,760

and the reason i said that it was really

868

00:31:05,029 --> 00:31:03,039

important that

869

00:31:06,789 --> 00:31:05,039

to acknowledge that a lot of this is out

870

00:31:08,950 --> 00:31:06,799

of their control

871

00:31:11,190 --> 00:31:08,960

is that when we look at disclosure as a

872

00:31:13,269 --> 00:31:11,200

process there's only kind of so much we

873

00:31:15,350 --> 00:31:13,279

can do as a species you know even if

874

00:31:16,230 --> 00:31:15,360

everyone on the planet knew about it

875

00:31:18,549 --> 00:31:16,240

if

876

00:31:20,070 --> 00:31:18,559

the visitors or you know i say visitors

877

00:31:22,230 --> 00:31:20,080

but if they belong here this is home for

878

00:31:24,070 --> 00:31:22,240

them um

879

00:31:25,509 --> 00:31:24,080

balls kind of in their court you know

880

00:31:27,269 --> 00:31:25,519

they they could have a mass sizing in

881

00:31:28,789 --> 00:31:27,279

the next hour over all the world's major

882

00:31:31,509 --> 00:31:28,799

cities and this thing will be blown wide

883

00:31:33,190 --> 00:31:31,519

open and the dod wouldn't be able to

884

00:31:37,509 --> 00:31:33,200

convince anyone that it wasn't real

885

00:31:39,110 --> 00:31:37,519

anymore so there's definitely uh

886

00:31:40,789 --> 00:31:39,120

in the age of information and with

887

00:31:42,230 --> 00:31:40,799

everyone with tick tock and social media

888

00:31:44,149 --> 00:31:42,240

and things like that

889

00:31:46,070 --> 00:31:44,159

there's a huge lack of control over this

890

00:31:48,310 --> 00:31:46,080

information

891

00:31:50,230 --> 00:31:48,320

do you know what when i first saw san

892

00:31:52,389 --> 00:31:50,240

marino i was like

893

00:31:55,590 --> 00:31:52,399

of all the countries

894

00:31:56,950 --> 00:31:55,600

san marino you know landlocked small i

895

00:31:58,710 --> 00:31:56,960

talked about tim how it's known for

896

00:32:01,430 --> 00:31:58,720

having a very poor football team a

897

00:32:03,110 --> 00:32:01,440

soccer team and and that's that's about

898

00:32:05,029 --> 00:32:03,120

it which is probably doing the country

899

00:32:06,470 --> 00:32:05,039

as a service but

900

00:32:08,870 --> 00:32:06,480

maybe that's the way it should be

901  
00:32:10,389 --> 00:32:08,880  
because all those big countries oh big

902  
00:32:12,470 --> 00:32:10,399  
that again that sounds so bad talking

903  
00:32:14,310 --> 00:32:12,480  
down about san marino but they are what

904  
00:32:16,230 --> 00:32:14,320  
they are they're a very small nation

905  
00:32:19,110 --> 00:32:16,240  
should we say countries with ginormous

906  
00:32:21,590 --> 00:32:19,120  
defense budget um yeah yeah

907  
00:32:22,950 --> 00:32:21,600  
once on the planet let's say that and

908  
00:32:24,950 --> 00:32:22,960  
the grand scheme of things you know that

909  
00:32:26,549 --> 00:32:24,960  
that's where they're at and

910  
00:32:29,110 --> 00:32:26,559  
maybe that's the way this has to work

911  
00:32:31,350 --> 00:32:29,120  
that it takes a country like that who

912  
00:32:33,830 --> 00:32:31,360  
necessarily isn't scared about its

913  
00:32:36,310 --> 00:32:33,840

reputation on the international stage

914

00:32:37,190 --> 00:32:36,320

because they don't necessarily have

915

00:32:38,149 --> 00:32:37,200

one

916

00:32:39,909 --> 00:32:38,159

to

917

00:32:41,190 --> 00:32:39,919

you know they're just there at the

918

00:32:43,190 --> 00:32:41,200

moment they're making up the numbers

919

00:32:44,789 --> 00:32:43,200

they feel and this is their way to make

920

00:32:47,509 --> 00:32:44,799

that statement on the international

921

00:32:49,269 --> 00:32:47,519

stage by being that country to really

922

00:32:51,190 --> 00:32:49,279

promote this and like i discussed with

923

00:32:52,870 --> 00:32:51,200

tim this isn't the first time this has

924

00:32:55,350 --> 00:32:52,880

happened and it was put to the u.n back

925

00:32:57,509 --> 00:32:55,360

in the late 70s and 78 but there was no

926  
00:32:59,509 --> 00:32:57,519  
appetite for the conversation and as for

927  
00:33:01,110 --> 00:32:59,519  
reasons we have discussed

928  
00:33:03,269 --> 00:33:01,120  
maybe now as the time given what's

929  
00:33:04,549 --> 00:33:03,279  
happened in recent years as well i want

930  
00:33:06,950 --> 00:33:04,559  
to get your thoughts down a couple of

931  
00:33:08,789 --> 00:33:06,960  
listeners got in touch with us uh to get

932  
00:33:11,029 --> 00:33:08,799  
some points on it and look made the

933  
00:33:12,310 --> 00:33:11,039  
point that from a glass half full

934  
00:33:14,310 --> 00:33:12,320  
perspective

935  
00:33:16,230 --> 00:33:14,320  
he thinks it would potentially help

936  
00:33:18,070 --> 00:33:16,240  
destigmatize the topic

937  
00:33:20,710 --> 00:33:18,080  
it would likely become another source of

938  
00:33:22,950 --> 00:33:20,720

credible evidence that craft performing

939

00:33:24,549 --> 00:33:22,960

far beyond the capability of revealed

940

00:33:26,230 --> 00:33:24,559

human tech exists

941

00:33:28,630 --> 00:33:26,240

and it would also provide a whole pile

942

00:33:30,389 --> 00:33:28,640

of extra content information for those

943

00:33:32,630 --> 00:33:30,399

of us that are already convinced kind of

944

00:33:35,830 --> 00:33:32,640

adding to that dossier of evidence

945

00:33:37,669 --> 00:33:35,840

also from a glass half empty perspective

946

00:33:40,149 --> 00:33:37,679

look thanks to political tension between

947

00:33:41,990 --> 00:33:40,159

the world's superpowers is probably far

948

00:33:44,310 --> 00:33:42,000

too great for them to allow anything

949

00:33:45,830 --> 00:33:44,320

scientifically meaningful to be revealed

950

00:33:47,909 --> 00:33:45,840

via this forum which i think kind of

951  
00:33:49,269 --> 00:33:47,919  
goes along with one of the points abisor

952  
00:33:50,710 --> 00:33:49,279  
are making what what do you think about

953  
00:33:53,269 --> 00:33:50,720  
what looks soon

954  
00:33:56,070 --> 00:33:53,279  
yeah uh luke is loopston one of the

955  
00:33:58,070 --> 00:33:56,080  
colons right is it is it the same luke

956  
00:33:59,990 --> 00:33:58,080  
um i oh it might not be the same look

957  
00:34:01,830 --> 00:34:00,000  
i'm i can't remember

958  
00:34:04,230 --> 00:34:01,840  
the second loop then right we discussed

959  
00:34:05,110 --> 00:34:04,240  
this didn't we before dan two things

960  
00:34:06,710 --> 00:34:05,120  
right

961  
00:34:08,950 --> 00:34:06,720  
the batteries ran out on this after

962  
00:34:11,190 --> 00:34:08,960  
someone having a dan's bat he's running

963  
00:34:12,629 --> 00:34:11,200

out my mine is far too bright i'm just

964

00:34:14,629 --> 00:34:12,639

going to switch this on just so people

965

00:34:17,190 --> 00:34:14,639

can see like yeah i mean

966

00:34:20,389 --> 00:34:17,200

text yeah element 115 levels of

967

00:34:22,389 --> 00:34:20,399

radiation coming off as dan said um

968

00:34:24,230 --> 00:34:22,399

my mind one is just broken so i will get

969

00:34:26,869 --> 00:34:24,240

a new one for the next show so apologies

970

00:34:28,470 --> 00:34:26,879

folks the other one is we have lots of

971

00:34:30,069 --> 00:34:28,480

listeners who get in touch with us they

972

00:34:34,310 --> 00:34:30,079

all seem to have the similar names so

973

00:34:35,909 --> 00:34:34,320

we've got several looks carl's joe's uh

974

00:34:37,510 --> 00:34:35,919

yeah so it looks like they're all

975

00:34:40,389 --> 00:34:37,520

duplicating questions but we've got a

976

00:34:42,550 --> 00:34:40,399

few looks but i'm digressing now um

977

00:34:45,109 --> 00:34:42,560

but yeah so it might may or may not than

978

00:34:46,550 --> 00:34:45,119

be the same look but yeah crack on what

979

00:34:48,710 --> 00:34:46,560

are your thoughts

980

00:34:50,790 --> 00:34:48,720

um i mean i'm i'm all about the the

981

00:34:53,589 --> 00:34:50,800

glass half full with it you know that

982

00:34:55,669 --> 00:34:53,599

this is a a road that's been been built

983

00:34:57,349 --> 00:34:55,679

for a long time i know we we had a unf

984

00:34:58,710 --> 00:34:57,359

that wasn't successful before i think it

985

00:35:01,030 --> 00:34:58,720

was really interesting that tim was

986

00:35:03,349 --> 00:35:01,040

saying that you know he he'd heard

987

00:35:05,190 --> 00:35:03,359

romelus that the uk had maybe stopped

988

00:35:06,310 --> 00:35:05,200

that discussion as well

989

00:35:08,310 --> 00:35:06,320

um

990

00:35:09,670 --> 00:35:08,320

and and i hope they don't don't do that

991

00:35:13,349 --> 00:35:09,680

this time

992

00:35:15,430 --> 00:35:13,359

but the karma from wrong but i isa

993

00:35:17,589 --> 00:35:15,440

comes from it it's like a chinese

994

00:35:19,430 --> 00:35:17,599

initiative is that correct

995

00:35:21,990 --> 00:35:19,440

oh i couldn't correct you on that we

996

00:35:23,270 --> 00:35:22,000

could pause it and pretend we knew but

997

00:35:25,270 --> 00:35:23,280

we'll just have to find that one out

998

00:35:26,710 --> 00:35:25,280

separately but

999

00:35:28,790 --> 00:35:26,720

was that not one of the rumors at the

1000

00:35:31,190 --> 00:35:28,800

time was that china wanted to bring this

1001  
00:35:33,270 --> 00:35:31,200  
to the un because they saw

1002  
00:35:35,270 --> 00:35:33,280  
the you know the control the us had on

1003  
00:35:36,790 --> 00:35:35,280  
the subject they wanted to wrestle some

1004  
00:35:38,470 --> 00:35:36,800  
of that back

1005  
00:35:41,430 --> 00:35:38,480  
yeah and i mean that that's what i was

1006  
00:35:43,750 --> 00:35:41,440  
gonna suggest you know you you can see

1007  
00:35:44,790 --> 00:35:43,760  
the the arm wrestle already playing out

1008  
00:35:48,630 --> 00:35:44,800  
and

1009  
00:35:52,150 --> 00:35:50,230  
you know they they have their reasons

1010  
00:35:53,589 --> 00:35:52,160  
and they both feel justified but we we

1011  
00:35:56,069 --> 00:35:53,599  
know there's kind of something more

1012  
00:35:58,150 --> 00:35:56,079  
insidious underneath that you know no no

1013  
00:36:00,230 --> 00:35:58,160

one makes a nuclear bomb and uses it

1014

00:36:01,510 --> 00:36:00,240

just for energy they have to use it to

1015

00:36:03,829 --> 00:36:01,520

fight right

1016

00:36:05,910 --> 00:36:03,839

well uh let's get to dave's questions on

1017

00:36:08,390 --> 00:36:05,920

this and his thoughts dan dave wants to

1018

00:36:10,310 --> 00:36:08,400

know do we think that project titan is

1019

00:36:12,390 --> 00:36:10,320

potentially part of a coordinated

1020

00:36:15,910 --> 00:36:12,400

strategy that louis lozando and chris

1021

00:36:19,270 --> 00:36:17,270

i mean it's

1022

00:36:20,150 --> 00:36:19,280

it's one of the gears right

1023

00:36:22,150 --> 00:36:20,160

um

1024

00:36:24,230 --> 00:36:22,160

i i don't know if people have heard

1025

00:36:27,990 --> 00:36:24,240

lou talk about the gear shifts and the

1026  
00:36:29,990 --> 00:36:28,000  
the five pillars of emphasis but the the

1027  
00:36:31,510 --> 00:36:30,000  
international conversation and this part

1028  
00:36:32,950 --> 00:36:31,520  
is certainly

1029  
00:36:35,589 --> 00:36:32,960  
certainly part of the plan that was

1030  
00:36:36,390 --> 00:36:35,599  
considered by lou and chris mallon early

1031  
00:36:38,390 --> 00:36:36,400  
on

1032  
00:36:40,230 --> 00:36:38,400  
i you know they're smart people i can't

1033  
00:36:41,589 --> 00:36:40,240  
imagine they they just considered the

1034  
00:36:43,510 --> 00:36:41,599  
usa you know

1035  
00:36:44,790 --> 00:36:43,520  
yeah and that san marino event isn't

1036  
00:36:46,390 --> 00:36:44,800  
something that happened over the last

1037  
00:36:47,510 --> 00:36:46,400  
couple of months or weeks back in

1038  
00:36:49,829 --> 00:36:47,520

february

1039

00:36:51,990 --> 00:36:49,839

louie elizondo was on with sean cahill

1040

00:36:55,030 --> 00:36:52,000

who is a friend of our show as well hi

1041

00:36:57,270 --> 00:36:55,040

to sean and uh on rhines breg somewhere

1042

00:36:59,430 --> 00:36:57,280

in the skies and lou mentioned right at

1043

00:37:01,510 --> 00:36:59,440

the end of that particular interview

1044

00:37:03,750 --> 00:37:01,520

that there was potentially international

1045

00:37:04,870 --> 00:37:03,760

efforts coming and we should keep an eye

1046

00:37:06,310 --> 00:37:04,880

on this

1047

00:37:08,069 --> 00:37:06,320

this is what he was talking about and

1048

00:37:10,710 --> 00:37:08,079

that was back in february he dropped a

1049

00:37:13,109 --> 00:37:10,720

hint on that so this stuff has been in

1050

00:37:14,950 --> 00:37:13,119

the works for quite some time it doesn't

1051  
00:37:16,870 --> 00:37:14,960  
just happen over weeks or you know a

1052  
00:37:19,750 --> 00:37:16,880  
couple of months of pressure

1053  
00:37:21,510 --> 00:37:19,760  
or are people chatting online

1054  
00:37:23,750 --> 00:37:21,520  
this is stuff that's going on in the

1055  
00:37:26,230 --> 00:37:23,760  
background constantly and i think again

1056  
00:37:27,829 --> 00:37:26,240  
like so many have mentioned there are we

1057  
00:37:29,270 --> 00:37:27,839  
talk about senator harry reid and the

1058  
00:37:30,630 --> 00:37:29,280  
work he's done over the years that's

1059  
00:37:32,230 --> 00:37:30,640  
been very public

1060  
00:37:34,069 --> 00:37:32,240  
that's probably five percent of the work

1061  
00:37:36,550 --> 00:37:34,079  
he's done in total because everything

1062  
00:37:39,030 --> 00:37:36,560  
else goes on behind the scenes and no

1063  
00:37:40,790 --> 00:37:39,040

doubt people like harry reid get knocked

1064

00:37:42,870 --> 00:37:40,800

down a lot and have to get back up from

1065

00:37:44,950 --> 00:37:42,880

it and i can only imagine people behind

1066

00:37:46,710 --> 00:37:44,960

the scenes have lost their political

1067

00:37:48,470 --> 00:37:46,720

careers

1068

00:37:50,230 --> 00:37:48,480

because of this subject and the way

1069

00:37:52,069 --> 00:37:50,240

they've tried to approach it and get out

1070

00:37:53,510 --> 00:37:52,079

there so we can only appreciate and hope

1071

00:37:55,109 --> 00:37:53,520

there's a time we can thank those sort

1072

00:37:56,550 --> 00:37:55,119

of people as well but

1073

00:37:58,870 --> 00:37:56,560

for me yeah

1074

00:38:00,550 --> 00:37:58,880

i think louis lozando and chris melon

1075

00:38:02,470 --> 00:38:00,560

are some of the the faces of this

1076

00:38:03,910 --> 00:38:02,480

movement and i can get people can get

1077

00:38:05,430 --> 00:38:03,920

sick of their names being mentioned but

1078

00:38:06,390 --> 00:38:05,440

it's really hard not to in a modern

1079

00:38:08,790 --> 00:38:06,400

setting

1080

00:38:10,630 --> 00:38:08,800

to not talk about them as much as 30

1081

00:38:13,750 --> 00:38:10,640

years ago when you talk to ufos everyone

1082

00:38:15,829 --> 00:38:13,760

mentions roswell it's just what you do

1083

00:38:17,589 --> 00:38:15,839

i feel there are probably others

1084

00:38:19,589 --> 00:38:17,599

involved well there definitely are

1085

00:38:21,510 --> 00:38:19,599

others involved whose names you don't

1086

00:38:23,510 --> 00:38:21,520

hear of or don't hear of yet

1087

00:38:25,190 --> 00:38:23,520

that will come to the forum as this

1088

00:38:28,390 --> 00:38:25,200

topic moves forward

1089

00:38:30,310 --> 00:38:28,400

um dave also mentioned do you think if

1090

00:38:32,390 --> 00:38:30,320

successful it will outflank the

1091

00:38:34,950 --> 00:38:32,400

non-disclosure elements attempting to

1092

00:38:37,109 --> 00:38:34,960

suppress and gain back control of the

1093

00:38:39,589 --> 00:38:37,119

uap narrative by making it an

1094

00:38:41,190 --> 00:38:39,599

international effort

1095

00:38:42,630 --> 00:38:41,200

yeah i mean

1096

00:38:44,950 --> 00:38:42,640

that that's the other thing about

1097

00:38:46,790 --> 00:38:44,960

spreading the the efforts instead of it

1098

00:38:48,470 --> 00:38:46,800

being focused in one country is that if

1099

00:38:50,470 --> 00:38:48,480

one country decides yeah we don't want

1100

00:38:51,990 --> 00:38:50,480

to be a part of this it's still going on

1101  
00:38:53,910 --> 00:38:52,000  
without them you know they're just going

1102  
00:38:56,470 --> 00:38:53,920  
to be left behind and i'm hoping that

1103  
00:38:59,109 --> 00:38:56,480  
that's kind of the position that the uk

1104  
00:39:00,790 --> 00:38:59,119  
ends up in where they'll they'll be last

1105  
00:39:02,550 --> 00:39:00,800  
and then once they recognize that

1106  
00:39:04,950 --> 00:39:02,560  
everyone else is kind of going for it

1107  
00:39:07,910 --> 00:39:04,960  
they'll go fast you know

1108  
00:39:10,710 --> 00:39:07,920  
dan why doesn't another country that we

1109  
00:39:12,870 --> 00:39:10,720  
have let's just pick one out mexico

1110  
00:39:15,589 --> 00:39:12,880  
why doesn't mexico come out and disclose

1111  
00:39:17,589 --> 00:39:15,599  
what they know about uaps

1112  
00:39:20,230 --> 00:39:17,599  
well even even if they don't have the

1113  
00:39:22,069 --> 00:39:20,240

tech or you know like maybe the big big

1114

00:39:23,349 --> 00:39:22,079

events that one of those governments

1115

00:39:26,150 --> 00:39:23,359

could just come out and say you know

1116

00:39:27,589 --> 00:39:26,160

what yep we have objects our craft

1117

00:39:30,069 --> 00:39:27,599

coming from what we believe is outer

1118

00:39:32,390 --> 00:39:30,079

space from somewhere else visiting or

1119

00:39:34,710 --> 00:39:32,400

have visited earth and and that would be

1120

00:39:36,710 --> 00:39:34,720

at lay that on the table and

1121

00:39:38,390 --> 00:39:36,720

leave that for others to deal with

1122

00:39:40,230 --> 00:39:38,400

yeah yeah i mean i don't know about

1123

00:39:43,190 --> 00:39:40,240

mexico specifically but i know that the

1124

00:39:44,950 --> 00:39:43,200

us isn't first uh france has had an

1125

00:39:47,510 --> 00:39:44,960

investigative team for a long time now

1126

00:39:49,750 --> 00:39:47,520

with the produce reports no i mean one

1127

00:39:51,349 --> 00:39:49,760

of those governments

1128

00:39:53,510 --> 00:39:51,359

um

1129

00:39:54,870 --> 00:39:53,520

there's a lot that kind of gets reported

1130

00:39:57,349 --> 00:39:54,880

around the world but there's no way for

1131

00:39:59,430 --> 00:39:57,359

it to kind of go you know no

1132

00:40:01,270 --> 00:39:59,440

no i don't mean that that's that's still

1133

00:40:03,430 --> 00:40:01,280

reporting and that's still let's

1134

00:40:05,589 --> 00:40:03,440

investigate or let's still look at cases

1135

00:40:08,390 --> 00:40:05,599

or i mean one of these governments comes

1136

00:40:11,430 --> 00:40:08,400

out with no f spots or maybes and tells

1137

00:40:12,230 --> 00:40:11,440

people we know that aliens exist

1138

00:40:14,069 --> 00:40:12,240

or

1139

00:40:16,870 --> 00:40:14,079

entities exist that are not human and

1140

00:40:19,109 --> 00:40:16,880

they visit or are from here etc what why

1141

00:40:20,790 --> 00:40:19,119

hasn't that happened yet not reporting

1142

00:40:22,630 --> 00:40:20,800

and not little bodies and stuff like one

1143

00:40:24,710 --> 00:40:22,640

of these governments could have done

1144

00:40:27,670 --> 00:40:24,720

that couldn't they

1145

00:40:29,829 --> 00:40:27,680

uh yeah i mean i suppose so but again

1146

00:40:31,670 --> 00:40:29,839

without kind of knowing what we're

1147

00:40:33,510 --> 00:40:31,680

dealing with it's hard to talk about it

1148

00:40:35,910 --> 00:40:33,520

and no one wants to say i don't know

1149

00:40:37,990 --> 00:40:35,920

right everyone wants to kind of say oh

1150

00:40:40,390 --> 00:40:38,000

we encounter in the sky and we shut it

1151  
00:40:42,390 --> 00:40:40,400  
down and we've now got this magical

1152  
00:40:43,990 --> 00:40:42,400  
bonus that that we earn or you know

1153  
00:40:46,550 --> 00:40:44,000  
something like that they don't want to

1154  
00:40:48,550 --> 00:40:46,560  
just say our country is completely

1155  
00:40:52,390 --> 00:40:48,560  
outclassed by something that we can't

1156  
00:40:55,109 --> 00:40:52,400  
even identify in the sky you know

1157  
00:40:56,470 --> 00:40:55,119  
a blind spot that gets exploited by

1158  
00:40:58,950 --> 00:40:56,480  
adversaries

1159  
00:41:00,309 --> 00:40:58,960  
okay so so you're taking it back to

1160  
00:41:02,710 --> 00:41:00,319  
and we've discussed this

1161  
00:41:04,630 --> 00:41:02,720  
previously that it would be almost an

1162  
00:41:06,870 --> 00:41:04,640  
embarrassment for any country to come

1163  
00:41:09,190 --> 00:41:06,880

out and have the discussion we all think

1164

00:41:11,670 --> 00:41:09,200

they would have but have to answer a lot

1165

00:41:12,790 --> 00:41:11,680

of press conferences questions with

1166

00:41:14,309 --> 00:41:12,800

we don't know

1167

00:41:16,150 --> 00:41:14,319

we're not sure

1168

00:41:18,470 --> 00:41:16,160

maybe and they would just look really

1169

00:41:20,790 --> 00:41:18,480

silly so it's better to just not see

1170

00:41:21,990 --> 00:41:20,800

anything than come out and give us 10 of

1171

00:41:24,230 --> 00:41:22,000

of what they know

1172

00:41:25,910 --> 00:41:24,240

yeah probably i mean

1173

00:41:27,190 --> 00:41:25,920

like i say we'll probably see a bunch

1174

00:41:28,550 --> 00:41:27,200

more countries who have been quite in

1175

00:41:30,790 --> 00:41:28,560

the past starting to talk about this

1176

00:41:32,470 --> 00:41:30,800

we've already had you know japan uh

1177

00:41:36,230 --> 00:41:32,480

china have a task force and they're

1178

00:41:38,150 --> 00:41:36,240

applying ai and the same stuff um

1179

00:41:40,790 --> 00:41:38,160

so it's just a case of someone going

1180

00:41:42,309 --> 00:41:40,800

first and kind of having that weight to

1181

00:41:43,910 --> 00:41:42,319

what they're saying instead of it just

1182

00:41:46,390 --> 00:41:43,920

being stories you know mexico could have

1183

00:41:47,510 --> 00:41:46,400

come out 15 years ago and said you know

1184

00:41:49,670 --> 00:41:47,520

we saw something off the coast

1185

00:41:51,829 --> 00:41:49,680

california and there were

1186

00:41:53,829 --> 00:41:51,839

nimitz ships there and carrier fleets

1187

00:41:55,190 --> 00:41:53,839

and blah blah blah and the us would have

1188

00:41:56,870 --> 00:41:55,200

just denied it and they would have

1189

00:41:58,710 --> 00:41:56,880

looked crazy and just lost a lot of

1190

00:42:00,710 --> 00:41:58,720

respect around the world so

1191

00:42:02,870 --> 00:42:00,720

i i think it's definitely something to

1192

00:42:04,790 --> 00:42:02,880

do with that and i suppose these

1193

00:42:06,230 --> 00:42:04,800

conversations to get to that level have

1194

00:42:07,349 --> 00:42:06,240

to bubble up from somewhere to the

1195

00:42:10,150 --> 00:42:07,359

surface

1196

00:42:12,309 --> 00:42:10,160

and how many levels of bureaucracy does

1197

00:42:14,390 --> 00:42:12,319

that have to go through to go from

1198

00:42:16,790 --> 00:42:14,400

you know me and you talking in the halls

1199

00:42:19,349 --> 00:42:16,800

of some you know government building

1200

00:42:21,270 --> 00:42:19,359

to going to a group and in a committee

1201  
00:42:23,349 --> 00:42:21,280  
and then someone takes that upper level

1202  
00:42:25,030 --> 00:42:23,359  
and then it goes to a motion and then it

1203  
00:42:27,270 --> 00:42:25,040  
yeah so it would be hard to get there so

1204  
00:42:29,589 --> 00:42:27,280  
it's not just as easy as i mean lou had

1205  
00:42:31,510 --> 00:42:29,599  
to literally resign he was working on

1206  
00:42:33,430 --> 00:42:31,520  
the inside and you know

1207  
00:42:37,829 --> 00:42:33,440  
ross kind of emphasized how important

1208  
00:42:40,069 --> 00:42:37,839  
lou was in the intelligence community um

1209  
00:42:43,109 --> 00:42:40,079  
so if he wasn't able to kind of get up

1210  
00:42:45,109 --> 00:42:43,119  
those ranks and had to resign to to

1211  
00:42:46,950 --> 00:42:45,119  
get his resignation and the the bit in

1212  
00:42:48,230 --> 00:42:46,960  
the letter saying you know i i can't do

1213  
00:42:50,309 --> 00:42:48,240

my job with you guys treating the

1214

00:42:52,870 --> 00:42:50,319

subject this way

1215

00:42:58,550 --> 00:42:55,109

the the likelihood that

1216

00:43:00,150 --> 00:42:58,560

you know any one person or someone less

1217

00:43:02,069 --> 00:43:00,160

kind of you know

1218

00:43:03,430 --> 00:43:02,079

big than the us

1219

00:43:06,069 --> 00:43:03,440

uh

1220

00:43:08,870 --> 00:43:06,079

it just wouldn't lend any legitimacy the

1221

00:43:10,150 --> 00:43:08,880

the u.s kind of had to go first i think

1222

00:43:11,430 --> 00:43:10,160

uh just because they're everyone's big

1223

00:43:13,349 --> 00:43:11,440

brother right

1224

00:43:14,950 --> 00:43:13,359

yeah and you know what that was dave's

1225

00:43:16,950 --> 00:43:14,960

third point uh he wanted to know do you

1226

00:43:19,349 --> 00:43:16,960

think the us will feel the need to jump

1227

00:43:21,270 --> 00:43:19,359

on this bus and engage with the un

1228

00:43:22,950 --> 00:43:21,280

process and could that lead to a

1229

00:43:25,430 --> 00:43:22,960

transition to a more international

1230

00:43:27,750 --> 00:43:25,440

approach to the phenomenon

1231

00:43:29,990 --> 00:43:27,760

yeah definitely that that would be the

1232

00:43:31,750 --> 00:43:30,000

ideal way for this to go right

1233

00:43:33,589 --> 00:43:31,760

i don't what i don't want to see is for

1234

00:43:36,390 --> 00:43:33,599

the us to kind of make this department

1235

00:43:38,470 --> 00:43:36,400

of anomaly resolution and then

1236

00:43:40,309 --> 00:43:38,480

for that to just become a close shop you

1237

00:43:43,190 --> 00:43:40,319

know it becomes a i know maybe they have

1238

00:43:44,790 --> 00:43:43,200

a cool building and it just becomes

1239

00:43:46,710 --> 00:43:44,800

you know kind of how we how we think of

1240

00:43:48,069 --> 00:43:46,720

mi5 here you know just that cool

1241

00:43:49,910 --> 00:43:48,079

building on the side of the thames where

1242

00:43:52,550 --> 00:43:49,920

we know they do cool stuff but no one

1243

00:43:55,109 --> 00:43:52,560

knows anything about what goes on there

1244

00:43:56,309 --> 00:43:55,119

this is a an issue that all of us need

1245

00:43:58,630 --> 00:43:56,319

the data on

1246

00:44:00,390 --> 00:43:58,640

well hopefully uh paulo gazadi who is

1247

00:44:02,230 --> 00:44:00,400

one of the leads of project titan will

1248

00:44:03,990 --> 00:44:02,240

be coming on the main podcast soon so

1249

00:44:05,430 --> 00:44:04,000

look out for that one i mean uh

1250

00:44:07,349 --> 00:44:05,440

discussions with him just now over a

1251

00:44:09,670 --> 00:44:07,359

date and time to get him on to talk a

1252

00:44:11,589 --> 00:44:09,680

bit more so again thanks to tim for that

1253

00:44:13,990 --> 00:44:11,599

interview on his piece as well check

1254

00:44:15,750 --> 00:44:14,000

that out at thedebrief.org

1255

00:44:17,349 --> 00:44:15,760

dan had one more listener question

1256

00:44:19,270 --> 00:44:17,359

before we move on to the last segment of

1257

00:44:22,950 --> 00:44:19,280

the show to look at a bit of footage and

1258

00:44:24,790 --> 00:44:22,960

it was from andy again not me uh dan

1259

00:44:27,589 --> 00:44:24,800

mentioned in the latest podcast update

1260

00:44:30,470 --> 00:44:27,599

that the new us bill will require intel

1261

00:44:33,430 --> 00:44:30,480

agencies and branches of defense to

1262

00:44:35,589 --> 00:44:33,440

provide info into the new uap office

1263

00:44:37,910 --> 00:44:35,599

does dan think it will also require the

1264

00:44:40,390 --> 00:44:37,920

same of the us department of energy the

1265

00:44:42,950 --> 00:44:40,400

info they hold could be key this is

1266

00:44:45,270 --> 00:44:42,960

something done that tim on my very first

1267

00:44:46,069 --> 00:44:45,280

interview with him back in in may last

1268

00:44:47,109 --> 00:44:46,079

year

1269

00:44:48,630 --> 00:44:47,119

mentioned

1270

00:44:50,309 --> 00:44:48,640

on that podcast and i don't think he'd

1271

00:44:52,309 --> 00:44:50,319

been talked about too many times at that

1272

00:44:53,990 --> 00:44:52,319

point at all that the department of

1273

00:44:56,150 --> 00:44:54,000

energy is the place where tim would

1274

00:44:57,430 --> 00:44:56,160

before you're requesting stuff from and

1275

00:44:59,349 --> 00:44:57,440

that's where a lot of this key

1276

00:45:01,910 --> 00:44:59,359

information could be held

1277

00:45:03,030 --> 00:45:01,920

yeah absolutely um you know history goes

1278

00:45:04,710 --> 00:45:03,040

back i think they were called something

1279

00:45:06,870 --> 00:45:04,720

else the atomic energy commission i

1280

00:45:08,069 --> 00:45:06,880

think way back when yeah um

1281

00:45:10,230 --> 00:45:08,079

and they've changed their names a few

1282

00:45:12,470 --> 00:45:10,240

times but they've always been this

1283

00:45:15,349 --> 00:45:12,480

separate department you know they're not

1284

00:45:17,349 --> 00:45:15,359

under the dod ig um or anything like

1285

00:45:19,990 --> 00:45:17,359

that it's kind of its own separate thing

1286

00:45:23,030 --> 00:45:20,000

and they actually look after their own

1287

00:45:25,030 --> 00:45:23,040

kind of classification process so

1288

00:45:27,990 --> 00:45:25,040

you know it's kind of like if they do

1289

00:45:29,750 --> 00:45:28,000

have cool toys there um then they're the

1290

00:45:31,589 --> 00:45:29,760

ones that get to decide whether they

1291

00:45:33,990 --> 00:45:31,599

share those with us or not and i i can't

1292

00:45:36,550 --> 00:45:34,000

imagine they would um

1293

00:45:39,430 --> 00:45:36,560

but that's actually shifting from

1294

00:45:43,270 --> 00:45:39,440

uh next year i think it's february maybe

1295

00:45:45,750 --> 00:45:43,280

april um but they actually

1296

00:45:48,150 --> 00:45:45,760

have proper oversight from then onwards

1297

00:45:50,309 --> 00:45:48,160

which which kind of makes me curious

1298

00:45:51,910 --> 00:45:50,319

because the timing is interesting right

1299

00:45:53,910 --> 00:45:51,920

um if all this stuff is going to start

1300

00:45:55,589 --> 00:45:53,920

coming out and that's one of the sources

1301  
00:45:57,349 --> 00:45:55,599  
maybe they have some paperwork that

1302  
00:45:58,950 --> 00:45:57,359  
shows yeah once we did have something

1303  
00:46:00,710 --> 00:45:58,960  
anomalous but

1304  
00:46:02,150 --> 00:46:00,720  
we handed it over to one of the private

1305  
00:46:03,349 --> 00:46:02,160  
companies and we haven't seen it since

1306  
00:46:05,109 --> 00:46:03,359  
you know

1307  
00:46:07,270 --> 00:46:05,119  
or is that enough time between them and

1308  
00:46:09,270 --> 00:46:07,280  
then to get rid of that paperwork that

1309  
00:46:10,630 --> 00:46:09,280  
would show that sort of stuff

1310  
00:46:11,829 --> 00:46:10,640  
i mean it might have just been lost as

1311  
00:46:14,470 --> 00:46:11,839  
well you know it doesn't even take

1312  
00:46:15,750 --> 00:46:14,480  
anything malicious here um if it went

1313  
00:46:17,109 --> 00:46:15,760

into private industry they're going to

1314

00:46:18,870 --> 00:46:17,119

be looking after it they're going to be

1315

00:46:20,710 --> 00:46:18,880

doing their experiments and stuff on it

1316

00:46:23,109 --> 00:46:20,720

trying to figure it out but we all know

1317

00:46:25,030 --> 00:46:23,119

what government paperwork is like

1318

00:46:28,630 --> 00:46:25,040

even in the modern day things go missing

1319

00:46:31,190 --> 00:46:28,640

stuff gets left on trains in the uk

1320

00:46:33,750 --> 00:46:31,200

so yeah it's a bit it's a bit

1321

00:46:37,510 --> 00:46:33,760

lacks um so yeah that paperwork could be

1322

00:46:38,870 --> 00:46:37,520

completely missing um no no mal intent

1323

00:46:40,550 --> 00:46:38,880

required

1324

00:46:42,790 --> 00:46:40,560

then we'll move on to the last segment

1325

00:46:44,470 --> 00:46:42,800

of the show which i'm enjoying already

1326  
00:46:47,349 --> 00:46:44,480  
because it's the listener footage that

1327  
00:46:49,589 --> 00:46:47,359  
gets sent into us and this footage is

1328  
00:46:54,550 --> 00:46:49,599  
from glenn if you want to send us in any

1329  
00:46:56,069 --> 00:46:54,560  
footage email ufo uap am at gmail.com

1330  
00:46:57,589 --> 00:46:56,079  
i'll get the ticker running along the

1331  
00:46:59,430 --> 00:46:57,599  
bottom just now for the last part of the

1332  
00:47:01,109 --> 00:46:59,440  
show i should have had that on earlier

1333  
00:47:02,870 --> 00:47:01,119  
ricky mistake

1334  
00:47:04,630 --> 00:47:02,880  
dan should have told me basically yeah

1335  
00:47:05,910 --> 00:47:04,640  
um but no i forgot to put that one on

1336  
00:47:07,510 --> 00:47:05,920  
but then it's all running at the bottom

1337  
00:47:08,870 --> 00:47:07,520  
now look at that not distracting

1338  
00:47:10,630 --> 00:47:08,880

anything yeah

1339

00:47:13,030 --> 00:47:10,640

yeah it's beautiful take take a moment

1340

00:47:15,270 --> 00:47:13,040

breathe breathe in that information

1341

00:47:18,309 --> 00:47:15,280

yeah not uh and dan's knocked his mic as

1342

00:47:20,470 --> 00:47:18,319

well so take a shot um folks this was

1343

00:47:23,829 --> 00:47:20,480

sent in from glenn now glenn filmed us

1344

00:47:26,069 --> 00:47:23,839

with his phone from the iss live camera

1345

00:47:27,990 --> 00:47:26,079

this is one of those guilty pleasures of

1346

00:47:30,870 --> 00:47:28,000

mine now the footage you're not going to

1347

00:47:32,790 --> 00:47:30,880

see a whole lot here or detail

1348

00:47:35,030 --> 00:47:32,800

necessarily and we've got some ideas of

1349

00:47:37,109 --> 00:47:35,040

what it may or may not be but let's add

1350

00:47:39,430 --> 00:47:37,119

into the stream just to check this is

1351

00:47:41,829 --> 00:47:39,440

glenn filming his screen right not

1352

00:47:44,309 --> 00:47:41,839

glenn's face yes glenn was not the

1353

00:47:46,630 --> 00:47:44,319

astronaut filming this yeah so this is

1354

00:47:49,670 --> 00:47:46,640

glenn taking uh some footage from the

1355

00:47:50,950 --> 00:47:49,680

iss live feed so we'll hit play on that

1356

00:47:52,790 --> 00:47:50,960

one

1357

00:47:55,510 --> 00:47:52,800

and what you're going to see

1358

00:47:57,109 --> 00:47:55,520

is the the kind of objects moving along

1359

00:47:58,230 --> 00:47:57,119

there's some dots

1360

00:47:59,510 --> 00:47:58,240

now i

1361

00:48:01,589 --> 00:47:59,520

we have some more footage to show as

1362

00:48:02,870 --> 00:48:01,599

well from this kind of stuff but i think

1363

00:48:05,510 --> 00:48:02,880

this like a little bit of a guilty

1364

00:48:08,069 --> 00:48:05,520

pleasure when you see these like iss or

1365

00:48:10,150 --> 00:48:08,079

nasa footage or any kind of astronaut or

1366

00:48:11,270 --> 00:48:10,160

something taken from space

1367

00:48:13,190 --> 00:48:11,280

dan

1368

00:48:14,870 --> 00:48:13,200

what do you think now glenn's obviously

1369

00:48:17,109 --> 00:48:14,880

wondering are these some kind of craft

1370

00:48:19,109 --> 00:48:17,119

or or something to that elk what are

1371

00:48:22,390 --> 00:48:19,119

your thoughts

1372

00:48:26,230 --> 00:48:23,750

these things we've heard that these

1373

00:48:28,549 --> 00:48:26,240

things enter the earth's atmosphere from

1374

00:48:30,870 --> 00:48:28,559

the ceiling of the radar which is 80 000

1375

00:48:33,829 --> 00:48:30,880

feet um

1376

00:48:36,150 --> 00:48:33,839

so i would be very surprised if

1377

00:48:38,870 --> 00:48:36,160

at least one of these videos

1378

00:48:40,630 --> 00:48:38,880

uh sorry if if all of these videos were

1379

00:48:41,910 --> 00:48:40,640

fake there's got to be one of these out

1380

00:48:44,309 --> 00:48:41,920

there that actually captures something

1381

00:48:46,069 --> 00:48:44,319

anomalous um

1382

00:48:47,990 --> 00:48:46,079

which one of those that is

1383

00:48:49,270 --> 00:48:48,000

is up for of the debate uh because

1384

00:48:51,430 --> 00:48:49,280

there's a lot of stuff in space that

1385

00:48:52,390 --> 00:48:51,440

just looks weird but it isn't that weird

1386

00:48:54,150 --> 00:48:52,400

you know it's just because you're not

1387

00:48:56,230 --> 00:48:54,160

acclimatized to it

1388

00:48:58,870 --> 00:48:56,240

so here's here's a good view of some of

1389

00:49:01,109 --> 00:48:58,880

these lights moving along um or some of

1390

00:49:02,790 --> 00:49:01,119

these objects moving along now at a

1391

00:49:05,030 --> 00:49:02,800

glance especially i don't have the date

1392

00:49:07,990 --> 00:49:05,040

or anything of this but straight away i

1393

00:49:09,829 --> 00:49:08,000

start to think starlink satellites maybe

1394

00:49:10,790 --> 00:49:09,839

possibly it's hard to tell because they

1395

00:49:13,829 --> 00:49:10,800

are just

1396

00:49:16,470 --> 00:49:13,839

dots right yeah you know i mean

1397

00:49:20,630 --> 00:49:16,480

you want to say that

1398

00:49:22,710 --> 00:49:20,640

saucers are something but you can't um

1399

00:49:25,109 --> 00:49:22,720

but that did prompt us again glenn thank

1400

00:49:27,030 --> 00:49:25,119

you for for adding that in and that did

1401  
00:49:28,870 --> 00:49:27,040  
prompt us to look at some other footage

1402  
00:49:30,549 --> 00:49:28,880  
and you know what was really frustrating

1403  
00:49:33,030 --> 00:49:30,559  
dan and i thought we could find it

1404  
00:49:34,309 --> 00:49:33,040  
really really easily that

1405  
00:49:35,910 --> 00:49:34,319  
i'm sure we've all done it when you went

1406  
00:49:37,670 --> 00:49:35,920  
down that rabbit hole online of oh

1407  
00:49:39,349 --> 00:49:37,680  
here's an interesting video oh and i'll

1408  
00:49:41,510 --> 00:49:39,359  
watch this one oh and i'll watch this

1409  
00:49:43,270 --> 00:49:41,520  
one and the ones that youtube

1410  
00:49:45,190 --> 00:49:43,280  
automatically recommends you are the

1411  
00:49:48,710 --> 00:49:45,200  
ones you can never find again i've

1412  
00:49:51,510 --> 00:49:48,720  
watched plenty of these montages of

1413  
00:49:54,150 --> 00:49:51,520

nasa filmed footage of ufos etc fleets

1414

00:49:56,150 --> 00:49:54,160

of ufos in space and i couldn't find any

1415

00:49:58,790 --> 00:49:56,160

of the ones i wanted and dan struggled

1416

00:50:00,150 --> 00:49:58,800

as well um because they all seem to be

1417

00:50:02,630 --> 00:50:00,160

replaced

1418

00:50:04,230 --> 00:50:02,640

and this is frustrating but and maybe in

1419

00:50:05,750 --> 00:50:04,240

a good way as well there was a lot of

1420

00:50:08,470 --> 00:50:05,760

videos of the

1421

00:50:10,790 --> 00:50:08,480

the us military ones the nimitz

1422

00:50:12,549 --> 00:50:10,800

princeton the go gimbal go fast the

1423

00:50:14,230 --> 00:50:12,559

carbel footage was there whether people

1424

00:50:15,750 --> 00:50:14,240

are happy with that or not

1425

00:50:16,950 --> 00:50:15,760

there was a lot of the newer stuff so i

1426

00:50:18,790 --> 00:50:16,960

think that at least shows from the

1427

00:50:21,349 --> 00:50:18,800

youtube algorithms that people are

1428

00:50:23,349 --> 00:50:21,359

engaging with the newer stuff yeah and

1429

00:50:25,829 --> 00:50:23,359

the searches were quite loose terms as

1430

00:50:28,069 --> 00:50:25,839

well it was like ufo space you know

1431

00:50:30,069 --> 00:50:28,079

astronaut and that was it and no third

1432

00:50:33,030 --> 00:50:30,079

phase of the moon popped up and that's

1433

00:50:35,190 --> 00:50:33,040

a delightful improvement absolutely so

1434

00:50:37,670 --> 00:50:35,200

i'm going to add the next one in because

1435

00:50:39,190 --> 00:50:37,680

we wanted to talk about this this is a

1436

00:50:42,230 --> 00:50:39,200

probably quite a famous piece of footage

1437

00:50:44,230 --> 00:50:42,240

now and it's you've probably seen

1438

00:50:46,309 --> 00:50:44,240

potentially this already so this is a

1439

00:50:47,990 --> 00:50:46,319

shot of the earth from space you know i

1440

00:50:50,230 --> 00:50:48,000

don't have to tell you that much

1441

00:50:51,910 --> 00:50:50,240

but what you'll see are some objects

1442

00:50:55,750 --> 00:50:51,920

coming into view

1443

00:50:57,430 --> 00:50:55,760

and then moving and changing direction

1444

00:50:59,589 --> 00:50:57,440

now there's a whole lot going on here

1445

00:51:01,829 --> 00:50:59,599

dan but i was talking to you beforehand

1446

00:51:03,829 --> 00:51:01,839

wasn't uh where these objects come into

1447

00:51:05,349 --> 00:51:03,839

view and you normally expect satellites

1448

00:51:08,069 --> 00:51:05,359

and whatnot to

1449

00:51:09,750 --> 00:51:08,079

fly along and go one direction which is

1450

00:51:11,750 --> 00:51:09,760

a lot of stuff that just seems to move

1451

00:51:14,069 --> 00:51:11,760

in one direction however

1452

00:51:16,630 --> 00:51:14,079

here we seem to get a flash of light

1453

00:51:18,630 --> 00:51:16,640

and then the object shoots off a pace

1454

00:51:20,390 --> 00:51:18,640

which we'll see just here

1455

00:51:21,510 --> 00:51:20,400

um has been has been circled within the

1456

00:51:23,510 --> 00:51:21,520

footage

1457

00:51:25,349 --> 00:51:23,520

you normally would not expect a

1458

00:51:27,670 --> 00:51:25,359

satellite to do that but you said

1459

00:51:28,870 --> 00:51:27,680

otherwise to me dan didn't you

1460

00:51:31,109 --> 00:51:28,880

yeah i mean

1461

00:51:31,910 --> 00:51:31,119

the thing is that's a fast speed

1462

00:51:34,470 --> 00:51:31,920

so

1463

00:51:36,230 --> 00:51:34,480

those satellites can maneuver you know

1464

00:51:38,549 --> 00:51:36,240

they kind of have a thrusters and things

1465

00:51:40,710 --> 00:51:38,559

like that that they can just

1466

00:51:41,670 --> 00:51:40,720

go left instead of right and so on so

1467

00:51:44,069 --> 00:51:41,680

forth

1468

00:51:47,270 --> 00:51:44,079

you you generally wouldn't see them move

1469

00:51:49,430 --> 00:51:47,280

that quickly uh that that's astoundingly

1470

00:51:52,069 --> 00:51:49,440

fast you know we we have we you can see

1471

00:51:54,549 --> 00:51:52,079

the curvature of the earth there yeah um

1472

00:51:56,470 --> 00:51:54,559

that's a large area that's a site i mean

1473

00:51:59,430 --> 00:51:56,480

if that is a ship that's a sizable ship

1474

00:52:01,349 --> 00:51:59,440

as well um

1475

00:52:02,470 --> 00:52:01,359

and yeah it just it holds ass quite

1476

00:52:04,150 --> 00:52:02,480

frankly

1477

00:52:06,790 --> 00:52:04,160

yeah and they shoot off like and there's

1478

00:52:09,270 --> 00:52:06,800

the the flash just beforehand as well

1479

00:52:12,150 --> 00:52:09,280

and then of course you see the object

1480

00:52:13,349 --> 00:52:12,160

belt off at an incredible speed

1481

00:52:15,430 --> 00:52:13,359

what are your thoughts and then if you

1482

00:52:17,349 --> 00:52:15,440

had to again go on the fence on this one

1483

00:52:19,990 --> 00:52:17,359

is that something anomalous shooting off

1484

00:52:23,190 --> 00:52:20,000

into space i'm i'm going to go not on

1485

00:52:25,670 --> 00:52:23,200

the fence with this one i'm going to go

1486

00:52:27,750 --> 00:52:25,680

if i wanted to kind of

1487

00:52:29,589 --> 00:52:27,760

indulge and kind of say okay what are we

1488

00:52:30,870 --> 00:52:29,599

looking at here let's you know that's a

1489

00:52:33,109 --> 00:52:30,880

ufo it

1490

00:52:34,549 --> 00:52:33,119

moves at a crazy speed we we don't have

1491

00:52:36,309 --> 00:52:34,559

anything in space that can change

1492

00:52:38,069 --> 00:52:36,319

direction that fast

1493

00:52:40,549 --> 00:52:38,079

um

1494

00:52:41,990 --> 00:52:40,559

it looks to me like the ufo comes in is

1495

00:52:46,150 --> 00:52:42,000

detected

1496

00:52:48,309 --> 00:52:46,160

something is fired and then it avoids

1497

00:52:50,150 --> 00:52:48,319

and that's kind of the the

1498

00:52:51,990 --> 00:52:50,160

more out there theory of this right is

1499

00:52:53,670 --> 00:52:52,000

that that's what's filmed

1500

00:52:55,270 --> 00:52:53,680

and do you think there's that chance

1501  
00:52:57,430 --> 00:52:55,280  
that we do already have some sort of

1502  
00:52:58,630 --> 00:52:57,440  
defense system set up against some of

1503  
00:53:00,549 --> 00:52:58,640  
these objects

1504  
00:53:02,390 --> 00:53:00,559  
i'd be very surprised if we didn't

1505  
00:53:04,630 --> 00:53:02,400  
because even

1506  
00:53:06,309 --> 00:53:04,640  
a rudimentary defense you know we don't

1507  
00:53:08,790 --> 00:53:06,319  
need these full-blown force field from

1508  
00:53:11,510 --> 00:53:08,800  
star trek to mount a defense we we've

1509  
00:53:14,470 --> 00:53:11,520  
heard the um i forget the gentleman's

1510  
00:53:17,109 --> 00:53:14,480  
name in unidentified spoke about

1511  
00:53:19,670 --> 00:53:17,119  
being able to use depleted uh plutonium

1512  
00:53:21,910 --> 00:53:19,680  
shells to to hit them out of the sky

1513  
00:53:23,109 --> 00:53:21,920

um yeah from the italian conference yeah

1514

00:53:25,750 --> 00:53:23,119

that's right

1515

00:53:27,670 --> 00:53:25,760

there's no way if if those guys know

1516

00:53:30,710 --> 00:53:27,680

that and they don't have access to all

1517

00:53:32,470 --> 00:53:30,720

these like amazing technologies over the

1518

00:53:34,309 --> 00:53:32,480

decades since you know this kind of

1519

00:53:37,190 --> 00:53:34,319

phenomenon has been

1520

00:53:40,390 --> 00:53:37,200

more widely spoken about um

1521

00:53:42,790 --> 00:53:40,400

then yeah i would expect some kind of

1522

00:53:46,390 --> 00:53:42,800

space fence or you know something like

1523

00:53:47,750 --> 00:53:46,400

that to sense and hit them away whatever

1524

00:53:49,750 --> 00:53:47,760

they're using

1525

00:53:51,510 --> 00:53:49,760

dan just time for one more quick

1526

00:53:53,829 --> 00:53:51,520

question before we finish up from

1527

00:53:55,109 --> 00:53:53,839

genocis who's one of the patreons and if

1528

00:53:57,109 --> 00:53:55,119

you sign up to the patreon you get

1529

00:53:58,950 --> 00:53:57,119

access to the discord server where

1530

00:54:01,349 --> 00:53:58,960

gnosis is always in there in the various

1531

00:54:02,870 --> 00:54:01,359

different threads as well um from your

1532

00:54:04,790 --> 00:54:02,880

last roundup you spoke a lot of

1533

00:54:06,790 --> 00:54:04,800

celebrities going into space and

1534

00:54:09,190 --> 00:54:06,800

eventually joe public and this being the

1535

00:54:11,670 --> 00:54:09,200

reason to start a soft disclosure as

1536

00:54:14,549 --> 00:54:11,680

they would all spot ufos but between all

1537

00:54:16,069 --> 00:54:14,559

the crews of the mir and iss we really

1538

00:54:17,750 --> 00:54:16,079

have very little coming from the

1539

00:54:19,829 --> 00:54:17,760

astronaut community

1540

00:54:23,030 --> 00:54:19,839

taking out edgar mitchell as this

1541

00:54:24,950 --> 00:54:23,040

because of nda's personal sense thing or

1542

00:54:26,950 --> 00:54:24,960

are they just not seeing these things

1543

00:54:28,950 --> 00:54:26,960

coming from space

1544

00:54:30,549 --> 00:54:28,960

well you've got to remember that every

1545

00:54:33,030 --> 00:54:30,559

second you're in space it's trying to

1546

00:54:35,990 --> 00:54:33,040

kill you right it's not an environment

1547

00:54:37,910 --> 00:54:36,000

that anyone can survive in naturally so

1548

00:54:39,990 --> 00:54:37,920

anyone that's up there except for when

1549

00:54:42,470 --> 00:54:40,000

they're sleeping they probably have some

1550

00:54:45,030 --> 00:54:42,480

very very vital jobs that keep everyone

1551  
00:54:46,870 --> 00:54:45,040  
alive so in terms of how often they get

1552  
00:54:48,789 --> 00:54:46,880  
to just go and you know stargaze out of

1553  
00:54:50,390 --> 00:54:48,799  
the window i can't imagine it's that

1554  
00:54:52,069 --> 00:54:50,400  
often um

1555  
00:54:54,710 --> 00:54:52,079  
you know they do have cameras up there

1556  
00:54:56,710 --> 00:54:54,720  
and they are directed to take pictures

1557  
00:54:58,789 --> 00:54:56,720  
um and things like that but it would be

1558  
00:55:01,670 --> 00:54:58,799  
of specific things you know they're not

1559  
00:55:03,109 --> 00:55:01,680  
just like if you and i were on the space

1560  
00:55:05,109 --> 00:55:03,119  
station we would just sit by the window

1561  
00:55:06,390 --> 00:55:05,119  
right just staring out the whole time um

1562  
00:55:08,309 --> 00:55:06,400  
that's where we'd have our meals that's

1563  
00:55:10,309 --> 00:55:08,319

where we'd sleep but they they don't get

1564

00:55:12,150 --> 00:55:10,319

to do that unfortunately i've got a

1565

00:55:13,910 --> 00:55:12,160

phobia of heights i would be there

1566

00:55:15,589 --> 00:55:13,920

rocking back and forward or just

1567

00:55:17,109 --> 00:55:15,599

floating in mid-air back and forward

1568

00:55:19,829 --> 00:55:17,119

crying my tears

1569

00:55:21,750 --> 00:55:19,839

as they float up to the ceiling and the

1570

00:55:23,430 --> 00:55:21,760

idea that when you're up there it feels

1571

00:55:25,349 --> 00:55:23,440

like falling all the time as well it

1572

00:55:27,030 --> 00:55:25,359

would just yeah

1573

00:55:28,470 --> 00:55:27,040

yeah listen um

1574

00:55:30,069 --> 00:55:28,480

folks we had some more footage that we

1575

00:55:32,150 --> 00:55:30,079
