GRAEME RENDALL

1
00:00:00,000 --> 00:00:05,510

[Music]

2
00:00:08,710 --> 00:00:06,789

there's a whole fleet of them look on

3
00:00:10,950 --> 00:00:08,720

the assay

4
00:00:14,310 --> 00:00:10,960

oh my gosh they're all going against the

5
00:00:18,950 --> 00:00:16,390

it was basically a cube with inside of

6
00:00:23,940 --> 00:00:18,960

sphere where the points of the cube

7
00:00:37,110 --> 00:00:33,200

[Music]

8
00:00:38,709 --> 00:00:37,120

[Applause]

9
00:00:40,950 --> 00:00:38,719

so this isn't anything that just is

10
00:00:48,950 --> 00:00:40,960

limited to the united states it's a

11
00:00:54,150 --> 00:00:51,430

hi everyone and welcome to that ufo

12
00:00:55,750 --> 00:00:54,160

podcast my name is andy and very much

13
00:00:57,110 --> 00:00:55,760

looking forward to introducing this

14

00:00:59,430 --> 00:00:57,120

week's guest

15

00:01:02,549 --> 00:00:59,440

as you all know it's been long overdue i

16

00:01:04,869 --> 00:01:02,559

have author researcher my uap media

17

00:01:06,789 --> 00:01:04,879

colleague and of course friend mr graham

18

00:01:08,070 --> 00:01:06,799

rendell joining me graham long time no

19

00:01:10,630 --> 00:01:08,080

speak

20

00:01:13,109 --> 00:01:10,640

yeah andy just a few days ago wasn't it

21

00:01:16,070 --> 00:01:13,119

uh it seems just like that it seems just

22

00:01:18,310 --> 00:01:16,080

a few days ago uh graham recently we got

23

00:01:19,990 --> 00:01:18,320

to meet face to face for the second time

24

00:01:21,830 --> 00:01:20,000

uh we're actually the only people from

25

00:01:25,190 --> 00:01:21,840

uap media that have met well actually

26

00:01:26,550 --> 00:01:25,200

dan and dave once met um for a catch-up

27

00:01:28,469 --> 00:01:26,560

which was nice but we're all going to be

28

00:01:30,149 --> 00:01:28,479

meeting up in a couple of weeks for a

29

00:01:32,230 --> 00:01:30,159

little get-together in london which i'm

30

00:01:34,069 --> 00:01:32,240

very much looking forward to but we've

31

00:01:35,830 --> 00:01:34,079

shared a coffee and we've also shared a

32

00:01:36,950 --> 00:01:35,840

road trip now haven't we we went to

33

00:01:39,030 --> 00:01:36,960

preston

34

00:01:41,749 --> 00:01:39,040

for the ufo minicon which was a pretty

35

00:01:43,429 --> 00:01:41,759

enjoyable it was yeah it was a great day

36

00:01:45,190 --> 00:01:43,439

but it was also a good opportunity to

37

00:01:47,270 --> 00:01:45,200

have a good chat on the way down and on

38

00:01:49,270 --> 00:01:47,280

the way back so yeah it was it was a

39

00:01:50,870 --> 00:01:49,280

worthwhile day all around and it was

40

00:01:53,590 --> 00:01:50,880

nice to meet some of the listeners as

41

00:01:55,590 --> 00:01:53,600

well nick as we drove up and got out the

42

00:01:58,149 --> 00:01:55,600

car had one of dan's t-shirts on which

43

00:02:01,510 --> 00:01:58,159

was extremely surreal to see it in the

44

00:02:03,590 --> 00:02:01,520

flesh and and not virtually uh we talked

45

00:02:05,590 --> 00:02:03,600

to frank from the ufo thinker podcast

46

00:02:07,429 --> 00:02:05,600

barry was there dave was there and i

47

00:02:09,669 --> 00:02:07,439

hope i've not missed anyone else so ash

48

00:02:11,750 --> 00:02:09,679

of course abigail who put on the the

49

00:02:13,030 --> 00:02:11,760

event and it was a lot of fun so i

50

00:02:14,630 --> 00:02:13,040

really enjoyed that and look forward to

51
00:02:16,630 --> 00:02:14,640
kind of getting to more of those and

52
00:02:18,710 --> 00:02:16,640
getting to meet more people and the

53
00:02:21,030 --> 00:02:18,720
hopefully not too distant future and

54
00:02:23,270 --> 00:02:21,040
maybe eventually getting across the pond

55
00:02:24,869 --> 00:02:23,280
as well to the states that would be that

56
00:02:26,309 --> 00:02:24,879
would be pretty cool to do that one day

57
00:02:28,710 --> 00:02:26,319
as well wouldn't it

58
00:02:30,070 --> 00:02:28,720
it certainly would yeah uh i really look

59
00:02:31,190 --> 00:02:30,080
forward to the time where we can do that

60
00:02:32,869 --> 00:02:31,200
kind of thing

61
00:02:34,790 --> 00:02:32,879
well if enough people buy your book

62
00:02:36,390 --> 00:02:34,800
you'll be able to afford flights over

63
00:02:39,270 --> 00:02:36,400

graham and we're going to be talking

64

00:02:42,309 --> 00:02:39,280

about your book which is ufos before

65

00:02:43,910 --> 00:02:42,319

roswell european foo fighters 1948 and

66

00:02:45,670 --> 00:02:43,920

1945

67

00:02:47,589 --> 00:02:45,680

people will not believe i didn't plan

68

00:02:49,670 --> 00:02:47,599

that graham but there you go uh it's

69

00:02:51,190 --> 00:02:49,680

just just skill i think

70

00:02:53,750 --> 00:02:51,200

and graham rendell is of course the

71

00:02:56,710 --> 00:02:53,760

author forward by the wonderful mr sean

72

00:02:58,869 --> 00:02:56,720

cahill and for anyone listening yes sean

73

00:03:01,589 --> 00:02:58,879

cahill is the artist who records the

74

00:03:02,949 --> 00:03:01,599

outro to the podcast so that funky tune

75

00:03:05,030 --> 00:03:02,959

everyone gets in touch with me

76

00:03:07,270 --> 00:03:05,040

constantly throughout the week as uh

77

00:03:09,350 --> 00:03:07,280

sean cahill slash minty hyperspace and

78

00:03:11,750 --> 00:03:09,360

it's called goblin problems i should

79

00:03:13,910 --> 00:03:11,760

probably fit that one in just now and uh

80

00:03:16,309 --> 00:03:13,920

i would love for sean to one day do an

81

00:03:18,390 --> 00:03:16,319

acoustic version or a live performance

82

00:03:20,630 --> 00:03:18,400

on the podcast that would be pretty good

83

00:03:23,270 --> 00:03:20,640

but listen graeme this show is all about

84

00:03:25,110 --> 00:03:23,280

and all for you and i want to find out a

85

00:03:26,550 --> 00:03:25,120

little bit about you the man behind the

86

00:03:28,550 --> 00:03:26,560

book obviously so can you tell the

87

00:03:30,949 --> 00:03:28,560

listeners graham a little bit about your

88

00:03:33,110 --> 00:03:30,959

background and do you know what what's

89

00:03:34,309 --> 00:03:33,120

brought you to writing books about ufos

90

00:03:36,229 --> 00:03:34,319

and also we're going to talk a little

91

00:03:38,070 --> 00:03:36,239

bit about some of the fascinating places

92

00:03:40,309 --> 00:03:38,080

you've traveled to

93

00:03:42,070 --> 00:03:40,319

okay so from an early age about four or

94

00:03:44,390 --> 00:03:42,080

five years old my mom started buying me

95

00:03:45,750 --> 00:03:44,400

airfix kits of model aircraft basically

96

00:03:46,470 --> 00:03:45,760

keep me quiet just keep me out of the

97

00:03:48,630 --> 00:03:46,480

way

98

00:03:50,229 --> 00:03:48,640

um now those air those models had little

99

00:03:51,509 --> 00:03:50,239

pocket histories of the aircraft that

100

00:03:53,110 --> 00:03:51,519

you were building so it was like a

101
00:03:54,869 --> 00:03:53,120
little history a couple of paragraphs

102
00:03:57,830 --> 00:03:54,879
only but that got was enough to get my

103
00:03:59,270 --> 00:03:57,840
interest in aircraft started and after

104
00:04:00,789 --> 00:03:59,280
that i just wanted to read everything i

105
00:04:02,470 --> 00:04:00,799
could find so that was books you know

106
00:04:03,910 --> 00:04:02,480
magazines all the rest of it go in the

107
00:04:05,910 --> 00:04:03,920
library getting them for christmas uh

108
00:04:07,750 --> 00:04:05,920
presents and birthday presents so i just

109
00:04:10,070 --> 00:04:07,760
built up a big library and a lot of

110
00:04:11,990 --> 00:04:10,080
information about airplanes that took me

111
00:04:13,990 --> 00:04:12,000
into the war as well because my mother

112
00:04:15,509 --> 00:04:14,000
and my father had lived through it and i

113
00:04:17,670 --> 00:04:15,519

was regaled with tales of you know

114

00:04:19,990 --> 00:04:17,680

bombing raids and all this kind of thing

115

00:04:21,830 --> 00:04:20,000

so my interest kick started in the war

116

00:04:23,430 --> 00:04:21,840

that way as well and then i was

117

00:04:25,189 --> 00:04:23,440

interested in science fiction from about

118

00:04:27,990 --> 00:04:25,199

maybe i don't know seven eight eight

119

00:04:29,430 --> 00:04:28,000

nine years old um and mastered a library

120

00:04:31,189 --> 00:04:29,440

of science fiction books which had nice

121

00:04:32,629 --> 00:04:31,199

pictures of spacecraft on the front and

122

00:04:34,310 --> 00:04:32,639

my mum thought she was doing me a favor

123

00:04:35,909 --> 00:04:34,320

one day and she bought me a book which

124

00:04:37,030 --> 00:04:35,919

had a flying saucer on the front of it

125

00:04:39,030 --> 00:04:37,040

she thought was another one of these

126

00:04:40,550 --> 00:04:39,040

eyes like asm of novels which i was

127

00:04:43,270 --> 00:04:40,560

reading um

128

00:04:45,110 --> 00:04:43,280

at that time it wasn't it was a book by

129

00:04:47,590 --> 00:04:45,120

uh brinsley of polar trench it was

130

00:04:50,310 --> 00:04:47,600

mysterious visitors and it was a ufo

131

00:04:52,710 --> 00:04:50,320

book and that's how my interest in ufos

132

00:04:55,270 --> 00:04:52,720

start because because that's that really

133

00:04:56,870 --> 00:04:55,280

really fired up my imagination onto

134

00:04:58,150 --> 00:04:56,880

things that could be

135

00:05:00,070 --> 00:04:58,160

you know all the things i was reading

136

00:05:02,390 --> 00:05:00,080

about in science fiction novels seemed

137

00:05:04,310 --> 00:05:02,400

to be actually true you know spacecraft

138

00:05:06,230 --> 00:05:04,320

from other worlds aliens all that kind

139

00:05:08,469 --> 00:05:06,240

of thing so it was a yeah it was it was

140

00:05:09,909 --> 00:05:08,479

it was a revelation really it and

141

00:05:11,189 --> 00:05:09,919

something that's never really left me to

142

00:05:13,430 --> 00:05:11,199

this day

143

00:05:15,270 --> 00:05:13,440

and you've grown up in a time then where

144

00:05:17,029 --> 00:05:15,280

science fiction is becoming extremely

145

00:05:18,870 --> 00:05:17,039

popular that was a bit of a boom period

146

00:05:20,870 --> 00:05:18,880

we're looking i don't want to get your

147

00:05:23,749 --> 00:05:20,880

age badly wrong here graham but we're

148

00:05:26,390 --> 00:05:23,759

late 60s early 70s we had the star trek

149

00:05:27,909 --> 00:05:26,400

series was big and a lot of other huge

150

00:05:29,990 --> 00:05:27,919

sci-fi shows that would have of course

151

00:05:31,909 --> 00:05:30,000

still been on television going forward

152

00:05:33,189 --> 00:05:31,919

the books the magazines and all that

153

00:05:34,710 --> 00:05:33,199

stuff that would have been around that

154

00:05:37,510 --> 00:05:34,720

so you can see where that interest has

155

00:05:39,590 --> 00:05:37,520

come from but growing up you you managed

156

00:05:41,350 --> 00:05:39,600

to get to some fascinating places and

157

00:05:43,270 --> 00:05:41,360

your your first book that was published

158

00:05:45,029 --> 00:05:43,280

earlier on this year was all about

159

00:05:46,550 --> 00:05:45,039

siberia and it was quite a niche book

160

00:05:47,990 --> 00:05:46,560

which we discussed obviously on our

161

00:05:49,830 --> 00:05:48,000

travels you want to tell the listeners a

162

00:05:52,629 --> 00:05:49,840

little bit about that

163

00:05:55,110 --> 00:05:52,639

yeah um at the end of 1991 i actually

164

00:05:57,189 --> 00:05:55,120

had the chance to uh sign up for a trip

165

00:06:00,070 --> 00:05:57,199

around northeastern siberia in the

166

00:06:01,830 --> 00:06:00,080

summer of 1992. so at the end of june

167

00:06:03,990 --> 00:06:01,840

that year i traveled out with about

168

00:06:05,670 --> 00:06:04,000

another sort of 30 or 40 people who had

169

00:06:08,150 --> 00:06:05,680

signed up for this venture and we all

170

00:06:10,070 --> 00:06:08,160

had the money pooled so we could hire

171

00:06:12,070 --> 00:06:10,080

what was actually an iceberg spotting

172

00:06:14,390 --> 00:06:12,080

aircraft that had been used by polar

173

00:06:16,950 --> 00:06:14,400

aviation of aeroflot

174

00:06:19,189 --> 00:06:16,960

and we went round a lot of northeastern

175

00:06:21,029 --> 00:06:19,199

siberian airfields we had to leave that

176
00:06:22,950 --> 00:06:21,039
aircraft at another base because it was

177
00:06:25,510 --> 00:06:22,960
too big to get into some of these little

178
00:06:26,790 --> 00:06:25,520
gravel fields that we were flying into

179
00:06:27,990 --> 00:06:26,800
and you had like you know the gravel

180
00:06:29,670 --> 00:06:28,000
from the strip was bouncing off the

181
00:06:30,870 --> 00:06:29,680
propeller blades and all that kind of

182
00:06:32,629 --> 00:06:30,880
things were flying into these little

183
00:06:34,150 --> 00:06:32,639
strips and this was actually right up

184
00:06:35,510 --> 00:06:34,160
near the arctic coast it was only about

185
00:06:37,909 --> 00:06:35,520
an hour's maybe an hour and a half

186
00:06:40,150 --> 00:06:37,919
flying time from from alaska so it was a

187
00:06:41,830 --> 00:06:40,160
really remote part of the world uh we

188
00:06:43,590 --> 00:06:41,840

were flying over polar bears which

189

00:06:46,230 --> 00:06:43,600

looked like big dirty sheep you know

190

00:06:47,749 --> 00:06:46,240

that kind of thing so it was uh it was a

191

00:06:49,029 --> 00:06:47,759

very very strange time of course this

192

00:06:51,110 --> 00:06:49,039

was only six months after the fall of

193

00:06:52,150 --> 00:06:51,120

the soviet union so it was a weird time

194

00:06:54,550 --> 00:06:52,160

in terms of

195

00:06:56,710 --> 00:06:54,560

what they what they would let us do um

196

00:06:59,350 --> 00:06:56,720

so we got into some really kind of odd

197

00:07:00,950 --> 00:06:59,360

places which westerners just hadn't got

198

00:07:02,150 --> 00:07:00,960

here before and we're probably the one

199

00:07:03,909 --> 00:07:02,160

the last bill i've got there as well

200

00:07:05,830 --> 00:07:03,919

because no nobody else as far as i'm

201
00:07:07,830 --> 00:07:05,840
aware visited the places that we

202
00:07:10,150 --> 00:07:07,840
actually got to so that book that i

203
00:07:12,710 --> 00:07:10,160
wrote is a kind of travelogue it's not

204
00:07:14,070 --> 00:07:12,720
just for aircraft enthusiasts it's a

205
00:07:15,350 --> 00:07:14,080
real book about you know traveling to

206
00:07:17,670 --> 00:07:15,360
one of the last wildernesses on the

207
00:07:19,510 --> 00:07:17,680
planet so yeah it's um i like to think

208
00:07:21,270 --> 00:07:19,520
it's a really good read but it covers a

209
00:07:23,189 --> 00:07:21,280
couple of bases so people are interested

210
00:07:24,309 --> 00:07:23,199
in russian aircraft and the soviet union

211
00:07:25,430 --> 00:07:24,319
there's something for them in there as

212
00:07:27,029 --> 00:07:25,440
well

213
00:07:29,589 --> 00:07:27,039

and that book is to the ends of the

214

00:07:31,270 --> 00:07:29,599

earth have i remembered that correctly

215

00:07:32,629 --> 00:07:31,280

that's right yes

216

00:07:33,990 --> 00:07:32,639

excellent i've not got that written down

217

00:07:36,230 --> 00:07:34,000

in front of me right off the top of my

218

00:07:37,830 --> 00:07:36,240

head there graham now yeah again if you

219

00:07:39,589 --> 00:07:37,840

people want to check that one out it's

220

00:07:41,029 --> 00:07:39,599

very niche but fascinating place some

221

00:07:42,790 --> 00:07:41,039

really interesting pictures in there as

222

00:07:44,469 --> 00:07:42,800

well i love everyone likes a picture

223

00:07:46,390 --> 00:07:44,479

book to flick through too so there's

224

00:07:48,390 --> 00:07:46,400

some pretty cool images in there as well

225

00:07:50,070 --> 00:07:48,400

but graeme that's then brought you to

226

00:07:52,469 --> 00:07:50,080

you've written that book you've also got

227

00:07:54,469 --> 00:07:52,479

a test for it and you're a very

228

00:07:55,670 --> 00:07:54,479

very good is very capable offer the

229

00:07:57,990 --> 00:07:55,680

right way to say it because i've never

230

00:07:59,589 --> 00:07:58,000

written a book but you write very well

231

00:08:01,589 --> 00:07:59,599

and you've not had anyone write it for

232

00:08:03,189 --> 00:08:01,599

you you've then gone on to very quickly

233

00:08:05,510 --> 00:08:03,199

write another book which of course is

234

00:08:08,390 --> 00:08:05,520

what we discussed before ufos before

235

00:08:10,150 --> 00:08:08,400

roswell european foo fighters 1940 to

236

00:08:12,790 --> 00:08:10,160

1945.

237

00:08:14,790 --> 00:08:12,800

what brought you to then move on from

238

00:08:18,710 --> 00:08:14,800

writing about northeastern siberian

239

00:08:20,629 --> 00:08:18,720

airfields to ufos in the 1940s

240

00:08:21,909 --> 00:08:20,639

as we said before i grew up in a time

241

00:08:23,189 --> 00:08:21,919

when um

242

00:08:25,270 --> 00:08:23,199

science fiction was quite on the

243

00:08:27,270 --> 00:08:25,280

ascendant but also ufo books were as

244

00:08:29,189 --> 00:08:27,280

well so you had a kind of golden age in

245

00:08:30,790 --> 00:08:29,199

this in the 50s and 60s where people

246

00:08:32,790 --> 00:08:30,800

were just getting into kind of writing

247

00:08:35,029 --> 00:08:32,800

about ufos but things have settled down

248

00:08:36,870 --> 00:08:35,039

by the 70s and 80s and you were seeing a

249

00:08:38,709 --> 00:08:36,880

kind of chronology of

250

00:08:41,029 --> 00:08:38,719

events that were happening so you'd get

251
00:08:42,949 --> 00:08:41,039
the mystery airships in the 1890s you

252
00:08:45,350 --> 00:08:42,959
have them the ghost aircraft from the

253
00:08:46,790 --> 00:08:45,360
20s and 30s but then would be this gap

254
00:08:48,790 --> 00:08:46,800
of the second world war and it would

255
00:08:51,509 --> 00:08:48,800
just leap straight across to the ghost

256
00:08:53,829 --> 00:08:51,519
rockets of 1946 and then to kenneth

257
00:08:56,949 --> 00:08:53,839
arnold and roswell in 1947 and there was

258
00:08:58,150 --> 00:08:56,959
this kind of six year gap from 39 to 45

259
00:08:59,990 --> 00:08:58,160
and of course that was a period of time

260
00:09:01,430 --> 00:09:00,000
i was really interested in given the

261
00:09:03,750 --> 00:09:01,440
fact that i was interested in both

262
00:09:05,430 --> 00:09:03,760
aviation and world war ii so

263
00:09:07,190 --> 00:09:05,440

you just kind of thought well

264

00:09:08,949 --> 00:09:07,200

why is this why is this gap why are

265

00:09:10,550 --> 00:09:08,959

there no reports from there actually it

266

00:09:12,949 --> 00:09:10,560

turned out there were it was only a

267

00:09:14,710 --> 00:09:12,959

handful and they were based on a one

268

00:09:17,430 --> 00:09:14,720

particular magazine article from

269

00:09:19,750 --> 00:09:17,440

december 1945 where it had half a dozen

270

00:09:21,509 --> 00:09:19,760

reports from a u.s night fighter

271

00:09:24,150 --> 00:09:21,519

squadron based in france in over the

272

00:09:26,710 --> 00:09:24,160

winter of 44 45 plus a couple of reports

273

00:09:29,269 --> 00:09:26,720

from the pacific and one from a daylight

274

00:09:32,070 --> 00:09:29,279

um raid over germany in about i think it

275

00:09:34,230 --> 00:09:32,080

was 194 early 1945. and those nine

276

00:09:36,550 --> 00:09:34,240

reports were basically all people had to

277

00:09:37,990 --> 00:09:36,560

go on for about 50 years

278

00:09:39,990 --> 00:09:38,000

with the exception of a couple of other

279

00:09:41,990 --> 00:09:40,000

reports which came out of the woodwork

280

00:09:44,230 --> 00:09:42,000

and appeared in in

281

00:09:45,269 --> 00:09:44,240

books from by tim good and a few other

282

00:09:47,110 --> 00:09:45,279

authors

283

00:09:49,190 --> 00:09:47,120

and also if you looked at a few kind of

284

00:09:51,030 --> 00:09:49,200

niche publications like flying saucer

285

00:09:53,030 --> 00:09:51,040

review and a couple from the states

286

00:09:55,509 --> 00:09:53,040

there were a few other stories but they

287

00:09:57,590 --> 00:09:55,519

weren't widespread at all but so those

288

00:09:59,509 --> 00:09:57,600

like really small number of cases

289

00:10:01,030 --> 00:09:59,519

represented the entire foo fighters kind

290

00:10:03,190 --> 00:10:01,040

of phenomenon

291

00:10:05,350 --> 00:10:03,200

and i thought well come on that it can't

292

00:10:08,069 --> 00:10:05,360

just be that you know if you look across

293

00:10:09,670 --> 00:10:08,079

the last 70 years the ufo kind of

294

00:10:11,670 --> 00:10:09,680

phenomena has been really widespread

295

00:10:13,590 --> 00:10:11,680

right across the planet and you know

296

00:10:16,150 --> 00:10:13,600

lots of reports every year and yet the

297

00:10:18,550 --> 00:10:16,160

wartime has only got what nine like 10

298

00:10:20,230 --> 00:10:18,560

reports it didn't make any sense

299

00:10:22,069 --> 00:10:20,240

so i thought there must be more to it

300

00:10:23,110 --> 00:10:22,079

than just that but for years i haven't

301

00:10:24,470 --> 00:10:23,120

really been in the position to do

302

00:10:26,310 --> 00:10:24,480

anything about it for work except for

303

00:10:28,550 --> 00:10:26,320

things like that just have another time

304

00:10:30,389 --> 00:10:28,560

um but at the start of the year or just

305

00:10:31,350 --> 00:10:30,399

before christmas i thought i thought

306

00:10:32,470 --> 00:10:31,360

yeah

307

00:10:34,150 --> 00:10:32,480

i might be able to try and find

308

00:10:36,550 --> 00:10:34,160

something here and i just set about

309

00:10:39,110 --> 00:10:36,560

trying to find some more cases beyond

310

00:10:41,509 --> 00:10:39,120

what was already in the public realm um

311

00:10:43,030 --> 00:10:41,519

and i just started finding things right

312

00:10:44,550 --> 00:10:43,040

really and that's where the germ of the

313

00:10:46,630 --> 00:10:44,560

book came from

314

00:10:49,750 --> 00:10:46,640

now before we get to talking about world

315

00:10:51,829 --> 00:10:49,760

war ii in 1940 to 1945

316

00:10:53,670 --> 00:10:51,839

was there anything reported during the

317

00:10:55,750 --> 00:10:53,680

previous world war

318

00:10:57,430 --> 00:10:55,760

yes there are the there was a buca i

319

00:10:59,590 --> 00:10:57,440

can't remember the title of it now but

320

00:11:01,350 --> 00:10:59,600

there is a book available and which does

321

00:11:03,590 --> 00:11:01,360

detail some of the weird things that

322

00:11:06,310 --> 00:11:03,600

were seen during the first world war um

323

00:11:08,710 --> 00:11:06,320

so there is uh and sean cahill actually

324

00:11:10,389 --> 00:11:08,720

mentioned this on on a podcast i was uh

325

00:11:12,470 --> 00:11:10,399

that he popped up on

326

00:11:13,990 --> 00:11:12,480

just this last weekend and he he

327

00:11:16,230 --> 00:11:14,000

believes there was a story of a

328

00:11:18,389 --> 00:11:16,240

tic-tac-shaped uh aircraft and a mother

329

00:11:20,949 --> 00:11:18,399

ship that was seen over

330

00:11:22,470 --> 00:11:20,959

over the battlefield in world war one so

331

00:11:24,069 --> 00:11:22,480

there are some interesting stories which

332

00:11:25,670 --> 00:11:24,079

have come out of there

333

00:11:27,430 --> 00:11:25,680

i'm not aware of them too much because

334

00:11:29,590 --> 00:11:27,440

that's not something i focused on but i

335

00:11:30,870 --> 00:11:29,600

am aware of the book itself and

336

00:11:32,630 --> 00:11:30,880

one day i hope to have a look at it and

337

00:11:34,389 --> 00:11:32,640

read it for myself just can't remember

338

00:11:36,310 --> 00:11:34,399

the title of it offhand

339

00:11:38,790 --> 00:11:36,320

graham you mentioned you're a child of

340

00:11:41,190 --> 00:11:38,800

that science fiction era you grew up in

341

00:11:43,990 --> 00:11:41,200

a real boom period for that particular

342

00:11:46,230 --> 00:11:44,000

genre but you people didn't necessarily

343

00:11:48,470 --> 00:11:46,240

have that sort of literature i'm going

344

00:11:51,269 --> 00:11:48,480

to quote yourself when we discussed this

345

00:11:53,030 --> 00:11:51,279

on kg ra that the lexicon at the time

346

00:11:55,590 --> 00:11:53,040

the language of the time we didn't

347

00:11:58,550 --> 00:11:55,600

really have flying saucers were people

348

00:12:01,590 --> 00:11:58,560

talking about aliens or or spaceships

349

00:12:03,110 --> 00:12:01,600

even back then in the 40s and before

350

00:12:04,949 --> 00:12:03,120

only a few people were but there wasn't

351
00:12:06,949 --> 00:12:04,959
many and it certainly wasn't widespread

352
00:12:08,949 --> 00:12:06,959
so the actual kind of um you know

353
00:12:10,550 --> 00:12:08,959
people's mindset was never towards

354
00:12:12,069 --> 00:12:10,560
things like that and of course when it

355
00:12:13,350 --> 00:12:12,079
came to the war when they were

356
00:12:14,949 --> 00:12:13,360
experiencing things that they couldn't

357
00:12:16,389 --> 00:12:14,959
understand that was the last thing on

358
00:12:19,110 --> 00:12:16,399
the mind in fact it wasn't even on their

359
00:12:21,430 --> 00:12:19,120
minds at all so everything was couched

360
00:12:23,190 --> 00:12:21,440
in the language of german secret weapons

361
00:12:25,110 --> 00:12:23,200
rather than aliens rather than flying

362
00:12:26,790 --> 00:12:25,120
sources rather than beings from another

363
00:12:28,629 --> 00:12:26,800

world all those things

364

00:12:30,389 --> 00:12:28,639

never ever featured if you look through

365

00:12:32,550 --> 00:12:30,399

the intelligence reports and all the

366

00:12:35,269 --> 00:12:32,560

other information from back then

367

00:12:36,470 --> 00:12:35,279

nothing is ever mentioned about the

368

00:12:39,670 --> 00:12:36,480

possibility of these being from

369

00:12:41,829 --> 00:12:39,680

somewhere else now you mentioned the you

370

00:12:43,990 --> 00:12:41,839

know german secret weaponry potentially

371

00:12:47,509 --> 00:12:44,000

at the point it was a time where the

372

00:12:49,590 --> 00:12:47,519

skies were filled with rockets bombs

373

00:12:51,509 --> 00:12:49,600

various flashes strange lights that

374

00:12:54,150 --> 00:12:51,519

people wouldn't have been used to seeing

375

00:12:56,069 --> 00:12:54,160

and a whole range of different aircraft

376

00:12:57,350 --> 00:12:56,079

from from various different countries

377

00:12:59,430 --> 00:12:57,360

throughout the world

378

00:13:01,269 --> 00:12:59,440

was it difficult at the time for people

379

00:13:03,190 --> 00:13:01,279

to spot something that was potentially

380

00:13:04,310 --> 00:13:03,200

anomalous and how have you come to

381

00:13:05,990 --> 00:13:04,320

picking those reports that have

382

00:13:07,269 --> 00:13:06,000

eventually ended up as cases in your

383

00:13:09,590 --> 00:13:07,279

book

384

00:13:10,870 --> 00:13:09,600

the the crews were very well trained so

385

00:13:12,470 --> 00:13:10,880

when they went through basic training

386

00:13:14,550 --> 00:13:12,480

they were giving a lot of ground

387

00:13:16,790 --> 00:13:14,560

lectures on the different types of enemy

388

00:13:19,030 --> 00:13:16,800

aircraft and also their own aircraft so

389

00:13:21,110 --> 00:13:19,040

they didn't shoot their own side down so

390

00:13:22,550 --> 00:13:21,120

you had hours and hours and hours of

391

00:13:24,629 --> 00:13:22,560

training before they would let them up

392

00:13:26,550 --> 00:13:24,639

in the air so that wasn't just pilots

393

00:13:28,470 --> 00:13:26,560

that would be navigators for gunners you

394

00:13:30,389 --> 00:13:28,480

know bombay knows everybody who went up

395

00:13:32,069 --> 00:13:30,399

in the air had at least you know the

396

00:13:33,509 --> 00:13:32,079

kind of modicum of training so they

397

00:13:35,190 --> 00:13:33,519

could spot what they were going to see

398

00:13:37,829 --> 00:13:35,200

up there so it didn't become like too

399

00:13:38,949 --> 00:13:37,839

much of a kind of of a new thing so they

400

00:13:40,870 --> 00:13:38,959

would know that know the difference

401
00:13:43,350 --> 00:13:40,880
between a spitfire or a measurement you

402
00:13:45,670 --> 00:13:43,360
know or a henkel or a dornier um and

403
00:13:47,350 --> 00:13:45,680
that was all just like you know kind of

404
00:13:48,949 --> 00:13:47,360
thrown at them all the time until the

405
00:13:50,949 --> 00:13:48,959
head you know until there is blood kind

406
00:13:52,870 --> 00:13:50,959
of thing so when they went up they were

407
00:13:54,150 --> 00:13:52,880
well prepared for what they would see

408
00:13:55,430 --> 00:13:54,160
and of course when you went to a

409
00:13:57,189 --> 00:13:55,440
squadron there was always people who won

410
00:13:58,870 --> 00:13:57,199
the squadron before you so you always

411
00:14:00,550 --> 00:13:58,880
got to know about what was going to be

412
00:14:02,310 --> 00:14:00,560
in there before you even got airborne

413
00:14:04,150 --> 00:14:02,320

because people talk to each other and

414

00:14:06,389 --> 00:14:04,160

you had intelligence briefings before

415

00:14:09,030 --> 00:14:06,399

you end up in the air anyway so you got

416

00:14:10,550 --> 00:14:09,040

an idea what to expect but as people did

417

00:14:12,389 --> 00:14:10,560

mission after mission providing the word

418

00:14:14,389 --> 00:14:12,399

shot down or killed

419

00:14:16,230 --> 00:14:14,399

then they actually got to know what was

420

00:14:18,230 --> 00:14:16,240

happening in any case so they could tell

421

00:14:20,470 --> 00:14:18,240

the difference between allied targeting

422

00:14:22,790 --> 00:14:20,480

flares which like the green yellow red

423

00:14:24,310 --> 00:14:22,800

blue lights that were dropped on targets

424

00:14:25,509 --> 00:14:24,320

to make sure that you know the bomb we

425

00:14:27,990 --> 00:14:25,519

were dropping our bombs in the right

426

00:14:30,150 --> 00:14:28,000

place the germans had decoy flares but

427

00:14:32,230 --> 00:14:30,160

they were much lower down and because of

428

00:14:34,389 --> 00:14:32,240

the delivery system they employed they

429

00:14:36,310 --> 00:14:34,399

also used things called fighter flares

430

00:14:38,230 --> 00:14:36,320

which were um dropped just above the

431

00:14:40,150 --> 00:14:38,240

cloud layer to silhouette the bombers

432

00:14:42,470 --> 00:14:40,160

for their own night fighters but they

433

00:14:44,550 --> 00:14:42,480

were known phenomenon so all these

434

00:14:46,710 --> 00:14:44,560

things they did actually know what they

435

00:14:47,990 --> 00:14:46,720

were and they are reported in the

436

00:14:49,910 --> 00:14:48,000

official information because you

437

00:14:51,990 --> 00:14:49,920

mentioned about how i found this

438

00:14:54,069 --> 00:14:52,000

information out so you can see all this

439

00:14:55,430 --> 00:14:54,079

information listed because the squadron

440

00:14:57,509 --> 00:14:55,440

reporting

441

00:15:00,310 --> 00:14:57,519

on the whole is pretty good however it

442

00:15:01,670 --> 00:15:00,320

can be patchy so on the best reports

443

00:15:03,670 --> 00:15:01,680

that some of the best squadrons where

444

00:15:05,829 --> 00:15:03,680

they have the most diligent staff in

445

00:15:07,829 --> 00:15:05,839

terms of recording what was going on for

446

00:15:09,829 --> 00:15:07,839

each mission for each aircraft you get a

447

00:15:11,269 --> 00:15:09,839

lot of information you don't just get

448

00:15:12,949 --> 00:15:11,279

that information about the stuff that

449

00:15:14,870 --> 00:15:12,959

they knew so about the time they dropped

450

00:15:16,230 --> 00:15:14,880

their bombs and how much uh kind of

451
00:15:18,949 --> 00:15:16,240
night fighter activity there was and

452
00:15:20,230 --> 00:15:18,959
flak activity and um you know the times

453
00:15:21,430 --> 00:15:20,240
that they took off from the land and all

454
00:15:23,030 --> 00:15:21,440
this kind of stuff

455
00:15:25,110 --> 00:15:23,040
then there's also information about this

456
00:15:26,790 --> 00:15:25,120
kind of weird thing so um kind of what

457
00:15:28,470 --> 00:15:26,800
they called rockets which would zigzag

458
00:15:29,350 --> 00:15:28,480
after the aircraft all these strange

459
00:15:30,629 --> 00:15:29,360
lights

460
00:15:32,870 --> 00:15:30,639
and some other things as well there's a

461
00:15:34,230 --> 00:15:32,880
whole gamut of like strange weird

462
00:15:36,470 --> 00:15:34,240
phenomenon that was listed in some of

463
00:15:38,949 --> 00:15:36,480

these really good reports but then other

464

00:15:40,949 --> 00:15:38,959

squadrons of course weren't so diligent

465

00:15:42,870 --> 00:15:40,959

in the reporting of the intelligence

466

00:15:45,030 --> 00:15:42,880

information in the official files so

467

00:15:46,710 --> 00:15:45,040

you'd get summaries for one raid rather

468

00:15:48,629 --> 00:15:46,720

than individual aircraft that

469

00:15:51,430 --> 00:15:48,639

participated and then in some of the

470

00:15:53,590 --> 00:15:51,440

other squadrons you get next to nothing

471

00:15:54,710 --> 00:15:53,600

so you wouldn't even get the luxury of

472

00:15:56,710 --> 00:15:54,720

reading through a summary of what

473

00:15:57,749 --> 00:15:56,720

happened for that particular raid so

474

00:15:59,590 --> 00:15:57,759

those

475

00:16:01,269 --> 00:15:59,600

last two categories

476
00:16:03,350 --> 00:16:01,279
you'd probably think there might be some

477
00:16:04,550 --> 00:16:03,360
actual reports tucked away in there but

478
00:16:05,829 --> 00:16:04,560
for the fact that we're never actually

479
00:16:08,230 --> 00:16:05,839
written down

480
00:16:10,230 --> 00:16:08,240
and then when you look at some of the um

481
00:16:12,629 --> 00:16:10,240
the more widely reported cases the ones

482
00:16:14,870 --> 00:16:12,639
that actually did make some of the ufo

483
00:16:16,470 --> 00:16:14,880
books in the 90s and then you try and

484
00:16:18,710 --> 00:16:16,480
track down those squadrons that were

485
00:16:20,629 --> 00:16:18,720
involved and find the personnel and find

486
00:16:22,310 --> 00:16:20,639
a raid and look into those

487
00:16:24,150 --> 00:16:22,320
actually they're not listed either and

488
00:16:26,629 --> 00:16:24,160

it's just down to the pilot because for

489

00:16:28,310 --> 00:16:26,639

some reason or whoever whoever witnessed

490

00:16:30,150 --> 00:16:28,320

it but that information is not even in

491

00:16:31,350 --> 00:16:30,160

the squadron records either but it turns

492

00:16:33,269 --> 00:16:31,360

out that you know people have actually

493

00:16:35,030 --> 00:16:33,279

talked about it after the war but some

494

00:16:36,870 --> 00:16:35,040

of the stories are in the official in

495

00:16:38,870 --> 00:16:36,880

the official documentation as well so

496

00:16:41,269 --> 00:16:38,880

there's a whole you know a lot of things

497

00:16:43,269 --> 00:16:41,279

going on here there's no one hard and

498

00:16:45,910 --> 00:16:43,279

fast rule for everything that actually

499

00:16:47,430 --> 00:16:45,920

happened um so we're just lucky that

500

00:16:48,870 --> 00:16:47,440

actually i managed to find as much as i

501
00:16:50,389 --> 00:16:48,880
did now

502
00:16:52,550 --> 00:16:50,399
all the stuff i talked about before

503
00:16:54,310 --> 00:16:52,560
about the american uh sightings that

504
00:16:55,990 --> 00:16:54,320
kind of group that were in that magazine

505
00:16:57,430 --> 00:16:56,000
article and some of the stuff that

506
00:16:58,870 --> 00:16:57,440
happened in the books afterwards well

507
00:17:00,790 --> 00:16:58,880
there have been things added to that

508
00:17:03,590 --> 00:17:00,800
keith chester wrote a great book called

509
00:17:05,270 --> 00:17:03,600
strange company back in 2007 and that

510
00:17:07,350 --> 00:17:05,280
was probably the one of the first books

511
00:17:09,270 --> 00:17:07,360
that actually had anything beyond those

512
00:17:11,350 --> 00:17:09,280
particular that small subset of

513
00:17:13,429 --> 00:17:11,360

information about the foo fighters and

514

00:17:15,189 --> 00:17:13,439

he had some really good cases in there

515

00:17:17,110 --> 00:17:15,199

um when i looked at it

516

00:17:18,470 --> 00:17:17,120

unfortunately i found some errors i

517

00:17:20,230 --> 00:17:18,480

found some errors in terms of the year

518

00:17:23,350 --> 00:17:20,240

over sighting and some other dates and

519

00:17:25,590 --> 00:17:23,360

some names and types of aircraft so when

520

00:17:27,590 --> 00:17:25,600

i dug into it um you know i managed to

521

00:17:31,110 --> 00:17:27,600

rectify those things for my book but

522

00:17:32,630 --> 00:17:31,120

also i found a whole lot more as well um

523

00:17:35,590 --> 00:17:32,640

there were stories from the balkans in

524

00:17:37,510 --> 00:17:35,600

1944 that were never ever listed

525

00:17:39,270 --> 00:17:37,520

anywhere else and yet that squadron

526
00:17:42,310 --> 00:17:39,280
information the squadron information for

527
00:17:43,909 --> 00:17:42,320
those units is great it's really well

528
00:17:45,909 --> 00:17:43,919
documented and they've got story after

529
00:17:47,750 --> 00:17:45,919
story after story of these strange

530
00:17:49,430 --> 00:17:47,760
lights and what they called rockets

531
00:17:51,190 --> 00:17:49,440
chasing after aircraft and those are

532
00:17:52,789 --> 00:17:51,200
really good those are really good tales

533
00:17:54,710 --> 00:17:52,799
which i include in the book

534
00:17:56,150 --> 00:17:54,720
let me ask him

535
00:17:58,789 --> 00:17:56,160
when we talk about secret german

536
00:18:01,190 --> 00:17:58,799
technology there are all sorts of wild

537
00:18:03,350 --> 00:18:01,200
and crazy rumors around you know the

538
00:18:04,950 --> 00:18:03,360

most famous ones like diglocker you know

539

00:18:06,630 --> 00:18:04,960

the the bell aircraft they were looking

540

00:18:08,630 --> 00:18:06,640

at various different hovercraft that

541

00:18:11,110 --> 00:18:08,640

were being experimented with

542

00:18:12,950 --> 00:18:11,120

how much stock do you put into

543

00:18:15,510 --> 00:18:12,960

a lot of this being german secret

544

00:18:17,830 --> 00:18:15,520

technology is it mostly rumored because

545

00:18:19,909 --> 00:18:17,840

surely if they had even

546

00:18:22,070 --> 00:18:19,919

a fraction of the technology that is

547

00:18:24,070 --> 00:18:22,080

rumored or written about the outcome of

548

00:18:25,350 --> 00:18:24,080

the war would have been very different

549

00:18:27,669 --> 00:18:25,360

well do you think so wouldn't you

550

00:18:29,590 --> 00:18:27,679

there's a i'll just quote an example in

551
00:18:31,190 --> 00:18:29,600
terms of how actually the germans were

552
00:18:32,470 --> 00:18:31,200
going backwards at the end of the war

553
00:18:34,070 --> 00:18:32,480
everybody seems to think they had all

554
00:18:36,630 --> 00:18:34,080
this super secret technology and he was

555
00:18:38,390 --> 00:18:36,640
just on the point of getting fielded now

556
00:18:39,909 --> 00:18:38,400
that was true to a certain point until

557
00:18:41,350 --> 00:18:39,919
about the last nine months of the war

558
00:18:43,190 --> 00:18:41,360
but because of the pressure on german

559
00:18:44,789 --> 00:18:43,200
industry and german testing sites and

560
00:18:46,630 --> 00:18:44,799
all the rest of it they were actually

561
00:18:47,990 --> 00:18:46,640
going backwards they were exciting so

562
00:18:49,750 --> 00:18:48,000
desperate that they were looking back to

563
00:18:51,350 --> 00:18:49,760

things they'd already invented to try

564

00:18:53,430 --> 00:18:51,360

and strap onto aircraft in terms of

565

00:18:55,990 --> 00:18:53,440

engines just to get aircraft up in the

566

00:18:57,510 --> 00:18:56,000

air to attack our own bombers and things

567

00:18:58,870 --> 00:18:57,520

like that and they were they were

568

00:19:01,590 --> 00:18:58,880

experimenting with things that already

569

00:19:04,230 --> 00:19:01,600

decided weren't worth it like the pulse

570

00:19:06,150 --> 00:19:04,240

jet from a v1 flying bomb they were then

571

00:19:08,310 --> 00:19:06,160

because it worked out that that engine

572

00:19:10,150 --> 00:19:08,320

couldn't be used for a fighter aircraft

573

00:19:11,430 --> 00:19:10,160

because its performance dropped off

574

00:19:13,430 --> 00:19:11,440

after you went a few thousand feet up in

575

00:19:15,430 --> 00:19:13,440

the air because the v1 didn't didn't fly

576

00:19:16,549 --> 00:19:15,440

that high and you couldn't take off with

577

00:19:18,230 --> 00:19:16,559

it because it didn't deliver enough

578

00:19:20,310 --> 00:19:18,240

power to get you airborne you had to use

579

00:19:22,390 --> 00:19:20,320

like an auxiliary type of power to get

580

00:19:24,549 --> 00:19:22,400

you up in the air in the first place

581

00:19:27,350 --> 00:19:24,559

the germans still started designing

582

00:19:28,630 --> 00:19:27,360

aircraft right over christmas 1944 that

583

00:19:30,789 --> 00:19:28,640

actually had these things as power

584

00:19:32,150 --> 00:19:30,799

plants and they were serious and trying

585

00:19:33,990 --> 00:19:32,160

to feel them even though it was a

586

00:19:35,990 --> 00:19:34,000

complete not a waste of time

587

00:19:37,270 --> 00:19:36,000

so there's a whole load of kind of

588

00:19:38,390 --> 00:19:37,280

things that you look at and the germans

589

00:19:40,230 --> 00:19:38,400

weren't actually as good as everybody

590

00:19:42,150 --> 00:19:40,240

thinks they were and then if you look at

591

00:19:43,669 --> 00:19:42,160

the history of flak rockets or

592

00:19:46,310 --> 00:19:43,679

anti-aircraft rockets service to our

593

00:19:48,070 --> 00:19:46,320

missiles you know as they were

594

00:19:49,590 --> 00:19:48,080

it was a very protracted campaign for

595

00:19:51,029 --> 00:19:49,600

trying to get these things into the air

596

00:19:53,669 --> 00:19:51,039

they didn't work properly they were they

597

00:19:55,110 --> 00:19:53,679

were um looking at things like guidance

598

00:19:56,390 --> 00:19:55,120

systems that they couldn't get their

599

00:19:58,549 --> 00:19:56,400

head around because it was all new

600

00:20:00,230 --> 00:19:58,559

technology so and they weren't getting

601
00:20:01,669 --> 00:20:00,240
to grips with it and these things were

602
00:20:03,350 --> 00:20:01,679
never fielded they were never put into

603
00:20:06,070 --> 00:20:03,360
operational service even though they had

604
00:20:08,149 --> 00:20:06,080
about 50 different types in development

605
00:20:09,830 --> 00:20:08,159
throughout the war so they spent they

606
00:20:11,590 --> 00:20:09,840
threw a lot of money a lot of resources

607
00:20:13,669 --> 00:20:11,600
and a lot of time and a lot of things

608
00:20:14,789 --> 00:20:13,679
which didn't work in the end or never

609
00:20:17,110 --> 00:20:14,799
got to the point where they could put

610
00:20:19,990 --> 00:20:17,120
them in service so it was a bit of a

611
00:20:21,190 --> 00:20:20,000
disaster really um and these these kind

612
00:20:22,950 --> 00:20:21,200
of resources could have been thrown at

613
00:20:25,270 --> 00:20:22,960

things which might have tipped the wall

614

00:20:26,630 --> 00:20:25,280

in terms of numbers but they just know

615

00:20:28,870 --> 00:20:26,640

that they splurged it on things like the

616

00:20:30,549 --> 00:20:28,880

v2 which actually wasn't that effective

617

00:20:32,630 --> 00:20:30,559

when you come when you look at it in you

618

00:20:34,390 --> 00:20:32,640

know in this kind of scientific way and

619

00:20:35,830 --> 00:20:34,400

the v1 flying bomb again which didn't

620

00:20:38,149 --> 00:20:35,840

you know didn't do huge amounts of

621

00:20:40,710 --> 00:20:38,159

damage in terms of the strategic sense

622

00:20:42,549 --> 00:20:40,720

so yeah um people give them too much

623

00:20:43,909 --> 00:20:42,559

credit for a lot of these things i go

624

00:20:45,510 --> 00:20:43,919

into a huge amount of detail in the book

625

00:20:47,590 --> 00:20:45,520

about the things that people have said

626
00:20:48,870 --> 00:20:47,600
the foo fighters were but turns out no

627
00:20:50,630 --> 00:20:48,880
that they weren't they couldn't have

628
00:20:51,990 --> 00:20:50,640
been for a whole variety of reasons

629
00:20:53,350 --> 00:20:52,000
which i haven't really got time to go

630
00:20:55,350 --> 00:20:53,360
into here

631
00:20:57,350 --> 00:20:55,360
now you mentioned just a few moments ago

632
00:21:00,230 --> 00:20:57,360
graham that the the pilots of the time

633
00:21:02,390 --> 00:21:00,240
were very highly trained now would that

634
00:21:04,789 --> 00:21:02,400
be

635
00:21:06,950 --> 00:21:04,799
highly trained comparatively of the time

636
00:21:09,350 --> 00:21:06,960
because we hear about today's top gun

637
00:21:11,669 --> 00:21:09,360
pilots your your david fray versus alex

638
00:21:13,110 --> 00:21:11,679

dietrich's your ryan graves that they

639

00:21:14,870 --> 00:21:13,120

are some of the you know the elite

640

00:21:16,950 --> 00:21:14,880

pilots in the world

641

00:21:19,110 --> 00:21:16,960

can we say that they compare to the

642

00:21:21,510 --> 00:21:19,120

pilots of the 40s would they compare to

643

00:21:22,870 --> 00:21:21,520

now or is it a totally different level

644

00:21:24,549 --> 00:21:22,880

it's a totally different level now

645

00:21:26,950 --> 00:21:24,559

because the technology today is so

646

00:21:29,430 --> 00:21:26,960

sophisticated that you can't just um

647

00:21:31,350 --> 00:21:29,440

train a pilot to fly a jet within a few

648

00:21:34,149 --> 00:21:31,360

hours and send them off in the air

649

00:21:35,590 --> 00:21:34,159

whereas say in 1940 uh when you know the

650

00:21:38,630 --> 00:21:35,600

battle of britain we were training

651
00:21:40,789 --> 00:21:38,640
pilots and they were getting maybe 20

652
00:21:41,909 --> 00:21:40,799
hours of basic training 10 hours in the

653
00:21:43,510 --> 00:21:41,919
spitfire if they were looking and then

654
00:21:45,270 --> 00:21:43,520
they were sent up to fight the germans

655
00:21:46,870 --> 00:21:45,280
so that was your kind of training but

656
00:21:48,630 --> 00:21:46,880
that wasn't the entire training that was

657
00:21:50,549 --> 00:21:48,640
just to fly the plane but they were

658
00:21:53,590 --> 00:21:50,559
getting kind of ground lectures in in

659
00:21:55,270 --> 00:21:53,600
how to navigate and how to um you know

660
00:21:56,470 --> 00:21:55,280
how to tell what a german aircraft

661
00:21:57,830 --> 00:21:56,480
looked like rather than a british

662
00:21:59,590 --> 00:21:57,840
aircraft and then of course when they

663
00:22:01,590 --> 00:21:59,600

were sent up for advanced training they

664

00:22:02,950 --> 00:22:01,600

were showing how to fire the guns at at

665

00:22:04,630 --> 00:22:02,960

the most optimal distance and things

666

00:22:05,990 --> 00:22:04,640

like all this kind of thing was shown to

667

00:22:08,070 --> 00:22:06,000

them and then of course if you were

668

00:22:09,590 --> 00:22:08,080

obama crew then you had individual

669

00:22:11,830 --> 00:22:09,600

trades so if you're a pilot or a

670

00:22:13,669 --> 00:22:11,840

navigator you're gonna bombain a flight

671

00:22:15,830 --> 00:22:13,679

engineer all these different trades had

672

00:22:17,590 --> 00:22:15,840

their associated training which involved

673

00:22:19,909 --> 00:22:17,600

the ground lectures all things up in the

674

00:22:21,590 --> 00:22:19,919

air but you know for the time it was

675

00:22:23,350 --> 00:22:21,600

quite sophisticated they were quite

676
00:22:25,750 --> 00:22:23,360
lengthy and they wouldn't let people up

677
00:22:26,710 --> 00:22:25,760
into the air if they weren't good enough

678
00:22:29,590 --> 00:22:26,720
now

679
00:22:31,350 --> 00:22:29,600
the instruments of today are

680
00:22:32,950 --> 00:22:31,360
immeasurably different that you're

681
00:22:35,270 --> 00:22:32,960
you're looking at hundreds of millions

682
00:22:37,669 --> 00:22:35,280
of dollars just in one aircraft and that

683
00:22:39,270 --> 00:22:37,679
technology is we probably only hear

684
00:22:41,669 --> 00:22:39,280
about the tip of the iceberg in terms of

685
00:22:43,669 --> 00:22:41,679
what the readings these pilots can get

686
00:22:45,909 --> 00:22:43,679
what sort of instruments were on board

687
00:22:48,230 --> 00:22:45,919
at the time during the 40s

688
00:22:50,630 --> 00:22:48,240

that a pilot could get any sort of

689

00:22:52,630 --> 00:22:50,640

reading from but more importantly they

690

00:22:54,549 --> 00:22:52,640

could potentially have an effect or a

691

00:22:56,789 --> 00:22:54,559

reading when it comes to becoming in

692

00:22:58,710 --> 00:22:56,799

close counters with a ufo

693

00:23:01,430 --> 00:22:58,720

so you're talking about airborne radar

694

00:23:03,510 --> 00:23:01,440

um it was already sort of invented by

695

00:23:06,310 --> 00:23:03,520

the start of the war so we had a

696

00:23:08,789 --> 00:23:06,320

network of ground radar stations already

697

00:23:10,789 --> 00:23:08,799

in place at the start of world war ii it

698

00:23:12,710 --> 00:23:10,799

wasn't complete by any means it didn't

699

00:23:14,549 --> 00:23:12,720

ring around the whole country but we had

700

00:23:16,470 --> 00:23:14,559

it the germans had it as well but they

701

00:23:18,070 --> 00:23:16,480

were a little bit slower in developing

702

00:23:20,390 --> 00:23:18,080

some of it but they did have their own

703

00:23:22,630 --> 00:23:20,400

systems now in terms of airborne radar

704

00:23:24,950 --> 00:23:22,640

so a system uh a set that can go into an

705

00:23:27,830 --> 00:23:24,960

aircraft and fly that took a little bit

706

00:23:29,190 --> 00:23:27,840

longer and both germany and britain had

707

00:23:30,870 --> 00:23:29,200

a kind of cat and mouse game where we

708

00:23:32,470 --> 00:23:30,880

were just developing bits and they would

709

00:23:33,669 --> 00:23:32,480

develop their own bait and those counter

710

00:23:35,669 --> 00:23:33,679

measures and all the rest of it battles

711

00:23:37,750 --> 00:23:35,679

and forwards because it was a kind of an

712

00:23:39,190 --> 00:23:37,760

electronic say a cat and mouse game to

713

00:23:41,110 --> 00:23:39,200

say you would be on the ascendant at any

714

00:23:43,990 --> 00:23:41,120

one particular time uh ends during the

715

00:23:44,789 --> 00:23:44,000

war but airborne radar itself

716

00:23:46,230 --> 00:23:44,799

you

717

00:23:48,070 --> 00:23:46,240

the sets that they had were fairly

718

00:23:49,029 --> 00:23:48,080

rudimentary they didn't even have to

719

00:23:51,110 --> 00:23:49,039

start with they didn't even have

720

00:23:52,789 --> 00:23:51,120

scanners like you'd see on you know on

721

00:23:54,149 --> 00:23:52,799

an aircraft today whether the dish goes

722

00:23:56,950 --> 00:23:54,159

around in the foot in the nose of an

723

00:23:58,549 --> 00:23:56,960

airplane and also the the actual radar

724

00:23:59,909 --> 00:23:58,559

operator inside the airplane wouldn't

725

00:24:01,110 --> 00:23:59,919

have a kind of you know the little kind

726
00:24:02,390 --> 00:24:01,120
of display wouldn't go around with a

727
00:24:05,029 --> 00:24:02,400
little

728
00:24:06,390 --> 00:24:05,039
blip on it and what you see on the films

729
00:24:08,070 --> 00:24:06,400
he was looking at something that looked

730
00:24:09,750 --> 00:24:08,080
like an oscilloscope display so it's

731
00:24:11,510 --> 00:24:09,760
like a bouncing kind of like a kind of

732
00:24:13,430 --> 00:24:11,520
chart and he had to try and decipher

733
00:24:15,510 --> 00:24:13,440
that to work out what the altitude was

734
00:24:18,310 --> 00:24:15,520
and the speed was and the bearing of the

735
00:24:20,070 --> 00:24:18,320
air of the target and they had to be

736
00:24:22,870 --> 00:24:20,080
actually vectored to the towards the

737
00:24:24,390 --> 00:24:22,880
targets by ground radar so somebody was

738
00:24:26,230 --> 00:24:24,400

radioing the pilot to say you've got to

739

00:24:27,909 --> 00:24:26,240

steer this way you you know the aircraft

740

00:24:29,190 --> 00:24:27,919

and such in front of you and only within

741

00:24:31,110 --> 00:24:29,200

about the next you know within about

742

00:24:33,510 --> 00:24:31,120

five miles of the target could the

743

00:24:35,029 --> 00:24:33,520

airborne set actually pick up the target

744

00:24:37,750 --> 00:24:35,039

they were trying to chase and shoot down

745

00:24:40,230 --> 00:24:37,760

so they were very very rudimentary very

746

00:24:42,310 --> 00:24:40,240

you know sort of just early kind of

747

00:24:45,110 --> 00:24:42,320

technology that wasn't that good but it

748

00:24:47,510 --> 00:24:45,120

was it was cutting edge for the time

749

00:24:49,190 --> 00:24:47,520

was there any cases of interference with

750

00:24:51,750 --> 00:24:49,200

any of the equipment on board the the

751
00:24:53,190 --> 00:24:51,760
aircraft you know malfunctions in terms

752
00:24:54,470 --> 00:24:53,200
of any of these encounters with fur

753
00:24:58,549 --> 00:24:54,480
fighters

754
00:25:01,590 --> 00:24:58,559
terms of the american sightings over the

755
00:25:04,070 --> 00:25:01,600
winter of 4445 both over

756
00:25:05,590 --> 00:25:04,080
belgium and france and and germany and

757
00:25:07,190 --> 00:25:05,600
also over northern italy because this is

758
00:25:08,710 --> 00:25:07,200
where a lot of them were seen they

759
00:25:10,470 --> 00:25:08,720
didn't register on radar there's

760
00:25:12,070 --> 00:25:10,480
actually a particular case where one of

761
00:25:14,549 --> 00:25:12,080
these lights was chasing around after

762
00:25:16,070 --> 00:25:14,559
this after an american night fighter and

763
00:25:18,950 --> 00:25:16,080

they managed to lose it eventually it

764

00:25:21,269 --> 00:25:18,960

flew off rather and the exasperated

765

00:25:23,510 --> 00:25:21,279

pilot radioed the ground radar station

766

00:25:24,950 --> 00:25:23,520

to say you know can you see it on your

767

00:25:27,029 --> 00:25:24,960

radar system and said well no you're the

768

00:25:28,710 --> 00:25:27,039

only person up there so most of the time

769

00:25:30,710 --> 00:25:28,720

they weren't being picked up on radar

770

00:25:32,230 --> 00:25:30,720

however there are effects because

771

00:25:33,830 --> 00:25:32,240

there's a case which i have in the book

772

00:25:35,669 --> 00:25:33,840

and it's right at the end of the raf

773

00:25:36,630 --> 00:25:35,679

section it's the last bombing raid of

774

00:25:38,630 --> 00:25:36,640

the war

775

00:25:40,630 --> 00:25:38,640

and a pilot

776

00:25:42,870 --> 00:25:40,640

who's an australian pilot on an raf

777

00:25:44,870 --> 00:25:42,880

squadron flying over germany and there

778

00:25:47,350 --> 00:25:44,880

was this huge what he called a blanket

779

00:25:48,710 --> 00:25:47,360

flew past the front of the aircraft

780

00:25:50,870 --> 00:25:48,720

and there were nowhere near the target

781

00:25:52,870 --> 00:25:50,880

there was still half an hour short of it

782

00:25:54,710 --> 00:25:52,880

and they had these twelve thousand pound

783

00:25:56,870 --> 00:25:54,720

what they call tall boy bombs it was a

784

00:25:58,230 --> 00:25:56,880

like a earthquake bomb it was designed

785

00:26:01,029 --> 00:25:58,240

to basically penetrate the ground

786

00:26:03,110 --> 00:26:01,039

explode and knock down railway violence

787

00:26:05,110 --> 00:26:03,120

or submarine pens this kind of thing it

788

00:26:07,430 --> 00:26:05,120

was it was an earthquake weapon

789

00:26:09,909 --> 00:26:07,440

and the bomb actually detached itself

790

00:26:11,990 --> 00:26:09,919

from the shackles of the the aircraft

791

00:26:14,470 --> 00:26:12,000

and bounced out of the bombay it crashed

792

00:26:16,149 --> 00:26:14,480

through the bombay doors and fell away

793

00:26:17,750 --> 00:26:16,159

because this thing had flung past them

794

00:26:19,750 --> 00:26:17,760

and they lost all power in the aircraft

795

00:26:21,110 --> 00:26:19,760

as well and the aircraft basically fell

796

00:26:22,950 --> 00:26:21,120

out the sky

797

00:26:24,470 --> 00:26:22,960

and he had been a test pilot and he knew

798

00:26:26,149 --> 00:26:24,480

how to restart engines all this kind of

799

00:26:28,070 --> 00:26:26,159

thing in a minimum amount of time and he

800

00:26:29,269 --> 00:26:28,080

managed to get the engines restarted and

801

00:26:31,110 --> 00:26:29,279

they pulled out the dye before they

802

00:26:32,549 --> 00:26:31,120

crashed in the ground but there was also

803

00:26:33,830 --> 00:26:32,559

effects on the crew because they got

804

00:26:35,190 --> 00:26:33,840

started they get really bad headaches

805

00:26:36,470 --> 00:26:35,200

and things like that and they were kept

806

00:26:39,350 --> 00:26:36,480

in hospital for a while according to the

807

00:26:41,350 --> 00:26:39,360

pilot's recollections um and some people

808

00:26:43,830 --> 00:26:41,360

might know of james mcdonald who was a

809

00:26:45,350 --> 00:26:43,840

scientist and he um he went around he

810

00:26:46,789 --> 00:26:45,360

was an australian but he went around um

811

00:26:49,830 --> 00:26:46,799

sorry he was american but he went around

812

00:26:52,070 --> 00:26:49,840

australia uh collecting our

813

00:26:54,390 --> 00:26:52,080

sighting reports uh by audio visual

814

00:26:56,230 --> 00:26:54,400

measure methods in the sixties he

815

00:26:58,230 --> 00:26:56,240

committed suicide at the end he was um

816

00:27:00,950 --> 00:26:58,240

he was castigated for his views about

817

00:27:03,029 --> 00:27:00,960

ufos and he was the one who actually

818

00:27:04,950 --> 00:27:03,039

interviewed this pilot and i actually

819

00:27:07,350 --> 00:27:04,960

managed to get a hold of a transcript of

820

00:27:09,269 --> 00:27:07,360

the interview and it's fascinating stuff

821

00:27:10,710 --> 00:27:09,279

about what this pilot says that happened

822

00:27:13,669 --> 00:27:10,720

but that's a particular case in the book

823

00:27:15,990 --> 00:27:13,679

so yeah there are effects um not only to

824

00:27:17,830 --> 00:27:16,000

equipment but also to personnel

825

00:27:22,310 --> 00:27:17,840

and that's that biological effects that

826

00:27:27,269 --> 00:27:24,870

the sixth observable yes the the famed

827

00:27:28,950 --> 00:27:27,279

sixth observable yeah so that's really

828

00:27:30,870 --> 00:27:28,960

interesting and you wonder how many

829

00:27:33,669 --> 00:27:30,880

pilots who did come into contact with

830

00:27:36,070 --> 00:27:33,679

these went on in life to have any number

831

00:27:38,310 --> 00:27:36,080

of health problems that i have no doubt

832

00:27:39,990 --> 00:27:38,320

would have been attributed to their time

833

00:27:41,590 --> 00:27:40,000

and conflict or the war or the

834

00:27:44,070 --> 00:27:41,600

conditions that they were they were a

835

00:27:46,310 --> 00:27:44,080

part of or just being put down to to get

836

00:27:48,149 --> 00:27:46,320

out biological effects of whatever

837

00:27:51,990 --> 00:27:48,159

normal life would have been at the time

838

00:27:53,590 --> 00:27:52,000

um did all sides report through fighters

839

00:27:56,710 --> 00:27:53,600

what was it coming from the germans the

840

00:27:59,190 --> 00:27:56,720

us the british and all other sides

841

00:28:00,630 --> 00:27:59,200

so certainly the raf and the american

842

00:28:02,149 --> 00:28:00,640

army air corps

843

00:28:03,990 --> 00:28:02,159

air force sorry they were definitely

844

00:28:06,389 --> 00:28:04,000

reporting things you can see things in

845

00:28:07,830 --> 00:28:06,399

the official documentation now i wish i

846

00:28:09,190 --> 00:28:07,840

had a quid for every time somebody's

847

00:28:10,950 --> 00:28:09,200

come up to me and said well the germans

848

00:28:12,870 --> 00:28:10,960

saw them till you know graham well i've

849

00:28:15,990 --> 00:28:12,880

heard those stories i've read those

850

00:28:17,909 --> 00:28:16,000

reports in terms of they appear in on

851

00:28:19,750 --> 00:28:17,919

internet websites and things like that

852

00:28:21,750 --> 00:28:19,760

but actually tracking down the german

853

00:28:23,350 --> 00:28:21,760

sightings is much more difficult now

854

00:28:25,669 --> 00:28:23,360

that's a probably a combination because

855

00:28:28,310 --> 00:28:25,679

of the fact that the official records

856

00:28:29,669 --> 00:28:28,320

are in german and they didn't report

857

00:28:31,909 --> 00:28:29,679

things in the same way as the raf and

858

00:28:33,350 --> 00:28:31,919

the americans did and also the americans

859

00:28:35,029 --> 00:28:33,360

basically took a lot of the records away

860

00:28:37,830 --> 00:28:35,039

with them at the end of the war

861

00:28:40,549 --> 00:28:37,840

but also the germans destroyed a lot of

862

00:28:42,230 --> 00:28:40,559

their air force records um so there's

863

00:28:44,950 --> 00:28:42,240

like complete years which were you know

864

00:28:46,389 --> 00:28:44,960

either missing or half got half complete

865

00:28:48,070 --> 00:28:46,399

because of the kind of way that they

866

00:28:50,470 --> 00:28:48,080

destroyed the records before before the

867

00:28:51,990 --> 00:28:50,480

end of hostilities now

868

00:28:53,830 --> 00:28:52,000

the stories that i have been able to

869

00:28:55,750 --> 00:28:53,840

find for the book are few and far

870

00:28:58,950 --> 00:28:55,760

between but there are some

871

00:28:59,990 --> 00:28:58,960

however some of them are let's say you

872

00:29:01,590 --> 00:29:00,000

have to take them a bit of pitch and

873

00:29:03,990 --> 00:29:01,600

salt for various reasons which we can

874

00:29:06,630 --> 00:29:04,000

get into a bit later if you want so yes

875

00:29:08,870 --> 00:29:06,640

there are stories but their pedigree may

876

00:29:10,230 --> 00:29:08,880

be a bit suspect but i could i would

877

00:29:12,230 --> 00:29:10,240

love to be able to get into the archives

878

00:29:13,510 --> 00:29:12,240

sometimes i'm not fluent in german i

879

00:29:15,350 --> 00:29:13,520

know some of the german technical and

880

00:29:17,350 --> 00:29:15,360

military terms enough to be able to read

881

00:29:19,350 --> 00:29:17,360

things but being able to find the

882

00:29:20,950 --> 00:29:19,360

records and find details of foo fighter

883

00:29:21,990 --> 00:29:20,960

reports or similar might be quite

884

00:29:23,430 --> 00:29:22,000

difficult

885

00:29:25,190 --> 00:29:23,440

as far as i'm aware nobody in germany

886

00:29:26,230 --> 00:29:25,200

has actually done it but i would have

887

00:29:27,590 --> 00:29:26,240

thought that that would be the best

888

00:29:29,110 --> 00:29:27,600

place you know for somebody to start

889

00:29:30,950 --> 00:29:29,120

would be for a german national who's

890

00:29:32,149 --> 00:29:30,960

interested in ufos to try and have a go

891

00:29:33,909 --> 00:29:32,159

themselves

892

00:29:36,789 --> 00:29:33,919

in terms of russian reports yes there

893

00:29:39,510 --> 00:29:36,799

are russian reports as well um now you

894

00:29:41,830 --> 00:29:39,520

have to bear in mind that uf ufology was

895

00:29:43,909 --> 00:29:41,840

a forbidden subject in the soviet union

896

00:29:46,070 --> 00:29:43,919

albeit for a six-month period in about

897

00:29:47,830 --> 00:29:46,080

1969 when there was a bit of kind of

898

00:29:49,029 --> 00:29:47,840

glashnost over that and they were

899

00:29:51,110 --> 00:29:49,039

allowed to talk about it before they

900

00:29:53,430 --> 00:29:51,120

clamped down again now after the wall

901
00:29:55,190 --> 00:29:53,440
came down and the sight of the russia

902
00:29:56,789 --> 00:29:55,200
sort of opened up a bit people started

903
00:29:58,630 --> 00:29:56,799
traveling there and getting information

904
00:30:00,710 --> 00:29:58,640
and you your friend george laptop did

905
00:30:02,710 --> 00:30:00,720
that in 1993.

906
00:30:04,070 --> 00:30:02,720
um other people did as well and there's

907
00:30:06,070 --> 00:30:04,080
a lot of other people since so

908
00:30:08,789 --> 00:30:06,080
information came out during the early

909
00:30:10,710 --> 00:30:08,799
1990s about a whole range of ufo reports

910
00:30:12,070 --> 00:30:10,720
not just from the world war ii but from

911
00:30:14,310 --> 00:30:12,080
you know from other periods in history

912
00:30:15,909 --> 00:30:14,320
as well now there are stories that came

913
00:30:17,430 --> 00:30:15,919

out about that time from second world

914

00:30:18,710 --> 00:30:17,440

war and things that happened on the

915

00:30:20,070 --> 00:30:18,720

eastern front

916

00:30:21,510 --> 00:30:20,080

but

917

00:30:22,870 --> 00:30:21,520

my experiences of traveling around

918

00:30:25,750 --> 00:30:22,880

russia

919

00:30:27,110 --> 00:30:25,760

led me to sort of suspect some of these

920

00:30:28,870 --> 00:30:27,120

because there was always a lot of things

921

00:30:31,190 --> 00:30:28,880

going on where they realized that

922

00:30:33,510 --> 00:30:31,200

westerners were asking them for various

923

00:30:34,630 --> 00:30:33,520

things and prepared to pay money

924

00:30:36,310 --> 00:30:34,640

and of course if he didn't if they

925

00:30:38,070 --> 00:30:36,320

didn't have the goods they were quite

926
00:30:40,710 --> 00:30:38,080
happy to make things up you know we

927
00:30:42,549 --> 00:30:40,720
found that out you know by by pro they

928
00:30:43,990 --> 00:30:42,559
were promising things that if we would

929
00:30:45,350 --> 00:30:44,000
pay them some money or give them some

930
00:30:47,110 --> 00:30:45,360
bribes and they would deliver and it

931
00:30:49,110 --> 00:30:47,120
turned out it didn't happen even after

932
00:30:51,029 --> 00:30:49,120
you paid the money sort of thing so

933
00:30:51,990 --> 00:30:51,039
i can say that some of these reports may

934
00:30:54,389 --> 00:30:52,000
have been

935
00:30:56,549 --> 00:30:54,399
embellished or even just made up because

936
00:30:58,789 --> 00:30:56,559
you know to satisfy demand

937
00:31:01,350 --> 00:30:58,799
haven't said that some of the stories

938
00:31:03,509 --> 00:31:01,360

undoubtedly are true to that to a point

939

00:31:06,149 --> 00:31:03,519

so it's difficult to tell what the you

940

00:31:08,710 --> 00:31:06,159

know how true they are in the end

941

00:31:11,350 --> 00:31:08,720

um one of them appeared on a 1994

942

00:31:13,509 --> 00:31:11,360

network first documentary in britain uh

943

00:31:15,190 --> 00:31:13,519

and i do include that one in the in the

944

00:31:18,630 --> 00:31:15,200

book as well because that's quite a

945

00:31:20,230 --> 00:31:18,640

well-known story uh of a a

946

00:31:22,070 --> 00:31:20,240

a russian general

947

00:31:23,669 --> 00:31:22,080

she's a general in the 1990s when he

948

00:31:26,470 --> 00:31:23,679

told the story he ended up as a general

949

00:31:28,549 --> 00:31:26,480

of their rocket forces so he he actually

950

00:31:30,310 --> 00:31:28,559

you know rose up the ranks of uh of

951

00:31:32,710 --> 00:31:30,320

their military to a quite a high level

952

00:31:34,070 --> 00:31:32,720

at a very responsible level so he's not

953

00:31:35,909 --> 00:31:34,080

probably somebody who might just tell

954

00:31:38,230 --> 00:31:35,919

tall stories and he'd seen a kind of

955

00:31:39,990 --> 00:31:38,240

teardrop shaped thing which had um which

956

00:31:42,230 --> 00:31:40,000

had flown past his aircraft on a bombing

957

00:31:44,230 --> 00:31:42,240

raid in 1944 i believe it was so yeah

958

00:31:45,590 --> 00:31:44,240

the story from russia there are stories

959

00:31:46,710 --> 00:31:45,600

of course from the pacific as well but

960

00:31:48,470 --> 00:31:46,720

that's not something i covered in the

961

00:31:50,310 --> 00:31:48,480

boot because i kept the focus on europe

962

00:31:52,070 --> 00:31:50,320

but yeah there are stories from all over

963

00:31:53,990 --> 00:31:52,080

europe there are also stories from

964

00:31:56,070 --> 00:31:54,000

french civilians but then again those

965

00:31:58,549 --> 00:31:56,080

stories came out after the war because

966

00:32:00,149 --> 00:31:58,559

no self-respecting frenchman or woman

967

00:32:01,830 --> 00:32:00,159

was going to tell the german authorities

968

00:32:04,149 --> 00:32:01,840

they'd seen something strange because

969

00:32:05,590 --> 00:32:04,159

they'd end up in a labor camp

970

00:32:06,470 --> 00:32:05,600

now it's probably a good place to bring

971

00:32:08,230 --> 00:32:06,480

in

972

00:32:10,710 --> 00:32:08,240

your recent appearance at the ufo

973

00:32:12,710 --> 00:32:10,720

moneycon we attended and preston you've

974

00:32:14,389 --> 00:32:12,720

done a fantastic presentation and as

975

00:32:16,870 --> 00:32:14,399

part of this she also covered some

976

00:32:19,190 --> 00:32:16,880

stories from that time that you quite

977

00:32:21,430 --> 00:32:19,200

rightly pointed out were fabricated or

978

00:32:23,750 --> 00:32:21,440

hoaxes and you gave some nice examples

979

00:32:26,470 --> 00:32:23,760

of of why those were as well what is the

980

00:32:27,750 --> 00:32:26,480

background to some of these

981

00:32:29,269 --> 00:32:27,760

you have to work out what people

982

00:32:31,430 --> 00:32:29,279

motivation are just for like telling

983

00:32:33,509 --> 00:32:31,440

porkies in terms of you know ufo reports

984

00:32:34,470 --> 00:32:33,519

right through history anyway and some

985

00:32:35,750 --> 00:32:34,480

people

986

00:32:37,669 --> 00:32:35,760

will do it because they want to jump on

987

00:32:39,190 --> 00:32:37,679

a bandwagon some people do it for

988

00:32:40,470 --> 00:32:39,200

financial means but other people just

989

00:32:42,310 --> 00:32:40,480

want to do it because they want a little

990

00:32:44,310 --> 00:32:42,320

bit of that kind of stardom and i'm not

991

00:32:46,310 --> 00:32:44,320

sure entirely sure where the hoax has

992

00:32:49,909 --> 00:32:46,320

come from but i know what the one hoax

993

00:32:51,430 --> 00:32:49,919

came from an author in in france in 1970

994

00:32:53,029 --> 00:32:51,440

who actually wrote something in a book

995

00:32:55,110 --> 00:32:53,039

because he wanted to expose people who

996

00:32:57,110 --> 00:32:55,120

had been plagiarizing his work

997

00:32:59,430 --> 00:32:57,120

so that's where that hoax came from but

998

00:33:01,909 --> 00:32:59,440

there's also another one about um

999

00:33:03,669 --> 00:33:01,919

an rf pilot who said he was a pilot and

1000

00:33:05,669 --> 00:33:03,679

that turns out in a book by a fairly

1001

00:33:09,029 --> 00:33:05,679

well-respected british author in the

1002

00:33:11,029 --> 00:33:09,039

1990s um and it's the story of a of a

1003

00:33:13,430 --> 00:33:11,039

pilot who was at a intelligence briefing

1004

00:33:14,549 --> 00:33:13,440

after a raid he was with his crew and

1005

00:33:16,070 --> 00:33:14,559

they were taught and they were talking

1006

00:33:18,630 --> 00:33:16,080

to the intelligence officer but they

1007

00:33:19,990 --> 00:33:18,640

overheard or he overheard the next crew

1008

00:33:22,470 --> 00:33:20,000

at the next table

1009

00:33:24,070 --> 00:33:22,480

talking to another officer about some

1010

00:33:26,149 --> 00:33:24,080

spheres which had followed their

1011

00:33:28,070 --> 00:33:26,159

lancaster bolo

1012

00:33:29,590 --> 00:33:28,080

he gave the author of the book you know

1013

00:33:32,149 --> 00:33:29,600

some details about the squadrons flying

1014

00:33:33,990 --> 00:33:32,159

in and the time of the war where this

1015

00:33:36,950 --> 00:33:34,000

incident apparently taking place and he

1016

00:33:39,509 --> 00:33:36,960

gave a specific time now

1017

00:33:41,430 --> 00:33:39,519

with that information i could track down

1018

00:33:43,430 --> 00:33:41,440

his particular position in that squadron

1019

00:33:45,350 --> 00:33:43,440

and i go into this in the book so i

1020

00:33:47,750 --> 00:33:45,360

looked him up and it turns out he wasn't

1021

00:33:49,909 --> 00:33:47,760

a pilot he was a flight engineer so the

1022

00:33:52,230 --> 00:33:49,919

ranks wrong straight away i did a bit

1023

00:33:53,669 --> 00:33:52,240

more digging and it turned out that when

1024

00:33:55,110 --> 00:33:53,679

he said the raid occurred it didn't

1025

00:33:56,549 --> 00:33:55,120

happen then it happened about seven

1026
00:33:58,950 --> 00:33:56,559
weeks later

1027
00:34:01,190 --> 00:33:58,960
and when i looked at the raid

1028
00:34:02,710 --> 00:34:01,200
he wasn't he didn't feature on it

1029
00:34:04,389 --> 00:34:02,720
so i looked into a bit more in this

1030
00:34:05,909 --> 00:34:04,399
history and i could find from the

1031
00:34:07,750 --> 00:34:05,919
squadron documents that he actually

1032
00:34:09,430 --> 00:34:07,760
either stopped being aircrew on the

1033
00:34:11,109 --> 00:34:09,440
squadron who left the squadron at the

1034
00:34:12,869 --> 00:34:11,119
beginning of the month we said that the

1035
00:34:14,550 --> 00:34:12,879
bombing raid took place towards the end

1036
00:34:16,310 --> 00:34:14,560
of the month so he wasn't even flying

1037
00:34:18,069 --> 00:34:16,320
with a squadron so he couldn't have been

1038
00:34:20,310 --> 00:34:18,079

where he said he was and the position he

1039

00:34:22,470 --> 00:34:20,320

was at the time he said he was so that

1040

00:34:24,869 --> 00:34:22,480

story you have to think okay well you

1041

00:34:26,230 --> 00:34:24,879

know if all that's wrong then what's the

1042

00:34:28,149 --> 00:34:26,240

pedigree of the story is that is that

1043

00:34:30,310 --> 00:34:28,159

going to be you know kosher well or is

1044

00:34:31,990 --> 00:34:30,320

that just going to be a pack of lies so

1045

00:34:34,550 --> 00:34:32,000

i'm not going to say out now that it is

1046

00:34:36,389 --> 00:34:34,560

lies but the rest of the story is

1047

00:34:37,990 --> 00:34:36,399

incorrect so therefore you have to sort

1048

00:34:39,829 --> 00:34:38,000

of like you know treat the story itself

1049

00:34:41,190 --> 00:34:39,839

with a bit of a pinch of salt um and

1050

00:34:43,510 --> 00:34:41,200

there are other stories like that as

1051

00:34:44,710 --> 00:34:43,520

well and um

1052

00:34:46,310 --> 00:34:44,720

unfortunately that's the same right

1053

00:34:47,909 --> 00:34:46,320

through ufology you know if anybody

1054

00:34:49,589 --> 00:34:47,919

writes a book chances are there might be

1055

00:34:52,230 --> 00:34:49,599

one or two stories in it which may be

1056

00:34:54,149 --> 00:34:52,240

complete fabrications but these ones

1057

00:34:55,909 --> 00:34:54,159

have come up and you see them on

1058

00:34:57,349 --> 00:34:55,919

websites and you see them in other books

1059

00:34:59,190 --> 00:34:57,359

and i just want to make sure that people

1060

00:35:00,550 --> 00:34:59,200

are aware that these ones

1061

00:35:02,150 --> 00:35:00,560

probably aren't real

1062

00:35:03,030 --> 00:35:02,160

so you just don't perpetuate myths

1063

00:35:04,630 --> 00:35:03,040

because that's the last thing that

1064

00:35:05,589 --> 00:35:04,640

people want to do in the ecology you

1065

00:35:07,270 --> 00:35:05,599

know if you see something that's wrong

1066

00:35:08,470 --> 00:35:07,280

you should call it out

1067

00:35:10,230 --> 00:35:08,480

and i think that speaks to your

1068

00:35:13,030 --> 00:35:10,240

integrity and the integrity of the book

1069

00:35:14,950 --> 00:35:13,040

as well that you can point out that and

1070

00:35:16,470 --> 00:35:14,960

again like we try to do on the show and

1071

00:35:17,589 --> 00:35:16,480

if myself and dan are having those

1072

00:35:19,829 --> 00:35:17,599

discussions

1073

00:35:22,150 --> 00:35:19,839

like recently with the rubber duck flare

1074

00:35:24,150 --> 00:35:22,160

video where we would almost guarantee

1075

00:35:26,870 --> 00:35:24,160

it's nothing anomalous and as more than

1076
00:35:28,390 --> 00:35:26,880
likely a quadcopter drone with something

1077
00:35:30,069 --> 00:35:28,400
masking the heat signatures and i know

1078
00:35:31,670 --> 00:35:30,079
we're not an expert on this but we've

1079
00:35:33,750 --> 00:35:31,680
we've spoken to enough experts that

1080
00:35:35,589 --> 00:35:33,760
allow us to arrive at that conclusion

1081
00:35:38,390 --> 00:35:35,599
and i think you have to do that in the

1082
00:35:41,270 --> 00:35:38,400
subject otherwise you get into a pitfall

1083
00:35:43,589 --> 00:35:41,280
of everything's a ufo everything's from

1084
00:35:45,430 --> 00:35:43,599
alpha centauri or somewhere exotic and

1085
00:35:47,109 --> 00:35:45,440
that's just not the case and it's not

1086
00:35:48,710 --> 00:35:47,119
how the subject works

1087
00:35:51,829 --> 00:35:48,720
what i would ask you though graham is

1088
00:35:54,550 --> 00:35:51,839

was there a general consensus by those

1089

00:35:57,349 --> 00:35:54,560

pilots encountering these objects as to

1090

00:36:00,069 --> 00:35:57,359

what they might be seeing

1091

00:36:00,950 --> 00:36:00,079

they had various theories um at the time

1092

00:36:03,030 --> 00:36:00,960

that they

1093

00:36:05,750 --> 00:36:03,040

they knew what they weren't so they knew

1094

00:36:07,030 --> 00:36:05,760

there weren't things like so elmo's fire

1095

00:36:08,470 --> 00:36:07,040

and also those kind of things about you

1096

00:36:10,230 --> 00:36:08,480

know stat electricity charges ball

1097

00:36:12,069 --> 00:36:10,240

lightning they had an idea that it

1098

00:36:14,310 --> 00:36:12,079

wasn't these things that they they

1099

00:36:15,750 --> 00:36:14,320

they'd heard of because some of those

1100

00:36:17,510 --> 00:36:15,760

fires like things that flies up you know

1101
00:36:19,349 --> 00:36:17,520
girls up and down aerals or dances

1102
00:36:22,069 --> 00:36:19,359
around propeller blades it was a no

1103
00:36:23,270 --> 00:36:22,079
phenomenon they also had an idea that

1104
00:36:25,510 --> 00:36:23,280
they weren't

1105
00:36:26,950 --> 00:36:25,520
um some types of german kind of suitable

1106
00:36:29,349 --> 00:36:26,960
weapon because they didn't act the same

1107
00:36:31,030 --> 00:36:29,359
way but they were still kind of in that

1108
00:36:32,470 --> 00:36:31,040
mindset that because everybody else sort

1109
00:36:34,150 --> 00:36:32,480
of thought well legally german secret

1110
00:36:36,230 --> 00:36:34,160
weapons this is what they must be as

1111
00:36:37,990 --> 00:36:36,240
well so they were expecting the next

1112
00:36:40,310 --> 00:36:38,000
thing to come down the track they just

1113
00:36:41,510 --> 00:36:40,320

hadn't seen it so what were these lights

1114

00:36:43,190 --> 00:36:41,520

that were flying around chasing after

1115

00:36:44,470 --> 00:36:43,200

their aircraft well they must be german

1116

00:36:46,550 --> 00:36:44,480

suit weapons because what else could

1117

00:36:49,109 --> 00:36:46,560

they be so it was still that kind of

1118

00:36:50,310 --> 00:36:49,119

thinking but they weren't

1119

00:36:52,390 --> 00:36:50,320

able to they didn't have enough

1120

00:36:54,069 --> 00:36:52,400

information so they didn't have crushed

1121

00:36:56,230 --> 00:36:54,079

foo fighters if you like to look and to

1122

00:36:59,510 --> 00:36:56,240

examine um all they had were just know

1123

00:37:00,870 --> 00:36:59,520

these sightings of lights to go on so

1124

00:37:02,150 --> 00:37:00,880

they in the back of their minds they

1125

00:37:03,750 --> 00:37:02,160

kept thinking yes there's something

1126
00:37:05,430 --> 00:37:03,760
german and we're going to find out what

1127
00:37:06,630 --> 00:37:05,440
it is after the end of the war and of

1128
00:37:08,550 --> 00:37:06,640
course that was the thinking that went

1129
00:37:10,710 --> 00:37:08,560
right through the intelligence community

1130
00:37:13,430 --> 00:37:10,720
and also senior officers who had

1131
00:37:15,589 --> 00:37:13,440
anything to do with the subject so

1132
00:37:17,030 --> 00:37:15,599
um that was their thinking the crews

1133
00:37:18,710 --> 00:37:17,040
also at a lower level without so much

1134
00:37:19,829 --> 00:37:18,720
information just kept thinking well yeah

1135
00:37:21,030 --> 00:37:19,839
it's going to be something german that

1136
00:37:22,390 --> 00:37:21,040
we're going to find out you know after

1137
00:37:24,710 --> 00:37:22,400
everything's all after everyone's done

1138
00:37:26,390 --> 00:37:24,720

and dusted so that was

1139

00:37:28,550 --> 00:37:26,400

that was pretty much what they thought

1140

00:37:29,750 --> 00:37:28,560

of anything else was going to be german

1141

00:37:32,150 --> 00:37:29,760

was it going to be alien was it going to

1142

00:37:33,829 --> 00:37:32,160

be a flying saucer no nothing like that

1143

00:37:35,430 --> 00:37:33,839

this they didn't think in those terms at

1144

00:37:37,510 --> 00:37:35,440

all

1145

00:37:39,990 --> 00:37:37,520

graham what do you think people were

1146

00:37:42,950 --> 00:37:40,000

saying when they were encountering these

1147

00:37:44,950 --> 00:37:42,960

objects the foo fighters ufos but you've

1148

00:37:47,829 --> 00:37:44,960

described them previously you know we've

1149

00:37:50,870 --> 00:37:47,839

seen spheres cigar shaped objects long

1150

00:37:52,390 --> 00:37:50,880

torpedoes with portholes

1151

00:37:54,230 --> 00:37:52,400

what was

1152

00:37:55,670 --> 00:37:54,240

your best theory as to what they may

1153

00:37:57,510 --> 00:37:55,680

have been

1154

00:37:59,430 --> 00:37:57,520

so in the book i've basically set out to

1155

00:38:01,030 --> 00:37:59,440

say what they're not because i'm afraid

1156

00:38:03,829 --> 00:38:01,040

i can't sit here today and tell you what

1157

00:38:05,589 --> 00:38:03,839

they were and i don't really have too

1158

00:38:07,589 --> 00:38:05,599

much of a theory as to what they are

1159

00:38:10,710 --> 00:38:07,599

beyond that probably an earlier

1160

00:38:13,750 --> 00:38:10,720

manifestation of what was seen 1947 you

1161

00:38:16,150 --> 00:38:13,760

know onwards and that's all i can do

1162

00:38:17,750 --> 00:38:16,160

i can tell you that probably not with a

1163

00:38:20,550 --> 00:38:17,760

fair degree of certainty they're not

1164

00:38:22,310 --> 00:38:20,560

german super weapons and of any type

1165

00:38:24,470 --> 00:38:22,320

whether they were air jet aircraft or

1166

00:38:26,230 --> 00:38:24,480

rocket aircraft or rockets or something

1167

00:38:28,470 --> 00:38:26,240

else that they were cooking up you know

1168

00:38:31,510 --> 00:38:28,480

you talk about the deglocker which to me

1169

00:38:33,829 --> 00:38:31,520

is just a myth for various reasons which

1170

00:38:35,589 --> 00:38:33,839

i won't go into here but um there's a

1171

00:38:37,349 --> 00:38:35,599

whole load of reasons which i do go into

1172

00:38:38,230 --> 00:38:37,359

in the book which basically you know

1173

00:38:40,069 --> 00:38:38,240

sort of

1174

00:38:41,829 --> 00:38:40,079

turn the kind of idea that there were

1175

00:38:43,990 --> 00:38:41,839

german serial weapons on their head

1176
00:38:46,230 --> 00:38:44,000
because there's a whole range of reasons

1177
00:38:47,670 --> 00:38:46,240
why that simply couldn't be the case and

1178
00:38:49,190 --> 00:38:47,680
rather than spoil it for people you know

1179
00:38:51,190 --> 00:38:49,200
they can read the book and see my

1180
00:38:53,349 --> 00:38:51,200
reasoning um and if anybody does think

1181
00:38:55,030 --> 00:38:53,359
that they have a better idea and oh it

1182
00:38:56,710 --> 00:38:55,040
is this german student weapon and here's

1183
00:38:58,470 --> 00:38:56,720
the reason why then i'm all ears yeah

1184
00:39:00,550 --> 00:38:58,480
i'd love to hear from them but as far as

1185
00:39:02,390 --> 00:39:00,560
i can see and from the information on

1186
00:39:05,030 --> 00:39:02,400
either know about or read about or to

1187
00:39:06,710 --> 00:39:05,040
ask people about i can't see it and i

1188
00:39:08,870 --> 00:39:06,720

put all that reasoning down

1189

00:39:10,710 --> 00:39:08,880

that leaves the question as what they

1190

00:39:12,310 --> 00:39:10,720

what they were well if you can you know

1191

00:39:14,230 --> 00:39:12,320

get rid of the the things that they're

1192

00:39:16,150 --> 00:39:14,240

not that actually does leave in a better

1193

00:39:17,589 --> 00:39:16,160

place to try and work it out

1194

00:39:19,589 --> 00:39:17,599

haven't said that

1195

00:39:21,430 --> 00:39:19,599

you'll know you know ufology is another

1196

00:39:23,109 --> 00:39:21,440

thing you can pin down we don't know

1197

00:39:25,670 --> 00:39:23,119

what these things are

1198

00:39:27,030 --> 00:39:25,680

my best guess as you as you ask me is

1199

00:39:28,950 --> 00:39:27,040

literally that they are just a

1200

00:39:32,390 --> 00:39:28,960

manifestation of what we're seeing you

1201

00:39:34,630 --> 00:39:32,400

know from 47 onwards um but what that is

1202

00:39:35,990 --> 00:39:34,640

i'm sorry if anybody's thinking i'm

1203

00:39:37,670 --> 00:39:36,000

going to tell them right now they're

1204

00:39:39,190 --> 00:39:37,680

going to be sadly disappointed because i

1205

00:39:40,470 --> 00:39:39,200

simply don't know

1206

00:39:42,390 --> 00:39:40,480

was there anything that you really

1207

00:39:44,230 --> 00:39:42,400

wanted to get into the book but you

1208

00:39:45,510 --> 00:39:44,240

couldn't for any particular reason

1209

00:39:47,430 --> 00:39:45,520

you're a man who likes to report the

1210

00:39:49,349 --> 00:39:47,440

fact report the facts as you've just

1211

00:39:51,670 --> 00:39:49,359

kind of basically said there with your

1212

00:39:53,349 --> 00:39:51,680

statement previously maybe some cases

1213

00:39:55,270 --> 00:39:53,359

that you would have added but for for

1214

00:39:57,030 --> 00:39:55,280

lack of data they've been left on the

1215

00:39:58,950 --> 00:39:57,040

cutting room floor

1216

00:40:02,230 --> 00:39:58,960

yeah there's plenty of well there are

1217

00:40:04,230 --> 00:40:02,240

some russian and german cases which

1218

00:40:05,910 --> 00:40:04,240

you sort of look at and you think

1219

00:40:07,349 --> 00:40:05,920

there's not enough they're too flimsy

1220

00:40:09,349 --> 00:40:07,359

you know you don't even get dates you

1221

00:40:11,670 --> 00:40:09,359

don't get places they're just kind of

1222

00:40:13,109 --> 00:40:11,680

reports of the light uh and that's all

1223

00:40:14,790 --> 00:40:13,119

it is so you can't put them in there's

1224

00:40:16,309 --> 00:40:14,800

also a few raf cases like that as well

1225

00:40:18,390 --> 00:40:16,319

which i couldn't get enough information

1226

00:40:19,910 --> 00:40:18,400

on to actually it wasn't worth putting

1227

00:40:21,510 --> 00:40:19,920

in the book because you don't want just

1228

00:40:23,430 --> 00:40:21,520

to fill a book about cases of of a

1229

00:40:24,630 --> 00:40:23,440

strange light well a date where time and

1230

00:40:26,630 --> 00:40:24,640

all the rest of it

1231

00:40:27,990 --> 00:40:26,640

the german cases themselves i mentioned

1232

00:40:29,750 --> 00:40:28,000

before about not being able to get into

1233

00:40:31,910 --> 00:40:29,760

the official records that's what i

1234

00:40:33,990 --> 00:40:31,920

really sort of like you know

1235

00:40:35,589 --> 00:40:34,000

i'm most annoyed about if you like not

1236

00:40:36,630 --> 00:40:35,599

being able to do that

1237

00:40:38,309 --> 00:40:36,640

and that's just not the fact that

1238

00:40:40,150 --> 00:40:38,319

because covered i couldn't travel but

1239

00:40:42,390 --> 00:40:40,160

also the fact that i can't even begin to

1240

00:40:44,390 --> 00:40:42,400

work out where those records might be

1241

00:40:45,750 --> 00:40:44,400

that let alone look through them so that

1242

00:40:47,030 --> 00:40:45,760

that's something that you know have to

1243

00:40:48,870 --> 00:40:47,040

be done in the future by maybe someone

1244

00:40:51,270 --> 00:40:48,880

much more qualified than myself

1245

00:40:52,950 --> 00:40:51,280

so if i have any regrets it's not being

1246

00:40:54,230 --> 00:40:52,960

able to tell the other side of the story

1247

00:40:55,430 --> 00:40:54,240

because there's lots of anecdotal

1248

00:40:57,430 --> 00:40:55,440

evidence that say well the germans saw

1249

00:40:59,109 --> 00:40:57,440

them too and they weren't sure either

1250

00:41:00,230 --> 00:40:59,119

but proving that's a different matter

1251
00:41:01,349 --> 00:41:00,240
you know it's all very well saying

1252
00:41:02,950 --> 00:41:01,359
people coming up with stories saying

1253
00:41:04,710 --> 00:41:02,960
well that's what happened but yeah i

1254
00:41:06,710 --> 00:41:04,720
want you to point me to a file that can

1255
00:41:07,910 --> 00:41:06,720
show me that information or you know

1256
00:41:09,349 --> 00:41:07,920
some of the documents you know some

1257
00:41:11,030 --> 00:41:09,359
intelligence information all the rest of

1258
00:41:13,270 --> 00:41:11,040
it i just haven't seen it and i haven't

1259
00:41:15,430 --> 00:41:13,280
looked but i can't find it so that's

1260
00:41:17,430 --> 00:41:15,440
that's something i regret i'm afraid

1261
00:41:18,470 --> 00:41:17,440
that's that's that's a fair fair

1262
00:41:20,230 --> 00:41:18,480
assumption

1263
00:41:22,230 --> 00:41:20,240

before we get to listener questions and

1264

00:41:23,510 --> 00:41:22,240

some of those i've i wanted to follow up

1265

00:41:25,030 --> 00:41:23,520

on a few of your points but we've got a

1266

00:41:26,550 --> 00:41:25,040

few good listener questions that do that

1267

00:41:29,030 --> 00:41:26,560

kind of nicely for me and i want to give

1268

00:41:31,670 --> 00:41:29,040

the listeners the credit for that it is

1269

00:41:33,430 --> 00:41:31,680

crash retrieval week um or it's it's

1270

00:41:34,790 --> 00:41:33,440

about to have just finished potentially

1271

00:41:36,870 --> 00:41:34,800

depending if you're listening to this on

1272

00:41:38,630 --> 00:41:36,880

the patreon or apple premium or you're

1273

00:41:40,950 --> 00:41:38,640

listening to on the free interview when

1274

00:41:43,670 --> 00:41:40,960

it comes out are there any related

1275

00:41:46,470 --> 00:41:43,680

events around the time of world war ii

1276
00:41:48,150 --> 00:41:46,480
as you know would point to a potential

1277
00:41:49,829 --> 00:41:48,160
crash of any of these objects you

1278
00:41:51,829 --> 00:41:49,839
mentioned before pilots didn't collect

1279
00:41:54,630 --> 00:41:51,839
anything to say so but you would think

1280
00:41:56,790 --> 00:41:54,640
with so much artillery in the skies the

1281
00:41:58,710 --> 00:41:56,800
odds of something maybe coming down

1282
00:42:00,950 --> 00:41:58,720
would be a little bit higher

1283
00:42:03,670 --> 00:42:00,960
you think so and actually there aren't

1284
00:42:05,190 --> 00:42:03,680
many stories of um

1285
00:42:07,430 --> 00:42:05,200
but just full notes

1286
00:42:10,150 --> 00:42:07,440
there are um there are many stories of

1287
00:42:12,150 --> 00:42:10,160
landings so you know never mind crashes

1288
00:42:13,750 --> 00:42:12,160

but there are a few in terms of things

1289

00:42:15,670 --> 00:42:13,760

that are came down and may well have

1290

00:42:19,190 --> 00:42:15,680

been retrieved however these fall into

1291

00:42:21,270 --> 00:42:19,200

the brackets of kind of not flimsy but

1292

00:42:23,510 --> 00:42:21,280

not much information to go on so i'll

1293

00:42:27,430 --> 00:42:23,520

give you a couple um and they both

1294

00:42:29,109 --> 00:42:27,440

happened in russia and both in 1941 so

1295

00:42:31,750 --> 00:42:29,119

even before the german invasion kicked

1296

00:42:33,109 --> 00:42:31,760

off in june 1941 there's a report

1297

00:42:34,870 --> 00:42:33,119

of a

1298

00:42:37,510 --> 00:42:34,880

well they called it and the description

1299

00:42:39,349 --> 00:42:37,520

was an aircraft without wings

1300

00:42:41,510 --> 00:42:39,359

make of that what you want and it

1301
00:42:43,030 --> 00:42:41,520
crashed on an island in the middle of

1302
00:42:45,670 --> 00:42:43,040
the river dawn

1303
00:42:47,670 --> 00:42:45,680
in the middle of the city of rostov

1304
00:42:49,030 --> 00:42:47,680
which is the sort of if you go into the

1305
00:42:50,950 --> 00:42:49,040
kind of northeast corner of the cia's

1306
00:42:53,510 --> 00:42:50,960
azov which is just off the black sea

1307
00:42:55,510 --> 00:42:53,520
that part of the crimea uh of the

1308
00:42:58,069 --> 00:42:55,520
donbass area it's a big industrial area

1309
00:43:00,390 --> 00:42:58,079
in russia it was back in world war ii

1310
00:43:01,910 --> 00:43:00,400
and this this thing crashed there on

1311
00:43:03,510 --> 00:43:01,920
this island it's a small grass island

1312
00:43:04,470 --> 00:43:03,520
it's like a little park in the middle of

1313
00:43:06,870 --> 00:43:04,480

the city

1314

00:43:08,069 --> 00:43:06,880
and apparently if you believe the

1315

00:43:10,630 --> 00:43:08,079
reports

1316

00:43:13,510 --> 00:43:10,640
different matter

1317

00:43:15,349 --> 00:43:13,520
but truckloads of soviet soldiers came

1318

00:43:17,190 --> 00:43:15,359
and took it away

1319

00:43:19,670 --> 00:43:17,200
where they took it away from uh took the

1320

00:43:20,950 --> 00:43:19,680
way through sorry i just don't know um

1321

00:43:23,349 --> 00:43:20,960
and that's the end of the story so

1322

00:43:25,829 --> 00:43:23,359
there's one and then later on the same

1323

00:43:27,510 --> 00:43:25,839
year in in bella russia or what we call

1324

00:43:30,230 --> 00:43:27,520
now belarus

1325

00:43:32,390 --> 00:43:30,240
between two villages in rural belarus

1326

00:43:34,309 --> 00:43:32,400

another craft came down

1327

00:43:37,589 --> 00:43:34,319

and again the description is pretty

1328

00:43:39,349 --> 00:43:37,599

vague other than troops from the nkvd

1329

00:43:41,510 --> 00:43:39,359

which is the foreign to the kgb so that

1330

00:43:43,270 --> 00:43:41,520

was their political soldiers they came

1331

00:43:45,670 --> 00:43:43,280

along and whisked away and took it to a

1332

00:43:47,750 --> 00:43:45,680

facility in a place called omsk which is

1333

00:43:50,069 --> 00:43:47,760

on the other side of the ural mountains

1334

00:43:52,150 --> 00:43:50,079

in the in western siberia now at that

1335

00:43:54,069 --> 00:43:52,160

time of the war the russians were moving

1336

00:43:56,150 --> 00:43:54,079

all their heavy industry and their

1337

00:43:57,829 --> 00:43:56,160

technical bureaus and all the rest of it

1338

00:43:59,510 --> 00:43:57,839

to decide the euros to get them out the

1339

00:44:01,270 --> 00:43:59,520

way the german invasion so that

1340

00:44:04,069 --> 00:44:01,280

particular part of the story could be

1341

00:44:05,829 --> 00:44:04,079

correct but unfortunately just down to

1342

00:44:07,030 --> 00:44:05,839

kind of you know the things that they're

1343

00:44:08,950 --> 00:44:07,040

reporting in the soviet union the

1344

00:44:10,470 --> 00:44:08,960

secrecy and all the rest of it there is

1345

00:44:12,069 --> 00:44:10,480

probably no way that those stories are

1346

00:44:14,470 --> 00:44:12,079

ever going to be verified to a to a

1347

00:44:15,990 --> 00:44:14,480

degree that people would accept nowadays

1348

00:44:17,270 --> 00:44:16,000

in terms of trying to get at the bottom

1349

00:44:19,750 --> 00:44:17,280

of those stories

1350

00:44:21,910 --> 00:44:19,760

um so there's stories and there are

1351

00:44:23,750 --> 00:44:21,920

other ones in the war as well there are

1352

00:44:25,109 --> 00:44:23,760

a couple of german ones there's a one

1353

00:44:27,349 --> 00:44:25,119

that happens in poland but i'll leave

1354

00:44:28,470 --> 00:44:27,359

them for the book and ones that i

1355

00:44:30,230 --> 00:44:28,480

haven't included in the book because

1356

00:44:31,589 --> 00:44:30,240

they haven't beforehand this is supposed

1357

00:44:34,390 --> 00:44:31,599

to be a story of something that crashed

1358

00:44:36,150 --> 00:44:34,400

in poland in about either 37 or 38 that

1359

00:44:38,710 --> 00:44:36,160

the germans may have confiscated for

1360

00:44:40,710 --> 00:44:38,720

some strange convoluted reason and of

1361

00:44:44,309 --> 00:44:40,720

course there's a story of the the craft

1362

00:44:46,710 --> 00:44:44,319

in 1933 and italy as well so things did

1363

00:44:47,910 --> 00:44:46,720

supposedly happen but trying to get to

1364

00:44:49,990 --> 00:44:47,920

the bottom of the information is a

1365

00:44:51,910 --> 00:44:50,000

little more a little bit more difficult

1366

00:44:53,589 --> 00:44:51,920

the polish case i mentioned there is

1367

00:44:54,870 --> 00:44:53,599

about five or six pages and the book is

1368

00:44:57,349 --> 00:44:54,880

quite detailed it's probably the best

1369

00:44:59,670 --> 00:44:57,359

one but i'll leave that for readers

1370

00:45:01,190 --> 00:44:59,680

absolutely and that 1933 case is

1371

00:45:03,589 --> 00:45:01,200

something i just discussed with paulo

1372

00:45:05,030 --> 00:45:03,599

gizadi and the two-part interview which

1373

00:45:06,710 --> 00:45:05,040

has had a lot of great feedback in its

1374

00:45:08,630 --> 00:45:06,720

early days of release so again thank you

1375

00:45:10,390 --> 00:45:08,640

for everyone for checking that one out

1376

00:45:12,390 --> 00:45:10,400

uh listener questions graham let's get

1377

00:45:14,550 --> 00:45:12,400

to them and i appreciate graham was one

1378

00:45:15,910 --> 00:45:14,560

of the early listeners to the podcast so

1379

00:45:17,990 --> 00:45:15,920

it's nice being able to have a listener

1380

00:45:19,750 --> 00:45:18,000

on as a guest and put listener questions

1381

00:45:22,150 --> 00:45:19,760

to a listener himself

1382

00:45:24,230 --> 00:45:22,160

the first question graham is from beckya

1383

00:45:27,030 --> 00:45:24,240

and bikir says he doesn't actually know

1384

00:45:29,349 --> 00:45:27,040

a lot about fighter sightings are there

1385

00:45:31,829 --> 00:45:29,359

any similarities or differences to

1386

00:45:33,510 --> 00:45:31,839

modern ufo sightings by pilots that

1387

00:45:35,030 --> 00:45:33,520

stood out to you while doing research

1388

00:45:37,349 --> 00:45:35,040

for the book

1389

00:45:39,750 --> 00:45:37,359

so if you customize back to april this

1390

00:45:41,430 --> 00:45:39,760

year and the debrief i wrote an article

1391

00:45:43,910 --> 00:45:41,440

for them which

1392

00:45:47,349 --> 00:45:43,920

charted some of the similarities between

1393

00:45:49,910 --> 00:45:47,359

some of the 1943 reports and the tic tac

1394

00:45:51,750 --> 00:45:49,920

incident from in november 2004

1395

00:45:53,829 --> 00:45:51,760

and i know it wasn't particularly a dog

1396

00:45:56,150 --> 00:45:53,839

fight in the strictest sort of

1397

00:45:58,069 --> 00:45:56,160

definition of the term but in terms of

1398

00:45:59,910 --> 00:45:58,079

an engagement where an act you know a

1399

00:46:01,589 --> 00:45:59,920

modern day aircraft was chasing an

1400

00:46:03,349 --> 00:46:01,599

unknown object round around circles for

1401

00:46:06,550 --> 00:46:03,359

a bit before it shut off well that

1402

00:46:09,430 --> 00:46:06,560

actually happened in and twice in 1943

1403

00:46:11,510 --> 00:46:09,440

so you had two instances where raf

1404

00:46:13,589 --> 00:46:11,520

fighter aircraft well one was a

1405

00:46:14,790 --> 00:46:13,599

one was a hurricane and one was a bow

1406

00:46:17,670 --> 00:46:14,800

fighter that were both actually

1407

00:46:19,990 --> 00:46:17,680

operating in knight were chasing

1408

00:46:22,390 --> 00:46:20,000

strange lights that either latched onto

1409

00:46:24,390 --> 00:46:22,400

their tails or were following them

1410

00:46:26,710 --> 00:46:24,400

and in one case

1411

00:46:29,510 --> 00:46:26,720

the actual fighter pilot opened fire at

1412

00:46:30,870 --> 00:46:29,520

the uh the light again nothing happened

1413

00:46:32,550 --> 00:46:30,880

so and that happened a few times over

1414

00:46:34,230 --> 00:46:32,560

the course of the engagement so there

1415

00:46:36,150 --> 00:46:34,240

are similarities in some of the cases

1416

00:46:38,390 --> 00:46:36,160

from back then to now

1417

00:46:40,550 --> 00:46:38,400

they're not you know the kind of the

1418

00:46:42,790 --> 00:46:40,560

exact same thing but you can see that

1419

00:46:45,109 --> 00:46:42,800

you know some vague similarities and of

1420

00:46:47,589 --> 00:46:45,119

course throughout history from the 40s

1421

00:46:49,589 --> 00:46:47,599

50s and onwards you know uh pilots were

1422

00:46:51,349 --> 00:46:49,599

seeing strange craft at night and seeing

1423

00:46:53,030 --> 00:46:51,359

lights that they couldn't understand and

1424

00:46:54,870 --> 00:46:53,040

strange craft well again those kind of

1425

00:46:57,670 --> 00:46:54,880

things were seen in the war as well in

1426
00:47:00,390 --> 00:46:57,680
general terms so the the phenomenon from

1427
00:47:03,349 --> 00:47:00,400
the wall is probably exactly the same

1428
00:47:05,349 --> 00:47:03,359
as the things that happened afterwards

1429
00:47:06,950 --> 00:47:05,359
really good question baker thank you

1430
00:47:08,829 --> 00:47:06,960
james wants to know do you have any

1431
00:47:11,829 --> 00:47:08,839
plans for an audiobook

1432
00:47:14,150 --> 00:47:11,839
version ah this has been asked before

1433
00:47:16,069 --> 00:47:14,160
yes i would love to do an audio book

1434
00:47:18,710 --> 00:47:16,079
version of it it's just the planning and

1435
00:47:20,870 --> 00:47:18,720
getting it done um so it would have to

1436
00:47:22,710 --> 00:47:20,880
be costed and seeing you know what kind

1437
00:47:25,270 --> 00:47:22,720
of market there was for it but i have

1438
00:47:27,430 --> 00:47:25,280

had people come to me with ideas and uh

1439

00:47:29,190 --> 00:47:27,440

offers the help so if it does come into

1440

00:47:30,390 --> 00:47:29,200

anything and yes i would love to get one

1441

00:47:31,910 --> 00:47:30,400

out there

1442

00:47:34,309 --> 00:47:31,920

put me down can read a couple of those

1443

00:47:35,829 --> 00:47:34,319

pages for degree i'm at minimal cost a

1444

00:47:43,190 --> 00:47:35,839

fraction of a cost most people would

1445

00:47:46,390 --> 00:47:44,870

tyler wants to know graham was there

1446

00:47:47,910 --> 00:47:46,400

anything you found it during your

1447

00:47:49,910 --> 00:47:47,920

research for the book that really

1448

00:47:52,470 --> 00:47:49,920

surprised you

1449

00:47:53,829 --> 00:47:52,480

yeah the it was the breadth of the the

1450

00:47:55,270 --> 00:47:53,839

sightings because

1451
00:47:56,710 --> 00:47:55,280
everything that was actually in the

1452
00:47:58,630 --> 00:47:56,720
historical record that i could find

1453
00:48:00,630 --> 00:47:58,640
before i started reading the book

1454
00:48:03,109 --> 00:48:00,640
concentrated everything to about three

1455
00:48:05,430 --> 00:48:03,119
main places in europe one was uh

1456
00:48:07,990 --> 00:48:05,440
northern italy um and the one another

1457
00:48:09,750 --> 00:48:08,000
part was uh western uh germany in

1458
00:48:12,549 --> 00:48:09,760
eastern belgium and another part of

1459
00:48:14,630 --> 00:48:12,559
western uh germany and eastern france so

1460
00:48:16,069 --> 00:48:14,640
there was these three main areas but

1461
00:48:18,069 --> 00:48:16,079
actually as i did more and more research

1462
00:48:20,150 --> 00:48:18,079
and i found more more cases i found

1463
00:48:23,109 --> 00:48:20,160

other hot spots so i found one of the

1464

00:48:24,870 --> 00:48:23,119

balkans in right through 1944 and that

1465

00:48:27,190 --> 00:48:24,880

surprised me because that was somewhere

1466

00:48:29,190 --> 00:48:27,200

where just hasn't been associated with

1467

00:48:31,910 --> 00:48:29,200

foo fighter reports and yet these were

1468

00:48:33,510 --> 00:48:31,920

the same kind of sightings of strange

1469

00:48:34,470 --> 00:48:33,520

lights that were following aircraft at

1470

00:48:36,150 --> 00:48:34,480

one point

1471

00:48:38,390 --> 00:48:36,160

one bomber was actually surrounded by

1472

00:48:40,549 --> 00:48:38,400

six lights and that happened two

1473

00:48:42,230 --> 00:48:40,559

different times over a period of about a

1474

00:48:44,150 --> 00:48:42,240

week and they're quite similar to the

1475

00:48:47,030 --> 00:48:44,160

american stories from from belgium and

1476
00:48:48,870 --> 00:48:47,040
from france so that was a whole raft of

1477
00:48:50,950 --> 00:48:48,880
new sightings which were before the

1478
00:48:53,430 --> 00:48:50,960
established start of the foo fighter

1479
00:48:55,910 --> 00:48:53,440
reports that people knew about up until

1480
00:48:58,390 --> 00:48:55,920
the mid 90s but also it was sort of

1481
00:49:00,150 --> 00:48:58,400
moving the phenomenon away from these

1482
00:49:02,549 --> 00:49:00,160
recognized places to another part of

1483
00:49:05,109 --> 00:49:02,559
europe so you can take from that that

1484
00:49:06,710 --> 00:49:05,119
probably the phenomenon was everywhere

1485
00:49:08,630 --> 00:49:06,720
because i found reports from the bayer

1486
00:49:10,390 --> 00:49:08,640
biscay right across the eastern front

1487
00:49:12,069 --> 00:49:10,400
and from the north cape of norway right

1488
00:49:13,510 --> 00:49:12,079

down to north africa so they were

1489

00:49:15,589 --> 00:49:13,520

literally everywhere

1490

00:49:17,510 --> 00:49:15,599

and just let me follow up on that um

1491

00:49:19,270 --> 00:49:17,520

graham your geography's knowledge is far

1492

00:49:20,630 --> 00:49:19,280

superior to mine that mine's just pretty

1493

00:49:23,109 --> 00:49:20,640

poor

1494

00:49:25,109 --> 00:49:23,119

were these objects seen over land or

1495

00:49:26,549 --> 00:49:25,119

were they generally on the coast or or

1496

00:49:29,349 --> 00:49:26,559

out at sea

1497

00:49:31,990 --> 00:49:29,359

so most of the cases i found were of

1498

00:49:33,270 --> 00:49:32,000

aircraft which were flying over land

1499

00:49:34,790 --> 00:49:33,280

uh and that's just because obviously

1500

00:49:36,549 --> 00:49:34,800

bombers were flying you know mostly over

1501
00:49:37,750 --> 00:49:36,559
over europe to hit targets in germany

1502
00:49:39,109 --> 00:49:37,760
and elsewhere

1503
00:49:40,790 --> 00:49:39,119
now there were a whole load of

1504
00:49:42,309 --> 00:49:40,800
anti-submarine warfare squadrons which

1505
00:49:44,710 --> 00:49:42,319
were flying over the north atlantic and

1506
00:49:46,790 --> 00:49:44,720
over the bay of biscay those squadron

1507
00:49:49,109 --> 00:49:46,800
reports i haven't really gone into in

1508
00:49:51,270 --> 00:49:49,119
much depth i looked at a few but because

1509
00:49:53,030 --> 00:49:51,280
i was finding nothing i didn't bother

1510
00:49:55,589 --> 00:49:53,040
going through all of them because it

1511
00:49:57,910 --> 00:49:55,599
seemed a waste of time however i did

1512
00:50:00,390 --> 00:49:57,920
find some and there is one particular

1513
00:50:01,829 --> 00:50:00,400

american report from november 1942 which

1514

00:50:03,910 --> 00:50:01,839

happens over the bay biscuit and that's

1515

00:50:06,950 --> 00:50:03,920

why i mentioned that and they had just

1516

00:50:08,150 --> 00:50:06,960

sent aircraft to cornwall that month and

1517

00:50:11,109 --> 00:50:08,160

it was one of the first missions they

1518

00:50:12,630 --> 00:50:11,119

ever flew and they and a big light came

1519

00:50:14,870 --> 00:50:12,640

up behind their aircraft and followed

1520

00:50:16,470 --> 00:50:14,880

them and that was um they supposed to

1521

00:50:17,670 --> 00:50:16,480

took photographs of it

1522

00:50:20,309 --> 00:50:17,680

but those photographs have never

1523

00:50:22,390 --> 00:50:20,319

surfaced so yes there are stories over

1524

00:50:23,990 --> 00:50:22,400

water and there are a few others as well

1525

00:50:25,750 --> 00:50:24,000

there are stories from the pacific which

1526

00:50:27,030 --> 00:50:25,760

i really won't go into because again

1527

00:50:28,950 --> 00:50:27,040

that's that'll be on the focus of the

1528

00:50:31,270 --> 00:50:28,960

book but there are stories from from

1529

00:50:34,069 --> 00:50:31,280

sailors on ships in the pacific and in

1530

00:50:35,829 --> 00:50:34,079

the indian ocean so yeah you know it's

1531

00:50:37,990 --> 00:50:35,839

everywhere basically

1532

00:50:39,990 --> 00:50:38,000

now i let you off pretty lightly earlier

1533

00:50:41,510 --> 00:50:40,000

when i asked you potentially about what

1534

00:50:44,069 --> 00:50:41,520

some of these objects may be or what the

1535

00:50:45,750 --> 00:50:44,079

pilots thought they might be now justin

1536

00:50:47,030 --> 00:50:45,760

had a question so i'm going to ask you a

1537

00:50:48,870 --> 00:50:47,040

very similar question to what i asked

1538

00:50:49,910 --> 00:50:48,880

you for but through the the vehicle of

1539

00:50:53,190 --> 00:50:49,920

justin

1540

00:50:55,349 --> 00:50:53,200

everything you know or you've studied

1541

00:50:57,510 --> 00:50:55,359

over your lifetime in this subject what

1542

00:50:59,270 --> 00:50:57,520

did you think the fur fighters were and

1543

00:51:00,549 --> 00:50:59,280

that doesn't ask you what you think they

1544

00:51:02,470 --> 00:51:00,559

weren't

1545

00:51:03,910 --> 00:51:02,480

yeah they're from zara reticuli no i

1546

00:51:06,230 --> 00:51:03,920

look i don't know

1547

00:51:09,030 --> 00:51:06,240

i simply don't know and you know you can

1548

00:51:11,190 --> 00:51:09,040

ask me whichever way you like i'm not i

1549

00:51:13,510 --> 00:51:11,200

can't give you an answer um i keep

1550

00:51:15,109 --> 00:51:13,520

saying there's no experts in ufology so

1551
00:51:16,950 --> 00:51:15,119
anybody who tells you they know exactly

1552
00:51:19,030 --> 00:51:16,960
what's going on or they know the answer

1553
00:51:22,230 --> 00:51:19,040
to that then you know run a mile because

1554
00:51:24,230 --> 00:51:22,240
they don't usually um or well they don't

1555
00:51:26,710 --> 00:51:24,240
because we can't know everything about

1556
00:51:28,309 --> 00:51:26,720
an unknown phenomenon so you can only

1557
00:51:30,150 --> 00:51:28,319
say what they're not but you can't say

1558
00:51:31,990 --> 00:51:30,160
what they are until somebody until one

1559
00:51:34,150 --> 00:51:32,000
literally lands in your lap no one lands

1560
00:51:35,109 --> 00:51:34,160
on the on the white house lawn or

1561
00:51:36,790 --> 00:51:35,119
there's a big

1562
00:51:38,390 --> 00:51:36,800
big disclosure somewhere or there's some

1563
00:51:40,069 --> 00:51:38,400

more information comes out which leads

1564

00:51:41,990 --> 00:51:40,079

us to actually knowing what they are but

1565

00:51:43,589 --> 00:51:42,000

at this stage i'm afraid you know i'm

1566

00:51:45,589 --> 00:51:43,599

gonna chicken out and say look i don't

1567

00:51:47,349 --> 00:51:45,599

know what they are because i don't and

1568

00:51:49,670 --> 00:51:47,359

i'm not gonna make it up i'm not gonna

1569

00:51:50,870 --> 00:51:49,680

go down some road and say what they are

1570

00:51:51,829 --> 00:51:50,880

just for

1571

00:51:53,829 --> 00:51:51,839

um

1572

00:51:55,109 --> 00:51:53,839

so i can put something out there because

1573

00:51:57,589 --> 00:51:55,119

i read too many books like that in the

1574

00:51:58,870 --> 00:51:57,599

70s and 80s that you know people saw

1575

00:52:00,710 --> 00:51:58,880

lights in the sky so therefore they must

1576

00:52:03,270 --> 00:52:00,720

be from zeta reticuli or this kind of

1577

00:52:04,630 --> 00:52:03,280

thing and you get the position where if

1578

00:52:06,470 --> 00:52:04,640

you say things like that you end up

1579

00:52:08,069 --> 00:52:06,480

having to defend that position when new

1580

00:52:10,630 --> 00:52:08,079

information comes along and you just

1581

00:52:12,150 --> 00:52:10,640

look stupid so i'm never gonna put

1582

00:52:13,510 --> 00:52:12,160

myself in that position i'm afraid i'd

1583

00:52:14,950 --> 00:52:13,520

rather just you know sit back and say

1584

00:52:17,109 --> 00:52:14,960

look i'm sorry i don't know what they

1585

00:52:18,790 --> 00:52:17,119

are and if that if people don't you know

1586

00:52:20,390 --> 00:52:18,800

don't buy the book for that reason or

1587

00:52:22,390 --> 00:52:20,400

they don't think it's worth getting then

1588

00:52:24,069 --> 00:52:22,400

that's fair enough but at least if you

1589

00:52:26,309 --> 00:52:24,079

do look at it you'll see what they're

1590

00:52:28,150 --> 00:52:26,319

not and that's just as valuable as

1591

00:52:29,829 --> 00:52:28,160

finding out what they are because at

1592

00:52:31,990 --> 00:52:29,839

least you can rule things out and that

1593

00:52:34,630 --> 00:52:32,000

leaves less you know kind of things to

1594

00:52:36,390 --> 00:52:34,640

look at when you're going forward

1595

00:52:38,230 --> 00:52:36,400

now by process of elimination and

1596

00:52:40,470 --> 00:52:38,240

whatnot and what you've looked at what

1597

00:52:41,430 --> 00:52:40,480

these things aren't on a scale of one to

1598

00:52:46,390 --> 00:52:41,440

five

1599

00:52:48,630 --> 00:52:46,400

extremely likely where would you sit on

1600

00:52:50,790 --> 00:52:48,640

the possibility some of these objects

1601
00:52:52,450 --> 00:52:50,800
being of non-human intelligence or

1602
00:52:54,069 --> 00:52:52,460
origin

1603
00:52:55,190 --> 00:52:54,079
[Music]

1604
00:52:56,309 --> 00:52:55,200
i'll tell you rather than answer that

1605
00:52:57,510 --> 00:52:56,319
i'm going to do a politician i'm going

1606
00:52:58,470 --> 00:52:57,520
to give you a different answer if that's

1607
00:53:00,390 --> 00:52:58,480
all right

1608
00:53:02,150 --> 00:53:00,400
i've got a theory but it's not a one

1609
00:53:03,670 --> 00:53:02,160
which i subscribe to it's just one that

1610
00:53:05,030 --> 00:53:03,680
i'm you know it pops into my head

1611
00:53:07,510 --> 00:53:05,040
occasionally i think well it's as good

1612
00:53:09,430 --> 00:53:07,520
as any other let's say

1613
00:53:11,030 --> 00:53:09,440

500 years time that they invent a time

1614

00:53:12,870 --> 00:53:11,040

travel machine

1615

00:53:14,470 --> 00:53:12,880

if i wanted to go back in history and

1616

00:53:16,470 --> 00:53:14,480

look to a certain period of time in the

1617

00:53:18,549 --> 00:53:16,480

past world war ii is where i would go

1618

00:53:20,630 --> 00:53:18,559

because that's what i'm interested in so

1619

00:53:24,230 --> 00:53:20,640

why wouldn't that work for somebody else

1620

00:53:26,150 --> 00:53:24,240

so you know a series go that is

1621

00:53:28,150 --> 00:53:26,160

one that could be is just as good but

1622

00:53:29,990 --> 00:53:28,160

equally it could be it could be somebody

1623

00:53:31,670 --> 00:53:30,000

from another dimension or from another

1624

00:53:34,390 --> 00:53:31,680

place so

1625

00:53:36,710 --> 00:53:34,400

any theory is as good as any other um

1626
00:53:38,630 --> 00:53:36,720
but you know as to which one is correct

1627
00:53:39,829 --> 00:53:38,640
who knows it could be either of them it

1628
00:53:41,670 --> 00:53:39,839
could be none of them become something

1629
00:53:43,910 --> 00:53:41,680
completely different so i'm you know i'm

1630
00:53:46,230 --> 00:53:43,920
gonna just back out i'm afraid i'm i

1631
00:53:47,910 --> 00:53:46,240
can't give you another sorry i love how

1632
00:53:49,589 --> 00:53:47,920
you won't answer on aliens but you're

1633
00:53:51,349 --> 00:53:49,599
quite happy to throw out there that

1634
00:53:53,829 --> 00:53:51,359
there's a chance it's future humans oh

1635
00:53:55,349 --> 00:53:53,839
well you know

1636
00:53:56,470 --> 00:53:55,359
i didn't say actually believe it i just

1637
00:53:58,790 --> 00:53:56,480
said yeah that's why it keeps popping

1638
00:53:59,750 --> 00:53:58,800

the head occasionally but no

1639

00:54:00,950 --> 00:53:59,760

you've done that thing where you threw

1640

00:54:02,230 --> 00:54:00,960

it out there and of all the things you

1641

00:54:04,390 --> 00:54:02,240

could have thrown out there you go folks

1642

00:54:07,030 --> 00:54:04,400

future humans graeme rendell's next book

1643

00:54:08,630 --> 00:54:07,040

um and we have a question we have a

1644

00:54:12,069 --> 00:54:08,640

question to finish off before the quick

1645

00:54:13,990 --> 00:54:12,079

fire round uh from dave dave sends me in

1646

00:54:15,270 --> 00:54:14,000

a lot of really good questions as well

1647

00:54:17,510 --> 00:54:15,280

but he asks

1648

00:54:21,030 --> 00:54:17,520

has graham done any work on the reported

1649

00:54:23,109 --> 00:54:21,040

sightings of fleets of uaps flying over

1650

00:54:25,829 --> 00:54:23,119

the north pole northern europe russia in

1651
00:54:27,750 --> 00:54:25,839
the 50s and early 60s and the worries

1652
00:54:30,230 --> 00:54:27,760
they caused in terms of being

1653
00:54:32,950 --> 00:54:30,240
misidentified as missiles and

1654
00:54:34,630 --> 00:54:32,960
potentially starting a third world war

1655
00:54:36,710 --> 00:54:34,640
no dave i haven't looked at those in a

1656
00:54:39,030 --> 00:54:36,720
great detail i've i think i've got an

1657
00:54:41,349 --> 00:54:39,040
idea which reports you you're referring

1658
00:54:42,789 --> 00:54:41,359
to and yes you're right you know that

1659
00:54:45,349 --> 00:54:42,799
kind of thing would have been made

1660
00:54:47,589 --> 00:54:45,359
people very very nervous and of course

1661
00:54:49,510 --> 00:54:47,599
you've got stories of you know um

1662
00:54:52,390 --> 00:54:49,520
missiles being turned off and turned on

1663
00:54:53,589 --> 00:54:52,400

by by the by these kind of objects in

1664

00:54:54,470 --> 00:54:53,599

the 70s

1665

00:54:56,630 --> 00:54:54,480

so

1666

00:54:57,910 --> 00:54:56,640

there's a lot going on with that but no

1667

00:55:00,710 --> 00:54:57,920

i'm afraid you know the focus of the

1668

00:55:02,230 --> 00:55:00,720

book i wrote um was purely simply about

1669

00:55:04,230 --> 00:55:02,240

the second world war but there are a lot

1670

00:55:05,990 --> 00:55:04,240

of interesting stories about missiles

1671

00:55:08,150 --> 00:55:06,000

about aircraft and about sightings of

1672

00:55:11,109 --> 00:55:08,160

things over the pole which demand

1673

00:55:12,230 --> 00:55:11,119

attention um someday i might get to that

1674

00:55:13,589 --> 00:55:12,240

who knows

1675

00:55:15,829 --> 00:55:13,599

he also says that would be a good

1676

00:55:18,069 --> 00:55:15,839

subject for a thunder follow-up book for

1677

00:55:19,510 --> 00:55:18,079

you as well graham

1678

00:55:21,430 --> 00:55:19,520

you mentioned they are just on the 60s

1679

00:55:24,150 --> 00:55:21,440

and 70s that there were reports of

1680

00:55:26,150 --> 00:55:24,160

course of missiles being turned on and

1681

00:55:28,230 --> 00:55:26,160

off is that something you're aware of

1682

00:55:30,150 --> 00:55:28,240

the any of the superpower nations or

1683

00:55:31,750 --> 00:55:30,160

otherwise having that sort of technology

1684

00:55:33,430 --> 00:55:31,760

to do that

1685

00:55:35,430 --> 00:55:33,440

not them aware of

1686

00:55:37,190 --> 00:55:35,440

because that would involve a whole range

1687

00:55:38,870 --> 00:55:37,200

of things that they just wouldn't be

1688

00:55:40,630 --> 00:55:38,880

possible because of the kind of

1689

00:55:42,150 --> 00:55:40,640

fail-safes and all these other things

1690

00:55:45,109 --> 00:55:42,160

that you had to do to actually you know

1691

00:55:46,789 --> 00:55:45,119

to arm missiles and to fire them um

1692

00:55:48,870 --> 00:55:46,799

i can't see how another power will be

1693

00:55:50,549 --> 00:55:48,880

able to do that short of

1694

00:55:52,870 --> 00:55:50,559

having somebody actually an operative in

1695

00:55:55,430 --> 00:55:52,880

the base uh you know who could ferret

1696

00:55:57,750 --> 00:55:55,440

away and change things i can't see that

1697

00:55:59,750 --> 00:55:57,760

somehow i just don't see it that's fair

1698

00:56:01,030 --> 00:55:59,760

enough so if those reports are correct

1699

00:56:02,549 --> 00:56:01,040

you're looking at potentially some sort

1700

00:56:04,630 --> 00:56:02,559

of non-human intelligence is what you're

1701

00:56:05,990 --> 00:56:04,640

saying graham that's something

1702

00:56:08,390 --> 00:56:06,000

something behind our understanding

1703

00:56:12,069 --> 00:56:10,150

and let's finish up graeme with a quick

1704

00:56:13,589 --> 00:56:12,079

fire round a few topics that we've not

1705

00:56:16,870 --> 00:56:13,599

got anywhere in the air given movement

1706

00:56:18,230 --> 00:56:16,880

right back almost eight decades in this

1707

00:56:19,190 --> 00:56:18,240

discussion which i've really enjoyed

1708

00:56:21,190 --> 00:56:19,200

because it's been something that i

1709

00:56:22,470 --> 00:56:21,200

wasn't too familiar with and i'm i'm

1710

00:56:23,910 --> 00:56:22,480

still in the when you're scratching the

1711

00:56:25,829 --> 00:56:23,920

surface of the knowledge that you've got

1712

00:56:27,190 --> 00:56:25,839

but let's talk about very briefly a

1713

00:56:29,750 --> 00:56:27,200

couple of other subjects what are your

1714

00:56:31,910 --> 00:56:29,760

thoughts on bubbles

1715

00:56:34,390 --> 00:56:31,920

i blow hot and cold with bob zaza i was

1716

00:56:37,030 --> 00:56:34,400

at you know when he came out and was in

1717

00:56:39,990 --> 00:56:37,040

1989 uh i was really interested in the

1718

00:56:41,510 --> 00:56:40,000

stories that came out then and uh i

1719

00:56:43,349 --> 00:56:41,520

started hearing about more and more

1720

00:56:45,270 --> 00:56:43,359

about his background etc through the

1721

00:56:47,589 --> 00:56:45,280

desert rat newsletter which glenn

1722

00:56:50,230 --> 00:56:47,599

campbell did out of rachel nevada in the

1723

00:56:52,710 --> 00:56:50,240

early 1990s and the 1990s so it was

1724

00:56:54,710 --> 00:56:52,720

fascinating and actually back then i was

1725

00:56:55,990 --> 00:56:54,720

more inclined to lap it up just without

1726

00:56:57,990 --> 00:56:56,000

question

1727

00:57:00,069 --> 00:56:58,000

and then at times i've looked at things

1728

00:57:02,309 --> 00:57:00,079

and thought okay maybe that's not as

1729

00:57:03,670 --> 00:57:02,319

kind of true it's made out to and then

1730

00:57:05,990 --> 00:57:03,680

something else comes along and i think

1731

00:57:07,030 --> 00:57:06,000

okay you know that's that's more like it

1732

00:57:08,549 --> 00:57:07,040

so

1733

00:57:10,470 --> 00:57:08,559

i i have a kind of love-hate

1734

00:57:12,309 --> 00:57:10,480

relationship with bob lazar even though

1735

00:57:15,510 --> 00:57:12,319

i don't know the guy it's just that you

1736

00:57:16,950 --> 00:57:15,520

know i can't pin it down and i just

1737

00:57:19,109 --> 00:57:16,960

don't know enough

1738

00:57:21,030 --> 00:57:19,119

to actually satisfy myself one way or

1739

00:57:23,990 --> 00:57:21,040

the other so i'm just quite happy

1740

00:57:25,910 --> 00:57:24,000

nowadays just sit back and just wait for

1741

00:57:27,829 --> 00:57:25,920

developments and one day we'll find out

1742

00:57:29,510 --> 00:57:27,839

one way or another i'd like to believe

1743

00:57:31,589 --> 00:57:29,520

you know that what he's saying is true

1744

00:57:34,870 --> 00:57:31,599

and i do believe george knapp in what he

1745

00:57:36,470 --> 00:57:34,880

says so um you know that's another thing

1746

00:57:38,710 --> 00:57:36,480

which makes me kind of think well i

1747

00:57:39,910 --> 00:57:38,720

really should believe this but yeah i'm

1748

00:57:42,150 --> 00:57:39,920

just the point where i set on the fence

1749

00:57:45,510 --> 00:57:42,160

i'm afraid like a lot of things

1750

00:57:46,309 --> 00:57:45,520

your thoughts on luis elizondo

1751

00:57:48,950 --> 00:57:46,319

wow

1752

00:57:51,109 --> 00:57:48,960

a guy who sacrificed a lot

1753

00:57:53,589 --> 00:57:51,119

to come you know with the information he

1754

00:57:55,589 --> 00:57:53,599

did to the table um

1755

00:57:56,870 --> 00:57:55,599

and all the kind of things he's endured

1756

00:58:00,870 --> 00:57:56,880

since then

1757

00:58:04,950 --> 00:58:03,430

your thoughts on skinwalker ranch of

1758

00:58:07,030 --> 00:58:04,960

course that's being right back in

1759

00:58:09,270 --> 00:58:07,040

everyone's uh the forefront of our minds

1760

00:58:12,069 --> 00:58:09,280

with the book released by colm calahar

1761

00:58:13,430 --> 00:58:12,079

james akatsuki and george knapp

1762

00:58:15,990 --> 00:58:13,440

funny enough i just finished that book

1763

00:58:16,789 --> 00:58:16,000

today uh i was i read through it in a

1764

00:58:18,710 --> 00:58:16,799

day

1765

00:58:19,910 --> 00:58:18,720

um

1766

00:58:21,510 --> 00:58:19,920

there's definitely something going on

1767

00:58:23,910 --> 00:58:21,520

there that's

1768

00:58:26,069 --> 00:58:23,920

you know in inconvertible uh you could

1769

00:58:27,510 --> 00:58:26,079

look at that and just think

1770

00:58:28,789 --> 00:58:27,520

i wouldn't want to even go there and

1771

00:58:30,390 --> 00:58:28,799

spend the night if that's the kind of

1772

00:58:31,910 --> 00:58:30,400

thing that you know you take away things

1773

00:58:32,870 --> 00:58:31,920

away from you and they come home with

1774

00:58:34,390 --> 00:58:32,880

you

1775

00:58:35,990 --> 00:58:34,400

haven't said that

1776

00:58:37,510 --> 00:58:36,000

i then looked at the i've watched some

1777

00:58:39,030 --> 00:58:37,520

of the documentaries you know the the

1778

00:58:41,270 --> 00:58:39,040

series about that was at the the hunt

1779

00:58:42,870 --> 00:58:41,280

for skyward here and they left me

1780

00:58:44,309 --> 00:58:42,880

nonplussed

1781

00:58:46,150 --> 00:58:44,319

i just wasn't that impressed with the

1782

00:58:48,309 --> 00:58:46,160

way that the stories were told because

1783

00:58:50,390 --> 00:58:48,319

it seemed to be done for a mass mass

1784

00:58:52,390 --> 00:58:50,400

audience in that particular style where

1785

00:58:54,230 --> 00:58:52,400

they have recaps every 10 every 10

1786

00:58:55,670 --> 00:58:54,240

minutes and they have to do dramatized

1787

00:58:57,670 --> 00:58:55,680

reconstruction and all that and that

1788

00:58:59,190 --> 00:58:57,680

just left me cold i'm afraid but in

1789

00:59:00,630 --> 00:58:59,200

terms of you boil it down to what's

1790

00:59:02,630 --> 00:59:00,640

going on there's definitely something

1791

00:59:04,950 --> 00:59:02,640

happening there and it's really weird

1792

00:59:05,990 --> 00:59:04,960

but i i think we're gonna have to wait

1793

00:59:07,589 --> 00:59:06,000

and i think it's gonna be one of those

1794

00:59:08,789 --> 00:59:07,599

things that it might come out at some

1795

00:59:10,069 --> 00:59:08,799

stage but i think we're a long way off

1796

00:59:11,349 --> 00:59:10,079

finding out what the hell's going on

1797

00:59:15,109 --> 00:59:11,359

there

1798

00:59:17,270 --> 00:59:15,119

do you prefer the term ufo or uap

1799

00:59:18,549 --> 00:59:17,280

well i used to be old school i liked ufo

1800

00:59:20,390 --> 00:59:18,559

but actually i'm quite getting around to

1801

00:59:23,670 --> 00:59:20,400

the uap now i use it a lot in the

1802

00:59:25,829 --> 00:59:23,680

writing i do for uap media uk so i have

1803

00:59:27,670 --> 00:59:25,839

to say that really do i but no i am

1804

00:59:29,510 --> 00:59:27,680

actually i'm quite i'm quite happy with

1805

00:59:31,190 --> 00:59:29,520

the new phrase

1806

00:59:33,190 --> 00:59:31,200

i mean you could have called it uaps

1807

00:59:35,750 --> 00:59:33,200

before roswell in that case i could have

1808

00:59:37,349 --> 00:59:35,760

yeah but that wouldn't have sold with it

1809

00:59:38,870 --> 00:59:37,359

you can do that in the next the next

1810

00:59:40,069 --> 00:59:38,880

version next generation of the book and

1811

00:59:41,910 --> 00:59:40,079

correct it

1812

00:59:43,750 --> 00:59:41,920

finally graham this is one we discussed

1813

00:59:45,270 --> 00:59:43,760

earlier there's a question that i think

1814

00:59:47,190 --> 00:59:45,280

in the near future i'm going to phase

1815

00:59:49,430 --> 00:59:47,200

out of the quickfire and it's been a bit

1816

00:59:51,510 --> 00:59:49,440

of a staple since the beginning so one

1817

00:59:55,190 --> 00:59:51,520

of the last people i'm going to ask this

1818

00:59:57,589 --> 00:59:55,200

to what does disclosure mean to you

1819

00:59:59,190 --> 00:59:57,599

capital d disclosure to me means you

1820

01:00:01,910 --> 00:59:59,200

know aliens landing on the white house

1821

01:00:03,430 --> 01:00:01,920

lawn uh little d disclosure is the kind

1822

01:00:05,829 --> 01:00:03,440

of soft disclosure so you're going to

1823

01:00:06,789 --> 01:00:05,839

drip feed of information that leads us

1824

01:00:08,630 --> 01:00:06,799

to

1825

01:00:10,789 --> 01:00:08,640

an overwhelming conclusion that there's

1826
01:00:11,990 --> 01:00:10,799
something going on and to a point where

1827
01:00:13,430 --> 01:00:12,000
the powers that be and the people who

1828
01:00:15,829 --> 01:00:13,440
make the decisions

1829
01:00:18,870 --> 01:00:15,839
can't hide it any longer and they've got

1830
01:00:21,349 --> 01:00:18,880
to come clean so that's the two kind of

1831
01:00:22,950 --> 01:00:21,359
strands of disclosure that i think about

1832
01:00:24,069 --> 01:00:22,960
and and what do you think we're getting

1833
01:00:25,430 --> 01:00:24,079
if any

1834
01:00:27,349 --> 01:00:25,440
we're getting the second i don't think

1835
01:00:29,349 --> 01:00:27,359
we'll ever get the first i think that

1836
01:00:30,630 --> 01:00:29,359
that time would have happened by now

1837
01:00:32,470 --> 01:00:30,640
because of you know all the sightings

1838
01:00:33,910 --> 01:00:32,480

that we've had over the last 80 years i

1839

01:00:35,990 --> 01:00:33,920

think if they were going to drop on the

1840

01:00:37,910 --> 01:00:36,000

white house lawn and announce themselves

1841

01:00:39,430 --> 01:00:37,920

like the day the earth should still film

1842

01:00:41,589 --> 01:00:39,440

i think that would happen

1843

01:00:43,510 --> 01:00:41,599

i think that that time's gone i think

1844

01:00:46,069 --> 01:00:43,520

it's going to be a drip drip a very slow

1845

01:00:47,910 --> 01:00:46,079

drip feed of information which basically

1846

01:00:49,589 --> 01:00:47,920

either backs the pentagon or whoever

1847

01:00:51,829 --> 01:00:49,599

into a corner to the point where they

1848

01:00:53,750 --> 01:00:51,839

can't hide it anymore

1849

01:00:55,589 --> 01:00:53,760

and it'll come out it might not come out

1850

01:00:57,750 --> 01:00:55,599

straight away but it'll come out into a

1851
01:00:58,870 --> 01:00:57,760
form where people go yeah there you go

1852
01:01:00,309 --> 01:00:58,880
and it might actually be quite

1853
01:01:01,670 --> 01:01:00,319
underwhelming for people because they'll

1854
01:01:03,430 --> 01:01:01,680
have had so much information about so

1855
01:01:04,870 --> 01:01:03,440
much time to assimilate it but they'll

1856
01:01:06,309 --> 01:01:04,880
get there but i think that's how it'll

1857
01:01:08,710 --> 01:01:06,319
come out

1858
01:01:11,510 --> 01:01:08,720
graeme how can people follow you and of

1859
01:01:13,109 --> 01:01:11,520
course how can they purchase your book

1860
01:01:14,230 --> 01:01:13,119
so the books available on amazon doesn't

1861
01:01:16,549 --> 01:01:14,240
matter where you live in the world

1862
01:01:19,349 --> 01:01:16,559
whichever local amazon service whether

1863
01:01:21,109 --> 01:01:19,359

it's dot it or dot uk or or dot com

1864

01:01:22,549 --> 01:01:21,119

whichever one you use you can buy from

1865

01:01:24,390 --> 01:01:22,559

there if you search for my name graeme

1866

01:01:26,230 --> 01:01:24,400

rendell you'll find the book you'll also

1867

01:01:28,710 --> 01:01:26,240

find the siberian book there

1868

01:01:30,870 --> 01:01:28,720

um as far as contacting me well at

1869

01:01:32,630 --> 01:01:30,880

border 750 is my twitter handle there's

1870

01:01:34,069 --> 01:01:32,640

a link tree reference on my profile

1871

01:01:37,030 --> 01:01:34,079

there and you can find out the things

1872

01:01:38,950 --> 01:01:37,040

i've written about for other uap issues

1873

01:01:40,710 --> 01:01:38,960

and everything else to do with me is on

1874

01:01:41,910 --> 01:01:40,720

is on the profile there

1875

01:01:44,150 --> 01:01:41,920

and again i'll thank you graeme on

1876

01:01:45,430 --> 01:01:44,160

behalf of uap media but should a part of

1877

01:01:47,670 --> 01:01:45,440

for the work you're doing that as well

1878

01:01:49,270 --> 01:01:47,680

which has been amazing since you came on

1879

01:01:51,430 --> 01:01:49,280

board you're a very welcome addition to

1880

01:01:54,390 --> 01:01:51,440

the team um what is next for you have

1881

01:01:56,630 --> 01:01:54,400

you got any plans for a follow-up book

1882

01:01:58,870 --> 01:01:56,640

i do yeah i've i've sort of doing the

1883

01:02:00,710 --> 01:01:58,880

first tentative um explorations into the

1884

01:02:02,069 --> 01:02:00,720

pacific wall from the foo fighters so

1885

01:02:05,910 --> 01:02:02,079

there's a whole raft of sightings that

1886

01:02:07,190 --> 01:02:05,920

happened from 1942 to 1945 and and some

1887

01:02:08,950 --> 01:02:07,200

of them are quite different they're more

1888

01:02:11,670 --> 01:02:08,960

to do with balls of fire

1889

01:02:13,349 --> 01:02:11,680

and strange lights rather than craft but

1890

01:02:14,630 --> 01:02:13,359

as i dig into it who knows what i'll

1891

01:02:16,069 --> 01:02:14,640

find

1892

01:02:17,349 --> 01:02:16,079

excellent graeme well i look forward to

1893

01:02:19,430 --> 01:02:17,359

that and i know you'll be back on the

1894

01:02:21,990 --> 01:02:19,440

podcast long before we see that second

1895

01:02:23,349 --> 01:02:22,000

book enemy on ufos so thanks very much

1896

01:02:25,670 --> 01:02:23,359

for your time graeme

1897

01:02:27,270 --> 01:02:25,680

thank you very much that is all for this

1898

01:02:29,270 --> 01:02:27,280

week's show thank you very much for

1899

01:02:31,270 --> 01:02:29,280

listening please remember to leave the

1900

01:02:33,990 --> 01:02:31,280

podcast to review on your chosen

1901

01:02:35,829 --> 01:02:34,000

platform you can like retweet and

1902

01:02:37,910 --> 01:02:35,839

subscribe that would all be very much

1903

01:02:40,230 --> 01:02:37,920

appreciated the shows are being uploaded

1904

01:02:42,230 --> 01:02:40,240

onto youtube as we speak more and more

1905

01:02:44,870 --> 01:02:42,240

you can sign up at patreon.com forward

1906

01:02:47,349 --> 01:02:44,880

slash that ufo podcast to access shows

1907

01:02:49,670 --> 01:02:47,359

ad free as well please get in touch on

1908

01:02:52,069 --> 01:02:49,680

twitter facebook instagram that ufo

1909

01:02:54,390 --> 01:02:52,079

podcast of course on twitter it's at

1910

01:02:56,549 --> 01:02:54,400

ufouapam

1911

01:02:59,640 --> 01:02:56,559

and again folks as always keep looking

1912

01:03:15,029 --> 01:02:59,650

up you never know what you might see

1913

01:03:17,510 --> 01:03:16,230

for the parliament

1914

01:03:19,029 --> 01:03:17,520

the little [h__h] hovered right inside

1915

01:03:21,029 --> 01:03:19,039

of my window when i shoved out the

1916

01:03:26,690 --> 01:03:21,039

screen he made it an issue i don't think

1917

01:03:26,700 --> 01:03:35,670

[Music]

1918

01:03:38,789 --> 01:03:37,109

i can't imagine how it could have been

1919

01:03:50,950 --> 01:03:38,799

any better

1920

01:03:57,029 --> 01:03:53,349

i jumped back nearly kissed myself and i

1921

01:04:00,870 --> 01:03:58,870

on my head and window was weird and

1922

01:04:02,230 --> 01:04:00,880

everything was red i helped out my boys

1923

01:04:05,760 --> 01:04:02,240

they thought this was noise they thought

1924

01:04:39,190 --> 01:04:14,990

[Music]

1925

01:04:39,200 --> 01:04:44,380

consider your serious consider your lies

1926

01:05:07,109 --> 01:04:59,270

[Music]

1927

01:05:13,900 --> 01:05:07,119

it wasn't a tic tac and not quite a
