1
00:00:00,030 --> 00:00:05,510

[Music]

2
00:00:08,710 --> 00:00:06,950

there's a whole fleet of look on the

3
00:00:10,950 --> 00:00:08,720

assay

4
00:00:14,310 --> 00:00:10,960

oh my gosh they're all going against the

5
00:00:19,029 --> 00:00:16,390

it was basically a cube with inside of

6
00:00:22,840 --> 00:00:19,039

sphere where the points of the cube

7
00:00:33,040 --> 00:00:22,850

were touching outside of sphere

8
00:00:37,190 --> 00:00:34,590

[Music]

9
00:00:38,790 --> 00:00:37,200

[Applause]

10
00:00:41,030 --> 00:00:38,800

36
00:01:43,749 --> 00:01:41,840
calls he missed the first few but the

37
00:01:45,990 --> 00:01:43,759
calls were fantastic this month we

38
00:01:48,469 --> 00:01:46,000

talked on a whole range of subjects

39

00:01:50,469 --> 00:01:48,479

including nuclear connection uh the need

40

00:01:53,190 --> 00:01:50,479

for meet-ups and you know frequency of

41

00:01:55,190 --> 00:01:53,200

potential cancers and biological effects

42

00:01:57,590 --> 00:01:55,200

we talked about thunderstorms time

43

00:02:00,469 --> 00:01:57,600

portals tic tacs evading pilots and a

44

00:02:02,149 --> 00:02:00,479

whole lot more as well as that our new

45

00:02:03,350 --> 00:02:02,159

breakdown shows out just now where we

46

00:02:05,670 --> 00:02:03,360

talk about the amendments to the

47

00:02:07,749 --> 00:02:05,680

language and the senate bill we also

48

00:02:09,669 --> 00:02:07,759

share some non-spoilery thoughts on the

49

00:02:12,229 --> 00:02:09,679

new eternal movie because there are

50

00:02:14,630 --> 00:02:12,239

some very interesting ufo themes in

51
00:02:16,070 --> 00:02:14,640

ohio thank you andy i appreciate being

89

00:03:38,550 --> 00:03:37,120

here

90

00:03:40,309 --> 00:03:38,560

yeah no it's good to have you thanks for

91

00:03:42,149 --> 00:03:40,319

calling in listen the floor is yours

92

00:03:43,750 --> 00:03:42,159

what do you want to talk about

93

00:03:45,670 --> 00:03:43,760

well i don't know if you're old enough

94

00:03:46,869 --> 00:03:45,680

to remember the old marvel comics what

95

00:03:48,149 --> 00:03:46,879

if

96

00:03:49,670 --> 00:03:48,159

um

97

00:03:52,309 --> 00:03:49,680

but you know what i i'm not old enough

98

00:03:53,990 --> 00:03:52,319

to remember the comics i

99

00:03:56,070 --> 00:03:54,000

knew about the series when the anime

100

00:03:57,910 --> 00:03:56,080

started a little while back and if you

101
00:03:58,949 --> 00:03:57,920
remember i did a couple of shows called

102
00:04:00,789 --> 00:03:58,959
what if

103
00:04:02,309 --> 00:04:00,799
yep and then it was then i saw that

104
00:04:03,589 --> 00:04:02,319
series was coming out and dan was like

105
00:04:05,350 --> 00:04:03,599
did you not know about that and i was

106
00:04:07,509 --> 00:04:05,360
like no i'd never heard of it but yeah

107
00:04:09,670 --> 00:04:07,519
i'm aware of it now yeah well my first

108
00:04:11,589 --> 00:04:09,680
my first point is my brain works in

109
00:04:12,869 --> 00:04:11,599
what-ifs and this whole phenomenon is a

110
00:04:14,390 --> 00:04:12,879
big what if

111
00:04:16,789 --> 00:04:14,400
and the uh

112
00:04:19,110 --> 00:04:16,799
the nuclear connection it seems to be a

113
00:04:22,230 --> 00:04:19,120

pretty strong connection over the years

114

00:04:24,230 --> 00:04:22,240

and and the general thought process

115

00:04:26,310 --> 00:04:24,240

seems to be

116

00:04:28,629 --> 00:04:26,320

that they're warning us about something

117

00:04:31,350 --> 00:04:28,639

or trying to stop it or doing something

118

00:04:32,950 --> 00:04:31,360

but what if they were trying to learn

119

00:04:35,909 --> 00:04:32,960

the technology

120

00:04:37,909 --> 00:04:35,919

what if humans somehow stumbled into

121

00:04:40,390 --> 00:04:37,919

a way to split the atom in in this

122

00:04:41,430 --> 00:04:40,400

phenomenon never did

123

00:04:42,950 --> 00:04:41,440

you know so what if they're what if

124

00:04:44,230 --> 00:04:42,960

they're studying

125

00:04:46,790 --> 00:04:44,240

nuclear

126

00:04:48,870 --> 00:04:46,800

the process to

127

00:04:50,870 --> 00:04:48,880

i don't know that they're warning us

128

00:04:53,350 --> 00:04:50,880

at all

129

00:04:57,030 --> 00:04:53,360

yeah so i mean it's an interesting one

130

00:04:59,350 --> 00:04:57,040

my thoughts on it is that

131

00:05:01,110 --> 00:04:59,360

they they don't necessarily have this ma

132

00:05:02,710 --> 00:05:01,120

same technology maybe we are on the

133

00:05:05,749 --> 00:05:02,720

right path to something

134

00:05:07,990 --> 00:05:05,759

and we've done it in a very raw way

135

00:05:09,990 --> 00:05:08,000

and they're kind of looking going okay

136

00:05:12,390 --> 00:05:10,000

you've got the right idea but you're

137

00:05:14,469 --> 00:05:12,400

maybe not quite there yet and they're

138

00:05:16,230 --> 00:05:14,479

keeping an eye on it um

139

00:05:17,430 --> 00:05:16,240

for me

140

00:05:18,950 --> 00:05:17,440

you know what was really interesting i

141

00:05:20,629 --> 00:05:18,960

think you look at this and go because

142

00:05:23,189 --> 00:05:20,639

they must be so much more advanced than

143

00:05:25,189 --> 00:05:23,199

us then they have anything we have but a

144

00:05:27,350 --> 00:05:25,199

thousand times better or they don't need

145

00:05:28,790 --> 00:05:27,360

it anymore and i even talked recently on

146

00:05:30,870 --> 00:05:28,800

one of the pods about you know why would

147

00:05:33,430 --> 00:05:30,880

these craft need windows and i was like

148

00:05:35,350 --> 00:05:33,440

well you know why not it's very again

149

00:05:36,710 --> 00:05:35,360

it's that human thing isn't it of well

150

00:05:38,790 --> 00:05:36,720

they shouldn't need windows they should

151
00:05:41,270 --> 00:05:38,800
have two-way viewing or whatever they

152
00:05:44,070 --> 00:05:41,280
need for that kind of stuff but again

153
00:05:46,390 --> 00:05:44,080
maybe that just works so

154
00:05:48,710 --> 00:05:46,400
i i would think that they're they're

155
00:05:51,029 --> 00:05:48,720
studying definitely i think it's more

156
00:05:53,670 --> 00:05:51,039
observational when it comes to nuclear

157
00:05:57,189 --> 00:05:53,680
stuff i think it is that old analogy of

158
00:05:58,710 --> 00:05:57,199
the kids have found the matches right um

159
00:06:00,629 --> 00:05:58,720
that dan talked about on the recent

160
00:06:02,550 --> 00:06:00,639
podcast you know the gorilla and the zoo

161
00:06:04,629 --> 00:06:02,560
with the key yeah it doesn't know it's

162
00:06:06,469 --> 00:06:04,639
got the key to do what it's going to do

163
00:06:08,629 --> 00:06:06,479

but the girl is playing with the key and

164

00:06:09,830 --> 00:06:08,639

maybe these zookeepers whatever they are

165

00:06:12,070 --> 00:06:09,840

are they're watching us play with the

166

00:06:13,590 --> 00:06:12,080

key and they're wondering are the is the

167

00:06:15,110 --> 00:06:13,600

gorilla going to figure out how to get

168

00:06:16,550 --> 00:06:15,120

the key in the lock and are they going

169

00:06:17,990 --> 00:06:16,560

to get the next step

170

00:06:19,350 --> 00:06:18,000

yeah or are they just going to mess

171

00:06:21,270 --> 00:06:19,360

about with the key and sit and brush the

172

00:06:24,469 --> 00:06:21,280

hair with it and throw it at people and

173

00:06:26,309 --> 00:06:24,479

and use it in the wrong way sure sure

174

00:06:27,670 --> 00:06:26,319

that it kind of brings me to my my

175

00:06:29,430 --> 00:06:27,680

second point you made the comment and i

176
00:06:31,189 --> 00:06:29,440
heard your podcast about the windows in

177
00:06:32,070 --> 00:06:31,199
the in the craft

178
00:06:34,950 --> 00:06:32,080
um

179
00:06:36,150 --> 00:06:34,960
what i see is a a big problem and we

180
00:06:38,230 --> 00:06:36,160
don't know any better because we don't

181
00:06:41,670 --> 00:06:38,240
know what we don't know but we have to

182
00:06:43,430 --> 00:06:41,680
assign human assumptions to everything

183
00:06:45,110 --> 00:06:43,440
we assume this is something with eyes

184
00:06:47,350 --> 00:06:45,120
that could even see out a window

185
00:06:49,189 --> 00:06:47,360
um we assume that there's something in

186
00:06:51,350 --> 00:06:49,199
some of these crafts at least where they

187
00:06:53,670 --> 00:06:51,360
could look out a window

188
00:06:56,469 --> 00:06:53,680

there's always as in any investigation

189

00:06:59,189 --> 00:06:56,479

there's a who what when where why

190

00:07:01,110 --> 00:06:59,199

and we know some of the wares and we

191

00:07:03,749 --> 00:07:01,120

know some of the winds

192

00:07:05,510 --> 00:07:03,759

but we instantly seem to jump to the why

193

00:07:06,629 --> 00:07:05,520

why are they here why are they doing

194

00:07:09,350 --> 00:07:06,639

what they're doing

195

00:07:12,070 --> 00:07:09,360

and we don't even know the what yet

196

00:07:14,469 --> 00:07:12,080

um as far as we know these these

197

00:07:16,629 --> 00:07:14,479

tic tacs and and the go fast could be

198

00:07:18,550 --> 00:07:16,639

some kind of an intergalactic insect

199

00:07:20,150 --> 00:07:18,560

that's just flying around and not doing

200

00:07:22,710 --> 00:07:20,160

anything

201
00:07:25,510 --> 00:07:22,720
you know we but we don't know we can't

202
00:07:27,350 --> 00:07:25,520
that's all we have to go on is our human

203
00:07:30,230 --> 00:07:27,360
assumptions and what we know

204
00:07:31,670 --> 00:07:30,240
but we could be so far off

205
00:07:33,749 --> 00:07:31,680
i think you're right on that and that's

206
00:07:35,830 --> 00:07:33,759
where for me something like the the

207
00:07:38,469 --> 00:07:35,840
application of artificial intelligence

208
00:07:40,790 --> 00:07:38,479
could be massive in this yes because i i

209
00:07:43,430 --> 00:07:40,800
i saw someone mention the ai is only as

210
00:07:45,589 --> 00:07:43,440
good as the program that writes it but

211
00:07:47,189 --> 00:07:45,599
that the best ai can learn and evolve

212
00:07:48,550 --> 00:07:47,199
which is a scary thing in itself we've

213
00:07:50,150 --> 00:07:48,560

all seen terminator and those kind of

214

00:07:52,150 --> 00:07:50,160

movies

215

00:07:53,830 --> 00:07:52,160

the practical applications of it is that

216

00:07:55,909 --> 00:07:53,840

something it can be looking for

217

00:07:58,070 --> 00:07:55,919

something that we aren't it can find

218

00:08:00,230 --> 00:07:58,080

patterns within you know i think tom de

219

00:08:01,749 --> 00:08:00,240

long talked about biblical texts and

220

00:08:03,430 --> 00:08:01,759

various religious texts going through

221

00:08:04,550 --> 00:08:03,440

the millennia where it could scan

222

00:08:05,830 --> 00:08:04,560

through it and just something we're

223

00:08:07,029 --> 00:08:05,840

totally missing

224

00:08:08,390 --> 00:08:07,039

or it could highlight something

225

00:08:09,909 --> 00:08:08,400

altogether of you know what here's

226

00:08:12,469 --> 00:08:09,919

something it's found and all of this

227

00:08:14,150 --> 00:08:12,479

stuff which points to x

228

00:08:15,830 --> 00:08:14,160

and and that's that you take away that

229

00:08:17,670 --> 00:08:15,840

kind of human bias don't you because

230

00:08:19,830 --> 00:08:17,680

everything is

231

00:08:21,430 --> 00:08:19,840

it's fun speculation like you talk about

232

00:08:22,869 --> 00:08:21,440

the window stuff maybe the windows are

233

00:08:24,150 --> 00:08:22,879

for our benefit

234

00:08:26,150 --> 00:08:24,160

maybe

235

00:08:27,830 --> 00:08:26,160

yeah like i mean the tic tac from what

236

00:08:29,990 --> 00:08:27,840

we hear had no

237

00:08:32,149 --> 00:08:30,000

um obvious signs of you know like a

238

00:08:34,870 --> 00:08:32,159

porthole or an exhaust or anything it

239

00:08:36,790 --> 00:08:34,880

was just a smooth shell there's

240

00:08:38,230 --> 00:08:36,800

various conflicting reports as to

241

00:08:40,630 --> 00:08:38,240

whether it had the two little legs

242

00:08:42,790 --> 00:08:40,640

underneath i've seen some artists

243

00:08:44,550 --> 00:08:42,800

impressions where they've got four

244

00:08:46,790 --> 00:08:44,560

it's got the two one front one at the

245

00:08:49,030 --> 00:08:46,800

back but then i've heard otherwise that

246

00:08:51,829 --> 00:08:49,040

it just had the smooth kind of shell

247

00:08:53,030 --> 00:08:51,839

so again it's a case of maybe some of

248

00:08:55,350 --> 00:08:53,040

these craft

249

00:08:56,310 --> 00:08:55,360

that are occupied have windows for our

250

00:08:58,070 --> 00:08:56,320

benefit

251
00:08:59,590 --> 00:08:58,080
maybe they've got windows for a purpose

252
00:09:01,350 --> 00:08:59,600
that are just totally

253
00:09:03,190 --> 00:09:01,360
not what we would think maybe they are

254
00:09:04,870 --> 00:09:03,200
even maybe they aren't windows maybe

255
00:09:07,030 --> 00:09:04,880
it's something else but to us it looks

256
00:09:09,509 --> 00:09:07,040
like a window but it will serve some

257
00:09:11,190 --> 00:09:09,519
totally

258
00:09:12,630 --> 00:09:11,200
other function that's just so incredible

259
00:09:14,630 --> 00:09:12,640
that we can even think that oh that's

260
00:09:17,110 --> 00:09:14,640
what it's for yeah we could be missing a

261
00:09:19,030 --> 00:09:17,120
totally basic law of physics that we

262
00:09:20,949 --> 00:09:19,040
aren't even aware of that could allow us

263
00:09:22,870 --> 00:09:20,959

to do everything they're doing very

264

00:09:24,230 --> 00:09:22,880

simply and we just are completely

265

00:09:25,750 --> 00:09:24,240

unaware of it

266

00:09:27,670 --> 00:09:25,760

that's it we're stuck with that kind of

267

00:09:29,350 --> 00:09:27,680

a human problem that we have to go oh

268

00:09:31,430 --> 00:09:29,360

well we would do this so why wouldn't

269

00:09:33,110 --> 00:09:31,440

they it's and it goes it goes the other

270

00:09:35,750 --> 00:09:33,120

way as well though like i've mentioned

271

00:09:38,150 --> 00:09:35,760

several times about oh people argue but

272

00:09:39,750 --> 00:09:38,160

why would these craft crash well why not

273

00:09:41,509 --> 00:09:39,760

why does that have to be infallible just

274

00:09:43,430 --> 00:09:41,519

because the technologies

275

00:09:45,110 --> 00:09:43,440

are seemingly so much further ahead than

276

00:09:47,590 --> 00:09:45,120

others i mean they're not putting petrol

277

00:09:49,030 --> 00:09:47,600

or diesel on these things correct

278

00:09:50,470 --> 00:09:49,040

what we don't know what could or

279

00:09:52,550 --> 00:09:50,480

couldn't go wrong with them

280

00:09:55,110 --> 00:09:52,560

yep if it's something manufactured

281

00:09:57,030 --> 00:09:55,120

there's always a chance of failure

282

00:09:59,350 --> 00:09:57,040

exactly and like you say maybe some of

283

00:10:01,269 --> 00:09:59,360

these things are are some sort of

284

00:10:02,870 --> 00:10:01,279

biological entity i think john talked

285

00:10:04,550 --> 00:10:02,880

about that with me recently as well on

286

00:10:08,069 --> 00:10:04,560

the pod you said some kind of

287

00:10:09,509 --> 00:10:08,079

intergalactic insect why not and why not

288

00:10:11,350 --> 00:10:09,519

that would explain the behavior the

289

00:10:13,350 --> 00:10:11,360

erraticness like i talked about like a

290

00:10:14,790 --> 00:10:13,360

fly when you're trying to swat a fly and

291

00:10:17,030 --> 00:10:14,800

no matter how many times it gets near

292

00:10:18,470 --> 00:10:17,040

you and annoys you it moves out the way

293

00:10:20,230 --> 00:10:18,480

yeah and that's what these tic-tacs seem

294

00:10:22,310 --> 00:10:20,240

to be able to do no matter how close to

295

00:10:23,910 --> 00:10:22,320

get to them they they can shoot off at

296

00:10:25,910 --> 00:10:23,920

incredible speeds and

297

00:10:27,670 --> 00:10:25,920

maybe they see things differently so i'm

298

00:10:28,470 --> 00:10:27,680

i'm with you on that one yeah

299

00:10:30,150 --> 00:10:28,480

yeah

300

00:10:31,910 --> 00:10:30,160

and i do have one more point i want to

301

00:10:33,190 --> 00:10:31,920

respect your time here

302

00:10:34,870 --> 00:10:33,200

and you don't have to answer this if you

303

00:10:36,710 --> 00:10:34,880

don't want to but you're you're getting

304

00:10:39,190 --> 00:10:36,720

a big enough following and i know you

305

00:10:41,670 --> 00:10:39,200

get a lot of praise but what are some of

306

00:10:43,910 --> 00:10:41,680

the criticisms that you get do you see a

307

00:10:46,389 --> 00:10:43,920

common a common denominator in some of

308

00:10:47,190 --> 00:10:46,399

the criticisms you get

309

00:10:49,829 --> 00:10:47,200

um

310

00:10:51,990 --> 00:10:49,839

honestly other than being a mute

311

00:10:53,750 --> 00:10:52,000

yeah um

312

00:10:55,110 --> 00:10:53,760

nah people are pretty i mean i quite

313

00:10:56,790 --> 00:10:55,120

enjoy checking some of the youtube

314

00:10:59,269 --> 00:10:56,800

comments as that's taken off and it's

315

00:11:01,430 --> 00:10:59,279

like someone said the other day it was a

316

00:11:03,350 --> 00:11:01,440

it was a pointless pointless podcast

317

00:11:06,710 --> 00:11:03,360

meaningless podcast

318

00:11:08,230 --> 00:11:06,720

i just said thank you i agree um

319

00:11:10,630 --> 00:11:08,240

but you're never going to please

320

00:11:13,829 --> 00:11:10,640

everyone honestly for me it tends to be

321

00:11:15,509 --> 00:11:13,839

the the accent which is is it doesn't

322

00:11:17,509 --> 00:11:15,519

that generally doesn't bother me nothing

323

00:11:19,350 --> 00:11:17,519

tends to bother me um i think that's

324

00:11:21,350 --> 00:11:19,360

where most of the trolls tend to leave

325

00:11:23,110 --> 00:11:21,360

it alone because they'll see myself and

326

00:11:25,030 --> 00:11:23,120

dan will engage with people in the chats

327

00:11:26,230 --> 00:11:25,040

and it's just like look we'll talk to

328

00:11:27,590 --> 00:11:26,240

you it's fine you know you don't have to

329

00:11:29,350 --> 00:11:27,600

like it thanks for spending the time

330

00:11:31,670 --> 00:11:29,360

listening or watching but

331

00:11:33,829 --> 00:11:31,680

any criticisms tend to be can't

332

00:11:35,269 --> 00:11:33,839

understand the host but if people stick

333

00:11:38,710 --> 00:11:35,279

with it they tend to be okay after a

334

00:11:42,389 --> 00:11:40,949

i am aware i talk very quickly and

335

00:11:44,710 --> 00:11:42,399

everything and it's just a scottish

336

00:11:46,870 --> 00:11:44,720

thing it's our accent um

337

00:11:48,949 --> 00:11:46,880

but i'm kind of slowing that down for

338

00:11:50,550 --> 00:11:48,959

for people so and i'm doing it purposely

339

00:11:52,550 --> 00:11:50,560

now as i talk to you because i'm aware

340

00:11:54,150 --> 00:11:52,560

of it but when you get is i think it's

341

00:11:56,470 --> 00:11:54,160

natural when you get excited about

342

00:11:58,230 --> 00:11:56,480

anything especially this topic and you

343

00:12:00,230 --> 00:11:58,240

get into the floor conversation you

344

00:12:01,829 --> 00:12:00,240

start to pick up pace and like you're

345

00:12:03,750 --> 00:12:01,839

going back and forward joe and i start

346

00:12:05,590 --> 00:12:03,760

to come back on you you come back on me

347

00:12:08,310 --> 00:12:05,600

and it's just natural that happens in

348

00:12:09,990 --> 00:12:08,320

conversation but yeah i've been honestly

349

00:12:11,590 --> 00:12:10,000

really surprised that

350

00:12:13,509 --> 00:12:11,600

the lack of

351

00:12:16,069 --> 00:12:13,519

lack of criticism in that sense like i'm

352

00:12:17,990 --> 00:12:16,079

always open to feedback and and all that

353

00:12:19,590 --> 00:12:18,000

kind of stuff but i think the podcast is

354

00:12:21,269 --> 00:12:19,600

the way it is i think it's worked well

355

00:12:23,670 --> 00:12:21,279

because there's been a lot of it i

356

00:12:25,430 --> 00:12:23,680

haven't planned massively and stuff has

357

00:12:27,269 --> 00:12:25,440

worked well because it's been organic or

358

00:12:29,509 --> 00:12:27,279

it's grown and there's been things i've

359

00:12:31,590 --> 00:12:29,519

started that i've dropped after one one

360

00:12:34,389 --> 00:12:31,600

attempt or one show because ah it didn't

361

00:12:35,430 --> 00:12:34,399

work i didn't feel it or whatever um but

362

00:12:37,750 --> 00:12:35,440

no i

363

00:12:39,430 --> 00:12:37,760

i'm open for for any feedback or

364

00:12:42,310 --> 00:12:39,440

improvements and stuff like that but

365

00:12:43,829 --> 00:12:42,320

it's is trying to keep the podcast away

366

00:12:45,350 --> 00:12:43,839

the way i think it should be in the way

367

00:12:47,110 --> 00:12:45,360

i kind of do it and it's

368

00:12:49,509 --> 00:12:47,120

i suppose the really cheesy one would be

369

00:12:52,790 --> 00:12:49,519

true to myself as people would say but

370

00:12:54,310 --> 00:12:52,800

um but yeah nah any criticism from you

371

00:12:55,990 --> 00:12:54,320

no not at all and actually i think

372

00:12:57,190 --> 00:12:56,000

you're an excellent interviewer and

373

00:12:59,910 --> 00:12:57,200

sometimes you're interviewing some

374

00:13:02,069 --> 00:12:59,920

pretty big guns and uh and you do you do

375

00:13:03,670 --> 00:13:02,079

an excellent job at it

376

00:13:05,110 --> 00:13:03,680

thanks and you know what i try and make

377

00:13:06,470 --> 00:13:05,120

sure i do it differently because

378

00:13:08,550 --> 00:13:06,480

especially in this community there's a

379

00:13:10,550 --> 00:13:08,560

lot of really great channels and and

380

00:13:12,310 --> 00:13:10,560

different channels like you've got like

381

00:13:13,990 --> 00:13:12,320

project unity you've got unidentified

382

00:13:16,310 --> 00:13:14,000

celebrity review christina gomez

383

00:13:18,150 --> 00:13:16,320

somewhere in the skies witness citizens

384

00:13:20,550 --> 00:13:18,160

so there's all these different shows and

385

00:13:22,550 --> 00:13:20,560

a lot of them have their own styles

386

00:13:23,910 --> 00:13:22,560

and at the same time we can all end up

387

00:13:26,069 --> 00:13:23,920

with the same guest

388

00:13:28,629 --> 00:13:26,079

and i always try and make sure that if

389

00:13:30,150 --> 00:13:28,639

people are listening to

390

00:13:32,310 --> 00:13:30,160

an interview so in a couple of weeks

391

00:13:33,670 --> 00:13:32,320

i've got john ramirez who's currently

392

00:13:36,069 --> 00:13:33,680

doing the rounds a little bit you know

393

00:13:37,829 --> 00:13:36,079

former cia i've got questions and i'm

394

00:13:40,710 --> 00:13:37,839

i'm a bit curious about a few different

395

00:13:42,470 --> 00:13:40,720

aspects of the guy himself um but he's

396

00:13:44,470 --> 00:13:42,480

done an interview with sean rash he's

397

00:13:45,750 --> 00:13:44,480

done one with project unity i like to

398

00:13:48,470 --> 00:13:45,760

make sure that when people listen to

399

00:13:50,150 --> 00:13:48,480

mine they've not heard it before correct

400

00:13:51,910 --> 00:13:50,160

and that's that's good with anyone so

401
00:13:53,189 --> 00:13:51,920
because that's what i would want to hear

402
00:13:55,269 --> 00:13:53,199
and that was one of the reasons i

403
00:13:57,269 --> 00:13:55,279
started the podcast so so yeah it seems

404
00:13:58,790 --> 00:13:57,279
to work and and thanks for for saying

405
00:14:00,550 --> 00:13:58,800
i'm a good interviewer it's i'm just

406
00:14:02,230 --> 00:14:00,560
nosy and curious so

407
00:14:04,150 --> 00:14:02,240
that's where it starts but good i won't

408
00:14:05,910 --> 00:14:04,160
take up any more of your time

409
00:14:07,189 --> 00:14:05,920
joe it's been awesome speaking with you

410
00:14:11,350 --> 00:14:07,199
make sure you call in again next time

411
00:14:15,829 --> 00:14:12,949
we're going to move over from joe and

412
00:14:18,069 --> 00:14:15,839
ohio now to james and hastings james

413
00:14:19,189 --> 00:14:18,079

welcome back how are you i'm doing good

414

00:14:20,710 --> 00:14:19,199

how are you

415

00:14:22,150 --> 00:14:20,720

excellent good to hear from you listen

416

00:14:24,230 --> 00:14:22,160

james the floor is yours what do you

417

00:14:26,230 --> 00:14:24,240

want to talk about

418

00:14:29,110 --> 00:14:26,240

so i think um

419

00:14:31,430 --> 00:14:29,120

gravitating from your recent uh meet up

420

00:14:32,629 --> 00:14:31,440

in london with the established lou

421

00:14:33,590 --> 00:14:32,639

elizondo

422

00:14:35,750 --> 00:14:33,600

um

423

00:14:37,269 --> 00:14:35,760

it's sort of emphasizing a thought that

424

00:14:39,030 --> 00:14:37,279

i've had recently the

425

00:14:41,670 --> 00:14:39,040

the the need for real meetups with

426

00:14:44,550 --> 00:14:41,680

people um not necessarily with the the

427

00:14:47,670 --> 00:14:44,560

celebrities like lou but just with the

428

00:14:49,590 --> 00:14:47,680

the people from you know twitter and

429

00:14:50,629 --> 00:14:49,600

anybody else who is interested in the

430

00:14:53,269 --> 00:14:50,639

subject

431

00:14:54,230 --> 00:14:53,279

um it's just important to meet up in

432

00:14:55,910 --> 00:14:54,240

person

433

00:14:58,069 --> 00:14:55,920

um i think the problems that we have on

434

00:15:00,150 --> 00:14:58,079

twitter like for instance uh the the

435

00:15:01,829 --> 00:15:00,160

trolls the the arguments and anything

436

00:15:04,389 --> 00:15:01,839

else going on which just takes up time

437

00:15:07,430 --> 00:15:04,399

unnecessarily this just disappears when

438

00:15:10,230 --> 00:15:07,440

you're mostly in person you you have the

439

00:15:11,670 --> 00:15:10,240

ability to filter very quickly based on

440

00:15:13,509 --> 00:15:11,680

face-to-face interaction and i think

441

00:15:15,910 --> 00:15:13,519

that's that's very important

442

00:15:17,590 --> 00:15:15,920

um yeah so i think going forwards in the

443

00:15:19,189 --> 00:15:17,600

future if if there's some possibility of

444

00:15:20,949 --> 00:15:19,199

doing regular meetups we'll we'll have

445

00:15:22,629 --> 00:15:20,959

to work out how exactly

446

00:15:24,069 --> 00:15:22,639

um but i think it's a probably of great

447

00:15:27,750 --> 00:15:24,079

benefit to the community in the long

448

00:15:30,310 --> 00:15:27,760

term to actually meet up with people

449

00:15:32,150 --> 00:15:30,320

i absolutely agree with you um the the

450

00:15:33,990 --> 00:15:32,160

audience for the podcast is is quite

451

00:15:36,470 --> 00:15:34,000

split usually it's like more than half

452

00:15:38,790 --> 00:15:36,480

is based in the us and obviously i am

453

00:15:41,110 --> 00:15:38,800

not uh and we've got a good chunk of the

454

00:15:43,030 --> 00:15:41,120

audience then based in the uk i know

455

00:15:45,910 --> 00:15:43,040

definitely in the immediate future for

456

00:15:47,670 --> 00:15:45,920

the podcast and for for the gents at uap

457

00:15:49,910 --> 00:15:47,680

media we're looking to arrange some

458

00:15:52,389 --> 00:15:49,920

things for next year where people can

459

00:15:54,870 --> 00:15:52,399

come and meet not not just us but meet

460

00:15:56,870 --> 00:15:54,880

each other um it was really nice when i

461

00:15:59,509 --> 00:15:56,880

was in london last week yeah i got to

462

00:16:01,350 --> 00:15:59,519

meet ryan sprague and lou and the guys

463

00:16:02,949 --> 00:16:01,360

from the group but um some of the

464

00:16:04,949 --> 00:16:02,959

listeners came and met me who were based

465

00:16:06,870 --> 00:16:04,959

in london uh for a coffee while i was

466

00:16:08,230 --> 00:16:06,880

waiting on my train as well and that was

467

00:16:09,910 --> 00:16:08,240

really nice and like you see it's just

468

00:16:11,509 --> 00:16:09,920

meeting people face to face and and

469

00:16:13,509 --> 00:16:11,519

seeing them and talking through stuff

470

00:16:14,629 --> 00:16:13,519

and it's really good to do that and i

471

00:16:17,030 --> 00:16:14,639

think you're right it would maybe

472

00:16:18,870 --> 00:16:17,040

alleviate a lot of the

473

00:16:20,790 --> 00:16:18,880

the tensions that sometimes happen and

474

00:16:23,110 --> 00:16:20,800

people build up not necessarily

475

00:16:26,389 --> 00:16:23,120

characters but it builds up online

476

00:16:28,230 --> 00:16:26,399

behind 280 character you know texts

477

00:16:31,269 --> 00:16:28,240

and people can lose a lot of context and

478

00:16:32,870 --> 00:16:31,279

messages and i am all for healthy debate

479

00:16:34,470 --> 00:16:32,880

and i've had a few times where people

480

00:16:36,230 --> 00:16:34,480

say i'm really sorry to argue and i'm

481

00:16:38,230 --> 00:16:36,240

like don't be it doesn't have to be an

482

00:16:39,829 --> 00:16:38,240

argument you can just debate and go back

483

00:16:41,269 --> 00:16:39,839

and forward and you know it's

484

00:16:43,749 --> 00:16:41,279

interesting because that's how you can

485

00:16:45,829 --> 00:16:43,759

learn and change and form a new opinion

486

00:16:47,670 --> 00:16:45,839

um or you can just agree to disagree and

487

00:16:50,389 --> 00:16:47,680

go do you know what you think this i

488

00:16:52,230 --> 00:16:50,399

think this then brilliant but i think

489

00:16:53,590 --> 00:16:52,240

with things getting more back to normal

490

00:16:55,670 --> 00:16:53,600

i think there'll be a lot more meetups

491

00:16:57,749 --> 00:16:55,680

next year i know there's a few events

492

00:17:00,230 --> 00:16:57,759

already planned for the uk

493

00:17:02,790 --> 00:17:00,240

it would be great personally if if i

494

00:17:05,510 --> 00:17:02,800

could get something on myself i would

495

00:17:06,390 --> 00:17:05,520

like to do that but we'll we'll see

496

00:17:07,669 --> 00:17:06,400

that's

497

00:17:08,870 --> 00:17:07,679

early days for all that stuff but

498

00:17:10,870 --> 00:17:08,880

there's a few things i'll be looking to

499

00:17:12,549 --> 00:17:10,880

get along to next year that other people

500

00:17:14,630 --> 00:17:12,559

are putting on even if we don't get to

501
00:17:18,390 --> 00:17:14,640
do something ourselves and it'd be again

502
00:17:22,150 --> 00:17:18,400
great to meet people face to face yeah

503
00:17:24,470 --> 00:17:22,160
couldn't agree more um second point um

504
00:17:26,949 --> 00:17:24,480
i noticed recently or it occurred to me

505
00:17:27,829 --> 00:17:26,959
that the the the frequency of cancers

506
00:17:29,190 --> 00:17:27,839
among

507
00:17:30,950 --> 00:17:29,200
people who have been in very close

508
00:17:33,510 --> 00:17:30,960
contact with

509
00:17:35,990 --> 00:17:33,520
something ufo related seems to be a

510
00:17:38,630 --> 00:17:36,000
little bit too high and this is

511
00:17:40,070 --> 00:17:38,640
dangerous because um sort of thinking

512
00:17:42,549 --> 00:17:40,080
about

513
00:17:43,990 --> 00:17:42,559

uh just taking up you know things that

514

00:17:45,590 --> 00:17:44,000

you've picked up from twitter or

515

00:17:46,710 --> 00:17:45,600

elsewhere is not necessarily real

516

00:17:48,630 --> 00:17:46,720

information

517

00:17:50,870 --> 00:17:48,640

but off the top of my head there was

518

00:17:53,669 --> 00:17:50,880

chase who you interviewed who was a

519

00:17:55,750 --> 00:17:53,679

mufon investigator

520

00:17:57,430 --> 00:17:55,760

one of the encounters in the skinwalkers

521

00:17:59,270 --> 00:17:57,440

book recently

522

00:18:01,110 --> 00:17:59,280

they were describing the person who had

523

00:18:02,470 --> 00:18:01,120

cancer as well as a result of the the

524

00:18:03,909 --> 00:18:02,480

blue orbs

525

00:18:04,710 --> 00:18:03,919

encounter

526

00:18:07,270 --> 00:18:04,720

um

527

00:18:08,710 --> 00:18:07,280

like a biotech engineer yeah yes this

528

00:18:10,710 --> 00:18:08,720

guy and

529

00:18:12,789 --> 00:18:10,720

um if i remember correctly i think

530

00:18:15,270 --> 00:18:12,799

stephen greer had a personal friend who

531

00:18:17,669 --> 00:18:15,280

also died of some

532

00:18:19,430 --> 00:18:17,679

i don't know how rare the cancer was

533

00:18:21,350 --> 00:18:19,440

just from a statistical point of view it

534

00:18:22,789 --> 00:18:21,360

would be very interesting if we could

535

00:18:24,549 --> 00:18:22,799

get a little bit more data on that and

536

00:18:26,310 --> 00:18:24,559

that's difficult because it's personal

537

00:18:28,789 --> 00:18:26,320

medical data but

538

00:18:30,390 --> 00:18:28,799

rare cancers can be extraordinarily rare

539

00:18:31,590 --> 00:18:30,400

in the order of you know one in a

540

00:18:33,510 --> 00:18:31,600

million or

541

00:18:35,590 --> 00:18:33,520

or even less frequent than that

542

00:18:37,590 --> 00:18:35,600

it'd be very interesting if there was in

543

00:18:39,270 --> 00:18:37,600

fact a collection of people who say that

544

00:18:40,630 --> 00:18:39,280

they've had encounters which were

545

00:18:42,870 --> 00:18:40,640

particularly close

546

00:18:45,190 --> 00:18:42,880

and they've had particularly rare forms

547

00:18:47,029 --> 00:18:45,200

of cancer it would be

548

00:18:48,950 --> 00:18:47,039

quite easy to do the statistics on that

549

00:18:51,270 --> 00:18:48,960

and work out that that was highly

550

00:18:52,950 --> 00:18:51,280

unlikely it would be a very interesting

551
00:18:54,710 --> 00:18:52,960
data point if it was possible to gather

552
00:18:56,870 --> 00:18:54,720
this data

553
00:19:00,150 --> 00:18:56,880
yeah i think like you touched on there

554
00:19:01,990 --> 00:19:00,160
with the the skinwalker ranch uh

555
00:19:04,230 --> 00:19:02,000
incident not necessarily it was on the

556
00:19:06,630 --> 00:19:04,240
ranch but it wasn't involved in the book

557
00:19:09,510 --> 00:19:06,640
uh the the biotech engineer like you say

558
00:19:11,909 --> 00:19:09,520
got a rare form of of cancer luckily it

559
00:19:13,669 --> 00:19:11,919
was treatable um you've got patient

560
00:19:16,310 --> 00:19:13,679
confidentiality which is always going to

561
00:19:18,470 --> 00:19:16,320
affect these things but i think when you

562
00:19:20,710 --> 00:19:18,480
hear them talking about a governmental

563
00:19:22,710 --> 00:19:20,720

level you know biological effects being

564

00:19:24,070 --> 00:19:22,720

one of the observables now

565

00:19:26,470 --> 00:19:24,080

that's what they're looking at people

566

00:19:28,230 --> 00:19:26,480

getting these illnesses from it

567

00:19:30,630 --> 00:19:28,240

and it got me thinking james i i was

568

00:19:32,310 --> 00:19:30,640

watching last night uh a documentary

569

00:19:34,230 --> 00:19:32,320

that's coming out soon and one of the

570

00:19:36,870 --> 00:19:34,240

talking heads was talking about

571

00:19:37,669 --> 00:19:36,880

experiencers and you know all these all

572

00:19:39,669 --> 00:19:37,679

these

573

00:19:41,909 --> 00:19:39,679

wonderful experiences people have had

574

00:19:45,029 --> 00:19:41,919

about going on board craft and in

575

00:19:46,950 --> 00:19:45,039

meeting beings and orbs and all this all

576

00:19:49,270 --> 00:19:46,960

that stuff very much on the love and

577

00:19:51,430 --> 00:19:49,280

light side of things

578

00:19:53,510 --> 00:19:51,440

but it makes you wonder are any of these

579

00:19:55,669 --> 00:19:53,520

people getting ill as well because what

580

00:19:58,390 --> 00:19:55,679

we are hearing is that whether it's

581

00:20:00,390 --> 00:19:58,400

intent it's meant to happen or not

582

00:20:02,230 --> 00:20:00,400

people do get ill from

583

00:20:03,270 --> 00:20:02,240

contact or close contact with these

584

00:20:05,190 --> 00:20:03,280

objects

585

00:20:07,270 --> 00:20:05,200

so there's a real question there for me

586

00:20:09,909 --> 00:20:07,280

of why do some people tend to get ill

587

00:20:11,750 --> 00:20:09,919

and some people don't

588

00:20:13,110 --> 00:20:11,760

the obvious one would be are some of

589

00:20:15,510 --> 00:20:13,120

these people who are claiming to have

590

00:20:17,990 --> 00:20:15,520

these experiences who aren't getting ill

591

00:20:20,230 --> 00:20:18,000

are they all being completely genuine

592

00:20:22,390 --> 00:20:20,240

is it a case for when you're having

593

00:20:24,310 --> 00:20:22,400

experiences or not necessarily

594

00:20:25,750 --> 00:20:24,320

abductions but you know a positive that

595

00:20:27,430 --> 00:20:25,760

someone claims have been on board a

596

00:20:30,390 --> 00:20:27,440

craft and have gone to a different star

597

00:20:32,710 --> 00:20:30,400

system as a case of if it's

598

00:20:34,230 --> 00:20:32,720

a subconscious thing then there's no

599

00:20:36,470 --> 00:20:34,240

physical effects but when it's the

600

00:20:38,310 --> 00:20:36,480

physical body then is that when people

601
00:20:40,870 --> 00:20:38,320
start to get ill because our our own

602
00:20:43,750 --> 00:20:40,880
bodies can't handle whatever it is that

603
00:20:45,590 --> 00:20:43,760
maybe makes these craft go or

604
00:20:47,430 --> 00:20:45,600
just traveling through the universe or

605
00:20:49,510 --> 00:20:47,440
universities so there's a lot of

606
00:20:52,070 --> 00:20:49,520
questions to go on and i suppose you can

607
00:20:53,590 --> 00:20:52,080
go down a massive rabbit hole with it um

608
00:20:55,430 --> 00:20:53,600
maybe just different beings different

609
00:20:56,390 --> 00:20:55,440
craft to have different effects on us

610
00:20:58,630 --> 00:20:56,400
but

611
00:21:00,390 --> 00:20:58,640
what do you think yourself

612
00:21:04,310 --> 00:21:00,400
i i don't know but i think it'd be

613
00:21:08,870 --> 00:21:04,320

interesting to to separate them because

614

00:21:10,870 --> 00:21:08,880

potentially the intent of the phenomenon

615

00:21:12,630 --> 00:21:10,880

could be related to whether you are in

616

00:21:15,590 --> 00:21:12,640

danger or not if they're if they're

617

00:21:17,590 --> 00:21:15,600

doing the the mental based sort of

618

00:21:19,350 --> 00:21:17,600

extraction of your consciousness and

619

00:21:21,750 --> 00:21:19,360

taking you off somewhere else

620

00:21:23,510 --> 00:21:21,760

and doing that presumably you're not at

621

00:21:24,630 --> 00:21:23,520

risk of getting cancer or something like

622

00:21:26,710 --> 00:21:24,640

that

623

00:21:29,270 --> 00:21:26,720

the other encounters where you're

624

00:21:32,070 --> 00:21:29,280

actually interacting very closely

625

00:21:33,750 --> 00:21:32,080

is that a different type of

626
00:21:36,549 --> 00:21:33,760
person who is doing that

627
00:21:38,630 --> 00:21:36,559
using the term loosely um

628
00:21:41,669 --> 00:21:38,640
maybe the intent is different

629
00:21:43,430 --> 00:21:41,679
so i don't know it's interesting

630
00:21:46,310 --> 00:21:43,440
sure and you had one more point uh

631
00:21:47,669 --> 00:21:46,320
regarding a book is that correct james

632
00:21:48,950 --> 00:21:47,679
so i think

633
00:21:50,630 --> 00:21:48,960
i've thought this for a little while now

634
00:21:53,430 --> 00:21:50,640
i think that it's kind of the time where

635
00:21:56,390 --> 00:21:53,440
we we need to get a good coffee book out

636
00:21:59,830 --> 00:21:56,400
there somehow something with potentially

637
00:22:01,830 --> 00:21:59,840
lots of images and and glossy text but

638
00:22:03,909 --> 00:22:01,840

something that might be a little bit

639

00:22:06,230 --> 00:22:03,919

more applicable to the general person

640

00:22:07,909 --> 00:22:06,240

sitting in in a coffee store

641

00:22:09,029 --> 00:22:07,919

uh or

642

00:22:11,029 --> 00:22:09,039

um

643

00:22:12,470 --> 00:22:11,039

you know your local book publisher

644

00:22:15,830 --> 00:22:12,480

something

645

00:22:18,149 --> 00:22:15,840

which gives you a good high level

646

00:22:19,909 --> 00:22:18,159

overview something which doesn't go too

647

00:22:22,549 --> 00:22:19,919

deep and something which focuses on the

648

00:22:25,510 --> 00:22:22,559

main facts that we can generally verify

649

00:22:26,630 --> 00:22:25,520

fairly obviously and easily it's things

650

00:22:28,470 --> 00:22:26,640

which are sort of more generally

651
00:22:30,789 --> 00:22:28,480
accepted than necessarily going down too

652
00:22:33,750 --> 00:22:30,799
much for the woo subject but it sort of

653
00:22:35,830 --> 00:22:33,760
feels like we need this sort of book um

654
00:22:37,270 --> 00:22:35,840
if there's somebody out there who's in

655
00:22:37,990 --> 00:22:37,280
the right position to do this sort of

656
00:22:40,390 --> 00:22:38,000
thing

657
00:22:42,149 --> 00:22:40,400
um i'm offering my time to to help put

658
00:22:45,270 --> 00:22:42,159
that together in some way

659
00:22:47,029 --> 00:22:45,280
um and you know publish that i know um

660
00:22:49,750 --> 00:22:47,039
graham for instance he's put together

661
00:22:52,549 --> 00:22:49,760
the the wonderful foo fighters book uh

662
00:22:54,549 --> 00:22:52,559
and it's amazing but it's very very deep

663
00:22:56,470 --> 00:22:54,559

it's very detailed and the time

664

00:22:58,390 --> 00:22:56,480

investment is very high

665

00:22:59,510 --> 00:22:58,400

and i think generally in this subject if

666

00:23:01,750 --> 00:22:59,520

you want to get into it the time

667

00:23:03,510 --> 00:23:01,760

investment is still really high

668

00:23:06,390 --> 00:23:03,520

and to kind of get this applicable to a

669

00:23:07,110 --> 00:23:06,400

wider audience it needs to have a kind

670

00:23:10,950 --> 00:23:07,120

of

671

00:23:12,470 --> 00:23:10,960

20-minute deep dive into the subject

672

00:23:13,350 --> 00:23:12,480

without going too deep

673

00:23:15,270 --> 00:23:13,360

um

674

00:23:17,029 --> 00:23:15,280

so i'm just putting it out there and uh

675

00:23:19,990 --> 00:23:17,039

maybe maybe we can start something i

676

00:23:23,990 --> 00:23:21,590

yeah so so that that's a really

677

00:23:25,909 --> 00:23:24,000

interesting one that's something i i

678

00:23:28,230 --> 00:23:25,919

will never claim to be a writer or

679

00:23:29,990 --> 00:23:28,240

anything like that but i've had an idea

680

00:23:32,870 --> 00:23:30,000

not too dissimilar to what you're

681

00:23:35,029 --> 00:23:32,880

talking about um that i reckon i could

682

00:23:36,870 --> 00:23:35,039

put together and it wouldn't be anything

683

00:23:39,029 --> 00:23:36,880

like the books that we see released by

684

00:23:41,990 --> 00:23:39,039

you know graham or ryan sprague or these

685

00:23:44,070 --> 00:23:42,000

types of authors but something aimed at

686

00:23:45,830 --> 00:23:44,080

people getting into the subject

687

00:23:48,230 --> 00:23:45,840

easy to pick up and put down you see

688

00:23:49,990 --> 00:23:48,240

that kind of coffee book type a coffee

689

00:23:52,630 --> 00:23:50,000

table type book where they can flick

690

00:23:53,830 --> 00:23:52,640

through it having a coffee you know even

691

00:23:55,430 --> 00:23:53,840

you get those books that people keep in

692

00:23:57,269 --> 00:23:55,440

their toilet that they can sit and

693

00:23:59,830 --> 00:23:57,279

guests can have a flick through as well

694

00:24:02,390 --> 00:23:59,840

that's not massively detailed but it's a

695

00:24:04,149 --> 00:24:02,400

nice introduction to the subject and

696

00:24:05,830 --> 00:24:04,159

something they can pick through so but

697

00:24:07,750 --> 00:24:05,840

yeah it's an interesting idea if someone

698

00:24:09,750 --> 00:24:07,760

else gets that out then i'm sure there's

699

00:24:11,269 --> 00:24:09,760

room for plenty of them but i've i've

700

00:24:12,470 --> 00:24:11,279

had a couple of ideas myself on that

701
00:24:14,070 --> 00:24:12,480
james so it's interesting you bring that

702
00:24:16,390 --> 00:24:14,080
one up

703
00:24:20,950 --> 00:24:16,400
it's actually the uh it's the best

704
00:24:25,029 --> 00:24:23,110
yeah but listen james great speaking

705
00:24:26,710 --> 00:24:25,039
with you and uh make sure you call on

706
00:24:29,350 --> 00:24:26,720
again next time okay mate

707
00:24:31,669 --> 00:24:29,360
thank you very much

708
00:24:33,830 --> 00:24:31,679
thanks to james and hastings we're

709
00:24:35,909 --> 00:24:33,840
heading back over to the united states

710
00:24:37,110 --> 00:24:35,919
and we have carl joining us carl how are

711
00:24:39,269 --> 00:24:37,120
we doing today

712
00:24:40,870 --> 00:24:39,279
i'm well andy thank you how are you i am

713
00:24:42,230 --> 00:24:40,880

very well almost like we're doing this

714

00:24:44,149 --> 00:24:42,240

for the second time after a slight

715

00:24:46,230 --> 00:24:44,159

technical issue isn't it you know me i'm

716

00:24:49,029 --> 00:24:46,240

always want to be honest but listen uh

717

00:24:50,630 --> 00:24:49,039

carl i had my eyebrows raised on your

718

00:24:51,909 --> 00:24:50,640

submission for the call-in because you

719

00:24:54,789 --> 00:24:51,919

mentioned you want to talk about

720

00:24:57,190 --> 00:24:54,799

thunderstorms time portals and creating

721

00:24:58,549 --> 00:24:57,200

more bubbles in a lab that's uh that's

722

00:25:00,870 --> 00:24:58,559

some interesting stuff to be talking

723

00:25:02,870 --> 00:25:00,880

about so the floor is yours what do you

724

00:25:04,390 --> 00:25:02,880

want to talk about on that first

725

00:25:04,860 --> 00:25:04,400

yeah thanks andy i

726

00:25:06,149 --> 00:25:04,870

um

727

00:25:07,909 --> 00:25:06,159

[Music]

728

00:25:11,510 --> 00:25:07,919

you know hey love the show thanks for

729

00:25:13,350 --> 00:25:11,520

having me back on so time uh time

730

00:25:15,669 --> 00:25:13,360

dilation warp bubbles and thunderstorms

731

00:25:18,149 --> 00:25:15,679

uh so a couple weeks ago

732

00:25:19,430 --> 00:25:18,159

i was on the apec conference the

733

00:25:21,430 --> 00:25:19,440

advanced propulsion engineering

734

00:25:23,590 --> 00:25:21,440

conference and the gentleman named david

735

00:25:27,029 --> 00:25:23,600

perez came on and talked about his

736

00:25:31,830 --> 00:25:29,669

with warp bubbles and um and a device

737

00:25:34,870 --> 00:25:31,840

that is seemingly um

738

00:25:36,549 --> 00:25:34,880

moving uh moving through space uh just

739

00:25:38,950 --> 00:25:36,559

using electricity

740

00:25:42,149 --> 00:25:38,960

so his research started out with some

741

00:25:44,230 --> 00:25:42,159

observations about uh thunderstorms

742

00:25:45,510 --> 00:25:44,240

specifically when two thunderstorms

743

00:25:48,549 --> 00:25:45,520

collide

744

00:25:50,870 --> 00:25:48,559

and some historical accounts of pilots

745

00:25:53,350 --> 00:25:50,880

experiencing time dilation

746

00:25:54,470 --> 00:25:53,360

uh when they fly through

747

00:25:56,390 --> 00:25:54,480

um

748

00:25:59,110 --> 00:25:56,400

basically a tunnel

749

00:26:00,230 --> 00:25:59,120

that forms when um these thunderstorms

750

00:26:01,350 --> 00:26:00,240

collide

751
00:26:04,070 --> 00:26:01,360
and

752
00:26:06,549 --> 00:26:04,080
what david realized was that these

753
00:26:10,789 --> 00:26:06,559
thunderstorms are producing antimatter

754
00:26:13,350 --> 00:26:10,799
uh which uh he seemingly uh has evidence

755
00:26:17,029 --> 00:26:13,360
for um through nasa

756
00:26:18,549 --> 00:26:17,039
and um he took that research um kind of

757
00:26:20,630 --> 00:26:18,559
tracking i should say it's really

758
00:26:22,630 --> 00:26:20,640
interesting he actually correlated these

759
00:26:25,190 --> 00:26:22,640
events with um

760
00:26:27,909 --> 00:26:25,200
with solar wind and high-speed solar

761
00:26:29,350 --> 00:26:27,919
winds and so it's just even fascinating

762
00:26:31,190 --> 00:26:29,360
to think about the idea that

763
00:26:33,510 --> 00:26:31,200

thunderstorms are tapping into solar

764

00:26:34,630 --> 00:26:33,520

winds and and maybe that's where all of

765

00:26:36,950 --> 00:26:34,640

this

766

00:26:38,470 --> 00:26:36,960

power magnitude that is is necessary

767

00:26:41,110 --> 00:26:38,480

it's coming from

768

00:26:42,549 --> 00:26:41,120

um and so he took this idea and back to

769

00:26:45,510 --> 00:26:42,559

the lab and

770

00:26:47,669 --> 00:26:45,520

and created a device that replicated the

771

00:26:50,070 --> 00:26:47,679

fields of the thunderstorms

772

00:26:51,190 --> 00:26:50,080

and has produced experimentally a warp

773

00:26:52,870 --> 00:26:51,200

bubble

774

00:26:56,230 --> 00:26:52,880

that will

775

00:27:00,950 --> 00:26:56,240

compress space in front of the device

776

00:27:01,909 --> 00:27:00,960

and pull the device forward

777

00:27:04,630 --> 00:27:01,919

that's

778

00:27:06,870 --> 00:27:04,640

a little bit uh you're sound much more

779

00:27:08,630 --> 00:27:06,880

scientifically astute than myself but

780

00:27:11,510 --> 00:27:08,640

when bob lazar talked about how the

781

00:27:13,269 --> 00:27:11,520

crafts move that it's the space in front

782

00:27:14,950 --> 00:27:13,279

of them is pushed down he used the

783

00:27:16,950 --> 00:27:14,960

bowling ball analogy of putting your

784

00:27:18,789 --> 00:27:16,960

fist in front of a bowling ball and the

785

00:27:20,549 --> 00:27:18,799

object would fall into the space but

786

00:27:22,789 --> 00:27:20,559

keep falling into the space because the

787

00:27:24,630 --> 00:27:22,799

space is continually being moved in

788

00:27:26,710 --> 00:27:24,640

front of it and it's interesting i know

789

00:27:29,110 --> 00:27:26,720

you said it was a very very small amount

790

00:27:31,110 --> 00:27:29,120

the object moved but i've seen videos

791

00:27:33,190 --> 00:27:31,120

recently as well where they're using

792

00:27:35,190 --> 00:27:33,200

like sound waves to suspend water

793

00:27:36,870 --> 00:27:35,200

droplets in there and you see the water

794

00:27:39,909 --> 00:27:36,880

droplets being placed on top of each

795

00:27:41,830 --> 00:27:39,919

other and they hover and do you suppose

796

00:27:44,070 --> 00:27:41,840

we're at the very early stages or the

797

00:27:45,909 --> 00:27:44,080

infancy of tapping into this sort of

798

00:27:48,710 --> 00:27:45,919

technology that these craft may be using

799

00:27:50,870 --> 00:27:48,720

is that what you're thinking so yeah is

800

00:27:52,549 --> 00:27:50,880

this man-made i think there's a a

801
00:27:55,590 --> 00:27:52,559
definite possibility that it could be

802
00:27:58,070 --> 00:27:55,600
you know i think that if if these are uh

803
00:28:00,870 --> 00:27:58,080
if the laws of physics that tic-tacs are

804
00:28:03,590 --> 00:28:00,880
using is accessible in our universe

805
00:28:05,590 --> 00:28:03,600
then eventually it will be manmade and

806
00:28:07,669 --> 00:28:05,600
um if people have been

807
00:28:09,269 --> 00:28:07,679
thinking about these ideas and these

808
00:28:10,310 --> 00:28:09,279
laws of physics for

809
00:28:12,470 --> 00:28:10,320
more than

810
00:28:13,909 --> 00:28:12,480
10 years then yeah i think there's a

811
00:28:17,029 --> 00:28:13,919
really good chance that somebody

812
00:28:17,830 --> 00:28:17,039
probably has cracked this um

813
00:28:20,549 --> 00:28:17,840

so

814

00:28:22,070 --> 00:28:20,559

we're probably playing catch up

815

00:28:23,590 --> 00:28:22,080

how do we get to that point though do

816

00:28:25,190 --> 00:28:23,600

you think because if you've got someone

817

00:28:27,590 --> 00:28:25,200

like david who's managing to create

818

00:28:29,510 --> 00:28:27,600

these at that very base level

819

00:28:31,750 --> 00:28:29,520

surely you've then got

820

00:28:32,870 --> 00:28:31,760

and forget the the conspiracy side of it

821

00:28:35,350 --> 00:28:32,880

that the government's got this

822

00:28:37,909 --> 00:28:35,360

technology why doesn't someone like elon

823

00:28:39,750 --> 00:28:37,919

musk who clearly doesn't care about

824

00:28:41,510 --> 00:28:39,760

governments and all that kind of stuff

825

00:28:43,909 --> 00:28:41,520

who is sending these rockets up into

826

00:28:45,590 --> 00:28:43,919

space still with a level of fuel and all

827

00:28:47,590 --> 00:28:45,600

at a great expense

828

00:28:48,310 --> 00:28:47,600

why doesn't he do you think looking at

829

00:28:51,669 --> 00:28:48,320

this

830

00:28:52,630 --> 00:28:51,679

sort of you know propulsion

831

00:28:54,789 --> 00:28:52,640

well

832

00:28:57,430 --> 00:28:54,799

i don't know uh maybe he is and he's not

833

00:29:00,149 --> 00:28:57,440

talking about it um i think that's

834

00:29:01,510 --> 00:29:00,159

certainly reasonable but i think that

835

00:29:02,549 --> 00:29:01,520

the realm of what they have is

836

00:29:04,389 --> 00:29:02,559

functional

837

00:29:05,669 --> 00:29:04,399

in terms of rocketry far exceeds where

838

00:29:07,510 --> 00:29:05,679

we're at right now so if they need

839

00:29:10,389 --> 00:29:07,520

something to utilize

840

00:29:13,269 --> 00:29:10,399

they have rockets that are they're

841

00:29:15,350 --> 00:29:13,279

making advances on and perfecting um and

842

00:29:16,630 --> 00:29:15,360

i i actually think that that no matter

843

00:29:18,710 --> 00:29:16,640

the scenario

844

00:29:20,389 --> 00:29:18,720

i think for long distance travel you're

845

00:29:21,510 --> 00:29:20,399

probably gonna need rockets uh for

846

00:29:24,470 --> 00:29:21,520

dealing with

847

00:29:26,470 --> 00:29:24,480

uh you know my new you know fine-tuned

848

00:29:28,149 --> 00:29:26,480

uh things

849

00:29:29,029 --> 00:29:28,159

um and

850

00:29:30,549 --> 00:29:29,039

you know

851

00:29:31,669 --> 00:29:30,559

even if gravity propulsion is possible

852

00:29:33,750 --> 00:29:31,679

you're probably gonna need a combination

853

00:29:35,350 --> 00:29:33,760

of both technologies

854

00:29:37,350 --> 00:29:35,360

yeah not a really good shot some really

855

00:29:39,430 --> 00:29:37,360

good points as well carl um thanks for

856

00:29:40,710 --> 00:29:39,440

persisting with the tech issues um good

857

00:29:45,830 --> 00:29:40,720

speaking with you and i'll speak to you

858

00:29:50,630 --> 00:29:48,870

we are carrying on with the colin show

859

00:29:53,190 --> 00:29:50,640

dan has joined me now for the call-in

860

00:29:54,870 --> 00:29:53,200

dan welcome to the podcast eventually

861

00:29:56,870 --> 00:29:54,880

you you almost caught me on mute then

862

00:29:59,190 --> 00:29:56,880

but uh where i move my mouse quick it's

863

00:30:01,190 --> 00:29:59,200

nice to be here oh almost on me well

864

00:30:02,710 --> 00:30:01,200

done dan was seeing the eternal's this

865

00:30:04,389 --> 00:30:02,720

afternoon we'll have that conversation

866

00:30:07,510 --> 00:30:04,399

another time because joining us on the

867

00:30:09,269 --> 00:30:07,520

line is phil from malibu california phil

868

00:30:11,110 --> 00:30:09,279

welcome to the podcast

869

00:30:13,269 --> 00:30:11,120

thanks for having me guys

870

00:30:14,070 --> 00:30:13,279

it's very good to have you um you may

871

00:30:15,590 --> 00:30:14,080

hear

872

00:30:17,590 --> 00:30:15,600

and i'm talking to you phil and the

873

00:30:19,510 --> 00:30:17,600

listeners listening to this now some

874

00:30:21,350 --> 00:30:19,520

popping in the background as we record

875

00:30:23,750 --> 00:30:21,360

this we are right slap bang in the

876

00:30:25,750 --> 00:30:23,760

middle of fireworks night in the uk so

877

00:30:27,510 --> 00:30:25,760

uh myself and dan have decided to record

878

00:30:29,909 --> 00:30:27,520

at a time when the whole of the uk are

879

00:30:31,269 --> 00:30:29,919

letting off loud explosions in the air

880

00:30:33,350 --> 00:30:31,279

so apologies if you hear that in the

881

00:30:35,430 --> 00:30:33,360

background but phil listen the floor is

882

00:30:37,350 --> 00:30:35,440

yours what do you want to talk about

883

00:30:39,190 --> 00:30:37,360

well first of all i want to thanks thank

884

00:30:41,430 --> 00:30:39,200

you guys because you have a great a

885

00:30:42,549 --> 00:30:41,440

great show um i'm one of those people

886

00:30:44,630 --> 00:30:42,559

that

887

00:30:46,789 --> 00:30:44,640

never believed in

888

00:30:49,029 --> 00:30:46,799

ufos i thought anybody was abducted was

889

00:30:50,710 --> 00:30:49,039

probably on drugs of some sort

890

00:30:53,430 --> 00:30:50,720

and you know just

891

00:30:55,510 --> 00:30:53,440

never never really did the research uh

892

00:30:57,509 --> 00:30:55,520

had never even heard of

893

00:31:00,470 --> 00:30:57,519

a cattle mutilation

894

00:31:02,230 --> 00:31:00,480

until a few months ago uh

895

00:31:03,830 --> 00:31:02,240

and my brother dad they hadn't heard of

896

00:31:06,310 --> 00:31:03,840

it you know and you start asking about

897

00:31:08,230 --> 00:31:06,320

this and and so i appreciate what you

898

00:31:09,430 --> 00:31:08,240

guys are doing you guys bring a very

899

00:31:11,750 --> 00:31:09,440

common

900

00:31:14,310 --> 00:31:11,760

sense uh logical

901
00:31:15,830 --> 00:31:14,320
uh take to the table so i appreciate it

902
00:31:17,590 --> 00:31:15,840
uh thank you

903
00:31:19,509 --> 00:31:17,600
the the question i want one of the

904
00:31:21,990 --> 00:31:19,519
things that

905
00:31:24,230 --> 00:31:22,000
i i think is so intriguing are are the

906
00:31:26,789 --> 00:31:24,240
facts and i like that you guys stay on

907
00:31:28,870 --> 00:31:26,799
the facts of

908
00:31:30,710 --> 00:31:28,880
and i you know like to know what's hoax

909
00:31:32,389 --> 00:31:30,720
and what isn't but i think what was so

910
00:31:34,470 --> 00:31:32,399
intriguing about the nimitz

911
00:31:36,470 --> 00:31:34,480
episode and i you know you hear about

912
00:31:37,830 --> 00:31:36,480
the tic tac and the shape and things

913
00:31:40,630 --> 00:31:37,840

like that

914

00:31:42,950 --> 00:31:40,640

the the question i have i have a ten

915

00:31:44,149 --> 00:31:42,960

questions but i'll start with one

916

00:31:47,110 --> 00:31:44,159

is

917

00:31:49,350 --> 00:31:47,120

that the the point that kevin day was so

918

00:31:53,110 --> 00:31:49,360

amazed by and it's what david fravor

919

00:31:55,909 --> 00:31:53,120

said made his hair stand on end

920

00:31:57,909 --> 00:31:55,919

was the fact that after he did his

921

00:32:01,350 --> 00:31:57,919

downward spiral

922

00:32:03,830 --> 00:32:01,360

and kind of engaged the tic tac

923

00:32:06,149 --> 00:32:03,840

that it bolted and went due west and

924

00:32:10,230 --> 00:32:06,159

it's kind of off the coast of where i

925

00:32:13,269 --> 00:32:10,240

live and we i know what where it went

926

00:32:18,230 --> 00:32:13,279

the reports are it went

927

00:32:20,310 --> 00:32:18,240

two to five seconds it traveled 60 miles

928

00:32:22,549 --> 00:32:20,320

okay but more importantly so if you do

929

00:32:24,950 --> 00:32:22,559

the math it's a hundred to two hundred

930

00:32:27,029 --> 00:32:24,960

thousand miles an hour

931

00:32:30,149 --> 00:32:27,039

so i wanna know if those facts were

932

00:32:35,430 --> 00:32:30,159

right the other thing was the crazy part

933

00:32:38,470 --> 00:32:35,440

is that it went to a predetermined area

934

00:32:40,470 --> 00:32:38,480

that only a handful of people in the top

935

00:32:43,350 --> 00:32:40,480

parts of the military on the top you

936

00:32:45,430 --> 00:32:43,360

know the leaders of the ship knew about

937

00:32:48,549 --> 00:32:45,440

so the question was

938

00:32:51,269 --> 00:32:48,559

was the information in his brain

939

00:32:52,710 --> 00:32:51,279

or was it pre-programmed into the plane

940

00:32:54,710 --> 00:32:52,720

because

941

00:32:57,590 --> 00:32:54,720

common sense tells you

942

00:33:00,310 --> 00:32:57,600

it read either his brain or he knew

943

00:33:02,789 --> 00:33:00,320

where to go or it read the computer

944

00:33:04,310 --> 00:33:02,799

program that was pre-programmed in the

945

00:33:07,269 --> 00:33:04,320

plane

946

00:33:09,990 --> 00:33:07,279

and that is do you know offhand if it

947

00:33:12,389 --> 00:33:10,000

was a pre-programmed destination or if

948

00:33:14,310 --> 00:33:12,399

it was just in his mindset where he knew

949

00:33:16,149 --> 00:33:14,320

he was going next

950

00:33:17,509 --> 00:33:16,159

yeah so i believe

951
00:33:19,350 --> 00:33:17,519
and it's something that's brought up

952
00:33:21,909 --> 00:33:19,360
quite often phil and as a big talking

953
00:33:25,509 --> 00:33:21,919
point in this whole whole event the cap

954
00:33:28,389 --> 00:33:25,519
point had been used for a few days at

955
00:33:31,430 --> 00:33:28,399
least before this happened

956
00:33:33,990 --> 00:33:31,440
so from my point of view i would suspect

957
00:33:36,310 --> 00:33:34,000
that it was a learned behavior and the

958
00:33:38,950 --> 00:33:36,320
objects knew they were going there i

959
00:33:40,950 --> 00:33:38,960
don't think could be wrong that it was

960
00:33:43,430 --> 00:33:40,960
necessarily reading the pilot's mind or

961
00:33:45,990 --> 00:33:43,440
even the the computer because it would

962
00:33:48,230 --> 00:33:46,000
have seen or noticed because these

963
00:33:50,070 --> 00:33:48,240

objects remember were were seen for what

964

00:33:52,070 --> 00:33:50,080

seven to fourteen days

965

00:33:53,590 --> 00:33:52,080

hovering just all like out in the

966

00:33:55,750 --> 00:33:53,600

distance from the nimitz and the

967

00:33:57,830 --> 00:33:55,760

princeton so they were potentially

968

00:33:58,549 --> 00:33:57,840

watching and observing and they would

969

00:34:00,789 --> 00:33:58,559

have

970

00:34:02,950 --> 00:34:00,799

i think learned that's a point they were

971

00:34:04,710 --> 00:34:02,960

going to and for me it was a learned

972

00:34:06,230 --> 00:34:04,720

behavior so i don't think and i've said

973

00:34:07,590 --> 00:34:06,240

this there was anything inside the

974

00:34:09,109 --> 00:34:07,600

tic-tacs

975

00:34:11,750 --> 00:34:09,119

i reckon there are technology that's

976

00:34:13,990 --> 00:34:11,760

some kind of ai or drone

977

00:34:16,230 --> 00:34:14,000

and just through observations they were

978

00:34:17,750 --> 00:34:16,240

mimicking which is why it copied favor

979

00:34:18,710 --> 00:34:17,760

with a spiral

980

00:34:20,950 --> 00:34:18,720

or

981

00:34:22,950 --> 00:34:20,960

it basically was showing them

982

00:34:24,790 --> 00:34:22,960

i i can do what you can do i've been

983

00:34:26,950 --> 00:34:24,800

where you've been and that's that was

984

00:34:28,629 --> 00:34:26,960

the point it was potentially making as

985

00:34:29,829 --> 00:34:28,639

maybe it was a method of communication i

986

00:34:31,270 --> 00:34:29,839

don't know if dan wants to comment on

987

00:34:31,990 --> 00:34:31,280

that

988

00:34:33,589 --> 00:34:32,000

yeah

989

00:34:34,950 --> 00:34:33,599

i was going to say this is absolutely

990

00:34:36,710 --> 00:34:34,960

something that you and i talk about

991

00:34:39,430 --> 00:34:36,720

often isn't it because we we have the

992

00:34:42,389 --> 00:34:39,440

discussion observed behavior or you know

993

00:34:44,710 --> 00:34:42,399

is it something more uh

994

00:34:46,389 --> 00:34:44,720

louis elizondo often talks about

995

00:34:48,470 --> 00:34:46,399

you know to use a doctor who phrased

996

00:34:51,030 --> 00:34:48,480

tiny why me stuff

997

00:34:54,869 --> 00:34:51,040

that being inside that kind of

998

00:34:56,710 --> 00:34:54,879

uh bubble of space time would mean that

999

00:34:58,790 --> 00:34:56,720

relative to you the world moves by

1000

00:35:00,870 --> 00:34:58,800

differently outside of that if i was

1001
00:35:02,390 --> 00:35:00,880
making that technology you know i'd use

1002
00:35:04,150 --> 00:35:02,400
that to project forward and backward and

1003
00:35:08,069 --> 00:35:04,160
kind of see a long exposure of what was

1004
00:35:08,870 --> 00:35:08,079
going on around me um so that you know

1005
00:35:12,790 --> 00:35:08,880
the

1006
00:35:15,109 --> 00:35:12,800
where favor was going using a method

1007
00:35:17,109 --> 00:35:15,119
like that so it's either you know

1008
00:35:18,950 --> 00:35:17,119
something observed and learned like andy

1009
00:35:20,950 --> 00:35:18,960
said or it's something

1010
00:35:22,870 --> 00:35:20,960
absolutely incredible because it's

1011
00:35:24,950 --> 00:35:22,880
consciousness based then right well

1012
00:35:28,069 --> 00:35:24,960
there's there's two other

1013
00:35:31,510 --> 00:35:28,079

episodes that one is kind of less known

1014

00:35:35,670 --> 00:35:31,520

and one is more known where

1015

00:35:37,030 --> 00:35:35,680

these objects whatever they are or

1016

00:35:40,470 --> 00:35:37,040

intelligence

1017

00:35:42,710 --> 00:35:40,480

are able to read our comp top

1018

00:35:47,030 --> 00:35:42,720

computer programs and the obvious the

1019

00:35:49,190 --> 00:35:47,040

first one is the nuclear silos so

1020

00:35:50,470 --> 00:35:49,200

you know you what if you heard the story

1021

00:35:53,270 --> 00:35:50,480

from one

1022

00:35:54,950 --> 00:35:53,280

person you you would question it rightly

1023

00:35:56,550 --> 00:35:54,960

so you take it with a grain of salt and

1024

00:35:58,550 --> 00:35:56,560

say as is true but when you hear that

1025

00:35:59,910 --> 00:35:58,560

happen in the u.s at multiple sites and

1026

00:36:01,990 --> 00:35:59,920

you hear it happen

1027

00:36:04,790 --> 00:36:02,000

in great britain you know and then maybe

1028

00:36:07,270 --> 00:36:04,800

overseas in other areas other countries

1029

00:36:09,030 --> 00:36:07,280

then you start saying it was able to

1030

00:36:11,430 --> 00:36:09,040

decipher

1031

00:36:13,670 --> 00:36:11,440

probably you've got to assume that our

1032

00:36:16,790 --> 00:36:13,680

nuclear codes are written in the most

1033

00:36:19,349 --> 00:36:16,800

detailed hard to crack code there is

1034

00:36:21,589 --> 00:36:19,359

right so it's able to

1035

00:36:24,230 --> 00:36:21,599

to check that out

1036

00:36:26,710 --> 00:36:24,240

enter that code and figure out how to to

1037

00:36:28,950 --> 00:36:26,720

decode it or how to shut it down

1038

00:36:31,109 --> 00:36:28,960

the there was a smaller incident that i

1039

00:36:34,069 --> 00:36:31,119

i don't know if a lot of people saw but

1040

00:36:36,710 --> 00:36:34,079

on the skin walker ranch episodes

1041

00:36:38,870 --> 00:36:36,720

there's one where they see a cattle

1042

00:36:42,069 --> 00:36:38,880

that that died and they go out to look

1043

00:36:44,310 --> 00:36:42,079

at it and the security guard twice in

1044

00:36:45,750 --> 00:36:44,320

two episodes he holds out his iphone

1045

00:36:48,630 --> 00:36:45,760

which was locked now

1046

00:36:50,870 --> 00:36:48,640

the cia and fbi have not been able to

1047

00:36:53,109 --> 00:36:50,880

uncrack

1048

00:36:56,390 --> 00:36:53,119

an iphone

1049

00:36:57,829 --> 00:36:56,400

yet his was locked and in two separate

1050

00:37:01,430 --> 00:36:57,839

episodes

1051
00:37:03,589 --> 00:37:01,440
it was opened and you could see

1052
00:37:06,230 --> 00:37:03,599
it skipping through all sorts of of

1053
00:37:08,390 --> 00:37:06,240
computer programs so

1054
00:37:10,790 --> 00:37:08,400
you know some something else was

1055
00:37:13,109 --> 00:37:10,800
controlling it and so in my eyes i'm

1056
00:37:15,270 --> 00:37:13,119
looking at again you see one episode you

1057
00:37:16,550 --> 00:37:15,280
question it but you see

1058
00:37:19,109 --> 00:37:16,560
you look at how

1059
00:37:20,310 --> 00:37:19,119
this was able to open an iphone twice on

1060
00:37:24,630 --> 00:37:20,320
camera

1061
00:37:25,829 --> 00:37:24,640
open able to access nuclear codes

1062
00:37:27,990 --> 00:37:25,839
remotely

1063
00:37:29,990 --> 00:37:28,000

and the third and again you said it

1064

00:37:31,030 --> 00:37:30,000

could be a learned behavior but you

1065

00:37:32,069 --> 00:37:31,040

can't

1066

00:37:34,829 --> 00:37:32,079

any

1067

00:37:37,670 --> 00:37:34,839

naval aircraft is gonna have again

1068

00:37:39,990 --> 00:37:37,680

top-notch you know security so you can't

1069

00:37:41,510 --> 00:37:40,000

crack their their codes and

1070

00:37:44,550 --> 00:37:41,520

it leads me to believe this thing's

1071

00:37:46,630 --> 00:37:44,560

reading and able to read

1072

00:37:48,829 --> 00:37:46,640

our top code and you would kind of think

1073

00:37:51,270 --> 00:37:48,839

that would make sense but it's

1074

00:37:54,310 --> 00:37:51,280

remarkable we're kind of in the realm of

1075

00:37:57,190 --> 00:37:54,320

quantum computing here right like

1076

00:37:59,750 --> 00:37:57,200

what is crazy advanced to us seems super

1077

00:38:01,990 --> 00:37:59,760

easy to them and if we can you know make

1078

00:38:04,310 --> 00:38:02,000

a quantum computer that is usable for

1079

00:38:05,430 --> 00:38:04,320

everyday tasks then it's going to be

1080

00:38:08,069 --> 00:38:05,440

able to compute all these different

1081

00:38:10,390 --> 00:38:08,079

possibilities a lot faster than than any

1082

00:38:11,750 --> 00:38:10,400

other computer you know

1083

00:38:12,950 --> 00:38:11,760

like you say

1084

00:38:15,190 --> 00:38:12,960

those ships would have been using the

1085

00:38:17,589 --> 00:38:15,200

highest encryption possible but once we

1086

00:38:19,190 --> 00:38:17,599

get quantum computing that encryption is

1087

00:38:20,630 --> 00:38:19,200

child's play to it

1088

00:38:22,310 --> 00:38:20,640

so there's definitely something like

1089

00:38:23,829 --> 00:38:22,320

that going on the

1090

00:38:25,109 --> 00:38:23,839

it's interesting you bring up the ghost

1091

00:38:27,829 --> 00:38:25,119

touch thing because i used to work for

1092

00:38:29,430 --> 00:38:27,839

apple and i've seen so many broken

1093

00:38:31,430 --> 00:38:29,440

iphones and so many different

1094

00:38:33,190 --> 00:38:31,440

permutations of them that i feel like i

1095

00:38:35,190 --> 00:38:33,200

have a really informed take on the ghost

1096

00:38:37,430 --> 00:38:35,200

touch stuff ghost touch is something

1097

00:38:39,109 --> 00:38:37,440

that we see but

1098

00:38:41,750 --> 00:38:39,119

it doesn't look anything like that when

1099

00:38:43,510 --> 00:38:41,760

it happens normally it's the occasional

1100

00:38:45,349 --> 00:38:43,520

touch randomly on the screen people will

1101

00:38:46,950 --> 00:38:45,359

be using their devices and maybe it'll

1102

00:38:49,349 --> 00:38:46,960

hit a different letter or something like

1103

00:38:51,829 --> 00:38:49,359

that um especially when it's a crack

1104

00:38:52,950 --> 00:38:51,839

screen and caleb's screen was cracked

1105

00:38:55,349 --> 00:38:52,960

but

1106

00:38:57,670 --> 00:38:55,359

with this the phone you know you can get

1107

00:38:59,430 --> 00:38:57,680

electromagnetic interference the chances

1108

00:39:00,390 --> 00:38:59,440

of getting electromagnetic interference

1109

00:39:02,790 --> 00:39:00,400

that hit

1110

00:39:04,550 --> 00:39:02,800

you know four or more points in the

1111

00:39:06,630 --> 00:39:04,560

correct order to guess his password and

1112

00:39:08,310 --> 00:39:06,640

get into the phone that's mind-blowing

1113

00:39:11,190 --> 00:39:08,320

to me and you're absolutely right to

1114

00:39:12,550 --> 00:39:11,200

pick up on that because yeah there's

1115

00:39:14,390 --> 00:39:12,560

it's not just

1116

00:39:15,750 --> 00:39:14,400

random interference at that point

1117

00:39:17,270 --> 00:39:15,760

there's an actual

1118

00:39:20,310 --> 00:39:17,280

you know

1119

00:39:21,910 --> 00:39:20,320

direction to get into the phone

1120

00:39:24,870 --> 00:39:21,920

so if you don't mind i've

1121

00:39:28,310 --> 00:39:24,880

the last question is it's regarding the

1122

00:39:29,910 --> 00:39:28,320

the crop circles which again

1123

00:39:32,069 --> 00:39:29,920

never was a believer

1124

00:39:34,790 --> 00:39:32,079

um you start seeing one or two and i

1125

00:39:37,670 --> 00:39:34,800

understand you can't conflate you know

1126
00:39:39,670 --> 00:39:37,680
somebody that's doing it as a hoax with

1127
00:39:42,790 --> 00:39:39,680
what actually is happening

1128
00:39:44,470 --> 00:39:42,800
and you look at the geometric patterns

1129
00:39:45,990 --> 00:39:44,480
there is a video i was wondering if if

1130
00:39:47,710 --> 00:39:46,000
there's any truth to i think the guy's

1131
00:39:50,710 --> 00:39:47,720
name was john whaley it might have been

1132
00:39:52,390 --> 00:39:50,720
1996 where he he there's an

1133
00:39:54,150 --> 00:39:52,400
it's on video

1134
00:39:56,069 --> 00:39:54,160
is that was that it was said it was a

1135
00:39:57,750 --> 00:39:56,079
hoax and then it said it wasn't but if

1136
00:39:59,030 --> 00:39:57,760
that's actually you would think people

1137
00:40:01,190 --> 00:39:59,040
would

1138
00:40:03,510 --> 00:40:01,200

i mean some of these are just too

1139

00:40:06,550 --> 00:40:03,520

remarkable

1140

00:40:11,430 --> 00:40:06,560

to think it's it's not coming from it's

1141

00:40:14,790 --> 00:40:11,440

not being it's not man-made it can't be

1142

00:40:18,309 --> 00:40:14,800

the patterns are remarkable um is there

1143

00:40:20,309 --> 00:40:18,319

any truth to the whaley incident if you

1144

00:40:23,030 --> 00:40:20,319

know about it where it was caught on

1145

00:40:24,870 --> 00:40:23,040

video is that a hoax

1146

00:40:26,230 --> 00:40:24,880

and some of the coding that you've seen

1147

00:40:28,069 --> 00:40:26,240

there's been a couple patterns where

1148

00:40:29,910 --> 00:40:28,079

they said hey this is there's a sign

1149

00:40:32,069 --> 00:40:29,920

there's you know here's a pattern of an

1150

00:40:34,390 --> 00:40:32,079

alien or whatever do we think these are

1151

00:40:36,790 --> 00:40:34,400

real do we think they're signs or

1152

00:40:38,550 --> 00:40:36,800

messages or and i'll let you tell me

1153

00:40:39,910 --> 00:40:38,560

what you know because i'm just

1154

00:40:41,349 --> 00:40:39,920

learning about it and it seems

1155

00:40:42,309 --> 00:40:41,359

remarkable

1156

00:40:44,230 --> 00:40:42,319

so

1157

00:40:45,349 --> 00:40:44,240

i would say that there are a lot of

1158

00:40:46,870 --> 00:40:45,359

hoaxes

1159

00:40:48,630 --> 00:40:46,880

in terms of crop circles you know people

1160

00:40:51,109 --> 00:40:48,640

make them and they're done as marketing

1161

00:40:52,790 --> 00:40:51,119

kind of things but when you look into it

1162

00:40:54,309 --> 00:40:52,800

you you find out that they're very

1163

00:40:55,990 --> 00:40:54,319

different to the ones that people find

1164

00:40:57,430 --> 00:40:56,000

in fields randomly overnight you know

1165

00:40:59,589 --> 00:40:57,440

like the stalks are bent differently in

1166

00:41:01,430 --> 00:40:59,599

a way that we can't really do to do it

1167

00:41:03,349 --> 00:41:01,440

in that way it takes us a lot longer

1168

00:41:05,670 --> 00:41:03,359

than one night um

1169

00:41:07,670 --> 00:41:05,680

and no matter if they and this is one of

1170

00:41:10,550 --> 00:41:07,680

the things i love about crop circles no

1171

00:41:13,109 --> 00:41:10,560

matter if they're made by hoaxes uh you

1172

00:41:15,270 --> 00:41:13,119

know man-made or if they're

1173

00:41:17,750 --> 00:41:15,280

supposedly naturally formed

1174

00:41:19,510 --> 00:41:17,760

they always have weird magnetic effects

1175

00:41:21,349 --> 00:41:19,520

in them so

1176

00:41:23,430 --> 00:41:21,359

it's interesting right because it it's

1177

00:41:25,030 --> 00:41:23,440

almost like something showed us a few of

1178

00:41:26,550 --> 00:41:25,040

them and now people are mimicking them

1179

00:41:28,150 --> 00:41:26,560

and finding out that they can generate

1180

00:41:30,069 --> 00:41:28,160

these weird effects on batteries and

1181

00:41:32,790 --> 00:41:30,079

electronics within them

1182

00:41:35,030 --> 00:41:32,800

by using these shapes so there seems to

1183

00:41:36,470 --> 00:41:35,040

be a little almost a nudge to kind of

1184

00:41:38,790 --> 00:41:36,480

show us something

1185

00:41:40,550 --> 00:41:38,800

i think phil my big interest in crop

1186

00:41:43,030 --> 00:41:40,560

circles is dan's totally right there's a

1187

00:41:45,109 --> 00:41:43,040

lot of them that are extremely complex

1188

00:41:47,190 --> 00:41:45,119

that have still been shown to be hoxies

1189

00:41:49,270 --> 00:41:47,200

and they're made generally quite simply

1190

00:41:51,910 --> 00:41:49,280

but they still look incredible but it's

1191

00:41:54,710 --> 00:41:51,920

the ones where the the stocks are bent

1192

00:41:57,589 --> 00:41:54,720

at such an extreme angle and the inside

1193

00:42:00,309 --> 00:41:57,599

of the stock the the joints and the the

1194

00:42:02,710 --> 00:42:00,319

seeds if they're called seeds are burst

1195

00:42:05,109 --> 00:42:02,720

with like microwave energy

1196

00:42:06,870 --> 00:42:05,119

and the stock itself is like untouched

1197

00:42:08,150 --> 00:42:06,880

and it just it would take

1198

00:42:10,470 --> 00:42:08,160

thousands of

1199

00:42:12,230 --> 00:42:10,480

of hours for someone to even attempt to

1200

00:42:14,710 --> 00:42:12,240

do that and you couldn't do it with the

1201

00:42:17,030 --> 00:42:14,720

precision that that's happening so it's

1202

00:42:18,950 --> 00:42:17,040

those ones for me particularly that are

1203

00:42:20,790 --> 00:42:18,960

pretty incredible not the ones that look

1204

00:42:22,950 --> 00:42:20,800

good but yeah they're probably made by a

1205

00:42:24,950 --> 00:42:22,960

couple of guys and out with the torch on

1206

00:42:26,470 --> 00:42:24,960

the helmet and the paddle boards but

1207

00:42:28,390 --> 00:42:26,480

there are some

1208

00:42:30,309 --> 00:42:28,400

points of reference for the really truly

1209

00:42:33,190 --> 00:42:30,319

anomalous ones like that kind of

1210

00:42:35,109 --> 00:42:33,200

surgical position that for me makes them

1211

00:42:36,710 --> 00:42:35,119

definitely worthy of study and i think

1212

00:42:38,470 --> 00:42:36,720

it's an area that's

1213

00:42:40,710 --> 00:42:38,480

it's probably one of the oldest ones in

1214

00:42:42,870 --> 00:42:40,720

ufology that it's

1215

00:42:45,430 --> 00:42:42,880

it's poo poed and seen as it's a bit

1216

00:42:47,430 --> 00:42:45,440

crazy and yeah crop circles why the why

1217

00:42:48,950 --> 00:42:47,440

is something that's still fascinating

1218

00:42:51,910 --> 00:42:48,960

but it's it's probably one that's

1219

00:42:54,390 --> 00:42:51,920

understudied if anything for me

1220

00:42:56,630 --> 00:42:54,400

well i i agree with you because once you

1221

00:42:58,950 --> 00:42:56,640

look into it again it's the same thing

1222

00:43:00,550 --> 00:42:58,960

with the decoding you see it happen once

1223

00:43:02,390 --> 00:43:00,560

you act you say what take away the grain

1224

00:43:04,309 --> 00:43:02,400

of salt you say nuclear silo is turned

1225

00:43:06,230 --> 00:43:04,319

off you say okay but when it happens in

1226

00:43:08,630 --> 00:43:06,240

more than one place it happens numerous

1227

00:43:10,230 --> 00:43:08,640

times things that are not

1228

00:43:12,390 --> 00:43:10,240

logically

1229

00:43:13,829 --> 00:43:12,400

possible to do you start buying into it

1230

00:43:16,230 --> 00:43:13,839

so the final question i'm gonna let you

1231

00:43:19,030 --> 00:43:16,240

guys take it

1232

00:43:21,109 --> 00:43:19,040

again two years ago i just thought this

1233

00:43:23,030 --> 00:43:21,119

was crazy talk

1234

00:43:25,750 --> 00:43:23,040

never heard of a cattle mutilation now

1235

00:43:28,630 --> 00:43:25,760

you look at you say it's not possible to

1236

00:43:31,109 --> 00:43:28,640

drain the blood it's not possible

1237

00:43:33,589 --> 00:43:31,119

i think russ coldhardt said there was 50

1238

00:43:35,510 --> 00:43:33,599

000 reported

1239

00:43:37,349 --> 00:43:35,520

to the fbi

1240

00:43:40,550 --> 00:43:37,359

so you look at these things and i look

1241

00:43:43,349 --> 00:43:40,560

at the three so my question to you is

1242

00:43:44,870 --> 00:43:43,359

i'm i'm kind of a normal guy family guy

1243

00:43:46,630 --> 00:43:44,880

three kids

1244

00:43:48,550 --> 00:43:46,640

you know run a hedge fund i mean i'm a

1245

00:43:50,790 --> 00:43:48,560

boring kind of person

1246

00:43:52,710 --> 00:43:50,800

and i'm not i've never been in this and

1247

00:43:54,470 --> 00:43:52,720

now guys like me are kind of getting

1248

00:43:56,870 --> 00:43:54,480

roped in because you're doing the

1249

00:43:59,270 --> 00:43:56,880

research you guys are leading it and i

1250

00:44:00,550 --> 00:43:59,280

got to tell you your show is excellent

1251

00:44:02,390 --> 00:44:00,560

but you're doing the research you're

1252

00:44:04,230 --> 00:44:02,400

getting you're reaching out to people

1253

00:44:05,829 --> 00:44:04,240

like us that were never involved in the

1254

00:44:07,109 --> 00:44:05,839

first place

1255

00:44:09,670 --> 00:44:07,119

the question is

1256

00:44:13,270 --> 00:44:09,680

why do you think

1257

00:44:15,910 --> 00:44:13,280

it's not on the front page

1258

00:44:19,349 --> 00:44:15,920

of the new york times why isn't

1259

00:44:20,550 --> 00:44:19,359

somebody going out and saying guys this

1260

00:44:23,750 --> 00:44:20,560

is real

1261

00:44:26,150 --> 00:44:23,760

this is the biggest story in the world i

1262

00:44:29,589 --> 00:44:26,160

do hear some people say that

1263

00:44:31,109 --> 00:44:29,599

but it really is if this is true which i

1264

00:44:32,710 --> 00:44:31,119

am a i'm

1265

00:44:35,990 --> 00:44:32,720

i'm sorry i went down the rabbit hole

1266

00:44:37,670 --> 00:44:36,000

and now i'm lost you know

1267

00:44:40,069 --> 00:44:37,680

i'm going down all these paths i'm like

1268

00:44:42,870 --> 00:44:40,079

wait a minute this is real and and it's

1269

00:44:43,829 --> 00:44:42,880

not fabricated why isn't this front page

1270

00:44:45,670 --> 00:44:43,839

news

1271

00:44:48,550 --> 00:44:45,680

so so my opinion fell on that would be

1272

00:44:50,630 --> 00:44:48,560

obviously in 2017 it was in december

1273

00:44:53,109 --> 00:44:50,640

2017 front page news on the new york

1274

00:44:55,589 --> 00:44:53,119

times that was just the admission of the

1275

00:44:57,589 --> 00:44:55,599

the atip program the us government ran a

1276

00:44:58,870 --> 00:44:57,599

ufo program and it had an interest in

1277

00:45:01,990 --> 00:44:58,880

ufos

1278

00:45:04,630 --> 00:45:02,000

the issue going forward has been

1279

00:45:06,630 --> 00:45:04,640

that the conversation to go forward you

1280

00:45:08,230 --> 00:45:06,640

then have to start printing

1281

00:45:10,470 --> 00:45:08,240

a little bit more speculation

1282

00:45:12,309 --> 00:45:10,480

potentially where you do have to start

1283

00:45:17,190 --> 00:45:12,319

mentioning

1284

00:45:19,109 --> 00:45:17,200

et or alien or flying saucers and the

1285

00:45:21,349 --> 00:45:19,119

public just still have a huge stigma to

1286

00:45:24,309 --> 00:45:21,359

that sort of language so that we've had

1287

00:45:26,790 --> 00:45:24,319

that initial article uh from leslie kane

1288

00:45:28,309 --> 00:45:26,800

um helene cooper and ralph blumenthal

1289

00:45:30,230 --> 00:45:28,319

that was all about atep the us

1290

00:45:33,030 --> 00:45:30,240

government it was all like you said

1291

00:45:34,950 --> 00:45:33,040

science-based data based fact based

1292

00:45:36,390 --> 00:45:34,960

and going forward we've had the 60

1293

00:45:38,870 --> 00:45:36,400

minutes piece and we've had these kind

1294

00:45:40,470 --> 00:45:38,880

of big documentaries it's the moving

1295

00:45:42,870 --> 00:45:40,480

forward that the next steps of the

1296

00:45:44,870 --> 00:45:42,880

conversation where louis lozando has

1297

00:45:47,589 --> 00:45:44,880

started talking now about biological

1298

00:45:49,430 --> 00:45:47,599

effects and you know consciousness

1299

00:45:50,870 --> 00:45:49,440

starts to come into it that's the kind

1300

00:45:53,829 --> 00:45:50,880

of stuff that when you put that in front

1301
00:45:55,670 --> 00:45:53,839
of a news editor a serious publication

1302
00:45:56,870 --> 00:45:55,680
they don't want to know

1303
00:45:59,270 --> 00:45:56,880
because they don't think it's going to

1304
00:46:01,430 --> 00:45:59,280
sell newspapers or get the clicks they

1305
00:46:03,430 --> 00:46:01,440
want it's just a conversation i don't

1306
00:46:06,390 --> 00:46:03,440
think the general public are necessarily

1307
00:46:08,309 --> 00:46:06,400
ready for what i think is helping is i

1308
00:46:09,910 --> 00:46:08,319
mean never mind this podcast or any

1309
00:46:11,670 --> 00:46:09,920
other channel out there just now but

1310
00:46:14,390 --> 00:46:11,680
when you get someone like chris mellon

1311
00:46:16,230 --> 00:46:14,400
or louis elizondo on joe organ

1312
00:46:18,150 --> 00:46:16,240
it's not a ufo podcast but it gets two

1313
00:46:19,990 --> 00:46:18,160

or three million downloads an episode

1314

00:46:22,309 --> 00:46:20,000

that gets out to a huge portion of the

1315

00:46:25,109 --> 00:46:22,319

public same with sam harris two million

1316

00:46:26,870 --> 00:46:25,119

youtube followers talking about ufos it

1317

00:46:29,510 --> 00:46:26,880

gets out to that portion of the public

1318

00:46:31,990 --> 00:46:29,520

and like you say normal everyday working

1319

00:46:33,750 --> 00:46:32,000

people like yourself and ourselves start

1320

00:46:35,510 --> 00:46:33,760

to get more involved in the conversation

1321

00:46:38,790 --> 00:46:35,520

because they hear people talking about

1322

00:46:40,309 --> 00:46:38,800

it that don't normally and i think that

1323

00:46:43,270 --> 00:46:40,319

for me is something myself and dana

1324

00:46:44,710 --> 00:46:43,280

spoke about ad nauseam off the air as

1325

00:46:47,430 --> 00:46:44,720

that's the next step for this

1326

00:46:49,349 --> 00:46:47,440

conversation is getting those people

1327

00:46:51,589 --> 00:46:49,359

involved and i've said the name so many

1328

00:46:53,750 --> 00:46:51,599

times but if someone like neil degrasse

1329

00:46:56,790 --> 00:46:53,760

tyson would start sitting on serious

1330

00:46:58,870 --> 00:46:56,800

news shows and debating do you know what

1331

00:47:01,270 --> 00:46:58,880

let's take a look at this again i think

1332

00:47:03,030 --> 00:47:01,280

for me that starts to bring in hundreds

1333

00:47:04,550 --> 00:47:03,040

of thousands of more eyes and that's

1334

00:47:07,510 --> 00:47:04,560

when you start to get the more serious

1335

00:47:09,030 --> 00:47:07,520

news broadcasts picking this up more and

1336

00:47:10,950 --> 00:47:09,040

getting on the front page of those big

1337

00:47:13,270 --> 00:47:10,960

newspapers as well

1338

00:47:16,950 --> 00:47:13,280

i i don't see how anybody that's a

1339

00:47:19,829 --> 00:47:16,960

logical i was a math major um

1340

00:47:22,069 --> 00:47:19,839

you know so logic based right um

1341

00:47:24,630 --> 00:47:22,079

engineers

1342

00:47:25,990 --> 00:47:24,640

it breaks the common sense

1343

00:47:28,230 --> 00:47:26,000

of what these things are doing so i

1344

00:47:30,470 --> 00:47:28,240

think that's the purpose that's the

1345

00:47:31,910 --> 00:47:30,480

problem because your brain doesn't grasp

1346

00:47:34,390 --> 00:47:31,920

it

1347

00:47:36,630 --> 00:47:34,400

but if you do the homework

1348

00:47:38,470 --> 00:47:36,640

and you look into and you you push aside

1349

00:47:40,549 --> 00:47:38,480

some of the the

1350

00:47:42,950 --> 00:47:40,559

the strangeness of the people that you

1351

00:47:45,589 --> 00:47:42,960

know are a little bit nuts and you go

1352

00:47:46,549 --> 00:47:45,599

down to the ra rational common sense

1353

00:47:49,030 --> 00:47:46,559

people

1354

00:47:50,829 --> 00:47:49,040

the facts don't really lie

1355

00:47:53,109 --> 00:47:50,839

um and they

1356

00:47:55,670 --> 00:47:53,119

repeat and they repeat and the

1357

00:47:58,069 --> 00:47:55,680

strangeness repeats in different forms

1358

00:47:59,190 --> 00:47:58,079

and i just um i've taken up more than my

1359

00:48:01,510 --> 00:47:59,200

time

1360

00:48:03,349 --> 00:48:01,520

i appreciate it you guys are great keep

1361

00:48:04,710 --> 00:48:03,359

keep it factual keep it honest you guys

1362

00:48:05,990 --> 00:48:04,720

are awesome

1363

00:48:07,910 --> 00:48:06,000

thank you phil really i appreciate your

1364

00:48:09,510 --> 00:48:07,920

time you guys are great thank you and

1365

00:48:11,349 --> 00:48:09,520

and just quickly before you go i just

1366

00:48:12,870 --> 00:48:11,359

wanted to say welcome to the field we're

1367

00:48:15,030 --> 00:48:12,880

going to be seeing a lot of new faces as

1368

00:48:17,829 --> 00:48:15,040

this subject grows and and if we all do

1369

00:48:19,990 --> 00:48:17,839

our job it no longer belongs to ufology

1370

00:48:23,750 --> 00:48:20,000

i'm doing it in rabbit ears it's just a

1371

00:48:28,069 --> 00:48:25,910

next up we are staying stateside and

1372

00:48:30,150 --> 00:48:28,079

we're going to katie in los angeles

1373

00:48:32,309 --> 00:48:30,160

katie welcome to the podcast

1374

00:48:34,069 --> 00:48:32,319

hello thank you for having me

1375

00:48:36,790 --> 00:48:34,079

absolute pleasure thank you for calling

1376

00:48:38,549 --> 00:48:36,800

in uh katie now i just told you before

1377

00:48:40,069 --> 00:48:38,559

we started recording i think dan's going

1378

00:48:43,270 --> 00:48:40,079

to enjoy this you were looking to talk

1379

00:48:45,430 --> 00:48:43,280

about the the idea of human dna or

1380

00:48:48,150 --> 00:48:45,440

genetics getting some sort of boost

1381

00:48:49,910 --> 00:48:48,160

around 70 000 years ago and then also

1382

00:48:52,470 --> 00:48:49,920

something about experiencers and

1383

00:48:55,030 --> 00:48:52,480

insectoids as well so listen the floor

1384

00:48:58,230 --> 00:48:55,040

is yours on you go

1385

00:49:00,630 --> 00:48:58,240

well um i just want to say first thank

1386

00:49:04,790 --> 00:49:00,640

you guys for doing what you do i think

1387

00:49:07,910 --> 00:49:04,800

it's awesome and thanks for having me on

1388

00:49:10,230 --> 00:49:07,920

i just wanted to say that like a lot of

1389

00:49:13,030 --> 00:49:10,240

people i was really fascinated by what

1390

00:49:15,750 --> 00:49:13,040

lou said about 70 000 years ago

1391

00:49:18,150 --> 00:49:15,760

something changed and

1392

00:49:19,990 --> 00:49:18,160

what if we got a genetic boost

1393

00:49:22,309 --> 00:49:20,000

and then you guys actually brought it up

1394

00:49:23,990 --> 00:49:22,319

on your breakdown

1395

00:49:26,950 --> 00:49:24,000

uh when you said

1396

00:49:28,790 --> 00:49:26,960

what if humans aren't the first species

1397

00:49:31,750 --> 00:49:28,800

that might have been

1398

00:49:34,309 --> 00:49:31,760

a genetically boosted in the past

1399

00:49:36,549 --> 00:49:34,319

what if they tried it on other

1400

00:49:39,510 --> 00:49:36,559

species what if it didn't work out and

1401
00:49:41,510 --> 00:49:39,520
then i was listening to the experiencers

1402
00:49:43,670 --> 00:49:41,520
that you had on which was

1403
00:49:45,030 --> 00:49:43,680
devastating and fascinating at the same

1404
00:49:46,150 --> 00:49:45,040
time

1405
00:49:49,430 --> 00:49:46,160
and

1406
00:49:51,829 --> 00:49:49,440
you know many of them mention insectoid

1407
00:49:53,589 --> 00:49:51,839
beings that are telepathic and i was

1408
00:49:54,790 --> 00:49:53,599
just thinking

1409
00:49:58,150 --> 00:49:54,800
what if

1410
00:50:00,470 --> 00:49:58,160
they did try a genetic boost on other

1411
00:50:02,630 --> 00:50:00,480
species and

1412
00:50:04,790 --> 00:50:02,640
what if it actually wasn't in our

1413
00:50:06,549 --> 00:50:04,800

reality or our world but maybe in like a

1414

00:50:09,589 --> 00:50:06,559

parallel

1415

00:50:12,549 --> 00:50:09,599

sort of universe and

1416

00:50:14,950 --> 00:50:12,559

insects have been around for

1417

00:50:17,750 --> 00:50:14,960

way longer than we have so it's possible

1418

00:50:19,430 --> 00:50:17,760

they have like a 300 million

1419

00:50:20,390 --> 00:50:19,440

uh you know

1420

00:50:22,870 --> 00:50:20,400

um

1421

00:50:25,430 --> 00:50:22,880

they're 300 million years ahead of us in

1422

00:50:27,030 --> 00:50:25,440

that reality and i just wanted to know

1423

00:50:30,710 --> 00:50:27,040

what your take on something like that

1424

00:50:32,230 --> 00:50:30,720

would be if that's too crazy or or what

1425

00:50:33,670 --> 00:50:32,240

dan let me kick off because i know

1426

00:50:36,790 --> 00:50:33,680

you're going to bring in the good stuff

1427

00:50:38,549 --> 00:50:36,800

um so i i think like you say katie even

1428

00:50:41,510 --> 00:50:38,559

mentioned like if something had a 300

1429

00:50:43,589 --> 00:50:41,520

million years head start i i brought up

1430

00:50:45,349 --> 00:50:43,599

recently that i noticed

1431

00:50:47,190 --> 00:50:45,359

in a few different interviews louie

1432

00:50:48,630 --> 00:50:47,200

elizondo mentioned about what if

1433

00:50:50,630 --> 00:50:48,640

something was or we had this

1434

00:50:51,750 --> 00:50:50,640

conversation but you were five minutes

1435

00:50:53,829 --> 00:50:51,760

from now

1436

00:50:55,430 --> 00:50:53,839

and how that might look and jacques

1437

00:50:57,349 --> 00:50:55,440

vallee when he was interviewed by george

1438

00:50:58,549 --> 00:50:57,359

knapp a couple of weeks ago also

1439

00:51:00,950 --> 00:50:58,559

mentioned what about another

1440

00:51:02,230 --> 00:51:00,960

civilization that was five minutes ahead

1441

00:51:04,470 --> 00:51:02,240

now maybe they were just picking a

1442

00:51:06,069 --> 00:51:04,480

random amount of time but they've both

1443

00:51:08,710 --> 00:51:06,079

said five minutes and i've heard that in

1444

00:51:09,829 --> 00:51:08,720

various other places as well so

1445

00:51:11,510 --> 00:51:09,839

like you mentioned it's really

1446

00:51:13,990 --> 00:51:11,520

interesting that what if

1447

00:51:15,829 --> 00:51:14,000

parallel to our reality our universe our

1448

00:51:16,710 --> 00:51:15,839

dimension whatever you want to label it

1449

00:51:21,670 --> 00:51:16,720

as

1450

00:51:24,309 --> 00:51:21,680

created or whatever happened some

1451
00:51:25,910 --> 00:51:24,319
insectoid race or whatever it might be

1452
00:51:27,510 --> 00:51:25,920
and they just had a five minutes head

1453
00:51:29,109 --> 00:51:27,520
start

1454
00:51:31,190 --> 00:51:29,119
they're five minutes ahead in some way

1455
00:51:33,190 --> 00:51:31,200
but maybe they experience time in that

1456
00:51:36,309 --> 00:51:33,200
different way dan refers to it as that

1457
00:51:39,349 --> 00:51:36,319
long exposure or just how their time

1458
00:51:41,910 --> 00:51:39,359
works five minutes here as as ten

1459
00:51:44,150 --> 00:51:41,920
minutes there so they potentially get

1460
00:51:45,670 --> 00:51:44,160
that longer time so it doesn't even

1461
00:51:47,190 --> 00:51:45,680
necessarily have to be hundreds of

1462
00:51:48,630 --> 00:51:47,200
millions of years in advance it could

1463
00:51:50,870 --> 00:51:48,640

have just been that

1464

00:51:52,790 --> 00:51:50,880

something at some point was different

1465

00:51:54,710 --> 00:51:52,800

and it took them down a r they've got

1466

00:51:56,150 --> 00:51:54,720

the technology and the the state of

1467

00:51:58,790 --> 00:51:56,160

consciousness the evolution that they

1468

00:52:00,710 --> 00:51:58,800

have now that's just a thought not to

1469

00:52:01,990 --> 00:52:00,720

say that's concrete or anything but dad

1470

00:52:04,470 --> 00:52:02,000

might want to come back no you said it

1471

00:52:06,790 --> 00:52:04,480

now that's on the record

1472

00:52:09,349 --> 00:52:06,800

i can edit

1473

00:52:12,230 --> 00:52:09,359

uh yeah i i love the idea um insect

1474

00:52:13,910 --> 00:52:12,240

zoids get mentioned a lot there was

1475

00:52:16,549 --> 00:52:13,920

they were a big part of the secret

1476
00:52:18,630 --> 00:52:16,559
machine series the tsa did referred to

1477
00:52:20,309 --> 00:52:18,640
as kind of the hive and you know bumble

1478
00:52:21,750 --> 00:52:20,319
bees were kind of brought into it so

1479
00:52:24,470 --> 00:52:21,760
insects are something that i've got my

1480
00:52:26,790 --> 00:52:24,480
eye on in kind of that way and it

1481
00:52:27,990 --> 00:52:26,800
fascinates me that when you

1482
00:52:30,230 --> 00:52:28,000
you know when you're trying to swat a

1483
00:52:32,470 --> 00:52:30,240
fly or something like that it can move

1484
00:52:34,630 --> 00:52:32,480
out the way of you you know pretty

1485
00:52:36,390 --> 00:52:34,640
easily because it's experiencing time

1486
00:52:38,549 --> 00:52:36,400
differently to what you're experiencing

1487
00:52:41,030 --> 00:52:38,559
when you're trying to swat it so

1488
00:52:43,430 --> 00:52:41,040

it lends itself well to the idea that

1489

00:52:45,430 --> 00:52:43,440

something developed and just experiences

1490

00:52:47,430 --> 00:52:45,440

time differently to us you know it it

1491

00:52:49,589 --> 00:52:47,440

sounds crazy when you say it like that

1492

00:52:51,349 --> 00:52:49,599

but scientifically this is this is what

1493

00:52:53,349 --> 00:52:51,359

they do this is how they avoid us this

1494

00:52:54,950 --> 00:52:53,359

is how they experience the world we have

1495

00:52:56,870 --> 00:52:54,960

the opposite when you look at a plant

1496

00:53:00,150 --> 00:52:56,880

and you see it reacting to light you

1497

00:53:01,829 --> 00:53:00,160

know it's a biological process still and

1498

00:53:04,309 --> 00:53:01,839

just like when we make memories it's a

1499

00:53:06,870 --> 00:53:04,319

quantum process so

1500

00:53:09,190 --> 00:53:06,880

you know it stands to reason that

1501
00:53:11,589 --> 00:53:09,200
things plug into those processes in all

1502
00:53:13,270 --> 00:53:11,599
kinds of different ways

1503
00:53:14,549 --> 00:53:13,280
we know stuff is weird down at those

1504
00:53:16,230 --> 00:53:14,559
levels as well

1505
00:53:17,829 --> 00:53:16,240
um and

1506
00:53:20,470 --> 00:53:17,839
we we'd love to kind of you know make

1507
00:53:21,430 --> 00:53:20,480
the the effects that are experienced

1508
00:53:23,990 --> 00:53:21,440
there

1509
00:53:25,430 --> 00:53:24,000
uh they say micro made macro effects it

1510
00:53:28,549 --> 00:53:25,440
just means you know something small made

1511
00:53:29,670 --> 00:53:28,559
something universalized that's it um but

1512
00:53:32,069 --> 00:53:29,680
if we could

1513
00:53:36,150 --> 00:53:32,079

manipulate that

1514

00:53:39,030 --> 00:53:36,160

it it you know we could do anything so

1515

00:53:41,190 --> 00:53:39,040

it makes me think of how insects

1516

00:53:43,670 --> 00:53:41,200

use frequency to signal each other you

1517

00:53:46,150 --> 00:53:43,680

know there's mimicry mimicry in nature

1518

00:53:48,630 --> 00:53:46,160

um and insects will also kind of beat

1519

00:53:50,790 --> 00:53:48,640

their legs to create certain sounds and

1520

00:53:53,750 --> 00:53:50,800

it was mentioned in a valet paper in a

1521

00:53:56,950 --> 00:53:53,760

davis paper where they talk about

1522

00:53:59,270 --> 00:53:56,960

how a particular kind of wasp could make

1523

00:54:01,349 --> 00:53:59,280

another species think it was something

1524

00:54:02,790 --> 00:54:01,359

entirely different just by beating its

1525

00:54:04,630 --> 00:54:02,800

wings differently

1526

00:54:06,870 --> 00:54:04,640

so it's kind of like hiding in plain

1527

00:54:08,470 --> 00:54:06,880

sight and it made me think wow that's

1528

00:54:10,549 --> 00:54:08,480

super interesting if something could

1529

00:54:11,430 --> 00:54:10,559

kind of signal us in that way

1530

00:54:13,829 --> 00:54:11,440

um

1531

00:54:15,990 --> 00:54:13,839

you know it could avoid detection we'd

1532

00:54:18,309 --> 00:54:16,000

see it as it could be something that's

1533

00:54:20,230 --> 00:54:18,319

not a ufo that we see as a ufo when it

1534

00:54:23,109 --> 00:54:20,240

kind of beats its wings in that way for

1535

00:54:25,109 --> 00:54:23,119

example um yeah i love the idea i think

1536

00:54:27,270 --> 00:54:25,119

it's absolutely fascinating

1537

00:54:30,069 --> 00:54:27,280

right yeah that's really interesting uh

1538

00:54:32,950 --> 00:54:30,079

with sort of almost like the camouflage

1539

00:54:33,750 --> 00:54:32,960

or whatever and i was thinking

1540

00:54:36,710 --> 00:54:33,760

uh

1541

00:54:39,829 --> 00:54:36,720

i was thinking the 300 million years and

1542

00:54:41,349 --> 00:54:39,839

i know it's lou alluded to the whole

1543

00:54:42,789 --> 00:54:41,359

time thing and his

1544

00:54:45,349 --> 00:54:42,799

uh

1545

00:54:49,030 --> 00:54:45,359

analogy with the cigarette i think about

1546

00:54:50,069 --> 00:54:49,040

how you know it might burn differently

1547

00:54:51,990 --> 00:54:50,079

and

1548

00:54:55,109 --> 00:54:52,000

i was thinking because dan i think you

1549

00:54:59,430 --> 00:54:55,119

brought it up in the breakdown about

1550

00:55:02,390 --> 00:54:59,440

uh size and these insectoids seem to be

1551
00:55:04,950 --> 00:55:02,400
large when they appear to people or at

1552
00:55:06,630 --> 00:55:04,960
least maybe like our size

1553
00:55:09,190 --> 00:55:06,640
so that's why i was thinking maybe it

1554
00:55:10,150 --> 00:55:09,200
was like somewhere in the evolution

1555
00:55:12,230 --> 00:55:10,160
um

1556
00:55:15,030 --> 00:55:12,240
that they were bigger

1557
00:55:17,349 --> 00:55:15,040
or like you said maybe it's

1558
00:55:19,910 --> 00:55:17,359
just i don't know some kind of flip like

1559
00:55:22,390 --> 00:55:19,920
on the quantum realm or something like

1560
00:55:26,870 --> 00:55:24,789
yeah i just want to ask katie a question

1561
00:55:28,630 --> 00:55:26,880
do you think then if if we've got like

1562
00:55:31,349 --> 00:55:28,640
these different realities or universes

1563
00:55:33,910 --> 00:55:31,359

running alongside is something still in

1564

00:55:35,750 --> 00:55:33,920

control of all of that or is it a pure

1565

00:55:37,430 --> 00:55:35,760

random process that different

1566

00:55:39,910 --> 00:55:37,440

universities have

1567

00:55:42,470 --> 00:55:39,920

humans evolving others have insectoids

1568

00:55:44,870 --> 00:55:42,480

evolving something else has some kind of

1569

00:55:47,109 --> 00:55:44,880

light or you know being of energy

1570

00:55:49,030 --> 00:55:47,119

evolving do you think something is that

1571

00:55:51,510 --> 00:55:49,040

maybe that zookeeper or simulation type

1572

00:55:53,349 --> 00:55:51,520

analogy can i get in that

1573

00:55:56,069 --> 00:55:53,359

yeah i guess that's the question isn't

1574

00:55:57,270 --> 00:55:56,079

it is whether it's being intelligently

1575

00:55:59,349 --> 00:55:57,280

controlled

1576

00:56:01,270 --> 00:55:59,359

i think more and more every day maybe

1577

00:56:03,349 --> 00:56:01,280

we're in a simulation

1578

00:56:08,069 --> 00:56:03,359

just because of how things

1579

00:56:11,990 --> 00:56:08,079

pan out and if something if some beings

1580

00:56:14,950 --> 00:56:12,000

gave some genetic boost to species then

1581

00:56:18,309 --> 00:56:14,960

they are sort of in control in a way

1582

00:56:20,309 --> 00:56:18,319

but i mean i just don't know

1583

00:56:21,990 --> 00:56:20,319

the way i've said i think dan sorry just

1584

00:56:24,150 --> 00:56:22,000

before you come in

1585

00:56:26,950 --> 00:56:24,160

if if you played sim city or roller

1586

00:56:28,630 --> 00:56:26,960

coaster tycoon or some hospital any of

1587

00:56:30,069 --> 00:56:28,640

those games when you were younger

1588

00:56:32,150 --> 00:56:30,079

normally you start off with the best

1589

00:56:33,670 --> 00:56:32,160

intentions things go really well and

1590

00:56:36,710 --> 00:56:33,680

then you get kind of bored as it gets

1591

00:56:38,230 --> 00:56:36,720

more complicated and you leave it

1592

00:56:40,309 --> 00:56:38,240

but then you go back to it like a few

1593

00:56:41,829 --> 00:56:40,319

weeks later and check your saved game

1594

00:56:43,190 --> 00:56:41,839

and the whole city's in chaos

1595

00:56:45,349 --> 00:56:43,200

everything's breaking down it's going

1596

00:56:47,349 --> 00:56:45,359

really badly and i just wonder are we at

1597

00:56:49,430 --> 00:56:47,359

that point in any potential simulation

1598

00:56:50,870 --> 00:56:49,440

where something's let it go too long and

1599

00:56:53,829 --> 00:56:50,880

they're just coming back now to look at

1600

00:56:56,069 --> 00:56:53,839

it and going uh yeah this this hasn't

1601
00:56:57,829 --> 00:56:56,079
went well

1602
00:56:59,589 --> 00:56:57,839
yeah i could totally see that i was

1603
00:57:02,069 --> 00:56:59,599
thinking too if if

1604
00:57:04,309 --> 00:57:02,079
maybe the humans in the future are in

1605
00:57:06,230 --> 00:57:04,319
charge of the simulation it seems like

1606
00:57:10,950 --> 00:57:06,240
things would end up how they are just

1607
00:57:15,030 --> 00:57:13,430
yeah absolutely it would uh it would be

1608
00:57:17,190 --> 00:57:15,040
more entertaining for them in that way

1609
00:57:18,549 --> 00:57:17,200
for sure um i was just gonna say about

1610
00:57:20,390 --> 00:57:18,559
andy's question about whether it's

1611
00:57:22,870 --> 00:57:20,400
random or not that i think that's kind

1612
00:57:24,710 --> 00:57:22,880
of a misnomer because it suggests that

1613
00:57:27,670 --> 00:57:24,720

nature is random and nature is not

1614

00:57:31,190 --> 00:57:27,680

random it you know it blows a vacuum

1615

00:57:33,030 --> 00:57:31,200

we know or we rather we have an idea of

1616

00:57:34,390 --> 00:57:33,040

the conditions that nature moves towards

1617

00:57:35,270 --> 00:57:34,400

which is

1618

00:57:36,230 --> 00:57:35,280

you know

1619

00:57:38,630 --> 00:57:36,240

that

1620

00:57:40,950 --> 00:57:38,640

we we would eat and hunt try and survive

1621

00:57:42,470 --> 00:57:40,960

and other things do too we're now

1622

00:57:44,150 --> 00:57:42,480

starting to realize when we study the

1623

00:57:45,910 --> 00:57:44,160

animal kingdom that actually or sorry

1624

00:57:48,549 --> 00:57:45,920

not just the animal kingdom but life

1625

00:57:50,390 --> 00:57:48,559

aside from myself that collaboration is

1626
00:57:52,870 --> 00:57:50,400
actually kind of built into this process

1627
00:57:54,150 --> 00:57:52,880
of evolution and nature favors species

1628
00:57:56,069 --> 00:57:54,160
that collaborate which i think is

1629
00:57:58,230 --> 00:57:56,079
amazing because for the longest time

1630
00:58:00,150 --> 00:57:58,240
we've thought of you know alphas and

1631
00:58:02,069 --> 00:58:00,160
it's not really the case that there's an

1632
00:58:04,150 --> 00:58:02,079
alpha it's more that everything tries to

1633
00:58:07,109 --> 00:58:04,160
get along so that in itself is a

1634
00:58:09,270 --> 00:58:07,119
paradigm shift that would lend very well

1635
00:58:11,349 --> 00:58:09,280
to us coexisting with another species

1636
00:58:13,990 --> 00:58:11,359
whether they're here or not or yet to be

1637
00:58:16,470 --> 00:58:14,000
contacted but it makes me think of the

1638
00:58:19,670 --> 00:58:16,480

process of evolution itself is what

1639

00:58:20,630 --> 00:58:19,680

people refer to as god um and and

1640

00:58:25,270 --> 00:58:20,640

it's

1641

00:58:27,510 --> 00:58:25,280

creative process and i wonder if you

1642

00:58:31,030 --> 00:58:27,520

know creativity and imagination isn't

1643

00:58:32,950 --> 00:58:31,040

the ending of the whole thing we're in

1644

00:58:34,789 --> 00:58:32,960

yeah i was wondering that too and also

1645

00:58:36,710 --> 00:58:34,799

wondering if

1646

00:58:38,470 --> 00:58:36,720

if these beings

1647

00:58:39,430 --> 00:58:38,480

or whoever

1648

00:58:43,750 --> 00:58:39,440

these

1649

00:58:45,430 --> 00:58:43,760

people are mankinds who are

1650

00:58:46,549 --> 00:58:45,440

messing with things genetically what if

1651
00:58:49,510 --> 00:58:46,559
they could

1652
00:58:50,710 --> 00:58:49,520
engineer like energy to be intelligent

1653
00:58:52,789 --> 00:58:50,720
and

1654
00:58:54,789 --> 00:58:52,799
that's what ghosts are

1655
00:58:55,910 --> 00:58:54,799
i mean i don't know it would be kind of

1656
00:58:58,309 --> 00:58:55,920
crazy

1657
00:59:01,510 --> 00:58:58,319
yeah i mean i i love it you know

1658
00:59:03,349 --> 00:59:01,520
we years ago i always think of i forget

1659
00:59:04,789 --> 00:59:03,359
the name of the effect now but basically

1660
00:59:06,630 --> 00:59:04,799
up in the scottish islands people used

1661
00:59:09,109 --> 00:59:06,640
to say that they saw angels and that you

1662
00:59:10,710 --> 00:59:09,119
could go out on a kind of foggy day and

1663
00:59:12,230 --> 00:59:10,720

you'd wander in the hills and you would

1664

00:59:14,549 --> 00:59:12,240

see your higher self and they would give

1665

00:59:16,630 --> 00:59:14,559

you advice so and so forth now we know

1666

00:59:18,789 --> 00:59:16,640

that because of the way that the sun

1667

00:59:20,630 --> 00:59:18,799

refracts in the ice crystals

1668

00:59:22,390 --> 00:59:20,640

it will make a shadow of you in a

1669

00:59:23,750 --> 00:59:22,400

direction that you don't think your

1670

00:59:26,069 --> 00:59:23,760

shadow should be

1671

00:59:28,470 --> 00:59:26,079

and it just kind of creates a halo of

1672

00:59:31,030 --> 00:59:28,480

light around the head of the shadow so

1673

00:59:33,910 --> 00:59:31,040

that kind of natural process

1674

00:59:35,510 --> 00:59:33,920

is you know once it was myth and kind of

1675

00:59:37,510 --> 00:59:35,520

a ghost story

1676

00:59:39,109 --> 00:59:37,520

but now we understand it fully and i

1677

00:59:40,710 --> 00:59:39,119

think we're going to move that way with

1678

00:59:42,789 --> 00:59:40,720

the phenomena and everything to do with

1679

00:59:44,630 --> 00:59:42,799

it because kind of poltergeist activity

1680

00:59:46,950 --> 00:59:44,640

and that kind of stuff is wrapped up

1681

00:59:50,710 --> 00:59:46,960

with all of this other stuff that we

1682

00:59:53,190 --> 00:59:50,720

have um so so i i feel like

1683

00:59:56,230 --> 00:59:53,200

this is a path that leads to us you know

1684

00:59:57,670 --> 00:59:56,240

understanding what a ghost is and you

1685

01:00:00,309 --> 00:59:57,680

know in 100 years they'll look back on

1686

01:00:02,309 --> 01:00:00,319

us and go they call them what

1687

01:00:04,390 --> 01:00:02,319

katie will have to wrap it up as dan

1688

01:00:06,150 --> 01:00:04,400

discredit scottish angels i don't think

1689

01:00:07,910 --> 01:00:06,160

we're going to go in that direction but

1690

01:00:10,230 --> 01:00:07,920

uh listen it's been great talking to you

1691

01:00:12,710 --> 01:00:10,240

and i do hope you caught one again okay

1692

01:00:14,710 --> 01:00:12,720

sure thanks for having me

1693

01:00:16,549 --> 01:00:14,720

and final call in keeping with the

1694

01:00:19,670 --> 01:00:16,559

international flavor we've had for this

1695

01:00:21,670 --> 01:00:19,680

part one we have eric and peter they are

1696

01:00:24,230 --> 01:00:21,680

based in sweden i think both in

1697

01:00:26,829 --> 01:00:24,240

stockholm would that be correct or

1698

01:00:30,230 --> 01:00:26,839

yeah stockholm area yeah

1699

01:00:33,109 --> 01:00:30,240

um my name is actually

1700

01:00:36,150 --> 01:00:33,119

eric thomas so my friends call me thomas

1701

01:00:38,390 --> 01:00:36,160

but uh i i've started using my initials

1702

01:00:40,950 --> 01:00:38,400

because it's e.t person

1703

01:00:42,950 --> 01:00:40,960

yeah i i i know i noticed that on the

1704

01:00:44,630 --> 01:00:42,960

emails the et and then i noticed in a

1705

01:00:46,150 --> 01:00:44,640

show so yeah we'll go with thomas thank

1706

01:00:49,510 --> 01:00:46,160

you and we've got peter and they are

1707

01:00:52,549 --> 01:00:49,520

from the swedish ufo podcast ufo beyond

1708

01:00:54,230 --> 01:00:52,559

reasonable doubt uh which is translated

1709

01:00:55,990 --> 01:00:54,240

into english obviously do you want to

1710

01:00:58,069 --> 01:00:56,000

try to pronounce that again for us for

1711

01:00:59,670 --> 01:00:58,079

the listeners what it's in swedish

1712

01:01:01,430 --> 01:00:59,680

are you talking to damn

1713

01:01:02,950 --> 01:01:01,440

no we'll go with you

1714

01:01:06,549 --> 01:01:02,960

if you want people to understand it i

1715

01:01:10,069 --> 01:01:08,789

but yeah but no one is going to

1716

01:01:11,910 --> 01:01:10,079

understand that but it's beyond

1717

01:01:13,829 --> 01:01:11,920

reasonable doubt but in swedish so

1718

01:01:15,670 --> 01:01:13,839

that's that's what we're called

1719

01:01:17,750 --> 01:01:15,680

very nice well what um the floor is

1720

01:01:19,589 --> 01:01:17,760

yours what do you want to talk about

1721

01:01:21,829 --> 01:01:19,599

i've been kind of my head is full of

1722

01:01:23,589 --> 01:01:21,839

roswell at the moment we're gonna do a

1723

01:01:26,630 --> 01:01:23,599

several part uh

1724

01:01:29,750 --> 01:01:26,640

series on the roswell incident because

1725

01:01:31,109 --> 01:01:29,760

it's the granddaddy of ufo cases i would

1726

01:01:33,109 --> 01:01:31,119

say

1727

01:01:34,870 --> 01:01:33,119

i don't know but you guys have you uh

1728

01:01:36,549 --> 01:01:34,880

are you into the roswell incident

1729

01:01:38,470 --> 01:01:36,559

anything

1730

01:01:40,230 --> 01:01:38,480

absolutely yeah it's one of those i

1731

01:01:42,390 --> 01:01:40,240

think that you get into especially when

1732

01:01:44,549 --> 01:01:42,400

you you start off on the subject it's

1733

01:01:45,910 --> 01:01:44,559

the first one and if you're not involved

1734

01:01:48,150 --> 01:01:45,920

in the subject and you're just one of

1735

01:01:50,309 --> 01:01:48,160

the general public who who don't even

1736

01:01:51,910 --> 01:01:50,319

have a passing interest you you know

1737

01:01:53,910 --> 01:01:51,920

about roswell if someone mentions

1738

01:01:55,750 --> 01:01:53,920

roswell it's you know oh that's where

1739

01:01:57,990 --> 01:01:55,760

the aliens crashed or the flying saucer

1740

01:02:01,029 --> 01:01:58,000

crashed so yeah it's it's one of those

1741

01:02:03,510 --> 01:02:01,039

that it's it's been a long time i i've

1742

01:02:06,150 --> 01:02:03,520

said personally i like a lot of the

1743

01:02:09,190 --> 01:02:06,160

newer cases because i suppose we have

1744

01:02:10,870 --> 01:02:09,200

more data more hard evidence there's

1745

01:02:12,870 --> 01:02:10,880

more witnesses that are still alive

1746

01:02:15,349 --> 01:02:12,880

which is always a benefit

1747

01:02:16,789 --> 01:02:15,359

roswell is is one of those that as the

1748

01:02:19,029 --> 01:02:16,799

years pass by

1749

01:02:20,710 --> 01:02:19,039

it becomes more and more myth

1750

01:02:22,470 --> 01:02:20,720

but it's it's

1751

01:02:24,390 --> 01:02:22,480

something always still seems to come up

1752

01:02:27,190 --> 01:02:24,400

from roswell and even after all these

1753

01:02:29,270 --> 01:02:27,200

years there's a lot of uh human aspects

1754

01:02:31,910 --> 01:02:29,280

a lot of human stories to roswell as

1755

01:02:35,510 --> 01:02:31,920

well because it's so many people and so

1756

01:02:36,390 --> 01:02:35,520

much research done so it's kind of these

1757

01:02:42,630 --> 01:02:36,400

uh

1758

01:02:44,630 --> 01:02:42,640

that's that's really interesting too but

1759

01:02:45,349 --> 01:02:44,640

of course the nimitz incident is kind of

1760

01:02:52,470 --> 01:02:45,359

a

1761

01:02:54,069 --> 01:02:52,480

but uh

1762

01:02:57,029 --> 01:02:54,079

um

1763

01:03:01,190 --> 01:02:57,039

roswell is i think it's the it's still

1764

01:03:03,029 --> 01:03:01,200

nothing like the roswell case in my mind

1765

01:03:04,309 --> 01:03:03,039

did you hear about uh did you hear about

1766

01:03:10,230 --> 01:03:04,319

uh

1767

01:03:13,109 --> 01:03:10,240

personal opinion on the russell incident

1768

01:03:14,150 --> 01:03:13,119

yeah it was that's the 100 percent yeah

1769

01:03:17,430 --> 01:03:14,160

yeah

1770

01:03:19,349 --> 01:03:17,440

100 on what though is that

1771

01:03:21,510 --> 01:03:19,359

something happened in roswell because i

1772

01:03:23,190 --> 01:03:21,520

think everyone can agree on that yeah i

1773

01:03:25,670 --> 01:03:23,200

suppose he's not going to go into detail

1774

01:03:26,870 --> 01:03:25,680

on it was 100 percent alien bodies in

1775

01:03:28,549 --> 01:03:26,880

the crash and

1776

01:03:29,829 --> 01:03:28,559

now people can kind of take their own

1777

01:03:32,390 --> 01:03:29,839

story from it you know like if you're

1778

01:03:34,549 --> 01:03:32,400

listening to that from like andy says it

1779

01:03:36,309 --> 01:03:34,559

could be 100 that something happened it

1780

01:03:39,190 --> 01:03:36,319

could be a hundred percent that there

1781

01:03:41,109 --> 01:03:39,200

was an et crash it could be 100 that

1782

01:03:43,029 --> 01:03:41,119

you know the the other story put forward

1783

01:03:44,630 --> 01:03:43,039

was that it was children suffering

1784

01:03:46,549 --> 01:03:44,640

progenitor

1785

01:03:48,230 --> 01:03:46,559

i forget the name of the disease now but

1786

01:03:49,990 --> 01:03:48,240

basically it you know made them look

1787

01:03:51,990 --> 01:03:50,000

very alien to the people that would have

1788

01:03:53,349 --> 01:03:52,000

approached the balloon they were said to

1789

01:03:55,430 --> 01:03:53,359

be riding on

1790

01:03:57,589 --> 01:03:55,440

which is a crazy story anyway but you

1791

01:03:59,029 --> 01:03:57,599

know that's

1792

01:04:10,470 --> 01:03:59,039

yeah

1793

01:04:12,710 --> 01:04:10,480

follow lou elisando's uh

1794

01:04:14,950 --> 01:04:12,720

interviews as close as we do

1795

01:04:16,710 --> 01:04:14,960

so i mean

1796

01:04:18,710 --> 01:04:16,720

you know what he means when he says a

1797

01:04:21,589 --> 01:04:18,720

hundred percent

1798

01:04:23,910 --> 01:04:21,599

it he he isn't talking about something

1799

01:04:26,549 --> 01:04:23,920

crashed right

1800

01:04:28,150 --> 01:04:26,559

yeah for me if i had to dig into it i

1801

01:04:30,069 --> 01:04:28,160

think lew's getting at yeah something

1802

01:04:32,390 --> 01:04:30,079

crashed that wasn't human

1803

01:04:34,390 --> 01:04:32,400

at least that much um i think it's one

1804

01:04:36,230 --> 01:04:34,400

of those the details behind that of

1805

01:04:38,549 --> 01:04:36,240

number of bodies is always rumored to be

1806

01:04:40,710 --> 01:04:38,559

what three two died at the crash site

1807

01:04:43,190 --> 01:04:40,720

one was alive and then the various

1808

01:04:45,910 --> 01:04:43,200

rumors split off again of one continued

1809

01:04:47,430 --> 01:04:45,920

to live or died shortly thereafter

1810

01:04:49,910 --> 01:04:47,440

and then there's always rumors of a

1811

01:04:54,230 --> 01:04:49,920

second crash andy you're being offensive

1812

01:04:56,549 --> 01:04:54,240

use their names she was called

1813

01:04:58,230 --> 01:04:56,559

that'll just sound swedish

1814

01:04:59,829 --> 01:04:58,240

but yeah and that's it there's just

1815

01:05:02,230 --> 01:04:59,839

various aspects of the story that

1816

01:05:04,309 --> 01:05:02,240

branches off to well this is what some

1817

01:05:06,069 --> 01:05:04,319

believe this is what others believe but

1818

01:05:08,230 --> 01:05:06,079

yeah you would think someone in lowe's

1819

01:05:10,230 --> 01:05:08,240

position would have at least heard

1820

01:05:12,309 --> 01:05:10,240

enough to know that yeah we recovered

1821

01:05:14,630 --> 01:05:12,319

something and it wasn't human and that

1822

01:05:17,670 --> 01:05:14,640

was the the birth of modern ufology i

1823

01:05:19,270 --> 01:05:17,680

suppose oh yeah didn't eric davis also

1824

01:05:22,150 --> 01:05:19,280

confirmed some

1825

01:05:24,630 --> 01:05:22,160

kind of somewhere

1826

01:05:26,870 --> 01:05:24,640

yeah he's alluded to it and i think

1827

01:05:28,789 --> 01:05:26,880

around the same time that was when tim

1828

01:05:30,710 --> 01:05:28,799

mcmillan shared that little tidbit that

1829

01:05:32,069 --> 01:05:30,720

he'd kind of heard and he went to length

1830

01:05:33,829 --> 01:05:32,079

to kind of emphasize it was something

1831

01:05:36,549 --> 01:05:33,839

he'd heard he hadn't seen any proof of

1832

01:05:39,109 --> 01:05:36,559

it but you know the story was that

1833

01:05:41,349 --> 01:05:39,119

the the recovered material

1834

01:05:44,470 --> 01:05:41,359

was something you know

1835

01:05:45,990 --> 01:05:44,480

a lot stranger than any of us think it

1836

01:05:47,990 --> 01:05:46,000

is

1837

01:05:50,630 --> 01:05:48,000

which was interesting because what what

1838

01:05:52,870 --> 01:05:50,640

is more strange than you know we we

1839

01:05:55,270 --> 01:05:52,880

all talk everything from angels to

1840

01:05:57,029 --> 01:05:55,280

interdimensional creatures to you know

1841

01:05:59,349 --> 01:05:57,039

just plain old oh life from another

1842

01:06:00,870 --> 01:05:59,359

planet crash that you know so so much

1843

01:06:03,430 --> 01:06:00,880

variation what we talk about that that's

1844

01:06:05,510 --> 01:06:03,440

the boring option so to think okay well

1845

01:06:09,430 --> 01:06:05,520

what's stranger than all of that

1846

01:06:15,430 --> 01:06:12,950

i know a stranger would be

1847

01:06:16,710 --> 01:06:15,440

i would be really really surprised if it

1848

01:06:20,230 --> 01:06:16,720

was a

1849

01:06:22,950 --> 01:06:20,240

balloon that would surprise me

1850

01:06:25,910 --> 01:06:22,960

but it wouldn't class as stranger right

1851

01:06:27,829 --> 01:06:25,920

no no no but it was surprised me more

1852

01:06:30,150 --> 01:06:27,839

i'd say

1853

01:06:33,589 --> 01:06:30,160

i'm right also um thomas you wanted to

1854

01:06:38,309 --> 01:06:33,599

mention the the welsh uh pentrick

1855

01:06:43,270 --> 01:06:40,789

i i've been checking around a bit about

1856

01:06:44,710 --> 01:06:43,280

that incident but uh

1857

01:06:48,630 --> 01:06:44,720

yeah

1858

01:06:50,950 --> 01:06:48,640

how what what's your guys opinion on the

1859

01:06:53,990 --> 01:06:50,960

credibility of the

1860

01:06:56,150 --> 01:06:54,000

zero okay

1861

01:06:58,630 --> 01:06:56,160

credibility yeah

1862

01:07:01,589 --> 01:06:58,640

it's one of those cases where there's a

1863

01:07:03,990 --> 01:07:01,599

lot of paperwork surrounding it that

1864

01:07:05,910 --> 01:07:04,000

suggests it's the more prosaic thing but

1865

01:07:07,109 --> 01:07:05,920

i find that when people start digging

1866

01:07:10,069 --> 01:07:07,119

into it the

1867

01:07:11,109 --> 01:07:10,079

the story is so

1868

01:07:12,470 --> 01:07:11,119

you know

1869

01:07:15,589 --> 01:07:12,480

kaz experienced something that she

1870

01:07:17,109 --> 01:07:15,599

didn't understand and i'm sure i would

1871

01:07:19,109 --> 01:07:17,119

have the same reaction if i was caught

1872

01:07:22,950 --> 01:07:19,119

in the middle in the middle of a

1873

01:07:23,910 --> 01:07:22,960

british military exercise you know um

1874

01:07:26,230 --> 01:07:23,920

but

1875

01:07:28,470 --> 01:07:26,240

because of the way she she presents that

1876
01:07:30,069 --> 01:07:28,480
story you know it absolutely did happen

1877
01:07:31,510 --> 01:07:30,079
to her so

1878
01:07:32,549 --> 01:07:31,520
the story of you know there were these

1879
01:07:34,630 --> 01:07:32,559
big lights and i didn't know what they

1880
01:07:36,710 --> 01:07:34,640
were and you know all the details of

1881
01:07:37,829 --> 01:07:36,720
that

1882
01:07:40,069 --> 01:07:37,839
it's

1883
01:07:41,990 --> 01:07:40,079
when she tells it it comes across as

1884
01:07:43,910 --> 01:07:42,000
genuine because she did have that

1885
01:07:45,990 --> 01:07:43,920
experience but like i say when you

1886
01:07:48,549 --> 01:07:46,000
actually go looking you can find the the

1887
01:07:51,829 --> 01:07:48,559
notice that the event was going to be

1888
01:07:55,109 --> 01:07:51,839

taking place and um graham randall uh

1889

01:07:58,630 --> 01:07:55,119

i'd suggest uh it's at borders uh 570 or

1890

01:08:01,510 --> 01:07:58,640

47 750. so oh border 750 there you go

1891

01:08:03,430 --> 01:08:01,520

yeah that's right um i'd recommend give

1892

01:08:05,829 --> 01:08:03,440

give him a ping on twitter because he

1893

01:08:08,230 --> 01:08:05,839

he's kind of the paperwork guy in our

1894

01:08:10,710 --> 01:08:08,240

uap media group uh vinnie is hot on his

1895

01:08:14,710 --> 01:08:10,720

heels and dave too um

1896

01:08:17,510 --> 01:08:14,720

but he he will extensively give a a

1897

01:08:20,390 --> 01:08:17,520

rounded explanation as to why it's

1898

01:08:22,470 --> 01:08:20,400

something prosaic okay

1899

01:08:26,390 --> 01:08:22,480

there's a lot to it as well and again

1900

01:08:28,229 --> 01:08:26,400

it's not to try and discredit or poo poo

1901

01:08:30,470 --> 01:08:28,239

someone's experience but

1902

01:08:33,269 --> 01:08:30,480

i think kaz's story sounds very well

1903

01:08:35,510 --> 01:08:33,279

rehearsed at this point and also the

1904

01:08:38,630 --> 01:08:35,520

fact that she had claimed to have had no

1905

01:08:40,470 --> 01:08:38,640

interest in ufos before the event yet

1906

01:08:42,950 --> 01:08:40,480

some people checked out her own private

1907

01:08:44,709 --> 01:08:42,960

facebook page which before the event

1908

01:08:48,229 --> 01:08:44,719

happened she was a member of various

1909

01:08:49,990 --> 01:08:48,239

pages alluding to ufos as well so

1910

01:08:53,030 --> 01:08:50,000

there's just plenty in it that doesn't

1911

01:08:56,149 --> 01:08:53,040

add up to being anything in congruency

1912

01:08:57,590 --> 01:08:56,159

i've heard i've heard rumors about uh

1913

01:08:59,749 --> 01:08:57,600

such

1914

01:09:02,149 --> 01:08:59,759

information but um but it's a good thing

1915

01:09:04,470 --> 01:09:02,159

to bring up because

1916

01:09:06,229 --> 01:09:04,480

at no point here you know even though

1917

01:09:08,070 --> 01:09:06,239

kaz has told the story a bunch of times

1918

01:09:10,309 --> 01:09:08,080

she did have that experience and she's

1919

01:09:11,910 --> 01:09:10,319

not lying from her point of view you

1920

01:09:13,829 --> 01:09:11,920

know i i always find when people have

1921

01:09:15,349 --> 01:09:13,839

these conversations if you say oh i

1922

01:09:16,950 --> 01:09:15,359

believe it's something prosaic they'll

1923

01:09:23,430 --> 01:09:16,960

call they'll say oh you saying that

1924

01:09:26,470 --> 01:09:25,030

you know i'm sure you guys understand

1925

01:09:27,910 --> 01:09:26,480

but i just thought i'd make the point

1926

01:09:29,749 --> 01:09:27,920

because i see a lot of people in the

1927

01:09:31,510 --> 01:09:29,759

community do it it's either i'm truth or

1928

01:09:33,829 --> 01:09:31,520

you're liars like now there's a gray

1929

01:09:35,669 --> 01:09:33,839

area in

1930

01:09:37,269 --> 01:09:35,679

when it comes to witnesses you have to

1931

01:09:39,349 --> 01:09:37,279

divide them

1932

01:09:41,510 --> 01:09:39,359

a model from the

1933

01:09:43,590 --> 01:09:41,520

uh from my work is

1934

01:09:45,910 --> 01:09:43,600

if you divide the

1935

01:09:47,669 --> 01:09:45,920

witnesses if you look at them and judge

1936

01:09:49,669 --> 01:09:47,679

them into two

1937

01:09:52,630 --> 01:09:49,679

characteristics right that one is

1938

01:09:55,750 --> 01:09:52,640

credibility how how much how honest they

1939

01:09:58,790 --> 01:09:55,760

are right this is easy fast explanation

1940

01:09:59,669 --> 01:09:58,800

and the other part is how trustworthy

1941

01:10:05,510 --> 01:09:59,679

their

1942

01:10:08,470 --> 01:10:05,520

eyesight hearing

1943

01:10:10,950 --> 01:10:08,480

uh is it supported by other information

1944

01:10:13,430 --> 01:10:10,960

what are their education experience and

1945

01:10:14,229 --> 01:10:13,440

so on so on so if you measure those

1946

01:10:17,830 --> 01:10:14,239

that's

1947

01:10:20,790 --> 01:10:17,840

sticks out because

1948

01:10:23,350 --> 01:10:20,800

the credibility and the uh amount of

1949

01:10:25,910 --> 01:10:23,360

trust you can put in their testimonies

1950

01:10:26,709 --> 01:10:25,920

both were really really high

1951

01:10:28,070 --> 01:10:26,719

so

1952

01:10:30,070 --> 01:10:28,080

yeah and they can call on a lot of

1953

01:10:31,830 --> 01:10:30,080

different data and systems that yeah we

1954

01:10:32,870 --> 01:10:31,840

don't necessarily get those we've got

1955

01:10:35,510 --> 01:10:32,880

the video

1956

01:10:37,990 --> 01:10:35,520

but you've got highly qualified military

1957

01:10:40,470 --> 01:10:38,000

personnel telling you what data they had

1958

01:10:42,630 --> 01:10:40,480

and what they saw so either

1959

01:10:43,430 --> 01:10:42,640

they're all lying about that

1960

01:10:45,270 --> 01:10:43,440

or

1961

01:10:47,350 --> 01:10:45,280

they're being honest

1962

01:10:48,790 --> 01:10:47,360

for the most part and they're recalling

1963

01:10:51,270 --> 01:10:48,800

what they remember happened on those

1964

01:10:53,350 --> 01:10:51,280

days and that's just where the pen took

1965

01:10:56,070 --> 01:10:53,360

the welsh case for me just doesn't hold

1966

01:10:57,350 --> 01:10:56,080

up any any water at all but i would

1967

01:10:59,030 --> 01:10:57,360

always encourage people to go and do

1968

01:11:01,030 --> 01:10:59,040

their own their own research into it

1969

01:11:03,750 --> 01:11:01,040

like your gents are doing

1970

01:11:05,830 --> 01:11:03,760

yeah i kind of let that case go since i

1971

01:11:07,910 --> 01:11:05,840

heard the rumors about

1972

01:11:09,110 --> 01:11:07,920

some strange information but but what

1973

01:11:11,430 --> 01:11:09,120

about the

1974

01:11:14,149 --> 01:11:11,440

photos of the

1975

01:11:15,910 --> 01:11:14,159

trees the trees that have been

1976

01:11:17,110 --> 01:11:15,920

broken down and

1977

01:11:19,430 --> 01:11:17,120

such

1978

01:11:22,550 --> 01:11:19,440

is that not from the incident or is it

1979

01:11:24,070 --> 01:11:22,560

yeah the the trees were from if you look

1980

01:11:26,870 --> 01:11:24,080

on the map i i don't actually live too

1981

01:11:28,709 --> 01:11:26,880

far from where it happened yeah and and

1982

01:11:31,350 --> 01:11:28,719

if you if you look on the map

1983

01:11:33,030 --> 01:11:31,360

the the forest with those photos were

1984

01:11:35,430 --> 01:11:33,040

taken where the forestry commission came

1985

01:11:38,149 --> 01:11:35,440

down and cut down trees that that forest

1986

01:11:39,189 --> 01:11:38,159

was in a much different spot um

1987

01:11:40,310 --> 01:11:39,199

you know it's

1988

01:11:42,070 --> 01:11:40,320

i don't want to guess how long it would

1989

01:11:43,510 --> 01:11:42,080

take to drive between it but

1990

01:11:45,750 --> 01:11:43,520

there was a there was a bit of legwork

1991

01:11:47,669 --> 01:11:45,760

involved to get to a different spot so i

1992

01:11:49,669 --> 01:11:47,679

i almost feel like

1993

01:11:51,110 --> 01:11:49,679

you know some work just happened then

1994

01:11:52,790 --> 01:11:51,120

someone saw it and has linked it with

1995

01:11:54,709 --> 01:11:52,800

the event when they're not necessarily

1996

01:11:56,470 --> 01:11:54,719

linked i would say okay

1997

01:11:59,910 --> 01:11:56,480

but something

1998

01:12:01,110 --> 01:11:59,920

i mean trees don't break apart in in

1999

01:12:02,550 --> 01:12:01,120

that height

2000

01:12:05,110 --> 01:12:02,560

something must have

2001

01:12:06,709 --> 01:12:05,120

happened at that place

2002

01:12:09,350 --> 01:12:06,719

but we don't know what crashed into

2003

01:12:12,310 --> 01:12:09,360

those trees exactly and and we don't we

2004

01:12:14,229 --> 01:12:12,320

don't have anyone from that you know

2005

01:12:15,990 --> 01:12:14,239

that live right by that forest but that

2006

01:12:17,430 --> 01:12:16,000

happened saying oh yeah ufo went and

2007

01:12:19,030 --> 01:12:17,440

crashed into there it's only the person

2008

01:12:20,950 --> 01:12:19,040

from a couple of towns over saying it

2009

01:12:23,189 --> 01:12:20,960

and saying well this must be that then

2010

01:12:25,990 --> 01:12:23,199

it's like well it could be but

2011

01:12:28,310 --> 01:12:26,000

maybe you know

2012
