THE BREAKDOWN

'OUR FUTURE IN SPACE':
DNI AVRIL HAINES ON UAP, &
NEW CHRIS MELLON ARTICLE

1
00:00:00,000 --> 00:00:05,430

[Music]

2
00:00:08,549 --> 00:00:06,869

there's a whole fleet of look on the

3
00:00:10,870 --> 00:00:08,559

assay

4
00:00:14,230 --> 00:00:10,880

oh my gosh they're all going against the

5
00:00:18,870 --> 00:00:16,310

it was basically a cube with inside of

6
00:00:22,730 --> 00:00:18,880

sphere where the points of the cube

7
00:00:33,010 --> 00:00:22,740

were touching outside of sphere

8
00:00:37,110 --> 00:00:34,480

[Music]

9
00:00:38,630 --> 00:00:37,120

[Applause]

10
00:00:40,869 --> 00:00:38,640

so this isn't anything that just is

11
00:00:45,510 --> 00:00:40,879

limited to the united states it's a

12
00:00:49,910 --> 00:00:47,750

that ufo podcast is powered by zen

13
00:00:51,590 --> 00:00:49,920

caster zencaster is one of the world's

14

00:00:54,229 --> 00:00:51,600

leading platforms for recording and

15

00:00:55,990 --> 00:00:54,239

hosting podcasts the open beta strives

16

00:00:57,990 --> 00:00:56,000

to put the power of studio quality

17

00:01:00,470 --> 00:00:58,000

remote video production into the hands

18

00:01:02,790 --> 00:01:00,480

of anyone with a story to tell features

19

00:01:05,750 --> 00:01:02,800

include hd video recording studio

20

00:01:07,350 --> 00:01:05,760

quality sound chat and footnotes all

21

00:01:09,510 --> 00:01:07,360

running right from your browser so you

22

00:01:11,590 --> 00:01:09,520

can record from anywhere without ever

23

00:01:18,550 --> 00:01:11,600

installing anything check out the links

24

00:01:23,190 --> 00:01:21,030

hi everyone and welcome back to that ufo

25

00:01:25,749 --> 00:01:23,200

podcast my name is andy and it is

26
00:01:27,590 --> 00:01:25,759
another breakdown we have two in a week

27
00:01:29,429 --> 00:01:27,600
now which i'm i'm really excited to talk

28
00:01:31,910 --> 00:01:29,439
about so some new things have happened

29
00:01:33,990 --> 00:01:31,920
in the last 24 hours or so dan how are

30
00:01:36,069 --> 00:01:34,000
we today i'm great thank you very much

31
00:01:39,109 --> 00:01:36,079
it's always nice to to wake up with a

32
00:01:41,350 --> 00:01:39,119
bunch of uap news to show on

33
00:01:44,149 --> 00:01:41,360
yeah um and i'm sorry we're not being

34
00:01:45,190 --> 00:01:44,159
introduced by some rocking organ music

35
00:01:47,990 --> 00:01:45,200
as

36
00:01:49,990 --> 00:01:48,000
that which started the ignatius forum

37
00:01:51,270 --> 00:01:50,000
our future in space and which is what

38
00:01:54,550 --> 00:01:51,280

we're going to kick off talking about

39

00:01:57,190 --> 00:01:54,560

just now um hosted by bill ignacius or

40

00:01:58,709 --> 00:01:57,200

oh wait david ignacius david ignacius

41

00:02:00,149 --> 00:01:58,719

yeah i've said i've said bill because

42

00:02:01,590 --> 00:02:00,159

you said but like yeah you said my

43

00:02:04,149 --> 00:02:01,600

mistake yeah

44

00:02:07,350 --> 00:02:04,159

yeah um and we i thought that was a joke

45

00:02:08,949 --> 00:02:07,360

so myself and dan both until seconds ago

46

00:02:09,910 --> 00:02:08,959

thought it was called the ignacious

47

00:02:12,550 --> 00:02:09,920

forum

48

00:02:15,350 --> 00:02:12,560

because it was like pretentious and it

49

00:02:17,190 --> 00:02:15,360

was insert latin word here for him but

50

00:02:18,790 --> 00:02:17,200

no it turns out that's the guy's surname

51

00:02:21,589 --> 00:02:18,800

so there we go

52

00:02:23,830 --> 00:02:21,599

powerful surname icarus ignatius you

53

00:02:26,790 --> 00:02:23,840

know it's a big sunny isn't david

54

00:02:29,830 --> 00:02:26,800

ignatius wow it's like his nickname or

55

00:02:31,030 --> 00:02:29,840

ignatius yeah what a guy but yes so this

56

00:02:32,710 --> 00:02:31,040

was um

57

00:02:34,390 --> 00:02:32,720

it wasn't overly hyped or anything we

58

00:02:36,710 --> 00:02:34,400

knew it was coming up and we saw some

59

00:02:38,630 --> 00:02:36,720

notable names were attached to it there

60

00:02:39,910 --> 00:02:38,640

was of course bill nelson nasa

61

00:02:41,750 --> 00:02:39,920

administrator

62

00:02:44,309 --> 00:02:41,760

avi loeb who is heading up project

63

00:02:47,350 --> 00:02:44,319

galileo professor of science at harvard

64

00:02:50,390 --> 00:02:47,360

jeff bezos evil billionaire owner of

65

00:02:52,869 --> 00:02:50,400

amazon and the current dni director of

66

00:02:55,190 --> 00:02:52,879

national intelligence avril haynes

67

00:02:57,350 --> 00:02:55,200

we also have i'm just gonna throw the

68

00:03:00,869 --> 00:02:57,360

name in david wilkinson uh from durham

69

00:03:02,710 --> 00:03:00,879

university uh he was talking about the

70

00:03:05,350 --> 00:03:02,720

the well he's a theologian and

71

00:03:06,550 --> 00:03:05,360

astrophysicist i forgot the english guy

72

00:03:07,589 --> 00:03:06,560

that's terrible

73

00:03:09,030 --> 00:03:07,599

uh

74

00:03:10,869 --> 00:03:09,040

nothing behind that folks but yeah

75

00:03:14,149 --> 00:03:10,879

listen i i will be honest cards on the

76
00:03:16,229 --> 00:03:14,159
table this happened hours ago and just

77
00:03:17,910 --> 00:03:16,239
due to recording constraints and times

78
00:03:20,070 --> 00:03:17,920
i've not managed to watch the full thing

79
00:03:22,229 --> 00:03:20,080
yet i've watched a good portion of the

80
00:03:24,309 --> 00:03:22,239
first half and i've seen the stuff

81
00:03:27,030 --> 00:03:24,319
that's noteworthy and then dan's going

82
00:03:29,270 --> 00:03:27,040
to fill in the blanks for us but dan for

83
00:03:31,110 --> 00:03:29,280
a kick off what was this event and why

84
00:03:33,670 --> 00:03:31,120
was it happening

85
00:03:35,430 --> 00:03:33,680
so this event was really

86
00:03:36,869 --> 00:03:35,440
uh well i'll read the description of the

87
00:03:39,030 --> 00:03:36,879
event and that'll kind of give people an

88
00:03:41,350 --> 00:03:39,040

idea um because it wasn't just a uap

89

00:03:43,430 --> 00:03:41,360

focused event uh the description says

90

00:03:45,030 --> 00:03:43,440

space is the new frontier for humanity

91

00:03:46,869 --> 00:03:45,040

nasa is planning a new generation of

92

00:03:48,869 --> 00:03:46,879

exploration scientists are debating the

93

00:03:50,710 --> 00:03:48,879

possibility of extraterrestrial life and

94

00:03:52,949 --> 00:03:50,720

military planners are developing weapons

95

00:03:54,710 --> 00:03:52,959

for space warfare what does this space

96

00:03:56,550 --> 00:03:54,720

rush mean at a moment when private

97

00:03:58,390 --> 00:03:56,560

citizens are launching spaceships and

98

00:04:00,149 --> 00:03:58,400

the director of national intelligence

99

00:04:02,550 --> 00:04:00,159

has released a report assessing

100

00:04:03,990 --> 00:04:02,560

unidentified aerial phenomena as we look

101
00:04:06,550 --> 00:04:04,000
towards the heavens what does the

102
00:04:09,670 --> 00:04:06,560
possibility of life out there mean for

103
00:04:12,869 --> 00:04:10,470
cool

104
00:04:14,149 --> 00:04:12,879
so you can see that that touches on you

105
00:04:16,390 --> 00:04:14,159
know basically we're talking about

106
00:04:18,550 --> 00:04:16,400
private industry it almost kind of gives

107
00:04:20,710 --> 00:04:18,560
us the answer for why now you know when

108
00:04:21,749 --> 00:04:20,720
we ask this about uh the uap news coming

109
00:04:24,629 --> 00:04:21,759
out

110
00:04:26,790 --> 00:04:24,639
that summarizes that we're on the cusp

111
00:04:28,950 --> 00:04:26,800
of of kind of breaking into space as the

112
00:04:30,950 --> 00:04:28,960
new frontier you know we we look back

113
00:04:32,870 --> 00:04:30,960

and think of columbus and so francis

114

00:04:35,030 --> 00:04:32,880

drake kind of you know going around the

115

00:04:36,629 --> 00:04:35,040

world and and that's in front of us for

116

00:04:38,469 --> 00:04:36,639

space we're going to get to see that

117

00:04:40,950 --> 00:04:38,479

happen it's pretty exciting

118

00:04:42,629 --> 00:04:40,960

now it started in quite a grand or the

119

00:04:45,110 --> 00:04:42,639

whole thing was hosted in quite a grand

120

00:04:47,110 --> 00:04:45,120

setting it's in a big cathedral and

121

00:04:49,830 --> 00:04:47,120

there was the oregon music which started

122

00:04:53,670 --> 00:04:49,840

the the whole proceedings and we are

123

00:04:55,510 --> 00:04:53,680

greeted by um uh the the very reverend

124

00:04:56,790 --> 00:04:55,520

what makes someone a reverend or a very

125

00:04:59,189 --> 00:04:56,800

reverend

126

00:05:00,710 --> 00:04:59,199

do you know i honestly don't know and i

127

00:05:03,350 --> 00:05:00,720

imagine it would be slightly different

128

00:05:05,670 --> 00:05:03,360

in the us to to over here in the uk too

129

00:05:07,830 --> 00:05:05,680

yeah um yeah so and we got an

130

00:05:09,909 --> 00:05:07,840

introduction and uh of course david

131

00:05:12,790 --> 00:05:09,919

ignacius is introduced who is the host

132

00:05:14,710 --> 00:05:12,800

for the event and um he

133

00:05:17,350 --> 00:05:14,720

basically tells us that there are some

134

00:05:19,830 --> 00:05:17,360

pre-recorded comments and questions to

135

00:05:22,390 --> 00:05:19,840

nasa administrator bill nelson which we

136

00:05:24,629 --> 00:05:22,400

get to um so there was a pre-recorded

137

00:05:26,310 --> 00:05:24,639

segment inter-spliced i like he made a

138

00:05:28,550 --> 00:05:26,320

little joke about there being some time

139

00:05:30,070 --> 00:05:28,560

travel involved so i think that set the

140

00:05:31,909 --> 00:05:30,080

tone nicely for you know we're going to

141

00:05:33,590 --> 00:05:31,919

be talking about some things here and

142

00:05:35,110 --> 00:05:33,600

there's some interesting language used

143

00:05:35,909 --> 00:05:35,120

throughout as well

144

00:05:39,430 --> 00:05:35,919

so

145

00:05:41,590 --> 00:05:39,440

he spent in space and how it changed his

146

00:05:43,830 --> 00:05:41,600

perspective on the planet and he

147

00:05:46,310 --> 00:05:43,840

repeated his phrase of he learned what

148

00:05:48,310 --> 00:05:46,320

it means to be a better steward of the

149

00:05:50,469 --> 00:05:48,320

planet and it sort of changed his whole

150

00:05:52,870 --> 00:05:50,479

outlook on life looking down and seeing

151
00:05:55,029 --> 00:05:52,880
huge parts of the brazilian rainforest

152
00:05:57,029 --> 00:05:55,039
destroyed interestingly looking down at

153
00:05:59,909 --> 00:05:57,039
the amazon being stripped away just

154
00:06:02,070 --> 00:05:59,919
before jeff bezos came on to talk um he

155
00:06:03,510 --> 00:06:02,080
also mentions how there are no

156
00:06:05,430 --> 00:06:03,520
paraphrase but there are billions of

157
00:06:07,749 --> 00:06:05,440
stars in our galaxy billions and

158
00:06:09,430 --> 00:06:07,759
trillions of other galaxies and they all

159
00:06:12,070 --> 00:06:09,440
could have other planets like i was

160
00:06:14,230 --> 00:06:12,080
going around and he uh

161
00:06:15,830 --> 00:06:14,240
he said that who am i to limit right

162
00:06:18,230 --> 00:06:15,840
life right here

163
00:06:19,909 --> 00:06:18,240

so bill nelson is very much nailing his

164

00:06:22,150 --> 00:06:19,919

colours to the mast recently with his

165

00:06:24,870 --> 00:06:22,160

statement and comments he seems to be

166

00:06:28,230 --> 00:06:24,880

pushing that yes there is other life

167

00:06:30,550 --> 00:06:28,240

yes it's not just on earth and we should

168

00:06:32,469 --> 00:06:30,560

be looking for it and seems very open to

169

00:06:34,950 --> 00:06:32,479

the possibility that we may have already

170

00:06:36,870 --> 00:06:34,960

found it in in some way shape or form

171

00:06:38,390 --> 00:06:36,880

given what has previous briefings have

172

00:06:40,070 --> 00:06:38,400

been as well done what were your

173

00:06:41,270 --> 00:06:40,080

thoughts on the early bill nelson

174

00:06:43,830 --> 00:06:41,280

comments

175

00:06:45,990 --> 00:06:43,840

yeah i really liked it he and and just

176
00:06:48,870 --> 00:06:46,000
to emphasize as well towards the end of

177
00:06:51,029 --> 00:06:48,880
the questioning of uh dna avril haynes

178
00:06:52,870 --> 00:06:51,039
she even

179
00:06:55,430 --> 00:06:52,880
said that we should be listening to bill

180
00:06:57,749 --> 00:06:55,440
nelson and his science when it comes to

181
00:06:59,270 --> 00:06:57,759
the search for extraterrestrial life so

182
00:07:01,270 --> 00:06:59,280
being reminded that bill nelson is

183
00:07:03,029 --> 00:07:01,280
clearly so open-minded um and doesn't

184
00:07:04,870 --> 00:07:03,039
mind talking about this stuff makes me

185
00:07:06,950 --> 00:07:04,880
realize just how normalized it's become

186
00:07:09,189 --> 00:07:06,960
over the past few years

187
00:07:11,270 --> 00:07:09,199
well i also found out through this that

188
00:07:12,870 --> 00:07:11,280

um avril haynes who is currently the

189

00:07:15,110 --> 00:07:12,880

director of national intelligence for

190

00:07:16,390 --> 00:07:15,120

the us and began as a theoretical

191

00:07:18,230 --> 00:07:16,400

physicist as well

192

00:07:20,309 --> 00:07:18,240

so that's an interesting background to

193

00:07:22,950 --> 00:07:20,319

have to then be in the role that she is

194

00:07:25,270 --> 00:07:22,960

in um it seems like you're putting the

195

00:07:27,270 --> 00:07:25,280

right players on the right places on the

196

00:07:29,589 --> 00:07:27,280

board for whatever game might be being

197

00:07:31,909 --> 00:07:29,599

played here potentially um

198

00:07:34,230 --> 00:07:31,919

avril haynes is asked you know are your

199

00:07:36,550 --> 00:07:34,240

agencies looking for early signs of life

200

00:07:38,230 --> 00:07:36,560

out there uh and she says you know quite

201

00:07:40,309 --> 00:07:38,240

rightly that we're focused on life on

202

00:07:42,950 --> 00:07:40,319

earth but we are still exploring what

203

00:07:44,790 --> 00:07:42,960

could this domain and by that she means

204

00:07:46,710 --> 00:07:44,800

space be in the future

205

00:07:48,790 --> 00:07:46,720

comment though that i raised my eyebrows

206

00:07:50,950 --> 00:07:48,800

slightly uh and again there might be

207

00:07:53,350 --> 00:07:50,960

people listening to this who are very

208

00:07:54,790 --> 00:07:53,360

nuts and bolts and logical thinkers who

209

00:07:56,950 --> 00:07:54,800

might think i'm looking into this but

210

00:07:59,029 --> 00:07:56,960

she says things are going pretty quickly

211

00:08:00,629 --> 00:07:59,039

this decade we could see a lot of change

212

00:08:02,150 --> 00:08:00,639

in the future

213

00:08:03,430 --> 00:08:02,160

that that's a pretty pretty cool

214

00:08:04,790 --> 00:08:03,440

statement to hear i'm making again

215

00:08:06,309 --> 00:08:04,800

because we're hearing people talking

216

00:08:09,830 --> 00:08:06,319

very openly

217

00:08:10,950 --> 00:08:09,840

about changes and signs of life

218

00:08:13,029 --> 00:08:10,960

and all that kind of stuff then it's

219

00:08:15,670 --> 00:08:13,039

nice and refreshing to hear isn't it

220

00:08:17,510 --> 00:08:15,680

yeah absolutely um considering

221

00:08:20,070 --> 00:08:17,520

that a few years back we'd be chuckled

222

00:08:22,469 --> 00:08:20,080

out for even talking about that uh we we

223

00:08:24,710 --> 00:08:22,479

really have a nice solid base to work

224

00:08:27,029 --> 00:08:24,720

off this conversation now and we always

225

00:08:28,869 --> 00:08:27,039

like to joke that that it's the the

226

00:08:30,790 --> 00:08:28,879

monkeys that are now wearing the tinfoil

227

00:08:32,949 --> 00:08:30,800

hat but you know look at it it's right

228

00:08:35,750 --> 00:08:32,959

in front of you the world is kind of

229

00:08:37,589 --> 00:08:35,760

normalized again there to the idea of us

230

00:08:39,430 --> 00:08:37,599

not being alone

231

00:08:41,589 --> 00:08:39,440

uh avril haynes

232

00:08:43,750 --> 00:08:41,599

then hands over very quickly to bill

233

00:08:45,990 --> 00:08:43,760

nelson again that's another spliced in

234

00:08:47,910 --> 00:08:46,000

segment nelson has asked about various

235

00:08:49,910 --> 00:08:47,920

things including a new project at nasa

236

00:08:52,310 --> 00:08:49,920

that will assess the question are we

237

00:08:53,910 --> 00:08:52,320

alone in the universe bill nelson goes

238

00:08:56,470 --> 00:08:53,920

on to talk about the james webb's

239

00:08:58,630 --> 00:08:56,480

telescope and its capabilities picking

240

00:09:00,389 --> 00:08:58,640

keyholes in the sky to look at that are

241

00:09:03,190 --> 00:09:00,399

going to show us the furthest reaches of

242

00:09:04,790 --> 00:09:03,200

space and time showing us back as far as

243

00:09:06,870 --> 00:09:04,800

only a couple of hundred million years

244

00:09:08,389 --> 00:09:06,880

after the initial big bang and then

245

00:09:11,030 --> 00:09:08,399

looking at different keyholes to see

246

00:09:13,670 --> 00:09:11,040

what's there picking out suns and then

247

00:09:15,670 --> 00:09:13,680

can we within those suns or in front of

248

00:09:17,590 --> 00:09:15,680

see those little black dots going across

249

00:09:20,550 --> 00:09:17,600

that would uh show signs of another

250

00:09:22,310 --> 00:09:20,560

planet being there and then also being

251
00:09:24,230 --> 00:09:22,320
able to read the chemical composition of

252
00:09:26,150 --> 00:09:24,240
those planets to work out what they're

253
00:09:29,269 --> 00:09:26,160
made up of and would they host life

254
00:09:31,030 --> 00:09:29,279
potentially like the earth he then made

255
00:09:33,509 --> 00:09:31,040
the comment you know do i think for this

256
00:09:35,509 --> 00:09:33,519
life out there yes straighten with a yes

257
00:09:37,269 --> 00:09:35,519
i cannot limit and then the other part

258
00:09:40,070 --> 00:09:37,279
of the sentence again i just can't help

259
00:09:44,630 --> 00:09:40,080
but find interesting i cannot limit this

260
00:09:48,470 --> 00:09:46,550
did you uh take note of later on where

261
00:09:49,829 --> 00:09:48,480
avila was talking about the fisherman's

262
00:09:52,310 --> 00:09:49,839
net i don't think you saw that actually

263
00:09:53,829 --> 00:09:52,320

yet but i never got basically

264

00:09:57,750 --> 00:09:53,839

he's talking about uh fermi and the

265

00:09:59,750 --> 00:09:57,760

fermi paradox and and how uh

266

00:10:01,430 --> 00:09:59,760

basically fermi sitting there and saying

267

00:10:03,269 --> 00:10:01,440

you know if life is prevalent in the

268

00:10:05,190 --> 00:10:03,279

universe where is it it hasn't come to

269

00:10:07,269 --> 00:10:05,200

us and avi likens it to sitting on your

270

00:10:08,470 --> 00:10:07,279

sofa and you know saying that you don't

271

00:10:09,750 --> 00:10:08,480

have any neighbors because none of them

272

00:10:11,670 --> 00:10:09,760

are knocking your door he said it's

273

00:10:13,030 --> 00:10:11,680

silly if you don't go look but he kind

274

00:10:16,150 --> 00:10:13,040

of furthered the

275

00:10:18,630 --> 00:10:16,160

the example by talking about um you know

276

00:10:20,310 --> 00:10:18,640

once there was a fisherman who who uh he

277

00:10:22,870 --> 00:10:20,320

came back with a rule after fishing he

278

00:10:24,870 --> 00:10:22,880

said that uh all fish are bigger than

279

00:10:26,630 --> 00:10:24,880

two inches and rightly so someone said

280

00:10:29,030 --> 00:10:26,640

well how how big are the holes in your

281

00:10:31,750 --> 00:10:29,040

net and they turned out to be two inches

282

00:10:33,509 --> 00:10:31,760

so avila was kind of making the

283

00:10:34,630 --> 00:10:33,519

the point that fermi was looking with

284

00:10:35,910 --> 00:10:34,640

the two inch

285

00:10:38,150 --> 00:10:35,920

whole net

286

00:10:41,350 --> 00:10:38,160

now with the james webb telescope that

287

00:10:43,430 --> 00:10:41,360

net gets even smaller so yes we can see

288

00:10:46,389 --> 00:10:43,440

further but we can also see things

289

00:10:48,069 --> 00:10:46,399

closer much much much much better

290

00:10:50,069 --> 00:10:48,079

so we're going to be able to look at all

291

00:10:52,150 --> 00:10:50,079

these star systems where we kind of have

292

00:10:53,910 --> 00:10:52,160

seen these you know you've seen them in

293

00:10:55,750 --> 00:10:53,920

the news that the super earth we find

294

00:10:57,269 --> 00:10:55,760

and you know this planet is five times

295

00:10:58,790 --> 00:10:57,279

more habitable than earth and you know

296

00:10:59,910 --> 00:10:58,800

whatever the media like to write we're

297

00:11:00,710 --> 00:10:59,920

going to be able to actually look at

298

00:11:02,949 --> 00:11:00,720

those

299

00:11:04,870 --> 00:11:02,959

with almost a finer tooth comb now and

300

00:11:07,190 --> 00:11:04,880

kind of you know we might not be able to

301
00:11:08,069 --> 00:11:07,200
have the resolution of google earth but

302
00:11:11,750 --> 00:11:08,079
we're

303
00:11:13,590 --> 00:11:11,760
exciting upgrade

304
00:11:15,430 --> 00:11:13,600
that goes almost hand in hand then again

305
00:11:17,910 --> 00:11:15,440
it goes back to avril haynes and she's

306
00:11:20,470 --> 00:11:17,920
asked about the uap task force report

307
00:11:23,030 --> 00:11:20,480
and mentions that other category

308
00:11:24,790 --> 00:11:23,040
category going through the other areas

309
00:11:27,430 --> 00:11:24,800
first and then says you know there was

310
00:11:29,269 --> 00:11:27,440
another category that is if we can't pin

311
00:11:31,430 --> 00:11:29,279
something down to be one of those

312
00:11:33,030 --> 00:11:31,440
main categories that goes into other and

313
00:11:35,269 --> 00:11:33,040

it just means we don't understand

314

00:11:36,870 --> 00:11:35,279

necessarily everything we are seeing but

315

00:11:39,430 --> 00:11:36,880

within that talks about how the

316

00:11:41,269 --> 00:11:39,440

technology that they have to study these

317

00:11:42,389 --> 00:11:41,279

things much like the telescopes we've

318

00:11:45,990 --> 00:11:42,399

had in the past

319

00:11:48,790 --> 00:11:46,000

um as an up to scratch isn't able to see

320

00:11:50,870 --> 00:11:48,800

and record the data as well as we need

321

00:11:52,790 --> 00:11:50,880

to to classify some of this stuff and

322

00:11:54,790 --> 00:11:52,800

let's be honest that doesn't mean when

323

00:11:56,389 --> 00:11:54,800

we do have that tech that we are going

324

00:11:58,150 --> 00:11:56,399

to be able to classify

325

00:12:00,069 --> 00:11:58,160

all of that um or

326

00:12:02,710 --> 00:12:00,079

able to categorize this stuff as proper

327

00:12:06,550 --> 00:12:02,720

uaps because it could very much turn out

328

00:12:08,629 --> 00:12:06,560

to be that again some of those 143 cases

329

00:12:11,110 --> 00:12:08,639

some then turn out to be drones or

330

00:12:12,389 --> 00:12:11,120

chinese tech or russian tech potentially

331

00:12:14,389 --> 00:12:12,399

but they're still going to leave a

332

00:12:15,750 --> 00:12:14,399

sizable chunk which are going to be

333

00:12:17,750 --> 00:12:15,760

truly anomalous

334

00:12:19,750 --> 00:12:17,760

yeah absolutely uh we we only need to

335

00:12:21,829 --> 00:12:19,760

look at um you know we don't tend to

336

00:12:23,430 --> 00:12:21,839

make senses for things until we realize

337

00:12:25,750 --> 00:12:23,440

that they could be there and then we

338

00:12:27,110 --> 00:12:25,760

start trying to sense them with stuff um

339

00:12:28,949 --> 00:12:27,120

and a great example of this from the

340

00:12:31,030 --> 00:12:28,959

last few years is ligo a gravitational

341

00:12:31,990 --> 00:12:31,040

wave detector i've spoken before about

342

00:12:33,509 --> 00:12:32,000

how

343

00:12:35,670 --> 00:12:33,519

you know turn the clock back 15 years

344

00:12:37,750 --> 00:12:35,680

and you'd be laughed out of a university

345

00:12:39,509 --> 00:12:37,760

saying the gravity waves exist now it's

346

00:12:42,150 --> 00:12:39,519

just a de facto thing that they exist we

347

00:12:44,310 --> 00:12:42,160

know they're there um so

348

00:12:46,710 --> 00:12:44,320

we've we're going from ligo and in a few

349

00:12:48,629 --> 00:12:46,720

years nasa will be launching lisa and

350

00:12:50,550 --> 00:12:48,639

lisa are basically three satellites that

351

00:12:52,069 --> 00:12:50,560

will orbit the earth and they'll kind of

352

00:12:55,269 --> 00:12:52,079

make a you know a triangular

353

00:12:57,590 --> 00:12:55,279

constellation and between all of them

354

00:12:59,509 --> 00:12:57,600

they will make up a sensor that detects

355

00:13:00,629 --> 00:12:59,519

gravity waves so we're going from

356

00:13:02,389 --> 00:13:00,639

something that's you know a few

357

00:13:04,230 --> 00:13:02,399

kilometers long on the surface of the

358

00:13:05,910 --> 00:13:04,240

earth where we've got all sorts of noise

359

00:13:07,590 --> 00:13:05,920

that we have to sort out to put it in

360

00:13:09,030 --> 00:13:07,600

the vacuum of space and having it much

361

00:13:11,190 --> 00:13:09,040

more sensitive

362

00:13:13,030 --> 00:13:11,200

that kind of progression you know it's

363

00:13:15,590 --> 00:13:13,040

happening it's happening in a lot of

364

00:13:17,030 --> 00:13:15,600

places at once so we're going to start

365

00:13:18,150 --> 00:13:17,040

seeing things very differently soon i

366

00:13:21,750 --> 00:13:18,160

think

367

00:13:23,430 --> 00:13:21,760

haines meant to choke on the word

368

00:13:26,310 --> 00:13:23,440

extraterrestrial the first time she said

369

00:13:28,790 --> 00:13:26,320

it did you notice that i did yeah um

370

00:13:30,389 --> 00:13:28,800

what was the sentence she said uh

371

00:13:32,310 --> 00:13:30,399

there's always the question of is this

372

00:13:34,870 --> 00:13:32,320

something else that we simply do not

373

00:13:36,870 --> 00:13:34,880

understand that might come extra extra

374

00:13:41,269 --> 00:13:36,880

extra terrestrially that was she

375

00:13:45,350 --> 00:13:42,790

that's the word to be nervous about

376

00:13:47,110 --> 00:13:45,360

right but yeah wow she's the director of

377

00:13:48,990 --> 00:13:47,120

national intelligence

378

00:13:51,910 --> 00:13:49,000

alluded that it could be something

379

00:13:53,590 --> 00:13:51,920

extraterrestrial that's a i don't think

380

00:13:55,750 --> 00:13:53,600

it was necessarily the gravity of the

381

00:13:58,230 --> 00:13:55,760

word she was using i think she just it

382

00:14:00,470 --> 00:13:58,240

was a big word extraterrestrially

383

00:14:02,389 --> 00:14:00,480

you know that's a hard one to say but

384

00:14:05,430 --> 00:14:02,399

it's it's a hell of a word to be coming

385

00:14:07,430 --> 00:14:05,440

out the mouth of the dni

386

00:14:09,509 --> 00:14:07,440

over biden running away from the podium

387

00:14:11,350 --> 00:14:09,519

you know yeah and let's be honest the

388

00:14:13,430 --> 00:14:11,360

only time we ever hear extraterrestrial

389

00:14:14,949 --> 00:14:13,440

or at again in the past and this is what

390

00:14:15,829 --> 00:14:14,959

we're trying to state here the gravity

391

00:14:17,829 --> 00:14:15,839

of this

392

00:14:20,870 --> 00:14:17,839

this talk and the setting and the people

393

00:14:22,710 --> 00:14:20,880

being used as it's usually in a jokey

394

00:14:23,750 --> 00:14:22,720

comment or a throwaway line about what

395

00:14:26,150 --> 00:14:23,760

do you think it's some sort of

396

00:14:28,310 --> 00:14:26,160

extraterrestrial ha ha ha ha ha and

397

00:14:30,150 --> 00:14:28,320

everyone in the press room laughs and no

398

00:14:32,629 --> 00:14:30,160

we've got some serious people having

399

00:14:34,069 --> 00:14:32,639

really serious conversations and then

400

00:14:36,230 --> 00:14:34,079

throwing in that you know what

401
00:14:38,790 --> 00:14:36,240
extraterrestrial as a serious

402
00:14:41,590 --> 00:14:38,800
possibility for what may

403
00:14:43,189 --> 00:14:41,600
constitute some of those sightings and

404
00:14:45,110 --> 00:14:43,199
some of those uh

405
00:14:47,750 --> 00:14:45,120
events that are happening with the us

406
00:14:49,670 --> 00:14:47,760
navy the us air force and others as well

407
00:14:51,910 --> 00:14:49,680
bill nelson also talks about us going

408
00:14:54,470 --> 00:14:51,920
back to the moon to allow us to get to

409
00:14:55,990 --> 00:14:54,480
mars more efficiently and bill nelson

410
00:14:58,550 --> 00:14:56,000
basically says that going to mars will

411
00:15:00,710 --> 00:14:58,560
help us understand who we are what was

412
00:15:02,710 --> 00:15:00,720
before us and potentially what will be

413
00:15:03,750 --> 00:15:02,720

in the future again interesting comments

414

00:15:05,509 --> 00:15:03,760

then

415

00:15:06,710 --> 00:15:05,519

yeah um just i'm just going to touch on

416

00:15:08,470 --> 00:15:06,720

something that avril haynes said just

417

00:15:09,590 --> 00:15:08,480

before i talk about that just that when

418

00:15:11,189 --> 00:15:09,600

she was talking about the different

419

00:15:13,110 --> 00:15:11,199

categories and how things end up in

420

00:15:15,670 --> 00:15:13,120

other we we've

421

00:15:18,069 --> 00:15:15,680

discussed in the community a bit whether

422

00:15:20,150 --> 00:15:18,079

they were kind of deductive categories

423

00:15:22,629 --> 00:15:20,160

or whether at any point something could

424

00:15:24,550 --> 00:15:22,639

go in any of the categories um and in

425

00:15:26,389 --> 00:15:24,560

this conversation she actually makes the

426

00:15:28,470 --> 00:15:26,399

point of no no we we've been through all

427

00:15:29,910 --> 00:15:28,480

of those categories and now it's another

428

00:15:31,590 --> 00:15:29,920

it's not a case of oh we just don't know

429

00:15:35,110 --> 00:15:31,600

what it is so it's none of those it's

430

00:15:37,110 --> 00:15:35,120

another um it's been judged to not be

431

00:15:38,710 --> 00:15:37,120

anything other than other i've said

432

00:15:40,389 --> 00:15:38,720

other too much

433

00:15:41,350 --> 00:15:40,399

other yeah

434

00:15:44,470 --> 00:15:41,360

um

435

00:15:46,710 --> 00:15:44,480

yeah bill nelson also mentioned about

436

00:15:48,310 --> 00:15:46,720

how the us and russia have a really

437

00:15:50,389 --> 00:15:48,320

great relationship working together in

438

00:15:53,189 --> 00:15:50,399

space which i thought was interesting uh

439

00:15:55,670 --> 00:15:53,199

he he was down about the prospects of

440

00:15:57,990 --> 00:15:55,680

china you know joining the cooperation

441

00:16:00,150 --> 00:15:58,000

um but

442

00:16:01,910 --> 00:16:00,160

that's a lot more positive than people

443

00:16:03,990 --> 00:16:01,920

would think right you know you wouldn't

444

00:16:05,749 --> 00:16:04,000

kind of get that kind of

445

00:16:07,910 --> 00:16:05,759

yeah we're working together from from

446

00:16:09,509 --> 00:16:07,920

biden for example um they're able to

447

00:16:11,670 --> 00:16:09,519

stay outside of that political sphere

448

00:16:13,990 --> 00:16:11,680

and say okay you know how can we we make

449

00:16:16,310 --> 00:16:14,000

the world better together um

450

00:16:19,110 --> 00:16:16,320

oh we'll settle this playstation aside

451
00:16:20,949 --> 00:16:19,120
just yesterday the um us and china have

452
00:16:23,030 --> 00:16:20,959
agreed to work together on one of their

453
00:16:25,509 --> 00:16:23,040
climate protocols or climate change

454
00:16:27,670 --> 00:16:25,519
bills so again you're seeing

455
00:16:29,910 --> 00:16:27,680
movement outside of the normal political

456
00:16:32,470 --> 00:16:29,920
spectrum as presidents and leaders stand

457
00:16:33,749 --> 00:16:32,480
on podiums and need to talk down about

458
00:16:35,910 --> 00:16:33,759
each other's countries because of

459
00:16:37,910 --> 00:16:35,920
various different issues but it looks

460
00:16:40,389 --> 00:16:37,920
like there are some areas that they can

461
00:16:42,790 --> 00:16:40,399
get behind each other and talk uh it

462
00:16:45,269 --> 00:16:42,800
tends to be more in the areas of science

463
00:16:47,110 --> 00:16:45,279

which is great to see um absolutely and

464

00:16:48,550 --> 00:16:47,120

this is all happening in the age of

465

00:16:50,389 --> 00:16:48,560

communication where you know the

466

00:16:51,990 --> 00:16:50,399

governments can't really some

467

00:16:54,069 --> 00:16:52,000

governments do they try and limit

468

00:16:56,870 --> 00:16:54,079

communication of their people but you

469

00:16:58,629 --> 00:16:56,880

know people tend to find a way and it's

470

00:17:00,550 --> 00:16:58,639

inevitable that you know we're all going

471

00:17:01,829 --> 00:17:00,560

to be communicating freely

472

00:17:03,030 --> 00:17:01,839

what that struggle will look like i

473

00:17:04,949 --> 00:17:03,040

don't know but

474

00:17:06,069 --> 00:17:04,959

i i think eventually you know you'll be

475

00:17:07,750 --> 00:17:06,079

able to see

476
00:17:09,510 --> 00:17:07,760
top secret scientists from china working

477
00:17:11,829 --> 00:17:09,520
with top secret american scientists and

478
00:17:13,110 --> 00:17:11,839
russian scientists and yeah

479
00:17:15,270 --> 00:17:13,120
and all sorts of countries that we

480
00:17:17,750 --> 00:17:15,280
probably haven't heard about as well

481
00:17:18,870 --> 00:17:17,760
so dan this is where i tap out because i

482
00:17:20,390 --> 00:17:18,880
haven't seen the rest of this

483
00:17:22,309 --> 00:17:20,400
conversation just between work and

484
00:17:23,590 --> 00:17:22,319
everything else i've only managed to see

485
00:17:27,110 --> 00:17:23,600
so much

486
00:17:29,430 --> 00:17:27,120
now jeff bezos from amazon was up but i

487
00:17:31,430 --> 00:17:29,440
think like you mentioned earlier this

488
00:17:34,390 --> 00:17:31,440

was not strictly a conference to talk

489

00:17:36,870 --> 00:17:34,400

about uaps this was very much about our

490

00:17:39,750 --> 00:17:36,880

future in space jeff bezos along with

491

00:17:42,390 --> 00:17:39,760

richard branson and elon musk have all

492

00:17:44,950 --> 00:17:42,400

and their own vehicles recently had

493

00:17:47,029 --> 00:17:44,960

various escapades off to orbit space

494

00:17:48,789 --> 00:17:47,039

depending on the your definition of

495

00:17:50,549 --> 00:17:48,799

space some of them may have reached it

496

00:17:53,590 --> 00:17:50,559

some of them may have not but obviously

497

00:17:55,909 --> 00:17:53,600

jeff bezos given that recent achievement

498

00:17:57,990 --> 00:17:55,919

has a place in this conversation um

499

00:17:59,909 --> 00:17:58,000

maybe looking at a more commercialized

500

00:18:01,350 --> 00:17:59,919

space travel as well so what was jeff

501
00:18:03,110 --> 00:18:01,360
bezos saying from what you managed to

502
00:18:05,190 --> 00:18:03,120
gather

503
00:18:07,029 --> 00:18:05,200
so i mean i've got to mention his

504
00:18:09,510 --> 00:18:07,039
incredible quote of

505
00:18:11,430 --> 00:18:09,520
um this is the most precious planet in

506
00:18:14,870 --> 00:18:11,440
the world that that they were the words

507
00:18:17,430 --> 00:18:14,880
of jesus okay jeff bezos um available as

508
00:18:21,750 --> 00:18:19,190
um he was talking about the overview

509
00:18:24,070 --> 00:18:21,760
effect and how he basically wasn't ready

510
00:18:26,549 --> 00:18:24,080
to feel what he felt when he saw a

511
00:18:27,990 --> 00:18:26,559
fragile world beneath him basically um

512
00:18:29,909 --> 00:18:28,000
again it makes me think of contact and

513
00:18:32,390 --> 00:18:29,919

the rich people going to space and and

514

00:18:34,150 --> 00:18:32,400

realizing what good they can do um

515

00:18:35,510 --> 00:18:34,160

hopefully

516

00:18:37,669 --> 00:18:35,520

jeff will

517

00:18:39,190 --> 00:18:37,679

you know help a little bit more and and

518

00:18:41,430 --> 00:18:39,200

stop his work as having to be in bottles

519

00:18:42,870 --> 00:18:41,440

and so on so forth i mean dan he he

520

00:18:44,390 --> 00:18:42,880

could have gone to space and had a

521

00:18:46,470 --> 00:18:44,400

moment of epiphany and thought you know

522

00:18:48,150 --> 00:18:46,480

what everyone gets free amazon prime

523

00:18:49,990 --> 00:18:48,160

from that one everyone pays for

524

00:18:51,750 --> 00:18:50,000

deliveries but he didn't he went up

525

00:18:53,430 --> 00:18:51,760

there and thought my god that's a

526

00:18:56,390 --> 00:18:53,440

beautiful world down there

527

00:18:58,230 --> 00:18:56,400

anyway it's still 7.99 a month i mean

528

00:18:59,909 --> 00:18:58,240

why he was up there for four seconds

529

00:19:01,990 --> 00:18:59,919

that that's you know not a lot of time

530

00:19:05,510 --> 00:19:02,000

to think about it i guess

531

00:19:06,630 --> 00:19:05,520

um avril did mention um as well

532

00:19:08,310 --> 00:19:06,640

she said

533

00:19:10,150 --> 00:19:08,320

she spoke about

534

00:19:12,150 --> 00:19:10,160

needing to establish frameworks for the

535

00:19:15,190 --> 00:19:12,160

kind of the

536

00:19:17,110 --> 00:19:15,200

the way ahead and she spoke about how

537

00:19:19,350 --> 00:19:17,120

earth and space aren't disconnected

538

00:19:21,750 --> 00:19:19,360

domains um that made me think of trans

539

00:19:23,190 --> 00:19:21,760

medium travel vehicles um i i just

540

00:19:24,470 --> 00:19:23,200

thought i'd mention that because she

541

00:19:26,710 --> 00:19:24,480

seemed you know

542

00:19:28,390 --> 00:19:26,720

if they joined domains inevitably we're

543

00:19:31,350 --> 00:19:28,400

going to want vehicles that can operate

544

00:19:33,350 --> 00:19:31,360

in both um and and you know we we might

545

00:19:35,750 --> 00:19:33,360

note some places where that technology

546

00:19:37,190 --> 00:19:35,760

could maybe be found

547

00:19:40,630 --> 00:19:37,200

well

548

00:19:42,789 --> 00:19:40,640

we we'd have to uh

549

00:19:44,230 --> 00:19:42,799

i guess get the get the raffle up to a

550

00:19:46,310 --> 00:19:44,240

couple of million and then ask lou

551
00:19:51,029 --> 00:19:46,320
alexander

552
00:19:57,029 --> 00:19:53,990
the jeff bezos also said he he was asked

553
00:19:58,230 --> 00:19:57,039
about e.t coming here to visit um and he

554
00:20:00,950 --> 00:19:58,240
made a pretty

555
00:20:03,669 --> 00:20:00,960
damning statement um he said

556
00:20:06,630 --> 00:20:03,679
have we been visited by the extra solar

557
00:20:08,230 --> 00:20:06,640
intelligences i very much doubt that so

558
00:20:10,470 --> 00:20:08,240
for anyone curious whether he was going

559
00:20:11,909 --> 00:20:10,480
to start funding the galileo project it

560
00:20:13,430 --> 00:20:11,919
seems like no

561
00:20:15,190 --> 00:20:13,440
unfortunately

562
00:20:17,110 --> 00:20:15,200
um but you know you never know these

563
00:20:19,750 --> 00:20:17,120

events he he was there mixing with all

564

00:20:21,750 --> 00:20:19,760

the people who could you know pitch this

565

00:20:23,750 --> 00:20:21,760

research in the correct way so who knows

566

00:20:25,510 --> 00:20:23,760

what happens the the expanse was saved

567

00:20:26,549 --> 00:20:25,520

because they were at a party with jeff

568

00:20:30,070 --> 00:20:26,559

so

569

00:20:31,669 --> 00:20:30,080

day

570

00:20:33,029 --> 00:20:31,679

let me let me just ask you on that do

571

00:20:34,710 --> 00:20:33,039

you think there's this automatic

572

00:20:37,430 --> 00:20:34,720

assumption that when people reach that

573

00:20:39,990 --> 00:20:37,440

elite status like a jeff bezos an elon

574

00:20:43,190 --> 00:20:40,000

musk a richard branson that they must be

575

00:20:45,430 --> 00:20:43,200

in on all sorts of secrets fundamental

576

00:20:46,870 --> 00:20:45,440

to our planet or otherwise and they

577

00:20:49,430 --> 00:20:46,880

would know all this information so

578

00:20:51,990 --> 00:20:49,440

people get surprised when they

579

00:20:53,669 --> 00:20:52,000

poo poo or ridicule the ideas of 80s

580

00:20:55,669 --> 00:20:53,679

because you think they would know but is

581

00:20:58,549 --> 00:20:55,679

it just a case of these guys at the end

582

00:21:01,350 --> 00:20:58,559

of the day are are very much businessmen

583

00:21:02,390 --> 00:21:01,360

and unless you're a bob bigelow type you

584

00:21:04,710 --> 00:21:02,400

don't necessarily

585

00:21:06,710 --> 00:21:04,720

care about et because it's not making

586

00:21:08,549 --> 00:21:06,720

you money yeah exactly they're happy to

587

00:21:10,549 --> 00:21:08,559

just run their businesses as they do

588

00:21:11,830 --> 00:21:10,559

with with bigelow as well you know if

589

00:21:14,149 --> 00:21:11,840

you listen to the mystery wire

590

00:21:16,870 --> 00:21:14,159

interviews with him he outright says

591

00:21:18,549 --> 00:21:16,880

that his goal for going into real estate

592

00:21:20,549 --> 00:21:18,559

was to get enough money to investigate

593

00:21:22,070 --> 00:21:20,559

the phenomena this wasn't something that

594

00:21:24,870 --> 00:21:22,080

crapped up in his life and you know he

595

00:21:26,870 --> 00:21:24,880

was this big successful businessman and

596

00:21:29,350 --> 00:21:26,880

then it came along you know from an

597

00:21:32,470 --> 00:21:29,360

early age he he saw the opportunity to

598

00:21:33,830 --> 00:21:32,480

to invest money in the research um and

599

00:21:35,510 --> 00:21:33,840

you know

600

00:21:37,909 --> 00:21:35,520

whether you agree with how he went about

601
00:21:40,149 --> 00:21:37,919
that or not he he was a pioneer

602
00:21:42,630 --> 00:21:40,159
yeah

603
00:21:44,149 --> 00:21:42,640
david wilkinson was super interesting to

604
00:21:46,710 --> 00:21:44,159
listen to he was talking about the

605
00:21:48,310 --> 00:21:46,720
phenomena in well space and the

606
00:21:49,830 --> 00:21:48,320
exploration of space and the possibility

607
00:21:50,710 --> 00:21:49,840
of e.t

608
00:21:53,270 --> 00:21:50,720
um

609
00:21:55,029 --> 00:21:53,280
through the lens of religion

610
00:21:57,510 --> 00:21:55,039
and kind of

611
00:21:59,750 --> 00:21:57,520
trying to explain that

612
00:22:03,029 --> 00:21:59,760
it's not the religion thinks that we are

613
00:22:05,510 --> 00:22:03,039

special it's that we see ourselves as

614

00:22:07,029 --> 00:22:05,520

loved and therefore we are special and

615

00:22:08,950 --> 00:22:07,039

basically any other extraterrestrial

616

00:22:10,950 --> 00:22:08,960

civilization would also fall under that

617

00:22:13,029 --> 00:22:10,960

remit so it doesn't really go against

618

00:22:14,230 --> 00:22:13,039

anything that you know they speak about

619

00:22:14,870 --> 00:22:14,240

anyway

620

00:22:17,270 --> 00:22:14,880

um

621

00:22:19,750 --> 00:22:17,280

he made a very profound quote as well he

622

00:22:21,590 --> 00:22:19,760

said science is thinking god's thoughts

623

00:22:23,590 --> 00:22:21,600

after him which

624

00:22:25,590 --> 00:22:23,600

you know it sounds big and broad but all

625

00:22:27,110 --> 00:22:25,600

it's really saying is that you know

626

00:22:29,350 --> 00:22:27,120

we're finding the mechanisms of the

627

00:22:31,750 --> 00:22:29,360

universe after they've been made by

628

00:22:34,310 --> 00:22:31,760

whatever natural force made them uh

629

00:22:35,990 --> 00:22:34,320

interesting way to think about it then

630

00:22:38,950 --> 00:22:36,000

once he made that point

631

00:22:41,190 --> 00:22:38,960

uh avila responded by by reminding

632

00:22:43,430 --> 00:22:41,200

people that the root word of galileo

633

00:22:45,510 --> 00:22:43,440

comes from galilee in israel

634

00:22:47,029 --> 00:22:45,520

and if you look up the rendezvous with

635

00:22:49,430 --> 00:22:47,039

rama

636

00:22:51,669 --> 00:22:49,440

there's a very special cylinder in in

637

00:22:53,830 --> 00:22:51,679

that uh book and the cylinder is

638

00:22:55,430 --> 00:22:53,840

basically spoiler

639

00:22:57,430 --> 00:22:55,440

alien starship

640

00:22:59,110 --> 00:22:57,440

um so it was interesting to hear abby

641

00:23:01,029 --> 00:22:59,120

points out hey there are there are

642

00:23:03,750 --> 00:23:01,039

basically tic tacs in these ancient

643

00:23:05,909 --> 00:23:03,760

religious texts um

644

00:23:07,669 --> 00:23:05,919

he doesn't seem quite as

645

00:23:09,029 --> 00:23:07,679

closed off to that kind of thing as i i

646

00:23:10,549 --> 00:23:09,039

think people may have

647

00:23:11,590 --> 00:23:10,559

surmised

648

00:23:14,149 --> 00:23:11,600

do you know what i'm pleasantly

649

00:23:16,310 --> 00:23:14,159

surprised from seeing avi on joe rogan

650

00:23:19,190 --> 00:23:16,320

at the start of the year and then we

651
00:23:21,270 --> 00:23:19,200
spoke to avi less than a week later and

652
00:23:23,430 --> 00:23:21,280
he's been on the podcast again since and

653
00:23:25,909 --> 00:23:23,440
seeing him on various other appearances

654
00:23:27,270 --> 00:23:25,919
he's done he has really come out in his

655
00:23:29,750 --> 00:23:27,280
conversation

656
00:23:31,510 --> 00:23:29,760
and and carried on as as he is he

657
00:23:35,830 --> 00:23:31,520
started to be honest he's been quite

658
00:23:39,110 --> 00:23:35,840
open-minded and i think even letting

659
00:23:41,669 --> 00:23:39,120
people like louis ondo chris melon nick

660
00:23:43,510 --> 00:23:41,679
pope seth shawstak and there's names

661
00:23:45,029 --> 00:23:43,520
there that are divisive for various

662
00:23:47,110 --> 00:23:45,039
different reasons

663
00:23:49,510 --> 00:23:47,120

but he still seems quite open to help

664

00:23:51,909 --> 00:23:49,520

and support and getting a few different

665

00:23:55,029 --> 00:23:51,919

minds all looking at this which ultim

666

00:23:57,909 --> 00:23:55,039

ultimately we can hope is no bad thing

667

00:23:59,510 --> 00:23:57,919

yeah for sure he he explains that

668

00:24:00,950 --> 00:23:59,520

you know the data that they gather is

669

00:24:02,950 --> 00:24:00,960

the data that they gather it's going to

670

00:24:04,230 --> 00:24:02,960

belong to different fields of science

671

00:24:06,070 --> 00:24:04,240

this isn't something he's going to be

672

00:24:08,789 --> 00:24:06,080

studying in a vacuum and science doesn't

673

00:24:10,070 --> 00:24:08,799

work that way anyway um so he was

674

00:24:12,710 --> 00:24:10,080

basically saying that you know if he

675

00:24:14,070 --> 00:24:12,720

gets data on birds that perhaps that

676

00:24:15,909 --> 00:24:14,080

branch of science doesn't have he'll

677

00:24:17,669 --> 00:24:15,919

give that data to them same with you

678

00:24:18,390 --> 00:24:17,679

know aquatic life and things like that

679

00:24:24,070 --> 00:24:18,400

so

680

00:24:26,630 --> 00:24:24,080

a really valuable project even even if

681

00:24:28,390 --> 00:24:26,640

it doesn't find uap stuff i i think avi

682

00:24:29,830 --> 00:24:28,400

will soon be able to justify hey we

683

00:24:31,510 --> 00:24:29,840

should put these cameras everywhere at

684

00:24:33,510 --> 00:24:31,520

all times because we're finding a lot of

685

00:24:35,990 --> 00:24:33,520

exciting stuff here

686

00:24:37,830 --> 00:24:36,000

absolutely was there any more you've got

687

00:24:39,590 --> 00:24:37,840

as takeaways then dan from the

688

00:24:42,390 --> 00:24:39,600

conference before we move on

689

00:24:44,549 --> 00:24:42,400

uh no i mean only to link it to you know

690

00:24:46,470 --> 00:24:44,559

the the gila brand amendment which is

691

00:24:48,390 --> 00:24:46,480

what we're about to talk about next

692

00:24:49,909 --> 00:24:48,400

well do you know what just before we do

693

00:24:51,590 --> 00:24:49,919

i just want to mention something else

694

00:24:54,710 --> 00:24:51,600

from this week that got a lot of people

695

00:24:57,269 --> 00:24:54,720

talking and uh speculating was louis

696

00:24:59,430 --> 00:24:57,279

lozando had some media appearances

697

00:25:01,350 --> 00:24:59,440

booked in on various podcasts and other

698

00:25:03,110 --> 00:25:01,360

things that he usually does and they

699

00:25:05,669 --> 00:25:03,120

were all cancelled and i think people

700

00:25:07,909 --> 00:25:05,679

immediately jumped to various different

701

00:25:10,070 --> 00:25:07,919

rumors and whatnot some about his health

702

00:25:11,430 --> 00:25:10,080

but lou came out quite quickly to quash

703

00:25:13,750 --> 00:25:11,440

that so if you've not been on social

704

00:25:16,470 --> 00:25:13,760

media or you've not seen too many of

705

00:25:18,149 --> 00:25:16,480

these news and rumors then uh lou has

706

00:25:20,310 --> 00:25:18,159

said himself he hasn't he has in good

707

00:25:21,909 --> 00:25:20,320

health it's not to do with his health um

708

00:25:23,750 --> 00:25:21,919

he has had his health issues recently

709

00:25:25,990 --> 00:25:23,760

but this was just very much there's some

710

00:25:28,070 --> 00:25:26,000

other things going on and it meant he

711

00:25:30,149 --> 00:25:28,080

had to pull the media appearances for

712

00:25:31,590 --> 00:25:30,159

the for the near future and that was all

713

00:25:33,029 --> 00:25:31,600

there really was to it wasn't it then

714

00:25:34,950 --> 00:25:33,039

there was a little a little extra

715

00:25:36,070 --> 00:25:34,960

breadcrumb that people might like there

716

00:25:38,310 --> 00:25:36,080

um

717

00:25:39,990 --> 00:25:38,320

someone responded to that message of you

718

00:25:43,430 --> 00:25:40,000

know just letting everyone know he was

719

00:25:46,070 --> 00:25:43,440

okay uh by saying what is your favorite

720

00:25:48,630 --> 00:25:46,080

song um and lou responded saying

721

00:25:51,430 --> 00:25:48,640

listening to who made who by ac dc at

722

00:25:53,029 --> 00:25:51,440

the moment um he says choosing the songs

723

00:25:55,909 --> 00:25:53,039

pretty hard but have a look at the

724

00:25:57,990 --> 00:25:55,919

lyrics for who made who by ac dc um and

725

00:25:59,110 --> 00:25:58,000

i think you'll be a little excited by

726

00:26:03,029 --> 00:25:59,120

that

727

00:26:04,950 --> 00:26:03,039

to go and check out and also uh the

728

00:26:07,830 --> 00:26:04,960

other thing that dropped yesterday was

729

00:26:09,350 --> 00:26:07,840

chris mellon writing it on his blog uh

730

00:26:11,430 --> 00:26:09,360

which you'll you'll find the link for in

731

00:26:13,029 --> 00:26:11,440

the description to the show or if you

732

00:26:15,350 --> 00:26:13,039

check out chris mellon's twitter account

733

00:26:17,350 --> 00:26:15,360

you'll see the link on there and that is

734

00:26:19,029 --> 00:26:17,360

on the the gila brand amendment that we

735

00:26:21,029 --> 00:26:19,039

talked about on the last breakdown dan

736

00:26:22,789 --> 00:26:21,039

wasn't it it's i'm just going to correct

737

00:26:25,110 --> 00:26:22,799

you there because i i had this learned

738

00:26:26,870 --> 00:26:25,120

this week we we recorded a whole show

739

00:26:28,789 --> 00:26:26,880

and i must have said gilbert and a whole

740

00:26:30,149 --> 00:26:28,799

bunch but it's like gift jiff it's

741

00:26:30,950 --> 00:26:30,159

gillibrand

742

00:26:32,789 --> 00:26:30,960

ah

743

00:26:34,870 --> 00:26:32,799

but we have said this before haven't we

744

00:26:36,950 --> 00:26:34,880

with some of the the americans or names

745

00:26:39,269 --> 00:26:36,960

of the year

746

00:26:41,029 --> 00:26:39,279

yeah also gillibrand uh apologies for

747

00:26:43,029 --> 00:26:41,039

anyone if that's her name out there um

748

00:26:44,870 --> 00:26:43,039

so yeah the gillibrand amendment just a

749

00:26:47,029 --> 00:26:44,880

very quick reminder dan what is the gila

750

00:26:48,789 --> 00:26:47,039

brand amendment all about so the general

751

00:26:51,750 --> 00:26:48,799

brand amendment was basically an

752

00:26:53,510 --> 00:26:51,760

amendment to the ndaa this comes from

753

00:26:56,230 --> 00:26:53,520

the armed services committee as opposed

754

00:26:58,710 --> 00:26:56,240

to the uh the iaa which is the senate

755

00:27:00,710 --> 00:26:58,720

committee um and

756

00:27:02,630 --> 00:27:00,720

we've seen it previously with uh ruben

757

00:27:04,149 --> 00:27:02,640

gallagher um

758

00:27:05,430 --> 00:27:04,159

apologies from pronounce the surname

759

00:27:07,990 --> 00:27:05,440

wrong but

760

00:27:09,669 --> 00:27:08,000

he he put forth an amendment to the ndaa

761

00:27:12,070 --> 00:27:09,679

that specified a few things like

762

00:27:13,830 --> 00:27:12,080

biological effects and and proposed some

763

00:27:15,430 --> 00:27:13,840

different kind of

764

00:27:17,590 --> 00:27:15,440

length of time for for when they're

765

00:27:19,269 --> 00:27:17,600

submitting the reports and

766

00:27:20,950 --> 00:27:19,279

senator joel brand has actually gone a

767

00:27:22,870 --> 00:27:20,960

lot further

768

00:27:25,590 --> 00:27:22,880

and she's proposed setting up not only

769

00:27:27,669 --> 00:27:25,600

an office but also an advisory committee

770

00:27:30,789 --> 00:27:27,679

to that office to act as an interface

771

00:27:32,870 --> 00:27:30,799

for for public input and output um

772

00:27:34,710 --> 00:27:32,880

and you know propose that these things

773

00:27:37,190 --> 00:27:34,720

be funded for a whole four years

774

00:27:39,110 --> 00:27:37,200

properly um

775

00:27:40,549 --> 00:27:39,120

and yeah it was super interesting there

776

00:27:42,549 --> 00:27:40,559

were two things we didn't speak about

777

00:27:45,269 --> 00:27:42,559

pre on the previous breakdown and that

778

00:27:47,190 --> 00:27:45,279

is that it specifies that they should

779

00:27:48,389 --> 00:27:47,200

the congress should be informed of any

780

00:27:49,430 --> 00:27:48,399

uh

781

00:27:52,070 --> 00:27:49,440

any

782

00:27:54,230 --> 00:27:52,080

progress on capturing or exploiting the

783

00:27:56,070 --> 00:27:54,240

technology um

784

00:27:57,510 --> 00:27:56,080

which is you know i i worry that we're

785

00:28:00,470 --> 00:27:57,520

being a little provocative towards it

786

00:28:02,549 --> 00:28:00,480

sometimes um but also to set up actual

787

00:28:03,350 --> 00:28:02,559

proper field investigations

788

00:28:05,350 --> 00:28:03,360

so

789

00:28:07,430 --> 00:28:05,360

i imagine that's the kind of thing that

790

00:28:08,870 --> 00:28:07,440

was going on when they people rocked up

791

00:28:09,909 --> 00:28:08,880

onto the nimitz and took all the data

792

00:28:11,909 --> 00:28:09,919

that would have been a field

793

00:28:13,669 --> 00:28:11,919

investigation team that was set up and

794

00:28:15,190 --> 00:28:13,679

ready to go that had all these sensors

795

00:28:16,710 --> 00:28:15,200

that knew you know these things were

796

00:28:19,750 --> 00:28:16,720

coming um

797

00:28:22,070 --> 00:28:19,760

but whoever that was we we do not know

798

00:28:23,430 --> 00:28:22,080

yeah two things i took from the article

799

00:28:25,110 --> 00:28:23,440

which again the first one sort of

800

00:28:25,830 --> 00:28:25,120

explains about the gillibrand amendment

801
00:28:28,310 --> 00:28:25,840
and

802
00:28:30,310 --> 00:28:28,320
increases words white so important uh

803
00:28:31,750 --> 00:28:30,320
obviously when and this is me quoting

804
00:28:33,990 --> 00:28:31,760
obviously when the info doesn't reach

805
00:28:36,310 --> 00:28:34,000
the uap task force it isn't likely to

806
00:28:38,070 --> 00:28:36,320
get to congress either the gila brand

807
00:28:40,070 --> 00:28:38,080
amendment helps to address this problem

808
00:28:42,389 --> 00:28:40,080
by clarifying and expanding the

809
00:28:44,389 --> 00:28:42,399
definition of uap and covering the

810
00:28:46,950 --> 00:28:44,399
scenarios where the task force is denied

811
00:28:49,269 --> 00:28:46,960
access due to classification

812
00:28:51,269 --> 00:28:49,279
this is pointing at the issues the task

813
00:28:52,789 --> 00:28:51,279

force had in going around those various

814

00:28:55,269 --> 00:28:52,799

departments and actually getting the

815

00:28:57,590 --> 00:28:55,279

information that was required to try and

816

00:28:59,350 --> 00:28:57,600

do its job well which we all known is

817

00:29:01,430 --> 00:28:59,360

very well documented

818

00:29:03,590 --> 00:29:01,440

what i found most interesting from this

819

00:29:05,190 --> 00:29:03,600

dan and you can tell me if you think um

820

00:29:06,630 --> 00:29:05,200

i'm reading into this the wrong way i'll

821

00:29:09,029 --> 00:29:06,640

read the quote first and then ask you a

822

00:29:10,549 --> 00:29:09,039

question okay it is public knowledge

823

00:29:12,870 --> 00:29:10,559

that i worked patiently for months with

824

00:29:16,230 --> 00:29:12,880

louis elizondo the osd official

825

00:29:18,149 --> 00:29:16,240

responsible for the uap issue in 2017 to

826

00:29:20,549 --> 00:29:18,159

try to get this issue taken seriously

827

00:29:22,789 --> 00:29:20,559

within the department it was only when

828

00:29:25,029 --> 00:29:22,799

that failed that mr elizondo and i chose

829

00:29:27,750 --> 00:29:25,039

to stick our necks out by taking the uap

830

00:29:30,310 --> 00:29:27,760

videos and the uap issue to the press

831

00:29:32,389 --> 00:29:30,320

and to congress i hope the senate armed

832

00:29:34,630 --> 00:29:32,399

services and intelligence committees

833

00:29:37,830 --> 00:29:34,640

will again assert themselves recognizing

834

00:29:40,230 --> 00:29:37,840

that although dod and the ic are replete

835

00:29:42,230 --> 00:29:40,240

with smart and patriotic people it is

836

00:29:44,710 --> 00:29:42,240

generally difficult if not impossible

837

00:29:47,350 --> 00:29:44,720

for that rigid and colossal structure to

838

00:29:50,230 --> 00:29:47,360

reorganize itself from within

839

00:29:52,470 --> 00:29:50,240

is this a threat that others could break

840

00:29:55,510 --> 00:29:52,480

ranks and potentially come forward with

841

00:29:57,510 --> 00:29:55,520

more information yeah absolutely and and

842

00:29:59,350 --> 00:29:57,520

i think this is what uh chris is getting

843

00:30:01,430 --> 00:29:59,360

at with chris's last article i remember

844

00:30:02,630 --> 00:30:01,440

saying that it's not into us it's aimed

845

00:30:03,830 --> 00:30:02,640

at the people who are reading these

846

00:30:05,029 --> 00:30:03,840

bills and are going to make up their

847

00:30:07,029 --> 00:30:05,039

mind but they're going to vote on it and

848

00:30:08,470 --> 00:30:07,039

this feels exactly the same

849

00:30:10,950 --> 00:30:08,480

you know the senators of the audience

850

00:30:14,470 --> 00:30:10,960

for this and and when you read it

851

00:30:16,470 --> 00:30:14,480

it gives real kind of

852

00:30:19,909 --> 00:30:16,480

it drives home how much interest there

853

00:30:21,430 --> 00:30:19,919

is in this anyway um you know the

854

00:30:23,190 --> 00:30:21,440

language seems to be coming from a lot

855

00:30:24,710 --> 00:30:23,200

of different places now as opposed to

856

00:30:29,830 --> 00:30:24,720

you know just kind of them setting the

857

00:30:33,510 --> 00:30:31,909

people ask why now this is this is why

858

00:30:35,190 --> 00:30:33,520

you know they they may not be

859

00:30:36,710 --> 00:30:35,200

whistleblowers by the legal definition

860

00:30:39,909 --> 00:30:36,720

because they're not doing what edward

861

00:30:41,750 --> 00:30:39,919

snowden did but they're doing it in a

862

00:30:43,269 --> 00:30:41,760

sensible way within the frameworks that

863

00:30:44,710 --> 00:30:43,279

have been set up so that we can deal

864

00:30:46,470 --> 00:30:44,720

with this properly

865

00:30:48,470 --> 00:30:46,480

um

866

00:30:49,990 --> 00:30:48,480

they're doing in a clever way in a way

867

00:30:52,389 --> 00:30:50,000

that they know what they're saying they

868

00:30:54,310 --> 00:30:52,399

know why they're saying it and they know

869

00:30:56,389 --> 00:30:54,320

they're not going to get into trouble

870

00:30:58,870 --> 00:30:56,399

by doing it this way and that's why

871

00:31:01,590 --> 00:30:58,880

people ask why can why can such and such

872

00:31:03,909 --> 00:31:01,600

say say one thing but not another and

873

00:31:05,669 --> 00:31:03,919

that doesn't affect their nda well

874

00:31:08,549 --> 00:31:05,679

that's because they're allowed to say

875

00:31:10,470 --> 00:31:08,559

certain things when it's opinion again i

876

00:31:12,470 --> 00:31:10,480

i don't doubt sometimes people give us

877

00:31:15,190 --> 00:31:12,480

quotes or comments or breadcrumbs if you

878

00:31:18,389 --> 00:31:15,200

want to call them that that are

879

00:31:20,549 --> 00:31:18,399

shrouded or wrapped with a little bit of

880

00:31:22,470 --> 00:31:20,559

untruth or a little bit of false

881

00:31:25,430 --> 00:31:22,480

information but the bulk of it is

882

00:31:27,669 --> 00:31:25,440

correct but just by giving us that

883

00:31:29,509 --> 00:31:27,679

20 mistruth

884

00:31:30,549 --> 00:31:29,519

it allows them to get more information

885

00:31:32,470 --> 00:31:30,559

out there

886

00:31:35,029 --> 00:31:32,480

and that's that's a good way to start a

887

00:31:37,750 --> 00:31:35,039

conversation as well yeah for sure and

888

00:31:40,070 --> 00:31:37,760

and i remember when the preliminary ua

889

00:31:42,070 --> 00:31:40,080

ptf report was released and and a lot of

890

00:31:44,950 --> 00:31:42,080

people were dissatisfied with it but

891

00:31:46,870 --> 00:31:44,960

that disaster dissatisfaction

892

00:31:48,950 --> 00:31:46,880

has clearly played into the language

893

00:31:51,430 --> 00:31:48,960

that we're seeing in this amendment

894

00:31:52,789 --> 00:31:51,440

they they now know you know before they

895

00:31:55,509 --> 00:31:52,799

didn't even know they wanted a uav

896

00:31:57,909 --> 00:31:55,519

report now they know what they want uap

897

00:32:00,070 --> 00:31:57,919

report to start looking like and that

898

00:32:03,350 --> 00:32:00,080

with the german amendment includes a

899

00:32:04,950 --> 00:32:03,360

public unclassified report um you know

900

00:32:06,389 --> 00:32:04,960

we we gotta start somewhere but if you

901
00:32:08,310 --> 00:32:06,399
disagree with the language get in touch

902
00:32:10,230 --> 00:32:08,320
with your officials tell them that we we

903
00:32:13,029 --> 00:32:10,240
can make another amendment this is the

904
00:32:14,870 --> 00:32:13,039
whole process um but you've got to speak

905
00:32:17,430 --> 00:32:14,880
to the the people who can actually

906
00:32:20,710 --> 00:32:17,440
affect that change one one thing i found

907
00:32:21,990 --> 00:32:20,720
interesting was where chris spoke about

908
00:32:23,909 --> 00:32:22,000
the fact that

909
00:32:25,830 --> 00:32:23,919
a lot of departments are reluctant to

910
00:32:29,110 --> 00:32:25,840
spend money on uap research because it's

911
00:32:31,029 --> 00:32:29,120
not specified in the language um and

912
00:32:32,389 --> 00:32:31,039
that's just that's such a typical red

913
00:32:33,990 --> 00:32:32,399

tape thing right everyone wants to do

914

00:32:35,590 --> 00:32:34,000

the work but because the word isn't on

915

00:32:37,750 --> 00:32:35,600

the page they're like oh we might get in

916

00:32:39,750 --> 00:32:37,760

trouble for using the money for that um

917

00:32:41,909 --> 00:32:39,760

this fixes that

918

00:32:44,710 --> 00:32:41,919

yeah and i think and finishing up as

919

00:32:46,389 --> 00:32:44,720

well that with the

920

00:32:49,430 --> 00:32:46,399

the amount of people now coming out and

921

00:32:51,269 --> 00:32:49,440

seemingly supporting uep or ufo

922

00:32:54,389 --> 00:32:51,279

investigations however you want to work

923

00:32:56,389 --> 00:32:54,399

that uh and the why now question i think

924

00:32:58,630 --> 00:32:56,399

a lot of it is down to these

925

00:33:01,110 --> 00:32:58,640

politicians and high-ranking officials

926
00:33:03,590 --> 00:33:01,120
and senators and congressmen and women

927
00:33:05,350 --> 00:33:03,600
they are seeing these these videos and

928
00:33:07,509 --> 00:33:05,360
photographs that we aren't they're

929
00:33:09,990 --> 00:33:07,519
seeing the 23-minute video they're

930
00:33:11,830 --> 00:33:10,000
seeing the video of the object 50 feet

931
00:33:13,430 --> 00:33:11,840
from the craft all that stuff that or

932
00:33:15,750 --> 00:33:13,440
from the aircraft that lou talked about

933
00:33:18,789 --> 00:33:15,760
in his gq article just recently as well

934
00:33:20,470 --> 00:33:18,799
so the 23 minutes of of sci-fi that we

935
00:33:23,029 --> 00:33:20,480
hear about you know

936
00:33:24,549 --> 00:33:23,039
people like rubio warner gillibrand and

937
00:33:26,149 --> 00:33:24,559
others they're coming out of briefings

938
00:33:28,310 --> 00:33:26,159

having saw this

939

00:33:30,710 --> 00:33:28,320

yet it's frustrating we aren't seeing it

940

00:33:32,710 --> 00:33:30,720

but right now these people are able to

941

00:33:34,470 --> 00:33:32,720

make bigger moves and we are we can help

942

00:33:35,830 --> 00:33:34,480

and support and make noise

943

00:33:36,870 --> 00:33:35,840

but ultimately they are going to open

944

00:33:38,549 --> 00:33:36,880

the doors

945

00:33:41,110 --> 00:33:38,559

to allow these these to move forward and

946

00:33:43,029 --> 00:33:41,120

the big ways that we need so um if that

947

00:33:44,710 --> 00:33:43,039

has to keep happening for now then great

948

00:33:46,870 --> 00:33:44,720

if anyone wants to send us anonymously

949

00:33:49,590 --> 00:33:46,880

one of those 23 minute videos or or

950

00:33:51,990 --> 00:33:49,600

footage of a you know an f-18 pilot with

951
00:33:54,710 --> 00:33:52,000
a huge ufo next to his craft then please

952
00:33:56,070 --> 00:33:54,720
be my guest we'll keep it secret

953
00:33:58,789 --> 00:33:56,080
until then dan it's been good having

954
00:34:00,230 --> 00:33:58,799
another uh another breakdown yeah it's

955
00:34:01,430 --> 00:34:00,240
been great

956
00:34:02,630 --> 00:34:01,440
helped me understand this a little bit

957
00:34:04,389 --> 00:34:02,640
more as well and again thanks to

958
00:34:05,990 --> 00:34:04,399
everyone else getting in touch asking

959
00:34:08,470 --> 00:34:06,000
for our thoughts and we will speak to

960
00:34:10,710 --> 00:34:08,480
you soon that is all for this week's

961
00:34:12,550 --> 00:34:10,720
show thank you very much for listening

962
00:34:15,109 --> 00:34:12,560
please remember to leave the podcaster

963
00:34:17,589 --> 00:34:15,119

review on your chosen platform you can

964

00:34:19,750 --> 00:34:17,599

like retweet and subscribe that would

965

00:34:21,750 --> 00:34:19,760

all be very much appreciated the shows

966

00:34:23,510 --> 00:34:21,760

are being uploaded onto youtube as we

967

00:34:26,069 --> 00:34:23,520

speak more and more you can sign up at

twitter it's at ufo uap am and again

973

00:34:42,020 --> 00:34:39,440

folks as always keep looking up you

974

00:35:05,190 --> 00:34:42,030

never know what you might see

975

00:35:18,230 --> 00:35:08,440

but i'd had some champagne

976

00:35:21,349 --> 00:35:19,750

i can't imagine how it could have been

977

00:35:25,180 --> 00:35:21,359

any better i got to the top of the

978

00:35:25,190 --> 00:35:42,950

[Music]

979

00:35:53,050 --> 00:35:44,710

my boys they thought this was noise they

980

00:35:53,060 --> 00:36:07,430

[Music]

981

00:36:07,440 --> 00:36:12,830

and what's that
