

THE **OTHER** SHOW

19TH NOVEMBER 2021

ANDY MCGRILLEN & DAN ZETTERSTROM

1
00:00:00,350 --> 00:00:09,990

[Music]

2
00:00:14,709 --> 00:00:12,150

it was basically a cube with inside of

3
00:00:19,670 --> 00:00:14,719

sphere where the points of the cube

4
00:00:32,870 --> 00:00:28,930

[Music]

5
00:00:34,389 --> 00:00:32,880

[Applause]

6
00:00:36,709 --> 00:00:34,399

so this isn't anything that just is

7
00:00:45,430 --> 00:00:36,719

limited to the united states it's a

8
00:00:51,590 --> 00:00:48,790

we are live on kgr digital broadcasting

9
00:00:54,229 --> 00:00:51,600

kg r a um

10
00:00:57,350 --> 00:00:54,239

dan was late oh you can absolutely slate

11
00:01:01,750 --> 00:00:59,430

12
00:01:03,590 --> 00:01:01,760

straight away here so welcome everyone

13
00:01:05,750 --> 00:01:03,600

to the show tonight we are live we are

14

00:01:07,750 --> 00:01:05,760

actually live this is not recorded i

15

00:01:08,789 --> 00:01:07,760

can't even prove how we're live kinda

16

00:01:10,469 --> 00:01:08,799

there's no way we have made related

17

00:01:12,550 --> 00:01:10,479

doing that right now i mean i can i'll

18

00:01:14,310 --> 00:01:12,560

i'll hold the clock up there you go

19

00:01:15,510 --> 00:01:14,320

that's that's the time in the uk so we

20

00:01:17,990 --> 00:01:15,520

are

21

00:01:19,749 --> 00:01:18,000

nice to do this live finally it's good

22

00:01:21,429 --> 00:01:19,759

to see everyone in the chat as well

23

00:01:24,630 --> 00:01:21,439

thanks for everyone who's been coming on

24

00:01:27,030 --> 00:01:24,640

board the kgra shows um really excited

25

00:01:29,350 --> 00:01:27,040

to have you at g west long time listener

26

00:01:31,910 --> 00:01:29,360

first time watcher um listen i have

27

00:01:34,789 --> 00:01:31,920

shaved folks so apologies i look like

28

00:01:37,109 --> 00:01:34,799

this but is what it is um

29

00:01:39,429 --> 00:01:37,119

dan and andy you've lost so many days

30

00:01:41,429 --> 00:01:39,439

yeah i look i look young um hollywood

31

00:01:44,149 --> 00:01:41,439

dreams let's go fellas nigel how we

32

00:01:45,910 --> 00:01:44,159

doing kyle um lots to talk about it's

33

00:01:48,310 --> 00:01:45,920

been a very busy time in the world of

34

00:01:50,550 --> 00:01:48,320

europa boys it's been a busy week it's

35

00:01:52,469 --> 00:01:50,560

been busy days there's a lot to catch up

36

00:01:53,749 --> 00:01:52,479

on so this show is going to be a lot of

37

00:01:56,469 --> 00:01:53,759

fun we're going to talk about my

38

00:01:58,469 --> 00:01:56,479

interview with john ramirez ex-cia

39

00:01:59,910 --> 00:01:58,479

officer which just dropped today we're

40

00:02:01,749 --> 00:01:59,920

going to talk about some of the senate

41

00:02:04,310 --> 00:02:01,759

updates and dan is going to help me

42

00:02:06,069 --> 00:02:04,320

understand what exactly is going on uh

43

00:02:07,429 --> 00:02:06,079

in the senate right now if i'm even

44

00:02:09,029 --> 00:02:07,439

getting that right is it the senate is

45

00:02:10,790 --> 00:02:09,039

it the congress it is the senate yeah

46

00:02:12,710 --> 00:02:10,800

yeah yeah we got we went through the

47

00:02:14,630 --> 00:02:12,720

congress that's what happened earlier

48

00:02:16,630 --> 00:02:14,640

kind of this year hold hold because

49

00:02:18,550 --> 00:02:16,640

we'll get there we'll get there um i've

50

00:02:21,910 --> 00:02:18,560

got a short update from gaddy verhys of

51
00:02:23,830 --> 00:02:21,920
uapx on what they're working on

52
00:02:25,350 --> 00:02:23,840
we'll answer questions from the chat

53
00:02:27,350 --> 00:02:25,360
we've got the live chat on the go it's

54
00:02:29,990 --> 00:02:27,360
great to see everyone in there and we've

55
00:02:31,830 --> 00:02:30,000
also got some questions from that were

56
00:02:33,750 --> 00:02:31,840
left over from our part one with

57
00:02:35,270 --> 00:02:33,760
luella's ondo and we're going to go

58
00:02:37,990 --> 00:02:35,280
through them because the questions that

59
00:02:39,350 --> 00:02:38,000
we think we can't necessarily ask these

60
00:02:42,150 --> 00:02:39,360
to lose because we're going to get the

61
00:02:43,589 --> 00:02:42,160
nda or a really vague roundabout answer

62
00:02:46,229 --> 00:02:43,599
so we're going to speculate on them

63
00:02:48,949 --> 00:02:46,239

instead um but yeah loads to get through

64

00:02:51,990 --> 00:02:48,959

uh dan what's your week been like

65

00:02:53,990 --> 00:02:52,000

uh busy watching a lot of the senate

66

00:02:55,750 --> 00:02:54,000

stream which i didn't know existed

67

00:02:57,509 --> 00:02:55,760

before this week and now now apparently

68

00:03:00,149 --> 00:02:57,519

that's the thing i do so

69

00:03:02,869 --> 00:03:00,159

it sounds tragic

70

00:03:05,750 --> 00:03:02,879

it's very dry yeah there's a lot of

71

00:03:07,990 --> 00:03:05,760

silence in the uk we've got like the bbc

72

00:03:09,830 --> 00:03:08,000

parliamentary channel which is very very

73

00:03:11,750 --> 00:03:09,840

boring and dry but

74

00:03:12,949 --> 00:03:11,760

yeah well you know in the uk everyone's

75

00:03:15,350 --> 00:03:12,959

always shouting at each other it's

76
00:03:17,030 --> 00:03:15,360
certainly more dramatic over here um but

77
00:03:18,550 --> 00:03:17,040
i mean they're making progress over

78
00:03:19,910 --> 00:03:18,560
there so you know as long as the work

79
00:03:22,710 --> 00:03:19,920
gets done

80
00:03:24,390 --> 00:03:22,720
nice well listen um before that we'll

81
00:03:27,110 --> 00:03:24,400
talk about the interview with john

82
00:03:29,190 --> 00:03:27,120
ramirez so that just dropped today dave

83
00:03:32,309 --> 00:03:29,200
smithers in the chat as well dale hello

84
00:03:34,149 --> 00:03:32,319
everyone justin um so listen yeah uh i

85
00:03:36,149 --> 00:03:34,159
interviewed john ramirez he

86
00:03:38,710 --> 00:03:36,159
popped up with sean rash on witness

87
00:03:41,030 --> 00:03:38,720
citizen for a really cool interview we

88
00:03:42,710 --> 00:03:41,040

then had an interview with jay from

89

00:03:44,789 --> 00:03:42,720

project unity where he went through a

90

00:03:46,550 --> 00:03:44,799

slide talking about the inner workings

91

00:03:49,110 --> 00:03:46,560

of the intelligence community which was

92

00:03:50,869 --> 00:03:49,120

really cool background and uh yeah so

93

00:03:53,509 --> 00:03:50,879

then i managed to pick up john for what

94

00:03:55,190 --> 00:03:53,519

i think was about his third interview

95

00:03:57,270 --> 00:03:55,200

which is uh which was pretty cool he was

96

00:03:59,589 --> 00:03:57,280

great to talk to really generous with

97

00:04:01,750 --> 00:03:59,599

his time and i'll be honest the the

98

00:04:03,429 --> 00:04:01,760

thing for me and juggling this one that

99

00:04:05,350 --> 00:04:03,439

the listener questions response was

100

00:04:07,750 --> 00:04:05,360

phenomenal i had so many listener

101
00:04:09,990 --> 00:04:07,760
questions emailed instagram facebook

102
00:04:12,070 --> 00:04:10,000
twitter everything you know

103
00:04:14,390 --> 00:04:12,080
and they're always strong as well they

104
00:04:16,469 --> 00:04:14,400
have yeah from you know that's really

105
00:04:17,990 --> 00:04:16,479
true that we we struggle sometimes to we

106
00:04:20,629 --> 00:04:18,000
struggle every time to leave questions

107
00:04:24,150 --> 00:04:20,639
out but with this there was such a swing

108
00:04:27,189 --> 00:04:24,160
from nuts and bolts conversation to

109
00:04:29,510 --> 00:04:27,199
reptilians and you know cataclysms and

110
00:04:32,230 --> 00:04:29,520
the the pure speculation side of things

111
00:04:34,469 --> 00:04:32,240
as well so it was a difficult one to

112
00:04:36,310 --> 00:04:34,479
kind of judge i think from what people

113
00:04:38,469 --> 00:04:36,320

have said so far i've managed to do that

114

00:04:40,150 --> 00:04:38,479

all right um it was a really interesting

115

00:04:42,310 --> 00:04:40,160

conversation and there was so much more

116

00:04:45,590 --> 00:04:42,320

i could have spoke to him about but had

117

00:04:47,189 --> 00:04:45,600

had a limited time obviously as well um

118

00:04:50,310 --> 00:04:47,199

did you get a chance to listen down yet

119

00:04:52,790 --> 00:04:50,320

to any part one did yeah um well not

120

00:04:53,909 --> 00:04:52,800

just part one uh i i mean you know

121

00:04:55,749 --> 00:04:53,919

people obviously know i get a little

122

00:04:57,510 --> 00:04:55,759

behind the scenes because i added stuff

123

00:04:59,350 --> 00:04:57,520

for you um

124

00:05:02,390 --> 00:04:59,360

so that that will be going up on youtube

125

00:05:04,790 --> 00:05:02,400

once part two goes up um and it it's

126

00:05:07,430 --> 00:05:04,800

fantastic uh everything that's been

127

00:05:10,950 --> 00:05:07,440

spoken about so far um goes a lot more

128

00:05:12,710 --> 00:05:10,960

in depth um and there was i i didn't

129

00:05:14,629 --> 00:05:12,720

want to spoil it there was i really

130

00:05:16,550 --> 00:05:14,639

loved his answer to the james webb

131

00:05:17,990 --> 00:05:16,560

telescope question because he went into

132

00:05:19,350 --> 00:05:18,000

some technical detail there that i

133

00:05:20,629 --> 00:05:19,360

actually didn't know so i was like oh

134

00:05:22,790 --> 00:05:20,639

that's kind of cool

135

00:05:24,870 --> 00:05:22,800

yeah i like the james webb stuff as well

136

00:05:26,710 --> 00:05:24,880

and and i was surprised at the detail he

137

00:05:28,550 --> 00:05:26,720

went into with that he's an intelligent

138

00:05:30,469 --> 00:05:28,560

gentleman he knows his stuff

139

00:05:32,150 --> 00:05:30,479

and it's one of those i've always

140

00:05:34,469 --> 00:05:32,160

wondered we've had hubble up there and

141

00:05:36,390 --> 00:05:34,479

hubble's taking some incredible images

142

00:05:39,029 --> 00:05:36,400

and i'm going to butcher what i want to

143

00:05:41,029 --> 00:05:39,039

see here probably but you know growing

144

00:05:43,110 --> 00:05:41,039

up it was only in the recent years i've

145

00:05:45,990 --> 00:05:43,120

realized that almost every single

146

00:05:48,710 --> 00:05:46,000

picture or video i've seen of space is

147

00:05:50,790 --> 00:05:48,720

is computer generated imagery it's yeah

148

00:05:52,870 --> 00:05:50,800

i mean you laid not real for almost

149

00:05:54,469 --> 00:05:52,880

everything that you see

150

00:05:56,390 --> 00:05:54,479

you know think about

151
00:05:59,510 --> 00:05:56,400
a couple years back we got maybe not

152
00:06:01,350 --> 00:05:59,520
even years back uh it feels that long um

153
00:06:03,590 --> 00:06:01,360
not that long ago we had a first picture

154
00:06:05,830 --> 00:06:03,600
of a black hole yeah and that wasn't a

155
00:06:07,029 --> 00:06:05,840
picture like we think of a picture uh

156
00:06:08,790 --> 00:06:07,039
you know putting a camera up there and

157
00:06:11,029 --> 00:06:08,800
just going snap and or doing a long

158
00:06:13,350 --> 00:06:11,039
exposure you know there was all sorts of

159
00:06:15,110 --> 00:06:13,360
technical ways that they did that um and

160
00:06:16,629 --> 00:06:15,120
then the computer kind of compiled it so

161
00:06:18,469 --> 00:06:16,639
you could even argue that the actual

162
00:06:21,430 --> 00:06:18,479
picture we have a black hole is is

163
00:06:23,590 --> 00:06:21,440

computer generated imagery yeah um

164

00:06:25,029 --> 00:06:23,600

but yeah everything prior to that you

165

00:06:27,029 --> 00:06:25,039

know black holes were pretty common

166

00:06:28,150 --> 00:06:27,039

knowledge but no one had actually ever

167

00:06:29,749 --> 00:06:28,160

seen one

168

00:06:32,070 --> 00:06:29,759

you might as well compare it to a ghost

169

00:06:34,070 --> 00:06:32,080

you know math said it was there but

170

00:06:35,510 --> 00:06:34,080

we don't really understand what it is i

171

00:06:38,390 --> 00:06:35,520

i don't think people quite appreciate

172

00:06:39,990 --> 00:06:38,400

that fact that it's uh this big unknown

173

00:06:42,469 --> 00:06:40,000

we know some things about it but we

174

00:06:44,469 --> 00:06:42,479

don't know what happens in inside it or

175

00:06:46,070 --> 00:06:44,479

you know why it does what it does

176

00:06:48,870 --> 00:06:46,080

it sounds like technologically here

177

00:06:52,469 --> 00:06:48,880

we're going from a nokia 3310 now to an

178

00:06:54,390 --> 00:06:52,479

iphone pro 13 uh which is going to be a

179

00:06:55,990 --> 00:06:54,400

huge leap in technology in terms of what

180

00:06:58,309 --> 00:06:56,000

we can see we are going to be

181

00:07:00,309 --> 00:06:58,319

pinpointing keyholes in the sky as it's

182

00:07:02,230 --> 00:07:00,319

been described and looking at those

183

00:07:04,629 --> 00:07:02,240

we're going to be able to to hopefully

184

00:07:06,390 --> 00:07:04,639

see planets in detail

185

00:07:08,390 --> 00:07:06,400

we're going to look back to is it 200

186

00:07:09,430 --> 00:07:08,400

million years after the big bang

187

00:07:11,029 --> 00:07:09,440

um

188

00:07:13,029 --> 00:07:11,039

and you're going to see some incredible

189

00:07:15,510 --> 00:07:13,039

images justin hi andy well done for

190

00:07:17,110 --> 00:07:15,520

staying up um we're going to see some

191

00:07:18,629 --> 00:07:17,120

incredible images and we're hopefully

192

00:07:21,270 --> 00:07:18,639

going to be able to determine with these

193

00:07:23,670 --> 00:07:21,280

images the chemical composition of

194

00:07:25,909 --> 00:07:23,680

atmospheres and other planets which will

195

00:07:26,950 --> 00:07:25,919

hopefully allow us to determine very

196

00:07:28,550 --> 00:07:26,960

quickly

197

00:07:30,790 --> 00:07:28,560

as their life on these other planets and

198

00:07:33,589 --> 00:07:30,800

stuff as well so yeah absolutely

199

00:07:34,870 --> 00:07:33,599

exciting and the the part of it for me

200

00:07:37,430 --> 00:07:34,880

as well is

201
00:07:39,189 --> 00:07:37,440
whenever we build a tool you know

202
00:07:41,990 --> 00:07:39,199
i i like to think of this as going from

203
00:07:44,309 --> 00:07:42,000
vhs not just to dvd not just for 4k but

204
00:07:45,749 --> 00:07:44,319
to 8k like that's the jump it's huge

205
00:07:47,029 --> 00:07:45,759
it's a complete different use of

206
00:07:50,309 --> 00:07:47,039
technology you know we're not even

207
00:07:52,309 --> 00:07:50,319
imaging in the same way anymore um but

208
00:07:55,430 --> 00:07:52,319
we only built the james webb telescope

209
00:07:57,670 --> 00:07:55,440
because we had tools before them that

210
00:08:00,150 --> 00:07:57,680
found things that made us realize we

211
00:08:02,150 --> 00:08:00,160
needed to build these new tools so

212
00:08:04,710 --> 00:08:02,160
you know in 50 years people are going to

213
00:08:06,869 --> 00:08:04,720

be inventing things because of the james

214

00:08:09,430 --> 00:08:06,879

webb telescope that we can't even dream

215

00:08:10,869 --> 00:08:09,440

of today and that's fascinating to me

216

00:08:12,790 --> 00:08:10,879

there are these really subtle shifts

217

00:08:14,550 --> 00:08:12,800

through technology that really broaden

218

00:08:15,749 --> 00:08:14,560

our scope as a

219

00:08:17,589 --> 00:08:15,759

species

220

00:08:18,869 --> 00:08:17,599

yeah i mean i'll just ask you dan it's

221

00:08:20,629 --> 00:08:18,879

something we could go on about we've got

222

00:08:22,710 --> 00:08:20,639

a lot to talk about do you think the

223

00:08:25,670 --> 00:08:22,720

james webb is going to instantly give us

224

00:08:27,270 --> 00:08:25,680

some spectacular results in terms of

225

00:08:29,510 --> 00:08:27,280

it's going to show some incredible

226
00:08:31,430 --> 00:08:29,520
images of the universe but are we going

227
00:08:34,310 --> 00:08:31,440
to start to see

228
00:08:35,670 --> 00:08:34,320
images of of alien life or anything like

229
00:08:36,630 --> 00:08:35,680
that is that not what this is going to

230
00:08:37,829 --> 00:08:36,640
be about

231
00:08:40,070 --> 00:08:37,839
i mean

232
00:08:41,909 --> 00:08:40,080
who knows no no one's expecting that for

233
00:08:43,829 --> 00:08:41,919
one i'd say

234
00:08:45,990 --> 00:08:43,839
you said immediately not immediately you

235
00:08:47,269 --> 00:08:46,000
know it goes up in a month i think and

236
00:08:49,030 --> 00:08:47,279
then you're going to be looking at a

237
00:08:50,550 --> 00:08:49,040
while before they actually get the data

238
00:08:52,310 --> 00:08:50,560

together and compile it into something

239

00:08:54,630 --> 00:08:52,320

that can be shared so probably about you

240

00:08:56,790 --> 00:08:54,640

know two three months on that front um

241

00:08:58,550 --> 00:08:56,800

because there is massive amounts of data

242

00:09:00,550 --> 00:08:58,560

uh but

243

00:09:02,310 --> 00:09:00,560

we could go from

244

00:09:03,670 --> 00:09:02,320

i don't know there's kind of a work list

245

00:09:05,190 --> 00:09:03,680

you can look up online and you can see

246

00:09:06,550 --> 00:09:05,200

the actual projects that they go in

247

00:09:09,750 --> 00:09:06,560

through i'll post a link to my twitter

248

00:09:11,990 --> 00:09:09,760

later um so you can see how far away

249

00:09:13,910 --> 00:09:12,000

we're looking and i think that's key

250

00:09:15,750 --> 00:09:13,920

because if we're looking super far away

251
00:09:18,230 --> 00:09:15,760
into a keyhole obviously that's kind of

252
00:09:20,630 --> 00:09:18,240
tough but if we you know just look at

253
00:09:22,550 --> 00:09:20,640
say trappist-1 that's pretty close to us

254
00:09:24,150 --> 00:09:22,560
that we think is an earth-like planet

255
00:09:26,389 --> 00:09:24,160
we'll get a much better view of what's

256
00:09:28,310 --> 00:09:26,399
on its surface because it's closer to us

257
00:09:30,310 --> 00:09:28,320
um so it's anyone's guess you know if

258
00:09:32,230 --> 00:09:30,320
there's a civilization out there that's

259
00:09:34,150 --> 00:09:32,240
pretty close we we might kind of

260
00:09:35,110 --> 00:09:34,160
accidentally sweep by and have our minds

261
00:09:37,110 --> 00:09:35,120
blown

262
00:09:39,190 --> 00:09:37,120
well say hi to ucr i'm guessing that's

263
00:09:41,269 --> 00:09:39,200

going to be lou uh lujanez on the the

264

00:09:42,150 --> 00:09:41,279

chat there hi lu

265

00:09:44,790 --> 00:09:42,160

um

266

00:09:46,070 --> 00:09:44,800

or luis i was lou louise

267

00:09:48,070 --> 00:09:46,080

louis

268

00:09:49,990 --> 00:09:48,080

they've just had a avila born again

269

00:09:51,509 --> 00:09:50,000

great chat i managed to dip in and out

270

00:09:54,070 --> 00:09:51,519

of that one as well i had an interview

271

00:09:56,470 --> 00:09:54,080

before this uh broadcast as well

272

00:09:59,030 --> 00:09:56,480

and avi loeb obviously with project

273

00:10:01,269 --> 00:09:59,040

galileo wants telescopes again to look

274

00:10:03,030 --> 00:10:01,279

out into the solar system you've got the

275

00:10:05,030 --> 00:10:03,040

james webb which is going to look out

276

00:10:06,949 --> 00:10:05,040

and it just seems we've got this

277

00:10:08,230 --> 00:10:06,959

incredible search into the universe

278

00:10:09,590 --> 00:10:08,240

again for life

279

00:10:11,910 --> 00:10:09,600

but we're also

280

00:10:14,550 --> 00:10:11,920

having huge conversations yes we are

281

00:10:16,310 --> 00:10:14,560

live louise yep for a change

282

00:10:18,790 --> 00:10:16,320

he's amazing we're also having these

283

00:10:20,870 --> 00:10:18,800

conversations that are these things here

284

00:10:22,470 --> 00:10:20,880

already what could be here so we have

285

00:10:24,230 --> 00:10:22,480

these two incredible extremes of the

286

00:10:25,190 --> 00:10:24,240

same conversation going on at the same

287

00:10:26,630 --> 00:10:25,200

time

288

00:10:28,150 --> 00:10:26,640

what do you think dan is more likely

289

00:10:31,670 --> 00:10:28,160

that we're going to get first something

290

00:10:33,350 --> 00:10:31,680

out there or something closer to home

291

00:10:34,550 --> 00:10:33,360

well i've just got to back up here

292

00:10:37,030 --> 00:10:34,560

because someone just said something in

293

00:10:38,550 --> 00:10:37,040

the chat that is absolutely true

294

00:10:39,829 --> 00:10:38,560

uh it sounded like when i was talking

295

00:10:41,829 --> 00:10:39,839

about the james webb telescope a second

296

00:10:43,430 --> 00:10:41,839

ago that we would get photographs like

297

00:10:45,829 --> 00:10:43,440

we would think of like photographs at

298

00:10:47,509 --> 00:10:45,839

the park that's not the case what i was

299

00:10:49,590 --> 00:10:47,519

doing was jumping a little bit to think

300

00:10:51,509 --> 00:10:49,600

wow if there exists life in an infrared

301
00:10:53,110 --> 00:10:51,519
kind of frame on another planet and

302
00:10:55,110 --> 00:10:53,120
they've built a civilization we will see

303
00:10:57,110 --> 00:10:55,120
that with this kind of technology so

304
00:10:58,710 --> 00:10:57,120
yeah it's it's

305
00:11:00,630 --> 00:10:58,720
really paradigm shifting sorry what was

306
00:11:02,230 --> 00:11:00,640
the question

307
00:11:03,829 --> 00:11:02,240
do you think we're more likely having

308
00:11:05,190 --> 00:11:03,839
given the fact that we're looking out

309
00:11:07,590 --> 00:11:05,200
into the universe for life and we're

310
00:11:08,949 --> 00:11:07,600
looking here for life do you think that

311
00:11:10,870 --> 00:11:08,959
we're going to get

312
00:11:12,230 --> 00:11:10,880
the answers out there first or do you

313
00:11:14,069 --> 00:11:12,240

think we're going to find out more about

314

00:11:15,750 --> 00:11:14,079

what might already be here or closer to

315

00:11:16,550 --> 00:11:15,760

home

316

00:11:40,230 --> 00:11:16,560

i

317

00:11:42,389 --> 00:11:40,240

what we're about to move on and talk

318

00:11:44,949 --> 00:11:42,399

about as well with the senate updates

319

00:11:47,110 --> 00:11:44,959

that we've got a lot of different fights

320

00:11:49,030 --> 00:11:47,120

and a lot of different fronts um and

321

00:11:50,790 --> 00:11:49,040

hopefully at one point they become less

322

00:11:52,470 --> 00:11:50,800

of a fight as well that would be great

323

00:11:55,110 --> 00:11:52,480

and and more of a collaboration with

324

00:11:57,750 --> 00:11:55,120

everyone else so so yeah listen senate

325

00:11:59,430 --> 00:11:57,760

updates dan my head is spinning with us

326

00:12:02,550 --> 00:11:59,440

and i i'd love to see people's thoughts

327

00:12:04,550 --> 00:12:02,560

in the chat as well here um on this

328

00:12:06,949 --> 00:12:04,560

because i come to you for all this stuff

329

00:12:09,190 --> 00:12:06,959

i'm seeing the updates online um dean

330

00:12:11,750 --> 00:12:09,200

johnson has been fantastic can i can i

331

00:12:13,269 --> 00:12:11,760

just push you just just because someone

332

00:12:15,350 --> 00:12:13,279

just put something in the chat and and

333

00:12:17,430 --> 00:12:15,360

maybe think of something uh they said

334

00:12:19,190 --> 00:12:17,440

let's hope uh in fact oh no i can't pull

335

00:12:20,470 --> 00:12:19,200

her up lord bass said let's hope james

336

00:12:21,910 --> 00:12:20,480

about telescope doesn't need a mirror

337

00:12:23,590 --> 00:12:21,920

replacement before it can take clear

338

00:12:25,910 --> 00:12:23,600

images like hubble so what happened with

339

00:12:27,430 --> 00:12:25,920

the hubble is that its focus was off and

340

00:12:29,190 --> 00:12:27,440

they can correct it they had to send

341

00:12:31,590 --> 00:12:29,200

people up to correct it with the james

342

00:12:33,990 --> 00:12:31,600

webb telescope they've thought of this

343

00:12:36,310 --> 00:12:34,000

each mirror has its own servo that can

344

00:12:37,990 --> 00:12:36,320

focus the mirror so if they do have the

345

00:12:40,069 --> 00:12:38,000

same error they can fix it like that

346

00:12:41,670 --> 00:12:40,079

this time it's very cool

347

00:12:43,030 --> 00:12:41,680

awesome yeah no kill thanks for that

348

00:12:44,790 --> 00:12:43,040

yeah i can put the questions on for you

349

00:12:46,310 --> 00:12:44,800

dan we'll get that sorted for next time

350

00:12:49,750 --> 00:12:46,320

and we'll give dan a bit more power if

351

00:12:53,670 --> 00:12:51,829

with the like i was saying d dean

352

00:12:56,150 --> 00:12:53,680

johnson fantastic at keeping us up to

353

00:12:58,069 --> 00:12:56,160

date with the senate progress congress

354

00:12:59,509 --> 00:12:58,079

all the political stuff that i just my

355

00:13:01,910 --> 00:12:59,519

head spins with it and i'm sure i'm not

356

00:13:04,310 --> 00:13:01,920

the only one um jazz shaw has been

357

00:13:05,990 --> 00:13:04,320

fantastic with that as well dan you have

358

00:13:08,710 --> 00:13:06,000

been brushing up this week on your

359

00:13:11,030 --> 00:13:08,720

political uh tweets and keeping us up to

360

00:13:12,629 --> 00:13:11,040

date what is going on what has got us to

361

00:13:13,990 --> 00:13:12,639

this point for a start if you can kind

362

00:13:16,150 --> 00:13:14,000

of summarize that

363

00:13:18,870 --> 00:13:16,160

so first first thing i'd say is that i'd

364

00:13:20,550 --> 00:13:18,880

advise everyone to go to the con

365

00:13:22,150 --> 00:13:20,560

congress website um i think it's

366

00:13:23,670 --> 00:13:22,160

congress.gov

367

00:13:25,910 --> 00:13:23,680

you can basically if you sign up for an

368

00:13:28,710 --> 00:13:25,920

account you can put in a search term and

369

00:13:31,030 --> 00:13:28,720

you can follow certain bills um

370

00:13:32,949 --> 00:13:31,040

so this week i basically took the time

371

00:13:34,710 --> 00:13:32,959

to set up all the search terms

372

00:13:36,550 --> 00:13:34,720

and now i get notified when anything the

373

00:13:38,389 --> 00:13:36,560

uap happens or unidentified aerial

374

00:13:41,110 --> 00:13:38,399

phenomena because you have to you know

375

00:13:43,350 --> 00:13:41,120

you use certain terms um and there's

376

00:13:45,269 --> 00:13:43,360

also a daily congressional record that

377

00:13:46,550 --> 00:13:45,279

gets published and it tells you

378

00:13:48,870 --> 00:13:46,560

everything that kind of happened the

379

00:13:51,990 --> 00:13:48,880

previous day and that's where the

380

00:13:53,509 --> 00:13:52,000

amendments have been published um so

381

00:13:54,710 --> 00:13:53,519

every day i've kind of been on antenna

382

00:13:56,150 --> 00:13:54,720

hooks waiting for the congressional

383

00:13:58,310 --> 00:13:56,160

record to come out so i could see and

384

00:14:00,949 --> 00:13:58,320

compare the language um

385

00:14:02,710 --> 00:14:00,959

it's really cool website and you should

386

00:14:05,269 --> 00:14:02,720

absolutely use it because it's there for

387

00:14:06,949 --> 00:14:05,279

for us to follow along i guess um but

388

00:14:09,829 --> 00:14:06,959

yeah so

389

00:14:13,110 --> 00:14:09,839

oh what's that

390

00:14:13,990 --> 00:14:13,120

so we basically had two bills

391

00:14:16,790 --> 00:14:14,000

um

392

00:14:18,949 --> 00:14:16,800

one that came down as i like to say one

393

00:14:21,829 --> 00:14:18,959

set of train tracks and one that came

394

00:14:24,069 --> 00:14:21,839

down another saturn track uh the one

395

00:14:25,269 --> 00:14:24,079

we're looking at now sorry let me back

396

00:14:28,069 --> 00:14:25,279

up um

397

00:14:28,949 --> 00:14:28,079

the earlier bill was s2610

398

00:14:32,310 --> 00:14:28,959

um

399

00:14:33,590 --> 00:14:32,320

that later became hr5412

400

00:14:35,990 --> 00:14:33,600

that came from the

401
00:14:38,150 --> 00:14:36,000
senate intelligence committee that was

402
00:14:40,870 --> 00:14:38,160
the first thing we heard about after the

403
00:14:41,670 --> 00:14:40,880
uap task force preliminary report came

404
00:14:44,870 --> 00:14:41,680
out

405
00:14:47,269 --> 00:14:44,880
that later on from uh from left field

406
00:14:48,790 --> 00:14:47,279
came hr350

407
00:14:52,150 --> 00:14:48,800
which is the national defense

408
00:14:55,189 --> 00:14:52,160
authorization act um ruben gallagher

409
00:14:56,710 --> 00:14:55,199
put some amended language into that um

410
00:14:59,030 --> 00:14:56,720
that had to do with some biological

411
00:15:02,069 --> 00:14:59,040
effects but it wasn't you know extensive

412
00:15:03,430 --> 00:15:02,079
language it was just i remember in the

413
00:15:05,350 --> 00:15:03,440

community we were all shocked to see

414

00:15:07,829 --> 00:15:05,360

that biological aspect in there because

415

00:15:10,470 --> 00:15:07,839

we all wanted that in there um

416

00:15:13,269 --> 00:15:10,480

and then since then a number of

417

00:15:16,030 --> 00:15:13,279

amendments have been tabled um this week

418

00:15:17,590 --> 00:15:16,040

we've gone from essay

419

00:15:18,470 --> 00:15:17,600

4281

420

00:15:29,509 --> 00:15:18,480

to

421

00:15:31,910 --> 00:15:29,519

and no doubt everyone else there because

422

00:15:35,269 --> 00:15:31,920

marco rubio sponsors it now

423

00:15:38,069 --> 00:15:35,279

we also had a few other co-sponsors

424

00:15:40,550 --> 00:15:38,079

um roy senator roy blunt senator lindsey

425

00:15:42,629 --> 00:15:40,560

graham too um so it's really getting a

426

00:15:45,269 --> 00:15:42,639

lot of bypass and support

427

00:15:46,870 --> 00:15:45,279

um and what's gonna happen with these is

428

00:15:49,030 --> 00:15:46,880

at the moment in the senate they're

429

00:15:50,629 --> 00:15:49,040

adjourned and they'll come back tuesday

430

00:15:51,990 --> 00:15:50,639

and they're gonna be talking about the

431

00:15:54,629 --> 00:15:52,000

ndaa

432

00:15:58,389 --> 00:15:54,639

that is the galago language um that he

433

00:16:00,310 --> 00:15:58,399

put in there so if the ndaa gets passed

434

00:16:01,350 --> 00:16:00,320

that's the language that goes through

435

00:16:02,629 --> 00:16:01,360

now

436

00:16:05,189 --> 00:16:02,639

it doesn't become law until the

437

00:16:06,629 --> 00:16:05,199

president signs it and until then you

438

00:16:08,470 --> 00:16:06,639

have various committees that can kind of

439

00:16:11,110 --> 00:16:08,480

talk about things and work things out

440

00:16:13,189 --> 00:16:11,120

and it's likely that it's in those

441

00:16:14,870 --> 00:16:13,199

committees that senate's gillibrand's

442

00:16:16,949 --> 00:16:14,880

amendments will be pulled into the main

443

00:16:19,189 --> 00:16:16,959

language before it goes on to the desk

444

00:16:21,110 --> 00:16:19,199

of the president basically we have about

445

00:16:23,030 --> 00:16:21,120

five different trains on five different

446

00:16:24,949 --> 00:16:23,040

train tracks now which is great

447

00:16:27,269 --> 00:16:24,959

considering we had zero a few years ago

448

00:16:29,269 --> 00:16:27,279

back and we've got to load all the cargo

449

00:16:30,629 --> 00:16:29,279

onto a single train that's where we are

450

00:16:31,910 --> 00:16:30,639

right now

451

00:16:33,590 --> 00:16:31,920

where do you think it's going i'm not

452

00:16:35,670 --> 00:16:33,600

gonna lie i find a lot of that really

453

00:16:36,870 --> 00:16:35,680

boring the political side of things and

454

00:16:39,030 --> 00:16:36,880

it's when you look at it as i'm

455

00:16:41,749 --> 00:16:39,040

interested in one specific thing in

456

00:16:43,990 --> 00:16:41,759

terms of the language of ufos uap on

457

00:16:46,310 --> 00:16:44,000

these bills but it's lumped in as part

458

00:16:48,150 --> 00:16:46,320

of a huge defense act and i think that's

459

00:16:50,150 --> 00:16:48,160

one thing when you come in like myself

460

00:16:52,389 --> 00:16:50,160

from the outside and you look and go oh

461

00:16:54,870 --> 00:16:52,399

they're not just discussing ufos they're

462

00:16:57,030 --> 00:16:54,880

discussing all this other stuff and this

463

00:16:57,910 --> 00:16:57,040

is in there as well and like yeah that's

464

00:16:59,749 --> 00:16:57,920

right

465

00:17:01,990 --> 00:16:59,759

we've got the uap media group chat that

466

00:17:03,749 --> 00:17:02,000

we have and everyone was excited to hear

467

00:17:05,590 --> 00:17:03,759

it brought up and i think i've seen it

468

00:17:07,429 --> 00:17:05,600

mentioned that i made the point it

469

00:17:09,750 --> 00:17:07,439

almost sounds like we don't want this to

470

00:17:11,909 --> 00:17:09,760

have any attention or unwanted attention

471

00:17:14,069 --> 00:17:11,919

we just want it to pass through as part

472

00:17:16,069 --> 00:17:14,079

of the belt and just and just get there

473

00:17:17,990 --> 00:17:16,079

and as much as we like it to be shouted

474

00:17:19,829 --> 00:17:18,000

about and and hear the language and hear

475

00:17:22,150 --> 00:17:19,839

it talked about on those kind of live

476

00:17:24,390 --> 00:17:22,160

streams politically it's almost better

477

00:17:26,630 --> 00:17:24,400

that that doesn't happen and we just get

478

00:17:29,190 --> 00:17:26,640

this through for for the progress to be

479

00:17:31,029 --> 00:17:29,200

made further on is that fair enough yeah

480

00:17:32,549 --> 00:17:31,039

absolutely and i'd say if it goes

481

00:17:34,390 --> 00:17:32,559

through without contention and

482

00:17:38,150 --> 00:17:34,400

discussion as well like if everyone just

483

00:17:40,230 --> 00:17:38,160

agrees on it that speaks volumes to me

484

00:17:42,230 --> 00:17:40,240

absolute volumes

485

00:17:43,830 --> 00:17:42,240

everyone argues over you know

486

00:17:45,990 --> 00:17:43,840

watching the center stream this week

487

00:17:47,590 --> 00:17:46,000

people argue over the smallest details

488

00:17:49,510 --> 00:17:47,600

and everyone argues you know with

489

00:17:51,909 --> 00:17:49,520

passion and conviction everyone you know

490

00:17:52,789 --> 00:17:51,919

is is there to do a job

491

00:17:53,830 --> 00:17:52,799

but

492

00:17:55,750 --> 00:17:53,840

to see

493

00:17:59,510 --> 00:17:55,760

no one bring up and have an issue with

494

00:18:01,350 --> 00:17:59,520

the uap language for me was you know so

495

00:18:02,789 --> 00:18:01,360

far not bringing up anyway for me for me

496

00:18:04,150 --> 00:18:02,799

was astounding

497

00:18:06,390 --> 00:18:04,160

you know it's almost historical and

498

00:18:08,710 --> 00:18:06,400

there was one moment where uh bernie

499

00:18:10,310 --> 00:18:08,720

sanders quoted the eisenhower speech

500

00:18:11,510 --> 00:18:10,320

about the military industrial complex

501
00:18:13,430 --> 00:18:11,520
and i know a lot of people connect that

502
00:18:15,830 --> 00:18:13,440
with ufos and i just thought there was a

503
00:18:17,830 --> 00:18:15,840
nice little synchronous moment

504
00:18:20,230 --> 00:18:17,840
uh listen nigel brings up a good point

505
00:18:21,110 --> 00:18:20,240
okay um loves the brits are in support

506
00:18:22,870 --> 00:18:21,120
of the

507
00:18:24,870 --> 00:18:22,880
gillibrand amendment

508
00:18:27,430 --> 00:18:24,880
but we've got bugger all going on in the

509
00:18:29,430 --> 00:18:27,440
uk parliament and recently i don't know

510
00:18:32,150 --> 00:18:29,440
if nigel if you saw this or anyone else

511
00:18:35,029 --> 00:18:32,160
but there was a brief discussion with a

512
00:18:36,870 --> 00:18:35,039
few of our politicians here in the uk uh

513
00:18:39,190 --> 00:18:36,880

our politicians in the uk aren't as

514

00:18:42,230 --> 00:18:39,200

famous the discussion's not necessarily

515

00:18:44,390 --> 00:18:42,240

as sexy as it looks like in the us um

516

00:18:45,669 --> 00:18:44,400

it's just it's quite boring and not many

517

00:18:48,710 --> 00:18:45,679

people pay attention to that kind of

518

00:18:50,549 --> 00:18:48,720

side of politics over here so the

519

00:18:52,630 --> 00:18:50,559

the the conversation was had with a bit

520

00:18:54,470 --> 00:18:52,640

of a tongue-in-cheek wasn't it and it

521

00:18:55,510 --> 00:18:54,480

was was it baroness goldie i believe it

522

00:18:57,270 --> 00:18:55,520

was yeah

523

00:18:59,270 --> 00:18:57,280

was one of the names and one of the

524

00:19:01,190 --> 00:18:59,280

gentlemen put forward the notion that

525

00:19:03,669 --> 00:19:01,200

look what's happening in the u.s the

526
00:19:04,710 --> 00:19:03,679
conversation about ufos is being had and

527
00:19:06,789 --> 00:19:04,720
you know as it's something we're

528
00:19:08,870 --> 00:19:06,799
interested in and essentially it was

529
00:19:11,110 --> 00:19:08,880
traditionally poo poed it was laughed

530
00:19:12,390 --> 00:19:11,120
it was scoffed at no we're not doing it

531
00:19:13,590 --> 00:19:12,400
yes it's not something we have an

532
00:19:15,909 --> 00:19:13,600
interest in

533
00:19:18,070 --> 00:19:15,919
and it was very much the flying saucers

534
00:19:20,230 --> 00:19:18,080
little green men no interest to us here

535
00:19:22,789 --> 00:19:20,240
in the uk let's move on and that's

536
00:19:25,430 --> 00:19:22,799
exactly what happened um so yeah nigel

537
00:19:27,750 --> 00:19:25,440
we feel your frustration and we we've

538
00:19:29,990 --> 00:19:27,760

got the group uap media uk which i hope

539

00:19:31,909 --> 00:19:30,000

everyone gives a follow online even just

540

00:19:34,390 --> 00:19:31,919

sharing and helping you look at what

541

00:19:35,990 --> 00:19:34,400

what ucr do with the big phone home

542

00:19:37,830 --> 00:19:36,000

we are nowhere near something like that

543

00:19:40,870 --> 00:19:37,840

in the uk that would fall flat on its

544

00:19:43,350 --> 00:19:40,880

face because there's no appetite for

545

00:19:45,190 --> 00:19:43,360

that conversation we need a catalyst to

546

00:19:47,110 --> 00:19:45,200

happen here for the mainstream the

547

00:19:49,830 --> 00:19:47,120

general public for for journalists to

548

00:19:51,270 --> 00:19:49,840

pick it up um as part of uap media that

549

00:19:53,430 --> 00:19:51,280

the guys there adam goldstack graham

550

00:19:55,350 --> 00:19:53,440

rendell dave partridge vinnie adams dan

551
00:19:57,110 --> 00:19:55,360
and then myself you know we're trying to

552
00:19:59,190 --> 00:19:57,120
engage with other figures we're talking

553
00:20:01,190 --> 00:19:59,200
to journalists here in the uk trying to

554
00:20:03,270 --> 00:20:01,200
get them to write serious articles about

555
00:20:04,789 --> 00:20:03,280
it and trying to get some proper quotes

556
00:20:07,029 --> 00:20:04,799
in there trying to get them to stop

557
00:20:09,430 --> 00:20:07,039
using some of the more

558
00:20:12,070 --> 00:20:09,440
out their names they go to in the uk

559
00:20:13,510 --> 00:20:12,080
describing people as alien hunters i've

560
00:20:15,350 --> 00:20:13,520
made a point and i've said this to the

561
00:20:17,270 --> 00:20:15,360
group that i don't want to refer to as

562
00:20:19,510 --> 00:20:17,280
alien hunters or anything like that in

563
00:20:21,350 --> 00:20:19,520

any articles it really really annoys me

564

00:20:23,510 --> 00:20:21,360

so again it's just trying to change

565

00:20:25,270 --> 00:20:23,520

little little bits and pieces at a time

566

00:20:27,430 --> 00:20:25,280

um but it's a bit of a slog but it's

567

00:20:28,789 --> 00:20:27,440

been great to see recently some people

568

00:20:30,470 --> 00:20:28,799

online sharing that they're still

569

00:20:32,390 --> 00:20:30,480

writing um

570

00:20:34,710 --> 00:20:32,400

to their local politicians right to

571

00:20:36,710 --> 00:20:34,720

their nps and it's probably better in

572

00:20:38,950 --> 00:20:36,720

the uk and has more of an impact that

573

00:20:41,110 --> 00:20:38,960

they're writing rather than emailing or

574

00:20:42,630 --> 00:20:41,120

or telephoning does the extra expense

575

00:20:44,470 --> 00:20:42,640

that comes with buying an envelope and a

576

00:20:46,789 --> 00:20:44,480

stamp and everything but if they go to

577

00:20:48,710 --> 00:20:46,799

uap media dot uk there's templates and

578

00:20:50,390 --> 00:20:48,720

stuff online there which they can follow

579

00:20:52,230 --> 00:20:50,400

just to try and get a little bit of

580

00:20:55,110 --> 00:20:52,240

momentum going but we're always behind

581

00:20:57,590 --> 00:20:55,120

the us but i think the more this

582

00:20:59,669 --> 00:20:57,600

carries on that wave of momentum that's

583

00:21:01,830 --> 00:20:59,679

happening right now that the harder it's

584

00:21:03,669 --> 00:21:01,840

going to be for it to be avoided and

585

00:21:04,549 --> 00:21:03,679

neglected as a conversation here in the

586

00:21:05,669 --> 00:21:04,559

uk

587

00:21:07,029 --> 00:21:05,679

yeah 100

588

00:21:08,870 --> 00:21:07,039

the

589

00:21:10,630 --> 00:21:08,880

i don't think i'm spoiling it i'll just

590

00:21:11,990 --> 00:21:10,640

say one thing from the the interview

591

00:21:14,710 --> 00:21:12,000

with john

592

00:21:16,630 --> 00:21:14,720

uh it surprised me to hear that the us

593

00:21:19,350 --> 00:21:16,640

has an agreement with the uk that they

594

00:21:20,789 --> 00:21:19,360

do not take satellite images of the uk

595

00:21:22,470 --> 00:21:20,799

because they don't take satellite images

596

00:21:24,070 --> 00:21:22,480

of their allies whether that's one of

597

00:21:26,310 --> 00:21:24,080

those things that they do on the on the

598

00:21:28,230 --> 00:21:26,320

sneaky um i don't know but i thought

599

00:21:31,430 --> 00:21:28,240

that was interesting because

600

00:21:32,950 --> 00:21:31,440

it means that you know the uk has pushed

601
00:21:36,549 --> 00:21:32,960
recently to have its own kind of

602
00:21:38,230 --> 00:21:36,559
satellites up there um and it hasn't

603
00:21:41,830 --> 00:21:38,240
gone especially well

604
00:21:44,149 --> 00:21:41,840
so i'd wonder what success rate we'd

605
00:21:46,630 --> 00:21:44,159
have again any kind of imagery of uap

606
00:21:49,350 --> 00:21:46,640
through satellite imagery um i imagine

607
00:21:52,149 --> 00:21:49,360
the us's capabilities it's hip-hop and

608
00:21:54,549 --> 00:21:52,159
probably you know in one of those 2015

609
00:21:57,430 --> 00:21:54,559
encounters within seconds they probably

610
00:21:59,190 --> 00:21:57,440
had you know satellites overhead i i do

611
00:22:01,669 --> 00:21:59,200
not believe for a second that just

612
00:22:03,830 --> 00:22:01,679
because the us has said they would not

613
00:22:05,909 --> 00:22:03,840

uh use their satellites to image the

614

00:22:07,750 --> 00:22:05,919

image process on the uk or take pictures

615

00:22:09,590 --> 00:22:07,760

of course they do they all do it to each

616

00:22:11,669 --> 00:22:09,600

other as well am i right in saying that

617

00:22:14,230 --> 00:22:11,679

they they weren't necessarily meant to

618

00:22:16,630 --> 00:22:14,240

have a new clean material near reynolds

619

00:22:18,549 --> 00:22:16,640

from our app rentals from two

620

00:22:20,630 --> 00:22:18,559

yeah we know all this kind of stuff goes

621

00:22:23,029 --> 00:22:20,640

on as well don't we it's um but it's

622

00:22:24,950 --> 00:22:23,039

looking positive i think the with the

623

00:22:27,110 --> 00:22:24,960

senate dan things have been adjourned

624

00:22:28,470 --> 00:22:27,120

until what tuesday i think i read was

625

00:22:30,310 --> 00:22:28,480

the last time

626

00:22:32,149 --> 00:22:30,320

yeah and when they come back like i say

627

00:22:33,669 --> 00:22:32,159

they'll be discussed in the ndaa so you

628

00:22:35,750 --> 00:22:33,679

can tune in and watch that if you want

629

00:22:37,830 --> 00:22:35,760

to the uap issue might come up if it

630

00:22:40,950 --> 00:22:37,840

does that will be an absolute historic

631

00:22:42,710 --> 00:22:40,960

first but like i said and like you said

632

00:22:45,029 --> 00:22:42,720

it'll be better if it kind of just goes

633

00:22:46,390 --> 00:22:45,039

through um because then that just means

634

00:22:48,470 --> 00:22:46,400

that everyone's in agreement about what

635

00:22:50,390 --> 00:22:48,480

needs to be done which is which is great

636

00:22:52,310 --> 00:22:50,400

um i'd recommend everyone go read it

637

00:22:53,669 --> 00:22:52,320

it's not that long language wise like

638

00:22:54,470 --> 00:22:53,679

two way full

639

00:22:56,630 --> 00:22:54,480

um

640

00:22:58,549 --> 00:22:56,640

but the main thing of today's one is

641

00:22:59,990 --> 00:22:58,559

that they changed the name of the office

642

00:23:02,789 --> 00:23:00,000

so it's no longer

643

00:23:05,029 --> 00:23:02,799

the anomaly surveillance and resolution

644

00:23:08,789 --> 00:23:05,039

office it's now the anomaly surveillance

645

00:23:11,110 --> 00:23:08,799

tracking and resolution office um which

646

00:23:13,270 --> 00:23:11,120

gives it the acronym astro which i

647

00:23:15,190 --> 00:23:13,280

thought was very fitting

648

00:23:17,190 --> 00:23:15,200

which sounds better than azero because

649

00:23:19,190 --> 00:23:17,200

if i say that really quickly that can

650

00:23:22,549 --> 00:23:19,200

sound like a british slang

651
00:23:24,070 --> 00:23:22,559
offensive word so yeah as well um yeah

652
00:23:26,149 --> 00:23:24,080
yeah yeah

653
00:23:27,350 --> 00:23:26,159
so yeah that's that's looking good and

654
00:23:29,669 --> 00:23:27,360
we'll keep people up to date with that

655
00:23:31,430 --> 00:23:29,679
one as well uh thanks for the breakdown

656
00:23:33,029 --> 00:23:31,440
on that one dan hi to everyone else

657
00:23:36,149 --> 00:23:33,039
who's joined in in the chat seen alison

658
00:23:37,830 --> 00:23:36,159
come in um american road warrior hi uh

659
00:23:39,510 --> 00:23:37,840

for that i will be announcing all the

662
00:23:44,710 --> 00:23:43,360
the interviews upcoming soon i've

663
00:23:47,269 --> 00:23:44,720

actually not said yet but we've got

664

00:23:49,029 --> 00:23:47,279

michael mataloni from ucr who's going to

665

00:23:51,430 --> 00:23:49,039

be coming on the podcast as well pretty

666

00:23:53,909 --> 00:23:51,440

soon um who else have i booked in i've

667

00:23:55,750 --> 00:23:53,919

got oh let me tell you let me tell you

668

00:23:56,950 --> 00:23:55,760

here i i don't know what i'm allowed to

669

00:23:59,029 --> 00:23:56,960

say so

670

00:24:00,470 --> 00:23:59,039

i just i don't even think dad knows them

671

00:24:03,029 --> 00:24:00,480

all yet either

672

00:24:05,350 --> 00:24:03,039

we have uh michael mataloni is coming up

673

00:24:07,029 --> 00:24:05,360

really soon red panda koala

674

00:24:08,950 --> 00:24:07,039

i've got mary rodwell coming on to

675

00:24:10,789 --> 00:24:08,960

discuss the multi-dimensionals uh

676

00:24:13,430 --> 00:24:10,799

documentary that's coming out frank

677

00:24:15,990 --> 00:24:13,440

melbourne uh and dr michael masters all

678

00:24:17,669 --> 00:24:16,000

coming up in the next month or so and

679

00:24:19,830 --> 00:24:17,679

then one or two more to round off the

680

00:24:22,310 --> 00:24:19,840

year as well so it's busy and we're

681

00:24:24,630 --> 00:24:22,320

being kept going but it's it's getting

682

00:24:26,549 --> 00:24:24,640

there we're uh we're constantly

683

00:24:28,310 --> 00:24:26,559

interviewing everything else as well so

684

00:24:30,549 --> 00:24:28,320

um thanks justin for for putting the

685

00:24:32,630 --> 00:24:30,559

channel up there too listen we had an

686

00:24:34,070 --> 00:24:32,640

update from gary verhees i recommend

687

00:24:35,669 --> 00:24:34,080

when we're talking about uh subbing to

688

00:24:37,669 --> 00:24:35,679

people's youtube channels we are really

689

00:24:40,230 --> 00:24:37,679

grateful for everyone who does two hours

690

00:24:42,950 --> 00:24:40,240

at that ufo podcast you've got uh

691

00:24:44,230 --> 00:24:42,960

unidentified celebrity review you've got

692

00:24:46,390 --> 00:24:44,240

project unity and there's all these

693

00:24:48,390 --> 00:24:46,400

channels producing content one of the

694

00:24:50,310 --> 00:24:48,400

organizations who is out there doing

695

00:24:51,590 --> 00:24:50,320

work as well that has been a bit quiet

696

00:24:54,070 --> 00:24:51,600

but they are working away in the

697

00:24:56,630 --> 00:24:54,080

background is uapx

698

00:24:58,390 --> 00:24:56,640

that is headed up by gary verges and and

699

00:25:00,470 --> 00:24:58,400

his colleagues over there there's a lot

700

00:25:02,549 --> 00:25:00,480

of people involved and i asked gary to

701
00:25:04,470 --> 00:25:02,559
give us a quick update um he is looking

702
00:25:05,990 --> 00:25:04,480
to do more lives and more updates as

703
00:25:07,990 --> 00:25:06,000
well but they need more youtube

704
00:25:10,149 --> 00:25:08,000
followers on his private channel so if

705
00:25:11,909 --> 00:25:10,159
you check out gary voorhees uh we'll get

706
00:25:13,990 --> 00:25:11,919
the link for that as well if dan could

707
00:25:16,390 --> 00:25:14,000
you find that for us and we'll get gary

708
00:25:18,230 --> 00:25:16,400
verhi's youtube channel but i asked gary

709
00:25:19,669 --> 00:25:18,240
what was happening with uapx because

710
00:25:21,909 --> 00:25:19,679
that's one of these independent

711
00:25:23,830 --> 00:25:21,919
organizations that wants to study this

712
00:25:25,590 --> 00:25:23,840
scientifically and really interesting a

713
00:25:28,870 --> 00:25:25,600

lot of these gents have that military

714

00:25:30,950 --> 00:25:28,880

background as well um so gary said that

715

00:25:32,950 --> 00:25:30,960

they are working hard in post-production

716

00:25:35,990 --> 00:25:32,960

on their documentary and they are

717

00:25:38,149 --> 00:25:36,000

knee-deep in four plus terabytes of data

718

00:25:39,750 --> 00:25:38,159

from their first expedition so there'll

719

00:25:41,430 --> 00:25:39,760

be some interesting things hopefully to

720

00:25:42,950 --> 00:25:41,440

come from that

721

00:25:45,110 --> 00:25:42,960

i was going to say unpopular but

722

00:25:47,350 --> 00:25:45,120

divisive character stephen greenstreet i

723

00:25:49,430 --> 00:25:47,360

interviewed stephen and steven's a good

724

00:25:51,269 --> 00:25:49,440

guy he's just been enjoying winding

725

00:25:52,710 --> 00:25:51,279

people up too much i think and it's

726

00:25:54,630 --> 00:25:52,720

taking a bit of a break it seems i don't

727

00:25:56,390 --> 00:25:54,640

know what happened there but i i don't

728

00:25:57,750 --> 00:25:56,400

start fights with people online but i

729

00:25:59,350 --> 00:25:57,760

know a lot of people were unhappy with

730

00:26:01,669 --> 00:25:59,360

steven's attitude and the way he was

731

00:26:03,909 --> 00:26:01,679

talking about things but i interviewed

732

00:26:05,909 --> 00:26:03,919

stephen about two months ago and at the

733

00:26:09,590 --> 00:26:05,919

time he said he had spent a day with

734

00:26:10,390 --> 00:26:09,600

uapx and saw something from them that

735

00:26:11,990 --> 00:26:10,400

really

736

00:26:13,909 --> 00:26:12,000

uh

737

00:26:16,549 --> 00:26:13,919

renewed his interest and sparked his

738

00:26:18,549 --> 00:26:16,559

interest again in the ufo subject and i

739

00:26:20,630 --> 00:26:18,559

asked him what was it and eventually he

740

00:26:21,990 --> 00:26:20,640

said he saw something that wasn't

741

00:26:24,549 --> 00:26:22,000

pixelated

742

00:26:26,549 --> 00:26:24,559

so it sounds like uapx with their

743

00:26:28,870 --> 00:26:26,559

expedition with their equipment is

744

00:26:31,669 --> 00:26:28,880

hopefully managing to get some images

745

00:26:33,269 --> 00:26:31,679

some clear images of some ufos which

746

00:26:35,029 --> 00:26:33,279

would be fantastic

747

00:26:37,590 --> 00:26:35,039

again i think that's always going to be

748

00:26:39,909 --> 00:26:37,600

debatable as to what is a good or clear

749

00:26:41,510 --> 00:26:39,919

image um and again you could also get

750

00:26:43,590 --> 00:26:41,520

the well why don't they just release it

751
00:26:44,950 --> 00:26:43,600
just now let's wait and see what comes

752
00:26:47,430 --> 00:26:44,960
out and especially if they're going to

753
00:26:49,190 --> 00:26:47,440
put it in into a documentary it would be

754
00:26:51,029 --> 00:26:49,200
interesting to see what comes of that as

755
00:26:52,470 --> 00:26:51,039
well um

756
00:26:54,070 --> 00:26:52,480
something that gets labeled a lot of

757
00:26:56,549 --> 00:26:54,080
documentaries that come out as there's a

758
00:26:57,990 --> 00:26:56,559
lack of new evidence or no footage well

759
00:26:59,909 --> 00:26:58,000
if it was really that good it would

760
00:27:01,590 --> 00:26:59,919
probably get released but let's wait and

761
00:27:03,909 --> 00:27:01,600
see what you apx do what are your

762
00:27:05,269 --> 00:27:03,919
thoughts on organizations like you apx

763
00:27:07,269 --> 00:27:05,279

then

764

00:27:09,350 --> 00:27:07,279

i mean they're

765

00:27:11,510 --> 00:27:09,360

they're on the frontier right now right

766

00:27:13,110 --> 00:27:11,520

like in terms of you asked earlier you

767

00:27:14,950 --> 00:27:13,120

know are we gonna find something out

768

00:27:16,789 --> 00:27:14,960

there or here

769

00:27:18,789 --> 00:27:16,799

out there that's the james webb

770

00:27:21,750 --> 00:27:18,799

telescope that's lisa that's the you

771

00:27:24,789 --> 00:27:21,760

know the the vera ruben observatory

772

00:27:27,590 --> 00:27:24,799

here we've got project galileo we've got

773

00:27:29,269 --> 00:27:27,600

uapx we've got uap data

774

00:27:31,190 --> 00:27:29,279

they're i i'm not even off one hand

775

00:27:33,510 --> 00:27:31,200

they're counting them you know we we

776

00:27:35,750 --> 00:27:33,520

need we need more organizations like

777

00:27:37,669 --> 00:27:35,760

this we need to support the ones we have

778

00:27:39,510 --> 00:27:37,679

um you know they might not be perfect

779

00:27:41,830 --> 00:27:39,520

but like i said earlier we need to

780

00:27:43,269 --> 00:27:41,840

figure out what tools we need to build

781

00:27:45,190 --> 00:27:43,279

to correct this case because we

782

00:27:46,549 --> 00:27:45,200

currently don't have them

783

00:27:48,310 --> 00:27:46,559

let me ask you on that so you've just

784

00:27:49,510 --> 00:27:48,320

said there you're counting on one hand

785

00:27:52,310 --> 00:27:49,520

we need more

786

00:27:54,710 --> 00:27:52,320

right now though does that spread the

787

00:27:57,669 --> 00:27:54,720

the money and the funding too thin that

788

00:27:59,029 --> 00:27:57,679

if we have 10 organizations all

789

00:28:01,750 --> 00:27:59,039

trying to get

790

00:28:03,430 --> 00:28:01,760

ufo images or scientific data or

791

00:28:05,350 --> 00:28:03,440

whatever it may be

792

00:28:06,149 --> 00:28:05,360

do investors have too much to choose

793

00:28:08,310 --> 00:28:06,159

from

794

00:28:10,070 --> 00:28:08,320

and it's or are we better having just a

795

00:28:11,269 --> 00:28:10,080

couple of organizations that all work

796

00:28:13,510 --> 00:28:11,279

together

797

00:28:16,230 --> 00:28:13,520

i i think this is why you're seeing that

798

00:28:17,510 --> 00:28:16,240

um project galileo's research affiliates

799

00:28:19,190 --> 00:28:17,520

list grow

800

00:28:21,909 --> 00:28:19,200

because all of these groups have

801
00:28:23,990 --> 00:28:21,919
knowledge that each other needs

802
00:28:26,310 --> 00:28:24,000
and we're not going to do like the

803
00:28:28,630 --> 00:28:26,320
government didn't stove pipe everything

804
00:28:30,230 --> 00:28:28,640
we're going to you know kind of

805
00:28:32,549 --> 00:28:30,240
science is about having access to the

806
00:28:33,990 --> 00:28:32,559
data and it seems like

807
00:28:38,070 --> 00:28:34,000
they they're kind of setting off on the

808
00:28:42,710 --> 00:28:39,990
it's one i keep an eye on and gary is a

809
00:28:44,710 --> 00:28:42,720
great guy he he has um i had one of his

810
00:28:46,149 --> 00:28:44,720
early interviews when i had my first

811
00:28:48,549 --> 00:28:46,159
interview on the podcast was gary

812
00:28:49,990 --> 00:28:48,559
voorhees um and i really think he's his

813
00:28:53,110 --> 00:28:50,000

heart's on the right place with us as

814

00:28:55,029 --> 00:28:53,120

well i do wish them all the very best so

815

00:28:56,549 --> 00:28:55,039

so best of luck with you apx thank you

816

00:28:58,630 --> 00:28:56,559

to gary make sure people you've checked

817

00:29:01,110 --> 00:28:58,640

out gary verhees's youtube channel make

818

00:29:02,870 --> 00:29:01,120

sure you follow upx on twitter as well

819

00:29:05,269 --> 00:29:02,880

or your social media platforms just to

820

00:29:07,029 --> 00:29:05,279

keep up to date with them too uh listen

821

00:29:09,830 --> 00:29:07,039

we're going to get up there i didn't

822

00:29:12,310 --> 00:29:09,840

mention the sky 360 as well they that

823

00:29:14,630 --> 00:29:12,320

that's the new name for the skyhub

824

00:29:15,990 --> 00:29:14,640

basically

825

00:29:17,909 --> 00:29:16,000

yeah i was actually being asked about

826

00:29:21,029 --> 00:29:17,919

skyhub by a listener the other day and

827

00:29:22,470 --> 00:29:21,039

had it gone away and no skyhub didn't go

828

00:29:25,110 --> 00:29:22,480

away the

829

00:29:27,269 --> 00:29:25,120

the the members of skyhub basically had

830

00:29:28,710 --> 00:29:27,279

a lot of time like many folks did during

831

00:29:30,630 --> 00:29:28,720

cove that's when

832

00:29:32,789 --> 00:29:30,640

everyone was stuck at home and people

833

00:29:34,710 --> 00:29:32,799

weren't working and um

834

00:29:35,990 --> 00:29:34,720

as covid oh god

835

00:29:37,990 --> 00:29:36,000

let's not get into that conversation

836

00:29:40,789 --> 00:29:38,000

about covert as going away because it's

837

00:29:42,630 --> 00:29:40,799

not but as as people have gone back to

838

00:29:44,870 --> 00:29:42,640

work and the normalities coming back

839

00:29:46,870 --> 00:29:44,880

into people's lives all the guys at sky

840

00:29:49,590 --> 00:29:46,880

hub found they had less time to invest

841

00:29:51,669 --> 00:29:49,600

in in sky hub so very mutually it went

842

00:29:53,190 --> 00:29:51,679

their separate ways um but uh steve

843

00:29:55,029 --> 00:29:53,200

mcdaniel and some others are working on

844

00:29:56,470 --> 00:29:55,039

various different projects

845

00:30:00,070 --> 00:29:56,480

and you've mentioned there dan do you

846

00:30:01,830 --> 00:30:00,080

know much more about um sky 360 well you

847

00:30:04,549 --> 00:30:01,840

can go to the website um i'm pretty sure

848

00:30:07,430 --> 00:30:04,559

it's just guy360.com um it's all there

849

00:30:09,830 --> 00:30:07,440

uh you can see that they

850

00:30:11,190 --> 00:30:09,840

actually the best thing to do is

851

00:30:12,630 --> 00:30:11,200

i'll have supposed to link on my twitter

852

00:30:14,789 --> 00:30:12,640

later because i'm not yeah yeah we'll do

853

00:30:16,710 --> 00:30:14,799

that they have a youtube channel and

854

00:30:17,909 --> 00:30:16,720

they did actually do a launch kind of

855

00:30:20,830 --> 00:30:17,919

conversation where they spoke about

856

00:30:23,909 --> 00:30:20,840

early goals and things like that um

857

00:30:25,029 --> 00:30:23,919

so like i say it's pretty much sky hub

858

00:30:27,269 --> 00:30:25,039

they're hitting the ground running

859

00:30:29,350 --> 00:30:27,279

they're a great bunch of guys um i can't

860

00:30:31,990 --> 00:30:29,360

share too much just because i speak to

861

00:30:34,830 --> 00:30:32,000

rich who who kind of you know seem seems

862

00:30:36,389 --> 00:30:34,840

to do a lot of the date today

863

00:30:37,750 --> 00:30:36,399

um

864

00:30:40,310 --> 00:30:37,760

they might be i'm doing some graphics

865

00:30:41,190 --> 00:30:40,320

work for them um so i just don't want to

866

00:30:43,110 --> 00:30:41,200

you know

867

00:30:44,870 --> 00:30:43,120

spill too much but they they're alive

868

00:30:47,110 --> 00:30:44,880

they're kicking they're

869

00:30:49,510 --> 00:30:47,120

coming back stronger than ever um and

870

00:30:51,269 --> 00:30:49,520

i'm excited to see what they do

871

00:30:52,870 --> 00:30:51,279

hi to kim who's just joined in kim is

872

00:30:55,350 --> 00:30:52,880

one of the original patrons of the

873

00:30:56,710 --> 00:30:55,360

podcast way back at the start kim is one

874

00:30:58,549 --> 00:30:56,720

of the originals i think when i was

875

00:31:00,630 --> 00:30:58,559

looking and going wow five people listen

876

00:31:02,789 --> 00:31:00,640

today i think kim was one of those so

877

00:31:05,190 --> 00:31:02,799

thanks to kim for for sticking with us

878

00:31:07,110 --> 00:31:05,200

this whole time um just in the middle of

879

00:31:08,870 --> 00:31:07,120

things before we move on to questions

880

00:31:11,190 --> 00:31:08,880

just as an update you can sign up to

881

00:31:13,669 --> 00:31:11,200

patreon.com forward slash that ufo

882

00:31:16,389 --> 00:31:13,679

podcast and we're also now available on

883

00:31:18,230 --> 00:31:16,399

spotify it's like 199 or two dollars

884

00:31:20,470 --> 00:31:18,240

three dollars and you get access to the

885

00:31:22,149 --> 00:31:20,480

bonus content the premium content and

886

00:31:23,990 --> 00:31:22,159

the early access as well you don't have

887

00:31:26,149 --> 00:31:24,000

to listen to me talk about advertisers

888

00:31:29,029 --> 00:31:26,159

or sponsors you just have to search that

889

00:31:31,350 --> 00:31:29,039

ufo podcast premium and it's on apple 2

890

00:31:33,909 --> 00:31:31,360

with a two week free trial so um yeah

891

00:31:35,190 --> 00:31:33,919

any support is absolutely welcomed and

892

00:31:38,070 --> 00:31:35,200

do you know what i'll just mention this

893

00:31:41,029 --> 00:31:38,080

quickly like again i saw i saw louis lou

894

00:31:42,870 --> 00:31:41,039

on ucr had had to mention and and i felt

895

00:31:44,950 --> 00:31:42,880

that he didn't have to do it and justify

896

00:31:46,710 --> 00:31:44,960

why people were supporting him and why

897

00:31:49,350 --> 00:31:46,720

people choose to support any content

898

00:31:50,950 --> 00:31:49,360

creator it's people do this and it we

899

00:31:53,590 --> 00:31:50,960

give up a lot of our time to do it and

900

00:31:56,230 --> 00:31:53,600

all that kind of stuff so if you can

901
00:31:58,149 --> 00:31:56,240
that's why people like luis and us have

902
00:31:59,830 --> 00:31:58,159
patreon and all those kind of services

903
00:32:02,070 --> 00:31:59,840
then do it but it's difficult times for

904
00:32:03,669 --> 00:32:02,080
people and if you can't like like lewis

905
00:32:05,990 --> 00:32:03,679
said on his show as well we're not going

906
00:32:07,350 --> 00:32:06,000
anywhere this is still here free it's

907
00:32:09,509 --> 00:32:07,360
just there's various different ways to

908
00:32:11,990 --> 00:32:09,519
support but it's always appreciated when

909
00:32:14,630 --> 00:32:12,000
people can support any content creators

910
00:32:16,710 --> 00:32:14,640
however they can because we've got jobs

911
00:32:18,230 --> 00:32:16,720
and families and everything else that

912
00:32:19,830 --> 00:32:18,240
goes along with it so thank you for

913
00:32:22,310 --> 00:32:19,840

sticking around and just even being here

914

00:32:24,230 --> 00:32:22,320

to watch this is massively massively

915

00:32:26,230 --> 00:32:24,240

appreciated so make sure you like

916

00:32:28,230 --> 00:32:26,240

subscribe share leave reviews for your

917

00:32:30,789 --> 00:32:28,240

favorite podcast favorite creators and

918

00:32:32,230 --> 00:32:30,799

just interact because uh the

919

00:32:34,870 --> 00:32:32,240

my favorite thing with having this

920

00:32:37,669 --> 00:32:34,880

showdown is when people email which is

921

00:32:39,830 --> 00:32:37,679

always amazing for me or or dm me to say

922

00:32:41,350 --> 00:32:39,840

hi thanks love the show and and tell us

923

00:32:43,990 --> 00:32:41,360

a little bit about themselves so that's

924

00:32:46,789 --> 00:32:44,000

always very much appreciated and awesome

925

00:32:48,549 --> 00:32:46,799

um so but listen we are going to go on

926
00:32:51,350 --> 00:32:48,559
to some questions if anyone has some

927
00:32:53,909 --> 00:32:51,360
questions in the chat then please put

928
00:32:55,750 --> 00:32:53,919
them in for us we will answer them

929
00:32:58,310 --> 00:32:55,760
we have some leftover questions that

930
00:33:00,549 --> 00:32:58,320
were sent over for our luis elizondo

931
00:33:03,269 --> 00:33:00,559
listener question show luis is

932
00:33:05,909 --> 00:33:03,279
definitely coming back onto the show um

933
00:33:07,110 --> 00:33:05,919
to do his part two follow-up but for now

934
00:33:09,269 --> 00:33:07,120
we're going to go through some of the

935
00:33:10,870 --> 00:33:09,279
questions that

936
00:33:13,509 --> 00:33:10,880
being blunt we didn't think there was

937
00:33:15,029 --> 00:33:13,519
any point of asking lou because he won't

938
00:33:17,509 --> 00:33:15,039

answer them and we all know we're sick

939

00:33:20,389 --> 00:33:17,519

of the nda stuff and you know a vague

940

00:33:21,909 --> 00:33:20,399

answer so let's speculate okay so the

941

00:33:24,310 --> 00:33:21,919

first one i'll give a shout out to

942

00:33:26,070 --> 00:33:24,320

nathan from calling all beings who is

943

00:33:27,590 --> 00:33:26,080

one of my favorite listeners um he is

944

00:33:31,590 --> 00:33:27,600

going into play stan one day i've always

945

00:33:35,669 --> 00:33:33,590

nathan's that he's cheaper he's the

946

00:33:37,509 --> 00:33:35,679

co-host over on calling all beings who

947

00:33:39,590 --> 00:33:37,519

right now are interviewing michael

948

00:33:41,669 --> 00:33:39,600

mataloni so don't change that channel go

949

00:33:45,110 --> 00:33:41,679

and watch that after this um but that's

950

00:33:46,789 --> 00:33:45,120

with a dj san marco as well uh nathan is

951
00:33:48,630 --> 00:33:46,799
a great great guy and has some

952
00:33:51,110 --> 00:33:48,640
phenomenal questions the ways of wanting

953
00:33:53,110 --> 00:33:51,120
and phrasing and everything as well um

954
00:33:55,590 --> 00:33:53,120
he had asked if he could ask lou a

955
00:33:56,950 --> 00:33:55,600
question he would want to know and then

956
00:33:59,430 --> 00:33:56,960
have a listen because i want your answer

957
00:34:01,190 --> 00:33:59,440
on this what you think in lew's opinion

958
00:34:03,190 --> 00:34:01,200
if we are dealing with an intelligence

959
00:34:05,509 --> 00:34:03,200
which we know or suspect has

960
00:34:08,069 --> 00:34:05,519
capabilities we do not possess

961
00:34:09,909 --> 00:34:08,079
see slide 9 what are some of the signs

962
00:34:11,750 --> 00:34:09,919
or behaviors we would be looking for

963
00:34:13,909 --> 00:34:11,760

from it which would increase or

964

00:34:17,190 --> 00:34:13,919

establish trust that whatever it

965

00:34:19,190 --> 00:34:17,200

presents to us as fact as indeed fact

966

00:34:21,750 --> 00:34:19,200

just that and not some sort of

967

00:34:24,230 --> 00:34:21,760

misdirection or falsehood in short how

968

00:34:26,149 --> 00:34:24,240

do we trust the phenomenon

969

00:34:27,750 --> 00:34:26,159

it's a really good question

970

00:34:30,710 --> 00:34:27,760

a really good question

971

00:34:33,109 --> 00:34:30,720

um i i was listening to

972

00:34:35,909 --> 00:34:33,119

bledsoe said so uh the other day it was

973

00:34:37,750 --> 00:34:35,919

ryan bledsoe's podcast um and the guys

974

00:34:39,909 --> 00:34:37,760

were talking through chris bledsoe's

975

00:34:41,990 --> 00:34:39,919

regression it was super interesting uh

976
00:34:43,990 --> 00:34:42,000
we've heard chunks of it before uh we we

977
00:34:47,750 --> 00:34:44,000
know chris's story uh richard dolan has

978
00:34:49,430 --> 00:34:47,760
a great series of interviews with chris

979
00:34:51,349 --> 00:34:49,440
and

980
00:34:53,909 --> 00:34:51,359
there was a lot of it where you know he

981
00:34:56,550 --> 00:34:53,919
he met figures that were very what

982
00:34:58,870 --> 00:34:56,560
people would call lemon light i guess

983
00:34:58,870 --> 00:34:58,880
um

984
00:35:01,270 --> 00:34:59,750
and

985
00:35:03,510 --> 00:35:01,280
i i kind of had that thought then i

986
00:35:05,829 --> 00:35:03,520
thought you know what what if

987
00:35:07,670 --> 00:35:05,839
the loving light is just

988
00:35:09,190 --> 00:35:07,680

and we discussed it maybe last week

989

00:35:10,790 --> 00:35:09,200

where we were talking about insects that

990

00:35:12,710 --> 00:35:10,800

kind of disarmed through frequency of

991

00:35:13,910 --> 00:35:12,720

their beaten wings uh they confused

992

00:35:15,510 --> 00:35:13,920

their prey

993

00:35:18,150 --> 00:35:15,520

what if it's something like that what

994

00:35:19,109 --> 00:35:18,160

what what if it is just a

995

00:35:21,030 --> 00:35:19,119

you know

996

00:35:22,710 --> 00:35:21,040

a lie but not necessarily a lie what

997

00:35:25,190 --> 00:35:22,720

just a natural ability that kind of

998

00:35:27,510 --> 00:35:25,200

makes that happen you know um

999

00:35:29,430 --> 00:35:27,520

i like that i don't know

1000

00:35:31,829 --> 00:35:29,440

you mentioned the fish that has the

1001
00:35:34,150 --> 00:35:31,839
light on the end of its head yes um

1002
00:35:35,990 --> 00:35:34,160
most famously from finding nemo yeah

1003
00:35:37,349 --> 00:35:36,000
where the you see the little shiny thing

1004
00:35:38,710 --> 00:35:37,359
and you chase about the shiny thing in

1005
00:35:40,950 --> 00:35:38,720
the darkness and look at the light

1006
00:35:43,589 --> 00:35:40,960
that's really cute and it's interesting

1007
00:35:45,109 --> 00:35:43,599
and we we go after it and then on the

1008
00:35:48,069 --> 00:35:45,119
end of the light that you can't see in

1009
00:35:50,069 --> 00:35:48,079
the darkness is this huge scary fish

1010
00:35:52,310 --> 00:35:50,079
this huge scary monster this entity

1011
00:35:54,230 --> 00:35:52,320
behind it that had an ulterior motive

1012
00:35:56,470 --> 00:35:54,240
and showed you the shiny light

1013
00:35:58,230 --> 00:35:56,480

but when you get there did you actually

1014

00:35:59,829 --> 00:35:58,240

want to see what was behind the light

1015

00:36:03,030 --> 00:35:59,839

anglerfish yeah that's the one i was

1016

00:36:04,870 --> 00:36:03,040

going to see anglerfish but yeah

1017

00:36:05,710 --> 00:36:04,880

lanternfish yeah the finding nemo fish

1018

00:36:07,109 --> 00:36:05,720

with a big light

1019

00:36:09,589 --> 00:36:07,119

[Laughter]

1020

00:36:11,750 --> 00:36:09,599

so yeah so that for me is and i think

1021

00:36:14,150 --> 00:36:11,760

you hear things like dark forest theory

1022

00:36:16,390 --> 00:36:14,160

and such as well and you wonder are

1023

00:36:18,790 --> 00:36:16,400

there entities and beings out there that

1024

00:36:21,430 --> 00:36:18,800

are presenting one image

1025

00:36:23,109 --> 00:36:21,440

but on the other side of it and again we

1026
00:36:24,870 --> 00:36:23,119
always have to go back to this but it's

1027
00:36:26,950 --> 00:36:24,880
a little bit of that threat narrative

1028
00:36:29,109 --> 00:36:26,960
because you don't know what's being

1029
00:36:31,190 --> 00:36:29,119
presented in front of you

1030
00:36:32,710 --> 00:36:31,200
you can't guarantee with so little being

1031
00:36:33,510 --> 00:36:32,720
known about the subject

1032
00:36:35,270 --> 00:36:33,520
that

1033
00:36:37,109 --> 00:36:35,280
it's it's true and you know what if he's

1034
00:36:39,349 --> 00:36:37,119
still here

1035
00:36:40,470 --> 00:36:39,359
lou jimenez mentioned the other day in a

1036
00:36:43,270 --> 00:36:40,480
conversation

1037
00:36:44,710 --> 00:36:43,280
and he made the point uh and i i agreed

1038
00:36:47,510 --> 00:36:44,720

and disagreed with different aspects of

1039

00:36:49,910 --> 00:36:47,520

the whole conversation people had about

1040

00:36:52,310 --> 00:36:49,920

the one source of evidence and he talked

1041

00:36:54,630 --> 00:36:52,320

about testimony and testimony isn't

1042

00:36:55,430 --> 00:36:54,640

enough for evidence and it goes back to

1043

00:36:57,430 --> 00:36:55,440

why

1044

00:36:59,829 --> 00:36:57,440

experiencers and we've done the

1045

00:37:01,109 --> 00:36:59,839

experience or shows recently and i've

1046

00:37:02,790 --> 00:37:01,119

just watched a multi-dimensional

1047

00:37:05,030 --> 00:37:02,800

documentary which we'll get to reviewing

1048

00:37:07,270 --> 00:37:05,040

at some point

1049

00:37:08,710 --> 00:37:07,280

it's a fascinating story there's some

1050

00:37:12,630 --> 00:37:08,720

harrowing stories there's some really

1051
00:37:14,870 --> 00:37:12,640
interesting stories there's some amazing

1052
00:37:17,270 --> 00:37:14,880
ideas that come from these but just

1053
00:37:19,190 --> 00:37:17,280
because someone comes out and says

1054
00:37:21,990 --> 00:37:19,200
i've had this experience is not enough

1055
00:37:23,589 --> 00:37:22,000
to take that into into the mainstream or

1056
00:37:26,390 --> 00:37:23,599
as enough to

1057
00:37:28,390 --> 00:37:26,400
run full throttle with that conversation

1058
00:37:30,310 --> 00:37:28,400
you need more than that and again sean

1059
00:37:32,870 --> 00:37:30,320
cahill last year we'd on our um

1060
00:37:35,430 --> 00:37:32,880
christmas show which was the room 101

1061
00:37:37,510 --> 00:37:35,440
special and sean cahill said himself he

1062
00:37:39,589 --> 00:37:37,520
would bin only having one source of

1063
00:37:42,150 --> 00:37:39,599

evidence because you need corroborating

1064

00:37:43,349 --> 00:37:42,160

data whatever that may be i suppose we'd

1065

00:37:45,670 --> 00:37:43,359

be looking at the five or six

1066

00:37:48,150 --> 00:37:45,680

observables now wouldn't we and just

1067

00:37:50,390 --> 00:37:48,160

someone having that story isn't enough

1068

00:37:52,870 --> 00:37:50,400

just someone having that that picture or

1069

00:37:55,270 --> 00:37:52,880

video isn't enough anymore because we're

1070

00:37:57,829 --> 00:37:55,280

getting that and people need more and i

1071

00:37:59,990 --> 00:37:57,839

think that's for me you know part of

1072

00:38:01,510 --> 00:38:00,000

that question from rk 44 there when do

1073

00:38:03,829 --> 00:38:01,520

you think the critical threshold will be

1074

00:38:05,829 --> 00:38:03,839

reached uh when the ufo topic becomes

1075

00:38:07,910 --> 00:38:05,839

mainstream and everyday news

1076

00:38:10,310 --> 00:38:07,920

i think it's going to be when we've got

1077

00:38:12,390 --> 00:38:10,320

more data from different sources like

1078

00:38:14,470 --> 00:38:12,400

the james webb telescope if that can

1079

00:38:16,950 --> 00:38:14,480

spot something in an atmosphere when you

1080

00:38:18,390 --> 00:38:16,960

can go and chase after it you know or if

1081

00:38:19,829 --> 00:38:18,400

we can

1082

00:38:22,069 --> 00:38:19,839

you know we've heard about this this

1083

00:38:25,430 --> 00:38:22,079

device or instrument that can measure

1084

00:38:27,910 --> 00:38:25,440

uap that lou uh elizondo has alluded to

1085

00:38:29,750 --> 00:38:27,920

here in the uh not in the uk on this

1086

00:38:31,030 --> 00:38:29,760

planet that potentially there's a way we

1087

00:38:32,550 --> 00:38:31,040

can detect these

1088

00:38:34,870 --> 00:38:32,560

he's not come out and said exactly what

1089

00:38:36,630 --> 00:38:34,880

that is yet but again if we could find

1090

00:38:37,430 --> 00:38:36,640

that out and we can actually detect

1091

00:38:38,550 --> 00:38:37,440

these

1092

00:38:39,910 --> 00:38:38,560

objects and some of them are going to

1093

00:38:41,910 --> 00:38:39,920

come to us in one of these other

1094

00:38:43,349 --> 00:38:41,920

questions i think that could be really

1095

00:38:45,430 --> 00:38:43,359

interesting and that's when it becomes

1096

00:38:47,589 --> 00:38:45,440

mainstream that we potentially are

1097

00:38:49,430 --> 00:38:47,599

seeing these things regularly and

1098

00:38:50,230 --> 00:38:49,440

something that all mainstream scientists

1099

00:38:53,109 --> 00:38:50,240

want

1100

00:38:55,750 --> 00:38:53,119

is that repeatability and proof ability

1101
00:38:57,829 --> 00:38:55,760
when we can start baiting these objects

1102
00:39:00,150 --> 00:38:57,839
if indeed baiting's the right word

1103
00:39:01,109 --> 00:39:00,160
then again i go back to that angler fish

1104
00:39:02,550 --> 00:39:01,119
analogy

1105
00:39:03,670 --> 00:39:02,560
we're baiting the light and it's all

1106
00:39:05,910 --> 00:39:03,680
yeah look what we've pulled out the

1107
00:39:07,430 --> 00:39:05,920
water yeah but we heard about the tic

1108
00:39:09,270 --> 00:39:07,440
tac but we also heard there was

1109
00:39:11,349 --> 00:39:09,280
something huge underneath the water the

1110
00:39:12,550 --> 00:39:11,359
tic tac was buzzing about are you going

1111
00:39:14,310 --> 00:39:12,560
to start pulling other things out the

1112
00:39:15,670 --> 00:39:14,320
water that we don't necessarily want

1113
00:39:17,589 --> 00:39:15,680

which is a

1114

00:39:19,109 --> 00:39:17,599

a scary thought and it's all goes back

1115

00:39:21,670 --> 00:39:19,119

to threat and and everything else as

1116

00:39:23,270 --> 00:39:21,680

well so so yeah i've ranted on a bit

1117

00:39:25,910 --> 00:39:23,280

there but it's a really interesting and

1118

00:39:27,990 --> 00:39:25,920

ideal subject to be fair i like it and

1119

00:39:29,349 --> 00:39:28,000

and i like the i like the water analogy

1120

00:39:31,670 --> 00:39:29,359

because

1121

00:39:34,150 --> 00:39:31,680

we are about to step foot into this big

1122

00:39:35,109 --> 00:39:34,160

pool you know um

1123

00:39:37,190 --> 00:39:35,119

if

1124

00:39:39,510 --> 00:39:37,200

our scientists are correct and we can

1125

00:39:42,950 --> 00:39:39,520

warp space-time in the ways that we we

1126

00:39:45,349 --> 00:39:42,960

seem to think we can um

1127

00:39:46,390 --> 00:39:45,359

and the math seems to say is possible

1128

00:39:48,550 --> 00:39:46,400

then

1129

00:39:51,910 --> 00:39:48,560

there's going to be suddenly a lot more

1130

00:39:53,190 --> 00:39:51,920

species out there and around us than we

1131

00:39:55,430 --> 00:39:53,200

knew about

1132

00:39:57,109 --> 00:39:55,440

so we really are jumping into the the

1133

00:39:59,670 --> 00:39:57,119

deep end of a pool and we best have our

1134

00:40:02,069 --> 00:39:59,680

wits about us when we do uh better safe

1135

00:40:03,589 --> 00:40:02,079

than sorry i believe it's the saying

1136

00:40:05,349 --> 00:40:03,599

yeah and there's jazz making the point

1137

00:40:07,270 --> 00:40:05,359

even with data how can you interpret the

1138

00:40:09,910 --> 00:40:07,280

intentions and motivations of a totally

1139

00:40:12,390 --> 00:40:09,920

alien intelligence you can't

1140

00:40:15,190 --> 00:40:12,400

again we've seen the the old v tv series

1141

00:40:17,510 --> 00:40:15,200

where you end up living with another

1142

00:40:19,190 --> 00:40:17,520

alien species on this planet and there's

1143

00:40:21,430 --> 00:40:19,200

hybridization but it turns out they had

1144

00:40:23,670 --> 00:40:21,440

ulterior motives and there was something

1145

00:40:25,510 --> 00:40:23,680

you know nefarious behind it you don't

1146

00:40:27,190 --> 00:40:25,520

know it's one of those things i think

1147

00:40:28,710 --> 00:40:27,200

time will tell but

1148

00:40:30,309 --> 00:40:28,720

do they even experience that time the

1149

00:40:32,870 --> 00:40:30,319

same way we do so

1150

00:40:35,910 --> 00:40:32,880

did you ever watch um annihilation it

1151
00:40:36,950 --> 00:40:35,920
was a film with natalie portman um where

1152
00:40:38,550 --> 00:40:36,960
basically

1153
00:40:40,230 --> 00:40:38,560
some kind of alien thing had crashed on

1154
00:40:42,230 --> 00:40:40,240
the planet and there were teams being

1155
00:40:43,670 --> 00:40:42,240
sent in and it was called the shimmer

1156
00:40:46,069 --> 00:40:43,680
and

1157
00:40:47,829 --> 00:40:46,079
the way that we think of aliens in films

1158
00:40:50,710 --> 00:40:47,839
um was that

1159
00:40:52,790 --> 00:40:50,720
annihilation was nothing like that and

1160
00:40:54,870 --> 00:40:52,800
it kind of presented the question of

1161
00:40:57,109 --> 00:40:54,880
what if they came here and

1162
00:40:59,829 --> 00:40:57,119
they were just informed that we truly

1163
00:41:01,349 --> 00:40:59,839

could not get our heads around it was

1164

00:41:03,510 --> 00:41:01,359

just something that we just couldn't

1165

00:41:04,390 --> 00:41:03,520

understand no matter how hard we tried

1166

00:41:07,109 --> 00:41:04,400

ever

1167

00:41:07,910 --> 00:41:07,119

and it just makes you wonder doesn't it

1168

00:41:10,470 --> 00:41:07,920

yeah

1169

00:41:12,550 --> 00:41:10,480

question from silly humans um given what

1170

00:41:15,109 --> 00:41:12,560

you've just said than silly humans

1171

00:41:17,190 --> 00:41:15,119

will the gillibrand's amendment truly

1172

00:41:20,069 --> 00:41:17,200

force the ic or intelligence community

1173

00:41:22,790 --> 00:41:20,079

to fully respond to azeroth or astros

1174

00:41:24,630 --> 00:41:22,800

requests for instance will it compel uh

1175

00:41:27,510 --> 00:41:24,640

special access programs and waived

1176

00:41:29,589 --> 00:41:27,520

programs to comply or still say asro

1177

00:41:31,190 --> 00:41:29,599

doesn't have any to know i would jump

1178

00:41:33,109 --> 00:41:31,200

straight in with this and i know people

1179

00:41:34,950 --> 00:41:33,119

far more qualified than me would be able

1180

00:41:36,470 --> 00:41:34,960

to talk about at length but there's

1181

00:41:38,150 --> 00:41:36,480

still that level of

1182

00:41:40,069 --> 00:41:38,160

just because they have to doesn't mean

1183

00:41:42,230 --> 00:41:40,079

they will

1184

00:41:44,790 --> 00:41:42,240

and that's where i would answer that one

1185

00:41:46,710 --> 00:41:44,800

you're not wrong but we have to get the

1186

00:41:49,190 --> 00:41:46,720

language into the lord that holds them

1187

00:41:50,870 --> 00:41:49,200

to accountability if we can't point at

1188

00:41:53,030 --> 00:41:50,880

something and say look you're breaking

1189

00:41:55,270 --> 00:41:53,040

the law by doing this then we don't have

1190

00:41:56,710 --> 00:41:55,280

a leg to stand on and this is the

1191

00:41:59,109 --> 00:41:56,720

platform we're giving ourselves with

1192

00:42:02,230 --> 00:41:59,119

this you know some people arguing that

1193

00:42:03,349 --> 00:42:02,240

it's not enough and i say it's a damn

1194

00:42:05,349 --> 00:42:03,359

good start

1195

00:42:08,069 --> 00:42:05,359

um yeah you know they they might not

1196

00:42:09,990 --> 00:42:08,079

give it up but if according to the

1197

00:42:12,390 --> 00:42:10,000

letter of u.s law

1198

00:42:14,950 --> 00:42:12,400

they are breaking the law then it

1199

00:42:16,790 --> 00:42:14,960

becomes a very different conversation

1200

00:42:18,790 --> 00:42:16,800

and it's something that you know they

1201
00:42:20,630 --> 00:42:18,800
can they actually have a means to start

1202
00:42:21,750 --> 00:42:20,640
prying open

1203
00:42:24,069 --> 00:42:21,760
yeah

1204
00:42:26,710 --> 00:42:24,079
nigel a question just for fun what if

1205
00:42:28,870 --> 00:42:26,720
this technology is ours but it can't by

1206
00:42:30,870 --> 00:42:28,880
its nature be weaponized and like the

1207
00:42:34,150 --> 00:42:30,880
process of propulsion negates the use of

1208
00:42:38,309 --> 00:42:36,950
what if the technology is ours nigel

1209
00:42:40,710 --> 00:42:38,319
is that right am i reading that wrong

1210
00:42:42,870 --> 00:42:40,720
then it's from what is this that it

1211
00:42:44,870 --> 00:42:42,880
can't buy it's hp weaponized that that's

1212
00:42:46,550 --> 00:42:44,880
interesting i one i mean

1213
00:42:48,630 --> 00:42:46,560

humans are very inventive we we

1214

00:42:50,870 --> 00:42:48,640

recognize almost everything we find you

1215

00:42:52,790 --> 00:42:50,880

know uh

1216

00:42:55,190 --> 00:42:52,800

just watch group of kids in the past you

1217

00:42:56,630 --> 00:42:55,200

know they'll find weapons on the ground

1218

00:42:58,950 --> 00:42:56,640

let me make the point and this is where

1219

00:43:01,670 --> 00:42:58,960

i look at something like the tic tac if

1220

00:43:04,150 --> 00:43:01,680

that was chinese or russian or us

1221

00:43:06,069 --> 00:43:04,160

technology it's it's end game in the

1222

00:43:08,470 --> 00:43:06,079

sense that if you have a tic-tac that

1223

00:43:10,630 --> 00:43:08,480

can fly the speeds it can fly at all you

1224

00:43:12,790 --> 00:43:10,640

would have to do is load it with some

1225

00:43:16,630 --> 00:43:12,800

nuclear warheads and you could literally

1226

00:43:19,270 --> 00:43:16,640

have a tic tac over beijing or over

1227

00:43:20,069 --> 00:43:19,280

moscow or whatever

1228

00:43:21,190 --> 00:43:20,079

yeah

1229

00:43:22,950 --> 00:43:21,200

um

1230

00:43:24,710 --> 00:43:22,960

and then you could weaponize it so yes

1231

00:43:26,710 --> 00:43:24,720

the propulsion but all you would have to

1232

00:43:28,069 --> 00:43:26,720

do is load it with some nuclear material

1233

00:43:29,670 --> 00:43:28,079

and there would that would be a huge

1234

00:43:31,109 --> 00:43:29,680

threat to those other nations and i

1235

00:43:33,109 --> 00:43:31,119

think that's when you talk about the

1236

00:43:35,109 --> 00:43:33,119

race for this technology and that's

1237

00:43:37,190 --> 00:43:35,119

absolutely why china russia the us

1238

00:43:38,470 --> 00:43:37,200

everyone else would want it

1239

00:43:40,790 --> 00:43:38,480

unfortunately

1240

00:43:42,710 --> 00:43:40,800

but that's why i don't think it's it's

1241

00:43:44,870 --> 00:43:42,720

it's us russia or china i don't think

1242

00:43:47,589 --> 00:43:44,880

it's human it's not our technology

1243

00:43:50,069 --> 00:43:47,599

because for me that would be an end game

1244

00:43:52,870 --> 00:43:50,079

because once you've got that it's it's

1245

00:43:54,710 --> 00:43:52,880

you can't fight against that can you

1246

00:43:56,390 --> 00:43:54,720

no and and

1247

00:43:59,030 --> 00:43:56,400

it's kind of sweet that you think it

1248

00:44:00,950 --> 00:43:59,040

needs nukes um

1249

00:44:02,870 --> 00:44:00,960

it could just crash into the ground you

1250

00:44:05,270 --> 00:44:02,880

know a tiny

1251
00:44:07,109 --> 00:44:05,280
meteorite going a certain speed or i

1252
00:44:10,069 --> 00:44:07,119
should say any material going fast

1253
00:44:11,030 --> 00:44:10,079
enough can can leave a hell of a crater

1254
00:44:12,870 --> 00:44:11,040
um

1255
00:44:14,470 --> 00:44:12,880
and the tic-tac would be no exception to

1256
00:44:15,990 --> 00:44:14,480
that and i'm not even getting to what it

1257
00:44:17,990 --> 00:44:16,000
would do with warp in space-time you

1258
00:44:20,630 --> 00:44:18,000
know if there was a way that it controls

1259
00:44:22,950 --> 00:44:20,640
the energy output from how it does that

1260
00:44:25,349 --> 00:44:22,960
and it just kind of dumped that energy

1261
00:44:27,430 --> 00:44:25,359
as a weapon then

1262
00:44:29,349 --> 00:44:27,440
you know you you'd be looking at you

1263
00:44:31,750 --> 00:44:29,359

could probably take out a planet with

1264

00:44:32,870 --> 00:44:31,760

that to be honest uh it would definitely

1265

00:44:33,750 --> 00:44:32,880

disappear

1266

00:44:36,470 --> 00:44:33,760

um

1267

00:44:37,990 --> 00:44:36,480

so yeah there's a whole i mean

1268

00:44:38,710 --> 00:44:38,000

there you go i've just invented a bunch

1269

00:44:41,670 --> 00:44:38,720

of

1270

00:44:43,270 --> 00:44:41,680

weaponized ways to weaponize the tic-tac

1271

00:44:45,510 --> 00:44:43,280

there's another interesting follow-on

1272

00:44:47,510 --> 00:44:45,520

from carl um hi carl again supporter of

1273

00:44:49,670 --> 00:44:47,520

the podcast good to have you um if

1274

00:44:51,670 --> 00:44:49,680

gravity modification technology is

1275

00:44:53,750 --> 00:44:51,680

consequentially associated with time

1276
00:44:55,589 --> 00:44:53,760
modulation i'm really proud of myself i

1277
00:44:57,349 --> 00:44:55,599
know what it means is that a good enough

1278
00:44:59,990 --> 00:44:57,359
reason to suppress the technology in

1279
00:45:01,990 --> 00:45:00,000
physics for me yes we discussed this a

1280
00:45:03,270 --> 00:45:02,000
while ago down i think on one of the

1281
00:45:04,390 --> 00:45:03,280
what what

1282
00:45:07,190 --> 00:45:04,400
episodes

1283
00:45:08,710 --> 00:45:07,200
talking about if we got disclosure today

1284
00:45:10,710 --> 00:45:08,720
everyone assumes that tomorrow we're

1285
00:45:12,630 --> 00:45:10,720
going to have flying cars and we won't

1286
00:45:14,710 --> 00:45:12,640
need aircraft anymore or fossil fuels it

1287
00:45:16,550 --> 00:45:14,720
would take a long time to replicate or

1288
00:45:18,950 --> 00:45:16,560

try and replicate some of these

1289

00:45:21,670 --> 00:45:18,960

technologies yeah but then it's the idea

1290

00:45:24,309 --> 00:45:21,680

of okay we drive about in cars and buses

1291

00:45:25,829 --> 00:45:24,319

and trucks and lorries but

1292

00:45:28,069 --> 00:45:25,839

like carl says

1293

00:45:29,829 --> 00:45:28,079

can we then upgrade those to having

1294

00:45:32,069 --> 00:45:29,839

whatever propulsion systems these may

1295

00:45:34,150 --> 00:45:32,079

have that we are all of a sudden flying

1296

00:45:36,309 --> 00:45:34,160

about in the skies like the jetsons

1297

00:45:39,430 --> 00:45:36,319

because i just don't see us suddenly

1298

00:45:40,950 --> 00:45:39,440

having that leaping technology

1299

00:45:43,430 --> 00:45:40,960

it would be interesting to see what

1300

00:45:45,190 --> 00:45:43,440

people did with it this is kind of why i

1301

00:45:47,430 --> 00:45:45,200

one of the first things i do if i met an

1302

00:45:49,430 --> 00:45:47,440

alien species who had been watching us

1303

00:45:51,190 --> 00:45:49,440

um i'd love to know our true history of

1304

00:45:52,790 --> 00:45:51,200

things because

1305

00:45:54,870 --> 00:45:52,800

the first person to find this kind of

1306

00:45:56,630 --> 00:45:54,880

technology has a choice if you can mess

1307

00:45:58,390 --> 00:45:56,640

with space time you can go back in time

1308

00:46:00,150 --> 00:45:58,400

and if they can go back in time they can

1309

00:46:02,950 --> 00:46:00,160

just loop themselves and make what

1310

00:46:04,630 --> 00:46:02,960

they've made better every single time so

1311

00:46:06,069 --> 00:46:04,640

while you know the rest of us are just

1312

00:46:08,470 --> 00:46:06,079

going about our days this person just

1313

00:46:11,349 --> 00:46:08,480

lives in kind of a technology lab bubble

1314

00:46:12,950 --> 00:46:11,359

so to speak um and you know they

1315

00:46:15,510 --> 00:46:12,960

essentially have infinite time to do

1316

00:46:17,829 --> 00:46:15,520

what they want to do in that case so all

1317

00:46:19,750 --> 00:46:17,839

bets are off really and

1318

00:46:21,750 --> 00:46:19,760

you know i say that's a choice that the

1319

00:46:23,030 --> 00:46:21,760

first person has to make but the second

1320

00:46:24,790 --> 00:46:23,040

person to find it has to make that

1321

00:46:26,630 --> 00:46:24,800

choice as well and i just wonder you

1322

00:46:28,630 --> 00:46:26,640

know all the species that

1323

00:46:29,990 --> 00:46:28,640

come across this technology how do they

1324

00:46:31,510 --> 00:46:30,000

choose to use it

1325

00:46:34,950 --> 00:46:31,520

you know they gonna

1326
00:46:35,829 --> 00:46:34,960
go help save planets or are they gonna

1327
00:46:38,069 --> 00:46:35,839
go

1328
00:46:40,230 --> 00:46:38,079
really smoothly take over planets

1329
00:46:41,270 --> 00:46:40,240
without anybody knowing about it

1330
00:46:43,349 --> 00:46:41,280
you know

1331
00:46:45,430 --> 00:46:43,359
we are into our last 10 minutes and this

1332
00:46:47,430 --> 00:46:45,440
is flown by um

1333
00:46:48,710 --> 00:46:47,440
questions to get through um so let's try

1334
00:46:50,950 --> 00:46:48,720
and get through some of these or as many

1335
00:46:53,349 --> 00:46:50,960
as we can it's sin since one of us it's

1336
00:46:55,670 --> 00:46:53,359
our first live as well we we have a few

1337
00:46:57,589 --> 00:46:55,680
thank yous to say we have g west uh give

1338
00:46:59,349 --> 00:46:57,599

a five dollar donation

1339

00:47:02,550 --> 00:46:59,359

um super chat

1340

00:47:04,470 --> 00:47:02,560

um and luis jimenez uh twenty dollars

1341

00:47:06,470 --> 00:47:04,480

earlier and jazz sure twenty five

1342

00:47:08,630 --> 00:47:06,480

dollars earlier um

1343

00:47:10,790 --> 00:47:08,640

amazing thank you jazz has actually been

1344

00:47:12,630 --> 00:47:10,800

kind enough to donate something to the

1345

00:47:14,230 --> 00:47:12,640

raffle that i'm super excited to share

1346

00:47:15,910 --> 00:47:14,240

soon and it's amazing

1347

00:47:17,430 --> 00:47:15,920

we will finish talking about the raffle

1348

00:47:20,549 --> 00:47:17,440

on that um but let's get to these

1349

00:47:22,390 --> 00:47:20,559

questions so a pontificator given an et

1350

00:47:24,069 --> 00:47:22,400

can manufacture designer bodies for

1351
00:47:26,309 --> 00:47:24,079
different tasks and the same is true of

1352
00:47:30,630 --> 00:47:26,319
their craft can we trust anything we

1353
00:47:33,349 --> 00:47:31,910
i mean

1354
00:47:35,190 --> 00:47:33,359
is that question from before isn't it

1355
00:47:37,430 --> 00:47:35,200
though again how can you trust an alien

1356
00:47:38,870 --> 00:47:37,440
intelligence like jazz you can't because

1357
00:47:40,790 --> 00:47:38,880
you wouldn't know

1358
00:47:42,790 --> 00:47:40,800
we i'd recommend the person that asked

1359
00:47:45,510 --> 00:47:42,800
this read the three body problem because

1360
00:47:48,230 --> 00:47:45,520
the alien species in that in particular

1361
00:47:49,670 --> 00:47:48,240
messes with the physics on earth around

1362
00:47:52,390 --> 00:47:49,680
us so that we can't progress our

1363
00:47:54,390 --> 00:47:52,400

technology um i won't say much more but

1364

00:47:56,309 --> 00:47:54,400

yeah go go read it it's an interesting

1365

00:47:58,390 --> 00:47:56,319

question based on that book i'm showing

1366

00:47:59,910 --> 00:47:58,400

you this as if it's like mines to sell

1367

00:48:01,589 --> 00:47:59,920

you know like it's not just my copy

1368

00:48:04,069 --> 00:48:01,599

you're not having that that's the way it

1369

00:48:06,150 --> 00:48:04,079

is yeah i still need to read it at some

1370

00:48:08,549 --> 00:48:06,160

point um actually there's a really

1371

00:48:10,390 --> 00:48:08,559

interesting bookmark dan and if you

1372

00:48:11,430 --> 00:48:10,400

remember when we were in london there's

1373

00:48:13,589 --> 00:48:11,440

something i've got in there that i'm

1374

00:48:15,829 --> 00:48:13,599

using as a bookmark so i better keep

1375

00:48:17,670 --> 00:48:15,839

that inside if you if you know what i'm

1376

00:48:20,390 --> 00:48:17,680

talking about

1377

00:48:23,190 --> 00:48:20,400

yes um so of course

1378

00:48:24,950 --> 00:48:23,200

it can be weaponized yet uh g west again

1379

00:48:27,109 --> 00:48:24,960

thank you for that uh question for

1380

00:48:28,790 --> 00:48:27,119

elizondo and his interview on teo he

1381

00:48:30,950 --> 00:48:28,800

mentioned the moon being a potential

1382

00:48:32,790 --> 00:48:30,960

place for an alien artifact was that a

1383

00:48:33,510 --> 00:48:32,800

breadcrumb or a hint

1384

00:48:38,069 --> 00:48:33,520

i

1385

00:48:39,910 --> 00:48:38,079

was exposed to um

1386

00:48:41,430 --> 00:48:39,920

i think there's probably a lot of stuff

1387

00:48:43,349 --> 00:48:41,440

that lou doesn't know that people would

1388

00:48:44,950 --> 00:48:43,359

assume he does but then there's probably

1389

00:48:46,470 --> 00:48:44,960

a lot of stuff he does know that he just

1390

00:48:48,549 --> 00:48:46,480

doesn't get asked about and doesn't talk

1391

00:48:52,150 --> 00:48:48,559

about because it's stuff we don't even

1392

00:48:53,670 --> 00:48:52,160

think or comprehend potentially um yeah

1393

00:48:55,270 --> 00:48:53,680

i i think lou when he's talking about

1394

00:48:57,109 --> 00:48:55,280

the moon he's he's doing that for a

1395

00:48:58,549 --> 00:48:57,119

reason

1396

00:49:01,109 --> 00:48:58,559

that's just my opinion

1397

00:49:03,750 --> 00:49:01,119

i mean lou is acutely aware of some of

1398

00:49:05,750 --> 00:49:03,760

the mysteries of the universe uh in in

1399

00:49:08,710 --> 00:49:05,760

london i spoke to him about fast radio

1400

00:49:11,030 --> 00:49:08,720

bursts uh which was interesting uh my

1401
00:49:13,030 --> 00:49:11,040
theory was and it got shot down so you

1402
00:49:16,470 --> 00:49:13,040
know i don't mind pouring out there my

1403
00:49:18,230 --> 00:49:16,480
my theory was that to ask whether the

1404
00:49:19,990 --> 00:49:18,240
signs of a fast radio burst that we were

1405
00:49:21,670 --> 00:49:20,000
seeing could be

1406
00:49:24,710 --> 00:49:21,680
signs of a propulsion system that we

1407
00:49:26,710 --> 00:49:24,720
don't understand yet um and it was a big

1408
00:49:28,390 --> 00:49:26,720
fact now but it's always worth asking

1409
00:49:30,150 --> 00:49:28,400
the questions and it was an area that i

1410
00:49:31,589 --> 00:49:30,160
didn't think i'd ever discuss with louis

1411
00:49:33,910 --> 00:49:31,599
alexander

1412
00:49:35,589 --> 00:49:33,920
um question we've kind of touched on but

1413
00:49:37,109 --> 00:49:35,599

we can clear up the answer

1414

00:49:38,710 --> 00:49:37,119

how deep do we think the rabbit hole

1415

00:49:40,630 --> 00:49:38,720

goes what's the truth of what the us

1416

00:49:43,430 --> 00:49:40,640

government knows and what the extent of

1417

00:49:45,510 --> 00:49:43,440

the phenomena is i reckon they know a

1418

00:49:47,030 --> 00:49:45,520

lot less than people presume but they've

1419

00:49:48,790 --> 00:49:47,040

got a good idea

1420

00:49:51,430 --> 00:49:48,800

i think they can sit down with a bullet

1421

00:49:54,069 --> 00:49:51,440

pointed list and go well we think this

1422

00:49:56,230 --> 00:49:54,079

we think this we don't know this

1423

00:49:57,990 --> 00:49:56,240

we we are assuming this

1424

00:50:01,190 --> 00:49:58,000

and it's like we we might have an idea

1425

00:50:03,190 --> 00:50:01,200

where they're from we might have an idea

1426

00:50:04,870 --> 00:50:03,200

what how some of the craft work we

1427

00:50:07,109 --> 00:50:04,880

probably have some of the craft or they

1428

00:50:08,790 --> 00:50:07,119

have some of the craft um but i reckon

1429

00:50:11,430 --> 00:50:08,800

there's aspects of it that they are

1430

00:50:13,190 --> 00:50:11,440

totally clueless on that they genuinely

1431

00:50:14,630 --> 00:50:13,200

don't have an idea of and that's one of

1432

00:50:16,230 --> 00:50:14,640

the big reasons

1433

00:50:18,950 --> 00:50:16,240

it's so secretive and has been so

1434

00:50:20,630 --> 00:50:18,960

secretive for 75 years yeah i agree

1435

00:50:23,349 --> 00:50:20,640

there no no defense department is going

1436

00:50:25,990 --> 00:50:23,359

to go in front of the the people and say

1437

00:50:28,470 --> 00:50:26,000

that they they don't know they their job

1438

00:50:30,790 --> 00:50:28,480

is to know because it enables them to

1439

00:50:32,309 --> 00:50:30,800

protect the country and you know to

1440

00:50:33,990 --> 00:50:32,319

protect the people who are doing that

1441

00:50:36,150 --> 00:50:34,000

job um

1442

00:50:37,829 --> 00:50:36,160

so yeah there's no way in hell that

1443

00:50:39,510 --> 00:50:37,839

anyone from the government is just going

1444

00:50:41,109 --> 00:50:39,520

to stand in front of people and say we

1445

00:50:44,069 --> 00:50:41,119

don't know what this is about this

1446

00:50:45,589 --> 00:50:44,079

paradigm changing thing um

1447

00:50:47,589 --> 00:50:45,599

you know i i'm

1448

00:50:48,710 --> 00:50:47,599

part of me believes that that that's why

1449

00:50:50,069 --> 00:50:48,720

it was kind of

1450

00:50:50,460 --> 00:50:50,079

put to the side

1451
00:50:51,670 --> 00:50:50,470
um

1452
00:50:53,750 --> 00:50:51,680
[Music]

1453
00:50:56,230 --> 00:50:53,760
and that when they do have kind of a

1454
00:50:58,150 --> 00:50:56,240
tangible explanation for what is going

1455
00:51:00,309 --> 00:50:58,160
on we will hear it

1456
00:51:01,750 --> 00:51:00,319
yeah jazz again thank you for that jazz

1457
00:51:03,510 --> 00:51:01,760
said we've not been particularly

1458
00:51:05,829 --> 00:51:03,520
responsible with our own advances in

1459
00:51:08,150 --> 00:51:05,839
technology what would we do with alien

1460
00:51:09,589 --> 00:51:08,160
technology would it be definitely

1461
00:51:11,829 --> 00:51:09,599
positive thoughts

1462
00:51:13,750 --> 00:51:11,839
i i don't think so i think it's that

1463
00:51:15,270 --> 00:51:13,760

whole thing about people i think i've

1464

00:51:17,030 --> 00:51:15,280

mentioned this before but i remember

1465

00:51:19,270 --> 00:51:17,040

reading an article that when the

1466

00:51:21,430 --> 00:51:19,280

playstation 2 first came out it may have

1467

00:51:23,670 --> 00:51:21,440

been nonsense but they were so powerful

1468

00:51:26,150 --> 00:51:23,680

that saddam hussein had bought 40 000 of

1469

00:51:28,150 --> 00:51:26,160

them to build a supercomputer in iraq

1470

00:51:30,309 --> 00:51:28,160

now i imagine

1471

00:51:32,309 --> 00:51:30,319

yeah i i don't know how true that was or

1472

00:51:34,549 --> 00:51:32,319

not but that just goes to show you what

1473

00:51:36,630 --> 00:51:34,559

people are like same with the idea that

1474

00:51:38,790 --> 00:51:36,640

all our phones batteries could be small

1475

00:51:40,870 --> 00:51:38,800

nuclear powered devices

1476
00:51:42,549 --> 00:51:40,880
and we would never have to charge them

1477
00:51:45,030 --> 00:51:42,559
but people would blow them up

1478
00:51:46,950 --> 00:51:45,040
and it would cause a lot of issues so as

1479
00:51:49,030 --> 00:51:46,960
people can't be trusted unfortunately

1480
00:51:50,549 --> 00:51:49,040
and i think we can see without having to

1481
00:51:52,069 --> 00:51:50,559
go into detail the state of the world in

1482
00:51:53,670 --> 00:51:52,079
2021

1483
00:51:55,750 --> 00:51:53,680
and going forward that we're not in the

1484
00:51:58,390 --> 00:51:55,760
greatest place to be be dealing with

1485
00:52:00,549 --> 00:51:58,400
anything fantastic like that um i don't

1486
00:52:03,030 --> 00:52:00,559
think it would be positive at all no dad

1487
00:52:04,790 --> 00:52:03,040
yeah i agree if apple came out tomorrow

1488
00:52:06,630 --> 00:52:04,800

with the tic tac and they were like hey

1489

00:52:09,190 --> 00:52:06,640

it's ours look how smooth it is and why

1490

00:52:11,510 --> 00:52:09,200

it's it's see you should have known um

1491

00:52:13,829 --> 00:52:11,520

i i think there would be a lot of people

1492

00:52:15,349 --> 00:52:13,839

just slamming themselves into quasars

1493

00:52:16,790 --> 00:52:15,359

and black holes by accident and not

1494

00:52:19,430 --> 00:52:16,800

knowing what they were doing and just

1495

00:52:21,510 --> 00:52:19,440

using it for you know awful things we

1496

00:52:23,030 --> 00:52:21,520

we'd have a new frontier race on planets

1497

00:52:24,150 --> 00:52:23,040

and fight it with the planet it would

1498

00:52:26,470 --> 00:52:24,160

just be

1499

00:52:29,030 --> 00:52:26,480

yeah so slow and steady

1500

00:52:31,030 --> 00:52:29,040

um similar communities what is your best

1501
00:52:33,109 --> 00:52:31,040
guess of the disclosure timeline key

1502
00:52:35,829 --> 00:52:33,119
milestones and end game

1503
00:52:39,430 --> 00:52:35,839
right so over the last few months

1504
00:52:41,670 --> 00:52:39,440
i've had the idea that with the galileo

1505
00:52:43,910 --> 00:52:41,680
project and obviously james webb going

1506
00:52:47,270 --> 00:52:43,920
up all that kind of stuff

1507
00:52:50,069 --> 00:52:47,280
i think the most likely thing will be

1508
00:52:51,750 --> 00:52:50,079
a slow confirmation i think that the

1509
00:52:54,309 --> 00:52:51,760
government will kind of learn alongside

1510
00:52:56,870 --> 00:52:54,319
us of the existence of other beings i

1511
00:52:58,230 --> 00:52:56,880
think what we might get realistically

1512
00:53:00,150 --> 00:52:58,240
is

1513
00:53:02,390 --> 00:53:00,160

galileo project or something like the

1514

00:53:03,990 --> 00:53:02,400

james webb or a satellite

1515

00:53:06,630 --> 00:53:04,000

gets an image of something which is

1516

00:53:08,790 --> 00:53:06,640

pretty definitive of a craft that isn't

1517

00:53:10,549 --> 00:53:08,800

ours and that gets an official

1518

00:53:12,790 --> 00:53:10,559

scientific announcement

1519

00:53:15,030 --> 00:53:12,800

here here's an object we've picked up

1520

00:53:16,790 --> 00:53:15,040

here it's pretty clear this is not our

1521

00:53:18,150 --> 00:53:16,800

technology and i think you would have

1522

00:53:20,309 --> 00:53:18,160

russia and china potentially come out

1523

00:53:22,950 --> 00:53:20,319

and say yep it's not ours either

1524

00:53:24,390 --> 00:53:22,960

but from there we might have a few years

1525

00:53:26,790 --> 00:53:24,400

of nothing

1526
00:53:28,790 --> 00:53:26,800
where we we say this is why we have to

1527
00:53:30,470 --> 00:53:28,800
investigate it at that point you get

1528
00:53:32,230 --> 00:53:30,480
mainstream science on the topic that

1529
00:53:34,230 --> 00:53:32,240
might be one of the points as well

1530
00:53:36,549 --> 00:53:34,240
mainstream journalism picks this up on a

1531
00:53:39,510 --> 00:53:36,559
regular basis when it's a serious

1532
00:53:41,670 --> 00:53:39,520
scientific endeavor and potentially you

1533
00:53:43,270 --> 00:53:41,680
unite the planet a little bit and what

1534
00:53:45,190 --> 00:53:43,280
is out there there's something else

1535
00:53:46,790 --> 00:53:45,200
we've got a picture but we need to try

1536
00:53:48,790 --> 00:53:46,800
and find where it's from where it's came

1537
00:53:51,349 --> 00:53:48,800
from and maybe that gives us a bit of a

1538
00:53:53,030 --> 00:53:51,359

slow burn but when we get that you might

1539

00:53:54,390 --> 00:53:53,040

find it could be months or years that we

1540

00:53:55,670 --> 00:53:54,400

get any kind of follow-up off the back

1541

00:53:57,109 --> 00:53:55,680

of that as well that's just something

1542

00:53:59,430 --> 00:53:57,119

i've kind of thought might happen

1543

00:54:02,630 --> 00:53:59,440

recently what about yourself then

1544

00:54:04,790 --> 00:54:02,640

yeah same uh it reminds me of um contact

1545

00:54:08,870 --> 00:54:04,800

and how that happens you know we we have

1546

00:54:10,549 --> 00:54:08,880

the knowledge that we're not alone and

1547

00:54:12,710 --> 00:54:10,559

for years it just sits with us nothing

1548

00:54:14,549 --> 00:54:12,720

happens um but it changes the whole

1549

00:54:15,750 --> 00:54:14,559

species and i would agree that's what's

1550

00:54:17,510 --> 00:54:15,760

gonna happen

1551

00:54:19,430 --> 00:54:17,520

sorry nigel nigel's asking for a time

1552

00:54:23,030 --> 00:54:19,440

scale so i will i will put this on

1553

00:54:25,430 --> 00:54:23,040

record right i think in 2022

1554

00:54:28,150 --> 00:54:25,440

i won't get silly with predictions i

1555

00:54:29,910 --> 00:54:28,160

think we will get a video

1556

00:54:31,990 --> 00:54:29,920

better than the three that we've had

1557

00:54:34,230 --> 00:54:32,000

released so far

1558

00:54:35,190 --> 00:54:34,240

i think we'll get something out there

1559

00:54:37,349 --> 00:54:35,200

from

1560

00:54:39,430 --> 00:54:37,359

either lou and chris and those guys or

1561

00:54:41,270 --> 00:54:39,440

whatever but i think we'll get something

1562

00:54:44,069 --> 00:54:41,280

else that allows us to get our teeth

1563

00:54:45,109 --> 00:54:44,079

stuck into it a little bit um dan i've

1564

00:54:47,430 --> 00:54:45,119

got to go

1565

00:54:51,589 --> 00:54:47,440

wider and just say that i think by the

1566

00:54:53,270 --> 00:54:51,599

time i'm 6b under i'll know what this is

1567

00:54:54,789 --> 00:54:53,280

i mean that could be like next week you

1568

00:54:56,710 --> 00:54:54,799

know

1569

00:55:00,230 --> 00:54:56,720

assuming i live a long life

1570

00:55:02,069 --> 00:55:00,240

yeah listen folks um we the 26 minute

1571

00:55:03,589 --> 00:55:02,079

video adrian i thank you in the 23

1572

00:55:06,549 --> 00:55:03,599

minute video unless you know about one

1573

00:55:08,549 --> 00:55:06,559

that's three minutes longer um but yeah

1574

00:55:11,270 --> 00:55:08,559

i don't think we get the 23 minute video

1575

00:55:13,670 --> 00:55:11,280

no um for various different reasons but

1576

00:55:15,030 --> 00:55:13,680

um yeah listen that that's all for this

1577

00:55:16,630 --> 00:55:15,040

week um

1578

00:55:18,230 --> 00:55:16,640

we'll we'll see if we can do this again

1579

00:55:20,230 --> 00:55:18,240

live next week because it's been a lot

1580

00:55:22,069 --> 00:55:20,240

of fun live yeah having the interaction

1581

00:55:24,630 --> 00:55:22,079

thank you very much um yeah really

1582

00:55:26,950 --> 00:55:24,640

really appreciate it listen folks again

1583

00:55:29,349 --> 00:55:26,960

if you can uh make sure you sign up to

1584

00:55:31,190 --> 00:55:29,359

subscribe and if you haven't left as a

1587

00:55:37,430 --> 00:55:35,440

review please do especially if you're on

1588

00:55:39,109 --> 00:55:37,440

the apple platform you've got um the

1589

00:55:40,870 --> 00:55:39,119

1590

00:55:43,270 --> 00:55:40,880

early access to videos the full john

1591

00:55:47,589 --> 00:55:46,079

on youtube as well as patreon apple

1593

spotify premium and all that kind of

1594

00:55:52,470 --> 00:55:50,319

stuff as well but as ever just listening

1595

00:55:53,990 --> 00:55:52,480

just being here just sending us an email

1596

00:55:56,150 --> 00:55:54,000

and all the information's been scrolling

1597

00:55:58,470 --> 00:55:56,160

down the bottom is greatly appreciated

1598

00:56:00,309 --> 00:55:58,480

and in the final minute dan um what have

1599

00:56:02,150 --> 00:56:00,319

you got on this week or what you want to

1600

00:56:04,470 --> 00:56:02,160

promote the raffle potentially quickly

1601
00:56:06,230 --> 00:56:04,480
yeah the raffle uh the the link was

1602
00:56:08,789 --> 00:56:06,240
posted a little bit earlier but the link

1603
00:56:11,589 --> 00:56:08,799
is go dot rally up dot com forward slash

1604
00:56:12,630 --> 00:56:11,599
truth um you can win the highest bidder

1605
00:56:13,910 --> 00:56:12,640
can win

1606
00:56:16,630 --> 00:56:13,920
uh sorry

1607
00:56:18,630 --> 00:56:16,640
the person who donates the most

1608
00:56:21,190 --> 00:56:18,640
will get a thank you call personally

1609
00:56:22,950 --> 00:56:21,200
from luis salazando um and the person

1610
00:56:26,710 --> 00:56:22,960
who wins the raffle which is a random

1611
00:56:28,710 --> 00:56:26,720
draw um will get a signed truth poster

1612
00:56:30,789 --> 00:56:28,720
uh from lou himself

1613
00:56:32,789 --> 00:56:30,799

yeah and it all goes to good cause to

1614

00:56:34,630 --> 00:56:32,799

two charities not as we're not keeping

1615

00:56:36,950 --> 00:56:34,640

the money it'll it'll go to charities as

1616

00:56:38,710 --> 00:56:36,960

well so yeah thank you very much really

1617

00:56:40,150 --> 00:56:38,720

much look forward to that we'll we'll

1618

00:56:41,510 --> 00:56:40,160

keep i think you know what will we say

1619

00:56:42,829 --> 00:56:41,520

right now dan that yes we will do

1620

00:56:45,190 --> 00:56:42,839

another live

1621

00:56:47,349 --> 00:56:45,200

next friday why not we'll be back here

1622

00:56:49,670 --> 00:56:47,359

so any suggestions let us know we've got

1623

00:56:51,349 --> 00:56:49,680

a ton of things in the bank as well so

1624

00:56:52,789 --> 00:56:51,359

um we'll be back here live next week and

1625

00:56:54,710 --> 00:56:52,799

it'd be great to see a lot of you there

1626
00:56:56,829 --> 00:56:54,720
as well and i've even got to use most of

1627
00:56:59,589 --> 00:56:56,839
my questions that i had put down so

1628
00:57:01,829 --> 00:56:59,599
yeah yeah yeah well i'd rather speak to

1629
00:57:03,430 --> 00:57:01,839
people in the chat as well so listen

1630
00:57:05,190 --> 00:57:03,440
that is all from us i'm probably going

1631
00:57:06,950 --> 00:57:05,200
to get kicked off now so

1632
00:57:08,549 --> 00:57:06,960
dan thank you for your time

1633
00:57:10,870 --> 00:57:08,559
thank you this is a pleasure

1634
