2021 HIGHLIGHTS / 2022 HOPES

1
00:00:00,000 --> 00:00:05,510

[Music]

2
00:00:08,710 --> 00:00:06,789

there's a whole fleet of them look on

3
00:00:10,950 --> 00:00:08,720

the assay

4
00:00:14,310 --> 00:00:10,960

oh my gosh they're all going against the

5
00:00:18,950 --> 00:00:16,390

it was basically a cube with inside of

6
00:00:22,770 --> 00:00:18,960

sphere where the points of the cube

7
00:00:37,110 --> 00:00:22,780

were touching outside the sphere

8
00:00:40,950 --> 00:00:38,709

so this isn't anything that just is

9
00:00:42,570 --> 00:00:40,960

limited to the united states it's a

10
00:00:48,310 --> 00:00:42,580

worldwide phenomenon

11
00:00:52,549 --> 00:00:50,709

hi everyone and welcome back to that ufo

12
00:00:55,869 --> 00:00:52,559

podcast my name is andy and we're

13
00:00:58,549 --> 00:00:55,879

kicking off 2022 with a show about

14

00:01:01,270 --> 00:00:58,559

2021 joining me for this highlight show

15

00:01:02,630 --> 00:01:01,280

is dan how are we done i'm great thank

16

00:01:05,109 --> 00:01:02,640

you happy new year

17

00:01:07,270 --> 00:01:05,119

happy new year to you too and dan let's

18

00:01:09,270 --> 00:01:07,280

kick off uh very quickly talking about

19

00:01:11,030 --> 00:01:09,280

your your fundraiser trying to get you

20

00:01:12,550 --> 00:01:11,040

to colombia because we've had enough of

21

00:01:15,670 --> 00:01:12,560

you here in the uk

22

00:01:17,190 --> 00:01:15,680

as we talk it is the 2nd of january half

23

00:01:19,190 --> 00:01:17,200

past 3 where are we at with the

24

00:01:21,469 --> 00:01:19,200

fundraiser and what are you looking for

25

00:01:24,230 --> 00:01:21,479

still so we are up to

26

00:01:26,230 --> 00:01:24,240

1078 which is incredible uh we're

27

00:01:27,830 --> 00:01:26,240

looking for 1500. uh it would just help

28

00:01:29,510 --> 00:01:27,840

me cover the cost of getting there the

29

00:01:31,510 --> 00:01:29,520

accommodation and you know helping

30

00:01:33,030 --> 00:01:31,520

investigate the the phenomena that's on

31

00:01:34,950 --> 00:01:33,040

that mountain

32

00:01:36,630 --> 00:01:34,960

awesome now you've probably heard in the

33

00:01:38,550 --> 00:01:36,640

announcement show or seen on social

34

00:01:40,230 --> 00:01:38,560

media what we're doing and why the

35

00:01:42,230 --> 00:01:40,240

description for that will again be in

36

00:01:44,310 --> 00:01:42,240

the link for the show people have been

37

00:01:46,550 --> 00:01:44,320

incredibly generous and listen we're

38

00:01:48,630 --> 00:01:46,560

always honest and we are very aware that

39

00:01:50,789 --> 00:01:48,640

uh as part of the podcast dan's just

40

00:01:53,190 --> 00:01:50,799

helped raise a huge amount of money for

41

00:01:54,870 --> 00:01:53,200

two charities and we're going out at a

42

00:01:57,350 --> 00:01:54,880

really difficult time of year and asking

43

00:01:59,270 --> 00:01:57,360

people to to help us send down to a

44

00:02:00,950 --> 00:01:59,280

beautiful south american country for a

45

00:02:02,310 --> 00:02:00,960

week or so to to investigate the

46

00:02:04,789 --> 00:02:02,320

phenomenon which as much as he's going

47

00:02:06,630 --> 00:02:04,799

to love to do that he is representing

48

00:02:08,389 --> 00:02:06,640

people like yourselves that want uh to

49

00:02:09,990 --> 00:02:08,399

do that kind of stuff but you know not

50

00:02:11,510 --> 00:02:10,000

everyone can get there it's a lot of

51
00:02:13,270 --> 00:02:11,520
money and it came up very last minute

52
00:02:16,150 --> 00:02:13,280
which is why we're having to do this so

53
00:02:17,830 --> 00:02:16,160
it's a huge hugely appreciated for

54
00:02:19,750 --> 00:02:17,840
anyone who has managed to donate and if

55
00:02:21,350 --> 00:02:19,760
you haven't even just sharing the link

56
00:02:23,190 --> 00:02:21,360
or liking it would be would be much

57
00:02:24,949 --> 00:02:23,200
appreciated at this time but i think

58
00:02:26,869 --> 00:02:24,959
we're both pretty amazed at how quickly

59
00:02:27,589 --> 00:02:26,879
that the the money seems to have racked

60
00:02:28,949 --> 00:02:27,599
up

61
00:02:31,589 --> 00:02:28,959
yeah it's incredible people have been so

62
00:02:35,270 --> 00:02:31,599
supportive i'm so blessed and humbled by

63
00:02:37,350 --> 00:02:35,280

it um but like you say it's it's to

64
00:02:38,869 --> 00:02:37,360
go and make a documentary to investigate

65
00:02:40,949 --> 00:02:38,879
the phenomena and share what we find

66
00:02:42,229 --> 00:02:40,959
there um you know we'll get to it later

67
00:02:44,710 --> 00:02:42,239
talking about what what i feel about

68
00:02:46,390 --> 00:02:44,720
bidenstein in the bill this year but um

69
00:02:47,990 --> 00:02:46,400
but i feel it's a starting gun for stuff

70
00:02:49,750 --> 00:02:48,000
like this to happen

71
00:02:51,750 --> 00:02:49,760
yeah and the ashley kevin interview that

72
00:02:53,830 --> 00:02:51,760
comes out in the next couple of hours

73
00:02:56,070 --> 00:02:53,840
will be available uh and we do talk to

74
00:02:58,070 --> 00:02:56,080
ashley who is making the documentary

75
00:02:59,990 --> 00:02:58,080
about the project what it hopes to

76

00:03:02,070 --> 00:03:00,000

achieve why people like dan should be

77

00:03:04,229 --> 00:03:02,080

involved um so hopefully you can listen

78

00:03:06,070 --> 00:03:04,239

to that and that will give you even more

79

00:03:07,670 --> 00:03:06,080

of an emphasis or understanding of why

80

00:03:09,670 --> 00:03:07,680

we're doing what we're doing so please

81

00:03:12,149 --> 00:03:09,680

check that one out with ashley kelly but

82

00:03:14,390 --> 00:03:12,159

anyway listen dan we're into 2022 it's a

83

00:03:16,949 --> 00:03:14,400

couple of days old there have been no

84

00:03:18,390 --> 00:03:16,959

new pandemics or anything yet uh that's

85

00:03:21,270 --> 00:03:18,400

always a good sign

86

00:03:23,910 --> 00:03:21,280

however 2021 there were there were quite

87

00:03:26,070 --> 00:03:23,920

a few highlights when it came to ufos um

88

00:03:27,589 --> 00:03:26,080

a regular conversation or i don't want

89

00:03:28,949 --> 00:03:27,599

to say argument but debate you have

90

00:03:31,030 --> 00:03:28,959

online with people

91

00:03:32,789 --> 00:03:31,040

is that there's nothing happening and

92

00:03:35,830 --> 00:03:32,799

there's been no news and no new videos

93

00:03:38,229 --> 00:03:35,840

since 2017 2018

94

00:03:40,789 --> 00:03:38,239

and everything seems to have slowed down

95

00:03:43,509 --> 00:03:40,799

and that's not the case i mean we weed

96

00:03:45,670 --> 00:03:43,519

on one of the kgra shows based on

97

00:03:47,110 --> 00:03:45,680

political statements from from just a

98

00:03:49,910 --> 00:03:47,120

couple of years

99

00:03:51,910 --> 00:03:49,920

to show where politicians had come from

100

00:03:53,670 --> 00:03:51,920

and where they were now in terms of

101

00:03:55,190 --> 00:03:53,680

talking about the ufo subject on the

102

00:03:57,190 --> 00:03:55,200

mainstream media and all that kind of

103

00:03:59,030 --> 00:03:57,200

stuff and i think that opened up a lot a

104

00:04:00,869 --> 00:03:59,040

lot of people's eyes that when you take

105

00:04:04,149 --> 00:04:00,879

a step back and look at a timeline of

106

00:04:07,030 --> 00:04:04,159

events you go wow a lot has happened and

107

00:04:08,869 --> 00:04:07,040

2021 was no different to that what i

108

00:04:11,670 --> 00:04:08,879

done was put out onto the patreon to ask

109

00:04:14,309 --> 00:04:11,680

people to submit their own highlights

110

00:04:16,069 --> 00:04:14,319

for 2021 just to give us a frame to to

111

00:04:17,909 --> 00:04:16,079

talk about some things as well and

112

00:04:19,749 --> 00:04:17,919

people were fantastic in getting in

113

00:04:21,830 --> 00:04:19,759

touch so we've picked some of those to

114

00:04:22,950 --> 00:04:21,840
discuss as part of this highlights

115

00:04:25,430 --> 00:04:22,960
package and what we'll do is we'll

116

00:04:29,510 --> 00:04:25,440
finish off talking about what we hope

117

00:04:32,310 --> 00:04:29,520
for in 2022 when it comes to ufos

118

00:04:34,310 --> 00:04:32,320
so we'll kick off dan with matt and matt

119

00:04:36,150 --> 00:04:34,320
said probably one of the most obvious

120

00:04:38,230 --> 00:04:36,160
ones but it's got to be up there

121

00:04:41,030 --> 00:04:38,240
definitely for matt the gillibrand

122

00:04:43,510 --> 00:04:41,040
amendment he's been waiting 42 years for

123

00:04:45,909 --> 00:04:43,520
this dan it seems like a really obvious

124

00:04:47,430 --> 00:04:45,919
one but it's got to be up there i

125

00:04:49,830 --> 00:04:47,440
suppose in the top two or three doesn't

126

00:04:51,909 --> 00:04:49,840

it yeah absolutely it's resulted in the

127

00:04:56,230 --> 00:04:51,919

first congressional mandate on uap or

128

00:04:58,150 --> 00:04:56,240

ufos in history it's a big big big big

129

00:05:01,430 --> 00:04:58,160

deal and we're seeing a bit of arm

130

00:05:02,870 --> 00:05:01,440

wrestling now from the dod over it um

131

00:05:04,790 --> 00:05:02,880

and you you can kind of feel them

132

00:05:06,310 --> 00:05:04,800

sweating i think

133

00:05:07,830 --> 00:05:06,320

now that's a good chance actually to

134

00:05:09,590 --> 00:05:07,840

clear up something a couple of days ago

135

00:05:11,430 --> 00:05:09,600

roger glassell who

136

00:05:13,909 --> 00:05:11,440

writes and comments on on the ufo

137

00:05:17,270 --> 00:05:13,919

subject as well um had mentioned on

138

00:05:20,950 --> 00:05:17,280

twitter that he had emailed susan go

139

00:05:23,189 --> 00:05:20,960

who mentioned that the aoi msg would be

140

00:05:24,550 --> 00:05:23,199

fully compliant that's not the exact

141

00:05:28,070 --> 00:05:24,560

word was it but i'm sure you can find it

142

00:05:30,790 --> 00:05:28,080

for us dan with the the ndaa

143

00:05:32,550 --> 00:05:30,800

requirements and roger took this to mean

144

00:05:35,830 --> 00:05:32,560

that there'd be no ufo office it would

145

00:05:37,110 --> 00:05:35,840

be taken over by the aoi msg and again

146

00:05:38,950 --> 00:05:37,120

i'm coming from a place where i'm no

147

00:05:41,830 --> 00:05:38,960

expert in this especially in foreign you

148

00:05:43,749 --> 00:05:41,840

know politics and exo politics but

149

00:05:45,749 --> 00:05:43,759

that's not how i read susan go's

150

00:05:48,710 --> 00:05:45,759

statement all i saw she was saying to

151
00:05:51,270 --> 00:05:48,720
him was quite generic and basically that

152
00:05:54,230 --> 00:05:51,280
the office that would be created under

153
00:05:57,749 --> 00:05:54,240
aoi msg or what they would be doing

154
00:06:00,469 --> 00:05:57,759
would be would be in a way regulated

155
00:06:02,629 --> 00:06:00,479
by the ndaa and that was it it didn't

156
00:06:04,629 --> 00:06:02,639
say anything to me that that would be

157
00:06:06,629 --> 00:06:04,639
the ufo office going forward and that's

158
00:06:08,710 --> 00:06:06,639
how you took it as well wasn't it yeah

159
00:06:09,909 --> 00:06:08,720
100 you you know you you read um i've

160
00:06:11,749 --> 00:06:09,919
got the statement here if you'd like me

161
00:06:14,150 --> 00:06:11,759
to read yeah go for it it's not too long

162
00:06:15,830 --> 00:06:14,160
it just says uh susan says roger the

163
00:06:18,150 --> 00:06:15,840

department will take necessary steps to

164

00:06:20,550 --> 00:06:18,160

comply with any enacted legislation on

165

00:06:22,070 --> 00:06:20,560

november 23rd deputy secretary hicks

166

00:06:23,270 --> 00:06:22,080

established the airborne object

167

00:06:25,430 --> 00:06:23,280

identification and management

168

00:06:26,950 --> 00:06:25,440

synchronization group and the airborne

169

00:06:29,029 --> 00:06:26,960

object identification and management

170

00:06:31,510 --> 00:06:29,039

executive council to provide oversight

171

00:06:34,309 --> 00:06:31,520

as you may recall we've been developing

172

00:06:36,469 --> 00:06:34,319

implementing guidance for the aoi msg

173

00:06:38,309 --> 00:06:36,479

we're now working with the odni on the

174

00:06:41,350 --> 00:06:38,319

implementing guidance to ensure that the

175

00:06:43,029 --> 00:06:41,360

aoi msg meets congressional intent we

176
00:06:45,110 --> 00:06:43,039
have nothing else to announce at this

177
00:06:47,110 --> 00:06:45,120
time that phrase there congressional

178
00:06:49,430 --> 00:06:47,120
intent is really important because the

179
00:06:52,950 --> 00:06:49,440
intent of the jill brown amendment is to

180
00:06:54,950 --> 00:06:52,960
have oversight of this investigation

181
00:06:57,189 --> 00:06:54,960
if the aoi msg

182
00:06:58,950 --> 00:06:57,199
kind of if that became the office there

183
00:07:01,350 --> 00:06:58,960
is not really any oversight away from

184
00:07:03,270 --> 00:07:01,360
the people who have kept this you know

185
00:07:04,629 --> 00:07:03,280
in a dark cupboard for the past god

186
00:07:08,150 --> 00:07:04,639
knows how long anyway and who's been

187
00:07:09,909 --> 00:07:08,160
messing it up um so i i don't think that

188
00:07:11,990 --> 00:07:09,919

it fits the congressional mandate and it

189

00:07:13,110 --> 00:07:12,000

kind of needs a complete overhaul

190

00:07:14,230 --> 00:07:13,120

including

191

00:07:16,950 --> 00:07:14,240

where it is in the government

192

00:07:19,749 --> 00:07:16,960

organization to even begin to meet the

193

00:07:21,909 --> 00:07:19,759

congressional you know uh requirements

194

00:07:23,350 --> 00:07:21,919

so you know just make a new office and

195

00:07:24,309 --> 00:07:23,360

give it a different name astro is pretty

196

00:07:26,150 --> 00:07:24,319

good

197

00:07:27,909 --> 00:07:26,160

yeah now what the way i kind of

198

00:07:30,150 --> 00:07:27,919

commented on it at the time was like

199

00:07:31,830 --> 00:07:30,160

imagine that the the us government was

200

00:07:34,150 --> 00:07:31,840

going to start you know a parcel

201
00:07:35,909 --> 00:07:34,160
delivery service but another branch

202
00:07:37,189 --> 00:07:35,919
within the us government decided they

203
00:07:37,909 --> 00:07:37,199
were going to have a delivery service

204
00:07:39,670 --> 00:07:37,919
too

205
00:07:41,990 --> 00:07:39,680
they would still have to adhere to the

206
00:07:44,790 --> 00:07:42,000
the us government's mandate and the

207
00:07:46,390 --> 00:07:44,800
rules for partial delivery if the us

208
00:07:48,230 --> 00:07:46,400
government then decided

209
00:07:49,990 --> 00:07:48,240
as part of an amendment this is going to

210
00:07:51,830 --> 00:07:50,000
be the main office and this is what we

211
00:07:53,830 --> 00:07:51,840
want to to look after partial delivery

212
00:07:55,189 --> 00:07:53,840
and deliver parcels it doesn't mean that

213
00:07:57,110 --> 00:07:55,199

there couldn't be another delivery

214

00:07:58,869 --> 00:07:57,120

service but they would all just have to

215

00:08:01,749 --> 00:07:58,879

adhere to the same rules one might

216

00:08:03,589 --> 00:08:01,759

completely gazump the other though so i

217

00:08:06,390 --> 00:08:03,599

hope that analogy made sense but that's

218

00:08:08,629 --> 00:08:06,400

what i was kind of saying on the spot to

219

00:08:11,270 --> 00:08:08,639

to to roger glassell that it doesn't

220

00:08:14,550 --> 00:08:11,280

seem like the two can't exist together

221

00:08:15,670 --> 00:08:14,560

but it seems a little bit pointless and

222

00:08:17,670 --> 00:08:15,680

i suppose there's a little bit of

223

00:08:19,589 --> 00:08:17,680

posturing there isn't another for the

224

00:08:21,830 --> 00:08:19,599

aoi msg to suddenly announce you know

225

00:08:23,510 --> 00:08:21,840

what actually okay fair enough we'll

226

00:08:25,670 --> 00:08:23,520

we'll totally dissolve before we've even

227

00:08:27,350 --> 00:08:25,680

got going and we'll just leave this to

228

00:08:29,990 --> 00:08:27,360

the to the gillibrand amendment and the

229

00:08:31,830 --> 00:08:30,000

office that may end up being asked or or

230

00:08:32,870 --> 00:08:31,840

something along those lines

231

00:08:34,310 --> 00:08:32,880

i don't think they're going to do that

232

00:08:36,389 --> 00:08:34,320

yet are they because the whole idea is

233

00:08:38,149 --> 00:08:36,399

they're still trying to wrestle some

234

00:08:40,310 --> 00:08:38,159

sort of control of this

235

00:08:41,589 --> 00:08:40,320

subject and office

236

00:08:43,350 --> 00:08:41,599

away from

237

00:08:44,550 --> 00:08:43,360

from where it should rightly sit

238

00:08:47,190 --> 00:08:44,560

yeah yeah 100

239

00:08:48,310 --> 00:08:47,200

um you know listeners might not know uh

240

00:08:49,910 --> 00:08:48,320

because it's the kind of thing we post

241

00:08:52,870 --> 00:08:49,920

on twitter and we talk about over there

242

00:08:54,790 --> 00:08:52,880

um but susan goff the the spokesperson

243

00:08:56,710 --> 00:08:54,800

for the department of defense um which

244

00:08:58,389 --> 00:08:56,720

is a new title by the way she actually

245

00:09:01,269 --> 00:08:58,399

wrote a paper in 2003 called the

246

00:09:03,350 --> 00:09:01,279

evolution of strategic influence um

247

00:09:07,030 --> 00:09:03,360

basically how to sign up in the history

248

00:09:08,949 --> 00:09:07,040

of psyops um susan is very well studied

249

00:09:10,790 --> 00:09:08,959

in this area i'd recommend just google

250

00:09:11,990 --> 00:09:10,800

that title the evolution of strategic

251
00:09:14,470 --> 00:09:12,000
influence and i'll come up and you can

252
00:09:16,310 --> 00:09:14,480
have a flick through um but you'll see

253
00:09:18,630 --> 00:09:16,320
that she is essentially saying that

254
00:09:20,550 --> 00:09:18,640
psyops aren't a bad thing and that kind

255
00:09:22,870 --> 00:09:20,560
of centralizing control is actually real

256
00:09:24,230 --> 00:09:22,880
helpful it wasn't long after that that

257
00:09:27,110 --> 00:09:24,240
she took control of the uap

258
00:09:29,190 --> 00:09:27,120
communications for the dod um and rather

259
00:09:31,350 --> 00:09:29,200
than you know being kicked out on a butt

260
00:09:32,230 --> 00:09:31,360
for undermining the four-year process

261
00:09:34,310 --> 00:09:32,240
she

262
00:09:35,750 --> 00:09:34,320
has been given seemingly a promotion to

263
00:09:37,269 --> 00:09:35,760

the department of defense spokesperson

264

00:09:39,750 --> 00:09:37,279

so she's gone from one department to a

265

00:09:41,190 --> 00:09:39,760

full umbrella so this is even more

266

00:09:43,430 --> 00:09:41,200

reason for me that it needs to be

267

00:09:45,030 --> 00:09:43,440

outside of that umbrella just because

268

00:09:46,550 --> 00:09:45,040

the these people are playing games susan

269

00:09:47,750 --> 00:09:46,560

know what she knows what she's doing and

270

00:09:49,910 --> 00:09:47,760

i feel like

271

00:09:51,430 --> 00:09:49,920

roger i'm gonna use a strong word here

272

00:09:53,190 --> 00:09:51,440

roger spread a little propaganda there

273

00:09:54,550 --> 00:09:53,200

to muddy the waters and i bet susan was

274

00:09:56,710 --> 00:09:54,560

happy about it

275

00:09:58,150 --> 00:09:56,720

yeah and whether it was the case or not

276

00:09:59,670 --> 00:09:58,160

i i don't know roger i know him that

277

00:10:00,470 --> 00:09:59,680

well at all and i know what you're

278

00:10:01,430 --> 00:10:00,480

saying

279

00:10:03,990 --> 00:10:01,440

but

280

00:10:06,470 --> 00:10:04,000

it just seems like if you are going to

281

00:10:08,949 --> 00:10:06,480

jump on a statement like that and push

282

00:10:10,949 --> 00:10:08,959

out as well this is the fact because

283

00:10:13,910 --> 00:10:10,959

it's an interpretation then you've

284

00:10:17,030 --> 00:10:13,920

probably got your own leanings and

285

00:10:18,710 --> 00:10:17,040

an agenda in terms of the subject anyway

286

00:10:21,829 --> 00:10:18,720

and you're just fitting

287

00:10:23,670 --> 00:10:21,839

a rather vague commentary into your own

288

00:10:25,910 --> 00:10:23,680

agenda to say well this is what this

289

00:10:27,509 --> 00:10:25,920

means so no news here

290

00:10:29,590 --> 00:10:27,519

and that's that's not the way to look at

291

00:10:31,910 --> 00:10:29,600

that because it was very politician it

292

00:10:33,509 --> 00:10:31,920

was very vague it was very generic and

293

00:10:34,949 --> 00:10:33,519

didn't really see a whole our friend

294

00:10:36,790 --> 00:10:34,959

graham rendell commented it was one of

295

00:10:38,710 --> 00:10:36,800

those statements where it says a whole

296

00:10:40,389 --> 00:10:38,720

lot without seeing anything at all

297

00:10:43,590 --> 00:10:40,399

um yeah 100

298

00:10:45,430 --> 00:10:43,600

it it sounds like a a statement from a

299

00:10:47,750 --> 00:10:45,440

losing football manager as the other

300

00:10:49,590 --> 00:10:47,760

team are doing the dance in the end zone

301
00:10:51,190 --> 00:10:49,600
yeah it's the whole we go again next

302
00:10:52,069 --> 00:10:51,200
week for for football fans i'll know

303
00:10:53,590 --> 00:10:52,079
that one

304
00:10:54,870 --> 00:10:53,600
um but yeah no listen gillibrand

305
00:10:56,150 --> 00:10:54,880
amendment is something that's going to

306
00:10:58,069 --> 00:10:56,160
play a big part in this year and i'm

307
00:10:59,590 --> 00:10:58,079
sure later at the end of the pod when we

308
00:11:00,389 --> 00:10:59,600
talk about what we're looking forward to

309
00:11:02,550 --> 00:11:00,399
this year

310
00:11:03,670 --> 00:11:02,560
dan's going to bring up a few dates and

311
00:11:05,190 --> 00:11:03,680
that we can look forward to on the

312
00:11:07,110 --> 00:11:05,200
calendars as well that will no doubt

313
00:11:09,190 --> 00:11:07,120

have that as an involvement

314

00:11:11,030 --> 00:11:09,200

joe was next up and joe said for me

315

00:11:12,470 --> 00:11:11,040

there were a few highlights and i've got

316

00:11:14,630 --> 00:11:12,480

to give you all yeah

317

00:11:16,790 --> 00:11:14,640

absolute props for this first one

318

00:11:19,590 --> 00:11:16,800

ross coltar's book and the fact that it

319

00:11:22,069 --> 00:11:19,600

convinced my friends uh and myself of

320

00:11:23,750 --> 00:11:22,079

many aspects of the phenomenon i i will

321

00:11:26,310 --> 00:11:23,760

add to that joel not just the book but

322

00:11:29,750 --> 00:11:26,320

the documentary roston um was a

323

00:11:32,310 --> 00:11:29,760

fantastic piece for for those outside of

324

00:11:34,630 --> 00:11:32,320

of the ufo community because it really

325

00:11:35,509 --> 00:11:34,640

has had an impact on the mainstream as

326

00:11:36,949 --> 00:11:35,519

well

327

00:11:38,150 --> 00:11:36,959

to the point that channel 7 that

328

00:11:40,150 --> 00:11:38,160

produced it

329

00:11:41,829 --> 00:11:40,160

allowed the recent follow-up to be made

330

00:11:44,069 --> 00:11:41,839

as well which was a mishmash of the

331

00:11:47,030 --> 00:11:44,079

original with some updated commentary

332

00:11:48,710 --> 00:11:47,040

within that as well um and i when i get

333

00:11:50,150 --> 00:11:48,720

to my kind of highlights i've got i've

334

00:11:51,590 --> 00:11:50,160

got ross in there as part of that

335

00:11:53,910 --> 00:11:51,600

because

336

00:11:55,430 --> 00:11:53,920

i think if ross coldheart himself is a

337

00:11:57,269 --> 00:11:55,440

mainstream journalist who's done some

338

00:12:00,310 --> 00:11:57,279

pretty hard hitting stories and big

339

00:12:02,629 --> 00:12:00,320

pieces even now outside of ufos

340

00:12:05,269 --> 00:12:02,639

has come into the subject in a big way

341

00:12:07,509 --> 00:12:05,279

and that can only help push this

342

00:12:10,470 --> 00:12:07,519

conversation forward dan isn't it yeah

343

00:12:13,430 --> 00:12:10,480

exactly um you know the the name of the

344

00:12:14,870 --> 00:12:13,440

game is to like we we know these things

345

00:12:17,190 --> 00:12:14,880

are out there you know we've got the

346

00:12:19,670 --> 00:12:17,200

paperwork to prove the conspiracy even

347

00:12:21,910 --> 00:12:19,680

john greenwald from blackvault admits

348

00:12:23,350 --> 00:12:21,920

you know we'll back you on the statement

349

00:12:26,150 --> 00:12:23,360

of we can prove the conspiracy that's

350

00:12:27,990 --> 00:12:26,160

the easiest part of all this um

351
00:12:29,509 --> 00:12:28,000
so more journalists coming on board and

352
00:12:31,509 --> 00:12:29,519
digging into this and showing that it's

353
00:12:33,670 --> 00:12:31,519
real will just prompt more journalists

354
00:12:35,030 --> 00:12:33,680
to come on board i have a feeling that

355
00:12:38,629 --> 00:12:35,040
sometimes through the next year we're

356
00:12:40,710 --> 00:12:38,639
going to be seeing you know a few maybe

357
00:12:42,949 --> 00:12:40,720
kind of media outlets that

358
00:12:44,069 --> 00:12:42,959
we've noted missing i feel like they've

359
00:12:45,910 --> 00:12:44,079
been working in the background this

360
00:12:47,670 --> 00:12:45,920
whole time getting something ready you

361
00:12:49,590 --> 00:12:47,680
know i i don't think they can just dump

362
00:12:51,990 --> 00:12:49,600
10 minute pieces it's going to be we'll

363
00:12:53,990 --> 00:12:52,000

see some kind of somber look here well

364

00:12:56,629 --> 00:12:54,000

it's worth mentioning that as we talked

365

00:12:59,350 --> 00:12:56,639

last night on channel 5 in the uk and to

366

00:13:02,069 --> 00:12:59,360

be fair channel 5's not a bastion of

367

00:13:03,269 --> 00:13:02,079

news excellence or or commentary for

368

00:13:05,750 --> 00:13:03,279

society it's got some pretty

369

00:13:07,110 --> 00:13:05,760

questionable shows that it puts out as

370

00:13:09,670 --> 00:13:07,120

trash tv

371

00:13:11,670 --> 00:13:09,680

however it showed a ufo documentary last

372

00:13:14,230 --> 00:13:11,680

night that i caught a couple of minutes

373

00:13:15,750 --> 00:13:14,240

of it i've still to watch it but i look

374

00:13:17,829 --> 00:13:15,760

at our friend you know

375

00:13:20,310 --> 00:13:17,839

adam goldsack as someone who is probably

376

00:13:23,350 --> 00:13:20,320

pretty hard to please in this subject

377

00:13:26,470 --> 00:13:23,360

and he himself said it was quite good

378

00:13:28,949 --> 00:13:26,480

so it seems that it struck a relatively

379

00:13:30,949 --> 00:13:28,959

decent tone i saw just a couple of

380

00:13:33,670 --> 00:13:30,959

minutes of it that had kevin day and

381

00:13:35,670 --> 00:13:33,680

they were talking about the nimitz event

382

00:13:37,110 --> 00:13:35,680

and yeah from what i saw i was like yep

383

00:13:39,590 --> 00:13:37,120

fair enough and there was a few things i

384

00:13:42,150 --> 00:13:39,600

said as i was kind of standing

385

00:13:43,430 --> 00:13:42,160

watching it and my wife had it on

386

00:13:45,110 --> 00:13:43,440

which was great to see she was watching

387

00:13:48,550 --> 00:13:45,120

a ufo documentary when i wasn't there i

388

00:13:49,910 --> 00:13:48,560

was busy editing an interview um i said

389

00:13:51,509 --> 00:13:49,920

oh they've not mentioned this and then

390

00:13:53,110 --> 00:13:51,519

within a few seconds they mentioned the

391

00:13:56,710 --> 00:13:53,120

point i just made

392

00:13:58,230 --> 00:13:56,720

and i was like ah okay cool so

393

00:13:59,670 --> 00:13:58,240

i've got to give them props then it

394

00:14:00,790 --> 00:13:59,680

seems like they've done a decent job of

395

00:14:02,870 --> 00:14:00,800

it um

396

00:14:04,550 --> 00:14:02,880

yeah that would be a very good sign that

397

00:14:08,150 --> 00:14:04,560

we've got a ufo documentary being put

398

00:14:10,150 --> 00:14:08,160

out in the uk that's not all lol aliens

399

00:14:11,750 --> 00:14:10,160

flying saucers little green men

400

00:14:13,750 --> 00:14:11,760

it was a hell of a lot better than jj

401
00:14:15,750 --> 00:14:13,760
abrams effort i'll say that um it was

402
00:14:17,590 --> 00:14:15,760
actually a sambal looker it had a lot of

403
00:14:18,790 --> 00:14:17,600
the same people but it didn't use the

404
00:14:20,550 --> 00:14:18,800
editing in the same way it more

405
00:14:22,069 --> 00:14:20,560
presented the mystery and said what is

406
00:14:23,509 --> 00:14:22,079
this um

407
00:14:25,269 --> 00:14:23,519
usually when things get to the limits

408
00:14:27,509 --> 00:14:25,279
now you know we've seen it so many times

409
00:14:29,030 --> 00:14:27,519
in documentaries that i get a bit like

410
00:14:30,629 --> 00:14:29,040
oh okay you know it's kind of fun seeing

411
00:14:32,949 --> 00:14:30,639
how they represent it but we know the

412
00:14:35,670 --> 00:14:32,959
story um right after the nimitz they did

413
00:14:36,790 --> 00:14:35,680

something unexpected um and usually you

414

00:14:38,310 --> 00:14:36,800

know that's where we go to the school

415

00:14:40,470 --> 00:14:38,320

landings or we go into the men in black

416

00:14:41,990 --> 00:14:40,480

stuff they actually went to hess darling

417

00:14:44,710 --> 00:14:42,000

and spoke about the hairstyle and lights

418

00:14:46,069 --> 00:14:44,720

and how anomalous they were so it wasn't

419

00:14:48,470 --> 00:14:46,079

just oh hey you know this might have

420

00:14:49,269 --> 00:14:48,480

been ball lightning out there um it was

421

00:14:51,430 --> 00:14:49,279

more

422

00:14:52,870 --> 00:14:51,440

there's a bonafide mystery here and

423

00:14:54,150 --> 00:14:52,880

there were a lot of similarities between

424

00:14:56,790 --> 00:14:54,160

these two things and scientists have

425

00:14:59,269 --> 00:14:56,800

been trying to study it but the funding

426

00:15:01,750 --> 00:14:59,279

isn't there and you know that that's an

427

00:15:03,829 --> 00:15:01,760

excellent point coming into the uh after

428

00:15:05,750 --> 00:15:03,839

you know galileo and everything they're

429

00:15:08,470 --> 00:15:05,760

starting to receive money to actually

430

00:15:10,710 --> 00:15:08,480

start these research initiatives

431

00:15:12,629 --> 00:15:10,720

joe mentioned a few more um the next

432

00:15:15,269 --> 00:15:12,639

stop he said louis lozondo's interview

433

00:15:17,030 --> 00:15:15,279

with cut joy mungo or he said interviews

434

00:15:20,230 --> 00:15:17,040

um of which loaded a couple which were

435

00:15:22,710 --> 00:15:20,240

very good but his um two and a half hour

436

00:15:24,870 --> 00:15:22,720

longest ever luilazondo interview was

437

00:15:27,910 --> 00:15:24,880

was really great and again this is

438

00:15:29,350 --> 00:15:27,920

something i mentioned cut and with my

439

00:15:31,189 --> 00:15:29,360

highlights of the year and i'll get to

440

00:15:33,030 --> 00:15:31,199

that later but

441

00:15:35,509 --> 00:15:33,040

he got a lot out of lu

442

00:15:37,590 --> 00:15:35,519

in a really long form conversation but i

443

00:15:39,590 --> 00:15:37,600

would i would bite your hand off for for

444

00:15:41,590 --> 00:15:39,600

even half of that time with lou which is

445

00:15:43,990 --> 00:15:41,600

hard to get but it was great someone

446

00:15:46,150 --> 00:15:44,000

like kurt got that time and was able to

447

00:15:48,470 --> 00:15:46,160

ask the questions that he was asking so

448

00:15:50,389 --> 00:15:48,480

i'm i'm totally with him on that one dan

449

00:15:52,310 --> 00:15:50,399

you asked did you ask a question within

450

00:15:54,470 --> 00:15:52,320

that you were in the live chat yesterday

451
00:15:55,829 --> 00:15:54,480
there was actually a portion where you

452
00:15:56,949 --> 00:15:55,839
know i wish i could frame and put on my

453
00:15:59,030 --> 00:15:56,959
wall like one of those moving harry

454
00:16:00,870 --> 00:15:59,040
potter pictures um

455
00:16:02,389 --> 00:16:00,880
i asked my question and lou kind of

456
00:16:03,350 --> 00:16:02,399
caved and was like yeah i know what he's

457
00:16:04,870 --> 00:16:03,360
doing he's trying to pull some

458
00:16:06,550 --> 00:16:04,880
information out of me for people and he

459
00:16:07,670 --> 00:16:06,560
gave me a nice big compliment and that

460
00:16:09,670 --> 00:16:07,680
that was actually one of the highlights

461
00:16:11,269 --> 00:16:09,680
of my year

462
00:16:13,269 --> 00:16:11,279
i don't blame you but yeah and carter

463
00:16:14,870 --> 00:16:13,279

will come up again later on um a few

464

00:16:18,230 --> 00:16:14,880

more from joe the publication of

465

00:16:19,430 --> 00:16:18,240

children of orion by ryan musgrave evans

466

00:16:21,110 --> 00:16:19,440

uh he thinks they'll be seen as more

467

00:16:23,030 --> 00:16:21,120

significant in the future not one i've

468

00:16:25,030 --> 00:16:23,040

seen or heard of but i'll check that out

469

00:16:26,790 --> 00:16:25,040

um the reading of change of the sea by

470

00:16:29,189 --> 00:16:26,800

the paranormal podcast on the

471

00:16:31,030 --> 00:16:29,199

recommendation of loyola zondo changing

472

00:16:33,189 --> 00:16:31,040

the sea dan we've touched on this a few

473

00:16:35,350 --> 00:16:33,199

times but i still see it come up in in

474

00:16:36,870 --> 00:16:35,360

various um chats and it happened on

475

00:16:39,590 --> 00:16:36,880

patreon on the discord and i've seen it

476

00:16:41,430 --> 00:16:39,600

on twitter as well i've got my copy of

477

00:16:43,670 --> 00:16:41,440

change if they see here

478

00:16:45,910 --> 00:16:43,680

as it's something that at this point

479

00:16:48,069 --> 00:16:45,920

people look too much into

480

00:16:49,829 --> 00:16:48,079

because of a comment lou made about it

481

00:16:52,069 --> 00:16:49,839

just being an interesting book but

482

00:16:55,110 --> 00:16:52,079

everyone's jumped on it as if it's some

483

00:16:56,710 --> 00:16:55,120

secret message within it or am i wrong i

484

00:16:58,150 --> 00:16:56,720

i would agree with you uh it was a book

485

00:17:00,230 --> 00:16:58,160

that was recommended to lou by douglas

486

00:17:01,910 --> 00:17:00,240

dean johnson uh you'll see him around

487

00:17:03,430 --> 00:17:01,920

he's been covering the the uap bill

488

00:17:05,270 --> 00:17:03,440

going from congress and he brought her

489

00:17:06,870 --> 00:17:05,280

up to loop because it does it approaches

490

00:17:09,029 --> 00:17:06,880

the phenomena from an interesting point

491

00:17:11,029 --> 00:17:09,039

of view um you know the craft in the

492

00:17:13,429 --> 00:17:11,039

book move in a similar way to what we're

493

00:17:16,069 --> 00:17:13,439

used to but it talks about a shadow

494

00:17:17,590 --> 00:17:16,079

biosphere i.e a world that we can't see

495

00:17:19,750 --> 00:17:17,600

because it exists in infrared and

496

00:17:21,669 --> 00:17:19,760

various other places like that and and

497

00:17:23,750 --> 00:17:21,679

the idea is that they're here but

498

00:17:25,990 --> 00:17:23,760

they're not here for us and actually

499

00:17:27,909 --> 00:17:26,000

we're kind of a nuisance on the planet

500

00:17:29,110 --> 00:17:27,919

um it's it's a really interesting look

501
00:17:30,710 --> 00:17:29,120
at the phenomena but yeah there's

502
00:17:32,070 --> 00:17:30,720
nothing you know lou isn't kind of

503
00:17:33,909 --> 00:17:32,080
giving it with a wink and kind of saying

504
00:17:35,909 --> 00:17:33,919
yeah this has happened

505
00:17:37,590 --> 00:17:35,919
he's more giving it as a way to you know

506
00:17:38,950 --> 00:17:37,600
sci-fi is an amazing way to get people

507
00:17:41,590 --> 00:17:38,960
to think about

508
00:17:43,590 --> 00:17:41,600
profound problems and issues but in a

509
00:17:45,510 --> 00:17:43,600
really simplistic way and i think that

510
00:17:46,950 --> 00:17:45,520
book or that short story does that

511
00:17:48,549 --> 00:17:46,960
really well

512
00:17:50,150 --> 00:17:48,559
yeah if you've got time it's worth

513
00:17:51,510 --> 00:17:50,160

checking out give it a read that's an

514

00:17:53,270 --> 00:17:51,520

interesting take some interesting

515

00:17:55,990 --> 00:17:53,280

opinions and no doubt some of it may fit

516

00:17:57,510 --> 00:17:56,000

in with your own ideas of what or may

517

00:18:00,070 --> 00:17:57,520

not may or may not be happening with the

518

00:18:01,990 --> 00:18:00,080

phenomenon but i think a good example of

519

00:18:04,549 --> 00:18:02,000

that is recently

520

00:18:06,950 --> 00:18:04,559

i can't remember where it was i saw

521

00:18:08,789 --> 00:18:06,960

blue had commented on twitter

522

00:18:10,710 --> 00:18:08,799

that he was listening to

523

00:18:13,270 --> 00:18:10,720

an ac dc song

524

00:18:15,430 --> 00:18:13,280

i think it was and loads of people

525

00:18:16,870 --> 00:18:15,440

started commenting that what's this got

526

00:18:19,190 --> 00:18:16,880

to do with ufos you know what you're

527

00:18:20,630 --> 00:18:19,200

trying to say here and i i don't i don't

528

00:18:21,990 --> 00:18:20,640

think it had anything to do with that he

529

00:18:23,430 --> 00:18:22,000

was just commenting that he liked a

530

00:18:24,870 --> 00:18:23,440

particular song

531

00:18:26,710 --> 00:18:24,880

and lou was like yeah nothing behind it

532

00:18:28,470 --> 00:18:26,720

folks i'm just saying and people were

533

00:18:29,990 --> 00:18:28,480

like oh do you mean it's in relation to

534

00:18:31,990 --> 00:18:30,000

the task force report or is it in

535

00:18:34,070 --> 00:18:32,000

relation to this and it's just like but

536

00:18:35,669 --> 00:18:34,080

i suppose it's that that point in lew's

537

00:18:38,230 --> 00:18:35,679

he's a celebrity let's be honest that's

538

00:18:39,990 --> 00:18:38,240

that's what he is um in in every way

539

00:18:41,510 --> 00:18:40,000

shape and form people are going to do

540

00:18:43,909 --> 00:18:41,520

with with his kind of recommendations

541

00:18:45,430 --> 00:18:43,919

given on what he knows or we we pertain

542

00:18:46,630 --> 00:18:45,440

he knows so that was interesting but

543

00:18:48,549 --> 00:18:46,640

yeah we'll have checking out chains of

544

00:18:50,070 --> 00:18:48,559

the sea we should also say he

545

00:18:52,470 --> 00:18:50,080

recommended this year

546

00:18:54,150 --> 00:18:52,480

three body problem as well which again

547

00:18:55,669 --> 00:18:54,160

civil avein it was a recommendation

548

00:18:57,830 --> 00:18:55,679

because of how it's discussed and the

549

00:18:59,350 --> 00:18:57,840

ideas it talks about because the dark

550

00:19:00,870 --> 00:18:59,360

forest theory isn't discussed in any

551

00:19:02,950 --> 00:19:00,880

other book as far as i'm concerned

552

00:19:04,870 --> 00:19:02,960

confined um but just google it have a

553

00:19:07,190 --> 00:19:04,880

look there's a really cool video by uh a

554

00:19:08,950 --> 00:19:07,200

channel called kyrgyzstat which is it

555

00:19:10,950 --> 00:19:08,960

means in a nutshell in german and it

556

00:19:13,029 --> 00:19:10,960

just distills the dark body theory that

557

00:19:14,710 --> 00:19:13,039

that book series presents into a really

558

00:19:16,150 --> 00:19:14,720

cool you know like 10 minute video

559

00:19:19,110 --> 00:19:16,160

explaining you know what it is in the

560

00:19:20,789 --> 00:19:19,120

implications for humanity

561

00:19:22,470 --> 00:19:20,799

dan can you make a note that we'll put

562

00:19:24,630 --> 00:19:22,480

the link for that interview in the

563

00:19:26,789 --> 00:19:24,640

description of the show um or that end

564

00:19:28,630 --> 00:19:26,799

piece and we'll get that up there i was

565

00:19:30,470 --> 00:19:28,640

literally about to say to you um as you

566

00:19:32,310 --> 00:19:30,480

came in there that people have been

567

00:19:34,470 --> 00:19:32,320

asking us to share our thoughts and

568

00:19:37,430 --> 00:19:34,480

review um the three body problem the

569

00:19:40,310 --> 00:19:37,440

book i i have it i'm gonna read it i

570

00:19:42,470 --> 00:19:40,320

will read it this month and um ideally

571

00:19:44,390 --> 00:19:42,480

before you go to columbia if we could do

572

00:19:46,789 --> 00:19:44,400

a pod just discussing the book and it's

573

00:19:49,029 --> 00:19:46,799

it's theories and dark forest theory and

574

00:19:51,430 --> 00:19:49,039

um what was really interesting i i

575

00:19:54,070 --> 00:19:51,440

listened to a podcast called

576

00:19:55,830 --> 00:19:54,080

what's a network called sans pants radio

577

00:19:56,950 --> 00:19:55,840

and it's a bunch of australian comedians

578

00:19:59,270 --> 00:19:56,960

that do a whole host of different

579

00:20:01,510 --> 00:19:59,280

podcasts and so they're all really funny

580

00:20:04,070 --> 00:20:01,520

i really enjoy listening to them i'm i'm

581

00:20:07,430 --> 00:20:04,080

fully paid up member and they were

582

00:20:09,430 --> 00:20:07,440

talking on one of their video game shows

583

00:20:10,950 --> 00:20:09,440

about the free body problem

584

00:20:13,350 --> 00:20:10,960

because one of the hosts hadn't played

585

00:20:15,510 --> 00:20:13,360

any games that week and mentioned he had

586

00:20:17,510 --> 00:20:15,520

read the book the three body problem or

587

00:20:18,870 --> 00:20:17,520

was halfway through it and he talked

588

00:20:20,549 --> 00:20:18,880

about an aspect to the book where

589

00:20:22,630 --> 00:20:20,559

there's a video game involved like an

590

00:20:26,070 --> 00:20:22,640

interactive experience

591

00:20:27,750 --> 00:20:26,080

and they they discussed all those potent

592

00:20:29,350 --> 00:20:27,760

they they do talk about ufos now and

593

00:20:31,590 --> 00:20:29,360

again but it's quite light-hearted and

594

00:20:34,470 --> 00:20:31,600

having a bit of fun with it as a as just

595

00:20:37,190 --> 00:20:34,480

a general mystery and they had a really

596

00:20:38,070 --> 00:20:37,200

good conversation about it as well um

597

00:20:39,669 --> 00:20:38,080

so

598

00:20:41,270 --> 00:20:39,679

yeah that was really interesting and

599

00:20:43,270 --> 00:20:41,280

that really prompted me to go i really

600

00:20:44,630 --> 00:20:43,280

have to get this read because if for

601
00:20:46,310 --> 00:20:44,640
those australian comedians who don't

602
00:20:48,070 --> 00:20:46,320
have a big interest in ufos reading the

603
00:20:50,070 --> 00:20:48,080
book i should probably get my ass in

604
00:20:51,510 --> 00:20:50,080
gear and do that as well so especially

605
00:20:53,029 --> 00:20:51,520
ahead of netflix commissioning the

606
00:20:54,230 --> 00:20:53,039
series which i don't want to be asking

607
00:20:56,310 --> 00:20:54,240
and say you you want to get in there

608
00:20:58,070 --> 00:20:56,320
before the netflix series comes out just

609
00:20:59,510 --> 00:20:58,080
you know that it might be wonderful but

610
00:21:00,950 --> 00:20:59,520
it's not going to be the book there will

611
00:21:02,149 --> 00:21:00,960
be different things you know yeah i

612
00:21:03,909 --> 00:21:02,159
promise i'll get that read over the next

613
00:21:07,029 --> 00:21:03,919

couple of weeks folks is on my bedside

614

00:21:09,029 --> 00:21:07,039

table um uh next up joe said the

615

00:21:10,789 --> 00:21:09,039

publication of harrison valley's trinity

616

00:21:12,310 --> 00:21:10,799

the best kept secret people can check

617

00:21:13,350 --> 00:21:12,320

out my interview with paola harris on

618

00:21:15,029 --> 00:21:13,360

the book

619

00:21:16,470 --> 00:21:15,039

for me it was one of those and i think i

620

00:21:18,789 --> 00:21:16,480

said at the time it's it's an

621

00:21:20,710 --> 00:21:18,799

interesting case it was

622

00:21:23,510 --> 00:21:20,720

it had a lot of build-up and hype not

623

00:21:25,669 --> 00:21:23,520

necessarily the fall of pulahara sir

624

00:21:28,950 --> 00:21:25,679

jack valley people thought the book

625

00:21:30,630 --> 00:21:28,960

given it went up online with uh with a

626

00:21:32,230 --> 00:21:30,640

cover then came down

627

00:21:33,909 --> 00:21:32,240

was going to be the publication of the

628

00:21:35,350 --> 00:21:33,919

meta material reports and there'd be

629

00:21:37,750 --> 00:21:35,360

some interesting information and it

630

00:21:38,710 --> 00:21:37,760

wasn't that but that's not their fault

631

00:21:40,870 --> 00:21:38,720

um

632

00:21:42,950 --> 00:21:40,880

and it turned out to be a book about a

633

00:21:44,470 --> 00:21:42,960

case that happened before roswell a

634

00:21:48,230 --> 00:21:44,480

couple of years before

635

00:21:50,390 --> 00:21:48,240

and it probably lacked a lot of really

636

00:21:52,070 --> 00:21:50,400

hard hating evidence we would look for

637

00:21:54,710 --> 00:21:52,080

what it seemed to have was with some

638

00:21:56,310 --> 00:21:54,720

interesting evidence based on the fact

639

00:21:58,870 --> 00:21:56,320

jacques valley for example something i

640

00:22:00,950 --> 00:21:58,880

really took away from it was

641

00:22:02,870 --> 00:22:00,960

he talked about the or quite

642

00:22:05,590 --> 00:22:02,880

controversially there was a picture of a

643

00:22:08,310 --> 00:22:05,600

piece that people took to be from

644

00:22:10,830 --> 00:22:08,320

inside of a ufo or this this downed

645

00:22:13,510 --> 00:22:10,840

craft but it looked like one of our

646

00:22:15,669 --> 00:22:13,520

typical joints or a hinge or a bracket

647

00:22:18,789 --> 00:22:15,679

that we would use in some old-fashioned

648

00:22:19,990 --> 00:22:18,799

machinery and on a recent podcast with

649

00:22:22,070 --> 00:22:20,000

george knapp

650

00:22:24,390 --> 00:22:22,080

jack fillet commented that

651
00:22:27,110 --> 00:22:24,400
yes they commented this was apparently

652
00:22:29,669 --> 00:22:27,120
from that craft he didn't say it was a

653
00:22:32,710 --> 00:22:29,679
part of the crafto what he commented was

654
00:22:35,590 --> 00:22:32,720
that it was likely there was

655
00:22:37,669 --> 00:22:35,600
american military equipment used in the

656
00:22:40,630 --> 00:22:37,679
propping up of the craft and also inside

657
00:22:42,230 --> 00:22:40,640
the craft and this apparently fell off

658
00:22:45,350 --> 00:22:42,240
from the inside

659
00:22:46,789 --> 00:22:45,360
and was was taken from the craft so that

660
00:22:48,549 --> 00:22:46,799
was a really interesting point that was

661
00:22:50,310 --> 00:22:48,559
made by jack fillet and i recommend

662
00:22:52,070 --> 00:22:50,320
anyone else dan if you don't mind making

663
00:22:54,070 --> 00:22:52,080

a note for me i'll stick that one in the

664

00:22:55,430 --> 00:22:54,080

description as well i'll find that it

665

00:22:59,430 --> 00:22:55,440

was a really

666

00:23:01,430 --> 00:22:59,440

with george knapp and jack valley but

667

00:23:03,190 --> 00:23:01,440

yeah did you what did you make of the

668

00:23:04,950 --> 00:23:03,200

book um i don't know if you managed to

669

00:23:06,870 --> 00:23:04,960

read it in phil but obviously you know

670

00:23:09,029 --> 00:23:06,880

the the idea in the story

671

00:23:10,710 --> 00:23:09,039

yeah i i mean i agree with you it was a

672

00:23:12,390 --> 00:23:10,720

really interesting book about an

673

00:23:13,190 --> 00:23:12,400

interesting case

674

00:23:14,950 --> 00:23:13,200

but

675

00:23:16,789 --> 00:23:14,960

because the expectation was the

676
00:23:18,470 --> 00:23:16,799
peer-reviewed paper that jack had spoken

677
00:23:20,630 --> 00:23:18,480
about for so long it was just

678
00:23:21,830 --> 00:23:20,640
disappointing for that reason you know

679
00:23:22,950 --> 00:23:21,840
it doesn't mean there's nothing valuable

680
00:23:25,270 --> 00:23:22,960
in it it was still an interesting

681
00:23:26,950 --> 00:23:25,280
investigation um and the fact that they

682
00:23:29,029 --> 00:23:26,960
can prove that this piece of equipment

683
00:23:31,830 --> 00:23:29,039
was there where you know it is in the

684
00:23:33,270 --> 00:23:31,840
story of the ufo crash and retrieval is

685
00:23:35,270 --> 00:23:33,280
really interesting you know it's a

686
00:23:37,029 --> 00:23:35,280
little bit of a compelling compelling

687
00:23:39,350 --> 00:23:37,039
being like a bit of evidence that'll

688
00:23:41,190 --> 00:23:39,360

keep people pulling that thread but it

689

00:23:44,870 --> 00:23:41,200

wasn't the paper the paper actually came

690

00:23:46,549 --> 00:23:44,880

out um in december december 10th um gary

691

00:23:48,149 --> 00:23:46,559

nolan jack valley they were talking

692

00:23:50,070 --> 00:23:48,159

about materials the paper is titled

693

00:23:52,549 --> 00:23:50,080

improved instrumental techniques

694

00:23:54,470 --> 00:23:52,559

including isotopic analysis applicable

695

00:23:56,390 --> 00:23:54,480

to the characterization of unusual

696

00:23:58,950 --> 00:23:56,400

materials with potential relevance to

697

00:24:01,669 --> 00:23:58,960

aerospace forensics you can show walls

698

00:24:04,390 --> 00:24:01,679

off the top yeah tldr we studied ufo

699

00:24:05,110 --> 00:24:04,400

materials to see if they were different

700

00:24:06,950 --> 00:24:05,120

um

701
00:24:08,390 --> 00:24:06,960
and the paper kind of stands as a as a

702
00:24:10,149 --> 00:24:08,400
guide to kind of how to do this in a

703
00:24:12,149 --> 00:24:10,159
peer-reviewed manner there wasn't

704
00:24:13,430 --> 00:24:12,159
necessarily anything anomalous found but

705
00:24:15,990 --> 00:24:13,440
there were some interesting statements

706
00:24:17,990 --> 00:24:16,000
in the paper and again it's just proof

707
00:24:19,750 --> 00:24:18,000
that you can study these materials and

708
00:24:22,549 --> 00:24:19,760
put them out to the scientific community

709
00:24:24,310 --> 00:24:22,559
and get a peer-reviewed response um what

710
00:24:26,549 --> 00:24:24,320
the paper didn't cover was the

711
00:24:28,710 --> 00:24:26,559
experiences and and you know the

712
00:24:31,029 --> 00:24:28,720
biological effects side of gary's work

713
00:24:32,870 --> 00:24:31,039

um but that was covered in a in a great

714

00:24:35,029 --> 00:24:32,880

vice article about the same time where

715

00:24:37,110 --> 00:24:35,039

you spoke about how experiences seem to

716

00:24:38,950 --> 00:24:37,120

have more white matter in their brains

717

00:24:41,590 --> 00:24:38,960

between the chordate and the putsmen um

718

00:24:43,909 --> 00:24:41,600

and and that's area is responsible for

719

00:24:46,390 --> 00:24:43,919

intuition which i think is very

720

00:24:47,269 --> 00:24:46,400

interesting because we talk a lot about

721

00:24:48,549 --> 00:24:47,279

um

722

00:24:50,789 --> 00:24:48,559

or i do at least you know i change the

723

00:24:52,070 --> 00:24:50,799

word intuition out for kind of you know

724

00:24:53,269 --> 00:24:52,080

people say psychic powers and i'm like

725

00:24:55,110 --> 00:24:53,279

yeah it's intuition we're kind of

726
00:24:56,950 --> 00:24:55,120
reading something we can all do it uh so

727
00:24:58,870 --> 00:24:56,960
i found that real interesting that

728
00:25:01,350 --> 00:24:58,880
that's what he found

729
00:25:02,789 --> 00:25:01,360
folks if you listen on patreon apple

730
00:25:05,110 --> 00:25:02,799
spotify then you're going to hear us

731
00:25:06,630 --> 00:25:05,120
carry straight on otherwise if you're on

732
00:25:08,149 --> 00:25:06,640
the free feeds thank you for checking

733
00:25:11,750 --> 00:25:08,159
this out you'll hear us back in one

734
00:25:13,669 --> 00:25:11,760
minute after this short advert

735
00:25:15,029 --> 00:25:13,679
and we are back dan what was your

736
00:25:16,149 --> 00:25:15,039
favorite part of that advert that was

737
00:25:19,350 --> 00:25:16,159
played

738
00:25:21,909 --> 00:25:19,360

uh it was the bit with the the advert

739

00:25:23,750 --> 00:25:21,919

about the thing you know

740

00:25:24,549 --> 00:25:23,760

absolutely yeah depending on where you

741

00:25:26,549 --> 00:25:24,559

are folks you'll have heard the

742

00:25:28,390 --> 00:25:26,559

regional-based advert but thank you for

743

00:25:30,710 --> 00:25:28,400

checking that out and if you can support

744

00:25:32,470 --> 00:25:30,720

the sponsors uh we roll on with agent

745

00:25:35,110 --> 00:25:32,480

black agent black said given it's a

746

00:25:38,230 --> 00:25:35,120

marathon of many moving parts and not a

747

00:25:40,310 --> 00:25:38,240

sprint i think 2021 is the highlight

748

00:25:42,390 --> 00:25:40,320

that's a proper dan cop out political

749

00:25:43,990 --> 00:25:42,400

answer that one uh agent black says i

750

00:25:45,269 --> 00:25:44,000

can't pick one moment this year that has

751
00:25:47,590 --> 00:25:45,279
stood out for me as everything is

752
00:25:49,269 --> 00:25:47,600
connected that said none of these

753
00:25:51,110 --> 00:25:49,279
significant events would have happened

754
00:25:53,350 --> 00:25:51,120
without the community pulling together

755
00:25:55,590 --> 00:25:53,360
whether it was 60 minutes lou elizondo

756
00:25:57,350 --> 00:25:55,600
the big phone home too ross's book the

757
00:25:59,190 --> 00:25:57,360
press club or the multitude of awesome

758
00:26:00,870 --> 00:25:59,200
podcasts there was also a lot of

759
00:26:02,950 --> 00:26:00,880
grassroots work done by bits on the

760
00:26:05,669 --> 00:26:02,960
ground with a multitude of letters and

761
00:26:07,430 --> 00:26:05,679
emails to senators etc and i'll add in

762
00:26:09,430 --> 00:26:07,440
there are people who are writing to uk

763
00:26:11,909 --> 00:26:09,440

based politicians and i'm sure it

764

00:26:13,430 --> 00:26:11,919

happened elsewhere in the world as well

765

00:26:15,590 --> 00:26:13,440

so agent black wants to pick the

766

00:26:17,269 --> 00:26:15,600

community for actively coming together

767

00:26:19,510 --> 00:26:17,279

when everything else in the world seemed

768

00:26:21,269 --> 00:26:19,520

to be split and divided it seems we can

769

00:26:23,029 --> 00:26:21,279

work together when we focus and choose

770

00:26:24,710 --> 00:26:23,039

to do the right thing that's a nice

771

00:26:25,590 --> 00:26:24,720

sentiment that's a really nice one and

772

00:26:27,190 --> 00:26:25,600

i'm going to throw in one of my

773

00:26:29,269 --> 00:26:27,200

highlights here because it kind of backs

774

00:26:30,470 --> 00:26:29,279

agent black's point uh one of my lights

775

00:26:31,830 --> 00:26:30,480

my highlights of the year didn't happen

776

00:26:35,190 --> 00:26:31,840

too long ago so people probably remember

777

00:26:36,870 --> 00:26:35,200

it uh we raised 24 000

778

00:26:38,630 --> 00:26:36,880

for humane society international and st

779

00:26:40,710 --> 00:26:38,640

jude's children's research hospital it

780

00:26:42,470 --> 00:26:40,720

was absolutely incredible to see what

781

00:26:44,950 --> 00:26:42,480

the community can do when we come

782

00:26:46,789 --> 00:26:44,960

together for something positive and

783

00:26:49,590 --> 00:26:46,799

agent black is right you know this year

784

00:26:51,669 --> 00:26:49,600

proved that we can move the world if we

785

00:26:54,630 --> 00:26:51,679

all put our minds to it

786

00:26:55,830 --> 00:26:54,640

yeah that was incredible and again it's

787

00:26:57,430 --> 00:26:55,840

not something we're going to do too

788

00:26:59,669 --> 00:26:57,440

often folks it's not a case of this

789

00:27:01,750 --> 00:26:59,679

month's special charity is because we

790

00:27:04,549 --> 00:27:01,760

are here to do shows and talk about ufos

791

00:27:07,590 --> 00:27:04,559

and ufo news and speculation that's what

792

00:27:10,149 --> 00:27:07,600

we're here for but again next christmas

793

00:27:12,630 --> 00:27:10,159

next holiday season we'll get something

794

00:27:14,549 --> 00:27:12,640

together again for for those kind of

795

00:27:16,950 --> 00:27:14,559

causes and different charities as well

796

00:27:17,830 --> 00:27:16,960

but yeah yeah i think the community i've

797

00:27:19,990 --> 00:27:17,840

got to

798

00:27:21,830 --> 00:27:20,000

appreciate and shout out because not

799

00:27:23,990 --> 00:27:21,840

everyone's on social media but people

800

00:27:26,549 --> 00:27:24,000

who are involved with the ufo subject

801
00:27:28,789 --> 00:27:26,559
have allowed us to grow this podcast to

802
00:27:30,710 --> 00:27:28,799
the level we are at whether that was

803
00:27:32,710 --> 00:27:30,720
subscribing to the youtube channel just

804
00:27:34,389 --> 00:27:32,720
listening to the the weekly or you know

805
00:27:36,630 --> 00:27:34,399
shows have a couple of days

806
00:27:38,230 --> 00:27:36,640
getting in touch again that's been my my

807
00:27:40,070 --> 00:27:38,240
favorite thing and i'll give a shout out

808
00:27:41,669 --> 00:27:40,080
earlier this year that if you listen to

809
00:27:44,149 --> 00:27:41,679
the podcast and you aren't on social

810
00:27:48,230 --> 00:27:44,159
media particularly drop us an email at

811
00:27:49,750 --> 00:27:48,240
ufo uap am gmail.com uh because i loved

812
00:27:51,029 --> 00:27:49,760
hearing from people last year all over

813
00:27:53,190 --> 00:27:51,039

the world and how they listen to the

814

00:27:54,549 --> 00:27:53,200

podcast and why they listen and just

815

00:27:56,310 --> 00:27:54,559

their thoughts and opinions and i've

816

00:27:58,710 --> 00:27:56,320

tried my best the last few days to catch

817

00:28:00,470 --> 00:27:58,720

up on a lot of correspondence so so yeah

818

00:28:02,870 --> 00:28:00,480

the community and anyone who listens to

819

00:28:04,549 --> 00:28:02,880

this show particularly it really does

820

00:28:06,950 --> 00:28:04,559

mean a lot to myself and i'm sure i can

821

00:28:09,990 --> 00:28:06,960

say that for dan as well yeah yeah 100

822

00:28:11,430 --> 00:28:10,000

um in fact it's so lovely that i'm just

823

00:28:13,430 --> 00:28:11,440

going to give my the signal at

824

00:28:16,230 --> 00:28:13,440

protonmail.com out if anyone wants to

825

00:28:18,630 --> 00:28:16,240

say hi say hi

826

00:28:20,470 --> 00:28:18,640

and um yeah like i say for people to to

827

00:28:23,510 --> 00:28:20,480

give their hard earned cash for for dan

828

00:28:25,190 --> 00:28:23,520

to go to colombia um i think next up in

829

00:28:27,750 --> 00:28:25,200

march my wife wants me to do a

830

00:28:29,430 --> 00:28:27,760

fundraiser for uh two weeks to dubai for

831

00:28:30,789 --> 00:28:29,440

me and the family and we'll get that set

832

00:28:32,870 --> 00:28:30,799

up um

833

00:28:34,710 --> 00:28:32,880

no definitely not but yeah it's amazing

834

00:28:36,870 --> 00:28:34,720

that you're getting down out there and

835

00:28:38,630 --> 00:28:36,880

we will make sure i will make sure that

836

00:28:40,470 --> 00:28:38,640

dan is put to work during his time out

837

00:28:42,230 --> 00:28:40,480

there separately from all the work he's

838

00:28:43,990 --> 00:28:42,240

going to be doing and creating a lot of

839

00:28:45,990 --> 00:28:44,000

content and and getting you know

840

00:28:48,149 --> 00:28:46,000

feedback for for you guys on the it

841

00:28:49,990 --> 00:28:48,159

might even be like a week of short pods

842

00:28:51,269 --> 00:28:50,000

from dan yeah sending me over voice

843

00:28:52,630 --> 00:28:51,279

clips of what he's been doing and what's

844

00:28:55,110 --> 00:28:52,640

happening just to let everyone know

845

00:28:57,350 --> 00:28:55,120

because i i know dan will feel indebted

846

00:28:58,870 --> 00:28:57,360

to everyone that's uh that's donated so

847

00:29:01,190 --> 00:28:58,880

it really does mean a lot and that

848

00:29:02,389 --> 00:29:01,200

community is a good a good shout out 100

849

00:29:03,909 --> 00:29:02,399

if i go

850

00:29:05,909 --> 00:29:03,919

they people are going to be fed up with

851
00:29:07,590 --> 00:29:05,919
me live streaming on instagram about my

852
00:29:09,029 --> 00:29:07,600
coffee at the airport and so on so forth

853
00:29:10,549 --> 00:29:09,039
but we'll have some great conversations

854
00:29:12,789 --> 00:29:10,559
along the way and i'm looking forward to

855
00:29:14,470 --> 00:29:12,799
doing some interviews uh for something

856
00:29:16,230 --> 00:29:14,480
that's upcoming um you know i'll talk to

857
00:29:17,909 --> 00:29:16,240
some shamans and things like that so

858
00:29:19,590 --> 00:29:17,919
we'll get some really really interesting

859
00:29:21,990 --> 00:29:19,600
things out of it i think

860
00:29:23,909 --> 00:29:22,000
awesome uh next up is a long time

861
00:29:26,389 --> 00:29:23,919
listener and supporter of the podcast

862
00:29:28,789 --> 00:29:26,399
big um big part of the discord channel

863
00:29:31,590 --> 00:29:28,799

over there as well at gnosis

864

00:29:34,149 --> 00:29:31,600

and you can also said uapx needs a

865

00:29:36,230 --> 00:29:34,159

mention as the more i hear the better it

866

00:29:37,830 --> 00:29:36,240

sounds uh i got on really well with gary

867

00:29:40,389 --> 00:29:37,840

verheeson he's been on the show several

868

00:29:42,230 --> 00:29:40,399

times and we're in regular contact as

869

00:29:44,389 --> 00:29:42,240

well on on facebook and messenger and

870

00:29:46,389 --> 00:29:44,399

stuff and i'm i'm really excited to see

871

00:29:49,110 --> 00:29:46,399

what uapx can bring up

872

00:29:51,590 --> 00:29:49,120

i think right now there's uh a ground

873

00:29:52,470 --> 00:29:51,600

swell of hype coming out from from over

874

00:29:54,310 --> 00:29:52,480

there

875

00:29:57,110 --> 00:29:54,320

they have talked about the you know

876
00:29:58,149 --> 00:29:57,120
terabytes of data that could be released

877
00:30:01,029 --> 00:29:58,159
but

878
00:30:02,549 --> 00:30:01,039
i could write a 10 000 page book

879
00:30:04,149 --> 00:30:02,559
and only 10 of the pages are worth

880
00:30:06,870 --> 00:30:04,159
reading so

881
00:30:08,710 --> 00:30:06,880
terabytes of data are great but

882
00:30:10,870 --> 00:30:08,720
is that a whole lot of nonsense to sift

883
00:30:12,950 --> 00:30:10,880
through is it going to be a real game

884
00:30:15,110 --> 00:30:12,960
changer which it could be is it going to

885
00:30:17,029 --> 00:30:15,120
be something in between

886
00:30:19,830 --> 00:30:17,039
we don't know at this point do we then

887
00:30:22,389 --> 00:30:19,840
no um i mean i i would put it there with

888
00:30:24,310 --> 00:30:22,399

um with gary's work you know when when

889

00:30:26,149 --> 00:30:24,320

it comes i feel like it's gonna come in

890

00:30:27,750 --> 00:30:26,159

a form where we don't have to pour over

891

00:30:29,110 --> 00:30:27,760

those three terabytes they'll already

892

00:30:31,029 --> 00:30:29,120

have been analyzed they'll come with a

893

00:30:33,350 --> 00:30:31,039

paper kind of presenting like these are

894

00:30:35,350 --> 00:30:33,360

the interesting points but the raw data

895

00:30:36,630 --> 00:30:35,360

will be available for us to pull through

896

00:30:38,230 --> 00:30:36,640

and that's kind of what people have

897

00:30:39,669 --> 00:30:38,240

always wanted from the skinwalker rancho

898

00:30:41,190 --> 00:30:39,679

right to kind of really be able to pull

899

00:30:42,549 --> 00:30:41,200

through that data because some people

900

00:30:44,789 --> 00:30:42,559

find going through three terabytes of

901
00:30:47,110 --> 00:30:44,799
data boring other people absolutely love

902
00:30:48,789 --> 00:30:47,120
it um and it's another example where we

903
00:30:50,389 --> 00:30:48,799
could come together and you know all use

904
00:30:52,149 --> 00:30:50,399
our unique skills to kind of really help

905
00:30:54,389 --> 00:30:52,159
move this course forward but i think

906
00:30:56,630 --> 00:30:54,399
what uapx has is going to be

907
00:30:58,389 --> 00:30:56,640
it's going to be very exciting

908
00:30:59,830 --> 00:30:58,399
i hope so and you know what like we've

909
00:31:02,070 --> 00:30:59,840
said it would be hypocritical to say

910
00:31:05,830 --> 00:31:02,080
otherwise even in all those terabytes of

911
00:31:08,870 --> 00:31:05,840
data if there's one video or one picture

912
00:31:10,870 --> 00:31:08,880
or a single frame of a video that

913
00:31:13,509 --> 00:31:10,880

warrants a raised eyebrow and there's

914

00:31:15,590 --> 00:31:13,519

data to back up you know

915

00:31:17,590 --> 00:31:15,600

that that could be pretty special and

916

00:31:20,070 --> 00:31:17,600

this is this for me

917

00:31:22,470 --> 00:31:20,080

uapx could be a platform that leads to

918

00:31:23,990 --> 00:31:22,480

other platforms like it launching off as

919

00:31:25,990 --> 00:31:24,000

well um

920

00:31:27,430 --> 00:31:26,000

but i suppose what you don't want is

921

00:31:28,789 --> 00:31:27,440

loads of different organizations and

922

00:31:30,870 --> 00:31:28,799

groups and i think we talked about this

923

00:31:34,470 --> 00:31:30,880

dan in one of our earlier shows all

924

00:31:36,789 --> 00:31:34,480

springing up and diluting

925

00:31:39,110 --> 00:31:36,799

what could be a bigger effort put

926
00:31:41,029 --> 00:31:39,120
together and a pooling of resources we

927
00:31:42,389 --> 00:31:41,039
talked about the galileo project and

928
00:31:44,710 --> 00:31:42,399
it's amazing how many people are on

929
00:31:45,590 --> 00:31:44,720
board but it's it's hard to tell at this

930
00:31:47,110 --> 00:31:45,600
point

931
00:31:49,750 --> 00:31:47,120
are those people better working in

932
00:31:51,669 --> 00:31:49,760
smaller groups towards one goal or are

933
00:31:54,230 --> 00:31:51,679
they all better pulling together but you

934
00:31:56,149 --> 00:31:54,240
know what it's like like if we had six

935
00:31:58,630 --> 00:31:56,159
hosts on this podcast

936
00:32:00,549 --> 00:31:58,640
it would be less of you less of me not

937
00:32:02,549 --> 00:32:00,559
that that might not be a bad thing but

938
00:32:04,230 --> 00:32:02,559

it's too many for i've always said just

939

00:32:06,149 --> 00:32:04,240

personally it's too many voices all on

940

00:32:08,070 --> 00:32:06,159

at once and if people are listening to

941

00:32:10,230 --> 00:32:08,080

an audio podcast with six or seven or

942

00:32:11,830 --> 00:32:10,240

eight or ten people all shouting it it

943

00:32:13,750 --> 00:32:11,840

dilutes the message

944

00:32:14,549 --> 00:32:13,760

and would it be better they have their

945

00:32:16,870 --> 00:32:14,559

own

946

00:32:18,710 --> 00:32:16,880

separate groups and focuses and on

947

00:32:20,470 --> 00:32:18,720

resources we know they've got uh you

948

00:32:21,830 --> 00:32:20,480

know jeremy mcgowan is a particularly

949

00:32:23,990 --> 00:32:21,840

unique vehicle

950

00:32:26,470 --> 00:32:24,000

and not many people have we know that

951
00:32:27,430 --> 00:32:26,480
they are going to have some some some

952
00:32:31,590 --> 00:32:27,440
sailing

953
00:32:33,750 --> 00:32:31,600
that and different people on board have

954
00:32:36,870 --> 00:32:33,760
different expertise so yeah i'm excited

955
00:32:39,350 --> 00:32:36,880
for what uapx brings i hope it's it's

956
00:32:40,630 --> 00:32:39,360
positive i'm not expecting disclosure

957
00:32:42,549 --> 00:32:40,640
from them or

958
00:32:44,950 --> 00:32:42,559
necessarily a game-changing piece of

959
00:32:47,029 --> 00:32:44,960
evidence but if they can contribute

960
00:32:49,029 --> 00:32:47,039
something that's really positive then

961
00:32:51,750 --> 00:32:49,039
all the better for it and people should

962
00:32:53,190 --> 00:32:51,760
support that my my expectation for it

963
00:32:54,789 --> 00:32:53,200

and we can kind of come back to this

964

00:32:56,710 --> 00:32:54,799

clip when i see the documentary if i'm

965

00:32:58,230 --> 00:32:56,720

like oh god i was so wrong

966

00:32:59,190 --> 00:32:58,240

my expectation for it is that we're

967

00:33:01,110 --> 00:32:59,200

gonna see

968

00:33:03,990 --> 00:33:01,120

how to get something

969

00:33:07,269 --> 00:33:04,000

anomalous maybe out of the water

970

00:33:10,389 --> 00:33:07,279

and how to film it when that happens

971

00:33:11,990 --> 00:33:10,399

if that's a reliable you know data point

972

00:33:13,190 --> 00:33:12,000

we're going to start seeing a lot more

973

00:33:14,710 --> 00:33:13,200

data from people just rocking up to

974

00:33:16,630 --> 00:33:14,720

catalina and trying this and getting

975

00:33:18,389 --> 00:33:16,640

their own footage you know

976

00:33:20,950 --> 00:33:18,399

the documentary is called a tear in the

977

00:33:22,950 --> 00:33:20,960

sky isn't it yeah that's right

978

00:33:25,029 --> 00:33:22,960

and the way to get out the water is a

979

00:33:27,029 --> 00:33:25,039

fishing rod with plutonium on the end of

980

00:33:28,549 --> 00:33:27,039

it would that also be correct yeah yeah

981

00:33:29,990 --> 00:33:28,559

you can also throw mig west in the water

982

00:33:32,470 --> 00:33:30,000

and they'll come right out because you

983

00:33:36,950 --> 00:33:34,630

they'll be suffering on top of a tic-tac

984

00:33:39,190 --> 00:33:36,960

um yeah so next up thanks for that one

985

00:33:40,789 --> 00:33:39,200

gnosis uh yeah you apx big shout out and

986

00:33:43,350 --> 00:33:40,799

i've said before if people can search

987

00:33:45,029 --> 00:33:43,360

gary verhees on youtube gary was looking

988

00:33:46,789 --> 00:33:45,039

to up his subscribers so he could do

989

00:33:48,389 --> 00:33:46,799

more lives as well and that that's

990

00:33:49,909 --> 00:33:48,399

something garyvee should have over a

991

00:33:51,909 --> 00:33:49,919

thousand subscribers if we've got six

992

00:33:53,350 --> 00:33:51,919

and a half thousand then gary deserves

993

00:33:54,789 --> 00:33:53,360

more so please go and follow garyvee

994

00:33:57,350 --> 00:33:54,799

he's on youtube

995

00:33:58,710 --> 00:33:57,360

um jay says this podcast aside thanks

996

00:34:01,590 --> 00:33:58,720

very much jay i didn't add that in

997

00:34:03,430 --> 00:34:01,600

myself i'd say lose interviews with cut

998

00:34:05,509 --> 00:34:03,440

and the ross culture interviews they

999

00:34:06,789 --> 00:34:05,519

capture attention reminds me of

1000

00:34:09,190 --> 00:34:06,799

listening to george knapp when he's

1001
00:34:11,909 --> 00:34:09,200
telling a story it's engrossing it's a

1002
00:34:13,669 --> 00:34:11,919
frustrating topic overall and yeah short

1003
00:34:14,950 --> 00:34:13,679
and sweet that one but as a frustrating

1004
00:34:18,389 --> 00:34:14,960
topic but

1005
00:34:20,629 --> 00:34:18,399
dan even without the uap office that may

1006
00:34:22,149 --> 00:34:20,639
or may not come into existence without

1007
00:34:24,710 --> 00:34:22,159
all the governmental stuff you know we

1008
00:34:27,190 --> 00:34:24,720
could do a year as worth our shows on

1009
00:34:28,950 --> 00:34:27,200
other cases and books and movies and

1010
00:34:31,030 --> 00:34:28,960
ideas and speculation we've just been

1011
00:34:33,270 --> 00:34:31,040
very lucky that in the last year there's

1012
00:34:35,669 --> 00:34:33,280
been so much to talk about from a

1013
00:34:37,190 --> 00:34:35,679

current news point of view and if indeed

1014

00:34:39,109 --> 00:34:37,200

that does slow down over the next few

1015

00:34:40,470 --> 00:34:39,119

months that we kind of expect

1016

00:34:42,069 --> 00:34:40,480

we've got a whole lot of things we can

1017

00:34:44,790 --> 00:34:42,079

talk about and that might be a nice

1018

00:34:46,629 --> 00:34:44,800

welcome change of pace anyway for us but

1019

00:34:47,349 --> 00:34:46,639

yeah i'm really excited about this year

1020

00:34:48,710 --> 00:34:47,359

and

1021

00:34:51,109 --> 00:34:48,720

it might not be the worst thing if we

1022

00:34:53,909 --> 00:34:51,119

have a few months of of less news coming

1023

00:34:56,230 --> 00:34:53,919

out from the from the office and it

1024

00:34:56,950 --> 00:34:56,240

drops with more of a bigger bang for for

1025

00:34:59,589 --> 00:34:56,960

me

1026
00:35:01,030 --> 00:34:59,599
um but yeah that that's anything to add

1027
00:35:02,310 --> 00:35:01,040
to that one

1028
00:35:03,829 --> 00:35:02,320
just uh i mean that that's the second

1029
00:35:05,190 --> 00:35:03,839
time we've mentioned kurt now so i just

1030
00:35:07,510 --> 00:35:05,200
want to give props to him you know he's

1031
00:35:08,310 --> 00:35:07,520
come he's bulldozed into this subject

1032
00:35:09,910 --> 00:35:08,320
with

1033
00:35:11,190 --> 00:35:09,920
an open mind

1034
00:35:12,710 --> 00:35:11,200
and you know people talk about eric

1035
00:35:14,390 --> 00:35:12,720
weinstein and his approach and it's

1036
00:35:16,550 --> 00:35:14,400
amazing that he's come to the subject

1037
00:35:18,950 --> 00:35:16,560
but they both admit their ignorance in

1038
00:35:20,390 --> 00:35:18,960

the subject you know it's not an insult

1039

00:35:21,510 --> 00:35:20,400

to be called ignorant it just means you

1040

00:35:23,109 --> 00:35:21,520

don't know

1041

00:35:24,630 --> 00:35:23,119

if you decide not to learn at that point

1042

00:35:25,910 --> 00:35:24,640

that makes you willfully ignorant that

1043

00:35:28,069 --> 00:35:25,920

is an insult

1044

00:35:29,670 --> 00:35:28,079

um whereas these guys you know they

1045

00:35:32,150 --> 00:35:29,680

admit their ignorance and they're here

1046

00:35:33,589 --> 00:35:32,160

to listen and learn with us and i think

1047

00:35:35,430 --> 00:35:33,599

that's really important and they set a

1048

00:35:37,349 --> 00:35:35,440

great example

1049

00:35:39,589 --> 00:35:37,359

absolutely we got some nice comments in

1050

00:35:41,270 --> 00:35:39,599

and that where melanie and couldn't pick

1051

00:35:42,790 --> 00:35:41,280

a favorite and then said all our shows

1052

00:35:45,030 --> 00:35:42,800

have been thought provoking insightful

1053

00:35:47,829 --> 00:35:45,040

and downright great so thank you melanie

1054

00:35:49,910 --> 00:35:47,839

dalia said uh her highlight was personal

1055

00:35:51,829 --> 00:35:49,920

uh she discovered earlier this year that

1056

00:35:54,630 --> 00:35:51,839

she saw what she was pretty sure was the

1057

00:35:56,950 --> 00:35:54,640

phoenix lakes except she was in elfida

1058

00:35:58,550 --> 00:35:56,960

arizona it was a group sighting and she

1059

00:35:59,910 --> 00:35:58,560

had completely forgotten about it which

1060

00:36:02,310 --> 00:35:59,920

is super weird because she's been into

1061

00:36:04,069 --> 00:36:02,320

ufos her whole life pretty cool to think

1062

00:36:05,670 --> 00:36:04,079

i was part of that stranger moment in

1063

00:36:07,510 --> 00:36:05,680

history so yeah that's that's a cool one

1064

00:36:09,589 --> 00:36:07,520

that's very cool yeah

1065

00:36:11,510 --> 00:36:09,599

um and jean said for me it was reading

1066

00:36:13,589 --> 00:36:11,520

ross coltar's book and your interviews

1067

00:36:15,430 --> 00:36:13,599

with him a roundtable of authors would

1068

00:36:18,069 --> 00:36:15,440

be something that interests me a

1069

00:36:20,390 --> 00:36:18,079

roundtable of podcasters on the subject

1070

00:36:21,750 --> 00:36:20,400

as well so yeah good shout good idea

1071

00:36:23,430 --> 00:36:21,760

something to look into

1072

00:36:25,510 --> 00:36:23,440

do you know what can be really hard just

1073

00:36:27,430 --> 00:36:25,520

on that is and i loved getting the

1074

00:36:29,190 --> 00:36:27,440

surveys back from people and you know

1075

00:36:30,630 --> 00:36:29,200

people will say i wish you you should

1076

00:36:32,630 --> 00:36:30,640

have done two hours with ross or you

1077

00:36:35,270 --> 00:36:32,640

should have done three hours with lou

1078

00:36:36,950 --> 00:36:35,280

and i i would love to go that long with

1079

00:36:39,349 --> 00:36:36,960

any of the guests that we have

1080

00:36:40,870 --> 00:36:39,359

but um people tend to be quite limited

1081

00:36:42,710 --> 00:36:40,880

in the time that they have

1082

00:36:44,230 --> 00:36:42,720

and especially when people are doing a

1083

00:36:46,710 --> 00:36:44,240

media run they might have five

1084

00:36:48,150 --> 00:36:46,720

interviews on that day um

1085

00:36:49,430 --> 00:36:48,160

we try and catch people when they're on

1086

00:36:51,510 --> 00:36:49,440

their own and it's maybe a little bit

1087

00:36:53,670 --> 00:36:51,520

later or a bit earlier just to get a bit

1088

00:36:56,069 --> 00:36:53,680

of a different interview of them but

1089

00:36:57,430 --> 00:36:56,079

yeah for for me um

1090

00:36:59,109 --> 00:36:57,440

getting some of those people together on

1091

00:37:00,870 --> 00:36:59,119

one podcast would be would be

1092

00:37:02,390 --> 00:37:00,880

outstanding um and maybe that's

1093

00:37:03,829 --> 00:37:02,400

something we can look into this year

1094

00:37:05,670 --> 00:37:03,839

because i've not done a roundtable for a

1095

00:37:07,030 --> 00:37:05,680

while so um

1096

00:37:08,870 --> 00:37:07,040

yeah that could be that could be worth

1097

00:37:10,390 --> 00:37:08,880

them looking into yeah i think that

1098

00:37:13,030 --> 00:37:10,400

would be excellent um

1099

00:37:14,710 --> 00:37:13,040

ross started a podcast with bryce label

1100

00:37:16,069 --> 00:37:14,720

uh in december as well called need to

1101

00:37:17,910 --> 00:37:16,079

know i'd recommend everyone check that

1102

00:37:19,750 --> 00:37:17,920

out it's just them kind of discussing

1103

00:37:22,230 --> 00:37:19,760

you know what you heard ross discuss and

1104

00:37:25,190 --> 00:37:22,240

bryce sable um directly dark skies and a

1105

00:37:26,390 --> 00:37:25,200

whole host of uh ufo content and he's i

1106

00:37:28,550 --> 00:37:26,400

think he's currently working on a betty

1107

00:37:30,470 --> 00:37:28,560

and bonnie hill adaptation um so he

1108

00:37:32,069 --> 00:37:30,480

knows his stuff too um there's my

1109

00:37:34,230 --> 00:37:32,079

favorite piece of his is on john

1110

00:37:36,390 --> 00:37:34,240

lennon's ufo sighting and you can find

1111

00:37:38,069 --> 00:37:36,400

that on medium.com i'd recommend just

1112

00:37:40,230 --> 00:37:38,079

have a google have a read of it it's

1113

00:37:42,069 --> 00:37:40,240

quite a stunning sighting um especially

1114

00:37:43,670 --> 00:37:42,079

to come from john lennon

1115

00:37:45,670 --> 00:37:43,680

dan make a note we'll stick that one and

1116

00:37:47,430 --> 00:37:45,680

there's the description of the podcast

1117

00:37:49,670 --> 00:37:47,440

as well that was something people asked

1118

00:37:51,750 --> 00:37:49,680

us to do more of and i do try and write

1119

00:37:53,910 --> 00:37:51,760

them down as we as we go along so we'll

1120

00:37:55,030 --> 00:37:53,920

get those in there for people as well we

1121

00:37:56,230 --> 00:37:55,040

are trying to get better and a bit

1122

00:37:59,109 --> 00:37:56,240

tighter with that kind of stuff this

1123

00:38:00,710 --> 00:37:59,119

year folks um katie says for me one of

1124

00:38:03,270 --> 00:38:00,720

the major highlights was definitely the

1125

00:38:05,829 --> 00:38:03,280

galileo project just love the ideas and

1126

00:38:07,990 --> 00:38:05,839

attitude of leader avi loeb scientists

1127

00:38:09,910 --> 00:38:08,000

are finally on the case and the research

1128

00:38:11,589 --> 00:38:09,920

will be public i'm really excited about

1129

00:38:13,750 --> 00:38:11,599

the research we will see in our lifetime

1130

00:38:16,230 --> 00:38:13,760

from this project and all the brilliant

1131

00:38:18,230 --> 00:38:16,240

minds associated with it in addition the

1132

00:38:20,069 --> 00:38:18,240

uap task force report in june and the

1133

00:38:21,829 --> 00:38:20,079

recent amendments to the defence bill

1134

00:38:24,150 --> 00:38:21,839

for sure

1135

00:38:25,670 --> 00:38:24,160

is avi luebbe the leader of that

1136

00:38:28,230 --> 00:38:25,680

organization

1137

00:38:30,870 --> 00:38:28,240

i mean yeah pretty much um there are a

1138

00:38:33,270 --> 00:38:30,880

number of people involved but he's the

1139

00:38:34,950 --> 00:38:33,280

founder of the project um along with the

1140

00:38:36,710 --> 00:38:34,960

guy who gave him that initial capsule i

1141

00:38:38,710 --> 00:38:36,720

forget the gentleman's name now uh but i

1142

00:38:40,230 --> 00:38:38,720

know he was anonymous for a while so my

1143

00:38:41,670 --> 00:38:40,240

brain's still kind of blanking he's

1144

00:38:42,950 --> 00:38:41,680

listed on the research page and avi

1145

00:38:45,270 --> 00:38:42,960

wrote a

1146

00:38:47,670 --> 00:38:45,280

an article about how the galileo project

1147

00:38:49,750 --> 00:38:47,680

came to be um so i regretted those two

1148

00:38:52,150 --> 00:38:49,760

guys with kind of running and owning the

1149

00:38:55,430 --> 00:38:53,589

yeah you know what fair enough he's the

1150

00:38:57,109 --> 00:38:55,440

head of the galileo project yeah i

1151
00:38:58,550 --> 00:38:57,119
couldn't remember the exact title but on

1152
00:39:00,630 --> 00:38:58,560
the on the main page it's head of the

1153
00:39:02,390 --> 00:39:00,640
galileo project that was the one i know

1154
00:39:03,589 --> 00:39:02,400
avi's one of those people that probably

1155
00:39:05,750 --> 00:39:03,599
wouldn't like to be labeled something

1156
00:39:07,910 --> 00:39:05,760
that he hasn't so uh but yeah fair

1157
00:39:09,430 --> 00:39:07,920
enough if he's the head he's ahead um

1158
00:39:12,310 --> 00:39:09,440
and you know what he's a great guy to do

1159
00:39:14,550 --> 00:39:12,320
that i've seen some criticism of of avi

1160
00:39:16,230 --> 00:39:14,560
um online recently and again it was only

1161
00:39:18,630 --> 00:39:16,240
a couple of people but

1162
00:39:20,790 --> 00:39:18,640
they were commenting on a few podcasts

1163
00:39:23,109 --> 00:39:20,800

or shows that avi had gone on to

1164

00:39:24,950 --> 00:39:23,119

um again i don't think it matters if

1165

00:39:27,270 --> 00:39:24,960

they have huge audiences or small

1166

00:39:29,430 --> 00:39:27,280

audiences but people commented that

1167

00:39:31,430 --> 00:39:29,440

there's a lot of conspiracy theorists on

1168

00:39:33,270 --> 00:39:31,440

as guests on some of those shows

1169

00:39:35,430 --> 00:39:33,280

and avi shouldn't be doing those types

1170

00:39:37,910 --> 00:39:35,440

of shows but for me i think it shows one

1171

00:39:39,829 --> 00:39:37,920

that avi's happy to go on podcasts with

1172

00:39:42,310 --> 00:39:39,839

two or three hundred people or two or

1173

00:39:45,030 --> 00:39:42,320

three million as he was a guest on this

1174

00:39:46,470 --> 00:39:45,040

podcast when there was only a couple of

1175

00:39:48,470 --> 00:39:46,480

maybe a couple of thousand people

1176

00:39:50,550 --> 00:39:48,480

listening which is amazing but earlier

1177

00:39:51,670 --> 00:39:50,560

this year the week after he was on joe

1178

00:39:54,550 --> 00:39:51,680

rogan

1179

00:39:57,030 --> 00:39:54,560

so you know that's that's a hell of a

1180

00:39:59,670 --> 00:39:57,040

difference in podcasting terms that joe

1181

00:40:02,630 --> 00:39:59,680

rogan to this podcast and avi was happy

1182

00:40:04,390 --> 00:40:02,640

to sit and do equally both of those um

1183

00:40:06,630 --> 00:40:04,400

which which is amazing for for people

1184

00:40:08,470 --> 00:40:06,640

like myself and other podcasters so i

1185

00:40:10,790 --> 00:40:08,480

think it's a good sign that no matter

1186

00:40:12,950 --> 00:40:10,800

the quality or or guest reach of any

1187

00:40:15,349 --> 00:40:12,960

show that avi is willing to go on there

1188

00:40:17,349 --> 00:40:15,359

and talk about the subject and

1189

00:40:19,190 --> 00:40:17,359

and get the message out there

1190

00:40:21,670 --> 00:40:19,200

regardless so i can only see that as a

1191

00:40:22,790 --> 00:40:21,680

positive but i i appreciate people might

1192

00:40:25,589 --> 00:40:22,800

be

1193

00:40:28,069 --> 00:40:25,599

guarded or defensive of avi's message

1194

00:40:29,670 --> 00:40:28,079

and status and you know how he's seen by

1195

00:40:31,670 --> 00:40:29,680

other members of the public

1196

00:40:33,190 --> 00:40:31,680

but again it just goes to show he's he's

1197

00:40:34,630 --> 00:40:33,200

the one that's getting this

1198

00:40:36,309 --> 00:40:34,640

um

1199

00:40:38,069 --> 00:40:36,319

difficult time from his peers and

1200

00:40:41,109 --> 00:40:38,079

colleagues as we've seen in different

1201

00:40:42,630 --> 00:40:41,119

interviews and that got leaked online

1202

00:40:44,390 --> 00:40:42,640

because of what he's talking about and

1203

00:40:47,430 --> 00:40:44,400

how he's talking about it he's being

1204

00:40:48,790 --> 00:40:47,440

ridiculed from within um so it speaks a

1205

00:40:49,670 --> 00:40:48,800

lot to the man that he's willing to go

1206

00:40:51,750 --> 00:40:49,680

on to

1207

00:40:53,510 --> 00:40:51,760

other shows and podcasts and tv

1208

00:40:55,589 --> 00:40:53,520

interviews and and talk about this in

1209

00:40:57,510 --> 00:40:55,599

such a public way so you've got to see

1210

00:40:58,710 --> 00:40:57,520

more power to him for that yeah yeah i

1211

00:41:00,390 --> 00:40:58,720

agree you know

1212

00:41:01,829 --> 00:41:00,400

science is something to inspire people

1213

00:41:03,670 --> 00:41:01,839

with not to

1214

00:41:05,510 --> 00:41:03,680

lock behind the door and close people's

1215

00:41:07,910 --> 00:41:05,520

minds over and say you know don't don't

1216

00:41:09,910 --> 00:41:07,920

look the down the telescope um

1217

00:41:11,109 --> 00:41:09,920

and change our paradigm um avi's not

1218

00:41:13,349 --> 00:41:11,119

afraid to do that you know the name's

1219

00:41:15,670 --> 00:41:13,359

very fitting project galileo

1220

00:41:17,190 --> 00:41:15,680

and abby wants to inspire people to join

1221

00:41:18,710 --> 00:41:17,200

efforts like this and start looking

1222

00:41:20,710 --> 00:41:18,720

because there are goddamn miracles out

1223

00:41:22,470 --> 00:41:20,720

there in the universe and you just have

1224

00:41:24,790 --> 00:41:22,480

to look that's it

1225

00:41:28,630 --> 00:41:24,800

dan on the spot uh what are you

1226
00:41:30,710 --> 00:41:28,640
expecting from project galileo this year

1227
00:41:32,309 --> 00:41:30,720
so i would expect kind of

1228
00:41:33,430 --> 00:41:32,319
i'll be a little conservative you know i

1229
00:41:35,190 --> 00:41:33,440
don't think we're going to get a picture

1230
00:41:38,470 --> 00:41:35,200
of a gray kind of throwing the peace

1231
00:41:40,150 --> 00:41:38,480
sign out a window um i i think we'll

1232
00:41:42,630 --> 00:41:40,160
probably

1233
00:41:44,230 --> 00:41:42,640
start seeing the data flow in

1234
00:41:46,470 --> 00:41:44,240
the analysis will probably start in the

1235
00:41:50,069 --> 00:41:46,480
second half of this year but

1236
00:41:51,270 --> 00:41:50,079
once they make this initial sensor kit

1237
00:41:52,950 --> 00:41:51,280
and roll it out and they know it's

1238
00:41:54,870 --> 00:41:52,960

working it's just a case of replicating

1239

00:41:57,270 --> 00:41:54,880

those efforts so i think by the end of

1240

00:42:00,309 --> 00:41:57,280

2022 we'll have a lot of them at

1241

00:42:02,710 --> 00:42:00,319

different points all over the planet

1242

00:42:03,910 --> 00:42:02,720

awesome yeah i'm excited for galileo

1243

00:42:05,589 --> 00:42:03,920

project and

1244

00:42:08,309 --> 00:42:05,599

it's it's interesting that we've got the

1245

00:42:11,349 --> 00:42:08,319

james webb going up and looking way out

1246

00:42:14,390 --> 00:42:11,359

and we've got the galileo project that's

1247

00:42:16,150 --> 00:42:14,400

based on the earth but again looking

1248

00:42:17,589 --> 00:42:16,160

a little bit closer than where james

1249

00:42:18,630 --> 00:42:17,599

webb's going to be looking relatively

1250

00:42:21,430 --> 00:42:18,640

speaking

1251

00:42:23,270 --> 00:42:21,440

and we have uapx who are based here and

1252

00:42:25,589 --> 00:42:23,280

looking very much at our oceans and our

1253

00:42:27,430 --> 00:42:25,599

skies and and a few other projects and

1254

00:42:29,430 --> 00:42:27,440

whatnot along the way as well so i think

1255

00:42:31,589 --> 00:42:29,440

we're starting to cover bases that we've

1256

00:42:33,910 --> 00:42:31,599

never really had covered all at once and

1257

00:42:35,910 --> 00:42:33,920

again if these groups and organizations

1258

00:42:37,589 --> 00:42:35,920

could could speak to each other that

1259

00:42:39,990 --> 00:42:37,599

that can only be beneficial i'm sure as

1260

00:42:41,510 --> 00:42:40,000

well so a lot to look forward to there

1261

00:42:43,190 --> 00:42:41,520

the the james webb was one of my

1262

00:42:45,270 --> 00:42:43,200

highlights this year i sat watching it

1263

00:42:47,030 --> 00:42:45,280

on christmas morning uh i love

1264

00:42:48,790 --> 00:42:47,040

control celebrate after it goes off

1265

00:42:50,950 --> 00:42:48,800

without a hitch you know it's just all

1266

00:42:52,550 --> 00:42:50,960

those people work so hard on this for so

1267

00:42:54,470 --> 00:42:52,560

long and it's an incredible feat of

1268

00:42:56,150 --> 00:42:54,480

engineering in the teamwork but it's

1269

00:42:59,430 --> 00:42:56,160

going to be looking at the ir kind of

1270

00:43:00,710 --> 00:42:59,440

spectrum near and mid um

1271

00:43:02,230 --> 00:43:00,720

and

1272

00:43:03,829 --> 00:43:02,240

it'll be able to kind of you know if

1273

00:43:06,550 --> 00:43:03,839

there's say for example it was looking

1274

00:43:08,150 --> 00:43:06,560

at earth from bajillion miles away um it

1275

00:43:10,069 --> 00:43:08,160

would be able to see the emissions from

1276

00:43:12,390 --> 00:43:10,079

our cars from our homes from the lights

1277

00:43:14,150 --> 00:43:12,400

you know things like that um so things

1278

00:43:15,349 --> 00:43:14,160

like i didn't remember tabby's star

1279

00:43:17,030 --> 00:43:15,359

where it was dimming and they thought it

1280

00:43:18,230 --> 00:43:17,040

might be a dyson sphere around the star

1281

00:43:19,430 --> 00:43:18,240

and they kind of kept looking and kept

1282

00:43:21,750 --> 00:43:19,440

looking and they think it's spaced us

1283

00:43:24,230 --> 00:43:21,760

now with that we'll just be able to look

1284

00:43:27,190 --> 00:43:24,240

at it and instead of the

1285

00:43:29,030 --> 00:43:27,200

if it is spaced us we there are certain

1286

00:43:31,109 --> 00:43:29,040

signs that will show that in infrared as

1287

00:43:33,270 --> 00:43:31,119

opposed to actually seeing a full power

1288

00:43:35,270 --> 00:43:33,280

output um of a star being dimmed by the

1289

00:43:37,270 --> 00:43:35,280

amount that the guy who

1290

00:43:39,750 --> 00:43:37,280

kind of came up with the idea of dyson

1291

00:43:41,910 --> 00:43:39,760

spheres his whole work was how to find

1292

00:43:43,670 --> 00:43:41,920

it with ir and that's what they're doing

1293

00:43:45,430 --> 00:43:43,680

now so it's very cool it's uh

1294

00:43:48,710 --> 00:43:45,440

potentially amazing

1295

00:43:50,870 --> 00:43:48,720

dan realistically uh james webb goes up

1296

00:43:54,630 --> 00:43:50,880

and it's unfurling its shield just now i

1297

00:43:56,390 --> 00:43:54,640

think still yeah is that right the the

1298

00:43:58,309 --> 00:43:56,400

deployed but i think it's not tensioned

1299

00:44:00,069 --> 00:43:58,319

at the moment

1300

00:44:02,150 --> 00:44:00,079

okay

1301
00:44:03,750 --> 00:44:02,160
come march or april and it's it's been

1302
00:44:05,990 --> 00:44:03,760
fully up and running for a little while

1303
00:44:08,150 --> 00:44:06,000
and it's starting to to get images and

1304
00:44:09,750 --> 00:44:08,160
gather data

1305
00:44:11,510 --> 00:44:09,760
say it picks something up that's pretty

1306
00:44:12,790 --> 00:44:11,520
remarkable it picks up a planet

1307
00:44:15,510 --> 00:44:12,800
somewhere

1308
00:44:17,109 --> 00:44:15,520
and it manages to see you know

1309
00:44:17,910 --> 00:44:17,119
cities lights

1310
00:44:19,589 --> 00:44:17,920
or

1311
00:44:21,750 --> 00:44:19,599
an odd chemical composition in an

1312
00:44:23,030 --> 00:44:21,760
atmosphere or

1313
00:44:24,470 --> 00:44:23,040

do you think we're going to get that

1314

00:44:25,349 --> 00:44:24,480

reported straight back to the public

1315

00:44:27,510 --> 00:44:25,359

though

1316

00:44:29,349 --> 00:44:27,520

no it'll be like the venus phosphene

1317

00:44:31,349 --> 00:44:29,359

thing where they took a number of years

1318

00:44:33,670 --> 00:44:31,359

to kind of go through it the peer review

1319

00:44:35,829 --> 00:44:33,680

process happened it wasn't until they

1320

00:44:38,790 --> 00:44:35,839

had um scientists refer to it as like

1321

00:44:40,870 --> 00:44:38,800

sigma five sigma six it means that you

1322

00:44:42,470 --> 00:44:40,880

know beyond a reasonable doubt this is

1323

00:44:43,349 --> 00:44:42,480

what we're looking at it's how certain

1324

00:44:46,069 --> 00:44:43,359

they are the higher the number the

1325

00:44:47,589 --> 00:44:46,079

better basically um and they've actually

1326

00:44:49,670 --> 00:44:47,599

just looked over those fostering results

1327

00:44:51,430 --> 00:44:49,680

from venus again and there's a mission

1328

00:44:53,829 --> 00:44:51,440

that'll get there i think it's in 2023

1329

00:44:55,430 --> 00:44:53,839

or maybe it's launching then um

1330

00:44:58,230 --> 00:44:55,440

but these little bits of data just

1331

00:45:00,069 --> 00:44:58,240

prompt us to look more intensely so you

1332

00:45:01,270 --> 00:45:00,079

know the the james webb telescope we're

1333

00:45:03,030 --> 00:45:01,280

we're there in the moment thinking oh

1334

00:45:04,470 --> 00:45:03,040

yeah it'll have some cool ir pictures

1335

00:45:06,630 --> 00:45:04,480

they might find life on another planet

1336

00:45:08,390 --> 00:45:06,640

so on so forth it might find something

1337

00:45:12,069 --> 00:45:08,400

we don't even know exists right now and

1338

00:45:14,150 --> 00:45:12,079

have no idea about at all um and and

1339

00:45:15,990 --> 00:45:14,160

that's super exciting

1340

00:45:17,910 --> 00:45:16,000

i think it's only fitting to finish off

1341

00:45:19,910 --> 00:45:17,920

from a lesnar's point of view with

1342

00:45:21,510 --> 00:45:19,920

dave smetherst who has been in regular

1343

00:45:24,150 --> 00:45:21,520

touch with both of us it was great to

1344

00:45:26,790 --> 00:45:24,160

meet him back at the ufo minicon in

1345

00:45:28,710 --> 00:45:26,800

preston and i'm sure we'll be meeting up

1346

00:45:30,390 --> 00:45:28,720

again a couple of times this year and

1347

00:45:32,309 --> 00:45:30,400

dave commented that obviously his

1348

00:45:35,030 --> 00:45:32,319

highlight of the year was the uap report

1349

00:45:37,349 --> 00:45:35,040

acknowledging ufo reality and tech we

1350

00:45:39,190 --> 00:45:37,359

don't understand closely followed by the

1351

00:45:41,190 --> 00:45:39,200

gillibrand amendment being approved as

1352

00:45:42,790 --> 00:45:41,200

part of the ndaa

1353

00:45:44,630 --> 00:45:42,800

assuming that it's most people's choice

1354

00:45:46,550 --> 00:45:44,640

another big highlight was lou alluding

1355

00:45:49,030 --> 00:45:46,560

to our dna potentially being altered

1356

00:45:51,589 --> 00:45:49,040

under history not being habits written

1357

00:45:54,470 --> 00:45:51,599

on cut dry mungo's show later backed up

1358

00:45:55,990 --> 00:45:54,480

by john ramirez mind blowing and plot

1359

00:45:58,150 --> 00:45:56,000

sickening

1360

00:45:59,990 --> 00:45:58,160

yeah so again dave comments on a few of

1361

00:46:02,630 --> 00:46:00,000

the the well-known ones we've talked

1362

00:46:04,790 --> 00:46:02,640

about there but regarding the dna

1363

00:46:07,510 --> 00:46:04,800

alterations that was something

1364

00:46:08,950 --> 00:46:07,520

new that that came out this year from

1365

00:46:10,550 --> 00:46:08,960

lou um

1366

00:46:11,829 --> 00:46:10,560

i think i think that was like interview

1367

00:46:13,430 --> 00:46:11,839

as well wasn't it it was yeah yeah

1368

00:46:15,510 --> 00:46:13,440

that's what we were saying yeah i think

1369

00:46:17,990 --> 00:46:15,520

something that i'm going to do hopefully

1370

00:46:20,630 --> 00:46:18,000

this month or so is um actually nope

1371

00:46:22,230 --> 00:46:20,640

i'll keep that to myself because yeah i

1372

00:46:25,910 --> 00:46:22,240

will

1373

00:46:27,510 --> 00:46:25,920

tested and what are we going to see if

1374

00:46:29,510 --> 00:46:27,520

you're reptilian

1375

00:46:32,230 --> 00:46:29,520

yes no sponsor 23 and me on the

1376
00:46:36,630 --> 00:46:33,829
that would be a really good segue into

1377
00:46:38,790 --> 00:46:36,640
that no that is not a sponsor um but

1378
00:46:40,470 --> 00:46:38,800
yeah um

1379
00:46:42,230 --> 00:46:40,480
i'll i'll yeah i'll keep that one to

1380
00:46:45,030 --> 00:46:42,240
myself and i'll sort it but yeah that

1381
00:46:47,030 --> 00:46:45,040
was a really interesting comment and

1382
00:46:48,950 --> 00:46:47,040
to be fair i think john ramirez as a

1383
00:46:51,349 --> 00:46:48,960
personality and character

1384
00:46:53,030 --> 00:46:51,359
is very different to lou

1385
00:46:54,309 --> 00:46:53,040
um

1386
00:46:57,829 --> 00:46:54,319
not the same

1387
00:46:59,510 --> 00:46:57,839
no but then again if if lou came out

1388
00:47:02,550 --> 00:46:59,520

as he as

1389

00:47:03,990 --> 00:47:02,560

now and imagine in one interview

1390

00:47:05,829 --> 00:47:04,000

talked about all the things that he has

1391

00:47:07,109 --> 00:47:05,839

over the last couple of years

1392

00:47:08,230 --> 00:47:07,119

do you think he would be seen

1393

00:47:10,069 --> 00:47:08,240

differently

1394

00:47:11,829 --> 00:47:10,079

because he wouldn't have then had a

1395

00:47:14,630 --> 00:47:11,839

couple of years of

1396

00:47:16,790 --> 00:47:14,640

much slower build up and drip feed of

1397

00:47:18,550 --> 00:47:16,800

information and he talks about you know

1398

00:47:20,069 --> 00:47:18,560

disclosure being like the tap dripping

1399

00:47:21,589 --> 00:47:20,079

dripping dripping

1400

00:47:23,109 --> 00:47:21,599

but lewis can have done that himself

1401
00:47:24,950 --> 00:47:23,119
with what he's talked about and do you

1402
00:47:26,950 --> 00:47:24,960
think that's maybe why someone like john

1403
00:47:29,190 --> 00:47:26,960
ramirez if he'd come out and been a

1404
00:47:30,870 --> 00:47:29,200
little bit more reserved at first and

1405
00:47:32,390 --> 00:47:30,880
built up to talk about what he's talking

1406
00:47:34,150 --> 00:47:32,400
about would have been seen a bit

1407
00:47:36,630 --> 00:47:34,160
differently

1408
00:47:39,030 --> 00:47:36,640
probably for me was how john presented

1409
00:47:40,230 --> 00:47:39,040
it you know in in project unity's

1410
00:47:41,910 --> 00:47:40,240
interview with him there was a whole

1411
00:47:44,230 --> 00:47:41,920
section of his presentation called

1412
00:47:46,309 --> 00:47:44,240
speculation and the more interviews john

1413
00:47:48,549 --> 00:47:46,319

did the more that speculation word

1414

00:47:49,430 --> 00:47:48,559

dropped from what he was talking about

1415

00:47:51,190 --> 00:47:49,440

um

1416

00:47:52,870 --> 00:47:51,200

i i love the organizational stuff that

1417

00:47:54,870 --> 00:47:52,880

john talks about how how the different

1418

00:47:56,069 --> 00:47:54,880

offices work what data they have how you

1419

00:47:59,109 --> 00:47:56,079

afford them i think that's really

1420

00:48:01,750 --> 00:47:59,119

interesting um but once we get to

1421

00:48:03,510 --> 00:48:01,760

the patches and them being a secret way

1422

00:48:04,950 --> 00:48:03,520

to tell the world that reptilians run

1423

00:48:06,710 --> 00:48:04,960

the world you know there's there's

1424

00:48:07,910 --> 00:48:06,720

esoteric symbolism and the patches i

1425

00:48:09,750 --> 00:48:07,920

make

1426

00:48:12,150 --> 00:48:09,760

i don't know i have any secret inside

1427

00:48:14,309 --> 00:48:12,160

knowledge that you know there's a we all

1428

00:48:15,510 --> 00:48:14,319

have a real third eye and so so on so

1429

00:48:16,710 --> 00:48:15,520

forth and

1430

00:48:19,430 --> 00:48:16,720

you know

1431

00:48:22,230 --> 00:48:19,440

it's just it's it's just conjecture and

1432

00:48:24,150 --> 00:48:22,240

speculation i i in the editing process

1433

00:48:25,430 --> 00:48:24,160

might cut out that you said i don't have

1434

00:48:26,630 --> 00:48:25,440

any secret knowledge and i'll just hit

1435

00:48:28,549 --> 00:48:26,640

the word don't out and it's just going

1436

00:48:30,150 --> 00:48:28,559

to be using i have secret knowledge that

1437

00:48:31,910 --> 00:48:30,160

we have a third eye

1438

00:48:34,069 --> 00:48:31,920

and that could get people talking yeah

1439

00:48:35,109 --> 00:48:34,079

it would get people talking but that

1440

00:48:37,030 --> 00:48:35,119

that's the difference between him and

1441

00:48:38,870 --> 00:48:37,040

lou i think when lou gets to that level

1442

00:48:41,270 --> 00:48:38,880

of speculation he says

1443

00:48:44,230 --> 00:48:41,280

you know i'm not gonna speculate or this

1444

00:48:45,670 --> 00:48:44,240

is my opinion um and i don't really feel

1445

00:48:48,710 --> 00:48:45,680

like he'd ever go that far on that

1446

00:48:50,470 --> 00:48:48,720

tenuous level of evidence

1447

00:48:51,750 --> 00:48:50,480

that's um everything for listeners

1448

00:48:53,349 --> 00:48:51,760

comments we're going to finish off with

1449

00:48:55,670 --> 00:48:53,359

our highlights dan i'm going to throw

1450

00:48:57,589 --> 00:48:55,680

one in here though that i didn't plan on

1451

00:48:58,870 --> 00:48:57,599

doing but i think we can discuss quickly

1452

00:49:01,349 --> 00:48:58,880

because something came up as you were

1453

00:49:03,829 --> 00:49:01,359

discussing and i suppose

1454

00:49:06,309 --> 00:49:03,839

one of my low lights of the year

1455

00:49:07,910 --> 00:49:06,319

is something you mentioned earlier and

1456

00:49:09,510 --> 00:49:07,920

thinking back there's been a whole lot

1457

00:49:10,790 --> 00:49:09,520

happened and this is a roller coaster

1458

00:49:12,470 --> 00:49:10,800

there's ups and downs and it'll happen

1459

00:49:14,309 --> 00:49:12,480

again this year folks

1460

00:49:16,870 --> 00:49:14,319

if you think it's going to be a a nice

1461

00:49:18,870 --> 00:49:16,880

easy journey to the ufo office being set

1462

00:49:21,589 --> 00:49:18,880

up it's set up and then we get weekly

1463

00:49:23,190 --> 00:49:21,599

briefings dropping on youtube from from

1464

00:49:24,549 --> 00:49:23,200

someone running that program that's not

1465

00:49:27,349 --> 00:49:24,559

going to happen

1466

00:49:29,430 --> 00:49:27,359

but something i was really excited for

1467

00:49:30,870 --> 00:49:29,440

and given the person involved and

1468

00:49:33,910 --> 00:49:30,880

attached and

1469

00:49:36,710 --> 00:49:33,920

the production values was the jj abrams

1470

00:49:38,710 --> 00:49:36,720

ufo series and i thought given the

1471

00:49:42,069 --> 00:49:38,720

timing of it just after the report had

1472

00:49:43,829 --> 00:49:42,079

come out and jj abrams as a director and

1473

00:49:45,270 --> 00:49:43,839

having a lot of you know respect and

1474

00:49:46,630 --> 00:49:45,280

everything else

1475

00:49:48,710 --> 00:49:46,640

i thought that could be pretty

1476

00:49:50,470 --> 00:49:48,720

groundbreaking um

1477

00:49:52,710 --> 00:49:50,480

i thought this could be

1478

00:49:54,390 --> 00:49:52,720

the phenomenon times 10 and for the

1479

00:49:56,390 --> 00:49:54,400

mainstream and for the general not that

1480

00:49:58,950 --> 00:49:56,400

the the phenomenon documentary by james

1481

00:50:01,430 --> 00:49:58,960

fox isn't for the mainstream but

1482

00:50:04,150 --> 00:50:01,440

wow sticking that was it on hbo max yeah

1483

00:50:05,910 --> 00:50:04,160

that's right yeah um i thought and it's

1484

00:50:08,230 --> 00:50:05,920

on sky over here in the uk i think you

1485

00:50:09,510 --> 00:50:08,240

can still get it on demand

1486

00:50:11,990 --> 00:50:09,520

i thought that could have been a real

1487

00:50:14,710 --> 00:50:12,000

game changer for public perception and

1488

00:50:16,630 --> 00:50:14,720

instead it seemed that they

1489

00:50:17,750 --> 00:50:16,640

they had a good idea and had some good

1490

00:50:19,510 --> 00:50:17,760

intentions

1491

00:50:21,270 --> 00:50:19,520

they didn't have enough content for four

1492

00:50:22,790 --> 00:50:21,280

episodes but decided to go with four

1493

00:50:23,589 --> 00:50:22,800

episodes anyway

1494

00:50:26,790 --> 00:50:23,599

and

1495

00:50:27,990 --> 00:50:26,800

decided to do two good episodes

1496

00:50:29,670 --> 00:50:28,000

and then two

1497

00:50:32,549 --> 00:50:29,680

really poor

1498

00:50:34,390 --> 00:50:32,559

speculative episodes that just

1499

00:50:35,990 --> 00:50:34,400

took away all the good work done in

1500

00:50:37,109 --> 00:50:36,000

those first two

1501
00:50:39,349 --> 00:50:37,119
and for me that was a real

1502
00:50:41,109 --> 00:50:39,359
disappointment

1503
00:50:42,069 --> 00:50:41,119
yeah um i i totally thought you were

1504
00:50:44,549 --> 00:50:42,079
going to say something different by the

1505
00:50:45,589 --> 00:50:44,559
way i wrote down

1506
00:50:46,870 --> 00:50:45,599
what did you what did you think i was

1507
00:50:48,230 --> 00:50:46,880
going to say uh i thought you're going

1508
00:50:49,670 --> 00:50:48,240
to say what would be my low light of the

1509
00:50:52,309 --> 00:50:49,680
year we'll start with low lights because

1510
00:50:54,309 --> 00:50:52,319
the bad news is yeah i'm going to ask

1511
00:50:56,710 --> 00:50:54,319
you you're low light anyway yeah yeah um

1512
00:50:59,270 --> 00:50:56,720
and jolly and that whole mess i i feel

1513
00:51:02,069 --> 00:50:59,280

like that was very exemplary of the 80s

1514

00:51:05,030 --> 00:51:02,079

and 90s kind of

1515

00:51:06,549 --> 00:51:05,040

ufology stuff that we got used to and

1516

00:51:08,790 --> 00:51:06,559

just as always this stuff turns out to

1517

00:51:10,630 --> 00:51:08,800

be nonsense you know people people find

1518

00:51:12,870 --> 00:51:10,640

it more glitzy and shiny because she

1519

00:51:13,829 --> 00:51:12,880

uses you know some more

1520

00:51:16,069 --> 00:51:13,839

uh

1521

00:51:18,150 --> 00:51:16,079

she dramatizes the concept

1522

00:51:19,670 --> 00:51:18,160

but ultimately it comes down to someone

1523

00:51:22,710 --> 00:51:19,680

sat on social media saying that she's

1524

00:51:23,910 --> 00:51:22,720

gonna go meet 5d beings in a cave and i

1525

00:51:25,670 --> 00:51:23,920

just want to give her a hug and ask if

1526

00:51:26,470 --> 00:51:25,680

she's okay you know

1527

00:51:27,750 --> 00:51:26,480

yeah

1528

00:51:29,829 --> 00:51:27,760

and i think we covered that quite a bit

1529

00:51:32,230 --> 00:51:29,839

so i won't go on about it myself but

1530

00:51:35,030 --> 00:51:32,240

yeah i can't disagree with that one um

1531

00:51:36,950 --> 00:51:35,040

on you um it turned out exactly as most

1532

00:51:38,549 --> 00:51:36,960

of us unfortunately thought it was going

1533

00:51:40,549 --> 00:51:38,559

to and again i don't think i have to

1534

00:51:44,230 --> 00:51:40,559

stress this at this point this podcast

1535

00:51:47,349 --> 00:51:44,240

going into its third year now or 18 19

1536

00:51:50,630 --> 00:51:47,359

months of content and

1537

00:51:52,870 --> 00:51:50,640

i've always been really honest and tried

1538

00:51:55,109 --> 00:51:52,880

to just show both sides of the coin and

1539

00:51:58,309 --> 00:51:55,119

i've said that i would love every video

1540

00:51:59,270 --> 00:51:58,319

every piece of footage every interview

1541

00:52:05,829 --> 00:51:59,280

to

1542

00:52:07,349 --> 00:52:05,839

truthful and be fascinating

1543

00:52:10,230 --> 00:52:07,359

and all the videos and footage that gets

1544

00:52:13,349 --> 00:52:10,240

sent to me or i see online to all be 100

1545

00:52:14,710 --> 00:52:13,359

true non-human exotic technology and

1546

00:52:16,309 --> 00:52:14,720

they're not it's just it's just the

1547

00:52:18,390 --> 00:52:16,319

nature of this subject it's not a

1548

00:52:20,470 --> 00:52:18,400

subject and it's not how it works

1549

00:52:21,910 --> 00:52:20,480

and that was one that straight from the

1550

00:52:23,829 --> 00:52:21,920

off like you say

1551

00:52:25,670 --> 00:52:23,839

it was only going to go one way and

1552

00:52:27,270 --> 00:52:25,680

that's exactly how it happened

1553

00:52:30,069 --> 00:52:27,280

i'm i'm still amazed that it's still

1554

00:52:31,829 --> 00:52:30,079

kind of going though um i no longer

1555

00:52:33,109 --> 00:52:31,839

follow that account i'll just say that

1556

00:52:35,190 --> 00:52:33,119

much so

1557

00:52:37,510 --> 00:52:35,200

yeah i mean well one interesting thing

1558

00:52:39,510 --> 00:52:37,520

came from it i guess that that i was put

1559

00:52:40,950 --> 00:52:39,520

into that vote thing to go to the

1560

00:52:42,549 --> 00:52:40,960

exhibition and now it's not to the

1561

00:52:44,150 --> 00:52:42,559

exhibition to the

1562

00:52:45,430 --> 00:52:44,160

uh what's what i'm looking for

1563

00:52:48,069 --> 00:52:45,440

expedition

1564

00:52:48,870 --> 00:52:48,079

exhibition yeah being displayed um yeah

1565

00:52:50,950 --> 00:52:48,880

the

1566

00:52:53,190 --> 00:52:50,960

now i might actually be going on a legit

1567

00:52:55,190 --> 00:52:53,200

expedition somewhere

1568

00:52:57,190 --> 00:52:55,200

yeah that's yeah we could have sent you

1569

00:52:58,309 --> 00:52:57,200

there instead but yeah i think i think

1570

00:53:01,030 --> 00:52:58,319

you're you're going to something a

1571

00:53:02,470 --> 00:53:01,040

little bit more credible um but yes

1572

00:53:04,790 --> 00:53:02,480

highlight of the year daniel you've

1573

00:53:06,549 --> 00:53:04,800

talked about a few of them um

1574

00:53:10,309 --> 00:53:06,559

have you got a standout highlight for

1575

00:53:12,309 --> 00:53:10,319

2021 yeah and and you're you might go

1576

00:53:15,190 --> 00:53:12,319

red-faced here because it was our visit

1577

00:53:16,630 --> 00:53:15,200

to london where i got to meet you graham

1578

00:53:17,510 --> 00:53:16,640

dave

1579

00:53:18,870 --> 00:53:17,520

vinnie

1580

00:53:20,950 --> 00:53:18,880

um and

1581

00:53:25,589 --> 00:53:20,960

ryan on the friday and then lou on the

1582

00:53:27,430 --> 00:53:25,599

saturday that for me that whole section

1583

00:53:28,710 --> 00:53:27,440

like i know you're real anyway there's

1584

00:53:30,390 --> 00:53:28,720

no debate in that in my head you know

1585

00:53:32,309 --> 00:53:30,400

you're not catfishing me on the side of

1586

00:53:34,069 --> 00:53:32,319

the side of the screen there but there

1587

00:53:37,349 --> 00:53:34,079

was a moment in london where it suddenly

1588

00:53:39,109 --> 00:53:37,359

got a bit more real for me you know and

1589

00:53:40,790 --> 00:53:39,119

and now i find myself often just sat at

1590

00:53:41,910 --> 00:53:40,800

the sky thinking you know

1591

00:53:43,270 --> 00:53:41,920

they're out there doing their thing and

1592

00:53:44,790 --> 00:53:43,280

people are arguing over whether they

1593

00:53:47,510 --> 00:53:44,800

even exist or not it reminds me of uh

1594

00:53:48,790 --> 00:53:47,520

don't look up if anyone has seen that

1595

00:53:50,549 --> 00:53:48,800

um

1596

00:53:52,630 --> 00:53:50,559

but yeah coming away from that meeting

1597

00:53:53,750 --> 00:53:52,640

with lou everything had gotten super

1598

00:53:55,109 --> 00:53:53,760

real for me

1599

00:53:57,589 --> 00:53:55,119

and

1600

00:53:59,109 --> 00:53:57,599

especially the the friendships that we

1601
00:54:01,589 --> 00:53:59,119
forged over

1602
00:54:03,030 --> 00:54:01,599
social media and instagram and it was an

1603
00:54:05,670 --> 00:54:03,040
absolute pleasure to meet everybody and

1604
00:54:07,430 --> 00:54:05,680
to to kind of start stepping in

1605
00:54:08,790 --> 00:54:07,440
to this

1606
00:54:14,069 --> 00:54:08,800
subject that's going to become a lot

1607
00:54:17,990 --> 00:54:16,150
that was actually one of my low lights

1608
00:54:19,589 --> 00:54:18,000
but i chose to leave it

1609
00:54:20,950 --> 00:54:19,599
i chose to leave it specifically when i

1610
00:54:22,710 --> 00:54:20,960
don't tell you in slow motion i'm

1611
00:54:25,349 --> 00:54:22,720
guessing

1612
00:54:28,069 --> 00:54:25,359
absolutely yeah um no london london was

1613
00:54:30,069 --> 00:54:28,079

a great time and like i say people

1614

00:54:32,150 --> 00:54:30,079

had not people some people online made

1615

00:54:33,829 --> 00:54:32,160

it out to be something it wasn't and

1616

00:54:35,910 --> 00:54:33,839

super secret meetups and all that kind

1617

00:54:38,069 --> 00:54:35,920

of stuff and thanks for thinking of us

1618

00:54:40,069 --> 00:54:38,079

so highly but that's definitely not what

1619

00:54:42,309 --> 00:54:40,079

it was uh

1620

00:54:44,069 --> 00:54:42,319

yeah and and you know what this year we

1621

00:54:45,910 --> 00:54:44,079

do plan hopefully on getting a couple of

1622

00:54:49,030 --> 00:54:45,920

meetups happening in the uk

1623

00:54:50,710 --> 00:54:49,040

um officially or unofficially if it's at

1624

00:54:53,030 --> 00:54:50,720

one of the other conferences that are

1625

00:54:54,470 --> 00:54:53,040

happening um there's one in blackpool we

1626

00:54:56,069 --> 00:54:54,480

know in june i think we're all planning

1627

00:54:58,069 --> 00:54:56,079

on attending that

1628

00:55:00,390 --> 00:54:58,079

as a group and that's not you know we're

1629

00:55:02,470 --> 00:55:00,400

not meeting up and having some super

1630

00:55:05,030 --> 00:55:02,480

secret meet up and we'll probably be in

1631

00:55:06,470 --> 00:55:05,040

a bar somewhere and people are more than

1632

00:55:07,510 --> 00:55:06,480

welcome to come along and join us if

1633

00:55:09,349 --> 00:55:07,520

that's going to be the case and

1634

00:55:10,150 --> 00:55:09,359

blackpool is quite central in the uk but

1635

00:55:12,230 --> 00:55:10,160

yeah

1636

00:55:15,430 --> 00:55:12,240

meeting meeting people for me was a big

1637

00:55:16,630 --> 00:55:15,440

one you guys obviously um meeting

1638

00:55:18,710 --> 00:55:16,640

listeners

1639

00:55:21,030 --> 00:55:18,720

walking up to the ufo minicon and

1640

00:55:23,270 --> 00:55:21,040

preston uh but was put on my ash and

1641

00:55:25,270 --> 00:55:23,280

everyone um and helping out very last

1642

00:55:26,710 --> 00:55:25,280

minute with that but

1643

00:55:28,549 --> 00:55:26,720

as i approached the venue in the car

1644

00:55:31,589 --> 00:55:28,559

seeing someone with your t-shirt undone

1645

00:55:33,030 --> 00:55:31,599

was really really weird because

1646

00:55:34,710 --> 00:55:33,040

yeah that was that was really hard i

1647

00:55:36,630 --> 00:55:34,720

think i sent you a picture straight away

1648

00:55:38,870 --> 00:55:36,640

but just getting to talk to like barry

1649

00:55:41,030 --> 00:55:38,880

and dave and nick and frank from ufo

1650

00:55:42,630 --> 00:55:41,040

thinker pod and stuff there and ash and

1651
00:55:45,109 --> 00:55:42,640
and anyone else was was really really

1652
00:55:47,510 --> 00:55:45,119
cool um that was that was a lot of fun

1653
00:55:49,829 --> 00:55:47,520
um but my my highlight as pertaining to

1654
00:55:51,990 --> 00:55:49,839
the whole subject um is is the new

1655
00:55:53,910 --> 00:55:52,000
people that got involved um ross

1656
00:55:57,109 --> 00:55:53,920
coulthart has been mentioned ad nauseum

1657
00:55:59,270 --> 00:55:57,119
here cut dry mongol eric weinstein and a

1658
00:56:01,829 --> 00:55:59,280
whole load of others like that

1659
00:56:04,390 --> 00:56:01,839
who are now taking the subject very

1660
00:56:06,309 --> 00:56:04,400
seriously themselves

1661
00:56:08,789 --> 00:56:06,319
as and that includes senators

1662
00:56:10,630 --> 00:56:08,799
congressmen and women and any other

1663
00:56:12,870 --> 00:56:10,640

politicians worldwide who might be doing

1664

00:56:14,630 --> 00:56:12,880

this it's it's not that i don't care

1665

00:56:16,710 --> 00:56:14,640

about their politics previously and

1666

00:56:18,630 --> 00:56:16,720

people would get in touch and say this

1667

00:56:20,470 --> 00:56:18,640

person voted for this bill three years

1668

00:56:21,430 --> 00:56:20,480

ago and this person got involved with

1669

00:56:23,829 --> 00:56:21,440

this and

1670

00:56:25,430 --> 00:56:23,839

yeah i'm sure they did but purely from a

1671

00:56:27,270 --> 00:56:25,440

ufo point of view and moving this

1672

00:56:28,309 --> 00:56:27,280

conversation forward

1673

00:56:30,630 --> 00:56:28,319

that

1674

00:56:32,150 --> 00:56:30,640

it's been good um and it's been great to

1675

00:56:34,630 --> 00:56:32,160

see those from outside the mainstream

1676
00:56:37,829 --> 00:56:34,640
really have that impact that i hope they

1677
00:56:39,829 --> 00:56:37,839
carry on and and take forward in 2022.

1678
00:56:42,630 --> 00:56:39,839
it'll be great to see people like carter

1679
00:56:44,470 --> 00:56:42,640
mongol who as a ufo guy although i know

1680
00:56:45,750 --> 00:56:44,480
dan you've said previously that when you

1681
00:56:48,470 --> 00:56:45,760
look at the amount of interviews he's

1682
00:56:49,670 --> 00:56:48,480
now done and the the interest he has he

1683
00:56:51,349 --> 00:56:49,680
kind of is

1684
00:56:52,950 --> 00:56:51,359
but i'm sure kurt would say that he's

1685
00:56:55,030 --> 00:56:52,960
he's just someone with an interest in a

1686
00:56:55,910 --> 00:56:55,040
lot of different areas of life

1687
00:56:58,390 --> 00:56:55,920
and

1688
00:57:00,789 --> 00:56:58,400

the more that continues the better

1689

00:57:02,309 --> 00:57:00,799

um i i want to see rogan do more

1690

00:57:04,950 --> 00:57:02,319

interviews again on the subject this

1691

00:57:07,670 --> 00:57:04,960

year i want to see lou on rogan i'd love

1692

00:57:10,710 --> 00:57:07,680

to see ross coelter on on rogan and

1693

00:57:12,789 --> 00:57:10,720

those other big big podcasts and british

1694

00:57:14,309 --> 00:57:12,799

television news channels

1695

00:57:16,230 --> 00:57:14,319

that's that's what i want to carry on

1696

00:57:18,230 --> 00:57:16,240

because that can only

1697

00:57:20,470 --> 00:57:18,240

make a massive difference to the subject

1698

00:57:23,430 --> 00:57:20,480

i think for me and getting that

1699

00:57:25,430 --> 00:57:23,440

credibility if we don't get any more

1700

00:57:28,150 --> 00:57:25,440

in the way of evidence this year which

1701

00:57:29,910 --> 00:57:28,160

we've got to say is a possibility

1702

00:57:31,109 --> 00:57:29,920

although i still think we'll get

1703

00:57:33,270 --> 00:57:31,119

something

1704

00:57:35,030 --> 00:57:33,280

if we don't get any more evidence that

1705

00:57:36,710 --> 00:57:35,040

that pushes forward those three videos

1706

00:57:37,990 --> 00:57:36,720

or otherwise

1707

00:57:39,589 --> 00:57:38,000

i think if you could just turn up the

1708

00:57:43,349 --> 00:57:39,599

noise and the volume and what happened

1709

00:57:44,950 --> 00:57:43,359

in 2021 to a bigger public setting

1710

00:57:46,950 --> 00:57:44,960

could be huge and that's going to help

1711

00:57:49,270 --> 00:57:46,960

other scientists and journalists get

1712

00:57:50,630 --> 00:57:49,280

involved in this topic as well because

1713

00:57:52,470 --> 00:57:50,640

i think what

1714

00:57:54,069 --> 00:57:52,480

brought things down with a bump maybe

1715

00:57:56,069 --> 00:57:54,079

for some people yesterday from a uk

1716

00:57:57,670 --> 00:57:56,079

point of view and this is where people

1717

00:57:59,109 --> 00:57:57,680

ask us to

1718

00:58:01,109 --> 00:57:59,119

what's happening in the uk and we should

1719

00:58:03,510 --> 00:58:01,119

do like a uk big phone home and it's

1720

00:58:05,430 --> 00:58:03,520

like no we're still so so so far away

1721

00:58:07,510 --> 00:58:05,440

from that unless something drastically

1722

00:58:10,069 --> 00:58:07,520

changed one of the newspapers he heard

1723

00:58:11,349 --> 00:58:10,079

yesterday dan you saw the headline was

1724

00:58:12,950 --> 00:58:11,359

about

1725

00:58:14,230 --> 00:58:12,960

a percentage of youngsters in the uk

1726

00:58:16,470 --> 00:58:14,240

still believe that lizards run the

1727

00:58:18,150 --> 00:58:16,480

country that was a front page and it's a

1728

00:58:19,670 --> 00:58:18,160

bit of a rag it's a tabloid and a really

1729

00:58:21,910 --> 00:58:19,680

rough tabloid but

1730

00:58:23,270 --> 00:58:21,920

that's still where we're at in the uk

1731

00:58:25,270 --> 00:58:23,280

with a lot of this subject and it's

1732

00:58:27,750 --> 00:58:25,280

still a fight but i suppose it was a

1733

00:58:29,510 --> 00:58:27,760

really nice kind of juxtaposition

1734

00:58:31,109 --> 00:58:29,520

on the same day that was a headline for

1735

00:58:32,390 --> 00:58:31,119

the daily star about lizard people

1736

00:58:34,950 --> 00:58:32,400

running the uk

1737

00:58:36,470 --> 00:58:34,960

and then at night we had channel 5

1738

00:58:39,190 --> 00:58:36,480

putting on a really nice

1739

00:58:41,829 --> 00:58:39,200

nicely toned and serious documentary on

1740

00:58:43,910 --> 00:58:41,839

the ufo subject for the public so

1741

00:58:45,990 --> 00:58:43,920

still mix messages but i think there's a

1742

00:58:49,190 --> 00:58:46,000

lot of positive signs there for for

1743

00:58:50,950 --> 00:58:49,200

going forward into 2022. yeah 100

1744

00:58:52,630 --> 00:58:50,960

um i'm just going to touch on my work

1745

00:58:53,910 --> 00:58:52,640

with the sun with uap media because i

1746

00:58:56,710 --> 00:58:53,920

think it's it's pertinent to what you

1747

00:58:58,309 --> 00:58:56,720

were saying here um a few a few days

1748

00:59:00,309 --> 00:58:58,319

back

1749

00:59:02,150 --> 00:59:00,319

um but what we do at uav media is we

1750

00:59:03,510 --> 00:59:02,160

work with journalists to kind of inform

1751
00:59:04,789 --> 00:59:03,520
them properly and to try and help them

1752
00:59:07,109 --> 00:59:04,799
get the tone of the piece right because

1753
00:59:09,030 --> 00:59:07,119
if the person doesn't know about it then

1754
00:59:11,670 --> 00:59:09,040
how can they be expected to get a tone

1755
00:59:13,589 --> 00:59:11,680
that's respectable you know and

1756
00:59:15,990 --> 00:59:13,599
i spent the day helping kind of get an

1757
00:59:19,030 --> 00:59:16,000
article out by the sun and the headline

1758
00:59:21,030 --> 00:59:19,040
came out uh with the word alien hunters

1759
00:59:22,309 --> 00:59:21,040
at the end and i remember we all

1760
00:59:23,910 --> 00:59:22,319
everyone cringed in the group and i was

1761
00:59:27,030 --> 00:59:23,920
very like well you know all news is good

1762
00:59:28,069 --> 00:59:27,040
news but i simply went back to the

1763
00:59:30,630 --> 00:59:28,079

journalist

1764

00:59:33,670 --> 00:59:30,640

we spoke about it and then he deleted

1765

00:59:35,910 --> 00:59:33,680

the jokes and the alien has his word and

1766

00:59:38,069 --> 00:59:35,920

it's a really good example of all i did

1767

00:59:39,829 --> 00:59:38,079

was message him and i was kind and i

1768

00:59:42,870 --> 00:59:39,839

just said hey look you know uap doesn't

1769

00:59:45,190 --> 00:59:42,880

necessarily mean alien um let's talk

1770

00:59:47,030 --> 00:59:45,200

about this properly and the headline got

1771

00:59:48,950 --> 00:59:47,040

changed so i recommend just when you see

1772

00:59:50,789 --> 00:59:48,960

things like that like the daily mail

1773

00:59:52,309 --> 00:59:50,799

thing or the daily star sorry like

1774

00:59:54,069 --> 00:59:52,319

engage those people if they aren't

1775

00:59:57,270 --> 00:59:54,079

covering it properly engage them and

1776

00:59:58,549 --> 00:59:57,280

talk to them this is how lou and kurt

1777

00:59:59,589 --> 00:59:58,559

started talking

1778

01:00:01,510 --> 00:59:59,599

literally

1779

01:00:03,109 --> 01:00:01,520

we i i would watch kurt's channel and he

1780

01:00:04,870 --> 01:00:03,119

was incredible he was a really really

1781

01:00:06,789 --> 01:00:04,880

cool thinker

1782

01:00:08,710 --> 01:00:06,799

so i emailed and asked if he wanted to

1783

01:00:10,309 --> 01:00:08,720

speak to lou and again everything that's

1784

01:00:11,829 --> 01:00:10,319

come from that and

1785

01:00:14,069 --> 01:00:11,839

the conversations inspiring people to

1786

01:00:15,910 --> 01:00:14,079

get involved is it is amazing because

1787

01:00:18,150 --> 01:00:15,920

that's the like you said if we can get

1788

01:00:19,910 --> 01:00:18,160

more volume more people know there's

1789

01:00:21,589 --> 01:00:19,920

more awareness and we can tackle it

1790

01:00:23,829 --> 01:00:21,599

properly and that's what's important

1791

01:00:25,910 --> 01:00:23,839

going forward this year i think

1792

01:00:27,829 --> 01:00:25,920

yeah i remember in the group chat dan i

1793

01:00:29,510 --> 01:00:27,839

was i was pretty level-headed wasn't i

1794

01:00:32,390 --> 01:00:29,520

when i saw the alien hunter's comment

1795

01:00:34,150 --> 01:00:32,400

and um i'm sure you basically quoted me

1796

01:00:36,150 --> 01:00:34,160

when you spoke to the journalist and and

1797

01:00:38,309 --> 01:00:36,160

said this is what andy says

1798

01:00:40,230 --> 01:00:38,319

um i was completely level-headed wasn't

1799

01:00:41,750 --> 01:00:40,240

i in my response to that but no you

1800

01:00:43,430 --> 01:00:41,760

dealt with it very well and it was it

1801
01:00:46,630 --> 01:00:43,440
was good to see the the journalists in

1802
01:00:48,069 --> 01:00:46,640
question we're happy to change that and

1803
01:00:50,069 --> 01:00:48,079
what i would hope

1804
01:00:51,910 --> 01:00:50,079
is not for that article but for the next

1805
01:00:54,150 --> 01:00:51,920
one that it's not even a thought for

1806
01:00:56,470 --> 01:00:54,160
them and we don't have to correct any

1807
01:00:58,230 --> 01:00:56,480
language and that's not to say we're we

1808
01:01:00,870 --> 01:00:58,240
want people's opinions to be our

1809
01:01:02,470 --> 01:01:00,880
opinions that they should be their own

1810
01:01:03,750 --> 01:01:02,480
but it would just be nice that if the

1811
01:01:06,309 --> 01:01:03,760
first thought that came to their mind

1812
01:01:09,190 --> 01:01:06,319
wasn't alien hunters rejoice yeah and

1813
01:01:11,990 --> 01:01:09,200

that it was jokes you know yeah that's

1814

01:01:13,829 --> 01:01:12,000

it yeah if this was if this was chinese

1815

01:01:15,910 --> 01:01:13,839

drones jokes wouldn't even enter into

1816

01:01:17,430 --> 01:01:15,920

their heads right so it should be at

1817

01:01:19,829 --> 01:01:17,440

least that level i think

1818

01:01:22,950 --> 01:01:19,839

yeah and if people want to check out uap

1819

01:01:24,870 --> 01:01:22,960

media dot uk or follow at uap media

1820

01:01:26,950 --> 01:01:24,880

online the links for those will be in

1821

01:01:28,950 --> 01:01:26,960

the the show description as well but

1822

01:01:30,870 --> 01:01:28,960

they're very available on social media

1823

01:01:34,069 --> 01:01:30,880

channels and that's a group with uh

1824

01:01:36,630 --> 01:01:34,079

myself dan dave partridge vinnie adams

1825

01:01:37,990 --> 01:01:36,640

adam goldsack and graham rendell and

1826

01:01:39,589 --> 01:01:38,000

doing a lot of really really good work

1827

01:01:41,190 --> 01:01:39,599

on there as well those guys so that's

1828

01:01:43,430 --> 01:01:41,200

just from a uk point of view trying to

1829

01:01:45,589 --> 01:01:43,440

really help and change the conversation

1830

01:01:47,990 --> 01:01:45,599

and so much of the work uap media does

1831

01:01:49,190 --> 01:01:48,000

as in the background folks like i say

1832

01:01:51,430 --> 01:01:49,200

people wouldn't have known that unless

1833

01:01:52,950 --> 01:01:51,440

dan had said but yes dan did do that

1834

01:01:54,789 --> 01:01:52,960

reach out to a journalist of which we're

1835

01:01:57,109 --> 01:01:54,799

speaking to many journalists now and

1836

01:01:58,950 --> 01:01:57,119

trying to have those conversations that

1837

01:02:00,870 --> 01:01:58,960

when they are putting this work out then

1838

01:02:02,470 --> 01:02:00,880

it's more representative of people like

1839

01:02:04,150 --> 01:02:02,480

you who listen to the show your thoughts

1840

01:02:06,230 --> 01:02:04,160

your opinions and you're not going to be

1841

01:02:08,390 --> 01:02:06,240

embarrassed reading it or associating

1842

01:02:09,990 --> 01:02:08,400

with it either so yeah that's the kind

1843

01:02:11,670 --> 01:02:10,000

of work going on now when i spoke to

1844

01:02:13,510 --> 01:02:11,680

those guys in the morning um they

1845

01:02:15,029 --> 01:02:13,520

weren't even aware that biden had signed

1846

01:02:16,870 --> 01:02:15,039

the ndaa

1847

01:02:19,029 --> 01:02:16,880

so we essentially managed to sneak in

1848

01:02:20,549 --> 01:02:19,039

with the uap angle before a political

1849

01:02:23,109 --> 01:02:20,559

article was written but it just goes to

1850

01:02:24,549 --> 01:02:23,119

show just speak to people you never know

1851
01:02:26,150 --> 01:02:24,559
this is what tom did to get this whole

1852
01:02:27,510 --> 01:02:26,160
thing started go knock the door be a

1853
01:02:28,950 --> 01:02:27,520
loudmouth you know be a bull in the

1854
01:02:30,870 --> 01:02:28,960
china shop

1855
01:02:32,710 --> 01:02:30,880
absolutely and just to finish off folks

1856
01:02:34,470 --> 01:02:32,720
like i say give you ap media follow make

1857
01:02:36,710 --> 01:02:34,480
sure you're following dan online myself

1858
01:02:38,230 --> 01:02:36,720
online subscribing to the podcast

1859
01:02:40,710 --> 01:02:38,240
anything you can do to help out is much

1860
01:02:41,990 --> 01:02:40,720
appreciated and spreading the word

1861
01:02:43,270 --> 01:02:42,000
sharing the news

1862
01:02:45,190 --> 01:02:43,280
getting involved engaging the

1863
01:02:46,950 --> 01:02:45,200

conversation if and if it's speaking to

1864

01:02:48,950 --> 01:02:46,960

friends of yours and colleagues at work

1865

01:02:50,710 --> 01:02:48,960

as the new year kicks off and you bring

1866

01:02:53,430 --> 01:02:50,720

up the or they bring up the conversation

1867

01:02:55,910 --> 01:02:53,440

of aliens or ufos just have that chat

1868

01:02:58,390 --> 01:02:55,920

with them um change the conversation and

1869

01:02:59,990 --> 01:02:58,400

just what if asking that question you

1870

01:03:01,829 --> 01:03:00,000

know what if it's something like this or

1871

01:03:04,150 --> 01:03:01,839

what if it's this or have you heard

1872

01:03:05,910 --> 01:03:04,160

about the the us and what the the work

1873

01:03:06,789 --> 01:03:05,920

that's being done in government there or

1874

01:03:08,789 --> 01:03:06,799

you know

1875

01:03:10,950 --> 01:03:08,799

changing attitudes all around recommend

1876

01:03:12,470 --> 01:03:10,960

some books recommend some documentaries

1877

01:03:13,750 --> 01:03:12,480

if you're you're stuck for that then

1878

01:03:15,270 --> 01:03:13,760

just give us a shout online and we're

1879

01:03:17,349 --> 01:03:15,280

more than happy to point you in those

1880

01:03:18,549 --> 01:03:17,359

those right directions as well but i i

1881

01:03:20,390 --> 01:03:18,559

would emphasize that people should be

1882

01:03:21,670 --> 01:03:20,400

socially aware if you see that glazed

1883

01:03:23,270 --> 01:03:21,680

look in the person you're speaking to

1884

01:03:24,950 --> 01:03:23,280

his eyes stop

1885

01:03:27,109 --> 01:03:24,960

and back away come back to them another

1886

01:03:29,029 --> 01:03:27,119

time let them think on what you've said

1887

01:03:30,630 --> 01:03:29,039

absolutely and just one last reminder

1888

01:03:32,309 --> 01:03:30,640

folks you might have heard with new

1889

01:03:34,710 --> 01:03:32,319

podcasts coming on the network i don't

1890

01:03:36,710 --> 01:03:34,720

want to clog up that ufo podcast feed

1891

01:03:38,309 --> 01:03:36,720

with loads of new shows you will see

1892

01:03:40,470 --> 01:03:38,319

some of those appear on the feed though

1893

01:03:43,349 --> 01:03:40,480

in january including disclosure teams

1894

01:03:45,029 --> 01:03:43,359

podcast the quantum match cafe shows and

1895

01:03:47,109 --> 01:03:45,039

dan's new podcast will be kicking off

1896

01:03:49,750 --> 01:03:47,119

this month

1897

01:03:51,910 --> 01:03:49,760

yes i'm looking forward to that and also

1898

01:03:53,829 --> 01:03:51,920

dave and graham's historical ufo deep

1899

01:03:56,150 --> 01:03:53,839

dives with the idea being that from

1900

01:03:58,069 --> 01:03:56,160

february they will have their own feed

1901

01:04:00,390 --> 01:03:58,079

and it'll be on the anomalous podcast

1902

01:04:02,069 --> 01:04:00,400

network so if you follow on twitter at

1903

01:04:03,990 --> 01:04:02,079

anomalouspod.net

1904

01:04:05,190 --> 01:04:04,000

again link in the description then

1905

01:04:06,630 --> 01:04:05,200

that'll be great there'll be lots more

1906

01:04:08,549 --> 01:04:06,640

announcements on there i'll get the

1907

01:04:09,990 --> 01:04:08,559

instagram up and running dan at some

1908

01:04:11,270 --> 01:04:10,000

point this year is going to do the logo

1909

01:04:13,349 --> 01:04:11,280

for that as well which will be

1910

01:04:15,270 --> 01:04:13,359

appreciated probably december good like

1911

01:04:16,549 --> 01:04:15,280

first week of december yeah of course we

1912

01:04:18,069 --> 01:04:16,559

could as anybody will start asking me

1913

01:04:19,910 --> 01:04:18,079

what i'm looking for again

1914

01:04:22,150 --> 01:04:19,920

but the idea being that that network

1915

01:04:23,750 --> 01:04:22,160

will have those types of shows that are

1916

01:04:26,150 --> 01:04:23,760

going to give you different opinions

1917

01:04:28,390 --> 01:04:26,160

different conversations different voices

1918

01:04:30,390 --> 01:04:28,400

all discussing this subject and the

1919

01:04:32,150 --> 01:04:30,400

phenomenon in general from a lot of

1920

01:04:34,870 --> 01:04:32,160

different angles so i really hope people

1921

01:04:37,349 --> 01:04:34,880

um support us on that and appreciate you

1922

01:04:38,630 --> 01:04:37,359

checking out sharing it listening and uh

1923

01:04:40,549 --> 01:04:38,640

just dipping your toe in the water for

1924

01:04:42,870 --> 01:04:40,559

those conversations am i um am i allowed

1925

01:04:44,309 --> 01:04:42,880

to share the name of my

1926

01:04:46,069 --> 01:04:44,319

my show

1927

01:04:47,910 --> 01:04:46,079

nope no

1928

01:04:49,109 --> 01:04:47,920

um so actually yes you can yeah because

1929

01:04:51,109 --> 01:04:49,119

if i've not said anything yet it's your

1930

01:04:52,630 --> 01:04:51,119

show so feel free so so the way i

1931

01:04:54,230 --> 01:04:52,640

described the show to andy was

1932

01:04:56,069 --> 01:04:54,240

essentially like the main the main show

1933

01:04:57,750 --> 01:04:56,079

is an amazing kind of us doing a balance

1934

01:04:59,510 --> 01:04:57,760

in dmacc kind of talking about nuts and

1935

01:05:01,109 --> 01:04:59,520

bolts and some weirder things as well

1936

01:05:04,230 --> 01:05:01,119

but people probably noticed that i skew

1937

01:05:05,430 --> 01:05:04,240

a bit weirder than andy does um so my

1938

01:05:07,190 --> 01:05:05,440

show is essentially going to be me

1939

01:05:08,390 --> 01:05:07,200

jumping off that balance beam going into

1940

01:05:09,990 --> 01:05:08,400

the woods to see what's there and then

1941

01:05:11,589 --> 01:05:10,000

coming back um

1942

01:05:13,829 --> 01:05:11,599

and it's going to be called coloring

1943

01:05:16,309 --> 01:05:13,839

outside the lines so look for the first

1944

01:05:18,789 --> 01:05:16,319

episode of that in the next four weeks

1945

01:05:20,549 --> 01:05:18,799

and dave partridge and graham rendell's

1946

01:05:22,230 --> 01:05:20,559

podcast i'll let you know now is going

1947

01:05:23,990 --> 01:05:22,240

to be called the unidentified aerial

1948

01:05:27,029 --> 01:05:24,000

podcast and they'll be doing historical

1949

01:05:29,589 --> 01:05:27,039

deep dives into ufo cases you know right

1950

01:05:31,510 --> 01:05:29,599

back from the 30s 40s 50s and and

1951

01:05:33,190 --> 01:05:31,520

onwards as well and honestly some of the

1952

01:05:35,190 --> 01:05:33,200

stuff they have put in our private chat

1953

01:05:37,109 --> 01:05:35,200

that they are working on for this is

1954

01:05:39,029 --> 01:05:37,119

amazing and i'm really looking forward

1955

01:05:40,950 --> 01:05:39,039

to to that and like i said dan and i

1956

01:05:42,789 --> 01:05:40,960

could put on those pods we wouldn't do

1957

01:05:44,789 --> 01:05:42,799

them justice so

1958

01:05:46,150 --> 01:05:44,799

we'll leave that to to to people i can

1959

01:05:48,470 --> 01:05:46,160

truly see our professionals in that

1960

01:05:50,069 --> 01:05:48,480

manner um really really proud and happy

1961

01:05:51,589 --> 01:05:50,079

to see vinnie adams disclosure team

1962

01:05:53,430 --> 01:05:51,599

podcast which you can check out on

1963

01:05:55,430 --> 01:05:53,440

instagram and youtube those will be

1964

01:05:59,109 --> 01:05:55,440

available on audio format on this

1965

01:06:01,109 --> 01:05:59,119

podcast too um anomalous podnet and also

1966

01:06:02,390 --> 01:06:01,119

priscilla's quantum much cafe interviews

1967

01:06:04,390 --> 01:06:02,400

will be up there she's just on a really

1968

01:06:07,510 --> 01:06:04,400

great one with christina gomez that is

1969

01:06:09,589 --> 01:06:07,520

well worth checking out as well so a lot

1970

01:06:11,109 --> 01:06:09,599

of good stuff to come and very excited

1971

01:06:12,789 --> 01:06:11,119

for this new venture

1972

01:06:15,190 --> 01:06:12,799

just to reiterate those folks i know a

1973

01:06:16,870 --> 01:06:15,200

few people are worried that ufo podcast

1974

01:06:18,789 --> 01:06:16,880

shows aren't changing aren't going

1975

01:06:19,990 --> 01:06:18,799

anywhere they'll still be the interviews

1976

01:06:22,549 --> 01:06:20,000

there'll still be the breakdowns of

1977

01:06:24,309 --> 01:06:22,559

myself and then and like i say there's a

1978

01:06:26,390 --> 01:06:24,319

few shows ideas that people have asked

1979

01:06:28,069 --> 01:06:26,400

us to do and we'll be bringing those to

1980

01:06:29,990 --> 01:06:28,079

you as well i'll like i say i've

1981

01:06:31,349 --> 01:06:30,000

promised and i will go back and delete

1982

01:06:33,270 --> 01:06:31,359

this in a month's time if i've not done

1983

01:06:34,870 --> 01:06:33,280

it that and we'll we'll get the review

1984

01:06:36,549 --> 01:06:34,880

of the three body problem out there as

1985

01:06:39,029 --> 01:06:36,559

well and we'll discuss and speculate on

1986

01:06:40,630 --> 01:06:39,039

that too other people do ufo book clubs

1987

01:06:42,710 --> 01:06:40,640

so it's not one that we plan on starting

1988

01:06:44,230 --> 01:06:42,720

up but we'll just be discussing that

1989

01:06:46,950 --> 01:06:44,240

particular book and some of the ideas

1990

01:06:48,789 --> 01:06:46,960

within it as well yeah for sure

1991

01:06:49,910 --> 01:06:48,799

awesome again folks dan thank you very

1992

01:06:52,069 --> 01:06:49,920

much for your time

1993

01:06:53,990 --> 01:06:52,079

thank you uh everyone have a fantastic

1994

01:06:56,230 --> 01:06:54,000

new year i i hope you all have what you

1995

01:06:57,670 --> 01:06:56,240

truly need given to you

1996

01:06:59,589 --> 01:06:57,680

absolutely and make sure you check out

1997

2011

01:07:33,190 --> 01:07:31,039

podcast access shows ad free as well

2012

01:07:36,069 --> 01:07:33,200

please get in touch on twitter facebook

2013

01:07:39,750 --> 01:07:36,079

instagram that ufo podcast of course on

2014

01:07:41,670 --> 01:07:39,760

twitter it's at ufo uap am and again

2015

01:07:44,270 --> 01:07:41,680

folks as always keep looking up you

2016

01:08:04,789 --> 01:07:44,280

never know what you might see

2017

01:08:04,799 --> 01:08:11,520

is

2018

01:08:45,749 --> 01:08:27,460

[Music]

2019

01:08:48,550 --> 01:08:47,110

they thought this was noise they thought

2020

01:08:54,309 --> 01:08:48,560

it was a dream they thought it was my

2021

01:09:49,990 --> 01:09:15,080

[Music]

2022

01:10:03,000 --> 01:09:51,910

it wasn't a tic tac and not quite a

2023

01:10:14,540 --> 01:10:12,630

[Music]

2024

01:10:23,510 --> 01:10:14,550

it's very different

2025

01:10:38,790 --> 01:10:24,970

so

2026

01:10:38,800 --> 01:10:43,630

yes

2027

01:10:43,640 --> 01:10:49,910

[Music]
