1
00:00:00,040 --> 00:00:05,510

[Music]

2
00:00:10,950 --> 00:00:08,629

there's a whole fleet of look on the sa

3
00:00:14,310 --> 00:00:10,960

oh my gosh they're all going against the

4
00:00:19,029 --> 00:00:16,390

it was basically a cube with inside of

5
00:00:23,960 --> 00:00:19,039

sphere where the points of the cube

6
00:00:37,190 --> 00:00:33,220

[Music]

7
00:00:38,709 --> 00:00:37,200

[Applause]

8
00:00:41,030 --> 00:00:38,719

so this isn't anything that just is

9
00:00:47,510 --> 00:00:41,040

limited to the united states it's a

10
00:00:52,470 --> 00:00:49,990

hi everyone and welcome back to that ufo

11
00:00:54,630 --> 00:00:52,480

podcast my name is andy and we roll on

12
00:00:57,110 --> 00:00:54,640

into january with a former uk

13
00:00:59,110 --> 00:00:57,120

intelligence officer paratrooper with

14

00:01:01,270 --> 00:00:59,120

more than 20 years producing strategic

15

00:01:03,670 --> 00:01:01,280

and operational advice to fortune 500

16

00:01:06,149 --> 00:01:03,680

companies aerospace and government

17

00:01:09,109 --> 00:01:06,159

clients frank also shares his interest

18

00:01:11,590 --> 00:01:09,119

in post-quantum military tech ufos uaps

19

00:01:13,590 --> 00:01:11,600

geopolitics and international relations

20

00:01:15,590 --> 00:01:13,600

and i quite enjoy watching his uh his

21

00:01:17,350 --> 00:01:15,600

twitter battles and debates

22

00:01:19,510 --> 00:01:17,360

on the social media channels as well so

23

00:01:21,429 --> 00:01:19,520

frank melbourne welcome at the podcast

24

00:01:23,109 --> 00:01:21,439

man thank you very much brother um i

25

00:01:26,230 --> 00:01:23,119

appreciate it and i wanted to say

26

00:01:28,310 --> 00:01:26,240

congratulations um for coming so far

27

00:01:30,630 --> 00:01:28,320

with your podcast and i was also wanted

28

00:01:32,069 --> 00:01:30,640

to say like a special thanks to dan uh

29

00:01:35,030 --> 00:01:32,079

for following the

30

00:01:37,109 --> 00:01:35,040

um the constitutional developments uh

31

00:01:40,310 --> 00:01:37,119

with all the different uh ins and outs

32

00:01:42,469 --> 00:01:40,320

and all the twists um in the various uh

33

00:01:43,990 --> 00:01:42,479

bills in in congress and the senate and

34

00:01:46,069 --> 00:01:44,000

the house of representatives because

35

00:01:48,710 --> 00:01:46,079

it's not the easiest thing to follow and

36

00:01:50,630 --> 00:01:48,720

dan's really converted himself into uh

37

00:01:52,230 --> 00:01:50,640

you know into an expert on that and i've

38

00:01:53,670 --> 00:01:52,240

been tuning in to your channel to

39

00:01:55,590 --> 00:01:53,680

basically get the latest updates because

40

00:01:57,830 --> 00:01:55,600

it's not the easiest thing to follow

41

00:01:58,950 --> 00:01:57,840

um so um thank you both very much for

42

00:02:01,350 --> 00:01:58,960

that

43

00:02:02,230 --> 00:02:01,360

no it's great and listen i i look at it

44

00:02:03,830 --> 00:02:02,240

as if

45

00:02:05,350 --> 00:02:03,840

i don't know a lot of that stuff and i

46

00:02:06,950 --> 00:02:05,360

asked dan to go and check out and he

47

00:02:08,710 --> 00:02:06,960

does that anyway but

48

00:02:09,990 --> 00:02:08,720

and helping myself out it helps other

49

00:02:11,270 --> 00:02:10,000

people out so that's good because i

50

00:02:13,350 --> 00:02:11,280

think we've all got the same kind of

51
00:02:15,670 --> 00:02:13,360
questions and you can tune in sometimes

52
00:02:18,070 --> 00:02:15,680
to various podcasts and especially to

53
00:02:20,150 --> 00:02:18,080
the ones on the cana and the us side of

54
00:02:22,150 --> 00:02:20,160
things because they understand that more

55
00:02:23,830 --> 00:02:22,160
and they get how their politics works a

56
00:02:25,430 --> 00:02:23,840
lot better so you have a lot of people

57
00:02:27,830 --> 00:02:25,440
who don't necessarily understand the

58
00:02:29,750 --> 00:02:27,840
workings of it and and all the little um

59
00:02:31,589 --> 00:02:29,760
little nuances so it's been great having

60
00:02:33,110 --> 00:02:31,599
dan can i break that stuff down and i'm

61
00:02:34,830 --> 00:02:33,120
glad you've got the use of it as well

62
00:02:36,150 --> 00:02:34,840
frank so yeah very much

63
00:02:37,509 --> 00:02:36,160

appreciated you i'm doing a great job

64

00:02:39,750 --> 00:02:37,519

the other thing that i wanted to say um

65

00:02:41,509 --> 00:02:39,760

for your listeners um how i really

66

00:02:45,430 --> 00:02:41,519

became kind of like an acquainted with

67

00:02:47,270 --> 00:02:45,440

you guys uh it was in april of this year

68

00:02:48,229 --> 00:02:47,280

um you

69

00:02:50,470 --> 00:02:48,239

uh

70

00:02:52,150 --> 00:02:50,480

you andy and jay at project unity you

71

00:02:54,949 --> 00:02:52,160

did what i consider to be kind of two

72

00:02:56,390 --> 00:02:54,959

groundbreaking interviews with uh luis

73

00:02:57,910 --> 00:02:56,400

elizondo

74

00:02:59,910 --> 00:02:57,920

which really kind of developed our

75

00:03:01,750 --> 00:02:59,920

understanding of uap technology and

76

00:03:04,790 --> 00:03:01,760

where he was going with it

77

00:03:06,229 --> 00:03:04,800

and i took those back to the begin set

78

00:03:07,910 --> 00:03:06,239

out center for strategic studies where

79

00:03:09,990 --> 00:03:07,920

i'd written my first paper

80

00:03:12,470 --> 00:03:10,000

and uh those two groundbreaking

81

00:03:15,830 --> 00:03:12,480

interviews were uh kind of i'd say like

82

00:03:18,949 --> 00:03:15,840

you know 70 the meat of uh of my second

83

00:03:19,990 --> 00:03:18,959

paper that i wrote on on uap um so i

84

00:03:21,830 --> 00:03:20,000

want to thank you guys for that i mean

85

00:03:23,509 --> 00:03:21,840

you and jay did a fantastic job on those

86

00:03:25,110 --> 00:03:23,519

interviews and it really opened up kind

87

00:03:27,350 --> 00:03:25,120

of elizondo in a way that we hadn't seen

88

00:03:29,190 --> 00:03:27,360

before so thank you for that

89

00:03:30,309 --> 00:03:29,200

no thanks i appreciate that and i like

90

00:03:31,910 --> 00:03:30,319

to think there's

91

00:03:33,750 --> 00:03:31,920

a lot of channels out there that are

92

00:03:35,670 --> 00:03:33,760

developing their own styles and tones

93

00:03:37,589 --> 00:03:35,680

and you can certainly jump about a few

94

00:03:39,830 --> 00:03:37,599

shows now and hear very different takes

95

00:03:41,350 --> 00:03:39,840

and questions and yeah so i really

96

00:03:43,670 --> 00:03:41,360

appreciate that as well so thank you

97

00:03:46,309 --> 00:03:43,680

very much frank um but listen to today's

98

00:03:48,309 --> 00:03:46,319

show is all about you and uh we tried to

99

00:03:50,309 --> 00:03:48,319

arrange this now about seven weeks ago

100

00:03:51,910 --> 00:03:50,319

initially and i got covered and all that

101
00:03:53,589 --> 00:03:51,920
stuff that came along with it and and

102
00:03:55,110 --> 00:03:53,599
here we are now well a little peek

103
00:03:57,910 --> 00:03:55,120
behind the curtain we are recording this

104
00:03:59,030 --> 00:03:57,920
on new year's eve so uh as we speak

105
00:04:00,869 --> 00:03:59,040
people are out and getting ready to

106
00:04:02,309 --> 00:04:00,879
party and whatnot but we're having a

107
00:04:04,630 --> 00:04:02,319
what's going to be a very interesting

108
00:04:06,390 --> 00:04:04,640
discussion here um but it's going to be

109
00:04:09,190 --> 00:04:06,400
released into the new year so happy new

110
00:04:11,270 --> 00:04:09,200
year 2022 when everyone else hears this

111
00:04:12,949 --> 00:04:11,280
frank uh you've you've had a very

112
00:04:14,550 --> 00:04:12,959
interesting life so far and i'm sure

113
00:04:16,310 --> 00:04:14,560

there's a lot more interesting life to

114

00:04:17,509 --> 00:04:16,320

be lived but

115

00:04:19,830 --> 00:04:17,519

take us a little bit through your

116

00:04:21,990 --> 00:04:19,840

background a former uk intelligence

117

00:04:25,110 --> 00:04:22,000

officer paratrooper

118

00:04:27,590 --> 00:04:25,120

you've you've done quite a lot already

119

00:04:31,830 --> 00:04:27,600

um yeah um

120

00:04:34,070 --> 00:04:31,840

yeah i i was um i followed basically the

121

00:04:36,710 --> 00:04:34,080

the example of my family um into the

122

00:04:39,189 --> 00:04:36,720

military uh my father was in the royal

123

00:04:41,189 --> 00:04:39,199

scots grace and later in the parachute

124

00:04:42,629 --> 00:04:41,199

regiment um and then later in the

125

00:04:45,510 --> 00:04:42,639

special air service

126

00:04:46,950 --> 00:04:45,520

and uh my family regiment uh was is the

127

00:04:48,629 --> 00:04:46,960

royal scots graves although i didn't go

128

00:04:50,950 --> 00:04:48,639

into the graves but my grandfather

129

00:04:53,670 --> 00:04:50,960

served with the graves in world war ii

130

00:04:55,909 --> 00:04:53,680

uh my stepfather also uh he was in the

131

00:04:57,350 --> 00:04:55,919

argyle and southern highlanders and then

132

00:04:59,270 --> 00:04:57,360

in the parachute regiment and then the

133

00:05:01,270 --> 00:04:59,280

special air service

134

00:05:02,550 --> 00:05:01,280

my godfather was in the cold stream

135

00:05:03,510 --> 00:05:02,560

guards and later in the parachute

136

00:05:05,189 --> 00:05:03,520

regiment

137

00:05:07,110 --> 00:05:05,199

my other godfather

138

00:05:08,790 --> 00:05:07,120

actually commanded sas

139

00:05:10,710 --> 00:05:08,800

as i said my other grandfather as well

140

00:05:13,110 --> 00:05:10,720

on my mother's side he served in both

141

00:05:15,670 --> 00:05:13,120

world wars so that was kind of really my

142

00:05:17,909 --> 00:05:15,680

impetus for joining the uk military um

143

00:05:20,310 --> 00:05:17,919

we've got actually a very long line

144

00:05:21,830 --> 00:05:20,320

of military service stretching back like

145

00:05:24,710 --> 00:05:21,840

literally hundreds of years

146

00:05:26,390 --> 00:05:24,720

sort of father to son so i really you

147

00:05:29,909 --> 00:05:26,400

know i i always wanted to be a soldier

148

00:05:32,230 --> 00:05:29,919

and i joined at 17 and um i joined the

149

00:05:33,749 --> 00:05:32,240

army reserve as a paratrooper

150

00:05:36,710 --> 00:05:33,759

and uh

151

00:05:37,990 --> 00:05:36,720

and from there um i did okay in school i

152

00:05:40,150 --> 00:05:38,000

got offered a place at the london school

153

00:05:42,550 --> 00:05:40,160

of economics which was paid for by the

154

00:05:44,230 --> 00:05:42,560

military um so i joined

155

00:05:45,749 --> 00:05:44,240

university as an army scholar i did

156

00:05:47,510 --> 00:05:45,759

international relations

157

00:05:49,830 --> 00:05:47,520

and i was offered a place at sandhurst

158

00:05:52,150 --> 00:05:49,840

on the back of that and um and then from

159

00:05:54,230 --> 00:05:52,160

sandhurst i was recruited into into

160

00:05:56,070 --> 00:05:54,240

military intelligence um and the rest is

161

00:05:58,390 --> 00:05:56,080

kind of like history really but it was a

162

00:06:01,350 --> 00:05:58,400

very very fascinating and it was a you

163

00:06:02,950 --> 00:06:01,360

know both a joy and uh and a reward to

164

00:06:04,950 --> 00:06:02,960

serve my country

165

00:06:07,670 --> 00:06:04,960

yeah and thank you for that service as

166

00:06:09,670 --> 00:06:07,680

well and we've spoken to a lot of you

167

00:06:11,189 --> 00:06:09,680

know u.s military and such on the

168

00:06:13,430 --> 00:06:11,199

podcast and

169

00:06:15,189 --> 00:06:13,440

i think you're the first a uk um

170

00:06:16,550 --> 00:06:15,199

serviceman so again thank you very much

171

00:06:18,469 --> 00:06:16,560

and a few listeners echoed that

172

00:06:20,230 --> 00:06:18,479

sentiment as well

173

00:06:22,390 --> 00:06:20,240

and all of that background and that

174

00:06:24,309 --> 00:06:22,400

history and that rich family history at

175

00:06:26,550 --> 00:06:24,319

what point do you come to have an

176

00:06:28,950 --> 00:06:26,560

interest in ufos was it from a young age

177

00:06:31,029 --> 00:06:28,960

or is it something that came later

178

00:06:33,110 --> 00:06:31,039

no it's from a very young age um my

179

00:06:35,670 --> 00:06:33,120

family uh you know my mom and my dad

180

00:06:36,870 --> 00:06:35,680

were you know sort of very open-minded

181

00:06:39,110 --> 00:06:36,880

i was brought up with kind of like you

182

00:06:41,110 --> 00:06:39,120

know sort of histories of atlantis and

183

00:06:44,790 --> 00:06:41,120

you know charles burlitz mysteries of

184

00:06:46,070 --> 00:06:44,800

atlantis um eric von danican

185

00:06:48,309 --> 00:06:46,080

and uh

186

00:06:49,430 --> 00:06:48,319

and i've got some ufo books um here

187

00:06:51,830 --> 00:06:49,440

actually down here

188

00:06:54,150 --> 00:06:51,840

inherited from my dad which uh

189

00:06:55,909 --> 00:06:54,160

from the 1960s sanderson you know

190

00:06:56,950 --> 00:06:55,919

uninvited visitors

191

00:06:58,150 --> 00:06:56,960

um

192

00:06:59,270 --> 00:06:58,160

and

193

00:07:01,350 --> 00:06:59,280

let's just say when i was in the

194

00:07:03,430 --> 00:07:01,360

military i i got a an increased

195

00:07:04,629 --> 00:07:03,440

appreciation for uap but it's one of

196

00:07:06,790 --> 00:07:04,639

those things you kind of like leave it

197

00:07:08,070 --> 00:07:06,800

alone when you leave and i just kind of

198

00:07:09,510 --> 00:07:08,080

like put it on the back burner you know

199

00:07:10,950 --> 00:07:09,520

we've all got busy lives we've got

200

00:07:11,909 --> 00:07:10,960

things to do we want to like follow

201
00:07:14,309 --> 00:07:11,919
careers

202
00:07:16,790 --> 00:07:14,319
um i kept in touch with uaps reading

203
00:07:19,909 --> 00:07:16,800
books over the years um but it wasn't

204
00:07:22,150 --> 00:07:19,919
really until about 2016. i got onto the

205
00:07:24,870 --> 00:07:22,160
uh the richard dolan members site

206
00:07:27,029 --> 00:07:24,880
and um i kind of got involved with that

207
00:07:28,390 --> 00:07:27,039
and i was writing things on the site and

208
00:07:29,830 --> 00:07:28,400
then um

209
00:07:31,350 --> 00:07:29,840
i was kind of like well you know i

210
00:07:32,550 --> 00:07:31,360
should start writing about things myself

211
00:07:34,710 --> 00:07:32,560
because i'm accumulating all the

212
00:07:36,230 --> 00:07:34,720
information and it's fascinating me and

213
00:07:38,550 --> 00:07:36,240

it's kind of really drawn me in my

214

00:07:40,230 --> 00:07:38,560

background is as a

215

00:07:42,629 --> 00:07:40,240

post-military i work with oil and gas

216

00:07:44,070 --> 00:07:42,639

companies in the middle east um so i was

217

00:07:46,070 --> 00:07:44,080

advising clients kind of like broad

218

00:07:47,110 --> 00:07:46,080

level downwards to you know like locals

219

00:07:49,909 --> 00:07:47,120

on the ground

220

00:07:52,150 --> 00:07:49,919

on um you know security issues political

221

00:07:53,670 --> 00:07:52,160

risk regulatory risk how to operate on

222

00:07:55,350 --> 00:07:53,680

the ground and kind of like you know

223

00:07:59,189 --> 00:07:55,360

sort of medium to high-risk environments

224

00:08:00,309 --> 00:07:59,199

from north africa to the middle east and

225

00:08:01,430 --> 00:08:00,319

um

226

00:08:03,749 --> 00:08:01,440

i've kind of like transferred that

227

00:08:05,830 --> 00:08:03,759

across to uap i i wrote a few papers on

228

00:08:07,670 --> 00:08:05,840

the middle east for various think tanks

229

00:08:10,150 --> 00:08:07,680

uh israeli think tanks

230

00:08:12,390 --> 00:08:10,160

and um then my interest just got was

231

00:08:13,909 --> 00:08:12,400

became captivated by uap

232

00:08:16,070 --> 00:08:13,919

um so i went from being kind of like a

233

00:08:17,110 --> 00:08:16,080

middle east analyst to being a sort of a

234

00:08:19,350 --> 00:08:17,120

uap

235

00:08:21,270 --> 00:08:19,360

uh strategic uh studies national

236

00:08:22,950 --> 00:08:21,280

security analyst i guess you'd call it i

237

00:08:25,909 --> 00:08:22,960

wouldn't call myself a

238

00:08:28,070 --> 00:08:25,919

ufologist per se um i think there's a a

239

00:08:29,909 --> 00:08:28,080

lot of great research in use in ufology

240

00:08:32,550 --> 00:08:29,919

a lot of fantastic research there's also

241

00:08:34,149 --> 00:08:32,560

a lot of baggage in ufology as well um

242

00:08:36,310 --> 00:08:34,159

and the way i approached it initially

243

00:08:38,389 --> 00:08:36,320

was really kind of like nuts and bolts

244

00:08:40,389 --> 00:08:38,399

and as from you know from a national

245

00:08:42,709 --> 00:08:40,399

security perspective but since kind of

246

00:08:45,750 --> 00:08:42,719

like 2016 my mind has like really been

247

00:08:47,110 --> 00:08:45,760

blown and kind of opened up and i mean i

248

00:08:49,269 --> 00:08:47,120

spent a lot of time talking with people

249

00:08:51,110 --> 00:08:49,279

like colonel john alexander um people

250

00:08:52,870 --> 00:08:51,120

who've been at places like skinwalker

251

00:08:54,550 --> 00:08:52,880

and you know people i talk to a lot of

252

00:08:56,470 --> 00:08:54,560

people who work on sensitive government

253

00:08:58,470 --> 00:08:56,480

projects as well and it's just really

254

00:09:01,509 --> 00:08:58,480

opened up my mind to the whole kind of

255

00:09:04,550 --> 00:09:01,519

consciousness aspect as well of it um so

256

00:09:05,670 --> 00:09:04,560

i've gone very very far from 2016 where

257

00:09:07,430 --> 00:09:05,680

i was just looking at like nuts and

258

00:09:09,030 --> 00:09:07,440

bolts ufos to

259

00:09:11,509 --> 00:09:09,040

looking at the whole range of phenomena

260

00:09:13,430 --> 00:09:11,519

the whole kind of weird spooky uh you

261

00:09:15,430 --> 00:09:13,440

know high strangeness of it

262

00:09:17,350 --> 00:09:15,440

there's a lot to unpack there and but

263

00:09:19,110 --> 00:09:17,360

the first thing that comes to my mind is

264

00:09:21,030 --> 00:09:19,120

you talk about that time you had in the

265

00:09:23,350 --> 00:09:21,040

military what was the general

266

00:09:25,509 --> 00:09:23,360

conversation did did you have chats with

267

00:09:27,670 --> 00:09:25,519

your kind of fellow servicemen and women

268

00:09:29,350 --> 00:09:27,680

ever about ufos did it ever come up just

269

00:09:31,190 --> 00:09:29,360

in the kind of banter back and forward

270

00:09:32,630 --> 00:09:31,200

and and what was that conversation if

271

00:09:34,470 --> 00:09:32,640

there was

272

00:09:37,670 --> 00:09:34,480

it did but it's nothing that i can talk

273

00:09:40,230 --> 00:09:37,680

about and and i don't say that being um

274

00:09:42,230 --> 00:09:40,240

um you know being i am reticent to say

275

00:09:44,389 --> 00:09:42,240

that uh but i i can't talk about any

276

00:09:45,910 --> 00:09:44,399

conversations that i've had or any

277

00:09:47,509 --> 00:09:45,920

information that i came across as a

278

00:09:49,750 --> 00:09:47,519

result of my service because the the

279

00:09:51,110 --> 00:09:49,760

official secrets act is all encompassing

280

00:09:53,829 --> 00:09:51,120

i spent a lot of time with the royal air

281

00:09:56,710 --> 00:09:53,839

force i spent time flying on a-wax i

282

00:09:58,310 --> 00:09:56,720

spent a lot of time on raf bases uh you

283

00:09:59,829 --> 00:09:58,320

know in the office's mess

284

00:10:01,990 --> 00:09:59,839

you know chatting with pilots and also

285

00:10:03,910 --> 00:10:02,000

debriefing pilots

286

00:10:05,190 --> 00:10:03,920

so let's just say that that piqued my

287

00:10:06,470 --> 00:10:05,200

interest i can't really go into more

288

00:10:07,750 --> 00:10:06,480

depth than that

289

00:10:09,590 --> 00:10:07,760

sure so it sounds like there was an

290

00:10:11,430 --> 00:10:09,600

interest there not just on your part but

291

00:10:13,269 --> 00:10:11,440

probably from other people as well which

292

00:10:16,230 --> 00:10:13,279

which is always good especially from a

293

00:10:18,550 --> 00:10:16,240

uk point of view and i'd love to talk to

294

00:10:21,350 --> 00:10:18,560

you now about that uk point of view

295

00:10:22,389 --> 00:10:21,360

why is it taking the uk

296

00:10:24,790 --> 00:10:22,399

at the

297

00:10:26,949 --> 00:10:24,800

as it seems on the front of things to

298

00:10:29,110 --> 00:10:26,959

get so involved in this subject because

299

00:10:30,470 --> 00:10:29,120

we still seem like we are years and

300

00:10:32,630 --> 00:10:30,480

years behind other countries and

301
00:10:34,470 --> 00:10:32,640
continents

302
00:10:36,550 --> 00:10:34,480
i think there's a couple of reasons uh

303
00:10:38,949 --> 00:10:36,560
one is um

304
00:10:39,910 --> 00:10:38,959
is that the uk is a highly secretive

305
00:10:41,829 --> 00:10:39,920
state

306
00:10:44,310 --> 00:10:41,839
um i was part of that kind of secret

307
00:10:45,590 --> 00:10:44,320
state i'll give an example um you know

308
00:10:47,750 --> 00:10:45,600
when i was a young officer in northern

309
00:10:49,030 --> 00:10:47,760
ireland a young intelligence officer uh

310
00:10:50,710 --> 00:10:49,040
there were things

311
00:10:52,710 --> 00:10:50,720
that uh you know we were doing that you

312
00:10:54,069 --> 00:10:52,720
know the politicians had no idea what we

313
00:10:55,509 --> 00:10:54,079

were doing they just give you a mandate

314

00:10:57,829 --> 00:10:55,519

to operate and you operate and it's all

315

00:10:59,990 --> 00:10:57,839

based on need to know um it's very very

316

00:11:01,670 --> 00:11:00,000

compartmentalized so that's one reason i

317

00:11:02,870 --> 00:11:01,680

think the second reason is

318

00:11:05,829 --> 00:11:02,880

um that

319

00:11:07,430 --> 00:11:05,839

the uk is very much following um the uk

320

00:11:09,430 --> 00:11:07,440

the the american

321

00:11:12,230 --> 00:11:09,440

uh leadership on this

322

00:11:13,750 --> 00:11:12,240

and we saw that as well in um

323

00:11:15,750 --> 00:11:13,760

in the whole um

324

00:11:17,829 --> 00:11:15,760

you know render forest incident where

325

00:11:20,470 --> 00:11:17,839

where basically uk kind of abrogated uh

326

00:11:21,670 --> 00:11:20,480

sovereignty effectively and allowed uh

327

00:11:24,310 --> 00:11:21,680

the head of the american air force to

328

00:11:26,310 --> 00:11:24,320

come over to the uk um and to

329

00:11:27,910 --> 00:11:26,320

basically take over the investigation so

330

00:11:29,750 --> 00:11:27,920

i think the uk that plays very much

331

00:11:31,110 --> 00:11:29,760

second fiddle to to the americans on

332

00:11:33,750 --> 00:11:31,120

that and i think it's a very very

333

00:11:36,470 --> 00:11:33,760

sensitive issue um i was going to say

334

00:11:38,949 --> 00:11:36,480

my experiences in the uk military okay

335

00:11:40,949 --> 00:11:38,959

and i'll say this tongue-in-cheek um

336

00:11:42,870 --> 00:11:40,959

compared to what i saw and compared to

337

00:11:45,030 --> 00:11:42,880

what you see in project condyn uh you

338

00:11:47,269 --> 00:11:45,040

know the report uh unidentified aerial

339

00:11:48,790 --> 00:11:47,279

phenomenon in the uk air defense region

340

00:11:50,310 --> 00:11:48,800

are very very different and that's all i

341

00:11:52,870 --> 00:11:50,320

can say

342

00:11:55,590 --> 00:11:52,880

sure and from a uk point of view you

343

00:11:56,710 --> 00:11:55,600

said that we are following the us's lead

344

00:11:59,110 --> 00:11:56,720

the us

345

00:12:01,110 --> 00:11:59,120

as it seems is talking about this in the

346

00:12:02,790 --> 00:12:01,120

mainstream you're hearing about it on

347

00:12:04,550 --> 00:12:02,800

you know the when the white house does

348

00:12:07,030 --> 00:12:04,560

their daily press briefings there was a

349

00:12:09,269 --> 00:12:07,040

time especially back in may april may

350

00:12:11,670 --> 00:12:09,279

june this year where last year if you're

351

00:12:14,069 --> 00:12:11,680

listening to this in 2022 there was a

352

00:12:16,150 --> 00:12:14,079

lot of questions and press briefings

353

00:12:19,910 --> 00:12:16,160

we don't seem to have that in the uk we

354

00:12:21,670 --> 00:12:19,920

had one small um raising of the question

355

00:12:23,269 --> 00:12:21,680

uh baroness goldie i believe was

356

00:12:25,269 --> 00:12:23,279

involved in that where it was pretty

357

00:12:27,269 --> 00:12:25,279

much laughed off and poo poed back in

358

00:12:28,629 --> 00:12:27,279

the summer um when it was brought up

359

00:12:30,870 --> 00:12:28,639

that you know the us are taking the

360

00:12:32,790 --> 00:12:30,880

subject seriously did the did the uk

361

00:12:35,030 --> 00:12:32,800

government have any plans to follow that

362

00:12:36,550 --> 00:12:35,040

and it was laughed off do you think

363

00:12:37,829 --> 00:12:36,560

again i know you're coming from a place

364

00:12:39,350 --> 00:12:37,839

of knowledge of some of this as well so

365

00:12:41,590 --> 00:12:39,360

i appreciate those answers can be a bit

366

00:12:43,030 --> 00:12:41,600

difficult but is there much more of an

367

00:12:45,509 --> 00:12:43,040

interest in the background in this

368

00:12:47,430 --> 00:12:45,519

subject or are we happy to let the us

369

00:12:49,269 --> 00:12:47,440

take the lead in the sense that just do

370

00:12:51,030 --> 00:12:49,279

what you want the uk doesn't want

371

00:12:53,750 --> 00:12:51,040

anything to do with it

372

00:12:55,990 --> 00:12:53,760

look i'd say there's very much uh a uk

373

00:12:58,150 --> 00:12:56,000

interest in the subject uh you only have

374

00:12:59,190 --> 00:12:58,160

to look at project condy

375

00:13:01,030 --> 00:12:59,200

and now although it's kind of

376

00:13:03,509 --> 00:13:01,040

tongue-in-cheek it says um

377

00:13:05,910 --> 00:13:03,519

you know it was of no uh intelligence

378

00:13:09,350 --> 00:13:05,920

interest okay but then you look and it

379

00:13:11,430 --> 00:13:09,360

says uh the uk would consider uap to a

380

00:13:14,949 --> 00:13:11,440

threat if they were able to penetrate

381

00:13:16,470 --> 00:13:14,959

the uk air defense region um

382

00:13:19,269 --> 00:13:16,480

uh yes you have to kind of read between

383

00:13:21,269 --> 00:13:19,279

the lines if the uk if uap were able to

384

00:13:23,030 --> 00:13:21,279

penetrate the uk air defense region if

385

00:13:25,350 --> 00:13:23,040

they were able to defeat radars if they

386

00:13:28,230 --> 00:13:25,360

were able to uh you know evade fighters

387

00:13:29,750 --> 00:13:28,240

and uh and ground and ground-based uh

388

00:13:31,590 --> 00:13:29,760

you know intersection

389

00:13:32,870 --> 00:13:31,600

um then we would consider that a threat

390

00:13:34,550 --> 00:13:32,880

so i think you have to read between the

391

00:13:36,310 --> 00:13:34,560

lines on that one and i think there's

392

00:13:37,829 --> 00:13:36,320

very much an interest now i'm not saying

393

00:13:39,829 --> 00:13:37,839

that there was some kind of big cover up

394

00:13:41,590 --> 00:13:39,839

with project condyle what i'm saying is

395

00:13:43,030 --> 00:13:41,600

i don't think that the guy who wrote it

396

00:13:45,189 --> 00:13:43,040

and he's very capable and you guys did a

397

00:13:48,069 --> 00:13:45,199

great article on it as well the guy was

398

00:13:50,629 --> 00:13:48,079

a pilot i believe aircrew and he also

399

00:13:52,710 --> 00:13:50,639

had a you know a a scientific background

400

00:13:53,910 --> 00:13:52,720

in radar technologies i just don't think

401
00:13:55,430 --> 00:13:53,920
he had all the

402
00:13:56,949 --> 00:13:55,440
i don't think he had access to all the

403
00:13:58,310 --> 00:13:56,959
information available when he was making

404
00:14:00,150 --> 00:13:58,320
his report

405
00:14:01,269 --> 00:14:00,160
and and also it was based at secret

406
00:14:05,030 --> 00:14:01,279
level if you look at the report it's

407
00:14:08,150 --> 00:14:05,040
secret level so if if there were a uk

408
00:14:10,629 --> 00:14:08,160
effort looking at uh uap it would be uh

409
00:14:12,550 --> 00:14:10,639
you know top secret and above

410
00:14:15,509 --> 00:14:12,560
do you think because for decades and

411
00:14:17,269 --> 00:14:15,519
decades the the lore of of ufos and

412
00:14:18,949 --> 00:14:17,279
ufology there's that dirty word that you

413
00:14:20,389 --> 00:14:18,959

used before as well that's got so many

414

00:14:21,990 --> 00:14:20,399

connotations

415

00:14:24,389 --> 00:14:22,000

from a united states point of view we

416

00:14:26,629 --> 00:14:24,399

hear about all these secret cabals and

417

00:14:28,150 --> 00:14:26,639

you know rooms within governments rooms

418

00:14:30,870 --> 00:14:28,160

within rooms within rooms hidden

419

00:14:35,110 --> 00:14:30,880

underground bases and mountains area 51

420

00:14:37,509 --> 00:14:35,120

grimly or s4 yet from a uk point of view

421

00:14:39,030 --> 00:14:37,519

there seems to be nothing but if if you

422

00:14:40,150 --> 00:14:39,040

read between those lines that we do have

423

00:14:42,949 --> 00:14:40,160

an interest

424

00:14:45,509 --> 00:14:42,959

are we just or are the uk

425

00:14:47,269 --> 00:14:45,519

so much better at keeping all that quiet

426

00:14:49,030 --> 00:14:47,279

because that seems to be a hell of a lot

427

00:14:51,430 --> 00:14:49,040

that's come out over the years

428

00:14:53,350 --> 00:14:51,440

from the united states

429

00:14:55,269 --> 00:14:53,360

i think the uk maybe is better at

430

00:14:58,310 --> 00:14:55,279

keeping things quiet

431

00:15:00,150 --> 00:14:58,320

i mean for example you know elizondo

432

00:15:02,310 --> 00:15:00,160

um and others

433

00:15:04,230 --> 00:15:02,320

who've had uh you know top secret you

434

00:15:06,389 --> 00:15:04,240

know tsci clearances can talk about

435

00:15:08,150 --> 00:15:06,399

things within certain parameters whereas

436

00:15:09,350 --> 00:15:08,160

i can't um

437

00:15:12,870 --> 00:15:09,360

and i'm not saying that i have the same

438

00:15:14,949 --> 00:15:12,880

kind of knowledge as elizondo

439

00:15:16,069 --> 00:15:14,959

maybe interesting knowledge but i don't

440

00:15:17,509 --> 00:15:16,079

have you know maybe the breadth of

441

00:15:20,069 --> 00:15:17,519

knowledge that he does

442

00:15:22,470 --> 00:15:20,079

um in terms of like a panoramic view of

443

00:15:25,030 --> 00:15:22,480

what was going on in terms of uap

444

00:15:28,389 --> 00:15:25,040

but i think

445

00:15:30,150 --> 00:15:28,399

the uk has to be very very careful um

446

00:15:32,230 --> 00:15:30,160

about what it uh

447

00:15:34,069 --> 00:15:32,240

what it emits what it disseminates the

448

00:15:35,829 --> 00:15:34,079

public and what it doesn't

449

00:15:38,069 --> 00:15:35,839

and i think for year for years and years

450

00:15:39,189 --> 00:15:38,079

it's been such a kind of taboo subject

451

00:15:40,470 --> 00:15:39,199

um

452

00:15:42,230 --> 00:15:40,480

i've talked to

453

00:15:44,310 --> 00:15:42,240

nick pope about this and you know he's

454

00:15:45,430 --> 00:15:44,320

got like one view he was at the

455

00:15:46,550 --> 00:15:45,440

you know the ministry of defense

456

00:15:49,030 --> 00:15:46,560

obviously collating these kind of

457

00:15:51,829 --> 00:15:49,040

reports i was kind of like on the ground

458

00:15:53,269 --> 00:15:51,839

uh talking to people but uh there's no

459

00:15:57,189 --> 00:15:53,279

doubt in my mind that there's a lot more

460

00:15:59,749 --> 00:15:57,199

going on in the uk as regards uap then

461

00:16:01,990 --> 00:15:59,759

came out in project condyne and that the

462

00:16:03,749 --> 00:16:02,000

ua that the the uk government is

463

00:16:05,269 --> 00:16:03,759

prepared to talk about now there's a lot

464

00:16:06,629 --> 00:16:05,279

more

465

00:16:09,910 --> 00:16:06,639

the condition report one of the

466

00:16:11,030 --> 00:16:09,920

suggestions was that uep ufos could be a

467

00:16:12,470 --> 00:16:11,040

plasma

468

00:16:13,910 --> 00:16:12,480

i would ask you what your thoughts are

469

00:16:15,350 --> 00:16:13,920

on this because for me even the

470

00:16:17,110 --> 00:16:15,360

reference that oh yeah it could be some

471

00:16:18,710 --> 00:16:17,120

sort of plasma phenomenon

472

00:16:21,350 --> 00:16:18,720

doesn't mean that it's not something

473

00:16:23,430 --> 00:16:21,360

potentially non-human

474

00:16:25,189 --> 00:16:23,440

yeah but it also says um

475

00:16:28,069 --> 00:16:25,199

the condyle report that uh you know that

476
00:16:30,069 --> 00:16:28,079
uap exists are you know is indisputable

477
00:16:31,910 --> 00:16:30,079
and that uh you know these objects can

478
00:16:34,069 --> 00:16:31,920
uh you know outmaneuver

479
00:16:35,990 --> 00:16:34,079
uh you know the you know fighter

480
00:16:37,749 --> 00:16:36,000
interceptors and and ground-based

481
00:16:39,990 --> 00:16:37,759
missiles right and that can maneuver in

482
00:16:41,829 --> 00:16:40,000
extraordinary ways so

483
00:16:44,949 --> 00:16:41,839
i'm not convinced that it's just a

484
00:16:47,269 --> 00:16:44,959
plasma that is responsible for that um

485
00:16:49,590 --> 00:16:47,279
they talk extensively in condyle it's a

486
00:16:51,269 --> 00:16:49,600
400-page report they talk extensively

487
00:16:54,069 --> 00:16:51,279
about plasmas

488
00:16:55,990 --> 00:16:54,079

in the context of um you know radar

489

00:16:58,230 --> 00:16:56,000

decoys and kind of like exotic military

490

00:16:59,189 --> 00:16:58,240

technologies i think plasmas could be

491

00:17:00,310 --> 00:16:59,199

one

492

00:17:02,150 --> 00:17:00,320

uh

493

00:17:04,150 --> 00:17:02,160

could be one kind of conclusion that you

494

00:17:06,069 --> 00:17:04,160

could draw about uap but i think there's

495

00:17:07,909 --> 00:17:06,079

a lot of other possibilities as well and

496

00:17:10,069 --> 00:17:07,919

i think since the condyne report you

497

00:17:12,069 --> 00:17:10,079

know what we've seen for example with um

498

00:17:13,990 --> 00:17:12,079

you know the west coast sightings

499

00:17:15,350 --> 00:17:14,000

so the east coast sightings in the us

500

00:17:16,870 --> 00:17:15,360

and you know the the so-called the

501
00:17:19,029 --> 00:17:16,880
southern california sightings like

502
00:17:21,990 --> 00:17:19,039
nimitz i think there's a lot more to uap

503
00:17:25,429 --> 00:17:23,829
every time we talk about this subject

504
00:17:27,829 --> 00:17:25,439
and i mean just people with an interest

505
00:17:29,990 --> 00:17:27,839
in ufos generally we talk about the

506
00:17:33,350 --> 00:17:30,000
potential for it being a more

507
00:17:35,430 --> 00:17:33,360
terrestrial explanation i.e u.s russian

508
00:17:37,430 --> 00:17:35,440
or chinese technology

509
00:17:39,110 --> 00:17:37,440
does the uk

510
00:17:41,510 --> 00:17:39,120
enjoy being left out of that

511
00:17:43,590 --> 00:17:41,520
conversation in terms of those are the

512
00:17:44,830 --> 00:17:43,600
three big superpowers they have all this

513
00:17:48,230 --> 00:17:44,840

secret tech

514

00:17:50,470 --> 00:17:48,240

now as much as you can where does the uk

515

00:17:52,630 --> 00:17:50,480

sit in terms of advanced drone

516

00:17:54,310 --> 00:17:52,640

technology you know advanced military

517

00:17:56,070 --> 00:17:54,320

technology because we tend not to be

518

00:17:58,830 --> 00:17:56,080

involved in those conversations but i'm

519

00:18:01,430 --> 00:17:58,840

sure there's something there

520

00:18:03,190 --> 00:18:01,440

uh the uk is one of the

521

00:18:04,789 --> 00:18:03,200

preeminent military powers in the world

522

00:18:05,909 --> 00:18:04,799

um you only have to look at the fact

523

00:18:07,110 --> 00:18:05,919

that uh

524

00:18:09,350 --> 00:18:07,120

when you look for example i was looking

525

00:18:11,110 --> 00:18:09,360

today at um

526

00:18:13,669 --> 00:18:11,120

i was looking at a drive article and it

527

00:18:16,470 --> 00:18:13,679

was on the uh the us navy's railgun

528

00:18:18,070 --> 00:18:16,480

right and it had like you know baseba

529

00:18:20,549 --> 00:18:18,080

systems right written down the side of

530

00:18:22,310 --> 00:18:20,559

the railgun uh the ba the

531

00:18:23,830 --> 00:18:22,320

british aerospace and british defense

532

00:18:26,310 --> 00:18:23,840

and contractors in general because

533

00:18:28,549 --> 00:18:26,320

there's a whole swath of of uh of

534

00:18:30,310 --> 00:18:28,559

defense contractors from you know uh

535

00:18:31,830 --> 00:18:30,320

from actually producing like the big

536

00:18:33,909 --> 00:18:31,840

ticket items down to like you know the

537

00:18:36,390 --> 00:18:33,919

nuts and bolts literally nuts and bolts

538

00:18:38,310 --> 00:18:36,400

um the the british are dug in deeper

539

00:18:41,350 --> 00:18:38,320

than alabama tick i believe when it

540

00:18:43,669 --> 00:18:41,360

comes to to to the uap uh issue and

541

00:18:45,590 --> 00:18:43,679

there's a lot more there

542

00:18:47,350 --> 00:18:45,600

let me ask you then i suppose this comes

543

00:18:48,310 --> 00:18:47,360

from just as came on to my the top of my

544

00:18:50,950 --> 00:18:48,320

head there

545

00:18:53,029 --> 00:18:50,960

if we are talking that the uk the sorry

546

00:18:55,430 --> 00:18:53,039

the us china and russia those three big

547

00:18:57,350 --> 00:18:55,440

superpowers are potentially harboring

548

00:18:59,110 --> 00:18:57,360

some pretty amazing technologies of

549

00:19:01,029 --> 00:18:59,120

their own they're spying on each other

550

00:19:02,789 --> 00:19:01,039

there's drones buzzing each other's uh

551

00:19:04,310 --> 00:19:02,799

navy ships and whatnot

552

00:19:06,390 --> 00:19:04,320

what would be the next country would it

553

00:19:08,549 --> 00:19:06,400

be the uk that would sit next in that

554

00:19:11,990 --> 00:19:08,559

list of of countries with that sort of

555

00:19:13,830 --> 00:19:12,000

technology or would it be something else

556

00:19:16,150 --> 00:19:13,840

well no i think the uk is like well up

557

00:19:17,750 --> 00:19:16,160

there with the americans because

558

00:19:19,590 --> 00:19:17,760

there's almost like a seamless kind of

559

00:19:21,669 --> 00:19:19,600

transfer of technology between the us

560

00:19:23,830 --> 00:19:21,679

and the uk and there always has been

561

00:19:24,470 --> 00:19:23,840

um i would say that uh probably you know

562

00:19:28,390 --> 00:19:24,480

the

563

00:19:30,150 --> 00:19:28,400

of technology because traditionally uh

564

00:19:32,230 --> 00:19:30,160

you know the uk is an open society so

565

00:19:33,669 --> 00:19:32,240

that kind of breeds uh more innovation

566

00:19:35,430 --> 00:19:33,679

and that's why you know britain is a

567

00:19:37,190 --> 00:19:35,440

small country but we've got like uh you

568

00:19:39,270 --> 00:19:37,200

know the fifth or sixth biggest uh kind

569

00:19:40,710 --> 00:19:39,280

of arms exports in the world right we've

570

00:19:42,870 --> 00:19:40,720

always punched above our weight the

571

00:19:44,390 --> 00:19:42,880

brits uh you know brits are highly

572

00:19:46,070 --> 00:19:44,400

innovative and we've always been leaders

573

00:19:48,070 --> 00:19:46,080

in military technology you only have to

574

00:19:50,310 --> 00:19:48,080

look at our performance in world war ii

575

00:19:51,750 --> 00:19:50,320

and uh you know the fact that together

576

00:19:53,830 --> 00:19:51,760

with the americans together with the

577

00:19:55,750 --> 00:19:53,840

australians the canadians uh you know

578

00:19:58,230 --> 00:19:55,760

the aussies and new zealanders uh we're

579

00:19:59,909 --> 00:19:58,240

part of you know the most the most uh

580

00:20:02,870 --> 00:19:59,919

you know advanced intelligence network

581

00:20:03,750 --> 00:20:02,880

in the world um you know the five eyes

582

00:20:04,950 --> 00:20:03,760

so

583

00:20:07,350 --> 00:20:04,960

um

584

00:20:09,669 --> 00:20:07,360

i would put the uk definitely on a par

585

00:20:13,110 --> 00:20:09,679

uh technology wise you know with both

586

00:20:14,789 --> 00:20:13,120

russia china and uh you know as i said

587

00:20:17,830 --> 00:20:14,799

with the americans it's seamless

588

00:20:19,110 --> 00:20:17,840

technology uh transfer in some cases the

589

00:20:20,470 --> 00:20:19,120

f-22 is the only thing that the

590

00:20:22,789 --> 00:20:20,480

americans haven't transferred to their

591

00:20:24,549 --> 00:20:22,799

allies but if you look like the f-35

592

00:20:26,470 --> 00:20:24,559

they've given it to you know

593

00:20:28,310 --> 00:20:26,480

that the brits are involved in f-35 the

594

00:20:30,390 --> 00:20:28,320

norwegians are involved the italians are

595

00:20:31,909 --> 00:20:30,400

involved okay the turks are booted out

596

00:20:33,029 --> 00:20:31,919

because they wanted to buy s 400 from

597

00:20:35,750 --> 00:20:33,039

the russians

598

00:20:37,830 --> 00:20:35,760

um but uh that there's a pretty very

599

00:20:39,750 --> 00:20:37,840

there's a very very close technology uh

600

00:20:42,470 --> 00:20:39,760

transfer agreement between uh you know

601
00:20:43,990 --> 00:20:42,480
specific allies uh obviously the the

602
00:20:45,510 --> 00:20:44,000
english-speaking countries i said the oz

603
00:20:48,230 --> 00:20:45,520
kanukas is it called you know the five

604
00:20:49,990 --> 00:20:48,240
eyes are kind of like the closest uh

605
00:20:51,830 --> 00:20:50,000
israel obviously is very very close to

606
00:20:53,510 --> 00:20:51,840
the americans as well and i know that uh

607
00:20:55,990 --> 00:20:53,520
from my work with the beggin uh sedate

608
00:20:57,909 --> 00:20:56,000
center for strategic studies

609
00:20:59,669 --> 00:20:57,919
um but uh no the brits are well out

610
00:21:01,510 --> 00:20:59,679
there

611
00:21:03,909 --> 00:21:01,520
now you mentioned the the east coast

612
00:21:06,549 --> 00:21:03,919
events that happened back in 2004 and

613
00:21:08,390 --> 00:21:06,559

beyond and no doubt before 2004 as well

614

00:21:10,870 --> 00:21:08,400

but the most famous one the nimitz

615

00:21:12,390 --> 00:21:10,880

princeton are there any events like that

616

00:21:13,830 --> 00:21:12,400

that you've come across or you've heard

617

00:21:16,630 --> 00:21:13,840

of that have happened elsewhere in the

618

00:21:18,070 --> 00:21:16,640

world that you feel are overlooked

619

00:21:21,590 --> 00:21:18,080

yeah definitely i mean i talked about

620

00:21:27,830 --> 00:21:24,470

i think it was on uh

621

00:21:29,350 --> 00:21:27,840

unidentified celebrity review um

622

00:21:31,669 --> 00:21:29,360

uh that a

623

00:21:32,950 --> 00:21:31,679

a guy i'd work with uh who was kind of a

624

00:21:34,789 --> 00:21:32,960

mentor to me

625

00:21:36,310 --> 00:21:34,799

um an older guy

626

00:21:39,190 --> 00:21:36,320

um i worked for him when i came out of

627

00:21:40,149 --> 00:21:39,200

the military and a very small firm uh

628

00:21:42,630 --> 00:21:40,159

doing

629

00:21:48,070 --> 00:21:45,750

instead of very confidential um you know

630

00:21:51,430 --> 00:21:48,080

kind of type a risk management uh and

631

00:21:54,390 --> 00:21:51,440

reporting for uh fortune fortune

632

00:21:56,390 --> 00:21:54,400

uh 500 and ftse 100 companies and he

633

00:21:58,710 --> 00:21:56,400

told me he'd been encounter intelligence

634

00:22:00,870 --> 00:21:58,720

and in the late 50s uh there was an

635

00:22:01,830 --> 00:22:00,880

incident on the inner german border

636

00:22:04,310 --> 00:22:01,840

where

637

00:22:06,390 --> 00:22:04,320

um the east germans and the russians

638

00:22:09,190 --> 00:22:06,400

they'd launched six fighters towards the

639

00:22:11,590 --> 00:22:09,200

inner german border um on the nato side

640

00:22:12,950 --> 00:22:11,600

they'd been four british fighters uh

641

00:22:15,029 --> 00:22:12,960

which were

642

00:22:17,430 --> 00:22:15,039

laun basically scrambled to intercept

643

00:22:19,830 --> 00:22:17,440

them and then from north to south south

644

00:22:21,270 --> 00:22:19,840

travelling sorry in a south north

645

00:22:24,390 --> 00:22:21,280

direction traveling along the inner

646

00:22:26,549 --> 00:22:24,400

german border when germany was divided

647

00:22:29,430 --> 00:22:26,559

there was a very large uh unidentified

648

00:22:31,190 --> 00:22:29,440

flying object which had uh

649

00:22:32,470 --> 00:22:31,200

uh this person told me it was like you

650

00:22:34,470 --> 00:22:32,480

know the size of a couple of aircraft

651
00:22:35,510 --> 00:22:34,480
carriers according to its uh its radar

652
00:22:37,990 --> 00:22:35,520
signature

653
00:22:40,549 --> 00:22:38,000
and it literally uh it merged plot with

654
00:22:43,430 --> 00:22:40,559
the six uh eastern blot fighters and the

655
00:22:45,350 --> 00:22:43,440
four nato fighters and then uh basically

656
00:22:48,390 --> 00:22:45,360
continued in a in a south north

657
00:22:49,909 --> 00:22:48,400
direction and uh

658
00:22:52,070 --> 00:22:49,919
the east bloc fighters and the nato

659
00:22:53,510 --> 00:22:52,080
fighters completely disappeared and

660
00:22:54,710 --> 00:22:53,520
there was no wreckage ever found on the

661
00:22:57,029 --> 00:22:54,720
ground

662
00:22:58,470 --> 00:22:57,039
and uh then the person that i was

663
00:22:59,510 --> 00:22:58,480

working for he was in counter

664

00:23:01,510 --> 00:22:59,520

intelligence the british and the

665

00:23:03,350 --> 00:23:01,520

americans they went around all the nato

666

00:23:05,510 --> 00:23:03,360

radar sites everybody was told to

667

00:23:07,590 --> 00:23:05,520

basically shut up everybody was reminded

668

00:23:09,669 --> 00:23:07,600

of their security oaths and all the

669

00:23:11,190 --> 00:23:09,679

radar tapes were confiscated those are

670

00:23:12,870 --> 00:23:11,200

the types of uh

671

00:23:14,230 --> 00:23:12,880

of incidents which are being covered up

672

00:23:17,029 --> 00:23:14,240

by the military

673

00:23:18,950 --> 00:23:17,039

because it shows that uh the military

674

00:23:20,870 --> 00:23:18,960

you know nato and also you know the

675

00:23:22,710 --> 00:23:20,880

warsaw pact in those days the russians

676
00:23:25,590 --> 00:23:22,720
the chinese in these days the brazilians

677
00:23:27,029 --> 00:23:25,600
the indians the japanese the taiwanese

678
00:23:29,669 --> 00:23:27,039
anybody who has you know advanced

679
00:23:31,430 --> 00:23:29,679
military technology and uh you know a

680
00:23:33,190 --> 00:23:31,440
technologically advanced air force do

681
00:23:34,390 --> 00:23:33,200
not have control over their skies and

682
00:23:37,430 --> 00:23:34,400
those the kinds of things that have been

683
00:23:40,870 --> 00:23:37,440
covered up and do you think those types

684
00:23:43,110 --> 00:23:40,880
of incidents where pilots go missing or

685
00:23:45,510 --> 00:23:43,120
or their craft crash because of one of

686
00:23:48,230 --> 00:23:45,520
these events are far more common than

687
00:23:52,310 --> 00:23:48,240
that we're led to believe

688
00:23:54,310 --> 00:23:52,320

i would believe so yes and i believe uh

689

00:23:57,029 --> 00:23:54,320

you have to read between the lines here

690

00:24:00,470 --> 00:23:57,039

uh i would say that uh the incidence of

691

00:24:04,070 --> 00:24:00,480

uh air intercepts where uh unidentified

692

00:24:06,549 --> 00:24:04,080

craft penetrate uh you know um an air

693

00:24:09,029 --> 00:24:06,559

defense region of the united states

694

00:24:11,830 --> 00:24:09,039

of nato of the uk

695

00:24:13,909 --> 00:24:11,840

uh are far higher than we are being led

696

00:24:17,029 --> 00:24:13,919

to believe and i did a

697

00:24:18,470 --> 00:24:17,039

for uh american anti-gravity um and for

698

00:24:20,310 --> 00:24:18,480

um

699

00:24:22,630 --> 00:24:20,320

yeah for american anti-gravity i did a

700

00:24:25,029 --> 00:24:22,640

short 20-minute presentation a couple of

701
00:24:29,110 --> 00:24:25,039
weeks ago on uh unidentified aerial

702
00:24:31,430 --> 00:24:29,120
phenomena in the canary islands using uh

703
00:24:33,350 --> 00:24:31,440
uh declassified spanish reports okay and

704
00:24:35,909 --> 00:24:33,360
there were multiple scrambles of

705
00:24:37,750 --> 00:24:35,919
interceptors to uh

706
00:24:39,430 --> 00:24:37,760
you know to investigate objects that

707
00:24:41,750 --> 00:24:39,440
were that were not supposed to be there

708
00:24:43,750 --> 00:24:41,760
that were not uh commercial aircraft

709
00:24:45,110 --> 00:24:43,760
that were not uh

710
00:24:47,750 --> 00:24:45,120
adversarial aircraft and that were not

711
00:24:49,590 --> 00:24:47,760
spanish aircraft

712
00:24:51,669 --> 00:24:49,600
is there also and this is we're talking

713
00:24:53,350 --> 00:24:51,679

from from a military point of view but

714

00:24:55,750 --> 00:24:53,360

commercially

715

00:24:57,430 --> 00:24:55,760

is there an understanding or a train of

716

00:24:59,830 --> 00:24:57,440

thought that some of these commercial

717

00:25:02,470 --> 00:24:59,840

craft that go missing out over the ocean

718

00:25:05,350 --> 00:25:02,480

or crash there's ever been incidents

719

00:25:06,870 --> 00:25:05,360

where a uap has been involved but again

720

00:25:08,870 --> 00:25:06,880

that's covered up and put down to some

721

00:25:10,789 --> 00:25:08,880

kind of technical or malfunction that

722

00:25:13,110 --> 00:25:10,799

can go into the realms of conspiracy

723

00:25:15,269 --> 00:25:13,120

theory that i know but i do wonder if

724

00:25:16,789 --> 00:25:15,279

that sometimes can happen and it's just

725

00:25:18,630 --> 00:25:16,799

it's easily dismissed

726

00:25:21,430 --> 00:25:18,640

well there's the mantel case in the us

727

00:25:23,510 --> 00:25:21,440

and in the late 1940s um and also

728

00:25:25,350 --> 00:25:23,520

there's uh

729

00:25:26,830 --> 00:25:25,360

there's the book uh you know shoot them

730

00:25:29,510 --> 00:25:26,840

down

731

00:25:30,230 --> 00:25:29,520

by frank fuschina no i believe his name

732

00:25:31,430 --> 00:25:30,240

is

733

00:25:33,269 --> 00:25:31,440

so

734

00:25:35,110 --> 00:25:33,279

there's a lot more going on i believe

735

00:25:37,430 --> 00:25:35,120

and i believe that's one of the reasons

736

00:25:41,430 --> 00:25:37,440

why the u.s military the uk military

737

00:25:44,230 --> 00:25:42,789

the us you don't want to say to your

738

00:25:46,070 --> 00:25:44,240

public that uh you don't have control

739

00:25:48,230 --> 00:25:46,080

over your skies right i mean you've just

740

00:25:51,190 --> 00:25:48,240

been through the cold war and you've

741

00:25:52,630 --> 00:25:51,200

successfully uh stopped the russians uh

742

00:25:54,789 --> 00:25:52,640

or the soviets and then the russians

743

00:25:57,590 --> 00:25:54,799

penetrating like your airspace and then

744

00:25:59,269 --> 00:25:57,600

now suddenly you know we're not suddenly

745

00:26:01,110 --> 00:25:59,279

but you've got these kind of like these

746

00:26:02,710 --> 00:26:01,120

uap which are penetrating your airspace

747

00:26:04,390 --> 00:26:02,720

you can't exactly turn around go

748

00:26:06,230 --> 00:26:04,400

well we managed to stop the russians

749

00:26:07,510 --> 00:26:06,240

invading we saw the soviets invading and

750

00:26:09,029 --> 00:26:07,520

then the russians but we can't stop

751

00:26:10,549 --> 00:26:09,039

these things flying into airspace with

752

00:26:13,110 --> 00:26:10,559

impunity if you look at the history for

753

00:26:15,350 --> 00:26:13,120

example the brits um there was never a

754

00:26:16,470 --> 00:26:15,360

successful penetration in the whole of

755

00:26:19,190 --> 00:26:16,480

the cold war

756

00:26:21,110 --> 00:26:19,200

of you know like a russian long-range

757

00:26:22,870 --> 00:26:21,120

bomber or reconnaissance aircraft uh

758

00:26:24,230 --> 00:26:22,880

trying to penetrate the uk air defense

759

00:26:26,149 --> 00:26:24,240

region they never managed to because

760

00:26:28,230 --> 00:26:26,159

there was always a fighter scramble and

761

00:26:29,350 --> 00:26:28,240

a fighter intercept that uh that

762

00:26:31,110 --> 00:26:29,360

basically you know said you know

763

00:26:33,350 --> 00:26:31,120

basically f off before you get into our

764

00:26:35,830 --> 00:26:33,360

airspace but uap seemed to enter

765

00:26:38,070 --> 00:26:35,840

airspace with impunity

766

00:26:41,110 --> 00:26:38,080

from a us point of view there's always

767

00:26:42,390 --> 00:26:41,120

been chat especially recently of

768

00:26:44,950 --> 00:26:42,400

religious

769

00:26:47,430 --> 00:26:44,960

beliefs within parts of the department

770

00:26:49,350 --> 00:26:47,440

of defense and pentagon that sway

771

00:26:51,430 --> 00:26:49,360

people's thoughts that they're demonic

772

00:26:53,350 --> 00:26:51,440

or angelic or whatever those labels may

773

00:26:55,510 --> 00:26:53,360

mean and that can

774

00:26:56,950 --> 00:26:55,520

very much direct how people act towards

775

00:26:57,909 --> 00:26:56,960

this subject within the halls of

776
00:27:00,149 --> 00:26:57,919
government

777
00:27:01,590 --> 00:27:00,159
is that similar for from a uk point of

778
00:27:02,710 --> 00:27:01,600
view as far as your understanding as

779
00:27:05,190 --> 00:27:02,720
well

780
00:27:08,070 --> 00:27:05,200
i've never seen that um

781
00:27:10,630 --> 00:27:09,510
when i was in military intelligence i

782
00:27:12,870 --> 00:27:10,640
never saw

783
00:27:16,549 --> 00:27:12,880
any hint at all that religion

784
00:27:18,070 --> 00:27:16,559
uh played any part in decision making or

785
00:27:20,389 --> 00:27:18,080
influenced

786
00:27:21,510 --> 00:27:20,399
analyses especially in intelligence i

787
00:27:23,190 --> 00:27:21,520
never saw that i mean i'll give you an

788
00:27:24,789 --> 00:27:23,200

example i mean you know in the british

789

00:27:26,389 --> 00:27:24,799

army you have um

790

00:27:27,830 --> 00:27:26,399

you know like like chapel service and

791

00:27:30,389 --> 00:27:27,840

you'll go and they'll be like you know a

792

00:27:32,230 --> 00:27:30,399

muslim imam uh in uniform in british

793

00:27:34,230 --> 00:27:32,240

uniform part of the british chaplaincy

794

00:27:36,389 --> 00:27:34,240

uh you know department uh they'll be

795

00:27:39,590 --> 00:27:36,399

like you know a catholic father there'll

796

00:27:41,190 --> 00:27:39,600

be a a padre a protestant padre

797

00:27:42,789 --> 00:27:41,200

right so

798

00:27:44,789 --> 00:27:42,799

there'll be you know a jewish rabbi as

799

00:27:46,470 --> 00:27:44,799

well also in british uniform it's it's

800

00:27:48,070 --> 00:27:46,480

very very integrated it's very very

801
00:27:49,830 --> 00:27:48,080
open-minded i've never ever seen that in

802
00:27:51,510 --> 00:27:49,840
the british military

803
00:27:53,269 --> 00:27:51,520
no and that's that's understandable then

804
00:27:55,510 --> 00:27:53,279
because even our politics doesn't lean

805
00:27:57,110 --> 00:27:55,520
that heavily religious and i think it's

806
00:27:58,870 --> 00:27:57,120
something that the british public tend

807
00:28:01,110 --> 00:27:58,880
not to sway too much towards in a

808
00:28:03,190 --> 00:28:01,120
political conversation whereas in the us

809
00:28:04,710 --> 00:28:03,200
we do see that especially what the kind

810
00:28:07,190 --> 00:28:04,720
of highlights and clips we get to see

811
00:28:08,710 --> 00:28:07,200
over over this side of the pond

812
00:28:10,389 --> 00:28:08,720
you mentioned about

813
00:28:11,990 --> 00:28:10,399

countries not wanting to talk about this

814

00:28:14,230 --> 00:28:12,000

for those reasons we were mentioning

815

00:28:16,870 --> 00:28:14,240

before with pilots going down or going

816

00:28:19,669 --> 00:28:16,880

missing um however the us as we know

817

00:28:22,149 --> 00:28:19,679

from 2017 has been more open whether

818

00:28:24,070 --> 00:28:22,159

they wanted to be uh or not their hands

819

00:28:26,789 --> 00:28:24,080

sort of been forced a little bit by

820

00:28:28,470 --> 00:28:26,799

messers elizondo melon tom de long help

821

00:28:30,230 --> 00:28:28,480

it off all those gents who are involved

822

00:28:32,310 --> 00:28:30,240

in these projects and and no doubt

823

00:28:34,389 --> 00:28:32,320

countless others and i suppose i have to

824

00:28:35,830 --> 00:28:34,399

give them senator harry reid uh an

825

00:28:38,630 --> 00:28:35,840

acknowledgement here given he's just

826
00:28:39,510 --> 00:28:38,640
passed away a couple of days as well

827
00:28:41,430 --> 00:28:39,520
yeah

828
00:28:42,870 --> 00:28:41,440
he done a lot of work that i'm sure i

829
00:28:45,350 --> 00:28:42,880
said i think when i posted on social

830
00:28:47,430 --> 00:28:45,360
media that we haven't even heard of or

831
00:28:49,510 --> 00:28:47,440
aren't even aware of at this point and

832
00:28:51,590 --> 00:28:49,520
and may never find out either but a bit

833
00:28:53,190 --> 00:28:51,600
of a trailblazer truly and what he done

834
00:28:54,149 --> 00:28:53,200
and his lofty positions within

835
00:28:56,070 --> 00:28:54,159
government

836
00:28:59,029 --> 00:28:56,080
and part of all that work that he put in

837
00:29:01,110 --> 00:28:59,039
place uh susan goh at the department of

838
00:29:03,029 --> 00:29:01,120

defense has had a rough time of over the

839

00:29:04,870 --> 00:29:03,039

last couple of years doing a lot of back

840

00:29:05,990 --> 00:29:04,880

peddling as well back peddling so fast

841

00:29:08,549 --> 00:29:06,000

you could have came back across the

842

00:29:10,549 --> 00:29:08,559

atlantic i think at times now

843

00:29:13,190 --> 00:29:10,559

in the dod they are trying to position

844

00:29:15,510 --> 00:29:13,200

the office aoimsg

845

00:29:17,669 --> 00:29:15,520

as a solution to the uap bill that was

846

00:29:20,549 --> 00:29:17,679

signed by president biden and there's

847

00:29:22,549 --> 00:29:20,559

been a bit of rumor and debate online i

848

00:29:24,630 --> 00:29:22,559

was i was speaking back and forward with

849

00:29:27,029 --> 00:29:24,640

roger glassell who said it looked like

850

00:29:29,350 --> 00:29:27,039

aoi msg was going to be the the office

851

00:29:31,830 --> 00:29:29,360

this was all directed to i didn't feel

852

00:29:33,190 --> 00:29:31,840

that's what susan goes statement was do

853

00:29:34,710 --> 00:29:33,200

you think it's going to be something

854

00:29:37,110 --> 00:29:34,720

that comes and goes do you think it's

855

00:29:39,510 --> 00:29:37,120

going to run alongside the ufo office

856

00:29:42,470 --> 00:29:39,520

that is set up or what are your thoughts

857

00:29:43,350 --> 00:29:42,480

yeah i think the aomi said um

858

00:29:46,470 --> 00:29:43,360

a

859

00:29:48,710 --> 00:29:46,480

i think it's uh

860

00:29:50,310 --> 00:29:48,720

yeah yeah exactly i think it's a uh it's

861

00:29:52,950 --> 00:29:50,320

definitely been an attempt to

862

00:29:55,510 --> 00:29:52,960

obfuscate the issue um i don't see how

863

00:29:57,350 --> 00:29:55,520

long term um once

864

00:29:59,110 --> 00:29:57,360

uh well now that the

865

00:30:01,590 --> 00:29:59,120

um

866

00:30:04,230 --> 00:30:01,600

the ndaa is entered into law with all

867

00:30:07,110 --> 00:30:04,240

the aspects of that gillibrand rubio and

868

00:30:09,190 --> 00:30:07,120

gallego put into it i don't see how long

869

00:30:10,630 --> 00:30:09,200

term um you can

870

00:30:12,870 --> 00:30:10,640

you're going to have to have you can

871

00:30:15,029 --> 00:30:12,880

have two departments coexisting together

872

00:30:16,710 --> 00:30:15,039

because uh principles principles of

873

00:30:19,590 --> 00:30:16,720

intelligence right is that you have to

874

00:30:21,590 --> 00:30:19,600

have uh centralized control yeah and you

875

00:30:23,029 --> 00:30:21,600

have to have economy of effort so it

876

00:30:25,190 --> 00:30:23,039

doesn't make sense to have two different

877

00:30:26,470 --> 00:30:25,200

departments like covering the same thing

878

00:30:27,669 --> 00:30:26,480

now i know there's a lot of overlap

879

00:30:28,789 --> 00:30:27,679

between

880

00:30:31,669 --> 00:30:28,799

um

881

00:30:33,350 --> 00:30:31,679

the us intelligence community and

882

00:30:34,710 --> 00:30:33,360

between the us intelligence community

883

00:30:36,549 --> 00:30:34,720

and the wider kind of like you know

884

00:30:38,549 --> 00:30:36,559

western intelligence community but this

885

00:30:40,870 --> 00:30:38,559

really doesn't make sense long term um

886

00:30:43,350 --> 00:30:40,880

but what remains to be seen is whether

887

00:30:45,110 --> 00:30:43,360

you know how um

888

00:30:46,870 --> 00:30:45,120

you know the department proposed by the

889

00:30:50,070 --> 00:30:46,880

pentagon will be in conflict with what

890

00:30:52,389 --> 00:30:50,080

has been mandated by law by the ndaa and

891

00:30:55,830 --> 00:30:52,399

i think the ndaa you know has to win out

892

00:30:57,909 --> 00:30:55,840

and i think long term if the dod and

893

00:30:58,950 --> 00:30:57,919

intelligence community try to obfuscate

894

00:31:01,190 --> 00:30:58,960

then they're really going to come

895

00:31:03,110 --> 00:31:01,200

unstuck with uh you know congressional

896

00:31:04,789 --> 00:31:03,120

people because you know like people like

897

00:31:06,549 --> 00:31:04,799

gillibrand they put their life and soul

898

00:31:08,149 --> 00:31:06,559

into this effectively and they put their

899

00:31:09,430 --> 00:31:08,159

reputations into this and i don't think

900

00:31:11,909 --> 00:31:09,440

that they're going to tolerate any kind

901
00:31:14,070 --> 00:31:11,919
of obvious obfuscation long term but at

902
00:31:16,310 --> 00:31:14,080
the same time there is a lot of

903
00:31:19,350 --> 00:31:16,320
potential in a bureaucracy

904
00:31:21,430 --> 00:31:19,360
to obfuscate uh to not to to follow they

905
00:31:23,029 --> 00:31:21,440
can follow the letter of the law but

906
00:31:24,950 --> 00:31:23,039
maybe not the spirit of the law and

907
00:31:26,870 --> 00:31:24,960
that's what concerns me

908
00:31:28,470 --> 00:31:26,880
it comes across a little bit when it was

909
00:31:31,750 --> 00:31:28,480
announced like if you're watching dealer

910
00:31:33,190 --> 00:31:31,760
and audio and you're holding all the big

911
00:31:35,110 --> 00:31:33,200
numbers there

912
00:31:36,710 --> 00:31:35,120
and only one of the little blue boxes is

913
00:31:38,630 --> 00:31:36,720

left and the dealer's called up and

914

00:31:40,149 --> 00:31:38,640

offered you 50 pounds

915

00:31:41,830 --> 00:31:40,159

yeah and you've still got you've got all

916

00:31:43,430 --> 00:31:41,840

the cards and you could have all of this

917

00:31:44,230 --> 00:31:43,440

but you know why not just settle for

918

00:31:46,070 --> 00:31:44,240

this

919

00:31:49,110 --> 00:31:46,080

and it just seemed to kind of be a

920

00:31:51,750 --> 00:31:49,120

pretty poor attempt i can uh sideswipe

921

00:31:53,909 --> 00:31:51,760

on the subject as well and like you say

922

00:31:56,470 --> 00:31:53,919

i don't see why both offices couldn't

923

00:32:00,070 --> 00:31:56,480

exist for a short period of time but it

924

00:32:01,990 --> 00:32:00,080

makes no sense surely at all and for me

925

00:32:04,789 --> 00:32:02,000

susan goes response and like i say i was

926
00:32:06,789 --> 00:32:04,799
having a very adult um and reasoned

927
00:32:08,470 --> 00:32:06,799
debate with roger glassell about it i

928
00:32:11,509 --> 00:32:08,480
didn't think her responses to him

929
00:32:13,669 --> 00:32:11,519
indicated that aoi msg was going to be

930
00:32:17,110 --> 00:32:13,679
the office and only that it would be

931
00:32:18,630 --> 00:32:17,120
compliant as to what the ndea was was

932
00:32:20,070 --> 00:32:18,640
looking to achieve

933
00:32:21,430 --> 00:32:20,080
but that doesn't mean that what they're

934
00:32:23,590 --> 00:32:21,440
looking to do through the gila brand

935
00:32:25,750 --> 00:32:23,600
amendment and others isn't going to come

936
00:32:26,950 --> 00:32:25,760
into effect and be the main office so i

937
00:32:28,549 --> 00:32:26,960
don't think people have got anything to

938
00:32:30,070 --> 00:32:28,559

worry about there no doubt there'll be

939

00:32:32,389 --> 00:32:30,080

some positioning in the background going

940

00:32:35,750 --> 00:32:32,399

on but i'm sure the i'm sure the good

941

00:32:37,509 --> 00:32:35,760

guys went out in that one in the end

942

00:32:39,110 --> 00:32:37,519

yeah i think a big point for me and i

943

00:32:42,230 --> 00:32:39,120

pointed this out on unidentified

944

00:32:44,789 --> 00:32:42,240

celebrity review i was like well um rich

945

00:32:47,350 --> 00:32:44,799

hoffman from the scu you know i'm an scu

946

00:32:48,870 --> 00:32:47,360

member um he pinged me a message on

947

00:32:50,310 --> 00:32:48,880

signal he was like oh you know he goes

948

00:32:52,389 --> 00:32:50,320

uh you know we've been putting the

949

00:32:54,389 --> 00:32:52,399

amendment and you know scu is gonna have

950

00:32:55,990 --> 00:32:54,399

uh you know candidates you know we're

951
00:32:57,990 --> 00:32:56,000
gonna if it passes law we're gonna be

952
00:32:59,350 --> 00:32:58,000
able to be put forward for this uh this

953
00:33:01,669 --> 00:32:59,360
overarching you know committee this

954
00:33:03,509 --> 00:33:01,679
advisory committee and to me

955
00:33:04,870 --> 00:33:03,519
uh that was a big kind of blow in the

956
00:33:07,590 --> 00:33:04,880
advisory committee and it would have

957
00:33:09,669 --> 00:33:07,600
included like scu it would have included

958
00:33:12,230 --> 00:33:09,679
um you know galileo project it would

959
00:33:14,549 --> 00:33:12,240
have included uh nasa amongst others

960
00:33:16,149 --> 00:33:14,559
right so if your dod and your

961
00:33:17,590 --> 00:33:16,159
intelligence be due why would you have a

962
00:33:19,509 --> 00:33:17,600
problem with

963
00:33:21,509 --> 00:33:19,519

security cleared

964

00:33:23,350 --> 00:33:21,519

uh professionals and then also there's

965

00:33:27,110 --> 00:33:23,360

the paragraph that says you know that

966

00:33:30,230 --> 00:33:27,120

dod and the ic can accept advice from uh

967

00:33:31,830 --> 00:33:30,240

you know non-dod and non-you know i see

968

00:33:33,350 --> 00:33:31,840

uh security cleared professionals why

969

00:33:35,350 --> 00:33:33,360

would you have a problem with that and i

970

00:33:37,110 --> 00:33:35,360

reached out to chris mellon about this

971

00:33:38,870 --> 00:33:37,120

he was gonna like no comment but i re i

972

00:33:40,549 --> 00:33:38,880

reached out to somebody else who was

973

00:33:43,509 --> 00:33:40,559

intimately involved the process and they

974

00:33:44,789 --> 00:33:43,519

said the fact that melon and elizondo

975

00:33:46,950 --> 00:33:44,799

were involved

976
00:33:49,509 --> 00:33:46,960
and that were likely to be uh basically

977
00:33:50,389 --> 00:33:49,519
elected by the galileo project

978
00:33:52,310 --> 00:33:50,399
to

979
00:33:55,029 --> 00:33:52,320
be on this advisory board that didn't

980
00:33:57,750 --> 00:33:55,039
help and that the dod and the ic didn't

981
00:33:59,830 --> 00:33:57,760
want to have any more uh

982
00:34:00,789 --> 00:33:59,840
you know any more supervision whatsoever

983
00:34:02,149 --> 00:34:00,799
they didn't want to have any more

984
00:34:03,509 --> 00:34:02,159
accountability

985
00:34:04,710 --> 00:34:03,519
and it's like well

986
00:34:06,070 --> 00:34:04,720
and the source also said they were

987
00:34:07,430 --> 00:34:06,080
worried about security issues but if

988
00:34:09,190 --> 00:34:07,440

your security cleared because it said

989

00:34:10,710 --> 00:34:09,200

minimum security clearance but if you're

990

00:34:12,230 --> 00:34:10,720

going to be if you if you're going to be

991

00:34:13,990 --> 00:34:12,240

advising and with this and the jilly

992

00:34:16,069 --> 00:34:14,000

brand amendment it said it would advise

993

00:34:18,470 --> 00:34:16,079

on uh basically

994

00:34:21,030 --> 00:34:18,480

uh you know the you know using sensors

995

00:34:23,589 --> 00:34:21,040

and how to uh you know basically use

996

00:34:25,669 --> 00:34:23,599

your intelligence assets to capture uap

997

00:34:27,349 --> 00:34:25,679

uh not in a physical sense

998

00:34:29,349 --> 00:34:27,359

but you would have to be cleared like to

999

00:34:31,430 --> 00:34:29,359

probably top secret tci

1000

00:34:33,270 --> 00:34:31,440

to have access to those satellites and

1001
00:34:34,629 --> 00:34:33,280
those platforms right

1002
00:34:36,310 --> 00:34:34,639
why would you have a problem if people

1003
00:34:38,149 --> 00:34:36,320
are security cleared you would only have

1004
00:34:40,790 --> 00:34:38,159
a problem if your dod and ic if you

1005
00:34:42,790 --> 00:34:40,800
don't want more oversight

1006
00:34:44,389 --> 00:34:42,800
who would you have on those boards if

1007
00:34:46,869 --> 00:34:44,399
you were part of that committee and

1008
00:34:49,270 --> 00:34:46,879
ultimately frank milburn could sign it

1009
00:34:50,950 --> 00:34:49,280
off who would you be picking would it be

1010
00:34:52,869 --> 00:34:50,960
louis elizondo and chris melon or would

1011
00:34:55,030 --> 00:34:52,879
you be looking at others who are maybe

1012
00:34:56,790 --> 00:34:55,040
nameless at this point

1013
00:34:58,550 --> 00:34:56,800

no i mean uh

1014

00:35:00,069 --> 00:34:58,560

chris would definitely be on there lou

1015

00:35:02,310 --> 00:35:00,079

would definitely be on there

1016

00:35:03,109 --> 00:35:02,320

uh avilab would have definitely be on

1017

00:35:05,190 --> 00:35:03,119

there

1018

00:35:06,630 --> 00:35:05,200

uh i mean i i had no problem with that

1019

00:35:08,069 --> 00:35:06,640

with a scientific committee i mean like

1020

00:35:09,750 --> 00:35:08,079

you know why shouldn't nasa be on it why

1021

00:35:11,990 --> 00:35:09,760

shouldn't galileo project be on it why

1022

00:35:16,230 --> 00:35:12,000

shouldn't scu be on it you know i'd want

1023

00:35:20,790 --> 00:35:16,240

uh you know uh robert powell um from scu

1024

00:35:21,750 --> 00:35:20,800

rich hoffman to be there as well yeah so

1025

00:35:23,349 --> 00:35:21,760

i mean

1026

00:35:24,310 --> 00:35:23,359

you know they're american patriots

1027

00:35:26,310 --> 00:35:24,320

anyway it's not like they're gonna

1028

00:35:27,670 --> 00:35:26,320

divulge secrets to the russians

1029

00:35:28,790 --> 00:35:27,680

it's like and they would have to pass a

1030

00:35:29,990 --> 00:35:28,800

security clearance if they don't have

1031

00:35:31,190 --> 00:35:30,000

already and i know that rich hoffman

1032

00:35:32,150 --> 00:35:31,200

already has it so you already work for

1033

00:35:34,630 --> 00:35:32,160

the uk

1034

00:35:36,150 --> 00:35:34,640

sorry for the us military so there's

1035

00:35:37,750 --> 00:35:36,160

absolutely no reason to exclude them

1036

00:35:40,150 --> 00:35:37,760

whatever and that's just another example

1037

00:35:41,829 --> 00:35:40,160

of obvious obfuscation

1038

00:35:44,470 --> 00:35:41,839

as someone who worked in intelligence

1039

00:35:46,790 --> 00:35:44,480

themselves louis elizondo has a book

1040

00:35:49,829 --> 00:35:46,800

coming out next year that's very much

1041

00:35:53,190 --> 00:35:49,839

looked forward to and well publicized

1042

00:35:55,190 --> 00:35:53,200

how difficult can that be when someone

1043

00:35:58,550 --> 00:35:55,200

like lou may or may not be elected into

1044

00:36:00,550 --> 00:35:58,560

a position within this you know board or

1045

00:36:02,550 --> 00:36:00,560

all this office is that something that

1046

00:36:04,230 --> 00:36:02,560

could that could handle that or can that

1047

00:36:05,670 --> 00:36:04,240

still be released obviously it's going

1048

00:36:08,710 --> 00:36:05,680

to be vetted

1049

00:36:09,750 --> 00:36:08,720

how does that affect his position

1050

00:36:12,550 --> 00:36:09,760

well i don't know because i haven't read

1051
00:36:14,150 --> 00:36:12,560
the book yet but um what i've seen of

1052
00:36:16,550 --> 00:36:14,160
lose so far i don't see why it's going

1053
00:36:20,470 --> 00:36:16,560
to hinder anything that he's done

1054
00:36:22,150 --> 00:36:20,480
um i have to say from the start i've uh

1055
00:36:24,069 --> 00:36:22,160
i wouldn't say like i'm a believer but

1056
00:36:25,910 --> 00:36:24,079
i've always had uh confidence in louis

1057
00:36:27,670 --> 00:36:25,920
elizondo i mean you know he's been

1058
00:36:29,190 --> 00:36:27,680
slagged down rotten by a lot of people

1059
00:36:31,430 --> 00:36:29,200
and i have that i have been as well

1060
00:36:33,349 --> 00:36:31,440
right for i've got a counterintelligence

1061
00:36:35,190 --> 00:36:33,359
background and so does he so i kind of

1062
00:36:37,270 --> 00:36:35,200
understand where he's coming from

1063
00:36:39,190 --> 00:36:37,280

uh but i don't think um

1064

00:36:40,390 --> 00:36:39,200

i believe yeah you know he has to keep

1065

00:36:42,550 --> 00:36:40,400

certain things back

1066

00:36:44,790 --> 00:36:42,560

um because he as i do because he has a

1067

00:36:47,510 --> 00:36:44,800

security clearance to maintain uh just

1068

00:36:49,990 --> 00:36:47,520

as i have security os

1069

00:36:51,030 --> 00:36:50,000

uh that i have to maintain and also

1070

00:36:52,870 --> 00:36:51,040

you know the fact that i would never

1071

00:36:54,230 --> 00:36:52,880

betray my country and he's the same he's

1072

00:36:55,990 --> 00:36:54,240

an american patriot i'm a british

1073

00:36:57,190 --> 00:36:56,000

patriot and

1074

00:36:58,390 --> 00:36:57,200

you know we would never do anything to

1075

00:37:00,230 --> 00:36:58,400

compromise the security of our

1076

00:37:03,109 --> 00:37:00,240

respective countries nor of you know the

1077

00:37:04,310 --> 00:37:03,119

joint alliance that we have um

1078

00:37:05,670 --> 00:37:04,320

so

1079

00:37:08,470 --> 00:37:05,680

i can't say because i haven't read his

1080

00:37:09,990 --> 00:37:08,480

book yet um but uh

1081

00:37:11,990 --> 00:37:10,000

i hope he goes from strength to strength

1082

00:37:13,990 --> 00:37:12,000

and i'm i'm a fan of his and i'm a fan

1083

00:37:15,750 --> 00:37:14,000

of uh of chris melons but let's not be

1084

00:37:17,589 --> 00:37:15,760

in any doubt here right i've said from

1085

00:37:18,870 --> 00:37:17,599

the start that uh

1086

00:37:21,750 --> 00:37:18,880

uh

1087

00:37:24,870 --> 00:37:21,760

lou and chris they're not about um

1088

00:37:26,790 --> 00:37:24,880

eop transparency per se yeah they are

1089

00:37:28,310 --> 00:37:26,800

uh but they're not about uh hanging all

1090

00:37:31,030 --> 00:37:28,320

out you know hanging it all out on the

1091

00:37:33,670 --> 00:37:31,040

on the washing line okay these guys they

1092

00:37:36,230 --> 00:37:33,680

want to see this is my personal opinion

1093

00:37:38,550 --> 00:37:36,240

based on the paper that i wrote based on

1094

00:37:40,630 --> 00:37:38,560

your and uh and jade and jay's

1095

00:37:43,190 --> 00:37:40,640

interviews with zondo

1096

00:37:45,589 --> 00:37:43,200

elizonda used the very terms himself he

1097

00:37:47,750 --> 00:37:45,599

said once congress are interested in uap

1098

00:37:49,670 --> 00:37:47,760

then i think it will be a fet accompli

1099

00:37:51,829 --> 00:37:49,680

which is a title of my paper that they

1100

00:37:56,069 --> 00:37:51,839

will want to have a uap project they

1101

00:37:59,349 --> 00:37:56,079

want lou and chris want to have uh

1102

00:38:03,270 --> 00:37:59,359

they want to have like a 23 a 25 000 a

1103

00:38:05,190 --> 00:38:03,280

20 25 or 30 billion dollar project which

1104

00:38:07,270 --> 00:38:05,200

uh unites all the different special

1105

00:38:08,950 --> 00:38:07,280

access programs under one roof because

1106

00:38:11,750 --> 00:38:08,960

eric davis has considered consistently

1107

00:38:13,510 --> 00:38:11,760

said you reach these stumbling blocks

1108

00:38:14,950 --> 00:38:13,520

you reach these bottlenecks

1109

00:38:16,710 --> 00:38:14,960

in a special access program because you

1110

00:38:18,950 --> 00:38:16,720

can't talk to anybody outside them and i

1111

00:38:20,470 --> 00:38:18,960

believe that lou and chris

1112

00:38:21,910 --> 00:38:20,480

uh they want to get access to these

1113

00:38:23,750 --> 00:38:21,920

special access programs they want to

1114

00:38:25,670 --> 00:38:23,760

unite it under one roof in a big project

1115

00:38:27,750 --> 00:38:25,680

because for 70 years there hasn't been

1116

00:38:29,510 --> 00:38:27,760

enough progress according to them and

1117

00:38:30,630 --> 00:38:29,520

they are american patriots and they want

1118

00:38:33,510 --> 00:38:30,640

to get ahead of the russians and the

1119

00:38:36,390 --> 00:38:33,520

chinese just as uh you know dr eric

1120

00:38:37,910 --> 00:38:36,400

davis said by 2040 we need to have our

1121

00:38:39,670 --> 00:38:37,920

engineering and physics approach

1122

00:38:41,589 --> 00:38:39,680

approximating the capabilities of the

1123

00:38:43,270 --> 00:38:41,599

tic tacs

1124

00:38:44,310 --> 00:38:43,280

and i think this is all well documented

1125

00:38:45,670 --> 00:38:44,320

now

1126

00:38:47,670 --> 00:38:45,680

sure do you think that's the right way

1127

00:38:49,829 --> 00:38:47,680

to go about this then as to

1128

00:38:52,069 --> 00:38:49,839

to do that have that big project get it

1129

00:38:55,190 --> 00:38:52,079

all under one roof but also i'd like to

1130

00:38:57,430 --> 00:38:55,200

ask you is that benefiting the us and

1131

00:39:00,710 --> 00:38:57,440

the us only or does that still

1132

00:39:01,510 --> 00:39:00,720

ultimately help humanity as a whole

1133

00:39:03,190 --> 00:39:01,520

okay

1134

00:39:04,790 --> 00:39:03,200

let's uh break that down into two

1135

00:39:08,310 --> 00:39:04,800

questions yeah ultimate is going to help

1136

00:39:09,829 --> 00:39:08,320

the u.s um as i put in my first paper um

1137

00:39:11,829 --> 00:39:09,839

quoting harry reid

1138

00:39:13,430 --> 00:39:11,839

he said you know the development of atic

1139

00:39:14,950 --> 00:39:13,440

when he was talking about orsa but he

1140

00:39:17,349 --> 00:39:14,960

said you know this will benefit the dod

1141

00:39:20,710 --> 00:39:17,359

in ways as not yet you know

1142

00:39:22,710 --> 00:39:20,720

unimaginable uh to uh perpetuate

1143

00:39:24,630 --> 00:39:22,720

american uh you know preeminence and

1144

00:39:25,829 --> 00:39:24,640

dominance on the world sphere and i'm

1145

00:39:26,550 --> 00:39:25,839

all for that because at the end of the

1146

00:39:27,750 --> 00:39:26,560

day

1147

00:39:29,270 --> 00:39:27,760

you know i don't want to be i don't want

1148

00:39:32,310 --> 00:39:29,280

to live in a world that's ruled by you

1149

00:39:33,270 --> 00:39:32,320

know russia china or north korea okay

1150

00:39:34,550 --> 00:39:33,280

um

1151

00:39:36,790 --> 00:39:34,560

the second part of that how can it help

1152

00:39:39,030 --> 00:39:36,800

humanity yeah sure i think there will be

1153

00:39:41,510 --> 00:39:39,040

uh spin-off technologies but i think

1154

00:39:43,510 --> 00:39:41,520

it's extremely dangerous to assume uh

1155

00:39:45,670 --> 00:39:43,520

that you know things like free energy or

1156

00:39:47,190 --> 00:39:45,680

auto or anti-gravity are automatically

1157

00:39:48,390 --> 00:39:47,200

going to be like disseminated into the

1158

00:39:50,710 --> 00:39:48,400

private sphere because i think they're

1159

00:39:52,870 --> 00:39:50,720

incredibly dangerous just as you would

1160

00:39:56,310 --> 00:39:52,880

not expect

1161

00:39:58,150 --> 00:39:56,320

you know the latest american icbm or

1162

00:40:00,150 --> 00:39:58,160

nuclear technology to be disseminated to

1163

00:40:02,790 --> 00:40:00,160

iran or north korea so why would you

1164

00:40:05,109 --> 00:40:02,800

expect the you know uap technology to be

1165

00:40:06,870 --> 00:40:05,119

disseminated to the world

1166

00:40:09,430 --> 00:40:06,880

i think it's a it's a very delicate

1167

00:40:11,430 --> 00:40:09,440

question look i i want to help humanity

1168

00:40:12,870 --> 00:40:11,440

and i would like to see you know every

1169

00:40:13,910 --> 00:40:12,880

indian village

1170

00:40:15,349 --> 00:40:13,920

uh

1171

00:40:16,790 --> 00:40:15,359

you know every village every poor

1172

00:40:18,470 --> 00:40:16,800

village in brazil

1173

00:40:19,910 --> 00:40:18,480

okay every poor village in africa with

1174

00:40:21,990 --> 00:40:19,920

like a free energy vice that would be

1175

00:40:23,430 --> 00:40:22,000

awesome and nobody has to pay for energy

1176

00:40:24,950 --> 00:40:23,440

but i just really don't think that's

1177

00:40:26,790 --> 00:40:24,960

going to happen

1178

00:40:28,630 --> 00:40:26,800

yeah i can appreciate that and it's one

1179

00:40:30,790 --> 00:40:28,640

of those it's blue sky thinking isn't it

1180

00:40:32,550 --> 00:40:30,800

that and dan and i discussed this on one

1181

00:40:34,470 --> 00:40:32,560

of the what-if episodes the day after

1182

00:40:37,109 --> 00:40:34,480

disclosure that people will still have

1183

00:40:38,550 --> 00:40:37,119

to go to work people will still be in

1184

00:40:40,150 --> 00:40:38,560

hospital ill

1185

00:40:41,510 --> 00:40:40,160

people will still run out of fuel there

1186

00:40:43,270 --> 00:40:41,520

will still be

1187

00:40:45,750 --> 00:40:43,280

holes in the ozone layer in places there

1188

00:40:47,670 --> 00:40:45,760

will still be climate issues it doesn't

1189

00:40:49,670 --> 00:40:47,680

change overnight if it at all within

1190

00:40:51,030 --> 00:40:49,680

decades i remember reading and i've

1191

00:40:52,470 --> 00:40:51,040

mentioned this i'm sure before on the

1192

00:40:54,470 --> 00:40:52,480

podcast years ago

1193

00:40:57,109 --> 00:40:54,480

that saddam hussein was buying up

1194

00:40:59,349 --> 00:40:57,119

playstation 2's and bulk because of the

1195

00:41:00,630 --> 00:40:59,359

processing power of them and i said yes

1196

00:41:03,829 --> 00:41:00,640

too so you're looking here they can have

1197

00:41:05,349 --> 00:41:03,839

2005 2006 i think um maybe even before

1198

00:41:07,670 --> 00:41:05,359

that um

1199

00:41:09,430 --> 00:41:07,680

to build some kind of supercomputer

1200

00:41:10,630 --> 00:41:09,440

and i'm sure there's an element of truth

1201

00:41:12,710 --> 00:41:10,640

within that with the processing

1202

00:41:14,790 --> 00:41:12,720

capabilities of these devices and what

1203

00:41:17,109 --> 00:41:14,800

we have now so you think like you say if

1204

00:41:18,630 --> 00:41:17,119

you put i remember also that phone

1205

00:41:20,390 --> 00:41:18,640

batteries wouldn't need charged if you

1206

00:41:22,309 --> 00:41:20,400

could put a tiny tiny tiny nuclear

1207

00:41:23,910 --> 00:41:22,319

device in each one but then what would

1208

00:41:26,150 --> 00:41:23,920

stop somebody buying a load or so uh

1209

00:41:27,589 --> 00:41:26,160

samsung's or iphones and blowing them up

1210

00:41:29,670 --> 00:41:27,599

and causing you know

1211

00:41:32,150 --> 00:41:29,680

a terrorist incident and it's just you

1212

00:41:34,710 --> 00:41:32,160

can't trust humans necessarily with that

1213

00:41:36,710 --> 00:41:34,720

technology can you on mass

1214

00:41:37,589 --> 00:41:36,720

well you know i've had hate comments for

1215

00:41:38,950 --> 00:41:37,599

this

1216

00:41:41,430 --> 00:41:38,960

uh for saying that you know things

1217

00:41:43,270 --> 00:41:41,440

shouldn't be divulged uh because

1218

00:41:44,630 --> 00:41:43,280

you know some people i'll be honest

1219

00:41:46,150 --> 00:41:44,640

they're pretty clueless

1220

00:41:47,510 --> 00:41:46,160

and they just go yeah you know let's let

1221

00:41:49,109 --> 00:41:47,520

it all hang out there

1222

00:41:51,030 --> 00:41:49,119

like you know all the technology and i'm

1223

00:41:52,950 --> 00:41:51,040

and the people that i speak to

1224

00:41:54,309 --> 00:41:52,960

are people you know geniuses like bob

1225

00:41:56,710 --> 00:41:54,319

mcguire right who work for the center

1226

00:41:58,630 --> 00:41:56,720

for defense analyses i talk to genius

1227

00:42:01,270 --> 00:41:58,640

level scientists like that people who've

1228

00:42:03,670 --> 00:42:01,280

been recruited uh by darpa by the center

1229

00:42:06,390 --> 00:42:03,680

for the defense analyses by the dod

1230

00:42:08,069 --> 00:42:06,400

recruited direct from school people who

1231

00:42:10,150 --> 00:42:08,079

have worked on uap technology and

1232

00:42:13,670 --> 00:42:10,160

they're going are you crazy

1233

00:42:15,430 --> 00:42:13,680

releasing uh you know free energy uh

1234

00:42:17,430 --> 00:42:15,440

just like onto

1235

00:42:18,630 --> 00:42:17,440

the open market

1236

00:42:19,589 --> 00:42:18,640

because

1237

00:42:21,589 --> 00:42:19,599

any

1238

00:42:23,990 --> 00:42:21,599

well-developed actor like hezbollah

1239

00:42:26,550 --> 00:42:24,000

which is a transnational criminal and uh

1240

00:42:28,870 --> 00:42:26,560

and terrorist actor with like billions

1241

00:42:31,750 --> 00:42:28,880

over the past two decades in in drug

1242

00:42:34,150 --> 00:42:31,760

money and illicit activities um and

1243

00:42:36,550 --> 00:42:34,160

their patron iran they could very easily

1244

00:42:38,390 --> 00:42:36,560

they don't stupid iran is not stupid

1245

00:42:39,750 --> 00:42:38,400

i've written extensive papers on iran

1246

00:42:41,190 --> 00:42:39,760

hezbollah are not stupid i've written

1247

00:42:42,630 --> 00:42:41,200

papers on them

1248

00:42:43,910 --> 00:42:42,640

they're not stupid they can get the

1249

00:42:45,430 --> 00:42:43,920

scientific knowledge they could turn

1250

00:42:47,349 --> 00:42:45,440

this free energy into the most

1251

00:42:49,430 --> 00:42:47,359

devastating uh

1252

00:42:51,109 --> 00:42:49,440

devastating weapon that would make a new

1253

00:42:53,670 --> 00:42:51,119

cl that would make nukes look like

1254

00:42:56,790 --> 00:42:53,680

firecrackers by comparison this is what

1255

00:42:59,910 --> 00:42:56,800

people that i talk to who are in uh the

1256

00:43:01,829 --> 00:42:59,920

uk sorry the u.s uh defense and

1257

00:43:04,150 --> 00:43:01,839

scientific community are telling me you

1258

00:43:05,910 --> 00:43:04,160

do not let free energy uh out into the

1259

00:43:07,910 --> 00:43:05,920

open sphere because humanity is not

1260

00:43:09,829 --> 00:43:07,920

ready for it it's like yes on the plus

1261

00:43:11,750 --> 00:43:09,839

side and you know they're humanitarians

1262

00:43:13,190 --> 00:43:11,760

they want to help people they want to

1263

00:43:14,630 --> 00:43:13,200

you know

1264

00:43:17,190 --> 00:43:14,640

make sure that the earth isn't being

1265

00:43:18,150 --> 00:43:17,200

destroyed to protect the ozone layer uh

1266

00:43:20,069 --> 00:43:18,160

you know

1267

00:43:22,470 --> 00:43:20,079

prevent climatic change all the rest of

1268

00:43:23,990 --> 00:43:22,480

it but humanity is not ready for this

1269

00:43:26,150 --> 00:43:24,000

kind of technology

1270

00:43:27,589 --> 00:43:26,160

it's i mean look we've barely scraped by

1271

00:43:29,589 --> 00:43:27,599

with nuclear technology it is the

1272

00:43:30,309 --> 00:43:29,599

americans have already used it on on on

1273

00:43:34,230 --> 00:43:30,319

the

1274

00:43:36,150 --> 00:43:34,240

we nearly come close to nuclear tech

1275

00:43:38,630 --> 00:43:36,160

catastrophe are we really ready to

1276
00:43:40,790 --> 00:43:38,640
unleash even more lethal technologies

1277
00:43:42,470 --> 00:43:40,800
like onto the world stage that's what

1278
00:43:43,910 --> 00:43:42,480
scares me

1279
00:43:45,829 --> 00:43:43,920
well i want to talk about some of the

1280
00:43:47,270 --> 00:43:45,839
language within the bill and it does

1281
00:43:49,030 --> 00:43:47,280
actually keep on topic of what we're

1282
00:43:50,950 --> 00:43:49,040
talking about um

1283
00:43:53,430 --> 00:43:50,960
physiological studies are mentioned

1284
00:43:55,829 --> 00:43:53,440
within the the language of the bill and

1285
00:43:58,790 --> 00:43:55,839
we were talking about things like havana

1286
00:44:01,510 --> 00:43:58,800
syndrome thomas winterton and others on

1287
00:44:03,910 --> 00:44:01,520
skinwalker ranch have reported havana

1288
00:44:05,349 --> 00:44:03,920

syndrome-like incidents thomas winterton

1289

00:44:06,470 --> 00:44:05,359

who is the chief superintendent of the

1290

00:44:10,470 --> 00:44:06,480

ranch

1291

00:44:12,309 --> 00:44:10,480

reported that as the the skin and skull

1292

00:44:14,950 --> 00:44:12,319

basically separated from his skull and

1293

00:44:16,470 --> 00:44:14,960

had a huge fluid layer and others who

1294

00:44:17,829 --> 00:44:16,480

have been on the ranch have also

1295

00:44:20,230 --> 00:44:17,839

reported things like this as well

1296

00:44:22,470 --> 00:44:20,240

haven't they frank that's a very uh

1297

00:44:25,349 --> 00:44:22,480

interesting question

1298

00:44:27,349 --> 00:44:25,359

um i was looking at uh gary nolan's uh

1299

00:44:29,349 --> 00:44:27,359

vice article yes

1300

00:44:30,950 --> 00:44:29,359

and it said um

1301

00:44:32,950 --> 00:44:30,960

vice asked him how does the impact of

1302

00:44:35,270 --> 00:44:32,960

electromagnetic frequencies factor into

1303

00:44:37,190 --> 00:44:35,280

your hypotheses about what exactly

1304

00:44:39,990 --> 00:44:37,200

transpired here

1305

00:44:41,109 --> 00:44:40,000

and uh dr gary allen replies with one of

1306

00:44:43,510 --> 00:44:41,119

the patients that happened on the

1307

00:44:45,270 --> 00:44:43,520

skinwalker ranch given how deep into

1308

00:44:47,349 --> 00:44:45,280

their brain the damage went we can

1309

00:44:49,510 --> 00:44:47,359

actually estimate the amount of energy

1310

00:44:51,430 --> 00:44:49,520

required in the electromagnetic wave

1311

00:44:53,829 --> 00:44:51,440

someone aimed at them we don't think

1312

00:44:55,670 --> 00:44:53,839

this is anything to do with uaps we

1313

00:44:57,670 --> 00:44:55,680

think that somehow some sort of state

1314

00:45:00,390 --> 00:44:57,680

actor and again related to havana

1315

00:45:05,510 --> 00:45:00,400

syndrome somehow yeah

1316

00:45:08,630 --> 00:45:07,030

several scientists

1317

00:45:10,470 --> 00:45:08,640

involved in

1318

00:45:12,390 --> 00:45:10,480

classified research

1319

00:45:13,990 --> 00:45:12,400

for the united states government and i

1320

00:45:16,470 --> 00:45:14,000

want to say here that

1321

00:45:17,990 --> 00:45:16,480

nothing they have told me is

1322

00:45:19,910 --> 00:45:18,000

you know is a state secret they haven't

1323

00:45:22,630 --> 00:45:19,920

told me anything classified

1324

00:45:26,309 --> 00:45:22,640

uh but i have established their bona

1325

00:45:27,829 --> 00:45:26,319

fides they know people that i know um

1326

00:45:29,750 --> 00:45:27,839

these people are

1327

00:45:31,430 --> 00:45:29,760

uh you know like genius level like dr

1328

00:45:33,510 --> 00:45:31,440

bob maguire okay

1329

00:45:35,030 --> 00:45:33,520

uh the type of people who are you know

1330

00:45:36,790 --> 00:45:35,040

recruited

1331

00:45:40,309 --> 00:45:36,800

uh from school

1332

00:45:41,670 --> 00:45:40,319

to work for agencies like nasa darpa the

1333

00:45:42,870 --> 00:45:41,680

dod

1334

00:45:43,829 --> 00:45:42,880

doe

1335

00:45:44,870 --> 00:45:43,839

and

1336

00:45:48,630 --> 00:45:44,880

um

1337

00:45:51,430 --> 00:45:48,640

they've told me that uh

1338

00:45:54,790 --> 00:45:51,440

uh there is hostile state activity

1339

00:45:56,950 --> 00:45:54,800

uh that utilizes uh portable

1340

00:45:58,790 --> 00:45:56,960

directed energy weapons uh to target

1341

00:46:01,750 --> 00:45:58,800

them and we're not talking acoustic

1342

00:46:02,790 --> 00:46:01,760

level um directed energy weapons uh

1343

00:46:04,630 --> 00:46:02,800

which is

1344

00:46:05,589 --> 00:46:04,640

what is commonly reported on in the

1345

00:46:07,829 --> 00:46:05,599

press

1346

00:46:09,430 --> 00:46:07,839

uh we're talking microwave energy which

1347

00:46:11,349 --> 00:46:09,440

literally fries you

1348

00:46:13,109 --> 00:46:11,359

and the

1349

00:46:14,710 --> 00:46:13,119

uh the effects that they've received

1350

00:46:16,390 --> 00:46:14,720

they've been they've been basically

1351

00:46:18,950 --> 00:46:16,400

critically damaged by microwave

1352

00:46:21,270 --> 00:46:18,960

radiation that has caused them traumatic

1353

00:46:23,510 --> 00:46:21,280

brain injury it's caused them uh you

1354

00:46:26,550 --> 00:46:23,520

know kind of like intestinal digestive

1355

00:46:29,030 --> 00:46:26,560

problems uh it's irradiated their skin

1356

00:46:30,550 --> 00:46:29,040

uh you know cancer

1357

00:46:33,349 --> 00:46:30,560

uh these are the types of issues and

1358

00:46:37,190 --> 00:46:33,359

they told me that uh you don't just have

1359

00:46:38,390 --> 00:46:37,200

now uh they said that uh state actors uh

1360

00:46:41,589 --> 00:46:38,400

principally like you know the russians

1361

00:46:42,630 --> 00:46:41,599

the chinese they don't even have to use

1362

00:46:45,030 --> 00:46:42,640

portable

1363

00:46:48,390 --> 00:46:45,040

directed energy weapons anymore i.e

1364

00:46:50,309 --> 00:46:48,400

those that can be carried in vehicles

1365

00:46:52,470 --> 00:46:50,319

now they can

1366

00:46:54,950 --> 00:46:52,480

they can basically hack your router they

1367

00:46:57,270 --> 00:46:54,960

can hack your phone and they can cause

1368

00:46:59,670 --> 00:46:57,280

frequent frequencies uh

1369

00:47:00,950 --> 00:46:59,680

that irradiate you and one of the

1370

00:47:05,030 --> 00:47:00,960

scientists they actually sent me a

1371

00:47:07,030 --> 00:47:05,040

picture of a a faraday cage um kind of

1372

00:47:09,670 --> 00:47:07,040

like envelope that they have which they

1373

00:47:10,790 --> 00:47:09,680

keep their mobile phone in because

1374

00:47:12,950 --> 00:47:10,800

they don't know when their phone is

1375

00:47:14,950 --> 00:47:12,960

going to be hacked

1376
00:47:16,470 --> 00:47:14,960
now that's pretty scary technology and

1377
00:47:19,109 --> 00:47:16,480
obviously we're not necessarily here

1378
00:47:21,829 --> 00:47:19,119
talking something non-human or exotic

1379
00:47:23,670 --> 00:47:21,839
but very much terrestrial

1380
00:47:26,790 --> 00:47:23,680
why do you think this sort of technology

1381
00:47:29,190 --> 00:47:26,800
is being used on on officials at places

1382
00:47:31,270 --> 00:47:29,200
like skinwalker ranch

1383
00:47:32,470 --> 00:47:31,280
well the one of the same sources told me

1384
00:47:34,390 --> 00:47:32,480
that uh

1385
00:47:35,510 --> 00:47:34,400
also they said that it could be a they

1386
00:47:37,109 --> 00:47:35,520
said that the

1387
00:47:39,349 --> 00:47:37,119
the former soviet union had some kind of

1388
00:47:41,589 --> 00:47:39,359

like scary this is this is their their

1389

00:47:43,990 --> 00:47:41,599

language some scary space-based based

1390

00:47:45,589 --> 00:47:44,000

weapons that could uh that could fire

1391

00:47:47,829 --> 00:47:45,599

directed energy weapons and actually if

1392

00:47:49,990 --> 00:47:47,839

you look at my first paper uh dr jack

1393

00:47:52,710 --> 00:47:50,000

sarfati talks about a

1394

00:47:54,950 --> 00:47:52,720

kind of like a wormhole a portal over

1395

00:47:57,109 --> 00:47:54,960

skin walker ranch that he said can be

1396

00:47:59,109 --> 00:47:57,119

used as like an uh

1397

00:48:01,910 --> 00:47:59,119

like a wormhole portal but he said it

1398

00:48:05,589 --> 00:48:01,920

could also be used as a kind of like a

1399

00:48:07,589 --> 00:48:05,599

wmd to fry people below with uh you know

1400

00:48:08,470 --> 00:48:07,599

electromagnetic radiation

1401

00:48:09,990 --> 00:48:08,480
um

1402

00:48:10,870 --> 00:48:10,000
the reason why

1403

00:48:13,750 --> 00:48:10,880
and

1404

00:48:14,790 --> 00:48:13,760
uh my sources have said um

1405

00:48:16,549 --> 00:48:14,800
if you're

1406

00:48:19,510 --> 00:48:16,559
awesome the advanced aerospace weapon

1407

00:48:21,430 --> 00:48:19,520
system applications program your dia and

1408

00:48:23,109 --> 00:48:21,440
you are trying to weaponize

1409

00:48:24,950 --> 00:48:23,119
various phenomena on the ranch because

1410

00:48:26,950 --> 00:48:24,960
ddia were there okay

1411

00:48:28,549 --> 00:48:26,960
i've spoken to a couple of insiders from

1412

00:48:30,950 --> 00:48:28,559
there uh

1413

00:48:32,630 --> 00:48:30,960

they were first concerned with

1414

00:48:34,470 --> 00:48:32,640

are there threats to the united states

1415

00:48:36,309 --> 00:48:34,480

okay because you've got like ufos you've

1416

00:48:38,069 --> 00:48:36,319

got things coming through portals this

1417

00:48:39,430 --> 00:48:38,079

is all well established okay so that

1418

00:48:41,270 --> 00:48:39,440

could be a potential threat something

1419

00:48:42,950 --> 00:48:41,280

that's coming into your airspace through

1420

00:48:45,910 --> 00:48:42,960

a portal you don't know what it is and

1421

00:48:46,829 --> 00:48:45,920

also you know dogs being fried um you're

1422

00:48:51,270 --> 00:48:46,839

talking

1423

00:48:53,910 --> 00:48:51,280

um cryptids that are um you know immune

1424

00:48:55,990 --> 00:48:53,920

to uh you know ballistic weapon

1425

00:48:57,910 --> 00:48:56,000

technology that can be shot at and like

1426

00:49:00,309 --> 00:48:57,920

they don't die like they regenerate

1427

00:49:01,510 --> 00:49:00,319

right um so you're talking a lot of

1428

00:49:03,510 --> 00:49:01,520

potential threats there so you'd want to

1429

00:49:05,750 --> 00:49:03,520

understand what other potential threats

1430

00:49:07,750 --> 00:49:05,760

okay number one you'd want to understand

1431

00:49:09,990 --> 00:49:07,760

how to counter those threats and number

1432

00:49:11,030 --> 00:49:10,000

three as dia you would want to

1433

00:49:11,910 --> 00:49:11,040

understand

1434

00:49:14,069 --> 00:49:11,920

how

1435

00:49:16,470 --> 00:49:14,079

uh you know i can

1436

00:49:18,309 --> 00:49:16,480

weaponize uh those technologies and

1437

00:49:20,790 --> 00:49:18,319

those phenomena okay that's thinking

1438

00:49:21,670 --> 00:49:20,800

from you know as a military man

1439

00:49:24,549 --> 00:49:21,680

so

1440

00:49:27,430 --> 00:49:24,559

adversaries would have uh an interest in

1441

00:49:30,710 --> 00:49:27,440

disrupting that and that's what uh

1442

00:49:32,470 --> 00:49:30,720

two of my sources tell me that um

1443

00:49:35,030 --> 00:49:32,480

adversaries like russia for example

1444

00:49:37,670 --> 00:49:35,040

would have an interest in disrupting uh

1445

00:49:39,750 --> 00:49:37,680

those kind of advancements and you know

1446

00:49:41,750 --> 00:49:39,760

if you look if we look at um

1447

00:49:43,910 --> 00:49:41,760

you know i was in iraq right

1448

00:49:45,990 --> 00:49:43,920

i got a very good understanding of of

1449

00:49:47,589 --> 00:49:46,000

what adversaries are trying to do

1450

00:49:49,990 --> 00:49:47,599

um and

1451
00:49:52,150 --> 00:49:50,000
if you look at what uh the americans and

1452
00:49:55,109 --> 00:49:52,160
the israelis were doing to the iranians

1453
00:49:57,270 --> 00:49:55,119
in in in 2010

1454
00:50:00,230 --> 00:49:57,280
they introduced a stuxnet virus right to

1455
00:50:01,990 --> 00:50:00,240
make the iranian centrifuges uh

1456
00:50:04,549 --> 00:50:02,000
have excessive revolutions that they

1457
00:50:06,069 --> 00:50:04,559
blew up recently uh the israelis have

1458
00:50:07,670 --> 00:50:06,079
assassinated america well actually going

1459
00:50:09,990 --> 00:50:07,680
back to 2010 the israelis have been

1460
00:50:12,230 --> 00:50:10,000
assassinating israeli scientists right

1461
00:50:14,870 --> 00:50:12,240
in complex attacks they've been stealing

1462
00:50:16,549 --> 00:50:14,880
uh israeli sorry they've been stealing

1463
00:50:18,710 --> 00:50:16,559

uh iranian

1464

00:50:19,510 --> 00:50:18,720

information

1465

00:50:22,549 --> 00:50:19,520

so

1466

00:50:25,030 --> 00:50:22,559

why would not adversaries do that to

1467

00:50:27,190 --> 00:50:25,040

uap technology and people working on uap

1468

00:50:28,710 --> 00:50:27,200

programs because

1469

00:50:30,150 --> 00:50:28,720

you're as an ad

1470

00:50:31,430 --> 00:50:30,160

from an adversarial point of view the

1471

00:50:33,109 --> 00:50:31,440

first thing you want to do you'd want to

1472

00:50:34,710 --> 00:50:33,119

try and infiltrate the networks right to

1473

00:50:35,910 --> 00:50:34,720

get access to

1474

00:50:39,030 --> 00:50:35,920

the level of advancement that the

1475

00:50:41,589 --> 00:50:39,040

americans have if you can't do that then

1476

00:50:43,349 --> 00:50:41,599

second best default option is then you

1477

00:50:45,430 --> 00:50:43,359

want to take out the scientists who are

1478

00:50:46,870 --> 00:50:45,440

involved in that research

1479

00:50:48,150 --> 00:50:46,880

does that make sense

1480

00:50:50,710 --> 00:50:48,160

yes

1481

00:50:52,630 --> 00:50:50,720

is it is it a dire commentary on the

1482

00:50:55,990 --> 00:50:52,640

human condition that

1483

00:50:57,910 --> 00:50:56,000

superpowers like the us china russia and

1484

00:50:59,910 --> 00:50:57,920

others you mentioned israel

1485

00:51:02,549 --> 00:50:59,920

countries like iran north korea or

1486

00:51:05,109 --> 00:51:02,559

whoever else any of these who have that

1487

00:51:07,670 --> 00:51:05,119

sort of knowledge or confirmed knowledge

1488

00:51:08,950 --> 00:51:07,680

of a non-human presence and non-human

1489

00:51:10,390 --> 00:51:08,960

technology

1490

00:51:12,630 --> 00:51:10,400

they're still

1491

00:51:15,270 --> 00:51:12,640

at odds with each other from a military

1492

00:51:19,109 --> 00:51:15,280

point of view trying to jostle for power

1493

00:51:22,390 --> 00:51:20,549

yeah i think it's a i think it is a

1494

00:51:24,470 --> 00:51:22,400

commentary on the human condition

1495

00:51:26,309 --> 00:51:24,480

um you know and i've said this before i

1496

00:51:27,990 --> 00:51:26,319

mean if i were

1497

00:51:30,470 --> 00:51:28,000

if i were

1498

00:51:32,390 --> 00:51:30,480

an extra terrestrial presence or an

1499

00:51:33,990 --> 00:51:32,400

ultra-terrestrial presence

1500

00:51:36,790 --> 00:51:34,000

and i were looking at the human race

1501

00:51:39,349 --> 00:51:36,800

right i'd be looking at um

1502

00:51:42,470 --> 00:51:39,359

a race of beings basically monkeys with

1503

00:51:43,910 --> 00:51:42,480

like nukes and you know uh sophisticated

1504

00:51:46,309 --> 00:51:43,920

weaponry that are advancing

1505

00:51:47,670 --> 00:51:46,319

exponentially and are now

1506

00:51:49,349 --> 00:51:47,680

launching themselves into the outer

1507

00:51:51,510 --> 00:51:49,359

reaches of the universe

1508

00:51:53,910 --> 00:51:51,520

would i really want to share

1509

00:51:56,230 --> 00:51:53,920

my planet and my space with them no i

1510

00:51:58,710 --> 00:51:56,240

wouldn't because humans are inherently

1511

00:52:00,230 --> 00:51:58,720

violent you only have to look at

1512

00:52:02,230 --> 00:52:00,240

uh you know what we've done to each

1513

00:52:05,990 --> 00:52:02,240

other i mean you know the nazis did the

1514

00:52:08,870 --> 00:52:06,000

jews the kimarus you know uh stalin

1515

00:52:10,470 --> 00:52:08,880

hitler whatever you know we have done or

1516

00:52:11,670 --> 00:52:10,480

the inquisition the middle ages you know

1517

00:52:13,589 --> 00:52:11,680

and the things that the europeans have

1518

00:52:14,710 --> 00:52:13,599

done to each other you only or the

1519

00:52:16,549 --> 00:52:14,720

things that you know the europeans have

1520

00:52:19,190 --> 00:52:16,559

done to the the indigenous species the

1521

00:52:21,750 --> 00:52:19,200

indigenous inhabitants of uh you know

1522

00:52:23,510 --> 00:52:21,760

north american south america right

1523

00:52:25,030 --> 00:52:23,520

humans always screw things up wherever

1524

00:52:26,630 --> 00:52:25,040

they go we're like locusts we go from

1525

00:52:28,470 --> 00:52:26,640

one place to another we gobble up

1526
00:52:30,230 --> 00:52:28,480
resources and we screw whoever's in our

1527
00:52:32,630 --> 00:52:30,240
way because we're greedy

1528
00:52:34,150 --> 00:52:32,640
so would you really want to share space

1529
00:52:35,349 --> 00:52:34,160
with us especially when we're advancing

1530
00:52:37,109 --> 00:52:35,359
really really rapidly that's the way

1531
00:52:39,030 --> 00:52:37,119
that i look at it but i think yeah it is

1532
00:52:40,710 --> 00:52:39,040
a it's a dire commentary on the human

1533
00:52:42,790 --> 00:52:40,720
condition i mean the fact that okay i

1534
00:52:44,710 --> 00:52:42,800
was in the uk military

1535
00:52:46,790 --> 00:52:44,720
elizondo was in the american military

1536
00:52:48,309 --> 00:52:46,800
the fact that we have different human

1537
00:52:50,150 --> 00:52:48,319
tribes and that we have to have

1538
00:52:52,230 --> 00:52:50,160

militaries to defend our particular

1539

00:52:54,390 --> 00:52:52,240

tribes is a commentary on the human

1540

00:52:55,829 --> 00:52:54,400

species

1541

00:52:57,430 --> 00:52:55,839

i'm going to take that conversation

1542

00:52:59,670 --> 00:52:57,440

forward in the listener questions

1543

00:53:01,750 --> 00:52:59,680

section so for anyone shouting at me to

1544

00:53:02,870 --> 00:53:01,760

follow up on that i will be don't worry

1545

00:53:04,309 --> 00:53:02,880

but i just want to finish off does that

1546

00:53:06,069 --> 00:53:04,319

make sense

1547

00:53:07,430 --> 00:53:06,079

yes it does absolutely absolutely and

1548

00:53:09,510 --> 00:53:07,440

i've got a few things that i am going to

1549

00:53:11,109 --> 00:53:09,520

follow up with you on but i want to just

1550

00:53:12,630 --> 00:53:11,119

say a lot of people a lot of people have

1551

00:53:14,150 --> 00:53:12,640

like you know um sort of sent me like

1552

00:53:16,309 --> 00:53:14,160

you know crappy messages or whatever

1553

00:53:19,750 --> 00:53:16,319

because they think i'm kind of like some

1554

00:53:21,510 --> 00:53:19,760

uh dark deep space actor but actually

1555

00:53:23,109 --> 00:53:21,520

i spent a lot of my time when i was in

1556

00:53:24,870 --> 00:53:23,119

iraq working for oil and gas companies

1557

00:53:26,470 --> 00:53:24,880

like you know vaccinating kids this

1558

00:53:28,069 --> 00:53:26,480

isn't to say like you know frank is like

1559

00:53:29,829 --> 00:53:28,079

a great guy or whatever but like i've

1560

00:53:31,349 --> 00:53:29,839

seen the human condition i've seen the

1561

00:53:33,270 --> 00:53:31,359

human condition when people don't have

1562

00:53:35,190 --> 00:53:33,280

access to vaccines people don't have

1563

00:53:37,270 --> 00:53:35,200

access to medical care people don't have

1564

00:53:38,950 --> 00:53:37,280

access to regular food but i was in a

1565

00:53:41,670 --> 00:53:38,960

position to do something about it and

1566

00:53:43,829 --> 00:53:41,680

i've seen the results of genocide on the

1567

00:53:46,309 --> 00:53:43,839

ground i saw what the iraqis did to the

1568

00:53:48,309 --> 00:53:46,319

kurds right the the iraqis they

1569

00:53:50,230 --> 00:53:48,319

exterminated the kurds right in northern

1570

00:53:52,390 --> 00:53:50,240

iraq i saw that with you know i didn't

1571

00:53:54,150 --> 00:53:52,400

see the extermination when i i saw the

1572

00:53:56,390 --> 00:53:54,160

villages that were destroyed i spent

1573

00:53:59,430 --> 00:53:56,400

three years of my life there so i'm

1574

00:54:01,670 --> 00:53:59,440

intimately acquainted with uh the the

1575

00:54:03,829 --> 00:54:01,680

very poorer aspects the darkest aspects

1576

00:54:05,589 --> 00:54:03,839

of the human condition

1577

00:54:08,230 --> 00:54:05,599

and you can understand why any other

1578

00:54:09,030 --> 00:54:08,240

species out there watching us especially

1579

00:54:11,510 --> 00:54:09,040

one

1580

00:54:13,190 --> 00:54:11,520

or or several species if they can view

1581

00:54:15,270 --> 00:54:13,200

time in a different way and they're

1582

00:54:17,270 --> 00:54:15,280

looking at our history of the last 2000

1583

00:54:19,349 --> 00:54:17,280

years or more and they're looking along

1584

00:54:21,190 --> 00:54:19,359

at different timeline or time points

1585

00:54:22,950 --> 00:54:21,200

they're going this doesn't get any

1586

00:54:24,790 --> 00:54:22,960

better as you go along here they are

1587

00:54:26,630 --> 00:54:24,800

constantly killing each other and wiping

1588

00:54:29,510 --> 00:54:26,640

each other out the technology gets

1589

00:54:32,230 --> 00:54:29,520

better but they don't and like you say

1590

00:54:34,069 --> 00:54:32,240

that the idea that oh if we get uap

1591

00:54:35,589 --> 00:54:34,079

technology for the good of humanity

1592

00:54:37,349 --> 00:54:35,599

everything will be fine and you're

1593

00:54:39,910 --> 00:54:37,359

looking go well at what point in our

1594

00:54:43,190 --> 00:54:39,920

technological advances have things got

1595

00:54:45,670 --> 00:54:43,200

better for us as a species as a whole

1596

00:54:47,349 --> 00:54:45,680

and it hasn't it's still very sporadic

1597

00:54:49,030 --> 00:54:47,359

and spread out as to who benefits from

1598

00:54:50,390 --> 00:54:49,040

what

1599

00:54:51,430 --> 00:54:50,400

yeah i mean there's also another aspect

1600

00:54:53,589 --> 00:54:51,440

to that

1601
00:54:55,510 --> 00:54:53,599
if you're looking at the you know uh you

1602
00:54:58,309 --> 00:54:55,520
know the human species of being highly

1603
00:55:01,430 --> 00:54:58,319
adaptable at warfare you look at 1876

1604
00:55:03,270 --> 00:55:01,440
right when the the brits went into zulu

1605
00:55:04,710 --> 00:55:03,280
land right from south africa and they

1606
00:55:07,030 --> 00:55:04,720
thought yeah we're just gonna like roll

1607
00:55:08,470 --> 00:55:07,040
straight over the zulus and the the

1608
00:55:11,030 --> 00:55:08,480
brits got absolutely hammered at the

1609
00:55:12,309 --> 00:55:11,040
battle of isla dwana uh four days later

1610
00:55:13,750 --> 00:55:12,319
there was the battle of rorke's drift

1611
00:55:16,390 --> 00:55:13,760
which is the most glorious action in the

1612
00:55:19,349 --> 00:55:16,400
history of the british army where 120

1613
00:55:21,829 --> 00:55:19,359

brits south wales borders held off a

1614

00:55:22,549 --> 00:55:21,839

force of 3 000 zulus but the fact is

1615

00:55:24,549 --> 00:55:22,559

that

1616

00:55:25,910 --> 00:55:24,559

zulus in the battle of island wanna four

1617

00:55:28,390 --> 00:55:25,920

days before

1618

00:55:31,510 --> 00:55:28,400

they had like spears and shields and

1619

00:55:33,829 --> 00:55:31,520

they annihilated 1200 brits who had

1620

00:55:36,150 --> 00:55:33,839

cannons and the most uh you know the

1621

00:55:38,309 --> 00:55:36,160

most advanced uh repeating rifles in the

1622

00:55:39,670 --> 00:55:38,319

world at the time so if you were an

1623

00:55:41,750 --> 00:55:39,680

extraterrestrial species you'd be

1624

00:55:43,829 --> 00:55:41,760

looking and going hang on uh even when

1625

00:55:46,870 --> 00:55:43,839

these guys are low tech they can still

1626
00:55:48,470 --> 00:55:46,880
defeat other humans who are high-tech

1627
00:55:50,069 --> 00:55:48,480
yeah um

1628
00:55:52,549 --> 00:55:50,079
it's like you say the human condition is

1629
00:55:54,470 --> 00:55:52,559
a very very strange and complex thing i

1630
00:55:56,309 --> 00:55:54,480
want to also ask you about um the

1631
00:55:57,910 --> 00:55:56,319
language in the bill it does mention

1632
00:56:00,069 --> 00:55:57,920
working with allies

1633
00:56:00,950 --> 00:56:00,079
now you have mentioned the five eyes

1634
00:56:02,870 --> 00:56:00,960
group

1635
00:56:04,309 --> 00:56:02,880
are there any other countries you think

1636
00:56:06,309 --> 00:56:04,319
would be some of the first to come

1637
00:56:08,870 --> 00:56:06,319
forward to work with the united states

1638
00:56:10,630 --> 00:56:08,880

or maybe any surprise contenders to to

1639

00:56:12,630 --> 00:56:10,640

broach this subject

1640

00:56:13,990 --> 00:56:12,640

well the first key one will be brazil

1641

00:56:15,430 --> 00:56:14,000

right in south america because the

1642

00:56:17,910 --> 00:56:15,440

americans have always had a very close

1643

00:56:20,150 --> 00:56:17,920

relationship with the brazilians and you

1644

00:56:22,470 --> 00:56:20,160

can see that in kolaras and you can see

1645

00:56:24,470 --> 00:56:22,480

that in various uh ufo

1646

00:56:25,990 --> 00:56:24,480

uh encounters that the brazilians have

1647

00:56:28,150 --> 00:56:26,000

had i mean the americans they support

1648

00:56:30,150 --> 00:56:28,160

the brazilians as they supported other

1649

00:56:32,150 --> 00:56:30,160

south american countries when they were

1650

00:56:33,670 --> 00:56:32,160

still in like you know deep dark uh

1651

00:56:35,190 --> 00:56:33,680

military dictatorship the americans

1652

00:56:37,349 --> 00:56:35,200

supported them just for the simple fact

1653

00:56:38,950 --> 00:56:37,359

that they were anti-soviet um there's an

1654

00:56:40,390 --> 00:56:38,960

increasing american relationship now

1655

00:56:42,710 --> 00:56:40,400

with um

1656

00:56:44,950 --> 00:56:42,720

with uh the indians who are also you

1657

00:56:46,950 --> 00:56:44,960

know technologically advanced country

1658

00:56:47,910 --> 00:56:46,960

first increasing um you know there's

1659

00:56:49,589 --> 00:56:47,920

always been

1660

00:56:51,270 --> 00:56:49,599

cooperation with taiwan which is another

1661

00:56:52,710 --> 00:56:51,280

military military advanced country with

1662

00:56:53,990 --> 00:56:52,720

japan as well

1663

00:56:55,990 --> 00:56:54,000

so

1664

00:56:59,030 --> 00:56:56,000

i would look apart from nato apart from

1665

00:57:00,789 --> 00:56:59,040

five eyes i would be looking to brazil

1666

00:57:03,510 --> 00:57:00,799

india japan

1667

00:57:06,470 --> 00:57:03,520

taiwan south korea

1668

00:57:10,150 --> 00:57:06,480

okay singapore as key countries that the

1669

00:57:12,549 --> 00:57:10,160

americans would cooperate with on on uap

1670

00:57:14,950 --> 00:57:12,559

all those countries have ha have uh have

1671

00:57:16,710 --> 00:57:14,960

uh have uh intelligence and defense uh

1672

00:57:17,910 --> 00:57:16,720

relationships either formalized or

1673

00:57:19,430 --> 00:57:17,920

informal with the amount of the united

1674

00:57:21,750 --> 00:57:19,440

states

1675

00:57:24,069 --> 00:57:21,760

and also it mentions within the bill uh

1676
00:57:26,069 --> 00:57:24,079
capture and exploit the technology which

1677
00:57:28,230 --> 00:57:26,079
is a very suggestive comment and it gets

1678
00:57:30,309 --> 00:57:28,240
the mind and the imagination going we

1679
00:57:31,430 --> 00:57:30,319
are past the question already of are

1680
00:57:33,510 --> 00:57:31,440
they real

1681
00:57:35,670 --> 00:57:33,520
do you think or actually do you think

1682
00:57:37,910 --> 00:57:35,680
it's a pure question how far do you

1683
00:57:40,710 --> 00:57:37,920
think we've already attempted to exploit

1684
00:57:42,230 --> 00:57:40,720
the technology that we may already have

1685
00:57:46,230 --> 00:57:42,240
i'm told

1686
00:57:47,430 --> 00:57:46,240
by the scientists that i mentioned

1687
00:57:49,270 --> 00:57:47,440
earlier

1688
00:57:51,030 --> 00:57:49,280

and i said again that they haven't told

1689

00:57:53,109 --> 00:57:51,040

me anything classified but i'm told that

1690

00:57:55,109 --> 00:57:53,119

uh the united states

1691

00:57:57,430 --> 00:57:55,119

and probably the uk because like i said

1692

00:58:00,069 --> 00:57:57,440

before ba systems is dug in deeper than

1693

00:58:01,829 --> 00:58:00,079

alabama tick with the americans um

1694

00:58:04,230 --> 00:58:01,839

that the americans are 20 years away and

1695

00:58:06,470 --> 00:58:04,240

that kind of fits in with what uh dr

1696

00:58:09,270 --> 00:58:06,480

eric davis said um

1697

00:58:11,349 --> 00:58:09,280

in his april 2020 interview with

1698

00:58:13,030 --> 00:58:11,359

alejandra rojas uh when he's talking

1699

00:58:15,670 --> 00:58:13,040

about you know we need to have our

1700

00:58:19,589 --> 00:58:15,680

physics and engineering you know in in

1701

00:58:21,829 --> 00:58:19,599

uh 2040 up to where the tic tacs

1702

00:58:24,069 --> 00:58:21,839

uh in case they turn around and decide

1703

00:58:25,990 --> 00:58:24,079

to be a threat so

1704

00:58:27,910 --> 00:58:26,000

uh that kind of fits with what uh dr

1705

00:58:29,430 --> 00:58:27,920

eric davis says and that fits with what

1706

00:58:32,470 --> 00:58:29,440

uh my

1707

00:58:34,710 --> 00:58:32,480

uh sources have been telling me i'm told

1708

00:58:36,630 --> 00:58:34,720

that they already have um

1709

00:58:39,109 --> 00:58:36,640

not five observable craft but they have

1710

00:58:41,589 --> 00:58:39,119

uh you know like triangles uh what some

1711

00:58:43,910 --> 00:58:41,599

people refer to as tr3b or although i

1712

00:58:46,870 --> 00:58:43,920

don't really like that nomenclature and

1713

00:58:49,190 --> 00:58:46,880

uh i talked to my colleague um

1714

00:58:51,670 --> 00:58:49,200

david mahler uh he's an expert on

1715

00:58:54,549 --> 00:58:51,680

triangle ufos and he's at the scu as

1716

00:58:58,950 --> 00:58:54,559

well uh he doesn't like tr3b but i'm

1717

00:59:00,870 --> 00:58:58,960

told that uh by my sources they've seen

1718

00:59:03,430 --> 00:59:00,880

these kind of triangles this kind of

1719

00:59:05,349 --> 00:59:03,440

technology the americans have um but

1720

00:59:07,190 --> 00:59:05,359

they tell me that it's uh it's still

1721

00:59:09,270 --> 00:59:07,200

imperfect and it's still being worked on

1722

00:59:10,630 --> 00:59:09,280

and to get true five observable

1723

00:59:12,309 --> 00:59:10,640

technology it's gonna take another 20

1724

00:59:13,510 --> 00:59:12,319

years

1725

00:59:15,910 --> 00:59:13,520

and that's why

1726

00:59:18,950 --> 00:59:15,920

that's why uh you know the interview

1727

00:59:21,510 --> 00:59:18,960

that you did with elizondo and uh jay at

1728

00:59:24,710 --> 00:59:21,520

project unity and when you know elizondo

1729

00:59:26,710 --> 00:59:24,720

said to jay um you know once congress is

1730

00:59:30,069 --> 00:59:26,720

interested in the uap issue it will be a

1731

00:59:31,349 --> 00:59:30,079

feta complete to give funding for a huge

1732

00:59:33,510 --> 00:59:31,359

project that kind of puts it in

1733

00:59:35,109 --> 00:59:33,520

perspective

1734

00:59:38,069 --> 00:59:35,119

why do you think all this is happening

1735

00:59:40,470 --> 00:59:38,079

now why and so publicly as well has

1736

00:59:41,910 --> 00:59:40,480

something triggered this happening or

1737

00:59:44,230 --> 00:59:41,920

was it simply

1738

00:59:46,710 --> 00:59:44,240

lou left his job and decided himself to

1739

00:59:48,710 --> 00:59:46,720

come out is this all one man's one man's

1740

00:59:50,390 --> 00:59:48,720

job

1741

00:59:52,309 --> 00:59:50,400

i think it's a number of things i think

1742

00:59:59,430 --> 00:59:52,319

it's um

1743

01:00:01,349 --> 00:59:59,440

if you look at uh harry reid's 2009

1744

01:00:03,829 --> 01:00:01,359

letter i think that was very very

1745

01:00:05,430 --> 01:00:03,839

decisive it was like you know this is

1746

01:00:06,710 --> 01:00:05,440

where we need to be

1747

01:00:08,630 --> 01:00:06,720

and if you look at that letter there's a

1748

01:00:10,549 --> 01:00:08,640

lot of very very interesting things in

1749

01:00:12,230 --> 01:00:10,559

there uh people should go back and

1750

01:00:15,349 --> 01:00:12,240

revisit that letter

1751

01:00:17,190 --> 01:00:15,359

um i think it's uh uh lou i said you

1752

01:00:18,789 --> 01:00:17,200

know lou and uh

1753

01:00:20,630 --> 01:00:18,799

and chris mellon they they want to

1754

01:00:22,950 --> 01:00:20,640

basically give a wake-up call and they

1755

01:00:25,270 --> 01:00:22,960

give them that wake-up call to congress

1756

01:00:26,549 --> 01:00:25,280

um but also as well i think it's been

1757

01:00:29,349 --> 01:00:26,559

fueled by

1758

01:00:31,430 --> 01:00:29,359

you know social media the fact that um

1759

01:00:33,270 --> 01:00:31,440

you know there's a you know

1760

01:00:35,670 --> 01:00:33,280

ufo twitter is pretty small but it's

1761

01:00:37,030 --> 01:00:35,680

it's very very vocal and the fact that

1762

01:00:38,710 --> 01:00:37,040

this has become

1763

01:00:40,630 --> 01:00:38,720

a kind of like a national international

1764

01:00:42,950 --> 01:00:40,640

issue is because of social media as well

1765

01:00:44,710 --> 01:00:42,960

i think the time is that you can't it's

1766

01:00:47,750 --> 01:00:44,720

getting very more and more difficult to

1767

01:00:49,510 --> 01:00:47,760

hide um you know these issues away from

1768

01:00:51,349 --> 01:00:49,520

the public especially when you know

1769

01:00:54,390 --> 01:00:51,359

instantly i mean if you look back in the

1770

01:00:55,670 --> 01:00:54,400

1950s you had various ufo organizations

1771

01:00:57,349 --> 01:00:55,680

and they used to send out like you know

1772

01:01:00,390 --> 01:00:57,359

email they used to send out like letters

1773

01:01:01,990 --> 01:01:00,400

right like uh snail mail letters

1774

01:01:03,589 --> 01:01:02,000

uh and they used to do conferences but

1775

01:01:05,030 --> 01:01:03,599

it was all by snail mail and they may be

1776

01:01:07,190 --> 01:01:05,040

phoning people up

1777

01:01:09,349 --> 01:01:07,200

now it's like instantaneous somebody

1778

01:01:11,270 --> 01:01:09,359

discovers something like you know uh

1779

01:01:13,030 --> 01:01:11,280

you know dd johnson right on twitter and

1780

01:01:14,789 --> 01:01:13,040

he just puts it out straight there and

1781

01:01:16,150 --> 01:01:14,799

immediately you've got like you know any

1782

01:01:17,750 --> 01:01:16,160

number of people in the world can follow

1783

01:01:20,549 --> 01:01:17,760

that

1784

01:01:21,430 --> 01:01:20,559

it's uh exponential use of uh

1785

01:01:23,270 --> 01:01:21,440

um

1786

01:01:25,109 --> 01:01:23,280

you know social medias and intelligence

1787

01:01:27,589 --> 01:01:25,119

resource effectively and and it's making

1788

01:01:29,670 --> 01:01:27,599

it very much much harder for

1789

01:01:31,829 --> 01:01:29,680

uh the us to cover this up and also you

1790

01:01:34,230 --> 01:01:31,839

know you've got guys like you know um

1791

01:01:36,710 --> 01:01:34,240

you know greenwood the black vault who's

1792

01:01:37,670 --> 01:01:36,720

just like relentless uh with like the

1793

01:01:40,470 --> 01:01:37,680

foyer

1794

01:01:43,030 --> 01:01:40,480

and then uh you have issues where it

1795

01:01:46,069 --> 01:01:43,040

looks like uh you know the

1796

01:01:48,150 --> 01:01:46,079

um the dod uh freedom of information act

1797

01:01:49,910 --> 01:01:48,160

people who act you know the people who

1798

01:01:52,230 --> 01:01:49,920

are who are basically processing the

1799

01:01:55,589 --> 01:01:52,240

foyers it looks like they are trying to

1800

01:01:57,349 --> 01:01:55,599

obfuscate um the fire process

1801
01:01:59,829 --> 01:01:57,359
all that goes across social media and

1802
01:02:01,190 --> 01:01:59,839
national media very very quickly

1803
01:02:03,829 --> 01:02:01,200
it's becoming increasingly difficult to

1804
01:02:05,990 --> 01:02:03,839
hide these things

1805
01:02:07,430 --> 01:02:06,000
now just before we get to listener

1806
01:02:08,950 --> 01:02:07,440
questions i've got one more thing i want

1807
01:02:10,069 --> 01:02:08,960
to talk to you about because like you've

1808
01:02:11,829 --> 01:02:10,079
talked about

1809
01:02:13,750 --> 01:02:11,839
exponentially increasing technologies

1810
01:02:16,390 --> 01:02:13,760
and the difference it's making social

1811
01:02:19,589 --> 01:02:16,400
media the james webb telescope as we

1812
01:02:21,510 --> 01:02:19,599
speak is unfurling its solar shield and

1813
01:02:23,029 --> 01:02:21,520

it's incredible that the

1814

01:02:25,270 --> 01:02:23,039

the achievement just to get that thing

1815

01:02:26,710 --> 01:02:25,280

into space let alone the hundred things

1816

01:02:29,270 --> 01:02:26,720

that have to happen now it's in space

1817

01:02:31,349 --> 01:02:29,280

for it to become fully operational

1818

01:02:34,549 --> 01:02:31,359

my co-host dan referred to it as going

1819

01:02:36,470 --> 01:02:34,559

from vhs to 4k dvds and we're going to

1820

01:02:37,349 --> 01:02:36,480

see a whole new whole new lake spectrum

1821

01:02:39,589 --> 01:02:37,359

as well

1822

01:02:41,349 --> 01:02:39,599

do you think the james webb telescope is

1823

01:02:43,670 --> 01:02:41,359

going to play a part in finding other

1824

01:02:45,829 --> 01:02:43,680

sources of life in the universe or are

1825

01:02:48,150 --> 01:02:45,839

we going to find that closer to home

1826

01:02:51,029 --> 01:02:48,160

with organizations like the galileo

1827

01:02:53,190 --> 01:02:51,039

project and scu

1828

01:02:54,390 --> 01:02:53,200

uh look i'm not a scientist i can't

1829

01:02:57,190 --> 01:02:54,400

really say

1830

01:02:59,190 --> 01:02:57,200

uh to be honest i can only hypothesize

1831

01:03:00,390 --> 01:02:59,200

um yeah as a member of the public then i

1832

01:03:02,549 --> 01:03:00,400

mean but we're putting this thing up

1833

01:03:04,870 --> 01:03:02,559

there it's going to see further and

1834

01:03:06,470 --> 01:03:04,880

clearer than ever before do you think

1835

01:03:07,750 --> 01:03:06,480

that sort of technology and actually

1836

01:03:09,109 --> 01:03:07,760

i'll bring forward a question i was

1837

01:03:10,390 --> 01:03:09,119

going to ask you later as part of the

1838

01:03:13,510 --> 01:03:10,400

quickfire

1839

01:03:16,470 --> 01:03:13,520

even organizations like like nasa

1840

01:03:18,789 --> 01:03:16,480

do they still have a part to play in

1841

01:03:21,349 --> 01:03:18,799

one day announcing we have found

1842

01:03:24,069 --> 01:03:21,359

extraterrestrial life somewhere else

1843

01:03:26,549 --> 01:03:24,079

or does that come through uh a

1844

01:03:28,309 --> 01:03:26,559

government organization or a space force

1845

01:03:30,069 --> 01:03:28,319

what are your thoughts on that

1846

01:03:31,430 --> 01:03:30,079

well i think nasa or nasa already has

1847

01:03:34,789 --> 01:03:31,440

said that they found life somewhere else

1848

01:03:38,710 --> 01:03:36,470

yeah i get these things are always

1849

01:03:40,630 --> 01:03:38,720

debated but you know we're talking that

1850

01:03:42,710 --> 01:03:40,640

we send something up and there's there's

1851

01:03:44,549 --> 01:03:42,720

a whole you know city of lights and

1852

01:03:45,990 --> 01:03:44,559

venus somewhere or you know and for

1853

01:03:47,670 --> 01:03:46,000

those i know venus isn't going to happen

1854

01:03:49,270 --> 01:03:47,680

i think as far as web goes like very

1855

01:03:51,430 --> 01:03:49,280

possibly but also

1856

01:03:53,510 --> 01:03:51,440

if you have um

1857

01:03:55,349 --> 01:03:53,520

uh you know an advanced civilization

1858

01:03:56,549 --> 01:03:55,359

that's visiting us and we've seen that

1859

01:03:59,910 --> 01:03:56,559

uap

1860

01:04:02,150 --> 01:03:59,920

are able to you know they have uh

1861

01:04:04,230 --> 01:04:02,160

you know hypersonic velocities with like

1862

01:04:07,109 --> 01:04:04,240

you know with without signatures and

1863

01:04:08,950 --> 01:04:07,119

also signature management then uh

1864

01:04:10,630 --> 01:04:08,960

you know will we discover them in space

1865

01:04:14,630 --> 01:04:10,640

i'm not so sure uh but i think there's a

1866

01:04:16,390 --> 01:04:14,640

lot more that nasa has uh on film uh

1867

01:04:18,309 --> 01:04:16,400

that we haven't seen yet

1868

01:04:19,829 --> 01:04:18,319

um or some things that have been leaked

1869

01:04:22,789 --> 01:04:19,839

and we have seen

1870

01:04:24,710 --> 01:04:22,799

um look i'm not a big believer i don't

1871

01:04:26,630 --> 01:04:24,720

trust big government in any sense either

1872

01:04:28,230 --> 01:04:26,640

the uk or or the american government or

1873

01:04:30,069 --> 01:04:28,240

anybody else i think that they know a

1874

01:04:33,109 --> 01:04:30,079

lot more than they're telling us

1875

01:04:34,870 --> 01:04:33,119

um in terms of uh

1876

01:04:36,789 --> 01:04:34,880

sort of disclosure

1877

01:04:38,230 --> 01:04:36,799

um it depends what it means to people i

1878

01:04:40,150 --> 01:04:38,240

don't think that the american government

1879

01:04:42,630 --> 01:04:40,160

or the uk government has any reason to

1880

01:04:44,710 --> 01:04:42,640

disclose more than you know it needs to

1881

01:04:46,950 --> 01:04:44,720

and if it thinks if they think that they

1882

01:04:48,950 --> 01:04:46,960

can continue along uh just basically

1883

01:04:50,789 --> 01:04:48,960

giving the minimal kind of like dribble

1884

01:04:52,549 --> 01:04:50,799

then they will do so until forced to do

1885

01:04:53,910 --> 01:04:52,559

so otherwise

1886

01:04:55,910 --> 01:04:53,920

just before we get into listener

1887

01:04:58,549 --> 01:04:55,920

questions where we're going to approach

1888

01:05:00,789 --> 01:04:58,559

some more of the

1889

01:05:02,470 --> 01:05:00,799

what's the word the speculation uh that

1890

01:05:03,990 --> 01:05:02,480

people have been throwing the questions

1891

01:05:05,510 --> 01:05:04,000

at me for you some things we've not

1892

01:05:07,349 --> 01:05:05,520

quite approached yet in the conversation

1893

01:05:09,029 --> 01:05:07,359

that i'm looking forward to getting into

1894

01:05:10,470 --> 01:05:09,039

i'm going to hand over to our sponsors

1895

01:05:15,270 --> 01:05:10,480

who have a quick message and then we'll

1896

01:05:18,549 --> 01:05:16,950

thanks to the sponsors and thank you for

1897

01:05:20,390 --> 01:05:18,559

checking those out if you don't want to

1898

01:05:22,549 --> 01:05:20,400

hear adverts remember folks you can sign

1899

01:05:24,390 --> 01:05:22,559

up to patreon apple spotify

1900

01:05:26,069 --> 01:05:24,400

and check out those premium services or

1901

01:05:27,910 --> 01:05:26,079

less than a price of a coffee and you

1902

01:05:29,349 --> 01:05:27,920

don't have to hear the ads but if you do

1903

01:05:30,150 --> 01:05:29,359

thank you very much for checking those

1904

01:05:32,390 --> 01:05:30,160

out

1905

01:05:34,230 --> 01:05:32,400

listen frank i have a ton of listener

1906

01:05:35,829 --> 01:05:34,240

questions for you here things we haven't

1907

01:05:37,990 --> 01:05:35,839

quite touched on yet within the body of

1908

01:05:39,270 --> 01:05:38,000

the interview and i'm looking forward to

1909

01:05:41,510 --> 01:05:39,280

discussing some of these more

1910

01:05:43,910 --> 01:05:41,520

speculative areas with you

1911

01:05:46,789 --> 01:05:43,920

straight brother yeah straight into dave

1912

01:05:48,470 --> 01:05:46,799

lamborn dave wants to know how prominent

1913

01:05:50,950 --> 01:05:48,480

is the rumor amongst intelligence

1914

01:05:53,029 --> 01:05:50,960

community about a cataclysmic event that

1915

01:05:54,870 --> 01:05:53,039

could happen sometime relatively soon

1916

01:05:56,390 --> 01:05:54,880

have you heard this from any independent

1917

01:05:58,069 --> 01:05:56,400

sources

1918

01:06:00,789 --> 01:05:58,079

yeah very good question i've heard this

1919

01:06:03,270 --> 01:06:00,799

from three independent sources

1920

01:06:05,990 --> 01:06:03,280

one from the intelligence community and

1921

01:06:07,670 --> 01:06:06,000

from two scientists i

1922

01:06:08,789 --> 01:06:07,680

cannot verify

1923

01:06:10,630 --> 01:06:08,799

um

1924

01:06:12,549 --> 01:06:10,640

what they've said apart from

1925

01:06:14,230 --> 01:06:12,559

they're all telling me the same thing

1926

01:06:17,190 --> 01:06:14,240

and i know

1927

01:06:18,470 --> 01:06:17,200

i've spoken with ross coulthart and he's

1928

01:06:19,910 --> 01:06:18,480

told me that he's heard the same thing

1929

01:06:21,910 --> 01:06:19,920

from his sources

1930

01:06:25,349 --> 01:06:21,920

um but it's something that i i can't

1931

01:06:27,670 --> 01:06:25,359

physically verify but uh

1932

01:06:28,789 --> 01:06:27,680

i would say

1933

01:06:32,390 --> 01:06:28,799

i can't

1934

01:06:34,950 --> 01:06:32,400

believe that it's true

1935

01:06:37,510 --> 01:06:34,960

amid we talk cataclysms are we looking

1936

01:06:39,190 --> 01:06:37,520

here at like armageddon independence day

1937

01:06:40,309 --> 01:06:39,200

obviously you can't break trust but can

1938

01:06:42,309 --> 01:06:40,319

you tell us a movie that we should be

1939

01:06:43,829 --> 01:06:42,319

kind of watching to brush up on

1940

01:06:45,510 --> 01:06:43,839

well no i've been told various different

1941

01:06:48,309 --> 01:06:45,520

scenarios that um

1942

01:06:49,910 --> 01:06:48,319

it could be a um you know meteorites

1943

01:06:51,910 --> 01:06:49,920

heading towards the earth

1944

01:06:53,430 --> 01:06:51,920

it could be uh and this sounds really

1945

01:06:55,190 --> 01:06:53,440

really out there this is what i've been

1946

01:06:56,309 --> 01:06:55,200

told okay i can't prove this that's

1947

01:06:57,270 --> 01:06:56,319

really out there

1948

01:07:02,390 --> 01:06:57,280

uh

1949

01:07:05,910 --> 01:07:02,400

american nukes which would be

1950

01:07:07,990 --> 01:07:05,920

uh targeted uh to destroy incoming

1951

01:07:09,270 --> 01:07:08,000

asteroids okay

1952

01:07:10,789 --> 01:07:09,280

um

1953

01:07:12,710 --> 01:07:10,799

then you add into the mix like you know

1954

01:07:15,190 --> 01:07:12,720

time travelers uh

1955

01:07:17,589 --> 01:07:15,200

one time traveller group which is uh

1956

01:07:19,910 --> 01:07:17,599

graze us from the future who want the

1957

01:07:22,069 --> 01:07:19,920

cataclysm to happen because they want to

1958

01:07:23,510 --> 01:07:22,079

exist regardless of how screwed up they

1959

01:07:27,109 --> 01:07:23,520

are and

1960

01:07:28,390 --> 01:07:27,119

other future humans who exist just after

1961

01:07:29,990 --> 01:07:28,400

cataclysm happen

1962

01:07:31,349 --> 01:07:30,000

and want to come back because they have

1963

01:07:32,950 --> 01:07:31,359

the technology and want to prevent the

1964

01:07:35,349 --> 01:07:32,960

cataclysm happening

1965

01:07:37,829 --> 01:07:35,359

i can't substantiate any of that okay

1966

01:07:39,829 --> 01:07:37,839

it's stuff that i've been told and i

1967

01:07:41,750 --> 01:07:39,839

believe my sources when they say they

1968

01:07:43,670 --> 01:07:41,760

believe it i have one source in

1969

01:07:48,069 --> 01:07:43,680

particular they tell me that they are in

1970

01:07:50,390 --> 01:07:48,079

contact with temporal agents okay so

1971

01:07:52,870 --> 01:07:50,400

there you go

1972

01:07:54,470 --> 01:07:52,880

through no other thing other than

1973

01:07:55,990 --> 01:07:54,480

coincidence then again if you don't

1974

01:07:58,549 --> 01:07:56,000

believe in that it might all be karma

1975

01:08:00,870 --> 01:07:58,559

whatever it might be i had lined up ross

1976

01:08:03,190 --> 01:08:00,880

cool tap dr michael masters and then

1977

01:08:04,470 --> 01:08:03,200

yourself as three interviews in a row

1978

01:08:06,309 --> 01:08:04,480

and people might think that was

1979

01:08:08,630 --> 01:08:06,319

deliberate genius on my part as they

1980

01:08:10,390 --> 01:08:08,640

flowed together very well um it was just

1981

01:08:12,710 --> 01:08:10,400

pure pure luck on my part i managed to

1982

01:08:14,630 --> 01:08:12,720

get three excellent guests

1983

01:08:17,110 --> 01:08:14,640

dr michael masters and the last one have

1984

01:08:18,950 --> 01:08:17,120

you talked about temporal extra temporal

1985

01:08:20,950 --> 01:08:18,960

visitors

1986

01:08:23,110 --> 01:08:20,960

what are your thoughts on the idea that

1987

01:08:24,870 --> 01:08:23,120

we do have and listen time travel is a

1988

01:08:26,870 --> 01:08:24,880

huge subject if you want to think back

1989

01:08:29,189 --> 01:08:26,880

to the future you can turn it any kind

1990

01:08:30,950 --> 01:08:29,199

of movie but it might be something far

1991

01:08:34,229 --> 01:08:30,960

more strange and complex than we can

1992

01:08:35,990 --> 01:08:34,239

even imagine how time may work but do

1993

01:08:37,189 --> 01:08:36,000

you think there's a likelihood that we

1994

01:08:39,510 --> 01:08:37,199

do have

1995

01:08:41,510 --> 01:08:39,520

some sort of of time travel time

1996

01:08:44,870 --> 01:08:41,520

traveling entity or entities

1997

01:08:47,829 --> 01:08:44,880

being involved with with us as a species

1998

01:08:50,709 --> 01:08:47,839

uh personally i do and um you know mike

1999

01:08:52,470 --> 01:08:50,719

masters is a colleague from

2000

01:08:54,309 --> 01:08:52,480

scu as well

2001

01:08:55,510 --> 01:08:54,319

and i've talked to mike uh you know

2002

01:08:57,269 --> 01:08:55,520

about this

2003

01:08:59,430 --> 01:08:57,279

and he's also spoken to one of my

2004

01:09:01,590 --> 01:08:59,440

sources about this who is uh

2005

01:09:03,590 --> 01:09:01,600

like i said a genius level scientist

2006

01:09:05,189 --> 01:09:03,600

um i believe it's quite possible i

2007

01:09:08,149 --> 01:09:05,199

personally don't have any proof i

2008

01:09:10,630 --> 01:09:08,159

personally haven't been contacted by

2009

01:09:11,990 --> 01:09:10,640

a temporal agent but you know i'm

2010

01:09:13,749 --> 01:09:12,000

speaking to people

2011

01:09:15,510 --> 01:09:13,759

like for months now who consistently are

2012

01:09:16,870 --> 01:09:15,520

saying that you know that these things

2013

01:09:19,030 --> 01:09:16,880

do happen

2014

01:09:21,030 --> 01:09:19,040
and that they are in contact with

2015

01:09:22,709 --> 01:09:21,040
uh people from the future

2016

01:09:24,309 --> 01:09:22,719
and that uh you know we all have a

2017

01:09:25,990 --> 01:09:24,319
destiny to play

2018

01:09:27,749 --> 01:09:26,000
so

2019

01:09:29,749 --> 01:09:27,759
it's uh

2020

01:09:31,510 --> 01:09:29,759
it's very hard for me to

2021

01:09:33,110 --> 01:09:31,520
discount what they're saying let's put

2022

01:09:35,189 --> 01:09:33,120
it that way based on my relationships

2023

01:09:37,269 --> 01:09:35,199
with them

2024

01:09:39,349 --> 01:09:37,279
and were they ever given or giving you

2025

01:09:42,149 --> 01:09:39,359
any sort of time skills as to when

2026

01:09:46,149 --> 01:09:42,159

events may happen or occur

2027

01:09:49,829 --> 01:09:48,149

we're going to see it then so if if

2028

01:09:51,590 --> 01:09:49,839

indeed it does happen but when you're

2029

01:09:53,910 --> 01:09:51,600

talking about time and timelines you

2030

01:09:55,110 --> 01:09:53,920

know things can and do change and

2031

01:09:56,550 --> 01:09:55,120

there's always

2032

01:09:58,390 --> 01:09:56,560

the potential like you i think you're

2033

01:10:00,229 --> 01:09:58,400

very rightly said that you believe your

2034

01:10:01,750 --> 01:10:00,239

sources believe it but that doesn't

2035

01:10:03,750 --> 01:10:01,760

necessarily mean that somewhere down the

2036

01:10:05,510 --> 01:10:03,760

line sources can be wrong or fed

2037

01:10:07,189 --> 01:10:05,520

misinformation or

2038

01:10:08,630 --> 01:10:07,199

things change so that's why you've

2039

01:10:09,990 --> 01:10:08,640

always got to quantify those those

2040

01:10:12,310 --> 01:10:10,000

comments i don't believe that they've

2041

01:10:14,149 --> 01:10:12,320

been fed misinformation because they are

2042

01:10:16,310 --> 01:10:14,159

very highly placed both in intelligence

2043

01:10:18,950 --> 01:10:16,320

community and also in the science world

2044

01:10:20,870 --> 01:10:18,960

uh in terms of i mean a couple of people

2045

01:10:22,709 --> 01:10:20,880

that i'm talking to uh you know they're

2046

01:10:24,790 --> 01:10:22,719

up there they're unknown

2047

01:10:26,709 --> 01:10:24,800

but in the science world they're up

2048

01:10:28,390 --> 01:10:26,719

there with eric davis and hal put off

2049

01:10:31,189 --> 01:10:28,400

they're in that kind of uh pantheon

2050

01:10:32,870 --> 01:10:31,199

right of kind of like brilliance

2051

01:10:35,350 --> 01:10:32,880

uh i believe that they believe what

2052

01:10:38,310 --> 01:10:35,360

they're saying i just can't provide any

2053

01:10:39,350 --> 01:10:38,320

proof and you know me andy uh you know i

2054

01:10:42,149 --> 01:10:39,360

will always

2055

01:10:44,070 --> 01:10:42,159

if i've if i write a paper i'll put down

2056

01:10:45,910 --> 01:10:44,080

you know elizondo said this or chris

2057

01:10:47,830 --> 01:10:45,920

mellon said that okay you can take that

2058

01:10:49,030 --> 01:10:47,840

to the bank or you can

2059

01:10:51,270 --> 01:10:49,040

um

2060

01:10:53,110 --> 01:10:51,280

you know you can uh you know decide what

2061

01:10:55,590 --> 01:10:53,120

you want based on on the base of that

2062

01:10:57,590 --> 01:10:55,600

but the fact is that i will put down

2063

01:11:00,550 --> 01:10:57,600

what somebody has said or i will have an

2064

01:11:01,910 --> 01:11:00,560

email that i can reproduce or i'll have

2065

01:11:03,830 --> 01:11:01,920

you know like from the project condone

2066

01:11:06,630 --> 01:11:03,840

report i will have uh you know an

2067

01:11:07,750 --> 01:11:06,640

extract from a declassified document if

2068

01:11:09,750 --> 01:11:07,760

i don't have that then it's just

2069

01:11:11,669 --> 01:11:09,760

hypothesis

2070

01:11:13,669 --> 01:11:11,679

sure and it's you know what it's it's

2071

01:11:15,669 --> 01:11:13,679

fun as much as cataclysms and

2072

01:11:17,750 --> 01:11:15,679

cataclysmic events can be fun uh to

2073

01:11:19,430 --> 01:11:17,760

hypothesize about and discuss and talk

2074

01:11:21,350 --> 01:11:19,440

about so it's something we'll definitely

2075

01:11:22,870 --> 01:11:21,360

be keeping an eye on and and hopefully

2076

01:11:25,350 --> 01:11:22,880

those sort of events do not happen

2077

01:11:27,510 --> 01:11:25,360

obviously onto

2078

01:11:30,070 --> 01:11:27,520

yeah newman has sent in some great

2079

01:11:32,070 --> 01:11:30,080

questions recently has frank any ideas

2080

01:11:34,390 --> 01:11:32,080

in which way our genetics may have been

2081

01:11:38,390 --> 01:11:34,400

tinkered with in terms of mechanisms and

2082

01:11:41,110 --> 01:11:38,400

to what what towards which abilities

2083

01:11:43,910 --> 01:11:41,120

uh i don't know about that um

2084

01:11:45,910 --> 01:11:43,920

i know john ramirez does um

2085

01:11:47,750 --> 01:11:45,920

but uh i i don't have anything really to

2086

01:11:49,669 --> 01:11:47,760

add to that i just i just don't know i

2087

01:11:51,990 --> 01:11:49,679

think it's quite possible but um i've

2088

01:11:54,310 --> 01:11:52,000

got no evidence or you know to back up

2089

01:11:56,149 --> 01:11:54,320

anything that i would or would not say

2090

01:11:57,590 --> 01:11:56,159

and is that something you've heard about

2091

01:11:59,510 --> 01:11:57,600

in your and your time in the ic

2092

01:12:02,470 --> 01:11:59,520

community or you know and in alaska

2093

01:12:04,149 --> 01:12:02,480

nothing i heard about in the ic no

2094

01:12:05,750 --> 01:12:04,159

no but you know i can't discount it

2095

01:12:08,229 --> 01:12:05,760

because uh you know i've spoken to a lot

2096

01:12:09,590 --> 01:12:08,239

of people experiences i mean i'm an

2097

01:12:12,630 --> 01:12:09,600

experiencer but i've spoken to

2098

01:12:14,070 --> 01:12:12,640

experiences adductees um i can't

2099

01:12:15,430 --> 01:12:14,080

discount what people are saying because

2100

01:12:17,030 --> 01:12:15,440

there's simply too many people who are

2101

01:12:18,070 --> 01:12:17,040

saying the same thing

2102

01:12:19,910 --> 01:12:18,080

um

2103

01:12:21,669 --> 01:12:19,920

if you look at uh you know like a lot of

2104

01:12:24,310 --> 01:12:21,679

the research that's been done uh you

2105

01:12:25,669 --> 01:12:24,320

know whether it's john mack uh or others

2106

01:12:26,950 --> 01:12:25,679

there's just you know

2107

01:12:28,550 --> 01:12:26,960

there are too many people saying the

2108

01:12:30,149 --> 01:12:28,560

same thing so i i can't discount what

2109

01:12:32,229 --> 01:12:30,159

they say i just don't have any any

2110

01:12:33,830 --> 01:12:32,239

experience of it myself

2111

01:12:35,430 --> 01:12:33,840

but i keep an open mind

2112

01:12:37,270 --> 01:12:35,440

so we're talking about you know you're

2113

01:12:39,350 --> 01:12:37,280

you're meeting various officials you're

2114

01:12:41,830 --> 01:12:39,360

talking to various different sources

2115

01:12:43,510 --> 01:12:41,840

yeah you're an experimenter

2116

01:12:45,030 --> 01:12:43,520

does that

2117

01:12:47,189 --> 01:12:45,040

sway you've said you've got an open mind

2118

01:12:48,870 --> 01:12:47,199

but how much of your own experiences

2119

01:12:50,950 --> 01:12:48,880

change what you're doing don't take any

2120

01:12:52,950 --> 01:12:50,960

you know consideration as being as being

2121

01:12:55,990 --> 01:12:52,960

the truth

2122

01:12:57,830 --> 01:12:56,000

well put it this way um

2123

01:13:01,189 --> 01:12:57,840

from my own experiences

2124

01:13:02,950 --> 01:13:01,199

uh talking to colonel john alexander

2125

01:13:06,229 --> 01:13:02,960

and he's uh one of the only ones that

2126

01:13:09,030 --> 01:13:06,239

i've shared my experiences with

2127

01:13:10,790 --> 01:13:09,040

uh i believe completely

2128

01:13:12,390 --> 01:13:10,800

in the

2129

01:13:14,310 --> 01:13:12,400

hitchhiker theory

2130

01:13:16,830 --> 01:13:14,320

uh from skinwalker

2131

01:13:19,510 --> 01:13:16,840

because i had a similar experience

2132

01:13:21,750 --> 01:13:19,520

myself uh after

2133

01:13:23,430 --> 01:13:21,760

having written my first paper and having

2134

01:13:24,709 --> 01:13:23,440

been in kind of like deep discussions

2135

01:13:25,990 --> 01:13:24,719

with colonel john alexander about

2136

01:13:28,390 --> 01:13:26,000

skinwalker and i'll just leave it at

2137

01:13:29,830 --> 01:13:28,400

that but it left no doubt in my mind

2138

01:13:31,189 --> 01:13:29,840

that uh

2139

01:13:32,790 --> 01:13:31,199

you don't even have to have gone to

2140

01:13:34,630 --> 01:13:32,800

skinwalker you could just be talking

2141

01:13:37,110 --> 01:13:34,640

about it thinking about it writing about

2142

01:13:38,630 --> 01:13:37,120

it and you might have an experience

2143

01:13:41,669 --> 01:13:38,640

i can appreciate that no thanks for

2144

01:13:44,870 --> 01:13:41,679

thanks for sharing um craig i wanted to

2145

01:13:47,430 --> 01:13:44,880

know what evidence has frank seen of

2146

01:13:49,270 --> 01:13:47,440

holden's credentials holden isn't a an

2147

01:13:50,310 --> 01:13:49,280

official we've heard about in the in the

2148

01:13:51,830 --> 01:13:50,320

scene in the last couple of years

2149

01:13:54,229 --> 01:13:51,840

particularly uh i've heard about him and

2150

01:13:55,590 --> 01:13:54,239

i haven't checked him out um

2151
01:13:58,550 --> 01:13:55,600
it's just something that i haven't done

2152
01:14:00,709 --> 01:13:58,560
um i obviously check out all my sources

2153
01:14:02,310 --> 01:14:00,719
uh whether i speak to a scientist or

2154
01:14:04,550 --> 01:14:02,320
member of the intelligence community

2155
01:14:06,550 --> 01:14:04,560
it's uh

2156
01:14:08,310 --> 01:14:06,560
they always know somebody that i know

2157
01:14:09,830 --> 01:14:08,320
for example

2158
01:14:12,310 --> 01:14:09,840
when i first reached out to colonel john

2159
01:14:14,630 --> 01:14:12,320
alexander

2160
01:14:16,310 --> 01:14:14,640
i got his email from dr jack sarfati and

2161
01:14:18,310 --> 01:14:16,320
like they're not the best mates they're

2162
01:14:21,030 --> 01:14:18,320
not the best of mates by any by any

2163
01:14:23,910 --> 01:14:21,040

stretch right but uh i contacted colonel

2164

01:14:25,510 --> 01:14:23,920

john alexander and i said um i mean this

2165

01:14:27,590 --> 01:14:25,520

is kind of like my network and i said oh

2166

01:14:29,990 --> 01:14:27,600

um do you know uh you know colonel

2167

01:14:32,070 --> 01:14:30,000

charles beckwith who was the founder of

2168

01:14:33,750 --> 01:14:32,080

the american delta force and john

2169

01:14:35,669 --> 01:14:33,760

alexander is like oh yeah frank he goes

2170

01:14:37,830 --> 01:14:35,679

i know charlie beckwith uh you know we

2171

01:14:39,430 --> 01:14:37,840

were on a ranger course together in 1958

2172

01:14:41,830 --> 01:14:39,440

and i went oh that's great colonel i

2173

01:14:43,830 --> 01:14:41,840

said um because uh you know my old man

2174

01:14:46,070 --> 01:14:43,840

uh knows charlie beckwith from hereford

2175

01:14:49,430 --> 01:14:46,080

days because uh charlie beckwith went to

2176

01:14:51,590 --> 01:14:49,440

hereford uh to basically train with sas

2177

01:14:54,229 --> 01:14:51,600

so that was kind of like my my in

2178

01:14:56,390 --> 01:14:54,239

uh to colonel john alexander um so i've

2179

01:14:58,310 --> 01:14:56,400

got that kind of network uh and if i

2180

01:15:00,390 --> 01:14:58,320

speak to people i know the central

2181

01:15:03,270 --> 01:15:00,400

intelligence agency or the dia i've got

2182

01:15:05,189 --> 01:15:03,280

networks uh people who know me and will

2183

01:15:06,790 --> 01:15:05,199

introduce me to them and then once

2184

01:15:09,030 --> 01:15:06,800

you're introduced to them

2185

01:15:11,750 --> 01:15:09,040

then you know somebody new pops up and

2186

01:15:13,270 --> 01:15:11,760

uh you know uh i will always go back to

2187

01:15:14,790 --> 01:15:13,280

my context go do you know this person or

2188

01:15:17,830 --> 01:15:14,800

do you know of this person i'll go uh

2189

01:15:21,350 --> 01:15:17,840

yes he or she is legit or he or she is

2190

01:15:26,470 --> 01:15:24,390

and on this occasion uh holden isn't one

2191

01:15:28,470 --> 01:15:26,480

you've heard of yet or i've been able to

2192

01:15:29,830 --> 01:15:28,480

to clarify or quantify i haven't i

2193

01:15:31,910 --> 01:15:29,840

haven't even checked up on him i mean i

2194

01:15:33,270 --> 01:15:31,920

i really i he he hasn't been on my radar

2195

01:15:35,030 --> 01:15:33,280

at all

2196

01:15:36,630 --> 01:15:35,040

sorry i didn't answer your question no

2197

01:15:38,550 --> 01:15:36,640

no that's okay i just wanted to make

2198

01:15:40,550 --> 01:15:38,560

sure i hadn't missed that um and is it

2199

01:15:41,910 --> 01:15:40,560

someone that you plan on or is it just a

2200

01:15:44,709 --> 01:15:41,920

case of unless you come across them

2201

01:15:46,149 --> 01:15:44,719

yourself the there's no need to

2202

01:15:48,550 --> 01:15:46,159

no i'm to be honest i'm already that

2203

01:15:51,030 --> 01:15:48,560

borrowed i mean i've got so

2204

01:15:53,189 --> 01:15:51,040

i've got such great contacts um i

2205

01:15:54,630 --> 01:15:53,199

haven't been writing papers just because

2206

01:15:56,149 --> 01:15:54,640

i'm literally

2207

01:15:57,590 --> 01:15:56,159

on signal

2208

01:15:59,270 --> 01:15:57,600

um

2209

01:16:00,870 --> 01:15:59,280

and other means like every day i

2210

01:16:02,630 --> 01:16:00,880

probably spend about an hour to two

2211

01:16:05,270 --> 01:16:02,640

hours a day talking with my sources just

2212

01:16:07,510 --> 01:16:05,280

now i mean i've got enough material to

2213

01:16:09,510 --> 01:16:07,520

write like a couple of books

2214

01:16:11,510 --> 01:16:09,520

if they would let me but i would never

2215

01:16:13,350 --> 01:16:11,520

do that without uh you know without

2216

01:16:15,669 --> 01:16:13,360

their confidence to do so actually one

2217

01:16:17,750 --> 01:16:15,679

of my sources has said um

2218

01:16:19,669 --> 01:16:17,760

but they want to write a book with me um

2219

01:16:21,669 --> 01:16:19,679

which would be very very interesting but

2220

01:16:23,189 --> 01:16:21,679

they haven't come out of the closet yet

2221

01:16:24,550 --> 01:16:23,199

and um

2222

01:16:26,709 --> 01:16:24,560

you know obviously i'm never gonna

2223

01:16:28,550 --> 01:16:26,719

expose my sources unless they wanna be

2224

01:16:30,790 --> 01:16:28,560

but uh you know that that's the stage

2225

01:16:32,310 --> 01:16:30,800

that i'm at at the moment

2226

01:16:33,990 --> 01:16:32,320

maybe put something in the form of an

2227

01:16:35,830 --> 01:16:34,000

interesting narrative and a story that

2228

01:16:37,830 --> 01:16:35,840

you can uh you know tom delong seems to

2229

01:16:39,110 --> 01:16:37,840

have done that quite successfully so i'm

2230

01:16:40,950 --> 01:16:39,120

sure there's room for it from a british

2231

01:16:42,550 --> 01:16:40,960

perspective

2232

01:16:43,990 --> 01:16:42,560

yeah but you know me andy i like to do

2233

01:16:45,110 --> 01:16:44,000

things that are kind of like original

2234

01:16:46,950 --> 01:16:45,120

and i like to think that you know my

2235

01:16:49,270 --> 01:16:46,960

first paper my second paper were

2236

01:16:50,790 --> 01:16:49,280

original i want to do original things

2237

01:16:52,070 --> 01:16:50,800

other people haven't covered

2238

01:16:54,550 --> 01:16:52,080

um

2239

01:16:55,590 --> 01:16:54,560

you know i do do kind of like uh uap

2240

01:16:57,430 --> 01:16:55,600

news

2241

01:16:59,669 --> 01:16:57,440

uh you know i covered like gila brand

2242

01:17:01,110 --> 01:16:59,679

amendment and things like that but uh

2243

01:17:03,590 --> 01:17:01,120

i think i'm more kind of like a deep

2244

01:17:05,990 --> 01:17:03,600

dive kind of bloke

2245

01:17:07,189 --> 01:17:06,000

yeah no i appreciate that um and listen

2246

01:17:09,910 --> 01:17:07,199

let's get back into the questions

2247

01:17:11,590 --> 01:17:09,920

christopher conrady um christopher said

2248

01:17:13,830 --> 01:17:11,600

stories about sightings by army

2249

01:17:15,910 --> 01:17:13,840

personnel seem to always end with i

2250

01:17:17,669 --> 01:17:15,920

reported this to my superior and was

2251

01:17:19,110 --> 01:17:17,679

told to keep it quiet it never happened

2252

01:17:20,470 --> 01:17:19,120

and you've kind of mentioned that before

2253

01:17:22,470 --> 01:17:20,480

with some of the pilot stuff going

2254

01:17:24,950 --> 01:17:22,480

missing often with evidence being

2255

01:17:26,790 --> 01:17:24,960

destroyed in the process um i wonder if

2256

01:17:28,790 --> 01:17:26,800

frank wants to speculate as to why this

2257

01:17:30,709 --> 01:17:28,800

culture seems to permeate all levels of

2258

01:17:32,310 --> 01:17:30,719

the military why would a lower level

2259

01:17:34,709 --> 01:17:32,320

officer really care to make these

2260

01:17:36,630 --> 01:17:34,719

observations disappear and care to the

2261

01:17:38,950 --> 01:17:36,640

degree of destroying evidence and going

2262

01:17:42,070 --> 01:17:38,960

way outside the protocol the risk reward

2263

01:17:44,709 --> 01:17:43,110

uh

2264

01:17:46,550 --> 01:17:44,719

the truth is i don't know it would have

2265

01:17:48,390 --> 01:17:46,560

to be on a case-by-case basis obviously

2266

01:17:49,990 --> 01:17:48,400

historically there's been um

2267

01:17:53,990 --> 01:17:50,000

like a massive stigma

2268

01:17:54,790 --> 01:17:54,000

uh associated with uh uap sightings

2269

01:17:56,390 --> 01:17:54,800

uh

2270

01:17:57,430 --> 01:17:56,400

one thing i will say

2271

01:17:59,430 --> 01:17:57,440

is

2272

01:18:00,630 --> 01:17:59,440

to my knowledge and you can read between

2273

01:18:04,790 --> 01:18:00,640

the lines here

2274

01:18:06,070 --> 01:18:04,800

uh that hasn't existed in uh in the uk

2275

01:18:08,149 --> 01:18:06,080

okay

2276

01:18:09,910 --> 01:18:08,159

uh people can report things i can't just

2277

01:18:11,350 --> 01:18:09,920

say what they reported but people have

2278

01:18:14,229 --> 01:18:11,360

reported things

2279

01:18:16,149 --> 01:18:14,239

um but uh yeah stigma has existed for

2280

01:18:18,790 --> 01:18:16,159

years and years and years so

2281

01:18:21,030 --> 01:18:18,800

you know if you want to advance um i

2282

01:18:23,990 --> 01:18:21,040

mean look at look at bob salas i mean he

2283

01:18:26,550 --> 01:18:24,000

reported his

2284

01:18:29,990 --> 01:18:26,560

his experiences and what happened at

2285

01:18:32,229 --> 01:18:30,000

at his missile silo right yeah and

2286

01:18:35,110 --> 01:18:32,239

it was taken seriously and he wasn't

2287

01:18:36,630 --> 01:18:35,120

removed from his post

2288

01:18:38,790 --> 01:18:36,640

okay but he wasn't told anything about

2289

01:18:40,390 --> 01:18:38,800

it either so you know that's what you're

2290

01:18:43,750 --> 01:18:40,400

dealing with

2291

01:18:45,590 --> 01:18:43,760

and that's fair um john coughlin asks

2292

01:18:48,070 --> 01:18:45,600

does frank harbor thoughts on the

2293

01:18:50,630 --> 01:18:48,080

deafening silence from the u.s air force

2294

01:18:52,630 --> 01:18:50,640

more conspicuous by the minute focuses

2295

01:18:54,550 --> 01:18:52,640

have an increasing consideration that it

2296

01:18:58,390 --> 01:18:54,560

is the nexus for historical and

2297

01:18:59,510 --> 01:18:58,400

contemporary denial of the phenomena

2298

01:19:01,189 --> 01:18:59,520

well i think there's less deafening

2299

01:19:02,149 --> 01:19:01,199

silence now from the u.s air force with

2300

01:19:05,030 --> 01:19:02,159

the

2301

01:19:07,590 --> 01:19:05,040

publication of

2302

01:19:09,110 --> 01:19:07,600

skinwalkers the pentagon because

2303

01:19:10,310 --> 01:19:09,120

when they're talking about the interview

2304

01:19:11,270 --> 01:19:10,320

they had with

2305

01:19:12,550 --> 01:19:11,280

air force officers special

2306

01:19:14,390 --> 01:19:12,560

investigations

2307

01:19:16,070 --> 01:19:14,400

special projects

2308

01:19:17,750 --> 01:19:16,080

they were told

2309

01:19:19,990 --> 01:19:17,760

that air force officers special

2310

01:19:22,390 --> 01:19:20,000

investigations had investigated the

2311

01:19:24,550 --> 01:19:22,400

northern tier sightings in the 1970s

2312

01:19:25,590 --> 01:19:24,560

so i think slowly this is coming out but

2313

01:19:27,590 --> 01:19:25,600

um

2314

01:19:28,630 --> 01:19:27,600

what i still find intriguing is you know

2315

01:19:31,510 --> 01:19:28,640

in uh

2316

01:19:33,110 --> 01:19:31,520

2004 the nimitz case

2317

01:19:34,790 --> 01:19:33,120

who was taking the hard drives right so

2318

01:19:38,229 --> 01:19:34,800

these were air force officers being

2319

01:19:39,990 --> 01:19:38,239

helicoptered out to battle group ships

2320

01:19:41,510 --> 01:19:40,000

air force officers taking hard drives

2321

01:19:43,910 --> 01:19:41,520

from the hawkeye

2322

01:19:45,510 --> 01:19:43,920

from the aircraft and from the

2323

01:19:47,910 --> 01:19:45,520

the princeton

2324

01:19:49,189 --> 01:19:47,920

so who were these air force officers

2325

01:19:51,430 --> 01:19:49,199

were they air force officers special

2326

01:19:53,189 --> 01:19:51,440

investigations and then who was carrying

2327

01:19:56,870 --> 01:19:53,199

out uh you know like the forensic

2328

01:19:58,790 --> 01:19:56,880

analysis of uh of the the data sets that

2329

01:20:01,110 --> 01:19:58,800

they had and and that still hasn't come

2330

01:20:06,310 --> 01:20:03,430

do you hold the belief that with the

2331

01:20:07,430 --> 01:20:06,320

potential new office and the aoi msg

2332

01:20:09,350 --> 01:20:07,440

that

2333

01:20:11,430 --> 01:20:09,360

the air force and the navy

2334

01:20:13,590 --> 01:20:11,440

they may start working a little bit more

2335

01:20:14,870 --> 01:20:13,600

together or is that still going to be

2336

01:20:16,950 --> 01:20:14,880

something they're going to they're going

2337

01:20:19,830 --> 01:20:16,960

to fight as much as possible

2338

01:20:21,270 --> 01:20:19,840

as pertains to this subject of course

2339

01:20:24,390 --> 01:20:21,280

well i think there's always going to be

2340

01:20:26,550 --> 01:20:24,400

professional rivalry uh because uh you

2341

01:20:28,149 --> 01:20:26,560

know the navy has you know a huge amount

2342

01:20:29,430 --> 01:20:28,159

of aircraft with the marine corps as

2343

01:20:30,870 --> 01:20:29,440

well

2344

01:20:32,870 --> 01:20:30,880

um

2345

01:20:34,550 --> 01:20:32,880

you got to look at it in terms of

2346

01:20:36,310 --> 01:20:34,560

um

2347

01:20:39,110 --> 01:20:36,320

the army has the american army has

2348

01:20:41,830 --> 01:20:39,120

aircraft uh the air force has aircraft

2349

01:20:43,910 --> 01:20:41,840

right an aircraft fleet uh the navy has

2350

01:20:45,189 --> 01:20:43,920

an aircraft fleet the marine corps have

2351

01:20:47,189 --> 01:20:45,199

an aircraft fleet although they part of

2352

01:20:50,070 --> 01:20:47,199

the navy and also

2353

01:20:52,310 --> 01:20:50,080

um the coast guard have an aircraft

2354

01:20:55,030 --> 01:20:52,320

fleet okay so it's always a competition

2355

01:20:56,790 --> 01:20:55,040

for resources uh i think though that

2356

01:20:58,950 --> 01:20:56,800

with i would like to think

2357

01:21:01,830 --> 01:20:58,960

that with uh

2358

01:21:02,870 --> 01:21:01,840

the current india as it has been signed

2359

01:21:04,390 --> 01:21:02,880

off

2360

01:21:05,990 --> 01:21:04,400

that now

2361

01:21:08,870 --> 01:21:06,000

uh because it's it's basically a

2362

01:21:10,629 --> 01:21:08,880

transposition of the different um

2363

01:21:13,110 --> 01:21:10,639

different service branches also

2364

01:21:15,750 --> 01:21:13,120

interlock with different uh members of

2365

01:21:17,990 --> 01:21:15,760

the american intelligence community so

2366

01:21:19,110 --> 01:21:18,000

uh army is part of the uh army

2367

01:21:20,550 --> 01:21:19,120

intelligence as part of the the

2368

01:21:21,910 --> 01:21:20,560

intelligence community

2369

01:21:23,669 --> 01:21:21,920

coast guard intelligence is part of the

2370

01:21:24,950 --> 01:21:23,679

intelligence community uh naval

2371

01:21:26,790 --> 01:21:24,960

intelligence as part of the intelligence

2372

01:21:28,310 --> 01:21:26,800

community uh

2373

01:21:29,910 --> 01:21:28,320

marine corps intelligence as part of the

2374

01:21:31,189 --> 01:21:29,920

intelligence community right air force

2375

01:21:33,669 --> 01:21:31,199

intelligence as part of the intelligence

2376

01:21:36,390 --> 01:21:33,679

community and so on so now that they've

2377

01:21:38,390 --> 01:21:36,400

been mandated by congress uh to work

2378

01:21:39,750 --> 01:21:38,400

together uh i think they will work

2379

01:21:40,550 --> 01:21:39,760

together better because if they don't

2380

01:21:44,390 --> 01:21:40,560

then

2381

01:21:45,830 --> 01:21:44,400

their uh senior uniform members are

2382

01:21:47,750 --> 01:21:45,840

gonna be have to uh start asking

2383

01:21:49,669 --> 01:21:47,760

questions

2384

01:21:51,270 --> 01:21:49,679

peter wants to know what do you guys

2385

01:21:53,030 --> 01:21:51,280

think of what will come of john

2386

01:21:55,350 --> 01:21:53,040

greenwald from the black vaults foia

2387

01:21:57,430 --> 01:21:55,360

appeal for the uap task force info the

2388

01:21:59,510 --> 01:21:57,440

request it's due on january third or

2389

01:22:00,629 --> 01:21:59,520

fourth and also happy new year so happy

2390

01:22:02,709 --> 01:22:00,639

new year pr

2391

01:22:05,910 --> 01:22:02,719

yeah happy new year brother um i've got

2392

01:22:07,990 --> 01:22:05,920

no idea but uh greenwald is a top guy

2393

01:22:09,990 --> 01:22:08,000

and uh i wish him all the best with that

2394

01:22:11,830 --> 01:22:10,000

but i've got no idea about an individual

2395

01:22:13,669 --> 01:22:11,840

foil request

2396

01:22:15,750 --> 01:22:13,679

i know i was just double checking that

2397

01:22:18,470 --> 01:22:15,760

literally as we were recording john had

2398

01:22:19,990 --> 01:22:18,480

put online that uh he's had a reply to

2399

01:22:22,229 --> 01:22:20,000

some stuff but i've not managed to check

2400

01:22:23,510 --> 01:22:22,239

that out yet um so that's maybe

2401

01:22:25,669 --> 01:22:23,520

something we can follow up on in a

2402

01:22:27,430 --> 01:22:25,679

future pod just in case it's the the

2403

01:22:30,070 --> 01:22:27,440

response that he was expecting but yeah

2404

01:22:32,310 --> 01:22:30,080

thanks again peter uh ganosis says for

2405

01:22:34,470 --> 01:22:32,320

frank do you have a favorite case or

2406

01:22:36,790 --> 01:22:34,480

based on what you know a most credible

2407

01:22:43,430 --> 01:22:36,800

case that involves not only a craft but

2408

01:22:43,440 --> 01:22:46,790

um

2409

01:22:52,709 --> 01:22:49,189

that's a difficult one i mean i say

2410

01:22:53,830 --> 01:22:52,719

my favorite case is the 1976 tehran case

2411

01:22:55,910 --> 01:22:53,840

um

2412

01:22:58,709 --> 01:22:55,920

with fighter interceptors

2413

01:22:59,990 --> 01:22:58,719

trying to intercept uap

2414

01:23:01,510 --> 01:23:00,000

i don't have a favorite case that

2415

01:23:03,110 --> 01:23:01,520

involves an entity

2416

01:23:05,189 --> 01:23:03,120

um although

2417

01:23:07,510 --> 01:23:05,199

that south american one

2418

01:23:09,350 --> 01:23:07,520

that film that jack valet did

2419

01:23:11,510 --> 01:23:09,360

with that guy on the pampers right that

2420

01:23:15,750 --> 01:23:11,520

was very very compelling

2421

01:23:18,790 --> 01:23:15,760

um so that that's an awesome case

2422

01:23:21,030 --> 01:23:18,800

have you seen frank the the turkey ufo

2423

01:23:22,950 --> 01:23:21,040

footage as it's known

2424

01:23:25,669 --> 01:23:22,960

yeah i have seen it yeah what are your

2425

01:23:30,550 --> 01:23:28,550

um i'll be honest i'm not a

2426

01:23:33,189 --> 01:23:30,560

you know i'm not an imagery specialist

2427

01:23:35,669 --> 01:23:33,199

um i saw

2428

01:23:36,709 --> 01:23:35,679

uh what's the name of that air force guy

2429

01:23:38,229 --> 01:23:36,719

um

2430

01:23:40,470 --> 01:23:38,239

he did a breakdown of it he was very

2431

01:23:42,149 --> 01:23:40,480

very good chris lito

2432

01:23:44,070 --> 01:23:42,159

yeah yeah yeah chris lisa yeah yeah and

2433

01:23:45,590 --> 01:23:44,080

i actually chatted to him um yeah he did

2434

01:23:47,270 --> 01:23:45,600

a very good breakdown on it i don't know

2435

01:23:49,189 --> 01:23:47,280

enough about it but uh it seems very

2436

01:23:50,629 --> 01:23:49,199

compelling based on the work that he did

2437

01:23:52,229 --> 01:23:50,639

i mean um you know he's a former

2438

01:23:53,990 --> 01:23:52,239

lieutenant colonel on the us air force

2439

01:23:55,669 --> 01:23:54,000

if he pays attention to it then it's

2440

01:23:56,709 --> 01:23:55,679

worth it then it's worth whether you've

2441

01:23:58,070 --> 01:23:56,719

studied

2442

01:23:59,669 --> 01:23:58,080

and if people want to go back and check

2443

01:24:01,750 --> 01:23:59,679

i interviewed chris a few months ago as

2444

01:24:03,189 --> 01:24:01,760

well and he's a good guy he's got a good

2445

01:24:04,550 --> 01:24:03,199

channel and definitely be checking that

2446

01:24:06,629 --> 01:24:04,560

out folks

2447

01:24:08,310 --> 01:24:06,639

he's sounded i mean he comes at it from

2448

01:24:09,830 --> 01:24:08,320

you know he was an air safety expert

2449

01:24:11,590 --> 01:24:09,840

apart from being you know uh like a you

2450

01:24:13,750 --> 01:24:11,600

know basically a you know top pilot an

2451

01:24:15,510 --> 01:24:13,760

air safety expert

2452

01:24:16,470 --> 01:24:15,520

and uh you know an aerial investigator

2453

01:24:18,390 --> 01:24:16,480

so

2454

01:24:20,390 --> 01:24:18,400

you know he's a very very credible guy

2455

01:24:21,990 --> 01:24:20,400

to be investigating these things yeah i

2456

01:24:23,990 --> 01:24:22,000

think on that interview we we've done

2457

01:24:26,870 --> 01:24:24,000

about 30 to 40 minutes just on his

2458

01:24:28,709 --> 01:24:26,880

background before of any ufo chat and we

2459

01:24:31,750 --> 01:24:28,719

left in just because of the

2460

01:24:33,830 --> 01:24:31,760

extensiveness of his experience so um

2461

01:24:35,270 --> 01:24:33,840

like you say that that does help um not

2462

01:24:36,709 --> 01:24:35,280

to say it means he's definitely right

2463

01:24:38,310 --> 01:24:36,719

but like you say from a credibility

2464

01:24:40,470 --> 01:24:38,320

point of view he's presenting the best

2465

01:24:42,149 --> 01:24:40,480

evidence he has in front of him which is

2466

01:24:43,750 --> 01:24:42,159

which is well he to me he's a lot more

2467

01:24:45,669 --> 01:24:43,760

credible than skeptics i mean he's

2468

01:24:47,270 --> 01:24:45,679

actually done the business he's actually

2469

01:24:49,510 --> 01:24:47,280

uh you know flown his aircraft into

2470

01:24:51,270 --> 01:24:49,520

harm's way right so um absolutely yeah

2471

01:24:52,870 --> 01:24:51,280

you know and protect the skies above us

2472

01:24:54,629 --> 01:24:52,880

so uh you know guy like that's always

2473

01:24:56,790 --> 01:24:54,639

gonna have my respect

2474

01:24:58,870 --> 01:24:56,800

um speaking of respect that nathan who

2475

01:25:01,510 --> 01:24:58,880

is a long-time listener and also co-host

2476

01:25:04,550 --> 01:25:01,520

on a few shows now um he says i pretty

2477

01:25:06,550 --> 01:25:04,560

much agree with frank that if the us has

2478

01:25:08,550 --> 01:25:06,560

some sort of advanced tech stemming from

2479

01:25:10,229 --> 01:25:08,560

the study of the phenomenon that such

2480

01:25:13,189 --> 01:25:10,239

tech should remain in the black as long

2481

01:25:15,110 --> 01:25:13,199

as possible however however i wonder to

2482

01:25:17,510 --> 01:25:15,120

what degree he has heard or suspects

2483

01:25:18,870 --> 01:25:17,520

that the others may push a disclosure

2484

01:25:21,030 --> 01:25:18,880

timeline regardless of what the

2485

01:25:24,870 --> 01:25:21,040

government may prefer has he heard of

2486

01:25:27,189 --> 01:25:24,880

any intel suggesting this possibility

2487

01:25:29,510 --> 01:25:27,199

i haven't no

2488

01:25:31,189 --> 01:25:29,520

uh it also follows up to what degree do

2489

01:25:33,030 --> 01:25:31,199

you think that others themselves may be

2490

01:25:35,750 --> 01:25:33,040

engaged with the government are they

2491

01:25:37,750 --> 01:25:35,760

passively or actively engaged

2492

01:25:39,590 --> 01:25:37,760

i believe very deeply engaged but i've

2493

01:25:41,189 --> 01:25:39,600

got no proof of that

2494

01:25:42,870 --> 01:25:41,199

and is that again just off the back of

2495

01:25:45,030 --> 01:25:42,880

like you mentioned sources mentioning

2496

01:25:47,350 --> 01:25:45,040

temporal agents that's as far as you can

2497

01:25:50,070 --> 01:25:47,360

really go in terms of i've been told but

2498

01:25:51,669 --> 01:25:50,080

there's no way correct

2499

01:25:53,590 --> 01:25:51,679

that's that's totally fair and again

2500

01:25:55,590 --> 01:25:53,600

thanks to nathan for the question

2501
01:25:58,550 --> 01:25:55,600
jared how will the new language and the

2502
01:26:00,950 --> 01:25:58,560
ndaa um about sharing information with

2503
01:26:02,709 --> 01:26:00,960
foreign partners change information

2504
01:26:04,149 --> 01:26:02,719
sharing we've been told information

2505
01:26:06,790 --> 01:26:04,159
sharing has already been happening

2506
01:26:08,470 --> 01:26:06,800
through five eyes etc

2507
01:26:10,310 --> 01:26:08,480
yeah i mean i think information sharing

2508
01:26:11,990 --> 01:26:10,320
especially between uh you know great

2509
01:26:13,669 --> 01:26:12,000
britain united states um you know we're

2510
01:26:15,270 --> 01:26:13,679
the closest allies right a lot of people

2511
01:26:16,550 --> 01:26:15,280
think that uh israel is america's

2512
01:26:18,709 --> 01:26:16,560
closest ally but actually it's great

2513
01:26:20,460 --> 01:26:18,719

britain um

2514

01:26:21,830 --> 01:26:20,470

if you look back to rendelsham

2515

01:26:24,470 --> 01:26:21,840

[Music]

2516

01:26:26,950 --> 01:26:24,480

that sharing has been on uap has been uh

2517

01:26:28,709 --> 01:26:26,960

you know right from the start uh so i

2518

01:26:30,550 --> 01:26:28,719

think this is just really formalizing a

2519

01:26:31,669 --> 01:26:30,560

relationship that's already there

2520

01:26:33,750 --> 01:26:31,679

um

2521

01:26:35,750 --> 01:26:33,760

ross cool has also got things to say

2522

01:26:37,350 --> 01:26:35,760

about that but i think

2523

01:26:39,669 --> 01:26:37,360

if you look at the deeper relationship

2524

01:26:41,350 --> 01:26:39,679

this this is what's in the ndia is

2525

01:26:43,189 --> 01:26:41,360

really just formalizing what's already

2526

01:26:45,270 --> 01:26:43,199

been there for years and years and i

2527

01:26:48,149 --> 01:26:45,280

think that's the language in the nda is

2528

01:26:51,669 --> 01:26:48,159

just a means for congress to formalize

2529

01:26:53,590 --> 01:26:51,679

and to say to uh the us i see in the dod

2530

01:26:55,430 --> 01:26:53,600

uh you will tell us what's going on with

2531

01:26:57,350 --> 01:26:55,440

allies

2532

01:26:58,550 --> 01:26:57,360

jack thomas final question he had a

2533

01:27:01,030 --> 01:26:58,560

couple of questions of which we've

2534

01:27:03,030 --> 01:27:01,040

touched on already but he mentioned the

2535

01:27:04,550 --> 01:27:03,040

the cataclysm comments that you've made

2536

01:27:06,310 --> 01:27:04,560

and we've just talked about

2537

01:27:09,110 --> 01:27:06,320

he wants to know do you think that the

2538

01:27:11,189 --> 01:27:09,120

appetite for what seems to be a part

2539

01:27:15,590 --> 01:27:11,199

disclosure from the us government is

2540

01:27:21,030 --> 01:27:18,550

i'm told yes maybe um but again i've got

2541

01:27:22,629 --> 01:27:21,040

no proof for that uh i keep an open mind

2542

01:27:23,990 --> 01:27:22,639

i wish i could

2543

01:27:25,910 --> 01:27:24,000

say more but i can't it would just be

2544

01:27:27,430 --> 01:27:25,920

speculation

2545

01:27:29,110 --> 01:27:27,440

no that's totally fair and listen if you

2546

01:27:30,709 --> 01:27:29,120

ever want to speculate people do enjoy

2547

01:27:32,310 --> 01:27:30,719

it but i know frank and i've heard you

2548

01:27:34,070 --> 01:27:32,320

in other interviews that you try and

2549

01:27:37,350 --> 01:27:34,080

keep it as evidence-based as possible

2550

01:27:39,270 --> 01:27:37,360

which which i can totally respect

2551

01:27:41,110 --> 01:27:39,280

yeah exactly mate

2552

01:27:42,870 --> 01:27:41,120

i want to finish off with a quick fire

2553

01:27:45,030 --> 01:27:42,880

round i've got quite a few topics here

2554

01:27:46,950 --> 01:27:45,040

that i want to touch on you can see as

2555

01:27:48,550 --> 01:27:46,960

little or as much on each one as you

2556

01:27:50,870 --> 01:27:48,560

like or you can pass if you don't have

2557

01:27:52,390 --> 01:27:50,880

any particular thoughts as we have been

2558

01:27:54,229 --> 01:27:52,400

recording and we'll just take a quick

2559

01:27:55,990 --> 01:27:54,239

break i have one more listener question

2560

01:27:57,990 --> 01:27:56,000

sent in from longtime listener dave

2561

01:27:59,270 --> 01:27:58,000

smithers then i hate to mess up any of

2562

01:28:01,750 --> 01:27:59,280

dave's questions

2563

01:28:03,669 --> 01:28:01,760

dave says frank i recently read about a

2564

01:28:05,590 --> 01:28:03,679

doctor dan burriss formerly known as

2565

01:28:08,149 --> 01:28:05,600

crane who featured in a book by william

2566

01:28:10,310 --> 01:28:08,159

hamilton called project aquarius to cut

2567

01:28:13,189 --> 01:28:10,320

a long story short dr burriss claimed to

2568

01:28:14,790 --> 01:28:13,199

work at the s4 facility at area 51 and

2569

01:28:17,030 --> 01:28:14,800

claims to have come into contact with

2570

01:28:19,030 --> 01:28:17,040

future human nordics and greys in a

2571

01:28:21,430 --> 01:28:19,040

conflict trying to prevent or allow a

2572

01:28:23,350 --> 01:28:21,440

catastrophe in the near future it sounds

2573

01:28:25,189 --> 01:28:23,360

very similar to your recent accounts and

2574

01:28:27,910 --> 01:28:25,199

i wondered if this was related to the

2575

01:28:30,070 --> 01:28:27,920

info you had heard or and was indeed the

2576

01:28:33,590 --> 01:28:30,080

source of it

2577

01:28:35,110 --> 01:28:33,600

cheers dave and hi um

2578

01:28:37,110 --> 01:28:35,120

i haven't specifically heard about that

2579

01:28:38,390 --> 01:28:37,120

case but uh it does sound similar to

2580

01:28:39,750 --> 01:28:38,400

what i've been told

2581

01:28:41,910 --> 01:28:39,760

um

2582

01:28:42,709 --> 01:28:41,920

i don't know i'm just i'm very wary when

2583

01:28:45,110 --> 01:28:42,719

you know

2584

01:28:46,070 --> 01:28:45,120

people talk about graves or nordics i

2585

01:28:49,110 --> 01:28:46,080

bow

2586

01:28:51,110 --> 01:28:49,120

uh to the superior knowledge of my su

2587

01:28:52,950 --> 01:28:51,120

colleague dr michael masters

2588

01:28:55,270 --> 01:28:52,960

uh in terms of you know hominin

2589

01:28:56,470 --> 01:28:55,280

evolution okay i'm not scientifically

2590

01:28:59,510 --> 01:28:56,480

equipped to deal with that kind of

2591

01:29:01,030 --> 01:28:59,520

equation um but uh you know all i can do

2592

01:29:02,470 --> 01:29:01,040

is keep an open mind but it does sound

2593

01:29:04,070 --> 01:29:02,480

what you say very similar to what i've

2594

01:29:05,669 --> 01:29:04,080

heard

2595

01:29:07,189 --> 01:29:05,679

frank and i'm going to be selfish and

2596

01:29:09,590 --> 01:29:07,199

put on my own listener question here

2597

01:29:11,030 --> 01:29:09,600

it's my podcast don't forget to do that

2598

01:29:12,310 --> 01:29:11,040

we've not really touched on this and as

2599

01:29:13,669 --> 01:29:12,320

best you can

2600

01:29:15,910 --> 01:29:13,679

and i know you've seen the type who

2601

01:29:17,750 --> 01:29:15,920

doesn't like to really speculate or or

2602

01:29:18,870 --> 01:29:17,760

give you know off the cuff opinion but i

2603

01:29:20,550 --> 01:29:18,880

have to ask

2604

01:29:21,590 --> 01:29:20,560

when we come into the subject it's

2605

01:29:23,590 --> 01:29:21,600

usually

2606

01:29:25,430 --> 01:29:23,600

other aliens coming from other planets

2607

01:29:28,310 --> 01:29:25,440

and little flying saucers yes or no and

2608

01:29:30,470 --> 01:29:28,320

that's a fascinating question anyway

2609

01:29:33,189 --> 01:29:30,480

where you're at now right at the last

2610

01:29:35,669 --> 01:29:33,199

last days and hours of 2021

2611

01:29:36,950 --> 01:29:35,679

what do you think in your opinion is the

2612

01:29:38,790 --> 01:29:36,960

most likely

2613

01:29:40,470 --> 01:29:38,800

happening behind the phenomenon if

2614

01:29:42,629 --> 01:29:40,480

someone asked you in a few sentences to

2615

01:29:44,149 --> 01:29:42,639

sum up you know aliens do you believe in

2616

01:29:45,910 --> 01:29:44,159

all that what's going on what would you

2617

01:29:50,229 --> 01:29:45,920

say

2618

01:29:52,470 --> 01:29:50,239

yes no and i don't know um

2619

01:29:54,550 --> 01:29:52,480

i can keep a completely open mind

2620

01:29:56,470 --> 01:29:54,560

uh i've asked some of the most

2621

01:29:57,830 --> 01:29:56,480

intelligent people that i know like dr

2622

01:30:00,070 --> 01:29:57,840

michael masters

2623

01:30:01,430 --> 01:30:00,080

uh you know david mahler colonel john

2624

01:30:02,709 --> 01:30:01,440

alexander

2625

01:30:04,830 --> 01:30:02,719

um

2626

01:30:07,910 --> 01:30:04,840

you know rich hoffman who's been

2627

01:30:10,229 --> 01:30:07,920

studying uh the phenomena since uh you

2628

01:30:12,310 --> 01:30:10,239

know since before blue book started

2629

01:30:15,350 --> 01:30:12,320

i keep it to completely open mind uh

2630

01:30:16,950 --> 01:30:15,360

extraterrestrial hypothesis certainly uh

2631

01:30:19,590 --> 01:30:16,960

ultra-terrestrial

2632

01:30:22,310 --> 01:30:19,600

uh extra-dimensional uh all those are

2633

01:30:24,070 --> 01:30:22,320

possible just look at skinwalker uh i i

2634

01:30:26,629 --> 01:30:24,080

keep an open mind i don't know i don't

2635

01:30:28,709 --> 01:30:26,639

have the answers unfortunately um

2636

01:30:30,390 --> 01:30:28,719

i'd like to know one day

2637

01:30:31,910 --> 01:30:30,400

not yet if you had the answers that

2638

01:30:34,149 --> 01:30:31,920

would be a hell of a best-selling book

2639

01:30:35,910 --> 01:30:34,159

i'm sure that would be original um

2640

01:30:38,070 --> 01:30:35,920

listen let's finish off with a quick

2641

01:30:39,669 --> 01:30:38,080

fire round again few words few sentences

2642

01:30:41,669 --> 01:30:39,679

on each of these

2643

01:30:43,350 --> 01:30:41,679

one is what are your thoughts on

2644

01:30:44,950 --> 01:30:43,360

skinwalker ranch and what's happening

2645

01:30:46,830 --> 01:30:44,960

there

2646

01:30:49,830 --> 01:30:46,840

i think skinwalk is uh absolutely

2647

01:30:51,910 --> 01:30:49,840

phenomenal um i absolutely believe uh

2648

01:30:54,870 --> 01:30:51,920

what we're being told in terms of the

2649

01:30:56,229 --> 01:30:54,880

shows um and i think it's uh highly

2650

01:30:58,470 --> 01:30:56,239

credible the research they're doing

2651

01:30:59,910 --> 01:30:58,480

there i think that we just see uh you

2652

01:31:01,189 --> 01:30:59,920

know probably ten percent or five

2653

01:31:02,950 --> 01:31:01,199

percent of what they're actually going

2654

01:31:06,629 --> 01:31:02,960

through the

2655

01:31:08,070 --> 01:31:06,639

the role of consciousness and uaps

2656

01:31:10,229 --> 01:31:08,080

um yeah that's another excellent

2657

01:31:12,550 --> 01:31:10,239

question um i think consciousness plays

2658

01:31:15,030 --> 01:31:12,560

a very big part um i don't know to what

2659

01:31:16,709 --> 01:31:15,040

extent uh but uh

2660

01:31:20,070 --> 01:31:16,719

you know i i want to find out more but i

2661

01:31:22,709 --> 01:31:20,080

believe uh it could be you know uh

2662

01:31:26,470 --> 01:31:22,719

we are being you know fooled by

2663

01:31:28,950 --> 01:31:26,480

uh some kind of uh you know um you know

2664

01:31:30,629 --> 01:31:28,960

our own psychological prejudices towards

2665

01:31:33,750 --> 01:31:30,639

it or some kind of technology that

2666

01:31:36,390 --> 01:31:33,760

basically influences us or some kind of

2667

01:31:37,830 --> 01:31:36,400

mind to mind communication uh that uh

2668

01:31:39,430 --> 01:31:37,840

you know that gives us images that

2669

01:31:42,070 --> 01:31:39,440

aren't actually there uh some of it may

2670

01:31:45,110 --> 01:31:42,080

be real some of it maybe not

2671

01:31:47,590 --> 01:31:45,120

your thoughts on the abduction phenomena

2672

01:31:50,310 --> 01:31:47,600

i keep a completely open mind um i've

2673

01:31:52,149 --> 01:31:50,320

spoken with a number of other adoptees

2674

01:31:54,790 --> 01:31:52,159

um

2675

01:31:58,629 --> 01:31:54,800

including my mother i have to say and uh

2676

01:32:00,070 --> 01:31:58,639

i believe it completely credible

2677

01:32:02,149 --> 01:32:00,080

is that something you've talked about in

2678

01:32:03,830 --> 01:32:02,159

the past or is that one of those that

2679

01:32:05,189 --> 01:32:03,840

you're you go as far as i haven't talked

2680

01:32:07,030 --> 01:32:05,199

about in the past no but i believe it's

2681

01:32:09,110 --> 01:32:07,040

absolutely incredible i mean uh

2682

01:32:10,390 --> 01:32:09,120

i'm an experiencer there's just far too

2683

01:32:11,830 --> 01:32:10,400

many people

2684

01:32:13,350 --> 01:32:11,840

and i've talked to people credible

2685

01:32:15,189 --> 01:32:13,360

military people as well

2686

01:32:16,470 --> 01:32:15,199

well i mean you know i would take

2687

01:32:19,350 --> 01:32:16,480

anybody who's credible unless they're a

2688

01:32:21,270 --> 01:32:19,360

proven charlatan and bullshitter um

2689

01:32:23,270 --> 01:32:21,280

i've i've spoken to far too many people

2690

01:32:25,189 --> 01:32:23,280

who've had abduction experiences uh not

2691

01:32:27,270 --> 01:32:25,199

to take it seriously it's like you can't

2692

01:32:29,270 --> 01:32:27,280

have you know hundreds of thousands or

2693

01:32:31,110 --> 01:32:29,280

millions of people making this making

2694

01:32:33,750 --> 01:32:31,120

these things up and making up the same

2695

01:32:36,229 --> 01:32:33,760

kind of claims it's just not possible

2696

01:32:39,350 --> 01:32:36,239

so i find it highly credible

2697

01:32:43,510 --> 01:32:39,360

your thoughts on cattle mutilations

2698

01:32:45,910 --> 01:32:43,520

yeah i believe um i've been told um by

2699

01:32:48,709 --> 01:32:45,920

scientists that i talked to that uh one

2700

01:32:51,830 --> 01:32:48,719

theory is that cattle cattle mutilations

2701
01:32:54,070 --> 01:32:51,840
may be um linked to future humans in

2702
01:32:56,229 --> 01:32:54,080
terms of they are in a future

2703
01:32:57,990 --> 01:32:56,239
biodegraded environment where there

2704
01:32:59,510 --> 01:32:58,000
isn't enough protein where animals have

2705
01:33:02,629 --> 01:32:59,520
died off and that they want to

2706
01:33:06,070 --> 01:33:02,639
synthesize and and clone

2707
01:33:08,390 --> 01:33:06,080
proteins for their consumption

2708
01:33:10,470 --> 01:33:08,400
interesting um your thoughts on crop

2709
01:33:11,990 --> 01:33:10,480
circles

2710
01:33:14,470 --> 01:33:12,000
yeah crop circle is another interesting

2711
01:33:16,310 --> 01:33:14,480
one i've been told by scientists that um

2712
01:33:18,870 --> 01:33:16,320
that as a result apart from the the ones

2713
01:33:20,229 --> 01:33:18,880

that are hoaxed uh that is a result of

2714

01:33:22,870 --> 01:33:20,239

uap

2715

01:33:25,510 --> 01:33:22,880

extracting uh energy from the either but

2716

01:33:27,910 --> 01:33:25,520

they won't tell me how or why because

2717

01:33:29,510 --> 01:33:27,920

that's classified

2718

01:33:31,830 --> 01:33:29,520

sure and that's something we're going to

2719

01:33:33,830 --> 01:33:31,840

do a crop circle show on in 2022 because

2720

01:33:35,270 --> 01:33:33,840

i've i've not avoided but just not come

2721

01:33:36,870 --> 01:33:35,280

across doing that they've done that yet

2722

01:33:38,229 --> 01:33:36,880

so i'm really interested in that i don't

2723

01:33:40,070 --> 01:33:38,239

know enough about it to be honest but

2724

01:33:41,830 --> 01:33:40,080

i'm just told that the

2725

01:33:43,750 --> 01:33:41,840

uh

2726
01:33:47,110 --> 01:33:43,760
the physical characteristics of like the

2727
01:33:49,510 --> 01:33:47,120
corn stalks it is indicative of uap

2728
01:33:51,750 --> 01:33:49,520
activity extracting a particular kind of

2729
01:33:53,110 --> 01:33:51,760
energy from the from the either that's

2730
01:33:55,430 --> 01:33:53,120
what i'm told

2731
01:33:57,510 --> 01:33:55,440
what are your hopes for the uap subject

2732
01:33:58,870 --> 01:33:57,520
in the coming year

2733
01:34:01,590 --> 01:33:58,880
um

2734
01:34:03,189 --> 01:34:01,600
i hope that there will be one uap office

2735
01:34:04,790 --> 01:34:03,199
and not two

2736
01:34:07,350 --> 01:34:04,800
and i hope that it will be uh you know

2737
01:34:11,030 --> 01:34:07,360
as mandated by congress and i hope that

2738
01:34:12,709 --> 01:34:11,040

uh it will be uh to the spirit and also

2739

01:34:15,110 --> 01:34:12,719

to the letter of the law

2740

01:34:17,750 --> 01:34:15,120

and uh i hope that uh

2741

01:34:19,830 --> 01:34:17,760

the next uh unclassified report will

2742

01:34:22,470 --> 01:34:19,840

give us like more information than the

2743

01:34:23,750 --> 01:34:22,480

one that we received last june

2744

01:34:25,430 --> 01:34:23,760

do you think we're likely to see any

2745

01:34:27,669 --> 01:34:25,440

more of those videos that we've not had

2746

01:34:29,910 --> 01:34:27,679

for a couple of years now

2747

01:34:31,270 --> 01:34:29,920

i don't know but i'd like to see why for

2748

01:34:33,669 --> 01:34:31,280

example we shouldn't see something

2749

01:34:36,310 --> 01:34:33,679

declassified from i don't know the 1950s

2750

01:34:39,350 --> 01:34:36,320

the 1960s something that uh

2751

01:34:41,510 --> 01:34:39,360

uh was captured maybe by satellite or by

2752

01:34:43,750 --> 01:34:41,520

an aircraft sensor that is no longer

2753

01:34:45,109 --> 01:34:43,760

classified

2754

01:34:46,790 --> 01:34:45,119

sure that that would see why that

2755

01:34:48,629 --> 01:34:46,800

shouldn't be released to the public

2756

01:34:51,510 --> 01:34:48,639

because it it doesn't give away american

2757

01:34:53,669 --> 01:34:51,520

cable or british capabilities

2758

01:34:56,790 --> 01:34:53,679

no of course and the final one is what

2759

01:34:58,149 --> 01:34:56,800

does disclosure mean to you

2760

01:35:01,189 --> 01:34:58,159

okay disclosure means different things

2761

01:35:03,430 --> 01:35:01,199

to different people uh some people uh

2762

01:35:04,870 --> 01:35:03,440

want it to mean um you know like let it

2763

01:35:06,149 --> 01:35:04,880

all hang out on the line and you open

2764

01:35:08,229 --> 01:35:06,159

the hangar doors

2765

01:35:09,669 --> 01:35:08,239

uh and also unfortunately some people i

2766

01:35:12,070 --> 01:35:09,679

think it's because they want to bring

2767

01:35:15,109 --> 01:35:12,080

down the american government uh i don't

2768

01:35:17,430 --> 01:35:15,119

know it's maybe like um related to

2769

01:35:19,270 --> 01:35:17,440

anarchism because they don't trust uh

2770

01:35:21,350 --> 01:35:19,280

the government and they want to

2771

01:35:24,629 --> 01:35:21,360

basically break down all the barriers i

2772

01:35:26,950 --> 01:35:24,639

think that uh some secrets uh have to be

2773

01:35:29,189 --> 01:35:26,960

kept secret and you know i was a part of

2774

01:35:30,790 --> 01:35:29,199

that world i think what should be

2775

01:35:33,030 --> 01:35:30,800

declassified to the public should be

2776

01:35:35,189 --> 01:35:33,040

discussed declassified i think for me

2777

01:35:37,430 --> 01:35:35,199

disclosure is uh there's been secrecy

2778

01:35:38,870 --> 01:35:37,440

for far too long uh and i would like to

2779

01:35:40,629 --> 01:35:38,880

see you know the public getting a lot

2780

01:35:42,310 --> 01:35:40,639

more information obviously if we're not

2781

01:35:44,229 --> 01:35:42,320

alone in the universe or not alone on

2782

01:35:46,070 --> 01:35:44,239

earth then uh you know we all have a

2783

01:35:48,550 --> 01:35:46,080

right to know that within the bounds of

2784

01:35:49,590 --> 01:35:48,560

uh of national security something that

2785

01:35:51,430 --> 01:35:49,600

will not give

2786

01:35:53,750 --> 01:35:51,440

assistance to the likes of you know

2787

01:35:56,229 --> 01:35:53,760

china russia iran et cetera but you know

2788

01:35:57,750 --> 01:35:56,239

we all have a right to know um you know

2789

01:35:59,430 --> 01:35:57,760

about our own existence and what can

2790

01:36:00,629 --> 01:35:59,440

improve our own existence and you know

2791

01:36:02,070 --> 01:36:00,639

whether we're alone or not i mean

2792

01:36:03,590 --> 01:36:02,080

because you know that is the ultimate

2793

01:36:05,910 --> 01:36:03,600

question isn't it

2794

01:36:07,430 --> 01:36:05,920

absolutely is in the description to this

2795

01:36:08,709 --> 01:36:07,440

show i'm going to have links to those

2796

01:36:10,550 --> 01:36:08,719

papers that you mentioned that you've

2797

01:36:11,830 --> 01:36:10,560

written in the past then because those

2798

01:36:13,750 --> 01:36:11,840

are something that people will ask me

2799

01:36:15,189 --> 01:36:13,760

about no doubt and also your social

2800

01:36:16,870 --> 01:36:15,199

media handles how people could get in

2801

01:36:18,390 --> 01:36:16,880

touch with you but do you want to just

2802

01:36:19,830 --> 01:36:18,400

finish off frank letting people know

2803

01:36:21,350 --> 01:36:19,840

what's to come for yourself in the

2804

01:36:22,709 --> 01:36:21,360

coming year as well what can we expect

2805

01:36:25,109 --> 01:36:22,719

from you

2806

01:36:27,510 --> 01:36:25,119

yeah sure um i've actually been uh very

2807

01:36:29,030 --> 01:36:27,520

kindly invited um kind of all expenses

2808

01:36:30,870 --> 01:36:29,040

paid to um

2809

01:36:32,550 --> 01:36:30,880

uh the largest um

2810

01:36:34,629 --> 01:36:32,560

uh security and defense conference in

2811

01:36:35,990 --> 01:36:34,639

the world coming up in january so i'm

2812

01:36:38,070 --> 01:36:36,000

gonna go and do that and i'm gonna be

2813

01:36:39,990 --> 01:36:38,080

talking about uh you know advanced kind

2814

01:36:42,390 --> 01:36:40,000

of like beyond next generation uh

2815

01:36:45,030 --> 01:36:42,400

technologies okay it's not like a uap

2816

01:36:46,870 --> 01:36:45,040

conference per se but uh i'll get uap in

2817

01:36:48,790 --> 01:36:46,880

there somewhere uh but it's gonna be

2818

01:36:50,070 --> 01:36:48,800

nice to me it's gonna be like um

2819

01:36:52,070 --> 01:36:50,080

it's gonna be you know the first time

2820

01:36:54,149 --> 01:36:52,080

away that i've had in two years since

2821

01:36:56,709 --> 01:36:54,159

all this this covered crap hit so i'm

2822

01:36:59,750 --> 01:36:56,719

kind of looking forward to it and um

2823

01:37:03,109 --> 01:36:59,760

it's uh the former head of mi5 is going

2824

01:37:05,510 --> 01:37:03,119

to be there uh as a keynote speaker the

2825

01:37:07,510 --> 01:37:05,520

former head of the uk defense staff

2826

01:37:09,270 --> 01:37:07,520

so it's going to be a very very

2827

01:37:10,950 --> 01:37:09,280

interesting event

2828

01:37:12,550 --> 01:37:10,960

is

2849

01:38:20,910 --> 01:38:36,070

[Music]

2850

01:38:36,080 --> 01:38:55,189

cuz

2851

01:38:57,990 --> 01:38:56,470

they thought this was noise they thought

2852

01:38:59,970 --> 01:38:58,000

it was a dream they thought it was my

2853

01:39:09,210 --> 01:38:59,980

toys

2854

01:39:09,220 --> 01:39:19,109

[Music]

2855

01:39:19,119 --> 01:39:23,690

and what's that

2856

01:39:51,430 --> 01:39:29,030

[Music]

2857

01:39:59,430 --> 01:39:53,480

what's up

2858

01:40:01,350 --> 01:39:59,440

[Music]

2859

01:40:08,120 --> 01:40:01,360

it wasn't a tic tac and not quite a
