## THE BREAKDOWN

GALILEO PROJECT,  
ELIZONDO ON C2C, DRONES IN  
SWEDEN, LMH ON T.O.E

1  
00:00:00,250 --> 00:00:13,350

[Music]

2  
00:00:17,990 --> 00:00:15,509

it was basically a cube with inside of

3  
00:00:23,000 --> 00:00:18,000

sphere where the points of the cube

4  
00:00:36,229 --> 00:00:32,260

[Music]

5  
00:00:37,750 --> 00:00:36,239

[Applause]

6  
00:00:39,990 --> 00:00:37,760

so this isn't anything that just is

7  
00:00:47,990 --> 00:00:40,000

limited to the united states it's a

8  
00:00:52,549 --> 00:00:50,389

hi everyone and welcome back to that ufo

9  
00:00:54,709 --> 00:00:52,559

podcast we've got a breakdown for you

10  
00:00:56,950 --> 00:00:54,719

we're recording this on the 23rd of

11  
00:00:58,229 --> 00:00:56,960

january recapping about the last week

12  
00:01:00,549 --> 00:00:58,239

and a half's worth of news because there

13  
00:01:02,470 --> 00:01:00,559

has been a few things happened and i did

14

00:01:05,030 --> 00:01:02,480

mean to record this last week but just

15

00:01:06,710 --> 00:01:05,040

stuff got in the way so dan i finally

16

00:01:10,070 --> 00:01:06,720

managed to drag you from your columbia

17

00:01:12,310 --> 00:01:10,080

prep on to record on the podcast again

18

00:01:14,310 --> 00:01:12,320

yeah it's going well i i'm almost

19

00:01:17,109 --> 00:01:14,320

prepared uh two weeks today as we're

20

00:01:18,870 --> 00:01:17,119

recording this i'll be on my way so uh

21

00:01:21,749 --> 00:01:18,880

it's getting very exciting

22

00:01:23,030 --> 00:01:21,759

and for uk listeners yourself and vinnie

23

00:01:29,350 --> 00:01:23,040

from disclosure team who you're flying

24

00:01:34,630 --> 00:01:32,310

brewdog in birmingham so uh if you go

25

00:01:37,590 --> 00:01:34,640

there vinnie will be there from 1pm uh

26

00:01:38,870 --> 00:01:37,600

i'll arrive for about i think 5 30. so

27

00:01:40,630 --> 00:01:38,880

if you can last that long uh drink

28

00:01:42,149 --> 00:01:40,640

drinking with vinnie then uh yeah i'll

29

00:01:43,910 --> 00:01:42,159

be around to say hey it'd be nice to see

30

00:01:46,550 --> 00:01:43,920

everyone's faces maybe thank some people

31

00:01:48,950 --> 00:01:46,560

if you uh if you were donated uh thank

32

00:01:50,630 --> 00:01:48,960

you again to everyone who did and um if

33

00:01:53,510 --> 00:01:50,640

you want to clear up a few details then

34

00:01:56,389 --> 00:01:53,520

it's at 1pm when

35

00:01:58,630 --> 00:01:56,399

uh this is on sunday the sixth of

36

00:02:01,030 --> 00:01:58,640

february just in case anyone turns up at

37

00:02:03,109 --> 00:02:01,040

1pm tomorrow or the day after then i'm

38

00:02:05,350 --> 00:02:03,119

in the uk as well yes i was going to say

39

00:02:07,270 --> 00:02:05,360

no birmingham alabama is the other one

40

00:02:09,270 --> 00:02:07,280

that i'm aware of so again if you're in

41

00:02:11,430 --> 00:02:09,280

alabama it is not happening out there

42

00:02:12,949 --> 00:02:11,440

it's birmingham uk

43

00:02:16,790 --> 00:02:12,959

which is a far

44

00:02:19,350 --> 00:02:16,800

stranger colder place yeah i can imagine

45

00:02:21,350 --> 00:02:19,360

hi to all the listeners in birmingham so

46

00:02:23,910 --> 00:02:21,360

dan just before we get into the news

47

00:02:25,910 --> 00:02:23,920

which there's a lot to get through um

48

00:02:28,470 --> 00:02:25,920

just to clear up one thing for listeners

49

00:02:30,390 --> 00:02:28,480

listening on spotify i had one of you

50

00:02:32,309 --> 00:02:30,400

get in touch with me recently to say

51

00:02:34,229 --> 00:02:32,319

you're still hearing adverts and

52

00:02:36,309 --> 00:02:34,239

sponsors uh clips

53

00:02:38,070 --> 00:02:36,319

on the premium service that's never

54

00:02:40,630 --> 00:02:38,080

really occurred to me that spotify have

55

00:02:43,190 --> 00:02:40,640

their own service called spotify premium

56

00:02:45,030 --> 00:02:43,200

where you pay um for additional devices

57

00:02:47,430 --> 00:02:45,040

all that kind of stuff if you're looking

58

00:02:50,150 --> 00:02:47,440

to listen to the podcast on spotify with

59

00:02:52,229 --> 00:02:50,160

no adverts early access bonus content

60

00:02:55,030 --> 00:02:52,239

and no sponsor stuff then you have to

61

00:02:56,229 --> 00:02:55,040

search on spotify that ufo podcast

62

00:02:57,910 --> 00:02:56,239

premium

63

00:03:00,790 --> 00:02:57,920

and you'll see a separate feed where i

64

00:03:02,790 --> 00:03:00,800

upload the podcast early like on apple

65

00:03:04,149 --> 00:03:02,800

premium or on patreon but you get all

66

00:03:05,910 --> 00:03:04,159

the good stuff as well without all the

67

00:03:09,589 --> 00:03:05,920

adverts and sponsors so if you want to

68

00:03:11,030 --> 00:03:09,599

support it's like 1.99 two dollars ish

69

00:03:13,110 --> 00:03:11,040

it's round about it's less than the

70

00:03:15,670 --> 00:03:13,120

price of a starbucks coffee trust me

71

00:03:17,750 --> 00:03:15,680

which was four pounds 70 each day for me

72

00:03:21,030 --> 00:03:17,760

this week so do you do listeners still

73

00:03:22,309 --> 00:03:21,040

get to hear your creative manscaped

74

00:03:24,229 --> 00:03:22,319

adverts

75

00:03:25,589 --> 00:03:24,239

no um i might upload those separately

76

00:03:27,350 --> 00:03:25,599

and i failed to

77

00:03:29,190 --> 00:03:27,360

afford them separately but yes support

78

00:03:30,789 --> 00:03:29,200

the sponsors folks and thanks to those

79

00:03:32,869 --> 00:03:30,799

who still give us really nice feedback

80

00:03:34,869 --> 00:03:32,879

about the manscape reads and stuff as

81

00:03:37,350 --> 00:03:34,879

well so might have a new sponsor coming

82

00:03:38,710 --> 00:03:37,360

on board soon um so again it's always a

83

00:03:41,030 --> 00:03:38,720

fun one to check out if you're listening

84

00:03:43,670 --> 00:03:41,040

on the free feeds as well so i'll say no

85

00:03:45,190 --> 00:03:43,680

more other than if it comes off i think

86

00:03:47,030 --> 00:03:45,200

vinnie will be very interested in it

87

00:03:48,470 --> 00:03:47,040

let's just say that much but if you

88

00:03:50,630 --> 00:03:48,480

don't want to listen to sponsors and ads

89

00:03:52,390 --> 00:03:50,640

and all that nonsense then sign up to

90

00:03:53,830 --> 00:03:52,400

one of the premium services it's like a

91

00:03:54,789 --> 00:03:53,840

dollar a couple of dollars a couple of

92

00:03:58,070 --> 00:03:54,799

pounds

93

00:03:59,429 --> 00:03:58,080

euros whatever currency it may be um i

94

00:04:01,589 --> 00:03:59,439

do enjoy when people sign up with all

95

00:04:04,550 --> 00:04:01,599

these weird currencies and it's like

96

00:04:06,550 --> 00:04:04,560

any galactic credits yet nah nothing not

97

00:04:08,070 --> 00:04:06,560

even any crypto yet but i don't even

98

00:04:10,070 --> 00:04:08,080

know how i would accept that so i'm

99

00:04:11,830 --> 00:04:10,080

still a crypto like

100

00:04:13,589 --> 00:04:11,840

i'm not even a newbie like just i just

101  
00:04:15,509 --> 00:04:13,599  
don't do it but yeah anyway that was the

102  
00:04:16,949 --> 00:04:15,519  
the clearing up the spotify stuff on to

103  
00:04:19,110 --> 00:04:16,959  
the cool news though dan there's been

104  
00:04:21,030 --> 00:04:19,120  
quite a lot for early january for this

105  
00:04:22,550 --> 00:04:21,040  
so-called dry period we're going through

106  
00:04:23,510 --> 00:04:22,560  
and i think we've been we've been really

107  
00:04:25,749 --> 00:04:23,520  
lucky

108  
00:04:28,150 --> 00:04:25,759  
news that broke just today um as we

109  
00:04:30,469 --> 00:04:28,160  
record this as that jacques valley has

110  
00:04:32,710 --> 00:04:30,479  
joined the galileo project which is

111  
00:04:35,030 --> 00:04:32,720  
which is awesome news i think when it

112  
00:04:37,430 --> 00:04:35,040  
was announced we were all really excited

113  
00:04:40,150 --> 00:04:37,440

and looking forward to the potential of

114

00:04:42,550 --> 00:04:40,160

the project the the mainstream aspect

115

00:04:44,469 --> 00:04:42,560

having a name like avila webb and some

116

00:04:46,629 --> 00:04:44,479

of the benefactor benefactors i don't

117

00:04:48,629 --> 00:04:46,639

think the right word but investors and

118

00:04:50,310 --> 00:04:48,639

and people interested in the topic and

119

00:04:52,150 --> 00:04:50,320

subject you ran through that on one of

120

00:04:53,670 --> 00:04:52,160

the breakdowns where you touched on here

121

00:04:56,150 --> 00:04:53,680

are some of the names and affiliates of

122

00:04:57,749 --> 00:04:56,160

it and then i think it took a little bit

123

00:05:00,310 --> 00:04:57,759

of a hit with some people that came on

124

00:05:02,710 --> 00:05:00,320

board like seth shawstack and and one or

125

00:05:04,390 --> 00:05:02,720

two names like that where folks went ah

126  
00:05:06,150 --> 00:05:04,400  
that's not really the people we want to

127  
00:05:07,189 --> 00:05:06,160  
be involved in this because

128  
00:05:09,110 --> 00:05:07,199  
they've been

129  
00:05:10,870 --> 00:05:09,120  
naysayers or people with agendas of

130  
00:05:12,310 --> 00:05:10,880  
their own where they've not really been

131  
00:05:13,670 --> 00:05:12,320  
very open-minded

132  
00:05:15,990 --> 00:05:13,680  
given the subject that they're looking

133  
00:05:18,310 --> 00:05:16,000  
into however i think when when lou

134  
00:05:21,029 --> 00:05:18,320  
elizondo and chris mellon came on board

135  
00:05:23,909 --> 00:05:21,039  
it was a big win for them and it's the

136  
00:05:25,909 --> 00:05:23,919  
people you want involved and now to see

137  
00:05:28,070 --> 00:05:25,919  
countless others but then jacques vallee

138  
00:05:30,469 --> 00:05:28,080

joining it it's it's fantastic and it's

139

00:05:32,150 --> 00:05:30,479

wonderful to see the energy jack has

140

00:05:34,390 --> 00:05:32,160

still at his age

141

00:05:36,230 --> 00:05:34,400

you know he's no spring chicken but the

142

00:05:38,710 --> 00:05:36,240

energy he has and the love and passion

143

00:05:41,510 --> 00:05:38,720

for this topic which is still very much

144

00:05:43,510 --> 00:05:41,520

there for all to see yeah jack has been

145

00:05:45,670 --> 00:05:43,520

looking into this topic for decades and

146

00:05:48,710 --> 00:05:45,680

decades now he has such a huge body of

147

00:05:51,029 --> 00:05:48,720

very respected work um and he brings

148

00:05:53,830 --> 00:05:51,039

with him some you know you you mentioned

149

00:05:56,230 --> 00:05:53,840

seth shawstak there and seth was part of

150

00:05:58,550 --> 00:05:56,240

seti where they were kind of open-minded

151  
00:06:00,870 --> 00:05:58,560  
enough to go okay we'll look for alien

152  
00:06:03,029 --> 00:06:00,880  
life but assumed the aliens would be

153  
00:06:04,309 --> 00:06:03,039  
using radio signals like we do you know

154  
00:06:06,309 --> 00:06:04,319  
not very out of the box thinking

155  
00:06:07,909 --> 00:06:06,319  
considering what they're trying to do um

156  
00:06:09,990 --> 00:06:07,919  
they really announced that they're going

157  
00:06:11,990 --> 00:06:10,000  
to be looking for lasers um as

158  
00:06:13,749 --> 00:06:12,000  
communication signals um so they're

159  
00:06:15,670 --> 00:06:13,759  
getting a little bit better but i feel

160  
00:06:17,430 --> 00:06:15,680  
like project galileo is kind of pulling

161  
00:06:19,029 --> 00:06:17,440  
them into this direction because that is

162  
00:06:21,029 --> 00:06:19,039  
a completely open

163  
00:06:23,670 --> 00:06:21,039

kind of study

164

00:06:25,990 --> 00:06:23,680

avi loeb said in an interview that he he

165

00:06:28,469 --> 00:06:26,000

kind of sees it as a fishing expedition

166

00:06:30,870 --> 00:06:28,479

and he said that they're just looking

167

00:06:33,110 --> 00:06:30,880

for whatever they might find and if it

168

00:06:34,950 --> 00:06:33,120

if it happens that they find a strange

169

00:06:36,629 --> 00:06:34,960

fish then they'll deal with that when

170

00:06:39,590 --> 00:06:36,639

they get to it with the addition of

171

00:06:41,189 --> 00:06:39,600

valets of the project his he has a

172

00:06:42,710 --> 00:06:41,199

hypothesis called the control system

173

00:06:44,870 --> 00:06:42,720

where he thinks it's a kind of feedback

174

00:06:46,950 --> 00:06:44,880

loop to coax our consciousness forward

175

00:06:49,029 --> 00:06:46,960

into developing for whatever reason down

176

00:06:49,990 --> 00:06:49,039

certain parts um

177

00:06:52,309 --> 00:06:50,000

so

178

00:06:54,790 --> 00:06:52,319

it's interesting to have him on board

179

00:06:56,390 --> 00:06:54,800

when his his

180

00:06:58,309 --> 00:06:56,400

i want to say hypothesis but it's not

181

00:07:01,029 --> 00:06:58,319

quite his ideas are so

182

00:07:02,469 --> 00:07:01,039

you know out there um and i think that

183

00:07:04,870 --> 00:07:02,479

the community really appreciates that

184

00:07:07,510 --> 00:07:04,880

balance that they have on board now

185

00:07:08,629 --> 00:07:07,520

yeah absolutely and the issue i had as

186

00:07:10,550 --> 00:07:08,639

um

187

00:07:12,790 --> 00:07:10,560

seti is such a wonderful tool

188

00:07:14,950 --> 00:07:12,800

potentially for

189

00:07:17,029 --> 00:07:14,960

the community and the subject the topic

190

00:07:19,510 --> 00:07:17,039

to have for whoever wants to drive it

191

00:07:21,350 --> 00:07:19,520

forward and the galileo project again

192

00:07:23,510 --> 00:07:21,360

dan i think at the time we talked about

193

00:07:24,550 --> 00:07:23,520

how it would be wonderful wonderful if

194

00:07:26,150 --> 00:07:24,560

all these different groups could

195

00:07:28,710 --> 00:07:26,160

collaborate and get together and you

196

00:07:30,150 --> 00:07:28,720

know uapx if they they could be involved

197

00:07:32,550 --> 00:07:30,160

with what they're trying to do and they

198

00:07:34,150 --> 00:07:32,560

all talk to each other at least to to

199

00:07:36,710 --> 00:07:34,160

pull the resources i think that would be

200

00:07:39,110 --> 00:07:36,720

wonderful and the way seti at times has

201  
00:07:40,950 --> 00:07:39,120  
come across under seth shostak's

202  
00:07:43,029 --> 00:07:40,960  
leadership especially from some of the

203  
00:07:45,110 --> 00:07:43,039  
interviews i've listened to on on howard

204  
00:07:45,990 --> 00:07:45,120  
hughes unexplained where he's a regular

205  
00:07:47,510 --> 00:07:46,000  
guest

206  
00:07:49,510 --> 00:07:47,520  
it sounds like you you talk about avi

207  
00:07:51,909 --> 00:07:49,520  
loeb saying they're on a fishing trip

208  
00:07:53,749 --> 00:07:51,919  
it seems to me at times seth shawstak is

209  
00:07:55,830 --> 00:07:53,759  
the guy on the beach with binoculars

210  
00:07:56,950 --> 00:07:55,840  
looking the wrong way back onto

211  
00:07:58,629 --> 00:07:56,960  
telling them that they're not able to

212  
00:08:00,390 --> 00:07:58,639  
find water but they should keep looking

213  
00:08:02,309 --> 00:08:00,400

yeah that's a good analogy

214

00:08:05,189 --> 00:08:02,319

the tool is fine he's just not looking

215

00:08:07,270 --> 00:08:05,199

in the right places absolutely yeah um

216

00:08:10,309 --> 00:08:07,280

so for me i would still hope that any

217

00:08:11,909 --> 00:08:10,319

one of these people involved are

218

00:08:13,990 --> 00:08:11,919

other right people including seth

219

00:08:16,070 --> 00:08:14,000

shawstak it would be great if if one day

220

00:08:17,510 --> 00:08:16,080

they can find something soon

221

00:08:19,270 --> 00:08:17,520

and again he's one of the guys that goes

222

00:08:20,629 --> 00:08:19,280

yeah you know what i was

223

00:08:21,990 --> 00:08:20,639

i was wrong

224

00:08:23,430 --> 00:08:22,000

doing what i was doing or hedging their

225

00:08:24,629 --> 00:08:23,440

bets and i think when that time comes

226

00:08:26,710 --> 00:08:24,639

and we're going to probably touch on

227

00:08:28,710 --> 00:08:26,720

some of that within the next topic we're

228

00:08:30,710 --> 00:08:28,720

going to talk about um

229

00:08:32,149 --> 00:08:30,720

we don't need to be blaming people and

230

00:08:34,310 --> 00:08:32,159

holding people accountable i think

231

00:08:36,469 --> 00:08:34,320

there's going to come a point that when

232

00:08:37,990 --> 00:08:36,479

we start to get some news on momentum in

233

00:08:41,670 --> 00:08:38,000

a big way whether it's through the

234

00:08:43,589 --> 00:08:41,680

galileo project nasa seti you know some

235

00:08:45,350 --> 00:08:43,599

some foreign government finds something

236

00:08:47,030 --> 00:08:45,360

you know a chinese rover whatever it

237

00:08:48,710 --> 00:08:47,040

might be we have to kind of move the

238

00:08:49,990 --> 00:08:48,720

conversation forward

239

00:08:51,910 --> 00:08:50,000

and and we've got we've got our own

240

00:08:53,990 --> 00:08:51,920

colleagues in uap media we've had those

241

00:08:55,750 --> 00:08:54,000

conversations and some of those things

242

00:08:57,829 --> 00:08:55,760

where it's and it's fine to disagree

243

00:08:59,269 --> 00:08:57,839

people i've always had this that i don't

244

00:09:00,630 --> 00:08:59,279

necessarily agree with some of my own

245

00:09:02,150 --> 00:09:00,640

colleagues that there are people that

246

00:09:03,829 --> 00:09:02,160

should be held accountable and all this

247

00:09:05,269 --> 00:09:03,839

kind of stuff where

248

00:09:06,790 --> 00:09:05,279

there's going to come a time where we

249

00:09:09,269 --> 00:09:06,800

have to move the conversation forward

250

00:09:10,470 --> 00:09:09,279

and looking back and blaming is maybe

251

00:09:13,269 --> 00:09:10,480

something that just has to get knocked

252

00:09:15,750 --> 00:09:13,279

on the head to use an old british phrase

253

00:09:17,509 --> 00:09:15,760

yeah absolutely we're gonna have to

254

00:09:19,590 --> 00:09:17,519

kind of convince people that we're all

255

00:09:21,190 --> 00:09:19,600

on the same side here and we've heard

256

00:09:23,990 --> 00:09:21,200

often in history through many different

257

00:09:26,710 --> 00:09:24,000

officials they they've wondered out loud

258

00:09:28,470 --> 00:09:26,720

places like the un uh how a force from

259

00:09:30,150 --> 00:09:28,480

outside of humanity could unite us in

260

00:09:31,990 --> 00:09:30,160

that way so just remember we're all on

261

00:09:33,350 --> 00:09:32,000

the same side i'd say you know we might

262

00:09:35,190 --> 00:09:33,360

have our differences but hey they make

263

00:09:36,630 --> 00:09:35,200

the world go round yeah if you've seen

264

00:09:38,310 --> 00:09:36,640

don't look up it's a little bit like

265

00:09:40,150 --> 00:09:38,320

when they're about to launch the mission

266

00:09:42,230 --> 00:09:40,160

to to stop the asteroid which i hope

267

00:09:44,070 --> 00:09:42,240

it's not a spoiler because i mean you

268

00:09:45,910 --> 00:09:44,080

can imagine where the movie goes but

269

00:09:47,750 --> 00:09:45,920

then someone with their own agenda comes

270

00:09:48,870 --> 00:09:47,760

in and stops that

271

00:09:50,310 --> 00:09:48,880

even though it's for the betterment of

272

00:09:51,910 --> 00:09:50,320

everyone else they come in and it's like

273

00:09:54,070 --> 00:09:51,920

ah and i would like to think when the

274

00:09:55,430 --> 00:09:54,080

next door muammur comes along and we go

275

00:09:57,430 --> 00:09:55,440

to chase it there's no one there saying

276

00:10:00,070 --> 00:09:57,440

wait stop let's just think about this no

277

00:10:01,750 --> 00:10:00,080

let's do it let's go discover let's go

278

00:10:03,910 --> 00:10:01,760

let's go make the most of this and

279

00:10:06,710 --> 00:10:03,920

ultimately jack valley being on board is

280

00:10:08,230 --> 00:10:06,720

a wonderful get get for them um so yep

281

00:10:10,630 --> 00:10:08,240

kudos to the galileo project and

282

00:10:12,870 --> 00:10:10,640

everyone involved um keep doing what

283

00:10:15,030 --> 00:10:12,880

you're doing and i'm sure 2022 will be a

284

00:10:16,470 --> 00:10:15,040

big year for them too and when there are

285

00:10:18,550 --> 00:10:16,480

some updates we'll get avi back on the

286

00:10:21,350 --> 00:10:18,560

podcast to talk about it

287

00:10:23,509 --> 00:10:21,360

next up dan uh luella zondo was on coast

288

00:10:26,069 --> 00:10:23,519

to coast with george knapp and less than

289

00:10:29,430 --> 00:10:26,079

a week ago as we record this it was a

290

00:10:31,190 --> 00:10:29,440

big conversation um kudos to to joel

291

00:10:33,030 --> 00:10:31,200

murgia i think for a lot of people who

292

00:10:34,949 --> 00:10:33,040

didn't have access couldn't get access

293

00:10:37,430 --> 00:10:34,959

or prefer just to read the highlights

294

00:10:39,829 --> 00:10:37,440

that joe morgier transcribed and i think

295

00:10:41,670 --> 00:10:39,839

broke twitter's own servers with the

296

00:10:43,350 --> 00:10:41,680

length of the transcription at one point

297

00:10:45,190 --> 00:10:43,360

um yeah that's fit to say he he does a

298

00:10:47,910 --> 00:10:45,200

great job he he transcribes a lot of

299

00:10:50,069 --> 00:10:47,920

different uh interviews conversations

300

00:10:52,150 --> 00:10:50,079

you know things like that so have a look

301  
00:10:54,389 --> 00:10:52,160  
at his account it's at ufo joe i think

302  
00:10:56,790 --> 00:10:54,399  
on twitter um well worth following

303  
00:10:58,310 --> 00:10:56,800  
i signed up to joe's patreon like again

304  
00:11:01,750 --> 00:10:58,320  
like i don't have a lot of money myself

305  
00:11:03,350 --> 00:11:01,760  
but for for me doing this podcast it's

306  
00:11:05,910 --> 00:11:03,360  
worth like a couple of pounds a couple

307  
00:11:08,389 --> 00:11:05,920  
of dollars to to thank someone like that

308  
00:11:09,829 --> 00:11:08,399  
and um i i use a lot of his

309  
00:11:11,910 --> 00:11:09,839  
transcription stuff from a load of

310  
00:11:13,590 --> 00:11:11,920  
interviews and it helps me pinpoint bits

311  
00:11:15,509 --> 00:11:13,600  
to go and listen to as well so yeah

312  
00:11:17,509 --> 00:11:15,519  
thank you thank you to john morgear for

313  
00:11:19,910 --> 00:11:17,519

doing what he does um

314

00:11:21,590 --> 00:11:19,920

so yeah so lou was on coast to coast

315

00:11:23,829 --> 00:11:21,600

george knapp a good couple of hours

316

00:11:25,829 --> 00:11:23,839

interview which is fantastic i think

317

00:11:27,910 --> 00:11:25,839

lew's had a well-deserved break over the

318

00:11:29,829 --> 00:11:27,920

last can a couple of weeks and months

319

00:11:32,630 --> 00:11:29,839

and he will be back on the podcast

320

00:11:34,710 --> 00:11:32,640

sooner than later folks that uh listener

321

00:11:36,310 --> 00:11:34,720

questions follow-up is a something that

322

00:11:37,750 --> 00:11:36,320

we're still going to do

323

00:11:39,750 --> 00:11:37,760

in the very near future hopefully as

324

00:11:42,150 --> 00:11:39,760

well i i never mind these big gaps

325

00:11:43,910 --> 00:11:42,160

between shows like that because yeah so

326

00:11:46,150 --> 00:11:43,920

many people sent great questions in but

327

00:11:47,350 --> 00:11:46,160

stuff's happened since then so we can

328

00:11:49,269 --> 00:11:47,360

kind of come at things from different

329

00:11:50,550 --> 00:11:49,279

angles and you know people can send in

330

00:11:51,509 --> 00:11:50,560

different questions

331

00:11:53,430 --> 00:11:51,519

100

332

00:11:56,150 --> 00:11:53,440

and as as you listen to this we've got

333

00:11:57,829 --> 00:11:56,160

john ramirez back on wednesday and it's

334

00:11:59,430 --> 00:11:57,839

a listener question show and i've got

335

00:12:00,949 --> 00:11:59,440

loads left over from the last one that

336

00:12:03,269 --> 00:12:00,959

we didn't get to just due to time

337

00:12:04,949 --> 00:12:03,279

constraints and already people are

338

00:12:06,949 --> 00:12:04,959

sending me more follow-ups and

339

00:12:08,870 --> 00:12:06,959

up-to-date questions so again if you

340

00:12:13,110 --> 00:12:08,880

want to send in a question before

341

00:12:17,030 --> 00:12:13,120

wednesday the 25th 26th uh wednesday

342

00:12:19,269 --> 00:12:17,040

26th of january please do so ufo uap am

343

00:12:20,870 --> 00:12:19,279

gmail.com for for john ramirez but i'm

344

00:12:23,190 --> 00:12:20,880

looking forward to putting some of those

345

00:12:26,230 --> 00:12:23,200

listener questions to john but yes

346

00:12:27,910 --> 00:12:26,240

anyway lou on coast to coast dan um

347

00:12:29,509 --> 00:12:27,920

what was going to start off

348

00:12:31,750 --> 00:12:29,519

can i just say i thought it was funny

349

00:12:33,590 --> 00:12:31,760

that george's first question was asking

350

00:12:35,829 --> 00:12:33,600

lou about how he felt walking onto the

351

00:12:37,430 --> 00:12:35,839

stage with the tsa press conference

352

00:12:39,190 --> 00:12:37,440

because that's exactly where we left off

353

00:12:41,190 --> 00:12:39,200

in the uh the profile we did with uh tom

354

00:12:43,670 --> 00:12:41,200

delong um thank you for all the feedback

355

00:12:45,110 --> 00:12:43,680

to everyone that's given it and we'll

356

00:12:47,350 --> 00:12:45,120

get more listener questions so send

357

00:12:49,829 --> 00:12:47,360

those in and we'll address those in in

358

00:12:51,829 --> 00:12:49,839

part two i'm just going to be really

359

00:12:54,470 --> 00:12:51,839

egotistical here and assume george

360

00:12:56,069 --> 00:12:54,480

listened to the tom delong profile

361

00:12:58,470 --> 00:12:56,079

that was how he started off his own

362

00:13:00,790 --> 00:12:58,480

interview with lou by researching hours

363

00:13:02,389 --> 00:13:00,800

so um no i'm sure he doesn't george

364

00:13:03,910 --> 00:13:02,399

knapp's an incredible interviewer but

365

00:13:06,310 --> 00:13:03,920

yeah it was a nice set nice happen

366

00:13:08,069 --> 00:13:06,320

stanson week can kick off part two in

367

00:13:09,509 --> 00:13:08,079

the next week or so with uh with that as

368

00:13:12,310 --> 00:13:09,519

well um

369

00:13:13,430 --> 00:13:12,320

but yeah so we were talking about

370

00:13:15,110 --> 00:13:13,440

some of the things that jumped out for

371

00:13:16,310 --> 00:13:15,120

me it was a long interview a huge

372

00:13:17,670 --> 00:13:16,320

transcription if you're going back and

373

00:13:18,829 --> 00:13:17,680

look at that

374

00:13:21,190 --> 00:13:18,839

uh public

375

00:13:22,870 --> 00:13:21,200

hearings uh i suppose was one of the

376

00:13:24,550 --> 00:13:22,880

things that jumped out to me early on

377

00:13:25,910 --> 00:13:24,560

lou made the comment that if public

378

00:13:27,990 --> 00:13:25,920

hearings happen

379

00:13:29,350 --> 00:13:28,000

people will be amazed at what atep

380

00:13:31,350 --> 00:13:29,360

actually found it was like grab your

381

00:13:35,670 --> 00:13:31,360

popcorn comment from lou

382

00:13:37,750 --> 00:13:35,680

and it probably goes without saying but

383

00:13:39,350 --> 00:13:37,760

i think at one point it was f five

384

00:13:40,870 --> 00:13:39,360

percent of the stories been told lew

385

00:13:42,310 --> 00:13:40,880

said overall

386

00:13:44,389 --> 00:13:42,320

later on he was talking about his book a

387

00:13:46,310 --> 00:13:44,399

little bit wasn't he yeah

388

00:13:47,750 --> 00:13:46,320

yeah five percent so

389

00:13:49,030 --> 00:13:47,760

very curious what's going to be in there

390

00:13:50,230 --> 00:13:49,040

listener did ask about the book i'll

391

00:13:52,710 --> 00:13:50,240

just touch on it because we're talking

392

00:13:54,069 --> 00:13:52,720

about the book i guess yeah go on

393

00:13:56,790 --> 00:13:54,079

um and

394

00:13:59,590 --> 00:13:56,800

lou was uh basically saying oh man i

395

00:14:00,829 --> 00:13:59,600

come from my notes now that is

396

00:14:03,110 --> 00:14:00,839

typical isn't

397

00:14:05,269 --> 00:14:03,120

it he's too busy looking up suitcases

398

00:14:07,030 --> 00:14:05,279

for colombia

399

00:14:09,030 --> 00:14:07,040

i've got a big pledge to note

400

00:14:11,110 --> 00:14:09,040

uh

401  
00:14:12,550 --> 00:14:11,120  
hold on that's that's just possible

402  
00:14:13,509 --> 00:14:12,560  
that's where we're going to jump about

403  
00:14:15,030 --> 00:14:13,519  
though like

404  
00:14:16,550 --> 00:14:15,040  
we'll not cut this bit because it gives

405  
00:14:18,310 --> 00:14:16,560  
dad a lot more work to do he's going to

406  
00:14:19,430 --> 00:14:18,320  
find them but um

407  
00:14:21,110 --> 00:14:19,440  
tell you what do you want to come back

408  
00:14:22,550 --> 00:14:21,120  
to the boot that makes it easier you got

409  
00:14:24,150 --> 00:14:22,560  
it is it there's a controller fine

410  
00:14:27,189 --> 00:14:24,160  
function i just need to use my computer

411  
00:14:28,790 --> 00:14:27,199  
properly um yeah lou said that he's

412  
00:14:30,470 --> 00:14:28,800  
writing the book for a very very

413  
00:14:32,389 --> 00:14:30,480

specific reason i'll be clear when it

414

00:14:34,389 --> 00:14:32,399

comes out uh he hopes it's extremely

415

00:14:36,069 --> 00:14:34,399

informative and in the same breath says

416

00:14:38,310 --> 00:14:36,079

that he's working on with a group of

417

00:14:40,870 --> 00:14:38,320

people what he sees is the definitive

418

00:14:43,030 --> 00:14:40,880

uap documentary uh which

419

00:14:44,870 --> 00:14:43,040

i mean that'll be very exciting told

420

00:14:46,389 --> 00:14:44,880

from his point of view

421

00:14:48,150 --> 00:14:46,399

and i'm sure that will contain a lot of

422

00:14:50,949 --> 00:14:48,160

things that we haven't heard about or

423

00:14:54,550 --> 00:14:52,550

and that's not the same documentary

424

00:14:56,230 --> 00:14:54,560

announced by leslie keane and cnn i

425

00:14:58,310 --> 00:14:56,240

don't think it doesn't seem to have a

426

00:15:00,629 --> 00:14:58,320

link if there has been i've not seen

427

00:15:02,710 --> 00:15:00,639

that no no no

428

00:15:04,629 --> 00:15:02,720

it's a different team yeah

429

00:15:06,870 --> 00:15:04,639

yeah i mean there may be involvement and

430

00:15:08,310 --> 00:15:06,880

cross-pollination but i i'm not i

431

00:15:10,629 --> 00:15:08,320

wouldn't confidently say they're the

432

00:15:12,710 --> 00:15:10,639

same thing

433

00:15:14,230 --> 00:15:12,720

yeah no fair enough um so yeah i mean

434

00:15:17,030 --> 00:15:14,240

we're looking forward to lose book abs

435

00:15:19,030 --> 00:15:17,040

absolutely so yeah public hearings again

436

00:15:20,310 --> 00:15:19,040

it's one of those things if they happen

437

00:15:22,870 --> 00:15:20,320

fantastic

438

00:15:25,189 --> 00:15:22,880

it still seems at this point as we sit

439

00:15:26,710 --> 00:15:25,199

in january 2022 even with all the

440

00:15:29,910 --> 00:15:26,720

progress we've had

441

00:15:31,829 --> 00:15:29,920

a huge leap to have official

442

00:15:33,509 --> 00:15:31,839

public hearings where they're going to

443

00:15:35,269 --> 00:15:33,519

discuss ufos

444

00:15:37,590 --> 00:15:35,279

and they're going to have to bring up

445

00:15:38,470 --> 00:15:37,600

the subject of et's

446

00:15:40,550 --> 00:15:38,480

and

447

00:15:42,550 --> 00:15:40,560

the words potentially like spaceship

448

00:15:44,150 --> 00:15:42,560

being thrown about congress yeah because

449

00:15:45,670 --> 00:15:44,160

you're you're going you're going to then

450

00:15:47,990 --> 00:15:45,680

you're not going to only have your your

451  
00:15:50,230 --> 00:15:48,000  
really interested politicians like your

452  
00:15:52,069 --> 00:15:50,240  
rubin giles all those all those folks

453  
00:15:53,110 --> 00:15:52,079  
and

454  
00:15:54,470 --> 00:15:53,120  
you're not going to have just them

455  
00:15:55,670 --> 00:15:54,480  
you're going to have these politicians

456  
00:15:57,430 --> 00:15:55,680  
that'll be sitting there going are we

457  
00:16:00,230 --> 00:15:57,440  
actually having this conversation like

458  
00:16:01,670 --> 00:16:00,240  
am i and there'll be probably some

459  
00:16:03,509 --> 00:16:01,680  
guffawing and

460  
00:16:05,110 --> 00:16:03,519  
people that haven't been briefed or just

461  
00:16:06,550 --> 00:16:05,120  
been briefed that they can't believe the

462  
00:16:08,310 --> 00:16:06,560  
conversation that like i said they're

463  
00:16:10,949 --> 00:16:08,320

having to have so that for me will be

464

00:16:13,110 --> 00:16:10,959

really interesting if i do get public

465

00:16:14,710 --> 00:16:13,120

hearings i'm gonna track how the media

466

00:16:16,550 --> 00:16:14,720

portrays the issue throughout it because

467

00:16:18,389 --> 00:16:16,560

i'm sure like you say you'll get some

468

00:16:20,790 --> 00:16:18,399

snarky comments at the beginning but by

469

00:16:23,110 --> 00:16:20,800

the end of the hearings uh well i guess

470

00:16:24,949 --> 00:16:23,120

i'll use the word samba again

471

00:16:27,030 --> 00:16:24,959

that's probably what it would be like by

472

00:16:28,550 --> 00:16:27,040

the end

473

00:16:29,829 --> 00:16:28,560

timing i think would be a massive thing

474

00:16:31,269 --> 00:16:29,839

as well though wouldn't it dan because

475

00:16:33,110 --> 00:16:31,279

what we've just seen that the worlds

476  
00:16:35,590 --> 00:16:33,120  
went on hold for almost two years as

477  
00:16:37,269 --> 00:16:35,600  
we've went through a pandemic which

478  
00:16:38,710 --> 00:16:37,279  
again i think i've said this before but

479  
00:16:40,710 --> 00:16:38,720  
it looks like we're coming out the other

480  
00:16:42,710 --> 00:16:40,720  
end off now in the uk and in the coming

481  
00:16:45,990 --> 00:16:42,720  
weeks and months all the restrictions

482  
00:16:50,550 --> 00:16:48,150  
it would just take something else to

483  
00:16:53,030 --> 00:16:50,560  
happen on a global scale

484  
00:16:55,590 --> 00:16:53,040  
a conflict somewhere a disagreement you

485  
00:16:58,710 --> 00:16:55,600  
know an event that again could could

486  
00:17:00,629 --> 00:16:58,720  
knock this back couldn't it and

487  
00:17:03,189 --> 00:17:00,639  
election time in various countries could

488  
00:17:05,669 --> 00:17:03,199

be an issue that would knock this on

489

00:17:08,630 --> 00:17:05,679

knock this to the back of a queue of

490

00:17:11,990 --> 00:17:08,640

issues or bring it forward potentially i

491

00:17:13,829 --> 00:17:12,000

still don't see this being an issue that

492

00:17:15,110 --> 00:17:13,839

is going to be used to win an election

493

00:17:16,470 --> 00:17:15,120

would you

494

00:17:18,630 --> 00:17:16,480

i mean the

495

00:17:20,710 --> 00:17:18,640

if you look at the kind of original flea

496

00:17:22,549 --> 00:17:20,720

video and stuff on on youtube it has

497

00:17:24,230 --> 00:17:22,559

enough views that you know it could

498

00:17:26,710 --> 00:17:24,240

swing an election technically if every

499

00:17:28,470 --> 00:17:26,720

one of those views was a vote uh to look

500

00:17:30,470 --> 00:17:28,480

into the topic which is dubious but you

501  
00:17:32,789 --> 00:17:30,480  
know there is interest there is my point

502  
00:17:35,190 --> 00:17:32,799  
um and it would be interesting to see

503  
00:17:38,150 --> 00:17:35,200  
because it's law now that this office is

504  
00:17:39,669 --> 00:17:38,160  
going to be around 2026 and yes the next

505  
00:17:41,590 --> 00:17:39,679  
administration that comes in can get rid

506  
00:17:44,470 --> 00:17:41,600  
of it but that would require passing

507  
00:17:46,470 --> 00:17:44,480  
bills too and that would probably mean

508  
00:17:48,549 --> 00:17:46,480  
that people that put this through in the

509  
00:17:50,390 --> 00:17:48,559  
first place would argue against that so

510  
00:17:53,029 --> 00:17:50,400  
we would kind of get

511  
00:17:55,750 --> 00:17:53,039  
arguments and discussions about uap and

512  
00:17:57,350 --> 00:17:55,760  
probably et and spaceships in that event

513  
00:17:58,950 --> 00:17:57,360

too so

514

00:18:00,950 --> 00:17:58,960

like lou likes to say that the ketchup's

515

00:18:03,029 --> 00:18:00,960

kind of out of the bottle now

516

00:18:05,510 --> 00:18:03,039

what i would love to see though is

517

00:18:08,070 --> 00:18:05,520

as in the last couple of years netflix

518

00:18:10,549 --> 00:18:08,080

created space force which is a a comedy

519

00:18:12,070 --> 00:18:10,559

but again has a lot of truth to to what

520

00:18:14,230 --> 00:18:12,080

we see in it and the way it's portrayed

521

00:18:16,070 --> 00:18:14,240

but it's still a laugh and a joke at the

522

00:18:17,669 --> 00:18:16,080

us government having a space force and

523

00:18:20,150 --> 00:18:17,679

and what it may or may not do and how it

524

00:18:22,390 --> 00:18:20,160

might actually be be run

525

00:18:24,630 --> 00:18:22,400

i would love to see something about this

526

00:18:26,830 --> 00:18:24,640

new potential ufo office but in a style

527

00:18:29,750 --> 00:18:26,840

of the west wing where the subject is

528

00:18:32,710 --> 00:18:29,760

treated you know properly and seriously

529

00:18:34,549 --> 00:18:32,720

and well written and dramatized and

530

00:18:36,710 --> 00:18:34,559

i suppose it would be a potential movie

531

00:18:38,789 --> 00:18:36,720

of louis elizondo's life would would be

532

00:18:40,549 --> 00:18:38,799

something if it was like an hbo maxi i

533

00:18:42,310 --> 00:18:40,559

mean you you can see

534

00:18:44,390 --> 00:18:42,320

you know other other biographies have

535

00:18:47,190 --> 00:18:44,400

been adapted into

536

00:18:49,510 --> 00:18:47,200

biopic so you know it could happen that

537

00:18:51,830 --> 00:18:49,520

would be very interesting um but since

538

00:18:55,510 --> 00:18:51,840

you said it i i'm just picturing uh

539

00:18:58,070 --> 00:18:55,520

steve corral in the dod as he he is that

540

00:19:00,150 --> 00:18:58,080

uh senator gilbrand is is passing this

541

00:19:02,470 --> 00:19:00,160

amendment and it suddenly you know tips

542

00:19:04,150 --> 00:19:02,480

his desk over and screams what we'll

543

00:19:06,230 --> 00:19:04,160

we'll make our own uep office first

544

00:19:08,150 --> 00:19:06,240

before they can do it and it's just all

545

00:19:09,590 --> 00:19:08,160

about that silly red tape we're going to

546

00:19:12,630 --> 00:19:09,600

get there we're going to get there don't

547

00:19:14,789 --> 00:19:12,640

worry um loomid a comment uh early on

548

00:19:16,549 --> 00:19:14,799

about it was this subject and being

549

00:19:19,110 --> 00:19:16,559

covered up as like rotten vegetables in

550

00:19:21,510 --> 00:19:19,120

the fridge the longer the subject is is

551  
00:19:22,630 --> 00:19:21,520  
left and avoided and ignored the smell's

552  
00:19:25,190 --> 00:19:22,640  
going to get worse and there's going to

553  
00:19:26,789 --> 00:19:25,200  
be a lot more to clean up and maybe now

554  
00:19:28,470 --> 00:19:26,799  
and now is the time to start cleaning

555  
00:19:31,350 --> 00:19:28,480  
this up which i like i like that that

556  
00:19:34,070 --> 00:19:31,360  
message um he mentioned two people by

557  
00:19:36,630 --> 00:19:34,080  
name who who tried to kill ossap when it

558  
00:19:40,150 --> 00:19:36,640  
was a program and kate borowicz who was

559  
00:19:41,270 --> 00:19:40,160  
dia and marcel letra of the ous i'm

560  
00:19:44,549 --> 00:19:41,280  
maybe pronouncing that a little too

561  
00:19:46,950 --> 00:19:44,559  
french um literary letter letter um of

562  
00:19:49,830 --> 00:19:46,960  
the o u s d i

563  
00:19:51,750 --> 00:19:49,840

didn't see much more on that than um

564

00:19:52,549 --> 00:19:51,760

i mean there wasn't much follow-up there

565

00:19:56,870 --> 00:19:52,559

um

566

00:19:58,310 --> 00:19:56,880

which lou responded with i recognized

567

00:20:00,070 --> 00:19:58,320

that name my mom used safe he got

568

00:20:02,710 --> 00:20:00,080

nothing good to say don't say anything

569

00:20:04,070 --> 00:20:02,720

at all uh which telling right that that

570

00:20:07,510 --> 00:20:04,080

was the same breath that he kind of said

571

00:20:08,950 --> 00:20:07,520

about the hearings and cities

572

00:20:09,990 --> 00:20:08,960

do you think some of these people might

573

00:20:12,710 --> 00:20:10,000

be

574

00:20:16,390 --> 00:20:12,720

the book

575

00:20:18,230 --> 00:20:16,400

as as a more official process

576

00:20:20,390 --> 00:20:18,240

it might not be the most interesting

577

00:20:22,310 --> 00:20:20,400

conversation for lou to have on on air

578

00:20:24,310 --> 00:20:22,320

and maybe there's reasons he doesn't but

579

00:20:26,070 --> 00:20:24,320

maybe putting it down in a book for for

580

00:20:28,789 --> 00:20:26,080

reasons as where they can clearly lay

581

00:20:30,310 --> 00:20:28,799

out a time time frame and chronological

582

00:20:32,070 --> 00:20:30,320

events so here's what happened here's

583

00:20:34,230 --> 00:20:32,080

what i was working on here are some of

584

00:20:35,990 --> 00:20:34,240

the people that tried to stop x y and z

585

00:20:37,990 --> 00:20:36,000

and they can it can lay that out as as

586

00:20:40,310 --> 00:20:38,000

proof you know yeah and and you would

587

00:20:41,430 --> 00:20:40,320

imagine that if those people i mean they

588

00:20:43,669 --> 00:20:41,440

they get an option we learn with the

589

00:20:46,310 --> 00:20:43,679

skin we'll walk a book um

590

00:20:48,870 --> 00:20:46,320

like he's one that

591

00:20:51,590 --> 00:20:48,880

you can they they have to submit it for

592

00:20:53,750 --> 00:20:51,600

kind of processing and for rejections um

593

00:20:55,830 --> 00:20:53,760

so it'll be interesting to see if any of

594

00:20:57,909 --> 00:20:55,840

the people who mentions or departments

595

00:21:01,029 --> 00:20:57,919

he mentions or events he mentions um are

596

00:21:02,870 --> 00:21:01,039

redacted you know um i believe they they

597

00:21:04,230 --> 00:21:02,880

had to in the book kind of cite you or

598

00:21:06,070 --> 00:21:04,240

at least give reasons why and things

599

00:21:07,750 --> 00:21:06,080

like that so that'll be interesting if

600

00:21:08,789 --> 00:21:07,760

that happens

601

00:21:11,909 --> 00:21:08,799

let me bring in a little bit of

602

00:21:13,750 --> 00:21:11,919

speculation here potentially because

603

00:21:15,430 --> 00:21:13,760

he made the comment off the back of one

604

00:21:17,510 --> 00:21:15,440

of george knapp's questions that

605

00:21:19,590 --> 00:21:17,520

ufologist looking for proof of alien

606

00:21:21,350 --> 00:21:19,600

bodies go take a break go learn the

607

00:21:24,470 --> 00:21:21,360

piano or the violin

608

00:21:26,870 --> 00:21:24,480

check out for five years then come back

609

00:21:28,390 --> 00:21:26,880

as the the five years time scale in any

610

00:21:29,750 --> 00:21:28,400

way relevant do you think am i doing

611

00:21:32,149 --> 00:21:29,760

that thing where i find the time scale

612

00:21:33,110 --> 00:21:32,159

and go ha five years is is that when

613

00:21:35,750 --> 00:21:33,120

we're going to get pictures of alien

614

00:21:37,430 --> 00:21:35,760

boys because lou said five seconds when

615

00:21:38,789 --> 00:21:37,440

we were talking about the temporal stuff

616

00:21:40,710 --> 00:21:38,799

right yeah um

617

00:21:42,630 --> 00:21:40,720

so maybe it's just a convenient number

618

00:21:44,670 --> 00:21:42,640

or maybe you know it's the number at the

619

00:21:46,390 --> 00:21:44,680

base of the universe

620

00:21:48,070 --> 00:21:46,400

[Music]

621

00:21:49,830 --> 00:21:48,080

so he's probably just picking a random

622

00:21:51,830 --> 00:21:49,840

like arbitrary time scale there i've

623

00:21:53,350 --> 00:21:51,840

come back in five years and you'll see

624

00:21:55,750 --> 00:21:53,360

the progress i think we've talked about

625

00:21:57,510 --> 00:21:55,760

haven't made it in and now just over

626  
00:21:59,669 --> 00:21:57,520  
four years how much progress has been

627  
00:22:01,190 --> 00:21:59,679  
made that by the end of this year we

628  
00:22:03,510 --> 00:22:01,200  
could be looking at wow there's five

629  
00:22:05,430 --> 00:22:03,520  
years since this all came out

630  
00:22:07,190 --> 00:22:05,440  
and look where we are and he's making

631  
00:22:08,950 --> 00:22:07,200  
the point that if you're really looking

632  
00:22:11,190 --> 00:22:08,960  
for some of that maybe more sensational

633  
00:22:12,390 --> 00:22:11,200  
stuff i suppose with another five years

634  
00:22:13,990 --> 00:22:12,400  
time passing by

635  
00:22:15,110 --> 00:22:14,000  
we could have had those congressional

636  
00:22:17,110 --> 00:22:15,120  
hearings

637  
00:22:19,190 --> 00:22:17,120  
more incredible videos or photographic

638  
00:22:21,350 --> 00:22:19,200

evidence come out maybe that famed black

639

00:22:22,950 --> 00:22:21,360

triangle photo that everyone's it's

640

00:22:25,110 --> 00:22:22,960

probably going to become internet myth

641

00:22:27,909 --> 00:22:25,120

let's be honest an internet legend that

642

00:22:30,549 --> 00:22:27,919

photograph but yeah what what could have

643

00:22:32,390 --> 00:22:30,559

come out in in five more years because

644

00:22:34,070 --> 00:22:32,400

you would have to say if we could go

645

00:22:35,510 --> 00:22:34,080

forward in time done which maybe there

646

00:22:37,270 --> 00:22:35,520

are species that can do that as we've

647

00:22:39,909 --> 00:22:37,280

learned if we could jump forward we can

648

00:22:42,470 --> 00:22:39,919

go forward in time wait watch yeah yeah

649

00:22:44,470 --> 00:22:42,480

we've done it yeah we've done that again

650

00:22:46,789 --> 00:22:44,480

very good but if if we could jump

651  
00:22:49,029 --> 00:22:46,799  
forward that five years and and review

652  
00:22:50,789 --> 00:22:49,039  
the five years i've just been

653  
00:22:52,950 --> 00:22:50,799  
if we weren't much further forward and

654  
00:22:55,510 --> 00:22:52,960  
we were still talking about the nimitz

655  
00:22:58,070 --> 00:22:55,520  
princeton event those three videos the

656  
00:23:00,710 --> 00:22:58,080  
potential of a black triangular photo

657  
00:23:02,149 --> 00:23:00,720  
the ufo office is set up but you know

658  
00:23:03,430 --> 00:23:02,159  
we've not heard much more from it yet

659  
00:23:06,470 --> 00:23:03,440  
but it's doing lots of great work in the

660  
00:23:08,470 --> 00:23:06,480  
background you would have to say uh

661  
00:23:10,870 --> 00:23:08,480  
that has been a bit disappointing

662  
00:23:12,470 --> 00:23:10,880  
but i'm i'm guessing and what i'm taking

663  
00:23:13,590 --> 00:23:12,480

from that what lou is saying is you know

664

00:23:16,149 --> 00:23:13,600

in five years we're going to have a hell

665

00:23:18,630 --> 00:23:16,159

of a lot more progress even more

666

00:23:20,630 --> 00:23:18,640

than what we've had already and

667

00:23:22,310 --> 00:23:20,640

and just wait but for those of us who

668

00:23:23,909 --> 00:23:22,320

are interested in this and who want to

669

00:23:25,830 --> 00:23:23,919

podcast about it or if you're listening

670

00:23:28,950 --> 00:23:25,840

to this right now listening to us talk

671

00:23:30,149 --> 00:23:28,960

about it then you can see how much just

672

00:23:32,230 --> 00:23:30,159

in the last week and a half and we've

673

00:23:34,390 --> 00:23:32,240

still got more to talk about

674

00:23:36,630 --> 00:23:34,400

has happened um

675

00:23:38,390 --> 00:23:36,640

2022 is going to be a knockout year lou

676

00:23:40,310 --> 00:23:38,400

said how much you take from that will

677

00:23:42,230 --> 00:23:40,320

depend on which side of the louellazondo

678

00:23:44,310 --> 00:23:42,240

fence you fall on we don't have to say

679

00:23:45,909 --> 00:23:44,320

you know we are

680

00:23:47,909 --> 00:23:45,919

fans of lou if you want to call it that

681

00:23:49,190 --> 00:23:47,919

and we've got faith in them but i think

682

00:23:50,630 --> 00:23:49,200

it's something that even if you're one

683

00:23:53,350 --> 00:23:50,640

of those people who

684

00:23:55,029 --> 00:23:53,360

aren't massively happy with or you know

685

00:23:57,430 --> 00:23:55,039

don't take everything lou says you know

686

00:23:58,549 --> 00:23:57,440

face value and such that it's something

687

00:24:00,470 --> 00:23:58,559

you're going to be able to come back in

688

00:24:02,470 --> 00:24:00,480

just 11 months and evaluate

689

00:24:04,870 --> 00:24:02,480

has 2022 been a knockout year we're

690

00:24:06,630 --> 00:24:04,880

living it right now and we should have

691

00:24:07,590 --> 00:24:06,640

you know some some big announcements

692

00:24:09,510 --> 00:24:07,600

some

693

00:24:12,470 --> 00:24:09,520

set up of the office galileo project

694

00:24:15,029 --> 00:24:12,480

really taking off uapx and april with

695

00:24:19,029 --> 00:24:15,039

data coming out and and any number of

696

00:24:20,549 --> 00:24:19,039

other things potentially so absolutely

697

00:24:23,430 --> 00:24:20,559

mentioned that they're trying to form an

698

00:24:25,909 --> 00:24:23,440

academic and civilian advisory boards um

699

00:24:27,750 --> 00:24:25,919

and that someone with a phd in sociology

700

00:24:29,990 --> 00:24:27,760

um is interested and lou goes on to

701  
00:24:31,269 --> 00:24:30,000  
discuss how basically the next question

702  
00:24:33,110 --> 00:24:31,279  
is we're no longer talking about are

703  
00:24:35,350 --> 00:24:33,120  
these things real these things are there

704  
00:24:37,110 --> 00:24:35,360  
it's how they affect us now as a species

705  
00:24:38,870 --> 00:24:37,120  
in different ways uh socially

706  
00:24:41,029 --> 00:24:38,880  
financially all these things that are

707  
00:24:42,789 --> 00:24:41,039  
really really important um

708  
00:24:44,549 --> 00:24:42,799  
and that's i mean that's what actually

709  
00:24:46,549 --> 00:24:44,559  
tackling this issue looks like on a

710  
00:24:48,470 --> 00:24:46,559  
proper scale right it's not about just

711  
00:24:51,190 --> 00:24:48,480  
looking at videos of lights in the sky

712  
00:24:52,149 --> 00:24:51,200  
um it changes a lot

713  
00:24:53,269 --> 00:24:52,159

on this

714

00:24:54,789 --> 00:24:53,279

globe

715

00:24:56,149 --> 00:24:54,799

the phrase it's mentioned is we have to

716

00:24:58,549 --> 00:24:56,159

look at extending a hand and not a

717

00:25:00,230 --> 00:24:58,559

machine gun yeah going forward and and

718

00:25:02,230 --> 00:25:00,240

those are questions and conversations

719

00:25:04,149 --> 00:25:02,240

that you would hope are absolutely being

720

00:25:06,070 --> 00:25:04,159

had um

721

00:25:07,590 --> 00:25:06,080

it's something that got going back years

722

00:25:09,350 --> 00:25:07,600

we've seen you know what mentioned that

723

00:25:11,990 --> 00:25:09,360

the vatican has an interest in the

724

00:25:13,190 --> 00:25:12,000

subject we have seen you know has the us

725

00:25:15,990 --> 00:25:13,200

government got

726

00:25:17,350 --> 00:25:16,000

uh a plan for you know if and when we

727

00:25:18,950 --> 00:25:17,360

make that contact we've seen enough

728

00:25:20,710 --> 00:25:18,960

movies about it you would like to think

729

00:25:22,789 --> 00:25:20,720

there's something there's something down

730

00:25:24,549 --> 00:25:22,799

there i know it's something that nick

731

00:25:26,070 --> 00:25:24,559

pope mentioned that he had put forward

732

00:25:27,350 --> 00:25:26,080

years ago off to the to the british

733

00:25:29,190 --> 00:25:27,360

government but how much you could put

734

00:25:30,470 --> 00:25:29,200

into that you know was it just lip

735

00:25:33,750 --> 00:25:30,480

service to

736

00:25:35,430 --> 00:25:33,760

the daily star or you know

737

00:25:38,710 --> 00:25:35,440

and that would probably

738

00:25:41,029 --> 00:25:38,720

serve a very specific kind of

739

00:25:42,789 --> 00:25:41,039

disclosure right like that and any plan

740

00:25:44,149 --> 00:25:42,799

like that at the moment probably is

741

00:25:45,510 --> 00:25:44,159

pretty conservative and talking about

742

00:25:47,510 --> 00:25:45,520

okay well if the species comes from

743

00:25:49,110 --> 00:25:47,520

space and says hello but we we know

744

00:25:51,830 --> 00:25:49,120

there's all this other weirdness in this

745

00:25:53,669 --> 00:25:51,840

subject so you know what what happens if

746

00:25:55,750 --> 00:25:53,679

or that plan i should say looks very

747

00:25:57,269 --> 00:25:55,760

different if suddenly we know there's a

748

00:25:59,190 --> 00:25:57,279

species that can just walk through walls

749

00:26:01,430 --> 00:25:59,200

and see all our secrets at will and you

750

00:26:04,070 --> 00:26:01,440

know we hide nothing from them basically

751  
00:26:05,510 --> 00:26:04,080  
yeah we'll see what happens and uh close

752  
00:26:07,510 --> 00:26:05,520  
encounters are the third kind you know

753  
00:26:08,710 --> 00:26:07,520  
let's play some nice music flash some

754  
00:26:10,070 --> 00:26:08,720  
lights and

755  
00:26:12,070 --> 00:26:10,080  
everything goes well and i've seen

756  
00:26:13,510 --> 00:26:12,080  
independence day where let's flash some

757  
00:26:15,909 --> 00:26:13,520  
signals at this thing and it gets blown

758  
00:26:17,430 --> 00:26:15,919  
out the sky so you know it's it's an

759  
00:26:20,070 --> 00:26:17,440  
interesting conversation maybe a good

760  
00:26:21,990 --> 00:26:20,080  
what if down the line again dan yeah

761  
00:26:24,470 --> 00:26:22,000  
the conversation always right now still

762  
00:26:26,070 --> 00:26:24,480  
goes back to drones which is the the

763  
00:26:28,630 --> 00:26:26,080

buzzword of the last couple of years

764

00:26:30,310 --> 00:26:28,640

okay um and lou talks about the drone's

765

00:26:32,630 --> 00:26:30,320

argument and goes back to rightly that

766

00:26:34,470 --> 00:26:32,640

you know we didn't have drones maybe you

767

00:26:35,909 --> 00:26:34,480

can use that argument now that yes jones

768

00:26:37,750 --> 00:26:35,919

everything's drones there was a football

769

00:26:39,190 --> 00:26:37,760

match in the uk stopped yesterday for

770

00:26:41,190 --> 00:26:39,200

for 20 minutes because someone was

771

00:26:43,350 --> 00:26:41,200

flying a drone over the stadium now they

772

00:26:45,029 --> 00:26:43,360

clearly caught the drone on camera um

773

00:26:46,390 --> 00:26:45,039

and a police helicopter had to come by

774

00:26:48,070 --> 00:26:46,400

for safety issues and all that kind of

775

00:26:49,750 --> 00:26:48,080

stuff but

776

00:26:51,029 --> 00:26:49,760

it's it's the easy one for even the

777

00:26:52,630 --> 00:26:51,039

general public now to throw it's

778

00:26:54,630 --> 00:26:52,640

probably a drone when you see something

779

00:26:56,310 --> 00:26:54,640

in the sky you can't explain but in the

780

00:26:58,070 --> 00:26:56,320

50s and 60s

781

00:26:59,190 --> 00:26:58,080

lou mentions the chinese never had any

782

00:27:01,510 --> 00:26:59,200

drones that could have loitered about

783

00:27:03,110 --> 00:27:01,520

the pacific ocean and i think our friend

784

00:27:06,070 --> 00:27:03,120

graham rendell would attest to these

785

00:27:08,549 --> 00:27:06,080

satans going back even further than that

786

00:27:10,950 --> 00:27:08,559

and drone just happens to be the go-to

787

00:27:12,630 --> 00:27:10,960

world now a really interesting point i

788

00:27:14,870 --> 00:27:12,640

thought that came up here was lou talks

789

00:27:16,870 --> 00:27:14,880

about the drones buzzing the warships in

790

00:27:18,389 --> 00:27:16,880

2019 you know the omaha the russell

791

00:27:20,310 --> 00:27:18,399

events those those sorts of things that

792

00:27:22,710 --> 00:27:20,320

corbel had come out with information

793

00:27:25,990 --> 00:27:22,720

through through george knapp as well

794

00:27:27,430 --> 00:27:26,000

and lou mentions that after the 2000 uss

795

00:27:29,350 --> 00:27:27,440

coal attack

796

00:27:31,669 --> 00:27:29,360

these wouldn't be allowed to just just

797

00:27:33,909 --> 00:27:31,679

be there that was a where basically a

798

00:27:35,350 --> 00:27:33,919

small boat was used to hit the side of a

799

00:27:37,110 --> 00:27:35,360

u.s ship

800

00:27:40,310 --> 00:27:37,120

and servicemen service men and women

801  
00:27:42,070 --> 00:27:40,320  
died in that event um

802  
00:27:44,070 --> 00:27:42,080  
we've heard and we discussed that these

803  
00:27:46,310 --> 00:27:44,080  
events where the ships go dark when

804  
00:27:49,190 --> 00:27:46,320  
there are drones buzzing about is so

805  
00:27:51,190 --> 00:27:49,200  
there can be less electronic data

806  
00:27:53,269 --> 00:27:51,200  
gathered by the the drones if it is a

807  
00:27:55,029 --> 00:27:53,279  
foreign adversary but also you can be

808  
00:27:57,190 --> 00:27:55,039  
collecting data from from the other way

809  
00:27:59,029 --> 00:27:57,200  
as well yeah but lou lou doesn't say

810  
00:28:01,510 --> 00:27:59,039  
that louis says that these wouldn't be

811  
00:28:03,029 --> 00:28:01,520  
allowed to just sit there because they

812  
00:28:05,190 --> 00:28:03,039  
could potentially

813  
00:28:07,110 --> 00:28:05,200

impact a ship drop a bomb it could be

814

00:28:08,630 --> 00:28:07,120

you know pirates terrorists any number

815

00:28:11,110 --> 00:28:08,640

of different things it's not always just

816

00:28:12,789 --> 00:28:11,120

china or russia or the us spying on each

817

00:28:13,590 --> 00:28:12,799

other what were your thoughts on that

818

00:28:16,630 --> 00:28:13,600

then

819

00:28:18,310 --> 00:28:16,640

it was real interesting because you know

820

00:28:20,149 --> 00:28:18,320

they they have counter measures that we

821

00:28:21,590 --> 00:28:20,159

know are sometimes successful sometimes

822

00:28:23,750 --> 00:28:21,600

not and

823

00:28:24,789 --> 00:28:23,760

when when you're dealing with you know

824

00:28:26,389 --> 00:28:24,799

trying to

825

00:28:28,950 --> 00:28:26,399

interfere with radio signals and things

826

00:28:32,149 --> 00:28:28,960

like that we we kind of have that skill

827

00:28:33,990 --> 00:28:32,159

down pat you know as a thing that we can

828

00:28:34,950 --> 00:28:34,000

just do um

829

00:28:37,110 --> 00:28:34,960

so

830

00:28:39,669 --> 00:28:37,120

to kind of see

831

00:28:42,070 --> 00:28:39,679

repeated incursions like this

832

00:28:43,590 --> 00:28:42,080

not only get around those defenses but

833

00:28:44,789 --> 00:28:43,600

render them essentially ineffective to

834

00:28:46,310 --> 00:28:44,799

the point where the ship just has to go

835

00:28:47,590 --> 00:28:46,320

dark and they just have to wait and see

836

00:28:48,950 --> 00:28:47,600

and probably just write down what

837

00:28:51,830 --> 00:28:48,960

happens and hope that nothing bad

838

00:28:52,630 --> 00:28:51,840

happens um it leads to the conversation

839

00:28:54,630 --> 00:28:52,640

of

840

00:28:57,110 --> 00:28:54,640

well you know have they been out knowing

841

00:28:59,110 --> 00:28:57,120

that these things can come to them

842

00:29:00,950 --> 00:28:59,120

with some tools on board to maybe try

843

00:29:04,070 --> 00:29:00,960

and coax them and they do speak about

844

00:29:06,310 --> 00:29:04,080

that um and there was a little bit of it

845

00:29:08,710 --> 00:29:06,320

interesting uh data dropped by tim

846

00:29:10,549 --> 00:29:08,720

mcmillan uh on social media not too long

847

00:29:12,870 --> 00:29:10,559

ago where it was mentioned about

848

00:29:15,029 --> 00:29:12,880

anti-neutrino mapping because basically

849

00:29:16,549 --> 00:29:15,039

the nuclear processes give those off so

850

00:29:18,230 --> 00:29:16,559

you can have a satellite in space now

851

00:29:20,470 --> 00:29:18,240

that essentially just identifies all the

852

00:29:21,269 --> 00:29:20,480

nuclear reactors around the world

853

00:29:23,110 --> 00:29:21,279

so

854

00:29:25,830 --> 00:29:23,120

you can identify areas of interest for

855

00:29:28,389 --> 00:29:25,840

uap essentially and also if you could

856

00:29:30,389 --> 00:29:28,399

generate those then without kind of

857

00:29:31,430 --> 00:29:30,399

nuclear material then you can

858

00:29:33,430 --> 00:29:31,440

essentially

859

00:29:35,909 --> 00:29:33,440

bait a uap without actually having that

860

00:29:38,230 --> 00:29:35,919

nuclear material so this conversation is

861

00:29:40,070 --> 00:29:38,240

going somewhere very very interesting um

862

00:29:41,830 --> 00:29:40,080

if anyone wants to look at that data

863

00:29:43,430 --> 00:29:41,840

search the national geospatial

864

00:29:45,430 --> 00:29:43,440

intelligence agency study of

865

00:29:47,830 --> 00:29:45,440

anti-neutrinos and you can download a

866

00:29:49,190 --> 00:29:47,840

global map as well as the google

867

00:29:50,870 --> 00:29:49,200

earth

868

00:29:53,110 --> 00:29:50,880

overview data which is very cool you can

869

00:29:54,389 --> 00:29:53,120

kind of plot it against uap and yeah

870

00:29:55,750 --> 00:29:54,399

surprise surprise they're in nuclear

871

00:29:57,430 --> 00:29:55,760

correlations

872

00:29:58,950 --> 00:29:57,440

yes and that's something i'll be going

873

00:30:01,510 --> 00:29:58,960

into with tim mcmillan because i've

874

00:30:03,909 --> 00:30:01,520

gotten back on the podcast recording on

875

00:30:05,669 --> 00:30:03,919

the 28th of january for a release the

876

00:30:07,350 --> 00:30:05,679

following week and we'll be talking

877

00:30:08,950 --> 00:30:07,360

about the upcoming office or the

878

00:30:10,950 --> 00:30:08,960

information on drones

879

00:30:12,710 --> 00:30:10,960

anti-neutrinos article easy for me to

880

00:30:14,230 --> 00:30:12,720

say and some other stuff as well so

881

00:30:16,549 --> 00:30:14,240

again if you want to get some questions

882

00:30:20,789 --> 00:30:16,559

over very early for tim it's always a

883

00:30:22,230 --> 00:30:20,799

popular show at ufo uap am gmail.com for

884

00:30:23,909 --> 00:30:22,240

lieutenant tim mcmillan so looking

885

00:30:26,630 --> 00:30:23,919

forward to that one then

886

00:30:29,350 --> 00:30:26,640

um lou talks about the uh the offices

887

00:30:31,190 --> 00:30:29,360

the aoi msg

888

00:30:32,870 --> 00:30:31,200

did you catch what the they're calling

889

00:30:35,190 --> 00:30:32,880

it internally

890

00:30:37,110 --> 00:30:35,200

okay the aim

891

00:30:39,029 --> 00:30:37,120

uh which for any marvel fans out there

892

00:30:40,710 --> 00:30:39,039

is the kind of crappy version of stark

893

00:30:42,070 --> 00:30:40,720

industries that that made me giggle a

894

00:30:43,350 --> 00:30:42,080

little bit

895

00:30:44,710 --> 00:30:43,360

it's

896

00:30:47,110 --> 00:30:44,720

we've always said it never rolls off the

897

00:30:49,269 --> 00:30:47,120

tongue does it um but lou mentions and

898

00:30:51,909 --> 00:30:49,279

kind of laughs that one of the offices

899

00:30:53,669 --> 00:30:51,919

won't exist going forward i imagine it's

900

00:30:55,590 --> 00:30:53,679

going to be the aoi msg which we have

901  
00:30:57,509 --> 00:30:55,600  
said for some time looks to be a

902  
00:30:59,110 --> 00:30:57,519  
diversionary and you joked about it with

903  
00:31:01,029 --> 00:30:59,120  
a space force comment down didn't you

904  
00:31:02,830 --> 00:31:01,039  
but yeah it's very much been uh huh look

905  
00:31:05,269 --> 00:31:02,840  
look what i can do

906  
00:31:06,950 --> 00:31:05,279  
um you don't need that i'm doing this

907  
00:31:09,430 --> 00:31:06,960  
imagine i didn't want dan to go to

908  
00:31:11,590 --> 00:31:09,440  
columbia because i needed him to record

909  
00:31:13,350 --> 00:31:11,600  
something that week so dan instead i go

910  
00:31:15,110 --> 00:31:13,360  
to columbia i've actually

911  
00:31:17,110 --> 00:31:15,120  
set up my own documentary

912  
00:31:19,110 --> 00:31:17,120  
it's going to be on the likes of

913  
00:31:21,269 --> 00:31:19,120

northumberland and we're going to hike

914

00:31:23,990 --> 00:31:21,279

up um northumberlandia that's something

915

00:31:25,590 --> 00:31:24,000

you can google folks i live very close

916

00:31:26,950 --> 00:31:25,600

it's quite an interesting landmark but

917

00:31:28,310 --> 00:31:26,960

yeah we're going to hike up there and

918

00:31:30,470 --> 00:31:28,320

we're going to look at the lights that

919

00:31:31,590 --> 00:31:30,480

have been seen above the ardan so yeah

920

00:31:32,549 --> 00:31:31,600

there's no need for you to go to

921

00:31:33,509 --> 00:31:32,559

colombia

922

00:31:35,509 --> 00:31:33,519

that's

923

00:31:37,350 --> 00:31:35,519

pointless this is getting done over here

924

00:31:39,350 --> 00:31:37,360

so yeah that's what they've kind of done

925

00:31:41,110 --> 00:31:39,360

is look over here don't worry about that

926  
00:31:42,470 --> 00:31:41,120  
we are dealing with it we are taking

927  
00:31:44,470 --> 00:31:42,480  
this seriously

928  
00:31:46,549 --> 00:31:44,480  
you don't have to do that and it doesn't

929  
00:31:47,990 --> 00:31:46,559  
seem like it's going to work it seems on

930  
00:31:50,870 --> 00:31:48,000  
a really

931  
00:31:52,470 --> 00:31:50,880  
international global you know important

932  
00:31:54,389 --> 00:31:52,480  
governmental level

933  
00:31:56,630 --> 00:31:54,399  
quite petty

934  
00:31:59,029 --> 00:31:56,640  
and yet here we are the bureaucratic

935  
00:32:01,830 --> 00:31:59,039  
nonsense i i would say you know lou

936  
00:32:03,509 --> 00:32:01,840  
points out that usdi is an oversight

937  
00:32:05,029 --> 00:32:03,519  
organization so it can't actually do any

938  
00:32:07,669 --> 00:32:05,039

investigation so it can't fulfill the

939

00:32:10,549 --> 00:32:07,679

remit the congress has just asked uh of

940

00:32:11,990 --> 00:32:10,559

it um so you know it can't possibly do

941

00:32:14,230 --> 00:32:12,000

it it can't do the job therefore it's

942

00:32:15,990 --> 00:32:14,240

not fit to go with your analogy even

943

00:32:17,750 --> 00:32:16,000

further it would be like you doing that

944

00:32:20,230 --> 00:32:17,760

and not actually having a production

945

00:32:21,509 --> 00:32:20,240

company in place in the first place so i

946

00:32:23,430 --> 00:32:21,519

just kind of show up and there's nothing

947

00:32:25,029 --> 00:32:23,440

to do you know

948

00:32:27,269 --> 00:32:25,039

that's the plan yeah i don't have a

949

00:32:28,710 --> 00:32:27,279

production

950

00:32:30,070 --> 00:32:28,720

as long as you provide a lot of pie out

951  
00:32:32,070 --> 00:32:30,080  
i'll come

952  
00:32:33,509 --> 00:32:32,080  
yeah me with a webcam plugged into a

953  
00:32:36,070 --> 00:32:33,519  
power bank that would be a production

954  
00:32:37,110 --> 00:32:36,080  
company um listen it gets the job done

955  
00:32:39,430 --> 00:32:37,120  
so yeah i thought that was an

956  
00:32:41,350 --> 00:32:39,440  
interesting albeit expected comment from

957  
00:32:43,509 --> 00:32:41,360  
lou and again i don't feel there's a

958  
00:32:46,070 --> 00:32:43,519  
need for that aoi msg with with what's

959  
00:32:47,909 --> 00:32:46,080  
being set up um it doesn't seem like

960  
00:32:50,230 --> 00:32:47,919  
it's going to be the the transparent

961  
00:32:51,750 --> 00:32:50,240  
office that we all hope is so um

962  
00:32:54,789 --> 00:32:51,760  
interesting from our point of view if

963  
00:32:57,029 --> 00:32:54,799

you're outside of the us that in 2022

964

00:32:59,590 --> 00:32:57,039

more international cooperation at the

965

00:33:02,470 --> 00:32:59,600

official and unofficial level is to be

966

00:33:05,269 --> 00:33:02,480

expected as well i mean ourselves in the

967

00:33:07,430 --> 00:33:05,279

uk than doing a very small part

968

00:33:09,669 --> 00:33:07,440

with uap media and our colleagues you

969

00:33:12,630 --> 00:33:09,679

know dave partridge graham rendell adam

970

00:33:14,310 --> 00:33:12,640

goldsack vinnie adams to

971

00:33:16,470 --> 00:33:14,320

to kind of help the conversation forward

972

00:33:18,310 --> 00:33:16,480

as we can here and i mentioned a few

973

00:33:19,590 --> 00:33:18,320

weeks ago i think and again even just

974

00:33:22,710 --> 00:33:19,600

things like some of the articles that

975

00:33:24,950 --> 00:33:22,720

have gone out through various um online

976  
00:33:26,789 --> 00:33:24,960  
services recently different papers we've

977  
00:33:28,230 --> 00:33:26,799  
been in touch with the journalists and

978  
00:33:29,669 --> 00:33:28,240  
it's even been things like getting them

979  
00:33:32,070 --> 00:33:29,679  
to correct some of the terminology

980  
00:33:33,509 --> 00:33:32,080  
they're using if you saw the daily star

981  
00:33:36,470 --> 00:33:33,519  
headline and quotes about

982  
00:33:37,190 --> 00:33:36,480  
extraterrestrial nonsense that they had

983  
00:33:38,870 --> 00:33:37,200  
on

984  
00:33:40,310 --> 00:33:38,880  
we are actively just trying to do little

985  
00:33:43,909 --> 00:33:40,320  
things in the background that you know

986  
00:33:45,509 --> 00:33:43,919  
for if a paper has a sizable readership

987  
00:33:48,470 --> 00:33:45,519  
you know can they take out phrasing like

988  
00:33:50,630 --> 00:33:48,480

alien hunters and alien enthusiasts and

989

00:33:52,870 --> 00:33:50,640

can you just talk about this seriously

990

00:33:54,789 --> 00:33:52,880

and it's been very very small battles

991

00:33:56,230 --> 00:33:54,799

you know this is when i talk about

992

00:33:58,070 --> 00:33:56,240

there's no

993

00:33:59,669 --> 00:33:58,080

call for politicians in the uk at the

994

00:34:01,269 --> 00:33:59,679

minute on mass to discuss us in

995

00:34:03,590 --> 00:34:01,279

parliament because we're still trying to

996

00:34:05,909 --> 00:34:03,600

get journalists to to change the wording

997

00:34:07,509 --> 00:34:05,919

of articles at the minute so it's it's a

998

00:34:08,869 --> 00:34:07,519

grassroots movement and it's great that

999

00:34:10,950 --> 00:34:08,879

we've got listeners getting in touch as

1000

00:34:12,310 --> 00:34:10,960

well to and no doubt people who don't

1001

00:34:13,909 --> 00:34:12,320

listen to the show as well there's

1002

00:34:15,030 --> 00:34:13,919

plenty of those i mean needless to say

1003

00:34:16,950 --> 00:34:15,040

there's more people who don't listen to

1004

00:34:18,950 --> 00:34:16,960

the show than do but it's great that

1005

00:34:21,030 --> 00:34:18,960

people are being involved and contacting

1006

00:34:22,389 --> 00:34:21,040

local politicians and and saying that

1007

00:34:23,750 --> 00:34:22,399

i'm trying to get in touch with them and

1008

00:34:25,750 --> 00:34:23,760

i'll let them know about an interest in

1009

00:34:28,069 --> 00:34:25,760

the subject and and what's happening in

1010

00:34:30,230 --> 00:34:28,079

the states and elsewhere in the world so

1011

00:34:32,069 --> 00:34:30,240

i'm i'm excited that we can be a very

1012

00:34:33,990 --> 00:34:32,079

very small part in helping to change

1013

00:34:35,990 --> 00:34:34,000

here in the uk and if you're listening

1014

00:34:38,470 --> 00:34:36,000

elsewhere in the world you know

1015

00:34:40,790 --> 00:34:38,480

contact your own politicians contract

1016

00:34:42,629 --> 00:34:40,800

contact local journalists it doesn't all

1017

00:34:44,550 --> 00:34:42,639

doesn't always have to be a politician

1018

00:34:46,710 --> 00:34:44,560

because journalists and newspapers media

1019

00:34:48,629 --> 00:34:46,720

outlets those are the people as well who

1020

00:34:50,550 --> 00:34:48,639

can have a huge saying and what is

1021

00:34:52,230 --> 00:34:50,560

discussed and what is the zeitgeist and

1022

00:34:54,790 --> 00:34:52,240

and everything in your own in your own

1023

00:34:56,710 --> 00:34:54,800

kind of area as well so i'm i'm hopeful

1024

00:34:58,550 --> 00:34:56,720

from a uk point of view dan that we can

1025

00:35:00,470 --> 00:34:58,560

help out a little bit with that as well

1026

00:35:03,750 --> 00:35:00,480

yeah i think so it's all about those

1027

00:35:06,069 --> 00:35:03,760

kind of small battles and even if it's

1028

00:35:08,069 --> 00:35:06,079

just putting on someone's radar that it

1029

00:35:09,990 --> 00:35:08,079

exists and is being taken seriously do

1030

00:35:11,750 --> 00:35:10,000

it like you know the person's eyes might

1031

00:35:13,510 --> 00:35:11,760

glaze over after that bit because it's a

1032

00:35:15,910 --> 00:35:13,520

lot to take on this is a huge paradigm

1033

00:35:17,510 --> 00:35:15,920

shift but if you just kind of stick with

1034

00:35:19,190 --> 00:35:17,520

it and just see those ideas out into the

1035

00:35:20,790 --> 00:35:19,200

world the conversation will change this

1036

00:35:22,470 --> 00:35:20,800

is how it happens

1037

00:35:24,069 --> 00:35:22,480

and for me last point i want to bring up

1038

00:35:25,670 --> 00:35:24,079

about the luella zonda one coast to

1039

00:35:27,589 --> 00:35:25,680

coast i would thoroughly recommend

1040

00:35:29,190 --> 00:35:27,599

people check out themselves there are

1041

00:35:31,190 --> 00:35:29,200

ways and means to listen to it or you

1042

00:35:33,109 --> 00:35:31,200

can read joe martia's transcript

1043

00:35:36,310 --> 00:35:33,119

george knapp talks about the weirder

1044

00:35:38,710 --> 00:35:36,320

side of the subject um we all know lou

1045

00:35:39,750 --> 00:35:38,720

tends to stay very much nuts and bolts

1046

00:35:41,510 --> 00:35:39,760

facts

1047

00:35:44,710 --> 00:35:41,520

the the congressional staff has worked

1048

00:35:46,710 --> 00:35:44,720

in atep and such but lewis says there is

1049

00:35:49,510 --> 00:35:46,720

no there would have been no atep without

1050

00:35:51,510 --> 00:35:49,520

ossap and we now know asap i suppose is

1051  
00:35:53,910 --> 00:35:51,520  
more of the the skinwalker ranch program

1052  
00:35:55,109 --> 00:35:53,920  
and and all that entailed yeah yeah even

1053  
00:35:56,710 --> 00:35:55,119  
though there were some other aspects of

1054  
00:35:57,829 --> 00:35:56,720  
it as well but that's that was the gist

1055  
00:35:59,829 --> 00:35:57,839  
especially from the book with the

1056  
00:36:01,510 --> 00:35:59,839  
catskin app and keller

1057  
00:36:02,630 --> 00:36:01,520  
and it detailed events at skinwalker

1058  
00:36:04,950 --> 00:36:02,640  
ranch

1059  
00:36:05,990 --> 00:36:04,960  
i reckon it's one of those areas because

1060  
00:36:07,430 --> 00:36:06,000  
louie i think

1061  
00:36:08,710 --> 00:36:07,440  
for one or two of the questions said i

1062  
00:36:10,630 --> 00:36:08,720  
don't know much about that so can't

1063  
00:36:12,310 --> 00:36:10,640

really answer i think this is one of

1064

00:36:14,790 --> 00:36:12,320

those where he probably knows a lot more

1065

00:36:16,230 --> 00:36:14,800

than he can go into but it's either a

1066

00:36:17,510 --> 00:36:16,240

case of

1067

00:36:19,829 --> 00:36:17,520

really

1068

00:36:22,069 --> 00:36:19,839

aggressive nda issues

1069

00:36:23,910 --> 00:36:22,079

or it's stuff that it was just purely

1070

00:36:25,670 --> 00:36:23,920

conversational and he doesn't want to

1071

00:36:27,270 --> 00:36:25,680

put it out there because

1072

00:36:28,950 --> 00:36:27,280

little in the way of evidence he could

1073

00:36:31,030 --> 00:36:28,960

produce to back anything up or point us

1074

00:36:32,550 --> 00:36:31,040

in that direction but as we've heard

1075

00:36:35,270 --> 00:36:32,560

that you know gary nolan coming out and

1076

00:36:36,230 --> 00:36:35,280

saying that 25 of the subjects in

1077

00:36:38,470 --> 00:36:36,240

certain

1078

00:36:40,150 --> 00:36:38,480

studies have died from

1079

00:36:42,230 --> 00:36:40,160

from various incidents one of the

1080

00:36:43,589 --> 00:36:42,240

incidents that was recorded in the book

1081

00:36:46,150 --> 00:36:43,599

and colin kelleher mentioned on our

1082

00:36:48,150 --> 00:36:46,160

podcast as well was a blue orb flew

1083

00:36:50,069 --> 00:36:48,160

through uh an official shoulders while

1084

00:36:52,790 --> 00:36:50,079

he was driving with his kid in the car

1085

00:36:55,349 --> 00:36:52,800

and very soon after got a very rare form

1086

00:36:57,750 --> 00:36:55,359

of cancer an illness and luckily they

1087

00:36:59,670 --> 00:36:57,760

caught it and they could cure them but

1088

00:37:01,990 --> 00:36:59,680

25 percent of the folks involved even if

1089

00:37:05,430 --> 00:37:02,000

that's four people and one's dead

1090

00:37:07,670 --> 00:37:05,440

is is 25 percent too many for this so

1091

00:37:09,349 --> 00:37:07,680

yeah that's an interesting one lou

1092

00:37:10,950 --> 00:37:09,359

around here talked about the northern

1093

00:37:12,470 --> 00:37:10,960

lights and kind of pointed out how once

1094

00:37:14,069 --> 00:37:12,480

they were considered supernatural but

1095

00:37:15,589 --> 00:37:14,079

now it's just a natural thing that we

1096

00:37:16,870 --> 00:37:15,599

understand it's a phenomena and there

1097

00:37:18,470 --> 00:37:16,880

are all these kind of you know the

1098

00:37:20,630 --> 00:37:18,480

electromagnetic fields interact and

1099

00:37:22,630 --> 00:37:20,640

voila uh

1100

00:37:23,990 --> 00:37:22,640

it's one of those um you know

1101  
00:37:25,670 --> 00:37:24,000  
understanding the monsters at the edge

1102  
00:37:28,790 --> 00:37:25,680  
of the map he spoke about it before with

1103  
00:37:30,630 --> 00:37:28,800  
these big sea creatures and things and

1104  
00:37:32,230 --> 00:37:30,640  
it's clear that there's a kind of a

1105  
00:37:33,750 --> 00:37:32,240  
natural order to things that we're not

1106  
00:37:36,310 --> 00:37:33,760  
seeing because we're not privy to this

1107  
00:37:39,910 --> 00:37:36,320  
classified data uh in the briefings but

1108  
00:37:41,430 --> 00:37:39,920  
lou repeatedly throughout this interview

1109  
00:37:43,030 --> 00:37:41,440  
talks about

1110  
00:37:44,310 --> 00:37:43,040  
the fact that

1111  
00:37:45,670 --> 00:37:44,320  
everyone that's had the classified

1112  
00:37:48,310 --> 00:37:45,680  
briefing in congress would have seen

1113  
00:37:50,790 --> 00:37:48,320

what lou saw as part of atip

1114

00:37:52,310 --> 00:37:50,800

and i think that's very telling because

1115

00:37:53,910 --> 00:37:52,320

people keep thinking that these people

1116

00:37:56,310 --> 00:37:53,920

are being shown planes from a far

1117

00:37:58,470 --> 00:37:56,320

distance and are being confused uh which

1118

00:38:00,630 --> 00:37:58,480

is just crazy to think uh that so many

1119

00:38:03,030 --> 00:38:00,640

people could be you know hoodwinked like

1120

00:38:05,910 --> 00:38:03,040

this uh the truth is there's a

1121

00:38:06,870 --> 00:38:05,920

classified report that we didn't see

1122

00:38:09,670 --> 00:38:06,880

um

1123

00:38:11,829 --> 00:38:09,680

and we we got told these things exist

1124

00:38:14,950 --> 00:38:11,839

that there were 143 cases they couldn't

1125

00:38:18,710 --> 00:38:14,960

solve so beyond that the juicy details

1126

00:38:20,069 --> 00:38:18,720

and this is what congress got um so yeah

1127

00:38:22,470 --> 00:38:20,079

it's it's really cool that they're able

1128

00:38:24,710 --> 00:38:22,480

to talk about this link between the two

1129

00:38:27,109 --> 00:38:24,720

programs uh lou mentions the sticky

1130

00:38:28,550 --> 00:38:27,119

portfolio here which is a phrase that

1131

00:38:30,470 --> 00:38:28,560

kind of keeps coming up that's our

1132

00:38:32,230 --> 00:38:30,480

favorite of yours that i know it is yeah

1133

00:38:34,630 --> 00:38:32,240

uh just because it's it's the name for

1134

00:38:36,630 --> 00:38:34,640

the hitchhiker effect but it seems to

1135

00:38:38,710 --> 00:38:36,640

kind of allude to some more weirdness to

1136

00:38:43,349 --> 00:38:38,720

do with the phenomena that it just kind

1137

00:38:46,390 --> 00:38:43,359

of sticks to you as you investigate it

1138

00:38:47,910 --> 00:38:46,400

i remember as putting together our first

1139

00:38:50,550 --> 00:38:47,920

loyalist on the interview back in

1140

00:38:53,270 --> 00:38:50,560

february 2020 uh

1141

00:38:54,470 --> 00:38:53,280

february 2021 even and um i remember

1142

00:38:56,150 --> 00:38:54,480

that was something you were very keen on

1143

00:38:58,069 --> 00:38:56,160

bringing up at the time as well so yeah

1144

00:38:59,589 --> 00:38:58,079

i know i know gave a good answer to that

1145

00:39:02,069 --> 00:38:59,599

back then so you can check that one back

1146

00:39:03,750 --> 00:39:02,079

out in the archives folks um

1147

00:39:05,510 --> 00:39:03,760

for me that's pretty much all from the

1148

00:39:08,550 --> 00:39:05,520

low interview dan um is there anything

1149

00:39:09,589 --> 00:39:08,560

else you wanted to bring up for just

1150

00:39:11,510 --> 00:39:09,599

only the

1151

00:39:12,950 --> 00:39:11,520

the kind of idea at the end where lou

1152

00:39:15,190 --> 00:39:12,960

was talking about how disruptive

1153

00:39:16,870 --> 00:39:15,200

technology can you know throw the world

1154

00:39:18,390 --> 00:39:16,880

and throw development but he he

1155

00:39:19,910 --> 00:39:18,400

emphasized that

1156

00:39:21,829 --> 00:39:19,920

we can't just think of the stupidest

1157

00:39:23,349 --> 00:39:21,839

things that people can do with it it has

1158

00:39:25,589 --> 00:39:23,359

to be about the best things we can do

1159

00:39:27,750 --> 00:39:25,599

with it as well and it always is with

1160

00:39:30,630 --> 00:39:27,760

technology you know we have the atom

1161

00:39:32,950 --> 00:39:30,640

bomb we have nuclear power providing

1162

00:39:36,390 --> 00:39:32,960

light and power and heat to millions of

1163

00:39:38,390 --> 00:39:36,400

people um so we have to remember that

1164

00:39:39,829 --> 00:39:38,400

both those things can happen it's not

1165

00:39:42,310 --> 00:39:39,839

just about talking to people like

1166

00:39:44,230 --> 00:39:42,320

they're stupid we can we can either just

1167

00:39:46,710 --> 00:39:44,240

let this roll out and be awful or we can

1168

00:39:49,270 --> 00:39:46,720

lead by example and i think that's his

1169

00:39:52,310 --> 00:39:49,280

hope um and and it filled me with a a

1170

00:39:53,910 --> 00:39:52,320

positive vibe for 2022.

1171

00:39:56,230 --> 00:39:53,920

a couple of stories before we're going

1172

00:39:57,910 --> 00:39:56,240

to finish off chatting about the linda

1173

00:40:00,310 --> 00:39:57,920

won't have appearance on theories of

1174

00:40:01,990 --> 00:40:00,320

everything uh just before that two

1175

00:40:04,069 --> 00:40:02,000

stories at lincoln i suppose what we've

1176  
00:40:07,349 --> 00:40:04,079  
talked about with uh with lou and george

1177  
00:40:08,710 --> 00:40:07,359  
knapp is uh the swedish drones story um

1178  
00:40:10,550 --> 00:40:08,720  
a few of you got in touch and asked to

1179  
00:40:12,390 --> 00:40:10,560  
share our thoughts on this

1180  
00:40:14,950 --> 00:40:12,400  
there were basically drones buzzing

1181  
00:40:16,390 --> 00:40:14,960  
various sites around sweden um over the

1182  
00:40:17,990 --> 00:40:16,400  
course of a period of time and there's

1183  
00:40:19,990 --> 00:40:18,000  
been various investigations into it and

1184  
00:40:22,710 --> 00:40:20,000  
other reports over over the last couple

1185  
00:40:24,710 --> 00:40:22,720  
of years with siting sometimes 400 miles

1186  
00:40:26,710 --> 00:40:24,720  
apart um

1187  
00:40:28,150 --> 00:40:26,720  
very much an unknown

1188  
00:40:29,670 --> 00:40:28,160

this is why i suppose we hadn't touched

1189

00:40:31,990 --> 00:40:29,680

on it earlier it wasn't big breaking

1190

00:40:33,829 --> 00:40:32,000

news but i imagine this is something far

1191

00:40:35,910 --> 00:40:33,839

more common than we we probably hear

1192

00:40:38,069 --> 00:40:35,920

about um from from various places around

1193

00:40:40,870 --> 00:40:38,079

the world but essentially there are

1194

00:40:43,270 --> 00:40:40,880

unknown objects potentially drones

1195

00:40:45,750 --> 00:40:43,280

potentially not um buzzing around

1196

00:40:47,670 --> 00:40:45,760

nuclear facilities down and i would

1197

00:40:49,589 --> 00:40:47,680

think it's very unlikely to be civilian

1198

00:40:51,270 --> 00:40:49,599

drones messing about with with nuclear

1199

00:40:53,510 --> 00:40:51,280

power stations in those sorts of areas

1200

00:40:55,190 --> 00:40:53,520

because

1201

00:40:57,190 --> 00:40:55,200

i i would have sort of expected in this

1202

00:40:58,950 --> 00:40:57,200

day and age some of those places to have

1203

00:41:00,870 --> 00:40:58,960

anti-drone measures

1204

00:41:03,030 --> 00:41:00,880

for for feed of someone crashing one

1205

00:41:04,470 --> 00:41:03,040

into you know one of those chimneys or

1206

00:41:07,349 --> 00:41:04,480

one of those buildings or doing some

1207

00:41:08,309 --> 00:41:07,359

damage or even for for spying reasons as

1208

00:41:09,910 --> 00:41:08,319

well

1209

00:41:11,510 --> 00:41:09,920

but

1210

00:41:13,270 --> 00:41:11,520

it's an interesting one we know the

1211

00:41:14,230 --> 00:41:13,280

connection with uap and you know the

1212

00:41:16,309 --> 00:41:14,240

nuclear you talked about the

1213

00:41:18,309 --> 00:41:16,319

anti-neutrino stuff before as well any

1214

00:41:19,910 --> 00:41:18,319

thoughts on this swedish drone stuff

1215

00:41:21,349 --> 00:41:19,920

uh it's it's interesting because you've

1216

00:41:22,790 --> 00:41:21,359

got everything with russia happening at

1217

00:41:25,670 --> 00:41:22,800

the moment and some people think that is

1218

00:41:27,349 --> 00:41:25,680

to do with that um all we can really say

1219

00:41:29,190 --> 00:41:27,359

is that there have been drones reported

1220

00:41:31,190 --> 00:41:29,200

whether that's you know people have used

1221

00:41:32,829 --> 00:41:31,200

the word quadcopter and fixed-wing

1222

00:41:36,630 --> 00:41:32,839

drones um

1223

00:41:38,870 --> 00:41:36,640

so it's not necessarily in the same way

1224

00:41:41,349 --> 00:41:38,880

as they would say oh the uap is swamp

1225

00:41:43,990 --> 00:41:41,359

gas um you know it's it might not be

1226

00:41:45,349 --> 00:41:44,000

dismissive um but it's just another one

1227

00:41:47,510 --> 00:41:45,359

of these unknowns that we kind of have

1228

00:41:50,309 --> 00:41:47,520

to like spin and not knee-jerk reaction

1229

00:41:52,790 --> 00:41:50,319

to it doesn't matter whether it's uap or

1230

00:41:54,950 --> 00:41:52,800

whether it's drones it still needs to be

1231

00:41:56,470 --> 00:41:54,960

figured out because it's potentially

1232

00:41:59,430 --> 00:41:56,480

really really dangerous it's a really

1233

00:42:00,390 --> 00:41:59,440

serious incident um i also heard that

1234

00:42:01,430 --> 00:42:00,400

it's

1235

00:42:02,870 --> 00:42:01,440

someone

1236

00:42:04,950 --> 00:42:02,880

uh talk about

1237

00:42:06,230 --> 00:42:04,960

maybe they're monitoring a potential

1238

00:42:07,589 --> 00:42:06,240

nuclear leak

1239

00:42:08,790 --> 00:42:07,599

uh from from a plant there which i

1240

00:42:11,510 --> 00:42:08,800

thought was an interesting idea because

1241

00:42:13,109 --> 00:42:11,520

you could do it like that um but

1242

00:42:14,870 --> 00:42:13,119

i mean to that i just say that sweden

1243

00:42:16,870 --> 00:42:14,880

were the country that kind of alerted

1244

00:42:18,950 --> 00:42:16,880

everyone to what happened in chernobyl

1245

00:42:20,230 --> 00:42:18,960

when they detected it so i you know

1246

00:42:22,230 --> 00:42:20,240

they've convinced me that they're not

1247

00:42:24,470 --> 00:42:22,240

the kind to sweep that under the rug

1248

00:42:27,030 --> 00:42:24,480

yeah and link to that as well i suppose

1249

00:42:30,390 --> 00:42:27,040

was the news coming out about havana

1250

00:42:33,030 --> 00:42:30,400

syndrome where reports from from the us

1251  
00:42:35,109 --> 00:42:33,040  
are indicating more than likely that

1252  
00:42:37,109 --> 00:42:35,119  
it's not an attack by a foreign

1253  
00:42:38,309 --> 00:42:37,119  
adversary now again this doesn't

1254  
00:42:40,309 --> 00:42:38,319  
automatically lean it to being

1255  
00:42:42,069 --> 00:42:40,319  
extraterrestrial in nature or something

1256  
00:42:43,349 --> 00:42:42,079  
could still be very much a human

1257  
00:42:45,190 --> 00:42:43,359  
explanation

1258  
00:42:46,390 --> 00:42:45,200  
or a phenomenon on the earth that we're

1259  
00:42:48,710 --> 00:42:46,400  
not aware of

1260  
00:42:50,309 --> 00:42:48,720  
but it's havana syndrome is one of those

1261  
00:42:52,390 --> 00:42:50,319  
terms i think we're going to hear more

1262  
00:42:54,470 --> 00:42:52,400  
of in the coming year because i think

1263  
00:42:55,910 --> 00:42:54,480

it's got enough mainstream traction over

1264

00:42:57,829 --> 00:42:55,920

the last year or so

1265

00:42:59,990 --> 00:42:57,839

that there will be serious journalists

1266

00:43:02,150 --> 00:43:00,000

looking to pick up this story what my

1267

00:43:03,510 --> 00:43:02,160

hope is is is that i mean hopefully it

1268

00:43:05,670 --> 00:43:03,520

doesn't happen to anyone else because it

1269

00:43:07,829 --> 00:43:05,680

sounds pretty horrendous and pretty

1270

00:43:09,349 --> 00:43:07,839

horrific but if you get some serious

1271

00:43:11,430 --> 00:43:09,359

journalists who are picking this up from

1272

00:43:14,309 --> 00:43:11,440

a foreign affairs point of view or a

1273

00:43:16,870 --> 00:43:14,319

major political point of view that they

1274

00:43:18,790 --> 00:43:16,880

just by being involved with it

1275

00:43:21,750 --> 00:43:18,800

get some breadcrumbs or drawn into the

1276

00:43:23,670 --> 00:43:21,760

ufo topic and subject as part of it and

1277

00:43:25,670 --> 00:43:23,680

they they look at the links they look at

1278

00:43:28,069 --> 00:43:25,680

the potential and we get some serious

1279

00:43:29,990 --> 00:43:28,079

reporting from people who otherwise may

1280

00:43:32,630 --> 00:43:30,000

or may not have reported on it like more

1281

00:43:34,069 --> 00:43:32,640

roscoe tucks you know as much as ross is

1282

00:43:35,349 --> 00:43:34,079

larger than life in a character and

1283

00:43:38,150 --> 00:43:35,359

great to talk to

1284

00:43:40,150 --> 00:43:38,160

there might even be some more drier

1285

00:43:42,390 --> 00:43:40,160

you know

1286

00:43:43,349 --> 00:43:42,400

less charismatic people

1287

00:43:45,510 --> 00:43:43,359

out there

1288

00:43:47,190 --> 00:43:45,520

who start reporting on ufos

1289

00:43:48,630 --> 00:43:47,200

in a very very serious way as well which

1290

00:43:51,109 --> 00:43:48,640

could only be a good thing for the

1291

00:43:53,510 --> 00:43:51,119

subject yeah yeah potentially um the

1292

00:43:55,670 --> 00:43:53,520

news was interesting it was

1293

00:43:56,870 --> 00:43:55,680

uh that they they looked at about a

1294

00:43:58,710 --> 00:43:56,880

thousand cases and apparently the

1295

00:44:00,230 --> 00:43:58,720

majority were explained by stress or

1296

00:44:02,950 --> 00:44:00,240

natural causes which i guess would be

1297

00:44:05,030 --> 00:44:02,960

the cricket explanation that they uh had

1298

00:44:07,270 --> 00:44:05,040

a little while back um they're still

1299

00:44:09,430 --> 00:44:07,280

looking into about two dozen cases

1300

00:44:12,150 --> 00:44:09,440

where they say that foreign

1301

00:44:13,910 --> 00:44:12,160

state can't be ruled out but

1302

00:44:15,670 --> 00:44:13,920

again it seems to be that we've got a

1303

00:44:18,710 --> 00:44:15,680

data pile that can largely be explained

1304

00:44:21,349 --> 00:44:18,720

by prosaic means you know akin to

1305

00:44:23,829 --> 00:44:21,359

drone kind of data but there are these

1306

00:44:25,109 --> 00:44:23,839

outliers that are really intriguing and

1307

00:44:26,870 --> 00:44:25,119

seem to kind of

1308

00:44:29,349 --> 00:44:26,880

signify something new and something we

1309

00:44:30,630 --> 00:44:29,359

don't understand and as we look into

1310

00:44:32,230 --> 00:44:30,640

this more we're probably going to start

1311

00:44:33,990 --> 00:44:32,240

learning a bit more about you know this

1312

00:44:36,309 --> 00:44:34,000

phenomena what microwaves do to us so on

1313

00:44:38,870 --> 00:44:36,319

and so forth but i was relieved to see

1314

00:44:40,950 --> 00:44:38,880

that cia director um

1315

00:44:43,030 --> 00:44:40,960

said that basically they're not done at

1316

00:44:44,630 --> 00:44:43,040

all um so there's more news ahead of us

1317

00:44:47,589 --> 00:44:44,640

about that

1318

00:44:49,510 --> 00:44:47,599

excellent and to finish off dan uh linda

1319

00:44:51,270 --> 00:44:49,520

multan how appeared on the theories of

1320

00:44:52,550 --> 00:44:51,280

everything podcasts we interviewed and

1321

00:44:54,630 --> 00:44:52,560

you know what we've been very lucky to

1322

00:44:57,349 --> 00:44:54,640

keep in touch with the the very very

1323

00:44:59,670 --> 00:44:57,359

lovely cut dry mungo of of said youtube

1324

00:45:01,270 --> 00:44:59,680

channel it just passed 100 000

1325

00:45:04,150 --> 00:45:01,280

subscribers a couple of weeks ago it

1326  
00:45:07,190 --> 00:45:04,160  
seems and already it's 131 000. that's

1327  
00:45:10,069 --> 00:45:07,200  
just taking off and kurtza a fantastic

1328  
00:45:11,990 --> 00:45:10,079  
interviewer he has a wonderful knowledge

1329  
00:45:12,870 --> 00:45:12,000  
and patience for a range of subjects as

1330  
00:45:15,190 --> 00:45:12,880  
well

1331  
00:45:16,710 --> 00:45:15,200  
and for all the various topics and sub

1332  
00:45:19,109 --> 00:45:16,720  
topics and subjects i can't even

1333  
00:45:20,470 --> 00:45:19,119  
pronounce half the the areas to do them

1334  
00:45:23,430 --> 00:45:20,480  
justice

1335  
00:45:25,349 --> 00:45:23,440  
he has an interest now in in ufos and

1336  
00:45:27,510 --> 00:45:25,359  
he's bringing that into the conversation

1337  
00:45:29,750 --> 00:45:27,520  
in his own unique way

1338  
00:45:32,150 --> 00:45:29,760

needless to say if you look at his page

1339

00:45:35,030 --> 00:45:32,160

i've just opened it quickly just now if

1340

00:45:37,910 --> 00:45:35,040

you look at some of his other videos

1341

00:45:41,109 --> 00:45:37,920

his most popular videos

1342

00:45:44,950 --> 00:45:41,119

tend to be the ufo consciousness uap

1343

00:45:48,309 --> 00:45:44,960

tommed along um 315 thousand

1344

00:45:50,230 --> 00:45:48,319

uh linda martin how in one day is on 64

1345

00:45:52,470 --> 00:45:50,240

000 whereas the video uploaded the day

1346

00:45:54,870 --> 00:45:52,480

before is on six and a half thousand so

1347

00:45:56,790 --> 00:45:54,880

there is a huge audience it's a

1348

00:45:59,589 --> 00:45:56,800

testament to i think both kurt's

1349

00:46:01,910 --> 00:45:59,599

approach because he talks to you know

1350

00:46:03,829 --> 00:46:01,920

very serious people about very in very

1351  
00:46:06,150 --> 00:46:03,839  
serious ways you know he he approaches

1352  
00:46:08,390 --> 00:46:06,160  
with curiosity and and

1353  
00:46:10,630 --> 00:46:08,400  
kind of talks out the ideas there's no

1354  
00:46:12,309 --> 00:46:10,640  
judgment kind of in there and and i love

1355  
00:46:13,589 --> 00:46:12,319  
watching that and

1356  
00:46:16,069 --> 00:46:13,599  
seeing

1357  
00:46:18,230 --> 00:46:16,079  
that those videos uh you know more

1358  
00:46:19,910 --> 00:46:18,240  
viewed i i think that kind of shows that

1359  
00:46:21,910 --> 00:46:19,920  
there's a lot of people out there who

1360  
00:46:22,790 --> 00:46:21,920  
want this serious conversation

1361  
00:46:24,390 --> 00:46:22,800  
but

1362  
00:46:27,109 --> 00:46:24,400  
there's only places like this that they

1363  
00:46:28,470 --> 00:46:27,119

can find it right um you know these

1364

00:46:29,829 --> 00:46:28,480

people are going to be served as we go

1365

00:46:31,030 --> 00:46:29,839

forward and there's just more and more

1366

00:46:33,030 --> 00:46:31,040

stuff like this

1367

00:46:34,630 --> 00:46:33,040

yeah again just comparison that is

1368

00:46:37,910 --> 00:46:34,640

amazing as i look into it like ross

1369

00:46:39,349 --> 00:46:37,920

coulthard three months ago is on 920 000

1370

00:46:41,750 --> 00:46:39,359

views that's going to hit a million soon

1371

00:46:44,390 --> 00:46:41,760

enough at norm chomsky that was the

1372

00:46:46,790 --> 00:46:44,400

month before is on 48 000.

1373

00:46:49,030 --> 00:46:46,800

so it's kind of a shame as well because

1374

00:46:50,470 --> 00:46:49,040

folks like noam chomsky there are some

1375

00:46:52,309 --> 00:46:50,480

really interesting ideas in the

1376  
00:46:54,550 --> 00:46:52,319  
discussions about consciousness and

1377  
00:46:55,829 --> 00:46:54,560  
society and they're challenging like a

1378  
00:46:57,910 --> 00:46:55,839  
lot of stuff i have to go back and

1379  
00:46:59,829 --> 00:46:57,920  
listen to twice but they're fantastic

1380  
00:47:01,589 --> 00:46:59,839  
you know they're really kind of fruitful

1381  
00:47:03,589 --> 00:47:01,599  
in the way you think about things

1382  
00:47:05,190 --> 00:47:03,599  
yeah if you've got an interest in ufos

1383  
00:47:06,710 --> 00:47:05,200  
go and check out kurt's channel because

1384  
00:47:09,510 --> 00:47:06,720  
he's got some phenomenal interviews on

1385  
00:47:11,190 --> 00:47:09,520  
there as well but there are

1386  
00:47:12,710 --> 00:47:11,200  
countless other guests that you may or

1387  
00:47:13,910 --> 00:47:12,720  
may not know the names of i'm sure dan

1388  
00:47:15,829 --> 00:47:13,920

will throw out some suggestions if you

1389

00:47:17,829 --> 00:47:15,839

hit him up if you've got any particular

1390

00:47:19,910 --> 00:47:17,839

areas you want to hear about um that

1391

00:47:22,630 --> 00:47:19,920

curt has done some fantastic interviews

1392

00:47:25,270 --> 00:47:22,640

with he's got a great unique style he's

1393

00:47:27,589 --> 00:47:25,280

very very curious about everything as

1394

00:47:29,670 --> 00:47:27,599

the channel says and he's got a

1395

00:47:31,510 --> 00:47:29,680

wonderful way of asking questions i wish

1396

00:47:34,549 --> 00:47:31,520

i said before dan i'm not joking i wish

1397

00:47:36,790 --> 00:47:34,559

i was as articulate and you know a

1398

00:47:38,549 --> 00:47:36,800

quarter as intelligent as he is to to do

1399

00:47:40,069 --> 00:47:38,559

that um we're not going to go into all

1400

00:47:41,910 --> 00:47:40,079

the controversy surrounding how the

1401  
00:47:43,270 --> 00:47:41,920  
interview ended folks you can go and

1402  
00:47:46,549 --> 00:47:43,280  
watch it and you've no doubt heard

1403  
00:47:48,390 --> 00:47:46,559  
enough about it online um yourself

1404  
00:47:52,549 --> 00:47:48,400  
the interview

1405  
00:47:53,910 --> 00:47:52,559  
put a well-known figure in ufology

1406  
00:47:55,190 --> 00:47:53,920  
in the hot seat

1407  
00:47:57,430 --> 00:47:55,200  
and

1408  
00:48:00,390 --> 00:47:57,440  
how do i say this dan um

1409  
00:48:01,990 --> 00:48:00,400  
he asked very fair questions

1410  
00:48:03,270 --> 00:48:02,000  
and

1411  
00:48:05,430 --> 00:48:03,280  
i don't think the person being

1412  
00:48:06,950 --> 00:48:05,440  
interviewed necessarily appreciated all

1413  
00:48:08,630 --> 00:48:06,960

of the questions

1414

00:48:10,790 --> 00:48:08,640

this is why and i'll just say this

1415

00:48:12,790 --> 00:48:10,800

sometimes people ask me why don't you

1416

00:48:13,910 --> 00:48:12,800

have this person on the podcast or this

1417

00:48:15,910 --> 00:48:13,920

person

1418

00:48:17,750 --> 00:48:15,920

i think there's an element of and this

1419

00:48:21,190 --> 00:48:17,760

isn't just my show but other shows as

1420

00:48:23,030 --> 00:48:21,200

well there are individuals in this topic

1421

00:48:25,829 --> 00:48:23,040

and subject who who just don't put

1422

00:48:27,750 --> 00:48:25,839

themselves out anymore on most podcasts

1423

00:48:29,349 --> 00:48:27,760

not because they're too small or they

1424

00:48:30,790 --> 00:48:29,359

don't want to have a conversation it can

1425

00:48:33,990 --> 00:48:30,800

either be one they're not being paid to

1426

00:48:36,549 --> 00:48:34,000

do it or two they it doesn't fit their

1427

00:48:38,470 --> 00:48:36,559

narrative or how they want to talk about

1428

00:48:40,230 --> 00:48:38,480

the subject and when someone from

1429

00:48:41,510 --> 00:48:40,240

outside the subject like cart which is

1430

00:48:45,750 --> 00:48:41,520

fantastic

1431

00:48:47,910 --> 00:48:45,760

comes into question and really probe on

1432

00:48:50,230 --> 00:48:47,920

why don't you have this evidence or what

1433

00:48:51,910 --> 00:48:50,240

about this rather than maybe people like

1434

00:48:54,309 --> 00:48:51,920

myself and yourself dan who would take

1435

00:48:56,630 --> 00:48:54,319

things a little bit more at face value

1436

00:48:58,150 --> 00:48:56,640

cut looks for more and others like cut

1437

00:49:00,309 --> 00:48:58,160

look for more i would think a brian

1438

00:49:03,190 --> 00:49:00,319

keating and eric weinstein these guys

1439

00:49:05,510 --> 00:49:03,200

again would be very similar and the

1440

00:49:07,109 --> 00:49:05,520

interview kind of went as as i expected

1441

00:49:08,150 --> 00:49:07,119

it probably would

1442

00:49:11,190 --> 00:49:08,160

given

1443

00:49:13,030 --> 00:49:11,200

really

1444

00:49:13,750 --> 00:49:13,040

polite here and careful with how i word

1445

00:49:22,150 --> 00:49:13,760

it

1446

00:49:24,630 --> 00:49:22,160

yeah so i i think there are again some

1447

00:49:26,950 --> 00:49:24,640

ufo celebrities let's just let me just

1448

00:49:29,349 --> 00:49:26,960

name one okay steven greer won't come on

1449

00:49:31,030 --> 00:49:29,359

this podcast and other podcasts like it

1450

00:49:32,309 --> 00:49:31,040

because they won't like the questions to

1451

00:49:33,750 --> 00:49:32,319

get they won't like the listener

1452

00:49:35,349 --> 00:49:33,760

questions to get

1453

00:49:37,910 --> 00:49:35,359

i would be very objective i'd be

1454

00:49:39,349 --> 00:49:37,920

respectful but we know there's certain

1455

00:49:41,349 --> 00:49:39,359

things that aren't going to get answered

1456

00:49:44,150 --> 00:49:41,359

and yeah that's that's kind of how it

1457

00:49:47,589 --> 00:49:44,160

goes um these people make a lot of money

1458

00:49:49,270 --> 00:49:47,599

and are very comfortable living like

1459

00:49:50,710 --> 00:49:49,280

into the tens of thousands of hundreds

1460

00:49:51,829 --> 00:49:50,720

of thousands of dollars as we've seen

1461

00:49:53,430 --> 00:49:51,839

from some people's accounts that have

1462

00:49:54,470 --> 00:49:53,440

been published and that that's great

1463

00:49:56,790 --> 00:49:54,480

they've made

1464

00:49:57,990 --> 00:49:56,800  
made their money doing that but

1465

00:49:59,589 --> 00:49:58,000  
i think there comes a point does the

1466

00:50:03,109 --> 00:49:59,599  
truth stop and

1467

00:50:05,109 --> 00:50:03,119  
their truth begins and takes over

1468

00:50:06,870 --> 00:50:05,119  
yeah if i made sense with that dan i

1469

00:50:09,030 --> 00:50:06,880  
don't want to just ramble on here

1470

00:50:11,670 --> 00:50:09,040  
um yeah i'd rather not talk about it to

1471

00:50:15,270 --> 00:50:12,950  
are you doing an impression of linda at

1472

00:50:18,150 --> 00:50:15,280  
the end of that interview no i i just i

1473

00:50:20,470 --> 00:50:18,160  
i don't i don't think drama is content

1474

00:50:22,069 --> 00:50:20,480  
so i don't want to focus on

1475

00:50:24,870 --> 00:50:22,079  
the good information from the interview

1476  
00:50:26,790 --> 00:50:24,880  
which i think what was i had plenty uh

1477  
00:50:28,150 --> 00:50:26,800  
we we had um

1478  
00:50:29,829 --> 00:50:28,160  
you asked a really interesting question

1479  
00:50:33,030 --> 00:50:29,839  
about linda's kind of

1480  
00:50:34,790 --> 00:50:33,040  
position in the ufology and how she

1481  
00:50:36,710 --> 00:50:34,800  
feels that's changed over the decades

1482  
00:50:38,470 --> 00:50:36,720  
because it has you know as as we've had

1483  
00:50:40,069 --> 00:50:38,480  
the internet people put different things

1484  
00:50:42,549 --> 00:50:40,079  
up make cases kind of different

1485  
00:50:43,349 --> 00:50:42,559  
approaches and different evidence um

1486  
00:50:44,230 --> 00:50:43,359  
and

1487  
00:50:46,710 --> 00:50:44,240  
she

1488  
00:50:48,790 --> 00:50:46,720

what was the phrase uh it was ufology

1489

00:50:50,390 --> 00:50:48,800

means nothing to me which i thought was

1490

00:50:55,349 --> 00:50:50,400

pretty provocative i wanted to ask you

1491

00:50:58,230 --> 00:50:56,630

i think

1492

00:50:59,750 --> 00:50:58,240

that we know people that don't like the

1493

00:51:01,109 --> 00:50:59,760

term ufology as well don't we and

1494

00:51:02,790 --> 00:51:01,119

there's listeners that get in touch and

1495

00:51:04,069 --> 00:51:02,800

ufology has a different meaning to

1496

00:51:05,829 --> 00:51:04,079

different people i think it's like when

1497

00:51:07,109 --> 00:51:05,839

i ask that disclosure what does it mean

1498

00:51:09,910 --> 00:51:07,119

to you it's like

1499

00:51:11,750 --> 00:51:09,920

i i don't see ufology personally when i

1500

00:51:14,230 --> 00:51:11,760

talk about ufology it's just anyone

1501  
00:51:16,470 --> 00:51:14,240  
who's involved in the subject of ufos

1502  
00:51:19,109 --> 00:51:16,480  
but i think the way linda took it was

1503  
00:51:21,030 --> 00:51:19,119  
ufology as in that old school of you

1504  
00:51:22,710 --> 00:51:21,040  
just write books on aliens and you've

1505  
00:51:24,950 --> 00:51:22,720  
got a narrative and

1506  
00:51:27,109 --> 00:51:24,960  
but she does and and she she goes to the

1507  
00:51:28,790 --> 00:51:27,119  
expos in the conferences and and has the

1508  
00:51:30,549 --> 00:51:28,800  
talks and

1509  
00:51:32,710 --> 00:51:30,559  
is on documentaries like the observers

1510  
00:51:34,790 --> 00:51:32,720  
with the same talking heads you know the

1511  
00:51:35,910 --> 00:51:34,800  
the griers richard dolans

1512  
00:51:37,589 --> 00:51:35,920  
um

1513  
00:51:39,990 --> 00:51:37,599

these types of people so

1514

00:51:40,950 --> 00:51:40,000

i i didn't totally

1515

00:51:43,510 --> 00:51:40,960

get

1516

00:51:46,069 --> 00:51:43,520

why she said ufology means nothing to me

1517

00:51:47,589 --> 00:51:46,079

i'm sure if you again no problem with

1518

00:51:49,910 --> 00:51:47,599

anyone making money on this topic that's

1519

00:51:51,430 --> 00:51:49,920

not my point but ufologies made linda

1520

00:51:53,109 --> 00:51:51,440

moulton how a very comfortable living

1521

00:51:55,030 --> 00:51:53,119

and lifestyle over the years it's

1522

00:51:56,549 --> 00:51:55,040

allowed us to travel the world which

1523

00:51:58,390 --> 00:51:56,559

would be incredible you know dan you're

1524

00:51:59,829 --> 00:51:58,400

getting to do that for a very small

1525

00:52:03,030 --> 00:51:59,839

taste of that and people have been lucky

1526

00:52:06,230 --> 00:52:03,040

that they've helped you do that as well

1527

00:52:08,230 --> 00:52:06,240

to be involved in the subject though and

1528

00:52:09,349 --> 00:52:08,240

i just i was a little not disrespectful

1529

00:52:10,870 --> 00:52:09,359

to me but just to the question of you

1530

00:52:13,030 --> 00:52:10,880

know ufology means nothing that's a

1531

00:52:15,349 --> 00:52:13,040

nothing answer i would have absolutely

1532

00:52:18,069 --> 00:52:15,359

probed more on that as to well as

1533

00:52:19,829 --> 00:52:18,079

ufology not bought your house and can

1534

00:52:21,270 --> 00:52:19,839

you imagine justin bieber saying music

1535

00:52:23,750 --> 00:52:21,280

means nothing to me

1536

00:52:25,589 --> 00:52:23,760

yeah that's it yeah great analogy yeah

1537

00:52:27,430 --> 00:52:25,599

that's it it's like well it does it's

1538

00:52:30,630 --> 00:52:27,440

maybe you don't like the the way people

1539

00:52:32,470 --> 00:52:30,640

stigmatize ufology but it's it's what

1540

00:52:34,230 --> 00:52:32,480

you've been a part of and you're

1541

00:52:35,670 --> 00:52:34,240

inextricably linked with that's going to

1542

00:52:38,710 --> 00:52:35,680

be your legacy

1543

00:52:40,710 --> 00:52:38,720

um it got you on documentaries and it's

1544

00:52:42,390 --> 00:52:40,720

got you attached to no doubt many other

1545

00:52:44,870 --> 00:52:42,400

tv series that you've been involved with

1546

00:52:47,030 --> 00:52:44,880

and ancient aliens you tell me ancient

1547

00:52:50,230 --> 00:52:47,040

aliens isn't ufology

1548

00:52:53,190 --> 00:52:50,240

she was happy to talk about that and

1549

00:52:54,870 --> 00:52:53,200

her investigative journalism

1550

00:52:56,710 --> 00:52:54,880

again i suppose someone like cut would

1551  
00:52:57,750 --> 00:52:56,720  
be going in with like i would have as

1552  
00:52:59,670 --> 00:52:57,760  
well

1553  
00:53:01,670 --> 00:52:59,680  
investigative journalism with anonymous

1554  
00:53:03,670 --> 00:53:01,680  
sources is really really difficult when

1555  
00:53:04,870 --> 00:53:03,680  
that's all you've got to to quote on

1556  
00:53:06,710 --> 00:53:04,880  
this especially with some of the more

1557  
00:53:08,630 --> 00:53:06,720  
incredible claims as well but yeah yeah

1558  
00:53:10,069 --> 00:53:08,640  
100 agree i think it would have been

1559  
00:53:12,790 --> 00:53:10,079  
interesting to hear about how she vets

1560  
00:53:14,390 --> 00:53:12,800  
those sources um and maybe kind of

1561  
00:53:16,630 --> 00:53:14,400  
distinguishes between information she

1562  
00:53:17,910 --> 00:53:16,640  
thinks is unreliable and reliable not

1563  
00:53:18,870 --> 00:53:17,920

just because

1564

00:53:20,710 --> 00:53:18,880

you know

1565

00:53:22,630 --> 00:53:20,720

you want to catch her out but i want to

1566

00:53:23,910 --> 00:53:22,640

know those methods as well you know it

1567

00:53:25,190 --> 00:53:23,920

might be helpful to the community it

1568

00:53:26,470 --> 00:53:25,200

might be helpful to let somebody know

1569

00:53:27,750 --> 00:53:26,480

who maybe is

1570

00:53:29,430 --> 00:53:27,760

thinking about coming out and telling

1571

00:53:30,549 --> 00:53:29,440

their story what methods they can use to

1572

00:53:32,710 --> 00:53:30,559

kind of communicate these things

1573

00:53:35,270 --> 00:53:32,720

securely even just like what's what's

1574

00:53:37,510 --> 00:53:35,280

linda learned in our time like and that

1575

00:53:38,950 --> 00:53:37,520

was partly part of my question you know

1576

00:53:41,190 --> 00:53:38,960

what what have you learned as well in

1577

00:53:42,790 --> 00:53:41,200

2022 and things have changed and the

1578

00:53:45,750 --> 00:53:42,800

landscape's different to what it was in

1579

00:53:47,910 --> 00:53:45,760

the 80s and 90s even the 2000s

1580

00:53:50,069 --> 00:53:47,920

you know what could she pass on in terms

1581

00:53:51,349 --> 00:53:50,079

of knowledge and experience and

1582

00:53:53,190 --> 00:53:51,359

what are some of the pitfalls and

1583

00:53:55,109 --> 00:53:53,200

mistakes that she has made i mean god

1584

00:53:56,470 --> 00:53:55,119

dan i could dream of any number of

1585

00:53:58,470 --> 00:53:56,480

mistakes i've made in the early days

1586

00:54:00,390 --> 00:53:58,480

making this podcast from like an

1587

00:54:02,630 --> 00:54:00,400

interviewing style or questioning style

1588

00:54:04,230 --> 00:54:02,640

or technical style how many times have i

1589

00:54:07,430 --> 00:54:04,240

released an episode in the early days

1590

00:54:09,190 --> 00:54:07,440

where i never had my the correct mic

1591

00:54:10,790 --> 00:54:09,200

attached to the recording so it was

1592

00:54:12,390 --> 00:54:10,800

essentially recording from a webcam that

1593

00:54:13,270 --> 00:54:12,400

was too far away from me and sounded

1594

00:54:14,790 --> 00:54:13,280

awful

1595

00:54:16,150 --> 00:54:14,800

it's it's these little things where you

1596

00:54:18,150 --> 00:54:16,160

get out okay you learn from it and you

1597

00:54:20,150 --> 00:54:18,160

move on and people would be interested

1598

00:54:21,750 --> 00:54:20,160

in that but i think

1599

00:54:23,589 --> 00:54:21,760

maybe too much ego

1600

00:54:26,630 --> 00:54:23,599

involved at this point for for some

1601  
00:54:27,829 --> 00:54:26,640  
people like linda grier others

1602  
00:54:32,309 --> 00:54:27,839  
to

1603  
00:54:35,430 --> 00:54:32,319  
mistakes or they have made mistakes

1604  
00:54:37,190 --> 00:54:35,440  
yeah and it is i think a part of it is

1605  
00:54:39,670 --> 00:54:37,200  
and you and i spend a lot of time doing

1606  
00:54:42,230 --> 00:54:39,680  
this just forming questions in a way

1607  
00:54:44,150 --> 00:54:42,240  
where we kind of try and get an actual

1608  
00:54:44,870 --> 00:54:44,160  
answer as opposed to just a reaction you

1609  
00:54:47,510 --> 00:54:44,880  
know

1610  
00:54:49,670 --> 00:54:47,520  
and it's not always perfect no no no um

1611  
00:54:51,109 --> 00:54:49,680  
but that's kind of the issue with live

1612  
00:54:52,390 --> 00:54:51,119  
streaming when you kind of take

1613  
00:54:54,789 --> 00:54:52,400

questions from the audience sometimes

1614

00:54:57,510 --> 00:54:54,799

they aren't phrased in the best way um

1615

00:54:59,510 --> 00:54:57,520

and they can be misconstrued you know

1616

00:55:02,470 --> 00:54:59,520

yeah um but

1617

00:55:04,309 --> 00:55:02,480

it it was what it was i i hope continues

1618

00:55:07,430 --> 00:55:04,319

to do the ufo podcast that he's been

1619

00:55:09,750 --> 00:55:07,440

doing he has um obviously contacts and a

1620

00:55:11,910 --> 00:55:09,760

huge name and when you see someone like

1621

00:55:15,109 --> 00:55:11,920

kurt's channel with 130 plus thousand

1622

00:55:17,670 --> 00:55:15,119

subscribers he will get people

1623

00:55:19,910 --> 00:55:17,680

far easier to go on those channels than

1624

00:55:21,670 --> 00:55:19,920

than we can or other channels that do do

1625

00:55:24,470 --> 00:55:21,680

what we do as well so not that we don't

1626

00:55:25,750 --> 00:55:24,480

keep asking but his his next guest or

1627

00:55:27,670 --> 00:55:25,760

one of his next guests i should say i'm

1628

00:55:29,829 --> 00:55:27,680

not sure if it's his next next guest uh

1629

00:55:32,230 --> 00:55:29,839

is salvatore pai uh the author of the

1630

00:55:33,910 --> 00:55:32,240

ufo patent and there's been a lot of

1631

00:55:35,670 --> 00:55:33,920

discussion about those so that's sure to

1632

00:55:37,349 --> 00:55:35,680

be a really interesting discussion about

1633

00:55:38,870 --> 00:55:37,359

whether that system works whether it's

1634

00:55:40,549 --> 00:55:38,880

demonstrated you know what that guy's

1635

00:55:43,190 --> 00:55:40,559

doing now uh because he went to work for

1636

00:55:45,670 --> 00:55:43,200

the air force after this so very curious

1637

00:55:47,430 --> 00:55:45,680

kind of you know story there and i'm

1638

00:55:49,030 --> 00:55:47,440

sure that'll be enlightening

1639

00:55:50,630 --> 00:55:49,040

yeah and on that interview if you've

1640

00:55:52,870 --> 00:55:50,640

listened to it we discussed it in the

1641

00:55:54,470 --> 00:55:52,880

discord chat with with the listeners and

1642

00:55:56,150 --> 00:55:54,480

it's split opinion on different people

1643

00:55:57,510 --> 00:55:56,160

and again it's fine to disagree folks

1644

00:55:59,430 --> 00:55:57,520

some of you listening to this will agree

1645

00:56:01,270 --> 00:55:59,440

and disagree with with what dan and i

1646

00:56:03,510 --> 00:56:01,280

think about it as well it's

1647

00:56:05,910 --> 00:56:03,520

i suppose one of the reasons again we we

1648

00:56:07,510 --> 00:56:05,920

have a range of content on this topic

1649

00:56:09,589 --> 00:56:07,520

and you can go and listen to other shows

1650

00:56:12,230 --> 00:56:09,599

and channels and and put those kind of

1651  
00:56:14,230 --> 00:56:12,240  
opinions together as well so yeah well

1652  
00:56:16,789 --> 00:56:14,240  
done to cut for that interview um fair

1653  
00:56:19,589 --> 00:56:16,799  
play to linda for going on that channel

1654  
00:56:21,030 --> 00:56:19,599  
um and putting herself out there to to a

1655  
00:56:23,030 --> 00:56:21,040  
large audience

1656  
00:56:24,390 --> 00:56:23,040  
for for that conversation and discussion

1657  
00:56:25,670 --> 00:56:24,400  
as well so yeah

1658  
00:56:27,430 --> 00:56:25,680  
yeah i'd love to hear people's thoughts

1659  
00:56:29,349 --> 00:56:27,440  
on it there were some interesting things

1660  
00:56:32,230 --> 00:56:29,359  
mentioned about the bismuth magnesium

1661  
00:56:34,870 --> 00:56:32,240  
arts parts um they're kind of the chain

1662  
00:56:36,230 --> 00:56:34,880  
of custody of that over time has been

1663  
00:56:37,589 --> 00:56:36,240

kind of all over the place you know in

1664

00:56:39,430 --> 00:56:37,599

many different articles and things like

1665

00:56:40,789 --> 00:56:39,440

that but in this interview you kind of

1666

00:56:41,750 --> 00:56:40,799

get the whole thing from linda's point

1667

00:56:43,589 --> 00:56:41,760

of view

1668

00:56:46,470 --> 00:56:43,599

and she talks about why she sold it to

1669

00:56:48,150 --> 00:56:46,480

ttsa uh which i'd never heard her kind

1670

00:56:49,430 --> 00:56:48,160

of say before but she she just explained

1671

00:56:51,030 --> 00:56:49,440

that basically she doesn't have the

1672

00:56:52,950 --> 00:56:51,040

capability to do the testing on it

1673

00:56:54,390 --> 00:56:52,960

herself so when the army kind of say

1674

00:56:57,030 --> 00:56:54,400

yeah hey we can throw terror here to

1675

00:56:58,789 --> 00:56:57,040

that and kind of see see what happens um

1676  
00:57:00,789 --> 00:56:58,799  
she thought hey maybe that's a good idea

1677  
00:57:03,510 --> 00:57:00,799  
she even alluded to maybe still having a

1678  
00:57:05,270 --> 00:57:03,520  
piece of that um so that if they prove

1679  
00:57:07,430 --> 00:57:05,280  
that that's true then she kind of still

1680  
00:57:09,270 --> 00:57:07,440  
has a piece to go public with uh which i

1681  
00:57:10,950 --> 00:57:09,280  
thought was kind of you know interesting

1682  
00:57:12,870 --> 00:57:10,960  
um i'd like to ask her if she does

1683  
00:57:14,630 --> 00:57:12,880  
definitely have a piece and see it

1684  
00:57:15,910 --> 00:57:14,640  
and it's also fair dan to say that you

1685  
00:57:17,670 --> 00:57:15,920  
know she sold it for was it thirty

1686  
00:57:19,670 --> 00:57:17,680  
thousand dollars three thousand dollars

1687  
00:57:21,589 --> 00:57:19,680  
yeah yeah so again in your late

1688  
00:57:23,109 --> 00:57:21,599

seventies you don't have that equipment

1689

00:57:25,190 --> 00:57:23,119

you've got a cool

1690

00:57:27,430 --> 00:57:25,200

piece of something potentially very

1691

00:57:30,390 --> 00:57:27,440

special potentially not

1692

00:57:32,069 --> 00:57:30,400

then why not hand it off take take that

1693

00:57:33,349 --> 00:57:32,079

money that you can

1694

00:57:38,870 --> 00:57:33,359

and

1695

00:57:42,069 --> 00:57:38,880

stuff that you would you would look to

1696

00:57:43,670 --> 00:57:42,079

do so um so yeah so i would recommend

1697

00:57:45,829 --> 00:57:43,680

people go and check out check out kurt's

1698

00:57:47,510 --> 00:57:45,839

channel subscribe he's a really good guy

1699

00:57:50,230 --> 00:57:47,520

and um please let us know your thoughts

1700

00:57:51,829 --> 00:57:50,240

and we'll discuss them in future um dan

1701  
00:57:53,829 --> 00:57:51,839  
just before we finish up anything you

1702  
00:57:55,349 --> 00:57:53,839  
want to

1703  
00:57:56,789 --> 00:57:55,359  
no i think that's everything i guess

1704  
00:57:58,230 --> 00:57:56,799  
we'll do another breaking news you know

1705  
00:57:59,430 --> 00:57:58,240  
in an hour if there anything else

1706  
00:58:02,950 --> 00:57:59,440  
happens

1707  
00:58:04,630 --> 00:58:02,960  
yeah i i hope not but we're too busy

1708  
00:58:06,150 --> 00:58:04,640  
so listen just to remind folks that

1709  
00:58:08,230 --> 00:58:06,160  
coming up this week i've got john

1710  
00:58:09,990 --> 00:58:08,240  
ramirez back for a listener questions

1711  
00:58:12,150 --> 00:58:10,000  
show with him because we didn't get too

1712  
00:58:16,789 --> 00:58:12,160  
many of listener questions last time so

1713  
00:58:18,789 --> 00:58:16,799

email those over to ufo uap am gmail.com

1714

00:58:21,030 --> 00:58:18,799

or if you dm me those i can i can take

1715

00:58:22,470 --> 00:58:21,040

them but ideally email with the name of

1716

00:58:23,670 --> 00:58:22,480

the guest and the subject that really

1717

00:58:25,670 --> 00:58:23,680

helps me out

1718

00:58:27,829 --> 00:58:25,680

i'm getting more and more stuff sent

1719

00:58:29,670 --> 00:58:27,839

over which again is fantastic but you

1720

00:58:31,109 --> 00:58:29,680

know it's a gift and a curse because

1721

00:58:32,470 --> 00:58:31,119

stuff's going into my spam and i'm

1722

00:58:35,030 --> 00:58:32,480

missing stuff and all that kind of thing

1723

00:58:36,870 --> 00:58:35,040

as well um then tim mcmillan is joining

1724

00:58:38,630 --> 00:58:36,880

us next friday and that will be out the

1725

00:58:41,190 --> 00:58:38,640

following week but you'll get that early

1726

00:58:42,950 --> 00:58:41,200

access and ad free on patreon or if you

1727

00:58:44,710 --> 00:58:42,960

sign up via apple premium or if you're

1728

00:58:47,990 --> 00:58:44,720

on spotify you have to search for that

1729

00:58:49,670 --> 00:58:48,000

ufo podcast premium remember and also

1730

00:58:52,789 --> 00:58:49,680

we'll be recording before dan goes off

1731

00:58:54,789 --> 00:58:52,799

to columbia tom part 1.5 which is the

1732

00:58:56,870 --> 00:58:54,799

listener section of the tom de long part

1733

00:58:58,710 --> 00:58:56,880

one that's a good idea i like the 1.5

1734

00:59:01,589 --> 00:58:58,720

thing because yeah

1735

00:59:03,829 --> 00:59:01,599

let me just clear up again folks because

1736

00:59:05,910 --> 00:59:03,839

i got a tiny bit of abuse didn't i done

1737

00:59:07,829 --> 00:59:05,920

for people people who thought it was an

1738

00:59:09,589 --> 00:59:07,839

interview with tom delong even though

1739

00:59:11,829 --> 00:59:09,599

the description clearly said it was me

1740

00:59:14,950 --> 00:59:11,839

and your profiling

1741

00:59:16,230 --> 00:59:14,960

and it said profile tom delong um some

1742

00:59:17,750 --> 00:59:16,240

people

1743

00:59:19,430 --> 00:59:17,760

said i i don't mind debbie's folks it

1744

00:59:20,630 --> 00:59:19,440

doesn't bother me but it was funny where

1745

00:59:22,789 --> 00:59:20,640

like a message would go on people who

1746

00:59:24,150 --> 00:59:22,799

still think it's an interview

1747

00:59:25,990 --> 00:59:24,160

did they not think i would have been

1748

00:59:28,470 --> 00:59:26,000

building this up for ages if i was like

1749

00:59:29,829 --> 00:59:28,480

tom delong's coming on the podcast yeah

1750

00:59:32,309 --> 00:59:29,839

yes

1751

00:59:34,230 --> 00:59:32,319

andy did do everything he could to uh to

1752

00:59:35,670 --> 00:59:34,240

make that clear in a lot of different

1753

00:59:37,510 --> 00:59:35,680

ways especially once people started

1754

00:59:40,390 --> 00:59:37,520

asking about it i put it in youtube chat

1755

00:59:41,990 --> 00:59:40,400

and stuff like that so yeah just it's

1756

00:59:43,829 --> 00:59:42,000

we're profiling a bunch of big players

1757

00:59:46,069 --> 00:59:43,839

in uap and they're going to be called

1758

00:59:49,589 --> 00:59:46,079

profile shows tom is the first one and

1759

00:59:51,270 --> 00:59:49,599

we're up to uh where he launched ccsa

1760

00:59:52,950 --> 00:59:51,280

yep and that'll be part two we'll record

1761

00:59:55,030 --> 00:59:52,960

that before dan goes off to colombia so

1762

00:59:57,430 --> 00:59:55,040

that'll be available soon as well um but

1763

00:59:58,710 --> 00:59:57,440

also this week as a special bonus just

1764

01:00:00,390 --> 00:59:58,720

to waste some more of my time i mean

1765

01:00:02,390 --> 01:00:00,400

take up some more of my time dan and

1766

01:00:04,150 --> 01:00:02,400

vinnie are both going to jump on and

1767

01:00:06,230 --> 01:00:04,160

we're going to record a chat about uh

1768

01:00:07,750 --> 01:00:06,240

their trip their preparation for it what

1769

01:00:10,150 --> 01:00:07,760

they're expecting it'll be a really

1770

01:00:12,069 --> 01:00:10,160

casual conversation as well i'm looking

1771

01:00:14,069 --> 01:00:12,079

forward to that um

1772

01:00:16,230 --> 01:00:14,079

we might even do like a youtube live

1773
