UFOs and the CIA

DATE Sunday - January 30 2022

HOST George Knapp

GUESTS James Semivan, John Ramirez

Havana Syndrome may be caused 'directed energy'

By Gordon Greer

THE BREAKDOWN

CHRIS MELLON USAF DEBRIEF ARTICLE, JIM SEMIVAN ON COAST TO COAST & MORE

1
00:00:00,000 --> 00:00:05,510

[Music]

2
00:00:08,790 --> 00:00:07,030

there's a whole fleet of of look on the

3
00:00:10,950 --> 00:00:08,800

sa

4
00:00:14,310 --> 00:00:10,960

my gosh they're all going against the

5
00:00:18,950 --> 00:00:16,390

it was basically a cube with inside of

6
00:00:23,910 --> 00:00:18,960

sphere where the points of the cube

7
00:00:37,190 --> 00:00:33,450

[Music]

8
00:00:38,709 --> 00:00:37,200

[Applause]

9
00:00:40,950 --> 00:00:38,719

so this isn't anything that just is

10
00:00:49,110 --> 00:00:40,960

limited to the united states it's a

11
00:00:53,830 --> 00:00:51,350

hi everyone and welcome back to that ufo

12
00:00:56,069 --> 00:00:53,840

podcast it's your breakdown for early

13
00:00:57,830 --> 00:00:56,079

february 2022

14

00:00:59,189 --> 00:00:57,840

joining me as always we've got dan how

15

00:01:01,189 --> 00:00:59,199

are we doing today

16

00:01:02,630 --> 00:01:01,199

i am great thank you very much uh we

17

00:01:05,030 --> 00:01:02,640

we've got a lot to talk about lots

18

00:01:06,950 --> 00:01:05,040

happening we have daniel looking sharp

19

00:01:08,630 --> 00:01:06,960

on your on your screen there literally

20

00:01:09,830 --> 00:01:08,640

the camera's better the camera is

21

00:01:11,350 --> 00:01:09,840

literally better because you've got your

22

00:01:12,789 --> 00:01:11,360

new macbook so

23

00:01:14,630 --> 00:01:12,799

no longer is there going to be steam

24

00:01:17,510 --> 00:01:14,640

coming off as you spend 12 weeks

25

00:01:19,030 --> 00:01:17,520

rendering a youtube video no hopefully i

26

00:01:21,270 --> 00:01:19,040

mean i'll be paying off for a while yeah

27

00:01:22,870 --> 00:01:21,280

but i i think the uh

28

00:01:24,230 --> 00:01:22,880

it'll it'll pay for itself over time we

29

00:01:25,830 --> 00:01:24,240

should be able to produce just more

30

00:01:27,670 --> 00:01:25,840

content for people especially with the

31

00:01:29,830 --> 00:01:27,680

columbia trip so it's uh it's great to

32

00:01:32,069 --> 00:01:29,840

have uh to help me with that

33

00:01:33,749 --> 00:01:32,079

yeah uh so that that's a must-have and i

34

00:01:35,510 --> 00:01:33,759

upgraded the pc i posted that on the

35

00:01:37,429 --> 00:01:35,520

patreon so anyone who does support the

36

00:01:39,109 --> 00:01:37,439

podcast thank you because you've helped

37

00:01:41,109 --> 00:01:39,119

us do that and i've upgraded the pc so

38

00:01:42,469 --> 00:01:41,119

it goes a little bit faster i'm going to

39

00:01:44,069 --> 00:01:42,479

start taking on some of the video

40

00:01:45,990 --> 00:01:44,079

editing and doing some other little bits

41

00:01:47,510 --> 00:01:46,000

and pieces myself as well

42

00:01:49,109 --> 00:01:47,520

it does make a big big difference to

43

00:01:51,429 --> 00:01:49,119

getting the content now i actually do

44

00:01:52,789 --> 00:01:51,439

have a new camera as well but it's been

45

00:01:54,389 --> 00:01:52,799

in the packet for about three or four

46

00:01:56,709 --> 00:01:54,399

weeks now um

47

00:01:58,149 --> 00:01:56,719

because it's a bit more fidgety to set

48

00:02:00,709 --> 00:01:58,159

up but it'll be better than this this

49

00:02:02,630 --> 00:02:00,719

webcam um you'll see a bit more of the

50

00:02:04,149 --> 00:02:02,640

illustrious background that i have and

51
00:02:06,149 --> 00:02:04,159
all that but yes thank you to everyone

52
00:02:08,550 --> 00:02:06,159
that supported and everything else a lot

53
00:02:11,110 --> 00:02:08,560
to get through uh and the the show we've

54
00:02:13,510 --> 00:02:11,120
got today dan so chris mellon's article

55
00:02:15,830 --> 00:02:13,520
has just dropped on the debrief.org why

56
00:02:17,430 --> 00:02:15,840
is the air force a wall on the uap issue

57
00:02:19,110 --> 00:02:17,440
we're going to start off with that we're

58
00:02:20,949 --> 00:02:19,120
then going to look at jim's semivans

59
00:02:22,949 --> 00:02:20,959
appearance on coast to coast this past

60
00:02:24,710 --> 00:02:22,959
weekend and a lot of cool nuggets of

61
00:02:26,949 --> 00:02:24,720
information and there jim semivan

62
00:02:28,949 --> 00:02:26,959
doesn't do a whole load of interviews

63
00:02:30,790 --> 00:02:28,959

unfortunately for us maybe that's one

64

00:02:32,550 --> 00:02:30,800

for the bucket list this year um we're

65

00:02:34,470 --> 00:02:32,560

going to look at havana syndrome which

66

00:02:36,229 --> 00:02:34,480

is something that still pertains within

67

00:02:38,309 --> 00:02:36,239

the media even the mainstream that

68

00:02:40,470 --> 00:02:38,319

that's not going away we're then going

69

00:02:43,270 --> 00:02:40,480

to finish with one of your now famous

70

00:02:46,470 --> 00:02:43,280

stan as i'm calling it no one else james

71

00:02:48,390 --> 00:02:46,480

webb telescope updates um because you'll

72

00:02:50,390 --> 00:02:48,400

be talking about the mirror alignment

73

00:02:52,790 --> 00:02:50,400

that's happening that'll be a short but

74

00:02:54,869 --> 00:02:52,800

sweet uh segment uh we'll then tell you

75

00:02:56,630 --> 00:02:54,879

about a uk ufo report you can get

76

00:02:59,110 --> 00:02:56,640

through our friends at ufo identify dot

77

00:03:00,869 --> 00:02:59,120

co dot uk and then what's to come with

78

00:03:02,550 --> 00:03:00,879

the rest of the podcast as well but dan

79

00:03:05,350 --> 00:03:02,560

let's get right into it so

80

00:03:07,990 --> 00:03:05,360

a little unexpectedly chris melon former

81

00:03:10,229 --> 00:03:08,000

under secretary of defense as we know a

82

00:03:12,149 --> 00:03:10,239

huge proponent and advocate of the uap

83

00:03:13,270 --> 00:03:12,159

issue as he has been these last years

84

00:03:15,270 --> 00:03:13,280

especially

85

00:03:17,830 --> 00:03:15,280

released an article on the debrief as i

86

00:03:19,589 --> 00:03:17,840

said titled why is the air force awol on

87

00:03:22,550 --> 00:03:19,599

the uap issue

88

00:03:25,350 --> 00:03:22,560

pretty damning um article in terms of

89

00:03:27,589 --> 00:03:25,360

it's it's almost an attack on the us air

90

00:03:29,270 --> 00:03:27,599

force um which

91

00:03:31,350 --> 00:03:29,280

chris being a patriot and an american

92

00:03:33,270 --> 00:03:31,360

himself will be no light thing for him

93

00:03:35,589 --> 00:03:33,280

to call out but he does it in a pretty

94

00:03:37,589 --> 00:03:35,599

incredible fashion as we record the

95

00:03:39,190 --> 00:03:37,599

stand i've spent a whole day recording

96

00:03:40,630 --> 00:03:39,200

doing podcast stuff as you know took a

97

00:03:42,070 --> 00:03:40,640

day off work for it

98

00:03:43,670 --> 00:03:42,080

and i've done an interview with tim

99

00:03:45,589 --> 00:03:43,680

mcmillan which we were recording for

100

00:03:47,589 --> 00:03:45,599

almost three hours over over two

101
00:03:49,910 --> 00:03:47,599
sections and we go into this in a lot of

102
00:03:51,830 --> 00:03:49,920
detail so um around mid-february

103
00:03:53,830 --> 00:03:51,840
valentine's day how romantic that'll

104
00:03:55,830 --> 00:03:53,840
that'll be released it'll be up early

105
00:03:57,910 --> 00:03:55,840
and add free early access all that stuff

106
00:03:59,589 --> 00:03:57,920
on the patreon and things from today but

107
00:04:01,429 --> 00:03:59,599
we go into that in a lot of detail there

108
00:04:03,670 --> 00:04:01,439
as well obviously the debrief has that

109
00:04:05,270 --> 00:04:03,680
working relationship now with chris

110
00:04:06,949 --> 00:04:05,280
but but yeah what did you think then

111
00:04:07,670 --> 00:04:06,959
when you saw this dropping

112
00:04:09,190 --> 00:04:07,680
uh

113
00:04:11,270 --> 00:04:09,200

it's it's amazing like we've been

114

00:04:13,589 --> 00:04:11,280

waiting for since biden signed the bill

115

00:04:15,429 --> 00:04:13,599

we've been waiting for the next kind of

116

00:04:18,229 --> 00:04:15,439

carry-on call you know where to focus

117

00:04:20,069 --> 00:04:18,239

our attention and i feel like chris you

118

00:04:22,390 --> 00:04:20,079

know this article could have been uh

119

00:04:24,950 --> 00:04:22,400

headlined painting a target for people

120

00:04:26,710 --> 00:04:24,960

um because he's reminding us as a

121

00:04:28,950 --> 00:04:26,720

community through the debrief that the

122

00:04:32,150 --> 00:04:28,960

air force is not playing ball still

123

00:04:33,270 --> 00:04:32,160

after you know 70 odd years of it um and

124

00:04:34,230 --> 00:04:33,280

he's also

125

00:04:36,469 --> 00:04:34,240

getting

126
00:04:37,909 --> 00:04:36,479
to the people to the right people who uh

127
00:04:40,629 --> 00:04:37,919
like you know probably jill brand and

128
00:04:43,830 --> 00:04:40,639
people like that um and reminding those

129
00:04:45,670 --> 00:04:43,840
guys that there was language in the bill

130
00:04:47,189 --> 00:04:45,680
that basically says

131
00:04:49,590 --> 00:04:47,199
for every report now that's coming out

132
00:04:52,150 --> 00:04:49,600
so october 31st when the first

133
00:04:53,830 --> 00:04:52,160
new office report comes out um they've

134
00:04:55,430 --> 00:04:53,840
been directed to name and shame people

135
00:04:57,510 --> 00:04:55,440
that aren't an organized people and

136
00:05:00,629 --> 00:04:57,520
organizations that aren't playing ball

137
00:05:03,510 --> 00:05:00,639
so this is kind of the the opening shot

138
00:05:06,070 --> 00:05:03,520

of that i suppose and uh yeah chris

139

00:05:08,150 --> 00:05:06,080

takes uh no prisoners as he as he tears

140

00:05:10,469 --> 00:05:08,160

through that and accuses them um and i

141

00:05:11,990 --> 00:05:10,479

think i would agree rightly so um you

142

00:05:13,189 --> 00:05:12,000

know wonders if

143

00:05:15,670 --> 00:05:13,199

they're

144

00:05:17,830 --> 00:05:15,680

even responsive to some kind of

145

00:05:18,950 --> 00:05:17,840

civilian oversight

146

00:05:20,550 --> 00:05:18,960

i am

147

00:05:22,950 --> 00:05:20,560

the first thing that took my my

148

00:05:24,870 --> 00:05:22,960

attention was chris mellon are we to

149

00:05:29,350 --> 00:05:24,880

believe that the u.s air force did not

150

00:05:31,590 --> 00:05:29,360

detect any uep from 2004 until 2021 this

151
00:05:33,430 --> 00:05:31,600
lapse in u.s air force reporting raises

152
00:05:35,670 --> 00:05:33,440
doubts about the credibility of the air

153
00:05:38,150 --> 00:05:35,680
force on the uap issue and its

154
00:05:39,830 --> 00:05:38,160
responsiveness to civilian oversight

155
00:05:42,230 --> 00:05:39,840
chris mellon's calling out the us air

156
00:05:43,749 --> 00:05:42,240
force at that point because the way i i

157
00:05:46,310 --> 00:05:43,759
feel the tone and i said this to tim

158
00:05:47,990 --> 00:05:46,320
mcmillan of the article it's almost like

159
00:05:49,990 --> 00:05:48,000
you're scalding a child that you know

160
00:05:51,430 --> 00:05:50,000
has done something naughty and they're

161
00:05:53,590 --> 00:05:51,440
keeping it secret and you know they're

162
00:05:56,309 --> 00:05:53,600
lying to you and they're continuing to

163
00:05:58,469 --> 00:05:56,319

lie to your face but you you talk down

164

00:06:00,150 --> 00:05:58,479

to them almost and you know i would be

165

00:06:02,469 --> 00:06:00,160

shocked if you were doing this and i'm

166

00:06:03,590 --> 00:06:02,479

really disappointed if this is the case

167

00:06:05,189 --> 00:06:03,600

and

168

00:06:06,870 --> 00:06:05,199

almost

169

00:06:09,430 --> 00:06:06,880

calling on them to rally on their pride

170

00:06:11,590 --> 00:06:09,440

a little bit by saying well you must

171

00:06:13,110 --> 00:06:11,600

have saw something i mean have you not

172

00:06:14,870 --> 00:06:13,120

look at all this equipment you've got

173

00:06:16,550 --> 00:06:14,880

and this is he talks about just the

174

00:06:18,550 --> 00:06:16,560

unclassified stuff that he can talk

175

00:06:20,230 --> 00:06:18,560

about that's right and he lists a few of

176

00:06:22,309 --> 00:06:20,240

those the space fence which is the

177

00:06:25,270 --> 00:06:22,319

world's most advanced radar tracking

178

00:06:27,670 --> 00:06:25,280

over 25 000 objects in orbit reportedly

179

00:06:30,309 --> 00:06:27,680

some as small as a marble um

180

00:06:32,790 --> 00:06:30,319

crazy system right and then some of the

181

00:06:34,629 --> 00:06:32,800

the radars um around the princeton and

182

00:06:36,230 --> 00:06:34,639

stuff like that uh

183

00:06:39,510 --> 00:06:36,240

had similar capabilities you know they

184

00:06:41,189 --> 00:06:39,520

could they could track tiny tiny objects

185

00:06:44,469 --> 00:06:41,199

they talked about the solid state phased

186

00:06:46,950 --> 00:06:44,479

array radar system um which is they are

187

00:06:48,309 --> 00:06:46,960

to detect icbms intercontinental

188

00:06:51,029 --> 00:06:48,319

ballistic missiles or sea launched

189

00:06:52,230 --> 00:06:51,039

myself at the us again talking about

190

00:06:53,990 --> 00:06:52,240

these would

191

00:06:57,029 --> 00:06:54,000

it's not their job but they would pick

192

00:06:59,830 --> 00:06:57,039

up objects like tic tacs and others

193

00:07:02,070 --> 00:06:59,840

coming in potentially um the global

194

00:07:04,070 --> 00:07:02,080

infrasound acoustic monitoring network

195

00:07:06,150 --> 00:07:04,080

which is there to detect pressure waves

196

00:07:08,150 --> 00:07:06,160

in the atmosphere for detecting nuclear

197

00:07:09,589 --> 00:07:08,160

explosions monitoring north korea

198

00:07:11,270 --> 00:07:09,599

countries like that

199

00:07:13,110 --> 00:07:11,280

the us space surveillance network the

200

00:07:15,350 --> 00:07:13,120

space-based infrared

201
00:07:17,350 --> 00:07:15,360
system active electronically scanned

202
00:07:19,350 --> 00:07:17,360
array radars the federal aviation

203
00:07:20,309 --> 00:07:19,360
administration and other surveillance

204
00:07:21,990 --> 00:07:20,319
systems

205
00:07:24,469 --> 00:07:22,000
chris mellon's rhymed off a load of

206
00:07:25,909 --> 00:07:24,479
things there not including all the other

207
00:07:27,909 --> 00:07:25,919
really really good stuff that we don't

208
00:07:29,110 --> 00:07:27,919
know about that he does know about but

209
00:07:30,950 --> 00:07:29,120
shouldn't

210
00:07:32,390 --> 00:07:30,960
and he's basically calling out that come

211
00:07:34,070 --> 00:07:32,400
on air force you've got all this stuff

212
00:07:35,830 --> 00:07:34,080
and you're picking up nothing you're

213
00:07:38,309 --> 00:07:35,840

clearly lying about this and withholding

214

00:07:39,830 --> 00:07:38,319

information back so for me it's it shots

215

00:07:42,790 --> 00:07:39,840

across the bow from chris melon to the

216

00:07:44,469 --> 00:07:42,800

uscr 4 stand yeah definitely he even

217

00:07:46,550 --> 00:07:44,479

points out that the

218

00:07:48,629 --> 00:07:46,560

the air force train in the same areas as

219

00:07:50,550 --> 00:07:48,639

the navy so where all these incursions

220

00:07:52,309 --> 00:07:50,560

and encounters have been reported by the

221

00:07:53,830 --> 00:07:52,319

navy the the air force is kind of

222

00:07:56,070 --> 00:07:53,840

pretending they haven't seen anything in

223

00:07:57,430 --> 00:07:56,080

the same areas which is again a bit

224

00:08:00,070 --> 00:07:57,440

crazy right

225

00:08:01,830 --> 00:08:00,080

let me ask you then then the

226

00:08:03,670 --> 00:08:01,840

the air force if you're reading into

227

00:08:05,830 --> 00:08:03,680

this article the way i think we should

228

00:08:08,710 --> 00:08:05,840

chris melon saying when those events

229

00:08:10,790 --> 00:08:08,720

happened in 2004 the nimitz princeton or

230

00:08:13,589 --> 00:08:10,800

you can look at the omaha the you know

231

00:08:14,950 --> 00:08:13,599

the the opposite the russell uh yeah

232

00:08:16,869 --> 00:08:14,960

yeah there was there was a few of those

233

00:08:18,150 --> 00:08:16,879

other events again yeah i've been

234

00:08:20,230 --> 00:08:18,160

recording all day my brain's about

235

00:08:21,430 --> 00:08:20,240

scrambled folks apologies but all of

236

00:08:24,790 --> 00:08:21,440

these events that we know about

237

00:08:29,189 --> 00:08:26,869

there should have been surveillance

238

00:08:31,909 --> 00:08:29,199

equipment from the air force that picked

239

00:08:34,630 --> 00:08:31,919

up these incursions as well

240

00:08:36,790 --> 00:08:34,640

so if you're the air force and

241

00:08:38,949 --> 00:08:36,800

many or most of this equipment i imagine

242

00:08:40,709 --> 00:08:38,959

sees this stuff in real time

243

00:08:42,870 --> 00:08:40,719

the tic-tac event happened over was it

244

00:08:44,389 --> 00:08:42,880

seven to ten days it wasn't a one-day

245

00:08:46,150 --> 00:08:44,399

thing i think a lot of people can forget

246

00:08:48,470 --> 00:08:46,160

that it wasn't their favor saw attic

247

00:08:49,430 --> 00:08:48,480

attack they chased it bang grave saw it

248

00:08:51,030 --> 00:08:49,440

you know

249

00:08:52,790 --> 00:08:51,040

they were there for days sean cahill

250

00:08:55,030 --> 00:08:52,800

gary voorhees all these guys kevin day

251
00:08:58,070 --> 00:08:55,040
saw these things

252
00:08:59,829 --> 00:08:58,080
where are the air force just watching

253
00:09:02,870 --> 00:08:59,839
where are they ignoring

254
00:09:04,550 --> 00:09:02,880
where they monitoring and taking data

255
00:09:06,150 --> 00:09:04,560
you know what what do you think dan and

256
00:09:07,910 --> 00:09:06,160
as just pure speculation at this point

257
00:09:09,430 --> 00:09:07,920
but what the air force doing when they

258
00:09:11,509 --> 00:09:09,440
see oh look at all those things just

259
00:09:13,750 --> 00:09:11,519
sitting off the coast of that nuclear

260
00:09:14,710 --> 00:09:13,760
you know powered fleet

261
00:09:19,190 --> 00:09:14,720
to

262
00:09:21,590 --> 00:09:19,200
anything in that situation is insane

263
00:09:23,750 --> 00:09:21,600

that's their remit uh to investigate

264

00:09:24,550 --> 00:09:23,760

those things to keep those airspaces

265

00:09:25,590 --> 00:09:24,560

safe

266

00:09:27,670 --> 00:09:25,600

um

267

00:09:30,150 --> 00:09:27,680

and

268

00:09:32,470 --> 00:09:30,160

it you know the pilots have

269

00:09:33,829 --> 00:09:32,480

a way of reporting now that's been set

270

00:09:35,269 --> 00:09:33,839

up that was one of the first things to

271

00:09:37,750 --> 00:09:35,279

happen as the the bill kind of came

272

00:09:40,150 --> 00:09:37,760

about and things like that um

273

00:09:41,829 --> 00:09:40,160

so for them to just not report anything

274

00:09:43,750 --> 00:09:41,839

chris also pointed out that the last

275

00:09:45,509 --> 00:09:43,760

known location of the uss princeton's

276

00:09:48,150 --> 00:09:45,519

missing radar data

277

00:09:50,550 --> 00:09:48,160

um was not only said to by the personnel

278

00:09:53,030 --> 00:09:50,560

on the ships to be taken by

279

00:09:55,350 --> 00:09:53,040

air force officers but also that it was

280

00:09:56,870 --> 00:09:55,360

last reportedly in langley air force

281

00:09:59,190 --> 00:09:56,880

base so it certainly seems they're

282

00:10:01,110 --> 00:09:59,200

corralling all this data the question is

283

00:10:03,509 --> 00:10:01,120

whether they know everything and they're

284

00:10:06,150 --> 00:10:03,519

keeping it from us or they know nothing

285

00:10:07,509 --> 00:10:06,160

and they don't want to look incompetent

286

00:10:09,430 --> 00:10:07,519

a lot of these organizations don't like

287

00:10:11,030 --> 00:10:09,440

saying i don't know so i think that the

288

00:10:13,350 --> 00:10:11,040

truth usually is kind of somewhere in

289

00:10:15,350 --> 00:10:13,360

between those extremes right so yeah do

290

00:10:17,750 --> 00:10:15,360

you know what it reeks like to me to try

291

00:10:19,269 --> 00:10:17,760

and use an analogy here that people i

292

00:10:21,350 --> 00:10:19,279

hope i make this clear

293

00:10:23,590 --> 00:10:21,360

imagine dan you are working your way up

294

00:10:25,269 --> 00:10:23,600

as a hotshot lawyer and you're doing

295

00:10:28,389 --> 00:10:25,279

pretty well you're on one of the the

296

00:10:30,550 --> 00:10:28,399

upper tiers of your pay grade okay and

297

00:10:33,269 --> 00:10:30,560

the the bosses of

298

00:10:35,430 --> 00:10:33,279

dan andy and cole

299

00:10:37,750 --> 00:10:35,440

are dan and andy okay

300

00:10:39,269 --> 00:10:37,760

and you know that within the institute

301
00:10:41,590 --> 00:10:39,279
they they're doing some dodgy things

302
00:10:43,670 --> 00:10:41,600
dodgy practices um

303
00:10:45,430 --> 00:10:43,680
they are there's institutional bullying

304
00:10:47,750 --> 00:10:45,440
you know all that kind of stuff goes on

305
00:10:49,269 --> 00:10:47,760
but they are the main guys you can't

306
00:10:51,430 --> 00:10:49,279
touch them they're untouchable and for

307
00:10:53,670 --> 00:10:51,440
you to speak out and do anything

308
00:10:56,870 --> 00:10:53,680
is just going to be detrimental to you

309
00:10:58,630 --> 00:10:56,880
i feel the air force see these uap as

310
00:10:59,590 --> 00:10:58,640
there's nothing we can do about these

311
00:11:01,750 --> 00:10:59,600
things

312
00:11:03,590 --> 00:11:01,760
and to acknowledge the existence and try

313
00:11:06,550 --> 00:11:03,600

and do anything is just going to make us

314

00:11:08,230 --> 00:11:06,560

look weak and be detrimental to us so

315

00:11:10,870 --> 00:11:08,240

the best thing for us to do is turn a

316

00:11:13,030 --> 00:11:10,880

blind eye and just get on with what we

317

00:11:15,190 --> 00:11:13,040

do and anything we can do we use it to

318

00:11:16,630 --> 00:11:15,200

our advantage and i feel that sort of

319

00:11:18,470 --> 00:11:16,640

the way the air force are acting and all

320

00:11:20,150 --> 00:11:18,480

of this that they're turning a blind eye

321

00:11:22,470 --> 00:11:20,160

because there's nothing we can actually

322

00:11:24,550 --> 00:11:22,480

do about what's going on you know we

323

00:11:26,550 --> 00:11:24,560

can't match what these things can do so

324

00:11:27,910 --> 00:11:26,560

let's just let's just leave it and do

325

00:11:29,030 --> 00:11:27,920

our own thing in the background is that

326

00:11:31,590 --> 00:11:29,040

is that fair

327

00:11:34,069 --> 00:11:31,600

i'd say so and you know this whole time

328

00:11:36,069 --> 00:11:34,079

those officers they're gonna have

329

00:11:37,509 --> 00:11:36,079

other stresses you know uh whether it's

330

00:11:39,269 --> 00:11:37,519

china whether it's russia whether you

331

00:11:40,949 --> 00:11:39,279

know there's a lot going on in the world

332

00:11:42,389 --> 00:11:40,959

that they're gonna be focused on uh

333

00:11:45,350 --> 00:11:42,399

looking right now we've got ukraine and

334

00:11:46,870 --> 00:11:45,360

russia on the borders exactly

335

00:11:48,790 --> 00:11:46,880

the ufo issue

336

00:11:52,470 --> 00:11:48,800

there's other stuff real time going on

337

00:11:53,910 --> 00:11:52,480

that's what we have had a report um

338

00:11:55,509 --> 00:11:53,920

that off the coast of scotland there was

339

00:11:57,430 --> 00:11:55,519

an unidentified aircraft and everyone

340

00:11:58,870 --> 00:11:57,440

jumped on it as a uap and then when you

341

00:12:01,910 --> 00:11:58,880

read the article it turned out it was a

342

00:12:04,629 --> 00:12:01,920

russian thing um or russian

343

00:12:05,990 --> 00:12:04,639

a shipment of ein brewer coming in

344

00:12:08,069 --> 00:12:06,000

but but i thought that was a really good

345

00:12:10,629 --> 00:12:08,079

example because that spread all over the

346

00:12:12,949 --> 00:12:10,639

news like wildfire and we knew it was

347

00:12:15,509 --> 00:12:12,959

russian so if there are no flags on

348

00:12:17,750 --> 00:12:15,519

these things why isn't why aren't all of

349

00:12:19,269 --> 00:12:17,760

these uh events spreading over the news

350

00:12:21,110 --> 00:12:19,279

in similar ways

351
00:12:23,670 --> 00:12:21,120
yeah dan i'm going to ask you a question

352
00:12:25,670 --> 00:12:23,680
here can you think let's be fair to the

353
00:12:27,350 --> 00:12:25,680
us air force for a minute and give them

354
00:12:29,110 --> 00:12:27,360
uh

355
00:12:31,190 --> 00:12:29,120
a moment that we're going to be positive

356
00:12:33,590 --> 00:12:31,200
about them potentially can you think of

357
00:12:35,750 --> 00:12:33,600
a good reason why the us air force's

358
00:12:38,629 --> 00:12:35,760
right to behave the way they are on the

359
00:12:39,990 --> 00:12:38,639
subject why why could they be holding

360
00:12:41,350 --> 00:12:40,000
back

361
00:12:43,030 --> 00:12:41,360
i'm i'm gonna

362
00:12:45,110 --> 00:12:43,040
i'd recommend people listen to our tom

363
00:12:47,430 --> 00:12:45,120

delong profile show because i feel like

364

00:12:50,310 --> 00:12:47,440

the answer could be in that kind of good

365

00:12:52,150 --> 00:12:50,320

plug musings yeah um

366

00:12:54,069 --> 00:12:52,160

but the idea that this is such a

367

00:12:56,069 --> 00:12:54,079

paradigm shift that you know lou said

368

00:12:58,150 --> 00:12:56,079

about the word samba that's that's how

369

00:13:00,310 --> 00:12:58,160

much it would cause people to reflect

370

00:13:03,350 --> 00:13:00,320

tom has been terrified and he's talked

371

00:13:07,190 --> 00:13:03,360

about that story of you know not knowing

372

00:13:09,190 --> 00:13:07,200

if reality was reality to him anymore um

373

00:13:10,710 --> 00:13:09,200

and there's also law that kind of says

374

00:13:12,710 --> 00:13:10,720

you know we're on a

375

00:13:14,310 --> 00:13:12,720

there was a deal signed and this is kind

376

00:13:15,670 --> 00:13:14,320

of the more extreme side of things now

377

00:13:17,590 --> 00:13:15,680

but there was deal signed between

378

00:13:19,430 --> 00:13:17,600

eisenhower and the visitors and you know

379

00:13:22,389 --> 00:13:19,440

we kind of have uh essentially a

380

00:13:25,910 --> 00:13:22,399

countdown and a mortgage right so i i

381

00:13:28,470 --> 00:13:25,920

could see a scenario where maybe

382

00:13:30,230 --> 00:13:28,480

i'll also mention the hitchhiker effect

383

00:13:32,550 --> 00:13:30,240

because that seems to stick to people

384

00:13:34,629 --> 00:13:32,560

that experience the phenomena so if you

385

00:13:35,990 --> 00:13:34,639

kind of open the floodgates and go

386

00:13:37,269 --> 00:13:36,000

everyone this is real and you can

387

00:13:38,550 --> 00:13:37,279

experience these things suddenly you've

388

00:13:40,310 --> 00:13:38,560

got a whole planet full of people

389

00:13:41,829 --> 00:13:40,320

experiencing hitchhiker effects and no

390

00:13:44,230 --> 00:13:41,839

answers for them

391

00:13:46,310 --> 00:13:44,240

that's kind of scary and if that's the

392

00:13:49,110 --> 00:13:46,320

situation i can see you know i can

393

00:13:50,870 --> 00:13:49,120

empathize with that um you know maybe

394

00:13:54,310 --> 00:13:50,880

maybe revealing the secret makes things

395

00:13:56,230 --> 00:13:54,320

worse and they had to be ready um but

396

00:13:57,590 --> 00:13:56,240

they're not playing ball now that we've

397

00:13:58,870 --> 00:13:57,600

gotten to the point where we can talk

398

00:14:01,670 --> 00:13:58,880

about it so

399

00:14:04,150 --> 00:14:01,680

i i wonder if that's even close you know

400

00:14:06,069 --> 00:14:04,160

yeah chris milling goes on to say i have

401
00:14:07,750 --> 00:14:06,079
a theory about which i would like to be

402
00:14:09,350 --> 00:14:07,760
wrong that the air force is so

403
00:14:11,829 --> 00:14:09,360
accustomed to a lack of civilian

404
00:14:14,389 --> 00:14:11,839
oversight on uap issues that it hardly

405
00:14:16,310 --> 00:14:14,399
takes such oversight seriously perhaps

406
00:14:18,069 --> 00:14:16,320
civilian policymakers are also so

407
00:14:20,470 --> 00:14:18,079
accustomed to blanket us air force

408
00:14:22,150 --> 00:14:20,480
denials regarding uap that they don't

409
00:14:24,949 --> 00:14:22,160
think to challenge the air force any

410
00:14:27,590 --> 00:14:24,959
longer that's pretty incredible claim

411
00:14:30,710 --> 00:14:27,600
but i don't think it's necessarily

412
00:14:31,829 --> 00:14:30,720
that shocking that the air force is that

413
00:14:33,189 --> 00:14:31,839

you know i'm trying to think of all

414

00:14:35,430 --> 00:14:33,199

those teenage movies i've watched the

415

00:14:36,870 --> 00:14:35,440

college quarterback that even the school

416

00:14:38,389 --> 00:14:36,880

teachers are scared to do anything about

417

00:14:39,990 --> 00:14:38,399

because they're so important they're so

418

00:14:41,030 --> 00:14:40,000

big they're so powerful they're so

419

00:14:42,470 --> 00:14:41,040

popular

420

00:14:43,990 --> 00:14:42,480

and you're better just to let them kind

421

00:14:46,310 --> 00:14:44,000

of do what they want because it's not

422

00:14:48,069 --> 00:14:46,320

really worth your time and hassle

423

00:14:49,829 --> 00:14:48,079

pulling them up

424

00:14:51,509 --> 00:14:49,839

in in those movies the quarterback

425

00:14:54,310 --> 00:14:51,519

always gets in trouble and they always

426

00:14:55,910 --> 00:14:54,320

get involved in the end so you know if

427

00:14:57,350 --> 00:14:55,920

there happens to be anyone from the us

428

00:14:58,550 --> 00:14:57,360

air force listening please just join the

429

00:15:00,389 --> 00:14:58,560

conversation

430

00:15:02,629 --> 00:15:00,399

no no one will be mad you know it'll be

431

00:15:04,629 --> 00:15:02,639

a constructive conversation

432

00:15:06,389 --> 00:15:04,639

yeah and in that article again i i would

433

00:15:09,030 --> 00:15:06,399

encourage people to go and read it i

434

00:15:10,790 --> 00:15:09,040

know from from speaking to a few people

435

00:15:12,949 --> 00:15:10,800

that chris melon has been working on

436

00:15:15,110 --> 00:15:12,959

this for a few months it's not something

437

00:15:17,590 --> 00:15:15,120

he he wrote out overnight and when he

438

00:15:19,110 --> 00:15:17,600

was bored he's a he's a busy man and a

439

00:15:20,870 --> 00:15:19,120

lot of thought has gone into it there

440

00:15:22,949 --> 00:15:20,880

are a lot of hyperlinks explaining

441

00:15:25,350 --> 00:15:22,959

various different things as well and

442

00:15:26,790 --> 00:15:25,360

it's got a fantastic amount of knowledge

443

00:15:29,189 --> 00:15:26,800

within there so

444

00:15:31,110 --> 00:15:29,199

i suggest people do questions too um

445

00:15:33,350 --> 00:15:31,120

yeah which i actually emailed over to

446

00:15:34,710 --> 00:15:33,360

susan goff um because i figured you know

447

00:15:36,550 --> 00:15:34,720

what the hell she'd be great to ask

448

00:15:37,990 --> 00:15:36,560

these questions too so if i get anything

449

00:15:39,350 --> 00:15:38,000

back i'll share that on social media and

450

00:15:40,790 --> 00:15:39,360

on here

451

00:15:42,310 --> 00:15:40,800

if you've got a favorite question then

452

00:15:45,189 --> 00:15:42,320

here's here's a good one for you there's

453

00:15:46,310 --> 00:15:45,199

14 isn't there uh questions

454

00:15:47,749 --> 00:15:46,320

yeah

455

00:15:49,990 --> 00:15:47,759

the questions within the questions as

456

00:15:51,509 --> 00:15:50,000

well actually yeah like for me they're

457

00:15:53,030 --> 00:15:51,519

all important i'm not gonna pick one

458

00:15:54,629 --> 00:15:53,040

just just because

459

00:15:56,710 --> 00:15:54,639

they all kind of piggyback on off each

460

00:15:58,550 --> 00:15:56,720

other right and and they're all

461

00:16:01,590 --> 00:15:58,560

addressing things that chris has brought

462

00:16:03,189 --> 00:16:01,600

up in the article um so if anyone gets

463

00:16:05,829 --> 00:16:03,199

any answers to any of these from the air

464

00:16:08,629 --> 00:16:05,839

force or from susan goff um

465

00:16:10,069 --> 00:16:08,639

it'll be very very informative dan i've

466

00:16:13,189 --> 00:16:10,079

got a favorite question what's your

467

00:16:15,189 --> 00:16:13,199

favorite question it's really sassy

468

00:16:18,389 --> 00:16:15,199

question six is there a problem with the

469

00:16:19,829 --> 00:16:18,399

f-22 sensor system if not how is it

470

00:16:21,430 --> 00:16:19,839

possible that navy fighters with

471

00:16:23,910 --> 00:16:21,440

inferior sensors were routinely

472

00:16:27,350 --> 00:16:23,920

detecting uap off the east coast of the

473

00:16:29,030 --> 00:16:27,360

us for years while u.s air force f-22s

474

00:16:31,269 --> 00:16:29,040

operating in the same training areas did

475

00:16:33,189 --> 00:16:31,279

not if it was simply a matter of air

476

00:16:34,550 --> 00:16:33,199

force pilots fear of retribution what

477

00:16:36,230 --> 00:16:34,560

does that tell us about the air force

478

00:16:37,749 --> 00:16:36,240

culture and what you're going to do

479

00:16:40,230 --> 00:16:37,759

going forward to encourage rather than

480

00:16:41,590 --> 00:16:40,240

punish openness and vigilance that comes

481

00:16:44,710 --> 00:16:41,600

from a place of knowledge that i think

482

00:16:46,150 --> 00:16:44,720

many of us are at now where we know

483

00:16:49,110 --> 00:16:46,160

that people are scared to come forward

484

00:16:50,949 --> 00:16:49,120

still maybe it's less so in the navy

485

00:16:53,590 --> 00:16:50,959

with the procedures and protocols put in

486

00:16:55,030 --> 00:16:53,600

place after the task force report but it

487

00:16:56,310 --> 00:16:55,040

looks like chris mellon's calling out

488

00:16:58,230 --> 00:16:56,320

that well we know there won't be a

489

00:16:59,910 --> 00:16:58,240

problem with that sensor system you just

490

00:17:01,749 --> 00:16:59,920

have pilots too scared to come forward

491

00:17:04,470 --> 00:17:01,759

and you need to fix it that's what i

492

00:17:06,630 --> 00:17:04,480

read into that one so i love the tone

493

00:17:08,150 --> 00:17:06,640

this this isn't one of those articles

494

00:17:10,150 --> 00:17:08,160

it's not a blog it's not chris melon

495

00:17:11,990 --> 00:17:10,160

sharing his thoughts this is there for

496

00:17:13,350 --> 00:17:12,000

people to read and i don't mean as i

497

00:17:16,230 --> 00:17:13,360

think we've said this before haven't we

498

00:17:18,549 --> 00:17:16,240

that in some of chris melon's blog posts

499

00:17:20,630 --> 00:17:18,559

they're not there for us to read they

500

00:17:22,390 --> 00:17:20,640

are aimed at a section of people he

501
00:17:23,669 --> 00:17:22,400
knows are paying attention

502
00:17:25,669 --> 00:17:23,679
and he knows our reading knows and i

503
00:17:27,270 --> 00:17:25,679
feel this is exactly the same

504
00:17:28,470 --> 00:17:27,280
yeah definitely i completely agree with

505
00:17:30,549 --> 00:17:28,480
that um

506
00:17:32,710 --> 00:17:30,559
chris knows the

507
00:17:34,710 --> 00:17:32,720
the big movers and shakers in this uh

508
00:17:37,270 --> 00:17:34,720
would be the phrase i guess and yeah the

509
00:17:39,350 --> 00:17:37,280
the language is very much aimed at

510
00:17:41,190 --> 00:17:39,360
affecting or maybe

511
00:17:43,590 --> 00:17:41,200
you know bringing certain points to the

512
00:17:45,270 --> 00:17:43,600
the conversation between those people

513
00:17:47,350 --> 00:17:45,280

yeah so go and check that out folks the

514

00:17:49,990 --> 00:17:47,360

link will be in the description of this

515

00:17:51,909 --> 00:17:50,000

podcast if i remember it will be it will

516

00:17:53,750 --> 00:17:51,919

um but yeah really really interesting

517

00:17:56,150 --> 00:17:53,760

article from chris melon love to hear

518

00:18:00,070 --> 00:17:56,160

people's thoughts on that one online via

519

00:18:01,990 --> 00:18:00,080

email ufo uap am gmail.com or any other

520

00:18:03,430 --> 00:18:02,000

way you can get in touch with us

521

00:18:04,789 --> 00:18:03,440

dan you're going to take the lead on the

522

00:18:07,350 --> 00:18:04,799

next one we're going to look at jim

523

00:18:09,270 --> 00:18:07,360

semivan and his appearance on coast to

524

00:18:10,630 --> 00:18:09,280

coast over the weekend yeah yeah

525

00:18:12,630 --> 00:18:10,640

absolutely so

526

00:18:15,990 --> 00:18:12,640

jim semivan went on to kind of open up

527

00:18:17,830 --> 00:18:16,000

about all things ttsa um and you know

528

00:18:19,669 --> 00:18:17,840

how we met tom um where this

529

00:18:21,110 --> 00:18:19,679

conversation is going i'd highly

530

00:18:22,870 --> 00:18:21,120

recommend people go listen to it but

531

00:18:25,510 --> 00:18:22,880

i'll just hit on a few highlights for

532

00:18:28,310 --> 00:18:25,520

you here can i just say i forget he's a

533

00:18:29,990 --> 00:18:28,320

co-founder of ttsa this was one of the

534

00:18:31,750 --> 00:18:30,000

things i was going to remind people of

535

00:18:33,830 --> 00:18:31,760

because he he shared a story that i'm

536

00:18:35,590 --> 00:18:33,840

not sure has been fully shared before

537

00:18:37,430 --> 00:18:35,600

but he he basically said that him and

538

00:18:40,390 --> 00:18:37,440

tom got involved because

539

00:18:42,070 --> 00:18:40,400

uh jim read secret machines um and heard

540

00:18:44,230 --> 00:18:42,080

some what tom was saying and thought oh

541

00:18:47,510 --> 00:18:44,240

god you know this guy's clearly informed

542

00:18:50,230 --> 00:18:47,520

um i'm gonna go talk to him so

543

00:18:52,390 --> 00:18:50,240

they they had a conversation and tom

544

00:18:54,789 --> 00:18:52,400

proposed the idea of

545

00:18:56,470 --> 00:18:54,799

jim joining the company and jim said no

546

00:18:57,830 --> 00:18:56,480

he wasn't interested he was interested

547

00:19:00,390 --> 00:18:57,840

in researching the phenomena not the

548

00:19:02,870 --> 00:19:00,400

entertainment side of things um and that

549

00:19:04,870 --> 00:19:02,880

was when uh basically at that table were

550

00:19:07,190 --> 00:19:04,880

a number of people uh the gym didn't

551
00:19:08,789 --> 00:19:07,200
share the names of but hal was there and

552
00:19:10,310 --> 00:19:08,799
that was where on the back of a napkin

553
00:19:13,830 --> 00:19:10,320
they kind of sketched out the plan for

554
00:19:17,110 --> 00:19:13,840
ttsa um and it was formed there and then

555
00:19:19,669 --> 00:19:17,120
um it wasn't long after that that um

556
00:19:22,310 --> 00:19:19,679
jim apparently put tom in touch with lou

557
00:19:24,789 --> 00:19:22,320
and they had a call and then uh yeah he

558
00:19:26,870 --> 00:19:24,799
he got a message like midnight 1am uh

559
00:19:29,190 --> 00:19:26,880
from tom saying basically yeah i've i've

560
00:19:30,710 --> 00:19:29,200
employed lou he's he's joined us now

561
00:19:31,830 --> 00:19:30,720
um i i thought that was a real

562
00:19:33,830 --> 00:19:31,840
interesting little tidbit in the

563
00:19:36,150 --> 00:19:33,840

timeline it kind of clears up one of the

564

00:19:39,190 --> 00:19:36,160

gaps i had in my uh in my notes for tom

565

00:19:40,789 --> 00:19:39,200

delong part two profile um

566

00:19:43,110 --> 00:19:40,799

but yeah i thought that was interesting

567

00:19:46,390 --> 00:19:43,120

because people have

568

00:19:47,909 --> 00:19:46,400

wondered if lou was involved earlier and

569

00:19:49,990 --> 00:19:47,919

before he resigned and it just doesn't

570

00:19:51,909 --> 00:19:50,000

seem to be the case you know it's no

571

00:19:53,990 --> 00:19:51,919

conspiracy there it's just well that's

572

00:19:55,590 --> 00:19:54,000

something we talk about don't mate on on

573

00:19:57,350 --> 00:19:55,600

tom de long part one for people who

574

00:19:59,350 --> 00:19:57,360

haven't checked out yet as you know

575

00:20:01,029 --> 00:19:59,360

there's so much of of what tom says on

576

00:20:03,110 --> 00:20:01,039

early interviews on jimmy church and

577

00:20:04,710 --> 00:20:03,120

shows like that where it's a source i

578

00:20:06,870 --> 00:20:04,720

had and i was banging on the doors and

579

00:20:08,549 --> 00:20:06,880

you've got to and you were wondering was

580

00:20:11,590 --> 00:20:08,559

lou one of those doors and it doesn't

581

00:20:13,590 --> 00:20:11,600

seem like he was like yeah blue came on

582

00:20:14,789 --> 00:20:13,600

at the time it kind of looks like he did

583

00:20:16,549 --> 00:20:14,799

and there was nothing

584

00:20:18,149 --> 00:20:16,559

untoward or sinister going on in the

585

00:20:20,470 --> 00:20:18,159

background at all

586

00:20:22,149 --> 00:20:20,480

absolutely and it speaks to what we said

587

00:20:24,789 --> 00:20:22,159

as well where

588

00:20:26,630 --> 00:20:24,799

tt says we know it now was the plan b

589

00:20:28,070 --> 00:20:26,640

plan a went away when wiki wikileaks

590

00:20:29,029 --> 00:20:28,080

happened and all those names came out

591

00:20:31,990 --> 00:20:29,039

and

592

00:20:33,190 --> 00:20:32,000

he only found out tom's advisors

593

00:20:35,590 --> 00:20:33,200

because of

594

00:20:37,830 --> 00:20:35,600

wikileaks weeks

595

00:20:40,470 --> 00:20:37,840

that's dan's new website

596

00:20:41,750 --> 00:20:40,480

yep get your lucky week's hat

597

00:20:44,070 --> 00:20:41,760

and that's the kind of stuff we're going

598

00:20:45,750 --> 00:20:44,080

into in detail in part two of the tom de

599

00:20:49,029 --> 00:20:45,760

long discussion because that will

600

00:20:50,950 --> 00:20:49,039

basically be the tsa kicking off the

601
00:20:54,230 --> 00:20:50,960
the a team the b team that we got to

602
00:20:56,310 --> 00:20:54,240
know as the a team yeah and then those

603
00:20:58,149 --> 00:20:56,320
couple of years of tsa with

604
00:21:00,149 --> 00:20:58,159
unidentified and all that kind of stuff

605
00:21:01,830 --> 00:21:00,159
so we're going to go into that in detail

606
00:21:03,190 --> 00:21:01,840
something i was really interested in

607
00:21:05,990 --> 00:21:03,200
again and i know this has come out

608
00:21:08,470 --> 00:21:06,000
before but the fact that jim semivan and

609
00:21:10,789 --> 00:21:08,480
as he says his wife are experiencers

610
00:21:12,310 --> 00:21:10,799
yeah this is a pretty heavy hitting guy

611
00:21:14,390 --> 00:21:12,320
to come out and say

612
00:21:15,830 --> 00:21:14,400
i've i've had these experiences he talks

613
00:21:18,470 --> 00:21:15,840

about the

614

00:21:20,070 --> 00:21:18,480

going to a ufo conference yeah i'm just

615

00:21:21,830 --> 00:21:20,080

double checking what i had talked about

616

00:21:24,310 --> 00:21:21,840

going to ufo conference in virginia

617

00:21:27,110 --> 00:21:24,320

beach and he tells a gentleman about the

618

00:21:29,029 --> 00:21:27,120

experience he had and basically they was

619

00:21:30,390 --> 00:21:29,039

told you have a classic classic they

620

00:21:32,710 --> 00:21:30,400

don't see abduction experience but

621

00:21:34,549 --> 00:21:32,720

classic experience and he wrote down a

622

00:21:36,950 --> 00:21:34,559

few of jacques ville's books

623

00:21:38,470 --> 00:21:36,960

for him to read and that started his

624

00:21:40,230 --> 00:21:38,480

journey into

625

00:21:41,909 --> 00:21:40,240

yeah you've had this experience and

626

00:21:44,390 --> 00:21:41,919

here's here's a little bit of how to

627

00:21:45,990 --> 00:21:44,400

make sense of it i suppose yeah and and

628

00:21:48,149 --> 00:21:46,000

it wasn't jim and his wife's only

629

00:21:50,470 --> 00:21:48,159

experience as well he he says that in

630

00:21:51,430 --> 00:21:50,480

2018 uh they had a

631

00:21:53,190 --> 00:21:51,440

hooded

632

00:21:55,750 --> 00:21:53,200

figure visiting in his bedroom he said

633

00:21:59,110 --> 00:21:55,760

it looked like a mini death eater um and

634

00:22:01,110 --> 00:21:59,120

after reporting it uh he was told to

635

00:22:02,470 --> 00:22:01,120

kind of try and make contact and in this

636

00:22:03,669 --> 00:22:02,480

interview he says like there's no way

637

00:22:04,950 --> 00:22:03,679

he's gonna try and make contact with

638

00:22:08,230 --> 00:22:04,960

something that looks like that which i

639

00:22:09,750 --> 00:22:08,240

think is fair enough um

640

00:22:12,549 --> 00:22:09,760

but yeah not not

641

00:22:14,310 --> 00:22:12,559

the one event many events and he

642

00:22:16,390 --> 00:22:14,320

specifies that he and his wife are still

643

00:22:18,870 --> 00:22:16,400

being studied and that's why yeah talk

644

00:22:21,430 --> 00:22:18,880

about these things in depth um

645

00:22:23,669 --> 00:22:21,440

which you know there are only certain

646

00:22:26,549 --> 00:22:23,679

avenues that that can study this stuff

647

00:22:27,750 --> 00:22:26,559

so i'd be curious to hear who is who is

648

00:22:29,669 --> 00:22:27,760

studying him you know i wonder if

649

00:22:31,190 --> 00:22:29,679

there's an mri involved

650

00:22:33,350 --> 00:22:31,200

and you know what as well i think this

651
00:22:36,630 --> 00:22:33,360
is one of those where and we know people

652
00:22:37,510 --> 00:22:36,640
on social media particularly um he won't

653
00:22:38,710 --> 00:22:37,520
mind me saying it because i've

654
00:22:39,590 --> 00:22:38,720
interviewed him in the interviews out

655
00:22:42,630 --> 00:22:39,600
there

656
00:22:44,630 --> 00:22:42,640
john davies who was you know classically

657
00:22:45,909 --> 00:22:44,640
annoyed at lack of representation for

658
00:22:47,590 --> 00:22:45,919
experiencers

659
00:22:49,430 --> 00:22:47,600
here's a a pretty

660
00:22:52,070 --> 00:22:49,440
well respected

661
00:22:53,990 --> 00:22:52,080
credible heavyweight individual not just

662
00:22:55,590 --> 00:22:54,000
in terms of ufos but in his positions

663
00:22:56,789 --> 00:22:55,600

that he's worked in and the people he's

664

00:22:58,549 --> 00:22:56,799

worked with

665

00:23:00,390 --> 00:22:58,559

and he's calling out that i'm an

666

00:23:02,710 --> 00:23:00,400

experiencer i've had multiple

667

00:23:04,789 --> 00:23:02,720

experiences like you see in this we're

668

00:23:06,470 --> 00:23:04,799

still being studied now we've had

669

00:23:07,669 --> 00:23:06,480

experiences as recently as a couple of

670

00:23:09,830 --> 00:23:07,679

years ago

671

00:23:12,310 --> 00:23:09,840

and yeah so this this is what you're

672

00:23:13,750 --> 00:23:12,320

going to get i mean there's not too much

673

00:23:15,990 --> 00:23:13,760

higher you can go before you start

674

00:23:17,430 --> 00:23:16,000

getting the presidential levels of yeah

675

00:23:18,870 --> 00:23:17,440

you need you need the presidents to come

676
00:23:20,470 --> 00:23:18,880
out and say they've been abducted or had

677
00:23:21,190 --> 00:23:20,480
experiences and you're not going to get

678
00:23:26,230 --> 00:23:21,200
that

679
00:23:27,830 --> 00:23:26,240
conversation is moving forward and

680
00:23:29,590 --> 00:23:27,840
people can correct me and please get in

681
00:23:32,470 --> 00:23:29,600
touch but where are these same

682
00:23:36,230 --> 00:23:32,480
individuals coming out at this rate

683
00:23:38,230 --> 00:23:36,240
back in the 90s and the 80s and the 70s

684
00:23:39,750 --> 00:23:38,240
making these claims on these kind of

685
00:23:41,510 --> 00:23:39,760
grand stages of course there was no

686
00:23:44,470 --> 00:23:41,520
social media but

687
00:23:47,510 --> 00:23:44,480
this is this for me is a massive

688
00:23:49,750 --> 00:23:47,520

step forward especially for experiencers

689

00:23:51,510 --> 00:23:49,760

although i can't talk as an experiencer

690

00:23:53,750 --> 00:23:51,520

i can appreciate how frustrating that

691

00:23:55,269 --> 00:23:53,760

must be but these are people kind of

692

00:23:57,430 --> 00:23:55,279

hopefully putting that word out there

693

00:23:59,029 --> 00:23:57,440

and moving that conversation forward

694

00:24:01,029 --> 00:23:59,039

yeah yeah absolutely and people will be

695

00:24:03,110 --> 00:24:01,039

glad to know that uh jim specifies that

696

00:24:05,269 --> 00:24:03,120

they're still gonna be doing the science

697

00:24:06,630 --> 00:24:05,279

stuff and the crota but they're just

698

00:24:08,870 --> 00:24:06,640

focusing on entertainment for now

699

00:24:11,669 --> 00:24:08,880

because of cash flow there's no timeline

700

00:24:13,350 --> 00:24:11,679

but when the funding comes

701
00:24:16,789 --> 00:24:13,360
to the stars academy of arts and science

702
00:24:19,590 --> 00:24:16,799
which is now called to the stars inc

703
00:24:22,710 --> 00:24:19,600
will go back on and do the science kind

704
00:24:23,909 --> 00:24:22,720
of research with with the phenomena um

705
00:24:26,630 --> 00:24:23,919
i think people thought that that was

706
00:24:28,710 --> 00:24:26,640
going to stop uh when when tsa

707
00:24:31,029 --> 00:24:28,720
shuttered but it seems not to be the

708
00:24:32,549 --> 00:24:31,039
case uh we also have news that the ccsa

709
00:24:35,190 --> 00:24:32,559
podcast is going to be coming back as

710
00:24:36,789 --> 00:24:35,200
well uh with perhaps peter lavender uh

711
00:24:39,590 --> 00:24:36,799
which will be interesting because he he

712
00:24:42,149 --> 00:24:39,600
writes the gods war and man books

713
00:24:43,830 --> 00:24:42,159

which are you know not so fictional it's

714

00:24:45,510 --> 00:24:43,840

kind of looking at the phenomena through

715

00:24:46,870 --> 00:24:45,520

a historical lens bringing in some very

716

00:24:48,870 --> 00:24:46,880

esoteric

717

00:24:51,269 --> 00:24:48,880

areas of discussion as well

718

00:24:52,870 --> 00:24:51,279

including dna so if if anyone is

719

00:24:54,630 --> 00:24:52,880

interested in the dna discussion the

720

00:24:56,070 --> 00:24:54,640

hybrid discussion have a read of the

721

00:24:58,710 --> 00:24:56,080

second book of secret machines because

722

00:25:01,269 --> 00:24:58,720

there's a lot in there for you

723

00:25:03,669 --> 00:25:01,279

they also point to a few names quite

724

00:25:05,830 --> 00:25:03,679

prevalent uh dr colm kelleher has

725

00:25:07,909 --> 00:25:05,840

discussed of course he's just done an

726

00:25:10,070 --> 00:25:07,919

interview with katja mongol along with

727

00:25:11,750 --> 00:25:10,080

george knapp on theories of everything

728

00:25:13,190 --> 00:25:11,760

check that out folks is available now on

729

00:25:15,430 --> 00:25:13,200

youtube same with our interview with

730

00:25:17,510 --> 00:25:15,440

them from a couple of months ago um also

731

00:25:19,590 --> 00:25:17,520

john ramirez is brought up and and jim

732

00:25:21,269 --> 00:25:19,600

semivan backs up john ramirez's

733

00:25:22,390 --> 00:25:21,279

credentials but also what he says

734

00:25:25,590 --> 00:25:22,400

doesn't he

735

00:25:29,510 --> 00:25:25,600

to be specific he backs up um yeah is

736

00:25:31,830 --> 00:25:29,520

his credentials and the foia direction

737

00:25:33,190 --> 00:25:31,840

yeah sorry john gave so not to give

738

00:25:34,630 --> 00:25:33,200

anyone the impression that he backs up

739

00:25:37,909 --> 00:25:34,640

that they were reptilians and stuff like

740

00:25:39,590 --> 00:25:37,919

that um but yeah that that is he he says

741

00:25:41,669 --> 00:25:39,600

to listen to john and that he gives out

742

00:25:42,710 --> 00:25:41,679

good advice when when it's

743

00:25:44,310 --> 00:25:42,720

uh

744

00:25:45,430 --> 00:25:44,320

the the harder stuff you know not the

745

00:25:47,830 --> 00:25:45,440

speculation

746

00:25:49,510 --> 00:25:47,840

to be fair i asked john as we record

747

00:25:51,590 --> 00:25:49,520

this part one's been released part two

748

00:25:53,190 --> 00:25:51,600

is coming out this monday

749

00:25:55,350 --> 00:25:53,200

that you know there's that you've got to

750

00:25:57,830 --> 00:25:55,360

differentiate between opinion

751
00:25:59,830 --> 00:25:57,840
and knowledge and i think john was quite

752
00:26:01,350 --> 00:25:59,840
fair and his response is that throughout

753
00:26:02,789 --> 00:26:01,360
that interview including in part two

754
00:26:04,870 --> 00:26:02,799
that people hear

755
00:26:07,269 --> 00:26:04,880
this is what i think

756
00:26:08,710 --> 00:26:07,279
based on my own experiences

757
00:26:10,310 --> 00:26:08,720
and

758
00:26:12,710 --> 00:26:10,320
there's probably more of that within

759
00:26:14,710 --> 00:26:12,720
john's conversations than

760
00:26:16,710 --> 00:26:14,720
here's what i know because of when i

761
00:26:17,909 --> 00:26:16,720
worked and those conversations so i

762
00:26:19,430 --> 00:26:17,919
think

763
00:26:21,830 --> 00:26:19,440

it probably leans quite heavy towards

764

00:26:23,269 --> 00:26:21,840

john's own experiences and opinion but

765

00:26:26,070 --> 00:26:23,279

he's got a platform because of his

766

00:26:27,110 --> 00:26:26,080

background which yeah to be fair is the

767

00:26:29,110 --> 00:26:27,120

same for

768

00:26:30,710 --> 00:26:29,120

jim semivan and because

769

00:26:32,950 --> 00:26:30,720

jim simovan coming out and telling us

770

00:26:35,590 --> 00:26:32,960

he's an experienter is one thing but jim

771

00:26:38,549 --> 00:26:35,600

semivan with a 25-plus year cia career

772

00:26:40,390 --> 00:26:38,559

behind him is another and that's that's

773

00:26:42,630 --> 00:26:40,400

just how it works isn't it

774

00:26:44,310 --> 00:26:42,640

and distinguished cia careers as well

775

00:26:45,350 --> 00:26:44,320

you know these guys just weren't you

776

00:26:47,830 --> 00:26:45,360

know

777

00:26:49,830 --> 00:26:47,840

filing or anything uh they were fully

778

00:26:52,870 --> 00:26:49,840

you know sleeve rolled up mugging in

779

00:26:54,230 --> 00:26:52,880

doing intelligence work um

780

00:26:56,390 --> 00:26:54,240

so there's no wonder that they have a

781

00:26:57,909 --> 00:26:56,400

lot of knowledge between them uh i i

782

00:26:59,430 --> 00:26:57,919

would expect

783

00:27:02,549 --> 00:26:59,440

you know a couple years back we only had

784

00:27:04,549 --> 00:27:02,559

jim now we've got jim and john and i

785

00:27:06,230 --> 00:27:04,559

would expect more people to start coming

786

00:27:08,470 --> 00:27:06,240

out of the woodwork and discussing this

787

00:27:09,990 --> 00:27:08,480

now uh because a lot of the younger

788

00:27:13,190 --> 00:27:10,000

generation that are in these

789

00:27:14,950 --> 00:27:13,200

organizations be the cia or politics

790

00:27:16,710 --> 00:27:14,960

they see this as a really important

791

00:27:18,710 --> 00:27:16,720

issue and the kind of the cat's out of

792

00:27:20,230 --> 00:27:18,720

the bag and they're discussing it now so

793

00:27:21,830 --> 00:27:20,240

even if the higher-ups want to keep it

794

00:27:23,590 --> 00:27:21,840

secret tough

795

00:27:25,430 --> 00:27:23,600

people are talking about it

796

00:27:27,590 --> 00:27:25,440

and one of those people originally that

797

00:27:29,029 --> 00:27:27,600

talked about it was bob lazar and bob

798

00:27:30,630 --> 00:27:29,039

lazar's brought up of course it's a

799

00:27:32,389 --> 00:27:30,640

george knapp interview with a big name

800

00:27:34,870 --> 00:27:32,399

so if lazar's going to come up at some

801
00:27:36,549 --> 00:27:34,880
point and that jim semivan

802
00:27:38,950 --> 00:27:36,559
again says he sees nothing to say that

803
00:27:41,430 --> 00:27:38,960
bob lazar's a liar he acknowledges he

804
00:27:44,070 --> 00:27:41,440
could be lying but doesn't think so and

805
00:27:46,310 --> 00:27:44,080
that um it makes sense and i've got the

806
00:27:48,710 --> 00:27:46,320
note here it makes sense why they hired

807
00:27:50,789 --> 00:27:48,720
him look at snowden this is a quote look

808
00:27:52,549 --> 00:27:50,799
at snowden we hired him no college

809
00:27:54,630 --> 00:27:52,559
degree but a very smart kid in my

810
00:27:57,029 --> 00:27:54,640
opinion he's a traitor and they hired

811
00:27:58,789 --> 00:27:57,039
him causes are a zen mind and when a

812
00:28:00,710 --> 00:27:58,799
project gets stuck they bring in someone

813
00:28:03,510 --> 00:28:00,720

completely different completely new to

814

00:28:05,350 --> 00:28:03,520

give a new perspective and maybe someone

815

00:28:07,510 --> 00:28:05,360

that had those personality flaws if you

816

00:28:09,110 --> 00:28:07,520

want to call them of a bob lazar and

817

00:28:10,789 --> 00:28:09,120

we've discussed this before including

818

00:28:12,950 --> 00:28:10,799

with george knapp as the person you

819

00:28:15,430 --> 00:28:12,960

bring in because there's that plausible

820

00:28:18,789 --> 00:28:15,440

deniability yeah it's like bringing in

821

00:28:21,510 --> 00:28:18,799

me to to be an expert on something that

822

00:28:23,190 --> 00:28:21,520

you know he's flawed and the guy who has

823

00:28:24,230 --> 00:28:23,200

silly little ufo podcast yeah but he

824

00:28:25,750 --> 00:28:24,240

knows this

825

00:28:27,350 --> 00:28:25,760

yeah but you know he's also the guy that

826

00:28:30,789 --> 00:28:27,360

you go if he ever goes to the papers or

827

00:28:32,070 --> 00:28:30,799

the press yeah so ufo nut andy mcgrillen

828

00:28:33,590 --> 00:28:32,080

and that's how it would be positioned

829

00:28:35,669 --> 00:28:33,600

but it doesn't mean i didn't do what i

830

00:28:37,669 --> 00:28:35,679

was brought in to do and i think that's

831

00:28:40,070 --> 00:28:37,679

that's the way bob lazar potentially

832

00:28:41,990 --> 00:28:40,080

because i i've always said i still lean

833

00:28:43,669 --> 00:28:42,000

much more towards lazar

834

00:28:45,350 --> 00:28:43,679

telling the truth and a lot of that

835

00:28:46,950 --> 00:28:45,360

story not all of it but a lot of it

836

00:28:48,710 --> 00:28:46,960

being being correct and i would say

837

00:28:51,269 --> 00:28:48,720

there's probably reasons

838

00:28:53,110 --> 00:28:51,279

why why some of that isn't true

839

00:28:54,950 --> 00:28:53,120

yeah yeah i i would agree i always

840

00:28:57,750 --> 00:28:54,960

struggle with the bizarre thing that's a

841

00:28:59,510 --> 00:28:57,760

unknown plate for me that just spins but

842

00:29:00,789 --> 00:28:59,520

there's a lot there like you say the zen

843

00:29:02,470 --> 00:29:00,799

mind thing bringing in someone with

844

00:29:03,750 --> 00:29:02,480

plausible deniability you know he was a

845

00:29:05,669 --> 00:29:03,760

larger than life character that was

846

00:29:07,750 --> 00:29:05,679

showing off rocket cars in the local

847

00:29:09,269 --> 00:29:07,760

paper you know you can that's the one

848

00:29:11,750 --> 00:29:09,279

that you can easily write off and a

849

00:29:12,470 --> 00:29:11,760

plausible deniability um

850

00:29:14,070 --> 00:29:12,480

but

851

00:29:16,070 --> 00:29:14,080

you know with with bob lazar we also

852

00:29:18,070 --> 00:29:16,080

have like two pools of information that

853

00:29:20,549 --> 00:29:18,080

he gave us we had the stuff that he says

854

00:29:22,470 --> 00:29:20,559

he saw and experienced and worked on and

855

00:29:24,070 --> 00:29:22,480

then we have the stuff where he was you

856

00:29:25,909 --> 00:29:24,080

know poor in a room given a file and

857

00:29:27,750 --> 00:29:25,919

that's all the zita reticuli stuff and

858

00:29:29,510 --> 00:29:27,760

things like that so there could be a

859

00:29:31,909 --> 00:29:29,520

little misinformation money in the

860

00:29:34,310 --> 00:29:31,919

waters there for that plus and posable

861

00:29:36,630 --> 00:29:34,320

deniability as well

862

00:29:38,389 --> 00:29:36,640

dan anything else you want to add to

863

00:29:39,510 --> 00:29:38,399

that one obviously this is something we

864

00:29:40,470 --> 00:29:39,520

want people to go and check out

865

00:29:42,470 --> 00:29:40,480

themselves

866

00:29:44,630 --> 00:29:42,480

uh subscribe to coast to coast i'll

867

00:29:46,630 --> 00:29:44,640

again give a shout out to joe margia who

868

00:29:49,830 --> 00:29:46,640

does a wonderful job transcribing it's a

869

00:29:51,830 --> 00:29:49,840

64 or 65 mega tweet thread that joe

870

00:29:53,029 --> 00:29:51,840

murgia managed to to sit and give so if

871

00:29:55,269 --> 00:29:53,039

you're just looking for those kind of

872

00:29:57,190 --> 00:29:55,279

highlights then check that out as well

873

00:29:59,990 --> 00:29:57,200

but certainly go and listen to the full

874

00:30:02,310 --> 00:30:00,000

interview if you can um anything else

875

00:30:04,789 --> 00:30:02,320

you want to add i think only uh bodies

876

00:30:06,950 --> 00:30:04,799

and craft brought up and in response to

877

00:30:08,389 --> 00:30:06,960

it semi-van kind of stutters and says

878

00:30:09,909 --> 00:30:08,399

yeah he doesn't go in there

879

00:30:11,990 --> 00:30:09,919

george jokingly says well that says a

880

00:30:14,870 --> 00:30:12,000

lot anyway so thank you for that

881

00:30:16,549 --> 00:30:14,880

did did cement not answer in a similar

882

00:30:18,630 --> 00:30:16,559

way a similar question when he was on

883

00:30:19,750 --> 00:30:18,640

with brian keating and tom delong

884

00:30:22,789 --> 00:30:19,760

like

885

00:30:24,789 --> 00:30:22,799

yeah gets that sort of awkward uh

886

00:30:27,190 --> 00:30:24,799

not for me not not going there so which

887

00:30:28,310 --> 00:30:27,200

which might mean nothing you know yes um

888

00:30:30,230 --> 00:30:28,320

you've got to see it could mean

889

00:30:32,070 --> 00:30:30,240

everything so yeah take tickets it

890

00:30:33,350 --> 00:30:32,080

probably means he's seen the bodies in

891

00:30:34,710 --> 00:30:33,360

the craft

892

00:30:36,789 --> 00:30:34,720

he can't get him in his car boot right

893

00:30:37,990 --> 00:30:36,799

that's yeah but there's probably good

894

00:30:40,149 --> 00:30:38,000

reasons for these people to give the

895

00:30:42,950 --> 00:30:40,159

answers to give so it's i think it's

896

00:30:44,870 --> 00:30:42,960

we're so accustomed to to no comment or

897

00:30:45,830 --> 00:30:44,880

i can't discuss that because of an nda

898

00:30:49,430 --> 00:30:45,840

meaning

899

00:30:51,510 --> 00:30:49,440

not always the case so it's he's not

900

00:30:53,669 --> 00:30:51,520

giving an answer it's a known answer

901
00:30:55,110 --> 00:30:53,679
yeah um just to touch on it again we

902
00:30:57,269 --> 00:30:55,120
want people to go and watch it cut dry

903
00:30:58,789 --> 00:30:57,279
mungo is a friend of ours now especially

904
00:31:00,549 --> 00:30:58,799
from professional point of view he's

905
00:31:02,230 --> 00:31:00,559
great to talk to and he's just had

906
00:31:04,149 --> 00:31:02,240
george knapp and cole kelleher on

907
00:31:05,750 --> 00:31:04,159
theories of everything um i've only

908
00:31:08,470 --> 00:31:05,760
caught bits of it it was bad times with

909
00:31:10,070 --> 00:31:08,480
the kids uh when it was on live so uh

910
00:31:12,470 --> 00:31:10,080
you managed to make some notes on it dan

911
00:31:13,430 --> 00:31:12,480
any particular points for you it's a

912
00:31:14,789 --> 00:31:13,440
good job you didn't watch it with the

913
00:31:16,389 --> 00:31:14,799

kids there might have been some stories

914

00:31:18,549 --> 00:31:16,399

that were scary for them so yeah

915

00:31:20,630 --> 00:31:18,559

probably call you know the dino beaver

916

00:31:22,149 --> 00:31:20,640

isn't soft and cuddly to everyone the

917

00:31:25,190 --> 00:31:22,159

the baby caught some of it but he's not

918

00:31:28,710 --> 00:31:26,310

or he knows everything and can't

919

00:31:30,070 --> 00:31:28,720

communicate it's one of the two

920

00:31:32,389 --> 00:31:30,080

so there was a lot of conversation about

921

00:31:34,230 --> 00:31:32,399

the hitchhiker effect and and that kind

922

00:31:35,830 --> 00:31:34,240

of opened up a little bit uh you

923

00:31:37,590 --> 00:31:35,840

mentioned jonathan davis earlier and i

924

00:31:40,710 --> 00:31:37,600

saw that he was ecstatic in the chat

925

00:31:43,350 --> 00:31:40,720

because um it was mentioned that black

926
00:31:46,070 --> 00:31:43,360
helicopters showing up uh kind of could

927
00:31:47,909 --> 00:31:46,080
be part of the hitchhiker effect and i

928
00:31:49,909 --> 00:31:47,919
know there's a lot of discussion around

929
00:31:51,430 --> 00:31:49,919
uap disguising themselves as different

930
00:31:53,830 --> 00:31:51,440
objects be it commercial airliners

931
00:31:55,430 --> 00:31:53,840
clouds black helicopters and and we

932
00:31:57,430 --> 00:31:55,440
actually got some conversation about it

933
00:31:59,590 --> 00:31:57,440
here um it's time coded so i recommend

934
00:32:01,830 --> 00:31:59,600
people go listen to it but it was

935
00:32:03,430 --> 00:32:01,840
very interesting to hear that multiple

936
00:32:05,110 --> 00:32:03,440
people had experiences with black

937
00:32:07,750 --> 00:32:05,120
helicopters passing overhead that were

938
00:32:09,909 --> 00:32:07,760

unmarked you know it could be i think

939

00:32:11,350 --> 00:32:09,919

you know we have the idea of the

940

00:32:13,190 --> 00:32:11,360

phenomena being able to give us kind of

941

00:32:15,669 --> 00:32:13,200

holograms and screen images in our heads

942

00:32:19,430 --> 00:32:15,679

by manipulating our consciousness so

943

00:32:20,870 --> 00:32:19,440

maybe that's it you know set in reacting

944

00:32:22,470 --> 00:32:20,880

to people's expectations what they

945

00:32:24,389 --> 00:32:22,480

expect to see overhead or making people

946

00:32:25,990 --> 00:32:24,399

nervous it's uh it's very interesting i

947

00:32:27,029 --> 00:32:26,000

i wouldn't like to say definitively what

948

00:32:30,470 --> 00:32:27,039

it is but

949

00:32:31,750 --> 00:32:30,480

i know it's in a lot of cases um i also

950

00:32:35,430 --> 00:32:31,760

had the pleasure of having a question

951

00:32:37,350 --> 00:32:35,440

asked i i asked uh colum and knapp

952

00:32:39,350 --> 00:32:37,360

what uh what people

953

00:32:41,350 --> 00:32:39,360

haven't spoken about from the books that

954

00:32:43,669 --> 00:32:41,360

were really interesting

955

00:32:45,590 --> 00:32:43,679

um nap answered by basically emphasizing

956

00:32:47,830 --> 00:32:45,600

that this is probably osap was probably

957

00:32:49,909 --> 00:32:47,840

the biggest study of the phenomena um in

958

00:32:51,590 --> 00:32:49,919

history with the us government uh 22

959

00:32:52,950 --> 00:32:51,600

million doesn't seem like a lot but it's

960

00:32:54,470 --> 00:32:52,960

a lot more than we thought was button

961

00:32:55,430 --> 00:32:54,480

being put into it which was a big fat

962

00:32:58,470 --> 00:32:55,440

zero

963

00:33:00,470 --> 00:32:58,480

it generated huge databases nothing else

964

00:33:02,070 --> 00:33:00,480

like it in the world at the time

965

00:33:04,230 --> 00:33:02,080

valet created created them and they were

966

00:33:05,590 --> 00:33:04,240

going to be using ai to kind of sift

967

00:33:07,830 --> 00:33:05,600

through them and we know that's where

968

00:33:08,870 --> 00:33:07,840

the conversation's going now so it seems

969

00:33:10,470 --> 00:33:08,880

they could have just found a doorstep

970

00:33:11,669 --> 00:33:10,480

properly a while back right

971

00:33:14,389 --> 00:33:11,679

yeah um

972

00:33:16,470 --> 00:33:14,399

then column uh

973

00:33:19,110 --> 00:33:16,480

emphasized that

974

00:33:21,590 --> 00:33:19,120

the awsap awsap wasn't just about

975

00:33:24,070 --> 00:33:21,600

skinwalker ranch it was a minority of

976

00:33:27,269 --> 00:33:24,080

cases from skinwalker ranch uh they

977

00:33:29,430 --> 00:33:27,279

brought forward 104 separate reports

978

00:33:31,750 --> 00:33:29,440

that were submitted separately um and

979

00:33:33,509 --> 00:33:31,760

only the minority was on skinwalker a

980

00:33:35,750 --> 00:33:33,519

lot of them were based around different

981

00:33:38,389 --> 00:33:35,760

places he brings up a few reports uh of

982

00:33:39,750 --> 00:33:38,399

uh ufo experiences with black triangles

983

00:33:41,669 --> 00:33:39,760

and things like that that were really

984

00:33:43,750 --> 00:33:41,679

intriguing and he also emphasizes the

985

00:33:46,389 --> 00:33:43,760

fact that they had to get three russian

986

00:33:48,149 --> 00:33:46,399

translators to translate all the

987

00:33:51,110 --> 00:33:48,159

material they got out of the soviet

988

00:33:53,669 --> 00:33:51,120

union um for me i've never been big on

989

00:33:55,909 --> 00:33:53,679

that stuff but it what what column said

990

00:33:57,590 --> 00:33:55,919

kind of brought me around a bit on it um

991

00:33:59,430 --> 00:33:57,600

and and they really went hard on it and

992

00:34:03,110 --> 00:33:59,440

and they found a unit i don't know if i

993

00:34:04,710 --> 00:34:03,120

i hadn't seen this before but unit 73790

994

00:34:07,750 --> 00:34:04,720

uh was apparently

995

00:34:10,149 --> 00:34:07,760

kind of the the di-55 or the a-tip of

996

00:34:13,109 --> 00:34:10,159

the soviet union so have a gander if

997

00:34:15,109 --> 00:34:13,119

people are interested in that um

998

00:34:17,510 --> 00:34:15,119

one last thing because there's a lot

999

00:34:19,349 --> 00:34:17,520

here um

1000

00:34:20,790 --> 00:34:19,359

would be we've heard about axelrod in

1001
00:34:23,030 --> 00:34:20,800
the book before

1002
00:34:25,030 --> 00:34:23,040
but column points out here that he was

1003
00:34:27,190 --> 00:34:25,040
the primary or considered the and this

1004
00:34:29,510 --> 00:34:27,200
is the language he uses the primary

1005
00:34:32,069 --> 00:34:29,520
infectee for the hitchhiker effect for

1006
00:34:34,869 --> 00:34:32,079
those around him uh i thought that was a

1007
00:34:36,710 --> 00:34:34,879
really heavy phrase he took it 2 000

1008
00:34:38,389 --> 00:34:36,720
miles back home with him in virginia

1009
00:34:40,149 --> 00:34:38,399
within a few weeks both his wife and son

1010
00:34:42,710 --> 00:34:40,159
had experienced effects a few months

1011
00:34:44,550 --> 00:34:42,720
later neighbors reported them and even

1012
00:34:46,310 --> 00:34:44,560
school kids that his children went to

1013
00:34:47,669 --> 00:34:46,320

school with were reporting strange

1014

00:34:48,869 --> 00:34:47,679

creatures in the bedroom windows and

1015

00:34:52,710 --> 00:34:48,879

outside their bedrooms and stuff i just

1016

00:34:54,069 --> 00:34:52,720

get myself chills um so yeah it's uh

1017

00:34:55,349 --> 00:34:54,079

there's a lot to to like in that

1018

00:34:56,790 --> 00:34:55,359

interview and i thought it did a

1019

00:34:58,310 --> 00:34:56,800

fantastic job

1020

00:35:00,470 --> 00:34:58,320

yeah please go and check that out that's

1021

00:35:03,030 --> 00:35:00,480

theories of everything on youtube you'll

1022

00:35:05,109 --> 00:35:03,040

see they've just hit like 150 000

1023

00:35:07,430 --> 00:35:05,119

subscribers and it's it's only going up

1024

00:35:08,870 --> 00:35:07,440

so yeah oh i've got my again i've still

1025

00:35:11,109 --> 00:35:08,880

got my theories of everything hoodie on

1026

00:35:12,950 --> 00:35:11,119

i've been recording in this week um so

1027

00:35:14,470 --> 00:35:12,960

yeah and one thing to say going nicely

1028

00:35:17,670 --> 00:35:14,480

on to the next section is they do talk

1029

00:35:20,230 --> 00:35:17,680

about havana syndrome

1030

00:35:23,030 --> 00:35:20,240

can we do that in my segway but yeah i i

1031

00:35:25,270 --> 00:35:23,040

always i'm always very good um havana

1032

00:35:27,190 --> 00:35:25,280

syndrome is is something that it was

1033

00:35:28,950 --> 00:35:27,200

picked up on and talked about in the

1034

00:35:30,310 --> 00:35:28,960

last year and year and a half and it's

1035

00:35:32,230 --> 00:35:30,320

never really gone away and the

1036

00:35:34,230 --> 00:35:32,240

mainstream media seemed to pick up on it

1037

00:35:36,390 --> 00:35:34,240

quite frequently as well yeah including

1038

00:35:38,950 --> 00:35:36,400

some of the the big publications uh they

1039

00:35:40,630 --> 00:35:38,960

write regular articles on it too and

1040

00:35:43,589 --> 00:35:40,640

that's not to say it's necessarily

1041

00:35:45,910 --> 00:35:43,599

always phenomenal phenomena rated um or

1042

00:35:47,190 --> 00:35:45,920

related but um i spoke to tim mcmillan

1043

00:35:49,030 --> 00:35:47,200

about this today and he gave a really

1044

00:35:50,630 --> 00:35:49,040

interesting idea that

1045

00:35:51,910 --> 00:35:50,640

he didn't necessarily go down the route

1046

00:35:53,990 --> 00:35:51,920

and i won't spoil it i want people to

1047

00:35:55,349 --> 00:35:54,000

listen to the interview obviously but he

1048

00:35:58,310 --> 00:35:55,359

thinks it may be

1049

00:36:00,470 --> 00:35:58,320

a byproduct of some sort of monitoring

1050

00:36:03,109 --> 00:36:00,480

that might be going on again if it is

1051
00:36:04,710 --> 00:36:03,119
russian or chinese spying for example or

1052
00:36:06,950 --> 00:36:04,720
u.s spying let's lump them all in

1053
00:36:09,109 --> 00:36:06,960
together that it's something that's

1054
00:36:11,270 --> 00:36:09,119
coming off as part of something that's

1055
00:36:12,470 --> 00:36:11,280
happening um and that's what's making

1056
00:36:14,790 --> 00:36:12,480
people sick so maybe like an

1057
00:36:17,430 --> 00:36:14,800
unintentional side effect yeah yeah and

1058
00:36:19,430 --> 00:36:17,440
potentially that's why the the latest

1059
00:36:21,510 --> 00:36:19,440
report that came out i think was it cia

1060
00:36:23,430 --> 00:36:21,520
i can't remember said they didn't think

1061
00:36:25,510 --> 00:36:23,440
it was a foreign adversary

1062
00:36:26,710 --> 00:36:25,520
and he doesn't quite believe that is the

1063
00:36:29,430 --> 00:36:26,720

case

1064

00:36:31,109 --> 00:36:29,440

yeah we we had that cia report saying

1065

00:36:32,310 --> 00:36:31,119

that they could explain the bulk of them

1066

00:36:33,589 --> 00:36:32,320

and there were a few that could be a

1067

00:36:35,510 --> 00:36:33,599

foreign adversary but they weren't

1068

00:36:37,510 --> 00:36:35,520

willing to go that far and then we had a

1069

00:36:39,190 --> 00:36:37,520

new u.s intelligence community report

1070

00:36:40,870 --> 00:36:39,200

this week that

1071

00:36:42,630 --> 00:36:40,880

the study found that pulsed

1072

00:36:45,270 --> 00:36:42,640

electromagnetic energy particularly in

1073

00:36:47,589 --> 00:36:45,280

the radio frequency range um could

1074

00:36:49,030 --> 00:36:47,599

explain the characteristics and uh or

1075

00:36:50,150 --> 00:36:49,040

some of the core characteristics the

1076
00:36:52,310 --> 00:36:50,160
article says

1077
00:36:53,990 --> 00:36:52,320
associated with havana syndrome i'd love

1078
00:36:55,910 --> 00:36:54,000
to see those characteristics and how

1079
00:36:57,510 --> 00:36:55,920
much they cross over with uh with some

1080
00:37:00,150 --> 00:36:57,520
of the core characteristics of the sixth

1081
00:37:02,870 --> 00:37:00,160
observable um cause like

1082
00:37:04,390 --> 00:37:02,880
lou pointing out a while back that

1083
00:37:06,069 --> 00:37:04,400
these things could be very different but

1084
00:37:07,750 --> 00:37:06,079
have similar signatures

1085
00:37:09,510 --> 00:37:07,760
and and i think science is getting to a

1086
00:37:11,030 --> 00:37:09,520
point where we can kind of start to play

1087
00:37:13,910 --> 00:37:11,040
with these things and it might be in the

1088
00:37:15,990 --> 00:37:13,920

same area-ish you know uh non-ionizing

1089

00:37:17,829 --> 00:37:16,000

radiation is a is a scary thing to play

1090

00:37:19,829 --> 00:37:17,839

with and and

1091

00:37:21,510 --> 00:37:19,839

it would yeah be better if we could get

1092

00:37:24,470 --> 00:37:21,520

control of that and figure out what this

1093

00:37:26,790 --> 00:37:24,480

is yeah and maybe that is the case that

1094

00:37:29,030 --> 00:37:26,800

there are instances of havana syndrome

1095

00:37:31,270 --> 00:37:29,040

related to like comb and others have

1096

00:37:35,349 --> 00:37:31,280

said a side effect of being in close

1097

00:37:38,550 --> 00:37:35,359

proximity to uaps ufos but also it could

1098

00:37:40,230 --> 00:37:38,560

be a side effect of other processes and

1099

00:37:42,390 --> 00:37:40,240

things that are happening from a

1100

00:37:45,030 --> 00:37:42,400

intelligence gathering point of view or

1101
00:37:46,550 --> 00:37:45,040
sophisticated weapons sensor systems

1102
00:37:48,069 --> 00:37:46,560
whatever they may be

1103
00:37:50,069 --> 00:37:48,079
that again are having similar side

1104
00:37:52,150 --> 00:37:50,079
effects and causing causing these kind

1105
00:37:53,750 --> 00:37:52,160
of strange strange things to happen like

1106
00:37:55,589 --> 00:37:53,760
thomas winterton

1107
00:37:57,430 --> 00:37:55,599
can you remember some of the well we

1108
00:37:59,190 --> 00:37:57,440
were talking radar way back when we you

1109
00:38:01,349 --> 00:37:59,200
know were first getting into the tic-tac

1110
00:38:03,589 --> 00:38:01,359
conversation um and what those radars

1111
00:38:05,510 --> 00:38:03,599
could pick up um i remember someone

1112
00:38:08,470 --> 00:38:05,520
explaining that basically if you aimed

1113
00:38:10,310 --> 00:38:08,480

the the radars and the arrays at a bird

1114

00:38:11,990 --> 00:38:10,320

it would just cook it basically because

1115

00:38:13,910 --> 00:38:12,000

of the energy being thrown at it so

1116

00:38:15,829 --> 00:38:13,920

that's a really good example of an

1117

00:38:17,670 --> 00:38:15,839

unintentional consequence of a

1118

00:38:20,150 --> 00:38:17,680

technology that's perfectly reasonable

1119

00:38:22,150 --> 00:38:20,160

to use you know the radar tracking um

1120

00:38:23,670 --> 00:38:22,160

but yeah side effect is it fries the

1121

00:38:25,910 --> 00:38:23,680

bird if you aim it

1122

00:38:27,589 --> 00:38:25,920

and again those those waves carry on for

1123

00:38:28,710 --> 00:38:27,599

however long and whatever distance it

1124

00:38:29,750 --> 00:38:28,720

may be and

1125

00:38:31,349 --> 00:38:29,760

yeah so

1126

00:38:32,630 --> 00:38:31,359

interesting and it's interesting to see

1127

00:38:34,150 --> 00:38:32,640

that's still being picked up and

1128

00:38:36,310 --> 00:38:34,160

reported on so

1129

00:38:39,430 --> 00:38:36,320

let's let's keep on top of that one

1130

00:38:42,230 --> 00:38:39,440

uh dan your james webb space telescope

1131

00:38:44,470 --> 00:38:42,240

uh update what's happening with the big

1132

00:38:47,190 --> 00:38:44,480

mirror up there in the sky so the james

1133

00:38:49,750 --> 00:38:47,200

webb is about a million miles away 1.5

1134

00:38:52,230 --> 00:38:49,760

million kilometers for ufoku who aren't

1135

00:38:53,829 --> 00:38:52,240

accustomed to miles um

1136

00:38:55,750 --> 00:38:53,839

they are now doing the mirror alignments

1137

00:38:57,109 --> 00:38:55,760

basically i don't know if you remember

1138

00:38:59,270 --> 00:38:57,119

that when the hubble went up there was

1139

00:39:00,550 --> 00:38:59,280

kind of a mess up um and the mirrors

1140

00:39:03,349 --> 00:39:00,560

they they had to go up and fix the

1141

00:39:04,069 --> 00:39:03,359

mirrors basically um this time instead

1142

00:39:05,510 --> 00:39:04,079

of

1143

00:39:07,510 --> 00:39:05,520

something potentially going wrong and

1144

00:39:09,270 --> 00:39:07,520

then having to fly and fix it because

1145

00:39:11,910 --> 00:39:09,280

it's a lot further than the moon and it

1146

00:39:13,829 --> 00:39:11,920

would be hard to do um

1147

00:39:15,349 --> 00:39:13,839

they made it so that all of those mirror

1148

00:39:17,349 --> 00:39:15,359

sections are on servos and they can kind

1149

00:39:19,510 --> 00:39:17,359

of flex and bend them as they need so

1150

00:39:21,990 --> 00:39:19,520

what's happening now until kind of

1151
00:39:23,990 --> 00:39:22,000
may-ish summer is they're just aligning

1152
00:39:25,750 --> 00:39:24,000
all those mirrors so

1153
00:39:27,109 --> 00:39:25,760
at the moment everything's out of focus

1154
00:39:28,550 --> 00:39:27,119
they're still receiving you know this

1155
00:39:31,030 --> 00:39:28,560
photons hitting the detectors there'll

1156
00:39:32,950 --> 00:39:31,040
be data being generated but it's all

1157
00:39:34,310 --> 00:39:32,960
going to kind of be like looking

1158
00:39:35,670 --> 00:39:34,320
you know almost like if i take my

1159
00:39:36,470 --> 00:39:35,680
glasses off and kind of start looking at

1160
00:39:38,630 --> 00:39:36,480
things

1161
00:39:40,870 --> 00:39:38,640
and they're getting the glasses on it um

1162
00:39:43,910 --> 00:39:40,880
so so we'll see the first uh

1163
00:39:45,750 --> 00:39:43,920

images by it should be about summerish

1164

00:39:48,230 --> 00:39:45,760

um and you can actually go to the james

1165

00:39:51,190 --> 00:39:48,240

webb uh data repository and download

1166

00:39:53,030 --> 00:39:51,200

these images they just don't come in a

1167

00:39:54,470 --> 00:39:53,040

format like a jpeg or something like

1168

00:39:56,710 --> 00:39:54,480

that or work on your phone you've got to

1169

00:39:58,710 --> 00:39:56,720

get special programs they are free

1170

00:40:00,310 --> 00:39:58,720

but yeah have a gander if you're you're

1171

00:40:01,910 --> 00:40:00,320

into that kind of thing

1172

00:40:03,349 --> 00:40:01,920

yeah keep an eye on that stuff online

1173

00:40:05,109 --> 00:40:03,359

folks like there's going to be nothing

1174

00:40:07,349 --> 00:40:05,119

coming through in terms of of images

1175

00:40:09,750 --> 00:40:07,359

till the summer i saw today on facebook

1176
00:40:12,630 --> 00:40:09,760
someone reporting it was an image of

1177
00:40:15,510 --> 00:40:12,640
jupiter and two of the moons that was

1178
00:40:17,589 --> 00:40:15,520
filmed by cassini and one of the flybys

1179
00:40:19,190 --> 00:40:17,599
and it was like a time lapse of images

1180
00:40:20,870 --> 00:40:19,200
that were taken beautiful picture and

1181
00:40:23,430 --> 00:40:20,880
someone was like here are the first

1182
00:40:25,510 --> 00:40:23,440
images from the james webb telescope and

1183
00:40:27,270 --> 00:40:25,520
it was like quite a few people quickly

1184
00:40:29,109 --> 00:40:27,280
jumped on that saying nope that's not

1185
00:40:30,470 --> 00:40:29,119
the case and to be honest i don't think

1186
00:40:32,309 --> 00:40:30,480
that's what we're going to be getting

1187
00:40:33,670 --> 00:40:32,319
from the james webb telescope anyway is

1188
00:40:35,349 --> 00:40:33,680

it it's going to be looking

1189

00:40:37,910 --> 00:40:35,359

a lot further out it's not a probe

1190

00:40:39,670 --> 00:40:37,920

flying past planets it's a telescope

1191

00:40:41,349 --> 00:40:39,680

sitting out in the void looking into

1192

00:40:43,270 --> 00:40:41,359

deep deep deep space

1193

00:40:45,190 --> 00:40:43,280

yeah and looking back in time pretty

1194

00:40:47,430 --> 00:40:45,200

much yeah yeah and and with certain

1195

00:40:48,710 --> 00:40:47,440

light as well uh i i don't know if

1196

00:40:50,710 --> 00:40:48,720

people know this but when you see

1197

00:40:52,150 --> 00:40:50,720

pictures of like venus and jupiter and

1198

00:40:54,470 --> 00:40:52,160

things like that they're all

1199

00:40:56,630 --> 00:40:54,480

artificially colored so

1200

00:40:59,750 --> 00:40:56,640

venus people consider it gold it's not

1201
00:41:03,349 --> 00:40:59,760
gold it's like a white kind of marble um

1202
00:41:05,349 --> 00:41:03,359
but the astronomers kind of

1203
00:41:06,870 --> 00:41:05,359
they make it a bit more dramatic because

1204
00:41:08,630 --> 00:41:06,880
venus is meant to be a hellscape so they

1205
00:41:10,150 --> 00:41:08,640
make it look like a hellscape and it's

1206
00:41:12,069 --> 00:41:10,160
true of all the planets in the solar

1207
00:41:14,790 --> 00:41:12,079
system kind of accept ours i think but

1208
00:41:17,910 --> 00:41:16,470
one of those little school setups

1209
00:41:20,069 --> 00:41:17,920
doesn't it as well yeah yeah all the

1210
00:41:21,829 --> 00:41:20,079
different colors yeah exactly easier to

1211
00:41:23,670 --> 00:41:21,839
remember when they're like that but yeah

1212
00:41:24,790 --> 00:41:23,680
it'll be like infrared ultraviolet light

1213
00:41:26,790 --> 00:41:24,800

and things like that and then they pick

1214

00:41:29,109 --> 00:41:26,800

the color hues based on it so

1215

00:41:30,150 --> 00:41:29,119

yeah

1216

00:41:31,670 --> 00:41:30,160

are we

1217

00:41:33,190 --> 00:41:31,680

totally separate question dan this is

1218

00:41:34,630 --> 00:41:33,200

one for i could ask you after about i'll

1219

00:41:36,230 --> 00:41:34,640

ask it now because other people might be

1220

00:41:37,430 --> 00:41:36,240

thinking the same thing it was only in

1221

00:41:38,950 --> 00:41:37,440

the last couple of years i really

1222

00:41:41,670 --> 00:41:38,960

realized that we don't really have any

1223

00:41:44,069 --> 00:41:41,680

proper pictures as we know it of other

1224

00:41:46,710 --> 00:41:44,079

planets or or things in space they're

1225

00:41:49,270 --> 00:41:46,720

always either artist interpretations um

1226
00:41:50,710 --> 00:41:49,280
cgi or like you say things that are kind

1227
00:41:51,670 --> 00:41:50,720
of filled in

1228
00:41:54,150 --> 00:41:51,680
yeah

1229
00:41:55,990 --> 00:41:54,160
are there any actually good pictures of

1230
00:41:57,349 --> 00:41:56,000
other planets that are accurate that we

1231
00:41:58,550 --> 00:41:57,359
aren't filling in the details of

1232
00:42:01,030 --> 00:41:58,560
ourselves

1233
00:42:02,630 --> 00:42:01,040
you you can find them um they're just

1234
00:42:04,150 --> 00:42:02,640
kind of buried in the archives because

1235
00:42:06,309 --> 00:42:04,160
the more dramatically coloured ones

1236
00:42:08,390 --> 00:42:06,319
catch on with the public's imagination

1237
00:42:09,589 --> 00:42:08,400
um but they are out there and and there

1238
00:42:10,870 --> 00:42:09,599

was an article a couple of weeks about

1239

00:42:12,309 --> 00:42:10,880

where someone put a few of them together

1240

00:42:13,510 --> 00:42:12,319

so i'll try and find that and we can put

1241

00:42:14,790 --> 00:42:13,520

the link in the description so people

1242

00:42:16,790 --> 00:42:14,800

can see what the planets really look

1243

00:42:18,470 --> 00:42:16,800

like uh because yeah you you just kind

1244

00:42:21,109 --> 00:42:18,480

of think wow maybe the earth is flat not

1245

00:42:24,150 --> 00:42:21,119

really i'm kidding don't be mad at me

1246

00:42:26,710 --> 00:42:24,160

no we know it is um but yeah no it's

1247

00:42:29,430 --> 00:42:26,720

definitely not um and also i just want

1248

00:42:32,309 --> 00:42:29,440

to add that the our friends at ufo

1249

00:42:34,950 --> 00:42:32,319

identified dot co dot uk that's a ash

1250

00:42:36,550 --> 00:42:34,960

and co and who put on the fabulous mini

1251

00:42:38,550 --> 00:42:36,560

con in preston last year myself and

1252

00:42:41,430 --> 00:42:38,560

graham render attended and they've got

1253

00:42:43,829 --> 00:42:41,440

the uk ufo report up which was published

1254

00:42:45,430 --> 00:42:43,839

on the first of february 2022 and it's

1255

00:42:47,589 --> 00:42:45,440

our annual report looking at all the

1256

00:42:51,109 --> 00:42:47,599

sightings data for reports made during

1257

00:42:53,589 --> 00:42:51,119

2021 so check that out at ufo identified

1258

00:42:56,069 --> 00:42:53,599

dot co dot uk and i think later in the

1259

00:42:57,510 --> 00:42:56,079

year i'll be popping along to the third

1260

00:42:59,510 --> 00:42:57,520

conference when it's announced so keep

1261

00:43:00,790 --> 00:42:59,520

an eye on that one as well folks i think

1262

00:43:04,230 --> 00:43:00,800

dan's going to make an effort to get to

1263

00:43:07,430 --> 00:43:04,240

this one too yeah i imagine

1264

00:43:09,670 --> 00:43:07,440

um yeah so absolutely

1265

00:43:11,589 --> 00:43:09,680

um some then what's to come folks on the

1266

00:43:12,950 --> 00:43:11,599

podcast so as we recall this it's the

1267

00:43:14,150 --> 00:43:12,960

fourth of february

1268

00:43:16,069 --> 00:43:14,160

and uh

1269

00:43:18,150 --> 00:43:16,079

lots to do i've literally spent the day

1270

00:43:19,430 --> 00:43:18,160

as dan knows doing podcast off all day

1271

00:43:22,309 --> 00:43:19,440

took the day off work to do this

1272

00:43:25,349 --> 00:43:22,319

non-stop um so available from today is

1273

00:43:27,430 --> 00:43:25,359

uh on that's friday the 4th on patreon

1274

00:43:29,109 --> 00:43:27,440

on apple premium or spotify premium

1275

00:43:31,030 --> 00:43:29,119

that's the paid subscriptions not like

1276

00:43:33,990 --> 00:43:31,040

you pay spotify but you you sign up for

1277

00:43:35,910 --> 00:43:34,000

the 199 or 299 and paid subscription you

1278

00:43:37,829 --> 00:43:35,920

can hear tim mcmillan's interview um

1279

00:43:39,829 --> 00:43:37,839

over a week early that will be uploaded

1280

00:43:42,470 --> 00:43:39,839

over a day or so in two parts because it

1281

00:43:44,470 --> 00:43:42,480

was recorded in two parts and we'll be

1282

00:43:47,109 --> 00:43:44,480

discussing with tim what happens during

1283

00:43:49,270 --> 00:43:47,119

his quote-unquote downtime and which is

1284

00:43:50,790 --> 00:43:49,280

a lot i can assure you um debrief

1285

00:43:52,470 --> 00:43:50,800

article on chris mellon we go into that

1286

00:43:55,349 --> 00:43:52,480

in more detail we talk about

1287

00:43:56,870 --> 00:43:55,359

anti-neutrinos and baiting ufos and

1288

00:43:58,550 --> 00:43:56,880

there's a whole lot more in there as

1289

00:44:00,390 --> 00:43:58,560

well with a really really long deep

1290

00:44:03,030 --> 00:44:00,400

conversation and the listener questions

1291

00:44:05,510 --> 00:44:03,040

section was fantastic too um what any

1292

00:44:06,870 --> 00:44:05,520

some more controversial questions that

1293

00:44:08,150 --> 00:44:06,880

tim gave

1294

00:44:09,829 --> 00:44:08,160

he answered everything but there was

1295

00:44:11,430 --> 00:44:09,839

some stuff people were kind of really

1296

00:44:13,430 --> 00:44:11,440

inquisitive about knowing in there as

1297

00:44:16,550 --> 00:44:13,440

well so check that out folks this

1298

00:44:18,710 --> 00:44:16,560

weekend also tom delong profile part 1.5

1299

00:44:20,710 --> 00:44:18,720

will be available where we discuss your

1300

00:44:22,790 --> 00:44:20,720

points thoughts and questions from our

1301

00:44:24,069 --> 00:44:22,800

part one profile of tom delong and it

1302

00:44:26,710 --> 00:44:24,079

certainly proved to be one of the most

1303

00:44:29,510 --> 00:44:26,720

popular shows for a long time as well um

1304

00:44:30,950 --> 00:44:29,520

big hit on on the youtube um let's see

1305

00:44:32,309 --> 00:44:30,960

if that's just because lots of people

1306

00:44:33,670 --> 00:44:32,319

still thought it was an interview with

1307

00:44:35,190 --> 00:44:33,680

tom delong

1308

00:44:36,710 --> 00:44:35,200

even though we said it wasn't and we

1309

00:44:38,950 --> 00:44:36,720

called it a profile and everything else

1310

00:44:41,109 --> 00:44:38,960

but yeah part two is still not an

1311

00:44:43,270 --> 00:44:41,119

interview with tom delong um i'll give a

1312

00:44:45,190 --> 00:44:43,280

quick update on how our interview with

1313

00:44:47,589 --> 00:44:45,200

tom delong is going they are still not

1314

00:44:49,430 --> 00:44:47,599

getting back to us um and they've also

1315

00:44:51,589 --> 00:44:49,440

cancelled their tour now so tom's not

1316

00:44:53,430 --> 00:44:51,599

even coming to the uk which on one hand

1317

00:44:55,030 --> 00:44:53,440

may mean he has more time for interviews

1318

00:44:56,309 --> 00:44:55,040

but on the other hand he's going to be

1319

00:44:57,829 --> 00:44:56,319

on a different time zone to us and he

1320

00:44:59,670 --> 00:44:57,839

might be a little bit less receptive to

1321

00:45:01,270 --> 00:44:59,680

that yeah if you're listening tom it

1322

00:45:03,670 --> 00:45:01,280

would still be good to have you on he's

1323

00:45:05,030 --> 00:45:03,680

probably not listening mark travis can

1324

00:45:07,990 --> 00:45:05,040

you tell tom to come on that would be

1325

00:45:11,109 --> 00:45:08,000

great uh so part two part two where we

1326

00:45:13,750 --> 00:45:11,119

discussed those early um years of tsa

1327

00:45:16,550 --> 00:45:13,760

as we knew it it's flame burned all too

1328

00:45:18,230 --> 00:45:16,560

bright too quickly and but had a lot to

1329

00:45:20,390 --> 00:45:18,240

accomplish in a very short time that'll

1330

00:45:22,309 --> 00:45:20,400

be out as well on monday the 7th of

1331

00:45:24,069 --> 00:45:22,319

february on the free feed john ramirez

1332

00:45:25,750 --> 00:45:24,079

part 2 is out thank you to everyone

1333

00:45:28,150 --> 00:45:25,760

who's checked out the interview and full

1334

00:45:30,870 --> 00:45:28,160

already on the premium services and

1335

00:45:33,030 --> 00:45:30,880

finally dan you are off to columbia on

1336

00:45:35,270 --> 00:45:33,040

monday the 7th of feb you're meeting up

1337

00:45:37,109 --> 00:45:35,280

with vinnie this sunday in brewdog and

1338

00:45:39,109 --> 00:45:37,119

birmingham aren't you that's right yeah

1339

00:45:41,829 --> 00:45:39,119

so vinnie's going to be in brewdog in

1340

00:45:43,349 --> 00:45:41,839

birmingham from 1pm uh so you can meet

1341

00:45:45,270 --> 00:45:43,359

up and and you know have a chat with

1342

00:45:47,030 --> 00:45:45,280

vinnie i'll be coming along at about 5pm

1343

00:45:49,670 --> 00:45:47,040

because i got a later bus

1344

00:45:51,910 --> 00:45:49,680

but after that we go to a hotel haul up

1345

00:45:53,430 --> 00:45:51,920

for the night and and yeah hopefully get

1346

00:45:54,710 --> 00:45:53,440

an early night because we have 5 am

1347

00:45:56,790 --> 00:45:54,720

flight

1348

00:45:59,030 --> 00:45:56,800

but by monday evening i will be in

1349

00:46:01,190 --> 00:45:59,040

colombia with ashley cowie and the team

1350

00:46:03,270 --> 00:46:01,200

um and yeah i'll start sending you

1351
00:46:04,309 --> 00:46:03,280
updates and about what's happening out

1352
00:46:05,750 --> 00:46:04,319
there

1353
00:46:07,349 --> 00:46:05,760
awesome well i look forward to those

1354
00:46:08,630 --> 00:46:07,359
updates i look forward to kind of

1355
00:46:10,069 --> 00:46:08,640
catching up and seeing what happens

1356
00:46:12,230 --> 00:46:10,079
while you're out there there's a whole

1357
00:46:14,069 --> 00:46:12,240
load of content already in the can and

1358
00:46:16,230 --> 00:46:14,079
dan and i are doing one last recording

1359
00:46:18,150 --> 00:46:16,240
tomorrow to make sure there's plenty to

1360
00:46:19,990 --> 00:46:18,160
come out still while everyone's away

1361
00:46:21,829 --> 00:46:20,000
i've got interviews um lined up with

1362
00:46:23,510 --> 00:46:21,839
professor simon holland

1363
00:46:25,109 --> 00:46:23,520

which i've announced and you can send

1364

00:46:26,630 --> 00:46:25,119

over questions already check out

1365

00:46:27,750 --> 00:46:26,640

professor simon holland's youtube

1366

00:46:30,950 --> 00:46:27,760

channel

1367

00:46:32,790 --> 00:46:30,960

to email the questions to ufo uapam

1368

00:46:34,470 --> 00:46:32,800

gmail.com i know that's what dan's

1369

00:46:36,630 --> 00:46:34,480

looking forward to as well

1370

00:46:39,030 --> 00:46:36,640

and kevin randle were just working on

1371

00:46:42,309 --> 00:46:39,040

securing a date and time on his new book

1372

00:46:44,309 --> 00:46:42,319

on levelland texas in the event of 1957

1373

00:46:45,990 --> 00:46:44,319

too that'll be pretty much it for

1374

00:46:48,230 --> 00:46:46,000

february we start to hit march at that

1375

00:46:50,550 --> 00:46:48,240

point and i will look to drop over

1376

00:46:53,109 --> 00:46:50,560

listener colin slots as well for the

1377

00:46:55,510 --> 00:46:53,119

next week or so well dan's away so if

1378

00:46:57,589 --> 00:46:55,520

you can email me with the subject

1379

00:46:59,750 --> 00:46:57,599

listener colin that would be great a few

1380

00:47:01,109 --> 00:46:59,760

people have already fantastic i will try

1381

00:47:03,670 --> 00:47:01,119

and fit you in his best that

1382

00:47:06,309 --> 00:47:03,680

accommodates your time zone and mine

1383

00:47:08,870 --> 00:47:06,319

dan that's all for the breakdown so

1384

00:47:10,870 --> 00:47:08,880

until next time and well i guess i'll

1385

00:47:12,309 --> 00:47:10,880

see you when i get back from colombia uh

1386

00:47:14,630 --> 00:47:12,319

just before we finish out i just want to

1387

00:47:16,550 --> 00:47:14,640

say thank you to everyone that donated

1388

00:47:18,230 --> 00:47:16,560

to the raffle over christmas lou and i

1389

00:47:20,470 --> 00:47:18,240

just finished out all of the calls with

1390

00:47:22,870 --> 00:47:20,480

people who you know either bid for them

1391

00:47:25,349 --> 00:47:22,880

or made such a big bid that lou wanted

1392

00:47:26,309 --> 00:47:25,359

to take time to call them um and there

1393

00:47:28,309 --> 00:47:26,319

were some really productive

1394

00:47:30,470 --> 00:47:28,319

conversations and and some really great

1395

00:47:32,870 --> 00:47:30,480

ideas from the people who entered the

1396

00:47:35,030 --> 00:47:32,880

raffle about the next uh fundraising

1397

00:47:37,109 --> 00:47:35,040

like this year so thank you thank you to

1398

00:47:38,790 --> 00:47:37,119

everyone who uh helped us raise twenty

1399

00:47:41,190 --> 00:47:38,800

four thousand for charity and just keep

1400

00:47:42,710 --> 00:47:41,200

an eye out uh for news on on the next

1401

00:47:44,309 --> 00:47:42,720

round of fundraising

1402

00:47:46,230 --> 00:47:44,319

but don't worry folks i'm not leaving

1403

00:47:48,390 --> 00:47:46,240

the country i'll still be here in the uk

1404

00:47:51,030 --> 00:47:48,400

i'll still be cold i'll still be working

1405

00:47:53,190 --> 00:47:51,040

and until next time speak to you soon

1406

00:47:55,109 --> 00:47:53,200

that is all for this week's show thank

1407

00:47:57,190 --> 00:47:55,119

you very much for listening please

1408

00:47:59,829 --> 00:47:57,200

remember to leave the podcast to review

1409

00:48:02,069 --> 00:47:59,839

on your chosen platform you can like

1410

00:48:04,069 --> 00:48:02,079

retweet and subscribe that would all be

1411

00:48:06,230 --> 00:48:04,079

very much appreciated the shows are

1412

00:48:07,750 --> 00:48:06,240

being uploaded onto youtube as we speak

1413

00:48:10,230 --> 00:48:07,760

more and more you can sign up at

1414

00:48:12,950 --> 00:48:10,240

patreon.com forward slash that ufo

1415

00:48:15,190 --> 00:48:12,960

podcast to access shows ad free as well

1416

00:48:17,990 --> 00:48:15,200

please get in touch on twitter facebook

1417

00:48:21,190 --> 00:48:18,000

instagram that ufo podcast of course on

1418

00:48:23,270 --> 00:48:21,200

twitter it's at ufo

1419

00:48:26,390 --> 00:48:23,280

and again folks as always keep looking

1420

00:48:53,440 --> 00:48:26,400

up you never know what you might see

1421

00:48:53,450 --> 00:49:02,390

[Music]

1422

00:49:27,670 --> 00:49:03,910

i can't imagine how it could have been

1423

00:49:32,510 --> 00:49:29,030

they thought this was noise they thought

1424

00:49:51,589 --> 00:49:41,740

[Music]

1425

00:49:51,599 --> 00:49:56,230

and what's that

1426

00:50:23,910 --> 00:50:01,589

[Music]

1427

00:50:31,990 --> 00:50:26,020

what's that

1428

00:50:33,829 --> 00:50:32,000

[Music]

1429

00:50:40,650 --> 00:50:33,839

it wasn't a tic tac and not quite a

1430

00:50:40,660 --> 00:50:50,870

[Music]

1431

00:50:50,880 --> 00:50:56,460

so
