PROFILE:

TOM DELONGE - PART 2

1
00:00:00,000 --> 00:00:12,310

[Music]

2
00:00:17,029 --> 00:00:14,470

it was basically a cube with inside of

3
00:00:22,000 --> 00:00:17,039

sphere where the points of the cube

4
00:00:35,190 --> 00:00:31,260

[Music]

5
00:00:36,790 --> 00:00:35,200

[Applause]

6
00:00:39,030 --> 00:00:36,800

so this isn't anything that just is

7
00:00:46,470 --> 00:00:39,040

limited to the united states it's a

8
00:00:51,189 --> 00:00:48,950

hi everyone and welcome back to that ufo

9
00:00:54,389 --> 00:00:51,199

podcast my name is andy and this is tom

10
00:00:56,229 --> 00:00:54,399

delong profile series part two dan is

11
00:00:57,350 --> 00:00:56,239

joining me again for this obviously dan

12
00:00:59,349 --> 00:00:57,360

how are we

13
00:01:01,910 --> 00:00:59,359

hi it's been so long since i last saw

14

00:01:03,510 --> 00:01:01,920

you it has and you're still

15

00:01:05,270 --> 00:01:03,520

oh you might not be in colombia when

16

00:01:07,190 --> 00:01:05,280

this gets released actually already

17

00:01:08,469 --> 00:01:07,200

might not be on the way back if people

18

00:01:10,070 --> 00:01:08,479

are on the patreon and stuff they'll

19

00:01:12,310 --> 00:01:10,080

probably be hearing this before you

20

00:01:13,990 --> 00:01:12,320

you're back but either way you're you're

21

00:01:16,310 --> 00:01:14,000

listening to it thank you that is very

22

00:01:19,109 --> 00:01:16,320

much appreciated um we have just

23

00:01:22,149 --> 00:01:19,119

recorded part 1.5 and are going straight

24

00:01:24,390 --> 00:01:22,159

into part two of this series hopefully

25

00:01:26,390 --> 00:01:24,400

by this point you've realized it's not

26

00:01:28,149 --> 00:01:26,400

an interview with tom delong

27

00:01:30,390 --> 00:01:28,159

that is something that we are still

28

00:01:32,870 --> 00:01:30,400

trying to get and have zero success and

29

00:01:34,469 --> 00:01:32,880

um i say zero like one percent success

30

00:01:36,230 --> 00:01:34,479

and that one of his companies got back

31

00:01:37,910 --> 00:01:36,240

to us and never followed up which is

32

00:01:39,350 --> 00:01:37,920

great the angels in our waves toe was

33

00:01:41,590 --> 00:01:39,360

going to go ahead until andy got in

34

00:01:43,429 --> 00:01:41,600

touch and then they cancelled it so

35

00:01:45,109 --> 00:01:43,439

sorry about that that was me that killed

36

00:01:47,510 --> 00:01:45,119

that whole tour um but we would love to

37

00:01:49,270 --> 00:01:47,520

speak to tom delong however uh we've got

38

00:01:51,990 --> 00:01:49,280

the next best thing which is dan and i

39

00:01:54,550 --> 00:01:52,000

talking about tom delong behind us back

40

00:01:56,469 --> 00:01:54,560

um and the nicest way because i think um

41

00:01:58,230 --> 00:01:56,479

i think i'll i saw one comment down

42

00:02:00,149 --> 00:01:58,240

after part one who

43

00:02:02,709 --> 00:02:00,159

said that we weren't complimentary

44

00:02:04,389 --> 00:02:02,719

towards tom and i really didn't get that

45

00:02:05,350 --> 00:02:04,399

from i think it was one of the youtube

46

00:02:07,670 --> 00:02:05,360

comments

47

00:02:09,190 --> 00:02:07,680

um interesting and i didn't get that

48

00:02:10,389 --> 00:02:09,200

from what we said and what we talked

49

00:02:13,190 --> 00:02:10,399

about i think we presented a lot of

50

00:02:14,390 --> 00:02:13,200

facts and we gave some opinion but i

51
00:02:16,710 --> 00:02:14,400
mean

52
00:02:18,470 --> 00:02:16,720
we said what tom has done and achieved

53
00:02:20,309 --> 00:02:18,480
is pretty amazing let's be honest it's

54
00:02:22,229 --> 00:02:20,319
amazing enough that we're doing a whole

55
00:02:23,990 --> 00:02:22,239
series on him and he's the first person

56
00:02:26,550 --> 00:02:24,000
we're doing it on and it's going to take

57
00:02:28,790 --> 00:02:26,560
several parts because of

58
00:02:30,470 --> 00:02:28,800
all of the the people he's had to get

59
00:02:32,630 --> 00:02:30,480
together and over the time he's done it

60
00:02:34,630 --> 00:02:32,640
is pretty incredible so yeah if you took

61
00:02:37,030 --> 00:02:34,640
that fair enough maybe the comment is a

62
00:02:39,110 --> 00:02:37,040
reflection of it being a discussion of

63
00:02:41,110 --> 00:02:39,120

the rockier time for tom

64

00:02:42,309 --> 00:02:41,120

yeah maybe you're a reflection

65

00:02:44,630 --> 00:02:42,319

yes

66

00:02:46,150 --> 00:02:44,640

anyway so let's kick off with part two

67

00:02:48,949 --> 00:02:46,160

then folks and you know what it would be

68

00:02:50,869 --> 00:02:48,959

remiss to talk about the to the stars

69

00:02:53,589 --> 00:02:50,879

academy of arts and science and the team

70

00:02:55,830 --> 00:02:53,599

that was assembled avengers assemble in

71

00:02:57,830 --> 00:02:55,840

october 2017

72

00:02:59,990 --> 00:02:57,840

um because essentially then

73

00:03:02,710 --> 00:03:00,000

they were they were the b team not the a

74

00:03:05,910 --> 00:03:02,720

team they were the b team so let's take

75

00:03:08,070 --> 00:03:05,920

you back to the 2016 and the wikileaks

76

00:03:09,910 --> 00:03:08,080

event so

77

00:03:12,470 --> 00:03:09,920

john podesta who was hillary clinton's

78

00:03:14,390 --> 00:03:12,480

campaign manager um there was a series

79

00:03:17,270 --> 00:03:14,400

of emails leaked where

80

00:03:18,949 --> 00:03:17,280

podesta clinton tom delong

81

00:03:20,710 --> 00:03:18,959

were all and various other people as

82

00:03:22,710 --> 00:03:20,720

well were copied in on a series of

83

00:03:25,110 --> 00:03:22,720

emails where they were discussing how

84

00:03:27,350 --> 00:03:25,120

they could go about

85

00:03:30,550 --> 00:03:27,360

having an organization

86

00:03:31,990 --> 00:03:30,560

ufos were mentioned and

87

00:03:34,309 --> 00:03:32,000

yeah it was pretty incredible stuff

88

00:03:35,990 --> 00:03:34,319

wasn't it then but it no it knocked on

89

00:03:37,910 --> 00:03:36,000

the head the original plans for what to

90

00:03:40,789 --> 00:03:37,920

the stars academy of arts and science

91

00:03:42,149 --> 00:03:40,799

could have been yeah yeah absolutely um

92

00:03:43,910 --> 00:03:42,159

you know tom tom's initial team i

93

00:03:45,910 --> 00:03:43,920

mentioned in part one i'll mention the

94

00:03:48,229 --> 00:03:45,920

names again and again i have to red

95

00:03:51,589 --> 00:03:48,239

panda koala for digging these out robert

96

00:03:53,509 --> 00:03:51,599

f weiss was uh the executive price

97

00:03:55,030 --> 00:03:53,519

vice president and general manager of

98

00:03:57,270 --> 00:03:55,040

aeronautics advanced development

99

00:03:58,949 --> 00:03:57,280

programs for lockheed martin skunk works

100

00:04:01,509 --> 00:03:58,959

so that's very likely the person that

101
00:04:03,910 --> 00:04:01,519
tom met at the lockheed skunk works

102
00:04:06,869 --> 00:04:03,920
party sure then we have a

103
00:04:08,470 --> 00:04:06,879
major general michael j carey he was the

104
00:04:10,550 --> 00:04:08,480
special assistant so the commander of

105
00:04:12,390 --> 00:04:10,560
the air force command at paterson air

106
00:04:15,190 --> 00:04:12,400
force base colorado

107
00:04:17,909 --> 00:04:15,200
this one is an infamous base in ufo law

108
00:04:19,590 --> 00:04:17,919
uh so you can see how someone that is

109
00:04:22,390 --> 00:04:19,600
you know heading up norad space command

110
00:04:24,150 --> 00:04:22,400
us northern command uh would have access

111
00:04:25,749 --> 00:04:24,160
to the satellites and the systems that

112
00:04:28,469 --> 00:04:25,759
chris mallon talked about this week in

113
00:04:30,390 --> 00:04:28,479

his article uh then we have major

114

00:04:31,830 --> 00:04:30,400

general neil mccaslin

115

00:04:34,070 --> 00:04:31,840

who's the former head of the foreign

116

00:04:36,230 --> 00:04:34,080

technology back engineering laboratory

117

00:04:38,310 --> 00:04:36,240

at wright-patterson air force base

118

00:04:40,390 --> 00:04:38,320

that's where the roswell debris was

119

00:04:42,070 --> 00:04:40,400

thought to have been taken

120

00:04:43,830 --> 00:04:42,080

and blue book was based out of there as

121

00:04:45,189 --> 00:04:43,840

well uh if you can hear a slight

122

00:04:46,950 --> 00:04:45,199

question in the background it's my it's

123

00:04:49,189 --> 00:04:46,960

my dog scratch your nail she's not too

124

00:04:51,270 --> 00:04:49,199

far away from me um

125

00:04:54,310 --> 00:04:51,280

so yeah ignore that but that was the

126
00:04:56,310 --> 00:04:54,320
initial team uh mccaslin was the guy who

127
00:04:58,390 --> 00:04:56,320
met tom he's referred to as the general

128
00:05:00,950 --> 00:04:58,400
and he met tom in the diner to say

129
00:05:03,029 --> 00:05:00,960
during the cold war we found the body um

130
00:05:04,070 --> 00:05:03,039
and that's where that whole story comes

131
00:05:05,909 --> 00:05:04,080
from

132
00:05:07,510 --> 00:05:05,919
and just again dan i can't remember if

133
00:05:08,550 --> 00:05:07,520
we touched on this

134
00:05:12,629 --> 00:05:08,560
why

135
00:05:14,150 --> 00:05:12,639
in the first place

136
00:05:16,070 --> 00:05:14,160
it i mean it's a very good question

137
00:05:17,590 --> 00:05:16,080
essentially tom worked his way up the

138
00:05:19,590 --> 00:05:17,600

chain of command speaking to certain

139

00:05:21,670 --> 00:05:19,600

people and pitching them on ideas and

140

00:05:23,270 --> 00:05:21,680

banged on the doors yeah and mccaslin

141

00:05:26,469 --> 00:05:23,280

was brought to him as a guy that could

142

00:05:27,749 --> 00:05:26,479

help um he facilitated uh putting tom in

143

00:05:29,430 --> 00:05:27,759

touch with you know

144

00:05:32,390 --> 00:05:29,440

advisers that working on space

145

00:05:33,830 --> 00:05:32,400

intelligence biological warfare um and

146

00:05:36,629 --> 00:05:33,840

someone representing the president of

147

00:05:39,430 --> 00:05:36,639

the united states so tom said

148

00:05:41,270 --> 00:05:39,440

now obviously we can't prove that um he

149

00:05:43,110 --> 00:05:41,280

did speak to podesta who represented a

150

00:05:45,110 --> 00:05:43,120

potential president in the united states

151

00:05:47,909 --> 00:05:45,120

we know that uh but we don't really know

152

00:05:51,670 --> 00:05:47,919

who who that specific person is

153

00:05:54,070 --> 00:05:51,680

now on the part 1.5 ganosis

154

00:05:56,550 --> 00:05:54,080

longtime supporter big contributor over

155

00:05:57,990 --> 00:05:56,560

on the discord server as well asked a

156

00:06:00,390 --> 00:05:58,000

couple of really good questions off the

157

00:06:02,150 --> 00:06:00,400

back of of this and one of them though

158

00:06:05,670 --> 00:06:02,160

we'll just touch on was where would we

159

00:06:08,390 --> 00:06:05,680

be now if clinton had won the presidency

160

00:06:10,950 --> 00:06:08,400

in 2016. would we know the name louie

161

00:06:14,950 --> 00:06:10,960

lozando and we'll go back over that just

162

00:06:16,870 --> 00:06:14,960

very briefly as we said at that time

163

00:06:20,230 --> 00:06:16,880

as we know lou worked in the program

164

00:06:22,150 --> 00:06:20,240

with atep from 2012 to 2017

165

00:06:23,830 --> 00:06:22,160

so there would have been a crossover of

166

00:06:26,469 --> 00:06:23,840

about a year where lou would have been

167

00:06:27,430 --> 00:06:26,479

in his role um actually probably almost

168

00:06:29,830 --> 00:06:27,440

two years because it would have been

169

00:06:31,670 --> 00:06:29,840

early 2016 clinton would have taken over

170

00:06:36,710 --> 00:06:31,680

and then gone through to to low

171

00:06:39,990 --> 00:06:38,469

would lou have still been involved and

172

00:06:41,990 --> 00:06:40,000

we we said he probably would have been

173

00:06:44,629 --> 00:06:42,000

in some point wouldn't they if he wasn't

174

00:06:47,110 --> 00:06:44,639

the public face of

175

00:06:49,029 --> 00:06:47,120

yeah absolutely or all roads are all

176

00:06:50,790 --> 00:06:49,039

official inquiries then would have led

177

00:06:52,629 --> 00:06:50,800

to lou um

178

00:06:53,670 --> 00:06:52,639

and probably

179

00:06:55,510 --> 00:06:53,680

we wouldn't have had the mixed

180

00:06:57,830 --> 00:06:55,520

statements come out uh that he did work

181

00:07:00,629 --> 00:06:57,840

for it he didn't do eight tip it did

182

00:07:02,629 --> 00:07:00,639

look at uap it didn't look at uap um

183

00:07:05,189 --> 00:07:02,639

just to set the expectation in the tone

184

00:07:06,790 --> 00:07:05,199

on the 12th of february 2015 uh podesta

185

00:07:08,469 --> 00:07:06,800

tweeted when he was uh you know his

186

00:07:10,390 --> 00:07:08,479

administration was leaving office he

187

00:07:12,070 --> 00:07:10,400

said finally my biggest failure of 2014

188

00:07:13,990 --> 00:07:12,080

once again not securing the disclosure

189

00:07:15,430 --> 00:07:14,000

of the ufo files hashtag the truth is

190

00:07:18,870 --> 00:07:15,440

still out there and then he tagged the

191

00:07:20,870 --> 00:07:18,880

ny times um so it's interesting to see

192

00:07:22,870 --> 00:07:20,880

that even though it wasn't you know

193

00:07:25,990 --> 00:07:22,880

necessarily the writers that he pointed

194

00:07:29,589 --> 00:07:26,000

to it was eventually picked up um and

195

00:07:31,029 --> 00:07:29,599

run with for that famous 2017 article

196

00:07:33,749 --> 00:07:31,039

and we're going to get to that famous

197

00:07:35,830 --> 00:07:33,759

2017 article in just a few minutes but

198

00:07:38,309 --> 00:07:35,840

as we said team a never happened and

199

00:07:40,070 --> 00:07:38,319

what we got was an incredible team b um

200

00:07:41,909 --> 00:07:40,080

it should be team a team one because

201
00:07:44,390 --> 00:07:41,919
team b makes it sound lesser van and

202
00:07:46,790 --> 00:07:44,400
it's certainly not and key members of

203
00:07:48,230 --> 00:07:46,800
the to the stars academy of arts and

204
00:07:50,430 --> 00:07:48,240
science were unveiled at press

205
00:07:54,309 --> 00:07:50,440
conference on october 11th

206
00:07:56,469 --> 00:07:54,319
2017. um the company was founded in 2017

207
00:07:58,629 --> 00:07:56,479
as a public benefit corporation by jim

208
00:08:00,710 --> 00:07:58,639
simavan a former senior intelligence

209
00:08:02,469 --> 00:08:00,720
officer with the cia and who has just

210
00:08:04,469 --> 00:08:02,479
done a fantastic interview on coast to

211
00:08:05,830 --> 00:08:04,479
coast dan and i spoke about that on the

212
00:08:09,189 --> 00:08:05,840
breakdown go and check that one out

213
00:08:11,589 --> 00:08:09,199

folks harold e put off or hal put off as

214

00:08:13,909 --> 00:08:11,599

many of you will know him and tom de

215

00:08:16,550 --> 00:08:13,919

long present at the launch i'll kick off

216

00:08:19,270 --> 00:08:16,560

dan let's do alternate names here was

217

00:08:21,749 --> 00:08:19,280

one luis elizondo counter intelligence

218

00:08:24,550 --> 00:08:21,759

and he ran pentagon's eight program

219

00:08:26,309 --> 00:08:24,560

studying uap as we know from 2012 to

220

00:08:28,629 --> 00:08:26,319

2017.

221

00:08:30,309 --> 00:08:28,639

then we had chris mellon uh chris was

222

00:08:32,709 --> 00:08:30,319

the deputy assistant secretary of

223

00:08:34,709 --> 00:08:32,719

defense for intelligence from 1998 to

224

00:08:36,790 --> 00:08:34,719

2002. he worked for the clinton

225

00:08:39,350 --> 00:08:36,800

administration the bush administration

226

00:08:41,430 --> 00:08:39,360

and he worked there during 9 11. he was

227

00:08:43,909 --> 00:08:41,440

a minority staff director for the

228

00:08:45,910 --> 00:08:43,919

senator john d rockefeller of the senate

229

00:08:47,509 --> 00:08:45,920

select committee on intelligence now you

230

00:08:49,750 --> 00:08:47,519

might recommend oh sorry you might

231

00:08:52,070 --> 00:08:49,760

recognize that committee because that

232

00:08:54,790 --> 00:08:52,080

was where essentially the uap bills of

233

00:08:58,150 --> 00:08:54,800

the past few years originated

234

00:09:00,710 --> 00:08:58,160

next up was steve justice uh 31-year

235

00:09:02,070 --> 00:09:00,720

program director for lockheed martin

236

00:09:04,150 --> 00:09:02,080

skunk works

237

00:09:06,150 --> 00:09:04,160

dan you had mentioned

238

00:09:08,310 --> 00:09:06,160

one of the previous gentlemen was again

239

00:09:10,550 --> 00:09:08,320

from lockheed martin skunk works yep you

240

00:09:12,790 --> 00:09:10,560

wonder is this a direct replacement for

241

00:09:14,949 --> 00:09:12,800

we can't have this guy so we can have

242

00:09:17,350 --> 00:09:14,959

this guy as part of the team be would

243

00:09:20,150 --> 00:09:17,360

that be fair yeah i think so um it's

244

00:09:22,230 --> 00:09:20,160

very possible and and i guess say likely

245

00:09:24,389 --> 00:09:22,240

that tom started talking to steve

246

00:09:26,470 --> 00:09:24,399

because of those conversations uh at

247

00:09:28,550 --> 00:09:26,480

lockheed

248

00:09:30,470 --> 00:09:28,560

yeah next up oh yeah it's my goal isn't

249

00:09:34,949 --> 00:09:30,480

it yeah it's your goal

250

00:09:36,870 --> 00:09:34,959

so next up we have uh dr harold pudov

251

00:09:40,150 --> 00:09:36,880

he goes way back in this subject it's

252

00:09:41,990 --> 00:09:40,160

not just uap but uh he he led the cio

253

00:09:43,350 --> 00:09:42,000

remote viewing project stargate for 20

254

00:09:45,670 --> 00:09:43,360

years so when we're talking about people

255

00:09:47,670 --> 00:09:45,680

like yuri gala or um ingo swan and

256

00:09:50,310 --> 00:09:47,680

people like that and the more

257

00:09:52,389 --> 00:09:50,320

stranger sides of this subject uh putoff

258

00:09:54,230 --> 00:09:52,399

has been you know knee-deep in this and

259

00:09:55,110 --> 00:09:54,240

the weirder side of it for a long long

260

00:09:57,350 --> 00:09:55,120

time

261

00:09:59,350 --> 00:09:57,360

yeah and finally uh but not least jim

262

00:10:01,829 --> 00:09:59,360

semivan retired senior intelligence

263

00:10:03,269 --> 00:10:01,839

officer for the cia and as we have heard

264

00:10:05,670 --> 00:10:03,279

them talk about recently on coast to

265

00:10:07,350 --> 00:10:05,680

coast he's had entities entities appear

266

00:10:09,190 --> 00:10:07,360

in front of him and his wife he's part

267

00:10:12,150 --> 00:10:09,200

of a group where he's being studied

268

00:10:12,790 --> 00:10:12,160

still as an experienter and again he is

269

00:10:20,389 --> 00:10:12,800

a

270

00:10:22,470 --> 00:10:20,399

finish this tom delong profile series

271

00:10:24,870 --> 00:10:22,480

what we'll do is launch a poll on

272

00:10:26,870 --> 00:10:24,880

twitter or patreon or both and we're

273

00:10:28,630 --> 00:10:26,880

going to ask you off off of the back of

274

00:10:31,430 --> 00:10:28,640

a couple of names which would you like

275

00:10:32,949 --> 00:10:31,440

to see in the future profiles section i

276

00:10:34,790 --> 00:10:32,959

imagine

277

00:10:36,790 --> 00:10:34,800

he'll put off jim semivan will be really

278

00:10:38,470 --> 00:10:36,800

popular characters for for that as well

279

00:10:40,949 --> 00:10:38,480

so it'll be interesting to see who comes

280

00:10:42,310 --> 00:10:40,959

out on top for no one recognizes corey

281

00:10:44,069 --> 00:10:42,320

good please

282

00:10:45,829 --> 00:10:44,079

we won't do that

283

00:10:48,630 --> 00:10:45,839

we'll be giving you the selections uh

284

00:10:50,710 --> 00:10:48,640

but yeah i i imagine it'll be a a few of

285

00:10:53,190 --> 00:10:50,720

uh a gem semi van harold put off steve

286

00:10:55,269 --> 00:10:53,200

justice and chris merlin for for that

287

00:10:57,269 --> 00:10:55,279

but we'll see um but i'm looking forward

288

00:10:59,269 --> 00:10:57,279

to that but yeah dan listen um that

289

00:11:01,590 --> 00:10:59,279

that's a hell of a team that's been set

290

00:11:03,030 --> 00:11:01,600

up there off the back of those initial

291

00:11:06,230 --> 00:11:03,040

team a team won

292

00:11:08,069 --> 00:11:06,240

um and 2016 dropping out because of the

293

00:11:09,269 --> 00:11:08,079

wikileaks and obviously the fallout that

294

00:11:10,790 --> 00:11:09,279

came from that

295

00:11:14,389 --> 00:11:10,800

it seems there's been a lot of direct

296

00:11:16,310 --> 00:11:14,399

replacements here as well and

297

00:11:17,350 --> 00:11:16,320

obviously we know president trump got

298

00:11:18,550 --> 00:11:17,360

voted in

299

00:11:20,550 --> 00:11:18,560

um

300

00:11:23,269 --> 00:11:20,560

louise elizondo

301

00:11:25,509 --> 00:11:23,279

by the time october 2017 came was

302

00:11:27,030 --> 00:11:25,519

frustrated at the lack of transparency

303

00:11:28,470 --> 00:11:27,040

that was forthcoming in his role and

304

00:11:31,350 --> 00:11:28,480

what he was finding out and what he was

305

00:11:32,630 --> 00:11:31,360

investigating he tended his resignation

306

00:11:35,190 --> 00:11:32,640

and that's not something he'd done

307

00:11:37,269 --> 00:11:35,200

lightly um he he loved his job and he

308

00:11:39,670 --> 00:11:37,279

loved his role and he's a huge patriot

309

00:11:41,269 --> 00:11:39,680

everyone knows that um and that's not me

310

00:11:43,110 --> 00:11:41,279

fanboying out that's just something lou

311

00:11:45,110 --> 00:11:43,120

has said himself on interviews with us

312

00:11:47,670 --> 00:11:45,120

but everyone else so it was a job he

313

00:11:49,910 --> 00:11:47,680

really did enjoy and he left

314

00:11:51,910 --> 00:11:49,920

you can believe this or not many people

315

00:11:54,150 --> 00:11:51,920

you know do many people don't but he

316

00:11:55,269 --> 00:11:54,160

left for what he feels is the the good

317

00:11:58,629 --> 00:11:55,279

of the country and the people should

318

00:12:00,310 --> 00:11:58,639

know the the truth behind uaps ufos um

319

00:12:03,110 --> 00:12:00,320

so yeah that's that's what we got lu

320

00:12:04,710 --> 00:12:03,120

elizondo off the back of

321

00:12:07,030 --> 00:12:04,720

is there anyone in that lineup that

322

00:12:09,190 --> 00:12:07,040

stands out though dan for you as uh

323

00:12:10,550 --> 00:12:09,200

that's uh as much as they're all really

324

00:12:12,949 --> 00:12:10,560

serious names

325

00:12:15,110 --> 00:12:12,959

particularly good get

326

00:12:16,710 --> 00:12:15,120

tom delong no i'm kidding like he's the

327

00:12:18,310 --> 00:12:16,720

least credentialed of that and tom is a

328

00:12:20,470 --> 00:12:18,320

very successful person so it just speaks

329

00:12:22,629 --> 00:12:20,480

to the people around him um these are

330

00:12:23,750 --> 00:12:22,639

all career professionals um you know

331

00:12:25,269 --> 00:12:23,760

there's no

332

00:12:26,470 --> 00:12:25,279

messing around here i know there was a

333

00:12:28,550 --> 00:12:26,480

thing that came off of that press

334

00:12:31,430 --> 00:12:28,560

conference about having a specific

335

00:12:33,750 --> 00:12:31,440

picture in the in this slideshow um and

336

00:12:35,030 --> 00:12:33,760

apparently that was a you know an intern

337

00:12:36,710 --> 00:12:35,040

thing just pulled off the internet and

338

00:12:38,310 --> 00:12:36,720

popped up there but

339

00:12:40,230 --> 00:12:38,320

the the words that everyone brought to

340

00:12:41,990 --> 00:12:40,240

it and the melting pot that was created

341

00:12:43,670 --> 00:12:42,000

for ideas and fur

342

00:12:46,150 --> 00:12:43,680

we we always talk about information

343

00:12:48,550 --> 00:12:46,160

being siloed and each of these people

344

00:12:50,470 --> 00:12:48,560

essentially represent one of those silos

345

00:12:52,389 --> 00:12:50,480

and here we have one organization where

346

00:12:54,470 --> 00:12:52,399

they're all in the one room talking

347

00:12:56,310 --> 00:12:54,480

about all the information they have for

348

00:12:58,550 --> 00:12:56,320

me that was the spark and and why i

349

00:13:00,069 --> 00:12:58,560

chose to invest and and hopefully help

350

00:13:01,350 --> 00:13:00,079

them achieve their goal of getting this

351

00:13:03,350 --> 00:13:01,360

message out

352

00:13:09,670 --> 00:13:03,360

you use silos but we talked about

353

00:13:12,629 --> 00:13:10,949

he would bang on a door and it would

354

00:13:14,470 --> 00:13:12,639

lead to a stove pipe and that would go

355

00:13:15,430 --> 00:13:14,480

to a different area and it would be

356

00:13:16,710 --> 00:13:15,440

smaller

357

00:13:19,269 --> 00:13:16,720

compartment and that would lead to

358

00:13:20,870 --> 00:13:19,279

somewhere else and you feel that along

359

00:13:22,310 --> 00:13:20,880

the way this is where he's picked up

360

00:13:25,670 --> 00:13:22,320

these these these people these

361

00:13:30,550 --> 00:13:28,069

leaders in their fields with with huge

362

00:13:32,629 --> 00:13:30,560

experience to to join the group it's an

363

00:13:34,790 --> 00:13:32,639

incredible group it is the equivalent of

364

00:13:36,790 --> 00:13:34,800

a real madrid signing the galactica's

365

00:13:38,230 --> 00:13:36,800

team in the 2000s you know they have

366

00:13:40,310 --> 00:13:38,240

he's gone out and got the best of the

367

00:13:42,150 --> 00:13:40,320

best which given what he was trying to

368

00:13:44,150 --> 00:13:42,160

do it's

369

00:13:45,829 --> 00:13:44,160

it's almost like we can't we can never

370

00:13:48,310 --> 00:13:45,839

say it's hindsight but it turned out

371

00:13:50,949 --> 00:13:48,320

almost for the better and that he got

372

00:13:52,230 --> 00:13:50,959

the group he did with with plan b

373

00:13:54,870 --> 00:13:52,240

and we touched on where we might have

374

00:13:56,470 --> 00:13:54,880

been with teammate in part 1.5 now the

375

00:13:57,990 --> 00:13:56,480

early work that the group was doing in

376

00:14:01,670 --> 00:13:58,000

the background was leading to what came

377

00:14:04,790 --> 00:14:01,680

to fruition on december 16th 2017. dan

378

00:14:07,110 --> 00:14:04,800

what were you doing on december 16 2017

379

00:14:08,790 --> 00:14:07,120

uh i was

380

00:14:10,870 --> 00:14:08,800

i want to say i was preparing to get my

381

00:14:12,870 --> 00:14:10,880

brain turned to dribble and you know my

382

00:14:14,310 --> 00:14:12,880

will blown apart but i wasn't i think i

383

00:14:16,389 --> 00:14:14,320

would have been prepping at christmas

384

00:14:18,470 --> 00:14:16,399

walking walking down the street uh with

385

00:14:21,110 --> 00:14:18,480

a eggnog latte in my hand

386

00:14:22,550 --> 00:14:21,120

yeah enjoying a pandemic free life not

387

00:14:25,750 --> 00:14:22,560

knowing what was to come

388

00:14:28,550 --> 00:14:25,760

um but yeah on december 16 2017 the

389

00:14:31,430 --> 00:14:28,560

article glowing auras and black money

390

00:14:33,829 --> 00:14:31,440

the pentagon's mysterious ufo program

391

00:14:35,350 --> 00:14:33,839

penned by helene cooper ralph blumenthal

392

00:14:36,949 --> 00:14:35,360

and leslie keane

393

00:14:38,870 --> 00:14:36,959

thank you for mentioning helene there

394

00:14:40,710 --> 00:14:38,880

people people she's kind of forgetting

395

00:14:43,189 --> 00:14:40,720

forgotten right that was going to be my

396

00:14:45,430 --> 00:14:43,199

first thing that helene cooper

397

00:14:47,350 --> 00:14:45,440

i she doesn't seem to want to do the

398

00:14:49,030 --> 00:14:47,360

interviews doesn't want to be attached

399

00:14:51,590 --> 00:14:49,040

to this in the way that ralph and leslie

400

00:14:53,750 --> 00:14:51,600

have been happy to do and put ourselves

401
00:14:55,189 --> 00:14:53,760
out there which is amazing because

402
00:14:57,430 --> 00:14:55,199
you know as ralph and leslie have both

403
00:15:00,550 --> 00:14:57,440
said in various interviews she was a

404
00:15:02,230 --> 00:15:00,560
huge part of putting this together and

405
00:15:04,069 --> 00:15:02,240
it's it's very much been she's done the

406
00:15:06,150 --> 00:15:04,079
work put it out there and

407
00:15:09,350 --> 00:15:06,160
left the work to speak for itself yeah

408
00:15:10,870 --> 00:15:09,360
um if anything that makes me more

409
00:15:12,949 --> 00:15:10,880
inclined to want to speak to her just

410
00:15:14,870 --> 00:15:12,959
because yeah you know when someone says

411
00:15:16,629 --> 00:15:14,880
nothing a single word they say has a lot

412
00:15:18,389 --> 00:15:16,639
of weight so i'd be very curious to hear

413
00:15:20,230 --> 00:15:18,399

her journey through this and how she

414

00:15:21,910 --> 00:15:20,240

comes to understand the subject

415

00:15:24,949 --> 00:15:21,920

and where she is now with it

416

00:15:26,790 --> 00:15:24,959

absolutely and now we we almost take

417

00:15:28,870 --> 00:15:26,800

those those articles for granted and can

418

00:15:30,629 --> 00:15:28,880

forget the

419

00:15:33,030 --> 00:15:30,639

the weight that came with those the new

420

00:15:34,790 --> 00:15:33,040

york times the huge publication that

421

00:15:36,629 --> 00:15:34,800

like we talk about in the uk how

422

00:15:39,030 --> 00:15:36,639

anything to do with ufos comes out via

423

00:15:41,350 --> 00:15:39,040

the sun and the daily star and not very

424

00:15:43,430 --> 00:15:41,360

reputable papers and the terminology and

425

00:15:46,150 --> 00:15:43,440

the language used is always

426

00:15:48,069 --> 00:15:46,160

difficult and derogatory it can be and

427

00:15:50,230 --> 00:15:48,079

dan i've made no secret that you know

428

00:15:51,829 --> 00:15:50,240

you helped change the language in one of

429

00:15:53,670 --> 00:15:51,839

those articles that went out recently

430

00:15:56,470 --> 00:15:53,680

through a journalist we were speaking to

431

00:15:57,350 --> 00:15:56,480

because again i i wasn't massively keen

432

00:15:59,350 --> 00:15:57,360

on

433

00:16:01,749 --> 00:15:59,360

language like alien hunters and alien

434

00:16:03,590 --> 00:16:01,759

enthusiasts and that's not the point

435

00:16:05,829 --> 00:16:03,600

yeah the climate's changed now right and

436

00:16:07,670 --> 00:16:05,839

we don't need to use those those phrases

437

00:16:08,949 --> 00:16:07,680

but um yeah that was great being able to

438

00:16:10,310 --> 00:16:08,959

get that change because it just means

439

00:16:11,670 --> 00:16:10,320

that when people see it they don't go

440

00:16:13,509 --> 00:16:11,680

off and say oh did you see the alien

441

00:16:15,590 --> 00:16:13,519

hunter lamp and the stigma doesn't

442

00:16:17,110 --> 00:16:15,600

follow you know it's more of a oh my god

443

00:16:18,150 --> 00:16:17,120

national security issue we need to talk

444

00:16:20,710 --> 00:16:18,160

about this

445

00:16:22,870 --> 00:16:20,720

yeah and this article done that in

446

00:16:26,150 --> 00:16:22,880

spades that it was serious it was

447

00:16:27,990 --> 00:16:26,160

hard-hitting it was it was a huge story

448

00:16:29,430 --> 00:16:28,000

essentially you can you know the

449

00:16:31,189 --> 00:16:29,440

headline has glowing orders and black

450

00:16:33,590 --> 00:16:31,199

money the pentagon's mysterious ufo

451
00:16:35,269 --> 00:16:33,600
program but essentially the pentagon had

452
00:16:37,670 --> 00:16:35,279
always denied having any interest in

453
00:16:39,590 --> 00:16:37,680
ufos and what we found out is

454
00:16:41,269 --> 00:16:39,600
it did have an interest it had a funded

455
00:16:43,829 --> 00:16:41,279
interest there was millions of dollars

456
00:16:46,310 --> 00:16:43,839
involved there were senators involved

457
00:16:47,990 --> 00:16:46,320
high-ranking senators and congressmen

458
00:16:50,710 --> 00:16:48,000
and

459
00:16:52,389 --> 00:16:50,720
yeah harry reid was the name i believe

460
00:16:53,829 --> 00:16:52,399
when you actually searched the article

461
00:16:55,910 --> 00:16:53,839
the hyperlink that comes up at the top

462
00:16:57,749 --> 00:16:55,920
includes harry reid's name and obviously

463
00:17:00,310 --> 00:16:57,759

passed away a few months ago very sadly

464

00:17:01,749 --> 00:17:00,320

but he was a heavyweight in the the

465

00:17:03,509 --> 00:17:01,759

political arena

466

00:17:06,069 --> 00:17:03,519

for many things but especially when it

467

00:17:07,829 --> 00:17:06,079

came to the subject of ufos

468

00:17:09,990 --> 00:17:07,839

something that jumped out to me dan

469

00:17:12,630 --> 00:17:10,000

though and reading this back was that

470

00:17:13,590 --> 00:17:12,640

two other former senators uh were

471

00:17:16,150 --> 00:17:13,600

mentioned

472

00:17:18,390 --> 00:17:16,160

within the the body of the article and

473

00:17:20,309 --> 00:17:18,400

like you say helene cooper for the work

474

00:17:21,350 --> 00:17:20,319

she done doesn't really i suppose get

475

00:17:23,110 --> 00:17:21,360

the same

476

00:17:24,390 --> 00:17:23,120

celebration as ralph and leslie because

477

00:17:27,669 --> 00:17:24,400

she's not put herself out there in the

478

00:17:29,590 --> 00:17:27,679

same way um two other senators were part

479

00:17:32,390 --> 00:17:29,600

of the defense spending committee ted

480

00:17:35,830 --> 00:17:32,400

stevens was an alaska republican senator

481

00:17:38,390 --> 00:17:35,840

and daniel k inouye a hawaiian democrat

482

00:17:41,029 --> 00:17:38,400

um also supported the program along with

483

00:17:44,150 --> 00:17:41,039

with senator harry reid unfortunately mr

484

00:17:47,350 --> 00:17:44,160

stevens died in 2010 and mr annoyed died

485

00:17:49,590 --> 00:17:47,360

in 2012. they were huge proponents of

486

00:17:51,909 --> 00:17:49,600

the also the ossat program that was a

487

00:17:54,870 --> 00:17:51,919

predecessor to atip and really helped

488

00:17:57,110 --> 00:17:54,880

get this this off the ground for me

489

00:17:58,789 --> 00:17:57,120

uh as they're somewhat of a forgotten

490

00:18:00,630 --> 00:17:58,799

contribution from from those two

491

00:18:02,470 --> 00:18:00,640

gentlemen who are no longer with us

492

00:18:03,590 --> 00:18:02,480

yeah definitely i i think so you know in

493

00:18:05,909 --> 00:18:03,600

the same way as when we were talking

494

00:18:07,270 --> 00:18:05,919

about playing 182 in 1.5 uh i brought up

495

00:18:09,430 --> 00:18:07,280

scott rayner and he's kind of the

496

00:18:10,630 --> 00:18:09,440

forgotten founding member of blink182

497

00:18:12,950 --> 00:18:10,640

because everyone thinks that travis was

498

00:18:14,470 --> 00:18:12,960

the first drummer but uh yeah you know

499

00:18:17,029 --> 00:18:14,480

they're like uh

500

00:18:19,669 --> 00:18:17,039

ringo i guess you know and unspoken

501
00:18:21,190 --> 00:18:19,679
about um but just as influential uh they

502
00:18:23,270 --> 00:18:21,200
just didn't put themselves out there in

503
00:18:25,190 --> 00:18:23,280
the same way as harry reid did um i

504
00:18:27,190 --> 00:18:25,200
remember when harry reid passed away we

505
00:18:29,430 --> 00:18:27,200
were all a little bit shocked by how the

506
00:18:31,909 --> 00:18:29,440
mainstream media didn't cover his

507
00:18:34,310 --> 00:18:31,919
interest in the uap uh subject whereas

508
00:18:37,270 --> 00:18:34,320
to us that's the biggest thing that he

509
00:18:39,110 --> 00:18:37,280
was about um you know he he helped a lot

510
00:18:41,350 --> 00:18:39,120
of people and he advocated for a lot of

511
00:18:43,110 --> 00:18:41,360
people's rights uh so i can understand

512
00:18:45,830 --> 00:18:43,120
why it you know kind of

513
00:18:48,070 --> 00:18:45,840

outstrip the uap stuff but

514

00:18:49,590 --> 00:18:48,080

i i hope that there's some kind of you

515

00:18:51,830 --> 00:18:49,600

know if there's ever a museum or

516

00:18:53,750 --> 00:18:51,840

something in the smithsonian kind of

517

00:18:55,590 --> 00:18:53,760

charting what happened here that harry

518

00:18:57,190 --> 00:18:55,600

reid is included there

519

00:18:58,630 --> 00:18:57,200

yeah and this is breaking away slightly

520

00:19:01,590 --> 00:18:58,640

from talking about tom delonge

521

00:19:03,029 --> 00:19:01,600

specifically but this is a a huge direct

522

00:19:04,549 --> 00:19:03,039

impact in what he had put together in

523

00:19:06,630 --> 00:19:04,559

this article coming out as part of that

524

00:19:09,430 --> 00:19:06,640

so it's probably the best time to put it

525

00:19:11,430 --> 00:19:09,440

in i asked lou elizondo if he would give

526

00:19:13,990 --> 00:19:11,440

us a couple of comments on the the two

527

00:19:16,470 --> 00:19:14,000

aforementioned senators lou has spoken

528

00:19:18,390 --> 00:19:16,480

at length on senator reid over the years

529

00:19:21,750 --> 00:19:18,400

and obviously when he passed as well um

530

00:19:24,630 --> 00:19:21,760

but obviously mr stevens and mr annoy i

531

00:19:26,950 --> 00:19:24,640

hope i'm pronouncing that correctly um

532

00:19:28,789 --> 00:19:26,960

with that forgotten contribution lou er

533

00:19:30,950 --> 00:19:28,799

gave us some comments and he said

534

00:19:32,549 --> 00:19:30,960

senator stevens and senator annoye had

535

00:19:34,870 --> 00:19:32,559

more in common than one might think

536

00:19:36,390 --> 00:19:34,880

despite their political affiliations one

537

00:19:38,870 --> 00:19:36,400

being republican and the other a

538

00:19:40,549 --> 00:19:38,880

democrat number one both were senators

539

00:19:43,669 --> 00:19:40,559

of two of the most recent states to be

540

00:19:45,669 --> 00:19:43,679

added to our union alaska and hawaii at

541

00:19:47,430 --> 00:19:45,679

number two both of those states are the

542

00:19:49,270 --> 00:19:47,440

only two that are not part of the

543

00:19:51,270 --> 00:19:49,280

continental us

544

00:19:53,270 --> 00:19:51,280

number three both served our country as

545

00:19:56,470 --> 00:19:53,280

military members and our veterans

546

00:19:58,310 --> 00:19:56,480

annoyed literally losing his arm over it

547

00:20:00,950 --> 00:19:58,320

number four both were friends and had a

548

00:20:02,390 --> 00:20:00,960

deep interest in the uap topic steven's

549

00:20:03,990 --> 00:20:02,400

actually having his own encounter with a

550

00:20:05,990 --> 00:20:04,000

foo fighter while being a pilot that's

551
00:20:08,149 --> 00:20:06,000
something harry reid mentions within the

552
00:20:10,870 --> 00:20:08,159
the body of the article and number five

553
00:20:12,870 --> 00:20:10,880
both were sponsors and big supporters of

554
00:20:14,789 --> 00:20:12,880
atip and these were great men and

555
00:20:16,710 --> 00:20:14,799
patriots standing shoulder to shoulder

556
00:20:19,029 --> 00:20:16,720
with harry reid we owe them much

557
00:20:21,110 --> 00:20:19,039
gratitude thank you to louis for sending

558
00:20:23,110 --> 00:20:21,120
us in that comment harry reid and

559
00:20:24,950 --> 00:20:23,120
talking within the article says ted

560
00:20:26,870 --> 00:20:24,960
stevens had told him i've been waiting

561
00:20:28,710 --> 00:20:26,880
to do this since i was in the air force

562
00:20:30,789 --> 00:20:28,720
and that was off the back of flying

563
00:20:33,830 --> 00:20:30,799

transport missions over china during

564

00:20:36,070 --> 00:20:33,840

world war ii um mr stevens himself had

565

00:20:38,310 --> 00:20:36,080

an encounter with a foo fighter so so

566

00:20:39,510 --> 00:20:38,320

dan yeah two two names that we've we

567

00:20:41,029 --> 00:20:39,520

find out and that's something we've

568

00:20:43,270 --> 00:20:41,039

heard about and the

569

00:20:45,430 --> 00:20:43,280

tom delong himself talks about all these

570

00:20:47,590 --> 00:20:45,440

anonymous sources and people he spoke to

571

00:20:49,190 --> 00:20:47,600

that he can't or won't name i wonder if

572

00:20:52,149 --> 00:20:49,200

those were ever part of those

573

00:20:53,990 --> 00:20:52,159

conversations potentially um but also

574

00:20:55,830 --> 00:20:54,000

when people like louis zondo mentions

575

00:20:57,990 --> 00:20:55,840

there are heroes working in the

576

00:20:59,830 --> 00:20:58,000

background that we we don't find out

577

00:21:01,669 --> 00:20:59,840

about their involvement and he hopes we

578

00:21:04,070 --> 00:21:01,679

do one day there's two gentlemen that

579

00:21:06,070 --> 00:21:04,080

never got the thanks that well they were

580

00:21:08,390 --> 00:21:06,080

well they were here in our physical form

581

00:21:09,990 --> 00:21:08,400

shall we say um but hopefully they have

582

00:21:12,149 --> 00:21:10,000

that wherever they are now and that

583

00:21:13,510 --> 00:21:12,159

acknowledgement um which is which is

584

00:21:15,350 --> 00:21:13,520

awesome they were such an amazing part

585

00:21:16,390 --> 00:21:15,360

of this early on to help get it off the

586

00:21:18,470 --> 00:21:16,400

ground because

587

00:21:20,789 --> 00:21:18,480

without that support without helping

588

00:21:22,630 --> 00:21:20,799

senator harry reid and others we might

589

00:21:24,870 --> 00:21:22,640

never got to this point

590

00:21:26,950 --> 00:21:24,880

yeah i would agree with that uh worth

591

00:21:29,029 --> 00:21:26,960

mentioning here as well is that

592

00:21:31,990 --> 00:21:29,039

those programs in this article did not

593

00:21:33,990 --> 00:21:32,000

come from ttsa these were separate

594

00:21:35,270 --> 00:21:34,000

sources it's thought that it might be

595

00:21:37,270 --> 00:21:35,280

you know christopher mellon who passed

596

00:21:39,990 --> 00:21:37,280

the videos to the new york times but it

597

00:21:41,990 --> 00:21:40,000

blindsided ttsa that that happened they

598

00:21:44,789 --> 00:21:42,000

had the videos they had on their website

599

00:21:46,549 --> 00:21:44,799

in the in the vault data space uh which

600

00:21:48,470 --> 00:21:46,559

is just kind of web pages with some

601
00:21:51,029 --> 00:21:48,480
information on the videos uh but yeah

602
00:21:52,630 --> 00:21:51,039
this this was a kind of a two-pronged

603
00:21:55,350 --> 00:21:52,640
attack so to speak whether they were

604
00:21:56,950 --> 00:21:55,360
coordinated uh we can't say but uh it

605
00:21:58,710 --> 00:21:56,960
sure was good timing

606
00:22:01,350 --> 00:21:58,720
it certainly was the article itself the

607
00:22:03,830 --> 00:22:01,360
link will be back in the description if

608
00:22:06,070 --> 00:22:03,840
you want to check that out then we're

609
00:22:08,230 --> 00:22:06,080
going to play a couple of minutes now of

610
00:22:10,310 --> 00:22:08,240
a video that was around for the launch

611
00:22:12,310 --> 00:22:10,320
of two of the stars it's got tom delong

612
00:22:13,830 --> 00:22:12,320
talking over it the plans the future and

613
00:22:15,430 --> 00:22:13,840

everything it entails so we're going to

614

00:22:17,029 --> 00:22:15,440

play that now and we'll be right back to

615

00:22:19,750 --> 00:22:17,039

discuss it

616

00:22:21,669 --> 00:22:19,760

dan that package in that video reminds

617

00:22:25,909 --> 00:22:21,679

me of you know when you see a movie and

618

00:22:29,990 --> 00:22:27,669

future you know

619

00:22:31,669 --> 00:22:30,000

off-world hotel and how everything's

620

00:22:33,990 --> 00:22:31,679

wonderful and great in that kind of

621

00:22:35,510 --> 00:22:34,000

wall-e type environment yeah it's almost

622

00:22:36,789 --> 00:22:35,520

like one of those adverts you would see

623

00:22:38,390 --> 00:22:36,799

played within

624

00:22:40,070 --> 00:22:38,400

uh a movie like that and then they go

625

00:22:41,750 --> 00:22:40,080

back to the couple and say well what do

626

00:22:43,029 --> 00:22:41,760

you think is that isn't this amazing do

627

00:22:45,270 --> 00:22:43,039

you want to invest do you want to get

628

00:22:47,669 --> 00:22:45,280

involved that's the way it comes across

629

00:22:51,510 --> 00:22:47,679

it's a nicely put together package

630

00:22:54,310 --> 00:22:52,950

when when i was just watching it back

631

00:22:56,630 --> 00:22:54,320

i've seen that a whole bunch of times i

632

00:22:58,149 --> 00:22:56,640

remember when it came out um

633

00:23:00,230 --> 00:22:58,159

and you're right it kind of it strikes

634

00:23:02,549 --> 00:23:00,240

as an infomercial you know everything's

635

00:23:05,110 --> 00:23:02,559

happy at ttsa invest and you can be like

636

00:23:06,549 --> 00:23:05,120

us um but actually

637

00:23:09,029 --> 00:23:06,559

looking at the mission statement and

638

00:23:10,549 --> 00:23:09,039

what was accomplished

639

00:23:12,630 --> 00:23:10,559

there's an argument to be made that they

640

00:23:14,950 --> 00:23:12,640

nailed it you know not everything was

641

00:23:17,110 --> 00:23:14,960

successful but where tom says

642

00:23:18,230 --> 00:23:17,120

that their goal is to educate the world

643

00:23:19,430 --> 00:23:18,240

i mean

644

00:23:23,029 --> 00:23:19,440

they did that

645

00:23:24,789 --> 00:23:23,039

on on the 23rd of april 2019 politico

646

00:23:27,350 --> 00:23:24,799

reported that the navy had drafted you

647

00:23:28,390 --> 00:23:27,360

new uap reporting guidelines

648

00:23:29,990 --> 00:23:28,400

so

649

00:23:31,110 --> 00:23:30,000

even though the stigma's not completely

650

00:23:33,590 --> 00:23:31,120

gone

651
00:23:35,510 --> 00:23:33,600
you can definitely say that tom and tsa

652
00:23:37,590 --> 00:23:35,520
and everybody there like lou and chris

653
00:23:39,190 --> 00:23:37,600
contributed to new structures being in

654
00:23:40,950 --> 00:23:39,200
place or being put in place in

655
00:23:43,590 --> 00:23:40,960
government to address this issue on a

656
00:23:44,789 --> 00:23:43,600
long term basis

657
00:23:51,269 --> 00:23:44,799
the

658
00:23:53,669 --> 00:23:51,279
aerospace science and entertainment

659
00:23:54,950 --> 00:23:53,679
is it fair to say that in hindsight and

660
00:23:57,350 --> 00:23:54,960
we're going to obviously go into this in

661
00:24:00,070 --> 00:23:57,360
the future future episodes

662
00:24:02,470 --> 00:24:00,080
entertainment is largely what has has

663
00:24:05,269 --> 00:24:02,480

been the the legacy of to the stars

664

00:24:07,350 --> 00:24:05,279

academy as much as

665

00:24:08,710 --> 00:24:07,360

what goes on to happen we we can talk

666

00:24:09,990 --> 00:24:08,720

about the gila brand amendment down the

667

00:24:11,909 --> 00:24:10,000

line we can talk about like you say

668

00:24:14,310 --> 00:24:11,919

politico's reporting the way it's been

669

00:24:16,230 --> 00:24:14,320

reported on cnn fox you know all those

670

00:24:17,909 --> 00:24:16,240

all those shows that we talk about and i

671

00:24:20,710 --> 00:24:17,919

know i miss out a lot but in the uk you

672

00:24:22,870 --> 00:24:20,720

know we know cnn and fox are our big u.s

673

00:24:24,549 --> 00:24:22,880

networks i don't need the emails i'll

674

00:24:26,950 --> 00:24:24,559

get off a few people about oh i don't

675

00:24:28,470 --> 00:24:26,960

watch fox because on cnn yep i know i

676

00:24:30,950 --> 00:24:28,480

get the political divide it's the same

677

00:24:33,909 --> 00:24:30,960

in the uk but they're both reported on

678

00:24:35,350 --> 00:24:33,919

ufos that's that's what happened um

679

00:24:38,070 --> 00:24:35,360

so for me

680

00:24:39,830 --> 00:24:38,080

there was a lot more entertainment as we

681

00:24:41,110 --> 00:24:39,840

come to know let's not get it too much

682

00:24:42,870 --> 00:24:41,120

just now because

683

00:24:45,909 --> 00:24:42,880

we're talking about the time but that

684

00:24:47,750 --> 00:24:45,919

was the focus and i suppose for you dan

685

00:24:49,029 --> 00:24:47,760

would you be like me where you see them

686

00:24:51,110 --> 00:24:49,039

talking about

687

00:24:52,710 --> 00:24:51,120

anti-gravity propulsion building a new

688

00:24:54,789 --> 00:24:52,720

generation propulsion system in our

689

00:24:56,870 --> 00:24:54,799

aerospace division and that really

690

00:25:00,549 --> 00:24:56,880

catches your eye doesn't it

691

00:25:01,990 --> 00:25:00,559

you know for me that that was the

692

00:25:04,710 --> 00:25:02,000

the hard to swallow bit of the

693

00:25:07,430 --> 00:25:04,720

presentation um everything else is an

694

00:25:08,789 --> 00:25:07,440

achievable goal but to set up an

695

00:25:11,669 --> 00:25:08,799

organization

696

00:25:14,789 --> 00:25:11,679

and expect to be able to to make an

697

00:25:16,230 --> 00:25:14,799

anti-gravity i mean there was the chance

698

00:25:19,190 --> 00:25:16,240

they had a secret that you could do this

699

00:25:21,909 --> 00:25:19,200

a lot more cheaply than other companies

700

00:25:23,430 --> 00:25:21,919

but this this industry is billions and

701
00:25:25,110 --> 00:25:23,440
billions of dollars you know asking

702
00:25:26,950 --> 00:25:25,120
asking people for money on the internet

703
00:25:29,430 --> 00:25:26,960
and selling stocks that way is not going

704
00:25:31,750 --> 00:25:29,440
to get you that capital so while that

705
00:25:33,669 --> 00:25:31,760
was a pie in the sky idea and i admire

706
00:25:35,990 --> 00:25:33,679
that you know aim for the stars type

707
00:25:37,750 --> 00:25:36,000
type way of operating

708
00:25:39,110 --> 00:25:37,760
i i think that was more of a seed they

709
00:25:41,430 --> 00:25:39,120
were putting out there to say hey look

710
00:25:43,750 --> 00:25:41,440
with what we currently know this should

711
00:25:46,710 --> 00:25:43,760
be a real possibility that somebody can

712
00:25:48,470 --> 00:25:46,720
go make this um and and i i think that

713
00:25:50,149 --> 00:25:48,480

seed blossomed and there are all sorts

714

00:25:52,630 --> 00:25:50,159

of people you know the the whole war

715

00:25:54,789 --> 00:25:52,640

bubble was singing in the news uh a

716

00:25:57,029 --> 00:25:54,799

couple of weeks back or months back

717

00:25:57,909 --> 00:25:57,039

my sense of time is gone since covid but

718

00:26:00,470 --> 00:25:57,919

um

719

00:26:01,190 --> 00:26:00,480

but yeah this is the

720

00:26:06,070 --> 00:26:01,200

just

721

00:26:08,950 --> 00:26:06,080

is helping bring about these ideas or

722

00:26:10,630 --> 00:26:08,960

the exploration of these ideas so going

723

00:26:11,909 --> 00:26:10,640

back to the time and we're we're both

724

00:26:13,669 --> 00:26:11,919

guilty of trying to jump forward it's

725

00:26:15,909 --> 00:26:13,679

too easy here isn't it to start

726
00:26:18,789 --> 00:26:15,919
hiding what happened and we will get to

727
00:26:21,029 --> 00:26:18,799
that but at that time is that

728
00:26:23,430 --> 00:26:21,039
looking at that team is it tom that is

729
00:26:25,830 --> 00:26:23,440
driving that direction of let's go and

730
00:26:27,750 --> 00:26:25,840
build a new generation of propulsion

731
00:26:29,510 --> 00:26:27,760
because you would think that that could

732
00:26:30,870 --> 00:26:29,520
be an idea but like you say surely if

733
00:26:33,510 --> 00:26:30,880
that wasn't something that was possible

734
00:26:35,590 --> 00:26:33,520
or achievable the other people jim said

735
00:26:37,430 --> 00:26:35,600
van gaal put off and steve justice chris

736
00:26:39,190 --> 00:26:37,440
male and luilazondo are going to turn

737
00:26:41,269 --> 00:26:39,200
around to tom and say

738
00:26:43,190 --> 00:26:41,279

yeah that's great but we're not going to

739

00:26:45,350 --> 00:26:43,200

be able to do that so let's let's shelf

740

00:26:47,510 --> 00:26:45,360

that just now but it made it into this

741

00:26:50,830 --> 00:26:47,520

package or is that a case of

742

00:26:52,390 --> 00:26:50,840

tom as it says as the founder and the

743

00:26:54,470 --> 00:26:52,400

director

744

00:26:57,110 --> 00:26:54,480

and he wanted that in there what what do

745

00:26:58,789 --> 00:26:57,120

you lean towards what would you think

746

00:27:00,470 --> 00:26:58,799

well when i look at steve justice i

747

00:27:02,230 --> 00:27:00,480

wonder why someone like him would be a

748

00:27:03,750 --> 00:27:02,240

part of something like this and outside

749

00:27:07,510 --> 00:27:03,760

of just having an interest in the uap

750

00:27:08,630 --> 00:27:07,520

issue i wonder if the the legitimacy of

751
00:27:10,070 --> 00:27:08,640
the science stuff where they were

752
00:27:12,149 --> 00:27:10,080
gathering these materials and trying to

753
00:27:13,990 --> 00:27:12,159
get them studied and looked at

754
00:27:16,390 --> 00:27:14,000
must have been so compelling that it

755
00:27:18,470 --> 00:27:16,400
made someone in lockheed think okay

756
00:27:20,950 --> 00:27:18,480
maybe if we have a guy in here he can

757
00:27:23,190 --> 00:27:20,960
kind of help us understand this

758
00:27:24,549 --> 00:27:23,200
technology um who knows if they were

759
00:27:26,310 --> 00:27:24,559
hoping to understand it in a way that

760
00:27:28,230 --> 00:27:26,320
they haven't been able to since the 40s

761
00:27:30,710 --> 00:27:28,240
or something but uh but you know

762
00:27:33,190 --> 00:27:30,720
certainly there's there's a benefit

763
00:27:34,789 --> 00:27:33,200

kickback for lockheed if what tcsa are

764

00:27:36,630 --> 00:27:34,799

pitching and what time are pigeon is

765

00:27:38,950 --> 00:27:36,640

true they're kind of the first company

766

00:27:41,190 --> 00:27:38,960

to get an anti-grav vehicle out of it um

767

00:27:42,630 --> 00:27:41,200

not likely but i do wonder what steve

768

00:27:44,710 --> 00:27:42,640

justice picked up while he was at the

769

00:27:46,870 --> 00:27:44,720

company in terms of ideas about wave

770

00:27:49,110 --> 00:27:46,880

guides or things like that

771

00:27:50,950 --> 00:27:49,120

so not only this aerospace division was

772

00:27:53,110 --> 00:27:50,960

going to build a new generation of

773

00:27:54,230 --> 00:27:53,120

propulsion anti-gravity as tom says

774

00:27:55,510 --> 00:27:54,240

there was going to be

775

00:27:56,950 --> 00:27:55,520

a whole production side they've got

776

00:27:58,389 --> 00:27:56,960

their media wing they had the port

777

00:28:01,029 --> 00:27:58,399

anderson series there was going to be

778

00:28:04,470 --> 00:28:01,039

books as we know the secret machines

779

00:28:06,710 --> 00:28:04,480

god's man in war series um you also had

780

00:28:08,070 --> 00:28:06,720

a reality series that was in production

781

00:28:09,669 --> 00:28:08,080

but which soon obviously became

782

00:28:11,990 --> 00:28:09,679

unidentified which we'll talk about in

783

00:28:13,590 --> 00:28:12,000

two seasons down the line in part three

784

00:28:14,789 --> 00:28:13,600

we'll talk about those

785

00:28:16,710 --> 00:28:14,799

and

786

00:28:18,950 --> 00:28:16,720

building the world's first ai database

787

00:28:20,710 --> 00:28:18,960

to examine materials and such i think

788

00:28:23,750 --> 00:28:20,720

one of the first things i heard about

789

00:28:25,909 --> 00:28:23,760

that or remember was tom on an interview

790

00:28:28,630 --> 00:28:25,919

talking about how they were going to use

791

00:28:31,269 --> 00:28:28,640

ai to examine religious texts from all

792

00:28:33,350 --> 00:28:31,279

around the world to look for patterns

793

00:28:34,389 --> 00:28:33,360

and put together what things they maybe

794

00:28:36,710 --> 00:28:34,399

have missed

795

00:28:39,350 --> 00:28:36,720

that might be more obvious to like an ai

796

00:28:40,789 --> 00:28:39,360

system in terms of right

797

00:28:42,630 --> 00:28:40,799

uh i got into trouble for this one's

798

00:28:44,149 --> 00:28:42,640

from a listener talking about ai saying

799

00:28:45,750 --> 00:28:44,159

that ai still has to be programmed to

800

00:28:48,389 --> 00:28:45,760

look for it so we have to know what

801

00:28:50,070 --> 00:28:48,399

we're looking for for the ai to find it

802

00:28:52,470 --> 00:28:50,080

well what we have a more kind of pattern

803

00:28:54,549 --> 00:28:52,480

recognition things that are so complex

804

00:28:56,389 --> 00:28:54,559

that they look like an intelligence to

805

00:28:58,789 --> 00:28:56,399

us it's not what we'd refer to as a

806

00:29:00,549 --> 00:28:58,799

general ai which would just be

807

00:29:01,990 --> 00:29:00,559

you know a brain in a computer with

808

00:29:02,789 --> 00:29:02,000

consciousness that you could converse

809

00:29:05,990 --> 00:29:02,799

with

810

00:29:08,710 --> 00:29:06,000

yeah it's like you could build a an ai

811

00:29:09,830 --> 00:29:08,720

machine to solve crosswords instantly

812

00:29:11,669 --> 00:29:09,840

but you still have to upload the

813

00:29:13,029 --> 00:29:11,679

dictionary and the thesaurus to them to

814

00:29:14,789 --> 00:29:13,039

have all the words and the definitions

815

00:29:16,950 --> 00:29:14,799

and the meanings and the spelling and

816

00:29:19,830 --> 00:29:16,960

everything for it to be there um but

817

00:29:22,950 --> 00:29:19,840

yeah so talk a little bit dan on the

818

00:29:25,110 --> 00:29:22,960

adam project and the vault because those

819

00:29:26,789 --> 00:29:25,120

were things that were around the

820

00:29:29,029 --> 00:29:26,799

beginnings of tourist stars academy as

821

00:29:32,230 --> 00:29:29,039

well in those early months

822

00:29:33,830 --> 00:29:32,240

so the atom project was about collecting

823

00:29:36,870 --> 00:29:33,840

and exploiting

824

00:29:39,269 --> 00:29:36,880

uh materials and material properties of

825

00:29:40,870 --> 00:29:39,279

stuff that's dropped off uap or you know

826

00:29:42,149 --> 00:29:40,880

may have been shot off or collected in

827

00:29:44,149 --> 00:29:42,159

people's gardens that dropped out of

828

00:29:46,470 --> 00:29:44,159

balls of light and things like that

829

00:29:48,230 --> 00:29:46,480

uh that would have later become i guess

830

00:29:51,190 --> 00:29:48,240

led into the the corrado with the us

831

00:29:53,669 --> 00:29:51,200

army um but then besides that we also

832

00:29:55,430 --> 00:29:53,679

had the vault and the vault app uh which

833

00:29:57,830 --> 00:29:55,440

were two different things uh they they

834

00:30:00,389 --> 00:29:57,840

pitched the idea of having just a data

835

00:30:02,630 --> 00:30:00,399

storage um where you could kind of

836

00:30:05,830 --> 00:30:02,640

submit your footage to like like a mufon

837

00:30:08,230 --> 00:30:05,840

reporting thing i guess uh and

838

00:30:09,750 --> 00:30:08,240

that would be filtered by a neural net

839

00:30:11,350 --> 00:30:09,760

that would take out things like balloons

840

00:30:13,110 --> 00:30:11,360

and it would recognize those patterns

841

00:30:15,029 --> 00:30:13,120

because they're things you can feed into

842

00:30:16,549 --> 00:30:15,039

it you know um

843

00:30:19,350 --> 00:30:16,559

and so you'd end up with this nice neat

844

00:30:22,549 --> 00:30:19,360

vault of genuine ufo sightings i i

845

00:30:24,950 --> 00:30:22,559

imagine that this is kind of what

846

00:30:26,710 --> 00:30:24,960

what column and george are talking about

847

00:30:28,549 --> 00:30:26,720

when they talk about what the osap

848

00:30:30,070 --> 00:30:28,559

database could have been if they carried

849

00:30:31,669 --> 00:30:30,080

on and they actually applied filtering

850

00:30:32,630 --> 00:30:31,679

and made it a public thing

851
00:30:34,549 --> 00:30:32,640
but then

852
00:30:36,310 --> 00:30:34,559
there was a an aspect of it that people

853
00:30:39,110 --> 00:30:36,320
were excited about and it's never really

854
00:30:41,110 --> 00:30:39,120
come out um ttsa bought a an app from a

855
00:30:42,470 --> 00:30:41,120
company and the idea with this app was

856
00:30:43,590 --> 00:30:42,480
that if say you and i were down the

857
00:30:45,750 --> 00:30:43,600
street from each other and we built

858
00:30:47,510 --> 00:30:45,760
solar light in the sky i could take my

859
00:30:49,430 --> 00:30:47,520
phone out and start recording it would

860
00:30:51,590 --> 00:30:49,440
alert you that someone in the area had

861
00:30:53,110 --> 00:30:51,600
taken their phone out to start recording

862
00:30:55,110 --> 00:30:53,120
you could go outside and record your own

863
00:30:56,710 --> 00:30:55,120

video and then get triangulation data

864

00:30:59,110 --> 00:30:56,720

and things like that from it that would

865

00:31:02,549 --> 00:30:59,120

have been really interesting but so far

866

00:31:04,870 --> 00:31:02,559

it's failing to materialize um there's a

867

00:31:07,190 --> 00:31:04,880

big benefit in having something like

868

00:31:08,630 --> 00:31:07,200

that i i marked up a little thing that

869

00:31:10,470 --> 00:31:08,640

kind of just tells me what planes are

870

00:31:11,750 --> 00:31:10,480

overhead and things like that and i

871

00:31:13,350 --> 00:31:11,760

imagine

872

00:31:14,389 --> 00:31:13,360

ttsa's app would have been something

873

00:31:15,909 --> 00:31:14,399

like that it would have told you you

874

00:31:17,110 --> 00:31:15,919

know nope that's a satellite nope that's

875

00:31:19,110 --> 00:31:17,120

a plane you know

876

00:31:21,190 --> 00:31:19,120

dan one of the big highlights for me of

877

00:31:23,669 --> 00:31:21,200

those early days of to the stars was the

878

00:31:25,990 --> 00:31:23,679

the release of the three videos online i

879

00:31:28,149 --> 00:31:26,000

remember going on their their website on

880

00:31:29,669 --> 00:31:28,159

the youtube channel and sharing it i

881

00:31:32,389 --> 00:31:29,679

think one of my mates shared them with

882

00:31:34,470 --> 00:31:32,399

me initially jamie who still messages me

883

00:31:36,310 --> 00:31:34,480

he sent me the guardian article today

884

00:31:38,630 --> 00:31:36,320

and he's interested in the subject he's

885

00:31:40,230 --> 00:31:38,640

a blink fan and um i remember him

886

00:31:41,509 --> 00:31:40,240

sending me those early on and being like

887

00:31:44,549 --> 00:31:41,519

what do you think of this like look at

888

00:31:47,029 --> 00:31:44,559

these videos and we had the go fast the

889

00:31:49,430 --> 00:31:47,039

flare and the gimbal

890

00:31:51,190 --> 00:31:49,440

obviously they go fast is the object

891

00:31:53,750 --> 00:31:51,200

skimming just above the water flying at

892

00:31:55,430 --> 00:31:53,760

speed and it's still whoa got it

893

00:31:56,870 --> 00:31:55,440

you know what is that thing and i think

894

00:31:59,029 --> 00:31:56,880

we all have that probably burned into

895

00:32:01,269 --> 00:31:59,039

our heads the audio of the pilots

896

00:32:03,269 --> 00:32:01,279

we have the flare video which seems to

897

00:32:04,950 --> 00:32:03,279

have a a lock on what looks like a

898

00:32:07,029 --> 00:32:04,960

stationary target and it moves a little

899

00:32:08,389 --> 00:32:07,039

bit and then

900

00:32:09,590 --> 00:32:08,399

comes out of

901

00:32:11,990 --> 00:32:09,600

there's obviously all sorts of

902

00:32:14,230 --> 00:32:12,000

discussions around does it fly away does

903

00:32:16,389 --> 00:32:14,240

it lose the lock all that kind of stuff

904

00:32:18,630 --> 00:32:16,399

and this one we should note while we're

905

00:32:21,430 --> 00:32:18,640

here just that this was

906

00:32:24,389 --> 00:32:21,440

around i want to say 507 around there

907

00:32:26,870 --> 00:32:24,399

2005 2007. um this was actually leaked

908

00:32:29,110 --> 00:32:26,880

onto the internet it was kept on a yes

909

00:32:31,110 --> 00:32:29,120

server in germany um and there were a

910

00:32:33,590 --> 00:32:31,120

few posts on the mata bunk website um

911

00:32:36,470 --> 00:32:33,600

and above top secret i think it was um

912

00:32:39,590 --> 00:32:36,480

of stories which are very reminiscent of

913

00:32:41,509 --> 00:32:39,600

experiences later shared by kevin day so

914

00:32:42,389 --> 00:32:41,519

this video has been out there for a long

915

00:32:44,470 --> 00:32:42,399

while

916

00:32:46,470 --> 00:32:44,480

um and even dave fraver recounts you

917

00:32:48,070 --> 00:32:46,480

know being asked about it uh

918

00:32:49,750 --> 00:32:48,080

and and then when it came out the person

919

00:32:52,549 --> 00:32:49,760

recognized it from dave's story around

920

00:32:54,149 --> 00:32:52,559

the dinner table um so so yeah this one

921

00:32:56,389 --> 00:32:54,159

was around for a while

922

00:32:58,870 --> 00:32:56,399

and that's why things don't leak it did

923

00:33:00,230 --> 00:32:58,880

yeah i spoke to macmillan about that

924

00:33:01,990 --> 00:33:00,240

whole thing of

925

00:33:05,110 --> 00:33:02,000

online with all the videos we see and

926
00:33:07,190 --> 00:33:05,120
we'll poo poo stuff or cgi or no that's

927
00:33:08,950 --> 00:33:07,200
faked or no that doesn't look real

928
00:33:10,710 --> 00:33:08,960
there's going to be at least one that's

929
00:33:13,269 --> 00:33:10,720
that's real it's legit and there you go

930
00:33:15,909 --> 00:33:13,279
there's an example of way before

931
00:33:17,909 --> 00:33:15,919
the internet was even big you know as it

932
00:33:20,149 --> 00:33:17,919
is now for that that sort of stuff there

933
00:33:22,230 --> 00:33:20,159
was this official video floating about

934
00:33:23,750 --> 00:33:22,240
and no one really realized at the time

935
00:33:24,630 --> 00:33:23,760
so yeah um

936
00:33:35,430 --> 00:33:24,640
the

937
00:33:37,830 --> 00:33:35,440
objects flying information as we now

938
00:33:39,750 --> 00:33:37,840

know off of that that object that's

939

00:33:41,669 --> 00:33:39,760

where we've got the cubes and spheres

940

00:33:43,430 --> 00:33:41,679

spheres and cubes cubes yeah cubes

941

00:33:46,230 --> 00:33:43,440

inside of spheres always get those mixed

942

00:33:47,269 --> 00:33:46,240

up and yeah the object seems to slow and

943

00:33:48,470 --> 00:33:47,279

rotate

944

00:33:50,389 --> 00:33:48,480

and

945

00:33:52,389 --> 00:33:50,399

yeah without that famous audio those

946

00:33:53,830 --> 00:33:52,399

really really stood out to me and i

947

00:33:55,990 --> 00:33:53,840

think even now

948

00:33:57,909 --> 00:33:56,000

when when i was in working in the office

949

00:34:00,230 --> 00:33:57,919

and people would ask about you know the

950

00:34:02,070 --> 00:34:00,240

podcast and even before the podcast i

951
00:34:04,630 --> 00:34:02,080
would show them those videos and i think

952
00:34:06,230 --> 00:34:04,640
they'll still have a really

953
00:34:08,470 --> 00:34:06,240
interesting impact on people when they

954
00:34:09,909 --> 00:34:08,480
see them for the first time um what

955
00:34:12,230 --> 00:34:09,919
about what's your memory stand of seeing

956
00:34:14,389 --> 00:34:12,240
those three videos it surprises me how

957
00:34:15,750 --> 00:34:14,399
many people still haven't seen them you

958
00:34:17,510 --> 00:34:15,760
know like

959
00:34:19,669 --> 00:34:17,520
the subject is the biggest it's ever

960
00:34:21,669 --> 00:34:19,679
been arguably uh you know thanks to the

961
00:34:24,950 --> 00:34:21,679
internet um and the work of

962
00:34:26,629 --> 00:34:24,960
organizations like tcsa

963
00:34:28,470 --> 00:34:26,639

but i remember

964

00:34:30,310 --> 00:34:28,480

when i i must have watched them about 50

965

00:34:32,310 --> 00:34:30,320

times you know probably more over the

966

00:34:35,349 --> 00:34:32,320

years and then you dig into the story of

967

00:34:38,389 --> 00:34:35,359

what's behind them and even up until now

968

00:34:40,629 --> 00:34:38,399

uh you know at the aia conference this

969

00:34:42,710 --> 00:34:40,639

year ryan graves shared more details

970

00:34:44,869 --> 00:34:42,720

about that gimbal experience and yeah

971

00:34:47,430 --> 00:34:44,879

and explained how there was kind of a

972

00:34:49,990 --> 00:34:47,440

delta shape of of a number of aircrafts

973

00:34:52,389 --> 00:34:50,000

in a delta shape that kind of smoothly

974

00:34:54,710 --> 00:34:52,399

followed the gimbal and that the gimbal

975

00:34:56,629 --> 00:34:54,720

was kind of very jerky and moving around

976

00:34:58,630 --> 00:34:56,639

uh in a fashion that just

977

00:35:00,829 --> 00:34:58,640

things that we make don't don't seem to

978

00:35:04,550 --> 00:35:00,839

move like that

979

00:35:06,069 --> 00:35:04,560

um it's amazing to think that

980

00:35:07,990 --> 00:35:06,079

that video being released and talked

981

00:35:10,470 --> 00:35:08,000

about properly by these individuals on

982

00:35:12,710 --> 00:35:10,480

stage at the you know the tsa launch

983

00:35:14,230 --> 00:35:12,720

and in the article it's amazing to think

984

00:35:16,150 --> 00:35:14,240

that those things

985

00:35:18,150 --> 00:35:16,160

have and i know some people will argue

986

00:35:19,510 --> 00:35:18,160

with me about saying this but they they

987

00:35:21,589 --> 00:35:19,520

changed the world

988

00:35:23,349 --> 00:35:21,599

and it wasn't just in america you know

989

00:35:25,589 --> 00:35:23,359

japan has guidelines

990

00:35:27,750 --> 00:35:25,599

china has a uap task force who are

991

00:35:29,670 --> 00:35:27,760

applying ai probably in the same sense

992

00:35:30,470 --> 00:35:29,680

as we use it um

993

00:35:32,390 --> 00:35:30,480

to

994

00:35:33,990 --> 00:35:32,400

filter in this data

995

00:35:35,750 --> 00:35:34,000

so

996

00:35:37,990 --> 00:35:35,760

for me it's kind of inarguable that

997

00:35:39,190 --> 00:35:38,000

these guys have changed the world

998

00:35:41,030 --> 00:35:39,200

and obviously that was going to be my

999

00:35:42,790 --> 00:35:41,040

final question dan that you have you're

1000

00:35:44,069 --> 00:35:42,800

very ruined for me and

1001

00:35:44,870 --> 00:35:44,079

you think they changed the world how's

1002

00:35:47,990 --> 00:35:44,880

that

1003

00:35:49,270 --> 00:35:48,000

have me asking you before you see it but

1004

00:35:50,950 --> 00:35:49,280

it's fine

1005

00:35:53,030 --> 00:35:50,960

but yeah so i mean like i was going to

1006

00:35:55,270 --> 00:35:53,040

say tom says at the end of that package

1007

00:35:57,510 --> 00:35:55,280

you know i want to be part of like a

1008

00:35:59,030 --> 00:35:57,520

world-changing moment and for my kids

1009

00:36:01,270 --> 00:35:59,040

and for everyone else and this is the

1010

00:36:03,430 --> 00:36:01,280

time to do it and i think it is fair to

1011

00:36:05,670 --> 00:36:03,440

say like you see if we look at hindsight

1012

00:36:08,069 --> 00:36:05,680

it did do that and the

1013

00:36:10,390 --> 00:36:08,079

the reverberations and the the shock

1014

00:36:13,589 --> 00:36:10,400

waves from those those early days in

1015

00:36:15,510 --> 00:36:13,599

late 2017 into early 2018

1016

00:36:18,069 --> 00:36:15,520

off the back of what tom delong put

1017

00:36:19,589 --> 00:36:18,079

together and whether the obviously you

1018

00:36:21,270 --> 00:36:19,599

like to say he wasn't involved directly

1019

00:36:23,030 --> 00:36:21,280

in the new york times article but a lot

1020

00:36:26,230 --> 00:36:23,040

of that came off the back of what he put

1021

00:36:27,910 --> 00:36:26,240

together in terms of that tsa group and

1022

00:36:30,310 --> 00:36:27,920

obviously to the stars was around before

1023

00:36:32,150 --> 00:36:30,320

then as a company but

1024

00:36:34,470 --> 00:36:32,160

yeah you can't say that it didn't change

1025

00:36:36,710 --> 00:36:34,480

the world in some way shape or form here

1026

00:36:39,430 --> 00:36:36,720

we are five years later

1027

00:36:42,390 --> 00:36:39,440

do we have the definite proof of alien

1028

00:36:43,829 --> 00:36:42,400

life or whatever else that may be no

1029

00:36:45,030 --> 00:36:43,839

but as we're going to get to and as

1030

00:36:47,349 --> 00:36:45,040

we've just discussed on recent

1031

00:36:50,950 --> 00:36:47,359

breakdowns and shows you've got chris

1032

00:36:53,990 --> 00:36:50,960

mellon out there now openly on the news

1033

00:36:56,870 --> 00:36:54,000

on live interviews on podcasts and major

1034

00:36:57,750 --> 00:36:56,880

articles talking about yeah there's a

1035

00:36:59,670 --> 00:36:57,760

really good chance this is

1036

00:37:01,750 --> 00:36:59,680

extraterrestrial life you've also got

1037

00:37:03,589 --> 00:37:01,760

luis elizondo from those early days out

1038

00:37:05,270 --> 00:37:03,599

there talking about you know what this

1039

00:37:07,430 --> 00:37:05,280

could be something extraterrestrial

1040

00:37:10,470 --> 00:37:07,440

interdimensional you know crypto

1041

00:37:11,270 --> 00:37:10,480

terrestrial talking about altered dna

1042

00:37:13,270 --> 00:37:11,280

so

1043

00:37:14,950 --> 00:37:13,280

at that moment we probably didn't

1044

00:37:16,470 --> 00:37:14,960

realize it but yeah it was a

1045

00:37:18,069 --> 00:37:16,480

world-changing moment that we can look

1046

00:37:20,470 --> 00:37:18,079

back on and go

1047

00:37:22,870 --> 00:37:20,480

wow yeah fair enough

1048

00:37:24,790 --> 00:37:22,880

what then came off the back of that

1049

00:37:27,030 --> 00:37:24,800

we're going to discuss in part three

1050

00:37:28,710 --> 00:37:27,040

then which is going to look at the

1051

00:37:31,030 --> 00:37:28,720

reality series being set up and

1052

00:37:33,670 --> 00:37:31,040

identified we will not be reviewing but

1053

00:37:36,630 --> 00:37:33,680

we'll touch on those some early books

1054

00:37:38,630 --> 00:37:36,640

that came out around to the stars

1055

00:37:40,870 --> 00:37:38,640

and we'll look at maybe dip into some of

1056

00:37:43,030 --> 00:37:40,880

the port anderson stuff

1057

00:37:45,589 --> 00:37:43,040

the reasons and the thoughts behind that

1058

00:37:47,750 --> 00:37:45,599

i'll wear my to the stars academy hoodie

1059

00:37:49,910 --> 00:37:47,760

should we give people homework the the

1060

00:37:51,910 --> 00:37:49,920

poet anderson show it is actually on

1061

00:37:53,510 --> 00:37:51,920

youtube it's free to watch um the

1062

00:37:55,430 --> 00:37:53,520

story's a little out there but if you

1063

00:37:57,349 --> 00:37:55,440

watch it with

1064

00:37:58,790 --> 00:37:57,359

tom's ideas about consciousness and

1065

00:38:00,710 --> 00:37:58,800

dreams in mind

1066

00:38:02,470 --> 00:38:00,720

there are some really cool ideas there

1067

00:38:04,150 --> 00:38:02,480

so so i'd recommend everyone go watch

1068

00:38:05,589 --> 00:38:04,160

that and then when we talk about poet

1069

00:38:07,750 --> 00:38:05,599

anderson you'll kind of know what we're

1070

00:38:09,670 --> 00:38:07,760

on about i think it's only fair dan that

1071

00:38:11,430 --> 00:38:09,680

you put the link in the description now

1072

00:38:12,790 --> 00:38:11,440

so yeah i'll put it in the final

1073

00:38:14,630 --> 00:38:12,800

description edit but yeah if you put

1074

00:38:17,270 --> 00:38:14,640

that in there for me that would be very

1075

00:38:19,990 --> 00:38:17,280

much appreciated folks that is the end

1076

00:38:21,910 --> 00:38:20,000

of this uh show we'll get into part

1077

00:38:24,550 --> 00:38:21,920

three when dan is back from colombia

1078

00:38:26,390 --> 00:38:24,560

this is our official last recording and

1079

00:38:27,750 --> 00:38:26,400

before dan heads off but like we said we

1080

00:38:29,990 --> 00:38:27,760

do plan on recording while he's out

1081

00:38:31,750 --> 00:38:30,000

there but you'll have heard that already

1082

00:38:35,349 --> 00:38:31,760

because this show will be likely going

1083

00:38:37,349 --> 00:38:35,359

out once he's back so dan enjoying this

1084

00:38:39,430 --> 00:38:37,359

dig and honestly for me just looking

1085

00:38:41,190 --> 00:38:39,440

back over that new york times article

1086

00:38:43,109 --> 00:38:41,200

and seeing those statements getting low

1087

00:38:44,390 --> 00:38:43,119

to comment on it

1088

00:38:46,390 --> 00:38:44,400

tom delong

1089

00:38:48,550 --> 00:38:46,400

at this point has put together a pretty

1090

00:38:50,630 --> 00:38:48,560

incredible team he claims to have banged

1091

00:38:52,150 --> 00:38:50,640

down a lot of doors to do that and it

1092

00:38:53,670 --> 00:38:52,160

seems the only way to

1093

00:38:56,310 --> 00:38:53,680

to put this together is to cause a bit

1094

00:38:58,950 --> 00:38:56,320

of a stir and he's managed to get some

1095

00:39:00,870 --> 00:38:58,960

really serious people involved as well

1096

00:39:02,950 --> 00:39:00,880

um in the next show we're going to look

1097

00:39:06,069 --> 00:39:02,960

at those those couple of years of to the

1098

00:39:07,750 --> 00:39:06,079

stars academy which burned very brightly

1099

00:39:10,470 --> 00:39:07,760

but probably burned very brightly too

1100

00:39:11,829 --> 00:39:10,480

quickly and we get some good stuff off

1101

00:39:13,349 --> 00:39:11,839

the back of it but we're probably going

1102

00:39:14,630 --> 00:39:13,359

to get some discussion as well around

1103

00:39:17,750 --> 00:39:14,640

like you say

1104

00:39:20,950 --> 00:39:17,760

the the stock um stock issues

1105

00:39:22,310 --> 00:39:20,960

and you know what the money went to

1106

00:39:24,870 --> 00:39:22,320

we didn't get that anti-gravity

1107

00:39:25,670 --> 00:39:24,880

spaceship as a spoiler folks

1108

00:39:26,470 --> 00:39:25,680

but

1109

00:39:27,750 --> 00:39:26,480

you know

1110

00:39:29,030 --> 00:39:27,760

we'll we'll talk about that as and when

1111

00:39:31,030 --> 00:39:29,040

it comes anything you're looking forward

1112

00:39:32,630 --> 00:39:31,040

to particularly they might have made it

1113

00:39:34,069 --> 00:39:32,640

tom just uses it for his skateboard

1114

00:39:35,510 --> 00:39:34,079

instead of having wheels and bearings

1115

00:39:36,790 --> 00:39:35,520

anymore

1116

00:39:40,150 --> 00:39:36,800

it's broken just now so he can't come

1117

00:39:45,109 --> 00:39:43,109

discussing the the kind of the core

1118

00:39:47,349 --> 00:39:45,119

story is what i'm looking forward to

1119

00:39:49,030 --> 00:39:47,359

because tom's advisers gave him a story

1120

00:39:50,230 --> 00:39:49,040

um and a lot of people have done a lot

1121

00:39:52,150 --> 00:39:50,240

of work to kind of pull this story

1122

00:39:53,510 --> 00:39:52,160

together so we'll be able to run through

1123

00:39:55,030 --> 00:39:53,520

it and kind of add some commentary and

1124

00:39:56,950 --> 00:39:55,040

maybe uh

1125

00:39:58,470 --> 00:39:56,960

you know tell people about some events

1126
00:39:59,910 --> 00:39:58,480
that they might not be familiar with

1127
00:40:01,750 --> 00:39:59,920
from history

1128
00:40:03,990 --> 00:40:01,760
and i did find out dan that at the

1129
00:40:05,510 --> 00:40:04,000
tourist star's office in the early days

1130
00:40:08,069 --> 00:40:05,520
there was one rule when entering the

1131
00:40:11,910 --> 00:40:09,109
go on

1132
00:40:14,069 --> 00:40:11,920
take off your pants and jacket

1133
00:40:15,990 --> 00:40:14,079
that is all for this week's show thank

1134
00:40:18,069 --> 00:40:16,000
you very much for listening please

1135
00:40:20,710 --> 00:40:18,079
remember to leave the podcaster review

1136
00:40:23,030 --> 00:40:20,720
on your chosen platform you can like

1137
00:40:24,950 --> 00:40:23,040
retweet and subscribe that would all be

1138
00:40:27,109 --> 00:40:24,960

very much appreciated the shows are

1139

00:40:28,630 --> 00:40:27,119

being uploaded onto youtube as we speak

1140

00:40:31,109 --> 00:40:28,640

more and more you can sign up at

1141

00:40:33,829 --> 00:40:31,119

patreon.com forward slash that ufo

1142

00:40:35,990 --> 00:40:33,839

podcast to access shows ad free as well

1143

00:40:38,870 --> 00:40:36,000

please get in touch on twitter facebook

1144

00:40:42,069 --> 00:40:38,880

instagram that ufo podcast of course on

1145

00:40:44,150 --> 00:40:42,079

twitter it's at ufouapam

1146

00:40:47,260 --> 00:40:44,160

and again folks as always keep looking

1147

00:41:01,510 --> 00:40:47,270

up you never know what you might see

1148

00:41:01,520 --> 00:41:10,790

like alice was

1149

00:41:10,800 --> 00:41:14,320

champagne

1150

00:41:14,330 --> 00:41:29,430

[Music]

1151

00:41:29,440 --> 00:41:47,030

cuz

1152

00:41:49,589 --> 00:41:47,829

red i was

1153

00:41:53,380 --> 00:41:49,599

out my boys they thought this was noise

1154

00:42:12,470 --> 00:42:02,620

[Music]

1155

00:42:12,480 --> 00:42:17,110

and what's that

1156

00:42:55,310 --> 00:42:22,470

[Music]

1157

00:43:01,520 --> 00:42:55,320

it wasn't

1158

00:43:32,600 --> 00:43:30,790

[Music]
