

THAT UFO PODCAST

SUPPORT FOR AND OVERSIGHT OF UNIDENTIFIED AERIAL PHENOMENA TASK FORCE.

AVAILABILITY OF DATA ON UNIDENTIFIED AERIAL PHENOMENA.—The Director of National Intelligence and the Secretary of Defense shall jointly require that the Director of the intelligence community and component agencies of the Department of Defense with data relating to unidentified aerial phenomena makes such data available immediately to the Unidentified Aerial Phenomena Task Force, or successor entity, and to the National Air and Space Intelligence Center.

(b) QUARTERLY REPORTS.—

THE BREAKDOWN

TOUGH CONVERSATIONS,
OBAMA LIBRARY / AATIP FILES,
US UAP LEGISLATION, & MORE

1
00:00:00,000 --> 00:00:12,310

[Music]

2
00:00:17,029 --> 00:00:14,470

it was basically a cube with inside of

3
00:00:22,000 --> 00:00:17,039

sphere where the points of the cube

4
00:00:35,190 --> 00:00:31,260

[Music]

5
00:00:36,790 --> 00:00:35,200

[Applause]

6
00:00:39,030 --> 00:00:36,800

so this isn't anything that just is

7
00:00:46,470 --> 00:00:39,040

limited to the united states it's a

8
00:00:50,869 --> 00:00:49,029

hi everyone and welcome back to that ufo

9
00:00:53,430 --> 00:00:50,879

podcast we've got another breakdown for

10
00:00:55,029 --> 00:00:53,440

you a little bit more on time this week

11
00:00:56,869 --> 00:00:55,039

after last week's one was late in the

12
00:00:59,270 --> 00:00:56,879

weekend if anything you're getting this

13
00:01:01,270 --> 00:00:59,280

one a little bit early because i am away

14

00:01:02,950 --> 00:01:01,280

in glasgow for a few days uh but

15

00:01:04,390 --> 00:01:02,960

nonetheless let's get into it dan

16

00:01:05,990 --> 00:01:04,400

welcome

17

00:01:07,350 --> 00:01:06,000

uh thank you for having me we won't do

18

00:01:09,429 --> 00:01:07,360

the pleasantries again we decided we're

19

00:01:11,670 --> 00:01:09,439

going to skip those last episode

20

00:01:14,310 --> 00:01:11,680

yes uh yeah we're past that but what we

21

00:01:16,070 --> 00:01:14,320

will do is um and it'll help us segue

22

00:01:17,510 --> 00:01:16,080

nicely as well is say hello to some of

23

00:01:19,670 --> 00:01:17,520

the new audience who might be listening

24

00:01:21,830 --> 00:01:19,680

and we'll see why just before we do that

25

00:01:23,270 --> 00:01:21,840

though this isn't a sponsor message so

26

00:01:25,350 --> 00:01:23,280

if you're listening to this on patreon

27

00:01:27,429 --> 00:01:25,360

apple uh youtube all that kind of stuff

28

00:01:29,429 --> 00:01:27,439

then and you normally don't hear adverts

29

00:01:31,190 --> 00:01:29,439

this is just for a good cause one of the

30

00:01:33,510 --> 00:01:31,200

listeners very loyal listener been in

31

00:01:35,429 --> 00:01:33,520

touch for a long time as well has um

32

00:01:37,990 --> 00:01:35,439

wanted to do something to help out the

33

00:01:40,149 --> 00:01:38,000

situation in ukraine um and there was

34

00:01:42,149 --> 00:01:40,159

various things he was looking into and

35

00:01:43,830 --> 00:01:42,159

what he's done is set up a clothing site

36

00:01:47,109 --> 00:01:43,840

that anything you buy

37

00:01:48,870 --> 00:01:47,119

all profits go to the victims of the war

38

00:01:51,990 --> 00:01:48,880

and he's going to look at how best to

39

00:01:53,749 --> 00:01:52,000

distribute that that money and funds um

40

00:01:55,510 --> 00:01:53,759

and match those donations as well so i'd

41

00:01:59,389 --> 00:01:55,520

like to say thank you if you go to the

42

00:02:04,749 --> 00:02:02,149

vlad.com there was another one but it

43

00:02:06,510 --> 00:02:04,759

wasn't able to be used and so

44

00:02:08,389 --> 00:02:06,520

www.bad

45

00:02:10,309 --> 00:02:08,399

dashvlad.com the link will be in the

46

00:02:12,949 --> 00:02:10,319

description the website is literally

47

00:02:15,030 --> 00:02:12,959

going live as we record this it's for a

48

00:02:17,030 --> 00:02:15,040

very good cause um we have not got

49

00:02:19,830 --> 00:02:17,040

anything for it we wouldn't want money

50

00:02:21,750 --> 00:02:19,840

or or any kind of gifts or our favors

51
00:02:23,910 --> 00:02:21,760
for reading something like that we do

52
00:02:25,830 --> 00:02:23,920
try and retweet and and stuff for any

53
00:02:27,270 --> 00:02:25,840
good causes where we can and especially

54
00:02:29,949 --> 00:02:27,280
as it's very prevalent so if you want to

55
00:02:33,030 --> 00:02:29,959
help out um please go to

56
00:02:34,710 --> 00:02:33,040
[www.bad dash vlad.com](http://www.bad-dash-vlad.com) and you can get a

57
00:02:37,110 --> 00:02:34,720
little something while supporting

58
00:02:38,309 --> 00:02:37,120
victims of the the kind of war over and

59
00:02:39,830 --> 00:02:38,319
over in ukraine just now which is

60
00:02:41,750 --> 00:02:39,840
obviously affecting millions of people

61
00:02:43,830 --> 00:02:41,760
and the quicker that's over the better

62
00:02:45,270 --> 00:02:43,840
and hopefully the sooner that you might

63
00:02:46,550 --> 00:02:45,280

be listening to this in the future and

64

00:02:49,430 --> 00:02:46,560

hopefully it was over and done with

65

00:02:51,670 --> 00:02:49,440

pretty pretty much after this so yeah

66

00:02:53,589 --> 00:02:51,680

horrible one but we touched on it last

67

00:02:55,670 --> 00:02:53,599

time as well but we can we can crack

68

00:02:57,350 --> 00:02:55,680

straight into the ufo news folks because

69

00:02:58,790 --> 00:02:57,360

so many of you got in touch saying you

70

00:03:00,550 --> 00:02:58,800

appreciate especially these types of

71

00:03:02,949 --> 00:03:00,560

breakdowns because

72

00:03:04,869 --> 00:03:02,959

if it's infotainment information if it's

73

00:03:07,350 --> 00:03:04,879

entertainment however you take this even

74

00:03:08,149 --> 00:03:07,360

as news then if it gets you away from

75

00:03:10,149 --> 00:03:08,159

the

76

00:03:11,830 --> 00:03:10,159

outside world for 10 minutes in an hour

77

00:03:13,430 --> 00:03:11,840

then then great glad we can help out

78

00:03:15,750 --> 00:03:13,440

with that podcast can be very

79

00:03:17,990 --> 00:03:15,760

therapeutic um

80

00:03:20,309 --> 00:03:18,000

welcome to anyone who's come over to the

81

00:03:23,190 --> 00:03:20,319

podcast from the theories of everything

82

00:03:25,990 --> 00:03:23,200

channel kojimungo uh very graciously

83

00:03:28,470 --> 00:03:26,000

afforded us uh an advertising spot on

84

00:03:30,070 --> 00:03:28,480

his on his channel um in exchange for

85

00:03:31,589 --> 00:03:30,080

helping him out with the the recent

86

00:03:33,030 --> 00:03:31,599

interview we've done we've been in touch

87

00:03:35,589 --> 00:03:33,040

with cut down having me for quite a

88

00:03:37,990 --> 00:03:35,599

while now and um it's always just nice

89

00:03:39,990 --> 00:03:38,000

to chat to him anyway but he he offered

90

00:03:41,990 --> 00:03:40,000

to do that for us in exchange for just a

91

00:03:44,550 --> 00:03:42,000

little bit of help um

92

00:03:46,710 --> 00:03:44,560

i suppose let's start off with uh

93

00:03:48,229 --> 00:03:46,720

it was pretty controversial in in

94

00:03:50,229 --> 00:03:48,239

different ways different people have

95

00:03:52,949 --> 00:03:50,239

taken his interview with uh louis ondo

96

00:03:55,750 --> 00:03:52,959

and sean cahill in different ways um we

97

00:03:57,429 --> 00:03:55,760

did help out we were basically given the

98

00:03:59,670 --> 00:03:57,439

list of audience questions it was an

99

00:04:01,910 --> 00:03:59,680

audience questions show it wasn't an

100

00:04:03,670 --> 00:04:01,920

interview that cut himself put together

101
00:04:05,830 --> 00:04:03,680
and um

102
00:04:07,030 --> 00:04:05,840
we formatted it for cut didn't we we we

103
00:04:09,350 --> 00:04:07,040
took several run-throughs at the

104
00:04:10,789 --> 00:04:09,360
questions uh we listed them in a certain

105
00:04:12,229 --> 00:04:10,799
order which we felt would give them the

106
00:04:13,110 --> 00:04:12,239
best flow

107
00:04:15,110 --> 00:04:13,120
and we

108
00:04:18,150 --> 00:04:15,120
we negated some of the questions that

109
00:04:20,150 --> 00:04:18,160
were perhaps really old-hat or not

110
00:04:20,949 --> 00:04:20,160
relevant or we thought would would get

111
00:04:24,469 --> 00:04:20,959
um

112
00:04:25,990 --> 00:04:24,479
some poorer answers as it turns out the

113
00:04:28,710 --> 00:04:26,000

the interview was almost an interview of

114

00:04:29,909 --> 00:04:28,720

two-half stan wasn't it where later in

115

00:04:32,390 --> 00:04:29,919

the interview

116

00:04:34,550 --> 00:04:32,400

lou and sean got a bit

117

00:04:36,870 --> 00:04:34,560

or annoyed

118

00:04:38,629 --> 00:04:36,880

certain questions and

119

00:04:41,030 --> 00:04:38,639

i think honestly

120

00:04:42,710 --> 00:04:41,040

a lot of it was the some of the comments

121

00:04:44,469 --> 00:04:42,720

and reactions in the live chat from

122

00:04:46,550 --> 00:04:44,479

people there were three and a half

123

00:04:48,550 --> 00:04:46,560

thousand people watching that interview

124

00:04:51,270 --> 00:04:48,560

live when it happened um and i think

125

00:04:53,909 --> 00:04:51,280

anybody knows by now especially in the

126

00:04:57,110 --> 00:04:53,919

ufo community there's a section of

127

00:04:59,510 --> 00:04:57,120

keyboard warriors who who want to derail

128

00:05:00,310 --> 00:04:59,520

things and get their name put out there

129

00:05:03,590 --> 00:05:00,320

or

130

00:05:05,110 --> 00:05:03,600

and it gets that point i'm sure even

131

00:05:07,110 --> 00:05:05,120

people like lou and sean who deal with

132

00:05:09,189 --> 00:05:07,120

that stuff daily

133

00:05:11,270 --> 00:05:09,199

it just kind of came to a

134

00:05:13,270 --> 00:05:11,280

a boiling point and especially after the

135

00:05:14,790 --> 00:05:13,280

couple of weeks lou had had

136

00:05:16,310 --> 00:05:14,800

in terms of the

137

00:05:18,790 --> 00:05:16,320

that documentary i won't give the name

138

00:05:21,110 --> 00:05:18,800

of it that slandered him and brought his

139

00:05:23,110 --> 00:05:21,120

family into it which was a big no-no and

140

00:05:25,510 --> 00:05:23,120

then the accusations of bullying which

141

00:05:27,990 --> 00:05:25,520

were total nonsense that happened it all

142

00:05:30,070 --> 00:05:28,000

kind of came to a head and i did i will

143

00:05:31,670 --> 00:05:30,080

i'll state right now i felt bad for kurt

144

00:05:34,150 --> 00:05:31,680

it wasn't aimed at him

145

00:05:35,270 --> 00:05:34,160

but lou and sean have both said so and

146

00:05:36,629 --> 00:05:35,280

um

147

00:05:38,469 --> 00:05:36,639

they were just

148

00:05:40,469 --> 00:05:38,479

trying to direct the conversation in a

149

00:05:41,430 --> 00:05:40,479

way they felt would be beneficial going

150

00:05:43,189 --> 00:05:41,440

forward

151
00:05:44,070 --> 00:05:43,199
um

152
00:05:45,990 --> 00:05:44,080
dan

153
00:05:47,510 --> 00:05:46,000
you watched it after the fact because

154
00:05:48,629 --> 00:05:47,520
you didn't manage to catch the full

155
00:05:50,790 --> 00:05:48,639
thing live

156
00:05:53,270 --> 00:05:50,800
um what did you think

157
00:05:55,110 --> 00:05:53,280
i i thoroughly enjoyed it so let me just

158
00:05:56,150 --> 00:05:55,120
say hi to everyone that's

159
00:05:57,590 --> 00:05:56,160
you know come from theories of

160
00:06:00,469 --> 00:05:57,600
everything as well you know what what a

161
00:06:01,830 --> 00:06:00,479
cool channel and kirk is really

162
00:06:03,430 --> 00:06:01,840
trying to dig deep with a lot of

163
00:06:05,110 --> 00:06:03,440

different guests on that show and i'd

164

00:06:07,430 --> 00:06:05,120

highly recommend that people go watch it

165

00:06:09,270 --> 00:06:07,440

um and and it's very cool to be able to

166

00:06:11,749 --> 00:06:09,280

help out um with this kind of

167

00:06:14,469 --> 00:06:11,759

conversation as andy said we we kind of

168

00:06:17,830 --> 00:06:14,479

help filter the questions um and there

169

00:06:19,749 --> 00:06:17,840

were some uh i'll say negative ones in

170

00:06:21,510 --> 00:06:19,759

there as well that we filtered out and

171

00:06:23,670 --> 00:06:21,520

and i think that kind of connects to

172

00:06:24,790 --> 00:06:23,680

what we saw in the chat later on and

173

00:06:26,469 --> 00:06:24,800

just let me

174

00:06:28,550 --> 00:06:26,479

let me state there dan

175

00:06:30,790 --> 00:06:28,560

negative questions hasn't we filtered

176

00:06:32,870 --> 00:06:30,800

out hard questions for

177

00:06:35,110 --> 00:06:32,880

that's not what that means and

178

00:06:37,909 --> 00:06:35,120

you can you can ask any question you

179

00:06:39,510 --> 00:06:37,919

want just in a decent way and if if the

180

00:06:42,390 --> 00:06:39,520

question was able to be rephrased in a

181

00:06:43,990 --> 00:06:42,400

nice way we did that um but just you

182

00:06:46,629 --> 00:06:44,000

know anything that was disrespectful

183

00:06:49,270 --> 00:06:46,639

will say um was maybe put down lower on

184

00:06:51,670 --> 00:06:49,280

the list or remove from the list um yeah

185

00:06:53,189 --> 00:06:51,680

we we've since found out that a number

186

00:06:56,230 --> 00:06:53,199

of

187

00:06:58,070 --> 00:06:56,240

accounts in the chat um were actually

188

00:06:59,510 --> 00:06:58,080

fake accounts using names of peop other

189

00:07:01,589 --> 00:06:59,520

people in the community that spent a lot

190

00:07:03,189 --> 00:07:01,599

of time talking and you know researching

191

00:07:03,990 --> 00:07:03,199

in the community

192

00:07:06,150 --> 00:07:04,000

so

193

00:07:07,670 --> 00:07:06,160

that just gives you an idea of the kind

194

00:07:09,430 --> 00:07:07,680

of people that you're dealing with there

195

00:07:11,749 --> 00:07:09,440

are anonymous trials they're there to

196

00:07:14,710 --> 00:07:11,759

derail the conversation to cause drama

197

00:07:17,990 --> 00:07:14,720

in some cases to try and create content

198

00:07:20,070 --> 00:07:18,000

for shows i think um and it got to a

199

00:07:22,790 --> 00:07:20,080

point during that conversation where

200

00:07:25,110 --> 00:07:22,800

lou and sean just started calling it out

201
00:07:30,790 --> 00:07:27,510
they they really kind of i would say put

202
00:07:32,390 --> 00:07:30,800
ufology on notice in that moment and a

203
00:07:33,990 --> 00:07:32,400
lot of people since are kind of

204
00:07:35,670 --> 00:07:34,000
disgruntled and a lot of people are

205
00:07:37,270 --> 00:07:35,680
really proud of that moment i know for

206
00:07:38,950 --> 00:07:37,280
me i'm very proud of the moment that

207
00:07:41,670 --> 00:07:38,960
they took the time to say it because

208
00:07:43,589 --> 00:07:41,680
there is a lot of bs in ufology and when

209
00:07:45,189 --> 00:07:43,599
i say that word i don't think of people

210
00:07:46,550 --> 00:07:45,199
doing the research and going into the

211
00:07:47,830 --> 00:07:46,560
archives and

212
00:07:49,589 --> 00:07:47,840
you know actually looking at data and

213
00:07:51,670 --> 00:07:49,599

trying to figure this out

214

00:07:54,469 --> 00:07:51,680

when i say ufology i think of the

215

00:07:56,950 --> 00:07:54,479

convention circuits and the money-making

216

00:07:59,270 --> 00:07:56,960

you know that constant churn of

217

00:08:00,710 --> 00:07:59,280

personality and things like that where

218

00:08:02,950 --> 00:08:00,720

you know the

219

00:08:05,350 --> 00:08:02,960

you can see it in the

220

00:08:06,950 --> 00:08:05,360

the corey goods and the david wilcox of

221

00:08:08,469 --> 00:08:06,960

the of the

222

00:08:09,749 --> 00:08:08,479

i'll say community because it is a

223

00:08:12,070 --> 00:08:09,759

community but

224

00:08:15,430 --> 00:08:12,080

i don't include them you know in a small

225

00:08:17,510 --> 00:08:15,440

it's kind of central folk and yeah it's

226

00:08:20,150 --> 00:08:17,520

it's something that has to go away and

227

00:08:22,309 --> 00:08:20,160

will go away as the conversation is

228

00:08:24,790 --> 00:08:22,319

adopted into the

229

00:08:26,550 --> 00:08:24,800

subjects where actually will be studied

230

00:08:27,990 --> 00:08:26,560

properly

231

00:08:30,469 --> 00:08:28,000

so yeah

232

00:08:31,830 --> 00:08:30,479

right i'll say and unfortunately i don't

233

00:08:33,829 --> 00:08:31,840

think it will go away then because i

234

00:08:36,070 --> 00:08:33,839

think you see the same thing in other

235

00:08:38,230 --> 00:08:36,080

sections of society regardless of the

236

00:08:40,469 --> 00:08:38,240

conversation that there's always going

237

00:08:42,310 --> 00:08:40,479

to be people that choose to ignore

238

00:08:44,389 --> 00:08:42,320

whatever the narrative might be or the

239

00:08:46,230 --> 00:08:44,399

the facts and go off on their own

240

00:08:48,150 --> 00:08:46,240

tangent but the best thing we can do is

241

00:08:49,670 --> 00:08:48,160

just ignore that and

242

00:08:51,590 --> 00:08:49,680

listen to other people's opinion if you

243

00:08:53,670 --> 00:08:51,600

want to but like you say you have to

244

00:08:55,110 --> 00:08:53,680

kind of move on from it and it's one of

245

00:08:57,030 --> 00:08:55,120

those things like you can

246

00:08:59,269 --> 00:08:57,040

you can hide and mute and block people

247

00:09:00,949 --> 00:08:59,279

online but they'll find a way to come

248

00:09:03,110 --> 00:09:00,959

back into the conversation in some way

249

00:09:05,190 --> 00:09:03,120

it's very difficult to like you say than

250

00:09:06,870 --> 00:09:05,200

to totally negate that because

251
00:09:08,470 --> 00:09:06,880
they found out there was anonymous you

252
00:09:10,070 --> 00:09:08,480
know accounts that were linked to other

253
00:09:12,790 --> 00:09:10,080
people and that's just the way of life

254
00:09:14,150 --> 00:09:12,800
isn't it that's not exclusive to ufos

255
00:09:15,509 --> 00:09:14,160
that happens in all walks of life

256
00:09:18,870 --> 00:09:15,519
especially online and it's really

257
00:09:20,630 --> 00:09:18,880
unfortunate but yeah yeah

258
00:09:22,949 --> 00:09:20,640
the conversation as well like and i can

259
00:09:24,630 --> 00:09:22,959
totally appreciate why some people were

260
00:09:27,670 --> 00:09:24,640
potentially annoyed at the reaction or

261
00:09:29,670 --> 00:09:27,680
the language or the context but

262
00:09:31,350 --> 00:09:29,680
i think there's there's interpretation

263
00:09:33,509 --> 00:09:31,360

open here like you say you really

264

00:09:35,350 --> 00:09:33,519

enjoyed it i was on the fence

265

00:09:37,670 --> 00:09:35,360

in terms of the conversation i said at

266

00:09:39,030 --> 00:09:37,680

the time i think it's one that in future

267

00:09:40,630 --> 00:09:39,040

will be looked back on a lot more

268

00:09:43,030 --> 00:09:40,640

positively than it was received at the

269

00:09:44,389 --> 00:09:43,040

time and maybe since and i can even see

270

00:09:45,670 --> 00:09:44,399

some of the listeners that have messaged

271

00:09:47,829 --> 00:09:45,680

me about it

272

00:09:50,389 --> 00:09:47,839

have watched it a second time

273

00:09:52,870 --> 00:09:50,399

and decided on second viewing actually

274

00:09:54,710 --> 00:09:52,880

if i put things in a little context and

275

00:09:55,750 --> 00:09:54,720

take away that shock from the first time

276

00:09:58,470 --> 00:09:55,760

watching it

277

00:09:59,910 --> 00:09:58,480

it's a little bit more digestible i i

278

00:10:01,590 --> 00:09:59,920

think one of the comments a few of you

279

00:10:03,990 --> 00:10:01,600

got in touch about this as well that

280

00:10:06,069 --> 00:10:04,000

they felt a little disappointed when

281

00:10:07,509 --> 00:10:06,079

they felt the ufo community was being

282

00:10:09,910 --> 00:10:07,519

attacked

283

00:10:11,509 --> 00:10:09,920

people like lou and others who are kind

284

00:10:13,750 --> 00:10:11,519

of on your side if you feel that and

285

00:10:15,990 --> 00:10:13,760

even if you want to include doesn't that

286

00:10:17,750 --> 00:10:16,000

that the ufo communities split into a

287

00:10:19,590 --> 00:10:17,760

lot of different you know sections and

288

00:10:22,230 --> 00:10:19,600

it wasn't aimed at everyone who's got an

289

00:10:23,509 --> 00:10:22,240

interest in ufos like dan said it was it

290

00:10:24,389 --> 00:10:23,519

was that

291

00:10:26,710 --> 00:10:24,399

little

292

00:10:28,630 --> 00:10:26,720

very vocal minority which which is

293

00:10:30,790 --> 00:10:28,640

because people probably don't appreciate

294

00:10:32,630 --> 00:10:30,800

even like ufo twitter

295

00:10:33,990 --> 00:10:32,640

or our ufo facebook you know there's

296

00:10:36,230 --> 00:10:34,000

sections on there like that there's

297

00:10:37,990 --> 00:10:36,240

massive chats or ufo reddit which has

298

00:10:39,190 --> 00:10:38,000

half a million members

299

00:10:41,269 --> 00:10:39,200

of it

300

00:10:44,150 --> 00:10:41,279

there there are there are still sections

301
00:10:45,430 --> 00:10:44,160
which shout the loudest and a lot of the

302
00:10:46,470 --> 00:10:45,440
really good people will get drowned out

303
00:10:48,069 --> 00:10:46,480
or don't get involved in the

304
00:10:49,750 --> 00:10:48,079
conversation because of that or they

305
00:10:50,710 --> 00:10:49,760
don't know how to to engage or don't

306
00:10:52,710 --> 00:10:50,720
want to engage in that kind of

307
00:10:54,710 --> 00:10:52,720
negativity and i think it was those

308
00:10:56,790 --> 00:10:54,720
negative aspects of the community that

309
00:10:58,870 --> 00:10:56,800
that lou and sean were were getting

310
00:11:00,630 --> 00:10:58,880
really frustrated at because they

311
00:11:02,310 --> 00:11:00,640
themselves had seen the effect of it

312
00:11:05,030 --> 00:11:02,320
over the course of i mean let's be

313
00:11:07,509 --> 00:11:05,040

honest years and months but particularly

314

00:11:09,829 --> 00:11:07,519

over a couple of weeks and i i thought

315

00:11:11,910 --> 00:11:09,839

it crazy and this i think

316

00:11:15,430 --> 00:11:11,920

the idea that they were both in the same

317

00:11:17,590 --> 00:11:15,440

room causing a conspiracy was was wild

318

00:11:18,949 --> 00:11:17,600

as it and it was like i mean it's quite

319

00:11:20,389 --> 00:11:18,959

clear they were in the same room when

320

00:11:22,230 --> 00:11:20,399

you saw lou walk past the mirror and it

321

00:11:23,829 --> 00:11:22,240

was like what's the big deal it was like

322

00:11:25,110 --> 00:11:23,839

that time we were in london dan and we

323

00:11:27,350 --> 00:11:25,120

were all sitting next to each other

324

00:11:28,870 --> 00:11:27,360

recording on on vinnie's channel and it

325

00:11:30,069 --> 00:11:28,880

was like oh look at they're all together

326

00:11:31,430 --> 00:11:30,079

are they in the same room yeah they're

327

00:11:33,269 --> 00:11:31,440

just on two different cameras so they're

328

00:11:35,190 --> 00:11:33,279

not next to each other for the sound

329

00:11:37,269 --> 00:11:35,200

yeah that's that's essentially what it

330

00:11:38,550 --> 00:11:37,279

was i mean they are friends and they do

331

00:11:39,590 --> 00:11:38,560

visit each other

332

00:11:41,750 --> 00:11:39,600

uh

333

00:11:43,990 --> 00:11:41,760

and as we found out it was online there

334

00:11:45,910 --> 00:11:44,000

was a wedding that weekend which they

335

00:11:47,269 --> 00:11:45,920

were both there for so

336

00:11:49,350 --> 00:11:47,279

they were they were in the same place

337

00:11:51,590 --> 00:11:49,360

and done the interview at the same time

338

00:11:53,269 --> 00:11:51,600

um which is ideal if dan and i could

339

00:11:55,509 --> 00:11:53,279

travel constantly to do interviews or

340

00:11:57,750 --> 00:11:55,519

these in the same place it would be much

341

00:11:59,670 --> 00:11:57,760

easier but we wouldn't sit side by side

342

00:12:01,509 --> 00:11:59,680

doing the recording you would have to

343

00:12:02,629 --> 00:12:01,519

plan and be a part and all that kind of

344

00:12:03,910 --> 00:12:02,639

stuff so

345

00:12:05,110 --> 00:12:03,920

yeah even things like that i think

346

00:12:07,030 --> 00:12:05,120

really frustrated them when the

347

00:12:08,230 --> 00:12:07,040

frustrations came to a boiling point

348

00:12:10,310 --> 00:12:08,240

cart

349

00:12:12,069 --> 00:12:10,320

obviously got that in the neck as such

350

00:12:14,150 --> 00:12:12,079

during the interview and

351

00:12:16,069 --> 00:12:14,160

i would encourage people again it's

352

00:12:17,110 --> 00:12:16,079

totally your your prerogative and we're

353

00:12:18,310 --> 00:12:17,120

going to discuss a few different

354

00:12:20,870 --> 00:12:18,320

interviews that have happened over the

355

00:12:23,509 --> 00:12:20,880

last couple of last week or so on this

356

00:12:25,030 --> 00:12:23,519

breakdown as well as some news and you

357

00:12:27,030 --> 00:12:25,040

can take away from the interviews what

358

00:12:28,870 --> 00:12:27,040

you want to take away if you feel there

359

00:12:31,750 --> 00:12:28,880

was nothing there in terms of news or

360

00:12:33,269 --> 00:12:31,760

updates that's that's totally fair and

361

00:12:36,790 --> 00:12:33,279

if you feel the conversation was

362

00:12:38,550 --> 00:12:36,800

unjustified or then that's totally fair

363

00:12:40,310 --> 00:12:38,560

but maybe take a second viewing of it

364

00:12:42,069 --> 00:12:40,320

especially that last half

365

00:12:43,590 --> 00:12:42,079

and just sit back and think what what's

366

00:12:45,110 --> 00:12:43,600

the commentary here on the conversation

367

00:12:46,470 --> 00:12:45,120

that people are having

368

00:12:48,470 --> 00:12:46,480

and again

369

00:12:51,350 --> 00:12:48,480

i think that has been the the peak and

370

00:12:53,110 --> 00:12:51,360

boiling point of this down period

371

00:12:54,230 --> 00:12:53,120

it's almost feels like that kind of came

372

00:12:57,030 --> 00:12:54,240

to a head

373

00:12:59,269 --> 00:12:57,040

of that lack of news and updates and

374

00:13:01,430 --> 00:12:59,279

loyalty on a big channel and and didn't

375

00:13:03,190 --> 00:13:01,440

give us a big reveal and you know

376
00:13:05,190 --> 00:13:03,200
everyone's waiting on the next video the

377
00:13:06,629 --> 00:13:05,200
book coming out they're waiting on the

378
00:13:08,710 --> 00:13:06,639
office updates they're waiting on the

379
00:13:09,990 --> 00:13:08,720
reports and then the reports come out

380
00:13:11,269 --> 00:13:10,000
they'll be disappointed that all the

381
00:13:13,430 --> 00:13:11,279
classified information isn't

382
00:13:15,269 --> 00:13:13,440
declassified and

383
00:13:16,790 --> 00:13:15,279
that's that's the nature of the subject

384
00:13:18,949 --> 00:13:16,800
and i just think it's again peaks and

385
00:13:20,629 --> 00:13:18,959
troughs the the good and the bad and i

386
00:13:22,230 --> 00:13:20,639
just think we hit a bit of a peak for a

387
00:13:23,829 --> 00:13:22,240
lot of different reasons

388
00:13:25,910 --> 00:13:23,839

there and we're kind of on the way down

389

00:13:27,430 --> 00:13:25,920

and we can kind of reflect on it and and

390

00:13:28,710 --> 00:13:27,440

move on and people are quite right to

391

00:13:31,190 --> 00:13:28,720

feel

392

00:13:33,190 --> 00:13:31,200

i'd emphasize grow though yeah you know

393

00:13:34,870 --> 00:13:33,200

not just move on but grow like really

394

00:13:36,629 --> 00:13:34,880

internalize what lou and sean said

395

00:13:38,790 --> 00:13:36,639

because they were absolutely correct

396

00:13:40,389 --> 00:13:38,800

like if you feel attacked maybe that's

397

00:13:42,150 --> 00:13:40,399

because you're someone who has

398

00:13:43,910 --> 00:13:42,160

facilitated that kind of conversation in

399

00:13:45,910 --> 00:13:43,920

the past or feels that may be deep down

400

00:13:47,430 --> 00:13:45,920

that you have instead of feeling annoyed

401
00:13:48,949 --> 00:13:47,440
about that just grow a little bit and

402
00:13:50,389 --> 00:13:48,959
kind of go you know what yeah it's time

403
00:13:52,230 --> 00:13:50,399
the subject grew up we're no longer

404
00:13:53,829 --> 00:13:52,240
dealing with something that's just in

405
00:13:56,069 --> 00:13:53,839
the fringes and in shadows this is

406
00:13:58,069 --> 00:13:56,079
legislation now this is being talked

407
00:13:59,990 --> 00:13:58,079
about in the halls of you know the

408
00:14:01,590 --> 00:14:00,000
pentagon and the white house freely they

409
00:14:02,389 --> 00:14:01,600
don't need to go into those secure rooms

410
00:14:03,350 --> 00:14:02,399
anymore

411
00:14:05,269 --> 00:14:03,360
so

412
00:14:07,110 --> 00:14:05,279
we we kind of need to grow up with the

413
00:14:09,030 --> 00:14:07,120

conversation as well

414

00:14:11,030 --> 00:14:09,040

and and just kind of last word on it i'm

415

00:14:12,470 --> 00:14:11,040

uh i'm still hopeful that i've not heard

416

00:14:15,189 --> 00:14:12,480

otherwise the interview with loyal go

417

00:14:16,870 --> 00:14:15,199

ahead in just over a month's time um it

418

00:14:19,269 --> 00:14:16,880

might end up being one of his last ones

419

00:14:20,790 --> 00:14:19,279

for a while who knows at this rate they

420

00:14:22,949 --> 00:14:20,800

appear to be winding down like they've

421

00:14:24,550 --> 00:14:22,959

said that's no secret and i would hope

422

00:14:26,389 --> 00:14:24,560

afterwards those interviews are on much

423

00:14:27,829 --> 00:14:26,399

bigger platforms in the mainstream to do

424

00:14:29,670 --> 00:14:27,839

with his book and getting that

425

00:14:31,269 --> 00:14:29,680

conversation back out there like

426

00:14:32,550 --> 00:14:31,279

happened like happened last summer

427

00:14:34,629 --> 00:14:32,560

that's what i would hope you know that

428

00:14:37,990 --> 00:14:34,639

he gets on to joe rogan and he's back on

429

00:14:39,750 --> 00:14:38,000

60 minutes fox cnn nbc you know whatever

430

00:14:41,829 --> 00:14:39,760

the big news channels are worldwide to

431

00:14:44,150 --> 00:14:41,839

get out there and have that conversation

432

00:14:46,150 --> 00:14:44,160

um but yeah i think it's a conversation

433

00:14:47,269 --> 00:14:46,160

that if if our interview goes ahead with

434

00:14:48,629 --> 00:14:47,279

lou

435

00:14:51,269 --> 00:14:48,639

really think of the questions you want

436

00:14:53,110 --> 00:14:51,279

to ask i i'm not scared of you know

437

00:14:54,949 --> 00:14:53,120

hardballing anyone that that doesn't

438

00:14:57,829 --> 00:14:54,959

happen like dan says there are just good

439

00:14:59,509 --> 00:14:57,839

questions lou himself has always said

440

00:15:01,189 --> 00:14:59,519

that he he will

441

00:15:02,949 --> 00:15:01,199

he can ask him anything he tells us that

442

00:15:03,990 --> 00:15:02,959

before we even interview him ask me

443

00:15:05,990 --> 00:15:04,000

anything

444

00:15:07,990 --> 00:15:06,000

again there's respectful ways to do it

445

00:15:10,310 --> 00:15:08,000

and i won't ask a question that's just

446

00:15:11,990 --> 00:15:10,320

one person's attack on someone else

447

00:15:14,230 --> 00:15:12,000

that's whether that's at lou or at

448

00:15:15,750 --> 00:15:14,240

someone else there's no point even if

449

00:15:18,230 --> 00:15:15,760

i'm asking a question about you know dr

450

00:15:20,629 --> 00:15:18,240

stephen grayer or corey good

451
00:15:22,550 --> 00:15:20,639
um david wilcox there's still respectful

452
00:15:24,150 --> 00:15:22,560
ways to do it whether i like or and or

453
00:15:25,829 --> 00:15:24,160
disagree with those people's opinions

454
00:15:27,189 --> 00:15:25,839
that's just the way it's kind of got to

455
00:15:29,749 --> 00:15:27,199
be i think to have a reasoned

456
00:15:31,030 --> 00:15:29,759
conversation i i think as a little word

457
00:15:32,790 --> 00:15:31,040
of advice for people writing their

458
00:15:34,949 --> 00:15:32,800
questions is just don't include your

459
00:15:36,310 --> 00:15:34,959
opinion in the question that's it like

460
00:15:37,829 --> 00:15:36,320
if if you're asking someone for

461
00:15:39,590 --> 00:15:37,839
information there's no reason for your

462
00:15:41,269 --> 00:15:39,600
opinion to be there you want them to be

463
00:15:42,949 --> 00:15:41,279

talking just prompt them

464

00:15:44,069 --> 00:15:42,959

and i i'm going to try and with this

465

00:15:45,509 --> 00:15:44,079

interview as well because lewis still

466

00:15:48,150 --> 00:15:45,519

got a few interviews coming up i believe

467

00:15:51,189 --> 00:15:48,160

he's on ucr um and the next day or so as

468

00:15:53,430 --> 00:15:51,199

we record this yeah friday the 18th

469

00:15:55,829 --> 00:15:53,440

he'll be on ucl and my writing scenes on

470

00:15:57,990 --> 00:15:55,839

linda moulton house show coming up

471

00:16:00,710 --> 00:15:58,000

possibly uh there's a bunch of dates

472

00:16:02,150 --> 00:16:00,720

yeah yeah there's a few more still to go

473

00:16:04,790 --> 00:16:02,160

and i would suggest people listen to

474

00:16:06,230 --> 00:16:04,800

those and really think about if you

475

00:16:08,389 --> 00:16:06,240

really want to put a good question to

476

00:16:09,829 --> 00:16:08,399

lou i will put great questions to lou

477

00:16:11,749 --> 00:16:09,839

i'll do a whole interview with lou where

478

00:16:13,590 --> 00:16:11,759

i don't ask him anything of my own if

479

00:16:15,269 --> 00:16:13,600

all the other questions i perceive as

480

00:16:18,150 --> 00:16:15,279

being better if that sounds big-headed i

481

00:16:19,749 --> 00:16:18,160

apologize but

482

00:16:21,430 --> 00:16:19,759

the questions there's no point in asking

483

00:16:22,550 --> 00:16:21,440

about oh the tic-tac that commander

484

00:16:23,509 --> 00:16:22,560

favor saw

485

00:16:25,350 --> 00:16:23,519

you know

486

00:16:26,550 --> 00:16:25,360

there are ways to ask about the 23

487

00:16:28,470 --> 00:16:26,560

minute video and we'll get to that in a

488

00:16:29,990 --> 00:16:28,480

second with martin willis's interview

489

00:16:30,870 --> 00:16:30,000

but if you listen to a lot of the

490

00:16:32,150 --> 00:16:30,880

interviewers you're going to keep

491

00:16:34,069 --> 00:16:32,160

hearing the same stuff because it keeps

492

00:16:35,430 --> 00:16:34,079

being asked the same questions

493

00:16:37,430 --> 00:16:35,440

we'll really do our best to make sure

494

00:16:39,910 --> 00:16:37,440

it's an interview and a conversation

495

00:16:41,189 --> 00:16:39,920

about going forward um and if we do a

496

00:16:42,710 --> 00:16:41,199

lot about digging back the way we'll

497

00:16:45,189 --> 00:16:42,720

make sure it's stuff that's not covering

498

00:16:47,110 --> 00:16:45,199

old ground because that must be boring

499

00:16:49,110 --> 00:16:47,120

for the interviewer as well i've done a

500

00:16:51,590 --> 00:16:49,120

couple of interviews on on other

501
00:16:53,030 --> 00:16:51,600
podcasts um and i i'm really happy to

502
00:16:54,710 --> 00:16:53,040
help out other podcasts especially when

503
00:16:56,310 --> 00:16:54,720
i started out and growing because i

504
00:16:57,749 --> 00:16:56,320
remember what that was like and i'm

505
00:17:00,310 --> 00:16:57,759
fortunate to have the audience i've got

506
00:17:02,150 --> 00:17:00,320
now but you do end up getting just asked

507
00:17:03,030 --> 00:17:02,160
the same questions off everyone

508
00:17:04,710 --> 00:17:03,040
you know

509
00:17:06,470 --> 00:17:04,720
but i get you've got different audiences

510
00:17:09,270 --> 00:17:06,480
and different people hearing it and i

511
00:17:12,789 --> 00:17:09,280
get for someone like lou like sean like

512
00:17:14,150 --> 00:17:12,799
uh jacques villa gary nolan um

513
00:17:15,750 --> 00:17:14,160

you know

514

00:17:17,510 --> 00:17:15,760

michael masters tim mcmillan all these

515

00:17:19,029 --> 00:17:17,520

people who i've interviewed they do lots

516

00:17:21,110 --> 00:17:19,039

of interviews and they probably hear the

517

00:17:22,390 --> 00:17:21,120

same stuff and on a media run i'm

518

00:17:24,230 --> 00:17:22,400

guessing there comes a point where it's

519

00:17:26,150 --> 00:17:24,240

like

520

00:17:27,429 --> 00:17:26,160

yep here we go i'll answer that question

521

00:17:30,230 --> 00:17:27,439

again and they do it with a little bit

522

00:17:31,350 --> 00:17:30,240

less verve and pizzazz and charisma than

523

00:17:33,750 --> 00:17:31,360

they would have done in the first time

524

00:17:34,870 --> 00:17:33,760

or second time round but anyway a lot of

525

00:17:36,070 --> 00:17:34,880

interviews have happened in the last

526

00:17:37,750 --> 00:17:36,080

week you may want to touch on some of

527

00:17:39,190 --> 00:17:37,760

those once again thanks to everyone

528

00:17:41,110 --> 00:17:39,200

who's come over thank you to carjay

529

00:17:42,789 --> 00:17:41,120

mungo for the shout out from theories of

530

00:17:44,470 --> 00:17:42,799

everything and thank you to you just the

531

00:17:48,070 --> 00:17:44,480

normal audience who comes back week

532

00:17:49,350 --> 00:17:48,080

after week so you were thanking me

533

00:17:51,190 --> 00:17:49,360

there are many reasons i shouldn't thank

534

00:17:53,350 --> 00:17:51,200

you

535

00:17:56,150 --> 00:17:53,360

so yeah let's move on another interview

536

00:17:58,390 --> 00:17:56,160

um that happened was lou and sean and

537

00:17:59,990 --> 00:17:58,400

danny sheehan joined thomas fessler

538

00:18:01,270 --> 00:18:00,000

again all the links for these interviews

539

00:18:02,950 --> 00:18:01,280

will almost definitely be in the

540

00:18:04,950 --> 00:18:02,960

description if i remember i've made a

541

00:18:08,630 --> 00:18:04,960

note to do it um i'd hold down that

542

00:18:10,470 --> 00:18:08,640

beforehand like remind me um but dan you

543

00:18:12,150 --> 00:18:10,480

enjoyed a particular

544

00:18:14,150 --> 00:18:12,160

um

545

00:18:16,549 --> 00:18:14,160

moment danny sheehan had on thomas

546

00:18:18,230 --> 00:18:16,559

fesslers if you want to relay that back

547

00:18:20,070 --> 00:18:18,240

i i dubbed the moment the uap and the

548

00:18:22,950 --> 00:18:20,080

butterfly i thought it was a really nice

549

00:18:25,909 --> 00:18:22,960

fable that danny spoke about um it was

550

00:18:29,029 --> 00:18:25,919

prompted by some conversation about will

551
00:18:31,190 --> 00:18:29,039
uab or the occupants of uap help us in

552
00:18:32,070 --> 00:18:31,200
ukraine or if there's nuclear

553
00:18:33,029 --> 00:18:32,080
you know

554
00:18:34,630 --> 00:18:33,039
uh

555
00:18:36,789 --> 00:18:34,640
conflict if they'll step in and stop it

556
00:18:39,190 --> 00:18:36,799
and so on so forth um you know why are

557
00:18:40,950 --> 00:18:39,200
we being helped and danny told this

558
00:18:43,190 --> 00:18:40,960
fable and and i

559
00:18:45,590 --> 00:18:43,200
kind of can't remember verbatim but

560
00:18:47,350 --> 00:18:45,600
basically the idea was that there was a

561
00:18:49,590 --> 00:18:47,360
boy who was watching a butterfly come

562
00:18:51,190 --> 00:18:49,600
emit from a cocoon and he watched this

563
00:18:52,710 --> 00:18:51,200

butterfly struggle out and the butterfly

564

00:18:54,630 --> 00:18:52,720

went to fly away and

565

00:18:55,990 --> 00:18:54,640

it emerged fine except for this one

566

00:18:57,909 --> 00:18:56,000

little silver strand that was still

567

00:19:00,310 --> 00:18:57,919

holding it to the cocoon so the boy

568

00:19:02,549 --> 00:19:00,320

thinking he was helping it snipped the

569

00:19:04,710 --> 00:19:02,559

strand um

570

00:19:06,470 --> 00:19:04,720

but unfortunately it meant the butterfly

571

00:19:09,990 --> 00:19:06,480

couldn't fly unbeknownst to the boy that

572

00:19:11,350 --> 00:19:10,000

silver strand was the the struggle that

573

00:19:12,710 --> 00:19:11,360

basically when the butterfly was strong

574

00:19:15,110 --> 00:19:12,720

enough to break that silver strand it

575

00:19:17,110 --> 00:19:15,120

could actually fly on its own now

576

00:19:19,029 --> 00:19:17,120

the muscle yeah exactly it built the

577

00:19:19,830 --> 00:19:19,039

muscles up um

578

00:19:22,070 --> 00:19:19,840

so

579

00:19:24,150 --> 00:19:22,080

he he was likening that to to this

580

00:19:26,789 --> 00:19:24,160

moment for us in the uap subject that

581

00:19:29,110 --> 00:19:26,799

maybe as a as a

582

00:19:30,950 --> 00:19:29,120

species we need to grow up in the same

583

00:19:32,870 --> 00:19:30,960

way and this is this is the moment where

584

00:19:33,669 --> 00:19:32,880

you don't want to cut that silver thread

585

00:19:35,590 --> 00:19:33,679

and

586

00:19:37,909 --> 00:19:35,600

that's essentially what you may be

587

00:19:39,990 --> 00:19:37,919

stepping in here would do um you know we

588

00:19:41,750 --> 00:19:40,000

need to emerge on our own terms and and

589

00:19:42,870 --> 00:19:41,760

stand on our own two feet and i thought

590

00:19:44,390 --> 00:19:42,880

that

591

00:19:45,990 --> 00:19:44,400

it was a nice fable and it applies to a

592

00:19:47,909 --> 00:19:46,000

lot in life as well

593

00:19:50,150 --> 00:19:47,919

100 yeah again the link for that

594

00:19:51,830 --> 00:19:50,160

interview will be within the description

595

00:19:54,230 --> 00:19:51,840

that was happened around the same time

596

00:19:56,070 --> 00:19:54,240

as kurtz and also the the next one which

597

00:19:58,549 --> 00:19:56,080

i i managed to actually catch this one

598

00:20:01,270 --> 00:19:58,559

myself and pretty much in full uh martin

599

00:20:03,029 --> 00:20:01,280

willis of podcast ufo who's been going

600

00:20:03,990 --> 00:20:03,039

quite a long a long time i think he said

601
00:20:05,350 --> 00:20:04,000
um

602
00:20:07,110 --> 00:20:05,360
eight or nine years maybe more than that

603
00:20:09,430 --> 00:20:07,120
martin willis has been commenting on the

604
00:20:11,190 --> 00:20:09,440
subject yeah online and i used to listen

605
00:20:14,710 --> 00:20:11,200
to martin miller well before i started

606
00:20:16,630 --> 00:20:14,720
my own two um so he had gary nolan on

607
00:20:18,230 --> 00:20:16,640
for the first part of the show and then

608
00:20:19,669 --> 00:20:18,240
luella zondo for the second part but

609
00:20:21,669 --> 00:20:19,679
there was a bit of overlap as well which

610
00:20:23,029 --> 00:20:21,679
i found really interesting and we're

611
00:20:24,390 --> 00:20:23,039
going to mention body language in a

612
00:20:26,070 --> 00:20:24,400
couple of interviews here i think as

613
00:20:28,149 --> 00:20:26,080

well um

614

00:20:30,230 --> 00:20:28,159

always encourage you to go and watch and

615

00:20:31,510 --> 00:20:30,240

listen any of these interviews watch

616

00:20:33,830 --> 00:20:31,520

them on youtube or listen to them on

617

00:20:35,830 --> 00:20:33,840

your your audio platforms um yourself

618

00:20:37,990 --> 00:20:35,840

regardless of what i think or dan thinks

619

00:20:39,669 --> 00:20:38,000

or the community thinks go and watch it

620

00:20:41,430 --> 00:20:39,679

and make up your own mind because just

621

00:20:44,230 --> 00:20:41,440

because i don't take something from an

622

00:20:45,830 --> 00:20:44,240

interview or dan does doesn't mean you

623

00:20:47,110 --> 00:20:45,840

might have a totally different take away

624

00:20:48,950 --> 00:20:47,120

from it and that's that's where you can

625

00:20:50,710 --> 00:20:48,960

really build your own kind of opinion

626

00:20:52,230 --> 00:20:50,720

and knowledge on the subject and so

627

00:20:54,549 --> 00:20:52,240

please please go and check these all out

628

00:20:56,549 --> 00:20:54,559

but um martin started off by saying

629

00:20:58,789 --> 00:20:56,559

there were five moderators in the chat

630

00:21:00,549 --> 00:20:58,799

for his conversation with gary nolan and

631

00:21:02,070 --> 00:21:00,559

i think that was a commentary on the

632

00:21:03,110 --> 00:21:02,080

state of affairs we find ourselves in

633

00:21:04,789 --> 00:21:03,120

now that

634

00:21:06,870 --> 00:21:04,799

content creators are a bit worried about

635

00:21:08,710 --> 00:21:06,880

the online trolls and keyboard warriors

636

00:21:10,630 --> 00:21:08,720

and stuff but it's it's part of that

637

00:21:12,549 --> 00:21:10,640

conversation and it wasn't just on on

638

00:21:14,470 --> 00:21:12,559

cuts channel um

639

00:21:16,789 --> 00:21:14,480

martin willis asked gary about michael

640

00:21:18,549 --> 00:21:16,799

masters time traveler theory and gary

641

00:21:19,990 --> 00:21:18,559

came back with a retort from his friend

642

00:21:22,310 --> 00:21:20,000

jack vallee which i thought was quite

643

00:21:23,830 --> 00:21:22,320

good and he mentioned about you know so

644

00:21:26,149 --> 00:21:23,840

essentially gary what do you think about

645

00:21:28,390 --> 00:21:26,159

the idea that michael masters and others

646

00:21:30,149 --> 00:21:28,400

have said this is future humans or time

647

00:21:31,830 --> 00:21:30,159

travelers coming back to this point in

648

00:21:33,350 --> 00:21:31,840

time for whatever reason

649

00:21:34,310 --> 00:21:33,360

and and

650

00:21:35,830 --> 00:21:34,320

gary

651
00:21:37,510 --> 00:21:35,840
quite cleverly avoiding the question in

652
00:21:39,270 --> 00:21:37,520
a sense but also

653
00:21:41,510 --> 00:21:39,280
giving us a great comment from his

654
00:21:42,789 --> 00:21:41,520
friend jack valet was or maybe it's

655
00:21:44,470 --> 00:21:42,799
something that's trying to look like

656
00:21:46,070 --> 00:21:44,480
it's coming from the future and i

657
00:21:48,390 --> 00:21:46,080
thought that was quite interesting again

658
00:21:50,310 --> 00:21:48,400
that that idea dan you're much more read

659
00:21:52,390 --> 00:21:50,320
up on jack valley's theories and ideas

660
00:21:54,149 --> 00:21:52,400
than myself but where does that sit for

661
00:21:57,669 --> 00:21:54,159
you and what jack talks about his ideas

662
00:22:00,230 --> 00:21:57,679
i mean it's absolutely correct basically

663
00:22:02,310 --> 00:22:00,240

we're referencing slide 9 here that kind

664

00:22:04,390 --> 00:22:02,320

of complete cognitive control of our

665

00:22:07,029 --> 00:22:04,400

environment or our perception

666

00:22:09,430 --> 00:22:07,039

one of one of those basically if there

667

00:22:11,909 --> 00:22:09,440

exists a live form who can manipulate

668

00:22:15,350 --> 00:22:11,919

what we see or better off it can show us

669

00:22:17,350 --> 00:22:15,360

what it wants to show us and it would

670

00:22:18,710 --> 00:22:17,360

probably i mean at least if we had that

671

00:22:20,950 --> 00:22:18,720

technology and we were going to another

672

00:22:22,789 --> 00:22:20,960

planet we would misrepresent ourselves

673

00:22:24,870 --> 00:22:22,799

so that we could ease the people in a

674

00:22:27,190 --> 00:22:24,880

little better um and and that's some of

675

00:22:29,350 --> 00:22:27,200

the thinking behind how

676
00:22:31,190 --> 00:22:29,360
these these anomalous events over the

677
00:22:32,870 --> 00:22:31,200
years jack valley's work goes way way

678
00:22:34,870 --> 00:22:32,880
way back looking at just some strange

679
00:22:37,110 --> 00:22:34,880
sightings and it used to be airships but

680
00:22:39,430 --> 00:22:37,120
now we kind of have these smooth

681
00:22:40,390 --> 00:22:39,440
seamless technologically superior craft

682
00:22:43,590 --> 00:22:40,400
that we see

683
00:22:45,750 --> 00:22:43,600
so you have to wonder if maybe

684
00:22:47,830 --> 00:22:45,760
our our collective perception of what

685
00:22:50,630 --> 00:22:47,840
something other would look like is

686
00:22:53,510 --> 00:22:50,640
actually being maybe guided or you know

687
00:22:56,070 --> 00:22:53,520
fulfilled in a way by something that can

688
00:22:57,909 --> 00:22:56,080

project a hologram essentially

689

00:22:59,830 --> 00:22:57,919

and you think of even our own technology

690

00:23:01,990 --> 00:22:59,840

in terms of space travel what at one

691

00:23:03,990 --> 00:23:02,000

point we could launch things into space

692

00:23:05,750 --> 00:23:04,000

but we couldn't bring them back it's not

693

00:23:08,549 --> 00:23:05,760

safely and then we could launch things

694

00:23:11,669 --> 00:23:08,559

into space to probe other planets

695

00:23:13,510 --> 00:23:11,679

yeah yeah i know yeah the animals and

696

00:23:15,830 --> 00:23:13,520

then you had the you know we were

697

00:23:17,750 --> 00:23:15,840

crashing probes into planets whereas now

698

00:23:19,510 --> 00:23:17,760

we've got to a point we can put landers

699

00:23:21,590 --> 00:23:19,520

onto planets that that roll around and

700

00:23:24,230 --> 00:23:21,600

if you're an alien life form or if

701
00:23:26,870 --> 00:23:24,240
you're the humans of that planet and you

702
00:23:28,870 --> 00:23:26,880
saw the mars rover for example is that

703
00:23:31,270 --> 00:23:28,880
really representative as a species of

704
00:23:32,870 --> 00:23:31,280
our technology not really it's just it's

705
00:23:35,430 --> 00:23:32,880
just a thing we have and we've developed

706
00:23:37,190 --> 00:23:35,440
to work on that planet so potentially

707
00:23:37,909 --> 00:23:37,200
whatever we are seeing on this planet is

708
00:23:39,830 --> 00:23:37,919
just

709
00:23:40,950 --> 00:23:39,840
the rover for somewhere else where

710
00:23:42,870 --> 00:23:40,960
that's the technology they have

711
00:23:45,110 --> 00:23:42,880
developed and they're sent elsewhere

712
00:23:47,830 --> 00:23:45,120
that they're using to to navigate and

713
00:23:50,070 --> 00:23:47,840

explore and it might be for them

714

00:23:51,350 --> 00:23:50,080

relatively primitive it might be a real

715

00:23:52,870 --> 00:23:51,360

offshoot of something else they have

716

00:23:54,230 --> 00:23:52,880

which is actually much more practical

717

00:23:55,909 --> 00:23:54,240

where they are

718

00:23:58,070 --> 00:23:55,919

like for example us you wouldn't use a

719

00:23:59,990 --> 00:23:58,080

mars rover to drive about you know barry

720

00:24:01,909 --> 00:24:00,000

in wales would you then because you you

721

00:24:03,190 --> 00:24:01,919

wouldn't get very far very quickly no

722

00:24:05,430 --> 00:24:03,200

not that it's the biggest place in the

723

00:24:07,430 --> 00:24:05,440

world but you know you're you're kind of

724

00:24:09,430 --> 00:24:07,440

stuck with a very slow moving couple of

725

00:24:12,149 --> 00:24:09,440

meters a day i think it is isn't it yeah

726

00:24:14,390 --> 00:24:12,159

it's very slow deliberate very clunky

727

00:24:16,470 --> 00:24:14,400

not the best and potentially as much as

728

00:24:18,149 --> 00:24:16,480

we think they look advanced that's the

729

00:24:20,149 --> 00:24:18,159

craft and the the equipment and

730

00:24:21,190 --> 00:24:20,159

technology we are seeing when these uaps

731

00:24:23,110 --> 00:24:21,200

appear

732

00:24:25,269 --> 00:24:23,120

and maybe orbs

733

00:24:26,950 --> 00:24:25,279

craft you know cigar shape triangles are

734

00:24:28,789 --> 00:24:26,960

just different variations like we send

735

00:24:30,950 --> 00:24:28,799

up to different planets depending on

736

00:24:32,870 --> 00:24:30,960

depending on their purpose but yeah just

737

00:24:33,909 --> 00:24:32,880

food for thought and i never made a note

738

00:24:35,830 --> 00:24:33,919

of that that was just something i

739

00:24:36,950 --> 00:24:35,840

thought of so hopefully that made sense

740

00:24:39,750 --> 00:24:36,960

to folks

741

00:24:41,669 --> 00:24:39,760

um gary and lou mentioned uh luke came

742

00:24:43,510 --> 00:24:41,679

on relatively quickly in the interview

743

00:24:44,870 --> 00:24:43,520

um he said he was a fan of gary's

744

00:24:47,110 --> 00:24:44,880

obviously he worked alongside him

745

00:24:48,310 --> 00:24:47,120

several in several different capacities

746

00:24:50,230 --> 00:24:48,320

and they said they were working on

747

00:24:52,230 --> 00:24:50,240

things to come out in the future

748

00:24:54,390 --> 00:24:52,240

in terms of more of an academic side of

749

00:24:56,789 --> 00:24:54,400

things so something to look forward to

750

00:24:58,230 --> 00:24:56,799

any hints and ideas than at what what

751
00:24:59,669 --> 00:24:58,240
they might be getting at there in terms

752
00:25:02,070 --> 00:24:59,679
of academia

753
00:25:03,590 --> 00:25:02,080
i i would go with probably we'll be

754
00:25:05,990 --> 00:25:03,600
seeing more papers come out studying

755
00:25:07,350 --> 00:25:06,000
these materials that is purported to be

756
00:25:10,549 --> 00:25:07,360
anomalous

757
00:25:13,430 --> 00:25:10,559
and probably at least we've heard a lot

758
00:25:15,750 --> 00:25:13,440
about biological studies and databases

759
00:25:18,630 --> 00:25:15,760
um especially through the skinwalker at

760
00:25:20,390 --> 00:25:18,640
the pentagon book and and the osap stuff

761
00:25:22,630 --> 00:25:20,400
i i think we might start seeing some

762
00:25:24,950 --> 00:25:22,640
more studies of that open up so you can

763
00:25:27,510 --> 00:25:24,960

actually read about them is gary on the

764

00:25:28,470 --> 00:25:27,520

galileo project

765

00:25:52,390 --> 00:25:28,480

i

766

00:25:55,510 --> 00:25:52,400

there you go that could also be an

767

00:25:59,110 --> 00:25:55,520

aspect of it too um lew says on the the

768

00:26:03,110 --> 00:25:59,120

15th of march as it was recorded the aoi

769

00:26:05,669 --> 00:26:03,120

msg um has had funding approved and sits

770

00:26:07,990 --> 00:26:05,679

under the under secretary of defense um

771

00:26:09,510 --> 00:26:08,000

lew didn't speak negatively on the aoi

772

00:26:10,549 --> 00:26:09,520

msg than

773

00:26:12,230 --> 00:26:10,559

does this

774

00:26:13,350 --> 00:26:12,240

mark a turning point that that

775

00:26:15,029 --> 00:26:13,360

department

776
00:26:17,269 --> 00:26:15,039
is happening and

777
00:26:19,750 --> 00:26:17,279
we just have to

778
00:26:21,029 --> 00:26:19,760
let it be and work with it

779
00:26:23,430 --> 00:26:21,039
in terms of

780
00:26:25,029 --> 00:26:23,440
do i mean we have a legislation update

781
00:26:26,230 --> 00:26:25,039
in this we can jump into that now if you

782
00:26:28,230 --> 00:26:26,240
want and kind of yeah yeah it might be a

783
00:26:31,350 --> 00:26:28,240
good place to bring it in yeah cool nice

784
00:26:33,110 --> 00:26:31,360
um yeah so on the 15th um

785
00:26:37,350 --> 00:26:33,120
biden president joe biden signed the

786
00:26:38,870 --> 00:26:37,360
intelligence authorization act 2022 um

787
00:26:40,789 --> 00:26:38,880
or the omnibus spending bill i should

788
00:26:43,190 --> 00:26:40,799

say it was signed into law and it

789

00:26:45,269 --> 00:26:43,200

requires a couple of things one

790

00:26:47,350 --> 00:26:45,279

data sharing immediately with the navy

791

00:26:49,830 --> 00:26:47,360

uap task force and the national air and

792

00:26:51,990 --> 00:26:49,840

space intelligence center which is based

793

00:26:53,909 --> 00:26:52,000

at wright-patterson air force base if

794

00:26:55,110 --> 00:26:53,919

your hackles go up at the words air

795

00:26:57,909 --> 00:26:55,120

force you're doing this subject

796

00:27:00,310 --> 00:26:57,919

correctly um and also to include

797

00:27:02,549 --> 00:27:00,320

quarterly reports so that passed so we

798

00:27:04,230 --> 00:27:02,559

can now expect those the the first

799

00:27:07,029 --> 00:27:04,240

report and bear in mind this will be a

800

00:27:09,029 --> 00:27:07,039

classified report to the armed services

801
00:27:12,230 --> 00:27:09,039
and intelligence committees that will

802
00:27:13,990 --> 00:27:12,240
come on the 13th of june 2022 under the

803
00:27:16,870 --> 00:27:14,000
jill brand amendment which the correct

804
00:27:19,190 --> 00:27:16,880
term for that is pl11781

805
00:27:20,710 --> 00:27:19,200
it's a big mouthful um that's what

806
00:27:22,470 --> 00:27:20,720
passed over christmas

807
00:27:25,750 --> 00:27:22,480
we'll be looking at a classified

808
00:27:28,149 --> 00:27:25,760
briefing on around the the end of this

809
00:27:30,070 --> 00:27:28,159
month around the 28th of march and then

810
00:27:31,549 --> 00:27:30,080
the first public report that we'll see

811
00:27:33,110 --> 00:27:31,559
from uh

812
00:27:35,750 --> 00:27:33,120
11718

813
00:27:37,350 --> 00:27:35,760

is will be at halloween the 31st of

814

00:27:38,870 --> 00:27:37,360

october

815

00:27:41,110 --> 00:27:38,880

there were a couple of other interesting

816

00:27:42,630 --> 00:27:41,120

things in in that bill that was a

817

00:27:44,710 --> 00:27:42,640

strengthening protections for ic

818

00:27:47,510 --> 00:27:44,720

whistleblowers icb intelligence

819

00:27:48,950 --> 00:27:47,520

community so that would maybe apply to

820

00:27:50,310 --> 00:27:48,960

some of these people that we are hoping

821

00:27:52,389 --> 00:27:50,320

will come out of the woodwork and start

822

00:27:53,909 --> 00:27:52,399

talking about this it'll give them some

823

00:27:55,350 --> 00:27:53,919

kind of apparatus and protection to

824

00:27:57,430 --> 00:27:55,360

start doing that

825

00:27:59,990 --> 00:27:57,440

and also there's a new program office

826
00:28:01,190 --> 00:28:00,000
for commercial geospatial data

827
00:28:02,549 --> 00:28:01,200
which it's a bit of a mouthful but

828
00:28:04,710 --> 00:28:02,559
basically it means that the national

829
00:28:07,350 --> 00:28:04,720
reconnaissance office and the national

830
00:28:08,310 --> 00:28:07,360
geospatial intelligence office

831
00:28:10,710 --> 00:28:08,320
are

832
00:28:12,470 --> 00:28:10,720
planning to establish

833
00:28:14,710 --> 00:28:12,480
an office that is responsible for

834
00:28:16,630 --> 00:28:14,720
gathering data from commercial companies

835
00:28:18,549 --> 00:28:16,640
of from things like satellites they're

836
00:28:19,990 --> 00:28:18,559
calling it geo int

837
00:28:22,149 --> 00:28:20,000
so

838
00:28:23,909 --> 00:28:22,159

companies in private aerospace putting

839

00:28:26,230 --> 00:28:23,919

satellites in the air taking certain

840

00:28:28,950 --> 00:28:26,240

readings all of that data will also go

841

00:28:31,990 --> 00:28:28,960

to into this office and i imagine that

842

00:28:33,909 --> 00:28:32,000

will be invaluable to the search for uap

843

00:28:35,830 --> 00:28:33,919

excellent thank you and some good dates

844

00:28:37,590 --> 00:28:35,840

to mark on your calendar there as well

845

00:28:39,430 --> 00:28:37,600

uh we can guarantee we'll have some

846

00:28:41,430 --> 00:28:39,440

breakdowns breaking news updates out on

847

00:28:42,710 --> 00:28:41,440

those those dates for you if there's

848

00:28:44,149 --> 00:28:42,720

there's stuff to talk about which i'm

849

00:28:45,669 --> 00:28:44,159

sure there will be regardless even if

850

00:28:48,070 --> 00:28:45,679

it's language and

851

00:28:50,389 --> 00:28:48,080

putting a fine tooth comb over the the

852

00:28:52,389 --> 00:28:50,399

details on there as well um a few more

853

00:28:54,070 --> 00:28:52,399

things from the interview one one for me

854

00:28:55,269 --> 00:28:54,080

that i would encourage people if you

855

00:28:57,190 --> 00:28:55,279

weren't going to go and watch the full

856

00:28:58,470 --> 00:28:57,200

thing especially there was one bit where

857

00:29:00,870 --> 00:28:58,480

gary nolan was talking about

858

00:29:02,710 --> 00:29:00,880

investigating the atomic structure of

859

00:29:04,950 --> 00:29:02,720

potential bodies that may or may not be

860

00:29:06,389 --> 00:29:04,960

recovered from from crashes to to

861

00:29:07,350 --> 00:29:06,399

investigate

862

00:29:09,510 --> 00:29:07,360

how

863

00:29:12,470 --> 00:29:09,520

you would work out if they're if they're

864

00:29:13,990 --> 00:29:12,480

human or not um and i go and watch what

865

00:29:15,750 --> 00:29:14,000

gary says it's pretty interesting it's

866

00:29:17,350 --> 00:29:15,760

very much speculative and just this is

867

00:29:21,350 --> 00:29:17,360

what i would do it's not what he has

868

00:29:23,510 --> 00:29:21,360

done so he says um but lou is watching

869

00:29:25,029 --> 00:29:23,520

it and i think the body language lou is

870

00:29:27,350 --> 00:29:25,039

pretty interested and intrigued at what

871

00:29:29,190 --> 00:29:27,360

gary was saying and i mean you could

872

00:29:30,470 --> 00:29:29,200

probably really look into it and be like

873

00:29:32,549 --> 00:29:30,480

lewis making sure he doesn't see

874

00:29:34,230 --> 00:29:32,559

anything untoward here i don't think lou

875

00:29:36,230 --> 00:29:34,240

gives much away in terms of he doesn't

876

00:29:37,510 --> 00:29:36,240

flinch or smile or wink or anything at

877

00:29:39,750 --> 00:29:37,520

the camera but

878

00:29:41,830 --> 00:29:39,760

lube is watching it pretty intently and

879

00:29:43,590 --> 00:29:41,840

um so go and watch that little bit of

880

00:29:45,750 --> 00:29:43,600

body language as as gaddy's talking

881

00:29:48,549 --> 00:29:45,760

about how you would examine

882

00:29:50,549 --> 00:29:48,559

any potential body um i think it was off

883

00:29:52,549 --> 00:29:50,559

the back of earlier in the show they had

884

00:29:54,630 --> 00:29:52,559

talked about the atacama body that of

885

00:29:56,389 --> 00:29:54,640

course found out that's right it was a

886

00:29:58,310 --> 00:29:56,399

skeleton of a humanoid little baby

887

00:30:00,710 --> 00:29:58,320

essentially more than likely um from

888

00:30:02,789 --> 00:30:00,720

some time ago um

889

00:30:04,149 --> 00:30:02,799

and and just to round off the last thing

890

00:30:05,350 --> 00:30:04,159

in the interview that i thought was was

891

00:30:07,350 --> 00:30:05,360

pretty interesting and it's something

892

00:30:09,110 --> 00:30:07,360

i've brought up before and i suppose it

893

00:30:12,389 --> 00:30:09,120

depends where you land in the

894

00:30:14,310 --> 00:30:12,399

conversation in terms of conspiracy and

895

00:30:16,070 --> 00:30:14,320

and trust in the government or not and

896

00:30:17,110 --> 00:30:16,080

other people as to how you might feel

897

00:30:18,710 --> 00:30:17,120

about this

898

00:30:20,470 --> 00:30:18,720

low made the comment that not everyone

899

00:30:21,669 --> 00:30:20,480

with a security clearance is trying to

900

00:30:24,389 --> 00:30:21,679

deceive you

901
00:30:27,110 --> 00:30:24,399
and hit this notice too yeah i was i've

902
00:30:28,630 --> 00:30:27,120
put my notice exactly people forget that

903
00:30:29,909 --> 00:30:28,640
many of the folks coming out of these

904
00:30:32,310 --> 00:30:29,919
briefings

905
00:30:33,430 --> 00:30:32,320
are leaving very highly classified

906
00:30:35,510 --> 00:30:33,440
briefings

907
00:30:37,750 --> 00:30:35,520
and they're probably calling home to to

908
00:30:39,830 --> 00:30:37,760
check on how the kids are or they're

909
00:30:41,510 --> 00:30:39,840
calling up a care home to find out how

910
00:30:43,430 --> 00:30:41,520
their elderly relatives getting along

911
00:30:45,269 --> 00:30:43,440
just now if they had their meds how they

912
00:30:47,269 --> 00:30:45,279
coping to some kind of treatment they go

913
00:30:49,110 --> 00:30:47,279

home and they probably ordered domino's

914

00:30:51,590 --> 00:30:49,120

pizza or papa john's or whatever your

915

00:30:54,149 --> 00:30:51,600

local pizza place is after a break they

916

00:30:55,669 --> 00:30:54,159

go to disneyland for holiday and these

917

00:30:58,149 --> 00:30:55,679

are the shadowy figures that people

918

00:30:59,669 --> 00:30:58,159

refer to and i think it's like no doubt

919

00:31:01,430 --> 00:30:59,679

there are some of those classic

920

00:31:03,350 --> 00:31:01,440

hollywood type

921

00:31:04,950 --> 00:31:03,360

people in the halls of government as we

922

00:31:06,470 --> 00:31:04,960

hear that are trying to do bad and

923

00:31:09,350 --> 00:31:06,480

trying to you know derail the

924

00:31:11,990 --> 00:31:09,360

conversation and keep things covered up

925

00:31:13,350 --> 00:31:12,000

but you can't think everyone is and if

926

00:31:16,070 --> 00:31:13,360

you're going to use that blanket term

927

00:31:19,110 --> 00:31:16,080

the government it covers too much um so

928

00:31:20,470 --> 00:31:19,120

i do think you have to i think i anyway

929

00:31:21,909 --> 00:31:20,480

you don't have to that's wrong i can't

930

00:31:23,830 --> 00:31:21,919

tell you what to do but

931

00:31:25,830 --> 00:31:23,840

i've got faith there are some people

932

00:31:27,669 --> 00:31:25,840

whether they are in intelligence or

933

00:31:29,750 --> 00:31:27,679

counterintelligence or their military or

934

00:31:32,230 --> 00:31:29,760

navy or police

935

00:31:33,750 --> 00:31:32,240

air pilot air force pilot civilians some

936

00:31:36,549 --> 00:31:33,760

are good some are bad some are in the

937

00:31:38,710 --> 00:31:36,559

middle somewhere but they do a role and

938

00:31:41,350 --> 00:31:38,720

and again if you're just going to take

939

00:31:42,950 --> 00:31:41,360

everyone as being a liar then you're not

940

00:31:45,430 --> 00:31:42,960

going to get far in the subject other

941

00:31:46,710 --> 00:31:45,440

than having your own experiences so

942

00:31:48,389 --> 00:31:46,720

it's just a little bit of food for

943

00:31:50,950 --> 00:31:48,399

thought for people because we're in a

944

00:31:52,789 --> 00:31:50,960

time where we are getting more and more

945

00:31:55,909 --> 00:31:52,799

people coming forward to have those

946

00:31:57,430 --> 00:31:55,919

conversations most recently john ramirez

947

00:31:58,950 --> 00:31:57,440

actually not most recently and what

948

00:32:01,190 --> 00:31:58,960

we're going to talk about next but john

949

00:32:02,470 --> 00:32:01,200

ramirez obviously most notably came out

950

00:32:03,509 --> 00:32:02,480

quite recently done a lot of interviews

951
00:32:04,710 --> 00:32:03,519
and talked about a lot of really

952
00:32:06,630 --> 00:32:04,720
interesting

953
00:32:08,549 --> 00:32:06,640
ideas some from a place of knowledge

954
00:32:10,789 --> 00:32:08,559
some pure speculation

955
00:32:12,789 --> 00:32:10,799
others met somewhere in the middle it

956
00:32:14,149 --> 00:32:12,799
would appear um

957
00:32:15,830 --> 00:32:14,159
and like you say dan with this new

958
00:32:18,070 --> 00:32:15,840
legislation having

959
00:32:20,389 --> 00:32:18,080
protection for whistleblowers from the

960
00:32:22,549 --> 00:32:20,399
iec community coming out there's a

961
00:32:23,350 --> 00:32:22,559
chance we're going to get more of that

962
00:33:07,430 --> 00:32:23,360
i

963
00:33:09,590 --> 00:33:07,440

people that

964

00:33:11,590 --> 00:33:09,600

have done the cover-up may have a reason

965

00:33:13,110 --> 00:33:11,600

they feel is justified um this comes

966

00:33:14,549 --> 00:33:13,120

back to the whole talk about the ufo

967

00:33:16,549 --> 00:33:14,559

community you know it's made up of

968

00:33:17,750 --> 00:33:16,559

people we all have individual desires no

969

00:33:20,870 --> 00:33:17,760

two people are the same we all have

970

00:33:22,549 --> 00:33:20,880

different beliefs so the sooner that you

971

00:33:24,470 --> 00:33:22,559

know people split up that community and

972

00:33:26,230 --> 00:33:24,480

start thinking of us all as just people

973

00:33:28,230 --> 00:33:26,240

um the same with the world at large i

974

00:33:31,190 --> 00:33:28,240

think i think the better we'll learn to

975

00:33:33,110 --> 00:33:31,200

work with each other a bit more um yeah

976

00:33:35,509 --> 00:33:33,120

but dan you and i are very different in

977

00:33:37,909 --> 00:33:35,519

a lot of ways and even in the ufo

978

00:33:39,269 --> 00:33:37,919

conversation like you come from a very

979

00:33:40,710 --> 00:33:39,279

different place

980

00:33:42,470 --> 00:33:40,720

there are places we definitely meet in

981

00:33:44,310 --> 00:33:42,480

the middle 100 percent people hear that

982

00:33:46,549 --> 00:33:44,320

but there's a lot of stuff where you've

983

00:33:47,750 --> 00:33:46,559

got a real interest and i'm like meh and

984

00:33:49,750 --> 00:33:47,760

there's stuff that i've got more of an

985

00:33:52,149 --> 00:33:49,760

interest in where you're like yeah okay

986

00:33:53,590 --> 00:33:52,159

but and it's again you just have to okay

987

00:33:55,750 --> 00:33:53,600

cool i hear what you're saying but i

988

00:33:57,269 --> 00:33:55,760

think this and you kind of change and

989

00:33:59,830 --> 00:33:57,279

your opinion should be fluid and kind of

990

00:34:01,509 --> 00:33:59,840

mold as you can as you grow if you see

991

00:34:03,190 --> 00:34:01,519

using your word from earlier like we

992

00:34:04,549 --> 00:34:03,200

never you know when we talk about these

993

00:34:06,630 --> 00:34:04,559

things we're never attacking each other

994

00:34:07,990 --> 00:34:06,640

personally right like

995

00:34:09,829 --> 00:34:08,000

what we think of each other people is

996

00:34:11,669 --> 00:34:09,839

totally separate i mean unless there's a

997

00:34:13,589 --> 00:34:11,679

dialogue going on in your head that i i

998

00:34:15,109 --> 00:34:13,599

am unaware of there's always there's

999

00:34:16,710 --> 00:34:15,119

always a second dialogue going on in my

1000

00:34:17,510 --> 00:34:16,720

head but you know what i'm getting at

1001
00:34:19,669 --> 00:34:17,520
100

1002
00:34:20,869 --> 00:34:19,679
do not take this personally uh we're all

1003
00:34:23,190 --> 00:34:20,879
on the same side trying to figure this

1004
00:34:24,389 --> 00:34:23,200
out so we should uh learn to identify

1005
00:34:27,030 --> 00:34:24,399
our allies

1006
00:34:28,869 --> 00:34:27,040
yeah that's it um the

1007
00:34:31,589 --> 00:34:28,879
seguing into that roughly uh project

1008
00:34:33,510 --> 00:34:31,599
unity had an interview that just sorry

1009
00:34:35,909 --> 00:34:33,520
one more thing just because

1010
00:34:37,750 --> 00:34:35,919
gary in the interview um

1011
00:34:39,909 --> 00:34:37,760
recommended some books

1012
00:34:41,190 --> 00:34:39,919
uh that people should read and then gary

1013
00:34:43,270 --> 00:34:41,200

will be able to open up a bit more on

1014

00:34:44,790 --> 00:34:43,280

the conversation those two books were by

1015

00:34:47,270 --> 00:34:44,800

richard dawkins they were the selfish

1016

00:34:48,950 --> 00:34:47,280

gene and the blind watchmaker so if you

1017

00:34:50,230 --> 00:34:48,960

have read them and you have any ideas

1018

00:34:51,750 --> 00:34:50,240

give us a shout but i'm going to be

1019

00:34:53,030 --> 00:34:51,760

picking up those soon and i'll i'll have

1020

00:34:54,629 --> 00:34:53,040

a read

1021

00:34:55,750 --> 00:34:54,639

i think i'm getting better at this stan

1022

00:34:57,190 --> 00:34:55,760

can you just because people will have

1023

00:34:58,950 --> 00:34:57,200

heard that and when oh oh there was

1024

00:35:00,069 --> 00:34:58,960

recommendations just repeat those books

1025

00:35:02,470 --> 00:35:00,079

for us again

1026

00:35:04,390 --> 00:35:02,480

the selfish gene and

1027

00:35:07,190 --> 00:35:04,400

then a separate book the blind

1028

00:35:09,109 --> 00:35:07,200

watchmaker both by richard dawkins there

1029

00:35:11,910 --> 00:35:09,119

you go cool um

1030

00:35:13,990 --> 00:35:11,920

so yeah project unity jay over there had

1031

00:35:16,150 --> 00:35:14,000

uh who's been quiet for a while

1032

00:35:18,230 --> 00:35:16,160

announced he had well what he said at

1033

00:35:20,470 --> 00:35:18,240

first was he had a huge interview that

1034

00:35:22,790 --> 00:35:20,480

um bigger than chris melon was the the

1035

00:35:25,589 --> 00:35:22,800

hype and it was let's be honest um

1036

00:35:27,990 --> 00:35:25,599

admiral bobby ray inman who has

1037

00:35:29,750 --> 00:35:28,000

quite the background when you when you

1038

00:35:31,349 --> 00:35:29,760

look at what his former positions have

1039

00:35:33,589 --> 00:35:31,359

been the organizations he's worked in

1040

00:35:36,870 --> 00:35:33,599

within government and it goes back quite

1041

00:35:39,589 --> 00:35:36,880

some time um admiral inman is is 90

1042

00:35:41,670 --> 00:35:39,599

years of age now so i don't think he's

1043

00:35:44,550 --> 00:35:41,680

done many interviews i think the most

1044

00:35:46,950 --> 00:35:44,560

notable recent one was 1989 i think in

1045

00:35:49,670 --> 00:35:46,960

many of the conversations i had seen so

1046

00:35:51,030 --> 00:35:49,680

yeah you're looking at like i was three

1047

00:35:54,630 --> 00:35:51,040

you know so

1048

00:35:57,109 --> 00:35:54,640

you're going back 33 30 almost 35 years

1049

00:35:59,510 --> 00:35:57,119

to when he really last spoke out on on

1050

00:36:01,030 --> 00:35:59,520

the topic in conversation and i'm

1051

00:36:03,109 --> 00:36:01,040

probably getting this slightly wrong

1052

00:36:04,870 --> 00:36:03,119

please look it up yourself but i i

1053

00:36:06,550 --> 00:36:04,880

believe even then it was a a

1054

00:36:08,390 --> 00:36:06,560

conversation that leaked that wasn't

1055

00:36:10,470 --> 00:36:08,400

meant to be recorded on the topic of

1056

00:36:12,630 --> 00:36:10,480

ufos that that he was involved and he

1057

00:36:14,310 --> 00:36:12,640

was named on so he's not necessarily

1058

00:36:16,790 --> 00:36:14,320

someone that's that's been out and about

1059

00:36:18,790 --> 00:36:16,800

in the past jumping on various different

1060

00:36:20,710 --> 00:36:18,800

radio shows or tv programs as it would

1061

00:36:23,670 --> 00:36:20,720

have been back in the 70s and 80s and

1062

00:36:25,510 --> 00:36:23,680

90s talking about the ufo subject it

1063

00:36:28,950 --> 00:36:25,520

seems he did have an involvement no

1064

00:36:30,630 --> 00:36:28,960

reportedly in many many different ways

1065

00:36:32,390 --> 00:36:30,640

the interview just happened or just

1066

00:36:34,630 --> 00:36:32,400

aired last night i've not had the chance

1067

00:36:37,270 --> 00:36:34,640

to to watch it myself i believe it's

1068

00:36:39,030 --> 00:36:37,280

only an hour or so long um it's just

1069

00:36:41,829 --> 00:36:39,040

just shy of an hour i think about 51

1070

00:36:43,990 --> 00:36:41,839

minutes yeah and that probably reflects

1071

00:36:45,589 --> 00:36:44,000

and i again like any of those other

1072

00:36:48,230 --> 00:36:45,599

interviewers go and watch it yourself

1073

00:36:50,550 --> 00:36:48,240

and make up your own mind um but jay

1074

00:36:53,030 --> 00:36:50,560

himself i've seen comment on on his live

1075

00:36:55,510 --> 00:36:53,040

chat and from some of the people in the

1076

00:36:57,589 --> 00:36:55,520

that ufo podcast discord channel who had

1077

00:36:59,589 --> 00:36:57,599

watched it and commented it was a bit of

1078

00:37:00,870 --> 00:36:59,599

an awkward one again this has maybe been

1079

00:37:02,710 --> 00:37:00,880

the theme of the last week for some of

1080

00:37:04,950 --> 00:37:02,720

these interviews uh as it seems the

1081

00:37:06,630 --> 00:37:04,960

guest wasn't necessarily playing ball in

1082

00:37:09,030 --> 00:37:06,640

terms of the questions

1083

00:37:10,790 --> 00:37:09,040

a lot of people in advance thought

1084

00:37:13,109 --> 00:37:10,800

admiral inman was going to be coming out

1085

00:37:15,990 --> 00:37:13,119

and having a conversation openly about

1086

00:37:17,349 --> 00:37:16,000

ufos and the history and his involvement

1087

00:37:19,750 --> 00:37:17,359

and it seems

1088

00:37:21,030 --> 00:37:19,760

the the takeaway headline from myself

1089

00:37:21,990 --> 00:37:21,040

and i know you've got to take away dan

1090

00:37:23,990 --> 00:37:22,000

as well

1091

00:37:25,349 --> 00:37:24,000

from many people including jay himself

1092

00:37:27,670 --> 00:37:25,359

who said yeah it was a little bit you

1093

00:37:29,510 --> 00:37:27,680

know awkward and not what he expected

1094

00:37:32,390 --> 00:37:29,520

admiral inman more or less brushed off

1095

00:37:34,069 --> 00:37:32,400

the subject as being the navy

1096

00:37:36,870 --> 00:37:34,079

misidentifications

1097

00:37:37,670 --> 00:37:36,880

and adversarial drone technology

1098

00:37:40,230 --> 00:37:37,680

and

1099

00:37:41,589 --> 00:37:40,240

there was also a body language aspect of

1100

00:37:43,349 --> 00:37:41,599

it then i've seen a few people comment

1101
00:37:45,829 --> 00:37:43,359
on that that was something you picked up

1102
00:37:48,630 --> 00:37:45,839
for sure the the interview you know jay

1103
00:37:51,190 --> 00:37:48,640
speaks to admiral inman about a whole

1104
00:37:52,230 --> 00:37:51,200
bunch of things like his career

1105
00:37:53,829 --> 00:37:52,240
and

1106
00:37:55,349 --> 00:37:53,839
about halfway through the interview it

1107
00:37:56,710 --> 00:37:55,359
switches to be

1108
00:37:59,109 --> 00:37:56,720
covering uap

1109
00:38:01,030 --> 00:37:59,119
and admiral inman's body language

1110
00:38:02,550 --> 00:38:01,040
visibly changes he he goes from very

1111
00:38:04,390 --> 00:38:02,560
relaxed and he sits up and the arms

1112
00:38:05,910 --> 00:38:04,400
cross and he's totally closed off and as

1113
00:38:07,670 --> 00:38:05,920

soon as he did it i thought oh god the

1114

00:38:09,109 --> 00:38:07,680

community is going to have a a great

1115

00:38:11,030 --> 00:38:09,119

i've used that word again community

1116

00:38:12,870 --> 00:38:11,040

people are going to have a great time

1117

00:38:15,109 --> 00:38:12,880

with uh analyzing this body language

1118

00:38:16,790 --> 00:38:15,119

because i think it's quite telling he

1119

00:38:19,829 --> 00:38:16,800

essentially just denied everything and

1120

00:38:21,990 --> 00:38:19,839

food the subject interviews like this

1121

00:38:23,750 --> 00:38:22,000

it's best to

1122

00:38:25,510 --> 00:38:23,760

not have any expectations and just be

1123

00:38:26,790 --> 00:38:25,520

thankful that we're getting this person

1124

00:38:28,790 --> 00:38:26,800

on record

1125

00:38:31,349 --> 00:38:28,800

that that was the bottom line for me so

1126

00:38:33,670 --> 00:38:31,359

i'm not too perturbed that he denied

1127

00:38:35,510 --> 00:38:33,680

everything it's more for me about making

1128

00:38:37,910 --> 00:38:35,520

sure that we get this person on record

1129

00:38:40,230 --> 00:38:37,920

saying whatever he's going to say

1130

00:38:42,870 --> 00:38:40,240

yep and and and the annuals of history

1131

00:38:45,190 --> 00:38:42,880

down the line maybe those comments turn

1132

00:38:46,710 --> 00:38:45,200

out to be correct false or or somewhere

1133

00:38:48,630 --> 00:38:46,720

in the middle which is always probably

1134

00:38:50,310 --> 00:38:48,640

more likely to be the the case in this

1135

00:38:52,310 --> 00:38:50,320

subject as well but again the link for

1136

00:38:54,790 --> 00:38:52,320

that will be in the the conversation and

1137

00:38:57,270 --> 00:38:54,800

the conversation and the description of

1138

00:38:58,230 --> 00:38:57,280

this uh of this conversation jesus i

1139

00:39:00,550 --> 00:38:58,240
just really want to see the word

1140

00:39:02,550 --> 00:39:00,560
conversation folks

1141

00:39:04,470 --> 00:39:02,560
conversation yeah because that's all

1142

00:39:06,870 --> 00:39:04,480
this is a conversation folks don't get

1143

00:39:09,349 --> 00:39:06,880
upset um but yeah project unity check

1144

00:39:10,950 --> 00:39:09,359
that out admiral bobby ray inman um a

1145

00:39:13,750 --> 00:39:10,960
relatively short interview especially

1146

00:39:15,270 --> 00:39:13,760
for for jay's style and channel go check

1147

00:39:16,230 --> 00:39:15,280
that one out and let us know your

1148

00:39:17,670 --> 00:39:16,240
thoughts

1149

00:39:20,150 --> 00:39:17,680
that's pretty much it from an interview

1150

00:39:21,510 --> 00:39:20,160
point of view for for the last week um i

1151
00:39:24,710 --> 00:39:21,520
recommend people go and check all of

1152
00:39:26,790 --> 00:39:24,720
those out um a lot to digest some

1153
00:39:29,270 --> 00:39:26,800
controversial stuff some really deep

1154
00:39:31,750 --> 00:39:29,280
conversation maybe some laundry that had

1155
00:39:33,829 --> 00:39:31,760
to be aired and and it happened you know

1156
00:39:35,589 --> 00:39:33,839
kind of on on different channels or

1157
00:39:37,829 --> 00:39:35,599
didn't happen as some of them went but

1158
00:39:39,430 --> 00:39:37,839
it's the laundry i think just to kind of

1159
00:39:41,670 --> 00:39:39,440
put a pin in it

1160
00:39:43,349 --> 00:39:41,680
it's it's this juxtaposition that we can

1161
00:39:45,349 --> 00:39:43,359
be talking about aliens and eating and

1162
00:39:47,030 --> 00:39:45,359
coming here and being all you know we're

1163
00:39:48,069 --> 00:39:47,040

going to work with aliens from another

1164

00:39:50,390 --> 00:39:48,079

planet

1165

00:39:51,670 --> 00:39:50,400

when some people can't even get over the

1166

00:39:53,670 --> 00:39:51,680

fact that there are other people in

1167

00:39:54,630 --> 00:39:53,680

other countries with different beliefs

1168

00:39:56,870 --> 00:39:54,640

and

1169

00:39:58,230 --> 00:39:56,880

it's just to say the community or people

1170

00:40:00,069 --> 00:39:58,240

in the community need to take a look in

1171

00:40:01,589 --> 00:40:00,079

the mirror and think about really what

1172

00:40:03,349 --> 00:40:01,599

they want in the future because if

1173

00:40:05,190 --> 00:40:03,359

aliens came down would they be able to

1174

00:40:07,349 --> 00:40:05,200

stomach working with them would they

1175

00:40:08,790 --> 00:40:07,359

like that or do they just like the idea

1176

00:40:10,870 --> 00:40:08,800

that they have in their heads of this

1177

00:40:13,190 --> 00:40:10,880

you know sci-fi narrative you know we we

1178

00:40:16,069 --> 00:40:13,200

need to think about how we treat others

1179

00:40:18,309 --> 00:40:16,079

here before we can fully embrace looking

1180

00:40:20,390 --> 00:40:18,319

outside of humanity

1181

00:40:22,230 --> 00:40:20,400

and that's again not to go for everyone

1182

00:40:23,910 --> 00:40:22,240

some people are great but there's just

1183

00:40:24,950 --> 00:40:23,920

that weird juxtaposition that keeps

1184

00:40:26,390 --> 00:40:24,960

coming up

1185

00:40:28,390 --> 00:40:26,400

yeah and but

1186

00:40:30,150 --> 00:40:28,400

before we start sounding like guardians

1187

00:40:31,670 --> 00:40:30,160

of the conversation folks you don't take

1188

00:40:33,829 --> 00:40:31,680

anything you say with a pinch of salt

1189

00:40:35,589 --> 00:40:33,839

please but it would just be easier to

1190

00:40:37,190 --> 00:40:35,599

folks allowed other people to share

1191

00:40:38,870 --> 00:40:37,200

their opinions and decide whether or not

1192

00:40:41,430 --> 00:40:38,880

they wanted to to go along with that and

1193

00:40:43,910 --> 00:40:41,440

then move on and that that's it but

1194

00:40:45,430 --> 00:40:43,920

people get very argumentative um

1195

00:40:47,510 --> 00:40:45,440

speaking of which i've got joe morgier

1196

00:40:49,510 --> 00:40:47,520

coming on uh hopefully next week

1197

00:40:51,109 --> 00:40:49,520

to have joe won't mind me saying that um

1198

00:40:53,670 --> 00:40:51,119

to come on and have a chat about a few

1199

00:40:55,510 --> 00:40:53,680

different things so amazing

1200

00:40:56,390 --> 00:40:55,520

yeah joe likes to joe likes to get

1201

00:40:58,069 --> 00:40:56,400

involved in a few different

1202

00:40:59,670 --> 00:40:58,079

conversations doesn't he he won't mind

1203

00:41:00,710 --> 00:40:59,680

and um

1204

00:41:02,470 --> 00:41:00,720

it's great to go over all this kind of

1205

00:41:03,829 --> 00:41:02,480

stuff with him as well as to to where

1206

00:41:04,829 --> 00:41:03,839

he's at and he's got some really good

1207

00:41:06,950 --> 00:41:04,839

sources

1208

00:41:08,630 --> 00:41:06,960

um i was going to say allegedly but

1209

00:41:09,750 --> 00:41:08,640

definitely from from some of the claims

1210

00:41:11,589 --> 00:41:09,760

he makes and some of the people he

1211

00:41:13,670 --> 00:41:11,599

speaks to that'll be an interesting one

1212

00:41:15,430 --> 00:41:13,680

as well so yeah look forward to

1213

00:41:17,349 --> 00:41:15,440

bringing johan breaking the icr down

1214

00:41:19,270 --> 00:41:17,359

after some heavy conversation on other

1215

00:41:22,230 --> 00:41:19,280

people's conversation there's that word

1216

00:41:24,790 --> 00:41:22,240

again um and to wrap up dan uh john

1217

00:41:26,550 --> 00:41:24,800

greenwald the black vault uh no doubt

1218

00:41:29,670 --> 00:41:26,560

you are aware or have checked out his

1219

00:41:32,870 --> 00:41:29,680

website or twitter feed um

1220

00:41:35,829 --> 00:41:32,880

he done a little bit of foia ing as as

1221

00:41:38,470 --> 00:41:35,839

his life um that's what he does as a day

1222

00:41:40,550 --> 00:41:38,480

job and it's grueling and strenuous and

1223

00:41:42,390 --> 00:41:40,560

he gets a lot of um

1224

00:41:43,829 --> 00:41:42,400

a lot of nothing from that at times but

1225

00:41:46,069 --> 00:41:43,839

when he gets something good that tends

1226

00:41:50,309 --> 00:41:46,079

to be pretty good and it was picked up

1227

00:41:52,550 --> 00:41:50,319

on a yahoo vice and other other um

1228

00:41:54,870 --> 00:41:52,560

different media outlets as well that the

1229

00:41:57,270 --> 00:41:54,880

obama library is releasing some atep

1230

00:41:58,870 --> 00:41:57,280

articles down is that correct

1231

00:42:01,109 --> 00:41:58,880

that is correct

1232

00:42:04,390 --> 00:42:01,119

the word releasing is generous uh there

1233

00:42:05,829 --> 00:42:04,400

are 3 700 articles that that

1234

00:42:07,910 --> 00:42:05,839

will eventually be released through the

1235

00:42:10,230 --> 00:42:07,920

obama library the fact they exist there

1236

00:42:12,150 --> 00:42:10,240

is very surprising

1237

00:42:14,390 --> 00:42:12,160

unfortunately

1238

00:42:16,470 --> 00:42:14,400

john asked to do an on-site visit to

1239

00:42:17,670 --> 00:42:16,480

look at the unclassified material and

1240

00:42:20,630 --> 00:42:17,680

was told that they will take

1241

00:42:22,870 --> 00:42:20,640

approximately 16 years to prepare

1242

00:42:24,950 --> 00:42:22,880

so it's going to be a while he put out a

1243

00:42:26,790 --> 00:42:24,960

call for some officials to maybe help

1244

00:42:28,390 --> 00:42:26,800

him get this process moved along and who

1245

00:42:29,750 --> 00:42:28,400

knows there might be an expedition

1246

00:42:31,190 --> 00:42:29,760

process going on in the background for

1247

00:42:32,630 --> 00:42:31,200

this stuff we know there are some other

1248

00:42:33,670 --> 00:42:32,640

places who have documents that are

1249

00:42:35,430 --> 00:42:33,680

currently going through them at the

1250

00:42:37,589 --> 00:42:35,440

moment but

1251

00:42:39,990 --> 00:42:37,599

for me it's clear that foil work is

1252

00:42:41,750 --> 00:42:40,000

ongoing to get documents for these

1253

00:42:42,950 --> 00:42:41,760

programs behind the scenes so even when

1254

00:42:44,390 --> 00:42:42,960

that thing's happening there are

1255

00:42:46,390 --> 00:42:44,400

definitely people in those halls digging

1256

00:42:47,589 --> 00:42:46,400

up these awesome native documents for us

1257

00:42:49,349 --> 00:42:47,599

to eventually

1258

00:42:51,670 --> 00:42:49,359

see uh the the

1259

00:42:54,069 --> 00:42:51,680

un non-sensitive stuff

1260

00:42:57,109 --> 00:42:54,079

but there must be an overwhelming of

1261

00:42:58,630 --> 00:42:57,119

people asking for this stuff for this

1262

00:43:00,630 --> 00:42:58,640

much of a coordinated effort to be

1263

00:43:01,829 --> 00:43:00,640

happening with them and it's good that

1264

00:43:03,990 --> 00:43:01,839

it's coming from various different

1265

00:43:06,870 --> 00:43:04,000

places rather than having one gatekeeper

1266

00:43:09,349 --> 00:43:06,880

for the official government uh documents

1267

00:43:10,630 --> 00:43:09,359

they the obama library one of the nice

1268

00:43:12,390 --> 00:43:10,640

things about it is that they want it to

1269

00:43:14,230 --> 00:43:12,400

be an all digitized

1270

00:43:17,270 --> 00:43:14,240

library completely digitized so it will

1271

00:43:18,710 --> 00:43:17,280

eventually all be online tim burchard

1272

00:43:20,470 --> 00:43:18,720

congressman tim bishop we've seen him

1273

00:43:22,390 --> 00:43:20,480

pop up in the past in support of this

1274

00:43:25,270 --> 00:43:22,400

kind of uap initiative

1275

00:43:28,069 --> 00:43:25,280

he retweeted john and simply wrote keep

1276

00:43:31,589 --> 00:43:28,079

digging this is a cover-up

1277

00:43:33,750 --> 00:43:31,599

yeah i saw that online as well and

1278

00:43:35,910 --> 00:43:33,760

you wonder as again with what's going on

1279

00:43:38,230 --> 00:43:35,920

in the background with the the task

1280

00:43:41,109 --> 00:43:38,240

force old task force office being set up

1281

00:43:43,270 --> 00:43:41,119

the oi msg you know approvals funding

1282

00:43:45,589 --> 00:43:43,280

happening as a lot of this also in

1283

00:43:49,030 --> 00:43:45,599

response to the fact these organizations

1284

00:43:49,910 --> 00:43:49,040

senators and congressmen and women alike

1285

00:43:53,109 --> 00:43:49,920

are

1286

00:43:55,190 --> 00:43:53,119

themselves in the background and it's a

1287

00:43:57,349 --> 00:43:55,200

case of some of these organizations

1288

00:43:59,910 --> 00:43:57,359

trying to get in ahead of the game and

1289

00:44:01,510 --> 00:43:59,920

get through this documentation first and

1290

00:44:03,349 --> 00:44:01,520

unfortunately maybe some of it's getting

1291

00:44:05,349 --> 00:44:03,359

removed or redacted that we don't even

1292

00:44:07,030 --> 00:44:05,359

know but you know again just getting

1293

00:44:09,030 --> 00:44:07,040

ahead of things this i think has

1294

00:44:10,790 --> 00:44:09,040

something to do with the information and

1295

00:44:12,710 --> 00:44:10,800

data sharing that's been requested in

1296

00:44:14,950 --> 00:44:12,720

the legislation that's been passing they

1297

00:44:16,710 --> 00:44:14,960

need to hand over this stuff immediately

1298

00:44:18,630 --> 00:44:16,720

obviously between departments they don't

1299

00:44:20,390 --> 00:44:18,640

need to classify as much when they when

1300

00:44:22,550 --> 00:44:20,400

they're you know cleared to see these

1301

00:44:23,750 --> 00:44:22,560

certain things but in terms of going

1302

00:44:25,510 --> 00:44:23,760

through it it seems like they're going

1303

00:44:27,030 --> 00:44:25,520

through it once and kind of making

1304

00:44:28,710 --> 00:44:27,040

separate piles of stuff that's okay for

1305

00:44:31,109 --> 00:44:28,720

us to see and not um but rather than

1306

00:44:33,510 --> 00:44:31,119

releasing it as they go uh i i think

1307

00:44:35,109 --> 00:44:33,520

we'll just all see we'll see an 80

1308

00:44:36,870 --> 00:44:35,119

archive dump at some point of

1309

00:44:37,670 --> 00:44:36,880

unclassified material

1310

00:44:39,910 --> 00:44:37,680

yeah

1311

00:44:41,829 --> 00:44:39,920

and as always to finish up this

1312

00:44:44,309 --> 00:44:41,839

breakdown we've got a james webb update

1313

00:44:47,829 --> 00:44:44,319

don't we done and because the the

1314

00:44:51,190 --> 00:44:47,839

mirrors are 100 aligned now and we got

1315

00:44:53,109 --> 00:44:51,200

our first clear picture and so we've

1316

00:44:54,230 --> 00:44:53,119

come a long way in a couple of yeah

1317

00:44:55,910 --> 00:44:54,240

we've come a long way in a couple of

1318

00:44:57,430 --> 00:44:55,920

weeks from that bloody picture where

1319

00:44:59,109 --> 00:44:57,440

people were like oh my god is that the

1320

00:45:01,270 --> 00:44:59,119

quality we're going to get that's awful

1321

00:45:02,630 --> 00:45:01,280

it looks black and white and it's fuzzy

1322

00:45:05,270 --> 00:45:02,640

and we've got something pretty

1323

00:45:06,230 --> 00:45:05,280

incredible now yeah yeah absolutely um

1324

00:45:08,390 --> 00:45:06,240

you know the

1325

00:45:10,470 --> 00:45:08,400

the james webb telescope has a bunch of

1326
00:45:12,790 --> 00:45:10,480
different sensors what we saw aligned

1327
00:45:14,390 --> 00:45:12,800
was the the neocam it's called it's the

1328
00:45:16,230 --> 00:45:14,400
main observation camera and there are a

1329
00:45:18,150 --> 00:45:16,240
whole bunch of sensors around that that

1330
00:45:19,990 --> 00:45:18,160
they'll now kind of be tweaking to work

1331
00:45:21,270 --> 00:45:20,000
with that neocam sensor better over the

1332
00:45:22,470 --> 00:45:21,280
next few months

1333
00:45:24,390 --> 00:45:22,480
but

1334
00:45:26,790 --> 00:45:24,400
basically the telescope is performing at

1335
00:45:28,710 --> 00:45:26,800
or above expectations the image they

1336
00:45:30,230 --> 00:45:28,720
took was just an evaluation image to see

1337
00:45:31,829 --> 00:45:30,240
if it was all aligned

1338
00:45:32,950 --> 00:45:31,839

they focused on the one star that you

1339

00:45:34,309 --> 00:45:32,960

can see in the middle if you look at the

1340

00:45:36,710 --> 00:45:34,319

thumbnail if you're seeing this on

1341

00:45:38,150 --> 00:45:36,720

youtube you'll see that image uh and we

1342

00:45:38,950 --> 00:45:38,160

can link to it as well

1343

00:45:41,750 --> 00:45:38,960

um

1344

00:45:43,589 --> 00:45:41,760

but yeah they they focused on one star

1345

00:45:45,270 --> 00:45:43,599

and completely by coincidence the

1346

00:45:47,510 --> 00:45:45,280

telescope is so sensitive that we

1347

00:45:49,270 --> 00:45:47,520

actually saw a lot a

1348

00:45:50,470 --> 00:45:49,280

buttload of galaxies in the background

1349

00:45:52,069 --> 00:45:50,480

and you can kind of almost see the

1350

00:45:54,230 --> 00:45:52,079

spiral arms

1351
00:45:55,589 --> 00:45:54,240
and it's so good that i would expect

1352
00:45:57,030 --> 00:45:55,599
over the next couple of weeks that we'll

1353
00:45:58,790 --> 00:45:57,040
actually see some papers written about

1354
00:46:00,630 --> 00:45:58,800
the findings based on that evaluation

1355
00:46:02,870 --> 00:46:00,640
image we we don't even have all the

1356
00:46:05,190 --> 00:46:02,880
sensors kind of spitting out data to us

1357
00:46:05,990 --> 00:46:05,200
yet and and it's so so so exciting to

1358
00:46:08,309 --> 00:46:06,000
see

1359
00:46:11,510 --> 00:46:08,319
this coming from just uh yeah let's just

1360
00:46:12,790 --> 00:46:11,520
check it's working and uh yeah it is

1361
00:46:14,230 --> 00:46:12,800
outstandingly

1362
00:46:15,990 --> 00:46:14,240
and i think it's a nice place to end

1363
00:46:17,430 --> 00:46:16,000

there on on the conversation we've had

1364

00:46:18,630 --> 00:46:17,440

on this one talking about all those kind

1365

00:46:22,630 --> 00:46:18,640

of

1366

00:46:25,109 --> 00:46:22,640

communities within the ufo field and

1367

00:46:26,630 --> 00:46:25,119

subject that forget all that and what

1368

00:46:28,150 --> 00:46:26,640

we're looking at in terms of the subject

1369

00:46:30,069 --> 00:46:28,160

and just look at what we are looking at

1370

00:46:31,829 --> 00:46:30,079

out there in the reaches of space and

1371

00:46:33,750 --> 00:46:31,839

the things this telescope this year

1372

00:46:35,510 --> 00:46:33,760

might dig up for is not saying it's

1373

00:46:37,349 --> 00:46:35,520

going to you know confirm alien life on

1374

00:46:38,790 --> 00:46:37,359

another planet but we're going to

1375

00:46:40,470 --> 00:46:38,800

probably get some pretty incredible

1376

00:46:42,150 --> 00:46:40,480

images ones that

1377

00:46:43,510 --> 00:46:42,160

maybe do start getting some of those

1378

00:46:45,270 --> 00:46:43,520

those mainstream more of those

1379

00:46:46,630 --> 00:46:45,280

mainstream scientists because i got into

1380

00:46:47,829 --> 00:46:46,640

trouble off of a mainstream scientist

1381

00:46:50,230 --> 00:46:47,839

recently for saying that they aren't

1382

00:46:51,589 --> 00:46:50,240

involved when some of them are but maybe

1383

00:46:53,589 --> 00:46:51,599

more of those mainstream scientists

1384

00:46:54,790 --> 00:46:53,599

going maybe there's more out there and

1385

00:46:57,589 --> 00:46:54,800

there's a lot more that we could be

1386

00:46:59,910 --> 00:46:57,599

looking into um probably fair then yeah

1387

00:47:03,030 --> 00:46:59,920

absolutely you know it's fair to say

1388

00:47:05,030 --> 00:47:03,040

that we are looking in certain ways for

1389

00:47:07,349 --> 00:47:05,040

other signs of intelligent life it's

1390

00:47:09,829 --> 00:47:07,359

just that our idea of what that is right

1391

00:47:11,030 --> 00:47:09,839

now is fairly limited and the more we go

1392

00:47:14,790 --> 00:47:11,040

forward the more we seem to be

1393

00:47:16,309 --> 00:47:14,800

broadening what could be possible and

1394

00:47:18,230 --> 00:47:16,319

the exciting thing about james webb is

1395

00:47:20,950 --> 00:47:18,240

the stuff that we really don't know that

1396

00:47:22,230 --> 00:47:20,960

it's gonna even show us yet

1397

00:47:23,589 --> 00:47:22,240

four or five years we'll have some

1398

00:47:25,510 --> 00:47:23,599

revelations to talk about from this

1399

00:47:27,430 --> 00:47:25,520

thing but for now it's just a very very

1400

00:47:29,109 --> 00:47:27,440

cool piece of technology that's you know

1401
00:47:30,390 --> 00:47:29,119
shifting the paradigm in space studying

1402
00:47:32,230 --> 00:47:30,400
a little bit

1403
00:47:34,150 --> 00:47:32,240
absolutely and just to finish off folks

1404
00:47:35,750 --> 00:47:34,160
remember if you want to help out and one

1405
00:47:37,589 --> 00:47:35,760
of the listeners who set up a wonderful

1406
00:47:39,510 --> 00:47:37,599
organization where you can get a little

1407
00:47:42,270 --> 00:47:39,520
something back for donating and helping

1408
00:47:43,990 --> 00:47:42,280
out victims of the war in ukraine it's

1409
00:47:45,670 --> 00:47:44,000
www.bad

1410
00:47:47,349 --> 00:47:45,680
vlad.com

1411
00:47:49,030 --> 00:47:47,359
and the link will be in the description

1412
00:47:51,510 --> 00:47:49,040
again dan thank you very much for your

1413
00:47:54,790 --> 00:47:52,549

you know what

1414

00:47:56,390 --> 00:47:54,800

i i got to the meet button then to not

1415

00:47:58,870 --> 00:47:56,400

say i was on mute but i i clicked it

1416

00:48:00,630 --> 00:47:58,880

twice so i put myself back on me so i'll

1417

00:48:02,230 --> 00:48:00,640

give it a good i was on mute and thank

1418

00:48:04,069 --> 00:48:02,240

you for having me and

1419

00:48:06,230 --> 00:48:04,079

i'll catch you next time

1420

00:48:08,150 --> 00:48:06,240

that is all for this week's show thank

1421

00:48:10,230 --> 00:48:08,160

you very much for listening please

1422

00:48:12,870 --> 00:48:10,240

remember to leave the podcaster review

1423

00:48:15,190 --> 00:48:12,880

on your chosen platform you can like

1424

00:48:17,109 --> 00:48:15,200

retweet and subscribe that would all be

1425

00:48:19,270 --> 00:48:17,119

very much appreciated the shows are

1426

00:48:20,790 --> 00:48:19,280

being uploaded onto youtube as we speak

1427

00:48:23,270 --> 00:48:20,800

more and more you can sign up at

1428

00:48:25,990 --> 00:48:23,280

patreon.com forward slash that ufo

1429

00:48:28,230 --> 00:48:26,000

podcast to access shows ad free as well

1430

00:48:31,030 --> 00:48:28,240

please get in touch on twitter facebook

1431

00:48:34,710 --> 00:48:31,040

instagram that ufo podcast of course on

1432

00:48:36,630 --> 00:48:34,720

twitter it's at ufo uap am and again

1433

00:48:39,430 --> 00:48:36,640

folks as always keep looking up you

1434

00:49:00,390 --> 00:48:39,440

never know what you might see

1435

00:49:00,400 --> 00:49:06,490

i don't think he

1436

00:49:06,500 --> 00:49:15,430

[Music]

1437

00:49:40,710 --> 00:49:17,270

i can't imagine how it could've been any

1438

00:49:45,530 --> 00:49:42,069

they thought this was noise they thought

1439

00:49:54,770 --> 00:49:45,540

it was a dream thought it was my toys

1440

00:49:54,780 --> 00:50:04,630

[Music]

1441

00:50:04,640 --> 00:50:09,270

and what's that

1442

00:50:36,950 --> 00:50:14,630

[Music]

1443

00:50:45,030 --> 00:50:39,060

what's that

1444

00:50:46,870 --> 00:50:45,040

[Music]

1445

00:50:53,690 --> 00:50:46,880

it wasn't a tic tac and not quite a
