THE BREAKDOWN

CLASSIFIED UAP
REPORT RELEASED,
BRAZIL CONGRESSIONAL
UAP SESSION & MORE

1
00:00:00,000 --> 00:00:12,310

[Music]

2
00:00:17,029 --> 00:00:14,470

it was basically a cube with inside of

3
00:00:22,000 --> 00:00:17,039

sphere where the points of the cube

4
00:00:35,190 --> 00:00:31,260

[Music]

5
00:00:36,790 --> 00:00:35,200

[Applause]

6
00:00:39,030 --> 00:00:36,800

so this isn't anything that just is

7
00:00:46,630 --> 00:00:39,040

limited to the united states it's a

8
00:00:51,110 --> 00:00:48,790

hi everyone and welcome back to that ufo

9
00:00:53,189 --> 00:00:51,120

podcast it's your breakdown and probably

10
00:00:55,430 --> 00:00:53,199

the last one for the end of march short

11
00:00:57,590 --> 00:00:55,440

on any massive breaking news happening

12
00:00:58,869 --> 00:00:57,600

i've got dan joining me for this one dan

13
00:01:00,950 --> 00:00:58,879

welcome back

14

00:01:03,430 --> 00:01:00,960

hi uh good to be back

15

00:01:05,670 --> 00:01:03,440

as always as always yeah we've been busy

16

00:01:07,350 --> 00:01:05,680

the last few days it's been nice after

17

00:01:09,429 --> 00:01:07,360

it's felt like kind of six or seven

18

00:01:11,350 --> 00:01:09,439

weeks of kind of all over the place but

19

00:01:14,070 --> 00:01:11,360

i feel like i'm properly back in the

20

00:01:16,550 --> 00:01:14,080

groove now from early february and uh

21

00:01:18,310 --> 00:01:16,560

i've actually lined up five guests now

22

00:01:20,070 --> 00:01:18,320

coming up which i've not done for quite

23

00:01:22,230 --> 00:01:20,080

a while so i'm well ahead of the game

24

00:01:23,590 --> 00:01:22,240

folks heads are back in it hopefully you

25

00:01:26,390 --> 00:01:23,600

have not noticed much difference in

26

00:01:28,230 --> 00:01:26,400

terms of quality or anything dropping or

27

00:01:30,789 --> 00:01:28,240

i think it's been six days when we

28

00:01:32,630 --> 00:01:30,799

released a tom de long part 2.5 it was

29

00:01:34,230 --> 00:01:32,640

six days from the previous release of

30

00:01:36,630 --> 00:01:34,240

anything and normally but at least two a

31

00:01:38,069 --> 00:01:36,640

week so yeah and we had too close

32

00:01:39,990 --> 00:01:38,079

together there as well because we were a

33

00:01:41,749 --> 00:01:40,000

little late on the one before so yeah a

34

00:01:43,830 --> 00:01:41,759

little strange with the sketch schedules

35

00:01:45,830 --> 00:01:43,840

but you know it's nice to be back in the

36

00:01:48,389 --> 00:01:45,840

swing of things like you say absolutely

37

00:01:49,910 --> 00:01:48,399

we'll keep on top of it listen plenty to

38

00:01:51,510 --> 00:01:49,920

discuss in this breakdown as well the

39

00:01:53,749 --> 00:01:51,520

first one was about a breaking news

40

00:01:56,310 --> 00:01:53,759

wasn't it a couple of days ago john

41

00:01:58,310 --> 00:01:56,320

greenwald of the blackvault.com

42

00:02:00,550 --> 00:01:58,320

managed to get hold of the classified

43

00:02:02,950 --> 00:02:00,560

uap task force report that

44

00:02:04,230 --> 00:02:02,960

we had dropped on us last june

45

00:02:06,469 --> 00:02:04,240

um

46

00:02:08,949 --> 00:02:06,479

a little bit to discuss it's heavily

47

00:02:10,710 --> 00:02:08,959

redacted you know black strips

48

00:02:13,830 --> 00:02:10,720

everywhere and one of the most

49

00:02:16,869 --> 00:02:13,840

interesting pages is almost entirely

50

00:02:19,110 --> 00:02:16,879

black lines except the word the common

51
00:02:21,750 --> 00:02:19,120
shapes and like less common shapes or

52
00:02:22,949 --> 00:02:21,760
irregular shapes

53
00:02:24,630 --> 00:02:22,959
probably it would have been the most

54
00:02:25,990 --> 00:02:24,640
interesting page of the whole document

55
00:02:27,110 --> 00:02:26,000
potentially

56
00:02:28,470 --> 00:02:27,120
probably

57
00:02:29,750 --> 00:02:28,480
but yeah so why do you think that's

58
00:02:31,750 --> 00:02:29,760
redacted

59
00:02:33,190 --> 00:02:31,760
the shapes yeah yeah

60
00:02:34,630 --> 00:02:33,200
do you know what i'll give you the

61
00:02:36,070 --> 00:02:34,640
credit for this because you mentioned it

62
00:02:37,190 --> 00:02:36,080
first i've seen lots of people talking

63
00:02:38,790 --> 00:02:37,200

online about

64

00:02:40,470 --> 00:02:38,800

you know say even like the sign the

65

00:02:42,949 --> 00:02:40,480

petition stuff let's get this

66

00:02:45,990 --> 00:02:42,959

unredacted blah blah

67

00:02:49,910 --> 00:02:46,000

there are there are reasons outside of

68

00:02:51,190 --> 00:02:49,920

ufos that this could be redacted um you

69

00:02:53,190 --> 00:02:51,200

can take it away dan because you

70

00:02:54,869 --> 00:02:53,200

mentioned potential reasons uh when we

71

00:02:56,470 --> 00:02:54,879

were chatting uh i think

72

00:02:58,630 --> 00:02:56,480

we've been talking about group yeah

73

00:03:00,869 --> 00:02:58,640

about various different reasons

74

00:03:02,869 --> 00:03:00,879

and and i'm leaning towards i mean one

75

00:03:05,350 --> 00:03:02,879

there could literally be photos of

76

00:03:07,270 --> 00:03:05,360

different devices in there

77

00:03:08,869 --> 00:03:07,280

you know so again that signals

78

00:03:11,910 --> 00:03:08,879

intelligence you've got to protect that

79

00:03:13,509 --> 00:03:11,920

um the other one is that say for example

80

00:03:16,790 --> 00:03:13,519

china has this

81

00:03:18,949 --> 00:03:16,800

new advanced secret uh triangular drone

82

00:03:20,949 --> 00:03:18,959

and america puts a picture of it in the

83

00:03:22,470 --> 00:03:20,959

uap report suddenly china knows that

84

00:03:24,390 --> 00:03:22,480

america knows there's a whole

85

00:03:26,390 --> 00:03:24,400

intelligence game being played here but

86

00:03:28,070 --> 00:03:26,400

i think the the people redacting things

87

00:03:29,750 --> 00:03:28,080

tend to just go with the broadest brush

88

00:03:32,070 --> 00:03:29,760

at first and then when they do the

89

00:03:34,390 --> 00:03:32,080

appeals you'll probably see bits of that

90

00:03:35,670 --> 00:03:34,400

table being revealed kind of like a you

91

00:03:37,830 --> 00:03:35,680

know a game of catchphrase if you're in

92

00:03:39,589 --> 00:03:37,840

the uk you know that program yeah and

93

00:03:40,390 --> 00:03:39,599

it's frustrating let's be fair because

94

00:03:43,750 --> 00:03:40,400

what

95

00:03:45,750 --> 00:03:43,760

your mind has to speculate and wander

96

00:03:48,070 --> 00:03:45,760

and go into overdrive and what could be

97

00:03:50,710 --> 00:03:48,080

there we could play a fantastic game on

98

00:03:52,470 --> 00:03:50,720

on ufo twitter or any social media of

99

00:03:53,830 --> 00:03:52,480

what do you think it says but it could

100

00:03:55,509 --> 00:03:53,840

it could literally say anything it could

101
00:03:57,750 --> 00:03:55,519
be mundane prozac

102
00:03:59,670 --> 00:03:57,760
it could be absolutely mind-blowing or

103
00:04:01,270 --> 00:03:59,680
it could be something that to us makes

104
00:04:02,309 --> 00:04:01,280
no sense whatsoever

105
00:04:04,550 --> 00:04:02,319
but for me

106
00:04:07,030 --> 00:04:04,560
the standout of the whole document uh as

107
00:04:07,830 --> 00:04:07,040
that page on on shapes and uncommon

108
00:04:10,070 --> 00:04:07,840
shapes

109
00:04:11,910 --> 00:04:10,080
there is um in in this document they

110
00:04:15,110 --> 00:04:11,920
specify basically that they were looking

111
00:04:17,909 --> 00:04:15,120
at rangefowler reports for uh for

112
00:04:20,469 --> 00:04:17,919
intelligence to to analyze for uaptf to

113
00:04:22,710 --> 00:04:20,479

analyze and on the range file forms that

114

00:04:24,870 --> 00:04:22,720

were released via the the dod reading

115

00:04:26,629 --> 00:04:24,880

room there is a section in there that

116

00:04:28,870 --> 00:04:26,639

asks about shapes and you can kind of

117

00:04:30,870 --> 00:04:28,880

tick the boxes so i imagine a lot of

118

00:04:32,469 --> 00:04:30,880

this kind of

119

00:04:34,710 --> 00:04:32,479

terminology is in there and basically

120

00:04:36,790 --> 00:04:34,720

all it is is round square balloon shapes

121

00:04:39,510 --> 00:04:36,800

wings uh other shapes apparent

122

00:04:41,990 --> 00:04:39,520

propulsion reflective opaque translucent

123

00:04:44,070 --> 00:04:42,000

markings metallic moving parts there are

124

00:04:45,670 --> 00:04:44,080

spaces on those forms where pilots can

125

00:04:49,670 --> 00:04:45,680

can expand on their reasoning for

126
00:04:51,749 --> 00:04:49,680
example one one range vowel form um

127
00:04:53,590 --> 00:04:51,759
reads it was difficult to assess in

128
00:04:55,749 --> 00:04:53,600
shape but it appeared as odd as it

129
00:04:57,749 --> 00:04:55,759
sounds to be and then the next word is

130
00:04:59,990 --> 00:04:57,759
redacted so i don't think that's one of

131
00:05:01,670 --> 00:05:00,000
those uh awards that i just write out so

132
00:05:03,510 --> 00:05:01,680
there's some interesting reports in

133
00:05:05,110 --> 00:05:03,520
those range parallel forms i'm going to

134
00:05:07,270 --> 00:05:05,120
read the full page which will take me a

135
00:05:08,870 --> 00:05:07,280
couple of seconds because this folks and

136
00:05:10,110 --> 00:05:08,880
the link will be in the description to

137
00:05:12,550 --> 00:05:10,120
the direct download from

138
00:05:13,990 --> 00:05:12,560

theblackvault.com but the page itself if

139

00:05:16,870 --> 00:05:14,000

you've not seen it if you're not on on

140

00:05:19,510 --> 00:05:16,880

social media as such reads

141

00:05:21,909 --> 00:05:19,520

it's redacted and then says observers

142

00:05:24,790 --> 00:05:21,919

frequently described unidentified aerial

143

00:05:27,830 --> 00:05:24,800

phenomena as redacted though redacted

144

00:05:30,150 --> 00:05:27,840

such as a redacted shaped objects

145

00:05:31,909 --> 00:05:30,160

then there's two tables which is common

146

00:05:34,550 --> 00:05:31,919

shapes which is the larger table which

147

00:05:36,790 --> 00:05:34,560

is fully redacted and then underneath

148

00:05:39,029 --> 00:05:36,800

less common slash irregular shapes which

149

00:05:40,710 --> 00:05:39,039

is redacted but a smaller table

150

00:05:42,629 --> 00:05:40,720

what i find most interesting on that

151
00:05:44,950 --> 00:05:42,639
entire page though dan is just at the

152
00:05:47,510 --> 00:05:44,960
bottom either side of two redacted boxes

153
00:05:49,590 --> 00:05:47,520
it says note these images are

154
00:05:51,830 --> 00:05:49,600
and in these tables we don't know if

155
00:05:54,150 --> 00:05:51,840
these images are going to be sketches

156
00:05:56,390 --> 00:05:54,160
drawings like you say photographs are

157
00:05:58,070 --> 00:05:56,400
the screenshots of

158
00:05:59,749 --> 00:05:58,080
video that's right

159
00:06:01,749 --> 00:05:59,759
that's it it could be it could be

160
00:06:04,309 --> 00:06:01,759
anything it could see these images are

161
00:06:06,950 --> 00:06:04,319
classified but it could say these images

162
00:06:08,390 --> 00:06:06,960
are you know for whatever but i think

163
00:06:10,710 --> 00:06:08,400

that's the table that really lets your

164

00:06:12,629 --> 00:06:10,720

mind wander and let's be honest if it

165

00:06:14,550 --> 00:06:12,639

was at the end of the day the potential

166

00:06:16,469 --> 00:06:14,560

of just sketches or drawings or

167

00:06:18,469 --> 00:06:16,479

first-hand witness you know reports

168

00:06:20,309 --> 00:06:18,479

here's what i saw and i jotted it down

169

00:06:21,990 --> 00:06:20,319

it might be a little bit disappointing

170

00:06:23,670 --> 00:06:22,000

in terms of oh this is what they saw

171

00:06:24,550 --> 00:06:23,680

great but you'd as well taken their word

172

00:06:26,550 --> 00:06:24,560

for it

173

00:06:28,309 --> 00:06:26,560

what you would be fascinated and really

174

00:06:30,390 --> 00:06:28,319

hoping is you've got that

175

00:06:32,710 --> 00:06:30,400

oh there's the tic tac 50 feet off the

176

00:06:34,469 --> 00:06:32,720

pilot's wing or there's that black

177

00:06:36,070 --> 00:06:34,479

triangle coming out the water or you

178

00:06:37,110 --> 00:06:36,080

know all all that kind of stuff that's

179

00:06:39,189 --> 00:06:37,120

what you're hoping there's a little bit

180

00:06:41,510 --> 00:06:39,199

of that in there and and that would

181

00:06:44,790 --> 00:06:41,520

really make for interesting reading but

182

00:06:47,830 --> 00:06:44,800

unfortunately that's why it's redacted

183

00:06:49,270 --> 00:06:47,840

um it's i wonder if people appealing

184

00:06:50,150 --> 00:06:49,280

these redactions

185

00:06:52,309 --> 00:06:50,160

might

186

00:06:55,189 --> 00:06:52,319

impact the shape that the next uap

187

00:06:57,189 --> 00:06:55,199

report takes maybe a lot of those shapes

188

00:06:59,029 --> 00:06:57,199

will be you know less redacted to start

189

00:07:00,790 --> 00:06:59,039

off with and it'll be less works kind of

190

00:07:02,870 --> 00:07:00,800

yeah like meet us halfway and learn what

191

00:07:05,430 --> 00:07:02,880

the public wants and what they can

192

00:07:07,350 --> 00:07:05,440

actually share you know 100

193

00:07:09,990 --> 00:07:07,360

was there anything else that stood out

194

00:07:12,309 --> 00:07:10,000

to you in terms of content um other than

195

00:07:14,469 --> 00:07:12,319

the large amount of black boxes

196

00:07:16,710 --> 00:07:14,479

yeah there was a line in there that says

197

00:07:18,469 --> 00:07:16,720

that they did the uapf didn't have any

198

00:07:21,589 --> 00:07:18,479

mason to work with which is measurement

199

00:07:24,150 --> 00:07:21,599

and signature intelligence um basically

200

00:07:26,710 --> 00:07:24,160

massin is used to uh detect track

201
00:07:28,309 --> 00:07:26,720
identify or describe characteristics or

202
00:07:29,749 --> 00:07:28,319
signatures uh because we've heard

203
00:07:31,909 --> 00:07:29,759
signatures that's one of the observables

204
00:07:35,189 --> 00:07:31,919
this signature management of fixed or

205
00:07:37,510 --> 00:07:35,199
dynamic uh target sources um usually

206
00:07:40,150 --> 00:07:37,520
radar acoustic underwater intelligence

207
00:07:41,670 --> 00:07:40,160
nuclear chemical biological so there's a

208
00:07:43,110 --> 00:07:41,680
fairly wide swath of information

209
00:07:45,510 --> 00:07:43,120
included in that and it's kind of hard

210
00:07:47,430 --> 00:07:45,520
to find to define but

211
00:07:49,350 --> 00:07:47,440
it's interesting that they said they

212
00:07:51,029 --> 00:07:49,360
didn't have any to work with because the

213
00:07:53,189 --> 00:07:51,039

the legislation that's just gone through

214

00:07:56,309 --> 00:07:53,199

congress specifies that they want to see

215

00:07:58,710 --> 00:07:56,319

the mass in that uh it has been in play

216

00:08:01,029 --> 00:07:58,720

so i i wonder if they're being a little

217

00:08:02,309 --> 00:08:01,039

coy with that or if you know they just

218

00:08:05,110 --> 00:08:02,319

don't have it and maybe that's what the

219

00:08:07,430 --> 00:08:05,120

air force has or something like that

220

00:08:09,270 --> 00:08:07,440

like you say going forward it'll be

221

00:08:11,510 --> 00:08:09,280

interesting to see what happens with the

222

00:08:13,430 --> 00:08:11,520

next series of reports

223

00:08:15,510 --> 00:08:13,440

we know and this is worth touching on

224

00:08:19,189 --> 00:08:15,520

that the next classified report comes

225

00:08:20,950 --> 00:08:19,199

out as due sorry by the 27th of march so

226

00:08:22,309 --> 00:08:20,960

that that could already potentially be

227

00:08:23,749 --> 00:08:22,319

out and we just don't know it yet it's

228

00:08:25,270 --> 00:08:23,759

not something well that's a that's a

229

00:08:26,790 --> 00:08:25,280

briefing not a

230

00:08:28,230 --> 00:08:26,800

briefing apologies gonna be like

231

00:08:30,550 --> 00:08:28,240

meetings

232

00:08:32,310 --> 00:08:30,560

90 day update wasn't 90 day update yeah

233

00:08:33,909 --> 00:08:32,320

that's it that that could have happened

234

00:08:35,670 --> 00:08:33,919

already it could be out there might be

235

00:08:38,310 --> 00:08:35,680

some stuff floating about but we won't

236

00:08:39,750 --> 00:08:38,320

necessarily see or hear any of that i

237

00:08:41,750 --> 00:08:39,760

i've stated this at the on the last

238

00:08:43,190 --> 00:08:41,760

recording as well done that and the

239

00:08:45,110 --> 00:08:43,200

interview i've just done with jazz shaw

240

00:08:46,630 --> 00:08:45,120

which will be out in a couple of days

241

00:08:48,790 --> 00:08:46,640

i talked about this as well that i just

242

00:08:51,350 --> 00:08:48,800

hope with the number of eyes that are

243

00:08:53,110 --> 00:08:51,360

now starting to see these briefings or

244

00:08:54,710 --> 00:08:53,120

be involved or ask questions at

245

00:08:56,949 --> 00:08:54,720

different levels of the senate and

246

00:08:58,870 --> 00:08:56,959

congress all that kind of stuff

247

00:09:00,870 --> 00:08:58,880

that we do kind of start to hear a

248

00:09:03,190 --> 00:09:00,880

little bit of the old phrase loose lip

249

00:09:05,350 --> 00:09:03,200

sync ships from the war

250

00:09:06,550 --> 00:09:05,360

yeah as much as you know i'm sure if

251
00:09:08,630 --> 00:09:06,560
you're american you don't want all that

252
00:09:10,310 --> 00:09:08,640
stuff coming out but if you're into ufos

253
00:09:11,430 --> 00:09:10,320
then we do want some of this stuff

254
00:09:13,750 --> 00:09:11,440
coming out because this is what

255
00:09:15,829 --> 00:09:13,760
interests us and it's the wow of the

256
00:09:17,350 --> 00:09:15,839
subject and the mystery that

257
00:09:18,470 --> 00:09:17,360
you know is so frustrating to think

258
00:09:19,750 --> 00:09:18,480
we're at a point now where we're

259
00:09:21,750 --> 00:09:19,760
literally seeing

260
00:09:23,670 --> 00:09:21,760
the government's ufo report for all

261
00:09:26,230 --> 00:09:23,680
intents and purposes and we're seeing

262
00:09:28,070 --> 00:09:26,240
the classified government's ufo report

263
00:09:30,150 --> 00:09:28,080

it's there it's literally right now in

264

00:09:32,389 --> 00:09:30,160

front of me on the screen

265

00:09:34,870 --> 00:09:32,399

and those black boxes stand between

266

00:09:36,630 --> 00:09:34,880

potentially some incredible information

267

00:09:38,790 --> 00:09:36,640

or not

268

00:09:40,070 --> 00:09:38,800

and that's it and it's so yeah it's

269

00:09:41,990 --> 00:09:40,080

frustrating but

270

00:09:43,590 --> 00:09:42,000

good work by john greenwald very

271

00:09:45,509 --> 00:09:43,600

tenacious and and going after these

272

00:09:47,590 --> 00:09:45,519

things it's taken a lot of work it

273

00:09:50,070 --> 00:09:47,600

wasn't a one-off email and it came back

274

00:09:51,350 --> 00:09:50,080

to him so tip of the hat to john

275

00:09:53,110 --> 00:09:51,360

greenwald and

276

00:09:54,790 --> 00:09:53,120

long may continue to do his thing but

277

00:09:57,110 --> 00:09:54,800

again i would encourage other folks to

278

00:09:58,870 --> 00:09:57,120

look into doing this as well because you

279

00:10:00,550 --> 00:09:58,880

don't know that you you get something

280

00:10:02,870 --> 00:10:00,560

and here's a spoiler the jazz show

281

00:10:05,110 --> 00:10:02,880

interview i really enjoyed jazz was on

282

00:10:07,269 --> 00:10:05,120

on really good form and was very very

283

00:10:08,870 --> 00:10:07,279

knowledgeable on the subject

284

00:10:10,790 --> 00:10:08,880

and he was talking about the foyer

285

00:10:12,790 --> 00:10:10,800

process because this came up and he

286

00:10:14,949 --> 00:10:12,800

mentioned how

287

00:10:16,790 --> 00:10:14,959

as much as i've seen people going back

288

00:10:18,790 --> 00:10:16,800

and forward with with this document and

289

00:10:20,550 --> 00:10:18,800

others with john and he mentions that

290

00:10:22,230 --> 00:10:20,560

well no there wouldn't be extra pages

291

00:10:23,670 --> 00:10:22,240

because they would have given me those

292

00:10:26,230 --> 00:10:23,680

extra pages with the length of the

293

00:10:27,829 --> 00:10:26,240

document jazz shaw told me how he once

294

00:10:29,430 --> 00:10:27,839

fired for a document he was literally

295

00:10:31,269 --> 00:10:29,440

holding in his hand

296

00:10:33,030 --> 00:10:31,279

and he had a response back from the

297

00:10:34,949 --> 00:10:33,040

foyer process to say the document didn't

298

00:10:36,949 --> 00:10:34,959

exist

299

00:10:39,350 --> 00:10:36,959

he had the document he then sent them

300

00:10:40,949 --> 00:10:39,360

the reply he sent them back the document

301
00:10:43,269 --> 00:10:40,959
and heard nothing else

302
00:10:44,710 --> 00:10:43,279
so that's where we're at so i appreciate

303
00:10:45,990 --> 00:10:44,720
the work and

304
00:10:47,509 --> 00:10:46,000
john greenwald and others will

305
00:10:49,350 --> 00:10:47,519
infinitely and always know more about

306
00:10:50,790 --> 00:10:49,360
the foyer process than i do and that's

307
00:10:52,630 --> 00:10:50,800
fine that's not something i necessarily

308
00:10:53,990 --> 00:10:52,640
want to know much more about i'm happy

309
00:10:56,150 --> 00:10:54,000
just receiving the information and

310
00:10:58,710 --> 00:10:56,160
dissecting it but

311
00:11:00,069 --> 00:10:58,720
to say that there isn't a longer report

312
00:11:02,069 --> 00:11:00,079
potentially because well this is what

313
00:11:03,269 --> 00:11:02,079

they sent me so this is what they have

314

00:11:04,710 --> 00:11:03,279

i'm sorry i

315

00:11:06,470 --> 00:11:04,720

jazz show himself has said they

316

00:11:08,790 --> 00:11:06,480

literally told him they didn't have a

317

00:11:10,470 --> 00:11:08,800

document that he had in his hands we

318

00:11:12,389 --> 00:11:10,480

spoke we touched on this a similar thing

319

00:11:14,310 --> 00:11:12,399

during the ama we were talking about uh

320

00:11:15,590 --> 00:11:14,320

secret platforms being over ukraine and

321

00:11:17,509 --> 00:11:15,600

and i think it was graeme rendell kind

322

00:11:18,790 --> 00:11:17,519

of said you know and we were like well

323

00:11:20,949 --> 00:11:18,800

there's kind of wiggle room and what the

324

00:11:22,470 --> 00:11:20,959

government tells you um you know i

325

00:11:24,470 --> 00:11:22,480

totally respect that

326

00:11:26,710 --> 00:11:24,480

they have a much more informed opinion

327

00:11:27,990 --> 00:11:26,720

than my conjecture but there's always

328

00:11:30,150 --> 00:11:28,000

that little bit of wiggle room that we

329

00:11:31,750 --> 00:11:30,160

always find out in hindsight was well

330

00:11:33,829 --> 00:11:31,760

not always find out but sometimes find

331

00:11:35,990 --> 00:11:33,839

out in hindsight that it's justified

332

00:11:37,750 --> 00:11:36,000

yeah there's of course those processes

333

00:11:39,590 --> 00:11:37,760

and protocols and

334

00:11:41,430 --> 00:11:39,600

you don't think though let's let's just

335

00:11:43,509 --> 00:11:41,440

take something very blank like roswell

336

00:11:45,269 --> 00:11:43,519

for example that at the time someone

337

00:11:47,750 --> 00:11:45,279

went yeah but we've got a process for

338

00:11:49,590 --> 00:11:47,760

this and someone hired up went to hell

339

00:11:51,430 --> 00:11:49,600

with the process like you know we're

340

00:11:53,110 --> 00:11:51,440

going to do this i don't care if it

341

00:11:54,550 --> 00:11:53,120

means x y and z this is what we're going

342

00:11:56,870 --> 00:11:54,560

to do so

343

00:11:58,310 --> 00:11:56,880

yeah

344

00:11:59,509 --> 00:11:58,320

can i just pull something forward a

345

00:12:01,269 --> 00:11:59,519

little bit in the show just because

346

00:12:03,509 --> 00:12:01,279

we're talking about this now um yeah

347

00:12:05,590 --> 00:12:03,519

yeah for your process should should be

348

00:12:06,550 --> 00:12:05,600

you know looked at by other people and

349

00:12:08,310 --> 00:12:06,560

uh

350

00:12:10,710 --> 00:12:08,320

there was

351

00:12:13,110 --> 00:12:10,720

i think it's a jack brewer he he got

352

00:12:14,550 --> 00:12:13,120

this week a bunch of bass and awesome

353

00:12:15,990 --> 00:12:14,560

papers we'll touch on the dudes later

354

00:12:17,990 --> 00:12:16,000

but i just wanted to touch on the the

355

00:12:19,430 --> 00:12:18,000

osap documents being released

356

00:12:21,350 --> 00:12:19,440

it's been so long since we've heard

357

00:12:24,069 --> 00:12:21,360

about the osap stuff we've heard a lot

358

00:12:24,949 --> 00:12:24,079

from lakatsuki from

359

00:12:26,629 --> 00:12:24,959

um

360

00:12:28,710 --> 00:12:26,639

and still we're getting new stuff that

361

00:12:30,550 --> 00:12:28,720

they told us didn't exist and one of the

362

00:12:32,470 --> 00:12:30,560

most startling lines in it for me is

363

00:12:34,790 --> 00:12:32,480

that they they can now show with

364

00:12:37,829 --> 00:12:34,800

paperwork the osap wasn't funded by the

365

00:12:39,590 --> 00:12:37,839

dia it was funded by the nsa so that's

366

00:12:41,190 --> 00:12:39,600

black budget money right there and

367

00:12:42,790 --> 00:12:41,200

they're not playing they're going to be

368

00:12:44,230 --> 00:12:42,800

holding those cards as close to their

369

00:12:45,990 --> 00:12:44,240

chest as possible and if they want to

370

00:12:47,829 --> 00:12:46,000

tell you it's 17 pages and look at you

371

00:12:49,269 --> 00:12:47,839

po-faced and you know pretend that

372

00:12:51,110 --> 00:12:49,279

there's nothing else they will do that

373

00:12:53,750 --> 00:12:51,120

if it serves them

374

00:12:55,829 --> 00:12:53,760

percent and the last thing for me on the

375

00:12:58,870 --> 00:12:55,839

the classified report that's heavily

376

00:13:01,509 --> 00:12:58,880

redacted was the the conversations over

377

00:13:04,470 --> 00:13:01,519

the length of the report was it 17 pages

378

00:13:06,389 --> 00:13:04,480

was it in its 20s or as people like

379

00:13:09,190 --> 00:13:06,399

louis lozando said at the time

380

00:13:11,190 --> 00:13:09,200

it was it was over 70 pages and other

381

00:13:12,629 --> 00:13:11,200

people confirmed that too and what we

382

00:13:14,629 --> 00:13:12,639

got was obviously the much shorter

383

00:13:15,990 --> 00:13:14,639

version of the report john greenwald's

384

00:13:18,150 --> 00:13:16,000

argument as well here's the report here

385

00:13:20,710 --> 00:13:18,160

and it's certainly not 70 pages but

386

00:13:23,430 --> 00:13:20,720

others would say and argue that there

387

00:13:25,910 --> 00:13:23,440

would likely be information on tables

388

00:13:27,110 --> 00:13:25,920

graphs you know potentially pages of

389

00:13:28,550 --> 00:13:27,120

photographs

390

00:13:30,629 --> 00:13:28,560

there could be all sorts of other

391

00:13:32,150 --> 00:13:30,639

information indexes appendixes that we

392

00:13:34,069 --> 00:13:32,160

just don't have access to that they've

393

00:13:36,550 --> 00:13:34,079

held back i know some people again may

394

00:13:37,990 --> 00:13:36,560

say well they wouldn't do that but i

395

00:13:39,829 --> 00:13:38,000

think you have to just take that on it's

396

00:13:41,990 --> 00:13:39,839

on its merit we have what we have

397

00:13:44,870 --> 00:13:42,000

personally i think there was more to

398

00:13:46,629 --> 00:13:44,880

this report and we just don't see it

399

00:13:50,069 --> 00:13:46,639

yeah i i would be inclined to agree with

400

00:13:52,389 --> 00:13:50,079

you there moving on louis lozando was on

401
00:13:53,670 --> 00:13:52,399
linda moulton howe which is two people i

402
00:13:56,710 --> 00:13:53,680
didn't think we would probably see

403
00:13:59,110 --> 00:13:56,720
together in an interview format um

404
00:14:00,949 --> 00:13:59,120
it was surprisingly pretty good and

405
00:14:02,629 --> 00:14:00,959
that's that's not a slight one either i

406
00:14:04,069 --> 00:14:02,639
just thought it was oil and water in

407
00:14:05,990 --> 00:14:04,079
terms of

408
00:14:07,269 --> 00:14:06,000
the interviews and not to go back over

409
00:14:08,790 --> 00:14:07,279
old grounds you know what happened a few

410
00:14:11,189 --> 00:14:08,800
weeks ago on the theories of everything

411
00:14:13,430 --> 00:14:11,199
interview and the arguments that ensued

412
00:14:15,350 --> 00:14:13,440
since but um i thought lou was really

413
00:14:17,910 --> 00:14:15,360

calm collected and he gave some good

414

00:14:19,990 --> 00:14:17,920

answers i thought linda made some really

415

00:14:23,269 --> 00:14:20,000

valid points and questions and i think

416

00:14:24,790 --> 00:14:23,279

there was a middle ground as well where

417

00:14:26,710 --> 00:14:24,800

things went a little bit all over the

418

00:14:28,629 --> 00:14:26,720

place um

419

00:14:30,790 --> 00:14:28,639

i would recommend folks i'm going to say

420

00:14:32,470 --> 00:14:30,800

this a few times on this this pod that

421

00:14:34,550 --> 00:14:32,480

if we are talking about someone else's

422

00:14:36,470 --> 00:14:34,560

content please go and watch it or listen

423

00:14:37,750 --> 00:14:36,480

to it yourself don't take what we see as

424

00:14:39,030 --> 00:14:37,760

oh well that's what they think and

425

00:14:41,030 --> 00:14:39,040

that's their opinion so it must be

426

00:14:43,350 --> 00:14:41,040

correct and we only see what we see in

427

00:14:45,030 --> 00:14:43,360

something as well yeah you know we your

428

00:14:46,150 --> 00:14:45,040

kid runs past the door and you miss two

429

00:14:48,470 --> 00:14:46,160

seconds of audio and it could be

430

00:14:49,990 --> 00:14:48,480

something important so you know go go

431

00:14:51,829 --> 00:14:50,000

listen and maybe you'll pick something

432

00:14:53,110 --> 00:14:51,839

up that we didn't and we also hear

433

00:14:55,110 --> 00:14:53,120

things in the same interviews don't we

434

00:14:58,150 --> 00:14:55,120

done but i'll say i took this from it

435

00:14:59,590 --> 00:14:58,160

and you'll see um i thought this yeah we

436

00:15:01,509 --> 00:14:59,600

don't know it could be either and that's

437

00:15:03,269 --> 00:15:01,519

where you know someone has to follow up

438

00:15:05,430 --> 00:15:03,279

and so for me the notes i've got on it

439

00:15:06,870 --> 00:15:05,440

just as a few a few kind of standouts

440

00:15:08,150 --> 00:15:06,880

was um

441

00:15:09,670 --> 00:15:08,160

straight away

442

00:15:11,110 --> 00:15:09,680

linda milton how asked the question

443

00:15:13,509 --> 00:15:11,120

about you know are we dealing with

444

00:15:15,590 --> 00:15:13,519

something that's not homo sapien good

445

00:15:17,590 --> 00:15:15,600

use of language not seeing human alien

446

00:15:19,590 --> 00:15:17,600

non-human intelligence you know because

447

00:15:22,629 --> 00:15:19,600

as it's something that's homo

448

00:15:25,030 --> 00:15:22,639

something else to this planet who knows

449

00:15:27,189 --> 00:15:25,040

or um is a homo sapien sapiens a correct

450

00:15:28,949 --> 00:15:27,199

term i believe isn't it um it keeps

451
00:15:30,550 --> 00:15:28,959
changing we keep finding all the ones

452
00:15:31,990 --> 00:15:30,560
with the same kind of brains that we

453
00:15:33,030 --> 00:15:32,000
haven't realizing that our development

454
00:15:36,470 --> 00:15:33,040
was very different to what the

455
00:15:38,310 --> 00:15:36,480
mainstream science tells us 100 lu and

456
00:15:40,230 --> 00:15:38,320
and with the question and something i'll

457
00:15:41,269 --> 00:15:40,240
preface with it and dan i don't think

458
00:15:42,949 --> 00:15:41,279
you've managed to catch the whole

459
00:15:44,870 --> 00:15:42,959
interview yet or have you got all of it

460
00:15:47,030 --> 00:15:44,880
no i mean i've been knee-deep in the

461
00:15:47,990 --> 00:15:47,040
dudes which way yeah

462
00:15:51,189 --> 00:15:48,000
um

463
00:15:54,310 --> 00:15:51,199

linda's questions are extremely lengthy

464

00:15:56,710 --> 00:15:54,320

um and one question can sort of contain

465

00:15:58,629 --> 00:15:56,720

four or five different questions within

466

00:16:01,030 --> 00:15:58,639

it so you can clearly see during the

467

00:16:01,990 --> 00:16:01,040

interview quite candidly taking notes

468

00:16:04,790 --> 00:16:02,000

because

469

00:16:06,470 --> 00:16:04,800

at times i i forgot linda's question by

470

00:16:08,230 --> 00:16:06,480

the end of the question something i'm

471

00:16:09,749 --> 00:16:08,240

always wary of myself when i'm when i'm

472

00:16:10,550 --> 00:16:09,759

interviewing a guest is try and break it

473

00:16:13,749 --> 00:16:10,560

down

474

00:16:16,150 --> 00:16:13,759

but linda can cover some pretty

475

00:16:18,470 --> 00:16:16,160

scientific topics but also pretty

476
00:16:19,509 --> 00:16:18,480
fantastical topics all in the one

477
00:16:21,110 --> 00:16:19,519
question

478
00:16:23,749 --> 00:16:21,120
which i don't know if lou was

479
00:16:26,470 --> 00:16:23,759
necessarily evading some of the

480
00:16:29,030 --> 00:16:26,480
questions she asked but she asked so

481
00:16:30,710 --> 00:16:29,040
much at one time it was much easier for

482
00:16:33,590 --> 00:16:30,720
for any guest to just answer what they

483
00:16:35,189 --> 00:16:33,600
wanted to out of it um so on on that

484
00:16:36,550 --> 00:16:35,199
question lou discussed available data

485
00:16:39,189 --> 00:16:36,560
points and then talked about

486
00:16:42,310 --> 00:16:39,199
technological arcs in terms of you know

487
00:16:45,509 --> 00:16:42,320
when you look at you would expect to see

488
00:16:47,910 --> 00:16:45,519

a technology progress at you know a rate

489

00:16:49,670 --> 00:16:47,920

of you know we had the the telephone and

490

00:16:51,509 --> 00:16:49,680

then we had like the big mobile phones

491

00:16:53,509 --> 00:16:51,519

then we had smaller phones then we have

492

00:16:55,430 --> 00:16:53,519

like touch phones like we have now and

493

00:16:57,430 --> 00:16:55,440

that technology has made sense as it's

494

00:16:59,269 --> 00:16:57,440

gone along we didn't have alexander

495

00:17:01,269 --> 00:16:59,279

graham bell one day with uh you know a

496

00:17:03,189 --> 00:17:01,279

phone dr watson come here i want you i

497

00:17:04,949 --> 00:17:03,199

believe is the first the first phrase

498

00:17:07,029 --> 00:17:04,959

and dr watson comes in and there you go

499

00:17:07,829 --> 00:17:07,039

the first telephone call was made

500

00:17:10,630 --> 00:17:07,839

and then

501
00:17:12,789 --> 00:17:10,640
i get ahoy or or hello wasn't it was the

502
00:17:14,710 --> 00:17:12,799
two options and they voted for hello

503
00:17:16,789 --> 00:17:14,720
that's where the word came from facts

504
00:17:18,470 --> 00:17:16,799
folks facts

505
00:17:20,150 --> 00:17:18,480
and uh

506
00:17:21,590 --> 00:17:20,160
we didn't have though the following week

507
00:17:23,990 --> 00:17:21,600
some to say yeah you've got that but

508
00:17:25,429 --> 00:17:24,000
here's an iphone 13 pro max

509
00:17:26,549 --> 00:17:25,439
that's what we're kind of looking at in

510
00:17:28,789 --> 00:17:26,559
lowe's point is in terms of this

511
00:17:31,029 --> 00:17:28,799
technology we have you know these

512
00:17:32,470 --> 00:17:31,039
fighter jets that can do x y and z but

513
00:17:34,070 --> 00:17:32,480

on the other hand we then have something

514

00:17:35,990 --> 00:17:34,080

that seems to totally leapfrog

515

00:17:38,070 --> 00:17:36,000

everything else and in this roundabout

516

00:17:40,789 --> 00:17:38,080

way he he answered the question of well

517

00:17:42,549 --> 00:17:40,799

no it's it's not homo sapien sapien it's

518

00:17:44,549 --> 00:17:42,559

it's clearly something else some a point

519

00:17:46,789 --> 00:17:44,559

is made on other um other shows but i

520

00:17:48,789 --> 00:17:46,799

like the way linda faced a question

521

00:17:50,390 --> 00:17:48,799

yeah and and it kind of gives you again

522

00:17:52,470 --> 00:17:50,400

that definitive confirmation that we're

523

00:17:53,669 --> 00:17:52,480

talking about something other right when

524

00:17:55,590 --> 00:17:53,679

it comes to what we're talking about

525

00:17:58,070 --> 00:17:55,600

with lou like it it's not mankind or

526
00:18:00,870 --> 00:17:58,080
mankind's now we know it's the other one

527
00:18:02,470 --> 00:18:00,880
yeah um a lot of folks um were picking

528
00:18:03,270 --> 00:18:02,480
up about linda's point which is made

529
00:18:04,630 --> 00:18:03,280
about

530
00:18:07,270 --> 00:18:04,640
ufos

531
00:18:08,870 --> 00:18:07,280
stopping nuclear war on nuclear launches

532
00:18:10,789 --> 00:18:08,880
and you know they're there to protect us

533
00:18:12,549 --> 00:18:10,799
they've got our best interests at heart

534
00:18:14,549 --> 00:18:12,559
and lou made the point back to her what

535
00:18:15,830 --> 00:18:14,559
she had to say you know and fair play to

536
00:18:18,549 --> 00:18:15,840
hershey's argument she just said that's

537
00:18:20,630 --> 00:18:18,559
a fair point that they don't stop all

538
00:18:22,630 --> 00:18:20,640

the testing that's going on today last

539

00:18:25,909 --> 00:18:22,640

week the week before months before that

540

00:18:27,510 --> 00:18:25,919

they didn't stop hiroshima nagasaki

541

00:18:29,909 --> 00:18:27,520

i've made the point you know we've had

542

00:18:31,350 --> 00:18:29,919

recently the fukushima disaster with the

543

00:18:33,669 --> 00:18:31,360

nuclear plant you know going back

544

00:18:36,789 --> 00:18:33,679

further than that chernobyl you know

545

00:18:38,549 --> 00:18:36,799

these objects didn't stop those

546

00:18:40,230 --> 00:18:38,559

they didn't help with those

547

00:18:42,070 --> 00:18:40,240

they don't stop testing in the

548

00:18:44,150 --> 00:18:42,080

atmosphere testing underground testing

549

00:18:46,310 --> 00:18:44,160

underwater which damages the planet

550

00:18:48,070 --> 00:18:46,320

which kills countless animals and

551
00:18:49,350 --> 00:18:48,080
poisons the areas

552
00:18:50,470 --> 00:18:49,360
and obviously there's a fallout from

553
00:18:52,950 --> 00:18:50,480
that as well

554
00:18:55,110 --> 00:18:52,960
so why would they stop a nuclear launch

555
00:18:56,789 --> 00:18:55,120
that was going a country now

556
00:18:59,350 --> 00:18:56,799
and linda milton how to her credit like

557
00:19:00,470 --> 00:18:59,360
i said does say yep fair enough it's a

558
00:19:03,430 --> 00:19:00,480
fair point

559
00:19:06,950 --> 00:19:03,440
she does within that start to talk about

560
00:19:09,430 --> 00:19:07,750
some

561
00:19:10,630 --> 00:19:09,440
nuclear events and bases and i would

562
00:19:12,789 --> 00:19:10,640
have liked to have heard of dig into

563
00:19:14,150 --> 00:19:12,799

those with lou maybe in detail but again

564

00:19:16,470 --> 00:19:14,160

it was just in framing the wider

565

00:19:19,029 --> 00:19:16,480

question but they were quite substantial

566

00:19:22,710 --> 00:19:19,039

and lengthy um lou is also asked by

567

00:19:24,710 --> 00:19:22,720

linda if he's seen a ufo lew says yes

568

00:19:26,310 --> 00:19:24,720

previously it's a question he'd avoided

569

00:19:28,390 --> 00:19:26,320

where i think most people assumed the

570

00:19:29,669 --> 00:19:28,400

answer was yes um

571

00:19:31,590 --> 00:19:29,679

i think there's something he always

572

00:19:33,110 --> 00:19:31,600

avoided saying no didn't he you'd always

573

00:19:34,710 --> 00:19:33,120

say i don't want to share because share

574

00:19:36,710 --> 00:19:34,720

my experience will become the focus of

575

00:19:38,230 --> 00:19:36,720

it and that's not what this is about was

576

00:19:39,110 --> 00:19:38,240

at the end of unidentified season two

577

00:19:41,590 --> 00:19:39,120

but he

578

00:19:42,950 --> 00:19:41,600

stands up and it's dramatic and he gets

579

00:19:44,870 --> 00:19:42,960

asked about his own experience and

580

00:19:46,789 --> 00:19:44,880

there's just no answer and it's there

581

00:19:48,390 --> 00:19:46,799

was a bit of drama to it but again that

582

00:19:50,390 --> 00:19:48,400

was one of the early times lewis posed

583

00:19:51,990 --> 00:19:50,400

that question that that is the end of

584

00:19:53,830 --> 00:19:52,000

episode eight of season two of

585

00:19:55,029 --> 00:19:53,840

unidentified if someone wants to go find

586

00:19:55,990 --> 00:19:55,039

it on youtube i just wanted to see where

587

00:19:57,830 --> 00:19:56,000

it was

588

00:19:59,909 --> 00:19:57,840

and just before just after the chris

589

00:20:01,750 --> 00:19:59,919

mellen monologue about just after it's

590

00:20:03,029 --> 00:20:01,760

like the same segment it's a fantastic

591

00:20:05,270 --> 00:20:03,039

monologue in fact i'll post it to

592

00:20:07,110 --> 00:20:05,280

twitter again later so yeah yeah i know

593

00:20:08,789 --> 00:20:07,120

you had the video anyway um so we're

594

00:20:10,950 --> 00:20:08,799

assuming low means he's seen it in

595

00:20:12,630 --> 00:20:10,960

person and it's not a video or via other

596

00:20:14,630 --> 00:20:12,640

means lew's obviously had access to

597

00:20:17,270 --> 00:20:14,640

sensitive data and the role he had

598

00:20:19,190 --> 00:20:17,280

within atip so it's very much i think

599

00:20:20,950 --> 00:20:19,200

safe to say yeah lewis saw something at

600

00:20:23,430 --> 00:20:20,960

least once in person

601
00:20:24,789 --> 00:20:23,440
i've got a question dan for you

602
00:20:28,149 --> 00:20:24,799
is there more

603
00:20:29,990 --> 00:20:28,159
for lou to lose or gain

604
00:20:31,510 --> 00:20:30,000
if he went into more detail if we get to

605
00:20:34,390 --> 00:20:31,520
speak to lou which we're hoping to in

606
00:20:36,390 --> 00:20:34,400
four weeks and i say to lu lu um and

607
00:20:37,830 --> 00:20:36,400
people will ask me to do this but

608
00:20:39,270 --> 00:20:37,840
let's just talk about this out loud just

609
00:20:40,470 --> 00:20:39,280
knowing this is the process dan and i go

610
00:20:43,029 --> 00:20:40,480
through with some of these interviews we

611
00:20:45,110 --> 00:20:43,039
talk about i say dan okay um i'm gonna

612
00:20:47,190 --> 00:20:45,120
ask lou you told lin to molten how yes

613
00:20:49,110 --> 00:20:47,200

you've seen a ufo can you expand on that

614

00:20:51,029 --> 00:20:49,120

and tell me more about the experience

615

00:20:53,990 --> 00:20:51,039

and let's just say lugo is do you know

616

00:20:57,029 --> 00:20:54,000

what why not and he gives us a full i

617

00:21:00,870 --> 00:20:57,039

saw something when i was in this place

618

00:21:02,789 --> 00:21:00,880

at this time it was a triangular object

619

00:21:06,710 --> 00:21:02,799

flying about doing this there were

620

00:21:10,070 --> 00:21:08,710

what what happens after that point i

621

00:21:12,950 --> 00:21:10,080

i've got to go further with your

622

00:21:14,789 --> 00:21:12,960

explanation there just because

623

00:21:17,110 --> 00:21:14,799

there's been discussion about lou and

624

00:21:19,510 --> 00:21:17,120

hitchhiker effects and and things that

625

00:21:22,230 --> 00:21:19,520

have been experienced and i i think the

626
00:21:23,909 --> 00:21:22,240
the full answer to what your his

627
00:21:26,549 --> 00:21:23,919
experience was is going to be a lot

628
00:21:28,710 --> 00:21:26,559
stranger than a mainstream conversation

629
00:21:30,149 --> 00:21:28,720
is comfortable with on times along 2.5

630
00:21:31,669 --> 00:21:30,159
we talked about you know what a flu came

631
00:21:33,830 --> 00:21:31,679
out and said oh yeah there are these

632
00:21:35,110 --> 00:21:33,840
invisible beings that feed off you feed

633
00:21:36,710 --> 00:21:35,120
off your negative energy when you're

634
00:21:38,549 --> 00:21:36,720
angry and things like that where would

635
00:21:40,310 --> 00:21:38,559
you go with that i think it just stands

636
00:21:42,390 --> 00:21:40,320
to distract and i i totally understand

637
00:21:43,909 --> 00:21:42,400
why he's like you know what i'm one data

638
00:21:46,149 --> 00:21:43,919

source there are better polls of

639

00:21:48,149 --> 00:21:46,159

information for us to be talking about

640

00:21:50,549 --> 00:21:48,159

yeah and that's what i go with it that

641

00:21:52,070 --> 00:21:50,559

how much more is he going to say without

642

00:21:53,350 --> 00:21:52,080

just you know i don't want to go into it

643

00:21:55,990 --> 00:21:53,360

right now because again i think it

644

00:21:58,549 --> 00:21:56,000

changes that conversation and i believe

645

00:22:00,470 --> 00:21:58,559

as we start to approach the next wave of

646

00:22:02,149 --> 00:22:00,480

mainstream media you know people getting

647

00:22:03,909 --> 00:22:02,159

on top of this low being interviewed on

648

00:22:06,310 --> 00:22:03,919

different platforms hopefully elsewhere

649

00:22:08,149 --> 00:22:06,320

australia the uk canada everywhere else

650

00:22:10,149 --> 00:22:08,159

in the world

651

00:22:11,830 --> 00:22:10,159

the conversation would probably hit

652

00:22:13,350 --> 00:22:11,840

straight away with you know so you saw

653

00:22:15,510 --> 00:22:13,360

ufos

654

00:22:16,870 --> 00:22:15,520

you've seen aliens tell me about it and

655

00:22:18,950 --> 00:22:16,880

it's just always having to have that

656

00:22:20,630 --> 00:22:18,960

reset and go back so for me i don't see

657

00:22:22,710 --> 00:22:20,640

us getting too much more there's maybe

658

00:22:24,789 --> 00:22:22,720

something to dig in with there for for

659

00:22:26,149 --> 00:22:24,799

some point but i i don't think we're

660

00:22:27,990 --> 00:22:26,159

going to get much more in terms of an

661

00:22:30,630 --> 00:22:28,000

answer on that the the interesting thing

662

00:22:32,630 --> 00:22:30,640

for me in that answer would be

663

00:22:34,470 --> 00:22:32,640

the implications from it as opposed to

664

00:22:35,350 --> 00:22:34,480

lose experience as interested as that

665

00:22:37,270 --> 00:22:35,360

would be

666

00:22:38,950 --> 00:22:37,280

it suggests that maybe he saw one

667

00:22:40,789 --> 00:22:38,960

through his work which suggests that

668

00:22:42,950 --> 00:22:40,799

maybe he knew where to see one which

669

00:22:44,549 --> 00:22:42,960

suggests that maybe there exists actual

670

00:22:45,909 --> 00:22:44,559

hot spots people could go to and they're

671

00:22:47,909 --> 00:22:45,919

more likely you know it kind of it

672

00:22:50,390 --> 00:22:47,919

starts going down that rabbit hole and

673

00:22:51,830 --> 00:22:50,400

it's a whole can of worms to open

674

00:22:53,990 --> 00:22:51,840

absolutely there are definitely

675

00:22:55,909 --> 00:22:54,000

follow-ups from it but we'll hear those

676
00:22:58,390 --> 00:22:55,919
at the time when we speak to lou and

677
00:23:00,230 --> 00:22:58,400
last thing for me um linda also made

678
00:23:02,549 --> 00:23:00,240
some out there statements again it

679
00:23:04,630 --> 00:23:02,559
wasn't it was encased within a huge

680
00:23:07,190 --> 00:23:04,640
question and i do mean the questions go

681
00:23:09,190 --> 00:23:07,200
on for some time where she made a

682
00:23:11,190 --> 00:23:09,200
statement about you know she's spoken to

683
00:23:13,750 --> 00:23:11,200
people who have assured her and sources

684
00:23:15,830 --> 00:23:13,760
confirm that there are at least 380

685
00:23:18,470 --> 00:23:15,840
civilizations on this planet they've

686
00:23:20,549 --> 00:23:18,480
been here for at least 270 million years

687
00:23:21,990 --> 00:23:20,559
and the government knows this

688
00:23:23,669 --> 00:23:22,000

i would have loved to have heard lou's

689

00:23:25,430 --> 00:23:23,679

response to that

690

00:23:28,149 --> 00:23:25,440

but linda's question

691

00:23:29,590 --> 00:23:28,159

it is quite lengthy and it ends up going

692

00:23:32,149 --> 00:23:29,600

past that and the point of the question

693

00:23:33,750 --> 00:23:32,159

is missed um but like i say lew's kind

694

00:23:35,430 --> 00:23:33,760

of making the notes and

695

00:23:36,470 --> 00:23:35,440

i would encourage people to go and watch

696

00:23:39,270 --> 00:23:36,480

the interview

697

00:23:42,390 --> 00:23:39,280

it's very mature from both parties it's

698

00:23:43,990 --> 00:23:42,400

very well handled um linda just hit 200

699

00:23:45,909 --> 00:23:44,000

000 subscribers you know there's a

700

00:23:49,110 --> 00:23:45,919

little party piece at the start which is

701

00:23:50,390 --> 00:23:49,120

interesting about that um but i think

702

00:23:52,950 --> 00:23:50,400

it's a good discussion

703

00:23:54,470 --> 00:23:52,960

um really really pleasantly surprised by

704

00:23:55,990 --> 00:23:54,480

it and i would encourage folks to go and

705

00:23:58,230 --> 00:23:56,000

watch it including you dan when you get

706

00:24:01,190 --> 00:23:58,240

a chance to get back and go right

707

00:24:02,310 --> 00:24:01,200

queued up i can see the tab right now

708

00:24:04,470 --> 00:24:02,320

and um

709

00:24:05,590 --> 00:24:04,480

very quickly sean cahill was on jimmy

710

00:24:08,230 --> 00:24:05,600

church that's one that i've been

711

00:24:10,950 --> 00:24:08,240

watching myself as well again

712

00:24:12,950 --> 00:24:10,960

yeah everyone knows um a very relaxed

713

00:24:14,549 --> 00:24:12,960

conversation sean and jeremy going back

714

00:24:17,110 --> 00:24:14,559

and forward we've always said sean

715

00:24:19,029 --> 00:24:17,120

speaks incredibly well um a couple of

716

00:24:20,630 --> 00:24:19,039

things that stood out for me again folks

717

00:24:22,149 --> 00:24:20,640

always like to preface other content

718

00:24:24,070 --> 00:24:22,159

creators please go and check out

719

00:24:25,990 --> 00:24:24,080

yourself on search fade to black on

720

00:24:28,470 --> 00:24:26,000

youtube and you'll see it's one of the

721

00:24:29,990 --> 00:24:28,480

most recent from from jimmy church um

722

00:24:33,350 --> 00:24:30,000

sean talks about searching through his

723

00:24:35,990 --> 00:24:33,360

own mind and how in the past he's had to

724

00:24:38,230 --> 00:24:36,000

to take time to meditate you know

725

00:24:39,510 --> 00:24:38,240

chill relax and go back through and

726

00:24:41,669 --> 00:24:39,520

think you know what now i'm heavily

727

00:24:44,710 --> 00:24:41,679

involved in this subject where things in

728

00:24:47,029 --> 00:24:44,720

my past potentially uap ufo related

729

00:24:48,789 --> 00:24:47,039

where the events of high strangeness or

730

00:24:50,710 --> 00:24:48,799

as he said very frankly is it something

731

00:24:52,710 --> 00:24:50,720

that could be akin or put down to some

732

00:24:53,590 --> 00:24:52,720

form of mental illness or mental health

733

00:24:56,630 --> 00:24:53,600

issue

734

00:24:57,990 --> 00:24:56,640

and that's fantastic to hear because

735

00:24:59,669 --> 00:24:58,000

i think we don't hear that enough that

736

00:25:00,950 --> 00:24:59,679

there are those instances where is that

737

00:25:02,710 --> 00:25:00,960

something that's happened or has it been

738

00:25:04,710 --> 00:25:02,720

a dramatic moment in someone's life

739

00:25:06,710 --> 00:25:04,720

where this is manifested or

740

00:25:09,190 --> 00:25:06,720

is it truly something

741

00:25:12,070 --> 00:25:09,200

of high strangeness unidentified ufo

742

00:25:13,750 --> 00:25:12,080

related um so that that was nice to hear

743

00:25:15,590 --> 00:25:13,760

and all of that has helped sean better

744

00:25:16,789 --> 00:25:15,600

understand his own memories and help

745

00:25:18,710 --> 00:25:16,799

guide him to kind of where he's at in

746

00:25:21,110 --> 00:25:18,720

terms of the conversation where sean

747

00:25:22,870 --> 00:25:21,120

will still say on on these conversations

748

00:25:24,950 --> 00:25:22,880

i still don't necessarily know what

749

00:25:27,110 --> 00:25:24,960

we're dealing with here

750

00:25:28,390 --> 00:25:27,120

but through his own experiences it's

751
00:25:30,950 --> 00:25:28,400
going to help them come to a place where

752
00:25:33,669 --> 00:25:30,960
they can guide and cannot understand it

753
00:25:35,909 --> 00:25:33,679
skyfort is of course brought up by jimmy

754
00:25:37,590 --> 00:25:35,919
church sean addresses the rumors around

755
00:25:39,909 --> 00:25:37,600
it and jimmy mentioned you know was this

756
00:25:42,789 --> 00:25:39,919
an agency company is it some you know

757
00:25:44,390 --> 00:25:42,799
elaborate setup and and sean you know

758
00:25:46,310 --> 00:25:44,400
quashes that pretty pretty well just

759
00:25:48,710 --> 00:25:46,320
like no of course not it was it was

760
00:25:50,070 --> 00:25:48,720
designed to help lou um

761
00:25:51,830 --> 00:25:50,080
go and listen to that you'll hear that

762
00:25:54,630 --> 00:25:51,840
explanation i would hope to have sean on

763
00:25:57,029 --> 00:25:54,640

anyway to discuss that with us himself

764

00:25:59,190 --> 00:25:57,039

it was arranged a few a while ago we had

765

00:26:01,590 --> 00:25:59,200

to reschedule so hopefully get sean back

766

00:26:03,430 --> 00:26:01,600

on asap to discuss that as well but it's

767

00:26:06,470 --> 00:26:03,440

a good conversation again folks please

768

00:26:08,390 --> 00:26:06,480

go check it out um i enjoyed it the

769

00:26:09,990 --> 00:26:08,400

jimmy church does some good interviews

770

00:26:11,669 --> 00:26:10,000

still there's a reason he's got as many

771

00:26:13,669 --> 00:26:11,679

subscribers as he has for as long as he

772

00:26:15,430 --> 00:26:13,679

has so this is definitely what i would

773

00:26:16,870 --> 00:26:15,440

recommend folks go and check out if

774

00:26:18,710 --> 00:26:16,880

you're looking for some stuff this this

775

00:26:21,029 --> 00:26:18,720

weekend to watch and listen to other

776

00:26:22,310 --> 00:26:21,039

than ourselves of course dan anything to

777

00:26:23,830 --> 00:26:22,320

add on that one

778

00:26:26,310 --> 00:26:23,840

i know that this is another one that's

779

00:26:29,110 --> 00:26:26,320

queued up for me uh you know i speak to

780

00:26:31,190 --> 00:26:29,120

sean almost every day so

781

00:26:32,630 --> 00:26:31,200

it's it's really lovely to hear him in a

782

00:26:33,990 --> 00:26:32,640

set in like jimmy church where he gets

783

00:26:35,909 --> 00:26:34,000

to speak to a bigger audience so

784

00:26:37,669 --> 00:26:35,919

tomorrow i plan to sit out in the

785

00:26:39,350 --> 00:26:37,679

sunshine and have a proper in-depth

786

00:26:40,549 --> 00:26:39,360

listen and message him along the way and

787

00:26:41,909 --> 00:26:40,559

ask what did you mean here and really

788

00:26:43,510 --> 00:26:41,919

drill down

789

00:26:45,510 --> 00:26:43,520

nice i'll let you take away the next

790

00:26:48,630 --> 00:26:45,520

part um on the you mentioned earlier on

791

00:26:49,990 --> 00:26:48,640

the bigelow aerospace dirts um we're

792

00:26:51,590 --> 00:26:50,000

going to cover these in the coming weeks

793

00:26:53,350 --> 00:26:51,600

in detail this is something that came up

794

00:26:54,710 --> 00:26:53,360

and you said to me straight away

795

00:26:58,230 --> 00:26:54,720

there's definitely something here for us

796

00:27:00,549 --> 00:26:58,240

to talk about in detail at length uh on

797

00:27:02,070 --> 00:27:00,559

its own show and it's on merit um but we

798

00:27:03,510 --> 00:27:02,080

just need the time to put that together

799

00:27:05,190 --> 00:27:03,520

folks and obviously do it justice for

800

00:27:06,870 --> 00:27:05,200

you as well because there's plenty of

801
00:27:08,390 --> 00:27:06,880
really interesting information and

802
00:27:11,669 --> 00:27:08,400
potential discussions within those

803
00:27:13,750 --> 00:27:11,679
documents but we would just have to

804
00:27:16,310 --> 00:27:13,760
batter it out and just talk nonsense

805
00:27:17,830 --> 00:27:16,320
about it just now so um yeah there's

806
00:27:19,590 --> 00:27:17,840
there's a lot to cover it's all very

807
00:27:21,590 --> 00:27:19,600
scientific and and what we're going to

808
00:27:23,590 --> 00:27:21,600
do is basically break them down into

809
00:27:25,350 --> 00:27:23,600
four groups do four-part show um just

810
00:27:27,110 --> 00:27:25,360
diving into a few of them summarizing

811
00:27:30,149 --> 00:27:27,120
the papers what use it might have been

812
00:27:31,669 --> 00:27:30,159
to a uap program um and who the author

813
00:27:33,110 --> 00:27:31,679

was basically i i think that would be

814

00:27:34,470 --> 00:27:33,120

really interesting

815

00:27:35,669 --> 00:27:34,480

and i haven't seen it done anywhere else

816

00:27:38,870 --> 00:27:35,679

so i think it would inform the

817

00:27:42,310 --> 00:27:38,880

conversation but in a nutshell um

818

00:27:45,669 --> 00:27:42,320

back when bigelow was involved with

819

00:27:48,310 --> 00:27:45,679

the dod and doing the awsap program

820

00:27:49,590 --> 00:27:48,320

they produced 38 defense intelligence

821

00:27:52,549 --> 00:27:49,600

reference documents so basically

822

00:27:53,830 --> 00:27:52,559

scientific reports that were paid for by

823

00:27:54,870 --> 00:27:53,840

the taxpayers

824

00:27:57,190 --> 00:27:54,880

and

825

00:27:58,310 --> 00:27:57,200

yeah they they would explore various

826
00:28:00,789 --> 00:27:58,320
different

827
00:28:02,630 --> 00:28:00,799
ideas based around exotic propulsion or

828
00:28:04,630 --> 00:28:02,640
energy technologies and various other

829
00:28:06,389 --> 00:28:04,640
things one paper in the pile was

830
00:28:07,990 --> 00:28:06,399
classified but there's an unclassified

831
00:28:09,909 --> 00:28:08,000
version included no one kind of knows

832
00:28:12,470 --> 00:28:09,919
really which is which but it might be

833
00:28:15,830 --> 00:28:12,480
the kick green biological effects and

834
00:28:17,750 --> 00:28:15,840
electromagnetic frequencies

835
00:28:19,830 --> 00:28:17,760
in in this list we we've only had about

836
00:28:22,549 --> 00:28:19,840
16 or 17 of them before but now we have

837
00:28:25,750 --> 00:28:22,559
37 so all of them pretty much yeah and

838
00:28:27,830 --> 00:28:25,760

and we can see that uap aren't really

839

00:28:29,430 --> 00:28:27,840

mentioned specifically throughout this

840

00:28:31,510 --> 00:28:29,440

this set of reports

841

00:28:34,070 --> 00:28:31,520

but reading between the lines a lot of

842

00:28:36,710 --> 00:28:34,080

this technology is it's all sci-fi stuff

843

00:28:37,510 --> 00:28:36,720

that very much is is a uap

844

00:28:39,590 --> 00:28:37,520

uh

845

00:28:42,630 --> 00:28:39,600

adjacent i'll say i mean there are

846

00:28:45,190 --> 00:28:42,640

papers on warp drives biomaterials

847

00:28:47,269 --> 00:28:45,200

advanced aerospace meta materials

848

00:28:48,070 --> 00:28:47,279

getting energy from the quantum vacuum

849

00:28:51,190 --> 00:28:48,080

um

850

00:28:52,950 --> 00:28:51,200

gravity wave communications and it it's

851

00:28:54,630 --> 00:28:52,960

just yeah there's a smorgasbord of

852

00:28:57,110 --> 00:28:54,640

things to talk about but the one that

853

00:28:59,510 --> 00:28:57,120

kind of tips their hand i think is

854

00:29:01,510 --> 00:28:59,520

there's a paper where

855

00:29:03,909 --> 00:29:01,520

it wouldn't be included if this was just

856

00:29:06,070 --> 00:29:03,919

about advanced aerospace

857

00:29:08,149 --> 00:29:06,080

the paper talks about the drake equation

858

00:29:09,510 --> 00:29:08,159

and the drake equation is essentially

859

00:29:11,110 --> 00:29:09,520

it's an argument used to estimate the

860

00:29:12,870 --> 00:29:11,120

number of

861

00:29:14,630 --> 00:29:12,880

extraterrestrial civilizations in our

862

00:29:16,070 --> 00:29:14,640

galaxy intelligence

863

00:29:17,990 --> 00:29:16,080

other than us

864

00:29:20,310 --> 00:29:18,000

the the equation breaks down i'm going

865

00:29:21,669 --> 00:29:20,320

to get a little nerdy here just because

866

00:29:23,909 --> 00:29:21,679

everyone hears it and people don't

867

00:29:26,789 --> 00:29:23,919

really get the details all the time but

868

00:29:28,710 --> 00:29:26,799

it is the number of civilizations

869

00:29:31,269 --> 00:29:28,720

in the milky way whose electromagnetic

870

00:29:32,950 --> 00:29:31,279

emissions would be detectable

871

00:29:34,950 --> 00:29:32,960

is equal to

872

00:29:37,669 --> 00:29:34,960

the rate of formation of stars suitable

873

00:29:38,549 --> 00:29:37,679

for the development of intelligent life

874

00:29:39,750 --> 00:29:38,559

times

875

00:29:42,070 --> 00:29:39,760

the number of those stars that would

876

00:29:43,750 --> 00:29:42,080

have a planetary system times the number

877

00:29:46,070 --> 00:29:43,760

of those planets per solar system with

878

00:29:48,310 --> 00:29:46,080

an environment suitable for life

879

00:29:49,909 --> 00:29:48,320

times the fraction of suitable planets

880

00:29:51,110 --> 00:29:49,919

on which life actually appears which

881

00:29:52,549 --> 00:29:51,120

might be like one percent of what we're

882

00:29:53,350 --> 00:29:52,559

talking about so far

883

00:29:54,789 --> 00:29:53,360

uh

884

00:29:56,470 --> 00:29:54,799

times the fraction of life bearing

885

00:29:59,029 --> 00:29:56,480

planets on which intelligent life

886

00:30:00,789 --> 00:29:59,039

actually emerges times the fraction of

887

00:30:02,950 --> 00:30:00,799

civilizations that develop a technology

888

00:30:05,430 --> 00:30:02,960

that produces detectable signs of their

889

00:30:07,750 --> 00:30:05,440

existence that we can pick up

890

00:30:10,630 --> 00:30:07,760

times the average length of time such

891

00:30:12,470 --> 00:30:10,640

civilizations would produce those signs

892

00:30:13,750 --> 00:30:12,480

so it's pretty nerdy but it kind of

893

00:30:14,789 --> 00:30:13,760

tracks right you can kind of follow it

894

00:30:16,549 --> 00:30:14,799

through and go okay yeah that makes

895

00:30:19,190 --> 00:30:16,559

sense even if we plug in one percent to

896

00:30:20,789 --> 00:30:19,200

this it shows that there should be the

897

00:30:22,470 --> 00:30:20,799

basically we are not alone and for some

898

00:30:24,070 --> 00:30:22,480

reason we're just not seeing the life

899

00:30:25,510 --> 00:30:24,080

out there

900

00:30:27,990 --> 00:30:25,520

why that would be included when they're

901
00:30:30,230 --> 00:30:28,000
talking about you know advanced planes

902
00:30:31,669 --> 00:30:30,240
is beyond me this is one of the signs

903
00:30:33,830 --> 00:30:31,679
that just tips their hand to say yeah or

904
00:30:35,990 --> 00:30:33,840
sap was looking at some very strange

905
00:30:37,830 --> 00:30:36,000
stuff and and definitely studying high

906
00:30:39,269 --> 00:30:37,840
strangeness and uap

907
00:30:41,350 --> 00:30:39,279
so you can see why we want to do that

908
00:30:42,870 --> 00:30:41,360
justice and and dig in a few episodes

909
00:30:45,350 --> 00:30:42,880
about it as well so that'll be coming up

910
00:30:47,029 --> 00:30:45,360
folks we look forward to that um

911
00:30:49,909 --> 00:30:47,039
another country getting involved in the

912
00:30:51,190 --> 00:30:49,919
ufo discussion properly and through

913
00:30:55,669 --> 00:30:51,200

ronnie verne

914

00:30:58,630 --> 00:30:55,679

link in the description on twitter and

915

00:31:00,789 --> 00:30:58,640

he reported that brazilians own congress

916

00:31:03,350 --> 00:31:00,799

approved a request by multiple senators

917

00:31:05,909 --> 00:31:03,360

back in mid-march for a special session

918

00:31:08,149 --> 00:31:05,919

of discussion about uap it's due to take

919

00:31:10,710 --> 00:31:08,159

place near the 75th anniversary of world

920

00:31:12,470 --> 00:31:10,720

ufo day which can be the 24th or june or

921

00:31:15,430 --> 00:31:12,480

second of july depending on the

922

00:31:16,950 --> 00:31:15,440

celebration so late june early july i

923

00:31:18,230 --> 00:31:16,960

think that's one to keep an eye on folks

924

00:31:21,110 --> 00:31:18,240

south american countries have a

925

00:31:23,590 --> 00:31:21,120

wonderful perspective on ufos it can be

926
00:31:27,750 --> 00:31:23,600
very different to what we experience in

927
00:31:32,070 --> 00:31:30,149
riddled is the word i would use

928
00:31:34,870 --> 00:31:32,080
riddled with ufos dan came back riddled

929
00:31:35,590 --> 00:31:34,880
with ufos from columbia um

930
00:31:37,029 --> 00:31:35,600
so

931
00:31:38,310 --> 00:31:37,039
i think in terms of the conversation

932
00:31:39,830 --> 00:31:38,320
you're going to see a little bit of that

933
00:31:42,389 --> 00:31:39,840
from a colombian point of view and

934
00:31:44,630 --> 00:31:42,399
phenomenology with dan ashfini and co

935
00:31:46,549 --> 00:31:44,640
and all those all those folks early may

936
00:31:48,789 --> 00:31:46,559
but it's great to see brazil getting

937
00:31:50,149 --> 00:31:48,799
involved in the conversation because it

938
00:31:52,230 --> 00:31:50,159

would be good to see

939

00:31:54,870 --> 00:31:52,240

if something more could come from that

940

00:31:57,509 --> 00:31:54,880

you know public hearing if they end up

941

00:31:59,350 --> 00:31:57,519

setting up their own office or task

942

00:32:02,549 --> 00:31:59,360

force and there's communication between

943

00:32:04,149 --> 00:32:02,559

the us office and brazil and again we

944

00:32:05,990 --> 00:32:04,159

always say if the uk would get involved

945

00:32:07,750 --> 00:32:06,000

and do something like that as well it

946

00:32:10,230 --> 00:32:07,760

just seems a million miles away for us

947

00:32:12,070 --> 00:32:10,240

and in the uk that could happen but look

948

00:32:13,830 --> 00:32:12,080

at brazil paving the way i think there

949

00:32:14,710 --> 00:32:13,840

was at least seven senators i saw named

950

00:32:16,630 --> 00:32:14,720

i would have butchered the

951
00:32:18,230 --> 00:32:16,640
pronunciations which is why i didn't put

952
00:32:20,149 --> 00:32:18,240
all their names in there but if you

953
00:32:22,710 --> 00:32:20,159
follow at ronnie vernet at

954
00:32:24,710 --> 00:32:22,720
r-o-n-y-v-e-r-n-e-t

955
00:32:26,389 --> 00:32:24,720
on twitter you'll see the threads he's

956
00:32:28,549 --> 00:32:26,399
done some wonderful work on that and

957
00:32:30,230 --> 00:32:28,559
coming up soon uh ronnie will hopefully

958
00:32:31,750 --> 00:32:30,240
be on the podcast to talk about that

959
00:32:33,990 --> 00:32:31,760
when he's when he's ready and got all

960
00:32:35,509 --> 00:32:34,000
the information he requires so um top

961
00:32:37,990 --> 00:32:35,519
work being done there definitely an

962
00:32:39,509 --> 00:32:38,000
account worth following um

963
00:32:41,350 --> 00:32:39,519

and again you can see the progress is

964

00:32:42,789 --> 00:32:41,360

being made in the subject folks outside

965

00:32:44,789 --> 00:32:42,799

of the the bubbles we can all kind of

966

00:32:47,750 --> 00:32:44,799

live in and we touched on this one

967

00:32:49,430 --> 00:32:47,760

earlier classified briefing a classified

968

00:32:51,430 --> 00:32:49,440

update is due the first thing today

969

00:32:53,430 --> 00:32:51,440

update by the 27th of march it may or

970

00:32:55,029 --> 00:32:53,440

may not have happened already and

971

00:32:56,470 --> 00:32:55,039

there's no reason we should see anything

972

00:32:58,789 --> 00:32:56,480

folks as we mentioned before

973

00:33:01,110 --> 00:32:58,799

unfortunately the usual suspects will of

974

00:33:04,310 --> 00:33:01,120

course be involved in the foyer process

975

00:33:05,350 --> 00:33:04,320

again other folks should do the same um

976

00:33:06,870 --> 00:33:05,360

dan

977

00:33:09,110 --> 00:33:06,880

what i would hope they'll be sort of

978

00:33:11,830 --> 00:33:09,120

touched on this is whatever comes

979

00:33:14,470 --> 00:33:11,840

out in the background could lead the

980

00:33:16,789 --> 00:33:14,480

direction of what's going to happen next

981

00:33:19,830 --> 00:33:16,799

in terms of the working offices as well

982

00:33:22,070 --> 00:33:19,840

aoi msge whatever might be happening

983

00:33:23,830 --> 00:33:22,080

these reports could certainly help

984

00:33:25,909 --> 00:33:23,840

push forward okay we're going to go with

985

00:33:28,149 --> 00:33:25,919

this direction we're going to look into

986

00:33:29,909 --> 00:33:28,159

this if this is happening right now for

987

00:33:31,590 --> 00:33:29,919

example say they find and i'm just going

988

00:33:33,669 --> 00:33:31,600

to spitball here i've not even noted

989

00:33:35,430 --> 00:33:33,679

this down but will they find out in the

990

00:33:37,909 --> 00:33:35,440

last couple of weeks especially over the

991

00:33:39,430 --> 00:33:37,919

course of february there have been an

992

00:33:41,590 --> 00:33:39,440

uptick in

993

00:33:44,950 --> 00:33:41,600

tic tac sightings off the coast of san

994

00:33:47,110 --> 00:33:44,960

diego with different navy groups maybe

995

00:33:48,710 --> 00:33:47,120

that encourages them to do more quicker

996

00:33:49,830 --> 00:33:48,720

it might help in terms of funding it

997

00:33:51,590 --> 00:33:49,840

might help them

998

00:33:54,070 --> 00:33:51,600

point the money they may have to spend

999

00:33:55,350 --> 00:33:54,080

in that direction who knows but it's

1000

00:33:57,830 --> 00:33:55,360

certainly going to have some form of

1001

00:33:59,430 --> 00:33:57,840

impact isn't it yeah absolutely one of

1002

00:34:00,950 --> 00:33:59,440

the big things from the the bills for me

1003

00:34:03,669 --> 00:34:00,960

the past were that they get to name and

1004

00:34:05,350 --> 00:34:03,679

shame in these briefings and reports

1005

00:34:06,870 --> 00:34:05,360

non-cooperative organizations so if the

1006

00:34:08,629 --> 00:34:06,880

airport air force doesn't stop playing

1007

00:34:09,990 --> 00:34:08,639

ball there's actually a legal framework

1008

00:34:11,909 --> 00:34:10,000

that they can pressure them through now

1009

00:34:13,990 --> 00:34:11,919

and you know it's not likely that people

1010

00:34:15,510 --> 00:34:14,000

go to jail but they those threats exist

1011

00:34:16,950 --> 00:34:15,520

now because the law has been passed

1012

00:34:18,310 --> 00:34:16,960

that's what it is we haven't had this

1013

00:34:20,470 --> 00:34:18,320

before it's amazing it's going to have

1014

00:34:22,069 --> 00:34:20,480

such a big impact we we get a whole

1015

00:34:24,230 --> 00:34:22,079

bunch of reports i'm just going to put

1016

00:34:25,430 --> 00:34:24,240

key dates here so you've already touched

1017

00:34:27,030 --> 00:34:25,440

on the one that's coming up the briefing

1018

00:34:30,069 --> 00:34:27,040

on the 27th or around the end of this

1019

00:34:31,750 --> 00:34:30,079

month then in june um we're going to

1020

00:34:33,510 --> 00:34:31,760

have the first classified quarterly

1021

00:34:35,270 --> 00:34:33,520

report that's based on the legislation

1022

00:34:38,790 --> 00:34:35,280

that's just passed that required four

1023

00:34:41,270 --> 00:34:38,800

reports a year all classified um we'll

1024

00:34:44,069 --> 00:34:41,280

have another one of those in september

1025

00:34:47,109 --> 00:34:44,079

then also in september we'll have a

1026
00:34:48,629 --> 00:34:47,119
classified semi-semi-annual briefing for

1027
00:34:51,829 --> 00:34:48,639
the stuff that passed over christmas so

1028
00:34:55,270 --> 00:34:51,839
that's the the march thing um as well

1029
00:34:56,629 --> 00:34:55,280
then 31st of october we've got the

1030
00:34:57,589 --> 00:34:56,639
first

1031
00:34:58,710 --> 00:34:57,599
of

1032
00:35:00,870 --> 00:34:58,720
four because that's how long this

1033
00:35:03,349 --> 00:35:00,880
program is going to last till 2026. the

1034
00:35:05,829 --> 00:35:03,359
first of four unclassified reports that

1035
00:35:08,069 --> 00:35:05,839
may include a classified annex um and

1036
00:35:09,829 --> 00:35:08,079
that's what we'll actually see uh as the

1037
00:35:11,670 --> 00:35:09,839
public is our next report then in

1038
00:35:13,910 --> 00:35:11,680

december we'll get a third classified

1039

00:35:15,349 --> 00:35:13,920

coursely report and then the end of that

1040

00:35:17,829 --> 00:35:15,359

quarter which you know will bump up

1041

00:35:20,950 --> 00:35:17,839

against march again probably um

1042

00:35:22,710 --> 00:35:20,960

we'll get our last report from the iaa

1043

00:35:24,230 --> 00:35:22,720

and then those six states will kind of

1044

00:35:25,829 --> 00:35:24,240

pretty much cycle out year over year for

1045

00:35:26,870 --> 00:35:25,839

the next four years now which is pretty

1046

00:35:28,870 --> 00:35:26,880

exciting

1047

00:35:31,109 --> 00:35:28,880

we we were stoked to get one preliminary

1048

00:35:33,589 --> 00:35:31,119

report now now we're getting six updates

1049

00:35:35,030 --> 00:35:33,599

a year to the right people and one of

1050

00:35:36,790 --> 00:35:35,040

those is for us

1051

00:35:38,150 --> 00:35:36,800

yeah i've got a good feeling from april

1052

00:35:39,270 --> 00:35:38,160

and then from the next couple of days

1053

00:35:41,190 --> 00:35:39,280

we're going to start hearing some more

1054

00:35:43,829 --> 00:35:41,200

information coming out i i would like to

1055

00:35:45,349 --> 00:35:43,839

think this is the start of the the end

1056

00:35:46,710 --> 00:35:45,359

of that down period everyone's talked

1057

00:35:48,150 --> 00:35:46,720

about and with the more information

1058

00:35:50,870 --> 00:35:48,160

coming out the more discussion or

1059

00:35:52,310 --> 00:35:50,880

valuable discussion will be online and

1060

00:35:55,190 --> 00:35:52,320

the more those big names and players

1061

00:35:57,349 --> 00:35:55,200

will have more to talk about um so yeah

1062

00:35:59,030 --> 00:35:57,359

and imagine that amongst all this we get

1063

00:36:01,829 --> 00:35:59,040

project galileo taking a picture of a

1064

00:36:03,109 --> 00:36:01,839

uap or uapx showing people that actually

1065

00:36:05,030 --> 00:36:03,119

you can coax these things out of the

1066

00:36:07,109 --> 00:36:05,040

water with decent frequency in the right

1067

00:36:09,190 --> 00:36:07,119

places it it's going to change the game

1068

00:36:10,950 --> 00:36:09,200

for what is including these reports and

1069

00:36:12,069 --> 00:36:10,960

what the officials want to know

1070

00:36:13,910 --> 00:36:12,079

definitely and that's a nice little

1071

00:36:15,910 --> 00:36:13,920

segue into one of the last points um if

1072

00:36:17,190 --> 00:36:15,920

you hold on folks for the last part i'll

1073

00:36:18,630 --> 00:36:17,200

be discussing and telling you some of

1074

00:36:20,630 --> 00:36:18,640

the guests coming up i've booked in some

1075

00:36:22,550 --> 00:36:20,640

names finally and some good ones in

1076

00:36:23,829 --> 00:36:22,560

there too they're all good ones um but

1077

00:36:25,270 --> 00:36:23,839

if you're looking for something else to

1078

00:36:27,030 --> 00:36:25,280

watch this weekend and you've watched

1079

00:36:30,230 --> 00:36:27,040

the the latest speed of interviews from

1080

00:36:32,470 --> 00:36:30,240

leila zondo sean cahill and others then

1081

00:36:35,109 --> 00:36:32,480

you have the scu

1082

00:36:38,270 --> 00:36:35,119

um panel on the 27th of march between

1083

00:36:40,150 --> 00:36:38,280

seven and nine pm central time that's at

1084

00:36:42,710 --> 00:36:40,160

explorescu.org i'll have the link in the

1085

00:36:44,950 --> 00:36:42,720

description it's a round table on uap

1086

00:36:46,230 --> 00:36:44,960

enigma versus stigma and then the

1087

00:36:48,630 --> 00:36:46,240

following day on the monday i'm

1088

00:36:51,030 --> 00:36:48,640

interviewing rich hoffman of scu so any

1089

00:36:53,670 --> 00:36:51,040

questions for rich get those over at ufo

1090

00:36:55,430 --> 00:36:53,680

uap am

1091

00:36:57,670 --> 00:36:55,440

got a fascinating background as well so

1092

00:36:59,589 --> 00:36:57,680

that that's one they look forward to um

1093

00:37:02,150 --> 00:36:59,599

i'll also give a shout out to nathan

1094

00:37:03,910 --> 00:37:02,160

from calling all beings away soul if you

1095

00:37:06,310 --> 00:37:03,920

speak to nathan online he's really good

1096

00:37:08,710 --> 00:37:06,320

and he's on our discord all the time um

1097

00:37:11,270 --> 00:37:08,720

the rice university lectures are now

1098

00:37:12,950 --> 00:37:11,280

available online which include one from

1099

00:37:14,069 --> 00:37:12,960

jacques valley as well so definitely

1100

00:37:15,510 --> 00:37:14,079

worth checking those out if you're

1101

00:37:17,470 --> 00:37:15,520

looking for some stuff to produce

1102

00:37:18,870 --> 00:37:17,480

through it's at

1103

00:37:20,710 --> 00:37:18,880

impossiblearchives.race.edu forward

1104

00:37:22,230 --> 00:37:20,720

slash blah blah you're not going to

1105

00:37:24,150 --> 00:37:22,240

remember that the link will be in the

1106

00:37:24,870 --> 00:37:24,160

description folks more for you to check

1107

00:37:27,349 --> 00:37:24,880

out

1108

00:37:30,069 --> 00:37:27,359

um finally some upcoming guests so i've

1109

00:37:32,710 --> 00:37:30,079

just spoken to jazz show yesterday as we

1110

00:37:34,790 --> 00:37:32,720

record this that'll be out on patreon

1111

00:37:35,990 --> 00:37:34,800

spotify premium all that good stuff and

1112

00:37:38,310 --> 00:37:36,000

the next

1113

00:37:39,829 --> 00:37:38,320

today basically on friday the 25th of

1114

00:37:42,069 --> 00:37:39,839

march it was a really interesting

1115

00:37:43,829 --> 00:37:42,079

conversation great to speak to jazz uh a

1116

00:37:46,230 --> 00:37:43,839

seasoned journalist with his you know

1117

00:37:48,550 --> 00:37:46,240

military background and we had a really

1118

00:37:50,150 --> 00:37:48,560

good kind of back and forward jazz also

1119

00:37:52,230 --> 00:37:50,160

opened up and shared in a lot of detail

1120

00:37:53,990 --> 00:37:52,240

has five experiences that he had with

1121

00:37:55,030 --> 00:37:54,000

between him and his wife and the last

1122

00:37:56,550 --> 00:37:55,040

couple of years that were really

1123

00:37:58,630 --> 00:37:56,560

interesting to hear a real mix of

1124

00:38:00,390 --> 00:37:58,640

experiences in there as well and so

1125

00:38:02,390 --> 00:38:00,400

that'll be available very soon and it'll

1126
00:38:04,950 --> 00:38:02,400
be on monday for everyone on the free

1127
00:38:06,950 --> 00:38:04,960
feeds then i've got rich hoffman

1128
00:38:08,550 --> 00:38:06,960
of scu and he's got a fantastic

1129
00:38:10,470 --> 00:38:08,560
scientific background as well an

1130
00:38:11,750 --> 00:38:10,480
engineering background

1131
00:38:12,790 --> 00:38:11,760
get in touch if you get any questions

1132
00:38:14,870 --> 00:38:12,800
for rich

1133
00:38:17,030 --> 00:38:14,880
then i've got chris rutkowski his

1134
00:38:18,870 --> 00:38:17,040
interview is being recorded before rich

1135
00:38:20,790 --> 00:38:18,880
but will go after

1136
00:38:23,270 --> 00:38:20,800
if you remember when i spoke to daniel

1137
00:38:25,270 --> 00:38:23,280
otis uh chris rutkowski has been

1138
00:38:27,589 --> 00:38:25,280

involved in the research in canadian

1139

00:38:29,589 --> 00:38:27,599

ufos for nearly 20 years and he's got a

1140

00:38:31,670 --> 00:38:29,599

book coming out in the coming months on

1141

00:38:32,870 --> 00:38:31,680

that too so if you're canadian

1142

00:38:34,790 --> 00:38:32,880

particularly you might have a real

1143

00:38:37,270 --> 00:38:34,800

interest in that one chris is the go-to

1144

00:38:39,190 --> 00:38:37,280

guy he's got a lot of official documents

1145

00:38:40,550 --> 00:38:39,200

from the government as well in terms of

1146

00:38:43,030 --> 00:38:40,560

canadian ufos we're really looking

1147

00:38:44,870 --> 00:38:43,040

forward to that conversation um then

1148

00:38:46,150 --> 00:38:44,880

into the month i've got avi loeb who's

1149

00:38:48,069 --> 00:38:46,160

coming on to give us an update on the

1150

00:38:49,670 --> 00:38:48,079

galileo project i think it might be a

1151

00:38:51,670 --> 00:38:49,680

good time to get some questions in for

1152

00:38:53,510 --> 00:38:51,680

avi loeb looking forward to that one

1153

00:38:55,510 --> 00:38:53,520

it's been a while since we spoke to him

1154

00:38:58,950 --> 00:38:55,520

luella zondo is scheduled in for the

1155

00:39:01,430 --> 00:38:58,960

23rd of april so again folks i have a

1156

00:39:03,270 --> 00:39:01,440

ton of questions already for lou feel

1157

00:39:04,870 --> 00:39:03,280

free to send over any more but we'll

1158

00:39:07,670 --> 00:39:04,880

we'll do our best to get through what we

1159

00:39:09,349 --> 00:39:07,680

can with lou on that interview and then

1160

00:39:11,589 --> 00:39:09,359

one other interview for this month will

1161

00:39:13,750 --> 00:39:11,599

be a remote viewer from the uk who has

1162

00:39:16,150 --> 00:39:13,760

an interest and historical involvement

1163

00:39:17,349 --> 00:39:16,160

in ufos and remote viewing as well so

1164

00:39:19,430 --> 00:39:17,359

i'm really looking forward to that i'll

1165

00:39:21,270 --> 00:39:19,440

wait till i've got a date locked in and

1166

00:39:23,670 --> 00:39:21,280

which hopefully will be today to have

1167

00:39:25,990 --> 00:39:23,680

that conversation with everyone but

1168

00:39:28,550 --> 00:39:26,000

that's pretty much what's coming up uh

1169

00:39:30,470 --> 00:39:28,560

dan anything anymore for any more from

1170

00:39:31,990 --> 00:39:30,480

you no i think that's everything the

1171

00:39:33,670 --> 00:39:32,000

james webb hasn't exploded it's all

1172

00:39:36,310 --> 00:39:33,680

going well that's the most update you

1173

00:39:37,510 --> 00:39:36,320

need it's yeah awesome well thank you

1174

00:39:39,990 --> 00:39:37,520

very much folks and if you've made it

1175

00:39:42,150 --> 00:39:40,000

this far just a reminder again if you

1176
00:39:43,829 --> 00:39:42,160
are on youtube can you go and subscribe

1177
00:39:45,670 --> 00:39:43,839
to the channel that would be fantastic

1178
00:39:47,910 --> 00:39:45,680
if you're watching the stuff on there

1179
00:39:50,630 --> 00:39:47,920
same with you if you're on apple or

1180
00:39:52,390 --> 00:39:50,640
spotify can you go on and subscribe on

1181
00:39:54,390 --> 00:39:52,400
those channels and if you can leave as a

1182
00:39:55,589 --> 00:39:54,400
review as well it's always greatly

1183
00:39:57,270 --> 00:39:55,599
greatly appreciated it makes a

1184
00:39:59,270 --> 00:39:57,280
difference with apple and spotify's

1185
00:40:01,190 --> 00:39:59,280
charts as well um

1186
00:40:02,630 --> 00:40:01,200
we're a small podcast and it's difficult

1187
00:40:04,470 --> 00:40:02,640
and those signs charts with all those

1188
00:40:06,390 --> 00:40:04,480

celebrities to to kind of get any

1189

00:40:08,870 --> 00:40:06,400

traction and we managed to do it quite

1190

00:40:11,109 --> 00:40:08,880

often so those reviews and the

1191

00:40:12,870 --> 00:40:11,119

interaction on those means a lot and

1192

00:40:15,030 --> 00:40:12,880

makes a massive difference as has the

1193

00:40:16,710 --> 00:40:15,040

youtube channel with so many of you on

1194

00:40:18,230 --> 00:40:16,720

youtube watching and coming over from

1195

00:40:19,990 --> 00:40:18,240

toy and all that kind of stuff as well

1196

00:40:21,670 --> 00:40:20,000

so yeah it means a lot it's it's very

1197

00:40:23,750 --> 00:40:21,680

much appreciated it all really helps in

1198

00:40:24,470 --> 00:40:23,760

terms of when we reach out to guests as

1199

00:40:26,470 --> 00:40:24,480

well

1200

00:40:28,950 --> 00:40:26,480

you know if we maybe for a day overtake

1201
00:40:30,470 --> 00:40:28,960
brian cox's podcast we get to go oh hey

1202
00:40:32,470 --> 00:40:30,480
hi you might have seen us in the chats

1203
00:40:34,230 --> 00:40:32,480
you know and it's just an easier way to

1204
00:40:36,230 --> 00:40:34,240
connect so yeah it all really helps in

1205
00:40:39,349 --> 00:40:36,240
ways that just you know people people

1206
00:40:41,190 --> 00:40:39,359
aren't even aware of 100 folks exciting

1207
00:40:42,710 --> 00:40:41,200
times ahead thanks stan for joining me

1208
00:40:44,150 --> 00:40:42,720
been a pleasure thank you there was a

1209
00:40:46,069 --> 00:40:44,160
lot to go through but uh we got there

1210
00:40:47,589 --> 00:40:46,079
good job anyways enjoy your weekends

1211
00:40:48,870 --> 00:40:47,599
folks and let us know if you listen to

1212
00:40:49,990 --> 00:40:48,880
any of those interviews and what your

1213
00:40:52,069 --> 00:40:50,000

thoughts were

1214

00:40:54,069 --> 00:40:52,079

that is all for this week's show thank

1215

00:40:56,069 --> 00:40:54,079

you very much for listening please

1216

00:40:58,710 --> 00:40:56,079

remember to leave the podcast to review

1217

00:41:01,030 --> 00:40:58,720

on your chosen platform you can like

1218

00:41:02,950 --> 00:41:01,040

retweet and subscribe that would all be

1219

00:41:05,109 --> 00:41:02,960

very much appreciated the shows are

1220

00:41:06,630 --> 00:41:05,119

being uploaded onto youtube as we speak

1221

00:41:09,109 --> 00:41:06,640

more and more you can sign up at

1222

00:41:11,829 --> 00:41:09,119

patreon.com forward slash that ufo

1223

00:41:14,069 --> 00:41:11,839

podcast to access shows ad free as well

1224

00:41:16,870 --> 00:41:14,079

please get in touch on twitter facebook

1225

00:41:20,550 --> 00:41:16,880

instagram that ufo podcast of course on

1226

00:41:22,550 --> 00:41:20,560

twitter it's at ufo uap am and again

1227

00:41:25,300 --> 00:41:22,560

folks as always keep looking up you

1228

00:41:32,870 --> 00:41:25,310

never know what you might see

1229

00:41:32,880 --> 00:41:46,230

it

1230

00:41:46,240 --> 00:41:52,360

i don't think he expected

1231

00:41:52,370 --> 00:42:01,349

[Music]

1232

00:42:22,069 --> 00:42:02,790

i can't imagine how it could have been

1233

00:42:31,420 --> 00:42:23,430

there was something on my head and

1234

00:42:45,109 --> 00:42:40,670

[Music]

1235

00:42:51,890 --> 00:42:45,119

if you really want to know who i think

1236

00:43:22,870 --> 00:43:00,470

[Music]

1237

00:43:30,870 --> 00:43:24,930

what's that

1238

00:43:32,790 --> 00:43:30,880

[Music]

1239

00:43:39,560 --> 00:43:32,800

it wasn't a tic tac and not quite a
