00:00:00,530 --> 00:00:04,070

[Music]

2
00:00:07,349 --> 00:00:05,430

there's a whole fleet of them look on

3
00:00:09,509 --> 00:00:07,359

the sa

4
00:00:12,870 --> 00:00:09,519

my gosh they're all going against the

5
00:00:17,510 --> 00:00:15,030

it was basically a cube with inside of

6
00:00:22,540 --> 00:00:17,520

sphere where the points of the cube

7
00:00:35,750 --> 00:00:31,800

[Music]

8
00:00:37,270 --> 00:00:35,760

[Applause]

9
00:00:39,510 --> 00:00:37,280

so this isn't anything that just is

10
00:00:47,270 --> 00:00:39,520

limited to the united states it's a

11
00:00:51,430 --> 00:00:49,510

billionaire john caldwell once said if

12
00:00:54,069 --> 00:00:51,440

i'm lucky i only get recruitment wrong

13
00:00:56,310 --> 00:00:54,079

70 percent of the time but how is it we

14

00:00:57,990 --> 00:00:56,320

accept being wrong so much at a time

15

00:01:00,150 --> 00:00:58,000

with the cost of finding the right match

16

00:01:01,910 --> 00:01:00,160

for both people and organizations so

17

00:01:03,990 --> 00:01:01,920

high it's imperative that you choose the

18

00:01:05,990 --> 00:01:04,000

00:01:59,990 --> 00:01:58,000

hi everyone and welcome back to that ufo

44

00:02:02,069 --> 00:02:00,000

podcast my name is andy and i am

45

00:02:04,230 --> 00:02:02,079

delighted to welcome on the podcast with

46

00:02:06,630 --> 00:02:04,240

me a gentleman with a quite fantastic

47

00:02:08,550 --> 00:02:06,640

resume including being an executive

48

00:02:11,270 --> 00:02:08,560

board member of the scientific coalition

49

00:02:13,510 --> 00:02:11,280

for uap studies an it consultant and

50

00:02:16,150 --> 00:02:13,520

strategist a defense contractor of over

51
00:02:18,150 --> 00:02:16,160
20 years also with more than 50 years of

52
00:02:21,030 --> 00:02:18,160
experience researching and investigating

53
00:02:22,710 --> 00:02:21,040
the ufo subject among many other titles

54
00:02:24,630 --> 00:02:22,720
mr rich hoffman rich welcome to the

55
00:02:26,790 --> 00:02:24,640
podcast

56
00:02:29,110 --> 00:02:26,800
hi glad to be on with you andy how you

57
00:02:31,670 --> 00:02:29,120
doing

58
00:02:33,350 --> 00:02:31,680
i am very well um the

59
00:02:35,430 --> 00:02:33,360
most amount of work i had to put into

60
00:02:37,030 --> 00:02:35,440
the the interview for this one which was

61
00:02:38,949 --> 00:02:37,040
actually taking out some of your job

62
00:02:40,949 --> 00:02:38,959
titles and roles and descriptions to

63
00:02:42,949 --> 00:02:40,959

narrow that down to what i did get it to

64

00:02:46,710 --> 00:02:42,959

so um hopefully that was enough of an

65

00:02:50,949 --> 00:02:49,110

that's certainly fine

66

00:02:52,869 --> 00:02:50,959

no problem

67

00:02:53,830 --> 00:02:52,879

rich we have got a lot to discuss and i

68

00:02:57,030 --> 00:02:53,840

want to get straight into the

69

00:02:58,630 --> 00:02:57,040

conversation with you um i i struggled

70

00:03:00,390 --> 00:02:58,640

to narrow this one down as to what to

71

00:03:01,750 --> 00:03:00,400

talk about you know in what order

72

00:03:03,270 --> 00:03:01,760

because there was so much especially

73

00:03:05,110 --> 00:03:03,280

from a listener questions point of view

74

00:03:06,949 --> 00:03:05,120

that was sent over to me so hopefully

75

00:03:08,630 --> 00:03:06,959

i've managed to cover a good range but

76

00:03:10,550 --> 00:03:08,640

first off i want to talk about your

77

00:03:13,110 --> 00:03:10,560

background and what's led you to being

78

00:03:15,030 --> 00:03:13,120

so involved in the study of uap kicking

79

00:03:16,470 --> 00:03:15,040

off with what was your earliest memory

80

00:03:18,550 --> 00:03:16,480

of being interested in the subject of

81

00:03:20,630 --> 00:03:18,560

ufos

82

00:03:22,630 --> 00:03:20,640

well i got started in uh

83

00:03:25,190 --> 00:03:22,640

actually when i was 13 years old i was

84

00:03:27,509 --> 00:03:25,200

uh in an eighth grade science class

85

00:03:29,110 --> 00:03:27,519

uh and in the

86

00:03:31,350 --> 00:03:29,120

one of the assignments we had in the

87

00:03:33,190 --> 00:03:31,360

eighth grade science class was to do a

88

00:03:35,110 --> 00:03:33,200

10-minute presentation on a topic that

89

00:03:37,670 --> 00:03:35,120

was on a list

90

00:03:39,670 --> 00:03:37,680

i was late to the class and i got the

91

00:03:41,509 --> 00:03:39,680

list it looked like everybody else had

92

00:03:43,750 --> 00:03:41,519

signed up for that 10-minute

93

00:03:45,430 --> 00:03:43,760

presentation you had to do

94

00:03:48,229 --> 00:03:45,440

except nobody put their name next to the

95

00:03:49,190 --> 00:03:48,239

word ufo uh so i stuck my name next to

96

00:03:52,869 --> 00:03:49,200

it

97

00:03:54,789 --> 00:03:52,879

at the end of the class i went up to my

98

00:03:57,670 --> 00:03:54,799

eighth grade science teacher and said mr

99

00:03:59,830 --> 00:03:57,680

bayshore what what is the ufo and he

100

00:04:01,910 --> 00:03:59,840

said unidentified flying object i said

101

00:04:03,350 --> 00:04:01,920

well i don't know what is that

102

00:04:05,830 --> 00:04:03,360

and he said well it's a you know you

103

00:04:07,990 --> 00:04:05,840

ever heard of flying saucers and i said

104

00:04:09,509 --> 00:04:08,000

yeah i've heard of them i've science

105

00:04:12,869 --> 00:04:09,519

fiction shows and stuff like that said

106

00:04:15,830 --> 00:04:12,879

well go study it you know so i uh

107

00:04:17,830 --> 00:04:15,840

i took the assignment like you know

108

00:04:19,909 --> 00:04:17,840

lightly very lightly as a matter of fact

109

00:04:21,749 --> 00:04:19,919

i think i i might have got a book or

110

00:04:24,870 --> 00:04:21,759

said something about my trip to venus or

111

00:04:26,710 --> 00:04:24,880

something of that nature and uh anyway

112

00:04:29,270 --> 00:04:26,720

the bottom line is a couple weeks later

113

00:04:31,430 --> 00:04:29,280

i put together a very poor job of a

114

00:04:33,350 --> 00:04:31,440

presentation and i ended up getting

115

00:04:35,590 --> 00:04:33,360

actually what they call a d on that i

116

00:04:37,430 --> 00:04:35,600

almost failed it uh

117

00:04:39,590 --> 00:04:37,440

but i basically said that well if there

118

00:04:40,950 --> 00:04:39,600

was anything to this phenomena certainly

119

00:04:43,110 --> 00:04:40,960

everybody would know about it you'd hear

120

00:04:45,590 --> 00:04:43,120

a lot more about it and

121

00:04:47,590 --> 00:04:45,600

and obviously i didn't do my homework

122

00:04:49,830 --> 00:04:47,600

my teacher had done his homework he knew

123

00:04:52,150 --> 00:04:49,840

all about him of course and uh

124

00:04:53,909 --> 00:04:52,160

he was asking me questions like

125

00:04:56,710 --> 00:04:53,919

what about jet pursuits

126
00:04:59,110 --> 00:04:56,720
and shooting at them and i said what are

127
00:05:01,189 --> 00:04:59,120
you talking about i had never

128
00:05:03,510 --> 00:05:01,199
didn't read any of that

129
00:05:05,510 --> 00:05:03,520
and i just really couldn't answer many

130
00:05:07,670 --> 00:05:05,520
of the questions that he had because he

131
00:05:09,990 --> 00:05:07,680
was very familiar with the topic

132
00:05:12,870 --> 00:05:10,000
well anyway make a long story short i

133
00:05:14,710 --> 00:05:12,880
went home that evening

134
00:05:15,990 --> 00:05:14,720
and uh or at least

135
00:05:17,990 --> 00:05:16,000
after getting the d

136
00:05:19,510 --> 00:05:18,000
uh it might not have been that evening

137
00:05:20,390 --> 00:05:19,520
but it might have been just right after

138
00:05:24,070 --> 00:05:20,400

that

139

00:05:26,870 --> 00:05:24,080

uh on the evening news was a story about

140

00:05:28,070 --> 00:05:26,880

a the ilani zamora case in sequoia new

141

00:05:31,029 --> 00:05:28,080

mexico

142

00:05:32,469 --> 00:05:31,039

and that was on april 24th 1964 that

143

00:05:34,469 --> 00:05:32,479

that happened

144

00:05:35,830 --> 00:05:34,479

but anyway it was on the evening news

145

00:05:37,590 --> 00:05:35,840

and they were talking about the fact

146

00:05:40,310 --> 00:05:37,600

that there was an object that sat down

147

00:05:43,029 --> 00:05:40,320

there was a lot of uh debris that was a

148

00:05:45,110 --> 00:05:43,039

sagebrush that was that was apparently

149

00:05:46,870 --> 00:05:45,120

scorched or something and they talked

150

00:05:48,710 --> 00:05:46,880

about physical evidence then they had

151
00:05:51,350 --> 00:05:48,720
like an interview with i think lonnie

152
00:05:53,670 --> 00:05:51,360
zamora the police officer

153
00:05:56,550 --> 00:05:53,680
uh and anyway i heard that story i

154
00:05:58,390 --> 00:05:56,560
thought wow that's must have been what

155
00:06:01,029 --> 00:05:58,400
my teacher was talking about

156
00:06:03,029 --> 00:06:01,039
and so ultimately what happened then was

157
00:06:04,550 --> 00:06:03,039
a couple days later i

158
00:06:06,390 --> 00:06:04,560
went with an aunt

159
00:06:07,670 --> 00:06:06,400
and i actually got my first book on the

160
00:06:10,150 --> 00:06:07,680
subject

161
00:06:11,510 --> 00:06:10,160
uh and the legitimate book on this

162
00:06:13,749 --> 00:06:11,520
subject uh

163
00:06:15,749 --> 00:06:13,759

and it was the report on unidentified

164

00:06:18,309 --> 00:06:15,759

flying objects by

165

00:06:20,230 --> 00:06:18,319

captain edward rupelt who was the former

166

00:06:22,950 --> 00:06:20,240

head of project blue book

167

00:06:25,510 --> 00:06:22,960

and i started reading it and

168

00:06:28,230 --> 00:06:25,520

i realized very quickly that project

169

00:06:30,390 --> 00:06:28,240

blue book was located in dayton ohio and

170

00:06:32,550 --> 00:06:30,400

that's exactly where i was living

171

00:06:34,790 --> 00:06:32,560

and so just up the street from me is

172

00:06:36,950 --> 00:06:34,800

this project that's studying ufos and

173

00:06:39,909 --> 00:06:36,960

i'm going like wow

174

00:06:41,189 --> 00:06:39,919

and just all of that just propelled me

175

00:06:42,790 --> 00:06:41,199

into

176

00:06:44,790 --> 00:06:42,800

uh getting everything i could get my

177

00:06:46,790 --> 00:06:44,800

hands on relating to that

178

00:06:49,670 --> 00:06:46,800

every newspaper clipping that came out i

179

00:06:50,469 --> 00:06:49,680

i would clip them out and i would save

180

00:06:51,990 --> 00:06:50,479

them

181

00:06:54,309 --> 00:06:52,000

uh i began

182

00:06:56,710 --> 00:06:54,319

recording basically going and reading

183

00:06:58,230 --> 00:06:56,720

every book that i could get now

184

00:07:01,510 --> 00:06:58,240

uh and then

185

00:07:03,430 --> 00:07:01,520

within about a year or two i was

186

00:07:05,670 --> 00:07:03,440

actually starting to give lectures in

187

00:07:07,990 --> 00:07:05,680

the city of dayton on the subject of

188

00:07:10,629 --> 00:07:08,000

ufos to adults

189

00:07:12,070 --> 00:07:10,639

and uh i had become i had read so much

190

00:07:13,990 --> 00:07:12,080

that i just became like very

191

00:07:16,950 --> 00:07:14,000

knowledgeable about this thing and

192

00:07:18,469 --> 00:07:16,960

so i started doing that and then uh

193

00:07:20,390 --> 00:07:18,479

there was a local

194

00:07:21,589 --> 00:07:20,400

uh individual

195

00:07:23,749 --> 00:07:21,599

at the time

196

00:07:24,870 --> 00:07:23,759

uh which was phil donahue and phil

197

00:07:28,629 --> 00:07:24,880

donahue

198

00:07:31,430 --> 00:07:28,639

had me on his show on tv and suddenly

199

00:07:33,589 --> 00:07:31,440

i became at 15 years of age i became

200

00:07:35,830 --> 00:07:33,599

like uh you know very popular in the

201
00:07:38,150 --> 00:07:35,840
city of dayton and they was suddenly

202
00:07:41,589 --> 00:07:38,160
propelled into more presentations more

203
00:07:43,670 --> 00:07:41,599
uh meetings i got connected with uh

204
00:07:45,510 --> 00:07:43,680
others and started investigating cases

205
00:07:47,830 --> 00:07:45,520
in the city of dayton

206
00:07:50,309 --> 00:07:47,840
uh i then got connected with project

207
00:07:51,909 --> 00:07:50,319
blue book which was out of the base and

208
00:07:54,230 --> 00:07:51,919
i got to know some of the people there

209
00:07:57,189 --> 00:07:54,240
in fact i got a phone number to call the

210
00:07:58,710 --> 00:07:57,199
radar approach control at the base in

211
00:08:03,110 --> 00:07:58,720
case i

212
00:08:04,790 --> 00:08:03,120
would confirm or help me at least

213
00:08:06,550 --> 00:08:04,800

confirm whether or not that they had

214

00:08:08,790 --> 00:08:06,560

something in that area

215

00:08:11,270 --> 00:08:08,800

and uh it just went on from there and

216

00:08:14,390 --> 00:08:11,280

andy i spent the rest of my life

217

00:08:16,150 --> 00:08:14,400

was ultimately changed by that that one

218

00:08:17,909 --> 00:08:16,160

presentation

219

00:08:19,670 --> 00:08:17,919

now rich you have declared yourself a

220

00:08:21,830 --> 00:08:19,680

fan of the subject which is amazing as

221

00:08:24,629 --> 00:08:21,840

you can take that interest into your

222

00:08:26,390 --> 00:08:24,639

more scientific endeavors um i'm talking

223

00:08:28,230 --> 00:08:26,400

about i watched your appearance on a

224

00:08:30,150 --> 00:08:28,240

vinnie adams disclosure team podcast

225

00:08:31,510 --> 00:08:30,160

that was on around eight months ago very

226

00:08:33,350 --> 00:08:31,520

much an interview worth checking out

227

00:08:35,350 --> 00:08:33,360

folks i think you mentioned your desk

228

00:08:37,350 --> 00:08:35,360

was covered in ufo stuff and you've got

229

00:08:39,430 --> 00:08:37,360

the i want to believe poster

230

00:08:41,670 --> 00:08:39,440

how common is that level of interest in

231

00:08:43,589 --> 00:08:41,680

the subject of ufos with your colleagues

232

00:08:47,190 --> 00:08:43,599

and peers

233

00:08:48,870 --> 00:08:47,200

well it's it has increased over my 58

234

00:08:51,350 --> 00:08:48,880

years i mean that i've been involved

235

00:08:53,829 --> 00:08:51,360

with this the subject is has you know

236

00:08:55,910 --> 00:08:53,839

obviously during when blue book was up

237

00:08:57,590 --> 00:08:55,920

and running and stuff like that it was

238

00:09:00,070 --> 00:08:57,600

uh you know a very credible subject to

239

00:09:01,590 --> 00:09:00,080

talk about but anyway i got started with

240

00:09:03,190 --> 00:09:01,600

the uh

241

00:09:04,389 --> 00:09:03,200

let me clarify something step back for a

242

00:09:06,310 --> 00:09:04,399

second

243

00:09:10,070 --> 00:09:06,320

project blue book was located underneath

244

00:09:13,269 --> 00:09:10,080

the air material command in dayton ohio

245

00:09:15,590 --> 00:09:13,279

okay i'm working at the army materiel

246

00:09:18,710 --> 00:09:15,600

command so it's the same sister it's a

247

00:09:21,590 --> 00:09:18,720

sister organization to the air force

248

00:09:22,630 --> 00:09:21,600

where the project blue book was located

249

00:09:30,550 --> 00:09:22,640

and

250

00:09:31,750 --> 00:09:30,560

years is a

251

00:09:33,509 --> 00:09:31,760

limited number of people that were

252

00:09:35,350 --> 00:09:33,519

interested in it that would occasionally

253

00:09:38,310 --> 00:09:35,360

come up and talk to me about it

254

00:09:40,310 --> 00:09:38,320

but that has increased since 2017 when

255

00:09:41,990 --> 00:09:40,320

the topic just hit the news wires and

256

00:09:43,430 --> 00:09:42,000

everybody was and in fact i have a lot

257

00:09:45,269 --> 00:09:43,440

of people they're saying

258

00:09:48,150 --> 00:09:45,279

you know it's it's pretty much validated

259

00:09:50,150 --> 00:09:48,160

what i've been saying all along

260

00:09:52,389 --> 00:09:50,160

so it's like it's kind of a situation

261

00:09:54,710 --> 00:09:52,399

where oh yeah that's that's what rich

262

00:09:58,070 --> 00:09:54,720

hoffman does you know and so

263

00:09:59,910 --> 00:09:58,080

jokingly now a lot of people refer to me

264

00:10:05,110 --> 00:09:59,920

as the the uh

265

00:10:08,230 --> 00:10:06,790

is that conversation much easier then

266

00:10:10,310 --> 00:10:08,240

for you to have do you feel like the

267

00:10:12,150 --> 00:10:10,320

stigma is going away from it and you can

268

00:10:14,230 --> 00:10:12,160

be more open about

269

00:10:15,590 --> 00:10:14,240

the speculative side of it and let's be

270

00:10:18,310 --> 00:10:15,600

fair the speculative side of the

271

00:10:20,710 --> 00:10:18,320

conversation can go into way different

272

00:10:22,310 --> 00:10:20,720

extremes and all kinds of directions but

273

00:10:23,590 --> 00:10:22,320

i think even just seeing people like

274

00:10:25,910 --> 00:10:23,600

chris mellon

275

00:10:28,310 --> 00:10:25,920

talking about you know let's not

276

00:10:30,550 --> 00:10:28,320

you know discount the et hypothesis

277

00:10:32,470 --> 00:10:30,560

on you know major news networks that

278

00:10:34,470 --> 00:10:32,480

that can be huge and do you feel things

279

00:10:35,750 --> 00:10:34,480

like that have trickled down where

280

00:10:37,430 --> 00:10:35,760

people like yourself who are really

281

00:10:39,030 --> 00:10:37,440

doing the nitty-gritty the the

282

00:10:41,110 --> 00:10:39,040

scientific driven

283

00:10:43,030 --> 00:10:41,120

side of this it's making your life a bit

284

00:10:45,590 --> 00:10:43,040

easier

285

00:10:48,230 --> 00:10:45,600

yes it is uh you know it it definitely

286

00:10:50,069 --> 00:10:48,240

is because you know conversations that

287

00:10:52,710 --> 00:10:50,079

you know generally wouldn't have

288

00:10:54,310 --> 00:10:52,720

happened that are now happening and

289

00:10:55,910 --> 00:10:54,320

people are willing to come up and talk

290

00:10:58,470 --> 00:10:55,920

about their sightings

291

00:11:01,350 --> 00:10:58,480

more uh that they they had something

292

00:11:02,470 --> 00:11:01,360

because it's now legitimized by the fact

293

00:11:04,949 --> 00:11:02,480

that the government's saying that

294

00:11:07,269 --> 00:11:04,959

they're real right so they they feel a

295

00:11:08,949 --> 00:11:07,279

little bit more open and willing to talk

296

00:11:10,870 --> 00:11:08,959

about it now

297

00:11:12,389 --> 00:11:10,880

uh because the government said hey

298

00:11:14,550 --> 00:11:12,399

they're real that they're there there

299

00:11:18,230 --> 00:11:14,560

are ufos out there and and it's no

300

00:11:20,310 --> 00:11:18,240

longer the the that that i'm a loony

301

00:11:23,030 --> 00:11:20,320

i'm crazy or i'm whatever you know i

302

00:11:24,710 --> 00:11:23,040

mean i so i can talk about it and so

303

00:11:27,110 --> 00:11:24,720

that's what i've seen is that generally

304

00:11:29,030 --> 00:11:27,120

there's more openness where people feel

305

00:11:31,030 --> 00:11:29,040

a lot more comfortable about it they're

306

00:11:33,670 --> 00:11:31,040

willing to share more and one of the

307

00:11:35,430 --> 00:11:33,680

things we're seeing within uh scu the

308

00:11:37,110 --> 00:11:35,440

organization that i'm with

309

00:11:39,430 --> 00:11:37,120

when we created it we were hoping to

310

00:11:41,670 --> 00:11:39,440

make it into the science world because

311

00:11:42,949 --> 00:11:41,680

they could feel safe talking among

312

00:11:45,269 --> 00:11:42,959

themselves

313

00:11:46,870 --> 00:11:45,279

now and they didn't have the the other

314

00:11:48,710 --> 00:11:46,880

groups and the other kind of strange

315

00:11:50,949 --> 00:11:48,720

things that are out there that they had

316

00:11:52,790 --> 00:11:50,959

to deal with so it was now that they

317

00:11:56,069 --> 00:11:52,800

could actually open up and talk to other

318

00:11:57,509 --> 00:11:56,079

scientists openly about it and it took

319

00:11:59,190 --> 00:11:57,519

that you know if you look at jacques

320

00:12:01,910 --> 00:11:59,200

valle talking about the invisible

321

00:12:03,509 --> 00:12:01,920

college it now made the invisible

322

00:12:05,190 --> 00:12:03,519

college more visible

323

00:12:06,310 --> 00:12:05,200

and and so

324

00:12:07,910 --> 00:12:06,320

that's where

325

00:12:08,949 --> 00:12:07,920

what we're seeing right now is just that

326

00:12:11,190 --> 00:12:08,959

there's a

327

00:12:13,590 --> 00:12:11,200

we have up to 190 members that are now

328

00:12:16,389 --> 00:12:13,600

part of scu we're growing by leaps and

329

00:12:18,550 --> 00:12:16,399

bounds uh we're encouraged to see that

330

00:12:20,550 --> 00:12:18,560

now people are talking about it more in

331

00:12:23,910 --> 00:12:20,560

fact we're we openly promote

332

00:12:26,710 --> 00:12:23,920

collaboration between all of them uh and

333

00:12:29,190 --> 00:12:26,720

get them to talk up to each other and uh

334

00:12:31,269 --> 00:12:29,200

it's been really exciting

335

00:12:33,269 --> 00:12:31,279

let's talk about scu so like you said

336

00:12:35,509 --> 00:12:33,279

it's a scientific coalition for uap

337

00:12:37,590 --> 00:12:35,519

studies a wonderful organization it's

338

00:12:40,629 --> 00:12:37,600

got some great names and if you go on to

339

00:12:41,990 --> 00:12:40,639

explore scu.org people can meet the team

340

00:12:43,269 --> 00:12:42,000

and see the different backgrounds that

341

00:12:45,269 --> 00:12:43,279

the different folks have that are

342

00:12:47,670 --> 00:12:45,279

involved for those who might not be too

343

00:12:49,670 --> 00:12:47,680

familiar with scu can you explain what

344

00:12:51,509 --> 00:12:49,680

the organization does and how it came

345

00:12:52,710 --> 00:12:51,519

about

346

00:12:54,710 --> 00:12:52,720

sure uh

347

00:12:56,069 --> 00:12:54,720

let me tackle the how it became about

348

00:12:58,710 --> 00:12:56,079

because that'll help you to understand

349

00:13:01,350 --> 00:12:58,720

what it is i think uh

350

00:13:04,389 --> 00:13:01,360

how it came about was uh we all there

351
00:13:05,829 --> 00:13:04,399
were five of us that were all members of

352
00:13:09,430 --> 00:13:05,839
mufon

353
00:13:11,269 --> 00:13:09,440
i was the director of strategic projects

354
00:13:13,110 --> 00:13:11,279
and i had been the uh

355
00:13:14,870 --> 00:13:13,120
also the deputy director of

356
00:13:17,509 --> 00:13:14,880
investigations with them

357
00:13:20,550 --> 00:13:17,519
i also was a state director for two

358
00:13:22,550 --> 00:13:20,560
states alabama and mississippi so i

359
00:13:24,310 --> 00:13:22,560
played a large role in the leadership

360
00:13:26,629 --> 00:13:24,320
and i was connected to of course the

361
00:13:27,509 --> 00:13:26,639
leaders up in uh at the organizational

362
00:13:29,430 --> 00:13:27,519
level

363
00:13:32,230 --> 00:13:29,440

you had robert powell who was also the

364

00:13:34,150 --> 00:13:32,240

director of research for mufon you had

365

00:13:36,470 --> 00:13:34,160

morgan bell who was also a state

366

00:13:38,310 --> 00:13:36,480

director in florida

367

00:13:41,189 --> 00:13:38,320

you had larry kates who was an

368

00:13:43,829 --> 00:13:41,199

individual who was a mathematician doing

369

00:13:46,550 --> 00:13:43,839

a lot of uh with scientific studies

370

00:13:48,389 --> 00:13:46,560

in support of a program that we had as

371

00:13:50,870 --> 00:13:48,399

well as carl paulson

372

00:13:52,550 --> 00:13:50,880

uh who was a nuclear physicist

373

00:13:55,350 --> 00:13:52,560

um and

374

00:13:57,430 --> 00:13:55,360

all five of us came together on a on a

375

00:13:58,710 --> 00:13:57,440

basically a case that happened it fell

376

00:14:01,590 --> 00:13:58,720

into our laps

377

00:14:04,550 --> 00:14:01,600

uh while we were in mufon uh and it was

378

00:14:06,790 --> 00:14:04,560

the aguadilla puerto rico uh case that

379

00:14:09,350 --> 00:14:06,800

happened in 2013

380

00:14:10,790 --> 00:14:09,360

and what happened there was a customs

381

00:14:12,949 --> 00:14:10,800

and border protection

382

00:14:15,110 --> 00:14:12,959

flight had actually witnessed an object

383

00:14:19,269 --> 00:14:15,120

filmed it for about three minutes and 54

384

00:14:21,350 --> 00:14:19,279

seconds uh we got access to the video we

385

00:14:24,069 --> 00:14:21,360

did the research to took two years to

386

00:14:26,590 --> 00:14:24,079

actually research the entire video

387

00:14:29,030 --> 00:14:26,600

and we broke it into uh

388

00:14:31,509 --> 00:14:29,040

7027 frames

389

00:14:33,590 --> 00:14:31,519

uh and studied every pixel practically

390

00:14:36,389 --> 00:14:33,600

on every one of the images

391

00:14:38,870 --> 00:14:36,399

and literally did a report but let me

392

00:14:41,509 --> 00:14:38,880

clarify up front that we had to sign a

393

00:14:45,189 --> 00:14:41,519

non-disclosure agreement which kept us

394

00:14:47,189 --> 00:14:45,199

from even talking about it within mufon

395

00:14:48,949 --> 00:14:47,199

and uh that was kind of an awkward

396

00:14:51,110 --> 00:14:48,959

position since we were all a mufon and

397

00:14:53,030 --> 00:14:51,120

we couldn't talk about it

398

00:14:55,350 --> 00:14:53,040

anyway nevertheless we did our study we

399

00:14:57,910 --> 00:14:55,360

did the report the uh the pilot wanted

400

00:15:00,949 --> 00:14:57,920

it to treat it be treated seriously and

401
00:15:03,829 --> 00:15:00,959
scientifically which we did we wrote a

402
00:15:04,790 --> 00:15:03,839
paper which is po posted on our website

403
00:15:09,189 --> 00:15:04,800
uh

404
00:15:10,230 --> 00:15:09,199
on that case it was 177 pages i think in

405
00:15:13,509 --> 00:15:10,240
in length

406
00:15:15,509 --> 00:15:13,519
it's very detailed uh uh where we talk

407
00:15:17,590 --> 00:15:15,519
about everything we did

408
00:15:19,509 --> 00:15:17,600
and after we did that

409
00:15:21,829 --> 00:15:19,519
there was a little bit of uh angst

410
00:15:23,590 --> 00:15:21,839
amongst mufon when they identified that

411
00:15:24,790 --> 00:15:23,600
we published this and it didn't go

412
00:15:26,949 --> 00:15:24,800
through them

413
00:15:29,030 --> 00:15:26,959

and so we we actually met with mufon

414

00:15:31,670 --> 00:15:29,040

leadership and told them how what about

415

00:15:32,470 --> 00:15:31,680

the ndaa and how that gets started

416

00:15:35,189 --> 00:15:32,480

uh

417

00:15:37,350 --> 00:15:35,199

we i we also started to see that mufon

418

00:15:38,550 --> 00:15:37,360

started to get into

419

00:15:40,389 --> 00:15:38,560

i don't know

420

00:15:42,550 --> 00:15:40,399

more

421

00:15:44,150 --> 00:15:42,560

there's the woo factor

422

00:15:46,550 --> 00:15:44,160

they're starting to get into like the

423

00:15:48,629 --> 00:15:46,560

secret spaceship program and a whole

424

00:15:50,629 --> 00:15:48,639

bunch of other things and that doesn't

425

00:15:52,870 --> 00:15:50,639

this conspiracy angles and stuff like

426
00:15:55,430 --> 00:15:52,880
that are the things that scientists

427
00:15:57,990 --> 00:15:55,440
reject they don't want to get into that

428
00:16:00,230 --> 00:15:58,000
right they're not looking for that so

429
00:16:02,949 --> 00:16:00,240
basically what we had to do is to we

430
00:16:04,790 --> 00:16:02,959
pulled the scientists basically that all

431
00:16:05,829 --> 00:16:04,800
were getting ready to depart on their

432
00:16:08,310 --> 00:16:05,839
own

433
00:16:10,389 --> 00:16:08,320
from mufon and we pulled them together

434
00:16:13,430 --> 00:16:10,399
and then we formed a

435
00:16:15,030 --> 00:16:13,440
an scu basically and then worked to

436
00:16:17,670 --> 00:16:15,040
build it up and we got it started in

437
00:16:19,990 --> 00:16:17,680
2017 legitimately with as an

438
00:16:21,509 --> 00:16:20,000

incorporated organization and all the

439

00:16:23,829 --> 00:16:21,519

other stuff that you needed to do to

440

00:16:25,269 --> 00:16:23,839

file for that

441

00:16:27,030 --> 00:16:25,279

and so

442

00:16:28,150 --> 00:16:27,040

with that it started off as just the

443

00:16:29,749 --> 00:16:28,160

five of us

444

00:16:31,590 --> 00:16:29,759

and then we started to get these other

445

00:16:33,670 --> 00:16:31,600

scientists that were leaving mufon that

446

00:16:35,749 --> 00:16:33,680

wanted to come on board other state

447

00:16:36,949 --> 00:16:35,759

directors from mufon were also departing

448

00:16:38,790 --> 00:16:36,959

because they didn't

449

00:16:41,189 --> 00:16:38,800

see that that was uh being treated

450

00:16:43,030 --> 00:16:41,199

scientifically enough for them

451
00:16:44,150 --> 00:16:43,040
and so they wanted another kind of an

452
00:16:46,629 --> 00:16:44,160
alternative

453
00:16:49,269 --> 00:16:46,639
so we suddenly went from there uh in

454
00:16:51,990 --> 00:16:49,279
just short order up to i think we had

455
00:16:54,949 --> 00:16:52,000
maybe like 45 people in the first year

456
00:16:56,710 --> 00:16:54,959
and then suddenly now we're up to 190

457
00:16:59,350 --> 00:16:56,720
and still growing

458
00:17:02,389 --> 00:16:59,360
but the organization is basically set up

459
00:17:04,630 --> 00:17:02,399
so that we can again bring scientists

460
00:17:06,870 --> 00:17:04,640
together have them collaborate

461
00:17:09,429 --> 00:17:06,880
and i'm not just saying scientists we've

462
00:17:11,350 --> 00:17:09,439
also got a lot of serious researchers

463
00:17:13,189 --> 00:17:11,360

and business professionals

464

00:17:15,750 --> 00:17:13,199

uh that are in different you know

465

00:17:17,669 --> 00:17:15,760

disciplines we got every discipline

466

00:17:20,549 --> 00:17:17,679

covered i think you know nuclear physics

467

00:17:23,029 --> 00:17:20,559

we got mathematicians we got

468

00:17:25,829 --> 00:17:23,039

academia covered we got

469

00:17:29,669 --> 00:17:25,839

you know psychology uh people on board

470

00:17:31,510 --> 00:17:29,679

so there's a a large base of people

471

00:17:33,669 --> 00:17:31,520

that you can now have uh you know

472

00:17:35,669 --> 00:17:33,679

interdisciplinary kinds of conversations

473

00:17:37,270 --> 00:17:35,679

with and they can talk about it from

474

00:17:39,990 --> 00:17:37,280

their different angles their different

475

00:17:41,909 --> 00:17:40,000

perspectives and it's just you know

476

00:17:45,669 --> 00:17:41,919

we've just really blossomed

477

00:17:47,750 --> 00:17:45,679

uh we've been we are 501c3 uh

478

00:17:49,669 --> 00:17:47,760

organization which means donations and

479

00:17:52,230 --> 00:17:49,679

stuff like that or we're charity

480

00:17:54,710 --> 00:17:52,240

organization we registered that way

481

00:17:58,070 --> 00:17:54,720

and in addition to that uh we hold we've

482

00:17:59,110 --> 00:17:58,080

been holding conferences uh we this is

483

00:18:01,830 --> 00:17:59,120

june

484

00:18:03,029 --> 00:18:01,840

3rd through the 5th we have our third

485

00:18:05,270 --> 00:18:03,039

conference

486

00:18:07,750 --> 00:18:05,280

we had our first one in 2019. lou

487

00:18:10,390 --> 00:18:07,760

elizondo was our keynote speaker

488

00:18:13,190 --> 00:18:10,400

uh we couldn't hold one in 2020 because

489

00:18:16,789 --> 00:18:13,200
of covid in 2021 we had a virtual

490

00:18:18,230 --> 00:18:16,799
conference uh hal put off was our uh

491

00:18:20,070 --> 00:18:18,240
keynote for that

492

00:18:21,750 --> 00:18:20,080
and then we've got the one coming up on

493

00:18:23,990 --> 00:18:21,760
june 3rd

494

00:18:26,070 --> 00:18:24,000
ryan graves is going to be actually our

495

00:18:28,710 --> 00:18:26,080
keynote for that one

496

00:18:31,270 --> 00:18:28,720
but we've got a great set of speakers

497

00:18:32,230 --> 00:18:31,280
and panels all talking site about the

498

00:18:35,110 --> 00:18:32,240
science

499

00:18:39,110 --> 00:18:35,120
of ufology uh and so

500

00:18:41,590 --> 00:18:39,120
uap um but anyway so that's

501
00:18:43,990 --> 00:18:41,600
we've we got we publish a a newsletter

502
00:18:45,510 --> 00:18:44,000
we're all over the internet uh

503
00:18:47,909 --> 00:18:45,520
i don't know if you're aware of it or

504
00:18:49,669 --> 00:18:47,919
not but there was the recent gillibrand

505
00:18:51,270 --> 00:18:49,679
amendment that was put in at the

506
00:18:54,470 --> 00:18:51,280
congressional level

507
00:18:57,029 --> 00:18:54,480
at one point uh our names were there as

508
00:18:59,669 --> 00:18:57,039
a part of a committee uh along with

509
00:19:01,909 --> 00:18:59,679
project galileo to help the government

510
00:19:03,029 --> 00:19:01,919
be able to look into this uh they

511
00:19:05,750 --> 00:19:03,039
changed it

512
00:19:08,150 --> 00:19:05,760
and when they were writing the ndaa uh

513
00:19:10,710 --> 00:19:08,160

they took out those uh us

514

00:19:12,390 --> 00:19:10,720

and galileo in there but i think that

515

00:19:13,909 --> 00:19:12,400

they're still going to be potentially

516

00:19:15,270 --> 00:19:13,919

down the road some sort of a

517

00:19:16,230 --> 00:19:15,280

relationship that we're going to have

518

00:19:18,310 --> 00:19:16,240

with them

519

00:19:19,990 --> 00:19:18,320

uh although it's not stated so we're

520

00:19:21,750 --> 00:19:20,000

excited about that

521

00:19:24,789 --> 00:19:21,760

and in fact we've been

522

00:19:28,789 --> 00:19:24,799

we've been also going and sharing uh

523

00:19:30,710 --> 00:19:28,799

actually a lot about the uh the ufo

524

00:19:33,270 --> 00:19:30,720

subject with other governments

525

00:19:34,950 --> 00:19:33,280

so we're we were connected in canada we

526

00:19:37,190 --> 00:19:34,960

were actually talking to one of the

527

00:19:38,710 --> 00:19:37,200

deputy prime ministers there

528

00:19:40,470 --> 00:19:38,720

enlightening them about the

529

00:19:41,430 --> 00:19:40,480

congressional action that they could be

530

00:19:44,070 --> 00:19:41,440

taking

531

00:19:46,390 --> 00:19:44,080

uh and how they could support it

532

00:19:48,710 --> 00:19:46,400

uh we've also got connections in uh

533

00:19:50,950 --> 00:19:48,720

south america and we're reaching out to

534

00:19:53,270 --> 00:19:50,960

those uh countries down there to be able

535

00:19:55,669 --> 00:19:53,280

to build a relationship as well

536

00:19:57,510 --> 00:19:55,679

and uh of course we'd like to see the uk

537

00:19:59,750 --> 00:19:57,520

come on board with something

538

00:20:02,549 --> 00:19:59,760

as well but uh you know that we saw a

539

00:20:04,310 --> 00:20:02,559

day yep so would i yeah by all means it

540

00:20:07,190 --> 00:20:04,320

would be absolutely fantastic to have

541

00:20:09,430 --> 00:20:07,200

the uk uh connected with us as well we

542

00:20:11,750 --> 00:20:09,440

do have people in the uk that are

543

00:20:14,549 --> 00:20:11,760

members of scu and part of us

544

00:20:16,630 --> 00:20:14,559

uh so that's that's always encouraging

545

00:20:19,430 --> 00:20:16,640

and and glad that they're they're being

546

00:20:21,590 --> 00:20:19,440

uh willing to do that we've got people

547

00:20:23,909 --> 00:20:21,600

in uh germany we've got also people in

548

00:20:27,029 --> 00:20:23,919

uh the netherlands that are on board

549

00:20:27,990 --> 00:20:27,039

with us so it's growing internationally

550

00:20:30,070 --> 00:20:28,000

as well

551

00:20:31,590 --> 00:20:30,080

and we're making some good college solid

552

00:20:34,470 --> 00:20:31,600

uh connections

553

00:20:36,710 --> 00:20:34,480

we are partners with uapx

554

00:20:39,029 --> 00:20:36,720

we are partners with also the center for

555

00:20:40,230 --> 00:20:39,039

ufo studies

556

00:20:41,350 --> 00:20:40,240

and so

557

00:20:42,710 --> 00:20:41,360

and

558

00:20:47,029 --> 00:20:42,720

ultimately we're trying to build those

559

00:20:49,750 --> 00:20:49,029

that's pretty much about yeah as far as

560

00:20:50,870 --> 00:20:49,760

i

561

00:20:52,630 --> 00:20:50,880

what we're yeah

562

00:20:53,990 --> 00:20:52,640

you've done a lot in what four or five

563

00:20:56,390 --> 00:20:54,000

years

564

00:20:58,870 --> 00:20:56,400

since its formation has the the mission

565

00:21:00,710 --> 00:20:58,880

statement or the objectives of the group

566

00:21:02,230 --> 00:21:00,720

changed at all

567

00:21:05,190 --> 00:21:02,240

no actually pretty much they're the

568

00:21:06,149 --> 00:21:05,200

still the same uh the the mission is you

569

00:21:08,230 --> 00:21:06,159

know that

570

00:21:10,230 --> 00:21:08,240

uh obviously we're we're looking to be

571

00:21:11,590 --> 00:21:10,240

able to have conversations with the

572

00:21:13,830 --> 00:21:11,600

general public

573

00:21:16,310 --> 00:21:13,840

uh also to collaborate with each other

574

00:21:19,190 --> 00:21:16,320

and talk scientific uh affiliations and

575

00:21:22,070 --> 00:21:19,200

have have that type of relationship uh

576

00:21:24,630 --> 00:21:22,080

so our basically our roles uh our

577

00:21:27,350 --> 00:21:24,640

mission there is pretty much the same

578

00:21:30,630 --> 00:21:27,360

uh we've advanced a little bit in terms

579

00:21:34,070 --> 00:21:30,640

of some of our directions we've gone

580

00:21:35,590 --> 00:21:34,080

for example you know uh we've got

581

00:21:36,470 --> 00:21:35,600

what we're trying to be able to play

582

00:21:39,029 --> 00:21:36,480

into

583

00:21:41,190 --> 00:21:39,039

more of a technology role in other words

584

00:21:44,149 --> 00:21:41,200

actually purchasing equipment getting

585

00:21:46,230 --> 00:21:44,159

the technology out there deploying it

586

00:21:48,549 --> 00:21:46,240

there's a lot of technology online and

587

00:21:51,669 --> 00:21:48,559

coming to fruition from a lot of

588

00:21:54,470 --> 00:21:51,679

developments types ron ulch for example

589

00:21:56,149 --> 00:21:54,480

uh is an individual that has a system

590

00:21:58,789 --> 00:21:56,159

that he's put together

591

00:22:00,789 --> 00:21:58,799

uh that we featured actually last year

592

00:22:03,350 --> 00:22:00,799

in our uh in our

593

00:22:06,390 --> 00:22:03,360

conference and stuff like that that that

594

00:22:07,990 --> 00:22:06,400

basically uh is very advanced and you

595

00:22:09,270 --> 00:22:08,000

know we're considering purchasing a

596

00:22:10,950 --> 00:22:09,280

number of those

597

00:22:12,630 --> 00:22:10,960

we'd like to be able to deploy some of

598

00:22:15,909 --> 00:22:12,640

that equipment type

599

00:22:17,830 --> 00:22:15,919

to like hot spots and have it set up

600

00:22:19,110 --> 00:22:17,840

you know like at nuclear sites or

601
00:22:22,070 --> 00:22:19,120
something of that nature where there

602
00:22:23,510 --> 00:22:22,080
seems to be a lot of activity

603
00:22:25,750 --> 00:22:23,520
we're also again because we are

604
00:22:28,470 --> 00:22:25,760
partnered with uapx

605
00:22:30,470 --> 00:22:28,480
you know uh we're also getting the the

606
00:22:32,549 --> 00:22:30,480
information that they're collecting they

607
00:22:34,070 --> 00:22:32,559
just did that study that was out along

608
00:22:34,950 --> 00:22:34,080
the coast and the west coast where they

609
00:22:36,789 --> 00:22:34,960
were

610
00:22:38,789 --> 00:22:36,799
setting up equipment i'm they're

611
00:22:40,950 --> 00:22:38,799
actually going to feature and discuss

612
00:22:42,870 --> 00:22:40,960
that at the conference share the

613
00:22:44,549 --> 00:22:42,880

evidence that they collected

614

00:22:47,350 --> 00:22:44,559

because they did witness objects out

615

00:22:49,350 --> 00:22:47,360

there and they collected multi-spectral

616

00:22:51,430 --> 00:22:49,360

information uh that they're going to be

617

00:22:53,350 --> 00:22:51,440

able to share with us how they studied

618

00:22:56,310 --> 00:22:53,360

it how they analyzed it what did they

619

00:22:58,789 --> 00:22:56,320

come up with and so again we're very

620

00:23:00,950 --> 00:22:58,799

excited about that as well

621

00:23:02,549 --> 00:23:00,960

um that's going to also be part of their

622

00:23:04,870 --> 00:23:02,559

documentary we've discussed that on the

623

00:23:06,149 --> 00:23:04,880

podcast the tearingthesky.com again

624

00:23:08,549 --> 00:23:06,159

links will be in the description for

625

00:23:10,070 --> 00:23:08,559

that and if anyone's thinking i've not

626
00:23:11,830 --> 00:23:10,080
went into too much detail on some of the

627
00:23:13,590 --> 00:23:11,840
work so you have done there's some

628
00:23:14,950 --> 00:23:13,600
fantastic listener questions coming up

629
00:23:16,950 --> 00:23:14,960
later on that will give the listeners

630
00:23:18,390 --> 00:23:16,960
the the credit for for asking those

631
00:23:20,710 --> 00:23:18,400
without me having to take that so we'll

632
00:23:22,310 --> 00:23:20,720
get there don't worry um you mentioned

633
00:23:23,990 --> 00:23:22,320
an array of colleagues you have they're

634
00:23:26,310 --> 00:23:24,000
rich now you've got a lot of different

635
00:23:29,909 --> 00:23:26,320
areas of interest and expertise as

636
00:23:31,990 --> 00:23:29,919
pertains to the subject of ueps or ufos

637
00:23:34,470 --> 00:23:32,000
is there any one or two areas though

638
00:23:37,990 --> 00:23:34,480

that you all share a common interest in

639

00:23:41,269 --> 00:23:38,000

be it propulsion behaviors of of ufos

640

00:23:45,909 --> 00:23:43,590

uh well we've we actually have a project

641

00:23:48,549 --> 00:23:45,919

that we've got going on right now which

642

00:23:50,230 --> 00:23:48,559

is looking at propulsion and basically

643

00:23:52,149 --> 00:23:50,240

atmospheric effects that have been

644

00:23:54,870 --> 00:23:52,159

witnessed in the sky

645

00:23:56,710 --> 00:23:54,880

and in water uh so we are looking at

646

00:23:57,510 --> 00:23:56,720

propulsion effects in a study that we're

647

00:23:58,789 --> 00:23:57,520

doing

648

00:24:00,390 --> 00:23:58,799

i don't know if that's what you're

649

00:24:02,070 --> 00:24:00,400

looking we what we've done is we've

650

00:24:03,110 --> 00:24:02,080

formed teams and we have a project

651
00:24:05,350 --> 00:24:03,120
manager

652
00:24:07,750 --> 00:24:05,360
yeah and in in that concept what we do

653
00:24:09,510 --> 00:24:07,760
is we take and tackle the project we've

654
00:24:11,350 --> 00:24:09,520
got the team coming together and uh

655
00:24:13,029 --> 00:24:11,360
there's a variety of people that are on

656
00:24:15,190 --> 00:24:13,039
on board with the team

657
00:24:18,149 --> 00:24:15,200
that that are actually studying it from

658
00:24:21,669 --> 00:24:18,159
a standpoint of like you know a

659
00:24:23,190 --> 00:24:21,679
good example uh in the nimitz case you

660
00:24:25,510 --> 00:24:23,200
had basically

661
00:24:28,310 --> 00:24:25,520
uh lieutenant commander slate who was

662
00:24:29,990 --> 00:24:28,320
the wizzo in the other aircraft with uh

663
00:24:32,390 --> 00:24:30,000

against with fraber

664

00:24:35,350 --> 00:24:32,400

you had a situation where he describes

665

00:24:37,990 --> 00:24:35,360

seeing when the object came up and

666

00:24:39,830 --> 00:24:38,000

before it shot off to the cap point

667

00:24:43,029 --> 00:24:39,840

that it basically he noticed a

668

00:24:44,630 --> 00:24:43,039

mirage-like effect around the object

669

00:24:46,390 --> 00:24:44,640

and so there's an effect of the

670

00:24:48,390 --> 00:24:46,400

atmosphere that was being seen where

671

00:24:49,269 --> 00:24:48,400

like a little bit of light bending going

672

00:24:50,710 --> 00:24:49,279

on

673

00:24:52,470 --> 00:24:50,720

and then you have to like

674

00:24:54,870 --> 00:24:52,480

determine well what could produce that

675

00:24:56,789 --> 00:24:54,880

kind of an effect and so see people are

676
00:24:57,510 --> 00:24:56,799
looking at that you've also got cases

677
00:24:59,669 --> 00:24:57,520
where

678
00:25:03,269 --> 00:24:59,679
for example like i investigated a case

679
00:25:04,630 --> 00:25:03,279
in in the 70s where a

680
00:25:09,510 --> 00:25:04,640
wheat field

681
00:25:11,750 --> 00:25:09,520
was a 70-foot diameter circular area

682
00:25:13,750 --> 00:25:11,760
where for example you had

683
00:25:14,870 --> 00:25:13,760
microwave radiation that was to being

684
00:25:17,350 --> 00:25:14,880
detected

685
00:25:19,269 --> 00:25:17,360
and ultimately the soil was baked two

686
00:25:21,269 --> 00:25:19,279
feet in the ground and there were no

687
00:25:22,710 --> 00:25:21,279
roots left of the wheat crop

688
00:25:25,510 --> 00:25:22,720

and on the outer perimeter of that

689

00:25:28,950 --> 00:25:25,520

70-foot diameter area was a rotational

690

00:25:29,830 --> 00:25:28,960

pattern and then puffed wheat

691

00:25:33,590 --> 00:25:29,840

so

692

00:25:35,590 --> 00:25:33,600

looking at the that kind of

693

00:25:37,590 --> 00:25:35,600

characteristics and really studying it

694

00:25:39,510 --> 00:25:37,600

to see where where it's at on all the

695

00:25:40,390 --> 00:25:39,520

cases we come across

696

00:25:42,630 --> 00:25:40,400

uh

697

00:25:44,230 --> 00:25:42,640

that's just one of our studies we've got

698

00:25:46,789 --> 00:25:44,240

uh many others and i can talk to you

699

00:25:49,110 --> 00:25:46,799

about those as well nuclear studies

700

00:25:50,789 --> 00:25:49,120

well i was going to ask like if i was

701
00:25:52,390 --> 00:25:50,799
a rich benefactor and you know i won the

702
00:25:53,909 --> 00:25:52,400
powerball or the lottery whatever it

703
00:25:55,430 --> 00:25:53,919
might be in your chosen country and i

704
00:25:57,830 --> 00:25:55,440
said rich i'm going gonna give you a

705
00:26:00,310 --> 00:25:57,840
hundred million dollar donation to study

706
00:26:04,310 --> 00:26:00,320
one particular area or aspect of this

707
00:26:05,669 --> 00:26:04,320
phenomenon which would you go for

708
00:26:11,669 --> 00:26:05,679
um

709
00:26:14,549 --> 00:26:11,679
thing that we're trying to figure out is

710
00:26:16,630 --> 00:26:14,559
what is the intent

711
00:26:18,630 --> 00:26:16,640
when you have an object that's hanging

712
00:26:20,070 --> 00:26:18,640
over a pond

713
00:26:22,789 --> 00:26:20,080

what is it doing

714

00:26:25,430 --> 00:26:22,799

why is it over the pond

715

00:26:27,990 --> 00:26:25,440

why do you have cases where you have

716

00:26:31,110 --> 00:26:28,000

objects going to nuclear uh why do you

717

00:26:32,230 --> 00:26:31,120

have objects coming in of water uh what

718

00:26:33,830 --> 00:26:32,240

is there

719

00:26:35,750 --> 00:26:33,840

when you saw that the objects for

720

00:26:36,870 --> 00:26:35,760

example in the nimitz case i'll just use

721

00:26:38,950 --> 00:26:36,880

that one because a lot of people are

722

00:26:41,590 --> 00:26:38,960

familiar with it but why do you have

723

00:26:43,750 --> 00:26:41,600

objects dropping from 100 feet and then

724

00:26:45,909 --> 00:26:43,760

dropping down to sea level

725

00:26:46,789 --> 00:26:45,919

you know very quickly

726

00:26:49,750 --> 00:26:46,799

uh

727

00:26:50,549 --> 00:26:49,760

what was the intent of the object

728

00:26:52,950 --> 00:26:50,559

uh

729

00:26:55,750 --> 00:26:52,960

with regard to it circling around and

730

00:26:57,350 --> 00:26:55,760

doing the herky-jerky pattern above that

731

00:26:59,590 --> 00:26:57,360

whatever that object was that appeared

732

00:27:00,390 --> 00:26:59,600

to be underneath the water in the ocean

733

00:27:01,190 --> 00:27:00,400

right

734

00:27:02,870 --> 00:27:01,200

so

735

00:27:04,549 --> 00:27:02,880

one of the the most

736

00:27:08,390 --> 00:27:04,559

troubling things is trying to figure out

737

00:27:09,750 --> 00:27:08,400

what what is the intent can we determine

738

00:27:12,310 --> 00:27:09,760

a potential

739

00:27:14,149 --> 00:27:12,320

alien intent uh or

740

00:27:15,830 --> 00:27:14,159

is this you know and i'll just throw up

741

00:27:17,269 --> 00:27:15,840

you know the typical thing where we say

742

00:27:19,510 --> 00:27:17,279

it's another government although i don't

743

00:27:21,430 --> 00:27:19,520

necessarily agree with that and it's

744

00:27:23,510 --> 00:27:21,440

never been another government but

745

00:27:25,350 --> 00:27:23,520

ultimately is what's the intent behind

746

00:27:26,870 --> 00:27:25,360

these things so one of our projects

747

00:27:30,310 --> 00:27:26,880

we've got

748

00:27:31,190 --> 00:27:30,320

is actually doing research from 1945

749

00:27:33,590 --> 00:27:31,200

to

750

00:27:35,430 --> 00:27:33,600

presently 1973 where we've gone back and

751
00:27:37,190 --> 00:27:35,440
looked at all the records and we're

752
00:27:41,029 --> 00:27:37,200
pulling out the

753
00:27:42,149 --> 00:27:41,039
the where objects were seen next to or

754
00:27:44,549 --> 00:27:42,159
nearby

755
00:27:47,909 --> 00:27:44,559
to a nuclear

756
00:27:49,669 --> 00:27:47,919
storage site a nuclear assembly plant a

757
00:27:52,710 --> 00:27:49,679
nuclear stockpile

758
00:27:55,430 --> 00:27:52,720
nuclear deployment sites as well as

759
00:27:56,549 --> 00:27:55,440
looking at aerospace development test

760
00:27:58,310 --> 00:27:56,559
facilities

761
00:28:00,230 --> 00:27:58,320
it's a five-phase project that we're

762
00:28:01,350 --> 00:28:00,240
doing all those and we have a team

763
00:28:02,789 --> 00:28:01,360

that's going to be actually they're

764

00:28:04,789 --> 00:28:02,799

going to be talking about this again at

765

00:28:06,870 --> 00:28:04,799

the conference but but ultimately we

766

00:28:09,430 --> 00:28:06,880

looked at cases that were around

767

00:28:13,430 --> 00:28:09,440

everything from like white sands to

768

00:28:14,549 --> 00:28:13,440

uh men the manzano uh test areas to like

769

00:28:18,870 --> 00:28:14,559

han

770

00:28:20,549 --> 00:28:18,880

plants that have been documented trying

771

00:28:22,630 --> 00:28:20,559

to get as much as we can about what was

772

00:28:25,430 --> 00:28:22,640

it seen visually was it seen rape by

773

00:28:27,750 --> 00:28:25,440

radar was it seen optically uh by other

774

00:28:29,510 --> 00:28:27,760

kinds of devices was it and we started

775

00:28:31,669 --> 00:28:29,520

looking at all the devices that that was

776

00:28:33,110 --> 00:28:31,679

happening uh in association with with

777

00:28:36,630 --> 00:28:33,120

those cases

778

00:28:38,630 --> 00:28:36,640

uh we are exploring 360 cases and we're

779

00:28:41,029 --> 00:28:38,640

looking basically right now

780

00:28:44,070 --> 00:28:41,039

to see if we can identify the the gps

781

00:28:45,750 --> 00:28:44,080

locations where these objects were and

782

00:28:48,389 --> 00:28:45,760

then what did they do when they were

783

00:28:52,549 --> 00:28:48,399

next to the facility did they hover did

784

00:28:55,350 --> 00:28:52,559

they shoot over it uh were they

785

00:28:58,230 --> 00:28:55,360

and then looking beyond that and saying

786

00:28:59,990 --> 00:28:58,240

well was there something at that metal

787

00:29:01,669 --> 00:29:00,000

that facility

788

00:29:04,389 --> 00:29:01,679

that was happening

789

00:29:06,789 --> 00:29:04,399

that would be of interest to them to

790

00:29:09,350 --> 00:29:06,799

come on that particularly that time

791

00:29:13,029 --> 00:29:09,360

period so in other words if i were

792

00:29:14,310 --> 00:29:13,039

actually getting ready to test uh or

793

00:29:16,230 --> 00:29:14,320

test something

794

00:29:18,549 --> 00:29:16,240

would that have triggered the uh object

795

00:29:20,870 --> 00:29:18,559

to then come at that time

796

00:29:23,350 --> 00:29:20,880

uh also we're looking at the fact that

797

00:29:26,070 --> 00:29:23,360

you you might have a situation where you

798

00:29:27,590 --> 00:29:26,080

they were planning to transfer nuclear

799

00:29:29,190 --> 00:29:27,600

material

800

00:29:31,669 --> 00:29:29,200

and so maybe that might have been the

801
00:29:32,710 --> 00:29:31,679
trigger for it so we're actually looking

802
00:29:35,750 --> 00:29:32,720
very

803
00:29:37,750 --> 00:29:35,760
intently if you would at those

804
00:29:38,789 --> 00:29:37,760
types of things to see if we can

805
00:29:41,269 --> 00:29:38,799
understand

806
00:29:42,789 --> 00:29:41,279
what is the draw what did they do when

807
00:29:45,350 --> 00:29:42,799
they were there

808
00:29:47,909 --> 00:29:45,360
what did the witnesses say that they did

809
00:29:50,710 --> 00:29:47,919
uh and comparing all that stuff and then

810
00:29:54,070 --> 00:29:50,720
we're using also as a control sample

811
00:29:56,389 --> 00:29:54,080
where we're looking at the the nearby

812
00:29:58,470 --> 00:29:56,399
air force bases if there were any we're

813
00:30:00,389 --> 00:29:58,480

looking at as well as the population

814

00:30:02,470 --> 00:30:00,399

centers that are nearby some of these

815

00:30:05,350 --> 00:30:02,480

facilities to see if there was any

816

00:30:07,830 --> 00:30:05,360

increase in terms of like you know uh

817

00:30:09,909 --> 00:30:07,840

the object sightings in the town as

818

00:30:12,230 --> 00:30:09,919

opposed to uh

819

00:30:13,990 --> 00:30:12,240

at that site so

820

00:30:16,149 --> 00:30:14,000

we're doing that

821

00:30:18,470 --> 00:30:16,159

that's one thing where i you know i'm

822

00:30:21,669 --> 00:30:18,480

extremely encouraged by that number two

823

00:30:24,070 --> 00:30:21,679

i think the the the actual deployment of

824

00:30:26,389 --> 00:30:24,080

technical equipment is going to going to

825

00:30:27,510 --> 00:30:26,399

get us the big bang for the buck

826
00:30:30,070 --> 00:30:27,520
and so

827
00:30:33,269 --> 00:30:30,080
in regards to the the money i think that

828
00:30:37,110 --> 00:30:33,279
ultimately if we took all the the types

829
00:30:38,149 --> 00:30:37,120
of cameras and and uh radar kinds of

830
00:30:40,070 --> 00:30:38,159
things that we can get that are

831
00:30:42,470 --> 00:30:40,080
military-grade equipment

832
00:30:44,470 --> 00:30:42,480
and we actually set that up

833
00:30:47,269 --> 00:30:44,480
and you actually could potentially

834
00:30:48,310 --> 00:30:47,279
create a what we call in the it world in

835
00:30:50,950 --> 00:30:48,320
the defense

836
00:30:52,789 --> 00:30:50,960
called a honeypot which is ultimately i

837
00:30:54,710 --> 00:30:52,799
go out and put some honey out there and

838
00:30:57,029 --> 00:30:54,720

the bees come to the honey right well

839

00:31:00,070 --> 00:30:57,039

have the objects come to you and then be

840

00:31:01,110 --> 00:31:00,080

prepared to actually capture a 360

841

00:31:03,830 --> 00:31:01,120

degree

842

00:31:06,149 --> 00:31:03,840

layer of equipment around that area and

843

00:31:07,990 --> 00:31:06,159

capture it from multiple angles which

844

00:31:09,990 --> 00:31:08,000

will give you the altitude it'll give

845

00:31:11,509 --> 00:31:10,000

you the apparent size of the object

846

00:31:13,830 --> 00:31:11,519

it'll give you some sort of an

847

00:31:15,110 --> 00:31:13,840

indication from the 360 degree view that

848

00:31:17,269 --> 00:31:15,120

i'm talking about

849

00:31:19,509 --> 00:31:17,279

in both the optical as well as the uh

850

00:31:21,190 --> 00:31:19,519

the thermal and some of the other parts

851
00:31:22,950 --> 00:31:21,200
of the electromagnetic spectrum that we

852
00:31:25,190 --> 00:31:22,960
don't typically get into

853
00:31:26,950 --> 00:31:25,200
also looking at gamma radiation looking

854
00:31:28,710 --> 00:31:26,960
at a whole variety of other things

855
00:31:29,909 --> 00:31:28,720
that's going to give us the biggest bang

856
00:31:32,070 --> 00:31:29,919
for the buck

857
00:31:33,750 --> 00:31:32,080
now i want to ask what sort of honey are

858
00:31:36,149 --> 00:31:33,760
you using to attract any of those

859
00:31:37,830 --> 00:31:36,159
potential bees because

860
00:31:39,830 --> 00:31:37,840
most folk i'm going to presume would

861
00:31:41,669 --> 00:31:39,840
think it's some kind of nuclear material

862
00:31:43,430 --> 00:31:41,679
because like you've just said before

863
00:31:45,430 --> 00:31:43,440

nuclear nuclear nuclear and there's a

864

00:31:46,870 --> 00:31:45,440

huge connection i would ask you know is

865

00:31:49,110 --> 00:31:46,880

that the case how would you go about

866

00:31:50,549 --> 00:31:49,120

that but also do you have any working

867

00:31:53,509 --> 00:31:50,559

hypothesis

868

00:31:56,149 --> 00:31:53,519

as to why these objects may be so drawn

869

00:31:58,630 --> 00:31:56,159

to the nuclear capabilities or nuclear

870

00:32:00,710 --> 00:31:58,640

power stations etc

871

00:32:02,630 --> 00:32:00,720

well i okay so

872

00:32:04,789 --> 00:32:02,640

i think that that's what the intent of

873

00:32:07,029 --> 00:32:04,799

the study is to really understand

874

00:32:08,310 --> 00:32:07,039

why it is that they're attracted to them

875

00:32:10,149 --> 00:32:08,320

uh

876

00:32:12,470 --> 00:32:10,159

we do look at it from the standpoint i

877

00:32:15,269 --> 00:32:12,480

mean obviously when you have uh these

878

00:32:17,669 --> 00:32:15,279

craft or the whatever these objects are

879

00:32:19,350 --> 00:32:17,679

uh and wherever they're from

880

00:32:21,830 --> 00:32:19,360

there's a variety of

881

00:32:23,830 --> 00:32:21,840

things you can speculate on number one

882

00:32:27,269 --> 00:32:23,840

let me give you an example

883

00:32:29,110 --> 00:32:27,279

so uh there's you know objects that are

884

00:32:32,230 --> 00:32:29,120

one of the hypotheses for the actual

885

00:32:34,389 --> 00:32:32,240

ufos is that they're time travelers that

886

00:32:36,950 --> 00:32:34,399

they're actually us from a potential

887

00:32:38,230 --> 00:32:36,960

future time that are coming back and

888

00:32:40,149 --> 00:32:38,240

actually

889

00:32:43,110 --> 00:32:40,159

maneuvering through time they pop into

890

00:32:45,029 --> 00:32:43,120

our our airspace if you would people see

891

00:32:47,830 --> 00:32:45,039

them and they zip up we don't know where

892

00:32:50,310 --> 00:32:47,840

they go after that right they're gone

893

00:32:52,310 --> 00:32:50,320

uh and you know the fact that you have

894

00:32:55,269 --> 00:32:52,320

descriptions of beings looking very

895

00:32:57,269 --> 00:32:55,279

humanoid-like two eyes two arms two legs

896

00:32:59,590 --> 00:32:57,279

you know that type of thing and then

897

00:33:01,669 --> 00:32:59,600

they're bipedal that would give you give

898

00:33:04,149 --> 00:33:01,679

you well potentially they're us from a

899

00:33:06,549 --> 00:33:04,159

future time and then so if you looked at

900

00:33:08,230 --> 00:33:06,559

what that hypothesis lands on you could

901
00:33:10,549 --> 00:33:08,240
say well wait a minute maybe at some

902
00:33:12,710 --> 00:33:10,559
point down the pike

903
00:33:14,950 --> 00:33:12,720
we're going to blow ourselves up and

904
00:33:17,350 --> 00:33:14,960
they're trying to influence that right

905
00:33:20,470 --> 00:33:17,360
so let me set instead of like you know

906
00:33:23,190 --> 00:33:20,480
so they've sent me a message by

907
00:33:25,909 --> 00:33:23,200
knocking out like a set of 20 missiles

908
00:33:28,230 --> 00:33:25,919
under a silo could be a message that i'm

909
00:33:30,870 --> 00:33:28,240
trying to send right yeah

910
00:33:32,549 --> 00:33:30,880
uh that that could be one scenario you

911
00:33:35,029 --> 00:33:32,559
know if you look at it with a different

912
00:33:37,029 --> 00:33:35,039
lens on and say well wait a minute there

913
00:33:40,149 --> 00:33:37,039

could they be an intelligence that's

914

00:33:42,310 --> 00:33:40,159

basically based under the ocean

915

00:33:44,230 --> 00:33:42,320

and now they're popping in and around

916

00:33:45,909 --> 00:33:44,240

water they seem to be around there

917

00:33:48,070 --> 00:33:45,919

there's a good strong connection between

918

00:33:49,909 --> 00:33:48,080

ufo sightings and water

919

00:33:52,470 --> 00:33:49,919

could you potentially have a situation

920

00:33:56,470 --> 00:33:52,480

where and it seems like that

921

00:33:58,070 --> 00:33:56,480

around 1947 they suddenly came in mass

922

00:33:59,750 --> 00:33:58,080

you know after the one the kenneth

923

00:34:02,149 --> 00:33:59,760

arnold sighting not that there weren't

924

00:34:04,710 --> 00:34:02,159

sightings before that but there were in

925

00:34:06,389 --> 00:34:04,720

mass they were seen after that and in

926
00:34:07,350 --> 00:34:06,399
fact the whole country was reporting

927
00:34:09,750 --> 00:34:07,360
them

928
00:34:11,030 --> 00:34:09,760
flying discs were everywhere right and

929
00:34:12,710 --> 00:34:11,040
so

930
00:34:14,790 --> 00:34:12,720
what were we doing around that time with

931
00:34:16,950 --> 00:34:14,800
nuclear well guess what we were setting

932
00:34:19,349 --> 00:34:16,960
them off we were we were doing atomic

933
00:34:20,710 --> 00:34:19,359
tests underneath the oceans

934
00:34:22,389 --> 00:34:20,720
and the atolls

935
00:34:24,710 --> 00:34:22,399
and we were you know bombing the heck

936
00:34:27,190 --> 00:34:24,720
out of you know that the atolls and the

937
00:34:28,790 --> 00:34:27,200
water right yeah well that would be a

938
00:34:30,230 --> 00:34:28,800

concern if you're living under water

939

00:34:32,950 --> 00:34:30,240

maybe right

940

00:34:34,869 --> 00:34:32,960

if you have a base under there so why

941

00:34:37,270 --> 00:34:34,879

wouldn't you want to pop up and try to

942

00:34:39,430 --> 00:34:37,280

influence or change that and watch what

943

00:34:41,990 --> 00:34:39,440

the little ants are doing

944

00:34:44,470 --> 00:34:42,000

above you know ground and try to see if

945

00:34:45,990 --> 00:34:44,480

you could uh send a message

946

00:34:47,190 --> 00:34:46,000

well the message might be to go the

947

00:34:49,829 --> 00:34:47,200

missile base

948

00:34:51,750 --> 00:34:49,839

deactivate the missiles and you know and

949

00:34:52,950 --> 00:34:51,760

send a message that quit playing with

950

00:34:53,829 --> 00:34:52,960

nukes right

951
00:34:55,030 --> 00:34:53,839
yeah

952
00:34:56,389 --> 00:34:55,040
okay

953
00:34:58,069 --> 00:34:56,399
i was going to ask did you happen to

954
00:35:00,550 --> 00:34:58,079
catch linda moulton house speaking to

955
00:35:02,790 --> 00:35:00,560
luella zondo in the last week

956
00:35:04,230 --> 00:35:02,800
i didn't yet i i've been too busy with

957
00:35:06,150 --> 00:35:04,240
the conference and everything else that

958
00:35:07,829 --> 00:35:06,160
i'm putting together and i just haven't

959
00:35:09,910 --> 00:35:07,839
had the time to see it but

960
00:35:11,589 --> 00:35:09,920
there was a small section yeah there was

961
00:35:13,750 --> 00:35:11,599
there was a part where linda milton how

962
00:35:15,270 --> 00:35:13,760
asked lou about the

963
00:35:17,910 --> 00:35:15,280

she talks about a few different things

964

00:35:20,230 --> 00:35:17,920

and alien civilizations being on the

965

00:35:21,990 --> 00:35:20,240

planet for 270 million years and three

966

00:35:23,990 --> 00:35:22,000

different types of races but within that

967

00:35:25,829 --> 00:35:24,000

she talks about the idea that alien

968

00:35:28,230 --> 00:35:25,839

races won't let us blow each other up

969

00:35:29,910 --> 00:35:28,240

with nuclear weapons because you know

970

00:35:32,310 --> 00:35:29,920

it's in their best interest they're

971

00:35:33,990 --> 00:35:32,320

looking out for is and and lou makes the

972

00:35:36,390 --> 00:35:34,000

point that well they never stopped you

973

00:35:38,310 --> 00:35:36,400

know hiroshima and nagasaki they never

974

00:35:40,069 --> 00:35:38,320

stopped any number of the thousands of

975

00:35:42,630 --> 00:35:40,079

nuclear tests that happen every year

976
00:35:44,950 --> 00:35:42,640
that's above ground in the water or you

977
00:35:47,589 --> 00:35:44,960
know out in deserts and linda just has

978
00:35:49,829 --> 00:35:47,599
to say yep that's a fair point

979
00:35:51,430 --> 00:35:49,839
again do you think again it's

980
00:35:52,790 --> 00:35:51,440
speculating but

981
00:35:55,670 --> 00:35:52,800
they're turning these things on and off

982
00:35:57,190 --> 00:35:55,680
but at what point does that warning

983
00:35:58,390 --> 00:35:57,200
it stops becoming a warning and either

984
00:36:01,670 --> 00:35:58,400
they let it happen

985
00:36:03,030 --> 00:36:01,680
or they do something about it themselves

986
00:36:05,030 --> 00:36:03,040
well that's a good question because

987
00:36:07,270 --> 00:36:05,040
that's you know ultimately

988
00:36:08,230 --> 00:36:07,280

you know it's fun speculating about it

989

00:36:12,550 --> 00:36:08,240

and

990

00:36:15,750 --> 00:36:12,560

an alien race would be thinking which i

991

00:36:16,710 --> 00:36:15,760

don't but ultimately it's a situation

992

00:36:18,630 --> 00:36:16,720

where

993

00:36:22,150 --> 00:36:18,640

there are subtle hints to that that are

994

00:36:24,390 --> 00:36:22,160

given even if you look at uh and

995

00:36:26,550 --> 00:36:24,400

investigate abduction cases

996

00:36:28,310 --> 00:36:26,560

if you take a look at abduction cases

997

00:36:30,790 --> 00:36:28,320

you have a situation where a lot of the

998

00:36:33,190 --> 00:36:30,800

report being taken aboard

999

00:36:35,109 --> 00:36:33,200

the craft and at the same time they're

1000

00:36:36,790 --> 00:36:35,119

shown like a video of the earth being

1001
00:36:38,870 --> 00:36:36,800
annihilated

1002
00:36:39,750 --> 00:36:38,880
by some sort of disaster of some sort

1003
00:36:41,430 --> 00:36:39,760
right

1004
00:36:44,550 --> 00:36:41,440
and and then you try to like you know

1005
00:36:46,790 --> 00:36:44,560
sit back and say well what's that about

1006
00:36:48,310 --> 00:36:46,800
do they care about us you know do they

1007
00:36:49,109 --> 00:36:48,320
is there a care there

1008
00:36:49,829 --> 00:36:49,119
uh

1009
00:36:51,670 --> 00:36:49,839
and

1010
00:36:53,109 --> 00:36:51,680
the answer would be probably you know if

1011
00:36:55,589 --> 00:36:53,119
you looked at

1012
00:36:57,430 --> 00:36:55,599
the cases you'd say well maybe they do

1013
00:37:00,470 --> 00:36:57,440

care about us you know that they they

1014

00:37:02,710 --> 00:37:00,480

are concerned uh and so ultimately it's

1015

00:37:04,310 --> 00:37:02,720

a situation where they may have had a

1016

00:37:06,630 --> 00:37:04,320

relationship if you look throughout

1017

00:37:08,870 --> 00:37:06,640

history and of course jacques valet did

1018

00:37:11,109 --> 00:37:08,880

that wonders in the sky and a whole

1019

00:37:12,950 --> 00:37:11,119

bunch of other people have captured that

1020

00:37:15,349 --> 00:37:12,960

you know you can very readily say that

1021

00:37:17,190 --> 00:37:15,359

every part of the planet has had had

1022

00:37:18,630 --> 00:37:17,200

ufos or something like that that they

1023

00:37:20,230 --> 00:37:18,640

couldn't identify

1024

00:37:21,430 --> 00:37:20,240

many of them called them gods or various

1025

00:37:23,430 --> 00:37:21,440

other things that came down from the

1026
00:37:25,750 --> 00:37:23,440
skies or whatever but there's been that

1027
00:37:28,550 --> 00:37:25,760
relationship between us and them for a

1028
00:37:31,190 --> 00:37:28,560
very very long time so

1029
00:37:32,950 --> 00:37:31,200
you know and it i'll this is like way

1030
00:37:35,750 --> 00:37:32,960
off the deep end but you know and

1031
00:37:37,270 --> 00:37:35,760
certainly there's no proof for it but

1032
00:37:38,790 --> 00:37:37,280
if you look at the the abduction

1033
00:37:40,230 --> 00:37:38,800
phenomena you'd say that well wait a

1034
00:37:42,150 --> 00:37:40,240
minute it looks like they're doing some

1035
00:37:44,310 --> 00:37:42,160
sort of genetic manipulation if you want

1036
00:37:45,589 --> 00:37:44,320
to buy all that whole thing

1037
00:37:47,430 --> 00:37:45,599
well

1038
00:37:49,829 --> 00:37:47,440

how did we come about

1039

00:37:51,990 --> 00:37:49,839

and was that genetic manipulation and

1040

00:37:55,190 --> 00:37:52,000

maybe they're actually helping

1041

00:37:59,750 --> 00:37:55,200

us to evolve right or maybe that's what

1042

00:38:01,750 --> 00:37:59,760

led into our eventual evolution uh so

1043

00:38:05,030 --> 00:38:01,760

again it's just speculation but it you

1044

00:38:07,030 --> 00:38:05,040

know there's we don't know and because

1045

00:38:08,630 --> 00:38:07,040

we don't know uh we don't know where

1046

00:38:11,030 --> 00:38:08,640

they're from we don't know what their

1047

00:38:13,030 --> 00:38:11,040

intent is we struggle with trying to

1048

00:38:15,270 --> 00:38:13,040

figure out all these things and trying

1049

00:38:17,430 --> 00:38:15,280

to paint them and think of them as you

1050

00:38:19,109 --> 00:38:17,440

know what humans would think of you know

1051

00:38:21,349 --> 00:38:19,119

how would we think right

1052

00:38:23,990 --> 00:38:21,359

when it might be totally different

1053

00:38:25,589 --> 00:38:24,000

and so ultimately it's a situation where

1054

00:38:27,829 --> 00:38:25,599

you know you try to make sense out of

1055

00:38:29,829 --> 00:38:27,839

nonsense if you would and what it would

1056

00:38:31,430 --> 00:38:29,839

appear to me is that

1057

00:38:33,510 --> 00:38:31,440

that they have been here they are

1058

00:38:35,829 --> 00:38:33,520

concerned about us playing with nuclear

1059

00:38:37,430 --> 00:38:35,839

toys and that they potentially

1060

00:38:39,589 --> 00:38:37,440

might stop us

1061

00:38:40,550 --> 00:38:39,599

because ultimately

1062

00:38:44,950 --> 00:38:40,560

they're

1063

00:38:47,430 --> 00:38:44,960

you know and so we might wipe out the

1064

00:38:49,589 --> 00:38:47,440

entire planet and maybe at that point

1065

00:38:52,230 --> 00:38:49,599

that's when they really come in and say

1066

00:38:53,589 --> 00:38:52,240

all right you guys stop and i i go and

1067

00:38:55,829 --> 00:38:53,599

harken back to

1068

00:38:57,829 --> 00:38:55,839

you know i told you when i got started

1069

00:38:59,190 --> 00:38:57,839

i had to my teacher told me to talk

1070

00:39:01,190 --> 00:38:59,200

about ufos and i said well flying

1071

00:39:02,069 --> 00:39:01,200

sausages i saw on science fiction shows

1072

00:39:03,990 --> 00:39:02,079

right

1073

00:39:06,470 --> 00:39:04,000

the earth the day the earth stood still

1074

00:39:08,069 --> 00:39:06,480

is about the same kind of concept there

1075

00:39:09,990 --> 00:39:08,079

you know i mean if you think about it

1076

00:39:11,990 --> 00:39:10,000

it's like we're about ready to destroy

1077

00:39:13,990 --> 00:39:12,000

ourselves or something like that and so

1078

00:39:16,710 --> 00:39:14,000

the message there was quit playing with

1079

00:39:19,109 --> 00:39:16,720

these toys you know and start working

1080

00:39:21,430 --> 00:39:19,119

together as humanity and i'd certainly

1081

00:39:24,310 --> 00:39:21,440

love to have that happen but i mean it

1082

00:39:26,230 --> 00:39:24,320

hasn't happened but there's been uh

1083

00:39:29,670 --> 00:39:26,240

that's that would be one another way of

1084

00:39:31,510 --> 00:39:29,680

looking at the the nuclear type of thing

1085

00:39:32,950 --> 00:39:31,520

i think organizations though that all

1086

00:39:35,670 --> 00:39:32,960

these questions we're coming up with and

1087

00:39:37,670 --> 00:39:35,680

speculating seo galileo project and

1088

00:39:39,670 --> 00:39:37,680

others are trying to get some answers to

1089

00:39:41,510 --> 00:39:39,680

some of these which is wonderful i want

1090

00:39:42,550 --> 00:39:41,520

to ask you though rich over the last few

1091

00:39:44,390 --> 00:39:42,560

years

1092

00:39:47,190 --> 00:39:44,400

what to you has been the most compelling

1093

00:39:51,349 --> 00:39:47,200

evidence for ufos being constructed by

1094

00:39:55,030 --> 00:39:52,870

well i mean

1095

00:39:57,990 --> 00:39:55,040

you have to look at the nimitz case i

1096

00:39:59,349 --> 00:39:58,000

mean that that that case has got you

1097

00:40:01,589 --> 00:39:59,359

know

1098

00:40:03,030 --> 00:40:01,599

visual it's got radar

1099

00:40:04,550 --> 00:40:03,040

it's got uh

1100

00:40:06,950 --> 00:40:04,560

there were one point there was like i

1101

00:40:10,230 --> 00:40:06,960

believe to be some sort of sonar uh

1102

00:40:13,430 --> 00:40:10,240

detection of something uh but you have

1103

00:40:16,390 --> 00:40:13,440

you have uh all that that high advanced

1104

00:40:18,950 --> 00:40:16,400

equipment that was there witnessing uh

1105

00:40:21,750 --> 00:40:18,960

or actually capturing a lot of

1106

00:40:24,150 --> 00:40:21,760

information that we typically don't get

1107

00:40:25,190 --> 00:40:24,160

and i think that on that one particular

1108

00:40:26,550 --> 00:40:25,200

case

1109

00:40:29,589 --> 00:40:26,560

that you see

1110

00:40:31,510 --> 00:40:29,599

a tremendous amount of evidence

1111

00:40:34,309 --> 00:40:31,520

and that's the one we spent the most

1112

00:40:36,950 --> 00:40:34,319

time documented in fact our report is up

1113

00:40:40,470 --> 00:40:36,960

on our website is is basically

1114

00:40:43,750 --> 00:40:40,480

i think it's it's now not 177 it's 277

1115

00:40:46,069 --> 00:40:43,760

pages long and it's like you know we

1116

00:40:47,910 --> 00:40:46,079

actually interviewed the pilots we

1117

00:40:49,910 --> 00:40:47,920

interviewed the people on the princeton

1118

00:40:51,510 --> 00:40:49,920

we interviewed the uh

1119

00:40:52,790 --> 00:40:51,520

other people who were around on the

1120

00:40:53,670 --> 00:40:52,800

different ships

1121

00:40:55,270 --> 00:40:53,680

and

1122

00:40:56,630 --> 00:40:55,280

it to me it

1123

00:40:59,109 --> 00:40:56,640

you know when you when we looked at it

1124

00:41:00,550 --> 00:40:59,119

from the physics standpoint okay

1125

00:41:02,630 --> 00:41:00,560

when you have an object that's being

1126
00:41:03,829 --> 00:41:02,640
described that goes from twenty thousand

1127
00:41:07,510 --> 00:41:03,839
feet

1128
00:41:10,470 --> 00:41:07,520
and it instantaneously stops above sea

1129
00:41:12,950 --> 00:41:10,480
level in less than one second point set

1130
00:41:14,630 --> 00:41:12,960
in 0.78 seconds right

1131
00:41:17,910 --> 00:41:14,640
when we do the math and we do the

1132
00:41:19,430 --> 00:41:17,920
physics on that and we look at that okay

1133
00:41:21,190 --> 00:41:19,440
first off

1134
00:41:24,230 --> 00:41:21,200
if you have an object that's about the

1135
00:41:26,550 --> 00:41:24,240
size of the f-15

1136
00:41:29,109 --> 00:41:26,560
aircraft or you know the f-18 aircraft

1137
00:41:30,710 --> 00:41:29,119
excuse me uh if you have a

1138
00:41:32,550 --> 00:41:30,720

and you assume that it has about that

1139

00:41:35,270 --> 00:41:32,560

same amount of weight

1140

00:41:36,230 --> 00:41:35,280

and you took that and you dropped it if

1141

00:41:37,829 --> 00:41:36,240

you would

1142

00:41:39,430 --> 00:41:37,839

think about that it's gotta it's gonna

1143

00:41:41,589 --> 00:41:39,440

accelerate down

1144

00:41:44,069 --> 00:41:41,599

and then about maybe halfway point our

1145

00:41:46,390 --> 00:41:44,079

technology would say you'd have to

1146

00:41:49,670 --> 00:41:46,400

you know put on the brakes if you would

1147

00:41:51,589 --> 00:41:49,680

and in order to stop above the water

1148

00:41:53,030 --> 00:41:51,599

so

1149

00:41:55,349 --> 00:41:53,040

think about that in terms of the

1150

00:41:58,069 --> 00:41:55,359

acceleration down halfway point and then

1151
00:42:00,550 --> 00:41:58,079
suddenly now it's decelerating to

1152
00:42:01,670 --> 00:42:00,560
actually come to a complete stop

1153
00:42:02,630 --> 00:42:01,680
we haven't got anything that could do

1154
00:42:08,230 --> 00:42:02,640
that

1155
00:42:10,470 --> 00:42:08,240
would have disintegrated on the way down

1156
00:42:13,030 --> 00:42:10,480
because it couldn't have taken

1157
00:42:14,390 --> 00:42:13,040
uh that kind of g-force

1158
00:42:17,829 --> 00:42:14,400
at all

1159
00:42:19,109 --> 00:42:17,839
you have an object that was recorded uh

1160
00:42:20,309 --> 00:42:19,119
both on

1161
00:42:23,829 --> 00:42:20,319
video

1162
00:42:25,750 --> 00:42:23,839
as well as the when uh fraber saw it go

1163
00:42:26,630 --> 00:42:25,760

to the cap point

1164

00:42:28,710 --> 00:42:26,640

uh

1165

00:42:31,510 --> 00:42:28,720

as well as you have a measurement of the

1166

00:42:33,670 --> 00:42:31,520

object that if you were dropping from 20

1167

00:42:35,270 --> 00:42:33,680

000 feet and stopping at sea level so

1168

00:42:36,790 --> 00:42:35,280

there's three different measures there

1169

00:42:40,069 --> 00:42:36,800

all of them exceeded something on a

1170

00:42:43,510 --> 00:42:40,079

scale of about mach 50 or 55

1171

00:42:45,349 --> 00:42:43,520

you know and so with that kind of speed

1172

00:42:47,430 --> 00:42:45,359

which we have nothing on the planet that

1173

00:42:49,829 --> 00:42:47,440

can do that at all

1174

00:42:52,230 --> 00:42:49,839

and we've got nothing structurally that

1175

00:42:54,470 --> 00:42:52,240

could have withstood the g-force we have

1176

00:42:57,589 --> 00:42:54,480

nothing that were that that actually can

1177

00:43:00,309 --> 00:42:57,599

basically make it zero mass if you would

1178

00:43:01,990 --> 00:43:00,319

where it was dropping from that height

1179

00:43:03,990 --> 00:43:02,000

no sonic boom

1180

00:43:07,910 --> 00:43:04,000

the kinetic power would have been the

1181

00:43:10,230 --> 00:43:07,920

equivalent of the output of hoover dam

1182

00:43:12,510 --> 00:43:10,240

and so

1183

00:43:15,030 --> 00:43:12,520

how do you have any and it's not

1184

00:43:16,230 --> 00:43:15,040

aerodynamically sound at all in terms of

1185

00:43:18,069 --> 00:43:16,240

the shape

1186

00:43:21,510 --> 00:43:18,079

there were no indications of any

1187

00:43:23,750 --> 00:43:21,520

propulsion system on that object at all

1188

00:43:26,550 --> 00:43:23,760

and you're not seeing any massive

1189

00:43:28,790 --> 00:43:26,560

heating up in the atmosphere of an

1190

00:43:31,510 --> 00:43:28,800

object like you would if you had

1191

00:43:33,270 --> 00:43:31,520

something that was by hypersonic

1192

00:43:35,349 --> 00:43:33,280

all these hypersonic missiles are going

1193

00:43:36,790 --> 00:43:35,359

more than mach 5.

1194

00:43:38,069 --> 00:43:36,800

you know they heat up in the atmosphere

1195

00:43:40,069 --> 00:43:38,079

so you have to have the right materials

1196

00:43:41,990 --> 00:43:40,079

to be able to deal with that we haven't

1197

00:43:44,390 --> 00:43:42,000

got anything that can overcome that and

1198

00:43:46,550 --> 00:43:44,400

yet when you take a look at that one

1199

00:43:51,349 --> 00:43:46,560

case

1200

00:43:54,309 --> 00:43:51,359

1955

1201
00:43:56,150 --> 00:43:54,319
or something 1954 where they talk about

1202
00:43:58,950 --> 00:43:56,160
an object that was hovering and that

1203
00:44:01,750 --> 00:43:58,960
when it took instantaneous acceleration

1204
00:44:04,390 --> 00:44:01,760
would shoot off make 90 degree turns

1205
00:44:08,069 --> 00:44:04,400
that would that would not apparently

1206
00:44:09,990 --> 00:44:08,079
heat up there was no sound no sonic boom

1207
00:44:12,950 --> 00:44:10,000
and so the similarities throughout

1208
00:44:15,750 --> 00:44:12,960
history have always been the same as it

1209
00:44:19,829 --> 00:44:15,760
was with the tic tac so the tic tac

1210
00:44:22,950 --> 00:44:19,839
is not necessarily unusual in itself

1211
00:44:24,069 --> 00:44:22,960
it's it's the fact that you had so much

1212
00:44:26,950 --> 00:44:24,079
excellent

1213
00:44:28,069 --> 00:44:26,960

credible witnesses that makes to me in

1214

00:44:31,270 --> 00:44:28,079

my mind

1215

00:44:33,030 --> 00:44:31,280

the the most compelling case

1216

00:44:34,550 --> 00:44:33,040

it's an event i know very well

1217

00:44:35,990 --> 00:44:34,560

especially during the podcast everyone

1218

00:44:38,230 --> 00:44:36,000

brings it up people ask me about it

1219

00:44:39,990 --> 00:44:38,240

outside and work and things like that

1220

00:44:41,829 --> 00:44:40,000

but when you when you rhyme off all

1221

00:44:43,190 --> 00:44:41,839

those data points and measurements and

1222

00:44:45,270 --> 00:44:43,200

sources

1223

00:44:47,990 --> 00:44:45,280

it brings it back to how incredible that

1224

00:44:49,589 --> 00:44:48,000

event is and and was

1225

00:44:51,349 --> 00:44:49,599

why aren't more

1226
00:44:52,309 --> 00:44:51,359
mainstream scientists if i can use that

1227
00:44:53,829 --> 00:44:52,319
phrase

1228
00:44:56,230 --> 00:44:53,839
interested in

1229
00:44:58,069 --> 00:44:56,240
that particular case when if you want to

1230
00:45:00,069 --> 00:44:58,079
forget about laughing about ufos and

1231
00:45:01,750 --> 00:45:00,079
flying saucers on little green men when

1232
00:45:03,910 --> 00:45:01,760
you go to scientists and surely the

1233
00:45:06,150 --> 00:45:03,920
whole idea of being a scientist or you

1234
00:45:07,430 --> 00:45:06,160
know being involved in physics and

1235
00:45:09,510 --> 00:45:07,440
engineering when you hear about

1236
00:45:11,589 --> 00:45:09,520
something doing that why aren't more

1237
00:45:14,309 --> 00:45:11,599
people gravitating towards this subject

1238
00:45:19,109 --> 00:45:15,829

well i think i think you're seeing the

1239

00:45:21,270 --> 00:45:19,119

change and it might be very slow but

1240

00:45:23,829 --> 00:45:21,280

ultimately you are getting mainstream

1241

00:45:25,430 --> 00:45:23,839

scientists that are now getting engaged

1242

00:45:28,630 --> 00:45:25,440

and coming out like i talked about with

1243

00:45:31,030 --> 00:45:28,640

our increasing numbers even in seo and

1244

00:45:33,109 --> 00:45:31,040

the fact you have project galileo the

1245

00:45:34,710 --> 00:45:33,119

fact that you have the the american

1246

00:45:37,109 --> 00:45:34,720

institute for

1247

00:45:39,109 --> 00:45:37,119

aeronautics and astronautics now having

1248

00:45:41,430 --> 00:45:39,119

an actual community of interest that's

1249

00:45:43,670 --> 00:45:41,440

going to be led by ryan graves and we've

1250

00:45:45,829 --> 00:45:43,680

got a number of members on it that's

1251
00:45:48,630 --> 00:45:45,839
indicating that this thing is opening up

1252
00:45:50,870 --> 00:45:48,640
in a lot of different ways slowly but it

1253
00:45:53,270 --> 00:45:50,880
is nevertheless there and then you have

1254
00:45:55,109 --> 00:45:53,280
the other thing where i think mainstream

1255
00:45:57,589 --> 00:45:55,119
scientists are still trying to catch up

1256
00:45:58,950 --> 00:45:57,599
with well who do i go to what do i who

1257
00:46:00,390 --> 00:45:58,960
do i talk with

1258
00:46:01,910 --> 00:46:00,400
they're not as familiar with you know

1259
00:46:03,670 --> 00:46:01,920
maybe yes to you they haven't even heard

1260
00:46:05,990 --> 00:46:03,680
of us or something that you know so

1261
00:46:07,030 --> 00:46:06,000
ultimately it might be that type of

1262
00:46:08,069 --> 00:46:07,040
thing and they've never made the

1263
00:46:10,870 --> 00:46:08,079

connection

1264

00:46:12,870 --> 00:46:10,880

but gradually they're all coming on and

1265

00:46:15,030 --> 00:46:12,880

the more we have these conversations and

1266

00:46:16,150 --> 00:46:15,040

the more that you know like that others

1267

00:46:17,829 --> 00:46:16,160

are out there

1268

00:46:19,990 --> 00:46:17,839

and they hear about that case for

1269

00:46:21,430 --> 00:46:20,000

example and they actually get the data

1270

00:46:23,190 --> 00:46:21,440

points from it

1271

00:46:24,870 --> 00:46:23,200

and that's why we published our paper

1272

00:46:26,790 --> 00:46:24,880

stuck it up on our website hoping that

1273

00:46:28,309 --> 00:46:26,800

people we can point people to it and get

1274

00:46:30,309 --> 00:46:28,319

those scientists to actually take a look

1275

00:46:33,030 --> 00:46:30,319

at what our study was and then go do

1276

00:46:34,630 --> 00:46:33,040

their own you know uh and then you know

1277

00:46:36,630 --> 00:46:34,640

ultimately we're still hoping that at

1278

00:46:37,829 --> 00:46:36,640

some point down the pike

1279

00:46:40,630 --> 00:46:37,839

that

1280

00:46:42,390 --> 00:46:40,640

maybe just maybe you'll have the

1281

00:46:45,990 --> 00:46:42,400

government being willing to work with

1282

00:46:49,190 --> 00:46:46,000

academia or or with us you know or other

1283

00:46:51,510 --> 00:46:49,200

non-uh governmental organizations

1284

00:46:53,910 --> 00:46:51,520

to help study the phenomena and then

1285

00:46:56,069 --> 00:46:53,920

we'll learn something from that study

1286

00:46:59,030 --> 00:46:56,079

and so i think that i think we're

1287

00:47:00,470 --> 00:46:59,040

getting there it's relatively slow

1288

00:47:03,190 --> 00:47:00,480

but you still have people that are

1289

00:47:05,589 --> 00:47:03,200

waking up to this subject uh not

1290

00:47:07,510 --> 00:47:05,599

everybody in the country has jumped on

1291

00:47:09,349 --> 00:47:07,520

just because we were on talking about it

1292

00:47:12,150 --> 00:47:09,359

on the internet or we were talking about

1293

00:47:13,670 --> 00:47:12,160

it up you know on the news

1294

00:47:16,390 --> 00:47:13,680

uh there's

1295

00:47:18,230 --> 00:47:16,400

there are still a lot of stigma uh out

1296

00:47:20,390 --> 00:47:18,240

there with this you've got religious

1297

00:47:22,230 --> 00:47:20,400

groups that won't you know do it uh

1298

00:47:24,150 --> 00:47:22,240

won't talk about it there are a lot of

1299

00:47:26,630 --> 00:47:24,160

people that still won't report because

1300

00:47:28,309 --> 00:47:26,640

they're afraid of humiliation

1301

00:47:31,430 --> 00:47:28,319

uh and uh

1302

00:47:33,109 --> 00:47:31,440

you know so it's gonna take a while

1303

00:47:35,750 --> 00:47:33,119

and i think that that what we're

1304

00:47:37,190 --> 00:47:35,760

starting to see is with technology like

1305

00:47:39,510 --> 00:47:37,200

we got here where we're having a

1306

00:47:41,109 --> 00:47:39,520

conversation across the pond that

1307

00:47:43,589 --> 00:47:41,119

ultimately is a situation where we're

1308

00:47:46,150 --> 00:47:43,599

getting more and more of the news out

1309

00:47:47,990 --> 00:47:46,160

and and now we're starting to see other

1310

00:47:50,790 --> 00:47:48,000

governments who are again wanting to

1311

00:47:52,549 --> 00:47:50,800

come on board and also study it so i

1312

00:47:54,549 --> 00:47:52,559

think it's it's just going to take time

1313

00:47:55,829 --> 00:47:54,559

but it will happen

1314

00:47:57,750 --> 00:47:55,839

and you mentioned the government

1315

00:47:58,950 --> 00:47:57,760

particularly in the united states seem

1316

00:48:01,349 --> 00:47:58,960

to be the most

1317

00:48:03,349 --> 00:48:01,359

powering forward in this topic with the

1318

00:48:05,670 --> 00:48:03,359

gillibrand amendment being discussed by

1319

00:48:07,349 --> 00:48:05,680

senators congressmen congresswoman at

1320

00:48:09,589 --> 00:48:07,359

various different levels

1321

00:48:11,510 --> 00:48:09,599

the the task force report of last year

1322

00:48:13,270 --> 00:48:11,520

for some was it was a big thing for some

1323

00:48:14,950 --> 00:48:13,280

it was a damp scrub and for others they

1324

00:48:17,270 --> 00:48:14,960

were curious and waiting to see what

1325

00:48:19,190 --> 00:48:17,280

else would come out do you think the new

1326

00:48:21,990 --> 00:48:19,200

permanent office is going to be set up

1327

00:48:23,670 --> 00:48:22,000

whether it's say ao imsg or azero or

1328

00:48:24,470 --> 00:48:23,680

whatever they end up being amalgamated

1329

00:48:31,910 --> 00:48:24,480

to

1330

00:48:33,670 --> 00:48:31,920

yeah

1331

00:48:35,430 --> 00:48:33,680

certainly i understand a lot of people

1332

00:48:38,309 --> 00:48:35,440

thinking that this is going to be like

1333

00:48:40,150 --> 00:48:38,319

project blue book you know was uh and

1334

00:48:42,549 --> 00:48:40,160

they want to do that comparison i don't

1335

00:48:44,790 --> 00:48:42,559

think that it's at all like project blue

1336

00:48:48,069 --> 00:48:44,800

book uh

1337

00:48:50,069 --> 00:48:48,079

project blue book was basically a uh

1338

00:48:51,430 --> 00:48:50,079

like if you think about like a public

1339

00:48:53,270 --> 00:48:51,440

front

1340

00:48:54,630 --> 00:48:53,280

it wasn't it had like about four people

1341

00:48:56,309 --> 00:48:54,640

on the staff

1342

00:48:57,990 --> 00:48:56,319

uh and that's about it

1343

00:48:59,750 --> 00:48:58,000

uh and they collected the information

1344

00:49:00,950 --> 00:48:59,760

took the reports and then they would

1345

00:49:03,510 --> 00:49:00,960

tell you how many reports that they

1346

00:49:05,349 --> 00:49:03,520

received in a certain period of time

1347

00:49:07,030 --> 00:49:05,359

but did it have a whole cadre of

1348

00:49:08,150 --> 00:49:07,040

scientists in the background that were

1349

00:49:08,950 --> 00:49:08,160

studying it

1350

00:49:10,630 --> 00:49:08,960

no

1351

00:49:12,470 --> 00:49:10,640

it leveraged some of the other

1352

00:49:15,349 --> 00:49:12,480

organizations like foreign technology

1353

00:49:17,270 --> 00:49:15,359

division uh at the base or it used to be

1354

00:49:20,069 --> 00:49:17,280

called attic and then it became foreign

1355

00:49:22,230 --> 00:49:20,079

technology now it's called nasic

1356

00:49:23,910 --> 00:49:22,240

anyway the uh

1357

00:49:25,990 --> 00:49:23,920

they would leverage those people to help

1358

00:49:29,109 --> 00:49:26,000

them with some cases they obviously had

1359

00:49:31,109 --> 00:49:29,119

heinek as a consultant uh to go out and

1360

00:49:33,750 --> 00:49:31,119

to basically

1361

00:49:34,549 --> 00:49:33,760

debunk cases up until the time that he

1362

00:49:36,309 --> 00:49:34,559

left

1363

00:49:37,349 --> 00:49:36,319

and so you know you had that kind of

1364

00:49:41,030 --> 00:49:37,359

thing going on

1365

00:49:42,950 --> 00:49:41,040

this is a an entire government study

1366

00:49:45,670 --> 00:49:42,960

this uh the reason why they called it

1367

00:49:47,750 --> 00:49:45,680

the uh the synchronization or management

1368

00:49:50,390 --> 00:49:47,760

synchronization management or management

1369

00:49:53,349 --> 00:49:50,400

synchronization uh is because they've

1370

00:49:56,069 --> 00:49:53,359

got a synchrony uh synchronized between

1371

00:49:58,069 --> 00:49:56,079

the title 50 and the title uh title 10

1372

00:50:00,390 --> 00:49:58,079

organizations that are out there where

1373

00:50:01,750 --> 00:50:00,400

you have like you know uh

1374

00:50:03,190 --> 00:50:01,760

you know noah

1375

00:50:05,349 --> 00:50:03,200

might have something to do with

1376
00:50:07,030 --> 00:50:05,359
reporting the weather you know i mean

1377
00:50:09,030 --> 00:50:07,040
our weather reporting you might have

1378
00:50:11,430 --> 00:50:09,040
these other organizations like that that

1379
00:50:14,069 --> 00:50:11,440
ought to be engaged or can help provide

1380
00:50:14,790 --> 00:50:14,079
that so it's a total government kind of

1381
00:50:17,030 --> 00:50:14,800
like

1382
00:50:20,230 --> 00:50:17,040
look at this whole subject

1383
00:50:23,030 --> 00:50:20,240
which is never happened before

1384
00:50:25,030 --> 00:50:23,040
number two there's actually good solid

1385
00:50:26,470 --> 00:50:25,040
funding that's going to be applied to it

1386
00:50:29,109 --> 00:50:26,480
where it's actually going to now

1387
00:50:31,190 --> 00:50:29,119
leverage those smart people that are in

1388
00:50:33,030 --> 00:50:31,200

the organizations i'm a defense

1389

00:50:36,309 --> 00:50:33,040

contractor myself i work for army

1390

00:50:37,910 --> 00:50:36,319

material command right they i can i

1391

00:50:39,829 --> 00:50:37,920

because i've got a clearance i would be

1392

00:50:43,190 --> 00:50:39,839

able to participate if they chose to

1393

00:50:45,430 --> 00:50:43,200

include a a study whereas my

1394

00:50:47,430 --> 00:50:45,440

counterparts in seo or not in the

1395

00:50:49,750 --> 00:50:47,440

government don't have a government not

1396

00:50:52,710 --> 00:50:49,760

working on a contract might not be able

1397

00:50:54,790 --> 00:50:52,720

to engage or be a part of that and so

1398

00:50:57,109 --> 00:50:54,800

but if you look at all the industries

1399

00:50:59,670 --> 00:50:57,119

around the military it's a lot of smart

1400

00:51:01,990 --> 00:50:59,680

people that they could bring to bear on

1401
00:51:04,069 --> 00:51:02,000
the topic and so ultimately i think

1402
00:51:05,589 --> 00:51:04,079
we're going to get great answers

1403
00:51:07,190 --> 00:51:05,599
that we normally

1404
00:51:09,030 --> 00:51:07,200
didn't have before

1405
00:51:10,870 --> 00:51:09,040
at the same time you're you're also

1406
00:51:12,309 --> 00:51:10,880
going to get more reporting

1407
00:51:14,549 --> 00:51:12,319
because they're trying to change the

1408
00:51:16,069 --> 00:51:14,559
paradigm and if you think about all the

1409
00:51:18,309 --> 00:51:16,079
advanced equipment that we've got out

1410
00:51:20,470 --> 00:51:18,319
there on the military we spend millions

1411
00:51:22,630 --> 00:51:20,480
of dollars on that stuff you know on

1412
00:51:24,470 --> 00:51:22,640
just one aircraft we spend you know

1413
00:51:26,549 --> 00:51:24,480

alone the equipment there the like the

1414

00:51:27,990 --> 00:51:26,559

at fleur is a million dollars and more

1415

00:51:30,309 --> 00:51:28,000

you know so

1416

00:51:33,589 --> 00:51:30,319

what i'm talking about it's the the most

1417

00:51:35,430 --> 00:51:33,599

advanced optical the most it's using

1418

00:51:37,270 --> 00:51:35,440

satellite it would be looking at all

1419

00:51:39,589 --> 00:51:37,280

these different kinds of parameters to

1420

00:51:42,150 --> 00:51:39,599

bring that together so we really can

1421

00:51:43,829 --> 00:51:42,160

make a determination as to finally

1422

00:51:46,069 --> 00:51:43,839

what these things are

1423

00:51:47,589 --> 00:51:46,079

and i think from that

1424

00:51:49,589 --> 00:51:47,599

you know you're probably going to have

1425

00:51:51,990 --> 00:51:49,599

the general public will be getting drips

1426
00:51:54,630 --> 00:51:52,000
and drabs of it we'll probably get some

1427
00:51:56,950 --> 00:51:54,640
sort of the reports but it's not go

1428
00:51:59,829 --> 00:51:56,960
it'll gradually i think it'll work its

1429
00:52:01,589 --> 00:51:59,839
way out because i think that ultimately

1430
00:52:03,349 --> 00:52:01,599
whatever the conclusion is it's not

1431
00:52:05,190 --> 00:52:03,359
going to be where you can close it down

1432
00:52:09,349 --> 00:52:05,200
and not talk about it

1433
00:52:13,510 --> 00:52:11,990
you know so secondly it's going to be a

1434
00:52:15,270 --> 00:52:13,520
situation where

1435
00:52:16,790 --> 00:52:15,280
it'll get out and then they've got to

1436
00:52:19,030 --> 00:52:16,800
own up to the fact that they've got

1437
00:52:21,430 --> 00:52:19,040
something but right now the big thing is

1438
00:52:23,270 --> 00:52:21,440

to try to get organized it's about

1439

00:52:25,829 --> 00:52:23,280

trying to get all these organizations to

1440

00:52:28,630 --> 00:52:25,839

work cooperatively together it's about

1441

00:52:30,710 --> 00:52:28,640

getting a central database if you would

1442

00:52:33,430 --> 00:52:30,720

bringing it all together you know get

1443

00:52:35,910 --> 00:52:33,440

the reporting in structure in place and

1444

00:52:38,069 --> 00:52:35,920

having all these reports how do you send

1445

00:52:39,589 --> 00:52:38,079

your data like if you got sonar data how

1446

00:52:42,069 --> 00:52:39,599

do i get that now

1447

00:52:43,750 --> 00:52:42,079

it's changing uh all the devices that

1448

00:52:44,870 --> 00:52:43,760

we've got out there with military

1449

00:52:47,030 --> 00:52:44,880

systems

1450

00:52:49,349 --> 00:52:47,040

to be able to make sure it's calibrated

1451
00:52:52,309 --> 00:52:49,359
or set to the right settings to be able

1452
00:52:53,670 --> 00:52:52,319
to help us to detect objects

1453
00:52:56,870 --> 00:52:53,680
uh

1454
00:52:59,990 --> 00:52:56,880
i'm i'm also engaged on a project at the

1455
00:53:01,190 --> 00:53:00,000
army uh actually it's the entire dod

1456
00:53:03,910 --> 00:53:01,200
right now

1457
00:53:06,150 --> 00:53:03,920
which we're actually installing

1458
00:53:10,870 --> 00:53:06,160
uh a counter measure

1459
00:53:13,670 --> 00:53:10,880
uh uas system kind of like uh weapon

1460
00:53:15,589 --> 00:53:13,680
if you would it would be able to knock

1461
00:53:17,270 --> 00:53:15,599
drones out of the sky it would be able

1462
00:53:19,349 --> 00:53:17,280
to detect their presence coming on to

1463
00:53:20,390 --> 00:53:19,359

our military installations

1464

00:53:22,710 --> 00:53:20,400

uh

1465

00:53:25,510 --> 00:53:22,720

or or anywhere of our real estate if you

1466

00:53:27,430 --> 00:53:25,520

would uh at the same time it would be

1467

00:53:30,069 --> 00:53:27,440

able to take over the control of that

1468

00:53:32,069 --> 00:53:30,079

drone we'd also know where the operator

1469

00:53:33,829 --> 00:53:32,079

is actually flying from

1470

00:53:35,190 --> 00:53:33,839

uh and so

1471

00:53:37,750 --> 00:53:35,200

i'm right now

1472

00:53:39,589 --> 00:53:37,760

installing those and the army bases that

1473

00:53:41,589 --> 00:53:39,599

i that i work with

1474

00:53:43,990 --> 00:53:41,599

and so again that's another set of

1475

00:53:45,990 --> 00:53:44,000

measures because they've got acoustic

1476

00:53:48,150 --> 00:53:46,000

sensors they would be able to detect

1477

00:53:49,990 --> 00:53:48,160

things acoustically they spectrally

1478

00:53:52,549 --> 00:53:50,000

they'd be able to detect things they

1479

00:53:54,950 --> 00:53:52,559

would be able to visually detect things

1480

00:53:57,589 --> 00:53:54,960

and they can tell that that object is

1481

00:53:59,589 --> 00:53:57,599

now moving into the facility and now

1482

00:54:01,030 --> 00:53:59,599

they can do something about it

1483

00:54:03,190 --> 00:54:01,040

and so

1484

00:54:05,829 --> 00:54:03,200

that's the kind of like level of sensors

1485

00:54:07,270 --> 00:54:05,839

you want to have around this thing and i

1486

00:54:09,190 --> 00:54:07,280

think that the government now can

1487

00:54:11,990 --> 00:54:09,200

address that use the scientists that

1488

00:54:14,150 --> 00:54:12,000

they have to be able to figure that out

1489

00:54:16,790 --> 00:54:14,160

and to help us to do the research and

1490

00:54:18,150 --> 00:54:16,800

figure out what that these things are

1491

00:54:19,430 --> 00:54:18,160

if you don't mind rich i'd like to use

1492

00:54:20,870 --> 00:54:19,440

the last of the time we've got to get

1493

00:54:21,829 --> 00:54:20,880

through some listener questions if you

1494

00:54:22,710 --> 00:54:21,839

can

1495

00:54:24,309 --> 00:54:22,720

sure

1496

00:54:25,910 --> 00:54:24,319

brilliant uh and i've got a good range

1497

00:54:27,349 --> 00:54:25,920

of topics here to cover so hopefully if

1498

00:54:29,109 --> 00:54:27,359

there's anything been missed in the body

1499

00:54:30,710 --> 00:54:29,119

of the interview it's answered within

1500

00:54:32,390 --> 00:54:30,720

listener questions and then maybe if

1501
00:54:34,390 --> 00:54:32,400
rich has a few minutes at the end i've

1502
00:54:36,390 --> 00:54:34,400
got a quick fire around it it dusts off

1503
00:54:37,430 --> 00:54:36,400
anything else and the first question is

1504
00:54:39,510 --> 00:54:37,440
from dan

1505
00:54:41,750 --> 00:54:39,520
yes dan the co-host for anyone checking

1506
00:54:43,990 --> 00:54:41,760
in um given the amount of data that was

1507
00:54:47,270 --> 00:54:44,000
gathered by uap study programs on the

1508
00:54:49,430 --> 00:54:47,280
biological effects of uap on humans will

1509
00:54:51,109 --> 00:54:49,440
you be working with experiencers like

1510
00:54:53,430 --> 00:54:51,119
abductees or people who claim to have

1511
00:54:55,349 --> 00:54:53,440
touched craft or got needed to catalogue

1512
00:54:59,109 --> 00:54:55,359
the data

1513
00:55:02,630 --> 00:54:59,119

um we and seu are not going that

1514

00:55:05,510 --> 00:55:02,640
direction and let me clarify why

1515

00:55:07,510 --> 00:55:05,520
uh bottom line there is that

1516

00:55:09,349 --> 00:55:07,520
there's there's this phenomenon has got

1517

00:55:11,270 --> 00:55:09,359
a lot of different things to it

1518

00:55:13,510 --> 00:55:11,280
there it includes everything from the

1519

00:55:15,349 --> 00:55:13,520
experimenter level which would be you'd

1520

00:55:16,230 --> 00:55:15,359
have to have psychologists you'd have to

1521

00:55:18,309 --> 00:55:16,240
have

1522

00:55:21,030 --> 00:55:18,319
you know everything from

1523

00:55:22,870 --> 00:55:21,040
the medical field and everybody engaged

1524

00:55:25,109 --> 00:55:22,880
in that study okay

1525

00:55:26,950 --> 00:55:25,119
uh that's something that's going well

1526

00:55:30,309 --> 00:55:26,960

beyond what we're about

1527

00:55:32,630 --> 00:55:30,319

we're focusing on just the ufo alone to

1528

00:55:34,630 --> 00:55:32,640

see if we can understand is physics how

1529

00:55:37,030 --> 00:55:34,640

it flies what it does

1530

00:55:39,109 --> 00:55:37,040

and to keep focused on that

1531

00:55:40,789 --> 00:55:39,119

we believe that over the period of the

1532

00:55:42,630 --> 00:55:40,799

history of ufos

1533

00:55:44,549 --> 00:55:42,640

all these distractions and these other

1534

00:55:46,870 --> 00:55:44,559

kinds of things that are out there have

1535

00:55:50,230 --> 00:55:46,880

kept us from really having a full course

1536

00:55:51,270 --> 00:55:50,240

bore study on just that aspect

1537

00:55:54,230 --> 00:55:51,280

right

1538

00:55:56,309 --> 00:55:54,240

so we focused on that kind of data we're

1539

00:55:57,750 --> 00:55:56,319

looking at the how to the physics of the

1540

00:55:59,829 --> 00:55:57,760

object how they maneuver in the

1541

00:56:02,309 --> 00:55:59,839

atmosphere what are they doing how are

1542

00:56:04,710 --> 00:56:02,319

they getting around and we have not gone

1543

00:56:06,630 --> 00:56:04,720

into the experience or world we believe

1544

00:56:08,710 --> 00:56:06,640

that the experienter world has got to

1545

00:56:10,549 --> 00:56:08,720

develop its own discipline

1546

00:56:12,630 --> 00:56:10,559

i know that i was the state director of

1547

00:56:15,109 --> 00:56:12,640

alabama i would receive reports of

1548

00:56:17,910 --> 00:56:15,119

people that would show me their arm and

1549

00:56:20,150 --> 00:56:17,920

it would have a golf ball sized kind of

1550

00:56:21,910 --> 00:56:20,160

like uh protrusion in it and they would

1551

00:56:23,750 --> 00:56:21,920

say that that's an implant well that

1552

00:56:25,670 --> 00:56:23,760

wasn't anything like the other implants

1553

00:56:27,430 --> 00:56:25,680

that were relatively small that nobody

1554

00:56:29,270 --> 00:56:27,440

knew about right so they would come up

1555

00:56:30,789 --> 00:56:29,280

and they would tell you that and weeding

1556

00:56:32,390 --> 00:56:30,799

through all that you know and trying to

1557

00:56:34,150 --> 00:56:32,400

figure that well and then you'd ask the

1558

00:56:35,589 --> 00:56:34,160

individual well did you go to a doctor

1559

00:56:37,349 --> 00:56:35,599

and have it looked at

1560

00:56:39,430 --> 00:56:37,359

which doctor do i go to to have it

1561

00:56:41,589 --> 00:56:39,440

looked at if that's allegedly an implant

1562

00:56:43,750 --> 00:56:41,599

the size of a golf ball did you go to

1563

00:56:45,589 --> 00:56:43,760

your regular doctor no do we have

1564

00:56:47,510 --> 00:56:45,599

funding and money to be able to support

1565

00:56:50,789 --> 00:56:47,520

looking at everybody's arms with bumps

1566

00:56:53,510 --> 00:56:50,799

on them scars marks no

1567

00:56:54,230 --> 00:56:53,520

so consequently you're not getting until

1568

00:56:56,630 --> 00:56:54,240

that

1569

00:56:58,150 --> 00:56:56,640

discipline is put into place

1570

00:57:00,630 --> 00:56:58,160

where you're actually studying this and

1571

00:57:02,950 --> 00:57:00,640

you have a way of weeding out all the

1572

00:57:05,910 --> 00:57:02,960

the the unidentifieds or the the or the

1573

00:57:07,589 --> 00:57:05,920

the excuse me the identifieds and making

1574

00:57:09,750 --> 00:57:07,599

it and then going after the cases that

1575

00:57:11,589 --> 00:57:09,760

are very strong with the right medical

1576
00:57:13,829 --> 00:57:11,599
team the right psychological team the

1577
00:57:16,150 --> 00:57:13,839
right you you name it and doing it

1578
00:57:17,430 --> 00:57:16,160
immediately uh we're not going to

1579
00:57:18,230 --> 00:57:17,440
approach that

1580
00:57:22,470 --> 00:57:18,240
so

1581
00:57:23,910 --> 00:57:22,480
seu is focused on the ufo

1582
00:57:26,069 --> 00:57:23,920
that's a fair answer

1583
00:57:28,549 --> 00:57:26,079
craig who's one of the longest listeners

1584
00:57:31,109 --> 00:57:28,559
to the podcast hi craig asks can rich

1585
00:57:34,309 --> 00:57:31,119
comment on the scu analysis of the

1586
00:57:35,510 --> 00:57:34,319
rubber duck uap video

1587
00:57:38,390 --> 00:57:35,520
as a matter of fact

1588
00:57:40,390 --> 00:57:38,400

that right now that analysis is going

1589

00:57:42,950 --> 00:57:40,400

through peer review we've actually put

1590

00:57:43,990 --> 00:57:42,960

the report together uh it's being peer

1591

00:57:45,670 --> 00:57:44,000

reviewed

1592

00:57:48,549 --> 00:57:45,680

uh we're hoping to have that out

1593

00:57:51,750 --> 00:57:48,559

probably by and finalized as far as the

1594

00:57:53,030 --> 00:57:51,760

peer review study uh by within the next

1595

00:57:56,230 --> 00:57:53,040

two months

1596

00:57:57,349 --> 00:57:56,240

uh bottom line on that i and

1597

00:57:59,670 --> 00:57:57,359

is that

1598

00:58:02,069 --> 00:57:59,680

the the it's a similar situation where

1599

00:58:03,910 --> 00:58:02,079

you have homeland security the customs

1600

00:58:06,069 --> 00:58:03,920

border protection people

1601
00:58:08,950 --> 00:58:06,079
engaged in and watching an object that

1602
00:58:10,630 --> 00:58:08,960
was near the the border uh

1603
00:58:12,950 --> 00:58:10,640
and

1604
00:58:15,750 --> 00:58:12,960
potentially what you look at it on

1605
00:58:18,230 --> 00:58:15,760
thermal and we uh we understand thermal

1606
00:58:19,750 --> 00:58:18,240
uh usually it has like settings it's

1607
00:58:22,470 --> 00:58:19,760
it's basically you know it might be

1608
00:58:25,430 --> 00:58:22,480
black hot or white as hot

1609
00:58:27,829 --> 00:58:25,440
and so in this case in that one it was

1610
00:58:30,309 --> 00:58:27,839
basically black was hot which meant that

1611
00:58:32,470 --> 00:58:30,319
the thermal contrast between like towels

1612
00:58:34,870 --> 00:58:32,480
on the ground or whatever

1613
00:58:36,870 --> 00:58:34,880

would be warmer than what you'd see on

1614

00:58:39,030 --> 00:58:36,880

the object that was seen there

1615

00:58:41,750 --> 00:58:39,040

uh you have an object there that that

1616

00:58:42,870 --> 00:58:41,760

basically maneuvered around for over 40

1617

00:58:44,630 --> 00:58:42,880

minutes

1618

00:58:47,670 --> 00:58:44,640

uh you know and

1619

00:58:49,510 --> 00:58:47,680

was was video recorded as even the

1620

00:58:51,750 --> 00:58:49,520

object went around it you know or the

1621

00:58:54,150 --> 00:58:51,760

aircraft went around it and did loops

1622

00:58:57,349 --> 00:58:54,160

and parallel uh parallax what had to be

1623

00:58:59,750 --> 00:58:57,359

focused on as well in this study but

1624

00:59:03,190 --> 00:58:59,760

ultimately it doesn't the thermal

1625

00:59:04,789 --> 00:59:03,200

signature doesn't match anything that we

1626
00:59:07,990 --> 00:59:04,799
typically know of

1627
00:59:09,589 --> 00:59:08,000
uh it was extremely cold

1628
00:59:12,470 --> 00:59:09,599
and so

1629
00:59:14,789 --> 00:59:12,480
what would be cold like that that would

1630
00:59:16,630 --> 00:59:14,799
yield that kind of a thermal temperature

1631
00:59:19,750 --> 00:59:16,640
and we when we compare that against

1632
00:59:21,510 --> 00:59:19,760
other kinds of objects like if drone

1633
00:59:23,829 --> 00:59:21,520
somebody suggested it might have been a

1634
00:59:26,630 --> 00:59:23,839
parachute with a payload on it

1635
00:59:28,069 --> 00:59:26,640
uh that that was actually seen and that

1636
00:59:30,470 --> 00:59:28,079
would give the rubber ducky kind of

1637
00:59:31,670 --> 00:59:30,480
appearance well first off the balloon

1638
00:59:34,309 --> 00:59:31,680

idea

1639

00:59:37,589 --> 00:59:34,319

is doesn't work because it's going in

1640

00:59:39,990 --> 00:59:37,599

directions against wind at times and so

1641

00:59:41,109 --> 00:59:40,000

you have also the fact that ultimately

1642

00:59:43,829 --> 00:59:41,119

the uh

1643

00:59:45,750 --> 00:59:43,839

the object itself is completely cold and

1644

00:59:47,589 --> 00:59:45,760

it would nothing like a parachute would

1645

00:59:48,950 --> 00:59:47,599

give that kind of like or a balloon

1646

00:59:51,109 --> 00:59:48,960

would have given you that kind of like

1647

00:59:52,549 --> 00:59:51,119

thermal image so there's a lot of these

1648

00:59:55,270 --> 00:59:52,559

types of things that i'm talking about

1649

00:59:57,190 --> 00:59:55,280

that we we expand on in the paper

1650

00:59:59,670 --> 00:59:57,200

but we we ultimately come up with the

1651

01:00:02,470 --> 00:59:59,680

fact that it remains uh inconclusive

1652

01:00:04,870 --> 01:00:02,480

it's it's an anomaly anomalous we don't

1653

01:00:06,630 --> 01:00:04,880

know what it is it doesn't correspond

1654

01:00:09,030 --> 01:00:06,640

with anything that we

1655

01:00:11,109 --> 01:00:09,040

typically think of as being conventional

1656

01:00:13,030 --> 01:00:11,119

or natural

1657

01:00:15,270 --> 01:00:13,040

next up another long-term listener and

1658

01:00:17,109 --> 01:00:15,280

supporter dave smithers uh dave you sent

1659

01:00:18,870 --> 01:00:17,119

a lot of questions thank you but this

1660

01:00:21,589 --> 01:00:18,880

one i've picked to ask rich

1661

01:00:24,950 --> 01:00:21,599

does rich think that some uap are more

1662

01:00:28,710 --> 01:00:27,270

are more advanced than others yeah and i

1663

01:00:31,030 --> 01:00:28,720

think what dave's talking about isn't

1664

01:00:32,950 --> 01:00:31,040

any that potentially may be you know a

1665

01:00:35,670 --> 01:00:32,960

better drone than someone else's but are

1666

01:00:37,750 --> 01:00:35,680

we seeing potentially non-human

1667

01:00:39,750 --> 01:00:37,760

objects here where some of them are

1668

01:00:41,589 --> 01:00:39,760

actually better models they're faster

1669

01:00:43,589 --> 01:00:41,599

they perform better or have better

1670

01:00:45,670 --> 01:00:43,599

characteristics

1671

01:00:47,109 --> 01:00:45,680

let me tell you that number one from

1672

01:00:50,069 --> 01:00:47,119

what we've seen and we're doing it what

1673

01:00:52,870 --> 01:00:50,079

we it's called a a

1674

01:00:54,390 --> 01:00:52,880

a characteristics study right now where

1675

01:00:57,349 --> 01:00:54,400

we're going through history looking at

1676
01:00:58,710 --> 01:00:57,359
shape uh and motion and various other

1677
01:01:01,270 --> 01:00:58,720
things and we're doing that throughout

1678
01:01:02,710 --> 01:01:01,280
history of the reports uh and we're

1679
01:01:04,309 --> 01:01:02,720
putting that study together which hasn't

1680
01:01:06,390 --> 01:01:04,319
been released it'll be it'll also be

1681
01:01:08,789 --> 01:01:06,400
talked about at the conference uh in

1682
01:01:10,789 --> 01:01:08,799
june but uh

1683
01:01:12,309 --> 01:01:10,799
what we find out is that it doesn't

1684
01:01:14,069 --> 01:01:12,319
matter what shape it is we've got

1685
01:01:16,150 --> 01:01:14,079
objects that are dumbbell shaped we've

1686
01:01:17,910 --> 01:01:16,160
got objects that are around we have

1687
01:01:20,710 --> 01:01:17,920
excuse me objects that are site if you

1688
01:01:22,549 --> 01:01:20,720

look at the alaska airlines uh event

1689

01:01:23,910 --> 01:01:22,559

that took place

1690

01:01:25,750 --> 01:01:23,920

you know that was there was an object

1691

01:01:28,230 --> 01:01:25,760

that was almost the size of like i think

1692

01:01:30,390 --> 01:01:28,240

beyond an aircraft carrier i mean it was

1693

01:01:32,309 --> 01:01:30,400

huge and then you have objects that are

1694

01:01:34,549 --> 01:01:32,319

being seen that can maneuver with the

1695

01:01:36,390 --> 01:01:34,559

same efficiency and speed

1696

01:01:38,549 --> 01:01:36,400

uh that might be the size of a

1697

01:01:39,510 --> 01:01:38,559

grapefruit

1698

01:01:42,390 --> 01:01:39,520

and so

1699

01:01:44,470 --> 01:01:42,400

we've got objects that expand that whole

1700

01:01:47,270 --> 01:01:44,480

range of sizes

1701

01:01:48,309 --> 01:01:47,280

that perform with the same ease

1702

01:01:50,150 --> 01:01:48,319

so

1703

01:01:51,750 --> 01:01:50,160

when we put that into context we say

1704

01:01:54,870 --> 01:01:51,760

that well basically it doesn't matter

1705

01:02:00,789 --> 01:01:57,750

but the big bigger question is

1706

01:02:04,150 --> 01:02:00,799

where are they developing

1707

01:02:07,829 --> 01:02:04,160

or maybe about even be where and when

1708

01:02:11,109 --> 01:02:07,839

are these objects coming from

1709

01:02:13,670 --> 01:02:11,119

and are they coming from the same source

1710

01:02:15,990 --> 01:02:13,680

or are they coming from multiple

1711

01:02:17,750 --> 01:02:16,000

origination points if you would yeah

1712

01:02:19,589 --> 01:02:17,760

like the time phenomenon

1713

01:02:21,109 --> 01:02:19,599

if you had that craft built you could be

1714

01:02:22,230 --> 01:02:21,119

coming back with different craft you

1715

01:02:24,069 --> 01:02:22,240

have at different times you're

1716

01:02:25,670 --> 01:02:24,079

developing it in the future right

1717

01:02:28,069 --> 01:02:25,680

just like we have different kinds of

1718

01:02:29,990 --> 01:02:28,079

shapes designs in it and

1719

01:02:33,589 --> 01:02:30,000

then if you allegedly think that they're

1720

01:02:37,349 --> 01:02:35,670

there must be one hell of a production

1721

01:02:39,029 --> 01:02:37,359

plant down there to build all these

1722

01:02:40,390 --> 01:02:39,039

different models and why would you do

1723

01:02:44,470 --> 01:02:40,400

that

1724

01:02:47,430 --> 01:02:44,480

you know

1725

01:02:49,109 --> 01:02:47,440

cars that are out there i mean

1726

01:02:50,470 --> 01:02:49,119

consequently it's like you know we got

1727

01:02:51,510 --> 01:02:50,480

production plants and everything

1728

01:02:53,829 --> 01:02:51,520

everywhere

1729

01:02:55,990 --> 01:02:53,839

but underneath the underneath the ocean

1730

01:02:57,510 --> 01:02:56,000

but you have objects that are triangular

1731

01:02:59,750 --> 01:02:57,520

shaped popping out of the ocean disc

1732

01:03:02,230 --> 01:02:59,760

shape balls that are that are basically

1733

01:03:04,630 --> 01:03:02,240

emerging from the water and so you have

1734

01:03:05,750 --> 01:03:04,640

a wide variety of these objects that are

1735

01:03:06,789 --> 01:03:05,760

maneuvering

1736

01:03:08,789 --> 01:03:06,799

through

1737

01:03:11,990 --> 01:03:08,799

the you know water

1738

01:03:14,630 --> 01:03:12,000

air and space with equal ease

1739

01:03:16,870 --> 01:03:14,640

and it's the same object that also can

1740

01:03:18,630 --> 01:03:16,880

do all three of those different medium

1741

01:03:20,390 --> 01:03:18,640

and we haven't got anything that can do

1742

01:03:22,230 --> 01:03:20,400

all three of those medium

1743

01:03:23,990 --> 01:03:22,240

right

1744

01:03:25,829 --> 01:03:24,000

hence the interest i suppose in the

1745

01:03:28,150 --> 01:03:25,839

potential propulsion device or if it's

1746

01:03:29,670 --> 01:03:28,160

some sort of anti-gravity as is it that

1747

01:03:31,829 --> 01:03:29,680

that's the source of all of this because

1748

01:03:33,670 --> 01:03:31,839

like you say then why the different

1749

01:03:35,510 --> 01:03:33,680

shapes why not just settle on one shape

1750

01:03:36,630 --> 01:03:35,520

and it's the actual device that makes a

1751

01:03:38,150 --> 01:03:36,640

difference

1752

01:03:39,589 --> 01:03:38,160

then that maybe begs the question are

1753

01:03:41,670 --> 01:03:39,599

they coming from different places

1754

01:03:43,589 --> 01:03:41,680

different different times like you say

1755

01:03:45,349 --> 01:03:43,599

different planets if you want to go old

1756

01:03:47,270 --> 01:03:45,359

school that seems to seems to be now

1757

01:03:49,750 --> 01:03:47,280

doesn't it but yeah it's a whole other

1758

01:03:52,390 --> 01:03:49,760

show i think on that one as well um next

1759

01:03:53,910 --> 01:03:52,400

up question from newman newman says what

1760

01:03:56,390 --> 01:03:53,920

do you think of the recent drone

1761

01:03:57,990 --> 01:03:56,400

sightings over power plants in sweden

1762

01:04:00,069 --> 01:03:58,000

and other parts of europe like france

1763

01:04:02,390 --> 01:04:00,079

and germany

1764

01:04:04,150 --> 01:04:02,400

well number one uh

1765

01:04:05,510 --> 01:04:04,160

and this is kind of like where i was

1766

01:04:08,069 --> 01:04:05,520

telling you that we're looking at

1767

01:04:10,630 --> 01:04:08,079

putting drone killers in right because

1768

01:04:13,029 --> 01:04:10,640

ultimately the concern is we do have

1769

01:04:16,150 --> 01:04:13,039

these things that appear to be drones

1770

01:04:19,190 --> 01:04:16,160

that are are maneuvering near all of our

1771

01:04:21,670 --> 01:04:19,200

sensitive sites right not just ours but

1772

01:04:23,990 --> 01:04:21,680

you know in other countries as well

1773

01:04:27,029 --> 01:04:24,000

and if you think about that okay again

1774

01:04:31,029 --> 01:04:27,039

going back to what is the intent here

1775

01:04:34,230 --> 01:04:31,039

number one why do i go across like in

1776

01:04:36,150 --> 01:04:34,240

palo verde is a nuclear station

1777

01:04:38,230 --> 01:04:36,160

there were six objects that were going

1778

01:04:40,710 --> 01:04:38,240

around the entire perimeter of that

1779

01:04:42,630 --> 01:04:40,720

military location that then

1780

01:04:45,270 --> 01:04:42,640

shot off went away

1781

01:04:46,789 --> 01:04:45,280

and they did that uh as they wrote went

1782

01:04:48,150 --> 01:04:46,799

around the perimeter

1783

01:04:50,470 --> 01:04:48,160

what were they doing what were they

1784

01:04:53,270 --> 01:04:50,480

looking at what were they detecting

1785

01:04:55,990 --> 01:04:53,280

we're building drones now that allow us

1786

01:04:58,230 --> 01:04:56,000

to take and i i'm a an operator myself

1787

01:04:59,750 --> 01:04:58,240

i've got my own phantom dji that i can

1788

01:05:02,150 --> 01:04:59,760

fly right

1789

01:05:03,829 --> 01:05:02,160

but you can fly these drones around and

1790

01:05:06,710 --> 01:05:03,839

now you can add all these different

1791

01:05:09,190 --> 01:05:06,720

kinds of sensors to them to be able to

1792

01:05:11,430 --> 01:05:09,200

do everything from detecting

1793

01:05:14,069 --> 01:05:11,440

you know uh radiation

1794

01:05:16,230 --> 01:05:14,079

you might be detecting uh

1795

01:05:18,950 --> 01:05:16,240

you know or you're actually monitoring

1796

01:05:20,950 --> 01:05:18,960

or looking at thermo

1797

01:05:22,549 --> 01:05:20,960

thermal imaging i could actually see

1798

01:05:24,710 --> 01:05:22,559

people walking around or i could see

1799

01:05:27,029 --> 01:05:24,720

what's going on i might have an acoustic

1800

01:05:29,430 --> 01:05:27,039

device on the drone to be able to listen

1801

01:05:31,589 --> 01:05:29,440

in to conversations i can do a lot of

1802

01:05:33,270 --> 01:05:31,599

that type stuff and all that stuff is

1803

01:05:35,270 --> 01:05:33,280

now coming about

1804

01:05:38,230 --> 01:05:35,280

there are also drone advances where

1805

01:05:41,349 --> 01:05:38,240

they're they're using even uh you know

1806

01:05:44,150 --> 01:05:41,359

they're not using they're using fuel

1807

01:05:45,589 --> 01:05:44,160

uh like you know to be able to fly them

1808

01:05:47,349 --> 01:05:45,599

they're able to stay up there longer

1809

01:05:49,349 --> 01:05:47,359

they're able to move quicker you know

1810

01:05:50,870 --> 01:05:49,359

typical drones like my battery operated

1811

01:05:53,109 --> 01:05:50,880

when i've got to bring it back and like

1812

01:05:54,870 --> 01:05:53,119

reload it maybe about 20 minutes you

1813

01:05:56,230 --> 01:05:54,880

know put it on another battery but i

1814

01:05:57,589 --> 01:05:56,240

don't have to do that so drone

1815

01:06:00,549 --> 01:05:57,599

advancements are

1816

01:06:03,190 --> 01:06:00,559

are increasingly improving very well

1817

01:06:06,789 --> 01:06:03,200

and so the question is

1818

01:06:08,710 --> 01:06:06,799

is that an alien uh if if you would out

1819

01:06:10,789 --> 01:06:08,720

there that's doing that or is it another

1820

01:06:12,870 --> 01:06:10,799

country because guess that that's what

1821

01:06:14,950 --> 01:06:12,880

we would do with our own drones send

1822

01:06:16,150 --> 01:06:14,960

them off and go and collect intelligence

1823

01:06:18,069 --> 01:06:16,160

as well right

1824

01:06:20,789 --> 01:06:18,079

so you know you you're collecting

1825

01:06:24,069 --> 01:06:20,799

intelligence by doing that so this is

1826

01:06:25,910 --> 01:06:24,079

why it's real critical that the military

1827

01:06:27,589 --> 01:06:25,920

when they talk about it and the

1828

01:06:29,589 --> 01:06:27,599

government talks about it as being

1829

01:06:32,630 --> 01:06:29,599

potentially adversaries

1830

01:06:35,910 --> 01:06:32,640

versus you know something else

1831

01:06:37,589 --> 01:06:35,920

we have to be able in the dod world to

1832

01:06:40,150 --> 01:06:37,599

protect things and to be able to

1833

01:06:42,390 --> 01:06:40,160

discriminate between the known and the

1834

01:06:43,510 --> 01:06:42,400

unknown if you would right

1835

01:06:45,109 --> 01:06:43,520

so

1836

01:06:47,029 --> 01:06:45,119

there might these might potentially

1837

01:06:48,789 --> 01:06:47,039

potentially the known meaning that

1838

01:06:50,789 --> 01:06:48,799

they're adversaries that are doing

1839

01:06:53,670 --> 01:06:50,799

intelligence collection and we have to

1840

01:06:54,870 --> 01:06:53,680

be concerned about that we and so

1841

01:06:56,950 --> 01:06:54,880

part of what we're doing is we're

1842

01:06:59,029 --> 01:06:56,960

looking if it's a drone we'll be able to

1843

01:07:00,390 --> 01:06:59,039

knock it out the sky and and you know

1844

01:07:02,549 --> 01:07:00,400

and so on and so forth

1845

01:07:04,470 --> 01:07:02,559

so but if it's not a drone it's going to

1846

01:07:06,549 --> 01:07:04,480

go on its merry path well that's raises

1847

01:07:08,069 --> 01:07:06,559

a whole other level of questioning right

1848

01:07:09,670 --> 01:07:08,079

you know it might be something that's

1849

01:07:12,069 --> 01:07:09,680

now wait a minute i thought that that

1850

01:07:14,870 --> 01:07:12,079

was a drone and it's not

1851

01:07:16,950 --> 01:07:14,880

and so we're also arming like our ships

1852

01:07:19,349 --> 01:07:16,960

with with those same kind of devices to

1853

01:07:21,829 --> 01:07:19,359

be able to actually detect and determine

1854

01:07:24,470 --> 01:07:21,839

what they are as well so hopefully that

1855

01:07:27,270 --> 01:07:24,480

addresses your question yeah interesting

1856

01:07:29,190 --> 01:07:27,280

um justin says excellent bow tie he must

1857

01:07:31,589 --> 01:07:29,200

have known him and he says excellent

1858

01:07:33,670 --> 01:07:31,599

work for seo as well are there any other

1859

01:07:36,390 --> 01:07:33,680

videos you find as compelling as

1860

01:07:37,750 --> 01:07:36,400

aguadilla video

1861

01:07:40,309 --> 01:07:37,760

um

1862

01:07:43,190 --> 01:07:40,319

the challenge we have with videos

1863

01:07:44,230 --> 01:07:43,200

are that they're so easily contrived

1864

01:07:46,870 --> 01:07:44,240

today

1865

01:07:48,789 --> 01:07:46,880

um i spend most of my time looking at

1866

01:07:50,390 --> 01:07:48,799

videos i've been on there's a history

1867

01:07:51,829 --> 01:07:50,400

channel show called the proof is out

1868

01:07:52,870 --> 01:07:51,839

there and i've been on the last two

1869

01:07:55,029 --> 01:07:52,880

seasons

1870

01:07:56,710 --> 01:07:55,039

and uh tomorrow we're actually filming

1871

01:07:58,549 --> 01:07:56,720

for the third season

1872

01:08:00,069 --> 01:07:58,559

and it's all about looking at you know

1873

01:08:01,670 --> 01:08:00,079

video images

1874

01:08:04,470 --> 01:08:01,680

that people have

1875

01:08:06,870 --> 01:08:04,480

posted about ufos and then having to go

1876

01:08:08,390 --> 01:08:06,880

through and look at and analyze them and

1877

01:08:09,670 --> 01:08:08,400

try to figure out what we can figure out

1878

01:08:12,470 --> 01:08:09,680

about them

1879

01:08:14,150 --> 01:08:12,480

and uh ultimately uh one of those ones

1880

01:08:16,229 --> 01:08:14,160

that i took a look at was actually over

1881

01:08:19,669 --> 01:08:16,239

in the uk was the bristol

1882

01:08:21,189 --> 01:08:19,679

uh uh there was a in bristol area uh of

1883

01:08:24,309 --> 01:08:21,199

the uk uh

1884

01:08:26,870 --> 01:08:24,319

there was an object that was seen uh and

1885

01:08:27,749 --> 01:08:26,880

down there that i case that i looked

1886

01:08:31,349 --> 01:08:27,759

into

1887

01:08:33,669 --> 01:08:31,359

uh there was the chilean uh case that

1888

01:08:35,749 --> 01:08:33,679

where there was a black plume of smoke

1889

01:08:37,349 --> 01:08:35,759

or if you would it looked like smoke

1890

01:08:40,149 --> 01:08:37,359

coming out of the back of it that was

1891

01:08:42,309 --> 01:08:40,159

then thermal we looked at that one uh

1892

01:08:43,990 --> 01:08:42,319

there was a lot of uh

1893

01:08:46,789 --> 01:08:44,000

interesting things about that but at the

1894

01:08:47,990 --> 01:08:46,799

same time uh at the end of the day you

1895

01:08:49,829 --> 01:08:48,000

couldn't say that it was actually

1896

01:08:52,550 --> 01:08:49,839

maneuvering or doing something like

1897

01:08:53,189 --> 01:08:52,560

splitting in two uh it was nothing you

1898

01:08:54,470 --> 01:08:53,199

know

1899

01:08:56,709 --> 01:08:54,480

other than it could have been an

1900

01:08:59,349 --> 01:08:56,719

aircraft that was that was going in hit

1901

01:09:01,349 --> 01:08:59,359

a contrail or set of an area except that

1902

01:09:03,990 --> 01:09:01,359

the the problem with it was that the

1903

01:09:05,749 --> 01:09:04,000

altitude was too low for contrails so i

1904

01:09:07,749 --> 01:09:05,759

tried to like determine well maybe it's

1905

01:09:09,590 --> 01:09:07,759

some other kind of thing and we couldn't

1906

01:09:11,990 --> 01:09:09,600

identify what could create that little

1907

01:09:13,990 --> 01:09:12,000

plume uh if you would at the back end of

1908

01:09:16,390 --> 01:09:14,000

it that was kind of an interesting case

1909

01:09:19,030 --> 01:09:16,400

um and in fact you know the chilean

1910

01:09:21,189 --> 01:09:19,040

government looked into it the military

1911

01:09:22,070 --> 01:09:21,199

and deemed that it was an unknown as

1912

01:09:23,349 --> 01:09:22,080

well

1913

01:09:25,749 --> 01:09:23,359

uh

1914

01:09:28,309 --> 01:09:25,759

but there's not very many

1915

01:09:31,269 --> 01:09:28,319

that we get that are i find as

1916

01:09:33,510 --> 01:09:31,279

compelling as the aguadilla i think

1917

01:09:34,950 --> 01:09:33,520

uh that one to me

1918

01:09:36,390 --> 01:09:34,960

was just

1919

01:09:37,669 --> 01:09:36,400

off the charts

1920

01:09:39,189 --> 01:09:37,679

um

1921

01:09:40,709 --> 01:09:39,199

how could you account for something that

1922

01:09:43,030 --> 01:09:40,719

would split in two with two different

1923

01:09:45,590 --> 01:09:43,040

thermal signatures and do what it did i

1924

01:09:47,349 --> 01:09:45,600

i it just didn't make any sense

1925

01:09:49,430 --> 01:09:47,359

the other thing is that

1926

01:09:51,030 --> 01:09:49,440

i really believe that there's probably a

1927

01:09:53,590 --> 01:09:51,040

lot of good photographic evidence we

1928

01:09:56,709 --> 01:09:53,600

can't get to because there's six million

1929

01:09:58,950 --> 01:09:56,719

uh cgi kinds of like videos floating

1930

01:10:01,830 --> 01:09:58,960

around that is you know and so

1931

01:10:03,830 --> 01:10:01,840

ufologists that have an interest in this

1932

01:10:06,550 --> 01:10:03,840

uh don't have time to look at every one

1933

01:10:08,229 --> 01:10:06,560

of those things uh and

1934

01:10:09,590 --> 01:10:08,239

that the other part of it is that

1935

01:10:11,990 --> 01:10:09,600

they're lacking

1936

01:10:13,510 --> 01:10:12,000

scientific controls when they they come

1937

01:10:15,750 --> 01:10:13,520

in in other words it wasn't done in

1938

01:10:17,189 --> 01:10:15,760

scientifically and in controlled setting

1939

01:10:19,750 --> 01:10:17,199

it was done by

1940

01:10:21,750 --> 01:10:19,760

somebody using their iphone the iphones

1941

01:10:23,669 --> 01:10:21,760

you know typically at night so now

1942

01:10:25,830 --> 01:10:23,679

you're just looking at a night object

1943

01:10:27,910 --> 01:10:25,840

that's out there and it's just a light

1944

01:10:29,750 --> 01:10:27,920

on a dark background right you can't

1945

01:10:32,310 --> 01:10:29,760

really get a reference point for it you

1946

01:10:34,149 --> 01:10:32,320

have no data that helps you out to

1947

01:10:35,990 --> 01:10:34,159

understand it and then plus a lot of

1948

01:10:37,750 --> 01:10:36,000

people post their their stuff up they

1949

01:10:40,229 --> 01:10:37,760

don't tell you where they're from where

1950

01:10:42,550 --> 01:10:40,239

it was taken any of the details about it

1951

01:10:45,350 --> 01:10:42,560

so consequently it just doesn't help us

1952

01:10:47,350 --> 01:10:45,360

so scientifically we're lacking in

1953

01:10:49,189 --> 01:10:47,360

anything that's really convincing

1954

01:10:51,270 --> 01:10:49,199

but i believe that the military's got

1955

01:10:54,149 --> 01:10:51,280

that and that's part of that hidden

1956

01:10:55,430 --> 01:10:54,159

trove that we haven't been able to see

1957

01:10:57,510 --> 01:10:55,440

and all the

1958

01:10:58,470 --> 01:10:57,520

the films and the videos that were taken

1959

01:11:00,390 --> 01:10:58,480

even

1960

01:11:02,709 --> 01:11:00,400

from the early days

1961

01:11:04,310 --> 01:11:02,719

a good number of those cases they

1962

01:11:07,430 --> 01:11:04,320

submitted it to the air force project

1963

01:11:08,950 --> 01:11:07,440

blue book and we have never seen them

1964

01:11:10,550 --> 01:11:08,960

and justin that was actually a follow-up

1965

01:11:12,390 --> 01:11:10,560

justin had what are your thoughts on the

1966

01:11:14,470 --> 01:11:12,400

amazing crystal clear videos we hear

1967

01:11:17,270 --> 01:11:14,480

about but haven't been shown

1968

01:11:19,669 --> 01:11:17,280

as an organizat organization like scu is

1969

01:11:21,270 --> 01:11:19,679

that something you with maybe contacts

1970

01:11:22,709 --> 01:11:21,280

and networking you strive to try and get

1971

01:11:25,270 --> 01:11:22,719

a hold of some of that footage that we

1972

01:11:28,070 --> 01:11:25,280

hear about you know tic tacs 50 feet off

1973

01:11:29,830 --> 01:11:28,080

the wing of an aircraft

1974

01:11:31,669 --> 01:11:29,840

yeah we've been we've been definitely

1975

01:11:33,510 --> 01:11:31,679

looking at uh whatever we can get let's

1976

01:11:35,430 --> 01:11:33,520

put it that way

1977

01:11:37,189 --> 01:11:35,440

the challenge is getting it you know the

1978

01:11:40,550 --> 01:11:37,199

other the other challenge is actually

1979

01:11:42,390 --> 01:11:40,560

being able to get the raw image

1980

01:11:45,270 --> 01:11:42,400

that you want to analyze

1981

01:11:46,790 --> 01:11:45,280

and unless you can get the raw image

1982

01:11:49,510 --> 01:11:46,800

you're always dealing with the potential

1983

01:11:51,510 --> 01:11:49,520

that it's been edited or changed and

1984

01:11:54,070 --> 01:11:51,520

that doesn't allow you to do that deep

1985

01:11:54,950 --> 01:11:54,080

dive into the actual down at the pixel

1986

01:11:57,430 --> 01:11:54,960

level

1987

01:11:59,110 --> 01:11:57,440

and actually check into it so our

1988

01:12:01,189 --> 01:11:59,120

struggle is that because these things

1989

01:12:02,149 --> 01:12:01,199

are typically coming out of the military

1990

01:12:03,350 --> 01:12:02,159

area

1991

01:12:05,669 --> 01:12:03,360

uh

1992

01:12:07,590 --> 01:12:05,679

number one it's is it a leak did they

1993

01:12:09,590 --> 01:12:07,600

leak it's to us and then you're trying

1994

01:12:12,310 --> 01:12:09,600

to follow what you can where did it come

1995

01:12:14,149 --> 01:12:12,320

from yeah who handled it

1996

01:12:16,390 --> 01:12:14,159

and you do the chain of evidence and you

1997

01:12:19,270 --> 01:12:16,400

try to find out where that evidence came

1998

01:12:21,030 --> 01:12:19,280

from and it's difficult to do

1999

01:12:22,630 --> 01:12:21,040

so there's a very small number of these

2000

01:12:24,550 --> 01:12:22,640

things but we would love to be able to

2001

01:12:26,390 --> 01:12:24,560

get something that's very very clear

2002

01:12:28,149 --> 01:12:26,400

that we could take a look at

2003

01:12:30,390 --> 01:12:28,159

wouldn't we all and and the balance of

2004

01:12:33,270 --> 01:12:30,400

fairness i've got a question from flarky

2005

01:12:34,229 --> 01:12:33,280

flarky is pretty good at debunking or

2006

01:12:35,669 --> 01:12:34,239

looking at these things with a

2007

01:12:37,990 --> 01:12:35,679

speculative eye he looked at one of my

2008

01:12:39,750 --> 01:12:38,000

own photos today and he asks what do you

2009

01:12:42,070 --> 01:12:39,760

think of the theory that the agadiya

2010

01:12:45,350 --> 01:12:42,080

video showed nothing more than a prosec

2011

01:12:46,470 --> 01:12:45,360

object moving with the wind

2012

01:12:48,630 --> 01:12:46,480

um

2013

01:12:50,229 --> 01:12:48,640

we we analyzed in terms of the aguadilla

2014

01:12:51,990 --> 01:12:50,239

video now you're talking about you know

2015

01:12:53,430 --> 01:12:52,000

do we think that it's a natural object

2016

01:12:56,229 --> 01:12:53,440

moving against the wind is that what you

2017

01:12:58,070 --> 01:12:56,239

yes yeah he's asking i think flaky's

2018

01:12:59,590 --> 01:12:58,080

opinion is that that's what it is that

2019

01:13:01,030 --> 01:12:59,600

it's nothing more than an object you

2020

01:13:02,870 --> 01:13:01,040

know floating in the wind

2021

01:13:05,350 --> 01:13:02,880

yeah so we did everything we could to

2022

01:13:07,590 --> 01:13:05,360

analyze that aspect of it and we

2023

01:13:09,510 --> 01:13:07,600

concluded that it was definitely not

2024

01:13:10,550 --> 01:13:09,520

uh an object that was moving with the

2025

01:13:12,070 --> 01:13:10,560

wind

2026

01:13:13,030 --> 01:13:12,080

one of the challenges you have in

2027

01:13:16,790 --> 01:13:13,040

studying

2028

01:13:18,790 --> 01:13:16,800

an object where the object is moving

2029

01:13:20,870 --> 01:13:18,800

at the same time the aircraft is

2030

01:13:22,229 --> 01:13:20,880

circling around it right

2031

01:13:25,189 --> 01:13:22,239

you have to deal and you have to

2032

01:13:27,270 --> 01:13:25,199

subtract out things like parallax

2033

01:13:28,790 --> 01:13:27,280

the effect of you know if i rotate it

2034

01:13:30,470 --> 01:13:28,800

around you right now the background

2035

01:13:32,550 --> 01:13:30,480

would be also moving

2036

01:13:34,310 --> 01:13:32,560

but it would be moving at the same speed

2037

01:13:36,229 --> 01:13:34,320

as the aircraft

2038

01:13:37,110 --> 01:13:36,239

if i have a discrepancy between those

2039

01:13:39,030 --> 01:13:37,120

two

2040

01:13:41,669 --> 01:13:39,040

you know in other words the background

2041

01:13:45,189 --> 01:13:41,679

is not moving at the same speed as the

2042

01:13:47,270 --> 01:13:45,199

aircraft is then i would be able to i

2043

01:13:49,669 --> 01:13:47,280

have to factor that in and say well wait

2044

01:13:52,550 --> 01:13:49,679

a minute then it actually is moving and

2045

01:13:55,030 --> 01:13:52,560

can i deduce that same time there were

2046

01:13:57,590 --> 01:13:55,040

reference objects on the ground that we

2047

01:13:59,110 --> 01:13:57,600

could look at and while the plane was

2048

01:14:01,350 --> 01:13:59,120

like making its and you're looking at

2049

01:14:03,350 --> 01:14:01,360

this thing on every single frame by the

2050

01:14:05,430 --> 01:14:03,360

way and so you're breaking it one

2051

01:14:07,110 --> 01:14:05,440

thirtieth of a second level

2052

01:14:09,510 --> 01:14:07,120

you can actually detect that there is

2053

01:14:11,830 --> 01:14:09,520

actually motion with the object that's

2054

01:14:12,950 --> 01:14:11,840

independent of the parallax

2055

01:14:14,550 --> 01:14:12,960

effect

2056

01:14:17,270 --> 01:14:14,560

and so you can get down and you can

2057

01:14:19,590 --> 01:14:17,280

start to now make a determination the

2058

01:14:20,470 --> 01:14:19,600

about things like you know size and

2059

01:14:22,229 --> 01:14:20,480

speed

2060

01:14:24,790 --> 01:14:22,239

the uh we looked at the weather the

2061

01:14:26,870 --> 01:14:24,800

weather was that it was basically the

2062

01:14:29,030 --> 01:14:26,880

winds were from the i believe the

2063

01:14:30,790 --> 01:14:29,040

northeast or roughly the east

2064

01:14:33,110 --> 01:14:30,800

going to the west

2065

01:14:34,470 --> 01:14:33,120

uh the object was

2066

01:14:36,709 --> 01:14:34,480

basically

2067

01:14:39,110 --> 01:14:36,719

different points of its position at one

2068

01:14:40,790 --> 01:14:39,120

point it goes behind a telephone pole

2069

01:14:43,110 --> 01:14:40,800

we're able to actually see it go behind

2070

01:14:45,189 --> 01:14:43,120

the telephone pole so that new met

2071

01:14:46,550 --> 01:14:45,199

allowed us to make a determination as to

2072

01:14:49,189 --> 01:14:46,560

its size

2073

01:14:50,310 --> 01:14:49,199

as well as its distance

2074

01:14:52,149 --> 01:14:50,320

okay

2075

01:14:55,189 --> 01:14:52,159

and where it was

2076

01:14:57,990 --> 01:14:55,199

it was not anywhere in the one spot of

2077

01:14:59,270 --> 01:14:58,000

where it originally was it had moved

2078

01:15:00,709 --> 01:14:59,280

uh the

2079

01:15:01,590 --> 01:15:00,719

the

2080

01:15:03,110 --> 01:15:01,600

uh

2081

01:15:05,990 --> 01:15:03,120

the other thing that i'll point out to

2082

01:15:08,470 --> 01:15:06,000

you uh that it would the wind that

2083

01:15:11,270 --> 01:15:08,480

altitude was about 15 to 18

2084

01:15:14,390 --> 01:15:11,280

miles per hour if you actually took a

2085

01:15:16,709 --> 01:15:14,400

like a mylar balloon and you put it up

2086

01:15:18,630 --> 01:15:16,719

in the air at that altitude and then

2087

01:15:20,550 --> 01:15:18,640

with that wind speed you would see it

2088

01:15:22,950 --> 01:15:20,560

bouncing around all over the place it

2089

01:15:25,750 --> 01:15:22,960

would be herky-jerky this was not like

2090

01:15:28,950 --> 01:15:25,760

that the thermal signature of a balloon

2091

01:15:29,990 --> 01:15:28,960

does not match uh even what you would

2092

01:15:32,870 --> 01:15:30,000

get

2093

01:15:34,229 --> 01:15:32,880

so the thermal signature is nowhere near

2094

01:15:37,030 --> 01:15:34,239

what you would get with any kind of a

2095

01:15:39,669 --> 01:15:37,040

balloon or a kind of like that

2096

01:15:41,669 --> 01:15:39,679

the other thing is that the object uh

2097

01:15:44,149 --> 01:15:41,679

when we we did the calculation of the

2098

01:15:45,270 --> 01:15:44,159

path at what point you see it go into

2099

01:15:48,229 --> 01:15:45,280

the water

2100

01:15:50,630 --> 01:15:48,239

that was

2101
01:15:53,510 --> 01:15:50,640
and then it pops up and comes out we

2102
01:15:55,830 --> 01:15:53,520
actually can measure the uh

2103
01:15:57,910 --> 01:15:55,840
what the depth of the object was we were

2104
01:15:59,990 --> 01:15:57,920
able to look at that whole thing and

2105
01:16:02,790 --> 01:16:00,000
find out that it's where its position

2106
01:16:03,750 --> 01:16:02,800
was it actually made a course change

2107
01:16:05,510 --> 01:16:03,760
by the way

2108
01:16:07,270 --> 01:16:05,520
we deduced the fact that it made a

2109
01:16:09,189 --> 01:16:07,280
course change as well

2110
01:16:10,630 --> 01:16:09,199
so i mean again there's a lot of

2111
01:16:12,550 --> 01:16:10,640
intricate layers to that whole thing

2112
01:16:14,950 --> 01:16:12,560
you'd have to read our analysis

2113
01:16:16,870 --> 01:16:14,960

you know in depth which is up on the

2114

01:16:19,350 --> 01:16:16,880

but we we looked at it from everything

2115

01:16:21,990 --> 01:16:19,360

from the thermal signature the wind

2116

01:16:24,070 --> 01:16:22,000

uh what could it be how could we explain

2117

01:16:25,110 --> 01:16:24,080

it using you know things like balloons

2118

01:16:26,870 --> 01:16:25,120

birds

2119

01:16:29,189 --> 01:16:26,880

uh and to see if we could do that and we

2120

01:16:30,709 --> 01:16:29,199

ruled all those things out

2121

01:16:32,790 --> 01:16:30,719

no that's a good answer thank you for

2122

01:16:34,470 --> 01:16:32,800

that and flour dma if you want any

2123

01:16:36,229 --> 01:16:34,480

follow-up because i know you usually do

2124

01:16:38,390 --> 01:16:36,239

um final listener question i quite like

2125

01:16:40,709 --> 01:16:38,400

this one for you rich this is from jason

2126
01:16:42,790 --> 01:16:40,719
in los angeles do you believe we are on

2127
01:16:44,709 --> 01:16:42,800
the verge of the next big technological

2128
01:16:48,070 --> 01:16:44,719
advancement as a species and what do you

2129
01:16:49,110 --> 01:16:48,080
think that could possibly be

2130
01:16:51,669 --> 01:16:49,120
i think that

2131
01:16:53,669 --> 01:16:51,679
certainly i mean what we're seeing a

2132
01:16:56,709 --> 01:16:53,679
proliferation of right now

2133
01:16:59,430 --> 01:16:56,719
even in the dod world is the uh

2134
01:17:01,350 --> 01:16:59,440
again the use of ai as well as you know

2135
01:17:03,510 --> 01:17:01,360
the fact that we're moving towards the

2136
01:17:04,870 --> 01:17:03,520
quantum computing and i think that

2137
01:17:07,990 --> 01:17:04,880
ultimately

2138
01:17:11,030 --> 01:17:08,000

those types of things are going to make

2139

01:17:11,910 --> 01:17:11,040

a very large profound difference uh and

2140

01:17:14,709 --> 01:17:11,920

change

2141

01:17:17,350 --> 01:17:14,719

in uh in just what we do and how we how

2142

01:17:19,669 --> 01:17:17,360

we use things uh how we compute things

2143

01:17:20,630 --> 01:17:19,679

the information that we're able to get

2144

01:17:22,470 --> 01:17:20,640

uh

2145

01:17:25,910 --> 01:17:22,480

i think our our understanding of the

2146

01:17:27,910 --> 01:17:25,920

quantum level uh is definitely improving

2147

01:17:29,910 --> 01:17:27,920

i think that there's a hopefully that

2148

01:17:32,390 --> 01:17:29,920

that's going to lead us into some

2149

01:17:34,950 --> 01:17:32,400

fundamental changes about the nature of

2150

01:17:35,990 --> 01:17:34,960

of us the matter and everything else i

2151
01:17:38,470 --> 01:17:36,000
think that

2152
01:17:39,910 --> 01:17:38,480
the more we continue to study

2153
01:17:41,590 --> 01:17:39,920
uh

2154
01:17:43,430 --> 01:17:41,600
obviously

2155
01:17:45,110 --> 01:17:43,440
the medical field and everything else

2156
01:17:46,550 --> 01:17:45,120
the the it's going to change things

2157
01:17:48,229 --> 01:17:46,560
dramatically

2158
01:17:51,430 --> 01:17:48,239
my hope is that we're going to be around

2159
01:17:52,310 --> 01:17:51,440
long enough to be able to do that

2160
01:17:54,070 --> 01:17:52,320
you know

2161
01:17:55,750 --> 01:17:54,080
if we aren't going nuclear at that point

2162
01:17:57,590 --> 01:17:55,760
but anyway i think that those kind of

2163
01:17:58,950 --> 01:17:57,600

things are going to be really really

2164

01:18:00,310 --> 01:17:58,960

game changers

2165

01:18:03,030 --> 01:18:00,320

uh and

2166

01:18:05,990 --> 01:18:03,040

if you look at just the nature of

2167

01:18:07,830 --> 01:18:06,000

the virtual reality that we create i

2168

01:18:10,149 --> 01:18:07,840

think that that's also going to play

2169

01:18:11,350 --> 01:18:10,159

into it and how we do things and how we

2170

01:18:12,790 --> 01:18:11,360

approach things

2171

01:18:13,910 --> 01:18:12,800

but um

2172

01:18:15,270 --> 01:18:13,920

anyway i

2173

01:18:17,430 --> 01:18:15,280

those are some of the things that i'm

2174

01:18:20,470 --> 01:18:17,440

i'm most excited about and i know that

2175

01:18:23,110 --> 01:18:20,480

they're like on the just on the horizon

2176

01:18:24,229 --> 01:18:23,120

you know uh that so we might be able to

2177

01:18:25,590 --> 01:18:24,239

i might be able to see some of these

2178

01:18:28,149 --> 01:18:25,600

things in my

2179

01:18:30,709 --> 01:18:28,159

lifetime or hopefully i can i'm starting

2180

01:18:33,030 --> 01:18:30,719

to see that we're using uh ai in the

2181

01:18:36,550 --> 01:18:33,040

military and i think that that's going

2182

01:18:38,310 --> 01:18:36,560

to help us to understand the ufo as well

2183

01:18:39,830 --> 01:18:38,320

uh i want to finish up with a quick fire

2184

01:18:41,350 --> 01:18:39,840

round i've not done it for a few

2185

01:18:43,590 --> 01:18:41,360

interviews and brought it back for this

2186

01:18:44,870 --> 01:18:43,600

so a few words or a few sentences on

2187

01:18:47,110 --> 01:18:44,880

each of the topics and if you have no

2188

01:18:49,990 --> 01:18:47,120

opinion you can move on um the first one

2189

01:18:52,070 --> 01:18:50,000

which is skin walker ranch

2190

01:18:53,510 --> 01:18:52,080

fascinating subject i think that that

2191

01:18:54,950 --> 01:18:53,520

that ultimately there's so there's a

2192

01:18:55,990 --> 01:18:54,960

phenomena there that we just don't

2193

01:18:58,070 --> 01:18:56,000

understand

2194

01:18:59,830 --> 01:18:58,080

and it deserves very very credible

2195

01:19:01,110 --> 01:18:59,840

scientific uh

2196

01:19:04,149 --> 01:19:01,120

investigation

2197

01:19:05,910 --> 01:19:04,159

uh more so than just on this tv show

2198

01:19:08,149 --> 01:19:05,920

you know i mean i'm talking about you

2199

01:19:10,790 --> 01:19:08,159

know with full set of equipment with a

2200

01:19:13,510 --> 01:19:10,800

lot of more a lot more unbiased kinds of

2201

01:19:14,950 --> 01:19:13,520

perspectives uh and looking into it but

2202

01:19:17,189 --> 01:19:14,960

there's definitely something there that

2203

01:19:19,910 --> 01:19:17,199

we need to study

2204

01:19:20,870 --> 01:19:19,920

the bob lazar story

2205

01:19:21,990 --> 01:19:20,880

i'm sorry

2206

01:19:24,149 --> 01:19:22,000

oh there's no

2207

01:19:27,430 --> 01:19:24,159

bob lazar yeah yeah i pretty much just

2208

01:19:28,630 --> 01:19:27,440

let him go because he's a distraction

2209

01:19:30,229 --> 01:19:28,640

we're not getting

2210

01:19:31,430 --> 01:19:30,239

you know i mean he's he's nothing but a

2211

01:19:33,510 --> 01:19:31,440

distraction

2212

01:19:35,350 --> 01:19:33,520

why would i want to spend my time

2213

01:19:37,750 --> 01:19:35,360

time talking about somebody who's never

2214

01:19:40,470 --> 01:19:37,760

produced any shred of evidence has got

2215

01:19:43,430 --> 01:19:40,480

credibility issues and whatever he says

2216

01:19:45,590 --> 01:19:43,440

who really cares okay i mean that's

2217

01:19:48,470 --> 01:19:45,600

where i'm at with him he's he's he's a

2218

01:19:50,790 --> 01:19:48,480

distraction from me studying ufos

2219

01:19:53,510 --> 01:19:50,800

what about roswell

2220

01:19:56,390 --> 01:19:53,520

i think roswell was indeed a crash of an

2221

01:19:58,790 --> 01:19:56,400

unknown i i look at it from all the

2222

01:20:00,709 --> 01:19:58,800

indications of the many first-hand

2223

01:20:02,149 --> 01:20:00,719

second-hand witnesses you know and you

2224

01:20:03,430 --> 01:20:02,159

could go on and on

2225

01:20:06,310 --> 01:20:03,440

there was definitely something that

2226

01:20:09,189 --> 01:20:06,320

happened there that was very unorthodox

2227

01:20:11,990 --> 01:20:09,199

uh i was in in the right patterson air

2228

01:20:13,990 --> 01:20:12,000

force base and we looked at the receipt

2229

01:20:15,990 --> 01:20:14,000

of the material from fort worth that

2230

01:20:18,070 --> 01:20:16,000

didn't come to dayton ohio

2231

01:20:20,470 --> 01:20:18,080

and we talked with people there that

2232

01:20:22,790 --> 01:20:20,480

that also had recognized

2233

01:20:24,950 --> 01:20:22,800

that that did come to them

2234

01:20:26,870 --> 01:20:24,960

so it's real

2235

01:20:29,030 --> 01:20:26,880

what's your personal opinion on what

2236

01:20:31,350 --> 01:20:29,040

consciousness is and the role it may

2237

01:20:33,110 --> 01:20:31,360

play in relation to uap i understand

2238

01:20:34,229 --> 01:20:33,120

that's a big question for a quick fire

2239

01:20:36,709 --> 01:20:34,239

round but

2240

01:20:38,149 --> 01:20:36,719

yeah it's like me taking uh you know

2241

01:20:41,350 --> 01:20:38,159

people always ask me is there a

2242

01:20:43,750 --> 01:20:41,360

connection between bigfoot and ufos

2243

01:20:45,510 --> 01:20:43,760

well it's like me taking one unknown and

2244

01:20:47,110 --> 01:20:45,520

trying to explain it with another

2245

01:20:49,430 --> 01:20:47,120

unknown right

2246

01:20:51,910 --> 01:20:49,440

yeah me taking and trying to you know

2247

01:20:54,310 --> 01:20:51,920

say i understand consciousness enough to

2248

01:20:56,629 --> 01:20:54,320

know whether it's being applied to uaps

2249

01:20:58,790 --> 01:20:56,639

to would tell you that basically i'm

2250

01:21:00,629 --> 01:20:58,800

taking that unknown and trying to stick

2251

01:21:03,430 --> 01:21:00,639

it with this one and that doesn't work

2252

01:21:05,270 --> 01:21:03,440

in science you don't do that i mean so

2253

01:21:06,709 --> 01:21:05,280

ultimately you have to figure them both

2254

01:21:08,470 --> 01:21:06,719

out and i i

2255

01:21:11,430 --> 01:21:08,480

we're nowhere near figuring out what

2256

01:21:14,629 --> 01:21:11,440

consciousness is uh let alone

2257

01:21:16,950 --> 01:21:14,639

how it is applied in the context of uip

2258

01:21:18,709 --> 01:21:16,960

if you think about it everything we see

2259

01:21:21,030 --> 01:21:18,719

do touch and everything else

2260

01:21:22,229 --> 01:21:21,040

is all part of our consciousness

2261

01:21:23,350 --> 01:21:22,239

and so

2262

01:21:28,790 --> 01:21:23,360

what

2263

01:21:30,790 --> 01:21:28,800

consciousness create the ufo that's up

2264

01:21:33,430 --> 01:21:30,800

in the sky wait a minute how does it

2265

01:21:34,950 --> 01:21:33,440

have physical effects on the ground

2266

01:21:36,629 --> 01:21:34,960

how does it have physical effects on

2267

01:21:38,470 --> 01:21:36,639

radar how does it have

2268

01:21:40,709 --> 01:21:38,480

my consciousness i don't think i can do

2269

01:21:41,990 --> 01:21:40,719

that propel that into existence

2270

01:21:43,430 --> 01:21:42,000

and then why is it that somebody's

2271

01:21:45,110 --> 01:21:43,440

standing next to me is also watching

2272

01:21:46,709 --> 01:21:45,120

that same thing do we have the same

2273

01:21:48,629 --> 01:21:46,719

consciousness

2274

01:21:50,229 --> 01:21:48,639

you know is it you know they're seeing

2275

01:21:52,310 --> 01:21:50,239

it i'm seeing it

2276

01:21:55,189 --> 01:21:52,320

how do thousands of people see the the

2277

01:21:59,189 --> 01:21:55,199

phoenix lights and and you get my point

2278

01:22:02,149 --> 01:21:59,199

right yeah so i don't necessarily see a

2279

01:22:03,990 --> 01:22:02,159

causal explanation or a connection yet

2280

01:22:05,990 --> 01:22:04,000

i'm looking forward to seeing that at

2281

01:22:08,629 --> 01:22:06,000

some point maybe that can happen but

2282

01:22:10,470 --> 01:22:08,639

we're a long way down the pike

2283

01:22:15,669 --> 01:22:10,480

in your opinion what is the best

2284

01:22:18,550 --> 01:22:17,030

well

2285

01:22:20,709 --> 01:22:18,560

i tend to want to say that there are

2286

01:22:23,910 --> 01:22:20,719

more than one thing

2287

01:22:25,030 --> 01:22:23,920

i don't i don't i there's a good portion

2288

01:22:27,510 --> 01:22:25,040

of them

2289

01:22:29,590 --> 01:22:27,520

are natural phenomena that are still

2290

01:22:30,870 --> 01:22:29,600

unknown to us and let me let me clarify

2291

01:22:32,870 --> 01:22:30,880

that

2292

01:22:35,030 --> 01:22:32,880

earth lights i've studied earth light

2293

01:22:36,709 --> 01:22:35,040

phenomena these are balls of light that

2294

01:22:38,390 --> 01:22:36,719

illuminate that move through the sky and

2295

01:22:40,950 --> 01:22:38,400

can do all different kinds of things

2296

01:22:42,550 --> 01:22:40,960

hesterlin norway you've got them you've

2297

01:22:44,709 --> 01:22:42,560

got them in the mid mining lights in

2298

01:22:47,189 --> 01:22:44,719

australia you've got uh also in

2299

01:22:48,950 --> 01:22:47,199

cloverdale about an hour away from me

2300

01:22:50,950 --> 01:22:48,960

you had piedmont missouri you've got the

2301

01:22:52,310 --> 01:22:50,960

brown mountain lights so there's a part

2302

01:22:55,030 --> 01:22:52,320

of this phenomenon that actually people

2303

01:22:57,030 --> 01:22:55,040

report as ufos which are not necessarily

2304

01:22:59,110 --> 01:22:57,040

ufos they're just natural phenomena that

2305

01:23:00,709 --> 01:22:59,120

we haven't figured out right

2306

01:23:02,550 --> 01:23:00,719

so there's a good part of that there's

2307

01:23:04,550 --> 01:23:02,560

also the classified projects that are

2308

01:23:06,229 --> 01:23:04,560

out there that people see that we just

2309

01:23:07,590 --> 01:23:06,239

you know don't get any answers for

2310

01:23:09,669 --> 01:23:07,600

because guess what you can't get

2311

01:23:11,750 --> 01:23:09,679

classified people to tell you that they

2312

01:23:13,110 --> 01:23:11,760

have classified things so that's another

2313

01:23:14,390 --> 01:23:13,120

part of the subset of things that we

2314

01:23:16,790 --> 01:23:14,400

can't explain

2315

01:23:18,470 --> 01:23:16,800

you have also additionally to that

2316

01:23:21,430 --> 01:23:18,480

you've got a

2317

01:23:23,910 --> 01:23:21,440

phenomena out there like a tic tac that

2318

01:23:25,590 --> 01:23:23,920

is you know out there performing and

2319

01:23:28,390 --> 01:23:25,600

doing incredible speeds and things like

2320

01:23:30,390 --> 01:23:28,400

that which we don't understand so

2321

01:23:32,790 --> 01:23:30,400

what i'm trying to tell you is that

2322

01:23:35,030 --> 01:23:32,800

we also have objects that can basically

2323

01:23:36,070 --> 01:23:35,040

disappear in front of your face and

2324

01:23:38,149 --> 01:23:36,080

vanish

2325

01:23:40,550 --> 01:23:38,159

uh not even cloaking but maybe just

2326
01:23:42,070 --> 01:23:40,560
disappearing you know materializing and

2327
01:23:44,310 --> 01:23:42,080
dematerializing

2328
01:23:45,750 --> 01:23:44,320
we have uh and so

2329
01:23:47,990 --> 01:23:45,760
what i'm trying to tell you is i think

2330
01:23:50,550 --> 01:23:48,000
we've got phenomena of different kinds

2331
01:23:52,070 --> 01:23:50,560
that are coming in and we're we want to

2332
01:23:54,470 --> 01:23:52,080
call them and want to look for a single

2333
01:23:57,350 --> 01:23:54,480
explanation when there's not the case

2334
01:23:59,669 --> 01:23:57,360
and they could also be time travelers

2335
01:24:01,350 --> 01:23:59,679
from the future that we're saying you

2336
01:24:02,390 --> 01:24:01,360
know and so you get where i'm coming

2337
01:24:04,470 --> 01:24:02,400
from there

2338
01:24:06,550 --> 01:24:04,480

absolutely and finally what are your

2339

01:24:10,950 --> 01:24:06,560

hopes as pertains to ufos and the

2340

01:24:15,830 --> 01:24:13,669

well i you know to me it's

2341

01:24:18,709 --> 01:24:15,840

i understand i've been at this thing for

2342

01:24:21,990 --> 01:24:18,719

58 years right 58 years of my life

2343

01:24:23,110 --> 01:24:22,000

almost my entire life you know and it's

2344

01:24:25,189 --> 01:24:23,120

one of those things where i've always

2345

01:24:27,270 --> 01:24:25,199

had great expectations i thought that

2346

01:24:28,709 --> 01:24:27,280

this year was going to be a year that

2347

01:24:31,430 --> 01:24:28,719

something was going to happen we were a

2348

01:24:33,350 --> 01:24:31,440

major breakthrough i don't

2349

01:24:35,110 --> 01:24:33,360

i think what's going to happen is that

2350

01:24:36,709 --> 01:24:35,120

we'll have continued

2351

01:24:37,990 --> 01:24:36,719

uh political discussions about the

2352

01:24:39,270 --> 01:24:38,000

politics and the people around the

2353

01:24:41,030 --> 01:24:39,280

planet that are getting engaged

2354

01:24:42,950 --> 01:24:41,040

politically because they're coming on

2355

01:24:45,270 --> 01:24:42,960

board with it you'll hear about that

2356

01:24:46,870 --> 01:24:45,280

that that'll be coming up i think from a

2357

01:24:48,550 --> 01:24:46,880

scientific standpoint the fact that we

2358

01:24:50,229 --> 01:24:48,560

got now more people that are actually

2359

01:24:51,510 --> 01:24:50,239

going after the subject

2360

01:24:53,189 --> 01:24:51,520

little by little we're going to have

2361

01:24:55,750 --> 01:24:53,199

more and more papers that come into play

2362

01:24:57,830 --> 01:24:55,760

with more and more information and

2363

01:24:59,669 --> 01:24:57,840

better data

2364

01:25:01,510 --> 01:24:59,679

is going to help us out because we're

2365

01:25:03,350 --> 01:25:01,520

now technologically moving to be able to

2366

01:25:05,350 --> 01:25:03,360

get that better data right

2367

01:25:07,430 --> 01:25:05,360

so i think that ultimately

2368

01:25:09,030 --> 01:25:07,440

might not happen this year

2369

01:25:11,590 --> 01:25:09,040

but i think that ultimately it's going

2370

01:25:13,110 --> 01:25:11,600

to happen in a very quicker time frame

2371

01:25:15,669 --> 01:25:13,120

again because we're going to be using

2372

01:25:17,350 --> 01:25:15,679

tools like ai and machine learning to be

2373

01:25:18,790 --> 01:25:17,360

able to help us to go sort through all

2374

01:25:20,550 --> 01:25:18,800

the information we're getting from

2375

01:25:22,950 --> 01:25:20,560

systems and to really come up with a

2376

01:25:25,030 --> 01:25:22,960

smarter answer

2377

01:25:27,270 --> 01:25:25,040

rich how can people follow you and your

2378

01:25:29,189 --> 01:25:27,280

work

2379

01:25:30,709 --> 01:25:29,199

well i mean uh

2380

01:25:32,390 --> 01:25:30,719

certainly i'm on facebook and all the

2381

01:25:34,550 --> 01:25:32,400

other kinds of things as well i i

2382

01:25:37,430 --> 01:25:34,560

typically i have a license plate on my

2383

01:25:39,270 --> 01:25:37,440

car which i has a certain finite number

2384

01:25:43,030 --> 01:25:39,280

of like you know letters you're able to

2385

01:25:44,950 --> 01:25:43,040

use so i've made it ufo xprt for ufo

2386

01:25:46,790 --> 01:25:44,960

expert and it triggers a lot of

2387

01:25:48,709 --> 01:25:46,800

conversations where people will see me

2388

01:25:51,590 --> 01:25:48,719

at the gas station say hey are you in

2389

01:25:53,590 --> 01:25:51,600

the ufos let me talk to you right so

2390

01:25:55,510 --> 01:25:53,600

that it's been that kind of thing and

2391

01:25:58,229 --> 01:25:55,520

you know i've had fun with that but

2392

01:25:59,910 --> 01:25:58,239

uh so i'm i'm basically out there as ufo

2393

01:26:01,750 --> 01:25:59,920

expert on like you know like you know

2394

01:26:05,669 --> 01:26:01,760

twitter and some of the other things

2395

01:26:08,070 --> 01:26:05,679

uh xprt uh you can also follow us on our

2396

01:26:10,629 --> 01:26:08,080

website you know in terms of seo

2397

01:26:12,790 --> 01:26:10,639

uh and i we put a lot up there

2398

01:26:14,629 --> 01:26:12,800

i'm posting up on facebook all the time

2399

01:26:15,510 --> 01:26:14,639

on my own personal page and stuff like

2400

01:26:17,990 --> 01:26:15,520

that

2401

01:26:19,910 --> 01:26:18,000

uh we the scu page is where we're

2402

01:26:21,669 --> 01:26:19,920

putting all of our papers that we come

2403

01:26:23,510 --> 01:26:21,679

up with and so you're gonna kids keep

2404

01:26:25,110 --> 01:26:23,520

seeing that growing all the time as

2405

01:26:27,590 --> 01:26:25,120

these papers come out

2406

01:26:28,550 --> 01:26:27,600

uh and you know by all means get a hold

2407

01:26:30,229 --> 01:26:28,560

of me and

2408

01:26:31,990 --> 01:26:30,239

come to the conference you know uh you

2409

01:26:34,310 --> 01:26:32,000

know the conference i would love to have

2410

01:26:37,830 --> 01:26:34,320

you there uh you can actually get to it

2411

01:26:38,790 --> 01:26:37,840

uh to register if you want uh on our ufo

2412

01:26:53,110 --> 01:26:38,800

uh

2413

01:26:55,430 --> 01:26:53,120

link from there to the registration page

2414

01:26:58,310 --> 01:26:55,440

come to the conference uh any one of

2415

01:27:00,390 --> 01:26:58,320

them i'll be on virtually uh it's also a

2416

01:27:02,709 --> 01:27:00,400

virtual conference so there's no reason

2417

01:27:04,790 --> 01:27:02,719

the uk can't come in

2418

01:27:07,189 --> 01:27:04,800

you know so hopefully

2419

01:27:08,870 --> 01:27:07,199

hopefully uh we had 250 people from

2420

01:27:11,110 --> 01:27:08,880

around the world last year so i'm hoping

2421

01:27:12,870 --> 01:27:11,120

that we have more than that but uh

2422

01:27:14,229 --> 01:27:12,880

anyway that's pretty much how you can

2423

01:27:17,669 --> 01:27:14,239

get a hold of me and there's also a

2424

01:27:20,390 --> 01:27:17,679

connect page uh you can ask about me uh

2425

01:27:23,990 --> 01:27:20,400

we have an email from our uh a contact

2426

01:27:25,189 --> 01:27:24,000

page on our web or seo website

2427

01:27:26,550 --> 01:27:25,199

well that's great that was the last

2428

01:27:28,950 --> 01:27:26,560

thing i was going to mention was that

2429

01:27:31,830 --> 01:27:28,960

the scu anomalous aerospace phenomena

2430

01:27:33,510 --> 01:27:31,840

conference the aapc that runs june 3rd

2431

01:27:35,590 --> 01:27:33,520

to june 5th and it's based out of

2432

01:27:37,990 --> 01:27:35,600

huntsville alabama but like you say you

2433

01:27:40,149 --> 01:27:38,000

can attend or in person or if you can't

2434

01:27:42,629 --> 01:27:40,159

make it you can register online now to

2435

01:27:44,149 --> 01:27:42,639

attend virtually as well rich it's been

2436

01:27:46,149 --> 01:27:44,159

amazing talking to you i've really

2437

01:27:47,590 --> 01:27:46,159

enjoyed this conversation and thank you

2438

01:27:49,030 --> 01:27:47,600

so much for being so generous with your

2439

01:27:50,310 --> 01:27:49,040

time as well and i look forward to

2440

01:27:51,669 --> 01:27:50,320

hosting you down the line again in

2441

01:27:53,750 --> 01:27:51,679

future

2442

01:27:55,590 --> 01:27:53,760

great nice to meet you andy and thank

2443

01:27:57,990 --> 01:27:55,600

you for all your guests and the people

2444

01:27:59,750 --> 01:27:58,000

that pay attention and ask the questions

2445

01:28:00,870 --> 01:27:59,760

and and i look forward to seeing you

2446

01:28:03,030 --> 01:28:00,880

again

2447

01:28:04,950 --> 01:28:03,040

that is all for this week's show thank

2448

01:28:07,030 --> 01:28:04,960

you very much for listening please

2449

01:28:09,669 --> 01:28:07,040

remember to leave the podcaster review

2450

01:28:11,990 --> 01:28:09,679

on your chosen platform you can like

2451

01:28:13,830 --> 01:28:12,000

retweet and subscribe that would all be

2452

01:28:16,070 --> 01:28:13,840

very much appreciated the shows are

2453

01:28:17,590 --> 01:28:16,080

being uploaded onto youtube as we speak

2454

01:28:20,070 --> 01:28:17,600

more and more you can sign up at

2455

01:28:22,790 --> 01:28:20,080

patreon.com forward slash that ufo

2456

01:28:24,950 --> 01:28:22,800

podcast to access shows ad free as well

2457

01:28:27,830 --> 01:28:24,960

please get in touch on twitter facebook

2458

01:28:31,030 --> 01:28:27,840

instagram that ufo podcast of course on

2459

01:28:33,110 --> 01:28:31,040

twitter it's at ufouapam

2460

01:28:36,160 --> 01:28:33,120

and again folks as always keep looking

2461

01:29:00,470 --> 01:28:36,170

up you never know what you might see

2462

01:29:12,229 --> 01:29:03,280

smoke

2463

01:29:25,920 --> 01:29:13,750

i can't imagine how it could have been

2464

01:29:25,930 --> 01:29:33,030

[Music]

2465

01:29:36,950 --> 01:29:34,310

there was something on my head and

2466

01:29:38,149 --> 01:29:36,960

everything was weird and

2467

01:29:39,750 --> 01:29:38,159

my boys they thought everything was

2468

01:29:42,340 --> 01:29:39,760

noise they thought it was a dream they

2469

01:30:01,430 --> 01:29:42,350

thought it was my toys

2470

01:30:01,440 --> 01:30:06,830

and what's that

2471

01:30:06,840 --> 01:30:11,430

[Music]

2472

01:30:11,440 --> 01:30:20,770

for being serious

2473

01:30:43,669 --> 01:30:33,950

[Music]

2474

01:30:54,760 --> 01:30:43,679

it wasn't a tic tac and not quite a

2475

01:31:20,229 --> 01:31:15,390

[Music]

2476

01:31:30,550 --> 01:31:21,560

so

2477

01:31:30,560 --> 01:31:35,390

yes
