AVI LOEB

CLIPS

1
00:00:03,590 --> 00:00:01,350
we will know immediately if there is

2
00:00:05,269 --> 00:00:03,600
something unusual

3
00:00:07,430 --> 00:00:05,279
the question is how quickly will we

4
00:00:09,990 --> 00:00:07,440
release the data we need to go through a

5
00:00:11,030 --> 00:00:10,000
procedure where we check that you know

6
00:00:14,950 --> 00:00:11,040
it's not

7
00:00:16,790 --> 00:00:14,960
illusion of the instruments that we

8
00:00:18,710 --> 00:00:16,800
trust the data and that it's not

9
00:00:20,470 --> 00:00:18,720
something natural you know like

10
00:00:23,509 --> 00:00:20,480
something that is not of great interest

11
00:00:24,870 --> 00:00:23,519
and it's not a drone not the human made

12
00:00:27,349 --> 00:00:24,880
that may take

13
00:00:28,550 --> 00:00:27,359

some weeks or or at most a few months

14

00:00:30,470 --> 00:00:28,560

you know and

15

00:00:32,470 --> 00:00:30,480

but eventually we'll release the data so

16

00:00:35,270 --> 00:00:32,480

the only issue is really for us to be

17

00:00:37,670 --> 00:00:35,280

sure not to cry wolf

18

00:00:39,910 --> 00:00:37,680

you know unjustifiably because then we

19

00:00:42,470 --> 00:00:39,920

lose credibility if we off if we keep

20

00:00:43,830 --> 00:00:42,480

announcing things that are not real then

21

00:00:45,990 --> 00:00:43,840

you know people will not believe us

22

00:00:47,750 --> 00:00:46,000

anymore so we just need to be careful

23

00:00:49,110 --> 00:00:47,760

that what we are seeing is

24

00:00:52,150 --> 00:00:49,120

a real object

25

00:00:55,590 --> 00:00:52,160

that it behaves in ways that cannot be

26

00:00:57,270 --> 00:00:55,600

described as natural objects or

27

00:00:59,590 --> 00:00:57,280

human-made objects

28

00:01:01,830 --> 00:00:59,600

and of course once we verify that we'll
