PAST, PRESENT & FUTURE

1
00:00:00,040 --> 00:00:05,510

[Music]

2
00:00:10,950 --> 00:00:08,710

there's a whole fleet of look on the sa

3
00:00:14,310 --> 00:00:10,960

oh my gosh they're all going against the

4
00:00:18,950 --> 00:00:16,390

it was basically a cube with inside of

5
00:00:23,960 --> 00:00:18,960

sphere where the points of the cube

6
00:00:37,190 --> 00:00:33,220

[Music]

7
00:00:38,709 --> 00:00:37,200

[Applause]

8
00:00:40,950 --> 00:00:38,719

so this isn't anything that just is

9
00:00:46,470 --> 00:00:40,960

limited to the united states it's a

10
00:00:50,709 --> 00:00:48,790

billionaire john caldwell once said if

11
00:00:53,670 --> 00:00:50,719

i'm lucky i only get recruitment wrong

12
00:00:55,910 --> 00:00:53,680

70 of the time but how is it we accept

13
00:00:57,590 --> 00:00:55,920

being wrong so much at a time with the

14

00:00:59,910 --> 00:00:57,600

cost of finding the right match for both

15

00:01:01,349 --> 00:00:59,920

people and organizations so high it's

16

00:01:03,270 --> 00:01:01,359

imperative that you choose the right

17

00:01:05,189 --> 00:01:03,280

42

00:01:59,990 --> 00:01:57,200

hi everyone and welcome back to that ufo

43

00:02:01,429 --> 00:02:00,000

podcast my name is andy just before i

44

00:02:03,270 --> 00:02:01,439

bring in my guest i want to say thank

45

00:02:05,350 --> 00:02:03,280

you to everyone for listening and what

46

00:02:08,070 --> 00:02:05,360

is the week of the two-year anniversary

47

00:02:10,309 --> 00:02:08,080

of the podcast confirmed already for me

48

00:02:12,070 --> 00:02:10,319

is professor gary nolan some of you may

49

00:02:14,390 --> 00:02:12,080

know that and just confirmed last week

50

00:02:15,670 --> 00:02:14,400

with me jeremy corbell will be joining

51
00:02:17,430 --> 00:02:15,680
me on the third of may for a

52
00:02:19,350 --> 00:02:17,440
conversation too so a couple of really

53
00:02:21,430 --> 00:02:19,360
big guests in me following on from the

54
00:02:25,510 --> 00:02:21,440
guest i have with me today so email any

55
00:02:27,910 --> 00:02:25,520
questions for those guests to ufo uap am

56
00:02:29,589 --> 00:02:27,920
gmail.com both of those as you can

57
00:02:31,990 --> 00:02:29,599
imagine are going to be incredibly

58
00:02:33,670 --> 00:02:32,000
popular to my guest for today's pod

59
00:02:35,750 --> 00:02:33,680
making his third appearance for an

60
00:02:38,790 --> 00:02:35,760
interview former head of the pentagon's

61
00:02:40,949 --> 00:02:38,800
atip programme mr luis elizondo welcome

62
00:02:43,110 --> 00:02:40,959
back to the podcast oh it's good to see

63
00:02:44,790 --> 00:02:43,120

you guys thank you so much and thanks to

64

00:02:46,390 --> 00:02:44,800

your uh your great audience too for

65

00:02:48,630 --> 00:02:46,400

having me and spending a little bit of

66

00:02:50,550 --> 00:02:48,640

time with us today

67

00:02:51,910 --> 00:02:50,560

it's always a very exciting conversation

68

00:02:53,589 --> 00:02:51,920

and it's one of those hopefully we can

69

00:02:55,670 --> 00:02:53,599

do it justice for the the many people

70

00:02:57,110 --> 00:02:55,680

who have sent in questions and i'm only

71

00:02:59,190 --> 00:02:57,120

sorry i couldn't have you for five or

72

00:03:01,509 --> 00:02:59,200

six hours to get through even half of

73

00:03:03,030 --> 00:03:01,519

them that have been sent over uh lou

74

00:03:04,949 --> 00:03:03,040

it's been four and a half years since

75

00:03:07,589 --> 00:03:04,959

you resigned from your role at atip and

76

00:03:09,670 --> 00:03:07,599

came forward alongside a team of others

77

00:03:11,509 --> 00:03:09,680

at two of the stars academy of arts and

78

00:03:13,670 --> 00:03:11,519

science as it was known a lot has

79

00:03:16,790 --> 00:03:13,680

happened since then and as we sit here

80

00:03:19,350 --> 00:03:16,800

now how do you reflect upon that time

81

00:03:21,350 --> 00:03:19,360

oh wow uh

82

00:03:23,830 --> 00:03:21,360

you know andy it's uh it's been

83

00:03:25,509 --> 00:03:23,840

bittersweet um you know i never wanted

84

00:03:28,149 --> 00:03:25,519

to be in a situation where i had to

85

00:03:31,509 --> 00:03:28,159

resign my position in the first place

86

00:03:34,710 --> 00:03:31,519

um but unfortunately that was uh

87

00:03:37,509 --> 00:03:34,720

that was uh the hand i was dealt and

88

00:03:39,190 --> 00:03:37,519

as i've said before you know a lot of us

89

00:03:41,509 --> 00:03:39,200

in national security take our jobs very

90

00:03:43,270 --> 00:03:41,519

seriously in fact we go to war for it

91

00:03:44,869 --> 00:03:43,280

and are willing to put our lives on the

92

00:03:48,710 --> 00:03:44,879

line for it so

93

00:03:51,589 --> 00:03:48,720

uh for me it was a very difficult um

94

00:03:53,589 --> 00:03:51,599

decision in a difficult journey but a

95

00:03:55,589 --> 00:03:53,599

decision that really was already made

96

00:03:57,910 --> 00:03:55,599

for me because a lot of people that are

97

00:04:00,630 --> 00:03:57,920

in my situation it's not just me we take

98

00:04:02,630 --> 00:04:00,640

an oath and that oath is to the american

99

00:04:04,309 --> 00:04:02,640

people and to our constitution and our

100

00:04:06,550 --> 00:04:04,319

government and whatnot

101

00:04:08,789 --> 00:04:06,560

and what it's not though is an oath to

102

00:04:11,509 --> 00:04:08,799

bureaucracy and there comes a point if

103

00:04:13,589 --> 00:04:11,519

the bureaucracy becomes uh overwhelming

104

00:04:16,229 --> 00:04:13,599

and becomes a

105

00:04:19,110 --> 00:04:16,239

hindrance an interference

106

00:04:19,830 --> 00:04:19,120

then um one has to make a decision and

107

00:04:21,430 --> 00:04:19,840

and

108

00:04:22,790 --> 00:04:21,440

there's this unwritten code of ethic

109

00:04:24,550 --> 00:04:22,800

that we have

110

00:04:26,230 --> 00:04:24,560

within national security if you can't

111

00:04:28,950 --> 00:04:26,240

fix the problem you don't make it worse

112

00:04:30,390 --> 00:04:28,960

by staying you you leave

113

00:04:32,310 --> 00:04:30,400

and

114

00:04:34,390 --> 00:04:32,320

try to fix it maybe from the outside but

115

00:04:35,590 --> 00:04:34,400

you don't want to be disruptive while on

116

00:04:36,870 --> 00:04:35,600

the inside

117

00:04:38,870 --> 00:04:36,880

that's that's

118

00:04:41,189 --> 00:04:38,880

that's not the proper way to do it so i

119

00:04:43,830 --> 00:04:41,199

did what many before me and after me

120

00:04:45,510 --> 00:04:43,840

have have done i've resigned i resigned

121

00:04:47,909 --> 00:04:45,520

my position

122

00:04:49,430 --> 00:04:47,919

as a as a matter of protest because i

123

00:04:51,350 --> 00:04:49,440

could not get the attention that was

124

00:04:53,030 --> 00:04:51,360

necessary on this topic

125

00:04:54,469 --> 00:04:53,040

at the time through my chain of command

126
00:04:56,070 --> 00:04:54,479
now i think people are seeing the rest

127
00:04:58,710 --> 00:04:56,080
of the story there were there were

128
00:05:00,230 --> 00:04:58,720
deliberate roadblocks i i actually could

129
00:05:02,870 --> 00:05:00,240
not breathe certain elements within my

130
00:05:05,029 --> 00:05:02,880
chain of command simply because of of of

131
00:05:06,390 --> 00:05:05,039
issues involving them character issues

132
00:05:08,150 --> 00:05:06,400
and other

133
00:05:09,749 --> 00:05:08,160
other issues and so what i wound up

134
00:05:12,150 --> 00:05:09,759
doing is

135
00:05:15,110 --> 00:05:12,160
taking it to the streets right

136
00:05:16,230 --> 00:05:15,120
and uh i didn't think that when i when i

137
00:05:18,150 --> 00:05:16,240
left

138
00:05:19,990 --> 00:05:18,160

it would it would have been received

139

00:05:22,550 --> 00:05:20,000

especially by the one community that was

140

00:05:24,469 --> 00:05:22,560

dying for information and transparency

141

00:05:27,590 --> 00:05:24,479

i was really surprised to see a lot of

142

00:05:29,830 --> 00:05:27,600

the the pushback if you will um and the

143

00:05:31,909 --> 00:05:29,840

disbelief initially i i'm not as you

144

00:05:33,110 --> 00:05:31,919

know i'm not a ufologist i'm not into

145

00:05:35,430 --> 00:05:33,120

ufology

146

00:05:37,830 --> 00:05:35,440

i'm just a government servant and you

147

00:05:39,430 --> 00:05:37,840

know what we did was look at ufos that's

148

00:05:41,749 --> 00:05:39,440

just the bottom line and when i came out

149

00:05:44,070 --> 00:05:41,759

and we had that conversation

150

00:05:46,230 --> 00:05:44,080

i was surprised at the amount of

151

00:05:48,629 --> 00:05:46,240

distrust people had

152

00:05:50,550 --> 00:05:48,639

uh in in that fact and i think a lot of

153

00:05:52,790 --> 00:05:50,560

it is because in the past the government

154

00:05:54,710 --> 00:05:52,800

probably wasn't transparent keep in mind

155

00:05:57,990 --> 00:05:54,720

i was relatively new to this i came into

156

00:05:59,670 --> 00:05:58,000

a tip in 2008 so a lot of the history i

157

00:06:02,230 --> 00:05:59,680

i wasn't aware of and nor did i really

158

00:06:03,749 --> 00:06:02,240

concern myself with um you know so for

159

00:06:06,070 --> 00:06:03,759

me it was whether i'm chasing terrorists

160

00:06:08,230 --> 00:06:06,080

or chasing spies or chasing ufos it's

161

00:06:09,990 --> 00:06:08,240

pretty much the same kind of job really

162

00:06:11,189 --> 00:06:10,000

uh and so um

163

00:06:13,990 --> 00:06:11,199

you know it was only later that i

164

00:06:17,189 --> 00:06:14,000

realized that there was so much distrust

165

00:06:19,510 --> 00:06:17,199

by by by the american people and by

166

00:06:21,909 --> 00:06:19,520

frankly citizens of the world

167

00:06:24,390 --> 00:06:21,919

on this topic because governments

168

00:06:27,909 --> 00:06:24,400

and i say the government's plural have

169

00:06:29,189 --> 00:06:27,919

lied about this topic for so long um and

170

00:06:30,550 --> 00:06:29,199

and

171

00:06:32,710 --> 00:06:30,560

you know i guess there's a lot of

172

00:06:34,550 --> 00:06:32,720

mistrust and so

173

00:06:36,710 --> 00:06:34,560

so that was hard and then of course uh

174

00:06:40,070 --> 00:06:36,720

after about a year or a year and a half

175

00:06:41,830 --> 00:06:40,080

um the pentagon began to to change its

176

00:06:44,150 --> 00:06:41,840

position elements within the pentagon

177

00:06:45,830 --> 00:06:44,160

after after secretary mattis jim mattis

178

00:06:47,590 --> 00:06:45,840

uh you know who i would consider you

179

00:06:48,710 --> 00:06:47,600

know an incredible human being a friend

180

00:06:50,950 --> 00:06:48,720

in fact

181

00:06:52,309 --> 00:06:50,960

um once he left they started changing

182

00:06:54,790 --> 00:06:52,319

their their position because they could

183

00:06:57,350 --> 00:06:54,800

get away with it and those individuals

184

00:06:58,230 --> 00:06:57,360

who had held a grudge against me now had

185

00:07:03,670 --> 00:06:58,240

a

186

00:07:05,589 --> 00:07:03,680

misuse

187

00:07:07,990 --> 00:07:05,599

the government apparatus for example the

188

00:07:10,230 --> 00:07:08,000

public affairs officers and

189

00:07:12,469 --> 00:07:10,240

communication channels like that

190

00:07:13,990 --> 00:07:12,479

to to try to discredit me and that was

191

00:07:16,390 --> 00:07:14,000

very very tough because i really

192

00:07:18,629 --> 00:07:16,400

affected my family very much and i

193

00:07:19,909 --> 00:07:18,639

i i couldn't just come out swinging

194

00:07:21,589 --> 00:07:19,919

there's a right way and a wrong way to

195

00:07:22,550 --> 00:07:21,599

do things so i had to bite my tongue and

196

00:07:25,270 --> 00:07:22,560

i had to

197

00:07:27,430 --> 00:07:25,280

initiate certain um efforts now people

198

00:07:29,430 --> 00:07:27,440

know the ig investigation is being one

199

00:07:31,350 --> 00:07:29,440

of them several in fact

200

00:07:33,350 --> 00:07:31,360

and try to allow the system to work and

201
00:07:35,189 --> 00:07:33,360
and while engaging you know elements

202
00:07:36,469 --> 00:07:35,199
within congress and legislative branch

203
00:07:38,070 --> 00:07:36,479
elements within the executive branch who

204
00:07:39,990 --> 00:07:38,080
knew who i was they were there when i

205
00:07:40,950 --> 00:07:40,000
was giving briefings senior very senior

206
00:07:43,749 --> 00:07:40,960
people

207
00:07:45,589 --> 00:07:43,759
um and uh you know i i had to i had to

208
00:07:47,749 --> 00:07:45,599
be very

209
00:07:49,350 --> 00:07:47,759
careful and very clever how i how i

210
00:07:50,869 --> 00:07:49,360
pursued this because they wanted to tap

211
00:07:52,309 --> 00:07:50,879
back in the back

212
00:07:54,230 --> 00:07:52,319
and so fortunately i had the help of

213
00:07:56,309 --> 00:07:54,240

people like chris mellon

214

00:07:58,070 --> 00:07:56,319

giving me advice uh other individuals

215

00:08:00,230 --> 00:07:58,080

who i won't name right now but will

216

00:08:04,390 --> 00:08:00,240

probably come out public at some point

217

00:08:05,749 --> 00:08:04,400

uh how to how to maneuver this and um

218

00:08:07,909 --> 00:08:05,759

you know it's been it's been a long it's

219

00:08:09,749 --> 00:08:07,919

been a long fight it's been been long

220

00:08:11,670 --> 00:08:09,759

and unfortunately

221

00:08:13,510 --> 00:08:11,680

it's not over um you know there's

222

00:08:14,469 --> 00:08:13,520

there's still a lot more work needs to

223

00:08:17,350 --> 00:08:14,479

be done

224

00:08:19,350 --> 00:08:17,360

um i didn't do this to to salvage or

225

00:08:21,189 --> 00:08:19,360

save my own personal credibility i did

226

00:08:22,710 --> 00:08:21,199

it to salvage the conversation about

227

00:08:24,469 --> 00:08:22,720

transparency

228

00:08:26,390 --> 00:08:24,479

and in order to do that we had to get

229

00:08:29,110 --> 00:08:26,400

the facts correct we had to get the

230

00:08:30,710 --> 00:08:29,120

pentagon to to come correct

231

00:08:32,709 --> 00:08:30,720

on their positions and unfortunately we

232

00:08:34,709 --> 00:08:32,719

had to expose a lot of the the

233

00:08:36,949 --> 00:08:34,719

contradictions that that were being made

234

00:08:38,550 --> 00:08:36,959

by that bureaucracy uh and by the way

235

00:08:40,310 --> 00:08:38,560

let me be clear i don't want to hold the

236

00:08:41,509 --> 00:08:40,320

entire pentagon or the entire department

237

00:08:43,430 --> 00:08:41,519

of defense

238

00:08:45,990 --> 00:08:43,440

responsible for that it was only a few

239

00:08:47,509 --> 00:08:46,000

individual very very powerful very well

240

00:08:50,150 --> 00:08:47,519

placed individuals

241

00:08:53,110 --> 00:08:50,160

that really were trying to obfuscate

242

00:08:55,590 --> 00:08:53,120

this this message and those individuals

243

00:08:58,150 --> 00:08:55,600

have subsequently been called out

244

00:09:00,230 --> 00:08:58,160

um you know again there's a few more i

245

00:09:02,150 --> 00:09:00,240

think uh speed bumps that that are going

246

00:09:03,829 --> 00:09:02,160

to have to be addressed and and

247

00:09:07,030 --> 00:09:03,839

potentially removed

248

00:09:09,110 --> 00:09:07,040

but we've come a long way and um

249

00:09:10,710 --> 00:09:09,120

you know as far as my

250

00:09:12,389 --> 00:09:10,720

my own personal experience i wouldn't

251

00:09:14,150 --> 00:09:12,399

have wished this on anybody

252

00:09:15,910 --> 00:09:14,160

it's been extremely difficult on my

253

00:09:17,509 --> 00:09:15,920

family um

254

00:09:19,269 --> 00:09:17,519

tough for me because i had to see the

255

00:09:20,949 --> 00:09:19,279

pain that they went through

256

00:09:22,470 --> 00:09:20,959

because they they know who

257

00:09:23,910 --> 00:09:22,480

who i am and

258

00:09:25,750 --> 00:09:23,920

what i stand for

259

00:09:27,430 --> 00:09:25,760

and to see the constant attacks and to

260

00:09:29,350 --> 00:09:27,440

see that the pentagon was favoring

261

00:09:31,269 --> 00:09:29,360

certain media outlets to you know push

262

00:09:33,030 --> 00:09:31,279

their agenda and their information and

263

00:09:36,790 --> 00:09:33,040

it was obvious the problem it wasn't

264

00:09:39,190 --> 00:09:36,800

obvious to to to to the public um you

265

00:09:40,550 --> 00:09:39,200

know for some folks it was i think and

266

00:09:43,269 --> 00:09:40,560

you know you're starting to see now

267

00:09:45,269 --> 00:09:43,279

articles coming out by individuals uh

268

00:09:47,430 --> 00:09:45,279

who have a really good understanding of

269

00:09:51,350 --> 00:09:47,440

what was going on but those voices were

270

00:09:52,630 --> 00:09:51,360

the minority for a long time and um i

271

00:09:54,710 --> 00:09:52,640

think

272

00:09:56,389 --> 00:09:54,720

yeah i mean there you have it it's been

273

00:09:59,030 --> 00:09:56,399

a really tough journey for me personally

274

00:10:00,710 --> 00:09:59,040

and for my family

275

00:10:02,790 --> 00:10:00,720

just for context i've tried to split

276

00:10:04,470 --> 00:10:02,800

this interview up to past present and

277

00:10:06,550 --> 00:10:04,480

future so if there's anything people may

278

00:10:08,389 --> 00:10:06,560

be listening to thinking follow up on

279

00:10:10,710 --> 00:10:08,399

that it may come later down the line

280

00:10:12,310 --> 00:10:10,720

depending on how it goes uh i want to

281

00:10:14,630 --> 00:10:12,320

ask you lu now

282

00:10:16,470 --> 00:10:14,640

i want to try and make this fair i i get

283

00:10:18,389 --> 00:10:16,480

called out for being a fan of yours and

284

00:10:20,310 --> 00:10:18,399

whatever that might may entail and i

285

00:10:22,470 --> 00:10:20,320

i've said yeah i put my eggs in luella's

286

00:10:24,470 --> 00:10:22,480

ondo basket at the moment you know and i

287

00:10:26,470 --> 00:10:24,480

was a fan of tsa and what they set out

288

00:10:28,550 --> 00:10:26,480

to accomplish and what was accomplished

289

00:10:30,389 --> 00:10:28,560

but i think it's fair to say that you

290

00:10:32,310 --> 00:10:30,399

are human and you've always said that

291

00:10:33,509 --> 00:10:32,320

and along the lines you will have made

292

00:10:35,430 --> 00:10:33,519

mistakes

293

00:10:37,590 --> 00:10:35,440

what is the biggest mistake you've made

294

00:10:39,509 --> 00:10:37,600

or or misstep you've taken since leaving

295

00:10:41,269 --> 00:10:39,519

ate it and what wow

296

00:10:43,269 --> 00:10:41,279

uh you know andy i think the biggest

297

00:10:45,509 --> 00:10:43,279

mistake i've made is one that i haven't

298

00:10:47,190 --> 00:10:45,519

been able to recognize yet because if i

299

00:10:49,269 --> 00:10:47,200

don't recognize a mistake then i can't

300

00:10:51,030 --> 00:10:49,279

fix it and i can't address it and i'm

301
00:10:52,230 --> 00:10:51,040
sure i've made a lot you know i've made

302
00:10:55,110 --> 00:10:52,240
a lot of mistakes and i try to hold

303
00:10:56,630 --> 00:10:55,120
myself accountable and and very quickly

304
00:10:58,710 --> 00:10:56,640
address it if i say something that's

305
00:11:01,750 --> 00:10:58,720
contradictory or i say something that

306
00:11:03,430 --> 00:11:01,760
that later on turns out to be to be

307
00:11:05,509 --> 00:11:03,440
inaccurate because it's either my

308
00:11:07,670 --> 00:11:05,519
opinion or the way i i i read the

309
00:11:09,670 --> 00:11:07,680
information um i i always try to hold

310
00:11:11,670 --> 00:11:09,680
myself accountable my i guess my biggest

311
00:11:13,590 --> 00:11:11,680
fear or my my greatest

312
00:11:15,190 --> 00:11:13,600
mistake or those mistakes that i've made

313
00:11:16,710 --> 00:11:15,200

i haven't recognized they haven't

314

00:11:19,990 --> 00:11:16,720

brought my been brought to my attention

315

00:11:21,590 --> 00:11:20,000

yet so i i i'm unaware of them right and

316

00:11:23,110 --> 00:11:21,600

i'm very careful because a lot of people

317

00:11:25,190 --> 00:11:23,120

hold on to every word that i say and

318

00:11:27,509 --> 00:11:25,200

i've i've been very clear i i leave

319

00:11:29,030 --> 00:11:27,519

breadcrumbs in some cases you know

320

00:11:30,150 --> 00:11:29,040

loads of bread along the way for people

321

00:11:31,110 --> 00:11:30,160

to follow

322

00:11:33,750 --> 00:11:31,120

um

323

00:11:35,350 --> 00:11:33,760

but if i've made a mistake and and it

324

00:11:37,030 --> 00:11:35,360

hasn't been brought to my attention or

325

00:11:38,949 --> 00:11:37,040

i'm unaware of it then

326

00:11:40,870 --> 00:11:38,959

that's that's that's truly the biggest

327

00:11:42,790 --> 00:11:40,880

mistake because because it can't be

328

00:11:44,710 --> 00:11:42,800

fixed right it can't be fixed until it's

329

00:11:46,710 --> 00:11:44,720

it's it's it's

330

00:11:47,990 --> 00:11:46,720

made me brought to my attention i made

331

00:11:49,750 --> 00:11:48,000

aware of it so

332

00:11:53,350 --> 00:11:49,760

um i guess it's the mistakes that i

333

00:11:55,430 --> 00:11:53,360

don't i don't realize i've made yet

334

00:11:57,590 --> 00:11:55,440

in your last jimmy church interview now

335

00:11:59,990 --> 00:11:57,600

we started arranging this during your

336

00:12:01,829 --> 00:12:00,000

media run announcement back in february

337

00:12:03,509 --> 00:12:01,839

um you said at that time you just come

338

00:12:05,430 --> 00:12:03,519

back from one of the most successful

339

00:12:08,629 --> 00:12:05,440

ever visits from dc

340

00:12:11,430 --> 00:12:08,639

um what makes a successful visit in this

341

00:12:13,269 --> 00:12:11,440

you know in this topic in dc and i want

342

00:12:16,069 --> 00:12:13,279

to know as well i'm a fan of the west

343

00:12:17,670 --> 00:12:16,079

wing tv show and i remember at one

344

00:12:19,350 --> 00:12:17,680

moment of an episode where they they

345

00:12:22,230 --> 00:12:19,360

said at the start the previous

346

00:12:23,990 --> 00:12:22,240

administration had almost cured cancer

347

00:12:25,990 --> 00:12:24,000

and they used that as a let's go cure

348

00:12:28,790 --> 00:12:26,000

cancer let's go and do that big thing

349

00:12:30,790 --> 00:12:28,800

did you have any nearly moments in dc

350

00:12:32,629 --> 00:12:30,800

where we almost got

351

00:12:34,389 --> 00:12:32,639

a level of progress that we don't have

352

00:12:35,269 --> 00:12:34,399

yet and for whatever reason it didn't

353

00:12:36,069 --> 00:12:35,279

happen

354

00:12:39,110 --> 00:12:36,079

yeah

355

00:12:43,509 --> 00:12:39,120

uh wow what an insightful question

356

00:12:45,590 --> 00:12:43,519

um every trip to dc is successful um

357

00:12:46,629 --> 00:12:45,600

you know it depends it depends who we're

358

00:12:48,629 --> 00:12:46,639

engaging

359

00:12:50,470 --> 00:12:48,639

um there's always new information to be

360

00:12:52,629 --> 00:12:50,480

discussed and new developments and new

361

00:12:54,949 --> 00:12:52,639

incidents new data

362

00:12:56,710 --> 00:12:54,959

but then there's also the conversation

363

00:12:58,069 --> 00:12:56,720

of where do we go from here right and

364

00:13:01,030 --> 00:12:58,079

when when

365

00:13:02,870 --> 00:13:01,040

when people are having a healthy debate

366

00:13:04,389 --> 00:13:02,880

on what are the next steps

367

00:13:06,069 --> 00:13:04,399

that's fantastic because that means

368

00:13:06,949 --> 00:13:06,079

people are thinking about the right

369

00:13:10,710 --> 00:13:06,959

things

370

00:13:12,629 --> 00:13:10,720

um as far as a almost moment

371

00:13:14,230 --> 00:13:12,639

yeah there's there's one in particular

372

00:13:17,110 --> 00:13:14,240

but unfortunately i'm not at liberty to

373

00:13:19,829 --> 00:13:17,120

discuss it yet um it occurred some time

374

00:13:22,150 --> 00:13:19,839

ago some colleagues were involved in it

375

00:13:24,550 --> 00:13:22,160

there was a discussion by by some very

376

00:13:27,110 --> 00:13:24,560

senior people in a former administration

377

00:13:31,190 --> 00:13:27,120

to potentially

378

00:13:32,949 --> 00:13:31,200

discuss disclosure um

379

00:13:35,030 --> 00:13:32,959

and for whatever reasons it was decided

380

00:13:37,190 --> 00:13:35,040

later on not you know maybe it wasn't it

381

00:13:38,790 --> 00:13:37,200

wasn't time um

382

00:13:41,350 --> 00:13:38,800

i i wasn't privy to that i don't know

383

00:13:42,870 --> 00:13:41,360

all the details and i certainly

384

00:13:44,629 --> 00:13:42,880

you know it's preliminary right now for

385

00:13:46,310 --> 00:13:44,639

me to even comment on it

386

00:13:48,710 --> 00:13:46,320

uh but there have been those moments

387

00:13:49,829 --> 00:13:48,720

where where we've come very close to

388

00:13:52,550 --> 00:13:49,839

something

389

00:13:54,790 --> 00:13:52,560

and um you know for for whatever reason

390

00:13:55,910 --> 00:13:54,800

it was decided uh that maybe the timing

391

00:13:56,710 --> 00:13:55,920

wasn't right

392

00:13:58,230 --> 00:13:56,720

um

393

00:13:59,189 --> 00:13:58,240

but again i want to be very careful

394

00:14:01,430 --> 00:13:59,199

because i

395

00:14:03,509 --> 00:14:01,440

i'm hearing this third hand

396

00:14:06,310 --> 00:14:03,519

so i don't wanna

397

00:14:07,750 --> 00:14:06,320

i don't wanna say too much um

398

00:14:10,790 --> 00:14:07,760

because

399

00:14:11,670 --> 00:14:10,800

you know i wasn't there

400

00:14:13,990 --> 00:14:11,680

and

401

00:14:16,710 --> 00:14:14,000

can you talk about any realizations

402

00:14:18,710 --> 00:14:16,720

during or after moments during your time

403

00:14:20,470 --> 00:14:18,720

in atip it's no secret with your

404

00:14:22,310 --> 00:14:20,480

clearance you would have been privy to

405

00:14:24,470 --> 00:14:22,320

to some of those videos or pieces of

406

00:14:26,550 --> 00:14:24,480

footage or the data some of us would

407

00:14:27,750 --> 00:14:26,560

love to see and we hear about we hear

408

00:14:30,629 --> 00:14:27,760

talked about

409

00:14:32,629 --> 00:14:30,639

you must have sat back and just went wow

410

00:14:34,470 --> 00:14:32,639

and just had a moment whether it was in

411

00:14:37,110 --> 00:14:34,480

an office or in a car or can you talk

412

00:14:39,430 --> 00:14:37,120

about any of those yeah i mean i always

413

00:14:41,430 --> 00:14:39,440

reference a 23-minute video that that's

414

00:14:42,949 --> 00:14:41,440

a very compelling video at some point if

415

00:14:44,870 --> 00:14:42,959

it comes out people are gonna go holy

416

00:14:46,790 --> 00:14:44,880

smokes but that's not just the only one

417

00:14:48,550 --> 00:14:46,800

there's i mean people

418

00:14:51,750 --> 00:14:48,560

i've said this before let me let me if i

419

00:14:54,230 --> 00:14:51,760

can maybe re-emphasize it

420

00:14:55,670 --> 00:14:54,240

this is happening every week guys

421

00:14:57,269 --> 00:14:55,680

this is every this is not i mean if

422

00:14:58,870 --> 00:14:57,279

you're focusing on the name it's not you

423

00:15:00,470 --> 00:14:58,880

but people are focusing just on an image

424

00:15:01,829 --> 00:15:00,480

of the roosevelt

425

00:15:04,069 --> 00:15:01,839

you're focusing on the wrong things

426
00:15:05,910 --> 00:15:04,079
because this is happening every week

427
00:15:07,590 --> 00:15:05,920
data's coming in

428
00:15:10,069 --> 00:15:07,600
from all over

429
00:15:11,750 --> 00:15:10,079
the world from from u.s collection

430
00:15:12,790 --> 00:15:11,760
assets and again i want to be careful to

431
00:15:13,910 --> 00:15:12,800
say what i

432
00:15:15,670 --> 00:15:13,920
you know

433
00:15:17,670 --> 00:15:15,680
what i say here but

434
00:15:18,470 --> 00:15:17,680
but this is happening every week

435
00:15:20,230 --> 00:15:18,480
um

436
00:15:22,870 --> 00:15:20,240
and more and more people are coming out

437
00:15:24,069 --> 00:15:22,880
and and reporting these incidents and

438
00:15:25,829 --> 00:15:24,079

capturing

439

00:15:28,550 --> 00:15:25,839

video and and

440

00:15:29,509 --> 00:15:28,560

telemetry data and whatnot so

441

00:15:31,430 --> 00:15:29,519

um

442

00:15:34,310 --> 00:15:31,440

you know it's hard to say you know was

443

00:15:37,030 --> 00:15:34,320

there a moment because every moment

444

00:15:37,910 --> 00:15:37,040

every time you think you you you've seen

445

00:15:40,629 --> 00:15:37,920

you know

446

00:15:42,150 --> 00:15:40,639

the ultimate video then then more data

447

00:15:43,269 --> 00:15:42,160

more information comes out and there's

448

00:15:44,550 --> 00:15:43,279

another one right and then there's

449

00:15:46,550 --> 00:15:44,560

another one there's another one there's

450

00:15:48,150 --> 00:15:46,560

a pilot coming and saying look i chased

451
00:15:50,790 --> 00:15:48,160
the thing for half an hour i couldn't

452
00:15:51,829 --> 00:15:50,800
get close to it you know i mean it's it

453
00:15:53,990 --> 00:15:51,839
so there

454
00:15:56,870 --> 00:15:54,000
there's not just one compelling video

455
00:15:59,030 --> 00:15:56,880
there's there's a lot of

456
00:16:01,430 --> 00:15:59,040
data out there that's continuing to come

457
00:16:04,790 --> 00:16:01,440
to to fruition uh

458
00:16:08,790 --> 00:16:06,550
regarding the efforts and the policies

459
00:16:11,430 --> 00:16:08,800
that have recently been put in place for

460
00:16:13,430 --> 00:16:11,440
that information to be reported um you

461
00:16:15,030 --> 00:16:13,440
know there was a hope that that

462
00:16:16,310 --> 00:16:15,040
increased reporting would occur and

463
00:16:20,230 --> 00:16:16,320

again like i said that's coming to

464

00:16:24,230 --> 00:16:22,470

over time you mentioned pilots chasing

465

00:16:25,430 --> 00:16:24,240

these objects for up to half an hour or

466

00:16:27,110 --> 00:16:25,440

longer and

467

00:16:29,509 --> 00:16:27,120

back in the tic-tac event that's been

468

00:16:31,269 --> 00:16:29,519

talked about ad nauseam um that they

469

00:16:33,189 --> 00:16:31,279

were they were they're hovering for

470

00:16:35,269 --> 00:16:33,199

hours and you know 12 hours at a time

471

00:16:37,430 --> 00:16:35,279

which we just don't have that technology

472

00:16:39,030 --> 00:16:37,440

has there been any data presented to

473

00:16:42,870 --> 00:16:39,040

yourself you can talk about that we've

474

00:16:45,350 --> 00:16:42,880

noticed that the technology of these uap

475

00:16:47,590 --> 00:16:45,360

have improved over time you've mentioned

476
00:16:49,269 --> 00:16:47,600
that going back to the 50s and 60s we've

477
00:16:51,829 --> 00:16:49,279
seen these objects but

478
00:16:54,710 --> 00:16:51,839
is there any notable difference now

479
00:16:56,710 --> 00:16:54,720
no um it seems to be the same technology

480
00:16:58,470 --> 00:16:56,720
being displayed i mean we have radar

481
00:17:00,550 --> 00:16:58,480
tracks and radar data these things doing

482
00:17:02,550 --> 00:17:00,560
upwards of 13 000 miles an hour in low

483
00:17:05,029 --> 00:17:02,560
earth atmosphere where the friction

484
00:17:08,630 --> 00:17:05,039
coefficient of that is is

485
00:17:11,189 --> 00:17:08,640
is is astounding it's it's almost like

486
00:17:12,870 --> 00:17:11,199
it'd be like swimming through dirt uh

487
00:17:14,630 --> 00:17:12,880
it's just the air is so thick and when

488
00:17:16,789 --> 00:17:14,640

you're moving that fast you know air

489

00:17:18,949 --> 00:17:16,799

density and air friction is is

490

00:17:21,789 --> 00:17:18,959

problematic that's the reason why

491

00:17:25,750 --> 00:17:21,799

case in point the sr-71 lockheed

492

00:17:28,309 --> 00:17:25,760

v12asr71 the blackbird um it is it is an

493

00:17:31,830 --> 00:17:28,319

aircraft comprised entirely of titanium

494

00:17:34,870 --> 00:17:31,840

um because it it gets superheated even

495

00:17:36,710 --> 00:17:34,880

though it's flying at you know

496

00:17:38,789 --> 00:17:36,720

many tens of thousands of feet in

497

00:17:40,470 --> 00:17:38,799

altitude and traveling at three three

498

00:17:42,150 --> 00:17:40,480

thousand five three thousand two hundred

499

00:17:44,830 --> 00:17:42,160

miles an hour

500

00:17:47,909 --> 00:17:44,840

um the friction is so

501
00:17:49,830 --> 00:17:47,919
high that on some of the colder parts of

502
00:17:52,310 --> 00:17:49,840
the engine it's still like

503
00:17:54,870 --> 00:17:52,320
800 900 degrees

504
00:17:56,070 --> 00:17:54,880
so and that's at 3 200 miles an hour

505
00:17:58,870 --> 00:17:56,080
imagine

506
00:18:00,630 --> 00:17:58,880
you know speeds

507
00:18:03,350 --> 00:18:00,640
several times faster

508
00:18:04,870 --> 00:18:03,360
um it's it's almost unimaginable almost

509
00:18:07,750 --> 00:18:04,880
incomprehensible

510
00:18:09,510 --> 00:18:07,760
and you know the sr-71 is it's very very

511
00:18:11,029 --> 00:18:09,520
high when it it's flying like that with

512
00:18:12,950 --> 00:18:11,039
that that

513
00:18:15,110 --> 00:18:12,960

that amount of heat

514

00:18:17,590 --> 00:18:15,120

you know the lower you go in atmosphere

515

00:18:19,510 --> 00:18:17,600

it just that that friction coefficient

516

00:18:21,750 --> 00:18:19,520

just goes up and up and up

517

00:18:23,669 --> 00:18:21,760

and we we have historical data going

518

00:18:25,510 --> 00:18:23,679

back to the 50s where the theme 60 where

519

00:18:28,230 --> 00:18:25,520

they think we're track doing

520

00:18:29,430 --> 00:18:28,240

eight nine ten thousand miles an hour so

521

00:18:31,590 --> 00:18:29,440

um

522

00:18:35,909 --> 00:18:31,600

you know i i don't think

523

00:18:36,950 --> 00:18:35,919

we have seen a a a if you will a

524

00:18:38,870 --> 00:18:36,960

steady

525

00:18:41,510 --> 00:18:38,880

increase in their capabilities the

526

00:18:44,950 --> 00:18:41,520

capabilities seem to be the same what we

527

00:18:47,830 --> 00:18:44,960

do see is a increased prevalence

528

00:18:49,350 --> 00:18:47,840

of these things being seen

529

00:18:51,110 --> 00:18:49,360

and we don't know if that's a function

530

00:18:52,310 --> 00:18:51,120

of simply technology everybody now has a

531

00:18:55,590 --> 00:18:52,320

cell phone

532

00:18:57,029 --> 00:18:55,600

uh the world is more densely populated

533

00:18:58,630 --> 00:18:57,039

it could be or it could be that there

534

00:19:00,310 --> 00:18:58,640

really is an increased prevalence we

535

00:19:04,230 --> 00:19:00,320

don't know yet um you know there's

536

00:19:06,870 --> 00:19:04,240

there's data to suggest both may be true

537

00:19:08,230 --> 00:19:06,880

and on that data the line is now famous

538

00:19:09,430 --> 00:19:08,240

there's a whole fleet of them look on

539

00:19:11,270 --> 00:19:09,440

the essay

540

00:19:13,909 --> 00:19:11,280

can you tell us how often there were

541

00:19:16,150 --> 00:19:13,919

multiple uaps reported compared to an

542

00:19:18,950 --> 00:19:16,160

individual craft was it a pattern

543

00:19:21,590 --> 00:19:18,960

recognized or any takeaway from that

544

00:19:22,710 --> 00:19:21,600

well they were flying in a v formation

545

00:19:27,350 --> 00:19:22,720

um

546

00:19:29,430 --> 00:19:27,360

more of these things were trapped and

547

00:19:30,470 --> 00:19:29,440

actually seen with the naked eye

548

00:19:32,310 --> 00:19:30,480

um

549

00:19:34,070 --> 00:19:32,320

you know they're they're

550

00:19:36,870 --> 00:19:34,080

it's interesting because some of the

551
00:19:39,029 --> 00:19:36,880
historical videos that have described a

552
00:19:40,950 --> 00:19:39,039
triangular vehicle

553
00:19:43,590 --> 00:19:40,960
um you know the problem is when you're

554
00:19:45,110 --> 00:19:43,600
looking at a blank sky and you see three

555
00:19:47,110 --> 00:19:45,120
points of light there's no reference

556
00:19:48,630 --> 00:19:47,120
there's no depth and the question is are

557
00:19:50,230 --> 00:19:48,640
you actually is there an object in the

558
00:19:52,630 --> 00:19:50,240
middle is there a solid object in the

559
00:19:55,510 --> 00:19:52,640
middle or is it really three separate

560
00:19:56,870 --> 00:19:55,520
you know vehicles so to speak uh or

561
00:19:59,830 --> 00:19:56,880
points of light

562
00:20:02,149 --> 00:19:59,840
and uh you know orientation also

563
00:20:04,390 --> 00:20:02,159

means means a lot and so

564

00:20:07,190 --> 00:20:04,400

it's difficult we have seen cases where

565

00:20:09,430 --> 00:20:07,200

we thought we saw uh

566

00:20:11,110 --> 00:20:09,440

some some material between if you will a

567

00:20:13,350 --> 00:20:11,120

triangular craft and it turned out later

568

00:20:15,430 --> 00:20:13,360

that it was actually three separate uap

569

00:20:17,350 --> 00:20:15,440

and then other cases it turns out where

570

00:20:19,190 --> 00:20:17,360

you think we see three separate uap and

571

00:20:20,710 --> 00:20:19,200

it's actually part of a

572

00:20:21,990 --> 00:20:20,720

single vehicle

573

00:20:24,070 --> 00:20:22,000

um

574

00:20:26,870 --> 00:20:24,080

and so you know i i think it's probably

575

00:20:28,710 --> 00:20:26,880

too early to tell right now um

576

00:20:30,630 --> 00:20:28,720

you know is there is there a greater

577

00:20:31,669 --> 00:20:30,640

frequency of of

578

00:20:33,750 --> 00:20:31,679

um

579

00:20:35,430 --> 00:20:33,760

vehicles flying in formation and are

580

00:20:37,909 --> 00:20:35,440

they do they accompany

581

00:20:40,070 --> 00:20:37,919

uh other uap certainly that that that

582

00:20:43,029 --> 00:20:40,080

has happened there's a lot of data that

583

00:20:44,789 --> 00:20:43,039

suggests sometimes they fly together

584

00:20:46,070 --> 00:20:44,799

it looks like

585

00:20:48,390 --> 00:20:46,080

some of these things are actually kicked

586

00:20:50,070 --> 00:20:48,400

off almost like a think of a drone or a

587

00:20:51,669 --> 00:20:50,080

uav coming from a mother ship if you

588

00:20:53,510 --> 00:20:51,679

will i hate to use that term but you

589

00:20:55,750 --> 00:20:53,520

know from up from a larger vehicle a

590

00:20:57,909 --> 00:20:55,760

larger craft um

591

00:21:00,630 --> 00:20:57,919

i i think it's you know i don't know if

592

00:21:03,990 --> 00:21:00,640

there's been any real analysis to make a

593

00:21:06,870 --> 00:21:04,000

determination that um you know

594

00:21:08,710 --> 00:21:06,880

most uap incidents involve a fleet of

595

00:21:10,390 --> 00:21:08,720

them right as we heard as you're talking

596

00:21:11,270 --> 00:21:10,400

about the famous video look on the asa

597

00:21:12,070 --> 00:21:11,280

right

598

00:21:13,990 --> 00:21:12,080

um

599

00:21:16,390 --> 00:21:14,000

i don't i don't know i i i do know that

600

00:21:18,789 --> 00:21:16,400

that there's there's data on both both

601
00:21:21,510 --> 00:21:18,799
singular craft and and multiple vehicles

602
00:21:22,870 --> 00:21:21,520
being being seen and and and interacting

603
00:21:23,990 --> 00:21:22,880
with each other to some degree you know

604
00:21:25,029 --> 00:21:24,000
it goes back

605
00:21:26,630 --> 00:21:25,039
it's interesting there's some old

606
00:21:28,870 --> 00:21:26,640
historical reporting

607
00:21:30,789 --> 00:21:28,880
uh from the uh

608
00:21:33,029 --> 00:21:30,799
from right before the the beginning of

609
00:21:33,990 --> 00:21:33,039
the renaissance uh during the the middle

610
00:21:37,190 --> 00:21:34,000
ages

611
00:21:39,350 --> 00:21:37,200
uh in 1600's actually so in in nuremberg

612
00:21:40,950 --> 00:21:39,360
uh the famous nuremberg incident in

613
00:21:42,870 --> 00:21:40,960

germany where

614

00:21:45,590 --> 00:21:42,880

a lot of different shaped vehicles

615

00:21:48,789 --> 00:21:45,600

lenticular craft and cylindrical crafts

616

00:21:50,390 --> 00:21:48,799

triangular craft little orbs of light

617

00:21:51,990 --> 00:21:50,400

seem to be interacting with each other

618

00:21:54,310 --> 00:21:52,000

and some even describe it that there was

619

00:21:57,190 --> 00:21:54,320

some sort of aerial dog fight

620

00:21:59,430 --> 00:21:57,200

between between vehicles

621

00:22:01,750 --> 00:21:59,440

obviously this is centuries before my

622

00:22:03,750 --> 00:22:01,760

time so i i certainly can't speak uh in

623

00:22:05,510 --> 00:22:03,760

an articulate manner uh regarding that

624

00:22:07,590 --> 00:22:05,520

incident but you know there were there

625

00:22:09,830 --> 00:22:07,600

were a lot of eyewitnesses that that

626

00:22:12,149 --> 00:22:09,840

that that discussed that uh of these

627

00:22:14,390 --> 00:22:12,159

these vehicles flying in formation if

628

00:22:16,149 --> 00:22:14,400

you will

629

00:22:18,149 --> 00:22:16,159

you mentioned an increase in sightings

630

00:22:20,789 --> 00:22:18,159

you know is that down to us having more

631

00:22:22,870 --> 00:22:20,799

more cell phones or navy technologies

632

00:22:24,870 --> 00:22:22,880

military technology improving month on

633

00:22:28,710 --> 00:22:24,880

month maybe week on week

634

00:22:30,549 --> 00:22:28,720

are they noticing us noticing them more

635

00:22:33,350 --> 00:22:30,559

well they certainly are aware that that

636

00:22:34,870 --> 00:22:33,360

we are now aware um you know dave fravor

637

00:22:37,510 --> 00:22:34,880

actually talks about as he goes to

638

00:22:39,029 --> 00:22:37,520

engage and cut the gap uh and try to

639

00:22:41,350 --> 00:22:39,039

engage this tic tac

640

00:22:43,430 --> 00:22:41,360

it orientated itself at him pointed at

641

00:22:45,510 --> 00:22:43,440

him and and kept a safe distance from

642

00:22:48,630 --> 00:22:45,520

his aircraft and and kind of mirrored

643

00:22:51,350 --> 00:22:48,640

his maneuvers uh in order to to to keep

644

00:22:53,990 --> 00:22:51,360

a safe distance uh and then you know

645

00:22:55,830 --> 00:22:54,000

bang as he starts to close a gap it

646

00:22:58,950 --> 00:22:55,840

it then demonstrates that it's not it's

647

00:23:01,909 --> 00:22:58,960

not very happy with dave framer so uh it

648

00:23:02,789 --> 00:23:01,919

it disappears over the horizon um

649

00:23:04,710 --> 00:23:02,799

you know

650

00:23:07,270 --> 00:23:04,720

there does seem to be some sort of

651

00:23:09,190 --> 00:23:07,280

awareness there it's not like um you

652

00:23:10,789 --> 00:23:09,200

know we're walking uh in the desert

653

00:23:13,350 --> 00:23:10,799

there's you know we don't notice the

654

00:23:14,950 --> 00:23:13,360

ants on the floor um that they it

655

00:23:17,669 --> 00:23:14,960

definitely seems that they are very well

656

00:23:19,750 --> 00:23:17,679

aware of our presence uh and and and

657

00:23:21,270 --> 00:23:19,760

respond accordingly um

658

00:23:23,750 --> 00:23:21,280

you know

659

00:23:26,149 --> 00:23:23,760

people talk about communication but

660

00:23:27,590 --> 00:23:26,159

you know when i when i when i take a

661

00:23:29,990 --> 00:23:27,600

treat and i tell my dog to sit and the

662

00:23:31,590 --> 00:23:30,000

dog sits you know i'm training the dog

663

00:23:33,029 --> 00:23:31,600

but at the same time the dog is trained

664

00:23:34,789 --> 00:23:33,039

mean when the dog

665

00:23:36,390 --> 00:23:34,799

you know whines and wants to go outside

666

00:23:37,669 --> 00:23:36,400

the dog has trained me to go open the

667

00:23:39,990 --> 00:23:37,679

door because he needs to go to the

668

00:23:42,630 --> 00:23:40,000

bathroom right so it's

669

00:23:45,590 --> 00:23:42,640

communication doesn't have to be verbal

670

00:23:47,590 --> 00:23:45,600

and you know one can surmise that you

671

00:23:49,830 --> 00:23:47,600

know by us doing certain things and it

672

00:23:52,710 --> 00:23:49,840

responds accordingly that's a form of

673

00:23:53,750 --> 00:23:52,720

communication and you know it we do see

674

00:23:55,830 --> 00:23:53,760

that there's an interest to keen

675

00:23:58,070 --> 00:23:55,840

interest in our nuclear equities

676

00:24:00,310 --> 00:23:58,080

um

677

00:24:02,630 --> 00:24:00,320

so anyways there there you have it i i

678

00:24:04,470 --> 00:24:02,640

think it's um

679

00:24:06,710 --> 00:24:04,480

i think there's definitely an awareness

680

00:24:09,350 --> 00:24:06,720

of of of our presence that's that's

681

00:24:10,950 --> 00:24:09,360

pretty clear

682

00:24:12,870 --> 00:24:10,960

dave ravers incident has been well

683

00:24:14,789 --> 00:24:12,880

documented and commander favor talked

684

00:24:16,950 --> 00:24:14,799

about it on several shows

685

00:24:19,510 --> 00:24:16,960

have you spoken to other pilots who have

686

00:24:21,669 --> 00:24:19,520

had incidents as spectacular as that

687

00:24:23,350 --> 00:24:21,679

that of course and how they described

688

00:24:25,669 --> 00:24:23,360

very similar behaviors or anything

689

00:24:26,789 --> 00:24:25,679

different yeah absolutely both similar

690

00:24:28,870 --> 00:24:26,799

and different

691

00:24:30,870 --> 00:24:28,880

um it's you know it's really an enigma

692

00:24:32,390 --> 00:24:30,880

um there's pilots who have tried to

693

00:24:35,029 --> 00:24:32,400

engage it there's there's a pilot i

694

00:24:36,630 --> 00:24:35,039

spoke to in south america whoever had

695

00:24:38,070 --> 00:24:36,640

like a thousand eyewitnesses they were

696

00:24:41,110 --> 00:24:38,080

doing a formation on the air on the

697

00:24:43,430 --> 00:24:41,120

tarmac and and there was this uap over

698

00:24:44,470 --> 00:24:43,440

the the air base so they scrambled one

699

00:24:46,789 --> 00:24:44,480

of the at the time one of the most

700

00:24:49,190 --> 00:24:46,799

premier fighter aircraft russian fighter

701
00:24:51,909 --> 00:24:49,200
aircraft to to to engage this thing

702
00:24:54,310 --> 00:24:51,919
and uh you know he fired his his cannons

703
00:24:56,950 --> 00:24:54,320
at it and uh you know it didn't it

704
00:24:58,070 --> 00:24:56,960
didn't do a damn thing um

705
00:25:00,230 --> 00:24:58,080
you know there's there's other ones

706
00:25:02,070 --> 00:25:00,240
where these things will come in uh you

707
00:25:03,909 --> 00:25:02,080
know right next to the aircraft right

708
00:25:05,990 --> 00:25:03,919
off the wing tip and just kind of

709
00:25:07,909 --> 00:25:06,000
almost like almost like it's

710
00:25:09,909 --> 00:25:07,919
unbelievable almost like like

711
00:25:11,909 --> 00:25:09,919
fly as a wingman for a while almost like

712
00:25:13,350 --> 00:25:11,919
like play with the pilot you know almost

713
00:25:15,029 --> 00:25:13,360

you know

714

00:25:16,710 --> 00:25:15,039

i hate to say playful way because we

715

00:25:18,470 --> 00:25:16,720

really don't know but

716

00:25:20,789 --> 00:25:18,480

but there doesn't seem to be any obvious

717

00:25:22,630 --> 00:25:20,799

signs of aggression uh almost kind of

718

00:25:24,230 --> 00:25:22,640

like hey you know let's go play and let

719

00:25:26,230 --> 00:25:24,240

me let me let me show you what i can do

720

00:25:29,350 --> 00:25:26,240

right um

721

00:25:30,950 --> 00:25:29,360

so that's that's been reported as well

722

00:25:33,029 --> 00:25:30,960

it sounds like dolphins when they swim

723

00:25:34,789 --> 00:25:33,039

alongside boats

724

00:25:36,470 --> 00:25:34,799

and maneuvers and they just go off and

725

00:25:38,950 --> 00:25:36,480

do their own thing yeah they ride the

726

00:25:40,870 --> 00:25:38,960

the bow wave right and uh you know

727

00:25:42,870 --> 00:25:40,880

they'll kind of demonstrate look look

728

00:25:44,470 --> 00:25:42,880

how maneuverable i am in the water right

729

00:25:46,870 --> 00:25:44,480

flip and turn and spin and you know here

730

00:25:48,950 --> 00:25:46,880

you are just plowing through the waves

731

00:25:50,950 --> 00:25:48,960

um yeah that's that's a good that's a

732

00:25:52,710 --> 00:25:50,960

good analogy

733

00:25:54,390 --> 00:25:52,720

you mentioned interestingly uh going

734

00:25:57,190 --> 00:25:54,400

back to the past different shapes of

735

00:25:59,110 --> 00:25:57,200

craft lenticular and such and excuse a

736

00:26:00,950 --> 00:25:59,120

slightly longer question here

737

00:26:03,430 --> 00:26:00,960

part of the recently declassified but

738

00:26:06,470 --> 00:26:03,440

heavily redacted uap task force report

739

00:26:08,149 --> 00:26:06,480

contained a page on the shape of uap

740

00:26:10,230 --> 00:26:08,159

tic tacs seem to have replaced the

741

00:26:12,230 --> 00:26:10,240

classic saucer shape in terms of the

742

00:26:14,549 --> 00:26:12,240

go-to descriptor that you see online

743

00:26:16,870 --> 00:26:14,559

from from people these days however to

744

00:26:19,190 --> 00:26:16,880

your knowledge are the us military and

745

00:26:22,390 --> 00:26:19,200

others still encountering a range of

746

00:26:25,269 --> 00:26:22,400

shaped craft that are categorically

747

00:26:28,149 --> 00:26:25,279

not adversarial technologies

748

00:26:31,909 --> 00:26:29,909

you're asking me two different questions

749

00:26:33,350 --> 00:26:31,919

actually uh you're asking me are they

750

00:26:36,230 --> 00:26:33,360

still encountering different shapes

751

00:26:38,870 --> 00:26:36,240

craft yes absolutely it's not just tic

752

00:26:41,350 --> 00:26:38,880

tacs um but the second part of your

753

00:26:42,950 --> 00:26:41,360

question is you know are

754

00:26:45,110 --> 00:26:42,960

are they certainly not

755

00:26:47,029 --> 00:26:45,120

uh adversarial technology what i can say

756

00:26:49,190 --> 00:26:47,039

is we think that they're not adversarial

757

00:26:53,110 --> 00:26:49,200

technology you don't know what you don't

758

00:26:54,870 --> 00:26:53,120

know um it's highly unlikely that that

759

00:26:57,269 --> 00:26:54,880

that some of these are foreign

760

00:26:59,590 --> 00:26:57,279

technology but as we continue to evolve

761

00:27:01,110 --> 00:26:59,600

technologically speaking we're getting

762

00:27:03,750 --> 00:27:01,120

more and more advanced in our in our

763

00:27:05,909 --> 00:27:03,760

capabilities and so at some point we may

764

00:27:07,590 --> 00:27:05,919

find ourselves in a situation where some

765

00:27:10,230 --> 00:27:07,600

of these uap could absolutely be

766

00:27:12,710 --> 00:27:10,240

replicated by a foreign government

767

00:27:14,310 --> 00:27:12,720

um i i don't think we're there yet and i

768

00:27:16,390 --> 00:27:14,320

think that the general consensus by the

769

00:27:17,669 --> 00:27:16,400

intelligence communities that we're not

770

00:27:19,830 --> 00:27:17,679

there yet

771

00:27:21,669 --> 00:27:19,840

but but at some point the more we

772

00:27:23,110 --> 00:27:21,679

understand and learn about these things

773

00:27:26,310 --> 00:27:23,120

the more we may have the ability to

774

00:27:28,149 --> 00:27:26,320

replicate some of their performance

775

00:27:30,070 --> 00:27:28,159

and your answer would that be the reason

776

00:27:33,029 --> 00:27:30,080

or one of the reasons that that page is

777

00:27:35,110 --> 00:27:33,039

so heavily redacted is because if

778

00:27:36,789 --> 00:27:35,120

if the us government show that we know

779

00:27:37,990 --> 00:27:36,799

there's this shape this shape and this

780

00:27:40,070 --> 00:27:38,000

shape and it turns out those are

781

00:27:42,149 --> 00:27:40,080

actually chinese drones you don't want

782

00:27:43,029 --> 00:27:42,159

the chinese to know that you know they

783

00:27:44,870 --> 00:27:43,039

have

784

00:27:47,909 --> 00:27:44,880

precisely you know you don't you don't

785

00:27:49,510 --> 00:27:47,919

ever want to broadcast your your your

786

00:27:51,110 --> 00:27:49,520

vulnerabilities and you also don't want

787

00:27:54,070 --> 00:27:51,120

to broadcast what you know about your

788

00:27:55,430 --> 00:27:54,080

enemy um you know that's that's

789

00:27:56,789 --> 00:27:55,440

that's very important it's part of

790

00:27:58,950 --> 00:27:56,799

counterintelligence you don't you don't

791

00:28:00,470 --> 00:27:58,960

want to reveal playing a game of chess

792

00:28:02,549 --> 00:28:00,480

you don't want to tell your enemy what

793

00:28:04,070 --> 00:28:02,559

your next move is and you don't want to

794

00:28:06,630 --> 00:28:04,080

tell your enemy what your own pieces are

795

00:28:09,350 --> 00:28:06,640

capable of um that's that's not a very

796

00:28:10,549 --> 00:28:09,360

smart way to play play play chess

797

00:28:11,510 --> 00:28:10,559

um

798

00:28:13,190 --> 00:28:11,520

so you're

799

00:28:14,950 --> 00:28:13,200

you're absolutely correct that's that's

800

00:28:17,669 --> 00:28:14,960

one certainly one reason to keep things

801
00:28:19,269 --> 00:28:17,679
classified

802
00:28:22,070 --> 00:28:19,279
any other reasons if that's one of them

803
00:28:23,909 --> 00:28:22,080
that you could go into yeah i mean

804
00:28:26,789 --> 00:28:23,919
we could spend here all day talking

805
00:28:28,549 --> 00:28:26,799
about why we classify information

806
00:28:29,990 --> 00:28:28,559
you know usually particularly i suppose

807
00:28:32,149 --> 00:28:30,000
the shape sorry i should i should have

808
00:28:33,750 --> 00:28:32,159
give you context here the the actual

809
00:28:35,590 --> 00:28:33,760
shape of the objects why would that be

810
00:28:37,110 --> 00:28:35,600
classified

811
00:28:39,190 --> 00:28:37,120
um you know there's something called

812
00:28:41,590 --> 00:28:39,200
blue force and red force capabilities

813
00:28:43,029 --> 00:28:41,600

blue force uh are are considered your

814

00:28:44,389 --> 00:28:43,039

own technologies

815

00:28:46,789 --> 00:28:44,399

red force are considered the

816

00:28:48,549 --> 00:28:46,799

technologies of your adversaries

817

00:28:50,549 --> 00:28:48,559

you know we spend billions of dollars

818

00:28:52,149 --> 00:28:50,559

each year in research and development

819

00:28:54,149 --> 00:28:52,159

trying to keep a competitive advantage

820

00:28:56,230 --> 00:28:54,159

over our adversaries

821

00:28:58,310 --> 00:28:56,240

you know we we do have some very

822

00:29:00,789 --> 00:28:58,320

sophisticated technologies that i'm

823

00:29:02,470 --> 00:29:00,799

certainly not going to go into

824

00:29:03,590 --> 00:29:02,480

and you want to protect those equities

825

00:29:06,149 --> 00:29:03,600

you know

826

00:29:07,350 --> 00:29:06,159

is it possible

827

00:29:09,990 --> 00:29:07,360

in the past that some people have

828

00:29:12,710 --> 00:29:10,000

confused ufos with with

829

00:29:14,630 --> 00:29:12,720

advanced secret u.s technology well sure

830

00:29:16,549 --> 00:29:14,640

we know that that happened with the with

831

00:29:18,549 --> 00:29:16,559

the b2 bomber program people would

832

00:29:20,789 --> 00:29:18,559

report the the black flying wing that

833

00:29:24,149 --> 00:29:20,799

you know and also the the old wobbly

834

00:29:25,669 --> 00:29:24,159

goblin the f you know the 117 uh the

835

00:29:27,669 --> 00:29:25,679

night knight fighter

836

00:29:29,269 --> 00:29:27,679

um you know people

837

00:29:31,029 --> 00:29:29,279

people often look like we even see it

838

00:29:33,430 --> 00:29:31,039

right now in in the commercial world

839

00:29:34,549 --> 00:29:33,440

right with with with elon musk and

840

00:29:36,470 --> 00:29:34,559

starling

841

00:29:37,990 --> 00:29:36,480

people you know see these chains of

842

00:29:39,590 --> 00:29:38,000

satellites i see them all the time out

843

00:29:42,789 --> 00:29:39,600

here in wyoming that this chain of

844

00:29:44,470 --> 00:29:42,799

satellites 50 60 long in a string almost

845

00:29:47,029 --> 00:29:44,480

like a string of pearls and

846

00:29:48,630 --> 00:29:47,039

people report that as being ufos because

847

00:29:50,470 --> 00:29:48,640

if you've never seen it before then

848

00:29:52,310 --> 00:29:50,480

certainly it's going to be it's going to

849

00:29:53,830 --> 00:29:52,320

be something that's going to be novel

850

00:29:55,590 --> 00:29:53,840

and it's going to pique your interest

851
00:29:57,269 --> 00:29:55,600
and and you know it may seem like an

852
00:29:59,269 --> 00:29:57,279
unidentified flying object when in

853
00:30:00,870 --> 00:29:59,279
reality it's it's just a new type of

854
00:30:02,630 --> 00:30:00,880
technology

855
00:30:04,710 --> 00:30:02,640
the government wants to protect a lot of

856
00:30:06,710 --> 00:30:04,720
those key technologies not not startling

857
00:30:08,870 --> 00:30:06,720
necessarily but but other technologies

858
00:30:10,310 --> 00:30:08,880
that we we employ and develop because we

859
00:30:12,230 --> 00:30:10,320
spend a lot of money on it right and we

860
00:30:14,630 --> 00:30:12,240
don't want an adversary coming in and

861
00:30:16,789 --> 00:30:14,640
stealing it and then you know having

862
00:30:19,190 --> 00:30:16,799
that same that same advantage on the

863
00:30:21,269 --> 00:30:19,200

battle space so there's all sorts of

864

00:30:22,710 --> 00:30:21,279

reasons uh again i mean we could spend

865

00:30:25,029 --> 00:30:22,720

here probably the next three hours if

866

00:30:27,110 --> 00:30:25,039

you really wanted to talk about it but

867

00:30:29,669 --> 00:30:27,120

you know there's there's good reason why

868

00:30:32,149 --> 00:30:29,679

why even the shapes of vehicles may may

869

00:30:33,990 --> 00:30:32,159

wind up being redacted uh because a

870

00:30:35,750 --> 00:30:34,000

shape can tell you a lot you know let's

871

00:30:37,269 --> 00:30:35,760

let's let's look at this little aircraft

872

00:30:39,990 --> 00:30:37,279

here for a moment right

873

00:30:42,470 --> 00:30:40,000

um if i were to show you this

874

00:30:45,110 --> 00:30:42,480

and compare this to let's say the model

875

00:30:46,549 --> 00:30:45,120

of a biplane right well just by looking

876

00:30:48,630 --> 00:30:46,559

at the shape of this this probably tells

877

00:30:50,470 --> 00:30:48,640

you a whole lot right you have a delta

878

00:30:54,389 --> 00:30:50,480

lean configuration

879

00:30:55,669 --> 00:30:54,399

um small uh control surfaces so you can

880

00:30:58,070 --> 00:30:55,679

assume this is probably going to fly

881

00:30:59,669 --> 00:30:58,080

very very fast when you look at the

882

00:31:01,269 --> 00:30:59,679

intakes the intakes are on top of the

883

00:31:02,230 --> 00:31:01,279

aircraft on top of the airframe not

884

00:31:03,990 --> 00:31:02,240

below

885

00:31:06,389 --> 00:31:04,000

so that probably tells you that this

886

00:31:09,190 --> 00:31:06,399

this is a vehicle that is designed to to

887

00:31:11,750 --> 00:31:09,200

have a low signature you know you you

888

00:31:13,909 --> 00:31:11,760

can tell a lot by by simple shape you

889

00:31:17,430 --> 00:31:13,919

know and um you know this is just a

890

00:31:18,710 --> 00:31:17,440

little little toy right so

891

00:31:20,870 --> 00:31:18,720

so yeah there's there's reasons why you

892

00:31:22,950 --> 00:31:20,880

want to keep certain things classified

893

00:31:24,389 --> 00:31:22,960

and and shapes can tell you a lot they

894

00:31:26,630 --> 00:31:24,399

can tell you physical characteristics

895

00:31:28,710 --> 00:31:26,640

and even performance capabilities and

896

00:31:30,950 --> 00:31:28,720

potentially even uh you know something

897

00:31:32,549 --> 00:31:30,960

manned or unmanned um

898

00:31:34,470 --> 00:31:32,559

so yeah

899

00:31:36,710 --> 00:31:34,480

there you have it

900

00:31:38,870 --> 00:31:36,720

uh and last year on some interviews you

901
00:31:41,110 --> 00:31:38,880
mentioned china was potentially going to

902
00:31:42,149 --> 00:31:41,120
attempt to raise the uep issue within

903
00:31:43,430 --> 00:31:42,159
the u.n

904
00:31:45,269 --> 00:31:43,440
is that something that is still

905
00:31:46,470 --> 00:31:45,279
progressing that you can speak about

906
00:31:48,470 --> 00:31:46,480
well they did

907
00:31:50,710 --> 00:31:48,480
um they did it was called the five

908
00:31:53,029 --> 00:31:50,720
continents initiative and uh they were

909
00:31:56,389 --> 00:31:53,039
behind that and it uh

910
00:31:58,549 --> 00:31:56,399
did not go i think as planned uh i think

911
00:32:00,870 --> 00:31:58,559
people became very wise very quickly as

912
00:32:02,549 --> 00:32:00,880
to to you know we you don't want one

913
00:32:04,630 --> 00:32:02,559

nation controlling the narrative and

914

00:32:06,870 --> 00:32:04,640

that includes the united states you know

915

00:32:08,710 --> 00:32:06,880

this is something that impacts everyone

916

00:32:10,470 --> 00:32:08,720

i think everybody should have have have

917

00:32:12,470 --> 00:32:10,480

an equal say

918

00:32:14,310 --> 00:32:12,480

in this topic uh from a governmental

919

00:32:16,789 --> 00:32:14,320

perspective and this is why we've tried

920

00:32:19,669 --> 00:32:16,799

to to what i've said before

921

00:32:21,190 --> 00:32:19,679

democratize the conversation um you know

922

00:32:22,630 --> 00:32:21,200

the problem for the last 70 years is

923

00:32:23,830 --> 00:32:22,640

that we haven't democratized the

924

00:32:26,830 --> 00:32:23,840

conversation

925

00:32:29,029 --> 00:32:26,840

it's been held in small enclaves of

926

00:32:31,350 --> 00:32:29,039

organizations and institutions

927

00:32:34,149 --> 00:32:31,360

uh and governments and that hasn't been

928

00:32:35,190 --> 00:32:34,159

very helpful towards transparency so

929

00:32:36,870 --> 00:32:35,200

so

930

00:32:38,710 --> 00:32:36,880

we are trying to democratize the

931

00:32:40,630 --> 00:32:38,720

conversation and i think the united

932

00:32:42,710 --> 00:32:40,640

nations is certainly someplace that

933

00:32:44,310 --> 00:32:42,720

would be very

934

00:32:46,470 --> 00:32:44,320

good to have this conversation on the

935

00:32:48,789 --> 00:32:46,480

international level furthermore there's

936

00:32:51,590 --> 00:32:48,799

efforts we see with italy right now and

937

00:32:53,990 --> 00:32:51,600

and the small republic of san marino by

938

00:32:56,230 --> 00:32:54,000

the way the longest-standing republic uh

939

00:32:57,350 --> 00:32:56,240

in the entire world since the 1300s i

940

00:32:59,509 --> 00:32:57,360

had the honor and privilege of going

941

00:33:01,830 --> 00:32:59,519

there and speaking to some members of of

942

00:33:03,909 --> 00:33:01,840

of the government of san marino you know

943

00:33:07,190 --> 00:33:03,919

and and maybe having a small enclave

944

00:33:11,029 --> 00:33:07,200

like that would be great to to you know

945

00:33:12,710 --> 00:33:11,039

have a an annual uh u.n meeting

946

00:33:14,230 --> 00:33:12,720

on on um

947

00:33:16,149 --> 00:33:14,240

on this topic you know there was an

948

00:33:18,310 --> 00:33:16,159

initiative called the titan

949

00:33:19,909 --> 00:33:18,320

titan is the name of the mountain there

950

00:33:20,950 --> 00:33:19,919

san marino

951
00:33:25,430 --> 00:33:20,960
and

952
00:33:27,029 --> 00:33:25,440
titan was chosen as a name to to

953
00:33:29,590 --> 00:33:27,039
perhaps

954
00:33:31,750 --> 00:33:29,600
try and get the rest of the world on

955
00:33:33,509 --> 00:33:31,760
board with having a summit if you will

956
00:33:35,190 --> 00:33:33,519
the international summit on the on the

957
00:33:37,190 --> 00:33:35,200
uap topic

958
00:33:38,710 --> 00:33:37,200
hosted there by san marino

959
00:33:40,630 --> 00:33:38,720
san marino's a neutral country they

960
00:33:42,870 --> 00:33:40,640
haven't even even during the world war

961
00:33:44,310 --> 00:33:42,880
ii um you know it's a bit of a

962
00:33:46,310 --> 00:33:44,320
switzerland

963
00:33:48,789 --> 00:33:46,320

and uh you know there there's there

964

00:33:50,549 --> 00:33:48,799

seems to be some interest and and i for

965

00:33:53,750 --> 00:33:50,559

one think it's a great idea you know so

966

00:33:56,470 --> 00:33:53,760

i i think international uh involvement

967

00:33:57,509 --> 00:33:56,480

is critical um i don't think that china

968

00:34:02,310 --> 00:33:57,519

should be

969

00:34:04,389 --> 00:34:02,320

leaving the effort you know it's i'm not

970

00:34:05,990 --> 00:34:04,399

i'm not trying to offend anybody

971

00:34:07,750 --> 00:34:06,000

you know it's from china what i'm simply

972

00:34:09,190 --> 00:34:07,760

saying is that that no one country

973

00:34:12,069 --> 00:34:09,200

should should own the narrative or

974

00:34:13,510 --> 00:34:12,079

control the narrative

975

00:34:15,349 --> 00:34:13,520

louie i'm going to move on to discuss

976
00:34:16,869 --> 00:34:15,359
the present so we've covered the past

977
00:34:19,270 --> 00:34:16,879
there quite well i think and appreciate

978
00:34:20,869 --> 00:34:19,280
the answers um you

979
00:34:23,109 --> 00:34:20,879
of course i'm going to discuss gary reid

980
00:34:25,430 --> 00:34:23,119
however i would point people to ryan

981
00:34:27,990 --> 00:34:25,440
robbins if you search ufo jesus on

982
00:34:29,829 --> 00:34:28,000
youtube done a 37 minute interview which

983
00:34:31,750 --> 00:34:29,839
dropped on the 22nd of april which

984
00:34:33,190 --> 00:34:31,760
covers that that situation in quite a

985
00:34:34,869 --> 00:34:33,200
lot of detail and covers it quite well

986
00:34:36,710 --> 00:34:34,879
lou and i'll put the links for that in

987
00:34:38,869 --> 00:34:36,720
the description however i do want to

988
00:34:41,669 --> 00:34:38,879

know um you stated on that interview

989

00:34:43,190 --> 00:34:41,679

that gary reed made progress on the uap

990

00:34:45,750 --> 00:34:43,200

topic difficult

991

00:34:47,430 --> 00:34:45,760

is the road now clearer for others who

992

00:34:49,030 --> 00:34:47,440

are on the side of progress within the

993

00:34:51,270 --> 00:34:49,040

government to come forward

994

00:34:53,030 --> 00:34:51,280

or is this a hydra type situation where

995

00:34:54,389 --> 00:34:53,040

you cut off one head and two more will

996

00:34:56,230 --> 00:34:54,399

take its place

997

00:34:57,750 --> 00:34:56,240

no i think it certainly made it easier

998

00:34:59,030 --> 00:34:57,760

the problem is that in the government

999

00:35:01,750 --> 00:34:59,040

there's still elements that don't

1000

00:35:04,470 --> 00:35:01,760

appreciate the topic they they consider

1001
00:35:07,190 --> 00:35:04,480
they consider this issue of uap as as an

1002
00:35:08,470 --> 00:35:07,200
issue of air clutter and space trash

1003
00:35:10,150 --> 00:35:08,480
space junk

1004
00:35:12,310 --> 00:35:10,160
and you know with the hopes of well if

1005
00:35:14,310 --> 00:35:12,320
we can identify more air cluttered space

1006
00:35:18,310 --> 00:35:14,320
junk then we can you know put this to

1007
00:35:20,870 --> 00:35:18,320
bed and and ufos are are are not real um

1008
00:35:24,230 --> 00:35:20,880
that's not the case ufos are represent

1009
00:35:26,310 --> 00:35:24,240
breakaway technology ufos uap

1010
00:35:28,150 --> 00:35:26,320
are it represents breakaway technology

1011
00:35:30,230 --> 00:35:28,160
it's not it's not a matter of air trash

1012
00:35:31,829 --> 00:35:30,240
yes we have air trash out there and we

1013
00:35:33,829 --> 00:35:31,839

have clutter there's you know there's

1014

00:35:34,950 --> 00:35:33,839

laws that require u.s air domain

1015

00:35:36,150 --> 00:35:34,960

awareness but those laws have been

1016

00:35:37,670 --> 00:35:36,160

around forever i mean they've been

1017

00:35:39,829 --> 00:35:37,680

around for a long long time especially

1018

00:35:41,349 --> 00:35:39,839

after 9 11 there was really an increased

1019

00:35:42,790 --> 00:35:41,359

emphasis on trying to figure out what's

1020

00:35:44,870 --> 00:35:42,800

in our airspace

1021

00:35:47,109 --> 00:35:44,880

but don't lump don't make the mistake of

1022

00:35:49,270 --> 00:35:47,119

lumping uap which represents something

1023

00:35:51,829 --> 00:35:49,280

completely different as an air clutter

1024

00:35:53,510 --> 00:35:51,839

issue or an air trash issue that that

1025

00:35:55,510 --> 00:35:53,520

that's a mistake and so

1026
00:35:57,670 --> 00:35:55,520
you know trying to have that discussion

1027
00:35:59,349 --> 00:35:57,680
with with bureaucrats who don't they

1028
00:36:00,870 --> 00:35:59,359
just don't get it right and they just

1029
00:36:02,230 --> 00:36:00,880
they want this monkey off their back and

1030
00:36:03,990 --> 00:36:02,240
they want to answer

1031
00:36:06,710 --> 00:36:04,000
answer congress and scratch that it's

1032
00:36:08,630 --> 00:36:06,720
they can move on to do other things

1033
00:36:10,310 --> 00:36:08,640
that's that's not gonna happen

1034
00:36:11,990 --> 00:36:10,320
and and i i you know i don't know how to

1035
00:36:15,190 --> 00:36:12,000
tell people politely who are still in

1036
00:36:16,150 --> 00:36:15,200
these positions of power and influence

1037
00:36:19,750 --> 00:36:16,160
but

1038
00:36:21,670 --> 00:36:19,760

you're not meeting the intent of

1039

00:36:24,230 --> 00:36:21,680

congress if you think that you're going

1040

00:36:27,589 --> 00:36:24,240

to wrap this up as air clutter issue

1041

00:36:28,950 --> 00:36:27,599

uh or space junk then um you know you

1042

00:36:30,390 --> 00:36:28,960

you you probably need to start looking

1043

00:36:32,630 --> 00:36:30,400

for another job at some point because

1044

00:36:34,310 --> 00:36:32,640

that's that's not the intent of congress

1045

00:36:35,829 --> 00:36:34,320

and and it's um

1046

00:36:38,870 --> 00:36:35,839

it's not the intent of the american

1047

00:36:40,870 --> 00:36:38,880

people certainly and so um that's you

1048

00:36:43,030 --> 00:36:40,880

know that's that's one of the concerns i

1049

00:36:45,430 --> 00:36:43,040

have right now and and making sure that

1050

00:36:46,870 --> 00:36:45,440

people remain informed and educated

1051

00:36:49,349 --> 00:36:46,880

about this topic

1052

00:36:51,349 --> 00:36:49,359

um you know it's complex and people want

1053

00:36:53,349 --> 00:36:51,359

to know and you know the ufo hobbyist

1054

00:36:55,750 --> 00:36:53,359

out there you know doesn't really

1055

00:36:57,750 --> 00:36:55,760

necessarily appreciate all the nuances

1056

00:36:59,270 --> 00:36:57,760

what's going on right now i mean this is

1057

00:37:01,190 --> 00:36:59,280

this is we're still in a fight we're

1058

00:37:02,950 --> 00:37:01,200

still in a battle we we won a

1059

00:37:05,510 --> 00:37:02,960

significant battle but the war is not

1060

00:37:06,390 --> 00:37:05,520

over uh regarding transparency in this

1061

00:37:09,589 --> 00:37:06,400

topic

1062

00:37:11,990 --> 00:37:09,599

it's it's hard fought every single day

1063

00:37:13,750 --> 00:37:12,000

we are engaged in trying to get this

1064

00:37:15,430 --> 00:37:13,760

topic elevated

1065

00:37:17,270 --> 00:37:15,440

where it needs to be elevated and having

1066

00:37:18,870 --> 00:37:17,280

the intent of congress met because

1067

00:37:20,550 --> 00:37:18,880

ultimately the intent of congress is the

1068

00:37:21,990 --> 00:37:20,560

intent of the american people they work

1069

00:37:24,630 --> 00:37:22,000

for their constituents their

1070

00:37:25,670 --> 00:37:24,640

constituents have spoken we want this

1071

00:37:28,310 --> 00:37:25,680

addressed

1072

00:37:29,670 --> 00:37:28,320

so so anybody who is in the executive

1073

00:37:32,230 --> 00:37:29,680

branch who thinks that you know

1074

00:37:34,150 --> 00:37:32,240

addressing this as just you know

1075

00:37:35,990 --> 00:37:34,160

air clutter and air trash you're not

1076

00:37:38,310 --> 00:37:36,000

you're not meeting the will and the

1077

00:37:39,589 --> 00:37:38,320

intent of the american people ultimately

1078

00:37:41,589 --> 00:37:39,599

and and that's a problem because your

1079

00:37:43,109 --> 00:37:41,599

job is to serve the american people you

1080

00:37:43,829 --> 00:37:43,119

know and so that's why i say look you

1081

00:37:47,589 --> 00:37:43,839

know

1082

00:37:50,630 --> 00:37:47,599

i i'm trying to be polite but but

1083

00:37:52,390 --> 00:37:50,640

you don't want to make that mistake

1084

00:37:54,230 --> 00:37:52,400

please look look at look at what's just

1085

00:37:55,510 --> 00:37:54,240

happened you know if you you're not

1086

00:37:57,109 --> 00:37:55,520

servicing the intent of the american

1087

00:37:58,630 --> 00:37:57,119

people then then

1088

00:38:00,950 --> 00:37:58,640

chances are you're not going to last

1089

00:38:03,270 --> 00:38:00,960

very long in the government because

1090

00:38:04,630 --> 00:38:03,280

people are now wise to this topic

1091

00:38:06,470 --> 00:38:04,640

and i'm not going to get let you get

1092

00:38:08,069 --> 00:38:06,480

away with just obfuscation

1093

00:38:09,750 --> 00:38:08,079

that's that's not going to occur

1094

00:38:11,750 --> 00:38:09,760

certainly not why

1095

00:38:13,510 --> 00:38:11,760

while people like me and chris mellon

1096

00:38:15,829 --> 00:38:13,520

are alive that's

1097

00:38:18,470 --> 00:38:15,839

we we have no problem uh

1098

00:38:20,710 --> 00:38:18,480

there's a vernacular calling i guess in

1099

00:38:22,790 --> 00:38:20,720

cards calling the spade spade right uh

1100

00:38:24,069 --> 00:38:22,800

in in in cards

1101

00:38:25,829 --> 00:38:24,079

um

1102

00:38:28,550 --> 00:38:25,839

we have no problem doing that

1103

00:38:29,750 --> 00:38:28,560

it's it's um i have no problem

1104

00:38:31,030 --> 00:38:29,760

addressing

1105

00:38:33,190 --> 00:38:31,040

um

1106

00:38:37,109 --> 00:38:33,200

malfeasance uh i have no problem

1107

00:38:37,990 --> 00:38:37,119

addressing uh ineptitude and corruptness

1108

00:38:40,150 --> 00:38:38,000

uh

1109

00:38:42,310 --> 00:38:40,160

i'm not i'm not i'm not at all

1110

00:38:44,069 --> 00:38:42,320

opposed to uh calling people out on that

1111

00:38:46,150 --> 00:38:44,079

on on national tv

1112

00:38:48,310 --> 00:38:46,160

in the media because ultimately we have

1113

00:38:50,710 --> 00:38:48,320

to hold these people accountable their

1114

00:38:51,990 --> 00:38:50,720

job is to to to

1115

00:38:54,870 --> 00:38:52,000

in essence

1116

00:38:57,109 --> 00:38:54,880

um represent the will of the people

1117

00:38:57,990 --> 00:38:57,119

and and to execute the will of the

1118

00:39:00,950 --> 00:38:58,000

people

1119

00:39:02,950 --> 00:39:00,960

and uh if they don't do that then you

1120

00:39:05,910 --> 00:39:02,960

know again probably better better better

1121

00:39:07,750 --> 00:39:05,920

off finding another job

1122

00:39:09,430 --> 00:39:07,760

many of those people you talk about who

1123

00:39:11,910 --> 00:39:09,440

have an interest in the subject are

1124

00:39:14,550 --> 00:39:11,920

eagerly awaiting the the next video to

1125

00:39:16,150 --> 00:39:14,560

hopefully be declassified or leaked or

1126

00:39:18,310 --> 00:39:16,160

dropped someone to

1127

00:39:19,910 --> 00:39:18,320

show us the famous photographs that you

1128

00:39:21,829 --> 00:39:19,920

know black triangles whatever they may

1129

00:39:24,550 --> 00:39:21,839

be whether they really exist or not

1130

00:39:27,270 --> 00:39:24,560

something that is coming as your book

1131

00:39:29,910 --> 00:39:27,280

and uh is that finished yet

1132

00:39:31,349 --> 00:39:29,920

i am i am working very diligently on it

1133

00:39:33,829 --> 00:39:31,359

um

1134

00:39:35,990 --> 00:39:33,839

i'm definitely progressing quite well

1135

00:39:37,750 --> 00:39:36,000

with it um i want to be very careful you

1136

00:39:39,910 --> 00:39:37,760

know always manage expectations i'd

1137

00:39:40,710 --> 00:39:39,920

rather under promise and over deliver if

1138

00:39:43,109 --> 00:39:40,720

uh

1139

00:39:45,349 --> 00:39:43,119

if i if i have my choice but i know that

1140

00:39:48,870 --> 00:39:45,359

it is it is coming along quite well

1141

00:39:51,349 --> 00:39:48,880

uh i'm working on it um

1142

00:39:53,109 --> 00:39:51,359

very diligently and i i think it's going

1143

00:39:56,950 --> 00:39:53,119

to be very uh

1144

00:39:58,550 --> 00:39:56,960

informative when it when it comes out

1145

00:40:01,430 --> 00:39:58,560

is it a book that you want to write or

1146

00:40:03,510 --> 00:40:01,440

is it a book that you need to write

1147

00:40:05,829 --> 00:40:03,520

uh it's a book i need to write

1148

00:40:07,750 --> 00:40:05,839

um no it's it's a lot of work i don't

1149

00:40:09,109 --> 00:40:07,760

want to write the book it needs to be

1150

00:40:10,630 --> 00:40:09,119

written because people need to know the

1151
00:40:11,750 --> 00:40:10,640
truth because once you write that book

1152
00:40:13,270 --> 00:40:11,760
and it's in writing it can never be

1153
00:40:15,829 --> 00:40:13,280
taken away

1154
00:40:17,510 --> 00:40:15,839
and that is you know think of a slide

1155
00:40:19,190 --> 00:40:17,520
rule right

1156
00:40:21,670 --> 00:40:19,200
you know

1157
00:40:23,510 --> 00:40:21,680
i want to make a point

1158
00:40:25,109 --> 00:40:23,520
using this book where we can never go

1159
00:40:26,790 --> 00:40:25,119
backwards in time

1160
00:40:27,910 --> 00:40:26,800
you'll never be able you might slow

1161
00:40:30,390 --> 00:40:27,920
progress

1162
00:40:32,309 --> 00:40:30,400
uh if you are uh you know in charge of

1163
00:40:33,990 --> 00:40:32,319

this effort but you'll never be able to

1164

00:40:35,510 --> 00:40:34,000

put it back the genie back in the bottle

1165

00:40:36,630 --> 00:40:35,520

because the book will be definitive and

1166

00:40:39,430 --> 00:40:36,640

it's going to say

1167

00:40:41,109 --> 00:40:39,440

this is what happened and this is what's

1168

00:40:42,790 --> 00:40:41,119

happening and these are the facts and

1169

00:40:46,550 --> 00:40:42,800

then at that point

1170

00:40:49,109 --> 00:40:46,560

you know people can use that as as

1171

00:40:51,990 --> 00:40:49,119

hopefully a a new starting point for

1172

00:40:54,069 --> 00:40:52,000

this conversation

1173

00:40:55,109 --> 00:40:54,079

what's been the hardest part of writing

1174

00:40:56,230 --> 00:40:55,119

the book

1175

00:40:57,829 --> 00:40:56,240

wow

1176

00:40:58,710 --> 00:40:57,839

uh you know you can only put so much in

1177

00:40:59,589 --> 00:40:58,720

a book

1178

00:41:02,069 --> 00:40:59,599

yeah

1179

00:41:04,069 --> 00:41:02,079

um you can only put you know 300 show

1180

00:41:06,950 --> 00:41:04,079

pages i mean i i could put a thousand

1181

00:41:08,230 --> 00:41:06,960

pages 2 000 pages in this so it's the

1182

00:41:09,990 --> 00:41:08,240

hardest part is probably figuring out

1183

00:41:11,349 --> 00:41:10,000

what what you have to leave out but you

1184

00:41:13,270 --> 00:41:11,359

have to cut out

1185

00:41:15,430 --> 00:41:13,280

um just because there's so much

1186

00:41:17,750 --> 00:41:15,440

information that that's available this

1187

00:41:19,510 --> 00:41:17,760

is this is still i mean this this is

1188

00:41:21,190 --> 00:41:19,520

still the book's writing itself right

1189

00:41:23,030 --> 00:41:21,200

now i mean it's it's still evolving

1190

00:41:24,309 --> 00:41:23,040

right because every day there's new

1191

00:41:25,349 --> 00:41:24,319

information and new things that are

1192

00:41:27,750 --> 00:41:25,359

happening

1193

00:41:29,430 --> 00:41:27,760

um that that you know have to be in the

1194

00:41:30,870 --> 00:41:29,440

book and i guess you know the biggest

1195

00:41:33,030 --> 00:41:30,880

concern is i had the book and all of a

1196

00:41:34,870 --> 00:41:33,040

sudden it comes out but you know during

1197

00:41:36,069 --> 00:41:34,880

that time it's being published there's

1198

00:41:38,230 --> 00:41:36,079

more information that really should be

1199

00:41:39,510 --> 00:41:38,240

in the book so

1200

00:41:40,950 --> 00:41:39,520

it's kind of uh

1201

00:41:43,030 --> 00:41:40,960

you know um

1202

00:41:45,030 --> 00:41:43,040

it's a bit of a frustration because it's

1203

00:41:45,910 --> 00:41:45,040

it's this topic is evolving so quickly

1204

00:41:48,550 --> 00:41:45,920

now

1205

00:41:50,069 --> 00:41:48,560

that uh it's it's it's it's it's almost

1206

00:41:52,069 --> 00:41:50,079

impossible to make the determination

1207

00:41:53,750 --> 00:41:52,079

okay what you know do i put this in and

1208

00:41:55,670 --> 00:41:53,760

leave this out or do i put

1209

00:41:56,790 --> 00:41:55,680

that in and leave this out right and

1210

00:41:58,069 --> 00:41:56,800

it's uh

1211

00:42:04,150 --> 00:41:58,079

it's

1212

00:42:05,670 --> 00:42:04,160

for the discussion

1213

00:42:07,349 --> 00:42:05,680

the things that you do leave out are

1214

00:42:09,750 --> 00:42:07,359

what people like me will ask you when

1215

00:42:11,990 --> 00:42:09,760

you come to talk about the work on shows

1216

00:42:15,270 --> 00:42:12,000

in the future um one of those shows that

1217

00:42:17,670 --> 00:42:15,280

people ask about is joe rogan now

1218

00:42:19,270 --> 00:42:17,680

chris mellon has been on joe rogan dave

1219

00:42:20,230 --> 00:42:19,280

fraver has been on joe rogan george

1220

00:42:23,349 --> 00:42:20,240

knapp

1221

00:42:24,870 --> 00:42:23,359

you as of yet are still uh conspicuous

1222

00:42:26,870 --> 00:42:24,880

by your absence

1223

00:42:28,470 --> 00:42:26,880

has that been something that has been

1224

00:42:30,870 --> 00:42:28,480

planned and never happened or is it

1225

00:42:32,309 --> 00:42:30,880

something that's in the future for you

1226

00:42:34,230 --> 00:42:32,319

i don't think about it

1227

00:42:36,950 --> 00:42:34,240

um you know i'm not i'm not a hollywood

1228

00:42:39,510 --> 00:42:36,960

guy i'm not i'm not a i'm not somebody

1229

00:42:41,750 --> 00:42:39,520

that seeks attention uh or wants to be

1230

00:42:43,190 --> 00:42:41,760

seen every time i'm on mainstream media

1231

00:42:45,109 --> 00:42:43,200

because they ask me to be on it i don't

1232

00:42:46,790 --> 00:42:45,119

go out and say hey put me on tv you know

1233

00:42:48,870 --> 00:42:46,800

i'm not that guy

1234

00:42:51,109 --> 00:42:48,880

um i really frankly don't give a damn if

1235

00:42:52,150 --> 00:42:51,119

i'm on someone's podcast or not um to me

1236

00:42:54,390 --> 00:42:52,160

it's not a

1237

00:42:55,750 --> 00:42:54,400

uh you know i know exactly who i am i

1238

00:42:58,470 --> 00:42:55,760

don't need that validation or

1239

00:43:00,309 --> 00:42:58,480

vindication to be on any team i've

1240

00:43:01,670 --> 00:43:00,319

always been lou elizondo no he will be

1241

00:43:03,910 --> 00:43:01,680

louis

1242

00:43:05,910 --> 00:43:03,920

um i don't think about it

1243

00:43:08,150 --> 00:43:05,920

to my knowledge joe rogan hasn't asked

1244

00:43:10,230 --> 00:43:08,160

me and frankly i haven't reached out to

1245

00:43:11,910 --> 00:43:10,240

him and asked him

1246

00:43:13,190 --> 00:43:11,920

i figure if he wants me on the show

1247

00:43:15,750 --> 00:43:13,200

he'll ask me

1248

00:43:17,910 --> 00:43:15,760

and i'll consider it um but i don't need

1249

00:43:19,670 --> 00:43:17,920

to be on anybody's show for example i'm

1250

00:43:21,349 --> 00:43:19,680

doing this with you you know i'm doing

1251

00:43:23,750 --> 00:43:21,359

this because you asked me i didn't come

1252

00:43:25,270 --> 00:43:23,760

out to ask you can i be on your podcast

1253

00:43:26,390 --> 00:43:25,280

and i don't give a name if you have one

1254

00:43:28,550 --> 00:43:26,400

follower or

1255

00:43:30,309 --> 00:43:28,560

one billion followers you know if you

1256

00:43:32,550 --> 00:43:30,319

ask me to be on your program and you're

1257

00:43:34,950 --> 00:43:32,560

a decent dial i'm happy to do it you

1258

00:43:36,309 --> 00:43:34,960

know you're a decent person so

1259

00:43:37,990 --> 00:43:36,319

um

1260

00:43:39,510 --> 00:43:38,000

yeah i mean that's

1261

00:43:41,670 --> 00:43:39,520

short and simple he hasn't asked me and

1262

00:43:44,710 --> 00:43:41,680

and frankly i haven't

1263

00:43:46,710 --> 00:43:44,720

i haven't really asked him either

1264

00:43:48,470 --> 00:43:46,720

the benefit for people like myself is i

1265

00:43:51,190 --> 00:43:48,480

get so many listeners tell me that they

1266

00:43:52,950 --> 00:43:51,200

found me because they saw you or dave

1267

00:43:55,670 --> 00:43:52,960

fravor or another or any of those of

1268

00:43:58,150 --> 00:43:55,680

those people who speak on ufos on you

1269

00:44:00,470 --> 00:43:58,160

know joe rogan's podcast or kojai mango

1270

00:44:03,349 --> 00:44:00,480

theory of everything or brian keating

1271

00:44:05,589 --> 00:44:03,359

had tom delong on his podcast and they

1272

00:44:07,349 --> 00:44:05,599

find smaller podcasts like mine and they

1273

00:44:09,829 --> 00:44:07,359

start to explore the subject a lot more

1274

00:44:11,270 --> 00:44:09,839

so for a podcast like joe rogan there's

1275

00:44:13,430 --> 00:44:11,280

going to be millions of people who of

1276

00:44:15,190 --> 00:44:13,440

course they know about ufos but there's

1277

00:44:17,670 --> 00:44:15,200

no real interest there and someone like

1278

00:44:20,309 --> 00:44:17,680

you and potentially the book could be a

1279

00:44:22,069 --> 00:44:20,319

huge spark for that mainstream push and

1280

00:44:23,750 --> 00:44:22,079

that can only help the conversation in

1281

00:44:24,790 --> 00:44:23,760

terms of the the american people for a

1282

00:44:26,790 --> 00:44:24,800

start

1283

00:44:29,430 --> 00:44:26,800

getting this conversation going through

1284

00:44:30,309 --> 00:44:29,440

local constituencies you know from their

1285

00:44:32,630 --> 00:44:30,319

um

1286

00:44:34,230 --> 00:44:32,640

their elected officials and and further

1287

00:44:36,069 --> 00:44:34,240

up the chain wouldn't it

1288

00:44:38,309 --> 00:44:36,079

yeah i don't disagree with you um but

1289

00:44:40,230 --> 00:44:38,319

like i said you know i i don't control

1290

00:44:41,030 --> 00:44:40,240

you know mr rogan's schedule i don't i

1291

00:44:45,430 --> 00:44:41,040

don't

1292

00:44:49,270 --> 00:44:47,750

you know i i

1293

00:44:51,270 --> 00:44:49,280

i think it's pretty obvious i'm pulling

1294

00:44:55,190 --> 00:44:51,280

away from social media

1295

00:44:56,870 --> 00:44:55,200

um it's become a bit of a distraction um

1296

00:44:58,870 --> 00:44:56,880

unfortunately my presence that the

1297

00:45:02,069 --> 00:44:58,880

conversation has shifted more about me

1298

00:45:03,829 --> 00:45:02,079

and less about transparency and ufos

1299

00:45:05,510 --> 00:45:03,839

you know every day people are are

1300

00:45:07,670 --> 00:45:05,520

fighting over literally the choice of

1301

00:45:10,230 --> 00:45:07,680

one word that people use and it's it's

1302

00:45:12,150 --> 00:45:10,240

silly you know and it's it's just

1303

00:45:13,510 --> 00:45:12,160

it takes away because people who really

1304

00:45:14,950 --> 00:45:13,520

want to learn about this topic for the

1305

00:45:16,870 --> 00:45:14,960

first time the first thing they do is

1306

00:45:18,870 --> 00:45:16,880

they they jump on on

1307

00:45:20,950 --> 00:45:18,880

you know the social media maybe ufo

1308

00:45:23,270 --> 00:45:20,960

twitter and and it's it's just a

1309

00:45:24,630 --> 00:45:23,280

cesspool of of of bickering and

1310

00:45:27,109 --> 00:45:24,640

infighting over

1311

00:45:30,150 --> 00:45:27,119

stupid stuff you know and

1312

00:45:31,750 --> 00:45:30,160

and unfortunately it inadvertently i may

1313

00:45:32,710 --> 00:45:31,760

be part of the cause of that because

1314

00:45:34,630 --> 00:45:32,720

people

1315

00:45:36,150 --> 00:45:34,640

focus on me rather than the message

1316

00:45:37,349 --> 00:45:36,160

they're focused on the messenger and not

1317

00:45:39,190 --> 00:45:37,359

the message

1318

00:45:41,430 --> 00:45:39,200

and um

1319

00:45:44,309 --> 00:45:41,440

you know i i it's it's problematic and

1320

00:45:46,390 --> 00:45:44,319

that's why you there is a probably a

1321

00:45:49,589 --> 00:45:46,400

very obvious absence

1322

00:45:51,190 --> 00:45:49,599

uh of my presence on on social media i'm

1323

00:45:53,030 --> 00:45:51,200

really trying to do

1324

00:45:54,790 --> 00:45:53,040

to disclosure a favor

1325

00:45:56,870 --> 00:45:54,800

because i see that people are beginning

1326

00:45:59,190 --> 00:45:56,880

to act like like children and they get

1327

00:46:01,829 --> 00:45:59,200

very very petty and they start attacking

1328

00:46:03,430 --> 00:46:01,839

each other and it's uh i i don't have

1329

00:46:06,230 --> 00:46:03,440

the time for it and the topic's too

1330

00:46:07,990 --> 00:46:06,240

important really to to to to get

1331

00:46:10,230 --> 00:46:08,000

yourself involved in that you know

1332

00:46:12,710 --> 00:46:10,240

tempest in a teapot

1333

00:46:15,270 --> 00:46:12,720

um the topic deserves

1334

00:46:17,589 --> 00:46:15,280

much more respect than that and so

1335

00:46:19,670 --> 00:46:17,599

um joe rogan if he were again going back

1336

00:46:21,910 --> 00:46:19,680

to the question would i do it

1337

00:46:23,670 --> 00:46:21,920

i don't know i i'd have to see you know

1338

00:46:24,790 --> 00:46:23,680

his content i don't i don't listen to

1339

00:46:27,349 --> 00:46:24,800

joe rogan

1340

00:46:29,670 --> 00:46:27,359

um it is a way to have the conversation

1341

00:46:30,870 --> 00:46:29,680

and and have a fair conversation if

1342

00:46:32,309 --> 00:46:30,880

people are interested in the topic then

1343

00:46:34,550 --> 00:46:32,319

yeah i'd probably do it

1344

00:46:36,150 --> 00:46:34,560

but if it's to go there and you know do

1345

00:46:37,829 --> 00:46:36,160

something like that you know like the

1346

00:46:38,950 --> 00:46:37,839

old jerry springer show and just you

1347

00:46:41,670 --> 00:46:38,960

know

1348

00:46:44,630 --> 00:46:41,680

sensationalism and salaciousness i'm not

1349

00:46:46,390 --> 00:46:44,640

interested in doing that

1350

00:46:48,150 --> 00:46:46,400

i'll just add to the the social media

1351

00:46:49,750 --> 00:46:48,160

side of things i understand that i think

1352

00:46:51,990 --> 00:46:49,760

the other day i saw someone comment lou

1353

00:46:53,670 --> 00:46:52,000

you'd shared an anecdote which no doubt

1354

00:46:55,750 --> 00:46:53,680

you've shared similar anecdotes many

1355

00:46:57,430 --> 00:46:55,760

times and within the anecdote the name

1356

00:46:59,430 --> 00:46:57,440

of a football team i think it was

1357

00:47:01,190 --> 00:46:59,440

changed and that's what someone argued

1358

00:47:02,790 --> 00:47:01,200

about and picked up on that you were

1359

00:47:04,630 --> 00:47:02,800

clearly lying because the name of the

1360

00:47:06,309 --> 00:47:04,640

team had changed and it was like that's

1361

00:47:08,630 --> 00:47:06,319

that's not the point that the sentence

1362

00:47:10,150 --> 00:47:08,640

to be focusing on but it's one of those

1363

00:47:11,829 --> 00:47:10,160

that people won't know what they've got

1364

00:47:13,910 --> 00:47:11,839

until it's gone which generally happens

1365

00:47:16,630 --> 00:47:13,920

and not only yourself but other other

1366

00:47:18,150 --> 00:47:16,640

social media yeah no it's it's it's it's

1367

00:47:19,750 --> 00:47:18,160

a silly right because you say might be

1368

00:47:22,790 --> 00:47:19,760

dolphins versus buying hurricanes you

1369

00:47:25,589 --> 00:47:22,800

know it's just it's so it's so dumb

1370

00:47:27,990 --> 00:47:25,599

and it's um it's it's a distraction from

1371

00:47:29,190 --> 00:47:28,000

from the real conversation and

1372

00:47:30,870 --> 00:47:29,200

people don't people don't understand

1373

00:47:32,150 --> 00:47:30,880

they just don't get it you know they

1374

00:47:33,430 --> 00:47:32,160

also will

1375

00:47:35,829 --> 00:47:33,440

point out well

1376

00:47:37,510 --> 00:47:35,839

you know lou said this but foyer didn't

1377

00:47:39,750 --> 00:47:37,520

you know prove that there's no there's

1378

00:47:41,349 --> 00:47:39,760

no foia documentation

1379

00:47:43,030 --> 00:47:41,359

foyer isn't king

1380

00:47:44,549 --> 00:47:43,040

you might have a king of foia but the

1381

00:47:46,069 --> 00:47:44,559

foia isn't king

1382

00:47:48,069 --> 00:47:46,079

uh there's a lot that happens that's

1383

00:47:50,390 --> 00:47:48,079

that's done verbally this entire podcast

1384

00:47:52,710 --> 00:47:50,400

you know you can't point it

1385

00:47:54,950 --> 00:47:52,720

we're having a conversation where a lot

1386

00:47:56,309 --> 00:47:54,960

of information is exchanged and that's

1387

00:47:57,670 --> 00:47:56,319

true inside the government and just

1388

00:48:01,349 --> 00:47:57,680

people

1389

00:48:02,710 --> 00:48:01,359

and it's again it's i think it's a

1390

00:48:05,190 --> 00:48:02,720

distraction

1391

00:48:07,750 --> 00:48:05,200

we're not doing the cause any favors and

1392

00:48:11,829 --> 00:48:07,760

people who come in fresh they see this

1393

00:48:12,710 --> 00:48:11,839

and it's it's just a mosh pit of of egos

1394

00:48:18,069 --> 00:48:12,720

and

1395

00:48:19,829 --> 00:48:18,079

petty little money-making enterprises

1396

00:48:21,910 --> 00:48:19,839

and want to control the narrative i mean

1397

00:48:23,829 --> 00:48:21,920

it's just it's just silly and so uh

1398

00:48:25,510 --> 00:48:23,839

let's let's elevate this conversation to

1399

00:48:27,670 --> 00:48:25,520

where it belongs where it deserves put

1400

00:48:29,829 --> 00:48:27,680

it on the pedestal where and just take

1401

00:48:32,230 --> 00:48:29,839

it out of the the muddy ditch

1402

00:48:34,790 --> 00:48:32,240

that it keeps finding itself in

1403

00:48:36,230 --> 00:48:34,800

and um so that's that's

1404

00:48:37,910 --> 00:48:36,240

yeah that's that's my perspective

1405

00:48:39,430 --> 00:48:37,920

anyways

1406

00:48:41,190 --> 00:48:39,440

no that's fair and amongst those

1407

00:48:42,630 --> 00:48:41,200

dissenting voices and the drama and the

1408

00:48:44,549 --> 00:48:42,640

infighting there's a lot of great people

1409

00:48:46,870 --> 00:48:44,559

and it's nice to speak to those and i

1410

00:48:49,349 --> 00:48:46,880

can see your point i think within the to

1411

00:48:51,750 --> 00:48:49,359

move on the conversation with us here

1412

00:48:54,309 --> 00:48:51,760

some of the the down period or quiet

1413

00:48:56,950 --> 00:48:54,319

period causes folk to need to make that

1414

00:48:59,270 --> 00:48:56,960

drama and in the build up to the uap

1415

00:49:01,109 --> 00:48:59,280

task force report we had an excitement

1416

00:49:03,030 --> 00:49:01,119

and a building of momentum uh the

1417

00:49:05,030 --> 00:49:03,040

mainstream media coverage was picking up

1418

00:49:07,270 --> 00:49:05,040

that was led from the front by people

1419

00:49:09,589 --> 00:49:07,280

like yourself sean cahill chris mellon

1420

00:49:12,790 --> 00:49:09,599

and others appearing on shows around the

1421

00:49:15,430 --> 00:49:12,800

world that certainly peaked as 2021 drew

1422

00:49:17,190 --> 00:49:15,440

to a close as the report came and you

1423

00:49:19,589 --> 00:49:17,200

know things were implemented in the

1424

00:49:22,309 --> 00:49:19,599

background and then went quiet

1425

00:49:23,990 --> 00:49:22,319

when do you see that potential next wave

1426

00:49:26,950 --> 00:49:24,000

beginning to happen again or is it

1427

00:49:29,670 --> 00:49:26,960

underway it's underway um look you know

1428

00:49:32,230 --> 00:49:29,680

the problem is that we as a society

1429

00:49:35,030 --> 00:49:32,240

have become so hooked on instant

1430

00:49:37,670 --> 00:49:35,040

gratification and that that that sean

1431

00:49:40,230 --> 00:49:37,680

likes to say that dopamine hit right

1432

00:49:42,549 --> 00:49:40,240

that we are now at the point where we

1433

00:49:43,990 --> 00:49:42,559

can do within a punch of a button i can

1434

00:49:45,510 --> 00:49:44,000

shop online i can get something

1435

00:49:46,950 --> 00:49:45,520

delivered to my house i can get food

1436

00:49:48,870 --> 00:49:46,960

delivered to my house i can you know

1437

00:49:50,710 --> 00:49:48,880

it's as some of the advertisements for

1438

00:49:52,710 --> 00:49:50,720

fast food companies have it your way and

1439

00:49:54,710 --> 00:49:52,720

have it now right

1440

00:49:56,790 --> 00:49:54,720

we we've we've become so

1441

00:49:57,589 --> 00:49:56,800

accustomed to that that

1442

00:49:59,510 --> 00:49:57,599

that

1443

00:50:00,870 --> 00:49:59,520

and information is really at the tip of

1444

00:50:03,349 --> 00:50:00,880

our hands i need anything you want to do

1445

00:50:05,589 --> 00:50:03,359

is jump online and like you know get

1446

00:50:07,750 --> 00:50:05,599

answers that i need i can pull a youtube

1447

00:50:09,910 --> 00:50:07,760

video on how to do something um

1448

00:50:12,150 --> 00:50:09,920

instantly and the problem is this topic

1449

00:50:14,470 --> 00:50:12,160

is not an there's no instant solution

1450

00:50:17,349 --> 00:50:14,480

there's no instant answer and so

1451
00:50:19,030 --> 00:50:17,359
so people get get impatient with that

1452
00:50:20,790 --> 00:50:19,040
and with that impatience they get

1453
00:50:21,990 --> 00:50:20,800
frustrated with that frustration if you

1454
00:50:23,750 --> 00:50:22,000
get angry

1455
00:50:25,190 --> 00:50:23,760
and you know this is why i've told

1456
00:50:27,190 --> 00:50:25,200
people before and i know they don't like

1457
00:50:28,549 --> 00:50:27,200
the advice look if if

1458
00:50:29,829 --> 00:50:28,559
if you find yourself frustrated and

1459
00:50:32,150 --> 00:50:29,839
angry

1460
00:50:33,750 --> 00:50:32,160
maybe tune out for five years and check

1461
00:50:35,510 --> 00:50:33,760
back in five years and see where we are

1462
00:50:37,670 --> 00:50:35,520
in the conversation because

1463
00:50:39,030 --> 00:50:37,680

this isn't instant gratification this

1464

00:50:40,309 --> 00:50:39,040

isn't i'm not gonna

1465

00:50:42,230 --> 00:50:40,319

and i'm not gonna tell you what to think

1466

00:50:43,829 --> 00:50:42,240

about it right you turn to the most

1467

00:50:44,870 --> 00:50:43,839

media outlets today not only are they

1468

00:50:46,390 --> 00:50:44,880

gonna tell you the news but they're

1469

00:50:47,589 --> 00:50:46,400

gonna tell you what you should think

1470

00:50:50,150 --> 00:50:47,599

about it because it's mostly a big

1471

00:50:52,150 --> 00:50:50,160

editorial really um most media outlets

1472

00:50:53,109 --> 00:50:52,160

are that way not all but but a lot of

1473

00:50:55,109 --> 00:50:53,119

them are

1474

00:50:57,510 --> 00:50:55,119

and so that's problematic because we

1475

00:50:58,870 --> 00:50:57,520

become so lazy as a society not only do

1476

00:51:00,630 --> 00:50:58,880

we want to know what's going on but we

1477

00:51:02,150 --> 00:51:00,640

also want to be told what to think about

1478

00:51:04,710 --> 00:51:02,160

because we're too lazy to even think for

1479

00:51:06,790 --> 00:51:04,720

ourselves half the time and and that's a

1480

00:51:09,589 --> 00:51:06,800

shame and this topic is so important and

1481

00:51:12,549 --> 00:51:09,599

it's so so so

1482

00:51:13,990 --> 00:51:12,559

revolutionary for our species that that

1483

00:51:15,430 --> 00:51:14,000

it deserves

1484

00:51:18,309 --> 00:51:15,440

time and patience

1485

00:51:21,109 --> 00:51:18,319

it deserves respect it deserves

1486

00:51:22,630 --> 00:51:21,119

to have you know really really smart

1487

00:51:25,670 --> 00:51:22,640

people from around the world and

1488

00:51:28,150 --> 00:51:25,680

academia and science and technology to

1489

00:51:29,990 --> 00:51:28,160

to to look at this problem and it's not

1490

00:51:30,950 --> 00:51:30,000

going to be solved overnight it's just

1491

00:51:32,470 --> 00:51:30,960

not

1492

00:51:33,589 --> 00:51:32,480

and i know that's hard for a lot of

1493

00:51:36,150 --> 00:51:33,599

people because they're like well we've

1494

00:51:38,390 --> 00:51:36,160

already known for 70 years well okay

1495

00:51:40,470 --> 00:51:38,400

we've known some but we don't have the

1496

00:51:42,710 --> 00:51:40,480

answers yet and and

1497

00:51:44,309 --> 00:51:42,720

in that void don't be tempted to start

1498

00:51:46,549 --> 00:51:44,319

speculating and creating your own

1499

00:51:48,230 --> 00:51:46,559

narrative that well you know this must

1500

00:51:50,150 --> 00:51:48,240

be the case and therefore we've had you

1501

00:51:52,230 --> 00:51:50,160

know a treaty alliance with the

1502

00:51:54,390 --> 00:51:52,240

pleiadians and we're fighting the

1503

00:51:56,390 --> 00:51:54,400

reptilians and all that nonsense

1504

00:51:58,390 --> 00:51:56,400

it's not helpful to the pawns

1505

00:52:00,630 --> 00:51:58,400

people people have a tendency to fill

1506

00:52:03,430 --> 00:52:00,640

those gaps information gaps

1507

00:52:05,910 --> 00:52:03,440

with speculation and and although it's

1508

00:52:07,990 --> 00:52:05,920

okay to speculate we have to

1509

00:52:10,710 --> 00:52:08,000

we have to be cognizant of the fact that

1510

00:52:13,109 --> 00:52:10,720

speculation is just speculation it's not

1511

00:52:14,710 --> 00:52:13,119

fact and we we confuse our beliefs a lot

1512

00:52:16,710 --> 00:52:14,720

of times with what we think and with

1513

00:52:19,109 --> 00:52:16,720

what we know and and they're not

1514

00:52:23,430 --> 00:52:19,119

necessarily you know they're not

1515

00:52:26,790 --> 00:52:25,349

moving on to the future i've got a

1516

00:52:28,630 --> 00:52:26,800

couple of questions here you've just

1517

00:52:31,109 --> 00:52:28,640

mentioned that the come back in five

1518

00:52:32,950 --> 00:52:31,119

years comment you've made that before

1519

00:52:35,349 --> 00:52:32,960

what could the landscape of this

1520

00:52:36,950 --> 00:52:35,359

conversation look like realistically

1521

00:52:38,790 --> 00:52:36,960

with the progress being made now and

1522

00:52:41,190 --> 00:52:38,800

looking at potential growth or

1523

00:52:42,630 --> 00:52:41,200

accelerated progress what could it look

1524

00:52:44,950 --> 00:52:42,640

like

1525

00:52:46,950 --> 00:52:44,960

wow well

1526

00:52:48,549 --> 00:52:46,960

let me answer that by saying i am

1527

00:52:50,790 --> 00:52:48,559

extremely hopeful for this next

1528

00:52:52,710 --> 00:52:50,800

generation um

1529

00:52:56,230 --> 00:52:52,720

it is this next generation that is going

1530

00:52:57,910 --> 00:52:56,240

to to to inherit this this topic

1531

00:53:01,030 --> 00:52:57,920

and hopefully not make the same mistakes

1532

00:53:02,870 --> 00:53:01,040

my generation made regarding this topic

1533

00:53:05,109 --> 00:53:02,880

i think most of the answers are are

1534

00:53:06,390 --> 00:53:05,119

going to be within the next 20 years

1535

00:53:07,910 --> 00:53:06,400

that a lot of the

1536

00:53:09,670 --> 00:53:07,920

answers we're looking for we may have

1537

00:53:11,190 --> 00:53:09,680

answered the next 20 years and i think

1538

00:53:12,710 --> 00:53:11,200

it's going to be up to this next

1539

00:53:15,270 --> 00:53:12,720

generation

1540

00:53:17,430 --> 00:53:15,280

to solve some of these these these big

1541

00:53:20,230 --> 00:53:17,440

questions um

1542

00:53:21,670 --> 00:53:20,240

i i you know i i think we can

1543

00:53:23,510 --> 00:53:21,680

hopefully

1544

00:53:25,190 --> 00:53:23,520

first of all know what our government

1545

00:53:27,349 --> 00:53:25,200

has known for the last seven years about

1546

00:53:30,150 --> 00:53:27,359

this topic first and foremost before we

1547

00:53:32,470 --> 00:53:30,160

can go move forward we first need to

1548

00:53:34,870 --> 00:53:32,480

to to get a handle on what we already

1549

00:53:36,309 --> 00:53:34,880

know and and that's going to be a very

1550

00:53:37,829 --> 00:53:36,319

difficult task

1551
00:53:39,270 --> 00:53:37,839
because there's a lot of interest in

1552
00:53:40,829 --> 00:53:39,280
equities at stake

1553
00:53:43,270 --> 00:53:40,839
there's there's a lot

1554
00:53:45,430 --> 00:53:43,280
of baggage

1555
00:53:47,430 --> 00:53:45,440
and that baggage needs to be sorted out

1556
00:53:49,750 --> 00:53:47,440
and addressed

1557
00:53:52,069 --> 00:53:49,760
so my hope is that the next 20 years we

1558
00:53:54,470 --> 00:53:52,079
will have i guess in the future right

1559
00:53:56,309 --> 00:53:54,480
that we we know more about the past

1560
00:53:58,950 --> 00:53:56,319
we can have a definitive understanding

1561
00:54:01,270 --> 00:53:58,960
of who was involved in what projects

1562
00:54:03,910 --> 00:54:01,280
and what what insight was gained as a

1563
00:54:05,510 --> 00:54:03,920

result of those efforts

1564

00:54:07,030 --> 00:54:05,520

if we can achieve that in the next 20

1565

00:54:08,870 --> 00:54:07,040

years then i think the following 20

1566

00:54:11,510 --> 00:54:08,880

years after that we can start

1567

00:54:13,510 --> 00:54:11,520

maybe getting answers to some of the big

1568

00:54:15,349 --> 00:54:13,520

questions right that everybody wants to

1569

00:54:17,270 --> 00:54:15,359

know where are they from what are the

1570

00:54:21,270 --> 00:54:17,280

intent what's the intent you know what

1571

00:54:25,109 --> 00:54:22,950

that's that's just me personally

1572

00:54:26,069 --> 00:54:25,119

speaking i could be wrong

1573

00:54:27,990 --> 00:54:26,079

but

1574

00:54:30,390 --> 00:54:28,000

that's that's that's my that's my

1575

00:54:31,750 --> 00:54:30,400

perspective

1576

00:54:33,589 --> 00:54:31,760

i'm going to ask you a question just

1577

00:54:35,109 --> 00:54:33,599

because you mentioned there

1578

00:54:37,670 --> 00:54:35,119

what who could they be where could they

1579

00:54:39,190 --> 00:54:37,680

be from etc and dan might laugh at this

1580

00:54:40,950 --> 00:54:39,200

because i called him when i thought

1581

00:54:44,309 --> 00:54:40,960

about this on the bus home from work the

1582

00:54:46,549 --> 00:54:44,319

other day and i very badly um

1583

00:54:49,430 --> 00:54:46,559

elaborated to him what i wanted to ask

1584

00:54:51,349 --> 00:54:49,440

if we as a species lou discovered the

1585

00:54:53,750 --> 00:54:51,359

technology to travel in different

1586

00:54:56,230 --> 00:54:53,760

dimensions space or time we land upon a

1587

00:54:58,069 --> 00:54:56,240

craft and we can zip in to say a

1588

00:55:00,150 --> 00:54:58,079

different dimension like you've talked

1589

00:55:02,549 --> 00:55:00,160

about before there's potential a shadow

1590

00:55:03,990 --> 00:55:02,559

biome or maybe they're here but not here

1591

00:55:06,069 --> 00:55:04,000

directly

1592

00:55:08,789 --> 00:55:06,079

how would we as a species do you think

1593

00:55:10,870 --> 00:55:08,799

use that technology would we behave in a

1594

00:55:13,030 --> 00:55:10,880

similar way to how these others may be

1595

00:55:14,390 --> 00:55:13,040

behaving

1596

00:55:17,109 --> 00:55:14,400

you know

1597

00:55:20,150 --> 00:55:17,119

mother nature she's she's really clever

1598

00:55:21,510 --> 00:55:20,160

she's had a long time to figure out uh

1599

00:55:23,190 --> 00:55:21,520

biology

1600

00:55:24,789 --> 00:55:23,200

and there may be a reason why we don't

1601
00:55:26,789 --> 00:55:24,799
have the answers yet that we're seeking

1602
00:55:29,109 --> 00:55:26,799
maybe we're just simply as a species not

1603
00:55:30,870 --> 00:55:29,119
ready for it right

1604
00:55:31,990 --> 00:55:30,880
perhaps we're not ready for nuclear

1605
00:55:34,549 --> 00:55:32,000
technology

1606
00:55:37,430 --> 00:55:34,559
look look look of the angst that is

1607
00:55:39,109 --> 00:55:37,440
causing right now in the ukraine and now

1608
00:55:40,069 --> 00:55:39,119
you have you know

1609
00:55:41,910 --> 00:55:40,079
uh

1610
00:55:43,670 --> 00:55:41,920
two countries that are fighting each

1611
00:55:45,670 --> 00:55:43,680
other potentially putting the entire

1612
00:55:47,670 --> 00:55:45,680
world at the brink of war right and

1613
00:55:48,789 --> 00:55:47,680

annihilating all living species on this

1614

00:55:49,589 --> 00:55:48,799

planet

1615

00:55:52,069 --> 00:55:49,599

um

1616

00:55:55,030 --> 00:55:52,079

are we really ready for that technology

1617

00:55:56,630 --> 00:55:55,040

uh as a species um

1618

00:55:58,710 --> 00:55:56,640

i i don't know

1619

00:55:59,829 --> 00:55:58,720

you know are we giving a loaded handgun

1620

00:56:01,270 --> 00:55:59,839

to a child

1621

00:56:03,109 --> 00:56:01,280

if we were to have this type of

1622

00:56:05,349 --> 00:56:03,119

technology

1623

00:56:07,510 --> 00:56:05,359

you know i think some some people

1624

00:56:09,430 --> 00:56:07,520

are probably

1625

00:56:10,789 --> 00:56:09,440

ready for it and could be trusted with

1626
00:56:11,990 --> 00:56:10,799
it but there's a whole lot of people

1627
00:56:13,829 --> 00:56:12,000
that

1628
00:56:15,670 --> 00:56:13,839
i don't think can be you know we have

1629
00:56:17,589 --> 00:56:15,680
rogue nations out there

1630
00:56:19,270 --> 00:56:17,599
all the time and look i'm gonna i'm a

1631
00:56:20,870 --> 00:56:19,280
patriot to my country but i'm gonna tell

1632
00:56:22,470 --> 00:56:20,880
you you know there's only been one

1633
00:56:25,270 --> 00:56:22,480
country so far in the last century

1634
00:56:27,430 --> 00:56:25,280
that's ever used

1635
00:56:29,030 --> 00:56:27,440
an atomic technology against you know

1636
00:56:30,789 --> 00:56:29,040
other human beings that was my country

1637
00:56:32,789 --> 00:56:30,799
in world war ii now arguably it may have

1638
00:56:34,470 --> 00:56:32,799

saved many more lives

1639

00:56:36,630 --> 00:56:34,480

uh but but

1640

00:56:38,710 --> 00:56:36,640

we you know the moment we we discovered

1641

00:56:40,150 --> 00:56:38,720

that technology we use it against our

1642

00:56:41,670 --> 00:56:40,160

fellow man

1643

00:56:43,109 --> 00:56:41,680

and that's that's

1644

00:56:44,789 --> 00:56:43,119

that's problematic because that's human

1645

00:56:46,309 --> 00:56:44,799

nature that's not just an american thing

1646

00:56:48,950 --> 00:56:46,319

it's not just a russian or a chinese

1647

00:56:49,829 --> 00:56:48,960

thing that's that's human nature

1648

00:56:52,230 --> 00:56:49,839

you know

1649

00:56:54,630 --> 00:56:52,240

you give one monkey uh

1650

00:56:56,870 --> 00:56:54,640

a stone and you give another monkey a

1651
00:56:58,230 --> 00:56:56,880
club well guess what they're gonna use

1652
00:57:00,549 --> 00:56:58,240
it against each other because that's

1653
00:57:03,349 --> 00:57:00,559
that's what we do you know species tend

1654
00:57:05,589 --> 00:57:03,359
to be violent uh unfortunately because

1655
00:57:07,829 --> 00:57:05,599
it's part of our evolution for survival

1656
00:57:10,710 --> 00:57:07,839
and the competition for resources it's

1657
00:57:11,910 --> 00:57:10,720
it's innate it's it's part of our our

1658
00:57:13,510 --> 00:57:11,920
dna

1659
00:57:15,829 --> 00:57:13,520
plants even do it they compete for

1660
00:57:18,549 --> 00:57:15,839
resources humans do it every animal on

1661
00:57:21,349 --> 00:57:18,559
this planet it's almost uh an unwritten

1662
00:57:23,990 --> 00:57:21,359
rule of survival right

1663
00:57:27,349 --> 00:57:24,000

so are we prepared for some sort of

1664

00:57:31,430 --> 00:57:27,359

technology that now we can export

1665

00:57:33,750 --> 00:57:31,440

uh our our tendencies um

1666

00:57:35,589 --> 00:57:33,760

perhaps across the cosmos

1667

00:57:38,069 --> 00:57:35,599

you know would it would that even be

1668

00:57:40,549 --> 00:57:38,079

wise knowing how we how we behave with

1669

00:57:42,069 --> 00:57:40,559

each other are we really prepared to be

1670

00:57:44,549 --> 00:57:42,079

part of any if there is some sort of

1671

00:57:47,670 --> 00:57:44,559

cosmic community so to speak are we

1672

00:57:49,750 --> 00:57:47,680

really even prepared to to to interact

1673

00:57:50,789 --> 00:57:49,760

with that um

1674

00:57:53,910 --> 00:57:50,799

you know

1675

00:57:56,150 --> 00:57:53,920

i i'm not so sure that we are but i do

1676

00:57:58,069 --> 00:57:56,160

also think that the truth is important i

1677

00:58:00,549 --> 00:57:58,079

think we must tell the truth i think our

1678

00:58:02,789 --> 00:58:00,559

species is prepared for the reality that

1679

00:58:04,549 --> 00:58:02,799

we're not alone now i'm not saying we're

1680

00:58:06,470 --> 00:58:04,559

necessarily prepared to

1681

00:58:07,990 --> 00:58:06,480

to go out there and engage

1682

00:58:11,349 --> 00:58:08,000

but but the mere fact that we're not

1683

00:58:13,670 --> 00:58:11,359

alone is i think it's it's that's not a

1684

00:58:16,230 --> 00:58:13,680

a fact that should be classified or kept

1685

00:58:17,109 --> 00:58:16,240

secret from from from from citizens of

1686

00:58:19,270 --> 00:58:17,119

the world

1687

00:58:21,589 --> 00:58:19,280

i also think it might help us

1688

00:58:23,190 --> 00:58:21,599

maybe just maybe treat each other a

1689

00:58:25,670 --> 00:58:23,200

little better if we know that there's

1690

00:58:28,150 --> 00:58:25,680

something bigger out there something

1691

00:58:29,270 --> 00:58:28,160

something that is is now touchable if

1692

00:58:31,829 --> 00:58:29,280

you will

1693

00:58:33,510 --> 00:58:31,839

um you know can we learn from that can

1694

00:58:35,349 --> 00:58:33,520

can we learn the fact that hey you know

1695

00:58:36,950 --> 00:58:35,359

we don't have to destroy ourselves to

1696

00:58:38,630 --> 00:58:36,960

evolve we don't have to

1697

00:58:40,470 --> 00:58:38,640

beat each other up with a club or a

1698

00:58:42,390 --> 00:58:40,480

stone you know we can work together and

1699

00:58:43,030 --> 00:58:42,400

maybe use a club in the stone as a tool

1700

00:58:45,430 --> 00:58:43,040

and

1701

00:58:50,870 --> 00:58:45,440

to the benefit of the of you know of of

1702

00:58:55,270 --> 00:58:52,390

let me ask just to follow that on

1703

00:58:56,549 --> 00:58:55,280

slightly and hopefully i want this this

1704

00:58:58,870 --> 00:58:56,559

appropriately

1705

00:59:00,549 --> 00:58:58,880

say a group of responsible individuals

1706

00:59:02,309 --> 00:59:00,559

i'm going to say yourself and

1707

00:59:04,549 --> 00:59:02,319

christopher mellon are giving this

1708

00:59:05,589 --> 00:59:04,559

technology okay

1709

00:59:07,750 --> 00:59:05,599

would you

1710

00:59:10,069 --> 00:59:07,760

behave the same way

1711

00:59:11,910 --> 00:59:10,079

observing another intelligent species on

1712

00:59:13,910 --> 00:59:11,920

their planet would you stay at a great

1713

00:59:16,150 --> 00:59:13,920

height would you observe their navy from

1714

00:59:17,829 --> 00:59:16,160

a distance you know

1715

00:59:19,270 --> 00:59:17,839

do you appreciate how these objects

1716

00:59:21,109 --> 00:59:19,280

appear to behave and do you think we

1717

00:59:23,589 --> 00:59:21,119

would do exactly the same

1718

00:59:25,990 --> 00:59:23,599

well we we do now don't we when we when

1719

00:59:28,150 --> 00:59:26,000

we fly over the the serengeti in africa

1720

00:59:30,630 --> 00:59:28,160

with the helicopter looking at the the

1721

00:59:33,109 --> 00:59:30,640

migratory patterns of wildebeest right

1722

00:59:34,630 --> 00:59:33,119

we stay a safe distance we we fly over

1723

00:59:36,710 --> 00:59:34,640

the herd probably scare the hell out of

1724

00:59:39,109 --> 00:59:36,720

them when we're flying sometimes we may

1725

00:59:41,109 --> 00:59:39,119

decide to dart one and pull some blood

1726

00:59:44,069 --> 00:59:41,119

samples to to see you know the health of

1727

00:59:47,829 --> 00:59:44,079

the herd and whatnot the reproductive

1728

00:59:49,750 --> 00:59:47,839

uh health and and then uh you know we we

1729

00:59:51,589 --> 00:59:49,760

fly away and of course the wildebeest

1730

00:59:53,030 --> 00:59:51,599

wakes up you know a couple hours later

1731

00:59:55,109 --> 00:59:53,040

with you know a sore button like what

1732

00:59:56,150 --> 00:59:55,119

the hell was that

1733

00:59:58,789 --> 00:59:56,160

um

1734

01:00:01,589 --> 00:59:58,799

we we do that now we do it in the deep

1735

01:00:03,750 --> 01:00:01,599

oceans uh we that's that's kind of the

1736

01:00:04,789 --> 01:00:03,760

what what science does isn't it we

1737

01:00:07,349 --> 01:00:04,799

observe

1738

01:00:09,270 --> 01:00:07,359

science is the art of observation

1739

01:00:11,190 --> 01:00:09,280

uh and and understanding and in order to

1740

01:00:13,270 --> 01:00:11,200

understand you have to observe and i

1741

01:00:15,030 --> 01:00:13,280

think that's precisely probably what

1742

01:00:16,710 --> 01:00:15,040

what we would do anyways whether whether

1743

01:00:19,190 --> 01:00:16,720

it's me or chris or not

1744

01:00:21,030 --> 01:00:19,200

i think we would do that as a species uh

1745

01:00:22,710 --> 01:00:21,040

we would we would

1746

01:00:25,349 --> 01:00:22,720

continue doing what we do now with our

1747

01:00:28,390 --> 01:00:25,359

own with even our own species right

1748

01:00:32,710 --> 01:00:31,030

you mentioned that 20 years time future

1749

01:00:34,309 --> 01:00:32,720

generations may benefit from the

1750

01:00:36,309 --> 01:00:34,319

questions and the progress that's hap

1751
01:00:37,829 --> 01:00:36,319
that are happening now one of the tools

1752
01:00:39,670 --> 01:00:37,839
that we'll have in just a few months is

1753
01:00:42,069 --> 01:00:39,680
the james webb telescope which will be

1754
01:00:44,230 --> 01:00:42,079
up and running at full functionality how

1755
01:00:46,150 --> 01:00:44,240
important a role in our understanding of

1756
01:00:48,710 --> 01:00:46,160
who we are and are we alone do you think

1757
01:00:50,470 --> 01:00:48,720
this will or could play

1758
01:00:52,309 --> 01:00:50,480
yeah i mean it's just another tool in

1759
01:00:53,910 --> 01:00:52,319
the tool bag isn't it right i mean you

1760
01:00:55,670 --> 01:00:53,920
don't build a house with just a hammer

1761
01:00:57,910 --> 01:00:55,680
or just a screwdriver you have to have a

1762
01:00:59,750 --> 01:00:57,920
tool bag to to build a house

1763
01:01:01,910 --> 01:00:59,760

and and that's precisely what the james

1764

01:01:03,349 --> 01:01:01,920

webb telescope is in the galileo project

1765

01:01:05,270 --> 01:01:03,359

with what they're doing

1766

01:01:07,030 --> 01:01:05,280

and other other efforts um you know

1767

01:01:10,230 --> 01:01:07,040

these are just another tool that you

1768

01:01:12,230 --> 01:01:10,240

need ultimately to to build the house um

1769

01:01:13,030 --> 01:01:12,240

some tools are used more than others

1770

01:01:15,270 --> 01:01:13,040

um

1771

01:01:17,109 --> 01:01:15,280

but at the end of the day you know it

1772

01:01:18,710 --> 01:01:17,119

you really want a complete tool bag if

1773

01:01:20,230 --> 01:01:18,720

you want to do a good job and build it

1774

01:01:21,270 --> 01:01:20,240

build a strong house

1775

01:01:22,950 --> 01:01:21,280

um

1776

01:01:26,309 --> 01:01:22,960

you know the problem with with

1777

01:01:28,309 --> 01:01:26,319

telescopes you know deep deep field

1778

01:01:31,430 --> 01:01:28,319

telescopes is that it's a lot like

1779

01:01:33,829 --> 01:01:31,440

looking at the sky through a straw

1780

01:01:35,750 --> 01:01:33,839

you know you can see very very far

1781

01:01:37,030 --> 01:01:35,760

but it's only a very very small portion

1782

01:01:39,109 --> 01:01:37,040

of the sky

1783

01:01:40,630 --> 01:01:39,119

and you know you also have focal issues

1784

01:01:43,030 --> 01:01:40,640

you know something

1785

01:01:45,190 --> 01:01:43,040

i i people know that i i'm

1786

01:01:46,230 --> 01:01:45,200

you know i have a i'm a bit of a gun guy

1787

01:01:48,069 --> 01:01:46,240

right i

1788

01:01:50,230 --> 01:01:48,079

have firearms and when you're looking

1789

01:01:52,470 --> 01:01:50,240

through a scope one thing is interesting

1790

01:01:54,470 --> 01:01:52,480

because when you're looking at an object

1791

01:01:55,990 --> 01:01:54,480

way way way far away

1792

01:01:58,069 --> 01:01:56,000

you can have something pass right by in

1793

01:01:59,109 --> 01:01:58,079

front of you but because the optics are

1794

01:02:01,910 --> 01:01:59,119

the way they are you're not going to

1795

01:02:03,670 --> 01:02:01,920

pick it up because the the focus is on a

1796

01:02:04,630 --> 01:02:03,680

very distant object and that's what's in

1797

01:02:06,549 --> 01:02:04,640

focus

1798

01:02:07,990 --> 01:02:06,559

anything in front of that field

1799

01:02:09,510 --> 01:02:08,000

becomes increasingly more and more

1800

01:02:10,870 --> 01:02:09,520

blurry until eventually something can

1801
01:02:11,990 --> 01:02:10,880
pass right in front of it and you won't

1802
01:02:15,190 --> 01:02:12,000
even see it

1803
01:02:17,029 --> 01:02:15,200
because the focus is so far downrange

1804
01:02:19,589 --> 01:02:17,039
that's the problem with with with a lot

1805
01:02:22,710 --> 01:02:19,599
of telescopes in general you know unless

1806
01:02:24,309 --> 01:02:22,720
you're focusing on something um

1807
01:02:25,589 --> 01:02:24,319
you're there's a really good possibility

1808
01:02:26,630 --> 01:02:25,599
you're not you're not going to see it

1809
01:02:28,069 --> 01:02:26,640
purple you have to be looking at the

1810
01:02:30,230 --> 01:02:28,079
right part of the sky and then you have

1811
01:02:32,470 --> 01:02:30,240
to be looking at the right depth

1812
01:02:34,950 --> 01:02:32,480
right and sky is as we know is infinite

1813
01:02:36,309 --> 01:02:34,960

right so how do you know where to

1814

01:02:37,430 --> 01:02:36,319

where to focus if you want to see

1815

01:02:39,270 --> 01:02:37,440

something

1816

01:02:41,029 --> 01:02:39,280

so those are some of the challenges with

1817

01:02:42,789 --> 01:02:41,039

with you know

1818

01:02:43,750 --> 01:02:42,799

modern technology it's really really

1819

01:02:45,190 --> 01:02:43,760

good

1820

01:02:46,470 --> 01:02:45,200

if you have a static object you're

1821

01:02:47,589 --> 01:02:46,480

looking at but if you have an object

1822

01:02:49,190 --> 01:02:47,599

that's moving it becomes more

1823

01:02:53,910 --> 01:02:49,200

complicated if you don't know where it's

1824

01:02:58,230 --> 01:02:55,910

you mentioned galileo project of which

1825

01:03:00,549 --> 01:02:58,240

you you are on board along with many

1826

01:03:02,789 --> 01:03:00,559

many other scientists academics and

1827

01:03:04,950 --> 01:03:02,799

people from a whole range of backgrounds

1828

01:03:06,150 --> 01:03:04,960

in what direction is the project going

1829

01:03:08,230 --> 01:03:06,160

and is it one that you've got a

1830

01:03:10,470 --> 01:03:08,240

long-term future with

1831

01:03:13,029 --> 01:03:10,480

you know i i i have to give credit where

1832

01:03:15,270 --> 01:03:13,039

credit is due um

1833

01:03:18,390 --> 01:03:15,280

you have someone like abby loeb who has

1834

01:03:21,349 --> 01:03:18,400

decided to purposely buck the system

1835

01:03:22,470 --> 01:03:21,359

uh that's that's a big deal um you know

1836

01:03:24,309 --> 01:03:22,480

what i'm going to share something with

1837

01:03:26,309 --> 01:03:24,319

you guys um

1838

01:03:28,069 --> 01:03:26,319

and uh

1839

01:03:30,789 --> 01:03:28,079

i may have shared this with a few folks

1840

01:03:32,789 --> 01:03:30,799

already i'm going to share a a

1841

01:03:35,430 --> 01:03:32,799

something that i picked up and you guys

1842

01:03:37,990 --> 01:03:35,440

can tell me what you think

1843

01:03:41,270 --> 01:03:38,000

give me one moment here

1844

01:03:44,150 --> 01:03:41,280

no problem so i'm going to pull this up

1845

01:03:47,190 --> 01:03:44,160

okay so i'm going to show this to to to

1846

01:03:50,789 --> 01:03:47,200

your folks uh it is a peanuts cartoon

1847

01:03:53,190 --> 01:03:50,799

okay and let me read if i can

1848

01:03:56,309 --> 01:03:53,200

real quick

1849

01:04:00,470 --> 01:03:56,319

quote unquote trust the science

1850

01:04:02,789 --> 01:04:00,480

is the most anti-science statement ever

1851
01:04:04,549 --> 01:04:02,799
questioning science is how you do

1852
01:04:05,829 --> 01:04:04,559
science

1853
01:04:08,789 --> 01:04:05,839
and

1854
01:04:11,029 --> 01:04:08,799
i agree with that um you know we have to

1855
01:04:12,630 --> 01:04:11,039
challenge the status quo that's the only

1856
01:04:14,950 --> 01:04:12,640
reason why

1857
01:04:16,870 --> 01:04:14,960
uh we now realize the earth is not the

1858
01:04:19,750 --> 01:04:16,880
center of the solar system you know

1859
01:04:21,670 --> 01:04:19,760
aptly named gala from galileo because

1860
01:04:22,710 --> 01:04:21,680
galileo decided to buck the system and

1861
01:04:24,230 --> 01:04:22,720
say look

1862
01:04:27,190 --> 01:04:24,240
your current understanding of the

1863
01:04:29,109 --> 01:04:27,200

universe is flawed right and of course

1864

01:04:31,430 --> 01:04:29,119

everybody he almost paid with it with

1865

01:04:32,870 --> 01:04:31,440

his life you know saying that

1866

01:04:34,950 --> 01:04:32,880

turned out he was right

1867

01:04:36,789 --> 01:04:34,960

let's not forget that every principle in

1868

01:04:37,750 --> 01:04:36,799

science that we now take for granted as

1869

01:04:41,190 --> 01:04:37,760

a law

1870

01:04:43,109 --> 01:04:41,200

started off as someone's wacky zany idea

1871

01:04:44,870 --> 01:04:43,119

you know a proposal

1872

01:04:47,270 --> 01:04:44,880

um

1873

01:04:51,109 --> 01:04:47,280

and i think galileo the project that

1874

01:04:53,270 --> 01:04:51,119

abby love is as pioneered is is is is

1875

01:04:55,430 --> 01:04:53,280

part of that spirit you know let's not

1876

01:04:57,670 --> 01:04:55,440

take for granted the things that we

1877

01:04:59,829 --> 01:04:57,680

we think as as facts

1878

01:05:01,589 --> 01:04:59,839

there's a lot we still have yet to learn

1879

01:05:02,390 --> 01:05:01,599

and i think the way he is approaching

1880

01:05:05,430 --> 01:05:02,400

this

1881

01:05:07,109 --> 01:05:05,440

particularly using using some technology

1882

01:05:10,470 --> 01:05:07,119

and telescopes

1883

01:05:12,150 --> 01:05:10,480

wide field telescopes is a great start

1884

01:05:13,430 --> 01:05:12,160

because look he only has to be right one

1885

01:05:17,270 --> 01:05:13,440

time

1886

01:05:19,750 --> 01:05:17,280

nobel prize for it if he's right

1887

01:05:21,750 --> 01:05:19,760

you know so so that's a big deal and you

1888

01:05:23,990 --> 01:05:21,760

have to be able to take risks

1889

01:05:26,309 --> 01:05:24,000

that's what the pursuit of real science

1890

01:05:28,870 --> 01:05:26,319

is all about it's about risks

1891

01:05:31,190 --> 01:05:28,880

it's about asking the hard questions

1892

01:05:33,029 --> 01:05:31,200

and and you know sometimes

1893

01:05:34,950 --> 01:05:33,039

the answer may not be necessarily very

1894

01:05:36,390 --> 01:05:34,960

convenient but it turns out to be the

1895

01:05:38,710 --> 01:05:36,400

truth

1896

01:05:40,710 --> 01:05:38,720

so that's that would be my

1897

01:05:43,029 --> 01:05:40,720

that would be my uh my two cents

1898

01:05:44,710 --> 01:05:43,039

regarding regarding avi love and the

1899

01:05:46,309 --> 01:05:44,720

galileo project i wish we had more

1900

01:05:48,069 --> 01:05:46,319

scientists like abby to be honest with

1901

01:05:49,990 --> 01:05:48,079

you

1902

01:05:51,670 --> 01:05:50,000

we interviewed avi loeb just two weeks

1903

01:05:53,510 --> 01:05:51,680

ago so if people haven't heard that go

1904

01:05:55,829 --> 01:05:53,520

back and check it out but yeah i'm sure

1905

01:05:57,270 --> 01:05:55,839

if galileo had social media back in his

1906

01:05:59,589 --> 01:05:57,280

day the abuse he would have gotten would

1907

01:06:01,109 --> 01:05:59,599

have driven him off social media as well

1908

01:06:02,950 --> 01:06:01,119

i can appreciate that

1909

01:06:05,430 --> 01:06:02,960

yeah i guess to some degree he's

1910

01:06:08,390 --> 01:06:05,440

probably pretty lucky there it wasn't

1911

01:06:11,029 --> 01:06:08,400

twitter twitter back then

1912

01:06:12,710 --> 01:06:11,039

yeah um gary nolan professor gary nolan

1913

01:06:14,390 --> 01:06:12,720

like i say is coming on the podcast in a

1914

01:06:15,910 --> 01:06:14,400

few weeks i'm honored with that he

1915

01:06:18,549 --> 01:06:15,920

doesn't do too many interviews he's a

1916

01:06:20,470 --> 01:06:18,559

very very busy man um he mentioned on

1917

01:06:22,390 --> 01:06:20,480

cut joy mungo theories of everything

1918

01:06:25,029 --> 01:06:22,400

which happened that came out just last

1919

01:06:27,109 --> 01:06:25,039

week um we need an organization we can

1920

01:06:29,190 --> 01:06:27,119

turn to who can vet the data i'm

1921

01:06:31,109 --> 01:06:29,200

involved with luella zondo and others

1922

01:06:32,630 --> 01:06:31,119

trying to set that up is that something

1923

01:06:33,990 --> 01:06:32,640

you can elaborate on and speak on that

1924

01:06:35,670 --> 01:06:34,000

organization

1925

01:06:37,990 --> 01:06:35,680

i mean you say yourself gary's an

1926

01:06:40,309 --> 01:06:38,000

incredible human being i mean

1927

01:06:42,150 --> 01:06:40,319

really really impressive you know i it's

1928

01:06:43,349 --> 01:06:42,160

funny because i went to school to be a

1929

01:06:46,309 --> 01:06:43,359

uh

1930

01:06:48,870 --> 01:06:46,319

microbiology immunology and parasitology

1931

01:06:51,990 --> 01:06:50,710

the science and mathematic fields

1932

01:06:53,670 --> 01:06:52,000

and then you meet someone like gary

1933

01:06:56,309 --> 01:06:53,680

who's actually been nominated for the

1934

01:06:57,829 --> 01:06:56,319

nobel prize in immunology

1935

01:07:00,710 --> 01:06:57,839

um

1936

01:07:03,990 --> 01:07:00,720

you know it's it's it's pretty pretty

1937

01:07:05,829 --> 01:07:04,000

incredible um

1938

01:07:08,069 --> 01:07:05,839

having him on board is a blessing you

1939

01:07:10,549 --> 01:07:08,079

know he's he has been very helpful in

1940

01:07:12,230 --> 01:07:10,559

the past in this effort in this endeavor

1941

01:07:14,950 --> 01:07:12,240

he's precisely the type of skill set

1942

01:07:16,870 --> 01:07:14,960

that we need and yes i am working with

1943

01:07:19,829 --> 01:07:16,880

with gary nolan

1944

01:07:22,309 --> 01:07:19,839

and others by the way to create uh

1945

01:07:25,029 --> 01:07:22,319

advisory boards um academic advisory

1946

01:07:27,430 --> 01:07:25,039

boards if you will or think tanks uh and

1947

01:07:28,950 --> 01:07:27,440

scientific think tanks that can

1948

01:07:30,390 --> 01:07:28,960

um

1949

01:07:32,470 --> 01:07:30,400

you know do a lot of the heavy lifting

1950

01:07:34,870 --> 01:07:32,480

right get the have have the conversation

1951

01:07:37,270 --> 01:07:34,880

in a way that that is meaningful that's

1952

01:07:39,750 --> 01:07:37,280

informative uh and

1953

01:07:42,950 --> 01:07:39,760

headshot helps shed some light

1954

01:07:44,870 --> 01:07:42,960

on this topic um and you know all i can

1955

01:07:45,829 --> 01:07:44,880

say is i'm blessed that gary's part of

1956

01:07:48,069 --> 01:07:45,839

the team

1957

01:07:49,990 --> 01:07:48,079

uh we have other very very smart people

1958

01:07:51,109 --> 01:07:50,000

as well that are part of the team they

1959

01:07:53,190 --> 01:07:51,119

haven't given me permission to share

1960

01:07:54,870 --> 01:07:53,200

their name so i won't yet

1961

01:07:56,390 --> 01:07:54,880

uh but i think people will be really

1962

01:07:57,430 --> 01:07:56,400

impressed when they when they finally

1963

01:08:00,309 --> 01:07:57,440

see

1964

01:08:02,069 --> 01:08:00,319

these these these

1965

01:08:05,349 --> 01:08:02,079

endeavors uh

1966

01:08:07,029 --> 01:08:05,359

finalize and and and come to fruition

1967

01:08:08,549 --> 01:08:07,039

people will be surprised to see the the

1968

01:08:10,710 --> 01:08:08,559

type of caliber of individuals that are

1969

01:08:12,230 --> 01:08:10,720

that are on these these boards um

1970

01:08:15,109 --> 01:08:12,240

you know look i i'll be the first one to

1971

01:08:18,390 --> 01:08:15,119

say i'm i i've deliberately taken myself

1972

01:08:20,709 --> 01:08:18,400

out of uh other than setting it up uh

1973

01:08:23,110 --> 01:08:20,719

any role of of being on these boards

1974

01:08:25,910 --> 01:08:23,120

because i don't have the qualifications

1975

01:08:29,269 --> 01:08:25,920

and i know that you know it's i'm not uh

1976

01:08:31,669 --> 01:08:29,279

i i i don't have a phd in in the areas

1977

01:08:33,749 --> 01:08:31,679

that are necessary you know i'm not uh

1978

01:08:35,510 --> 01:08:33,759

and i don't claim to you know we need we

1979

01:08:37,349 --> 01:08:35,520

need the right people for these jobs and

1980

01:08:39,030 --> 01:08:37,359

i also know my limitations i know that

1981

01:08:41,430 --> 01:08:39,040

i'm not the right person

1982

01:08:43,910 --> 01:08:41,440

for for those jobs i'm not doing it out

1983

01:08:45,749 --> 01:08:43,920

of pride and ego sure i probably could

1984

01:08:47,349 --> 01:08:45,759

shoehorn myself into one of those

1985

01:08:49,510 --> 01:08:47,359

positions but

1986

01:08:51,269 --> 01:08:49,520

for what i would just be a distraction

1987

01:08:52,950 --> 01:08:51,279

because i don't have the necessary the

1988

01:08:55,669 --> 01:08:52,960

requisite skill sets

1989

01:08:57,110 --> 01:08:55,679

uh for for these positions i i am smart

1990

01:08:58,950 --> 01:08:57,120

enough to know that we have a need for

1991

01:09:01,590 --> 01:08:58,960

them but i'm not smart enough to

1992

01:09:02,709 --> 01:09:01,600

actually do it um to actually be in that

1993

01:09:04,390 --> 01:09:02,719

role and so

1994

01:09:06,070 --> 01:09:04,400

uh gary's one of the few people who

1995

01:09:07,749 --> 01:09:06,080

actually is smart enough to be to be in

1996

01:09:09,189 --> 01:09:07,759

one of those roles and we're working

1997

01:09:12,550 --> 01:09:09,199

very hard to

1998

01:09:15,349 --> 01:09:12,560

to to formalize some of these um

1999

01:09:17,269 --> 01:09:15,359

some of these endeavors

2000

01:09:18,870 --> 01:09:17,279

is there any time scale as to when the

2001

01:09:20,789 --> 01:09:18,880

public people like myself are going to

2002

01:09:23,430 --> 01:09:20,799

find out about these endeavors in a more

2003

01:09:25,189 --> 01:09:23,440

formal way yeah yeah hopefully soon i

2004

01:09:26,630 --> 01:09:25,199

mean there's some there's some hurdles

2005

01:09:27,910 --> 01:09:26,640

still and some some things that we have

2006

01:09:29,030 --> 01:09:27,920

to do you know anytime you set up

2007

01:09:30,630 --> 01:09:29,040

something like this there's legal

2008

01:09:32,470 --> 01:09:30,640

hurdles and you've got

2009

01:09:34,149 --> 01:09:32,480

corporate hurdles you've got funding

2010

01:09:36,390 --> 01:09:34,159

hurdles and you've got you know

2011

01:09:37,910 --> 01:09:36,400

secretariat hurdles and administrative

2012

01:09:39,510 --> 01:09:37,920

hurdles i mean

2013

01:09:41,110 --> 01:09:39,520

this isn't just snap your fingers and it

2014

01:09:43,910 --> 01:09:41,120

happens you know people people tend to

2015

01:09:46,149 --> 01:09:43,920

think that oh you know this is fun work

2016

01:09:47,910 --> 01:09:46,159

it's not it's exhausting it's real work

2017

01:09:49,829 --> 01:09:47,920

man it's real a lot of a lot of effort

2018

01:09:51,430 --> 01:09:49,839

has to go into this and a lot of a lot

2019

01:09:53,510 --> 01:09:51,440

of brain power to set this up right

2020

01:09:55,030 --> 01:09:53,520

because if you set it up wrong then you

2021

01:09:56,950 --> 01:09:55,040

know four or five years down the road

2022

01:09:58,709 --> 01:09:56,960

you're really gonna find yourself

2023

01:10:01,030 --> 01:09:58,719

suffering the consequences so so it's

2024

01:10:04,070 --> 01:10:01,040

better to do a little bit extra footwork

2025

01:10:06,149 --> 01:10:04,080

and homework up front to to make these

2026

01:10:08,709 --> 01:10:06,159

these organizations to set them up

2027

01:10:10,149 --> 01:10:08,719

correctly and allow them to be enduring

2028

01:10:12,390 --> 01:10:10,159

and to to

2029

01:10:13,590 --> 01:10:12,400

to not just be a layer of bureaucracy

2030

01:10:16,229 --> 01:10:13,600

right we don't need another layer of

2031

01:10:19,510 --> 01:10:16,239

bureaucracy but we need our results we

2032

01:10:20,950 --> 01:10:19,520

need we need we need findings and so

2033

01:10:23,510 --> 01:10:20,960

that's what these organizations are

2034

01:10:25,030 --> 01:10:23,520

being set up to do look i've said

2035

01:10:27,189 --> 01:10:25,040

this shouldn't be a secret to anybody

2036

01:10:28,870 --> 01:10:27,199

because i gave a briefing and i even

2037

01:10:32,149 --> 01:10:28,880

shared those briefing slides when i went

2038

01:10:34,310 --> 01:10:32,159

to italy and and then re-shared them on

2039

01:10:36,070 --> 01:10:34,320

a podcast

2040

01:10:38,310 --> 01:10:36,080

i mean i i've been saying this was going

2041

01:10:40,229 --> 01:10:38,320

to happen for the last six seven months

2042

01:10:41,910 --> 01:10:40,239

i actually have a diagram where i showed

2043

01:10:43,189 --> 01:10:41,920

you know what a national lab might look

2044

01:10:45,590 --> 01:10:43,199

like and all these little branches

2045

01:10:47,669 --> 01:10:45,600

coming out um

2046

01:10:49,430 --> 01:10:47,679

you know i i

2047

01:10:52,310 --> 01:10:49,440

i kind of hinted at this for for some

2048

01:10:56,149 --> 01:10:54,070

just before we get to listener questions

2049

01:10:57,910 --> 01:10:56,159

to finish off because i've got so many

2050

01:10:59,590 --> 01:10:57,920

and i want to at least ask a few of them

2051
01:11:02,229 --> 01:10:59,600
i want to ask you one more question for

2052
01:11:04,470 --> 01:11:02,239
myself um the day you get to ride off

2053
01:11:05,669 --> 01:11:04,480
into your sunset satisfied your work is

2054
01:11:07,669 --> 01:11:05,679
finally done

2055
01:11:09,510 --> 01:11:07,679
what do you hope to have accomplished

2056
01:11:12,070 --> 01:11:09,520
gosh you know people have already told

2057
01:11:13,910 --> 01:11:12,080
me i'm there i could do it tomorrow

2058
01:11:15,910 --> 01:11:13,920
could do it today i mean mission

2059
01:11:17,510 --> 01:11:15,920
accomplished we got we got the topic

2060
01:11:19,189 --> 01:11:17,520
elevated to the point now where it's

2061
01:11:21,910 --> 01:11:19,199
it's been acknowledged by

2062
01:11:23,990 --> 01:11:21,920
by by former directors of cia and former

2063
01:11:25,750 --> 01:11:24,000

presidents and current sitting members

2064

01:11:26,550 --> 01:11:25,760

of congress and we actually have a law i

2065

01:11:28,550 --> 01:11:26,560

mean

2066

01:11:31,990 --> 01:11:28,560

in theory i could walk away now

2067

01:11:36,229 --> 01:11:34,470

i'm concerned that we we're still not

2068

01:11:39,510 --> 01:11:36,239

where we need to be

2069

01:11:43,430 --> 01:11:39,520

and this topic doesn't backslide because

2070

01:11:47,669 --> 01:11:44,709

engaged

2071

01:11:49,430 --> 01:11:47,679

then we fall

2072

01:11:51,030 --> 01:11:49,440

victim to the potential that this could

2073

01:11:52,950 --> 01:11:51,040

be be

2074

01:11:54,390 --> 01:11:52,960

in five years relegated too well we did

2075

01:11:55,590 --> 01:11:54,400

our due diligence nothing to see here

2076

01:11:57,590 --> 01:11:55,600

folks right

2077

01:11:59,350 --> 01:11:57,600

i don't want another blue book

2078

01:12:00,870 --> 01:11:59,360

that's that's not the intent of this we

2079

01:12:03,189 --> 01:12:00,880

put too much effort into this just to

2080

01:12:04,630 --> 01:12:03,199

have this die on the vine because it

2081

01:12:07,270 --> 01:12:04,640

lost momentum

2082

01:12:08,790 --> 01:12:07,280

so um

2083

01:12:13,750 --> 01:12:08,800

you know what it looks like for me is

2084

01:12:17,350 --> 01:12:15,030

when we know everything we've done in

2085

01:12:20,310 --> 01:12:17,360

the past

2086

01:12:22,550 --> 01:12:20,320

the american people uh are are satisfied

2087

01:12:24,229 --> 01:12:22,560

with that

2088

01:12:25,430 --> 01:12:24,239

they've had some of their questions

2089

01:12:27,110 --> 01:12:25,440

answered

2090

01:12:28,229 --> 01:12:27,120

and we have a deliberate plan to move

2091

01:12:30,630 --> 01:12:28,239

forward

2092

01:12:34,630 --> 01:12:30,640

on this topic uh in a way that is

2093

01:12:37,189 --> 01:12:34,640

endearing and informative and insightful

2094

01:12:39,110 --> 01:12:37,199

and responsible right and i think we

2095

01:12:40,630 --> 01:12:39,120

need to have the conversation truly at

2096

01:12:43,110 --> 01:12:40,640

the international level have some

2097

01:12:45,669 --> 01:12:43,120

international bodies involved and at

2098

01:12:47,430 --> 01:12:45,679

that point i feel that i've done all i

2099

01:12:50,790 --> 01:12:47,440

can do

2100

01:12:52,550 --> 01:12:50,800

i think i can still do more to help

2101
01:12:54,790 --> 01:12:52,560
hopefully anyways you know

2102
01:12:56,229 --> 01:12:54,800
do i do i want to no i don't i'm

2103
01:12:58,229 --> 01:12:56,239
exhausted tired

2104
01:13:00,470 --> 01:12:58,239
but but

2105
01:13:02,709 --> 01:13:00,480
do i feel the need to yeah i do

2106
01:13:04,390 --> 01:13:02,719
i do my mission isn't complete yet it's

2107
01:13:06,550 --> 01:13:04,400
not i wish it was

2108
01:13:08,709 --> 01:13:06,560
like i said it's been a long

2109
01:13:09,669 --> 01:13:08,719
long road so far for me and for my

2110
01:13:11,750 --> 01:13:09,679
family

2111
01:13:13,510 --> 01:13:11,760
but um

2112
01:13:15,750 --> 01:13:13,520
it's it's too important too important of

2113
01:13:17,750 --> 01:13:15,760

a mission you know it's

2114

01:13:19,270 --> 01:13:17,760

we're running a long marathon it's a

2115

01:13:21,350 --> 01:13:19,280

relay race and i'm waiting for someone

2116

01:13:23,750 --> 01:13:21,360

to pick up the baton

2117

01:13:25,669 --> 01:13:23,760

that won't drop it right or or get lazy

2118

01:13:27,910 --> 01:13:25,679

and get tired and say yeah i don't feel

2119

01:13:29,830 --> 01:13:27,920

like running anymore no no you have to

2120

01:13:31,350 --> 01:13:29,840

whoever picks up this baton you

2121

01:13:33,669 --> 01:13:31,360

you gotta run till someone else takes it

2122

01:13:34,870 --> 01:13:33,679

from your hand you know you're stuck

2123

01:13:38,229 --> 01:13:34,880

with it once it's kind of like the old

2124

01:13:39,669 --> 01:13:38,239

uh what is it the old pottery barn uh

2125

01:13:41,350 --> 01:13:39,679

saying when you go to pottery barn you

2126
01:13:43,910 --> 01:13:41,360
know if you break it you bought it

2127
01:13:45,910 --> 01:13:43,920
so once that baton is in your hand you

2128
01:13:47,189 --> 01:13:45,920
you own it man got to carry it and you

2129
01:13:49,350 --> 01:13:47,199
got to carry it

2130
01:13:50,709 --> 01:13:49,360
to the end and you know who knows how

2131
01:13:52,310 --> 01:13:50,719
long that is you got to carry till

2132
01:13:53,910 --> 01:13:52,320
someone

2133
01:13:56,229 --> 01:13:53,920
takes it from you right it's just like

2134
01:13:58,070 --> 01:13:56,239
in the army you know when you how long

2135
01:13:59,510 --> 01:13:58,080
do you guard your post well as long as

2136
01:14:01,030 --> 01:13:59,520
you're told to you know until someone

2137
01:14:03,270 --> 01:14:01,040
else comes up and relieves you of that

2138
01:14:05,350 --> 01:14:03,280

responsibility that's your post you you

2139

01:14:06,870 --> 01:14:05,360

stay and you guard it until that relief

2140

01:14:10,149 --> 01:14:06,880

comes and if release never comes and you

2141

01:14:13,350 --> 01:14:11,669

lou i'm going to go right into the deep

2142

01:14:14,950 --> 01:14:13,360

end with listener questions and thank

2143

01:14:16,709 --> 01:14:14,960

you to everyone who sent over i'm not

2144

01:14:18,470 --> 01:14:16,719

exaggerating when i say there was about

2145

01:14:20,870 --> 01:14:18,480

three to four hundred questions

2146

01:14:23,270 --> 01:14:20,880

submitted to lou of which i did read

2147

01:14:24,709 --> 01:14:23,280

every one of them and uh hopefully in

2148

01:14:27,030 --> 01:14:24,719

some way your question's been answered

2149

01:14:28,790 --> 01:14:27,040

in the body of the interview um or it'll

2150

01:14:31,750 --> 01:14:28,800

get answered in future in some way shape

2151

01:14:33,270 --> 01:14:31,760

or form first up jason in los angeles

2152

01:14:35,510 --> 01:14:33,280

lou if you remember last time you were

2153

01:14:37,669 --> 01:14:35,520

on the podcast with me you very candidly

2154

01:14:40,070 --> 01:14:37,679

share details of your mother's passing

2155

01:14:42,550 --> 01:14:40,080

and jason wants to know do you believe

2156

01:14:44,229 --> 01:14:42,560

the inevitable process of human death

2157

01:14:45,669 --> 01:14:44,239

is in any way connected to the

2158

01:14:47,189 --> 01:14:45,679

phenomenon

2159

01:14:49,510 --> 01:14:47,199

ooh

2160

01:14:52,550 --> 01:14:49,520

i have no idea um you know like i said

2161

01:14:54,470 --> 01:14:52,560

we live in a in a wondrous and and huge

2162

01:14:56,470 --> 01:14:54,480

universe i guess anything's possible

2163

01:14:57,990 --> 01:14:56,480

really

2164

01:15:00,630 --> 01:14:58,000

you know death

2165

01:15:01,910 --> 01:15:00,640

i've been around death enough

2166

01:15:03,189 --> 01:15:01,920

probably too much

2167

01:15:05,110 --> 01:15:03,199

where

2168

01:15:06,470 --> 01:15:05,120

what i've learned is that death is a is

2169

01:15:08,870 --> 01:15:06,480

a process

2170

01:15:11,750 --> 01:15:08,880

death is a transition

2171

01:15:14,550 --> 01:15:11,760

death is not an event it is a transition

2172

01:15:17,189 --> 01:15:14,560

just like birth it's a transition

2173

01:15:19,189 --> 01:15:17,199

coming into one reality and then

2174

01:15:22,390 --> 01:15:19,199

crossing over that threshold into

2175

01:15:25,750 --> 01:15:22,400

something else an unknown but but but

2176

01:15:27,430 --> 01:15:25,760

still something else um

2177

01:15:30,470 --> 01:15:27,440

i don't know

2178

01:15:33,270 --> 01:15:30,480

the relationship that if any regarding

2179

01:15:35,270 --> 01:15:33,280

uap i guess it's anybody's guess

2180

01:15:36,870 --> 01:15:35,280

could be um

2181

01:15:39,110 --> 01:15:36,880

you know but then we get into

2182

01:15:40,310 --> 01:15:39,120

potentially the discussion of you know

2183

01:15:42,630 --> 01:15:40,320

some some

2184

01:15:44,630 --> 01:15:42,640

theological principles such as angels

2185

01:15:46,790 --> 01:15:44,640

and demons and things like that

2186

01:15:48,709 --> 01:15:46,800

um i i don't think we

2187

01:15:50,149 --> 01:15:48,719

we know enough yet i mean certainly some

2188

01:15:52,149 --> 01:15:50,159

people in the pentagon when i was in the

2189

01:15:54,310 --> 01:15:52,159

pentagon wasn't very afraid was afraid

2190

01:15:57,270 --> 01:15:54,320

of the topic because of that very very

2191

01:15:58,310 --> 01:15:57,280

issue that that that connection

2192

01:16:00,070 --> 01:15:58,320

um

2193

01:16:01,750 --> 01:16:00,080

you know i i

2194

01:16:03,750 --> 01:16:01,760

i just don't think we have enough data

2195

01:16:05,990 --> 01:16:03,760

right now to substantiate to

2196

01:16:07,350 --> 01:16:06,000

substantiate that i wouldn't you know i

2197

01:16:08,709 --> 01:16:07,360

wouldn't be surprised either way if it

2198

01:16:09,990 --> 01:16:08,719

does or doesn't

2199

01:16:10,870 --> 01:16:10,000

um

2200

01:16:12,870 --> 01:16:10,880

you know

2201

01:16:14,630 --> 01:16:12,880

but i i

2202

01:16:15,990 --> 01:16:14,640

i think um

2203

01:16:18,709 --> 01:16:16,000

i think we have a long way to go before

2204

01:16:21,669 --> 01:16:19,990

definitively answer that question

2205

01:16:23,910 --> 01:16:21,679

because because

2206

01:16:26,070 --> 01:16:23,920

death is such an unknown and uaps are

2207

01:16:27,590 --> 01:16:26,080

such an unknown right that that are the

2208

01:16:29,110 --> 01:16:27,600

two connected well the one way they are

2209

01:16:31,350 --> 01:16:29,120

connected is that we really don't know

2210

01:16:33,350 --> 01:16:31,360

very much about either one so

2211

01:16:34,550 --> 01:16:33,360

that's that's for certain uh but is

2212

01:16:36,630 --> 01:16:34,560

there a

2213

01:16:39,590 --> 01:16:36,640

more intimate connection between the two

2214

01:16:44,390 --> 01:16:42,070

the next question from jack burton jack

2215

01:16:47,270 --> 01:16:44,400

asks lou during or since your time with

2216

01:16:51,669 --> 01:16:47,280

atep are you aware of any loss of human

2217

01:16:59,189 --> 01:16:53,910

wow i gotta be really careful with that

2218

01:17:02,950 --> 01:17:00,790

i'm gonna have to pass on that question

2219

01:17:05,750 --> 01:17:02,960

respectfully there's no way i can answer

2220

01:17:07,189 --> 01:17:05,760

that question without

2221

01:17:09,910 --> 01:17:07,199

yeah i can't i can't get into that

2222

01:17:11,510 --> 01:17:09,920

question right now i'm sorry

2223

01:17:13,510 --> 01:17:11,520

let me follow up with another listener

2224

01:17:15,510 --> 01:17:13,520

question lou but it's along similar

2225

01:17:17,990 --> 01:17:15,520

lines but potentially

2226

01:17:20,310 --> 01:17:18,000

less of a direct human impact um mr

2227

01:17:22,950 --> 01:17:20,320

calhoun asks can lu elaborate whether

2228

01:17:25,590 --> 01:17:22,960

different parts of aircraft during close

2229

01:17:29,350 --> 01:17:25,600

encounters with uaps were subject to

2230

01:17:33,510 --> 01:17:29,360

varying degrees of damage oh wow

2231

01:17:37,510 --> 01:17:35,189

let me answer this there's there's

2232

01:17:40,950 --> 01:17:37,520

there's information to suggest that that

2233

01:17:43,590 --> 01:17:40,960

avionics can be interfered with um we've

2234

01:17:45,750 --> 01:17:43,600

seen it with uh

2235

01:17:48,070 --> 01:17:45,760

rotary wing uh helicopters and we've

2236

01:17:49,910 --> 01:17:48,080

seen it with fixed-wing aircraft

2237

01:17:51,110 --> 01:17:49,920

where there seems to be some sort of

2238

01:17:53,430 --> 01:17:51,120

interference we don't know if it's

2239

01:17:55,830 --> 01:17:53,440

delivered or not but they're there some

2240

01:18:00,310 --> 01:17:55,840

cases aircraft have lost power

2241

01:18:02,630 --> 01:18:00,320

uh in other cases uh aircraft have um

2242

01:18:05,030 --> 01:18:02,640

seemed to physically have have

2243

01:18:06,149 --> 01:18:05,040

stopped believe it or not in midair

2244

01:18:06,870 --> 01:18:06,159

um

2245

01:18:07,669 --> 01:18:06,880

so

2246

01:18:13,590 --> 01:18:07,679

uh

2247

01:18:18,070 --> 01:18:15,830

um john wants to know is there any

2248

01:18:20,630 --> 01:18:18,080

understanding of the best conditions for

2249

01:18:22,390 --> 01:18:20,640

these craft to fly around or function

2250

01:18:24,550 --> 01:18:22,400

and for me to add on to that lou i've

2251

01:18:27,030 --> 01:18:24,560

always been very interested that as as

2252

01:18:29,270 --> 01:18:27,040

fast as these objects can go through the

2253

01:18:32,070 --> 01:18:29,280

air they still seem to slow down

2254

01:18:34,310 --> 01:18:32,080

considerably underwater even though they

2255

01:18:35,110 --> 01:18:34,320

go faster much faster than anything we

2256

01:18:37,430 --> 01:18:35,120

have

2257

01:18:38,830 --> 01:18:37,440

yeah well actually underwater is funny

2258

01:18:41,910 --> 01:18:38,840

you say that

2259

01:18:44,390 --> 01:18:41,920

because um

2260

01:18:46,229 --> 01:18:44,400

you know we're using radar a lot of

2261

01:18:49,110 --> 01:18:46,239

times to see things in the air

2262

01:18:50,470 --> 01:18:49,120

and radar is an electromagnetic um

2263

01:18:51,990 --> 01:18:50,480

energy wave

2264

01:18:52,709 --> 01:18:52,000

that is traveling

2265

01:18:55,030 --> 01:18:52,719

at

2266

01:18:57,030 --> 01:18:55,040

roughly the speed of light right

2267

01:18:59,350 --> 01:18:57,040

the problem is underwater you have to

2268

01:19:01,189 --> 01:18:59,360

use acoustics radar really doesn't work

2269

01:19:03,830 --> 01:19:01,199

you have to use sonar

2270

01:19:06,630 --> 01:19:03,840

and sonar is limited by the speed of

2271

01:19:07,590 --> 01:19:06,640

sound underwater which is fast

2272

01:19:10,149 --> 01:19:07,600

but

2273

01:19:11,590 --> 01:19:10,159

it's not that fast and so so it could

2274

01:19:13,830 --> 01:19:11,600

very well be the reason why we see these

2275

01:19:15,270 --> 01:19:13,840

things moving slower underwater is not

2276
01:19:16,229 --> 01:19:15,280
because they're actually moving slower

2277
01:19:18,310 --> 01:19:16,239
because those are the only ones when

2278
01:19:20,950 --> 01:19:18,320
they're moving that slowly see

2279
01:19:23,430 --> 01:19:20,960
in essence c with with sonar or here if

2280
01:19:24,950 --> 01:19:23,440
you will really more accurate um if a

2281
01:19:28,229 --> 01:19:24,960
vehicle is moving

2282
01:19:30,310 --> 01:19:28,239
fast enough sonar won't catch up to it

2283
01:19:31,750 --> 01:19:30,320
so so in essence you're not going to see

2284
01:19:32,950 --> 01:19:31,760
that it's not going to hear those you're

2285
01:19:36,149 --> 01:19:32,960
not going to be able to detect those

2286
01:19:37,990 --> 01:19:36,159
because because the the the

2287
01:19:40,790 --> 01:19:38,000
the way sonar works you have a ping and

2288
01:19:42,390 --> 01:19:40,800

that ping sent out an acoustic signature

2289

01:19:43,990 --> 01:19:42,400

out into the water it hits something

2290

01:19:46,470 --> 01:19:44,000

reflects back and comes back very much

2291

01:19:47,830 --> 01:19:46,480

like like a bat uses sonar and whales

2292

01:19:49,750 --> 01:19:47,840

and dolphins

2293

01:19:53,189 --> 01:19:49,760

but there's limitations because again

2294

01:19:54,790 --> 01:19:53,199

sound can only travel so fast underwater

2295

01:19:57,110 --> 01:19:54,800

um there was a really interesting

2296

01:19:59,110 --> 01:19:57,120

experiment done back in the 60s

2297

01:20:01,030 --> 01:19:59,120

and uh forgive me if i don't have all

2298

01:20:02,470 --> 01:20:01,040

the details correct so it's been a long

2299

01:20:05,030 --> 01:20:02,480

time since i heard about this but they

2300

01:20:06,550 --> 01:20:05,040

were dropping death charges

2301

01:20:09,430 --> 01:20:06,560

uh to to

2302

01:20:11,510 --> 01:20:09,440

in the 60s off the coast of uh they're

2303

01:20:14,070 --> 01:20:11,520

in the caribbean i'm not mistaken and

2304

01:20:16,149 --> 01:20:14,080

they're trying to see how far sound

2305

01:20:19,189 --> 01:20:16,159

waves would travel under water

2306

01:20:22,070 --> 01:20:19,199

and there were these um you know these

2307

01:20:24,709 --> 01:20:22,080

these these sub-aquatic channels if you

2308

01:20:26,709 --> 01:20:24,719

will uh like like canyons underwater

2309

01:20:27,910 --> 01:20:26,719

sound waves we travel you know long very

2310

01:20:29,750 --> 01:20:27,920

long distance

2311

01:20:33,910 --> 01:20:29,760

and i think it was

2312

01:20:35,990 --> 01:20:33,920

like within 12 hours they picked up uh

2313

01:20:37,830 --> 01:20:36,000

one of these acoustic signatures off the

2314

01:20:39,110 --> 01:20:37,840

coast of australia or something like

2315

01:20:40,950 --> 01:20:39,120

that again please don't hold me to it i

2316

01:20:43,110 --> 01:20:40,960

don't know but it was some remarkable

2317

01:20:44,550 --> 01:20:43,120

distance you know halfway around the

2318

01:20:47,350 --> 01:20:44,560

world uh

2319

01:20:50,310 --> 01:20:47,360

they picked up these signatures

2320

01:20:52,229 --> 01:20:50,320

but that's still not you know 13 000

2321

01:20:53,669 --> 01:20:52,239

miles an hour 10 000 miles an hour my

2322

01:20:56,149 --> 01:20:53,679

point being is that that there's

2323

01:20:58,629 --> 01:20:56,159

limitations to sonar underwater

2324

01:21:00,310 --> 01:20:58,639

so we don't know if things really do go

2325

01:21:02,310 --> 01:21:00,320

slower underwater or if that's just the

2326

01:21:04,229 --> 01:21:02,320

limitations of our own technology and

2327

01:21:06,229 --> 01:21:04,239

that's why we're not picking up anything

2328

01:21:09,110 --> 01:21:06,239

beyond maybe eight nine hundred knots

2329

01:21:13,830 --> 01:21:11,910

interesting um fred asks that in a

2330

01:21:15,990 --> 01:21:13,840

recent interview on martin willis

2331

01:21:18,629 --> 01:21:16,000

podcast ufo you were asked about the

2332

01:21:20,629 --> 01:21:18,639

aerial school incident and you responded

2333

01:21:22,470 --> 01:21:20,639

there was some unknown and compelling

2334

01:21:24,870 --> 01:21:22,480

information about the event can you

2335

01:21:26,070 --> 01:21:24,880

elaborate i cannot right now someone

2336

01:21:27,830 --> 01:21:26,080

else is going to

2337

01:21:30,470 --> 01:21:27,840

provide that um i've been asked

2338

01:21:32,790 --> 01:21:30,480

respectfully not to discuss it um that

2339

01:21:34,629 --> 01:21:32,800

information will be forthcoming uh in a

2340

01:21:37,430 --> 01:21:34,639

very public way for some from people for

2341

01:21:39,830 --> 01:21:37,440

the consumers um i i so a lot of respect

2342

01:21:41,350 --> 01:21:39,840

for for some friends and colleagues i'm

2343

01:21:42,950 --> 01:21:41,360

not gonna elaborate on it the good news

2344

01:21:43,990 --> 01:21:42,960

is that you're going to probably get a

2345

01:21:51,350 --> 01:21:44,000

full

2346

01:21:53,350 --> 01:21:51,360

so yeah i'll leave it at that

2347

01:21:55,030 --> 01:21:53,360

i know there's one or two productions uh

2348

01:21:56,629 --> 01:21:55,040

in the pipeline to come out so hopefully

2349

01:21:58,390 --> 01:21:56,639

if it's one of those that would be great

2350

01:22:00,870 --> 01:21:58,400

that we're going to get to see that i i

2351

01:22:02,709 --> 01:22:00,880

i suspected

2352

01:22:06,229 --> 01:22:02,719

yeah that's good to hear

2353

01:22:09,110 --> 01:22:06,239

josh asks did atip specifically ever

2354

01:22:13,030 --> 01:22:09,120

prepare any formal reports for the dod

2355

01:22:14,709 --> 01:22:13,040

or dia yeah absolutely we did a lot

2356

01:22:18,149 --> 01:22:14,719

yeah i mean there's there's reports

2357

01:22:20,149 --> 01:22:18,159

there um you know i i i can't force dia

2358

01:22:22,390 --> 01:22:20,159

or dod to release them but those reports

2359

01:22:24,310 --> 01:22:22,400

are there and then you know

2360

01:22:26,310 --> 01:22:24,320

with enough scratching i'm sure the ig

2361

01:22:27,910 --> 01:22:26,320

is aware of it uh you know i wouldn't be

2362

01:22:29,350 --> 01:22:27,920

surprised if they have copies of some of

2363

01:22:31,510 --> 01:22:29,360

those reports but yeah

2364

01:22:33,350 --> 01:22:31,520

absolutely

2365

01:22:34,790 --> 01:22:33,360

i think what josh is getting at as well

2366

01:22:37,750 --> 01:22:34,800

is the idea that

2367

01:22:39,030 --> 01:22:37,760

as other documents still to be fired and

2368

01:22:40,790 --> 01:22:39,040

that doesn't have to be by one

2369

01:22:41,830 --> 01:22:40,800

individual who seems to fire everything

2370

01:22:44,229 --> 01:22:41,840

himself

2371

01:22:45,910 --> 01:22:44,239

that other people could be requesting

2372

01:22:47,750 --> 01:22:45,920

that haven't seen the light of day yeah

2373

01:22:48,390 --> 01:22:47,760

there's a lot but but you can fly that

2374

01:22:50,550 --> 01:22:48,400

doesn't mean they're going to be

2375

01:22:52,550 --> 01:22:50,560

released i mean there's there's a

2376

01:22:54,629 --> 01:22:52,560

tranche of information and data that

2377

01:22:56,470 --> 01:22:54,639

that is not being released people like

2378

01:22:59,030 --> 01:22:56,480

oh well they don't have it before they

2379

01:22:59,910 --> 01:22:59,040

said you know nothing to see here well

2380

01:23:05,030 --> 01:22:59,920

that's

2381

01:23:07,669 --> 01:23:05,040

saying look you know

2382

01:23:10,550 --> 01:23:07,679

foy is good but it has its limitations

2383

01:23:13,110 --> 01:23:10,560

there is a lot of information available

2384

01:23:16,550 --> 01:23:13,120

uh that is is is not going to be found

2385

01:23:18,310 --> 01:23:16,560

with foia i'll just i'll just say that

2386

01:23:21,110 --> 01:23:18,320

and that's the issue with foia in that

2387

01:23:23,590 --> 01:23:21,120

sense lou that there's an incompetence

2388

01:23:24,950 --> 01:23:23,600

or is it more of a sinister aspect to it

2389

01:23:27,110 --> 01:23:24,960

that certain things are deliberately

2390

01:23:29,030 --> 01:23:27,120

held back uh

2391

01:23:29,910 --> 01:23:29,040

probably both i'll be the first one to

2392

01:23:32,149 --> 01:23:29,920

tell you that a lot of the

2393

01:23:37,430 --> 01:23:32,159

documentations that we wrote for a tip

2394

01:23:40,790 --> 01:23:39,510

you know some of it is incompetence or

2395

01:23:42,149 --> 01:23:40,800

an aptitude because you're relying on

2396

01:23:43,350 --> 01:23:42,159

people to go through their files and

2397

01:23:45,110 --> 01:23:43,360

historic stuff and say do you have

2398

01:23:46,390 --> 01:23:45,120

anything related to this and you're

2399

01:23:47,590 --> 01:23:46,400

asking to drop what they're doing and

2400

01:23:49,030 --> 01:23:47,600

stop their work that they're doing that

2401

01:23:50,629 --> 01:23:49,040

they're getting paid for to go through

2402

01:23:52,790 --> 01:23:50,639

you know their their hard drive and by

2403

01:23:54,629 --> 01:23:52,800

the way people get hundreds of foia

2404

01:23:55,590 --> 01:23:54,639

requests a year so you know a lot of

2405

01:23:57,510 --> 01:23:55,600

times you're like yeah i don't know

2406

01:23:58,950 --> 01:23:57,520

anything like that no unresponsive and

2407

01:24:00,709 --> 01:23:58,960

you respond back i don't have anything

2408

01:24:02,470 --> 01:24:00,719

and the foia says okay because they

2409

01:24:03,590 --> 01:24:02,480

can't come in and search your computer

2410

01:24:04,790 --> 01:24:03,600

they're not going to sit there and so

2411

01:24:06,310 --> 01:24:04,800

they're just taking your word at face

2412

01:24:07,830 --> 01:24:06,320

value and you're like what man i got i'm

2413

01:24:09,430 --> 01:24:07,840

in the middle of writing a powerpoint

2414

01:24:11,189 --> 01:24:09,440

presentation for the boss i've got 30

2415

01:24:12,950 --> 01:24:11,199

minutes to get it done and now i've got

2416

01:24:14,550 --> 01:24:12,960

the foia request saying you need an

2417

01:24:15,750 --> 01:24:14,560

answer now well guess what i got nothing

2418

01:24:18,149 --> 01:24:15,760

to respond to

2419

01:24:20,870 --> 01:24:18,159

you know action passed action completed

2420

01:24:21,830 --> 01:24:20,880

um i'm not saying that that's right

2421

01:24:25,830 --> 01:24:21,840

but

2422

01:24:30,229 --> 01:24:28,550

question from jean is there one aspect

2423

01:24:36,550 --> 01:24:30,239

of the phenomenon that luff finds to be

2424

01:24:36,560 --> 01:24:42,070

wow gene um

2425

01:24:48,709 --> 01:24:44,870

i think

2426

01:24:50,950 --> 01:24:48,719

the phenomenon really doesn't concern

2427

01:24:53,189 --> 01:24:50,960

the phenomenon it involves

2428

01:24:55,830 --> 01:24:53,199

our own human nature

2429

01:24:57,990 --> 01:24:55,840

and how we turn against each other when

2430

01:25:00,550 --> 01:24:58,000

faced with

2431

01:25:01,910 --> 01:25:00,560

potentially information that is

2432

01:25:04,149 --> 01:25:01,920

existential

2433

01:25:05,750 --> 01:25:04,159

um

2434

01:25:08,149 --> 01:25:05,760

you know we're really we're fragile

2435

01:25:09,750 --> 01:25:08,159

species

2436

01:25:13,030 --> 01:25:09,760

emotionally

2437

01:25:16,310 --> 01:25:13,040

and anytime you you

2438

01:25:20,229 --> 01:25:17,590

beliefs

2439

01:25:24,310 --> 01:25:20,239

or the way that they view the universe

2440

01:25:25,110 --> 01:25:24,320

the very very first reaction is to to to

2441

01:25:27,270 --> 01:25:25,120

fight

2442

01:25:29,430 --> 01:25:27,280

you know and it's disbelief no no i'm

2443

01:25:31,750 --> 01:25:29,440

not wrong you're wrong

2444

01:25:34,149 --> 01:25:31,760

and um

2445

01:25:36,149 --> 01:25:34,159

you know we we have a hard time really

2446

01:25:38,310 --> 01:25:36,159

changing changing our views even in the

2447

01:25:40,470 --> 01:25:38,320

face of new evidence

2448

01:25:42,070 --> 01:25:40,480

we we would rather reject the evidence

2449

01:25:43,830 --> 01:25:42,080

in favor of our own preconceived

2450

01:25:47,030 --> 01:25:43,840

opinions

2451
01:25:49,430 --> 01:25:47,040
and that's problematic because because

2452
01:25:51,030 --> 01:25:49,440
real science doesn't work that way

2453
01:25:52,950 --> 01:25:51,040
real science is about constant

2454
01:25:55,430 --> 01:25:52,960
evaluation and re-evaluation of your

2455
01:25:56,870 --> 01:25:55,440
hypothesis and and testing this

2456
01:25:57,990 --> 01:25:56,880
hypothesis

2457
01:26:00,070 --> 01:25:58,000
um

2458
01:26:01,030 --> 01:26:00,080
and and being your own you know worst

2459
01:26:03,669 --> 01:26:01,040
critic

2460
01:26:05,669 --> 01:26:03,679
because that's that's how you find flaws

2461
01:26:08,149 --> 01:26:05,679
in theories and you have to be willing

2462
01:26:09,750 --> 01:26:08,159
to find flaws in your own theories you

2463
01:26:11,590 --> 01:26:09,760

have to you have to look in the mirror

2464

01:26:14,070 --> 01:26:11,600

you have to be able to do that

2465

01:26:16,070 --> 01:26:14,080

and this topic is you know it's so

2466

01:26:18,709 --> 01:26:16,080

mysterious and it has a potential for

2467

01:26:20,390 --> 01:26:18,719

our species in such a profound way

2468

01:26:22,950 --> 01:26:20,400

that there's a lot of people who just

2469

01:26:24,790 --> 01:26:22,960

can't even even conceive it they'd

2470

01:26:25,910 --> 01:26:24,800

rather spend their time

2471

01:26:27,669 --> 01:26:25,920

you know

2472

01:26:30,870 --> 01:26:27,679

watching keeping up with the Kardashians

2473

01:26:33,110 --> 01:26:30,880

and again nothing wrong with that but

2474

01:26:34,709 --> 01:26:33,120

but when given a choice you know

2475

01:26:36,550 --> 01:26:34,719

do you want to have a conversation about

2476

01:26:38,229 --> 01:26:36,560

potentially something that is that is

2477

01:26:39,750 --> 01:26:38,239

relevant to our entire species and our

2478

01:26:41,910 --> 01:26:39,760

existence

2479

01:26:43,910 --> 01:26:41,920

um a lot of people you know going back

2480

01:26:45,350 --> 01:26:43,920

to the old cliché of the matrix movie

2481

01:26:46,629 --> 01:26:45,360

they they you know they'll they'll go

2482

01:26:47,990 --> 01:26:46,639

for that blue pill every time they think

2483

01:26:49,750 --> 01:26:48,000

they want the red pill but in reality

2484

01:26:51,590 --> 01:26:49,760

they don't they want the blue pill

2485

01:26:53,590 --> 01:26:51,600

they want to they want to remain

2486

01:26:55,430 --> 01:26:53,600

comfortable in their the little shiny

2487

01:26:57,590 --> 01:26:55,440

box that they've created for themselves

2488

01:26:59,590 --> 01:26:57,600

with limitations and boundaries and okay

2489

01:27:01,270 --> 01:26:59,600

this is where i am this is who i am and

2490

01:27:02,390 --> 01:27:01,280

this is where i fit

2491

01:27:03,750 --> 01:27:02,400

um

2492

01:27:06,709 --> 01:27:03,760

people are very uncomfortable with the

2493

01:27:08,390 --> 01:27:06,719

unknown um it's just it's just

2494

01:27:09,270 --> 01:27:08,400

the way we are as a species we don't

2495

01:27:10,870 --> 01:27:09,280

like

2496

01:27:11,830 --> 01:27:10,880

uh the unknown

2497

01:27:16,629 --> 01:27:11,840

and

2498

01:27:19,110 --> 01:27:16,639

important because

2499

01:27:20,310 --> 01:27:19,120

we expect them to have answers for us

2500

01:27:21,830 --> 01:27:20,320

and uh

2501

01:27:23,110 --> 01:27:21,840

and when they don't it makes us very

2502

01:27:24,870 --> 01:27:23,120

uncomfortable

2503

01:27:26,390 --> 01:27:24,880

and this is a topic where there's a lot

2504

01:27:27,669 --> 01:27:26,400

more questions and there are answers

2505

01:27:29,030 --> 01:27:27,679

right now and it makes a lot of people

2506

01:27:32,390 --> 01:27:29,040

uncomfortable so

2507

01:27:34,390 --> 01:27:32,400

you know they they tend to you know

2508

01:27:35,830 --> 01:27:34,400

focus on other things i guess

2509

01:27:37,990 --> 01:27:35,840

and by the way that's not a bad thing

2510

01:27:39,830 --> 01:27:38,000

it's not i'm not saying this to try to

2511

01:27:41,910 --> 01:27:39,840

make anyone feel terrible or make

2512

01:27:45,110 --> 01:27:41,920

anybody feel you know mad for not

2513

01:27:47,030 --> 01:27:45,120

considering this topic a serious topic

2514

01:27:49,350 --> 01:27:47,040

it's just the way we are as a species

2515

01:27:51,189 --> 01:27:49,360

you know we we don't like

2516

01:27:53,030 --> 01:27:51,199

we don't like unanswered questions and

2517

01:27:54,629 --> 01:27:53,040

it's probably an evolutionary thing

2518

01:27:56,070 --> 01:27:54,639

probably goes back to the

2519

01:27:57,990 --> 01:27:56,080

you know

2520

01:27:59,669 --> 01:27:58,000

our instinct of fight-or-flight because

2521

01:28:01,110 --> 01:27:59,679

something that is unknown something that

2522

01:28:03,110 --> 01:28:01,120

we don't recognize could be a potential

2523

01:28:05,910 --> 01:28:03,120

threat therefore we're afraid of it

2524

01:28:06,950 --> 01:28:05,920

right or we fight it one of the two

2525

01:28:08,790 --> 01:28:06,960

and so

2526

01:28:10,149 --> 01:28:08,800

so yeah there you have it that's i think

2527

01:28:12,149 --> 01:28:10,159

that's probably

2528

01:28:14,229 --> 01:28:12,159

the biggest fear i have regarding this

2529

01:28:17,189 --> 01:28:14,239

topic isn't the topic itself it's our

2530

01:28:19,189 --> 01:28:17,199

reaction to the topic

2531

01:28:20,550 --> 01:28:19,199

i've got two more listener questions

2532

01:28:22,790 --> 01:28:20,560

from michelle

2533

01:28:24,310 --> 01:28:22,800

are there sensors in use by the us

2534

01:28:26,390 --> 01:28:24,320

military that are tasked to be

2535

01:28:28,229 --> 01:28:26,400

specifically specifically track

2536

01:28:30,629 --> 01:28:28,239

anomalies signatures with parameters

2537

01:28:32,390 --> 01:28:30,639

guided by uap encounters

2538

01:28:34,070 --> 01:28:32,400

can't answer that question

2539

01:28:37,430 --> 01:28:34,080

great question michelle

2540

01:28:40,470 --> 01:28:37,440

i uh but unfortunately i i cannot uh we

2541

01:28:43,270 --> 01:28:40,480

have we have capabilities that certainly

2542

01:28:47,110 --> 01:28:43,280

have the technical capabilities to to to

2543

01:28:49,669 --> 01:28:47,120

to track uap uh but but are those

2544

01:28:53,590 --> 01:28:49,679

deliberately focusing on uab i cannot i

2545

01:28:59,030 --> 01:28:55,750

final question from mike how would your

2546

01:29:01,590 --> 01:28:59,040

family say you have changed since 2007

2547

01:29:03,110 --> 01:29:01,600

i.e before you started the a-tip

2548

01:29:04,390 --> 01:29:03,120

you know you'd have to ask them i

2549

01:29:05,350 --> 01:29:04,400

wouldn't want to answer for my family i

2550

01:29:07,110 --> 01:29:05,360

think they'd probably tell you i'm

2551

01:29:08,390 --> 01:29:07,120

exactly the same

2552

01:29:12,070 --> 01:29:08,400

i've always been

2553

01:29:14,070 --> 01:29:12,080

been lou elizondo not trying to be

2554

01:29:16,390 --> 01:29:14,080

anything or anybody else

2555

01:29:19,189 --> 01:29:16,400

um i've always approached

2556

01:29:20,870 --> 01:29:19,199

challenges the same way you know try try

2557

01:29:22,790 --> 01:29:20,880

to be open-minded try to be aware of my

2558

01:29:25,350 --> 01:29:22,800

own cognitive bias

2559

01:29:29,110 --> 01:29:25,360

when i can and try to keep it in check

2560

01:29:32,149 --> 01:29:29,120

um always be careful of of pride and ego

2561

01:29:33,189 --> 01:29:32,159

interfering with with the pursuit of of

2562

01:29:35,270 --> 01:29:33,199

truth

2563

01:29:37,110 --> 01:29:35,280

um

2564

01:29:39,510 --> 01:29:37,120

i don't think i've changed at all

2565

01:29:41,030 --> 01:29:39,520

you know i i've always kind of i think

2566

01:29:42,790 --> 01:29:41,040

been this way but again you'd have to

2567

01:29:44,390 --> 01:29:42,800

ask them because you know

2568

01:29:46,950 --> 01:29:44,400

the question is really how do they see

2569

01:29:48,629 --> 01:29:46,960

right and not how i do how do i see me

2570

01:29:50,550 --> 01:29:48,639

and those are two different things

2571

01:29:52,390 --> 01:29:50,560

um i suspect they would tell you that

2572

01:29:54,709 --> 01:29:52,400

but ultimately you know maybe maybe set

2573

01:29:57,110 --> 01:29:54,719

up an interview with

2574

01:29:58,709 --> 01:29:57,120

talk to my wife maybe talk to my kids

2575

01:30:01,430 --> 01:29:58,719

and ask them that question no problem

2576

01:30:03,110 --> 01:30:01,440

problem with you asking

2577

01:30:04,790 --> 01:30:03,120

i'd happily do that and i'm sure people

2578

01:30:06,229 --> 01:30:04,800

would like to hear from them as well if

2579

01:30:07,669 --> 01:30:06,239

they would happily get in front of a mic

2580

01:30:10,070 --> 01:30:07,679

and or camera

2581

01:30:12,070 --> 01:30:10,080

lou um our time is almost up and you've

2582

01:30:13,910 --> 01:30:12,080

mentioned that you're for for various

2583

01:30:15,510 --> 01:30:13,920

reasons going to be stepping away in the

2584

01:30:18,629 --> 01:30:15,520

near future from from these sorts of

2585

01:30:20,470 --> 01:30:18,639

appearances for an amount of time and i

2586

01:30:22,229 --> 01:30:20,480

would hope selfishly that's not for too

2587

01:30:23,990 --> 01:30:22,239

long but we don't know i just want to

2588

01:30:26,149 --> 01:30:24,000

give you the floor to finish the podcast

2589

01:30:29,030 --> 01:30:26,159

to speak to the audience and give some

2590

01:30:30,790 --> 01:30:29,040

final words on advice how you're feeling

2591

01:30:35,110 --> 01:30:30,800

and just you know what they can do going

2592

01:30:37,110 --> 01:30:35,120

forward well first of all andy and dan

2593

01:30:38,870 --> 01:30:37,120

let me let me thank you guys profoundly

2594

01:30:41,270 --> 01:30:38,880

for for the service you're providing for

2595

01:30:43,189 --> 01:30:41,280

the for the rest of us chickens um it's

2596

01:30:45,270 --> 01:30:43,199

very very appreciated

2597

01:30:47,030 --> 01:30:45,280

and of course to your audience

2598

01:30:49,830 --> 01:30:47,040

for taking the time

2599

01:30:51,510 --> 01:30:49,840

to spend with us here today and and

2600

01:30:53,189 --> 01:30:51,520

and listen um

2601

01:30:55,189 --> 01:30:53,199

know this

2602

01:30:57,189 --> 01:30:55,199

um

2603

01:30:58,229 --> 01:30:57,199

you are the most important piece to this

2604

01:30:59,990 --> 01:30:58,239

equation

2605

01:31:02,229 --> 01:31:00,000

every single one of you in the audience

2606

01:31:03,350 --> 01:31:02,239

it's not me it's not andy it's not dan

2607

01:31:04,229 --> 01:31:03,360

it's you

2608

01:31:05,590 --> 01:31:04,239

um

2609

01:31:06,950 --> 01:31:05,600

we're doing this for you because

2610

01:31:08,310 --> 01:31:06,960

ultimately you're gonna have to make a

2611

01:31:09,990 --> 01:31:08,320

decision

2612

01:31:12,310 --> 01:31:10,000

not me

2613

01:31:14,149 --> 01:31:12,320

uh and that decision is is this topic

2614

01:31:17,270 --> 01:31:14,159

important enough that we need to

2615

01:31:18,629 --> 01:31:17,280

continue to pursue this as a species

2616

01:31:21,189 --> 01:31:18,639

maybe it's not

2617

01:31:25,430 --> 01:31:21,199

that's not up to me

2618

01:31:27,510 --> 01:31:25,440

that responsibility falls in in your lab

2619

01:31:30,149 --> 01:31:27,520

and so

2620

01:31:33,510 --> 01:31:30,159

i hope that that you continue this

2621

01:31:35,590 --> 01:31:33,520

pioneering spirit of asking questions

2622

01:31:37,750 --> 01:31:35,600

uh to include even asking me and

2623

01:31:39,430 --> 01:31:37,760

challenging me

2624

01:31:42,550 --> 01:31:39,440

i think i think it's

2625

01:31:44,709 --> 01:31:42,560

it's important because ultimately

2626

01:31:46,950 --> 01:31:44,719

ultimately you deserve the answers

2627

01:31:49,669 --> 01:31:46,960

whatever those answers are i think i

2628

01:31:52,950 --> 01:31:49,679

think you deserve those answers

2629

01:31:54,149 --> 01:31:52,960

and i guess as far as my my advice is

2630

01:31:55,910 --> 01:31:54,159

you know don't

2631

01:31:57,590 --> 01:31:55,920

don't stop asking the questions be

2632

01:32:00,070 --> 01:31:57,600

fearless in your pursuit of the truth

2633

01:32:01,590 --> 01:32:00,080

wherever that truth may lie

2634

01:32:05,750 --> 01:32:01,600

um

2635

01:32:08,790 --> 01:32:05,760

because ultimately you know it's it's

2636

01:32:10,310 --> 01:32:08,800

it it's for you

2637

01:32:12,149 --> 01:32:10,320

you deserve it

2638

01:32:13,189 --> 01:32:12,159

don't let other people make up make a

2639

01:32:14,709 --> 01:32:13,199

decision

2640

01:32:17,270 --> 01:32:14,719

on your behalf

2641

01:32:20,390 --> 01:32:17,280

whether or not you deserve information

2642

01:32:22,149 --> 01:32:20,400

that those days are over you know

2643

01:32:24,070 --> 01:32:22,159

you now have the ability and the power

2644

01:32:26,950 --> 01:32:24,080

in your hands to to to make that

2645

01:32:30,390 --> 01:32:26,960

decision yourself i wouldn't be so quick

2646

01:32:31,910 --> 01:32:30,400

to to to obfuscate that or or just give

2647

01:32:34,629 --> 01:32:31,920

it away to anybody else because that's

2648

01:32:38,870 --> 01:32:36,310

so i guess that's

2649

01:32:40,870 --> 01:32:38,880

that would be my advice to to to anybody

2650

01:32:42,149 --> 01:32:40,880

in the audience who

2651
01:32:44,870 --> 01:32:42,159
who wants

2652
01:32:48,229 --> 01:32:46,310
what my what my

2653
01:32:50,470 --> 01:32:48,239
what my uh

2654
01:32:51,990 --> 01:32:50,480
what my position is and what my advice

2655
01:32:54,070 --> 01:32:52,000
to you is

2656
01:32:56,070 --> 01:32:54,080
that is all for this week's show thank

2657
01:32:58,229 --> 01:32:56,080
you very much for listening please

2658
01:33:00,709 --> 01:32:58,239
remember to leave the podcast review on

twitter it's at ufo uap am and again

2669

01:33:27,250 --> 01:33:24,560

folks as always keep looking up you

2670

01:33:47,669 --> 01:33:27,260

never know what you might see

2671

01:33:47,679 --> 01:33:54,370

is

2672

01:33:54,380 --> 01:34:03,350

[Music]

2673

01:34:17,020 --> 01:34:04,790

i can't imagine how it could have been

2674

01:34:17,030 --> 01:34:24,149

[Music]

2675

01:34:27,110 --> 01:34:25,430

there was something on my head and

2676

01:34:28,870 --> 01:34:27,120

everything was weird and everything was

2677

01:34:30,229 --> 01:34:28,880

red i helped out my boys they thought

2678

01:34:37,960 --> 01:34:30,239

this was nice they thought it was a

2679

01:34:52,709 --> 01:34:44,870

[Music]

2680

01:34:52,719 --> 01:34:57,930

what's that

2681

01:35:25,510 --> 01:35:02,550

[Music]

2682

01:35:32,870 --> 01:35:26,950

is

2683

01:35:34,709 --> 01:35:32,880

[Music]

2684

01:35:45,850 --> 01:35:34,719

it wasn't a tic tac and not quite a

2685

01:36:21,669 --> 01:36:06,480

[Music]

2686

01:36:21,679 --> 01:36:26,480

yes
