1
00:00:08,390 --> 00:00:05,349
you mentioned the the previous

2
00:00:10,310 --> 00:00:08,400
programs finished in 1995 does it not

3
00:00:12,870 --> 00:00:10,320
give you some kind of hope or have you

4
00:00:14,070 --> 00:00:12,880
ever had any incline that other projects

5
00:00:16,150 --> 00:00:14,080
have gone on

6
00:00:18,470 --> 00:00:16,160
in some capacity we heard about ossap

7
00:00:19,750 --> 00:00:18,480
and atip that obviously happened and no

8
00:00:21,269 --> 00:00:19,760
one would have ever thought the us

9
00:00:23,830 --> 00:00:21,279
government would have had official

10
00:00:25,830 --> 00:00:23,840
acknowledgement of ufo programs that

11
00:00:27,589 --> 00:00:25,840
there may have still been some aspect of

12
00:00:29,669 --> 00:00:27,599
a program going on in the background on

13
00:00:32,229 --> 00:00:29,679

remote viewing or do you think it would

14

00:00:35,590 --> 00:00:32,239

have to come from a more

15

00:00:38,310 --> 00:00:35,600

out there character like above bigelow

16

00:00:40,709 --> 00:00:38,320

well that's a really good question um

17

00:00:43,110 --> 00:00:40,719

a year ago i would have said

18

00:00:46,470 --> 00:00:44,389

because i'm quite involved with quite a

19

00:00:48,950 --> 00:00:46,480

lot of people within the community not

20

00:00:50,630 --> 00:00:48,960

only that i uh i do a lot of historical

21

00:00:52,869 --> 00:00:50,640

research you know looking at people's

22

00:00:53,990 --> 00:00:52,879

archives in in the universities and and

23

00:00:56,150 --> 00:00:54,000

so forth

24

00:00:57,270 --> 00:00:56,160

and i'd seen no evidence whatsoever of

25

00:00:58,549 --> 00:00:57,280

that

26

00:01:03,029 --> 00:00:58,559

um

27

00:01:04,149 --> 00:01:03,039

but i have had two separately confirmed

28

00:01:05,990 --> 00:01:04,159

statements

29

00:01:07,109 --> 00:01:06,000

and i'm being careful what i say here

30

00:01:08,230 --> 00:01:07,119

because i'm not like to mention any

31

00:01:10,630 --> 00:01:08,240

names

32

00:01:13,030 --> 00:01:10,640

um i had two very

33

00:01:14,710 --> 00:01:13,040

knowledgeable higher

34

00:01:16,789 --> 00:01:14,720

people in the know

35

00:01:17,830 --> 00:01:16,799

independently confirmed to me that there

36

00:01:20,390 --> 00:01:17,840

are

37

00:01:23,590 --> 00:01:20,400

certain uh agencies

38

00:01:24,789 --> 00:01:23,600

still using active remote viewing um

39

00:01:26,870 --> 00:01:24,799

operations

40

00:01:28,469 --> 00:01:26,880

and that's only been in the last four or

41

00:01:31,350 --> 00:01:28,479

five months

42

00:01:33,190 --> 00:01:31,360

so i have to take those um

43

00:01:35,590 --> 00:01:33,200

statements very credible because the the

44

00:01:38,069 --> 00:01:35,600

people are very credible um

45

00:01:39,510 --> 00:01:38,079

so yeah i have to assume that my

46

00:01:41,429 --> 00:01:39,520

previous 20 years and not been able to

47

00:01:44,069 --> 00:01:41,439

find anything whatsoever on an active

48

00:01:45,749 --> 00:01:44,079

program it's probably superseded and it

49

00:01:47,590 --> 00:01:45,759

there probably is but i think it's

50

00:01:49,749 --> 00:01:47,600

probably gone the way of like the the

51
00:01:51,670 --> 00:01:49,759
uap research whereas it's

52
00:01:53,990 --> 00:01:51,680
gone into like private

53
00:01:55,510 --> 00:01:54,000
subcontracted organizations so it's not

54
00:01:58,230 --> 00:01:55,520
like you know it wouldn't be like the

55
00:01:58,950 --> 00:01:58,240
nsa or cia or you know anyone got their

56
00:02:00,950 --> 00:01:58,960
own

57
00:02:03,910 --> 00:02:00,960
remote viewing unit or something they

58
00:02:07,030 --> 00:02:03,920
probably subcontract out to some kind of

59
00:02:07,830 --> 00:02:07,040
organization or corporation that gives

60
00:02:10,150 --> 00:02:07,840
them

61
00:02:11,830 --> 00:02:10,160
data and you you know you've seen how it

62
00:02:14,309 --> 00:02:11,840
is with the reports we've been seeing

63
00:02:15,589 --> 00:02:14,319

coming out recently about uaps it's

64

00:02:16,949 --> 00:02:15,599

probably not even called remote viewing

65

00:02:19,070 --> 00:02:16,959

anymore it's probably called some kind

66

00:02:20,710 --> 00:02:19,080

of weird kind of like i don't know

67

00:02:22,309 --> 00:02:20,720

non-local

68

00:02:23,990 --> 00:02:22,319

information

69

00:02:25,430 --> 00:02:24,000

you know report number one or something

70

00:02:27,270 --> 00:02:25,440

something like that you know it's going

71

00:02:28,229 --> 00:02:27,280

to be something innocuous and hidden

72

00:02:31,910 --> 00:02:28,239

away

73

00:02:34,070 --> 00:02:31,920

yeah so yeah i do believe now that uh it
