GARRY NOLAN
MICROBIOLOGY & IMMUNOLOGY

1
00:00:05,510 --> 00:00:02,950
we'll see hitchhiker implies something

2
00:00:08,549 --> 00:00:05,520
has attached to you

3
00:00:09,589 --> 00:00:08,559
um but maybe a different way of talking

4
00:00:10,870 --> 00:00:09,599
about it

5
00:00:13,110 --> 00:00:10,880
is

6
00:00:15,270 --> 00:00:13,120
that you're now open

7
00:00:16,710 --> 00:00:15,280
to observing things that you couldn't

8
00:00:18,710 --> 00:00:16,720
see before

9
00:00:20,710 --> 00:00:18,720
but that there's a

10
00:00:23,590 --> 00:00:20,720
dialectic right there's a discussion

11
00:00:26,230 --> 00:00:23,600
that you seeing

12
00:00:30,150 --> 00:00:26,240
leads to a feedback

13
00:00:31,589 --> 00:00:30,160

that it knows it's been seen and so you

14

00:00:33,670 --> 00:00:31,599

see it more

15

00:00:35,510 --> 00:00:33,680

right i used a term

16

00:00:36,310 --> 00:00:35,520

lighthouses in the dark

17

00:00:40,150 --> 00:00:36,320

uh

18

00:00:43,590 --> 00:00:40,160

phenomenon that some people seem to be

19

00:00:45,990 --> 00:00:43,600

lighthouses in the dark almost as if

20

00:00:47,830 --> 00:00:46,000

the ability to see

21

00:00:50,549 --> 00:00:47,840

is

22

00:00:52,630 --> 00:00:50,559

observable from elsewhere

23

00:00:53,510 --> 00:00:52,640

and so it gets attracted to you but once

24

00:00:59,270 --> 00:00:53,520

you've

25

00:01:00,709 --> 00:00:59,280

and so hitchhiker implies a negative

26

00:01:02,869 --> 00:01:00,719

kind of thing something sitting on your

27

00:01:04,149 --> 00:01:02,879

shoulder as opposed to

28

00:01:06,149 --> 00:01:04,159

you're open

29

00:01:08,710 --> 00:01:06,159

to seeing it and so therefore it's
