

UFO HEARINGS

THE

BREAKDOWN

1
00:00:00,000 --> 00:00:12,310

[Music]

2
00:00:17,029 --> 00:00:14,470

it was basically a cube with inside of

3
00:00:21,980 --> 00:00:17,039

sphere where the points of the cube

4
00:00:21,990 --> 00:00:35,190

[Music]

5
00:00:39,030 --> 00:00:36,790

so this isn't anything that just is

6
00:00:40,580 --> 00:00:39,040

limited to the united states it's a

7
00:00:46,470 --> 00:00:40,590

worldwide phenomenon

8
00:00:50,790 --> 00:00:48,869

hi everyone and welcome back to that ufo

9
00:00:53,350 --> 00:00:50,800

podcast the breaking news podcast

10
00:00:57,189 --> 00:00:53,360

covering the uap congressional hearings

11
00:00:59,910 --> 00:00:57,199

that happened the 17th of may 2022 hot

12
00:01:01,830 --> 00:00:59,920

off the press um fresh from

13
00:01:04,789 --> 00:01:01,840

a live stream of it making notes

14

00:01:07,030 --> 00:01:04,799

discussion dan is with me dan hello

15

00:01:09,030 --> 00:01:07,040

my eyes burn from the screen andy

16

00:01:10,950 --> 00:01:09,040

i can imagine

17

00:01:12,950 --> 00:01:10,960

the goggles they do nothing to quote the

18

00:01:14,230 --> 00:01:12,960

simpsons nice

19

00:01:16,230 --> 00:01:14,240

yeah that's a good reference straight

20

00:01:17,749 --> 00:01:16,240

off the bat listen this we're going to

21

00:01:20,630 --> 00:01:17,759

tell you straight from the off um it

22

00:01:22,630 --> 00:01:20,640

only happened four or five hours ago i i

23

00:01:25,670 --> 00:01:22,640

was working so missed the first sort of

24

00:01:26,950 --> 00:01:25,680

45 minutes ish of the the proceedings

25

00:01:28,149 --> 00:01:26,960

i've not had a chance to go back and

26

00:01:30,069 --> 00:01:28,159

watch but i've just been catching up

27

00:01:32,230 --> 00:01:30,079

with dan and i was tweeting all day and

28

00:01:34,149 --> 00:01:32,240

stuff as well um but i did manage to

29

00:01:37,190 --> 00:01:34,159

catch pretty much the full full second

30

00:01:39,510 --> 00:01:37,200

half as such and yeah it's uh very much

31

00:01:41,510 --> 00:01:39,520

our thoughts just

32

00:01:42,870 --> 00:01:41,520

as it's after it's happened and of

33

00:01:44,069 --> 00:01:42,880

course later in the week i think we're

34

00:01:46,389 --> 00:01:44,079

going to do a little bit of a breakdown

35

00:01:47,910 --> 00:01:46,399

on some bits and pieces of news and as

36

00:01:49,990 --> 00:01:47,920

things continue to come out from the

37

00:01:51,749 --> 00:01:50,000

congressional hearings today then we can

38

00:01:53,270 --> 00:01:51,759

kind of share some more rounded thoughts

39

00:01:55,190 --> 00:01:53,280

but these are very much our instant

40

00:01:57,190 --> 00:01:55,200

reactions then fair to say yeah

41

00:01:59,030 --> 00:01:57,200

absolutely it's uh you know it's it's

42

00:02:00,310 --> 00:01:59,040

fresh uh things are still falling into

43

00:02:02,630 --> 00:02:00,320

place there are articles being published

44

00:02:04,069 --> 00:02:02,640

by journalists as we speak uh this is

45

00:02:06,469 --> 00:02:04,079

kind of set in the world on fire a

46

00:02:08,389 --> 00:02:06,479

little bit it's it's very cool it's

47

00:02:10,070 --> 00:02:08,399

fresh and steamy like a hot pile of

48

00:02:12,070 --> 00:02:10,080

organic matter that's fallen from a

49

00:02:13,510 --> 00:02:12,080

craft that we don't know what it is

50

00:02:15,750 --> 00:02:13,520

you have to work that into a manscape

51
00:02:18,630 --> 00:02:15,760
dad at some point i'll i will put it to

52
00:02:20,390 --> 00:02:18,640
one of the landscape yeah oh god um but

53
00:02:21,830 --> 00:02:20,400
yeah i mean you know what it was almost

54
00:02:23,910 --> 00:02:21,840
a quote we got from one of the

55
00:02:27,030 --> 00:02:23,920
congressmen actually uh during the

56
00:02:29,589 --> 00:02:27,040
hearings and i put up a quick poll

57
00:02:30,630 --> 00:02:29,599
yesterday asking people did they think

58
00:02:33,190 --> 00:02:30,640
we would hear like the word

59
00:02:34,869 --> 00:02:33,200
extraterrestrial you know e.t that kind

60
00:02:36,710 --> 00:02:34,879
of stuff and most folk were like no and

61
00:02:40,390 --> 00:02:36,720
i didn't expect to either but

62
00:02:42,790 --> 00:02:40,400
we got wreckage we got you know et

63
00:02:44,390 --> 00:02:42,800

we got life potentially traveling here

64

00:02:47,509 --> 00:02:44,400
from other places

65

00:02:49,350 --> 00:02:47,519
i i was blown away by the rea the

66

00:02:50,790 --> 00:02:49,360
language the terminology the body

67

00:02:52,470 --> 00:02:50,800
language the officials were pretty

68

00:02:53,990 --> 00:02:52,480
informed right like

69

00:02:55,350 --> 00:02:54,000
those testifying but certainly those

70

00:02:57,509 --> 00:02:55,360
asking the questions i was i was

71

00:02:58,790 --> 00:02:57,519
impressed i feel like they'd either you

72

00:03:00,390 --> 00:02:58,800
know had

73

00:03:02,229 --> 00:03:00,400
had the ear of someone who could guide

74

00:03:04,309 --> 00:03:02,239
them uh you know maybe some of their

75

00:03:06,630 --> 00:03:04,319
constituents or you know they've just

76
00:03:09,589 --> 00:03:06,640
done their research i mean impressed

77
00:03:11,190 --> 00:03:09,599
it's no secret that lou elizondo was in

78
00:03:13,270 --> 00:03:11,200
washington a few days ago his picture

79
00:03:15,190 --> 00:03:13,280
was put online by loads of people on

80
00:03:16,830 --> 00:03:15,200
twitter and stuff and you would imagine

81
00:03:20,229 --> 00:03:16,840
other people like that

82
00:03:21,750 --> 00:03:20,239
would have hopefully helped shape and

83
00:03:24,789 --> 00:03:21,760
mold the questions that were going to be

84
00:03:26,470 --> 00:03:24,799
asked um even like the republicans and

85
00:03:28,229 --> 00:03:26,480
democrats who have an interest in this

86
00:03:29,670 --> 00:03:28,239
on the pilots that were there just being

87
00:03:31,430 --> 00:03:29,680
able to throw in that you know we really

88
00:03:32,949 --> 00:03:31,440

should ask about this and i was amazed

89

00:03:35,030 --> 00:03:32,959

at what came up

90

00:03:37,910 --> 00:03:35,040

yeah absolutely um you know we we know

91

00:03:40,470 --> 00:03:37,920

that briefings have been ongoing um for

92

00:03:43,589 --> 00:03:40,480

a while now uh even behind closed doors

93

00:03:45,190 --> 00:03:43,599

um in 2019 uh that you know just there's

94

00:03:47,350 --> 00:03:45,200

been a lot of briefings going on so i

95

00:03:48,390 --> 00:03:47,360

think the the circle of people who kind

96

00:03:49,750 --> 00:03:48,400

of know

97

00:03:52,309 --> 00:03:49,760

or are getting to know the history of

98

00:03:54,710 --> 00:03:52,319

this subject is steadily growing

99

00:03:57,030 --> 00:03:54,720

the two gentlemen in question being

100

00:03:59,830 --> 00:03:57,040

questioned grilled uh cross-examined

101
00:04:01,670 --> 00:03:59,840
whatever it was today it were uh johnny

102
00:04:03,670 --> 00:04:01,680
depp and amber heard oh wait sorry no

103
00:04:05,509 --> 00:04:03,680
that's the that's the cork yeah that's

104
00:04:07,670 --> 00:04:05,519
the other court case yeah and that was

105
00:04:11,030 --> 00:04:07,680
that ronald miltray the right honourable

106
00:04:13,509 --> 00:04:11,040
and uh mr scott bray the ronald miltray

107
00:04:15,429 --> 00:04:13,519
is the under secretary of defense

108
00:04:16,629 --> 00:04:15,439
is that the exact same title that chris

109
00:04:17,430 --> 00:04:16,639
mellon held

110
00:04:18,629 --> 00:04:17,440
but

111
00:04:20,390 --> 00:04:18,639
back in the day

112
00:04:22,150 --> 00:04:20,400
i think it is a good question it sounds

113
00:04:23,590 --> 00:04:22,160

familiar doesn't it yeah i'm pretty sure

114

00:04:25,270 --> 00:04:23,600

it is unless there is a little bit more

115

00:04:27,350 --> 00:04:25,280

to the end of it like for for counting

116

00:04:29,350 --> 00:04:27,360

intelligence or something but it may or

117

00:04:31,270 --> 00:04:29,360

may not be his you know predecessor

118

00:04:33,189 --> 00:04:31,280

predecessor predecessor as such but

119

00:04:35,430 --> 00:04:33,199

deputy assistant to the secretary of

120

00:04:36,870 --> 00:04:35,440

defense so different different title it

121

00:04:38,390 --> 00:04:36,880

is close okay it's a little about david

122

00:04:41,110 --> 00:04:38,400

brent isn't it assistant manager

123

00:04:43,110 --> 00:04:41,120

assistant to the manager okay i'm sure

124

00:04:45,189 --> 00:04:43,120

it's still a very well paid and lovely

125

00:04:46,070 --> 00:04:45,199

pension position to be in

126

00:04:47,990 --> 00:04:46,080

and

127

00:04:50,230 --> 00:04:48,000

yeah scott bray is the deputy director

128

00:04:54,070 --> 00:04:50,240

of naval intelligence which again

129

00:04:56,629 --> 00:04:54,080

is a pretty lofty role to be to be in i

130

00:04:59,830 --> 00:04:56,639

thought of the two over the course scott

131

00:05:01,350 --> 00:04:59,840

bray was particularly anxious and

132

00:05:02,390 --> 00:05:01,360

jittery at times

133

00:05:03,270 --> 00:05:02,400

and

134

00:05:05,430 --> 00:05:03,280

he may be

135

00:05:06,950 --> 00:05:05,440

naval intelligence is a misnomer that

136

00:05:07,830 --> 00:05:06,960

those two words don't go together you

137

00:05:10,469 --> 00:05:07,840

know

138

00:05:12,870 --> 00:05:10,479

yeah and listen i i get

139

00:05:14,790 --> 00:05:12,880

it was partly a job well done to those

140

00:05:16,710 --> 00:05:14,800

who are questioning because the

141

00:05:18,790 --> 00:05:16,720

directness of the questions and the

142

00:05:19,670 --> 00:05:18,800

follow-ups were pretty ferocious at

143

00:05:21,029 --> 00:05:19,680

times

144

00:05:23,430 --> 00:05:21,039

and

145

00:05:25,189 --> 00:05:23,440

those political throwaway

146

00:05:27,430 --> 00:05:25,199

lines that were sometimes regurgitated

147

00:05:29,430 --> 00:05:27,440

or genetic vague answers

148

00:05:31,350 --> 00:05:29,440

were were met with another question back

149

00:05:33,110 --> 00:05:31,360

or sometimes quite derogatory statements

150

00:05:34,710 --> 00:05:33,120

as well that you know

151
00:05:36,230 --> 00:05:34,720
quite damning of the answer that had

152
00:05:37,909 --> 00:05:36,240
come back at them which is

153
00:05:39,510 --> 00:05:37,919
fair play like they got accused of

154
00:05:41,270 --> 00:05:39,520
hitting a bunch of low-hanging fruit or

155
00:05:42,550 --> 00:05:41,280
not giving very strong statements you

156
00:05:43,749 --> 00:05:42,560
know these weren't officials that were

157
00:05:45,510 --> 00:05:43,759
just

158
00:05:47,189 --> 00:05:45,520
listening to mark zuckerberg say a bunch

159
00:05:48,870 --> 00:05:47,199
of techy words they didn't understand

160
00:05:51,189 --> 00:05:48,880
these guys really went for it

161
00:05:52,950 --> 00:05:51,199
they were well metaversed in what they

162
00:05:55,270 --> 00:05:52,960
were talking about

163
00:05:57,670 --> 00:05:55,280

i'm going to stop with the puns uh so

164

00:06:00,070 --> 00:05:57,680

yeah we had among others andre carson

165

00:06:02,870 --> 00:06:00,080

adam schiff mike gallagher uh dr brad

166

00:06:04,710 --> 00:06:02,880

wenstrup jim heinz and a few more i've

167

00:06:07,189 --> 00:06:04,720

not had a chance to even get everyone

168

00:06:08,390 --> 00:06:07,199

down yet um from i'll i've got full list

169

00:06:10,710 --> 00:06:08,400

aaron have you got the rest elise

170

00:06:13,029 --> 00:06:10,720

stephanie chris stewart brad wenstrup

171

00:06:15,830 --> 00:06:13,039

rick crawford val demings

172

00:06:18,830 --> 00:06:15,840

sean patrick maloney peter welch uh

173

00:06:21,590 --> 00:06:18,840

wagon castro mike quigley and andre

174

00:06:22,629 --> 00:06:21,600

carson and we also had uh adam schmidt

175

00:06:25,430 --> 00:06:22,639

as well

176

00:06:27,189 --> 00:06:25,440

we don't forget adam come on um so dan

177

00:06:32,629 --> 00:06:27,199

first thing i want to ask

178

00:06:34,390 --> 00:06:32,639

the aoi msg the aim sog the sog ami

179

00:06:35,749 --> 00:06:34,400

what's going on with the name

180

00:06:37,990 --> 00:06:35,759

we were discussing this beforehand

181

00:06:39,590 --> 00:06:38,000

weren't we as to what actually happened

182

00:06:41,749 --> 00:06:39,600

it was it was really funny actually when

183

00:06:44,790 --> 00:06:41,759

carson first said it as he was opening

184

00:06:46,309 --> 00:06:44,800

uh he called it aimsog uh which you know

185

00:06:47,909 --> 00:06:46,319

if you if you pretend that the acronym

186

00:06:49,909 --> 00:06:47,919

is a word and you say it real fast you

187

00:06:52,309 --> 00:06:49,919

you can kind of get to aim sog with the

188

00:06:54,309 --> 00:06:52,319

sega theme tune in your head so yeah

189

00:06:55,430 --> 00:06:54,319

exactly you got it um

190

00:06:56,870 --> 00:06:55,440

but

191

00:06:58,070 --> 00:06:56,880

i i literally had a note here that as

192

00:06:58,950 --> 00:06:58,080

soon as he said i put a little note

193

00:07:00,629 --> 00:06:58,960

saying

194

00:07:01,589 --> 00:07:00,639

based on that a new name is probably

195

00:07:03,510 --> 00:07:01,599

coming

196

00:07:05,589 --> 00:07:03,520

and then later on in the hearing uh it

197

00:07:06,550 --> 00:07:05,599

was said that there is a new name coming

198

00:07:08,790 --> 00:07:06,560

for it

199

00:07:10,550 --> 00:07:08,800

whether it will be astro as we loved

200

00:07:13,270 --> 00:07:10,560

when chris and gilbrand was doing her

201
00:07:14,629 --> 00:07:13,280
thing or whether it will just be uap

202
00:07:16,390 --> 00:07:14,639
task force

203
00:07:17,990 --> 00:07:16,400
i don't know but yeah it's it's pretty

204
00:07:19,670 --> 00:07:18,000
cool that it'll get a new name because

205
00:07:21,430 --> 00:07:19,680
that is a mouthful

206
00:07:23,430 --> 00:07:21,440
you mentioned kristen gillibrand why

207
00:07:25,110 --> 00:07:23,440
wasn't she involved in this

208
00:07:27,270 --> 00:07:25,120
uh we're on basically this is a

209
00:07:29,749 --> 00:07:27,280
different committee um

210
00:07:31,510 --> 00:07:29,759
and and it speaks to

211
00:07:33,110 --> 00:07:31,520
the the breadth and the amount of

212
00:07:34,870 --> 00:07:33,120
officials that are taking this seriously

213
00:07:36,390 --> 00:07:34,880

you know this is one committee out of a

214

00:07:38,550 --> 00:07:36,400

whole bunch of committees this is just a

215

00:07:40,150 --> 00:07:38,560

house hearing congress is made up of the

216

00:07:41,909 --> 00:07:40,160

house and the senate so we could still

217

00:07:43,350 --> 00:07:41,919

have senate hearings as well with this

218

00:07:45,029 --> 00:07:43,360

stuff

219

00:07:46,629 --> 00:07:45,039

where you know we're very much at the

220

00:07:48,309 --> 00:07:46,639

beginning of this process and and in

221

00:07:50,150 --> 00:07:48,319

those other spaces are all of these

222

00:07:51,510 --> 00:07:50,160

other officials uh that'll hold these

223

00:07:53,029 --> 00:07:51,520

people account to account in different

224

00:07:54,309 --> 00:07:53,039

ways so

225

00:07:56,469 --> 00:07:54,319

it's good to have all of these

226

00:07:58,309 --> 00:07:56,479

statements on record because

227

00:08:00,309 --> 00:07:58,319

what will probably end up happening now

228

00:08:01,909 --> 00:08:00,319

is that you know in a year we could have

229

00:08:03,270 --> 00:08:01,919

another hearing and they say that they

230

00:08:05,029 --> 00:08:03,280

haven't followed up with the mount from

231

00:08:07,029 --> 00:08:05,039

case or something they can now go but

232

00:08:10,230 --> 00:08:07,039

you said you were going to yeah we have

233

00:08:11,270 --> 00:08:10,240

it on video you know um and then yeah if

234

00:08:12,469 --> 00:08:11,280

the work isn't me and then they can

235

00:08:13,670 --> 00:08:12,479

follow up with legislation to make them

236

00:08:15,350 --> 00:08:13,680

do the work

237

00:08:17,670 --> 00:08:15,360

i think straight off the bat they had

238

00:08:19,749 --> 00:08:17,680

clearly been watching that ufo podcast

239

00:08:20,790 --> 00:08:19,759

on youtube because they mentioned jeremy

240

00:08:23,589 --> 00:08:20,800

corbell

241

00:08:25,589 --> 00:08:23,599

straight away which i didn't catch full

242

00:08:27,189 --> 00:08:25,599

disclosure full transparency folks which

243

00:08:29,270 --> 00:08:27,199

isn't something you necessarily got in

244

00:08:31,749 --> 00:08:29,280

these hearings uh like i said i missed

245

00:08:33,350 --> 00:08:31,759

that first portion of the the the

246

00:08:34,790 --> 00:08:33,360

hearings but what i did manage to check

247

00:08:36,709 --> 00:08:34,800

on twitter while i was working at the

248

00:08:38,469 --> 00:08:36,719

time was that jeremy corbell was

249

00:08:40,230 --> 00:08:38,479

mentioned straight away dan is that is

250

00:08:42,709 --> 00:08:40,240

that right yeah that's right uh with

251

00:08:44,149 --> 00:08:42,719

allusions to kind of uh data that kind

252

00:08:46,550 --> 00:08:44,159

of seeped out of the cracks of the

253

00:08:49,269 --> 00:08:46,560

office um and and how to secure that

254

00:08:51,990 --> 00:08:49,279

data they they actually brought in

255

00:08:53,990 --> 00:08:52,000

cobell's uh you know that triangle green

256

00:08:57,990 --> 00:08:54,000

triangle like video

257

00:08:59,910 --> 00:08:58,000

and and seemingly gave a solution for it

258

00:09:01,829 --> 00:08:59,920

it was one of two videos shown uh the

259

00:09:02,630 --> 00:09:01,839

other video we'll talk about in in a bit

260

00:09:04,310 --> 00:09:02,640

um

261

00:09:07,829 --> 00:09:04,320

but

262

00:09:10,949 --> 00:09:07,839

uh robert uh sorry i need to

263

00:09:11,910 --> 00:09:10,959

all these names yeah scott bray

264

00:09:15,750 --> 00:09:11,920

showed

265

00:09:18,150 --> 00:09:15,760

and then he said we couldn't explain

266

00:09:20,310 --> 00:09:18,160

this one but actually there was another

267

00:09:21,269 --> 00:09:20,320

event on the opposite coast not long

268

00:09:23,829 --> 00:09:21,279

after

269

00:09:25,430 --> 00:09:23,839

and we know that that was a drone and

270

00:09:27,430 --> 00:09:25,440

look how it looks in this video and it

271

00:09:30,550 --> 00:09:27,440

looks exactly the same pretty much it's

272

00:09:31,910 --> 00:09:30,560

a triangle um and the explanation was

273

00:09:34,310 --> 00:09:31,920

that the night vision goggles with an

274

00:09:36,070 --> 00:09:34,320

slr held to it just meant that it was

275

00:09:38,470 --> 00:09:36,080

making this shape when it hit the sensor

276

00:09:40,790 --> 00:09:38,480

and it was quoted that way so i i think

277

00:09:42,389 --> 00:09:40,800

that's a reasonable explanation uh i

278

00:09:44,310 --> 00:09:42,399

don't think it's a bad thing that these

279

00:09:46,310 --> 00:09:44,320

cases are sometimes solved i don't know

280

00:09:47,990 --> 00:09:46,320

i prefer a solved case instead of a pile

281

00:09:49,430 --> 00:09:48,000

of unknowns you know

282

00:09:51,030 --> 00:09:49,440

and like you see something important to

283

00:09:52,949 --> 00:09:51,040

point out there for anyone who's

284

00:09:55,590 --> 00:09:52,959

disappointed that someone like mick west

285

00:09:57,670 --> 00:09:55,600

was correct mick west said the the

286

00:09:59,750 --> 00:09:57,680

triangular object was a distant plane

287

00:10:00,550 --> 00:09:59,760

and that wasn't correct either no it's a

288

00:10:05,829 --> 00:10:00,560

drone

289

00:10:07,509 --> 00:10:05,839

exactly so you you can't yeah

290

00:10:09,430 --> 00:10:07,519

neither was right the truth as always

291

00:10:11,430 --> 00:10:09,440

was somewhere in between it's still

292

00:10:14,069 --> 00:10:11,440

technically an unidentified flying

293

00:10:15,750 --> 00:10:14,079

object am i right dan yeah uh i i think

294

00:10:17,750 --> 00:10:15,760

they would use the term uas for

295

00:10:19,110 --> 00:10:17,760

unidentified aerial system in that case

296

00:10:21,910 --> 00:10:19,120

because you know it's not anomalous they

297

00:10:23,350 --> 00:10:21,920

know it's a genuine human-made system

298

00:10:24,710 --> 00:10:23,360

so were they kinda getting again i

299

00:10:26,230 --> 00:10:24,720

missed this point were they kinda

300

00:10:28,470 --> 00:10:26,240

getting at the fact this was more than

301

00:10:31,509 --> 00:10:28,480

likely adversarial technology that was

302

00:10:33,110 --> 00:10:31,519

spying on them yes exactly or they they

303

00:10:34,630 --> 00:10:33,120

kind of i don't think they said that

304

00:10:36,389 --> 00:10:34,640

exactly but they certainly said it was a

305

00:10:39,190 --> 00:10:36,399

commercially available drone

306

00:10:40,870 --> 00:10:39,200

okay that's that's fair um so yeah um

307

00:10:42,150 --> 00:10:40,880

and then it moved on then what else did

308

00:10:44,310 --> 00:10:42,160

i miss in that kind of first section

309

00:10:46,550 --> 00:10:44,320

that was worth calling out yeah sure so

310

00:10:49,030 --> 00:10:46,560

they they firstly framed the whole

311

00:10:50,790 --> 00:10:49,040

hearing as a national security issue

312

00:10:52,150 --> 00:10:50,800

which we thought they would say yeah

313

00:10:54,310 --> 00:10:52,160

yeah that's kind of been a long-running

314

00:10:56,470 --> 00:10:54,320

theme now and and they want their sky

315

00:10:57,509 --> 00:10:56,480

secured and you know the people safe and

316

00:11:00,150 --> 00:10:57,519

then

317

00:11:02,550 --> 00:11:00,160

yeah i think that's fair

318

00:11:04,069 --> 00:11:02,560

there were a whole bunch of uh

319

00:11:05,910 --> 00:11:04,079

conversations that

320

00:11:07,670 --> 00:11:05,920

were basically the uap report being read

321

00:11:09,670 --> 00:11:07,680

out loud um with it with a few

322

00:11:11,430 --> 00:11:09,680

assurances so i won't go over that stuff

323

00:11:12,949 --> 00:11:11,440

um you know they define that uap just

324

00:11:14,230 --> 00:11:12,959

means enable an object that when

325

00:11:16,389 --> 00:11:14,240

encounters can't be immediately

326

00:11:18,310 --> 00:11:16,399

identified um they did say they were

327

00:11:20,630 --> 00:11:18,320

committed to determining the origins of

328

00:11:23,030 --> 00:11:20,640

the uap which is exciting that's a

329

00:11:24,470 --> 00:11:23,040

really good thing um

330

00:11:26,870 --> 00:11:24,480

they also said that they want to provide

331

00:11:28,710 --> 00:11:26,880

real time support for everybody so if

332

00:11:30,310 --> 00:11:28,720

they got a report of someone that saw a

333

00:11:33,110 --> 00:11:30,320

uap maybe two minutes ago they'd be able

334

00:11:35,110 --> 00:11:33,120

to you know activate and go go uh look

335

00:11:37,030 --> 00:11:35,120

at the satellite data and so on so forth

336

00:11:39,350 --> 00:11:37,040

whether the office is prepared to do

337

00:11:41,750 --> 00:11:39,360

that um or even has it in its remit is

338

00:11:43,910 --> 00:11:41,760

it another conversation entirely i would

339

00:11:46,230 --> 00:11:43,920

i would find that difficult still though

340

00:11:47,590 --> 00:11:46,240

because at one point well we'll jump

341

00:11:48,949 --> 00:11:47,600

about a little bit with this i think we

342

00:11:49,990 --> 00:11:48,959

kind of have to just with the nature of

343

00:11:52,150 --> 00:11:50,000

it yeah yeah

344

00:11:53,990 --> 00:11:52,160

they mention about this

345

00:11:57,030 --> 00:11:54,000

are we not chasing our own tails that

346

00:11:59,430 --> 00:11:57,040

they call it blue on blue or us on us

347

00:12:01,670 --> 00:11:59,440

technology friendly fire yeah no doubt

348

00:12:03,030 --> 00:12:01,680

at times that can happen regardless of

349

00:12:05,110 --> 00:12:03,040

you know the conversations we've had

350

00:12:07,269 --> 00:12:05,120

with people who are like no the us would

351
00:12:08,470 --> 00:12:07,279
not have its own technology amongst its

352
00:12:10,069 --> 00:12:08,480
own well

353
00:12:11,350 --> 00:12:10,079
i think there are examples of that kind

354
00:12:12,470 --> 00:12:11,360
of stuff potentially happening in the

355
00:12:14,069 --> 00:12:12,480
past

356
00:12:15,750 --> 00:12:14,079
but

357
00:12:18,310 --> 00:12:15,760
you've

358
00:12:20,550 --> 00:12:18,320
when it comes to that us on u.s

359
00:12:23,509 --> 00:12:20,560
technology if there was something that

360
00:12:24,870 --> 00:12:23,519
even uh private industry or trying to

361
00:12:26,629 --> 00:12:24,880
work this carefully someone like

362
00:12:27,750 --> 00:12:26,639
lockheed martin you know was testing

363
00:12:30,949 --> 00:12:27,760

something

364

00:12:33,590 --> 00:12:30,959

if there was an instant response

365

00:12:35,750 --> 00:12:33,600

is that enough time for someone testing

366

00:12:36,550 --> 00:12:35,760

something to get out to someone else

367

00:12:38,470 --> 00:12:36,560

that

368

00:12:39,750 --> 00:12:38,480

don't do anything because this is ours

369

00:12:41,110 --> 00:12:39,760

but you're not meant to know that you're

370

00:12:42,629 --> 00:12:41,120

not meant to see it or not meant to

371

00:12:46,389 --> 00:12:42,639

engage us

372

00:12:48,550 --> 00:12:46,399

am i making my point that badly but

373

00:12:52,629 --> 00:12:48,560

yeah no i get what you mean um

374

00:12:55,750 --> 00:12:54,310

there was a question asked at some point

375

00:12:58,150 --> 00:12:55,760

in the hearing whether we'd fired upon a

376

00:13:00,069 --> 00:12:58,160

uap you would you would expect them to

377

00:13:01,269 --> 00:13:00,079

defend themselves against you and if

378

00:13:03,509 --> 00:13:01,279

that was secret tech they would have

379

00:13:04,870 --> 00:13:03,519

shot it down right um instead they

380

00:13:06,230 --> 00:13:04,880

haven't they've sat and they've watched

381

00:13:07,829 --> 00:13:06,240

and they've absorbed as much data as

382

00:13:09,269 --> 00:13:07,839

they can we can't see that data but we

383

00:13:11,509 --> 00:13:09,279

know it's there and then you know from

384

00:13:14,949 --> 00:13:11,519

the nimitz one missing um

385

00:13:16,949 --> 00:13:14,959

but yeah if that if that was secret tech

386

00:13:18,389 --> 00:13:16,959

they would i mean they said during this

387

00:13:20,550 --> 00:13:18,399

that they can't talk about it really in

388

00:13:22,870 --> 00:13:20,560

the open hearings but they said we've

389

00:13:25,670 --> 00:13:22,880

made the connections with the relevant

390

00:13:28,629 --> 00:13:25,680

places to to do that um

391

00:13:31,269 --> 00:13:28,639

and still these things are unexplained

392

00:13:32,790 --> 00:13:31,279

yeah and to be specific uh 18 cases

393

00:13:34,550 --> 00:13:32,800

basically show anomalous fly

394

00:13:36,629 --> 00:13:34,560

characteristics no

395

00:13:38,230 --> 00:13:36,639

apparent means of propulsion um and

396

00:13:40,069 --> 00:13:38,240

signature management

397

00:13:41,829 --> 00:13:40,079

and those 18 cases is something that

398

00:13:42,870 --> 00:13:41,839

never came up too often in the second

399

00:13:44,470 --> 00:13:42,880

half

400

00:13:46,629 --> 00:13:44,480

tell us a little bit more about those 18

401
00:13:48,629 --> 00:13:46,639
cases then as to why those came up what

402
00:13:50,150 --> 00:13:48,639
were the 18 cases and i don't even know

403
00:13:52,150 --> 00:13:50,160
if this did come up i'm sort of asking

404
00:13:55,030 --> 00:13:52,160
this as an interested viewer

405
00:13:56,790 --> 00:13:55,040
were those 18 cases part of the 143 that

406
00:13:59,269 --> 00:13:56,800
were unsolved

407
00:14:02,870 --> 00:13:59,279
uh yes basically uh it was

408
00:14:05,030 --> 00:14:02,880
schiff getting at um in the 2021 report

409
00:14:07,350 --> 00:14:05,040
um that there were a bunch of cases that

410
00:14:09,910 --> 00:14:07,360
were labeled as potentially advanced

411
00:14:11,910 --> 00:14:09,920
tech there was 18 of them and he was

412
00:14:13,509 --> 00:14:11,920
basically asking if there was crossover

413
00:14:16,629 --> 00:14:13,519

between

414

00:14:18,949 --> 00:14:16,639

those cases and the cases that they said

415

00:14:21,030 --> 00:14:18,959

showed an uh a radio frequency signature

416

00:14:22,870 --> 00:14:21,040

signature

417

00:14:25,350 --> 00:14:22,880

so they basically said yes there are

418

00:14:27,430 --> 00:14:25,360

some crossovers there um and it kind of

419

00:14:28,790 --> 00:14:27,440

moved on from there really um they can't

420

00:14:31,030 --> 00:14:28,800

say much about it because they're

421

00:14:33,110 --> 00:14:31,040

they're kind of you know those 18 cases

422

00:14:34,870 --> 00:14:33,120

they said we're most interested in those

423

00:14:37,430 --> 00:14:34,880

because they represent either some

424

00:14:39,910 --> 00:14:37,440

exotic leap by an adversary or something

425

00:14:42,389 --> 00:14:39,920

else um so we've got to figure these out

426

00:14:44,389 --> 00:14:42,399

but as the hearing went on they they

427

00:14:46,949 --> 00:14:44,399

spoke about some of these

428

00:14:49,030 --> 00:14:46,959

these unknown or unsolved cases in a way

429

00:14:50,710 --> 00:14:49,040

that suggested that

430

00:14:52,069 --> 00:14:50,720

literally it's just unsolved but it will

431

00:14:53,750 --> 00:14:52,079

be

432

00:14:55,509 --> 00:14:53,760

however when they were talking about

433

00:14:58,230 --> 00:14:55,519

these 18

434

00:15:00,629 --> 00:14:58,240

they they really kind of the questions

435

00:15:02,550 --> 00:15:00,639

highlighted that these 18 are true

436

00:15:04,069 --> 00:15:02,560

anomalies and they've really tried and

437

00:15:06,949 --> 00:15:04,079

they've thrown everything they can of

438

00:15:09,110 --> 00:15:06,959

these i'm guessing that's the one

439

00:15:11,590 --> 00:15:09,120

it's not just being a picture or one

440

00:15:13,430 --> 00:15:11,600

data point or a sighting it's been

441

00:15:16,949 --> 00:15:13,440

multiple data points probably multiple

442

00:15:19,350 --> 00:15:16,959

cameras yes sensors under water

443

00:15:21,670 --> 00:15:19,360

three three at least when they say

444

00:15:24,310 --> 00:15:21,680

multi-sensor they specified that they

445

00:15:25,750 --> 00:15:24,320

mean three uh sensor systems including

446

00:15:27,910 --> 00:15:25,760

you know the set of human eyes that are

447

00:15:29,350 --> 00:15:27,920

there yeah so that's that's pretty

448

00:15:31,749 --> 00:15:29,360

interesting stuff and that's the stuff

449

00:15:35,189 --> 00:15:31,759

that we really really want to see

450

00:15:37,350 --> 00:15:35,199

uh but don't get to see unfortunately

451
00:15:39,430 --> 00:15:37,360
they did say that they never attempted

452
00:15:40,790 --> 00:15:39,440
communication as well uh which i thought

453
00:15:43,110 --> 00:15:40,800
was interesting considering they said

454
00:15:44,470 --> 00:15:43,120
that they detected rf for us a radio

455
00:15:46,230 --> 00:15:44,480
frequency burst would suggest that we

456
00:15:48,069 --> 00:15:46,240
were trying to communicate uh it's

457
00:15:50,389 --> 00:15:48,079
really strange that they didn't try and

458
00:15:51,990 --> 00:15:50,399
either read it or talk back

459
00:15:53,670 --> 00:15:52,000
yeah and i was making this point to you

460
00:15:55,110 --> 00:15:53,680
it wasn't i beforehand when i heard that

461
00:15:56,470 --> 00:15:55,120
i thought that was really strange

462
00:15:58,550 --> 00:15:56,480
because

463
00:16:02,310 --> 00:15:58,560

if you were encountering something that

464

00:16:04,230 --> 00:16:02,320

was potentially unmanned craft or was

465

00:16:05,990 --> 00:16:04,240

piloted or unmanned but you could

466

00:16:07,269 --> 00:16:06,000

communicate with why wouldn't you put

467

00:16:09,030 --> 00:16:07,279

out a basic and someone from the

468

00:16:10,710 --> 00:16:09,040

military might be able to tell me why

469

00:16:13,829 --> 00:16:10,720

you know hi

470

00:16:15,670 --> 00:16:13,839

us navy on training here or i'm a pilot

471

00:16:17,509 --> 00:16:15,680

doing x y and z can you identify

472

00:16:19,269 --> 00:16:17,519

yourself you would think in the basics

473

00:16:21,590 --> 00:16:19,279

they would at least try but like they

474

00:16:22,710 --> 00:16:21,600

said they were very much like nope

475

00:16:24,550 --> 00:16:22,720

nothing they just didn't they just

476

00:16:25,749 --> 00:16:24,560

didn't say anything and it's weird

477

00:16:27,910 --> 00:16:25,759

especially considering that they

478

00:16:29,509 --> 00:16:27,920

literally in this portion talking about

479

00:16:31,670 --> 00:16:29,519

these 18 they literally say we are not

480

00:16:33,350 --> 00:16:31,680

aware of any adversary that can move an

481

00:16:34,629 --> 00:16:33,360

object without a discernible means of

482

00:16:35,990 --> 00:16:34,639

propulsion

483

00:16:38,550 --> 00:16:36,000

i mean it's a woody statement but it

484

00:16:40,230 --> 00:16:38,560

means no it's not china or russia that's

485

00:16:42,550 --> 00:16:40,240

the simple translation of that

486

00:16:44,230 --> 00:16:42,560

absolutely um scott bray was asked about

487

00:16:46,230 --> 00:16:44,240

civilian reporting

488

00:16:47,749 --> 00:16:46,240

and uh which was nice to hear that it

489

00:16:48,949 --> 00:16:47,759

moved away slightly from the military

490

00:16:51,670 --> 00:16:48,959

aspect of it

491

00:16:54,230 --> 00:16:51,680

and he gave a nice fluffy answer about

492

00:16:55,910 --> 00:16:54,240

we've got a great relationship with faa

493

00:16:58,069 --> 00:16:55,920

and he tried to go off on a little bit

494

00:17:00,710 --> 00:16:58,079

of a tangent and he was then asked very

495

00:17:02,550 --> 00:17:00,720

directly again i'm asking you do we have

496

00:17:04,949 --> 00:17:02,560

you know civilian reports on these

497

00:17:06,390 --> 00:17:04,959

things as well and i felt this was one

498

00:17:08,710 --> 00:17:06,400

of the times i noticed him starting to

499

00:17:11,189 --> 00:17:08,720

really struggle and trip up and he was

500

00:17:13,429 --> 00:17:11,199

like yes we do get reports

501
00:17:14,470 --> 00:17:13,439
and i think that the response back if

502
00:17:16,230 --> 00:17:14,480
you could

503
00:17:18,069 --> 00:17:16,240
remind me who it was from dan if you if

504
00:17:20,230 --> 00:17:18,079
you've got a note of that

505
00:17:21,990 --> 00:17:20,240
it's quite a sharp response back which

506
00:17:23,829 --> 00:17:22,000
is very much uh well wouldn't it make

507
00:17:25,750 --> 00:17:23,839
sense to have a standardized report then

508
00:17:27,189 --> 00:17:25,760
that we can all

509
00:17:29,350 --> 00:17:27,199
basically get the information we need

510
00:17:31,590 --> 00:17:29,360
from to move forward

511
00:17:32,390 --> 00:17:31,600
let me find out my notes

512
00:17:34,070 --> 00:17:32,400
uh

513
00:17:38,390 --> 00:17:34,080

that

514

00:17:41,590 --> 00:17:39,750

possibly

515

00:17:43,190 --> 00:17:41,600

either way it was said back in it but it

516

00:17:44,870 --> 00:17:43,200

was quite quite damning quite direct

517

00:17:46,710 --> 00:17:44,880

which which i liked and it was it was

518

00:17:48,150 --> 00:17:46,720

kind of makes you sit up and take notice

519

00:17:50,310 --> 00:17:48,160

i didn't set up i was doing the dishes

520

00:17:53,029 --> 00:17:50,320

at the time as well when truck

521

00:17:54,630 --> 00:17:53,039

went up cool yeah yeah

522

00:17:56,230 --> 00:17:54,640

we we were all they were also talking

523

00:17:57,430 --> 00:17:56,240

about you know sharing data with allies

524

00:17:59,669 --> 00:17:57,440

and how much data you should share

525

00:18:00,870 --> 00:17:59,679

because of the quality of the data um

526

00:18:02,070 --> 00:18:00,880

and and

527

00:18:03,190 --> 00:18:02,080

saying that they have to be cautious

528

00:18:05,750 --> 00:18:03,200

when trusting data that's brought in

529

00:18:07,909 --> 00:18:05,760

from outside but i think in an age where

530

00:18:09,750 --> 00:18:07,919

the planets bathed in you know all sorts

531

00:18:11,830 --> 00:18:09,760

of frequencies detecting whether it's

532

00:18:14,950 --> 00:18:11,840

taking a heat image of the ground or

533

00:18:16,950 --> 00:18:14,960

looking at neutrinos or whatever

534

00:18:20,470 --> 00:18:16,960

there are a lot of sensors around us

535

00:18:23,110 --> 00:18:20,480

that you know if andy saw uh if you saw

536

00:18:25,510 --> 00:18:23,120

a ufo there would probably be enough

537

00:18:27,830 --> 00:18:25,520

sensors around in the sky at any given

538

00:18:29,270 --> 00:18:27,840

time to actually get some corroborative

539

00:18:30,470 --> 00:18:29,280
readings

540

00:18:33,029 --> 00:18:30,480
absolutely i'm glad you said

541

00:18:35,750 --> 00:18:33,039
corroborative not me

542

00:18:37,510 --> 00:18:35,760
jim heinz asks scott bray to clarify a

543

00:18:39,190 --> 00:18:37,520
little bit on when he talks about uap

544

00:18:40,150 --> 00:18:39,200
just being something unidentified in the

545

00:18:42,230 --> 00:18:40,160
sky

546

00:18:44,230 --> 00:18:42,240
he or or be having something truly

547

00:18:46,310 --> 00:18:44,240
anomalous or unidentified

548

00:18:48,070 --> 00:18:46,320
he says that ranges doesn't it from

549

00:18:50,390 --> 00:18:48,080
saying something through a foggy murky

550

00:18:52,549 --> 00:18:50,400
night and i'm paraphrasing two the

551
00:18:54,150 --> 00:18:52,559
extreme of organic materials that we

552
00:18:56,789 --> 00:18:54,160
don't know where they're from

553
00:18:58,710 --> 00:18:56,799
which i thought was quite a contrast and

554
00:19:00,549 --> 00:18:58,720
juxtaposition and i was like wow that's

555
00:19:03,110 --> 00:19:00,559
interesting because he is kind of

556
00:19:04,710 --> 00:19:03,120
getting at potential meta materials yeah

557
00:19:07,430 --> 00:19:04,720
that's quite a leap

558
00:19:09,029 --> 00:19:07,440
and and possibly a biological component

559
00:19:11,510 --> 00:19:09,039
as well whether that's

560
00:19:13,990 --> 00:19:11,520
how it affects us or

561
00:19:15,830 --> 00:19:14,000
the occupants of the craft maybe but

562
00:19:17,590 --> 00:19:15,840
again just that language being present

563
00:19:18,950 --> 00:19:17,600

in this hearing made me excited because

564

00:19:20,950 --> 00:19:18,960

they're asking the questions that we

565

00:19:22,870 --> 00:19:20,960

want them to ask you know yeah it kept

566

00:19:26,150 --> 00:19:22,880

going and you know what ronald miltray

567

00:19:27,830 --> 00:19:26,160

made a um a fair point where he said the

568

00:19:29,590 --> 00:19:27,840

the issues they face i think he

569

00:19:31,029 --> 00:19:29,600

interjected at one point to can i help

570

00:19:33,350 --> 00:19:31,039

scotbury out a little bit the way it

571

00:19:36,549 --> 00:19:33,360

kind of came across to me and that this

572

00:19:39,350 --> 00:19:36,559

is largely an issue of insufficient data

573

00:19:40,789 --> 00:19:39,360

for many of these unresolved cases and i

574

00:19:42,710 --> 00:19:40,799

think he mentions at that point or at

575

00:19:44,549 --> 00:19:42,720

least one point that you know because of

576

00:19:46,789 --> 00:19:44,559

the funding they have they get the

577

00:19:49,350 --> 00:19:46,799

results they have because of a lack of

578

00:19:50,870 --> 00:19:49,360

funding and resources etc etc maybe

579

00:19:53,270 --> 00:19:50,880

asking for extra money which no doubt

580

00:19:55,990 --> 00:19:53,280

they would want and probably will get

581

00:19:57,990 --> 00:19:56,000

but i think it is a fair point that

582

00:19:59,990 --> 00:19:58,000

maybe we do have to look at they're not

583

00:20:01,510 --> 00:20:00,000

completely lying about everything and

584

00:20:03,669 --> 00:20:01,520

hiding everything

585

00:20:06,470 --> 00:20:03,679

but a lot of these things maybe are

586

00:20:07,990 --> 00:20:06,480

still unidentified because of

587

00:20:09,750 --> 00:20:08,000

a lack of data

588

00:20:12,070 --> 00:20:09,760

we almost need like

589

00:20:13,990 --> 00:20:12,080

you know they had the other pile we

590

00:20:15,669 --> 00:20:14,000

almost need to separate that pile again

591

00:20:17,270 --> 00:20:15,679

into this is the stuff that we just

592

00:20:20,070 --> 00:20:17,280

don't have enough data to solve and this

593

00:20:21,190 --> 00:20:20,080

is the stuff that we know is just weird

594

00:20:22,630 --> 00:20:21,200

you know

595

00:20:24,070 --> 00:20:22,640

and i think that's the stuff that and

596

00:20:25,750 --> 00:20:24,080

we'll get to it that chris mellon and

597

00:20:28,149 --> 00:20:25,760

tim butch and others were frustrated

598

00:20:30,789 --> 00:20:28,159

about afterwards that these guys will

599

00:20:33,110 --> 00:20:30,799

have heard about and seen that stuff

600

00:20:35,430 --> 00:20:33,120

that we can only speculate about so

601
00:20:37,909 --> 00:20:35,440
they're looking going no no no not that

602
00:20:39,590 --> 00:20:37,919
video not that one don't ask that

603
00:20:41,669 --> 00:20:39,600
question you know what you should be

604
00:20:43,750 --> 00:20:41,679
asking you know what we've got

605
00:20:45,990 --> 00:20:43,760
but the gentleman in question being

606
00:20:47,510 --> 00:20:46,000
questioned also know what they can avoid

607
00:20:49,350 --> 00:20:47,520
yes because it's not going to be brought

608
00:20:51,350 --> 00:20:49,360
up and we do have the caveat we never

609
00:20:53,029 --> 00:20:51,360
mentioned before the session lasted

610
00:20:53,830 --> 00:20:53,039
about 90 minutes about an hour and a

611
00:20:56,070 --> 00:20:53,840
half

612
00:20:57,990 --> 00:20:56,080
there was then a recess till 12 pm

613
00:21:00,390 --> 00:20:58,000

eastern and then there was going to be

614

00:21:02,070 --> 00:21:00,400

the the classified portion which the

615

00:21:03,750 --> 00:21:02,080

public obviously don't get to see in

616

00:21:05,190 --> 00:21:03,760

here which no doubt there would have

617

00:21:07,750 --> 00:21:05,200

been some follow-ups because there were

618

00:21:09,990 --> 00:21:07,760

a few questions asked that are prefaced

619

00:21:11,990 --> 00:21:10,000

or given a bit of context that you might

620

00:21:13,750 --> 00:21:12,000

not be able to answer and i understand

621

00:21:16,149 --> 00:21:13,760

because there is a classified section

622

00:21:17,430 --> 00:21:16,159

coming up however and they try and talk

623

00:21:19,669 --> 00:21:17,440

around that

624

00:21:21,990 --> 00:21:19,679

so that the underwater stuff was part of

625

00:21:24,149 --> 00:21:22,000

that yeah that system of microphones is

626

00:21:25,510 --> 00:21:24,159

so secretive um

627

00:21:27,350 --> 00:21:25,520

and i'm talking to someone this week

628

00:21:28,870 --> 00:21:27,360

that actually will be able to speak to

629

00:21:30,789 --> 00:21:28,880

how sound kind of moves differently

630

00:21:32,630 --> 00:21:30,799

through different layers of the ocean uh

631

00:21:33,510 --> 00:21:32,640

so it'll be interesting to learn about

632

00:21:36,950 --> 00:21:33,520

that

633

00:21:39,190 --> 00:21:36,960

away too much but just remind people

634

00:21:41,350 --> 00:21:39,200

you're recording tomorrow night as we

635

00:21:44,630 --> 00:21:41,360

discuss this

636

00:21:46,630 --> 00:21:44,640

uh yeah i guess so uh or maybe maybe the

637

00:21:49,430 --> 00:21:46,640

day after um but yeah i'll be conducting

638

00:21:51,430 --> 00:21:49,440

my first interview uh for my own little

639

00:21:53,350 --> 00:21:51,440

show called coloring outside the line so

640

00:21:54,470 --> 00:21:53,360

keep an eye out for that soon uh it'll

641

00:21:56,310 --> 00:21:54,480

be through this channel so you don't

642

00:21:57,350 --> 00:21:56,320

have to go anywhere to hear it uh i hope

643

00:21:59,430 --> 00:21:57,360

you don't mind us doing something a

644

00:22:01,669 --> 00:21:59,440

little different that is is still

645

00:22:04,230 --> 00:22:01,679

relevant to the subject

646

00:22:05,669 --> 00:22:04,240

i suggest you don't listen um

647

00:22:07,430 --> 00:22:05,679

no it'll be good i'm looking forward to

648

00:22:08,710 --> 00:22:07,440

hearing that myself as well folks but

649

00:22:10,549 --> 00:22:08,720

yeah just just to get that in there i

650

00:22:12,230 --> 00:22:10,559

think it's worth mentioning um but but

651
00:22:13,510 --> 00:22:12,240
you're right it's a nice little segue

652
00:22:15,590 --> 00:22:13,520
into that as well when you talk about

653
00:22:16,310 --> 00:22:15,600
those underwater sensors and microphones

654
00:22:18,230 --> 00:22:16,320
and

655
00:22:20,390 --> 00:22:18,240
like when i asked lou a couple of weeks

656
00:22:22,310 --> 00:22:20,400
ago on our interview luella's ondo folks

657
00:22:25,190 --> 00:22:22,320
apologies lou um

658
00:22:27,350 --> 00:22:25,200
about why these uap seem to travel

659
00:22:29,029 --> 00:22:27,360
slower underwater and he actually

660
00:22:30,870 --> 00:22:29,039
suggested that's more than likely due to

661
00:22:33,190 --> 00:22:30,880
the abilities of the equipment we have

662
00:22:36,070 --> 00:22:33,200
can only track a certain speed and they

663
00:22:37,909 --> 00:22:36,080

probably go far far far faster as has

664

00:22:39,830 --> 00:22:37,919

been picked up as well so we we have a

665

00:22:41,350 --> 00:22:39,840

similar issue with them coming from 78

666

00:22:42,710 --> 00:22:41,360

000 feet right that's just the height of

667

00:22:44,310 --> 00:22:42,720

the radar it doesn't mean they're coming

668

00:22:46,070 --> 00:22:44,320

from 78 000 feet they're coming from

669

00:22:47,110 --> 00:22:46,080

outside of that um

670

00:22:48,549 --> 00:22:47,120

who knows they might just know that

671

00:22:49,990 --> 00:22:48,559

that's our range and know that they can

672

00:22:51,669 --> 00:22:50,000

pop in any way they want outside of that

673

00:22:52,549 --> 00:22:51,679

and we will infer that they came from

674

00:22:54,070 --> 00:22:52,559

space

675

00:22:55,510 --> 00:22:54,080

you get an image of their head on your

676
00:22:56,710 --> 00:22:55,520
head don't you with a tic tac just

677
00:22:57,909 --> 00:22:56,720
sitting at eighty thousand feet in

678
00:23:00,310 --> 00:22:57,919
english

679
00:23:02,710 --> 00:23:00,320
as opposed to they could have come from

680
00:23:04,870 --> 00:23:02,720
way way way out in space and just went

681
00:23:06,870 --> 00:23:04,880
zoo and just kept going and then stopped

682
00:23:09,430 --> 00:23:06,880
which should be even more impressive

683
00:23:11,350 --> 00:23:09,440
yeah it would be very changing to see

684
00:23:12,549 --> 00:23:11,360
could have came from the moon and done

685
00:23:14,630 --> 00:23:12,559
that they could have came from the other

686
00:23:16,070 --> 00:23:14,640
side of the planet and done that they

687
00:23:17,830 --> 00:23:16,080
could have been in the water and one

688
00:23:20,710 --> 00:23:17,840

side of catalina had gone up and then

689

00:23:21,830 --> 00:23:20,720

came back down yeah absolutely who knows

690

00:23:23,510 --> 00:23:21,840

i'm just covering all the bases

691

00:23:25,110 --> 00:23:23,520

therefore it's not giving anything away

692

00:23:27,270 --> 00:23:25,120

but yeah so it was really interesting

693

00:23:29,669 --> 00:23:27,280

that was mentioned um

694

00:23:31,669 --> 00:23:29,679

where else what have we got we we found

695

00:23:34,870 --> 00:23:31,679

out that they they do not know about the

696

00:23:36,870 --> 00:23:34,880

icbm events like malmstrom which

697

00:23:39,590 --> 00:23:36,880

befuddled a lot of people because there

698

00:23:41,669 --> 00:23:39,600

is official documentation on these yeah

699

00:23:43,909 --> 00:23:41,679

this is being called out right i already

700

00:23:45,590 --> 00:23:43,919

have that um you know i think everyone

701
00:23:47,029 --> 00:23:45,600
was shocked when they said that uh but

702
00:23:49,590 --> 00:23:47,039
at least it's been brought to their

703
00:23:51,110 --> 00:23:49,600
attention and gallagher literally said

704
00:23:52,870 --> 00:23:51,120
well i'm asking you guys to look at it

705
00:23:54,310 --> 00:23:52,880
now so will you and they said yes so

706
00:23:55,669 --> 00:23:54,320
hopefully in the next hearing or in the

707
00:23:57,590 --> 00:23:55,679
future we learn a little bit more about

708
00:23:59,430 --> 00:23:57,600
malmstrom um

709
00:24:01,510 --> 00:23:59,440
though probably not likely considering

710
00:24:03,269 --> 00:24:01,520
that there's a nuclear relation there

711
00:24:04,950 --> 00:24:03,279
yeah i felt mike gallagher made himself

712
00:24:07,190 --> 00:24:04,960
a bit of an instant star and hero here

713
00:24:09,190 --> 00:24:07,200

to me he was great yeah he asked about

714

00:24:11,350 --> 00:24:09,200

the strategic nuclear sites like you say

715

00:24:13,269 --> 00:24:11,360

um scott bray said that the data is not

716

00:24:14,950 --> 00:24:13,279

within the holdings of the uap task

717

00:24:16,470 --> 00:24:14,960

force and again i thought he'll struggle

718

00:24:18,390 --> 00:24:16,480

to answer here

719

00:24:20,870 --> 00:24:18,400

he says that informal stories have been

720

00:24:23,350 --> 00:24:20,880

heard um he says he's not seen official

721

00:24:24,950 --> 00:24:23,360

data he's asked about maelstrom um i

722

00:24:28,230 --> 00:24:24,960

thought the terminology used was

723

00:24:29,909 --> 00:24:28,240

important um

724

00:24:31,510 --> 00:24:29,919

gallagher got a bit fiery he was just

725

00:24:33,110 --> 00:24:31,520

like he did like come on it's pretty

726

00:24:34,310 --> 00:24:33,120

high profile it's out there in ether if

727

00:24:36,070 --> 00:24:34,320

you're not looking alright you're the

728

00:24:38,549 --> 00:24:36,080

guys that are meant to look right who is

729

00:24:40,070 --> 00:24:38,559

you know was it not also gallagher that

730

00:24:41,909 --> 00:24:40,080

made the comment when he was asking i've

731

00:24:44,230 --> 00:24:41,919

not been asked and he said well i'm

732

00:24:46,549 --> 00:24:44,240

asking you yes exactly i like i like

733

00:24:48,390 --> 00:24:46,559

that one but it's like oh yes i i'm

734

00:24:49,510 --> 00:24:48,400

asking you two bosses

735

00:24:51,750 --> 00:24:49,520

100

736

00:24:54,870 --> 00:24:51,760

um he had also just before that asked

737

00:24:57,430 --> 00:24:54,880

about had about any projects before or

738

00:24:59,750 --> 00:24:57,440

between project blue book and atip

739

00:25:01,990 --> 00:24:59,760

and moultrie comes in and says he's not

740

00:25:03,430 --> 00:25:02,000

aware of anything official and this was

741

00:25:06,230 --> 00:25:03,440

just one of those i thought the language

742

00:25:07,669 --> 00:25:06,240

was very careful yes and i won and i

743

00:25:09,029 --> 00:25:07,679

think at that point the interviewer and

744

00:25:11,590 --> 00:25:09,039

me was going yeah ask him about

745

00:25:14,549 --> 00:25:11,600

unofficial however they can't talk about

746

00:25:16,390 --> 00:25:14,559

that in a declassified public setting

747

00:25:17,990 --> 00:25:16,400

i would hope that is something that is

748

00:25:19,909 --> 00:25:18,000

followed up within the classified

749

00:25:22,230 --> 00:25:19,919

section where they go so we previously

750

00:25:25,190 --> 00:25:22,240

asked you this and you said you had

751

00:25:27,110 --> 00:25:25,200

nothing official off unofficial off the

752

00:25:28,549 --> 00:25:27,120

books what have you heard about and

753

00:25:29,909 --> 00:25:28,559

what's being dealt and i think that

754

00:25:31,830 --> 00:25:29,919

would be really really interesting to

755

00:25:33,669 --> 00:25:31,840

hear absolutely and and speaking about

756

00:25:35,750 --> 00:25:33,679

like unofficial and off the books we

757

00:25:36,549 --> 00:25:35,760

even had the wilson documents brought up

758

00:25:40,630 --> 00:25:36,559

that

759

00:25:43,909 --> 00:25:40,640

surprise of the hearings because the

760

00:25:47,510 --> 00:25:46,149

famous eric wilson yeah um

761

00:25:49,350 --> 00:25:47,520

yeah the wilson documents if people

762

00:25:51,750 --> 00:25:49,360

don't know they're just a series of

763

00:25:55,430 --> 00:25:51,760

notes on a meeting that supposedly took

764

00:25:57,430 --> 00:25:55,440

place um between one eric davis and and

765

00:25:59,990 --> 00:25:57,440

uh someone else they're out there to

766

00:26:02,470 --> 00:26:00,000

read uh admiral wilson you know yeah

767

00:26:04,070 --> 00:26:02,480

admiral wilson um yeah they're out there

768

00:26:05,750 --> 00:26:04,080

to read if you want to in terms of the

769

00:26:08,310 --> 00:26:05,760

veracity of them there's a lot of debate

770

00:26:09,430 --> 00:26:08,320

around them so so i really don't know um

771

00:26:11,510 --> 00:26:09,440

but i

772

00:26:13,110 --> 00:26:11,520

came out i have to point people to joe

773

00:26:14,789 --> 00:26:13,120

murgia i interviewed joe morgan we

774

00:26:17,190 --> 00:26:14,799

talked about these as well but if you

775

00:26:19,190 --> 00:26:17,200

check out joe margie's blog his tweets

776

00:26:21,350 --> 00:26:19,200

he talks about the wilson docks every

777

00:26:22,870 --> 00:26:21,360

other day and it's very much worth

778

00:26:24,710 --> 00:26:22,880

jumping on there to look at his

779

00:26:27,269 --> 00:26:24,720

extensive kind of research into those as

780

00:26:29,750 --> 00:26:27,279

well yeah joe margie is very one-sided

781

00:26:32,230 --> 00:26:29,760

on those that they 100 happened exactly

782

00:26:34,149 --> 00:26:32,240

as is written there's no decision for

783

00:26:36,149 --> 00:26:34,159

anything along with it and i'm not

784

00:26:38,390 --> 00:26:36,159

saying i disagree with that but

785

00:26:40,630 --> 00:26:38,400

joe will present one side of it it's

786

00:26:42,950 --> 00:26:40,640

very well researched though and uh it's

787

00:26:44,710 --> 00:26:42,960

a very good take on on those documents

788

00:26:46,549 --> 00:26:44,720

if you want to find out about them just

789

00:26:47,830 --> 00:26:46,559

to give the other side of it as well um

790

00:26:50,390 --> 00:26:47,840

the the other theory that goes around

791

00:26:51,669 --> 00:26:50,400

about it is a somewhat absurd claim

792

00:26:54,070 --> 00:26:51,679

there it could be a movie script written

793

00:26:55,990 --> 00:26:54,080

by someone now i i think john green will

794

00:26:57,909 --> 00:26:56,000

when he says that is just saying it as

795

00:26:59,750 --> 00:26:57,919

an example to kind of go look we don't

796

00:27:01,830 --> 00:26:59,760

have proof either way so my theory is

797

00:27:03,190 --> 00:27:01,840

just as valid as yours which is fine but

798

00:27:05,669 --> 00:27:03,200

it's a weird way to make that point you

799

00:27:08,390 --> 00:27:05,679

know and admiral wilson's always denied

800

00:27:10,310 --> 00:27:08,400

it happened hasn't he yes but you would

801
00:27:12,230 --> 00:27:10,320
because especially the claims within

802
00:27:14,070 --> 00:27:12,240
those documents talking about crash

803
00:27:17,110 --> 00:27:14,080
retrieval programs and this is something

804
00:27:18,789 --> 00:27:17,120
that that infamous second new york times

805
00:27:20,950 --> 00:27:18,799
article was always

806
00:27:22,789 --> 00:27:20,960
fated or claimed to have potentially

807
00:27:24,950 --> 00:27:22,799
within it and it didn't happen

808
00:27:27,430 --> 00:27:24,960
it probably would have largely been down

809
00:27:29,590 --> 00:27:27,440
to the wilson davis

810
00:27:32,149 --> 00:27:29,600
memos and what may or may not have been

811
00:27:34,549 --> 00:27:32,159
within those so um however

812
00:27:35,510 --> 00:27:34,559
that has now been submitted for public

813
00:27:36,950 --> 00:27:35,520

record

814

00:27:40,549 --> 00:27:36,960

within the

815

00:27:42,310 --> 00:27:40,559

which is crazy because i think it's one

816

00:27:43,750 --> 00:27:42,320

of those things if someone said if i

817

00:27:44,789 --> 00:27:43,760

tweeted last night dan and said to the

818

00:27:49,029 --> 00:27:44,799

public

819

00:27:50,389 --> 00:27:49,039

people who are tweeting you know do you

820

00:27:52,710 --> 00:27:50,399

think we will hear about the wilson

821

00:27:55,350 --> 00:27:52,720

davis memo i think it would have been a

822

00:27:56,070 --> 00:27:55,360

resounding no like not a chance no way

823

00:27:57,510 --> 00:27:56,080

they're going to talk about it

824

00:28:00,310 --> 00:27:57,520

definitely i voted

825

00:28:01,510 --> 00:28:00,320

on that yeah um but yeah that's why i

826

00:28:04,789 --> 00:28:01,520

wouldn't have even thought of putting

827

00:28:06,470 --> 00:28:04,799

that in there never for a i thought

828

00:28:08,549 --> 00:28:06,480

roswell would have been more likely than

829

00:28:10,310 --> 00:28:08,559

the wilson davis memo to be brought up

830

00:28:11,830 --> 00:28:10,320

yeah so i mean it was mentioned roswell

831

00:28:13,909 --> 00:28:11,840

got mentioned

832

00:28:15,350 --> 00:28:13,919

yeah i think mostly

833

00:28:17,909 --> 00:28:15,360

he said yeah people you know talk about

834

00:28:19,909 --> 00:28:17,919

roswell and stuff so yeah not not

835

00:28:21,830 --> 00:28:19,919

completely in a ways if you came up with

836

00:28:23,909 --> 00:28:21,840

a drinking game for this you would have

837

00:28:25,669 --> 00:28:23,919

been absolutely smashed by the halfway

838

00:28:26,630 --> 00:28:25,679

point um but yeah i thought that was

839

00:28:28,710 --> 00:28:26,640

fascinating and i think there's

840

00:28:30,630 --> 00:28:28,720

definitely more to come from that that's

841

00:28:33,029 --> 00:28:30,640

an informed

842

00:28:36,389 --> 00:28:33,039

and informed thing to bring up that's

843

00:28:38,310 --> 00:28:36,399

not uh off the cuff or nuclear sight

844

00:28:40,389 --> 00:28:38,320

incident or you know that's that's

845

00:28:42,789 --> 00:28:40,399

pretty out there that's a

846

00:28:44,389 --> 00:28:42,799

curveball to throw in um for any

847

00:28:46,549 --> 00:28:44,399

conversational point even if it was to

848

00:28:48,310 --> 00:28:46,559

be shot down straight away so

849

00:28:50,310 --> 00:28:48,320

i'd be really interested to see where

850

00:28:53,350 --> 00:28:50,320

mike gallagher keeps going with us

851
00:28:54,950 --> 00:28:53,360
um because it's a big thing to bring up

852
00:28:57,590 --> 00:28:54,960
he seems to know

853
00:28:59,029 --> 00:28:57,600
the answers that he wants right um and

854
00:29:00,630 --> 00:28:59,039
he doesn't seem to be letting up he

855
00:29:01,590 --> 00:29:00,640
seemed to get visibly annoyed that they

856
00:29:03,430 --> 00:29:01,600
weren't

857
00:29:05,110 --> 00:29:03,440
saying these things so whether he knows

858
00:29:06,310 --> 00:29:05,120
and he knows they're being dishonest or

859
00:29:08,549 --> 00:29:06,320
whether he's just fed up at the run

860
00:29:10,549 --> 00:29:08,559
around uh i don't know but he yeah he he

861
00:29:14,470 --> 00:29:10,559
did a great job there was a weird bit

862
00:29:17,190 --> 00:29:14,480
with uh it was mr lahood um

863
00:29:19,350 --> 00:29:17,200

where they were talking about

864

00:29:21,590 --> 00:29:19,360

the consequences of putting out fake uap

865

00:29:24,070 --> 00:29:21,600

reports and it got a little strange like

866

00:29:27,269 --> 00:29:24,080

talking about messenger information like

867

00:29:28,149 --> 00:29:27,279

how liable for putting out

868

00:29:30,389 --> 00:29:28,159

so

869

00:29:32,789 --> 00:29:30,399

it made me think like what if if i'm

870

00:29:34,870 --> 00:29:32,799

near a nuclear site and i see a drone or

871

00:29:36,950 --> 00:29:34,880

i see a uap over it and i report it i'm

872

00:29:38,470 --> 00:29:36,960

gonna get arrested like what that

873

00:29:40,789 --> 00:29:38,480

doesn't make sense in reducing the

874

00:29:43,590 --> 00:29:40,799

stigma and stuff like that that's not

875

00:29:44,870 --> 00:29:43,600

the way i read it oh god

876

00:29:46,710 --> 00:29:44,880

so

877

00:29:48,710 --> 00:29:46,720

i've got down and i've only heard it

878

00:29:49,510 --> 00:29:48,720

once and again this might be totally

879

00:29:51,190 --> 00:29:49,520

wrong

880

00:29:53,350 --> 00:29:51,200

yeah moultrie was asked about what's

881

00:29:56,549 --> 00:29:53,360

being done to hold people accountable in

882

00:29:57,590 --> 00:29:56,559

terms of misinformation being put out

883

00:30:01,669 --> 00:29:57,600

and

884

00:30:06,310 --> 00:30:02,950

people like

885

00:30:08,950 --> 00:30:06,320

susan go and the the email stuff and if

886

00:30:12,710 --> 00:30:08,960

people are lying about people's roles

887

00:30:14,950 --> 00:30:12,720

within ata or osap or does it go as far

888

00:30:17,430 --> 00:30:14,960

as as not to name names what people are

889

00:30:19,750 --> 00:30:17,440

saying online about other individuals

890

00:30:21,750 --> 00:30:19,760

that they could be held accountable

891

00:30:23,830 --> 00:30:21,760

if they're deliberately lying and does

892

00:30:25,350 --> 00:30:23,840

it go as far as that so

893

00:30:27,430 --> 00:30:25,360

i i didn't really take away the

894

00:30:30,149 --> 00:30:27,440

reporting side of i cannot almost a

895

00:30:31,909 --> 00:30:30,159

slander or you know libel law in the uk

896

00:30:32,950 --> 00:30:31,919

that's what i was thinking and i was

897

00:30:35,590 --> 00:30:32,960

like is this what they're kind of

898

00:30:37,350 --> 00:30:35,600

getting at where if you're obfuscating

899

00:30:39,350 --> 00:30:37,360

the truth by deleting people's emails

900

00:30:41,029 --> 00:30:39,360

and lying about their role and and all

901
00:30:41,909 --> 00:30:41,039
that kind of stuff

902
00:30:43,590 --> 00:30:41,919
stop

903
00:30:45,430 --> 00:30:43,600
yeah yeah that's what i was kind of

904
00:30:46,950 --> 00:30:45,440
thinking no i mean that that would be

905
00:30:48,549 --> 00:30:46,960
great and i i hope that i misheard and

906
00:30:49,990 --> 00:30:48,559
that's exactly what it was because we

907
00:30:51,830 --> 00:30:50,000
need that and it would be great to have

908
00:30:53,830 --> 00:30:51,840
that law in place because maybe maybe

909
00:30:55,990 --> 00:30:53,840
susan goff would you know just think

910
00:30:57,990 --> 00:30:56,000
twice before sending that email

911
00:30:59,669 --> 00:30:58,000
yeah um big statement one of the big

912
00:31:01,269 --> 00:30:59,679
statements for me and it was a bit of a

913
00:31:05,110 --> 00:31:01,279

throwaway folks and i'm paraphrasing

914

00:31:06,870 --> 00:31:05,120

again was uh mr welsh is mentioning

915

00:31:08,470 --> 00:31:06,880

about you know different potentials of

916

00:31:10,870 --> 00:31:08,480

what some of these things may or may not

917

00:31:12,630 --> 00:31:10,880

be and he gives a throwaway line of you

918

00:31:14,630 --> 00:31:12,640

know it's not entirely impossible that

919

00:31:16,230 --> 00:31:14,640

some extraterrestrial life is visiting

920

00:31:17,830 --> 00:31:16,240

us from somewhere else

921

00:31:20,230 --> 00:31:17,840

and i thought that was an incredible

922

00:31:22,549 --> 00:31:20,240

statement to make and let's preface for

923

00:31:25,110 --> 00:31:22,559

before anyone gets upset we are not

924

00:31:27,430 --> 00:31:25,120

saying he was 100 saying we have

925

00:31:29,350 --> 00:31:27,440

extraterrestrial life visiting us but

926
00:31:31,269 --> 00:31:29,360
even just an off-the-cuff comment in

927
00:31:33,909 --> 00:31:31,279
that setting to say you know it's not

928
00:31:37,110 --> 00:31:33,919
entirely impossible that we have some

929
00:31:38,630 --> 00:31:37,120
form of alien life visiting us and

930
00:31:40,630 --> 00:31:38,640
compare that some of these

931
00:31:42,870 --> 00:31:40,640
neil degrasse tyson oh i was going to

932
00:31:44,549 --> 00:31:42,880
say that you know like

933
00:31:46,630 --> 00:31:44,559
the here is an official who's actually

934
00:31:47,669 --> 00:31:46,640
open-minded and you know i don't know if

935
00:31:49,190 --> 00:31:47,679
he's been following the james webb

936
00:31:51,110 --> 00:31:49,200
telescope and he knows that those images

937
00:31:52,630 --> 00:31:51,120
are coming and you know our capabilities

938
00:31:53,750 --> 00:31:52,640

are about to get a massive bump up in

939

00:31:56,070 --> 00:31:53,760

terms of

940

00:31:58,470 --> 00:31:56,080

detecting life and different things or

941

00:32:00,389 --> 00:31:58,480

signatures of life i should say um

942

00:32:02,149 --> 00:32:00,399

but it just goes to show that

943

00:32:03,350 --> 00:32:02,159

you know it was carl sagan way back when

944

00:32:05,269 --> 00:32:03,360

they probably would have said something

945

00:32:07,029 --> 00:32:05,279

like that whereas now the science

946

00:32:09,830 --> 00:32:07,039

communicators are really close-minded

947

00:32:11,750 --> 00:32:09,840

yet the official there is he he kind of

948

00:32:13,430 --> 00:32:11,760

portrays the the general feeling in the

949

00:32:15,190 --> 00:32:13,440

public that it's inevitable we're gonna

950

00:32:16,549 --> 00:32:15,200

find life elsewhere now you know the

951

00:32:19,029 --> 00:32:16,559

ultra planets have gone from zero to

952

00:32:21,190 --> 00:32:19,039

five thousand and yeah you know many

953

00:32:22,549 --> 00:32:21,200

years ago i say many probably like ten

954

00:32:24,310 --> 00:32:22,559

years ago we probably would have thought

955

00:32:25,509 --> 00:32:24,320

they were zero and people would laugh

956

00:32:27,750 --> 00:32:25,519

that for saying that they would be

957

00:32:29,909 --> 00:32:27,760

exoplanets so here we are

958

00:32:32,630 --> 00:32:29,919

neil degrasse tyson's the creator of the

959

00:32:33,509 --> 00:32:32,640

hayden planetarium in new york i believe

960

00:32:35,509 --> 00:32:33,519

still

961

00:32:36,870 --> 00:32:35,519

and i can just imagine

962

00:32:38,149 --> 00:32:36,880

yeah

963

00:32:39,350 --> 00:32:38,159

i imagine

964

00:32:41,430 --> 00:32:39,360

young children looking through

965

00:32:42,950 --> 00:32:41,440

telescopes in there and looking at the

966

00:32:45,350 --> 00:32:42,960

wonders of the universe and seeing the

967

00:32:47,669 --> 00:32:45,360

rings of saturn and degrasse tyson just

968

00:32:49,110 --> 00:32:47,679

walks by and goes it gets a bit boring

969

00:32:50,070 --> 00:32:49,120

after a while you know yeah he called

970

00:32:53,590 --> 00:32:50,080

the

971

00:32:54,870 --> 00:32:53,600

recently uh yeah i think that was last

972

00:32:57,350 --> 00:32:54,880

night or the night before yeah he called

973

00:32:59,509 --> 00:32:57,360

that boring yeah just like who hurt you

974

00:33:00,549 --> 00:32:59,519

man like i loved going out and watching

975

00:33:01,830 --> 00:33:00,559

that and i had to get up at three

976

00:33:03,669 --> 00:33:01,840

o'clock to do it in the morning and it

977

00:33:05,350 --> 00:33:03,679

was just it was wonderful i think the

978

00:33:06,950 --> 00:33:05,360

problem is it's like he was in love with

979

00:33:08,710 --> 00:33:06,960

a planet and another planet has taken it

980

00:33:11,110 --> 00:33:08,720

away from him and he just he's just

981

00:33:12,950 --> 00:33:11,120

really really bad about it now but yeah

982

00:33:14,470 --> 00:33:12,960

it's it's a disappointing take but we've

983

00:33:17,269 --> 00:33:14,480

got brian cox doing the same here in the

984

00:33:19,029 --> 00:33:17,279

uk so yeah yeah by name by nature as

985

00:33:21,350 --> 00:33:19,039

they say um

986

00:33:23,430 --> 00:33:21,360

and just kind of wrapping up carson asks

987

00:33:24,950 --> 00:33:23,440

of some of these uap maybe secret u.s

988

00:33:27,669 --> 00:33:24,960

programs that was something we touched

989

00:33:29,430 --> 00:33:27,679

on earlier the u.s on us or blue on blue

990

00:33:31,430 --> 00:33:29,440

and can they be sure the u.s isn't

991

00:33:32,950 --> 00:33:31,440

chasing its own tale i would imagine

992

00:33:35,350 --> 00:33:32,960

that'll be something discussed further

993

00:33:37,509 --> 00:33:35,360

within the classified section

994

00:33:39,590 --> 00:33:37,519

um anything else done before i ask you

995

00:33:41,909 --> 00:33:39,600

about your big takeaways

996

00:33:44,710 --> 00:33:41,919

there was some conversation around the

997

00:33:48,549 --> 00:33:46,630

to to compete in

998

00:33:51,669 --> 00:33:48,559

you know reasons for being in terms of

999

00:33:53,269 --> 00:33:51,679

the aoi msg and what the mission is and

1000

00:33:54,549 --> 00:33:53,279

that was basically that they said on one

1001
00:33:56,389 --> 00:33:54,559
hand you've got

1002
00:33:58,149 --> 00:33:56,399
this research that may represent

1003
00:33:59,830 --> 00:33:58,159
something incredible

1004
00:34:01,269 --> 00:33:59,840
and you'd want to communicate that in

1005
00:34:02,950 --> 00:34:01,279
the right ways and get the right experts

1006
00:34:04,789 --> 00:34:02,960
to look at that and so on so forth but

1007
00:34:07,190 --> 00:34:04,799
then on the other side your actual duty

1008
00:34:09,510 --> 00:34:07,200
in the dod is to

1009
00:34:11,109 --> 00:34:09,520
look after national security and to look

1010
00:34:12,790 --> 00:34:11,119
after our senses and not really talk

1011
00:34:14,629 --> 00:34:12,800
about these things openly and it was

1012
00:34:16,629 --> 00:34:14,639
when they kind of spoke about that that

1013
00:34:18,149 --> 00:34:16,639

i thought you know what i think they're

1014

00:34:19,669 --> 00:34:18,159

very publicly

1015

00:34:20,389 --> 00:34:19,679

saying that they either need a separate

1016

00:34:22,950 --> 00:34:20,399

office

1017

00:34:27,109 --> 00:34:22,960

to start talking about you know the the

1018

00:34:29,990 --> 00:34:28,389

oh they're basically saying that

1019

00:34:31,750 --> 00:34:30,000

whatever office we have to look at this

1020

00:34:34,790 --> 00:34:31,760

cannot be housed inside the dod because

1021

00:34:38,550 --> 00:34:34,800

the mission is just against what

1022

00:34:40,069 --> 00:34:38,560

the the other outcome could be you know

1023

00:34:41,909 --> 00:34:40,079

just before i ask you if you're a big

1024

00:34:43,750 --> 00:34:41,919

takeaway then i've got something i want

1025

00:34:45,190 --> 00:34:43,760

to discuss and it's something

1026
00:34:46,230 --> 00:34:45,200
i was tweeting someone about one of the

1027
00:34:47,190 --> 00:34:46,240
listeners

1028
00:34:50,310 --> 00:34:47,200
and

1029
00:34:52,629 --> 00:34:50,320
do you feel the fact that the air force

1030
00:34:54,389 --> 00:34:52,639
and others were not there are involved

1031
00:34:56,310 --> 00:34:54,399
not that they had to be at this point

1032
00:34:58,550 --> 00:34:56,320
and serve as somewhat of a warning to

1033
00:35:00,790 --> 00:34:58,560
them and it's a chance that they need to

1034
00:35:02,710 --> 00:35:00,800
be more forthcoming in the background or

1035
00:35:05,430 --> 00:35:02,720
next time they could be the folks in

1036
00:35:07,510 --> 00:35:05,440
those hot seats having to either lie in

1037
00:35:08,470 --> 00:35:07,520
front of congress

1038
00:35:11,990 --> 00:35:08,480

or

1039

00:35:13,829 --> 00:35:12,000

a very public setting

1040

00:35:15,670 --> 00:35:13,839

yeah absolutely um

1041

00:35:18,230 --> 00:35:15,680

there was some talk about kind of access

1042

00:35:19,750 --> 00:35:18,240

to classified data and sap programs and

1043

00:35:21,270 --> 00:35:19,760

it made me wonder if you know there were

1044

00:35:23,190 --> 00:35:21,280

maybe other programs that do have that

1045

00:35:25,829 --> 00:35:23,200

designation that they can look at that

1046

00:35:27,829 --> 00:35:25,839

data um but yeah the air force has been

1047

00:35:29,270 --> 00:35:27,839

absent from this conversation

1048

00:35:31,510 --> 00:35:29,280

we've seen some names kind of peppered

1049

00:35:33,589 --> 00:35:31,520

in here and there on on signing you know

1050

00:35:34,710 --> 00:35:33,599

memorandums and things like that but by

1051
00:35:36,550 --> 00:35:34,720
and large

1052
00:35:38,150 --> 00:35:36,560
there are some some

1053
00:35:39,510 --> 00:35:38,160
definite silences from certain

1054
00:35:41,510 --> 00:35:39,520
organizations

1055
00:35:44,630 --> 00:35:41,520
that

1056
00:35:47,030 --> 00:35:44,640
according to places like politico they

1057
00:35:49,270 --> 00:35:47,040
you know they may be kind of internally

1058
00:35:51,990 --> 00:35:49,280
squabbling over what they should release

1059
00:35:54,390 --> 00:35:52,000
uh and and it's real interesting because

1060
00:35:56,390 --> 00:35:54,400
this is clearly a bipartisan issue today

1061
00:36:00,630 --> 00:35:56,400
we had like six people from each party

1062
00:36:02,150 --> 00:36:00,640
in america grilling these two guys who

1063
00:36:03,270 --> 00:36:02,160

i mean

1064

00:36:04,790 --> 00:36:03,280

to me it looked like they were peeing

1065

00:36:07,750 --> 00:36:04,800

into the wind you know like a lot of

1066

00:36:08,790 --> 00:36:07,760

people are disappointed by this but they

1067

00:36:10,790 --> 00:36:08,800

they looked

1068

00:36:12,710 --> 00:36:10,800

panicked and like they even though they

1069

00:36:14,150 --> 00:36:12,720

were briefed by the uaptf they weren't

1070

00:36:15,510 --> 00:36:14,160

prepared for all of the questions that

1071

00:36:18,230 --> 00:36:15,520

they were asked and there's a lot of

1072

00:36:19,910 --> 00:36:18,240

data that they're not being given so

1073

00:36:22,310 --> 00:36:19,920

this this hearing

1074

00:36:24,870 --> 00:36:22,320

stands very much as a kind of

1075

00:36:27,990 --> 00:36:24,880

example that they can't really do what

1076

00:36:30,069 --> 00:36:28,000

congress has asked them to do so we need

1077

00:36:32,550 --> 00:36:30,079

some movement in legislation or some

1078

00:36:33,750 --> 00:36:32,560

movement in people or something to

1079

00:36:34,950 --> 00:36:33,760

actually start getting to the bottom of

1080

00:36:36,870 --> 00:36:34,960

this issue and getting access to the

1081

00:36:38,550 --> 00:36:36,880

data that's historical through places

1082

00:36:40,790 --> 00:36:38,560

like the air force

1083

00:36:42,630 --> 00:36:40,800

this may change but as it stands a few

1084

00:36:44,390 --> 00:36:42,640

hours after the hearings are finished

1085

00:36:47,510 --> 00:36:44,400

what is your what's your big takeaway

1086

00:36:49,349 --> 00:36:47,520

from from what we've got today

1087

00:36:50,390 --> 00:36:49,359

i mean personally i'm i'm loving how

1088

00:36:51,910 --> 00:36:50,400

many people are joining this

1089

00:36:54,150 --> 00:36:51,920

conversation now

1090

00:36:56,230 --> 00:36:54,160

you know i i'm not entirely convinced

1091

00:36:58,150 --> 00:36:56,240

that you and i will

1092

00:36:59,750 --> 00:36:58,160

witness who's inside these craft or

1093

00:37:01,109 --> 00:36:59,760

necessarily you know if they're not from

1094

00:37:01,990 --> 00:37:01,119

here see their homeworld or something

1095

00:37:03,030 --> 00:37:02,000

like that

1096

00:37:05,990 --> 00:37:03,040

but

1097

00:37:07,990 --> 00:37:06,000

this for me is the start of a snowball

1098

00:37:09,510 --> 00:37:08,000

that that is just going to get bigger

1099

00:37:11,190 --> 00:37:09,520

and bigger we've already seen some of

1100

00:37:13,589 --> 00:37:11,200

the politicians very annoyed and very

1101
00:37:14,870 --> 00:37:13,599
angry about what they experienced today

1102
00:37:16,790 --> 00:37:14,880
and it's just going to lead to them

1103
00:37:17,990 --> 00:37:16,800
asking more questions the public are

1104
00:37:19,430 --> 00:37:18,000
going to be intrigued and they're going

1105
00:37:21,190 --> 00:37:19,440
to be asking more questions of their

1106
00:37:22,470 --> 00:37:21,200
officials we have another election

1107
00:37:23,589 --> 00:37:22,480
coming up this is starting to become a

1108
00:37:25,829 --> 00:37:23,599
big issue

1109
00:37:28,710 --> 00:37:25,839
so i i think that these hearings are

1110
00:37:29,910 --> 00:37:28,720
just one of the first of many and if

1111
00:37:31,510 --> 00:37:29,920
people are frustrated or they have

1112
00:37:33,670 --> 00:37:31,520
questions that didn't get answered that

1113
00:37:35,910 --> 00:37:33,680

they really want answered you know hold

1114

00:37:37,829 --> 00:37:35,920

on to your butts because we're gonna get

1115

00:37:39,510 --> 00:37:37,839

more opportunities and

1116

00:37:42,630 --> 00:37:39,520

different officials asking different

1117

00:37:44,390 --> 00:37:42,640

things uh this is a sea change

1118

00:37:46,150 --> 00:37:44,400

for me what i mentioned earlier about

1119

00:37:48,310 --> 00:37:46,160

the the language and terminology that

1120

00:37:50,390 --> 00:37:48,320

was used straight away and this it

1121

00:37:52,710 --> 00:37:50,400

sounded more like questions that we

1122

00:37:54,790 --> 00:37:52,720

would write down and ask congress rather

1123

00:37:55,910 --> 00:37:54,800

than what congress men and women would

1124

00:37:58,230 --> 00:37:55,920

be asking

1125

00:38:00,550 --> 00:37:58,240

on a panel on you know live on a live

1126

00:38:02,230 --> 00:38:00,560

broadcast and an official settings i

1127

00:38:05,030 --> 00:38:02,240

thought that was really interesting and

1128

00:38:06,470 --> 00:38:05,040

very promising for for going forward

1129

00:38:08,150 --> 00:38:06,480

interesting you mentioned obviously it's

1130

00:38:09,270 --> 00:38:08,160

the first step and i think for a lot of

1131

00:38:11,990 --> 00:38:09,280

us it was

1132

00:38:14,310 --> 00:38:12,000

tempering expectations um

1133

00:38:16,470 --> 00:38:14,320

i put a quick poll a couple of hours ago

1134

00:38:19,190 --> 00:38:16,480

are you satisfied with satisfied with

1135

00:38:21,430 --> 00:38:19,200

the first congressional uap hearing and

1136

00:38:25,109 --> 00:38:21,440

21 said yes

1137

00:38:26,950 --> 00:38:25,119

53 have said no and almost 25 are still

1138

00:38:28,550 --> 00:38:26,960

undecided so

1139

00:38:30,390 --> 00:38:28,560

there's there's a mix i think of

1140

00:38:32,870 --> 00:38:30,400

unsatisfied in terms of they weren't

1141

00:38:35,270 --> 00:38:32,880

happy with what was asked which i think

1142

00:38:36,790 --> 00:38:35,280

is come on reflect on that i'm never

1143

00:38:37,910 --> 00:38:36,800

going to tell people like we always say

1144

00:38:39,109 --> 00:38:37,920

make up your own mind and your own

1145

00:38:41,270 --> 00:38:39,119

opinion but

1146

00:38:43,270 --> 00:38:41,280

that that was good people for for what

1147

00:38:44,710 --> 00:38:43,280

you could have expected if someone go

1148

00:38:46,470 --> 00:38:44,720

back to yesterday and list all the

1149

00:38:47,910 --> 00:38:46,480

things we've talked about if someone has

1150

00:38:49,990 --> 00:38:47,920

said you would get that you would have

1151
00:38:52,310 --> 00:38:50,000
said no way so

1152
00:38:53,750 --> 00:38:52,320
perspective i i think you've got to be

1153
00:38:55,910 --> 00:38:53,760
at least somewhat satisfied on

1154
00:38:56,950 --> 00:38:55,920
reflection but yeah people are allowed

1155
00:38:58,630 --> 00:38:56,960
their own their own thoughts and

1156
00:39:00,310 --> 00:38:58,640
opinions i've seen some people saying

1157
00:39:01,829 --> 00:39:00,320
that chris malone and lou alexander have

1158
00:39:03,430 --> 00:39:01,839
failed as if

1159
00:39:04,950 --> 00:39:03,440
time has stopped and they can't do

1160
00:39:06,470 --> 00:39:04,960
anything more and people can't ask more

1161
00:39:09,670 --> 00:39:06,480
questions i think that's a really weird

1162
00:39:12,230 --> 00:39:09,680
and strange take uh no one's failed

1163
00:39:14,069 --> 00:39:12,240

no one's right no one's wrong right now

1164

00:39:16,069 --> 00:39:14,079

uh you know this is start of a process

1165

00:39:18,150 --> 00:39:16,079

and it's awesome there's beginning

1166

00:39:20,390 --> 00:39:18,160

but to be fair it's got to get to a

1167

00:39:22,230 --> 00:39:20,400

point where it doesn't rely on chris

1168

00:39:24,230 --> 00:39:22,240

melon and louis elizondo because if they

1169

00:39:26,790 --> 00:39:24,240

stop exactly tomorrow

1170

00:39:28,310 --> 00:39:26,800

then you can't keep going oh yeah but

1171

00:39:29,829 --> 00:39:28,320

lou will do something or chris will do

1172

00:39:31,109 --> 00:39:29,839

something there's there's got to be

1173

00:39:32,950 --> 00:39:31,119

other people and i think that's what

1174

00:39:35,190 --> 00:39:32,960

they're trying to do with people like

1175

00:39:37,829 --> 00:39:35,200

mike gallagher and andre carson and all

1176

00:39:39,270 --> 00:39:37,839

these folks being involved um

1177

00:39:41,109 --> 00:39:39,280

you know

1178

00:39:42,950 --> 00:39:41,119

running it now yeah they're running it

1179

00:39:44,710 --> 00:39:42,960

for themselves i think people need to

1180

00:39:47,109 --> 00:39:44,720

realize that you know louis mellon might

1181

00:39:48,950 --> 00:39:47,119

be around to answer questions but these

1182

00:39:50,630 --> 00:39:48,960

people are fully autonomous people

1183

00:39:52,870 --> 00:39:50,640

they're doing it on their own

1184

00:39:54,550 --> 00:39:52,880

yep especially with where where louis

1185

00:39:57,430 --> 00:39:54,560

elizondo and chris melon are now in

1186

00:39:58,550 --> 00:39:57,440

terms of political power and political

1187

00:39:59,829 --> 00:39:58,560

sway

1188

00:40:01,510 --> 00:39:59,839

they don't really have that because

1189

00:40:03,990 --> 00:40:01,520

they're not in those roles anymore so

1190

00:40:05,750 --> 00:40:04,000

the people who can actually short of lu

1191

00:40:07,270 --> 00:40:05,760

telling us what he knows or chris male

1192

00:40:08,550 --> 00:40:07,280

and telling us what he knows which isn't

1193

00:40:10,390 --> 00:40:08,560

going to happen

1194

00:40:12,390 --> 00:40:10,400

this is the best chance for

1195

00:40:13,829 --> 00:40:12,400

progress and long-term progress on the

1196

00:40:15,510 --> 00:40:13,839

subject and that's what they have done

1197

00:40:18,069 --> 00:40:15,520

is to move that ball

1198

00:40:19,990 --> 00:40:18,079

further down the court um

1199

00:40:21,750 --> 00:40:20,000

in the field i suppose chris allen

1200

00:40:23,349 --> 00:40:21,760

posted a comment to twitter um that i

1201

00:40:25,109 --> 00:40:23,359

think summed up pretty nicely he said

1202

00:40:27,990 --> 00:40:25,119

that was a frustrating hearing as well

1203

00:40:29,910 --> 00:40:28,000

as a reminder of both how far we've come

1204

00:40:31,670 --> 00:40:29,920

and how far we still have to go and and

1205

00:40:33,750 --> 00:40:31,680

i think that's pretty spot on to be

1206

00:40:35,030 --> 00:40:33,760

honest i've got a few tweets from from a

1207

00:40:37,829 --> 00:40:35,040

few people here i'm going to read out

1208

00:40:40,550 --> 00:40:37,839

just a second i just want to again like

1209

00:40:42,390 --> 00:40:40,560

chris melon has said there

1210

00:40:45,510 --> 00:40:42,400

i watched the

1211

00:40:47,670 --> 00:40:45,520

the last half of the hearings on youtube

1212

00:40:49,430 --> 00:40:47,680

and i walked into the sitting room and

1213

00:40:52,230 --> 00:40:49,440

my wife who knows what i do she knows

1214

00:40:56,390 --> 00:40:52,240

about the podcast obviously um say hello

1215

00:40:58,069 --> 00:40:56,400

to susan fox but hey susan yeah she um i

1216

00:40:59,349 --> 00:40:58,079

i left the room watching that and i

1217

00:41:02,230 --> 00:40:59,359

walked into the sitting room where she

1218

00:41:04,309 --> 00:41:02,240

had court tv on watching the johnny depp

1219

00:41:07,589 --> 00:41:04,319

and amber heard case

1220

00:41:08,950 --> 00:41:07,599

now we were quite excited about 20 or 30

1221

00:41:12,150 --> 00:41:08,960

000 people watching the the

1222

00:41:14,790 --> 00:41:12,160

congressional hearing live on youtube

1223

00:41:17,430 --> 00:41:14,800

there will be millions around the world

1224

00:41:19,109 --> 00:41:17,440

watching johnny depp and amber heard

1225

00:41:21,430 --> 00:41:19,119

that's where this conversation's still

1226

00:41:23,510 --> 00:41:21,440

at folks so we have got excited about

1227

00:41:24,630 --> 00:41:23,520

today this was never going to be about

1228

00:41:26,950 --> 00:41:24,640

the even

1229

00:41:28,950 --> 00:41:26,960

not the world but the us public waking

1230

00:41:30,069 --> 00:41:28,960

up to everyone being involved in that i

1231

00:41:32,309 --> 00:41:30,079

would still

1232

00:41:33,990 --> 00:41:32,319

bet every single penny i haven't ever

1233

00:41:35,750 --> 00:41:34,000

make that today there is still far more

1234

00:41:38,309 --> 00:41:35,760

interest

1235

00:41:39,829 --> 00:41:38,319

in the general public sense of

1236

00:41:42,630 --> 00:41:39,839

johnny depp and amber heard's court

1237

00:41:45,589 --> 00:41:42,640

trial than there is on uap hearings

1238

00:41:47,270 --> 00:41:45,599

going on in congress so i sadly agree

1239

00:41:49,109 --> 00:41:47,280

with you there

1240

00:41:50,390 --> 00:41:49,119

it's it's true though it's changing and

1241

00:41:51,270 --> 00:41:50,400

and

1242

00:41:53,349 --> 00:41:51,280

you know

1243

00:41:55,670 --> 00:41:53,359

johnny depp i think is an amber their

1244

00:41:57,109 --> 00:41:55,680

kind of escapism i i think in a way a

1245

00:41:58,390 --> 00:41:57,119

lot of people see this uap stuff and

1246

00:41:59,990 --> 00:41:58,400

they switch off because they just they

1247

00:42:02,150 --> 00:42:00,000

don't have time to kind of under get the

1248

00:42:03,990 --> 00:42:02,160

nuances and and really spend time

1249

00:42:05,589 --> 00:42:04,000

drilling down you know people there's an

1250

00:42:07,430 --> 00:42:05,599

investment you have to go back and

1251
00:42:08,870 --> 00:42:07,440
research and go right wait a minute and

1252
00:42:10,950 --> 00:42:08,880
it's the conversations we've all had

1253
00:42:12,630 --> 00:42:10,960
isn't it of oh but what about roswell

1254
00:42:14,069 --> 00:42:12,640
right forget roswell forget all that

1255
00:42:16,230 --> 00:42:14,079
stuff what about now here's what's

1256
00:42:18,390 --> 00:42:16,240
happening and it's a lot to give to

1257
00:42:19,990 --> 00:42:18,400
people to take on board and

1258
00:42:21,030 --> 00:42:20,000
the people getting in touch with us dan

1259
00:42:22,790 --> 00:42:21,040
and saying that they listened to the

1260
00:42:24,630 --> 00:42:22,800
podcast a while ago or they heard

1261
00:42:26,790 --> 00:42:24,640
theories of everything or they heard

1262
00:42:29,030 --> 00:42:26,800
their favor on rogan all that kind of

1263
00:42:30,550 --> 00:42:29,040

stuff have spent time getting back into

1264

00:42:32,150 --> 00:42:30,560

the subject listening to podcasts

1265

00:42:34,069 --> 00:42:32,160

reading blogs

1266

00:42:35,990 --> 00:42:34,079

getting involved on twitter instagram

1267

00:42:38,470 --> 00:42:36,000

tech talk all that kind of stuff it's

1268

00:42:39,829 --> 00:42:38,480

not just uh oh the uap congress

1269

00:42:41,190 --> 00:42:39,839

congressional hearings are on i'm going

1270

00:42:42,710 --> 00:42:41,200

to sit and watch that

1271

00:42:44,630 --> 00:42:42,720

i don't think that's the interest that's

1272

00:42:46,390 --> 00:42:44,640

going to be there quite yet so i thought

1273

00:42:48,069 --> 00:42:46,400

it was an interesting and down-to-earth

1274

00:42:49,270 --> 00:42:48,079

juxtaposition again i'm using that word

1275

00:42:50,790 --> 00:42:49,280

to go from

1276

00:42:52,150 --> 00:42:50,800

the room i was in to next door and my

1277

00:42:53,829 --> 00:42:52,160

wife's watching johnny depp and amber

1278

00:42:56,470 --> 00:42:53,839

heard on court tv

1279

00:43:00,550 --> 00:42:56,480

it is however the the if you look at the

1280

00:43:04,790 --> 00:43:02,790

intelligence select too many words yeah

1281

00:43:06,230 --> 00:43:04,800

that place yeah if you go on youtube and

1282

00:43:07,670 --> 00:43:06,240

you find the live stream of it uh you

1283

00:43:09,589 --> 00:43:07,680

can see that it's already the most

1284

00:43:11,030 --> 00:43:09,599

popular video on that channel and that

1285

00:43:12,950 --> 00:43:11,040

channel has been going for many many a

1286

00:43:15,349 --> 00:43:12,960

year so it just to gauge the public

1287

00:43:18,630 --> 00:43:15,359

interest there um you know people people

1288

00:43:20,550 --> 00:43:18,640

are interested uh we just need to enable

1289

00:43:23,589 --> 00:43:20,560

the right people to keep pushing this

1290

00:43:25,030 --> 00:43:23,599

lever and and i think we have that

1291

00:43:26,950 --> 00:43:25,040

yeah you mentioned just to finish up

1292

00:43:28,630 --> 00:43:26,960

folks on those tweets chris mellon like

1293

00:43:30,470 --> 00:43:28,640

dan said that was a frustrating hearing

1294

00:43:32,470 --> 00:43:30,480

as well as a reminder both of how far

1295

00:43:34,870 --> 00:43:32,480

we've come and how far we still have to

1296

00:43:37,589 --> 00:43:34,880

go uh sean cahill followed that up with

1297

00:43:39,589 --> 00:43:37,599

this is a pragmatic takeaway um we have

1298

00:43:41,670 --> 00:43:39,599

never been here before expectations must

1299

00:43:43,589 --> 00:43:41,680

be managed while realistic data-driven

1300

00:43:45,670 --> 00:43:43,599

programs and leadership have time to

1301
00:43:48,230 --> 00:43:45,680
catch up we have leaders fighting for

1302
00:43:49,349 --> 00:43:48,240
truth and in the open asking the right

1303
00:43:52,230 --> 00:43:49,359
questions

1304
00:43:53,990 --> 00:43:52,240
uh jeremy corbell dear ufo twitter

1305
00:43:56,470 --> 00:43:54,000
hellfire missiles have been deployed

1306
00:43:58,390 --> 00:43:56,480
upon the ufo topic sent to ignite and

1307
00:44:00,230 --> 00:43:58,400
weaponize your curiosity regarding this

1308
00:44:03,030 --> 00:44:00,240
ever-expanding universe of ufo

1309
00:44:04,870 --> 00:44:03,040
understanding and confirmation buckle up

1310
00:44:07,750 --> 00:44:04,880
strap and get ready for some atomic

1311
00:44:08,790 --> 00:44:07,760
kinetic action number one to jeremy to

1312
00:44:10,309 --> 00:44:08,800
mix as well

1313
00:44:11,829 --> 00:44:10,319

crazy

1314

00:44:13,589 --> 00:44:11,839

george knapp said that was a lot to

1315

00:44:15,430 --> 00:44:13,599

unpack from the ufo hearing this

1316

00:44:17,109 --> 00:44:15,440

congressman and he means mike gallagher

1317

00:44:18,950 --> 00:44:17,119

has done his homework asking about the

1318

00:44:21,430 --> 00:44:18,960

maelstrom incursion involving disabled

1319

00:44:24,390 --> 00:44:21,440

nukes and brackets dod seemed strangely

1320

00:44:26,950 --> 00:44:24,400

clueless about it and republican tim

1321

00:44:29,109 --> 00:44:26,960

butcher on twitter said the ufo hearing

1322

00:44:30,390 --> 00:44:29,119

this morning was a total joke we should

1323

00:44:32,230 --> 00:44:30,400

have heard from people who could talk

1324

00:44:33,829 --> 00:44:32,240

about things they'd personally seen but

1325

00:44:35,270 --> 00:44:33,839

instead the witnesses were government

1326

00:44:37,349 --> 00:44:35,280

officials with limited knowledge who

1327

00:44:39,829 --> 00:44:37,359

couldn't give real answers to serious

1328

00:44:40,710 --> 00:44:39,839

questions and then afterwards in a video

1329

00:44:42,150 --> 00:44:40,720

of that

1330

00:44:43,750 --> 00:44:42,160

imagine favor was in that hearing you

1331

00:44:45,990 --> 00:44:43,760

know imagine we saw those gimbal videos

1332

00:44:47,510 --> 00:44:46,000

and had ryan graves talking about it and

1333

00:44:50,069 --> 00:44:47,520

explaining the flight path and what

1334

00:44:51,589 --> 00:44:50,079

happened with the actual radar data

1335

00:44:53,990 --> 00:44:51,599

different conversation then

1336

00:44:56,950 --> 00:44:54,000

gabby schwartz if you follow gabby nbc

1337

00:44:59,430 --> 00:44:56,960

uh he shared a video of tim butcher

1338

00:45:00,870 --> 00:44:59,440

after that's doing their own online and

1339

00:45:02,630 --> 00:45:00,880

tim burchard says himself there are

1340

00:45:04,630 --> 00:45:02,640

better videos taken from pilot's wing

1341

00:45:07,109 --> 00:45:04,640

cameras that they should be showing so i

1342

00:45:09,589 --> 00:45:07,119

imagine tim butcher has seen or is very

1343

00:45:11,109 --> 00:45:09,599

well aware of specific right those yeah

1344

00:45:12,630 --> 00:45:11,119

it's pretty much you know like yeah they

1345

00:45:13,910 --> 00:45:12,640

filmed a tic tac off his wing you might

1346

00:45:14,630 --> 00:45:13,920

as well watch that

1347

00:45:16,870 --> 00:45:14,640

so

1348

00:45:18,230 --> 00:45:16,880

yeah interesting and uh

1349

00:45:21,109 --> 00:45:18,240

these are the people that are frustrated

1350

00:45:22,470 --> 00:45:21,119

but hopefully keep pushing this forward

1351
00:45:24,069 --> 00:45:22,480
so dan

1352
00:45:26,630 --> 00:45:24,079
what now we've had the congressional

1353
00:45:29,670 --> 00:45:28,150
and so i mean

1354
00:45:31,349 --> 00:45:29,680
we're gonna probably see a lot of

1355
00:45:33,510 --> 00:45:31,359
fallout from that in the next week or

1356
00:45:36,550 --> 00:45:33,520
you know the short term future i i would

1357
00:45:38,390 --> 00:45:36,560
expect more hearings coming uh

1358
00:45:39,589 --> 00:45:38,400
more questions being asked

1359
00:45:41,750 --> 00:45:39,599
we're going to see the name change of

1360
00:45:43,510 --> 00:45:41,760
the office and who knows fingers crossed

1361
00:45:46,950 --> 00:45:43,520
hopefully we'll see it moved out of

1362
00:45:49,270 --> 00:45:46,960
there or even some other departments i.e

1363
00:45:51,750 --> 00:45:49,280

nasa or someone like that starting their

1364

00:45:53,990 --> 00:45:51,760

own uap programs within their kind of

1365

00:45:55,510 --> 00:45:54,000

remit because they are an educational

1366

00:45:56,790 --> 00:45:55,520

facing you know public-facing

1367

00:45:58,790 --> 00:45:56,800

organization it would make a lot more

1368

00:46:01,109 --> 00:45:58,800

sense for them to talk about uh

1369

00:46:03,430 --> 00:46:01,119

non-human intelligence

1370

00:46:05,349 --> 00:46:03,440

absolutely dan late in the week we'll do

1371

00:46:07,829 --> 00:46:05,359

a breakdown talk about a few news points

1372

00:46:08,870 --> 00:46:07,839

i've got a few things to to bring up and

1373

00:46:11,030 --> 00:46:08,880

uh

1374

00:46:13,030 --> 00:46:11,040

next week on monday i'll have an

1375

00:46:14,790 --> 00:46:13,040

interview probably a shorter one 30 40

1376

00:46:16,390 --> 00:46:14,800

minutes with brandon fugal owner of

1377

00:46:17,510 --> 00:46:16,400

skinwalker ranch got some questions to

1378

00:46:18,710 --> 00:46:17,520

put to him

1379

00:46:20,150 --> 00:46:18,720

i'll be certainly asking about the

1380

00:46:22,550 --> 00:46:20,160

congressional hearings today and some of

1381

00:46:25,430 --> 00:46:22,560

his thoughts on those as well and we've

1382

00:46:27,910 --> 00:46:25,440

also got our aerial skill phenomenon

1383

00:46:29,750 --> 00:46:27,920

documentary review that will come out

1384

00:46:31,349 --> 00:46:29,760

towards the end of next week

1385

00:46:33,190 --> 00:46:31,359

i'm writing saying the documentary

1386

00:46:34,790 --> 00:46:33,200

itself comes out in three days is at the

1387

00:46:36,470 --> 00:46:34,800

end of this week the 20th of may that's

1388

00:46:38,309 --> 00:46:36,480

right 20th yeah

1389

00:46:40,230 --> 00:46:38,319

cool so again we'll give our honest

1390

00:46:41,829 --> 00:46:40,240

thoughts on aerial school phenomenon

1391

00:46:43,349 --> 00:46:41,839

documentary i think we said if you've

1392

00:46:47,030 --> 00:46:43,359

listened to the or watched the ten in

1393

00:46:49,990 --> 00:46:47,040

the sky one um we felt it was certainly

1394

00:46:52,950 --> 00:46:50,000

a more enjoyable watch than a tear in

1395

00:46:54,950 --> 00:46:52,960

the sky and thank you to um

1396

00:46:56,790 --> 00:46:54,960

the uapx crew who many of them have

1397

00:46:58,870 --> 00:46:56,800

commented to say they felt a review was

1398

00:47:00,470 --> 00:46:58,880

very fair and honest so we appreciated

1399

00:47:03,030 --> 00:47:00,480

that because we're not going to lie

1400

00:47:05,750 --> 00:47:03,040

about stuff so yeah um thanks gentlemen

1401

00:47:07,589 --> 00:47:05,760

for for that but yes dan until until

1402

00:47:09,589 --> 00:47:07,599

next time thank you

1403

00:47:12,630 --> 00:47:09,599

1404

00:47:13,990 --> 00:47:12,640

day and just a thank you to sean rash uh

1405

00:47:15,589 --> 00:47:14,000

1407

1409

00:47:22,950 --> 00:47:21,440

well uh basically we all did a live

1410

00:47:24,790 --> 00:47:22,960

stream and it was really cool to kind of

1411

00:47:26,390 --> 00:47:24,800

be with a bunch of like-minded people

1412

00:47:27,670 --> 00:47:26,400

watching this and experiencing it when i

1413

00:47:29,430 --> 00:47:27,680

think of this in decades i'll think of

1414

00:47:31,430 --> 00:47:29,440

those guys so thank you guys uh it was

1415

00:47:33,270 --> 00:47:31,440

really cool and thank you to amber

1416

00:47:34,549 --> 00:47:33,280

harden johnny depp for giving my life

1417

00:47:36,309 --> 00:47:34,559

something else to watch while i was

1418

00:47:38,230 --> 00:47:36,319

watching the historical hearings as well

1419

00:47:39,349 --> 00:47:38,240

so until next time folks thanks for

1420

he made it an issue i don't think he

1437

00:48:43,040 --> 00:48:56,870

[Music]

1438

00:48:56,880 --> 00:49:15,430

cuz

1439

00:49:30,040 --> 00:49:17,109

my boys they thought this was noise they

1440

00:49:30,050 --> 00:49:39,910

[Music]

1441

00:49:39,920 --> 00:49:45,350

and what's that

1442

00:50:22,069 --> 00:49:49,829

[Music]

1443

00:50:24,260 --> 00:50:22,079

it wasn't a tic tac and not quite a

1444

00:50:33,270 --> 00:50:24,270

saucer

1445

00:50:55,350 --> 00:50:35,110

do
