THE

**BREAKDOWN**

THE **DEBRIEF**

Apache - Near Field View / Stabilized  
5.5 sec represents 1/30 of a second

1  
00:00:08,470 --> 00:00:04,309  
hi everyone and welcome to that ufo

2  
00:00:09,750 --> 00:00:08,480  
podcast live on youtube joining me is

3  
00:00:12,310 --> 00:00:09,760  
meant to be dan

4  
00:00:14,230 --> 00:00:12,320  
who isn't quite here yet over from the

5  
00:00:15,270 --> 00:00:14,240  
live chat of the the brandon fogle

6  
00:00:16,390 --> 00:00:15,280  
interview

7  
00:00:18,150 --> 00:00:16,400  
if you're joining us straight from

8  
00:00:19,590 --> 00:00:18,160  
brandon's interview thank you very much

9  
00:00:21,590 --> 00:00:19,600  
people are just getting on board hello

10  
00:00:23,189 --> 00:00:21,600  
to everyone in the live chat if you're

11  
00:00:26,070 --> 00:00:23,199  
listening to this on the audio then

12  
00:00:27,990 --> 00:00:26,080  
hello i have dan in the green room he's

13  
00:00:30,790 --> 00:00:28,000

just getting his makeup done give him a

14

00:00:31,990 --> 00:00:30,800

second yep putting down a starbucks yet

15

00:00:34,870 --> 00:00:32,000

the production team have gave him the

16

00:00:38,709 --> 00:00:34,880

go-ahead and they're sending him in now

17

00:00:40,709 --> 00:00:38,719

and the crowd goes mild hi dan welcome

18

00:00:43,110 --> 00:00:40,719

yeah how's it going

19

00:00:44,630 --> 00:00:43,120

it's going good i i left the live chat a

20

00:00:46,470 --> 00:00:44,640

minute or two early on brandon's side

21

00:00:49,029 --> 00:00:46,480

because we have a guest waiting and so

22

00:00:50,549 --> 00:00:49,039

i've been chatting to it's no surprise

23

00:00:52,229 --> 00:00:50,559

that i've not that it's not a good one

24

00:00:53,430 --> 00:00:52,239

but you know people know i've announced

25

00:00:54,630 --> 00:00:53,440

that he's coming in but we'll just bring

26

00:00:56,709 --> 00:00:54,640

him in now

27

00:00:59,110 --> 00:00:56,719

yeah let's do it yeah oh very quickly

28

00:01:01,029 --> 00:00:59,120

though happy birthday to crash band 69

29

00:01:03,349 --> 00:01:01,039

in the live chat it was it was in there

30

00:01:05,670 --> 00:01:03,359

before so very very happy birthday happy

31

00:01:08,230 --> 00:01:05,680

birthday yeah yeah without further ado

32

00:01:11,670 --> 00:01:08,240

though uh mr chris plane from the

33

00:01:14,310 --> 00:01:11,680

debrief joins us chris

34

00:01:16,469 --> 00:01:14,320

how are we i'm great hey yeah dan is

35

00:01:17,910 --> 00:01:16,479

this the first time we've met it is yeah

36

00:01:19,270 --> 00:01:17,920

i was just going to say chris it's

37

00:01:20,469 --> 00:01:19,280

lovely to meet you i missed you last

38

00:01:23,590 --> 00:01:20,479

time

39

00:01:25,590 --> 00:01:23,600

for you now man you know

40

00:01:27,429 --> 00:01:25,600

yeah right i finally moved up a notch

41

00:01:29,270 --> 00:01:27,439

you know

42

00:01:31,270 --> 00:01:29,280

i'll just sit here

43

00:01:32,230 --> 00:01:31,280

yeah yeah

44

00:01:34,310 --> 00:01:32,240

yeah

45

00:01:36,069 --> 00:01:34,320

have you seen obi-wan yet chris uh you

46

00:01:38,149 --> 00:01:36,079

know what all right so if they popped

47

00:01:39,910 --> 00:01:38,159

him on early last night they have not i

48

00:01:41,429 --> 00:01:39,920

was really debating it it was right

49

00:01:42,950 --> 00:01:41,439

around like midnight when i was thinking

50

00:01:44,630 --> 00:01:42,960

about it and i said i have like five

51  
00:01:46,069 --> 00:01:44,640  
interviews today

52  
00:01:47,830 --> 00:01:46,079  
and they have a big story coming and i

53  
00:01:49,350 --> 00:01:47,840  
just said man i don't think i can do it

54  
00:01:50,389 --> 00:01:49,360  
so no

55  
00:01:52,149 --> 00:01:50,399  
i'm off

56  
00:01:54,630 --> 00:01:52,159  
off with you guys i have christina and

57  
00:01:56,789 --> 00:01:54,640  
then i have somebody else at like six

58  
00:01:58,230 --> 00:01:56,799  
and then at like seven eight pm i told

59  
00:02:00,469 --> 00:01:58,240  
my wife so i'm laying on the couch and

60  
00:02:03,109 --> 00:02:00,479  
watching both ob ones and doing nothing

61  
00:02:04,870 --> 00:02:03,119  
so yeah i love that i love it it's such

62  
00:02:06,550 --> 00:02:04,880  
a big day in terms of releasing uap

63  
00:02:08,630 --> 00:02:06,560

footage and stuff but still we're we're

64  
00:02:11,270 --> 00:02:08,640  
just human you know we have other things

65  
00:02:13,510 --> 00:02:11,280  
see my this is my star wars revenge of

66  
00:02:16,390 --> 00:02:13,520  
the jedi poster behind me so i'm a star

67  
00:02:17,750 --> 00:02:16,400  
wars nerd for sure so man like no spirit

68  
00:02:20,790 --> 00:02:17,760  
is for me but i think you're gonna love

69  
00:02:23,589 --> 00:02:20,800  
it awesome awesome yeah it was 50 50 on

70  
00:02:25,510 --> 00:02:23,599  
boba fett it was all right so i'm i'm i

71  
00:02:26,949 --> 00:02:25,520  
love the mandalorian so i think high

72  
00:02:28,390 --> 00:02:26,959  
hopes for this

73  
00:02:29,910 --> 00:02:28,400  
listen it's it's been a big day for

74  
00:02:32,229 --> 00:02:29,920  
geeks in general like you say because

75  
00:02:33,509 --> 00:02:32,239  
stranger things i believe dropped i saw

76

00:02:35,430 --> 00:02:33,519

graham rendell talking about that

77

00:02:37,990 --> 00:02:35,440

earlier yep the new star wars will be

78

00:02:40,710 --> 00:02:38,000

one series dropped and there was a small

79

00:02:43,110 --> 00:02:40,720

matter of uh a video and article being

80

00:02:44,630 --> 00:02:43,120

released today by the debrief um which

81

00:02:46,710 --> 00:02:44,640

we're going to talk about because that

82

00:02:48,550 --> 00:02:46,720

was something you uh had a part to play

83

00:02:50,390 --> 00:02:48,560

didn't you chris along with tim mcmillan

84

00:02:53,190 --> 00:02:50,400

and micah hanks

85

00:02:54,949 --> 00:02:53,200

at the debrief um so just to recap folks

86

00:02:56,470 --> 00:02:54,959

you you should have seen by now but i

87

00:02:58,790 --> 00:02:56,480

appreciate some people may not have for

88

00:03:01,430 --> 00:02:58,800

example elizabeth in the chat at 6 30

89

00:03:02,710 --> 00:03:01,440

a.m over in australia just now so maybe

90

00:03:03,910 --> 00:03:02,720

things have happened during the night

91

00:03:06,149 --> 00:03:03,920

for some of the listeners for some of

92

00:03:07,830 --> 00:03:06,159

the folks watching um the debrief

93

00:03:09,350 --> 00:03:07,840

mentioned during the week i won't use

94

00:03:11,910 --> 00:03:09,360

the word hyped i don't think there was a

95

00:03:13,910 --> 00:03:11,920

lot of hype around this necessarily like

96

00:03:15,190 --> 00:03:13,920

we've had in the past for some but

97

00:03:16,869 --> 00:03:15,200

announced that you know what there's

98

00:03:18,390 --> 00:03:16,879

going to be an article dropping it's

99

00:03:20,470 --> 00:03:18,400

likely there's going to be one video as

100

00:03:22,309 --> 00:03:20,480

part of that and essentially what we got

101  
00:03:25,750 --> 00:03:22,319  
was an article today from the debrief

102  
00:03:28,390 --> 00:03:25,760  
but by tim by mica and by chris where uh

103  
00:03:31,910 --> 00:03:28,400  
we got a new video of what appears to be

104  
00:03:34,070 --> 00:03:31,920  
a uap relatively short video but it's

105  
00:03:36,229 --> 00:03:34,080  
it's uh multiplied and duplicated with

106  
00:03:39,110 --> 00:03:36,239  
different frames and uh different

107  
00:03:41,830 --> 00:03:39,120  
filters over the actual footage itself

108  
00:03:44,229 --> 00:03:41,840  
and filmed in november 2018 around 40

109  
00:03:46,869 --> 00:03:44,239  
miles from tucson arizona

110  
00:03:48,550 --> 00:03:46,879  
by an apache helicopter and its systems

111  
00:03:50,149 --> 00:03:48,560  
used on there

112  
00:03:52,229 --> 00:03:50,159  
how did this come about for you chris

113  
00:03:55,670 --> 00:03:52,239

how long's this one been in the pipeline

114

00:03:58,789 --> 00:03:55,680

so this started back in january andy and

115

00:04:01,030 --> 00:03:58,799

uh we got contacted uh there are two

116

00:04:04,070 --> 00:04:01,040

gentlemen who do a relatively new

117

00:04:06,869 --> 00:04:04,080

podcast for the debrief named uh stefan

118

00:04:09,670 --> 00:04:06,879

gerhart and josh rutledge and they do

119

00:04:12,550 --> 00:04:09,680

the uh convergence enigma uh they do the

120

00:04:14,149 --> 00:04:12,560

paranormal fearscape podcast and they

121

00:04:16,229 --> 00:04:14,159

come on and been doing like a tech talk

122

00:04:18,550 --> 00:04:16,239

podcast for us and they reached out to

123

00:04:21,509 --> 00:04:18,560

me in january and said hey chris

124

00:04:24,390 --> 00:04:21,519

we just spoke to this guy andy and he's

125

00:04:27,189 --> 00:04:24,400

got this twitter i guess uh instagram

126

00:04:28,469 --> 00:04:27,199

account uh the nyuap

127

00:04:31,030 --> 00:04:28,479

discussion

128

00:04:33,030 --> 00:04:31,040

and he's got a whistleblower he has a

129

00:04:35,749 --> 00:04:33,040

guy inside the department of homeland

130

00:04:37,030 --> 00:04:35,759

security who was a border patrol agent

131

00:04:39,749 --> 00:04:37,040

who has

132

00:04:41,350 --> 00:04:39,759

already released some footage and has

133

00:04:42,390 --> 00:04:41,360

some more footage that he wants to

134

00:04:44,790 --> 00:04:42,400

release

135

00:04:47,110 --> 00:04:44,800

and he's finally ready to talk he's

136

00:04:49,749 --> 00:04:47,120

finally ready to put his story out

137

00:04:53,110 --> 00:04:49,759

now for me at that point i i gotta be

138

00:04:55,350 --> 00:04:53,120

honest the rubber duck video the a-10

139

00:04:57,110 --> 00:04:55,360

and the la brought the three that he had

140

00:04:59,350 --> 00:04:57,120

released already

141

00:05:01,749 --> 00:04:59,360

those had kind of come and gone and i

142

00:05:03,909 --> 00:05:01,759

hadn't noted them so

143

00:05:06,310 --> 00:05:03,919

because i write science at the debrief i

144

00:05:07,110 --> 00:05:06,320

do love ufos and i do definitely cover

145

00:05:09,189 --> 00:05:07,120

them

146

00:05:10,629 --> 00:05:09,199

but the bulk of what i write is not that

147

00:05:13,350 --> 00:05:10,639

category

148

00:05:15,110 --> 00:05:13,360

so i stay abreast i stay attuned

149

00:05:17,110 --> 00:05:15,120

but when they reached out to me and said

150

00:05:19,990 --> 00:05:17,120

this guy so i you know he's ready to

151

00:05:22,230 --> 00:05:20,000

come forward so uh

152

00:05:24,790 --> 00:05:22,240

i reached out to andy

153

00:05:26,070 --> 00:05:24,800

and he put me in touch with bob thompson

154

00:05:28,150 --> 00:05:26,080

bob is the

155

00:05:30,870 --> 00:05:28,160

uh department of homeland security uh

156

00:05:34,390 --> 00:05:30,880

customs and border patrol agent

157

00:05:36,550 --> 00:05:34,400

who is uh listed in the article

158

00:05:38,790 --> 00:05:36,560

and a couple key things came out even

159

00:05:40,629 --> 00:05:38,800

before we got started

160

00:05:42,629 --> 00:05:40,639

those three videos i mentioned before

161

00:05:43,990 --> 00:05:42,639

they had been on the internet and andy

162

00:05:47,189 --> 00:05:44,000

had put them up but they didn't really

163

00:05:48,870 --> 00:05:47,199

have any providence you know and we know

164

00:05:49,749 --> 00:05:48,880

anybody who spends any time on ufo

165

00:05:52,629 --> 00:05:49,759

twitter

166

00:05:54,469 --> 00:05:52,639

what i do in my free time is

167

00:05:57,909 --> 00:05:54,479

there's videos every day there's

168

00:06:00,790 --> 00:05:57,919

triangles and cgi this and that you just

169

00:06:03,350 --> 00:06:00,800

never know so when those came out they

170

00:06:06,710 --> 00:06:03,360

just kind of came and went past me real

171

00:06:08,469 --> 00:06:06,720

quick and i just didn't register them so

172

00:06:11,510 --> 00:06:08,479

when they told me oh it's the guy behind

173

00:06:13,350 --> 00:06:11,520

the rubber duck video i said okay

174

00:06:14,870 --> 00:06:13,360

and i tracked it down and i started

175

00:06:16,950 --> 00:06:14,880

watching stuff on the internet and i

176  
00:06:19,110 --> 00:06:16,960  
started doing research and i said okay

177  
00:06:21,029 --> 00:06:19,120  
there might be something here

178  
00:06:23,430 --> 00:06:21,039  
so i had that initial conversation with

179  
00:06:25,189 --> 00:06:23,440  
bob and andy

180  
00:06:27,189 --> 00:06:25,199  
and by the end i was on with them for

181  
00:06:29,029 --> 00:06:27,199  
over an hour and uh recorded the whole

182  
00:06:30,469 --> 00:06:29,039  
thing some of those quotes actually made

183  
00:06:32,309 --> 00:06:30,479  
the story

184  
00:06:34,309 --> 00:06:32,319  
and at the end of the conversation i

185  
00:06:35,909 --> 00:06:34,319  
knew we had something i knew you know

186  
00:06:37,270 --> 00:06:35,919  
when you interview people especially

187  
00:06:39,110 --> 00:06:37,280  
when you write news stories which i've

188  
00:06:41,350 --> 00:06:39,120

been doing now for a year and a half

189

00:06:42,629 --> 00:06:41,360

you can really often tell pretty early

190

00:06:44,390 --> 00:06:42,639

on if you're dealing with somebody who

191

00:06:46,469 --> 00:06:44,400

has an agenda or somebody who's

192

00:06:48,710 --> 00:06:46,479

legitimately just telling you something

193

00:06:51,189 --> 00:06:48,720

and there was no doubt in my mind that

194

00:06:53,670 --> 00:06:51,199

bob was who he said he was that he was

195

00:06:56,309 --> 00:06:53,680

uh this you know had this pedigree

196

00:06:58,070 --> 00:06:56,319

and what he told me was

197

00:07:00,790 --> 00:06:58,080

chris these videos are the tip of the

198

00:07:03,110 --> 00:07:00,800

iceberg he said we're seeing this all

199

00:07:05,749 --> 00:07:03,120

the time i've seen things

200

00:07:08,469 --> 00:07:05,759

pilots and again the way it works here

201  
00:07:09,430 --> 00:07:08,479  
in the states is for them to patrol the

202  
00:07:11,350 --> 00:07:09,440  
border

203  
00:07:13,749 --> 00:07:11,360  
they have the department of homeland

204  
00:07:16,150 --> 00:07:13,759  
security kind of overseeing it all you

205  
00:07:18,469 --> 00:07:16,160  
have national guard airplanes which are

206  
00:07:20,230 --> 00:07:18,479  
basically military airplanes and then

207  
00:07:22,550 --> 00:07:20,240  
you have customs and border patrol

208  
00:07:24,230 --> 00:07:22,560  
officers on those planes

209  
00:07:26,469 --> 00:07:24,240  
reading the equipment looking for

210  
00:07:29,670 --> 00:07:26,479  
smugglers and human trafficking and

211  
00:07:31,029 --> 00:07:29,680  
other crimes along the border

212  
00:07:32,870 --> 00:07:31,039  
so

213  
00:07:35,510 --> 00:07:32,880

he told me he says this is across the

214

00:07:37,430 --> 00:07:35,520

board pilots are seeing things agents

215

00:07:39,430 --> 00:07:37,440

are seeing things people that operate

216

00:07:41,909 --> 00:07:39,440

this equipment and something else he

217

00:07:44,390 --> 00:07:41,919

told me that made the story was just the

218

00:07:46,869 --> 00:07:44,400

sheer volume of time these guys spend on

219

00:07:49,830 --> 00:07:46,879

this equipment and the number of things

220

00:07:52,230 --> 00:07:49,840

they have to discern they have a cia air

221

00:07:54,950 --> 00:07:52,240

base right where they are there's an air

222

00:07:57,029 --> 00:07:54,960

force facility i believe and he just

223

00:07:58,550 --> 00:07:57,039

told me says we see everything you name

224

00:08:00,309 --> 00:07:58,560

type of airplane

225

00:08:01,270 --> 00:08:00,319

type of drone

226

00:08:02,710 --> 00:08:01,280

animal

227

00:08:05,029 --> 00:08:02,720

jackrabbits

228

00:08:08,150 --> 00:08:05,039

you know i mean quadcopters predator

229

00:08:09,589 --> 00:08:08,160

jump you name it we see it and we just

230

00:08:11,990 --> 00:08:09,599

know what it looks like it's what we

231

00:08:13,670 --> 00:08:12,000

look at all day the comparison he used

232

00:08:15,670 --> 00:08:13,680

for me is like a radiologist looking at

233

00:08:16,790 --> 00:08:15,680

x-rays all day they know what a tumor

234

00:08:18,309 --> 00:08:16,800

looks like

235

00:08:20,150 --> 00:08:18,319

and all of a sudden he's seeing

236

00:08:21,990 --> 00:08:20,160

something on his camera that he just

237

00:08:23,670 --> 00:08:22,000

doesn't know what it is

238

00:08:25,189 --> 00:08:23,680

and these other agents are telling him

239

00:08:27,830 --> 00:08:25,199

the same thing

240

00:08:30,550 --> 00:08:27,840

so he reached out to agents and said

241

00:08:33,589 --> 00:08:30,560

hey we have no formal method to report

242

00:08:35,670 --> 00:08:33,599

this bring this stuff to me

243

00:08:39,190 --> 00:08:35,680

he went to his bosses at the border

244

00:08:41,029 --> 00:08:39,200

patrol and said i'd like to essentially

245

00:08:43,829 --> 00:08:41,039

create an a tip and that's what happened

246

00:08:46,470 --> 00:08:43,839

he saw the 2017 reports

247

00:08:48,230 --> 00:08:46,480

and he learned about atip and he said

248

00:08:50,070 --> 00:08:48,240

we're a uniformed

249

00:08:52,230 --> 00:08:50,080

militarized service

250

00:08:54,470 --> 00:08:52,240

who's seeing these uaps

251  
00:08:55,750 --> 00:08:54,480  
on american soil and above american soil

252  
00:08:58,070 --> 00:08:55,760  
we're not talking in the middle of the

253  
00:08:59,509 --> 00:08:58,080  
ocean like the navy or off the coast

254  
00:09:01,350 --> 00:08:59,519  
we're talking right along the border

255  
00:09:03,190 --> 00:09:01,360  
between arizona and mexico which is

256  
00:09:05,269 --> 00:09:03,200  
where he was working

257  
00:09:07,110 --> 00:09:05,279  
so sure enough

258  
00:09:09,190 --> 00:09:07,120  
agents started bringing him stuff and

259  
00:09:11,910 --> 00:09:09,200  
telling him stuff and as he pointed out

260  
00:09:14,310 --> 00:09:11,920  
all four of these videos he's released

261  
00:09:15,190 --> 00:09:14,320  
were not he wasn't on the plane for any

262  
00:09:17,829 --> 00:09:15,200  
of them

263  
00:09:20,470 --> 00:09:17,839

so these are representative of the work

264

00:09:23,110 --> 00:09:20,480

of multiple agents and multiple pilots

265

00:09:25,269 --> 00:09:23,120

seeing things and he he went to his

266

00:09:27,670 --> 00:09:25,279

bosses they gave him the okay he wrote

267

00:09:29,750 --> 00:09:27,680

up what's called an issue paper and uh

268

00:09:31,350 --> 00:09:29,760

he essentially retired he retired in

269

00:09:34,230 --> 00:09:31,360

january of this year

270

00:09:35,910 --> 00:09:34,240

but it is his belief that uh that that

271

00:09:37,509 --> 00:09:35,920

started the ball rolling and that the

272

00:09:40,389 --> 00:09:37,519

department of homeland and the border

273

00:09:42,949 --> 00:09:40,399

patrol uh are putting together uh

274

00:09:45,190 --> 00:09:42,959

essentially reporting procedures

275

00:09:46,790 --> 00:09:45,200

so just like in the navy and hopefully

276

00:09:48,150 --> 00:09:46,800

in the other branches of the military

277

00:09:51,110 --> 00:09:48,160

here in the states

278

00:09:53,590 --> 00:09:51,120

these guys have a way to avoid stigma

279

00:09:54,949 --> 00:09:53,600

and go ahead and report encounters when

280

00:09:57,910 --> 00:09:54,959

they have them

281

00:10:01,030 --> 00:09:57,920

i think that's really important dan

282

00:10:03,269 --> 00:10:01,040

hi uh i'm going i'm gonna ask you uh

283

00:10:04,710 --> 00:10:03,279

what were your thoughts on on the video

284

00:10:06,230 --> 00:10:04,720

i was kind of working at the time and we

285

00:10:08,310 --> 00:10:06,240

were texting and going back and forward

286

00:10:09,750 --> 00:10:08,320

in the group chats and stuff but um you

287

00:10:11,110 --> 00:10:09,760

you read the article you've seen the

288

00:10:13,509 --> 00:10:11,120

video what were your kind of instant

289

00:10:15,350 --> 00:10:13,519

takeaways i mean if it was possible

290

00:10:16,710 --> 00:10:15,360

to burn out a digital file by watching

291

00:10:19,110 --> 00:10:16,720

it too much i would have done that

292

00:10:20,630 --> 00:10:19,120

already uh it's a really interesting

293

00:10:22,069 --> 00:10:20,640

video it starts

294

00:10:24,230 --> 00:10:22,079

you know you you look like you're just

295

00:10:26,710 --> 00:10:24,240

looking at aircraft through through uh a

296

00:10:29,110 --> 00:10:26,720

system and as they get nearer

297

00:10:31,190 --> 00:10:29,120

the way that these three objects move

298

00:10:33,670 --> 00:10:31,200

around each other is extremely

299

00:10:34,949 --> 00:10:33,680

interesting because they they exhibit

300

00:10:37,269 --> 00:10:34,959

basically

301

00:10:39,030 --> 00:10:37,279

g forces that if there was a person

302

00:10:40,630 --> 00:10:39,040

inside i mean one one we can't make

303

00:10:42,470 --> 00:10:40,640

anything that moves like that two i

304

00:10:44,470 --> 00:10:42,480

thought it was interesting that

305

00:10:46,310 --> 00:10:44,480

they kind of sling around each other

306

00:10:48,230 --> 00:10:46,320

like like an orbit as opposed to a

307

00:10:50,389 --> 00:10:48,240

smooth arc you know it's like there's

308

00:10:53,829 --> 00:10:50,399

something in the middle there um

309

00:10:55,430 --> 00:10:53,839

and and it's free it appears that

310

00:10:57,190 --> 00:10:55,440

you know if there was a human in there

311

00:10:59,430 --> 00:10:57,200

they would just be turned to goo that's

312

00:11:00,870 --> 00:10:59,440

all that would happen and and it's real

313

00:11:02,230 --> 00:11:00,880

interesting because

314

00:11:04,230 --> 00:11:02,240

it's one of those videos that you look

315

00:11:06,470 --> 00:11:04,240

at and you just kind of go whoa things

316

00:11:07,910 --> 00:11:06,480

we make don't move that way what's that

317

00:11:09,350 --> 00:11:07,920

you know

318

00:11:11,110 --> 00:11:09,360

it looks like an advert for top gun

319

00:11:12,949 --> 00:11:11,120

you're right the new movie um available

320

00:11:14,310 --> 00:11:12,959

in cinemas now we're not being sponsored

321

00:11:15,990 --> 00:11:14,320

or paid by them but i hear it's very

322

00:11:17,829 --> 00:11:16,000

good um but like you see you've got that

323

00:11:19,350 --> 00:11:17,839

kind of gun cam footage that a layman

324

00:11:20,870 --> 00:11:19,360

like myself would call it even though

325

00:11:23,110 --> 00:11:20,880

that is not what it is

326

00:11:24,470 --> 00:11:23,120

and you can see basically that they are

327

00:11:26,550 --> 00:11:24,480

they're filming they're not really doing

328

00:11:29,030 --> 00:11:26,560

too much and then and they can atop

329

00:11:31,269 --> 00:11:29,040

right of the the picture three objects

330

00:11:33,590 --> 00:11:31,279

which to be fair i miss it first when i

331

00:11:35,030 --> 00:11:33,600

first watched it i was like i i didn't

332

00:11:35,990 --> 00:11:35,040

see anything there but they were talking

333

00:11:37,590 --> 00:11:36,000

about it

334

00:11:39,190 --> 00:11:37,600

yeah and then you realize the video

335

00:11:40,710 --> 00:11:39,200

overlaps and over and over so it keeps

336

00:11:42,949 --> 00:11:40,720

playing and keeps playing and

337

00:11:45,190 --> 00:11:42,959

it loops and the filter's changing and

338

00:11:46,710 --> 00:11:45,200

it shows you the three objects but then

339

00:11:48,710 --> 00:11:46,720

i never noticed again the second or

340

00:11:50,629 --> 00:11:48,720

third time that they move and look

341

00:11:52,949 --> 00:11:50,639

and then there's that movement which is

342

00:11:55,190 --> 00:11:52,959

very very interesting it's in a sort of

343

00:11:57,110 --> 00:11:55,200

loose triangular formation the looping

344

00:11:58,870 --> 00:11:57,120

happens and then as it moves on past it

345

00:12:00,550 --> 00:11:58,880

goes back into formation

346

00:12:03,269 --> 00:12:00,560

and that's it that that's the end of the

347

00:12:06,150 --> 00:12:03,279

video is it astonishing when you just

348

00:12:07,990 --> 00:12:06,160

watch the video no however there is a

349

00:12:10,790 --> 00:12:08,000

context to it and like you say with some

350

00:12:13,350 --> 00:12:10,800

of the quotes within the article as well

351

00:12:15,030 --> 00:12:13,360

it gives that kind of extra credibility

352

00:12:17,030 --> 00:12:15,040

to it i think i said to people before

353

00:12:18,949 --> 00:12:17,040

this even came out as i've said every

354

00:12:20,150 --> 00:12:18,959

single time we get a drop of anything

355

00:12:22,389 --> 00:12:20,160

from anyone

356

00:12:25,190 --> 00:12:22,399

temper your expectations don't be

357

00:12:27,750 --> 00:12:25,200

expecting hd videos of tic tacs 40 feet

358

00:12:29,430 --> 00:12:27,760

off of pilot's wings we're not getting

359

00:12:32,389 --> 00:12:29,440

that anytime soon

360

00:12:34,470 --> 00:12:32,399

one problem yeah maybe one day but we've

361

00:12:36,470 --> 00:12:34,480

got a very interesting video with some

362

00:12:39,590 --> 00:12:36,480

very interesting background

363

00:12:40,870 --> 00:12:39,600

i think what you mentioned andy ny at

364

00:12:42,790 --> 00:12:40,880

uap

365

00:12:44,790 --> 00:12:42,800

i was dmng andy last night as well

366

00:12:46,550 --> 00:12:44,800

because i made a comment and andy has a

367

00:12:49,030 --> 00:12:46,560

habit of going off the deep end a little

368

00:12:51,190 --> 00:12:49,040

bit with his

369

00:12:53,670 --> 00:12:51,200

really quickly and yeah i didn't know

370

00:12:56,150 --> 00:12:53,680

who he was before this so i've had to

371

00:12:58,150 --> 00:12:56,160

minimize interaction with him but yeah

372

00:13:00,550 --> 00:12:58,160

and andy can get very passionate let's

373

00:13:02,550 --> 00:13:00,560

just say very quickly and very defensive

374

00:13:04,310 --> 00:13:02,560

and i said to him you know when it comes

375

00:13:05,829 --> 00:13:04,320

out well done for getting it out it's a

376

00:13:07,670 --> 00:13:05,839

lot to bring this kind of stuff forward

377

00:13:10,069 --> 00:13:07,680

again especially after last time and his

378

00:13:12,389 --> 00:13:10,079

kickoffs that you had online i was like

379

00:13:14,230 --> 00:13:12,399

and i said just let the the the footage

380

00:13:16,230 --> 00:13:14,240

speak for itself because people will

381

00:13:17,750 --> 00:13:16,240

have an opinion one way or another no

382

00:13:19,509 --> 00:13:17,760

matter how good it is

383

00:13:21,670 --> 00:13:19,519

and he wasn't happy with how i worded

384

00:13:23,750 --> 00:13:21,680

that to which he misunderstood how i

385

00:13:25,350 --> 00:13:23,760

phrased you know let it speak for itself

386

00:13:27,990 --> 00:13:25,360

and he dm'd me and we spoke and

387

00:13:29,829 --> 00:13:28,000

everything else and that was fine but um

388

00:13:31,110 --> 00:13:29,839

like i say he's done well to get it out

389

00:13:32,389 --> 00:13:31,120

it's a lot to put anything out there

390

00:13:35,030 --> 00:13:32,399

like that because you're always going to

391

00:13:37,030 --> 00:13:35,040

get that intense scrutiny

392

00:13:38,470 --> 00:13:37,040

chris what have you seen so far from the

393

00:13:39,750 --> 00:13:38,480

comments online i'm guessing you'll have

394

00:13:41,829 --> 00:13:39,760

seen some stuff i know you've been on

395

00:13:43,189 --> 00:13:41,839

and off interviews all day but what what

396

00:13:45,750 --> 00:13:43,199

are those commentaries been like and

397

00:13:47,350 --> 00:13:45,760

anything that stood out to you uh i

398

00:13:49,189 --> 00:13:47,360

so

399

00:13:51,430 --> 00:13:49,199

before you know obviously it's a mixed

400

00:13:54,069 --> 00:13:51,440

bag when i wrote a review last week for

401  
00:13:58,150 --> 00:13:54,079  
the reo school documentary in that

402  
00:14:00,310 --> 00:13:58,160  
review i said uh ufo news has a pattern

403  
00:14:02,310 --> 00:14:00,320  
that we should all be used to which is

404  
00:14:03,269 --> 00:14:02,320  
first there's a rumor that news is

405  
00:14:05,430 --> 00:14:03,279  
coming

406  
00:14:07,509 --> 00:14:05,440  
which builds the excitement then there's

407  
00:14:09,430 --> 00:14:07,519  
a lot of guessing as to what it's going

408  
00:14:11,509 --> 00:14:09,440  
to be then there's a lot of people

409  
00:14:13,590 --> 00:14:11,519  
telling me it's not going to be anything

410  
00:14:15,670 --> 00:14:13,600  
then it comes out and you have two

411  
00:14:18,389 --> 00:14:15,680  
distinct reactions you have wow this is

412  
00:14:20,870 --> 00:14:18,399  
amazing and wow this is total garbage

413  
00:14:23,030 --> 00:14:20,880

and i think we got a good share a good

414

00:14:25,350 --> 00:14:23,040

heavy share of both of those today i

415

00:14:27,189 --> 00:14:25,360

think the people that you would expect

416

00:14:28,790 --> 00:14:27,199

to look at it and say it's birds or

417

00:14:31,030 --> 00:14:28,800

insects are the people that came out and

418

00:14:33,269 --> 00:14:31,040

did that and

419

00:14:36,389 --> 00:14:33,279

i i think the people that took the time

420

00:14:39,030 --> 00:14:36,399

to read the 4 500 words that my partners

421

00:14:41,829 --> 00:14:39,040

and i put together and actually read the

422

00:14:44,550 --> 00:14:41,839

testimony from other pilots who analyzed

423

00:14:46,629 --> 00:14:44,560

the video and from video experts they

424

00:14:50,069 --> 00:14:46,639

see that there's way more here than than

425

00:14:52,470 --> 00:14:50,079

uh insects or birds and that for these

426

00:14:54,310 --> 00:14:52,480

guys who are experts at doing this

427

00:14:57,269 --> 00:14:54,320

they're looking at it saying

428

00:14:59,829 --> 00:14:57,279

it seems to be something else a physical

429

00:15:05,430 --> 00:14:59,839

something craft or something moving in a

430

00:15:07,030 --> 00:15:05,440

way that uh craft normally don't move so

431

00:15:09,350 --> 00:15:07,040

our goal

432

00:15:11,750 --> 00:15:09,360

in building a little anticipation around

433

00:15:15,269 --> 00:15:11,760

this story was the idea that we thought

434

00:15:16,790 --> 00:15:15,279

we had a big story and that it was that

435

00:15:18,150 --> 00:15:16,800

inside the department of homeland

436

00:15:20,150 --> 00:15:18,160

security and the border patrol and the

437

00:15:22,389 --> 00:15:20,160

national guard they're seeing the same

438

00:15:24,629 --> 00:15:22,399

things that the navy pilots are saying

439

00:15:27,110 --> 00:15:24,639

so to us that was the story but in the

440

00:15:29,350 --> 00:15:27,120

ufo world and fair enough

441

00:15:33,110 --> 00:15:29,360

when a word comes out that video is

442

00:15:34,629 --> 00:15:33,120

coming video becomes the headline so i

443

00:15:36,949 --> 00:15:34,639

think uh

444

00:15:38,550 --> 00:15:36,959

the the video you know when i first saw

445

00:15:40,389 --> 00:15:38,560

it i didn't see it back when i

446

00:15:41,269 --> 00:15:40,399

interviewed these guys in january i

447

00:15:44,069 --> 00:15:41,279

actually

448

00:15:46,470 --> 00:15:44,079

after i had that initial interview and i

449

00:15:48,550 --> 00:15:46,480

realized there was something there

450

00:15:50,310 --> 00:15:48,560

i went to tim and i went to micah and i

451  
00:15:52,389 --> 00:15:50,320  
said look you guys are the bosses here

452  
00:15:54,870 --> 00:15:52,399  
and you're the experts on this stuff

453  
00:15:56,550 --> 00:15:54,880  
this feels like a tim and micah's story

454  
00:15:58,310 --> 00:15:56,560  
this doesn't feel like a chris plain

455  
00:15:59,030 --> 00:15:58,320  
story

456  
00:16:00,629 --> 00:15:59,040  
so

457  
00:16:03,189 --> 00:16:00,639  
they went to work

458  
00:16:05,670 --> 00:16:03,199  
doing what they do verifying that people

459  
00:16:08,310 --> 00:16:05,680  
were legitimate verifying professional

460  
00:16:09,670 --> 00:16:08,320  
backgrounds and then as you saw taking

461  
00:16:11,670 --> 00:16:09,680  
that video

462  
00:16:13,590 --> 00:16:11,680  
getting it to experts and having them

463  
00:16:15,829 --> 00:16:13,600

watch it and evaluate it

464

00:16:18,389 --> 00:16:15,839

when i first saw the video the first

465

00:16:20,230 --> 00:16:18,399

time we were in a group chat at work and

466

00:16:22,069 --> 00:16:20,240

it was on a little screen like this on

467

00:16:24,150 --> 00:16:22,079

my laptop

468

00:16:26,470 --> 00:16:24,160

and i couldn't see anything and i'm

469

00:16:28,629 --> 00:16:26,480

watching it and chrissy and uh and and

470

00:16:29,990 --> 00:16:28,639

the rest of the team they're going wow

471

00:16:32,389 --> 00:16:30,000

look at that look at the way those

472

00:16:33,670 --> 00:16:32,399

things are moving i'm going i can't see

473

00:16:36,470 --> 00:16:33,680

anything

474

00:16:39,269 --> 00:16:36,480

since then i've had the opportunity like

475

00:16:41,590 --> 00:16:39,279

a lot of people to have it on youtube to

476

00:16:44,790 --> 00:16:41,600

put it on my big tv

477

00:16:46,710 --> 00:16:44,800

in hd and actually watch the movement of

478

00:16:49,110 --> 00:16:46,720

these objects and if you have the

479

00:16:51,829 --> 00:16:49,120

ability to do that to put it on a big 4k

480

00:16:53,509 --> 00:16:51,839

tv and actually watch it i think people

481

00:16:55,990 --> 00:16:53,519

will be a little more impressed with

482

00:16:57,910 --> 00:16:56,000

what's there and then i i think just the

483

00:17:00,389 --> 00:16:57,920

scientific analysis the work that's

484

00:17:01,749 --> 00:17:00,399

being done and that's what's happening

485

00:17:03,350 --> 00:17:01,759

tomorrow

486

00:17:06,390 --> 00:17:03,360

and sunday

487

00:17:08,710 --> 00:17:06,400

in uh utah is this big conference and

488

00:17:10,789 --> 00:17:08,720

they have experts coming out

489

00:17:13,350 --> 00:17:10,799

analyzing the video talking about the

490

00:17:15,909 --> 00:17:13,360

video and i can tell you that other than

491

00:17:17,750 --> 00:17:15,919

noted critics every pilot every air

492

00:17:20,150 --> 00:17:17,760

force person everyone even people that

493

00:17:22,390 --> 00:17:20,160

spoke on background that looked at this

494

00:17:24,870 --> 00:17:22,400

for us have the same opinions that

495

00:17:26,069 --> 00:17:24,880

fighter pilot chris ledo and ryan graves

496

00:17:28,950 --> 00:17:26,079

and the other people that spoke on

497

00:17:32,310 --> 00:17:28,960

record which is this was unusual this

498

00:17:34,630 --> 00:17:32,320

didn't look like birds or insects and i

499

00:17:35,830 --> 00:17:34,640

always come back to and for me the key

500

00:17:37,590 --> 00:17:35,840

point was

501  
00:17:39,830 --> 00:17:37,600  
what bob said to me and it kind of

502  
00:17:41,510 --> 00:17:39,840  
rounds out the story at the end and that

503  
00:17:42,390 --> 00:17:41,520  
one of my quotes made the story there at

504  
00:17:44,150 --> 00:17:42,400  
the end

505  
00:17:46,710 --> 00:17:44,160  
where he said

506  
00:17:48,870 --> 00:17:46,720  
i have thousands of hours doing this he

507  
00:17:51,270 --> 00:17:48,880  
even told me online that didn't make the

508  
00:17:53,990 --> 00:17:51,280  
article which is no offense to fighter

509  
00:17:55,669 --> 00:17:54,000  
pilots out there but those of us that

510  
00:17:57,430 --> 00:17:55,679  
have to patrol the border and look

511  
00:17:59,430 --> 00:17:57,440  
through these flare equipment and these

512  
00:18:02,150 --> 00:17:59,440  
other things we have to do this for

513  
00:18:05,029 --> 00:18:02,160

eight 10 12 hour shifts seven days into

514

00:18:07,270 --> 00:18:05,039

you know we have so many hours on this

515

00:18:10,630 --> 00:18:07,280

equipment we can pick out anything we

516

00:18:13,270 --> 00:18:10,640

can pick out a quadcopter from uh we can

517

00:18:16,070 --> 00:18:13,280

tell you if it's a retail one or if it's

518

00:18:18,549 --> 00:18:16,080

a military level they have so much

519

00:18:20,470 --> 00:18:18,559

ability to pick out what's on that video

520

00:18:22,630 --> 00:18:20,480

and when they look at this video and

521

00:18:24,630 --> 00:18:22,640

some of the others they're stumped and

522

00:18:26,950 --> 00:18:24,640

that was the term bob used at the end he

523

00:18:29,110 --> 00:18:26,960

says i feel like i'm as expert as there

524

00:18:30,549 --> 00:18:29,120

isn't looking at this stuff and i'm

525

00:18:32,390 --> 00:18:30,559

stumped

526

00:18:34,870 --> 00:18:32,400

that i feel like i uploaded the video

527

00:18:37,350 --> 00:18:34,880

i'm going down has it got audio on it

528

00:18:39,110 --> 00:18:37,360

um it has but the audio doesn't really

529

00:18:40,789 --> 00:18:39,120

matter that's not that's i'm gonna if

530

00:18:42,789 --> 00:18:40,799

you want to talk i'll play the video so

531

00:18:43,830 --> 00:18:42,799

folks on the chat can can see the video

532

00:18:45,909 --> 00:18:43,840

in the background because we've been

533

00:18:46,710 --> 00:18:45,919

talking about it for a while so sure

534

00:18:49,029 --> 00:18:46,720

sure

535

00:18:52,070 --> 00:18:49,039

so this video is just kind of a close-up

536

00:18:53,590 --> 00:18:52,080

uh portion that's looped um

537

00:18:54,470 --> 00:18:53,600

and i took a little screen capture of it

538

00:18:55,830 --> 00:18:54,480

because i thought it was interesting

539

00:18:57,990 --> 00:18:55,840

because you can almost see some shapes

540

00:19:00,390 --> 00:18:58,000

within the orbs there and and it could

541

00:19:03,190 --> 00:19:00,400

be argued that there are some spheres in

542

00:19:04,710 --> 00:19:03,200

cubes there uh and and i just wanted to

543

00:19:05,990 --> 00:19:04,720

kind of highlight that because it's

544

00:19:07,669 --> 00:19:06,000

interesting you wouldn't say that

545

00:19:09,270 --> 00:19:07,679

because that did come up in the research

546

00:19:10,870 --> 00:19:09,280

but it was something we decided to not

547

00:19:13,029 --> 00:19:10,880

include because we didn't think it was

548

00:19:14,789 --> 00:19:13,039

it was definitive enough but that that

549

00:19:17,029 --> 00:19:14,799

observation came to us from more than

550

00:19:17,830 --> 00:19:17,039

one person as well that that's super

551  
00:19:19,270 --> 00:19:17,840  
interesting because what we're

552  
00:19:20,630 --> 00:19:19,280  
essentially looking at is kind of a copy

553  
00:19:21,909 --> 00:19:20,640  
of a copyright so there's some

554  
00:19:23,909 --> 00:19:21,919  
degradation in the image and the

555  
00:19:25,510 --> 00:19:23,919  
original might be able to kind of shed

556  
00:19:27,190 --> 00:19:25,520  
some more light on on what we're looking

557  
00:19:28,549 --> 00:19:27,200  
at here but i i thought it was

558  
00:19:30,390 --> 00:19:28,559  
interesting because you can definitely

559  
00:19:31,990 --> 00:19:30,400  
see some right angles within those

560  
00:19:34,390 --> 00:19:32,000  
circles and and

561  
00:19:35,909 --> 00:19:34,400  
yeah i can't say definitively but it's

562  
00:19:37,110 --> 00:19:35,919  
interesting that you guys came up with

563  
00:19:38,390 --> 00:19:37,120

that too

564

00:19:40,789 --> 00:19:38,400

yeah the uh

565

00:19:43,270 --> 00:19:40,799

the the cube within the sphere and the

566

00:19:44,789 --> 00:19:43,280

thing that ryan graves spoke about that

567

00:19:46,549 --> 00:19:44,799

like i said that i don't want to

568

00:19:48,470 --> 00:19:46,559

attribute it to anyone directly because

569

00:19:50,630 --> 00:19:48,480

we chose not to use it within the story

570

00:19:52,070 --> 00:19:50,640

but it came up more than once and more

571

00:19:54,390 --> 00:19:52,080

than one person mentioned it when

572

00:19:55,590 --> 00:19:54,400

looking at these videos more than one

573

00:19:57,270 --> 00:19:55,600

expert

574

00:19:58,789 --> 00:19:57,280

dan you're definitely right though that

575

00:20:00,470 --> 00:19:58,799

it could be any number of things

576

00:20:01,990 --> 00:20:00,480

especially with the quality of that you

577

00:20:03,990 --> 00:20:02,000

know what we're looking at here like you

578

00:20:05,510 --> 00:20:04,000

say chris as well we're looking at a

579

00:20:07,909 --> 00:20:05,520

screen through a screen through a screen

580

00:20:09,830 --> 00:20:07,919

and it isn't the original image no so

581

00:20:12,070 --> 00:20:09,840

it's important and someone said oh

582

00:20:14,230 --> 00:20:12,080

you're reaching but maybe yeah it could

583

00:20:17,350 --> 00:20:14,240

be but it looks like it doesn't mean it

584

00:20:19,510 --> 00:20:17,360

is i went and watched dave falch his

585

00:20:20,870 --> 00:20:19,520

analysis which is quite a short 11

586

00:20:22,789 --> 00:20:20,880

minute video again i thought it was

587

00:20:25,190 --> 00:20:22,799

pretty useful again to a layman like

588

00:20:27,909 --> 00:20:25,200

myself he explained why it almost

589

00:20:29,190 --> 00:20:27,919

definitely isn't bugs why it isn't birds

590

00:20:31,909 --> 00:20:29,200

for those who like me saying the word

591

00:20:34,149 --> 00:20:31,919

bird there you go and how it's not birds

592

00:20:36,870 --> 00:20:34,159

and uh why it's not other aircraft as

593

00:20:39,029 --> 00:20:36,880

well um i think the movements definitely

594

00:20:40,230 --> 00:20:39,039

kind of give way to anything like that i

595

00:20:42,070 --> 00:20:40,240

thought what was interesting you

596

00:20:43,430 --> 00:20:42,080

mentioned the movements themselves your

597

00:20:46,710 --> 00:20:43,440

colleague tim mcmillan's been very

598

00:20:48,630 --> 00:20:46,720

active on twitter um all day and he said

599

00:20:50,870 --> 00:20:48,640

on twitter that speaking to other

600

00:20:52,950 --> 00:20:50,880

military witnesses when discussing the

601  
00:20:55,510 --> 00:20:52,960  
patterns of movement and behavior the

602  
00:20:57,669 --> 00:20:55,520  
words like non-mechanical or organic are

603  
00:20:59,430 --> 00:20:57,679  
coming up to describe the movement we've

604  
00:21:01,510 --> 00:20:59,440  
said before dan on the podcast like

605  
00:21:03,350 --> 00:21:01,520  
house flies and how they move in a very

606  
00:21:05,350 --> 00:21:03,360  
strange way that no matter how you try

607  
00:21:07,430 --> 00:21:05,360  
and predict it and try and hit it or you

608  
00:21:09,110 --> 00:21:07,440  
know get out your way and swat a fly it

609  
00:21:11,350 --> 00:21:09,120  
always seems to move and be ahead of you

610  
00:21:13,830 --> 00:21:11,360  
and those those tick tacks almost seem

611  
00:21:15,510 --> 00:21:13,840  
to mirror that too we'll just uh dan's

612  
00:21:17,510 --> 00:21:15,520  
going to jump out and come back in sorry

613  
00:21:19,830 --> 00:21:17,520

um but i thought that was really

614

00:21:21,830 --> 00:21:19,840

interesting based on the movements

615

00:21:25,350 --> 00:21:21,840

a lot of debunkers will look and go well

616

00:21:27,430 --> 00:21:25,360

it's probably a bird or a bug

617

00:21:29,750 --> 00:21:27,440

but it could just be that some of these

618

00:21:31,270 --> 00:21:29,760

craft that if these are orb type objects

619

00:21:33,510 --> 00:21:31,280

and i hate labeling them when you can't

620

00:21:36,470 --> 00:21:33,520

really make anything out maybe that's

621

00:21:39,190 --> 00:21:36,480

the movement is just like a fly or a

622

00:21:41,270 --> 00:21:39,200

bird rather than an aircraft can i

623

00:21:43,750 --> 00:21:41,280

address this andy because i think this

624

00:21:45,590 --> 00:21:43,760

is a really important point i saw it

625

00:21:47,350 --> 00:21:45,600

coming up on twitter this morning as

626  
00:21:49,669 --> 00:21:47,360  
well and uh

627  
00:21:51,750 --> 00:21:49,679  
i think it's significant

628  
00:21:53,669 --> 00:21:51,760  
in a number of ways first of all

629  
00:21:56,630 --> 00:21:53,679  
straight up fraver and dietrich

630  
00:21:59,190 --> 00:21:56,640  
described the motion of the tic tac as

631  
00:22:01,669 --> 00:21:59,200  
the same way as bouncing around like an

632  
00:22:04,549 --> 00:22:01,679  
insect bouncing around

633  
00:22:06,310 --> 00:22:04,559  
in science there's a thing known as levy

634  
00:22:09,510 --> 00:22:06,320  
motions named after a scientist named

635  
00:22:11,909 --> 00:22:09,520  
levy but levy motion and

636  
00:22:14,149 --> 00:22:11,919  
you'll see levee motion a lot in insects

637  
00:22:17,110 --> 00:22:14,159  
which is what you're describing you also

638  
00:22:19,669 --> 00:22:17,120

see it a lot in sharks and sharks use it

639

00:22:21,909 --> 00:22:19,679

so if they're hunting under water they

640

00:22:24,549 --> 00:22:21,919

have a certain pattern happens

641

00:22:27,190 --> 00:22:24,559

completely unconsciously in their head

642

00:22:29,990 --> 00:22:27,200

but as it turns out scientists who

643

00:22:31,909 --> 00:22:30,000

analyzed this pattern found it to be the

644

00:22:35,270 --> 00:22:31,919

most efficient way

645

00:22:38,149 --> 00:22:35,280

to hunt and search an area so people it

646

00:22:40,470 --> 00:22:38,159

automated processes that use searches

647

00:22:42,390 --> 00:22:40,480

will use that levee motion and so for

648

00:22:44,149 --> 00:22:42,400

shark it's come into an area search

649

00:22:46,149 --> 00:22:44,159

around bounce over here search around

650

00:22:49,270 --> 00:22:46,159

come over here and there's a certain

651  
00:22:51,750 --> 00:22:49,280  
motion to it and tim and i way back when

652  
00:22:54,149 --> 00:22:51,760  
i joined the debris he and i had a

653  
00:22:55,430 --> 00:22:54,159  
lengthy discussion about levy motion and

654  
00:22:59,270 --> 00:22:55,440  
how often

655  
00:23:00,549 --> 00:22:59,280  
it shows up in these uap ufo accounts

656  
00:23:02,070 --> 00:23:00,559  
and

657  
00:23:04,710 --> 00:23:02,080  
in

658  
00:23:06,789 --> 00:23:04,720  
okay let me put it this way if i were on

659  
00:23:10,230 --> 00:23:06,799  
another planet i'm just going to go here

660  
00:23:13,029 --> 00:23:10,240  
right and i'm sending a probe

661  
00:23:15,750 --> 00:23:13,039  
to evaluate humans on earth i'm sending

662  
00:23:18,310 --> 00:23:15,760  
a uh you know a self-replicating i

663  
00:23:21,510 --> 00:23:18,320

forget the term for it but uh uh i'm

664

00:23:23,830 --> 00:23:21,520

sending a probe or group of probes here

665

00:23:26,950 --> 00:23:23,840

they would be programmed to operate in

666

00:23:29,990 --> 00:23:26,960

the most efficient way

667

00:23:33,029 --> 00:23:30,000

that in the air when searching or

668

00:23:33,990 --> 00:23:33,039

analyzing is levy motion

669

00:23:36,470 --> 00:23:34,000

so

670

00:23:38,789 --> 00:23:36,480

to say that it's it's a motion that's

671

00:23:40,789 --> 00:23:38,799

typically seen in a biological entity is

672

00:23:42,549 --> 00:23:40,799

completely accurate for somebody to look

673

00:23:44,870 --> 00:23:42,559

at that guy these move like insects they

674

00:23:46,789 --> 00:23:44,880

move move like birds is an accurate

675

00:23:49,029 --> 00:23:46,799

analysis it's definitely within science

676

00:23:50,310 --> 00:23:49,039

levee motion is a thing and they

677

00:23:52,149 --> 00:23:50,320

definitely seem to be exhibiting

678

00:23:54,950 --> 00:23:52,159

something along those lines the

679

00:23:57,190 --> 00:23:54,960

interesting thing is so many uaps that

680

00:23:59,110 --> 00:23:57,200

are definitely not birds and definitely

681

00:24:01,430 --> 00:23:59,120

i mean i don't think the the dietrich or

682

00:24:03,430 --> 00:24:01,440

favor think the tic tac was a bird right

683

00:24:06,070 --> 00:24:03,440

like so so many things that are not

684

00:24:08,149 --> 00:24:06,080

birds are exhibiting this levee emotion

685

00:24:09,510 --> 00:24:08,159

and a number of people brought that up

686

00:24:11,110 --> 00:24:09,520

on twitter today

687

00:24:14,230 --> 00:24:11,120

i think that's critically important

688

00:24:15,789 --> 00:24:14,240

because again i'm somebody who

689

00:24:18,710 --> 00:24:15,799

leans towards if there is an

690

00:24:21,430 --> 00:24:18,720

extraterrestrial explanation

691

00:24:23,750 --> 00:24:21,440

i'm less likely for scientific reasons

692

00:24:26,390 --> 00:24:23,760

for little guys and craft flying here

693

00:24:27,909 --> 00:24:26,400

from another ship and i'm more likely to

694

00:24:30,470 --> 00:24:27,919

automated probes first of all just

695

00:24:32,870 --> 00:24:30,480

something we already do we send probes

696

00:24:34,470 --> 00:24:32,880

to other planets we send probes out so

697

00:24:37,510 --> 00:24:34,480

if there is somebody

698

00:24:39,669 --> 00:24:37,520

20 30 40 light years away and they just

699

00:24:41,830 --> 00:24:39,679

have technology slightly ahead of us can

700

00:24:43,750 --> 00:24:41,840

use directed energy propulsion they

701  
00:24:44,549 --> 00:24:43,760  
could get a probe here in 50 years i

702  
00:24:47,269 --> 00:24:44,559  
mean

703  
00:24:49,190 --> 00:24:47,279  
you know the the vi uh voyager has been

704  
00:24:51,750 --> 00:24:49,200  
in space for over 50 years we still get

705  
00:24:54,230 --> 00:24:51,760  
information from it so it just doesn't

706  
00:24:55,669 --> 00:24:54,240  
seem that bizarre to me that they move

707  
00:24:56,789 --> 00:24:55,679  
that way if anything

708  
00:24:59,590 --> 00:24:56,799  
it it

709  
00:25:02,950 --> 00:24:59,600  
lends credibility to an intelligently

710  
00:25:04,870 --> 00:25:02,960  
operated system and it also could be

711  
00:25:06,710 --> 00:25:04,880  
we're seeing a natural phenomenon maybe

712  
00:25:07,669 --> 00:25:06,720  
this is a life form

713  
00:25:09,990 --> 00:25:07,679

that's

714

00:25:11,990 --> 00:25:10,000

you know uh native to earth that

715

00:25:14,070 --> 00:25:12,000

operates in the atmosphere and has this

716

00:25:16,230 --> 00:25:14,080

ability to travel at these insane speeds

717

00:25:18,630 --> 00:25:16,240

and do these insane things and even if

718

00:25:19,750 --> 00:25:18,640

that's what it is uh that's a heck of a

719

00:25:22,149 --> 00:25:19,760

discovery

720

00:25:23,830 --> 00:25:22,159

yeah it's fascinating man a lot of our

721

00:25:25,430 --> 00:25:23,840

kind of technology and science will

722

00:25:26,630 --> 00:25:25,440

replicate things that we find in nature

723

00:25:29,269 --> 00:25:26,640

that would be incredible to find a

724

00:25:31,669 --> 00:25:29,279

process like that and stuff bio-inspired

725

00:25:33,669 --> 00:25:31,679

technology or yep exactly nature

726

00:25:35,669 --> 00:25:33,679

inspired technology it's one of the most

727

00:25:38,310 --> 00:25:35,679

common things i write about whether it's

728

00:25:40,149 --> 00:25:38,320

a spider webs or the movement of fish

729

00:25:41,909 --> 00:25:40,159

the way corals communicate with each

730

00:25:43,510 --> 00:25:41,919

other i can i can list a hundred

731

00:25:46,710 --> 00:25:43,520

articles where i've mentioned that on

732

00:25:49,269 --> 00:25:46,720

some level uh soft robots dynamic robots

733

00:25:51,669 --> 00:25:49,279

all kinds of things in particular in

734

00:25:53,430 --> 00:25:51,679

drones and robots we're developing a

735

00:25:54,710 --> 00:25:53,440

craft that flies like a manta ray

736

00:25:57,110 --> 00:25:54,720

underwater that will go through the

737

00:26:00,230 --> 00:25:57,120

clouds of venus that's under development

738

00:26:02,070 --> 00:26:00,240

right now so we are so bio-inspired i

739

00:26:03,430 --> 00:26:02,080

just don't think it's a weird thing that

740

00:26:05,750 --> 00:26:03,440

they move that way

741

00:26:08,310 --> 00:26:05,760

no not at all and and we certainly seem

742

00:26:09,510 --> 00:26:08,320

to as we go forward and we're kind of

743

00:26:10,789 --> 00:26:09,520

you know there's a lot of conversation

744

00:26:13,110 --> 00:26:10,799

as to whether we're going to augment

745

00:26:15,510 --> 00:26:13,120

ourselves with technology and at a

746

00:26:17,590 --> 00:26:15,520

certain point the the line between

747

00:26:20,310 --> 00:26:17,600

artificial and biological kind of

748

00:26:22,149 --> 00:26:20,320

becomes blurred and new so even though

749

00:26:24,710 --> 00:26:22,159

we're talking about oh it could be a

750

00:26:27,430 --> 00:26:24,720

probe it could be biological it could be

751  
00:26:29,110 --> 00:26:27,440  
both at the same time yeah sure you know

752  
00:26:31,190 --> 00:26:29,120  
i've often said if you were going to

753  
00:26:32,230 --> 00:26:31,200  
send a probe to another planet from

754  
00:26:34,390 --> 00:26:32,240  
earth

755  
00:26:37,110 --> 00:26:34,400  
you would want someone so think of like

756  
00:26:39,669 --> 00:26:37,120  
a tr a seed like a seed from an acorn

757  
00:26:41,909 --> 00:26:39,679  
can grow an entire oak tree so rather

758  
00:26:43,909 --> 00:26:41,919  
than sending a ship to another planet

759  
00:26:46,230 --> 00:26:43,919  
what you'd want to do is send a seed to

760  
00:26:49,110 --> 00:26:46,240  
a ship that would get on that planet

761  
00:26:50,870 --> 00:26:49,120  
load and use the localized material to

762  
00:26:52,549 --> 00:26:50,880  
build the probe or to build the ship or

763  
00:26:54,470 --> 00:26:52,559

to build the technology that's doing it

764

00:26:56,630 --> 00:26:54,480

it's just by far the most efficient way

765

00:26:58,630 --> 00:26:56,640

sending information is much easier than

766

00:27:01,350 --> 00:26:58,640

sending large amounts of matter a big

767

00:27:02,870 --> 00:27:01,360

large ship so uh

768

00:27:04,549 --> 00:27:02,880

for my money

769

00:27:06,149 --> 00:27:04,559

i don't think it's unrealistic that

770

00:27:08,070 --> 00:27:06,159

that's how we're going to go about we're

771

00:27:09,430 --> 00:27:08,080

already working on nanotechnology and

772

00:27:11,029 --> 00:27:09,440

robots i don't know if you guys saw the

773

00:27:12,630 --> 00:27:11,039

article about the the little remote

774

00:27:15,110 --> 00:27:12,640

controlled crab guy that can crawl

775

00:27:17,350 --> 00:27:15,120

around yeah yeah it's a matter of time

776

00:27:19,190 --> 00:27:17,360

before that's the type of thing where

777

00:27:20,549 --> 00:27:19,200

we use something like directed energy

778

00:27:22,950 --> 00:27:20,559

where we could push something up to

779

00:27:25,110 --> 00:27:22,960

about the quarter to the speed of light

780

00:27:29,029 --> 00:27:25,120

which could have it around the orbit of

781

00:27:31,350 --> 00:27:29,039

uh proxima centauri in about 20 years

782

00:27:32,950 --> 00:27:31,360

and so why not send something that when

783

00:27:34,950 --> 00:27:32,960

it gets there it can use the local

784

00:27:37,029 --> 00:27:34,960

material to build its own ship rather

785

00:27:39,029 --> 00:27:37,039

than sending a whole ship there

786

00:27:40,710 --> 00:27:39,039

that that's beautiful it just occurs to

787

00:27:42,470 --> 00:27:40,720

me that we could also be super efficient

788

00:27:44,070 --> 00:27:42,480

and just kind of go oh a meteor's going

789

00:27:45,590 --> 00:27:44,080

past us we can just put a building block

790

00:27:47,669 --> 00:27:45,600

on that and it can take it wherever

791

00:27:49,430 --> 00:27:47,679

carry on you know

792

00:27:51,269 --> 00:27:49,440

dan we've discussed before about

793

00:27:52,950 --> 00:27:51,279

artificial intelligence and again i'll

794

00:27:54,950 --> 00:27:52,960

i'll put people like myself who

795

00:27:57,269 --> 00:27:54,960

misunderstand at times what it is and

796

00:27:59,669 --> 00:27:57,279

how it could potentially be used

797

00:28:02,310 --> 00:27:59,679

in videos like this is that a place for

798

00:28:04,070 --> 00:28:02,320

something like ai to analyze it and help

799

00:28:05,269 --> 00:28:04,080

us get more information than we may

800

00:28:07,029 --> 00:28:05,279

already have

801  
00:28:08,710 --> 00:28:07,039  
because what what we don't seem to have

802  
00:28:11,510 --> 00:28:08,720  
with this like with any of these other

803  
00:28:13,830 --> 00:28:11,520  
videos as additional data is that

804  
00:28:15,669 --> 00:28:13,840  
something that you think dan will put

805  
00:28:17,190 --> 00:28:15,679  
this to you first and i'll come to chris

806  
00:28:18,950 --> 00:28:17,200  
that would be useful with videos like

807  
00:28:21,430 --> 00:28:18,960  
this to tell us look here's why it's not

808  
00:28:23,590 --> 00:28:21,440  
bugs birds and otherwise other kind of

809  
00:28:24,950 --> 00:28:23,600  
worldly objects yeah absolutely

810  
00:28:27,590 --> 00:28:24,960  
essentially what we have at the moment

811  
00:28:29,350 --> 00:28:27,600  
are neural nets and they you kind of

812  
00:28:32,230 --> 00:28:29,360  
feed known data into them and they

813  
00:28:34,710 --> 00:28:32,240

compare it to things that are unknown so

814

00:28:37,269 --> 00:28:34,720

we can give it a million images of birds

815

00:28:39,590 --> 00:28:37,279

and it can tell us pretty much

816

00:28:41,590 --> 00:28:39,600

with you know 99.9 certainty that

817

00:28:43,110 --> 00:28:41,600

something is a bird in a video so

818

00:28:47,029 --> 00:28:43,120

there's a lot of low-hanging fruit that

819

00:28:48,470 --> 00:28:47,039

we can get rid of by uh using processes

820

00:28:50,149 --> 00:28:48,480

like that

821

00:28:52,630 --> 00:28:50,159

but it's hard to kind of all you can do

822

00:28:54,070 --> 00:28:52,640

is say this is unknown you can't go this

823

00:28:56,230 --> 00:28:54,080

is alien because we have nothing to

824

00:28:57,430 --> 00:28:56,240

compare it to you know

825

00:28:58,789 --> 00:28:57,440

christmas

826

00:29:01,110 --> 00:28:58,799

i was going to ask you chris was there

827

00:29:02,950 --> 00:29:01,120

additional data that was was asked for

828

00:29:05,430 --> 00:29:02,960

or there just wasn't anything available

829

00:29:06,470 --> 00:29:05,440

or anything like that for this one

830

00:29:08,630 --> 00:29:06,480

so

831

00:29:09,990 --> 00:29:08,640

the video that we provided we provided

832

00:29:12,230 --> 00:29:10,000

everything we have and everything we

833

00:29:14,470 --> 00:29:12,240

were given whether or not there is more

834

00:29:15,669 --> 00:29:14,480

data on that i don't know so whether or

835

00:29:18,070 --> 00:29:15,679

not

836

00:29:21,190 --> 00:29:18,080

bob has more data to provide or whether

837

00:29:23,269 --> 00:29:21,200

or not there's more information on a dhs

838

00:29:26,230 --> 00:29:23,279

airplane or hard drive somewhere i don't

839

00:29:28,389 --> 00:29:26,240

know but no that's all we provided i can

840

00:29:30,389 --> 00:29:28,399

tell you that the the people that are

841

00:29:33,510 --> 00:29:30,399

experts in these systems i think dave

842

00:29:35,990 --> 00:29:33,520

fouch is the one you mentioned uh all of

843

00:29:37,830 --> 00:29:36,000

them will tell you that uh this flir

844

00:29:40,549 --> 00:29:37,840

system is not designed to pick up

845

00:29:42,710 --> 00:29:40,559

insects right it's not designed to pick

846

00:29:44,950 --> 00:29:42,720

up something that close to the craft and

847

00:29:47,750 --> 00:29:44,960

then that small of a mass

848

00:29:49,990 --> 00:29:47,760

so i still say that if you want to make

849

00:29:52,310 --> 00:29:50,000

an argument that some sort of birds are

850

00:29:54,710 --> 00:29:52,320

way off in the distance they're flying

851  
00:29:57,510 --> 00:29:54,720  
in a very unusual way and they move

852  
00:29:59,510 --> 00:29:57,520  
across the horizon and such an extreme

853  
00:30:02,870 --> 00:29:59,520  
like there may be some scenario i'm not

854  
00:30:04,870 --> 00:30:02,880  
coming up with but but uh yeah as far as

855  
00:30:06,549 --> 00:30:04,880  
artificial intelligence you know what's

856  
00:30:08,710 --> 00:30:06,559  
interesting is you read about this stuff

857  
00:30:10,310 --> 00:30:08,720  
all the time but like

858  
00:30:12,149 --> 00:30:10,320  
what dan was referencing like a

859  
00:30:13,590 --> 00:30:12,159  
relational database they call it where

860  
00:30:15,669 --> 00:30:13,600  
you can give the comparative data and

861  
00:30:17,510 --> 00:30:15,679  
they can compare against the thing about

862  
00:30:19,830 --> 00:30:17,520  
ai is it really is learning and some of

863  
00:30:21,909 --> 00:30:19,840

the really good new cutting edge ai so

864

00:30:23,110 --> 00:30:21,919

like pharmaceutical companies will have

865

00:30:24,549 --> 00:30:23,120

a bunch of tests they've done on

866

00:30:26,310 --> 00:30:24,559

different drugs and they'll plug all the

867

00:30:27,909 --> 00:30:26,320

data in there and the scientists are

868

00:30:29,669 --> 00:30:27,919

stumped and the ai will come back and

869

00:30:31,830 --> 00:30:29,679

say ah you should try this combination

870

00:30:33,430 --> 00:30:31,840

you never thought about sure enough they

871

00:30:35,669 --> 00:30:33,440

have a functional working drug or

872

00:30:38,389 --> 00:30:35,679

functional working treatment so

873

00:30:40,230 --> 00:30:38,399

ai has the opportunity to look at things

874

00:30:41,669 --> 00:30:40,240

in a new way too and that's why it's

875

00:30:43,029 --> 00:30:41,679

interesting it's not

876

00:30:45,669 --> 00:30:43,039

just

877

00:30:47,750 --> 00:30:45,679

compared against this database of knowns

878

00:30:49,669 --> 00:30:47,760

but it's also to offer

879

00:30:51,909 --> 00:30:49,679

alternatives it's also to turn to the

880

00:30:54,389 --> 00:30:51,919

computer and go computer what do you

881

00:30:57,509 --> 00:30:54,399

think it is

882

00:30:59,509 --> 00:30:57,519

dan where we stand now we're what 10

883

00:31:02,070 --> 00:30:59,519

hours or eight hours after the release

884

00:31:03,350 --> 00:31:02,080

of of the article in the video

885

00:31:04,870 --> 00:31:03,360

where does this sit with you at this

886

00:31:06,789 --> 00:31:04,880

point you've had a few hours to digest

887

00:31:08,149 --> 00:31:06,799

it have a watch of the video go away go

888

00:31:10,310 --> 00:31:08,159

back to it

889

00:31:12,070 --> 00:31:10,320

where do things sit with you

890

00:31:14,070 --> 00:31:12,080

i mean i'm really intrigued by it i'm

891

00:31:15,830 --> 00:31:14,080

looking forward to to the people who are

892

00:31:18,470 --> 00:31:15,840

a lot smarter than me kind of breaking

893

00:31:20,710 --> 00:31:18,480

it down for me in the next 24 hours

894

00:31:23,750 --> 00:31:20,720

i'll take in and absorb as much as i can

895

00:31:25,590 --> 00:31:23,760

and no doubt there'll be some kind of

896

00:31:27,269 --> 00:31:25,600

disagreement with that on twitter which

897

00:31:28,630 --> 00:31:27,279

i'll look at too you know i'll give both

898

00:31:33,029 --> 00:31:28,640

the time of day

899

00:31:34,630 --> 00:31:33,039

but as of now it's a video for me that

900

00:31:37,350 --> 00:31:34,640

after a few times watching it i

901  
00:31:41,669 --> 00:31:37,360  
genuinely think we have a public video

902  
00:31:47,990 --> 00:31:43,430  
chris

903  
00:31:50,070 --> 00:31:48,000  
i would say that uh i'm always skeptical

904  
00:31:52,310 --> 00:31:50,080  
because as the head science editor and

905  
00:31:54,070 --> 00:31:52,320  
science writer over the debrief i'm one

906  
00:31:56,549 --> 00:31:54,080  
of these guys that likes information i

907  
00:31:58,389 --> 00:31:56,559  
like data and i like it to add up with

908  
00:32:00,310 --> 00:31:58,399  
that being said

909  
00:32:02,310 --> 00:32:00,320  
this data doesn't all add up there's

910  
00:32:03,590 --> 00:32:02,320  
something about this video that is

911  
00:32:05,269 --> 00:32:03,600  
unusual

912  
00:32:07,590 --> 00:32:05,279  
and uh

913  
00:32:09,830 --> 00:32:07,600

you know our job is to report it

914

00:32:11,590 --> 00:32:09,840

for us the big story is still the fact

915

00:32:14,149 --> 00:32:11,600

that the the dhs and all these people

916

00:32:16,230 --> 00:32:14,159

are just seeing this on a regular basis

917

00:32:19,350 --> 00:32:16,240

and we have an entire uniform service

918

00:32:20,630 --> 00:32:19,360

personnel seeing uaps and recording them

919

00:32:22,870 --> 00:32:20,640

and i think there's going to be more

920

00:32:25,029 --> 00:32:22,880

videos and more instances of that

921

00:32:27,430 --> 00:32:25,039

because of the fact and the fact that

922

00:32:29,990 --> 00:32:27,440

they now will have an open avenue to

923

00:32:32,149 --> 00:32:30,000

report it like our other military pilots

924

00:32:35,110 --> 00:32:32,159

do so i think the significance of the

925

00:32:36,950 --> 00:32:35,120

story is big as far as the significance

926  
00:32:38,630 --> 00:32:36,960  
of the video i think that's going to

927  
00:32:39,669 --> 00:32:38,640  
have to be for the experts but i will

928  
00:32:42,070 --> 00:32:39,679  
tell you

929  
00:32:44,549 --> 00:32:42,080  
that after tim shopped it around to the

930  
00:32:46,710 --> 00:32:44,559  
pilots he did shop it around to in the

931  
00:32:48,549 --> 00:32:46,720  
development of this story and he came

932  
00:32:51,190 --> 00:32:48,559  
back with the quotes and analysis he did

933  
00:32:52,870 --> 00:32:51,200  
i was pretty pretty stoked because

934  
00:32:53,909 --> 00:32:52,880  
i was like a lot of people i just didn't

935  
00:32:55,990 --> 00:32:53,919  
see a lot

936  
00:32:58,549 --> 00:32:56,000  
i definitely see motion that seems

937  
00:33:00,710 --> 00:32:58,559  
bizarre and i definitely see something

938  
00:33:02,789 --> 00:33:00,720

and i said hey if these experts look at

939

00:33:04,710 --> 00:33:02,799

this and say this is something i

940

00:33:05,830 --> 00:33:04,720

regularly don't see and i think it's

941

00:33:06,549 --> 00:33:05,840

real

942

00:33:09,190 --> 00:33:06,559

so

943

00:33:10,630 --> 00:33:09,200

for me it's more about what the experts

944

00:33:13,430 --> 00:33:10,640

are saying about the video and the

945

00:33:15,110 --> 00:33:13,440

backstory too the actual video itself is

946

00:33:16,470 --> 00:33:15,120

three little dots moving around it's

947

00:33:18,789 --> 00:33:16,480

really hard for you know if i'm being

948

00:33:21,029 --> 00:33:18,799

completely honest so that was my take

949

00:33:22,710 --> 00:33:21,039

i think the analyzed videos and what

950

00:33:24,950 --> 00:33:22,720

chrissy is telling me is going to be

951  
00:33:26,710 --> 00:33:24,960  
presented at the conference around those

952  
00:33:28,310 --> 00:33:26,720  
i think that's going to add a lot more

953  
00:33:29,750 --> 00:33:28,320  
and i think there is going to be more

954  
00:33:32,789 --> 00:33:29,760  
about

955  
00:33:35,190 --> 00:33:32,799  
likely sizes likely masses likely

956  
00:33:37,350 --> 00:33:35,200  
distances and i think there's a lot more

957  
00:33:39,590 --> 00:33:37,360  
calculation that will that will

958  
00:33:40,950 --> 00:33:39,600  
blend to that

959  
00:33:43,110 --> 00:33:40,960  
i think they

960  
00:33:45,269 --> 00:33:43,120  
rightfully so we're holding a lot of

961  
00:33:47,590 --> 00:33:45,279  
that for the conference i think letting

962  
00:33:49,509 --> 00:33:47,600  
us write the story and letting us point

963  
00:33:51,909 --> 00:33:49,519

the the video out there

964

00:33:54,630 --> 00:33:51,919

was the front part of their approach so

965

00:33:56,870 --> 00:33:54,640

we're at news service we reported on it

966

00:33:58,470 --> 00:33:56,880

but as a as a conference and they have

967

00:34:00,789 --> 00:33:58,480

all these people there in utah and a lot

968

00:34:02,389 --> 00:34:00,799

of experts and a lot of this is carrying

969

00:34:04,950 --> 00:34:02,399

over the following weekend you know the

970

00:34:07,269 --> 00:34:04,960

scu the scientific coalition for uab

971

00:34:09,349 --> 00:34:07,279

studies has their conference next

972

00:34:11,109 --> 00:34:09,359

weekend there's a feeling that their

973

00:34:13,030 --> 00:34:11,119

analysis their final analysis of the

974

00:34:16,790 --> 00:34:13,040

rubber duck video which also came from

975

00:34:18,629 --> 00:34:16,800

bob thompson and these other videos

976  
00:34:20,389 --> 00:34:18,639  
may likely be released at that

977  
00:34:22,470 --> 00:34:20,399  
conference that that may be part of what

978  
00:34:24,310 --> 00:34:22,480  
they've been holding on to and why we

979  
00:34:25,990 --> 00:34:24,320  
weren't able to get it for this story

980  
00:34:29,190 --> 00:34:26,000  
because they've been working on those

981  
00:34:32,069 --> 00:34:29,200  
analyses for a long time so

982  
00:34:34,470 --> 00:34:32,079  
i think there's more to come by smarter

983  
00:34:35,430 --> 00:34:34,480  
people that know more about this stuff

984  
00:34:38,069 --> 00:34:35,440  
than me

985  
00:34:39,990 --> 00:34:38,079  
so i i think that's what i'm hoping for

986  
00:34:42,389 --> 00:34:40,000  
if i woke up in the morning

987  
00:34:44,149 --> 00:34:42,399  
somebody emailed me this debrief article

988  
00:34:46,869 --> 00:34:44,159

and all i did was scroll down to the

989

00:34:49,589 --> 00:34:46,879

youtube and hit play i would have went

990

00:34:51,109 --> 00:34:49,599

another ufo video and went back to bed

991

00:34:52,470 --> 00:34:51,119

i'm going to encourage people to go and

992

00:34:54,069 --> 00:34:52,480

read the article the link will be in the

993

00:34:55,669 --> 00:34:54,079

description and people should have

994

00:34:57,270 --> 00:34:55,679

hopefully read it already you'll find it

995

00:34:59,430 --> 00:34:57,280

on any of the debrief social media

996

00:35:01,510 --> 00:34:59,440

channels or the debrief.org

997

00:35:04,310 --> 00:35:01,520

um check out the the quotes and the

998

00:35:06,790 --> 00:35:04,320

comments again from uh an an anonymous

999

00:35:08,470 --> 00:35:06,800

uh air force officer who who talks about

1000

00:35:09,829 --> 00:35:08,480

the article i just want to let people go

1001  
00:35:11,270 --> 00:35:09,839  
in with that themselves i was going to

1002  
00:35:13,349 --> 00:35:11,280  
read out the quotes but people can go

1003  
00:35:14,550 --> 00:35:13,359  
and do that um you've mentioned a few

1004  
00:35:17,270 --> 00:35:14,560  
times and we're going to move on a few

1005  
00:35:19,430 --> 00:35:17,280  
other news articles to discuss um the

1006  
00:35:22,950 --> 00:35:19,440  
the ufo disclosure symposium which is

1007  
00:35:26,069 --> 00:35:22,960  
the 27th 28th and 29th um your colleague

1008  
00:35:29,030 --> 00:35:26,079  
micah hanks is there um as is chrissy

1009  
00:35:31,670 --> 00:35:29,040  
newton chris he's there uh tim taylor

1010  
00:35:33,910 --> 00:35:31,680  
avi leweb

1011  
00:35:35,670 --> 00:35:33,920  
there's also a mix of other names where

1012  
00:35:36,630 --> 00:35:35,680  
i think the credibility just in my

1013  
00:35:37,829 --> 00:35:36,640

opinion

1014

00:35:39,910 --> 00:35:37,839

goes down the other side of the

1015

00:35:41,990 --> 00:35:39,920

credibility scale um

1016

00:35:44,310 --> 00:35:42,000

but to focus on the positive side of the

1017

00:35:46,310 --> 00:35:44,320

disclosure symposium for the moment the

1018

00:35:47,990 --> 00:35:46,320

the video is being reviewed there are

1019

00:35:49,670 --> 00:35:48,000

four videos and i think this is where

1020

00:35:51,510 --> 00:35:49,680

some people got confused about what may

1021

00:35:53,270 --> 00:35:51,520

or may not be coming out because that

1022

00:35:57,829 --> 00:35:53,280

was the three videos you mentioned from

1023

00:35:59,910 --> 00:35:57,839

and previously the la bruja the a10 and

1024

00:36:01,349 --> 00:35:59,920

rubber duck and those were all being

1025

00:36:03,510 --> 00:36:01,359

reviewed and the analysis was going to

1026

00:36:05,109 --> 00:36:03,520

be done but also on this video too so

1027

00:36:06,069 --> 00:36:05,119

this is the new video they were talking

1028

00:36:07,910 --> 00:36:06,079

about

1029

00:36:09,270 --> 00:36:07,920

what what are you expecting to come from

1030

00:36:11,270 --> 00:36:09,280

that then chris you've touched on you

1031

00:36:13,510 --> 00:36:11,280

know potentially more and they've given

1032

00:36:15,190 --> 00:36:13,520

this video as i release it but do you

1033

00:36:17,270 --> 00:36:15,200

think we're going to get something that

1034

00:36:18,230 --> 00:36:17,280

pushes this further down the line

1035

00:36:21,030 --> 00:36:18,240

well

1036

00:36:22,630 --> 00:36:21,040

as far as like a new the videos are with

1037

00:36:23,910 --> 00:36:22,640

the art so i don't think suddenly like

1038

00:36:25,750 --> 00:36:23,920

we're going to wake up tomorrow there's

1039

00:36:28,630 --> 00:36:25,760

going to be a new video of the video or

1040

00:36:31,829 --> 00:36:28,640

you know but as far as what's actually

1041

00:36:34,710 --> 00:36:31,839

the analysis of these videos and what

1042

00:36:36,710 --> 00:36:34,720

these uh flair experts and scientists

1043

00:36:38,870 --> 00:36:36,720

and other people they're looking at it i

1044

00:36:41,109 --> 00:36:38,880

do think that's gonna be new information

1045

00:36:43,109 --> 00:36:41,119

i do think their analysis is going to

1046

00:36:44,630 --> 00:36:43,119

put it in a new light because that's why

1047

00:36:46,550 --> 00:36:44,640

they're doing it you know if they looked

1048

00:36:48,470 --> 00:36:46,560

at it and said we couldn't give you any

1049

00:36:50,310 --> 00:36:48,480

more information they wouldn't be

1050

00:36:52,390 --> 00:36:50,320

spending months looking at it i can tell

1051  
00:36:54,630 --> 00:36:52,400  
you part of that is the big delay when

1052  
00:36:56,630 --> 00:36:54,640  
we got this story in january we were

1053  
00:36:58,950 --> 00:36:56,640  
ready to go you know we're a news outlet

1054  
00:37:01,030 --> 00:36:58,960  
as i tell people all the time this story

1055  
00:37:02,870 --> 00:37:01,040  
was a big story for us today but it was

1056  
00:37:04,950 --> 00:37:02,880  
one of four that went up on the website

1057  
00:37:08,150 --> 00:37:04,960  
we'll have three more stories tomorrow

1058  
00:37:09,990 --> 00:37:08,160  
four more on monday we're a new site so

1059  
00:37:12,870 --> 00:37:10,000  
we're constantly cranking out new so for

1060  
00:37:14,870 --> 00:37:12,880  
us it was a one-story event but it took

1061  
00:37:16,870 --> 00:37:14,880  
these months because they were putting

1062  
00:37:19,349 --> 00:37:16,880  
together this conference and they were

1063  
00:37:21,109 --> 00:37:19,359

having the scientific analysis done so i

1064

00:37:24,069 --> 00:37:21,119

think

1065

00:37:25,750 --> 00:37:24,079

my expectation is very high for that

1066

00:37:27,910 --> 00:37:25,760

scientific analysis

1067

00:37:29,349 --> 00:37:27,920

at the same point i think you make a

1068

00:37:30,870 --> 00:37:29,359

good point i don't know who's all

1069

00:37:32,710 --> 00:37:30,880

presenting there but again i see on

1070

00:37:34,870 --> 00:37:32,720

twitter that some people came out and

1071

00:37:37,030 --> 00:37:34,880

said uh you've got this yucca head there

1072

00:37:38,310 --> 00:37:37,040

and you've got this you know monkey over

1073

00:37:40,550 --> 00:37:38,320

there and you know you've got some

1074

00:37:42,310 --> 00:37:40,560

really morons mixed in i think that's

1075

00:37:44,950 --> 00:37:42,320

unfortunately the community we're i

1076

00:37:47,030 --> 00:37:44,960

think that's the the two sides of the

1077

00:37:49,270 --> 00:37:47,040

of the community i can tell you if it

1078

00:37:51,430 --> 00:37:49,280

were debrief event

1079

00:37:54,310 --> 00:37:51,440

it would be a completely different panel

1080

00:37:56,950 --> 00:37:54,320

and as you know when we report on ufos

1081

00:37:59,670 --> 00:37:56,960

you get military sources and you get

1082

00:38:02,390 --> 00:37:59,680

science sources you don't get anecdotal

1083

00:38:04,230 --> 00:38:02,400

sources and you don't get i mean we even

1084

00:38:07,349 --> 00:38:04,240

quoted mick west in the article i don't

1085

00:38:10,069 --> 00:38:07,359

know who else puts out new ufo video and

1086

00:38:12,710 --> 00:38:10,079

quotes mick west right in the article

1087

00:38:14,710 --> 00:38:12,720

but that is our approach we are trying

1088

00:38:16,950 --> 00:38:14,720

to present it as news this is what we've

1089

00:38:19,670 --> 00:38:16,960

been told this is what we've heard we

1090

00:38:21,589 --> 00:38:19,680

did our research and verified it so if

1091

00:38:23,990 --> 00:38:21,599

we were doing a ufo conference yeah i

1092

00:38:25,589 --> 00:38:24,000

think it would be people from the scu i

1093

00:38:26,630 --> 00:38:25,599

think it would be probably some of those

1094

00:38:28,390 --> 00:38:26,640

critics

1095

00:38:30,390 --> 00:38:28,400

like mick west and people like that we

1096

00:38:31,829 --> 00:38:30,400

would invite people like that

1097

00:38:34,069 --> 00:38:31,839

as far as the other people they have at

1098

00:38:35,829 --> 00:38:34,079

this conference i don't know you know i

1099

00:38:38,310 --> 00:38:35,839

i think in the ufo community somewhere

1100

00:38:40,950 --> 00:38:38,320

between uh anjali and the desert and

1101

00:38:42,710 --> 00:38:40,960

stephen greer and uh you know maybe over

1102

00:38:45,030 --> 00:38:42,720

on this side it's like the pure scu

1103

00:38:46,870 --> 00:38:45,040

conference where it's just phds

1104

00:38:48,630 --> 00:38:46,880

i think this one kind of seems to land

1105

00:38:49,829 --> 00:38:48,640

right in the middle there somewhere

1106

00:38:51,510 --> 00:38:49,839

yeah

1107

00:38:53,109 --> 00:38:51,520

made a good point here i think he he

1108

00:38:55,750 --> 00:38:53,119

said that it's better than the footage

1109

00:38:58,550 --> 00:38:55,760

that we got from the aoi msg during the

1110

00:39:00,310 --> 00:38:58,560

hearings which i think is a very

1111

00:39:02,230 --> 00:39:00,320

valuable and fair comment we're actually

1112

00:39:03,510 --> 00:39:02,240

getting analysis within 24 hours of

1113

00:39:05,910 --> 00:39:03,520

seeing the video we've got a lot of

1114

00:39:07,670 --> 00:39:05,920

backstory and context to it and and

1115

00:39:09,589 --> 00:39:07,680

that's what's usually lacking when you

1116

00:39:12,150 --> 00:39:09,599

get these ufo videos online they come

1117

00:39:14,230 --> 00:39:12,160

with no kind of chain of custody and no

1118

00:39:16,150 --> 00:39:14,240

one's checked the legitimacy so i really

1119

00:39:20,630 --> 00:39:16,160

do

1120

00:39:22,230 --> 00:39:20,640

plane is flying that fast

1121

00:39:24,550 --> 00:39:22,240

that literally could just be a balloon

1122

00:39:26,470 --> 00:39:24,560

in the sky or it really could be like a

1123

00:39:29,030 --> 00:39:26,480

craft zipping the other way

1124

00:39:32,310 --> 00:39:29,040

that's what's so impressive to me about

1125

00:39:35,430 --> 00:39:32,320

this video that that was put out is it

1126

00:39:37,510 --> 00:39:35,440

shot from an airplane sitting still

1127

00:39:39,990 --> 00:39:37,520

you know that airplane is on the runway

1128

00:39:41,349 --> 00:39:40,000

sitting still so the the

1129

00:39:44,710 --> 00:39:41,359

i'll be honest when i was watching the

1130

00:39:46,630 --> 00:39:44,720

the uh the congressional hearings and

1131

00:39:48,710 --> 00:39:46,640

they kept like trying to like line up

1132

00:39:50,230 --> 00:39:48,720

that video when they finally got it

1133

00:39:51,990 --> 00:39:50,240

lined up and played it right i thought

1134

00:39:53,910 --> 00:39:52,000

it was cool like i was like all right

1135

00:39:55,589 --> 00:39:53,920

that's little things zipping by

1136

00:39:57,990 --> 00:39:55,599

i was more impressed by the video that

1137

00:39:59,670 --> 00:39:58,000

we put out so

1138

00:40:01,270 --> 00:39:59,680

yeah i thought it was pretty interesting

1139

00:40:02,950 --> 00:40:01,280

like you say that the conference is on

1140

00:40:05,589 --> 00:40:02,960

if people have an interest you can check

1141

00:40:07,349 --> 00:40:05,599

out the ufo disclosure symposium it's on

1142

00:40:08,870 --> 00:40:07,359

now there are tickets available online

1143

00:40:10,470 --> 00:40:08,880

you can attend it in person but i'm

1144

00:40:12,550 --> 00:40:10,480

guessing at this point it would be a

1145

00:40:14,550 --> 00:40:12,560

stream um and there are some other

1146

00:40:16,150 --> 00:40:14,560

releases as part of that and that's if

1147

00:40:18,230 --> 00:40:16,160

that's to your taste then go and check

1148

00:40:19,430 --> 00:40:18,240

that out but yeah not

1149

00:40:21,190 --> 00:40:19,440

that won't be watching some of that

1150

00:40:23,510 --> 00:40:21,200

stuff but what does interest me is what

1151  
00:40:24,950 --> 00:40:23,520  
comes from the analysis and the people

1152  
00:40:26,870 --> 00:40:24,960  
and i think all that ends up in the

1153  
00:40:29,270 --> 00:40:26,880  
public andy i'm sorry to cut you off but

1154  
00:40:31,430 --> 00:40:29,280  
no no my my understanding from the

1155  
00:40:33,349 --> 00:40:31,440  
people behind that conference i have had

1156  
00:40:35,030 --> 00:40:33,359  
zero interaction with them chrissy and

1157  
00:40:37,030 --> 00:40:35,040  
tim and mike have done all the work

1158  
00:40:39,190 --> 00:40:37,040  
coordinating that but it is my

1159  
00:40:40,710 --> 00:40:39,200  
understanding that at some point we're

1160  
00:40:43,910 --> 00:40:40,720  
gonna get all of that we're gonna get

1161  
00:40:46,230 --> 00:40:43,920  
every expert's analysis on this video uh

1162  
00:40:48,950 --> 00:40:46,240  
not just uh you know mick west and the

1163  
00:40:50,390 --> 00:40:48,960

guys on on youtube or on twitter but

1164

00:40:52,550 --> 00:40:50,400

we're gonna get these scientists who

1165

00:40:55,270 --> 00:40:52,560

just put it through the rigor and and

1166

00:40:57,270 --> 00:40:55,280

we'll see what they come up with

1167

00:40:59,030 --> 00:40:57,280

well one thing that did come out today

1168

00:41:01,510 --> 00:40:59,040

is separately to the d beef was another

1169

00:41:03,430 --> 00:41:01,520

article in the daily mail here in the uk

1170

00:41:05,030 --> 00:41:03,440

and essentially it was that nasa is

1171

00:41:07,589 --> 00:41:05,040

joining the hunt i believe is some of

1172

00:41:09,030 --> 00:41:07,599

the phrasing used but this is that nasa

1173

00:41:12,230 --> 00:41:09,040

and obviously we know bill nelson the

1174

00:41:14,790 --> 00:41:12,240

current admin of nasa as briefed on the

1175

00:41:16,309 --> 00:41:14,800

uap subject has been within his former

1176

00:41:18,550 --> 00:41:16,319

role within government

1177

00:41:21,190 --> 00:41:18,560

as a big proponent and fan of nasa being

1178

00:41:22,870 --> 00:41:21,200

involved within the ufo and uap subject

1179

00:41:24,550 --> 00:41:22,880

and they have essentially promised a few

1180

00:41:27,750 --> 00:41:24,560

big bullet points promising to review

1181

00:41:28,950 --> 00:41:27,760

old footage that they have on nasa and i

1182

00:41:30,550 --> 00:41:28,960

don't know if that means going through

1183

00:41:31,829 --> 00:41:30,560

those those youtube videos down that

1184

00:41:33,430 --> 00:41:31,839

we've looked at before and you know the

1185

00:41:34,790 --> 00:41:33,440

tether incident things like that

1186

00:41:37,190 --> 00:41:34,800

probably some footage that we've not

1187

00:41:39,589 --> 00:41:37,200

seen looking to speak with astronauts

1188

00:41:42,069 --> 00:41:39,599

about experience of uap very similar to

1189

00:41:43,589 --> 00:41:42,079

what the the us navy and the pilots and

1190

00:41:45,829 --> 00:41:43,599

the men and women who serve have been

1191

00:41:47,270 --> 00:41:45,839

encouraged to come forward and do and it

1192

00:41:49,109 --> 00:41:47,280

looks like they're really trying to push

1193

00:41:51,510 --> 00:41:49,119

that destigmatisation

1194

00:41:52,790 --> 00:41:51,520

and get in on this conversation dan i'll

1195

00:41:54,390 --> 00:41:52,800

bring you on that one first what are

1196

00:41:55,829 --> 00:41:54,400

your thoughts on nasa getting more

1197

00:41:58,230 --> 00:41:55,839

involved

1198

00:41:59,910 --> 00:41:58,240

well we we've heard

1199

00:42:01,910 --> 00:41:59,920

things about this before you know lou

1200

00:42:03,670 --> 00:42:01,920

alexander has spoken about it we've seen

1201  
00:42:05,990 --> 00:42:03,680  
bill nelson talk about them taking the

1202  
00:42:08,069 --> 00:42:06,000  
the issue seriously but this is the

1203  
00:42:09,750 --> 00:42:08,079  
first that i've heard it specified that

1204  
00:42:11,990 --> 00:42:09,760  
they'll be looking to build a kind of

1205  
00:42:13,829 --> 00:42:12,000  
complementary working group which again

1206  
00:42:15,510 --> 00:42:13,839  
chris is similar to what bob was saying

1207  
00:42:16,710 --> 00:42:15,520  
right in the dhs it seems like there are

1208  
00:42:18,230 --> 00:42:16,720  
all these different parts of the

1209  
00:42:19,910 --> 00:42:18,240  
government now building their own little

1210  
00:42:21,829 --> 00:42:19,920  
working groups that are finally going to

1211  
00:42:24,470 --> 00:42:21,839  
work together

1212  
00:42:26,470 --> 00:42:24,480  
i'm i'm a little frustrated by the nasa

1213  
00:42:28,390 --> 00:42:26,480

news i think it's good and bad and let

1214

00:42:30,390 --> 00:42:28,400

me tell you why first of all i'm really

1215

00:42:32,950 --> 00:42:30,400

glad bill nelson's following up i wrote

1216

00:42:35,829 --> 00:42:32,960

that story a year ago when he first came

1217

00:42:37,990 --> 00:42:35,839

out and said uh you know this is our job

1218

00:42:39,670 --> 00:42:38,000

this is what we do at nasa and we're

1219

00:42:41,750 --> 00:42:39,680

going to look into this and i've seen

1220

00:42:44,390 --> 00:42:41,760

those videos and he's the one who

1221

00:42:45,990 --> 00:42:44,400

regularly says things like uh i hope

1222

00:42:47,589 --> 00:42:46,000

it's not an adversary i hope it's

1223

00:42:50,069 --> 00:42:47,599

extraterrestrial that would be better

1224

00:42:52,630 --> 00:42:50,079

news for us right

1225

00:42:55,510 --> 00:42:52,640

i think what's frustrating okay first of

1226

00:42:57,109 --> 00:42:55,520

all i'm happy that the guy of the daily

1227

00:42:58,630 --> 00:42:57,119

mail beat me to the punch line because

1228

00:43:01,430 --> 00:42:58,640

i've been chasing this story at nasa

1229

00:43:03,589 --> 00:43:01,440

through my contacts for months but i in

1230

00:43:05,750 --> 00:43:03,599

the end i see how they beat me there and

1231

00:43:08,550 --> 00:43:05,760

it's unfortunate

1232

00:43:09,750 --> 00:43:08,560

at nasa because it's publicly funded in

1233

00:43:12,950 --> 00:43:09,760

the states

1234

00:43:14,150 --> 00:43:12,960

nasa has a certain way they typically do

1235

00:43:16,470 --> 00:43:14,160

missions

1236

00:43:17,589 --> 00:43:16,480

and the mission will be chosen by a

1237

00:43:19,589 --> 00:43:17,599

committee

1238

00:43:21,510 --> 00:43:19,599

then it will be given like a name like

1239

00:43:22,870 --> 00:43:21,520

the artemis mission right is going back

1240

00:43:25,190 --> 00:43:22,880

to the moon right

1241

00:43:27,510 --> 00:43:25,200

so it'll be given a name it'll be given

1242

00:43:29,829 --> 00:43:27,520

even like a mission badge or whatever

1243

00:43:32,470 --> 00:43:29,839

they'll have a project leader project

1244

00:43:34,470 --> 00:43:32,480

manners they will have assigned duties

1245

00:43:36,470 --> 00:43:34,480

they will have timelines they will have

1246

00:43:39,190 --> 00:43:36,480

agendas they will have all kinds of

1247

00:43:42,150 --> 00:43:39,200

stuff that comes out of creating a

1248

00:43:45,109 --> 00:43:42,160

mission or a mission directory

1249

00:43:47,750 --> 00:43:45,119

a working group is almost like an email

1250

00:43:49,430 --> 00:43:47,760

chat within a place like nasa so it's

1251

00:43:52,150 --> 00:43:49,440

not nothing

1252

00:43:54,230 --> 00:43:52,160

but it's just kind of like hey go out

1253

00:43:56,230 --> 00:43:54,240

and get together these videos talk to

1254

00:43:58,550 --> 00:43:56,240

these astronauts like it's putting some

1255

00:44:00,630 --> 00:43:58,560

leg work in and it could definitely be

1256

00:44:03,109 --> 00:44:00,640

the predecessor

1257

00:44:05,670 --> 00:44:03,119

to an official mission but what we were

1258

00:44:08,790 --> 00:44:05,680

really hoping for nasa was

1259

00:44:11,670 --> 00:44:08,800

okay we're undertaking the uap issue

1260

00:44:13,589 --> 00:44:11,680

it's called you know operation

1261

00:44:15,750 --> 00:44:13,599

you know clear skies or whatever they

1262

00:44:18,550 --> 00:44:15,760

want to call it and here's the head of

1263

00:44:21,109 --> 00:44:18,560

that here's the budget for it here's the

1264

00:44:23,190 --> 00:44:21,119

end because all of that stuff is voted

1265

00:44:25,589 --> 00:44:23,200

on by congress nasa's budget the way

1266

00:44:27,750 --> 00:44:25,599

it's handled in the states it's all you

1267

00:44:30,150 --> 00:44:27,760

know they have a public fiduciary duty

1268

00:44:32,470 --> 00:44:30,160

on all this so working group is a way to

1269

00:44:35,190 --> 00:44:32,480

kind of look at it but kind of not have

1270

00:44:37,109 --> 00:44:35,200

to commit to anything not have to commit

1271

00:44:39,030 --> 00:44:37,119

to reporting or releasing anything you

1272

00:44:42,069 --> 00:44:39,040

know a a natural mission would have a

1273

00:44:44,790 --> 00:44:42,079

release schedule would have directed sp

1274

00:44:47,270 --> 00:44:44,800

specified goals this has no goals

1275

00:44:49,589 --> 00:44:47,280

uh no we don't know who is working on it

1276

00:44:51,270 --> 00:44:49,599

no personnel so by then putting in a

1277

00:44:53,190 --> 00:44:51,280

working group is a little frustrating at

1278

00:44:55,829 --> 00:44:53,200

this phase because we really thought

1279

00:44:57,670 --> 00:44:55,839

after last summer's announcement that by

1280

00:45:00,230 --> 00:44:57,680

this summer which we're rounding on in a

1281

00:45:02,230 --> 00:45:00,240

few weeks we would have an official team

1282

00:45:04,870 --> 00:45:02,240

at nasa with a leader and a budget all

1283

00:45:07,589 --> 00:45:04,880

the things i keep mentioning so

1284

00:45:09,670 --> 00:45:07,599

i think it's a forward step i think it's

1285

00:45:11,270 --> 00:45:09,680

key they haven't given up on it you know

1286

00:45:13,589 --> 00:45:11,280

i think it's key that they brought it up

1287

00:45:15,670 --> 00:45:13,599

a year ago because bill nelson is one of

1288

00:45:18,470 --> 00:45:15,680

these people we will keep a lit until

1289

00:45:20,870 --> 00:45:18,480

this information comes public we will

1290

00:45:23,030 --> 00:45:20,880

keep living in this reality where guys

1291

00:45:25,270 --> 00:45:23,040

like lou elizondo chris mellen these

1292

00:45:26,710 --> 00:45:25,280

milit and some of these congressional

1293

00:45:29,510 --> 00:45:26,720

reps

1294

00:45:30,470 --> 00:45:29,520

seem to have seen things that we haven't

1295

00:45:39,589 --> 00:45:30,480

seen

1296

00:45:42,150 --> 00:45:39,599

uh sig intel signal intelligence

1297

00:45:43,589 --> 00:45:42,160

they and and melanie and eliza kind of

1298

00:45:45,829 --> 00:45:43,599

say that all the time there's all these

1299

00:45:49,270 --> 00:45:45,839

other videos on photos that we can't

1300

00:45:51,670 --> 00:45:49,280

show you guys that are better

1301

00:45:54,870 --> 00:45:51,680

bill nelson seems to have seen that

1302

00:45:57,190 --> 00:45:54,880

stuff and by him a year later just after

1303

00:45:59,589 --> 00:45:57,200

he got put into that job to still be

1304

00:46:02,069 --> 00:45:59,599

pushing it forward i think is important

1305

00:46:04,790 --> 00:46:02,079

whether or not where we get from a

1306

00:46:06,550 --> 00:46:04,800

working group to an actual mission to an

1307

00:46:08,470 --> 00:46:06,560

actual project

1308

00:46:10,470 --> 00:46:08,480

you know you can go to nasa's site and

1309

00:46:11,829 --> 00:46:10,480

just every mission has its own page

1310

00:46:12,790 --> 00:46:11,839

right you can just go to the mission

1311

00:46:14,390 --> 00:46:12,800

page

1312

00:46:16,710 --> 00:46:14,400

when i write about stuff i can be

1313

00:46:19,270 --> 00:46:16,720

writing about anything i can go to the

1314

00:46:21,510 --> 00:46:19,280

voyager missions from the 70s then

1315

00:46:24,230 --> 00:46:21,520

there's still a mission page with

1316

00:46:27,109 --> 00:46:24,240

budgets and who who put it together and

1317

00:46:28,790 --> 00:46:27,119

who so that's the frustrating thing but

1318

00:46:30,870 --> 00:46:28,800

yeah the fact that they're not giving up

1319

00:46:32,950 --> 00:46:30,880

they're continuing forward i do think i

1320

00:46:34,230 --> 00:46:32,960

saw somewhere

1321

00:46:37,510 --> 00:46:34,240

that they are going to be looking at

1322

00:46:39,910 --> 00:46:37,520

those older like the sts-48 which is the

1323

00:46:42,230 --> 00:46:39,920

the famous you know

1324

00:46:43,750 --> 00:46:42,240

something or whatever like oh coming in

1325

00:46:46,390 --> 00:46:43,760

and then something shoots out and then

1326

00:46:47,589 --> 00:46:46,400

it zooms back away or whatever

1327

00:46:49,430 --> 00:46:47,599

so

1328

00:46:51,750 --> 00:46:49,440

i think that's what they're going to do

1329

00:46:53,670 --> 00:46:51,760

internally is like let's look at what we

1330

00:46:55,910 --> 00:46:53,680

have let's look let's talk to our

1331

00:46:58,710 --> 00:46:55,920

astronauts look at any videos we might

1332

00:47:00,630 --> 00:46:58,720

have that we've held back any images we

1333

00:47:03,030 --> 00:47:00,640

might have held back because we weren't

1334

00:47:04,630 --> 00:47:03,040

sure so i think that's an important

1335

00:47:06,069 --> 00:47:04,640

first step for them to get their arms

1336

00:47:08,150 --> 00:47:06,079

around it get their hands around it and

1337

00:47:12,230 --> 00:47:08,160

see what they have over there let's hope

1338

00:47:13,750 --> 00:47:12,240

it ends up with a a formal mission or

1339

00:47:15,670 --> 00:47:13,760

formal program

1340

00:47:18,390 --> 00:47:15,680

dan they must have some very cool stuff

1341

00:47:19,430 --> 00:47:18,400

in the vault at nasa locked away on oh

1342

00:47:20,990 --> 00:47:19,440

yeah

1343

00:47:22,790 --> 00:47:21,000

and and there's those um

1344

00:47:24,390 --> 00:47:22,800

[Music]

1345

00:47:26,390 --> 00:47:24,400

the kind of

1346

00:47:28,790 --> 00:47:26,400

i i want to say conspiracy but i don't

1347

00:47:30,150 --> 00:47:28,800

because it's not uh the idea that when

1348

00:47:31,190 --> 00:47:30,160

they were talking about santa claus

1349

00:47:32,710 --> 00:47:31,200

during the moon mission they were

1350

00:47:34,710 --> 00:47:32,720

talking about some sources kind of on

1351

00:47:36,309 --> 00:47:34,720

the horizon and i'd love for them to dig

1352

00:47:38,309 --> 00:47:36,319

into that even if they find out it's not

1353

00:47:40,069 --> 00:47:38,319

true you know and ruin the romance there

1354

00:47:41,990 --> 00:47:40,079

it would be it would be great to get to

1355

00:47:43,430 --> 00:47:42,000

the truth on that

1356

00:47:45,030 --> 00:47:43,440

and i want to ask just to finish up

1357

00:47:46,390 --> 00:47:45,040

because chris your time is limited with

1358

00:47:47,750 --> 00:47:46,400

us you're you're going on a christina

1359

00:47:50,390 --> 00:47:47,760

gomez's show next you're doing the

1360

00:47:51,990 --> 00:47:50,400

rounds today and uh dan i only planned

1361

00:47:53,430 --> 00:47:52,000

on doing about the hour on this anyway

1362

00:47:56,069 --> 00:47:53,440

and again thanks to everyone who's

1363

00:47:57,910 --> 00:47:56,079

joined in in the chat it's been a week

1364

00:48:00,549 --> 00:47:57,920

or so since the congressional hearings

1365

00:48:02,309 --> 00:48:00,559

chris i'll ask yourself now we've had

1366

00:48:03,589 --> 00:48:02,319

that time passed and people are already

1367

00:48:05,430 --> 00:48:03,599

talking about

1368

00:48:06,790 --> 00:48:05,440

more congressional hearings what have

1369

00:48:08,390 --> 00:48:06,800

you heard what are your thoughts and

1370

00:48:10,870 --> 00:48:08,400

what do you expect to come in the near

1371

00:48:12,790 --> 00:48:10,880

future could we get further hearings as

1372

00:48:15,589 --> 00:48:12,800

soon as this summer

1373

00:48:17,030 --> 00:48:15,599

uh i i think so yes i think the yes to

1374

00:48:19,589 --> 00:48:17,040

your last question

1375

00:48:21,510 --> 00:48:19,599

my father who's still kicking at 84

1376

00:48:23,589 --> 00:48:21,520

years old has a saying

1377

00:48:25,910 --> 00:48:23,599

you're either gaining ground

1378

00:48:28,150 --> 00:48:25,920

or you're losing ground there's no

1379

00:48:29,910 --> 00:48:28,160

standing still in life he would tell me

1380

00:48:31,349 --> 00:48:29,920

that all the time chris you're either

1381

00:48:33,190 --> 00:48:31,359

making headway today you're either

1382

00:48:34,950 --> 00:48:33,200

getting ahead of things or you're

1383

00:48:36,390 --> 00:48:34,960

sitting still and life has passed nearby

1384

00:48:38,710 --> 00:48:36,400

and you're losing ground the

1385

00:48:41,030 --> 00:48:38,720

congressional hearings were some of the

1386

00:48:43,270 --> 00:48:41,040

most significant ground that we have

1387

00:48:45,430 --> 00:48:43,280

gained in a long time you know task

1388

00:48:47,270 --> 00:48:45,440

force is wonderful you a ptf these sort

1389

00:48:49,030 --> 00:48:47,280

of things but to have it in front of

1390

00:48:51,270 --> 00:48:49,040

congress you know i was writing a story

1391

00:48:53,990 --> 00:48:51,280

that i'm researching about the the swamp

1392

00:48:56,390 --> 00:48:54,000

gas incident from 1966.

1393

00:48:59,750 --> 00:48:56,400

that was the last congressional hearings

1394

00:49:02,069 --> 00:48:59,760

i was born in 1969 i'm old

1395

00:49:04,950 --> 00:49:02,079

and there have been no congressional

1396

00:49:07,030 --> 00:49:04,960

hearings in my entire life about this

1397

00:49:08,549 --> 00:49:07,040

issue so i thought it was huge i thought

1398

00:49:09,829 --> 00:49:08,559

it was really important and really

1399

00:49:12,470 --> 00:49:09,839

significant

1400

00:49:15,030 --> 00:49:12,480

i think we're at the point it goes right

1401  
00:49:17,750 --> 00:49:15,040  
in line with what i was saying before

1402  
00:49:19,670 --> 00:49:17,760  
where should there be more hearings and

1403  
00:49:22,710 --> 00:49:19,680  
i think we're likely to get them in the

1404  
00:49:27,349 --> 00:49:24,870  
we need to start bringing in the experts

1405  
00:49:28,950 --> 00:49:27,359  
to tell them who the you know i would

1406  
00:49:31,270 --> 00:49:28,960  
have like if i knew those two people

1407  
00:49:33,190 --> 00:49:31,280  
they had testifying that day i write

1408  
00:49:35,270 --> 00:49:33,200  
questions for chrissy for her interviews

1409  
00:49:37,430 --> 00:49:35,280  
all the time right oh you're talking to

1410  
00:49:38,950 --> 00:49:37,440  
avi loeb here's 20 questions make sure

1411  
00:49:40,470 --> 00:49:38,960  
to ask him i could have written way

1412  
00:49:42,309 --> 00:49:40,480  
better questions that were asked of

1413  
00:49:44,390 --> 00:49:42,319

those guys and i think anyone who

1414

00:49:45,990 --> 00:49:44,400

follows the ufo field could have written

1415

00:49:47,510 --> 00:49:46,000

better questions but i think we're

1416

00:49:49,750 --> 00:49:47,520

reaching the point

1417

00:49:51,750 --> 00:49:49,760

where the right people need to be there

1418

00:49:54,390 --> 00:49:51,760

and by that i think

1419

00:49:56,230 --> 00:49:54,400

lou elizondo chris mellon

1420

00:50:00,150 --> 00:49:56,240

eric davis

1421

00:50:02,390 --> 00:50:00,160

and admiral wilson can all be brought in

1422

00:50:03,750 --> 00:50:02,400

told in front of congress your nda does

1423

00:50:05,829 --> 00:50:03,760

not apply

1424

00:50:08,549 --> 00:50:05,839

and you need to testify openly and

1425

00:50:10,470 --> 00:50:08,559

truthfully to congress and i think

1426

00:50:12,470 --> 00:50:10,480

mellon and elizondo who've said a

1427

00:50:14,870 --> 00:50:12,480

million times there's better videos and

1428

00:50:15,750 --> 00:50:14,880

better pictures and maybe even debris

1429

00:50:18,390 --> 00:50:15,760

whatever

1430

00:50:20,870 --> 00:50:18,400

let's let them go on the record and for

1431

00:50:22,549 --> 00:50:20,880

people that are critical of elizondo or

1432

00:50:24,950 --> 00:50:22,559

think there's another mission going on

1433

00:50:26,870 --> 00:50:24,960

or he's made it all up or whatever

1434

00:50:29,349 --> 00:50:26,880

putting him on the hot seat in front of

1435

00:50:32,069 --> 00:50:29,359

congress creates a lot of liability for

1436

00:50:34,790 --> 00:50:32,079

him if he is lying so it also brings the

1437

00:50:37,589 --> 00:50:34,800

controversy about lou elizondo to a

1438

00:50:39,430 --> 00:50:37,599

conclusion one way or the other so i

1439

00:50:41,670 --> 00:50:39,440

think that is critical i think he's

1440

00:50:43,829 --> 00:50:41,680

somebody we need there with the freedom

1441

00:50:45,190 --> 00:50:43,839

to speak and i think eric davis is

1442

00:50:46,470 --> 00:50:45,200

someone we need there with the freedom

1443

00:50:48,230 --> 00:50:46,480

to speak

1444

00:50:50,069 --> 00:50:48,240

i think admiral wilson's in a tough

1445

00:50:51,750 --> 00:50:50,079

position because if that document is

1446

00:50:53,750 --> 00:50:51,760

true and if that meeting really took

1447

00:50:55,430 --> 00:50:53,760

place he probably did something illegal

1448

00:50:57,670 --> 00:50:55,440

that he wasn't allowed to do by just

1449

00:50:59,109 --> 00:50:57,680

talking about what he talked about to

1450

00:51:00,630 --> 00:50:59,119

who he talked about so i don't know that

1451  
00:51:02,950 --> 00:51:00,640  
we would ever get what we want out of

1452  
00:51:04,309 --> 00:51:02,960  
him but if eric davis sat down in front

1453  
00:51:05,829 --> 00:51:04,319  
of congress and said

1454  
00:51:08,069 --> 00:51:05,839  
yeah i've met with admiral wilson in the

1455  
00:51:09,829 --> 00:51:08,079  
parking lot the memo is true where does

1456  
00:51:12,150 --> 00:51:09,839  
that take us where does that take the

1457  
00:51:14,069 --> 00:51:12,160  
discussion so i think that's what we

1458  
00:51:16,069 --> 00:51:14,079  
need to see is

1459  
00:51:17,990 --> 00:51:16,079  
key witnesses

1460  
00:51:20,150 --> 00:51:18,000  
that have key things to say that have

1461  
00:51:22,390 --> 00:51:20,160  
essentially said it and i told the told

1462  
00:51:24,309 --> 00:51:22,400  
the interview earlier this morning

1463  
00:51:26,710 --> 00:51:24,319

i'm half tempted to write a start a

1464

00:51:27,510 --> 00:51:26,720

hashtag and write an article called free

1465

00:51:29,670 --> 00:51:27,520

lou

1466

00:51:32,069 --> 00:51:29,680

because i think it's time to free liu of

1467

00:51:34,630 --> 00:51:32,079

his non-disclosure and let him talk and

1468

00:51:37,670 --> 00:51:34,640

let the chips fall where they make

1469

00:51:38,870 --> 00:51:37,680

diamonds into that

1470

00:51:40,150 --> 00:51:38,880

as soon as we're done with this i'm

1471

00:51:42,309 --> 00:51:40,160

gonna i'm gonna tweet about this

1472

00:51:44,390 --> 00:51:42,319

conversation

1473

00:51:46,309 --> 00:51:44,400

i think that'd be great um i'd be really

1474

00:51:48,069 --> 00:51:46,319

intrigued to hear jay stratton talk as

1475

00:51:50,230 --> 00:51:48,079

well his name's out there now he headed

1476

00:51:52,470 --> 00:51:50,240

up a lot of what what's been going on

1477

00:51:54,150 --> 00:51:52,480

including the uh ptf so

1478

00:51:55,990 --> 00:51:54,160

for a period so i think that was maybe

1479

00:51:57,109 --> 00:51:56,000

got dropped yesterday somewhere yeah

1480

00:51:59,109 --> 00:51:57,119

that's right

1481

00:52:00,630 --> 00:51:59,119

so yeah i mean he at the very least

1482

00:52:02,069 --> 00:52:00,640

would be able to confirm that lou did

1483

00:52:04,470 --> 00:52:02,079

what he did and like you say it just

1484

00:52:06,790 --> 00:52:04,480

takes that controversy away from the

1485

00:52:08,950 --> 00:52:06,800

subject

1486

00:52:10,230 --> 00:52:08,960

immunity for all the people who have

1487

00:52:11,990 --> 00:52:10,240

kind of been caught up in this over the

1488

00:52:13,829 --> 00:52:12,000

years i think is important we need these

1489

00:52:15,589 --> 00:52:13,839

people coming forward we need to see

1490

00:52:17,190 --> 00:52:15,599

these new names coming out constantly

1491

00:52:18,549 --> 00:52:17,200

because there's no way that you know

1492

00:52:20,710 --> 00:52:18,559

it's just a handful of people that's

1493

00:52:23,990 --> 00:52:20,720

been involved in this over the years and

1494

00:52:26,390 --> 00:52:24,000

lou in certain interviews has alluded to

1495

00:52:29,510 --> 00:52:26,400

knowing where the pearly gates are

1496

00:52:31,750 --> 00:52:29,520

um where the information is kept so i

1497

00:52:33,750 --> 00:52:31,760

think if we can get people like lou in

1498

00:52:35,270 --> 00:52:33,760

front of congress testifying they can

1499

00:52:37,270 --> 00:52:35,280

start pointing fingers as to where

1500

00:52:38,790 --> 00:52:37,280

congress should be looking uh our

1501  
00:52:41,190 --> 00:52:38,800  
officials are becoming more and more

1502  
00:52:42,790 --> 00:52:41,200  
educated the more we talk about this in

1503  
00:52:44,790 --> 00:52:42,800  
these places

1504  
00:52:46,230 --> 00:52:44,800  
before no one knew what oh some people

1505  
00:52:48,870 --> 00:52:46,240  
knew what the wilson docks were but not

1506  
00:52:50,790 --> 00:52:48,880  
everyone did now a lot more people know

1507  
00:52:53,349 --> 00:52:50,800  
so the lights being shined in the dark

1508  
00:52:54,790 --> 00:52:53,359  
places finally uh and and we're going to

1509  
00:52:58,230 --> 00:52:54,800  
start just putting down those little

1510  
00:52:59,750 --> 00:52:58,240  
guess who faces and will be left with

1511  
00:53:00,870 --> 00:52:59,760  
you know a compass direction at the very

1512  
00:53:03,510 --> 00:53:00,880  
least

1513  
00:53:05,270 --> 00:53:03,520

and also speaking of amnesty or immunity

1514

00:53:07,430 --> 00:53:05,280

or things along those lines you know

1515

00:53:09,670 --> 00:53:07,440

when congress does an investigation they

1516

00:53:11,190 --> 00:53:09,680

can often appoint a special investigator

1517

00:53:13,190 --> 00:53:11,200

if you remember like for people that

1518

00:53:14,790 --> 00:53:13,200

follow politics over here in the states

1519

00:53:16,630 --> 00:53:14,800

that's what got president bill clinton

1520

00:53:18,870 --> 00:53:16,640

in trouble was a special investigator

1521

00:53:20,309 --> 00:53:18,880

was looking into like illegal use of

1522

00:53:24,390 --> 00:53:20,319

funds or whatever and we ended up with

1523

00:53:25,910 --> 00:53:24,400

monica lewinsky right so um the idea of

1524

00:53:27,670 --> 00:53:25,920

having an invest

1525

00:53:29,349 --> 00:53:27,680

taking the low hanging fruit taking a

1526

00:53:31,910 --> 00:53:29,359

guy like lou who we're pretty sure he

1527

00:53:33,510 --> 00:53:31,920

hasn't done anything horrible that we're

1528

00:53:35,349 --> 00:53:33,520

gonna give him immunity and he's gonna

1529

00:53:36,790 --> 00:53:35,359

go oh yeah i gaslighted a bunch of

1530

00:53:38,390 --> 00:53:36,800

people into thinking they were abducted

1531

00:53:40,470 --> 00:53:38,400

and they're all in mental hospitals now

1532

00:53:42,069 --> 00:53:40,480

right so i don't think we're gonna find

1533

00:53:43,750 --> 00:53:42,079

that from him but if there is somebody

1534

00:53:46,230 --> 00:53:43,760

who did that maybe that's somebody we

1535

00:53:48,309 --> 00:53:46,240

don't want to give immunity to so when

1536

00:53:49,910 --> 00:53:48,319

you have a special investigator that's

1537

00:53:51,750 --> 00:53:49,920

what they can do they can start bringing

1538

00:53:53,670 --> 00:53:51,760

these people into hearings one by one

1539

00:53:55,349 --> 00:53:53,680

and if eric davis says yeah i met with

1540

00:53:57,990 --> 00:53:55,359

wilson and this is what happened that

1541

00:54:00,069 --> 00:53:58,000

that investigator rather than having it

1542

00:54:02,309 --> 00:54:00,079

in an open hearing can go meet with

1543

00:54:04,870 --> 00:54:02,319

milsim start doing that research go meet

1544

00:54:06,230 --> 00:54:04,880

with the people that that lou says oh

1545

00:54:09,430 --> 00:54:06,240

it's over here at lockheed martin or

1546

00:54:11,829 --> 00:54:09,440

whatever so there are processes in place

1547

00:54:13,910 --> 00:54:11,839

for congress to look at this in a real

1548

00:54:15,349 --> 00:54:13,920

way if that's what they want to do next

1549

00:54:17,670 --> 00:54:15,359

and so i think

1550

00:54:20,230 --> 00:54:17,680

this was the public trial balloon this

1551  
00:54:21,510 --> 00:54:20,240  
was the are we going to get laughed at

1552  
00:54:24,230 --> 00:54:21,520  
by the world

1553  
00:54:25,910 --> 00:54:24,240  
if if as a legislative body in the

1554  
00:54:28,390 --> 00:54:25,920  
biggest country in the world

1555  
00:54:30,309 --> 00:54:28,400  
if we uh if we look at ufos is this

1556  
00:54:31,829 --> 00:54:30,319  
gonna is this gonna backfire on this

1557  
00:54:34,790 --> 00:54:31,839  
that did it just the opposite if

1558  
00:54:37,430 --> 00:54:34,800  
anything it's as bipartisan an issue as

1559  
00:54:39,589 --> 00:54:37,440  
we have here in the states uh i i find

1560  
00:54:41,190 --> 00:54:39,599  
myself being retweeted by

1561  
00:54:43,750 --> 00:54:41,200  
congressional representatives whose

1562  
00:54:46,069 --> 00:54:43,760  
politics are completely opposite of mine

1563  
00:54:48,150 --> 00:54:46,079

but uh they're they're all in on this

1564

00:54:49,030 --> 00:54:48,160

and what they found was tremendous cover

1565

00:54:50,789 --> 00:54:49,040

they got

1566

00:54:52,870 --> 00:54:50,799

i can't think of any blow back i think

1567

00:54:55,109 --> 00:54:52,880

maybe there was one report in australia

1568

00:54:57,190 --> 00:54:55,119

news where they played the x-files music

1569

00:54:59,349 --> 00:54:57,200

in the background right but when i was

1570

00:55:02,230 --> 00:54:59,359

growing up that was day ragu or any any

1571

00:55:04,870 --> 00:55:02,240

news report on ufos

1572

00:55:07,510 --> 00:55:04,880

ran with x-files music and

1573

00:55:10,150 --> 00:55:07,520

scully and mulder little green men shots

1574

00:55:12,390 --> 00:55:10,160

from the movie uh mars attacks i mean

1575

00:55:14,549 --> 00:55:12,400

literally that would be the phoenix

1576

00:55:17,430 --> 00:55:14,559

lights were reported where i grew up in

1577

00:55:19,430 --> 00:55:17,440

san diego with mars attacks clips at the

1578

00:55:21,510 --> 00:55:19,440

beginning right like so

1579

00:55:23,270 --> 00:55:21,520

yeah i i think uh

1580

00:55:24,549 --> 00:55:23,280

yeah that's what i thought would be fair

1581

00:55:28,230 --> 00:55:24,559

mars attacks is one of the best

1582

00:55:30,069 --> 00:55:28,240

documentaries on this object out there

1583

00:55:31,670 --> 00:55:30,079

listen um we're just running out of time

1584

00:55:33,829 --> 00:55:31,680

and just to wrap up thank you both for

1585

00:55:35,430 --> 00:55:33,839

joining us um this coming week i just

1586

00:55:37,430 --> 00:55:35,440

want to get final thoughts from from you

1587

00:55:39,829 --> 00:55:37,440

as well on this chris dan we have spoken

1588

00:55:41,670 --> 00:55:39,839

about it but on monday and friday next

1589

00:55:44,470 --> 00:55:41,680

week on youtube my interview with

1590

00:55:46,549 --> 00:55:44,480

randall nicholson randall nickerson um

1591

00:55:49,190 --> 00:55:46,559

aerial phenomenon documentary and

1592

00:55:50,789 --> 00:55:49,200

director and producer is out and that

1593

00:55:52,470 --> 00:55:50,799

was a fascinating documentary really

1594

00:55:54,870 --> 00:55:52,480

enjoyed it i recommend people check that

1595

00:55:56,549 --> 00:55:54,880

one out uh chris you wrote an article on

1596

00:55:58,309 --> 00:55:56,559

aerial phenomenon recently as well what

1597

00:56:00,069 --> 00:55:58,319

were your thoughts on the documentary

1598

00:56:01,829 --> 00:56:00,079

and and can i the follow as well from

1599

00:56:04,630 --> 00:56:01,839

that i'll try and keep it short but

1600

00:56:06,470 --> 00:56:04,640

thanks for asking andy um

1601  
00:56:09,109 --> 00:56:06,480  
when i watched the documentary the first

1602  
00:56:11,030 --> 00:56:09,119  
time chrissy got me a an advanced copy

1603  
00:56:13,030 --> 00:56:11,040  
uh about a month ago you know because

1604  
00:56:14,710 --> 00:56:13,040  
what we do for a living and we knew i

1605  
00:56:17,910 --> 00:56:14,720  
was going to get to rewrite a review of

1606  
00:56:19,990 --> 00:56:17,920  
it and uh i didn't like it initially i

1607  
00:56:20,789 --> 00:56:20,000  
made it through the whole 90-plus minute

1608  
00:56:22,470 --> 00:56:20,799  
thing

1609  
00:56:23,990 --> 00:56:22,480  
and as i was saying on an earlier

1610  
00:56:26,630 --> 00:56:24,000  
interview today as i was watching i was

1611  
00:56:28,390 --> 00:56:26,640  
moving lower and lower in my chair like

1612  
00:56:30,150 --> 00:56:28,400  
getting more and more depressed and by

1613  
00:56:32,710 --> 00:56:30,160

the time the thing was over my wife says

1614

00:56:34,950 --> 00:56:32,720

not good i said i didn't like it then

1615

00:56:37,589 --> 00:56:34,960

something really interesting happened

1616

00:56:39,589 --> 00:56:37,599

chrissy newton sent me the press kit

1617

00:56:41,990 --> 00:56:39,599

right now in the and this is this will

1618

00:56:42,870 --> 00:56:42,000

come back to my article but in the press

1619

00:56:44,789 --> 00:56:42,880

kit

1620

00:56:46,789 --> 00:56:44,799

was everything that i thought was

1621

00:56:48,710 --> 00:56:46,799

missing from the movie

1622

00:56:50,710 --> 00:56:48,720

but meanwhile as a member of the press

1623

00:56:53,589 --> 00:56:50,720

i'm getting this but nobody else is

1624

00:56:56,470 --> 00:56:53,599

getting this so i included what i think

1625

00:56:58,789 --> 00:56:56,480

was most critical in that article and by

1626  
00:57:01,030 --> 00:56:58,799  
that what i mean was here's what i would

1627  
00:57:03,190 --> 00:57:01,040  
have liked from randall nickerson i

1628  
00:57:05,750 --> 00:57:03,200  
would have liked him to open the film

1629  
00:57:07,750 --> 00:57:05,760  
with three minutes of information

1630  
00:57:09,270 --> 00:57:07,760  
hey i've been researching this for x

1631  
00:57:12,470 --> 00:57:09,280  
number of years

1632  
00:57:13,510 --> 00:57:12,480  
i there were 62 students i talked to 45

1633  
00:57:14,230 --> 00:57:13,520  
of them

1634  
00:57:19,030 --> 00:57:14,240  
i

1635  
00:57:21,349 --> 00:57:19,040  
happen

1636  
00:57:23,510 --> 00:57:21,359  
here's the teachers i talked to i think

1637  
00:57:25,270 --> 00:57:23,520  
a lot of us wanted that forensic

1638  
00:57:27,510 --> 00:57:25,280

analysis the same way i'm talking about

1639

00:57:29,510 --> 00:57:27,520

a special investigator getting in there

1640

00:57:31,349 --> 00:57:29,520

and finding the details about these

1641

00:57:32,870 --> 00:57:31,359

things i think that's what i really

1642

00:57:35,190 --> 00:57:32,880

wanted from that story because i think

1643

00:57:38,069 --> 00:57:35,200

we kind of knew that like the kids all

1644

00:57:39,910 --> 00:57:38,079

saw something and 20 years later they're

1645

00:57:42,309 --> 00:57:39,920

all saying yeah i saw something like

1646

00:57:44,069 --> 00:57:42,319

that the story hadn't changed so we

1647

00:57:45,109 --> 00:57:44,079

really wanted him to dig in and find

1648

00:57:47,270 --> 00:57:45,119

more

1649

00:57:50,069 --> 00:57:47,280

well he put all that in the press kit so

1650

00:57:52,829 --> 00:57:50,079

i included that in my article so if you

1651  
00:57:55,589 --> 00:57:52,839  
want to re if you want to watch the

1652  
00:57:57,990 --> 00:57:55,599  
documentary do what i did rather than

1653  
00:57:59,670 --> 00:57:58,000  
watching it being depressed

1654  
00:58:01,589 --> 00:57:59,680  
read my article and there's a but you

1655  
00:58:04,230 --> 00:58:01,599  
can even scroll down in my article the

1656  
00:58:06,950 --> 00:58:04,240  
sentence starts like luckily for debrief

1657  
00:58:09,270 --> 00:58:06,960  
readers i have included that information

1658  
00:58:11,910 --> 00:58:09,280  
from the press kit right here and then

1659  
00:58:14,470 --> 00:58:11,920  
in there is how many people we talked to

1660  
00:58:16,870 --> 00:58:14,480  
the fact that none of them have changed

1661  
00:58:18,950 --> 00:58:16,880  
their story he spoke to over 40 of the

1662  
00:58:21,030 --> 00:58:18,960  
60 students the fact that all of them

1663  
00:58:24,309 --> 00:58:21,040

still have the same recollections and

1664

00:58:26,150 --> 00:58:24,319

literally the only person he met who

1665

00:58:29,190 --> 00:58:26,160

changed their story from the beginning

1666

00:58:32,230 --> 00:58:29,200

to the end was one teacher who back in

1667

00:58:33,829 --> 00:58:32,240

1994 didn't believe it happened and now

1668

00:58:35,990 --> 00:58:33,839

believes it did

1669

00:58:37,829 --> 00:58:36,000

and now says he believes the students it

1670

00:58:39,430 --> 00:58:37,839

was literally and there's always here

1671

00:58:41,190 --> 00:58:39,440

the number of hours he put in the number

1672

00:58:43,510 --> 00:58:41,200

of interviews so i would have loved a

1673

00:58:45,750 --> 00:58:43,520

three-minute opening where he said hey i

1674

00:58:48,150 --> 00:58:45,760

talked to these people i did this

1675

00:58:49,829 --> 00:58:48,160

let us understand that the leg work and

1676  
00:58:51,750 --> 00:58:49,839  
and the actual mechanics of what went

1677  
00:58:53,670 --> 00:58:51,760  
into this research and then when you

1678  
00:58:55,589 --> 00:58:53,680  
watch the documentary so then i watched

1679  
00:58:57,190 --> 00:58:55,599  
it again

1680  
00:58:58,549 --> 00:58:57,200  
and when i watched the second time with

1681  
00:59:00,950 --> 00:58:58,559  
that information in my head i was

1682  
00:59:03,030 --> 00:59:00,960  
completely satisfied it was like

1683  
00:59:06,390 --> 00:59:03,040  
oh this all

1684  
00:59:08,309 --> 00:59:06,400  
has context now so uh not too much of a

1685  
00:59:09,670 --> 00:59:08,319  
self plug here but if you're thinking

1686  
00:59:11,910 --> 00:59:09,680  
about renting it or you're thinking

1687  
00:59:15,190 --> 00:59:11,920  
about watching it go to the debrief

1688  
00:59:17,030 --> 00:59:15,200

click on my article it's a real docu

1689

00:59:18,789 --> 00:59:17,040

phenomenon a

1690

00:59:19,750 --> 00:59:18,799

journey worth taking or something is the

1691

00:59:22,390 --> 00:59:19,760

headline

1692

00:59:23,910 --> 00:59:22,400

and uh yes down there in the article

1693

00:59:25,829 --> 00:59:23,920

along with a lot of cool photos and

1694

00:59:27,910 --> 00:59:25,839

stuff and drawings from the kids and

1695

00:59:29,510 --> 00:59:27,920

stuff i put in there but i gave that

1696

00:59:31,990 --> 00:59:29,520

piece information i felt that was the

1697

00:59:33,430 --> 00:59:32,000

only thing that was missing and once you

1698

00:59:35,030 --> 00:59:33,440

add that in

1699

00:59:36,870 --> 00:59:35,040

all of a sudden you're oriented it's

1700

00:59:37,990 --> 00:59:36,880

like it's like eating in a restaurant

1701  
00:59:40,390 --> 00:59:38,000  
and all of a sudden somebody hands you

1702  
00:59:41,750 --> 00:59:40,400  
the menu you go okay now i know where i

1703  
00:59:44,549 --> 00:59:41,760  
know what all these things on my plate

1704  
00:59:46,870 --> 00:59:44,559  
are i know where everything came from so

1705  
00:59:49,109 --> 00:59:46,880  
once that was in my head i was like wow

1706  
00:59:50,470 --> 00:59:49,119  
what an impressive piece of film this

1707  
00:59:51,910 --> 00:59:50,480  
guy's made here do you know what it

1708  
00:59:53,510 --> 00:59:51,920  
sounds like chris for you as you know

1709  
00:59:54,950 --> 00:59:53,520  
you get those artists that do a drawing

1710  
00:59:56,950 --> 00:59:54,960  
and it makes no sense when you see them

1711  
00:59:58,470 --> 00:59:56,960  
doing it and they speed paint and then

1712  
00:59:59,829 --> 00:59:58,480  
at the end you're like there's something

1713  
01:00:01,190 --> 00:59:59,839

there but i can't quite make it out and

1714

01:00:03,589 --> 01:00:01,200

then they turn it upside down and it's

1715

01:00:05,270 --> 01:00:03,599

john lennon yeah right yeah

1716

01:00:07,829 --> 01:00:05,280

right that's that's exactly what's

1717

01:00:09,430 --> 01:00:07,839

happened with you and that is exactly i

1718

01:00:10,789 --> 01:00:09,440

watched it that first time and i was

1719

01:00:12,789 --> 01:00:10,799

walking around the house and at this

1720

01:00:14,950 --> 01:00:12,799

point chrissy newton was talking to me

1721

01:00:17,109 --> 01:00:14,960

about the debrief having the exclusive

1722

01:00:19,829 --> 01:00:17,119

to write the review before the movie

1723

01:00:21,589 --> 01:00:19,839

came out and i was telling her i

1724

01:00:24,470 --> 01:00:21,599

don't know that i'm going to write that

1725

01:00:26,470 --> 01:00:24,480

that positive and glowing of a review i

1726

01:00:28,789 --> 01:00:26,480

am the science editor at the debrief i'm

1727

01:00:31,109 --> 01:00:28,799

not the ufo editor that's mike it covers

1728

01:00:33,430 --> 01:00:31,119

that so and tim gets into the defense

1729

01:00:35,349 --> 01:00:33,440

side of it so uh but once i had that

1730

01:00:36,710 --> 01:00:35,359

information and she got me and i read

1731

01:00:39,349 --> 01:00:36,720

everything i said

1732

01:00:40,789 --> 01:00:39,359

this interview he has a q a in the press

1733

01:00:42,549 --> 01:00:40,799

kit he has an interview i've told her we

1734

01:00:44,309 --> 01:00:42,559

should put it all up on the website so i

1735

01:00:45,589 --> 01:00:44,319

think she's working on that so we can

1736

01:00:47,430 --> 01:00:45,599

put all his behind-the-scenes

1737

01:00:51,109 --> 01:00:47,440

information up there and i know he's

1738

01:00:52,630 --> 01:00:51,119

working on another uh like a dvd style

1739

01:00:55,349 --> 01:00:52,640

you know a streaming release that has a

1740

01:00:57,349 --> 01:00:55,359

bunch of extras to it so yeah i think he

1741

01:00:59,670 --> 01:00:57,359

said there was a director's cut coming

1742

01:01:02,309 --> 01:00:59,680

that he was yeah he's got like 190 hours

1743

01:01:03,910 --> 01:01:02,319

of footage he hasn't used i i'd be happy

1744

01:01:05,829 --> 01:01:03,920

to pay and watch every single second of

1745

01:01:08,069 --> 01:01:05,839

that right that's what i said i could

1746

01:01:09,829 --> 01:01:08,079

just put it up on a website somewhere

1747

01:01:11,109 --> 01:01:09,839

i'll watch every single hour of

1748

01:01:12,630 --> 01:01:11,119

interview you have with every one of

1749

01:01:14,390 --> 01:01:12,640

these kids because somewhere there is

1750

01:01:15,750 --> 01:01:14,400

some gold that you missed

1751

01:01:17,030 --> 01:01:15,760

well you've got the article and then

1752

01:01:18,549 --> 01:01:17,040

you've got the interview that i've done

1753

01:01:20,470 --> 01:01:18,559

next week as well and if that still

1754

01:01:22,309 --> 01:01:20,480

doesn't convince you then nothing will

1755

01:01:24,390 --> 01:01:22,319

but i recommend people part with their

1756

01:01:26,150 --> 01:01:24,400

money it's worth a lot of effort did go

1757

01:01:27,990 --> 01:01:26,160

into it like you say chris as well he it

1758

01:01:29,829 --> 01:01:28,000

was 15 years in the making and that's

1759

01:01:31,510 --> 01:01:29,839

not an exaggeration when you listen to

1760

01:01:32,950 --> 01:01:31,520

randall talk about it as well but

1761

01:01:34,789 --> 01:01:32,960

gentlemen thank you very much for

1762

01:01:36,309 --> 01:01:34,799

joining us thank you to everyone who

1763

01:01:38,390 --> 01:01:36,319

tuned into the live the numbers have

1764

01:01:40,069 --> 01:01:38,400

just kept going up so thank you very

1765

01:01:41,910 --> 01:01:40,079

much we do we do always say we're going

1766

01:01:43,589 --> 01:01:41,920

to do more of these and we'll try we'll

1767

01:01:45,750 --> 01:01:43,599

try and at least do another one in june

1768

01:01:47,670 --> 01:01:45,760

at some point uh go and check out dan's

1769

01:01:50,470 --> 01:01:47,680

interview with dr michelle fournier on

1770

01:01:52,630 --> 01:01:50,480

his new pod coloring outside the lines

1771

01:01:55,270 --> 01:01:52,640

uh that was on dan whale song whale

1772

01:01:57,589 --> 01:01:55,280

language and basically you know you you

1773

01:01:59,910 --> 01:01:57,599

tell them you tell them that yeah i mean

1774

01:02:03,109 --> 01:01:59,920

dr michelle foney is a marine ecologist

1775

01:02:04,789 --> 01:02:03,119

and she's studying uh how species

1776

01:02:07,029 --> 01:02:04,799

communicate via acoustics basically

1777

01:02:08,789 --> 01:02:07,039

decoding whale song and whale language

1778

01:02:10,390 --> 01:02:08,799

really interesting interview and and

1779

01:02:12,549 --> 01:02:10,400

really speaks to the complexity of the

1780

01:02:14,549 --> 01:02:12,559

world we have and how life as we know it

1781

01:02:15,990 --> 01:02:14,559

as a phrase really is is a bit limited

1782

01:02:17,990 --> 01:02:16,000

and it's kind of being broadened out the

1783

01:02:19,109 --> 01:02:18,000

more we learn about the universe so i

1784

01:02:20,630 --> 01:02:19,119

thought it was really fascinating

1785

01:02:21,990 --> 01:02:20,640

interview and i'd recommend anyone go

1786

01:02:23,190 --> 01:02:22,000

watch that because she is one of the

1787

01:02:24,950 --> 01:02:23,200

people the government are going to send

1788

01:02:27,190 --> 01:02:24,960

helicopters to when they need to cut the

1789

01:02:28,870 --> 01:02:27,200

alien languages

1790

01:02:30,470 --> 01:02:28,880

uh gentlemen thank you both your time
