THE BREAKDOWN

1
00:00:00,000 --> 00:00:12,310

[Music]

2
00:00:17,029 --> 00:00:14,470

it was basically a cube with inside of

3
00:00:21,980 --> 00:00:17,039

sphere where the points of the cube

4
00:00:21,990 --> 00:00:35,190

[Music]

5
00:00:39,030 --> 00:00:36,790

so this isn't anything that just is

6
00:00:40,580 --> 00:00:39,040

limited to the united states it's a

7
00:00:46,310 --> 00:00:40,590

worldwide phenomenon

8
00:00:50,549 --> 00:00:48,630

hi everyone and welcome back to that ufo

9
00:00:53,990 --> 00:00:50,559

podcast recording a breakdown as we

10
00:00:56,549 --> 00:00:54,000

enter the month of june 2022. dan joins

11
00:00:58,069 --> 00:00:56,559

me of course dan how are we i'm uh great

12
00:00:59,830 --> 00:00:58,079

thank you very much it's a little human

13
00:01:01,990 --> 00:00:59,840

in the uk today so we're looking a

14

00:01:04,310 --> 00:01:02,000

little shiny on camera but you know it's

15

00:01:06,789 --> 00:01:04,320

good i am and i am in the hot box as i

16

00:01:08,230 --> 00:01:06,799

said i i barely can breathe so if i pass

17

00:01:11,030 --> 00:01:08,240

out during this recording then i'll just

18

00:01:13,910 --> 00:01:11,040

take over and go on from there

19

00:01:16,550 --> 00:01:13,920

but speaking of hot off the press dan uh

20

00:01:18,149 --> 00:01:16,560

we have a right it's not a book i was

21

00:01:20,710 --> 00:01:18,159

going to say right off the bat it's not

22

00:01:22,230 --> 00:01:20,720

a book um you may have seen us post on

23

00:01:24,230 --> 00:01:22,240

social media yesterday we've been quite

24

00:01:25,749 --> 00:01:24,240

quiet about it because we don't show

25

00:01:27,830 --> 00:01:25,759

about stuff or i'll talk about it until

26

00:01:29,109 --> 00:01:27,840

these things are done i mean some of the

27

00:01:31,030 --> 00:01:29,119

things i could have mentioned this year

28

00:01:33,429 --> 00:01:31,040

dan that never happened you know yeah

29

00:01:35,109 --> 00:01:33,439

absolutely sad face tear down massive

30

00:01:36,950 --> 00:01:35,119

yes keep that one

31

00:01:38,870 --> 00:01:36,960

to guess about yeah you never know but

32

00:01:41,590 --> 00:01:38,880

anyway um what is happening is on the

33

00:01:43,670 --> 00:01:41,600

first of july you'll be able to buy from

34

00:01:45,190 --> 00:01:43,680

all good book sellers and some of the

35

00:01:46,630 --> 00:01:45,200

not so good ones and just general

36

00:01:49,030 --> 00:01:46,640

booksellers i don't know

37

00:01:51,670 --> 00:01:49,040

the skies above a guide to ufo sightings

38

00:01:53,350 --> 00:01:51,680

in the uk now like i said it's not a

39

00:01:55,190 --> 00:01:53,360

book some people got in touch with them

40

00:01:56,950 --> 00:01:55,200

are like oh the amazon listing says two

41

00:01:59,830 --> 00:01:56,960

pages you might want to correct that

42

00:02:01,510 --> 00:01:59,840

that is correct it is two pages i always

43

00:02:03,510 --> 00:02:01,520

joked that i would never write a book

44

00:02:05,429 --> 00:02:03,520

done and i might write a pamphlet or a

45

00:02:07,910 --> 00:02:05,439

leaflet sometime and essentially that's

46

00:02:10,309 --> 00:02:07,920

what we've done um we've been working on

47

00:02:12,790 --> 00:02:10,319

this what for five months six months

48

00:02:14,869 --> 00:02:12,800

yeah well now local publisher here

49

00:02:16,869 --> 00:02:14,879

blester a small independent operation

50

00:02:19,589 --> 00:02:16,879

very independent um

51
00:02:21,750 --> 00:02:19,599
we uh he reached out to us and asked if

52
00:02:24,070 --> 00:02:21,760
we would collaborate on a basically a

53
00:02:25,750 --> 00:02:24,080
sightings guide for the uk and what

54
00:02:27,110 --> 00:02:25,760
you've got if you order this which so

55
00:02:29,030 --> 00:02:27,120
many of you have already which is

56
00:02:31,110 --> 00:02:29,040
amazing for some reason it's number two

57
00:02:32,949 --> 00:02:31,120
in the ufo charts on amazon and it's

58
00:02:34,949 --> 00:02:32,959
awesome thank you so much everyone yeah

59
00:02:36,869 --> 00:02:34,959
that's

60
00:02:38,630 --> 00:02:36,879
the ridiculous a map so it's a bit

61
00:02:41,270 --> 00:02:38,640
interactive about niche a bit quirky

62
00:02:42,309 --> 00:02:41,280
which i think suits us as well um

63
00:02:43,670 --> 00:02:42,319

because

64

00:02:44,869 --> 00:02:43,680

no chance for writing a book and putting

65

00:02:46,550 --> 00:02:44,879

all that effort and we don't have time

66

00:02:48,869 --> 00:02:46,560

for that at the minute but what we've

67

00:02:51,190 --> 00:02:48,879

done was research around 40 just over 40

68

00:02:54,229 --> 00:02:51,200

cases that have happened in the uk some

69

00:02:56,229 --> 00:02:54,239

of them going back to the 1200s and more

70

00:02:59,350 --> 00:02:56,239

of them much more recently in terms of

71

00:03:01,830 --> 00:02:59,360

the 1900s and into the 2000s and you'll

72

00:03:03,990 --> 00:03:01,840

have one side is a map of the uk

73

00:03:05,990 --> 00:03:04,000

beautifully illustrated and you'll

74

00:03:07,270 --> 00:03:06,000

you'll see different sites in the uk

75

00:03:10,470 --> 00:03:07,280

where various different events have

76
00:03:12,630 --> 00:03:10,480
happened rental shim calvin myself my

77
00:03:14,390 --> 00:03:12,640
own sightings dan's own sighting and a

78
00:03:15,750 --> 00:03:14,400
few others obviously in there as well it

79
00:03:17,830 --> 00:03:15,760
looks really cool it's a lovely little

80
00:03:19,990 --> 00:03:17,840
gift to get for someone on the back of

81
00:03:22,390 --> 00:03:20,000
the map that folds out as it looks like

82
00:03:23,990 --> 00:03:22,400
an old newspaper article and it's split

83
00:03:26,070 --> 00:03:24,000
up into the paragraphs around one

84
00:03:28,070 --> 00:03:26,080
paragraph per case pretty much yeah and

85
00:03:29,750 --> 00:03:28,080
it tells you about an event the date the

86
00:03:31,190 --> 00:03:29,760
time and the very basics of what

87
00:03:32,710 --> 00:03:31,200
happened and where

88
00:03:33,670 --> 00:03:32,720

yeah exactly

89

00:03:35,350 --> 00:03:33,680

and together

90

00:03:37,430 --> 00:03:35,360

yeah that took a while to assemble there

91

00:03:39,190 --> 00:03:37,440

were so many different sources um you

92

00:03:41,110 --> 00:03:39,200

know we went to the police database and

93

00:03:42,550 --> 00:03:41,120

various other places like that and and

94

00:03:45,030 --> 00:03:42,560

we just found all the information we

95

00:03:46,869 --> 00:03:45,040

could and assembled it into a bunch of

96

00:03:48,229 --> 00:03:46,879

like you say 40 cases

97

00:03:49,990 --> 00:03:48,239

when you do see it don't don't be

98

00:03:53,750 --> 00:03:50,000

disappointed if your favorite case isn't

99

00:03:55,270 --> 00:03:53,760

in there um we haven't made this

100

00:03:56,390 --> 00:03:55,280

well we basically had to make some

101
00:03:58,470 --> 00:03:56,400
decisions of which were the most

102
00:04:02,070 --> 00:03:58,480
compelling ones and you'll find some

103
00:04:03,750 --> 00:04:02,080
cases mentioned in uh other cases as in

104
00:04:05,589 --> 00:04:03,760
you know this general area has a lot of

105
00:04:06,949 --> 00:04:05,599
high strangeness um especially when it

106
00:04:08,149 --> 00:04:06,959
comes to kind of places like west wales

107
00:04:09,830 --> 00:04:08,159
there's just a lot that you wouldn't be

108
00:04:12,070 --> 00:04:09,840
able to fit on the map so if your

109
00:04:14,309 --> 00:04:12,080
favorite isn't it don't panic uh it'll

110
00:04:16,550 --> 00:04:14,319
kind of be in the description somewhere

111
00:04:18,310 --> 00:04:16,560
the good news is my favorites and dan's

112
00:04:20,949 --> 00:04:18,320
favorites are in there because we wrote

113
00:04:22,950 --> 00:04:20,959

it so we got to pick those

114

00:04:24,469 --> 00:04:22,960

which was good um but no it was a lot a

115

00:04:27,189 --> 00:04:24,479

lot of fun to put together a lot of work

116

00:04:29,030 --> 00:04:27,199

at times uh like literally late nights

117

00:04:31,110 --> 00:04:29,040

and dan can you put this together and

118

00:04:32,469 --> 00:04:31,120

correcting things and going away and

119

00:04:35,270 --> 00:04:32,479

fixing little bits and pieces so

120

00:04:37,189 --> 00:04:35,280

hopefully you enjoy it um it's due out

121

00:04:39,430 --> 00:04:37,199

on the first of july so many of you have

122

00:04:41,749 --> 00:04:39,440

ordered already you can order from

123

00:04:43,510 --> 00:04:41,759

amazon of course um just for

124

00:04:45,110 --> 00:04:43,520

transparency to help out a small

125

00:04:46,870 --> 00:04:45,120

independent publisher it doesn't affect

126

00:04:48,710 --> 00:04:46,880

myself or dan we don't get any extra

127

00:04:50,629 --> 00:04:48,720

money or anything from it and we got

128

00:04:52,629 --> 00:04:50,639

like a small upfront fee and that was it

129

00:04:54,629 --> 00:04:52,639

which is lovely for us which was great

130

00:04:56,070 --> 00:04:54,639

and we don't make more money if you buy

131

00:04:59,749 --> 00:04:56,080

the books from any different sites

132

00:05:02,310 --> 00:04:59,759

however if you wait until monday the 6th

133

00:05:05,670 --> 00:05:02,320

of june and you can order direct from

134

00:05:07,189 --> 00:05:05,680

herb leicester dot com h e r b l e s t e

135

00:05:09,749 --> 00:05:07,199

r dot com the link will be in the

136

00:05:11,590 --> 00:05:09,759

description and they benefit more from

137

00:05:13,510 --> 00:05:11,600

that than big companies like amazon

138

00:05:15,110 --> 00:05:13,520

taking big chunks of the money and some

139

00:05:17,670 --> 00:05:15,120

of you have already reached out and

140

00:05:19,029 --> 00:05:17,680

asked how can i get a copy but not

141

00:05:20,950 --> 00:05:19,039

through amazon because they don't like

142

00:05:22,310 --> 00:05:20,960

the big company big corporate stuff and

143

00:05:24,230 --> 00:05:22,320

that's that's totally cool however you

144

00:05:25,830 --> 00:05:24,240

want to or can order it just getting a

145

00:05:27,350 --> 00:05:25,840

copy would be great and i think it's one

146

00:05:29,430 --> 00:05:27,360

of those things that's an ideal gift for

147

00:05:30,710 --> 00:05:29,440

someone with an interest in ufos yeah

148

00:05:32,629 --> 00:05:30,720

it's a little different isn't it like i

149

00:05:35,110 --> 00:05:32,639

can't wait to put it on my wall you know

150

00:05:36,550 --> 00:05:35,120

it's i always love kind of the the idea

151
00:05:37,990 --> 00:05:36,560
of you know something just starting as a

152
00:05:39,270 --> 00:05:38,000
seed and then becoming a material thing

153
00:05:41,270 --> 00:05:39,280
that you can kind of hang and be

154
00:05:43,189 --> 00:05:41,280
satisfied with so i i can't wait to pop

155
00:05:44,950 --> 00:05:43,199
it up on on my wall and i'll be ordering

156
00:05:47,110 --> 00:05:44,960
from her blaster hopefully we'll have

157
00:05:49,909 --> 00:05:47,120
some um for the upcoming convention

158
00:05:51,110 --> 00:05:49,919
appearances as well um so you know you

159
00:05:53,510 --> 00:05:51,120
can find us there and hopefully pick up

160
00:05:55,430 --> 00:05:53,520
a copy yeah dan will be turning up in

161
00:05:57,029 --> 00:05:55,440
his new ferrari that he buys with the

162
00:05:58,870 --> 00:05:57,039
proceeds from the book the mini

163
00:06:01,590 --> 00:05:58,880

children's ones the ones did i say

164

00:06:03,670 --> 00:06:01,600

ferrari mega mega bus sorry yeah mega

165

00:06:05,189 --> 00:06:03,680

bus yeah that's it um but yeah hopefully

166

00:06:06,550 --> 00:06:05,199

we'll have some copies for to selling

167

00:06:08,950 --> 00:06:06,560

black people to people who want to pick

168

00:06:11,189 --> 00:06:08,960

those up um but regardless however you

169

00:06:13,830 --> 00:06:11,199

can and pick it up and yeah it's cool it

170

00:06:15,749 --> 00:06:13,840

was a lot of fun to do and if this is a

171

00:06:17,590 --> 00:06:15,759

success which i think already looks like

172

00:06:20,070 --> 00:06:17,600

it is going well when it's only been

173

00:06:22,070 --> 00:06:20,080

kind of 12 to 16 hours that's been out

174

00:06:24,469 --> 00:06:22,080

um we will be looking to do one for

175

00:06:25,830 --> 00:06:24,479

other parts of the world potentially so

176

00:06:27,909 --> 00:06:25,840

the world yeah for those who like me

177

00:06:29,430 --> 00:06:27,919

seeing world there you go um so yeah

178

00:06:31,749 --> 00:06:29,440

thank you very much so the sky's above a

179

00:06:34,070 --> 00:06:31,759

guy to ufo sightings in the uk is

180

00:06:35,510 --> 00:06:34,080

available to pre-order from the first or

181

00:06:37,510 --> 00:06:35,520

for the first of july so you can get

182

00:06:38,950 --> 00:06:37,520

that now from any sites but we'll put

183

00:06:40,390 --> 00:06:38,960

descriptions and information and if

184

00:06:42,870 --> 00:06:40,400

you're not sure how to get it or where

185

00:06:45,670 --> 00:06:42,880

to get it from if you just search for

186

00:06:47,510 --> 00:06:45,680

the skies above and even magrillin or

187

00:06:49,430 --> 00:06:47,520

zetterstrom you know easy to spell names

188

00:06:51,189 --> 00:06:49,440

and google it comes up with a whole host

189

00:06:52,870 --> 00:06:51,199

of sites from around the world already

190

00:06:55,189 --> 00:06:52,880

so there you go so thank you very much

191

00:06:57,350 --> 00:06:55,199

but on to the breakdown and the the news

192

00:06:58,870 --> 00:06:57,360

we've got to cover so i wanted to start

193

00:07:01,749 --> 00:06:58,880

off with a little bit of fallout from

194

00:07:04,070 --> 00:07:01,759

the ufo symposium last week very quick

195

00:07:06,790 --> 00:07:04,080

apology for me and talking about the

196

00:07:08,550 --> 00:07:06,800

symposium i said that tim taylor was

197

00:07:10,629 --> 00:07:08,560

going to be there which people thought

198

00:07:13,110 --> 00:07:10,639

was the tim taylor diana pasulka wrote

199

00:07:15,589 --> 00:07:13,120

about and the bledsoes and stuff i meant

200

00:07:17,749 --> 00:07:15,599

travis taylor of skinwalker ranch fame

201
00:07:19,510 --> 00:07:17,759
apologies folks i got a few messages off

202
00:07:21,189 --> 00:07:19,520
that scene oh he's not listed do you

203
00:07:22,870 --> 00:07:21,199
know something we don't no no i just

204
00:07:23,670 --> 00:07:22,880
misspoke um

205
00:07:33,589 --> 00:07:23,680
the

206
00:07:34,790 --> 00:07:33,599
general consensus to be fair as from all

207
00:07:37,430 --> 00:07:34,800
of your listeners or most of your

208
00:07:39,670 --> 00:07:37,440
listeners and most folk online as it's

209
00:07:41,589 --> 00:07:39,680
more than likely birds

210
00:07:43,430 --> 00:07:41,599
my only issue with that and i said at

211
00:07:45,589 --> 00:07:43,440
the time total that's totally fair

212
00:07:47,830 --> 00:07:45,599
that's a very fair opinion to have is

213
00:07:51,589 --> 00:07:47,840

that surely those pilots would be able

214

00:07:53,990 --> 00:07:51,599

to identify three birds at a distance

215

00:07:56,469 --> 00:07:54,000

that they they would be at and you know

216

00:07:58,390 --> 00:07:56,479

but then again maybe the the only human

217

00:07:59,670 --> 00:07:58,400

you know given the subject we talk about

218

00:08:01,909 --> 00:07:59,680

that's ironic but you know that the

219

00:08:04,869 --> 00:08:01,919

pilots are only human and maybe they did

220

00:08:06,309 --> 00:08:04,879

misidentify it um

221

00:08:08,629 --> 00:08:06,319

there are some situations as well where

222

00:08:10,390 --> 00:08:08,639

like uh i think i mentioned a few a few

223

00:08:11,110 --> 00:08:10,400

episodes ago a friend sent me a picture

224

00:08:12,309 --> 00:08:11,120

of

225

00:08:13,350 --> 00:08:12,319

it looked like the plane was going

226

00:08:14,950 --> 00:08:13,360

straight up in the air and he was like

227

00:08:16,390 --> 00:08:14,960

what plane is this and

228

00:08:17,990 --> 00:08:16,400

it just took a while to explain that it

229

00:08:19,110 --> 00:08:18,000

was kind of an optical illusion and i

230

00:08:20,710 --> 00:08:19,120

know

231

00:08:22,950 --> 00:08:20,720

what that feels like when you figure out

232

00:08:24,309 --> 00:08:22,960

and you can't see how you previously saw

233

00:08:25,830 --> 00:08:24,319

it before once your brain kind of knows

234

00:08:28,869 --> 00:08:25,840

how it all fits together

235

00:08:30,230 --> 00:08:28,879

so yeah it could well be birds um could

236

00:08:32,790 --> 00:08:30,240

there be something prosaic it's really

237

00:08:34,389 --> 00:08:32,800

hard to tell without the the raw video i

238

00:08:35,750 --> 00:08:34,399

i would hope they'd be able to identify

239

00:08:37,350 --> 00:08:35,760

them but of course there are going to be

240

00:08:39,750 --> 00:08:37,360

situations where these things appear

241

00:08:41,909 --> 00:08:39,760

strangely um

242

00:08:43,589 --> 00:08:41,919

with regards to the flapping

243

00:08:46,389 --> 00:08:43,599

there there was a kind of comparison of

244

00:08:49,030 --> 00:08:46,399

the the targeting reticule on the

245

00:08:51,110 --> 00:08:49,040

on screen the was kind of once you

246

00:08:52,470 --> 00:08:51,120

applied the sharpening it looked like it

247

00:08:53,829 --> 00:08:52,480

was kind of flapping too which obviously

248

00:08:56,230 --> 00:08:53,839

we know that targeting thing doesn't

249

00:08:57,750 --> 00:08:56,240

have wings um so it just leads to a

250

00:09:00,550 --> 00:08:57,760

bunch more debate like i say we need the

251
00:09:01,430 --> 00:09:00,560
raw video but for me this wasn't really

252
00:09:04,070 --> 00:09:01,440
about

253
00:09:06,550 --> 00:09:04,080
it being an anomalous thing

254
00:09:08,389 --> 00:09:06,560
it was more the general fact and i think

255
00:09:11,190 --> 00:09:08,399
the debrief took this

256
00:09:12,389 --> 00:09:11,200
angle with it too that there is a lot of

257
00:09:13,910 --> 00:09:12,399
footage

258
00:09:15,750 --> 00:09:13,920
internally in the us government in their

259
00:09:17,509 --> 00:09:15,760
various departments that they're having

260
00:09:19,990 --> 00:09:17,519
trouble explaining and there needs to be

261
00:09:21,910 --> 00:09:20,000
a lot more cooperation and liaising with

262
00:09:23,590 --> 00:09:21,920
each other to figure this stuff out i

263
00:09:24,630 --> 00:09:23,600

thought that was the overall point of it

264

00:09:26,389 --> 00:09:24,640

you know

265

00:09:28,790 --> 00:09:26,399

yeah the it's department of homeland

266

00:09:31,190 --> 00:09:28,800

security and it was the border patrol

267

00:09:32,470 --> 00:09:31,200

filming this particular piece as as some

268

00:09:34,790 --> 00:09:32,480

of the other videos that came out like

269

00:09:37,670 --> 00:09:34,800

rubber duck and such were from as well

270

00:09:39,030 --> 00:09:37,680

like generally drones filming drug runs

271

00:09:41,509 --> 00:09:39,040

and things like that that have caught

272

00:09:43,750 --> 00:09:41,519

things on camera and i don't feel the

273

00:09:47,110 --> 00:09:43,760

the debrief did hype this i think people

274

00:09:48,470 --> 00:09:47,120

confuse announcing with hyping um i'd be

275

00:09:50,150 --> 00:09:48,480

the first one to say about you know

276

00:09:52,790 --> 00:09:50,160

people hyping stuff but i i thought the

277

00:09:54,470 --> 00:09:52,800

debrief with if people read the article

278

00:09:57,030 --> 00:09:54,480

then they got the context like you say

279

00:09:59,030 --> 00:09:57,040

dan of why this was important and the

280

00:10:02,150 --> 00:09:59,040

the air force officer air force

281

00:10:03,990 --> 00:10:02,160

personnel that was on record anonymously

282

00:10:07,350 --> 00:10:04,000

and speaking about the incidents and

283

00:10:09,350 --> 00:10:07,360

incidents like this and other footage so

284

00:10:11,430 --> 00:10:09,360

for me it goes down as a bit of a hmm

285

00:10:13,509 --> 00:10:11,440

it's just one taking up file away in the

286

00:10:16,150 --> 00:10:13,519

folder more than likely something

287

00:10:17,670 --> 00:10:16,160

potentially project however

288

00:10:19,750 --> 00:10:17,680

there's still some questions around that

289

00:10:21,910 --> 00:10:19,760

no one can say for 100

290

00:10:23,990 --> 00:10:21,920

either way that that is a bird or not or

291

00:10:25,829 --> 00:10:24,000

three birds because yeah we don't have

292

00:10:27,670 --> 00:10:25,839

that information but it's perfectly fair

293

00:10:29,750 --> 00:10:27,680

to have that have that opinion i'm not

294

00:10:31,350 --> 00:10:29,760

claiming it's alien spacecraft or

295

00:10:33,350 --> 00:10:31,360

anything and such but

296

00:10:35,750 --> 00:10:33,360

it's very hard to identify what it is

297

00:10:37,190 --> 00:10:35,760

dave falch who has been on the podcast

298

00:10:39,509 --> 00:10:37,200

some time ago

299

00:10:41,990 --> 00:10:39,519

was part of that ufo symposium and he

300

00:10:43,750 --> 00:10:42,000

was presenting or his analysis was used

301
00:10:46,310 --> 00:10:43,760
to to talk about the video and other

302
00:10:48,710 --> 00:10:46,320
videos and he did go through and you can

303
00:10:50,069 --> 00:10:48,720
check out dave fulch's channel um again

304
00:10:51,190 --> 00:10:50,079
i'll put the link in description dan can

305
00:10:52,790 --> 00:10:51,200
you make a note of that for us so i

306
00:10:54,550 --> 00:10:52,800
don't forget and get into trouble off

307
00:10:56,069 --> 00:10:54,560
people um

308
00:10:57,509 --> 00:10:56,079
he he kind of went through it quite

309
00:10:59,110 --> 00:10:57,519
quickly and had said himself why it

310
00:11:01,190 --> 00:10:59,120
wasn't birds

311
00:11:03,030 --> 00:11:01,200
and why it wasn't bugs and certain other

312
00:11:03,750 --> 00:11:03,040
things and he he was quite happy that it

313
00:11:06,310 --> 00:11:03,760

was

314

00:11:08,150 --> 00:11:06,320

unexplainable for now so

315

00:11:09,110 --> 00:11:08,160

again they're someone who who genuinely

316

00:11:12,069 --> 00:11:09,120

knows what they're talking about in

317

00:11:15,350 --> 00:11:12,079

terms of analysis of a video so yeah um

318

00:11:18,630 --> 00:11:15,360

click one down in 10 words or less

319

00:11:20,710 --> 00:11:18,640

uh did this video help or hinder

320

00:11:22,870 --> 00:11:20,720

i think the presentation by some

321

00:11:24,470 --> 00:11:22,880

involved hindered uh no one from the

322

00:11:26,389 --> 00:11:24,480

debrief like you said that's more than

323

00:11:28,470 --> 00:11:26,399

10 i know we won't attend these like

324

00:11:30,790 --> 00:11:28,480

sidebars but i was like i was doing that

325

00:11:32,550 --> 00:11:30,800

as you spoke yeah really just yeah more

326

00:11:34,870 --> 00:11:32,560

than the fingers yeah

327

00:11:37,829 --> 00:11:34,880

i think this video

328

00:11:39,190 --> 00:11:37,839

hindered a little bit

329

00:11:40,230 --> 00:11:39,200

sorry andy

330

00:11:42,310 --> 00:11:40,240

how's that

331

00:11:43,990 --> 00:11:42,320

that's fine i'll take that so yeah no i

332

00:11:46,150 --> 00:11:44,000

i agree that

333

00:11:48,790 --> 00:11:46,160

people aren't going to leak really good

334

00:11:50,470 --> 00:11:48,800

genuine video footage to to normal

335

00:11:52,870 --> 00:11:50,480

members of the public

336

00:11:54,389 --> 00:11:52,880

like this to to to send out you know

337

00:11:56,310 --> 00:11:54,399

chris marlon's not getting a video and

338

00:11:57,829 --> 00:11:56,320

giving it to andy and dan from that ufo

339

00:12:00,310 --> 00:11:57,839

podcast to send out to the general

340

00:12:01,910 --> 00:12:00,320

public if he wants to he can but i just

341

00:12:05,829 --> 00:12:01,920

feel there's better ways to do it you

342

00:12:08,470 --> 00:12:05,839

know like i i 100 appreciate that um so

343

00:12:09,990 --> 00:12:08,480

yeah so for me

344

00:12:11,350 --> 00:12:10,000

it's one of those that i will always

345

00:12:13,430 --> 00:12:11,360

welcome anyone saying they've got

346

00:12:15,350 --> 00:12:13,440

footage to drop but i will take it with

347

00:12:17,750 --> 00:12:15,360

a massive pinch of salt i'll have a look

348

00:12:20,389 --> 00:12:17,760

at it think about it look at it again

349

00:12:21,910 --> 00:12:20,399

and then make up my mind but almost

350

00:12:23,190 --> 00:12:21,920

always it's likely to fall into that

351

00:12:26,389 --> 00:12:23,200

category of

352

00:12:28,470 --> 00:12:26,399

ah could be anything so yeah yeah

353

00:12:30,870 --> 00:12:28,480

we're looking at like this big pile of

354

00:12:32,150 --> 00:12:30,880

stuff now throughout history i i think

355

00:12:33,590 --> 00:12:32,160

even if they proved this video was

356

00:12:34,790 --> 00:12:33,600

something anomalous

357

00:12:36,790 --> 00:12:34,800

it would

358

00:12:38,150 --> 00:12:36,800

well i mean that would help but

359

00:12:39,350 --> 00:12:38,160

there's no one video that's going to

360

00:12:40,870 --> 00:12:39,360

shift this you know when we're

361

00:12:42,949 --> 00:12:40,880

explaining this to officials and stuff

362

00:12:45,509 --> 00:12:42,959

like that one video isn't going to do it

363

00:12:47,750 --> 00:12:45,519

at least from what we've seen so i i

364

00:12:49,590 --> 00:12:47,760

don't think that being released publicly

365

00:12:52,629 --> 00:12:49,600

is is going to help too much you know

366

00:12:54,389 --> 00:12:52,639

one 23-minute video mate but anyway

367

00:12:55,990 --> 00:12:54,399

that's that's one event that's happened

368

00:12:58,310 --> 00:12:56,000

and one that is happening as we speak

369

00:13:00,470 --> 00:12:58,320

this weekend uh between the third and

370

00:13:03,430 --> 00:13:00,480

fifth of june dan is correctly noted

371

00:13:05,590 --> 00:13:03,440

down is the scu sponsored event

372

00:13:08,790 --> 00:13:05,600

anomalous aerospace phenomena conference

373

00:13:10,550 --> 00:13:08,800

aapc 2022 i spoke to rich hoffman about

374

00:13:13,509 --> 00:13:10,560

this a few weeks ago on the podcast as

375

00:13:15,750 --> 00:13:13,519

well um keynote speakers daniel noted

376

00:13:16,949 --> 00:13:15,760

down ryan graves is discussing how the

377

00:13:19,430 --> 00:13:16,959

u.s government might increase to

378

00:13:20,629 --> 00:13:19,440

investigate investigatory power behind

379

00:13:22,629 --> 00:13:20,639

uap

380

00:13:24,949 --> 00:13:22,639

and there's a whole host of interesting

381

00:13:27,110 --> 00:13:24,959

names out there already as well i know

382

00:13:29,829 --> 00:13:27,120

gary verrhas was travelling eric davis

383

00:13:31,269 --> 00:13:29,839

was traveling i think a lot of the

384

00:13:33,590 --> 00:13:31,279

names and ufos are putting their

385

00:13:34,550 --> 00:13:33,600

pictures and faces up on on twitter and

386

00:13:36,230 --> 00:13:34,560

meeting greets and all that kind of

387

00:13:38,949 --> 00:13:36,240

stuff looks a lot of fun

388

00:13:40,790 --> 00:13:38,959

for people who are there as well so

389

00:13:42,949 --> 00:13:40,800

these events are happening sort of more

390

00:13:45,509 --> 00:13:42,959

and more and what's really interesting

391

00:13:47,750 --> 00:13:45,519

for me regarding these events is i think

392

00:13:51,030 --> 00:13:47,760

more and more we're seeing

393

00:13:55,269 --> 00:13:53,750

ancient aliens types events

394

00:13:56,949 --> 00:13:55,279

like awakening in blackpool that we're

395

00:13:58,710 --> 00:13:56,959

going to attend we're not part of it you

396

00:13:59,750 --> 00:13:58,720

know we're just we're there

397

00:14:01,509 --> 00:13:59,760

and i'm going to be speaking to steve

398

00:14:03,269 --> 00:14:01,519

mehra about that on monday and that type

399

00:14:05,189 --> 00:14:03,279

of event but then you've got a very

400

00:14:07,990 --> 00:14:05,199

different type of event that happens

401
00:14:08,790 --> 00:14:08,000
almost totally separately like scus

402
00:14:11,189 --> 00:14:08,800
or

403
00:14:13,990 --> 00:14:11,199
the events in san marino

404
00:14:16,949 --> 00:14:14,000
um the galileo project has one in august

405
00:14:19,750 --> 00:14:16,959
its first annual hopefully um event as

406
00:14:20,870 --> 00:14:19,760
well where you have a real focus on the

407
00:14:23,670 --> 00:14:20,880
science

408
00:14:24,710 --> 00:14:23,680
and the data and that's the presentation

409
00:14:27,030 --> 00:14:24,720
it's not

410
00:14:29,910 --> 00:14:27,040
necessarily people talking about their

411
00:14:31,110 --> 00:14:29,920
their latest books or you know any maps

412
00:14:33,990 --> 00:14:31,120
they've got for sale that are number two

413
00:14:35,829 --> 00:14:34,000

in the amazon charts in the uk joe

414

00:14:37,189 --> 00:14:35,839

but do you know it's that real split

415

00:14:38,790 --> 00:14:37,199

between we've got people really looking

416

00:14:41,110 --> 00:14:38,800

at this now and you can attend events

417

00:14:43,590 --> 00:14:41,120

and watch events and buy tickets to hear

418

00:14:45,350 --> 00:14:43,600

data and real scientific discussion or

419

00:14:47,590 --> 00:14:45,360

you can and it's totally fine you can

420

00:14:48,310 --> 00:14:47,600

look at that speculative side and you

421

00:14:50,389 --> 00:14:48,320

know

422

00:14:51,910 --> 00:14:50,399

what is the black knight satellite and

423

00:14:54,069 --> 00:14:51,920

are palladian

424

00:14:56,790 --> 00:14:54,079

beings interfering with our genetic code

425

00:14:57,990 --> 00:14:56,800

for the last 5 000 years and starseeds

426
00:14:59,829 --> 00:14:58,000
and all that kind of stuff if that's

427
00:15:01,750 --> 00:14:59,839
what you like so i think it's a great

428
00:15:03,189 --> 00:15:01,760
time in terms of what people can reach

429
00:15:03,990 --> 00:15:03,199
out and see if you're if you're into

430
00:15:06,389 --> 00:15:04,000
that

431
00:15:08,389 --> 00:15:06,399
real factual data driven side of things

432
00:15:10,790 --> 00:15:08,399
it looks like it's a real golden age

433
00:15:12,790 --> 00:15:10,800
coming up for that because we've got

434
00:15:15,030 --> 00:15:12,800
mainstream science and scientists really

435
00:15:16,470 --> 00:15:15,040
now on board with the subject which for

436
00:15:18,150 --> 00:15:16,480
me can only be a good thing and give

437
00:15:19,910 --> 00:15:18,160
people give people choice and options as

438
00:15:21,030 --> 00:15:19,920

well yeah 100

439

00:15:22,710 --> 00:15:21,040

we're going to be seeing a lot more

440

00:15:24,870 --> 00:15:22,720

public efforts kind of coming out over

441

00:15:28,069 --> 00:15:24,880

the next few years uh ryan graves is

442

00:15:29,910 --> 00:15:28,079

heading up um uh a kind of

443

00:15:32,790 --> 00:15:29,920

what was the event called the the

444

00:15:33,910 --> 00:15:32,800

american i think aeronautics aviation

445

00:15:35,509 --> 00:15:33,920

association it was something like that

446

00:15:37,350 --> 00:15:35,519

there were a lot of a's i remember um

447

00:15:38,629 --> 00:15:37,360

but basically ryan graves is one of the

448

00:15:40,629 --> 00:15:38,639

pilots that encountered these things

449

00:15:42,790 --> 00:15:40,639

he's going to be there presenting all of

450

00:15:44,710 --> 00:15:42,800

his data and how we can kind of

451

00:15:46,389 --> 00:15:44,720

shore up air safety because that's the

452

00:15:48,150 --> 00:15:46,399

angle that we're talking about this from

453

00:15:49,829 --> 00:15:48,160

uh and and like you said we're going to

454

00:15:51,430 --> 00:15:49,839

start seeing a lot of

455

00:15:54,230 --> 00:15:51,440

a lot of faces talking about this

456

00:15:56,870 --> 00:15:54,240

seriously after the hearings ryan was

457

00:15:58,310 --> 00:15:56,880

mobbed in the halls of congress by biola

458

00:15:59,910 --> 00:15:58,320

press so

459

00:16:01,990 --> 00:15:59,920

if you're looking at this subject in a

460

00:16:03,590 --> 00:16:02,000

serious manner i i'd suggest following

461

00:16:05,910 --> 00:16:03,600

people like ryan following events like

462

00:16:06,949 --> 00:16:05,920

this and just seeing where the data

463

00:16:09,350 --> 00:16:06,959

takes us

464

00:16:10,870 --> 00:16:09,360

here's a question dan right and if this

465

00:16:12,389 --> 00:16:10,880

has just came to me and i'd be

466

00:16:14,150 --> 00:16:12,399

interested to hear what listeners think

467

00:16:15,910 --> 00:16:14,160

on this one as well so

468

00:16:17,590 --> 00:16:15,920

reach out via any of the means social

469

00:16:18,949 --> 00:16:17,600

media email whatever if you want to give

470

00:16:20,550 --> 00:16:18,959

us your thoughts on this i'd be i'd be

471

00:16:22,949 --> 00:16:20,560

intrigued

472

00:16:26,230 --> 00:16:22,959

we saw recently that

473

00:16:27,749 --> 00:16:26,240

uapx a data-driven organization

474

00:16:30,470 --> 00:16:27,759

looking to do the kind of scientific

475

00:16:32,389 --> 00:16:30,480

groundwork or on uap

476

00:16:35,430 --> 00:16:32,399

joined up with

477

00:16:38,069 --> 00:16:35,440

caroline corey and her presente her

478

00:16:40,470 --> 00:16:38,079

presentation and her style of discussing

479

00:16:43,110 --> 00:16:40,480

the ufo subject and there seemed to be a

480

00:16:44,790 --> 00:16:43,120

real clash of personalities and culture

481

00:16:47,110 --> 00:16:44,800

and just generally the subject kind of

482

00:16:48,710 --> 00:16:47,120

came to heads within one documentary and

483

00:16:50,310 --> 00:16:48,720

i think we saw that in the end result

484

00:16:53,030 --> 00:16:50,320

how it was two different things that

485

00:16:54,550 --> 00:16:53,040

weren't quite working together

486

00:16:56,949 --> 00:16:54,560

looking at the different types of

487

00:16:58,870 --> 00:16:56,959

conferences if you look at like and

488

00:17:00,230 --> 00:16:58,880

again it's one that's there just now so

489

00:17:01,749 --> 00:17:00,240

you get any kind of disclosure

490

00:17:04,870 --> 00:17:01,759

conferences that jimmy church and cole

491

00:17:06,470 --> 00:17:04,880

will head up you know in the us um

492

00:17:08,069 --> 00:17:06,480

or awakening that's happening in

493

00:17:09,189 --> 00:17:08,079

blackpool with the ancient aliens crew

494

00:17:10,630 --> 00:17:09,199

that are a massive and that's not

495

00:17:11,909 --> 00:17:10,640

derogatory as general it's an ancient

496

00:17:13,669 --> 00:17:11,919

aliens based

497

00:17:14,549 --> 00:17:13,679

based expo folks if you haven't seen

498

00:17:16,870 --> 00:17:14,559

this

499

00:17:19,829 --> 00:17:16,880

do those organizations and expose have a

500

00:17:21,350 --> 00:17:19,839

place together would the scu type event

501

00:17:23,909 --> 00:17:21,360

you know the aapc

502

00:17:26,150 --> 00:17:23,919

have a place in with giorgio sucalis and

503

00:17:29,350 --> 00:17:26,160

eric von daniken and co or do they have

504

00:17:29,360 --> 00:17:35,190

for me i wish

505

00:17:38,630 --> 00:17:36,950

the one events i think over time are

506

00:17:41,029 --> 00:17:38,640

going to start steamrolling the other

507

00:17:43,110 --> 00:17:41,039

ones as we get more data there will be

508

00:17:44,950 --> 00:17:43,120

less speculation that's just how it's

509

00:17:46,070 --> 00:17:44,960

going to go and and when you kind of

510

00:17:47,510 --> 00:17:46,080

start getting to that place of last

511

00:17:50,150 --> 00:17:47,520

speculation it kind of starts putting

512

00:17:51,190 --> 00:17:50,160

bumpers on the conversation

513

00:17:52,390 --> 00:17:51,200

we can look at them as two different

514

00:17:55,190 --> 00:17:52,400

spaces though and kind of go ones for

515

00:17:57,270 --> 00:17:55,200

speculation and ones for hard science

516

00:17:58,470 --> 00:17:57,280

but i think that speculation needs to

517

00:18:00,230 --> 00:17:58,480

kind of intermingle with the hard

518

00:18:01,750 --> 00:18:00,240

science so there it has you know it has

519

00:18:03,029 --> 00:18:01,760

a direction so it's relevant so we're

520

00:18:04,789 --> 00:18:03,039

not just

521

00:18:06,150 --> 00:18:04,799

essentially telling sci-fi stories to

522

00:18:07,909 --> 00:18:06,160

each other

523

00:18:10,070 --> 00:18:07,919

i think someone has to meme this but i

524

00:18:11,510 --> 00:18:10,080

think you know bill uh bill pullman an

525

00:18:13,190 --> 00:18:11,520

independence day when he's talking to

526

00:18:15,909 --> 00:18:13,200

the alien who has a scientist by the

527

00:18:17,750 --> 00:18:15,919

neck who plays brent smayner uh

528

00:18:19,750 --> 00:18:17,760

uh brent spain knows his name plays data

529

00:18:21,270 --> 00:18:19,760

sorry in star trek and he asks can there

530

00:18:22,789 --> 00:18:21,280

be peace between our worlds and the

531

00:18:24,789 --> 00:18:22,799

aliens like no peace and that just seems

532

00:18:26,789 --> 00:18:24,799

to me right now the two organizations

533

00:18:28,950 --> 00:18:26,799

like you know can we get along no

534

00:18:30,390 --> 00:18:28,960

two very different sides of the coin but

535

00:18:31,750 --> 00:18:30,400

yeah that just came to mind so i'd be

536

00:18:34,470 --> 00:18:31,760

interested to see what people think you

537

00:18:36,390 --> 00:18:34,480

know could you have an event with real

538

00:18:38,710 --> 00:18:36,400

serious mainstream scientists on one

539

00:18:40,310 --> 00:18:38,720

side but you know across the hall people

540

00:18:42,310 --> 00:18:40,320

talking about the origins of the black

541

00:18:44,950 --> 00:18:42,320

knight satellite and you know what's

542

00:18:47,510 --> 00:18:44,960

going on in antarctica and

543

00:18:49,350 --> 00:18:47,520

again palladian beings and loving light

544

00:18:50,630 --> 00:18:49,360

starseed stuff like

545

00:18:52,710 --> 00:18:50,640

do those have to be kept separate it's

546

00:18:54,470 --> 00:18:52,720

probably an interesting conversation

547

00:18:57,430 --> 00:18:54,480

i can tell you right now that i would i

548

00:18:58,950 --> 00:18:57,440

would pay good good money to go to a uap

549

00:19:01,350 --> 00:18:58,960

event where they talked about hard data

550

00:19:03,190 --> 00:19:01,360

but also mixed in scientists that are

551
00:19:05,270 --> 00:19:03,200
uncovering gobekli tapi and all of those

552
00:19:06,950 --> 00:19:05,280
kind of ancient civilization stuff and

553
00:19:09,669 --> 00:19:06,960
you know it started drawing the story of

554
00:19:10,950 --> 00:19:09,679
our mysterious world together yeah maybe

555
00:19:13,510 --> 00:19:10,960
if it was done right i'm thinking that

556
00:19:15,990 --> 00:19:13,520
ufo podcast the expo would be something

557
00:19:17,830 --> 00:19:16,000
like that yeah yeah i was so close

558
00:19:19,110 --> 00:19:17,840
anyway um

559
00:19:21,669 --> 00:19:19,120
dan

560
00:19:24,390 --> 00:19:21,679
ross coltar on jimmy church now i

561
00:19:27,590 --> 00:19:24,400
watched this the other day um

562
00:19:29,909 --> 00:19:27,600
shout out to mr church for uh his his

563
00:19:31,990 --> 00:19:29,919

interview with ross ross loves a long

564

00:19:33,669 --> 00:19:32,000

form answer doesn't he there were there

565

00:19:35,350 --> 00:19:33,679

were some doozies and they're my

566

00:19:36,950 --> 00:19:35,360

favorite being at one point when jimmy

567

00:19:39,270 --> 00:19:36,960

said ross i have to go to an advert in

568

00:19:42,070 --> 00:19:39,280

15 seconds ross acknowledged this and

569

00:19:43,110 --> 00:19:42,080

spoke for one more minute um but yeah

570

00:19:44,710 --> 00:19:43,120

there was there was some real

571

00:19:46,549 --> 00:19:44,720

interesting yeah there were some real

572

00:19:49,110 --> 00:19:46,559

interesting talking points uh ross

573

00:19:51,590 --> 00:19:49,120

brought up he says um again people he's

574

00:19:53,430 --> 00:19:51,600

spoken to sources have mentioned in

575

00:19:54,950 --> 00:19:53,440

their skiffs you know

576

00:19:56,950 --> 00:19:54,960

these these meetings are having these

577

00:19:59,990 --> 00:19:56,960

briefs that they're seeing videos that

578

00:20:01,990 --> 00:20:00,000

are changing their world view um then

579

00:20:03,909 --> 00:20:02,000

goes on to talk about the 23-minute

580

00:20:06,470 --> 00:20:03,919

video which apparently we've heard all

581

00:20:09,110 --> 00:20:06,480

about shows is it hd

582

00:20:11,110 --> 00:20:09,120

and shows clear structured craft it's

583

00:20:12,950 --> 00:20:11,120

detected on multiple sensors and it's

584

00:20:14,870 --> 00:20:12,960

clearly a piece of technology this isn't

585

00:20:17,990 --> 00:20:14,880

you know ball lightning or an orb it's

586

00:20:20,870 --> 00:20:18,000

something very much some things that are

587

00:20:22,630 --> 00:20:20,880

very much craft and sounds like if it

588

00:20:24,470 --> 00:20:22,640

was shown to people they do have these

589

00:20:26,710 --> 00:20:24,480

smoking gun videos

590

00:20:29,029 --> 00:20:26,720

that really would put some arguments not

591

00:20:31,190 --> 00:20:29,039

all arguments but some arguments to bed

592

00:20:33,110 --> 00:20:31,200

what did you think on the the ross um

593

00:20:35,029 --> 00:20:33,120

ross coulthard interview on jimmy church

594

00:20:36,710 --> 00:20:35,039

i really enjoyed it the the stuff that

595

00:20:39,110 --> 00:20:36,720

he speaks about that really interests me

596

00:20:40,630 --> 00:20:39,120

is when he was talking about

597

00:20:42,390 --> 00:20:40,640

objects being tracked coming in and out

598

00:20:43,590 --> 00:20:42,400

of the water off the coast of florida

599

00:20:48,070 --> 00:20:43,600

because we know that those kind of

600

00:20:49,510 --> 00:20:48,080

continental shelves are a place of

601
00:20:51,270 --> 00:20:49,520
a lot of activity they're almost hot

602
00:20:52,630 --> 00:20:51,280
spots and and

603
00:20:54,710 --> 00:20:52,640
there's a possibility these things are

604
00:20:56,149 --> 00:20:54,720
coming from deep ocean and the reason we

605
00:20:58,070 --> 00:20:56,159
see them near the continental shelves is

606
00:20:59,669 --> 00:20:58,080
just less because where they come up

607
00:21:01,669 --> 00:20:59,679
but i would love to see that underwater

608
00:21:03,990 --> 00:21:01,679
data we're just never going to because

609
00:21:05,270 --> 00:21:04,000
anything to do with the us's underwater

610
00:21:07,110 --> 00:21:05,280
detection systems is to do with

611
00:21:09,190 --> 00:21:07,120
submarines and then you get into just

612
00:21:11,350 --> 00:21:09,200
it's all classified

613
00:21:13,270 --> 00:21:11,360

that is true and it's it's a cliché but

614

00:21:15,270 --> 00:21:13,280

we know so little about under our own

615

00:21:16,870 --> 00:21:15,280

oceans and we know much more about space

616

00:21:18,310 --> 00:21:16,880

don't we than what we do under what's

617

00:21:20,789 --> 00:21:18,320

under the water and

618

00:21:21,990 --> 00:21:20,799

how things work and just as you dive

619

00:21:24,870 --> 00:21:22,000

into the earth

620

00:21:27,110 --> 00:21:24,880

are these objects using lava tunnels and

621

00:21:28,950 --> 00:21:27,120

tubes and what is underground and

622

00:21:30,470 --> 00:21:28,960

you know even if they're empty and drone

623

00:21:31,990 --> 00:21:30,480

technology are they being kept

624

00:21:34,149 --> 00:21:32,000

underneath the water because it's a safe

625

00:21:36,310 --> 00:21:34,159

place to store them it's a really

626

00:21:37,750 --> 00:21:36,320

interesting conversation um

627

00:21:39,190 --> 00:21:37,760

and more and more people like ross are

628

00:21:40,310 --> 00:21:39,200

bringing these conversations to the

629

00:21:41,990 --> 00:21:40,320

forefront

630

00:21:44,549 --> 00:21:42,000

ross talks about people having died and

631

00:21:47,590 --> 00:21:44,559

disappeared in engagements with uaps

632

00:21:49,990 --> 00:21:47,600

brings up malmstrom and i liked his

633

00:21:51,350 --> 00:21:50,000

phrasing of always consider a stuff-up

634

00:21:53,750 --> 00:21:51,360

before a cover-up

635

00:21:56,310 --> 00:21:53,760

and very much going down the ineptitude

636

00:21:57,830 --> 00:21:56,320

route and you know that people

637

00:21:59,590 --> 00:21:57,840

within government people talk about oh

638

00:22:00,870 --> 00:21:59,600

the government cover things up and know

639

00:22:03,430 --> 00:22:00,880

the government are thousands of

640

00:22:05,029 --> 00:22:03,440

different organizations and offices and

641

00:22:06,470 --> 00:22:05,039

human beings at the end of the day that

642

00:22:08,310 --> 00:22:06,480

regardless of how

643

00:22:10,470 --> 00:22:08,320

nasty and bad and evil people may

644

00:22:12,630 --> 00:22:10,480

perceive them or think they are there

645

00:22:14,710 --> 00:22:12,640

probably is just a lot more incompetence

646

00:22:16,630 --> 00:22:14,720

than anything else goes on

647

00:22:19,270 --> 00:22:16,640

at the root of all these different

648

00:22:21,350 --> 00:22:19,280

conversations not just the ufo topic but

649

00:22:23,110 --> 00:22:21,360

any kind of topic and that's probably

650

00:22:24,390 --> 00:22:23,120

just as scary if not more scary than

651
00:22:26,789 --> 00:22:24,400
some of the truth that may eventually

652
00:22:28,390 --> 00:22:26,799
come out um so that that was pretty

653
00:22:30,390 --> 00:22:28,400
interesting that ross says very much

654
00:22:32,390 --> 00:22:30,400
people who have spoken to have went with

655
00:22:33,909 --> 00:22:32,400
you know what there's a lot of cover-ups

656
00:22:36,870 --> 00:22:33,919
happen but you know a lot of this is

657
00:22:38,950 --> 00:22:36,880
just down to people's own

658
00:22:41,110 --> 00:22:38,960
inability to efficiently manage

659
00:22:42,710 --> 00:22:41,120
situations look at roswell where it was

660
00:22:45,350 --> 00:22:42,720
announced they'd found the us an alien

661
00:22:47,190 --> 00:22:45,360
spacecraft or ufo and then the next day

662
00:22:48,470 --> 00:22:47,200
actually saw it so weatherblind

663
00:22:49,909 --> 00:22:48,480

there was no there was no process there

664

00:22:51,350 --> 00:22:49,919

was no protocol for for what they'd

665

00:22:53,669 --> 00:22:51,360

found and what they'd done and had to

666

00:22:55,909 --> 00:22:53,679

make it up on the spot um

667

00:22:57,990 --> 00:22:55,919

ross coltar says a friend of his uh he

668

00:23:00,149 --> 00:22:58,000

gives the pseudonym the spaceman was

669

00:23:02,070 --> 00:23:00,159

friends with edgar mitchell and they

670

00:23:04,149 --> 00:23:02,080

were talking about the wilson documents

671

00:23:06,230 --> 00:23:04,159

for a while and they said um admiral

672

00:23:08,390 --> 00:23:06,240

thomas wilson had found a secret program

673

00:23:10,950 --> 00:23:08,400

in the us government that was back

674

00:23:12,630 --> 00:23:10,960

engineering alien spacecraft so ross

675

00:23:14,149 --> 00:23:12,640

kilter i think is someone that if you

676

00:23:16,470 --> 00:23:14,159

have your eggs in the ross cool tart

677

00:23:18,950 --> 00:23:16,480

basket and you believe ross and his

678

00:23:20,470 --> 00:23:18,960

sources and methods then you can kind of

679

00:23:22,230 --> 00:23:20,480

take that one to the bank then he's got

680

00:23:23,909 --> 00:23:22,240

a source saying yeah admiral wilson did

681

00:23:25,350 --> 00:23:23,919

indeed discuss this and

682

00:23:27,350 --> 00:23:25,360

ross coulthard very much believes the

683

00:23:29,909 --> 00:23:27,360

documents themselves are

684

00:23:31,350 --> 00:23:29,919

are 100 genuine and real and do document

685

00:23:33,270 --> 00:23:31,360

the conversation

686

00:23:34,549 --> 00:23:33,280

that they they think

687

00:23:36,149 --> 00:23:34,559

i think we've talked about this before

688

00:23:37,830 --> 00:23:36,159

dan and i don't want to announce too

689

00:23:40,070 --> 00:23:37,840

much um

690

00:23:42,310 --> 00:23:40,080

but coming up i'll have a bit of a

691

00:23:43,909 --> 00:23:42,320

discussion on the wilson docks nothing

692

00:23:45,269 --> 00:23:43,919

major folks it's not chris miller tommed

693

00:23:47,269 --> 00:23:45,279

along coming on before folks got all

694

00:23:48,789 --> 00:23:47,279

excited but um i'm gonna be having a

695

00:23:50,149 --> 00:23:48,799

little discussion with someone on those

696

00:23:52,470 --> 00:23:50,159

documents and doing a little bit of a

697

00:23:54,230 --> 00:23:52,480

deep dive and background into it

698

00:23:56,310 --> 00:23:54,240

what what again dan do you think on the

699

00:23:57,830 --> 00:23:56,320

wilson davis memo as it's now being

700

00:23:59,830 --> 00:23:57,840

entered into records within those

701
00:24:01,430 --> 00:23:59,840
hearings i'm i'm really curious where

702
00:24:04,549 --> 00:24:01,440
this is going to go because the right

703
00:24:06,390 --> 00:24:04,559
people have it who can check it now

704
00:24:08,549 --> 00:24:06,400
before we we all kind of came up against

705
00:24:11,510 --> 00:24:08,559
walls you know we we had a denial from

706
00:24:13,190 --> 00:24:11,520
wilson in in several instances we had

707
00:24:14,789 --> 00:24:13,200
some kind of little seeds that wilson

708
00:24:16,789 --> 00:24:14,799
might have been lying and

709
00:24:18,870 --> 00:24:16,799
maybe knew or that you know these

710
00:24:20,070 --> 00:24:18,880
documents go back a long time richard

711
00:24:22,710 --> 00:24:20,080
dolan

712
00:24:24,870 --> 00:24:22,720
even said that he knows for a fact that

713
00:24:27,110 --> 00:24:24,880

hal putoff can vouch for them and he

714

00:24:28,310 --> 00:24:27,120

said this on a live stream so there's a

715

00:24:29,990 --> 00:24:28,320

there's a bit of history to these

716

00:24:31,990 --> 00:24:30,000

documents through a lot of

717

00:24:35,029 --> 00:24:32,000

uh you know well-respected people in the

718

00:24:36,950 --> 00:24:35,039

ufo world so it it's clear that

719

00:24:38,870 --> 00:24:36,960

this is kind of being revealed after

720

00:24:42,950 --> 00:24:38,880

years of many many people having these

721

00:24:46,070 --> 00:24:42,960

documents already so i'm excited to see

722

00:24:47,990 --> 00:24:46,080

how that chain of custody was maintained

723

00:24:49,750 --> 00:24:48,000

because i just think that we're going to

724

00:24:52,149 --> 00:24:49,760

be surprised when we see that certain

725

00:24:54,470 --> 00:24:52,159

other people have had access to these i

726

00:24:56,390 --> 00:24:54,480

i'd be very surprised if um you know

727

00:24:58,710 --> 00:24:56,400

people like chris mellon hadn't read the

728

00:25:01,430 --> 00:24:58,720

wilson documents for instance and and

729

00:25:03,350 --> 00:25:01,440

that kind of would play into these

730

00:25:04,950 --> 00:25:03,360

articles that he's writing where he's

731

00:25:06,070 --> 00:25:04,960

directing attention to certain places

732

00:25:08,149 --> 00:25:06,080

you know i won't say too much because

733

00:25:09,430 --> 00:25:08,159

we're going to talk about that in a bit

734

00:25:11,029 --> 00:25:09,440

you um

735

00:25:12,710 --> 00:25:11,039

you make it you make a good point now

736

00:25:13,990 --> 00:25:12,720

and again dan um

737

00:25:15,990 --> 00:25:14,000

you made something you said made me

738

00:25:17,590 --> 00:25:16,000

think there that the the people who now

739

00:25:20,549 --> 00:25:17,600

have these documents or at least that

740

00:25:23,110 --> 00:25:20,559

the documents are entered into the the

741

00:25:24,310 --> 00:25:23,120

public uh domain congressional record

742

00:25:25,350 --> 00:25:24,320

congressional record that was the one

743

00:25:27,029 --> 00:25:25,360

sorry

744

00:25:29,590 --> 00:25:27,039

all it takes now is like the

745

00:25:30,549 --> 00:25:29,600

representatives like mike gallagher and

746

00:25:32,950 --> 00:25:30,559

you know

747

00:25:34,470 --> 00:25:32,960

andre carson and these folks they don't

748

00:25:35,750 --> 00:25:34,480

necessarily have to come out and tell

749

00:25:37,669 --> 00:25:35,760

the public you know these are definitely

750

00:25:39,510 --> 00:25:37,679

real because we've found out but like

751
00:25:41,029 --> 00:25:39,520
you say they know the right people that

752
00:25:43,590 --> 00:25:41,039
they can go and ask

753
00:25:46,789 --> 00:25:43,600
in a secure setting and say look these

754
00:25:48,149 --> 00:25:46,799
documents i need to know is this correct

755
00:25:49,430 --> 00:25:48,159
and and they could just get the nod

756
00:25:50,950 --> 00:25:49,440
couldn't they they they might not get

757
00:25:52,630 --> 00:25:50,960
any more information than that i mean

758
00:25:54,789 --> 00:25:52,640
essentially just yeah you know what go

759
00:25:56,230 --> 00:25:54,799
for yeah you're right yeah they might

760
00:25:57,750 --> 00:25:56,240
get the same treatment that wilson

761
00:25:59,750 --> 00:25:57,760
himself is said to have gotten when he

762
00:26:01,510 --> 00:25:59,760
went hunted for the program which i

763
00:26:03,669 --> 00:26:01,520

imagine if you know gallagher has the

764

00:26:05,350 --> 00:26:03,679

slow down door slammed in his face i

765

00:26:07,669 --> 00:26:05,360

can't imagine he's gonna back down and

766

00:26:09,350 --> 00:26:07,679

go okay that's fine then he's he's gonna

767

00:26:11,590 --> 00:26:09,360

come out swinging publicly and pointing

768

00:26:12,870 --> 00:26:11,600

i think you know if tom delong could

769

00:26:14,789 --> 00:26:12,880

talk about all those different stuff

770

00:26:16,230 --> 00:26:14,799

pipes he was finding and you know not

771

00:26:18,549 --> 00:26:16,240

knocking down all those doors and i'm

772

00:26:20,710 --> 00:26:18,559

sure someone an elected official and

773

00:26:22,710 --> 00:26:20,720

mike gallagher and or anyone who's who

774

00:26:24,630 --> 00:26:22,720

wants to go knocking on those doors has

775

00:26:25,990 --> 00:26:24,640

a lot more chance of finding out more

776

00:26:27,669 --> 00:26:26,000

information even

777

00:26:29,269 --> 00:26:27,679

along absolutely and these are the

778

00:26:31,510 --> 00:26:29,279

people who are supposedly right in the

779

00:26:33,269 --> 00:26:31,520

immunity language as alluded to by gary

780

00:26:34,549 --> 00:26:33,279

nolan so

781

00:26:36,310 --> 00:26:34,559

they know the people that they need to

782

00:26:37,990 --> 00:26:36,320

get into those halls they know the

783

00:26:39,669 --> 00:26:38,000

people they need to testify they know

784

00:26:40,630 --> 00:26:39,679

the laws they need to make to get those

785

00:26:45,110 --> 00:26:40,640

people

786

00:26:46,710 --> 00:26:45,120

chance of coming to testify so i'm i'm

787

00:26:47,669 --> 00:26:46,720

hoping that that's where we see it go

788

00:26:49,430 --> 00:26:47,679

now

789

00:26:50,470 --> 00:26:49,440

just before because it's probably if a

790

00:26:52,149 --> 00:26:50,480

good point we're going to talk about

791

00:26:54,070 --> 00:26:52,159

that immunity language briefly anyway

792

00:26:55,110 --> 00:26:54,080

with gary nolan but just before we do

793

00:26:56,549 --> 00:26:55,120

one last thing that was really

794

00:26:58,789 --> 00:26:56,559

interesting and i would encourage folks

795

00:27:00,789 --> 00:26:58,799

to check out fade to black um especially

796

00:27:03,110 --> 00:27:00,799

this interview with uh jimmy church and

797

00:27:04,710 --> 00:27:03,120

ross coulthard and ross does most of the

798

00:27:07,110 --> 00:27:04,720

talking as he tends to do on those

799

00:27:09,990 --> 00:27:07,120

interviews and

800

00:27:11,669 --> 00:27:10,000

the ross says that they know the signals

801
00:27:13,669 --> 00:27:11,679
that allow them to track and protect

802
00:27:15,750 --> 00:27:13,679
where these things have are going to be

803
00:27:17,029 --> 00:27:15,760
and have done for decades

804
00:27:19,190 --> 00:27:17,039
so again

805
00:27:21,269 --> 00:27:19,200
i wonder that again when they send out

806
00:27:23,430 --> 00:27:21,279
the nimitz and princeton in that fleet

807
00:27:25,990 --> 00:27:23,440
to go and do their their

808
00:27:27,669 --> 00:27:26,000
no doubt planned

809
00:27:28,710 --> 00:27:27,679
training exercises

810
00:27:31,029 --> 00:27:28,720
do they

811
00:27:33,190 --> 00:27:31,039
have an eye on what may or may not turn

812
00:27:34,549 --> 00:27:33,200
up because they're expecting these

813
00:27:37,190 --> 00:27:34,559

things to turn up and that's not to say

814

00:27:38,950 --> 00:27:37,200

the people within the exercise do but

815

00:27:40,950 --> 00:27:38,960

those watching the exercise those that

816

00:27:43,669 --> 00:27:40,960

are aware of it people monitoring you

817

00:27:46,070 --> 00:27:43,679

know nuclear ballistic missile

818

00:27:47,430 --> 00:27:46,080

bases are up and down the coast are they

819

00:27:49,190 --> 00:27:47,440

told look we've got some stuff going on

820

00:27:50,710 --> 00:27:49,200

out here let's just keep an eye on the

821

00:27:52,950 --> 00:27:50,720

keep an eye on the radar keep an eye on

822

00:27:54,470 --> 00:27:52,960

this keep an eye on this system because

823

00:27:56,549 --> 00:27:54,480

we may see some

824

00:27:58,070 --> 00:27:56,559

i don't know some bulkies as they say in

825

00:27:59,430 --> 00:27:58,080

the movie i don't know absolutely it

826

00:28:01,510 --> 00:27:59,440

doesn't matter if it's china if it's

827

00:28:03,510 --> 00:28:01,520

russia if it's something from space

828

00:28:05,190 --> 00:28:03,520

these things would be tracked they'd

829

00:28:06,389 --> 00:28:05,200

keep an eye on them like jeremy corbell

830

00:28:07,909 --> 00:28:06,399

pointed out in a great video he brought

831

00:28:09,430 --> 00:28:07,919

up yesterday they said that they think

832

00:28:10,950 --> 00:28:09,440

they're drones they didn't say who they

833

00:28:13,110 --> 00:28:10,960

think they belong to so who are the

834

00:28:15,110 --> 00:28:13,120

controllers there there's such a lack of

835

00:28:16,710 --> 00:28:15,120

answers here where we need answers to be

836

00:28:18,950 --> 00:28:16,720

a bit more secure

837

00:28:20,230 --> 00:28:18,960

and and yeah

838

00:28:21,830 --> 00:28:20,240

a couple of things probably tie in quite

839

00:28:23,669 --> 00:28:21,840

nice then dan actually you've

840

00:28:25,430 --> 00:28:23,679

mentioned again jeremy corbell statement

841

00:28:26,470 --> 00:28:25,440

and and chris mellon said something very

842

00:28:27,990 --> 00:28:26,480

similar

843

00:28:30,149 --> 00:28:28,000

again before we get to that let's talk

844

00:28:32,470 --> 00:28:30,159

about that immunity language gary nolan

845

00:28:34,789 --> 00:28:32,480

speaking to vinnie on disclosure team

846

00:28:37,350 --> 00:28:34,799

podcast recently as well um

847

00:28:39,350 --> 00:28:37,360

it mentioned this that essentially

848

00:28:40,870 --> 00:28:39,360

he is working on

849

00:28:42,149 --> 00:28:40,880

well you can probably explain it better

850

00:28:44,470 --> 00:28:42,159

than i can i've not managed to catch

851

00:28:45,750 --> 00:28:44,480

gary yet on on vinnie's podcast but

852

00:28:49,190 --> 00:28:45,760

what's been happening in terms of this

853

00:28:51,110 --> 00:28:49,200

language basically gary gary i mean he i

854

00:28:52,789 --> 00:28:51,120

think he did it on on when you spoke to

855

00:28:55,750 --> 00:28:52,799

him too it cleared up the difference

856

00:28:57,590 --> 00:28:55,760

between immunity and amnesty amnesty

857

00:28:59,110 --> 00:28:57,600

yeah and and basically we need immunity

858

00:29:02,230 --> 00:28:59,120

we need to be able to say to these

859

00:29:04,310 --> 00:29:02,240

officials you know hey you can speak

860

00:29:05,590 --> 00:29:04,320

outside the bounds of your nda without

861

00:29:06,710 --> 00:29:05,600

fearing that we're going to throw you in

862

00:29:08,950 --> 00:29:06,720

jail

863

00:29:10,230 --> 00:29:08,960

there's also been some talk around

864

00:29:11,669 --> 00:29:10,240

you know that you need to kind of

865

00:29:13,510 --> 00:29:11,679

sweeten the part to get these people to

866

00:29:15,590 --> 00:29:13,520

talk but at the same time you need to

867

00:29:17,510 --> 00:29:15,600

draw a line and kind of say after this

868

00:29:20,230 --> 00:29:17,520

date if you don't talk we're coming for

869

00:29:21,750 --> 00:29:20,240

you you know that kind of thing so

870

00:29:23,269 --> 00:29:21,760

that that language is being finished up

871

00:29:24,789 --> 00:29:23,279

i'm sure we'll see it in the next set of

872

00:29:26,630 --> 00:29:24,799

legislation

873

00:29:28,950 --> 00:29:26,640

hopefully that sooner rather than later

874

00:29:30,389 --> 00:29:28,960

but like gary said it is being worked on

875

00:29:32,549 --> 00:29:30,399

so this is going to be a possibility

876

00:29:34,070 --> 00:29:32,559

going forward that we might see some

877

00:29:36,470 --> 00:29:34,080

people that work with lou coming forward

878

00:29:37,590 --> 00:29:36,480

to talk we might see you know we we have

879

00:29:39,269 --> 00:29:37,600

people coming out the woodwork all the

880

00:29:41,510 --> 00:29:39,279

time recently we had jay stratton kind

881

00:29:42,870 --> 00:29:41,520

of named and so he had a heavy

882

00:29:45,029 --> 00:29:42,880

involvement maybe he would have spoken

883

00:29:46,470 --> 00:29:45,039

sooner if he had immunity you know i

884

00:29:47,909 --> 00:29:46,480

think it's a great thing

885

00:29:49,110 --> 00:29:47,919

yeah it's kind of opening the door a

886

00:29:50,549 --> 00:29:49,120

little bit and saying to folk you know

887

00:29:52,230 --> 00:29:50,559

if you want to come at the party feel

888

00:29:53,350 --> 00:29:52,240

free to come in now but the door's going

889

00:29:54,389 --> 00:29:53,360

to close at some point and you're no

890

00:29:56,230 --> 00:29:54,399

longer welcome

891

00:29:57,430 --> 00:29:56,240

yep but you won't like the after party

892

00:29:59,990 --> 00:29:57,440

that's that's where they're going to go

893

00:30:02,230 --> 00:30:00,000

in with them chris mellon had an article

894

00:30:03,830 --> 00:30:02,240

upon the hill and he mentioned

895

00:30:05,830 --> 00:30:03,840

essentially that after the hearings he

896

00:30:07,430 --> 00:30:05,840

was disappointed i know myself and i

897

00:30:09,110 --> 00:30:07,440

think yourself dan we were more positive

898

00:30:10,549 --> 00:30:09,120

about the outcome of the hearings

899

00:30:12,389 --> 00:30:10,559

because there was some interesting

900

00:30:14,549 --> 00:30:12,399

languages some of the questions i found

901
00:30:15,830 --> 00:30:14,559
were interesting as well a couple of

902
00:30:18,389 --> 00:30:15,840
those um

903
00:30:19,909 --> 00:30:18,399
representatives made themselves you know

904
00:30:21,830 --> 00:30:19,919
come across very well and knowledgeable

905
00:30:23,110 --> 00:30:21,840
on the subject too even if they were

906
00:30:25,269 --> 00:30:23,120
just given a list of the questions to

907
00:30:26,710 --> 00:30:25,279
ask by other people and chris mellon

908
00:30:29,029 --> 00:30:26,720
himself said that there were several key

909
00:30:31,110 --> 00:30:29,039
points that could have been addressed

910
00:30:33,190 --> 00:30:31,120
but were not essentially addressed

911
00:30:35,029 --> 00:30:33,200
however it was progress nonetheless

912
00:30:36,630 --> 00:30:35,039
ultimately it was his his main thing

913
00:30:38,070 --> 00:30:36,640

from the article and he expects more

914

00:30:40,310 --> 00:30:38,080

hearings to happen soon or it could

915

00:30:41,750 --> 00:30:40,320

happen soon you mentioned jeremy corbell

916

00:30:43,190 --> 00:30:41,760

talking about one of the points that

917

00:30:45,190 --> 00:30:43,200

chris miller made too

918

00:30:47,350 --> 00:30:45,200

was regarding these drones

919

00:30:48,710 --> 00:30:47,360

and the idea that yeah

920

00:30:50,149 --> 00:30:48,720

there were there were drones that there

921

00:30:52,149 --> 00:30:50,159

were buzz in the russell and the omaha

922

00:30:54,230 --> 00:30:52,159

and these other ships

923

00:30:55,510 --> 00:30:54,240

but whose drones did you find out they

924

00:30:56,549 --> 00:30:55,520

were russian did you find out they were

925

00:30:58,630 --> 00:30:56,559

chinese

926
00:31:00,870 --> 00:30:58,640
um i think one of the big things at the

927
00:31:02,470 --> 00:31:00,880
minute and not to get political but the

928
00:31:05,190 --> 00:31:02,480
the war in ukraine has shown that the

929
00:31:07,350 --> 00:31:05,200
russian arsenal for weapons is depleted

930
00:31:09,190 --> 00:31:07,360
and nowhere near as

931
00:31:10,950 --> 00:31:09,200
outstanding as people thought it could

932
00:31:12,470 --> 00:31:10,960
be that's not to say they don't have

933
00:31:13,909 --> 00:31:12,480
some impressive technology in drones

934
00:31:16,549 --> 00:31:13,919
that maybe just aren't for the purpose

935
00:31:18,870 --> 00:31:16,559
of fighting a war but for that kind of

936
00:31:20,549 --> 00:31:18,880
espionage and you know spying

937
00:31:22,389 --> 00:31:20,559
i'm sure the u.s china russia and other

938
00:31:24,549 --> 00:31:22,399

countries have some fantastic pieces of

939

00:31:26,389 --> 00:31:24,559

equipment however chris melon again

940

00:31:29,909 --> 00:31:26,399

brings up have you addressed that if

941

00:31:31,590 --> 00:31:29,919

these are an adversarial technology

942

00:31:33,110 --> 00:31:31,600

how are they loitering and how are they

943

00:31:34,389 --> 00:31:33,120

in the area for as long as they are and

944

00:31:36,070 --> 00:31:34,399

how are they doing the things they are

945

00:31:37,830 --> 00:31:36,080

doing for as long as they are and i'm

946

00:31:38,630 --> 00:31:37,840

sure chris melons talking from a place

947

00:31:40,789 --> 00:31:38,640

of

948

00:31:42,630 --> 00:31:40,799

being aware probably what the us has in

949

00:31:44,950 --> 00:31:42,640

terms of that technology probably are we

950

00:31:46,549 --> 00:31:44,960

are 20 years ago or 30 years ago of what

951
00:31:48,710 --> 00:31:46,559
the us was working on in terms of that

952
00:31:50,630 --> 00:31:48,720
technology because that was his job and

953
00:31:53,350 --> 00:31:50,640
where it would be now and chris mellon's

954
00:31:54,950 --> 00:31:53,360
looking going that doesn't fit

955
00:31:56,950 --> 00:31:54,960
the timeline of where the technology

956
00:31:57,830 --> 00:31:56,960
should be so where have they got this

957
00:31:59,509 --> 00:31:57,840
from

958
00:32:01,269 --> 00:31:59,519
and i think that's chris mellon's point

959
00:32:02,149 --> 00:32:01,279
that we're not saying that these are

960
00:32:04,310 --> 00:32:02,159
again

961
00:32:05,909 --> 00:32:04,320
non-human entities or you know alien

962
00:32:08,310 --> 00:32:05,919
spacecraft or whatever but they

963
00:32:10,230 --> 00:32:08,320

certainly don't seem to fit the mold of

964

00:32:12,549 --> 00:32:10,240

what we would expect from our own let

965

00:32:14,310 --> 00:32:12,559

alone adversarial technology yeah

966

00:32:15,029 --> 00:32:14,320

yeah this is the thing about this kind

967

00:32:17,509 --> 00:32:15,039

of

968

00:32:18,710 --> 00:32:17,519

centrist uap position that we take so to

969

00:32:19,909 --> 00:32:18,720

speak you know that we're not in the

970

00:32:21,029 --> 00:32:19,919

extremes we're not kind of seeing the

971

00:32:22,950 --> 00:32:21,039

light in the sky and going they're

972

00:32:24,710 --> 00:32:22,960

pleiadians we're not seeing a light in

973

00:32:26,630 --> 00:32:24,720

the sky and going everyone's an idiot

974

00:32:27,830 --> 00:32:26,640

it's a plane or a satellite we're

975

00:32:29,750 --> 00:32:27,840

squealing in the middle where we want

976

00:32:31,269 --> 00:32:29,760

the data to lead the conversation and i

977

00:32:32,870 --> 00:32:31,279

know that kind of annoys some people but

978

00:32:34,310 --> 00:32:32,880

that's where we are that's what we have

979

00:32:35,269 --> 00:32:34,320

we've had decades of talking about

980

00:32:37,190 --> 00:32:35,279

stories and looking at grainy

981

00:32:39,590 --> 00:32:37,200

photographs and things like that now we

982

00:32:41,590 --> 00:32:39,600

need something more robust and as our

983

00:32:43,990 --> 00:32:41,600

kind of species is growing up and

984

00:32:46,630 --> 00:32:44,000

starting to look outwards um we'll talk

985

00:32:48,070 --> 00:32:46,640

about that in a little bit but

986

00:32:49,669 --> 00:32:48,080

it seems that the conversation is

987

00:32:52,870 --> 00:32:49,679

shifting to

988

00:32:54,549 --> 00:32:52,880

the questions as opposed to just the

989

00:32:56,950 --> 00:32:54,559

being satisfied with it's drones like

990

00:32:58,549 --> 00:32:56,960

you said who's drones sure it might not

991

00:32:59,509 --> 00:32:58,559

be russian but

992

00:33:00,789 --> 00:32:59,519

if

993

00:33:03,110 --> 00:33:00,799

a group of people in russia found

994

00:33:04,950 --> 00:33:03,120

something 50 years ago they could easily

995

00:33:06,710 --> 00:33:04,960

have you know be a group of 10

996

00:33:08,070 --> 00:33:06,720

scientists that have their essentially

997

00:33:10,230 --> 00:33:08,080

own breakaway civilization and

998

00:33:11,590 --> 00:33:10,240

technically it's still russian so we

999

00:33:13,509 --> 00:33:11,600

kind of need to keep all these things on

1000

00:33:14,950 --> 00:33:13,519

the table until we figure them out but

1001
00:33:17,430 --> 00:33:14,960
for now it's clear that these are

1002
00:33:19,110 --> 00:33:17,440
devices of unknown origin and that's

1003
00:33:20,870 --> 00:33:19,120
worth investigating

1004
00:33:23,190 --> 00:33:20,880
100 yeah

1005
00:33:25,509 --> 00:33:23,200
then from the database to the slightly

1006
00:33:27,350 --> 00:33:25,519
more speculative however nonetheless

1007
00:33:28,630 --> 00:33:27,360
we've got some data on it and you

1008
00:33:30,549 --> 00:33:28,640
mentioned a while back you were going to

1009
00:33:32,950 --> 00:33:30,559
be partaking in simeon heinz remote

1010
00:33:35,029 --> 00:33:32,960
viewing course and you have you have

1011
00:33:36,950 --> 00:33:35,039
done said course or doing said course

1012
00:33:39,430 --> 00:33:36,960
aren't you uh i had some results

1013
00:33:41,029 --> 00:33:39,440

finished now okay yeah finished so so we

1014

00:33:42,470 --> 00:33:41,039

did five classes over five weeks there

1015

00:33:43,830 --> 00:33:42,480

were participants from all around the

1016

00:33:45,350 --> 00:33:43,840

world thank you so much for simeon for

1017

00:33:47,110 --> 00:33:45,360

having me come along everyone was

1018

00:33:48,870 --> 00:33:47,120

wonderful and supportive and

1019

00:33:51,430 --> 00:33:48,880

compassionate and it's really nice to

1020

00:33:52,630 --> 00:33:51,440

find a group of introspective people uh

1021

00:33:55,190 --> 00:33:52,640

because we always talk to each other a

1022

00:33:56,789 --> 00:33:55,200

little bit differently um so yeah we we

1023

00:33:58,230 --> 00:33:56,799

got to do

1024

00:34:01,430 --> 00:33:58,240

a class on kind of essentially the

1025

00:34:03,190 --> 00:34:01,440

history of avi and essentially and

1026
00:34:05,029 --> 00:34:03,200
actually practicing it and being taught

1027
00:34:07,269 --> 00:34:05,039
the practice of it which was controlled

1028
00:34:08,629 --> 00:34:07,279
remote view in a resonant remote viewing

1029
00:34:10,149 --> 00:34:08,639
they need slightly different things but

1030
00:34:12,470 --> 00:34:10,159
basically depending on where you study

1031
00:34:14,149 --> 00:34:12,480
it you get a different technique and it

1032
00:34:15,430 --> 00:34:14,159
was very surprising to me we'll do a

1033
00:34:16,710 --> 00:34:15,440
deeper dive on this because i think it's

1034
00:34:19,270 --> 00:34:16,720
worth talking about yes there are a lot

1035
00:34:21,270 --> 00:34:19,280
of misconceptions but it is not

1036
00:34:23,829 --> 00:34:21,280
telepathy you are not sat there you do

1037
00:34:25,430 --> 00:34:23,839
not get you know movies in your head the

1038
00:34:27,270 --> 00:34:25,440

the people who talk about

1039

00:34:29,349 --> 00:34:27,280

these kind of things like ingo swan they

1040

00:34:30,790 --> 00:34:29,359

were the rock stars of this they they

1041

00:34:32,389 --> 00:34:30,800

were the people like usain bolt that

1042

00:34:34,710 --> 00:34:32,399

were just born to do the thing that

1043

00:34:35,990 --> 00:34:34,720

they're doing for the rest of us it

1044

00:34:38,550 --> 00:34:36,000

takes work

1045

00:34:40,310 --> 00:34:38,560

but i would highly recommend doing it

1046

00:34:41,589 --> 00:34:40,320

because the thing that surprised me was

1047

00:34:44,550 --> 00:34:41,599

how much it helped with kind of

1048

00:34:46,550 --> 00:34:44,560

mindfulness and mental health listening

1049

00:34:47,669 --> 00:34:46,560

to that very quiet voice in your head

1050

00:34:49,510 --> 00:34:47,679

and by that i don't mean the

1051
00:34:51,349 --> 00:34:49,520
subconscious you kind of go deeper than

1052
00:34:52,790 --> 00:34:51,359
that it's like listening to you know

1053
00:34:54,310 --> 00:34:52,800
imagine you're a football match and

1054
00:34:55,829 --> 00:34:54,320
there's one person saying something you

1055
00:34:57,750 --> 00:34:55,839
want to hear but they're on the other

1056
00:34:59,109 --> 00:34:57,760
side of the the pitch to you and you're

1057
00:35:01,670 --> 00:34:59,119
trying to zero in on it and it just

1058
00:35:02,470 --> 00:35:01,680
takes practice and and a little patience

1059
00:35:04,950 --> 00:35:02,480
but

1060
00:35:07,589 --> 00:35:04,960
there were some amazing results uh some

1061
00:35:09,030 --> 00:35:07,599
some to do with uh layers of age at one

1062
00:35:10,790 --> 00:35:09,040
point i had a sense of layers of age and

1063
00:35:13,589 --> 00:35:10,800

i wrote down there it was a tree because

1064

00:35:15,430 --> 00:35:13,599

i kind of had a sense of of wood but it

1065

00:35:17,990 --> 00:35:15,440

turned out that it was a bit of wood

1066

00:35:20,550 --> 00:35:18,000

kind of set against a cliff face that

1067

00:35:22,710 --> 00:35:20,560

had the layers of aged so this is where

1068

00:35:25,190 --> 00:35:22,720

i mean when i say that you can be

1069

00:35:27,190 --> 00:35:25,200

wrong whilst being correct

1070

00:35:28,550 --> 00:35:27,200

it's not as easy as you know what's in

1071

00:35:30,630 --> 00:35:28,560

the drawer i'd hidden something in there

1072

00:35:31,670 --> 00:35:30,640

tell me there's a lot to discuss and

1073

00:35:33,829 --> 00:35:31,680

that's why they kind of stick with

1074

00:35:34,870 --> 00:35:33,839

adjectives well we'll talk through the

1075

00:35:36,470 --> 00:35:34,880

kind of

1076
00:35:38,390 --> 00:35:36,480
the phase work and stuff like that when

1077
00:35:41,030 --> 00:35:38,400
we talk about it more but for now i'd

1078
00:35:43,030 --> 00:35:41,040
say if you're practicing rbian

1079
00:35:44,710 --> 00:35:43,040
a few tips would be that anything that

1080
00:35:46,790 --> 00:35:44,720
comes into your head after three seconds

1081
00:35:48,390 --> 00:35:46,800
after the prompt throw away that's your

1082
00:35:50,150 --> 00:35:48,400
brain thinking that's a that's an

1083
00:35:51,670 --> 00:35:50,160
overlay you know that's gonna be stuff

1084
00:35:53,430 --> 00:35:51,680
like

1085
00:35:55,030 --> 00:35:53,440
if i get a sense of something round my

1086
00:35:57,109 --> 00:35:55,040
brain's gonna start going it's a tire

1087
00:35:58,550 --> 00:35:57,119
it's a globe it's you know anything

1088
00:36:00,310 --> 00:35:58,560

circular is going to try and fill that

1089

00:36:02,630 --> 00:36:00,320

in so just throw that away it's more

1090

00:36:04,870 --> 00:36:02,640

like automatic writing than it is like

1091

00:36:06,390 --> 00:36:04,880

consciously drawing you know i do art so

1092

00:36:08,470 --> 00:36:06,400

i i kind of you know realized the

1093

00:36:11,349 --> 00:36:08,480

difference a lot closer to automatic

1094

00:36:12,550 --> 00:36:11,359

writing um and yeah my mindfulness and

1095

00:36:13,990 --> 00:36:12,560

kind of a lot of synchronicity comes

1096

00:36:15,750 --> 00:36:14,000

from it it's very interesting i would

1097

00:36:17,589 --> 00:36:15,760

highly recommend people take it even if

1098

00:36:20,230 --> 00:36:17,599

you don't think it's going to give you

1099

00:36:23,990 --> 00:36:20,240

access to remote viewing

1100

00:36:25,349 --> 00:36:24,000

powers i'll put in or abilities um

1101

00:36:27,510 --> 00:36:25,359

it's well worth doing just to get to

1102

00:36:29,510 --> 00:36:27,520

know yourself a little bit more

1103

00:36:32,390 --> 00:36:29,520

awesome can you put down that we'll put

1104

00:36:34,069 --> 00:36:32,400

the link for some simeon's um

1105

00:36:35,910 --> 00:36:34,079

course in there and again if you want to

1106

00:36:38,270 --> 00:36:35,920

get in touch for anyone that wants to

1107

00:36:39,990 --> 00:36:38,280

kind of have a look at that it is

1108

00:36:41,349 --> 00:36:40,000

virtualviewing.org but the link will be

1109

00:36:42,710 --> 00:36:41,359

in the description

1110

00:36:44,390 --> 00:36:42,720

and check out the interviews i've done

1111

00:36:45,990 --> 00:36:44,400

with some there's a few of them now from

1112

00:36:47,750 --> 00:36:46,000

the last two years on the podcast and

1113

00:36:49,430 --> 00:36:47,760

he's a great guy really good to speak to

1114

00:36:50,470 --> 00:36:49,440

really interesting and there's some

1115

00:36:52,150 --> 00:36:50,480

other remote viewers have been on the

1116

00:36:53,990 --> 00:36:52,160

podcast as well if you're interested in

1117

00:36:55,750 --> 00:36:54,000

that topic um yeah we'll do that deep

1118

00:36:57,829 --> 00:36:55,760

dive anyway to cover that for folks but

1119

00:36:59,430 --> 00:36:57,839

again thanks for to sim for for letting

1120

00:37:01,190 --> 00:36:59,440

dan go along and take part in the course

1121

00:37:02,710 --> 00:37:01,200

and i i know like i said dan said there

1122

00:37:05,430 --> 00:37:02,720

but speaking to myself about it has

1123

00:37:07,190 --> 00:37:05,440

found it really useful so awesome a

1124

00:37:09,910 --> 00:37:07,200

couple of things to finish up with dan

1125

00:37:12,390 --> 00:37:09,920

uh james webb on the 12th of july i

1126

00:37:14,230 --> 00:37:12,400

believe we are expecting our first full

1127

00:37:16,150 --> 00:37:14,240

color pictures

1128

00:37:17,829 --> 00:37:16,160

and what to expect we've already had

1129

00:37:20,550 --> 00:37:17,839

some pretty startling and astonishing

1130

00:37:22,310 --> 00:37:20,560

images from the the calibrations and the

1131

00:37:25,190 --> 00:37:22,320

alignments of the mirrors where they've

1132

00:37:27,349 --> 00:37:25,200

just got clearer and clearer and we're

1133

00:37:28,870 --> 00:37:27,359

now going to get those i mean the base

1134

00:37:30,069 --> 00:37:28,880

of the telescope's been pointing at an

1135

00:37:31,190 --> 00:37:30,079

area of space hasn't it as it's

1136

00:37:32,950 --> 00:37:31,200

travelled out

1137

00:37:35,190 --> 00:37:32,960

and we're going to get all that

1138

00:37:37,270 --> 00:37:35,200

information gathered together and

1139

00:37:38,950 --> 00:37:37,280

get what can we expect to see like are

1140

00:37:40,870 --> 00:37:38,960

we talking about you know that famous

1141

00:37:43,109 --> 00:37:40,880

hubble deep field image

1142

00:37:45,270 --> 00:37:43,119

are we talking that level of picture

1143

00:37:47,349 --> 00:37:45,280

exactly so one there are a couple of

1144

00:37:49,030 --> 00:37:47,359

things we could see first it's either

1145

00:37:51,349 --> 00:37:49,040

going to be the hubble deep field image

1146

00:37:52,630 --> 00:37:51,359

but james webb telescope's equivalent or

1147

00:37:55,190 --> 00:37:52,640

it's going to be some data from

1148

00:37:57,670 --> 00:37:55,200

trappist-1 now trappist-1 is really

1149

00:38:00,710 --> 00:37:57,680

interesting because it's it's kind of a

1150

00:38:02,150 --> 00:38:00,720

colder star smaller star than our sun

1151

00:38:03,750 --> 00:38:02,160

but it has a whole bunch of planets

1152

00:38:05,349 --> 00:38:03,760

around it they're in the goldilocks zone

1153

00:38:08,390 --> 00:38:05,359

that could have a life so we're going to

1154

00:38:09,270 --> 00:38:08,400

be looking towards that solar system to

1155

00:38:11,190 --> 00:38:09,280

try and get a little bit more

1156

00:38:12,790 --> 00:38:11,200

information about the atmosphere of all

1157

00:38:14,790 --> 00:38:12,800

of those different planets and it'll

1158

00:38:17,349 --> 00:38:14,800

help us kind of narrow down where we

1159

00:38:19,270 --> 00:38:17,359

think life is possible because the

1160

00:38:20,470 --> 00:38:19,280

similar conditions to here so there

1161

00:38:22,150 --> 00:38:20,480

should be water there there should be

1162

00:38:23,510 --> 00:38:22,160

various other things there we're not

1163

00:38:24,550 --> 00:38:23,520

going to get a zoom in on the surface

1164

00:38:29,109 --> 00:38:24,560

because that's just not what this

1165

00:38:31,030 --> 00:38:29,119

telescope does but you know we'll see

1166

00:38:33,030 --> 00:38:31,040

an immense amount of detail

1167

00:38:35,430 --> 00:38:33,040

uh chemically

1168

00:38:37,190 --> 00:38:35,440

that we just haven't seen before with

1169

00:38:39,589 --> 00:38:37,200

with the hubble deep field image just to

1170

00:38:41,670 --> 00:38:39,599

set expectations remember that the james

1171

00:38:43,829 --> 00:38:41,680

webb telescope can't see space dust it

1172

00:38:45,349 --> 00:38:43,839

sees through it so when we're looking at

1173

00:38:47,109 --> 00:38:45,359

things like the pillars of creation and

1174

00:38:48,390 --> 00:38:47,119

thinking of images from space like that

1175

00:38:49,589 --> 00:38:48,400

the james book telescope literally

1176

00:38:51,510 --> 00:38:49,599

wouldn't be able to see that it would

1177

00:38:53,109 --> 00:38:51,520

just see the stars there giving off the

1178

00:38:56,069 --> 00:38:53,119

infrared and various things like that

1179

00:38:57,430 --> 00:38:56,079

but yeah we have 38 days to go um

1180

00:38:59,430 --> 00:38:57,440

depending on your time zone and when you

1181

00:39:00,790 --> 00:38:59,440

listen to this but like you say july

1182

00:39:02,550 --> 00:39:00,800

12th is when we'll see those first

1183

00:39:04,150 --> 00:39:02,560

images and i i fully expect to be

1184

00:39:06,870 --> 00:39:04,160

overwhelmed and staring at the screen

1185

00:39:08,950 --> 00:39:06,880

yelling oh my god it's full of stars

1186

00:39:10,390 --> 00:39:08,960

yeah it's it's an interesting one very

1187

00:39:13,430 --> 00:39:10,400

much looking forward to what comes out

1188

00:39:15,109 --> 00:39:13,440

from that and what the the

1189

00:39:17,430 --> 00:39:15,119

the james webb is going to be capable of

1190

00:39:18,870 --> 00:39:17,440

going forward as well i think the early

1191

00:39:20,870 --> 00:39:18,880

indications have been that it has

1192

00:39:23,109 --> 00:39:20,880

outperformed all expectations hasn't it

1193

00:39:24,870 --> 00:39:23,119

and even in those calibrations they they

1194

00:39:30,950 --> 00:39:24,880

weren't expecting it to go as well as it

1195

00:39:35,430 --> 00:39:32,950

we won't see the results of whether

1196

00:39:37,990 --> 00:39:35,440

there is the potential to harbor life

1197

00:39:39,829 --> 00:39:38,000

from trappist 1 until about 2024. so

1198

00:39:41,349 --> 00:39:39,839

this really is just hey look at the

1199

00:39:43,670 --> 00:39:41,359

pretty picture folks it's not going to

1200

00:39:45,510 --> 00:39:43,680

be a lot of scientific conversation but

1201
00:39:47,109 --> 00:39:45,520
like we saw with the calibration image

1202
00:39:49,109 --> 00:39:47,119
it was so good that it generated

1203
00:39:50,790 --> 00:39:49,119
peer-reviewed papers so we'll probably

1204
00:39:52,470 --> 00:39:50,800
get that from it but just wait for the

1205
00:39:54,710 --> 00:39:52,480
pretty picture basically

1206
00:39:56,630 --> 00:39:54,720
awesome and just finishing up dan a

1207
00:39:58,790 --> 00:39:56,640
little bit on geomagnetic atmospheric

1208
00:40:00,069 --> 00:39:58,800
sound phenomenon which everyone is

1209
00:40:01,430 --> 00:40:00,079
familiar with

1210
00:40:03,109 --> 00:40:01,440
so this is really interesting i only

1211
00:40:04,470 --> 00:40:03,119
discovered it this week it's been around

1212
00:40:07,109 --> 00:40:04,480
for ages they used to call it the aurora

1213
00:40:09,829 --> 00:40:07,119

sound phenomenon and there were a lot of

1214

00:40:12,309 --> 00:40:09,839

reports of people hearing sounds from

1215

00:40:14,950 --> 00:40:12,319

the atmosphere in the air when they saw

1216

00:40:16,630 --> 00:40:14,960

the northern lights

1217

00:40:18,550 --> 00:40:16,640

there was something in the paper that i

1218

00:40:21,270 --> 00:40:18,560

thought that made me feel that i should

1219

00:40:22,550 --> 00:40:21,280

bring it up here because it's relevant

1220

00:40:25,109 --> 00:40:22,560

so this week

1221

00:40:27,670 --> 00:40:25,119

they have confirmed that they exist that

1222

00:40:30,470 --> 00:40:27,680

they're nothing to do with the aurora

1223

00:40:31,589 --> 00:40:30,480

that actually it's uh the geomagnetic

1224

00:40:33,510 --> 00:40:31,599

kind of

1225

00:40:35,510 --> 00:40:33,520

effects on the planet's atmosphere that

1226
00:40:36,950 --> 00:40:35,520
generate these sounds so it makes me

1227
00:40:39,910 --> 00:40:36,960
think of you know the trumpet sounds

1228
00:40:41,510 --> 00:40:39,920
that you can watch on youtube and uh

1229
00:40:42,950 --> 00:40:41,520
people think that it's the biblical kind

1230
00:40:44,870 --> 00:40:42,960
of you know revelations and then

1231
00:40:47,430 --> 00:40:44,880
actually we've now learned that you can

1232
00:40:49,829 --> 00:40:47,440
just get sound generated in the air but

1233
00:40:51,430 --> 00:40:49,839
what what they said a while back uh and

1234
00:40:53,510 --> 00:40:51,440
this is a direct quote from the paper

1235
00:40:54,870 --> 00:40:53,520
that many geophysicists from around the

1236
00:40:56,950 --> 00:40:54,880
globe would fix their opinion and

1237
00:40:59,430 --> 00:40:56,960
there's a few quotes aural sounds are

1238
00:41:00,710 --> 00:40:59,440

illusions they are physically impossible

1239

00:41:01,910 --> 00:41:00,720

does this sound like anything else to

1240

00:41:03,670 --> 00:41:01,920

you

1241

00:41:05,670 --> 00:41:03,680

physically impossible it's an illusion

1242

00:41:07,109 --> 00:41:05,680

and they've just proved that it exists

1243

00:41:09,430 --> 00:41:07,119

for any scientists that are listening to

1244

00:41:11,990 --> 00:41:09,440

this that think that the world is a

1245

00:41:14,470 --> 00:41:12,000

known and fixed quantity you are wrong

1246

00:41:15,190 --> 00:41:14,480

you should have curiosity and we should

1247

00:41:18,230 --> 00:41:15,200

be

1248

00:41:19,750 --> 00:41:18,240

just

1249

00:41:21,430 --> 00:41:19,760

it's interesting and it's explaining

1250

00:41:22,870 --> 00:41:21,440

things to us that we didn't realize were

1251

00:41:24,950 --> 00:41:22,880

possible

1252

00:41:27,030 --> 00:41:24,960

well dan we've recorded this on saturday

1253

00:41:28,550 --> 00:41:27,040

evening here in the uk it's jubilee

1254

00:41:30,870 --> 00:41:28,560

weekend so lots of folks are out and

1255

00:41:32,309 --> 00:41:30,880

about uh and working away um i

1256

00:41:34,150 --> 00:41:32,319

appreciate your time dan because you've

1257

00:41:35,990 --> 00:41:34,160

got another meeting going on later on

1258

00:41:37,270 --> 00:41:36,000

this evening i'm going to get back in

1259

00:41:39,589 --> 00:41:37,280

and spend a little bit of time with the

1260

00:41:41,670 --> 00:41:39,599

family so we'll keep this one relatively

1261

00:41:43,910 --> 00:41:41,680

short for us at 40 minutes thank you

1262

00:41:45,670 --> 00:41:43,920

very much everyone for listening again i

1263

00:41:47,670 --> 00:41:45,680

appreciate everyone who has even just

1264

00:41:50,470 --> 00:41:47,680

had a look at the skies above a guide to

1265

00:41:52,069 --> 00:41:50,480

ufo sightings in the uk and please if

1266

00:41:54,190 --> 00:41:52,079

you want to check that out do pick up a

1267

00:41:56,790 --> 00:41:54,200

copy pre-order a copy use

1268

00:41:58,630 --> 00:41:56,800

hairblaster.com to pre-order that or any

1269

00:42:00,630 --> 00:41:58,640

book seller you can find online that you

1270

00:42:03,030 --> 00:42:00,640

you choose to would be much appreciated

1271

00:42:05,430 --> 00:42:03,040

for yourself or for friends and family

1272

00:42:06,870 --> 00:42:05,440

as a gift um very much look forward to

1273

00:42:08,630 --> 00:42:06,880

seeing people with their copies when it

1274

00:42:10,790 --> 00:42:08,640

comes out as well be pretty surreal but

1275

00:42:11,670 --> 00:42:10,800

yeah dan thank you very much for your

1276

00:42:13,109 --> 00:42:11,680
