

NASA to Set Up Independent Study on Unidentified Aerial Phenomena

# THE BREAKDOWN

1  
00:00:03,350 --> 00:00:01,270

[Music]

2  
00:00:10,070 --> 00:00:03,360

this is lou elizondo and you are

3  
00:00:14,150 --> 00:00:12,230

hi everyone and welcome back to that ufo

4  
00:00:16,310 --> 00:00:14,160

podcast my name is andy and it's a

5  
00:00:18,230 --> 00:00:16,320

breaking news breakdown for you a couple

6  
00:00:21,109 --> 00:00:18,240

of announcements came out this evening

7  
00:00:23,990 --> 00:00:21,119

and joining me to discuss those dan

8  
00:00:25,990 --> 00:00:24,000

hi hi it's a it's a good day

9  
00:00:28,470 --> 00:00:26,000

it is a good day and depending on what

10  
00:00:29,509 --> 00:00:28,480

side of copyright law you're on and

11  
00:00:31,589 --> 00:00:29,519

for those that have been following

12  
00:00:33,830 --> 00:00:31,599

social media the last 24 hours we don't

13  
00:00:35,990 --> 00:00:33,840

we won't go into it but yeah that you'll

14

00:00:37,510 --> 00:00:36,000

appreciate that one if not just ignore

15

00:00:39,350 --> 00:00:37,520

it um

16

00:00:40,709 --> 00:00:39,360

dan a couple of announcements we're

17

00:00:43,350 --> 00:00:40,719

going to talk over tonight you've kind

18

00:00:45,270 --> 00:00:43,360

of focused on one of them mainly and i

19

00:00:47,590 --> 00:00:45,280

focused on the other but you've you're

20

00:00:49,190 --> 00:00:47,600

kind of across both and i've heard half

21

00:00:50,869 --> 00:00:49,200

of one the big announcement first and

22

00:00:53,510 --> 00:00:50,879

then we'll get to the stars academy but

23

00:00:56,389 --> 00:00:53,520

the big announcement it was from nasa

24

00:00:58,389 --> 00:00:56,399

and not not totally unexpected i don't

25

00:00:59,990 --> 00:00:58,399

think given the the recent rumblings

26

00:01:02,229 --> 00:01:00,000

from nasa and

27

00:01:03,510 --> 00:01:02,239

bill nelson's statements and the idea

28

00:01:05,830 --> 00:01:03,520

they were going to be getting on board

29

00:01:08,070 --> 00:01:05,840

with the ufo uap subject they have

30

00:01:11,510 --> 00:01:08,080

announced setting up a nine month long

31

00:01:14,710 --> 00:01:11,520

independent study on uaps to begin this

32

00:01:17,910 --> 00:01:14,720

fall and if you're outside of the u.s

33

00:01:19,109 --> 00:01:17,920

fall i believe is august september yeah

34

00:01:20,950 --> 00:01:19,119

end of summer towards the end of the

35

00:01:22,710 --> 00:01:20,960

year yeah yeah that's when the leaves

36

00:01:25,030 --> 00:01:22,720

start to fall i think

37

00:01:27,590 --> 00:01:25,040

that's the general the general gist yeah

38

00:01:29,830 --> 00:01:27,600

um so yeah so take us through the call

39

00:01:32,310 --> 00:01:29,840

dan i managed to hear folks uh about

40

00:01:34,870 --> 00:01:32,320

half of this because both nasa and to

41

00:01:37,749 --> 00:01:34,880

the stars had webinars and announcements

42

00:01:40,630 --> 00:01:37,759

at exactly the same time it was 6 p.m uk

43

00:01:42,230 --> 00:01:40,640

10 a.m pacific 1 pm eastern

44

00:01:45,749 --> 00:01:42,240

um and wherever else you are in the

45

00:01:47,830 --> 00:01:45,759

world um i watched the the tommed along

46

00:01:48,789 --> 00:01:47,840

to the stars one in phil dan watched

47

00:01:50,310 --> 00:01:48,799

nasa

48

00:01:52,789 --> 00:01:50,320

with an eye on the tom the long one as

49

00:01:54,310 --> 00:01:52,799

well um so we can kind of cover both of

50

00:01:55,830 --> 00:01:54,320

them for you but nasa is certainly the

51  
00:01:57,990 --> 00:01:55,840  
main one i can i can promise you that

52  
00:01:59,910 --> 00:01:58,000  
much trust me and i'll tell you why when

53  
00:02:01,350 --> 00:01:59,920  
we get to the to the stars one

54  
00:02:03,270 --> 00:02:01,360  
it kind of amused me that the to the

55  
00:02:05,109 --> 00:02:03,280  
stars one went for longer um and they

56  
00:02:06,230 --> 00:02:05,119  
didn't really have that much to to

57  
00:02:07,590 --> 00:02:06,240  
announce uh but it was a good

58  
00:02:09,910 --> 00:02:07,600  
announcement and we'll get to it but the

59  
00:02:11,910 --> 00:02:09,920  
the nasa one uh there were three people

60  
00:02:13,430 --> 00:02:11,920  
on the call uh david spurgle who's uh

61  
00:02:14,630 --> 00:02:13,440  
president of the simons foundation in

62  
00:02:16,070 --> 00:02:14,640  
new york city and chair of the

63  
00:02:18,390 --> 00:02:16,080

astrophysics department at princeton

64

00:02:20,869 --> 00:02:18,400

university in princeton new jersey

65

00:02:22,390 --> 00:02:20,879

daniel evans who is the assistant deputy

66

00:02:24,790 --> 00:02:22,400

associate administrator that's a

67

00:02:27,030 --> 00:02:24,800

mouthful for research at nasa's science

68

00:02:29,270 --> 00:02:27,040

mission directorate he's the guy that's

69

00:02:30,550 --> 00:02:29,280

kind of leading this basically we also

70

00:02:33,350 --> 00:02:30,560

have um

71

00:02:35,030 --> 00:02:33,360

thomas uh zurbuchen if i've said that

72

00:02:36,869 --> 00:02:35,040

wrong i apologize he's associate

73

00:02:39,270 --> 00:02:36,879

administrator of the agency's science

74

00:02:41,110 --> 00:02:39,280

mission directorate so thomas is the guy

75

00:02:42,710 --> 00:02:41,120

who has taken the reins on this and is

76  
00:02:44,710 --> 00:02:42,720  
wrong with it and has made this happen

77  
00:02:46,869 --> 00:02:44,720  
so if people are like who why thomas is

78  
00:02:49,430 --> 00:02:46,879  
your guy

79  
00:02:51,270 --> 00:02:49,440  
so we kicked off with one of them saying

80  
00:02:53,030 --> 00:02:51,280  
frankly i think there's new science to

81  
00:02:55,110 --> 00:02:53,040  
be discovered which i thought was

82  
00:02:57,030 --> 00:02:55,120  
amazing the the safety of aircraft did

83  
00:02:58,790 --> 00:02:57,040  
come up but it was kind of secondary to

84  
00:03:00,550 --> 00:02:58,800  
them being excited about science which i

85  
00:03:02,470 --> 00:03:00,560  
love scientists should be curious and

86  
00:03:04,309 --> 00:03:02,480  
these guys definitely were thing we

87  
00:03:07,270 --> 00:03:04,319  
should emphasize is this is just step

88  
00:03:08,790 --> 00:03:07,280

one the remit of this

89

00:03:10,949 --> 00:03:08,800

is that the study will focus on

90

00:03:13,589 --> 00:03:10,959

identifying available data how best to

91

00:03:15,589 --> 00:03:13,599

collect future data and how nasa can use

92

00:03:18,229 --> 00:03:15,599

that data to move the scientific

93

00:03:19,750 --> 00:03:18,239

understanding of uap forward so like you

94

00:03:22,630 --> 00:03:19,760

say this is a nine-month study to just

95

00:03:25,190 --> 00:03:22,640

establish what's there um and

96

00:03:28,550 --> 00:03:25,200

key is that it's a transparent study so

97

00:03:30,550 --> 00:03:28,560

there's though some of the members of uh

98

00:03:32,949 --> 00:03:30,560

this group will have classified

99

00:03:35,190 --> 00:03:32,959

clearance they will not be dealing with

100

00:03:37,190 --> 00:03:35,200

classified data it will be public facing

101  
00:03:38,070 --> 00:03:37,200  
transparent and they will be having they

102  
00:03:39,990 --> 00:03:38,080  
said

103  
00:03:42,070 --> 00:03:40,000  
public press conferences and public

104  
00:03:43,990 --> 00:03:42,080  
reports as they go along into this which

105  
00:03:46,070 --> 00:03:44,000  
i thought was really wonderful

106  
00:03:48,229 --> 00:03:46,080  
just on that i want to clear this up

107  
00:03:50,309 --> 00:03:48,239  
early on that when when this was

108  
00:03:52,470 --> 00:03:50,319  
announced i saw people online straight

109  
00:03:54,710 --> 00:03:52,480  
away with with the classic

110  
00:03:57,030 --> 00:03:54,720  
nasa already know never a straight

111  
00:03:58,949 --> 00:03:57,040  
answer is what nasa stands for and nasa

112  
00:04:02,149 --> 00:03:58,959  
know what's going on with the ufo

113  
00:04:04,550 --> 00:04:02,159

phenomenon yeah but to be honest it's

114

00:04:06,470 --> 00:04:04,560

that age-old thing of i think there are

115

00:04:08,070 --> 00:04:06,480

a few people in the past or maybe

116

00:04:09,990 --> 00:04:08,080

presently who know what's going on in

117

00:04:12,070 --> 00:04:10,000

terms of the ufo phenomena or have a

118

00:04:14,550 --> 00:04:12,080

rough idea that we have things in our

119

00:04:16,390 --> 00:04:14,560

skies that aren't human technology

120

00:04:18,390 --> 00:04:16,400

however i don't think the gentleman

121

00:04:20,310 --> 00:04:18,400

involved in this

122

00:04:22,230 --> 00:04:20,320

are those people i think these are

123

00:04:24,070 --> 00:04:22,240

genuinely interested enthusiastic

124

00:04:25,430 --> 00:04:24,080

scientists they all sounded just to me

125

00:04:27,189 --> 00:04:25,440

dan i don't know if it came across to

126

00:04:29,030 --> 00:04:27,199

you hearing more of the call they all

127

00:04:30,950 --> 00:04:29,040

sounded quite open and interested in the

128

00:04:32,550 --> 00:04:30,960

subject of varying degrees as well like

129

00:04:34,710 --> 00:04:32,560

this is something they're quite excited

130

00:04:37,270 --> 00:04:34,720

and interested in and so i don't think

131

00:04:39,510 --> 00:04:37,280

this is the the gatekeepers here playing

132

00:04:41,189 --> 00:04:39,520

dumb this is genuinely something that

133

00:04:43,110 --> 00:04:41,199

bill nelson who is the nast

134

00:04:45,909 --> 00:04:43,120

administrator has a massive interest has

135

00:04:48,310 --> 00:04:45,919

been briefed on the ufo uap subject in

136

00:04:51,030 --> 00:04:48,320

government and his previous roles has as

137

00:04:52,870 --> 00:04:51,040

promised uh essentially that he wanted

138

00:04:55,110 --> 00:04:52,880

nasa to be more involved in the uap

139

00:04:57,189 --> 00:04:55,120

investigations and you have to say that

140

00:04:58,150 --> 00:04:57,199

he's keeping that promise because this

141

00:05:01,110 --> 00:04:58,160

is something that will have come

142

00:05:02,629 --> 00:05:01,120

directly from his stewardship of nasa uh

143

00:05:05,189 --> 00:05:02,639

and these gentlemen cannot taking the

144

00:05:06,870 --> 00:05:05,199

lead 100 and and we're going to be

145

00:05:07,990 --> 00:05:06,880

looking at so

146

00:05:09,110 --> 00:05:08,000

a question on people's lips will

147

00:05:11,029 --> 00:05:09,120

probably be are we going to be looking

148

00:05:12,790 --> 00:05:11,039

at historical data these gentlemen

149

00:05:14,390 --> 00:05:12,800

aren't aware of the historical data yet

150

00:05:16,070 --> 00:05:14,400

but they know that it exists and that

151  
00:05:17,909 --> 00:05:16,080  
was super encouraging

152  
00:05:21,270 --> 00:05:17,919  
they basically pointed out that there is

153  
00:05:22,790 --> 00:05:21,280  
a whole boatload of data um that isn't

154  
00:05:25,110 --> 00:05:22,800  
just in the government but it's from

155  
00:05:27,350 --> 00:05:25,120  
civilians nonprofits it's from companies

156  
00:05:28,710 --> 00:05:27,360  
and they will collect and analyze it all

157  
00:05:30,790 --> 00:05:28,720  
like i said the analysis is going to be

158  
00:05:32,469 --> 00:05:30,800  
step two but step one is going to inform

159  
00:05:34,550 --> 00:05:32,479  
them as to how they should analyze and

160  
00:05:36,310 --> 00:05:34,560  
how they should move forward

161  
00:05:38,390 --> 00:05:36,320  
they will also be secure in the council

162  
00:05:40,550 --> 00:05:38,400  
uh council of experts in scientific

163  
00:05:43,189 --> 00:05:40,560

aeronautics and data analytics

164

00:05:45,749 --> 00:05:43,199

communities uh to help them kind of pass

165

00:05:49,909 --> 00:05:45,759

this because it's a big job this is

166

00:05:51,029 --> 00:05:49,919

this is an anomalous phenomena that

167

00:05:52,710 --> 00:05:51,039

though it might have been studied by

168

00:05:54,150 --> 00:05:52,720

those gatekeepers like you say these

169

00:05:56,390 --> 00:05:54,160

people are new to it and we kind of have

170

00:05:57,830 --> 00:05:56,400

to start over and figure out how to go

171

00:06:00,950 --> 00:05:57,840

about this and

172

00:06:02,870 --> 00:06:00,960

what it is uh in a public-facing manner

173

00:06:04,629 --> 00:06:02,880

so you know combine this in your heads

174

00:06:05,990 --> 00:06:04,639

with galileo you know i think they're

175

00:06:07,909 --> 00:06:06,000

gonna end up feeding into each other

176  
00:06:09,350 --> 00:06:07,919  
pretty much i think one of the comments

177  
00:06:11,029 --> 00:06:09,360  
off the back of what you've said there

178  
00:06:12,550 --> 00:06:11,039  
from from one of the gents it was hard i

179  
00:06:15,110 --> 00:06:12,560  
was driving as i was listening to the to

180  
00:06:16,870 --> 00:06:15,120  
the conversation on on youtube um

181  
00:06:19,510 --> 00:06:16,880  
admitted that nasa's probably in the

182  
00:06:21,990 --> 00:06:19,520  
best place of any organization to study

183  
00:06:23,590 --> 00:06:22,000  
and an aid in the investigation of uaps

184  
00:06:25,749 --> 00:06:23,600  
given the technology they already have

185  
00:06:28,070 --> 00:06:25,759  
at the disposal given they are placed

186  
00:06:29,990 --> 00:06:28,080  
above the atmosphere and also below it

187  
00:06:32,150 --> 00:06:30,000  
as well so they can literally come at

188  
00:06:33,909 --> 00:06:32,160

this from a variety of angles that maybe

189

00:06:35,909 --> 00:06:33,919

others can't who are literally more or

190

00:06:37,430 --> 00:06:35,919

less just yeah literally that the rest

191

00:06:39,909 --> 00:06:37,440

of them are just looking up

192

00:06:41,590 --> 00:06:39,919

yeah um

193

00:06:42,629 --> 00:06:41,600

not not those with secret satellites

194

00:06:44,070 --> 00:06:42,639

looking down

195

00:06:44,950 --> 00:06:44,080

government and black knight satellite of

196

00:06:46,870 --> 00:06:44,960

course

197

00:06:48,710 --> 00:06:46,880

nasa don't do kind of under the

198

00:06:50,230 --> 00:06:48,720

atmosphere ground observations they're

199

00:06:52,070 --> 00:06:50,240

going to be using their tools that are

200

00:06:53,350 --> 00:06:52,080

you know orbiting and looking down so

201  
00:06:55,029 --> 00:06:53,360  
when you see these satellites are

202  
00:06:57,189 --> 00:06:55,039  
looking at you know the electromagnetic

203  
00:06:58,390 --> 00:06:57,199  
anomalies um oh sorry i shouldn't say

204  
00:07:01,110 --> 00:06:58,400  
the anomalies it's looking at the

205  
00:07:02,950 --> 00:07:01,120  
electromagnetics of the earth or you

206  
00:07:04,870 --> 00:07:02,960  
know the under ocean kind of currents or

207  
00:07:06,469 --> 00:07:04,880  
wind patterns or whatever they're going

208  
00:07:07,749 --> 00:07:06,479  
to be using those tools to kind of say

209  
00:07:09,350 --> 00:07:07,759  
hey was there something weird there and

210  
00:07:10,790 --> 00:07:09,360  
did we pick anything up i'm really

211  
00:07:13,430 --> 00:07:10,800  
curious what they would see if they went

212  
00:07:16,550 --> 00:07:13,440  
to uh the the west coast of america on

213  
00:07:17,990 --> 00:07:16,560

the 14th of november 2000 right okay so

214

00:07:20,309 --> 00:07:18,000

let me ask that because one thing i

215

00:07:22,230 --> 00:07:20,319

didn't get that come on coming across in

216

00:07:24,390 --> 00:07:22,240

that first half of the call i heard from

217

00:07:26,629 --> 00:07:24,400

from i think it was about half the call

218

00:07:29,270 --> 00:07:26,639

was when they talk about looking at the

219

00:07:30,710 --> 00:07:29,280

existing data are they going to be able

220

00:07:33,350 --> 00:07:30,720

to look at

221

00:07:35,510 --> 00:07:33,360

data from the dates of the tic tac event

222

00:07:37,670 --> 00:07:35,520

from the omaha the russell and other

223

00:07:39,350 --> 00:07:37,680

events that will be reported on

224

00:07:41,350 --> 00:07:39,360

to look and see what was going on at

225

00:07:44,150 --> 00:07:41,360

that time whether they have databases of

226

00:07:46,150 --> 00:07:44,160

imagery video and anomalies weather

227

00:07:47,350 --> 00:07:46,160

atmospheric conditions is that the sort

228

00:07:49,670 --> 00:07:47,360

of stuff they're going to be able to

229

00:07:52,390 --> 00:07:49,680

look at and plan on looking at yes in a

230

00:07:53,510 --> 00:07:52,400

nutshell which is awesome okay so think

231

00:07:55,189 --> 00:07:53,520

of it this way

232

00:07:56,710 --> 00:07:55,199

anything from david fraber's plane and

233

00:07:58,550 --> 00:07:56,720

those radars that were present and

234

00:08:01,670 --> 00:07:58,560

things like that that's all classified

235

00:08:04,070 --> 00:08:01,680

we can't see that but if nasa have you

236

00:08:05,670 --> 00:08:04,080

know a few images of i remember a year

237

00:08:07,110 --> 00:08:05,680

or so ago someone found what they

238

00:08:08,469 --> 00:08:07,120

thought was maybe the tic-tac kind of

239

00:08:10,710 --> 00:08:08,479

hovering over the water and some

240

00:08:12,950 --> 00:08:10,720

disturbance in the water now nasa have

241

00:08:15,589 --> 00:08:12,960

much higher fidelity

242

00:08:17,510 --> 00:08:15,599

tools and imagery than that so they

243

00:08:19,110 --> 00:08:17,520

could feasibly go look at that area and

244

00:08:22,469 --> 00:08:19,120

see if the tic tac was there before dave

245

00:08:24,550 --> 00:08:22,479

fraver even ever got there um so it's

246

00:08:26,390 --> 00:08:24,560

gonna be real interesting i i'd love if

247

00:08:29,110 --> 00:08:26,400

i could work anywhere right now

248

00:08:31,189 --> 00:08:29,120

uh to study this phenomenon i i would

249

00:08:32,870 --> 00:08:31,199

love to be working at nasa like you said

250

00:08:34,469 --> 00:08:32,880

they're curious and excited well you

251  
00:08:36,469 --> 00:08:34,479  
think that event happened over seven to

252  
00:08:39,269 --> 00:08:36,479  
ten days and those objects hovered in

253  
00:08:41,350 --> 00:08:39,279  
one area as gary verheeson talked about

254  
00:08:43,190 --> 00:08:41,360  
on the spy 1 radar that they could see

255  
00:08:44,310 --> 00:08:43,200  
these things sitting for 12 hours at a

256  
00:08:45,670 --> 00:08:44,320  
time

257  
00:08:47,590 --> 00:08:45,680  
like you know like a fleet of them

258  
00:08:50,150 --> 00:08:47,600  
essentially yeah just dropping in from

259  
00:08:51,430 --> 00:08:50,160  
that 80 000 feet staying where they were

260  
00:08:54,230 --> 00:08:51,440  
and then they would head off either

261  
00:08:56,710 --> 00:08:54,240  
underwater or back whatever so there

262  
00:08:58,470 --> 00:08:56,720  
must be quite a decent time scaling time

263  
00:09:00,790 --> 00:08:58,480

frame for them to look at just for that

264

00:09:02,310 --> 00:09:00,800

event yeah and and that's where dropping

265

00:09:03,430 --> 00:09:02,320

in if they were dropping in from that

266

00:09:04,949 --> 00:09:03,440

atmosphere

267

00:09:06,630 --> 00:09:04,959

you know that kind of level of orbit

268

00:09:07,430 --> 00:09:06,640

sorry like 80 000 feet which is where

269

00:09:11,990 --> 00:09:07,440

the

270

00:09:13,509 --> 00:09:12,000

from higher than that and that that

271

00:09:15,030 --> 00:09:13,519

would be really interesting to me just

272

00:09:17,509 --> 00:09:15,040

just alone

273

00:09:19,509 --> 00:09:17,519

yeah it it's got to be an exciting place

274

00:09:20,389 --> 00:09:19,519

to uh to start pouring through the data

275

00:09:22,870 --> 00:09:20,399

and i love that they're bringing in

276

00:09:25,190 --> 00:09:22,880

civilian data as well because again if

277

00:09:27,750 --> 00:09:25,200

you know bob smith from arizona spot

278

00:09:29,670 --> 00:09:27,760

something in the sky they can just have

279

00:09:30,949 --> 00:09:29,680

a look at their satellites we we know

280

00:09:34,470 --> 00:09:30,959

that there's kind of a lot of stuff up

281

00:09:36,150 --> 00:09:34,480

there um nasa don't necessarily have the

282

00:09:38,070 --> 00:09:36,160

best stuff up there that would be the

283

00:09:39,590 --> 00:09:38,080

national security agency and places like

284

00:09:41,829 --> 00:09:39,600

that but nasa always get the

285

00:09:43,590 --> 00:09:41,839

hand-me-downs from places like that so a

286

00:09:45,829 --> 00:09:43,600

lot of their tools will be you know the

287

00:09:47,829 --> 00:09:45,839

old nsa satellites and things like that

288

00:09:49,670 --> 00:09:47,839

um really gives you pause to what the

289

00:09:51,110 --> 00:09:49,680

nsa and places like that would know

290

00:09:53,750 --> 00:09:51,120

about this phenomenon given that they

291

00:09:55,190 --> 00:09:53,760

can look at that data

292

00:09:56,790 --> 00:09:55,200

budget was

293

00:09:59,030 --> 00:09:56,800

apparently between ten and a hundred

294

00:10:00,710 --> 00:09:59,040

thousand dollars dan is that correct

295

00:10:02,550 --> 00:10:00,720

that is correct sorry i'm just going

296

00:10:05,430 --> 00:10:02,560

through my notes finally no no i'm sorry

297

00:10:09,910 --> 00:10:07,110

tens of thousands to

298

00:10:11,190 --> 00:10:09,920

about a hundred thousand um

299

00:10:12,710 --> 00:10:11,200

like i said they're going to be going

300

00:10:14,310 --> 00:10:12,720

through the data right now they're not

301

00:10:15,990 --> 00:10:14,320

going to be analyzing it they're

302

00:10:17,990 --> 00:10:16,000

essentially making a big pile of

303

00:10:19,350 --> 00:10:18,000

anomalous data and that word was used as

304

00:10:21,910 --> 00:10:19,360

well they spoke about the anomalous

305

00:10:23,910 --> 00:10:21,920

movements which i thought was awesome uh

306

00:10:25,190 --> 00:10:23,920

in the in the press release just before

307

00:10:27,509 --> 00:10:25,200

they did this

308

00:10:29,509 --> 00:10:27,519

they actually kind of took a moment in

309

00:10:30,829 --> 00:10:29,519

it to say that there is no evidence that

310

00:10:32,630 --> 00:10:30,839

this is

311

00:10:36,310 --> 00:10:32,640

extraterrestrials and someone brought

312

00:10:37,829 --> 00:10:36,320

that up that line up uh in in the q a

313

00:10:40,470 --> 00:10:37,839

and they said you know that's that's

314

00:10:42,550 --> 00:10:40,480

quite a statement to be making before

315

00:10:45,829 --> 00:10:42,560

you've done any study and the three

316

00:10:47,750 --> 00:10:45,839

people present two pains to to emphasize

317

00:10:49,590 --> 00:10:47,760

actually what what that means is that we

318

00:10:51,350 --> 00:10:49,600

currently don't have any evidence to

319

00:10:54,389 --> 00:10:51,360

show this and they emphasize the we as

320

00:10:56,630 --> 00:10:54,399

well as in those three people so

321

00:10:58,389 --> 00:10:56,640

it's not that they're not it's that they

322

00:11:00,550 --> 00:10:58,399

can't prove it right now and if they

323

00:11:01,430 --> 00:11:00,560

could prove it they would happily say it

324

00:11:02,870 --> 00:11:01,440

so

325

00:11:05,430 --> 00:11:02,880

it's really exciting to have people with

326

00:11:07,509 --> 00:11:05,440

such open minds uh approaching this in a

327

00:11:09,030 --> 00:11:07,519

scientific way and that's fair can i

328

00:11:10,550 --> 00:11:09,040

just say on the budget side of things so

329

00:11:12,630 --> 00:11:10,560

it reminded me when i heard that and a

330

00:11:14,630 --> 00:11:12,640

few people had commented on it online

331

00:11:16,470 --> 00:11:14,640

that you know atep had a budget 22

332

00:11:18,150 --> 00:11:16,480

million dollars to which people kind of

333

00:11:20,150 --> 00:11:18,160

scoffed at but

334

00:11:22,069 --> 00:11:20,160

speaking to luella zondo when we did in

335

00:11:23,990 --> 00:11:22,079

those early interviews and even since

336

00:11:26,069 --> 00:11:24,000

when he's mentioned that that you know

337

00:11:28,389 --> 00:11:26,079

you you can walk down the corridor and

338

00:11:30,230 --> 00:11:28,399

ask the guys in this room to show me

339

00:11:31,670 --> 00:11:30,240

x y and z and if someone else in a

340

00:11:33,269 --> 00:11:31,680

different department could use this

341

00:11:35,190 --> 00:11:33,279

piece of equipment that doesn't

342

00:11:36,630 --> 00:11:35,200

necessarily then involve any cash and

343

00:11:39,430 --> 00:11:36,640

like you see if nasa are talking about

344

00:11:41,350 --> 00:11:39,440

using existing equipment existing data

345

00:11:43,509 --> 00:11:41,360

and its data collection data collating

346

00:11:45,910 --> 00:11:43,519

and data comparison then that doesn't

347

00:11:47,269 --> 00:11:45,920

necessarily need a budget of tens of

348

00:11:49,990 --> 00:11:47,279

millions or hundreds of millions of

349

00:11:52,389 --> 00:11:50,000

dollars for a for a phase one of what is

350

00:11:53,910 --> 00:11:52,399

a nine month long investigation or study

351  
00:11:56,069 --> 00:11:53,920  
yeah exactly you you don't want to fund

352  
00:11:57,269 --> 00:11:56,079  
this too much up front and end up with

353  
00:11:58,790 --> 00:11:57,279  
people complaining about the amount of

354  
00:12:00,470 --> 00:11:58,800  
money you're spending on it and pulling

355  
00:12:02,710 --> 00:12:00,480  
the rug from under it you want to give

356  
00:12:04,949 --> 00:12:02,720  
it exactly as much as it needs um and

357  
00:12:06,310 --> 00:12:04,959  
that includes attention as well one of

358  
00:12:07,269 --> 00:12:06,320  
the other things i love they spoke about

359  
00:12:08,230 --> 00:12:07,279  
is

360  
00:12:10,069 --> 00:12:08,240  
nature

361  
00:12:11,910 --> 00:12:10,079  
the line was don't ever underestimate

362  
00:12:13,750 --> 00:12:11,920  
what nature can do for you

363  
00:12:15,430 --> 00:12:13,760

and i think that's that's such a great

364

00:12:17,030 --> 00:12:15,440

line and it's worth remembering because

365

00:12:18,949 --> 00:12:17,040

we do not understand everything out

366

00:12:20,150 --> 00:12:18,959

there we're always finding new things

367

00:12:22,550 --> 00:12:20,160

just this week we're starting to talk

368

00:12:24,389 --> 00:12:22,560

about dark matter stars that we didn't

369

00:12:25,829 --> 00:12:24,399

talk about before and for anyone that

370

00:12:27,990 --> 00:12:25,839

doesn't know dark matter makes up about

371

00:12:30,550 --> 00:12:28,000

95 of the universe and we don't know

372

00:12:32,069 --> 00:12:30,560

what it is so it might end up making a

373

00:12:34,710 --> 00:12:32,079

small percentage and the rest is full of

374

00:12:35,910 --> 00:12:34,720

a shadow biosphere or something uh it's

375

00:12:37,910 --> 00:12:35,920

really intriguing and i love that

376

00:12:40,150 --> 00:12:37,920

they're keeping those possibility open

377

00:12:41,509 --> 00:12:40,160

they spoke about the stigma as well

378

00:12:43,990 --> 00:12:41,519

which i think is important to mention

379

00:12:45,670 --> 00:12:44,000

that was my next bullet point yet

380

00:12:47,509 --> 00:12:45,680

they essentially

381

00:12:49,750 --> 00:12:47,519

brought it up uh using the phrase

382

00:12:51,990 --> 00:12:49,760

reputational risk um

383

00:12:53,990 --> 00:12:52,000

and addressed the fact that just by

384

00:12:56,790 --> 00:12:54,000

having this conversation

385

00:12:59,269 --> 00:12:56,800

that they're pulling that stigma apart

386

00:13:02,310 --> 00:12:59,279

and it will result in more reports we've

387

00:13:03,990 --> 00:13:02,320

already seen the in in the us hearings

388

00:13:05,750 --> 00:13:04,000

bray and moultrie said that they think

389

00:13:07,509 --> 00:13:05,760

that the reason for increased reporting

390

00:13:09,590 --> 00:13:07,519

is that the report guidelines are there

391

00:13:11,030 --> 00:13:09,600

now and pilots are losing the stigma so

392

00:13:12,310 --> 00:13:11,040

they're actually saying something

393

00:13:15,990 --> 00:13:12,320

whereas other people think that the

394

00:13:17,750 --> 00:13:16,000

activity is increasing whereas

395

00:13:19,509 --> 00:13:17,760

now we're going to get the same thing

396

00:13:21,269 --> 00:13:19,519

probably from civilians and things like

397

00:13:23,590 --> 00:13:21,279

that and it's a real good opportunity

398

00:13:25,750 --> 00:13:23,600

for nasa to educate as well because if

399

00:13:28,629 --> 00:13:25,760

there are you know a lot

400

00:13:30,389 --> 00:13:28,639

say a hundred reports out of 110 reports

401  
00:13:32,230 --> 00:13:30,399  
of starlink it's going to be great to

402  
00:13:34,389 --> 00:13:32,240  
show the world what styling is and talk

403  
00:13:36,710 --> 00:13:34,399  
about that a little bit and and just on

404  
00:13:37,910 --> 00:13:36,720  
that front hopefully an upcoming episode

405  
00:13:39,269 --> 00:13:37,920  
of coloring outside the lines we'll be

406  
00:13:41,670 --> 00:13:39,279  
talking about satellites and things in

407  
00:13:43,030 --> 00:13:41,680  
space and things like that so that will

408  
00:13:43,829 --> 00:13:43,040  
hopefully shed some light for people

409  
00:13:47,189 --> 00:13:43,839  
there

410  
00:13:49,269 --> 00:13:47,199  
same gentleman who was talking about the

411  
00:13:51,350 --> 00:13:49,279  
stigma side of it there was a quote to

412  
00:13:53,030 --> 00:13:51,360  
paraphrase where he mentioned that the

413  
00:13:54,710 --> 00:13:53,040

quality of sign should be determined by

414

00:13:56,629 --> 00:13:54,720

the quality of the output

415

00:13:59,829 --> 00:13:56,639

and again that's that that's a little

416

00:14:02,710 --> 00:13:59,839

bit of a scientific and respectful dig

417

00:14:05,430 --> 00:14:02,720

at those scientists who who scoff at the

418

00:14:06,790 --> 00:14:05,440

subject before they even themselves dare

419

00:14:09,110 --> 00:14:06,800

to look into it in any kind of

420

00:14:10,389 --> 00:14:09,120

scientific and serious way which these

421

00:14:11,509 --> 00:14:10,399

these people are saying you know we've

422

00:14:13,189 --> 00:14:11,519

got the equipment we've got the

423

00:14:15,430 --> 00:14:13,199

technology and we have the staff we have

424

00:14:17,110 --> 00:14:15,440

the academics we have the people let's

425

00:14:17,910 --> 00:14:17,120

look at this properly now

426  
00:14:19,670 --> 00:14:17,920  
and

427  
00:14:21,509 --> 00:14:19,680  
let's let the results speak for

428  
00:14:22,790 --> 00:14:21,519  
themselves that's that's essentially

429  
00:14:24,710 --> 00:14:22,800  
what they're saying and i think you have

430  
00:14:26,790 --> 00:14:24,720  
to at least give them that opportunity

431  
00:14:28,710 --> 00:14:26,800  
yeah absolutely you know we

432  
00:14:30,790 --> 00:14:28,720  
the community kind of rails on on people

433  
00:14:32,629 --> 00:14:30,800  
like mick west a lot but the fact is

434  
00:14:34,949 --> 00:14:32,639  
he's doing the work that

435  
00:14:36,230 --> 00:14:34,959  
he can do i.e you know if he's at home

436  
00:14:37,670 --> 00:14:36,240  
he's using the things that he has he

437  
00:14:39,030 --> 00:14:37,680  
doesn't have satellites above that he

438  
00:14:41,030 --> 00:14:39,040

can go back and look at the imagery and

439

00:14:44,310 --> 00:14:41,040

i'm sure he would if he could but he

440

00:14:45,910 --> 00:14:44,320

doesn't and until someone like nasa

441

00:14:47,829 --> 00:14:45,920

takes this and runs with it

442

00:14:50,470 --> 00:14:47,839

we're just going to be a bunch of people

443

00:14:51,670 --> 00:14:50,480

examining videos of dots in the sky that

444

00:14:54,069 --> 00:14:51,680

you know we'll argue over till we're

445

00:14:56,230 --> 00:14:54,079

blue in the face we need multi-sensor

446

00:14:58,310 --> 00:14:56,240

analysis so

447

00:14:59,750 --> 00:14:58,320

if nasa sees something you know take on

448

00:15:01,990 --> 00:14:59,760

that tic tac day

449

00:15:03,350 --> 00:15:02,000

then they can start having a look at the

450

00:15:05,030 --> 00:15:03,360

other satellites that they have there

451  
00:15:07,030 --> 00:15:05,040  
maybe look if any gamma rays were

452  
00:15:08,790 --> 00:15:07,040  
emitted or cosmic rays or you know

453  
00:15:11,430 --> 00:15:08,800  
things like that it's going to be a real

454  
00:15:13,110 --> 00:15:11,440  
real interesting time to

455  
00:15:15,269 --> 00:15:13,120  
to see

456  
00:15:17,590 --> 00:15:15,279  
how they exist and how they see the

457  
00:15:19,910 --> 00:15:17,600  
world because

458  
00:15:21,110 --> 00:15:19,920  
and we've had this conversation uh or

459  
00:15:23,030 --> 00:15:21,120  
i've had this conversation with a few

460  
00:15:25,189 --> 00:15:23,040  
people just wondering

461  
00:15:26,790 --> 00:15:25,199  
if they can even see us in the way that

462  
00:15:28,069 --> 00:15:26,800  
we see the world you know in visible

463  
00:15:30,710 --> 00:15:28,079

light if they're in some other part of

464

00:15:32,230 --> 00:15:30,720

the spectrum or better off

465

00:15:34,470 --> 00:15:32,240

i'm glad you mentioned that about the

466

00:15:35,670 --> 00:15:34,480

the debunking and you know what mcquest

467

00:15:38,150 --> 00:15:35,680

does and he does some good work in

468

00:15:40,870 --> 00:15:38,160

various other aspects of of what he does

469

00:15:42,629 --> 00:15:40,880

in terms of analysis however

470

00:15:45,110 --> 00:15:42,639

looking at the people have asked why we

471

00:15:46,550 --> 00:15:45,120

haven't talked about the jubilee ufo for

472

00:15:48,310 --> 00:15:46,560

example that's came up because very

473

00:15:49,670 --> 00:15:48,320

quickly we were in our kind of private

474

00:15:51,030 --> 00:15:49,680

chat and

475

00:15:52,470 --> 00:15:51,040

i think you guys were saying graham

476

00:15:53,910 --> 00:15:52,480

rendolin call that it looks like it's

477

00:15:57,110 --> 00:15:53,920

really close to the camera to be fair

478

00:15:58,470 --> 00:15:57,120

rather than it just as a parallax effect

479

00:16:00,470 --> 00:15:58,480

you think it's close to the jets and

480

00:16:02,629 --> 00:16:00,480

it's actually not as close to the camera

481

00:16:04,150 --> 00:16:02,639

so it could just be a bird flying across

482

00:16:06,470 --> 00:16:04,160

or a balloon or whatever and there's

483

00:16:07,990 --> 00:16:06,480

probably nothing to it however if you

484

00:16:09,269 --> 00:16:08,000

want to see it's a dot going across the

485

00:16:10,790 --> 00:16:09,279

screen then yeah

486

00:16:12,870 --> 00:16:10,800

what we don't have is

487

00:16:14,790 --> 00:16:12,880

for example let's talk about that dhs

488

00:16:16,710 --> 00:16:14,800

video from a few weeks ago we have a

489

00:16:19,590 --> 00:16:16,720

pilot identifying three objects moving

490

00:16:22,629 --> 00:16:19,600

at a speed they they claimed was mac

491

00:16:24,230 --> 00:16:22,639

x y and z and the objects you know they

492

00:16:26,389 --> 00:16:24,240

weren't birds he thought they were

493

00:16:28,150 --> 00:16:26,399

aircraft so that's that's a little bit

494

00:16:30,629 --> 00:16:28,160

of a difference not to say either video

495

00:16:32,150 --> 00:16:30,639

as anything untoward and and what people

496

00:16:34,629 --> 00:16:32,160

like can do is they don't prove

497

00:16:36,310 --> 00:16:34,639

something isn't a ufo in terms of an

498

00:16:38,069 --> 00:16:36,320

anomalous craft what they do is they

499

00:16:40,710 --> 00:16:38,079

tend to prove especially with that

500

00:16:43,110 --> 00:16:40,720

limited capability and others have as

501  
00:16:45,110 --> 00:16:43,120  
they prove they can recreate a shape

502  
00:16:47,110 --> 00:16:45,120  
it is essentially what they do on video

503  
00:16:48,949 --> 00:16:47,120  
oh look i can make a triangle out of a

504  
00:16:51,269 --> 00:16:48,959  
light or i can make a circle out of a

505  
00:16:53,509 --> 00:16:51,279  
light or i can make this bird look like

506  
00:16:54,949 --> 00:16:53,519  
that and i think when you look at nature

507  
00:16:55,990 --> 00:16:54,959  
regardless of this phenomena that we're

508  
00:16:58,550 --> 00:16:56,000  
looking at

509  
00:17:00,710 --> 00:16:58,560  
all the different types of craft or orbs

510  
00:17:03,430 --> 00:17:00,720  
or whatever these structures are they

511  
00:17:05,429 --> 00:17:03,440  
all have shapes they all have circular

512  
00:17:07,990 --> 00:17:05,439  
triangular rectangular whatever it might

513  
00:17:09,429 --> 00:17:08,000

be you know balls spherical

514

00:17:10,949 --> 00:17:09,439

and you can recreate those in any way

515

00:17:12,309 --> 00:17:10,959

shape or form so just because you can

516

00:17:15,350 --> 00:17:12,319

recreate the shape

517

00:17:16,870 --> 00:17:15,360

doesn't mean it's not something

518

00:17:18,230 --> 00:17:16,880

still anomalous all you're saying is

519

00:17:19,429 --> 00:17:18,240

well i can also make it look like a

520

00:17:20,710 --> 00:17:19,439

circle yeah but it doesn't mean that

521

00:17:23,029 --> 00:17:20,720

circle is not

522

00:17:24,870 --> 00:17:23,039

non-human or advanced technology or

523

00:17:25,990 --> 00:17:24,880

whatever it may be and that's you know

524

00:17:27,110 --> 00:17:26,000

just something i was thinking of the

525

00:17:28,789 --> 00:17:27,120

other day when i was when i was looking

526

00:17:30,470 --> 00:17:28,799

at some videos that were online so but

527

00:17:31,430 --> 00:17:30,480

yeah yeah you're totally right just

528

00:17:32,870 --> 00:17:31,440

because it looks the same it doesn't

529

00:17:34,470 --> 00:17:32,880

mean there is that thing and that's why

530

00:17:35,909 --> 00:17:34,480

we need more analysis and that's where

531

00:17:38,630 --> 00:17:35,919

these guys come in you know they they

532

00:17:40,789 --> 00:17:38,640

could take something that make it

533

00:17:42,710 --> 00:17:40,799

put a you know 80 chance of being a

534

00:17:43,750 --> 00:17:42,720

balloon on and blow it apart or confirm

535

00:17:45,350 --> 00:17:43,760

it you know

536

00:17:47,430 --> 00:17:45,360

these are the guys with the tools that

537

00:17:50,070 --> 00:17:47,440

we want and another thing that interests

538

00:17:52,310 --> 00:17:50,080

me was that someone asked about uh

539

00:17:53,270 --> 00:17:52,320

before now has anyone accessed the nasa

540

00:17:55,590 --> 00:17:53,280

data

541

00:17:56,470 --> 00:17:55,600

for this reason to study uap

542

00:17:58,150 --> 00:17:56,480

and

543

00:18:00,230 --> 00:17:58,160

they said that they're not aware of

544

00:18:01,510 --> 00:18:00,240

anyone that has

545

00:18:03,190 --> 00:18:01,520

but

546

00:18:05,830 --> 00:18:03,200

that they acknowledge the work done in

547

00:18:07,909 --> 00:18:05,840

the dod already but they they're looking

548

00:18:09,430 --> 00:18:07,919

at what they can contribute using

549

00:18:11,029 --> 00:18:09,440

science tools

550

00:18:13,270 --> 00:18:11,039

being fully transparent and open like i

551  
00:18:16,230 --> 00:18:13,280  
said reports public meetings

552  
00:18:18,390 --> 00:18:16,240  
which necessitates it being unclassified

553  
00:18:20,390 --> 00:18:18,400  
so we're not going to see a partition on

554  
00:18:22,390 --> 00:18:20,400  
a wall erected here between us and and

555  
00:18:24,630 --> 00:18:22,400  
that we we now have

556  
00:18:27,029 --> 00:18:24,640  
the public facing uap conversation

557  
00:18:28,549 --> 00:18:27,039  
coming from the public facing science

558  
00:18:30,150 --> 00:18:28,559  
organization

559  
00:18:31,830 --> 00:18:30,160  
in the usa

560  
00:18:33,750 --> 00:18:31,840  
and nasa

561  
00:18:35,750 --> 00:18:33,760  
we speak speak about the james webb

562  
00:18:37,990 --> 00:18:35,760  
telescope a lot and

563  
00:18:39,430 --> 00:18:38,000

no doubt people think that's nasa and

564

00:18:41,270 --> 00:18:39,440

the fact is it's about four or five

565

00:18:43,029 --> 00:18:41,280

other teams but nasa just coordinate

566

00:18:44,710 --> 00:18:43,039

because they're such a big team science

567

00:18:46,470 --> 00:18:44,720

isn't like other things where there are

568

00:18:47,990 --> 00:18:46,480

borders between the countries scientists

569

00:18:50,470 --> 00:18:48,000

love working together because it's all

570

00:18:52,310 --> 00:18:50,480

about the data and tools

571

00:18:54,870 --> 00:18:52,320

i would struggle to believe just

572

00:18:57,110 --> 00:18:54,880

personally this comes from god no place

573

00:18:59,510 --> 00:18:57,120

of knowledge but people like louis

574

00:19:02,150 --> 00:18:59,520

elizondo and chris melon have never in

575

00:19:04,150 --> 00:19:02,160

their ufo conversations and the people

576

00:19:06,070 --> 00:19:04,160

they you know conversed with and

577

00:19:07,590 --> 00:19:06,080

officially unofficially went what the

578

00:19:09,590 --> 00:19:07,600

hell does nasa have on this because

579

00:19:11,669 --> 00:19:09,600

those guys are in space already

580

00:19:13,510 --> 00:19:11,679

you know that those conversations must

581

00:19:14,950 --> 00:19:13,520

have happened i'd be amazed if they had

582

00:19:16,470 --> 00:19:14,960

that that's where i would say that

583

00:19:18,549 --> 00:19:16,480

chances are that's where they go to

584

00:19:20,870 --> 00:19:18,559

places like the nsa and there are other

585

00:19:23,510 --> 00:19:20,880

organizations with really great high

586

00:19:24,870 --> 00:19:23,520

fidelity satellites you know they're

587

00:19:28,150 --> 00:19:24,880

for an example

588

00:19:30,710 --> 00:19:28,160

so we we have satellites that could

589

00:19:31,990 --> 00:19:30,720

allow us to understand the rainfall in a

590

00:19:34,390 --> 00:19:32,000

certain part of the world that would

591

00:19:36,549 --> 00:19:34,400

tell us that in a week or two a certain

592

00:19:38,070 --> 00:19:36,559

village is going to be flooded

593

00:19:39,590 --> 00:19:38,080

those satellites unfortunately are

594

00:19:41,430 --> 00:19:39,600

classified which means that data is

595

00:19:43,350 --> 00:19:41,440

classified which means the person who

596

00:19:45,909 --> 00:19:43,360

sees that first domino fall in that

597

00:19:47,510 --> 00:19:45,919

series of events can't say anything and

598

00:19:50,230 --> 00:19:47,520

and there are lives at stake in some of

599

00:19:52,390 --> 00:19:50,240

those situations so we we need to kind

600

00:19:54,390 --> 00:19:52,400

of get to a place where like yes there

601  
00:19:55,750 --> 00:19:54,400  
are probably better places that have

602  
00:19:57,430 --> 00:19:55,760  
data and things like that but we've got

603  
00:19:59,029 --> 00:19:57,440  
to work with what we have and wrestle

604  
00:20:00,230 --> 00:19:59,039  
the control of this subject away from

605  
00:20:01,830 --> 00:20:00,240  
the people that are holding it behind

606  
00:20:03,750 --> 00:20:01,840  
those pearly gates

607  
00:20:05,270 --> 00:20:03,760  
yeah the last kind of part i'd heard on

608  
00:20:07,270 --> 00:20:05,280  
the call was probably before what you're

609  
00:20:08,789 --> 00:20:07,280  
discussing on but it was very much on

610  
00:20:10,789 --> 00:20:08,799  
the wealth of talent that nasa has

611  
00:20:12,070 --> 00:20:10,799  
already at its disposal and the people

612  
00:20:13,669 --> 00:20:12,080  
that are going to potentially now be

613  
00:20:15,110 --> 00:20:13,679

working on this that

614

00:20:17,029 --> 00:20:15,120

more interestingly might not even have

615

00:20:19,029 --> 00:20:17,039

an interest in the ufo subject although

616

00:20:20,390 --> 00:20:19,039

i imagine many working at nasa do have

617

00:20:22,549 --> 00:20:20,400

some kind of geeky

618

00:20:25,029 --> 00:20:22,559

science background and enjoyed star trek

619

00:20:26,789 --> 00:20:25,039

or star wars or you know those kind of

620

00:20:28,710 --> 00:20:26,799

aspirations of a child growing up that

621

00:20:31,029 --> 00:20:28,720

they they saw nasa as being in the

622

00:20:33,990 --> 00:20:31,039

future but to have some people working

623

00:20:35,909 --> 00:20:34,000

on this that may be like really ufos uap

624

00:20:36,710 --> 00:20:35,919

all right okay and they're just applying

625

00:20:38,310 --> 00:20:36,720

that

626

00:20:40,230 --> 00:20:38,320

knowledge and skill set to this and

627

00:20:41,990 --> 00:20:40,240

going right let's let's look at it from

628

00:20:43,350 --> 00:20:42,000

a non-biased point of view an unbiased

629

00:20:44,630 --> 00:20:43,360

point of view i'm not going into it

630

00:20:46,230 --> 00:20:44,640

because that was one of the questions i

631

00:20:48,149 --> 00:20:46,240

think or or even one of the first

632

00:20:49,750 --> 00:20:48,159

questions asked on the q a which is just

633

00:20:51,430 --> 00:20:49,760

where my call cut off

634

00:20:52,470 --> 00:20:51,440

was one of the the guys was asked about

635

00:20:54,390 --> 00:20:52,480

are they going into this with a

636

00:20:56,470 --> 00:20:54,400

hypothesis already

637

00:20:57,350 --> 00:20:56,480

and they were like nah not really just

638

00:20:58,630 --> 00:20:57,360

you know

639

00:21:00,630 --> 00:20:58,640

there's a lot of data there's a lot of

640

00:21:02,470 --> 00:21:00,640

signs to be done it's it was all very

641

00:21:03,909 --> 00:21:02,480

much like exciting and kind of like i

642

00:21:05,750 --> 00:21:03,919

know football manager starting in the

643

00:21:07,669 --> 00:21:05,760

new season it's like i'm really excited

644

00:21:08,870 --> 00:21:07,679

to get going and get to know my team see

645

00:21:09,990 --> 00:21:08,880

what they can do and see where we can

646

00:21:11,750 --> 00:21:10,000

take this

647

00:21:13,990 --> 00:21:11,760

yeah yeah absolutely they were super

648

00:21:16,070 --> 00:21:14,000

excited to turn this what was the phrase

649

00:21:18,070 --> 00:21:16,080

they used turning a data poor field into

650

00:21:19,430 --> 00:21:18,080

a data rich field that's the transition

651  
00:21:21,669 --> 00:21:19,440  
we're in now and there are a lot of

652  
00:21:22,789 --> 00:21:21,679  
places kind of doing that uh they said

653  
00:21:24,870 --> 00:21:22,799  
they want to start poking at this

654  
00:21:26,549 --> 00:21:24,880  
phenomena from multiple directions uh

655  
00:21:28,710 --> 00:21:26,559  
which which i loved again coming from

656  
00:21:29,590 --> 00:21:28,720  
nasa like that's such a cool statement

657  
00:21:31,029 --> 00:21:29,600  
uh we

658  
00:21:32,789 --> 00:21:31,039  
you know may have been here before with

659  
00:21:34,950 --> 00:21:32,799  
with some things in the past with like

660  
00:21:36,630 --> 00:21:34,960  
blue book and things but

661  
00:21:37,669 --> 00:21:36,640  
i genuinely feel that the people that

662  
00:21:39,430 --> 00:21:37,679  
were speaking on that call were

663  
00:21:41,669 --> 00:21:39,440

open-minded and ready to just go where

664

00:21:43,190 --> 00:21:41,679

the data takes them do you remember when

665

00:21:44,950 --> 00:21:43,200

mcdonald's used to do a mcdonald's

666

00:21:46,310 --> 00:21:44,960

monopoly and they still do it now here

667

00:21:48,549 --> 00:21:46,320

in the uk i don't know if they still do

668

00:21:50,630 --> 00:21:48,559

it in the us and you could win like the

669

00:21:52,149 --> 00:21:50,640

big prize of like a quarter of a million

670

00:21:55,110 --> 00:21:52,159

and a million pounds if you could get

671

00:21:57,430 --> 00:21:55,120

what is it mayfair and parklane

672

00:21:59,110 --> 00:21:57,440

yeah the blue ones the dark yeah the two

673

00:22:01,110 --> 00:21:59,120

blue ones and

674

00:22:03,110 --> 00:22:01,120

what you're looking for is you need both

675

00:22:04,549 --> 00:22:03,120

to win lots of people obviously get one

676  
00:22:07,029 --> 00:22:04,559  
of them and only so many of the others

677  
00:22:08,630 --> 00:22:07,039  
are printed but

678  
00:22:09,990 --> 00:22:08,640  
when they say data poor i think

679  
00:22:12,630 --> 00:22:10,000  
essentially as well what you've got to

680  
00:22:13,990 --> 00:22:12,640  
consider is that other departments other

681  
00:22:15,990 --> 00:22:14,000  
areas other countries other

682  
00:22:18,549 --> 00:22:16,000  
organizations within out with government

683  
00:22:20,310 --> 00:22:18,559  
have parts of the puzzle and if they can

684  
00:22:22,230 --> 00:22:20,320  
just find you know we've got this and

685  
00:22:24,630 --> 00:22:22,240  
it's not great on its own i win nothing

686  
00:22:26,390 --> 00:22:24,640  
but if we can find the other person with

687  
00:22:28,789 --> 00:22:26,400  
us other bit of data this other bit of

688  
00:22:31,510 --> 00:22:28,799

information then putting them together

689

00:22:33,430 --> 00:22:31,520

you know jackpot and again hopefully

690

00:22:35,029 --> 00:22:33,440

with nasa being involved and we hear

691

00:22:36,789 --> 00:22:35,039

about the air force and the army and

692

00:22:39,110 --> 00:22:36,799

such getting more involved in this as

693

00:22:41,430 --> 00:22:39,120

well if these organizations and it's

694

00:22:42,870 --> 00:22:41,440

something i'll touch on jim semivan said

695

00:22:44,549 --> 00:22:42,880

if they can all just start talking to

696

00:22:46,470 --> 00:22:44,559

each other as they should

697

00:22:48,390 --> 00:22:46,480

then this will click into place quickly

698

00:22:50,390 --> 00:22:48,400

for people and you can only imagine the

699

00:22:52,549 --> 00:22:50,400

network that they could have with all

700

00:22:54,149 --> 00:22:52,559

that technology and all that data where

701  
00:22:56,230 --> 00:22:54,159  
all of a sudden you can get rid of a lot

702  
00:22:57,830 --> 00:22:56,240  
of that clutter very quickly and have

703  
00:23:00,149 --> 00:22:57,840  
some very very interesting that that

704  
00:23:02,070 --> 00:23:00,159  
kind of data rich pool to look at

705  
00:23:03,190 --> 00:23:02,080  
yeah absolutely and as we go forward

706  
00:23:05,510 --> 00:23:03,200  
with this as well we're going to start

707  
00:23:07,350 --> 00:23:05,520  
understanding what data we need in there

708  
00:23:08,390 --> 00:23:07,360  
you know what does it matter that bob

709  
00:23:10,310 --> 00:23:08,400  
smith was

710  
00:23:12,149 --> 00:23:10,320  
smoking outside a walk in his dog for

711  
00:23:14,070 --> 00:23:12,159  
example does it matter that chris

712  
00:23:15,750 --> 00:23:14,080  
bledsoe was going through possibly the

713  
00:23:17,909 --> 00:23:15,760

lowest moment in his life when he had

714

00:23:19,350 --> 00:23:17,919

his encounter um

715

00:23:22,789 --> 00:23:19,360

these are all interesting questions but

716

00:23:24,950 --> 00:23:22,799

we can't answer them without data so

717

00:23:26,390 --> 00:23:24,960

as well as listening to experiences who

718

00:23:27,590 --> 00:23:26,400

will no doubt submit their reports to

719

00:23:29,430 --> 00:23:27,600

public databases that will be

720

00:23:31,430 --> 00:23:29,440

incorporated we'll also be looking at

721

00:23:33,350 --> 00:23:31,440

all this other data to kind of put it

722

00:23:34,630 --> 00:23:33,360

all together and and see it reminds me a

723

00:23:36,710 --> 00:23:34,640

little of a rival

724

00:23:37,990 --> 00:23:36,720

again i always mention that but yeah

725

00:23:39,110 --> 00:23:38,000

literally in that film you know the

726

00:23:40,630 --> 00:23:39,120

visitors

727

00:23:43,110 --> 00:23:40,640

give different parts of a puzzle to

728

00:23:45,590 --> 00:23:43,120

different countries and even though that

729

00:23:47,430 --> 00:23:45,600

may not be happening in an you know

730

00:23:49,190 --> 00:23:47,440

intentional way

731

00:23:50,710 --> 00:23:49,200

like you say there's certainly an

732

00:23:52,149 --> 00:23:50,720

argument to be made that you know if

733

00:23:54,230 --> 00:23:52,159

russia's seeing a lot of triangles

734

00:23:56,230 --> 00:23:54,240

america's seeing sources and you know so

735

00:23:58,630 --> 00:23:56,240

on so forth that that could kind of come

736

00:24:00,230 --> 00:23:58,640

up in the data and we get to put that

737

00:24:01,990 --> 00:24:00,240

together and have a good idea of what

738

00:24:03,990 --> 00:24:02,000

the puzzle is instead of just trying to

739

00:24:06,070 --> 00:24:04,000

put the puzzle together face down where

740

00:24:07,750 --> 00:24:06,080

it's all just beige on the back you know

741

00:24:08,549 --> 00:24:07,760

any more from the nasa announcement from

742

00:24:10,710 --> 00:24:08,559

you

743

00:24:11,909 --> 00:24:10,720

um i mean that's about it but just they

744

00:24:15,350 --> 00:24:11,919

they finished up by talking about the

745

00:24:18,070 --> 00:24:15,360

james webb um that's on july 12th that's

746

00:24:20,149 --> 00:24:18,080

going to be showing its first images and

747

00:24:22,549 --> 00:24:20,159

they just pointed out that they're doing

748

00:24:25,029 --> 00:24:22,559

work to look at habitat habitable

749

00:24:26,789 --> 00:24:25,039

exoplanets and as well as that james

750

00:24:28,630 --> 00:24:26,799

webb will analyze the biosignatures and

751  
00:24:30,470 --> 00:24:28,640  
atmospheres of other planets so it could

752  
00:24:32,630 --> 00:24:30,480  
spot oxygen carbon dioxide in the

753  
00:24:34,950 --> 00:24:32,640  
atmosphere and that suggests essentially

754  
00:24:37,029 --> 00:24:34,960  
that it supports life um or sports

755  
00:24:39,350 --> 00:24:37,039  
plants and animals like ours does there

756  
00:24:41,029 --> 00:24:39,360  
are very specific signatures that show

757  
00:24:43,990 --> 00:24:41,039  
up in infrared with crops and things

758  
00:24:45,669 --> 00:24:44,000  
like that so we can start looking uh

759  
00:24:47,430 --> 00:24:45,679  
other planets for things like that so

760  
00:24:49,590 --> 00:24:47,440  
it's a very exciting time

761  
00:24:52,070 --> 00:24:49,600  
yeah and just having a glance over the

762  
00:24:53,750 --> 00:24:52,080  
discord channel and twitter and seeing

763  
00:24:56,390 --> 00:24:53,760

what some of the commentators like gaddy

764

00:24:58,470 --> 00:24:56,400

schwartz just you know officially nasa

765

00:25:00,230 --> 00:24:58,480

is wading into the world of uaps big

766

00:25:03,110 --> 00:25:00,240

takeaways for gaddy is like we have

767

00:25:04,710 --> 00:25:03,120

discussed that the nasa sees uap as a

768

00:25:06,549 --> 00:25:04,720

phenomenon they don't understand and

769

00:25:08,310 --> 00:25:06,559

they want more data the second biggest

770

00:25:10,549 --> 00:25:08,320

takeaway for gaddy was the budget being

771

00:25:12,149 --> 00:25:10,559

less than 100k um

772

00:25:14,310 --> 00:25:12,159

but the focus tends to be pretty

773

00:25:15,990 --> 00:25:14,320

positive the language used was positive

774

00:25:17,909 --> 00:25:16,000

it's very much aspirational which is

775

00:25:19,430 --> 00:25:17,919

what we were hoping for you know if

776

00:25:20,789 --> 00:25:19,440

again we've talked about this before dan

777

00:25:24,070 --> 00:25:20,799

where people complain about the lack of

778

00:25:25,510 --> 00:25:24,080

activity and not a lot going on um one

779

00:25:27,430 --> 00:25:25,520

of our own colleagues who will remain

780

00:25:28,789 --> 00:25:27,440

nameless but he'll know who he is vinnie

781

00:25:30,549 --> 00:25:28,799

talked about how things seem to have

782

00:25:32,549 --> 00:25:30,559

been quiet on the ufo front and i was

783

00:25:34,390 --> 00:25:32,559

like i don't think they have been like

784

00:25:36,149 --> 00:25:34,400

if you if you look

785

00:25:38,549 --> 00:25:36,159

back through the last six months there's

786

00:25:40,630 --> 00:25:38,559

been an incredible amount happen yeah

787

00:25:41,669 --> 00:25:40,640

and again this is just another thing

788

00:25:43,590 --> 00:25:41,679

wherein

789

00:25:45,430 --> 00:25:43,600

you've got nasa involved with adherings

790

00:25:47,029 --> 00:25:45,440

all in the last couple of weeks which if

791

00:25:48,070 --> 00:25:47,039

those happened over a decade you would

792

00:25:49,830 --> 00:25:48,080

have been talking about and shouting

793

00:25:51,750 --> 00:25:49,840

about them but it's happened in the

794

00:25:53,750 --> 00:25:51,760

space of a couple of weeks so

795

00:25:56,390 --> 00:25:53,760

yeah for me it's a really interesting

796

00:25:57,990 --> 00:25:56,400

time and i look forward to seeing

797

00:25:59,909 --> 00:25:58,000

the next steps and that they've said

798

00:26:01,990 --> 00:25:59,919

they'll be that public call at the end

799

00:26:03,590 --> 00:26:02,000

of the nine months as well where they'll

800

00:26:04,870 --> 00:26:03,600

come out and be transparent and give us

801  
00:26:06,870 --> 00:26:04,880  
officially what they've got and we can

802  
00:26:08,390 --> 00:26:06,880  
only hope that comes let me ask you one

803  
00:26:10,390 --> 00:26:08,400  
one thing on that dan before we move on

804  
00:26:12,549 --> 00:26:10,400  
to the to the stars announcement

805  
00:26:15,510 --> 00:26:12,559  
does this sway the ball back into nasa's

806  
00:26:17,909 --> 00:26:15,520  
court at all of nasa being the ones who

807  
00:26:19,909 --> 00:26:17,919  
come out and say we have found something

808  
00:26:21,110 --> 00:26:19,919  
as being more likely now than it was we

809  
00:26:22,549 --> 00:26:21,120  
always kind of thought nasa might be

810  
00:26:24,230 --> 00:26:22,559  
that organization but then with the

811  
00:26:26,630 --> 00:26:24,240  
government being more involved and the

812  
00:26:28,390 --> 00:26:26,640  
galileo project and others

813  
00:26:30,870 --> 00:26:28,400

of nasa got themselves back in the game

814

00:26:32,310 --> 00:26:30,880

a bit more here i'd say so i mean who

815

00:26:33,590 --> 00:26:32,320

are people going to believe joe biden

816

00:26:34,950 --> 00:26:33,600

kind of standing on the stage saying

817

00:26:37,190 --> 00:26:34,960

we've checked all the data and it's

818

00:26:39,029 --> 00:26:37,200

definitely aliens versus

819

00:26:40,470 --> 00:26:39,039

a bunch of scientists going through that

820

00:26:42,710 --> 00:26:40,480

data and going look this is how we

821

00:26:44,390 --> 00:26:42,720

understand it and we are not alone i i

822

00:26:45,750 --> 00:26:44,400

would expect biden to follow up and give

823

00:26:47,029 --> 00:26:45,760

a rousing speech from the back of a

824

00:26:49,590 --> 00:26:47,039

truck to all the people no i'm kidding

825

00:26:51,269 --> 00:26:49,600

that's independence day but i i would

826

00:26:52,950 --> 00:26:51,279

expect some kind of follow-up from the

827

00:26:55,669 --> 00:26:52,960

leaders of the world making statements

828

00:26:57,269 --> 00:26:55,679

but initially it's going to come from

829

00:26:59,510 --> 00:26:57,279

the experts

830

00:27:02,950 --> 00:26:59,520

yeah just before we go on i just want to

831

00:27:04,789 --> 00:27:02,960

ask if if anybody just by chance happens

832

00:27:06,789 --> 00:27:04,799

to have a baby across those nine months

833

00:27:09,990 --> 00:27:06,799

let us know uh because that that's the

834

00:27:12,149 --> 00:27:10,000

that's the nasty uap baby

835

00:27:13,990 --> 00:27:12,159

think of names

836

00:27:15,430 --> 00:27:14,000

so and to finish off that was the big

837

00:27:16,870 --> 00:27:15,440

announcement the the second thing that

838

00:27:19,110 --> 00:27:16,880

happened at the same time and i checked

839

00:27:21,909 --> 00:27:19,120

this one out was two of the stars had uh

840

00:27:23,190 --> 00:27:21,919

a big announcement and this kicked off

841

00:27:25,430 --> 00:27:23,200

at the exact same time there was a

842

00:27:27,990 --> 00:27:25,440

webinar hosted by tom delong and jim

843

00:27:29,909 --> 00:27:28,000

semivan with lovely small video windows

844

00:27:32,630 --> 00:27:29,919

because they were presenting a slide

845

00:27:34,630 --> 00:27:32,640

deck from the beginning um

846

00:27:36,549 --> 00:27:34,640

i'm not going to lie from the offset

847

00:27:37,430 --> 00:27:36,559

tom's audio was poor and jumpy

848

00:27:38,950 --> 00:27:37,440

throughout he really should have

849

00:27:41,510 --> 00:27:38,960

disconnected and reconnected someone

850

00:27:43,350 --> 00:27:41,520

should have told him um they were a few

851  
00:27:45,990 --> 00:27:43,360  
minutes late which you know these things

852  
00:27:48,549 --> 00:27:46,000  
happen and i don't think tom necessarily

853  
00:27:50,549 --> 00:27:48,559  
knew what was on the slides because he

854  
00:27:52,310 --> 00:27:50,559  
forgot to move the slide on and i had

855  
00:27:53,909 --> 00:27:52,320  
already done part of the presentation

856  
00:27:55,990 --> 00:27:53,919  
and then was like oh yeah i've done that

857  
00:27:57,430 --> 00:27:56,000  
and then at one point said the next

858  
00:27:59,190 --> 00:27:57,440  
slide was really interesting and then it

859  
00:28:00,710 --> 00:27:59,200  
wasn't what i thought it was going to be

860  
00:28:01,990 --> 00:28:00,720  
and then he started doing that thing you

861  
00:28:04,230 --> 00:28:02,000  
know when you're really when you're

862  
00:28:06,549 --> 00:28:04,240  
really badly prepared in a presentation

863  
00:28:07,750 --> 00:28:06,559

at school and you start firing through

864

00:28:09,029 --> 00:28:07,760

slides really quickly that you're like

865

00:28:10,389 --> 00:28:09,039

oh i can't remember what i'm meant to

866

00:28:12,070 --> 00:28:10,399

say on that one or i thought there was

867

00:28:13,590 --> 00:28:12,080

something else he actually does that at

868

00:28:14,710 --> 00:28:13,600

one point as well

869

00:28:16,470 --> 00:28:14,720

tom does

870

00:28:18,149 --> 00:28:16,480

most of the talking in this jim simovan

871

00:28:20,710 --> 00:28:18,159

comes in now and again i'm really

872

00:28:23,029 --> 00:28:20,720

interesting guys jim zimmerman too um

873

00:28:24,630 --> 00:28:23,039

they they kicked off with tom giving his

874

00:28:26,950 --> 00:28:24,640

background on creating the bands the

875

00:28:29,269 --> 00:28:26,960

companies it came across as a bit of a

876

00:28:31,750 --> 00:28:29,279

relaunch of two of the stars

877

00:28:33,909 --> 00:28:31,760

uh anyone who has to the stars on their

878

00:28:35,590 --> 00:28:33,919

mailing list will know they've got a new

879

00:28:38,630 --> 00:28:35,600

um stock option going out they're

880

00:28:40,549 --> 00:28:38,640

looking for further investment um

881

00:28:43,350 --> 00:28:40,559

i've had a lot of those emails from them

882

00:28:45,190 --> 00:28:43,360

and this was very much met with

883

00:28:47,190 --> 00:28:45,200

well actually i got another one of those

884

00:28:49,830 --> 00:28:47,200

emails to remind me i can invest about

885

00:28:52,310 --> 00:28:49,840

half an hour before the webinar started

886

00:28:54,149 --> 00:28:52,320

as well so this was very much uh we want

887

00:28:55,990 --> 00:28:54,159

you to invest and here's why so we got a

888

00:28:58,549 --> 00:28:56,000

lot of background on

889

00:29:00,549 --> 00:28:58,559

what to the stars academy achieved

890

00:29:03,110 --> 00:29:00,559

essentially with the the launch with

891

00:29:04,549 --> 00:29:03,120

getting jim and tom together hal put off

892

00:29:06,950 --> 00:29:04,559

coming on board they then talked about

893

00:29:08,470 --> 00:29:06,960

the advisory board which came in and to

894

00:29:10,549 --> 00:29:08,480

play a couple years ago with chris

895

00:29:12,549 --> 00:29:10,559

mellen louis ondo and a whole host of

896

00:29:14,630 --> 00:29:12,559

others they talked about the you know

897

00:29:17,029 --> 00:29:14,640

secret machines books chasing shadows

898

00:29:18,950 --> 00:29:17,039

books paul anderson the media side of

899

00:29:20,470 --> 00:29:18,960

things can can i ask but i'm gonna ask

900

00:29:21,590 --> 00:29:20,480

me asking you questions this time yeah

901  
00:29:22,789 --> 00:29:21,600  
you were watching this while i was

902  
00:29:24,710 --> 00:29:22,799  
watching the other one

903  
00:29:26,230 --> 00:29:24,720  
did they mention about uh secret

904  
00:29:33,110 --> 00:29:26,240  
machines book three of either series

905  
00:29:36,310 --> 00:29:34,870  
say that again dan because you you i

906  
00:29:37,750 --> 00:29:36,320  
heard you say did they mention then you

907  
00:29:39,029 --> 00:29:37,760  
cut up for a second so we'll edit that

908  
00:29:41,669 --> 00:29:39,039  
little bit

909  
00:29:44,710 --> 00:29:41,679  
did they mention whether secret machines

910  
00:29:46,630 --> 00:29:44,720  
three or gods uh man and war uh the

911  
00:29:48,230 --> 00:29:46,640  
third the third book in those series if

912  
00:29:51,830 --> 00:29:48,240  
they'd be released soon

913  
00:29:54,549 --> 00:29:51,840

so dan what tom done several times

914

00:29:56,070 --> 00:29:54,559

throughout this presentation and ask for

915

00:29:57,510 --> 00:29:56,080

money was tell us that things were

916

00:29:58,549 --> 00:29:57,520

coming soon but i'll tell you in a few

917

00:30:00,389 --> 00:29:58,559

weeks

918

00:30:01,510 --> 00:30:00,399

almost like this should have waited a

919

00:30:03,110 --> 00:30:01,520

few weeks

920

00:30:05,269 --> 00:30:03,120

and they could have done this with lots

921

00:30:06,950 --> 00:30:05,279

more announcements it sounds like um

922

00:30:08,710 --> 00:30:06,960

there was a lot of that

923

00:30:10,470 --> 00:30:08,720

you know tom

924

00:30:12,149 --> 00:30:10,480

i suppose like myself he starts one

925

00:30:13,190 --> 00:30:12,159

sentence but then finishes with

926

00:30:14,870 --> 00:30:13,200

something totally different and then

927

00:30:16,470 --> 00:30:14,880

goes back to what he was saying and i

928

00:30:17,830 --> 00:30:16,480

really want to tell you this but i can't

929

00:30:18,870 --> 00:30:17,840

but yeah that'll come in a few weeks but

930

00:30:20,549 --> 00:30:18,880

that's really interesting it's gonna be

931

00:30:22,549 --> 00:30:20,559

amazing there was a lot of that but

932

00:30:25,110 --> 00:30:22,559

anyway back to what i was saying before

933

00:30:26,870 --> 00:30:25,120

and there was a lot of just you know tom

934

00:30:28,149 --> 00:30:26,880

talking off the cuff

935

00:30:29,909 --> 00:30:28,159

um

936

00:30:31,430 --> 00:30:29,919

they they start the presentation he

937

00:30:35,190 --> 00:30:31,440

talks about like i said advisory board

938

00:30:37,190 --> 00:30:35,200

he tom says we are not a ufo company

939

00:30:38,149 --> 00:30:37,200

i would i would just mention back to tom

940

00:30:40,070 --> 00:30:38,159

they said they would make an

941

00:30:41,590 --> 00:30:40,080

anti-gravity craft

942

00:30:44,549 --> 00:30:41,600

yeah yeah

943

00:30:46,710 --> 00:30:44,559

um he also said earlier on to quote that

944

00:30:48,630 --> 00:30:46,720

george lucas wasn't a star wars guy he

945

00:30:50,630 --> 00:30:48,640

also made indiana jones

946

00:30:53,750 --> 00:30:50,640

you know so don't pigeonhole to the

947

00:30:55,750 --> 00:30:53,760

stars as a ufo company and a ufo group

948

00:30:58,470 --> 00:30:55,760

again i would say that george lucas is

949

00:31:00,789 --> 00:30:58,480

best known for star wars but also star

950

00:31:02,950 --> 00:31:00,799

wars he made a massive hit and you know

951  
00:31:04,549 --> 00:31:02,960  
he made three massive hits back to back

952  
00:31:07,909 --> 00:31:04,559  
which allowed him to make those other

953  
00:31:10,230 --> 00:31:07,919  
movies and you know expand his universe

954  
00:31:13,029 --> 00:31:10,240  
i don't necessarily think given what

955  
00:31:14,789 --> 00:31:13,039  
tom's putting across here they have had

956  
00:31:16,950 --> 00:31:14,799  
that massive hit

957  
00:31:19,350 --> 00:31:16,960  
a lot of what they achieved they they

958  
00:31:21,029 --> 00:31:19,360  
achieved with the help of others and

959  
00:31:24,389 --> 00:31:21,039  
they mentioned an identified series you

960  
00:31:27,029 --> 00:31:24,399  
know chris melon lou and jim simavon

961  
00:31:29,350 --> 00:31:27,039  
help it off and and those those guys

962  
00:31:32,870 --> 00:31:29,360  
but this now very much seems like tom

963  
00:31:34,870 --> 00:31:32,880

and jim are heading up what

964

00:31:36,310 --> 00:31:34,880

tom says he wants to the stars to be the

965

00:31:37,590 --> 00:31:36,320

new disney

966

00:31:40,310 --> 00:31:37,600

and that's what a lot of this

967

00:31:43,430 --> 00:31:40,320

presentation then went on to to be

968

00:31:46,389 --> 00:31:44,789

i might be jumping ahead i was just

969

00:31:49,350 --> 00:31:46,399

gonna say did they did they allude to

970

00:31:50,149 --> 00:31:49,360

what they think their big hit might be

971

00:31:51,509 --> 00:31:50,159

yeah

972

00:31:53,669 --> 00:31:51,519

um

973

00:31:55,430 --> 00:31:53,679

he says they want to take and i'll i'll

974

00:31:57,350 --> 00:31:55,440

get to answering that because it was

975

00:31:59,590 --> 00:31:57,360

i've got the notes here and tom made a

976

00:32:02,230 --> 00:31:59,600

lot of points very quickly he says they

977

00:32:05,190 --> 00:32:02,240

want to take the story of the millennia

978

00:32:07,190 --> 00:32:05,200

and use that to launch the next disney

979

00:32:09,350 --> 00:32:07,200

it kept building to the this big

980

00:32:11,750 --> 00:32:09,360

announcement that was coming out and it

981

00:32:14,470 --> 00:32:11,760

very much moved away

982

00:32:17,350 --> 00:32:14,480

from that ufo focus to media being the

983

00:32:18,789 --> 00:32:17,360

ufo focus and the phrase that comes up

984

00:32:21,590 --> 00:32:18,799

and if someone out there can check for

985

00:32:23,590 --> 00:32:21,600

me if this is trademarked as uh informed

986

00:32:26,320 --> 00:32:23,600

science fiction

987

00:32:27,669 --> 00:32:26,330

that came up several times within the

988

00:32:30,389 --> 00:32:27,679

[Music]

989

00:32:32,230 --> 00:32:30,399

the presentation it's a strange thing

990

00:32:34,070 --> 00:32:32,240

because really science-y things like

991

00:32:35,430 --> 00:32:34,080

sci-fi are just called hard sci-fi

992

00:32:37,990 --> 00:32:35,440

there's already a term for them if you

993

00:32:39,990 --> 00:32:38,000

like your science-based sci-fi hard

994

00:32:42,230 --> 00:32:40,000

sci-fi is where you're at you know yeah

995

00:32:43,909 --> 00:32:42,240

i get that i get what he's i know you'll

996

00:32:45,750 --> 00:32:43,919

know this but i suppose what he's

997

00:32:47,750 --> 00:32:45,760

getting at is people talk about close

998

00:32:50,230 --> 00:32:47,760

encounters the third kind and the steven

999

00:32:52,310 --> 00:32:50,240

spielberg was given insider information

1000

00:32:53,430 --> 00:32:52,320

to help him make that as realistic as he

1001

00:32:55,269 --> 00:32:53,440

did

1002

00:32:57,029 --> 00:32:55,279

again louis lozando himself said it's

1003

00:32:58,230 --> 00:32:57,039

his favorite movie given the movement of

1004

00:33:01,269 --> 00:32:58,240

the craft some of the things that

1005

00:33:02,710 --> 00:33:01,279

happened etc etc right in terms of ufos

1006

00:33:04,710 --> 00:33:02,720

tom's obviously getting out and he

1007

00:33:07,029 --> 00:33:04,720

mentions a few times you know you've got

1008

00:33:09,509 --> 00:33:07,039

people like hal um the people he's been

1009

00:33:11,590 --> 00:33:09,519

involved with people at jim semivan they

1010

00:33:13,590 --> 00:33:11,600

are coming from a place of knowledge and

1011

00:33:15,509 --> 00:33:13,600

they're putting that into the media side

1012

00:33:18,710 --> 00:33:15,519

of things and it's going to be that

1013

00:33:20,230 --> 00:33:18,720

disney but for informed science fiction

1014

00:33:22,389 --> 00:33:20,240

so this is where the

1015

00:33:25,110 --> 00:33:22,399

future generations

1016

00:33:26,470 --> 00:33:25,120

are going to be able to see you know

1017

00:33:28,310 --> 00:33:26,480

you know about the paranormal you know

1018

00:33:30,230 --> 00:33:28,320

about ufos you know about cryptids you

1019

00:33:31,590 --> 00:33:30,240

know about bigfoot you know about all

1020

00:33:34,549 --> 00:33:31,600

these different

1021

00:33:35,909 --> 00:33:34,559

mysteries but actually

1022

00:33:37,269 --> 00:33:35,919

the people who know more about them

1023

00:33:38,950 --> 00:33:37,279

aren't going to tell you but what we can

1024

00:33:41,430 --> 00:33:38,960

do is show you through

1025

00:33:43,430 --> 00:33:41,440

opening up your imagination and that's

1026

00:33:44,950 --> 00:33:43,440

where monsters and actually it's not

1027

00:33:46,870 --> 00:33:44,960

meant to be monsters and cali this is

1028

00:33:48,630 --> 00:33:46,880

where tom says and i'm delighted to show

1029

00:33:50,230 --> 00:33:48,640

you this big announcement uh and this is

1030

00:33:51,750 --> 00:33:50,240

what i've got you here for today to

1031

00:33:54,070 --> 00:33:51,760

which he then goes to the next slide

1032

00:33:55,990 --> 00:33:54,080

which is monsters in california

1033

00:33:57,590 --> 00:33:56,000

he then goes ah wait no that's not the

1034

00:33:59,830 --> 00:33:57,600

big announcement

1035

00:34:02,789 --> 00:33:59,840

i thought this was after um but anyway

1036

00:34:05,509 --> 00:34:02,799

yeah and so not steve jobs then no

1037

00:34:07,190 --> 00:34:05,519

definitely not um

1038

00:34:09,750 --> 00:34:07,200

monsters in california he confirms he's

1039

00:34:12,310 --> 00:34:09,760

coming out um august september time

1040

00:34:14,950 --> 00:34:12,320

he hypes up i've said i'm really looking

1041

00:34:18,149 --> 00:34:14,960

forward to this i told you i stan

1042

00:34:19,430 --> 00:34:18,159

he mentions that um and tom's a good

1043

00:34:21,829 --> 00:34:19,440

salesman

1044

00:34:23,669 --> 00:34:21,839

he he hypes stuff up you know people who

1045

00:34:25,030 --> 00:34:23,679

hate hype want like some of the chat

1046

00:34:27,829 --> 00:34:25,040

going on here but i get what he's

1047

00:34:30,149 --> 00:34:27,839

getting at um he mentions that lots of

1048

00:34:31,669 --> 00:34:30,159

distributors wanted to distribute this

1049

00:34:33,750 --> 00:34:31,679

and as soon as they dropped the trailer

1050

00:34:35,430 --> 00:34:33,760

for it it was made independently as soon

1051

00:34:37,510 --> 00:34:35,440

as they dropped the trailer for it he he

1052

00:34:39,589 --> 00:34:37,520

done the tom thing of and if you've had

1053

00:34:41,990 --> 00:34:39,599

any tommed along ufo interviews you know

1054

00:34:44,069 --> 00:34:42,000

this will sound familiar that we had um

1055

00:34:46,230 --> 00:34:44,079

uh so many distributors like one really

1056

00:34:47,750 --> 00:34:46,240

big one i can't say who that is and it

1057

00:34:49,430 --> 00:34:47,760

was like there was a lot of that but

1058

00:34:51,109 --> 00:34:49,440

they all wanted to throw money at him

1059

00:34:53,909 --> 00:34:51,119

off the back of the trailer which i hope

1060

00:34:56,149 --> 00:34:53,919

they did um to to get this out in the

1061

00:34:57,910 --> 00:34:56,159

biggest way possible he says they are

1062

00:34:59,349 --> 00:34:57,920

taking that offer they've been given to

1063

00:35:01,109 --> 00:34:59,359

other distributors and asking if they

1064

00:35:03,190 --> 00:35:01,119

can match or beat it you know blah blah

1065

00:35:05,109 --> 00:35:03,200

blah but the idea is to get people's

1066

00:35:06,630 --> 00:35:05,119

imaginations going that paranormal isn't

1067

00:35:09,750 --> 00:35:06,640

fiction is real

1068

00:35:11,670 --> 00:35:09,760

and tom hopes to have that settled soon

1069

00:35:13,349 --> 00:35:11,680

that monsters in cali comes out in the

1070

00:35:14,470 --> 00:35:13,359

biggest way possible and i hope it does

1071

00:35:15,510 --> 00:35:14,480

because i'm really looking forward to

1072

00:35:17,670 --> 00:35:15,520

seeing it

1073

00:35:19,270 --> 00:35:17,680

i would love to go to a cinema to see it

1074

00:35:20,950 --> 00:35:19,280

i don't necessarily think that's going

1075

00:35:22,230 --> 00:35:20,960

to end up happening though i don't know

1076  
00:35:24,230 --> 00:35:22,240  
about you though i mean the landscape

1077  
00:35:26,310 --> 00:35:24,240  
has changed a lot uh yeah during during

1078  
00:35:28,150 --> 00:35:26,320  
the pandemic and there's a lot bigger

1079  
00:35:30,390 --> 00:35:28,160  
movies that now don't even get a look

1080  
00:35:31,829 --> 00:35:30,400  
yeah exactly so i wouldn't imagine this

1081  
00:35:33,190 --> 00:35:31,839  
will but it would be cool if it does

1082  
00:35:35,349 --> 00:35:33,200  
even if they were just you know a

1083  
00:35:37,430 --> 00:35:35,359  
limited run yeah limited run some some

1084  
00:35:38,630 --> 00:35:37,440  
small independent cinemas kind of run it

1085  
00:35:39,990 --> 00:35:38,640  
it would be really cool to kind of see

1086  
00:35:41,109 --> 00:35:40,000  
that there

1087  
00:35:45,030 --> 00:35:41,119  
what

1088  
00:35:46,470 --> 00:35:45,040

transpired for me for the rest of the

1089

00:35:48,550 --> 00:35:46,480

rest of the slides and the rest of the

1090

00:35:50,630 --> 00:35:48,560

conversation is a bit like you've

1091

00:35:52,069 --> 00:35:50,640

mentioned i've done that

1092

00:35:53,589 --> 00:35:52,079

to the stars

1093

00:35:56,150 --> 00:35:53,599

speaking

1094

00:35:59,190 --> 00:35:56,160

it's still a relatively small company

1095

00:36:01,270 --> 00:35:59,200

tom has ideas to make it the new disney

1096

00:36:02,390 --> 00:36:01,280

and this kept coming across he mentions

1097

00:36:05,349 --> 00:36:02,400

the big announcement right let me say

1098

00:36:07,430 --> 00:36:05,359

this first that legendary films who made

1099

00:36:09,829 --> 00:36:07,440

you know uh the batman movies with chris

1100

00:36:11,510 --> 00:36:09,839

nolan anders stellar

1101  
00:36:13,109 --> 00:36:11,520  
yeah a load of really big names you'll

1102  
00:36:15,349 --> 00:36:13,119  
know the legendary logo if you if you

1103  
00:36:16,870 --> 00:36:15,359  
look it up um they have

1104  
00:36:19,829 --> 00:36:16,880  
taken on the option for the secret

1105  
00:36:22,230 --> 00:36:19,839  
machines films which is fantastic i

1106  
00:36:24,310 --> 00:36:22,240  
really look forward to that i i actually

1107  
00:36:27,109 --> 00:36:24,320  
have not spoken it's not films

1108  
00:36:29,670 --> 00:36:27,119  
uh it's tom wants it to be a series like

1109  
00:36:31,270 --> 00:36:29,680  
game of thrones rather than that in

1110  
00:36:33,030 --> 00:36:31,280  
movies he sees it as being a hundred

1111  
00:36:34,790 --> 00:36:33,040  
million dollars a season he wants a

1112  
00:36:36,390 --> 00:36:34,800  
discipline in the ending

1113  
00:36:37,910 --> 00:36:36,400

well yeah

1114

00:36:40,630 --> 00:36:37,920

wasn't a game of thrones fan myself i'll

1115

00:36:42,870 --> 00:36:40,640

get abused for that um but yeah i i

1116

00:36:44,150 --> 00:36:42,880

would love to see that as well tom seems

1117

00:36:46,230 --> 00:36:44,160

to be so

1118

00:36:47,990 --> 00:36:46,240

forward thinking of you know we want to

1119

00:36:49,510 --> 00:36:48,000

be so far down the line with this and

1120

00:36:50,870 --> 00:36:49,520

that's a wonderful goal to have and

1121

00:36:52,550 --> 00:36:50,880

wonderful vision

1122

00:36:54,390 --> 00:36:52,560

i don't know if all those stops along

1123

00:36:55,910 --> 00:36:54,400

the way are unnecessarily there he

1124

00:36:57,750 --> 00:36:55,920

mentioned things like you know we want

1125

00:36:59,670 --> 00:36:57,760

this we want the books to be like the

1126  
00:37:02,150 --> 00:36:59,680  
next harry potter but then there's only

1127  
00:37:04,310 --> 00:37:02,160  
one harry potter tom says he mentions

1128  
00:37:05,829 --> 00:37:04,320  
that the maze runner series he plucks

1129  
00:37:07,510 --> 00:37:05,839  
some statistics off the top of his head

1130  
00:37:09,510 --> 00:37:07,520  
which i don't know how right they are

1131  
00:37:11,430 --> 00:37:09,520  
but he says that maze runner had like

1132  
00:37:12,870 --> 00:37:11,440  
300 000 books sold and then once they

1133  
00:37:15,349 --> 00:37:12,880  
were made into movies and more smash

1134  
00:37:16,790 --> 00:37:15,359  
hits they sold 15 million books so

1135  
00:37:18,790 --> 00:37:16,800  
that's the impact that a really good

1136  
00:37:21,349 --> 00:37:18,800  
movie can have and again he brought up

1137  
00:37:24,069 --> 00:37:21,359  
you know this informed science fiction

1138  
00:37:24,950 --> 00:37:24,079

buying pulling in that next generation

1139

00:37:26,950 --> 00:37:24,960

um

1140

00:37:28,870 --> 00:37:26,960

and that you know again the new disney

1141

00:37:31,430 --> 00:37:28,880

he wants this to be the new disney plus

1142

00:37:34,150 --> 00:37:31,440

but for all that type of film that type

1143

00:37:35,030 --> 00:37:34,160

of content the book side of it the tv

1144

00:37:37,030 --> 00:37:35,040

shows

1145

00:37:38,790 --> 00:37:37,040

very much creating his own ips on

1146

00:37:40,230 --> 00:37:38,800

intellectual property

1147

00:37:42,069 --> 00:37:40,240

that was brought up quite a lot from

1148

00:37:43,510 --> 00:37:42,079

that point onwards and they want to make

1149

00:37:44,550 --> 00:37:43,520

it on the road

1150

00:37:46,390 --> 00:37:44,560

this week

1151

00:37:48,630 --> 00:37:46,400

yeah yeah i know you have i know as soon

1152

00:37:51,270 --> 00:37:48,640

as i heard that um but they want to make

1153

00:37:54,790 --> 00:37:51,280

their own stuff so it's theirs to

1154

00:37:56,390 --> 00:37:54,800

protect it legally you know

1155

00:37:57,910 --> 00:37:56,400

but then

1156

00:37:59,589 --> 00:37:57,920

they can get the biggest bang for their

1157

00:38:01,430 --> 00:37:59,599

buck and also more control over it from

1158

00:38:03,190 --> 00:38:01,440

that point of view as well he mentioned

1159

00:38:04,470 --> 00:38:03,200

that other distributors wanted monsters

1160

00:38:06,870 --> 00:38:04,480

in california

1161

00:38:08,710 --> 00:38:06,880

before it was made but they wanted too

1162

00:38:10,230 --> 00:38:08,720

much control over it in terms of casting

1163

00:38:11,990 --> 00:38:10,240

and the story and everything else and i

1164

00:38:13,270 --> 00:38:12,000

can appreciate that

1165

00:38:15,829 --> 00:38:13,280

randall nicholson spoke about that with

1166

00:38:17,430 --> 00:38:15,839

ariel then he wanted to kind of inject

1167

00:38:18,790 --> 00:38:17,440

some big stars into it and it would have

1168

00:38:20,630 --> 00:38:18,800

really kind of

1169

00:38:22,790 --> 00:38:20,640

you know diminished the the result i

1170

00:38:24,790 --> 00:38:22,800

think i think him finishing it and

1171

00:38:26,230 --> 00:38:24,800

getting it out um in the form it is i

1172

00:38:27,750 --> 00:38:26,240

think is the perfect way to do it you do

1173

00:38:29,670 --> 00:38:27,760

it on your terms and then if they want

1174

00:38:31,510 --> 00:38:29,680

to show it they show it as it is

1175

00:38:32,870 --> 00:38:31,520

yeah and to kind of wrap up a little bit

1176

00:38:33,990 --> 00:38:32,880

on that there wasn't too much more

1177

00:38:35,430 --> 00:38:34,000

essentially that was the big

1178

00:38:37,829 --> 00:38:35,440

announcement which

1179

00:38:39,910 --> 00:38:37,839

mildly disappointing in terms of ah so

1180

00:38:42,390 --> 00:38:39,920

you are very much getting away from any

1181

00:38:44,310 --> 00:38:42,400

of the sciency side of things oh there

1182

00:38:46,630 --> 00:38:44,320

is a little bit on that i'll get to that

1183

00:38:47,990 --> 00:38:46,640

um

1184

00:38:49,910 --> 00:38:48,000

i just want to emphasize this is an

1185

00:38:51,510 --> 00:38:49,920

option as well it's weird to me that

1186

00:38:53,510 --> 00:38:51,520

he's announced this because scripts are

1187

00:38:55,589 --> 00:38:53,520

optioned all the time and it doesn't go

1188

00:38:57,589 --> 00:38:55,599

anywhere so i would have preferred he

1189

00:38:59,990 --> 00:38:57,599

wait until production was started or

1190

00:39:01,750 --> 00:39:00,000

something uh before he announced it but

1191

00:39:03,190 --> 00:39:01,760

yeah it's happened yeah there was no

1192

00:39:05,270 --> 00:39:03,200

production or anything like that very

1193

00:39:07,190 --> 00:39:05,280

much like it but hopefully it goes ahead

1194

00:39:09,109 --> 00:39:07,200

he mentioned his next directorial effort

1195

00:39:11,589 --> 00:39:09,119

will be announced to the coming weeks he

1196

00:39:13,589 --> 00:39:11,599

mentioned a port anderson announcement

1197

00:39:15,030 --> 00:39:13,599

in the coming weeks he mentioned other

1198

00:39:17,270 --> 00:39:15,040

announcements will be coming in the

1199

00:39:18,790 --> 00:39:17,280

coming weeks i i can imagine tom saw

1200

00:39:20,230 --> 00:39:18,800

doctor strange too heard the term

1201  
00:39:22,230 --> 00:39:20,240  
dreamwalker mentioned and just thought

1202  
00:39:24,470 --> 00:39:22,240  
yeah let's get on poe anderson again

1203  
00:39:26,950 --> 00:39:24,480  
yeah there was there was a lot of i

1204  
00:39:29,829 --> 00:39:26,960  
can't tell you what's coming yet but x

1205  
00:39:32,630 --> 00:39:29,839  
and y is coming down the line um i got

1206  
00:39:34,310 --> 00:39:32,640  
the sense that he saw that disney's

1207  
00:39:36,390 --> 00:39:34,320  
popular harry potter's popular game of

1208  
00:39:38,150 --> 00:39:36,400  
thrones is popular we should do that but

1209  
00:39:39,349 --> 00:39:38,160  
with our content

1210  
00:39:42,069 --> 00:39:39,359  
absolutely

1211  
00:39:42,870 --> 00:39:42,079  
but dan joe rogan's popular i want to do

1212  
00:39:43,829 --> 00:39:42,880  
that

1213  
00:39:45,910 --> 00:39:43,839

cool

1214

00:39:48,710 --> 00:39:45,920

getting there something different and i

1215

00:39:51,589 --> 00:39:48,720

think that's and but i hope tom delong

1216

00:39:53,430 --> 00:39:51,599

realizes that dream because i think this

1217

00:39:55,910 --> 00:39:53,440

content essentially can ultimately

1218

00:39:57,829 --> 00:39:55,920

benefit the ufo subject and that the

1219

00:39:58,870 --> 00:39:57,839

whole world of paranormal cryptids

1220

00:40:00,550 --> 00:39:58,880

ghosts

1221

00:40:03,109 --> 00:40:00,560

skin walker ranch style you know

1222

00:40:05,270 --> 00:40:03,119

activity um

1223

00:40:08,309 --> 00:40:05,280

yeah i hope it happens even in some

1224

00:40:10,150 --> 00:40:08,319

small way i think baby steps first this

1225

00:40:12,069 --> 00:40:10,160

could have waited until after monsters

1226

00:40:14,710 --> 00:40:12,079

in california came out and let's see

1227

00:40:15,589 --> 00:40:14,720

what the impact of that is

1228

00:40:17,910 --> 00:40:15,599

um

1229

00:40:20,150 --> 00:40:17,920

but yeah it was very much oh okay that's

1230

00:40:21,990 --> 00:40:20,160

it it got to a q a which lasted a couple

1231

00:40:23,829 --> 00:40:22,000

of minutes questions were clearly

1232

00:40:25,510 --> 00:40:23,839

cherry-picked it was very much focusing

1233

00:40:27,589 --> 00:40:25,520

on investment and business-based

1234

00:40:30,150 --> 00:40:27,599

questions only one of any

1235

00:40:31,589 --> 00:40:30,160

real interest was are you moving away

1236

00:40:34,309 --> 00:40:31,599

totally from the science to being more

1237

00:40:36,790 --> 00:40:34,319

media and he mentioned the meta material

1238

00:40:39,910 --> 00:40:36,800

being analyzed still underneath about

1239

00:40:42,309 --> 00:40:39,920

the credit yeah um you know reported uh

1240

00:40:44,069 --> 00:40:42,319

from a crash in the 40s is meant to be

1241

00:40:45,990 --> 00:40:44,079

roswell isn't it like that's the the

1242

00:40:47,750 --> 00:40:46,000

idea this is the piece he didn't say but

1243

00:40:49,349 --> 00:40:47,760

i imagine that they bought from linda

1244

00:40:51,589 --> 00:40:49,359

moulton howe for what 25 thousand

1245

00:40:54,309 --> 00:40:51,599

dollars that was in the published um

1246

00:40:56,069 --> 00:40:54,319

accountant sheets um they mentioned it's

1247

00:40:57,670 --> 00:40:56,079

with the us army hands over to jim

1248

00:40:59,670 --> 00:40:57,680

cemevan who says

1249

00:41:02,309 --> 00:40:59,680

the crowd has a research agreement and

1250

00:41:04,870 --> 00:41:02,319

we have given them this material

1251

00:41:06,790 --> 00:41:04,880

de long says it's a very weird i said

1252

00:41:08,069 --> 00:41:06,800

it's a weird piece of metal a very weird

1253

00:41:09,910 --> 00:41:08,079

piece of metal

1254

00:41:11,589 --> 00:41:09,920

jim semivan says if the army finds

1255

00:41:14,470 --> 00:41:11,599

something interesting and this is where

1256

00:41:16,309 --> 00:41:14,480

it got a little bit muddy in terms of

1257

00:41:17,910 --> 00:41:16,319

the army might keep it and classify it

1258

00:41:19,430 --> 00:41:17,920

the army might keep it and make weapons

1259

00:41:21,030 --> 00:41:19,440

out of it the army might not be able to

1260

00:41:22,309 --> 00:41:21,040

do anything with it the army might be

1261

00:41:24,630 --> 00:41:22,319

able to do

1262

00:41:26,950 --> 00:41:24,640

50 or 60 percent of what they think it

1263

00:41:28,550 --> 00:41:26,960

might be or the army mate just gives it

1264

00:41:30,470 --> 00:41:28,560

back or the army might say we should

1265

00:41:32,710 --> 00:41:30,480

license it for public release and just

1266

00:41:33,990 --> 00:41:32,720

literally cover every possibility of

1267

00:41:35,430 --> 00:41:34,000

what's

1268

00:41:37,589 --> 00:41:35,440

at all right like stuff might happen

1269

00:41:39,109 --> 00:41:37,599

stuff might not happen cool

1270

00:41:40,550 --> 00:41:39,119

a stop shot of you know the army might

1271

00:41:42,390 --> 00:41:40,560

lose it under a table somewhere and we

1272

00:41:45,030 --> 00:41:42,400

don't ever find that again okay yeah

1273

00:41:46,550 --> 00:41:45,040

maybe but he covered all the scenarios

1274

00:41:48,710 --> 00:41:46,560

what i did take away from that though

1275

00:41:51,349 --> 00:41:48,720

with the meta material was don't expect

1276

00:41:52,870 --> 00:41:51,359

to hear anything anytime soon

1277

00:41:55,030 --> 00:41:52,880

it was very much it's going to take a

1278

00:41:57,190 --> 00:41:55,040

while but even then for me anything

1279

00:42:00,230 --> 00:41:57,200

substantial we're not hearing anything

1280

00:42:02,950 --> 00:42:00,240

anyways it sounds like

1281

00:42:04,950 --> 00:42:02,960

i i considered that gone

1282

00:42:06,230 --> 00:42:04,960

i mean they you hand something to the us

1283

00:42:07,270 --> 00:42:06,240

army it's gone they might still be

1284

00:42:09,270 --> 00:42:07,280

talking about it and they can have the

1285

00:42:11,190 --> 00:42:09,280

best hopes and i respect that but i i

1286

00:42:12,630 --> 00:42:11,200

consider that off the table now you have

1287

00:42:13,990 --> 00:42:12,640

your wonderful thing

1288

00:42:17,349 --> 00:42:14,000

yeah like that to any government

1289

00:42:19,750 --> 00:42:17,359

organization and it's gone you know yeah

1290

00:42:21,270 --> 00:42:19,760

i found this i found this box of uranium

1291

00:42:23,030 --> 00:42:21,280

somewhere can you keep it for me and

1292

00:42:24,550 --> 00:42:23,040

then check it it's legit and then give

1293

00:42:26,390 --> 00:42:24,560

me it back yeah we'll take it we're not

1294

00:42:28,710 --> 00:42:26,400

giving it back though

1295

00:42:29,990 --> 00:42:28,720

exactly exactly so i've got to wonder

1296

00:42:31,270 --> 00:42:30,000

what what we're going to get out of that

1297

00:42:33,589 --> 00:42:31,280

but again you know

1298

00:42:35,109 --> 00:42:33,599

we're going to start seeing nasa deal

1299

00:42:36,630 --> 00:42:35,119

with stuff like this part of the plan

1300

00:42:38,150 --> 00:42:36,640

they come up with after this initial

1301  
00:42:39,430 --> 00:42:38,160  
nine-month study might be hey there are

1302  
00:42:40,950 --> 00:42:39,440  
actually materials out there we should

1303  
00:42:43,829 --> 00:42:40,960  
be looking at these maybe this

1304  
00:42:45,349 --> 00:42:43,839  
organization can do that you know

1305  
00:42:47,349 --> 00:42:45,359  
ultimately for me this this was a

1306  
00:42:49,670 --> 00:42:47,359  
presentation to show people on the call

1307  
00:42:51,589 --> 00:42:49,680  
on this webinar we are asking for

1308  
00:42:53,349 --> 00:42:51,599  
further investment and the idea being

1309  
00:42:55,109 --> 00:42:53,359  
that if we can get

1310  
00:42:57,270 --> 00:42:55,119  
to where we want to be you will get a

1311  
00:42:58,550 --> 00:42:57,280  
return on that investment dan am i

1312  
00:43:00,870 --> 00:42:58,560  
writing saying that anyone who's

1313  
00:43:02,870 --> 00:43:00,880

invested so far into the stars had seen

1314

00:43:04,790 --> 00:43:02,880

has seen zero return

1315

00:43:06,069 --> 00:43:04,800

zero return yeah because they're not i

1316

00:43:07,270 --> 00:43:06,079

mean they're not shares in the

1317

00:43:08,790 --> 00:43:07,280

traditional sense they're not on the

1318

00:43:10,630 --> 00:43:08,800

stock market kind of going up and down

1319

00:43:12,069 --> 00:43:10,640

or anything like that they're just

1320

00:43:13,670 --> 00:43:12,079

you're investing in the company it's

1321

00:43:16,150 --> 00:43:13,680

better to think of it like kind of

1322

00:43:17,910 --> 00:43:16,160

crowdfunding than it is he did he did

1323

00:43:19,430 --> 00:43:17,920

bring that up that they want to make it

1324

00:43:21,270 --> 00:43:19,440

that you can buy and sell shares and

1325

00:43:22,710 --> 00:43:21,280

stuff but again for me it very much

1326

00:43:24,950 --> 00:43:22,720

needs they need to move on to that next

1327

00:43:26,390 --> 00:43:24,960

level of success which would be a big

1328

00:43:28,390 --> 00:43:26,400

hit movie and

1329

00:43:30,069 --> 00:43:28,400

the the books being picked up if you

1330

00:43:32,710 --> 00:43:30,079

know legendary pick up

1331

00:43:35,030 --> 00:43:32,720

the the series for secret machines

1332

00:43:36,470 --> 00:43:35,040

and they they they go on to netflix

1333

00:43:38,230 --> 00:43:36,480

potentially which is the chance that

1334

00:43:39,750 --> 00:43:38,240

could happen or amazon prime you know

1335

00:43:41,589 --> 00:43:39,760

with a lot of the ring series coming out

1336

00:43:42,630 --> 00:43:41,599

which is huge what billion dollar tv

1337

00:43:45,030 --> 00:43:42,640

series

1338

00:43:46,630 --> 00:43:45,040

do they they see something in that

1339

00:43:48,150 --> 00:43:46,640

because i love that arranged that amazon

1340

00:43:49,510 --> 00:43:48,160

prime done

1341

00:43:51,430 --> 00:43:49,520

this would take that so much further

1342

00:43:53,190 --> 00:43:51,440

down the line potentially so

1343

00:43:54,870 --> 00:43:53,200

there's a lot of potential something

1344

00:43:56,470 --> 00:43:54,880

about the monsters of california trailer

1345

00:43:57,670 --> 00:43:56,480

that reminded me and i know tony because

1346

00:43:59,030 --> 00:43:57,680

there was some jokes in it like people

1347

00:44:00,550 --> 00:43:59,040

will be like oh it's nothing like that

1348

00:44:01,990 --> 00:44:00,560

and yeah fine it's nothing like the vast

1349

00:44:04,230 --> 00:44:02,000

of night but

1350

00:44:06,150 --> 00:44:04,240

looks wise that's what it reminded me of

1351

00:44:08,150 --> 00:44:06,160

this kind of wistful look at the

1352

00:44:10,069 --> 00:44:08,160

paranormal and the you know the

1353

00:44:14,390 --> 00:44:10,079

phenomena as we know it with the wide

1354

00:44:18,230 --> 00:44:16,630

sure it's informed but is everything in

1355

00:44:19,510 --> 00:44:18,240

it informed and because we know what

1356

00:44:21,430 --> 00:44:19,520

people are like running with these small

1357

00:44:24,230 --> 00:44:21,440

tidbits and i wonder if

1358

00:44:25,829 --> 00:44:24,240

informed sci-fi in the way that they're

1359

00:44:27,589 --> 00:44:25,839

saying it could just serve to muddy the

1360

00:44:29,510 --> 00:44:27,599

waters further you know i kind of almost

1361

00:44:31,430 --> 00:44:29,520

want a little pop-up on screen saying

1362

00:44:32,710 --> 00:44:31,440

this was something jim semivan said or

1363

00:44:33,910 --> 00:44:32,720

you know something like that that'd be

1364

00:44:35,829 --> 00:44:33,920

great

1365

00:44:37,910 --> 00:44:35,839

so regarding the stock options i still

1366

00:44:41,030 --> 00:44:37,920

can't see personally a large uptake this

1367

00:44:42,630 --> 00:44:41,040

time at this moment um

1368

00:44:44,230 --> 00:44:42,640

it's odd timing given what they've

1369

00:44:45,829 --> 00:44:44,240

announced but then how much more they're

1370

00:44:47,829 --> 00:44:45,839

going to announce and they've got a

1371

00:44:50,309 --> 00:44:47,839

movie on the horizon so it's still very

1372

00:44:52,950 --> 00:44:50,319

much like things could get really good

1373

00:44:54,630 --> 00:44:52,960

the way i see to the stars right now

1374

00:44:56,390 --> 00:44:54,640

as someone who was a fan of the company

1375

00:44:58,230 --> 00:44:56,400

and still has a keen eye on it just

1376

00:44:59,510 --> 00:44:58,240

given what it could potentially i hope

1377

00:45:01,670 --> 00:44:59,520

you know as a bit of a romantic i

1378

00:45:03,349 --> 00:45:01,680

suppose like yourself then that it could

1379

00:45:05,829 --> 00:45:03,359

still really give us something in the

1380

00:45:08,230 --> 00:45:05,839

subject more than what it has already

1381

00:45:10,550 --> 00:45:08,240

it's a bit like a band that had its big

1382

00:45:12,230 --> 00:45:10,560

hits a while ago that you've kept an eye

1383

00:45:14,630 --> 00:45:12,240

on they've not really released you know

1384

00:45:16,230 --> 00:45:14,640

any new albums you're your lead singer's

1385

00:45:18,150 --> 00:45:16,240

gone and done some solo projects but

1386

00:45:19,349 --> 00:45:18,160

he's taking on the along

1387

00:45:20,470 --> 00:45:19,359

taking along the drummer with them as

1388

00:45:22,150 --> 00:45:20,480

well because he couldn't find a better

1389

00:45:22,950 --> 00:45:22,160

drummer um

1390

00:45:24,390 --> 00:45:22,960

and

1391

00:45:25,750 --> 00:45:24,400

they're looking for that big hit again

1392

00:45:27,430 --> 00:45:25,760

that's going to bring them back and they

1393

00:45:28,870 --> 00:45:27,440

could still have that but right now

1394

00:45:30,230 --> 00:45:28,880

they're not playing stadium shows and

1395

00:45:32,950 --> 00:45:30,240

that's where they want to be they're

1396

00:45:34,630 --> 00:45:32,960

still playing the city halls um

1397

00:45:36,790 --> 00:45:34,640

and that's when they'll see that big up

1398

00:45:38,470 --> 00:45:36,800

taking the stocks as well so yeah that

1399

00:45:40,710 --> 00:45:38,480

that was the the to the stars if you get

1400

00:45:42,870 --> 00:45:40,720

a chance to watch it folks um the the

1401

00:45:43,829 --> 00:45:42,880

link was sent out via email to people i

1402

00:45:46,069 --> 00:45:43,839

don't know if they're gonna put it

1403

00:45:48,390 --> 00:45:46,079

online uh check out to the stars website

1404

00:45:49,750 --> 00:45:48,400

if they don't i will so keep an eye on

1405

00:45:51,990 --> 00:45:49,760

my social feeds

1406

00:45:54,470 --> 00:45:52,000

yeah don't don't piss off dan this week

1407

00:45:58,950 --> 00:45:54,480

folks um he'll he'll he'll drop all your

1408

00:46:02,230 --> 00:46:00,950

on that uh this is being recorded on

1409

00:46:04,390 --> 00:46:02,240

thursday the 9th of june you'll be

1410

00:46:05,750 --> 00:46:04,400

listening to on thursday 9th friday 10th

1411

00:46:07,589 --> 00:46:05,760

or maybe even a little bit further into

1412

00:46:09,270 --> 00:46:07,599

the future or a whole lot further into

1413

00:46:11,109 --> 00:46:09,280

the future and this is all totally

1414

00:46:13,270 --> 00:46:11,119

irrelevant who knows thanks for

1415

00:46:15,510 --> 00:46:13,280

listening either way and what's still to

1416

00:46:17,829 --> 00:46:15,520

come uh dan tomorrow we are going to

1417

00:46:19,349 --> 00:46:17,839

record uh a little review of a

1418

00:46:21,030 --> 00:46:19,359

documentary because the two were done

1419

00:46:23,030 --> 00:46:21,040

last month that were both new releases

1420

00:46:24,309 --> 00:46:23,040

were really popular but loads of people

1421

00:46:26,069 --> 00:46:24,319

have always got in touch with us and

1422

00:46:27,430 --> 00:46:26,079

asked haven't they what documentaries do

1423

00:46:29,109 --> 00:46:27,440

you recommend you know what are good

1424

00:46:31,430 --> 00:46:29,119

ones what do you think why should i

1425

00:46:33,349 --> 00:46:31,440

watch it and and we're going to try when

1426

00:46:35,910 --> 00:46:33,359

there's nothing new out that month at

1427

00:46:37,510 --> 00:46:35,920

least to watch one other documentary an

1428

00:46:38,950 --> 00:46:37,520

older one and talk about it and

1429

00:46:41,030 --> 00:46:38,960

something we've discussed a few times

1430

00:46:43,190 --> 00:46:41,040

and people always ask for the link on it

1431

00:46:45,190 --> 00:46:43,200

as a little bit of a hidden gem is that

1432

00:46:47,270 --> 00:46:45,200

dan aykroyd and yes that's dan aykroyd

1433

00:46:48,870 --> 00:46:47,280

of ghostbusters fame and other movies

1434

00:46:52,069 --> 00:46:48,880

saturday night live and stuff like that

1435

00:46:54,950 --> 00:46:52,079

as well um dana dan aykroyd unplugged on

1436

00:46:57,910 --> 00:46:54,960

ufos it's completely free on youtube the

1437

00:46:59,349 --> 00:46:57,920

algorithm can be a bit messy to find it

1438

00:47:01,750 --> 00:46:59,359

i'll put the link for it in this

1439

00:47:03,510 --> 00:47:01,760

description but we are going to just do

1440

00:47:04,870 --> 00:47:03,520

a kind of review on it not that it's

1441

00:47:07,510 --> 00:47:04,880

going to be hours long maybe half an

1442

00:47:09,030 --> 00:47:07,520

hour 40 minutes 45 minutes and discuss

1443

00:47:10,870 --> 00:47:09,040

what we like about it

1444

00:47:12,069 --> 00:47:10,880

if people should watch it it's a

1445

00:47:13,670 --> 00:47:12,079

favorite of mine it was one of those

1446

00:47:16,390 --> 00:47:13,680

ones i watched a few years ago and was

1447

00:47:17,990 --> 00:47:16,400

like oh this is surprisingly good you

1448

00:47:19,589 --> 00:47:18,000

know i don't i don't really remember it

1449

00:47:21,829 --> 00:47:19,599

to be honest so i'll definitely watch it

1450

00:47:23,109 --> 00:47:21,839

again before we do the review but it's

1451  
00:47:24,790 --> 00:47:23,119  
not one of the ones that pops in my head

1452  
00:47:26,549 --> 00:47:24,800  
when i think of my top i've just seen so

1453  
00:47:27,670 --> 00:47:26,559  
much you know yeah that's that's kind of

1454  
00:47:28,710 --> 00:47:27,680  
one of the reasons that it's good that

1455  
00:47:29,990 --> 00:47:28,720  
we're doing this because we'll get a

1456  
00:47:32,069 --> 00:47:30,000  
refresh and

1457  
00:47:33,589 --> 00:47:32,079  
people when when they kind of you know

1458  
00:47:35,109 --> 00:47:33,599  
they bite onto this subject they're a

1459  
00:47:36,390 --> 00:47:35,119  
bit insatiable with all the information

1460  
00:47:37,990 --> 00:47:36,400  
they want to consume so it would be cool

1461  
00:47:40,470 --> 00:47:38,000  
to kind of separate the the wheat from

1462  
00:47:43,190 --> 00:47:40,480  
the chaff there 100 yeah so that'll be

1463  
00:47:45,750 --> 00:47:43,200

out on friday the 10th of june and then

1464

00:47:47,270 --> 00:47:45,760

on the friday the 10th uh in the evening

1465

00:47:49,109 --> 00:47:47,280

depending where you are night time

1466

00:47:52,390 --> 00:47:49,119

morning whatever it could be on the

1467

00:47:53,589 --> 00:47:52,400

youtube channel is the interview with

1468

00:47:55,030 --> 00:47:53,599

true

1469

00:47:57,349 --> 00:47:55,040

rooney

1470

00:47:59,430 --> 00:47:57,359

ronnie vernee yeah that's the one uh i

1471

00:48:01,589 --> 00:47:59,440

was thinking travis no that's next week

1472

00:48:03,430 --> 00:48:01,599

um yeah so ronnie verne brazilian

1473

00:48:05,430 --> 00:48:03,440

journalist and researcher who is

1474

00:48:07,349 --> 00:48:05,440

involved in the upcoming uep hearings in

1475

00:48:09,349 --> 00:48:07,359

brazil he joined me for a fascinating

1476

00:48:11,270 --> 00:48:09,359

conversation his own experiences

1477

00:48:13,349 --> 00:48:11,280

experiences are really interesting as

1478

00:48:15,750 --> 00:48:13,359

well and he tells us the lowdown on what

1479

00:48:18,069 --> 00:48:15,760

to expect in those upcoming hearings

1480

00:48:20,950 --> 00:48:18,079

and i just recorded uh this week with

1481

00:48:22,069 --> 00:48:20,960

travis taylor um skinwalker ranch and a

1482

00:48:23,589 --> 00:48:22,079

whole host of other shows and

1483

00:48:25,750 --> 00:48:23,599

documentaries really interesting

1484

00:48:27,430 --> 00:48:25,760

conversation um i really appreciated

1485

00:48:29,349 --> 00:48:27,440

travis's time on that one we covered a

1486

00:48:31,589 --> 00:48:29,359

lot of ground in a short period of time

1487

00:48:33,589 --> 00:48:31,599

as well that's already on patreon and

1488

00:48:35,510 --> 00:48:33,599

all that kind of jazz um but it's out

1489

00:48:37,829 --> 00:48:35,520

monday on the free feeds for everyone

1490

00:48:39,990 --> 00:48:37,839

the night after i recorded with travis i

1491

00:48:42,630 --> 00:48:40,000

recorded with steve mehra who is a you

1492

00:48:44,870 --> 00:48:42,640

know world famous it's fair to say ufo

1493

00:48:47,430 --> 00:48:44,880

uh investigator and researcher he also

1494

00:48:48,790 --> 00:48:47,440

owns and organizes the awakening expo

1495

00:48:50,710 --> 00:48:48,800

which is happening in blackpool in a

1496

00:48:53,109 --> 00:48:50,720

couple of weeks in england and we

1497

00:48:54,950 --> 00:48:53,119

recorded for about two hours 10 minutes

1498

00:48:56,470 --> 00:48:54,960

but again we covered a whole host of

1499

00:48:58,870 --> 00:48:56,480

subjects

1500

00:49:01,109 --> 00:48:58,880

right yeah he was really interested in

1501  
00:49:03,109 --> 00:49:01,119  
juno what fair play to him as well

1502  
00:49:04,710 --> 00:49:03,119  
because i

1503  
00:49:06,710 --> 00:49:04,720  
wanted to respectfully bring up some

1504  
00:49:09,589 --> 00:49:06,720  
issues i have with certain types of

1505  
00:49:11,510 --> 00:49:09,599  
expos and the characters involved and he

1506  
00:49:13,750 --> 00:49:11,520  
addressed them head-on and he was in

1507  
00:49:16,309 --> 00:49:13,760  
agreement with a lot of i think what

1508  
00:49:17,829 --> 00:49:16,319  
many of the listeners of this show have

1509  
00:49:19,349 --> 00:49:17,839  
in terms of what they would like to see

1510  
00:49:21,589 --> 00:49:19,359  
at these events and you know dan we

1511  
00:49:24,630 --> 00:49:21,599  
talked about that interesting crossover

1512  
00:49:26,630 --> 00:49:24,640  
between the science and i suppose let's

1513  
00:49:29,270 --> 00:49:26,640

just say the woo you know people talking

1514

00:49:31,190 --> 00:49:29,280

about the black knight satellites and

1515

00:49:32,870 --> 00:49:31,200

the pleiades and star seeds and all that

1516

00:49:34,150 --> 00:49:32,880

kind of stuff at events and where

1517

00:49:36,230 --> 00:49:34,160

where's that crossover where's that

1518

00:49:37,589 --> 00:49:36,240

happy ground where's that medium and it

1519

00:49:39,670 --> 00:49:37,599

was a really interesting chat we had

1520

00:49:41,109 --> 00:49:39,680

back and forward so again that'll be out

1521

00:49:45,190 --> 00:49:41,119

probably in two parts because it's so

1522

00:49:46,870 --> 00:49:45,200

long but from the 13th 20th uh 20th of

1523

00:49:47,829 --> 00:49:46,880

june that week leading up to awakening

1524

00:49:48,710 --> 00:49:47,839

but they'll both be out in the same

1525

00:49:50,309 --> 00:49:48,720

weekend

1526

00:49:52,069 --> 00:49:50,319

for anyone that kind of is curious about

1527

00:49:53,750 --> 00:49:52,079

steve's work i'd recommend just jump on

1528

00:49:55,990 --> 00:49:53,760

youtube and google project doorway

1529

00:49:58,150 --> 00:49:56,000

there's a presentation he did recently

1530

00:50:00,150 --> 00:49:58,160

where he goes into if you ever heard of

1531

00:50:03,349 --> 00:50:00,160

the the kind of associations between

1532

00:50:05,670 --> 00:50:03,359

magnetic anomalies and the geography of

1533

00:50:07,510 --> 00:50:05,680

a place uh where a sighting occurred

1534

00:50:10,630 --> 00:50:07,520

that's that's steve and his partner uh i

1535

00:50:12,309 --> 00:50:10,640

think barry um who do that presentation

1536

00:50:14,069 --> 00:50:12,319

and it's an awesome presentation you

1537

00:50:15,750 --> 00:50:14,079

know there's a nice

1538

00:50:18,069 --> 00:50:15,760

suggested correlation there that's

1539

00:50:19,190 --> 00:50:18,079

really intriguing um and so i'd

1540

00:50:20,630 --> 00:50:19,200

recommend that people just go watch it i

1541

00:50:22,150 --> 00:50:20,640

think it's about two hours but you know

1542

00:50:24,069 --> 00:50:22,160

he hits all the notes and you'll enjoy

1543

00:50:25,589 --> 00:50:24,079

it i'll put the link in the description

1544

00:50:27,589 --> 00:50:25,599

as well but yeah we touch on that

1545

00:50:29,589 --> 00:50:27,599

presentation and a whole host we we go

1546

00:50:31,670 --> 00:50:29,599

into a lot of ground and steve will be

1547

00:50:33,589 --> 00:50:31,680

back on it it was great to chat to so

1548

00:50:35,829 --> 00:50:33,599

but anyway i've rabbited on enough at

1549

00:50:36,870 --> 00:50:35,839

the end of this one folks dan thanks for

1550

00:50:39,190 --> 00:50:36,880

joining me

1551

00:50:42,470 --> 00:50:39,200

thank you it's uh it's been a great day

1552

00:50:44,470 --> 00:50:42,480

to kind of you know celebrate this nazis

1553

00:50:46,549 --> 00:50:44,480

yeah i'm going to head off and trademark

1554

00:50:48,309 --> 00:50:46,559

informed science fiction

1555

00:50:50,390 --> 00:50:48,319

any of you out there think about using

1556

00:50:51,670 --> 00:50:50,400

that anyway good speaking with you and

1557

00:50:53,829 --> 00:50:51,680

we'll speak soon

1558

00:50:55,750 --> 00:50:53,839

that is all for this week's show thank

1559

00:50:57,829 --> 00:50:55,760

you very much for listening please

1560

00:51:00,470 --> 00:50:57,839

remember to leave the podcaster review

1561

00:51:02,790 --> 00:51:00,480

on your chosen platform you can like

1562

00:51:04,710 --> 00:51:02,800

retweet and subscribe that would all be

1563

00:51:06,870 --> 00:51:04,720

very much appreciated the shows are

1564

00:51:08,390 --> 00:51:06,880

being uploaded onto youtube as we speak

1565

00:51:10,870 --> 00:51:08,400

more and more you can sign up at

1566

00:51:13,589 --> 00:51:10,880

patreon.com forward slash that ufo

1567

00:51:15,750 --> 00:51:13,599

podcast to access shows ad free as well

1568

00:51:18,630 --> 00:51:15,760

please get in touch on twitter facebook

1569

00:51:22,309 --> 00:51:18,640

instagram that ufo podcast of course on

1570

00:51:24,230 --> 00:51:22,319

twitter it's at ufo uap am and again

1571

00:51:26,900 --> 00:51:24,240

folks as always keep looking up you

1572

00:51:47,990 --> 00:51:26,910

never know what you might see

1573

00:51:48,000 --> 00:51:55,280

i don't think he expected

1574

00:51:55,290 --> 00:52:03,030

[Music]

1575

00:52:23,829 --> 00:52:04,870

i can't imagine how could've been any

1576  
00:52:35,510 --> 00:52:25,109  
there was something on my head and

1577  
00:52:35,520 --> 00:52:42,410  
scare

1578  
00:52:47,430 --> 00:52:45,030  
[Music]

1579  
00:52:57,730 --> 00:52:47,440  
want to know who me think it's you and

1580  
00:53:24,549 --> 00:53:02,230  
[Music]

1581  
00:53:32,549 --> 00:53:27,370  
what's that

1582  
00:53:34,470 --> 00:53:32,559  
[Music]

1583  
00:53:36,630 --> 00:53:34,480  
it wasn't a tic tac and not quite a

1584  
00:53:45,570 --> 00:53:36,640  
saucer

1585  
00:54:21,190 --> 00:54:07,720  
[Music]

1586  
00:54:26,710 --> 00:54:23,020  
thank you
