

CLIPS

TRAVIS TAYLOR

CHIEF SCIENTIST, UAP TASK FORCE

SKINWALKER RANCH

1  
00:00:05,269 --> 00:00:02,230  
you can't really look at the at a video

2  
00:00:07,430 --> 00:00:05,279  
by itself without doing very detailed

3  
00:00:09,990 --> 00:00:07,440  
analysis about every single frame in the

4  
00:00:12,709 --> 00:00:10,000  
video before you can say there's a

5  
00:00:15,509 --> 00:00:12,719  
really an anomalous thing here

6  
00:00:18,230 --> 00:00:15,519  
and you also can't throw out pieces of

7  
00:00:19,830 --> 00:00:18,240  
the video like the audio from the pilots

8  
00:00:22,790 --> 00:00:19,840  
like the uh

9  
00:00:25,269 --> 00:00:22,800  
the location of the thing like any other

10  
00:00:27,429 --> 00:00:25,279  
information that comes along with it uh

11  
00:00:28,950 --> 00:00:27,439  
you you can't throw that out and there

12  
00:00:31,269 --> 00:00:28,960  
are a lot of people that just ignore the

13  
00:00:32,790 --> 00:00:31,279

audio uh from the pilots they say well

14

00:00:34,950 --> 00:00:32,800

we're they're just pilots they don't

15

00:00:36,790 --> 00:00:34,960

know what they're saying or seeing and i

16

00:00:39,590 --> 00:00:36,800

think well that's you know

17

00:00:42,950 --> 00:00:39,600

we're paying these guys to sit behind a

18

00:00:44,630 --> 00:00:42,960

high-tech piece of uh war equipment and

19

00:00:45,910 --> 00:00:44,640

they got their finger on the trigger and

20

00:00:46,950 --> 00:00:45,920

each time they pull the trigger they're

21

00:00:48,470 --> 00:00:46,960

making a

22

00:00:51,830 --> 00:00:48,480

uh you know a

23

00:00:53,670 --> 00:00:51,840

a diplomacy a policy statement for

24

00:00:54,709 --> 00:00:53,680

whatever country they're they're doing

25

00:00:56,389 --> 00:00:54,719

that for

26

00:00:58,630 --> 00:00:56,399

and if we don't trust them to look at

27

00:00:59,590 --> 00:00:58,640

something and realize it's not a bird or

28

00:01:09,030 --> 00:00:59,600

a

29

00:01:13,109 --> 00:01:09,040

time

30

00:01:15,429 --> 00:01:13,119

um you do need to be uh have some

31

00:01:17,109 --> 00:01:15,439

healthy skepticism but let me tell you

32

00:01:20,789 --> 00:01:17,119

there's a difference in scientific

33

00:01:23,030 --> 00:01:20,799

skepticism and skepticism uh with a

34

00:01:24,950 --> 00:01:23,040

pre-planned agenda i mean if you start

35

00:01:26,789 --> 00:01:24,960

from the beginning saying the results of

36

00:01:28,469 --> 00:01:26,799

this is it's birds or it's a weather

37

00:01:29,830 --> 00:01:28,479

balloon then you're going to taint your

38

00:01:32,149 --> 00:01:29,840

your analysis

39

00:01:34,230 --> 00:01:32,159

uh the same way you also can't uh say

40

00:01:36,230 --> 00:01:34,240

i'm i'm sure this is a ufo and it's

41

00:01:37,270 --> 00:01:36,240

going to taint your analysis uh to get

42

00:01:38,710 --> 00:01:37,280

there you've got to look at it i don't

43

00:01:40,789 --> 00:01:38,720

know what this is i'm going to analysis

44

00:01:42,630 --> 00:01:40,799

and see what it tells me what it is and

45

00:01:44,870 --> 00:01:42,640

that's what you've got to do in this

46

00:01:47,190 --> 00:01:44,880

kind of situation i'll tell you this the

47

00:01:49,830 --> 00:01:47,200

the one video of the the three things

48

00:01:52,230 --> 00:01:49,840

the helicopter uh saw was very

49

00:01:53,429 --> 00:01:52,240

intriguing to me and with the pilots

50

00:01:55,350 --> 00:01:53,439

saying they thought they were moving as

51

00:01:56,950 --> 00:01:55,360

fast as f-16s

52

00:01:59,350 --> 00:01:56,960

really suggests
